

January 7, 2014

The **Executive Committee** of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, January 7, 2014 with President Carl Pierson presiding and Bonita Crawford and Mary Trammel present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Lamar Goree, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Crawley led the invocation and Pledge of Allegiance.

PRESENTATIONS

Ken Epperson, Caddo Parish Commissioner, District 12, thanked the CPSB for its participation in the Veterans Week Celebration, Col. Durr for the JROTC's participation in the activities, as well as the Caddo school bands. He highlighted the various events of this celebration that all four governmental entities entered into a cooperative agreement to make November 4-11, 2014 as this year's Veterans Celebration Week in Caddo and Bossier. Commissioner Epperson also presented a copy of the Joint Proclamation signed by all governmental entities to the Caddo Parish School Board. Mr. Epperson also announced that the Commission has signed the agreement for the purchase of the former General Motors facility, and \$7.5 million was given to the Caddo Industrial Development Board for this purchase and will lease the facility to Stuart Lichter with Industrial Realty Group with Elio Motors occupying 1/3 of the facility leaving 2/3 of the space to be developed by Stuart Lichter. He also announced that on Thursday, January 30th, 6:00 p.m. at the American Rose Center, he will hold his annual district informational meeting with special guests Paul Elio of Elio Motors and Stuart Lichter representatives.

President Carl Pierson presented to 2013 President Larry Ramsey an engraved clock in appreciation for his service as the Board President during 2013.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JANUARY 28, 2014 CPSB MEETING

Superintendent Goree presented items for the Board's consideration at the January 28, 2014 CPSB meeting and the following discussion ensued.

ADDITIONS

Reginald Abrams requested that an item be added to "Approve Addition of Keen Miller to Provide Legal Services". Mr. Abrams announced that Brian Carnie, Michael Lowe, and Price Barker currently provide services for employee-related matters, and they are leaving Cook, Yancy and Galloway to start the Shreveport Office of Keen Miller. They will continue to provide legal services at the same rate previously approved by the Board.

Mrs. Armstrong asked Mr. Abrams, relative to legal services, if Caddo will continue to use the services of Cook, Yancey, Galloway if the Board adds Keen Miller as a provider. Mr. Abrams apprised Mrs. Armstrong that other lawyers in the Cook, Yancey firm assist in Caddo Parish School Board legal matters.

Mrs. Bell asked if Board members will have an opportunity to present her requests later in the month. Mr. Hooks said he does not want to start off 2014 as he did 2013, but announced he will be bringing a motion to suspend the conversion of HR and the Payroll functions to the SunGard system and return to the Legacy System.

Mr. Riall announced that this item (SunGard) is currently in committee. Mr. Hooks asked did the Board not get something from the Audit, and Mr. Riall stated that this is currently in committee and the next meeting will be planned in the near future. Mr. Pierson stated that his preference is since this is in Committee, that the Board allow the committee to make a recommendation. Mr. Hooks agreed.

Mrs. Bell asked if she can ask questions to determine if she needs to bring an item for the Board's consideration, and Mr. Pierson said she can ask questions.

Rahmberg Stover and Associates. Ms. Trammel asked how is it determined that there is a need to change the job grade of an employee? Dr. Robinson explained that the process is if an employee is assigned additional duties by his/her supervisor, and the duties amount to some reconsideration, then a request is made by the employee and must be sanctioned by the immediate supervisor and the head of the division. When everyone has signed off on the request, it is submitted to Rahmberg Stover and Associates; and she shares the response with the superintendent who signs off on it before submitting it to the Board for consideration. Ms. Trammel clarified that her question addresses those sessions, some duties are considered to be "other related duties" and others are considered additional work. Dr. Robinson further explained that this decision was made by the Immediate Supervisor of the Division who advises the next level for consideration.

Dr. Goree added that when reviewing these requests, he will first determine if it is beyond the scope of "all other duties" as assigned. Mr. Trammel reminded the Board of the incident with an employee.

Mr. Hooks concurred with Ms. Trammel, because the employee the Board attempted to help was an occupational therapist; and she was denied consideration more than once. Dr. Robinson stated staff has not made a decision to upgrade or downgrade any position, because that is a decision made by Rahmberg Stover. She further explained that the recommendation does not have to be approved by the administration, but this recommendation was. Dr. Goree reminded everyone this is not about a person, but a position. Mr. Hooks said it was focused on a motion, and he doesn't believe it is fair to do someone one way and the other person is done differently.

Mr. Riall asked about the length of the contract with Rahmberg? Mr. Abrams explained that the Board approved them to conduct the reviews when doing the complete salary surveys. He also noted that every position was reviewed when comprising the salary schedule; and within the salary recommendation was a recommendation on how increases are to be considered and the process one must follow. This did away with the PEC Committee, and the Board approved going to a third party reviewer. Mr. Riall inquired how Rahmberg is paid? Mr. Lee stated that each time a review is done, they provide services, and send the CPSB an invoice, which varies, beginning with \$250, depending on how much time is spent conducting the review. Dr. Goree announced that staff will provide the requested information.

National Board Certified Teacher Stipend. Ms. Priest asked about the average number of teachers and counselors annually that go through the certification process? Dr. Robinson responded there are seven this year and it ranges from 7 to 10 annually. Upon completion, Ms. Priest asked if these teachers and counselors are looked at in terms of strategically placing them in academically struggling schools? Dr. Robinson explained that while she understands, Human Resources does not directly place teachers, but they do encourage them to look at those areas where there are challenges and align these teachers with those situations. Ms. Priest asked how does Caddo Parish benefit from this certification? Dr. Goree explained that staff discussed this in its meeting and believes the certification is a fringe benefit for attracting and keeping the best teachers in the district. Staff also believes the stipend attracts and keeps teachers in our District. In addressing the questions relative to placement in schools that are academically unsuccessful,

Dr. Goree stated that while the District does not currently have anything in place to direct them that way, there are currently some National Board Certified teachers in these schools. Ms. Priest requested, and the superintendent agreed to provide, a list of these placements by school.

Mr. Riall asked about the options in the backup information on BoardDocs and the option staff is recommending; and if the way Option 1 is worded also includes the existing teachers because if Option 2 or 3 are chosen, it will deal with the existing teachers, but he does not believe Option 1 does so. Mr. Lee explained that teachers hired prior to 2013 will be grandfathered in, and Mr. Abrams clarified that is correct.

Mrs. Crawford asked where will the money come from in a budget being crunched to the max? Dr. Goree explained that was a part of staff's discussion and it is very clear that this is approximately \$1 million, but the discussion went back to quality and the fact that staff does not believe this to be an area the district can afford to cut because of the quality of teachers through this incentive. However, he agreed it is important to find areas to cut, but staff did not believe this was the area in which to cut. Mrs. Crawford indicated she will be requesting from staff a list of projected areas that will be cut. Superintendent Goree added that this is an area that staff is addressing, and he reminded Mrs. Crawford that the money for National Board Certified Teachers is already budgeted, so we are not looking for additional money to fund it. Mrs. Crawford stated that she understands, but asked about funding from this point forward.

Mrs. Bell asked is it possible to offer the National Board Certified teachers an incentive (repay their cost) and ask them to commit to teach in one of the low-performing schools for two years?

Mr. Hooks asked if it is right to make a promise and turn around and break that promise, because the State was paying this \$5,000 and then the State put this cost off on the districts. He noted how difficult it is and the amount of hard work teachers must put into this program, and now their lifestyles have been built around this amount. He encouraged the Board to seriously think about this before taking this stipend away from the teachers.

Mr. Rachal asked staff to explain how these teachers receive this stipend? Mr. Lee explained they receive \$6,000 (\$5,000 from the State and \$1,000 from Caddo) and it is divided by 12 paychecks. While it is considered a supplement, not a part of the base salary, it is put into their paycheck. Mr. Rachal asked how the situation is handled if someone is receiving the supplement and they leave during the year? Mr. Lee said if they leave the district, they would no longer receive the supplement from Caddo; but if they go to another district, that district would be responsible for paying the supplement. Dr. Goree added that is another reason we do not pay it all up front. Mr. Rachal asked if anyone knows how many were receiving this stipend (statewide) when the State decided it would no longer pay this?

Mrs. Crawley asked how many years has this been in place? Walter Brown, supervisor and National Board Certified teacher, stated that he received his certification in 2002 and he was in Caddo's second group of teachers to receive this certification. He also added that Caddo once had a program where the Board paid the cost for teachers to go through the process with the agreement that they would remain at their school for three years; but, today, teachers are paying the cost (\$2,500) out of their pockets. Mrs. Crawley noted that it appears then that less than 10 a year complete the process, and staff confirmed that is correct. She also stated her agreement with the Superintendent's comment relative to retention of our teachers, because this is one way a teacher gets a raise since a Master's and Doctorate's Degrees do not afford them much of a raise. Being about education, she believes it makes sense that this is what we pursue, but she believes it to be a negative assumption that teachers will go through the certification process and then commit to teach at a low-performing school. She also liked the idea if Caddo pays the cost (\$2,500), then the teacher agrees to teach there for a specific amount of time.

Approval of Service Providers. Mr. Rachal asked staff about the names of the companies. Mr. Woolfolk explained the timeline and the deadline for receiving the RFPs is Wednesday, January 8. At that time, an internal committee will be established to review and prepare a recommendation by January 23rd. Mr. Rachal asked that the justification of the recommendation also be included in what is presented to the Board as well as why, if applicable, a company (bid) might be disqualified. He also asked that these be shared in ample time before the Board meets to take action. Dr. Goree explained that is how the timeline is set and small groups of Board members will have the opportunity, if they desire, to visit with staff and ask any questions prior to the Board meeting.

Miss Green asked if this is the trip the Board took to New Orleans to see service providers? Mr. Pierson explained they did not go to New Orleans to visit service providers, but the service providers came to Caddo at Linear. Miss Green said she is aware of that, but is asking if the service providers were at the schools visited in New Orleans, and Mr. Pierson responded they did not know that because that is not why they visited the schools. Miss Green asked how many service providers originally came to the meeting, and staff responded approximately six or seven, but the requests for proposals went out to more than those six or seven. Miss Green asked if the Board will only approve two or three? Mr. Woolfolk explained it could be more than three, dependent upon whether or not one is providing a service at more than one site and how the proposals are submitted, and we determine what is needed to best provide what we wish to accomplish. Dr. Goree also further explained that when looking at a provider for system change, that is one provider; however, that same provider can also support the schools, and multiple providers can be identified to work at different schools.

Mr. Hooks said he asked at the November meeting who the service providers were, but no one could give him an answer. Leisa Edwards responded that several providers flew in for the meeting at Linear (MatchBook, Mass Insight, University of Virginia via conference call, Harvard, and Teach for America). Dr. Goree explained that as part of the RSD plan approved by the Board in December, it set out a timeline we must follow for selecting service providers. Those at the Linear meeting were interested in being a part of this plan, and now we know what the RSD wants and we are currently going through the RFP process for providers to apply if they are interested in being considered as a provider. After the deadline on January 8th to receive RFP responses, the process will begin to evaluate the proposals, and no provider will be selected until the Board does so on January 28th. Mr. Hooks asked if there is a Memorandum of Understanding from the RSD, and Dr. Goree said there is and he will provide a signed copy. Ms. Edwards also noted the Echol Ekridge shared with the Board his interest in this process to be considered as one of the providers.

Mrs. Crawley stated she understands they will be evaluated according to their educational plan, but asked that financials and Dun and Bradstreet reports be included in the information as well. Dr. Goree said financial information will be reviewed, but he is unsure about the Dun and Bradstreet reports. Mrs. Crawley said she believes this information is readily available and would like to see this.

Ms. Trammel stated her interest in knowing if the State will provide any money to help the District in meeting its financial obligations. Dr. Goree explained the State provides opportunities for the District to apply for grants, and Caddo has applied and has reason to believe it will be awarded some grant money. Also, staff will take advantage of any other opportunities available to help the District to financially meet its obligations in providing the best quality product for the students. Ms. Trammel stated her agreement with Mr. Rachal's comments and asked if these grants will be State or Federal grants? Dr. Goree said he is aware of State-supported grants.

Mrs. Bell asked staff to look at the providers' comments that they want to be a part of staffing the schools, and encouraged the staff to look closely at what we bring in to assist in staffing these

schools; because the Board has said it wants the Superintendent to be the one selecting the principals in these schools.

Ms. Priest referenced the service providers that strictly want to provide management services and if this is inclusive in this item? Dr. Goree reminded the Board that in the MOU with the RSD, there were two options – (1) a management company or (2) a company that provides support; and Caddo opted for No. 2, and not a company that comes in and manages our schools.

Mr. Pierson stated that he feels very good that a number of the staff members were present and will bring the Board a recommendation that is best for the students.

Update on ID Badges. Mrs. Bell reported that she has talked with Mr. Murry and received an update on the delay in implementing ID badges; and she is encouraged that everything will be in place and training completed to implement in August for the 2014-15 school year. As a result, she is asking that this item be pulled from the agenda.

Reconfiguration of Schools for 2014-15. Mrs. Armstrong stated she would like more information on the specific schools that will be included in the reconfiguration. Dr. Goree stated staff will provide this information; and Mr. Burton, following his meeting with the principals of the affected schools, will be available to meet with individual Board members to discuss it with them. He also added this supports the RSD plan which the Board approved in December, and staff wanted to make the principals in the affected school aware before it was released.

Mr. Riall stated his concern about taking an existing K-8 school and making a magnet program and if this will eliminate the neighborhood program in 5th-8th grade? Dr. Goree said it will not, and the neighborhood school will remain in place, and this a school within a school concept with a 5th-8th grade testing magnet component. He added staff believes this will relieve the list of approximately 800 students that did not get into Middle Magnet, giving those families another option. Mr. Riall asked if he could receive (1) the LEAP test scores of the 8th grade students from Middle Magnet and Herndon in all categories, and (2) the estimated enrollment for the new program. He shared his concern that there are 8th graders in magnet schools that have failed the LEAP; and if the requirements are low enough to enter a magnet, yet they cannot pass the LEAP, he believes we need to look at raising the requirements. While he supports magnets, he also believes if we continue to create more magnet schools/components, it will not be long before there will no longer be neighborhood schools; and magnets need to serve a purpose for the upper echelon of students that need to be challenged.

Mr. Burton explained the enrollment the first year will come from the existing waiting list, those students not placed at Herndon or Caddo Middle Magnet; and an open house will be held for the parents of these students. The following year, staff estimates between 250 and 300 students. Mr. Riall asked if the Board will be made aware of the schools involved when meeting with staff and Mr. Burton responded that was correct.

Miss Green asked Dr. Goree if any District 2 schools are included in the proposed transformation plan? Dr. Goree said they are not, and he will be glad to share additional information with her. Miss Green stated her confusion that we can come up with something for schools other than her two. Dr. Goree stated Miss Green is assuming staff has not come up with something for her schools, but he will be glad to meet with her individually.

Mrs. Bell asked for information on what will be done with Fair Park and Woodlawn 7th and 8th grade students. Dr. Goree responded the goal is to have all school configurations set in January and to share staff's recommendation with the Board in the small group meetings prior to the meeting on January 28th.

Ms. Trammel asked if we go with a K-8 magnet in the reconfiguration, will the entire K-8 be a magnet or will only a part of the K-8 be magnet? Dr. Goree explained that the entire school will be a neighborhood K-8 program, but housed in that school will be a 5-8th grade magnet program, similar to Donnie Bickham. Ms. Trammel asked about the number of students in her area in those grades and where they will be housed; because she is concerned when talking magnet that we are not eliminating the problem in that area, but increasing the population at a school which she doesn't believe helps the low-performing schools. Ms. Trammel encouraged the same across the table when working to make a better situation for an area where there is not a problem and there is a problem in her area. Dr. Goree assured Ms. Trammel that staff is giving a lot of attention to what will be done for the 7th and 8th graders.

Mrs. Crawford asked Mr. Burton about the Broadmoor testing magnet that has a 25 per year student cap on students coming to Broadmoor from outside the Broadmoor district, because she has no problem with a magnet component within a school; but because she believes that both (new and Broadmoor) are needed, she also believes both should be advertised and filled equally and appropriately so they can draw the same as Middle Magnet. She also asked if the new proposed magnet component will have a 25 student cap for out of district students. Mr. Burton responded there will not be any change to the Broadmoor or Youree Drive cap, but as far as the new magnet school, it will be enrolled based on capacity, thus there will not be a 25 student cap. Mrs. Crawford clarified that it is not a 25 student cap, but a 25 out of the neighborhood district cap so that students are not pulled from other areas, i.e. what Ms. Trammel was referencing in her comments. Because Broadmoor is a testing magnet, Mrs. Crawford shared she has never been able to get a complete understanding on how they offer Broadmoor to those students on the waiting list, and the number of times she has tried, but was told no. Mr. Burton explained the goal is to keep the families on the waiting list for middle school magnet in Caddo Parish, and staff also looked at areas in the district that are not being served by a magnet component, nor are they leaving their neighborhood to attend a magnet, thus staff wanted to bring the magnet to them. Mrs. Crawford stated that Youree Drive is not a testing magnet, and Mr. Burton said they do accept students who are tested into the program. Mrs. Crawford said all the times she has asked this, no one has ever told her that to be the case with Youree Drive. Mr. Burton stated that he would be glad to meet with her regarding this issue. Mr. Pierson encouraged Board members to discuss these things in the small meetings with staff.

Mrs. Crawley said it appears that intent and implementation went awry with this. She asked if preK-3, preK-4 and preK-6 is counterintuitive to what research indicates when stating that K-8 offers the best because children stay and have a bond with the school without too many transitions? Mr. Burton stated that it is his and staff's opinion that in the inner city area, that K-8 may not be successful; and the best interest will be served when we provide a very strong literacy and numeracy program in ECE through 3rd grade by providing large, uninterrupted blocks of time for ELA and Math. He further stated that there is a concern when you have over-age 8th graders walking on the same campus with ECE students. Mr. Burton also explained that many of the K-5th grade schools are struggling, so if a 6th grade is added, there is still the question of how is the problem going to be solved. Mrs. Crawley asked if staff is saying a building can dictate the success, and Mr. Burton stated that he believes Best Practice and capacity will dictate what schools are configured which way. He said staff looked at capacity, but also feeders, teaming the schools and partnering schools, but not have the wide breadth of students on one campus and focus on literacy. Mrs. Crawley noted her experience and the disconnect that can occur. Dr. Goree explained that one of the biggest focuses will be to produce 3rd graders reading at or above grade level; and this will allow a school to totally focus and devote their blocks of time on the literacy component. Mrs. Crawley noted that previously we had eight reading specialist positions for the reading focus and last year it was discovered that these were never hired. She wants to make sure the program is a real program and not just a building. Mr. Burton explained that in the meetings with the principals, staff is emphasizing that for this to be successful, it must be based on simplicity, structure and large uninterrupted blocks

of time. She also asked about the 800 students not getting in Middle Magnet who apply. Mr. Burton responded he will have to confirm the exact number, but he is aware that it is a large number. Mrs. Crawley asked the zip codes of where the students on the list live which would indicate where (area) there is a need. Dr. Goree stated that staff has a plan, and staff does plan to share that plan with the Board members sooner rather than later; and the only reason staff has not provided specifics tonight is because staff is still meeting with the principals that will be affected in order to share the plan with them. The proximity to the school and the needs of those in the community were taken into consideration when devising a plan. Mrs. Crawley stated that she believes Board members should be in front of the principals and not after the principals; because Board members hire the Superintendent to implement the District's philosophy which the Board represents. Dr. Goree stated that everything staff is recommending does support the Board's philosophy for the District. Mrs. Crawley said she knows we need more magnets because we do not want to lose students to charter and private schools. Mrs. Crawley also asked if the Board will receive a budget before it votes on the reconfiguration of the schools. Mr. Pierson said he believes the Superintendent has indicated staff will meet with the Board members in small groups and he encouraged Board members to write down their questions so they can get answers when meeting with the staff. He stated he believes in the staff and believes that staff will share with them prior to the Board voting and implementing. Mrs. Crawley said she believes the Board has an extreme fiduciary responsibility and asked for these numbers. Dr. Goree said staff will provide the requested information.

Mr. Hooks asked if this reconfiguration is a part of the MOU agreement with the RSD? Mr. Burton responded that it was an extension of the discussion with Dr. Goree's staff and through the RSD process to make sure the end result will be the very best for the targeted schools, as well as any schools in the future that may be faced with the same issues. Mr. Hooks said he has another concern relative to the proposed reconfiguration and the fact that testing is coming up and how teachers and administrators will respond and how it will affect the students in the testing. Dr. Goree said there are some difficult decisions that will need to be made at the schools as early as February, because you cannot wait until the end of May to make these decisions and expect to be ready for the start of school the first of August. He further stated that staff continues to look at ways it can implement the aspects of this plan, because it will be necessary to release all staffs in the proposed reconstitution schools and begin hiring again at each of the schools; and he knows some of these decisions may affect morale, but it is something that must be done.

Mr. Rachal stated that what intrigues him about the magnet program is he feels we have a successful magnet program, but he also believes we have bottle necked the program. With what is being presented and being able to provide the needed education for those who have been unable to get into the magnet, he agrees with Mrs. Crawford about possibly expanding the magnet program at Broadmoor.

Ms. Trammel said regardless of what is done, she said the location will still not mean parents will send their students to that magnet program. She encouraged everyone to think clearly about where the program will be, why it is being done and the motives behind doing so.

Regarding the discussion, Mrs. Armstrong asked if there are that many qualified students for the magnet program, because she believes that one school is not going to alleviate the problem. She reminded the Board of the action to take one of Caddo's elementary schools and make it a pure magnet (Fairfield), which alleviated some of the problems at the elementary level. If perceived there is a problem at the middle school, she asked would it be a problem to take Broadmoor and turn it into a complete magnet school, which she believes will alleviate part of the problems of not being able to serve all the students. She asked that staff look at the numbers for this possibility, and noted Keithville's similar experience.

President Pierson reminded Board members that the work session is designed to ask questions and encouraged them to stick with asking questions and not presenting arguments or comments.

Ms. Priest asked that staff hold these proposed meetings with Board members ASAP.

Approval of Keen Miller for Legal Services. Miss Green asked Mr. Abrams if he is asking the Board to approve using both firms (Keen Miller and Cook Yancey). Mr. Abrams responded that is correct, because Cook Yancey is already approved but three attorneys from Cook Yancey, who do a lot of work and are presently handling approximately 10 cases, have left that firm to join Keen Miller. Mr. Abrams explained they will continue through January 15th, at which time work would be through Keen Miller. Further, if the Board does not allow them to complete the work on present cases, the cases would have to be reassigned which would cost the District more. Miss Green asked if the legal fees will be the same and Mr. Abrams responded that is correct.

Mrs. Crawley asked Mr. Abrams if he doesn't see a correlation between the number of firms we hire and the amount of money it is costing the District, because total attorney fees when she came on the Board were under \$200,000, and that has increased to \$600,000. Mr. Abrams said yes, because when you have a lot more lawyers, you are paying for a lot more work and they are doing a lot more work than 12 years ago. He also stated the attorneys at Cook Yancey will not be the ones handling the employment cases, and it is because of the work done by the present defending attorneys that the District is being sued less.

Mr. Rachal stated he assumes we are doing this to keep continuity with these attorneys; and Mr. Abrams responded absolutely and that these attorneys are some of the best in the State, with Keen Miller being a top rated firm with offices in numerous south Louisiana cities and now in Shreveport. Mr. Rachal asked if the Board will vote on this tonight? Mr. Abrams indicated no but he has talked with the managing partner of Cook Yancey and he is recommending this to the Board with the recommendation that if the Board approves it on January 28th, it will be made retroactive to January 16th thus the current attorneys can continue their work on the cases. Mr. Rachal asked Mr. Abrams to confirm who will receive the billing for services between January 15 and 28, and Mr. Abrams responded that the school board (client) makes the decision who the attorneys will be, and technically, Mr. Abrams said he could have responded on the Board's behalf to continue with the current attorneys, because an attorney can be fired at anytime. Mr. Abrams assured everyone he has spoken with both sides and neither side has a problem with how it is proposed to work out.

Participation in LSBA Class Action Lawsuit. Mr. Abrams reminded the Board that this item was on last month's agenda and was pulled for further review. Board members received information from Bob Hammonds, LSBA, advising of a law suit filed by St. John's Parish regarding a class action law suit relative to the State not funding the 2.75% increase in the MFP formula this past year; and when what was submitted to the Supreme Court was declared invalid, because they missed the deadline, they used the 2011 formula and submitted a 2.75% supplement to the districts for employees. The law suit filed indicated it should have been given in the MFP and initially there was some concern and after LSBA came out against it, the position changed to support the law suit and districts were requested to support it also. Mr. Abrams further stated that correspondence was received from Scott Richard stating that the Governor and a BESE member were upset about Jefferson Parish's participation in the law suit at which time other supporters came forth. He added that last month this item was pulled to allow time to evaluate the proposal. Mr. Abrams also explained that even if the District gets a large sum of money as a result of this class action lawsuit, the Caddo School Board will still have to go to the Legislature for funding. At this time, it is important for the Board to make a decision as to whether or not they wish to be included.

Mr. Rachal asked if there is a deadline as to whether or not the Caddo School Board wishes to participate? Mr. Abrams explained that as he understands what is happening, they would meet on January 16th or 17th and the judge would determine how many school districts agreed to participate which would determine if it would move forward as a class action law suit. Due to the pressure from the State to withhold tax dollars, Mr. Abrams responded that he does not know that for certain; and while it did not help, the article comments that according to BESE, its Board members were urged to not move forward. He also clarified that it is on the 16th or 17th of January that they will go back to the judge to present the information on the number of school boards that agree to participate in the class action law suit; and at that point, he is unsure if the judge will determine at that time whether or not there are ample number of districts interested to move forward with a class action law suit. Mr. Rachal suggested that a letter of resolution be drafted from the Board to provide the attorneys what Caddo's feelings are and why we may not be participating. While he believes there is evidence in an article and through BESE, where interfering with Jefferson Parish and possibly others, he believes we can handle this matter in this way without hurting ourselves.

Ms. Priest stated there are several applications at the state that we know we need and noted that a decision today should be whether or not to place on the agenda whether or not the Board wishes to continue with joining in a class action suit (since it was pulled last month). Mr. Abrams explained that it was pulled last month because there was not ample time to discuss this matter before the Holidays, and therefore, it is being presented to the Executive Committee to determine whether or not it wishes to put it back on the agenda for January 28th. Ms. Priest said she believes it is a moot point, because we are not required to do anything; and if there are ample number of school boards indicating an interest in pursuing, it will become a class action law suit; and if not, it will mean that a school board cannot bring suit at a later date. Mr. Pierson said if it pleases the Board, the Board will accept Mr. Abrams report and not place it on the agenda.

PROPOSED CONSENT AGENDA

President Pierson stated the following items will be the Consent Agenda: 6.02, 8.02, and 8.05. *Mrs. Crawford moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda for the January 28, 2014 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, asked for clarification on the Rahmberg Stover report and the process being followed, because to her it appears this is someone in the Personnel Department and a possible clear path for that person to get a document review which she would like for this to be open for everyone. She stated she believes there may need to be a better screening device and maybe the Board making the recommendation for jobs to be reviewed. She also reminded the Board that with the National Board Certification and her past opportunities to work on bond renewals, she has bragged on the number of National Board Certified teachers in Caddo. She also noted that data indicates a better product in terms of academic achievement when a District has National Board Certified teachers in the classroom. She also stated she looks forward to the employee meeting with the superintendent, hopefully soon

Jon Glover, constituent, stated revealing true information with regard to Item 8.04 to Board members only is not sufficient, because constituents need to know specifics when placing students on a waiting list. Recognizing that if the Board continues to implement programs such as magnets, the Board will continue to bring about divisiveness in the District, which will not address those students that are in dire need of services and they had no place to go. She noted caps placed on things and that the cap does not have to be released just to accommodate; however, she is asking that the Board provide the constituents sufficient information so they know exactly what the Board is being proposed.

Mrs. Bell asked for clarification in bringing requests before the Board because early in the agenda she wanted to bring something forth to determine if she needed to add an agenda item, but she was told to wait and now she is being told she can't. Mr. Abrams clarified requests are made at the regular Board meeting, and Mr. Pierson asked Mrs. Bell to make her request on the 28th.

Adjournment. *Mrs. Crawford moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:50 p.m.*

January 28, 2014

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, January 28, 2014, in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford (arrived at approximately 4:41 p.m.), Barry Rachal, Larry Ramsey and Dottie Bell. Board member Charlotte Crawley led the prayer and Pledge of Allegiance. Mr. Pierson announced that Mrs. Armstrong is absent because of her husband's illness.

APPROVAL OF MINUTES

Mr. Riall moved, seconded by Mr. Hooks, that the minutes of the December 16, 2013, December 17, 2013 and January 7, 2014 CPSB meetings be approved as submitted. Vote on the motion carried.

RECOGNITIONS AND PRESENTATIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

2013 C. E. Byrd Yellow Jackets Football Team. C. E. Byrd High School Students-players, coaches and other staff were recognized for an outstanding year and for making it to the Division I State Finals in New Orleans, as well as for being the first public school team from Shreveport to play in the Superdome since the state football championships started there in 1981.

Cass Acosta Scholarship Award. The following students were recognized for receiving the First Annual Cass Acosta Scholarship Awards presented annually to high school seniors for outstanding accomplishment in the field of music and for furthering his/her education in music: Caddo Magnet High Students Eliot Haas, Cello, and Gregory Walton, Piano; and Huntington High students Jasmine James, Viola, and Jacqutavian Demery, Voice. Each will receive a \$500 cash scholarship.

Foster Grandparents Program. Mr. Mainiero recognized Mary Alice Rountree, executive director of the Caddo Council on Aging, and Neva Jones, director of the Foster Grandparent Program, and all the foster grandparents who volunteer to help young people with special and exceptional needs. The program has been in existence since 1981 and the volunteers serve as mentors, tutors and caregivers for children and youth with special needs. Mr. Mainiero also read a resolution adopted by the Board at its November 19, 2013 meeting.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced and welcomed the following newly appointed administrators: Melinda Kay, supervisor of Instruction Guidance & Counseling Specialist/Magnet Test Coordinator; and Robin DeBusk, principal, Caddo Middle Magnet.

Reconfiguration of Schools for 2014-2015 School Year. Keith Burton, chief academic officer, shared with the Board a powerpoint presentation highlighting the details of the proposed plan for reconfiguration of schools being presented for the Board's consideration. Mr. Burton stated that this plan will restructure the schools to meet the needs of the students, all principals will be given autonomy to fill any vacancies created within the reconfiguration, leadership teams will receive extensive data driven professional development to hone their skills, and the district support team will provide ongoing support and weekly walk-throughs to insure that the high quality

curriculum instruction and assessments are implemented. He reported that Woodlawn and Fair Park will be converted back to a traditional high school with the 7th and 8th graders at Fair Park transferring to the new Lakeshore Middle School, and the students at Lakeshore Elementary will be rezoned to the appropriate elementary schools in that region. The 7th and 8th graders at Woodlawn will transfer to Caddo Middle Career and Technology which will create a solid feeder pattern. He noted this plan will create four preK-3 schools (Mooretown and Atkins will have a shared relationship and feed into Sunset Acres (a 4th-6th grade school), who will feed into CMCT for 7th and 8th grade and Woodlawn for high school). He further explained that Caddo Heights and Midway will become a preK-3 and have a shared relationship, with students moving from 3rd grade to Werner Park for 4th-6th, Lakeshore Middle School for 7th and 8th grade and Fair Park for 9th-12th. Mr. Burton noted that one of the main goals in creating a solid feeder pattern is to not only have the feeder pattern for the 4th-6th grade schools, but also the 7th and 8th grade, as well as the high schools. Elementary strategies implemented will attack literacy and numeracy and staff believes that the students in these schools will be best served by high quality intensive instruction in these areas. The leadership team will be provided extensive professional development focused on literacy and numeracy driven by Best Practice with large blocks of uninterrupted literacy and numeracy instruction. It is believed these larger blocks of instruction time will allow teachers the needed time for teaching math and reading. He also reported that a consistent intervention model will be provided the schools, because at this time there are more than 50 models available for teachers to choose so Academic Affairs will reduce the number to 4-6 and the needs of the students will drive what interventions will be used in the schools. It is also believed that having a smaller number of interventions will allow for more staff support. Mr. Burton also reported that a daily intervention block will be imbedded into each school's daily schedule and there will be pull-in times where small groups of students can meet with adults within the classroom for the needed intervention. Another new component will be to offer an enriched course such as foreign language or robotics to 4th-6th graders. He explained staff believes splitting and implementing these configurations will narrow the focus for the curriculum for each school, provide professional development opportunities and parental involvement activities concentrated on the needs of the age of the students being served at the school. He also said that the District will be able to concentrate services and interventions to these schools because they are serving a smaller number of classes, and school activities can be more grade and age-focused. Additionally, Mr. Burton reported staff proposes preK-6th grade schools at many of the other K-5 elementary schools, which came after meeting with the principals for their input and possible interest in a reconfiguration. As a result, next year preK-6 grade configurations will be at Cherokee Park, J. S. Clark, Northside, Pine Grove, Queensborough and Westwood. As the final component of the proposed reconfiguration, Mr. Burton explained staff proposes expanding the middle school magnet opportunities at Oak Park Elementary and Middle School where a 5th-8th grade academic magnet component will be added with the traditional neighborhood K-8 school remaining intact. He further stated that any student attending Oak Park Elementary and Middle will remain on that campus; however, if there are students outside the neighborhood zone interested in attending an accelerated and enriched program, they will be offered this in the 5th, 6th, 7th and 8th grades. Mr. Burton reported that staff also proposes to expand the magnet program at Broadmoor Lab School by 25 seats per grade level because we do have many families that apply to the middle magnet schools that are not placed and hopefully offering these additional seats will meet the needs of the public.

VISITORS

Glenn A. Davenport, employee, shared with the Board on-going issues that he faces as an employee of the Caddo Parish School System. He stated he, as an employee, has endured harassment that has caused him to be displaced from his previous job while he has only attempted to find out why this action was imposed; and to this date, he has not received any documentation of the events that caused this but has continued to be harassed.

Jon Glover, employee, asked if anyone was familiar with the term redacting, a process in the legal realm utilized in an effort to distort information, preferably not allowing the recipient of knowledge of a document in its entirety. She further stated that dispensing information that clearly is not supported by evidence to conclude that our schools are achieving is an act of redacting. When reviewing information not only shared by the administrative staff but the Louisiana Department of Education, she noted her concern that it is apparent not every child who attends schools with a D or F rating is meeting the potential required to bring about educational success of every child in Caddo Parish. Ms. Glover stated that if practices that promote failure are allowed to continue then the chipping away of the public school system is at stake. The RSD, charter schools, and any other entity that aspires success they are able to give versus what the public school system is giving is also at stake; and she asked are Caddo's children not worthy of equal access to resources that promote success. She questioned what has been done differently to promote success, other than instituting magnet programs in schools to address the 700-800 students not accepted in the traditional magnet schools. Ms. Glover stated she believes magnet schools support a level of excellence that is apparently not accessible to every child in Caddo Parish and every child in Caddo Parish should be exposed to a level of excellence in education. She said she also believes it is important to recognize that instituting new programs into environments already disadvantaged offer nothing; and if a child cannot adequately function in a setting, then he or she is doomed to continue a pattern of failure. She asked that the Board, when bringing forth solutions, make sure they are attainable solutions and not solutions with disguises to support a position that renders no success. Because the Board said it would provide a quality education for every child in Caddo Parish, she asked that the Board do just that and show her that the Board's interest includes and does not exclude based on whatever the political agenda might be. Mediocrity is no longer acceptable and asked that the Board bring forth practices that are equal across the board.

Ms. Glover also addressed the National Board Certified Teachers stipend and stated that in attempting to assess the information presented, she noted the State did not mandate that the Board take on these stipends, but this is something the Board opted to do. When the State decided they would no longer fund these stipends, they gave the local Districts an option, and she asked if Caddo can truly afford to continue paying these and say the budget is not in jeopardy. She asked that the Board look closely at this and provide her, a constituent, a response, because it is important to her that the budget is in place for the betterment for the children and their needed educational resources.

Jackie Lansdale, president of the Red River United, stated that with No Child Left Behind, Race to the Top, COMPASS, Common Core, et.al, a decade of top down, test based schooling is behind us. Assessing how this has worked for us, she said PISA (Program for International Student Assessments) results state not so good; and the latest results released in December show the U.S. is below average in Math and close to average in Science and Reading. Mrs. Lansdale said more important is there has not been any significant growth in the United States rankings since 2003 (another decade). She asked if testing ad nauseam, vilifying and sanctioning educators, underfunding and starving schools, closing neighborhood schools, selling them for pennies on the dollar, and creating private for-profit charters is the answer; and if not, what is? She compared the top tier nations and their priorities; because in contrast to our policies, the top tier countries do not have a fixation on testing, but actually respect public education, work to insure their teachers are well prepared and supported, the students have curriculum and standards, as well as the tools needed to meet them. Equity issues are considered, and insure that students that need the extras to be successful get the extras. In looking at how the local district aligns with top tier countries, she noted the items on the agenda for the Board's consideration, i.e. service providers, and it appears to be more of the same...more failed policies and making money on the backs of children. However, she said she believes the stipend for National Board Certified teachers and the proposed reconfiguration of schools reflects a commitment on behalf of the new superintendent and administrative team that says it is all about the students and our

schools all the time, which she believes is top tier thinking. She encouraged the Board to continue to elevate the approach while working together to insure that every student in Caddo has a school that is safe and is a welcoming place for teaching and learning, and that all of Caddo's policies mirror the commitment that all teachers will be well-prepared, supported and have the time needed to plan and collaborate. She also asked that the Board continue to insist on the arts and music in the curriculum and to find the resources for all children to have access to preK education and extended day/year and services for those that need them, because it is what will mirror the top tier nation approach to reclaim the promise of public education. She encouraged the Board to have the courage to say no to failed policies and embrace a steadfast and earnest approach to insure that Caddo's priorities are Caddo's priorities.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board's consideration and the following discussion ensued. President Pierson announced that Item 8.01 Salary Reconfiguration Recommendation/Rahmberg, Stover and Associates is pulled and Items 6.02-6.03, 8.05-8.07 and 13.01 are the consent agenda items. *Ms. Priest moved, seconded by Miss Green, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Riall moved, seconded by Ms. Priest, to confirm the Consent Agenda (Items 6.02-6.03, 8.05-8.07 and 13.01). Vote on the motion carried unanimously. The following is a summary of the items approved on the consent agenda.

Item No. 6

6.02 Personnel Transactions Report. The board approved the personnel transactions report for the period of December 1, 2013 through December 20, 2013 as submitted in the mailout.

6.03 Administrative Contract Renewals. The board approved renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

Item No. 8

8.05 Approval of Keen Miller, LLP as Provider of Legal Services. The board approved the law firm of Keen Miller as a provider of legal services for the Caddo Parish School System as recommended by legal counsel and submitted in the mailout.

8.06 Long-term Use of JS Clark Gymnasium. The board approved the long-term use of J S Clark Gymnasium as recommended by staff and submitted in the mailout.

8.07 Out of State Travel (General Fund). The board approved requests for Out of State Travel (General Fund) as recommended by staff and submitted in the mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved staff's recommendation for students BL, FD, JM, RW and TC whose parents are in agreement.

PERSONNEL RECOMMENDATIONS

Mr. Ramsey moved, seconded by Mr. Hooks, to approve the personnel recommendation as submitted in the mailout. Vote on the motion carried unanimously.

FUTURE NATIONAL BOARD STIPENDS

Mr. Ramsey moved, seconded by Mr. Hooks, that the Caddo Parish School Board continue to pay any future National Board Certified Teacher or Counselor the \$5,000 stipend as recommended by staff and submitted in the mailout. Mrs. Crawford asked how many teachers have National Board Certification but are no longer in the classroom? Dr. Goree responded that there are some statutes staff is researching at this time. Dr. Robinson stated there is one person at Central Office that is National Board Certified and no longer in the classroom, and there are four persons currently working at Building 6 with National Board Certification. She also announced there is a complete roster and noted there are National Board Certifications in a number of job categories, but she believes the information presented answers the Board's questions.

Mrs. Bell stated that she does not want the Board to discourage teachers and counselors from furthering their education, nor keep them from mentoring young new teachers in the system.

Mr. Hooks moved, seconded by Ms. Priest, to call for the question. Vote on the motion to end debate carried with Board members Crawley and Rachal opposed.

Vote on the main motion carried unanimously.

APPROVAL OF SERVICE PROVIDERS

Mr. Ramsey moved, seconded by Mr. Hooks, to approve the selections of (1) UVA/Darden School Foundation-Darden/Curry Partnership for Leaders in Education totaling \$813,000 for the provider of services for developing system-wide change and authorize staff to negotiate with provider for services up to 10 schools; and (2) Public Consulting Group, totaling \$618,130 for developing school level reforms and that staff is authorized to negotiate agreement for signature by the board president.

Mrs. Crawley moved, seconded by Mr. Rachal, to postpone until the next Board meeting so the Board can vet these themselves. Mrs. Crawley stated that 24 hours is not enough notice for her and the public on spending \$1.6 million. She did what she could do and noted that the Public Consulting Group had charges of fraud brought against them in New Mexico with the Attorney General releasing a report on January 17th that they could not charge them with fraud but they did need to pay back \$36 million in over charges to the state. Knowing that staff has done its work and probably picked the best two, and knowing that all of them will have problems, she believes the buck stops with the board when it votes to give the money to these providers, and it's the board who the public will hold accountable. She also noted she learned from Mr. Ford that the State has not vetted these companies and it is up to Caddo. Mr. Rachal stated he has discussed this with Superintendent Goree and feels staff has done a good job in the process; and we are in a position to select these providers as a result of a mandate from the State. He asked if there is a timeline to meet and have these providers in place.

Dr. Goree responded that he has been incredibly pleased with how smooth the process has been and a timeline was established and followed. He further stated that rubrics were established and staff followed those which are also available to the Board. He expressed his apologies that the Board did not have a longer period of time to review these; however, staff has made the information available. One of the problems in postponing is the District is in the process of making changes in the schools; and delaying this action a month will put everything a month further behind in making the necessary changes. He said staff speaks with confidence in the selection of the two providers and the RSD, who has been with the District step by step in the process, has blessed these selections. Mr. Rachal asked Mrs. Crawley about the company she

noted with an issue, and Mrs. Crawley confirmed it is Public Consulting Group. Dr. Goree explained that PCG is the provider selected to do the campus-based support and in contacting other districts that have used them, they received nothing but glowing reviews on the quality of work done in their school districts. Mr. Rachal stated that because postponing would mean having a better understanding, he asked what UVA is looking at in their model having a shepherd or zone leader. Mr. Pierson ruled that the questions should be about the motion to postpone and reminded the Board that the contract states the District must have a provider by January 31st. Mr. Rachal restated he would still like an answer to his question (relative to zone leaders and details on this) to help him determine how he will vote on the motion to postpone. Dr. Goree responded that the District has worked with UVA/Darden before and saw measurable success and staff provided positive feedback on that relationship. Regarding the zone system, and the shepherd position, this person would be utilized to manage the entire process (all the schools), and the relationship with the two service providers. *Mrs. Crawley withdrew her motion to postpone*, but asked that in the future, recommendations are more timely. *Mr. Rachal withdrew his second*.

Miss Green asked if staff was aware of the information provided by Mrs. Crawley. Dr. Goree reminded the Board that this contract with the RSD became official the first week in December and with the Christmas Holidays and the RFP process, staff has been up against the clock to get everything done by the due date. He also reminded the Board that while in Baton Rouge, he and Mr. Abrams were pulled away on more than one occasion to address this matter because of the very tight window of time. He also reported that staff has worked very hard to establish some pre-meetings in order to provide Board members additional information; but based on the limited amount of time, it was not possible to schedule small group meetings. Miss Green said she did not vote to move forward with this and will probably not vote for this.

Ms. Trammel asked about the shepherd and if this person will be added later; and Dr. Goree explained that we will have to add this position to the plan and the cost will be wrapped into the entire cost for the RSD process. Currently, staff is also working to identify alternative ways to pay for this entire project.

Mrs. Bell stated that she attended the UVA sessions with the group from Caddo and noted what Sabrina Brown, one of the principals who attended, has done at Oak Park with what she learned from the program. Mrs. Bell asked Delano Ford, RSD, how much control will the Caddo Parish Schools have when these providers are implemented? Mr. Ford explained the superintendent and the Board are completely held responsible and accountable for the oversight of the service providers and the RSD only approves the plan, which has already happened. The two providers have come to the RSD as recommendations; and it is the Board's responsibility to create a contract between itself and the entity stating what the expectations are for success. Mrs. Bell said she believes the providers selected by the District would go in and the Superintendent will have the responsibility of hiring the principal. Mr. Ford confirmed that is correct and the RSD will not be involved in the hiring or any aspect once the service providers are on board. The RSD will only hold the District accountable for getting schools out of AUS and not the implementation. The Board will be responsible for metrics between the Board/Superintendent and the service providers; and the RSD will be back on the scene if it is determined that the schools are not being turned around. Mrs. Bell asked if it is possible that the RSD could still take the schools after two years, and Mr. Ford confirmed that is what the MOU states. Mrs. Bell said she understands that the CPSB is the managing team, and Mr. Ford clarified that the superintendent is the manager. Dr. Goree clarified that the discussion with the providers included what we believe success will look like; and if the Board approves the providers, staff will go into negotiations and specifically state what success will look like as well as include clauses that will allow us to get out of the contract if we are not seeing the success we expect to see. Mrs. Bell asked that the Board receive periodic reports (every six months) on the progress being made.

Mr. Riall moved, seconded by Mr. Ramsey, to call for the question. Vote on the motion to end debate carried with Board members Crawley and Rachal opposed.

Vote on the main motion carried with Board members Green and Crawley opposed.

RECONFIGURATION OF SCHOOLS FOR 2014-15

Mr. Ramsey moved, seconded by Mr. Hooks, to approve the school reconfiguration plan for 2014-2015 as recommended by staff and submitted in the mailout.

Mr. Ramsey stated he believes there has been ample time for the Board to get questions answered and the presentation tonight was very thorough, so he believes it is time to move forward. Mr. Hooks echoed Mr. Ramsey's comments. Mr. Rachal stated he thinks this program has been very well thought out and the realignment of these schools and the attendance lines has been needed for a long time. He also commended Mr. Burton and staff on the proposed consolidation of programs used in the schools and he believes this will have a positive impact on everyone working in the classroom, as well as a positive impact on the budget. Mr. Rachal also commended the staff for what they have done in a short period of time.

Ms. Priest stated she believes it is a very good plan and is something that has been talked about (preK levels) in order to catch our students at a very young age and focus on them through the 3rd grade level.

Mr. Hooks moved, seconded by Mr. Ramsey, to call for the question. Vote on the motion carried with Board members Green, Rachal and Bell opposed.

Vote on the main motion carried unanimously.

ANNOUNCEMENTS AND REQUESTS

Dr. Goree announced that Toneka Burnes, bus driver, passed away and asked that everyone remember this family in their thoughts and prayers.

Mrs. Bell asked why staff ceased to notify employees when an employee, or an employee's immediate family member, passed away.

Mrs. Bell also asked about the status of her request on the number of absentees.

Miss Green asked about the reconfigurations and the adding of a grade at Pine Grove and Northside, because she wants to make sure that Tbuildings are added so the schools have ample space for the students. Dr. Goree assured Miss Green that there will be adequate facilities for all the students and he will be happy to walk the facilities with her.

Mrs. Crawley stated she received a complaint from a veteran about the condition of the flag at Arthur Circle and the need for it to be replaced.

Mrs. Crawley also asked about the Board policies addressing the death of employees and death of students and resolutions being sent to the family.

Ms. Priest asked the Superintendent to take a close look at the transportation policies since there will now be a number of schools for preK-3 grade. These children are babies and some are walking to school; and if there is a half-full bus passing these students on the way to school, she believes we need to look at this. President Pierson referred this request to the Transportation

Committee (Ms. Trammel will continue as the chair of this group) to review and bring recommendations to the Board.

Ms. Priest also asked that staff look immediately for dates for the Legislative luncheon. President Pierson announced that Ms. Priest will chair this meeting and encouraged board members to share relevant information with her for developing a packet for the Legislators. She also invited everyone to a fundraiser by Praise Temple for Oak Park Relief Fund.

Mr. Rachal asked if staff could provide the board with a breakdown of the benefits line item to reflect healthcare costs and retirement costs. As a member of the Caddo Technical Career Foundation, Mr. Rachal referenced their discussion with the principal on how the seven-period day will affect this program. Because the state has placed mandates on the districts, and is pushing districts to address the career oriented students who will not attend college, Mr. Rachal asked if it might be possible to look at this when holding the Legislators Luncheon.

Mrs. Bell also asked for staff to respond on the policies addressing a Board resolution when one of Caddo's students passes away.

Mrs. Crawley announced that in her discussion of the Public Consulting Group, there may have been a contradiction in what she said and she would like to review it; and in her vetting them quickly, she may have said something wrong and needed further time to review it.

Mr. Riall reinforced Mr. Rachal's concerns relative to Caddo Career & Technical Center as he has spoken with the principal on the many issues he is facing. Mr. Pierson encouraged getting this information to the Legislators prior to the meeting so they will have time to review it and be able to address these issues/questions at the luncheon.

Adjournment. *Ms. Trammel moved, seconded by Mr. Hooks, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:10 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

February 4, 2014

The Caddo Parish School Board (**CPSB**) met in special session on Tuesday, February 4, 2014, in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey and Dottie Bell. Board member Curtis Hooks led the prayer and Pledge of Allegiance. Miss Green was absent.

PERSONNEL RECOMMENDATION

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the personnel recommendation as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

Adjournment. *Ms. Priest moved, seconded by Mr. Hooks, to adjourn. Vote on the motion carried unanimously and the special meeting adjourned at approximately 4:40 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

February 4, 2014

The Caddo Parish School Board (CPSB) **Executive Committee** met in regular session on Tuesday, February 4, 2014, at approximately 4:40 p.m. (immediately following the CPSB Special Session) in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson, Bonita Crawford and Mary Trammel present being a quorum. Also present were Steve Riall, Jasmine Green (arrived at approximately 4:50 p.m.), Charlotte Crawley, Curtis Hooks, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. The prayer and Pledge of Allegiance were omitted.

PRESENTATIONS

Victor Mainiero, director of communications and marketing, introduced Africa Price, executive director of Step Forward. Ms. Price highlighted the Step Forward Cradle to Career Initiative focusing on Caddo, Bossier and DeSoto Parishes. She explained the idea is to create a civic infrastructure for promoting education excellence. Ms. Price explained they desire to have a regional partnership committed to driving student success, productive citizenship, global competitiveness and shared accountability, and they are not attempting to change anyone's agenda, but to support the mission of the State's schools districts and to help them meet the measures districts are trying to meet. Their goals are to be prepared for school (early childhood piece to have 4 year olds ready for Kindergarten), to be supported in and out of school, to succeed academically, to be equipped with the tools to become effective and productive citizens, to enroll in postsecondary education or career training, and to graduate and enter into a career of their choice. Ms. Price noted the many opportunities in the community, and the importance of determining what industry(ies) we need to attract and bring back to this region. She further stated that postsecondary education is crucial for those coming out and getting a job and shared that State Superintendent John White recently stated that high school diplomas will no longer cut it, but that people will need a postsecondary education. Ms. Price explained they see Step Forward as a system that brings all the stakeholders to the table to address gaps in education as a result of the poverty level (only half of Caddo's 4-year olds are ready for Kindergarten). Also, the 3rd grade reading proficiency reflects a 28% gap between White and Black and it is important to determine how this can be closed. Having worked on this for approximately 10 years, she believes if they can bring everyone together on the same page, the schools will be successful, which means the students will be successful. Ms. Price explained that many different groups come together weekly to work on network groups and the feedback from those participating has been positive. She believes coming together will bring student success, and a productive citizenship that is globally prepared. She further explained the structure of Step Forward with Ollie Tyler as chairwoman and Paula Hickman, executive director of the Community Foundation, and how the various teams are working together in the partnership with STRIVE. Being connected to STRIVE, she explained it gives them access to National resources that they would not have been able to take advantage. At the present time, Ms. Price reported they are working in Early Childhood, K-8 and in between Post Secondary and economics, i.e. Workforce Development, JUMP Start, etc. In their efforts to build the support groups, she explained that Dr. Bochinni at University Health has agreed to lead the health group and has put together some objectives that will support the three networks.

Ms. Price highlighted the three areas of focus, including (1) early childhood education, (2) early literacy focus on 3rd grade, and (3) workforce development. She further explained the importance of one message throughout the community and that is the shared vision of coming together to make sure the children are globally prepared by aligning the resources. Ms. Price also reported they are currently working on a baseline report in looking at the initiatives and how to move the needle forward in the different areas of focus. She also stressed the importance of communicating and being transparent so that the needles can be moved in a positive direction.

Mr. Ramsey applauded Ms. Price and the organization for the work done, and pointed out that Dr. Robinson was also involved in the process as well as others from the District. He said he believes the program has been a positive one and is worthy of the District's participation.

Mrs. Bell asked Ms. Price to explain the three focuses and if they will be able to measure 1, 2 and 3 in the early childhood program, and how will the focus on workforce development be implemented? Ms. Price explained that a particular school will not be selected for workforce development and noted those educational institutions that will be used, and secured a grant that will allow us to work with Jobs for the Future. She also added that on the number 1 and 2 focuses, a pilot school will be selected for next school year; and as more funding becomes available, the program will be spread out. Mrs. Bell asked if it will be a school from each parish and Ms. Priest answered in the affirmative. She also explained that the pilot school(s) in Focus 1 and 2 will be in different parishes and the Districts will decide which school. Mrs. Bell also asked for clarification on funding for focuses one and two and the plan to gain outside funding through grants, and Ms. Price confirmed that is correct.

Dr. Goree added that staff is very excited about the proposed initiative and how it aligns with some of the District's goals in the restructuring of some of Caddo's schools. In looking at early childhood education, he announced that Summer Grove Elementary School will be used; and Midway will be used for the focus on literacy.

Ms. Priest expressed her appreciation for the presentation and that she is definitely happy to see this come to this point. Having been involved in several of the meetings, she reiterated the importance of closing the achievement gap and her belief that with the reconfiguration and the focus on reading proficiency, closing the gap will happen. Ms. Price also reported they are working with Head Start on the early childhood piece and when the elementary school is selected, they will be able to work with the Head Start program nearest that school. Ms. Priest also noted previous partnering with Head Start on inservices.

Mrs. Crawford asked Ms. Price to clarify the funding source, and Ms. Price responded the funding is currently 100% by the Community Foundation with a three year commitment from them for funding. She also explained that several grant applications having been submitted to local as well as National foundations. Mrs. Crawford asked if school boards will be asked to assist in funding, and Ms. Price said while her purpose for being here today is not to ask the Caddo District for funds, they are open to all available funds.

Mrs. Crawley expressed appreciation for the presentation and Ms. Price's comments that poverty is number one in links to student achievement. She also asked how will Board members be kept up to date on this initiative, and Ms. Price announced a newsletter will be sent out this week, a blog each week, Twitter, Facebook, and the site is updated weekly and the newsletter is published monthly.

Mr. Hooks and Mr. Pierson thanked Ms. Price for sharing this information with the Board and that Caddo is looking forward to a long and enriched experience with Step Forward.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA FOR THE FEBRUARY 18, 2014 CPSB MEETING

Superintendent Goree announced that he is pulling 8.02 (Proposed Revision to CPSB Policy GA (Staffing) and Approval of Staffing for Grades K-3, 4-6, 7-8 and Teachers for Grades 4-5). Dr. Goree highlighted the remaining items for the board's consideration at its meeting on February 18, 2014 and the following discussion ensued.

2014 Capital Projects. Ms. Priest asked staff to provide a breakout of MBE participation in the bids and selection of designers for the bids listed. She also asked about the rotation of schools for painting (number of years). Tommy Smith responded at one time the rotation for painting schools was 10 years; however, at this time, they are looking at a cycle of approximately 14-15 years as a result of a reduction in painting staff. Ms. Priest asked for a list of the schools and the years since they were last painted. Dr. Goree stated that he also met with Mr. Woolfolk to discuss capital project items on the school campuses. Ms. Priest also noted the 11 projects that do not have a designer listed and asked if these will be brought back to the Board for approval? Mr. White explained that several of the 11 projects do not require designers; however, those that do will be brought back to the Board for approval.

Miss Green asked about capital project funds for Linear since it is now back under Caddo. Dr. Goree stated that in the original Caddo Plan with the RSD, Caddo is to provide them with a specific use of Linear by February 1st. Feeling that it is important to talk with the community about the needs in that community, Dr. Goree knew that February 1st would not work. He further stated that over the next few weeks, he will get with Miss Green and the community to gather information from them. Based on the input received, staff will determine the funding to make this happen. Miss Green said she would like for staff to begin setting aside the money for Linear and what will need to be done. She asked how much money is left in the Capital Projects at this time and Mr. White said he believes there is very little remaining (between \$19 and \$20 million). Mr. White stated that before an accurate estimate on the cost of renovations is known, a defined scope is needed, and he does not believe adequate time is available for its completion.

Mr. Rachal asked that this item be postponed and referred to the Building, Grounds, Security Committee and Long-Range Planning Committee to review the list together before it comes to the Board. Dr. Goree reminded the Board that in planning to complete the West Shreveport facility and make these transfers happen, these projects must move forward. Mr. Pierson explained that since the agenda has been established, Mr. Rachal could pull or postpone this at the February 18th meeting. Dr. Goree explained that the West Shreveport project has already been approved by the Board. Mr. White explained how pulling this item at this time will limit moving forward and completing these projects over the summer, because the Louisiana Public Bid Law requires an advertisement of approximately one month, and if projects are not advertised until April, this does not allow for adequate time to properly design the projects listed. Mr. Rachal asked the superintendent about his willingness to pull this item, and Dr. Goree said it would not be his recommendation because there are some projects on the list that need to be done in order to provide students with the best opportunities possible in the fall; and staff will be available over the next two weeks to answer Board members questions.

Ms. Trammel said since Board members are talking about what they want, she shared her disappointment at what she saw when visiting one of her schools and will provide her list of projects to add to the wish lists.

Mr. Riall asked if it is possible to amend this list and staff responded it is. Mrs. Bell asked if some of the projects will address reconfiguration of schools, because if so, these need to move forward so schools are ready for the start of school in the fall.

Mr. Hooks stated that the Board voted for Dr. Goree to be the superintendent, and he believes the Board should support him on this.

Mr. Abrams noted that the majority of the projects listed have already been approved by the Board and the items in italics are those being added for consideration.

Mr. Rachal asked for clarification because the projects listed are for the 14-15 budget and the Board has not approved that budget. Mr. White explained that the Board approved a three-year

capital projects plan and this list of projects is the 2nd year of that plan; and when the projects were presented, the amounts were presented also. Mr. Lee explained that the Board is being asked to approve a list with budgetary amounts, and the Board will look at the Capital Projects budget over the next several months. Mr. Rachal asked about possible changes over the past several years and if there are any items on the three-year list that no longer need to be done? Mr. White responded there was one project that stated the money must follow the students, i.e. paving at Newton Smith; and since these students will now be attending Green Oaks, the project dollars were shifted to Green Oaks for updating the stage lighting equipment. Mr. Rachal stated that he will attempt to hold a committee meeting prior to the next Board meeting to get clarification.

ADDITIONS

Mr. Hooks asked that “Discontinue Services with Ombudsman” be added to the agenda, and shared an up-to-date report on grade distribution for students at Ombudsman with board members. He explained that at the end of the 2013 year, he shared with the Board that approximately 100% of the students at Ombudsman were failing after the first nine weeks. The report presented today covers the first two nine weeks and reflects that approximately 97% of the students are failing. Because we sent these students to Ombudsman to get the help they needed and not to fail, because when Ombudsman puts a student out, the student is out for good, and is not getting the help they need, and this is why he brings this item to discontinue using the services with Ombudsman. President Pierson recognized Dr. Goree who explained that staff has begun conversations relative to the future of the Ombudsman Program, as the contract is up for renewal in March, and staff has looked at the performance of these students when Caddo was conducting the alternative school. He also reported that he met this week with Markey Pierre to determine if Caddo is to keep the program in place and he was very clear with them that if the program continued in Caddo, there must be some things in the contract tied to student achievement. He also explained that an administrator has been assigned to be the sole communicator (liaison) to help merge the gap and address the expressed concerns. The cost is being provided cheaper than what Caddo can be provided; and with the appropriate contractual obligations with the appropriate support from the District, the program will be successful. Dr. Goree also announced that staff is presently putting in an over-age component whereby over-age students will serve as well as be in an environment where they can be successful. Mr. Hooks said he also spoke with Markey about job readiness and he does not understand how a student can be job ready when failing these classes. With his concern being academics, he said that is why he believes we send these students to Ombudsman.

Mrs. Moore responded to Mr. Hooks request that she is not familiar with nor has she seen Mr. Hooks’ referenced report. Dr. Goree also reminded the Board that in December some very aggressive changes were made as to the on-line student grading system; and because the program was so new, some changes were made; and he believes if the Board will wait and look at this same report in another month, the percentages will show improvement. Mr. Hooks noted that the contract is up for renewal in March and he does not believe we need to wait until May. Mr. Hooks also requested to receive a copy of the contract, because when the Board approved it, he does not believe it was complete at that time. Dr. Goree said staff will provide that information along with the changes made in the grading process. Mr. Woolfolk also addressed Mr. Hooks’ request and explained that staff looked at the Ombudsman program as an alternative program for students that cannot handle themselves in a traditional learning environment. In talking with principals, he further explained they learned if there is anything we can do to help them it is with over-age students and how to help them be more successful. As a result, staff has talked with Ombudsman about shifting the four-hour programs and adding two additional hours to some, giving over-age students a six-hour environment (4 hours in the Core learning environment, followed by lunch, and then 2 hours in an enrichment program, i.e. reading initiative, building self-esteem, etc.). This program is evolving and staff continually looks at the needs, where we

are falling down, where we can improve, and where we can better serve students. Mr. Hooks referenced a phone conversation with a parent who noted three police officers at an Ombudsman facility for one student, which he does not agree with, and Mrs. Brown would never phone the police. Again, Mr. Woolfolk explained that an attempt is being made to mold a program customized to Caddo and Ombudsman has done this throughout the country with success. Mr. Hooks said he does not know if he is running again for School Board; but if he does, he does not want to see these students in worse shape and not improving, and he would like to see something done before election time.

Mr. Rachal stated he believes he is seeing only one piece to the puzzle and asked if staff can provide him with enrollment numbers in the program and the attendance. He also asked if there is information available on what Ombudsman is currently doing compared to what Caddo was previously doing and the success of that program. He also asked for information on how many Caddo students attending Ombudsman have come back into the District. He also asked if he understands correctly that staff is looking to renew the Ombudsman contract under different guidelines. Dr. Goree responded that is correct and the only way staff will pursue renewing the contract is if appropriate contractual changes are made that staff believes will result in a successful program. He noted he does not believe expectations for academic success were included in the original negotiations, and this is an important aspect in the contract renewal. Mr. Rachal added that with no additional information, he would vote to boot them; however, with what he hears staff planning on including in the contract renewal, he would like to see what these students have done. Knowing it is important to maintain academic fidelity, he believes with what staff is proposing to be included in the contract, this can happen.

Mrs. Bell stated her concern relative to the date on the data (report) presented, and Mr. Hooks explained that the information provided is an update to the previous report provided (in the fall of 2013) which included the first nine weeks. The information provided includes the 1st and 2nd 9 weeks of this school year. She also asked if it is legal to put a teacher's name on a document for publication. Mr. Abrams said you can put a teacher's name, but not a student's name. Mrs. Bell added she believes the Board needs to see documentation on the new program in place and how the students scored on that test as well as assurance that the additional two hours for class includes some job skills. Dr. Goree stated staff will put together a comprehensive package of information for the Board.

Ms. Trammel asked how can a teacher successfully teach all the subjects as noted on the information provided. Dr. Goree responded that the Ombudsman Program is based on an on-line program, so the students are working independently on all the subjects as the teacher is assisting them where needed. By placing a district-paid administrator over Ombudsman, he hopes to identify those things that are preventing the students from being successful; and then staff will brainstorm to determine how the problem can be solved. Ms. Trammel asked if a student sits in front of a computer and does nothing, how can we insure that the student is receiving the proper instruction needed? Dr. Goree said he agrees that this generation does learn quickly on the computer; but he has the same question and is why he chose to place an administrator from the district at Ombudsman.

Miss Green asked how much are we paying Ombudsman, and Dr. Goree responded approximately \$3.4 million versus what it was costing the District (\$5.6 million); and he noted that if the Board chooses to move away from Ombudsman, we will need to be prepared to find an additional \$2 million in the budget. Miss Green also asked about the students' scores at Hamilton Terrace versus the Ombudsman scores, and if the Board could get a copy of this information before making a decision, because the current numbers are unacceptable.

Mr. Woolfolk addressed the additional two hours in the over-age program (A.M. Session) explaining that after the four-hour session, and lunch, students would attend an additional two

hours of enriched courses at no additional cost to the district. Dr. Goree explained that staff is in the process of gathering information on what is working and what is not. Miss Green said she believes we could trash the program for the high schools and look at the middle schools and their success. Mr. Lee clarified that Caddo was actually paying approximately \$7 million and is saving approximately \$4 million by using Ombudsman.

Mrs. Crawley asked for further clarification on getting someone else to do alternative, and Dr. Goree said he was speaking about something within the district and remodeled similar to how Ombudsman is set up. He also explained to the Board that it is definitely a trend to outsource alternative education across the nation, and districts are looking for ways to outsource successfully. Mrs. Crawley stated she believes we gave these students a full service program and now we have offered them a pogo stick. Mrs. Crawley reported on conversations with districts that have used Ombudsman where it did not work. Dr. Goree stated that oftentimes in education programs are abandoned too quickly before taking the time to work through the flaws; however, he believes the best thing staff can do is provide the Board with comprehensive information that will help the Board in making its decision. Mrs. Crawley inquired about the employee in place monitoring the program and the cost for this employee, as well as if, in negotiations, Ombudsman has agreed to do what we ask at no additional fees. Dr. Goree said he did not say that, but he did say staff is in the process of negotiations. Mrs. Crawley reiterated her comments that districts having experience with Ombudsman have trashed the program; and she stressed the importance of stressing results and decide if the District wants to provide an education for these students.

Mr. Riall stated he sees two classifications of students in Ombudsman, over-age and discipline problems, and asked if there are other reasons why a student would be placed in the Ombudsman Program? Mr. Woolfolk stated that originally it was just behavior and staff talked about credit recovery (night classes) and this year, after talking with principals, added over-age. The over-age program was implemented in the first semester on a voluntary basis, but it was four hours; and the principal stated the belief that because some students really need this type learning environment, added the additional two hours for the over-age students. Mr. Riall asked whose decision is it that a student is sent to Ombudsman? Mrs. Moore responded that the students are assigned to Ombudsman due to an expulsion hearing held at the school. Students are given a certain amount of time in accordance with Statutes and the disciplinary infractions; and the state mandated offenses, i.e. drugs, battery, weapons, against school personnel. As most of the infractions require one complete semester, there are expelled students from other districts who have served a portion of their infraction and Caddo will honor that time. She also explained that the Child Welfare and Attendance officers look at individual extenuating situations in placing students. Also, an additional component for over-age (2 or more years) students who are under credited was implemented this year, as well as for those students who do not do well in the neighborhood school setting or an alternative school setting. Mr. Riall asked if except for these type situations, does he understand correctly that the vast majority of the students are in the program as a result of discipline problems and Dr. Goree responded absolutely. Mr. Riall stated that having dealt with the closing of alternative facilities, he knows these students are truly challenged; and he asked if there is a program (inhouse or outsourced) that is successful with these challenged students? Dr. Goree responded that actually Ombudsman has shown some great success in some of their programs; and in gathering information for the Board, he will provide information in the comprehensive report as to Ombudsman successes. Mr. Riall stated that before we abandon what we are doing, he encouraged staff to do everything possible to find something that will work. Dr. Goree added that there are several companies that provide this service and staff can research this as well.

Mr. Abrams clarified that this is not a contract renewal because we are under a three-year contract and are entering the third year of the contract, and there is an established price for that third year. The cost associated with Ombudsman was decided by the current Board of Directors.

The contract states that if the District does nothing by March 30th, it will continue/renew for another year. It can be tweaked to add some things and unless the Board votes to cancel the program, it will continue as is.

Mr. Hooks explained that the first report presented to the Board in December was for the first 9 weeks and the report at Board member stations is the report he received from IT today. Mr. Hooks asked if the Superintendent and Board President have an answer to every question asked? Mr. Pierson and Dr. Goree said they do not; and Mr. Hooks said he asks the question because when Mr. Cooper stood before the Board, he could answer every question asked and he remembers when his Dad told him to be careful when a man can answer every question, because something is wrong; and he is still choking off the smoke he left in the boardroom in October.

Mrs. Crawley asked Dr. Goree in his investigation to distinguish between the children who are smart and accomplished academically versus a student with a behavior problem.

Mr. Rachal asked if he understands correctly that it is an automatic renewed contract unless the Board does something otherwise and Dr. Goree responded that is correct. Mr. Rachal asked the superintendent if he has sufficient time before the next Board meeting to determine what we will propose to them? Dr. Goree said that staff has been discussing this for approximately one month and he believes the information for the Board will be easily put together. Mr. Abrams clarified that this is not a contract renewal and the problem the board may run into is what will the Board do. He added he has discussed with the superintendent and staff what needs to be done to address these situations without increasing the cost. Another key factor will be to get additional services for students, because Ombudsman has been told that once a student is on the role they are taking up a slot and a key piece is if a student has not been present for 15 days, in the contract it will be declared vacant, even though the seat will not be vacated. He also said the State Department does not care about the grades at the alternative schools and they are not listed in the report. In dealing with the sixth period students, he believes they will be learning a lot more with the extended day. Mr. Rachal said he would suggest that Ombudsman be warned that they should get their information together prior to the next Board meeting when the Board is scheduled to vote on this item. He also encouraged the staff to discuss with Ombudsman, as part of their contract, to provide periodic motivational speakers to the students at Ombudsman.

Mr. Riall stated that when the Board looked at the statistics relative to Caddo's AU schools and one common denominator with all AU schools was absenteeism. He noted that the AU high schools and elementary schools' absences were double digit absences, as well as the improvement seen at Oak Park with the implementation of the new MicroSociety Program. Mr. Riall added if we can't get the students to attend, Ombudsman will not be successful.

Mrs. Bell asked about the previous process of the District Attorney fining the parents when students were truant, because that is something she still supports. She also noted the success of adding the Career component at Caddo Middle Career & Technology Center which she believes adding something that the students are interested in improves their attendance.

Mr. Abrams suggested the Board may want to add "Approval to Join MFP Law Suit", because the judge denied the class action status in this suit. As a result, if Caddo is still interested in participating in this law suit, it will need to vote on it. While he does have concerns relative to the agreement and the fees established in the agreement, if the judge rules that the 2.75% should have been included in the MFP formula, it would be to the district's benefit to participate in the law suit since anything awarded will only go to those districts participating in the law suit. He also explained that even though the judge may rule in favor of the districts, it will still require the Legislature to appropriate the money, and he reminded the Board there are a number of unsettled judgments still out there, and he will follow up on the fee and see if there is anything different that can be done.

Mr. Hooks stated he believes it to be important that we look closely at what the repercussion might be before moving forward. Mr. Rachal asked if this item is for the District to join in the class action or if the Board will file suit itself? Mr. Pierson said he believes the idea is to enter into the law suit with St. John because the judge has ruled there will be no class action. Mr. Rachal asked if staff could provide what amount does the 2.75% mean to Caddo. Mr. Rachal also asked if anyone has talked to the local Legislative Delegation about this issue and Ms. Priest responded that the Board will have that opportunity on February 19th.

Mr. Riall asked Mr. Abrams if he, as the Board Attorney, will make a recommendation to the Board relative to what it should do? Mr. Abrams responded it will not be much more than what has been provided because it is not clear if you will get the benefit of the judgment if you are a participant in the law suit or not. He also said it is his opinion in looking at the law suit that it is clear they did not include the 2.75% in the MFP formula, and it is only a matter of going back to a specific year prior to 2011 and determine if it was paid. He also stated he believes the issue is will it ever get paid by anyone based on the cash flow throughout the state and the fact that they have said they will put the 2.75% in the coming year's budget.

President Pierson announced that items 7.01, 8.03-8.08 are the consent agenda. *Mrs. Crawford moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda for the February 18, 2014 CPSB meeting as presented.*

POLL AUDIENCE

Emma Shepherd, Caddo Association of Educators (CAE), announced that CAE will host the 4th Annual Read Across Louisiana on March 1, 2014 at Mall St. Vincent (near Dillard's entrance), from 10 a.m. to 1 p.m. A proposed proclamation for the Board's consideration was presented and Board members were encouraged to participate on March 1st by reading to students that day. Ms. Priest asked that this proclamation be added to the agenda for Board action on the 18th.

Mrs. Bell asked that everyone pray for the faculty, staff and students at Walnut Hill who lost a teacher on Monday.

Mr. Rachal announced that the Building, Grounds, and Security Committee will meet at 3:30 p.m. on Wednesday, February 12th.

Adjournment. *Mrs. Crawford moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:46 p.m.*

February 18, 2014

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, February 18, 2014, in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Board member Curtis Hooks led the prayer and Pledge of Allegiance.

APPROVAL OF MINUTES

Mr. Ramsey moved, seconded by Mrs. Bell, that the minutes of the January 28, 2014 and February 7, 2014 CPSB meetings be approved as submitted. Vote on the motion carried.

RECOGNITIONS AND PRESENTATIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Southwood High School. Kathy Rettelle, supervisor of music, shared with everyone the importance of music in the schools and the role arts (music) plays in students' success. She explained how music is not always held to the same standards as other classes and it is possible to make mistakes and still make an A; and, the Southwood band members displayed the consequence if each member misses only one note in 12 measures. Following, they repeated without missing the notes to present the beautiful result of hard work and no mistakes.

Shreveport Bossier Mavericks. Donald Hobdy with the Shreveport-Bossier Mavericks introduced Coach Steve Tucker, Director of Marketing Deborah Green, and team members. Coach Tucker shared with everyone their involvement in the community, schools, the area's youth and their desire to mentor students. He announced that this team is the number one team in the ABA, winning two national championships in southeast Texas and playing for the third April 10-15 at Hirsch Memorial Coliseum in Shreveport. They have also won 48 straight games, the longest in history. Each player introduced themselves and shared where they are from and what college they attended.

2013-2014 Poster Contest Winners. The following students were recognized as grand prize winners in the Character Education Poster Contest: (1) Lanaya Bolden, 5th grade, J.S. Clark and Tyeran Thomas, 1st grade, Cherokee Park. The following students were recognized as grand prize winners in Bullying Prevention: (1) Haleigh Robinson, 5th grade, Summer Grove, (2) Ava DeLorenzo, 8th grade, Caddo Middle Magnet; and (3) Janai White, 12th grade, Caddo Career & Technology Center. Jaymee Deleon, 5th grade, Summer Grove, was recognized as the grand prize winner in the Red Ribbon Week contest. Zakiyah Rayson, 2nd grade, Cherokee Park, was recognized as the grand prize winner in the Mental Health Awareness contest; and grand prize winners in the Suicide Prevention contest are Caiya Davis, 5th grade, Cherokee Park, Lauren Wise, 6th grade, Caddo Middle Magnet and Stephanie Cervantes, 10th grade, Caddo Career & Technology Center.

Intel Science Talent Search Semifinalists. Anna Leskova, Caddo Magnet High, was recognized as a semifinalist in the Intel Science Talent Search. Miss Leskova's Biochemistry project was "Cellular Thiosulfate Metabolism and Proliferation Response in Regards to Angiogenesis Regulation in Ischemic Responses" and focused on the effect of a novel use of the thiosulfate in harvesting hydrogen sulfide. She is one of 300 semifinalists selected from 1,794

entrants representing 489 high schools in 45 states, the District of Columbia and 7 overseas schools.

2014 Louisiana Junior Science and Humanities Symposium. The following Caddo Magnet High students were recognized as winners at the 2014 Louisiana Junior Science and Humanities Symposium: Nicholas Larsen (1st place), Cole Evensky (2nd place); Neil Nathan (3rd place); Venkatesh Sivaraman (4th place) and Morni Modi (5th place).

Shreve Island Elementary named the *Leader in Me Lighthouse School*. Shreve Island Elementary was named the newest *Leader in Me Lighthouse School*, a program that equips students with self-confidence and skills they need to succeed and thrive in the 21st century.

Principal of the Year Finalist. Mary Rounds, principal at Caddo Magnet High, was recognized as a semifinalist in the Principal of the Year process.

Grant Awards. Caddo Career & Technology Center and Caddo Parish Magnet High were awarded grants (\$2,800 and \$7,265 respectively) from the Northwest Louisiana Master Gardeners. These grants will be used to design and plant a beautification garden at Caddo Career and a beautification project at Stoner Avenue and Viking Drive (Caddo Magnet High).

Administrative Appointments. Charles Lowder, director of certified personnel, recognized Jenifer Guerrero, assistant principal, Captain Shreve High School; and Erin Harp, director of Accountability and Instructional Support. Cleveland White, director of classified personnel, recognized Lisa Stringer Lloyd, director of purchasing.

As a personal point of privilege, Board member Priest noted the many outstanding performances by schools, students and personnel and encouraged everyone to do a better job of telling the Caddo story.

VISITORS

Jon Glover, employee, shared with the Board her thoughts relative to inconsistencies in support and decisions made. Referencing an article in Red River United, financial changes for Bossier Parish employees, in the event of employees receiving a 1.5% raise in the 2014-15 school year and 3.5% increase in 2015-16. She asked why an increase is not proposed for employees whose hands are tied. She noted that what is being done is tearing the Caddo District apart and asked if, by our own silence, these are good practices. She asked the question if these charter companies can do a better job than the public school system, what is Caddo's fate? Each time a student withdraws to attend an educational institution outside the public school system, Caddo's budget diminishes significantly. She said she believes the Board contributed to the current plight when it ignored the pitfalls that have been set forth; and she doesn't understand how Caddo can say it can successfully educate every child equally when every child is not being exposed to the same educational opportunities or resources. Knowing that not every child will be successful, Ms. Glover stated she can attest to the fact that if resources are withheld, these children will definitely not be successful. She believes equity across the Board should be aspired and noted how she has been dismissed in this setting because no one wants to hear constant reminders that we are exercising practices that do not promote equity or equality of education resources. Ms. Glover said she recognizes that schools do not fail, but the students fail; and she closed by saying that every time she speaks, she speaks on behalf of every child being provided access to a quality and equal education. As a Christian, she knows the Lord is her Shepherd and it is He who stands with her when she addresses the Board and He who directs and protects her from any actions not in concert with promoting quality for all students. She noted the possibility, by walking in faith, to do what is right; and if she has offended anyone, she apologizes, but she is a true advocate for equality across the board relative to educational resources and opportunities.

Jackie Lansdale, president of Red River United, asked the Board for direction in two major issues: (1) grievance procedures relative to an alcohol and drug violation and the Board's revisions to that policy in September 2013 to insure privacy. Being one year later from the filing date, nothing has been done to make changes to the policy to their knowledge, and the privacy of employees is still not being protected. Also, (2) when employees' felt their rights had been violated when the promised planning time was never provided, the grievance process was followed, but six months later there is no resolve. She asked the Board for direction in what they wonder to be an irrelevant process and if they are better off going straight to court? Mrs. Lansdale stated that they feel a sense of urgency when they are hearing what principals are telling their staffs relative to a seven-period day...that lunch breaks will be cut and the state law that mandates 30 minutes for lunch will be violated. She also noted that with the changes there will be larger classes resulting in a violation of BESE's Bulletin 741, and unless the Board is willing to listen to its employees in a timely manner and act according to the Board's motions, policies and laws, and if the Board fails to provide direction or show no respect for the process, then they will consider further action.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration at the February 18, 2014 CPSB meeting, and the following discussion ensued. President Pierson recommended items 6.02, 7.01, 8.01-8.07, 8.11-8.12 and 13.01 as the consent agenda, and announced that Mr. Hooks has pulled 8.08 "Discontinue Service with Ombudsman". *Ms. Priest moved, seconded by Miss Green to establish the proposed agenda and consent agenda. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Riall moved, seconded by Mr. Hooks, to confirm the Consent Agenda (Items 6.02, 7.01, 8.01-8.07, 8.11-8.12 and 13.01. Vote on the motion carried unanimously and the following is a summary of the Board's action on consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports. The Board approved the personnel transactions report for the period of January 1, 2014 through January 31, 2014 as submitted in the mailout.

Item No. 7

7.01 Sale of Hamilton Terrace (Re-bid). The Board approved staff's recommendation that with no bids being received it will re-bid at a later date.

Item No. 8

8.01 2014-15 Capital Projects. The Board approved Professional Designers for 2014-15 Capital Projects, as well as the additional projects not previously approved by the Board, as recommended by staff and submitted in the mailout and placed at Board members' stations.

8.02 Resolution of Continued Employment-Classified Personnel. The Board approved the resolution directing the superintendent to write letters of reasonable assurance of continued employment as recommended by staff and submitted in the mailout.

8.03 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.04 Approval of Herndon Agricultural Lease. The Board approved the bid of Chadwick Peninger, totaling \$2,005 per year for 5 years, for the agricultural lease of Herndon as recommended by staff and submitted in the mailout on the bid tabulation sheet.

8.05 Authorization to Piggyback on Bossier Parish School Board Bus Bid. The Board approved staff's request to piggyback on Bossier Parish School Board's ITB 2010-11-50 bid for special need buses as recommended by staff and submitted in the mailout.

8.06 Permission to Piggyback on CPSB Comprehensive Early Childhood Equipment Bid. The Board approved for parish school boards and governmental agencies in Louisiana to piggyback on CPSB's Comprehensive Early Childhood Equipment, Materials and Supplies – Catalog Bid (#06E014) as recommended by staff and submitted in the mailout.

8.07 Cooperative Agreement and Resolution-City of Shreveport. The Board approved the cooperative agreement and resolution between the CPSB and the City of Shreveport as recommended by staff and submitted in the mailout.

8.11 Read Across Louisiana Proclamation. The Board adopted the Read Across Louisiana Day Proclamation as submitted in the mailout.

8.12 Long-Term Use of Caddo Facility. The Board approved the request for long-term use of Central Elementary School by Louisiana Virtual Charter Academy as recommended by staff and submitted in the mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for students CH, KS and TT whose parents are in agreement.

APPROVAL TO JOIN MFP LAWSUIT

Mrs. Bell moved, seconded by Mr. Hooks, to authorize execution of the resolution for Caddo to join with the MFP law suit and the fee agreement as submitted in the mailout.

Mr. Rachal stated that he has not seen the lawsuit and Mr. Abrams explained that the resolution, which states what is in the lawsuit, and the fee agreement are attached to BoardDocs. Mr. Rachal asked Mr. Abrams if he has reviewed the lawsuit and Mr. Abrams said he has. Mr. Abrams said he believes the lawsuit to be a viable lawsuit, however, the question is whether or not the District would recover anything from it; because if the judge rules in favor and it is a sizeable judgment, it still must go to the Legislature to actually pay it. At this time, we are currently pushing for the Legislature to include the 2.75% in the MFP for this year as well as for a past year, and the question is whether or not the Legislature will approve it. He reminded the Board that the fee agreement is a contingency fee contract and will not require Caddo to pay any expenses for legal fees if they are not successful. Mr. Abrams also noted the change in the agreement removing the 10% fees and adding a reasonable attorney fee as determined by the court that has jurisdiction of the matter, which he did on the fee agreement as well. Mr. Abrams said he does not want the Board to move forward and have to pay a 10% fee based on the contract if there is not a lot of work to be done. Mr. Rachal asked for clarification that the resolution will be to join the lawsuit, however they may not accept it based on our change to the fee provision. Mr. Abrams stated the main risk is if you don't join the lawsuit and the judgment

is only for those participating in the lawsuit, then Caddo may not get anything. Mr. Rachal stated it is his hope that this will make the State more transparent in the future and not change the rules as we go; and if the case is won, that Legislators will abide by the law, and if they lose, make them pay.

Mr. Riall asked Mr. Abrams to explain how a judge can rule and the Legislature can ignore it. Mr. Abrams said it is because the Legislature appropriates the funds to pay the judgments, especially if it is one against the State, and tons are not paid, because they are not budgeted.

There being no additional discussion, *the vote on the motion carried with Board member Riall opposed.*

DISTRICT TRANSFORMATION AND INNOVATION OFFICER

Ms. Priest moved, seconded by Mr. Hooks, to approve the district transformation and innovation officer position, funding, and that the Human Resources Department posts the position as soon as possible as recommended by the superintendent and submitted in the mailout.

Miss Green asked Dr. Goree to highlight this position and Superintendent Goree explained that in working with the University of Virginia to turn our schools around and insure that transformational leadership is provided for those schools in the future means having someone totally devoted to that purpose. He said this was a vision prior to meeting with the University of Virginia, but when meeting with them learned that one of their requirements is that a “shepherd” position is in place to oversee the leadership of the 10 failing schools. He further explained that this person will work directly with those schools with a goal of seeing transformational and innovational practices implemented that lead to student success. Dr. Goree also stated staff has worked very closely and diligently to develop a job description that specifies we are looking for someone with experience in transformational and innovational leadership which means this will be for someone who has a track record of taking schools that resemble Caddo’s failing schools and turning them around to be successful.

Mrs. Crawley asked if there is a term (length) on the contract for this person; is it for as long as we are under the RSD? Dr. Goree said on a short-term basis, we are looking at this position until there is a turnaround; but being an urban district with some issues that plague urban school districts, he perceives this to be a permanent position. He also added that to see an urban school district as an “A” District, it is important to be transformational and innovative in strategies; and he believes with the appropriate staffing and decisions, Caddo can see every school in the District as an “A” school. Mrs. Crawley asked if the position is submitted (posted) as a permanent position or as long as we are under contract with the University of Virginia, and Dr. Goree responded that it will be posted as a permanent position.

Mrs. Bell stated her agreement that this position will be a permanent position, because over the next two years, the schools under watch hopefully will come out of failing status, but if not monitored, other schools could become failing schools. Superintendent Goree stated that when looking for someone with a proven track record, he will look for not just the 10 schools to benefit, but all Caddo schools to benefit from strategies that are put into place. When talking about the reconfiguration of schools, he reminded the Board that this is so much more than moving kids to a different building, but about the transformational and innovative practices that are put into place to make the student successful.

Mrs. Crawford asked about the cost for the position and the superintendent explained that the position was graded by the outside consultant and the exact salary range will depend upon the qualifications and characteristics of the candidate, but the position was graded a Level E which is

the same grade as the area directors. He also said that this position will serve as a member of his executive cabinet and that is at the recommendation of the University of Virginia.

Mr. Riall asked how staff will proceed with advertising this position and Dr. Robinson explained the initial plan is to post locally and regionally and dependent on the applications received, they will determine the need to expand.

Mrs. Armstrong asked the superintendent how many staff people will be hired? Dr. Goree said they are looking to work within the current staff in place. He further stated that he and his Chief staff members are looking to restructure the organization and what we do as a school district, and they believe the personnel to staff these schools are there. The person in this position will supervise approximately 3-5 persons because it is important that someone is in these schools every day, and the only additional personnel will be this position and possibly clerical later.

Mr. Ramsey moved, seconded by Mr. Hooks, to call for the question. Vote on the motion to end debate carried with Mrs. Crawley opposed.

Vote on the main motion carried unanimously.

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Superintendent Goree reported that weekly conversations with the Recovery School District continue and they believe progress is being made in our efforts. At this time, he also reported that staff is working to finalize contracts with the University of Virginia and the PGC Group, and will work closely with the RSD to make certain that the needs for both organizations are met. He added the weekly conversations have been very beneficial and he will have a written report as we move forward to support what we are doing with the RSD.

Mrs. Bell asked if the report will address dealings with the RSD and if staff has talked with the schools that will be impacted. Dr. Goree said he, along with staff members from Human Resources and Academics, met with faculties, answered their questions, and provided them with a staff contact so they feel comfortable in calling about any questions they may have. Dr. Goree also stated that staff is diligently working to adhere to the timeline so staff can be informed as to where they will be located for the next school year as soon as possible. Knowing and respecting that this is a difficult time for employees, they are hoping to minimize the stress as much as possible through this transition. Mrs. Bell shared her conversation with four employees that will be moved and how positive they were about the changes and thankful they have a job. Dr. Goree added he and staff have attempted to convey to these employees that they will be taken care of through this process.

ANNOUNCEMENTS AND REQUESTS

Ms. Priest reminded Board members that on Wednesday, February 19th, at 11:30 a.m., at the SkyBox, Independence Stadium, Caddo will host the Annual Legislative Luncheon. She reported that seven of the 14 school boards in Northwest Louisiana will be represented.

Mr. Riall reminded all interested that an Audit Committee meeting will be held on Thursday, February 20th at 2:00 p.m., and also the North Caddo Lady Rebels are the leading girls basketball team in District 2-A in the State and playoffs will begin on Thursday.

Miss Green expressed thanks to Billy Wayne for successes noted in his after school program at one of her schools. She also asked if the Audit Committee could provide her with a list of how many audits have been conducted and who has yet to be audited.

Mr. Hooks asked staff when will proposed revisions to Policy GBCD (Drug and Alcohol) come to the Board for approval? Mr. Hooks noted that these proposed revisions were discussed last September and the Board upheld administration's recommendation regarding a grievance brought to the Board with the stipulation that this policy will be reviewed and revised to provide periodic training for employees and to provide a procedure to insure that actions taken remain private. Mr. Ramsey called for a point of order because this is not an agenda item for discussion.

Mr. Rachal announced that the Building, Grounds and Security Committee met today and he will bring a bulletin report to the Board next month.

Mr. Pierson announced that while it may not be noted, the committees are working hard to make sure that those matters that arise are reviewed and discussed in committee before a recommendation comes to the Board.

Mrs. Crawley asked about the actual seat time for elementary students for lunch. She also asked if staff reviewed and considered the high school schedule Dr. Brian Salvatore emailed to the Board members and superintendent regarding a modified seven period day. She also asked when will the employee committee be established.

Mrs. Bell announced that the Huntington High School Girls' Basketball team beat the Number 1 team Loyola and they will travel to Baton Rouge. Also the Huntington Boys' Basketball Team is Number 1 again and will now work on winning the State Championship.

Ms. Trammel announced that the Transportation Committee will meet on March 4th at 2:00. She also invited everyone present to attend the National Baptist Convention of America Conference February 26-28th at Peaceful Rest Baptist Church.

Adjournment. *Mr. Hooks moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:12 p.m.*

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, Sr., President

February 18, 2014

The Caddo Parish School Board (**CPSB Building, Grounds and Security Committee**) met on Tuesday, February 18, 2014, in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Barry Rachal presiding and the following Committee members present constituting a quorum: Mary Trammel, Charlotte Crawley, and Dottie Bell. Also present were ex-officio members Carl Pierson and Bonita Crawford. Others included Larry Ramsey, and staff members T. Lamar Goree, James Woolfolk, Tommy Smith, Steve White, and Roy Murry.

Roles of the Building, Grounds and Security Committee. Chair Barry Rachal called the meeting to order and highlighted what he believes are the Committee's roles. The following was agreed upon by the committee:

- To view Caddo Parish as a school system...not a system of schools.
- To collaborate with staff to determine the priorities that fit into our long-range plan.
- To explore ways that we can maximize our assets and minimize our maintenance and operating costs.
- To make Caddo Parish Schools environmentally friendly.
- To be forward looking as to the needs of new and repurposed school campuses.
- To review and make appropriate recommendations to the Board on capital projects budget and schedule items.
- That Health, Safety and Security will be the overriding factor in all decisions.
- To collaborate accordingly with other Board committees.
- To follow CPSB Policy BCE.

2014-15 Capital Projects. Dr. Goree explained that the District does not do "brick and mortar" with capital projects funds, and Mr. White clarified that the money for capital projects comes from bond funds; however there was a collaboration of bond and capital projects funds for the South Highlands Performing Arts Center and the Walnut Hill Gymnasium.

Mr. Rachal noted that over the past two years, the District had to come up with approximately \$6 million in order to address some capital projects. Staff explained that staff puts together a list of priorities by asking each school to provide staff with three wishes (aside from new buildings since they are funded through bonds), and staff (directors) along with a committee looks at the requests received from each school and places them in a three-year capital projects plan for the Board's approval. Tommy Smith, director of maintenance, reported that his department maintains a book for each school on what needs to be done. Mr. Rachal asked of staff if there is a more efficient, effective way to address the Capital Projects budget, because it is staff that the Board counts on to determine the most efficient and effective plan for addressing capital projects. Mr. Ramsey reminded everyone that the Parson's Facilities Study defined priorities at the school sites for principals to follow; however, he noted there have been a number of changes in principals. Mr. Rachal stated that he would like to know if there is a more efficient and effective way to address capital projects without totally eliminating the principal or his/her designee at the school for input.

Discussion was also held on how the work of the Building, Grounds Committee coincides with the Long-Range Planning Committee. Mr. Ramsey stated that the implementation of Board committees was to address daily needs that may arise and the Building, Grounds was separated from Long-Range Planning because it does have some needs to address.

In looking at a future bond, Mr. Rachal asked where the Building, Grounds Committee would fit and what would be needed from this committee. Superintendent Goree clarified the Building, Grounds and Security Committee is to address short-term needs and a strategic bond issue would address future needs, which the Building Grounds Committee would help prioritize. Mr. Rachal

asked about a list (from the \$500 million Parson's Study List) for the committee to review and determine for recommendation what would fit into a proposed bond issue.

President Pierson asked for a report to be shared at the work session that this committee is meeting and what it is proposing to do in the near future.

There being no additional discussion, the meeting adjourned at approximately 4:20 p.m.

February 18, 2014

The Caddo Parish School Board (CPSB) **Long-Range Planning Committee** met on Tuesday, February 18, 2014, in Room 1, at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Lillian Priest, and Barry Rachal. Mrs. Armstrong and Mr. Hooks were absent. Others in attendance were Superintendent Lamar Goree, James Woolfolk, Dr. Mary Nash-Robinson, Jim Lee, Carla Moore, Steve White, Janis Parker and Keith Burton, as well as several employees from IT.

Proposed Attendance Zone Changes to Align with Board-approved Reconfiguration Plan.

Dr. Mary Nash-Robinson, chief of staff, stated that in talking about the reconfiguration of schools, staff has looked at what the District will look like, including addressing the attendance zones that will provide feeder patterns. Along with the proposed changes to attendance zones, Dr. Robinson added it will be necessary to look at the schools' staffing allotments.

Keith Burton, chief academic officer, highlighted the reconfiguration plan approved by the board and staff's recommendation for aligning the attendance zones with that plan, along with how schools will change as neighborhood feeder patterns are implemented. Carla Moore, director of child welfare and attendance, explained the proposed feeder patterns and Steve White, director of capital projects/construction, highlighted the proposed changes in the attendance zones. Staff also explained that the proposed changes will clean up attendance zones so students attending a neighborhood elementary and middle school will also attend the high school in their attendance area. A copy of the information shared with the committee is filed in the papers relative to the Long Range Planning Committee's meeting.

Committee members agreed that the recommendation to the Board should include that it is a safety target based on population shifts, taking into consideration future developments that staff is aware of. The committee also recommended that staff meet one on one with the Board members whose districts will be directly impacted.

The Long Range Planning Committee will meet again on Tuesday, March 4, 2014 at 10:00 a.m. to finalize its recommendation to the Board prior to the Board work session at 4:30 on March 4th.

There being no additional business, Ms. Priest moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 11:20 a.m.

February 20, 2014

The Caddo Parish School Board (CPSB) **Audit Committee** met on Thursday, February 20, 2014, in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Steve Riall presiding and the following Committee members present constituting a quorum: Curtis Hooks and Ginger Armstrong. Also present was ex-officio member Carl Pierson. Others included Larry Ramsey, Mary Trammel, Jasmine Green, Dottie Bell and staff members T. Lamar Goree, James Woolfolk, Jim Lee, Jeff Howard, Allison May, Sharon Golett, Otis Jones and Randy Watson.

External Audit. Nicia Mercer, auditor from Allen, Green & Williamson, shared the results of the 2012-13 school year audit, reporting an unmodified “clean” opinion for the audit. She explained the increases resulting from a deposit of approximately \$3 million in the OPEB account as well as the impact that could be seen in the next few years. Ms. Mercer compared this year’s revenue and expenses versus last year’s, reporting that there are no areas of concern. Additional areas highlighted included the internal service financials, i.e. self-insurance; fiduciary funds, pending Legislation, budgetary comparisons on each of the District’s funds, Federal programs and amounts received for the 2012-13 school year, findings on controls in payroll and problems experienced, concerns relative to too many persons accessing their own information, and addressing absences.

Discussion was also held on principals going back to the classroom (or a position below principal) and still receiving principal pay. Mr. Abrams explained that State Statute says when teachers are promoted to an administrative position they basically have tenure and can remain at that rate of pay even if moved; however, since that time the Legislature changed the law and tenure is no longer given in positions, but those in administrative positions are given a contract for no less than two years, and at the end of the contract it shall be renewed unless the Superintendent recommends not to renew.

Discussion was also held on too many persons having access to their own information, and Dr. Goree responded that this has been a concern of staff; however he believes staff has a plan for addressing these concerns. Ms. Mercer also addressed a second finding of a cross cutting targeting report which shows allocations to the schools based on children ages 5 to 17, yet some pre-school students were included. Mr. Lee stated that he has responded to these findings.

Mrs. Armstrong moved, seconded by Mr. Riall, to recommend to the Board acceptance of the external audit by Allen, Green and Williamson as submitted to the Audit Committee. Vote on the motion carried.

Staff and Board members expressed appreciation to Allen, Green for 10 years of service to Caddo Schools.

Recommendation for External Auditing Firm for the Next 3-5 Years. Jeff Howard stated that the recommendation for the external auditing firm for the next 3-5 years (and staff recommends 3 years) is Carr, Riggs & Ingram.

Mr. Hooks asked why is staff’s recommendation Carr, Riggs & Ingram. Jeff Howard explained that besides the fact they submitted the low bid, he doesn’t believe it is ever bad to save money and to also have a new set of eyes looking at the District’s financials.

Mr. Hooks moved to retain the services of Allen, Green for the next audit period. Motion failed for lack of a second.

Mrs. Armstrong moved, seconded by Mr. Hooks, to accept staff’s recommendation to accept the bid of the firm Carr, Riggs & Ingram and to recommend to the Board acceptance of the bid of

Carr, Riggs & Ingram for the audit years of 2013-14, 2014-15 and 2015-16 as presented in their proposal. Vote on the motion carried.

Transportation Audit Follow-up. *Mr. Hooks moved, seconded by Mrs. Armstrong, to recommend approval of the follow-up transportation audit report and that the Superintendent provide an additional update in 90 days.*

Update on SunGard. Superintendent Goree explained the process being followed to make a decision relative to SunGard, with staff is now working with the president of SunGard, and Sharon Golett is attending the weekly Cabinet meeting to report on the SunGard status. During the process, Dr. Goree said staff is looking at the finances for staying with SunGard, as well as finances for changing; and while all concerns need to be addressed, he believes working through staff is the way to address these concerns.

Mrs. Armstrong stated she believes one of her requests was tracking the financial state of the School Board and the number of transactions transferred from Legacy and SunGard, as she only wants to know that we are where we need to be and that we don't get here again. She added staff has provided examples, and continues to report, on how things are not matching up. Dr. Goree stated that while he understands it is a mammoth issue, he believes that as the issues and concerns are addressed, we can see improvements. He also reported that one of the biggest concerns is the number of payroll periods the District has and the belief that a large majority of the problems could be resolved if the District only had one pay period. The superintendent further stated that payroll is a process and Ms. Golett continues to work with SunGard to resolve these payroll-related issues. Mr. Riall asked if addressing the number of payrolls will help solve problems with SunGard and staff said it will help tremendously to only have one, but probably not resolve issues 100%.

Mr. Ramsey stated that it is unacceptable to be six years into a program and it is still not working; and now with the amount of money that has spent on the infrastructure , if we look at bringing in another system, we will only spend a lot more money. Dr. Goree again stressed that staff is continuing to work through these issues as well as explore other options.

Mrs. Armstrong recommended that a recommendation be placed on the next agenda to go to one payroll period per month and that the date be around the 20th day of the month. Dr. Robinson also stated the need to maintain direct deposit/debit card.

Adjournment. There being no additional business, the meeting adjourned at approximately 3:25 p.m.

March 4, 2014

The Caddo Parish School Board (**CPSB**) **Executive Committee** met in regular session on Tuesday, March 4, 2014, in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and Bonita Crawford and Mary Trammel present constituting a quorum. Also present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Board member Mary Trammel led the prayer and Pledge of Allegiance.

PRESENTATIONS

Ombudsman Report. Markey Pierre, representing Ombudsman, introduced Scott Russell, Regional Vice President of Operations; Lisa Chitty, Senior Vice President of Business Development; and Ralph Thompson, Vice President of Customer and Community Outreach.

She reported that believing all students have value and should have the opportunity to be productive and contributing members of society regardless of their circumstances, Ombudsman works with students to develop a strong foundation they can build upon for future successes.

Ms. Pierre highlighted some of the successes of Ombudsman students that were three and four grades behind in Math and Reading skills as well as the reinforced relationship Ombudsman has with the District to meet the needs of the students being served together. She also stated they wish to highlight a strengthened community commitment to provide preparation for students as they leave a strict educational environment and move into a workforce environment.

Mr. Russell highlighted an overview of the first semester data from the Caddo Centers, including involvement in community activities. He reported that Ombudsman is fully certified through Advance Ed, which has SACS Accreditation. He explained that the program focus is unchanged from last year and highlighted the teacher-led and computer-assisted instruction, which is a blended model, since students have different styles. Also, regarding attendance, social work services are offered and attempts are made to help the attendance record. He also reported they added the PBIS last year to address behaviors and continue to build on that support. He briefly explained the College and Career Readiness aspect of the program being used to build relationships with other students in the community to prepare them to successfully move forward to the next step, and he shared enrollment numbers, absences, etc. for the first semester (55 days), as well as the demographics on the population at each site.

Mr. Russell added they have discussed with students who are chronically absent, be it they are incarcerated or some other reason, available assistance to help them. He reported on first semester successes and looking at all courses offered to students, 42% of the students are receiving a passing score. Also, last year 44% received a passing score, and this is something Ombudsman continues to work on improving through teacher-led classes, E2020 classes and the Reading Plus/Reading Remediation program. He reported two additional hours a day are being provided to help students; and they believe with the things being put into place, they will see an increase by the end of the school year.

For students that come into the program three and four grade levels behind, Mr. Russell reported that the STAR program (a formative assessment given students upon entering the program and again when they exit) provides them with scale scores and grade level equivalences to show growth as well as to break down the specific deficiencies students may have in Math and Reading, helping to guide the teacher-led piece of the program, which is why they worked with Caddo's administration to add two more hours.

Mr. Russell highlighted some of the program enhancements, i.e. additional two-hour spaces at Academic Recovery using Reading Remediation programs.

Ralph Thompson shared that Ombudsman does not want to just reside in Caddo Parish but to become a part of the community, and they believe they are beginning to make strides in that direction. He shared activities Ombudsman has participated in as well as partnerships they have formed in the community, and staff will work with various College and Career Job Fairs and other outreach programs to not only become an intricate part of the community but to better serve the needs of the students. Mr. Russell reported a Job Fair was attended in November and one is planned for April 17 and one of the coaches' jobs is to bring people in from the community to work with students on etiquette, career planning, and specific life-changing issues geared to specific groups and life after high school, etc. Software is also made available to students to assist in building a resume' for use upon graduation.

In conclusion, Mr. Russell reported they are working on improving the pass rate, attendance, reducing behavior incidents in the Centers, and customizing partnerships with a longer middle school day.

Ms. Pierre added that Ombudsman has also worked very closely with the manufacturing community on opportunities for true livable wages as well as opportunities for student success in the community. She stated the Manufacturing Managers' Council, made up of plant managers for local manufacturers, has agreed to put together a job fair for Ombudsman so that the plant managers themselves actually talk to the students about the opportunities for employment in Shreveport and what they need to do to get there. Understanding this is a start, she believes this will strengthen the community piece.

Mr. Hooks asked about certified teachers and what Ombudsman is doing to attract certified teachers? Mr. Russell explained they have a corporate recruiter for Caddo Parish and they distribute postings for certified staff; however, in the meantime, there are subs in place as well as different ways to deliver the instruction by a certified person in the content areas. Mr. Hooks asked about the problem with attendance because of transportation? Mr. Russell stated he cannot speak to transportation, but stated that it is important to look at the student as a whole, which this is the social worker's main focus. With some students in the lower attendance graph because of incarceration, Mr. Russell explained these are still counted as absences, which creates a problem. He further stated that they continue to focus on what they can control and that is getting the parents and students involved in the wrap-around services; and they attempt to contact parents within the first half-hour if a student is absent. Individual plans are developed, but they do try to focus on what they can control. He added they will attempt in the future to break down and provide the Board a more accurate picture of absences. Mr. Thompson further stated there are a number of factors that contribute to absences; and realistically, transportation has been an issue when students are not picked up or are picked up late. Mr. Hooks asked if he understands correctly that we do provide transportation, and Mr. Thompson confirmed that some drivers have notified them that they forgot to pick up the students. The superintendent was asked to look into this situation.

Mrs. Crawley stated her appreciation for the difficult job Ombudsman has and asked about the passing rate on Page 4 of the handout, and if this means the same thing as a student passed the grade? Mr. Russell said this is taking all the courses students are working on and breaking it out by the number of total courses passed. Mrs. Crawley noted a transcript she received from Ombudsman, because she believes the comparison is not apples to apples since the students are not getting the same classes. Mrs. Crawley inquired about the additional two hours and if she understands correctly that this will not result in an additional cost to the District? Mr. Russell explained that is correct and that they cancelled night sessions and combined them with another Center's schedule. Mrs. Crawley asked what will the students be doing during these two hours?

Mr. Russell explained Language! (Reading remediation program) and Art. Mrs. Crawley asked if these are computer programs, and Mr. Russell responded they are not, but they are teacher-led instruction. Mrs. Crawley asked Mr. Russell about Ombudsman's retention rate after three years in a school district? Mr. Russell said he doesn't have that number, but can provide that information.

Mr. Rachal asked for clarification on the home school numbers, and Mr. Russell explained they are the total actual numbers of students and their neighborhood/home school for the first semester. Mr. Russell also reported there were approximately 411 students for the 1st semester and Mr. Cooper added that at any given point there are students coming in and exiting the program for various reasons; and based on the population total for semester 1 (from the first day of school to December 20th), there was a total population of students from Fair Park of 89 students. Mr. Rachal asked why the total of the numbers on the chart do not add up to the 411 students for the first semester, and Mr. Cooper said it is a running count and while today there may be 75 students at Fair Park, tomorrow there might be four IEP meetings and four students exit the program. Mr. Rachal asked if the 89 students is a snapshot of the students on one day, and Mr. Cooper said it is an average because the number can change dependent upon what day, week or month it may be. Mr. Rachal further stated that the School Board is working very diligently with Ombudsman to reach these children, yet no matter how hard each works individually or together, if only 70% show up, it's not because they are not given the opportunity to get an education, which he believes the community needs to know. Mr. Rachal also asked if consideration has been given to ask motivational speakers to speak to these students, because there are some tremendous motivational speakers in the Shreveport-Bossier area. Mr. Rachal also asked if students referred to Ombudsman are more likely to attend college or seek a career? Mr. Russell said guessing, he would say career versus college. Mr. Rachal asked if any coordination has taken place with the District's Career Center? Mrs. Baker shared with the Board that community career professionals have spoken to students at Ombudsman, including two Caddo Parish School Board members. Also, the students are given the opportunity to go out and interview with businesses in efforts to find employment and career paths. Mr. Rachal asked Dr. Goree to have our PR work with them to determine what we can do with some of the other trades, i.e. construction related jobs, etc. Dr. Goree added that Ombudsman mentioned wrap-around services and employability; and Caddo has assigned Carter Bedford to partner and work with the program to make it stronger, as there are issues that are beyond the classroom that need to be addressed.

Mr. Ramsey asked the superintendent about the information on the program enhancement and working with Ombudsman to expand the program for middle school students. Dr. Goree responded that when talking with any middle school principal, they will tell you their concern is the number of over-age students, and Ombudsman has provided an opportunity to serve these students. The goal was to be cost neutral, thus staff has not looked at ways to expand the number of seats, but staff will look at how we can use a program that is working to create more seats or come back to the Board for consideration of additional funds to address this need. Mr. Ramsey asked if there will be monitoring at both levels (middle and high schools), because he is interested in continuous updates on the passing data and the Math and Reading progress. Dr. Goree said he will add this as a monthly report under Superintendent's Report on the agenda.

Ms. Priest inquired about "life after high school" and if Ombudsman/staff is tracking the types of employment students are placed in, and what are some of the positions these students are in beyond. Mrs. Baker responded they do track the students and some positions in addition to the service employers including hospitals, tax preparers, volunteers at various places, as well as the Mayor's summer program through the City. Regarding wrap-around services, Ms. Priest asked about the services offered to families and the percentage of participation. Mr. Cooper responded Ombudsman is currently with two vendors, one of which is Changing Solutions, and they

involve the parents from the point of a student's entry into the program. To date, he reported between 25 and 40% of the parents actually meet with them.

Mrs. Crawford asked if jobs other than service-related positions are offered to the students? Mr. Russell stated that while many are in service-field jobs, it reflects on resumes their responsibility to work when the local manufacturing firms are brought in. She also asked if a student is taking Algebra II at their home high school, is that student offered Algebra II at the Ombudsman site? Mr. Russell responded they are via the E2020 program. Mrs. Crawford asked for clarification on comments that Ombudsman does not offer students the courses they are enrolled in at their neighborhood school. Dr. Goree said when a student is moved to the Ombudsman Program, the credits they are taking transfer back into the system. Mr. Cooper explained there is a course catalog that they match with what is in JPAMS, and periodically they may encounter a program that is unique to a particular school, but they do their best to match the course (we may list it as P.E., but they list it as wellness) the students are taking. He also explained that they meet with the student when they are referred to Ombudsman to work out and follow through with that student's graduation plan.

Chief Academic Officer Keith Burton responded that relative to the concerns expressed on course content, two changes were made last year where there was not an alignment with E2020 and Ombudsman, but at the beginning of this school year, 100% of the Ombudsman students were 100% E2020 and modifications were made in November to begin in the second semester to blend E2020 with teacher-led instruction. Also, E2020 is being customized to meet the needs of each individual student.

Miss Green asked about Linear listed under home schools and if a Linear student is attending Ombudsman. Mr. Cooper said at that time, there was one student from Linear. Miss Green asked if Linear contributed to the Ombudsman cost? Dr. Goree explained that if that student qualified for alternative school placement and they re-enrolled in Caddo Parish, they would be serviced at Ombudsman. Mr. Cooper stated that often students from other parishes come to Caddo and they have not completed their expulsion; however, they must complete their expulsion time at an alternative school before they can be enrolled in the neighborhood school. Miss Green asked about the cost for this student to attend Ombudsman. Dr. Goree explained that Caddo would look to recoup the funding when they enroll in Caddo, and he will follow up to verify that this is happening. Miss Green asked if she understands correctly that there will be no increase in cost with the revised Ombudsman contract. Dr. Goree confirmed that is correct.

Ms. Trammel asked for clarification of the "new" contract and Dr. Goree explained that it is not "new", but is actually a follow-up to the contract in place due to modifications in the program. Ms. Trammel asked if Ombudsman is meeting the state requirements, and he responded that is correct. Ms. Trammel also stated her concern that you can send students to school every day; however, if they are not where they need to be, we can't hold someone accountable. In wanting to save these children and sending them out to be a functioning member of society, doing the best of their ability, reality is not every child will go to college and not every child will be a model citizen. She further stated that students sent to Ombudsman are sent there with a problem or problems and she asked what can the Board do as we see the problems, who is responsible for working these problems so that the problems do not move from place to place? Mr. Russell stated that in looking at the success of the students and their program, they attempt to look at the small gains each year and look to enhance the program in place through the support of the administration.

Mrs. Bell asked about parental responsibility in this program and if Ombudsman has partnered with the District Attorney's office and/or the Sheriff's Office to address attendance problems. Mr. Cooper responded they have and JPAMS daily puts in the system and they receive a 7, 10

and 15-day consecutive absence report. He said they work with the probation officer and any student with excessive absences is taken to court along with the parent.

Mrs. Crawley stated she remembers the attendance being posted in the paper; and to her this is high. She asked the superintendent if she could receive the average attendance rate at Fair Park or Woodlawn. Mrs. Crawley also asked how this is calculated, and Mr. Russell explained it is based on the number of students actually enrolled in any particular center and is an average number of students that actually show up. Dr. Goree noted that the information is pulled from Caddo's JPAM system. She also asked about the "word on the street" that Ombudsman is out and if anything else has been looked into? Dr. Goree stated that when he came to Caddo, he assumed this was something the Board adopted and supported, so he did not see any reason why the program was not workable or that the Board wished to do anything different, thus he directed the staff to support and enrich this program so it provides a meaningful service to Caddo's students. Mrs. Crawley indicated that staff told her it was looking to go a different way and when Dr. Goree came, it changed. Dr. Goree added but the staff does not override the Board.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Dr. Goree highlighted items for the Board's consideration at the March 17th CPSB meeting and the following discussion ensued.

Attorney Abrams stated that a request was made to add a Level IV Grievance, re: Planning Period to the agenda.

Mrs. Crawley requested that an item be added to the agenda to add Increase the Budget by One Person for the Drama Elective at Caddo Middle Magnet. Mr. Pierson stated that adding an elective course should come as a recommendation from staff for the Board's consideration. If the Board approves doing so, then the staffing is adjusted to add the staff and the budget adjusted accordingly. Dr. Goree clarified Mrs. Crawley's request and staff will look into this. Mr. Pierson recommended that this be placed under Superintendent's Report.

Mrs. Bell stated that if a Board member asks for a teacher at a specific school, she would like to ask for a teacher at Huntington. Mr. Pierson clarified that is not the case, but the request has been made to the Superintendent for staff to look into it and report back to Mrs. Crawley. Mrs. Bell said then she would like for the Superintendent and staff to look at the possibility of another Home Economics teacher at Huntington.

Ms. Priest noted that the Board is preparing to begin next year's budget process and these requests have gotten us into trouble in the past, because at that point everyone will be coming forth with something they need. Mr. Rachal called for a point of order because this is not on the agenda. Ms. Priest noted that she is being interrupted, because this is something that does not need to arbitrarily be placed on the agenda, but it needs to go through the budget process.

Mrs. Crawley said the only issue is this is a budget item, and according to the Attorney, since the Board sets the budget, she can do this in the budget process.

Approval of External Auditor for Next Three Years. Mr. Hooks asked why can't we keep the current auditors since it has worked? President Pierson stated that a recommendation has come from the Audit Committee for the Board's consideration. Mr. Hooks said he is on the Audit Committee and it is his recommendation that we keep the current auditors. Dr. Goree stated that he respects the fact that the current auditors did an outstanding job, but it was put out for bid and staff had a rubric and reflects why the recommended auditor is presented for the Board's consideration. Mr. Hooks stated his confusion at staff presenting their recommendation to the committee and he questions why a committee meeting is needed if staff knows what they will do.

He added his remembrance of Board members being put out of a meeting last year, and he doesn't like it for staff to tell the Board what to do. Dr. Goree said staff will explain how it arrived at the recommendation and the Board can accept or not accept the recommendation. Mr. Hooks said Dr. Goree answered the question in his previous comment that staff works under the Board and he doesn't believe staff realizes that. Mr. Hooks added he will not come to these committee meetings when it is fixed; and while he saw the recommendation from staff, it is his recommendation to keep the current auditor. Mr. Pierson explained that it is a bid process; and if there is not a reason to not accept the lowest bid, that is generally the recommendation. He further stated the committee had the opportunity to accept the lowest bid or to vote for the same auditor we have used and the committee voted to accept staff's recommendation. Mr. Hooks said that is fine with him, but when the Board votes, he will vote no.

Mrs. Crawley asked if the CEEF program was audited? Mr. Lee explained that the auditors did a review of the CEEF; and while the earnings from the prior year are drawn down, there is no requirement to distribute these when the earnings are as small as they have been the past few years. Mr. Lee also reported that he has a CEEF committee in place and will call a meeting for the committee to decide if it wishes to recommend distribution of the approximately \$100,000.

Mr. Riall explained that the Audit Committee did meet; and since the Board is under a committee structure, the auditors presented the annual report to the committee. These reports were forwarded to the full Board. He further explained that relative to the external auditor, a motion was made to keep the current auditors, but there was no second to the motion. Another motion was made to accept staff's recommendation, and this motion was seconded and passed, which is the committee's recommendation to the Board. Mr. Riall also stated his understanding that staff does not work for the Board, and the only person who does work for the Board is the Superintendent. Thus, when staff's recommendations come to the Board, it is a recommendation from the Superintendent, which the Board can accept or not accept.

Mr. Ramsey added that the Committee voted to accept the low bid, which he believes is financially prudent; and while all the companies that submitted a bid are top-notch auditing companies, if we have the opportunity to save money, he believes we should.

Mrs. Bell stated that while she is not on the committee, she did come to the meeting and was told that Board members not in attendance would have the opportunity to hear the audit report. Mr. Pierson reminded the Board that the documents were forwarded to all Board members for review and to ask questions if they had any.

Mr. Hooks asked what is the purpose of the committee? Mr. Pierson explained that the committee structure was established for the purpose of eliminating much of the time spent in discussion in Board meetings. The committee receives the information for review and making recommendations to the Board based on their review of the information. He added the Board can ask questions and if the Board wants more information before taking action, it can vote to go that direction. He also stated that under the committee structure, all Board members are notified of all the committee meetings so they can attend if they choose to do so. Mr. Hooks said Board members can't attend the Superintendent's Cabinet meetings and make recommendations, and Mr. Pierson responded all Board members can attend any committee meeting, but may not necessarily make recommendations or state their position.

Ms. Trammel stated that she attended the Audit Committee meeting and she understands the recommendation; however, she is trying to understand if a committee makes a recommendation based on what staff provides, then it is submitted to the Board for consideration. She said she sees that this recommendation will save the District money, and maybe it is time for a change.

Proposed District Communications Policy. Ms. Priest stated she is happy to see this policy and procedure on how communication should be relayed for the Caddo Parish School District, because it will give a concise method as to who the spokesperson is for the District. She said most districts across the country have this in place, and it is better than having 15 different persons speaking on behalf of Caddo Parish Public Schools. She added she hopes that it is supported and strictly adhered to.

Miss Green asked Mr. Abrams to explain this policy. Dr. Goree explained this came from the Board retreat and the discussion on the concept of “One Board, One Voice”; and the thought is when the Board votes and a decision is made, the goal is to designate someone to speak on behalf of the Board and address the decision the Board made, regardless of what that person’s personal opinion might be. Also, from the staff’s perspective, there is also a concern that there are multiple messages from the different staffs (i.e. campuses, teachers, administrators, etc.) that are being done in the name of Caddo Parish Public Schools. Miss Green shared that a couple of months ago a decision was made to close Newton Smith and she questions if this means there should still be one voice on this action even though she didn’t agree. Mr. Pierson stated that this is the time to ask questions about agenda items; and on March 17th, will be the time to state support or non-support of the motion. However, once the vote is taken, there should only be one message and that is the Board voted to support or not to support. Mr. Pierson further stated that Board members have a voice for those they represent when discussing a motion, and he believes the community expects the Board to conduct the business of the District in a professional manner. Miss Green asked if this policy is adopted and the media comes to Board members to ask questions, should Board members send them to the designated spokesperson, and what happens if policy is broken. Mr. Pierson responded that nothing can be done to Board members breaking policy, but Board members are being asked to abide by this in good will and to show the solidarity of the Board in conducting its business. Miss Green said if nothing can be done then she is for it. Dr. Goree added that in the event staff breaks Board policy, there will be consequences.

Mr. Abrams explained that the policy is a way to protect the Board by directing the media to the correct person for statements so statements are not coming from numerous sources which could result in many different opinions and not necessarily the Board’s action. He also said the reasoning from the Board’s retreat was to project an image of One Board, One Voice and that the Board is together in moving the District forward, which is what the policy basically states.

Mr. Rachal asked if this is a policy that will go into the Policy Manual and it was confirmed that it will go into the Policy Manual. Mr. Rachal noted that the Board held an 8-hour retreat and he believes it was very constructive in the vigorous discussions held. He also said that once the Board votes and takes a position, he agrees that at that point, the Board will collectively say what the Board has done. He further explained he believes this is a way to hold Board members accountable, the same as staff is held accountable. Dr. Goree also thanked the Board for its work at the retreat, because as he travels around the City and talks with the communities, he shares that it was very obvious through the retreat experience that the Board truly does want Caddo to be the best school district it can be.

Mr. Hooks asked someone to explain number one on the proposed policy. Following Mr. Pierson’s explanation, Mr. Hooks asked for clarification that if the media approaches him after a Board meeting for an interview, he is to refer that media person to the Board President. Mr. Pierson said if it is anything to do with the action the Board has taken. Mr. Hooks stated his disagreement, because no one on the Board voted for him, but the people in District 5 did and he works for them. He added he doesn’t believe it is fair that the Board President is trying to take away his Civil Rights, because that is his freedom of speech, and what he tells the media is fact. He said he will not come to anyone to ask for permission to speak. Mr. Pierson reiterated that the time for a Board member to speak and address specific items is when that item comes up on

the agenda. Mr. Hooks said he has never said in an interview “they voted for this.....”, but he says “we the Board voted for.....”

Referencing Item No. 4 in the proposed policy, Mr. Pierson said he believes it is self-explanatory, and it is an attempt to have “One Board and One Voice.” Mr. Hooks responded it will not be that way and reminded everyone that when the Board voted on the new Superintendent, the Board voted down racial lines. Mr. Hooks again stated his disagreement that any Board member has to ask permission for anything. Mr. Abrams explained that one of the most difficult things a Board member does is try to determine what to say to the media and the intent is to give all Board members a break, by keeping the media from putting a microphone in a Board member’s face when they are not prepared to respond. If the comment comes from the Board President, it keeps comments coming from 12 different directions. This policy will let the media know there is one person they should contact rather than attempting to contact numerous Caddo School District employees and Board members. Mr. Hooks said the news media comes to him because they know he is going to tell them the truth.

Mrs. Crawley asked if she understands this policy as the possible need to train the Board and staff on the pitfalls of speaking spontaneously and what can happen when it is done. Mr. Pierson said the purpose has been stated and that is to have One Voice coming from the Board’s action. Mrs. Crawley said when the Board votes and approves (by 7 votes), then legally that is the Board’s position; and she doesn’t believe there is a need for a policy to state this. She also added that there is the possibility that the public may not agree with the recommendation, but she believes it is important to have communication. She also said she knows we do not want to come across as someone who is silencing minorities and noted an article in the newspaper but what was quoted in the newspaper was what the attorney and staff decided would be in the paper.

She also asked if this policy will hinder employees from speaking to School Board members? Dr. Goree stated that he is addressing staff speaking to the media, and more particularly speaking on behalf of the School District. In instances where staff members address the Board during visitors section on the agenda, Mrs. Crawley noted that the media could possibly quote them, and Dr. Goree clarified that is when they are personally addressing the Board, but not speaking on behalf of Caddo Parish Schools, and this is an attempt to protect the liabilities of the School District. Mrs. Crawley clarified that anytime she is quoted in the media, it is always about her opinion, no matter if she voted with or against the Board. She said she believes this policy is very confusing and weird, there is no teeth to it and it is open to interruption, and that One Voice to her is a dictatorship.

Ms. Trammel said she believes this proposed policy is wonderful, because she has seen some actions that do not lend itself that the Board is one. While everyone has opinions and each Board member can voice their opinion, she explained that anytime the media calls her house she always wants to know what the “body of the Board” is saying. If the Board is not being consistent in what it says, spontaneous comments can cause more damage to the system, thus one person being the spokesperson is what is best in responding.

Mr. Ramsey commented that he believes the policy is very generally stated and a good representation of what most public bodies, businesses, corporations have, i.e. Roberts Rules of Order. He said this is only a general guideline the Board can follow and it is not expected that elected officials will sit on their hands and say nothing, but there are times/occasions when that should be done – referred to the Board president and/or Communications Department. He said he appreciates this coming forward because he believes if followed, the business can be conducted faster and in order.

Mrs. Bell appreciates this because everyone knows that in the past three years, the Board has attacked each other, as well as been disorganized; and she believes this is a good move for the Board and the staff.

Mr. Hooks shared he will not apologize for anything because it is God that put him in the position and he feels like He has set him apart; and when someone comes to him, it will be rude to not respond to them.

Ms. Priest elaborated that during the Board retreat, this was brought up and those in attendance agreed upon it; and today it is being brought for the Board's consideration, and the Board votes for it or against it. She added that in a corporation the size of Caddo Parish Public Schools, you will not see people speaking to the media; however, there is a designated speaker for the different identifies. She stressed the important that there needs to be a change.

Approval of Changes to Attendance Zones. Mr. Ramsey announced that the Long-Range Planning and Development Committee met two times on this subject, with the first meeting long and very informative, resulting in staff meeting with Board members whose schools were directly impacted. When the Committee met today, it voted 4-0 to accept the proposed changes to the Attendance Zones. Ms. Trammel expressed appreciation to the Superintendent and staff for the hard work on this matter and for the clear understanding of changes in lines, feeder patterns and the moving of children in various schools. She is pleased and prays it will help without hindering any of Caddo's children.

Mrs. Crawley asked if any attendance lines in her district were impacted? Steve White and Carla Moore explained an adjustment was made for the attendance lines for Barret Elementary that affected approximately 29 students (West Side of I49) being shifted to Queensborough so they stay in the feeder pattern into Fair Park. He also stated that this adjustment allows for the least amount of movement of these 29 students. Mrs. Crawley asked if the adjustments are only in the elementary schools, and staff verified that the other schools in her district are not affected.

Mr. Hooks expressed appreciation to the Superintendent and staff for the work done on the changes in the attendance lines in his district. He also asked that staff continue to monitor the capacity at Fair Park since it currently is at 117% capacity. Mr. Ramsey also reminded everyone that the documents are on BoardDocs.

Sale of Hamilton Terrace. Miss Green asked about this being rebid and staff explained that it will now go out at \$650,000 which is 49% of the appraised value. Miss Green asked how this amount was determined, and Mr. Woolfolk explained it was determined by what we sold Laurel Street (\$303,000), and looking at the size of Laurel Street; and, with Hamilton Terrace being twice the size of Laurel Street, doubled that amount plus adding a premium for the amount of land. Miss Green asked if it doesn't sell at \$650,000, what is the next step? Mr. Woolfolk responded that at that point staff will get back together to assess and make a recommendation to the Board for consideration. He noted the issues that staff continues to deal with at Hamilton Terrace, i.e. destruction of the property, people breaking in and living in the school, and reminded the Board that if anyone gets hurt in the building, Caddo is financially liable.

Mr. Hooks asked how much it would cost to renovate Hamilton Terrace, and Mr. White responded that from memory about 1.5 years ago, the air conditioning was vandalized and it will be approximately \$750,000 just to redo the air conditioning. Also, he reported that vandals broke into one of the classrooms and set fire which has damaged that area. Mr. Hooks asked if there is security on this site, and Steve White said we do and there is also security fencing on three sides, and Maintenance applied plywood on all the building's windows, which is being ripped off and people entering. Mr. Hooks asked if there are cameras on this site, and Mr. White said there are not because when the new security camera system was installed and implemented,

Hamilton Terrace was offline at the time of renovation. Mr. Murry reported we do not have cameras at this site. Mr. Hooks asked staff what will be done to curb the amount of vandalism, and Dr. Goree responded that staff will sell the property and put the money in capital projects to be utilized for improving the online facilities. While hoping to get a maximum price, Superintendent Goree said the main concern is getting this property off Caddo's books. Mr. Pierson also noted the option of tearing down the facility if a bid to purchase is not received.

Mr. Riall asked staff to verify how many off-line facilities we have, and Mr. White responded that currently off-line facilities include Hillsdale, Newton Smith, Hamilton Terrace, Central, West Shreveport (being proposed to the Board to repopulate), George Washington Carver, Pine Valley, Rodessa and Linear (at least for the coming year). Mr. Riall also recapped the scenarios relative to buildings that have been off-line, and because Caddo could not get anything for them, they have deteriorated over the years; and he believes it is now time to address this.

Revision of Ombudsman Contract. Mr. Rachal asked about the cost of \$3.746 million for Ombudsman and the 30+ on campus program. Mr. Woolfolk explained that the 30+ on campus program is the program added addressing special education students (approximately 30 students). He further explained that this section is added because the numbers need to be adjusted to show 120 on campus where there previously was not and 300 off-campus with the closing of the North and East P.M. Centers (that were shifted to on-campus programs). The total cost is the same as it has always been, but some of the numbers shifted as a result of shifting the students to different programs. Mr. Rachal asked about a student missing eight or more days a month, and Mr. Woolfolk explained that this is an attempt to say a student is not attending enough to take up a slot, and thus another student can be placed in that slot without additional cost to the District.

Mr. Abrams added students have to be kept on the rolls because they are Caddo's students, but this agreement allows the student who is absent more than eight days to stay on the Ombudsman rolls, but we can add more students without any additional fees.

2014-15 School Year Calendar Revision. Mrs. Bell stated that November 4th is a big election day in the state and she would like staff to look at the possibility of closing schools that day for the safety of the children. Dr. Goree responded that staff will look at this.

Proposed 2015-16 School Year Calendar. Mr. Rachal inquired about the three days for Mardi Gras, and staff explained that this change is related to testing. Mr. Burton added at this time, we are waiting for the state to release the assessment calendar for 2016, which will possibly be in December, and at this time, the 2015-16 calendar images what is proposed for 2014-15. Dr. Goree added that as staff has returned to the Board for revision of the 2014-15 calendar, it will return to the Board to adjust the 2015-16 calendar, and he hears the concern that this is not a traditional length for breaks. Mr. Burton also explained that these breaks were added because with the ACT testing we must offer make-up testing through May 22nd and also the PARC testing next year will have two phases (Performance in the Spring and End of Year in May) and because of make-ups we must offer, it was necessary to extend the year, which created a need to add a day and the committee suggested a Mardi Gras day.

PROPOSED CONSENT

President Pierson proposed that the Consent Agenda will be Items 7.01, 8.01, 8.03, 8.05-8.09, and 8.11-8.15. *Ms. Trammel moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the March 17, 2014 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Daryl Roberson, president of the Caddo Association of Educators, expressed appreciation to the CPSB for the Proclamation in support of Read Across Louisiana. He also thanked Board members Priest, Bell and Trammel for reading to the children.

Jackie Lansdale, president of Red River United, encouraged the Board to exercise its duties as Board members and on March 17th support hearing the two grievances presented. She also reported that a teacher at North Caddo shared with her how much she loves teaching and the administrative staff at North Caddo.

Zonika Butler, parent of four children in Caddo schools, shared with the Board an issue that has taken place with one of her children being bullied for over a month. She explained she has reported it and asked the school to please address it; but because the school personnel dismissed it and did nothing, her daughter was again a victim of bullying which resulted in a fight and her suspension. She encouraged changes so that these bullying issues are addressed before students get into a fight. Mr. Riall asked that Mr. Pierson ask the Superintendent to contact Ms. Butler. She also asked that this be addressed in a CPSB Policy.

Adjourn. *Mrs. Crawford moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:25 p.m.*

March 4, 2014

The Caddo Parish School Board **Long-Range Planning and Development Committee** met in regular session at approximately 10:10 a.m. on Tuesday, March 4, 2014, in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Ramsey presiding and the following Committee members present constituting a quorum: Ginger Armstrong, Lillian Priest and Barry Rachal. Committee member Curtis Hooks was absent. Others present were Carl Pierson, Dr. Lamar Goree, James Woolfolk, Dr. Mary Nash-Robinson, Carla Moore, Steve White, Keith Burton, Bruce Daigle and members of the Information Technology staff. The prayer and Pledge of Allegiance were led by Ginger Armstrong.

Recommendation for Proposed Changes in School Attendance Zones. Dr. Mary Nash-Robinson reported that since the last meeting, staff has met with Board members whose schools are directly impacted and that the meetings went very well. Carla Moore shared updates to the proposed changes since the last Committee meeting and as a result of meeting with Board members, i.e. Huntington-Hillsdale area, etc., changes were made to insure that the children at Turner feed into the community school of Huntington, (about 13 students). Also addressed was a change in the Pine Grove area that did not impact any students, but it did bring the feeder pattern in the Green Oaks area in line.

Mrs. Armstrong commended all who worked on this task and for the information brought to the Board's Committee. Mr. Rachal also shared his appreciation for the work staff did in this process and how pleased he is with the results.

Ms. Priest moved, seconded by Mrs. Armstrong, that the Long-Range Planning and Development Committee submit the proposed changes in school attendance zones to the Board for consideration. Vote on the motion carried unanimously (4-0 vote with Mr. Hooks being absent).

Adjournment. *Ms. Priest moved, seconded by Mrs. Armstrong, to adjourn. Vote on the motion carried unanimously and the meeting adjourned at approximately 10:15 a.m.*

March 4, 2014

The Caddo Parish School Board (**CPSB**) **Transportation Committee** met in regular session on Tuesday, March 4, 2014, at approximately 2:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Trammell presiding and the following Committee members present constituting a quorum: Dottie Bell, Ginger Armstrong and Steve Riall. Jasmine Green was absent. Others in attendance were Bonita Crawford, Carl Pierson, Dr. Lamar Goree, Reginald Abrams, James Woolfolk and Otis Jones. Mr. Riall led the prayer and Pledge of Allegiance.

Presentation by American Traffic Solutions on School Bus Stop Arm Enforcement. David Jackson with American Traffic Solutions, shared information on a public awareness program to help others be more aware of the seriousness of running through a bus's cross arm. He explained this turnkey program puts cameras on the buses, their company provides all the maintenance and support, the camera is working as long as the bus is moving, and vendors have no role in processing violations, but they are sent to the police department for review and determination as to a ticket or citation coming forth to the guilty party. Mr. Jackson also announced their company has over 700 employees and 25+ years' experience, and the program has been very well received by the people, school boards and districts. Success stories in other districts were also shared; and if the Board approves, they would enter into an MOU agreement with the Caddo Parish School Board.

Mr. Jackson also answered committee members' questions, i.e. the Company providing all the needed equipment, the financial piece (60/40), successes, safety concerns and demands, tickets issued to the owner of the vehicle and not the driver, etc.

From this point, it was explained that staff will look at a draft agreement between ATF and the School Board as well as draft a MOU between the CPSB and the Parish/City; and after review, bring a report/recommendation back to the Transportation Committee for consideration.

Update on Late Buses. Otis Jones provided an update on the issue of late buses and that he believes the Jcalls to parents (while a learning experience) is a program that is working. He reported that starting December 1 through February, 127 Jcalls were made relative to 165 late buses and staff was able to successfully communicate to parents that the bus would be late. He further added the only caveat is if numbers for parents are not correct and/or they have changed, they will not get the message.

Update on Bus Driver Absences. Mr. Jones reported that staff is tracking the number of bus drivers calling in sick. A lengthy discussion was held on absences, accumulated sick days, etc.; and Mr. Jones stated he believes tracking absences and monitoring Fridays (in particular Fridays before holidays) has helped cut down on the absences because the word is out that the Transportation Committee is meeting, monitoring and receiving updates from staff on employee behaviors. Mr. Jones stated he is currently looking at employees on long-term sick leave, which is usually something serious; and he has been calling in the employees in a short timeframe of absences to determine if there is a problem. Mrs. Armstrong asked to receive a copy of forms and information used in the new system with the mechanics.

Board Member Request. Mrs. Trammel stated Board member Priest requested that the committee look at the rule regarding buses not transporting children living within a mile of the school. Mr. Abrams explained that Louisiana Statute 17:158, which stated that school boards should provide free transportation for any student residing more than a mile from the school, was amended in 2012 to change the word "shall" to "may". The committee agreed that bus transportation for students living within a mile should be addressed on a case-by-case basis by the Transportation Department as these issues arise.

Adjournment. There being no additional business, Mrs. Armstrong moved, seconded by Mr. Riall, to adjourn. The meeting adjourned at approximately 3:20 p.m.

March 5, 2019
CPSB Special Session

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, March 5, 2019 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana. Board members present constituting a quorum: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mr. Lloyd Thompson led the prayer and Pledge of Allegiance.

VISITORS

The following visitors addressed the Board on issues of concern: Jon Glover, impact of personnel recommendations on the budget.

PERSONNEL RECOMMENDATIONS

Mr. Rachal moved, seconded by Mrs. Locke, to approve the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout. Vote on the motion carried unanimously.

Adjournment. *Mr. Riall moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:40 p.m.*

Mary A. Trammel, President

March 5, 2019
CPSB Special Session

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, March 5, 2019 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana. Board members present constituting a quorum: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mr. Lloyd Thompson led the prayer and Pledge of Allegiance.

March 5, 2019
CPSB Audit Committee Meeting

Members present: John Albritton, chair; Denee' Locke, Don Little, Raymond Green, Dr. Bonita Douzart; and Superintendent Lamar Goree and Board Attorney Reggie Abrams. Also present were Steve Riall, Lloyd Thompson, Mary Trammel, Barry Rachal, Tony Nations, and Dottie Bell, as well as staff members Jeff Howard, Diane Atkins, James Woolfolk.

Chair Albritton called the Audit Committee meeting to order at approximately 2:30 p.m. and led in the Invocation and Pledge of Allegiance.

Establish and confirm the Agenda. *On motion by Dr. Douzart, second by Mrs. Locke, the committee established and confirmed the agenda as presented.*

Report by External Auditors (Carr, Riggs & Ingram). Tom Simms, with Carr, Riggs and Ingram, shared information on the following documents prepared as part of the Caddo Parish School Board Comprehensive Annual Financial Report.

- (1) Single Audit Report
- (2) Independent Auditors Report on Agreed Upon Procedures on the CEEF and BESE program requirements.
- (3) Statewide Agreed Upon Procedures Report which the State Legislative Auditor and Legislature have promulgated to be used to test certain best practices at every institution's level.
- (4) Comprehensive Annual Financial Report including opinions on the financial statement, reports on testing Federal Awards, reports on testing internal control structures with each having a clean opinion with the exception of one. He reported there were no material weaknesses to report, one significant deficiency, no instances of non-compliance which is different than what was reported in prior years. The Child Nutrition Program, the Special Education Program and School Improvement grants also were tested along with the CEEF Program.

The findings reported in the audit include:

- (1) Issues related to the purchasing cards and procurement controls which have been reported in the past and again this year. The concerns include inadequate documentation on purchases which management continues to address this concern by limiting the number of cards as well as institute controls to make sure adequate documentation is provided on purchases.
- (2) Theft at University Elementary in February 2018, and
- (3) Submitting the CAFR to the Legislative Auditor after the December 31, 2018 deadline because there was a significant accounting change in the District, as well as changes in what is presented on the financial statement relative to other post-employment benefit liability obligations. The significant change noted in previously reported financial statements was an increase of liability of approximately \$184 million. Auditors thought this was a number significant enough to investigate further with the actuaries who prepared it; and it was determined that the numbers were correct and the report was filed in January.

Mr. Simms also reported there were no findings related to Federal programs nor findings or compliance issues on the Federal Awards programs.

Lisa Salter highlighted management letter comments which included recommendations for the following improvements.

- (1) One of the special revenue funds did not have an approved budget;
- (2) Neither the Audit Committee or the Board formally reviewed or discussed the budget to actual finances during the year;
- (3) The General Fund beginning balance adopted was over-stated by \$7 million as a result of the CFO including the non-spendable and committed amounts and should have only presented the unassigned fund balance;
- (4) The School Board's policy states that the minimum amount of unassigned fund balance should be at least 10% of the General Fund's total expenditures and this year it was 1%. It is recommended the Board revisit the policy on this; and,
- (5) While the School Board was in compliance with the budget law related to variances, there were variances within the revenue and expenditures; and while the adopted General Fund budget was balanced (revenue equaled expenditures), there was an

approximate \$9 million loss in the General Fund in the current year. It was not balanced and included the \$5 million transfer from the insurance fund.

Mr. Simms also reported on the following additional management letter comments.

- (1) Byrd High School received a donation of improved items by a Booster Club that were not recorded and placed on the books as fixed assets. It is recommended that procedures be adopted to require any expenditure of a Booster Club given to the school with a capital nature valued over \$5,000 should be appropriately presented to the Finance Department for inclusion in the books.
- (2) Errors resulted in overpayment to employees totaling approximately \$69,000 and as of December 2018, there is still approximately \$42,000 to be collected.
- (3) An amount of money was paid in 2018 relative to experience credit penalties attached to amounts owed to the Teachers Retirement System. This is an on-going investigation between the School Board and the TRSL to determine the amounts due and procedures needed to track experience credits and proper reporting to the retirement system.

Mr. Simms stated that because the state doesn't allow them to retest items where there have been no exceptions in the past, they were able to drop a number of items looked at and reported last year. They also identified, based on established best practices as established by the Legislative Auditor, the following items.

- (1) Written policies and procedures relative to a phrase or small requirement as determined by the Legislative Auditor to be a best practice that should be included in Board policy but are not.
- (2) Budget to actual commentary at the Board level needs to be done according to the Legislative Auditor's Best Practices.
- (3) One incident in bank reconciliation was not researched and existed for 12 months or more.
- (4) In collections there were incidents in which there were persons responsible not only for making the deposits but also preparing the deposits.
- (5) No exceptions were found in testing credit cards beyond what they earlier reported in procurement cards and there was one incident of a contract not being approved by the person responsible for approving it.

Also reported by Mr. Simms were significant liabilities on the government wide statements for the net pension liability and especially the OPEB liability. The numbers on the government wide statement are significant contributors to the large net position deficit recorded for 2018. The net position for this statement is a deficit of \$1.125 billion and the governmental statements in the CAFR, which is a reflection of the daily operations, there are negative positions even with the positive fund balance. He further stated that the amount of these liabilities includes an amount of net pension liabilities (\$480 million) and OPEB liability (\$828 million) and the two totaled contribute significantly to the deficit shown on the books. He reminded the Board that this is not an amount the Board will pay out over the year but over the next 30-40 plus years; and if Board members are questioned about this, they should refer back to the governmental statement on the current operations.

Mr. Little asked if auditors are aware of other school boards with self-directed pensions in the form of a 401K similar to commercial businesses. Mr. Simms responded they rarely do in governmental entities because by law they have to participate in the pension programs. Sometimes they see 457 plans and deferred comp plans that are generally for a select group.

Mr. Riall asked about the \$5 million transfer from insurance and if this was for the pay raise, and it was confirmed it was.

Mr. Rachal inquired about the variances and how the adopted budget was overstated by \$7 million. Ms. Salter said it was an error of including committed funds that were non-spendable. Mr. Simms explained that the approach is to begin with what is considered to be the ending fund balance from the previous budgeted period and all that is to be carried over and used is the ending, unassigned amount, but the committed amounts were included and should not have been, which overstated the carryover amount. Mr. Rachal said he has not noted this on previous audits, and Mr. Simms said this is something that became apparent this year and the amount significant.

Dr. Douzart asked about the approximate \$9 million loss in the General Fund and what this included. Ms. Salter explained that the CAFR (page 37) reflects the General Fund, the permanent fund (CEEF), and non-major governmental funds (details provided in the end of the

CAFR), and a net-change in the Fund Balance of almost \$9 million indicates approximately \$9 million was spent above the revenue. Dr. Goree added that he believes when staff presents the Financial Department audit, some of these questions will be answered.

Mrs. Bell asked if this will be voted on today, and Mr. Albritton explained there is no vote to be taken today and the Committee is receiving the report today along with some reports from the Internal Audit Department which he believes will provide additional details.

Mr. Simms encouraged Board members who have questions to not hesitate to contact them.

Finance Department Audit. Jeff Howard, chief internal auditor and interim chief financial officer, presented an executive summary of the Finance Department audit to avoid sharing any information that could possibly be deemed as a personnel matter. He highlighted this summary and the detailed recommendations to staff and management that are now being addressed. Mr. Howard said with this being an internal audit, his staff looked more at the details and reported that this audit reflected:

- (1) Sufficient procedures were not in place to monitor the financial condition of the district which resulted in an approximate \$8.5 million in deficit spending for the 2017-18 fiscal year. He added this deficit has left the District with an undesignated fund balance as of June 30, 2018 of \$3 million or .8% of the projected budget. He said the budget revision presented and approved by the Board in March 2018 overstated the undesignated fund balance by \$8.4 million which is slightly different than the figures presented by Tom and Lisa. He said he believes expenses could possibly be under budgeted by approximately \$14.3 million for the current 2018-19 budget which exceeds the current undesignated fund balance, as well as the MFP revenue possibly being overestimated. He added the budget presented and approved by the Board reduced the funding for vacant positions by \$8.1 million but the positions were not removed from the budget.
- (2) Controls recently were put into place since the District did not have sufficient controls in place to monitor receivables, accounting for cash receipts or to insure ACH payments are reasonable. At this time, Mr. Howard announced that Finance and Accounting operate as two separate departments and there is no one to contact about vital accounting issues when the CFO is out or unavailable which was an issue recently.
- (3) The Auditing Department provided 13 recommendations to management to address these issues.

Dr. Goree announced this audit took place over approximately five months looking in depth around finding ourselves in similar situations over the past few years resulting in these findings and working to bring amendments to the Board on how to address some of these issues within the current budget cycle as well as next year's budget.

Dr. Douzart asked how many CPAs are in the Auditing Department, and Mr. Howard responded there are two, himself and Kelli Duffield. Dr. Douzart asked about the changes in ACH payments, and Mr. Howard explained there are only a few large monthly ACH payments and a conversation with someone at the business is now required if there is a request to change information on the account as well as a completed form (which was not done in this particular incident). Dr. Douzart referenced the three articles in the past two months in the Shreveport Times concerning serious money issues with the CPSB. With this money being public money, someone needs to be held accountable.

Dr. Goree noted that in the University situation, an arrest was made via working with the Shreveport White Collar Crimes Division, and almost all of these funds have been returned and that person is no longer in Caddo. Dr. Douzart noted the report that CPSB has established procedures and asked if a follow up is being done on these procedures. Dr. Douzart asked about the procedures being used and Mr. Howard said procedures were not being used, and Dr. Douzart said she believes there is a need for a forensic audit of the entire Caddo Parish School Board, with every penny in the schools and in Central Office being accounted for.

Mrs. Bell said her only concern is the statement that "the District does not have significant procedures in place to monitor the financial condition of the School District" and what this means. Mr. Howard stated that when getting to the end of the fiscal year, there was a loss of \$8 million and no one knew it. Mrs. Bell asked what controls are needed, and Mr. Howard responded a financial statement analysis every month of what was spent compared to the budget, what was spent compared to last year and go deeper than what is shown on the printed financial statements. Mrs. Bell asked if this requires an employee to do this, and Mr. Howard responded this is now being done. Dr. Goree added that as a new CFO is put into place,

procedures and safeguards are being put into place so this does not happen again in the future. He said staff is also looking to increase communication with the Board as well as provide more opportunities to bring this information to the Board so it is more informed and aware. Dr. Goree stated he believes there were some efforts made in past administrations to look at where we were and do some analysis; however, staff is finding those were not the areas where there was a problem. Mrs. Bell asked what ACH stands for and Mr. Howard responded "Automated Clearing House", i.e. a wire where payment goes directly into an account. Dr. Goree explained this is referencing the Charter School payment where money is wired to the appropriate account. Mrs. Bell also asked for clarification of the positions and budget amounts, and Mr. Howard explained the Board is presented a budget that includes the dollar amounts and attached to those dollars is a listing of the positions. He further explained that the dollars for unstaffed positions were removed from the budget, but the positions were not removed.

Mrs. Locke asked about the report in March 2018 where the undesignated fund balance was overstated by \$8.4 million and what is the fund balance? Mr. Howard explained the undesignated fund balance is approximately \$3 million, and the designated number will include the health care reserve and the IT reserve totaling approximately \$60-\$70 million. Dr. Goree added that in looking at the designated fund, there are some accounts that have been dormant for a long period of time and they do have significant funds in them (outside the health care), and staff is currently running analyses on these and looking at options with all the District's revenue. Mrs. Locke also asked about the monthly analysis and the upcoming budget time, she believes an analysis presented to the Board might save some confusion. She encouraged including the Board in this, and Dr. Goree added that they will probably over-communicate in the effort to make sure the Board is informed. Mr. Howard and his staff were thanked for the work they have done to get the District to this point in addressing these issues.

Ms. Trammel asked the Chair about the procedure to retrieve overpaid funds to someone. Mr. Howard said if it is a former employee, it is not guaranteed we will get the money back. What about a current employee, do we set up an arrangement for the money to be repaid? Mr. Howard responded we do, and Ms. Trammel asked about those who make only a little money? Mr. Howard indicated we may give them a little more time to return the money. Dr. Goree added that respectfully, he believes most people who have been overpaid know they have received an overpayment. Ms. Trammel asked about things that have happened in the past and there were no red flags. Mr. Howard explained that is why receipts from procurement card purchases must be turned in because they show what was purchased; and while he cannot say we have collected all the receipts in the past, procedures are now in place to make sure these are collected. Ms. Trammel asked if it is handled the same at the schools and how the money is located if a parent pays for a jacket, doesn't get a receipt and never gets the jacket; and Mr. Howard explained that auditing would conduct an internal audit.

Mr. Thompson asked Mr. Howard if there is a need for more than two CPAs in the office, and Mr. Howard responded he is visiting with the Superintendent on the procedures and controls needed. Dr. Goree added that he is working toward, after the approval of the new CFO, to bring some modifications to the Board that will be within the budget and not create an additional expense.

Mr. Green stated that based on the audit, he believes we have crossed every T and dotted every I; and he has no qualms with the corrections being made. He said he would like to have a strong working relationship with CRI, and it appears we do, and this will be helpful in getting to a resolution with this issue.

Mr. Riall asked if a former employee continues to cash checks sent to them and they know they are not to receive them, is this not illegal, and Mr. Howard said he believes that to be a question for the Sheriff's Office. Dr. Goree stated his agreement, but believes the burden is on the District to fix the system so we do not continue to send a non-employee checks.

Mr. Rachal asked for clarification on the five months to determine where we are and what needs to be done, and Mr. Howard responded at least. Mr. Rachal asked if the information staff was given made the process more difficult, and Mr. Howard responded that information at times was difficult to get and he believes one area needing improvement is the reports available, and he noted the difficulty in understanding the financial statements that have been presented to the Board in the past. He has met with Accounting to develop a financial report that is more clear and concise. Mr. Rachal said he believes the Board will be inundated with questions on when and how this happened as well as the time it took for staff to research and determine what happened. Dr. Goree stated his agreement with Mr. Howard and the importance of making sure the systems being used to make projections are accurate and staff is prepared to make these necessary changes.

Mrs. Bell asked if it has taken five months to get to this point, does this mean the red flag was there five months ago. Mr. Howard stated that the commencement of this audit was a routine audit (as the Auditing Department is auditing every department/division of the School Board), and yes there were some red flags that staff believed warranted a deeper look. Mrs. Bell thanked Mr. Howard for moving on this matter when it was discovered and encouraged moving forward to have in place the necessary things to keep this from happening again.

Mr. Little asked Mr. Howard about the accountability in giving principals the authority to have a checking account for their schools? Mr. Howard explained the Auditing Department conducts full, medium and low scope audits; and at the beginning of each year, they analyze, based on risk factors, what they will do. At minimum, a low scope audit is conducted each year at every school, which means an auditor makes an unannounced visit to the school and does a cash count with limited procedures. Auditing also conducts a full scope audit in several schools every year.

Followup on the Payroll Audit. Mr. Howard announced that this report was mailed and emailed to Board members. He explained this audit was performed in 2013, and this follow up is late because the District instituted a new payroll system (SunGard) in July of 2017 and wanted to allow time before evaluating the controls with the release of this new system. Mr. Howard highlighted the following.

- No online approval process for absence reporting, which IT is working on,
- Cost of sabbaticals,
- Extra payments to employees are calculated manually and plans are in place to implement automation of these calculations,
- Need to automate the PR2 process, and
- Penalties for improper reporting to TRSL.

Mr. Howard announced that management is addressing these matters, and he also noted some additional issues needing addressed, i.e. employees on ESL still accruing vacation, as well as the policies addressing these matters.

Mr. Albritton said with the turnover in a school system, he believes there is need for additional remedial supervisory training in these areas.

Procurement Card Audit. Kellie Duffield shared with the Board highlights of the P Card audit conducted in the Fall of 2018, explaining the procurement card process implemented in 2003 and CPSB Policy DJEAA that addresses this. She reported there are 76 employees who have a P Card that allows them to make immediate purchases for items needed in their jobs. The majority of these work in the Maintenance Department. Currently, she reported CPSB receives .7% cashback from purchases made on the card and annual purchases total approximately \$1.3 million. The procurement card agreement is with J P Morgan Chase Bank and it was renewed in 2016 for five years with 2 optional five-year extensions. Ms. Duffield stated that in the scope of their audit, they selected samples of purchases within the current year to determine if they were appropriate, if the tax exempt status was utilized, and if they were properly approved and documented. Samples of pulled purchases from December 2017 through June 2018 totaled approximately \$730,000. Ms. Duffield stated it is their opinion that the expenditures with the P Card (with only a few exceptions) appeared to be reasonable and the exceptions noted were also noted in prior audits. She added it is their opinion that the P Card workflow process needs streamlining and training is needed for cardholders and supervisors. Specific findings and recommendations were also presented relative to the workflow process in Maintenance, and they have met with Purchasing and Maintenance to address this issue. It was also reported there were missing receipts totaling \$93,000 for the 2016-17 year, and \$56,000 in missing receipts for the 2017-18 year. Ms. Duffield stated that during the sample audit period there were also some policy exceptions relative to limits, i.e. individual transactions, daily transaction limits, maximum number of transactions in one day and maximum billing cycle limits. These exceptions were reviewed with Purchasing, and she noted the different limits on cards is not something reflected in Board policy and should be better documented. She also reported sales taxes paid on some purchases (82 purchases). The District is not supposed to pay sales taxes and the sales tax exempt status is now noted on the card. Employees sign agreements (two which could be combined) saying they understand. Ms. Duffield explained that in checking Purchasing files there were several missing applications and signed agreements along with missing receipts and it is believed more thorough training is needed and she highlighted other areas where change was needed in processing and using P Cards with improvement seen in the Maintenance Department providing necessary documentation for charges on the P Card.

Mr. Little thanked them for the report and noted an app that is linked to Concur which is a great application because receipts must be with the charge and if not, there is no approval. He added

his card is also coded so that nothing can be bought that should not be bought and asked if there has been any interest in exploring such a system that might minimize any opportunity for fraud. Mr. Howard responded that controls are in place that will not allow purchasers to buy inappropriate items but he also believes there is room for improvement. Dr. Goree added that staff is looking at implementing additional controls, i.e. taking a picture of receipts, etc.

Mrs. Locke asked if any additional avenues have been researched in this area, and Mr. Howard said we will be exploring other avenues to address full automation of the approval process. Mr. Riall asked about the 76 employees with procurement cards and what do bus drivers use to fill up their buses. Ms. Duffield responded they use Fuelman cards.

Mr. Nations referenced the items that were red flags and he believes a couple of these are somewhat sketchy; and having addressed and put into place controls and checks and balances, his concern is this information is public and intentionally transparent. Even though it appears certain areas are not being handled as quickly as it should be, and the bond millage is before the public in May, he believes the question will be asked "how can this be handled". Dr. Goree expressed his appreciation for the auditors in the District for the thorough investigation.

Ms. Trammel asked about the three limit amounts and she does not believe the amount was included in the policy and maybe it should be included. Mrs. Duffield clarified that the first four amounts are included in policy but the accepted amounts are not included in policy. Ms. Trammel asked if a person is traveling, can they use the P Card for food, and Ms. Duffield said they cannot but must turn in the expense on a voucher form. Ms. Trammel asked if receipts can be scanned, and Dr. Goree responded he sends pictures of receipts and prints them which are things we possibly can do.

Mr. Albritton stated that policies and procedures are fantastic; however, if someone wants to get around it, there are no policies and procedures we can put into place that keep someone from doing so; and it appears that supervisor responsibility is mentioned frequently in these reports and is something that needs to be addressed. Also if there are employees abusing the system, they do not need to be a part of the system.

Mr. Howard added that someone might look at the reports shared today and say everything is being done wrong; however, that is not the case as there are a lot of good things and there has never been a time when Dr. Goree has told him to hold back or to not say something because he desires to be fully transparent and do what needs to be done to get better.

Mr. Nations expressed appreciation for the work done by the Auditing Department and shared with the Board.

VISITORS

The following shared their thoughts and concerns relative to the matters discussed: Jackie Lansdale, Red River United, and Jon Glover.

There being no additional business, the Audit Committee meeting was adjourned at approximately 4:00 p.m.

March 5, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry F Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:40 p.m. The prayer and pledge were omitted.

PRESENTATIONS

Football N America Spring 2019 Program. Following a brief video, Rick Holland and Charles Johnson addressed an opportunity for Shreveport to participate in a program Drew Brees is bringing to Shreveport for students in March. LSUS will be the base camp this spring and it is an awesome opportunity to build a foundation for giving all the kids in the community an opportunity to participate in a non-contact, competitive and safe sport. The kick-off training camp (for students Kindergarten through 10th grade) will be open to all children who register on March 31st and the league will kick-off on Saturday, April 6th. Those interested in attending the camp only need to register on their web site. They will also look to expand the program this fall and to provide scholarships for students who may not be able to afford to participate.

Mr. Rachal thanked Mr. Holland for contacting him about bringing this great opportunity to the students in Caddo. Dr. Goree also thanked Mr. Holland and Mr. Johnson for their work in bringing this to Caddo's students; and while he does not have specific numbers today, several schools have indicated an interest in organizing teams. He also said he looks forward to what will be created in this initiative.

Mr. Holland stated that in his visits with leaders in the community including the Police Department and the City Council, the conversation stresses the importance of creating an environment within the city where the students have an opportunity to participate in multiple sports and the benefits.

Career and Technical Education Program. Victor Mainiero expressed appreciation to Mr. Rachal for reaching out in this area and for the work of the Foundation and the scholarships awarded to Caddo students. Board members were invited to attend this year's Scholarship Ceremony on April 18th.

Kenneth Berg, principal at the Caddo Career & Technology Center, shared with the Board information and history on the Career Center, the relationship between local businesses/industries and the students, and the student successes seen since its inception. Mr. Berg said the CCTC is a shared time center which means students share their time between CCTC and their home school; and CCTC supports all high schools, with the exception of North Caddo, with last year 25 different classes being available for the 904 students attending CCTC to choose from. Mr. Berg explained that CCTC offers a vast array of courses that not only meet the interests of the students but are aligned with the State of Louisiana and the State's JumpStart Program, a new career track for students allowing them to gain the skills necessary for them to be successful once they leave high school.

Mr. Berg reported that last year CCTC had 649 students earn industry-based certifications which creates opportunities for these students and the testing the students have is the same as when adults take these courses. In some instances, these students need additional post-secondary training which led Gard Wayt, Ron Adams and Gayle Flowers to create The CCTC Foundation for the purpose of providing funds for students that need this additional training. Since the Foundation's inception in 1996, 768 students have received over \$1.2 million. He explained that the Foundation gives 30 scholarships each year and shared the requirements to apply for them; and each year they receive approximately 118 applicants.

Ms. Green shared personal testimony of a family member who has been successful because of the opportunities afforded him through the CCTC so she has seen the importance of this program in preparing students to compete in a global society.

Mr. Rachal expressed his appreciation for the presentation and for sharing with the Board details about what is happening at the Career Center. As a part of the Foundation Board, he has seen the impact on students' lives through this program.

He noted that Caddo's Caddo Career and Technical Center is actually the standard for the State of Louisiana and is used for other programs in the state. Mr. Rachal asked Board members to consider participating in funding a scholarship from the Board, and also asked that donating to the CCTC Scholarship Program be listed as an option in the annual United Way contributions. Mr. Rachal also encouraged Board members to attend the Scholarship Ceremony on April 18th.

Mr. Little asked if the CCTC has the capacity for more students and if so how many? Mr. Berg responded that some classes are at capacity and other classes are bound by numbers controlled by a governing agency, i.e. skills trades (carpentry, HVAC, welding, machine shop, electrical) can only have 15 students in these classes as well as 20 students max in the CNA and EMT classes. Mr. Berg added that one of their classes is the teaching profession; and because there is a need for more teachers, they encourage students to take classes in that area.

Mr. Thompson asked if CCTC recruits students from the low-income areas to take advantage of this program. Mr. Berg explained that many of the classes are not available for students until they are 16 years of age; and in November of each year they conduct 9th grade tours for all the high schools, and CCTC pays for the buses to bring them from their home school to CCTC and observe every class offered. In the spring, the CCTC Counselor and Coordinator go to the individual high schools, make presentations when students are signing up for classes and help with the application/registration process for students interested. Mr. Thompson asked about the possibility of career classes in the home schools who may want to add it to their school's program. Would this hurt the CCTC program? Mr. Mainiero responded staff is looking at classes such as automotive, welding, and culinary where the CCTC classes are at max and students at Green Oaks, Booker T. Washington, Northwood interested in these programs could take them at North Caddo. Mr. Thompson asked if putting a class in one of the inner city high schools will affect the program at CCTC? Mr. Mainiero responded it depends on the program and the students' needs. Dr. Goree added there is conversation about adding programs to a campus and the cost to do so, but CCTC is successful because the cost of offering the programs is centralized. He also agreed with Mr. Thompson's question relative to making sure that every student interested is afforded the opportunity to take these classes; and if the classes are full, look at the waiting list and see how the District can address it.

Mrs. Locke asked if there were more money, would more than 30 scholarships be awarded? Mr. Berg explained they have increased over the years as the cost of college has increased and to meet the students' needs. The scholarships were increased to \$2,000 approximately five years ago and capped at \$30,000 a year; so he believes Mr. Wayt would be the one to address this question.

Mr. Riall asked if North Caddo comes under the umbrella of the Caddo Career Center, and staff responded it is a separate entity.

Mrs. Bell commented on the programs that have been offered at Huntington because of the need. Mr. Thompson said he asked the question because his schools have reached out to him about the need to have them at their schools, and he wanted to know how it would affect the CCTC. Dr. Goree added that conversation is taking place relative to what will work and what programs would best serve the schools' populations. Mr. Thompson asked about the possibility of staff conducting a survey to determine the interest.

Ms. Trammel asked if space is a problem, and Mr. Berg said the building is at capacity relative to programs and size.

Millage Update. Superintendent Goree presented a millage video created to support the Board's effort to move forward with the millage on the ballot in May and is the video that will be used when meeting with and informing the community about this effort. He added a link also will be uploaded to the website beginning on Wednesday for public access.

Following the video, Dr. Goree stated that we do want to make sure the message is consistent and that the video is utilized as efforts are made to inform the public about what we are asking for on May 4th.

Mr. Nations commended staff members for the excellent video, and Dr. Goree recognized Mary Nash-Wood and her staff for the outstanding work. Mr. Nations asked about the \$88 million and if that is important to be shown in this particular presentation and how will the video be disseminated for use by the Board members

for community meetings. Dr. Goree said it will be on the web site and available for Board members via flash drive; and he encouraged Board members to use the video.

Mrs. Bell commended staff and said she wants everyone to understand there is no more money and this is needed to provide what the children in Caddo need. Mrs. Bell also asked if it is legal for Board members to show this at community meetings, and Mr. Abrams said it is. Dr. Goree explained the video is the means for presenting the same factual information to every group/meeting.

Individual Board members indicated their interest in getting the video for presentation to several community organizations as well as some bullet points that Board members should emphasize in the presentation.

Mr. Abrams stated in sharing this with the public, staff members cannot urge a vote; however, Board members can.

Ms. Trammel noted the needs in the District seen in the most recent fluctuations in the weather and the importance of getting this information to the public.

ESTABLISH THE AGENDA FOR THE MAY 19, 2019 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its meeting on May 19, 2019 and discussion followed.

Capital Projects Bids. Steve Riall asked about the money for the HVAC systems. Steve White, director of Capital Projects/Construction, explained that those listed for Board approval are being funded through the annual capital projects budget. Mrs. Bell asked about the HVAC at Turner and what will be done to address this matter if it should go out in April/May. Are there funds to repair/replace the remaining part of the system? Mr. White said the funds are not necessarily the problem, but the issue is the spaces used daily, i.e. cafeterias, gymnasiums and they will be done this year.

Proposed Revisions to CPSB Policies. Mrs. Bell stated her concerns about these proposed revisions and asked about an additional meeting to discuss these further. Ms. Trammel stated she discussed this with Mr. Abrams and he will schedule a separate meeting to go over these revisions. Mr. Abrams clarified that these policies were created by Forethought based on Legislative actions during the 2018 Legislative Session, and he summarized the proposed revisions as follows:

Policy GAEEA addresses the necessary annual training requirement for all employees and Board members on preventing sexual harassment and is strictly from legislation. It also includes inappropriate boundary invasions since Caddo's policy is more broad. The policy also requires that the Superintendent compile an annual report on February 1 of each year on the compliance of the statute including the number of employees completing the training, the number of sexual harassment complaints received, and the number of times sexual harassment occurred.

Policy GBC (Recruitment) changes include the requirement that anyone being hired must disclose certain information and must sign a release of information statement for us to request said information. Changes also state that no teacher, substitute teacher, or administrator can be hired that has been convicted of any felony. However, if BESE approves them and the District goes through a process, they can be hired. It also covers hiring of someone who fraudulently submits information.

Policy GBD addresses personnel with the main change being a bus operator shall be notified of route vacancies by mail at his/her address.

Policy GBDB addresses hiring retired personnel and those who have retired and are in the retirement system are now able to be hired for one of the following positions: school psychologists, interpreters, education of translators, educators of deaf and hard of hearing, but they must be in a critical shortage area (position has been advertised and fewer than three certified applicants were received). Policy also lists the following positions that can be added and do not have to be a critical shortage: school nurse, professional development trainee, tutor for students in preK-12th grade, and classroom teacher employed in a temporary capacity as a test proctor.

Policy GBRIC adds adoptive leave for those adopting children. It provides for reasonable time when adopting a child not to exceed one year and also if an employee has no sick leave remaining, they can qualify for extended sick leave.

Policy GBRIB is the sick leave policy and the revisions include changing the term to *illness, injury or medical emergency*. *Bus drivers* is also changed to *bus operators* and extended sick leave (adoptive leave) is the same as what was presented in GBRIC. He explained that sick leave for assault or battery allows the employee to be away from school as long as they are disabled (unable to perform the simple functions of the job); and under sick leave/workers comp, a combination pay allows an employee receiving workers' comp (which is only a percentage of an employee's normal salary) to also use their sick leave pay to get their full pay. While the statute states this is for teachers, it has always been Caddo's policy that all employees can use their sick leave and workers' comp and receive their full pay.

Dr. Goree stated that we do plan to meet with the teacher organizations so they are aware of the statute changes and can help share it with their members.

Mrs. Bell asked for clarification and these changes came from Forethought that must be added as a result of Legislative changes in the law requiring changes in policy. Mr. Abrams explained that Forethought did not write the sexual harassment policy but submitted information, so he wrote it based on the Legislative changes which are basically that all employees must go through the training.

Mr. Riall asked when will the training be held and who will teach it, and Mr. Abrams said it will be determined by staff. He also asked about Policy GBD and the statement that the School Board shall approve all non-school based administrators based on the recommendation of the Superintendent, which he believes infers that whatever recommendation makes, the Board is required to approve it. Mr. Abrams stated that he actually did this and reminded the Board that there is an opinion as to whether school boards have authority to approve all personnel; and Hammonds and Sills has taken the position that school boards do not have the authority to hire anyone and it is the Superintendent's job. Mr. Abrams said he believes it is only school-based personnel that has this authority and the school board has the authority to approve others; and if the board wishes he can add the language to say the school board approves all non-school based administrators based upon the Superintendent's recommendation. Mr. Riall stated that he believes removing the word "shall" will correct, and Mr. Abrams stated that he will look at it further.

Mr. Little asked about the statement in the sexual harassment and inappropriate boundary invasion policy of "touching children when there is no educational or medical reason to do so", because in the lower grades especially, teachers are continually in contact with students. If we are deeming this to be an illegal action, he believes we are setting ourselves up for potential lawsuits. Mr. Abrams explained this is not the intent and he provided the training on what is "inappropriate boundary invasion". He said the goal is to have people placed on notice to watch and report what they observe might be inappropriate.

Academic Organizational Changes. Ms. Green asked staff to explain this, and Keith Burton stated that staff is attempting to combine two departments (Professional Development Department and the Curriculum and Instruction Department) and allow the alignment of all curriculum support, professional development support and coaching for principals and teachers to be under one person, an executive director of curriculum and instruction. Ms. Green asked if this means saving money, and Mr. Burton said it does. Dr. Goree added that there will be a retirement in one of the departments and staff is looking at this as not just a way to save money but to better align the supports provided for teachers in implementing the Tier One Curriculum across the District by the same person who is over curriculum to also provide the coaching support in implementing the curriculum. He said discussion has also taken place on the relationship of professional development and human resources and this will provide the opportunity to bring these two departments together through the Teach Caddo Program. Ms. Green said she also knows that in combining these departments you may hear what is lacking, and she only wants to make sure all the bases are covered with every aspect of this change. Mr. Burton said he believes teachers will see greater support as we are not just removing the specialists in professional development, but taking them from a general role and moving them into a very specific content role that will be aligned to the grade bands and resources the State and the curriculum demand.

Mr. Rachal asked about the reduction of the position addressing grants and who will be in charge of writing grants. Mr. Burton stated that the Director of Accountability and Data will be taking on this responsibility, because many of the grants written today through Mrs. McKinney are tightly aligned to data and accountability and staff believes the person who organizes the data would also be able to help principals and teachers at the school level to understand accountability and also look at the

resources for aligning these to the needs suggested by the data. Mr. Rachal asked if staff can assure him that someone will be seeking and searching out grant opportunities, and Mr. Burton said yes and there will not be a drop in grant dollars coming into the District because of this combination.

Mrs. Bell agrees we need a grant writer, and we need someone to oversee the grants.

Paraprofessional Designation. Mrs. Bell stated she is excited to see this much needed change because paras with students with special needs should be trained to provide for the special needs specific to that student. Dr. Goree explained this is part of the work staff is doing with DMG and is how we are working better to provide aligned services. Mr. Nations stated that during the campaign several topics were brought by concerned citizens/parents, and this was one of them. He asked if this proposal is approved, what will be the main difference for an autistic child and/or the parents. Mr. Burton stated that there is no longer a general job description for paraprofessionals, the duties and responsibilities for an applicant coming into Caddo Parish will have a specific job description so they understand what is specifically required of them in a job. For the parent with a student who has very special needs, it takes a very special person to work and be effective with a student with specific needs, and staff can provide the specific training needed which will result in parents seeing their child receive better services. Mr. Nations said if this question is asked of him again, he would like to be able to answer them by telling them how this change will benefit their individual child.

Mr. Rachal asked if these changes will result in changes in Board policies? Dr. Goree said he doesn't believe so, because this will change the job description. Mr. Abrams stated he believes it is a good idea and referenced a current situation that could have been avoided by having specific job descriptions; however, he does not see the need for change in policy. Dr. Goree commended Mr. Burton and Dr. Lockett for their work on this. Dr. Lockett stated how encouraged they are with these changes and how these changes will be really good for children in addressing specific needs, i.e. academic achievement, social behavior skills and also medical needs of students.

Mr. Riall asked Mr. Burton about a specific situation and if this is an example of what this change would address, and Mr. Burton responded that it is a very specific example of staff attempting to provide the very best services possible, and this change will allow us to improve the services to that specific student.

Consideration of Recommendations to Off-Line Hillsdale and Move AMI Kids to Lakeshore Campus. Ms. Green asked how many community meetings have been held regarding this, and Dr. Goree said there have not been any community meetings because this is one of the Type I Charters. AMI Kids came to Caddo about needs for the middle school children they serve, i.e. gymnasium. Also, because the infrastructure is so modern, this option (Lakeshore) will allow some other luxuries for the students served through this program. Ms. Green asked how many community meetings has the Charter held. Dr. Goree said he doesn't know and he doesn't believe it will be required for them to do so.

Mr. Thompson asked how many students are on the AMI Kids campus at Hillsdale. Dr. Goree said they may begin at approximately 120 and increase to approximately 180 students. Mr. Thompson asked how many students will Hillsdale accommodate and how many will Lakeshore accommodate. Dr. Goree replied that staff can provide that information, but it is all about the need for a gymnasium; and added that these are still Caddo's children and we want to make sure they are receiving the same as the other students in Caddo. The Superintendent further explained how this meets a need and as a Charter, they have full control over their program; and if they ask for a building that is vacant, we are required to make that happen. Mr. Thompson stated his concern that we are moving into a school and leaving a school vacant and leaving a community without anything. Dr. Goree reminded the Board that Lakeshore also is vacant and Hillsdale was taken off-line in 2012; but when AMI Kids charter was approved, they wanted to use that facility. Now, he stated they are executing their right under the law to state they need a facility with a gymnasium; and because we do have an available facility with a gym, we are required to help meet that need. Mr. Thompson asked if Alexander is off-line and Dr. Goree said it is and the campus is for sale, and he believes that in time, the Hillsdale facility will be placed for sale. Mr. Thompson asked if one of Caddo's alternative programs could be placed at Lakeshore also, and Dr. Goree said yes and the JROTC Program is also utilizing part of Lakeshore for training purposes and will continue to do so.

Dr. Douzart noted three different activities taking place at Lakeshore and asked if it is closed what those might be. Dr. Goree said that he knows the JROTC program utilizes the facility and may conduct special programs and/or classes, i.e. marching drills, etc. However, he will research the other activities seen at Lakeshore. Dr. Douzart asked if the decision for JROTC to utilize a portion of Lakeshore was approved by the Board and Dr. Goree explained it does not require Board approval.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

President Trammel announced that the following items are the consent agenda: 8.02-8.06 and 13.01 (three in agreement). *Mr. Rachal moved, seconded by Ms. Green, to approve the proposed agenda and consent agenda for the March 19, 2019 CPSB meeting as presented. Vote on the motion carried unanimously.*

ANNOUNCEMENTS

Lisa Lloyd, director of Purchasing, announced that the Caddo Parish Procurement Team will conduct its second annual Opportunity Caddo Training and Workshop on Wednesday, March 13th from 8:30-12 noon. She explained there will be three major components covering how to do business with a political subdivision, how to operate within the rules and regulations of the procurement system, and a mini trade show. Anyone who has businesses or interested parties that might be interested are encouraged to attend.

Mr. Riall congratulated Captain Shreve on their 5-A championship and the North Caddo girls for making the finals and runner up.

Ms. Green asked that staff provide her with a rubric on how the Captain Shreve National Honor Society is set up and implemented. She also asked that Board members remember the family of Dominique Jones, Green Oaks student who passed away last week.

Mrs. Bell presented Board member Tony Nations with a gift and card following his recent surgery.

Mr. Thompson reported on successful Black History Month programs he attended at Creswell and Booker T. Washington as well as an awards program at BTW.

Dr. Douzart asked everyone to remember Carl Pierson's family during this time. She shared she met Mr. Pierson when teaching physical education and the time they won the championship when the coach was put out of the game and she had to take over. She said Mr. Pierson became her supervisor, and is a great person who she will miss.

Tony Nations expressed his gratitude to the Board and apologized for missing the meeting on the 5th. He also announced that Southwood did a great job against Natchitoches despite a loss and also hosted a great open house for 8th graders. He was very complimentary of the programs in place at Southwood and the great team.

Mr. Rachal asked that a letter be sent to each Board member relative to the CCTC Scholarship. He also asked that staff look at the United Way form and add the option of making a contribution to the Scholarship Fund.

Mr. Green reported that he attended Black History programs at Oak Park, Caddo Middle Magnet, Mooretown and Hillsdale.

Ms. Trammel announced that the family hour for Carl Pierson will be held Friday, 6:00 p.m. at Mt. Canaan, and services at 11:00 Saturday at Mt. Canaan. Ms. Trammel also shared remembrances she had of Mr. Pierson working together at the CPSB. She reported on the productive LSBA Annual Conference in Lake Charles.

Adjournment. *Mr. Rachal moved, seconded by Ms. Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:40 p.m.*

March 17, 2014

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, March 17, 2014, in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey and Dottie Bell. Board member Mary Trammel led the prayer and Pledge of Allegiance. Mrs. Armstrong was absent.

APPROVAL OF MINUTES

Mrs. Bell moved, seconded by Ms. Priest, to approve the minutes of the February 18, 2014 and March 4, 2014 CPSB meetings as submitted in the mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Musical Presentation. In observance of Music in Our Schools Month, students from J.S. Clark Elementary and Eden Gardens Fundamental played three musical selections for the Board and audience. Music instructors are Jerry Maiden (Eden Gardens) and Patricia Brassell (J. S. Clark).

CMM MathCounts. The Caddo Middle Magnet MathCounts Team was recognized as the 1st Place winner in the recent MathCounts competition. Members of the team are Srihar Chilukuri, Caroline Jin, Sunjay Letchuman and Blaise Willis. Caroline Jin also placed first in the Individual Round and Srihar Chilukuri placed first in the Countdown Round.

2014 Caddo Students of the Year. The following students were recognized as finalists in the 2014 Caddo Parish Students of the Year: Elementary – Hadlee Hoffman, Arthur Circle; Emilee Davis, Blanchard; Anna Claire Mackey, Eden Gardens; Merritt Shemwell, Fairfield; Will Johnson, Shreve Island; Lilah Estes, South Highlands; and Taylar McBride, Walnut Hill. Middle – Amelia Clifton, Donnie Bickham; and Janae Richardson, Walnut Hill. High Schools – Ross Young, Caddo Magnet, and Shelby Paine, Captain Shreve.

Caddo's District Winners are: Elementary – Tindol Hamm; Middle – Sunjay Letchuman, Caddo Middle Magnet; and High School - Courtney Ann Prestwood, C. E. Byrd.

Mr. Mainiero also announced that Sunjay Letchuman was named Regional Middle School Winner and will move forward to the State competition in Baton Rouge April 15-16.

Teachers of the Year. The following teachers were recognized as District Finalists in the 2014 Caddo Parish Teacher of the Year recognition: Elementary – Jerry Maiden, Eden Gardens; Rose Woodley, South Highlands and Brittany Nelson, Walnut Hill. Middle – Julie Davis, Broadmoor; Crystal Barnes, Walnut Hill and Annette Lee, Youree Drive. High – Thomas Evans, Caddo Career & Technology Center; Michael Scott, Captain Shreve; and Andrew Medlin, North Caddo.

2014 Teacher of the Year Winners are Elementary – Glynis Johnston, A. C. Steere; Middle – Natalie Chaisson, Caddo Middle Magnet; and High - LaToria Stewart, Green Oaks.

Principals of the Year. The following principals were recognized as Caddo's Principals of the Year: (1) Elementary – Kim Derrick, A. C. Steere; (2) Middle – Brenda McDonald, Donnie Bickham; and (3) High - Mary Rounds, Caddo Parish Magnet.

\$1,000 Grant. Or'Lisa Johnson, Pine Grove Elementary, was recognized and congratulated on receiving a \$1,000 "One Class at a Time" grant which she will use to purchase materials for her "Race to Excitement and Discovery Reading Program".

Newly Appointed Administrator. Charles Lowder, director of certified personnel, recognized and congratulated Joseph Johnson, new assistant principal at Ridgewood Middle School.

Update on Charter Applications. Kimberly Williams, Caddo's Third Party Reviewer, shared a report on the charter applications approved by the Board – L. L. Brandon Academy and Charter Schools USA. She reported that when Charter Schools USA's application was approved the following conditions were set forth: (1) C grade, (2) Operationally Sound, and (3) Financially Sound. Ms. Williams announced that their Board met and a letter was received from their Board President advising they thought the conditions were too far-reaching so they would be applying to the State as a Type II charter.

Mrs. Bell asked Ms. Williams if she understands correctly that Charter Schools USA wishes to pull out and proceed directly to the State; and Ms. Williams confirmed that is correct because they thought the conditions set by the Caddo School Board was too much for them to achieve.

Ms. Priest stated her remembrance of the conditions set and that Caddo only asked for a letter grade of a "C" (which is what the local school district is required to meet). Ms. Williams confirmed that is correct also, and the main intent behind operationally sound meant they would meet the enrollment targets and comply with Special Education compliance. Ms. Priest asked if she understands correctly that this is what any public school district must show, and Ms. Williams confirmed that is correct. Mr. Hooks asked for clarification of his understanding that they did not meet the conditions and Ms. Williams confirmed that is correct and Caddo was notified on February 20th that they did not want to comply with those conditions and would proceed with applying to the State.

Mr. Rachal asked if BESE approves this application at this point, are they not approving it at being substandard to what everyone else is held to be, and Ms. Williams responded possibly. Mr. Rachal asked if the District will submit anything in addition to the application when it goes to BESE? Dr. Goree responded that one of the things the District will express is our concern that the process is being circumvented and there is nothing in Legislation to prevent them from doing so. Ms. Williams added there currently is legislation in committee regarding the conditions set, but she will work with BESE to insure that the proper communications goes to BESE setting Caddo's conditions, with the most concerning condition being the "C" grade because Caddo is required by the RSD to meet certain components. Mr. Rachal asked for a copy of any legislation that might be considered. The legislation is Senate Bill 78 by Senator Kostellka. Mr. Rachal stated that the Board members should contact their Legislators to let them know if we are held to certain guidelines, then charters should also be held to the same.

Mrs. Crawley asked if Ms. Williams will provide input to BESE, and Ms. Williams responded if asked; however, they typically do not ask for it beyond receiving public input for and against applications. She further stated that if the Superintendent and/or Board requests that she attend when voted upon, she will be glad to do so, which will be done in June.

Mr. Rachal asked for clarification on the next step in the process and Ms. Williams explained that the application will be submitted to John White, State Superintendent of Education, and Mr. White will make the recommendation to BESE for or against, and BESE will make the decision.

Mr. Rachal asked about any contact with John White relative to this application, and Dr. Goree responded that we are not having conversations at this time with Superintendent White. It is staff's recommendation that we allow the process to proceed a little further to make sure that it will even be allowed to move forward. At that time, Dr. Goree stated we will work with Ms. Williams as the District's consultant before moving forward. Mr. Rachal stated his belief that as soon as we can get our thoughts on the table to address, the better off we will be. Dr. Goree responded that he believes our time is here, because he believes ample time was allowed to see if the applicant would return and go through the process and meet the guidelines that were set.

L. L. Brandon Academy. Ms. Williams stated that the L. L. Brandon Academy had three specific conditions from Caddo – (1) find a suitable leader, (2) a building, and (3) their budget. Relative to the leader condition, Ms. Williams stated that it was required that the L. L. Brandon Academy Board must identify a school leader who could articulate a solid plan for academic and teacher performance and insure the success of the plan presented. Relative to the integrity of implementation, he said the Board should present a school leader candidate for review to the CPSB Charter Team Reviewer no later than March of 2014. Ms. Williams stated that on March 3rd she received information on who they selected as a leader, and at that time, she spoke with Dr. Goree who was not involved in any of the conversations leading up to the selection of a leader. Regarding a financially sound budget, she reported that the budget was updated and balanced. The second condition, a building/location, and the condition was that a location must be identified along with a budget for renovations. The applicant at this time is relying heavily on a building that has not been granted to them by the local School District. A second location was identified behind the church, but it has not been determined if this will be an acceptable location for the school or if renovations would be made to insure a timely opening in the fall of 2014. At this time, she was notified of two possible facilities – (1) one of Caddo's school facilities, and (2) a nursing home behind their church.

On March 3rd, Ms. Williams announced that notice was received that the facility proposed was at the church and she requested an updated budget and shared with the CPSB a layout of the proposed facility and the budget/rental amounts associated with this facility. She explained the proposed renovated floor plan and the plan to spend approximately \$15,000 in rent a month as well as \$316,000 a year toward the renovations, approximately \$184,000 which will be paid by the landlord of the building. She reiterated the facility is the church building and the proposed renovations represent approximately 13% of the total annual budget.

Mr. Riall asked if this facility is currently being used as a church, and Ms. Williams responded that is her understanding. Ms. Trammel asked about the monthly amount to be paid to the owner, and her interest in the class size (capacity of approximately 40 students). Ms. Williams stated the renovation budget reflects 15 classrooms. Ms. Trammel also asked Ms. Williams to clarify how the church will be separated from the school. Ms. Williams responded that one of her and staff's concern included how to make a complete separation of public dollars. She said assurance is required from all churches that there is no connection or affiliation.

Mr. Hooks asked if they have met all the conditions Caddo asked them to meet? Ms. Williams said they did provide the name for their leader and when the meeting involving Dr. Goree in this process was discussed, she learned he was not involved in that process. She also stated they did meet the condition of an updated budget.

Miss Green asked did the Board not already approve this and they must now move forward? Mr. Pierson confirmed it was approved with conditions, but they have not met the conditions.

Mr. Rachal asked if the Board will now determine the applicants have fulfilled the conditions put into place by the CPSB? He also asked about the next step in the process, and Mr. Pierson

explained the next step is for the Board to decide whether or not to issue a charter and that will be done on today's agenda.

Mr. Ramsey asked Mr. Abrams if he was involved in the contract development and does he understand correctly there are some issues with using the church for the charter school. Mr. Abrams explained that there was no contract; but the Board's action included conditions upon which it would move forward and approve, and L. L. Brandon indicated they wanted Caddo (Dr. Goree and staff) to participate in the approval process of the approved leader. Mr. Abrams said this did not occur and they missed the deadline and there was no approval by Dr. Goree on their leader as a participant in the process. Regarding the budget, the question was if the budget was financially sound without any monies from EdFutures being included. With the facility, there was and always would be a concern relative to the "separation of church and state"; and initially, the location would be a building near the church and then the possibility of using one of the District facilities, none of which panned out. The latest rendition is to utilize the actual sanctuary of the church, which was never in the proposal. He also noted the \$360,000 a year rental going to a church as the lessor is also something that must be considered. Ms. Williams added there is no legal requirement that says you cannot lease from a church because it does happen; but she believes the concern here is the church is tied directly to the applicant.

Mrs. Bell asked for clarification on the \$184,000 expenditure and Ms. Williams explained that the landlord is responsible for the renovations and this expenditure. She also asked about the \$360,000 and Ms. Williams explained this includes the \$15,000 per month rent plus approximately \$36,000 for water, \$4,500 for garbage collection, and \$36,000 for electricity. When discussing these costs, staff did ask how they were determining the amount to be charged since there is not two different meters. Mrs. Bell asked if she understands correctly that the charter schools also receive MFP dollars for those students attending their school, which means if they have 40 students in 15 classrooms, they will receive approximately \$9,000 for each student. Mr. Lee said that is correct, but Caddo does not receive \$9,000 per student. Mrs. Bell asked if the MFP public dollars is what will be used to pay these expenses and Ms. Williams confirmed that is correct.

Mr. Riall asked for clarification on when and how the Board will vote on this item? Mr. Pierson explained that he is requesting that this item (8.20) be moved up to 8.00 on the agenda; and because the Board initially gave conditional approval, it will now be voting on whether or not the application will be approved or not.

Relative to the Charter School USA, Ms. Williams said she believes it very important to note the timing issue brought out in their letter, because we would have known by May of 2014 had the operational, governance and academic standards been met and BESE would not vote until June of 2014. Thus, she believes the argument about timing is invalid since staff was not given the opportunity to present it in May prior to her meeting with the committee the first of June 2014.

Ms. Priest asked about the classroom size for the proposed 600 students in 15 classrooms. Ms. Williams explained they are saying at capacity, their classrooms could hold up to 40 students in a class; however, they were not approved for that number. Ms. Williams also stated that while unaware of the size of Caddo's classrooms, this would be approximately 440 square feet a classroom. Steve White stated Caddo's elementary classrooms (1st grade and above) are 750 square feet.

VISITORS

Daryl Roberson, president of the Caddo Association of Educators, offered an opportunity for the CAE to partner with the Caddo District in a bullying prevention program provided through the NEA. This program is provided through the NEA's local and state affiliates to provide

prevention and intervention training for bullying and sexual harassment, as well as training and support for teachers and other professionals. He explained the training is based on research-based curriculum and raises awareness of sexual harassment, bullying, cyber bullying, sexting behaviors and spells out concrete steps that can take place to implement schoolwide bullying prevention. He provided Board members a folder relative to resources and tools as well as ideas as to how to identify bullying and encouraged others to partner with the School District to provide this program.

Robert Gray addressed the Board on the positives for a Drama Elective and how it can impact students and encouraged the Board to continue offering these classes at Caddo Middle Magnet.

Mack Covell spoke in support of continuing the Drama Elective at Caddo Middle Magnet, because offering this experience only through Drama Club after school will prohibit students involved in sports from participating. He also shared his confusion in that the principal is new at CMM and has not had an opportunity to see the impact the Drama Elective has on students. He shared his personal experience of how students have responded to the Drama Class, as well as the productions, and how it has helped them. While he believes a Drama Club after school is a good idea, he encouraged the Board to not do away with the Drama Elective. Mr. Covell stated he believes the Drama Elective is a very important part of the magnet school.

Danielle Richard addressed the Board on the elimination of the Drama Elective and shared how her experience of taking Drama when in school. In investigation of this issue, she has been told that only a couple of parents have called about it; however, at this time, 326 supporters have signed the petition in favor of the Drama Elective at CMM and she encouraged the Board to read the comments supporters shared.

Susan Gray, Drama teacher at CMM, spoke in support of the Drama Elective at CMM and of the many opportunities Drama offers students. She added that over the past 10 years her students have continued to share with her how much they loved the Drama Elective and it helped build their confidence. She encouraged the Board to restore the Drama Elective to the CMM students.

Kim and Shelby DeLouche addressed the Board in support of the Drama Elective at CMM and encouraged the Board to halt this disservice to the students and bring back this elective which helps the students in many different ways. She noted that an after-school Drama Club will not give every child the opportunity to experience Drama as it does in the class, because of transportation, other after-school activities, etc. She encouraged the Board to keep the Drama Elective at CMM. Shelby DeLouche shared with the Board how Drama has helped her and how important it is that Drama continues to be a part of the electives offered at CMM.

Windy Steele, senior at Captain Shreve High School and currently the Editor-in-Chief of the Student Newspaper, addressed the Board on her concern over the proposed Communications Policy and how she believes censorship is a suppression of rights related to speech or other material. She reminded the Board that they are not only employees of a school system, but the vessel through which education flows. She said she believes upholding the democratic voice is the Board's duty as a citizen in America. Each Board member has an individual voice for making the changes in the schools, to argue and defend ideas, and hiding behind one voice is not the way to create a better image. She said in voting for the proposed policy, she believes Board members supporting in favor of this policy will violate the first amendment and will give their voice away. She encouraged the Board to not hide behind one voice, but to be proud and expressive in their beliefs when making comments on new and existing policies. She said the way the policy is written will prohibit constituents from holding their School Board members accountable to their actions due to a lack of communication with the people who are vital to the success of our schools...its voters. She also encouraged Board members to consider why they are supporting this proposed policy.

Jon Glover, employee, addressed the Board on the unfolding of the Vision 2020 plan and the disaster seen with more schools that accommodate educating children of color are continuing their course of failure. She said it is ludicrous that a student cannot reach a pinnacle that affords them the opportunity to be college bound. She said she believes every child given the right setting can be destined to enter college and gain whatever their goal might be, but it only takes one person whose objective is otherwise to deter that child from reaching that potential. She said it has been said that if a child cannot read by the third grade, they may be destined for prison; and she wonders if that is what is happening in Caddo Parish. Ms. Glover added that until all differences are put aside, no child presently attending an Academically Unacceptable school can expect anything less than being destined to fail. She also said that no matter where she lives in Caddo, there should be equity of educational resources experienced by all, and she asked that everyone present to close their eyes and imagine a child waiting to be provided the best possible educational resources and imagine that child being denied those resources.

Buck McGee spoke on behalf of L. L. Brandon to offer clarification as the Operations Director of EdFutures, the education management organization that will be responsible for the operation of the L.L. Brandon Boys' Academy. Mr. McGee stated that the meeting in which the conditions were made regarding the approval of the school, it said March 2014, and it did not give a date in March, so they were operating on the assumption they had until sometime in March. He also said that relative to the selection of the school leader, the appeal was made to the Board, to the Superintendent, to participate in the school leader selection process; and you elected not to do that therefore they moved forward with the search committee and on February 22nd identified and selected a school leader. Regarding the facility, Mr. McGee said there is a lease dated in January between the Northwest Louisiana Community Development Corporation and the Praise Temple Full Gospel Cathedral, and the lease is from the church to the non-profit that applied for the school for the L. L. Brandon Academy. He said the lease states that the school will operate in a non-sectarian fashion and the church will not interfere with any of the school operations, and from 6 a.m. until 6:00 p.m. it will be a school. Relative to the size of classrooms, the CPSB approved them for 240 students, which means with 15 classrooms they will not have 40 students in a classroom. He added they stated in the application they would have a 22:1 student teacher ratio. The building has very large rooms and has the capacity for up to 40 students should that space be needed; however, it is their plan to operate with no more than 22-25 students in a classroom the first year. He appealed to the Board to approve the L. L. Brandon Academy.

Clifton Starks, president of the Central Trades and Labor Council of Shreveport, addressed the Board on the resolution opposing the elimination of payroll deduction of professional dues. He said it is very important that this benefit be retained and encouraged the Board to do the right thing for Caddo's teachers and support personnel and support this resolution.

Jackie Lansdale, president of Red River United, addressed the Board on the two grievances on the agenda and that the Board will vote to hear these two grievances or support staff's decision without additional directives. She said while the grievance process is long and tedious, it is the only process available to employees to seek the Board's ear. She said both cases began with the Board and its actions, and because on many occasions Board members have expressed their concern, now is the time to hear what the employee has to say. The second grievance is filed as a result of the Board's decision to change to a modified block schedule for this year; and knowing the intent was to keep a schedule in place that offered the maximum number of credits, administration told the Board that it could do this and still provide the planning time every day, which happened in some schools, but not all schools. With administration having incorporated practices to help alleviate some of the added stresses that teachers endure all day when teaching without planning, and they have been hard put to find any place that these suggestions are consistently practiced. With the Board voting to end the modified block schedule and change to the seven period-day next year, she said they desire for the Board to be aware that before block

periods were implemented, there were six period days and the teacher taught five periods and had one period to plan, and the student load would top out at approximately 165 students, and they received approximately 90 hours of instruction per credit per semester. Going to the block schedule required teachers to teach an additional class (6 classes instead of 5) with a class to plan each day; however, the class load went up by 30+ students and the content hours went down by 22.5 hours per semester. On the modified block, Mrs. Lansdale explained that teachers taught an additional class (seven), classes increased by another 30 students and the contact hours per credit hour stayed the same (more students, less time). With the seven-period day teachers will teach six classes with one period for planning every day, they will see their students every day, and they will have a maximum load of 198 students, the same as with the block schedule; and the contact hours per student, per course, per semester will actually increase to 75 hours per credit which is more than the block or modified block, but actually less than the six periods. She said it clearly makes academic sense to have as much contact time per semester as possible and they are open to that conversation anytime they are asked. Mrs. Lansdale stated their concern is that the fidelity and intent of those charged with scheduling has been the cautionary tale of this school year because in looking at the records they saw that Byrd lost six teachers, but kept planning time each day. She also said Green Oaks lost a net of eight teachers, but kept planning time every day; however, Woodlawn and Northwood lost only two teachers each, but their teachers lost planning. Magnet lost four teachers, but they could not provide daily planning, Captain Shreve lost seven, as well as Huntington, but no planning. The concern is no one ever asked why, and they believe it is much more than saving money, but is a failure of transparency in staffing and scheduling and was a concerted attempt to operate in a vacuum without any accountability demanded. She said Central Office looked the other way and for the most part, the Board let them, which is what brought these grievances from 10 of Caddo's high schools. Recognizing that the Board's responsibilities are great, and they do have respect for the Board's role in the democratic process, but encouraged the Board to let the teachers know you hear them by hearing this grievance. She also expressed appreciation for Mr. Starkes from the Central Labor Trades Council speaking in support of Item 8.19.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board's consideration. President Pierson recommended the following items for Consent: 6.02, 7.02, 8.01, 8.03, 8.06-8.09, 8.11-8.17, and 8.19. *Ms. Priest moved, seconded by Mr. Rachal, to establish the agenda and consent agenda for the March 17, 2014 CPSB meeting as submitted. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Priest moved, seconded by Mr. Rachal, to confirm the consent agenda (6.02, 7.02, 8.01, 8.03, 8.06-8.09, 8.11-8.17 and 8.19). Vote on the motion carried unanimously. The following is a summary of the action of the Board on consent agenda items.

Item No. 6

6.02 Personnel Transactions Report. The Board approved the personnel transactions report for the period of February 1, 2014 – February 28, 2014 as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Sale of Used Food Service. The Board authorized staff to advertise for the sale of used food service grease as submitted in the mailout.

Item No. 8

8.01 2012-13 Financial Audit: Audit Committee. The Board approved the recommendation of the Audit Committee to accept the 2012-13 Financial Audit as submitted by Allen, Green & Williamson.

8.03 Approval of Transportation Audit Follow-up. The Board approved the recommendation of the Audit Committee to approve the Transportation Audit Follow-up and that the superintendent will present a follow-up in 90 days.

8.06 Approval of Recommended Attendance Zone Changes. The Board accepted the recommendation of the Long Range Planning and Development Committee to approve the proposed changes in attendance lines as submitted.

8.07 Use of School Buses – LaPREP & Shreveport Green/ShreveCORPS. The Board approved the request for the use of CPSB school buses from LaPREP and Shreveport Green/ShreveCORPS as recommended by staff and submitted in the mailout.

8.08 Youth Enrichment Program. The Board approved the agreement with the Youth Enrichment Program to continue the YEP afterschool program for 2014-15 as submitted in the mailout.

8.09 Sale of Hamilton Terrace. The Board authorized staff to place Hamilton Terrace School up for sale at \$650,000 which is 49% of the assessed value of \$1,320,000.

8.11 Resolution of Adoption and Support of the 2014 LSBA Legislative Framework. The Board approved the adoption and support of the 2014 LSBA Legislative Framework as submitted in the mailout and that the resolution be forwarded to all statewide elected officials including state legislators. A copy of the resolution is filed in the official papers of the March 17, 2014 CPSB meeting.

8.12 Revision to Ombudsman Contract. The Board approved the proposed revision to the Ombudsman Contract as recommended by staff and submitted in the mailout.

8.13 Beverage Agreement with Coca Cola (Northwood). The Board approved the proposed beverage agreement between Coca Cola and Northwood High School as recommended by staff and submitted in the mailout.

8.14 Approval of Mediated Settlement: Bethune-Oak Park Project No. 20132-082/Contractor-ELA Group, Inc. The Board approved the mediated settlement, Bethune-Oak Park Project No. 20132-082/Contractor-ELA Group, Inc., as recommended and submitted in the mailout.

8.15 Revision to 2013-14 General Fund Budget. The Board approved the revision to the 2013-14 General Fund Budget as recommended by staff and submitted in the mailout.

8.16 2014-2015 School Year Calendar Revisions. The Board approved the proposed revisions to the 2014-15 School Year Calendar as recommended by the calendar committee and submitted in the mailout.

8.17 Proposed 2015-2016 School Calendar. The Board approved the proposed 2015-2016 school calendar as submitted by staff in the mailout.

8.19 Resolution Opposing Elimination of Payroll Deduction of Professional Dues. The Board approved the resolution opposing the elimination of payroll deduction of professional dues

as submitted in the mailout. A copy of this resolution is filed in the official papers of the March 17, 2014 CPSB meeting.

PERSONNEL RECOMMENDATIONS

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the personnel recommendations as recommended by the superintendent and submitted in the mailout. Miss Green asked the superintendent about the salaries for these positions and how a new person's salary is determined. Dr. Goree explained that as a part of the Rahmberg study, guidelines were established for how salaries are set and all the salaries presented follow those guidelines. Miss Green also asked if these are the superintendent's recommendations or the recommendations from committee. Dr. Goree explained that within the policies and practices in Human Resources, a diverse district committee conducts an interview in order to provide a holistic approach on the needs of the District and the committee makes a recommendation to the Superintendent, providing him with information on all candidates interviewed. Based on the information he receives from the committee, he makes the final recommendation to the Board. There being no additional discussion, vote on the motion carried unanimously.

FOLLOW UP RE: CONDITIONAL APPROVAL OF L.L. BRANDON ACADEMY AND 2ND APPLICATION OF SHREVEPORT CHARTER FOUNDATION AND CHARTER SCHOOL USA

Mr. Ramsey moved, seconded by Mr. Rachal, to deny the application of L. L. Brandon Academy based on failure to comply with conditions of the original proposal. Vote on the motion carried unanimously.

APPROVAL OF RECOMMENDATION FOR EXTERNAL AUDITOR FOR NEXT THREE YEARS (2013-14, 2014-15, 2015-16)

Mr. Ramsey moved, seconded by Mr. Riall, to approve the recommendation of the Audit Committee to approve the firm of Carl, Riggs and Ingram, LLC to provide external audit services as stated in their proposal.

Mr. Riall stated that upon staff's recommendation for the new auditor, the District has had the same auditor for the past 10 years; and with the auditor's purpose to insure that the District is doing everything correctly, it was the feeling that a new set of eyes looking at the District's business was a good thing.

Mr. Hooks stated that his point is if something is not broken, don't fix it. He said he believes Allen, Green has done an outstanding job as the District's auditors; and he wonders if something was found that should not have been found. He shared that many have the same home insurance, car insurance and doctor for over 10 years and he does not believe it to be fair to drop Allen, Green just because they have been the auditors for 10 years. While he has nothing against the firm of Carl, Riggs and Ingram, Mr. Hooks said his personal viewpoint is if it is not broken, we should stay with Allen, Green.

Mr. Ramsey stated he personally has changed and saved money by doing so; but staff did an RFP as required, and the results of the RFP was a very reputable company at a savings; and since this will save the District money, he supports staff's recommendation.

Mr. Rachal moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Board members Crawley and Hooks opposed.

Vote on the main motion carried with Board members Crawley and Hooks opposed.

PROPOSED DISTRICT COMMUNICATIONS POLICY

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the proposed District Communications Policy as revised and submitted in the mailout. Mr. Ramsey stated that he believes the revision points out the nature and consent of the Board's discussion at its retreat and that the intent is not to prohibit Board members from making individual comments regarding matters of interest to the public, but that individual Board member comments are not to be considered comments of the Board. He noted this was brought forward in a round table discussion at which a majority of the Board members were present, and he believes the Board could do a better job in the communications area. In reading through what matters to the Board, he does not see anything that prohibits him, in a meeting or if contacted by a member of the news media, from expressing his position on an issue in a professional way. He believes this is only a way for the Board to move forward collectively and present an image that the Board has and can work together.

Mr. Rachal acknowledged the Captain Shreve student addressing the Board and that this is a good example of why the Board desires to present itself as one Board, one Voice. He said that whether or not he agrees or disagrees with any vote taken, he will share why he agrees or disagrees with the public regardless of what this policy states. He further reiterated that this policy is not intended to silence any Board member from sharing their positions relative to any matters of public concern.

Mr. Hooks asked about the Board meeting procedures received last year and this year and why this could not have been put under K rather than a District Policy. Mr. Pierson said those are procedures as to how the meetings will be conducted and the policy being brought forth has nothing to do with how meetings are conducted. Mr. Ramsey added that this policy also addresses the communications by staff. Mr. Hooks stated that no one can comment for him and to him this seems like a dictatorship rather than a democracy. He added that the people in District 5 elected him, not the Board, and what he says is his opinion.

Mrs. Crawley moved, seconded by Miss Green, to amend the section "As to Board members" and remove 1-5 and add "any comment made by an individual Board member is not a representation of the entire Board. Only a vote of 7, the majority of the Board, is the Caddo Parish School Board's voice." Mrs. Crawley clarified why she offers this amendment and that she believes the reference to staff should be eliminated since the Superintendent is in charge of staff. She said it is obvious that an attempt was being made to defer all comments to the President and the Superintendent and then a revision (No. 5) was added to explain the policy. She believes her amendment clarifies the policy so that everyone understands it's not the CPSB stating whatever, but it is the individual Board member's opinion on a matter. Mrs. Crawley also stated that when staff speaks, she would like for them to not say the CPSB decided something, but that the staff decided.

Miss Green shared her agreement with Mrs. Crawley's amendment; and while she definitely understands the intent of the policy, and she is glad the Board has something in writing that clarifies it.

Ms. Trammel stated she is hearing some say there is a need for a policy and some say there is not a need for a policy, but she believes there is a need for such a policy. She said this policy is not to stop any individual Board member from doing what makes them happy in front of a camera or an audience, because each Board member is an adult and can answer to their publics about anything they wish. When someone calls her, she shares her personal position; however, if it is something she is not certain about, she will not give an opinion because she is not certain it will be relayed in the proper way, and she noted the many times information has been quoted incorrectly.

Mrs. Bell stated that she has never seen anything so negatively blown out of proportion in two weeks' time as this has; and even though the revision (No. 5) was added, she knew the intent was not to keep individual Board members from making comments. She believes she has represented her constituents in a way that when she shares her opinion in the meetings, they know where she stands on any issue and supports them; however, once the Board acts and it is approved by a majority of the Board members, it is then the Board's position, whether she agrees or disagrees. She said she believes some of the statements, i.e. No. 2, need to be included.

Ms. Priest stated that this policy is not to be misconstrued as an Open Meetings Law or the Sunshine Law because they are two different things. She added that what has been played out in the media has been that Board members cannot speak to constituents, and nothing in Items 1-5 says a Board member cannot speak to their constituents or hold community meetings. She encouraged everyone to read Items 1-5, which she believes is very clear, and support what is needed to avoid confusion with the public relative to Board actions.

Mr. Ramsey moved, seconded by Mr. Riall, to call for the question on all motions on the floor. Vote on the motion to end debate carried with Board member Crawley opposed.

Mr. Riall asked for clarification and if the amendment passed, would the Board still vote on the main motion. Mr. Abrams said if the amendment passes, then the Board would vote on the original motion as amended. He further explained that the motion on the floor is to approve the policy with the amendment, deleting Items 1-5, and adding Mrs. Crawley's statement. If this passes, then the Board would vote on the main motion to approve the policy as amended. *Vote on the amendment failed with Board members Riall, Pierson, Trammel, Priest, Rachal, Ramsey and Bell opposed.*

Vote on the original motion carried with Board members Riall, Green, Crawley and Hooks opposed and Board members Pierson, Trammel, Priest, Crawford, Rachal, Ramsey and Bell supporting the motion.

LEVEL IV GRIEVANCE

Mr. Ramsey moved, seconded by Ms. Priest, to uphold the decision rendered at Grievance Level III.

Mr. Hooks stated he believes the Board needs to hear this employee's grievance because he has been before the Board requesting help.

Miss Green moved, seconded by Mrs. Crawley, to hear this grievance at the next meeting. Miss Green stated her agreement that the Board needs to hear what this employee has to say. Mrs. Crawley stated her agreement, and to her, she doesn't believe the Board should vote on whether or not a grievance will be heard, because she believes it is an employee's right to be heard by the Board at Level IV. Mr. Abrams said it is Board policy that a transcript is provided with all the evidence ahead of time; and if the Board votes to hear this grievance, it will only hear argument by either the individual or his representative of information already presented.

Mr. Rachal stated he has read all the information provided and he too is of the opinion that the employee should be allowed the opportunity to present his argument to the Board.

Mr. Riall moved, seconded by Mr. Ramsey, to call for the question on all motions on the floor. Vote on the motion to end debate carried with Board member Crawley opposed.

Vote on the substitute motion carried with Board members Priest and Ramsey opposed.

ADOPTION OF BOARD PRINCIPLES

Mr. Rachal moved, seconded by Mr. Ramsey, to adopt the Board Principles as established by the Board in its retreat and submitted in the mailout. Mr. Rachal asked that bullet number one be removed and replaced with maintain honest and transparent discussions. Mr. Ramsey supported the amendment. Vote on the motion carried unanimously.

REQUEST FOR LEVEL IV GRIEVANCE HEARING, RE: PLANNING PERIOD

Mr. Ramsey moved, seconded by Mr. Hooks, to uphold staff's position at Level III.

Miss Green moved, seconded by Mrs. Crawley, that this Level IV grievance be heard at the next meeting. Miss Green noted that these teachers have been bringing this before the Board and before she withdraws her motion, she would like to know if this has been fixed. Dr. Goree said staff is in accordance with the way the law is written; however, the teachers are not happy with that resolution. Staff does have a plan to resolve this issue in the future, but it has nothing to do with this particular grievance. Miss Green would like for these teachers to be heard. Mrs. Crawley said she wants to hear this in hopes that it will make everyone think before voting by having more input from those that the Board's vote will affect.

Mrs. Bell said she thought this situation had been resolved by moving forward with the seven-period day for next school year, and she asked that someone clarify for her. Dr. Goree responded that it has been corrected for next year; however, we are still operating under the schedule approved for the beginning of the 13-14 school year, which is what many teachers continue to grieve. He further stated that staff has looked at every campus in an effort to provide as much remedy to their concerns as possible; but there were no changes made mid-year because there were legal limits relative to requirements. He explained this is being addressed for the next school year and the schedule offered has Mrs. Lansdale's, as well as teachers, support. He also added that if the Board votes to move forward with hearing this grievance, staff will not offer a recommendation to satisfy this need for this school year.

Mr. Hooks noted that he mistakenly seconded the initial motion and requested his second to Mr. Ramsey's motion be pulled.

Mrs. Crawford stated that before Dr. Goree came to Caddo, the Board was assured that teachers were getting their planning period; and she would like to know the rationale for teachers not having a planning period. Dr. Goree responded that the Board was operating on an AB Block schedule and teachers were receiving planning periods every day (prior to this school year), but when the Board decided to go to an alternative Block Schedule where teachers teach seven of the eight classes, there would be one day in which the teacher would not receive a planning period. Based on minutes and times of service, the District is in compliance, but the issue is this is a change from what the teachers were accustomed to for planning. With a seven-period day in the Fall, each teacher will experience a planning period daily.

Miss Green and Mrs. Crawley withdrew their motion and second.

Mr. Ramsey moved, seconded by Mrs. Crawley, to uphold the grievance of Level III with the understanding that the Caddo Parish School Board is replacing the A/B Block schedule with a seven period day effective with School year 2014-15 which will alleviate the planning period issue, and not use before/after school time or unencumbered time for planning period. Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that in the District's collaboration with the RSD, several staff will travel to the University of Virginia for Boot Camp procedures which is a part of the District's turn-around effort with its schools.

Regarding SunGard, Dr. Goree stated that concerns and resolutions are coming from the weekly meetings and at this time, the weekly meetings have begun to have sub meetings as a result of expressed concerns.

Relative to Ombudsman, an up-to-date report was submitted, the Board addressed personnel recommendations, and information on the Drama elective at Caddo Middle Magnet was submitted.

ANNOUNCEMENTS AND REQUESTS

Mr. Riall recognized the North Caddo Girls Basketball District 2A State Champions and the North Caddo Boys' Basketball Team that made it to the semi-finals.

Ms. Priest alerted everyone that since the Legislature is currently in session, there will be things brought to the Board on short notice. Also, she asked that staff begin looking into developing a curriculum to train high school students in the manufacturing and petro-chemical areas as soon as possible and hopefully for the 2014-15 school year.

Mr. Hooks announced that because stamps are so high and he encouraged those who send him a letter to make sure their name and address is on it; because if it is not, this is something that he will throw away.

Mr. Pierson encouraged the Board to continue to be the "Terrific 12", he commended the Board committees and the outstanding job the committees are doing to work through the details before presenting it.

Mrs. Bell requested that staff bring back the announcements of deaths of employees and their immediate family members, as well as the death of students. She noted recent employees and/or family members that passed and she feels it is important for Board members to know this information.

Mr. Rachal recognized the banquet for recognizing the employers who help our students and the outstanding speaker who was a Fair Park graduate who has won two Olympic medals and encouraged staff to consider this young man as a motivational speaker for some of Caddo's high schools. He also commended the employers for working with Caddo's students.

Ms. Trammel commended Rosetta Boone and the businesses that work with our students and recognized one of the businesses that help students. She asked about the status of the policy on sexting.

Adjourn. *Ms. Priest moved, seconded by Mr. Hooks, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:43 p.m.*

April 1, 2014

The Caddo Parish School Board (**CPSB**) met in special session on Tuesday, April 1, 2014, at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Board member Lillian Priest led the prayer and Pledge of Allegiance. Mrs. Crawley was absent.

EXECUTIVE SESSION: Student Readmission Appeals

Mr. Ramsey moved, seconded by Mr. Hooks, to approve readmission appeals for students A.W. and J.W. as recommended by staff and submitted in the mailout; the parents are in agreement. Vote on the motion carried unanimously.

ADJOURNMENT

Ms. Trammel moved, seconded by Ms. Priest, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:39 p.m.

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

April 1, 2014

The Caddo Parish School Board (CPSB) **Executive Committee** met in regular session on Tuesday, April 1, 2014, at approximately 4:40 p.m., in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and Bonita Crawford and Mary Trammel present being a quorum. Other Board members in attendance were Steve Riall, Jasmine Green, Curtis Hooks, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Board member Lillian Priest led the prayer and Pledge of Allegiance.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE APRIL 15, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the April 15, 2014 CPSB meeting and the following discussion ensued.

Millage Rates will be adopted at the May 20, 2014 Board Meeting. Mr. Pierson confirmed the date of May 20, 2014 is correct for the adoption of the millage rates, and Mr. Lee confirmed that is correct. It was added that this is on the April agenda to meeting the announcement requirement of at least 30 days prior to the Board voting on the millage rates.

Sale of Hamilton Terrace. Mr. Rachal asked if, since we are not getting what he believes to be the proper value for this piece of property, staff will bring this back, as he doesn't believe the property needs to be sold for this value. Mr. Woolfolk explained that the current bid is for \$650,000 (49% of the appraised value), and bids do not open until Friday, April 4th at 10:30 a.m. He further explained that the property appraised for \$1,325,000; and the District has bid the sale of Hamilton Terrace at 100%, 85% and 80% of the appraised value with no bids being received to date. By law the property had to be bid at those percentages and now the District can bid it at a selected price. Lisa Lloyd, director of purchasing, added that the current bid is for \$650,000 and if a bid is received for this amount, staff will bring that recommendation to the Board on April 15th. Mr. Hooks reiterated Mr. Rachal's comments; and that he too believes it is worth more than what we are asking.

Mr. Riall asked about the current minimum bid, and Mr. Woolfolk responded \$650,000. Mr. Riall asked if he understands correctly that the Board has been through the percentages (100%, 85% and 80% as required by law); and this amount is lower than that? Mr. Riall asked if we are committed to receive the bid if one is \$650,000, and Ms. Lloyd said that is correct.

Proposed Revision to CPSB Policy GCA (Staffing Formula). Dr. Goree explained that the proposed revision is to remove the "K-12" grade classification and adjust the pK3 to add in 4, 5 and 6. These revisions are budget neutral. Mr. Hooks requested a copy of the policy as it currently reads and a copy of the proposed policy with revisions.

New Charter Applications for Review (3)/Contracting Third Party Reviewer. Ms. Trammel inquired as to how long the District will be taking applications for new charters? Mr. Abrams explained that this request is following the State's timeline for the Spring Session for charter applications and contracting with a Third Party Reviewer. Mr. Riall asked Mr. Abrams if the Board discussed this or an issue on how often charter applications can be brought to the Board for consideration? Mr. Abrams explained there was a conversation during the recent Legislative Luncheon where he raised the question about the need for legislation that will limit the number; and Scott Richards, LSBA, said the District only has to do one per year. However, the State has two sessions, one in the Spring and one in the Fall; and the only way a District cannot have both sessions is to request a waiver from the State. Currently, there is one in the Fall and one in the Spring and we are currently in the Spring Session with three new applications. Mr. Riall inquired about the deadline for the next group of applications, and Mr. Abrams said the deadline

has passed. Mr. Riall asked if the Board will receive requests monthly to go into the Fall cycle? Mr. Abrams said they will all be done at one time.

ADDITIONS

Mrs. Crawford asked that “Budget Revision to Support Board Members Traveling to the NSBA Southern Region Conference” be added to the agenda for April 15th, allowing her, Mrs. Crawley and Mr. Hooks to attend this conference in June. The estimated cost for three board members to attend the conference is approximately \$5,055. Mr. Hooks reiterated Mrs. Crawford’s comments.

Mr. Pierson stated Items 8.02-8.04 are the consent agenda items. *Mrs. Crawford moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Ms. Glover asked for clarification on what someone can speak to during the Executive Committee meetings. Mr. Pierson said that during work sessions, visitors are to speak only to what is on the agenda.

Mr. Rachal announced that he has available for interested Board members, information on the Caddo Career and Technology Center Foundation Scholarship Fund. He stated the Foundation is asking if the School Board wishes to sponsor a scholarship in the School Board’s name.

Adjourn. *Ms. Trammel moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:05 p.m.*

April 15, 2014

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, April 15, 2014, at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Ms. Priest led the prayer and Pledge of Allegiance.

APPROVAL OF MINUTES

Ms. Priest moved, seconded by Mr. Hooks, that the minutes of the March 17, 2014 and April 1, 2014 CPSB meetings be approved as submitted. Vote on the motion carried.

RECOGNITIONS AND PRESENTATIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Southern Hills Show Choir. Garrett Scott, music teacher, and the Southern Hills Elementary Choir performed *Be Our Guest* from *Beauty and the Beast*.

Autism Awareness Month. With April being Autism Awareness Month, Ron Perdele, teacher at Caddo Middle Career and Technology, and Tom Palzinski, autism supervisor, led students Kwan Harris and Ezra Williams in a mental math exercise showcasing autism student learning abilities. Mr. Palzinski shared with everyone background information on autism, a neurological disorder (a part of the brain that functions differently than neurotypicals), highlighting facts and myths about the disorder as well as how it is diagnosed.

North Caddo High School Lady Rebels. The North Caddo High School Lady Rebels were recognized as the 2A State Basketball Champions.

2014 Social Studies Fair Regional First Place Winners. The following students were first place winners in the 2014 Social Studies Fair: Elementary – Nicolas Rambis, Eden Gardens (4th Grade); Luke Haskew, South Highlands (4th Grade); Mary Catherine Wellman, South Highlands; Hannah Cockrell, Eden Gardens (5th grade) and also Division I Champion. Middle School – Ceara Johnson, Caddo Middle Magnet; Kaylee Bynog, Makenzie Vienne and Imari Gibson, Youree Drive Middle School. High School – Jackson Jinx, Captain Shreve (11th Grade); Amelia Fertitta and Paityn Glass (seniors) (also won the Division III Champion Group winners); Mary Alice Booker and Hollis Byram, C. E. Byrd High School; Mitchell Dorris, (12th Grade) CE Byrd; Northwood students Tiffany Collinworth; Katherine Curtis, Dylan Oliver; Jonathan David Reich, Jr. and Ashlyn Tullis, (10th grade) from Northwood. Ashlyn was also the Division III Individual Winner and the 2014 Grand Prize Champion.

Cora M. Allen Essay Winners. Irma Rogers, MeGail Parsons (Shreveport Mayor's Women's Commission, and Lubertia Myers recognized the following students as winners in the Cora M. Allen Essay Contest: Mariah Mandosia, Booker T. Washington; Amaya Sanders, Caddo Middle Magnet; Reality Pugh, Caddo Middle Magnet; Camille Patterson, Herndon Magnet; and India Casson, Fair Park.

2014 Colonial Dames Essay Winners. Susan Cage, Patriotic Service Chair, and Libby Siskron, president of Shreveport Colonial Dames Town Committee, honored the following Caddo

students for their award-winning essays: Halley Wolfe, 11th grade, North Caddo High School; Daniel McRae, North Caddo High School; Kelly Murray, 11th grade, C. E. Byrd High School; and Angela Stark, 11th grade, C. E. Byrd High School.

Caddo Career & Technology Center DECA Winners. The following students were recognized as winners at the recent DECA Career Conference in Baton Rouge: Mary Frances Presley, Shatoree Daniel and Andrew Donatello, and Caddo Career Center's Hospitality and Tourism Operations Research Event, won 1st Place. The Caddo Career & Technology Center was also awarded the Chapter Campaign Award for Promotional and Civic Responsibility THRIVE Level. Alan Germany, CCTC Marketing Education Coordinator, also brought home the Outstanding DECA Advisor Award.

United States Presidential Program for 2014. The following Caddo Magnet High School students were recognized for being selected for the United States Presidential Program for 2014: Emily E. Price and Joseph S. Fitz-Gerald.

Perfect ACT Score. Joseph S. Fitz-Gerald was recognized for earning a perfect score of 36 on the ACT test.

KTBS One Class at a Time Winners. Stephanie White and Brian Barrios, Fair Park High School, were recognized for receiving a \$1,000 grant for their project "Shreveport: Looking Into the Past to Build Our Future."

Broadmoor Teacher Awarded \$10,000 Grant from the City of Shreveport. Julie Davis was awarded a \$10,000 Neighborhood Investment Program Grant from the City of Shreveport. The money from this grant will be used to turn the courtyard at Broadmoor into an outdoor classroom.

2014 Southeastern Region Supervision/Administration Art Educator of the Year. Henry Price, art supervisor, was recognized for receiving the 2014 Southeastern Region Supervision/Administration Art Educator of the Year award.

Administrative Interns. Kathy Gallant, director of Professional Development, introduced the following administrative interns for 2014: Lakeria Davis, A. C. Steere; Tangela Hampton-Sylvie, Cherokee Park; Lisa Nance, Green Oaks; Candice Webert, Youree Drive; Shunda Huff, Summer Grove; Randy Smith, Walnut Hill; Mary Hughes, J. S. Clark; and Bridgett Carpenter, 81st Street ECE.

Newly Appointed Administrators. Cleveland White, director of classified personnel, introduced Debra Kappus, newly appointed Risk Manager; and Charles Lowder, director of certified personnel, introduced Billy Snow, District Transformation & Innovation Officer.

Superintendent Goree noted that he has been on the job for approximately five months and that what the Board just witnessed is an example of what goes on in Caddo Parish every day.

Mr. Riall left the meeting at approximately 5:25 p.m. due to a death in the family.

VISITORS

Kevin Fortson, advocate for Fair Park, encouraged the Board members to carefully reconsider the decision to remove the principal currently at Fair Park. He reported a meeting was held at Fair Park at which concerns were expressed relative to keeping Mr. Outley, because putting a new principal at Fair Park every year is only setting up the students for failure. There are many good things being done at Fair Park and at this time, the parents and the students want to keep

Mr. Outley and not change principals again. He noted that 99% of the students were in attendance for middle school, all of which was an accomplishment via the efforts to keep the school open. He also noted that the principals at schools that feed into Fair Park are being replaced and they are tired of these persons constantly being moved. He asked the Board to either help them or leave them alone.

Jon Glover implored the Board to help children attending the inner city schools that can't read at the 3rd grade level. She asked what happened to reading specialists that were put into place to help students in this area; and noted that when a student possesses challenges that prevent him/her from having the ability to read, it will inhibit his successes. She encouraged the Board to bring sound solutions to this need so as not to inhibit these students' need to succeed.

Daryl Roberson, president of the Caddo Association of Educators, stated that he is being asked how faculty, staff and administration for the schools being directly affected by the reconfigured schools are being informed of staffing changes, if those being displaced should be actively seeking and applying for other positions in the district, how and when will they know what and where are the open positions, how soon and who will let them know if they will be affected, why is a teacher fair being held when many in these schools will be displaced and seeking other positions, etc.? He said employees deserve the assurance that there will be, if not already in place, a protocol that will insure them they will be employed in August and not have to scramble to look for a job. Dr. Goree said all these questions have been answered and he will contact Mr. Roberson to verify.

Jackie Lansdale, Red River United, asked the Board if it realized that 2 cents of every dollar one sends to the Federal Government is allocated for education with the remainder of the funding coming from state and local dollars with most of the local dollars being generated from property taxes. Even though Louisiana property owners are on the lower end of the spectrum in terms of percentages of property taxes paid, she stated that has not exempted us from the overall growing resistance to paying taxes. She noted that she has seen the reluctance of the Board to roll forward property taxes or to go to the public for any type of increases which leaves the District with less funds and the impractical hope that it doesn't impact the academic income. She asked is it possible that we can hope that cutting of programs and overcrowded classrooms will inspire taxpayers to see the light or will taxpayers begin to see the school system as less appealing and less worthy of support. She said she believes it is time to come together and create a task force to create a bold plan to take to the public asking for their help. Board input is needed along with help to secure funding to be able to offer preK to every single 4-year old in the district, to offer extended day/year to the youngsters needing it, put a proven teacher training and professional program in place, to increase the day so as to allow more academic time for students, reduction of absences, etc. Based on the cost of what needs to be done, she stressed the importance of asking the public for help to accomplish what they wish to see done.

Adoption of Millage Rates at May 20, 2014 CPSB Meeting. Jim Lee announced that at least 30 days prior to the Board voting on the millage rates, it must be advertised that the Board has plans to do so, thus the notice that it will be on the May 20th CPSB meeting agenda.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE APRIL 15, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration. President Pierson recommended Items 6.01-6.03, 7.02-7.03, 8.02 and 8.04-8.05 as the consent agenda.

Ms. Priest moved, seconded by Mrs. Crawley, to establish the agenda and proposed consent agenda for the April 15, 2014 CPSB meeting as presented.

CONFIRM THE CONSENT AGENDA

Ms. Priest moved, seconded by Mrs. Bell, to confirm the consent agenda (6.01-6.03, 7.02-7.03, 8.02 and 8.04-8.05). Vote on the motion carried. The following is a summary of the Board's action on consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved personnel recommendations as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transactions Reports. The Board approved the personnel transactions report for the period of March 1, 2014 through March 31, 2014 as recommended by staff and submitted in the mailout.

6.03 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.03 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets. (1) Doerle Food Service, Foodway and Reinhart Food Service for the purchase of canned and frozen foods, fish, poultry, eggs, meat and specialty; (2) Carefree Janitorial, totaling \$228,321.15; Reinhart Food Service, totaling \$33,869.25 and VCC Janitorial, totaling \$24,379.50 for the purchase of food service paper and supplies; and (3) School Health Corporation for a discount percentage of 12% and LaCam Medical Supplies for a discount percentage of 10% for the purchase of General Medical Supplies – Catalog. The bid tabulation sheets are filed in the official papers of the April 15, 2014 meeting.

Item No. 8

8.02 New Charter Applications for Review (3)/Contracting Third Party Reviewer. The Board approved the contract with Attorney Kim Williams as the third party reviewer for three new charter school proposals: (1) Leaves of Gold, (2) Algiers Charter School Associations, and (3) Central City Academy.

8.04 Approval of Budget Revision to Support Board Members Traveling to NSBA Southern Region Conference. The Board approved revising the budget to support Board members traveling to the NSBA Southern Region Conference in June 2014.

8.05 Out of State Travel. The Board approved requests for out of state travel from the General Fund as recommended by staff and submitted in the mailout.

SALE OF HAMILTON TERRACE

Ms. Priest moved, seconded by Mr. Ramsey, to authorize staff to rebid the Sale of Hamilton Terrace. Mr. Hooks asked if this will be brought back again? Superintendent Goree explained that at this time, staff does not have immediate plans to bring this item back, but would like to look at the possible use of this facility through the strategic plan process and determine what is the best use of the facility (by the district) or to sell the facility. There being no additional comments, Ms. Priest agreed to withdraw her motion and Mr. Ramsey withdrew his second.

REVISION TO CPSB POLICY GCA (STAFFING FORMULA)

Mr. Ramsey moved, seconded by Mr. Hooks, to approve the revisions to CPSB Policy GCA as provided in the handout. Mr. Ramsey pointed out that the Board approved the new school reconfigurations and this is only changing the policy to reflect what the Board has already done. Mr. Hooks agreed with Mr. Ramsey's comments.

Mrs. Bell shared her concern for staffing Grades 4 and 5 at 1:26 and what will happen if each school receives 15 more 4th graders. Dr. Robinson explained the protocol in place whereby the principal may request additional staffing which is verified by the school director, and honored by Human Resources. Mrs. Bell asked if the principal will have the leeway to come to staff with their need and get a response to their need. Dr. Robinson stated the principals do have that leeway, but reminded the Board that every time a staff person is added, it is approximately \$65,000. Mrs. Bell said \$65,000 is nothing to her when it comes to addressing a student's need. Mrs. Bell asked about additional administrators based on the school's population, and Dr. Robinson explained there are additional administrators above the formula based on specific needs at a school; and, as staff continues to look at the reconfigured schools, there will be more employees than there are vacant positions, which will allow the assignment of additional administrative support where there is a need. Mrs. Bell asked if this will include schools other than the 10 reconfigured schools, and Dr. Robinson responded it does.

Dr. Goree concurred with Mrs. Bell's concern that there will be more people than there are vacancies, as well as her comments relative to the \$65,000, because the staff is committed to doing what is best for kids which will create situations where staff must be creative with financing. He also stated his agreement that the formula is a guideline, but there will be situations where additional teachers and/or administrators will be added to schools based on the needs of particular schools.

Mrs. Armstrong also shared her concern with the staffing at 1:26 for 4th grade as it is a LEAP testing year. Dr. Goree added that when looking at things such as attrition, staff will also look at administrators that are certified to teach and they could be placed in the classroom. He also added that he is also concerned with the higher staffing ratio at the middle grade, but in discussion of being budget neutral with the staffing, staff supports what is in place, and at the same time is looking at ways to make the needed adjustments and still be financially responsible.

Mr. Rachal agreed with the principals having the leeway to make decisions, but as a Board member, he must respond to the public and asked if it is possible to look at putting a variance in place, i.e. if each 4th grade class has 29 students, an additional teacher will be added. Dr. Goree shared he is aware of a district that did that and staff is looking at a creative way to address staffing while maintaining equity in the classroom.

Mr. Ramsey moved to call for the question to end debate and the motion carried with Board member Crawley opposed.

Vote on the motion carried unanimously.

USE OF CADDO FACILITIES

Mr. Rachal moved, seconded by Ms. Priest, to approve requests for long-term use of University Elementary facilities as recommended by staff and submitted in the mailout. Mr. Rachal noted that LaPrep has been reaching out to middle school students in an effort to help them raise their scores and be prepared when they reach high school and they are now looking to expand their program by adding 4th graders. Mr. Rachal commended Dr. Carlos Spaht at LSUS for this program and his heart for children. As Dr. Goree stated, there are many great things going on in

the district, and he would like to recognize Dr. Spaht at a future Board meeting. *Vote on the motion carried unanimously.*

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Dr. Goree reported that he continues to have a weekly conference with the Recovery School District and everything now is centered around the Transformation Zone, and Board members will soon receive invitations to the Reimagine Campaign which will address how we are delivering instruction and setting up students for success in the Transformation Zone. He further reported that the University of Virginia was in town on Monday working with staff and will return the last Monday and Tuesday of the month to continue working on setting up a research based transformation of our schools.

SunGard Update. Superintendent Goree reported that weekly staff meetings are continuing as well as weekly phone calls with the SunGard leadership. Even though progress is being made, he stated there is still some concern relative to the validity of the information even though they have learned that some of the errors were human and staff is working to determine what human is responsible for those specific functions to identify and make corrections. Regarding the “hands off” period, staff is working on a remedy to this since it is affecting productivity of employees.

Administrative Assignments in Reconfigured Schools. Dr. Goree explained that several candidates were led through a very extensive process for the purpose of identifying transformational leaders and he clarified that because the search was to identify transformation leaders, it did not mean that principals were not successful but they were not transformational leaders, which transformation is what needs to happen. Today he also forwarded a list of assistant principals for these 10 reconfigured schools and staff will now focus on identifying teachers, counselors and clerical personnel at these sites.

ANNOUNCEMENTS AND REQUESTS

Miss Green expressed appreciation to Dr. Goree and Mr. Snow for attending her community meeting. She also thanked the Green Oaks Alumni who raised money for scholarships for Green Oaks graduates.

Mr. Hooks invited Board members to attend his community meeting on the 24th at 6:30 p.m. at Lakeshore Elementary in the auditorium.

Mrs. Bell thanked Dr. Goree for Ms. Leisa Edwards appearance at the Greenwood Chamber of Commerce meeting at which she shared up-to-date information on Common Core.

Mr. Rachal asked that he receive a copy of every essay that received awards at today's meeting. He also announced he would like to receive from staff suggestions on what needs to be done to reduce Caddo's cost for benefits (which is 25% of the entire budget). Also, he asked that members of the Grounds, Building and Security Committee to present to him two areas of concern and how they propose to address those concerns. Mr. Pierson noted that the essays are student records and unless the parents agree to release the essays, it may not be possible to copy and distribute them.

Also, relative to the request regarding Caddo's cost for benefits, Mr. Pierson suggested that the next time the Insurance Committee meets, this item will be discussed.

Ms. Priest announced and invited everyone to attend the Open House for the new magnet component at Oak Park on Sunday May 4th at 4 p.m.

President Pierson announced that a budget work session will be held on Thursday, April 17th at 1:30 p.m. and that information is placed at Board members' stations.

Mrs. Armstrong asked that staff readdress the possibility of matching Caddo's Spring Break with Bossier's Spring Break for the 14-15 school year.

Mr. Rachal announced that on April 24th the Caddo Career and Technology Center Foundation will hold its annual ceremony for awarding scholarships to 35 students. As a member of the Foundation, Mr. Rachal said he mentioned the possibility of the Board funding one of the scholarships, which will cost each Board member \$125, and if each Board member puts up \$100, he will make up the difference.

EXECUTIVE SESSION

Level IV Grievance. *Ms. Priest moved, seconded by Mrs. Crawford, to go into executive session for 20 minutes for the purpose of hearing a Level IV grievance. Vote on the motion carried and the Board went into executive session at approximately 6:30 p.m.*

The Board reconvened in open session at approximately 7:25 p.m. *Mr. Ramsey moved, seconded by Ms. Priest, to uphold staff's recommendation at Grievance Level III and that the Superintendent review procedures in the Maintenance Department.*

Mr. Hooks moved, seconded by Mrs. Crawley, to allow Mr. Davenport to return to the CPSB Warehouse as a carpenter helper, with Mr. Davenport understanding that Mr. Umling will be his evaluator and that the Caddo Parish administrators will review their clocks and processes to insure the uniformity of enforcing the protocol for early clock-in. Mrs. Crawley stated she is only upset that this matter got this far and she doesn't understand a good solution; however, she believes professionalism would be very important in the situation.

Ms. Trammel stated that to add fuel to a fire is what the Board will be doing if they are placed back in the same place, so she cannot support the substitute motion.

Vote on the substitute motion failed with Board members Pierson, Crawley and Hooks supporting the motion and Board members Green, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell opposed.

Vote on the original motion carried with Board members Green and Hooks opposed and Board members Pierson, Crawley, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell supporting the motion.

Adjournment. *Miss Green moved, seconded by Ms. Priest, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:30 p.m.*

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, Sr., President

April 15, 2014

The Caddo Parish School Board (**CPSB Insurance and Finance Committee**) met on Tuesday, April 15, 2014, at 2:30 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Lillian Priest presiding and the following Committee members present constituting a quorum: Mary Trammel, Dottie Bell, Ginger Armstrong and Jasmine Green. Also present were Carl Pierson, Dr. T. Lamar Goree, Board Attorney Reggie Abrams, Larry Ramsey, Jim Lee, Debra Kappas, Randy Watson, Jackie Lansdale, Melody Brumble, and representatives from Gallagher.

Property and Casualty Insurance. Jim Lee stated that Caddo's property and casualty insurance is up for renewal this year and members from the current underwriter (Gallagher) are present to share with the committee details on the School Board's comprehensive package. Nancy Sylvester stated that Gallagher has been involved with the Caddo Parish School many years with Brady Harris serving as the Caddo agent. She explained that Caddo has been a member of the School pool; and while members in most pools share in the risk, this risk in this pool is only \$1.00, and a report was provided on how well Caddo has done in the area of reduced rates. With the next renewal being July 1st, she said they will within 30 days provide an analysis for Caddo on general casualty, automobile, employment practices, as well as property, terrorism and disaster management. Ms. Sylvester also added that they have brought a lot of loss control input to the District, but they are not sure if the District is taking full advantage of this aspect. They have also conducted onsite bus transportation training and copies of their DVDs are available for future trainings. Ms. Sylvester stated their goal is to help the District control its money, and new Risk Manager Debra Kappas will be looking at the claims to determine where claims are coming from.

Ms. Priest asked if the training is something that is brought at the beginning of each school year and Ms. Kappas explained this is something in her plan to address accountability as the State requires quarterly safety trainings.

The question was also raised and discussed relative to the necessity for use of a local agent (third party) or if this is something the District could do without; and following discussion, *Mrs. Bell moved, seconded by Ms. Trammel that the Insurance and Finance Committee recommend doing away with the 3rd party reviewer and that Gallagher handle it directly. Vote on the motion carried unanimously.*

Ms. Sylvester asked the committee if it would make a difference if Gallagher did not take the \$39,000, but Gallagher and Mr. Brady worked out their arrangement; and following discussion, *Ms. Trammel moved, seconded by Mrs. Bell, that the Finance and Insurance Committee recommend that Gallagher will take care of everything for Caddo and Gallagher will continue to work with Brady. Vote on the motion carried.*

Budget Information. Jim Lee provided everyone present with a copy of the calendar for working and adopting a calendar for the 2014-15 school year. He added a copy of the General Fund budget will be provided at the first budget work session at 1:30 p.m. on Thursday, April 17th. The second work session is scheduled for May 1st, followed by another work session on May 14th, and presentation to the public on May 16th. The 2014-15 budget, at this time, will be an item on the June Board meeting.

He further explained that following each work session, a copy of the proposed budget and presentation will be posted to the web site

Ms. Priest stated that as we progress through the budget process, should would like a list of positions, because she believes it is important to clean up a lot of the positions listed that continue to be created in the budget. Dr. Goree reported that staff has made progress in doing

this and is still assessing some of the positions. Ms. Priest further stated that in order to make changes, it is vital for the District to move into the 21st Century and necessary to do some cross training across the District. Dr. Goree responded that he is looking at how to better utilize personnel and changes are being made. Mr. Pierson said it is almost like getting back to cross training when someone was assigned to someone else that could carry on what needed to be done in that person's absence. Dr. Goree added that he met with his chiefs and they prepared a list of those in each department and what they do. Ms. Priest stated she hopes in going into this process that we look at ways to save the cost of sub teachers. Dr. Goree responded that as staff looks at how we are addressing the reconfiguration of schools, he too is concerned that a teacher who has not been effective in the classroom will be reassigned to another classroom, and there are principals with the same concerns. He stated that every effort will be made to place teachers and principals at the schools being held accountable as to who may come to their schools.

Old Business. Mr. Watson provided a proposed timeline for the insurance renewals, and reported that he will bring a recommendation to the Insurance and Finance Committee for submission to the Board.

There being no additional business, the meeting adjourned at approximately 3:35 p.m.

April 17, 2014

The Caddo Parish School Board (CPSB) met in a budget work session on Thursday, April 17, 2014 at 1:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Lillian Priest, Ginger Armstrong and Dottie Bell. Board member Lillian Priest led the prayer and Pledge of Allegiance.

Mrs. Bell announced that services for the home-bound student that recently passed away are scheduled for this Saturday and she would like to make sure someone attends to represent the District.

Mr. Pierson announced that this meeting is a work session on the 2014-15 CPSB budget and explained the procedures to be followed in asking questions.

2014-15 School Year Budget. James Lee, chief financial officer, stated this is the first work session for the 14-15 budget and the proposed budget calendar is as follows: (1) Tuesday, April 15, presented copy of the General Fund Budget as well as the budgeted positions for the General Fund as compared to positions for the past six years, (2) Thursday, April 17, first budget work session (discussion of General Fund only), (3) Thursday, May 1, second budget work session (present entire budget package including all CPSB funds for discussion), (4) Wednesday, May 14, third budget work session if needed, and (5) Tuesday, June 17th, CPSB 2014-15 annual budget on agenda for adoption. Mrs. Crawley noted that several Board members will be attending the Southern Region Conference and will not be at the meeting on June 17th. Mr. Lee announced that staff plans to have the proposed budget available to the public on May 16th in response to several Board member's request that the budget be made public at least 30 days prior to the Board adopting it. Mr. Lee also reported that the notice of the adoption of the budget will be published in the Official Journal 10 days prior to the Board adopting the budget and a public hearing will be held on the date the Board has the budget on the agenda for adoption.

Mr. Lee highlighted the 2014-15 proposed budget, noting that it is a balanced budget, with the ending balance being a positive number. He also shared how the District completed last year, the General Fund Budget revised at the last Board meeting (March), as well as where staff predicts the District will be at the end of the year. Mr. Lee also pointed out that originally the proposed 2013-14 budget was approximately \$4 million in the red, and when revising the budget, the ending balance was lowered to \$3.9 million, and the prediction to date is approximately half that amount. Mr. Lee added that these are estimates on the data; and while he expected it to be better, he did note the budget is tighter this year than it has been in years past; and he still believes this number will be \$1 million or less. Mr. Lee also said he believes with this budget, the District is definitely on the right track to turning things around.

Relative to revenue, Mr. Lee reported that approximately 45% is local (property and sales tax), 54% is state (MFP), and a small portion (\$4 million) is Federal. On expenditures, Mr. Lee explained that Lines 1 and 3 total approximately 76.5% of the total budget, and the District is meeting the State requirement to spend at least 70% in the instructional area.

Mr. Lee further broke down the revenue percentages, explaining that the ad valorem (property taxes) are projected to be flat this year, and the tax assessor continues to be more conservative in his projections. The total millage rate for the General Fund is 57.65 mills, the total for the District is 75.66 mills, and new millage rates will be brought to the Board at its May meeting. Sales tax has been budgeted very modestly at 1.4% growth (\$73 million) and this is received in the form of a 1.5% sales tax out of the 8.6% sales tax for the parish. Finally, Mr. Lee reported that the MFP is being posted in accordance with the State's recommendation and under State

sources (revenue), approximately \$9 million is reflected from the State Supplement received, resulting in a net increase of approximately \$4.1 million.

Expenditures reflect staff is budgeting staffing in accordance with the policy formula and no change is recommended at this time. He noted the reduction in certified staffing positions as a result of the elimination of the remainder of Block scheduling and the reconfiguration of schools. The step increase, projected retirement costs, \$200 M&S money, leasing of eight new buses, ACT and LaPrep costs are also included. Relative to employee benefits, Mr. Lee reported this amount represents approximately 33% of the total budget, as well as retirement and health care costs, with Teacher Retirement increasing to 28%, 22% of which is the unfunded liability which the District is required to pay annually.

Mr. Lee reported that health care represents approximately 17.5% of the budget and is based on staff's best estimates. While staff just recently did a renewal, they will bring another renewal to the Board later in the year for consideration. Mr. Lee also noted there are many things that will go into effect with the Affordable Care Act, some of which are known and some of which are not known at the present time, thus staff's recommendation of an approximate 10% increase.

Mr. Lee explained that over the last six years, the District has reduced in size by approximately 1,000 employees, with all seven areas being reduced by approximately 15%. He also noted how the reduction of part-time sweepers, transportation, and Central Services has affected the classroom, verifying that when staff has had to bring reductions, they implemented those reductions as equally as possible across the board so as not to take away from the largest group of employees, the teachers.

Mrs. Bell noted her idea to use certified teachers on record as substitutes, because with the reconfiguration of schools, some teachers will not be placed; but since they would still be on salary and receiving benefits, the District could use these teachers in that capacity. She further explained that the District spent \$5,661,655 last year for substitute teachers, and she encouraged staff to use these teachers specifically in Grades 4-8 to lower the class size for tutoring as well as work alongside another teacher in the classroom. In high school, she suggested that the surplus teachers be used for end of testing groups and ACT facilitators to monitor tutoring and track student progress. In the 9th grade, Mrs. Bell recommended using these teachers in Math, ELA and below grade level students. Additionally, that she believes the certified teachers should be used to teach classes where a teacher might be out on a long-term leave. Dr. Goree responded that staff will consider the suggestions from Mrs. Bell, and further explained that when staff is looking at the budget, it always looks at students first and then how the District can be as financially fiscal as possible. He also explained that when staff looks at creating a pool of subs to support the schools, staff is committed to allowing principals to select teachers they interview who will provide the best service to their students; because if staff begins assigning teachers to schools, we are taking this away from the principals, and he believes principals own and provide the best level of support to the teachers they select. Superintendent Goree further added that some teachers will be lost due to attrition, but the District will be left with a pool of teachers; and staff will ask itself how we can best respect these teachers and provide the best service for students. Dr. Goree also stated that the pool of teachers for use in the schools will be paid full salary and benefits; and when they are used from the sub pool, the Board will see that \$5 million amount decline since we do not have to pay to bring in subs. He also believes you will see these teachers serving in long-term situations. Mr. Lee said it will depend on how many teachers are displaced; however, if these ideas are implemented, the District would see a savings in the area of sub teachers. Mrs. Bell said she does not want any teacher to feel as if she is being disrespectful, because she believes any teacher in the system is certified and can do the job, but she believes those on the District's payroll should be working. Dr. Goree said this will be a highly respected group of professionals and his expectations will be for them to have well

designed, planned lessons so when one of these teachers goes into a classroom, instruction will continue.

Mrs. Armstrong asked where will displaced principals and assistant principals be placed in this budget? Dr. Goree responded that staff is diligently working to place personnel, but at the same time, staff is not working to do forced placements. He asked that the Board allow staff some time to address this, because he believes the best decisions for the students have been made in selecting leaders in these schools. He reported that staff will meet next week to map a plan for where these staff will go; and reiterated that any administrator not putting forth effort to find a job, he will divert to some of their other certifications and place them in a classroom or the sub pool. Mrs. Armstrong stated the attorney continues to tell the Board it cannot lower their salary; but this needs to be addressed, because if they are not doing their job, she believes their salary should be aligned with the job they are doing. Dr. Goree added staff is in conversation with Mr. Abrams and there are other Districts in the state that do not agree with the way the process is being managed. He also stated if there is documentation supporting performance concerns, we need to provide that employee, while they are in the job we are paying them to do, notification that at the end of their contract, their salary will be adjusted.

Ms. Priest asked Mr. Lee if this budget reflects the estimated 1,500 employees that are currently not on employee benefits, i.e. health care, but they are eligible; and if so, what is the estimated cost? Mr. Lee said it does not include that figure, because that requirement by Federal law has been postponed twice and now is not due to go into effect until January 2015. So, at most, it would only affect the District for ½ year of this budget cycle (14-15). At this time, there are talks that it will be postponed again; but, staff is not absolute sure at this time. Mr. Lee further stated that if all 1,500 employees had to be added, the cost would be between \$10 and \$15 million. Ms. Priest asked if it is postponed, would it not behoove the District to really look close at personnel to operate a “lean” machine since it appears that this inflated health care cost will only continue to dig the District in a hole. Mr. Lee further stated that staff is attempting to get data on the law that requires auto enroll only for employees working more than 30 hours per week. Dr. Goree added that as part of the contract with UVA, they are conducting a system-wide assessment and a part of it is the staff has begun the process of cutting personnel and wants to continue the process of making sure a System is designed that can be as effective as possible. In presenting a balanced budget, Superintendent Goree explained staff looked at how it can reorganize to make certain we are more effective. Ms. Priest inquired about the breakdown of the budgeted positions under the Human Resources Department (Benefits Specialists, technicians and clerical). Mr. Lee agreed to provide this information prior to the next budget work session. Relative to school administration, Ms. Priest asked staff to clarify 62 principals, 67 assistant principals, and 174 school clerical. Mr. Lee said he will put together additional information on these numbers, but because some of the schools (high schools) are so large, they may have more than two because of their enrollment, and bookkeepers are counted in the clerical formula. Mr. Lee also clarified there is a staffing formula for clerical type positions at the schools, and staff will verify this information as well.

Mr. Hooks asked Superintendent Goree if any money has been allocated to the Medical Careers Program, and if so, how much? Dr. Goree announced that Mr. Daigle is excited about aggressively working to rebuild and strengthen this program. Mr. Lee noted that the staffing and the M&S remain the same for this program. Mr. Hooks asked staff to provide him the amount of money each school in District 5 is receiving for the 2014-15 school year, including Title I. Dr. Goree stated that Title I funds have not been broken out as of this date; however, it most probably will be available in June.

Mrs. Crawley asked about the reduction of six librarians in the schools. Mr. Lee explained this is based on the formula received from HR. Mrs. Crawley asked staff to provide her with a list of the schools that are losing a librarian. Mr. Lee responded that he will provide this year's

compared to what is being proposed. Mrs. Crawley asked about EAP and the possibility of outsourcing or evaluating this program and its effectiveness because she is seeing that in the proposed budget, the amount increased last year, and she asked how staff arrived at the proposed numbers. Mr. Lee explained that staff looked at this based on the fact there was no reduction in staffing in the EAP Program, but staff also looked at the estimated increase in benefits. Mrs. Crawley asked if we are currently auditing the effectiveness of this program. Mr. Lee said he only knows they are looking at HR and this is a part of HR.

Miss Green asked if the cafeteria monitors and aides will be placed in positions similar to the pool of teachers and principals who are not being proactive in looking for a job? Dr. Goree said everyone will have a job and at some point during the summer, the cafeteria monitors, aides, etc. will be placed. Relative to the concern regarding teachers and administrators, Dr. Goree assured Miss Green that staff only wants to make sure principals have the autonomy to select their key staff members.

Mr. Riall asked staff to clarify the increase of approximately \$3 million in expenditures for instructional services (General Fund) from 2013-14 to the proposed 2014-15 when it is anticipated that instructional services will lose 128 people. Mr. Lee explained that instructional services entails more than just people, but possibly some new programs. Also, a portion of that amount is for textbook adoption (normally increased about \$1.7 million, but this year recommended to increase to \$2 million), as well as increase in benefits. Mr. Riall asked where does the MFP money from the State come from? Mr. Lee said the majority comes from the State, and he is unsure if there are any Federal dollars in this amount. Mr. Riall asked that staff provide him with a response to this question. Ms. Priest responded there is a document she can share with Mr. Riall that breaks down the MFP as to its sources.

Mrs. Bell asked about the dispatcher in Transportation? Mr. Woolfolk responded Transportation has a dispatcher, but because one of the secretaries filled in when Transportation was without a dispatcher, that person is listed under secretaries. Mrs. Bell asked the superintendent about the reduction in instructional supervisors? Mr. Lee responded staff did not lose a supervisor, but the position is now Federally funded. Dr. Goree commended Mr. Lee and Academics for looking at the Federal and Grant monies to determine how we can best support the General Fund by utilizing grant dollars.

Mrs. Armstrong said in scrubbing the budget several years ago, one of the two Energy Managers was eliminated; and at this point she questions the need for an Energy Manager since energy across the parish is not centralized. She noted how the system at Keithville was ruined by being totally turned off and the need to totally redo the system, so she believes the custodians, along with alerts to teachers and principals, can monitor the energy savings in their buildings, creating a savings in cutting a position as well as savings in energy.

Ms. Priest asked Mr. Lee about the instructional services staff and if he can provide the Board with new programs, the cost for these new services and the dollar amounts that will be included. She believes the Board should be able to respond to the public what we are offering students in the coming year and what is being offered for students to be competitive.

Dr. Goree explained how resources were discovered that were not being effectively used and those we should be taking advantage of. Ms. Priest noted her concerns that there is a group of students being left behind.

Mrs. Crawley asked about the five vo-tech teachers and Mr. Lee said he will respond, because that is information given to him. Mrs. Crawley also asked about the surplus teacher pool and if a principal has a non-certified individual in a position year after year, she believes the scores for that particular class should be monitored closely and that non-certified teachers should be

replaced with these certified teachers. Dr. Goree stated that HR has letters for all these employees stating that at the end of the school year they are no longer an employee, and this allows the building of a culture of only certified personnel in these classrooms, which he believes will be a benefit of the certified sub pool. Mrs. Crawley said she was under the impression the Board added additional assistant principals, but when she looked at the numbers, she does not see an increase. Dr. Goree said we have the same number of positions, but at some point, there will be extra persons.

Miss Green asked for clarification on the fact that some principals will have to make cuts based on the new staffing formula, and if principals can ask for additional assistance from the certified pool of teachers? Dr. Goree responded that is correct; and the good thing about having a pool of certified teachers is if a Biology Class at a Green Oaks is not being productive, a group of teachers will meet and discuss a plan to assist the students. Miss Green asked if teachers have a choice whether or not they wish to attend? Dr. Goree responded they do not; however it is being established in an effort to make it as accessible as possible.

Mr. Riall asked Mr. Lee about the expenditures of \$6,852,000 and the 9 positions reflecting \$900,000 under General Administration. Mr. Lee explained the Board's salaries and insurance plans are listed under General Administration but are not included in the \$900,000. Mr. Riall asked the Superintendent about principals losing staff with the new staffing formula as a result of deleting the Block scheduling and if this will be addressed so students will continue to get their services. Dr. Goree responded Dr. Robinson follows a process where she meets with the principal to review the master schedule; and there are some challenges in staffing some of the programs since staffing is based on the number of students.

President Pierson announced that the next budget work session will be held on Thursday, May 1, 2014 at 1:30 p.m. The budget session was adjourned at approximately 2:43 p.m.

May 1, 2014

The Caddo Parish School Board (**CPSB**) met in a budget work session on Thursday, May 1, 2014 at 1:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Charlotte Crawley, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Board member Barry Rachal led the prayer and Pledge of Allegiance.

Mr. Pierson announced this is the second work session on the 2014-15 CPSB budget and following staff's presentation, the same procedures followed at the last work session will be followed in asking questions. He also announced a decision will be made at the end of the work session if there is a need to call a third work session.

2014-15 School Year Budget. Jim Lee, chief financial officer, provided copies of his presentation and the school budget package and announced that today's goal is to finish up with questions on the General Fund and cover other funds, i.e. Title I, Special Education, LA4, Capital Projects and Debt Service. Mr. Lee summarized the expenditures on page 1 of the proposed budget (\$482,432,440) which is down approximately \$3.6 million (.76%). He noted the areas where reductions were made and that the General Fund increased approximately \$1.5 million or .40%. He also explained the decrease in Special Revenue by \$3.5 million or 5.38% due primarily to the end of some School Improvement Grants, the decrease of approximately \$1.9 million or 8.15% due primarily to the completion of the QSCB spending, and Debt Service remaining relatively flat since no new debt has been issued or paid off.

Mr. Lee explained that the General Fund Budget is the same as was presented at the first work session since there have not been any additional requests from Board members that would change it. At this time, it is a balanced budget with the difference of revenue over expenses being approximately \$200,000.

Mr. Lee provided responses/explanations to Board members questions from the first budget work session relative to librarians, sources of MFP funding (State General Fund, SELF Fund and Louisiana Lottery), increase in vocational education positions (Career Pathways program), and reduction of the cost of benefits. He pointed out that in looking at reducing benefits, we have reduced this area as much as possible without affecting the District Plan's grandfather status. He and Randy Watson, director of insurance, will continue to work on this and be prepared to present something to the Insurance and Finance Committee in the fall.

Regarding special revenue funds, Mr. Lee pointed these out on Page 22 of the proposed budget package, and noted that in researching, in 2009-10, the District's special revenue funds totaled approximately \$100 million. This year it is \$61 million, or a 39% reduction. He explained this is due to reduced Federal spending and fewer available State grants, and he assured the Board that the Academic Affairs Division continues to seek new grants to provide additional funding to the District.

Mr. Lee highlighted the Capital Projects Fund which includes the remainder of the 2011 QSCB Fund (which they predict the remainder will be spent in 2013-14) and the property tax millages. The Debt Service Fund remains relatively the same as the District has not issued any new debt since 2008, no existing debt is scheduled to be completely retired, and this fund can only be used to pay general obligation bond debt which is \$91,485,000. He reported staff is working with the District's bond counsel on another refunding project which could save approximately \$500,000 to the taxpayers.

Mrs. Crawley asked about the pool of extra employees, assistant principals and teachers, and if this is the current number of administrators reflected in the budget or is it a number that will

need to be amended. Mr. Lee responded he understands this is the number of administrators currently on staff and the only way this will change is if a non-administrator is named to an administrative position. Mrs. Crawley asked if she understands we will not have extra assistant principals at schools that are above the number now. Mr. Lee said it is not in the budget. Dr. Goree responded that from his research there is a chronic situation in Caddo Parish where you will have administrators on special assignment, but staff will assure the Board that it will stay within the approved budget. He added there will be situations where someone is being paid out of the administrative column and they may not be in an administrative position; and for some of this, the District is contractually obligated to do but staff has accounted for it in the budget. He also explained that it is systematic and it will take a few years for staff to work through the contracts to make certain everyone is in the column for which they are being paid and also doing the job for which they are being paid. Mrs. Crawley stated her understanding that since this is all under the umbrella of restructuring the schools and employees being able to reapply for their jobs, which will affect teachers, custodians, bookkeepers, cafeteria, etc., will we stay within the numbers as new people are hired? Dr. Goree said he believes over the next three years we will see an improvement in the budget, but it will mean working through the staff that may be in assignments other than what they are being paid for. In classified personnel, Dr. Goree explained many of the overages will be taken care of through attrition; however, the surplus will be seen in teachers because of the reconfiguration of five schools and staff must get this to a manageable number before setting up the sub pool.

Ms. Trammel asked about the librarians because Woodlawn and Fair Park are each losing a position, and what is the projected enrollment for these? Dr. Goree responded that some special education adjustments have been made, and Dr. Robinson stated that the last projected enrollment for Woodlawn is approximately 750. Ms. Trammel asked how many 9th graders are included in the total of the 750 students, because she questions how one teacher will be able to effectively work with this many students. Dr. Goree responded there is one librarian at the larger high schools, but staff will provide the current accurate numbers that determine another librarian but it is possible to look at special cases. Ms. Trammel also asked about Career Paths at Woodlawn and if all classes will continue in the high schools. Dr. Goree stated that the budget efforts are around the Jump Start Program; and based on Jump Start, additional spots were added and staff will be prepared to support Career Paths for students. Relative to Woodlawn, he said staff is still committed to it being in the school even though at this time, staff is having a difficult time placing a teacher for it.

Mrs. Crawford asked if, in the shuffling of employees, a principal returns to the classroom (or a director is placed in a principal position), will the principal keep principal pay or once his contract as principal is up, will the salary be at the appropriate teacher pay? Dr. Goree stated that current Caddo practice is once someone receives a salary, they keep it; however, staff is working with counsel to explore options on how an employee can be returned to the appropriate salary. One thing identified that will be taken advantage of is whether or not there is effective documentation on that person whose position is changing and at the end of the two year contract, they will be returned to the appropriate pay. At the advice of counsel, this has not been done in Caddo Parish and as a result, there are persons being paid for jobs they are not doing. At this time, staff is working to clean this up. Mrs. Crawford stated her concern that for one person it may not be a lot of money; but collectively it could be a lot of money. Mrs. Crawford asked how much money does this represent (those being paid for a job different than what they are doing) and staff will respond.

Ms. Priest inquired about the response to her questions from April 17th, and Mr. Lee stated he will make certain that she receives these.

Mr. Rachal asked about the proposed 2.75% increase in MFP funds and if it had been voted on and approved at the State level. Mr. Lee said it has not been and the State is actually considering

this at their meeting today, and staff placed it in the budget because the Legislature has been pressing BESE to add the 2.75 which is what was presented to the Legislature for approval, but who in the past has said no. Mr. Lee also stated they have followed the lead of the Governor in the past. Mr. Rachal noted the difference in numbers on the Capital Projects Fund? Mr. Lee explained the 20.1 is revenue and the 20.8 is expenditures and this is what they are expecting. Mr. Rachal also asked about revenue of 20.1 and Mr. Lee referred to the proposed budget. Mr. Rachal asked if, at this time, the prediction is we will spend more than what is brought in, and Mr. Lee stated that is what is budgeted at this time; however, there is an \$8 million fund balance which includes approved projects, debt service and projects that have not been paid. Mr. Rachal asked if these funds are allocated, and Mr. Lee clarified it would have to be shifted to General Funds, and it must be used for additional capital needs.

Mr. Ramsey commended staff because this is the first budget in 12 years of serving on the Board that has had a positive ending balance. He further stated his belief that Jump Start is an area we have fallen short in and asked if he understands correctly that funding is in the budget to do what needs to be done to develop this program effectively. Dr. Goree responded affirmatively and that the District is fortunate to have Gayle Flowers on staff as she is on the leading front relative to how Jump Start is being implemented and revamped in Louisiana. Mr. Lee added that it is not added in the Special Revenue Fund listing because it was not properly awarded at the time the proposed budget was printed, but there is also a Jump Start Grant to help with this program. Mr. Ramsey asked about the award amount and Mr. Lee responded he will get that information for Mr. Ramsey. Mr. Ramsey said he believes it is very important that we aggressively support submittal for grants because it will be key to funding this program in the future. He also added if any consideration has been given to hiring a grantwriter.

Mrs. Armstrong asked Mr. Lee to explain the \$5,500 increase in the Employee Assistance Program (Central Services)? Mr. Lee explained this line item includes the salaries for two employees (administrator and a clerical), M&S as well as travel and other expenditures; and in looking at the estimate for the end of the current year, he stated it is possibly lower because they have not spent a lot of M&S this year; however, staff is budgeting it the same for 14-15 as was budgeted for 13-14 even though they have not spent all that was budgeted for last year. Mrs. Armstrong inquired as to how much does staff use this department? Dr. Robinson responded that the services of EAP are used consistently, more than regularly, all of the time.

Mrs. Bell asked how many librarians does Huntington have? Dr. Goree stated that in looking at the number of reconfigured schools, some of the numbers may not be the same as she is referencing on the MiniFacts. Dr. Robinson responded that Huntington had one librarian, but because of the numbers, Huntington will now be allotted two librarians. Mrs. Bell also asked how many Art teachers does Walnut Hill have? Dr. Robinson responded that Walnut Hill has five enrichment teachers based on their population. Dr. Goree explained that staff would need to check with the school, because the school has an allotment of five enrichment teachers and the school decides how they wish to utilize those. Mrs. Bell asked how many Art teachers Southwood has, Caddo Magnet, etc.? Dr. Robinson explained they do not have the individual school rosters, but will get that information and share with her. Mrs. Bell asked how many enrichment teachers at Byrd, Captain Shreve, Woodlawn, all schools over 1,000 students. Dr. Robinson clarified that enrichment teachers serve the elementary schools, and Mrs. Bell stated she understands, but questions the fairness of a school with 1,700 students from ECE through 8th grade only having one librarian, but a high school with 1,200 students can have two librarians. Mr. Lee reminded Mrs. Bell that there are no enrichment teachers at the high schools, and Dr. Goree responded that for budgeting purposes there is a K-8 formula that staff follows based on the number of students; and if a school, like Walnut Hill, has 1,700 students, there will be more teachers and it is the principal's discretion as to how those extra positions are used. Dr. Goree responded that staff will provide the information requested; however, when staff provides the requested information, staff would also provide the ratio as to how the schools are staffed. At

that point, any special circumstances that may exist may be presented. Mrs. Bell asked about surplus librarians and surplus art teachers from schools being closed and that staff consider using these surplus teachers in the schools that have unique situations. Dr. Goree added that staff is looking to get to a formula that works for all schools.

Mr. Pierson asked about the \$91,485,000 listed in Debt Service and how far down that amount has to go before the millage must be reduced? Mr. Lee stated he has reported to the Board that we have the capacity to issue some debt in the near future without increasing the debt service amount; however, if nothing is done in 2015 relative to adopting the millages then, we will have to reduce the millage from 6 mils to 5 mils. Mr. Pierson asked if we reduce it, does that lessen the amount the District can go out for bonds without having to ask for a millage increase? Mr. Lee said that is correct and referenced the most recent opportunity the District had to do so and the Board opted not to do so and the millage was reduced that year from 7 to 6 or 130 to 40. Mr. Pierson stated that he mentions this so Board members can begin discussion with constituents regarding how the millage works and that it is not an increase in taxes. He also stated there are teachers at K-6 grades; and if they came out of AU, and are now in a 4-6 configuration or a K-3 configuration, how will principals' salaries be affected, since they are based on student population. Dr. Goree explained that in most situations, it was neutral; however, there were some situations where it would have caused a decrease in pay but staff did not reduce anyone's salary based on the reconfiguration, and this was figured into the budget.

Mrs. Bell asked Mr. Lee to explain the revenue money received from the casinos as well as the Louisiana Lottery. Mr. Lee stated the District receives revenue from two casinos located in Caddo Parish (Sam's Town and Diamond Jacks) and we can only use the interest. The money from the Louisiana Lottery does not come to the District, but is a funding source for the State MFP.

Mr. Ramsey asked that staff provide a breakdown on the travel line items and possibly some areas that could possibly be cut and/or consolidated. Mrs. Armstrong added that travel also includes itinerant teachers and she would like for this to be broken out also.

Mr. Rachal asked that a bulletin/public relations page, relative to what the State Legislators continue to do and how it negatively impacts the District, be put together for publishing in the paper and sharing with the Board members. Mr. Rachal stated we need to be more pro-active, fight for what we know is best for education, and educate the public on what the State is doing to our children.

Ms. Priest asked about the projected benefits and the 19 bills currently before the Legislature that directly affect retirement, because all but approximately five of those should be opposed to by the Board. She added that one going through the committee would put more undue cost on the District, and asked if staff is looking at this. Mr. Lee explained staff continues to monitor Legislation, because some legislation can be good while some may not be good for the District.

Mrs. Crawford asked staff to verify that the \$200 M&S is still in the budget, and Mr. Lee confirmed that is correct. She also asked if any extra money will be used at the Transformational Schools and is it included in this budget? Dr. Goree stated that at this point, 99% of everything for the Transformational Zone has been Federally funded through grant monies.

Ms. Trammel asked if the amount librarians receive for purchasing books has been reduced? Mr. Lee said this year's budget is the same as last year's budgeted amount. Ms. Trammel asked how the allocation amount is determined. Mr. Lee responded that most allocations are per pupil.

Regarding art, Mrs. Crawley stated that everyone in the community is still upset about not having a drama teacher at Caddo Middle Magnet; and because she was advised she could request

that this be added at budget time, she also believes input should be allowed from the public as to whether or not the school has a drama teacher. She added she knows about the plan for after school, but she believes there is a need to have a drama teacher, even if it is an itinerant teacher. She encouraged staff to look at the pool of extra teachers and the possibility of placing a drama teacher at Caddo Middle Magnet from that pool. Dr. Goree said staff will follow up on this request. Mrs. Crawley expressed her appreciation for what the superintendent has done; and if she is afforded the opportunity to serve another four years, she desires to see at the end of that four-year term a pool of future leaders and the salaries to be brought in line for those in leadership roles in the schools. Dr. Goree also shared that in seeking principals for the 10 transformational schools, the University of Virginia shared how difficult it was to attract the best possible candidates because of the current pay schedule for leaders in the schools.

Mr. Pierson stated his agreement and the need to convince the community that if this is to change, the community will have to step up as well. Mr. Pierson thanked Mr. Lee and the staff.

Mrs. Armstrong asked that staff also look at the salaries paid to K-8 principals because they are also out of line with what those in these positions are doing. Mr. Lee stated that K-8 principals are paid at the middle school principal rate. Mrs. Armstrong said she believes they need to be paid more since they have elementary and middle school responsibilities. Dr. Goree announced staff will release an RFP to begin the search for an organization to support the District in its strategic planning, and Human Resources will be a part of that strategic plan. Mrs. Armstrong noted that it was Rahmberg that stated they should not be paid, and she totally disagrees with this and some of the other decisions Rahmberg has made.

Mr. Rachal asked staff to look at the possibility of returning a grantwriter to the District.

Ms. Trammel asked what does a District do in a situation where employees have a poor performance, is it possible employees will be released? Dr. Goree said absolutely, because when things happen that are “gross negligence”, and staff feels that employee is a problem to the organization, staff will release that employee.

Mr. Pierson announced that the next budget worksession will be scheduled for May 14, 2014 at 1:30 p.m.

There being no additional business, the meeting adjourned at approximately 3:00 p.m.

May 6, 2014

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, May 6, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mr. Pierson led the prayer and Pledge of Allegiance.

Resolution Giving Supplemental Approval to the Issuance of General Obligation School Refunding Bonds and Providing for Other Matters in Connection Therewith. *Ms. Priest moved, seconded by Miss Green, to approve the following resolution for supplemental approval for the sale of not exceeding Seventeen Million Five Hundred Thousand Dollars (\$17,500,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; and providing for other matters in connection therewith.*

RESOLUTION

WHEREAS, this Parish School Board adopted a resolution on February 19, 2013 giving preliminary approval for the issuance of not exceeding \$17,500,000 of General Obligation School Refunding Bonds (the "Refunding Bonds") of Parishwide School District of Caddo Parish, Louisiana (the "Issuer") for the purpose of refunding all or any portion of the Issuer's outstanding General Obligation School Bonds, Series 2006 (the "Series 2006 Bonds"); and

WHEREAS, this Parish School Board now desires to supplement said resolution of February 19, 2013 to provide with respect to the sale of the Refunding Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. The Refunding Bonds are hereby authorized to be sold to the Underwriter, and the Superintendent is hereby authorized to execute a Bond Purchase Agreement with the Underwriter, in form and substance satisfactory to Bond Counsel to the School Board, provided the sale of the Bonds produces minimum net present value savings (after payment of all costs) to taxpayers of not less than 1.50% of the principal amount of Series 2006 Bonds being refunded.

In response to Mr. Rachal's question relative to savings to the taxpayers, Jim Lee reported that with the current market conditions, it is anticipated the savings will be approximately \$.5 million. Mr. Rachal also asked how much savings does this total for the past five years, and Mr. Lee stated it is approximately \$2.5 million. Ms. Priest said she believes this to be a great opportunity for the superintendent and Board president to prepare a photo op to the media on these savings to the taxpayers. Dr. Goree agreed and staff will follow up. *Vote on the motion carried unanimously.*

Approval of Construction Bids. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Redesign and Rebid Project 2013-140, "West Shreveport Re-Configuration"; (2) Henderson Construction, with a Base Bid and Alternate 1, for the sum total of \$296,977 for Project 2015-211, "Sunset Acres Paving"; and (3) Carter Construction, with a Base Bid, for the sum total of \$498,000 for Project 2015-204, "Werner Park Elevator".*

Mr. Hooks asked for clarification on the West Shreveport project and Mr. Woolfolk explained the lowest bid came in at \$3.3 million which was approximately \$1 million over budget, so it is staff's recommendation to reject this bid and redesign and rebid the project. He added staff believes in redesigning the project there are some minor changes that can be made to get the cost down and still serve the needs in that building. Miss Green asked if the intentions for West

Shreveport will remain the same; and Dr. Goree confirmed the intentions will be the same, but staff wants to be financially responsible and work in the confines of the amount approved by the Board. Miss Green also questioned the \$.5 million cost for an elevator at Werner Park and why this is being done, was a second floor added to the building? Mr. White clarified that it is a new elevator at a cost of \$498,000 and Werner Park has always been multi-level, actually consisting of three levels. He reminded the Board that approximately five years ago, the Department of Justice agreed to drop a suit, i.e. Fairfield, with the agreement that the District would continue with at least one elevator a year to provide handicap accessibility in multi-level buildings. Werner Park is one of the last one's we can address by adding a single elevator to correct this at the school. From this point on, Mr. White reported there will be a need for multiple elevators in schools with multiple buildings.

Mrs. Bell asked if this redesign and rebid will delay the opening of West Shreveport, and Dr. Goree responded that the goal was to start the move before January by moving one department at a time approximately one month apart; but this will push that date back some. Mrs. Bell asked if there is a plan to make the opening of the coming school year more convenient for parents, and Dr. Goree responded that is staff's intention and is working on an alternative plan for the opening of school.

Vote on the motion carried unanimously. A copy of the bid tabulation sheets is filed in the official papers of the May 6, 2014 CPSB Special Session.

Personnel Recommendation. *Mr. Hooks moved, seconded by Ms. Trammel, to approve the personnel recommendation as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.*

Adjournment. *Mr. Hooks moved, seconded by Miss Green, to adjourn the special session. Vote on the motion carried unanimously, and the special session adjourned at approximately 4:48 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

May 6, 2014

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, May 6, 2014 at approximately 4:48 p.m. (immediately following a special called meeting) in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and Mary Trammel being present constituting a quorum. Others in attendance were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong, Dottie Bell and Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mrs. Crawford was absent. The prayer and pledge were omitted.

Presentations. President Pierson announced that the presentation is being rescheduled for the May 20th meeting.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the proposed items for the Board's consideration on May 20, 2014 and the following discussion ensued.

Capital Projects. Mr. Rachal asked staff if HVAC projects listed were not done in the last seven years. Mr. White explained that those HVAC systems were replacing window units; however these are existing central units that had not failed in 2004 and now are in need of replacing failing equipment.

Sales and Use Tax Commission 2014-2015 Budgets. In response to Mrs. Bell's question to clarify, Mr. Lee explained that the Sales Tax Administration budgets are authorized by the City and the School Board and City Council must approve their budgets.

Adopt the Millage Rates for 2014. In response to Mrs. Bell's request for clarification, Mr. Lee explained that every year the School Board must adopt the millage rates paid by the taxpayers on property taxes in conjunction with the assessor's office.

Revision to 2013-14 CPSB Pupil Progression Plan. Chief Academic Officer Keith Burton explained that this proposed revision to the current Pupil Progression Plan results from recent action by BESE to allow Districts to provide waivers to 4th grade students who may not have made the Approaching Basic-Basic combination on the Leap test. He further explained this will be the last year for Districts to give the Leap because we are transitioning to a new promotion policy, so in essence this is a transition revision, and staff is asking the Board to allow the District to provide this opportunity for the elementary schools to look at a scaled score in ELA and Math and send a recommendation to the SBLC to look at another option for promotion rather than strictly looking at Leap Basic and Approaching Basic combination. Mr. Burton added that because next year PARCC assessments will not be received until the end of the summer, it will be too late next year to use a student's test score for promotion, so other criteria for readiness and proficiency need to be established. At this time, two scaled scores will be provided as a threshold; and if a student meets that scaled score in English or Math, the SBLC may consider that student for promotion. Mrs. Bell asked with the District not receiving PARCC scores until the end of the summer, how will students be promoted? Mr. Burton stated that will be a decision made by the Pupil Progression Plan Parental Review Committee and staff in establishing a new Pupil Progression Plan for next school year, establishing the criteria for determining if a 4th grade student is ready to promote to 5th grade, and the same for 8th grade students promoting to the 9th grade. Also, summer remediation will continue to be offered for 4th and 8th grade only since those are pivotal years. Mr. Riall asked Mr. Burton what grades will have the PARCC testing, and Mr. Burton stated 3rd through 8th grades, and currently High Stakes Testing only occurs in 4th and 8th grade.

President Pierson announced that Items 6.01, 7.01-7.03, and 8.01-8.05 are consent agenda items. *Ms. Trammel moved, seconded by Mr. Pierson, to approve the proposed agenda and consent agenda for the May 20, 2014 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, expressed appreciation to the Board for its support of the resolution opposing legislation that would eliminate payroll deduction of employee organization dues, reported that the legislation that would disallow charter schools to by-pass local districts (A, B and C Districts) has moved through the House to the Senate, the MFP is also continuing to move forward, and she reminded everyone that the Most Improved Student Celebration will be held at Southwood High School on May 13th at 6:00 p.m.

Mr. Rachal expressed appreciation to Ouachita Independent Bank for their support in sponsoring the Student of the Year Banquet and providing Caddo's elementary, middle and high school winner with a new iPad.

Superintendent Goree also expressed his appreciation to Victor Mainiero and the incredible job done in serving as the District's Director of Communications and Marketing.

Mrs. Bell also congratulated Huntington High School for their successful accreditation.

Adjournment. *Ms. Trammel moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 5:13 p.m.*

May 14, 2014

The Caddo Parish School Board (CPSB) met in a budget work session on Wednesday, May 14, 2014 at 1:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Jasmine Green, Charlotte Crawley, Mary Trammel, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Rachal led the prayer and Pledge of Allegiance.

Mr. Pierson announced this is the 3rd work session on the 2014-15 CPSB budget; and following staff's presentation, the same procedures followed in the first two work sessions will be followed in asking questions today.

2014-15 School Year Budget. James Lee, chief financial officer, stated that today's goal is to hopefully answer all of Board members' questions and be able to approve the 14-15 school year budget at the meeting on June 24th. He shared the following information: (1) summary of expenditures for 2013-14 and proposed for 2014-15 reflecting a slight reduction (which is mostly in the special revenue funds and some capital projects funds); (2) General Fund budget (which remains the same as presented in the first work session) reflecting a projected revenue of \$390.6 million, and an excess of revenue over expenditures of approximately \$195,513; (3) answers to questions at the second budget work session (i.e. school clerical staffing, Jump Start, librarians and library clerk numbers at Woodlawn, Fair Park and Huntington); (4) reduction of six librarians; (5) travel budgets (amounts for in parish and out of parish); (6) adding CEEF Operating Fund (approximately \$300,000) to the expenditures; and (7) the list of capital projects for the 2014-15 school year.

Mrs. Bell asked about plans to replace the broken seats in the auditorium and cafeteria at Walnut Hill. Mr. Lee responded if it is not on the approved project list for the coming year, it would be considered an emergency or health issue to be added to the budget. If funds are available and the Board approves it, Mr. White can schedule it. If funds are not available, Mr. White would look to see what project could possibly be delayed in order to add this project to the current year. Mr. Woolfolk explained funds are available for emergency issues; and if this is a health and safety issue, staff will look into addressing it. Dr. Goree asked that Risk Management look into this.

Mrs. Armstrong asked what schools are included in the asbestos abatement? Mr. Lee explained money is set aside in the event asbestos is discovered in any construction project. Mr. Woolfolk added that one of the biggest issues with asbestos is whenever carpet is being replaced and asbestos in tile is discovered, the asbestos must be removed before the carpet is reinstalled.

Mr. Rachal asked about budget adjustments throughout the year and, for planning purposes, what needs to be planned ahead for and what impact will there be on the budget, because the Board will approve this budget and will not see it again, but only the adjustments brought to the Board. He would like to know what staff is planning for in the future. Dr. Goree responded that his experience is to live within his budget, so he believes the District can do business for the next 365 days within this budget; and some of the major things, i.e. strategic plan, have been budgeted. Mr. Rachal stated his understanding, but this is a one-year budget and the public wants to know what is going on in the future and not just one year at a time. Dr. Goree explained that he has been sharing with groups throughout the city that many things relative to the future needs of the District will come from the bond process. He also stated that, at this time, the District's budget is how the belt can be tightened and how the District can better manage what it has and produce a greater product; however, there will be a time where the District will need to seek additional revenues from the taxpayers, the Government, grants or other sources, and is something that needs to be addressed in the strategic planning process. Mr. Rachal asked if he understands that the superintendent's goal is to present by the end of the year a more

strategic plan for the entire district. Dr. Goree said that is correct and that there will be an opportunity for any stakeholder in the school district to play a role in the process.

Mrs. Crawford asked about the bleachers at Youree Drive and the need for them to all be the same color. Mr. Lee explained that a list is created every year based on requests from the principals and how much can be done is scheduled year by year. Mrs. Crawford asked if the principal asked for bleachers, is it not on the list? Mr. Woolfolk added if there is a situation where the bleachers are a risk factor, staff will fix/repair them; however, if they are not the right color and the principal didn't request that they be painted/replaced, staff does not intercede in these situations.

Ms. Trammel asked about unfilled positions being in the budget, and the possibility of removing them. Mr. Lee stated it is dependent on whether or not there is still a plan to fill the position; and if a position is not filled, the superintendent may choose to remove it from the budget. Dr. Goree explained the effort to do this, and he asked Ms. Trammel to let him know about any specific position so staff can follow up.

Mrs. Crawley expressed her appreciation for this year's budget process because it has been the least painful budget since she began serving on the Board. Relative to travel, she noted the increase in special education travel. Jim Lee responded that while staff budgeted \$130,000 this year; it is possible that \$130,000 will be spent. Dr. Goree did note that he and Mr. Burton are scrutinizing the travel requests to insure that it is needed travel.

Miss Green noted that her elementary schools are keeping their 6th grades and asked if there will be money in the budget to provide the extra T buildings they may need. Dr. Goree said the problem they ran into was if there were enough classrooms, because science labs, computer labs, etc. have been set up; however, he is aware that the Maintenance Department is working with them. Mr. Woolfolk stated staff will make sure the space they need is available, and Dr. Goree assured her staff is committed to these schools keeping the labs the school has set up. Miss Green asked about the cost to move a T Building, and Mr. Woolfolk stated approximately \$100,000 to \$125,000.

Mrs. Crawford asked for an update on what the Legislature is doing and if it will affect this budget? Mr. Lee said at this time, it will be for the 15-16 year, but as of yesterday, a final decision relative to MFP had not been made. Mrs. Crawford asked about vouchers and charters and if this budget includes what is needed, and Mr. Lee stated that is correct.

Mr. Pierson asked about W2s on automobiles that are taken home and Mr. Lee responded that is still the case if the car is driven home. If an employee drives their personal car to work and uses the District car during the day, they do not receive a W2.

Mr. Rachal asked if we have allocated in the current budget the 2.75 increase in MFP even though it has not been approved? Also, has staff counted what legislation, if passed, will provide the District to offset the virtual school expenditure? Mr. Lee said there are not that many students enrolled in a virtual school, and it is something new, so staff has not included it; and if there is a change, he added it will probably be very small. Mr. Rachal asked if the likelihood is slim that we will not get the MFP increase, and Mr. Lee said that is his belief. Mr. Rachal asked if there is a contingency plan in place in the event that we do not receive it, and Mr. Lee responded that if we do not get the 2.75, revenue will be reduced approximately \$6-\$8 million, and it would be necessary to revisit the budget. Mr. Lee added he is comfortable about receiving the 2.75 increase because (1) it is in the model BESE forwarded to the state to be considered, and (2) a lot of Legislators have been pushing BESE to put it back in the model. Mr. Rachal asked where are the 20 contingency positions? Mr. Lee explained they are included in the regular teacher number, and some have been utilized. Mr. Rachal asked that staff keep a tally on the

contingency positions used; because he would like to know that they are being used and how they are being used. Dr. Goree explained it is a “rainy day fund” and when a budget is cut as much as possible, there will be special situations; but the advantage of the contingency positions is we will retain the money for those we don’t use. Mr. Lee stated that at this time, there are plans to use seven of these positions and staff will provide the Board with updates. Dr. Goree stated that in looking at the staffing ratio, the effort will be made to not use any of these positions because we need to develop a process where we plan accordingly and do not need the extra spots. He also commended staff for their efforts in moving into an area of very conservative management---looking at what is needed, the cost, and proof this is increasing student success.

Mrs. Armstrong stated there has been conversation relative to the energy managers and what they do; however, it is still in the budget. She asked that staff provide an audit of the energy manager position to determine if it is a needed position and if the principals and teachers on the campuses could not be accountable for following procedures to reduce the amount of energy used. Dr. Goree responded that over the next year, it is his goal to look at each department and each position in depth to determine the need for each of them, i.e. the grant writer position and creative ways we can accomplish this without adding a full position.

Mrs. Bell asked that travel (in-parish \$247,000) be broken down as to who is getting reimbursement, i.e. supervisors and directors by departments/areas/positions. Dr. Goree responded that staff can readily provide this information because staff is looking at how this can be reduced and how we can be smarter in this area. Mrs. Bell asked if there are checks and balances for these reimbursements, and Mr. Lee explained that when staff turns in for reimbursement, it must be approved by their supervisor and a director, and if it is for a director, that director’s division chief. Mrs. Bell also asked if there is a list of displaced employees as a result of the schools being closed and/or reconfigured and if they are being placed somewhere, i.e. bookkeepers? Dr. Goree assured Mrs. Bell that everyone will have a job; and at this time, staff is moving people around. He added that he meets with Academics and Human Resources on a weekly basis to look at the numbers and he is waiting to see the numbers resulting from attrition, retirement that will help place some of these employees. While a bookkeeper, for example, may not land in a bookkeeper position, they will be placed in a position. Mrs. Bell asked about salaries for secretaries with 25 years’ service who may be placed in an office clerk position? Dr. Goree stated that in support of the District’s culture, the salary will not change; however, even though past practice has been to keep the salary forever, he will provide a response in the future as to how this will be addressed. Mrs. Bell asked if an employee on leave files a grievance, do they continue to receive a check while they are sitting at home. Mr. Lee responded it depends on the type of leave they are on, i.e. an employee on administrative leave with pay continues to receive a check. Mrs. Bell said she believes the Superintendent should look into this type situation.

Regarding travel, Mr. Pierson noted that those who use their personal car and are reimbursed mileage do not actually receive a lot of money when maintenance, tires, etc. are taken into consideration. He added he appreciates how staff has carefully looked into this situation.

Ms. Trammel asked about guard service, SROs, etc. at the schools and the difference. Mr. Lee responded that he will bring clarification from Mr. Murry on this item.

Mrs. Crawley asked when will staff complete the Human Resources audit. Dr. Goree explained it is very close to completion and should be available to the Board in the near future. Mrs. Crawley said she never thought Caddo had too many bus drivers and questioned how the District will be able to eliminate six driver positions. Mr. Woolfolk explained we cannot fill them all and there are subs to make up the difference. He further explained that every year staff looks at the routes and how they can be adjusted and/or eliminated, and staff believes it can cut six positions.

Mrs. Crawford asked if the cut in the Summer Meal Program is because of Federal cuts to Federal programs? Mr. Lee responded this is a Federal Program based on what they expect the revenue to be next year. Mrs. Crawford asked if the cost for the cafeteria meals will increase, and Mr. Lee stated he is unsure; however, he will get with Debra Harris to follow up. Mrs. Crawford asked that a message be conveyed that those serving in the program are mindful of who they are serving, because we do not want them to fill bad.

Mr. Rachal said he asked about the grant writer and the need for a similar position who will not only write grants, but assist others in how to write grants. Dr. Goree stated his agreement and staff is looking at current positions and retirements. He further stated there is a need in the area of communications to add someone; and as staff looks at reorganization, it is looking at how it can make this happen and keep a balanced budget. Dr. Goree added he and staff are committed to keeping a balanced budget, and at this time, it is time sensitive. Mr. Rachal stated he will be requesting that a grant writer with adequate salary be added to the budget.

Mrs. Armstrong asked if the communications person will be replacing Mr. Mainiero, and Dr. Goree reported that staff is currently interviewing for someone to take Mr. Mainiero's place; and in looking at the magnitude of what needs to be done in the District, it is important to get in front of everyone with our marketing if we are going to be competitive. Also, in looking at the candidates and the magnitude of what Mr. Mainiero has brought to the table, staff sees this as a more than one person shop. In the future staff will look at how we can create an assistant's position, approved by Rahmberg, because living in an era of social media, it is a lot and can be overwhelming. Mrs. Armstrong stressed the District's need for someone with the professionalism Mr. Mainiero brought to the position in speaking with the media and being before the public.

Mr. Pierson expressed appreciation to the staff for their preparations and for the Board members who have prepared and participated in this budget process in the effort to be good stewards of what the public has provided it. Additionally, he believes it is necessary to place in the long-range planning committee, the idea of a new bond issue and to begin moving in what we want our District to look like in the future, the needs and what it will take financially to provide and meet the needs of the children.

There being no additional discussion, the work session adjourned at approximately 2:45 p.m.

May 20, 2014

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, May 20, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Crawford led the prayer and Pledge of Allegiance.

APPROVAL OF MINUTES OF THE APRIL 15, 2014, APRIL 17, 2014, MAY 1, 2014 AND MAY 6, 2014 CPSB MEETINGS

Ms. Priest moved, seconded by Mrs. Bell, to approve the minutes of the April 15, 2014, April 17, 2014, May 1, 2014 and May 6, 2014 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Youree Drive Middle School Advanced State Band. The Youree Drive Middle School Advanced State Band shared a musical selection titled “Thunder” that is student written, student performed and student organized. Geoff Wilson is the facilitator for the group.

Youree Drive Middle School “KYDS” Won Best Middle School U.S. Education TV Awards. The following Youree Drive “KYDS” were recognized for being honored with the Best Middle School U.S. Education TV Award at the 2014 Student Television Network Convention: 7th graders Cameron Jack, Hannah Renfro, Shelby Sandefur, Mariel Taylor and Misaab Wadi; and 8th graders Anna Gregory and Alyse Kirkaldy. Youree Drive was awarded \$5,000 for best exemplifying the platform in terms of live feeds, news production, community involvement and advertising.

Regional & State Science & Engineering Fair Winners. The following students were recognized as winners in the regional and state science and engineering fair: Division A Category 1st Place Winners are Chiara Digilirmo, Blanchard; Garrett Butler, Eden Gardens; Laney Fouts, Eden Gardens; Gergely Szarvas, Eden Gardens; Ethan Mackowiak, Riverside; Joseph Clary, South Highlands; Team Lacie & Leslie Johnson, University; Ashini Modi, South Highlands. Miss Modi was also selected Overall Division A Winner and South Highlands was named the Division A Sweepstakes Award winner. Division B Category 1st Place winners are Maja Johnson, Herndon Magnet; and Team Robert Brown & Sunjay Letchuman, Caddo Middle Magnet. Robert Brown and Sunjay Letchuman were also recognized as the Overall Division B Winner and Caddo Middle Magnet was named the Sweepstakes Award winner. Junior Division winners are Team Robert Brown & Sunjay Letchuman, Caddo Middle Magnet; and Laura Derbonne, Caddo Middle Magnet. Division C Category 1st Place Winners are Brandalyn Smith, Northwood; and Elijah Ash, Kyle Dockendorf, Moez Hayat, Vincent Huang, Brianna Jett, Nicholas Larson, Vijay Letchuman, Margaret McNew, Sarah Rokaw, Yale Rosen, William Stewart, Brandi Sun, and Venkatesh Sivaraman from Caddo Magnet High. Venkatesh Sivaraman was named Overall Division C Winner and Caddo Magnet High received the Division C Sweepstakes Award. The 2014 State Science & Engineering Fair 1st place winners in the Senior Division are Venkatesh Sivaraman and Morni Modi from Caddo Magnet. Venkatesh

Sivaraman (Caddo Magnet High) was also recognized for receiving the Intel Excellence in Computer Science and Anna Leskova (Caddo Magnet) for receiving the Iota Signa Pi Award.

Caddo Career & Technology State Auto Skills Contest Winners. Kendall Lawson and Christopher Stuteville were recognized for winning scholarships to Ford Motor Co.'s ASSET program and more than \$20,000 in other scholarship opportunities and prizes. By winning the Louisiana competition, Christopher and Kendall moved one step closer to becoming the best student automotive technicians in the country. The national competition will be in Dearborn, Michigan, June 8-10, 2014.

2014 Louisiana Skills USA Championship Gold Medalists & Elected State Officers. First place winners and students elected as state officers for 2014-15 in the CC&TC and North Caddo competed in the LA Skills USA Championships April 2-4, 2014 in New Orleans are: Junine Asuncion and Henry Belt (Caddo Magnet High); Andrew Black, Ethan Carlisle and Cherilyn Crumpton (Byrd); Dakota Darfler, Andrew Davies, Karla Debrae, Derek Delo, Mary Demarigny and Mathew Dixon (Caddo Magnet); Jade Edgefield (North Caddo); William Green and Max Guzman (Captain Shreve); Hannah Jackson (Byrd); Kash Keith (Northwood); Natilie Pereira (Captain Shreve); Tanikwa Scott (Huntington); Lexus Sutton (Byrd); Janai White (Captain Shreve); Angeliq Williams (Northwood) and Devin Yarborough (Caddo Magnet).

Caddo Career & Technology Center Scholarship Foundation. Gard Wayt, chair of the Caddo Career & Technology Center Scholarship Foundation, expressed appreciation to the board for sponsoring one of the annual scholarships and shared with Board members a program on the winners and sponsors of this year's scholarships. Fifteen hundred dollar scholarships were awarded to 40 students, and he recognized members of the Foundation Board: Ron Adams, Susan Huen, Mr. Berg, principal at CCTC; Gayle Flowers, school director; Willie Phillips, and Larry Ramsey and Barry Rachal from the Caddo Parish School Board. Mr. Wayt highlighted the requirements for applying for these scholarships and announced that with this year's 40 scholarships, the Foundation has awarded 619 scholarships over the past 19 years, representing \$900,000. He added that information on the 40 students who won the scholarships is provided for the Board members as well as a list of the scholarship sponsors.

Barret Paideia Library Awarded \$5000 Grant. Cassie Harwell, Instructional Coordinator, and Janie Simpson, Barret Librarian, were recognized for writing a grant that awarded the Barret Paideia Library \$5,000 from the Laura Bush Foundation for America's Libraries.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: (1) Patrick Greer, Director of Curriculum, and (2) Victor Mainiero, Area Director of School Performance (high schools).

VISITORS

Jon Glover asked what legacy will be left behind that demonstrates our school system and its performance as the school year comes to an end. Students are wondering about their test scores and if they were successful or not. In the past, students were not tried and tested to the extent the students are today; and she questions if the students today are better off with the practices that have been instituted for the sake of education. Ms. Glover stated she had the opportunity to attend every stakeholders' meeting held within the last month; and what she recognizes is there are similar fears permeating the schools system, i.e. Common Core, the unknown, as well as anyone who does not have a clear understanding. She shared how frightened she is for the Caddo Public School System because she has witnessed the many methods of learning that have evolved everyday; and the lack of understanding and/or appreciation of what they are offering the children, if they are offering them anything. She has constantly pled with the Board and administration to insure that educational opportunities are experienced equally by every child in

Caddo Parish. She heard in the community meetings a lot relative to the Race to the Top concept, and asked if anyone can explain to her what it means to “Teach to the Top.” Do we negate those not at the top or that resources are unlimited for those at the top? She said Caddo does not have time to expend energy on one aspect of the children, because the whole system is in danger. She cautioned the Board about getting their act together to hopefully avoid losing our School System. Ms. Glover said she has never been a proponent of magnet schools, because she believes it promotes separatism, which results in division and eventually a break down of the system. She questions if Caddo has done so to the point of “we have lost our way.” As a child, she never understood what it meant to be separate, but because of the Brown vs. the Board of Education case, she was given an opportunity to experience the educational system as a whole. Ms. Glover added that while the masses of students at the elementary schools are failing, no one is providing any statistics as to why the masses of students in the inner city are failing, and she would like to know what is truly going on that promotes this failure. Because it is important that every child has equal educational opportunities, she stated if that is not what the business of the organization is, failure will continue to be seen. She extended appreciation for the great job the Superintendent did at the stakeholders’ meetings, sharing with everyone information that all needed to know to help appreciate the new practices being instituted. She also asked the Board to help the constituents to better be able to appreciate where we are today and to be able to face the “bumpy” ride ahead. The constituents must know that the children are truly the essence of why we are here.

Shannon Sullivan, American Federation of Teachers, stated that in working with Red River United the members were concerned about paid maternity leave, so last year their organization helped sponsor the legislation which now provides for paid maternity leave for teachers. They also helped sponsor the legislation which now offers sanitary conditions, privacy and time for lactation. Members have this year expressed concern about the current extended sick leave policy requiring someone to take 10 consecutive days of leave; thus they are helping to sponsor HB717. She shared with the Board a video and asked them to remember that when a person applies for extended sick leave, it is not that they are taking advantage of the situation of conditions, but they are dedicated professionals.

Ken Krefft stated it is his 16th time since 1984 to address the Board on how the District can be better prepared for tornadoes by building storm proof buildings. He encouraged the Board to work in the coming months with Homeland Security and Caddo Sheriff Steve Prator and be proactive when building multi-purpose rooms to storm proof them, because every school and every building needs a safe, secure place for the students and employees.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board’s consideration. President Pierson recommended items 6.01-6.03, 7.01-7.03, 8.01-8.08 and 13.01 as the consent agenda.

Mr. Lee updated the Board on the resolution passed at the last meeting for refinancing General Obligation bonds and staff estimated a savings of approximately \$500,000. Now that it is final, the actual savings will be approximately \$844,000 with an overall savings in refunding over the past 12 years of approximately \$5.2 million. Dr. Goree added that staff will do a press release on this savings to the taxpayers.

Ms. Priest moved, seconded by Mr. Hooks, to establish the proposed agenda and consent agenda. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Priest moved, seconded by Ms. Trammel, to confirm the Consent Agenda (6.01-6.03, 7.01-7.03, 8.01-8.08 and 13.01). Vote on the motion carried unanimously and the following is a summary of the Board's action on consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transactions Reports. The board approved the personnel transactions report for the period of April 1, 2014 through April 30, 2014 as submitted in the mailout.

6.03 Renewal of Administrative Contracts. The board approved the renewal of administrative contract(s) as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing. The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Sam Ash Quikship Corp., totaling \$5,054.00; Washington Music Center, totaling \$14,677.00; Casio Interstate Music dba Interstate Music, totaling \$2,774.70 and Taylor Music Inc., totaling \$11,414.00 for the purchase of band instruments; (2) Unity Education Resources, totaling \$28.49 per case of 8½ x 11 and \$43.89 per case of 8½ x 14 for the purchase of copy paper for all schools; (3) Alert Services, Inc., totaling \$399.30; Boudreaux Athletics, totaling \$32,261.00; BSN Sports, totaling \$68.00; Medco Supply Co., totaling \$1,154.63; Riddell/All American, totaling \$2,052.26; Moore-Sigler Sports World, totaling \$3,802.25, and Steadman's Sports Center of LA, totaling \$325.00 for the purchase of football equipment, C. E. Byrd High School; (4) M. L. Bath, totaling a discount percentage of 47.7% for the purchase of office supply – catalog; and (5) Ferris Office Smart for the purchase of printer supplies for district use. A copy of the bid tabulation sheets are filed in the official papers of the May 20, 2014 CPSB meeting.

7.02 Sale of Used Food Service Grease (Re-Bid). The board accepted staff's recommendation to re-bid the sale of used food service grease as an informal quote at a later date as indicated on the bid tabulation sheet and submitted in the mailout.

7.03 Capital Projects. The board approved the following bids as recommended by staff and submitted in the mailout or placed at board members' stations: (1) The Payne Company, with a Base Bid, for the sum total of \$133,600 for Project 2015-301, "AC Steere HVAC Kindergarten Wing"; (2) Pro-Build Construction, with a Base Bid, for the sum total of \$185,696 for Project 2015-209, "Mooretown Paving Improvements"; (3) Bowman Grading & Asphalt, with a Base Bid and Alternate 1, for the sum total of \$264,616 for Project 2015-212, "Werner Park Paving"; (4) RRAC Contractors, with a Base Bid and Alternate 1 and Alternate 2, for the sum total of \$214,850 for Project 2015-303, "81st Street Restroom"; (5) Reject all bids, and redesign and rebid Project 2015-206, "Woodlawn Re-Roofing, Phase II"; (6) HMR Electrical Contracting, with a Base Bid, for the sum total of \$219,200 for Project 2015-402, "Green Oaks Stage Lighting"; (7) The Payne Company, with a Base Bid, for the sum total of \$148,900 for Project 2015-302, "Captain Shreve HVAC Business Center"; (8) Martin Construction & Design, with a Base Bid and Alternate 1, for the sum total of \$129,994 for Project 2015-221; (9) ELA Group, with a Base Bid and Alternate 1, for the sum total of \$216,700 for Project 2015-214, "Lakeshore Paving & Canopies"; (10) Tri-State Aluminum Products, with a Base Bid and Alternate 1, for the sum total of \$109,129,86 for Project 2015-213, "Cherokee Park Canopies & Handicap Ramp". Recommendations for Project 2015-208, "Caddo Middle Career Paving", Project 2015-202, "Title IX at Fair Park", and Project 2015-215, "Creswell Canopies at Bus Loop" will be brought to the Board on June 3, 2014 Special Call Meeting. A copy of the bid tabulation sheets is filed in the official papers of the May 20, 2014 CPSB meeting.

8.01 Request for Use of School Buses. The board approved the requests for the use of school buses as recommended by staff and submitted in the mailout.

8.02 Sales and Use Tax Commission of 2014-15 Budgets. The board approved the 2014-15 Sales and Use Tax Commission Budgets as submitted in the mailout.

8.03 Adopt the Millage Rates for 2014. The board adopted the resolution setting the millage rates levied on taxable property in Caddo Parish at 75.66 mills for 2014 as submitted in the mailout.

8.04 Long-term Use of School Facilities. The board approved requests for the long-term use of Caddo school facilities as recommended by staff and submitted in the mailout.

8.05 Change in June CPSB Meeting Date to June 24, 2014. The board approved changing the CPSB meeting date in June from June 17, 2014 to June 24, 2014.

8.06 Approval of Board Appointments to the 2014-15 PPP Parental Review Committee. The board approved Board member appointments (Districts 1-7, 10 and 12) to the PPP Parental Review Committee as submitted in the mailout.

8.07 Revision to 2013-14 CPSB Pupil Progression Plan. The board approved the proposed revision to the 2013-14 CPSB Pupil Progression Plan as recommended by staff and submitted in the mailout.

8.08 Adopt Resolution Providing for the Issuance and Sale of General Obligation School Refunding Bonds, Series 2014 and Providing for Other Matters in Connection Therewith.

The board adopted the following resolution providing for the Issuance and Sale of Fifteen Million Eight Hundred Ten Thousand Dollars (\$15,810,000) of General Obligation School Refunding Bonds, Series 2014, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners thereof; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and a special election held on April 17, 2004, the result of which was duly promulgated in accordance with law, Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), acting through its governing authority, issued \$20,000,000 of General Obligation School Bonds, Series 2006, dated March 1, 2006, of which \$16,485,000 is outstanding (the "Series 2006 Bonds"); and

WHEREAS, the Issuer is authorized to borrow money and issue general obligation school bonds payable from ad valorem taxes to refund its outstanding general obligation school bonds, pursuant to Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended (the "Act"), and other constitutional and statutory authority; and

WHEREAS, the Issuer has found and determined that the defeasance and advance refunding of a portion of the outstanding Series 2006 Bonds, consisting of \$15,220,000 of Series 2006 Bonds which mature March 1, 2017 to March 1, 2031, inclusive, as more fully described in Exhibit A hereto (the "Refunded Bonds"), would be financially advantageous to the Issuer and would result in a lower effective interest rate on such Refunded Bonds and debt service savings to the Issuer; and

WHEREAS, pursuant to the Act and other constitutional and statutory authority, it is now the desire of the Issuer to adopt this resolution in order to provide for the issuance of Fifteen Million Eight Hundred Ten Thousand Dollars (\$15,810,000) principal amount of its General Obligation School Refunding Bonds, Series 2014 (the "Bonds"), for the purpose of refunding the Refunded Bonds, to fix the details of the Bonds and to sell the Bonds to the Underwriter thereof; and

WHEREAS, it is necessary to provide for the application of the proceeds of the Bonds and to provide for other matters in connection with the payment or redemption of the Refunded Bonds; and

WHEREAS, it is necessary that this Governing Authority prescribe the form and content of the Defeasance and Escrow Deposit Agreement providing for the payment of the principal and interest of the Refunded Bonds and authorize the execution thereof as hereinafter provided; and

WHEREAS, in connection with the issuance of the Bonds, it is necessary that provision be made for the payment of the principal and interest of the Refunded Bonds described in Exhibit A hereto, and to provide for the call for redemption of the Refunded Bonds pursuant to a Notice of Defeasance and Call for Redemption; and

WHEREAS, the Issuer desires to fix the details of the Bonds and the terms of the sale of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

ARTICLE I DEFINITIONS AND INTERPRETATION

SECTION 1.1. Definitions. The following terms shall have the following meanings unless the context otherwise requires:

"Act" shall mean Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other applicable constitutional and statutory authority.

"Bond" or "Bonds" shall mean any or all of the General Obligation School Refunding Bonds, Series 2014, of the Issuer, issued pursuant to the Bond Resolution, as the same may be amended from time to time, whether initially delivered or issued in exchange for, upon transfer of, or in lieu of any previously issued Bond.

"Bond Obligation" shall mean, as of the date of computation, the principal amount of the Bonds then Outstanding.

"Bond Resolution" shall mean this resolution, as it may amended and supplemented as herein provided.

"Business Day" shall mean a day of the year other than a day on which banks located in New York, New York, and the cities in which the principal offices of the Escrow Agent and the Paying Agent are located are required or authorized to remain closed and on which the New York Stock Exchange is closed.

"Code" shall mean the Internal Revenue Code of 1986, as amended.

"Costs of Issuance" shall mean all items of expense, directly or indirectly payable or reimbursable and related to the authorization, sale and issuance of the Bonds, including but not limited to printing costs, costs of preparation and reproduction of documents, filing and recording fees, initial fees and charges of any fiduciary, legal fees and charges, fees and charges for the preparation and distribution of a preliminary official statement and official statement, if paid by the Issuer, fees and disbursements of consultants and professionals, costs of credit ratings, fees and charges for preparation, execution, transportation and safekeeping of the Bonds, costs and expenses of refunding, premiums for the insurance of the payment of the Bonds, if any, and any other cost, charge or fee paid or payable by the Issuer in connection with the original issuance of Bonds.

"Debt Service" for any period shall mean, as of the date of calculation, an amount equal to the sum of (a) interest payable during such period on Bonds and (b) the principal amount of Bonds which mature during such period.

"Defeasance Obligations" shall mean (a) cash, or (b) non-callable Government Securities.

"Escrow Agent" shall mean with respect to the Refunded Bonds, Argent Trust Company, N.A., in the City of Ruston, Louisiana, and its successor or successors, and any other person which may at any time be substituted in its place pursuant to the Bond Resolution.

"Escrow Agreement" shall mean the Defeasance and Escrow Deposit Agreement dated as of June 25, 2014, between the Issuer and the Escrow Agent, substantially in the form attached hereto as Exhibit B, as the same may be amended from time to time, the terms of which are incorporated herein by reference.

"Executive Officers" shall mean, collectively, the President and Secretary of the Governing Authority.

"Fiscal Year" shall mean the one-year accounting period ending on June 30 of each year, or such other one-year period as may be designated by the Governing Authority as the fiscal year of the Issuer.

"Governing Authority" shall mean the Parish School Board of the Parish of Caddo, State of Louisiana, or its successor in function.

"Government Securities" shall mean direct general obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, which may be United States Treasury Obligations such as the State and Local Government Series and may be in book-entry form.

"Interest Payment Date" shall mean March 1 and September 1 of each year, commencing September 1, 2014.

"Issuer" shall mean Parishwide School District of Caddo Parish, Louisiana.

"Outstanding", when used with reference to the Bonds, shall mean, as of any date, all Bonds theretofore issued under the Bond Resolution, except:

- (a) Bonds theretofore cancelled by the Paying Agent or delivered to the Paying Agent for cancellation;
- (b) Bonds for the payment or redemption of which sufficient Defeasance Obligations have been deposited with the Paying Agent or an escrow agent in trust for the owners of such Bonds as provided in Section 11.1 hereof, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to the Bond Resolution, to the satisfaction of the Paying Agent, or waived;
- (c) Bonds in exchange for or in lieu of which other Bonds have been registered and delivered pursuant to the Bond Resolution; and
- (d) Bonds alleged to have been mutilated, destroyed, lost, or stolen which have been paid as provided in the Bond Resolution or by law.

"Owner" or "Owners" shall mean the Person reflected as registered owner of any of the Bonds on the registration books maintained by the Paying Agent.

"Paying Agent" shall mean Argent Trust Company, N.A., in the City of Ruston, Louisiana, as paying agent and registrar hereunder, until a successor Paying Agent shall have become such pursuant to the applicable provisions of the Bond Resolution, and thereafter "Paying Agent" shall mean such successor Paying Agent.

"Person" shall mean any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, or government or any agency or political subdivision thereof.

"Record Date" shall mean, with respect to an Interest Payment Date, the fifteenth day of the calendar month next preceding such Interest Payment Date, whether or not such day is a Business Day.

"Refunded Bonds" shall mean the Issuer's outstanding General Obligation School Bonds, Series 2006, dated March 1, 2006, consisting of \$15,220,000 of Series 2006 Bonds which mature

March 1, 2017 to March 1, 2031, inclusive, which are being refunded by the Bonds, as more fully described in Exhibit A hereto.

"State" shall mean the State of Louisiana.

"Underwriter" shall mean Stephens Inc., the original underwriters of the Bonds.

SECTION 1.2. Interpretation. In this Bond Resolution, unless the context otherwise requires, (a) words importing the singular include the plural and vice versa, (b) words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders and (c) the title of the offices used in this Bond Resolution shall be deemed to include any other title by which such office shall be known under any subsequently adopted charter.

ARTICLE II AUTHORIZATION AND ISSUANCE OF BONDS

SECTION 2.1. Authorization of Bonds; Refunding of Refunded Bonds. (a) This Bond Resolution creates a series of Bonds of the Issuer to be designated "General Obligation School Refunding Bonds, Series 2014, of Parishwide School District of Caddo Parish, Louisiana", and provides for the full and final payment of the principal of and interest on all the Bonds.

(b) The Bonds issued under this Bond Resolution shall be issued for the purpose of refunding the Refunded Bonds through the escrow of a portion of the proceeds of the Bonds, together with other available moneys of the Issuer in Government Securities, in accordance with the terms of the Escrow Agreement, in order to provide for the payment of the principal of and interest on the Refunded Bonds as they mature or upon earlier redemption, as provided in Section 13.1 hereof.

(c) Provision having been made for the orderly payment until maturity or earlier redemption of all the Refunded Bonds, in accordance with their terms, it is hereby recognized and acknowledged that as of the date of delivery of the Bonds under this Bond Resolution, provision will have been made for the performance of all covenants and agreements of the Issuer incidental to the Refunded Bonds, and that accordingly, and in compliance with all that is herein provided, the Issuer is expected to have no future obligation with reference to the aforesaid Refunded Bonds, except to assure that the Refunded Bonds are paid from the Government Securities and funds so escrowed in accordance with the provisions of the Escrow Agreement.

d) The Escrow Agreement is hereby approved by the Issuer and the Executive Officers are hereby authorized and directed to execute and deliver the Escrow Agreement on behalf of the Issuer substantially in the form of Exhibit B hereof, with such changes, additions, deletions or completions deemed appropriate by such signing officials, and it is expressly provided and covenanted that all of the provisions for the payment of the principal of, premium, if any, and interest on the Refunded Bonds from the special trust funds created under the Escrow Agreement shall be strictly observed and followed in all respects.

SECTION 2.2. Bond Resolution to Constitute Contract. In consideration of the purchase and acceptance of the Bonds by those who shall own the same from time to time, the provisions of this Bond Resolution shall be a part of the contract of the Issuer with the Owners of the Bonds and shall be deemed to be and shall constitute a contract between the Issuer and the Owners from time to time of the Bonds. The provisions, covenants and agreements herein set forth to be performed by or on behalf of the Issuer shall be for the equal benefit, protection and security of the Owners of any and all of the Bonds, each of which Bonds, regardless of the time or times of its issue or maturity, shall be of equal rank without preference, priority or distinction over any other thereof except as expressly provided in this Bond Resolution.

SECTION 2.3. Obligation of Bonds. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment and for the payment of all the interest thereon. The Issuer is bound under the terms and provisions of law and this Bond Resolution to impose and collect annually, in excess of all other taxes, a tax on all the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer. All ad valorem taxes levied by the Issuer in each year for the payment of the Bonds shall, upon their receipt, be transferred to the Governing Authority, which shall have responsibility for the deposit of such receipts and for the investment

and reinvestment of such receipts and the servicing of the Bonds and any other general obligation school bonds of the Issuer.

SECTION 2.4. Authorization and Designation. Pursuant to the provisions of the Act, there is hereby authorized the issuance of Fifteen Million Eight Hundred Ten Thousand Dollars (\$15,810,000) principal amount of Bonds of the Issuer to be designated "General Obligation School Refunding Bonds, Series 2014, of Parishwide School District of Caddo Parish, Louisiana", for the purpose of refunding the Refunded Bonds. The Bonds shall be in substantially the form set forth as Exhibit C hereto, with such necessary or appropriate variations, omissions and insertions as are required or permitted by the Act and this Bond Resolution.

This Governing Authority hereby finds and determines that upon the issuance of the Bonds, the total outstanding amount of general obligation school bonds of the Issuer issued and deemed to be outstanding will not exceed the Issuer's general obligation bond limit.

SECTION 2.5. Denominations, Dates, Maturities and Interest. The Bonds are issuable as fully registered bonds without coupons in the denominations of \$5,000 principal amount or any integral multiple thereof within a single maturity, and shall be numbered R-1 upward.

The Bonds shall be dated the date of delivery, shall mature on March 1 in the years and in the principal amounts and shall bear interest, payable on March 1 and September 1 of each year, commencing September 1, 2014, at the rates per annum, as follows:

<u>Date</u> <u>(March 1)</u>	<u>Principal</u> <u>Payment</u>	<u>Interest</u> <u>Rate</u>	<u>Date</u> <u>(March 1)</u>	<u>Principal</u> <u>Payment</u>	<u>Interest</u> <u>Rate</u>
2015	\$ 85,000	2.000%	2023	\$ 500,000	4.000%
2016	85,000	2.000	2024	1,025,000	4.000
2017	765,000	2.000	2025	1,070,000	4.000
2018	790,000	2.000	2026	1,130,000	4.000
2019	820,000	3.000	2027	1,180,000	3.000
2020	850,000	3.000			
2021	865,000	3.000	2029	2,500,000	3.250
2021	25,000	4.000			
2022	930,000	4.000	2031	2,715,000	3.375
2023	475,000	3.000			

The principal and premium, if any, of the Bonds are payable in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof. Interest on the Bonds is payable by check mailed on or before the Interest Payment Date by the Paying Agent to the Owner thereof (determined as of the close of business on the Record Date) at the address of such Owner as it appears on the registration books of the Paying Agent maintained for such purpose.

Except as otherwise provided in this Section, Bonds shall bear interest from date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, as the case may be, provided, however, that if and to the extent that the Issuer shall default in the payment of the interest on any Bonds due on any Interest Payment Date, then all such Bonds shall bear interest from the most recent Interest Payment Date to which interest has been paid on the Bonds, or if no interest has been paid on the Bonds, from their dated date.

The person in whose name any Bond is registered at the close of business on the Record Date with respect to an Interest Payment Date shall in all cases be entitled to receive the interest payable on such Interest Payment Date notwithstanding the cancellation of such Bond upon any registration of transfer or exchange thereof subsequent to such Record Date and prior to such Interest Payment Date.

SECTION 2.6. Book Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Governing Authority or any other officer of the Issuer is authorized to execute and deliver a Blanket Letter of

Representation to DTC on behalf of the Issuer with respect to the issuance of the Bonds in "book-entry only" format. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Bond Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner (as defined in the Blanket Letter of Representation) may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

- (a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or
- b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer or the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Bond Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

ARTICLE III GENERAL TERMS AND PROVISIONS OF THE BONDS

SECTION 3.1. Exchange of Bonds; Persons Treated as Owners. The Issuer shall cause books for the registration and for the registration of transfer of the Bonds as provided in this Bond Resolution to be kept by the Paying Agent at its principal corporate trust office, and the Paying Agent is hereby constituted and appointed the registrar for the Bonds. At reasonable times and under reasonable regulations established by the Paying Agent said list may be inspected and copied by the Issuer or by the Owners (or a designated representative thereof) of 15% of the outstanding principal amount of the Bonds.

All Bonds presented for registration of transfer or exchange shall be accompanied by a written instrument or instruments of transfer in form and with a guaranty of signature satisfactory to the Paying Agent, duly executed by the Owner or his attorney duly authorized in writing.

Upon surrender for registration of transfer of any Bond, the Paying Agent shall register and deliver in the name of the transferee or transferees one or more new fully registered Bonds of authorized denomination of the same maturity and like aggregate principal amount. At the option of an Owner, Bonds may be exchanged for other Bonds of authorized denominations of the same maturity and like aggregate principal amount, upon surrender of the Bonds to be exchanged at the principal corporate trust office of the Paying Agent. Whenever any Bonds are so surrendered for exchange, the Paying Agent shall register and deliver in exchange therefor the Bond or Bonds which the Owner making the exchange shall be entitled to receive.

No service charge to the Owners shall be made by the Paying Agent for any exchange or registration of transfer of Bonds. The Paying Agent may require payment by the person requesting an exchange or registration of transfer of Bonds of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto.

The Issuer and the Paying Agent shall not be required to issue, register the transfer of or exchange any Bond during a period beginning at the opening of business on a Record Date or any date of selection of Bonds to be redeemed and ending at the close of business on the Interest Payment Date.

All Bonds delivered upon any registration of transfer or exchange of Bonds shall be valid obligations of the Issuer, evidencing the same debt and entitled to the same benefits under this Bond Resolution as the Bonds surrendered.

Prior to due presentment for registration of transfer of any Bond, the Issuer and the Paying Agent, and any agent of the Issuer or the Paying Agent may deem and treat the person in whose name any Bond is registered as the absolute owner thereof for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary.

SECTION 3.2. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be improperly cancelled, or be destroyed, stolen or lost, the Issuer may in its discretion adopt a resolution and thereby authorize the issuance and delivery of a new Bond in exchange for and substitution for such mutilated or improperly cancelled Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, upon the Owner (i) furnishing the Issuer and the Paying Agent proof of his ownership thereof and proof of such mutilation, improper cancellation, destruction, theft or loss satisfactory to the Issuer and the Paying Agent, (ii) giving to the Issuer and the Paying Agent an indemnity bond in favor of the Issuer and the Paying Agent in such amount as the Issuer may require, (iii) complying with such other reasonable regulations and conditions as the Issuer may prescribe and (iv) paying such expenses as the Issuer and the Paying Agent may incur. All Bonds so surrendered shall be delivered to the Paying Agent for cancellation pursuant to Section 3.4 hereof. If any Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof.

Any such duplicate Bond issued pursuant to this Section shall constitute an original, additional, contractual obligation on the part of the Issuer, whether or not the lost, stolen or destroyed Bond be at any time found by anyone. Such duplicate Bond shall be in all respects identical with those replaced except that it shall bear on its face the following additional clause:

"This bond is issued to replace a lost, cancelled or destroyed bond under the authority of R.S. 39:971 through 39:974."

Such duplicate Bond may be signed by the facsimile signatures of the same officers who signed the original Bonds, provided, however, that in the event the officers who executed the original Bonds are no longer in office, then the new Bonds may be signed by the officers then in office. Such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source and security for payment as provided herein with respect to all other Bonds hereunder, the obligations of the Issuer upon the duplicate Bonds being identical to its obligations upon the original Bonds and the rights of the Owner of the duplicate Bonds being the same as those conferred by the original Bonds.

SECTION 3.3. Preparation of Definitive Bonds, Temporary Bonds. Until the definitive Bonds are prepared, the Issuer may execute, in the same manner as is provided in Section 3.5, and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive Bonds except as to the denominations, one or more temporary typewritten Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, in authorized denominations, and with such omissions, insertions and variations as may be appropriate to temporary Bonds.

SECTION 3.4. Cancellation of Bonds. All Bonds paid, together with all Bonds purchased by the Issuer, shall thereupon be promptly cancelled by the Paying Agent. The Paying Agent shall thereupon promptly furnish to the Secretary of the Governing Authority an appropriate certificate of cancellation.

SECTION 3.5 Execution. The Bonds shall be executed in the name and on behalf of the Issuer by the manual or facsimile signatures of the Executive Officers, and the corporate seal of the Issuer (or a facsimile thereof) shall be thereunto affixed, imprinted, engraved or otherwise reproduced thereon. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been actually delivered, such Bonds may, nevertheless, be delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Said officers shall, by the execution of the Bonds, adopt as and for their own proper signatures their respective facsimile signatures appearing on the Bonds or any legal opinion certificate thereon, and the Issuer may adopt and use for that purpose the facsimile signature of any person or persons who shall have been such officer at any time on or after the date of such Bond, notwithstanding that at the date of such Bond such person may not have held such office or that at the time when such Bond shall be delivered such person may have ceased to hold such office.

SECTION 3.6. Registration by Secretary of State. The Bonds shall be registered with the Secretary of State of the State of Louisiana and shall bear the endorsement of the Secretary of State of the State of Louisiana substantially in the form set forth in Exhibit C hereto, provided such endorsement shall be manually signed only on the Bonds initially delivered to the Underwriter, and any Bonds subsequently exchanged therefor as permitted in this Bond Resolution may bear the facsimile signature of said Secretary of State.

SECTION 3.7. Registration by Paying Agent. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Bond Resolution unless and until a certificate of registration on such Bond substantially in the form set forth in Exhibit C hereto shall have been duly executed on behalf of the Paying Agent by a duly authorized signatory, and such executed certificate of the Paying Agent upon any such Bond shall be conclusive evidence that such Bond has been executed, registered and delivered under this Bond Resolution.

ARTICLE IV SINKING FUND; PAYMENT OF BONDS

SECTION 4.1. Sinking Fund. (a) For the payment of the principal of and the interest on the Bonds, the Issuer will maintain a special fund, to be held by the regularly designated fiscal agent of the Issuer (the "Sinking Fund"), into which the Issuer will deposit the proceeds of the aforesaid tax described in Section 2.3 hereof. The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least one (1) day in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

(b) All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Bond Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

(c) All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

SECTION 4.2. Payment of Bonds. The Issuer shall duly and punctually pay or cause to be paid as herein provided, the principal of every Bond and the interest thereon, at the dates and places and in the manner stated in the Bonds according to the true intent and meaning thereof.

ARTICLE V REDEMPTION OF BONDS

SECTION 5.1. Optional Redemption of Bonds. Those Bonds maturing March 1, 2025 and thereafter, will be callable for redemption by the Issuer in full, or in part, at any time on or after March 1, 2024, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof and accrued interest, if any, to the date fixed for redemption. In the event any Bond to be redeemed is of a denomination larger than Five Thousand Dollars (\$5,000), a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

SECTION 5.2. Mandatory Sinking Fund Redemption. The Term Bonds maturing on March 1, 2029 shall be subject to mandatory sinking fund redemption on March 1 in the years and in the principal amounts set forth below at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon:

<u>Year</u> <u>(March 1)</u>	<u>Principal</u> <u>Amount</u>
2028	\$1,225,000
2029	1,275,000*

* Final Maturity

The Term Bonds maturing on March 1, 2031 shall be subject to mandatory sinking fund redemption on March 1 in the years and in the principal amounts set forth below at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon:

<u>Year</u> <u>(March 1)</u>	<u>Principal</u> <u>Amount</u>
2030	\$1,330,000
2031	1,385,000*

* Final Maturity

ARTICLE VI APPLICATION OF BOND PROCEEDS

SECTION a) Application of Bond Proceeds. As a condition of the issuance of the Bonds, the Issuer hereby binds and obligates itself to:

(a) Deposit irrevocably in trust with the Escrow Agent under the terms and conditions of the Escrow Agreement, as hereinafter provided, an amount of the proceeds derived from the issuance and sale of the Bonds (exclusive of accrued interest), together with additional moneys of the Issuer, as will enable the Escrow Agent to purchase Government Obligations described in the Escrow Agreement, which shall mature in principal and interest in such a manner as to provide at least the required cash amount on or before each payment date for the Refunded Bonds (said amounts being necessary on each of the designated dates to pay and retire or redeem the Refunded Bonds, including premiums, if any, payable upon redemption). Prior to or concurrently with the delivery of the Bonds, the Issuer shall obtain an independent mathematical verification that the moneys and obligations required to be irrevocably deposited in trust in the Escrow Fund with the Escrow Agent, together with the earnings to accrue thereon, will always be sufficient for the payment of the principal of, premium, if any, and interest on the Refunded Bonds. The moneys so deposited with the Escrow Agent shall constitute a trust fund irrevocably dedicated for the use and benefit of the owners of the Refunded Bonds.

- (b) Deposit in the Expense Fund established with the Escrow Agent such amount of the proceeds of the Bonds as will enable the Escrow Agent to pay the Costs of Issuance and the costs properly attributable to the establishment and administration of the Escrow Fund on behalf of the Issuer.
- (c) Deposit accrued interest, if any, received on the delivery date of the Bonds into the Sinking Fund established by Section 4.1 hereof and to apply said funds to pay a portion of the interest due on the Bonds on the first Interest Payment Date therefor. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

ARTICLE VII SUPPLEMENTAL BOND RESOLUTIONS

SECTION 7.1. Supplemental Resolutions Effective Without Consent of Owners. For any one or more of the following purposes and at any time from time to time, a resolution supplemental hereto may be adopted, which, upon the filing with the Paying Agent of a certified copy thereof, but without any consent of Owners, shall be fully effective in accordance with its terms:

- (a) to add to the covenants and agreements of the Issuer in the Bond Resolution other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;
- (b) to add to the limitations and restrictions in the Bond Resolution other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;
- (c) to surrender any right, power or privilege reserved to or conferred upon the Issuer by the terms of the Bond Resolution, but only if the surrender of such right, power or privilege is not contrary to or inconsistent with the covenants and agreements of the Issuer contained in the Bond Resolution;
- d) to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision of the Bond Resolution; or
- (e) to insert such provisions clarifying matters or questions arising under the Bond Resolution as are necessary or desirable and are not contrary to or inconsistent with the Bond Resolution as theretofore in effect.

SECTION 7.2. Supplemental Resolutions Effective With Consent of Owners. Except as provided in Section 7.1, any modification or amendment of the Bond Resolution or of the rights and obligations of the Issuer and of the Owners of the Bonds hereunder, in any particular, may be made by a supplemental resolution, with the written consent of the Owners of a majority of the Bond Obligation at the time such consent is given. No such modification or amendment shall permit a change in the terms of maturity of the principal of any outstanding Bond or of any installment of interest thereon or a reduction in the principal amount thereof or in the rate of interest thereon without the consent of the Owner of such Bond, or shall reduce the percentages of Bonds the consent of the Owner of which is required to effect any such modification or amendment, or change the obligation of the Issuer to levy and collect taxes for the payment of the Bonds as provided herein, without the consent of the Owners of all of the Bonds then outstanding, or shall change or modify any of the rights or obligations of either the Paying Agent or the Escrow Agent without its written assent thereto. For the purposes of this Section, Bonds shall be deemed to be affected by a modification or amendment of the Bond Resolution if the same adversely affects or diminishes the rights of the Owners of said Bonds.

ARTICLE VIII TAX COVENANTS; CONTINUING DISCLOSURE

SECTION 8.1. Tax Covenants. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code to in order to establish, maintain and preserve the exclusion from "gross income" of interest on the Bonds under the Code. The Issuer shall not take any action or fail to take any action, nor shall it permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, to acquire any securities or obligations the acquisition of which would cause any Bond to be an "arbitrage bond" as defined in the Code or would result in the inclusion of the interest on any Bond in "gross income" under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of the proceeds of the Bonds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of

America, or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be "private activity bonds" under the Code.

The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION 8.2. Continuing Disclosure Certificate. The Secretary of the Governing Authority is hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix I of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 8.3. Not Qualified Tax-Exempt Obligations . The Bonds are **not** designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code.

ARTICLE IX REMEDIES ON DEFAULT

SECTION 9.1 Events of Default. If one or more of the following events (in this Bond Resolution called "Events of Default") shall happen, that is to say,

- (a) if default shall be made in the due and punctual payment of the principal of any Bond when and as the same shall become due and payable, whether at maturity or otherwise (in determining whether a principal payment default has occurred); or
- (b) if default shall be made in the due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable (in determining whether an interest payment default has occurred); or
- (c) if default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in the Bond Resolution, any supplemental resolution or in the Bonds contained and such default shall continue for a period of forty-five (45) days after written notice thereof to the Issuer by any Owner; or
- (d) if the Issuer shall file a petition or otherwise seek relief under any Federal or State bankruptcy law or similar law; then, upon the happening and continuance of any Event of Default and the Owners of the Bonds shall be entitled to exercise all rights and powers for which provision is made under Louisiana law. All remedies shall be cumulative with respect to the Paying Agent and the Owners; if any remedial action is discontinued or abandoned, the Paying Agent and the Owners shall be restored to their former positions.

ARTICLE X CONCERNING FIDUCIARIES

SECTION 10.1. Escrow Agent; Appointment and Acceptance of Duties. Argent Trust Company, N.A., in the City of Ruston, Louisiana, is hereby appointed Escrow Agent with respect to the Refunded Bonds. The Escrow Agent shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution by executing and delivering the Escrow Agreement.

SECTION 10.2. Paying Agent; Appointment and Acceptance of Duties. The Issuer will at all times maintain a Paying Agent having the necessary qualifications for the performance of the duties described in this Bond Resolution. The designation of Argent Trust Company, N.A., in the City of Ruston, Louisiana, as the initial Paying Agent is hereby confirmed and approved. The Paying Agent shall signify its acceptance of the duties and obligations imposed on it by the Bond Resolution by executing and delivering to the Executive Officers a written acceptance thereof. The Governing Authority reserves the right to appoint a successor Paying Agent by (a) filing with the Person then performing such function a certified copy of a resolution giving notice of the termination of the agreement and appointing a successor and (b) causing notice to be given to each Owner. Furthermore, the Paying Agent may be removed by the Issuer at any time for any breach of its duties set forth herein, affective upon appointment of a successor Paying Agent as set forth above. Every Paying Agent appointed hereunder shall at all times be a trust company or bank organized and doing business under the laws of the United States of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by Federal or State authority.

**ARTICLE XI
MISCELLANEOUS**

SECTION 11.1. Defeasance. (a) If the Issuer shall pay or cause to be paid to the Owners of all Bonds then outstanding, the principal and interest become due thereon, at the times and in the manner stipulated therein and in the Bond Resolution, then the covenants, agreements and other obligations of the Issuer to the Owners shall be discharged and satisfied. In such event, the Paying Agent shall, upon the request of the Issuer, execute and deliver to the Issuer all such instruments as may be desirable to evidence such discharge and satisfaction and the Paying Agent shall pay over or deliver to the Issuer all moneys, securities and funds held by them pursuant to the Bond Resolution which are not required for the payment of Bonds not theretofore surrendered for such payment.

i) Bonds or interest installments for the payment of which money shall have been set aside and shall be held in trust (through deposit by the Issuer of funds for such payment or otherwise) at the maturity date thereof shall be deemed to have been paid within the meaning and with the effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their maturity, within the meaning and with the effect expressed above in this Section if they have been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as amended, or any successor provisions thereto.

SECTION 11.2. Evidence of Signatures of Owners and Ownership of Bonds.

(a) Any request, consent, revocation of consent or other instrument which the Bond Resolution may require or permit to be signed and executed by the Owners may be in one or more instruments of similar tenor, and shall be signed or executed by such Owners in person or by their attorneys-in-fact appointed in writing. Proof of (i) the execution of any such instrument, or of an instrument appointing any such attorney, or (ii) the ownership by any person of the Bonds shall be sufficient for any purpose of the Bond Resolution (except as otherwise therein expressly provided) if made in the following manner, or in any other manner satisfactory to the Paying Agent, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable:

(1) the fact and date of the execution by any Owner or his attorney-in-fact of such instrument may be proved by the certificate, which need not be acknowledged or verified, of an officer of a bank or trust company or of any notary public or other officer authorized to take acknowledgments of deeds, that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or a member of a partnership, on behalf of such corporation, association or partnership, such certificate or affidavit shall also constitute sufficient proof of his authority;

(2) the ownership of Bonds and the amount, numbers and other identification, and date of owning the same shall be proved by the registration books of the Paying Agent.

(b) Any request or consent by the Owner of any Bond shall bind all future Owners of such Bond in respect of anything done or suffered to be done by the Issuer or the Paying Agent in accordance therewith.

SECTION 11.3. Moneys Held for Particular Bonds. The amounts held by the Paying Agent for the payment due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it, without liability for interest, for the Owners of the Bonds entitled thereto.

SECTION 11.4. Parties Interested Herein. Nothing in the Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds any right, remedy or claim under or by reason of the Bond Resolution or any covenant, condition or stipulation thereof; and all the covenants, stipulations, promises and agreements in the Bond Resolution contained by and on behalf of the Issuer shall be for the sole and exclusive benefit of the Issuer,

the Paying Agent, the Escrow Agent and the Owners of the Bonds and the owners of the Refunded Bonds.

SECTION 11.5. No Recourse on the Bonds. No recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Bond Resolution against any member of the Governing Authority or officer of the Issuer or any person executing the Bonds.

SECTION 11.6. Successors and Assigns. Whenever in this Bond Resolution the Issuer is named or referred to, it shall be deemed to include its successors and assigns and all the covenants and agreements in this Bond Resolution contained by or on behalf of the Issuer shall bind and enure to the benefit of its successors and assigns whether so expressed or not.

SECTION 11.7. Subrogation. In the event the Bonds herein authorized to be issued, or any of them, should ever be held invalid by any court of competent jurisdiction, the Owner or Owners thereof shall be subrogated to all the rights and remedies against the Issuer had and possessed by the owner or owners of the Refunded Bonds.

SECTION 11.8. Severability. In case any one or more of the provisions of the Bond Resolution or of the Bonds issued hereunder shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of the Bond Resolution or of the Bonds, but the Bond Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provision enacted after the date of the Bond Resolution which validates or makes legal any provision of the Bond Resolution or the Bonds which would not otherwise be valid or legal shall be deemed to apply to the Bond Resolution and to the Bonds.

SECTION 11.9. Publication of Bond Resolution. This Bond Resolution shall be published one time in the official journal of the Issuer; however, it shall not be necessary to publish any exhibits hereto if the same are available for public inspection and such fact is stated in the publication.

SECTION 11.10. Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel, to effect the transactions contemplated by this Bond Resolution, the signatures of the Executive Officers on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

ARTICLE XII SALE OF BONDS

SECTION 12.1. Sale of Bonds. The Bonds have been awarded to and sold to the Underwriter at the price and under the terms and conditions set forth in the Bond Purchase Agreement attached hereto as Exhibit D, and after their execution, registration by the Secretary of State and authentication by the Paying Agent, the Bonds shall be delivered to the Underwriter or its agents or assigns, upon receipt by the Issuer of the agreed purchase price.

SECTION 12.2. Official Statement. The Issuer hereby approves the form and content of the Preliminary Official Statement dated May 8, 2014, pertaining to the Bonds, which has been submitted to the Issuer, and hereby ratifies its prior use by the Underwriter in connection with the sale of the Bonds. The Issuer further approves the form and content of the final Official Statement and hereby authorizes and directs the execution by the President and Secretary of the Governing Authority and delivery of such final Official Statement to the Underwriter for use in connection with the public offering of the Bonds.

ARTICLE XIII REDEMPTION OF REFUNDED BONDS

SECTION 13.1. Call for Redemption. Subject only to the actual delivery of the Bonds, the Refunded Bonds are hereby irrevocably called for redemption on March 1, 2016, at the principal

amount thereof and accrued interest to the redemption date, in compliance with the resolution authorizing their issuance.

SECTION 13.2. Notice of Defeasance and Call for Redemption. In accordance with the resolution authorizing the issuance of the Refunded Bonds, a Notice of Defeasance and Call for Redemption in substantially the form attached hereto as Exhibit E shall be sent by the paying agent for the Refunded Bonds to the registered owners as the same appear on the registration books of said paying agent by means of first class mail not less than thirty (30) days prior to the date of redemption.

The foregoing resolution having been submitted to a vote, the vote thereon was as follows:

School Board <u>Members</u>	<u>Yea</u>	<u>Nay</u>	<u>Absent</u>	<u>Abstaining</u>
Steve Riall	x			
Jasmine Green	x			
Carl Pierson	x			
Charlotte Crawley	x			
Curtis Hook	x			
Mary Trammel	x			
Lillian Priest	x			
Bonita Crawford	x			
Barry F. Rachal	x			
Larry Ramsey	x			
Ginger Armstrong	x			
Dottie Bell	x			

And the resolution was declared adopted on this, the 20th day of May, 2014.

Secretary

/s/ Carl A. Pierson, Sr.
President

Student Readmission Appeal. The board approved staff's recommendation for student F.J. The parents are in agreement with staff's recommendation.

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Superintendent Goree reported that he is now doing bi-weekly meetings with the RSD; and the Transformation Zone continues to do update calls with the University of Virginia in preparation for the summer planning trip for principals and the Transformation staff. Mrs. Bell asked if Caddo is receiving any money from the RSD for funding some of the mandates? Dr. Goree responded that so far everything that has been done has been from grant funds; and to date, no General Fund dollars have been used. He further explained that the process with the RSD is unfunded, but they do provide access to grants for support.

Update on SunGard. Dr. Goree reported that he continues to receive weekly updates on SunGard in efforts to determine if the system will be productive for the District.

Administrative Assignments. For 2014 School Year. Dr. Goree explained that staff has looked at data, i.e. discipline, academic performance and the principals' needs and requests to determine where additional support is needed. As a result, several of the displaced administrators have been placed in positions in the District.

Mr. Abrams explained that general discussion should not take place about any of the items presented unless a motion is made.

ANNOUNCEMENTS AND REQUESTS

Mr. Riall asked if the District will transform to the 4-day work week for the summer, and the superintendent confirmed it.

Ms. Trammel asked about test scores and when will the Board members receive the information on their schools. Dr. Goree explained that staff is working on a concise form and the Board should receive information later in the evening. He reported that at the 4th grade, we saw a small growth; and at the 8th grade, we saw a decline (about 3 points), and there are some bright spots that he looks forward to the Board seeing these.

Mrs. Bell asked when will we know about the labeling of schools (A, B). Ms. Gallant stated it will probably be at the end of July.

Adjournment. *Mr. Ramsey moved, seconded by Ms. Priest, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:53 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

June 3, 2014

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, June 3, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Larry Ramsey, Ginger Armstrong and Dottie Bell. Board members absent were Bonita Crawford, Lillian Priest and Barry Rachal. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Pierson led the prayer and Pledge of Allegiance.

Superintendent Goree highlighted items for the Board's consideration and announced that Item 1.05 "Proposed Charter Application(s)" is postponed until Tuesday, June 10th at 4:30 p.m. President Pierson announced this item will be considered at a special call meeting of the Board on June 10, 2014 following a public hearing on the applications as well.

RECOMMENDATION FROM INSURANCE AND FINANCE COMMITTEE, RE: PROPERTY AND CASUALTY INSURANCE

Mrs. Bell moved, seconded by Mr. Ramsey, that the Board approve the recommendation from the Insurance and Finance Committee regarding the property and casualty insurance as submitted in the mailout. The recommendation from the Insurance and Finance Committee is to discontinue use of the local agent, with regards to the district's property/casualty insurance, and that Arthur J. Gallagher & Company handle our policies directly with Caddo's Risk Manager. Vote on the motion carried with Board member Green absent for the vote.

BIDS – CONSTRUCTION AND CAPITAL PROJECTS

Ms. Trammel moved, seconded by Mrs. Bell, to approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) ELA Group, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$233,375 for Project 2015-208, "Caddo Middle Career Paving"; (2) Carter Construction, with a Base Bid, for the sum total of \$144,800 for Project 2015-202, "Title IX at Fair Park"; (3) M&M Builders, with a Base Bid, for the sum total of \$169,898 for Project 2015-215, "Creswell Canopies at Bus Loop"; and (4) M&M Builders, with a Base Bid and Alternate 1, for the sum total of \$278,948.76 for Project 2015-210, "Mooringsport Paving". Vote on the motion carried unanimously. A copy of the bid tabulation sheets are placed in the permanent file for the June 3, 2014 meeting.

REQUESTS FOR USE OF SCHOOL BUSES

Mrs. Bell moved, seconded by Mr. Riall, to approve the requests for use of Caddo Parish School buses as recommended by staff and submitted in the mailout. Vote on the motion carried unanimously.

PERSONNEL RECOMMENDATIONS

Mr. Riall moved, seconded by Mr. Hooks, to approve the personnel recommendations as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

ADJOURNMENT

Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:40 p.m.

June 3, 2014

The Caddo Parish School Board (**CPSB**) **Executive Committee** met in a regular session on Tuesday, June 3, 2014 at approximately 4:40 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and Board member Trammel present constituting a quorum. Other Board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and Pledge were omitted.

PRESENTATIONS

Dr. Rosetta Jones, Vice Chancellor for Academic and Student Affairs, Southern University Shreveport-Bossier, addressed the Board on the new initiatives at Southern University for a new vision to advance and grow Southern University-Shreveport. Dr. Jones stated that she hopes her 25 years in college education will bring some skilled sets to Southern University Shreveport that will help create new programs and advance their mission by strengthening the relationships in the community, specifically with the Caddo Parish Public School System. Some of the new initiatives will be two-year degree programs, a one-year certification program, and dual enrollment opportunities for juniors and seniors to help better address the needs in North Louisiana. Mrs. Bell encouraged Dr. Jones and Southern University to continue doing what they do for students in this area.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JUNE 24, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its June 24th meeting and the following discussion ensued.

Bids-Purchasing. Ms. Trammel asked staff to clarify the Smartboard item on the bids list, because she was under the impression that Smartboards were in all schools. Dr. Goree stated that there has not been a consistent implementation of Smartboards across the District, and the District is moving in the direction that they are in all schools.

Miss Green asked staff to clarify items for salvage, because her schools may be in need of some of the items. Lisa Lloyd explained that items in salvage are items that are no longer usable or have been determined obsolete (i.e. technology).

Request to Waive Re-payment of Medical Sabbatical Leave. Board member Bell asked staff to clarify this request and Mr. Lee explained that while a teacher is on sabbatical leave, they receive 65% of their salary and the District continues to provide our portion of their benefits/retirement. If they do not return at the end of their sabbatical, that amount is owed back to the District. Because this teacher is not able to return to work, she is asking the Board to waive her requirement to repay.

Appointment of Official Journal. Jim Lee explained that the recommendation for the CPSB's Official Journal is *The Times*, but staff will continue to use *The Caddo Citizen* and *Shreveport Sun* for advertising.

Appointment of Fiscal Agent. Jim Lee reported that bids for the Fiscal Agent were just received, and he will have the recommendation backup to the Board in ample time prior to the June 24th meeting.

Increase in School Lunch Prices. Debra Harris, director of Child Nutrition, explained that this request comes to the Board as a result of a Federal mandate that the price the District charges for

lunch should be at least what the Federal Government reimburses the District, which is \$2.65, and the District could implement it over a course of time.

In 2011, the District approved a 10 cent increase and beginning the 2014-15 school year, and because the audit in January said that the lunches need to be increased, staff is recommending a 15-cent increase. She added the cost to students for free or reduced breakfast and lunch will not change. Ms. Harris further explained to Mr. Hooks what the Federal Government is requiring.

Mr. Hooks stated that he doesn't believe it is fair and asked if there is a raise for employees in next year's budget? Superintendent Goree stated it is not in the budget being presented to the Board for approval on June 24th; however staff realizes that surrounding districts are giving raises and in order to be competitive, it is necessary that we look at this.

Miss Green asked if she understands we will see increases over the years to come, and Ms. Harris confirmed that is what the Act states; and we cannot see when it will stop because as it increases, the reimbursement also goes up. Ms. Harris added that staff is working to keep our funds at a point where we do not have to raise meal prices, but that we are self-sufficient.

Mrs. Armstrong asked if it is more expensive to prepare a pre-cooked meal (i.e. pizzas) than it is to cook fresh food? Ms. Harris responded that it depends on the staff available and the food available, so they constantly look at meal items staff can prepare based on the amount of equipment in-house, to do what needs to be done. She also stated the new guidelines require that more fresh fruits and vegetables are offered across the board, and they are doing that as much as possible since children are not used to eating a lot of fruits and vegetables.

Ms. Trammel stated that Child Nutrition does an excellent job, but she has noted several instances where the food in some cafeterias was not as pleasant or tasty as others. She also asked about alternate menus other than a salad bar. Ms. Harris explained that K-3 is the standard, traditional menu, and the salad bar is added for 4th and 5th grades. The sixth through 12th grades have the option of a sandwich-type meal added to their choices.

Mrs. Bell reminded the Board that, as Ms. Harris reported, this is mandated by the government and there is nothing we can do about it. She also asked to see the plan for the children that pay by the month and their account is empty, or for children whose parents do not pay, as to how the school provides a lunch for them. She reminded everyone that the Board last year approved extra money to be in the office to cover students who do not have lunch money. Mr. Hooks stated his agreement with Mrs. Bell's comments and also his concern about the amount of food that is thrown in the trash every day. He commended Ms. Harris for the good job she does, and that this is out of her control; however, this is a concern for him. Ms. Harris explained to Mr. Hooks what she is required to do to have the students meals reimbursed, and Mr. hooks clarified he is referencing food leftover after everyone has been served, and Ms. Harris responded that policy is to forecast, learn how many students will eat in the cafeteria, so they can predict how much needs to be cooked. Any leftovers are covered, labeled, dated and placed in the freezer to be used at a later date. The only items to be thrown away are items considered to be hazardous food items, i.e. anything with eggs, mayonnaise, etc. that could cause possible food poisoning.

Mrs. Crawley asked if some of the wasted food is as a result of the limited seat time for children to eat. Ms. Harris said she believes it does because most schools have 20-30 minutes; and this is from the time they leave their class for the cafeteria, wash hands, go through the line and sit down to eat, which may only be 10 minutes. Dr. Goree stated that staff is working with all principals relative to their master schedule process so all students are given 30 minutes so hopefully the students will have 20 minutes to eat their lunch. Mrs. Crawley asked about children throwing their plate away and buying ice cream(s). Mr. Pierson responded that may be a matter to take up with that child, and Mrs. Crawley added she believes the school shouldn't be

able to sell the ice cream in such an instance. Ms. Harris explained that the parent that pre-pays has the option of telling the school what their children can do; and if the money goes only on meals, that is the only way the money can be used. However, if the school is informed by the parents that they can buy extras, they can do so. Mrs. Crawley asked if students on free meals throw it away can they get extras, and Ms. Harris said they can after they receive a meal, and she has no control over that.

POLICY GBDB (RETIREE HIRING POLICY)

Attorney Reggie Abrams explained that this policy tracks State Law regarding the hiring of retirees, and it deals with the retirement benefits. The distinction is that the Caddo Parish policy is not to hire retired teachers as full-time classroom teachers except in instances of critical shortage. So instead of it being a preference that we hire a non-retiree, you do not hire a retired teacher at all unless it is in a critical shortage area. Mr. Abrams added that with this limitation, it means that the District must advertise to declare it is a critical shortage area. He added that the law does not require this because the law states that those who retire before a certain date will be grandfathered in. Secondly, it means we will not be hiring any retirees except in the critical shortage areas. He also explained that if a retiree is hired in an administrative position, they will be hired for a one-year term only, and the District has been using a two-year contract formula. He added that the remainder of the policy is basically definitions of retirees, retired teachers, how they can return to service, etc.

Mr. Riall asked if this policy recommendation was received from the company Caddo hired to look at the policy manual? Mr. Abrams said it is and the only difference is mandating that we do not give preference to retirees over non-retirees. Mr. Riall shared his concern that principals continually come to him about hiring retirees because Central Office tells them they cannot. He requested that Attorney Abrams put this in the policy so everyone understands where we stand in hiring retirees. Mr. Abrams added that another distinction is retired members (other than teachers) who retired prior to 2009 and went back to work; and they also can return to work, but prior to hiring a retired member, the employee must acknowledge in writing that their retirement benefits will be suspended.

Ms. Trammel asked who determines the critical shortage areas, and staff stated it is advertised positions that we are unable to fill with someone who meets the qualifications. Mrs. Bell asked about the shortage of bus drivers reported to the Transportation Committee, and Mr. Abrams explained they are included in the policy for shortages, but not critical.

Miss Green asked Mr. Abrams if she understands correctly that the State came up with this law and Caddo is just now putting it into its policy manual. Mr. Abrams responded that Caddo has been following this law since the State implemented it, but it was not written in the particular policy format presented. Miss Green asked about principals coming out of retirement and because she doesn't see this as a critical need. Mr. Abrams said there are not exceptions and paragraph two of the policy states that an administrator will be hired for a one-year term only. Also, they would have had to retired on or before May of 2009 and gone back to work; they must be grandfathered in person. Dr. Goree added that in that situation, there were characteristics and qualifications being looked for in a candidate and at that point, any one retired and returned to work prior to that date was a fully eligible candidate.

Miss Green also asked if there is a list of those grandfathered in, and Dr. Goree responded that Human Resources is aware of those candidates and through the State.

UNENFORCEABLE POLICIES IN POLICY MANUAL

Mr. Abrams explained a lot of the District's policies are under review and a lot of policies, because of Acts 1 and 2, relative to employee issues are unenforceable, so he is asking the Board to authorize staff to remove those policies from the policy manual and that State law be followed until all policies are updated and placed in the manual.

Superintendent Goree stated that the District is required to follow the law and an attempt is being made to update the District's policies and if we have a policy that is not following the law, it should be pulled from the manual. Mrs. Crawley stated that the Board is in charge of policy and these need to be brought to the Board. Dr. Goree shared his agreement and that it is staff's intent to be totally transparent in the process and bring to the Board a list of policies that fall into this category. Dr. Goree agreed and that this can be handled as the Board wishes through the wording of the motion. Mrs. Crawley added that supporting documents are to be at the work session so Board members can ask questions, and she doesn't see this happening at the June 24th meeting. Mr. Pierson stated that he believes staff is asking for the authority to remove the unenforceable policies and bring the remaining back to the Board for approval, because if we have a policy that is unenforceable by State law, we are not following that policy; and to protect us and the quality of the policy, it must come back to the Board for approval. Dr. Goree again stated that the Board has something in writing that does not support law, law will always supersede that policy; and taking this step will help the District when someone states this is what the policy says.

Mrs. Armstrong stated this is nothing more than State law superseding the local policy and we will follow the State law, so the policies still in place actually became inactive over the years as new laws were put into place. As these come up in the review of policies and we can no longer abide by them, but State law only, they need to be purged from the policy manual. Mrs. Crawley stated that she believes it goes beyond State law, and Dr. Goree explained that those instances would not qualify and would need to come to the Board as a separate action item.

Mr. Riall asked Mr. Abrams about the future of Acts 1 and 2 since they have been challenged. Mr. Abrams stated that it is not finalized at this time, and until it is finalized, the District must follow the law. Mr. Riall asked if we are doing this based on Acts 1 and 2, what will happen if these two are overturned. Mr. Abrams responded that we would have to change the policies again; however, Act 1 has been in effect since 2012.

Mr. Hooks asked about Level IV grievances and why the Board hears them when the Superintendent has the authority to hire and fire. Mr. Abrams clarified that a Level IV Grievance is an employee complaint on procedures and is not a policy that will come back as unenforceable.

Mr. Ramsey said that when the Board engaged the Forethought group to review the District's policies, one of the duties was to update and revise changes as the State law changed or were made, and it appears the process is running behind. He added that this step is a reminder that we need to get some of these policies updated to reflect what State law says. He asked that Mr. Abrams help move this process along.

Mrs. Bell asked Mr. Abrams to bring an update on the recent Legislative Session and new laws enacted.

Mr. Pierson announced that Items 6.02, 7.01-7.03, 8.01, and 8.03-8.08. *Ms. Trammel moved, seconded by Mr. Pierson, to approve the proposed agenda and consent agenda for the June 24, 2014 CPSB meeting as submitted. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, commended the Superintendent for his comments relative to making sure students have a defined time for lunch. She also addressed the retiree policy, and noted the only problem would be supplanting when there are teachers that need a place, and there are several teachers in Caddo that are struggling because they are in the surplus. She also reminded the Board that when you create people that have absolute authority/power, absolute power corrupts absolutely; and when you create principalities, you create tyrants/dictators and there is no counter-balance whatsoever, but a nightmare in the District. Regarding unenforceable policies, Mrs. Lansdale said she looks forward to having the opportunity to sit with the policy committee on this because it does deserve a look; because just because State law says something does not mean there is not a broader interpretation. She said there are a number of things in State law that if the Board looked at closely, it would not be doing it for its employees. She reminded the Board that Acts 1 and 2 are unconstitutional and Act 2 is gone. The arguments on Act 1 will be heard in June with the earliest ruling probably in August.

Adjournment. *Ms. Trammel moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:04 p.m.*

June 10, 2014

The Caddo Parish School Board (**CPSB**) met in special session on Tuesday, June 10, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Pierson led the prayer and Pledge of Allegiance.

PUBLIC HEARING ON CHARTER SCHOOL APPLICATIONS: (1) Leaves of Gold (2) Algiers Charter School Association (3) Central City Academy

Representatives from the Leaves of Gold application shared a video recently produced by the *Shreveport Times* depicting the program(s) she has offered to students and would like to continue to offer students through the Leaves of Gold Academy, as well as testimonies of families that have left the public school systems in Shreveport and Bossier and enrolled their children in her program. Debra Harville stated that because their application was denied by the third party reviewer, she is working with David Shepherd at the State Department. Mrs. Harville said this is her 46th year of teaching, having taught in public schools as well as private/parochial schools; and she has a desire to work in conjunction with public school teachers to help students who may have a need to work at a slower pace or special needs that are difficult to meet in a classroom where the curriculum is moving at a faster pace than they can keep up with. She hopes that Leaves of Gold Academy can provide a structured classroom that will meet their needs on a flexible basis as well as use a multitude of strategies she has learned in her 46 years in teaching.

Mr. Rachal asked that while he has the summary on each charter application, he requested that in the future the full packet be shared with the Board for review prior to the meeting. Ms. Trammel asked for clarification and does she understand correctly that when the Board is notified that the applications are available for the Board to review, that review must be done in the office. Dr. Goree responded that is correct.

Kimberly Williams, third party charter reviewer, shared with the Board that in reviewing the three charter school applications, and after meeting with the committee to interview each applicant, it is her recommendation to (1) deny the Leaves of Gold application, (2) approve the Algiers Charter School Association's application, and (3) deny Central City Academy (Ray of Hope)'s application.

She explained that the recommendation to deny the Leaves of Gold application is based on the application did not evidence everything just seen in the video, the majority of the application was letters of support, the budget was not in proper format, there was no curriculum presented nor plan for use of data, and the evaluation was based on what was presented, which was an incomplete application. She said there were also some concerns after conversation with the applicant that there is a feeling of attempting to make a public school into a private school and that the applicant does not completely understand the limitation placed on public schools.

Ms. Williams stated that following the review and interview with the representatives from the Algiers Charter School Association, the recommendation is to approve, with the approval being to give them up to three schools beginning in 2016 (conversion schools) working with the district. She further stated that because Algiers has a track record of success with the students in the demographics that are the most at risk and the most identified. She reported that Algiers has turned around schools and have done so across the population. What they are doing in their current schools was also evaluated. She feels that Algiers will be a tool given to Caddo to use to transform schools as opposed to just opening a charter school, and they are committed to

partnering with the district and working with the district to determine where the needs are and making the right placements using Best Practices. Mr. Abrams also commented that they will accept the students within the district boundaries of the schools they are currently attending and not solicit students from all across the parish. He also explained that this is not bringing in any new schools, but actually will work with the current schools; and they will be the ones convincing parents and teachers that their program is a good, successful program. We also have through December of 2015, based on the contract Caddo has with the RSD. Dr. Goree reemphasized the point that it is a tool we do not have to use in the event we progress positively in all schools in Caddo.

Ms. Williams presented the final application (Central City Academy – Ray of Hope Foundation) and their recommendation to deny it. She explained that when the application was presented, it did not meet the minimal eligibility requirements, it did not include all the required documentation, there was no academic or professional development plan, nor an identified plan for transforming students, and thus the reason for their recommendation to deny.

Mrs. Bell asked about the application for Algiers because she did not see a budget, and she questions where the money for this charter would come from. Ms. Williams responded they will use MFP funds from the State. Mrs. Bell restated her request is will the funding come from the District's MFP, which will include transportation, child nutrition, etc. Ms. Williams explained that the only obligation Caddo will have for shared services is the legal obligation relative to transportation (which they will purchase from Caddo Parish), and is the only service we are required to provide. Mrs. Bell asked how are the teachers paid, and Ms. Williams responded they are paid from the MFP. Mrs. Bell asked if she understands correctly that only the students in her district will be permitted to attend her school? Ms. Williams responded that is correct; however, she said it is important to note the reverse choice where a student can choice out, but Algiers has committed to working with the parents and teachers to get them to work with them. Mrs. Bell referenced Dr. Goree's comment that Caddo is working to fix all its schools; however, until the State should take over a school, can Caddo continue to use this company, but we are not obligated with a contract until 2016 when they will open. Mr. Abrams explained that the motion will state something different.

Mr. Riall called for a point of order because the comments are based on a motion and there is no motion on the floor.

Miss Green asked Ms. Williams about the three schools by 2016, and Ms. Williams clarified it is up to three schools beginning in 2016 and it will be Caddo's schools.

ACTION ON CHARTER SCHOOL APPLICATIONS: (1) Leaves of Gold (2) Algiers Charter School Association (3) Central City Academy

Mr. Ramsey moved, seconded by Mr. Rachal, to deny the charter application of Leaves of Gold Academy in accordance with the recommendation of the third party charter reviewer. Vote on the motion carried.

Mr. Riall moved, seconded by Mr. Hooks, to deny the charter application of Ray of Hope Foundation in accordance with the recommendation of the third party charter reviewer. Vote on the motion carried.

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the charter application of Algiers Charter School Association for up to three Type 3 charter conversion schools based on the needs of the District with the understanding that the applicant will obtain the consent of the majority of parents and staff beginning in June of 2016 as recommended by the third party charter reviewer.

Mr. Ramsey stated that in reviewing the application and we have a third party reviewer that provided the summary information, he wholeheartedly supports this motion. Mr. Rachal asked the superintendent his thoughts on supporting the Algiers application. Dr. Goree stated that it is Louisiana Law and a process in place for reviewing the charter applications and determine if there is a way we can partner with these organizations to meet a need. He said in going through the process and reviewing the application, there is a possibility Caddo may need to partner with this organization. He further stated that it is staff's hope that as a result of the hard work every day, Caddo will not need this organization because staff is looking to see all Caddo schools acceptable and performing at the exemplary level. Also, their track record indicates they are reaching students in failing schools; and by approving this, it gives Caddo yet another option if we do not see the kind of growth that the children deserve.

Mr. Rachal asked if he understands correctly that they will receive a portion of the local revenue that the School Board receives. Ms. Williams responded that is correct, and they will receive the total state and local MFP allocation. Mr. Rachal asked what is the local cost? Mr. Lee responded approximately \$4,000 of the local revenue plus the MFP. Mr. Rachal stated that he wants the public to understand that this is being funded with MFP funds, and any students attending the charter will receive the dollars they would have received if attending the public schools. Mr. Rachal asked how many schools is Algiers working in? Ms. Williams said they have six schools, and Mr. Rachal asked how long have they been in operation and when/where did they start. Ms. Williams stated they have six schools, the oldest began in 2005 (preK-8), one in 2007 that is a 9-12, and one in 2013 that is a successful merger of two high schools in New Orleans. These schools have grown over time.

Adrian Morgan, chief executive officer of the Algiers Charter School Association, shared the programs and successes of their six schools in the New Orleans area. He said they are very excited about the proposed new program and the successes it can bring to Caddo. Mr. Rachal said he does see some major benefits in using this company; however, if we do not get these schools turned around.

Mrs. Bell asked who owns the school, and Ms. Williams said the School Board does. Mrs. Bell asked if the three schools in her district do not make the improvement and Algiers takes them, how will they operate? Ms. Williams said it will remain a public school and a Type 3 is the conversion of the District's existing schools. Mrs. Bell asked if the school improves to A or B status, will it be returned to Caddo? Ms. Williams responded the school will remain a Type 3 charter school indefinitely until the Board and the operator agree to transition it back. The question will then be has the school reached an academic place to continue to do at or better than the programs currently offered in the school. Mrs. Bell asked if this school will fall under the same law as Linwood and Linear? Ms. Williams explained that as a Type 3 they abide by the same general policies, so there is continued liability and oversight. With Linwood being a Type 5 charter, it is less restrictive. Mrs. Bell asked about the State rule of what the District can do if a charter school does not reach the goal, and Ms. Williams said the Board can shut them down because a Type III has the Board's oversight and authorization and after so many years, if they do not reach the bar, then the Board can act on it.

Mrs. Bell asked what is different, what can this charter school offer that the public school cannot offer? Mr. Morgan explained that he believes in terms of the experience between the student and the teacher, there is very little difference. It's not about what is going on between the student and teacher every day in terms of the commitment and the effort, but the structure in which the student and teacher operate. He further stated there are limitations built into the structure....i.e., tenure status.

Ms. Trammel asked about the accountability and will the 12 Board members hold the charter accountable, because relative to another charter approved by the Board, no report has been

provided to the Board as to how it is operating and if it is working. Ms. Williams explained that as part of the first contract with the School Board, she will do an annual review of the charter; and since the school year just ended, she will submit a report to the superintendent in August. She further stated that she will receive a report from the charter school and she will look at this and submit a report to the Board. Ms. Trammel stated that she believes the Board requested a quarterly report on the charter school and how it is progressing and asked if the Board will receive such a report. Superintendent Goree noted this request was raised relative to the Magnolia Charter School and a request has been submitted to the school. As soon as Magnolia responds to his request, he will provide a summary to the Board on how Magnolia is performing. He added he believes it is perfectly reasonable that if it is approved by the Board, a regular report on the performance of the school can be provided.

Ms. Trammel stated if the State of Louisiana decides that the money to operate is no longer available, is MFP money and tax dollars the only money the charter will receive. Ms. Williams explained that relative to their finances with their six schools, all six schools operate very much in the black and they do so with MFP funds only.

Mr. Hooks asked how student success is measured? Ms. Williams responded student success is measured the same way Caddo measures its students successes, and they must achieve certain benchmarks. Mr. Hooks asked how will teaching and learning be modified based upon the need of individual students? Ms. Williams explained it is explained in the application what is needed, and principals are allowed to make modifications immediately when needed to meet the needs of the students.

Miss Green asked Ms. Williams if Algiers Charter School has a charter named Einstein or John McDonna. Ms. Williams said they do not, and there are numerous John McDonna Charter Schools. Miss Green noted that she does her follow up and Ms. Williams agreed and that she too does detailed research, and these conversations have taken place to ensure that Caddo is not walking into a bad situation. Miss Green asked the superintendent what buildings will be considered, and Dr. Goree responded hopefully none, but any decision staff makes will be based on academic performance, and this is a backup plan. He also said he doesn't want to appear that we, as staff, do not feel weak and can see great success in all our schools. But, in looking at historic data, Caddo has schools that this has been said of them, and this adds an option. Ms. Williams reminded the Board that its timeframe with the Recovery School District is short.

Mr. Riall moved, seconded by Mr. Ramsey, to call for the question. Vote on the motion to end debate carried with Board members Crawley, Armstrong and Bell opposed.

Vote on the main motion (Algiers Charter Association Academy) carried unanimously.

Adjournment. *Mr. Ramsey moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:38 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

June 24, 2014

The Caddo Parish School Board (CPSB) met regular session on Tuesday, June 24, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Lillian Priest, Bonita Crawford, Ginger Armstrong and Dottie Bell. Board members Mary Trammel, Barry Rachal and Larry Ramsey were absent. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Priest led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES

Ms. Priest moved, seconded by Mr. Hooks, to approve the May 14, 2014, May 20, 2014, June 3, 2014 and June 10, 2014 CPSB minutes as submitted in the mailout. Vote on the motion carried.

RECOGNITIONS AND PRESENTATIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Southwood's FIRST Robotics Team Wins First Place in Regional Autonomous Robotics Circuit Competition. The following Southwood High School Robotics team members were recognized for winning first place in the high school division for the 2013-14 school year at the Regional Autonomous Robotics Circuit (RARC) competition: Galen Bias, DeQuaylan Collins, Matthew Moore and Wesley Roberts. Mr. Mainiero announced that the Southwood team beat Caddo Magnet, Captain Shreve, North Caddo, Airline, Benton, Haughton, LSMSA, Ruston, Minden and Natchitoches Central. Support was provided from the Biomedical Research Foundation, Capital One Bank and JC Penney. Each team took home a \$500 cash prize. Joe Couvillion, mentor, William Fegley, team sponsor and Susan Tompkins, MST coordinators were also recognized.

Arthur Circle Teacher is "One Class at a Time" Winner. Jessica Dowden, Arthur Circle Special Education teacher, was recognized as the newest "One Class at a Time Winner". The grant received will be used for the expanded expression tool that allows students a way to organize their thoughts not only in oral expression, but in written expression as well.

Barret Paideia is Awarded Grant from International Paper Foundation. Barret Paideia Academy was recognized for being awarded a grant from the International Paper Foundation in the amount of \$5,831.15. This grant will be used to purchase materials and supplies for the literacy programs at Barret Paideia Academy.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: (1) Michael Ilgenfritz, principal, Caddo Parish Magnet High School; (2) Col. Eric Sweeney, JROTC Supervisor; (3) Paesha Finister-Wright, SPED Placement Facilitator; (4) Cassie Harwell, Professional Development Specialist; (5) Marjorie Manuel, Elementary Math & Transformation Specialist; and (6) Sabrina Anderson, Elementary Literacy Transformation Specialist. Dr. Mary Nash Robinson introduced Al Graham, newly appointed director of classified personnel, who will fill the position occupied by Cleveland White, who is retiring. She also recognized Col. Daniel Durr and Cooper Knecht members of the Superintendent's Cabinet that are retiring and today is their final Board meeting.

PUBLIC HEARING ON 2014-15 CPSB CONSOLIDATED ANNUAL BUDGET

President Pierson announced that the public hearing on the 2014-15 CPSB Consolidated Annual Budget open. With there being no speakers, Mr. Pierson declared the public hearing closed.

VISITORS

Jon Glover shared a portfolio of information on the District's School Performance Scores, noting that Caddo ranks 59th in Louisiana. While Caddo Districts 1, 8, 9, and 11 appear to be on key for attaining educational success, Ms. Glover expressed her concern about the ineffectiveness in Districts 2, 3, 4, 5, 6, 7, 10 and 12; and even though she has brought her concerns forth many times, thus far there have been no results depicting success. Her question to the Board is where does the District go from here. Relative to the service provider coming aboard to address 10 of the targeted schools, she would like to know about the additional schools. Because education is important to her, Ms. Glover said she cannot emphasize enough the importance of everyone fitting into the criteria for success. She said if we cannot successfully exercise the practices that dictate success, then she believes we are not only sacrificing our children, but the school system as a whole and asked if this is the legacy Board members wish to leave for their constituents.

Brady Harris reported that he has been since 1980 the property and casualty insurance agent for the Caddo Parish School Board, holding the responsibility to monitor the market, see what was available, and place the coverage in a facility that in his opinion was the best combination for the Board. He further explained that in 2003 he was approached by the Baton Rouge office of AJ Gallagher to consider an insurance program they put together for Louisiana public schools and made it available to those schools' insurance agents. After analyzing and careful consideration, he reported that it was a good deal for the Board and to place insurance with that company. A graph depicting what has transpired since that decision was made and in 2013 a decision was made where the School Board is paying \$300,000 less than paid in 2010 for considerably more coverage. He also explained that Gallagher charged a fee in addition for him; and while the fee was not excessive, it was, in his opinion, justified. Mr. Harris referenced the recommendation from the Insurance and Finance Committee and the Board's approval of that recommendation, and the decision to terminate him as the agent for the CPSB and deal directly with AJ Gallagher. Mr. Harris noted that Gallagher was in no way involved in this decision by the CPSB Committee. He also said that since that decision was made, no one from the committee, the Board, or the administration has shared with him that decision after 10 years. Mr. Harris stated that (1) the school board accessed this Gallagher program and realized the savings because of him and his decision to place the coverage with Gallagher; and (2) he is immensely proud of the service he rendered to the School Board over the past 10 years and that every decision he made was done so in the context of what was best for the Caddo Parish School System.

Jackie Lansdale, president of Red River United, announced that Bossier teachers will receive A 1.5% increase divided through their millage (taxpayer) at the beginning of the new school year and they will also receive \$703 of the MFP dollars received last year as a one-time supplement. This year the Board has decided to make it permanent and will also receive a \$600 13th check and \$725 be-back check at the beginning of the school year. These incentives bring the new teacher in Bossier at \$41,423. The salary (in the salary schedule) for a new teacher in Caddo is \$41,144. Mrs. Lansdale noted that last year \$790 was allocated as a supplement and it was put into the MFP as growth monies and the Legislature has recommended that the 2.75 is made permanent and that is a permanent part of the District's salary structure. Mrs. Lansdale encouraged the Board to consider this recommendation which will place the Caddo teacher slightly above the Bossier teacher salary. She also asked that the Board consider repeating what it did last year for non-teacher employees and that it become a permanent structure as well. She also reported that Bossier explored going to a twice monthly pay, something Caddo has done for 15 years, and made the decision to not do so due to payroll costs to do so. Believing it to be very

beneficial, especially to new employees, Mrs. Lansdale stated it is their hope that Bossier will revisit that decision. They also requested that every employee have direct deposit, which also ultimately provided payroll savings. She also noted the differences in the two districts and that a huge reduction has been seen in classified numbers, but a permanent increase is what they want to see. Mrs. Lansdale stressed the importance that the Board take the monies from MFP and develop them into a salary development structure allowing employees to receive a permanent salary increase for the first time since 2009.

An additional area needing work is to put procedures together for due process hearings for tenured teachers as a result of the changes in state law. She added in doing so, there is also a need to put together a list of 10 arbitrators from lawyers, retired judges, mediators or from a list from BESE. Mrs. Lansdale said this law is an improvement even over the original tenure termination law; and while it is still not what they want, it is a start. She also noted that they feel any erosion of due process is considered a deep professionalism of their profession – public education; and that is when they see teachers removed arbitrarily from their school or Board policies deleted without consideration or discussion or policies and procedures misapplied, because due process is the essential and fundamental right of any just society.

Daryl Roberson (CAE) introduced Dr. Elizabeth Sullivan, the new CAE President.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Goree highlighted items for the Board’s consideration and President Pierson announced that Item 8.08 “Unenforceable Policies in Policy Manual” is pulled and Items 6.01-6.03, 7.01-7.03, 8.01-8.02, 8.04-8.07 and 8.09-8.13 are the consent agenda. *Ms. Priest moved, seconded by Mrs. Bell, to approve the agenda and consent agenda for the June 24, 2014 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Priest moved, seconded by Mr. Hooks, to confirm the consent agenda. Vote on the motion carried unanimously and the following is a summary of the Board’s action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transactions Reports. The board approved the personnel transactions report for the period of May 1, 2014 – May 31, 2014 as submitted in the mailout.

6.03 Request to Waive Re-Payment of Medical Sabbatical Leave. Move to approve the requests to waive re-payment of medical sabbatical leaves as submitted in the mailout.

Item No. 7

7.01 Purchasing Bids. Move to approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Detel, totaling \$549,980.00 for the purchase of Smart Boards for All Schools; (2) Unity Education Resources, totaling a discount percentage of 55.1% for the purchase of Office Furniture Catalog; (3) Fire Sprinkler Services, totaling \$15,915.00 for the Sprinkler Inspection & Repair Sprinkler Systems; (4) Blue Bell Creameries, totaling \$81,756.00 and Oak Farms Dairy, totaling \$1,365,030.00 for the purchase of Milk and Dairy Products; (5) Flowers Baking, totaling \$195,700.00 for the purchase of Bread

and Bread Products; and (6) Oak Farms Dairy, totaling \$1,341,375.00 for the purchase of Fruit Juice. *Bid tabulation sheets are filed in the official meeting record for the June 24, 2014 meeting.*

7.02 Authority to Hold Salvage Sale. The Board authorized staff to hold an auction sale of surplus furniture and equipment on August 2, 2014.

7.03 Capital Projects Bids. The Board approved the following bid as recommended by staff and submitted in the mailout: (1) Terry's Roofing & Sheet Metal, Inc., with a Base Bid for the sum total of \$158,000 for Project 2015-205, "North Highlands Roof Repairs & HVAC". *A copy of the bid tabulation sheet is filed in the official papers of the June 24, 2014 CPSB meeting.*

Item No. 8

8.01 Appointment of Official Journal. The Board appointed *The Times* as the official journal for the 2014-15 year as recommended by staff and submitted in the mailout.

8.02 Appointment of Fiscal Agent. The Board approved JP Morgan Chase as the fiscal agent for the period of July 1, 2014 through June 30, 2019.

8.04 Increase in School Lunch Prices. The Board approved the increase in the school lunch prices as recommended by staff and submitted in the mailout.

8.05 Resolution to Adopt the 2014-15 Consolidated Annual Budget. The Board adopted the 2014-15 Consolidated Annual Budget as submitted by staff in the mailout.

8.06 July Board Meeting. The Board approved holding only one Board meeting in July and that the July Board meeting will be held on Tuesday, July 15, 2014.

8.07 Policy GBDB (Retiree Hiring Policy). The Board approved the proposed revisions to Policy GBDB (Retiree Hiring Policy) as submitted in the mailout.

8.09 Out of State Travel (General Fund). The Board approved the request for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.10 Approval of Revised Organizational Chart. The Board approved the proposed revisions to the Organizational Chart as recommended by the superintendent and submitted in the mailout.

8.11 Long Term Use of BTW. The Board approved the request for long-term use of Booker T. Washington as recommended by staff and submitted in the mailout.

8.12 Request for Use of Buses. The Board approved the request for the use of CPSB buses as recommended by staff and submitted in the mailout.

8.12 Ratification of MOU Between CPSB and VOA of North Louisiana, re: Communities in Schools. The Board ratified the MOU between the CPSB and the VOA of North Louisiana as recommended by legal counsel and submitted in the mailout.

PROPERTY AND CASUALTY INSURANCE RENEWALS 2014-15

Ms. Priest moved, seconded by Mr. Riall, to approve staff's recommendations for insurance coverages and authorize the superintendent or his designee on behalf of the CPSB to reject uninsured/underinsured bodily injury coverage on the automobile liability policy.

Mrs. Crawley asked staff to clarify the relationship between the visitor that spoke and this recommendation. Jim Lee explained that Arthur Gallagher is Caddo's Agent of Record and Mr. Harris is a local agent; and the matter of the commission paid to Mr. Harris was discussed at a recent meeting of the Insurance and Finance Committee as well as the work he does for Caddo above what Gallagher does for Caddo. Because it was believed there is no additional benefit, the question was raised as to why Caddo pays an additional commission; and the committee voted to bring the recommendation to the Board to remove Mr. Harris as the local agent, which the Board voted to accept at the last Board meeting. Mrs. Crawley remembered it being brought up approximately five years ago, and a decision was made to stay with the company and asked Mr. Lee if he knew how much we pay this third party. Mr. Lee responded it is approximately \$39,000, and Mrs. Crawley said she doesn't believe that is very much considering the size of the policy and the work involved.

Mrs. Armstrong asked if she understands correctly that the recommendation is to make AJ Gallagher the agent of record and cut out the local representative (Mr. Harris)? Mr. Lee said that is the recommendation. Mrs. Armstrong noted the tremendous service from AJ Gallagher in searching the market in the District's best interest; however she has mixed emotions about cutting the local agent of record out of the picture.

Mr. Riall called for a Point of Order since the Board has previously voted on that matter and is not a matter of the motion on the floor. Mrs. Armstrong stated her understanding; however, she wanted to make her point as to the fact as to who has been the agent of record as well as the service we have received from AJ Gallagher.

Mrs. Crawley stated that Mr. Abrams shared with her that Gallagher will continue to use Mr. Harris and they will pay any expenses.

Ms. Priest, chair of the Insurance and Finance Committee, shared that this matter was discussed thoroughly in several committee meetings as well as receiving additional information. She explained that a list of items were asked for as provided by the third party; and when representatives of Gallagher met with the Insurance and Finance Committee, the committee went through the items and the committee agreed that Gallagher could provide what was needed for those 10 items; therefore the recommendation from the Insurance and Finance Committee.

Mrs. Bell, a member of the committee, also expressed her concern about the local money; but when learning that AJ Gallagher would continue to use Mr. Harris, she supported it.

Mr. Riall moved, seconded by Ms. Priest, to call for the question. Vote on the motion to end debate carried with Board member Crawley opposed.

Vote on the main motion carried unanimously.

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Superintendent Goree reported that last week the transformation zone principals and key personnel traveled to the University of Virginia for an intense week learning more about the school turnaround process. He stated he is very excited with the quality of work with the UVA and believe the efforts of the principals and the efforts going into the transformation schools will make a tremendous difference for kids. He expressed appreciation to all the stakeholders for the huge contributions to the 10 transformation schools.

SunGard Status. Dr. Goree reported that staff will bring a recommendation to the Board at its July 15th meeting, on the direction of SunGard. While progress has been seen, he added staff is still looking to make the best decision for Caddo.

Administrative Appointments (Informational). The superintendent announced that the administrative appointments in the mailout are presented for the Board's information.

Update on Follow-up of Transportation Audit. Dr. Goree announced that as requested by the Board, an update on the follow-up audit of the Transportation Department audit is provided for the Board's information.

Request for Leaves. Approved certified and classified requests for leaves were provided for the Board's information.

ANNOUNCEMENTS AND REQUESTS

Steve Riall announced that the Audit Committee will meet at 2:30 p.m. on Tuesday, July 15, 2014.

Dottie Bell requested additional information on the Attendance Department's move to Central Elementary.

Charlotte Crawley asked staff to share with the Board when it will begin looking at the MFP (adding amount to the salary schedule).

Dr. Goree introduced Sue Gerlock, principal at Dalton Elementary School in the Mansfield Independent School District, who is shadowing Billy Snow as part of completing her doctoral program at Stephen F. Austin.

Adjournment. *Mrs. Armstrong moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.*

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, Sr., President

July 15, 2014

The Caddo Parish School Board (CPSB) **Audit Committee** met on Tuesday, July 15, 2014 at 2:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Charlotte Crawley, Barry Rachal, and Ginger Armstrong. Also present were Dr. Lamar Goree, Superintendent; Reggie Abrams, legal counsel, Dottie Bell and Mary Trammel, as well as staff members from the HR Department, IT Department and Auditing. Mr. Riall led the prayer and Ms. Trammel led the Pledge of Allegiance.

Update on SunGard. Sharon Golett, director of Information, shared an update on SunGard reporting that work has been ongoing with the corporate office to address concerns and improving the system. She reported that the latest activities included closing out the fiscal year and having everything in place for staff and start of school, completing requirements for insurance to be in compliance with the Affordable Care Act and tracking buses and field trips.

Relative to security, it was reported that security settings have been addressed based on budget descriptions. Also, staff is looking for ways to improve and allow staff (insurance and HR) to continue to work through the “hands off” time. Additional improvements in this area will be to devise a time schedule for payroll processing and make departments aware of windows of opportunity. Dr. Goree noted the importance of the fidelity of the information and he believes we are making progress with the system; and he must look at what is being done to improve the system versus the cost of replacing the system, which the District is not poised to make that recommendation at this time. Dr. Goree also said while he thought this month he would be able to report to the Board his position to support or not support, there has been too much progress made to date for him to make a recommendation at this time. He added his only concern is the fidelity of the past information and its accuracy.

Staff also responded to questions relative to “human errors” noted in the audit report, number of pay periods (20 in June) which increases the amount of “hands off” time for various departments, having one pay-period would eliminate a lot of the daily issues.

In response to the Committee’s request for a recommendation, Dr. Goree said he will bring a recommendation to the Board in August along with a recommendation on a pay raise.

Human Resources Audit Recommendations. Jeff Howard announced that copies of the Human Resources Audit were mailed to members of the Board and Dr. Robinson and the Human Resources staff are present to answer questions, along with Allison May who conducted the audit. Discussion was held on the various types of leaves and the concern that a leave was approved for someone to attend nursing school, for someone to teach at a charter school, etc. Jeff Howard explained it is Auditing’s recommendation that the Superintendent needs more information on leave requests so he can make the best decision for the district. Mr. Abrams explained that, regarding an employee taking a leave to teach at the charter school, State Statute in 2012-13 required that the Board allow this; and at this time, he is not sure this stipulation is still in place. Mr. Pierson also clarified that a leave without pay is one where an employee could go and get another job and still maintain their position with the School District when they return; and a leave with pay is for education and must be approved every year.

Discussion also ensued on the Superintendent approving all leaves and the fact that certain leaves should be approved by the Board.

Mrs. Armstrong stated she believes the staff needs to be trusted to approve leaves because when reporting different types of illnesses, etc. this is out of the Board’s purview. She also asked if

there are any charters where Caddo pays for retiree benefits; and staff responded that none of the charters in Caddo participate in the State Retirement Plan.

Board members discussed the Audit recommendations and staff responded as follows:

- **Recommendation 1 – The administration should not add additional staff outside of the staffing formula without obtaining Board approval. All administrators who are currently considered surplus should be considered for any future openings before additional personnel are hired in these positions.** Mr. Lee responded that staff currently follows this practice.
- **Recommendation 6 – The administration should implement a tracking system to monitor the actual number of counseling sessions the EAP provides to the employees and calculate the cost per visit. If the cost continues to appear excessive, the administration should explore other options for providing these services.** Dr. Goree responded that there is a need for this service, but he will agree maybe there is also a need to look at other options. Mr. Lee responded that when someone is referred to EAP, they are given an option to go through EAP; and regarding the issue of confidentiality, having someone in the district serve in this capacity has been discussed.
- **Recommendation 8 – If an applicant has prior experience with a non-public school and they do not complete the sexual misconduct form, HR should contact the former employer to determine if they are eligible for rehire. This contact should be documented.** Mrs. Bell asked if new hires are drug tested? Allison May responded that all drivers (buses) are tested, i.e. any safety sensitive employee.
- **Recommendation 9 – New employees should complete Form L4 when they are hired, and this information should be used to record the Louisiana withholding information in SunGard.** Dr. Robinson responded that L4 and W4 are the same information and HR will continue to use the W4. The auditor commented that withholding for state taxes could be different than their federal taxes so the employee should complete both forms.
- **Recommendation 12 – When an employee has a position change, HR should ensure that the employee signs the new job description, which should be maintained in the employee’s file. All positions should be supported by a recommendation from the applicable administrator and maintained in the employee file. All changes should be processed in SunGard in a timely manner to prevent errors in payment and overpayments should immediately be recouped from the employees.** Mrs. Bell encouraged staff to look at ways this type error can be caught or eliminated. Staff will continue to comply with the advice of counsel regarding this matter and to notify employees of their fiduciary responsibility to repay any overpayments immediately.
- **Recommendation 13 – The District should revise administrators’ contracts to allow their salaries to be reduced if they are transferred to a lower position. Administrators’ evaluations should properly reflect their performance.** Mr. Rachal asked if he understands correctly that if we move someone to another position we can’t reduce their pay, and Mr. Abrams clarified that Statute trumps in these situations. Dr. Goree also added that districts doing this (reduce the position and reduce the salary) are placing employees on position assignment. Mrs. Crawley stated that districts that follow this have progressive discipline policies in place and Caddo does not have such a policy.
- **Recommendations 14 and 15 - Regarding evaluations, HR personnel should develop a plan to ensure all employees have the necessary documents to complete their annual evaluations; and that Administrators shall forward all intensive assistance plans and follow up documents to HR so the documents can be included in the employee’s evaluation.** Staff noted that the District Personnel Evaluation Plan identifies and describes the documents which comprise a complete performance evaluation for certified employees. Dr. Goree also added that as we move forward, staff is making every effort to provide training to preparers so they can be held accountable. He also

stressed the importance of how problems are addressed at the school and if we are going to do a better job of holding people accountable, it will be through evaluations.

Discussion was also held on employees not performing their job-related responsibilities, and Mr. Abrams explained that employees not doing their jobs should be called in and addressed that staff is recommending demoting their position.

Following discussion, *Mrs. Armstrong moved, seconded by Mr. Rachal to approve for submission to the CPSB at its meeting today, July 15, 2014, the recommendation from the Human Resources audit. Vote on the motion carried unanimously.*

Need for Future Audits. Jeff Howard announced that a follow-up to the Energy Audit is forthcoming and the next scheduled audit is the Risk Management Department.

Mr. Riall announced that the Payroll audit will be back on the agenda.

There being no additional comments, the meeting adjourned at approximately 4:00 p.m.

July 8, 2014

The Caddo Parish School Board (CPSB) met in special session on Tuesday, July 8, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present was Reggie Abrams, legal counsel. Mr. Rachal led the prayer and Pledge of Allegiance.

RESOLUTION CERTIFYING PUBLIC EMERGENCY REPAIRS AT BOOKER T WASHINGTON HIGH SCHOOL

Steve White, director of capital projects/construction, explained that on Wednesday, July 2, 2014, during an asbestos abatement, there was a fire in Wing C of Booker T. Washington High School within the abatement area. He reported that the fire resulted in fire damage on the 1st floor and smoke damage on the 2nd floor of the C Wing. Staff met with the District's Risk Manager and brought in companies to begin cleanup of areas not under asbestos abatement containment; and at this time, staff is looking to have the 2nd floor areas of C Wing, D Wing, hallway and office areas cleaned by Saturday, July 12th. He stated there is significant damage in the 2nd floor of C Wing; and he has currently been unable to visit the first floor of C Wing as it is still under the asbestos abatement containment. Currently, Mr. White announced that both parties (CPSB and contractor doing the asbestos abatement) are investigating the cause of the fire but the cause has yet to be officially determined. However, staff is preparing to start cleanup as soon as possible so the school is ready to receive students on August 11th.

Ms. Priest moved, seconded by Mr. Rachal, to approve the resolution certifying public emergency repairs at Booker T. Washington High School and to authorize staff to begin repairs in order for school to be open on August 11th.

Mr. Rachal asked if photographs are available on the damage? Mr. White responded the District's insurance carrier has some photographs; however, they have been unable to disturb the area where the fire took place but the fire investigators and those representing Caddo Parish School are scheduled to arrive on Friday and staff is expected to be able to return to the area to clean up, complete the abatement and assess the actual damage. Mr. Rachal asked if the City Fire Department is going through the investigation, and Mr. White responded that the Shreveport Fire Department made initial investigations the day of the fire; and to date, he has not received any official word on the possible cause of the fire. Debbie Kappas confirmed that it is currently under investigation by the Shreveport Fire Department and the scene will remain secure due to the abatement and the pending investigation. Mr. Rachal asked if he understands correctly that at this point there is no estimate on the damage since no one has been able to look at the damage? Mr. White stated that staff does not have a precise estimate at this time because the extent of the damage has not been determined; however, staff anticipates all the ceilings to be a total loss, there is damage to some of the lockers, there is heavy content damage; but because the concrete reinforced frame is undamaged, there is no structural damage. Mr. Rachal asked if this request/motion is for a blanket cost. Mr. Abrams explained that the way the motion is written, it gives staff authorization to move forward and have the school ready for opening on August 11th, and since the insurance has a \$1,000,000 deductible on this property and the insurance company is doing the investigation; if the District is able to show that the contractor is responsible, then the contractor's insurance would take care of damages and Caddo would look for reimbursement from the contractor's insurance for any expenses to the school system. Mr. Rachal asked Mr. White about a ballpark estimate of the damages; and Mr. White responded that his initial guess without doing a thorough investigation of damages on the first floor, would be between \$200,000 and \$250,000; and this does not include the smoke damage on the second floor, i.e. finishes to concrete floors, glazed block walls, plaster, and concrete deck to the floor above. Mr. Rachal

asked if staff sees any problems in accomplishing these repairs and having the school ready to open on August 11th? Mr. White indicated there is no day to spare, but staff will make it happen.

Mr. Hooks asked if he understands that Caddo will receive reimbursement if the contractor is at fault? Mr. Abrams responded if Caddo can prove they are at fault, then Caddo will request reimbursement from the parties involved. Mr. Hooks asked if a dollar figure is not needed for the motion. Mr. Pierson said he does not believe so, because he understands staff will continue to report on the damages and progress to clean up and repair the damage. Mr. Hooks stated his concern that it appears the Board is giving someone a blank check to spend what they need, and if the Board gives staff permission to proceed, he believes the Board needs to know an amount. Mr. Lee added staff does not have an exact number at this time because staff is unable to get into the first floor; however anything needing done over \$150,000 must go through a 30-day bid process. At this time, Mr. Lee stated staff knows the cost will well exceed \$150,000; and as soon as staff can access the first floor and obtain concrete estimates, a report on the cost of repairs will be provided to the Board. Mr. Hooks stated his understanding that the school needs to be ready, so it appears the Board has no choice but to approve moving forward; however, he feels he is accountable to the taxpayers to be a good steward of the taxpayers' dollars.

Mrs. Bell asked what occupies Wing C, and Mr. White responded approximately 20 classrooms, four of which house administration. Mrs. Bell asked what will be done if these rooms are not ready for students on August 11th, is there a Plan B? Mr. White explained an option would be to utilize West Shreveport. Mrs. Bell encouraged the Board to support the motion on the floor.

Miss Green said she does not have any problems with moving forward and asked staff for clarification on precise location of the damage, including any explanations as to the cause. Mr. White further clarified the location of the damage, how the heat from the fire caused damage on the second floor and that at this time he has only received speculation as to the cause so he prefers to wait until the official report on the investigation is received. Miss Green asked if this project will hold up the completion of other projects, and Mr. White responded it will not.

Mr. Riall moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Board member Crawley opposed.

Vote on the main motion carried unanimously.

Adjournment. *Mr. Riall moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:56 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

July 15, 2014

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, July 15, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey (arrived at approximately 5:00 p.m.), Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent; and Reggie Abrams, legal counsel. Ms. Priest led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES

Ms. Priest moved, seconded by Miss Green to approve the minutes of the June 24, 2014 and July 8, 2014 CPSB meeting as submitted in the mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: (1) Ginger Gustavson, curriculum professional development specialist for math 6-12; (2) Diane Atkins, area director of school performance; (3) Mary Nash-Wood, assistant director of marketing & media services; and (4) William Strother, director of communications and marketing.

Mr. Strother, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Arthur Circle “Destination Imagination Team” Takes First Place in the State-Wide DI Competition. Mr. Strother recognized the following members of Arthur Circle’s Destination Imagination team that won 1st place at the state tournament and earned a spot to compete in global finals in Knoxville, Tennessee: Brendan Anderson, Ben DeLouche, Hannah Eldridge, Hadlee Hoffman, Nova Honeycutt, Madison Mercon and Isabella Ramos. Linda Endicott is the team sponsor and Ramona Myrick is the principal.

2013-2014 Caddo Public Schools Counselors of the Year. The following were recognized as the 2013-2014 Counselors of the Year: (1) Adreinnie Tucker, Elementary Counselor, Summerfield Elementary; (2) Pamela O’Guinn Johnson, Middle School Counselor, Caddo Middle Career & Technology; and (3) Connie Barnes, High School Counselor, Northwood.

Two Caddo Schools Awarded a \$70,000 Grant from the Women’s Philanthropy Network in Cooperation with The Community Foundation. South Highlands (Principal Mary Harris) and Arthur Circle (Principal Ramona Myrick) were recognized for receiving a \$70,000 Stem to Steam grant from the Women’s Philanthropy Network in cooperation with The Community Foundation. This grant will be used to transform the schools through a science and arts integration partnership by providing training, professional development, technology, supplies and all the resources needed to implement the arts/science/robotics integration program.

Dr. Scott Vetter, Woolf Professor of Geology at Centenary College. Dr. Scott Vetter was recognized for writing grants for over 20 years to provide professional development for Caddo math and science teachers. These grants totaled approximately \$2.5 million at no cost to Caddo. Everyone present thanked Dr. Vetter for his untiring work, many contributions and dedication to the Caddo Parish Public Schools, educators and students.

VISITORS

Jackie Lansdale, president of Red River United, asked that the CPSB Executive Committee honor CPSB Policy GBM and schedule a meeting with the employees at the beginning of the school year.

Jon Glover stated that despite extraordinary accomplishments achieved, she is present to bare tidings of not so great joy. Even though she has been accused of posing threats to bosses and not demonstrating loyalty to our system, she said her only objective has been to bring about a change that demonstrates academic success for every student; and if this causes any discomfort for those who have experienced such practices, she offers her apology. She asked if Board members had considered the information shared at the last Board meeting, because disparities do exist. She questions how of the 12 separate districts, eight (8) are deemed ineffective. Prior to this report, Ms. Glover reported she came forth to ask the Board to look more closely at the school system's performance; because she saw a large population of Caddo's students who were not achieving Academic success and parents are now noticing this same thing and seeking refuge in other walls of learning. Ms. Glover also stated it's the public school system that is the entity providing the resources for Academic success; but a steady diet of information that does not support any difference in practices that support or produce academic success is what everyone has fed on for too long. She encouraged the Board to do the job it has been entrusted to do by engaging in practices that promote academic success for every student in Caddo Parish. Because the District is about to begin a new School Year, she asked the Board to ask themselves what is different about last school year and will we truly implement practices that support academic information for every student in Caddo Parish and make this legacy successful.

Dr. Cynthia Moore-Alexander, a Shreveport graduate, shared a brief overview of their proposal on Miles for Smiles mobile dentistry services, expanding on her belief in the mission and passion of this program that will offer comprehensive dentistry from a mobile unit to students in Caddo Parish that are not presently being offered this service and the names of those that support the use of mobile units. She said the provider out of Lafayette has had an MOU in place since 2009 for providing dental care to students residing in Louisiana (Caddo Parish) at David Raines. She also noted that they are not planning on closing the other stores, but to add support based on data obtained from Caddo's public records; and based on the date reviewed, it appears there is a need for an additional provider for the 42,687 students of Caddo Parish. She said she believes they are more vested in the community as well as extremely qualified to reduce the number of students not being served. She also knows that the superintendent and the Board members embrace the triangular relationship between the schools and the community, and that the Board and the superintendent care about the quality of dental services offered to all students, and it is important not to assume this is not important to families and others in the community. Dr. Moore-Alexander also stressed the importance for everyone to collaborate, and make decisions that are best for students. She said they are only asking for a MOU and for the opportunity to show by example what they were taught in Caddo Parish and to do so at no cost to the District.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA FOR THE JULY 15, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

Request to Waive Repayment of Sabbatical Leave. Ms. Priest asked staff to explain how we get to someone asking for their repayment to be waived. Dr. Mary Nash-Robinson explained that the employee was on a medical sabbatical leave last school year and she has been deemed disabled to return to work, so she is requesting the use of some accumulated and extended sick leave and that she not have to repay the District for her medical sabbatical leave time. Dr.

Robinson further stated it is staff's recommendation to approve the waiver of repayment of medical sabbatical salary, but not approve the request for her to use any accumulated time.

Capital Projects Bids. Jasmine Green asked staff to clarify the bid on the lighting retrofit for Huntington as she remembers the Board voting on this last year. Mr. White explained that a year ago was Phase I of the project; and because a lighting retrofit for a high school costs approximately \$1.2 million, the project was broken into phases. He further explained that last year the majority of classroom lighting upgrades were completed; and this year the auxiliary spaces are being addressed, which is the final phase of the project. Miss Green also asked when the West Shreveport renovations will begin, and Mr. White responded that this project is on tonight's agenda. Miss Green asked when will work begin, and Mr. White said not until it is approved by the Board and then it takes approximately one month to complete the contracts and get insurance and bonds turned in before starting. Dr. Goree added that tonight's item is approval of contracts to do the work on projects already approved by the Board.

Property/Bus Rental Requests. Miss Green asked when did this come about, and Dr. Goree responded that this request is for the use of the facility at Newton Smith (the grounds for practice of Southern University soccer teams). Miss Green asked how long has staff known about this? Mr. Woolfolk responded that we received the request on June 19th to use the facility. Miss Green asked about long-term use and how long do they want to use it in the event there is a need to use the facility for something else? Mr. Woolfolk responded the request for use is July 16 – December 16. Miss Green asked if they need it beyond December 16, will they come back to the Board for approval of another agreement, and Mr. Woolfolk stated that is correct. Miss Green asked if she understands correctly that this is just the playground, and Mr. Woolfolk said it is only the grounds, no use of the facilities.

Superintendent's Goals for the 2014-15 School Year. Ms. Priest thanked the Superintendent for providing the Board his goals for the coming school year and encouraged the Board to support the Superintendent in his goals, noting his plan to address the C, D, and F Academically Unacceptable schools. Mrs. Crawford echoed Ms. Priest's comments and that it was nice to see performance goals with specific numbers. Mrs. Armstrong also stated her appreciation of the goals the Superintendent has set for the school system and the education of our students.

Approval of Special Education Interagency Agreements and Contracts. Mr. Rachal noted the list of proposed agreements and contracts; however, it does not include a list of services that each will provide. He noted the fact that they were made available in the Superintendent's office; however with technology today, and since he was out of town, he would like to see the information emailed or at least a description of the services each will provide.

Louisiana Compliance Questionnaire. The board adopted a formal resolution approving the Louisiana Compliance Questionnaire as recommended by staff and submitted in the mailout.

Start the Process to Rename the Jerry Burton Stadium to the Jerry Burton Memorial Stadium. Mr. Riall stated that Coach Burton was an icon at Northwood and the football field is currently named for him. With Mr. Burton passing away a couple of weeks ago, the school is asking that the stadium be renamed the Jerry Burton Memorial Stadium.

Permanent Salary Adjustment to Certified and Classified Employees. Mr. Ramsey noted the backup information on the Legislative intent, but asked if current numbers (amounts) are available for the Board and will they be consistent with the new school year. Dr. Goree responded that staff is currently working on a schedule with plans to bring a recommendation to the Board in August that will show an across the board increase for all employees and one that will protect the integrity of the current pay schedule. Mr. Ramsey wants to make sure that everyone understands the amount allocated in the 2013-14 supplement may not be the same

amount each year, but staff is committed to everyone at least seeing that amount and maybe even more in a permanent pay increase. Mr. Ramsey asked if the motion will be to insert the law passed by the State during the last Legislative Session and update the information? He said he believes the motion needs to be very specific.

Mrs. Bell presented information from her research for a proposed salary adjustment for certified and classified employees; and being pleased that the Board's approved budget for the 14-15 school year is in the black, she is asking that this amount be permanent and that every employee receives a permanent pay raise. She said she spoke with Dr. Goree, Mr. Abrams and Mr. Lee to confirm her proposal and Mr. Lee told her yes and that staff was working on this to make a recommendation to the Board in August. Mr. Lee reported that he and Dr. Goree held some basic conversations on what can possibly be done and if the Board approves this item and recommends the staff to bring forth a recommendation for implementing, staff will do so. Mrs. Bell stated that is what she plans her motion to be, and she thanked Mr. Lee for working with her and explaining to her what staff is hopefully going to be proposing in August. If passed by the Board, she hopes it would be a nice check for everyone in September.

Mary Trammel stated she believes the question is to make sure the verbiage is correct and she is 100% behind employees getting a raise no matter what we can give them.

Mrs. Bell stated that her motion will be *that staff bring a recommendation for a pay raise for all staff at the next Board meeting.*

Mr. Rachal asked if he understands the proposal will be to make it permanent; but the only thing the Board is approving tonight is to ask the Superintendent to bring back the proposal of the total amount, and it was confirmed that was correct.

Mrs. Crawley asked for clarification of "percentage", and Dr. Goree explained that the Rahmberg Study recommended that the only way to protect the structure of the salary schedule is to not do across the board amount (i.e. \$500), but to implement percentage pay raises. He further explained that staff is looking to make sure each employee receives a certain amount as a minimum and to look at how it affects the structure. Mrs. Crawley said her only issue is Rahmberg did not take school-based teachers into consideration and since we are about students, she believes it gets out of balance when a pay scale is set up that way. Dr. Goree said staff is committed to give everyone as much as we can, and staff is also looking at ways the recommendation can be maximized.

2014-15 Caddo Parish Performance Evaluation Plan. Mrs. Crawley asked if in the evaluation there is a last date a principal can do/write up an observation for the year? Mr. Lowder explained that principals have 15 days to complete evaluations based on the observation score given an employee, and some evaluations may not be completed until student data is received (in July); however, staff did not do that this year but based everyone's evaluation on SLT's and observations, not student data. Mrs. Crawley asked if a teacher's SLTs are good and their evaluation not so good, do they get another observation? Mr. Lowder responded that the teacher can request it, but they are not automatically obliged to receive one. Mrs. Crawley said she was informed otherwise, and Mr. Lowder responded the book states differently. Mrs. Crawley said her issue is principals who get behind and then do all their evaluations after school is out rather than doing them throughout the year so teachers can learn what the principal expects. Mr. Lowder explained that the final evaluation is combining the two observations and the two SLTs to arrive at the evaluation. Mrs. Crawley said she thinks she is really talking about the second observation being written up as the teacher is checking out for the year which makes it difficult to do a 15-day rebuttal. She further stated she believes evaluation is about doing so from the top down; and she believes it will be great when receiving the principals' evaluations. Mr. Lowder added that principals do have a deadline for completing evaluations and that is July 31st.

Mr. Pierson stated he believes everyone understands and at some point, we need to be encouraging the principals to complete the evaluations in a manner that will help teachers to make wise and proper use of those things found negligent, etc., which he hopes will be done in the future. Staff was encouraged to make these things happen.

Proposed Revisions to CPSB Policy GBM. Mr. Hooks stated his concern is in the 2nd and 3rd paragraph because he feels that the employee in the last grievance heard by the Board was done an injustice. He said administration did not support him so he came to the Board. He asked Dr. Goree if this is staff admitting they made a mistake by not placing this employee back in his job, and Dr. Goree responded absolutely not. Mr. Hooks asked that staff explain the proposed revisions to him, and Dr. Goree stated that anytime we learn of a supervisor, manager, leader doing something inappropriate to an employee based on them filing a grievance, staff will take immediate action. While he respects that Mr. Hooks does not believe that happened in that situation, Dr. Goree said this policy reiterates that is what will happen in such a situation. Mr. Hooks said to his knowledge no one was threatened, but he believes this young man was harassed. He added if the Board approves the revisions and prints this policy, it needs to be upheld. Dr. Goree added that anytime this is done, it is done to protect the employees. Mr. Hooks said he believes if Dr. Goree told the truth he would agree with him also.

Mrs. Armstrong asked if the Superintendent would in the coming year lead the principals to conduct the teachers' evaluations on days other than "party" days, and days other than those prior to a holiday, etc. She believes it unfair to evaluate teachers when the students are not focused on academics on those particular days. Since it is the principal's job to make their school better for the students, and if anything supplants that idea, she believes they are in the wrong chair. Dr. Goree stated his agreement; and even though this is Human Resources and a matter of practice/policy, it is really an academic issue and Mr. Burton is currently planning a retreat with the Academic Division. He added he is excited about the area directors returning to their grade level focus; and he and Mr. Burton are working diligently to develop a structure so area directors work with principals in areas they are most familiar with to make good decisions relative to employees' evaluations as well as completing them in a timely fashion in an effort to improve instruction.

Mrs. Bell also stated her agreement with the comments relative to the timing of the evaluations. Ms. Priest also expressed appreciation for the comments as this has always been a concern of hers to do a better job of the evaluation process from administrators through teachers in the classroom which holds them accountable. If the District is to be held accountable, everyone in the District must be evaluated. Mr. Hooks apologized to Dr. Goree because Dr. Goree has made a great difference since coming to the District. He added he knows this happened prior to Dr. Goree's arrival and he believes staff should have handled this before he arrived. Mr. Hooks said he should have said to the Superintendent if he was sitting in his (District 5) seat, he (Superintendent) would probably agree with him.

Approval of Service Provider for District-wide Strategic Planning. Mr. Rachal stated that he did not see anything in the backup that explained the scope of this provider's work. Dr. Goree stated that staff can provide the packet of information the provider submitted. He further stated that he and staff are very excited about this provider and how they will utilize strategic planning to bring the community in on how the District is planning for the next 3-5 years. He reported that this company did a very impressive presentation and it is apparent that this company will far exceed what we required in the initial outline. While he feels comfortable, Mr. Rachal stated he would feel a lot more comfortable if he had received this additional information in advance of voting on it.

Mr. Ramsey stated he visited with the Superintendent relative to implementing a strategic planning process before coming up with a Strategic Plan and he believes this is a necessary component of that process. He expressed appreciation to the Superintendent and staff for their efforts to get us to this point. Dr. Goree said staff reviewed the applicants and brought in two groups to do site (face-to-face) interviews with staff. Mrs. Bell asked that a presentation be made to the Board.

Approval of Revisions to CPSB Policy re: Grading Scale for High School. Mrs. Crawford stated that the District is basically on a seven point scale for high school and Mr. Burton informed her that he has asked for approval from the state; however, the state has only granted approval for two small groups on the top end and not the entire high school population. Mrs. Crawford stated she believes if we are going to do it for one small group, it should be done for all high school students or not at all. She said Bulletin 741 is what governs this and she is asking staff to develop the approval to ask that all high school grades be included in a ten-point scale. Dr. Goree stated that State Statute limits what the Board can change to a ten-point scale and operating dual scales in the District has not worked before. Mr. Burton explained that Bulletin 741, developed by the BESE Board, allows the local Board the opportunity to implement a dual scale.....one for regular courses (seven-point scale), and (2) the flexibility for gifted and talented courses, advanced placement courses, and dual enrollment courses to be on a 10-point scale. The only leeway is the recommendation for a 10-point scale for these courses, and it is his suggestion that this be done not only for high school but also for middle school, and possibly elementary, since Caddo has so many students in Gifted and Talented course work. Mr. Burton also stated this will alleviate many of the problems in high school because many of Caddo's high school students are in dual enrolled courses and the college grading scale is actually easier than Caddo's grading scale. Dr. Goree added that from a competitive standpoint, he agrees, and it would be nice if it were possible to do this for all students because Caddo's students are at a disadvantage when competing with students from other states since most states operate on a ten-point grading scale. However, the Board does have the power to remedy this to a certain degree for the advanced, unGT students. Mr. Burton also shared that not all principals responded (some were unavailable because of the summer break); but of the ones that responded, 100% were in favor of the change. Mrs. Crawford asked if Mrs. Bell's motion will be bought back in a special session prior to the start of school? Dr. Goree indicated if the Board brings forth a motion at tonight's meeting; and approves it, staff will move forward. Mr. Riall said that he is not seeing any backup information on this item and Mrs. Crawford said she has it, but she left it at home; and at this time, she is only asking staff to move forward.

Ms. Priest asked that if the Board does consider this request at tonight's meeting, doesn't it require a 2/3 vote to move forward? Mr. Pierson explained that the Board Attorney has advised that the 2/3 vote is not required because there was not a meeting to bring this item up to the Board. Mr. Rachal asked if there is still a motion on the floor and it is not contested, can it still be voted on.

Mr. Ramsey said he knows staff has conducted research on this and is looking at what can be done legally. He is appreciative that Caddo has arrived to a point where it can do something.

Mrs. Crawley stated that she thought we were asking for a waiver to do this, and Mr. Burton responded there is no such thing as a waiver from a mandate in BESE policy; however Bulletin 741 has changed in that it gives an opportunity to request a waiver for Gifted and Talented; however, it is now worded that this is mandated for all regular courses, which leaves an opportunity for the local district to use this for Honors and other course work. Mrs. Crawley stated that while she supports this, the classes are structured according to ability, so she questions why someone is at a more rigorous grading scale because they are Gifted, when it is not more rigorous to you than it is to a regular student.

Mr. Pierson explained that 741 only addresses high school and Mr. Burton clarified that it now addresses K-12th grades, and he read the mandate in Bulletin 741.

Mr. Rachal reminded everyone that the Board went through this same process approximately four years ago when the School System was on a seven-point scale and the Board changed it back to a ten-point scale. He shared his excitement that the Board is addressing this and noted how BESE brought this forward. He believes we will at least be able to address some of the students. Mr. Rachal also asked if the Board had addressed this issue with BESE, and Mr. Burton said everyone is being encouraged to make as many contacts as possible with not only their BESE member, but also with the Legislator and the possible introduction of legislation to address this matter at the state level. Mr. Rachal; asked if it is necessary to put together a resolution from the Board to present to local Legislators, State Legislators, etc. Mrs. Armstrong stated that while she realizes it is a long time before the next Legislative Session, BESE and the State Superintendent are still working, and should would like to see the Board pass a resolution at its next meeting to send them our position and desire for a 10-point grading scale for all students.

Mrs. Crawford stated that her motion will be *to implement the ten-point scale for the AP, Dual Enrollment and Gateway (GT) classes and that staff begin working to get approval of a ten-point grading scale for all students.*

Approval of HR Audit Recommendations from Audit Committee. Steve Riall reported that the Audit Committee met earlier today and is recommending approval of the recommendations from the Human Resources audit. Ms. Trammel was in the Audit Committee and she would like to see added to the motion that updates are brought to the Audit Committee within 120 days to make sure that the recommendations are implemented. Mr. Rachal commented on the open discussion at today's Audit Committee meeting; and he is very appreciative that some pro-active activity has begun with staff already addressing the majority of the recommendations.

Mr. Pierson announced that Item 8.02 is pulled and he recommended the following items as the Consent Agenda: 6.01, 6.03, 7.01-7.02, 8.01, 8.03-8.10, 8.12 and 13.01.

Permanent Salary Adjustment to Certified and Classified Employees. Jackie Lansdale, president of Red River United, thanked Board member Dottie Bell for bringing this recommendation and shared her concern for how the percentage increase may mean employees receiving less than the minimum amount as well as employees receiving more than the minimum amount. She is pleased this is coming so Caddo remains competitive and can say Caddo's employees will receive the first permanent pay increase since 2009.

2014-15 Caddo Parish Performance Evaluation Plan. Mrs. Lansdale noted the importance of paying close attention to performance evaluations, as Act 54 of 2012 has become very important to teachers since it could mean whether or not a teacher receives a pay raise, a performance increase or maybe even keep their job. She also noted that Act 54 does not say that one (SLTs or observations) trumps the other, and she will vehemently argue this; but according to the way the State Department wrote Bulletin 130, if SLTs (VAM) are not successful, you fail regardless of what the observation reflects. She believes this is problematic because they have struggled to get SLTs accurately written in Caddo; yet it has not happened in the way it is to happen (make projections for the coming year based on last year's student data, working collaboratively with the principal). She said sorry SLTs were written this year and as a result teachers received good observations, but were told they were ineffective because of the poorly written SLTs. If this happens another year, they are at risk of being in the unemployment line. Mrs. Lansdale reported that she went to Billy Snow with information on what was going wrong with observations and encouraged the Board members to look at this based on what Act 54 states. She stated while she is very grateful the committee went with what Act 54 says, her problem is

she brought to the committee the question of what exactly is a pre-observation conference and the need for something to be in the data to reflect that this happened, but the committee would not agree to it. She said she would like to bring it back to Mr. Burton and the Board's committee the need for this documentation. She said post observations cannot be group settings and needs to be addressed. Also, under the Standards of Effectiveness, she believes the District should take the position that if it (Board) believes the SLTs were inappropriately written, then those sitting around here should be able to say that and validate that. She encouraged the Board to keep that authority because it is the Board's authority to say if it is not right, it can't be validated and she asked the Board to encourage staff to do so as well. Relative to Mrs. Crawley's comments earlier, she stated her agreement to not wait until school is out to give someone an evaluation, because the purpose is to give someone an opportunity to get a re-evaluation if they need to do so. She stated school days are school days and when the school day has ended, it has ended; and she does not want to argue with administration about what is a work day and what is a school day. Mrs. Lansdale encouraged the Board to let evaluations be about teaching and learning and not about "gotcha".

Proposed Revisions to Policy GBM. Mrs. Lansdale asked the Board to look at "grievance is a complaint" because that is what state law says, because she could not get the committee to agree with her on this. She also stated she doesn't have a problem with the change at Level II to remove the directors and allow the superintendent to choose who the Level II officer will be; however, she believes there should be a pool of people to draw from, i.e. teachers, administrators, someone from school plant. Because the whole idea of a grievance is to resolve it at the lowest possible level, this will not happen if you get someone who will always rubber stamp everything, and it will always come to the Board, so she believes a fresh set of eyes is needed. Also, on Level III she believes the verbatim transcript, court reporters, attorneys, etc. are so expensive, this is another reason the resolve should be at the lowest level, because once it reaches Level III a lot of money has been invested and she believes it is incumbent at that point for the Board to hear it.

Approval of Revisions to CPSB Policy re: Grading Scale for High School. Attorney Abrams explained that if this will be for all students in Gifted and Talented, Honors and AP courses, it will be necessary to suspend the rules (by unanimous vote) to change the item that states for high school, and allow public comments before the Board votes.

Approval of HR Audit Recommendations from the Audit Committee. Mrs. Lansdale stated that she wishes to draw a correlation between what is being done at this point and the number of employees in the audience who were surplus from the reconstituted schools and have not been placed. She noted that other people have been hired, others have been promoted from the classroom to counselor positions when there are counselors that have not been placed. She also noted a former policy on reductions and how school staff members were to be removed from a location and moved to another setting; but because of Act 1, this was removed. She stated there was a reason for including this and that is to have a protocol/procedure in place as to how these things should be handled and to have a level of fairness in how it is carried out. Mrs. Lansdale said too many people have been harmed by this and it is wrong when employees have 30 years in and because of this, they are out of jobs. She said she believes this needs to be looked into (do these people have jobs, did they get interviews); and she is only sorry that those affected were not still in the audience to hear that she did bring it to the Board's attention.

Ms. Priest moved, seconded by Mr. Hooks, to establish the agenda and the proposed consent (Items 6.01, 6.03, 7.01-7.02, 8.01, 8.03-8.10, 8.12 and 13.01) agenda for the July 15, 2014 CPSB meeting as submitted. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Priest moved, seconded by Mrs. Crawley, to confirm the consent agenda. Vote on the motion carried unanimously and following is a summary of the Board's actions on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations as recommended by the superintendent and submitted in the mailout.

6.03 Request to Waive Repayment of Sabbatical Leave. The board approved the request to waive re-payment of medical sabbatical leave as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Purchasing Bids. The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) VCC Janitorial Supply, totaling unit price of \$64.89 and Neer Enterprises, totaling unit price of \$30.25 for the purchase of garage supplies. The bid tabulations sheets are filed in the official papers for the July 15, 2014 CPSB meeting.

7.02 Capital Projects/Construction Bids. The board approved the following bids as recommended by staff and placed at Board members' stations: (1) J.D. Electric, with a Base Bid, Alternates 1, 2 and 3, for the sum total of \$389,156 for Project 2015-403, "Huntington Lighting"; (2) Thrash Construction Services, with a Base Bid, Alternates 1 and 2, for the sum total of \$2,742,838 for Project 2013-140, "West Shreveport Renovation Re-Bid"; and (3) Project 2015-206, "Woodlawn Re-Roofing, Phase II", is postponed and rescheduled to bid August 5, 2014. Bid tabulation sheets are filed in the official meeting records for the July 15, 2014 meeting.

Item No. 8

8.01 Property/Bus Rental Requests. The board approved the request to use the Newton Smith grounds as recommended by staff and submitted in the mailout.

8.03 Approval of Superintendent's Goals for 2014-15. The board approved the Superintendent's Goals for 2014-15 as submitted in the mailout. A copy is filed in the official meeting record of the July 15, 2014 meeting.

8.04 Approval of Special Education Interagency Agreements and Contracts. The board approved the Special Education Interagency Agreements and Contracts for providing needed services to Caddo's students as recommended by staff and submitted in the mailout.

8.05 Louisiana Compliance Questionnaire. The board adopted a formal resolution to approve the Louisiana Compliance Questionnaire as recommended by staff and submitted in the mailout. A copy of said resolution is filed in the official papers of the July 15, 2014 meeting.

8.06 Start the Process to Rename the Jerry Burton Stadium to the Jerry Burton Memorial Stadium. The board approved beginning the process for renaming the Jerry Burton Stadium to the Jerry Burton Memorial Stadium.

8.07 Permanent Salary Adjustment to Certified and Classified Employees. The board approved staff bringing a recommendation for a pay raise for all staff at the next Board meeting.

8.08 2014-15 Caddo Parish Performance Evaluation Plan. The board approved the 2014-15 Caddo Parish Performance Evaluation Plan as recommended by staff and submitted in the mailout and placed at Board member stations.

8.09 Proposed Revisions to CPSB Policy GBM. The board approved the proposed revisions to CPSB Policy GBM as submitted in the mailout.

8.10 Approval of Service Provider for District-wide Strategic Planning. The board approved the bid of Evergreen Solutions, LLC, totaling \$89,500.00 for the purchase of district-wide strategic planning services.

8.12 Approval of HR Audit Recommendations from Audit Committee. The board approved recommendations of the Human Resources Audit as recommended by the Audit Committee.

Item No. 13

13.01 Student Readmission Appeal. The board approved the student readmission appeal for PS as recommended by staff and submitted in the mailout and whose parents are in agreement.

APPROVAL OF REVISIONS TO CPSB POLICY RE: GRADING SCALE FOR HIGH SCHOOL

Mrs. Crawford moved, seconded by Mrs. Bell, to suspend the rules to amend 8.11 Revisions to Grading Scale for all students in Caddo Parish in the GT, Dual Enrollment, Honors and AP classes. There being no speakers, Mr. Ramsey moved, seconded by Mr. Riall, to call for the question and vote on the motion to end debate carried with Miss Green and Mrs. Crawley opposed. Vote on the motion to change the item carried unanimously.

Mrs. Crawford moved, seconded by Mrs. Bell, to approve staff utilizing the grading scale below for all students at elementary, middle and high schools in Gifted and Talented, Dual Enrollment, Honors and AP classes: 90-100 is an A; 80-89 is a B, 70-79 is a C, 60-69 is a D and 59 and below is an F. Mrs. Crawford stated in fairness for all students, she believes this is something the Board needs to do. Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Status of Collaborations with RSD. Superintendent Goree reported that approximately two weeks ago representatives from the RSD conducted a very productive site visit. Dr. Goree reported the RSD indicated they were very impressed with the Reimagine School efforts and they believe Caddo is on the right tract for seeing great changes in the schools covered under the RSD contract.

Update on SunGard Status. Dr. Goree stated that Caddo is currently working through a process with SunGard to improve and identify some of concerns addressed with SunGard in order to determine if it is a system we will continue to operate as the District's Business, Payroll and Human Resources system.

Personnel Recommendations and Requests for Leaves. The superintendent also reported that personnel recommendations and requests for leaves are also presented for the Board's information.

ANNOUNCEMENTS AND REQUESTS

Ms. Trammel asked staff to provide the Board a status report on employees (teachers) that have not been placed.

Miss Green asked when there is something dealing with her schools that staff contact her about those requests. She also asked that staff provide her in writing what is going on with Newton Smith and all the activities that will be taking place at Newton Smith, as well as all that is going on in her elementary schools to get campuses ready to receive the 6th graders. Miss Green also noted the visitor with Miles for Smiles and asked staff to communicate with this program to see what they have to offer Caddo schools.

Mrs. Bell asked everyone to pray for Mary Moore, teacher at Huntington High School, who lost her 30-year old daughter. She also announced that Walnut Hill High School (1956-1971) will hold its reunion this weekend.

Mrs. Crawley stated that in checking with other Districts that use committee meetings, she learned that most have a set calendar so Board members know when committee meetings will be held. She believes if all committee meetings were held on Board meeting days, at 2:30 or 3:00, it would not be as chaotic as it has been on other days. Mr. Pierson said he will encourage the Committee Chairs to hold committee meetings on Board meeting dates.

Mrs. Armstrong asked the Board to remember Larry Ramsey in their prayers as he is having surgery on Wednesday.

Ms. Trammel asked that someone advise her whether or not Caddo added sexting to its policy.

Adjournment. *Miss Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:47 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

July 23, 2014

The Caddo Parish School Board (**CPSB**) **Transportation Committee** met on Wednesday, July 23, 2014 at 10:30 a.m. in the Superintendent's Conference Room at 1961 Midway, Shreveport, Louisiana with Chair Mary Trammel presiding and the following Board members present constituting a quorum: Steve Riall, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, Reggie Abrams, legal counsel, Carl Pierson, James Woolfolk, Otis Jones. Mr. Riall led the prayer and Pledge of Allegiance.

Employee Concerns. Mary Patricia Goss, bus driver in Caddo for over 20 years, and Jim Jackson, were present to share concerns with the Committee. Ms. Goss shared her concerns over favoritism in the department, long delays in getting paid for extra work, deductions from her check without explanation, deductions based on inaccurate absences, drivers no longer driving field trip runs because of the length of time to get paid for them, etc. Attorney Abrams reminded everyone that because this is a personnel matter and a grievance has been filed, this should not be discussed in a public forum. Mrs. Bell noted that it is a personnel issue that involves money, and the need to process these in a more timely fashion. Mr. Abrams clarified that anytime a complaint is filed with a Board member, the Board member should contact the Superintendent to follow through on it. Superintendent Goree responded staff is and will continue to look into these concerns to respond to extra work in a more timely fashion. Staff will clearly present this information during bus driver inservice times.

Act 654. Otis Jones shared information on Act 654 of the 2014 Legislative Session which requires that children must enter and exit on the right side of the bus and can no longer cross any street/highway in front of the bus. This law will go into effect August 1, 2014; and at this time, bus directors statewide are attempting to decide how to proceed. Mr. Abrams clarified that the statute is clear and the law must be followed until the law is changed; and an Attorney General cannot delay this implementation; and districts not following the law do not want to be found guilty of gross negligence.

Mrs. Bell asked about situations where there is no place for buses to turnaround without traveling long distances out of the way to do so in order to pick up children on the right side. Mr. Jones shared with the committee how this legislation came about and that the authors of the bill have stated this was not the intent of the bill, but now that it is law and must be implemented, the cost will double and districts are struggling to implement by the start of school. Mr. Woolfolk explained that staff is already looking at the four-lane situations; but relative to two-lane roads, there is no way it can be done without increasing the work load for drivers, the time it takes to run the routes, amount of gasoline....all which contribute to an increase in cost to the district. Mr. Abrams indicated that while it may not be feasible to implement by the start of school; the District must have documented evidence that it is not possible to do so by the start of school and a documented plan that the District is working to get this implemented.

Discussion was held on the complaints that will be filed by parents, i.e. late buses, increased distance to bus stops, and Mrs. Bell asked that they be told what to tell parents when this happens. Mr. Abrams stated that at this time he is hearing there will not be any changes; but it is up to the Board to come up with the policies and procedures necessary to implement the District following this law, and an indication that this is in progress needs to be done by August 1st. Mr. Jones reiterated Mr. Woolfolk's comment that the system has begun working on the four-lane routes (22), so the effort has been made and the question is will this suffice for the August 1st deadline. Mr. Abrams responded that this is a good idea and also noted that the Attorney General will not be able to help us, but only the Legislature (next Session) can help with changing the law. However, in the meantime, he believes the District can come up with a policy to begin implementing the process with the four-lanes first.

Discussion was also held on the stipulation of buses pulling off onto the shoulder for students to exit the bus on the right side of the bus and the problem with buses pulling off on the shoulder and then attempting to flow back into traffic. While this is not logical, staff reported it will continue to break out the elements of implementing this law to show Caddo's efforts to comply.

Adding a safety expert for input was also discussed and it was agreed that this will also add to Caddo's efforts to address being in compliance with the law.

After discussion, Mr. Riall moved, seconded by Mrs. Bell that Attorney Abrams will bring a proposed policy relative to the new bus law (Act 654). Vote on the motion carried.

Mrs. Bell also moved, seconded by Mr. Riall to bring to the Board a recommendation that we secure the services of a safety expert along with the cost for possible recommendation to the Board at its August meeting.

Committee members also asked that a bus trip be scheduled for the committee to see first hand what this new law is requiring the District to do.

Leaves and Absences. Mr. Jones recapped one of the major issues in Transportation being absenteeism; and in looking at this issue, he noted how long overdue addressing this issue is not only for Transportation but other departments as well.

Attorney Abrams highlighted the proposed revisions (additions and deletions) in all CPSB policies addressing absences and *Mr. Riall moved, seconded by Ms. Trammel, to recommend to the CPSB approval of the proposed changes to District policies on leaves and absences. Vote on the motion carried.*

Adjournment. *Mr. Riall moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 11:40 a.m.*

August 5, 2014

The Caddo Parish School Board (**CPSB**) **Executive Committee** met on Tuesday, August 5, 2014 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and Bonita Crawford and Mary Trammel present constituting a quorum. Other Board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

President Pierson asked everyone to remember Board members Lillian Priest and Larry Ramsey who are not present because of health issues.

PRESENTATIONS

Update on School Opening. Carla Moore, director, shared that the Child Welfare and Attendance offices have been relocated to the old Central Elementary School, 1627 Weinstock. She reported this year's One Stop Shop will be August 6-13 at the new location, and it offers parents/guardians a seamless process for enrolling their students in school by being able to meet with representatives from attendance, transportation, special education, parent resource center, School Choice, alternative education providers, Volunteers for Youth Justice and child nutrition in one location. Mrs. Moore shared statistics on the number of parents seen last year (950 families in seven days), as well as the number seen thus far this year (750 families). Dottie Bell shared that she visited the new location and thanked the Board members for supporting this and Dr. Goree for making something she has asked for a long time happen.

Steve White, director, reported that some of the major construction projects completed during the summer were: (1) foundation repair at the Lakeshore locker room, (2) A/C upgrade at 3 locations (AC Steere kindergarten wing, Captain Shreve Business Center and the Performing Arts Center at Middle Magnet), (3) paving jobs at 7 sites (Mooretown, CMCT, Mooringsport, Sunset Acres, J. S. Clark, Werner Park and Creswell), (4) all 81st Street ECE classrooms have rest rooms, (5) fire renovations at BTW have been completed, (6) Green Oaks stage lighting, (7) painting projects at 5 schools (Woodlawn, Fair Park, Lakeshore, Midway and Mooretown), and (8) all lockers replaced at Keithville Elementary/Middle. Mr. White reported that at this time there are three challenging projects (paving at Lakeshore not designed to be complete by opening of school, canopy at Creswell, and elevator project at Werner Park – the elevator shaft is complete, however the elevator has not arrived). Staff is on standby to get the call that it is in and staff will complete without any interruption to the school. Mr. White commended the contractors who worked on BTW following the fire and the excellent, timely job they did.

Otis Jones, director of transportation, reported that last year the Board approved a lease to own proposal for buses and this year there will be more air conditioned buses on the roads. He reported that state mandated bus checks required two times a year were completed over the summer. A new shop foreman and assistant shop foreman are in place this school year, and the department is now certified to repair air conditioners on the buses which will save the District \$250,000 to \$300,000. Also over the summer months, all buses were cleaned inside and out, all bumpers painted (all rims in black), re-stenciled every label on all buses so that all buses look like new, all GPS systems are on-line, cameras are being installed as the Board requested, a new class of 10 prospective sub drivers was completed, and an inservice training for all bus drivers is scheduled for 9 a.m. to 1 p.m. on Wednesday at Huntington High School. Mr. Jones also announced that each bus driver will make a dry run of their route prior to Monday morning, the District is beginning the year with 302 active drivers, 84 attendants, 35 sub drivers, 10 subs in the new class; and 70% of the maintenance this school year will be done in-house.

Ms. Trammel expressed appreciation to Mr. Jones for his presentation and for the transportation staff's efforts to save the District money. Miss Green asked how the eight new buses will be assigned and Mr. Jones explained that staff follows policies and procedures and they are assigned to the longest routes.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE AUGUST 19, 2014 CPSB MEETING

Superintendent Goree highlighted the following items for the Board's consideration at its August 19, 2014 meeting and the following discussion ensued.

Approval of Board Policy – Section D. Mrs. Crawley asked Mr. Lee if any of this backup has changed since she read it on Monday, i.e. policy on the payroll system? Mr. Lee responded that the draft presented includes the change to return it to the current policy. He explained that the policy was changed to no longer use by-weekly payroll and make all payrolls semi-monthly. If the Board approves everything in the proposed pay raise and other payroll recommendations, the policy will need to be modified and sent to the Board for approval. Mr. Lee further clarified that Policy DJC, first page, number 2, states all employees hired after January 1, 2011 shall be paid semi-monthly on the 15th and last day of the month or bi-weekly if it is a maintenance/custodian employee. This will need to be changed if the Board chooses to approve the proposed recommendation for change placed on the Board in September for the Board's consideration. Mr. Lee stated that if it appears the Board will approve the proposed recommended changes, he will bring a modification at the same time so that the policy matches what the Board approves.

Mrs. Armstrong asked why once a month pay was not a part of a recommendation for all employees. Mr. Lee responded more employees are paid twice a month than once a month and staff wants to go to only one pay frequency and not give options. Mrs. Armstrong asked staff to provide her with the cost difference between once a month and twice a month. Mr. Lee said it will be processing one payroll; and if the Board approves all the proposed recommendations, it will significantly cut costs by reducing the number of payrolls from approximately 20 to 4; but, the difference between once a month and semi-monthly is probably nominal.

Mr. Hooks asked if this is part of the Human Resources audit and was SunGard off because there were so many payrolls? Mr. Lee said yes in an indirect way, because as many payrolls as Caddo has, it allows for the opportunity for many more errors. Mr. Hooks stated he understands why there were errors of people getting overpaid and underpaid, and he believes if audit recommends this be done, it should be done.

Mrs. Crawley referenced August 2007 it was brought to the Board's attention that some employees were going longer than 30 days without getting paid and the Board passed a policy that this would not happen. She asked if this policy is implemented will it help shorten that time as well. Mr. Lee said it will offer opportunity for that, but staff does offer new teachers the option of getting a \$500 advance on their first paycheck.

Personnel Recommendations. Mr. Rachal stated that he requested the scoring matrix for this position; and while he sees the application and resume', he does not see the scoring on this position. Mr. Abrams explained that staff can't release the information requested because it is part of their personnel file. Mr. Rachal asked staff to provide him with a copy of the form used.

Recommendation to Secure Services of Safety Expert. Ms. Trammel requested that this item be pulled from the agenda at this time.

Approval of Proposed CPSB Policy, re: Act 654 of 2014 Legislation Session. Ms. Trammel announced that the proposed policy has been drafted and Mr. Abrams will forward it to the

Board. Mr. Abrams explained that this proposed policy will start the process of showing that Caddo is beginning the process to implement route changes in accordance with the act. He further explained that this policy will authorize the superintendent and director of transportation to begin the process of determining how routes should be amended to address the safety concerns and a recommendation presented to the Board for approval, which will follow the AG opinion. Dr. Goree confirmed that staff has begun work on this process. Mr. Rachal asked for clarification and Mr. Abrams verified that the statute states the school board will enact a policy and this will be in compliance. Mr. Rachal asked staff about the impact this new legislation will have on the District's transportation. Dr. Goree responded that to follow the act 100% as written will be a mammoth task for the District to accomplish and staff has already looked at the four-lane highways and made necessary adjustments so no student crosses over these lanes; and staff will begin looking at the two lane highways. At this time, however, the superintendent stated he does not have an exact number but he knows it will at minimum double the District's cost. Mr. Rachal asked staff if contact has been made with BESE or the DOE, because as he understands it, when this legislation was passed, it was about an incident in another district and what has been put into place is affecting everyone. Dr. Goree responded that staff has been in contact with lobbyists as well as other groups associated with to hopefully remedy this situation. One of the concerns, however, is that this is an act of a Legislative Body and any change will require Legislative Action. Mr. Rachal said he is aware of that and also aware of the fact that BESE and DOE can present information on this act, because he believes this will have a tremendous effect on the State and the local District.

Mr. Abrams stated that LSBA, along with several legislators that signed off on the legislation, requested an Attorney General's opinion and expedited an Attorney General's opinion regarding the effects of the act (is there a particular time this must be implemented by since it went into effect August 1, does this act apply to the entire state or was the intent for it to apply to New Orleans, how can Districts meet this). Mr. Abrams said the response is the act does not have a definitive date for implementation so the AG said use a good faith effort, because the statute has been amended several times, and it was amended with the intent of taking away that requirement, where it applied to everyone and to every roadway. Because the process is very difficult and there could be safety concerns, the Board would need to go through the process of determining the cost, if there would be a need for more buses, more stops, and what it will take to get it implemented. Because of the timeframe, Mr. Abrams said it will not be available by the start of school, nor mid-year, but we can begin working on Legislation and show good faith toward compliance. Mr. Rachal asked since it has passed through Legislation, where are we held in this process? Mr. Abrams responded that the statute is the statute and the wisdom of the Legislature is the wisdom of the Legislature, however, the problem is if we do not follow the statute as written and something happens, it is presumed negligence. He further explained that in looking at the statute and how it is written, it says to unload children on a shoulder and if the bus is on the shoulder (not on the roadway), he believes this is more dangerous.

Mr. Riall reported that the Transportation Committee discussed this issue at length, and everyone realized that no one read the Legislation before voting on it and the Governor did not read it before signing it into law. However, he is hearing that Districts should begin the process and they will correct it during the next Legislative Session.

Mr. Abrams read the proposed policy and stated he will forward a copy to the Board.

Ms. Trammel asked if she understands correctly that we will attempt to keep the cost at a minimum? Mr. Abrams stated that is a Board member function, but he assumes the Board would want to do so; however, the Board will be instructing the Superintendent and staff to move forward with the process. Ms. Trammel stated that Mr. Jones recommended some things to the committee relative to this policy and advised that members of the committee will be scheduling a ride on a bus to see how this will work.

Mr. Hooks shared his awareness of how dangerous it is for students to cross four-lanes and he believes many are not aware of this Legislation. Mr. Riall noted this situation in District 1, but he went to Mr. Jones and adjustments were made so the student(s) did not have to cross the road.

Revisions to CPSB Policies, re: Absences and Leaves. Mr. Hooks asked if the intent of these proposed revisions to absence and leave policies is an effort to cut down on absenteeism? Dr. Goree said that is correct and it actually began through the Transportation Committee as a result of concerns with high numbers of employee absences that also fell over into other areas of the District as well. He further stated that we want to make sure the days are utilized appropriately and to help support staff in managing this. Mr. Hooks asked what happens if an employee has a common cold and they do not normally go to the doctor for a cold. Dr. Goree stated this was incredibly well-received at the district-wide principals meeting on Monday, and it is because of the huge absenteeism issue across the board and misuse of sick days. He knows some innocent people will be subjected to the policy and employees will now need to go to the doctor on the third day, even with a common cold; and, while it is unfortunate that innocent people will be affected, it is important that something is done to better manage employees and the use of their sick time. Mr. Hooks asked what days are often missed? Dr. Goree responded Fridays, Mondays and the days before and after holidays. Mr. Hooks stated that as a former principal, he does not believe this will get it, and Dr. Goree said he believes it will help when a few people are docked. Mr. Hooks said people always find loopholes, because an employee can miss a Friday or Monday and still have 3 days off, and he believes this is only going to open up a can of worms. Dr. Goree stated his agreement that there will always be those who will try to find ways to get around it; however, he wants it to be clear that it is the expectation of all employees to show up for work, and if not, employees can expect staff to enforce the policy to the extent it is written. Mr. Hooks said he believes those in charge of the campuses (principals) should have the responsibility to make sure those under him/her understand the importance of being at work, especially before testing. Dr. Goree stated that every policy presented was taken from somewhere – other school districts, industries, surrounding districts; because he believes the District owes it to taxpayers since no other industry has the advantages we have as far as days off, i.e. Thanksgiving, Christmas, Spring Break, Summer; and he believes this policy is the first effort toward that end. He also stated the importance of this message being relayed to employees. Mr. Hooks said he will vote for it, and he hopes it works, but he doesn't believe it will work. In the chronically low performing schools, Dr. Goree stated the absentee rate is not acceptable and is something the District must aggressively address.

President Pierson encouraged Board members to stay on track because this is a time to ask questions and get clarification.

Mrs. Crawley asked where staff got the information to base the verbiage, because she is concerned about principals taking time off to go to Hawaii because their husband won a trip. She said also when teachers are off for Thanksgiving, Christmas, etc., they are not paid for those days; but there is a culture where people believe their sick days are their days to take and we need to impress upon them that sick days are there if you are sick and need them. Mrs. Crawley said she believes the morale begins at the top and she believes the Superintendent sets a great example. Dr. Goree agreed with Mrs. Crawley's comments and that we do want to encourage employees in the use of their sick days, but he also agrees it is the responsibility of the principal to create a climate and culture with their staffs so they know what is happening. In talking with a lot of the employees, they feel the productivity is greatly impacted by this; and while the proposed policy may not be perfect, he does believe it is a good step toward addressing the problem. Mrs. Crawley asked if, she called in with a migraine and could not come to work for three days, she must provide a doctor's excuse when returning to work on the 4th day; and Dr. Goree confirmed that is correct. Dr. Goree also stated that he knows approximately 98% of our teachers do show up for work rather than calling in ill when they are ill, and he doesn't want the

message to employees to be that administration believes everyone is doing this; however there are some situations which are absolutely preventing the District from being as productive as it could be. Dr. Goree also added that the District does not have a policy whereby leadership is supporting in making definite change and he believes this proposed policy does that.

Mrs. Bell shared with the Board her experience in teaching and knowing employees were misusing the policy, but nothing was done because there was no policy in place to support the principals taking action. President Pierson agreed there is a need for something that is more restrictive for those who abuse the system and are ultimately depriving students of the education they need. Ms. Trammel explained that the Transportation Committee originally looked at bus drivers' absences, but decided they could not propose a policy for a certain department of employees, thus the revisions for the District. She said the most important issue the Committee wanted to address was absenteeism, because if 50 bus drivers are out on Friday, it is a concern on getting students home. Mr. Riall asked the superintendent if he understands correctly that this policy is aimed at those who abuse the system; because when it is abused and numbers of drivers are out at one time, it is the students that suffer, and Dr. Goree agreed.

Mrs. Crawley asked Mr. Abrams if we are opening ourselves up for legal issues if we do this to bus drivers and then look at other employees? Mr. Abrams said it is not just for transportation, but for everyone. Mrs. Crawley asked about the State being in charge and giving us 10 days. Mr. Abrams explained that the State tells the District what it must do/give, and that we shall require after six days a doctor's certificate, but less than that is up to each individual District.

Mr. Hooks asked is it possible to remove this item and look further before voting. Dr. Goree explained that this recommendation came out of committee, and staff is at the point where something needs to be done to help control absences at the schools. Mrs. Armstrong asked if wording can be added to the proposed recommendation to add more "teeth" to it and Dr. Goree responded absolutely so all employees are aware and know how serious this is.

Mr. Abrams stated that in policy, the policy relies on the physician to make a decision of certifying an employee's absence and not for the administrator to make that determination. The policy is so written to where staff is not questioning whether or not an employee is really ill or what their illness might be, but a physician certifies that and we accept it. The policy only requires that absences of three days or more require a physician's statement upon return and repeated absences of less than three days which may appear to be an abuse of the system, the policy allows for administration to require a doctor's statement.

Mr. Hooks asked is that not doctor/patient confidentiality? Dr. Goree stated he agrees, but we must assume that 90% of the doctors are highly ethical and will not just write excuses when a person is not sick. He also stated his agreement with Mr. Abrams and it is not administration's job to question the authority of a medical doctor to provide a written excuse; and while we know it is not a fool-proof process and there will be those that try to determine how to get around it, the goal is to have more people available for students.

Mr. Rachal asked if we believe any doctor's excuses have been phony? Dr. Goree said that is not what is being said at all, but we have not required anything in the past – employees have been out 5 days and nothing is required upon return to work, and he believes the doctors will help us in providing this information.

Mrs. Armstrong asked how will this impact accumulated sick days if an employee is entering retirement, i.e. employees using their sick days since they will not be paid for them? Dr. Goree said he understands, but because we are in the business of children, sick days are for employees to use when they are ill and we cannot encourage employees to take sick days because it means students are not receiving quality instruction. Mrs. Armstrong asked what can be done to avoid

this practice because it does impact other co-workers? Dr. Goree said he believes the policy will help us in these situations.

Employee Pay Raise and Other Payroll Related Recommendations. Ms. Trammel shared her excitement in the opportunity to recommend from the committee to approve a 2% across the board increase for all Caddo employees. She asked staff to closely look at the amounts each employee will receive to make certain that it is as close to the \$790 required for teachers and the \$500 given to support personnel last year. Dr. Goree responded that staff will look closely at this, but staff did identify in the pay schedules that the one-time payment of \$500 is still in addition to the pay raise and employees will continue to receive this supplement.

Mrs. Crawley shared with everyone that she has attempted to determine why it is said that a percentage increase keeps everything more in line, and because if she looks at someone making \$115,000 getting a 2% increase and someone making \$45,000 getting a 2% increase, there is a big difference in their increase; and each year the gap in the increase gets larger, which she doesn't believe is stability. Dr. Goree stated while he understands what Mrs. Crawley is saying, what is happening is when you give the same increase for all employees, you maintain how much of the "pie" a position owns. The percentage raise protects the integrity of the whole pay structure, and it is just fact that some jobs make more than others. Mr. Lee stated that in looking at the non-administrative salary schedule it is noted that people are paid an hourly rate of pay and employees, depending on their position, work different numbers of hours. An amount across the Board allows for everyone to get what is fair depending on the number of hours they work. Also, when developing the salary schedule, an attempt was made to keep a certain percentage between steps. Mr. Lee also added that a flat dollar amount works great for a supplement, but when increasing salary schedules, and Louisiana is based on salary schedules, it is important to do a percentage across the board and raise the entire salary schedule by a certain percentage. Dr. Goree also added that it is understood that those who make higher incomes will also make more money in the pay increase which is protecting the integrity of the scale. Mrs. Crawley stated she still doesn't understand, and it does not seem fair to her. Dr. Goree reminded Mrs. Crawley that the positions referenced make double the amount anyway. Mrs. Bell stated that she supports the proposed pay increase and that all the committee voted to support the pay increase for every employee, as well as effective in January to go to semi-monthly payroll, and every employee will have either Direct Deposit or a pay card.

Ms. Trammel added that staff will continue to work with red-lined employees, but in order for the school system to stay afloat, the proposed changes are necessary. She said her thinking is that every employee will be excited to get the 2% increase.

Mr. Riall noted that he remembers in the military everyone was paid by their grade. He also reported that he did not vote against the pay raise, but he did vote no on the pay cards.

Mr. Rachal stated he remembers Rahmberg saying that percentage raises over a long period of time could cause issues similar to before the study of salary schedules was done and that every year over the next 10 years, the gaps will become substantial. Being for the pay increase for everyone, he does struggle with the gap becoming larger and larger, because he believes the result will be more red-lining if we continue doing the same thing over and over. He thanked staff for the information he requested; and while he believes staff provided very good justification for recommending a percentage increase, he still has problems with what could happen if it continues in the direction he sees. Dr. Goree shared that prior to his coming to Caddo from 1998 he received a percentage increase every year. He said there is a recommended amount of time for a school district to conduct a salary analysis, and when conducting these studies, they are basing it on market value of a job at a particular time. Occasionally, he believes a market analysis of the pay schedules needs to be conducted to ensure that the district's salaries are in line and do not fall behind. Mr. Lee responded that Rahmberg did put in their analysis that

“in order to maintain the integrity of the compensation program with percentage adjustments to pay ranges should be applied to all comparable positions”. Mr. Lee explained that in the past there are those who have been paid the same hourly rate of pay and when they receive lump sum raises, it throws the salary schedule out of balance, which is what Rahmberg attempted to correct and to keep it corrected by using a percentage in moving forward. Mr. Rachal said he only wanted to make sure that when the committee made the recommendation that everything was considered and everyone was in agreement. He also asked if the Board was receptive to including what the superintendent so noted and that is the need to obligate the Board in five years to revisit this matter. Mr. Pierson said he isn't sure that this Board can obligate another Board to do something. Mr. Rachal suggested possibly attaching it to the budget. Mr. Rachal also shared that he is accustomed to receiving a printed check and he doesn't understand pay cards. Dr. Goree stated that in looking at new hires, using the pay card is an issue that will probably work its way out. Mr. Lee said it is a debit card that is not tied to an account at an employee's bank, but when the file is sent to the bank to Direct Deposit employees' money in the bank, staff will send a similar file to the company we use and they will issue the debit card to those who choose this method of payment. Each time we process a payroll, the file will be sent to them and they will automatically upload each employee's pay to their assigned card. At that time, employees can withdraw all the paycheck, or they can use it the same way they do if they have a debit card. Mr. Rachal asked if we will choose the particular bank? Mr. Lee stated he has obtained a list of approximately 12 companies that provide this particular service and staff will look closely at these between now and January to select the company that best suits the District's needs. Mr. Rachal asked about any applicable fees to the District or to the employees that choose to use this method of payment. Mr. Lee explained there will probably be a fee, but there is also a small fee for Direct Deposit. Mr. Rachal asked if the District is absorbing those fees and Mr. Lee responded that is correct with the exception of an employee losing their card and that expenditure will be the employee's responsibility. Mr. Rachal asked if staff will bring a recommendation to the Board relative to the company that will be used, and Mr. Lee responded staff will bring such a recommendation for Board approval.

Jasmine Green stated that, in addressing Mrs. Crawley's statements regarding the gap between salaries, she would like to offer a solution that employees at the top of the salary schedule be dropped to ½ or 1% increase in pay. Dr. Goree said he believes this would send a clear message that the people at the bottom are valued more than the people at the top; and across the board shows that everyone is valued. Miss Green said she understands that and she supports everyone getting an increase, but she always looks at how those at the bottom will be impacted; and recommending a 2% across the board increase does not look like we researched it thoroughly.

Ms. Trammel asked the superintendent about paraprofessionals receiving \$1,000 last year. Mr. Lee explained that in combination with the holiday supplement, they received \$1,000 last year, \$500 for the one-time supplement and the \$500 holiday supplement.

Mrs. Bell clarified that everyone is valued; however, people apply for jobs they qualify for and noted that retirees received an increase, but everyone received a different amount based on their salary. She also said she does not support discriminating against any group of employees and saying they should not get the same percentage as everyone else.

The board agreed, because staff is bringing additional information on the pay cards, to separate this item so that the employee pay raise is on consent and the other related items (method of pay and pay frequency) are voted on separately.

Adopt Resolution with Respect to the Municipalities Continuing Disclosure Cooperative Initiative of the Securities & Exchange Commission. Mr. Rachal thanked staff for responding to his questions and asked staff to explain what this group is. Mr. Lee explained that is is the Securities & Exchange Commission. Mr. Rachal asked if they came up with the presented

questionnaire? Mr. Lee explained that because we issue General Obligation Bonds, we must do annual disclosures; and we have a duty to make certain that disclosure is correct to the best of our ability. He further explained if they determine discrepancies in the disclosure, the SEC can fine us; but if this should happen and we have this resolution, the SEC will look on us more favorably, and it does not cost the District anything. Mr. Rachal said he believes the public needs to know.

Resolution Exempting Sales and Use Tax for Capital Equipment for the Biomedical Research Foundation of Shreveport.

Mrs. Armstrong reported that the committee is recommending to the Board that this be an annual request for exemption and not approval of a long-term exemption. Mr. Rachal asked if we are actually changing what was requested, and Mr. Pierson clarified that the request was forever. Mr. Rachal stated his agreement with the committee's recommendation and asked what the Biomed does for Caddo students, do they have programs in place that benefit our students? Staff responded that Biomed is a big supporter and provider in the Biomed program at Southwood and Ridgewood schools and does provide a great value to the School District. Mr. Rachal stated that he understands the economic value of tax exemption, but recognized that Biomed does truly invest in the education of Caddo's students. Mr. Riall clarified that the committee recommendation is not to renew the exemption annually, but that Biomed would bring these requests to the Board as they make large capital equipment expenditures for approval and not a blanket approval.

2014-15 Pupil Progression Plan. Mrs. Crawley asked why Board members are getting emails about Advanced, Honor, etc. classes, because they are not included in the 10-point scale; and staff clarified that only the Advanced, Honors and AP classes are on the 10-point scale.

Policy Approval of Section 504 Safeguard Procedures. Mr. Abrams explained that this will update our procedures for the student manual, because it was pointed out that we did not have a hearing officer process required by OCR. As a result of Legislative Action relative to tenured teachers, there will be 10 hearing officers that will be used for tenured teachers and any administrators. He also said since he has been general counsel, there has not been a 504 hearing; and he doesn't anticipate a high output, but the District does need to comply with the law.

ADDITIONS

Miss Green asked that "Proposal for Miles for Smiles" be added to the agenda and backup information is provided at Board members' stations. Mr. Rachal asked about the procedure for someone to provide this service, and Dr. Goree said there is and staff has visited with Dr. Alexander and at this time, it was staff's recommendation that we have a provider that is currently providing this service to the district so staff declined the request to add another provider. Mr. Rachal asked why we would not want more than one provider. Staff's recommendation was based on we would only need to add another provider if we were in a situation where we were not receiving the services across the district that were needed. He added the current provider has the capability to provide needed services to every school in the District. However, it is currently not being provided at every school because some schools are not requesting the service. He also stated that very positive feedback has come back to administration, and at this time staff does not feel the need to provide another provider. Mr. Rachal asked about the difference in cost, and Dr. Goree explained there was a cost neutral relationship with both providers, but it was not a factor. Mr. Rachal asked if it would be proactive on our part to have another provider approved even if they are not used. Dr. Goree said that would be a decision of the Board. Dr. Goree explained that staff looked at the confusion of having more than one vendor; and if staff was not pleased with the service of the current provider, and in considering coordination of services, these were stressors staff did not feel the need to undertake. Mr. Rachal asked that staff's justification for its recommendation be sent to Board members.

Miss Green also asked that staff provide the following information in the backup for personnel recommendations. Mr. Abrams explained that the item would need to be a policy revision and the policy, if there is a current one, is not available for today. Miss Green asked that it be placed on next month's agenda.

Mr. Hooks said there is a vast difference between Miles for Smiles and the current provider, because the current provider is not covering all the schools year-round and this proposal is a mobile unit that will see students year-round, and he believes this is an advantage that will not cost the Board anything. Dr. Goree stated that he agrees Dr. Alexander is a very fine young man trying to build a business; but he was not prepared to address this issue tonight, and will provide additional information to the Board that staff used to make its decision.

President Pierson announced that 8.05 Recommendation to Secure Services of Safety Expert is pulled and he proposed Items 6.01, 8.01-8.04, 8.06, 8.08-8.09(a), 8.10-8.11 and 8.13-8.15 as the consent agenda. *Mrs. Crawford moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda for the August 19, 2014 CPSB meeting as presented. Vote on the motion carried.*

VISITORS

Elizabeth Sullivan, president of Caddo Association of Educators, stated that the CAE realizes the need for continuing education and is why they will host yearly workshops and conferences to promote quality public school education, to strengthen the education of Caddo's professional employees, and improve the well-being of members and non-members so that all feel good about working in Caddo Parish. She invited Board members to attend a CAE workshop on Saturday, August 23rd, at the Shreve Memorial Library Hamilton Branch.

Jackie Lansdale, president of Red River United, addressed the Board on the pay increase and the sick leave. Relative to the pay increase, she asked Board members to look at the genesis of the pay, it came from the MFP as a one-time supplement with teachers getting approximately \$800 and the Board generously allocated a one-time supplement of \$500 for all other employees. By the statute, the Board had to allocate the \$800 for teachers and this year the Legislature has said that the money allocated last year must be made permanent, so every teacher is looking to receive at least an \$800 increase, and this has been accomplished. Additionally, with the proposed 2% increase, some classified employees will receive a decrease from what they received last year and those that were red-lined did receive the \$500 last year, but will not this year, thus a salary decrease for them also. She stated she understands the reasoning behind the 2% across the board; however, the employees who will not even receive the \$500 they received last year will get an increase in insurance. She asked the Board to remember this as it plans to move forward with a bond issue in the future. Mrs. Lansdale also asked the superintendent to verify that even though the \$500 holiday supplement is permanent, it is not in the salary schedule, and because it is not listed on the bottom of the salary schedule as it once was, she encouraged staff to look and verify that it is included in figuring the 2% increase.

Also, Mrs. Lansdale stated that with the absences, statutorily we have to give six days and she doesn't believe the District can do less than that. While she believes everyone should be willing to come to teach 182 days, rules are rules and if the Board wants to breach that, they will be put in a place to challenge it.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 7:18 p.m.*

August 5, 2014

The Caddo Parish School Board (**CPSB Insurance and Finance Committee**) met on Tuesday, August 5, 2014 at 2:30 p.m. in the meeting room of the Wanda L. Gunn Professional Development Center, Shreveport, Louisiana with Interim Chair Dottie Bell presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Mary Trammel, and Ginger Armstrong. Also present were Dr. Lamar Goree, superintendent, Reggie Abrams, legal counsel, Carl Pierson, Bonita Crawford, Charlotte Crawley, and Dr. Mary Nash-Robinson. Guests in attendance were Jon Glover and Jackie Lansdale. Mr. Riall led the prayer.

Mr. Pierson announced he asked Mrs. Bell to serve as the Interim Chair of the Insurance and Finance Committee in Ms. Priest's absence and Mrs. Armstrong to serve in the temporary vacancy of a fifth person on the committee.

Timeline for 2015 Insurance Renewals. Randy Watson, director of insurance, highlighted the timeline for presenting the 2015 insurance renewals to the board for consideration. He presented information relative to the various insurance policies Caddo offers (health, dental, life, disability, cancer), factors used to establish premiums, the estimated impact on CPSB as a result of stringent reporting requirements, re-insurance, members out of pocket expense, optional/required changes that will still allow Caddo to maintain its "grandfather status", trends relative to claims, premiums and reserves, drug claims, 5.9% premium increase, and the Affordable Care Act mandates.

Since there is nothing for the Advisory Committee to vote on, it was suggested that there is no need for the committee to meet and staff was encouraged to make certain every Caddo employee is aware of the changes. Mrs. Lansdale said she believes staff has come up with the best package for employees.

Following discussion and questions from the committee members, *Mrs. Armstrong moved, seconded by Mr. Riall, to adopt the recommendation of staff and recommend to the board approval of staff's recommendations including:*

- *Health (maintain re-insurance with \$500,000 stop/loss with lowest bid, renew ASO agreement with BCBS with 2% increase in administrative fees, bariatric surgery waiting period, QBPC reduction in office co-pay \$15, Diabetes Prevention Program (DPP), addition of non-emergency ambulance services, increase premiums by 5.9%, maintain the same employer and employee share ratio, and add an ACA Affordable Compliant Plan (Preferred Care PPO Plan 271),*
- *Dental (use monies from PSF to eliminate 6.2% premium increase, renew with BCBS with no change in benefits),*
- *Life (renew with Standard with no change in premiums or benefits),*
- *Disability (renew with Standard with no change in premiums or benefits),*
- *Cancer (renew with American Public with no change to premiums or benefits),*
- *Other (use the 98% Rule Methodology for ACA Reporting, move to annual open enrollment on all insurance plans and move all plans to same cycle).*

Vote on the motion carried unanimously.

Pay Raise. Jim Lee, Chief Financial Officer, reported staff is proposing a 2% across the board pay increase for all employees. He explained to the committee that this recommendation comes to the Board because the State Department is mandating that last year's \$800 supplement (from MFP) become a permanent increase for teachers. He further explained that when the Board approved this for teachers last year, the Board also provided funding to give all other employees a \$500 supplement. Since it is now to become a permanent increase in the salary schedule, the

recommendation also includes provision for all employees to get an increase, thus the recommendation of a 2% across-the-board increase for all employees. Mr. Lee explained that this proposed increase will cost the General Fund approximately \$4.9 million and Title I, SPED, and other funded positions will pay the increase for employees paid from those funds. The only question is employees whose salary was frozen (red-line) as a result of the Rahmberg Study, and staff will work with these on a case by case basis (at this time it is believed approximately 17 employees are affected).

Along with the 2% pay increase, Mr. Lee stated that staff is also asking the committee to consider staff's recommendation to change the pay frequency to a single pay frequency (semi-monthly) with employees receiving ½ on the 15th and the second half of their salary on the last day of the month. He also added that included in the recommendations is a proposal to get away from paper checks and offer Direct Deposit or pay card (whichever the employee prefers).

Miss Green shared her concern about a 2% across the board pay increase because she believes those who make the higher salaries will receive a larger increase and she believes the teachers should receive more. Also, she stated this will mean that each step increment on the salary scale means that the increase gap gets larger for those making the higher salaries.

Mr. Riall shared his concern re: pay cards and that he would like a guarantee that no one can touch an employee's pay card and withhold a portion of it for any reason. Mr. Abrams stated he does not believe this (someone withholding dollars from ones pay card) can happen.

Bonita Crawford noted that Willis Knighton pays either by Direct Deposit or pay cards and cards are independent of the bank account.

Mrs. Crawley asked if there are fees attached to the card each time the employee uses it, and staff stated the card is similar to a debit card and each transaction is deducted. Fees for pay cards are absorbed by the District. Mrs. Crawley also stated she believes that 50% of the MFP funds were to go to the teachers and she believes this is not giving the teachers that 50% and a 2% increase above that, thus we are not doing the intent of the law. Mr. Pierson clarified that the 2% is being added to the salary schedule and not added to a "person", and when it is added in the salary schedule, that is how much money each gets. He also added if we do not support this so teachers and all employees will get the increase in September, then by the time everything is refigured and reorganized, it could be January or later before employees get what we promised them for September. Mr. Pierson stated he supports all employees receiving some type of compensation and it is good that it is tied to the salary schedule.

Regarding Ms. Trammel's questions on the red-line employees, Superintendent Goree explained that if the 2% increase takes these employees (approximately 17) to a place on the salary schedule where their salary is no longer frozen, it could be possible they will receive some additional pay. Ms. Trammel also asked how many employees do we believe will take advantage of a pay card and Mr. Lee responded approximately 1000. Mrs. Armstrong also noted that the permanent pay increase will also benefit employees' retirement; and while she understands Mrs. Crawley's concern that the stipend is now becoming a permanent part of the salary, she believes it would be good if we could benefit the teachers (academics). Dr. Goree explained that at this time we are out of money, so it would be a one-time supplement for teachers if we did more, and Mrs. Armstrong stated her appreciation for what is being proposed for all employees.

Mr. Abrams asked if the State Department has declared that this MFP increase is what it will also be next year, because once it is placed in the salary schedule, it is a recurring cost to the District.

Concern was also expressed about new hires being recipients of the 2% increase, and if stipulations could be applied. Staff again reiterated that this proposed increase will affect the salary schedule and all employees will be paid according to where they fall on the salary schedule. Staff is recommending an increase across the board because we want to maintain the integrity of the salary schedule. Mrs. Lansdale expressed concern that the 2% across the board will mean that those employees that received the one-time \$500 supplement last year will not receive that amount now.

Mrs. Crawley asked to receive the top amount that someone will get and the lowest amount someone will receive.

Staff agreed to follow up on questions raised to confirm accuracy and requests for information.

Ms. Trammel moved, seconded by Miss Green, that the committee recommend to the full Board approval of the proposed pay increase for all employees as well as the recommendations to change to semi-monthly payroll for all employees, all employees pay is via direct deposit or pay card, and no existing employees will be "grandfathered" as recommended by staff. Vote on the motion carried with Mr. Riall opposed. Mr. Riall clarified he is not opposed to the pay increase, he supports it, but he is opposed to the pay cards.

Request from Biomed for Sales Tax Exemption on Equipment. Mr. Lee explained that originally Biomed only asked for sales tax exemption through 2013, but now is requesting an exemption from sales tax on all large equipment in-perpetuity and retro. Following discussion, *Mr. Riall moved, seconded by Mrs. Armstrong, to recommend to the Board that Biomed bring to the Board annually any request for sales tax exemption on their purchase of large equipment. Vote on the motion carried unanimously.*

There being no additional business, the meeting adjourned at approximately 4:17 p.m.

August 19, 2014

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, August 19, 2014 at approximately 4:37 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent; and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance. President Pierson announced that Board member Crawford is out of town and Board members Priest and Ramsey are absent due to illness.

CONSIDERATION OF MINUTES OF JULY 15, 2014, JULY 23, 2014 AND AUGUST 5, 2014 CPSB MEETINGS

Mr. Rachal moved, seconded by Mrs. Bell, to approve the minutes of the July 15, 2014, July 23, 2014 and August 5, 2014 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mr. Strother, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Nia Savoy, Student at Caddo Magnet High School. Nia Savoy, senior at Caddo Magnet High School, thanked the Board for supporting the arts in school and shared a vocal presentation. Mr. Strother announced that she recently won the Great American Songbook Inspiration award at the Michael Feinstein Great American Songbook Initiative Vocal Competition in Carmel, Indiana on July 25th. He stated that Ms. Savoy was one of 11 finalists who spent the week participating in a rigorous schedule of various workshops and master classes. The award carries a cash prize of \$1000 as well as many opportunities to perform at prestigious venues.

One Class at a Time Winner. Terry Sermons, Byrd High School teacher, was recognized as a recent "One Class at a Time" winner. Mr. Strother reported that Ms. Sermon's project was called Making the Grade "Wirelessly", and he shared that she believes this project will be good to engage the students, mind, soul, everything.

National Board Certified Counselors. Audrey Allen and LaJuana Hamilton, Green Oaks High School, were recognized for attaining the National Certified School Counselor status.

Caddo Parish 2014 A+PEL Volunteer of the Year Award. Nominated by the Westwood Cowboys Administrative staff, Dock Voorhies was recognized as the 2014 Caddo Parish Volunteer of the Year.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: Priscilla Pullen, principal, Atkins; Beverly Cole, principal, Barret; Carter Bedford, interim principal, Booker T. Washington High School; Deborah Alexander, principal, Eighty-First ECE; Bruce Daigle, principal, Fair Park; Gregory O'Quinn, principal, Lakeshore; Marvin Rainey principal; Midway; Julia Smith O'Neal, principal, Oak Park; Cheryl Jones-Hart, principal, Queensborough; Shunda Huff, principal, Werner Park; Betty Jordan, principal, Woodlawn Leadership Academy; Kasie Mainiero, principal, University; Anthony Tisdale, supervisor, Health, Physical Education, Athletics and Driver's Education; and Dr. Karen Eason Peace, director of elementary schools.

Miles for Smiles. Clarence Moore, chief operations officer for Miles for Smiles mobile dental services, asked the Board to support and enter into an agreement in the form of a Memorandum of Understanding between the Caddo Parish School District and Miles for Smiles mobile dental services. Mr. Moore stated that it is their desire to reach a significant number of students who are not presently receiving dental care services; and noted information previously provided to the Board that in 2012-13 school year, data indicated that only 2,410 of the 41,763 students enrolled in the district were serviced with various treatments by the current dental provider, which is only 6% of the students in the district. He also said that in the 2012-13 school year only 35 of the 70 schools were visited by the current provider. Mr. Moore added that Miles for Smiles believes in, and is committed to improving the access, deliver comprehensive care and provide a sustainable education to all children in the district. He shared the importance of educators, business professionals and civic leaders in the future of our children and we must encourage them to prepare for their futures by developing a proper sense of their worth to Louisiana. Mr. Moore stated that Miles for Smiles will comply with all laws and regulations applicable to the practice of dentistry according to the State of Louisiana and the State Board of Dentistry. Prior approval will be obtained from parents or guardians for each student prior to providing any dental services, will treat all students equally, and will not discriminate in treatment of students based on race, religion, color, gender, gender identity, sexual orientation, age, national origin or any other status or position protected by law. Mr. Moore explained there will be no cost to the district due to the administration of this program and agreement, and the district will be held harmless from any liability for Miles for Smiles activities. Also, Miles for Smiles will maintain insurance coverage in the types and amounts acceptable to the district and the State of Louisiana. Mr. Moore stated that it is not their intention to replace the current provider but only to provide greater access to the many students in the district that deserve access to preventative care in oral hygiene.

Dr. Cynthia Moore Alexander, administrator with the Atlanta Public School System and educational consultant for Miles for Smiles, shared a booklet demonstrating Miles for Smiles ability to collaborate with Caddo and citizens in Louisiana and the United States. She stated that having obtained 1,679 signatures and letters of support which she believes is a strong indication of developing a successful partnership between Miles for Smiles and Caddo Parish. Dr. Alexander also reported that through the use of social media, they have received comments from across the United States citing the importance of dental health and its relationship to student learning and school attendance. As an administrator, Dr. Alexander stated her appreciation for the autonomy she has as a principal to solicit and rely on strong, collaborative relationships with community partnerships such as Emory University, student tutors, Marriott Hotel and use of a comprehensive dental and health facility in her Title I school offering wrap-around services. She said it's these type partnerships that she would like to facilitate between Miles for Smiles and identified schools in Caddo Parish School District. She stated it is their hope to get the Board's support of this program tonight so that the next phase of this collaborative effort can move forward in providing services that will benefit the students in Caddo Parish at no cost to the district.

Dr. Jeremy Alexander, president and chief dentist of Miles for Smiles Mobile Dental Company, shared that he is a product of Caddo and received his Bachelor of Science from Southern University in Baton Rouge and his Doctor of Dental Surgery from Howard University. Having opened his first practice in 2007, he noted the valuable experience gained through adversity, with perseverance being his best teacher, and the many opportunities afforded him by living in Atlanta and being exposed to more innovative aspects of Dentistry and learning from other successful business owners. Dr. Alexander asked for the Board's support in bringing Miles for Smiles to the students of Caddo Parish. While he knows he cannot do this alone, he believes he has a strong support system in place that will help him bring Miles for Smiles from a vision to a reality. Coming from a family of educators, he respects the challenges in education; and he loves this program and the opportunity to work with educators and satisfy his calling to work with the

youth through Dentistry. Dr. Alexander also addressed the importance of oral health to one's overall health; and it is not his intent to replace the current provider, but add a quality service that is different in approach via mobile units year-round. He reiterated previous statements that they are required to carry malpractice liability insurance on each mobile unit, and each doctor will have his/her own liability insurance. Being willing to invest time, money and resources in the students of Caddo, he asked for the Caddo Parish School Board's commitment to the program through a MOU, with five years to establish patients and community relationships.

Mrs. Bell stated that she likes the idea but asked will the mobile unit look like what is depicted on the web site and if Dr. Alexander already has a mobile unit? Dr. Alexander responded that what Mrs. Bell sees is his standard and no he does not have the mobile unit at this time. Mrs. Bell also asked if Dr. Alexander is licensed in Louisiana, and said he is not, but he has applied for his license which takes approximately four months. Mrs. Bell asked if Dr. Alexander will be moving back to Louisiana and he said he is. Mrs. Bell asked how will services be provided to students without their instructional day/time being interrupted, when will the students be seen? Dr. Alexander explained that before entering the schools and seeing any students, forms are sent home to parents and when they are returned, they contact the parents and then contact the principal assigned to work with them regarding how many students returned the forms and how many students they anticipate seeing by grade level and around their lunch time. He further explained they see four to five students at a time, with each child receiving preventative dentistry; and if any aggressive dentistry needs to be performed (and it can be handled on the mobile unit), permission must be obtained from the parent before these type services are provided. He said they want to feel like they are helping and not being intrusive on the children's education, so they will work with the school in scheduling. Mrs. Bell asked if teeth will be extracted in the mobile unit with parents present? Dr. Alexander said the parents may not be present, but they must obtain permission from the parents. Mrs. Bell noted that the District cannot administer medicines to students unless there is a form on record and staff calls when they are giving a student meds. Superintendent Goree stated that a part of the process is done through permission slips, where the parents not only give permission but they also indicate if they wish to be present or not when services are provided. Mrs. Bell asked about the pay methods because she was under the impression that the services were all Medicaid. Dr. Alexander responded that is the wrong perception because the program is designed for access, for students receiving equal care among their peers, and combatting the fear factor some students have about going to the dentist; so anyone with insurance they will contract with that insurance company to provide the service.

Mr. Rachal asked Dr. Alexander how many students he expects to provide services to, and Dr. Alexander responded that it is hard to provide that number, but they want to begin by providing the service to those schools not providing the service. Basically because of statistics, he said he has a general idea of the number of students in Caddo Parish, and they have broken it down to the number of students in each school; and once they have an MOU, they will be able to do additional research and determine what schools should be targeted as well as how many students are at those schools. However, if the parent wants their student to participate in the program, it will not matter what school they attend, because they want them to participate in the program. Dr. Alexander also added that he understands not everyone will sign up for the program until the program builds its name and integrity. Mr. Rachal asked how many students are needed to break even, and Dr. Alexander estimated approximately 1,500 per year; however, the numbers may go up and down, and it is possible they may start with two mobile units rather than one dependent on the need in Caddo. Mr. Rachal asked Dr. Alexander if he feels relatively comfortable that he will provide services to an additional 1,500 students on an annual basis, and Dr. Alexander affirmed that is correct. Mr. Rachal asked how many students can a mobile unit handle, and Dr. Alexander explained that typically one unit can go to 3 to 4 schools a week, and their target is to see 40 students per school one day a week. Mr. Rachal asked if Dr. Alexander is asking for anything different than what is currently in the MOU. Dr. Alexander responded they are not.

Mr. Rachal also asked for clarification on payments and the initial need to look at the underserved children in the District, but noted the reference to most insurances and cash, which is not what he is looking for. Dr. Alexander explained that in his experience, at least 60% of the students serviced are on some type of State service. Mr. Rachal asked about the identification of 35 schools that have not received any dental services, and Dr. Alexander confirmed that is correct and he is hopeful that here in his home he can be helpful and make an impact for the community. Mr. Rachal asked if he was approved before to do this in Caddo, and Dr. Alexander said he was not.

Mr. Abrams asked Dr. Alexander about the stipulation in his proposal to provide services to schools currently not receiving services, because he understands many of these schools are not receiving services because principals have not requested those services or they do not want to use the services since it takes away the time on task for educating the students. Mr. Abrams asked Dr. Alexander how he will push out his program if the principals are not interested in participating, are you willing to provide the services after hours rather than during the school time? Dr. Alexander responded that his initial thought when hearing this was because they are local, he believes it will make a difference in accessing the program, because the current provider is not local and only provides the service during the school calendar year and they are not utilizing a mobile facility. He said he believes having a mobile facility around town provides more exposure and will go a long way in accessing and providing more care to those who are in need of the services. Dr. Alexander said he is also counting on everyone present today to help gain access into the schools. He added he doesn't see the need for after-hours' service and being mobile and visible in the community will go a long way with principals and in turn they will want to work with them. Mr. Abrams asked if there is a partnership, how can a MOU be written to work with the current provider and not destroy that program while at the same time come up with something that will help Dr. Alexander be sufficient. He referenced Mr. Rachal's question based on a break-even point, and if we can't get anyone to go to the mobile unit, because principals do not want their students' instructional day broken up, how can it be possible to have a mobile unit? At this time, Mr. Abrams envisions the motion being to offer services at schools currently not being served with the approval of the principal at a particular school, because principals will be making that decision.

Mr. Hooks asked Dr. Alexander if he has met with any of the principals, and Dr. Alexander responded they have talked to a few. One of the concerns shared with them was principals do not like having to find space within their schools to provide these services. He further stated that portable Dentistry is designed for emergencies and not for quality standard care; and mobiles are the standard he was trained on. Mr. Hooks asked if the majority of the students not participating are not doing so because they did not have the space in the schools. Dr. Alexander stated that while he cannot confirm that about every principal, he knows from providing the service it can be an issue. Mr. Hooks asked Dr. Alexander if he understands that his desire is to provide service for those students not currently being served, and Dr. Alexander said that is correct. Mr. Hooks asked if it is possible to go through the students P.E. classes as opposed to interrupting their core subjects, and Dr. Alexander said that is correct, and they will schedule however the principal of that school wishes. He said they want the principals to see the value in their program and how it will help the students stay in school.

Ms. Trammel asked Dr. Alexander about the students' names he provided and the health care centers set up locally; however, she knows that everyone should have some type of insurance, but that is not necessarily the case. She asked if a homeless student without insurance comes to the mobile unit, Ms. Trammel asked if they will be denied treatment? Dr. Alexander said he cannot give a dollar amount or value; however, he gives dental services throughout the year as a part of the profession.

Mrs. Armstrong asked about payment for services and if Dr. Alexander will consider and take insurance? She said when it comes to cash, she asked if this applies to deductibles on the insurance and if he has worked with this method of payment in the past where patients need to be prepared to pay this deductible amount. Dr. Alexander responded that he has and when a parent completes the form for their child, the parent will inform them they have insurance and prior to the student receiving dental services, they will call the parent and advise them of the deductible that can be sent with the child to school on the day of service.

Miss Green stated she will leave her comments for when the Board votes on this item.

VISITORS

Jeff Hart, parent of daughter at Caddo Middle Magnet, shared his excitement about his daughter attending Caddo Middle Magnet and riding the bus to school, but asked staff to look at moving the bus stop at the very busy corner of North Lakeshore and Lorraine to the corner of Tacoma and North Lakeshore. President Pierson responded that someone with staff will contact Mr. Hart to address this concern.

Taylor McDonald shared with the Board her appreciation for Dr. Goree's efforts and the Caddo Business Roundtable and encouraged the Board to support him in moving the district forward. She also stated she recently reviewed the Human Resources Department Audit and she doesn't believe staff's answers of "HR agrees" are sufficient and specific steps should be listed relative to what staff is doing to address the recommendations for improvement. She addressed the recommendation that the certified staffing formula in three of eight schools selected were outside the staffing parameters; and the response from staff to the recommendation is "we comply with the formula"; and she doesn't understand how this can be an acceptable answer when they are not in compliance with the staffing formula. Ms. McDonald also addressed the 20 clerical employees in the HR Department and the importance of noting the response to this being that "we have cut this budget before", which doesn't mean that it should not be looked at in moving forward, and to her this is an unacceptable response. Relative to drug testing, she said the third-party invoices are not being reconciled with the actual bills and she questions how these bills are actually being paid without reconciliation. Regarding drug testing, 41% of the employees selected by the Transportation Director for a random drug testing were never tested, and she believes this is an area that is in need of revamping. On new hires, she asked how is it possible to hold employees accountable if they have not clearly been assigned to know what to do. She also noted that only six of the 20 LPNs had proof of their license, L4 and W4 are not the same and both should be filled out. She believes these issues are easy to address and clear up; however, she does not believe the minutes give her what she needs that staff is working on these areas. Ms. McDonald referenced salaries and that 64% of the employees tested were incorrect, which is a potential overpayment of \$12,000, that the District spent \$23,000 on a module that is not compatible with what the District is currently using, and that an additional \$20,000 in interest was paid in retirement because payments were not made on time. Noting that she is concerned, she said she wants to help and appreciates the superintendent wanting to hold teachers accountable; but she believes it is the Board that should be held accountable.

Myra Robinson, representative of Supportive Integrated Services, Reach for the Stars Mentoring Program, both community based programs for mentoring children, reminded everyone that seven years ago their organization was entrusted with the opportunity to establish a school-based mentoring program for West Shreveport Elementary School. With the approval of the Caddo Parish School Board, the signature of the past superintendent, the confidence of the principal and Federal Funding from the U. S. Department of Education, the Reach for the Stars program was implemented initially for 4th and 5th graders and later expanded to include 2nd through 6th graders. Ms. Robinson stated the program brought together children and caring individuals to offer guidance, support and encouragement for developing their confidence and character by matching

them with a mentor and friend. She also reported that over the years there has been approximately 100 mentees in the program that were matched with mentors who provided a positive influence. An independent audit after three years of the program being in operation proved program effectiveness and two additional years of funding was received through the Office of Juvenile Justice. Students were exposed to the arts through this program, to healthy educational activities at school and in the community, and exposure to history through field trips which have afforded the students many opportunities to help mold their character, good behavior and good citizenship. She also stated that through the support of school staff, community partnerships, mentors, the children and their parents, Ms. Robinson was the recipient of the 2012 City of Shreveport Martin Luther King Jr. Award in the category of youth, and she thanked members of the Caddo Parish School Board, West Shreveport Elementary and J. S. Clark to allow this program to be housed at the schools and for providing support to the program. She said the school based program has operated the last two years without Federal funding; and because of the lack of funding for support staff, the school-based program will not function this year. She expressed appreciation to the Board for the seven years of support in the program and presented the Board President and Superintendent with a plaque from the Supportive Integrated Services.

Charlotte Myers, grandparent, shared with the Board her three-year request for a change in a bus stop. She shared her concerns that they are one mile from the bus stop, their cost to get the children to the stop, and her request for the bus to come down their road to pick up the children now that she has made accommodation for the bus to turn around in their yard. She said the Transportation Department has been to look at the situation, but they tell her it is too dangerous for the bus to travel this road even though she has cleared trees, put in culverts and a space to turn around. Mr. Pierson asked Mr. Jones to stay on top of addressing this issue.

Tahira Abduhl-Rahman, Booker T. Washington Alumni, stated that the alumni association supports quality education for all students and wants what is best for BTW High School, its students, faculty and staff. She said they take seriously the responsibility to preserve, promote and continue the BTW High School legacy; and are confident when passing the baton to the younger generation of BTW that they will insure BTW continues to thrive and survive. Ms. Abduhl-Rahman said they desire to see the integrity of BTW High School maintained; and even though they do understand this difficult time in BTW HS, this will not deter their love and commitment for their Alma Mater. The Booker T. Washington Alumni members present were recognized. She thanked Dr. Goree, School Board Representative Carl Pierson, interim principal Carter Bedford, as well as the members of the School Board for their leadership, as well as the leadership shown during the difficult time and for providing the emergency funds needed after the fire, for the renovations, and for Steve White's persistence in making sure contractors understood the urgency of getting this school ready for opening day. Ms. Abduhl-Rahman invited Board members to attend the all-class reunion at the Shreveport Convention Center, and again thanked them for their support of Booker T. Washington High School. President Pierson recognized his wife Shirley Pierson and Debra Seamster, former Board member for District 3.

Jackie Lansdale, president of Red River United, brought to the Board's attention LRS 17:81(b) Powers and Duties of the Superintendent which provides for the general powers of the local school boards and that the law states each school district shall adopt a policy requiring each school under its jurisdiction to provide the following an appropriate private room (other than a restroom) for expressing breast milk. She said Caddo passed this policy before it was ever passed into legislation and they believed the Board recognized the number of women employees when passing this policy. She further stated that the policy before the Board tonight is equally important in how it will impact the staff and their ability to care for their children in the classroom and at home. Also, because the profession is made up primarily of women and mothers, she believes the policy on the agenda is short-sighted and draconian since it unnecessarily harms a wide swath of the district's employees, especially when there are policies

that the Board could address that would allow the focus to be on the offenders. Mrs. Lansdale added that Forethought has given school districts the ability and authority to address abusive behaviors through policy and cited examples. She requested the Board to rethink the policy as it is currently written and to remember that they stand with the Board in addressing the absentee issue and those that are disrespectful to the process, to the benefits they have worked to preserve and the boys and girls that deserve to be served by those that take the responsibilities seriously. She also noted that during the organizational meeting with the superintendent is the perfect place to vet policies before bringing them to the Board. Mrs. Lansdale also stated that if the policy goes forward as written, it will leave the Red River United in the position to protect the rights of employees as defined in state law which will result in immediate legal challenge. She also reminded the Board that last year the entire year was spent on the planning issue and they were in hopes that this year would begin on a more positive note, i.e. the permanent pay increase on tonight's agenda. Caddo is an outstanding urban district which has the unique ability to keep the vast majority of its students attending the public schools and receive a robust educational experience.

Jon Glover, employee, referenced the need for a concerted interest in the performance of all students in Caddo Parish. She provided information depicting the performance of each school in each district representing school year 2012-13 SPS and test scores. As of this date, she added the data for 2013-14 is not available. Ms. Glover asked the Board if any of the data provided surprises them, because it shouldn't, since no true attention has been given to the plight. More than six years ago, she reminded the Board that State Superintendent Paul Pastorek alerted the Board of the potential and ultimate failure of students at Bethune, but though the alarm sounded, there was little or no effect; and in the 2012-13 school year, the evidence still resembled that of old because we did not take the warning seriously. She questions why the reading specialists brought forth disappeared when their primary purpose was to make sure proper skills were maintained by every child. Ms. Glover asked the Board to not think of her as the enemy but the voice that cries in the wilderness because she continually hurts over the scores placed before the Board. She asked the Board if it will continue to sit back and allow the public school system to be devoured or engage practices that will promote opportunity and resources bringing forth academic success for every child. She said it can be accomplished if what is right is done by all Caddo students.

Ms. Glover also addressed the proposed pay increase which she believes is very questionable. Using a calculation to see exactly what she will be awarded with the 2% across the board increase, she reported that the pay increase for her will mean \$723.58 a year which relates to \$60 more a month, \$15.08 more a week, \$3.02 more a day, and \$.38 more an hour. While she is very grateful the Board decided the employees were worthy of a raise, she doubts she will see anything when retirement, taxes, etc. are deducted. Ms. Glover shared with the Board her suggestion to make the \$723.58 a one-time supplement instead of spreading it across the 12 months and not ever realize the benefit of the increase. She said it is disturbing to her that she works diligently and is dedicated but is only awarded \$.38 more an hour after not receiving anything for six years.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE AUGUST 19, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

President Pierson announced that Item 8.12 "Resolution Exempting Sales and Use of Tax for Capital Equipment for the Biomedical Research Foundation of Shreveport" is pulled and Items 6.01-6.03, 7.01-7.02, 8.01-8.06, 8.08-8.09(a), 8.09(c), 8.10-8.11, 8.13-8.15 and 13.01 (minus two

students) is the consent agenda. *Mr. Rachal moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Riall moved, seconded by Mr. Rachal, to confirm the consent agenda as submitted. Vote on the motion carried unanimously. The following is a summary of the Board's action on consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the personnel recommendations recommended by the Superintendent and submitted in the mailout.

6.02 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

6.03 Requests for Leaves. The Board approved requests for leaves as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Purchasing. The Board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) EPSCO Information Services, totaling a discount percentage of 9.25%, for the purchase of periodicals for all schools. A copy of the bid tabulation sheet is filed in the official papers of the August 19, 2014 CPSB meeting.

7.02 Capital Projects. The Board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Louisiana Roofing Contractors with a Base Bid and Alternate 1, for the sum total of \$373,500 for Project 2015-220, "Woodlawn Re-Roofing, Phase II". A copy of the bid tabulation sheet is filed in the official papers of the August 19, 2014 CPSB meeting.

Item No. 8

8.01 Request for Long-term Use of CPSB Property or Bus Transportation. The Board approved the request for long-term use of CPSB Property (Central) as recommended by staff and submitted in the mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Approval of Board Policy – Section D. The Board approved the proposed policies/revisions to policies in CPSB Policy Manual, Section D, as recommended by staff and submitted in the mailout.

8.04 Equipment Breakdown Insurance Renewal. The Board approved the Equipment Breakdown Insurance Renewal as recommended by staff and submitted in the mailout.

8.05 Miles for Smiles. The Board approved the CPSB entering into an MOU with Miles for Smiles based on similar terms as the current dental provider's MOU, that the Miles for Smiles MOU be limited to the schools not currently serviced by the current provider; and that the services at the schools must be approved and authorized by the school principal.

8.06 Approval of Proposed CPSB Policy, re: Act 654 of 2014 Legislative Session. The Board approved the superintendent and/or his designee beginning the process of compliance with Act 654 of the 2014 Legislative Session by studying the existing or proposed bus routes in the district to determine which routes need to be altered, amended, or created in order to bring the school district into compliance with the restrictions of the Act; and report to the Board all changes, and associated costs (additional fuel or additional buses required) as soon as practicable.

8.08 Approval of Mental Health Interagency Agreements and Contracts. The Board approved the mental health interagency agreements and contracts as recommended by staff and submitted in the mailout.

8.09(a) Employee Pay Raise. The Board approved the proposed 2% across the board increase for all employees and to adjust the pay schedules accordingly.

8.09(c) Pay cycle. The board approved the District changing to one pay frequency of semi-monthly for all employees, with one supplemental payroll in between.

8.10 Adopt Resolution with Respect to the Municipalities Continuing Disclosure Cooperative Initiative of the Securities & Exchange Commission. The Board adopted resolution authorizing the Chief Financial Officer to file appropriate annual disclosures for all outstanding General Obligation Bonds as recommended by staff and submitted in the mailout.

8.11 Special Education Interagency Agreements and Contracts. The Board approved Special Education Interagency Agreements and Contracts as submitted in the mailout.

8.13 2014-15 Pupil Progression Plan. The Board approved the proposed 2014-15 Pupil Progression Plan as recommended by staff and submitted in the mailout.

8.14 Policy Approval of Section 504 Safeguard Procedures. The Board approved the proposed Section 504 Procedural Safeguards (Local Complaint Procedures) as recommended by legal counsel and submitted in the mailout.

8.15 Ratification of Attendance Department move from West Shreveport to Central. The Board ratified the move of the Attendance Department from West Shreveport to Central as recommended by the superintendent and submitted in the mailout.

13.01 Student Readmission Appeal Hearings. The Board approved appeals of students MH, MM, TC, MMc, DE, LB and MiR as recommended by staff and as agreed upon by the parents.

REVISIONS TO CPSB POLICIES, RE: ABSENCES AND LEAVES

Ms. Trammel moved, seconded by Mr. Riall, to approve the proposed revisions to CPSB Policies relative to absences and leaves with the amendment to Policy GCBD-GDBD to delete paragraph 3 and change the three (3) days to six (6) days and insert “an employee who is absent for six or more consecutive days shall be required to present a certificate from a physician certifying such absence upon return to work; and in the case of repeated absences of less than six days because of illness, the Board reserves the right to require verification of illness; and should a pattern of behavior so warrant upon the request of the superintendent or his designee, the employee shall be required at the expense of the school system to provide a certificate from a physician specified by the school system to verify the existence of medical stability. The superintendent may discipline employees who abuse this policy.” Ms. Trammel noted these changes are applicable to all policies regarding absences. She explained that after receiving a number of calls, texts and emails on this matter, and understanding the Board is accountable for the numbers of absences,

she knows not every employee is an abuser; however, there are those that abuse continuously and it is important that the Board address the issue. After looking at several policies, Ms. Trammel noted that some employees must bring a doctor's statement after three days, but staff is recommending the six days and hopefully all Board members will be in agreement. Mr. Riall said we try to teach the children the importance of them being in school every day, which will one day be reflected in each student's employment record. He said the vast majority of employees do not violate these principles, but if the District is going to send the correct message to the students, he believes it is necessary for the Board to hold itself accountable and send the correct message to the employees as well.

Dr. Goree thanked the Board for taking the steps to help in this regard and he agrees that the vast majority of the employees are doing a great job and this policy will help us support the employees that are at work every day and are working hard. He further explained that when discussion on this issue began in Committee, it was an effort to improve the productivity of the organization; and if we are to continue to grant raises and to continue to see the academic performance of the District improve, employees must be held accountable.

Mrs. Crawley moved, seconded by Mr. Hooks, to postpone the vote until September so it can be addressed in written form and she will better understand what she is voting for. Mrs. Crawley shared her confusion because a paragraph is being taken from the Bossier policy with the change from three to six days, but it still lists days prior to a holiday and she would like to see actually what the Board is voting on in writing; and if that is the only change, how is it different from Caddo's policy. Ms. Trammel said nothing has been in place when employees are absent for five days, return a day, and then miss for a number of days; and no one is addressing this issue of absences, so she believes at the Board's discretion, it will be up to the Superintendent to address.

Mrs. Crawley noted the policy Forethought wrote for other school districts and she would like to have time for the Board to study this, and asked the Board to support postponing.

Mr. Hooks agrees that the Board needs to see the proposed change in writing before voting on any change.

Mrs. Armstrong stated she wants to make sure the Board does receive the motion in writing because she is concerned about a couple of issues, i.e. "at the expense of the School System". She said this needs to be looked at closely since it will be a cost to the District. Also, referencing the Friday before or Monday after a holiday, she believes it is wise to postpone to allow time to receive a complete writing of this policy. For these reasons, she supports the motion to postpone until September.

Mrs. Bell asked if there will be a special meeting on this because she continues to receive calls about substitutes in the classroom; and she believes every child deserves to have a teacher in their classroom and not a substitute, but the principal's hands have been tied. Mr. Pierson announced that this will go back to the Transportation Committee for a recommendation.

Mr. Rachal moved to call for the question. Mr. Riall seconded the motion to call for the question to end debate and the motion carried.

Vote on the motion to postpone carried unanimously.

EMPLOYEE METHOD OF PAY

Ms. Trammel moved, seconded by Charlotte Crawley, that all employees receive their pay via direct deposit or pay card. Mr. Hooks asked staff to clarify using a pay card, and if staff is attempting to reduce paper and Mr. Lee responded that is correct. Mr. Riall shared that he may

be the only one, but he still likes to get a pay check. Ms. Trammel asked if she understands correctly that if they do not want to use a pay card, they can use direct deposit, and staff responded that is correct. Mr. Riall reminded everyone there is no law that says an employee must have a bank account and in his opinion, Mr. Riall said a pay card is a pain. *Vote on the motion carried.*

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Dr. Goree stated there is much excitement about the work that is ongoing in the Transformation Zone, i.e. RSD contract governing the work Caddo is doing in the Transformation Zone. He encouraged everyone to visit one of the schools in the Transformation Zone and observe how they are reimagining the schools in Caddo Parish.

Mr. Hooks asked the superintendent to explain the over-age recommendation, and Dr. Goree stated, that in attempting to do things differently than the way they have been done in the past, they are seeing a high number of over-age students at the middle school level and staff met today to look at developing programs that will provide unique opportunities for over-age students to be successful. One of the options in the Ombudsman program contract was a number of seats designated for over-age students and staff is currently looking at those students that are not quite that far behind and how we can create schools within a school and to provide opportunities for these students to earn extra credits, even high school credits, as well as bridge the middle and high school relationship so at mid-year they are moved on to the high school campus. Dr. Goree also explained staff is currently looking at some of the vacated buildings for providing a career center type opportunity for learning some employable skills for when they complete high school.

SunGard Status Report. Superintendent Goree reported that weekly meetings, as well as monthly meetings, on SunGard are continuing and staff is seeing progress while continuing to address concerns.

Personnel Recommendations and Requests for Leaves. The superintendent announced that personnel recommendations and requests for leaves are also submitted for the Board's information.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal announced he is a new grandfather.

Mrs. Crawley announced the Brass in Blue concert will be held on Sunday, August 24th at Byrd High School.

Miss Green stated her appreciation of support for the Miles for Smiles program. She also reminded staff that she requested at the last meeting information on personnel recommendations to include (1) all who applied, (2) all who were interviewed, and (3) staff's recommendation. Mr. Abrams indicated that he could not discuss in open session.

Ms. Trammel expressed her appreciation for staff making the Woodlawn Leadership Academy campus beautiful, as well as Atkins Elementary. She said the students are excited about being at a "new school".

Mrs. Bell announced that Mary Wood, Dr. Goree, Victor Mainiero, Bill Strother and Jeff Howard have accepted the ALS Ice Bucket Challenge and will take the challenge immediately following the Board meeting.

Mr. Rachal expressed kudos to the Transportation Department for the very few calls received this year regarding transportation problems, which he believes is phenomenal when the District is transporting 21,000 children.

Miss Green expressed appreciation to Mr. Woolfolk for addressing the lighting at Green Oaks and asked that the 220 plug be installed prior to the Green Oaks reunion.

EXECUTIVE SESSION

Student Readmission Appeals. *Ms. Trammel moved, seconded by Mrs. Bell, to go into executive session. Vote on the motion carried and the Board went into executive session at approximately 7:00. The Board reconvened in open session at approximately 7:30 p.m.*

Mr. Rachal moved, seconded by Miss Green, to approve staff's recommendation for MR as submitted in the mailout and whose parents are in agreement. Vote on the motion carried with Ginger Armstrong absent for the vote.

Prospective litigation and/or strategy session re: Formal Demand dated June 27, 2014 re: Claims of Brenden, Jordan Houston, Barry and Jennifer Houston. *Mr. Rachal moved, seconded by Mr. Hooks, to approve the litigation settlement recommendation of staff. Vote on the motion carried with Ginger Armstrong absent for the vote.*

Student Readmission Appeals. *Mr. Rachal moved, seconded by Mr. Hooks, to go into executive session for the purpose of a student readmission appeal. Vote on the motion carried and the board went into executive session at approximately 7:39 p.m. The Board reconvened in open session at 8:23 p.m.*

Mr. Rachal moved, seconded by Mrs. Armstrong, to admit GM to North Caddo High School under a disciplinary contract. Vote on the motion failed with Board members Riall, Crawley, Rachal and Armstrong supporting and Board members Green, Pierson, Hooks, Trammel, and Bell opposed.

Mr. Rachal moved, seconded by Mr. Hooks, to accept staff's recommendation on student GM. Vote on the motion carried with Mr. Riall opposed.

Adjournment. *Mr. Riall moved, seconded by Mr. Hooks, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 8:27 p.m.*

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, President

September 2, 2014

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, September 2, 2014, at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Bonita Crawford, Barry Rachal, Ginger Armstrong, and Dottie Bell. Board members Lillian Priest and Larry Ramsey were absent. Also present were Dr. Lamar Goree, superintendent, and Reginald Abrams, legal counsel. Mrs. Armstrong led the prayer and Pledge of Allegiance.

VISITORS

Jon Glover noted that the Board previously approved the West Shreveport renovations and asked why it is coming before them today to ratify approval of the bid for renovations at West Shreveport.

BIDS – CAPITAL PROJECTS – RATIFICATION OF APPROVAL OF BID FOR WEST SHREVEPORT RENOVATIONS

Steve White explained that he incorrectly reported the Base Bid as \$2,009,000, and it should have been \$2,090,000. He further explained that the total bid (Base Bid plus Alternates 1 and 2) of \$2,832,748 is still under the Board-approved \$2,850,000 for this project.

Barry Rachal noted that the important thing is the error did not make a difference in this and it is still under what the Board budgeted.

Ms. Trammel moved, seconded by Mr. Hooks, to ratify the selection of Thrash Construction Services, LLC as the low bidder for the renovations of West Shreveport Renovations to Student Service Center, Project #2013-140 for the total sum of \$2,832,748.00 including the base bid and alternates 1 and 2. Mr. Hooks commended Mr. White for owning this mistake. Vote on the motion carried unanimously.

Adjournment. *Mrs. Bell moved, seconded by Mrs. Armstrong, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:44 p.m.*

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, Sr., President

September 2, 2014

The Caddo Parish School Board (**CPSB Executive Committee**) met on Tuesday, September 2, 2014 at approximately 4:45 p.m. (immediately following the special session) in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and board members Crawford and Trammel present constituting a quorum. The following Board members were also present: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and Pledge were omitted.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE SEPTEMBER 16, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its September 16, 2014 meeting and the following discussion ensued.

Approval of Sections K and L of CPSB Policy Manual. Mr. Rachal asked if these are recommendations from Forethought or staff? Dr. Goree stated these are the recommendations from Forethought; however, there are some unique policies to Caddo, i.e. One Voice, One Board policy, so there are some additions to Forethought's recommendations. Mr. Abrams explained a committee was formed to review policies and Forethought in its review of the policy manual made recommendations for deleting and for moving certain issues to other areas in the policies. Mr. Rachal asked the Superintendent if he has issues with any of the proposed policies/revisions, and Dr. Goree responded he does not and is excited to see this process moving forward. Mr. Rachal agreed and he believes it to be a good start in looking at policies that are no longer applicable. Miss Green stated she was unable to pull these up on her computer and asked for clarification on the attached backup. Dr. Goree stated there are two separate items on Section K and Section L. Mr. Abrams added only one policy remains in Section L. Mrs. Crawley asked for clarification on the "One Voice, One Board" policy, and Mr. Abrams clarified it is not included in these policies. Mrs. Armstrong stated she too has difficulty opening attachments, and Dr. Goree announced he will ask Technology to contact Board members concerning these problems in accessing documents.

Special Education Interagency Agreements and Contracts. Mrs. Bell asked about the services being provided by Helping Hands at Hillsdale and if this means they will be housed at the Hillsdale School? Dr. Shelia Lockett, director of Department of Exceptional Children, responded this service will provide additional help for children up to six years old, and it is not Hillsdale Elementary School, but Hillsdale is the name of the agency providing the service. Mrs. Bell said she would like to have a list of the services they will provide. Mr. Rachal noted a correction in the summary "disagreement will be reduced".

Mr. Riall asked at what age can students receive these services, and Dr. Lockett said from preschool (2 and 3-year olds) to 6 years old. Mr. Riall asked who would someone contact if they had a child with special needs and needed these services? Dr. Lockett responded they can contact her or Pamela Crook. Mrs. Bell asked about children younger than 2-3 years of age and Dr. Lockett explained that services for these children are provided through Social Services.

2015 Group Insurance Renewals. Mr. Rachal stated his understanding of the grandfather clause but asked how long will the district be able to continue before we see a break-even point relative to premiums. Mr. Watson stated that at this time, and prior to 2015, if we forfeited our grandfather status in order to raise deductibles and co-pays, we would need to add benefits required under the Affordable Care Act and this would mean an approximate 1.5% increase in costs. He further explained a new requirement added in 2015 states all out-of-pocket expenses, i.e. co-pays, etc., will have to go toward the maximum out of pocket expense. Currently the PPO

plan has a \$2,000 maximum out of pocket, but you do not count co-pays or deductibles toward that \$2,000, but in 2015 a non-grandfathered plan must include these which will cost the plan more. He added that an actuarial study indicates it would cost the district 5% on the PPO and 5.5% on the POS (approximately \$5 million in each plan) to forfeit our grandfather status, which means we would have to make draconian cuts to our current plan, i.e. raise deductibles to \$1,500 to \$2,000 to break even with the new requirements. At this time, Mr. Watson reported the plans and reserves are in good shape, marginal changes have been made under the law without forfeiting our grandfather status, and thus staff does not recommend this at this time. Mr. Rachal asked Mr. Watson if he sees in the future that the district will hit a wall and this will all change, and Mr. Watson said it is difficult to say and a lot of things will happen on the National level that will stress plans to where many things will need to be re-evaluated in order to comply with requirements. He also added that at this time, he 110% recommends that the District not forfeit the grandfather status; and because Caddo's plans are so much richer than what's required under the Affordable Care Act, we will avoid having to add things that we don't have to now and are not of great value but would cost the plan more. Mr. Watson also reported to the Board that while at some point, the District will not be able to avoid making these changes, staff evaluates every year; and if it had not been for the new requirement in 2015 and that staff watches everything closely, a foolish decision could have been made.

Proposed Revisions to Policy GCO. Mrs. Crawford expressed her concerns that this is a balancing act between the State law and what the policy is proposing relative to the Board's responsibility in hiring. Superintendent Goree stated while he understands the intent, staff certainly is being cautious because when you choose to make every name public of those applying for positions, you limit your talent pool to those who want their information to be public. Legal Counsel clarified the Superintendent makes recommendations to the Board and the Board has the opportunity to veto that recommendation. He further explained the proposed changes in this policy are those that need to be made because of the change in the law resulting from Act 1 of the 2012 Legislature (non-school-based administrative personnel recommendations are presented to the Board for approval, with the exception of supervisors of child welfare and attendance), the Superintendent appoints all school-based administrators within the budgetary restraints approved by the Board, and that the list of those interviewed are provided to the Board (unless the interviewee indicates they do not want their name submitted). Mr. Rachal said he would still like to have the scoring matrix used so when the Board is considering personnel recommendations they see the scoring range of the applicants. Dr. Goree said staff does not have a problem with providing the matrix as long as names of the candidates are not tied to the scores. Mr. Abrams pointed out providing this information would be a violation of the Personnel Files Act. He also added that the scoring rubric is what is used when questions are asked of the applicants which means the next group of interviewees would have an advantage, so he does not recommend distributing the scoring rubric. Dr. Goree added that anything staff provides can in no way identify a candidate or provide an unfair advantage to future candidates for positions. Mr. Riall asked why supervisors of child welfare and attendance are exempt from this rule, and Mr. Abrams explained the Legislature did this.

Ms. Trammel asked about the benefit for seeing scores, etc., because while she may not agree with the recommendation, she believes providing this information might create chaos and confusion. Miss Green said that in talking with people in her district, they have a problem with how hiring is done and she has been asked if it is possible to change the policy so it is known who applied for positions. She added that knowing the Board can't, she is asking that the policy be revised to include this provision. Ms. Trammel said she too has been asked these questions, but she refers them to the Personnel Department to respond, because she believes providing a list may make some unhappy. Miss Green believes providing such a list will help eliminate a lot of problems. Mrs. Bell noted that Human Resources interviews candidates for many different positions so she asked if the same questions are used for everyone or will questions be asked relative to the position, because if the questions are relative to the position, she believes this

means numerous sets of questions are being requested. Dr. Goree responded the questions would be different, but he believes the revision to the policy is to provide a list of names of those interviewed for positions. Mrs. Armstrong stated her concern that the Board is stepping into something that is not Board business, because there is a clear definition between the administrative positions the Superintendent controls and the Board's responsibilities. She asked if the changes being proposed by Legal Counsel are still applicable without the sentence relative to providing the list of persons. Dr. Goree clarified this is by no means something the staff supports, but it is the least restrictive way to work within the Board's request. Mr. Abrams responded these changes are things the Board needs to vote on and additional policies relative to Section G will include these same items. He further explained the Board has operated with this not in writing since 2012 and he believes it is good to have it in policy during the interim; and if someone does not like the proposed revisions, a Board member can amend to remove certain statements in the policy. Mrs. Armstrong asked if these revisions came from Forethought or did they come from Legal Counsel and Administration? Mr. Abrams said it was not submitted by Forethought, because Forethought through other attorneys, i.e. Hammons and Sills, has taken the position that the Superintendent hires and fires all employees, including Central Office and he interprets the statute that the Superintendent has the authority to hire and fire all school-based personnel and not all personnel.

Mr. Hooks stated the Board has been told nicely by a State Board that it cannot get into daily operations and that is what this is. The Board has also been told it cannot get into micromanaging and that is what this is. Based on that, he does not understand why this is being discussed. Mr. Abrams clarified that it is his opinion the Board has the authority to hire all Central Office staff based upon the recommendation of the Superintendent, so this policy is necessary to represent those being recommended to positions in Central Office; and principals, assistant principals, counselors, etc. no longer come before the Board for approval. Miss Green agreed with Mr. Hooks that the Board is a policy-making Board and is why she brings these revisions to Board policy. She also agreed that the Board is making a big deal about something when the last sentence states if the interviewee does not want their name published, they have that choice. She encouraged the Board to support this in moving forward.

Approval of Administrative Disciplinary Hearing Officers and Procedures. Mr. Rachal asked if he understands correctly that the Board is addressing this as a result of Legislative action, and staff responded that is correct. He asked Dr. Goree if he believes school systems are better run by local bodies as opposed to other bodies, and Dr. Goree said absolutely. Mr. Rachal asked the Superintendent if it appears to him that the state legislators have passed legislation and are getting in the middle of running local school systems, and Dr. Goree responded he believes that is a fair statement based on the way the legislation is written. Mr. Rachal asked Dr. Goree if he believes the State Legislators, BESE, Governor, and State Superintendent of Education want to hold local school boards responsible. Dr. Goree responded that he believes the way the law is written there is an intentional effort to take school boards out of that decision-making process. Mr. Rachal asked if the school board will be held responsible for what happens and Dr. Goree said yes because of its budgetary power. Mr. Rachal asked if there is a possibility the Board will be held responsible for something the State Legislators are making local boards do as well as pay the cost for it, and Dr. Goree said that is correct and he encouraged Board members to contact their Legislators; because the item brought forth is about complying with the law. Mr. Rachal asked if he is correct in stating that State Legislators have given direction to local boards to keep good qualified teachers and get rid of those not doing the job but are taking away the ability for the Board to do this. Dr. Goree said he believes that is fair even though he is not aware of what the logic or arguments on the floor look like.

Mrs. Bell asked the Board Attorney to explain this in lay terms because she doesn't understand why we need a list of 10 persons approved by the Board of Education? Mr. Abrams explained that if we do not have our own officers, then we go to the State list, so we are soliciting local

persons that can serve as hearing officers in this area rather than going to the State. Mrs. Bell noted that these officers must be lawyers, mediators, hearing officers, etc. and asked if Caddo will pay them, and Mr. Abrams verified that is correct. Mrs. Bell asked if this is only for teachers, and Mr. Abrams said it is not, but it is also for administrators. Also, these officers would be used for 504 proceedings. Mrs. Bell asked if this will be explained in detail to all teachers and administrators so they are fully aware of the process and understand. Mr. Abrams explained that the qualifications of a hearing officer will be similar to a judge. Mrs. Bell asked what type of actions will come before these hearing officers? Mr. Abrams explained that it is the same as it has always been and matters such as dishonesty, incompetence, etc. and whether or not a teacher will lose tenure as well as if the district has done what it needs to do. The lawyers/judges, etc. are expected to be familiar with the law in such matters and will explain to a district judge the same as if they were in District Court. Mr. Abrams further explained tenure charges will continue to be brought forth by the Superintendent as they have in the past; and the teacher will have the ability to respond in 10 days, followed by the Superintendent's decision to place on leave with or without pay, and then a teacher may request a hearing before a hearing officer who will outline what will happen. He said this all happened in Legislation in 2012 when a 3-person panel was put into place which was later declared unconstitutional, and the Legislature came up with this alternative procedure to wipe out that litigation and implementation of this new process. He said this will be done randomly, procedures will be followed, administration will followed with a decision and then an appeal. Mrs. Bell asked Board Counsel to explain how it can be determined that a teacher cannot teach in the classroom? Mr. Abrams responded this can happen; however, staff must first provide intensive assistance. Mrs. Bell asked can the hearing officer address a teacher's testing scores, etc. because she definitely sees a need for educating the District's employees on these procedures. Mrs. Bell stated that she cannot agree with the 10 people unless there is someone meeting educator/education criteria. Mr. Abrams explained that he always expects the lawyers to be competent on both sides and he expects the lawyers on both sides to present the best case possible. Dr. Goree said administration takes responsibility for making all staffs and teachers aware of this process for them. Mrs. Bell also wants the employees to be aware it is not an action of the Board, but the result of Legislative action. Mr. Hooks asked Mr. Abrams if this is just another way to get rid of local school boards, and Mr. Abrams stated he doesn't believe that is the intent of this particular act, but Act 1 in 2012 put this in place to take the Board out of it, and this particular act was done because when changes from Act 1 were declared unconstitutional, the Governor tried to make it good again; and it is at the district's expense.

Miss Green stated that since these changes are to be made at the District's expense, it seems to her they would be bias to the District. Mr. Abrams said absolutely not and is why an RFQ was put out to seek someone who is unbiased, which means no one currently doing business with or for the District is eligible. Mr. Rachal asked if he understands the choice is the District puts together its own group or it uses the group made available through the State. Mr. Abrams said there are panels already in place and being used; but the difference is the District would pay for mileage, overtime, etc. unless there is someone local in the group. Mr. Rachal asked if something goes wrong can a lawsuit be filed against the Board, even though the Board had nothing to do with it but the State handled it. Mr. Abrams said the State is not handling it, but established a procedure the local boards must follow; and that procedure is local boards must hire a hearing officer and develop its own procedures which the State declares are fair. Mr. Rachal asked if that is correct even if it never comes back to the Board; and Mr. Abrams said it doesn't matter because the Superintendent acts on behalf of the Board when making a decision whether or not to discipline an employee. If the Superintendent terminates an employee, the employee has the opportunity to appeal to a hearing officer or it is final. Dr. Goree asked Mr. Abrams to explain what happens when the hearing officer makes their ruling and the employee disagrees with that ruling. Mr. Abrams explained that at that point there is an appeal process to the District Court and it must be done within a certain timeframe or there is no more action. At this point, there is no salary loss because the employee is still on paid administrative leave. The

District Court has the final say-so even though an employee can appeal to the Court of Appeal. Mr. Rachal asked if lines 9-14 stating “if a teacher is found highly effective based on the evidence of the growth portion of the evaluation, but is found ineffective according to the observation portion” is where it goes back to the unconstitutionality of Act 1. Mr. Abrams said the only portion found unconstitutional was in the hearing process where a District Judge in Monroe stated three persons were on a panel; and even if they went against the Superintendent, the Superintendent did not have to accept the recommendation. The question was raised why go through this entire process when the recommendation does not have to be accepted by the Superintendent. Mr. Rachal asked if the officer meets with the employee for the hearing does the Superintendent have to abide by the hearing officer’s determination, and Mr. Abrams responded he believes there is an appeal.

Ms. Trammel noted that there may only be one or two hearings per year; and asked if there is a need to get an officer at this time? Mr. Abrams said there is. In responding to Ms. Trammel’s question about the cost, Mr. Abrams stated that an RFQ is put out and when they return, he expects there will be a range presented to the Board. She asked again if it is necessary to do this now, and Mr. Abrams said it is.

Mr. Hooks said there are policies in place the Superintendent must follow to terminate a teacher and Mr. Abrams responded that is correct. Mr. Abrams said if there is a teacher that is an issue relative to their evaluation and how they are performing, that teacher must go through intensive assistance several times before the law states you can terminate a teacher for incompetence. However, if a teacher is found guilty of willful neglect of duty, dishonesty, moral issues, conviction of crime such as murder, solicitation, or other offenses dealing with the hiring of personnel that work with children, the only process required is the Superintendent sending them a termination letter. Mr. Hooks asked what part will the Board have if the policies and procedures are not followed by a Superintendent? Mr. Abrams explained that if Board policy is not followed, this is part of the Superintendent’s evaluation and the Board could make the determination if it wishes to continue the Superintendent’s contract.

Mrs. Armstrong asked if the Board will ask for a bid for only one hearing officer, and Mr. Abrams said a minimum of 10 officers is needed. Mrs. Armstrong noted conversation at the LSBA meeting about the process for getting hearing officers for the region and it was suggested that each parish appoint/hire approximately two individuals for the pool in the region. Mr. Abrams responded there is no reason why we can’t pool resources with someone else; however the statute states the district must have at least 10. He encouraged the Board to move forward and not wait even if Caddo has to pick up some officers from Lincoln Parish, for example, in order to meet the required 10. Dr. Goree asked if we only incur a cost if the hearing officer is used, and Mr. Abrams stated that is correct. Mr. Abrams did add there are other expenses associated with hearings, i.e. court reporter transcripts, thus the challenge to create a fair hearing that doesn’t cost as much to get the evidence submitted.

Mr. Rachal asked Mr. Abrams to clarify the difference between a mediation and a hearing? Mr. Abrams clarified he meant mediators.

Mr. Pierson announced there are two student readmission appeal hearings for the 16th.

ADDITIONS

Mr. Hooks asked that an item be added to the agenda to “Re-key Werner Park” since someone outside the school has keys to the building. Because re-keying is a budgetary amount, he believes this might be an item that should be bid. Dr. Goree responded that staff will look at this item and the dollars available under local control to assist with this problem at Werner Park.

Mr. Pierson announced that Items 8.01-8.05 are the consent agenda. *Mrs. Crawford moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda for the September 16, 2014 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jon Glover expressed her concern about the practice of putting things on the consent agenda, i.e. 8.03 Approval of Sections K and L, CPSB Policy Manual, when it oftentimes appears there is no clarity in items. By putting it on consent, the Board is stating that it has no more questions and will not discuss further. As a constituent she would like to understand why the Board will engage in anything not fully understood.

Jackie Lansdale, Red River United, asked the Board about the Administrative Disciplinary Hearing Officers and Procedures, because Act 1 arguments will be heard September 5th and the genesis of a lot of Act 1 is what hurt a lot of school boards. Also, the appeal by the teachers from Katrina will be held on that day, and she shared her concern that this item is on the agenda under a bid and asked how it will be paid. Mrs. Lansdale asked to be involved in the process since part of their employees will be involved in this and maybe they should pay for a portion of it. She further stated it is the purview of the Board to create the backdrop for how this process is carried out. Regarding K and L policies, Mrs. Lansdale said they did not see this information either; and they hope to have an opportunity to review this, and asked for the opportunity to vet this idea with the employee committee and bring their input. Regarding Policy GCO, Mrs. Lansdale expressed her concern on how this policy is interpreted and/or implemented, because she continues to see more secretaries become secretaries not because they are qualified, but because of who they work for. She said in the Central Office one of the qualifications is they must like you in order to keep your job which she believes is very unfair. She said more work/review needs to be done on how this policy is handled.

UNFINISHED BUSINESS

In response to his request for a personal privilege, Mr. Hooks asked if employees will still receive the \$500, and Mr. Lee said it is a holiday supplement and it is permanent. Mr. Hooks also asked how long it will take to get the MOU for Miles for Smiles. Dr. Goree responded probably 30-60 days; and Mr. Abrams responded they called him, but he has not had the opportunity to get back with them. Mr. Hooks asked Mr. Abrams to please follow up because they are waiting on the MOU to get started. Mr. Abrams said the timeline will depend on what they will agree to in the MOU.

Ms. Trammel stated that at the last meeting she attempted to thank staff for the new fencing at Atkins and in correction, she thanked Mr. White for his work at Atkins to accomplish this. Ms. Trammel encouraged Board members to visit the campus and observe the changes made.

Adjournment. *Mrs. Crawford moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:19 p.m.*

September 5, 2014

The **Caddo Parish School Board (CPSB)** met in special session on Friday, September 5, 2014 at 4:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Mr. Ramsey was absent. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Armstrong let the prayer and Pledge of Allegiance.

Each Board member placed a red rose at Station 7 in memory and honor of fellow Board member Lillian Priest. President Pierson encouraged everyone to remember and dwell on the positive things Lillian Priest brought to each individual's life and to the community.

On behalf of the staff, students and employees, Superintendent Goree greatly acknowledged the work Ms. Priest did for the Caddo Parish School District and that we are better because she chose to live and serve; and because of her legacy, we will continue to carry on in her memory.

Mrs. Bell echoed Mr. Pierson's comments and encouraged everyone to remember that Ms. Priest cared about the children and the School Board.

Mr. Pierson also announced that on Tuesday he forgot to announce that he had spoken with Board member Ramsey and he is continuing to recuperate and will be making every effort to be at the Friday, September 12th meeting and definitely for the meeting on September 16th.

Declare the District 7 Seat Vacant. *Ms. Trammel moved, seconded by Mrs. Bell, to declare the District 7 seat vacant due to the death of board member Lillian Priest.*

Mr. Hooks asked if there is time to postpone this action until after Ms. Priest's service? Mr. Hooks moved, seconded by Mrs. Crawley, to postpone this action until after Ms. Priest's service.

Ms. Trammel stated while she understands, there are a number of days set by the State of Louisiana which the board must follow in declaring a seat vacant and in making an interim appointment to fill the vacancy. Also, in knowing Ms. Priest she remembers she was very particular about how things were run and the importance of following the rules.

Mrs. Bell stated she understands the motion but reminded the Board that Lillian Priest followed policy and she would rather not postpone, but move forward with this needed action.

Mr. Riall moved, seconded by Mr. Rachal, to call for the question on both motions. Vote on the motion to end debate carried with Mrs. Crawley opposed.

Vote on the substitute motion failed with Mr. Hooks supporting the motion to postpone. The vote on the main motion carried unanimously.

Establish the Procedures for Filling the District 7 Vacancy. *Ms. Trammel moved, seconded by Mr. Rachal, that the following procedures for filling the District 7 position be advertised in the official journal; that applications for filling the Caddo Parish School Board District 7 position be addressed to the President of the CPSB and accepted by **hand delivery** at the superintendent's office located at 1961 Midway Avenue, Shreveport, La. **until 4:30pm on Thursday, September 11, 2014;***

That interviews of candidates will follow the following format:

FORMAT FOR INTERVIEW SESSION-(Up to 10 minutes per candidate)

- I. Each candidate will present an opening statement addressing the following:
 - A. His or her reasons for desiring to serve as interim board member from District 7;
 - B. His or her special skills or experience to offer as a board member from District 7;
and
 - C. His or her perspective on the role of a board member

- II. Each candidate will be allowed to make any final summary statement if time permits.

Interviews to be held at a special board meeting to be held on September 12, 2014 at 4 pm at the Caddo Parish School Board office board room, 1961 Midway Street, Shreveport, Louisiana.

Miss Green asked, since an election is in process, can those running for the seat permanently apply and serve in the interim? Mr. Pierson responded by rule, this cannot be done; and, the only way it can be done is by vote.

Vote on the motion carried.

Mr. Rachal moved, seconded by Mrs. Armstrong, to amend the motion on format for interviews and add Roman Numeral III that Board members will be allowed to ask questions to clarify any responses from the applicants. Vote on the amendment carried unanimously.

Call a Special Board Meeting to Interview Candidates and Select an Interim Appointment for the District 7 Vacancy.

Ms. Trammel moved, seconded by Mr. Rachal, that there be a special board meeting held on September 12, 2014 at 4 pm for the purpose of interviewing candidates for the District 7 vacancy and for selecting an interim appointment. Mr. Riall announced that he is leaving town and will be out of town on the 12th. Mrs. Bell inquired if someone must have residence in the district or can they own a business in that district, and Mr. Abrams stated they must be domiciled in the district. Mr. Rachal asked if Board members will be allowed to make comments during the interview process. Mr. Abrams stated that if questions are asked, they should be asked of everyone. Additionally, it may appear if asking questions of one candidate and not the others that one is being favored over another; and this is why the Board has typically not asked questions in the past. Mr. Rachal stated that he feels very uncomfortable with not being able to clarify information and Mr. Abrams noted that clarification is different. Mr. Rachal added that the way it is written allows for no interaction and it is something he feels uncomfortable. Mr. Abrams again reminded him that he can ask for something to be clarified and also, this is not the motion the Board is currently considering. Vote on the motion carried unanimously.

Adjournment. *Mr. Riall moved, seconded by Ms. Trammel to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:28 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

September 12, 2014

The **Caddo Parish School Board (CPSB)** met in *special session* in its office at 1961 Midway Street, Shreveport, Louisiana at approximately 4:00 p.m. on Friday, September 12, 2014 with President Carl Pierson presiding and the following school board members present being a quorum: Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Bonita Crawford, Barry Rachel, Larry Ramsey, Ginger Armstrong and Dottie Bell. Mr. Riall was out of town. Also present were Secretary T. Lamar Goree and Legal Counsel Reginald Abrams. Mrs. Armstrong led the prayer and pledge.

Mr. Pierson announced that two of the applicants received are disqualified because they actually live in a district other than District 7.

VISITORS

Pastor H Calvin Austin III explained he is present to observe those individuals interested in filling the District 7 vacancy; and he is hopeful that those interested will have the following principles at heart: (1) the children, (2) education as a whole, and (3) a united front.

Jon Glover stated her concern with the stats in District 7 the rate of failure; and she asked the Board to consider this when interviewing and selecting someone to represent District 7.

INTERVIEW CANDIDATES FOR THE DISTRICT SEVEN CPSB VACANCY

President Pierson announced the following format and procedures to be followed for interviewing candidates for the District 7 vacancy. *Each candidate's interview session will be up to 10 minutes; each candidate will present his or her reasons for desiring to serve as interim board member from District 7; each candidate will present his or her special skills or experience to offer as a board member from District 7; and each candidate will present his or her perspective on the role of a board member.* Mr. Pierson also asked that each candidate when approaching the podium to state their name and address. The president also announced if time permits, each candidate will be allowed to make a final summary statement. He also explained that while Board members will not be asking candidates questions, Board members will be allowed to ask candidates to clarify their responses. Mr. Pierson announced the interviews will be done in alphabetical order.

The following candidates shared with the board why they desire to serve as the interim board member from District 7: (1) Juanita Johnson Anderson, (2) Dorothy Nell Warren Fisher, (3) Raymond Green, and (4) Jerry Paige. President Pierson announced it was determined that applicants Eddy Hamilton and Nashunte' Ragster-Manuel reside outside of District 7 and Joy Ellis Walters was not present.

SELECTION OF INTERIM REPRESENTATIVE TO FILL THE CPSB DISTRICT SEVEN VACANCY

The president announced he will call each candidate's name in alphabetical order and each board member will have one vote and the interim appointment must receive 6 votes. If in the first round of voting no one receives the majority vote, the Board will vote again on the top two candidates. As each candidate's name was announced, the following votes were cast: (1) Juanita Johnson Anderson (2 votes - Green, Crawford), (2) Dorothy Nell Warren Fisher (3 votes - Trammel, Armstrong, Bell), (3) Raymond Green (4 votes - Crawley, Hooks, Rachel, Ramsey), (4) Jerry Paige (1 vote - Pierson); and (5) Joy Ellis Walters (0 votes). President Pierson announced the Board will now vote on the top two candidates and the following votes were cast: (1) Dorothy Nell Warren Fisher (5 votes - Pierson, Trammel, Crawford, Armstrong, Bell); and (2) Raymond Green (4 votes - Green, Crawley, Rachel, Ramsey). Mr. Hooks did not vote. (Mr. Hooks indicated that he did vote, but it did not record.) A third vote on the top two candidates was held and the following votes were cast: (1) Dorothy Nell Warren Fisher (5 votes - Pierson, Trammel, Crawford, Armstrong, Bell); and (2) Raymond Green (4 votes - Crawley, Hooks, Rachel, Ramsey). Miss Green was not present at the third vote. Attorney Abrams explained that because a Board member was not present at the time of this vote, five votes constitute a majority of the 9 Board members present and casting votes. Mr. Pierson announced that Dorothy Nell Warren Fisher is the new interim representative for CPSB District 7.

OATH OF OFFICE

Legal Counsel Reginald Abrams administered the oath of office to Nell Fisher, newly appointed interim board member for CPSB District 7. The board and audience extended congratulations and welcomed Ms. Fisher to the board.

Adjournment. *Ms. Fisher moved, seconded by Mr. Hooks, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:47 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

September 16, 2014

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, September 16, 2014 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Nell Fisher, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Armstrong led the prayer and Pledge of Allegiance.

President Pierson welcomed newly appointed District 7 Interim Board member Nell Fisher.

As a point of personal privilege, Board member Ramsey expressed appreciation for the many prayers and acts of kindness extended to him and his family during his recent illness.

CONSIDERATION OF MINUTES OF THE AUGUST 19, 2014, SEPTEMBER 2, 2014, SEPTEMBER 5, 2014 AND SEPTEMBER 12, 2014 CPSB MEETINGS

Mrs. Armstrong moved, seconded by Mrs. Bell, to approve the minutes of the August 19, 2014, September 2, 2014, September 5, 2014 and September 12, 2014 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Music by C. E. Byrd High School Student. Allison Case, junior at C. E. Byrd High School, played the piano and sang “Believe, Dream, Inspire”, a song she composed to encourage others to believe in what they really want, to grasp the inspiration and desire, and they will achieve their goals. Mr. Strother announced that Miss Case began composing music during her sixth grade year and has won numerous District, Regional, State and National level competitions as a result of her musical compositions.

Caddo Magnet High Student is Junior Women’s Field Archery World Champion. Miriam Trafford, Caddo Magnet High senior, was recognized for attaining world champion status in Archery. Miss Trafford recently won a championship title in Zagreb, Croatia where she competed against 20 of the best junior archers in the world and earned the gold medal. Miss Trafford is an Olympic hopeful, has traveled the world as a result of Archery, competing in over 65 countries and world championships on five continents, as well as earning recognition as an all-state violinist.

One Class at a Time Winner. Shreve Island Elementary teacher Cindy Greene was recognized as a “One Class at a Time Winner.” Ms. Greene will use the \$1,000 check to purchase special items for her classroom that would not otherwise be purchased.

Five Caddo Schools PTAs Win “School of Excellence” Award. PTAs at five Caddo Parish schools (Blanchard, University, C. E. Byrd, Caddo Magnet and Captain Shreve) were recognized for earning the School of Excellence award from the National PTA organization.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: Phyllisia Mason-Hollins, Amanda Perry and

Yenshacillia (Sheba) Williams (Content Coaches-New Teachers Support); Renea Pullen (Curriculum Instructional Specialist Elementary Science); Roger Vance (Curriculum Instructional Specialist Math K-5); Lisa Nance (Curriculum/Professional Development Specialist High School Science), Angela McCoy (Curriculum Instructional Specialist Reading/Language Arts K-5); and Pamela Crook (Supervisor of Instruction-Special Education). Assistant Principals Lakia Davis (Atkins); Maria Edwards (Booker T. Washington); Jennifer DePriest (Herndon Magnet); Mitzi Nix (Walnut Hill); Steven Grant (Fair Park); Renata Mahoney (Fair Park); Robin Jackson (Lakeshore Middle); and Laureen Stephens (Woodlawn Leadership Academy) were also recognized.

PUBLIC HEARING FOR NAME CHANGE OF JERRY BURTON STADIUM TO JERRY BURTON MEMORIAL STADIUM

President Pierson announced the public hearing open for anyone wishing to make comments about the name change of the Jerry Burton Stadium to the Jerry Burton Memorial Stadium. There being no speakers, the public hearing was closed. Mr. Pierson announced that the Board will vote on this name change at the October Board meeting.

VISITORS

Jon Glover addressed the Board on matters of concern, understanding the Reimagining Caddo Strategic Plan and the newest endeavor – Common Core and what the Board will bring forth to address these issues. In watching the Board in these endeavors, she questioned the repositioning of personnel under the Board’s leadership in an effort to bring about academic success, but she doesn’t understand how this will happen when administrators were moved from academically unacceptable settings to other academically unacceptable settings, and asked where is the change. Relative to Common Core, she has seen the students wallow in mediocrity with substandard education for the past 15-20 years, and now Common Core is offered but our students are not adequately prepared. She further stated that eight of Caddo’s districts are in peril, and she questions what Common Core will bring these students. While she knows no one wants to be reminded that failure exists in Caddo Parish, and it is easy to dress it up and project it as growth, she asked the Board to consider what message it is sending by ignoring what she is bringing to the Board’s attention. She only wants to bring forth a new and innovative Caddo Parish that will insure every child in Caddo Parish is adequately equipped for academic success; and if that is not the Board’s intent and purpose, there is a problem. Ms. Glover also noted the meetings bringing forth a strategic plan to the public for their input; but she questions when the information is compiled if the stakeholders will know how the school system will move forward. She said it is not just vital that we gain information, but it is vital that the information is utilized in an effort to produce and chart a course for success. She asked the Board to not dismiss what she is saying, but to listen and allow what is being said to penetrate deeply and hopefully bring forth a reason why the school system deserves to be saved.

Jackie Lansdale, president of Red River United, shared with the Board that she has not heard one complaint from any employee receiving the 2% pay increase and she thanks the Board on their behalf for the first pay increase given since 2008. Along with supply money and new employees receiving their first pay check, she believes Caddo had a good start to this school year. She also stated that not everyone received this increase based on the fact that their salary was frozen or red-circled, and she asked the Board to look at these employees to determine a possible upgrade since it has been several years since this was enacted. Mrs. Lansdale noted at least one Rahmberg recommendation regarding an upgrade for patrol officers that has not been submitted to the Board for action, and she asked that the recommendations be placed on an upcoming agenda for Board action. Mrs. Lansdale also stated their interest in today’s agenda item with regard to the tenure proceedings and the process established by the Legislature creating a pool of hearing officers for the purpose of hearing employee grievances. Since organizations will be

involved in the process, she requested that the employee groups be afforded an opportunity to provide input into the process. Also, she objected to the statement made by Board Counsel that the financial obligation to the hearing officer would be the responsibility of the Board, and encouraged the Board to devise a pay structure of either cost-sharing between the district and the teacher/teacher organization or something along the lines that the losing party will be responsible for the total payment to the hearing officer. Mrs. Lansdale added that she looks forward to working with staff through this process as well as looking at the policy manual as a whole. Mrs. Lansdale also expressed, on behalf of Red River United, how deeply they share in the loss of Board member Lillian Priest and that everyone continues to honor her by demonstrating the strength, purpose and vision she had for Caddo.

Melody Hall, parent, expressed her concern as a parent of a 4th grader in Caddo Parish that the Board has adopted a curriculum in which there are no books for the children to bring home for homework. She stated that students are sent home with worksheets for Common Core math and she cannot help her child without examples, instructions, etc. She asked how can a curriculum be adopted and implemented without textbooks. Mr. Pierson asked the Superintendent to follow up on this concern.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

Mr. Pierson announced that because October 7th is National Night Out, the October Executive Committee Board Work Session meeting will begin at 3:00 p.m. as opposed to 4:30 p.m.

Mr. Pierson announced that Items 6.02-6.03, 7.01, 8.01-8.05, 8.07 and 13.01 are the consent agenda. Mr. Hooks announced he is pulling 8.08 "Re-key Werner Park Elementary" as staff has addressed this matter. *Mrs. Crawford moved, seconded by Mrs. Bell, to establish the agenda and consent agenda for September 16, 2014 as submitted. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mrs. Crawford moved, seconded by Ms. Trammel, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

6.03 Requests for Leaves. The Board approved the requests for leaves as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Bids – Capital Projects. The Board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Martin Construction, with a Base Bid and Alternate 1, for the sum total of \$320,975 for Project 2015-220, "Booker T. Washington Re-Keying". A copy of the bid tabulation sheet is filed in the official papers of the September 16, 2014 CPSB meeting.

Item No. 8

8.01 Requests for Long-term Use of CPSB Property or Bus Transportation. The Board approved the requests for long-term use of CPSB property as recommended by staff and submitted in the mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Approval of Sections K and L, CPSB Policy Manual. The Board approved the proposed policies/revisions/deletions to policies in CPSB Policy Manual, Sections K and L, as recommended by staff and submitted in the mailout.

8.04 Special Education Interagency Agreements and Contracts. The Board approved the Special Education Interagency agreements and contracts a recommended by staff and submitted in the mailout.

8.05 2015 Group Insurance Renewals. The Board approved the 2015 group insurance renewals as recommended by the CPSB Insurance and Finance Committee and submitted in the mailout.

8.07 Approval of Administrative Disciplinary Hearing Officers and Procedures. The Board approved the administrative disciplinary hearing officers at a rate of \$185 an hour as submitted in the mailout on the bid tabulation sheet as well as procedures submitted in the mailout.

Item No. 13

13.01 Student Readmission Appeals. The Board approved the appeals of students JM and XJ as recommended by staff, submitted in the mailout, and whose parents are in agreement with staff's recommendation.

PROPOSED REVISIONS TO POLICY GCO-BOARD APPOINTED POSITIONS

Miss Green moved, seconded by Mrs. Crawley, to accept the proposed revisions to Policy GCO. Mrs. Crawley stated that the only concerns she has heard voiced are relative to the information being misused; and she believes when given information it should always be used properly, but you can't withhold information on the possibility that someone might misuse it. Because she does not believe this to be a legitimate argument for Board members receiving the information, she does believe this to be a legitimate concern if someone misuses the information.

Ms. Trammel asked if this information will be shared with the Board only; because she understands that once it is shared with the Board, it is considered public; and what happens if a candidate is ok listing their name on the list but changes their mind and does not want their name submitted in writing to the Board? Mr. Abrams stated that he anticipates in the interview process there will be a form relative to whether or not the candidate wishes to submit all their information to the Board; but reminded the Board that errors can occur. Ms. Trammel asked what will happen if the job listing is there and everyone interviewed does not want their name on such a list, would the Board receive a blank piece of paper for that job? Dr. Goree responded that if everyone who interviews for a job selects the box "I do not want my information public", then the Board will not receive any names for that particular job. Mr. Pierson said the Board will receive the staff recommendation and the information on that recommendation from the Superintendent. Ms. Trammel asked for clarification since it has been her understanding that the Board is not to interfere with what transpires in Personnel. Dr. Goree said from staff's perspective, this is not something the Board needs and this is how the Board can continue to

attract the best candidates; and if the names of those interviewed are published, we are then compromising the protection of those interviewing for the job.

Mrs. Crawford expressed her concern that this policy is not just for the current Board, but also for future Boards; and the Board is looking at how we can protect our employees and not just make decisions for the current Board.

Mr. Rachal asked Dr. Goree if he has any issues on the proposed policy, and Dr. Goree responded he does and he doesn't believe this is something that is in the best interest of the school district; because something like this in policy will prevent Caddo from getting the best candidates for the job. Mr. Rachal said the Board used to see every applicant and resume'; however, the Board has hired Dr. Goree to do a job, and he does not support something that would interfere in that happening.

Mr. Hooks said it is not the fact that the Superintendent is doing his job; but it is because of Act 1 and the fact that local Boards are nothing but puppets and the Board must accept this.

Mrs. Bell stated that the Board hires the Superintendent to run the District and to hire and fire employees. She agrees it is important to protect our employees, thus she does not see the importance of seeing the responses from staff.

Mr. Rachal moved, seconded by Mrs. Bell, that the last portion of the policy which states "a list of the persons interviewed shall be included as part of the recommendation unless the interviewee does not want his or her name submitted" be deleted.

Miss Green said the Board has discussed this at length; and a form can be created whereby applicants can indicate whether or not they wish their names to be included on a list of applicants to the Board. She knows the Superintendent would have a problem with this, but she believes the Board should move forward and vote. Mr. Abrams clarified he believes the substitute motion keeps the changes proposed in paragraph 1, but the listing of the names of the interviewees will not be included in the policy. Mr. Abrams further clarified the old policy states the Board will approve principals, assistant principals, supervisors; however, Act 1 changed that to where the Board does not approve school-based personnel. While some across the State believe this law prohibits the Board from approving any personnel appointments, he interprets the law to state this change only includes school-based positions and the Board approves all non-school-based positions (with the exception of supervisors of child welfare and attendance).

Mr. Riall moved, seconded by Ms. Trammel, to call for the question on both motions on the floor. Vote on the motion to end debate carried with Board members Green and Crawley opposed. Mr. Ramsey had left the meeting.

Vote on the substitute motion carried with Board member Jasmine Green opposed and Larry Ramsey absent for the vote.

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Superintendent Goree reported that progress continues in the schools within the Transformation Zone and staff looks forward to the RSD being in town next week at which time staff will make a presentation of the work to the Chamber of Commerce in conjunction with the RSD. Mr. Rachal asked if the RSD has provided any reports back to Caddo relative to the changes Caddo has made. Dr. Goree responded that we have not received anything formal from the RSD; however, the RSD has indicated they are very impressed with the work being done in the schools and often describes what Caddo is doing as something that could become a National model for school turnaround. The superintendent added that when staff

speaks with them, he will request on behalf of the Board that they provide the Board something in writing.

Update on SunGard Status. Dr. Goree reported that staff continues in the process of working to improve the SunGard system and progress is being seen.

Report on Absentees. The superintendent reported that reports on attendance and concerns about absences were emailed to the Board.

Magnolia Charter School Annual Report. Dr Goree announced the Magnolia Charter School annual report was emailed to the Board. Mr. Rachal asked if this report requires a vote by the Board to accept it? Mr. Abrams said while he doesn't recall anything standing out in the report that would be a cause for alarm, he would like another opportunity to review the report, as well as asking Kimberly Williams to look at it. He also explained he is unsure where they are in the application process with the State; however, it is something Caddo needs to determine if the State Department has approved their new school. Mr. Rachal asked if BESE is communicating with the District about the additional charter application; and Dr. Goree responded they are not. Mr. Rachal said he takes issue with this and believes a formal request should be made that they do so. Dr. Goree said he agrees and is something that can be done; however, when the design of the system is an application can be denied by the District, but appealed to BESE, he believes that was their intent. He added staff has written a letter requesting that Caddo receive a moratorium on additional charters since we have the schools (charter or public) to serve the community; and at this time, he has not received a response. Mr. Rachal asked to receive a copy of the letter.

Mrs. Armstrong noted that when a report is submitted to the Board, oftentimes the Board moves to receive the report for the record; and possibly the Board might want to do this with this report. President Pierson agreed and that the Board could do so at the next Board meeting along with feedback from Attorney Abrams and Kimberly Williams.

ANNOUNCEMENTS AND REQUESTS

Mrs. Crawley asked the superintendent to follow up on the issues with the car pool line and traffic problems at South Highlands. She noted Mr. Murry's work on this issue; however, nothing has changed. She also reported she contacted Oliver Jenkins to seek a traffic engineer study (similar to what was done at Stoner Hill) since it is a problem in the neighborhood.

Mrs. Bell requested an update on C. E. Byrd's parking.

Ms. Trammel asked that the Board receive hard copies of large documents posted on BoardDocs. Dr. Goree responded that upon request from Board members, staff will gladly provide the copies.

Mrs. Armstrong asked when the Board will receive a copy of the policies that have been changed from Forethought.

Mr. Pierson announced that the October 7th CPSB Executive Committee/Board Work Session will begin at 3:00 p.m.

Adjournment. *Mr. Riall moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:59 p.m.*

September 25, 2014

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met on Tuesday, September 25, 2014 at approximately 10:00 a.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following members present constituting a quorum: Mary Trammel and Ginger Armstrong. Mr. Riall and Miss Green were absent. Also present were Dr. Lamar Goree, superintendent, Jim Lee, chief financial officer, and Randy Watson, director of insurance. Mrs. Armstrong led the prayer and Pledge of Allegiance.

REQUEST FROM BIOMEDICAL RESEARCH FOUNDATION FOR SALES TAX EXEMPTION ON LARGE EQUIPMENT

Mr. Lee reported that in 2013 the Board approved a resolution exempting sales tax on capital equipment purchased by the Biomedical Research Foundation through December 31, 2013. The Biomedical Research Foundation approached the District to request that this sales tax exemption on capital equipment be made permanent. At the last Insurance and Finance Committee meeting the Committee asked that staff provide a list of purchases and that these be brought to the Board for approval each year. Mr. Lee announced that the Biomedical Research Foundation provided a list of upcoming purchases which totals approximately \$8.9 million and the sales tax the District would receive on this amount would be \$134,000. He further added that the City of Shreveport and other taxing authorities have already adopted resolutions permanently exempting sales tax on these type purchases. Mr. Lee also shared with the Board what Biomed provides in funding to the Caddo Parish Public Schools.

Mrs. Armstrong moved, seconded by Ms. Trammel, for the Insurance and Finance Committee to recommend to the Caddo Parish School Board at its October 21, 2014 meeting that Biomedical Research Foundation be granted permanent exemption from the collection of sales tax on capital equipment. Committee members agreed that, because the Biomedical Research Foundation has always been a supporter of programs in Caddo for our children, making this exemption on capital equipment is something the Board should support. Vote on the motion carried unanimously.

Mr. Lee announced he will work with legal counsel to provide the appropriate resolution for the Board's consideration at the October 21, 2014 meeting.

Superintendent Goree expressed his appreciation to the committee for this decision because he believes anytime we can partner with the community for our children, it is a good thing.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Armstrong, to adjourn. Vote on the motion carried unanimously and the meeting adjourned at approximately 10:10 a.m.*

October 7, 2014

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, October 7, 2014 at approximately 3:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following Bonita Crawford and Mary Trammel present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Curtis Hooks, Nell Fisher, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell, as well as Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and Pledge of Allegiance were omitted.

ESTABLISH THE AGENDA FOR THE OCTOBER 21, 2014 CPSB MEETING

Superintendent Goree highlighted the items for the Board's consideration at its meeting on October 21, 2014, and the following discussion ensued.

Approval of Sponsorship of Green Card. Mr. Rachal asked about our responsibilities in sponsoring this green card and is the Board opening itself up to do the same for others. Dr. Robinson explained this recommendation is from Academic Affairs and this teacher's resume' and employment history are attached. She further stated this teacher is deemed worthy and staff recommends approval since this is a shortage area. Relative to cost, Mr. Abrams responded to go through the green card process does cost legal fees which start at approximately \$800 for filing fees; and it does take time to go through the process with an attorney hired to handle it. He further explained to the Board there is no requirement that the Board has to approve this, but it is recommended by staff because of the benefit to the District. Mr. Rachal stated he has no problem with the qualifications, but he only wants it clear that the Board is not opening itself up to approve all green card requests brought to it. Mr. Abrams said the precedence has been set on green cards, but this request has provided the documentation as to why it is recommended to sponsor this teacher's green card. Mr. Rachal asked staff to provide the estimated cost since the budget is affected. Dr. Robinson confirmed staff will provide the requested information and clarified there are others we will not continue to sponsor because of job performance; and most of the ones in the group mentioned now have T Visas and are off Caddo's books.

Approval of Agriculture and Hunting Lease for Dixie Property. Dr. Goree explained that this lease allows the bid winner to hunt on the property and is a standard item. Mr. Riall asked staff how many acres are on this property and Ms. Lloyd responded approximately 450 acres (more or less). Ms. Trammel asked how is the cost determined? Ms. Lloyd responded that the process requires the District to do a lease which is sent out for competitive bid and it is recommended to the Board for approval. Mr. Riall asked if there is currently an oil and gas lease on this land, and Mr. White responded there is. Mr. Rachal asked if these funds are put in the General Fund and if there is a problem with the Board designating these funds for something specific. i.e. school supplies for teachers. Mr. Pierson announced he will notify the specific committee chair to address this issue.

Resolution Exempting Sales & Use Tax for Capital Equipment for the Biomedical Research Foundation of Shreveport. Mr. Rachal requested clarification of this item and if the Board is now considering this on a monthly basis since the Board just addressed this. Mr. Lee explained that the Board did vote that the Biomedical Research Foundation would submit all their purchases to the Board and they did. After review by the Insurance and Finance Committee, the Committee approved bringing the recommendation to the Board to approve a perpetual exemption for Biomed's large capital purchases because of the many things they do in Caddo's schools for the students. A list of these things was provided and Mr. Lee further explained that for this year it means an exemption of approximately \$130,000. Mr. Rachal asked if the committee considered recommending a 5 or 10-year exemption as opposed to a perpetual exemption; and if not, why? Mr. Lee added it wasn't brought up; however, at any time the

Board chooses, it can vote to revoke the decision; and Mr. Abrams confirmed that was correct and there is provision for that in the resolution presented for the Board's approval. Mr. Rachal asked the Board President if there is a list of the companies we have granted tax exemptions, and Mr. Lee reported he will contact the sales tax administration to determine if there are others.

Mr. Riall stated he believes a tax exemption was given to Universal Oil Products, and Mr. Abrams explained there is a separate entity with authority to provide exemptions from such taxes. He further stated that any the Board voted on, i.e. General Motors expansion, it was for an exemption relative to equipment purchases for the expansion. Mr. Riall asked if this Board has granted any additional exemptions, and Mr. Abrams responded only the Industrial Board of Caddo can waive such taxes.

Mrs. Bell encouraged the Board to support this request from a company that has provided much to the students of Caddo Parish. Mr. Pierson stated that he would request that, in the future, committee chairs report at the next Board meeting on what happened in the committee meeting and what the committee is recommending; and that this report be given at the next work session.

Authorization for Salvage. Mrs. Lloyd clarified that bringing this item is to gain permission for an ongoing on-line auction to dispose of the salvage items. Mr. Rachal asked if there are any laws that dictate how we must carry out public auctions, and Mr. Abrams stated he has assigned this to determine what rules must be followed. Mr. Rachal asked if he understands we are changing over to doing auctions this way, and Mrs. Lloyd responded that is correct because holding the live auctions requires tying up movement of items in storage as well as the cost of an auctioneer. Mr. Rachal asked about the cost of an auctioneer and Mrs. Lloyd explained that auctioneers receive a percentage of the take for the day (25 or 30%) and the contractor responsible for moving and storing the items as well as setting up for the auction receives a percentage of the day's take. Mr. Rachal asked about the cost for the on-line auction, and Mrs. Lloyd explained that she reviewed two vendors for this service and both offer the service at no cost; however, they do possibly charge a premium to the buyers. Mr. Rachal stated he likes the change and asked how much revenue is typically generated annually from the salvage. Mrs. Lloyd responded it possibly generates \$10-\$15,000. Mr. Rachal asked if this includes cars and Mr. Lee said staff drives the vehicles until they cannot be driven any more. Mr. Rachal asked that the President request that the appropriate committee look at this and determine if it is possible to allocate these funds to something specific.

Mr. Riall asked if we eliminate the live auction and go to an on-line auction, will this eliminate the contractor that moves the items to a central location? Mrs. Lloyd explained not all items that go through the salvage process go to the salvage sale as some are repurposed; and the ones determined to have no value to the District would be placed in the on-line auction. Mr. Riall asked if the property does not sell at auction does it become the property of the contractor? Mrs. Lloyd responded that is how it is currently done. Mr. Riall said he questions this since he is aware that various items that did not look like salvage were found in other auctions. Mrs. Lloyd explained once the items have gone through the salvage process and they are offered to the public, they can be considered trash and we pay for the items to be hauled off. Mr. Riall shared his concern that "trash" items are being hauled off but then sold for large amounts, and he plans to bring a policy to address the concern that others are profiting much on the District's salvage.

Ms. Trammel noted the comments about designating these funds and she believes some of the money should be left in those specific funds in the event of an emergency. Mr. Pierson added he believes that is why this should go to committee.

Approval of Resolution of Caddo Parish School Board for Special Counsel (disciplinary hearing officers). Mr. Rachal asked if this is something the Board addressed in today's special session? Mr. Abrams responded the Board addressed this last month and today in the Special

Session, the Board approved the change in one of the hearing officers. This item is to approve a resolution to be sent to the Attorney General for approval of the rates for the hearing officers. Mr. Hooks asked if he understands this is money coming from Caddo and not the State, and Dr. Goree responded that is correct. Mr. Hooks asked if he understands correctly that the State requires the District to have these hearing officers and Dr. Goree responded that is correct.

Southwood Dressing Room. Steve White explained the girls' softball team's dressing room is currently in a T Building that needs extensive repairs and staff's recommendation is that, in lieu of spending an exorbitant amount of money on a 1950's T Building, a new structure be provided. Miss Green asked staff to explain the cost difference, and Mr. White reported the cost for a new structure would be between \$250,000 to \$265,000. Staff is looking at two sources of funding, one being Title IX at approximately \$100,000 to \$150,000 and second, Southwood has agreed to forego a paving project in the third year of their capital projects in order to get the girls athletic facility fully funded and operational. Miss Green asked about the cost to repair the T Building and Mr. White said it would be extensive to do repairs and to put in another T Building would cost approximately \$120,000. Dr. Goree added the Title IX funds addresses equitable services for females the same as for male athletics; and because Southwood agreed to put off their paving project and reallocate those funds to this project, the funding is covered for this project. Mr. Hooks asked that staff clarify Title IX for those not familiar with it, and Mr. White explained it is a Federal program whereby schools are mandated to bring the female athletic facilities on par with the male athletic facilities. Mr. Pierson stated that any District that receives Federal money is obligated to have women athletic facilities comparable to the male facilities.

Expansion of Dental Services for Miles for Smiles. Mrs. Crawford asked for clarification of this item since the only backup provided is that the previous provider will no longer be servicing schools in Caddo or Louisiana. Dr. Goree explained that originally when the Board approved Miles for Smiles, the Board limited the number of schools they could serve to those not currently being serviced by the current provider. Since that time the current provider has decided to no longer provide any dental services in the State of Louisiana, so it is necessary to change the language and give Miles for Smiles open permission to utilize their services throughout the District. Mr. Hooks asked if there is a problem getting this information as quickly as possible to Dr. Alexander? Dr. Goree responded that he spoke with Dr. Alexander today explaining to him where we are in the process and he will update him again after the meeting tonight that it will be voted on by the Board on October 21st. Mr. Riall asked if the Board's approval of Miles for Smiles has anything to do with the current provider leaving Louisiana, and Dr. Goree said no.

Terms of Administrative Contracts. Mr. Rachal asked for clarification of Section 6, Transfer or Assignment of Appointee, parts A and B, because both parts do not address reassignment and that their salary will remain the same but possibly adjusted at the end of their contract. Mr. Abrams stated that B refers to A other than what is in Roman Numeral IV, which is the law. He said we are following the Statute and noted the contract is written exactly the way the Statute has it with the exception of a few minor changes resulting from the latest Act giving the Superintendent authority for transfers, administrative assignments and adding the disciplinary officers. He further explained that Roman Numeral IX addresses a Reduction in Force and if positions are eliminated, they are eliminated and their salary reverts back to the position they are placed in. Mr. Rachal asked if the discontinuation or abolishment by the School Board should read and/or. Mr. Abrams clarified these are positions abolished by the Board through the budgetary process and based upon the recommendation of the superintendent. Mr. Rachal asked if the superintendent deems a position no longer necessary and moves that person to another position, doesn't that need to be pointed out to the Board so that Board makes sure it is discontinued. Mr. Abrams further explained that when discontinuing a position, the Board must recognize this is not when there are too many in a position, i.e., too many principals or assistant principals; but a position being totally eliminated across the District; and he cited the recent elimination of the Fair Share Administrator position as an example. Mr. Rachal encouraged the

Superintendent to be very careful if it is determined there is a need for new positions that add to the staffing. Mr. Abrams further stated this only applies to teachers that have been promoted to administration; and this is before the Board for consideration as a result of the Superintendent now making all decisions regarding personnel but Act 548 of the Legislature states that prior to a new administrative contract, the Board needs to know the terms of the contract.

Mrs. Bell asked about the termination of the appointment during the contract term and the employee being returned to the last position they held, and will they receive the same salary. Mr. Abrams responded they will not and this contracts states if the Superintendent brings charges as in a tenure hearing to determine if they can be removed for cause, then they can be placed in their previous position at that position's salary.

President Pierson recommended Items 8.01-8.08 and 8.10-8.14 as the Consent Agenda, and *Ms. Trammel moved, seconded by Mrs. Crawford, approval of the proposed agenda and consent agenda for the October 21, 2014 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the Board on Item 8.10 "Approval of Resolution of Caddo Parish School Board for Special Counsel (disciplinary hearing officers); and stated that as she understands 570, the Board is instructed to provide for the policies; however, she doesn't believe the policy indicates the Board is to set the amount or who pays the amount. She added she will take severe umbrage with any member that comes before the Board and the District pays the officer hearing the case; and she believes there may be opportunity to share costs or possibly lose one's pay. She encouraged the Board to review this more closely before taking action and that the School Board not be who decides the officers or how much the officers will be paid.

Marty McGreal, Director, and Jonathan Keith, Principal, Pathways in Education, expressed appreciation to the Board and staff for assistance in their efforts to assist over 100 students who were out of school or not being successful in their previous education environment. He extended an invitation for all to stop by to tour their facilities and meet the students. Mr. Rachal encouraged them to also speak with Mr. Strother in Communications to determine any additional areas where we might assist them.

Ms. Trammel invited Board members to attend the National Night Out Festivities in the 200 Block of E. 75th Street in Cedar Grove and encouraged Board members to participate in the United Way campaign.

President Pierson asked Board members to make a special effort to read the information on BoardDocs and get answers to questions prior to the meetings so as to hopefully better streamline the Board meetings. He also referenced the recent publicity over the cafeteria issue at Central Office and asked Mr. Riall to convene a meeting of the Audit Committee and that staff should bring recommendations to the Committee as to the direction we may need to follow in moving forward. He also stated the media should be aware it is the Board that ordered the audits so the Board could be a better Board and the system a better system in meeting the needs of the children we support. He also wanted the media to be reminded that it is not them (the media) that brought this up; but again, the Board that ordered department audits. Mr. Pierson added it is the Board's and the staff's goal to make the system more palatable for those it serves; and when the attempt is not right, the Board and staff will continue to go back and redo it until it is right.

Mr. Hooks stated he believes the problem is it was brought up in 2011, yet nothing was done.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:32 p.m.*

October 7, 2014

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, October 7, 2014, at 3:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following Board members present constituting a quorum: Steve Riall, Curtis Hooks, Mary Trammel, Nell Fisher, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong, and Dottie Bell. Board members Jasmine Green and Charlotte Crawley were absent. Also present were Dr. Lamar Goree, superintendent, and Reginald Abrams, legal counsel. Mrs. Bell led the prayer and Pledge of Allegiance.

VISITORS

There were no visitors addressing the Board.

The Superintendent highlighted items for the Board's consideration at today's special session.

ADOPT RESOLUTION PROVIDING FOR THE ISSUANCE AND SALE OF GENERAL OBLIGATION SCHOOL REFUNDING BONDS, SERIES 2014A, AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Rachal moved, seconded by Mr. Hooks, to adopt the following resolution giving preliminary approval to the issuance of not to exceed Seventeen Million Dollars (\$17,000,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters therewith.

Mr. Rachal asked staff to share what the savings will be to the taxpayers as well as savings seen in past refunding of school refunding bonds. Mr. Lee explained this is something the district has done in the past and staff anticipates this refunding of General Obligation bonds to save taxpayers approximately \$700,000. He further stated that since 2002, including this \$700,000, the savings to taxpayers as a result of refunding General Obligation bonds totals approximately \$5.9 million. Mr. Rachal also noted additional benefits of refunding, including raising the District's bond rating to AA-.

Vote on the motion carried unanimously and the following resolution was approved.

RESOLUTION

A resolution giving preliminary approval to the issuance of not to exceed Seventeen Million Dollars (\$17,000,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, Parishwide School District of Caddo Parish, Louisiana (the "Issuer") has heretofore issued \$20,000,000 of General Obligation School Bonds, Series 2007 (the "Series 2007 Bonds"); and

WHEREAS, in order to provide debt service savings to the Issuer, the Issuer desires to refund all or any portion of the Issuers outstanding Series 2007 Bonds pursuant to the provisions of Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority (the "Act"), through the issuance of its refunding bonds; and

WHEREAS, pursuant to the Act, and subject to the approval of the State Bond Commission, the Issuer desires to accomplish the refunding by authorizing the issuance of not exceeding Seventeen Million Dollars (\$17,000,000) of its General Obligation School Refunding Bonds (the "Bonds"), to be payable from unlimited ad valorem taxes; and

WHEREAS, the Issuer desires to make formal application to the State Bond Commission for approval of the issuance of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Preliminary Approval of the Bonds. Preliminary approval is given to the issuance of not exceeding Seventeen Million Dollars (\$17,000,000) of General Obligation School Refunding Bonds (the "Refunding Bonds"), of the Issuer, to be issued for the purpose of refunding all or any portion of the Issuer's outstanding General Obligation School Bonds, Series 2007, and paying the costs of issuance of the Refunding Bonds, said Refunding Bonds to be payable from and secured by unlimited ad valorem taxes now being levied and collected annually in excess of all other taxes on all the property subject to taxation within the territorial limits of the Issuer. The Refunding Bonds shall bear interest at a rate or rates not to exceed five percent (5%) per annum, to be determined by subsequent resolution of this Governing Authority at the time of the sale of the Refunding Bonds, and shall mature no later than March 1, 2032. The Refunding Bonds shall be issued in fully registered form, shall be sold to the purchasers thereof at a price of not less than 97% of par, plus accrued interest, and shall have such additional terms and provisions as may be determined by this Governing Authority.

SECTION 2. Employment. This Governing Authority finds and determines that a real necessity exists for the employment of special counsel in connection with the issuance of the Refunding Bonds, and accordingly, Foley & Judell, LLP, of New Orleans, Louisiana, as Bond Counsel and Jacqueline A. Scott & Associates, APLC, of Bossier City, Louisiana, as Co-Bond Counsel, are hereby employed to do and perform work of a traditional legal nature as bond counsel with respect to the issuance and sale of said Refunding Bonds. Said Bond Counsel and Co-Bond Counsel shall prepare and submit to this Governing Authority for adoption all of the proceedings incidental to the authorization, issuance, sale and delivery of said Refunding Bonds, shall counsel and advise this Governing Authority as to the issuance thereof and shall furnish their opinions covering the legality of the issuance of the Refunding Bonds. The total combined fee of Bond Counsel and Co-Bond Counsel shall be fixed at a sum not exceeding the maximum fee allowed by the Attorney General's fee guidelines for such bond counsel work in connection with the issuance of revenue bonds and based on the amount of said Refunding Bonds actually issued, sold, delivered and paid for, plus "out-of-pocket" expenses, said fees to be contingent upon the issuance, sale and delivery of said Refunding Bonds. That pursuant to instructions from the Superintendent, Bond Counsel shall cause to be prepared an official statement with respect to the sale of the Bonds and the costs of the preparation and printing of said official statement, as approved by the State Bond Commission, shall be paid from the proceeds of the issue for which it has been prepared. Said Official Statement may be submitted to one or more of the nationally recognized bond rating service or services, together with a request that an appropriate rating be assigned. Payment for all ratings shall be made by the Superintendent upon presentation of appropriate statements from the particular rating service furnishing the ratings. The Superintendent is hereby authorized and directed to execute, and this Governing Authority hereby agrees to and accepts the terms of, the engagement letter of Bond Counsel and Co-Bond Counsel on file with the Secretary. A certified copy of this resolution shall be submitted to the Attorney General of the State of Louisiana for his written approval of said employment and of the fees herein designated, and the Superintendent is hereby empowered and directed to issue vouchers in payment for the work herein provided for upon completion of the work herein specified and under the conditions herein enumerated.

SECTION 3. State Bond Commission. Application is hereby made to the State Bond Commission, Baton Rouge, Louisiana, for approval of the issuance and sale of the Refunding Bonds and for consent and authority to proceed with the issuance and sale of the Refunding Bonds as provided above, and Bond Counsel is directed to make application to the State Bond Commission in accordance with the foregoing on behalf of the Governing Authority.

By virtue of applicant/issuer's application for, acceptance and utilization of the benefits of the Louisiana State Bond Commission's approval(s) resolved and set forth herein, it resolves that it understands and agrees that such approval(s) are expressly conditioned upon, and it further resolves that it understands, agrees and binds itself, its successors and assigns to, full and continuing compliance with the "State Bond Commission Policy on Approval of Proposed Use of Swaps, or other forms of Derivative Products Hedges, Etc.", adopted by the Commission on July 20, 2007, as to the borrowing(s) and other matter(s) subject to the approval(s), including subsequent application and approval under said Policy of the implementation or use of any swap(s) or other product(s) or enhancement(s) covered thereby.

SECTION 4. Appointment of Investment Banker/Underwriter. Raymond James & Associates, Inc., of New Orleans, Louisiana (the "Underwriter"), is hereby appointed as investment banker/underwriter in connection with refunding the Series 2007 Bonds, any compensation to be subsequently approved by the Issuer and to be paid from the proceeds of the Refunding Bonds and contingent upon the issuance of the Refunding Bonds; provided that no compensation shall be due to said investment banker/underwriter unless the Refunding Bonds are sold and delivered.

SECTION 5. Sale of Bonds. The Bonds are hereby authorized to be sold to the Underwriter, and the Superintendent is hereby authorized to execute a Bond Purchase Agreement with the Underwriter, in form and substance satisfactory to Bond Counsel to the School Board, provided the sale of the Bonds produces minimum net present value savings (after payment of all costs) to taxpayers of not less than 3.00% of the principal amount of Series 2007 Bonds being refunded.

The foregoing resolution having been submitted to a vote, the vote thereon was as follows:

School Board <u>Members</u>	<u>Yea</u>	<u>Nay</u>	<u>Absent</u>	<u>Abstaining</u>
Steve Riall	X	_____	_____	_____
Jasmine Green	X	_____	_____	_____

STATE OF LOUISIANA
PARISH OF CADDO

I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana, do hereby certify that the foregoing pages constitute a true and correct copy of a resolution adopted by said Parish School Board on October 7, 2014, giving preliminary approval to the issuance of not to exceed Seventeen Million Dollars (\$17,000,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters in connection therewith.

IN FAITH WHEREOF, witness my official signature on this, the 7th day of October, 2014.

/s/ T. Lamar Goree, Ph.D.
Secretary

PROPOSED REVISION TO CPSB POLICY GBDB (EMPLOYMENT OF RETIRED PERSONNEL)

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed revision to CPSB Policy GBDB (Employment of Retired Personnel) as recommended by staff and submitted in the mailout.

Mr. Riall asked staff to clarify this proposed revision since he brought a recent change approved by the Board and what is now being recommended to remove from the policy. Dr. Goree explained that one of the problems has been finding teachers for specific schools; and while we may have a certified teacher willing to work in School A, they will not work in School B. This has created a situation for HR in attempting to fill the vacancies in “School B”. He further added this recommended revision supports the recommendation from Forethought, the District’s guidance group on policies. Dr. Robinson echoed the superintendent’s comments and added that approval of this revision will allow HR to consider the retiree pool sooner than staff has been able to do so in the past. She stated that positions have been posted, reposted, interviewed and interviewed again, and staff has still been unable to fill positions. Mr. Riall asked if this type situation is not considered a critical shortage; and Mr. Abrams explained that critical shortage is defined by Statute and is in this policy and clarifies what staff must do if there is a critical shortage. He further stated that applicants exist, but they will not work at particular areas, which is not a critical shortage as defined in Statute. Dr. Goree also added that staff has done numerous things in attempting to recruit certified teachers in these situations; and since it is already October, staff needs to do something quickly to get permanent teachers in these classrooms. Mr. Riall said his concern is not hiring retired teachers, but there was a long-time procedure where we would not hire any retired teachers; and because he continued to get calls, he brought the change to the policy that is now being recommended for deletion. He asked if this would be open enrollment; and if not, and this can be done without problems, he is o.k. with it. Dr. Robinson stated that it will not be an open enrollment, but only a way to look at staffing the difficult to staff positions in schools where no one has indicated an interest in serving.

Mr. Hooks asked if the teachers receive their retirement check plus a check from Caddo? Mr. Abrams responded yes if they meet the requirements of a retired teacher, which is also in the policy, and they returned to active service prior to June 30, 2010. The retirees after 2010 cannot receive both checks. Dr. Goree also explained that CMCT currently has one certified math and science teacher thus the urgency to move quickly and get someone that is certified in these critical positions.

Mrs. Bell asked if she understands correctly that we are revising this policy which has already been approved by the State Department and Mr. Abrams explained that if a retiree returns as a sub, they should not receive more than 25% of their salary. Dr. Goree stated that the Board is committed to giving preference to certified teachers when available and this is in the policy.

Mr. Hooks asked if these teachers are equipped to serve the whole child, Common Core curriculum or are we not continuing disadvantages? Dr. Goree responded that staff will not place anyone in the classroom that does not meet the qualifications. Having looked far and near to find certified teachers, he reported that some people have spent time in these schools and have volunteered in these schools and we believe we can now use them to help meet the needs.

Mr. Riall moved to call for the question and vote on the motion carried unanimously. Vote on the main motion carried unanimously.

REVISION OF DISCIPLINARY HEARING OFFICER PANEL

Mr. Ramsey moved, seconded by Ms. Trammel, that, due to potential conflicts, the Disciplinary Hearing Officer panel be revised to remove Debbie Baukman as hearing officer and that Attorney Monique Davis be added to the panel as recommended by legal counsel. Vote on the motion carried unanimously.

EXECUTIVE SESSION**ANGELA HENDERSON, IND AND O/B/O HER MINOR CHILD, DEMARIO HENDERSON V. RUTHERFORD HOUSE AND CADDO PARISH SCHOOL BOARD, NO. 555,698-C 1ST JDC, CADDO PARISH, LOUISIANA**

Mr. Ramsey moved, seconded by Ms. Trammel, to approve settlement as recommended by legal counsel. Vote on the motion carried and the vote on the motion carried unanimously.

ADJOURNMENT

Mr. Hooks moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 3:30 p.m.

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, Sr., President

October 21, 2014

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, October 21, 2014 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Nell Fisher, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The Southwood High School JROTC posted the colors followed by the Pledge of Allegiance and prayer by Mrs. Bell.

CONSIDERATION OF MINUTES OF THE SEPTEMBER 16, 2014, SEPTEMBER 25, 2014 AND OCTOBER 7, 2014 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the September 16, 2014, September 25, 2014 and October 7, 2014 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Southwood High School Choir. The Southwood High School Choir, under the direction of Michelle Deslattes, sang two musical presentations with one being the Star Spangled Banner.

JROTC Promotions/Awards/Presentation. LTC Eric Sweeney, director of Army Instruction, recognized Nicholas Hall, Captain Shreve High School, who was promoted as the Caddo Parish Cadet Corps Commander, and Brittany M. Woodel, Southwood High School, who received the Legion of Valor of Bronze Cross Achievement.

Cadets Ebony Hall, Alexis Brown and Kyanna Leonard from the Woodlawn Leadership Academy JROTC shared information and a powerpoint on Woodlawn Leadership Academy and what the JROTC program means to them. Mrs. Leonard, Kyanna Leonard's Mom, also shared her experience in working with the Woodlawn JROTC Program and the opportunities offered her children through attending Woodlawn and being a part of the JROTC Program.

Board member Trammel stated that good things are happening at Woodlawn Leadership Academy and in Cedar Grove and she hopes the media has picked up on the positive things happening at Woodlawn. She commended the great leadership at home, in the school as well as the administration, faculty and students for moving Woodlawn Leadership Academy forward.

National Achievement Scholarship Program Semifinalists. The following students were recognized as National Achievement Semifinalists: (1) Darrian Mills (C. E. Byrd); (2) Kieran Alford (Caddo Magnet); and (3) Bilqis Williams (Caddo Magnet). The National Achievement Scholarship Program recognizes outstanding African American students who have demonstrated promise and who want to increase their opportunities for higher education.

2015 National Merit Scholarship Program Commended Students. The following students were recognized as commended students in the 2015 National Merit Scholarship Program: Kelli Murray (C. E. Byrd); and Elijah Ash, Neil Chandler, Alden Conner, David Higgins, Rachael Miller and Brandi Sun (Caddo Magnet). Commended students are recognized for their exceptional academic promise.

National Merit Semifinalists. The following students were recognized as National Merit Semifinalists: Rebekah L. Bryant (C. E. Byrd); and Caleb D. Basinger, Matthew J. Carman, Vincent Huang, Neil Nathan, Amy L. Ren, Ryan E. Shacklette and Noah D. Sorkey (Caddo Magnet). Mr. Strother noted that this program recognizes students who show exceptional academic ability and potential for success in rigorous college studies.

One Class at a Time Winner. Marlyn Pangatungan, Oak Park MicroSociety Elementary School, was recognized as the latest KTBS “One Class at a Time Winner”. Ms. Pangatungan will use the \$1,000 grant for her classroom.

“Let’s Move” Active Schools Program. Erica Gilliam, Alliance for a Healthier Generation, presented Caddo Middle Magnet with the “Let’s Move” Active Schools Program award. She said Caddo Middle Magnet earned this award for implementing all the physical education and physical activity criteria of the Healthy Schools Program and the “Let’s Move” Active Schools Program. Caddo Middle Magnet was the only school in Caddo awarded this recognition and one of only three schools in the State of Louisiana. Marti Holbrook, PE teacher, and Robin DeBusk, principal, were recognized for their efforts in earning this award. Isaac McFarland, youth advisory board member for the Alliance for a Healthier Generation, stated that with students spending the majority of their time at school, the goal is to incorporate the U. S. Department of Health and Human Services’ recommendation that children and adolescents are physically active at least 60 minutes a day because research indicates that healthier students are better learners and physical activity can improve students’ academic achievement.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators (assistant principals): Jerry Byrd, Youree Drive; Gregory Panos, C. E. Byrd; Nicholaus Smith, North Caddo; Dr. Grady Smith, Woodlawn Leadership Academy; and Dr. Darrell Webb, University.

Mr. Rachal expressed appreciation to the Superintendent and Board members for contributing to the scholarship for Suzanne Williams, one of Caddo’s students, and he shared a picture of her receiving the scholarship.

VISITORS

Jon Glover introduced Charles Rambo, supporter of her interests, and she shared newly released 2013-14 school performance scores and her concern for the lack of academic achievement in most of Caddo’s schools. Ms. Glover said she is concerned where Caddo stands today and why the performance is not changing to where academic success is evident. She referenced a recent dialogue by an administrator who shared their concern for staffing in schools where students continue to lag behind. Ms. Glover shared her passion that effective resources are available for every child in Caddo Parish and that she looks to the Board to address this critical need. She noted allegations of possible improprieties, practices and over-staffing of food service personnel and asked the Board if it believes over-staffing of food service personnel is equivalent to not providing efficient teaching staff to educate the mass quantity of children who already face being left behind? She added the ineffectiveness of the administration to provide certified staff to address the students being left behind should be at the top of the list. Also, she said when attention is diverted from crucial issues to issues that appear to support an agenda, a perspective is lost and Caddo Parish is in trouble. While people cannot be made to go where they do not wish, she believes this option is moot when it comes to educating every child in Caddo Parish; and if they do not wish to go, she believes alternative settings should be provided to insure that every child in Caddo Parish has access to good, sound education and we are teaching children, not color. She asked the Board to take a vested interest in every child in Caddo Parish.

Jackie Lansdale, Red River United, stated they track memberships and new teachers, and they are concerned over new teachers already leaving the System. Knowing what it takes to become a teacher, she questions why someone would make the decision to leave within a few short months of reaching a goal to become a teacher. She stated what she believes happens more often than not is a new teacher leaves before Red River United is even aware there is a problem. She also added that teachers are lost because they do not feel supported and she asked the Board to consider the impact of management and abusive relationships in the workplace. Having some of the best principals in Caddo, Mrs. Lansdale stated that some are also abusive and many “got you” behaviors have been observed in the District causing many new teachers to leave Caddo. Mrs. Lansdale noted what should be considered as red flags and encouraged the Board to sit down with the Red River United in an effort to present a policy for adoption by the Board similar to an Independent School District in Houston to address bullying in the work place.

ESTABLISH THE AGENDA AND THE CONSENT AGENDA FOR OCTOBER 21, 2014 CPSB AGENDA

Superintendent Goree highlighted items for the Board’s consideration and the following discussion ensued. President Pierson announced that Item 8.09 “Authorization of Salvage” is pulled and Items 6.02, 8.02-8.08, and 8.10-8.14 are the consent agenda.

Mrs. Crawford moved, seconded by Miss Green, to establish the agenda and consent agenda for the October 21, 2014 CPSB meeting as submitted. Vote on the motion carried unanimously with Board member Crawley absent for the vote.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Hooks, to confirm the consent agenda. Vote on the motion carried unanimously with Charlotte Crawley absent for the vote. The following is a summary of the Board’s action on the consent agenda items.

Item No. 6

6.02 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

Item No. 8

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Approval to Change the Name of the Jerry Burton Stadium to the Jerry Burton Memorial Stadium. The Board approved changing the name of the Jerry Burton Stadium to the Jerry Burton Memorial Stadium.

8.04 Approval of Sponsorship of Green Card. The Board approved the request to sponsor a green card for Eunnhee Choi as requested by staff and submitted in the mailout.

8.05 Resolution Exempting Sales & Use Tax for Capital Equipment for the Biomedical Research Foundation of Shreveport. The Board approved the resolution exempting sales & use tax for capital equipment for the Biomedical Research Foundation of Shreveport as recommended by staff and submitted in the mailout.

8.06 Expansion of Dental Services for Miles for Smiles. The Board approved the expansion of Dental Services for Miles for Smiles as recommended by staff and submitted in the mailout.

8.07 Cooperative Agreement between CPSB and Shreveport Job Corps. The board approved the Cooperative Agreement between CPSB and Shreveport Job corps as recommended by the staff and submitted in the mailout.

8.08 Approval of Agriculture and Hunting Lease for Dixie Property. The Board approved the bid of Gordon Boogaerts for the agriculture and hunting lease for the Dixie property as submitted in the mailout.

8.10 Approval of Resolution of Caddo Parish School Board for Special Counsel (Disciplinary Hearing Officers). The Board approved the CPSB resolution for Special Counsel (Disciplinary Hearing Officers) as recommended by legal counsel and submitted in the mailout.

8.11 Southwood Dressing Room (Capital Projects). The Board authorized staff to proceed with planning and bidding of a new softball dressing room at Southwood High School as recommended by staff and submitted in the mailout.

8.12 Approval of Terms of Administrative Contracts. The Board approved the terms of administrative contracts in accordance with Act 548 of the 2014 Louisiana Legislature as recommended by legal counsel and submitted in the mailout.

8.13 Change in November 4, 2014 Executive Committee Meeting to November 5, 2014, The Board changed the November 4, 2014 Executive Committee meeting to Wednesday, November 5, 2014 due to November 4, 2014 being election day.

8.14 Request to Consent to Assign State Agency Lease #6889 for Oil, Gas and Other Liquid or Gaseous Minerals covering lands located in Caddo Parish to J-W Operating Company. The Board approved the request to consent to assign state agency lease #6889 for oil, gas and other liquid or gaseous minerals covering lands located in Caddo Parish to J-W Operating Company as recommended by staff and submitted in the mailout.

BIDS – PURCHASING

Ms. Trammel moved, seconded by Mrs. Crawford, to approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) OM Office Supply, Inc. for the purchase of calculators; and (2) Shreveport Gymnastics as the primary source for student uniforms for the Title I Homeless Division. Mr. Rachal asked staff to explain the reason for selecting only one location for the Homeless uniforms. Mrs. Lloyd explained staff went out with an RFP which offered numerous local vendors the opportunity to present a proposal for providing the student uniforms for the Title I Homeless Program. After reviewing both bids with Pittre Walker, Homeless Director, it was deemed Shreveport Gymnastics would be the primary; and in the event there was a problem with color/sizing, etc., a secondary provider was selected to hopefully provide needed uniforms in as timely a fashion as possible. Mr. Rachal asked if he understands this was not based on price alone, and Mrs. Lloyd said that is correct and Shreveport Gymnastics was actually the low bidder as well.

Mr. Ramsey asked Mrs. Lloyd how bids were collected; and Mrs. Lloyd explained that the standard state rules and regulations for proposals were used and it was advertised (Caddo website and electronic bid site) and when due, they are opened and read aloud, the information is tabulated and presented to the Board. Mr. Ramsey asked if there is any telephone solicitation to vendors, and Mrs. Lloyd said not for this type of bid.

Vote on the motion carried unanimously with Mrs. Crawley absent for the vote. A copy of the bid tabulation sheet is filed in the permanent record for the October 21, 2014 CPSB meeting.

BIDS – CAPITAL PROJECTS/CONSTRUCTION

Mr. Hooks moved, seconded by Mr. Rachal, to readvertise and rebid Project 2015-401 "Northwood Lighting Retrofit" as recommended by staff and submitted in the mailout. Mr. Rachal asked staff what declared the bid non-responsive. Mr. White explained two contractors submitted bids on this project and both contractors had errors on their bids (one had the wrong project number on the envelope and the other had a strike through on the bid that was not properly initialed), which deemed both as non-responsive bids. Mr. Riall asked what specific area at Northwood does this retrofit cover? Mr. White said they will complete any classrooms needing completion, but he believes this will complete everything at Northwood including the auditorium. *Vote on the motion carried unanimously with Mrs. Crawley absent for the vote.*

SUPERINTENDENT'S REPORT

District Accountability and School Performance Scores. Dr. Goree announced that District Accountability and School Performance information was received today and explained the District remained stable in its performance with some bright spots; however staff is very appreciative and aware of the work left to be done. He expressed his appreciation to the schools for the outstanding work they have done in an effort to provide the best education possible for all students. He also highlighted two groups of schools – (1) Top Gain Schools and (2) Schools Moving up a Letter Grade. The schools moving up a letter grade include Blanchard Elementary, Cherokee Park, 81st Street ECE, Forest Hill, Caddo Middle Career and Technology, Mooretown, North Caddo High, Northside Elementary, Northwood and Werner Park. Top Gain schools include Blanchard, Claiborne Fundamental Magnet Elementary, 81st Street ECE, Herndon Magnet, Caddo Middle Career, Forest Hill, Mooretown, Northside, Westood Elementary and J. S. Clark. He encouraged everyone to take the time to celebrate the good being recognized today.

Update on Collaborations with the RSD. Superintendent Goree reported that everything is moving smoothly with the Recovery School District contract and he is happy to report that three of Caddo's schools in the Transformation Zone came out of failing status.

Update on SunGard. The superintendent reported that relative to SunGard, staff is preparing for a quarterly update meeting with SunGard, everything is moving forward at this time.

Update on Strategic Planning. Mr. Strother reminded everyone that another community meeting will be held on Thursday, October 23, 2014, 6:30 p.m. at Fair Park and Southwood High Schools. He also introduced the President of Evergreen Solutions Dr. Linda Recio. Dr. Recio shared an update on their recent activities. She reported that in this fourth trip to Caddo, everything is going very well and she highlighted the company (Evergreen Solutions), the process, the timeline and where they are in the timeline toward completion of this project to work with Caddo in the development of the District's Strategic Plan. Mrs. Recio reported a 25-member Committee representing a broad spectrum across the community is in place and will meet monthly to review the information collected during the public forums and surveys of students and other employees in preparation for submitting a proposed plan to the Board in the Spring of 2015.

Miss Green asked if the Board will meet again with this advisory committee and Dr. Goree responded in the affirmative that the Board will have several opportunities to meet with Evergreen before March of 2015.

Ms. Trammel noted that the Board has had plans before and asked what will the main end result be in looking at this plan? Dr. Goree said things have not always turned out the way staff desired it to, but he stated it is important to have a guidebook that will hold everyone accountable in making decisions using the strategic plan as the guide; and he believes this plan will create a school district with a more successful plan for the future.

ANNOUNCEMENTS AND REQUESTS

Mr. Riall announced that the Northwood/Fair Park game was broadcast live and each school received \$1,000.

Ms. Trammel asked that staff follow up on the employee bullying policy mentioned by Mrs. Lansdale.

Mr. Hooks announced that his last Town Hall meeting will be held October 30th at Judson at 6:00 p.m. Mr. Hooks also asked how much will the services of Evergreen Solutions cost the District. Superintendent Goree stated approximately \$80,000 which was approved by the Board and he will provide the exact amount to the Board. Mr. Hooks asked if something similar was not done a few years ago that did not prosper. Dr. Goree stated that it is not the process that does not prosper, but it is the people implementing that is usually the problem.

Mrs. Bell announced that the Booker T. Washington and Green Oaks Soul Bowl is coming up and encouraged Board members to participate in this historical school's festivities.

Miss Green expressed appreciation to Green Oaks for the grand reunion held last month and thanked Mr. Woolfolk for his assistance. Miss Green also asked if Northside made the most gain in the recently received scores, and Dr. Goree responded he was not sure if it was the most gain, but he is sure that Northside made sizeable gains.

Mrs. Armstrong asked Dr. Goree to readdress the situation with new teachers not receiving a full paycheck until October.

Ms. Trammel complimented Mr. Jones and the Transportation staff for their great work in preparing for the teachers' trip to Lafayette at 4:30 a.m.

Adjournment. *Mr. Hooks moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:23 p.m.*

Dr. T. Lamar Goree, Secretary Carl A. Pierson, Sr., President

November 5, 2014

The **Caddo Parish School Board (CPSB)** met in special session on Wednesday, November 5, 2014 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following board members present constituting a quorum: Steve Riall, Curtis Hooks, Mary Trammel, Nell Fisher, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

PERSONNEL RECOMMENDATION

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the personnel recommendation as recommended by the Superintendent and submitted in the mailout. Vote on the motion carried unanimously.

ACCEPTANCE OF RESIGNATION/RETIREMENT OF TENURED TEACHER IN LIEU OF TENURE HEARING

Mr. Ramsey moved, seconded by Mr. Hooks, that the resignation/retirement of PS effective October 31, 2014 in lieu of tenure hearing be accepted. Vote on the motion carried unanimously.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:37 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

November 5, 2014

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Wednesday, November 5, 2014 at approximately 4:37 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and Bonita Crawford and Mary Trammel present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Curtis Hooks, Nell Fisher, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell, as well as Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and Pledge of Allegiance were omitted.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE NOVEMBER 18, 2014 CPSB MEETING

Superintendent Goree highlighted the items for the Board's consideration at its meeting on November 18, 2014, and the following discussion ensued.

Bids. Purchasing. Mr. Rachal asked that staff provide additional information on the bids for musical instruments relative to the budget and how these are dispersed to the schools.

Rename the Auditorium at Oak Park MicroSociety School for Albert M. Moody, 1st

Principal at Bethune Jr./Sr. High School. Mrs. Bell asked for clarification on this item and if approving in December will meet the timeline for the alumni. Mr. Abrams explained that the action at the November 18th meeting will be to waive the 90-day time requirement by CPSB Policy FF and vote on the renaming of the auditorium will be at the December, 2014 meeting. A public hearing will also be held on November 18th to allow the public an opportunity to address this item 30 days prior to the Board's vote on renaming the auditorium.

President Pierson announced that items 6.02 and 8.03-8.04 are the consent agenda. *Ms. Trammel moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the November 18, 2014 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the Board on continued issues with the SunGard System and payroll, citing an example of a teacher hired on September 22nd being notified they would not receive a full paycheck until November. She stated other districts do not have a problem paying their new employees in a timely manner and she encouraged the Board to look closely at these issues. She also referenced the Board's recent discussions on the bullying policy and she looks forward to the opportunity to sit down and create this policy, as well as to work with staff in exploring absenteeism in the District and how we can use "a carrot as opposed to a stick" to encourage teachers and employees to be at school for the boys and girls. Mr. Rachal asked that staff report back to the Board on this item.

ANNOUNCEMENTS AND REQUESTS

Dr. Goree announced that after a thorough review, and to be as efficient as possible, the Central Office Cafeteria will close effective December 19th. He also announced it will reopen as a break room for employees, and staff will look at the possibility of additional vending machines, etc. The two employees currently working in the cafeteria will be reassigned to current vacancies within the district.

Mrs. Bell asked that staff provide an update on employee absenteeism at all schools and departments, including Central Office, for September and October. She requested numbers and percentages and she would like to receive this for the first meeting in December.

Mr. Ramsey asked that someone on staff attend the Common Core meeting on Thursday at Bossier Parish Community College. Dr. Goree responded that staff attended a similar meeting in Caddo Parish, but he can designate staff to be in attendance on Thursday.

Mr. Pierson congratulated all who won in Tuesday's election, all who are still in the race; and pledged continued support of those that did not fare so well to the Board and system through the remainder of their term to ensure that the boys and girls in Caddo get the best opportunity possible for success.

Ms. Trammel expressed her thanks and appreciation to those who have served and for the job done in serving the children in Caddo Parish.

Mrs. Bell expressed appreciation to those in District 12 for believing in her for four more years and to everyone around the horseshoe for serving as a team for the children in Caddo Parish.

Miss Green extended good luck to all who are in the runoff and thanked Mr. Pierson and Mrs. Crawley for their outstanding job in service on the Board.

Adjournment. *Mrs. Crawford moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:05 p.m.*

November 18, 2014

The Caddo Parish School Board (CPSB) **Audit Committee** met on Tuesday, November 18, 2014, at 3:00 p.m. in Room 1, 1961 Midway, Shreveport, Louisiana with Chair Steve Riall presiding and the following Committee members present constituting a quorum: Ginger Armstrong, Charlotte Crawley, and Barry Rachal. Also present were ex-officio members Carl Pierson and Bonita Crawford. Others included Larry Ramsey, Dottie Bell and staff members Dr. T. Lamar Goree, Jim Lee, Jeff Howard, Keith Burton, Dr. Mary Nash-Robinson, Allison May, and Debbie Kappus. Mr. Ramsey led the prayer and Pledge of Allegiance.

Risk Management Audit. Jeff Howard introduced Debbie Kappus, new Risk Manager, and clarified that Ms. Kappus was not employed during the timeframe covering this audit.

Mr. Riall announced the committee would review the audit page by page and receive answers to questions.

Mr. Rachal requested that the Board receive copies of staff's response on actions taken to reflect how proposed recommendation are implemented.

Page 2 – Risk Management Plan

Ms. Kappus reported that staff will look at combining some of the forms and will also define where risks are and devise a plan to reduce those risks.

Page 3 – Workers' Compensation

Discussion was held on the three-year agreement with FARA to administer workers' compensation claims and how these claims and costs incurred have diminished. Mrs. Crawley added that with the reduction in claims, she believes this will also be a savings in legal fees. Mr. Rachal asked that the graph reflecting the decline in claims be made public.

Mrs. Bell addressed the practice of some employees abusing worker's compensation and asked why the District is not investigating this? Debbie Kappus explained how worker's compensation claims are addressed and procedures followed in getting up to a third doctor's opinion. Mrs. Lansdale interjected there are different types of leaves and the HR Director has within their power to challenge these; however, if HR does not challenge them, it should be careful not to lump everyone together.

Discussion also ensued on employees returning to modified duty and ensuring with Human Resources that the employee's job description is sufficient for them to return to work for light duty. Debbie Kappus stated they can do an analysis because it will vary with positions and this addresses requirements for those returning to work after an injury on the job. Mr. Abrams added he believes this is a matter for Rahmberg Stover to review.

Page 6 – Second Injury Fund

Debbie Kappus explained how the Second Injury Fund was set up by Legislative Action and the benefit for Caddo to hire someone who has been injured.

Page 7 – Identifying Claims

Regarding the recommendation that the Risk Manager should assign claims to attorneys as needed, Mr. Abrams clarified that the Board gave Legal Counsel the authority to assign and oversee the billing for all cases; and if the responsibility of assigning workers' compensation

cases is placed under the Risk Manager, he will no longer be able to track and approve expenditures. Mrs. Crawley asked when doing the audit, why this recommendation was made? Jeff Howard responded that we are the company and Ms. Kappus as part of her job should make that decision and cited examples.

Following discussion, it was the consensus that the board-directed audits should also be submitted to the Superintendent for his response to the recommendations prior to forwarding it to the Board and Committee.

Mr. Abrams explained that what should happen is the Auditor submits audits/recommendations to the Superintendent, who makes recommendations to the Board/committee, the committee accepts them or not, and the committee makes a recommendation to the Board.

Ginger Armstrong explained that prior to Mr. Abrams becoming the Board's Legal Counsel, the Departments of Auditing and Risk Management were one and a double line on the organization chart indicated this position reported to the Board and the Superintendent. Auditing and Risk Management was the investigative arm of the School Board and made assignments to lawyers as needed.

Mr. Ramsey stated that he believes it is designed appropriately and there is no need to reinvent the wheel.

Page 9 – Third party Agreements and Construction Contracts

Mr. Riall asked for clarification on insurance requirements for someone using one of Caddo's buildings or providing services at one of the buildings. Ms. Kappus explained that to minimize the District's liability when third parties are authorized to use Caddo's facilities, the District confirms that the third party has sufficient coverage through a commercial general liability policy, builder's risk policy and/or a Tenure User Liability Insurance Policy.

Following discussion, *Mr. Rachal moved, seconded by Ginger Armstrong, that the Risk Management Audit go to Superintendent Goree to review and make suggestions and come back to the committee to make a final determination to present to the Board. Vote on the motion carried.*

Mr. Riall announced that the next meeting will be called to determine how this committee will be handled in the future.

There being no additional business, the meeting adjourned at approximately 4:15 p.m.

November 18, 2014

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, November 18, 2014 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Nell Fisher, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the invocation and the Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE OCTOBER 21, 2014, AND NOVEMBER 5, 2014 CPSB MEETINGS

Mrs. Bell moved, seconded by Mrs. Armstrong, to approve the minutes of the October 21, 2014, and November 5, 2014 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Turner Elementary World Drumming Group. The Turner Elementary World Drumming Group, under the direction of Karen Keane, performed two musical numbers for the Board and audience. Mr. Strother announced that Ms. Keane began this program 5 years ago at Lakeshore Elementary with the objectives being to feed the needs of the whole child and add deeper meaning to fundamentals as well as bring essential development skills, i.e. creative thinking, problem solving, art appreciation, tolerance, teamwork, self-discipline and positive self-expression. He further explained this program also teaches cultural diversity, as well as social, cultural and historical roles of music rhythm and how these activities integrate with geography, math, language arts, science and social studies.

Blue Cross Foundation 2014 Angel Award Winner. Isaac McFarland, senior at Caddo Magnet High School, was recognized as one of this year's winners of the Angel Award. Mr. Strother explained this award is presented by the Blue Cross/Blue Shield of Louisiana Foundation to those who donate their time and talents to better the lives of Louisiana children. Isaac was noted for founding Game Changers, an organization devoted to educating school children on hunger in local communities and the world. The group has provided hundreds of "tackle boxes" of food to children in underserved communities, and they also tutor students at a neighborhood recreation center, assist with community vegetable gardening and volunteer at the local VA Hospital.

2013-2014 Outstanding School Support Employee Award Winners. The following employees were recognized as the 2013-14 Outstanding School Support Employee award winners: Elementary School Division – Lisa Calhoun, Office Clerk, Eden Gardens Fundamental School; Middle School Division – Debra McCray, Office Clerk, Woodlawn Leadership Academy; High School Division – Sandra Bendow, Office Clerk, Huntington High School; Academic Affairs Division – Jilma Gibson, Secretary to Chief Academic Officer; Operations Division – Debra Walker, Senior Buyer, Purchasing Department; Human Resources Division – Patricia Davenport, Secretary, Classified Personnel Department; Finance Division – Tanny Days, Secretary, Risk Management Department; and Superintendent's Division – Allison May, Internal Auditor, Auditing Department.

Broadmoor Middle School Newspaper “The Bark” Receives Grant. Julie Davis, Broadmoor Middle School English teacher, was recognized for the work she puts into the Broadmoor Middle School newspaper “The Bark” and for receiving a Walmart Foundation Community Grant for \$1,000 which will help to continue the printing of the school’s newspaper.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: (1) Michele Burgess, assistant principal at Blanchard Elementary, (2) Daryl Adams, assistant principal at Booker T. Washington High School; and (3) Dawn Tyson, 504 Specialist.

Public Hearing on Renaming the Auditorium at Oak Park MicroSociety Elementary School for Albert M. Moody, 1st Principal at Bethune Jr./Sr. High School. President Pierson declared the public hearing open on renaming the auditorium at Oak Park MicroSociety Elementary School for Albert M. Moody, 1st Principal at Bethune Jr./Sr. High School.

Dr. Mary Nash-Robinson, graduate of the 1970 Class of Bethune Jr./Sr. High School, shared with the Board and audience what Mr. Albert M. Moody meant to her and many others and why she supports renaming the auditorium at Oak Park MicroSociety Elementary School for Albert M. Moody, the first principal at Bethune Jr./Sr. High School. Because of Mr. Moody’s contributions to education, students, families, and the entire Bethune community, many will be forever grateful to him, and she encouraged the Board to support this request to rename the auditorium at Oak Park in memory of Mr. Moody.

There being no additional speakers, President Pierson announced the public hearing closed.

VISITORS

Sandy McDay addressed the Board on the history of changes in Math over the years and Common Core. Being a victim of “Common Core type” changes in public education, she encouraged the Board to look closely at this Federal-led initiative and ask the Legislature to do away with Common Core standards (which they have never voted on, but only BESE did before Common Core standards were ever out) and let Louisiana provide the standards for its students.

Charles Rambo expressed his concern that two of the schools in the Martin Luther King Jr. area where they had after-school programs have closed and they are now in the process of implementing a program at Green Oaks where students are mentored in Math, Science, etc. He further stated one of his main concerns is Common Core and the problems in assisting students in Math. In order to have consistency from school to school and state to state, he believes we must find a way to raise Louisiana up and be competitive; and he doesn’t believe Common Core is the answer. Mr. Rambo also added he doesn’t believe the students are prepared to receive this part of their educational journey and many who are behind will only fall further behind if we don’t address this concern with clarity and quality and provide the needed tools to ensure they reach academic achievement.

Rob Broussard, president of Broadmoor Neighborhood Association, highlighted the Association’s goals which include planning debates concerning civic issues in a completely transparent manner. He invited all interested to join their association and to attend a forum on December 5th at Broadmoor Middle School of the two candidates in the runoff for CPSB District 8. Mr. Broussard also expressed appreciation to the principals at A. C. Steere (Kim Derrick), Broadmoor (Billy Williams), and Arthur Circle (Ramona Myrick) for submitting proposals for the community grant money received from the City of Shreveport. He explained that \$6,000 will be given to the schools this year, with Arthur Circle receiving \$3,500 for beautifying the campus. He also asked that the superintendent participate when these checks are submitted to the Broadmoor neighborhood schools.

Jon Glover asked why is it so easy for the Board to look the other way when it is evident the school system needs to chart a new course that will bring forth academic success for every child in Caddo Parish. She said she does not wish to hear continued rhetoric that is empty, or excuses why we are where we are, but needs to know that every effort that will precipitate every child having the same opportunity to reach academic success is being experienced. She added Caddo Parish has witnessed practices that have led the schools to its present peril; and it is her desire and hope that the new members, in concert with those remaining, are truly concerned about educating every child equally in Caddo Parish. Recalling the formation of the Magnet program, she believes it was not because we wanted to give children a better access to academic success, but to segregate the children; and while over time others have had the opportunity to participate in the magnet schools, who will and will not be a part of this education process has been limited. She asked the Board to consider her solution for bringing up test scores and that is for magnet and magnet component students' test scores to return to their home school similar to the alternative school students' test scores, which she believes will truly enhance the school performance scores. Ms. Glover stated when practices are deliberately implemented that pull the best and brightest from the communities, it makes our communities fail; and while she wants her child to have the best opportunity to receive the best education possible, she also wants every child entrusted to Caddo Parish Schools to receive the same opportunity, which she does not believe Caddo has done. If Caddo did, there would not be the problem of Byrd, Captain Shreve, and others overflowing with students. She asked the Board to remember to do the job the constituents have entrusted them to do.

Nancy Nix, teacher, noted that she too remembers when magnet schools were formed, and they were formed to promote integration and end the flight to private schools. She shared with the Board that she teaches in a magnet school and loves all her students, and the schools do promote success for the students. Ms. Nix stated her concern for being told how she must teach what she teaches; and while she encourages her students to think, and to use logic and creative reasoning, she does not like Common Core, specifically Eureka Math. She noted that she and her students are doing what they are asked to do, but she does have a problem teaching to the test and especially PARCC and that students will test for 12 days in the Spring. She says this is over testing and it is wrong for students to go through this intensity. She encouraged the Board to petition the Governor and allow teachers to teach as they were taught and not to the test.

Jackie Lansdale, president of Red River United, reiterated her request from last month for the Board to create a committee for the purpose of addressing in policy the fact that teachers are leaving in silence. While several Board members asked that administration act on this request, to date this committee has not been formed. She noted a recent new teacher being assigned to a school in the Transformation Zone and her experience of being faced with continued changes in the classroom, surprise inspections, and verbal dressing down in front of students. She again asked the Board to form this committee on bullying and threatening, to ask for an accounting of these behaviors from the University of Virginia, and to implement a policy where no new teacher is subjected to this type behavior. She said no teacher should ever be assigned to the Transformation Zone ever. Relative to 8.05 "Resolution to the Governor, Re: Common Core and PARCC", Mrs. Lansdale urged the Board's strong consideration of the ramifications of this curriculum to students and teachers, because they are not aware of any teacher that does not agree with the purpose of standardized assessment but every teacher wants and needs to know the information these tests provide to instruction. She noted the concern that PARCC could be a reliable indicator since many of the states have opted out from this curriculum. With teachers being held responsible and not making targets can cost a teacher's tenure, or placement on intensive assistance which can ultimately lead to termination, she added teachers' careers will hinge on something very controversial. She asked the Board to stand up for the students and teachers in Caddo Parish and say no to the politics of the Department of Education and their agenda which is driving them to do this to Caddo Parish.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and President Pierson announced that Items 6.02, 7.01-7.02, and 8.03-8.04 are the consent agenda. Mr. Ramsey called for a point of order to challenge the placement of Item 8.05 "Resolution for Governor to Call a Special Session for Common Core and PARCC Testing" on the agenda based on the current Board Policy relating to the presentation of information and data at the work session, which means a 2/3 vote (8 votes) of the Board is required to add it to the agenda tonight. *Vote on adding this item to the agenda for consideration failed with Board members Green, Crawley, Crawford, Armstrong and Bell supporting adding the item and Board members Riall, Pierson, Hooks, Trammel, Fisher, Rachal and Ramsey opposed.*

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Hooks, to confirm the consent agenda (Items 6.02, 7.02-7.02 and 8.03-8.04). Vote on the motion carried unanimously and the following is a summary of the Board's action on consent agenda items.

Item No. 6

6.02 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Multiple vendors for the purchase of music instruments and equipment; and (2) Multiple vendors for the purchase of canned and frozen food; fish, poultry, eggs, meat and Food Service Paper and Supplies. Copies of the bid tabulation sheets are filed in the official file of the November 18, 2014 CPSB meeting.

7.02 Capital Projects. The Board approved the bid of J.D. Electric, with a Base Bid, Alternates 1, 2 & 3, for the sum total of \$455,395 for Project 2015-401, "Northwood Lighting Retrofit". A copy of the bid tabulation sheet is filed in the official file of the November 18, 2014 CPSB meeting.

Item No. 8

8.03 Authorization to sell salvaged textbooks in accordance with CPSB Policy. The Board authorized the sale of salvaged textbooks in accordance with CPSB policy.

8.04 Rename the Auditorium at Oak Park MicroSociety School for Albert M. Moody, 1st Principal at Bethune Jr./Sr. High School. – The Board approved waiving the 90 day process required by CPSB Policy FF for renaming the auditorium at Oak Park MicroSociety Elementary Middle School (formerly Bethune Jr./Sr. High School) the Albert M. Moody Memorial Auditorium, commemorative of its first principal Albert M. Moody and that the Board consider this action at its December 16, 2014 meeting.

PERSONNEL TRANSACTION REPORTS

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the personnel transactions report as recommended by the superintendent, with the correction so noted by Mr. Hooks, and submitted in the mailout. Mr. Hooks noted that the list of CPSB Classified retirees also lists Ms. Alice

Cooper Knecht, who was a certified employee. Superintendent Goree noted this is an error as she was a certified employee and staff will make that correction. *Vote on the motion carried with Board Member Green absent for the vote.*

REQUEST FOR LEAVE WITHOUT PAY

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the request for leave without pay as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

9.01 Update on Collaborations with RSD. Dr. Goree stated that staff continues to make progress towards effectively changing the way children are being educated within the Transformation Zone. In January, Dr. Goree announced staff will bring a presentation/update on what is being done in the Transformation Zone as well as an update on the District's partnership with the University of Virginia.

Update on SunGard Status. Superintendent Goree reported that staff continues meeting monthly with the SunGard corporate representatives to make sure we are as effective and efficient as possible.

Dr. Goree stated the remaining items under Superintendent's Report are for information only.

EXECUTIVE SESSION

Student Readmission Appeal hearings. *Mr. Rachal moved, seconded by Ms. Trammel, to approve staff's recommendation of student readmission appeals for FW, NJ and JD, whose parents are in agreement. Vote on the motion carried unanimously.*

Settlement: Suzanne Soucy-Hille vs. CPSB Case No. 12-cv-2209, USDC, WDLA, Shreveport Division, File No. 23398.1. *Mr. Rachal moved, seconded by Ms. Trammel, to approve the settlement: Suzanne Soucy-Hille vs. CPSB Case No. 12-cv-2209, USDC, WDLA, Shreveport Division, File No. 23398.1 in accordance with legal counsel's recommendations. Vote on the motion carried unanimously.*

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell asked the superintendent and staff to make a presentation on Common Core, Eureka Math and PARCC as it is being implemented in Caddo during the December work session. Dr. Goree announced that staff has begun to prepare for this presentation in December.

Mrs. Bell announced that during the Thanksgiving Holidays there will be a Bayou Classic Bash beginning on Friday evening. Cost for the event will be \$10 per person.

Mr. Rachal noted his discussion with Dr. Goree and Mr. Abrams relative to collected property taxes not being forwarded to the governmental bodies receiving this revenue. Mr. Abrams said a recommendation will be made at the next special meeting of the Board to intervene. Mr. Rachal noted the money being held is quite a lot of money that does not belong to the Commission.

Ms. Trammel invited the Board and audience to attend the Cedar Grove Community Development's Hope for the Holidays luncheon where the homeless/needful are provided a Thanksgiving meal. She also announced the need for volunteers and encouraged those available to attend and be a part of this rewarding time.

Mrs. Crawley asked staff to follow up on the request from one of the employee organizations to form a committee to help teachers having adjustment problems. Mrs. Crawley asked if it is correct that grades 3-5 do Dibels; and if Caddo really wants to add another test for the students on top of this?

Mr. Pierson asked if he understands correctly that students in the 3rd, 4th and 5th grade are getting satisfactory and unsatisfactory on science, history, etc. Because this is a concern to him, he asked staff to provide a rationale behind this decision.

Mr. Hooks announced he held his Town Hall meeting and it was a success. He shared his concern about what was in the newspaper on Friday re: Common Core and the speakers today and questions why none of these attended his Town Hall meeting where information was shared on Common Core, Eureka Math and PARCC. He said if people would have attended, their questions would have been answered.

Mrs. Crawley said there is a policy/procedure regarding staff attaining exit information when teachers leave and she would like for staff to share this information with the Board.

Adjournment. *Ms. Trammel moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:15 p.m.*

Dr. T. Lamar Goree, Secretary

Carl A. Pierson, Sr., President

December 2, 2014

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, December 2, 2014 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with First Vice President Bonita Crawford presiding and Mary Trammel present constituting a quorum. Also present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Carl Pierson and Nell Fisher were not in attendance. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Miss Green led the prayer and Pledge of Allegiance.

PRESENTATIONS

Magnet Testing. Melinda Kay, Guidance and Testing Specialist and Magnet Testing Coordinator, shared a two-year (2013-14 and 2014-15) report on magnet testing and placement similar to the reports provided in the past. Ms. Kay explained the process beginning with the application (which can be on-line or on paper), determining the number of applications received for students to test for the program, cut off scores, as well as comparison data and options for credit for elementary and middle schools. Placement information, i.e. number of children tested and placed in kindergarten, the number of siblings tested and placed, the middle school placement, summary of those in K-8 placed on the waiting list since they did not qualify or because they chose to remain in their neighborhood school, was also provided.

Mr. Hooks shared his concern relative to on-line applications and if this is an advantage over those that do not have access to a computer. Ms. Kay explained that the on-line application is an addition to the application process and it did not replace the paper application; so if someone does not have on-line access, they can use the paper copies without any disadvantage. She also clarified that all applications are ultimately put in on-line and they are not ranked.

Mrs. Bell asked for clarification about the sibling placement and if the siblings must take the test before being entered into the school.. Ms. Kay explained that in following the CPSB policy for placement, one must first look at the scores; and all the scores (including the siblings' scores) are ranked, then qualifying siblings are identified and placed first. Mrs. Bell also asked if children from charter and private schools must also follow the same procedures/testing for magnet school placement; and Ms. Kay confirmed that all applicants are tested and placed using the same process in accordance with CPSB policy.

Mr. Riall asked why high schools do not follow the same process for magnets as the elementary and middle schools do? Ms. Kay explained that each high school has its own criteria established by the Board for the different programs. Mr. Riall asked how did this happen? Dr. Goree responded that high schools have grade point averages and standardized test requirements for students entering the magnet programs, and Mr. Abrams noted that Caddo Magnet High never meets capacity so there is no exclusion if students meet the criteria.

Ms. Trammel referenced phone calls received from families relocating to Shreveport and asked if empty slots are left available in the event families transfer in to the District? Ms. Kay explained that slots/seats are not saved for students; however, if school opens and there are still available slots, they can be tested; and noted the exception for military students. Ms. Trammel also asked about placement of 6th graders and that of the 459 students, 66% (301) are White and 28% (130) are Black. Ms. Kay explained that placement is not made based on race, and Ms. Trammel stated her understanding, but questioned if it is because these students do not qualify. Ms. Kay explained that when the applicants are tested, the scores are ranked following the Board Policy.

Mr. Hooks again expressed his concern about the on-line application process and if applications are ranked according to how they come in? Ms. Kay said they are not and the only thing the on-

line process does is allow those who choose to do so to complete their application electronically. The advantage is allowing staff to have access to student data quickly. Mr. Hooks again asked how applications are ranked, and Ms. Kay stated that the applications are not ranked, but only test scores after students have been tested.

Mr. Rachal asked the superintendent how he feels about Caddo's magnet program. Dr. Goree expressed appreciation to Melinda Kay for the job she does for the District and that he believes the magnet school fulfills a very important need in the community and that is for Choice. He further added that in looking at a District as diverse as Caddo, there is a need for true Choice and for parents to have the opportunity to give their children the very best education they feel they can afford them. Within the system, Dr. Goree stated rules have been set by the Board and there are no plans to change it; however, he believes he is hearing from the Board that there is a need for additional clarification and understanding of how some of the policies and practices work. The superintendent added that staff does support the magnet program and the policies as they are written, and this again offers parents a choice for their children to have a different educational opportunity. Mr. Rachal shared his concern relative to those students that are not getting into the magnet schools and the parents are enrolling them in private schools, and he asked how can the Board address this situation. Dr. Goree responded that he believes there is too much reliance on the magnet program, and he believes providing better quality neighborhood schools across the Board is how the District can combat this. He stated there are some wonderful things taking place in the Transformation Zone to strengthen those schools and staff is meeting with principals in several Caddo schools where there is concern in an effort to strengthen the neighborhood schools. The superintendent said Caddo will not be the best District it can be until all schools are performing at an acceptable level, and then you will see parents look at convenience over magnet, parents look at the choice of attending the neighborhood school. Mr. Rachal referenced the most recent changes in the policy for magnets and that race could not be considered, but staff looked at using diversity and using Title 1 schools as a guideline to commit to the diversity and all schools having access to the magnet schools; and to him it appears to have worked very well.

Mr. Ramsey agreed with the Superintendent's comments about the quality neighborhood schools and the key element of "Discipline" which he believes is a major force that moves parents to other schools. Dr. Goree added that while you must start with discipline, climate, culture and quality instruction come before the discipline, and the need for the district to look at what we should hold ourselves accountable for and make sure teachers have the skills to provide a quality instructional program so kids that do not have discipline at home, do so while at school. In talking with parents throughout the City, Dr. Goree said he hears more about safety than he does about school grades. Dr. Goree also noted the 100 available seats at Ombudsman; and in answer to why, he said Woodlawn and Fair Park are different schools today; and since most of the students were coming from those schools, the change in climate and culture in those schools has reduced the number of discipline issues in these schools. Mr. Ramsey said there was legal guidance in formulating this policy and he asked that this information be provided in future presentations.

Mrs. Crawley asked if there is any indication that there might be a need for additional magnet schools? Dr. Goree responded that he did not see that indication; however, he did see the need to focus on strengthening the neighborhood schools so parents believe they have a healthy choice. Mrs. Crawley added that if another magnet is added, she believes the diversity of that school would increase.

Mrs. Bell stated while she has no problems with magnets, there are policies stating if a student has discipline problems in the magnet schools, they are returned to the neighborhood school. She also stated that the perception in the District is parents only want their children to attend certain schools and noted the fact that Walnut Hill is not a magnet, but is a great school despite the students from District 12 that have been pulled to the magnet schools.

Mr. Hooks stated that he only wants to make sure that everything is done fairly, because he remembers a student that scored high on the magnet test but was not accepted into a magnet school. Ms. Kay reported she spoke with that parent; and after reviewing the student's test results, the child did not qualify. She reiterated that when placement is made, staff reviews the results of the placement numerous times to make certain there is accuracy in the placement.

Ms. Trammel asked about the additional magnet seats at Broadmoor. Ms. Kay stated the information is included in the packet provided. Dr. Goree said he believes many of those seats were not taken even when offered numerous times to those on the wait list. Ms. Trammel asked if staff believes it is the perception of Broadmoor? Dr. Goree added he believes that may be correct based on what staff hears from families; because the perception of schools always plays a big part in whether or not children are sent to a particular school. He also stated that it is necessary for the District to work to have a favorable perception of the entire District; and when the neighborhood schools improve, he believes we will see everything else improve.

Mr. Riall asked about the January 2015 magnet testing schedule and why there are three testing dates for Eden Gardens? Ms. Kay explained that applicants are tested at their school of first choice; and after testing teams are filled, then staff moves to a school that does not have any openings. She also stated that because there were more applicants choosing Eden Gardens, it was necessary to add additional testing dates. He also asked how staff handles a student scheduled to test on the first date and they are sick. Ms. Kay stated staff works with parents on these incidents.

Mr. Rachal asked staff to provide the Board a tally of the students attending the magnet schools and the neighborhood school they would have attended. Mr. Rachal also asked the Superintendent about each neighborhood school having its own magnet component designed to meet the specific needs of that particular school. Dr. Goree stated that in Caddo there a number of schools with a magnet in their name; however, if one goes to that school and asks them to share the uniqueness of their specific magnet, more often than not the schools cannot do so. He said he believes anytime there is a magnet component in a school there are resources that should go with that magnet component; and the Board should be willing to fund the resources versus it just having the name on the school. With all Bossier Parish Schools being neighborhood schools, Dr. Goree said he believes everyone has a very good reputation of these schools since they focus on strong quality curriculum and instruction and implementing so the data indicates success; and he believes this is the direction Caddo needs to go in. The superintendent explained that in the new school year he would like to attempt an inventory of these buildings/schools that have these names on them; and it is not acceptable to him that the only "A" schools in Caddo are the magnet schools. That is why he believes we must work to get some of the non-magnet schools on that list and then he believes you will see the perception change.

Miss Green asked Ms. Kay about the decision to do a magnet component at Oak Park MicroSociety. Ms. Kay explained that the plan was to place students at Oak Park from the waiting list; and a limited number of students chose Oak Park. Dr. Goree reminded everyone that with any new program there is a time gap before the Board will see this catch on and grow. Miss Green asked if there are any plans to implement a program similar to Oak Park at other schools, and Dr. Goree responded that staff does not have any plans at this time, and the focus in the coming year will be to make certain all schools are supported with transparency and all schools are performing with gains.

Mr. Hooks stated Oak Park did not fare as well as it could have because people were not aware this was taking place; and when people consider magnet schools, they believe everyone in magnet schools are magnet students. He said he believes Herndon is the only school that has seen progress. Dr. Goree reminded the Board that this passed late in the Spring; and at that

point, magnet testing had taken place; and he noted Youree Drive and Byrd are the best examples of a school within a school magnet concept, which is how the original magnet was designed.

Ms. Trammel asked what happened with Fairfield since the neighborhood was told it would not immediately become a total magnet school, yet that is what happened and many of the students were sent to other schools across the District. Mr. Abrams explained it was allowed to continue but the neighborhood school was phased out by grade and it became a total magnet. Mrs. Crawford shared with the Board that she researched the minutes and the Board wanted a neighborhood school with a magnet component; and when the actual vote took place, the motion was to make Fairfield a complete magnet and not a neighborhood school with a magnet component. Mrs. Armstrong also agreed that originally it was to be a school within a school, and the regular school would be phased out; however, it happened quickly.

Report on Common Core, Eureka Math and PARCC. Keith Burton, chief academic officer, and Director of Curriculum Patrick Greer shared facts relative to Common Core, Eureka Math and PARCC and noted that their presentation is not meant to be an endorsement or disapproval of any of the items presented. Mr. Burton stated that Common Core standards began in 2007 in Columbus, Ohio when 48 state education superintendents and governors met to create learning goals/targets for all students regardless of the state in which they lived. He said there was a belief that the academic progress in the Nation's students had been stagnant; and because of that progress, it was felt that change was needed. Why? They believe it was because of the wide variety of standards existing across state lines and a consistent state pattern was needed. Mr. Burton also added that another reason it was felt that states were lagging behind was a lack of rigor within the presentation of standards. Mr. Burton explained that Common Core is not a curriculum but a list of ELA, Literacy and Mathematics standards and there is a huge need for additional resources to support teachers teaching these curricula. He added that examples of poor curriculum have appeared and the Nation is vastly behind in curricula resources that are aligned with the Common Core standards. He also said Common Core is not a prescription to tell teachers how to teach, but it does require specific application of skills; and the students must be able to apply those skills in a very rigorous setting. Common Core requires recognition and low level skill attainment, as well as a deep understanding by students to use the skills to solve real world problems. He added Common Core is also not a test, but the assessment of Common Core State Standards will lead to a specific test – the PARCC.

Mr. Burton further explained that the difference in the new standards is the increase in non-fiction text writing that is far beyond creating stories to using evidence from a writing to support personal thought. In Mathematics, Mr. Burton explained the push is to go deeper into fewer subjects and focus on using Math skills quickly and accurately.

In the goal to prepare students for College Readiness, it was determined there was an abundance of students entering college that required remedial courses, especially in Mathematics; and the goal was to create standards so students who entered college had the necessary skills to do well in any program leading them to a degree or certificate. Career Readiness was also created in the development of the Common Core standards to afford those students not attending college an opportunity to be ready for the work force with academic, employability and technical skills, because for every 100 ninth grade students, Mr. Burton reported that on average only 65 of those students will graduate from high school, and of those 65 graduates, 57% (37) will enter college. Also of the 37 who will enter college, only 24 will continue college after their first year; and after six years of college, only 12 will graduate with a degree.

Patrick Greer, director of curriculum, shared with the Board that we are at this point because the LDOE (Louisiana Department of Education) decided to accelerate the implementation of Common Core Standards which left districts scrambling to find the resources needed to

adequately address the standards. Mr. Greer explained that Caddo formed a task force under the guidance of Mr. Burton to review the resources available; and at that time the State was attempting to create a rubric for rating the different resources aligned to Common Core. Mr. Greer pointed out that the State rated Eureka Math as a Tier One system which meant it met all indicators and was the only resource ranked at the highest quality by the LDOE. Some of the myths relative to Eureka Math include it is the new math (which it is not), it incorporates how math works and why we need it. Mr. Greer also mentioned the challenges in Eureka Math including training teachers how to incorporate additional resources to fill in the gaps and the rigor of Eureka Math and training in filling in the gaps and applying some of the resources released by the State Department. Since February 2014, Mr. Greer reported that the District has worked in conjunction with Professional Development, area directors, et.al. to determine the greatest level of support for the teachers and the process for helping new teachers in Eureka Math. Relative to new and unfamiliar technology, he shared the teachers' concern not only for them to understand this in the classroom, but also that parents at home attempting to help their children with homework with no textbooks for Eureka Math also have a greater understanding. Mr. Greer reported that three parent Eureka Math meetings have been held to assist parents in a better understanding in order to help their students and make Eureka Math work. He also provided information on Frequently Asked Questions (FAQ) regarding Common Core, as well as timelines of support staff has provided since February 2014. As information comes to staff from the State, he also reported that staff will continue to share that information with the masses.

Following Mr. Greer's presentation, Mr. Burton shared information on the PARCC (Partnership and Readiness for College and Careers) test, and that beginning in March the third through eighth grade students will take this test in two phases – Phase I will begin March 16 and Phase II will be completed beginning May 8th for a total of 10 testing days. When Louisiana began giving this test, Mr. Burton stated that staff anticipated it being an on-line assessment; however, staff recently learned that this year's test will be paper and pencil for all students in these grades. He also explained that the test will be timed and will take approximately 75 minutes and each unit will be scheduled on a specific date; and Districts and families will not receive the students' test scores until the Fall of 2015. These results will no longer be used to promote students in 4th or 8th grades, nor to recommend students for summer remediation. Staff also announced that it will come to the Board very soon with indicators of promotion which will be a check list or rubric to decide if students possess the qualities to promote to the next grade; as well as recommend students for summer remediation. While this is not a Caddo Parish concern, it is a statewide concern that must be addressed. Mr. Burton also challenged Board members and the audience to work/resolve a fourth grade math problem from a LEAP test. He also shared information on the Math section and that students will be able to show their work, demonstrate they understand the concept as opposed to using a formula, compute quickly and accurately and apply their knowledge to solve real world problems. With teachers, principals, students and parents facing a completely new challenge, he added this will require a change in all.

Mr. Riall asked for clarification that Phase I of the PARCC testing will be 75 minutes daily, and Mr. Burton said approximately and provided FAQ and the schedule that must be followed. He also asked who wrote the Common Core standards and Mr. Burton stated that it was "experts" in their field, i.e., math professors, scientists, engineers, as well as educators.

Miss Green asked if she understands correctly that the School Board adopted Eureka Math? Mr. Burton responded that is correct. Miss Green asked how many did Caddo choose from, and he explained that the State did away with the Textbook Caravan and how textbooks were selected in the past, and staff had very limited resources. He further stated there are no textbooks and these are duplicated by Office Depot and not considered a text book adoption because there is no longer a textbook caravan at the State level. Miss Green asked if Common Core is hand-in-hand with the PARCC assessment, and Mr. Burton said it is.

Mrs. Bell shared that PARCC Testing is one of her biggest concerns because the State Department is asking the District to be ready when they are not ready. She asked what can the Board do to stop this test from being administered; and Dr. Goree stated that at this point, Legislation will be the only way to stop it. He reminded her that the Governor made an attempt to stop the testing early this year, but it did not happen; and because of where we are in the Legislative process, he is unsure how it can be stopped. Mrs. Bell said the public needs to be aware and she believes we need to be speaking to local Legislators, because this test does not need to be given. Also, relative to Eureka Math, she is glad to know that Caddo chose it; but it is not working and asked if there is anything the Board can do, can it be replaced with another program? Dr. Goree responded that the selection of Eureka Math is a by-product of how quickly Common Core standards are being implemented; and because of that, Caddo went with what the State saw as a Tier One resource (Eureka Math). With a lot of the complaints being that Eureka Math is so many steps, he explained that when students take the PARCC, this is how it will be presented on the test. Staff also is concerned with the implementation of PARCC and the timeline, and staff knows that the results will not be as best as they can be this year. Mrs. Bell asked if superintendents have met and discussed this, and Dr. Goree said they have and this is not a unique problem to Caddo Parish and other districts as well are doing everything possible to provide as much support as possible to teachers and parents. He also added that staff is positioned to continue to support this until that point comes where we may have to move away from it. Mrs. Bell stated that the parents are concerned because the resources are not available and she believes the students need textbooks. Mrs. Bell asked staff who selected the standards for the Common Core? Mr. Burton responded the State did select Common Core and recommended that districts adopt the Common Core standards. He also reminded the Board that the problem is not with standards because students can achieve at these levels; however, the problem is with the lack of resources and the speed of implementation to achieve the standards, as well as the lack of quality curriculum for teachers to use. He also stated there are some good qualities of Eureka Math and teachers are sharing some of the positive differences it is making, but the problem is the speed and the lack of quality support. Mrs. Bell asked if the Board can change the resource material, and Mr. Burton responded that the District can select its own curriculum and resources, but we do not have control of the State and if it decides to implement Common Core, then PARCC is included in that adoption. Mr. Burton stated he reviewed all the practice tests that are on-line as well as the released test items as prepared by Pierson Company. Mrs. Bell reiterated how unfair it is to the parents, students and others and encouraged the Board to consider these frustrations before moving forward.

Dr. Goree reminded everyone that the District did select what was considered to be the very best thing to bridge the gap and prepare students for the test.

Mrs. Crawley asked if Eureka Math came from New York and Mr. Burton said it did. Mrs. Crawley asked if State Superintendent John White came from New York and Mr. Burton responded he did. Mrs. Crawley asked if Mr. Burton thought it a coincidence that this was considered to be Tier One, and Mr. Burton said he truly believes it is aligned to Common Core. Mrs. Crawley said there are so many places in the world where something can come from and questioned why Caddo has to be one of the 12 states agreeing to participate in PARCC.

Ms. Trammel asked Dr. Goree and staff if Caddo is ready, because she is hearing staff say we are not. Mr. Burton commented that he puts Caddo's preparation in professional development and support provided to any school to any district in the state. Ms. Trammel said she does not believe the average student can write and she is concerned this will be a disaster for Caddo students as well as overwhelming for the teachers. She asked what will we do so Baton Rouge knows we are not ready for PARCC.

Superintendent Goree stated he understands the concerns and staff has communicated this to the State our concern relative to the rapid implementation. Also, actions are being taken by school

boards across the State to address these concerns; however, he clarified that while we are attacking Common Core as the problem, the problem actually exists within in the lack of available resources. He complimented staff on providing the needed support and training to the teachers; however, it is unrealistic to say we will be prepared to answer a four-step problem when Board members are each receiving multiple calls of concern from parents relative to the math curriculum. He added there are also teacher and student success stories for those that have caught on to how Eureka Math works, and the goal is to make certain the students are as prepared as possible for the assessment despite the problem.

Mr. Ramsey revisited comments on revisiting Eureka Math and is this something that may need to be scratched for next year and another math curriculum adopted. With Eureka Math being the Tier One curriculum by the State, Mr. Ramsey asked what the next tier might be. Dr. Gore stated that the District is working to answer that question and he believes the State is somewhat married to Eureka Math and they are providing additional support through the service teams to make Eureka Math work. Some pilot schools used Eureka Math last year and all unanimously agreed it was much easier after the first year. Mr. Burton explained that Caddo is learning that now there are over a dozen options available to districts, when last year the options were minimal; and Mr. Greer and his staff have anticipated that the Board may ask for a change and Mr. Greer is prepared to address this. Mr. Greer said that ongoing conversations have taken place with representatives from textbook companies looking at textbooks, digital formats, etc. at possible replacement if the need arises, as well as what can be married with Eureka Math in the event Eureka stays. As the year unfolds, staff will continue to have these dialogues and present information and suggestions to Mr. Burton and other administrative leaders. Mr. Ramsey asked about the need to provide paper resources to the teachers; and while we have been guilty of being lax in providing teachers with necessary resources. Also, LSBA continues to update the Board on those things they are attempting to do to address the issues local districts are faced with on a weekly basis.

Mr. Rachal referenced the textbook policy and the fact that it did not go before the Board for consideration/approval because there is no textbook involved. While the Board trusts the staff to do what it is supposed to do, he said the public looks to the Board when something is chosen, and the Board was not involved in this as it would be in a textbook adoption. If this continues to happen in the future, he believes it necessary to have a policy in place so when a new curriculum is adopted the Board is involved in the process. He also added that this information needs to be in every newspaper with a link to Caddo's website and only one click away from the public receiving this information. Also, in getting this type of information out to the public, it typically never goes any further than two or three levels and it's important that the public get this information, i.e. Common Core is not a curriculum. Mr. Rachal added that relative to the PARCC test, he asked when and how will it be used for the teachers, students and district? Mr. Burton explained that the State suspended VAM for a year, so there has not been direction on next year. The only good thing about the PARCC results is this is a benchmark year for what will happen next year, and levels are being set based on student performance for this year which means there will be a waiting at different levels based on student achievement. Mr. Rachal asked if benchmarks used will determine A, B, C schools and if there has been discussion on where these benchmarks will put the district on the new scale. Mr. Burton stated that the benchmarking simply establishes the scale and then the state will use this data to grade schools as well as districts, and possibly eventually teachers. Dr. Goree stated that even though we will receive data in November of 2015, the message is this will not always be the case, but districts will begin receiving data at the normal May-June timeline. Mr. Rachal further stated that this is the same as telling every state employee that has a car to drive that their car is being taken away from them and they will have to learn to drive a motorcycle with no instruction. Again, he believes this began with good intentions; however, it became corrupt along the way, it was pushed through too quickly, crammed down the District's throats and implemented incorrectly; and it is the children, as well as teachers and parents that paying for it.. He believes communication needs to

happen with BESE because there are rulers in Baton Rouge ruling over the Districts with no instruction.

Mrs. Armstrong shared that she has not heard anyone say anything positive about what is happening to the children, the teachers, the work force, the parents and grandparents, who are dealing with this. She asked what percentage of the Caddo population is capable monetarily to hire a tutor, because she believes it is 50%; and she knows there are teachers throwing up their hands and walking out. While new teachers can begin a new career somewhere else, she added there are the mature teachers who need to be mentors to the younger population, and they are leaving as a result of frustration. Again, she said we need to get off the backs of teachers and let them teach and allow them to be creative and work with each student one on one to address the students' differences. While this is an experiment, she believes we are on the losing end and fears we will lose students if we don't return to the main focus and basics.

Miss Green asked if we stay with Eureka Math will we make sure the principals, teachers and staff have input. Mr. Greer said he wants to do what is best for teachers and kids, and he believes the leadership supports that happening, as well as the Board members. Miss Green asked if this was done before stepping into Eureka Math? Mr. Greer responded that in looking at what was available and if the Board had been presented with the available information when the decision was made, he believes the Board would be looking at what was rated the number one product at that time. Mr. Burton also reiterated that this was vetted by principals, assistant principals, instructional coordinators, and teachers, and staff asked for the very best teachers to look at the materials. Miss Green said when seeing principals on the street, the question is always raised as to whether or not the principals were aware of what they were getting into, because many appear to be very frustrated with Eureka Math. Dr. Goree stated that teachers were included in the decision; however, in looking from the perspective that at the time the District was looking at a test for the District in approximately 10 months; and when looking at how Caddo was faring in Math in the state, there was concern in attempting to select the best resource material. Considering what staff had, he believes staff did an excellent job. Miss Green asked if staff was in attendance at the BPC meeting on Common Core, and Mr. Burton said he was in attendance and there are plans to bring the same meeting to Caddo in the near future. Miss Green asked, when this information is available, that staff would share it with her and others because she believes all stakeholders should make plans to attend that meeting.

Mrs. Crawley stated that she hear the rumor that New York dropped Eureka Math and asked Mr. Burton if he was aware if that is true or not. Mr. Burton stated that New York uses the curriculum Engage New York which Eureka Math was a by-product of that. Mrs. Crawley asked if the amount of time allotted for make-up tests (10 hours) is a doable thing. Mr. Burton explained there is probably a window of several days and there will always be allowances for students missing the test due to illness.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE DECEMBER 16, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the December 16, 2014 CPSB meeting and the following discussion ensued.

Future of Hamilton Terrace Policy. Dr. Goree explained that approximately two weeks ago an offer was received on the property; and after consulting with counsel, staff learned that the Board can choose to accept the offer on the property, but because there has been more than one inquiry in the last couple of months, staff has a concern. He further added that in looking to right size the District, staff has discussed possible future use for this property and the need to hold on the property. As the Superintendent, and his responsibility to be financially responsible, he believes it necessary to bring to the table for the Board's discussion any offer this size. After looking at

the three options, he stated it is staff's recommendation that the property be rebid at a minimum bid of \$650,000 which is the offer made and see if others who have indicated an interest wish to submit a bid as well. He said it is hard to say hold on to the property when this offer has been made and we do not have a future use identified.

Mr. Riall asked if we are aware of the intended use for the property, and Dr. Goree said we do not since they are working through an organization. He asked if we can stipulate in the sale agreement that the property will not be used for a charter school, and Mr. Abrams said it has been done before and the Board can try to add this stipulation.

Mr. Rachal asked what the beginning appraisal was on this property, and Mr. Woolfolk responded \$1.3 million. Mr. Rachal stated he is not in favor of putting it out for a minimum bid of \$650,000, because he doesn't believe it to be prudent to do so even though we do not know the proposed future use. Because this property is centrally located and ease of access is tremendous, he would rather not do anything at all; and if it is put out for rebid, he does not support going out with \$650,000 as a minimum bid, but he supports rebidding at the appraised value. Unless the Superintendent can tell him something different about possible future use, Mr. Rachal stated he will not support rebidding at a minimum of \$650,000. Dr. Goree said staff supports everything Mr. Rachal said; however, he cannot address future use by the Caddo Parish School System. Dr. Goree also said the \$650,000 came from how the other bids were done. Mr. Rachal stated that he will never be in favor of selling a piece of property without knowing who the buyer is and how the property will be used.

Mrs. Armstrong agreed with Mr. Rachal's comments regarding the School Board properties, and she reminded the Board that discussions have been held numerous times on having a facility for over-age students a career/technology center. She said this location would be an excellent location for such a facility, and a way to begin addressing the drop-out problem by developing a skills program for these students.

Mrs. Crawley asked how much would such a facility cost to build at this time? Dr. Goree stated he does not know; however, the average cost to build is between \$16 and \$25 million. While she hates to see an empty building, Mrs. Crawley added that if we put it out for bid do we not have to accept that bid with the possibility that it could be someone the community might oppose. Dr. Goree responded that is correct; and when putting the property out for bid, you do lose a certain amount of control since it is based on a bid process.

Mrs. Bell stated her agreement with Mrs. Armstrong's comments about another career center with no stipulations for potential drop outs.

Mr. Hooks stated because Mr. Rachal is in the real estate business, he agrees with everything he said and believes the Board should listen to his input.

Mr. Ramsey asked how many acres are in this site, and Dr. Goree said there are about eight acres. Mr. Ramsey asked how many acres are needed in building a new school, and Dr. Goree responded anywhere from 10-20 acres. Mr. Ramsey asked if there would be a restriction on the type school that could be built, and Dr. Goree responded that he believes an elementary or a special interest program.

\$500 Supplement for Employees. Jim Lee explained that staff was asked to look into this; and based on increase in sales tax revenue, i.e. Bentler Steel and privatization of LSU, staff believes a supplement in the amount of \$500 can be given to the employees at this time. He reminded the Board that this is a supplement because once Bentler Steel is complete, this money will no longer be coming in. Dr. Goree announced that this supplement will come in January.

Mrs. Crawley asked staff what is the projected fund balance for the year? Mr. Lee said with what has been received in sales tax and what we expect to receive in additional property tax, staff believes the balance will still show an increase by approximately \$100,000. Mrs. Crawley asked if the fund balance was approximately \$2 million, and Mr. Lee said it is in the neighborhood of \$20 million. He further stated the budget was in the black; and if we finish the year the way it is anticipated, it will increase by approximately \$100,000. Mrs. Crawley asked if we have thought about another idea that she believes is more focused on the needs, i.e. incentives for perfect attendance, for employees that show up on Friday and Monday. She also added that it would be her idea to provide more reward to those who faithfully show up and do a good job. Dr. Goree stated his agreement and staff learned from the process that it does not want to make a gut policy based on what will affect or improve attendance, and is why staff has intentionally not come back without further research on what actually works. He said staff also wants to work with the employee organizations when developing a policy that is best for everyone involved. Mrs. Crawley also stated that she wants Caddo's principals' salaries to be competitive or above the lowest Central Office employees so the principals will not want to leave the schools and go to Central Office, but stay at the schools. Dr. Goree said he has discussed this with Mrs. Crawley in the past and the big difference is the number of contract days because employees in Central Office work a 260 days a year whereas the principal does not. Mrs. Crawley asked if all the extra activities required of principals were added in, would their year not be extended, as it is her belief that principals need to be 12-month employees because of the staffing of schools in the summer. Mr. Ramsey asked what agenda item are we on because the comments are not related to the current item.

Mr. Rachal asked for clarification on the total cost to the district if \$4.1 million. Mr. Lee said that \$4.1 million is the total cost and the cost to the General Fund is \$3.6 million. Mr. Rachal asked staff to clarify the supplement being paid to all non-sub employees. Mr. Lee said he believes his staff does have clarity; and while there is a difference between substitute employees and regular employees, if an employee only works 4 hours a day but they participate in the retirement system, they are considered a permanent employee.

Mrs. Bell asked if everyone will receive this \$500, and Mr. Lee verified everyone but substitute employees.

Mrs. Armstrong asked if it matters if an employee is frozen, and Mr. Lee said it does not, and everyone will receive the \$500 but substitute employees.

Position Reclassification by Rahmberg, Stover and Associates. Ms. Trammel asked if the Board has seen this before, and for staff to clarify that these positions received the 2% pay raise and the \$500 supplement? Dr. Goree said they did, and Ms. Trammel asked if we are going to move this person from one level to another and will they receive another adjustment in their pay. Dr. Goree said it will be an adjustment in their pay, but not an additional 2%. Mr. Lee explained that if the Board approves this, employees on their current salary grade will move to the next grade and be placed the closest to where they are currently being paid. Ms. Trammel said she asks this because there were employees in positions that did not receive anything, and we made no adjustments, but now we are moving people who did receive something from one position to another and they are receiving an increase. Dr. Goree explained that these changes are coming as a result of changes in job descriptions. Dr. Robinson explained that the recommendation regarding the security patrol officers came as a result of disposition to a grievance and because the patrol officers carry weapons, it was recommended that this position be moved from Grade E to Grade F. Regarding the clerk position, when this position was first evaluated, hand filing was being done in a very large file room, and now because the job description for this position has changed as well as the responsibilities, the cost out of this position is approximately \$530. Ms. Trammel stated if we are moving certain employees and there are other employees that we have

done nothing for, she does not understand the need for change. Dr. Robinson noted that the key is not people but positions.

Mr. Hooks urged the Board to consider returning to the old pay schedule, because Board members hands are tied and only the staff can make these decisions. He said this pay scale is nothing but a nightmare and urged the new Board to return to the old (Arthur Anderson) pay scale. Dr. Robinson reported that she had a conversation with Mr. Rahmberg and he is available to come to Shreveport and meet with the Board if the Board so desires.

Adjustment of Compensation. Miss Green asked if any other names will be added to the list for salary requests, because a pay increase was given to this position when she came on the Board. Dr. Goree responded that in looking at the complexity of the tasks employees are being asked to do, and additional responsibilities and divisions placed under their supervision, it is his recommendation that the new salary is more appropriately aligned. Miss Green asked if responsibilities have been added since Dr. Goree became superintendent, and Dr. Goree responded absolutely both have incurred additions since his arrival and the Board has approved organizational chart revisions that affect both positions. Miss Green said while she is not against anyone getting a pay increase, it's hard to explain to employees in her district, because they are not seeing the added responsibilities, but only the increase in money paid to that employee. Dr. Goree added that Mr. Lee stressed in his comments that staff is always looking for opportunities to reward every employee financially when it is financially able to do so and is why this recommendation comes to the Board versus rolling this \$4.1 million into the General Fund. Miss Green said she understands, but her constituents many times do not understand. She also asked about the Director of Exceptional Students, and Dr. Goree explained that position was formerly Director of Special Education; and when it changed, the responsibilities expanded to include far more programs than Special Education, i.e. Homebound, etc. Miss Green asked Dr. Goree if he plans to add any additional requests in the near future, and Dr. Goree said he does not and reminded her of Dr. Robinson's comments that staff was committed to not doing anything until something could be done for everyone. Miss Green asked Dr. Goree if he has looked at all directors' pay. Superintendent Goree said staff has looked at all directors and the complexity of assignment as well as additional responsibilities to those jobs and these presented for the Board's consideration will address the needs thus far.

Mrs. Crawley asked that Board members be provided a copy of the letter submitted to Rahmberg and Rahmberg's response on these two positions. Dr. Robinson stated that she will get that information to the Board.

Mr. Riall asked about the possibility of Mr. Rahmberg addressing the Board in the near future. Dr. Goree stated that in response to Mr. Hooks' valid points, and if a Board member is not clear or pleased with the quality of service we are receiving, it is appropriate to request a presentation; and staff can arrange a presentation in the future. Ms. Trammel asked that information on the fee/cost for Mr. Rahmberg to address the Board be provided. Mr. Hooks spoke in support of Mr. Lee's increase as well as our teachers and administrators, and the need to pay them what they are worth. Dr. Goree reminded the Board that when considering these increases, Mr. Rahmberg only looks at the position and the specific responsibilities of that position.

Workers Comp Administration Fee. Barry Rachal stated that the Audit Committee discussed this item and asked staff to share the savings the District has seen with FARA. Jim Lee stated there has been far more savings than what this has cost. Mr. Rachal stated that these are services the District pays for, and due to the efficiency of this company, he believes the savings is close to \$1 million. Mr. Lee verified that the savings in using FARA totaled \$750,000 last year.

Approval of Request Authorizing Staff to Piggyback on Bossier Parish School Board Bid ITB2010-11-50 for 2 Special Needs Buses and Piggyback on DeSoto Parish School Board

Bid for 6 Route Buses. Mr. Riall asked staff if we are currently in the process of purchasing five buses a year on lease-purchase. Mr. Lee reported it is eight buses a year. Mr. Riall asked if this is in addition to the eight buses purchased each year. Mr. Lee explained that it is not, but it was necessary to go back and get approval from the company helping us with lease as they are financing the lease and needed it spelled out in detail.

Resolution for Governor to Call a Special Session for Common Core and PARCC Testing.

Mr. Ramsey asked the superintendent if anyone has approached him regarding the components of the proposed resolution. Dr. Goree said no one has talked to him about supporting this resolution. Mr. Ramsey stated that staff provided some good information this evening and he believes the common ground is the focus on PARCC testing. He asked how feasible is it to terminate PARCC testing at this point. Dr. Goree responded that while he does not know the answer to that question, he believes we are down the road and unless something very unique happens, we will be faced with PARCC testing. Mr. Ramsey asked Dr. Goree if the Board President has spoken with him about this item, and Dr. Goree responded that he understands the Board President's recommendation would be to refer this to the Long-Range Planning Committee so as to take a more systematic approach on the District's position relative to Common Core and PARCC testing. At this point, Mr. Ramsey stated he believes all would agree there are some issues; however, in moving forward as a group, the Board needs to be in concert with every part of such a resolution. Dr. Goree stated there are some valid parts to the resolution; however, staff has not been consulted, nor is staff in a position to say staff supports the resolution in its entirety. Mr. Ramsey asked Mrs. Crawford if, in the spirit of collaboration and understanding that at least four new board members will come on the Board in January, this item needs to be placed in committee. Mrs. Crawford responded that Mr. Pierson can do whatever he wishes; however, as the presiding officer, she is leaving it on the agenda at this time. Mr. Ramsey just asked that collaboration and new board members be considered. Mrs. Crawley said she believes this would be a motion to bring forward at the next meeting. Mr. Ramsey also questioned the timing because Mr. Hooks has questioned Common Core on numerous occasions, so he believes bringing this resolution earlier in the year would have been more appropriate. Mrs. Crawford explained that she attended a Common Core meeting; and after visited with Jane Smith because it is the law, and Mrs. Smith explained since the Legislature nor the Boards voted on this, sending a resolution to the Governor, BESE and Department of Education asking them to relook at this is the only thing that can be done at this time. She said she talked with other Board members before adding it to the agenda and they agreed they would support it. While she did not believe it would pass, it is something she believes needs to be done at this time.

ADDITIONS

Mrs. Crawley requested that "Establish Committee of Personnel Council to the Board" be added to the agenda. She stated that all three organizations (A+PEL, CAE and Red River United) are asking for this. Mr. Ramsey asked the superintendent for his comments, and Dr. Goree stated that the way it is written is different from what was previously described and originally there was a concern if the committee would hear bullying situations, would it compromise those Board members if it ultimately came to the Board as a Level IV grievance. At this time, he said he does not have any comments for or against it since he has not had an opportunity to review it and think through any implications or benefits to the District. Mr. Ramsey added that he remembers when first elected to the Board that seated Board members deferred items to the incoming Board, thus he feels very strongly about his position on both items.

Mr. Rachal asked Mrs. Crawley if what was discussed with the Superintendent was what came out originally. Mrs. Crawley explained that she placed on the request form asking if the Superintendent would be implementing this, and Mrs. Crawley said if we are going to have committees, and develop relationships with employees, she believes this to be important. Mr. Rachal said he can see value in this idea, and asked if further discussion can be held with the

Superintendent on this idea. Mrs. Crawford said it is a starting point. Dr. Goree said this is presented differently and it appears to be an improvement; but it is important to look and make certain it is not a duplication of services currently being provided.

Mr. Hooks reminded Mr. Ramsey that the current Board's job is not complete until December 31st, and he is concerned that the current Board is being dismissed prior to terms on the Board expiring. Mrs. Crawford stated while she appreciates Mr. Hooks' comments; they are not appropriate at this time. Mr. Hooks stated that Mrs. Crawford did not elect him and she is disrespecting him by taking the floor from him. Mrs. Crawford responded that she is not disrespecting him; but, she is only following Board policy. Mr. Hooks said he has never shown disrespect to anyone, and Mrs. Crawford declared Mr. Hooks out of order.

Ms. Trammel asked if we do not have an open door policy with the organizations, and Dr. Goree responded we do. She asked if she understands that the council desires to discuss with the Board whatever the topic might be. Dr. Goree said he will look at and visit with the presidents of the associations to get clarity on what exactly the associations are asking, because, the District has always worked to build the relationship with these associations. Mr. Ramsey also asked about policy revisions that are coming to the Board and if there are any issues that could be involved with this committee, or is there a need for this committee based on policy revisions that will come forth. He further stated that the Superintendent has stated some of these things are already in place and are being done, and he is concerned this is redundant since there is a policy in place whereby the Board hears grievances.

Mr. Abrams noted there are several issues, i.e. you are creating another committee that may be subject to open meetings with proper notification and recording of such meetings, and Forethought has been hired to update the policies and all the organizations have been invited and participated in the committee process for addressing changes to policies, particularly personnel policies. Mrs. Crawford asked for clarification and if this is similar to an ad-hoc committee? Mr. Abrams stated the request is for a council, so he believes it could be devised another way, but when you begin setting up another committee with Board members, this means the Board members on that particular council will be making decisions which is another meeting that falls under the Open Meetings Law. Mr. Ramsey added that the President does have the authority to establish ad-hoc committees to review certain items, which is something that has been done in addition to the current committee structure to address matters referred by the President.

Mrs. Crawford announced that 8.04, 8.06-8.07, and 8.09-8.10 are the consent agenda items. *Ms. Trammel moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the December 16, 2014 CPSB meeting as presented. Vote on the motion carried unanimously.*

ANNOUNCEMENTS AND REQUESTS

Mrs. Crawford announced that Item 12.02 will be Announce Possible Bond Election Consideration in January. Mr. Lee explained that this announcement must be made at the December board meeting if the Board decides it will go out for a bond election in May.

Mr. Ramsey asked that the Superintendent and Staff review technologies available for the Board Room facilities since the current equipment appears to frequently have problems.

POLL AUDIENCE

Jon Glover, employee, addressed the Board on matters of concern, i.e. magnet schools, Common Core and Eureka Math; and she asked the Board if it finds it odd that so many people have taken an interest in Common Core. She further stated that questions tonight have been asked for years

and it is disheartening to her that we have waited until the 9th hour to address an issue which has had considerable impact on the school district. She recalled at the last meeting when the Board Member from District 5 made a statement relative to his Town Hall Meeting dealing with the Common Core. She said the Board cannot say they are here to establish what is best for the children when the Board does not know the material that is best for the children. Referencing Mr. Burton's comments that the best teachers have been selected for Eureka Math; she questions what happened other than the fact that there are far too many weary moments that our children may not be equipped to handle what they are being asked to address. Ms. Glover said she has done her homework and she can stand before the Board with this concern. If not equipped with what needs to be done, if we have vices, if there are agendas that do not mirror what is needed in Caddo Parish, then she urged the Board to revisit what it is doing. If the children today do not get what is the best we have to offer, then the Board must know we only have what is put before them. Ms. Glover noted that St. Tammany made a decision to fight Eureka Math and she encouraged the Board to think first of the children in moving forward and not any other agenda.

Jackie Lansdale, president of Red River United, reminded the Board of what has transpired with the creation of Board committees and the fact that the committee allowing employees to talk about personnel policies that the Board will create. She said they have waited on the creation of this committee for two years; and after consulting with the other organizations, she noted that she again did not see it on the agenda. While there is a committee where the organizations meet quarterly with the Superintendent, the Superintendent does not create or pass policy, it is the Board's responsibility. She asked the Board to create this committee and offer the employees of the district the opportunity to vet policy, to sit down and discuss what will work and not work, so they do not have to fight fire with fire. Mrs. Lansdale said she believes it is very reasonable to allow the professional organizations to come to the Board in a committee forum to discuss personal, relevant items. In being more than willing to sit down with the Superintendent or any Board member, she said she finds it offensive when she believes matters have been ironed out and then the Board comes together and does the opposite. She asked that the Board show them respect.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 8:00 p.m.*

December 16, 2014

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, December 16, 2014 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Carl Pierson presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Nell Fisher, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Mr. Ramsey was absent due to illness. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Miss Green led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE NOVEMBER 18, 2014 AND DECEMBER 2, 2014 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the November 18, 2014 and December 2, 2014 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Pierson and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

A.C. Steere Choir. Members of the A.C. Steere Elementary School choir shared several Holiday-themed songs. Diane Woodward is the choir director.

Presentation to Homeless Department. Board member Dottie Bell and Mrs. Lavada Palms presented approximately \$2,000 in cash and credit cards to Pittre Walker with the Homeless Education Department. She shared the history of their sorority annually holding the “Party with a Purpose” event for eight years which began by providing toys for children. The program has changed to provide assistance to the homeless through the Homeless/Title I Program. Board members were encouraged to support this worthwhile program.

A.C. Steere Student Starts “BEAR SHARE” Project. Julianna Gouthiere, 2nd grader at A.C. Steere Elementary, was recognized for starting the Bear Share Program which provides new or gently used stuffed animals to children involved in a difficult life situation, i.e. child abuse, being in the hospital or involved in an automobile accident

2014 Louisiana State Fair Baton, Dance Line and Cheer Team Competition. The following were recognized for participation and awards received in the 2014 Louisiana State Fair Baton, Dance Line and Cheer Team Competition: Blanchard Elementary Cheerleaders for winning 1st Elementary Large Pom, Large Show, Large Cheer; and Elementary School Grand Prize Winner; Southern Hills Vickettes for winning 1st Elementary Medium Pom, Medium Hip Hop, and Medium High Kick; Southern Hills Liturgical Drill Team for winning 1st Elementary Medium Liturgical; and Southern Hills Viking Squad for winning 1st Elementary Small Pom, Medium Cheer, Hip Hop and Elementary School Secret Judges’ Choice. Middle School winners are Caddo Middle Magnet Starline for 1st Middle School Small High Kick; Walnut Hill Cheerleaders for 1st Middle School Cheer/Pom (tied with Youree Drive); Youree Drive Middle School Varsity, 1st Middle School Cheer/Pom; Youree Drive Spartan Line, 1st Middle School Medium Hip Hop, Small Pom, Novelty and Small Military; Donnie Bickham Patriot Belles for 1st Middle School Medium Cheer, Jazz, Pom, Military and Middle School Grand Prize winner; Donnie Bickham Patriot Cheerleaders for 1st Overall Middle School Cheer Division; and Herndon Highsteppers for winning 1st Middle School Large Novelty, Pop Mix, Small Hip Hop, Medium Hip Hop, Large Military and Middle School Secret Judges’ Choice. High School winners are

B.T. Washington Cheerleaders for winning 1st High School Medium Cheer, Hip Hop and Pom; B.T. Washington Pep Squad for winning 1st High School Large Pep Pom; Captain Shreve Gator High Line for winning 1st High School Small Pom, Jazz and High Kick; Green Oaks Dancers for winning 1st High School Small Lyrical; North Caddo Rebel Steppers for winning 1st High School Medium and Large Military; Southwood for winning 1st High School Large Auxiliary; Northwood High School Varsity for winning 1st in Cheer; and Northwood High Falcon Line for winning 1st in High School Large Pom, Northwood High Falcon Line for winning 1st High School Large Pom, Hip Hop, High Kick and High School Grand Prize Winner.

We Care Essay & Video Winners. The following students were recognized as winners in the We Care Essay & Video contest sponsored by Community Renewal International. Elementary winners are Lola Carlisle, 5th grader at Herndon Magnet, 3rd Place; Desiree Hudson, 5th grader at Claiborne Fundamental Elementary, 2nd Place; and Morgan Kemper, 5th grader at Claiborne Fundamental Elementary, 1st Place. Middle School winners are Dalton Hudson, 8th grader at Youree Drive Middle AP Magnet, 3rd Place; Clair Gaudin, 8th grader at Youree Drive, 2nd Place; and Mamie Smith, 8th grader at Oak Park MicroSociety, 1st Place. High School winners are Terena Cooper, 9th grader at North Caddo, Sally Norton, 12th grader at Byrd and Hannah Jones, 10th grader from Byrd, three way tie for 3rd Place; Nathan Amos, Savannah Donnelly, Madison Elmore, Juan Fabela, Ashley Gillespie, Kaderrin Hollins, Davis Hopper, Aaron Nelson, Cassandra Ott, Kaleel Redilford, Laura Rives, Deborah Stackhaus and Xavionna Stover from Caddo Career & Technical Center, 2nd Place; and, Misty Wolf & Ashley Wolfe, 12th graders at North Caddo High, 1st Place. Mr. Strother also recognized Tom Watts and Bob Griffin from Community Renewal, Cindy McGowan from OIB and Amanda McGarrity, Judge.

KTBS One Class at a Time Winner. Shirley Brock from Westwood Elementary School was recognized as the winner of a \$1,000 “One Class at a Time” grant which she announced she will use to buy computer software (Mr. Know it All: Literacy on the Go!) to promote awareness and love of literacy.

2014 Christmas Cards to the Community at American Rose Center. The following Caddo Public Schools winners in the 2014 Christmas Cards to the Community at the American Rose Center were recognized: Elementary Schools – Claiborne Elementary, Third Place; South Highlands Elementary, Second Place; and Fairfield Elementary, First Place; and Middle Schools Caddo Middle Magnet, Third Place; and Youree Drive Middle, Second Place.

2014 Greening of the Trees, Louisiana State Exhibit Museum. The following Caddo Parish Public Schools were recognized as winners in the 2014 Greening of the Trees at Louisiana State Exhibit Museum: South Highlands, 4th Place; E. B. Williams Stoner Hill, 3rd Place; North Highlands, 2nd Place; and Arthur Circle, 1st Place. This year’s theme was “The Battle of New Orleans”.

Special Presentation from Community Renewal International. Michael Leonard made a special presentation to Superintendent Goree from the Community Renewal International in appreciation for the partnership with the School System over the years and for the help provided in celebrating their 20th Anniversary with President Jimmy Carter as the keynote speaker.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced and welcomed the following newly appointed administrators: Teniesha Mahoney, administrative assistant at Booker T. Washington; and Candice Webert, assistant principal at Youree Drive Middle School.

Board Member Recognitions. Second Vice President Mary Trammel expressed appreciation to the following members of the Board for their years of service to the children and employees in Caddo Parish and presented each with a plaque: Carl Pierson (District 3), Charlotte Crawley

(District 4), Curtis Hooks (District 5), Nell Fisher (District 7), Bonita Crawford (District 8), and Ginger Armstrong (District 11). Mr. Pierson was also recognized and presented a clock in recognition of his service as the Board's 2014 President.

VISITORS

Jon Glover asked the Board if it finds it odd the number of people who have taken a ninth hour interest in Common Core. Upon reading articles relative to Common Core (both pros and cons), she asked how is Caddo Parish affected; what will happen when Caddo students are tested, specifically those in the eight districts whose SPS scores are lagging. She noted a Town Hall meeting she attended where Common Core was the center of conversation and concern; and she believes if our SPS scores are any indicator of how successful the children in Caddo Parish will be, there is a problem. She noted that for as long as she can remember she has directed the Board's attention to the educational disparities in the school system, and no child can be prepared to meet the requirements of Common Core if they are not adequately prepared. She said she is most amazed that it takes the right person to bring forth concerns about the issues before action is taken, so she guesses she was not that person. Now everyone is coming on board and the Board wants to do a resolution, talk to BESE, and all these options were available when and if we vetted the Common Core and what it brings to the children. After hearing from educators in St. Tammany Parish that the practices of Common Core are too involved, too engaged; and it is not because the children can't attain it; but, if the children are not prepared to attain it, there is a problem. Ms. Glover referenced comments from the chief academic officer that the finest teachers were selected to vet the Eureka Math; and they were told by these teachers that the children can meet these expectations. She questions what was being looked at and what children are being talked about, i.e. the whole of children in Caddo Parish or a particular sect of children who can maintain and achieve what Common Core is to bring about. She further stated we do want higher standards for the children, but adequate preparation is needed to accomplish higher standards. If we sit back and watch the devastation that continues in Caddo Parish without saying anything and give consent, then we are as guilty as anyone that puts forth support of this effort. She closed by saying that when she stands before the Board pleading for the children, it is for the children and not a particular child, and there must be a problem because some are not hearing "the children" but "a child in a particular area" and we are to be about helping our children attain what it is that will make them successful in this society.

Frederic Washington referenced the resolution on PARCC testing and he believes the background of this resolution deals with the assessment not being in the spring. If this is the case, he said we have missed the entire point; because the State giving something to the local School District to implement and it is not complete is not an isolated incident. Mr. Washington said the teacher evaluation tool is not being used the way it was written, so he does not see the point with the proposed resolution if there is not going to be consistency across the board, from assessment to teacher evaluations and the like. Also, he pointed out that many things on the state level play a big role in the red tape in the classrooms, but also a lot of things preventing the teachers from being creative in our students learning process are things within the purview of the District. Mr. Washington stated that everyone has become consumed with what sounds and looks good on paper, but it is not in the best interest of teachers and it is not within the best interest of students. If the District really wants desirable results and really wants learning to take place, the Board needs to give teachers the autonomy/flexibility to do their job. In holding educators to high standards and saying it is all about the children, he truly believes that is not the case; and it is time for teachers to return to teaching and students to learning.

Erin Berry read a letter from the Highland Restoration Association regarding Hamilton Terrace and the possibility of HRA purchasing this property from the CPSB. She noted that HRA is asking that a decision on what to do with Hamilton Terrace be delayed so input can be provided in this decision, as well as decisions that might affect schools in the Highland neighborhood and

also affect the fate of historic buildings. She stated that any decision the School Board makes can negatively or positively affect neighborhoods, and these decisions should include input from the neighborhood stakeholders. She stressed the desire of HRA to be involved in any decision made relative to the Hamilton Terrace property, as well as Creswell and Barret. HRA requested that they be included in a meaningful way in decisions involving schools and students in the Highland Neighborhood, in particularly Hamilton Terrace, Creswell and Barret. As a resident of the Highland neighborhood, Ms. Berry added that she worked at Creswell this past year and she supports the small neighborhood schools and hopes it can be maintained. Mrs. Crawley requested that the superintendent meet with the HRA group concerning the schools in the Highland area.

Jackie Lansdale, president of Red River United, expressed gratitude on behalf of employees for the \$500 supplement in January, as well as for those employees receiving additional funds as recommended by Rahmberg, evidence that the process for re-evaluation of salaries does work. She also expressed excitement for Dr. Goree and his commitment to the professional organizations and his agreement to meet with them once a month, which she believes will bring a positive outcome. Also, Mrs. Lansdale stated as public servants standing up for students and employees, it is time to stand up and speak out regarding the PARCC and its faulty implementation and the fact that Caddo Schools deserves more respect than a shoddy, piecemeal effort. She also expressed thanks and appreciation to those Board members that will not be returning in 2015.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE DECEMBER 16, 2014 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Goree announced that Item 8.14 "To Consider and Take Action with Respect to Adopting a Resolution Providing for the Issuance and Sale of General Obligation School Refunding Bonds..." is being pulled. Staff also requested that 8.12 Establish Committee for Personnel Council to the Board be pulled because a compromise resolution was reached and this is different than the board-established committees. Dr. Goree explained that a monthly meeting will be held with the association presidents and a representative from the Board, if the Board so selects one, will serve on that committee. Mr. Rachal called for a point of order and it appears that the item should be removed by the maker of the item or it goes to discussion at the time on the agenda it is heard. At that point, he added it is possible there could be a substitute which can be discussed at that time.

Mr. Pierson stated that Items 6.02, 6.04-6.05, 7.01, 8.05-8.07, 8.09-8.10 and 13.01 are the consent agenda. *Mr. Rachal moved, seconded by Mr. Hooks, to approve the agenda and proposed consent agenda for the December 16, 2014 CPSB meeting as presented.*

Positions Re-Classification by Rahmberg, Stover & Associates. Ms. Glover commended the efforts to insure that not only the security patrol personnel recommendation was approved but that the newly devised data imaging position also was approved. She shared her reservation that both these positions were put together for consideration and reminded the Board that it was noted at the executive committee work session that this came as a result of a grievance. Relative to the Data Imaging Position, she asked that someone help her understand why this recommendation is being considered since comparisons of both analyses from Rahmberg, Stover (one dated December 9, 2013 and another document dated March 13, 2014) yielded a difference in ranking by some 470 points, and she asked why? Consideration of this recommendation was first considered and denied on December 18, 2013, but now it is coming forth again with nothing new, and she wonders why. Ms. Glover stated she has never been a proponent for Rahmberg, Stover & Associates; and even though the Board accepted what they proposed and adopted the compensation plan, she believes a level of integrity is attached to the handling of this

recommendation and asked if it is true management can do whatever it wants unless someone says no, i.e. the Board. She stated every employee received a 2% increase in July of this year, except those redlined or frozen; so asking for reconsideration of this recommendation at this juncture should be denied; She said there is much to think about in consideration of this request because there is much potential for Pandora's Box being opened. If we can pick and choose what positions will be determined of an upgrade/more monies, there is a problem.

Adjustment Compensation. Ms. Glover stated that she has her mind made up, so do not confuse her with the facts. She asked the board if its mind is made up relative to this item? She shared her astonishment when reading this item particularly because there was no supporting documentation that would justify an adjustment with these two positions. She also stated that every employee received a 2% increase, and considerable monies are being recommended for approval, so she wonders what has warranted such an increase. She noted the chief financial officer's salary is \$103,995 and an extra \$11,627 gives him salary of \$114,622.08.

The director of exceptional children has a salary of \$87,282 and the additional \$6,283 brings it to a total of \$93,565; and while additional duties may have been assigned, she asked who will be performing those duties. Ms. Glover stated that every employee in the School District can attest to the fact that they perform extra duties outside the scope of their job description; and being denied the opportunity to apply for other roles in the secretarial arena all because you address the Board has been her experience so she will never have the opportunity to know such. Also, good sound practices should be expended when dealing with such recommendations.

Mrs. Armstrong moved, seconded by Mr. Hooks, to approve the adjustments of compensation for the chief financial officer and director of services to exceptional children as recommended by staff and Rahmberg, Stover and Associates. Miss Green asked the superintendent if everyone else's salary has been looked at by Rahmberg, and Dr. Goree said a complete audit of all staff has not been completed. This situation came as a result of looking at the reorganization of the district and structural changes were made to the organizational chart, as well as assignment of additional duties to both positions. Miss Green stated that she only does not want this to become an issue, and Dr. Goree stated that there is a system in place in the District where any employee can request to have their compensation evaluated and employees are invited to do that so that everyone is compensated fairly. Miss Green only asked that we are fair in decisions and employee salaries that are brought before the Board, and Dr. Goree agreed.

Mr. Abrams reminded the Board that it approved revising the salary structure several years ago when staff utilized a PEC (Personnel Evaluation Committee) and stressed the number of grievances filed on how employee salaries were adjusted. However, it was the Board's policy that an inside committee would no longer be used, but whenever issues came up regarding salary structure, an outside consultant would be used. Now when someone claims their salary is not in the appropriate spot, it will go to the outside consultant who will make a recommendation to the Board; and if the Board disagrees, the board does not have to do anything. He further stated that at this time, Rahmberg is only doing what the Board requests him to do, and that is to review and consider any employee's complaint that their salary is not appropriate.

Mr. Hooks concurred with the salaries proposed and asked why their secretaries were not included since when an administrator's responsibilities increase, so does the secretaries' responsibilities. Dr. Goree stated that the scope of the work for the secretary and if it has changed has not been determined; however, there is a process where the secretary can request that their job description and responsibilities be assessed and salaries reviewed. There is an approved pay structure for the secretaries and he added that staff works very hard to keep the scope of their work consistent with what it was even when adding additional responsibilities. Mr. Hooks added that even though tonight is his last Board meeting, he will make certain the new representative for District 5 brings this up. Mr. Hooks again concurred with granting these

positions an increase; but he believes to not compensate the secretary is a slap in the face. Dr. Goree said it has been discussed how it is wished employees could be compensated more; and he congratulated the staff and the Board for showing this commitment and effort in the one-time supplement in January.

Mrs. Crawley asked at the last meeting for Rahmberg information on this and Dr. Robinson stated that the requested information was included in the staff responses sent to the Board by Debbie Lohnes.

Ms. Trammel asked for clarification on what item the Board is discussing and was 8.07 not placed on consent. Miss Green stated that it was placed on consent. She also said she believes the supplement is needed; however, at one time there was a statement on every job description under responsibilities listing “and other related duties.” Ms. Trammel stated that she is aware of the point, but she also knows that Board members will continue to do whatever the job description states the work load will be.

Mrs. Armstrong asked the Board to remember that when Rahmberg makes a recommendation, he is doing so based on a comparative study with what the local market will allow.

Mr. Riall moved, seconded by Mrs. Armstrong, to call for the question. Vote on the motion to end debate carried with Board members Green, Crawley and Hooks opposed and Board member Crawford absent for the vote.

Vote on the main motion carried unanimously.

Mrs. Crawley asked that when she requests additional information on an agenda item that it be placed on BoardDocs.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Hooks, to confirm the consent agenda. Vote on the motion carried unanimously, and the following is a summary of the Board’s action on consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports. The board approved the personnel transactions reports for the period of November 1 – 30, 2014 as recommended by the superintendent and submitted in the mailout.

6.04. Request for Leave Without Pay. The board approved a request for leave without pay as recommended by the superintendent and submitted in the mailout.

6.05 Renewal of Administrative Contract. The board approved the renewal of an administrative contract as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Capital Projects. The board approved staff’s recommendation to re-advertise and re-bid Project 2015-049, “Southwood Girls’ Softball Dressing Room”, as all bids were non-responsive.

Item No. 8

8.04 Rename the Auditorium at Oak Park MicroSociety School for Albert M. Moody, 1st Principal at Bethune Jr./Sr. High School. The board approved renaming the auditorium at Oak Park MicroSociety School the Albert M. Moody Memorial Auditorium for Albert M. Moody, 1st principal at Bethune Jr./Sr. High School.

8.05 Future of Hamilton Terrace Property. The board moved to reject the offer on Hamilton Terrace and for staff to begin the process of evaluating future uses of the property.

8.06 \$500 One-Time Pay Supplement for Employees. The board approved the \$500 one-time pay supplement for all employees, excluding substitutes, as recommended by staff and submitted in the mailout.

8.07 Positions Re-Classification by Rahmberg, Stover & Associates. The board approved re-classification of the Security Patrol position and the Clerk-File Document Imaging (Document Data Imaging Clerk) position as recommended by Rahmberg, Stover & Associates and submitted in the mailout by the Superintendent.

8.09 Workers' Comp Administration Fee. The board approved contracting with FARA to administer Risk Management claims as recommended by staff and submitted in the mailout.

8.10 Approval of Request Authorizing Staff to Piggyback on Bossier Parish School Board Bid ITB2010-11-50 for 2 Special Needs Buses and Piggyback on DeSoto Parish School Board Bid for 6 Route Buses. The board authorized staff to piggyback on Bossier Parish School Board's Bid ITB2010-11-50 for 2 special needs buses and to piggyback on DeSoto Parish School Board's bid for 6 route buses as submitted in the mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved staff's recommendation for readmissions for students DB, KG, FJ, WJ, TK, and DT. The parents are in agreement.

LEVEL IV GRIEVANCE HEARING IN ACCORDANCE WITH CPSB POLICY GBM

Mrs. Lansdale asked the Board to hear this grievance which has been properly processed and every effort made to resolve it. As part of the Board's obligation per State Law and Parish policy, she encouraged the Board to consider hearing it.

Mr. Rachal moved to uphold staff's recommendation at Level III. Motion failed for lack of a second.

Miss Green moved, seconded by Mr. Hooks, that the Board hear this Level IV grievance in accordance with CPSB Policy GBM. Miss Green stated she has always been for listening to employees; and we should go into the new year listening and being open to what the employees want to say. Mr. Hooks concurred with Miss Green's comments and that listening is one of the main functions of the Board. Vote on the motion carried with Board member Rachal opposed.

ESTABLISH COMMITTEE FOR PERSONNEL COUNCIL TO THE BOARD

Mrs. Lansdale reported that a meeting was held with the Superintendent; and if it is the will of the Board that this go forward, an agreement has been reached which they will try for six months and then revisit it. She added it is also within the Board's purview that a Board member would sit on this council.

RESOLUTION FOR GOVERNOR TO CALL A SPECIAL SESSION FOR COMMON CORE AND PARCC TESTING

Mrs. Crawford moved, seconded by Mrs. Armstrong, to approve and send to the Governor the following resolution requesting that PARCC testing be revisited.

RESOLUTION FOR MORATORIUM ON PARCC TESTING

Whereas, the Caddo Parish School Board Members and our stakeholders believe that commitment to providing a challenging and relevant curriculum will lead to constant improvement and high performance of Louisiana school systems; and

Whereas, effective instruction must meet the needs of all students allowing every child to learn at expected high levels; and

Whereas, the Caddo Parish School Board members are duly elected by the citizens of the parish of Caddo; and

Whereas, with the newness of the shift to Common Core State Standards and the extreme achievement gaps that have occurred due to the immediate rather than incremental implementation, causes students to be ill-prepared for the new testing format; and

Whereas, there is a lack of resources or a lack of time to properly train teachers in the use of the available resources that truly allow teachers to plan lessons and assessments which are PARCC-ready; and

Whereas, there has been a delayed release of ever-evolving resources to be used in instruction and assessment; and

Whereas, in previous years, educators knew about all aspects of the spring tests before school even started and PARCC's rushed release has put teachers and students at a serious disadvantage; and

Whereas, the amount of time it will take to get the PARCC test results back (Sept./Oct.) will cause the results to be somewhat irrelevant; and

Whereas, the testing format (daily for all grades) as opposed to "Phases" with iLEAP/LEAP will cause schools/districts to purchase more calculators to handle the load of everyone testing at the same time; and

Whereas, the paper and pencil option may not be available for as long as needed; and

Whereas, the members of the Caddo Parish School Board do hereby request an immediate moratorium on participating in the PARCC testing by all Louisiana students and at this time suggest using the current Louisiana assessments until a new assessment instrument is developed.

Be it resolved that this resolution be spread upon the official minutes of the Board, with copies being sent to Governor Bobby Jindal, State Superintendent of Education John White, members of the Louisiana Board of Elementary and Secondary Education, all members of the Louisiana Legislature, the President and Superintendent of every Louisiana School Board, the executive director of the Louisiana School Boards Association, and all public education stakeholders organizations/associations.

Mrs. Crawford stated that School Boards across the state are pulling this resolution; and after talking with Jane Smith since the Legislature nor local school boards voted on this, she wished to bring this forth for Caddo's consideration as a way of helping Caddo teachers and students by asking the Governor to relook at this. She shared how other states implemented PARCC over a couple of years versus Louisiana implementing everything at the same time.

Mrs. Armstrong concurred with Mrs. Crawford's comments and noted some of the concerns parents have shared with her. While everyone is accepting of higher standards, and Common Core is a set of standards, the problem is PARCC testing and all students being placed in it at one time leaving some major gaps in the implementation process. She also said that the Board needs

to be realistic that it can do very little without something like this resolution being submitted to the Governor and Legislature regarding our concerns. She stated her support of this resolution and encouraged the Board to carefully consider their support also.

Mr. Hooks said this is all great and he agrees; however, he believes we should have attacked this last year by contacting our Legislators when he brought this up.

Mr. Rachal asked the superintendent about the proposed resolution; and Dr. Goree stated he does understand Mr. Hooks' concern that we are far down the road and staff has been aggressively preparing students to do their very best on this test. In a perfect world, he believes this would have been referred to committee with ample time to research it. He also added that staff agrees with everything state in the resolution; however, it is true that students will be tested in a very few days and he does not know how productive the resolution will be. Mr. Rachal asked about what the law says at this time if a school's score goes down and is there not already a moratorium in setting the base score? Dr. Goree explained that the moratorium in place will look at percentages and numbers of schools currently in certain grades; and it does not mean that a school cannot change, but that across the state there will be an equitable number of schools to stay within certain grade ranges. He also added that there is a phase-in from the scoring perspective where the state is indicating appropriate models are being used to insure that the scores are similar to what the students would have made if still on the Louisiana assessment; but, at this time, staff has not received any validation. Mr. Rachal stated that when the Common Core Standards were put together and submitted, the intent was good; however, the process was hijacked and the implementation horrible; and our job is not always higher standards, but higher results for our students. He added his understanding that this resolution does not have any impact other than being a statement from the Board that we have issues with the implementation of the PARCC test and he believes the PARCC test will happen for this school year.

Mrs. Bell stated her support of the resolution; and after talking with a representative, she learned that we are not under a contract but still under LEAP/iLEAP and encouraged everyone to look into the facts. She said she believes it is money that is the problem and she does not believe we have PARCC. Dr. Goree explained there are concerns about the legitimacy of the contracts as relates to PARCC testing and our current contracts with LEAP/iLEAP. However, at this time it is a legal matter and until it goes through the court system, which is not something that will happen quickly, the answer will not be known. At this time staff is not comfortable attacking that issue since we do not know. Mrs. Bell said she supports the resolution and letting them know we do not want this to happen; and believes the Legislature can stop this before March.

Dr. Goree also explained that the State has given the District the authority, since test scores will not be known until November, to come up with a measure to determine retention at the critical grades and still meet our No Child Left Behind qualifications.

Mr. Riall moved, seconded by Mrs. Armstrong, to call for the question. Vote on the motion to end debate carried with Board members Green and Crawley opposed.

Vote on the main motion carried unanimously.

SUNSET ACRES NEW RESTROOM FACILITY

Mrs. Armstrong moved, seconded by Ms. Trammel, to approve the staff's recommendation for a new restroom facility at Sunset Acres.

Mr. Rachal stated that because there is not any documentation other than an estimate, he believes this item should be postponed. Dr. Goree said this was created by the reconfiguration of schools; and because Sunset Acres was a preK-5 school, but it now serves preK-6th graders. Steve White,

director of capital projects, explained that the restrooms in the classrooms for preK and Kindergarten years are very small; and if standard fixtures are added, one will not be able to open the restroom door. He said the funding source will be savings from last year's capital projects budget and contingency from the 2014-15 budget. He also stated that the estimate presented is his best estimate based on eight fixtures in each restroom. Mr. Rachal asked if staff determined this was number one on the list after reviewing all other capital projects? Mr. White explained that the Academic Affairs staff brought this to Capital Projects because of health and discipline issues as a result of moving students to other parts of the school for use of restrooms; and this is the earliest staff could address it.

Mrs. Crawford asked about the status of her request approximately one year ago relative to the women's restroom in the auditorium at Booker T. Washington and if this was addressed. Tommy Smith said he believes it was addressed immediately; but he will follow up on it.

Mr. Hooks moved, seconded by Mrs. Armstrong, to call for the question. Vote on the motion to end debate carried with Board member Crawley opposed and Board member Green not present for the vote.

Vote on the main motion carried unanimously.

ANNOUNCEMENTS AND REQUESTS

Mrs. Crawley asked if we are evaluating teachers that scored highly effective last year when they were told they would not be re-evaluated this year, but now we are telling them they will be evaluated. She would like to know why we are doing so.

Mrs. Crawley said she believes it would be wise to ask the state to allow Caddo to simply opt out of the PARCC testing for this year following sending the board-approved resolution. She stated she recommends this because it is not even the PARCC test, it has not been properly vetted, and it consumes valuable teaching time with no benefits to the students. Mr. Hooks said he too would like to receive this information.

Mr. Hooks asked for the number of bus drivers who have not been paid for field trips and after-school programs, when will these unpaid drivers be paid and who is responsible for keeping the time since we no longer use PR2s.

Ms. Trammel asked if staff is telling those in the Transformation Zone they cannot transfer out of the zone?

Ms. Trammel also asked when a child with a first infraction and no other problems is sent to Ombudsman for the entire year, how are we working with these students to help them in such infractions without such heavy penalties. She also asked staff to follow up with the Captain Shreve parent that is still not allowed on the campus.

Mr. Riall wished everyone a Merry Christmas and a Happy New Year! He also expressed appreciation to Mr. Pierson for his service as the Board's 2014 President, as well as the pleasure he has had in serving with the non-returning Board members.

Miss Green wished everyone a Merry Christmas and a Happy New Year and expressed appreciation to outgoing Board members for their service to the District and the children of Caddo Parish.

Mrs. Crawford stated that since there are new Board members in the audience, she would like to point out that according to Robert's Rules there is no Point of Information or Point of

Understanding, and encouraged the next President to attend one of the work sessions at the National Conference that addresses Robert's Rules.

Mr. Pierson stated that most organizations have their own rules and when they don't they refer to Robert's Rules.

Mrs. Armstrong thanked the Board for the honor of serving with them, as well as the staff for what they have meant to her personally in the work done on a daily basis. Caddo is a terrific school system, and there are many, many good things happening in Caddo whereby the students are profiting despite those issues brought forth by those in control. She encouraged School Board members to continue to do the best it can and support the Superintendent and staff.

Ms. Fisher noted that her short time on the Board has been wonderful and that when all work in one accord, things do work. She congratulated Raymond Green and welcomed him to the District 7 seat.

CONSIDER ADOPTING A RESOLUTION RELATED TO THE ISSUANCE OF GENERAL OBLIGATION BONDS AT THE JANUARY 20, 2015 SCHOOL BOARD MEETING

President Pierson announced that notice is hereby given that the Caddo Parish School Board of the Parish of Caddo, State of Louisiana, plans to consider a resolution ordering and calling an election to be held within the Parish of Caddo to authorize the issuance of General Obligation Bonds at the school board meeting on Tuesday, January 20, 2015 at 4:30 p.m. at the parish school board office, 1961 Midway Street, Shreveport, Louisiana.

Adjournment. *Mr. Hooks moved, seconded by Mrs. Crawley, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:20 p.m.*

T. Lamar Goree, Ph.D., Secretary

Carl A. Pierson, Sr., President

January 6, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, January 6, 2015 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana immediately following the Oath of Office for all Caddo Parish School Board members by The Honorable United States District Judge Donald Walter, Western District of Louisiana with Board Member Mary Trammel presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mr. Riall led the prayer and Pledge of Allegiance.

ELECTION OF 2015 OFFICERS

Mr. Ramsey moved, seconded by Mr. Rachal, to select officers by slate. Vote on the motion to elect officers by slate carried unanimously.

Mr. Ramsey nominated, seconded by Mr. Rachal, that Steve Riall be elected President, Mary Trammel, First Vice President, and Dottie Bell, Second Vice President. Vote on the motion carried unanimously.

AUTHORITY TO USE A FACSIMILE SIGNATURE BY THE PRESIDENT

Mr. Ramsey moved, seconded by Mr. Rachal to authorize the president to use a facsimile signature. Vote on the motion carried unanimously.

At this time, Ms. Trammel called for a 5 minute recess, and the meeting recessed at approximately 4:43 p.m. The board reconvened in open session at approximately 5:03 p.m. with President Steve Riall presiding.

APPROVAL OF SETTLEMENT

Mr. Ramsey moved, seconded by Ms. Trammel, to approve the settlement of bodily injury claim #4805156 as recommended by staff and submitted in the mailout. Vote on the motion carried unanimously.

Adjournment. *Mr. Ramsey moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 5:04 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

January 6, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, January 6, 2015 at approximately 5:05 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and Pledge of Allegiance were omitted.

PRESENTATIONS

Mr. William Strother, director of marketing and communications, introduced staff members who shared the following presentations.

Transformation Zone Update. Billy Snow, transformation and innovation officer, shared information on the Zone schools and efforts to re-imagine and transform the schools that have historically failed. He highlighted the partnership with the University of Virginia via the partnership with the RSD which entails summer training, site visits, on-site professional development to maximize support for the Zone, PARCC-ready instruction, fall training, follow up reports and repeat the cycle beginning in the summer of next year.

Mr. Snow highlighted the following four "big rocks" that need moving in order to turn the schools around: (1) climate and culture, (2) teaching effectiveness, (3) RTI (Response to Intervention), and (4) Data Base Collaboration. Specific goals implemented in each of the Zone schools were highlighted, including addressing environment and discipline, attendance at Ron Clark Academy, beautifying campuses, setting expectations, rewarding the good, involvement in community service, lesson planning, delivery, focus quizzes every two weeks based on the curriculum, teacher instructional leadership training, monthly zone professional learning community meetings with campus leadership teams, response to intervention time during the school day other than Core instruction times, weekly professional development time on each campus where teachers work together to learn something new and apply in their classrooms, and tracking data on the wall in their data room.

Billy Snow shared how staff knows this is working by noting the reduction in the number of arrests at Fair Park and Woodlawn from 85 last year to only 5 this year. Also last year the District was using an additional 100 seats at Ombudsman for expulsion and the decrease is attributed to the Zone schools not expelling children because discipline and classroom management are better. Additional data noted included 70 Fair Park students enrolled in Enriched Algebra classes versus only 6 students scoring good on the EOC in Algebra last year, attendance is up at every school in the Zone and at the elementary level attendance is 96 and 97%, discipline and out of school referrals are down at every campus. Additional highlights include no discipline referrals at Midway this year, Atkins Elementary discipline referrals are down 50%, Mooretown has had only 2 suspensions, Westwood over the past two years has decreased their discipline referrals by over 70% and out of school suspensions only 1.7% versus 15.3%, CMCT discipline referrals are down 40% and Lakeshore discipline referral rate is only 6.6%, well under half the state-expected rate of 15%. Mr. Snow also reported that the number of out of school days for discipline reasons at Woodlawn is down 147% and there are four ACT Prep courses with an enrollment of 89 students and 148 students at Woodlawn are enrolled in Credit Recovery at this time. Every school is doing bi-weekly focus quizzes and tracking data to improve instruction which includes Reading and Math fluency as well as performance on focus quizzes for all curriculum areas. He also shared the importance of community support and the positive response to a recent community bus tour of three of the Zone schools, and recent

projects that students were involved in as part of community service to provide Christmas to a family who lost all their Christmas and belongings in a fire. Partnerships in the community have provided free haircuts by barbers, a playground a Queensborough, and classes held at the Norton Art Museum where students learned their subjects through Art.

Mr. Snow also reported that the work being done in the Zone schools is also getting to other campuses by teacher instruction leadership training being provided to all D and F schools this summer, Ron Clark Academy opportunities expanded in the District, RTI is district-wide effort, UVA processes have been expanded to other schools, and PARCC professional development expanded to other schools outside the Zone as they are working for the good of all students.

Challenges include the uncertainty with state testing; and while progress is being seen, he reminded everyone that 60-80% of the students came in below grade level by two or more years; and their work began by turning these schools into schools again with well-behaved children and teachers and staff members who work tirelessly. Mr. Snow explained that another challenge is the number of over-age children and 9T students in the middle and high schools; so, in the elementary schools they are using intervention time to catch students up knowing if a child is retained once, they are 50% more likely to drop out of school. Staff is working with Ombudsman to provide extra spots to catch these students up through credit recovery so they are not on the campus with 8 and 9 year old students. Mr. Snow also reported that the number of special education students in The Zone is high, and it is not high because of the children, but because of misidentification and not being provided the right information for a long time. Also attracting and retaining certified teachers, especially in critical areas, is a concern and staff has begun processes to develop Caddo's own training certification programs to grow our own.

Mr. Snow stated that The Zone is truly saving lives, one school at a time, and it is an honor for him to be a part of the Transformation Zone. He recognized those in the audience that are on the Transformation Zone Team.

Update on Act 833. Dr. Shelia Lockett, director of department of exceptional children, shared with the Board an update on Act 833 that went into effect August 1, 2014 and it provides opportunities for alternative pathways for certain students with disabilities to be promoted and to graduate with a standard high school diploma, and it increases the role of the IEP teams in making those decisions. Dr. Lockett stated that a vast amount of students are impacted by Act 833 with over 100 seniors that should be able to graduate by the end of this school year some with as many as 34 and 36 credits, but they were unable to pass EOC tests. She said her staff is committed to providing on-going guidance on how to successfully implement the new responsibilities outlined in this law by having a presence in Baton Rouge and holding monthly meetings on what we can do to help our students be successful. At this time, Dr. Lockett explained there is a 70% drop-out rate across the state for students with disabilities mainly because the students were unable to pass the end-of-course testing; and with this Act, more students will be qualifying for full implementation for February 18, 2015. Dr. Lockett also highlighted what this means for promotion and graduation and how it will provide alternative pathways for students with disabilities to be promoted and to graduate with the standard diploma as well as define the role of the IEP teams. With IEP teams typically comprised of the parent, student, a regular and a special education teacher, and an ODR (instructional specialist or a school administrator/principal on that campus), they process the support in meeting the provisions to BESE regulations and IEP team processes, extensive support for IEP teams and local education agencies and communication with parents.

Dr. Lockett explained that Act 833 also states that the District must implement the law in a way that adheres to IDEA regulations and the elementary and secondary act. Promotion criteria states that if in the school year immediately prior to each grade level in which the student is required to demonstrate certain proficiency levels in order to advance, the IEP team shall meet and

determine whether or not that student can promote, and this applies to students pursuing the general education curriculum and taking regular state standardized tests. The student may be in the 3rd or 7th grade and fail to meet either the local Pupil Progression Plan or approaching Basic, Basic Standard on the ELA and Math statewide assessments, beginning with student performance in the 14-15 school year and not retroactive. She said also included is rigorous goals for students being identified by the IEP team, including diagnostic information, appropriate monitoring and intervention/other strategies, an intensive instructional program, innovative methods to promote the student's advancement (including flexible scheduling for students with disabilities, alternate learning environments, online instruction, etc.) to accelerate the learning process scientifically validated to improve learning and cognitive ability. In high school, a course of study is to be identified that will promote both college and workforce readiness in career placement and advancement.

For graduation, Act 833 means if a student fails to pass statewide assessments for two of the three most recent school years or the two most recent statewide assessments required for graduation, the IEP team has the option of determining alternate ways for the student to demonstrate proficiency. She said the IEP team may determine if the student is required to meet state established benchmarks on statewide assessments for the purpose of graduation, as well as alternative performance requirements on such assessments. Further, she said if it is determined that a student does not have to meet traditional requirements, then within 30 days of the student entering the next course or school year, the IEP team must determine how the student must demonstrate proficiency in order to graduate.

Additionally, Dr. Lockett explained that if the IEP team determines the student is not required to pass statewide assessments to graduate, the student must successfully complete IEP (Individual Education Plan) goals and requirements, as well as one of the following conditions: (1) be employable/employed in an integrated inclusive work environment, (2) must demonstrate mastery of specific employability skills or self-help skills, or (3) have access to services through other means outside the school system. To be eligible for Act 833, a student must have an exceptionality that excludes them from Gifted and Talented, they must have scored unsatisfactory on statewide assessments taken in the 3rd and 7th grade, they have not achieved upon entering high school at least a combination of Basic, Approaching Basic on Math and ELA in two of the three most recent years (6th, 7th or 8th), or they do not achieve a score of Fair, Good or Excellent after two attempts of the same EOC test.

Dr. Lockett explained that the role of the IEP team and teachers, per Act 833, may be to establish individual performance requirements for students aligned to the grade level standards for the specific courses of enrollment and shall be incorporated by the teacher of record when awarding the course credit. Additionally, the IEP determines if it is appropriate for the student to pursue a diploma through alternate means of demonstrated performance; and the IEP and teacher of record would develop an educational plan that includes how the student would demonstrate their individual performance requirements necessary to receive the course credits. Also, the teacher of record will determine whether or not to award the Carnegie unit.

Documentation is done by the IEP team completing the Department of Exceptional Children's Alternative Pathway to Promotion Criteria forms. With the majority of Caddo's high schools operating on a 7 or 8 hour block, Dr. Lockett stated they saw this as an opportunity for students with disabilities to be equalized with their regular education peers and have an opportunity to graduate with a standard high school diploma. However, rigorous goals and objectives, IEPs with diagnostic information, and statewide assessments must be in place. For graduation, Dr. Lockett explained that the student's portfolio must include (1) general student information, (2) statewide assessment scores, (3) progress monitoring data, (4) IEP of the student, (5) work samples, and (6) an employability portfolio. Also the alternative pathway performance base assessment rubrics include: Geometry, Algebra I, English II, English III, Biology and U. S.

History. This information is verified at the end of the school year when the IEP team will meet to review the data collected through this process and the grades must be finalized by the school before a determination that the student is ready to graduate. The student must pass their classes, must have good attendance, must achieve their individual education plan goals, and show mastery on alternative pathway to promotion rubric. Dr. Lockett announced they will attend the next Act 833 steering committee meeting and students who meet the requirements for LAA 1 may be considered for addition to Act 833, i.e. severe and profound, and the moderate and low-function autistic children.

Mrs. Bell asked Dr. Lockett in lay terms that these students could not graduate before this act because of their disability and their inability to pass the end-of-course test, and asked if the regular test was offered to students with disabilities last year and is why they could not graduate. Dr. Lockett responded that is correct. Mrs. Bell further asked for clarification that staff, along with the team, will come up with the criteria to help the student. Dr. Lockett confirmed they will be able to graduate with a standard high school diploma and staff met with principals earlier in the year regarding providing guidance and making certain Caddo remains in compliance. She also reminded Mrs. Bell that these students have earned Carnegie units, especially the seniors, and the only reason they would not be able to walk is because of the end-of-course testing or state-mandated required test. She further stated there are those who are not test takers, but if they are given a task, they can get the task done.

Ms. Trammel asked how many different diplomas are offered. Dr. Lockett responded we offer a standard high school diploma; however, there is a Certificate of Achievement for LAA1 students, which basically says they must pass their IEP goals. Additionally, a good thing coming from Act 833 is students with disabilities are able to attend school until they are 22, mainly because they have not passed the EOC test, and this allows them to receive the standard high school diploma which will provide them opportunities.

ReInvest in Caddo. Superintendent Goree shared with the Board and public the ReInvest in Caddo Parish Plan, an opportunity for the children. Dr. Goree stated that as superintendent he has had the opportunity to visit with many people in the community over the past year and one common theme has been the need to right-size the school district; and while closing schools is not his driving force, and while fiscal responsibility is important, he believes we must look for opportunities to provide students with the very best educational opportunities that we can. He said the ReInvest Plan is an opportunity for all the citizens in Caddo to reinvest not only in right-sizing the school district, but more importantly providing all students with a better educational opportunity. He explained that he will share a district perspective, followed by academic and demographic information from Keith Burton, chief academic officer; Mary Nash-Wood, assistant director of communications; and Dr. Gary Joiner, local demographer; financial impact information from Jim Lee, chief financial officer.

Dr. Goree said the purpose of this presentation is that district leadership is recommending to the Board that they approve a bond initiative that will not increase property tax millage. He said this request is made based on district analysis of student population, facilities and instructional priorities. The superintendent also shared that Caddo is currently educating 41,100 students, we have 5,680 dedicated employees making Caddo the second largest employer in the area, we boast nine Blue Ribbon Schools of Excellence; and we have 35 elementary schools, 6 K-8 schools, 7 middle schools, 3 7-12 schools, 8 high schools and 3 unique schools. As a school district, Dr. Goree stated he believes we have shown commitment to fiscal responsibility by balancing the budget and will continue to provide the community with balanced budgets. In 2012, Dr. Goree explained, the district was in this same situation where we could have kept our millage and done some projects; however, a decision was made to show financial responsibility by reducing our millage from 7.6 mils to 6 mils which resulted in a tax savings for the taxpayers. Also, over the past 12 years, he noted the \$5.2 million saved by refinancing existing debt at a lower rate and

these savings are expected to continue as staff continues to look at how to make the best use of our General Obligation bonds and refinance them at the best rates possible and maximize savings to the taxpayers. At this time, he added staff anticipates saving an additional \$800,000 for the taxpayers. Dr. Goree also shared that he continues to hear that Caddo Parish is a shrinking population still operating the same number of schools; however, he pointed out that since 2000, the District has closed or repurposed 13 schools and throughout the Strategic Planning process, we will determine what the future uses of properties that have been closed will be.

The superintendent also reported on how the needs were identified and that one of his strongest characteristics is collaboration because he is not one to make decisions in isolation and he firmly believes in collaborating which has been done in the process. He explained that Mr. Lee came to him last May about this opportunity being on the horizon. He also stressed the fact that he talked to Mr. Lee about the timing and the need to begin the strategic planning process and let it dictate direction relative to the bond initiatives; however, he learned this was not an option because of bond laws and that a decision had to be made in January 2015 if the district would move forward and ask the voters to approve a bond issue. Staff at that time began gathering demographic information and data needs for the District by approaching principals on what they would need if given the opportunity to create the perfect school. A community group was formed and discussions began with them on the idea of a bond issue and what they thought about the ideas. Conversations were held with Board members regarding needs, with Dr. Gary Joiner regarding the population trends in the District, and information gathered was put into a plan to present to the Board and the community group for consideration of moving forward, which is the presentation being made today after many, many hours of hard work. Important impacts on the District include there is no increase in the tax millage if approved; and he assured the Board that after working with the principals on their dream list, the \$108 million plan is nowhere near the total of the wish list; but staff made a choice not to ask the taxpayers to pay more taxes by increasing the millage, but we would continue to diligently work to determine the best use of \$108 million (how much the District can move forward with without raising taxes). Dr. Goree added that staff sees this as an opportunity to truly reinvest in Caddo Parish classrooms and schools with clear focus on areas such as STEM and career education.

Being a native of Shreveport, Dr. Goree stated he is vested in Caddo and he understands the population shifts and growth; and he believes this plan has given an opportunity to not just close 10 schools, but to look at how the best decisions can be made and the population needs are being addressed in addition to accepting responsibility for making a positive impact on the community by producing true 21st Century-prepared students that can go forward and be successful. Also, relative to the population reductions, Dr. Goree said that in 2000 Caddo Parish Public Schools was educating 45,500 students and today we are educating 41,100 students, a 10% reduction in the student population. At the same time, Caddo was also operating 75 schools in 2000 and today we are operating 62 schools or a 17% reduction in facilities. Dr. Goree said he is not indicating that Caddo is right-sized, but he believes there is yet much to do in right-sizing the district. With this bond issue not increasing the millage tax, it will result in the closing of six additional schools with Blanchard Elementary re-opening in a new location.

Keith Burton, chief academic officer, shared with the Board and public that information presented is based on three things (1) population data (where are Caddo students/families now, where will they be in 5 years/10 years, and what can we do to insure we are meeting the population shifts. Also, in looking at instructional priorities, Mr. Burton said the question is What do we in Caddo do very well?, what do we need to improve on?, when high school seniors leave Caddo, could we have done a better a job if afforded opportunities? Regarding the facilities and operations staff has looked at whether or not we are doing the very best with what we have, can we improve it?, and what else can we offer students to provide them with a better education. Mr. Burton stated that staff is before the Board asking it to consider a reinvestment in

new schools, STEM instruction, new classrooms, career education, transportation, and efficiency in right-sizing the district.

Addressing the proposal for new schools, Mr. Burton stated that the recommendation for new schools comes to the Board as a request after an analysis of population shifts. After reviewing the population and visiting with Dr. Gary Joiner, the first request is for a new school in the Blanchard community. Blanchard is currently severely over-crowded and the largest population boom is anticipated in Blanchard due to the expansion of I-49. Also, the deferred maintenance cost and the cost to make the buildings adequate would exceed \$9 million; so staff is requesting closure of Jack P. Timmons Elementary and Blanchard Elementary and construct a new K-5 elementary school in Blanchard. Mr. Burton further stated that the second reinvestment is for a new preK-8th grade school in Southeast Shreveport to address the population shifts in that area and the large attendance zone population sent to these two schools. Also, in talking to the families in the area, they have an over reliance of magnet school entrance, especially in the area of Kindergarten and 6th grade; and if they do not make it into a magnet, the parents send them to private. He further stated that approximately one-half of the population in this attendance area makes up half of the total population of all private school students in the Parish. Also regarding University and Youree Drive, Mr. Burton brought to everyone's attention the number of portable buildings exceeding 25 at each of these schools and this proposed plan would allow for the temporary buildings to be removed from the campuses. Thirdly, the staff is requesting the Board to approve a new elementary school in Central Shreveport which will reinvest in the central Shreveport and Highland communities by combining 3 schools into one central state of the art campus. As a result, staff is asking the Board to approve closing Barret Paideia Academy, Creswell Elementary and E. B. Williams Stoner Hill Lab School because of the cost of deferred maintenance, adequacy needs, need to make these schools ADA compliant is in excess of \$18 million. He further stated that annual maintenance costs will be reduced by approximately 75% and eliminate facilities that are ineffectively sized to accommodate these school populations, as well as additional utility savings of approximately \$108,000 annually, as well as a savings in human capital over time of approximately \$1.2 million General Fund dollars that could possibly be repurposed into providing more and additional instructional opportunities.

Mary Nash-Wood, assistant director of communications, highlighted for the Board and audience specifics on how we got to the current point. She noted the growth around Blanchard of approximately 600 children and the continued growth as I-49 is completed; as well as the fact that the residents in this area believe in public education. Mrs. Wood also stated that because there are not ample slots in preK-K, many are choosing private schools. Additional statistics also indicate there are over 10,000 children under the age of 18 in North Shreveport-Blanchard proper, many of which are under the age of three and is the population for any facility that might be built. For Central Shreveport and the aging facilities, Mrs. Wood reported that Barret will turn 100 years old next year, Creswell was built in 1920 and E. B. Williams Stoner Hill was built in 1954; and, the fact is most of Caddo's facilities are an average of 60 years old which brings increased maintenance costs and fewer dollars going toward instruction. She also noted the capacities of these three schools and that enrollment at each is near that capacity. According to U. S. Census Data, Mrs. Wood reported that 2,935 students under the age of 18 live in Central Shreveport, and the percentages in public education and private education (mainly high school). In South Shreveport, Mrs. Wood reported that this area has increased by a steady rate of 15% every time one looks at U.S. Census Data; however, only 1 in 3 is in a magnet or magnet component. With University and Youree Drive bursting at the seams, the parents feel they must choose a magnet for their children, and it is more so in the 71115 area. Of those in private schools, she explained the highest jumps one will see in enrollment are Kindergarten and the 5th through 8th grade. If a kindergartner does not get in, parents are choosing private school (44% of Caddo's kindergartners in 71115 are choosing private school, and 27% of the middle school students are choosing private school from this area. When a preK-8th grade opportunity comes forth, there is a population there to utilize that opportunity. She also explained that this area has

the fewest number of students enrolled in public education in Caddo Parish with only 5% being enrolled in public schools, most of which are in magnet components. Also, she asked the Board to note information from the Louisiana Department of Education that 20% (2,300) are in private schools. Also, while there has been a decrease in enrollment in Caddo Parish, Mrs. Wood stated an increased enrollment in private schools has been seen, and the 2,300 is half of that private school enrollment which staff believes these students can be recaptured into the public schools.

Mr. Burton reported that after an analysis of Caddo's instruction, staff is asking for a reinvestment with STEM instruction. When looking at what Caddo does well and what does it need to improve on, staff realizes after talking to local colleges and universities that improvement is needed in the area of science instruction; and staff is asking for a reinvestment in every single high school in the parish to increase and upgrade the science labs at every high school and provide an increase in technology to insure equity among all the high school programs. While many of the labs have been improved, Mr. Burton said that has happened because parents and PTAs have raised the dollars to upgrade them. Also, he said it is important that the District align our science instruction to the future workforce demands, as well as better prepare Caddo's students for the science courses offered beyond high school.

Mr. Burton stated that staff is also asking for a reinvestment in Caddo's classrooms and he shared with everyone pictures of the many temporary buildings in Caddo. Because of the many rows of temporary buildings at many of our schools, he said it is not possible to offer the technology they need, students and teachers must walk in inclement weather to the main building for lunch and restroom breaks, cost is high because of the inefficiency of these buildings, safety is a concern of temporary structures, thus staff is asking for the reinvestment in classrooms based on need. At this time, staff is asking for wing upgrades at three schools (Walnut Hill, Cherokee Park and Summerfield) based on enrollment numbers now and in five years. Also, staff is requesting to construct auditoriums at two K-8 schools (Walnut Hill and Herndon) because they are the only two K-8 schools without auditoriums; as well as auxiliary gymnasiums at Green Oaks, Captain Shreve and Southwood High Schools. The construction of activity centers is also needed at Atkins, Forest Hill, Riverside, Summer Grove and Westwood Elementary Schools to address needs at this school. A new library is being requested for C.E. Byrd High School since the current library is too small for the population of over 2,200 students, with the proposed new library to be built on the existing footprint without taking any additional parking or green space at Byrd. Mr. Burton stated that staff is also asking for a reinvestment in career education by constructing an additional wing and expansion of offerings at the Caddo Career and Technology Center. Examples of proposed career offerings include plumbing and general carpentry. A request is also being made to expand career opportunities for a large percent of underserved students specifically for those students in the MLK area that cannot access the Caddo Career and Technology Center because of distance and the fact that many are in a credit recovery program attempting to recover lost credits. Because the district has made a commitment to provide quality transportation to all students and because the District must retire school buses after 25 years, Mr. Burton reported that Caddo must retire 19 buses in the next five years and 127 in the next 10 years (which is in addition to the 20 buses already planned for purchase through the general fund), and staff is asking for a reinvestment for providing quality transportation for Caddo's students.

Mr. Burton reported that a request is also being made to reinvest in efficiency and right-sizing the District by addressing the heating and air conditioning at C. E. Byrd High School since it was last updated in 1984 and the Byrd system leads the district in total repair cost and the number of work orders (approximately 300 issues reported in the last three years). Also, Byrd was the only site to not receive a heating or air conditioning upgrade during the last bond initiative. Mr. Burton explained that right-sizing the District will happen by closing six campuses and building three new schools, which will mean an anticipated annual savings on maintenance, upkeep, and utility cost of approximately \$1.5 million. Again, the campuses scheduled for closure will be

Barret, Creswell, E. B. Williams Stoner Hill, current Blanchard site, Jack P. Timmons and the Alexander Learning Center (building will close, but services will still be provided to the children at other facilities where there is ample room to do so).

Jim Lee, chief financial officer, shared the financial implications of the proposed ReInvest in Caddo Plan. He explained that this plan would be paid for through General Obligation bonds which can be done without increasing the debt service millage. Also, Caddo has a dedicated millage (6 mils) used to pay off Caddo's debt; and we can issue this without increasing because (1) Caddo is a good steward of its monies, (2) property values continue to increase in the district, and (3) Caddo maintains a very good bond rating (AA-) for a current bond refunding that is being considered. With the bad press received over the last several months regarding Caddo being the highest taxing body in the State, Mr. Lee compared Caddo to the four neighboring districts. Relative to the revenue generated by paying off these millages, Mr. Lee said his comparison indicates that Caddo is in line with the four neighboring parishes; and in looking at total property taxes, he noted that it is the millage rate where people say we are a lot higher than others (which is correct if you look strictly at the millages). However, when adding in those districts that are comparable in size to Caddo Parish, the total property tax revenue generated in each of the parishes based on the amount generated for students is what will put Caddo on the same playing field for analytical purposes. Mr. Lee noted that while we are in line with some of the other districts, he noted that the statement that we are so high above everyone else is not a fair assessment.

Another step, as noted by Mr. Lee, is we are constantly criticized for how high the property tax rates; however no one talks about sales tax, and he believes that is because Caddo is so low on sales tax. In comparing Caddo to the same districts and the amount of sales tax revenue that each receives, there is not a district lower than Caddo and that is because Caddo is one of the lowest in the state. A final comparison was the total tax revenue generated (sales and property tax), and Mr. Lee noted that Caddo is near the bottom. He also shared a sample of property values (assessed values) with the Board and the effect a bond initiative would have on property taxes, showing what property owners are currently paying and what they will pay if this bond initiative is approved. In summary, Mr. Lee emphasized to everyone that this plan will not increase the tax millage rate, and there are no plans to do so; because staff looked at how much we could borrow without putting a higher burden on property owners. If the Board decides to not do anything, the savings will be minimal to property owners; and comparing ourselves to neighboring districts and districts of the same size, Caddo is in line with the tax dollars per student. Also, since 2000, Caddo has attempted to be good stewards of the taxpayer dollars and to the property owners and reduced the tax millage rate by 10 mils.

Dr. Goree summarized the following cost that staff is asking the Board to move forward with at this time. (1) What costs have been identified? He explained that he has had numerous calls questioning why certain projects were not included and reiterated that staff is very firm in its belief not to increase the millage so it was necessary to closely look at the projects and determine what projects would fit within the \$108 million, which is really not a lot of money for a district the size of Caddo and the fact that a school has not been built since 1989. Dr. Goree stated that the first to be recommended is a K-8 school in South Shreveport at a cost of \$24.5 million. Also a K-5 school in Blanchard at \$16.3 million and a new K-5 school in central Shreveport at \$16.3 million. He further explained that auxiliary gyms at Green Oaks, Captain Shreve and Southwood at \$6.6 million. Also planned is an auditorium at Walnut Hill and Herndon K-8 schools at a cost of \$7 million. Activity centers at Atkins, Forest Hill, Riverside, Summer Grove, and Westwood for a cost of \$5 million. Upgrades will be made to science labs at all high schools at a cost of \$5 million, and Dr. Goree stated that his father taught science in Huntington and he actually visited his father's classroom only to learn that the classroom was exactly the same as when he taught. As he traveled the city, Dr. Goree stated he was very underwhelmed with the quality of science education which is contributed directly to the facilities. Dr. Goree also reported a new wing at

Cherokee Park that came in at \$1.2 million, two at Caddo Career & Technology at \$3.5 million, one wing at Walnut Hill at a cost of \$2 million and a new wing at Summerfield at a cost of \$2 million, a library at C. E. Byrd High School at a cost of \$2.5 million, HVAC at Byrd at a cost of \$4 million, and air conditioned buses at \$2 million for a total of \$97.9 million plus an additional \$10 million for design costs.

Superintendent Goree addressed that technology is not included in this plan because staff did not want to commit paying for technology for 25 years that is outdated, which is what a bond does, but continue to support technology needs through the General Fund versus tying bond dollars to it.

In addressing why not close one of Caddo's high schools, Dr. Goree reported that staff agrees with the community and the Board that there is a need to close a high school in Caddo Parish; however, because of our work and the Memorandum of Understanding with the Recovery School District, Fair Park High School and Woodlawn High School cannot be considered at this time since we are working through this contract. It was also staff's decision if all schools could not be considered, staff could not make a good decision which one would be closed, thus the decision to not recommend closing a high school at this time, but a conversation that the school district must have in the years to come.

He said at this time staff has not determined any attendance zones; and understanding concerns in the community that populations will shift from one high school to another, he is committed that this will not happen based on this plan. While it does not mean that attendance zones will not be changed, it has nothing to do with high school attendance zones and staff anticipates that the high school attendance zone one currently resides in will not change.

Dr. Goree also explained how this bond initiative fits in the District's Strategic Plan and that through the Strategic Plan we will work with the community on how we repurpose the closing schools, and we are committed to not let anything happen to any building closed that will bring down the value of the community.

The timeline for this plan over the next two weeks will be to afford the community the opportunity to voice their opinions and on the 20th the Board will vote whether or not it will move forward and place it on the ballot in May, affording the citizens the opportunity to decide to reinvest in Caddo Parish. If that happens, the District could see funding as early as the fall, 2015. Dr. Goree closed by stating that staff is attempting to not place any additional burden on any citizen and will not increase the millage; however, staff would like the opportunity to capture the funds so education can be reinvested in and educational opportunities for students improved. Dr. Goree also stated that in making the best fiscal decisions for the District, he will always consider quality, and staff sees this as an opportunity to be good stewards but also reinvest in students as well as accept full responsibility for the role Caddo plays in the economic development of the City and preparation of students to be active, engaged members of the community.

Mr. Ramsey commended the superintendent and staff for the outstanding job in presenting the information. He said his concern continues to be the projection of child-bearing families in areas where we build buildings and will they be there. In looking at the tax-paying dollars spent, and projections over the next five and ten years, he believes it is important to reflect the data in detail, and he asked that staff verify this. Dr. Goree recognized Dr. Gary Joiner, local demographer, who has been helpful in determining locations and building of schools. Dr. Joiner shared with everyone maps via powerpoint reflecting essential data and population shifts. He said he was asked to go back 20 years and look at how and where the Parish has changed, where people are moving before discussion began on where the needs might be. He noted that he assisted in evaluating attendance districts, where they are now, where they have been and where

the population traditionally has been and where is it coming. Dr. Joiner explained that he began by building a digital map of the parish down to the census block and compared roads (then and now), river, and election districts (precincts). Data from 1991, 2001 and 2011 were reviewed along with elementary schools, middle schools, high schools, magnet schools and a comparison of all possible data received from staff and what is happening with the populations in each, mapping the changes. Between 1930 and the year 2000, Dr. Joiner reported that Caddo grew less than 2% and Shreveport's population was highest in 1984. He added that a lot of people move around in the parish, as well as those who moved from Caddo to Bossier and DeSoto Parishes, and this is the closest "apples to apples" comparison he can get.

He highlighted the trends in population movements throughout the parish. He said the problem is what will happen if a school is built in the wrong place and there is no replacement population for the school. He noted on the map the areas of that remain to be agricultural, unused property; and when I-49 is completed, he explained there will be at least 12 exits between the Arkansas line and north Shreveport, thus the next big "boom" of population will be in north Shreveport with many coming from north Bossier. Dr. Joiner explained how replacement properties come about and the ripple effect that takes place, which puts tremendous stress on the School Board/School System to make these important decisions.

Mr. Ramsey again stated this is a lot of information to digest and Dr. Goree responded that staff will respond to Mr. Ramsey in a written format. Mr. Ramsey said he believes this is an important part of whether or not this bond issue goes forward; and to him, it appears there is a good case.

Mrs. Bell said that as the representative for District 12, Greenwood has said they want a school. In looking at the information presented by Dr. Joiner, she said it appears the children are not in Greenwood; and noted that it appears Walnut Hill is where the growth is; and she asked if she understands correctly that we are saving money by closing Timmons and sending the 100 students (that live in District 12) to Walnut Hill? Dr. Goree said staff can provide a specific dollar amount in savings relative to Timmons; however, when staff looked at the wish list, building a school in Greenwood was a part of that list, and growth generally comes when a school is built. But, the situation staff had to face is the millage is not increased, the staff had to prioritize; and at this time the population to support a new school in Greenwood is not already there. In looking at the plan, Mrs. Bell said she is glad for the plan for all the high schools and also that the students addressed in Dr. Lockett's presentation will have a chance to graduate. Mrs. Bell stated that misconception and perception are bad in Shreveport and she asked if everything presented today will be available on Caddo's web for the public to access, and Dr. Goree responded absolutely. Dr. Goree noted that he has done six very successful bond elections and the process is very unique and staff is committed to being 100% transparent and a link on the web site is being developed so that every meeting he attends and every presentation made on the bond initiative will be listed.

Miss Green asked Dr. Goree if the Board decides to not go forward with the bond issue with the public what could happen. Dr. Goree said he does not have a Plan B and he believes the citizens will move forward with the plan. Miss Green asked if staff has any plans on changing the plan, and Dr. Goree stated that staff has no intention of changing the plan presented, because this is the best plan staff has to offer and staff is committed to this plan staying the same and moving forward. He said staff has spent many tireless hours to give the Board the best plan possible and staff is not changing it. Miss Green asked if citizens have problems with some of the plan, will there be changes, and Dr. Goree said they do have the right to vote no. Miss Green asked how the ballot will be set up and will each item be voted on separately? Dr. Goree said no it is one bond to reinvest in all children in Caddo Parish. In meetings for the public, Miss Green asked how these will be set up and when will one be scheduled in the Green Oaks area. Dr. Goree said typically the meetings will come following the Board's decision to move forward; however, staff

has been sensitive to the climate of the community and has begun meetings with groups. He also reiterated that there is nothing to hide and staff will be extremely transparent, meeting with anyone and any group that asks. Miss Green asked staff to explain an auxiliary gym, and Dr. Goree said schools have competition gyms (full bleachers, restrooms, concessions) and an auxiliary gym is a scaled back version (no concessions, bleachers on one side). For equity, Green Oaks is the only 7-12 school configuration that does not have multiple gym facilities so they can do a better job of separating the middle and high school students, but also running dual programs for girls and boys. Miss Green said while she understands why Green Oaks would be getting an auxiliary gym, why are Captain Shreve and Southwood getting an additional gym? Dr. Goree explained these are two of the district's larger population high schools operating with one gym which is creating issues with management of students as well as athletic programs. Miss Green referenced Dr. Joiner's presentation and asked if he could explain the effect I-49 will have on MLK? Dr. Joiner said he sees it growing on the northern side; and whether people realize it or not, it has a symbiotic relationship with Blanchard and as Blanchard grows so will MLK.

Mrs. Brown applauded Dr. Goree and staff for the presentation and that we need to remember that we are to take care of all the children of all the people. Relative to career education, she said this is very important and she hopes we can move back to these initiatives in career preparation and to not keep the students from this program because of behavior issues. Mrs. Brown also stated that she has some ideas about environments, districts and regions; and she wants to see the children in her district grow up as she did – poor but not knowing it; and she hopes there will be an initiative to revitalize the Allendale-Lakeside area. She also asked if any consideration has been given to reopen Linear. Dr. Goree said staff also anticipates growth in this area and staff has been very purposeful with what is done with the Linear campus. He also shared his excitement over the message he hears relative to closing schools, and he thinks of Title I students that would be afforded the opportunity to attend a state of the art elementary school in central Shreveport, an area that has not been invested in. Relative to the career education component, Dr. Goree stated that staff and the board has expressed interest on numerous occasions that we must look at how we can expose more students to the Career Center; and because everyone will not attend college, career readiness is good and we must provide more opportunities to get into different areas, i.e. plumbing.

Mr. Rachal expressed his appreciation for the excellent presentation and believes this is what the community and all Caddo Parish need to hear and understand. He said this is not the first time the Board has seen this, because the superintendent involved each and every Board member along the way. Mr. Rachal stated that Dr. Goree does bring more people to the table and affords more involvement than any other superintendent in the past, and he believes he means it when he says staff will be transparent. Mr. Rachal announced that one year ago he met with Dr. Goree and the only thing different in this proposal is in the beginning he believed there was a need for a new school in Greenwood, and he is thrilled with what staff has brought to the Board. Also, relative to taxes, he has heard all the complaints and issues and reminded everyone how low Caddo is. He reiterated the dollars the District has saved Caddo taxpayers, and he looks forward to moving forward and addressing growth in the parish, and the fact that a new school has been needed in south Shreveport for at least 15 years. Mr. Rachal said he looks forward to the meetings on the bond initiative, and asked the superintendent about the possibility of setting up a joint meeting with the Parish Commission and City of Shreveport on the proposed bond plan.

Ms. Trammel referenced the career education and if the GPA requirements have been addressed. Dr. Goree responded that in looking to provide more opportunities for students, which the Board has been clear in wanting more students exposed to these programs, staff will look at all prerequisites and how more students who have not met these may have an opportunity to participate in this program. Dr. Goree noted Mr. Burton's statement relative to the number of students who have not had exposure; and when looking at the problems, it was mainly because

they were behind in credits. Within the proposed new wing, staff is looking for opportunities for possible on-line credit recovery programs and to give them the opportunity to come to the Career Center and also make up their missing credits. He added this will be seen even before the bond proposal. Ms. Trammel expressed her appreciation to the Superintendent for being transparent and also for considering transportation in this bond initiative. The superintendent explained that when one looks at a district's budget, 85% is generally in personnel costs; so if in the next 10 years Caddo reaches a point where it must retire over 100 buses, it is possible that this would come from the General Fund, which means cuts in that 85% and cuts in classes.

Mrs. Kirschvink applauded the entire staff for the thoughtful, pro-active approach; and she is excited to be a part of the process. She shared her remembrance of how excited Bossier was when they opened new schools and the growth in the area where new schools were built. Mrs. Kirschvink stated this is an opportunity for Caddo to get three new schools, and she anticipates we will see growth returning to Shreveport as a result. She added it is also an opportunity to create new cultures and not start completely over. She asked if what the voters will be actually voting on will be the millage. Mr. Lee explained they will be voting on the proposition and we set the millage for what it will take to repay the debt. He said there are certain limits on what the taxpayers can be charged, and we will ask them to vote on specific projects which will mean they are voting on a millage rate that will generate the amount of dollars needed. Mrs. Kirschvink noted that discussion has not happened on the details of the projects, i.e. where will the schools be built, contractors, etc. and she expressed her concern about the expenses and she would want to look at how the dollars will be spent. Also, she asked how involved will the communities, principals, parents, etc. be in determining what the new school/auditorium will look like? Mr. Lee further explained that the proposition put before the voters must be very specific as to how the funds will be used, with a small leeway if funds are left over and what can be done with those dollars, because the law requires that the money is used for what the taxpayers vote on. Dr. Goree addressed that it is an advantage that the District has not built a new school in over 20 years because in looking at the design, etc., staff is committed to having community involvement throughout. He said he believes this community has not given up on public education and clearly wants to play an active role which is easy for staff to do; and staff will be extending the core strategic plan committees to involve more community persons.

Mr. Riall asked about possible locations for these proposed new schools, is this something the Board will approve separately? Dr. Goree said that is correct and staff has begun some conversations but does not want to be premature before the Board has decided if we will move forward. Mr. Riall expressed the Board's appreciation for the presentation.

At this time, Mr. Riall called for a brief recess and the Board recessed at approximately 7:30 p.m. The Board reconvened in open session at approximately 7:45 p.m.

Mr. Riall expressed his appreciation to the Board for electing him to serve as the President for 2015; and on behalf of the returning Board members, welcomed the new Board members.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JANUARY 20TH MEETING

Superintendent Goree highlighted the items for the Board's consideration at the January 20, 2015 meeting and the following discussion ensued.

Resolution Ordering and Calling a Special Election. Mr. Rachal asked staff to explain the 8% per annum amount in the resolution, and Jim Lee explained that a rate must be in the resolution and 8% is the maximum rate; however, we will sell bonds at the current market rate which will probably never be close to 8%. Mr. Rachal stated that he would feel more comfortable if that

percentage was changed to 5%, and Mr. Lee responded he will talk to Bond Counsel and respond back to the Board.

Possible Litigation Red Sox Investments, LLC v. City of Shreveport and Caddo Parish, No. 576,478 (First Judicial Court Caddo Parish, La). Legal Counsel announced he will submit a memo under confidential cover with a recommendation.

Mr. Riall announced that 8.03 is the consent agenda. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the January 20, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Sally Cox addressed the need for a universal pre-kindergarten program for Caddo Parish Schools noting that research shows investing early in getting children ready for kindergarten reaps higher dividends than remediation in later years, as well as opportunity to be more successful. As Caddo studies plans to realign some of the schools and services, she encouraged the Board to be visionary in its opportunities to prove it wants to improve the academic achievement and quality of life in the community by offering preschool children a high quality child development program, and give parents in the community an additional choice.

Cara Hamilton, Stoner Hill PTO, addressed the Board on concern that Stoner Hill will be closed. She noted what Stoner Hill offers its students in the classroom as well as extra-curricular activities and how research indicates that large schools can be detrimental to at-risk populations. She highlighted the advantages of a small school environment in meeting the needs of students and their success. While they are not opposed to building new schools, she encouraged the Board to not close Stoner Hill and shatter the legacy in the Stoner Hill community of academic excellence.

Tahira Abdul-Rahman, BTW High School Alumni Foundation, thanked the Board for renaming the auditorium at Oak Park in memory of her father Albert M. Moody, the first principal at Bethune Jr. High School. She also addressed the proposed bond initiative and asked the Superintendent and the Board to include the needs of Booker T. Washington High School in its decisions regarding the schools in Caddo Parish. She noted historical aspects of Booker T. Washington High School and items needing addressed that affect the health, safety and well-being of the students and staff, and asked the Board to not allow BTW to fall in disrepair but to do what is necessary to maintain the capital improvement of BTW. She also asked that the Board remember the academic needs of BTW because of the challenges on this campus.

Erin Berry, Highland resident, addressed the proposed bond initiative and the plan to close schools in the Highland and Stoner Hill areas. She said while they do not want to appear ungrateful, and they do want success for their children, she shared how they see success for the children in their area as a result of the small neighborhood school/small classroom size concept. Ms. Berry encouraged the Board to consider these advantages and not ask for consolidation of schools until there is a better comparison between rebuilding and refurbishing.

Jackie Lansdale, Red River United, addressed the Board on the grievance process and the fact that the Board is scheduled to hear a grievance at the January 20th meeting. She noted there were only three grievances last year in a district that has 6,000 employees; and encouraged the Board to listen and take seriously what employees bring before the Board and make the decision based on the best needs of the district.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 8:15 p.m.*

January 20, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, January 20, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE DECEMBER 16, 2014 AND JANUARY 6, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Ramsey, to approve the minutes of the December 16, 2014 and the January 6, 2015 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mr. Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Barret Paideia Academy. Members of the Barret Paideia Academy choir and dance team sang and performed to "Happy" by Ferrell Williams. Geraldine Walker is the music teacher at Barret; and Beverly Cole is the principal.

One Class at a Time Winner. Jo Pfingstren, Donnie Bickham Middle School, was recognized as a One Class at a Time winner. Ms. Pfingstren will use the \$1,000 to buy Microviewers for her students.

Claiborne Fundamental Elementary Magnet Earns National Honor. Claiborne Fundamental Elementary Magnet School was recognized for earning the honor of National Title I Distinguished School by the National Title I Association. This program publicly recognizes qualifying Title I schools for outstanding academic achievement of their students.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized Sydney Allen, new principal at Eden Gardens Fundamental Elementary School.

VISITORS

Angela Tappe, Blanchard parent, spoke in support of not only the proposed new school in Blanchard, but other communities in the parish as well. She encouraged the Board to consider the children and their future and support sending the proposed bond initiative to the voters.

Tamara Greis, Blanchard parent, shared her support of the proposed bond initiative and what a new school would mean for Blanchard and encouraged the Board to support moving forward with the proposed plan.

Jeff Everson, City Councilman, shared his belief that passage of the bond proposal will have a negative impact on the Highland-Stoner Hill neighborhoods. He said these neighborhoods bring much positivity to the City and this plan threatens their future by closing four of its historic schools. He stated that the City Council and Parish Commission have both adopted the Great

Expectations Master Plan that has identified specific problems and the need to focus on development in the core of the community. He said the proposed plan also sends the message that neighborhoods have an expiration date, and he urged the Board to consider how this plan will impact the community, i.e. loss in property values, loss in revenue, increases in the need for a police presence near the closed facilities. Mr. Everson stated they are very interested in being involved in the process and further discussions.

Tom Arceneaux said the Board is really voting on whether or not to submit a loan application to the citizens of Caddo Parish; and if the Board votes to place this on the ballot in May, to consider how they feel as the “banker” and the CPSB is asking to borrow \$108 million without a long range plan. Highland is only asking to see the plan first since they were not included in the discussions as those were in the areas where new schools are being built. He added the Highland residents are the ones most negatively affected by the proposal before the Board, and he requested the Board to wait until a long term plan is in place before going to the voters for \$108 million. He also asked that, if the Board chooses to move forward with the proposal, the Highland area has direct and institutionalized input into what happens in their neighborhood. He stated this is threatening an area that is already threatened; and he noted that two of the three recognitions today were schools that are almost 100 years old, so to him the age of a building does not determine the quality of a school. Mr. Arceneaux also shared his research on bond elections and the percentage of hard-core no votes in school board bond elections, and he knows the District does not need the support of those typically on the *yea* side to be on the *nay side*.

Tiffany Bolzan, parent and Caddo Parish educator, stated her support of the proposed bond initiative; and while she understands change is uncomfortable, there is a need to step outside our comfort zone and make much needed, productive changes. She encouraged the Board to consider the needs of the children when voting on this initiative.

Sylvia Fredieu, substitute teacher, stated that, because substitute teachers are responsible for carrying on the duties in the classroom in the teacher’s absence, she believes substitutes should receive the same privileges, i.e. bonus pay, benefits, etc. as teachers; and she asked for the Board’s consideration.

Meredith Haynes, former principal at Blanchard Elementary and a Blanchard resident, encouraged the Board to support Dr. Goree’s ReInvest in Caddo Plan. Relative to the building of a new Blanchard Elementary, Ms. Haynes noted the various concerns, i.e. growth in population, change in classroom needs, cafeteria that is unequipped to accommodate the number of students, inadequate library size for the school’s population, inadequate restroom facilities, etc. She encouraged the Board to support this initiative and help remove/resolve obstacles that prohibit students from receiving the quality of education they deserve.

Jon Glover, employee, addressed the many mandates relative to testing and how it affects teachers and children on a daily basis. She reiterated her position that there is much divide in Caddo Parish that promotes the existing gap among students, and the District needs to get a hand on what is being required from both the teachers and students and not continue the great divide. She also noted evaluations relying on the success or failure of students; and asked if administrators are evaluated, do they feel the same discomfort as teachers when being evaluated, and if the discomfort has been rectified by addressing the discomfort. As a stakeholder she wants the superintendent and his administration to be held to the same standard as the teachers; because no one should ever feel like they are not worthy of being employed in the system.

Slattery Johnson, vice chair of the Shreveport Historic Preservation Commission, addressed the proposed closure/demolition of historic school buildings; and while he understands the needs of the children always come first, he believes that is possible without sacrificing their heritage. Mr. Johnson agreed that the libraries, cafeterias, gymnasiums, science wings, auditoriums are all

important components in putting the children in the best position to excel, and he believes the Superintendent and the Board are justified in pursuing their goals; but he also believes they can be achieved without carving our local landmarks, because there are other schools, i.e. South Highlands, located in older buildings that are successful. Mr. Johnson also reported that at a public meeting of the Shreveport Historic Preservation Commission on this date the designation of local landmarks was discussed; and Chapter 36, Section 26 of the Shreveport Code of City Ordinances empowers the Shreveport Historic Preservation to designate local landmarks that would then be protected under the ordinance. He announced the Shreveport Historic Preservation will come up with a list of local landmarks; and Hamilton Terrace, Barret, Creswell, and Alexander will all be designated as landmarks. He said the proposed plan will have a significant impact on one of the City's core neighborhoods, decreasing property values, kids now having to ride a bus to school; and he believes these things can be done without sacrificing the historic buildings.

Clay Walker, Caddo Juvenile Services and Highland resident, updated the Board on some collaborative efforts with the School System, noting that those developed relative to truancy have been successful in bringing these numbers down, including de-escalation training for better behavior, which has resulted in a reduction of approximately 40% in school arrests. Regarding the bond issue, he stated he was a part of the focus group and they brought the need for more vocational opportunities to the table, because this is a reality for many of the students they work with. He noted that more of these opportunities are needed and he appreciates that the proposed plan expands these opportunities that will help keep kids in school and off the street which will reduce crime. Mr. Walker stated he believes the plan is well developed as far as what it will do with the \$108 million; and as a resident of Highland, he would like to see an equal effort to what is done for the buildings that will be closed. He noted his faith in the Superintendent after his first year as Superintendent and encouraged the input from this neighborhood relative to the future use of these buildings.

Tamika Fredieu, paraprofessional, encouraged the Board to consider paying paraprofessionals more because of their responsibility in the classroom in the absence of teachers. While paras are qualified but not certified, she asked the Board to consider paying paraprofessionals a teacher's pay/supplement since they manage the class when teachers are out.

Carmen Nelson addressed the Board on the possibility of extending the K4 Gateway Program to K5 noting statistics that indicate the need for students to continue beyond K4 in order to reach the developmental milestones. While magnet schools do support a part-day program, they do not supplement the children's educational needs in a full-day capacity. Ms. Nelson shared reasons why a part-day program does not meet the needs of the children, and she encouraged the Board to seriously consider adding another Gateway Program at the K5 level.

Irma Rogers, MLK CDC, addressed the Board on their continued commitment to rebuild their community and to insure that the children receive an excellent education. She stated they will continue to facilitate all activities that dictate the MLK children will enjoy bountiful futures by preparing them to compete in a global marketplace. She noted new housing construction in the MLK area since 2005, as well as their continued efforts to pool all resources, specifically human capital, to rebuild the community. Mrs. Rogers, on behalf of the MLK CDC, respectfully asked the Board join them in a conversation concerning this to determine the best interest of all MLK area schools. She added that historically the MLK area has supported almost every bond issue, and they are asking for the availability of options for the development of students attending the MLK schools within this proposed bond issue, and that their request be addressed immediately and that it is entered into the Board's records, i.e. plans for Newton Smith 6th Grade Center, plans and studies for all changes in MLK area schools, possibility of returning 6th grade students to Linear, how and where will administrators and teachers be placed in the MLK area, how will building new schools and closing schools affect the MLK area schools, etc. She also requested

on behalf of the MLK community that the superintendent and others immediately meet with the MLK community about the education and future of our children, and requested a date by the close of business on January 30, 2015.

Jackie Lansdale, president of Red River United, stated that research states that the most important factor in raising student achievement is the teacher in the classroom, and the second most important factor is the classroom size, and third is the materials, supplies and the physical facilities. She noted that 95% of the children still attend public schools, which is an anomaly for an urban district; and this speaks to the confidence the public has in public education. When voting on the upcoming bond, the Red River United Executive Board considered these specific items; and while there were areas they were not completely sold on, they felt very strongly that moving the District forward is a collective responsibility and unanimously agreed to support it. Mrs. Lansdale noted that it is now up to the Board to vote in support of the proposed Bond and bring the community together in support of the Bond and move the District forward by demonstrating that we are all willing to give Caddo's students the schools they truly deserve.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JANUARY 20, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and President Steve Riall announced that Items 6.02-6.04, 7.02, 8.01-8.03 and 8.05 are the consent agenda. *Ms. Trammel moved, seconded by Mr. Green, to establish the agenda and consent agenda for the January 20, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Jon Glover addressed Item 8.03 and her concern that every child in Caddo Parish experiences the same level of academic achievement. She asked what has been done to rectify overcrowding in schools in different areas of the parish aside from spending millions of dollars. She also stated it is essential that every Caddo Parish child has access to equal educational opportunities and resources, and encouraged the Board, before providing for some and not all, to make every effort to insure that equal educational opportunities and resources are accessible to every child.

Ms. Trammel moved, seconded by Mr. Ramsey, to confirm the consent agenda. Vote on the motion to confirm the consent agenda carried unanimously and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Personnel Transaction Reports. The Board approved the personnel transactions reports for the period of December 1, 2014-December 31, 2014 as recommended by the superintendent and submitted in the mailout.

6.03 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

6.04 Request for Leave without Pay. The Board approved a request for leave without pay as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.02 Capital Projects. The Board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Carter Construction Co., Inc., with a Base Bid for the sum total of \$310,000 for Project 2015-049B, "Southwood Girls Softball

Dressing Room Re-Bid”; and (2) Whitlock & Shelton Construction, with a Base Bid for the sum total of \$286,000 for Project 2015-090 “Sunset Acres Restroom”. A copy of the bid tabulation sheets is filed in the permanent file for the January 20, 2015 meeting.

Item No. 8

8.01. Property/Bus Rental Requests. The Board approved requests for use of Caddo Parish School property in accordance with CPSB Policy KG, as recommended by staff and submitted in the mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel as recommended by staff and submitted in the mailout.

8.03 Resolution Accepting and Approving the Capital Improvement Plan, designating purposes for which proceeds of a proposed bond issue will be budgeted, and otherwise providing with respect thereto. The Board approved the following resolution accepting and approving the capital improvement plan, designating purposes for which proceeds of a proposed bond issue will be budgeted, and otherwise providing with respect thereto as submitted in the mailout.

RESOLUTION

A resolution accepting and approving the CAPITAL IMPROVEMENTS PLAN, designating purposes for which proceeds of a proposed bond issue will be budgeted, and otherwise providing with respect thereto.

WHEREAS, the Superintendent has submitted his recommendations concerning capital improvements projects, together with a recommendation that the foregoing be funded through not exceeding \$108,000,000 of general obligation bonds; and

WHEREAS, the Parish School Board of the Parish of Caddo, State of Louisiana, now desires to accept and approve said recommendations as herein provided and to let the citizens of Caddo Parish know for which projects the proceeds of the bonds will be budgeted;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the “School Board”), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), that:

Section 1. This School Board hereby accepts and approves the CAPITAL IMPROVEMENTS PLAN recommended by the Superintendent, a copy of which is on file with this School Board and available for public inspection. In order to provide funding for the capital improvement program set forth therein, this School Board will submit to the voters for their consideration a proposition authorizing the issuance of not exceeding \$108,000,000 of general obligation bonds. Upon approval of the bond proposition by the voters, the proceeds thereof shall be applied, to the extent feasible, to the specific projects set forth in said plan. This School Board does hereby commit and pledge itself to so budget such bond proceeds for said respective projects.

This resolution having been submitted to a vote, the vote thereon was as follows:

STATE OF LOUISIANA
PARISH OF CADDO

I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana, do hereby certify that the foregoing page constitutes a true and correct copy of the proceedings taken by said Parish School Board on January 20, 2015, accepting and approving the CAPITAL IMPROVEMENTS PLAN, designating purposes for which proceeds of a proposed bond issue will be budgeted, and otherwise providing with respect thereto.
IN FAITH WHEREOF, witness my official signature of the School Board on this, the 20th day of January, 2015.

Secretary

8.05 Possible Litigation Red Sox Investments, LLD v.City of Shreveport and Caddo Parish, No. 576,478 (First Judicial Court, Caddo Parish, LA). The Board authorized the attorney to intervene in this matter on behalf of the Board after the court hearing regarding joinder of the parties.

RESOLUTION ORDERING AND CALLING A SPECIAL ELECTION TO BE HELD IN PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA, TO AUTHORIZE THE INCURRING OF DEBT AND ISSUANCE OF BONDS THEREIN; MAKING APPLICATION TO THE STATE BOND COMMISSION IN CONNECTION THEREWITH; AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the resolution ordering and calling a special election to be held in the Parishwide School District of Caddo Parish, Louisiana, to authorize the incurring of debt and issuance of bonds therein, making application to the State Bond Commission in connection therewith, and providing for other matters in connection therewith as submitted in the mailout.

Mr. Ramsey stated that the Board has reviewed school facilities and addressed academic and facility needs for a long time; and in 2012, the Board elected not to go forward with a bond election but actually rolled back the millage 1.6 mils. He shared he has always believed data is needed to support a plan that involves spending taxpayers money and noted the ongoing discussions and negotiations with the RSD on schools merging and closures, facilities studies commissioned by the Board on every building in Caddo Parish; and the superintendent and staff working tirelessly over the past year to address facility and academic needs for Caddo Parish children. He said he believes the plan on the table has a basis in the study shared with the Board by Dr. Gary Joiner detailing the inward/outward movement, and the student population for a five-ten-year plus period with the data indicating the student population will be in these areas and the need to address the facilities and academic needs in these areas. He also said he believes the title “*Reinvest in Caddo*” is most appropriate, and he noted that this bond works within our bonding capacity with no increase in taxes and he supports the proposed bond issue.

Mrs. Bell echoed Mr. Ramsey’s comments and that this is not about adults, but about the children. She noted that children should not have to eat lunch at 10:00 a.m., and how the two previous superintendents attempted to address these needs, and it is now time to put the children first in the Caddo Parish School System.

Miss Green stated that while the plan has some good points, she believes some will cause a problem. She said she believes we must come up with some type of compromise with the Highland-Stoner Hill-Barret community, because she would hate to see what closing all these schools in one community would do to that community. Also, in her area, she understands the Blanchard community is happy, as well as the MLK area, but they are looking for some things for the future, and not just an auxiliary gym. Dr. Goree reassured everyone that the school district is committed to the Highland-Stoner Hill-Barret communities having a voice in what is to happen in closing these schools. He noted that since 2000, Caddo Parish has closed 13 schools in an effort to right-size the District and be as efficient as possible; and this plan moves dollars from the administrative column back to the instructional column, as well as affords more opportunities to be more efficient and better stewards of the taxpayers' money. Dr. Goree also noted that this plan does not just close schools, but it builds a new facility in the Central Shreveport area, a point which has not been made in tonight's discussion. He further acknowledged Mrs. Rogers request and he will work to set up a meeting next week to provide answers to the questions; but noted that some of the questions will be answered through the strategic planning process. Miss Green asked the superintendent to remember the importance of our communication with the public being on key, and if he met with these communities. Dr. Goree stated his appreciation for Miss Green's comments and that he is very committed to the community and to serving as superintendent as long as the Board will have him. He added he has been successful in six of six bond initiatives; and while he understands the uniqueness of this community at the level of engagement from the previous districts he has worked in, he and his staff will make a commitment to meet with communities as much as possible; and when it is not happening, asked that he be made aware that it is not. Dr. Goree also noted a recent meeting in the Highland community (at Creswell) as well as the Stoner Hill community (at the Valencia Center) to present the plan. Miss Green asked Mr. Riall if she understands correctly that the Board's vote tonight is to move the bond initiative to the public for a vote, and Mr. Riall confirmed that is what this agenda item is.

Ms. Trammel expressed her appreciation for Dr. Goree's transparency and that he will accept suggestions from the public to determine what is important to them in preserving these vacant buildings so they do not become an eye sore in the community. She said she believes a community receiving a new state-of-the-art school is o.k., but the communities are concerned about what will happen with vacant buildings. Dr. Goree said since moving forward with the new plan in the new year, there has been an engagement of the various communities, because there is a commitment that there will not be any eye sores in the communities, and losing neighborhoods is the last thing he wants to see happen.

Mrs. Brown also expressed her concern for the Highland community; and while she supports what has been said relative to staff's transparency, she asked that persons from that area be appointed to work with staff so they continue to understand what is happening as well as getting input from them. Dr. Goree reiterated that as a superintendent, he understands and appreciates the love people have for the Caddo School District as well as its buildings; however, he also has a charge to be fiducially responsible to provide students the very best education possible. When making decisions, capacity and expansion opportunities have to be considered and staff will work with the community to do what is best in repurposing any closed schools.

Mrs. Poljak stated there is fear that Highland has not been treated fairly in the past and they fear nothing will be done to repurpose empty buildings. She asked if, once the Board votes on this issue, it is possible to immediately create a committee of Highland-Stoner Hill residents who can start thinking about what they want from these buildings in their community. Dr. Goree said it is possible and staff is currently moving in that direction by communicating with the Highland Homeowners Association and they will include Stoner Hill. She also asked for clarification in discussing repurposing, and does this not mean that any building must be torn down. Dr. Goree

responded absolutely not; and a tear-down should be an option along with other options, i.e. what will bring the most value to the community; however, tearing down a school can also bring value to the community.

Mr. Rachal said this vote is to turn this issue over to the voters to vote on, and he reiterated that we are only dealing with one portion of property taxes and that is for bonds and interest. He further explained the total millage is 6 mils; and of that 6 mils, this only deals with one mil; and if this does not pass, the millages will actually drop one mil. Mr. Rachal shared history of millages, i.e. 2003 they were 87.27 mils in property taxes to the school board; and as of today, they are 75.66 mils, a drop of almost 10 mils in the past 10 years. Also in the past 10 years, the School Board has taken advantage of opportunities to roll back property taxes, and have never increased in the past 10 years. At this time, the District has the opportunity to build some new schools without increasing the taxes; and he shared that Bossier Parish has built six new schools and Bossier Parish contributed 13.55 mils for bonds and interest, which is a lot more than Caddo. In Southeast Caddo, he reported there has been enough population for approximately 15 years to build a new school, something he has fought for many years because there is only one elementary school in that area.

Vote on the motion carried unanimously and the following resolution was approved.

RESOLUTION

A resolution ordering and calling a special election to be held in Parishwide School District of Caddo Parish, Louisiana, to authorize the incurring of debt and issuance of bonds therein; making application to the State Bond Commission in connection therewith; and providing for other matters in connection therewith.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "District"), that:

SECTION 1. Election Call. Subject to the approval of the State Bond Commission, and under the authority conferred by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, Title 39 of the Louisiana Revised Statutes of 1950, as amended, the applicable provisions of Chapter 5 and Chapter 6-A of the Louisiana Election Code, and other constitutional and statutory authority, a special election is hereby called and ordered to be held in the District on **SATURDAY, MAY 2, 2015**, between the hours of seven o'clock (7:00) a.m., and eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541, and at the said election there shall be submitted to all registered voters qualified and entitled to vote at the said election under the Constitution and laws of this State and the Constitution of the United States, the following proposition, to-wit:

PARISHWIDE SCHOOL DISTRICT PROPOSITION (BONDS)

Shall the Parishwide School District of Caddo Parish, Louisiana (the "District"), incur debt and issue bonds not exceeding \$108,000,000, to run 20 years from date thereof, with interest at a rate not exceeding 7% per annum, for the purpose of acquiring and/or improving lands for building sites and playgrounds; including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the District, and acquiring the necessary equipment and furnishings therefor, **INCLUDING, TO THE EXTENT FEASIBLE, THOSE SPECIFIC SCHOOL PROJECTS SET FORTH IN THE "CAPITAL IMPROVEMENTS PLAN" APPROVED BY THE SCHOOL BOARD ON JANUARY 20, 2015**, title to which shall be in the public; which bonds will be general obligations of the District and will be payable from ad valorem taxes to be levied and collected in the manner provided by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974 and statutory authority supplemental thereto, with no estimated increase in the millage

rate to be levied in the first year of issue above the 6 mills currently being levied to pay General Obligation Bonds of the District?

SECTION 2. Publication of Notice of Election. A Notice of Special Election shall be published in *The Times*, a newspaper of general circulation within the District, published in Shreveport, Louisiana, and being the official journal of the District, once a week for four consecutive weeks, with the first publication to be made not less than forty-five (45) days nor more than ninety (90) days prior to the date of the election, which Notice shall be substantially in the form attached hereto as "Exhibit A" and incorporated herein by reference the same as if it were set forth herein in full.

SECTION 3. Canvass. This Governing Authority shall meet at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, on **TUESDAY, MAY 19, 2015**, at **FOUR-THIRTY O'CLOCK (4:30) P.M.**, and shall then and there in open and public session proceed to examine and canvass the returns and declare the result of the said special election.

SECTION 4. Polling Places. The polling places set forth in the aforesaid Notice of Special Election are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, will be the same persons as those designated in accordance with law.

SECTION 5. Election Commissioners; Voting Machines. The officers designated to serve as Commissioners-in-Charge and Commissioners pursuant to Section 4 hereof, or such substitutes therefor as may be selected and designated in accordance with La. R.S. 18:1287, shall hold the said special election as herein provided, and shall make due returns of said election for the meeting of the Governing Authority to be held on Tuesday, May 19, 2015, as provided in Section 3 hereof. All registered voters in the District will be entitled to vote at the special election, and voting machines shall be used.

SECTION 6. Authorization of Officers. The Secretary of the Governing Authority is hereby empowered, authorized and directed to arrange for and to furnish to said election officers in ample time for the holding of said election, the necessary equipment, forms and other paraphernalia essential to the proper holding of said election and the President and/or Secretary of the Governing Authority are further authorized, empowered and directed to take any and all further action required by State and/or Federal law to arrange for the election.

SECTION 7. Furnishing Election Call to Election Officials. Certified copies of this resolution shall be forwarded to the Secretary of State, the Clerk of Court and *Ex-Officio* Parish Custodian of Voting Machines of Caddo Parish and the Registrar of Voters of Caddo Parish, as notification of the special election, in order that each may prepare for said election and perform their respective functions as required by law.

SECTION 8. Application to State Bond Commission. Application is made to the State Bond Commission for consent and authority to hold the special election as herein provided, and in the event said election carries for further consent and authority to issue, sell and deliver the bonds provided for therein. A certified copy of this resolution shall be forwarded to the State Bond Commission on behalf of this Governing Authority, together with a letter requesting the prompt consideration and approval of this application. By virtue of applicant/issuer's application for, acceptance and utilization of the benefits of the Louisiana State Bond Commission's approval(s) resolved and set forth herein, it resolves that it understands and agrees that such approval(s) are expressly conditioned upon, and it further resolves that it understands, agrees and binds itself, its successors and assigns to, full and continuing compliance with the "State Bond Commission Policy on Approval of Proposed Use of Swaps, or other forms of Derivative Products Hedges, Etc.", adopted by the Commission on July 20, 2006, as to the borrowing(s) and other matter(s) subject to the approval(s), including subsequent application and approval under said Policy of the implementation or use of any swap(s) or other product(s) or enhancement(s) covered thereby.

SECTION 9. Employment of Bond Counsel. This Governing Authority finds and determines that a real necessity exists for the employment of special counsel in connection with the issuance of the Bonds, and accordingly, Foley & Judell, LLP, as Bond Counsel, together with Co-Bond Counsel as may be designated by this Governing Authority for any series of bonds, is hereby employed to do and perform work of a traditional legal nature as bond counsel with respect to

the issuance and sale of said Bonds. Said Bond Counsel shall prepare and submit to this Governing Authority for adoption all of the proceedings incidental to the authorization, issuance, sale and delivery of such Bonds, shall counsel and advise this Governing Authority as to the issuance thereof and shall furnish their opinions covering the legality of the issuance of the Bonds. The fee of Bond Counsel (together with Co-Bond Counsel) for each series of said bonds shall be fixed at a sum not exceeding the fee allowed by the Attorney General's fee guidelines for such bond counsel work in connection with the issuance of each such series of general obligation bonds and based on the amount of said Bonds actually issued, sold, delivered and paid for, plus "out-of-pocket" expenses, said fees to be contingent upon the issuance, sale and delivery of said bonds. That pursuant to instructions from the Chief Financial Officer, Bond Counsel shall cause to be prepared an official statement with respect to the sale of the Bonds and the costs of the preparation and printing of said official statement, as approved by the State Bond Commission, shall be paid from the proceeds of the issue for which it has been prepared. Said Official Statement may be submitted to one or more of the nationally recognized bond rating service or services, together with a request that an appropriate rating be assigned. Payment for all ratings shall be made by the Chief Financial Officer upon presentation of appropriate statements from the particular rating service furnishing the ratings. A certified copy of this resolution shall be submitted to the Attorney General of the State of Louisiana for his written approval of said employment and of the fees herein designated, and the Chief Financial Officer is hereby empowered and directed to issue vouchers in payment for the work herein provided for upon completion of the work herein specified and under the conditions herein enumerated.

SECTION 10. Declaration of Official Intent. Prior to the delivery of the Bonds, the Governing Authority anticipates that it may pay a portion of the costs of the projects from the General Fund. The projects include those purposes set forth in the proposition herein. Upon the issuance of the Bonds, the Issuer reasonably expects to reimburse any such expenditures of other available funds from a portion of the proceeds of the Bonds. Any such allocation of proceeds of the Bonds for reimbursement will be with respect to capital expenditures (as defined in Reg. 1.150-1(b)) and will be made upon the delivery of the Bonds and not later than one year after the later of (i) the date such expenditure was paid or (ii) the date on which the project was placed in service. This Section is intended to be a declaration of official intent within the meaning of Reg. 1.150-2.

SECTION 11. Additional Notice Requirement. This Governing Authority made the announcement with respect to this resolution required by La. R.S. 42:19.1, at its public meeting on Tuesday, December 16, 2014 and published said announcement in the Official Journal on Wednesday, December 17, 2014.

This resolution having been submitted to a vote, the vote thereon was as follows:

President

EXHIBIT "A"

Pursuant to the provisions of a resolution adopted by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "District"), on January 20, 2015, NOTICE IS HEREBY GIVEN that a special election will be held within the District on **SATURDAY, MAY 2, 2015**, and that at the said election there will be submitted to all registered voters in the District qualified and entitled to vote at the said election under the Constitution and Laws of the State of Louisiana and the Constitution of the United States, the following proposition, to-wit:

**PARISHWIDE SCHOOL DISTRICT PROPOSITION
(BONDS)**

Shall the Parishwide School District of Caddo Parish, Louisiana (the "District"), incur debt and issue bonds not exceeding \$108,000,000, to run 20 years from date thereof, with interest at a rate not exceeding 7% per annum, for the purpose of acquiring and/or improving lands for building sites and playgrounds; including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the District, and acquiring the necessary equipment and furnishings therefor, INCLUDING, TO THE EXTENT FEASIBLE, THOSE SPECIFIC SCHOOL PROJECTS SET FORTH IN THE "CAPITAL IMPROVEMENTS PLAN" APPROVED BY THE SCHOOL BOARD ON JANUARY 20, 2015, title to which shall be in the public; which bonds will be general obligations of the District and will be payable from ad valorem taxes to be levied and collected in the manner provided by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974 and statutory authority supplemental thereto, with no estimated increase in the millage rate to be levied in the first year of issue above the 6 mills currently being levied to pay General Obligation Bonds of the District?

The said special election will be held at the following polling places situated within the District, which polls will open at seven o'clock (7:00) a.m., and close at eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541, to-wit:

The polling places set forth above are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, shall be those persons designated according to law.

Notice is further given that a portion of the monies collected from the tax described in the Proposition shall be remitted to certain state and statewide retirement systems in the manner required by law.

The said special election will be held in accordance with the applicable provisions of Chapter 5 and Chapter 6-A of Title 18 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and the officers appointed to hold the said election, as provided in this Notice of Special Election, or such substitutes therefor as may be selected and

designated in accordance with La. R.S. 18:1287, will make due returns thereof to said Governing Authority, and NOTICE IS HEREBY FURTHER GIVEN that the Governing Authority will meet at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, on **TUESDAY, MAY 19, 2015, at FOUR-THIRTY O'CLOCK (4:30) P.M.**, and shall then and there in open and public session proceed to examine and canvass the returns and declare the result of the said special election. All registered voters of the District are entitled to vote at said special election and voting machines will be used.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 20th day of January, 2015.

ATTEST:

President

Secretary

STATE OF LOUISIANA
PARISH OF CADDO

I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "District"), do hereby certify that the foregoing pages constitute a true and correct copy of the proceedings taken by the Governing Authority on January 20, 2015, ordering and calling a special election to be held in Parishwide School District of Caddo Parish, Louisiana, to authorize the incurring of debt and issuance of bonds therein; making application to the State Bond Commission in connection therewith; and providing for other matters in connection therewith.

IN FAITH WHEREOF, witness my official signature of the School Board at Shreveport, Louisiana, on this, the 20th day of January, 2015.

Secretary

RESOLUTION PROVIDING FOR THE ISSUANCE AND SALE OF GENERAL OBLIGATION SCHOOL REFUNDING BONDS AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the resolution providing for the issuance and sale of General Obligation school refunding bonds and providing for other matters in connection therewith as submitted in the mailout.

Jim Lee explained that with this refunding issue, we will refund most of the 2007 bond issue at a lower rate and a net savings to the taxpayers of approximately \$925,000 for a total savings since 2002 of \$6.2 million. Mr. Rachal stated that interest rates are historically low, but asked what else would contribute to the School Board being able to refinance and receive these savings? Mr. Lee responded that we have a very strong bond rating (AA-) which the District has maintained for the last several years with Standard and Poors, we have a good financial record from paying debts as they become due, and Mr. Schleuter added that the maintenance of the bond rating is key to being able to go out into the market and get the very lowest interest rates. He also stated that this is one of many refundings that Caddo Parish has done with all the savings being to the benefit of the taxpayers (over \$6 million in taxes that the taxpayers are not paying because of the various refundings). Also critical in the bond process is maintenance of a good fund balance which Caddo has done; and he confirmed that the refunding of the bonds is not extending the debt but reducing the payments made by taxpayers each year. Mr. Rachal also asked Mr. Schleuter if he considers these savings and what the Board has done over the past few years average, and Mr. Schleuter responded that what Caddo has done is possibly above average since Caddo has taken advantage of lower interest rates and refinanced a significant number of times to lock in the savings.

Vote on the motion carried unanimously and the following resolution was approved.

RESOLUTION

A resolution providing for the issuance and sale of Fourteen Million Five Hundred Thirty Thousand Dollars (\$14,530,000) of General Obligation School Refunding Bonds, Series 2015, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners thereof; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and a special election held on April 17, 2004, the result of which was duly promulgated in accordance with law, Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), acting through its governing authority, issued \$20,000,000 of General Obligation School Bonds, Series 2007, dated March 1, 2007, of which \$17,070,000 is outstanding (the "Series 2007 Bonds"); and

WHEREAS, the Issuer is authorized to borrow money and issue general obligation school bonds payable from ad valorem taxes to refund its outstanding general obligation school bonds, pursuant to Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended (the "Act"), and other constitutional and statutory authority; and

WHEREAS, the Issuer has found and determined that the defeasance and advance refunding of a portion of the outstanding Series 2007 Bonds, consisting of \$15,220,000 of Series 2007 Bonds which mature March 1, 2018 to March 1, 2032, inclusive, as more fully described in Exhibit A hereto (the "Refunded Bonds"), would be financially advantageous to the Issuer and would result in a lower effective interest rate on such Refunded Bonds and debt service savings to the Issuer; and

WHEREAS, pursuant to the Act and other constitutional and statutory authority, it is now the desire of the Issuer to adopt this resolution in order to provide for the issuance of Fourteen Million Five Hundred Thirty Thousand Dollars (\$14,530,000) principal amount of its General Obligation School Refunding Bonds, Series 2015 (the "Bonds"), for the purpose of refunding the Refunded Bonds, to fix the details of the Bonds and to sell the Bonds to the Underwriter thereof; and

WHEREAS, it is necessary to provide for the application of the proceeds of the Bonds and to provide for other matters in connection with the payment or redemption of the Refunded Bonds; and

WHEREAS, it is necessary that this Governing Authority prescribe the form and content of the Defeasance and Escrow Deposit Agreement providing for the payment of the principal and interest of the Refunded Bonds and authorize the execution thereof as hereinafter provided; and

HEREAS, in connection with the issuance of the Bonds, it is necessary that provision be made for the payment of the principal and interest of the Refunded Bonds described in Exhibit A hereto, and to provide for the call for redemption of the Refunded Bonds pursuant to a Notice of Defeasance and Call for Redemption; and

WHEREAS, the Issuer desires to fix the details of the Bonds and the terms of the sale of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

ARTICLE I DEFINITIONS AND INTERPRETATION

SECTION 1.1. Definitions, etc. The following terms shall have the following meanings unless the context otherwise requires:

"Act" shall mean Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other applicable constitutional and statutory authority.

"Bond" or "Bonds" shall mean any or all of the General Obligation School Refunding Bonds, Series 2015, of the Issuer, issued pursuant to the Bond Resolution, as the same may be amended from time to time, whether initially delivered or issued in exchange for, upon transfer of, or in lieu of any previously issued Bond.

"Bond Obligation" shall mean, as of the date of computation, the principal amount of the Bonds then Outstanding.

"Bond Resolution" shall mean this resolution, as it may amended and supplemented as herein provided.

"Business Day" shall mean a day of the year other than a day on which banks located in New York, New York, and the cities in which the principal offices of the Escrow Agent and the Paying Agent are located are required or authorized to remain closed and on which the New York Stock Exchange is closed.

"Code" shall mean the Internal Revenue Code of 1986, as amended.

"Costs of Issuance" shall mean all items of expense, directly or indirectly payable or reimbursable and related to the authorization, sale and issuance of the Bonds, including but not limited to printing costs, costs of preparation and reproduction of documents, filing and recording fees, initial fees and charges of any fiduciary, legal fees and charges, fees and charges for the preparation and distribution of a preliminary official statement and official statement, if paid by the Issuer, fees and disbursements of consultants and professionals, costs of credit ratings, fees and charges for preparation, execution, transportation and safekeeping of the Bonds, costs and expenses of refunding, premiums for the insurance of the payment of the Bonds, if any, and any other cost, charge or fee paid or payable by the Issuer in connection with the original issuance of Bonds.

"Debt Service" for any period shall mean, as of the date of calculation, an amount equal to the sum of (a) interest payable during such period on Bonds and (b) the principal amount of Bonds which mature during such period.

"Defeasance Obligations" shall mean (a) cash, or (b) noncallable Government Securities.

"Escrow Agent" shall mean with respect to the Refunded Bonds, Argent Trust Company, N.A., in the City of Ruston, Louisiana, and its successor or successors, and any other person which may at any time be substituted in its place pursuant to the Bond Resolution.

"Escrow Agreement" shall mean the Defeasance and Escrow Deposit Agreement dated as of February 10, 2015, between the Issuer and the Escrow Agent, substantially in the form attached hereto as Exhibit B, as the same may be amended from time to time, the terms of which are incorporated herein by reference.

"Executive Officers" shall mean, collectively, the President and Secretary of the Governing Authority.

"Fiscal Year" shall mean the one-year accounting period ending on June 30 of each year, or such other one-year period as may be designated by the Governing Authority as the fiscal year of the Issuer.

"Governing Authority" shall mean the Parish School Board of the Parish of Caddo, State of Louisiana, or its successor in function.

"Government Securities" shall mean direct general obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, which may be United States Treasury Obligations such as the State and Local Government Series and may be in book-entry form.

"Interest Payment Date" shall mean March 1 and September 1 of each year, commencing September 1, 2015.

"Issuer" shall mean Parishwide School District of Caddo Parish, Louisiana.

"Outstanding", when used with reference to the Bonds, shall mean, as of any date, all Bonds theretofore issued under the Bond Resolution, except:

- (a) Bonds theretofore cancelled by the Paying Agent or delivered to the Paying Agent for cancellation;
- (b) Bonds for the payment or redemption of which sufficient Defeasance Obligations have been deposited with the Paying Agent or an escrow agent in trust for the owners of such Bonds as provided in Section 11.1 hereof, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to the Bond Resolution, to the satisfaction of the Paying Agent, or waived;
- (c) Bonds in exchange for or in lieu of which other Bonds have been registered and delivered pursuant to the Bond Resolution; and
- (d) Bonds alleged to have been mutilated, destroyed, lost, or stolen which have been paid as provided in the Bond Resolution or by law.

"Owner" or "Owners" shall mean the Person reflected as registered owner of any of the Bonds on the registration books maintained by the Paying Agent.

"Paying Agent" shall mean Argent Trust Company, N.A., in the City of Ruston, Louisiana, as paying agent and registrar hereunder, until a successor Paying Agent shall have become such pursuant to the applicable provisions of the Bond Resolution, and thereafter "Paying Agent" shall mean such successor Paying Agent.

"Person" shall mean any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, or government or any agency or political subdivision thereof.

"Record Date" shall mean, with respect to an Interest Payment Date, the fifteenth day of the calendar month next preceding such Interest Payment Date, whether or not such day is a Business Day.

"Refunded Bonds" shall mean the Issuer's outstanding General Obligation School Bonds, Series 2007, dated March 1, 2007, consisting of \$15,220,000 of Series 2007 Bonds which mature March 1, 2018 to March 1, 2032, inclusive, which are being refunded by the Bonds, as more fully described in Exhibit A hereto.

"State" shall mean the State of Louisiana.

"Underwriter" shall mean Raymond James & Associates, Inc., the original underwriters of the Bonds.

SECTION 1.2. Interpretation. In this Bond Resolution, unless the context otherwise requires, (a) words importing the singular include the plural and vice versa, (b) words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders and (c) the title of the offices used in this Bond Resolution shall be deemed to include any other title by which such office shall be known under any subsequently adopted charter.

ARTICLE II AUTHORIZATION AND ISSUANCE OF BONDS

SECTION 2.1. Authorization of Bonds; Refunding of Refunded Bonds.

(a) This Bond Resolution creates a series of Bonds of the Issuer to be designated "General Obligation School Refunding Bonds, Series 2015, of Parishwide School District of Caddo

Parish, Louisiana", and provides for the full and final payment of the principal of and interest on all the Bonds.

(b) The Bonds issued under this Bond Resolution shall be issued for the purpose of refunding the Refunded Bonds through the escrow of a portion of the proceeds of the Bonds, together with other available moneys of the Issuer in Government Securities, in accordance with the terms of the Escrow Agreement, in order to provide for the payment of the principal of and interest on the Refunded Bonds as they mature or upon earlier redemption, as provided in Section 13.1 hereof.

(c) Provision having been made for the orderly payment until maturity or earlier redemption of all the Refunded Bonds, in accordance with their terms, it is hereby recognized and acknowledged that as of the date of delivery of the Bonds under this Bond Resolution, provision will have been made for the performance of all covenants and agreements of the Issuer incidental to the Refunded Bonds, and that accordingly, and in compliance with all that is herein provided, the Issuer is expected to have no future obligation with reference to the aforesaid Refunded Bonds, except to assure that the Refunded Bonds are paid from the Government Securities and funds so escrowed in accordance with the provisions of the Escrow Agreement.

(d) The Escrow Agreement is hereby approved by the Issuer and the Executive Officers are hereby authorized and directed to execute and deliver the Escrow Agreement on behalf of the Issuer substantially in the form of Exhibit B hereof, with such changes, additions, deletions or completions deemed appropriate by such signing officials, and it is expressly provided and covenanted that all of the provisions for the payment of the principal of, premium, if any, and interest on the Refunded Bonds from the special trust funds created under the Escrow Agreement shall be strictly observed and followed in all respects.

SECTION 2.2. Bond Resolution to Constitute Contract. In consideration of the purchase and acceptance of the Bonds by those who shall own the same from time to time, the provisions of this Bond Resolution shall be a part of the contract of the Issuer with the Owners of the Bonds and shall be deemed to be and shall constitute a contract between the Issuer and the Owners from time to time of the Bonds. The provisions, covenants and agreements herein set forth to be performed by or on behalf of the Issuer shall be for the equal benefit, protection and security of the Owners of any and all of the Bonds, each of which Bonds, regardless of the time or times of its issue or maturity, shall be of equal rank without preference, priority or distinction over any other thereof except as expressly provided in this Bond Resolution.

SECTION 2.3. Obligation of Bonds. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment and for the payment of all the interest thereon. The Issuer is bound under the terms and provisions of law and this Bond Resolution to impose and collect annually, in excess of all other taxes, a tax on all the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer. All ad valorem taxes levied by the Issuer in each year for the payment of the Bonds shall, upon their receipt, be transferred to the Governing Authority, which shall have responsibility for the deposit of such receipts and for the investment and reinvestment of such receipts and the servicing of the Bonds and any other general obligation school bonds of the Issuer.

SECTION 2.4. Authorization and Designation. Pursuant to the provisions of the Act, there is hereby authorized the issuance of Fourteen Million Five Hundred Thirty Thousand Dollars (\$14,530,000) principal amount of Bonds of the Issuer to be designated "General Obligation School Refunding Bonds, Series 2015, of Parishwide School District of Caddo Parish, Louisiana", for the purpose of refunding the Refunded Bonds. The Bonds shall be in substantially the form set forth as Exhibit C hereto, with such necessary or appropriate variations, omissions and insertions as are required or permitted by the Act and this Bond Resolution.

This Governing Authority hereby finds and determines that upon the issuance of the Bonds, the total outstanding amount of general obligation school bonds of the Issuer issued and deemed to be outstanding will not exceed the Issuer's general obligation bond limit.

SECTION 2.5. Denominations, Dates, Maturities and Interest. The Bonds are issuable as fully registered bonds without coupons in the denominations of \$5,000 principal amount or any integral multiple thereof within a single maturity, and shall be numbered R-1 upward.

The Bonds shall be dated the date of delivery, shall mature on March 1 in the years and in the principal amounts and shall bear interest, payable on March 1 and September 1 of each year, commencing September 1, 2015, at the rates per annum, as follows:

<u>Date</u> <u>(March 1)</u>	<u>Principal</u> <u>Payment</u>	<u>Interest</u> <u>Rate</u>	<u>Date</u> <u>(March 1)</u>	<u>Principal</u> <u>Payment</u>	<u>Interest</u> <u>Rate</u>
2018	\$665,000	3.000%	2026	\$ 990,000	5.000%
2019	695,000	3.000	2027	1,055,000	5.000
2020	725,000	3.000	2028	1,125,000	5.000
2021	755,000	3.000			
2022	795,000	5.000	2030	2,405,000	3.125
2023	840,000	4.000			
2024	885,000	4.000	2032	2,660,000	5.000
2025	935,000	5.000			

The principal and premium, if any, of the Bonds are payable in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof. Interest on the Bonds is payable by check mailed on or before the Interest Payment Date by the Paying Agent to the Owner thereof (determined as of the close of business on the Record Date) at the address of such Owner as it appears on the registration books of the Paying Agent maintained for such purpose.

Except as otherwise provided in this Section, Bonds shall bear interest from date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, as the case may be, provided, however, that if and to the extent that the Issuer shall default in the payment of the interest on any Bonds due on any Interest Payment Date, then all such Bonds shall bear interest from the most recent Interest Payment Date to which interest has been paid on the Bonds, or if no interest has been paid on the Bonds, from their dated date.

The person in whose name any Bond is registered at the close of business on the Record Date with respect to an Interest Payment Date shall in all cases be entitled to receive the interest payable on such Interest Payment Date notwithstanding the cancellation of such Bond upon any registration of transfer or exchange thereof subsequent to such Record Date and prior to such Interest Payment Date.

SECTION 2.6. Book Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Governing Authority or any other officer of the Issuer is authorized to execute and deliver a Blanket Letter of Representation to DTC on behalf of the Issuer with respect to the issuance of the Bonds in "book-entry only" format. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Bond Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner (as defined in the Blanket Letter of Representation) may be charged a sum sufficient to cover such Beneficial Owner's

allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

- (a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or
- b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer or the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Bond Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

ARTICLE III GENERAL TERMS AND PROVISIONS OF THE BONDS

SECTION 3.1. Exchange of Bonds; Persons Treated as Owners. The Issuer shall cause books for the registration and for the registration of transfer of the Bonds as provided in this Bond Resolution to be kept by the Paying Agent at its principal corporate trust office, and the Paying Agent is hereby constituted and appointed the registrar for the Bonds. At reasonable times and under reasonable regulations established by the Paying Agent said list may be inspected and copied by the Issuer or by the Owners (or a designated representative thereof) of 15% of the outstanding principal amount of the Bonds.

All Bonds presented for registration of transfer or exchange shall be accompanied by a written instrument or instruments of transfer in form and with a guaranty of signature satisfactory to the Paying Agent, duly executed by the Owner or his attorney duly authorized in writing.

Upon surrender for registration of transfer of any Bond, the Paying Agent shall register and deliver in the name of the transferee or transferees one or more new fully registered Bonds of authorized denomination of the same maturity and like aggregate principal amount. At the option of an Owner, Bonds may be exchanged for other Bonds of authorized denominations of the same maturity and like aggregate principal amount, upon surrender of the Bonds to be exchanged at the principal corporate trust office of the Paying Agent. Whenever any Bonds are so surrendered for exchange, the Paying Agent shall register and deliver in exchange therefor the Bond or Bonds which the Owner making the exchange shall be entitled to receive.

No service charge to the Owners shall be made by the Paying Agent for any exchange or registration of transfer of Bonds. The Paying Agent may require payment by the person requesting an exchange or registration of transfer of Bonds of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto.

The Issuer and the Paying Agent shall not be required to issue, register the transfer of or exchange any Bond during a period beginning at the opening of business on a Record Date or any date of selection of Bonds to be redeemed and ending at the close of business on the Interest Payment Date.

All Bonds delivered upon any registration of transfer or exchange of Bonds shall be valid obligations of the Issuer, evidencing the same debt and entitled to the same benefits under this Bond Resolution as the Bonds surrendered.

Prior to due presentment for registration of transfer of any Bond, the Issuer and the Paying Agent, and any agent of the Issuer or the Paying Agent may deem and treat the person in whose name any Bond is registered as the absolute owner thereof for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary.

SECTION 3.2. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be improperly cancelled, or be destroyed, stolen or lost, the Issuer may in its discretion adopt a resolution and thereby authorize the issuance and delivery of a new Bond in exchange for and substitution for such mutilated or improperly cancelled Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, upon the Owner (i) furnishing the Issuer and the Paying Agent proof of his ownership thereof and proof of such mutilation, improper cancellation, destruction, theft or loss satisfactory to the Issuer and the Paying Agent, (ii) giving to the Issuer and the Paying Agent an indemnity bond in favor of the Issuer and the Paying Agent in such amount as the Issuer may require, (iii) complying with such other reasonable regulations and conditions as the Issuer may prescribe and (iv) paying such expenses as the Issuer and the Paying Agent may incur. All Bonds so surrendered shall be delivered to the Paying Agent for cancellation pursuant to Section 3.4 hereof. If any Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof.

Any such duplicate Bond issued pursuant to this Section shall constitute an original, additional, contractual obligation on the part of the Issuer, whether or not the lost, stolen or destroyed Bond be at any time found by anyone. Such duplicate Bond shall be in all respects identical with those replaced except that it shall bear on its face the following additional clause:

"This bond is issued to replace a lost, cancelled or destroyed bond under the authority of R.S. 39:971 through 39:974."

Such duplicate Bond may be signed by the facsimile signatures of the same officers who signed the original Bonds, provided, however, that in the event the officers who executed the original Bonds are no longer in office, then the new Bonds may be signed by the officers then in office. Such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source and security for payment as provided herein with respect to all other Bonds hereunder, the obligations of the Issuer upon the duplicate Bonds being identical to its obligations upon the original Bonds and the rights of the Owner of the duplicate Bonds being the same as those conferred by the original Bonds.

SECTION 3.3. Preparation of Definitive Bonds, Temporary Bonds. Until the definitive Bonds are prepared, the Issuer may execute, in the same manner as is provided in Section 3.5, and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive Bonds except as to the denominations, one or more temporary typewritten Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, in authorized denominations, and with such omissions, insertions and variations as may be appropriate to temporary Bonds.

SECTION 3.4. Cancellation of Bonds. All Bonds paid, together with all Bonds purchased by the Issuer, shall thereupon be promptly cancelled by the Paying Agent. The Paying Agent shall thereupon promptly furnish to the Secretary of the Governing Authority an appropriate certificate of cancellation.

SECTION 3.5. Execution. The Bonds shall be executed in the name and on behalf of the Issuer by the manual or facsimile signatures of the Executive Officers, and the corporate seal of the Issuer (or a facsimile thereof) shall be thereunto affixed, imprinted, engraved or otherwise reproduced thereon. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been actually delivered, such Bonds may, nevertheless, be delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Said

officers shall, by the execution of the Bonds, adopt as and for their own proper signatures their respective facsimile signatures appearing on the Bonds or any legal opinion certificate thereon, and the Issuer may adopt and use for that purpose the facsimile signature of any person or persons who shall have been such officer at any time on or after the date of such Bond, notwithstanding that at the date of such Bond such person may not have held such office or that at the time when such Bond shall be delivered such person may have ceased to hold such office.

SECTION 3.6. Registration by Secretary of State. The Bonds shall be registered with the Secretary of State of the State of Louisiana and shall bear the endorsement of the Secretary of State of the State of Louisiana substantially in the form set forth in Exhibit C hereto, provided such endorsement shall be manually signed only on the Bonds initially delivered to the Underwriter, and any Bonds subsequently exchanged therefor as permitted in this Bond Resolution may bear the facsimile signature of said Secretary of State.

SECTION 3.7. Registration by Paying Agent. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Bond Resolution unless and until a certificate of registration on such Bond substantially in the form set forth in Exhibit C hereto shall have been duly executed on behalf of the Paying Agent by a duly authorized signatory, and such executed certificate of the Paying Agent upon any such Bond shall be conclusive evidence that such Bond has been executed, registered and delivered under this Bond Resolution.

ARTICLE IV SINKING FUND; PAYMENT OF BONDS

SECTION 4.1. Sinking Fund. (a) For the payment of the principal of and the interest on the Bonds, the Issuer will maintain a special fund, to be held by the regularly designated fiscal agent of the Issuer (the "Sinking Fund"), into which the Issuer will deposit the proceeds of the aforesaid tax described in Section 2.3 hereof. The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least one (1) day in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

(b) All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Bond Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

(c) All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

SECTION 4.2. Payment of Bonds. The Issuer shall duly and punctually pay or cause to be paid as herein provided, the principal of every Bond and the interest thereon, at the dates and places and in the manner stated in the Bonds according to the true intent and meaning thereof.

ARTICLE V REDEMPTION OF BONDS

SECTION 5.1. Optional Redemption. The Bonds are not callable for optional redemption prior to their stated dates of maturity.

SECTION 5.2. Mandatory Sinking Fund Redemption. The Term Bonds maturing on March 1, 2030 shall be subject to mandatory sinking fund redemption on March 1 in the years and in the principal amounts set forth below at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon:

Year (<u>March 1</u>)	Principal <u>Amount</u>
2029	\$1,180,000
2030	1,225,000*

* Final Maturity

The Term Bonds maturing on March 1, 2032 shall be subject to mandatory sinking fund redemption on March 1 in the years and in the principal amounts set forth below at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon:

Year (March 1)	Principal Amount
2031	\$1,290,000
2032	1,370,000*

* Final Maturity

ARTICLE VI APPLICATION OF BOND PROCEEDS

SECTION 6.1. Application of Bond Proceeds. As a condition of the issuance of the Bonds, the Issuer hereby binds and obligates itself to:

(a) Deposit irrevocably in trust with the Escrow Agent under the terms and conditions of the Escrow Agreement, as hereinafter provided, an amount of the proceeds derived from the issuance and sale of the Bonds (exclusive of accrued interest), together with additional moneys of the Issuer, as will enable the Escrow Agent to purchase Government Obligations described in the Escrow Agreement, which shall mature in principal and interest in such a manner as to provide at least the required cash amount on or before each payment date for the Refunded Bonds (said amounts being necessary on each of the designated dates to pay and retire or redeem the Refunded Bonds, including premiums, if any, payable upon redemption). Prior to or concurrently with the delivery of the Bonds, the Issuer shall obtain an independent mathematical verification that the moneys and obligations required to be irrevocably deposited in trust in the Escrow Fund with the Escrow Agent, together with the earnings to accrue thereon, will always be sufficient for the payment of the principal of, premium, if any, and interest on the Refunded Bonds. The moneys so deposited with the Escrow Agent shall constitute a trust fund irrevocably dedicated for the use and benefit of the owners of the Refunded Bonds.

(b) Deposit in the Expense Fund established with the Escrow Agent such amount of the proceeds of the Bonds as will enable the Escrow Agent to pay the Costs of Issuance and the costs properly attributable to the establishment and administration of the Escrow Fund on behalf of the Issuer.

(c) Deposit accrued interest, if any, received on the delivery date of the Bonds into the Sinking Fund established by Section 4.1 hereof and to apply said funds to pay a portion of the interest due on the Bonds on the first Interest Payment Date therefor. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

ARTICLE VII SUPPLEMENTAL BOND RESOLUTIONS

SECTION 7.1. Supplemental Resolutions Effective Without Consent of Owners. For any one or more of the following purposes and at any time from time to time, a resolution supplemental hereto may be adopted, which, upon the filing with the Paying Agent of a certified copy thereof, but without any consent of Owners, shall be fully effective in accordance with its terms:

(a) to add to the covenants and agreements of the Issuer in the Bond Resolution other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;

(b) to add to the limitations and restrictions in the Bond Resolution other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;

(c) to surrender any right, power or privilege reserved to or conferred upon the Issuer by the terms of the Bond Resolution, but only if the surrender of such right, power or privilege is not contrary to or inconsistent with the covenants and agreements of the Issuer contained in the Bond Resolution;

(d) to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision of the Bond Resolution; or

(e) to insert such provisions clarifying matters or questions arising under the Bond Resolution as are necessary or desirable and are not contrary to or inconsistent with the Bond Resolution as theretofore in effect.

SECTION 7.2. Supplemental Resolutions Effective With Consent of Owners. Except as provided in Section 7.1, any modification or amendment of the Bond Resolution or of the rights and obligations of the Issuer and of the Owners of the Bonds hereunder, in any particular, may be made by a supplemental resolution, with the written consent of the Owners of a majority of the Bond Obligation at the time such consent is given. No such modification or amendment shall permit a change in the terms of maturity of the principal of any outstanding Bond or of any installment of interest thereon or a reduction in the principal amount thereof or in the rate of interest thereon without the consent of the Owner of such Bond, or shall reduce the percentages of Bonds the consent of the Owner of which is required to effect any such modification or amendment, or change the obligation of the Issuer to levy and collect taxes for the payment of the Bonds as provided herein, without the consent of the Owners of all of the Bonds then outstanding, or shall change or modify any of the rights or obligations of either the Paying Agent or the Escrow Agent without its written assent thereto. For the purposes of this Section, Bonds shall be deemed to be affected by a modification or amendment of the Bond Resolution if the same adversely affects or diminishes the rights of the Owners of said Bonds.

ARTICLE VIII TAX COVENANTS; CONTINUING DISCLOSURE

SECTION 8.1. Tax Covenants. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code to in order to establish, maintain and preserve the exclusion from "gross income" of interest on the Bonds under the Code. The Issuer shall not take any action or fail to take any action, nor shall it permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, to acquire any securities or obligations the acquisition of which would cause any Bond to be an "arbitrage bond" as defined in the Code or would result in the inclusion of the interest on any Bond in "gross income" under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of the proceeds of the Bonds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America, or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be "private activity bonds" under the Code.

The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION 8.2. Continuing Disclosure Certificate. The Secretary of the Governing Authority is hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix I of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 8.3. Not Qualified Tax-Exempt Obligations . The Bonds are **not** designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code.

ARTICLE IX REMEDIES ON DEFAULT

SECTION 9.1. Events of Default. If one or more of the following events (in this Bond Resolution called "Events of Default") shall happen, that is to say,

(a) if default shall be made in the due and punctual payment of the principal of any Bond when and as the same shall become due and payable, whether at maturity or otherwise (in determining whether a principal payment default has occurred); or

(b) if default shall be made in the due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable (in determining whether an interest payment default has occurred); or

(c) if default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in the Bond Resolution, any supplemental resolution or in the Bonds contained and such default shall continue for a period of forty-five (45) days after written notice thereof to the Issuer by any Owner; or

(d) if the Issuer shall file a petition or otherwise seek relief under any Federal or State bankruptcy law or similar law; then, upon the happening and continuance of any Event of Default and the Owners of the Bonds shall be entitled to exercise all rights and powers for which provision is made under Louisiana law. All remedies shall be cumulative with respect to the Paying Agent and the Owners; if any remedial action is discontinued or abandoned, the Paying Agent and the Owners shall be restored to their former positions.

ARTICLE X CONCERNING FIDUCIARIES

SECTION 10.1. Escrow Agent; Appointment and Acceptance of Duties. Argent Trust Company, N.A., in the City of Ruston, Louisiana, is hereby appointed Escrow Agent with respect to the Refunded Bonds. The Escrow Agent shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution by executing and delivering the Escrow Agreement.

SECTION 10.2. Paying Agent; Appointment and Acceptance of Duties. The Issuer will at all times maintain a Paying Agent having the necessary qualifications for the performance of the duties described in this Bond Resolution. The designation of Argent Trust Company, N.A., in the City of Ruston, Louisiana, as the initial Paying Agent is hereby confirmed and approved. The Paying Agent shall signify its acceptance of the duties and obligations imposed on it by the Bond Resolution by executing and delivering to the Executive Officers a written acceptance thereof. The Governing Authority reserves the right to appoint a successor Paying Agent by (a) filing with the Person then performing such function a certified copy of a resolution giving notice of the termination of the agreement and appointing a successor and (b) causing notice to be given to each Owner. Furthermore, the Paying Agent may be removed by the Issuer at any time for any breach of its duties set forth herein, affective upon appointment of a successor Paying Agent as set forth above. Every Paying Agent appointed hereunder shall at all times be a trust company or bank organized and doing business under the laws of the United States of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by Federal or State authority.

ARTICLE XI MISCELLANEOUS

SECTION 11.1. Defeasance. (a) If the Issuer shall pay or cause to be paid to the Owners of all Bonds then outstanding, the principal and interest become due thereon, at the times and in the manner stipulated therein and in the Bond Resolution, then the covenants, agreements and other obligations of the Issuer to the Owners shall be discharged and satisfied. In such event, the Paying Agent shall, upon the request of the Issuer, execute and deliver to the Issuer all such instruments as may be desirable to evidence such discharge and satisfaction and the Paying Agent shall pay over or deliver to the Issuer all moneys, securities and funds held by them pursuant to the Bond Resolution which are not required for the payment of Bonds not theretofore surrendered for such payment.

(b) Bonds or interest installments for the payment of which money shall have been set aside and shall be held in trust (through deposit by the Issuer of funds for such payment or otherwise) at the maturity date thereof shall be deemed to have been paid within the meaning and with the effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their

maturity, within the meaning and with the effect expressed above in this Section if they have been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as amended, or any successor provisions thereto.

SECTION 11.2. Evidence of Signatures of Owners and Ownership of Bonds. (a) Any request, consent, revocation of consent or other instrument which the Bond Resolution may require or permit to be signed and executed by the Owners may be in one or more instruments of similar tenor, and shall be signed or executed by such Owners in person or by their attorneys-in-fact appointed in writing. Proof of (i) the execution of any such instrument, or of an instrument appointing any such attorney, or (ii) the ownership by any person of the Bonds shall be sufficient for any purpose of the Bond Resolution (except as otherwise therein expressly provided) if made in the following manner, or in any other manner satisfactory to the Paying Agent, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable:

(1) the fact and date of the execution by any Owner or his attorney-in-fact of such instrument may be proved by the certificate, which need not be acknowledged or verified, of an officer of a bank or trust company or of any notary public or other officer authorized to take acknowledgments of deeds, that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or a member of a partnership, on behalf of such corporation, association or partnership, such certificate or affidavit shall also constitute sufficient proof of his authority;

(2) the ownership of Bonds and the amount, numbers and other identification, and date of owning the same shall be proved by the registration books of the Paying Agent.

(b) Any request or consent by the Owner of any Bond shall bind all future Owners of such Bond in respect of anything done or suffered to be done by the Issuer or the Paying Agent in accordance therewith.

SECTION 11.3. Moneys Held for Particular Bonds. The amounts held by the Paying Agent for the payment due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it, without liability for interest, for the Owners of the Bonds entitled thereto.

SECTION 11.4. Parties Interested Herein. Nothing in the Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds any right, remedy or claim under or by reason of the Bond Resolution or any covenant, condition or stipulation thereof; and all the covenants, stipulations, promises and agreements in the Bond Resolution contained by and on behalf of the Issuer shall be for the sole and exclusive benefit of the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds and the owners of the Refunded Bonds.

SECTION 11.5. No Recourse on the Bonds. No recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Bond Resolution against any member of the Governing Authority or officer of the Issuer or any person executing the Bonds.

SECTION 11.6. Successors and Assigns. Whenever in this Bond Resolution the Issuer is named or referred to, it shall be deemed to include its successors and assigns and all the covenants and agreements in this Bond Resolution contained by or on behalf of the Issuer shall bind and enure to the benefit of its successors and assigns whether so expressed or not.

SECTION 11.7. Subrogation. In the event the Bonds herein authorized to be issued, or any of them, should ever be held invalid by any court of competent jurisdiction, the Owner or Owners thereof shall be subrogated to all the rights and remedies against the Issuer had and possessed by the owner or owners of the Refunded Bonds.

SECTION 11.8. Severability. In case any one or more of the provisions of the Bond Resolution or of the Bonds issued hereunder shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of the Bond Resolution or of the Bonds, but the Bond Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provision enacted after the date of the Bond Resolution which validates or makes legal any provision of the Bond Resolution or the Bonds which would not otherwise be valid or legal shall be deemed to apply to the Bond Resolution and to the Bonds.

SECTION 11.9. Publication of Bond Resolution. This Bond Resolution shall be published one time in the official journal of the Issuer; however, it shall not be necessary to publish any exhibits hereto if the same are available for public inspection and such fact is stated in the publication.

SECTION 11.10. Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel, to effect the transactions contemplated by this Bond Resolution, the signatures of the Executive Officers on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

**ARTICLE XII
SALE OF BONDS**

SECTION 12.1. Sale of Bonds. The Bonds have been awarded to and sold to the Underwriter at the price and under the terms and conditions set forth in the Bond Purchase Agreement attached hereto as Exhibit D, and after their execution, registration by the Secretary of State and authentication by the Paying Agent, the Bonds shall be delivered to the Underwriter or its agents or assigns, upon receipt by the Issuer of the agreed purchase price.

SECTION 12.2. Official Statement. The Issuer hereby approves the form and content of the Preliminary Official Statement dated November 14, 2014, pertaining to the Bonds, which has been submitted to the Issuer, and hereby ratifies its prior use by the Underwriter in connection with the sale of the Bonds. The Issuer further approves the form and content of the final Official Statement and hereby authorizes and directs the execution by the President and Secretary of the Governing Authority and delivery of such final Official Statement to the Underwriter for use in connection with the public offering of the Bonds.

**ARTICLE XIII
REDEMPTION OF REFUNDED BONDS**

SECTION 13.1. Call for Redemption. Subject only to the actual delivery of the Bonds, the Refunded Bonds are hereby irrevocably called for redemption on March 1, 2017, at the principal amount thereof and accrued interest to the redemption date, in compliance with the resolution authorizing their issuance.

SECTION 13.2. Notice of Defeasance and Call for Redemption. In accordance with the resolution authorizing the issuance of the Refunded Bonds, a Notice of Defeasance and Call for Redemption in substantially the form attached hereto as Exhibit E shall be sent by the paying agent for the Refunded Bonds to the registered owners as the same appear on the registration books of said paying agent by means of first class mail not less than thirty (30) days prior to the date of redemption.

The foregoing resolution having been submitted to a vote, the vote thereon was as follows:

Secretary President

STATE OF LOUISIANA
PARISH OF CADDO

I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana, do hereby certify that the foregoing pages constitute a true and correct copy of a resolution adopted by said Parish School Board on January 20, 2015, providing for the issuance and sale of \$14,530,000 of General Obligation School Refunding Bonds, Series 2015, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners thereof; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.
IN FAITH WHEREOF, witness my official signature on this, the 20th day of January, 2015.

Secretary

SUPERINTENDENT’S REPORT

Update on Collaborations with RSD. The superintendent reported that on Friday through professional development a group of teachers from the Transformation Zone traveled to Atlanta to attend the annual conference at the Ron Clark Academy, and he shared the many positive emails from those teachers thanking the Board for the opportunity. Also, this training opportunity is going beyond the Transformation Zone with Keith Burton accompanying a group of administrators and teachers from outside the Transformation Zone to this academy. He added he believes many practices in this academy are things Caddo is incorporating in our schools that are showing great success. Dr. Goree also announced that the second and third bus tours are being planned to highlight the successful work with the RSD and in our schools.

Mrs. Bell noted the excitement she is hearing from teachers about the Ron Clark Academy, and she asked is it possible to bring the Ron Clark training to Caddo for more of Caddo’s 3,000 teachers? Dr. Goree said it is possible and he will look into that possibility.

Update on SunGard. Dr. Goree reported that the District is continuing to move forward with the implementation of the SunGard system and staff continues to move forward with the goal of payroll.

ANNOUNCEMENTS AND REQUESTS

Miss Green recognized Carla Moore’s announcement that she is retiring and she thanked Tammy Tales for the “Best Board Member of the Month” award.

Mr. Ramsey asked that an item be placed on the February agenda to authorize the CPSB Executive Committee and Board Attorney to negotiate contract extension with Caddo Parish Superintendent Dr. Lamar Goree.

Mr. Riall expressed appreciation to staff for efforts in the cleanup at Caddo Middle Career and Technology following the break-in. Ms. Trammel reiterated Mr. Riall's comments and appreciation for the staff's hard work in cleaning up CMCTC.

Mr. Riall also announced that committee assignments will be finalized prior to the first meeting in February.

Mrs. Brown asked that the Board go on record in support of Clay Walker and the Juvenile Division for their efforts to keep children off the street and for their program to help Caddo children.

President Riall also announced that the February 3, 2015 Executive Committee meeting is rescheduled for February 10th; and the April 7th Executive Committee meeting is rescheduled to Tuesday, April 14th.

EXECUTIVE SESSION

Level IV Grievance. *Mr. Ramsey moved, seconded by Mr. Rachal, to go into Executive Session for up to 30 minutes for the purpose of a Level IV grievance. Vote on the motion carried unanimously and the board went into executive session at approximately 6:35 following a brief recess. The Board reconvened in open session at approximately 7:19 p.m.*

Dr. Goree expressed appreciation for information presented in this hearing from all parties; and that based on the information, staff is still waiting on a ruling from BESE; and he would like to recommend that the board uphold staff's recommendation and add that when and if the ruling is received from BESE, staff will act quickly and in accordance with that ruling. He committed that staff will also be diligent about getting a ruling from BESE on this issue.

Mr. Ramsey moved, seconded by Mr. Rachal, to uphold administration's dispositions at Levels 1, 2 and 3 and maintain the class schedules unless the State Department advises Caddo that it should alter its schedules.

Mrs. Brown moved, seconded by Miss Green, to amend the motion to uphold the disposition of this grievance for a period of 90 days and continue to work with the State to get some type of resolution. Following clarification, Mrs. Brown withdrew her motion, and Miss Green withdrew her second.

Mrs. Bell shared her concern that there are not more students in these courses so we could have more teachers; however, even if there are only four students in a class, they need to be in that class by themselves. She shared her concern that it could be a liability issue if the instructor has too many students in one class and they are welding. She asked what will be done if the State Department rules we should not do this for safety reasons; because 741 states "unless safety hazards exist"? Because she believes it can be changed, she said she cannot support the motion.

Mr. Abrams explained that there are always risks in shop classes, so it is the Board that must determine if Shop will be offered or not, and if more teachers are hired in an effort to reduce the risks. In essence, the Board has a motion on the table that will allow BESE to come back with a ruling as to whether or not it is a problem. Dr. Goree added that one of the concerns is staffing and when looking at the Career Center, you are looking at students that are pulled from all across the district, and an attempt to make it work so as many students as possible are afforded as many opportunities as possible. Also, staff does not want to put students in any situation that is felt unsafe, and this was considered when a decision was made relative to the Master Schedule and two groups of students in one class. Mrs. Kirschvink shared her concern because she is always tech safety first; however, she believes the school and the program are excellent and she has no concern that the school would do anything to jeopardize the safety of the students. She asked about the possibility of providing a paraprofessional who might monitor along with the

instructor; and since we do not have the ruling from BESE at this time, she deferred to that, thus she liked the motion to postpone.

Mr. Rachal moved, seconded by Mr. Ramsey, to call for the questions. Vote on the motion to end debate carried unanimously.

Vote on the main motion carried with Board members Green and Bell opposed and Board members Riall, Brown, Poljak, Douzart, Trammel, Green, Locke, Rachal, Ramsey and Kirschvink supporting the motion.

Adjournment. *Mr. Rachal moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at 7:30 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

February 3, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, February 3, 2015 at 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana, with President Steve Riall presiding and the following Board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present was Legal Counsel Reginald Abrams. Mr. Riall led the prayer and Pledge of Allegiance.

Mrs. Bell asked everyone to continue to pray for the family of the student from Barret as well as the Barret family.

VISITORS

Jackie Lansdale, president of Red River United, 1726 Line Avenue, addressed the current situation with the implementation of Common Core and PARCC testing in Louisiana. She spoke on behalf of teachers and requested that the Board allow every teacher in the District to reopen their student learning targets and be able to place in their student learning targets that they should not be penalized for any student whose parents choose for them to opt out of the test. Anytime a teacher is held accountable, regardless of how, teachers want to make sure that how they are being measured is fair, it's understandable and has integrity; and she asked the Board to act on this today.

Brenda O'Brock, 248 Lakepoint Drive, addressed the Board on Common Core and the need to do something about this bad reform. She stated she will be praying for each one serving on the Board to start being good detectives and to get the boldness when seeing something that is bad for children and start doing something about it. She also told the Board that if it does not know by now that this is a bad reform, she doesn't believe it has done its homework or that it is a part of the government that brought this in. She asked the Board to not allow Louisiana to be the last state to get rid of Common Core and to allow students to opt out of this test.

Jon Glover, 8100 Pines Road, asked the Board why opting out is being requested without the leaders of the School System being present here who could give a definite reason why they are asking for this? Understanding that if our students are allowed to opt out it will impact the SPS scores, she said it is important to understand the true purpose of opting out.

Kylie Richardson, 295 Pecan Drive, addressed the Board on behalf of her children who continue to tell her they are not ready for testing. She encouraged the Board to read the information being given to the children and required of them to read and hopefully see what will happen in a generation of our children. She doesn't believe this information is developmentally appropriate and we should be ashamed of what we are doing to the children. Mrs. Richardson asked the Board if they know what will happen to these children when their parents opt them out of taking this test and they receive a zero? When voting today, she encouraged the Board to consider the children.

APPROVAL OF RESOLUTION REQUESTING A SPECIAL CALLED MEETING OF THE BOARD OF ELEMENTARY AND SECONDARY EDUCATION REGARDING THE EFFECTS OF STUDENTS OPTING OUT OF PARCC TESTING

Leisa Edwards, on behalf of the Superintendent, presented the item for the Board's consideration at today's meeting.

Mr. Ramsey moved, seconded by Mrs. Bell, to approve resolution requesting a special call meeting of the Board of Elementary and Secondary Education regarding the effects of students opting out of PARCC testing as follows:

**RESOLUTION REQUESTING A SPECIAL CALL MEETING OF BESE REGARDING
THE EFFECTS OF STUDENTS OPTING OUT OF PARCC TESTING**

Whereas, the Caddo Parish School Board Members submitted the attached resolution dated December 16, 2014 requesting that BESE declare a moratorium on Louisiana students participating in PARCC testing for the reasons stated in said resolution;

Whereas, the Caddo Parish School Board has been advised that there is a movement by parents throughout the State opting their students out of participating in the PARCC testing this year;

Whereas, the Caddo Parish School Board has been advised that the State Department of Education has condoned the practice of parents opting their students out of participating in PARCC testing but has advised that the School Districts will be held accountable for every student not taking the PARCC test by assigning a zero (0) for every student that does not take the test;

Whereas, allowing students to not take the test with no consequences but assessing a zero (0) grade for each student that does not take the test will have dire consequences on the school and district performance scores;

Whereas, the Caddo Parish School Board members hereby request that BESE call a special call meeting to either (1) call for a moratorium on all school districts participating in PARCC testing or (2) advise districts that any parents who receive a waiver from the State Department or a school district allowing their child to not participate in PARCC testing also be exempt from including that child in the calculation of the school and/or district's performance score as well as teacher evaluations;

Be it Resolved that the members of the Caddo Parish School Board do hereby request that BESE hold a special meeting and (1) approve a moratorium on all school districts participating in PARCC testing; or (2) advise districts that any parents who receive a waiver from the State Department or a school district allowing their child to not participate in PARCC testing also be exempt from including that child in the calculation of the school and/or district's performance score as well as teacher evaluations.

Be it further resolved that this resolution be spread upon the official minutes of the Board, with copies being sent to Governor Bobby Jindal, State Superintendent of Education John White, members of the Louisiana Board of Elementary and Secondary Education, all members of the Louisiana Legislature, the President and Superintendent of every Louisiana School Board, the executive director of the Louisiana School Board Association, and all public education stakeholders organizations/associations.

Mr. Ramsey said he hopes to see an overwhelming support of this resolution, and he encouraged parents, grandparents, et.al. to engage in a letter-writing campaign to their legislators and senators. Because the state is who embarked on this education reform several years ago, he believes we should look to them to help get us out of where we are, because one of the things they did in the process was to negate a lot of the local district's power. Mr. Ramsey stated the Board realizes the impact this is having on teachers and students, which is unforgivable; and he encouraged everyone to support the resolution.

Mrs. Bell echoed Mr. Ramsey's comments and shared a personal example of why she believes everyone, all of Louisiana, should support this resolution.

Mr. Rachal noted in the resolution the statement that the State Department of Education is condoning parents opting their students out of participating in PARCC testing; and he questions why everyone is being punished if the State Department is telling everyone this is bad enough to opt out their children. He stated that last month the Board took action to tell them to back off and they still have not gotten the message, and he encouraged everyone across the state to get on board with this resolution and get BESE to stop and think the bad that this is doing to our children.

Ms. Trammel also shared a personal experience with her grandchildren and the Common Core standards and her concern the stress and burden it is placing on children especially if there is no one at home that can help them with assignments. She encouraged everyone to support this resolution and realize the impact this will have on our schools' scores.

Mr. Ramsey also reported that he did hear from the superintendent and Dr. Goree and his staff support this resolution. He also noted that four BESE members encouraged the Board to rise to leadership in this and to hopefully encourage the support of the remaining BESE members in this matter.

Mrs. Douzart concurred with Board members' comments and her concern that the state brought PARCC testing yet they are now telling parents to opt out of the testing. Her concern is the children and the stress and anxiety this is creating for them. She encouraged everyone to be on one accord and collaborate in this matter.

Mr. Green stated his concern about the analogy of what this program is about, because it is apparent they have forgotten the 5 Ps and he supports this resolution.

Mrs. Brown stated that common sense is not a common thing, and the people were very careful in choosing the members of the Board, and she encouraged them to be as diligent when it is time to choose Legislators. Also she encouraged everyone when they got home to look up the word *asinine*.

Mr. Riall announced that he received a letter from the Board of Elementary and Secondary Education announcing their receipt of the resolution approved by the CPSB at its December 16, 2014 meeting. Mr. Riall encouraged everyone to contact the BESE members about how they feel.

Vote on the motion carried unanimously.

Adjournment. *Miss Green moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 2:32 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

February 10, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, February 10, 2015 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Barry Rachal, Kacee Kirschvink and Dottie Bell. Mr. Riall announced that Mrs. Locke and Mr. Ramsey are absent due to illness. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Miss Green led the prayer and Pledge of Allegiance.

PRESENTATIONS

Districtwide Accreditation. Chief Academic Officer Keith Burton shared that for many years the local school system has been involved in school-level accreditation (all high schools) and that staff is asking the Board to continue but shift to a district-level accreditation process. He explained the same accreditation service (AdvancED) that provided the school-level accreditation will be used. Being the world's largest education community, he reported that AdvancED currently serves over 27,000 public and private schools, not only in the United States, but also in approximately 69 countries around the world, impacting more than 15 million students through its accreditation system. The accreditation at one time was through SACS (Southern Association of Colleges and Schools); and they merged with AdvancED in 2006; with only high schools accredited at this time, even though some middle and elementary schools have participated in the past. He said the problem is the planning, hosting and filing of required paperwork that falls on the school-level, as well as the inconsistent timing on when schools were accredited, and is why staff is proposing we pursue District-level accreditation for all Caddo schools (elementary, middle and high schools), with the planning, preparing and filing of reports being the District's responsibility. The three main cornerstones to accreditation include standards, continuous improvement, and quality assurance (internal and external reviews); and he highlighted the five standards of (1) Vision and Purpose, (2) Governance and Leadership, (3) Teaching and Assessing for Learning, (4) Resources and School Support Systems, and (5) Using Results for continued improvement. Mr. Burton explained that if approved, sub-committees will be developed of District personnel to begin a process of evaluating each school in these five areas. He also explained that the internal and external reviews of the process will be conducted by District-level employees and will give the District an opportunity to hear from community stakeholders (parents, community members) to provide analysis of surveys and that this process will continue over a five-year period. Mr. Burton explained that the external review will be the last portion of the accreditation process, and approximately 20 educational professionals will come to Caddo to evaluate the data/artifacts based on the five standards provided. Mr. Burton highlighted the timeline for the process from sending a letter in January to notify AdvancED of our interest, costs involved, advantages, with a final report being made to the Board in the fall. If the Board approves the proposal presented, staff will assemble a district team and complete a self-assessment of readiness, to see if Caddo has reached the Benchmark level to begin the accreditation process. Also, a team will come to the District in March to determine if the District is ready to proceed; and from August 2015 to May 2016 the internal view process will take place. The culminating activity in the fall of 2016 will be 20 participants from outside of Caddo Parish staying in the District 3.5 days and they will make the accreditation determination on the last day of the visit.

The cost of accreditation at this time is \$725 and each school is responsible for the fee as well as external review expense of approximately \$3,000 per school every five years. Mr. Burton explained if the District goes to a district wide accreditation, the annual fee will be \$650 per accredited school; so there will be an increase in the District cost because we are recommending adding all Caddo schools and not just the high schools. He added this cost would be handled by

the District and not placed on the schools. Also, the external expense will double, but only one time, because instead of every school paying \$3,000 every five years, the District will only pay \$6,000 once. Mr. Burton highlighted advantages to going to a District-level accreditation, i.e. National protocol, increased ability to improve student achievement, increase organizational effectiveness by receiving feedback from an outside group, insure all departments are working together in harmony, and increase the marketability of the District. Mr. Burton shared a list of districts in Louisiana that have completed this accreditation process.

Mrs. Bell asked if she understands correctly that this will include all Caddo schools and if all schools will be selected or only a certain number of the schools. Mr. Burton explained that they will select 20% of the schools to visit during a 3.5 day external review process, so all schools will be prepared but only 20% will be randomly selected. Mr. Burton further explained that when the visit is made in March, they will do an analysis to determine if the District is ready to begin the process. Mrs. Bell asked if they say Caddo is ready to begin this process, will they pick how many schools, and Mr. Burton responded that during the external review they will randomly select 20% of Caddo's schools. Upon completion of the external review and they look at the documentation staff collected during the year of internal review, they will make a decision if the entire District is accredited. Mrs. Bell asked who will comprise the Caddo Team, and Mr. Burton responded it will be District level staff. She also asked if a team of outside community members will be included, and Mr. Burton said yes with the superintendent taking the lead on community representatives as well as principal involvement because many times they provide names of parents to be involved in the process. Mrs. Bell asked if principals, supervisors will be included; and Mr. Burton explained that the initial District team will be comprised of District-level staff and teams will not begin school-based reviews until August with the District team leading them through the preparation of data and analysis so they are prepared in the event their school is selected. Mrs. Bell asked about the length of the process and Mr. Burton stated the District will know in the fall of 2016 (December) if Caddo is accredited.

Mrs. Bell added that when Huntington went through the process last year, she as a Board member, as well as other community representatives, were brought in to determine if the school was supported by the community. She reminded everyone that the Board continually hears people say we need to fix the Caddo Parish School System; and when people are looking to move to Shreveport, she believes that this accreditation will help sell this area if all the schools are accredited.

Mr. Rachal asked for clarification of what they do on a yearly basis, what does AdvancED provide for us? Mr. Burton explained they are the external reviewer and they set the bar for accreditation; they are the third party that accredits not only elementary schools, but also colleges. Mr. Rachal asked about the benefits to the District once the District receives accreditation status? Mr. Burton responded we cannot accredit ourselves and through the process, much of what is done will be affirming the process we have in place as well as giving the District feedback on how we can better do the jobs, and it is good to have the feedback from an outside group not only on standards but systems, data collection and analysis as well. Dr. Goree added that when looking at the accreditation process even for colleges and universities, it is about an outside entity validating what you are actually doing. He also stated he believes the accreditation status will impact parents as they make decisions on where to educate their children, because the standard will be validated that our schools are meeting the mark. Mr. Rachal stated his understanding; however, he sees the District working with the University of Virginia, the RSD, et.al, and this is adding yet another entity to evaluate us. Mr. Burton reminded Mr. Rachal that Caddo is already using them, but on a school-by-school basis and staff is now asking that the weight of the accreditation process be placed on the District and not the individual schools. Dr. Goree clarified that this would be for all schools, because the contract with the University of Virginia, as well as the RSD, only targets the ten schools in the Transformation Zone. Mr. Rachal asked if it is possible to approach the RSD about the

possibility of using AdvancED to meet what is required of the District; and Dr. Goree responded that the works being described are different because the accreditation agencies will come in and evaluate what the District is doing effectively and what needs to be improved upon whereas the Virginia project with the Transformation Zone schools provides support, strategies and professional development models (they tell you what is wrong and help you fix it). The accreditation process tells us what we are doing well or not and the District chooses to address on its own. Mr. Rachal noted that the superintendent has done an excellent job of eliminating unnecessary programs; and while he knows that SACS works well and it is good to have all Caddo schools working in the same direction, he is only against numerous consultants possibly leading the District in different directions. He asked staff to explain the impact this will have on the budget, and staff responded that the annual cost will be approximately \$60,000, which is an increase from \$8,000 to \$60,000. Mr. Rachal stated he believes in a district with 42,000 students and approximately 3,200 teachers that this is a reasonable investment in which Caddo will get a good return.

Mr. Rachal asked staff to explain what AdvancED is looking for when they conduct the evaluation? Mr. Burton stated that while it is one thing to produce a product, it is also important to see the action behind the product, i.e. the five standards by which the District must document implementation within our schools. Mr. Burton further explained that staff will produce the artifacts and then the data behind our implementation of not only the vision, but leadership, teaching and assessing practices, how we are spending our money and allocating our resources (tangible or human), and how we are constantly reflecting to improve. Mr. Rachal asked if there will be a need to increase staffing internally for this, and Mr. Burton responded absolutely not.

Mrs. Poljak asked if every school that applies becomes a candidate, and Mr. Burton clarified it is not the schools that apply, but it is the District which will encompass all schools. Mrs. Poljak asked is it possible that the District could be told no, and Mr. Burton responded no. Mrs. Poljak also asked how the accreditation increases our learning capacity, and Mr. Burton responded through the reflection of the District's practices, not only at the District level, but also at the school level. In the last year the District has seen results on the practice of Response to Intervention; and if we are able to provide the same analysis on all our practices throughout the District, at every school, he believes we will see added capacity.

Mrs. Kirschvink stated she understands what it means to the City when entities such as the Fire Department and the Trauma Center hold top ratings; but she asked if she understands correctly that if 20% of our schools pass, all schools are accredited? Mr. Burton said that is correct and is why the one year of internal review is so powerful. Mrs. Kirschvink also stated that she does not wish this to become more stress for teachers, but as she understands it, this is something the District will do and not the teachers. She also asked, if teachers are found to be good in their individual classroom through this process, will this help them in their evaluations and/or their school performance. Mr. Burton responded that staff is very aware of the stress teachers are under, especially in the past year; so decisions made will be considered very heavily to make sure there is no additional burden on teachers. He also reiterated that most of the work will be done at the district level and the leadership level at the individual schools. Mrs. Kirschvink asked if we actually have high schools to compare this, and Mr. Burton reiterated staff does have a list of accredited high schools and many of the high schools have been doing this for years. The newness will be those schools that have never gone through the accreditation process, thus the experienced schools and staffs that have gone through this process will assist them.

Ms. Trammel asked which schools have already been accredited through this program, and Mr. Burton responded all the high schools have been accredited through AdvancED. She asked why the decision to go with the District level accreditation, and Mr. Burton responded mainly to be able to take a comprehensive review of school and district reform and improvement reflection

rather than it being left up to an individual school. He also added that the work being done in the Transformation Zone, as well as in non-Transformation Zone schools, will help lead the process.

Mrs. Brown stated that as a recipient of various honors and grants over the years as an employee in the system, oftentimes these applications asked if a district was accredited; and she believes having this accreditation status will be a plus for Caddo.

Mr. Riall asked how the State (BESE/State Department of Education) views this. Mr. Burton explained that while it does not mean more e-funds, it is the norm and the highest honor a district can receive.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE FEBRUARY 17, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its meeting on February 17, 2015 and the following discussion ensued.

Purchasing bids. Mr. Riall asked where the kitchen equipment will be placed. Lisa Lloyd explained the equipment includes a steamer with a stand, a large kettle and a convection oven with a stacking kit for Atkins, J.S. Clark, and Oak Park. Mr. Riall requested that in the future the item and schools be spelled out in the information.

Approval of Request for Long-term Use of Newton Smith by Southern University. Miss Green asked Dr. Goree if this is what the School Board wants. Dr. Goree responded staff sees this as an opportunity to utilize school district facilities that are currently vacant and generate revenue, as well as an opportunity to secure additional seats for opportunities for our students in programs Southern is proposing for this facility. Miss Green asked about the \$1,400 a month and Dr. Goree explained that this dollar amount was figured based on square footage we are currently renting other facilities in the district. Miss Green said she would like to see this \$1,400 times 2.5. Mr. Woolfolk further explained the request was made for 10,000 square feet of the facility's 33,000 square feet (1/3 of the actual square footage), and staff went to the building's appraised value of \$1 million, took 30% of that (\$300,000), and then figured at the going interest rate, amortized for 30 years, and the monthly payments came to \$1,400 (principal and interest). Miss Green asked which wing will they use, and Mr. Woolfolk responded that has not been determined. Miss Green asked if the cafetorium is included in the \$1,400, and Dr. Goree responded that is not one of the areas included. Miss Green indicated her community has asked to use the cafetorium for certain functions and she would not want an entity to lease it and them not have the opportunity as well. Miss Green asked if a three-year lease is average for our facilities. Mr. Woolfolk responded it varies; however, the lease at M.J. Moore is for three years. Miss Green stated it is a concern to her that the highway is coming through her neighborhood, and as the representative for that district, she cannot determine what the population will be for the MLK community so she would hate to sign a three-year lease and her district grow by leaps and bounds and there becomes a need for the school. She asked if there is any way we can negotiate with Southern University regarding a year to year or a two-year lease. Mr. Woolfolk said his proposal was for a three-year lease, but it also includes the option to extend or to be able to renegotiate as conditions change with a 30-day notice from either party. Miss Green again asked if the three-year lease can be changed to a two-year or a year-to-year lease. Dr. Goree responded that by putting the clause in the lease, he believes this addressed concerns that might come about; but the fact is it is a school that is empty/closed, and we are not currently using it. Until the highway comes through or until we see the growth in the population, this is a wonderful opportunity for our students to be in more career and GED type educational opportunities; and it also gives us the opportunity to generate revenue on an empty building. Miss Green asked the staff to look at the changes she has suggested and asked when she can expect to hear from staff on this. Dr. Goree said it is difficult to put a timeline on this when staff has worked so hard to

make the contract something that will protect the interest of the district and more importantly provide additional opportunities for the students. He further stated he believes the current contract meets the needs outlined by Miss Green in the event the District did need to use this facility. He also asked Miss Green to remember there is a second empty school building in District 2 that we are allocating some funds for renovations. Miss Green added her concern now is Newton Smith. She again asked the Superintendent to take a look at the things she has mentioned and if they would like to use the cafetorium, she believes they need to lease this space as well. Dr. Goree stated staff will review Miss Green's request and report back to her.

Mrs. Bell stated she is looking at the children and the fact that SUSLA received this grant from 71 programs across the United States, and it is a program for providing academic and occupational skills training for at-risk youth ages 16-24. She said she has been fighting for these students since serving on the CPSB, and she doesn't see where we can do more at this time than put this program at Newton Smith and provide this outstanding program for the students in Caddo Parish. She asked if at-risk, struggling students will have the opportunity to attend this program. Dr. Goree responded that in negotiations, it was made clear that we expected our students to have a certain number of seats to take advantage of these services for Caddo's students. Mrs. Bell asked if transportation can be provided for these students, and Dr. Goree said that is something the district will provide upon learning of a student's need.

Mr. Rachal agreed with Miss Green on the lease amount because he believes \$1.68 a square foot is extremely low for a 10,000 square foot building. He suggested the possibility of a real estate broker looking at this and providing some comparisons on the real market value. He added the benefit is we will work with Southern University and they will work with our children, and more specifically our at-risk students. Not knowing what the grants are, Mr. Rachal stated that \$1.68 a square foot is low. Dr. Goree said staff will look at the cost, but asked the Board to remember this is a governmental agency dealing with another governmental agency that will provide us a service, and they will likely tell us the value of the seats for Caddo. Mr. Rachal stated he would rather be pro-active on the front side rather than get caught on the back side. Mr. Rachal also asked for a copy of the lease, and any other costs to them for the use of the facility and its upkeep. Mr. Woolfolk explained that all the details are in the lease and the attorney is working on this with the utilities being prorated.

Mr. Abrams stated that from the information provided, it appears this could be a lease/cooperative endeavor agreement between the two agencies since they are providing a service we want as pointed out by the superintendent.

Mrs. Kirschvink asked if this is an all-day program, after school. Mrs. Snead with Southern University shared with the Board that when it comes to at-risk youth and meeting the education work-force needs, this is something near and dear to her heart. As Vice Chancellor for Community and Work Force Development, she reported they oversee adult education programs, short-term training programs and it has been a goal of the community to bring Youth Build to this area for over a decade. She said not only is it a treasure to have this program, but if you do a good job, the funding can be available year after year and is why SUSLA partnered with the City of Shreveport, the Caddo Parish School Board and other entities in the community to put together a strong proposal that would meet individuals where they are to get them skilled training and to get their GED, technical experience actually in the MLK community. Mrs. Snead stated that she does not look at this opportunity as a dollar for dollar match because Caddo will be providing its students what the Governor is asking of communities – work force training. She reported that the program will begin with residential carpentry and it will be an all-day program that provides educational training in the a.m. and technical training in the afternoon. Also, she reported they serve approximately 100 students in the adult education program and their only limitation is space. Mrs. Kirschvink said she has been to the school's adult education graduation and she believes it to be an awesome opportunity and asked how many students does Southern

believe they can help through this program. Mrs. Snead explained that this particular grant was written to serve 60 students over two years (30 students per year) with the third year being a time to wind down the program and provide placement. However, their goal is to begin in year one to expand the program because they do not look at this as a one-time program, but a comprehensive, technical school that can meet the needs of the community with Caddo's at-risk students through a work force training center to addressing training needs and process technology, manufacturing, residential carpentry, welding. At this time, she explained they have done allied health, aerospace technology, and based on the input from the community-at-large, they desire for more and that is what SUSLA is working to do through the development of a work force training center to meet the work force needs and continue to grow.

Mr. Riall asked if the lease has been presented to SUSLA, and Mr. Woolfolk said it has not and will not be presented until after the Board approves moving forward.

Miss Green stated she really likes what SUSLA is providing and that it is coming to Newton Smith, but asked the Superintendent if Vo-Tech or someone else decides to come forth with the same program, will we give them the same opportunity to lease the remaining space at Newton Smith? Dr. Goree responded that while he can't answer her question specifically, it is something staff would consider specific needs because the District is still utilizing a portion of the Newton Smith facility. He also added he believes this is a unique situation with Southern because there is only a fence separating the two facilities. Miss Green also requested that the name not be changed on the school, and that it remain Newton Smith. Dr. Goree added there has been no discussion relative to changing the name of the school. Miss Green stated that she looks forward to working with Southern University in the future.

Ms. Trammel asked if she remembers correctly that at one time the District leased a facility(ies) for \$1. Dr. Goree said that is correct. Ms. Trammel further stated that she does not believe the major issue should be about money if we are helping our students get vocational experience, and they are able to work and become good citizens. Dr. Goree said he will be the first to say we must be fiscally responsible; but at this time, the District has been blessed to provide a much-needed service that is priceless and that is an education. He further added that this is an opportunity to expand and provide services to under-served students in Caddo. The Superintendent added that staff will definitely consider everything the Board has brought tonight and will bring to the Board what is believed to be a win-win situation for kids.

Mrs. Brown shared that Caddo and Margaret Brown unsuccessfully applied for a Youth Build project and she believes it important to collaborate with SUSLA and make this happen for these at-risk students.

Mr. Green stated this is a win-win situation, and encouraged the Board to move forward.

Mr. Riall asked what happens to a vacant building over time. Mr. Woolfolk responded that vacant buildings deteriorate; and even if you receive nothing for it, having it occupied is better than it being empty.

Recommendations for 2015-16 Capital Projects and Designers. Mrs. Bell shared her excitement to see the renovation at Linear and asked if this means Linear will return to Caddo? Dr. Goree stated that negotiations are complete and Linear has been returned to Caddo Parish Public Schools. He noted that there are some major concerns with vandalism in that community and staff looks to work with the community to address this; but as part of the MOU, staff has made a commitment that it will open as a school in the 2016-17 school year. Mrs. Bell asked the superintendent about a concern over the situation at Northside (T Building that burned), and how we are handling these situations. She announced she will call a meeting of the Insurance and Finance Committee to discuss this issue.

Mrs. Kirschvink asked about the amount of \$35,000 for the BTW Rekey Phase II. Greg Spurlock explained that Caddo has what is known as the best system because it affords us the ability to make sure all keying needs at a school can happen. Mrs. Kirschvink asked if this is something that must be contracted out or does Caddo have staff that can do some of the work to keep the cost down? Mr. Woolfolk stated that the repairs of keying are done internally; however when it is a major keying of the entire school or of the wiring, it is put on bid. Dr. Goree added it is safety and security and the reliability of function; and while it is expensive, it is the best and it has been reliable. Mr. Woolfolk also explained that these are estimates and when it is bid, the actual cost will come to the Board for approval.

Mrs. Poljak asked about the monies on this list for the Byrd HVAC project and does it impact what is planned in the bond initiative? Dr. Goree explained when the bond was designed, staff knew it did not want to increase taxes, so there was no way the entire HVAC at Byrd could be done, so some of the funds to complete this \$8 million project will come from Capital Projects.

Ms. Trammel asked if, in Phase III of the reroofing of Woodlawn, staff has rid the school of the bats. Mr. Woolfolk responded staff hopes this will be accomplished in the reroof; however, staff is aware that bats can enter buildings through the smallest openings, and at this time staff has not received calls in recent weeks about bats.

Contract Renewal for Third Party Reviewer. Dottie Bell asked if we have recommendations for charter schools. Dr. Robinson reported that as of today staff has received three letters of intent and she will meet on Wednesday about a fourth charter. Mrs. Bell asked about the report on the Magnolia Charter School, and staff responded they will forward a copy to Mrs. Bell. Dr. Goree also announced that Pathways will report to the Board at the March work session.

Mr. Rachal noted his remembrance of going through this last year and that we are mandated by the State to hire a third party to review these. He added he believes the charges for this service seem to be reasonable considering something that the State requires of the District.

Extension of Superintendent's Contract. Mr. Abrams shared with the Board a copy of the proposed extension to the Superintendent's contract and that during the last meeting Mr. Ramsey requested that members of the Executive Committee and legal counsel work with the superintendent on an extension of his contract. Mr. Abrams reported that he met with the Superintendent and with Executive Committee members individually to discuss those items presented for the Board's consideration. He stated that the Superintendent agrees to extend his contract with a current expiration date of November 13, 2016 until December 15, 2018; and he reminded the Board that it cannot go any further than four years and the Superintendent agrees to extend as far as the Board can do so in order to provide stability to the District. Mr. Abrams also said this helps in taking care of issues surrounding the bond issue as well as showing that the Board, as well as the Superintendent, is committed to Caddo Parish. Secondly, Mr. Abrams reported that as compensation for the Superintendent's early agreement to extend his contract, the Board will pay the Superintendent \$10,000 before May 15, 2015, and that the Superintendent has agreed if he voluntarily leaves before the end of his term, he must return to the Board pro rata the sum remaining in the contract which he believes solidifies Dr. Goree's commitment to the School District. During the retreat, Mr. Abrams reported that the experts announced Dr. Goree meets all the criteria for an up and coming superintendent; and that once he serves in the capacity of superintendent, he becomes extremely marketable and could probably set his salary and go anywhere in the nation. He believes this incentive to sign early guarantees the Superintendent will be around for a long time; and it also helps the bond and the longevity of the Caddo Plan, the agreement with the RSD to keep a competent superintendent on board as well as keep the schools in the Transformation Zone in the Caddo District. Mr. Abrams also reported that the Superintendent's compensation will increase from \$200,000 to \$225,000 beginning on

March 1st and shared a list of comparable salaries of superintendents in similar size districts. He also noted there is no escalation clause in the contract which means he will not get raises when other employees in the district receive a raise. Mr. Abrams explained that the area in the Superintendent's contract relative to evaluations being done in accordance with receipt of State Accountability Reports needs to be modified; and it is recommended that since we do not know when the District will receive this report, and the contract states the Superintendent's evaluation will come after receipt, it is recommended that this be modified to an annual evaluation in November; and if the State does not provide a report or if the testing instrument does not fairly assess the student progress, then the Board and Superintendent can come up with another way to assess the effectiveness of the Superintendent. He also addressed rumors that the Superintendent had not yet been evaluated since coming to Caddo, and he explained that the Superintendent's contract indicates his first evaluation would come after receipt of the 2014-15 school year since he came to the District mid-year of the 2013-14 school year.

After discussion of proposed items for consideration, President Riall proposed Items 8.01, 8.03-8.10 and 13.02 as the consent agenda. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the February 17, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, stated her support of the idea to hold committee meetings on days the Board meets; however, she is concerned that they are unaware of called special meetings if they are not notified. She asked the superintendent if it might be possible for them to be notified anytime there is a change or a special Board meeting is called.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:04 p.m.*

February 17, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, February 17, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey was absent. Miss Green led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JANUARY 20, 2015, FEBRUARY 3, 2015 AND FEBRUARY 10, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the January 20, 2015, February 3, 2015 and February 10, 2015 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Pine Grove Elementary School Musical Group. The Pine Grove Principal Performers, 4th through 6th graders from Pine Grove Elementary School, shared with the board and audience two instrumental selections reflective of Mardi Gras and Black History Month. The students were directed by Linda Henderson, principal of Pine Grove Elementary.

DECA Chapter at Caddo Career & Technology Center. The DECA Chapter at Caddo Career & Technology Center was recognized as the recipient of an award from the National DECA Organization for bringing their chapter to the "Thrive" level. Alexandra Garcia, president of the CCTC DECA Club, shared DECA Chapter projects and activities that contributed to them receiving this National award.

2016 Caddo Teachers of the Year. The following teachers were recognized as finalists in the 2016 Teacher of the Year program: Elementary Finalists are Rebecca Kliebert, Fairfield; Chermonica Dennis, Turner; and Amanda Ambrose, Walnut Hill. Middle School Finalists are Heather Fulco, Caddo Middle Magnet; Tara Burch, Donnie Bickham; and Dr. Mark Schlatter, Ridgewood. High School Finalists are Debrah Guillot, C. E. Byrd; Leslye Gilchrist, Caddo Magnet; and Julia Adkins, North Caddo Magnet.

District winners are Shannella Gaines, Claiborne, Elementary Teacher of the Year; Shannon Smith, Walnut Hill, Middle School Teacher of the Year; and Nicole Vasquez, Captain Shreve, High School Teacher of the Year.

2016 Caddo Principals of the Year. The following were recognized as 2016 Caddo Public School Principals of the Year: Ellen Hall, Claiborne Fundamental Elementary Magnet, Elementary Principal of the Year; Tellauance Graham, Caddo Middle Career & Technology Center, Middle School Principal of the Year; and Dr. Marby Barker, North Caddo Magnet, High School Principal of the Year.

VISITORS

Glen Davenport addressed the Board on matters of concern that 17 days has been set aside as Black History month, and asked what does this mean since there have been many positions that say why and he too asks why set aside a month to acknowledge him when he lives 365 days a year as a Black individual. While he is blessed to hear the stories of old, he said he questions how the information that depicts he and others like him has been distorted, and thus many have not been afforded the resources and opportunities that would help all be equal in actions and practices. He said he works for the organization with attitudes of superior and inferior behaviors, barriers prohibiting those like him from succeeding, and children who have not gained ground educationally.

Jon Glover noted history of commitments since 2010 by State Superintendent John White and she questioned if these commitments were heard why they have not been implemented. Ms. Glover shared that she questioned action at the February 10th CPSB meeting when agenda Item 8.07 was placed on consent. She asked if the Board vetted all the information given it in making this decision. Since each Board member was selected to be stewards of the school system and each took on the responsibility to make certain every effort is expended to offset the continued demise of the schools system, and asked if that is what the Board is doing. She noted Louisiana is ranked 48 in the nation in poverty and 45th in education, and that poverty will continue if we don't educate. She stated that 15-20 years of plans have been brought to the school board, and the result seen has been schools turned into charters, schools closed, schools merged, 22 schools declared academically unacceptable, and 8 out of 12 districts not meeting the needs of the children collectively. She stated that as a stakeholder, a constituent and a taxpayer, she wants to know that every effort is being expended to insure that every child in Caddo Parish has equal access to the resources and tools that bring forth academic success.

Simone Hennessee, Providence House, shared that the single aim for Providence House is to break the cycle of homelessness for families with children, gaining the resources necessary to move permanently to independent living. Ms. Hennessee reported that last year Providence House served 157 families, a total of 535 homeless people (165 adults and 370 children), and since 1992, they have served approximately 9,500 homeless children, most of whom attended Caddo Parish public schools. She stated that knowing that the children they serve will grow up to be just like their parents for good or for ill based on their environment, so they work with a sense of urgency to change what they know and hold up something different for them to practice and learn daily. With education being the key for changing a life for good, Ms. Hennessee stated that adults must be able to make a living wage and children must be on track to do the same, and shared that their only licensed child development center in the State has as its goal to prepare children to learn and attend school on grade level when they leave Providence House. Their success rate for families that graduate is 92%. Ms. Hennessee challenged Caddo Parish Schools to challenge the young people in the schools to get involved in their Sleepout 4 Independence and help break the cycle of homelessness for families with children and raise enough money to do more in educating and training the next generation of leaders.

Carmen Nelson, parent, requested that the School Board consider a proposal for a K5 full day Gifted and Talented Program for children currently in the K4 Gateway Program. She shared a petition from parents at A.C. Steere and Shreve Island asking for implementation of this program in the 2015-16 school year to help the gifted children better acclimate into the school program the following year. Ms. Nelson shared personal experience with her child in the Gateway Program at A.C. Steere; and that she believes with the number of students in the K4 program at A.C. Steere and Shreve Island, there are enough students for a full class. She also shared why she believes these children would benefit from one more year of a full-day program before being mainstreamed into the regular class and a one-half day Gifted and Talented Program. She asked that the Gateway Program at A.C. Steere and Shreve Island be combined into one K5 classroom for the 2015-16 school year.

Jackie Lansdale, president of Red River United, stated that when President Lyndon Johnson signed the Elementary and Secondary Education Act into law in 1965 it was to insure equity and quality public education for all children, believing that these were key to the war on poverty. With the law changing over the past 50 years, one of the biggest changes came under President George W. Bush with No Child Left Behind and Race to the Top under Barak Obama and the obsession with High Stakes Testing. Noting that Congress has promised to take up this legislation again, she announced she has been invited to be a part of a delegation to visit with National Legislators. She said she believes no one can disagree that poverty is still a huge factor in education when one looks at the correlation between Louisiana's poverty ranking and education attainment ranking. Mrs. Lansdale also noted that current Legislation holding schools solely accountable for the ills of society is counterproductive and hyper focusing on a single measure of accountability, High Stakes Testing, makes it divisive, expensive and punitive, and it has not worked. She stated the need for the law to change to where it is different and broader, embraces communities surrounding the schools, provides for wraparound services needed, addresses preK education in all schools with extended day and year, addresses students not reading at grade level by developing individual plans, and establishing realistic accountability using multiple measures that are understandable to the teacher, the student and to the parent. Regarding the Superintendent's contract, Mrs. Lansdale stated while she understands the Board's position in the extension (and she has no objection), she asked the Board for the same consideration to the other employees by moving to create an alternate assessment for all affected employees.

Marvin Alexander, principal at Green Oaks, addressed the lack of support for principals of the 7-12 configured schools, and the parents' concerns for their children's safety on a campus of 7th graders through 12 graders. Mr. Alexander referenced the implementation of the Rahmberg & Associates Salary Schedule, a schedule which seemed to be confusing and unfair to those who strived daily to maintain a campus that met the demands of the district and provide the children in Caddo a multiple path to success. He also referenced the lack of support for meeting the demands to continue to advance and addressed the issue of double responsibilities principals of 7-12 school configurations are held accountable for providing and meeting all the needs for middle school students and high school students. He said the principals of the 7-12 configuration schools are asking the Board to re-evaluate their salaries since in actuality they are in charge of and responsible for two schools.

Suzanne Phillips, parent of a sixth grader at Caddo Middle Magnet, addressed the Board on the addendum to the Pupil Progression Plan and asked if her understanding is correct that the addendum prevents parents from opting out of the test, because she wants to make sure parents have the choice to opt out their student(s) if they so wish. She said she believes parents should have this option to opt their child out of the high stakes testing without the consequence of not being passed to the next grade if they choose that their children not take the test.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

President Riall announced that items 7.01-7.02, 8.01, 8.03, 8.05-8.11 and 13.02 as the consent agenda.

Ms. Trammel moved, seconded by Mr. Rachal to establish the agenda and proposed consent agenda for the February 17, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell, to confirm the Consent Agenda (7.01-7.02, 8.01, 8.03, 8.05-8.11 and 13.02). Vote on the motion carried unanimously. The following is a summary of the Board's action on consent agenda items.

Item No. 7

7.01 Bids (Purchasing). The Board approved multiple vendors for large kitchen equipment (Atkins, J. S. Clark, and Oak Park) as recommended by staff and submitted in the mailout on the bid tabulation sheets. The bid tabulation sheets are filed in the official papers of the CPSB February 17, 2015 meeting.

7.02 Bids (Capital Projects). The Board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Carter Construction Co., Inc., with a Base Bid for the sum total of \$104,600, for Project 2015-200F, "Caddo Magnet High Aluminum Ramp". The bid tabulation sheets are filed in the official papers of the CPSB February 17, 2015 meeting.

Item No. 8

8.01 Property/Bus Rental Requests. The board approved the requests for use of Caddo Parish School property (University Elementary and North Caddo Baseball Field) in accordance with CPSB Policy KG as recommended by staff and submitted in the mailout.

8.03 Out of State Travel. The Board approved a request for out-of-of state travel as recommended by staff and submitted in the mailout.

8.05 Approval of Designers for Previously Approved Projects. The Board approved the additional 2015-16 Capital Projects and designers as recommended by staff and submitted in the mailout.

8.06 Contract Renewal/Third Party Charter Reviewer. The Board approved the renewal of the contract with New Millennium Education, LLC as the Third Party Charter Reviewer as recommended by staff and submitted in the mailout.

8.07 Extension of Superintendent's Contract. The Board approved extension of Superintendent T. Lamar Goree's contract based on the terms for extension as outlined in the mailout.

8.08 Pupil Progression Plan Addendum . The Board approved the addendum to the 2014-15 Pupil Progression Plan as recommended by staff and submitted in the mailout.

8.09 Approval of Employee Resignation. The Board approved the resignation of a CPSB employee in lieu of tenure hearing as recommended by staff and submitted in the mailout.

8.10 Consideration of Districtwide Accreditation by AdvancED. The Board approved the Caddo Parish School District moving forward with a district-based accreditation process as opposed to the school-based accreditation process as recommended by staff and submitted in the mailout.

8.11 Resolution to join MFP Lawsuit and Contingency Fee Agreement. The Board approved a resolution to join the MFP lawsuit as well as authorized the president to execute the contingency fee agreement as submitted in the mailout.

Item No. 13

13.02 Request for Settlement Authority – Stephanie Parker, Individually and as Natural Tutrix for the Minor Child AAG vs. CPSB, Docket #557,811-C, First Judicial District

Court, Caddo Parish, Louisiana. The Board approved the proposed settlement in the Stephanie Parker, Individually and as Natural Tutrix for the Minor Child AAG vs. CPSB, Docket #557-811-C, First JDC, Caddo Parish, LA case as submitted in the mailout.

REQUEST FOR LEAVE WITHOUT PAY

Ms. Trammel moved, seconded by Mr. Rachal, to approve a request for leave without pay as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

PERSONNEL TRANSACTION REPORTS

Mr. Rachal moved, seconded by Mr. Green, to approve the personnel transactions reports for the period of January 1-31, 2015 as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

APPROVAL OF REQUEST FOR LONG-TERM USE OF NEWTON SMITH BY SOUTHERN UNIVERSITY

Ms. Green moved, seconded by Mrs. Bell, to authorize the President to execute a cooperative endeavor agreement/lease with Southern University for the long-term use of Newton Smith based on terms recommended in the mailout.

Miss Green shared her excitement about Southern University teaming with Caddo Parish and expressed her appreciation to Mrs. Snead for sharing with her information on how this program can benefit the community and the children. She also stated that she was thankful to learn that the building will not be sold, the name will not change and the community will still be able to use it if they have a need.

Dr. Goree thanked Board member Green for helping to make this dream a reality for the District and for the students. He further stated that he looks forward to working with Southern and supporting them anyway possible in keeping this grant because it was not one easily obtained.

Mrs. Bell also expressed her appreciation to Southern University for answering the call for at-risk students and for this partnership with Caddo Parish Schools.

Mr. Rachal stated that the mutual benefits are undeniable for all involved; however, he still has some concern with the dollar amount and he would have liked an independent real estate broker to look at the going rates and not set up a precedent for future leases. Dr. Goree said that the District has actually already set the precedent with the rate MJ Moore is being leased and this is consistent with that rate. He further stated that in moving forward, consideration will be given to making sure that we are getting the best value for the District. Mr. Rachal agreed that the benefits are huge; however, in good business practices, he would like an independent to look at this.

Mrs. Brown dittoed everyone's comments and thanked Miss Green because as an employee she attempted to attain the Youth Build grant numerous times; and she knows that Gayle Flowers and her staff will be anxious to work with this program which is in essence another career center.

Mr. Abrams clarified that this is not a straight lease, but it is a cooperative endeavor agreement/lease which will not set a precedent; and because of the many benefits, it is something good for both parties.

Mrs. Bell stated that she doesn't believe you can put a price on a child's education, and this is one of the best things that can happen for the students in Caddo Parish.

Mr. Rachal moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Board member Jasmine Green opposed and Board member Kirschvink absent for the vote.

Vote on the main motion carried with Board member Kirschvink absent for the vote.

RECOMMENDATIONS FOR 2015/16 CAPITAL PROJECTS AND DESIGNERS

Mr. Rachal moved, seconded by Ms. Trammel, to approve staff's recommendations of designers and the budget for the 2015-16 Capital Projects as submitted in the mailout. Mr. Rachal asked if this is for the budget also or only the designers. Dr. Goree clarified that this request is for both. Mr. Rachal stated that he has reviewed the capital projects' budgets for the past five years; and since 2010-11, the budget has increased from \$12.2 million to \$20 million. He shared that one of his concerns is he has proposed in the past that \$1 million or 10% be set aside for new construction and hopefully every 10 years there could possibly be enough money to build a new school. Mr. Rachal stated that he believes this is something that can easily be done and will bring this recommendation to committee for consideration. Mr. Rachal asked that in the future more background information and plans be provided for projects such as the \$3 million renovation at Linear. Dr. Goree responded that the Board has already approved \$13.5 million; and part of the agreement for Linear being returned to the District from the RSD is that Caddo will open a school in that building during the 2016-17 school year, which puts the District under a time crunch to make it happen. He further explained that in working with the community and the principals in the area, staff has looked at what will be the best use of Linear and a decision made to move Northside Elementary to the Linear campus and the \$3 million is needed for appropriate renovations to make it a campus for elementary students, closing the aging Northside campus. Mr. Rachal stated that he wants the public to also know that while Linear was in the Recovery School District for the State of Louisiana, it was not maintained. Dr. Goree stated the school did the general maintenance and cleaning; however, there were no upgrades or modernizations of the facility. Dr. Goree also reminded the Board that if the school remains closed, there are issues with vandalism, etc. Mr. Rachal asked about the timetable for completing this renovation, and Dr. Goree explained that renovations would begin mid-summer which would allow eight months for renovations and completion in time to prepare for the opening of school in 2016-17. Mr. Rachal urged the superintendent to be pro-active in finding a community usage for Northside Elementary or selling or demolition of the property. Mr. Rachal also commented that the District has many times struggled with not having enough money; however, if something comes up, we are always able to find \$3-\$4 million to address the issue; and he does not believe that to be a good plan and there is a need to be more pro-active in long-term planning and set aside funds a little at a time and possibly eliminate this and other issues. Dr. Goree also agreed with the idea of sending this to committee and staff has also been looking at the best way to maximize funds, especially in light of the bond issue. Mr. Rachal asked Mr. Lee about the projected revenue for capital projects, and Mr. Lee responded that the budget is whatever the two tax millages designated for the capital projects fund; and at this time, that amount is approximately \$20 million. Mr. Lee added that the District at one time received interest income; however, that amount is minimal.

Ms. Trammel asked Dr. Goree if consideration was given to making Linear a K-8 school; and Dr. Goree responded staff did consider a K-8 for Linear, and when looking at what is best for all

the schools in the area, staff considered the 7-12 configuration at Green Oaks and determined that the 7-12 is still working best in that community. In the event of growth back to the community with renovations being done, Dr. Goree stated that K-8 could be a future option (if the 9-12 enrollment grows).

Miss Green asked the superintendent if he believes the \$3 million is ample for renovations at Linear? Superintendent Goree responded that, in assessing the facility, staff does believe it is an ample amount for the project, and staff is committed to doing the renovations correctly so as to meet the needs in the community. Miss Green asked for confirmation that she understands Linear will be a fully remodeled school, and Dr. Goree said yes and the remodel will be similar to the remodel at J. S. Clark or Oak Park. Miss Green asked if in the bond initiative Mr. Rachal is getting a new school. President Riall asked Board member Green to not refer to Board members by name. Dr. Goree responded that a new school is proposed for southeast Shreveport. Miss Green added that she will get a remodeled school for \$3 million, and Dr. Goree confirmed Linear will be a beautifully remodeled school.

Mrs. Brown asked about the upkeep and maintenance when Linear was a charter school and did the RSD do what they were to do. Dr. Goree clarified that as a charter school, any capital improvements would have fallen on the school district; and at that time, the district chose not to include Linear in any of the capital improvement plans.

Mr. Rachal moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Board member Kirschvink absent.

Vote on the main motion carried with Board member Kirschvink absent.

SUPERINTENDENT'S REPORT

Update on Transformation Zone Schools. Dr. Goree reported on the first African-American Leadership Summit with middle and high schools in the Transformation Zone. He reported that students from four schools were taken to see the movie *Selma*, all of which was community sponsored. The students, after seeing the movie, had the opportunity to interact with those who were directly involved with the Civil Rights Movement in Shreveport as well as other civic and community leaders.

Personnel Recommendation. Superintendent Goree thanked and recognized Mr. Larry Anderson, new interim director of Attendance and Census.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal announced that he will bring an item in March regarding permanent name tags for K-2nd graders.

Miss Green stated that she did not receive any communication on the T Building that burned in her district, but heard it from someone on the street. Dr. Goree reported that an email was sent, as well as text messages, regarding the T Building at Northside being totally destroyed. He added staff is in the process of cleaning this up and the school has made the necessary adjustments to the schedule so they are functioning without that building. Miss Green also applauded the Transportation Department for positive feedback in the community on the job they are doing.

EXECUTIVE SESSION

Student Appeal. *Mr. Rachal moved, seconded by Ms. Trammel, to go into Executive Session for up to 15 minutes for the purpose of a student readmission appeal. Vote on the motion carried and the Board went into executive session at approximately 6:18 p.m.*

The board reconvened in open session at approximately 6:49 p.m. *Mr. Rachal moved, seconded by Ms. Trammel, that staff's recommendation be upheld. Vote on the motion carried with Board member Poljak opposed and Board member Kirschvink absent.*

Mr. Riall stated to the parent that staff will look into the transportation issue for this student.

Adjournment. *Ms. Trammel moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:51 p.m.*

Dr. T. Lamar Goree, Secretary

Steve Riall, President

March 3, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, March 3, 2015 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown led the prayer and Pledge of Allegiance.

PRESENTATIONS

Pathways Report. John Keith reported that as of today Pathways is serving 186 students. He highlighted the history of the Pathways program to address students who are typically dropping out of school as a result of the level of responsibility in the homes and the successes seen in this program. Mr. Keith explained how the program is utilized and the percentage of students that are on track; and that through the partnership with Caddo's high school principals, they are hopeful that students participating in the program will be successful in their efforts to get back on track and back in their neighborhood school. Mr. Keith also shared with the Board programs in which their students will be involved in the future, Leadership camps in Colorado and California.

Mrs. Bell shared her impression of what the program is doing to help students and asked Mr. Keith how they are advertising their program. Mr. Keith responded that they do not want to beat the streets and compete with Caddo Parish Public Schools, but they are interested in partnering with Caddo Parish Public Schools to enhance the educational experience for these students.

Miss Green asked when did the Board approve Pathways, and Dr. Goree responded since he has been in the district. Miss Green asked how many students can the program accommodate? Mr. Keith stated he believes the contract is for 1,500 and the staff is looking to open another facility on North Market. In response to regular reporting, Dr. Goree stated that Caddo's relationships with the partnerships will bring a report to the Board at least once a year and additional updates will be provided under the Superintendent's Report.

Mrs. Locke expressed her appreciation for the information provided and asked if she understands correctly how Pathways is capturing these students. Mr. Keith said the typical process is the homeschool recognizes a student falling through the cracks and refers the student to the school leadership.

Mrs. Kirschvink also expressed her appreciation for Pathways service to Caddo's students and asked if there is a list of requirements for a student to enter Pathways, and Mr. Keith explained that the only requirements are being of school age and a high school student. He said they will basically take anyone that comes to them before their 22nd birthday. She asked if the program at Southern basically does the same thing, and Mr. Keith responded that the program at Southern results in trade certificates and GEDs, and when completing the Pathways Program, a student will finish with a high school diploma.

Mr. Rachal asked for a survey of the students participating in the program to determine what they like/dislike, what is working/not working, etc. Mr. Keith also stated that they will carry a panel of students to New Orleans in April and he would love to also share this panel of students with the Board.

Ms. Trammel shared that she spoke with Pathway representatives at the recent Louisiana School Boards Association annual conference and asked about students being referred to an alternative setting after only one incident in school, and if Pathways is a program that would be applicable

to such a student. Mr. Keith responded absolutely; however, there are some things in the contract. Mr. Abrams said that is not something for this student and it is that way because Ombudsman has been set aside to address alternative school situations and it is set up this way for a reason. Even though discussions were held on possibly incorporating these changes down the road, and because students voluntarily attend the Pathways program versus those that are told they must go to an alternative setting. Mr. Abrams explained that the original contract does not allow discipline issues to be placed at their site. If successful down the road, it was determined there may be something different that could be done without mixing students with discipline problems at their particular site. Ms. Trammel stated her concern that students in trouble for the first time and sent to an alternative school may not survive that situation and she asked if there is another way these students can be helped.

Miss Green asked about the location on North Market and how many students will be located in this facility. Mr. Keith responded that this facility should have the ability to serve 500 to 600 maximum depending on the number of teachers that are hired. Miss Green asked if students in Pathways sit in front of a computer all day, and Mr. Keith explained the three different methods of instructional delivery, i.e. online, home school curriculum that requires students to come in 2-3 days a week for assessments, and small group instructional classrooms.

Mrs. Brown applauded Pathways efforts to expose its students to attend various type camps, etc. and asked how these opportunities are funded. Mr. Keith explained they are funded the same way as all Caddo Parish students, i.e. via MFP; however, he doesn't have overhead so at the end of the year, the money must be put back into the students, thus they plan different service projects to foreign countries, leadership camps, etc. for the students. Mrs. Brown asked if transportation is provided and Mr. Keith explained that transportation is provided through the use of bus cards. Mrs. Brown commended Mr. Keith for this much needed program in Caddo.

Mrs. Douzart asked if Pathways has an AR program, and Mr. Keith responded not currently, but it is in the plan. She asked how the process works for students not receiving credit for attending one or two times a week because they are not completing the required assignments. Mr. Keith explained that he maintains a running log on each student that may fall in any negative category, i.e. student has or is in danger of dropping out of a drop-out recovery program by continuously tracking each student and every Friday truancy letters are generated and mailed to parents. Mrs. Douzart also asked about additional alternatives to motivate students to complete their work, and Mr. Keith explained that everything is voluntary; and as soon as a student comes to them, he invests in these students' lives and attempts to build an intrinsic type reward system.

Update on Strategic Plan. Dr. Linda Rescio, Evergreen, reported that since the last update several months ago, much has happened; and she shared information on the strategic plan process, goal areas, timeline and the next steps. She explained that the Superintendent created a Strategic Planning Committee of approximately 25 members from all walks of the school system and community. With the fifth planning meeting begin held earlier in the day, Dr. Rescio noted that representatives designated by the School Board members joined them. She reported that internal and external assessments were conducted in the fall as well as community forums with over 300 participants, development of the strategic plan mission, and a proposed vision for the future. At this time, she reported that since five-year measurable objectives have been established, meetings will take place to develop action plans, followed by performance measures and how to measure progress. Dr. Rescio said the proposed mission statement at this time is "Caddo Parish Public Schools is dedicated to preparing students for the future, developing the whole child, academically and socially, in collaboration with families and the community". Also, the committee developed the proposed vision statement that "all students in Caddo Parish Public Schools will become life-long learners equipped with the skills, knowledge and attitudes to succeed as productive and responsive citizens in a local, national and global society.

Dr. Rescio also reported that goal areas were organized around the key function areas of the schools system with Academics being number one. Today, the committee decided to place these in alphabetical order. Family and community engagement is right behind Number One, followed by fiscal responsibility, human resources and professional development, innovation and technology, and operations services. She also noted that each subcommittee is surrounded by the six committees; and at this time, there is a goal in each area with measurable objectives being developed over the next several weeks. Dr. Rescio announced that the timeline for presentation of a final living document to the Board is May 2015.

Miss Green asked the superintendent when did the board contract with Evergreen and Dr. Goree responded July of 2014. Miss Green asked Dr. Goree how much is Evergreen being paid, and Dr. Goree responded approximately \$80,000, but he can provide an accurate number. Miss Green asked if this is the same group that went into the schools, and Dr. Goree explained it is and they went into the schools in September and October to make sure every stakeholder had an opportunity to have a voice in what was needed to strategically move the school district forward.

Mrs. Kirschvink asked about receiving a copy of the Powerpoint as well as additional mission statements coming out of the committees. It was noted that all information related to this process is posted on Caddo's web page.

Mr. Ramsey stated that he would like to see as much of this information as possible placed on Caddo's web site along with updates; and he challenged the superintendent and Communications Department to conduct some PR to address the negative comments about this process being conducted in a vacuum and behind closed doors when it has actually been open and in the communities through the community forums. Since he has been on the Board, Mr. Ramsey stated he believes contracting with Evergreen has been the first real strategic plan to be developed and he believes there has been a lot of data collected by staff through many public forums and meetings and it was all used in bringing forward the bond proposal. He encouraged staff to be more proactive in getting this out to the public.

Mrs. Brown concurred with Mr. Ramsey's comments and the need to continually communicate with the publics.

Mr. Riall stated that the Strategic Plan Process is something that has not been done since he has been serving on the Board; and goals and direction for the School System are now being established. He further added that it will not end when a five year plan is established, but a direction will be established and future Boards will look at goals to continue in that direction to continue to grow and meet the needs in educating Caddo's students.

Mrs. Bell also concurred with everyone's comments and that each Board member has two representatives serving on the Strategic Plan Committee. Dr. Goree also noted the energy in the Strategic Planning Committee meeting held on this date and everything was toward moving the school district forward.

Mr. Rachal noted that this was done in 2005; and he believes the Board made it very clear what it was looking for when it hired Dr. Goree as its superintendent. Also during that process, Dr. Goree made his goals very clear to the Board and he believes the Board has found a great match. Mr. Rachal commended Dr. Goree for his leadership in moving forward.

Mrs. Locke reiterated everyone's comments and that having worked through a strategic planning process, she knows it can work beautifully when done well from the beginning. She added she is excited about the direction the district is moving in because of the misconception in the community, and asked staff to look at the strategic placement of this information on the web site for the public to locate more easily.

Ms. Trammel asked who maintains Caddo web site? Dr. Goree responded currently the District is transitioning to a new web site and it is being maintained through the Technology Department; however, at some point Communications will also have a responsibility in keeping the web site current.

Shreveport-Bossier Mavericks Presentation. Anthony Tisdale, Caddo's supervisor of health and physical education, introduced Shreveport-Bossier Mavericks General Manager Debra Green, and Tanisha McKinney, game day operations director, who shared their efforts with Mr. Tisdale to develop a partnership with Caddo Parish Public Schools to help encourage students in the classroom as well as on the court. Ms. McKinney announced that the SB Mavericks will host the ABA finals in Shreveport in April and they will be visiting schools prior to that date encouraging students to do better in the classroom and offering them opportunities to come to the games. Ms. Green interjected that all the Mavericks have education beyond high school, with most graduating from college and having an off-season business; and she believes these gentlemen speak truth to the students and serve as good role models. She also shared that the owner is a Christian man who is committed and expects much from the players; and they will be starting summer camp programs to involve the students.

Mrs. Bell shared her excitement for this opportunity for Caddo students and encouraged a Caddo night in the future. Miss Green also expressed her excitement for the many opportunities being afforded our community and the students in Caddo through their organization. Mr. Rachal asked about the possibility of some type rewards system for Caddo's student athletes to have the opportunity to serve as "ball boys" during a game, and Ms. Green shared some of the rewards they have offered and this could possibly work into the program as well. Mr. Tisdale explained that when conversations began between Caddo and the Mavericks, they talked about targeting students who ordinarily do not receive any type recognition in school and the possibility of the players going into the schools and intermingling with students during P.E. classes. Mr. Tisdale said the opportunities for the students are endless and he and the Mavericks staff will continue to look at ways to afford these opportunities for the students. Ms. McKinney clarified that they do not just target the student athletes, but this past week in recognition of Dr. Seuss week, approximately eight to ten of the players actually went into the schools to read to students. Mrs. Locke expressed her appreciation for what this organization is doing in the City and in our schools and asked that contact information be shared with Board members so they can communicate this appreciation.

Mr. Riall expressed appreciation to the Mavericks for their contribution to this community and Caddo Schools.

Claiborne Fundamental Elementary Title I National Award. Janis Parker, director of Title I, shared with the Board and audience a showcase of Claiborne Fundamental Elementary when receiving the Title I National Award of Distinction in Salt Lake City last month. She shared criteria schools must meet in order to qualify for this award. Congratulations were extended to Principal Hall for providing the leadership that fosters an environment that produces academic success with parental and community involvement and a student population that comes daily ready and eager to learn from dedicated and committed staff members.

Miss Green noted that Claiborne had the Elementary Principal of the Year, Elementary Teacher of the Year, and now Title I National Award of Distinction in addition to being a Blue Ribbon School of Distinction; and she encouraged the District to talk about this more in the community. Superintendent Goree complimented Mrs. Parker, Mrs. Hall and the entire faculty at Claiborne for helping make this a reality for Claiborne. Mrs. Bell recognized LSU students in the audience as a part of their involvement in a leadership program.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MARCH 17, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the March 17, 2015 CPSB meeting and the following discussion ensued.

Mr. Riall announced backup information for the Security Software User Agreement is at Board members' stations.

Mrs. Bell asked about additional information on Superintendent John White adding something to the policy for principal/teacher evaluations. Dr. Goree responded they have heard there will be opportunity for the State to make recommendations relative to goals for principals. Mr. Burton added that recommendations have been sent to BESE regarding COMPASS evaluations for principals as well as recommended targets for student learning (SLTs) to be used for evaluations. He further explained that the State will take similar demographics and performance histories and they will provide recommended SLTs for schools; and if a principal does not achieve for three or more years, the District (Superintendents) will have to document why the school is allowed to not use the SLTs. She said she believes this is something the Board needs to look at and determine if the Board needs to approve a resolution. Mr. Riall asked that staff look at this and if staff determines it is necessary, an item can be added before the meeting on the 17th.

Financial Audit. Mr. Lee announced that the Audit Committee will meet on March 17th at 2:30 and the external auditors will discuss the three financial audits with the Committee. All Board members are invited to the committee meeting to hear this report and the Board will be asked at its 4:30 meeting to accept the financial audit.

Permanent Name Tags for K-2 graders. Mr. Rachal asked Otis Jones to share with the Board how we can move forward with implementing this without going through committee. Mr. Jones explained that Transportation currently uses an identification tag for magnet schools that is attached to backpacks of students who must make bus exchanges. He stated this has proven to be very successful and is something the department can expand to include all K-2nd graders.

Dr. Goree stated that staff does not have a recommendation for permanent ID tags for all students; however, this speaks to the safety of all preK – 2nd grade students and can be done at a minimal cost.

Ms. Trammel said she believes this is a great idea to keep track of these young children.

Mrs. Kirschvink asked staff to look at maybe redesigning the card to make it more readable, and she believes this information is very helpful in the event children get lost or get on the wrong bus.

Mrs. Brown noted that her school was one of the first to create and use an ID system and it was very helpful in identifying and tracking where students should be.

Mrs. Bell responded to Mr. Ramsey's comments relative to the committee that looked at ID badges for students, and she clarified they did not look at badges for students younger than 3rd grade, but mainly for middle and high school students. Mrs. Douzart expressed to the Board a job well done on this recommendation.

Public Service Pledge. Dr. Goree shared that this initiative was borne out of the newly formed committee where representatives of the employee organizations meet with the superintendent. Dr. Robinson stated that the Consumer Financial Protection Bureau has launched a tool kit that empowers school districts and other public service organizations to help their employees pay off

student loan debt; and this group has asked employers to at least pledge to inform employees of their options. Since the District has looked at numerous ways to enhance its teacher pools, they believe if staff and the employee organizations work together to share with not only new teachers, but also our veteran teachers, ways they may get their student debt paid, it might be an attractive tool to them. Dr. Robinson explained the employee organizations will do most of the work; however, staff will refer new hires and veterans interested to them to follow through with looking into this option. Dr. Goree stated that backup will be in the form of a resolution supporting the collaboration between the School District and the employee organizations.

Security Software User Agreement. Mr. Rachal stated that he feels uncomfortable adding this item at this time and asked the superintendent to respond. Dr. Goree explained that one thing staff will do between now and the regular meeting is to research some other options of how we can provide this service at a lesser financial burden to the district. Mr. Rachal stated that he would like to determine if the staff can do this on a month-to-month basis since he knows there are other options. Mr. Riall asked Mr. Lee what will happen if the Board does not make a decision on the 17th and the contract expires at the end of March. Roy Murry, director of security, responded if the Board does not make a decision before the 31st, the District will not have any technical support. Mr. Murry said he can talk to the company, but this is the software for all security equipment in all Caddo schools, and the cost over the past two years has reduced from \$160,000 to \$80,000. Mrs. Brown asked the Board to keep in mind that this is security for the entire district and should be addressed in a timely manner.

Mr. Ramsey asked about the resolution for the Camp Minden matter and Dr. Goree explained it was not added to the agenda because staff does not have a recommendation at this time. Mrs. Bell asked if she can discuss this since it is not on the agenda, because she believes this is something the Board needs to look into. Mr. Riall agreed to add and staff and legal counsel will provide backup information.

Mr. Riall announced that Items 7.01, 8.01-8.02, 8.04 and 8.07 are the consent agenda. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the March 17, 2015 CPSB meeting as presented. Vote on the motion carried.*

Announcements. Mrs. Bell announced that the Insurance and Finance Committee will meet at 3:30 p.m. on Tuesday, March 10th.

Mr. Rachal announced that the Caddo Career and Technology Foundation Scholarship Awards Banquet will be at 6:30 p.m. on April 23, 2015, at the Caddo Career and Technology Center. This will be the 20th anniversary of the Foundation and at this time, it looks like through this year over \$1 million in scholarships will have been awarded since its inception. He also announced the Caddo Parish School Board's goal is \$1,500 and contributions can be sent to him.

Mrs. Brown expressed her appreciation to Alex Xifos for bringing the technology in the board room current.

Adjournment. *Ms. Trammel moved seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:50 p.m.*

March 10, 2015

The CPSB Insurance and Finance Committee met at 3:30 p.m. on Tuesday, March 10, 2015, in the Superintendent's Conference Room, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Dottie Bell, Mary Trammel, Margaret Brown and Larry Ramsey. Other Board members present were Raymond Green, Bonita Douzart, Kacee Kirschvink and Denee' Locke. Also present were Jim Lee and Randy Watson.

Chair Dottie Bell called the meeting to order and Raymond Green led in the prayer and Pledge of Allegiance.

VESTING PERIOD RELATED TO INSURANCE PREMIUM UPON RETIREMENT.

Jim Lee, chief financial officer, and Randy Watson, director of insurance, shared with the committee background information relative to the vesting period for insurance premiums upon retirement, noting it is the State that tells districts what it can and cannot do, who is eligible, and who is not; and if someone retires and immediately begins drawing benefits, that we must offer it to them. It was also explained that retirees are charged the same as active employees; and currently, Mr. Watson said there are only 75 employees who have worked five years or less and 145 that have worked up to 10 years. At this time, the question is do we want to change it so someone retiring after working less than five years would pay 75% of the premium; and if so, what happens in the district if that policy is implemented. Mr. Lee stated it has been discussed that if we do this, it would save the District some money; however, grandfathering people in would mean many years before the District would see any financial impact; and it definitely will impact the District's recruiting efforts.

Mr. Ramsey stated he believes before a decision could be made, the committee would need to know numbers and maybe look at the years/numbers in tiers, i.e. 0-5 years, 6-10 years, 10-15 years, etc. Following discussion and questions, the recommendation was to leave it alone at this time because a change could directly impact recruitment of teachers.

Mr. Lee noted that he and staff will continue to monitor this matter; and if any changes are seen, they will bring it back to the committee for further discussion.

GENERAL DISCUSSION ON AREA OF FINANCE

Mr. Lee shared with the committee the Chief Financial Officer's areas of responsibility including payroll, insurance, accounting, risk management and purchasing. He reported the audit by an outside accounting firm was recently completed and will be presented to the Board in March, that he will provide Board members a monthly financial report of the five major funds and every fund reported on a quarterly basis to the Board, and he explained the MFP (Minimum Foundation Program) funding that the District receives from the State, and that MFP for next

year is proposed to be 1.375% as opposed to 2.75%. Mr. Lee also explained recent incidents at CMCT (vandalism) and Booker T. Washington (fire) and how repairs are done through the Capital Projects fund; and when claims are paid, the money goes back in the Capital Projects account. Regarding payroll cycles, Mr. Lee reported that currently there are three different pay cycles and beginning in June, the District will go to one pay cycle with all employees paid two times a month. Mr. Lee also explained the two different times the District must go to the voters and they are for the renewal of six millages every 10 years plus an additional three millages that actually will be up for renewal in 2016.

A great deal of discussion was held on the amount of time and the cost to the District in responding to the many Public Records Requests received on a daily/weekly basis, and Mr. Abrams explained to those present the procedures the District must follow in responding to requests for public information.

There being no additional business, the meeting adjourned at approximately 4:45 p.m.

March 17, 2015

The **CPSB Audit Committee** met at 2:30 p.m. on Tuesday, March 17, 2015, in Room 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Denee' Locke, Larry Ramsey, Raymond Green, Barry Rachal and Bonita Douzart. Also present were Board members Susannah Poljak, Jasmine Green, Steve Riall, Dottie Bell, Mary Trammel; Superintendent Goree, Counsel Reginald Abrams and staff members Keith Burton, Dr. Mary Nash Robinson, Charles Lowder, Al Graham, Jeff Howard, Allison May, Kelli Duffield, Lisa Payne, Mary Wood and Debra Kappas..

Chair Denee' Locke called the meeting to order and led the prayer and Pledge of Allegiance.

2013-14 Comprehensive Annual Financial Report. Chief Internal Auditor Jeff Howard introduced his staff and the auditors (Tom Sims and Lisa Salter) from the firm of Carr, Riggs and Ingram CPAs. Mr. Sims summarized the Comprehensive Annual Financial Report for the year ending June 30, 2014, the Single Audit Report and the Caddo Educational Excellence Fund Report and the following discussion ensued.

Mr. Sims highlighted the Management's Discussion and Analysis, the Statement of Revenues, Expenditures and Changes in Fund Balances, comparison of last year to this year as a result of Magnolia Charter School, the Caddo Educational Excellence Fund (which they are required by law to report separately), and the Single Audit Report which highlights internal controls and compliance on major programs. Mr. Sims explained to the committee that the Caddo Educational Excellence Fund (CEEF) is the monies allocated to the School Board from the casinos located in Caddo Parish, of which the CPSB can only spend the interest on for educational enhancements in the schools. Mr. Lee reported that the CEEF Committee meets to decide how the interest should be distributed to the schools; however, they have not met the last two years because the interest on the money was not high enough to where each school would benefit so they have left the interest in the account to grow. Mr. Lee added that he anticipates this committee (comprised of school based members) meeting this year to determine if and how the interest on the money might be distributed to the schools. Jackie Lansdale, Red River United, noted that the Board might want to look at the Committee structure and determine some oversight of this committee.

Mr. Sims reported a number of errors in the Statistical Reporting, i.e., SunGard issues, noting they were able to work with management to make corrections and resolve them. He also reported that when testing 60 payroll transactions, seven exceptions dealing with documentation for appropriate payroll transactions were also noted. Mr. Sims explained while state law requires that all special funds must have a board-approved budget, it was so noted that two special funds budgets were not approved by the Board.

Mr. Rachal inquired of the auditors how does Caddo look in comparison; and Mr. Sims responded except for SunGard, very well; however, he believes that the last six months approach to attack the issues should yield results.

Miss Green asked what audits are scheduled next, and staff responded construction and Child Nutrition Programs. A follow-up is also scheduled for the Risk Management Department.

Followup on HR Audit.

Questions asked of staff relative to the follow up on the HR Audit included the overages in staffing for school administrators (an increase from 21 to 34.5), and the cost of \$3.1 million for overages. Questions were also asked about the overstaffed 10.5 counselors and the 39 ancillary counselors. Dr. Robinson explained that ancillary counselors receive a one-year contract and HR does not approve placement of any counselors without confirmation from Academic Affairs. Also, she reminded the committee that in right-sizing the District, employees are not RIFed, but placed where they can serve. Dr. Goree stated that as staff moves forward in the budget process, HR is working to finalize the staffing ratio. Mrs. Bell also asked when someone is demoted, when does their salary change, and Dr. Goree explained that as we move forward and make corrections, the salary of those who are demoted will actually be reduced at the end of their contract, but there must be adequate documentation to support it.

Regarding tenure and contracts, Mr. Abrams explained that under the old law principals and assistant principals received tenure; however, in 1985 the law changed and they now receive teaching contracts. Under the old law, if there was no longer a need for their position, they could be moved; but because they had tenure, the District had to continue paying them their salary. Under the new law, at the end of the two-year contract, the superintendent can recommend to the Board renewal of the contract or not based on their evaluation; and if renewed, the employee would be under a new contract. Discussion was also held on a RIF process and how the district is affected when eliminating positions as opposed to people, what determines if an employee is a good employee or bad employee; how, when talking about demotions, employees are reassigned based on new needs of the district; no staffing formula for custodial employees or cafeteria workers; how the last RIF eliminated 80-90 part-time sweepers, employees whose salary is frozen as a result of the last salary study and the changes in the salary schedule, how salaries are addressed for principals returning to the classroom, etc. Superintendent Goree said that as the District moves forward, it will be treated as a demotion and employees moved into a new position.

Followup on Risk Management Audit

Jeff Howard announced that Debbie Kappus is working on the recommendations from the Risk Management Audit and will be bringing an update on her department's audit.

Mr. Ramsey moved, seconded by Raymond Green to accept the recommendation of the Comprehensive Financial Annual Report, CEEF Report and the Single Audit Report as presented by the auditors from the Firm of Carr, Riggs and Ingram, CPAs. Vote on the motion carried.

Mr. Ramsey moved to accept the recommendations of the HR audit and to present these to the Superintendent for implementation. Motion seconded by Mr. Rachal and vote on the motion carried unanimously.

Adjournment. *Mr. Green moved, seconded by Mr. Ramsey to adjourn; and vote on the motion carried unanimously. The meeting adjourned at approximately 3:50 p.m.*

March 17, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, March 17, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE FEBRUARY 17, 2015 AND MARCH 3, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the February 17, 2015 and March 3, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

A.C. Steere Strings. The advanced group of 4th and 5th grade strings players from A. C. Steere Elementary performed two musical arrangements for the board and audience. Mrs. Quinn is the Itinerant Strings Specialist.

Caddo Parish Magnet Student Selected as Candidate for the U. S. Presidential Scholars Program. Amy Ren, senior at Caddo Magnet High School, was recognized for being selected as a candidate for the United States Presidential Scholars Program. Mr. Strother stated that this program was established in 1964 to recognize and honor some of our nation's most distinguished graduating seniors who are chosen on the basis of their accomplishments in academic and artistic success, leadership and involvement in school and community.

National Merit Scholarship Finalists. The following students were recognized as National Merit Finalists for 2015: Rebekah Bryant, C. E. Byrd; and Caleb Basinger, Matthew Carman, Vincent Huang, Neil Nathan, Amy Ren, Ryan Shacklette, and Noah Sorkey from Caddo Parish Magnet High.

2015 Students of the Year District Finalists. The following students were recognized as finalists in Caddo's 2015 Student of the Year program: Elementary – Samuel Davis, A. C. Steere; Carson Wall, Blanchard; Ruhani Sachdeva, Eden Gardens; Logan Mayo, Fairfield; Keely Hall, Herndon; Sadie Lyons, Oil City; Katie Smith, Riverside; Bryce Powell, Shreve Island; Ashlyn Davis, Summerfield; Sutton Oathout, University and Makayla Young, Walnut Hill. Middle School – Georgia Hilburn, Caddo Middle Magnet; Tyler Gordon, Donnie Bickham; and Kaitlyn Fontenot, Herndon. High School – Angela Stark, C. E. Byrd; Stephanie Durr, Captain Shreve and Thomas Jones, Northwood.

2015 Caddo Parish Students of the Year. The following students were recognized as the winners in Caddo's 2015 Student of the Year program: Elementary - Ashini Modi, South Highlands. Middle School – Alysia London, Walnut Hill. High School – Vijay Letchuman, Caddo Magnet High. Mr. Strother announced that Vijay has also been selected as a Regional Finalist and will participate in an awards ceremony in Baton Rouge on April 22, 2015.

National Board Certified Teachers. The following teachers from South Highlands Elementary Magnet were recognized as Caddo's two newest National Board Certified Teachers: Jennifer Breehne and Tara Hooper.

Caddo Parish Curriculum Instructional Specialist appointed to the National Academies' Teacher Advisory Council. Renae Pullen was recognized for her appointment to serve a three-year term on the National Academies' Teacher Advisory Council. Mr. Strother stated this Council meets twice a year in Washington, DC and is composed of 10-12 teacher leaders representing elementary, middle and high school teachers from all regions of the United States.

Bethune Alumni Association Presentation. Certificates of appreciation were presented from The Bethune Alumni Association to the following Maintenance Department personnel for their contributions to the Bethune Alumni Association in creating and helping maintain The Bethune Wall of Fame at Oak Park Microsociety School (formerly Bethune Middle School): Tommy Smith, director of maintenance; and Gary Brewer, Johnny Whitaker and Demetri Lewis.

VISITORS

Jackie Lansdale, president of Red River United, reminded the Board that the Louisiana Legislative Session is upon us and it appears we could be faced with a huge fiscal crisis as the Governor is projecting a shortfall of \$1.6 billion. She reported the areas to be affected are a reduction of \$141.3 million on top of the \$1 billion already cut, and the proposal from BESE to approve only ½ of the MFP growth money; which is most egregious considering the over-reaching expectations put upon educators. With Louisiana being 48th in the nation, Mrs. Lansdale stated that as they are cutting education funding, the State also continues to provide \$7 billion for tax incentives, and noted that for every episode of Duck Dynasty taxpayers in Louisiana send them \$330,000. She noted that in Louisiana, we literally give out more than is taken in, and there is a problem when there is no data to support what we are doing is effective. She stated that if we want to change the course of the State, you must first have a vision of where you want to go, what industries do we want to create and then take the state resources and set the course to that end. She suggested that the pump be primed through education, i.e. extended day and year for preK, wrap around services in the community, more technical and vocational training, professional development and mentorship programs, and incentives in career ladders. She noted that the upcoming bond is a great start in this direction; but it is only that – a start. She encouraged the Board to look to address the preK, the teacher programs and salaries; because great buildings and facilities in large measure answer the needs to the community and the students and visually communicates that we care. However, it cannot take the place of infrastructure, quality educators, unique programs, all areas that need addressing. With local groups meeting with the Legislators prior to the start of this year's Session, she said they have been told it is up to you and they continue to address the issue of looking at the Safety Bulletin, as well as tightening the requirement for students having at least 20 minutes seat time to consume their lunch, and testing and multi-layering of programs in the schools. Mrs. Lansdale said again there will be Legislators proposing to remove the right of teachers, administrators and school employees to have their dues deducted from payroll issues. While the challenges go on and on, Mrs. Lansdale said she is reminded that we all need to be found doing the best we can.

Brian Salvatore, professor at LSU Shreveport and member of the Concerned Citizens Group, addressed the Board on the proposed M6 Burn at Camp Minden. He encouraged the Board to support the resolution on the agenda calling for the safe disposal of 16 million pounds of material. Mr. Salvatore reminded the Board of a previous explosion at Camp Minden and the history of the M6 materials being stored there yet not taken care of. He also shared that the Concerned Citizens group has actively worked against the proposal to open burn approximately 80,000 pounds of the M6 material per day and noted the amount of support throughout the state

they have received to not allow this to move forward but that safer alternatives for destroying this material should be considered.

ESTABLISH THE AGENDA AND PROPOSED AGENDA FOR THE MARCH 17, 2015 CPSB MEETING

Superintendent Goree highlighted the items for the Board's consideration and the following discussion ensued.

Ms. Trammel moved, seconded by Mr. Ramsey, to establish the agenda and consent agenda for the March 17, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell, to confirm the consent agenda (Items 6.02-6.03, 7.01, 8.01-8.02, and 8.04-8.09). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

6.03 Personnel Transaction Reports. The Board approved the personnel transactions reports for the period of February 1 - 27, 2015 as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Capital Projects/Construction Bids. The Board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) ELA Group, Inc., with a Base Bid for the sum total of \$423,700 for Project 2015-207, "Byrd Parking". *A copy of the bid tabulation sheet is attached to and made a part of the March 17, 2015 permanent file.*

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the requests for use of Caddo Parish School property (Donnie Bickham and Northwood's parking lots) and for use of school buses by the Cooperative Extension Service and LSU Ag Center in Shreveport, and LSU Shreveport LaPREP program in accordance with CPSB Policy and as recommended by staff and submitted in the mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.04 Approval of Contract Renewal with Youth Enrichment Program for 2015-16 SY. The Board approved the contract renewal with the Youth Enrichment Program for the 2015-16 school year as recommended by staff and submitted in the mailout.

8.05 Permanent Name Tags for K-2nd Graders. The Board approved providing permanent name tags for K-2nd graders.

8.06 Public Service Pledge/Student Debt for Public Service Employees. The Board approved the public service pledge regarding student debt for public service employees as recommended by staff and submitted in the mailout.

8.07 Security Software User Agreement. The Board approved the proposed security software user agreement as recommended by staff and submitted in the mailout.

8.08 Resolution Regarding Burn at Camp Minden. The Board approved the resolution regarding the M6 Burn at Camp Minden as submitted in the mailout.

8.09 Resolution of Continued Employment. The Board approved the resolution of continued employment as recommended by the superintendent and submitted in the mailout.

2013-14 FINANCIAL AUDIT

Mrs. Locke moved, seconded by Ms. Trammel, to accept the 2013-14 external comprehensive annual financial report as submitted by Carr, Riggs and Ingram. Board member Locke reported that the Audit Committee met on this date to hear the report from Carr, Riggs and Ingram and voted to bring it to the Board. *Vote on the motion carried unanimously.*

SUPERINTENDENT'S REPORT

Update on Collaborations with RSD. Dr. Goree reported there are several activities within the Transformation Zone and shared the excitement of some of the things that are happening in the zone that are actually spilling over into other schools in the district, i.e. areas of curriculum and instruction and how processes are being managed, how data is being collected. He further highlighted the following two events – (1) The Amazing Shake (a program to help students with the basic skills of life, i.e. firm handshakes, hold small talk with people, greet people); and a second round of this activity will be held next Monday, and (2) activities to accommodate the school-year, i.e. finals of the Amazing Shake Program as well as a talent-type program to showcase the growth within the Transformation Zone. Superintendent Goree also announced the last bus tour of the Transformation Zone schools will be held on Thursday, March 26th, and citizens interested in attending should see him following the meeting.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that anyone who would like to donate to Huntington High School band going to Washington D.C. to represent Louisiana may contact her.

Mr. Riall announced that the North Caddo Lady Rebels won their second 2A State Championship, and the North Caddo Boys' team went all the way to the semi-finals.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn.* Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 5:32 p.m.

Dr. T. Lamar Goree, Secretary

Steve Riall, President

March 17, 2015

The CPSB Transportation Committee met at 11:00 a.m. on Tuesday, March 17, 2015, in Rm 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Mary Trammel, Dottie Bell, Kacee Kirschvink, Susannah Poljak, Jasmine Green. Also present were Board member Denee' Locke and staff members Dr. Lamar Goree, James Woolfolk and Otis Jones.

Chair Mary Trammel called the meeting to order and Dottie Bell led in the prayer and Pledge of Allegiance.

Transportation Updates. Mr. Jones shared an overview of information on the following areas in the Transportation Department:

- **Aging fleet.** Mr. Jones explained that buses must be retired after 25 years in service; and the District currently has a lease to own option; and at the end of five years, the bus can be turned back in or kept. He noted that key numbers begin in 2022 when the number of buses needing replaced each year increases dramatically. The question was raised how the District would replace buses if the bond issue does not pass, and Dr. Goree responded they would be replaced using General Fund dollars, and it would be necessary to come up with a plan which would include whether or not it is cheaper to contract out transportation. Dr. Goree shared that Caddo has one of the most elaborate transportation systems. Mr. Jones also shared that private transportation companies deal with the same issues that the District Transportation addresses, i.e. shortage of drivers. *Mr. Woolfolk stated that staff will bring a leasing plan to the next committee meeting along with a recommendation on the best resolution.* Mr. Jones also shared with the committee procedures in place for assignment of buses and for overtime (extracurricular) trips.
- **Shortage of Bus Drivers/Recruiting efforts.** Mr. Jones shared their recruiting efforts and that they are holding back-to-back classes to train and hopefully add to the number of drivers. Recruiting efforts also include addressing the shortage of substitute drivers.
- **On-Time Delivery/Late Buses.** Noting that one of the complaints Board members probably receive is that of late buses, Mr. Jones explained that Caddo has a 3-tier system...elementary, middle and high school; and when an individual bus has an elementary, middle and high school route, it is possible that students could be late if there is a hold up at any point on the route. However, he did share with those present that the Department has a 96.9% average on-time bus delivery for August to February of the 2014-15 school year.
- **Transportation Budget.** Mr. Jones explained that the Transportation Department has a budget of \$23,284,000 and 509 employees. They transport approximately 22,000 students daily on nearly 400 buses, and they are responsible for the maintenance and inspection of all CPSB vehicles.

- **Extra-curricular trips.** Mr. Jones reported that the department this year has also provided transportation for 10,156 field trips, 4,582 athletic trips, and 5,326 AM and PM runs for a total of 20,064 extra trips.
- **Bus Driver Absences.** Data was shared on the % of bus drivers that miss on Friday, as well as the average absences for Monday through Thursday.

IDs FOR PREK-2 GRADERS

Per request from Mr. Rachal to add I.D. tags for all preK-2 grade students, Mr. Jones reported the total cost would be approximately \$5,000 for 7000 tags and card inserts. He also stated this is something Transportation already implemented for the magnet school students who must do a bus exchange, and it has proved to be very helpful in keeping up with the students and the bus(es) they are to be on. In implementation, Mr. Jones reported they will work with Academics and work with the schools to impress upon the parents the importance of student addresses being current on the cards. Mr. Jones was also asked to check on the cost of ID badge holders without Caddo Parish Public Schools imprinted on them.

DISTRIBUTION OF FLIERS

Mr. Jones shared a proposed flier for recruiting purposes that they are working with Mr. Burton on relative to students taking them home to parents. Mrs. Kirschvink stated she believes this is a great start, but asked that the staff work with Communications on the flier presentation.

Relative to the number of staff in Transportation and that two persons are responsible for oversight of almost 400 bus drivers, the committee asked Mr. Jones to supply them with additional information on the Department's needs and the ideal number of staff to more effectively and efficiently operate the Department.

Adjournment. On motion by Mrs. Bell, second by Jasmine Green, the meeting adjourned at 12:10 p.m.

April 14, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, April 14, 2015 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Poljak led the prayer and Pledge of Allegiance.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE APRIL 21, 2015 CPSB MEETING

Superintendent Lamar Goree highlighted items for the Board's consideration at its April 21, 2015 CPSB meeting and the following discussion ensued.

Revision to CPSB Policy GBCB (Alcohol and Drug Testing Policy). Mrs. Bell asked Attorney Abrams to explain the proposed revision. Reginald Abrams clarified that Caddo's Workers' Compensation policy needs revising because of the way the policy is written, Work Kare is drug testing every employee any time there is any type accident. Because there has been litigation against this, he is recommending the policy be changed so it only allows for suspicionless testing when there is an accident in a safety-sensitive area. You must have reasonable suspicion to believe that a person is under the influence of drugs or alcohol, i.e. see someone take some type of drug or smell alcohol on someone. He also clarified this doesn't have anything to do with vehicles in accidents, with the exception of bus drivers, or others in safety sensitive areas, because it is required that they be drug tested when there is an accident. Mr. Abrams shared examples of employees being treated for workers' compensation injuries and Work Kare doing a drug test sometimes even days later.

Mr. Rachal asked if he understands the proposed changes are driven because the District's current policy is not in line. Mr. Abrams further explained case law that came out in the last couple of years that basically states you cannot do suspicionless testing as a result of Workers' Comp Law which has a provision that states you can test employees for drugs or alcohol; but if they test positive, they are denied benefits; and this is the way Caddo's policy was written. Also, the way the policy is written makes it appear that anytime any employee went for a Workers' Comp claim, they would be tested. Historically, it has not been done this way but recently it was and litigation resulted, and there is a case directly on point that says you cannot do that. Mr. Rachal expressed his concern for what Mrs. Bell stated as "unintended consequences" and asked if this applies to school bus drivers. Mr. Abrams said it does not and the full GBCB policy outlines all testing and who must be tested as a result of accidents in a safety sensitive area, i.e. bus drivers, employees that handle equipment. He also explained employees with a CDL are required to be tested in the event of an accident; and the policy actually lists all safety-sensitive positions. Mr. Rachal said he only wants to make certain we do not have any unintended consequences in making these changes.

Ms. Trammel asked Mr. Abrams to clarify those dealing with motor vehicles. Mr. Abrams explained that the language in the policy states if a person (any employee) is injured on the job, they would be drug tested. While it has not been imposed like this for approximately 13 years, over the past few months it has and you cannot do that without reasonable suspension. Ms. Trammel asked if an employee is driving a CPSB vehicle and they are in an accident, are they tested, and Mr. Abrams responded that is correct.

Dr. Goree further explained if he is involved in an accident while in his CPSB vehicle, there would have to be reasonable suspicion for him to be required to do a drug test whereas in the

past, drug testing was happening across the board. Ms. Trammel asked if the superintendent has an accident in a school board car, and another male employee has an accident in his assigned school board vehicle, are both tested. Mr. Abrams said he would have to look at the policy to determine if the superintendent has to be tested. Dr. Goree clarified if an area director has an accident in their district-issued vehicle and there is no reason to suspect since theirs is not a safety-sensitive position, they are not required to be tested. However, any bus driver is required to be tested because the nature of their daily operation is dealing with the safety of children. Ms. Trammel asked if she understands that this would not apply to painters, mechanics, maintenance, etc.; and Dr. Goree responded that is correct for those who have take-home vehicles, they are not required to be tested.

Mrs. Douzart asked if the difference between Workers' Comp and the accident report is clearly written, because the accident report has nothing to do with Workers' Comp; and she shared her personal experience. Mr. Abrams said if there is any type accident on the job, an accident report should always be filed, even though it does not mean the employee will seek medical attention. However, if an accident happened and the employee goes to Work Kare, they were being drug tested since the policy states every person is drug tested. He further stated that is a wrong interpretation and this revision will clarify when an employee is to be drug tested.

Mrs. Brown stated she believes the key words are "reasonable suspicion" and "suspicionless".

Mr. Rachal asked how an incident is handled for an employee who is not in a dangerous job but still supervises children, or is an itinerant employee. Mr. Abrams explained that the law is written so that you cannot go around drug testing people; and the policy currently reads that after any job-related accident, a drug test is administered to the employee no matter what position, and the 5th Circuit has ruled you cannot do that. Mr. Rachal further asked if it is possible to add to the revision where "any one on school board time and driving, we have the ability to do an alcohol/drug test"? Mr. Abrams explained he does not think we can because the individual has rights and if you order a drug test without suspicion, it is invasive. Mr. Rachal said he believes the cost could be substantial if anyone is driving a CPSB vehicle and has an accident. Mr. Abrams reminded him that if someone is in an accident and an officer smells alcohol, that is reasonable suspicion and will send them for a drug test, and officers also know what to look for in use of drugs. Mr. Rachal said he believes it is the unintentional consequences that will sneak up on one and is what concerns him.

Section E CPSB Policies. Mr. Abrams explained that 8.04 is the entire Section E of CPSB Policies and when reviewing them, he noted the policy that states all Caddo Parish property shall be a smoke-free/tobacco-free environment period. He reminded the Board that years ago a move was made to convince the School Board to make all its properties smoke-free/tobacco-free and the Board chose to approve smoke-free/tobacco-free with the exception of areas designated as smoking areas (and Forethought did not include this in the policies submitted). He also stated that if all CPSB properties are smoke-free/tobacco-free, that includes Central Office, football stadiums, parking lots, etc. Further, he explained that Policy KF (Item 8.05) was in the Section K policies approved by the Board in the fall, and it declares all CPSB property to be smoke-free/tobacco free and does not include the "except for in designated areas". The proposed revisions state it will be a smoke-free/tobacco-free environment except in areas designated by the Board. Mr. Abrams also explained that the Section E policies state the District must put up signs informing everyone that it is a smoke-free environment so he is recommending this be revised.

Ms. Trammel asked who will enforce this at the school sites, will the policy be posted? Mr. Abrams stated that the new language also includes vapor cigarettes and devices; and relative to smoking in public buildings, that was outlawed and is no longer allowed; and designated areas should be determined at the building site by the building administrator.

Mrs. Bell stated she does not understand “prohibit”, because at all school functions smoking is not allowed yet are we going to designate a place for people to smoke? She said everyone knows you do not smoke on a school campus, and she doesn’t understand why we have to designate an area if there is no smoking on a school campus or any school board property.

Mr. Rachal asked Mr. Abrams the purpose for this change (to allow designated areas for smoking), and Mr. Abrams shared the history of the policy that the Board approved years ago to be smoke-free/tobacco-free except in designated areas. He also was not aware if the Board knew about this change that was different from what the Board approved years ago. He discussed it with staff when going over Section E policies and staff responded that it was not discussed. Mr. Abrams further stated he believes the policies should be revised to reflect what the Board approved and what was being done; and if the Board wanted to change it, they can do so. Mr. Rachal asked if the District is under any legal obligation to allow smoking on any properties, and Mr. Abrams responded it is not. Mr. Rachal stated he doesn’t believe this needs to be changed; and if it needs to be pulled to look at further and bring it back, he would be in agreement with that. He noted that Section E policies cover a lot and he has skimmed through it, but he believes the smoking issue is enough to postpone and allow Board members ample time to review the entire section. Dr. Goree added that his professional experience has been the entire District would be a smoke-free/tobacco-free environment; however, he has observed this is not the reality of what is happening in Caddo. He said there are designated areas and the question is if practices align with policy. Dr. Goree also said he believes this is an opportunity for the Board to be consistent with the direction we move forward in and it gives administration the authority to enforce the policy as approved by the Board. Mr. Rachal stated that his opinion is the District needs to be smoke-free, and Mr. Abrams clarified that the current policy KF approved by the Board in September 2014 says the District shall be smoke-free/tobacco free.

President Riall noted that as he looks at the 68 pages of Section E policies, he sees that these policies cover a lot of restrictions that are not being enforced. Following discussion, President Riall announced that Items 8.04 and 8.05 are referred to the CPSB Buildings and Grounds Committee for review. Mr. Rachal noted that policies in this section cover all Board committee areas, and Mr. Ramsey suggested that, since the Section E Policies cover numerous areas, the Policies be distributed to the appropriate committee for review. Ms. Trammel asked if it is permissible for two committees to meet jointly and it was confirmed that is possible.

Mrs. Brown noted the many things covered in Section E policies that the Board needs to look at more closely before making a decision and she would like to see this moved to the May agenda.

Proposed Revision to the 2014-15 General Fund Budget. Mrs. Bell asked Mr. Lee if dates have been set for the 2015-16 budget worksessions. Mr. Lee explained he is waiting to get the information from HR and principals relative to staffing, and he will get with the superintendent to revise the original timeline and send to the Board.

Mrs. Locke asked staff about the proposed changes in the General Fund budget. Mr. Lee explained that the revisions reflect the following items that have affected the 2014-15 budget since approved by the Board last May: increase in sales tax, increase in property taxes, 55 vacant SPED teacher positions, 70 vacant bus driver positions, the 2% pay increase for all employees, the one-time \$500 pay supplement (not the Christmas supplement), reclassifications of positions, security software renewal. Also reflected are an increase in legal fees, workers’ comp claims, Ombudsman contract, reduction in MFP amount due to reduction in the number of students, and shifting of some items from one line in the budget to another (the correct) line. Mr. Lee further stated that in the beginning of the fiscal year, the estimated fund balance was \$20,605,813; and the proposed revisions will increase the ending fund balance by approximately \$50,000, or a new ending fund balance of \$20,655,355.

Mr. Riall announced we are approaching a time when staff will bring the Board a proposed budget and a number of budget work sessions will be held to allow the Board ample time to discuss and ask questions.

July Board Meeting Date. President Riall announced that typically the Board holds only one meeting in July; and because a number of Board members will attend the Southern Regional Conference in July and will not return in time to meet on the 21st, he proposed that the July 21st board meeting be changed to Tuesday, July 28th.

Cost/Recovery Sharing Agreement-BTW Fire. Mr. Abrams explained the District has a \$1 million deductible on the BTW fire; and the School Board paid \$1 million for damages to the building. The insurance company paid \$1.6 million; and since the insurance company has conducted an investigation, they have obtained information which they believe will point to who actually caused the fire. This agreement is an attempt to recover the District's \$1 million deductible and utilize the expertise of the insurance company and their experts to do so; and this agreement states that the CPSB will share the cost with the expert retained. The recovery part will be that out of the \$2.6 million, we will have \$1 million and the percentages are based on how much Caddo paid and work together to try and recover the deductible amount from the other parties and their insurance companies. Mr. Abrams further explained there is an expense involved and each party will pay their own legal expenses. He will defend, on an hourly basis, the District and anticipates the legal fees will be minimal.

Mr. Rachal asked Mr. Abrams what Caddo's cost will be and if he believes the insurance companies will do a good job at recovering the money. Mr. Abrams responded that he believes the insurance company will do a great job at recovering the money, because they have hired the expert and the District has no access to the expert. Mr. Rachal asked if it will be a single lawsuit, and Mr. Abrams said it will be a single lawsuit. Mr. Abrams will prosecute the suit on behalf of Caddo to get our money back, and he believes the cost will be minimal since they will do everything to resolve the case without going to litigation.

Mrs. Douzart asked is it possible to reduce the deductible? Mr. Abrams said it is possible, and the District has had lower deductibles; however, because Caddo Parish has done very well with property claims, if you reduce the deductible, the premiums will increase. He further stated Caddo has a high deductible for claims (personal injury claims), but because we have very good negotiations, the District has not had any very expensive claims with exception of one last year.

2015-16 School Year Calendar Revisions. Mrs. Bell inquired about the removal of November 3 (election day) from the calendar. Dr. Goree explained the election is actually on a Saturday and not on Tuesday, November 3. Mrs. Locke asked about the number of school days required in the calendar as well as the number of snow days built into the calendar. Dr. Goree explained the state requirement of 63,720 minutes and the calendar provides for that many instructional minutes as well as enough minutes to allow for up to three days of bad weather. Miss Green confirmed that it is being recommended to not have the February 8-10 for Mardi Gras, and Dr. Goree confirmed that is correct. Miss Green also asked if the area colleges will be on Spring Break at the same time. Dr. Goree said all college Spring Break dates are different, so their dates were not considered. Mrs. Kirschvink asked if the calendar has been publicized and Dr. Goree confirmed it has been; but changes have come at this time of the year for the next school year as a result of the State releasing testing dates. He also said he believes the community will be excited about the fact that Caddo and Bossier will have the same Spring Break since it has been an issue in the past. Mr. Riall asked if 176 days is ample and Dr. Goree responded it is believed this proposed calendar will meet the District's needs. Mr. Riall also noted that Mike Johnson has filed a bill which would allow the school to get snow days free if the Governor declares a state of emergency due to weather conditions.

Authorization for Solicitation of Property Lease of M.J. Moore. Miss Green asked if this is the same lease with the church. Dr. Goree explained the District has a three-year lease with the church and that lease is now at an end on this public property. As a result, the lease must be put out for bid even though it is possible the same church could re-lease this property. Miss Green asked how much the church has paid for the current lease, and staff responded \$3,000 a month.

Authorization for use of Online Auction Services. Mr. Rachal asked staff to clarify our responsibility for delivering auction items or if it is the buyer's responsibility. Lisa Lloyd explained that Caddo is not responsible for delivery to the buyers; however, the normal salvage process allows for items to be picked up from the schools. She further explained the services are online and the buyers of online salvage items are responsible for picking them up. While he knows the agreement is with the company and not the buyer, he does not want the company to advertise that Caddo will be responsible for delivery. Mrs. Lloyd will follow up.

Mr. Riall asked if this is the same item previously brought to the Board, but the Board did not do it because it was not legal. If so, he asked what is different that makes it legal? Mr. Abrams explained that all lawyers have reviewed the agreement and one area of clarification is the Board will declare when items are surplus and when they will go to salvage. Mr. Riall stated in the past, items that did not sell were given to a salvage contractor; and asked if this will still happen. Mrs. Lloyd explained it is hopeful that the online salvage services will provide the District with more tags for more people to see the items; and hopefully we will be able to sell more of the salvaged items. She said it also provides the benefit of schools being able to access the web site and look for things they may need before the items are released for bid. Mr. Riall asked if he understands correctly that anything that does not sell will continue to go to a salvage contractor. Mrs. Lloyd said that stipulation is in the agreement with the gentleman that moves our salvage equipment and is part of his contract. Mr. Riall asked if his contract is approved by the Board and Mr. Lee said because the amount has been little, it never has been brought to the Board. Mr. Riall stated that his only concern is the fact that people have called to let him know the salvage contractor was selling almost new items at auctions in Texas and making money off these items. Mrs. Lloyd said that is another reason she is interested in going to the online auction services, because she believes these newer items can be repurposed in Caddo. Mr. Riall asked that before we renew a contract with a salvage contractor in the future that it is brought before the Board. Mr. Abrams explained that he will look at it further. Mrs. Lloyd further explained the responsibility the salvage contractor has in removing all the salvage items that do not sell in the auction. Mr. Abrams stated that if you use an online auction service he doesn't believe you would need the services of a salvage contractor. Mrs. Lloyd responded not necessarily because salvage items could be stored in a location where schools and/or buyers can pick up the items.

Mrs. Brown commended the superintendent and his staff for moving into the 21st Century.

Mr. Ramsey asked staff to explain what happens with what is left after the salvage sale – are the items given to Goodwill, are they given away to employees? Mr. Lee stated that is one of the reasons why the District has used the services of a salvage contractor, because we cannot give the items away to employees or anyone else (other than technology equipment to students). Mr. Abrams said he believes this online service will eliminate a lot of the moving of items.

ADDITIONS

Miss Green asked that an item be added to the agenda to address a resolution opposing elimination of payroll deductions of professional dues. Mr. Abrams announced he will make some minor changes to the previous resolution approved by the Board and present something for the Board's consideration on April 21st. Mr. Rachal asked for clarification on this item and if the proposed legislation is for all government employees or state employees. Miss Green responded that it is for the professional organizations. Dr. Goree explained that Caddo's resolution will

only speak to Caddo Parish employees and the partnership to collaboratively work with our employee organizations. Mr. Abrams stated he will review the proposed legislation.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

Mr. Riall announced that the following items are referred to the CPSB Building and Grounds Committee: 8.04 Approval of CPSB Policy Manual Section E-Support Services and 8.05 Proposed Revision to CPSB Policy KF (Use of School Facilities). He further stated that Item 8.06 “Employee Appeal of Disciplinary Action in Accordance with Policy GDPD” is pulled and Items 6.02, 7.01, 8.03 and 8.07-8.13 are the consent agenda.

Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the April 21, 2015 CPSB meeting as presented. Vote on the motion carried.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the Board on the calendar and the payroll deduction of employee organization dues. Mrs. Lansdale stated that the calendar must have 63,720 instructional minutes and if there are 360 instructional minutes a day, this will provide 177 contact days. She further stated that typically in a traditional calendar there are 178 days to offset for any inclement weather days. Noting that this year was different than most years, she stated that legislation is being filed in this year’s Session to address this. She asked and encouraged the Board to look at, before the next calendar, ways the calendar can work for us, and suggested that we look at other districts and how they stretch out their school year and how they use the breaks for remediation, etc. Relative to the payroll deduction of employee organization dues, Mrs. Lansdale reminded the Board that it graciously approved this resolution last year; and in State Government’s continued overreach into local politics to tell Districts what to do, she encouraged the Board to support the resolution on the agenda.

Update on Amazing Shake. Billy Snow shared an update on the Amazing Shake Program and the Transformation Zone’s efforts to change the climate and culture of each school by using Ron Clarke’s Essential 55 to teach the students great social and etiquette skills. He further reported that their efforts to improve academic performance not only focus on social and etiquette skills, but also communication skills and confidence. Mr. Snow explained that the Amazing Shake Contest was implemented in each of the Zone schools; and in the first round of the contest, students were judged on working a room of community members and business leaders on handshake, eye contact and back and forth communication. At this level the top five from each school then moved forward in the contest by working a room of attorneys and being judged on the same (handshake, eye contact and communication) as well as an interview question (What would you like to do if you were President of the United States or Who in your family would you help and why?). Mr. Snow announced the next round is Friday, April 17th, and the top two students from each of the Zone schools will be at KTAL at 6:30 a.m. where they will participate in the morning newscast and the morning show. After the newscast, each student will read a script and be judged on their contact with the teleprompter and television camera, presence on the camera and their skills. After this round of the contest, Mr. Snow reported the top student from each campus will go to the Federal Court House on May 4th to argue the case of the innocence of the big bad wolf; and on May 11th, the top 10 students will emcee the Most Improved Student Awards Ceremony sponsored by Red River United, with a team of Transformation Zone students also providing the entertainment.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:18 p.m.*

April 21, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, April 21, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Bonita Douzart was absent. Mrs. Poljak led the prayer and Pledge of Allegiance.

**CONSIDERATION OF MINUTES OF THE DECEMBER 16, 2014 (CORRECTED),
MARCH 10, 2015, MARCH 17, 2015 AND APRIL 14, 2015 CPSB MINUTES**

Mrs. Brown moved, seconded by Ms. Trammel, to approve the minutes of the December 16, 2014 (corrections to), March 10, 2015, March 17, 2015 and April 14, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Autism Awareness Month. Students from Caddo Middle Career and Technology Center shared a special presentation "Understanding Autism through the Eyes of an Educator, Parent and Student". Autism specialist Lisa Davidson shared with the Board that autism is a growing disability and the number of students with autism in Caddo has increased significantly over the past few years. Autism is a neurodevelopmental disorder characterized by deficits in social interactions, communication and restricted or repetitive patterns of behavior; and it is a spectrum disorder and the severity is from very mild to very severe. Affecting 1 in 68 children, Ms. Davidson further stated that it is five times more likely to be seen in boys than girls, 1% of the World population has autism spectrum disorder, and more than 3.5 million Americans have been diagnosed with autism spectrum disorder. She also reported that there are no medical tests for diagnosis and there is no cure, even though in recent years there have been significant breakthroughs in treatment of this disorder. Caddo Parish has over 300 students with autism spectrum disorder, and the district also supports students with developmental delay exhibiting characteristics of autism. Some of Caddo's students have dual exceptionalities of Gifted or Talented and are in the magnet programs; there are 31 classrooms for students with autism; and they support students with autism on almost all campuses in Caddo. Ms. Davidson also reported that staff works hard to stay abreast of the latest research since there are multiple areas in which students with autism are affected and they require different research-based strategies and interventions to learn.

Angela Coleman, parent, shared there have been many ups and downs since her son was diagnosed with autism. Originally from Shreveport, they moved back to Caddo from New Orleans before Hurricane Katrina, and she has been a very involved parent by sharing her concerns about children with autism. She also noted how elated she was when her son was enrolled in CMCTS because she knew of the changes Mr. Pradel had made for the students to understand socialism and help them to see their strengths and build them up. She said her son is now at Booker T. Washington High School and currently has all A's; and she believes if everyone works together, this can happen for any student. She expressed her gratitude for Caddo Parish Public Schools and what they have done to help her son be successful in school.

Student Santana Johns and Teacher Ronald Pradel shared a memory and mental math presentation to showcase Santana's memory and mental calculation skills.

2014-2015 Poster Contest Winners. Mr. Strother stated that the Security Department sponsored several poster contests over the 2014-2015 school year and the following students were recognized as Grand Prize Poster Contest winners. Character Education Grand Prize Winners – Tradevius Mims, Cherokee Park; Lanaya Bolden, J. S. Clark; and Chandler Williams, Byrd. Red Ribbon Week Grand Prize Winners – Riley Quinlan, South Highlands; Tatiyana Timmons, Caddo Middle Magnet; and Jalan McCullum, North Caddo. Mental Health Awareness Grand Prize Winners – Zakiyah Rayson and Daveiouna Shipley, Cherokee Park. Bullying Prevention Grand Prize Winners – Emma Bishop, Riverside; Destinaey Poole, Caddo Middle Magnet; Madelyn Greenleaf, Byrd; and Sarah Ilgenfritz, Caddo Career & Technology Center. Suicide Prevention Grand Prize winners are Dajha Williams, Westwood; Brianna Merritt, Westwood; and Cassie Snow, Captain Shreve.

Cora M. Allen 8th Grade Essay Contest Winners. The following students were recognized as the 2015 Cora M. Allen Essay contest winners: Niyah Dorsey, Caddo Middle Magnet; and Misaab Wadi and Alexandra Zagzoug, Youree Drive Middle AP Magnet.

2015 Colonial Dames Essay Winners. The National Society of the Colonial Dames of America recognized the following students from Byrd High School as the winners of the 2015 Colonial Dames Essay contest: Grey Bianca, Brett Venable and Alex Williams. Susan Gage, Patriotic Services Chair, announced these students will receive a scholarship to attend the week-long Congressional Seminar Workshop planned and coordinated by The Washington Workshops Foundation in Washington, DC, June 20-26, 2015.

Two One Class at a Time Winners. The following Herndon teachers were recognized as the latest KTBS "One Class at a Time" \$1,000 winners: Laura Bearden and Michelle Weddleton. Ms. Bearden will use the money to expand her current classroom technology and Ms. Weddleton will use her money to buy the circuit kits the children are working on right now.

Special Presentation to Bonita Crawford. President Steve Riall recognized and presented Bonita Crawford, former CPSB District 8 representative from 2004-2014 and past CPSB President, with the Exemplary Service Award for her commitment to education and for service on the Louisiana School Boards Association Board of Directors.

2014-2015 Caddo Schools Administrative Interns. Dr. Mary Nash-Robinson, chief of staff, introduced the following 2014-2015 Caddo School Administrative Interns: Sommer Anderson-Picou, Denise Chaney-Pleasant, Neely Claassen, Kylie Cotton, LaShonda Diouf, Nicolette Doughty, Joni Ellzey, Estelle Green, Eddie Hamilton, Debria Jackson, Jackie Jones, Anthony Kimball, Teniesha Mahoney, Felicia O'Neal, Melanie Randall, Denise Schule, Karen Smith, Nicole Stewart, and Sonia Williford.

Newly Appointed Administrator. Charles Lowder, director of certified personnel, introduced and welcomed Glen Colvin, newly appointed principal of Shreve Island Elementary School.

VISITORS

Jackie Lansdale, president of Red River United, read a letter addressed to the members of the Red River United teachers and support personnel regarding the upcoming bond initiative on the May 2nd ballot. The letter pointed out that, if passed, the proposed bond issue will free up monies for salaries and benefits, add jobs to the local economy, more students equal more state funding, and it will demonstrate public support on future proposals. She added that Caddo, through all of its ups and downs, still attracts 95% of all Caddo Parish students. She believes

that taxpayers not vested in the school system become reluctant to support public schools with their tax dollars; and when this happens, the quality of the school system is severely impacted. In the letter she reminds her members that Caddo has enjoyed the support of the students, parents and taxpayers of the District; and almost every time they have been asked, they have supported the school system with their children and tax dollars, and the entire system reaped great rewards. Mrs. Lansdale also noted in the letter that it was in 1997 when an attempt was first made to build a school in Southeast Shreveport, and the proposition did not pass. Since that time, attempts were made to address it; however it has become very clear that the Southeast part of the District has steadily grown; and the students in Southeast Shreveport deserve a school. She noted the difference with Blanchard in their growth as a result of I-49 and the students in the Blanchard area also deserve it. Parents and students deserve to have schools in their part of the district, and taxpayers deserve to have their dollars shared with the community. With the situation in Highland being a little more sensitive, Mrs. Lansdale noted that the issues of attendance, age of buildings and limited funds were considered; but noted that that many Caddo students come from at-risk situations and she believes it would be glorious if the message could be conveyed to the students in Highland that the District wants to provide for them only the very best. She added that students deserve up-to-date science labs, and multi-purpose rooms are needed because students are expected to be at school despite the hottest month(s). Knowing that the money is part of an existing millage, she further read from the letter that this is not from the General Fund where salaries are located; and because upgrades will not come from the General Fund, this would actually provide relief to this part of the budget. The letter reminded everyone that buildings and upgrades bring economic stimulus for all involved, i.e. carpenters, electricians, etc.; and the 5% of the students not currently attending public schools decide to attend Caddo Parish Public Schools because of a new neighborhood school, then there will be more students in Caddo as well as more funding from the State. Also, because salaries have suffered, Mrs. Lansdale stated that the Red River United has not forgotten and in visiting with Superintendent Goree, a number of items, i.e. maternity benefits separate from sick leave, methods for pay increases, preK across the board for all schools, etc. had been discussed and they are gathering research for bringing proposals. To go forward with the ideas, Mrs. Lansdale stated that the students, parents and taxpayers and the RRU members are on board to support the District and they can do so on May 2nd by voting like their future depends on it, because it does. She reminded her membership that this is a buy-in, not a sell-out, of all that Caddo is and all that Caddo can be.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

President Riall announced that Item 8.01 Property/Bus Rental Requests is pulled and Items 6.01-6.03, 7.01 and 8.02-8.11 are the consent agenda.

Ms. Trammel moved, seconded by Mr. Rachal, to establish the agenda and proposed consent agenda for the April 21, 2015 CPSB meeting as presented. Vote on the motion carried.

Mr. Rachal said there were a couple of items referred to committee during the work session and he asked if that would be discussed tonight. Mr. Riall said Board members will be contacted on moving forward with this.

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Ms. Trammel, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on consent agenda items.

Item No. 6

6.01 Personnel Recommendation. The board approved the personnel recommendation (payroll manager) as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transaction Reports. The board approved the personnel transactions reports for March 1-31, 2015 as recommended by the superintendent and submitted in the mailout.

6.03 Request for Leave Without Pay. The board approved a request for leave without pay as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing. The board approved the following bids as recommended by the superintendent and submitted in the mailout on the bid tabulation sheets: (1) Lees Transmission for the purchase of Transmission Repairs; (2) BSN Sports for the purchase of Football Uniforms – Captain Shreve High School; (3) Multiple Vendors for the purchase of Canned and Frozen Food, Fish, Poultry, Eggs and Meat; (4) Multiple Vendors for the purchase of Food Service Paper and Supplies; (5) Dahmer Powertain, Inc. for the purchase of School Bus Engines; and (6) Lott Oil for the purchase of Antifreeze. *A copy of the bid tabulation sheets is attached and made a part of the permanent record of the April 21, 2014 CPSB meeting.*

Item No. 8

8.02 Out of State Travel. The board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Revision to CPSB Policy GBCB (Alcohol and Drug Testing Policy). The board approved the proposed revisions to CPSB Policy GBCB (Alcohol and Drug Testing Policy) as submitted in the mailout.

8.04 2014-15 General Fund Budget Revision. The board approved the proposed revisions to the 2014-15 General Fund Budget as recommended by the superintendent and submitted in the mailout.

8.05 July Board Meeting Date. The CPSB moved that the board only meet once during the month of July 2015 and that the meeting will be held on Tuesday, July 28, 2015.

8.06 Cost/Recovery Sharing Agreement – BTW Fire. The board approved the proposed agreement for sharing expenses and any claims recovery related to the fire at Booker T. Washington High School last July (2014) as recommended by the superintendent and submitted in the mailout.

8.07 2015-16 SY Calendar Revisions. The board approved the proposed revisions to the 2015-16 School Year Calendar as recommended by the superintendent and submitted in the mailout.

8.08 Authorization for Solicitation of Property Lease of M.J. Moore. The board moved to authorize staff to move forward in the solicitation for a property lease of M.J. Moore School in accordance with Board policy as recommended by the superintendent and submitted in the mailout.

8.09 Authorization to Sell Use Motor Oil. The board moved to authorize staff to move forward in selling used motor oil and antifreeze in accordance with Board policy and as recommended by the superintendent and submitted in the mailout.

8.10 Authorization for use of Online Auction Services. The board moved to authorize staff to move forward in implementation of the use of Online Auction Services as recommended by the superintendent and submitted in the mailout.

8.11 Resolution Opposing Elimination of Payroll Deduction of Professional Dues. The board approved the resolution opposing the elimination of payroll deduction of professional dues as submitted in the mailout. *A copy of the resolution is filed in the permanent record of the April 21, 2015 CPSB meeting.*

SUPERINTENDENT'S REPORT

Update on Collaborations with the RSD. Dr. Goree referenced the Amazing Shake Program's finalists on the Channels 6 and 12 on Friday and that following eliminations, finalists will advance to an exercise at the Federal Court where they will hear the case of the Big Bad Wolf. He added staff continues to look at and forward to exposing the students to new experiences. He also announced that next week one of the University of Virginia representatives will come to Shreveport to conduct some late Spring evaluations as well as to receive some additional professional development from UVA before the school year ends.

UNFINISHED BUSINESS

Mr. Rachal asked if there have been any recent meetings with the RSD for additional guidance. Dr. Goree responded that staff meets with them via telephone conferencing monthly and Mr. Snow has weekly phone conferences with the RSD. Today, all progress is positive toward what the District is doing and no corrective action has been noted. Dr. Goree further stated they will be back in town to meet with key staff persons and groups of community persons to talk about the work being done in the Transformation Zone. He further reported there will be conversation regarding the predictions about the performance of the schools within the Zone and why we believe the students will make the advancements predicted. Mr. Rachal asked if any additional requests will be made of the RSD regarding any schools, and Dr. Goree said staff envisions and proposes adding two elementary schools to the Transformation Zone and its work; however, staff has not determined how this will be financed.

Mr. Riall stated that in response to Mr. Rachal's inquiry about the items referred to Board committee, Mr. Howard will get with the committee chairs and decide on how the issues need to be addressed in each committee, followed by individual committee meetings to address issues specific to their committee. Mr. Rachal noted that he discussed with the Superintendent the formation of a committee comprised of the chairs from each Board committee specifically for this (review of Section E of the CPSB policy manual) and asked if he understands this correctly. Mr. Riall said he doesn't believe there would be a formal committee appointed to address the issues. Mr. Rachal shared his thought that appointing a formal committee would be the way to address and the committee would bring a formal recommendation to the Board for action. Mr. Riall asked if there would need to be formal action by the Board, and Mr. Abrams explained that as Board President he can appoint such a committee. Mr. Riall announced that he is appointing the chair of each Board committee to serve as a member of the committee to review the policies; and after the committee meets, each member of the committee (chair of Board committees) will take the information relative to each specific committee back to that committee to address.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that the Insurance and Finance Committee will meet the second week of May, that the 12 commissioners have selected students in Caddo to shadow them on Thursday, and stressed the importance of supporting the Huntington High School band as they represent Caddo and the State of Louisiana in Washington D.C. She urged all who can to help this Caddo high school band make the trip.

Miss Green expressed appreciation to Mary Wood for her assistance in putting together information for her community meeting, as well as Councilman Willie Bradford who co-hosted the meeting. Miss Green also asked that staff provide her a timeline on the remodeling of her district with Linear and Northside. Miss Green also announced that if there are voters in Board members' districts who need assistance getting to the polls, the deadline to request transportation is April 29th.

Mrs. Bell reminded everyone that April 30th is the deadline to apply for summer jobs for the city for students ages 16-21.

Mary Trammel reminded everyone about early voting through April 25th.

Mrs. Kirschvink announced that she had early voted and pointed out Mrs. Lansdale's comment "to vote like your future depends on it, because it does." Noting that the entire district will benefit from the bond initiative, she encouraged everyone to pay close attention to this vote.

Margaret Brown thanked Mary Wood and Bill Strother for providing information for her district.

Mr. Riall announced that 2014 training certificates are at Board member stations indicating hours earned in 2014. Also, Mr. Riall said there is correspondence at Board member stations relative to the high school graduations and Board members should turn in their information before leaving tonight. Mrs. Bell expressed her concern that Board member participation on the stage is limited to a particular Board member when a Board member may have relatives graduating and the possibility of Board members being able to participate in more than just their particular school's graduation. Mr. Riall asked Dr. Goree to address.

Dr. Robinson reminded Board members that they need to review the four Charter School applications and announced that the charter review committee will meet on Thursday, April 23rd for interviews and one interview on May 1st. She also announced that since Caddo's decision must be submitted to the State by June 4th, this item will be on the May Board agenda for action. Board members were reminded that the month of May is the time for many events in the schools and encouraged them to attend these functions whenever possible.

EXECUTIVE SESSION

Student Readmission Appeals. *Ms. Trammel moved, seconded by Miss Green, to go into executive session for up to 15 minutes for each hearing. Vote on the motion carried and the Board went into executive session at approximately 5:57 p.m.*

The board reconvened in open session at approximately 7:15 p.m. *Mr. Ramsey moved, seconded by Mr. Rachal, that the student expulsion (B.D.) be upheld and that the student go to Ombudsman for the rest of the expulsion and be allowed to go to summer school and graduate from Caddo Magnet High School if he earns the necessary credits with the condition that the principal approves and gets approval for any subject and dates that he has missed excused and that the District gets State approval for this process.*

Mrs. Locke asked for clarification on how the student will receive a diploma from Magnet if he never returns to Caddo Magnet, and Mr. Abrams confirmed that his diploma will state from Magnet High.

Ms. Trammel asked how will all the absences be addressed? Mr. Abrams stated that along with Attendance, the principal will complete the form for Pupil Progression and determine if dates are waived or if dates need to be made up.

Mrs. Brown moved, seconded by Dottie Bell, that the Board uphold the recommendation brought by the Attendance and Census Department. Mrs. Brown shared her concern that the Board is getting into something that will involve more legal process and the Board does not need to get into making laws and policies tonight, but leave following the law and policy up to staff in addressing these issues. Mrs. Bell stated her agreement with Mrs. Brown, and that magnet policies state.... Mrs. Brown called for a point of order that her motion is to uphold the recommendation from the Attendance and Census Department and not continue discussing policy which is where the conversation was before her motion, as she believes the Board needs to leave following the policy to staff when they bring a recommendation to the Board. Mrs. Bell again stated her agreement with Mrs. Brown's motion because the Board makes policy which instructs the Attendance and Census Department on how to address these issues.

Mr. Rachal asked for a point of clarification and if Mrs. Brown is upholding what staff has recommended (going to Ombudsman), because that is what the original motion states. Mrs. Brown explained that she believes everything said can be applicable to the situation but stating the direction in the motion is not necessary since staff will do what is needed to assist the student. Mr. Rachal further stated that the recommendation from staff is for the student to attend Ombudsman to get the hours and credits needed, and he is asking if Mrs. Brown is in agreement with that. Mr. Riall said the substitute motion is to uphold the original staff recommendation relative to the expulsion. Mrs. Brown stated that this matter has been amply discussed and she believes everything that has been discussed is good and positive for this student, and she believes the recommendation from Attendance and Census allows for this student to complete his education.

Mr. Anderson restated the recommendation of staff to uphold the hearing officer's expulsion, and Mrs. Brown said that is what her motion does – uphold the recommendation brought from staff. Mr. Rachal said he believes Mr. Ramsey's motion does the same thing. Mr. Riall explained it is being noted that the substitute motion does exactly what the original motion does and Mrs. Brown agrees, but rather than putting all the changes in the motion, she believes the Board only needs to uphold the recommendation from staff and allow staff to work with the student to achieve what is necessary for him to earn his required credits. Mr. Abrams verified that Mrs. Brown's motion is to uphold staff's recommendation with directions that Academic Affairs works with the student to achieve the credits necessary for him to graduate and leave it up to staff to determine how it can happen. Mr. Abrams also stated that he is unsure whether or not the student can actually receive his diploma from Caddo Magnet. Mr. Rachal asked if Mrs. Brown is o.k. with what has been discussed and agreed upon, and Mrs. Brown withdrew her motion and Mrs. Bell withdrew her second. Mrs. Brown added that the Board is tying staff's hands by adding everything to the motion.

Mr. Rachal asked if what the Board is hoping to accomplish is what is stated in the motion and that is if he finishes his hours, he can get a diploma from Magnet High. Dr. Robinson responded that she cannot 100% guarantee the diploma will say Caddo Magnet High; however, if so directed by the Board, staff will vow to help him get a high school diploma from Caddo Parish. Mr. Rachal asked if the motion states "to accomplish this and have a diploma from Magnet High", isn't that what we would do. Mr. Ramsey said the key is "state approval."

Mr. Ramsey withdrew his original motion and Mr. Rachal withdrew his second, and *Mr. Ramsey moved, seconded by Mr. Rachal, to uphold the expulsion and that Academic Affairs works with Attendance and Census in order that the student will graduate with a diploma from Caddo Parish if he is able to attain if possible the necessary credits.* Mr. Ramsey stated he understands the Board has policies and the Board has on occasion elected to make exceptions; and this new motion does not violate any state statutes. *Mr. Ramsey moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Mrs. Brown opposed.*

Vote on the motion carried with Board member Bell opposed, and Board members Riall, J Green, Poljak, Trammel, R Green, Locke, Rachal, Ramsey, and Kirschvink supporting the motion. Board member Margaret Brown abstained.

Ms. Trammel moved, seconded by Mrs. Poljak, to go back into executive session. Vote on the motion carried and the Board went into executive session at approximately 7:38 p.m.

The board reconvened in open session at approximately 8:05 p.m. *Mr. Ramsey moved, seconded by Mr. Rachal, to uphold staff's recommendation on student with initials N.D. Vote on the motion carried with Board member Brown abstaining.*

Ms. Trammel moved, seconded by Mr. Ramsey, to go back into executive session. Vote on the motion carried and the Board went into executive session at approximately 8:07 p.m.

The board reconvened in open session at approximately 8:26 p.m. Mr. Ramsey moved, seconded by Mr. Rachal, to uphold the decision of the committee for expulsion for student whose initials are J.B. Vote on the motion carried with Miss Green opposed and Board members Riall, Brown, Poljak, R Green, Locke, Rachal, Ramsey, Kirschvink and Bell supporting the motion. Ms. Trammel abstained.

Adjournment. *Mr. Rachal moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 8:28 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

May 5, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, May 5, 2015 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey and Kacee Kirschvink. Also present were Dr. Lamar Goree, superintendent, and Julie Lafargue, legal counsel. Mrs. Douzart led the prayer and Pledge of Allegiance.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE MAY 19, 2015 CPSB MEETING

Superintendent Lamar Goree highlighted items for the Board's consideration at its May 19, 2015 CPSB meeting and the following discussion ensued.

Purchasing Bids. Susannah Poljak asked if the HVAC filters bid is for all schools, and Dr. Goree responded this is a general budget item and the bid covers the purchase of filters for all schools. She also asked if the bid for marker and bulletin boards is for all schools as well, and Dr. Goree explained that these items are already in the budget and the bids are for purchasing the items. Mrs. Poljak asked if this replaces all the marker and bulletin boards in all the schools, and Mrs. Lloyd explained it is for those that need to be replaced as schools request them, and the estimated amount is for the entire district based on past usage. Dr. Goree added that not all schools will request replacement. Dottie Bell asked staff to explain the bid to recondition the football helmets, and Mrs. Lloyd explained that the company reconditions the helmets by replacing the pads inside the helmets, repainting, etc. to make sure the helmets are in compliance with required standards and safe for the students. Mrs. Bell asked about schools that are lacking in football helmets, and Mrs. Lloyd explained that every year each school has an allotment for reconditioning and any funds left over are redirected to purchase new helmets.

Construction/Capital Projects Bids. Mrs. Bell expressed her appreciation that the Walnut Hill restrooms are placed on this list because of the great need.

Mr. Green asked if the projects listed are for the next school year, and Dr. Goree responded that these projects have already been approved by the Board and are now being put out for bid.

Adopt Millages for 2015. Mr. Rachal said he wants the public to know that this 2015 millage reflects results of the May 2nd vote and will be effective for the current year, with the millages dropping one mil.

Resolution Giving Preliminary Approval to the Issuance of General Obligation School Refunding Bonds. Mr. Lee explained that this is another in a series of school bonds and the last of the 2008 bond issue that has not been refinanced. He stated that at this time it is estimated that refunding these bonds will mean an additional \$400,000 in savings to the taxpayers, bringing the total savings through refinancing since 2002-03 to \$6.6 million. Dr. Goree complimented Mr. Lee and his staff for continuing to look for opportunities to save money for our taxpayers.

Mrs. Poljak asked if she understands this is borrowing monies to pay down the debt and the monies borrowed will be financed at the lower rate. Dr. Goree said that is basically correct.

Mr. Rachal asked Grant Schlueter, bond counsel with Foley Judell out of New Orleans, to address this item. Mr. Schlueter explained that this is a refinancing of the 2008 bond issue and it is not a debt extension but reduces the annual payments each year by taxpayers. He said after the approval by the Bond Commission and if the market is right, they will proceed to lock in the

savings to maximize savings to the taxpayers. If the market is not favorable, they will continue to monitor it and bring it back to the Board when rates are sufficient to maximize savings.

Mr. Rachal asked Mr. Schlueter how Caddo's rating compares with other districts across Louisiana. Mr. Schlueter responded that Caddo has an AA- rating and not many school boards have a higher rating (AA), and only a handful have the AA- rating. Mr. Rachal asked if this is directly attributed to how Caddo has managed its money, and Mr. Schlueter stated it is and they take into consideration the area's economy and the District's ability to maintain a healthy fund balance and AA credit rating, which is something the District has the ability to control.

Mr. Rachal asked if this is the last series of refinancing the 2004 bonds and Mr. Schlueter said it is. Mr. Rachal expressed his appreciation to Mr. Schlueter, Jim Lee, the Superintendent and the Board for staying on top of these savings opportunities and that he would expect to see this, and other good things that are going on in Caddo, in the media. Mr. Schlueter added that the bond rating directly relates what the taxpayers are paying for outstanding bonds and that because of refinancing almost every year at a lower interest rate, the District has seen a cumulative savings of \$6.6 million; and if the District did not have a high credit rating, it would not have been able to take advantage of a reduced interest rate.

Sales and Use Tax Commission 2015-16 Budgets. Mr. Rachal asked Mr. Lee how costs are allocated to us and do we pay 28% of the actual cost to the commission. Gail Howell, sales tax commission administrator, explained these are fees for services rendered; and the city and the school board are a joint commission and they fund the commission based on the sales tax revenue collected on an annual pro-rated basis. She said the school board pays 28%, the City 42% and fees for collecting on the smaller jurisdictions at 1% each which goes into reducing the fees for the City and the School Board. Attorney fees for collecting delinquent taxes are also included.

Special Revenue Budgets. Mr. Rachal noted that these special budgets represent over \$2 million in grants that staff (teachers, counselors, principals) have written and received to bring extra dollars into the parish.

Approval to Begin Process to Name the Fair Park Gymnasium for Clem Henderson and Ron Preston. Mr. Riall announced that this item will begin the 90-day process required for naming one of a school's buildings after someone. He also said a public hearing will be held at the meeting 30 days prior to the Board voting on it.

Approval of Lease of M.J. Moore. Superintendent Goree stated that a church group currently leases the facility; however, because the end of the lease is near, it is necessary for the District to go out for bids on the lease to renew it.

Authorization for Property Purchase Negotiation. Mr. Woolfolk explained that the District has acquired all but one last piece of property on Kings Highway adjacent to the Byrd property, and acquiring this last piece of property will afford the ability to add a building for the Byrd Athletic Complex as well as additional parking. Miss Green inquired about the cost of \$117,000 and what did the District pay for the last house purchased on Kings Highway. Mr. Woolfolk stated that this piece of property's appraised value is \$117,000 which is similar to the last appraisal on one of the pieces of property on Kings Highway. Miss Green asked what the appraised price was of the previous purchased property on Kings Highway. Steve White responded the appraised value of the last piece of property was \$107,000, and the C. E. Byrd Athletic Foundation purchased that piece of property for approximately \$180,000 and the CPSB paid the appraised value of \$107,000 to the Athletic Foundation. He further stated that at this time, the property is still owned by the Athletic Foundation; but, he understands it is in the works to transfer that property to Caddo Parish. Once this property is acquired, Mr. White explained

that the only property the school district will not own in the block from Kings Highway to Creswell, Kings Hwy. to Gladstone and Line Avenue to Creswell is three pieces in the corner of that block (corner of Kings Highway and Creswell). Miss Green asked about the construction she sees taking place, and Mr. White explained the only work staff has done was over Spring Break and involved removing the trees from it; and the actual construction is scheduled to begin on May 7th after seniors are out. He also stated that the housing bought by the Athletic Foundation is currently being jacked up for moving, but this is being handled by the Byrd Athletic Foundation and not Caddo.

Mrs. Brown inquired as to the high cost of this property, and if there are any royalties involved in the stated property. Also, she would like to know who is doing the appraisals. Dr. Goree responded that it was appraised and is a fair market value for property located on Kings Highway. Mrs. Lloyd reported that Phillip Moon with Moon and Associates is normally used for appraisals. Mr. Woolfolk stated a copy of the appraisal will be provided.

Mrs. Bell asked about the enrollment at Byrd and Dr. Goree stated it is approximately 2,217. She also asked if the property being acquired by the Athletic Association will provide additional parking, and Dr. Goree explained that the property purchased by the Athletic Association approximately one year ago will be parking; however, this property will not totally be used for parking, but for additions to the athletic facilities as well.

Oak Park Attendance Boundary Recommendations. Miss Green asked Mr. Woolfolk to explain the proposed boundary recommendations, and Mr. Woolfolk provided information on the history of Oak Park as a K-5 school and using the K-5 configuration when Oak Park was asked to grow its own by the 5th grade becoming the 6th grade, then the 7th grade and then the 8th grade. Having been in this process for three years, staff wants to provide them an attendance boundary for the middle school and it will reflect the K-5 attendance boundary.

Mr. Rachal asked staff what will the expected total student population be? Mr. Woolfolk responded approximately 820 and the capacity is approximately 920. Mr. Rachal noted that 85% of the 820 is 782 and staff set this as the goal. Dr. Goree added that the district ROTC headquarters is also housed at Oak Park.

Ms. Trammel asked about the change in boundaries and if this matter needs to be taken to a higher level. Mr. Woolfolk said it does not change any streets or roads and it is the same as it was for the K-5 three years ago. Ms. Trammel asked if this is a proposed method for increasing the population currently at the school, and Mr. Woolfolk explained that what staff wants to do is make certain there is a defined attendance boundary before a transition is made. He further stated that the middle school students were attending Werner Park and Lakeshore, but they lived in the Oak Park area, so new families in the Oak Park area not a part of the "grow your own" then they may not be able to stay at Oak Park. It now says if someone lives in the Oak Park attendance zone, you will attend Oak Park for Kindergarten through 8th grade. Ms. Trammel asked what this means for the magnet component. Dr. Goree explained that a magnet component remains for the Oak Park campus; however when Oak Park was reorganized, a decision was made that they would be able to add a grade each year (middle school), and the school has added the 6th, 7th and 8th grade and there is a need to establish the attendance zone for the 6th, 7th and 8th grade. Dr. Goree further stated that currently if 5th graders at Oak Park are promoted to the 6th grade, some of the students are staying at Oak Park; however, some are attending Werner Park or other schools. Ms. Trammel stated her understanding of that, but at one point it was designed to be a magnet program and we would make sure the students who met magnet school requirements would be in the magnet. She is asking if this program is now moved so that other students can be moved into the school? Dr. Goree said it is not, but there were very few students that selected Oak Park as a magnet school of choice, however, the magnet component will be maintained and attempts made to grow it within the school.

Mr. Green asked if he is hearing that there are many things happening that were not in the prior agreement. Superintendent Goree explained that the current enrollment is 752 students and we are adding approximately 75 students. He further stated that it is his understanding that the negotiations, which took place prior to his becoming Superintendent, were that after Oak Park had the opportunity to grow its own to the 6th, 7th and 8th grade, there would be an established attendance zone. Mr. Green asked if the “grow your own” process is now over, and Dr. Goree said we are now three years out and Oak Park has had the opportunity to grow its own at each grade (6th, 7th, 8th) level for middle school. Mr. Green asked if there is any validity to the statement that students are being brought from outside the attendance zone, and Dr. Goree said that should not be the case and everyone attending Oak Park should qualify to attend Oak Park in the 6th through 8th grade by living in that attendance zone, with exception of any special needs program. Mr. Green asked if we do this, is there any chance the school will be over populated? Superintendent Goree said no because the goal is not to over populate the school.

Mr. Rachal asked how long staff has been working on these proposed attendance lines. Dr. Goree said the lines were established; however, even within the established lines, there was a need to look and make adjustments in order to right size the school, so staff probably has been looking at these lines since January.

Mrs. Brown asked if attendance lines for high schools will be addressed, and Dr. Goree responded that the next two items on the agenda address staff’s concerns relative to attendance zones for the coming school year and these will be the final ones to come to the Board this year, thus staff is not bringing any changes for the high schools for the coming school year. Mrs. Brown said she is asking because her high school does not have enough students and it is a great school and she would like to see this addressed down the road.

Mr. Green asked how will the middle school be addressed with the elementary school in terms of student-teacher ratio? Dr. Goree responded that Mr. Burton’s office and Leisa Edwards are looking at the necessary provisions to insure that they are successful.

Keithville, Walnut Hill, and Summerfield Attendance Boundaries Recommendations. Mrs. Bell asked Mr. Woolfolk to explain why this is coming to the Board. Mr. Woolfolk stated that every year staff must address issues relative to attendance boundaries; and in looking at Walnut Hill and Keithville, there were some occasions where the elementary and middle school boundaries were not the same, i.e. an elementary student at Walnut Hill, because of where the student lived, must attend Keithville in middle school. He said there were also issues with capacity at Keithville being greater than at Walnut Hill; and with the new dividing line between Walnut Hill and Keithville being Colquitt Road, it creates an additional 129 students for Keithville and reduces Walnut Hill by that same number. He said if a middle school student has started 6th grade, staff is not suggesting that these students be moved, but they will be allowed to complete their education at that school. In the transition, if parents choose to keep their children at a school they are most familiar with, they can do so, but they must provide their own transportation.

Mrs. Bell restated for clarity what she understood Mr. Woolfolk to explain, and Mrs. Kirschvink asked if staff will communicate this to the parents of the children affected, and Mr. Woolfolk stated that Central Office staff is prepared to notify the parents. Mrs. Kirschvink asked staff for clarification on all 6th grade students at Summerfield will attend Keithville and not Ridgewood; and Mr. Woolfolk noted that is correct. She also asked how many students will be impacted, and Mr. Woolfolk stated approximately 56 students, and staff will communicate with these parents.

Dr. Goree noted that Keithville currently has enrolled 962 students, Walnut Hill has 1,709 students, and Summerfield has 703 students. Mrs. Kirschvink asked if the District begins

moving students around, will we also increase the numbers of teachers to handle the new student population; and Dr. Goree responded that teachers are based on the number of students, so the schools receiving additional students will receive additional staff.

Miss Green asked if she understands correctly that anytime problems are discovered with the attendance lines, they will be placed on the agenda for CPSB approval. Mr. Woolfolk stated that anytime there are major changes in the attendance boundaries, they are brought to the Board for their approval. Miss Green expressed her appreciation for Mr. Woolfolk looking at the attendance lines, and that she has some in her district she would like to see addressed.

Mr. Rachal asked staff to tell him if there are additional bus needs in addressing the change in attendance lines and what that cost might be? Dr. Goree stated while he has not looked at that cost, most of the decisions were made based on proximity and to get students in schools closer to their homes. Mr. Woolfolk noted the Keithville map and the number of students assigned to attending their neighborhood school. Mr. Ramsey asked how many of the 129 students are anticipated to become homeless between now and magnet testing; because while he understands the concerns expressed by Board member Rachal, this is a real concern when looking at the boundaries. Dr. Goree said in looking to maximize the seats available in the District, one of the charges of the Attendance Department is to make sure it is doing due diligence and insuring students are in the right seats. He said the communities have spoken and it is important that the District utilizes what we have.

Mrs. Bell stated that in looking at attendance zones, she believes it is important that staff look closely at the attendance lines and make sure that they can right size the District.

Ms. Trammel asked about the Summerfield students being automatically enrolled into Keithville, and Mr. Woolfolk said all but about 56 students that feed into Ridgewood. In trying to be consistent, Mr. Woolfolk said they will all go to Keithville. Ms. Trammel asked for clarification in her thought that Walnut Hill was universal, and Dr. Goree stated that Walnut Hill is a K-8 program. Ms. Trammel asked if the students that live closer to Keithville will go to Keithville from K5-8th grade without going to Summerfield Elementary and then to Keithville Middle, and Mr. Woolfolk said that is correct, and is the issue staff hopes to correct with these changes.

Approval of Shreveport Housing Authority Request to Demolish Buildings at old Oak Park Site.

Dr. Goree explained that the auditorium/cafeteria was left up for use as a community center; however, the Housing Authority has now secured funds to tear this building down. The concern is the contract approved by the Board states the property would be returned to the District in 99 years in the condition it was leased, thus the need to bring it back to the Board for modification. Mrs. Bell asked is there not any way the community can use the building and the superintendent said it is under the Housing Authority's lease and they do not see it as the best use of the facility, in addition to the fact there are some liability issues. He also added this is being done at no cost to the CPSB. Mrs. Poljak asked if we own the building to be demolished and/or the land, and Dr. Goree said the District owns both, and we are currently in a 99-year lease of the land and the building.

Ombudsman Contract Renewal. Miss Green asked if the last contract was for \$3 million, and Dr. Goree announced that at this time the Ombudsman Contract has been pulled for further review by legal counsel. Mr. Woolfolk responded that it was between \$3.6 and \$3.7 million with a 3% annual increase for each of the three years. Miss Green asked if staff's recommendation is to keep Ombudsman, and Dr. Goree said absolutely, because the District has had an outstanding relationship with them over the three years and staff believes Ombudsman is providing a service at a rate beneficial to the district. Mrs. Poljak asked if the 3% is tied to the MFP, and Mr. Woolfolk said it is; and Mrs. Poljak asked if MFP increased by 3% this year and he responded it did not. He further explained that the original contract allowed for a 3% increase each year;

however staff renegotiated this year stating we were not interested in continuing to pay a 3% increase every year, but would pay whatever percent the District receives in MFP (if MFP increases 1.5%, Ombudsman increases by 1.5%, if MFP increases more than 3%, the District does not pay more than 3%). Mrs. Brown stated that she trusts the Superintendent and his staff, but she is meeting students on the street during the day and she would like for the District's alternative program to be looked at to insure that students are in school. Also she asked about the test scores for the Ombudsman students for the past three years. Dr. Goree said while he does not have that information, staff can provide it. Also, staff is in constant contact with Ombudsman to make sure the students are being held accountable and are in school, and staff will continue this. Mrs. Bell stated she attended the open house and was very impressed with the staff and what the program offers. She asked if this program can be made a full day for students as opposed to a partial day, and Dr. Goree said it is possible for a fee. Mrs. Locke stated that last month the Board adjusted the budget by \$109,000 because of the Ombudsman contract and asked if the new contract takes this into account and is it due to a fluctuation in the number of students. Mr. Lee explained that when the original budget was planned last year for this current year, staff did not have this year's budget amount from Ombudsman in place, so it was necessary to adjust it to the actual amount; and the \$3.8 million includes the increase for next year. Mrs. Locke asked if it can vary again in the future and Mr. Lee stated it can. Mrs. Kirschvink asked how many students are at Ombudsman. Mr. Woolfolk stated there is a total of 400 seats available; and at this time, the District is using approximately 375-385 of those seats. Mrs. Kirschvink asked the Ombudsman director to share with the Board recent accomplishments and successes, and Mr. Sampson stated that they are at approximately 381 students, and they have an iLearn program in place, as well as the expulsion students (iLearn is 2 sessions offered for Middle School students); and since he came on three years ago, they have reached out to the community and worked together to make it work for students. He also added they are working closely with the parishes and school boards to provide for the needs. He encouraged Board members to attend their graduation and to come on their campus and see firsthand how their program works.

Resolution for Lease Cars for Driver's Education. Miss Green asked if she understands correctly that the Board is voting on leasing driver's education cars, and Mr. Woolfolk responded that in an effort to stay within the budget, staff believes a lease program will allow the District to meet the budget constraints. At this time, Honda is the company being looked at for the leasing. Mr. Woolfolk stated that they require a resolution and Honda is currently working to draft it for Board approval. He stated that the risk on Driver's Ed cars is higher than most other cars. Miss Green asked if there is a law stating that after a certain number of years, the cars must be replaced? Mr. Tisdale stated there is not, and Mr. Woolfolk said while it was difficult to find someone to lease Driver's Ed cars, they were fortunate to find two that will do so.

Mr. Riall asked about the insurance restriction on Enterprise fleet management, and Mr. Woolfolk said Enterprise will not insure Driver's Education cars. Mr. Riall asked if the others furnish insurance, and Mr. Woolfolk explained that Caddo leases them and provides the insurance for them. Mrs. Dozart added that years ago it was a luxury to lease the cars, and insurance has always been furnished by the School Board, and it doesn't matter how old the car.

Litigation Update on Red River United v. Caddo Parish School Board in the United States District Court for the Western Louisiana, Case No. 15CV-00205. Julie Lafargue with Abrams Lafargue explained that this litigation arises from the drug testing policy applying to school board employees, and the Board approved a revision to the policy requiring that any drug testing of employees will only be done if there is a reasonable suspicion that the employee has used alcohol or illegal drugs before being sent for testing by Work Kare. She further stated that as a result of the Board's action to approve the revised policy, Red River United agreed to dismiss the lawsuit in Federal Court with the Board agreeing to pay \$400 (court filing fees), and

also agreeing to notify Red River United if it intends to change this policy in the future. She also explained that Caddo is not paying any attorneys' fees or any additional court fees.

Mrs. Poljak asked Ms. Lafargue to further explain the advance notice for any policy changes, and Ms. Lafargue stated that if the Board were to decide to change the policy, the Board would provide Red River United notice of its intent to revise the policy, which is something the District already does. Relative to the Declaration of Past Practices, Mrs. Poljak asked Ms. Lafargue to clarify that portion in the second paragraph that appears to have something missing. Ms. Lafargue stated that she believes "as improper" should be inserted after drug testing. Ms. Lafargue further explained that this is not the Board admitting that the actions were improper, but the Board takes the position that those actions were not improper and this is a settlement agreement for \$400.

President Riall announced that the following items are the consent agenda: 6.01-6.02, 7.01, 8.01, 8.03-8.10, and 8.12-8.18. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the May 19, 2015 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the need for students in the lower elementary grades to be served by a program such as Ombudsman, and that SB54 is asking for a state law that would prohibit the suspension of students from the third grade and below despite the fact that there are times when the behavior of children in this age group may prohibit them from sitting in a regular classroom without disrupting the learning process for the other boys and girls.

ANNOUNCEMENTS

Mr. Ramsey announced that the Southwood High School Symphonic Winds recently was invited to participate in a national competition in Atlanta, and they won. He further announced that the Director received special music from Japan for that competition, and they have now been invited to Japan to perform. Mr. Ramsey also reported on a special celebration at Southwood where all the performing arts groups performed. He expressed his appreciation for all the hard work at Southwood and how proud he is of this accomplishment.

Mrs. Bell reminded everyone that the Most Improved Student Banquet sponsored by the Red River United will be held Monday, May 11, 2015, at 6:00 p.m.; on Wednesday, May 6th, the Senior Honors Day will be held at Huntington High School at 1:00 p.m. Mrs. Bell announced that an Insurance and Finance Committee meeting will be held on May 21st at 2:00 p.m.

Mrs. Brown announced the "Give for Good" program sponsored by the Community Foundation continues until 12:00 midnight and Board members were encouraged to support this program.

Ms. Trammel congratulated the Woodlawn Knights who recently placed first and third in competition in Vicksburg, Mississippi and asked that they would be recognized at a future meeting. Ms. Trammel also expressed appreciation to the staff for always responding to the Board's requests and for going the extra mile to help.

Mrs. Kirschvink congratulated all the students for doing such an amazing job with the PARCC testing. She also expressed appreciation to the administration for the hard work for the Reinvest in Caddo effort, and that all will continue to work in unison for the children in Caddo.

Mrs. Locke expressed appreciation for the outpouring of the District's support to assist Captain Shreve in the untimely death of Coach Lary.

Mr. Riall asked everyone to remember DA Charles Scott's family during this time. He also announced that on May 19th and May 26th, at 2:00 p.m. there will be budget work sessions. He also announced that at 4:30 on May 26th there will be a special called meeting to address the charter applications.

Mr. Riall also announced that Board members should select someone from their District to serve on the Parental Review Committee and to turn that information in to staff as soon as possible.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:23 p.m.*

May 19, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, May 19, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Kacee Kirschvink and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Douzart led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE APRIL 21, 2015 AND MAY 5, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the April 21, 2015 and May 5, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Woodlawn Leadership Academy Varsity Rifle Team. The Woodlawn Leadership Academy Varsity Rifle Team #1 was recognized for finishing first place in the overall 5th Annual 2015 Invitational Rifle Meet at Vicksburg High School, Vicksburg, Mississippi; and Team #2 finished third. Cadet Javorius Debose was recognized as the top overall shooter. Team members are Camry Gladney, Javandolyn Warren, Javorius Debose and La'Travis Monroe.

Donnie Bickham Middle School Live Band. The Donnie Bickham Middle School Live Band, under the direction of music teacher Toby Quarles, performed two musical/vocal numbers for the Board and audience.

Women's Philanthropy Network Grant. Mrs. Lennis Elston, local CPA and 2014-15 chairman of the Women's Philanthropy Network, reported that the WPN is a group of women who pool their philanthropic resources to support programs and organizations that improve educational outcomes for children in the community, operating under the umbrella of the Community Foundation giving them access to incredible resources. She also shared with everyone the work of the WPN's grant committee, the recommendation brought to the Women's Philanthropy Network board and ultimately approved by the WPN's membership a grant in the amount of \$77,023 to the Caddo Parish School System specifically to (1) support the Transformation Zone schools by sending teachers and administrators to the Ron Clark Academy for a site visit and professional development and to bring these experiences back to Caddo to share with and implementation of strategy and climate changes in the classroom, (2) support the Ron Clark 55 Book Clubs with at-risk students at each campus to teach and develop critical social and conversational skills (including the Amazing Shake competition at each school), and (3) aid in efforts to place Distance Learning opportunities in the hands of students working in classrooms without certified teachers. She also announced that this grant brings the total amount the WPN has invested in the community to \$913,243; \$359,800 of which has been in the form of grants to the Caddo Parish School System since 2006. While the organization does not dictate what organizations will do with grants awarded, Mrs. Elston explained that with this grant they asked the staff leadership what was needed and sought to put together a grant to meet that need; and they look forward to working with Superintendent Goree, Caddo Schools and the Transformation Zone in making a difference.

Northwest Louisiana Suicide Prevention Coalition Contest Winners. The following students were recognized as first place winners in the Northwest Louisiana Suicide Prevention Coalition Poster Contest: (1) Zakiyah Rayson, 3rd grade at Cherokee Park; (2) Dajha Williams, 5th grade at Westwood; (3) Kyndall Spence, 10th grade at Byrd and Devan Campbell, 10th grade at North Caddo (TIE); Hanna Whittington, 11th grade at Captain Shreve; and Katelyn Fajardo, 12th grade at Caddo Parish Magnet High and CC&TC. Cassie Snow, 9th grade at Captain Shreve, was recognized as the 1st Place Overall Winner and will receive a \$150 along with a trophy.

2014-15 Amazing Shake Winners. The following students were recognized as the 2014-15 Amazing Shake winners: Jakurion Nelson, 3rd Grade, Atkins; Khaleel Davis, 3rd grade, Midway (Grand Finalist Winner); Akira Smith, 3rd grade, Mooretown; Zhariya Seamster, 3rd grade, Queensborough; Amauree Aaron, 4th grade, Werner Park (Grand Finalist Winner); Alana Jones, 6th grade, Westwood; Samuel Chambers, 7th grade, Caddo Middle Career & Tech (Grand Finalist Winner); Steven Bradley, 7th grade, Lakeshore; Jasmine Hill, 12th grade, Fair Park; and Kyana Leonard, 12th grade, Woodlawn.

Regional Autonomous Robotics Circuit (RARC) Grand Champion. The South Highlands Robotics Team was recognized as the 2014-2015 Grand Champions of all Elementary Schools by the Regional Autonomous Robotics Circuit (RARC).

Art Education Award. South Highlands was recognized as the recipient of the art education award from Lt. Governor Jay Dardenne and the Office of Cultural Development for their outstanding contributions to Louisiana's culture.

2015 Regional Social Studies Fair First Place Winners. The following students were recognized as first place winners in the 2015 Regional Social Studies Fair: Elementary (Division 1) Individual winners are Evelyn Little, 4th grade, South Highlands; Jack Parsons, 4th Grade, Eden Gardens; Mackenzie Miles, 5th grade, South Highlands; and Isaiah Watson, 5th grade, Claiborne. First place winners in the Elementary Division 1 Group are Chloe Miller & Ashlyn McClain, 4th grade, Eden Gardens; Katie Batts & Emily Festervand, 4th grade, Blanchard; Megan Woodard & Catie Bowman, 5th grade, South Highlands; and Mitchell Ramsey & Brady Mason, 5th grade, Eden Gardens. Middle School 1st Place individual winner is Garrett Chaisson, 7th grade, Caddo Middle Magnet; and Middle School 1st Place group winner is Reece Maguire & Jonnai Jones, 7th grade, Caddo Middle Magnet. High School (Division 3) individual winners are Madison Neely, 12th grade, C. E. Byrd; Samantha Hilburn, 12th grade, Captain Shreve; Madison Parker, 9th grade, Captain Shreve; Andrea Fetsch, 12th grade, Northwood; Dylan Oliver, 12th grade, Northwood; and Melinda Hunt, 12th grade, Northwood. High School (Division 3) group winners are August "Finn" Langley & Christian McCoy, 12th grade, C. E. Byrd; Payton Robertson & Maegan Koch, 12th grade, C. E. Byrd; and Katie Matkins & Katie McClenahan, 11th grade, Captain Shreve. The High School (Division 3) Individual and Overall winner is Ashlyn Tullis, 11th grade, Northwood High School.

2015 Louisiana Region I Science & Engineering Fair Winners. The following students were recognized as winners in the 2015 Louisiana Region I Science & Engineering Fair: Elementary Regional First Place winners are Chris Frierson, 5th grade, Riverside; Le'lah Jones, 4th grade, Judson; Tatum Moncrief, 5th grade, Riverside; Sydney Moss, Seth Payne, Ruhani Sachdeva, Gergely Szarvas, 5th grade, Eden Gardens; and Riley Wolcott, 4th grade, South Highlands. The elementary school regional first place and overall winner is Ashini Modi, 5th grade, South Highlands.

The middle school regional first place winners are Benjamin Kevil, 8th grade, Robert Lawrence, 7th grade, Landon Moushon, 7th grade and Ajaya Tummala, 8th grade, Caddo Middle Magnet and

the middle school regional first place winners and special awards are Joey Clary, 6th grade, and Morgan Hughes, 7th grade, Caddo Middle Magnet.

High School Regional First Place winners are Robert Brown and Tobias Kallenberg, 9th grade, Ankur Khanna and Alex Witt, 10th grade, Mariana Russo, 11th grade, and Vijay Letchuman and Neil Nathan, 12th grade, at Caddo Parish Magnet High School. The high school regional first place winners, senior fair division winners and special awards are Kaylan Campbell, 9th grade, Northwood (Special Award); Chandler Merriman, 12th grade, C. E. Byrd (Senior Fair Division Winner); Morni Modi, 12th grade, Caddo Parish Magnet High (Special Award); Annie Thai, 12th grade, Caddo Parish Magnet High (Special Award); Isabella Van Savage, 11th grade, Caddo Parish Magnet High (Special Award); and Moez Hayat, 12th grade, Caddo Parish Magnet High (Special Awards and Senior Fair Division Winner). Kyle Dockendorf, 12th grade, Caddo Parish Magnet High, is the Grand Prize winner of the Louisiana Region 1 Science & Engineering Fair. Region 1 Sweepstakes Awards were presented to Eden Gardens, Caddo Middle Magnet and Caddo Parish Magnet High.

North Caddo Robotics Team. The North Caddo Robotics team was one of two teams from Louisiana to compete at the National Mini-Urban Challenge in Tampa, Florida, winning 1st at regionals with technical presentation and 1st in Best of Show at the National competition. North Caddo Robotics Team members are Jamie Bussey, Emily Taylor, Austin Terry, Ashley Wolfe and Misty Wolf.

North Caddo Lady Rebels 2A Championship Basketball Team wins 2nd Consecutive State Championship. The North Caddo Lady Rebels were recognized for winning the 2nd consecutive state championship.

VISITORS

Jackie Lansdale, Red River United, addressed the Board on the history of the national recognition of child labor, as well as the fact that Louisiana ranks 48th in the Nation with regard to poverty and ranks last in the Nation for government supported time off for new parents. Relative to education employees in the State of Louisiana, she stated that it was 1985 when the Legislature first recognized and passed legislation to allow reasonable time for a teacher to have off for child birth; and at that time, it was not paid leave, support personnel were not included, and there was not mention of fathers or adoption. In 2001, she further reported that the Louisiana Legislature passed the extended sick-leave law and teachers were granted 90 days of leave at 65% of their salary and the days did not accumulate but were replenished every six years of employment; and for maternity purposes, teachers were allowed to use extended sick leave after all current and accumulated days were exhausted. In 2010, Mrs. Lansdale noted that the same legislation was implemented for support personnel with the same rules; however, it still did not recognize maternity leave or adoption; however, in 2012, the Legislature changed the extended sick leave to include a provision that every six years a female teacher could have 30 days of maternity leave. As a result of the added language being specific to teachers, it was interpreted that support personnel could no longer be granted maternity leave. To get approved the doctor was required to write a letter that the mother had a surgical procedure and could not return to school and it could not include the words maternity or pregnancy. Also in 2012, the Legislature did recognize that teachers could return to work and continue to breast feed their babies by passing a lactation bill instructing schools to provide private, non-bathroom facilities and appropriate breaks in order to express milk. She noted that Caddo Parish passed a lactation policy prior to the Legislation as well as extended sick leave for support personnel; and the employee organizations are gathering data for consideration in writing a maternity policy that will separate it from extended sick leave. She encouraged all of Caddo to come together and implement family-friendly policies for our employees.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA FOR THE MAY 19, 2015 CPSB MEETING

Superintendent Goree highlighted the items for the Board's consideration and the following discussion ensued. President Riall announced that the consent agenda items will be Items 6.01-6.03, 7.01-7.02, and 8.01-8.18. *Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and the proposed consent agenda for the May 19, 2015 CPSB meeting as submitted. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Miss Green, to confirm the Consent Agenda (Items 6.01-6.03, 7.01-7.02 and 8.01-8.18). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendation (director of child welfare and attendance), as submitted by the superintendent in the mailout.

6.02 Administrative Contract Renewals. The board approved the administrative contract renewals for Cheryl Anderson, Shelita Cannon-Hoey and Catherine Smith, as recommended by the superintendent and submitted in the mailout.

6.03 Personnel Transaction Reports. The board approved the personnel transaction reports for the period of April 1-30, 2015 as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Bids (Purchasing). The board approved the following bids as recommended by the superintendent and submitted in the mailout on the bid tabulation sheets: (1) Air-Nu Baton Rouge for the purchase of Filters – HVAC; (2) Riddell/All American Rouge for the purchase of Football Helmet Reconditioning; and (3) Unity Education Resources for the purchase of Marker Boards and Bulletin Boards. *The bid tabulation sheets are filed in the official papers of the May 19, 2015 CPSB meeting.*

7.02 Bids (Capital Projects/Construction). The board approved the following bids as recommended by the superintendent and submitted in the mailout on the bid tabulation sheets: (1) ELA Group, Inc., with a Base Bid for the sum total of \$390,800 for Project 2015-230, "Walnut Hill Restroom"; (2) M. J. Construction, LLC with a Base Bid and Alternate 1 for the sum total of \$201,750 for Project 2016-220, "Fair Park Restroom"; (3) Whitlock & Shelton Construction with a Base Bid for the sum total of \$257,000 for Project 2016-225, "Donnie Bickham Wall Tile"; (4) Carter Construction Co., Inc. with a Base Bid for the sum total of \$498,000 for Project 2016-222, "University Restroom & Parking Lot"; (5) Bossier Electrical Contractor, LLC with a Base Bid for the sum total of \$184,000 for Project 2016-407, "Keithville Lighting Retrofit"; (6) Martin Construction & Design with a Base Bid and Alternate 1 & Alternate 2 for the sum total of \$340,305 for Project 2016-217, "Caddo Middle Magnet Rekeying"; (7) ELA Group, Inc. with a Base Bid for the sum total of \$174,500 for Project 2016-223, "Werner Park Restroom"; (8) Texas Sports Builders with a Base Bid for the sum total of \$159,300 for project 2016-227, "Lee Hedges Track Maintenance"; and (9) Tri-State Aluminum Products with a Base Bid for the sum total of \$146,275 for Project 2016-209, "North Highlands Canopies". *The bid tabulation sheets are filed in the official papers of the May 19, 2015 meeting.*

Item No. 8

8.01 Property/Bus Rental Requests. The board approved requests for the use of CPSB buses as recommended by the superintendent and submitted in the mailout.

8.02 Out-of-State Travel (General Fund). The board approved requests for out-of-state travel (General Fund) as recommended by the superintendent and submitted in the mailout.

8.03 Adopt Millages for 2015. The board adopted the following resolution setting millage rates on taxable Caddo Parish property at 75.66 mills for 2015 as submitted in the mailout.

Be It Resolved that the following millage(s) are hereby levied on the 2015 tax roll on all property subject to taxation by Caddo Parish School Board:

	<u>MILLAGE</u>
Constitutional Tax	7.85 mills
Operation & Maintenance Tax	17.11 mills
Operation & Maintenance Support Tax	11.26 mills
Technology Tax	1.25 mills
Salaries & Benefits Tax	20.18 mills
Building & Equipment Tax	6.86 mills
Renovation Tax	5.15 mills
Bond & Interest Tax	5.00 mills

Be It Further Resolved that the proper administrative officials of the Parish of Caddo, State of Louisiana be and they are hereby empowered, authorized, and directed to spread said taxes, as hereinabove set forth, upon the assessment roll of said Parish for the year 2015, and to make the collection of the taxes imposed for and on behalf of the taxing authority, according to law, and that the taxes herein levied shall become a permanent lien and privilege on all property subject to taxation as herein set forth, and collection thereof shall be enforceable in the manner provided by law.

8.04 Resolution Giving Preliminary Approval to the Issuance of General Obligation School Refunding Bonds and Providing for Other Matters in Connection Therewith. The board approved the following resolution giving preliminary approval to the issuance of General Obligation School Refunding Bonds and providing for other matters in connection therewith as submitted in the mailout.

RESOLUTION

A resolution giving preliminary approval to the issuance of not to exceed Twelve Million Five Hundred Thousand Dollars (\$12,500,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, Parishwide School District of Caddo Parish, Louisiana (the "Issuer") has heretofore issued \$14,290,000 of General Obligation School Bonds, Series 2008 (the "Series 2008 Bonds"); and

WHEREAS, in order to provide debt service savings to the Issuer, the Issuer desires to refund all or any portion of the Issuer's outstanding Series 2008 Bonds pursuant to the provisions of Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority (the "Act"), through the issuance of its refunding bonds; and

WHEREAS, pursuant to the Act, and subject to the approval of the State Bond Commission, the Issuer desires to accomplish the refunding by authorizing the issuance of not exceeding Twelve Million Five Hundred Thousand Dollars (\$12,500,000) of its General Obligation School Refunding Bonds (the "Bonds"), to be payable from unlimited ad valorem taxes; and

WHEREAS, the Issuer desires to make formal application to the State Bond Commission for approval of the issuance of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Preliminary Approval of the Bonds. Preliminary approval is given to the issuance of not exceeding Twelve Million Five Hundred Thousand Dollars (\$12,500,000) of General Obligation School Refunding Bonds (the "Bonds"), of the Issuer, to be issued for the purpose of refunding all or any portion of the Issuer's outstanding General Obligation School Bonds, Series 2008, and paying the costs of issuance of the Bonds, said Bonds to be payable from and secured by unlimited ad valorem taxes now being levied and collected annually in excess of all other taxes on all the property subject to taxation within the territorial limits of the Issuer. The Bonds shall bear interest at a rate or rates not to exceed five percent (5%) per annum, to be determined by subsequent resolution of this Governing Authority at the time of the sale of the Bonds, and shall mature no later than March 1, 2033. The Bonds shall be issued in fully registered form, shall be sold to the purchasers thereof at a price of not less than 97% of par, plus accrued interest, and shall have such additional terms and provisions as may be determined by this Governing Authority.

SECTION 2. Employment. This Governing Authority finds and determines that a real necessity exists for the employment of special counsel in connection with the issuance of the Bonds, and accordingly, Foley & Judell, LLP, of New Orleans, Louisiana, as Bond Counsel and Jacqueline A. Scott & Associates, APLC, of Bossier City, Louisiana, as Co-Bond Counsel, are hereby employed to do and perform work of a traditional legal nature as bond counsel with respect to the issuance and sale of said Bonds. Said Bond Counsel and Co-Bond Counsel shall prepare and submit to this Governing Authority for adoption all of the proceedings incidental to the authorization, issuance, sale and delivery of said Bonds, shall counsel and advise this Governing Authority as to the issuance thereof and shall furnish their opinions covering the legality of the issuance of the Bonds. The total combined fee of Bond Counsel and Co-Bond Counsel shall be fixed at a sum not exceeding the maximum fee allowed by the Attorney General's fee guidelines for such bond counsel work in connection with the issuance of revenue bonds and based on the amount of said Bonds actually issued, sold, delivered and paid for, plus "out-of-pocket" expenses, said fees to be contingent upon the issuance, sale and delivery of said Bonds. That pursuant to instructions from the Superintendent, Bond Counsel shall cause to be prepared an official statement with respect to the sale of the Bonds and the costs of the preparation and printing of said official statement, as approved by the State Bond Commission, shall be paid from the proceeds of the issue for which it has been prepared. Said Official Statement may be submitted to one or more of the nationally recognized bond rating service or services, together with a request that an appropriate rating be assigned. Payment for all ratings shall be made by the Superintendent upon presentation of appropriate statements from the particular rating service furnishing the ratings. The Superintendent is hereby authorized and directed to execute, and this Governing Authority hereby agrees to and accepts the terms of, the engagement letter of Bond Counsel and Co-Bond Counsel on file with the Secretary. A certified copy of this resolution shall be submitted to the Attorney General of the State of Louisiana for his written approval of said employment and of the fees herein designated, and the Superintendent is hereby empowered and directed to issue vouchers in payment for the work herein provided for upon completion of the work herein specified and under the conditions herein enumerated.

SECTION 3. State Bond Commission. Application is hereby made to the State Bond Commission, Baton Rouge, Louisiana, for approval of the issuance and sale of the Bonds and for consent and authority to proceed with the issuance and sale of the Bonds as provided above, and Bond Counsel is directed to make application to the State Bond Commission in accordance with the foregoing on behalf of the Governing Authority.

By virtue of applicant/issuer's application for, acceptance and utilization of the benefits of the Louisiana State Bond Commission's approval(s) resolved and set forth herein, it resolves that it understands and agrees that such approval(s) are expressly conditioned upon, and it further resolves that it understands, agrees and binds itself, its successors and assigns to, full and continuing compliance with the "State Bond Commission Policy on Approval of Proposed Use of Swaps, or other forms of Derivative Products Hedges, Etc.", adopted by the Commission on July 20, 2006, as to the borrowing(s) and other matter(s) subject to the approval(s), including subsequent application and approval under said Policy of the implementation or use of any swap(s) or other product(s) or enhancement(s) covered thereby.

SECTION 4. Appointment of Investment Banker/Underwriter. Raymond James & Associates, Inc., of New Orleans, Louisiana (the "Underwriter"), is hereby appointed as investment banker/underwriter in connection with refunding the Series 2008 Bonds, any compensation to be subsequently approved by the Issuer and to be paid from the proceeds of the Bonds and contingent upon the issuance of the Bonds; provided that no compensation shall be due to said investment banker/underwriter unless the Bonds are sold and delivered.

SECTION 5. Sale of Bonds. The Bonds are hereby authorized to be sold to the Underwriter, and the President is hereby authorized to execute a Bond Purchase Agreement with the Underwriter, in form and substance satisfactory to Bond Counsel to the Issuer, provided the sale of the Bonds produces minimum net present value savings (after payment of all costs) in excess of the Minimum Present Value Savings to Refund guidelines of the State Bond Commission. The foregoing resolution having been submitted to a vote, the vote thereon was as follows:

School Board Members	<u>Yea</u>	<u>Nay</u>	<u>Absent</u>	<u>Abstaining</u>
Steve Riall	x			
Jasmine Green	x			
Margaret A. Brown	x			
Susannah W. Poljak	x

President

STATE OF LOUISIANA
PARISH OF CADDO

I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana, do hereby certify that the foregoing pages constitute a true and correct copy of a resolution adopted by said Parish School Board on May 19, 2014, giving preliminary approval to the issuance of not to exceed Twelve Million Five Hundred Thousand Dollars (\$12,500,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters in connection therewith.

IN FAITH WHEREOF, witness my official signature on this, the 19th day of May, 2015.

Secretary

8.05 Sales and Use Tax Commission 2015-16 Budgets. The board approved the 2015-16 Operating and Capital Outlay budgets for the Caddo-Shreveport Sales and Use Tax Commission as submitted in the mailout.

8.06 Special Revenue Budgets. The board approved the special revenue budgets for 2014-15 as recommended by the superintendent and submitted in the mailout.

8.07 Approval to Begin Process to Name the Fair Park Gymnasium for Clem Henderson and Ron Preston. The board approved beginning the 90-day process for naming the Fair Park Gymnasium for Clem Henderson and Ron Preston as submitted in the mailout.

8.08 Approval of Lease of M.J. Moore. The board approved the bid of Looking Unto Jesus for lease of the M.J. Moore School as recommended by staff and submitted in the mailout on the bid tabulation sheet. A copy of the bid tabulation sheet is filed in the official papers of the May 19, 2015 CPSB meeting.

8.09 Authorization for Property Purchase Negotiation. The board authorized staff to enter into negotiations for the purchase of residential property (655 Kings Highway) adjacent to Byrd High School.

8.10 Approval of Bid for Sale of Used Motor Oil & Antifreeze. The board authorized staff to rebid the sale of used motor oil and antifreeze.

8.11 Canvass the Returns and Declare the Result of the May 2, 2015 Special Election. The board adopted the following resolution providing for canvassing the returns and declaring the result of the special election held in the Parishwide School District of Caddo Parish, Louisiana, on Saturday, May 2, 2015, to authorize the incurring of debt and issuance of bonds therein.

PROCÈS VERBAL AND PROCLAMATION OF THE CANVASS OF THE VOTES CAST AT THE SPECIAL ELECTION HELD IN THE PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA, ON SATURDAY, MAY 2, 2015.

BE IT KNOWN AND REMEMBERED that on Tuesday, May 19, 2015, at four-thirty o'clock (4:30) p.m., at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, the Parish School Board of the Parishwide School District of Caddo Parish, Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), and being the authority ordering the special election held therein on Saturday, May 2, 2015, with a quorum being present, did examine the official certified tabulations of votes cast at the said election, and did examine and canvass the returns of said election, there having been submitted at said election the following proposition to wit:

**PARISHWIDE SCHOOL DISTRICT PROPOSITION
(BONDS)**

Shall the Parishwide School District of Caddo Parish, Louisiana (the "District"), incur debt and issue bonds not exceeding \$108,000,000, to run not exceeding 20 years from date thereof, with interest at a rate not exceeding 8% per annum, for the purpose of acquiring and/or improving lands for building sites and playgrounds; including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the District, and acquiring the necessary equipment and furnishings therefor, INCLUDING, TO THE EXTENT FEASIBLE, THOSE SPECIFIC SCHOOL PROJECTS SET FORTH IN THE "CAPITAL IMPROVEMENTS PLAN " APPROVED BY THE SCHOOL BOARD ON JANUARY 20, 2015, title to which shall be in the public; which bonds will be general obligations of the District and will be payable from ad valorem taxes to be levied and collected in the manner provided by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974 and statutory authority supplemental thereto, with no estimated increase in the millage rate to be levied in the first year of issue above the 6 mills currently being levied to pay General Obligation Bonds of the District?

*The canvass of the results of the election showed that there was a total of **9,489** votes cast **IN FAVOR OF** the Proposition and a total of **10,586** votes cast **AGAINST** the Proposition, and that there was a majority of **1,097** votes cast **AGAINST** the Proposition as hereinabove set forth.*

*Therefore, the Governing Authority did declare and proclaim and does hereby declare and proclaim in open and public session that the Proposition as herein above set forth was duly **DEFEATED** by a majority of the votes cast by the qualified electors voting at the said special election.*

8.12 Oak Park Attendance Boundary Recommendations. The board approved the proposed recommendations for changes in the Oak Park attendance boundary as recommended by the superintendent and submitted in the mailout.

8.13 Keithville, Walnut Hill and Summerfield Attendance Boundaries Recommendations. The board approved the proposed recommendations for changes in the Keithville, Walnut Hill and Summerfield attendance boundaries as recommended by the superintendent and submitted in the mailout.

8.14 Approval for Shreveport Housing Authority to Demolish Building at old Oak Park Site. The board authorized the Shreveport Housing Authority's insurance company to demolish the remaining structures at the old Oak Park location.

8.15 Ombudsman Contract Renewal. The board approved renewal of the Ombudsman contract as recommended by the superintendent and submitted in the mailout.

8.16 Resolution for Lease Cars for Driver's Education. The board approved the corporate resolution to lease cars for Driver's Education program as recommended by staff and submitted in the mailout.

8.17 Litigation Update on Red River United vs. Caddo Parish School Board in the United States District Court for the Western District of Louisiana, Case No. 15CV-00205. The board moved to settle Case No. 15CV-00205, Red River United vs. CPSB in the USDC for the Western District of Louisiana in accordance with the agreement for the payment of \$400 for court filing fees and that the Caddo Parish School Board will give notice to Red River United if it intends to change Policy GBCB in the future.

8.18 Proposed Revision to 2015-16 School Year Calendar. The board approved the proposed revision to the 2015-16 school year calendar as recommended by the superintendent and submitted in the mailout.

SUPERINTENDENT'S REPORT

Update on Collaborations with the RSD. Superintendent Goree reported that relative to the update on collaborations with the RSD, staff is extremely excited about the Amazing Shake program and the skills students acquired as a result of this program; and staff looks forward to growing this program by expanding it outside the Transformation Zone into other schools in the District. Summer planning is in process, i.e. work with the University of Virginia as well as internal professional development offered during the summer. Also, he reported that a part of the contract mentions the Linear campus and the future purpose of that campus as staff works through the strategic plan. Dr. Goree also said it is staff's intent to work with Board member J Green to determine the best use for that facility in that community.

ANNOUNCEMENTS AND REQUESTS

Kacee Kirschvink announced that after 18 years in Caddo, her career will be relocating her and her family to Baton Rouge where she will be in corporate communications for Entergy. She also

announced that as a result she is tendering her immediate resignation from the Caddo Parish School Board as representative for District 11. Mrs. Kirschvink shared her appreciation to the voters for the opportunity to serve the citizens on the Caddo Parish School Board and that she is working with the board to find someone to serve District 11 in the interim until an election is held in October; and she introduced and endorsed Jim Hewlett as that person. Board President Riall, Superintendent Goree, and School Board members expressed their appreciation to Mrs. Kirschvink for her service to CPSB and wished her and her family all the best in their relocation.

Jasmine Green thanked the staff for success in this year's graduations. She also asked about the reference made by Mrs. Lansdale relative to maternity leave; and because she is the Board liaison for the professional organization, she asked for staff to provide data requested.

Margaret Brown noted the mirage of hate, violence and sadness in our community and Nation; and she believes it is essential to also bring to everyone's attention that everything that happens around us is not always negative. Mrs. Brown expressed her appreciation and accolades to staff members Roy Murry, Keith Burton and Victor Mainiero for assisting her and making it possible for her to get to the graduation with as minimal problem as possible due to her limited mobility. She encouraged everyone to recognize the positive all around us and not focus on the negative.

Mrs. Bell asked for a schedule for Summer School. Mr. Raymond Green also expressed his appreciation to Roy Murry for his service.

Mrs. Trammel thanked Roy Murry and Victor Mainiero for their assistance when she became ill at the graduation on Friday night.

Mr. Riall also expressed his appreciation to staff for their efforts in making this year's graduations outstanding and successful. Mr. Riall also announced that in response to the Board's request for Board committees to review the Section E policies, Jeff Howard will schedule a meeting of the Board committee chairs. They will meet and the committee chairs will take back to their committees those policies relative to their areas for review and recommendation to the Board.

NEW BUSINESS

Ms. Trammel moved, seconded by Mrs. Bell, to add an agenda item as follows: Proclamation declaring vacancy in District 11, calling for a special election and establishing the procedures for filling the District 11 vacancy. Mr. Riall opened the floor for anyone wishing to speak to do so on adding the motion. There being no one, Mr. Riall asked if any Board member wished to make any comments. There being no comments, Mr. Riall announced that for this item to be added to the agenda, the motion must pass by a unanimous vote. Vote on the motion to add the item to the agenda carried unanimously.

Ms. Trammel moved, seconded by Mrs. Bell, for approval of proclamation declaring a vacancy in District 11 and calling for a special election due to the resignation of School Board member Kacee Hargrave Kirschvink made effective May 20, 2015 as provided at the work stations. Vote on the motion carried unanimously.

Ms. Trammel moved, seconded by Mr. Rachal, to establish the following procedures for filling the District 11 vacancy.

That the following procedures for filling the District 11 position be advertised in the official journal;

*That applications filling the CPSB District 11 position be addressed to the President of the CPSB and accepted by **hand delivery** at the Superintendent's Office located at 1961 Midway Ave., Shreveport, Louisiana, until 12 noon on Wednesday, May 27, 2015;*

That interviews of candidates will follow the following format:

FORMAT FOR INTERVIEW SESSION (Up to 10 minutes per candidate)

- I. *Each candidate will present an opening statement addressing the following:*
 - A. *His or her reasons for desiring to serve as interim board member from District 11;*
 - B. *His or her special skills or experience to offer as a board member from District 11; and*
 - C. *His or her perspective on the role of a board member*
- II. *Each candidate will be allowed to make any final summary statement if time permits.*

Interviews to be held at a special board meeting to be held on Friday, May 29th at 11 a.m. at the Caddo Parish School Board office board room, 1961 Midway, Shreveport, Louisiana.

Vote on the motion carried unanimously.

Ms. Trammel moved, seconded by Miss Green, that there be a special board meeting to be held on Friday, May 29th at 11 a.m. for the purpose of interviewing candidates for the District 11 vacancy and for selecting an interim appointment. Vote on the motion carried unanimously.

EXECUTIVE SESSION

Ms. Trammel moved, seconded by Mrs. Douzart, to go into executive session for up to 15 minutes for the purpose of hearing a student readmission appeal. Vote on the motion carried and the board went into executive session at approximately 6:15 p.m.

The board reconvened in open session at approximately 7:13 p.m. Mr. Rachal moved, seconded by Ms. Trammel, to uphold the recommendation submitted by staff for MH. Vote on the motion carried with Board members Riall, Brown, Poljak, Douzart, Trammel, R. Green, Locke, Rachal, Kirschvink and Bell supporting the motion. Board members J. Green and Larry Ramsey were absent for the vote.

Adjournment. *Mr. Rachal moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 7:15 p.m.*

Dr. T. Lamar Goree, Secretary

Steve Riall, President

May 19, 2015

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 19, 2015 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Douzart led the prayer and Pledge of Allegiance.

VISITORS

There were no visitors requesting to speak.

2015-16 CONSOLIDATED ANNUAL BUDGET

Jim Lee, chief financial officer, stated that today is the first work session for the proposed 2015-16 CPSB Consolidated Annual Budget and he will present information today on the General Fund. Mr. Lee brought attention to the budget calendar and that a copy of the proposed budget was emailed to the Board last Thursday (May 14th) and the second work session on May 26th staff will discuss all the special revenue funds (Title 1, Special Education, Capital Projects, Debt Service) and will follow up on questions from today's meeting. He noted that the budget calendar goal is to make the proposed budget available to the public for inspection on June 1st as well as publish the public notice in the official journal. Mr. Lee explained that June 1st was selected because the budget must be available to the public 15 days prior to the date the budget is adopted and it must be published in the official journal 10 days prior to adoption, which hopefully will happen on June 16th.

Mr. Lee reported that the General Fund budget is a balanced budget, which is something that the Board requested several years ago, and this is the second year a balanced budget has been presented to the Board. He also noted that the estimated revenue is \$398,973,053 and the budgeted expenditures are \$398,888,453, leaving a balance of \$84,600 in revenue over expenditures. Mr. Lee summarized how staff arrived at the proposed balanced General Fund budget (p. 7 in the packet), including how the District ended the 2013-14 school year, the final budget as adopted last month by the Board, and the proposed 2015-16 budget. Relative to revenue, Mr. Lee explained the three main sources of revenue are local sources (property/sales taxes totaling \$183.5 million, state sources (\$211.5 million from MFP), and Federal sources (impact aid totaling approximately \$4 million). He noted that the revenue is relatively flat from this year with the budget last year being \$399.2 million and the proposed budget is \$398.9 million, and staff is predicting the same for next year. In balancing the budget, staff looked at the expenditures and he highlighted the expenditures in the eight main functional areas of the District (instructional services, general administration, school administration, business services (finance), operations and plant maintenance, transportation, central services, and Section 7.

Mr. Lee further explained the three main sources of revenue for the General Fund...(1) ad valorem tax, (2) sales tax, and (3) MFP from the state. He reported that the District expects to receive approximately \$98 million in ad valorem taxes, which is approximately what the District received this current school year, and total General Fund millage rate is 57.65 mils and at tonight's meeting it is on the agenda for the Board to adopt the same rate for the coming year; and in response to the dropping of one point, that is not part of the General Fund. He also reported that in 2016 two General Fund millages are up for renewal representing approximately \$36 million of 9% of the total revenue. It was reported that it is anticipated that the District will receive approximately \$80 million in sales tax revenue next year and this is budgeted flat because Benteler Steel is playing out somewhat despite sales tax revenue still coming in despite

the fact that production is slowing tremendously. He also announced that the District does still receive some money from the Haynesville Shale as well as tax on car and retail sales. For MFP, staff is using the State's current model which is ½ of the 2.75% growth factor; and staff is budgeting \$209.6 million (1/2 million more than received in the 2014-15 school year) and the small reduction in enrollment which is believed to offset the increase in per pupil amount.

Mr. Lee noted some of the larger expenditures in the budget, i.e staffing (salary and benefits) which is not something unique to Caddo. With a slight reduction in the number of teachers for the 2015-16 school year, Mr. Lee noted the possibility of an increase in special ed aides and those not directly associated with student-based needs must be paid with general funds. He further stated this was discussed with the Human Resources and Special Ed Departments and an increase should be seen. He also noted the reduction in Security Department monitors previously approved by the Board, the inclusion of step increases, a small increase in coaching supplements, as well as retirement and health care costs, the \$200 teacher supply amount, the purchase of eight additional buses, and funding for ACT and AP prep and district accreditation.

Mr. Lee explained that employee benefits (retirement, health care, workers comp, unemployment, Medicare) represent approximately 33% of the budget with retirement and health care being the two largest. He announced that next year the district will pay 26.2% of each employee's salary to the State Teacher Retirement Fund, as well as 30.2% of each employee's salary who is a member of the Louisiana School Employees Retirement System, noting that both these percentages reflect the first decrease in seven years, and will save the District approximately \$3 million. Health care is 18.4% of the budget. Because these two items received a lot of attention during the recent bond initiative conversations, Mr. Lee clarified that retirement is a defined benefit plan and requires a statewide election to change the constitution if any changes are made; and with health care the biggest liability is retirees which staff continues to monitor and will bring to the Insurance and Finance Committee anything that can be done to reduce the liabilities in this area. Mr. Lee announced that Chair Dottie Bell has called a meeting of this committee for Thursday to discuss issues related to pharmacy costs for possible Board consideration.

Mr. Lee also noted staffing and a comparison of the current year and the projection for the 2015-16 school year, noting that instructional services is the only area in which the Board will see an increase in staff; and even though there will be a slight reduction in the number of teachers, there will be an increase in teacher aides. He also noted some additional minor reductions in specific areas, noting a net increase of only 13 positions for next year.

Mr. Lee announced that a second budget work session is scheduled for Tuesday, May 26th; and at that time staff will provide feedback on any unanswered questions from today's meeting, as well as discussing the special revenue, capital projects and debt service funds. He also said that the information emailed to the Board last week includes all budget information.

Superintendent Goree expressed appreciation to Mr. Lee and his staff for working diligently to provide a balanced budget for a second year and announced that staff will look to this as the trend in the future.

Following the presentation of the budget, President Riall opened the floor for questions.

Mrs. Bell asked how is the cost of testing materials budgeted, and Mr. Lee responded it is paid from the General Fund. She also asked who pays for graduation coaches, and Dr. Goree responded he believes they are all paid from General Fund. Mrs. Bell noted that all high schools do not have graduation coaches and asked if that is something the Board approved. Dr. Goree added there may have been some surplus employees and they were utilized in that role, and staff will verify and provide an answer for the Board. Mrs. Bell stated she would like for this to be

something for all the high schools. Mrs. Bell also asked about the two millages up for renewal in 2016, and Mr. Lee explained there is a small technology millage used for school technology, computers, infrastructure, etc. (approximately 1-1.25 mills), and a larger millage which originated in 1997 for salaries and benefits. Mr. Lee further stated that this millage comes up for renewal every 10 years and was last renewed in 2006, and is needed to keep the salaries and benefits where they are currently. Regarding health care, Mrs. Bell said she worked for 34 years to get her health care and she expects to get it. She also noted that this is not an issue just for Caddo Parish but the City is also faced with this issue as well as others across the United States. Mrs. Bell also stated she would like to see a Transportation Committee meeting called to address some issues/concerns.

Mr. Ramsey cautioned adding 23 positions under instructional services because these are positions cut a few years ago when there were serious budget issues. Dr. Goree stated that staff is continuing to look at these positions before adding any back in and, most of these are in Special Ed (teacher assistants) and would be used to address 101 needs of students. Mr. Ramsey also clarified that any budget approved by the board is a fluid budget and he does not see anything yet on school closures/consolidations which may be possible. Mr. Ramsey stated that in looking at the consolidated annual budget, he stated that in making cuts it looks as if everything points to instructional services, which is over 70% of the budget and where we least need to make cuts, and he encouraged staff to look more closely before adding any positions.

Mr. Rachal asked for a comparison of Caddo's revenues to the revenues of other districts' of like size showing local and state dollars. He also asked if staff is expecting any variances this year. Mr. Lee responded he will provide that information and at this time, staff does not expect a lot of variances in the coming year. Mr. Rachal also asked about personnel in the technology area, i.e. analysts, programmers, operators and technicians and what each does? Mr. Lee explained that analysts and programmers take care of the systems in place, i.e. SunGard, student information system, JPAM and work with the vendors to keep them operational. He said the operators run the system and the technicians go into the schools and various departments to address issues with computers. Mr. Rachal addressed the maintenance and upkeep of the hardware located in all the schools and asked if there are ample technicians to handle the volume of equipment in Caddo and keep the response time to a minimum. Mr. Lee said he will get with Information Technology for a response to this request, and if the question is do we need more technicians, he added that when revenues are flat it is difficult to add more administrators without cuts that will affect the classroom. Dr. Goree responded that staff can track the service time from the point the work order is turned in to when the problem is resolved and provide a comparison. At this time, Dr. Goree stated he believes some improvement has been seen because he is not hearing as much as he did in the past in this area. Mr. Rachal asked Mr. Lee why, in looking at the instructional services, we are paying less in teacher salaries (\$3 million), but the budget amount is approximately \$1.5 million less. Mr. Lee explained that teacher salaries in Special Ed went down and also the increase of benefits.

Mrs. Locke asked if there is any projection on how much maintenance costs, etc. will decrease as a result of leasing the school buses? Mr. Lee responded that staff will look closer at this as the District leases more and more buses because this is only the third year (he believes) that the District will lease buses. She also asked if any items on the General Fund expenditures list that typically might be questioned and pulled have been pulled, and Mr. Lee said they have not.

Ms. Trammel also asked about the shortage of six bus drivers, and Mr. Lee explained that Transportation Department has requested a supervisor and clerical person to help with routing, zones and maps; and in re-working the routes, Transportation believes it can give up six bus drivers and make this a budget neutral item. Ms. Trammel questioned how this can happen when it is a struggle with ample bus drivers and getting everyone where they need to be. Dr. Goree said he believes it is being smarter in designing the routes and have actually seen this during the

past year, especially as a result of the attendance zone changes and getting students in schools closer to their homes, i.e Keithville/Walnut Hill item on the agenda tonight. Also, staff will be looking at cleaning up issues where students are utilizing the District's transportation and should not be. In order to continue to have balanced budgets, Dr. Goree said staff will look to streamline everything. Ms. Trammel asked if it is the routing that will be altered, and Dr. Goree said that is correct. Ms. Trammel asked if we are leasing the buses to own them or will we turn them in after the five years, and Mr. Lee explained that as he understands it the District will turn the buses in after five years and get new buses, but he will verify this for the Board. Ms. Trammel asked about the small increase in coaching supplements and Mr. Lee explained that we pay all coaches supplements and this amount (\$50,000) was placed in the budget to give them a slight increase in the supplement they receive. Dr. Goree added that staff did a system analysis of coaching pay structure in the State of Louisiana and found there were some discrepancies; and after conversations with coaches, it was determined some adjustments needed to be made to make Caddo's coaching pay more competitive in the State.

Mr. Green stated he is pleased to serve on a Board where he hears that for a second time a balanced budget is being presented for consideration. He also asked staff what areas in the budget are always challenging when it comes to presenting a balanced budget, and Mr. Lee said benefits would always be a challenging issue because the retirement systems tell the District how much it must contribute on behalf of employees, and this is something we cannot change. Another would be health insurance and a big portion of that is the expense for retirees on the health plan. Mr. Green asked about day-to-day subs and how we budget this expenditure, and Mr. Lee explained that an amount is budgeted for the anticipated amount of subs (long-term and day-by-day). This amount is budgeted in the teacher salaries amount.

Mrs. Douzart complimented staff on the decision to provide an increase to the coaching supplement. She added she will have questions regarding the transportation and the libraries, but will call with them after she reviews these areas more closely. Mrs. Douzart said she will send questions relative to management of security at the schools to Mr. Lee for responding.

Mrs. Poljak asked about the overpayment of \$3.1 million reported in the HR audit and if this amount will be recouped into this budget, and what has been done to insure these overpayments do not continue. Dr. Goree stated that overpayments have been recaptured and he asked for clarification and if Mrs. Poljak is referencing those employees in positions but are being paid for a different job, and Mrs. Poljak said that is correct. Mr. Lee noted there are two categories of employees, (1) excess number of assistant principals and staff will be working with these employees and the board attorney to get them under contracts for positions they are currently in to correct this issue; and (2) surplus teachers. Relative to employees who were overpaid, staff is working to recoup that money and it will show up as miscellaneous revenue as this money is recouped. Mrs. Poljak asked if we now have the ability to negotiate contracts for employees placed in positions but still receiving a salary for the previous position, i.e. principal placed in an assistant principal still receiving principal pay. Dr. Goree clarified that we do not have anyone that is overpaid, but for principals removed from that job and placed in an assistant principal position and continuing to receive principal pay, staff has changed this and when this happens they will be paid that salary and staff is making sure it does everything contractually for this to happen. He said staff is also working to get employees removed from positions into real positions with an appropriate pay level; however, many of those changes from the past staff cannot change and is something that will take staff several years to work through.

Miss Green stated she is happy to know there is an Insurance and Finance Committee meeting scheduled because the issue with retirees is something she will address in committee.

Mr. Riall asked about the upcoming millage renewals and Mr. Lee stated there are two millage renewals in General Fund and one in Capital Projects. He further said that the Salaries and

Benefits millage and the Technology millage are in the General Fund and the Capital Projects millage represents about 47% of this area's revenue each year. Mr. Riall further asked about the request to add a supervisor in Transportation and how many employees in Transportation are located in the Vivian Garage and how many in Shreveport. Mr. Lee said he will get accurate information in response to this request. Mr. Riall asked about the purpose for adding another supervisor and Mr. Woolfolk explained that this is adding a new position because Transportation wants to look at concentrating more on routing, because the department currently has two supervisors that manage 320 bus drivers and there is a need to have more supervisors on the road verifying that bus drivers are doing what they are supposed to do. At this time, he explained one of the supervisors is over routing and is actually on the road; and one does not get on the road due to continued need to get subs to fill bus driver absences. Mr. Riall asked about the need to add a clerical position, and Mr. Woolfolk said this person will work closely with routing, field trips, making sure subs are contacted, monthly bus driver training for maintaining the number of bus drivers needed for the fleet. Mr. Riall asked if we will laterally move employees in these positions or will these be new employees. Dr. Goree explained these positions will be advertised and persons who meet the needs of the position will be placed in those positions.

Dr. Goree added that the District is under a lease/purchase option on acquiring new school buses and staff will provide additional information to the Board on the specifics.

Mr. Lee encouraged Board members to contact him with any additional questions and he will get those answers as quickly as possible.

Mr. Ramsey moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:15 p.m.

May 21, 2015

The CPSB Insurance and Finance Committee met at 2:00 p.m. on Thursday, May 21, 2015, in the Superintendent's Conference Room, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Dottie Bell, Mary Trammel, Jasmine Green and Larry Ramsey. Also present were Board members Steve Riall, Denee' Locke, Bonita Douzart, staff members Jim Lee, Randy Watson, Mary Nash-Wood, and Blue Cross/Blue Shield representative James Bustillo.

Chair Dottie Bell called the meeting to order and Bonita Douzart led in the prayer and Pledge of Allegiance.

Mid-Year Group Health Insurance Changes – Pharmacy Recommendations.

Randy Watson, director of insurance, introduced James Bustillo with Blue Cross/Blue Shield, who is present to answer any questions the committee might have. Mr. Watson stated that the ratio of drug to total healthcare costs increased from 11% in 1997 to approximately 32% in 2015, and the two-year trend since Caddo again went to self-funded reflects nearly a 50% increase. Mr. Watson highlighted paid claims, drug trend summary and changes, comparison of average yearly gross costs per prescription (2010 and 2014), inpatient and outpatient costs, brand name drugs versus generic, like-kind employers, etc.

Mr. Watson reported that the staff has worked over the past year to formulate two strategies that will immediately begin to combat rising costs and to keep premiums reasonable without raising deductibles and co-pays even higher. The two strategies staff would like to submit for the Board's consideration are: (1) a pharmacy benefit savings program, and (2) a drug compounding program with a pre-authorization requirement. He explained that the pharmacy benefit savings program entails hiring a third party administrator, *nForm*, to analyze specific drug utilization on individual members and identify lower cost alternative drug therapies with equivalent quality. The company would contact the member's individual physician to get permission to change any on-going prescription(s) to the alternative drug(s). If the physician agrees, the TPA would inform the member of alternative drug choice(s); and the prescription changed only if the member is in agreement. Mr. Watson reported that this program could save as much as \$1.7 to \$2 million annually if the CPSB agrees to a 2-year commitment to the plan. Cost of this plan will be \$1.75 PEPM (per employee per month), an estimated cost of approximately \$210,000 a year. He also added that while there are no guarantees on the actual amount of savings, the company does guarantee that the savings will exceed their costs. Cost for this program will be paid from the health care reserves and not affect the General Fund. Mr. Watson stated this is a pilot program and is presented after much negotiation with Blue Cross and will not cost Caddo anything in net to implement.

Mr. Watson further reported that, as a result of nationwide industry abuse on certain compound drug prescriptions, drug compounding costs have increased from less than \$30,000 per year in 2010 to a projected cost of over \$2.2 million in 2015. He said insurance companies have implemented strategies requiring pre-authorization of drug compounding payments to address these issues with a pre-authorization based on FDA and drug manufacturer medical criteria.

Mr. Watson stated that both strategies are not about cost cutting, but do have a cost consequence and both take into account quality medical oversight and industry standards and it is not about denying benefits.

After presentation and discussion of possible options, *Mr. Ramsey moved, seconded by Ms. Trammel, to recommend to the Board approval of Option 2 relative to the implementation of the pharmacy benefit savings program, with a two-year contract with nForm. The implementation strategy would require physician approval, and the member could deny the alternative drug(s) at the point-of-service (pharmacy). The cost of the program would be \$1.75 PEPM with a guaranteed savings at or exceeding the cost of the program. Vote on the motion carried unanimously.*

Mr. Ramsey moved, seconded by Miss Green, to recommend to the Board the implementation of a compound drug pre-authorization requirement for any compounded drugs over \$100, which is consistent with the same standard that Blue Cross Blue Shield is using with all fully insured clients. Vote on the motion carried unanimously.

There being no additional business, *Miss Green moved, seconded by Ms. Trammel, to adjourn and the meeting adjourned at approximately 3:03 p.m.*

May 26, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, May 26, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Douzart led the prayer and Pledge of Allegiance.

VISITORS

Richard Hiller, 401 Edwards St., Suite 1300, Shreveport, Louisiana, attorney for Cinnamon Square Townhomes Association representing the homeowners. He noted that Cinnamon Square Townhomes is located almost directly next to the proposed Caddo Charter Academy's location at 3142 Bert Kouns Industrial Loop. He announced that he just came from the City Council meeting where their appeal of the ZBA's decision to approve that site plan is presently pending and now postponed. While he does not know the ins and outs of schools, he addressed the safety issues of placing a school on this 13-acre site. The safety issues include the parents and students driving to the school, as well as the people that use Bert Kouns Industrial Loop. Mr. Hiller noted that this school plans on an enrollment of 824 K-8 students and staff, approximately 500 vehicles between the hours of 7:15 and 8:15 attempting to get onto and leave the school campus. He said the proposed plan for this school has no contingency plan for crossing guards, no plans for safety monitors, nothing to handle/direct the traffic. He said the safety for these parents, students and travelers on Bert Kouns will be hazardous. Mr. Hiller also stated that the proposed plan does not include any plans for emergency vehicles, i.e. gas leak; and the Cinnamon Square Townhome owners are next door to the proposed school with most of the residents in their 60s or above and getting out on Bert Kouns in the early morning or afternoon hours will be a hazardous situation for them. Based on a traffic study, once the school is built, the vehicular traffic can be handled at this site; however, it states that there will be no stacking of cars on Bert Kouns Industrial Loop and he believes it is factual they will. At this time, he said he is not aware of any organization in Southern Hills that is in favor of this proposed charter, which tells him how dangerous this will be.

Barbara Faulk, 183 Fountainview, Cinnamon Square, Shreveport, Louisiana, addressed the proposed Caddo Charter Academy and the location at 3142 Bert Kouns Industrial Loop. She stated that if a resident leaving Cinnamon Square needs to turn left onto Bert Kouns, it is 1/10th of a mile from their (Cinnamon Square) entry to the entry turn of the proposed school. She said the school does not have access to and from, other than this one place, and the Louisiana Department of Transportation in their findings stated that they feel the road is adequate to handle the magnitude of the traffic if the school is constructed. Ms. Faulk said because the school has said it is not responsible for any traffic control at the entrance or beyond their proposed school, but the school will only be on duty at the loading dock to help students (5 at a time) exit their automobile. As a teacher and educator, she said she has experienced afternoon duty without crossing guards, and that is no one will provide it and no one will address the safety of the children. She also stated that residents in Cedar Creek and surrounding areas have canvassed and gotten petitions against this because of the traffic already in that area. She also shared questions/concerns that others have shared with her about this proposed school.

Patrick Smith, 1124 Madison, Shreveport, Louisiana, speaking on behalf of the Hope Career Academy. Mr. Smith stated that Pastor Melvin Porter of the Hope Career Academy recently contacted him and he is addressing their budget deficit for the first and second year of the program. Mr. Smith announced that he is the owner of Smith and Associates Commercial Services, commercial general contractors and also creative funding solutions through Smart

Building and Development. He explained they do development and address their debt needs as well as address any budget shortfall in getting programs and/or developments done. Mr. Smith reported that they had a deficit of approximately \$550,594.24 and with their participation/partnering, they were able to put up some collateral as well as taking a development they are working on with them to create a projected surplus of approximately \$657,406 that would offset the deficit during their first year. Also if they are able to renew their contract with them, Mr. Smith reported they would pick up about four additional acquisitions that would put them in a position during the second year of having about a \$1.2 million surplus as opposed to \$383,000.87. Reporting that these are real numbers, Mr. Smith stated that properties presented are owned by Smith & Associates and they are putting those properties up for collateral to get into a positive position by taking 5.7 acres they own and they (Smith & Associates) will develop.

Melvin Porter, 5749 King Street, Shreveport, Louisiana, thanked the board for the opportunity to share the Ray of Hope Foundation's vision in hopes of better serving the students in Caddo. Receiving his final recommendation today, Mr. Porter stated he is a man of faith and he believes Ms. Williams did the job the board paid her to do; however, he is concerned with finance and failure because when Ms. Williams returns to Baton Rouge the Board will have a challenge to resize the district; and in resizing the district, the Board will have to close some schools. He questions how can schools be closed without offering a better choice and that is what he believes Hope Career Academy offers. Mr. Porter stated that while the school system has the Caddo Career Center, for students to attend they must meet certain GPA, behavior, attendance, district standards, making it more of a magnet program. He further said this results in the students that are in need of the career center do not have access to the career center. Mr. Porter said that Hope Career Academy is Caddo's friend, and he hopes that they can work with Caddo to make Hope Career Academy successful. With the overall National dropout rate between 20 and 25%, higher among Blacks and minorities, he believes there are many factors affecting dropout, but the most effective is disengagement. He encouraged the Board members to read the proposal because much of what was in the recommendations was in the proposal, and they also did not have ample time to get the education service provider here to answer the questions and provide more details.

ACTION ON CHARTER SCHOOL APPLICATIONS – (1) HOPE CAREER ACADEMY (2) AMIKIDS ALTERNATIVE SCHOOL, (3) MAGNOLIA CHARTER USA, (4) CADDO CHARTER & RED RIVER ACADEMY, NATIONAL HERITAGE ACADEMIES

Kimberly Williams, the Third Party Reviewer for Caddo Charter Applications, announced that four charter applications were received this year and she shared the process for her team to review the applications to make sure they are first in compliance and meet the minimum legal requirements followed by a review of the application. Ms. Williams stated that interviews are then held, three were held at the Caddo Schools office and a fourth was held via phone conference, for the purpose of her team and the CPSB team to ask questions to clarify the information in the application. She said from the interviews, she communicates internally and issues a recommendation. From the draft recommendation, applicants are each given 24 hours to respond to the draft and a final recommendation is then issued to the Board for consideration.

Hope Career Academy – Ms. Williams stated that their recommendation is to deny this application for Hope Career Academy, basically because they did not have a fully fleshed out academic program, the finances were a negative one-half million dollars the first year and a negative \$300,00 the second year. In spite of what was presented as collateral, Ms. Williams stated that you cannot use private collateral to subsidize public funds without turning over the dollar, and there was not a long term agreement between the two parties in order to use that collateral for a long-term. She said they did not receive a copy of what was presented today on the finances until today and she pointed out that each letter is allowed the opportunity to respond to their draft and this applicant chose not to respond and instead said they were not given a fair amount of time. Ms. Williams clarified that every single applicant was given the exact same

amount of time, and there is no unfairness. She said there were questions about the education service provider and their response was that while it was not their decision to make, they did caution and counsel him about the education service provider they selected. Based on these things, Ms. Williams said the recommendation is denial of Hope Career Academy.

Mr. Ramsey moved, seconded by Mr. Rachal to accept the recommendation of our third party vendor for denial of the Hope Career Academy application.

Ms. Trammel asked if Hope Career Academy wishes to reapply and they meet the qualifications stated, will the period time be for the next school year. Ms. Williams agreed and stated that the application period will open in January 2016 for a May-June board decision.

Vote on the motion carried with Board members Riall, J Green, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey and Bell supporting the motion and Board member Brown abstaining.

AMIKids Alternative School – Ms. Williams stated that AMIKids is proposing an alternative school and in year one it will be 6, 7 and 9 grades and by year four a full 6th – 12th grade school serving expelled students, students academically behind three or more years, as well as students in the Juvenile Justice System. She said she believes there is a pre-existing relationship between AMI and the CPSB and they recommend approval of the recommendation on the tenets that it is something totally different than what the parish is doing and doesn't have a financial impact on the district because most of the students are out of the system. She said they presented a very large board with community ties who are committed to the success of the school and they have previously worked with the vendor, and this was critical in their decision.

Dr. Phildra Swagger, AMIKids, 5915 Benjamin Center Dr., Tampa, Florida, expressed her appreciation to serve Caddo Parish Schools and the students in the community. AMIKids is a national organization and they have served this population of students throughout Louisiana for a number of years and look forward to partnering with the system and serving the students most at-risk and helping them turn their lives around.

Mr. Ramsey moved, seconded by Mrs. Brown, to approve staff attorney's recommendation for AMIKids Alternative School.

Miss Green asked why the proposal is for 6, 7, and 9th grades, skipping the 8th grade. Ms. Williams explained that in the interview the ability to go 6, 7, 8 and 9th in the first year was discussed, and the explanation was the proposal was to begin middle school and high school and add in the 8th so that in four years they would be serving the entire population. AMIKids and their board agreed if the District wanted 6, 7, 8 and 9, that was a conversation they were willing to have with the District. Mrs. Bell asked if the students that will come to AMIKids are those who have dropped out or are at-risk of dropping out. Ms. Williams explained it is for students three or more years behind and if these students have not dropped out, they are very close to possibly dropping out. It will also be for students who have dropped out, students who have been expelled (not long-term suspensions), as well as those students in the Juvenile Justice System, and this is different than Pathways and Ombudsman. Ms. Trammel asked what data was this based on. Ms. Williams said that according to the application, they examined the data of both the Caddo Parish School System and the surrounding districts to determine the population, and they worked with the Department of Justice officials here to identify populations as well as conversations with individuals in the parish. Ms. Trammel asked if being a charter, will it be able to benefit both or just Caddo. Ms. Williams stated that it is a Type 1 charter in Caddo Parish, so unless Bossier agrees, the students here will only be Caddo Parish. Mr. Rachal asked for clarification if this charter is a 6-9 or a 6-12, and Ms. Williams said it is ultimately a 6-12, but it is starting as a 6-9. Mrs. Brown reiterated Ms. Williams' clarification that this is not a drop-

out prevention program, and Ms. Williams confirmed that is correct. Mrs. Brown also asked Ms. Williams if she is aware that the Juvenile Justice System has an in-house educational system to take care of the students while they are incarcerated, and Ms. Williams said she is and these students are those who are out on probation and not incarcerated or are in lieu of.

Vote on the motion carried with Board members Riall, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey and Bell supporting the motion and J Green opposed.

Magnolia Charter USA – Ms. Williams read the following recommendation. In lieu of an approval on the current application we have received, the recommendation is to amend the current charter contract in place with Magnolia Charter School, allowing them to have two separate sites, one being a K-5 and one being a 6-12. (It's still one school, they just have two separate sites). That the Shreveport Charter and the superintendent will work together to approve the site location for the second building, that the second site would be evaluated separately from the first site (meaning K-5 is an A and the 6-12 is a B), and that the enrollment total of both locations shall not exceed 2,000 students. Ms. Williams clarified it is K-5 at the current site and 6-12 at the new site.

Ann Stokes, 605 Southfield Road, Shreveport, stated that she had not seen this proposal. She said she knows the parents will be thrilled because they want this high school. While she appreciates the recommendation and because she is Board chair, she stated the need to take this recommendation back to her board for approval.

Laura Schlidt, 158 Kayla Street, Magnolia parent, shared with the Board her, and other parents as well, belief that the teaching method at Magnolia works for their children, and they appreciate having a choice for their children.

Mr. Ramsey moved, seconded by Mrs. Brown, to approve staff attorney's recommendation relating to Magnolia Charter USA.

Miss Green asked about the need for Caddo to act on this since the Magnolia Board Chair stated the need to take this recommendation back to their Board. Mr. Abrams explained that the Board has a recommendation from the third party reviewer and a motion on the floor to approve their recommendation, and if the board (CPSB) approves the recommendation, it will stand as this board's action. If the Magnolia Board decides not to accept the recommendation, then they (Magnolia) would have to appeal the CPSB decision to BESE. Ms. Williams added that last year there was an approval with conditions, and this is an amendment to that, and their Board can accept or they can appeal to BESE. Mrs. Bell stated that last year it was agreed that the CPSB would get monthly reports of the progress of Magnolia, and she asked what is the school's current enrollment. Ms. Williams stated it is 762 students. Mrs. Bell asked if they did accommodate special needs students in all areas. Ms. Williams stated there were concerns in the first year with Special Ed relative to services administered; however, during the second year they have worked with the District to correct the issues that existed. Mrs. Bell asked where the new school will be located, and Ms. Williams clarified the recommendation is that the Magnolia Board works with the Caddo Superintendent to identify the location. She said she committed with Dr. Goree, Mr. Abrams and Dr. Robinson to help make sure this happens and she will personally commit to doing an evaluation of the current school and present a report to the CPSB. Mrs. Bell stated her concern that today the Board is voting on something the Magnolia Board is not aware of and asked Mr. Abrams what will happen if their Board does not agree with the CPSB recommendation. Mr. Abrams responded if they do not accept the CPSB amendments, they would appeal to BESE. Mrs. Bell asked what the school's grade was for last year, and Ms. Williams said according to staff, it is a D. Mrs. Bell asked if the new school will be 6-12 and the total enrollment of both school sites will not exceed 2,000. Ms. Williams said that is correct, and the original charter gave them 2,350 students; and this takes nothing from the agreement of 2,000

plus the 20% gives them the same number. This amendment only gives them the ability to build another building with the Superintendent's agreement and it will not be a second application for the 2,350 students. Mrs. Bell asked why she did not receive the breakdown on this information, and Ms. Williams stated that on this application she worked with staff internally to work out an amendment to the current application instead of submitting a recommendation on the application presented. Dr. Goree stated that this was not negotiated until this last moment with the provider. Mr. Abrams explained that he was contacted by Magnolia regarding an amendment to the current contract, and Magnolia submitted the limitation on the enrollment, so it is not that some from Magnolia had not heard, for example, the limitation of 2,000. He said Magnolia may have to go through the formality of getting approval from the entire board, but discussion on the parameters were discussed more than a week ago and they have worked on them up until the meeting today. Mrs. Bell asked if Caddo asked last year for a report, and Dr. Goree stated that Magnolia did provide a detailed report which he will provide her a copy. He added that in the process to right size a district, this agreement will give Caddo the opportunity to work with them on something that is already approved for a 7-12 school, but we have the opportunity to work with them in the placement of the school in the location that best meets the needs of Magnolia, but more importantly the students of Caddo Parish Schools. He said he believes the amendment is in the best interest of the District.

Ms. Trammel moved, seconded by Miss Green, to call for the question. Vote on the motion to end debate carried unanimously.

Vote on the motion to support staff attorney's recommendation regarding Magnolia Charter USA carried with Board members Riall, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal and Ramsey supporting the motion and Board members J Green and Bell opposed.

Caddo Charter & Red River Academy, National Heritage Academies – Ms. Williams stated that the recommendation relative to the Caddo Charter & Red River Academy application presented by National Heritage Academy and the Board of Louisiana Achievement Charter Academy is for one school subject to five (5) very specific conditions as follows: (1) the District and applicant shall agree on the location of the school to be opened, (2) the applicant shall provide transportation for the students and present a plan to the District for doing such prior to the signing of the contract, (3) the applicant shall provide Special Education services and will work with the District to insure compliance, (4) the applicant shall identify additional Board members from Caddo Parish and shall hold Board meetings in Caddo six times a year or the applicant may develop a new non-profit governing Board based in Caddo Parish if it chooses, and (5) two schools the applicant is operating this year (one in Baker and one in Lafayette) must demonstrate a letter grade of C or better or show growth from August 2014 to May 2015, this shall be based upon valid and reliable data either presented to her by the Department of Education or data that can be validated from the organization.

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the staff attorney's recommendation as it relates to National Heritage Academies charter application. Mr. Ramsey clarified that this is for one charter school and that it must meet the conditions. Mr. Ramsey recognized constituents from Southern Hills and Cinnamon Square and their safety concerns, as well as the fact that Summer Grove Elementary is approximately 300 yards east of the proposed location. He stated his support of the recommendation for one school even though he is concerned about the location and the traffic and safety of students. Ms. Williams stated that the applicant has asked for a deferral on the current location contingent upon this conversation and discussion with the superintendent. Mr. Rachal said he hopes we will also address the concerns expressed by the citizens in that area and asked if we can place in the agreement as part of the requirements that they provide a police officer on Bert Kouns. Mr. Abrams responded that it is not needed because it states that the District and applicant shall agree and this means the charter must present it to Caddo and agree on a location. Ms. Williams stated that the number 1 requirement could be

amended to say *the District and applicant shall agree on the location of the school to be opened including any and all terms related to traffic flow.* Mr. Rachal stated he believes this will relay to those who have shared their concern that the Board has heard their concerns and we will respond appropriately. Mrs. Bell asked if this is the application Mr. Hiller addressed, and Ms. Williams said it is. Because the citizens have come to the Board with their concerns, Mrs. Bell said she agrees with them and the valid concerns about the traffic. She also noted the problem of principal turnover in the schools in Baker and Lafayette and because we have a Caddo Parish public school in that area serving our students, she believes another school in that area will cause havoc for those that live in that area. Mr. Ramsey clarified that this motion does address the needs of the community that a school will not go there, because the applicant and the superintendent must agree on the location of this school, and the issue is for the CPSB and the superintendent to decide an appropriate location for the school. Ms. Williams stated that it is in writing that the applicant is willing to agree with the superintendent on the location of the school as well as provide transportation for the students, which is unique to the application.

Mr. Green moved, seconded by Ms. Trammel, to end debate. Vote on the motion to end debate carried unanimously.

Vote on the motion to accept the recommendation of Caddo's staff attorney relating to the Caddo Charter & Red River Academy, National Heritage Academies carried with Board members Riall, Brown, Poljak, Locke, Rachal, and Ramsey supporting the motion and Board members J Green, Douzart, Trammel, R Green and Bell opposed.

Adjournment. *Mr. Ramsey moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

May 26, 2015

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 26, 2015 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Susannah Poljak, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Douzart led the prayer and Pledge of Allegiance.

There were no visitors requesting to speak.

2015-16 CONSOLIDATED ANNUAL BUDGET

Jim Lee, chief financial officer, announced that this is the second work session in looking at the proposed 2015-16 budget; and today staff will talk about all funds (Debt Service, Capital Projects and Special Revenue) and provide answers to questions from last week's budget session. He also stated that in keeping with the budget timeline, the proposed budget will be made available for inspection on June 1st, an announcement will be published in the Official Journal that the adoption is scheduled for June 16th, and a public hearing will be held on June 16th prior to the Board hopefully adopting the 2015-16 budget. Mr. Lee announced that he emailed to all Board members a copy of the budget and today's presentation last Friday, and a hard copy is placed at Board members' stations.

Mr. Lee noted that the General Fund budget did not change from last week reflecting an estimated \$398.9 million in revenue, and \$398.8 million in budgeted expenditures, leaving a balance in revenue over expenditures of \$84,600. Mr. Lee also responded to Board member questions from the first session as follows:

1. How are graduation coaches funded? In the school year just completed, there were two graduation coaches, one funded through Title One, the other through General Fund. The two coaches were at Fair Park and Woodlawn.
2. Which millages are up for renewal in 2016? Two in General Fund and one in Capital Projects are up for renewal. The two in General Fund are salaries and benefits, which are the largest millage at 21.8 mils (approximately \$34 million a year). The second is the technology and is the smallest at 1.25 mils, generating approximately \$2.1 million a year. The renewal for Capital Projects is the one not renewed two years ago and is the renovation millage at 5.15 mils (approximately \$9.5 million). The two in General Fund represent approximately 9% of the total revenue in General Fund and for Capital Projects, approximately 45% of their total revenue.
3. Provide comparative data on state and local revenue from districts similar in size to Caddo. Mr. Lee shared information on four districts similar in size to Caddo, providing information on the tax revenues and MFP (state funding) and where Caddo falls in comparison to East Baton Rouge, Calcasieu, St. Tammany and Jefferson Parishes.
4. Regarding bus leases, Mr. Lee reported that the amount for leasing eight buses each year is placed in the budget. He explained these are five-year leases and at the end of the lease, Caddo owns the bus.
5. Staffing at the Vivian Garage includes one foreman, one secretary, three mechanics, and one mechanic helper.
6. Relative to the IT workloads and the turnaround time on work orders, Mr. Lee shared by month work orders during the school year, and that the turnaround time is dependent upon how critical the issue might be.

Proposed Budget relative to Other Funds. Mrs. Poljak asked Mr. Lee to share bus leasing compared to purchasing buses. Mr. Lee explained that it helps the budget because we are only paying 1/5 of what we would be paying if purchasing a bus out right. She also asked if there is a possibility to rotate them every five years? Mr. Woolfolk said if we choose to do this it would be sold as a used bus and would possibly get some residual even though not what we would like to get; and he would like to see the lease time of 10-12 years. Mrs. Poljak stated she is only looking at how we can spend the money wisely as well as keeping new buses. Dr. Goree noted that he understands keeping buses 25 years seems like a long time, but realistically a lot of maintenance goes into a 15-20 year-old bus. He further stated this is something staff will look further into in the next school year and determine the pivotal point for this to be a financially smart decision for keeping buses on the books.

Mr. Green asked if a Board member voting on the prevailing side of the budget has the opportunity to bring back any portion of the budget for consideration, and Superintendent Goree responded that it is his understanding a Board member can always bring forth a budget amendment at any time, even one voting on the dissenting side. Mr. Lee clarified that a revision can be brought the night of the Board's vote on the agenda; or if a Board member wishes to bring a budget revision later in the school year, it can be presented to the Board as a revision to the budget.

Ms. Trammel asked about the retirement of a number of buses in the near future, and Mr. Lee stated that in the next 10 years Caddo will retire approximately 120 buses. Dr. Goree clarified that Caddo will retire 19 buses in the next five years and 121 over the next 10 years, which is a great concern. Mrs. Trammel asked about the District acquiring eight new buses each year, and Mr. Lee stated that we are good for the five years, but it's the 10 years that staff will need to begin looking at more closely. Ms. Trammel noted that 8 buses over the next 5 years is only 40 buses which is approximately 80 buses short. Mr. Woolfolk stated that we would need to purchase 13 buses per year to make sure we are up to maintaining 300-350 buses over 25 years. He further stated that most critical is because in 1990 approximately 90 buses were purchased at one time and all 90 will need to be retired at one time.

Mr. Riall asked about the staffing at the Vivian Garage and how many buses are home-based at this location. Mr. Woolfolk said approximately 70. Mr. Riall asked if the maintenance is done at the Vivian Garage and are the three mechanics and one mechanic helper ample to cover all the maintenance or are they brought to the Midway Garage. Mr. Woolfolk explained they address most of the quick-fix maintenance issues; and if it is something major, they will determine if they can or if it needs to come to the main garage for repairs.

Mrs. Locke asked if the buses are addressed in the strategic plan? Mr. Woolfolk said not the purchase of buses. Dr. Goree referenced the need to revamp and the additional month for making additional changes because of the bond initiative defeat. Mr. Rachal asked about the cost for eight new buses, and Mr. Lee responded that it is approximately \$20,000-\$25,000 per bus; and at the end of five years, Caddo owns the buses. Mr. Woolfolk clarified that it is \$150,000 annually for eight buses, and a bus costs approximately \$88,000 - \$100,000 depending on whether or not it is a regular or special education bus. Mr. Rachal asked if he understands this does not impact the District's debt; it does not show up on the balance sheet or affect the budget, and Mr. Lee said that is correct. Mr. Riall asked about the cost if the Board does not do a lease; and Mr. Lee said figuring 8 buses times \$80,000, you are looking at approximately \$650,000. Dr. Goree added that traditional school management means the District would need to pay the amount upfront. Mr. Rachal asked if staff sees the possibility in the future of the budget being able to accommodate this every year for the next 10 years. Mr. Lee said staff will be looking into this since the District is now into the second year of implementation of bus leasing since next year an additional year will be added; and that is if things stay the same since the District gets no additional revenue from the state and sales and property taxes come together.

Mr. Ramsey said simple math indicates going to 24 buses a year and the problem would be solved; so he questions what is the problem. Mr. Lee responded that unless other cuts are made, we will no longer have a balanced budget and the need to look at what can be cut from the budget. Mr. Ramsey noted that adding positions should be done very carefully because there are other needs in the District. Also, he believes it was in 2012-13 when the Board eliminated library positions and this budget adds seven positions because the formula states we can. He said he believes site-based administrators should be the ones making these choices and not arbitrarily adding them just because the formula says we can. He said the need with the transportation system is very critical, especially since the voters said no to 20 buses; and there are a number of ways to get to where we need to be.

Dottie Bell asked the superintendent about the Title I schools that had the money to hire graduation coaches; because looking at the success seen at Woodlawn and Fair Park this year, she believes graduation coaches are needed in every school. If the funds become available, Mrs. Bell requested a graduation coach for her high school. Mrs. Bell also asked if the \$211 million Caddo is receiving in MFP is the current amount; but if any additional dollars are received above the \$211 million, those dollars also will go directly to the classroom. Dr. Goree responded that first responsibility is to the classroom and second to the compensation of Caddo's employees. Mrs. Bell asked how many full-time employees are in IT and how many part-time. Mr. Lee said there are 3 operators, 10 technicians, and 12 analyst/programmers. Mrs. Bell asked if these positions can cross-train in the event the analysts/programmers are needed to address issues in the schools. Dr. Goree said his initial response would be yes; however, he will follow up on this and provide a response.

Mrs. Poljak asked if it is correct that last year there was \$20 million, but because the bond initiative did not pass, this has been spent and next year's prediction is only \$84,600 in the black, and Mr. Lee said that is correct. Mrs. Poljak asked where the \$20 million is from last year, and Mr. Lee explained that is the unrestricted reserve (savings). She asked if these monies can be used to purchase needed buses; and Dr. Goree said while technically you could, the District is required to keep a strong fund balance in reserve for catastrophic emergencies; and, if you do not have a strong fund balance, it can affect your bond rating.

Mrs. Douzart asked if we have purchased any buses since 1990, and, if so, how many? Mr. Lee said we have and up until 2008, the District purchased 10-15 buses a year. Mrs. Douzart stated that since 1990, and since there is a period of approximately five years, can these buses help increase the number of 120 that the District is looking to replace? Mr. Lee stated that the District is currently using those buses. Mrs. Douzart asked if these buses have a restriction on the number of miles that can be on them, and Mr. Woolfolk responded that we rebuild motors and most of the buses we have will get a new motor or possibly two before they are retired. Instead of setting these aside, she asked if these can be used for athletics, field trips, etc., and Mr. Lee explained that once they are 25 years old, we cannot use the buses for anything.

Ms. Trammel asked about areas that have open positions that have never been filled and can those positions be removed from the budget. Mr. Lee said it is and staff has looked at vacant positions from time to time to determine the need before eliminating from the budget. Ms. Trammel clarified that 2029 is the year transportation will need to replace the large number of buses.

Regarding special revenue funds, Mr. Lee reported that if it is not General Fund, Capital Projects or Debt Service, it is considered special revenue funds (state and local grants, Federal grants). He explained that while the District received approximately \$63 million in special revenue grants during the current year, this is being reduced to approximately \$58.9 million next year. He said the four largest grants are Title I, Child Nutrition, IDEA (Special Ed), and Title II, and these are

all Federal grants. He explained that these grants are different from General Fund because with General Fund the revenue comes in each month and the District attempts to keep a good cash flow; and these funds are reimbursement funds where the money is spent first and we request reimbursement of what was spent. These four large grants represent approximately 90% of all the Special Revenue funds. Mr. Lee also noted in the budget the list of all special revenue funds expected during the 2015-16 year.

Mr. Lee said that Capital Projects fund is the \$20 million the District receives each year in tax revenue. While in the past the District had bond funds from issuing General Obligation bonds, or the QZAB and QSCAB interest funds, all these received funds have been spent, even though the District is still repaying these. Capital Projects receives funding from the two millages, (1) one millage renewed in 2013, and (2) one millage up for renewal in 2016 (representing approximately 43% of the total revenue for Capital Projects. He also reported that Capital Projects is budgeting approximately \$20 million in projects for next year; even though not all of the money is spent each year, the total is pretty close to \$20 million. Most of the projects are received from principals, ADA issues, critical issues.

The Debt Service Fund is how the District pays its General Obligation funds; and there is a balance of approximately \$85 million in General Obligation funds and a payment was recently made on this amount and is the millage that the Board reduced from 6 to 5 and generates approximately \$9 to \$9.5 million annually, and it can only be used for the payment of expenses related to that debt.

Mrs. Locke asked if the money for Capital Projects is budgeted, and if she understands correctly that there are specific projects for the amount budgeted, and Mr. Lee said that is correct. She further asked about the projects in the budget, and Mr. Lee explained that the capital projects are on a three-year cycle and he believes this year is the end of that cycle. He further stated that at each Board meeting when Capital Projects submits items on the agenda it is for the Board to approve the bids received on projects because the Board has already approved the construction projects. Mrs. Locke asked if the Board could get a copy of the request list as well as the process for the next three years. Dr. Goree responded that staff will provide the Board this information. Over the three-year cycle, Mrs. Locke asked how are unexpected projects handled that come up? Mr. Lee said there is a small contingency built into the budget in the event of any emergency.

Mr. Rachal stated that he has said over the past five years that the Capital Projects budget is a shoestring budget, but he would like for the Board to consider a set-aside fund for the construction of new schools if that is possible. While it is certainly a possibility, Dr. Goree responded that it is something the Board would have to choose to do and staff would recommend what the list of priority projects looks like versus what the consolidations look like as we move into the next school; possibly next year would be the opportunity to make this decision. Mr. Rachal stated he has heard that each year, and Dr. Goree stated that when you add million dollar projects, i.e. elevators, staff is looking at these very carefully in an effort to be as fiscally responsible as possible. Mr. Rachal stated his understanding on how the District was hit with a fire and the projects that were deleted and/or moved back, and Mr. Lee said that the deductible was close to \$3 million. Mr. Rachal also noted he feels sure there were many projects left undone based on the fire. Mr. Lee said staff will do whatever the superintendent and board asks staff to do, but asked the Board to remember that the District is taking a big hit as a result of the bond initiative failing. Mr. Rachal asked about the 7% decrease and what caused this, and Mr. Lee said it is the reduction of Federal funds.

Mr. Ramsey asked if we can be more descriptive in explaining where the Capital Projects funds are spent rather than portraying this as a wish list of the schools but a list of what the school's administrator has determined is critical in the operation of the school, and the need verified through a process. Mr. Lee stated he would need to receive information on the project

verification process; and he knows Mr. White helps prioritize what happens first, but he is not aware of the process beyond that. Dr. Goree said in coming from a school district with all new schools, he always found the term “wish list” interesting, because replacing aging plumbing fixtures is not a wish but a necessity; so he does see the need to change the verbiage in describing the projects; but he also sees the Academic Division (area school directors) working with the principals to determine what needs to be on the list as a critical need. Also, Mr. White works with the principals and area directors in prioritizing the needs that need to happen in the schools. Mr. Ramsey stated it is very offensive to him that someone will portray this as a wish list when it is known that items such as ADA becoming involved in matters may require the District to place a million dollar elevator in a facility. Mr. Ramsey said he appreciates the information provided by the site administrators, and he doesn’t believe it ironic that what is seen on the schools’ lists is also what was seen in the report by an outside third party review. He also reminded everyone that it is difficult to meet \$150-\$200 million in needs and only \$20 million a year to address them. He encouraged being careful in how budget items are portrayed.

Mrs. Bell asked about the \$8 million for IDEA for disabled children with special needs and is the \$1.4 million for all Special Education programs included. Mr. Lee explained there is more to the IDEA grant than the Special Education program because it is actually broken out into the different programs. Mrs. Bell asked staff to explain the \$702,000 for Community Service Operation, and Mr. Lee responded he will provide this information. Mrs. Bell also asked for information on the School Climate Information Program’s budget of \$604,000 and LA4State. Mr. Lee stated that the LA4 is split (part Federal, part State). Mrs. Bell asked if she understands some of the money is coming from the Federal government for this fund and Mr. Lee said that is correct. Mrs. Bell noted that nothing in the General Fund is spent for any of these, but it is only paid from grants. On Community Service, Mr. Lee explained that is the McKinney Vento Homeless Program.

Jasmine Green stated if we had the bond money we would be able to do more, and Mr. Lee confirmed. Miss Green asked Dr. Goree to reiterate what Mrs. Locke requested and that is where this \$20 million is being used. While we have 62 schools, if anything comes up that is critical to be address in any of the schools, it may mean that some of the projects for a specific year may be delayed. Miss Green referenced the comment on the millage renewal for next year and if she understands correctly that if they do not pass, there could be some problems. Mr. Lee said that is correct; and Dr. Goree confirmed that a lot of it will determine if people get paid or not. Miss Green said she believes it is important to get that information out to everyone. Miss Green asked when will this election be held, and Mr. Lee stated in the Spring (April or May).

Mrs. Brown asked about the academic landscape in the school district and when was the last time the District had a balanced budget, and Mr. Lee responded last year; and before that, probably 10 years. Mrs. Brown asked Mr. Lee to define a balanced budget, and Mr. Lee stated there are two definitions for a balanced budget. A legally balanced budget means you can use revenue and fund balance as long as expenditures are equal to or less than revenue and fund balance. The District has worked under a budget where revenue equals or exceeds the budgeted expenditures and is the policy under which Caddo operates. Mrs. Brown noted her experience in this area. Mr. Lee further explained that legally the District could use fund balance, and did so for many years; however, the district is no longer following this method. Mrs. Brown asked if the District is still using the block schedule, and Mr. Lee said we are not because it was so expensive, approximately \$7 million annually. Mrs. Brown stated her concern that we cannot cut too much when it comes to academics and children and there is a need to find additional funding sources. She asked the superintendent how E2020 is working and Dr. Goree stated it is working well; and even though there are a few hiccups, the product is working well and he shared examples that evidence its success; however the drawback is the cost associated with it. He noted that the District did go to a modified block schedule for a year and did not see much success, and he believes the District now has a schedule in place that is working (7-period day) and it is meeting

the needs of the District. Mrs. Brown said she understands the expense, but she only knows it worked and would like to look at other funding for this if the Board approves it. Dr. Goree stated that in talking about other funding streams, he agrees you look and see if there are organizations/foundation that provide funding for these programs, as well as be as creative as possible with the District's revenue since there is not a stream of money but things that must be taken care of in the next few years, so it is important that we are cautious before adding anything to the budget. Mrs. Brown asked if the District has a grant writer, and Dr. Goree responded the District does not have an official grant writer, but the District has persons who write grants and those who have secured grants. He said there was a position in the "C" column in last year's budget for adding an official grant writer but there were no funds to do so. Only being \$84,000 in the black on the proposed 2015-16 school year budget, Dr. Goree said at this time he doesn't believe it can be added even though that position is one that sometimes pays for itself. She expressed her appreciation to the superintendent and staff for their work in bringing the balanced budget.

Mrs. Poljak asked about the Debt Service Fund being budgeted at \$9.4 million and asked if she is correct that in approximately 9 years that would be paid off, and Mr. Lee stated that over time, and if nothing else happens, that amount will reduce as we continue to reduce the millage down and the final payment at this time is scheduled for 2033, because reducing the millage means we will have less money coming in. Dr. Goree stated that the fair part of this is that it is based on the District owing less money.

Ms. Trammel asked Mr. Lee if the Special Revenue funds are those we can handle as we want, and Mr. Lee explained there are guidelines depending on where the money comes from on how the money can be spent – what is legal and what is not. She asked if the District has complete control of any of it, and Mr. Lee responded very little and even the \$77,000 grant received last week has restrictions on how and where it is to be spent. Dr. Goree added that when talking about Federal Grant funds, many of them also have rules against supplanting which means if a school receives Title I funds, the District cannot say we will not do anything for that school because they are meant to be extra funds to the school above the General Fund. Mr. Lee also explained that the District has approximately 600 special education teacher positions; however, IDEA funding cannot be used to pay for those teachers.

Mr. Riall stated he understands the millages up for renewal in 2016, but asked when are the next millages up for renewal, and Mr. Lee said in 2023. Mr. Riall clarified that the District has six millage categories and two (three) are up for renewal in 2016 and the others in 2023, and Mr. Lee said that is correct.

Mrs. Locke referenced the millages up for renewal and are all of them voted on at the same time. Mr. Lee explained that the three in 2016 are on the same 10-year cycle, originally done in 1996-97 as separate propositions on the same ballot.

Mr. Rachal noted the details for the capital projects detailed on the last page of the budget, and asked about the \$1.3 million set aside from the \$20 million for contingency for any emergencies. Dr. Goree added that this generally covers the \$1 million that we have to pay upfront. Mr. Rachal asked about the Pupil Support Services and the 14% reduction in expenditures and what is the biggest category affected. Mr. Lee explained that this category is in a lot of the budgets; however, the District is not expected to receive the Safe and Drug-Free Schools Grant, approximately \$800,000, next year. Also, Mr. Rachal asked about the 14% reduction in Food Service, and Mr. Lee explained that they are having to reduce expenses because the revenue is not adequate after a couple of years operating at a loss. Mr. Rachal also referenced the actual in 2013-14 reserve of approximately \$5 million and at the end of this year, there will be approximately \$357,000 in reserves. While that is still a balanced budget, he said he believes we are not squeezing blood out of a turnip and asked if a lot of people will be affected. Mr. Lee

stated that this area has turnover similar to other areas in the District and they will need to look closely at school reports relative to those that are losing money and those gaining. At this time, he does not believe it will mean a layoff, but it could possibly mean not replacing people that retire and shifting others. Mr. Rachal asked about the major purchase of kitchen equipment in the past, and Mr. Lee said they have a reserve fund separate from this and they can draw funds for this but not for normal operations.

Mr. Ramsey asked if Caddo has ever been placed on the state watch list for any budgeting reason, and Mr. Lee responded yes; and he explained that in 2008-2012 timeframe when the District was reporting \$5-\$6 million in operating losses annually, the State placed the District on a state watch list because they did not believe the District was operating as soundly as possible. Mr. Ramsey asked if by legal description the District was operating under a balanced budget, and Mr. Lee responded absolutely. Mr. Ramsey asked where the District was at the lowest level in fund balance, and Mr. Lee said while he doesn't have the exact amount, it was possibly close to 10%. Mr. Ramsey said his point is that \$20 million in the contingency fund is not a lot and we need to make sure that we are financially healthy so we can maintain good bond ratings.

Mrs. Bell asked about the Child Nutrition Program and a recent situation where the District had to repay a certain amount back each year to the Federal government. Mr. Lee stated he will research this. Relative to the Caddo Educational Excellence Fund, Mrs. Bell asked Mr. Lee to explain this for the new Board members. Mr. Lee stated that this fund is tied to a trust where money received from boarding passes on the two riverboat casinos legally located in Caddo Parish is deposited and every January the earnings can be drawn and placed into the CEEF Operating Fund. He further explained that the money in the operating fund can only be used for instructional enhancements by the schools and the decision is up to each school. When interest rates were higher, Mr. Lee reported that several hundred thousand dollars in earnings were received and money, based on the CEEF Committee's recommendation, distributed to the schools. Over the last three years, this has not been done because earnings were so low, so the money has been held and allowed to earn interest; and because it is approximately \$300,000, he anticipates a meeting of the CEEF Committee to determine how it will be distributed to the schools. He also stated that salaries cannot be paid from these funds and the schools can only use them for instructional enhancements at their school. Mrs. Bell asked, since we can only use the interest, is the dollar amount listed the accumulated interest, and Mr. Lee explained that is just the accumulated interest. Mrs. Bell asked if there is a need to buy something in the classroom, does she understand that is what these funds are to be used for, and Mr. Lee said that is correct, and a computer can be bought for the classroom, but it will only need to be justified to him and the auditors that it is for instructional enhancement. He also explained that it is the CEEF Committee that determines how the money is distributed; and when the school receives their allotment, they can add it to the CEEF dollars they have accumulated and spend the money on instructional enhancements of their choice. Mrs. Bell asked if anyone has talked to Billy Montgomery relative to the change in how Caddo receives funds from the riverboats (receiving more than just the interest). Mr. Lee said it is not his recommendation, because he believes the minute the Board can touch it, it will all be spent. Mrs. Bell asked about the restrooms at Walnut Hill and if the Army barracks in the back of the school will be replaced, and Dr. Goree confirmed we will replace the temporary restrooms designed for two to three years and used for ten plus years.

Mrs. Poljak stated that during the bond initiative it was stated we would be closing schools if the bond passed or not. With only \$84,000 in the black, she noted that the original idea was no schools would be closed until 2016-17 school year; however, she asks if that is something the Board needs to consider sooner. Mr. Lee said it is getting tight for closing a school at this point and be ready for the opening of school in 2015-16. Dr. Goree said he is encouraged that the proposed budget reflects \$84,600 in the black; and in looking at the legitimate costs associated with operating more schools than we have, he did say during the campaign that the 2015-16

school year schools would open in the current structure to allow us to move through the process of consolidating more easily. However, if in a situation of the budget being in the red, he believes at that point it would be wise for the Board to come forward and be responsible in how schools can be closed sooner. Mrs. Poljak said while she understands, it is one thing to talk in theory and another when talking reality; however, schools were going to close no matter the outcome of the bond initiative and with only \$84,600, she questions if that needs to come sooner. Dr. Goree stated that he believes next year would allow time to respond to what the voters said, to some of the modes of communication the voters want and make sure everyone is aware early on with the decisions that will impact school closures which will happen very soon.

Mrs. Douzart stated that she talked with Mr. Woolfolk about an additional football field for Fair Park and she was told this was being worked on. Also she said there is also a name for the Fair Park gymnasium. Dr. Goree reported on a meeting with Fair Park alumni and the discussion of projects at Fair Park and there are some exciting things being done by Capital Projects as well as the alumni. When the rain stops, he added staff looks forward to moving ahead with these renovations at Fair Park.

Ms. Trammel commented on the renovations of the front desk and asked if there is any way possible to do some things in the boardroom which she believes is long overdue. Dr. Goree stated that staff had conversations relative to wanting to send a message when people enter the School Board office, because some do not get past the front desk; however, when looking at renovations, it can get expensive; but staff will look into it.

There being no additional comments/questions on the budget, *Mr. Ramsey moved, seconded by Ms. Trammel, to adjourn.* Vote on the motion carried unanimously and the meeting adjourned at approximately 3:45 p.m.

May 29, 2015

The **Caddo Parish School Board (CPSB)** met in special session in its office at 1961 Midway Street, Shreveport, Louisiana at approximately 11:00 a.m. on Friday, May 29, 2015 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey and Dottie Bell. Also present were Secretary T. Lamar Goree and Legal Counsel Reginald Abrams. Mrs. Douzart led the prayer and Pledge of Allegiance.

VISITORS

There were no visitors desiring to speak.

INTERVIEW CANDIDATES FOR THE DISTRICT ELEVEN VACANCY

President Riall announced that the purpose of today's meeting is to interview candidates interested in filling the District 11 vacancy vacated by Mrs. Kirschvink. He stated that candidates will be announced in reverse alphabetical order and the following format and procedures to be followed for interviewing candidates for the District 11 vacancy. *Each candidate will be allowed to make an opening statement addressing the following: his or her reasons for desiring to serve as interim board member from District 11, his or her special skills or experience to offer as a board member from District 11, and his or her perspective on the role of a board member. Each candidate will be given 10 minutes and if time permits, each candidate will be able to make a final summary statement.*

The following candidates shared with the board why they desire to serve as the interim board member from District 11: (1) Parker Ward, (2) Shalanda Swift-Watkins, and (3) Jim Hewlett.

SELECTION OF INTERIM REPRESENTATIVE TO FILL THE CPSB DISTRICT ELEVEN VACANCY

President Riall announced that each candidate's name will be called in reverse alphabetical order and each Board member will have one vote and the interim appointment must receive 6 votes. As each candidate's name was announced, the following votes were cast: (1) Parker Ward (0 votes), Shalanda Swift-Watkins (5 votes – J. Green, Douzart, Trammel, R. Green, Bell); and Jim Hewlett (5 votes – Riall, Poljak, Locke, Rachal, Ramsey). Margaret Brown abstained. President Riall announced the Board will vote on the top two candidates and the following votes were cast: Shalanda Swift-Watkins (5 votes – J. Green, Douzart, Trammel, R. Green, Bell). Mrs. Brown announced that she did vote, but her vote did not register. President Riall announced a re-vote and the following votes were cast: Shalanda Swift-Watkins (6 votes – J. Green, Brown, Douzart, Trammel, R. Green, Bell); and Jim Hewlett (5 votes – Riall, Poljak, Locke, Rachal, Ramsey). President Riall announced that Shalanda Swift-Watkins is the new interim representative for CPSB District 11.

OATH OF OFFICE

Legal Counsel Reginald Abrams administered the oath of office to Shalanda Swift-Watkins, newly appointed interim board member for CPSB District 11. The board and audience extended congratulations and welcomed Mrs. Swift-Watkins to the board.

Adjournment. *Mr. Rachal moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 11:37 a.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

June 2, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, June 2, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, Shalanda Swift-Watkins and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. President Riall announced that Board member Locke is out of town. Ms. Trammel led the prayer and Pledge of Allegiance.

GRADE CONFIGURATIONS FOR BLANCHARD ELEMENTARY SCHOOL AND DONNIE BICKHAM MIDDLE SCHOOL FOR THE 2015-16 SCHOOL YEAR

Superintendent Goree introduced Shannon Wall, principal at Donnie Bickham School, who made a presentation on the recommendation for configuration for Blanchard Elementary School and Donnie Bickham Middle School for the 2015-16 school year as a result of the efforts of the principals of the respective schools.

Mr. Wall shared that when Dr. Goree came to Caddo he traveled to the schools throughout the parish asking principals what needs they may have in their schools. He shared with the Board that the concern for Blanchard was one of being overcrowded, and as a resident of Blanchard and because his children attend Blanchard Elementary, this is important to him. Because Blanchard is a feeder school to Donnie Bickham, he and Mrs. Bass began discussing how the overcrowding could be addressed; because no matter the outcome of the bond initiative, it was something that needed addressing. Mr. Wall explained that he and Mrs. Bass shared with their directors a plan to move the 5th graders at Blanchard Elementary to Donnie Bickham and create The Academy at Donnie Bickham Middle School. While this at first seemed something that might be impossible with 750 students at Donnie Bickham, he explained that when they looked closer, they discovered by shifting a few students they would be able to dedicate an entire wing for the incoming 5th graders including restrooms for boys and girls, a computer lab, water fountains, all in their own area. Mr. Wall noted their proposal on a drawing of the school (Donnie Bickham), and that they have plenty of room for the 5th graders. He also shared with the Board how the safety of the 5th graders will be addressed, and they have shared this at a community meeting. He said they assured the community that the campus is ample size for providing them with their own playground area separate from the older students, they will have their own bell schedule (take in at 7:50 and let out at 2:50), and they will have their own buses so they will never cross paths with the older students. The fifth graders will also have a separate lunch shift, and separate recess times in their own area. Mr. Wall added that relative to staffing, the 5th graders will have an instructional coordinator, the fifth grade teachers at Blanchard will move to Donnie Bickham, they will gain a half of a Discoveries teacher, a P.E. teacher that will also do enrichments and one paraprofessional. He said they will offer Discoveries, Gateway, Enrichments such as Art, Technology, Choir, Little Kids Rock, and will be a part of the USA Flag Football.

Mr. Wall further explained that they shared this with the parents and community in a community meeting, and then submitted it to the Superintendent.

Dr. Goree thanked Mr. Wall and Mrs. Bass and others involved, and he noted that it will be necessary for staff to be creative in our thinking to address the needs of the District. He said he believes this is a step in the right direction to provide the best opportunities available to the 5th graders in the Blanchard community.

Mr. Rachal asked how many students were involved, and Mr. Wall responded there are approximately 110 students, and the attendance zone for the Academy will be the Blanchard

Elementary attendance zone only. Mr. Rachal said he believes this staff needs high commendation for putting together a plan to address this concern.

Mr. Ramsey expressed his appreciation for the collaborative effort of both schools.

Ms. Trammel thanked Mr. Wall for what he is doing for the children in North Shreveport; and because the bond initiative did not pass, they will be looking to duplicate and implement some of these type things in the District.

Mr. Riall thanked the superintendent for his insight in addressing the overcrowding at Blanchard, and the need for the plan to come from within the community if it was to be successful. He also thanked Mr. Wall and Mrs. Bass for the outstanding job they are doing at Blanchard and Donnie Bickham.

Miss Green also expressed appreciation to Mr. Wall, and she asked if it will continue to be crowded when it comes to the lunch schedule. Mr. Wall indicated that Blanchard will still be crowded because the school is built for 450 students and it has approximately 600 students, some of which are being taken away. Hopefully, as a result, they might be able to eliminate a couple of lunch shifts. He also noted that for a number of years the school has not had a faculty lounge for the faculty to meet.

She also shared her appreciation for the staff working together to be successful and asked to receive a copy of Blanchard's lunch schedule. Dr. Goree said they will continue to begin lunch at approximately the same time. She also asked if a temporary building is or would be available for use as a faculty lounge. Mr. Wall said he believes so and is something Mrs. Bass would need to address, as they are still working on a plan to continue to alleviate overcrowding at Blanchard for the following year.

Mrs. Bell moved, seconded by Ms. Trammel, to approve the proposed grade configuration for Blanchard Elementary School and Donnie Bickham Middle School for the 2015-16 school year as recommended by the superintendent and proposed by the school principals. Vote on the motion carried unanimously.

RATIFY PROCLAMATION CALLING FOR SPECIAL ELECTION OF SCHOOL BOARD MEMBER DISTRICT 11

Mrs. Bell moved, seconded by Ms. Trammel, to ratify the following proclamation calling for a special election of the school board member from District 11 as submitted in the mailout. Vote on the motion carried unanimously.

PROCLAMATION

WHEREAS, the Caddo Parish School Board has received notification from Kacee Hargrave Kirschvink of her resignation as member of the Caddo Parish School Board District 11, effective May 20, 2015.

WHEREAS, the resignation created a vacancy in Caddo Parish School Board District 11 which required a temporary appointment and the unexpired term of office in which the said vacancy existed will end on December 31, 2018 and exceeds one year.

NOW THEREFORE the Caddo Parish School Board does hereby issue this Proclamation pursuant to LSA-R.S. 18:602(E)(2) ordering a special election to fill the said vacancy in Caddo Parish School Board District 11 for the remainder of the unexpired term as follows:

- (1) The Gubernatorial Primary Election shall be held on Saturday, October 24, 2015; and
- (2) The Gubernatorial General Election shall be held on Saturday, November 21, 2015.

The dates for qualifying for the candidates in the special election shall be September 8, 2015 – September 10, 2015.

This Proclamation shall be published in the official journal of Caddo Parish and a copy thereof shall be sent by certified or registered mail to the Clerk of the First Judicial District Court of Caddo Parish, Louisiana and to the Louisiana Secretary of State as required by law.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:00 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

June 2, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, June 2, 2015 immediately following the special called board meeting (approximately 5:00 p.m.) in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Barry Rachal, Larry Ramsey, and Shalanda Swift-Watkins. Also present were Dr. Lamar Goree, superintendent, and Reginald Abrams, legal counsel. The prayer and Pledge of Allegiance were omitted.

PRESENTATIONS

Sex Education Curriculum. Patrick Greer, director of curriculum, shared with the Board the background in looking at the new sex education curriculum *Choosing the Best*. Mr. Greer explained that Caddo currently utilizes the *Sex Respect* curriculum which is taught in grades 7, 8 and 10, and noted Academic Affairs' concern that the current curriculum was enacted in the mid 1990s and has not been changed or modified since then. He said some supplemental materials have copyright dates back to 1986, and stressed the importance of insuring Caddo's teachers and students have current resources and materials. It is for this reason that the District level team initiated an informal search process to seek curriculum products that align directly with Louisiana's guidelines as well as the District's philosophy of abstinence-based education and good decision making. After a thorough review, he stated the team identified *Choosing the Best* as a series that could best meet the instructional needs of Caddo students. At that time a team of health and physical education teachers was given an opportunity to review the curriculum and the over-whelming majority selected *CTB*. Mr. Greer introduced presenters Deanne Bingham, executive director of Louisiana Youth for Excellence, and Ruth Geertz, western regional director of *Choosing the Best* Publishing Company.

Ruth Geertz shared background information explaining that Louisiana Youth for Excellence received a million dollar grant through Title V to provide curriculum to each parish in Louisiana. At this time she reported that over 25 parishes are utilizing the *Choosing the Best* program, a program that meets the requirements of the Louisiana State Law for abstinence education, it correlates with Louisiana State Standards, and the Louisiana Department of Education's web site lists it as the recommended program. Because of this grant, Ms. Geertz stated it is made available at no cost to Caddo. Ms. Geertz reported that she taught *Choosing the Best* in high and middle schools for four years; and after seeing the difference it made in the students' lives, she chose to be a part of *Choosing the Best*. Ms. Geertz shared a review of statistical information relative to the *Choosing the Best* curriculum, including over 4 million students have gone through the program since 1993; the program is currently used in 47 states; it is evidenced based which sets it apart; it is medically accurate; it is a health and medical model certified by the U.S. Department of Health and Human Services; and it is abstinence centered which meets the Louisiana Abstinence Education Law requirements. She also shared statistical information on the number of teens that continue to get pregnant each year and contract STDs and parishes are consistent in their response to this issue that they are at or higher than the National average. Ms. Geertz noted that *Choosing the Best* has proven results through an evidence-based study that it does get results and reduces the statistics,

Ms. Geertz also highlighted the nine learning areas covered in a five-year scope and sequence approach and noted that each is a stand- alone curriculum that can be implemented at any point a District wishes, and can be completed in 1.5 weeks or less (8 lessons, 50 minutes each). She added that it all correlates with state standards and teacher lesson plans are prepared for them. The learning areas include: (1) Risks of Teen Sexual Behavior, (2) Rewards of Abstinence, (3) Relationship Education, (4) Alcohol and Sex, (5) Peer Pressure and Refusal Skills, (6)

Abstinence Pledge, (7) Character Application, (8) Building Self-Esteem, and (9) Parent Interviews. She also explained that each session begins with a brief video, includes a hands-on activity for the students, and each ends with a character application. The video from the HIV AIDS lesson also was shared with the Board. Ms. Geertz explained that all materials (including teacher training, scripted lesson plans and student books) are provided through the grant at no cost to the District. They also provide a parent program, a one-hour presentation, and parent books to help parents with interactive discussions at home with their child.

Mrs. Brown stated that the age-appropriate materials were compelling to her and she asked about the length of the grant. Ms. Geertz responded that every level of the program is age-appropriate (different language, different videos, different activities) all based on one's age, which is very important. Relative to the length of the grant, Ms. Geertz explained that Title V has been around for decades, but in the early 90s, the Clinton Administration allocated some of the Title V funds to abstinence based education. Also, President Obama has announced he will extend Title V as well as increase the funding to Title V. Mrs. Brown also indicated her concern about parent involvement, and Ms. Geertz explained there is an opt-out letter detailing what someone's child will be learning in each of the courses, and the parent has the right to opt out the child.

Mrs. Bell asked for clarification and will there be a pilot 6th grade class, and can a 12th grade student take the class even if they had not been through the class at the earlier levels. Ms. Geertz explained that each program is stand-alone meaning 9th graders could be taught the class tomorrow without having the prior material, and that is because the material is covered in the earlier grades, but age appropriate to those grades, so the same material is covered in the 9th grade, but it is age appropriate for the 9th grade. Also, she said the current Louisiana Law is abstinence based sex education for grades 7-12 and in New Orleans it can be taught in the 6th grade; however, for Caddo, it is 7-12, and the class can be taught in Health and P.E. or in Science. Mrs. Bell said her concern is will it be the parents who decide if the children take the class? Ms. Geertz said the teachers are trained and will be provided the opt-out letter that should be sent home to the students' parents prior to being taught this program, which is the point a parent can opt out their child.

Mrs. Poljak asked if in moving the students toward abstinence are the students taught about contraception; and if so, what are they taught? Ms. Geertz explained that *Choosing the Best* educates on contraception, but always in the context of promoting abstinence as the healthiest choice, thus it is not advocating or demonstrating. Mrs. Poljak asked if various methods of contraception are shared with the students, and Ms. Geertz explained there is a place in the program (activity) that lists the most common methods of contraception so the students see the typical user failure rates and to aim high for risk elimination. She further explained that in the handbook there is an activity chart "reducing the risk of teen pregnancy" where students are educated about the effectiveness in the limitations, but it is all in the context of "aim high for risk elimination". Mrs. Poljak stated that if students delay the start of engaging in sexual activity, she wants to know that if they get to a point do they also know how to protect themselves. Again, Ms. Geertz said it educates about the effectiveness and limitations, but it will always direct them toward abstinence as the healthiest choice, and studies have shown that by going through this abstinence centered program, a teenager choosing to have sex is not less likely to use a condom because they have learned about the risks.

Mr. Rachal asked if it is free of charge and is it only for five years. Ms. Geertz said it is free and it is an on-going program as long as there is the Title V grant; and even if the grant goes away, there are funds to provide to the schools. Mr. Rachal clarified that it is as long as they (not Caddo) have Title V funds, and Ms. Geertz said that is correct. Mr. Rachal asked about the five years in the information provided, and Ms. Geertz explained that the organization receives the million dollars each year, so it will always be there to provide the curriculum. Mr. Rachal asked that the Board be provided with a copy of the opt-out letter.

Ms. Trammel stated that based on what she is seeing in the District, she supports bringing the much needed new curriculum and is thankful for the presentation today. Ms. Geertz also noted that the program is listed by the U.S. Department of Medical Services as being medically accurate and to stay that way, it must be updated every year. Ms. Trammel shared that some of the things shared on issues, i.e. people living longer with the HIV AIDS virus, may not always be the message to leave with them.

Mrs. Douzart thanked her for the outstanding presentation and for the up-to-date material on this program, a program that students can understand, and that parents can opt out if they do not choose to have their child participate.

Mr. Green shared his elation that this new material is available for the students, and he hopes the Board chooses to move forward with it.

Mr. Riall asked Mr. Greer about implementing in the 7th, 8th and 10th grades, and Mr. Greer said the District is currently doing this with *Sex Respect*. Mr. Riall asked if the 9th grade will be skipped and Mr. Greer responded it depends on the high school's flexibility. Mr. Riall asked Ms. Geertz about the ability to teach in Health and P.E. or Science, and Ms. Geertz said that is correct and she will train the teachers by teaching a model lesson and leading them in the activity.

Dr. Goree reiterated that the Academic Affairs Division did carry the group through the vetting process and this is their recommendation and his recommendation to the Board for providing this service to Caddo students.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JUNE 16, 2015 CPSB MEETING

Superintendent Lamar Goree highlighted items for the Board's consideration at its June 16, 2015 CPSB meeting and the following discussion ensued.

Battle on the Border High School Football Showcase. Mrs. Bell asked if Byrd is the only school playing and Dr. Goree responded yes and we don't select the schools that participate. Mrs. Bell asked if the City wants the District to participate with them, and Dr. Goree stated his understanding that this is not costing the District any money to participate. Mr. Burton confirmed that it will not cost the District additional dollars, and a similar resolution was passed by the Board when high schools previously participated in Battle on the Border. He also noted the agreement is specific as to what the high school agrees to and it basically is agreeing to the 2015-16 playing dates with supervision and who may sell tickets and when they may do so. Mrs. Bell also asked about the stipulation that no high school may display or advertise their logo on the DiamondVision, and Mr. Burton explained they cannot advertise on the JumboTron (Big screen) at the end of the football field because of contractual agreements the City has with specific vendors.

Resolution to Adopt the 2015-16 Consolidated Annual Budget. Mr. Rachal asked about the origination of the proposed resolution. Mr. Lee explained it is the same resolution the Board adopted last year, and the State now requires that the Board formally adopt the budget through a resolution. Mr. Rachal asked if the statement *the Secretary-Treasurer of the School Board Dr. T. Lamar Goree or his successor is hereby authorized and has sole discretion to make such changes within the various budget classifications as he may deem necessary provided that any reallocation of funds affecting in excess of 5% of the projected revenue collections must be approved in advance by action of the School Board at a meeting duly noticed and convened* is something the State requires or is it specifically the way we worded it. Mr. Lee said it is the State's requirement; however, the CPSB has its own policy that if there are any line item changes

in the General Fund budget, it comes to the Board for approval no matter what the percentage is. Mr. Lee added he believes Caddo's policy will supersede this because Caddo's policy is more strict, and the resolution on the agenda is the State's minimum requirement. Mr. Abrams added that as long as it is being done with that understanding, he believes it can be specified in the motion since it appears this resolution could overshadow the Board's policy. Mr. Lee said he will verify if it can be reworded to reflect what is in Caddo's policy. Mrs. Bell said her concern is Dr. Goree "or his successor", and she asked if his successor can make that decision; and Mr. Lee explained it is not his designee, but it is in the event something happens and a new superintendent is named.

Property and Casualty Insurance Renewals 2015-16. Mr. Lee announced that backup is not available; however, they are continuing to work on one of the policies and he will have something to the Board by the end of the week.

Revision to Discipline Policy JG-R Electronic Devices and Bring Your Own Device Policy.

In response to Mrs. Bell's question, Mr. Abrams explained that the Discipline Review Committee unanimously approved the proposed revisions which basically address the trial use of the "bring your own device" over the last couple of years. In reviewing, it was noted that Caddo's policy differs at almost every school as to what and how the policy is being enforced. Mr. Abrams further stated that because of this it is difficult to enforce a policy that is being done differently at different schools. He explained that the new policy will allow the principal and the teacher the authority as to how cell phones are used at the schools because no student can use or operate his cell phone during the academic day unless authorized to use it by the teacher or the principal for academic purposes. On the school bus, students are not allowed to use their cell phones unless they are in the silent mode, and if a student is disruptive with their cell phone, the bus driver can require that the student refrain from using the cell phone. He further explained that instead of having a separate disciplinary policy relative to suspensions just because of a cell phone, it will eliminate 1st, 2nd, and 3rd offenses because it is not an offense for which a student can be suspended. He further explained that if the electronic device is used for cheating, students will be disciplined for cheating; if they take lewd photographs of someone with the cell phone, they will be disciplined according to that policy; if the phone continues to ring and is disruptive to the class, the teacher can write a referral that the student continues to disturb the class; or if they refuse to turn off the cell phone, they can be disciplined for willful disobedience. Mr. Abrams also stated that administrators felt it important to put some pressure on the students, so it is recommended that administration shall be allowed to hold the device for up to three days with a parent return when the administrator deems it appropriate for the violation of the policies. Mr. Abrams also explained that Bring Your Own Device policy now allows and puts a contract in place discussing how the cell phone can be used: the cell phone will not be used on the 4g Network but on the Caddo Parish WiFi, it must be put into airplane mode and the student must follow and do whatever the teacher says. He added a contract is also included in which the parent and student must sign off and is attached to the policy stating that the student has full responsibility for his/her own technology and District is not responsible for the security of their device, it must be in silent mode on the school campus and while riding the bus, it must not be used to cheat on assignments or tests, students access only files on the Internet which are relevant to the classroom curriculum, student complies with the teacher request to shut down the device, student acknowledges that the Network has a filter on it and they cannot attempt to go past the filter and they can't infect it with a virus, the student acknowledges that it is a violation to access information related to hacking, altering or bypassing the Network, and administration has the right to collect any device suspected of causing problems as a source of attack or infection. Students will also not be able to print from their personal device at school and the parent must agree that the device can be confiscated up to three days only to be returned to the parent, and this document requires the parents' signature and placement in the student's file.

Mrs. Bell asked if this document (BYOD) will be signed by every parent whose child brings an electronic device to school, and Mr. Abrams responded that is the intent and it will be placed in the student file. Mr. Abrams noted that this will be a change to allow students to use their own electronic devices in the classroom for instruction and we will need to be consistent that the principals and teachers will handle any situations the way they deem appropriate at their individual school sites.

Dr. Goree added that they worked diligently to make sure the schools' interests were protected while at the same time stressing importance of getting the technology into the classrooms. He also reiterated that it is the students responsibility in utilizing the technology.

Mrs. Poljak asked if she understood correctly that the use of the electronic devices in the classroom will be for research purposes and Dr. Goree said that is correct and the consent form will be part of the student handbook that goes home with all students. Mrs. Poljak also asked if the District will provide electronic devices for students who do not have them and they are in a school with a high percentage of free lunch. Dr. Goree said we will, and assured the Board that the District will not allow this policy to penalize any child but will be used only to benefit them.

Mr. Rachal suggested that this information be made readily available to everyone on Caddo's web site as well as on the individual schools' web sites. He also suggested that we highlight the words "emphatically" that if students are using the electronic devices, they must be on Caddo's network. Mr. Abrams stated that is in the contract.

Ms. Trammel asked about the age range of students bringing these devices and the problems she fears will come with this new policy. Dr. Goree shared that in the district he came from, a one-on-one iPad deployment was implemented for every high school and when it was, they provided extensive professional development from a guy named Allen November, leading expert on technology in the classroom. He said it is the District's responsibility to teach students how to use technology appropriately and it is important to introduce them as soon as possible to technology and its appropriate use because it (technology) will not go away. He agreed with Ms. Trammel's concerns and it will take time to get teachers accustomed to students bringing their electronic devices, and it will be the District's responsibility to provide the professional development to the principals, who in turn will train their teachers, so we learn to use the technology to benefit the students. Ms. Trammel added that what she is saying is if students are given the opportunity to have their phones for use in the classroom, she doesn't believe there will be any test, quiz, etc. that students will not figure out how to get past whatever Caddo has set up because the students' minds work in that way today. Dr. Goree stated that students are currently doing that, but again it is about management, implementation and utilization.

Mrs. Poljak asked if we will have a wireless network for students to use and how can we make certain students are not going beyond what is set up? Also, she asked if it is possible for the teacher to see what the student is doing on their electronic device? Dr. Goree said we do not, but students have their devices with them now and this is an attempt to put some management procedures in place and to begin teaching them the appropriate use of the technology. Mr. Abrams stated that he believes some of the programs being used will address concerns stated and that currently the wireless is set up with limitation and if someone attempts to go to sites they should not, it will be blocked. He also stated that if someone attempts to go to a site that they should not, there will be a flag to those in IT.

Mrs. Brown shared that approximately six or seven years ago with the advent of cell phones, the alternative schools were given an option to set their own rules which they did; and in the alternative schools they took up the cell phones at the door, and returned them at the end of the day. Mrs. Brown added that when she retired, she had 36 phones in her possession. While some

of the students may not be able to read, write or do arithmetic, they know technology, and every child has a phone.

Mr. Ramsey shared that he has asked a number of principals and teachers how they would handle this, and their response was when students arrive in the classroom, students are instructed to place their electronic device on their desk and at the appropriate time the devices will be used for class instruction; and until that time, the device remains silent and on the desk. He added he believes as long as we have productive thinkers at the school site, this is better than anything we have had. Dr. Goree stated that they did not want the policy to be so restrictive that some of the freedoms of the principals and teachers were taken away, because schools will manage this differently based on their clientele.

Mrs. Douzart shared about the opportunity she had to work with computers in the classroom in 2014, and because of her experience and training in classroom management in this area, the students knew everything went through her. She said she knows this will be very good for the students.

Mr. Green also commented on his appreciation for the fear that goes along with implementation of this, but he said if we fail to move forward with time, it will move without us.

Mr. Riall asked Mr. Abrams what will administration do if it takes up the phone for three days and the parent never shows up to get the phone? Mr. Abrams said it is a penalty provision (holding the phone), but the committee felt strongly about the parent being inconvenienced and that they must come and get the phone.

Sex Education Curriculum. Mrs. Bell asked Dr. Goree if the Board approves this new curriculum, is it possible to orientate the parents of the 7th, 8th and the high school grade at the beginning of the year on what the Board heard today so parents can make a decision if they want to opt out their child from this course. Dr. Goree explained that staff's plan is to offer a presentation to parents in all the affected grades to help parents make an informed decision. Ms. Trammel asked for clarification and isn't the District currently teaching an abstinence based curriculum and parents have the option to opt out their children. Dr. Goree said that is correct.

Caddo Pipeline, LLC Servitude Agreement and Resolution – Norris Ferry Property. Mr. Woolfolk explained that this is a different company than the first company requesting an easement in 2009 and paying \$30,000 for approximately two acres. This request is from a different company and they desire to run another line adjacent to that (30 feet) which is another 2.1 acres and offered \$30,000 to run that line. Mr. Rachal asked if he understands of the total 20 acres, approximately 4 acres will be used for easement and we will have no access for use. Mr. Woolfolk said that is not correct. Mr. Rachal asked for clarification and how we would have use over the pipelines. Mr. White stated it depends on what type of access because if a structure could not be built over it, but you can retain certain service rights (i.e., green space over it that children could use with the company having access in the event there is a leak, etc.). Mr. Rachal stated that while he believes it is great they have given us an offer, he would be more willing to grant this if it were a \$60,000 offer versus the \$30,000 which is what was paid six years ago. He added he believes there needs to be additional negotiations on this and that we should not accept this offer in its given format. He also asked that the superintendent and staff sit down with this company for further negotiations because he rejects this offer at this time.

Mr. Woolfolk shared that the company paid \$2,500 to do a survey and after the survey came back with an offer of \$200 per rod, which is \$16,000. At that time, staff did negotiate with the company and told them we did not accept the offer of \$16,000 and they came back with another offer, finally ending up with an offer of \$431 per rod which is higher than the going rate. They

did not look at what we paid last time, but they looked at the standard rate and staff negotiated from that offer to the offer presented.

Mr. Abrams stated that this pipeline company has expropriation rights because they can demand we provide them with that easement, and at that time they would have to pay the District the fair market value based on what the court says.

Mr. Ramsey asked if the District decided to sell this property would these two easements cause problems if someone is interested in it for residential development. Mr. White responded if there were no pipelines in place and this was the first request, possibly so; but if there is an existing line and you add a second, probably not. He also said he believes development of the property as residential would mean the need for buffers because of the close proximity to the railroad tracks. Mr. White stated that most residents in the City of Shreveport have easements running through their property (water mains, gas lines, telephone, etc.).

Mrs. Bell asked Mr. Abrams and Dr. Goree if we will ever be able to sell this land? Mr. Abrams said the Board has never voted to place this land up for sale. He added if the Board decides it is surplus property and they want to put it up for sale, it can do so.

Mr. Riall asked if the District is receiving mineral right revenue from this land, and Mr. Woolfolk said it is. Mr. Riall asked if any of this pipeline will be built above ground, and Mr. Woolfolk said it will all be underground. Mr. Riall asked about the length of the pipeline, and staff responded it is approximately 1217 feet. Mr. Riall stated that when the first pipeline was granted an easement, they were paying \$1,000-\$3,000 an acre and more for mineral rights, and they are not paying the same now because the price has gone down.

President Riall announced that the consent agenda items are 6.01, 7.01, 8.03-8.05, 8.07, and 8.10-8.11. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the June 16, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of the Red River United, pointed out to the board that the proposed budget reduces five positions in security, and she sees this as problematic relative to compliance with Policy GBNA (Reduction in Force), because if you divide the positions up and list them on individual lines you will see that the monitors are being removed. She believes that this falls within Policy GBNA and all the appropriate protocols within that policy should be followed, which means these employees should be made aware the positions are being reduced and they should have the option to grieve those positions and this has not happened. Mrs. Lansdale stated that it does not state in the budget that five monitors are being reduced and those monitors are being outsourced by hiring an outsource company to monitor the security system. She encouraged the Board to examine this and make sure long-term employees are being treated correctly and all appropriate procedures are being followed.

ANNOUNCEMENTS

Mrs. Bell announced and congratulated Billy Snow for being recognized as one of 20 educators accepted into the Leverage Leadership Institute Fellowship in New York. This innovative and revolutionary partnership between Relay and Uncommon Schools will train a team of high-impact school leaders with a proven track record of success in their local districts.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:23 p.m.*

June 4, 2015

The Caddo Parish School Board (CPSB) Executive Committee met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, on Thursday, June 4, 2015 at approximately 5:00 p.m. Executive Committee members present were President Steve Riall, 1st Vice President Mary Trammel and 2nd Vice President Dottie Bell. Other board members present were Susannah Poljak, Bonita Douzart and Denee' Locke. Mary Trammel led the prayer and Pledge of Allegiance.

President Riall welcomed those present and explained that today's meeting was scheduled in accordance with CPSB Policy GBM to allow employees to share with the Executive Committee their comments and concerns, and he read for everyone's information CPSB Policy GBM. Mr. Riall announced that supervisory personnel were asked not to attend this meeting so employees could feel free to speak about any concerns they may have. He further explained that Board policy does not allow for the Board members to respond or have dialogue in this meeting; however, he will get with the Board's secretary to get a copy of everyone's concerns and he will meet with the Superintendent to discuss them.

Jon Glover shared her concern about employees speaking at all since they have been told in the past if they come before the Board there may be retribution, retaliation, intimidation, so she believes this limits the number of employees who might come forward with any concerns or issues. If so, her concern is what purpose does this meeting serve if they are not acknowledged and receive feedback. Also, she doesn't believe it to be good practice when an employee challenges something they are asked to do outside the scope of their responsibilities, and management tells employees they will do what they want to until someone tells them different. This is an issue that should be addressed.

Rita Dock stated that she has been an employee 21 years as a custodian, and her concern is the unfairness in being told they would use new hires in the summer, and long-term employees would be used if the new hires didn't want to work. She believes it should be the opposite.

Gloria Boykin stated that she works in the Security Department and she is concerned that her job is being contracted out and after July 31st she will be relocated to a school as a coordinator. She is also concerned that the only way she will receive a paycheck in August is if she uses her accumulated vacation time. She doesn't understand why she must use her vacation time to get paid yet she will still have to work and not be off for vacation.

Patricia Goss shared her concern as a bus driver that she has been singled out and not allowed to use good buses for field trips, athletic trips. Ms. Goss stated she has been employed in Caddo over 20 years and the rule has always been if a driver was going out of town they could upgrade their bus; however, when she has attempted to do so, her supervisor said if the driver of a better bus doesn't care, she could use that bus. She doesn't understand why a bus driver determines who can use a Caddo Parish owned bus/property. She added that the current policy is if a driver has a 2004 bus, which is what she drives, the driver cannot upgrade; and she doesn't understand why a 2013 or 2014 bus can sit in someone's yard while she drives a bus out of town that continues to break down. She does not believe this is the way drivers should be treated.

Jim Jackson thanked the Board for allowing employees to speak. He said he is before the committee because of intimidation that he sees everyday (i.e. drivers being told if they do not want to drive their bus to bring their keys to the office and they will get someone who will). His concern about the unfair treatment of school bus drivers includes management not knowing the law when it comes to the number of students allowed on a bus, favoritism, not having a rule book that is understandable and easy to follow, no new buses for drivers in Vivian, a my-way-or-the-highway attitude toward drivers, and why transportation does not train shop personnel (mechanics) to work on the buses' air conditioning systems and save the District thousands of dollars.

Dr. Elizabeth Sullivan, CAE president, addressed the Board about the employees here today that are distressed and she believes some of these issues could be solved before getting to that point if the Board would allow the unions (Red River United, Caddo Association of Educators, APEL) to meet with the Board at least quarterly and jointly work on resolving these issues.

David Welch stated that he is a sub bus driver from Vivian that has been ban from driving. He explained that after driving for 17 months, he was bumped because another driver did not want to drive her route, so he was bumped to a route into Shreveport. After driving the route for four days, he told them he did not want to drive that route, because when he went to school, he told them he wanted to drive in Vivian. He said he met with the director and felt like he was interrogated for over an hour. He said he also doesn't believe it fair that the retired subs that come back to help are paid the same as new subs and he believes these should be paid what they were making when they retired.

Steve Williamson addressed the unfair attitude toward Vivian bus drivers which he has seen since he returned after retiring with 33 years full time. He noted the many changes in the system since he first began with Caddo in 1978; and he believes the current administration makes the rules up as they go and they are not consistent. He noted that when he began there were only six employees in the Shreveport Transportation office and one in Vivian and the District had approximately 54,000 students (half of which rode the bus), and now there are less students in Caddo, less number riding buses, and twice the number of employees in the Transportation Department; and most cannot keep up with the paperwork sent in. Also, whether or not it is new buses for Vivian or better equipment in the garage and training current employees (mechanics) to fix the buses, he believes the third director made a change to where drivers in Vivian got newer buses than they do today. Mr. Williamson also shared the change in the annual "bumping" session which allowed for regular drivers to "bump" to another route within 10 miles of where they lived; and sub drivers were also not expected to take a route not in their area; and if they were placed on a route, they were not penalized if they did not take the route (which he believes has happened to Mr. Welch). He also stated that while Transportation is hiring new drivers, there is still a need for more drivers in Vivian. He said the drivers in Vivian do not feel as if they are appreciated and that it is disturbing that management does not believe they are doing their job. Other issues include drivers not being paid for field trips, athletic runs and out of town trips in a timely manner, and rules for regular drivers not taking off their route for five days to take students to football games or other out-of-town trips. He said he hopes everyone can come together and work toward a solution to the issues brought forth today.

Pam Peters addressed the board on the new online application process for employees wishing to transfer to another school and how complicated she believes it to be. She said it is a very lengthy application asking for information which she believes is already in her personnel file. She feels like this is more applicable to new employees in the system and not employees who have been in the system. Also, after talking with several colleagues who have put in for a transfer, she learned that numerous ones only emailed their resume' to a principal, received an interview and they have received a job for the next school year as opposed to completing the new application. And even though she has been told she doesn't have to complete the information since she is an experienced certified veteran of Caddo Parish Public School for 16 years, but to just take her resume' to the school, she is told she needs to apply through Human Resources and interviews cannot be completed until they (the school) receives the list from HR. Her concern is that every principal has their own way for posting positions or not which she believes is unfair when there are certified teachers for areas requiring a certified teachers and it is also unethical to treat employees in such a way. She asked that employees be given clarity, understanding and fairness during this process. She also noted the concern that principals are still hiring non-certified persons when there are certified persons available for a position requiring a certified teacher.

Jackie Lansdale, president of Red River United, encouraged the Executive Committee to hold these employee meetings before school is out, and she noted that many of the things heard from

employees today are grievable issues, i.e. security monitors being outsourced and employees losing benefits, Vivian bus drivers concerns and how students are affected, custodians with 21 years of service typically getting to do summer work but now being told the new hires will be the ones to do the summer work, and the counselors who were told there was a mistake in the payroll two years ago and they must now pay back the money they were overpaid. She also shared her thankfulness for the opportunity to meet monthly with the Superintendent and other employee organizations to talk about policies, but there is a block in bringing those policies to the Board as the policy-making body; and she asked that the Board allow the organizations an opportunity to meet with the Board at least quarterly to talk about issues and policies they believe are important to teachers and employees in the District.

Jane Meeks voiced her concern that Gifted students are sometimes a misunderstood group of students. She said she is unsure that those who speak for the Gifted student truly understand the Gifted student, and she shared her attempts to talk with her Board member about the treatment of Gifted students being the same as for every other student when they are not like everyone else. Before decisions are made affecting Gifted students, she said it is important that it is discussed with someone in the Gifted Program directly and not through the chain of command. She believes this would clean up a lot of misunderstanding and what is needed for the Gifted students.

Jacqueline Miller, a speech language pathologist, shared her concern that working in different schools she has observed in classrooms with long-term subs that the students are not receiving the State-required collaborative therapy (curriculum relevant therapy). While she knows there are many that go beyond the call of duty, she is talking about those that are limited and it is not fair to the students. Sometimes the subs are not knowledgeable about special equipment they need to use or they don't have access to the State Department IP Program which means the parents are not receiving progress reports. She encouraged the Board to amp up the recruitment of specialized Special Ed teachers to work with children with exceptionalities. She also shared her concern that many African American children do not have equal access to highly effective teachers or principals, i.e. Atkins and 81st Street. Ms. Miller encouraged the Board to think about all children meeting success and giving them the tools including the highly certified personnel they deserve to meet those goals.

In closing, President Riall stated that all concerns are recorded and will be given to the Superintendent to address and someone will contact those who spoke and left their contact information.

There being no additional speakers, *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:55 p.m.*

June 16, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, June 16, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Shalanda Swift-Watkins and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MAY 19, 2015, MAY 21, 2015, MAY 26, 2015, MAY 29, 2015, JUNE 2, 2015 AND JUNE 4, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the May 19, 2015, May 21, 2015, May 26, 2015, May 29, 2015, June 2, 2015 and June 4, 2015 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Prudential Spirit of Community Award. Stephanie Durr, 2015 Captain Shreve graduate, was recognized as one of two top youth volunteers of Louisiana for 2015 by the Prudential Spirit of Community Awards, a nationwide program honoring young people for outstanding acts of volunteerism. She was awarded \$1,000, an engraved silver medallion and an all-expense paid trip to Washington, D.C.

Sue Hefley Educator of the Year Award. Cathy Smith, Caddo's Supervisor of Libraries, was recognized as recipient of the 2015 Sue Hefley Educator of the Year Award, an award that recognizes the outstanding contributions of Louisiana educators to school libraries within Louisiana.

Newly Appointed Administrators. Al Graham, director of classified personnel, introduced new payroll manager Ta'Sheka Morris-Ellison. Margaret Summerfield, current payroll manager, is retiring and was also recognized for her many years of dedicated service to the District.

VISITORS

Brian Salvatore shared with the Board observations he has made over the last several months, including Caddo Parish students in the Project SEED (Scientific Experience for the Economically Disadvantaged) program lacking familiarity and preparedness with essential concepts and ideas, i.e. Haynesville Shale, fracking, horizontal drilling not being taught in the schools; how students want to learn versus how they are being taught today; too much testing in the schools; lack of stick-to-it relative to good ideas presented in proposed plans, and the need to add a new look to the curriculum.

Jackie Lansdale, Red River United, stressed to the Board some of the actions of the 2015 Legislative Session, i.e. fully funded MFP, COLA for retirees and the 1.5% beginning July 1 if the Governor doesn't veto, and the payroll deduction legislation prefiled for next year's session. She also noted the Common Core compromise and that 49.9% of it is the max of any Common Core standards that can be presented in a test, the state cannot contract with PARCC, and

administrative procedures must be followed in looking at the Governor's concerns. Some of the minor things included making sure that the law relative to threats or battery on a school teacher or school employee is closely monitored so teachers and school employees are notified when any Juvenile Court hearing is held relative to what happened to them on the school campus, as well as duty free lunch for teachers and time for daily planning. Mrs. Lansdale stated that not having heard the presentation on the insurance item, she encouraged the Board to have conversation on this item before passing it.

PUBLIC HEARING ON THE 2015-16 CPSB CONSOLIDATED ANNUAL BUDGET

President Riall announced that the public hearing is open for anyone wishing to speak to the 2015-16 CPSB Consolidated Annual Budget. There being no speakers, the hearing was closed.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items on the agenda for the Board's consideration and the following discussion ensued. President Riall announced that the following items are the consent agenda: 6.01-6.02, 7.01-7.02, 8.02-8.05, 8.09-8.10 and 8.13. *Ms. Trammel moved, seconded by Mr. Rachal, to approve the agenda and proposed consent agenda for the June 16, 2015 CPSB meeting as submitted. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell, to confirm the consent agenda (Items 6.01-6.02, 7.01-7.02, 8.02-8.05, 8.09-8.10 and 8.13). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations (Security Manager, Supervisor of Attendance and Census, Director of Title I) as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transaction Reports. The board approved the personnel transactions reports (resignations) for the period of May 1-31, 2015 as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing. The board approved the following bids as recommended by the superintendent and submitted in the mailout on the bid tabulation sheets: (1) Authorize staff to re-bid Uniform Provision & Management Services; (2) Multiple vendors for the purchase of Milk and Dairy Products; (3) Flowers Baking for the purchase of Bread and Bread Products; and (4) Multiple vendors for the purchase of fruit juice. *A copy of the bid tabulation sheets is filed in the official papers of the June 16, 2015 meeting.*

7.02 Construction and Capital Projects. The board approved the following bids as recommended by the superintendent and submitted in the mailout on the bid tabulation sheets: (1) Blocker Builders, LLC, with a Base Bid for the sum total of \$108,950 for Project 2016-224 "Woodlawn Restroom Renovation; and (2) Gene Nims Builders, Inc., with a Base Bid for the sum total of \$192,991 for Project 2016-211 "Youree Drive Canopies". *A copy of the bid tabulations is filed in the official papers of the June 16, 2015 meeting.*

Item No. 8

8.02 Out of State Travel. The board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Cooperative Agreement-CPSB and Shreveport Job Corps Center 2015-16. The board approved the cooperative agreement between the CPSB and the Shreveport Job Corps Center for 2015-16 as recommended by the superintendent and submitted in the mailout.

8.04 Battle on the Border High School Football Showcase. The board approved the resolution authorizing C.E. Byrd High School to participate in the Battle on the Border High School Football Showcase in 2015 and 2016 as recommended by the superintendent and submitted in the mailout.

8.05 Approval of Re-Bid of Sale of Motor Oil & Antifreeze. As a result of no bids received, the board authorized staff to salvage used motor oil and antifreeze.

8.09 Property and Casualty Insurance Renewals 2015-16. The board approved the property and casualty insurance renewals for 2015-16 as recommended by the superintendent and submitted in the mailout.

8.10 Revision to Discipline Policy JG-R Electronic Devices and Bring Your Own Device Policy. The board approved the proposed revisions to CPSB Discipline Policy JG-R Electronic Devices and Bring Your Own Device Policy as recommended by legal counsel and submitted in the mailout.

8.13 Proposed Revision to CPSB Policy DCE. The board approved revisions to CPSB Policy DCE as recommended by staff and submitted in the mailout.

APPOINTMENT OF OFFICIAL JOURNAL

Mr. Ramsey moved, seconded by Mr. Rachal, to postpone and instruct the staff to find a way to reduce costs associated with the official journal while still meeting all legal requirements as it relates to filing minutes, etc. in an official journal. Mr. Ramsey stated that he has discussed with Mr. Lee possible ways to cut these costs and he doesn't believe it will hurt to wait another month to act on this item. Mr. Rachal asked for clarification and if the motion will postpone this item, and Mr. Ramsey agreed that is what the motion will do.

Mr. Lee stated that while he understands what is being asked, the District still needs an official journal in July in order to advertise necessary items up until the Board makes any changes, and staff will move forward in looking at ways to reduce costs associated with the official journal.

Mr. Ramsey withdrew his original motion, and Mr. Rachal withdrew his second, and Mr. Ramsey moved, seconded by Mr. Rachal, to utilize the same official journal until time that we have a recommendation from staff on how to save money as it relates to Caddo's official journal.

Mr. Rachal asked, if *The Times* is approved as the official journal, are there any contracts that will be signed or will we still be able to negotiate? Mr. Lee responded there are no contracts and we would not negotiate any cost on publishing, but staff would look at what other governmental agencies are doing to reduce the cost of what must be printed in the official journal, i.e. reducing the published minutes to a summary of the Board's action. Mr. Rachal asked for clarification that the reduced cost would be what the District presents to the official journal to publish, and Mr. Lee said that is correct. Mr. Lee also clarified that the resolution before the Board would approve *The Times* as the official journal for one full year. Ms. Trammel asked if there is not another paper in Caddo and Mr. Lee said there is, but not one that does it cheaper.

Mr. Green stated his support of the motion on the table, and Mr. Riall also noted the concern of advertising of capital projects and purchasing bids since the other journals may not be able to reach the number of people needed relative to this aspect of conducting CPSB business.

Vote on the motion carried unanimously.

DRUG MANAGEMENT PROPOSAL FOR GROUP HEALTH INSURANCE

Jon Glover, employee, expressed her concern about the change in the insurance since it impacts her as an employee. She said if she is not clear as to how she will be impacted, she believes it would be detrimental to her, and she believes it should be an open forum for all employees to understand this proposal more clearly before the Board takes action.

*Mr. Ramsey moved, seconded by Mrs. Bell, to approve the implementation of the pharmacy benefit savings program with a two-year contract with **nForm** and the implementation of a compound drug pre-authorization requirement for any compounded drugs over \$100 as recommended by the CPSB Insurance and Finance Committee and submitted in the mailout.*

Randy Watson, director of insurance, shared with everyone that the health care cost account is the second largest expenditure of the CPSB and it is escalating at 4-6% annually. He said staff has done things each year to attempt to control these costs; however, sometimes it is necessary to raise premiums as well as out of pocket expense. Mr. Watson also stated that over the past year staff has formulated the two proposed strategies that will immediately begin to combat rising costs and keep premiums reasonable without raising deductibles and co-pays even higher relative to drug costs, which is the largest cost. He stated that the ratio of drug to total healthcare costs increased from 11% in 1997 to approximately 32% in 2015; and since Caddo became self-funded two years ago, the drug costs have increased 50%. Mr. Watson highlighted paid claims, drug trend summary and changes, comparison of average yearly gross costs per prescription (2010 and 2014), inpatient and outpatient costs, brand name drugs (cost has increased by 300% in five years) versus generic, like-kind employers, etc., all costs of which are out of control.

Mr. Watson explained that the following two strategies will target the two biggest culprits for drug trends: (1) a pharmacy benefit savings program, (use of name and generic brands); and (2) a drug compounding program with a pre-authorization requirement. He explained that the pharmacy benefit savings program entails hiring a third party administrator, **nForm**, to analyze specific drug utilization on individual members and identify lower cost alternative drug therapies with equivalent quality. The company would contact the member's physician to get permission to change any on-going prescription(s) to the alternative drug(s); and if the physician agrees, the TPA would inform the member of alternative drug choice(s) and the prescription changed only if the member agrees. Mr. Watson reported that with a 2-year commitment to this plan, this program could save the District as much as \$1.7 to \$2 million annually. He reported that the TPA's cost is 10% of the savings, but the contract reads they do not get any of their money unless the District saves at least as much as their fees. He added if we do not save, he would bring the renewal with an increase in premiums or the co-pays. Mr. Watson stated this is a pilot program and is presented after much negotiation with Blue Cross and will not cost Caddo anything in net to implement, and hopefully help us make better choices. He also stated he doesn't believe there is any downside to this proposal since the member or the doctor can turn it down.

Mr. Watson also explained that one option was to make this mandatory, but the committee did not want to make it mandatory but more educational for the employees and to let the doctors and the members have a choice.

Mr. Watson further reported that, as a result of nationwide industry abuse on certain compound drug prescriptions, drug compounding costs have increased from less than \$30,000 per year in 2010 to a projected cost of over \$2.2 million in 2015. To address the escalating costs, it will become necessary to continue to raise premiums and deductibles to offset these costs or take more out of the General Fund to address these increases. He explained that insurance companies have implemented strategies requiring pre-authorization of drug compounding payments to address these issues with a pre-authorization based on FDA and drug manufacturer medical criteria. He noted that this does not mean if a compounded drug costs more than \$100 it will be turned down, but only that it must be medically authorized.

Mr. Watson summarized that it is possible for the District to save \$4 to \$5 million over the next two years, which is the same money that will not only save the employer (Caddo Parish School Board) but will also save the member in premiums and out of pocket expenses.

Mr. Ramsey stated that all meetings are advertised and are open to anyone caring to attend. He also stated his appreciation to the Board members beyond the committee members that attended the Committee meeting to hear the detailed presentation and discussion on this issue. He also commended Mr. Watson and the staff for working tirelessly to find ways to keep the costs down for the employees while keeping quality coverage. He said staff has again accomplished this by working well with Blue Cross to provide a method of savings at a limited cost increase that we may or may not incur. Health care costs are ever increasing and Mr. Ramsey shared that with his personal health care coverage he does not get a choice in many cases; but this offers choice for the employees, as well as quality, premium coverage. He stated his support and encouraged the Board to also consider supporting this proposal.

Mrs. Bell, as chair of the committee, echoed Mr. Ramsey's comments; and that when Mr. Watson and Mr. Lee approached her about the need for a meeting to share this positive news, she called a meeting of the committee, the meeting was posted and every employee had the opportunity to attend the meeting or to look at the presentation on BoardDocs. She also expressed her appreciation to those Board members not on the committee for attending the meeting to hear the presentation. Following the committee meeting, she also encouraged Mr. Watson to be prepared to make the presentation at the work session; but no one had any questions. Mrs. Bell stated that with health care and drugs being so expensive, she appreciates Mr. Watson and his continued efforts to help the employees by keeping insurance affordable.

Miss Green thanked Mr. Watson for his outstanding presentation and explained that she pulled it off consent so he could explain it to everyone and they could understand. Miss Green stated that as the liaison to the employee organization meeting with the superintendent, if they are not receiving an email reminding them of meetings, she would like us to do a better job of getting information to them on scheduled meetings, even possibly streaming these meetings.

Mrs. Watkins stated that she is new to the Board but as she reviewed this item on BoardDocs before the meeting, she was very impressed with staff's presentation of the information relative to this item.

Ms. Trammel also noted that the fact it is optional was explained at the committee meeting; and asked if she understands correctly that the information was online. Mr. Watson confirmed it has been online for two weeks. Ms. Trammel stated the need for this proposal for our employees.

Mrs. Brown expressed her appreciation for Mr. Watson's expertise in this area.

Mr. Ramsey moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried unanimously. Vote on the motion carried unanimously.

RESOLUTION TO ADOPT THE 2015-16 CONSOLIDATED ANNUAL BUDGET

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the resolution adopting, finalizing and implementing the General Fund and the Special Revenue Fund budgets of the CPSB for the fiscal year beginning July 1, 2015 and ending June 30, 2016.

Mr. Ramsey said it is a balanced budget and he thanked staff. Mrs. Bell also thanked staff and expressed her appreciation for a balanced budget.

Mrs. Brown stated that on Wednesday a group of stakeholders (School District, Juvenile Justice, Parish Commission, Mayor's Office) will meet to find funding for the Truancy and Misdemeanor Center since funding was eliminated by the Governor. She said she believes the Caddo School System will need to help defray the costs, and asked Mr. Lee about the process for adjusting the budget after it is approved. Mr. Lee explained that throughout the year budget revisions are brought to the Board; and depending on the amount of the change, staff would like the opportunity to look and see what can be reduced when adding something else in an effort to maintain a balanced budget. Mrs. Brown stated that the cost for running the Center is approximately \$169,000; and hopefully there will be four stakeholders sharing in the cost. Dr. Goree reiterated that modifications can be made to the budget, but asked that the Board remember it is barely balanced; and generally when adjustments are made, it is because there is an anticipated cost that we did not incur.

Mr. Rachal stated that when the Board hired the Superintendent one of the main discussions was for the Superintendent to present a balanced budget, something which Dr. Goree has done twice. He said he believes the staff has really been tested on bringing a balanced budget, and he appreciates the decisions staff made to make cuts in order to bring forward a balanced budgeted.

Mr. Green asked if he understands correctly that if a Board member brings changes to the budget, that Board member must have voted on the prevailing side. Dr. Goree said it is correct that the change would require a favorable vote from the Board before modifications are made.

Vote on the motion carried unanimously. A copy of the resolution is filed in the official papers of the June 16, 2015 CPSB meeting.

APPROVAL OF SEX EDUCATION CURRICULUM

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the Sex Education Parental Review Committee and complete the curriculum review process. Mr. Ramsey said he was impressed with the presentation at the work session and he believes it should be referred to the committee to complete the review process and bring a recommendation to the Board.

Mr. Abrams stated that State Statute requires that the Sex Education Committee do a full review of all materials that will be utilized, i.e. films, videos, curriculum, books, etc. He said the committee meeting must be noticed like any Board meeting allowing for public comments; and when a recommendation is made to the Board, the Board must also review the entire curriculum, all materials, films, etc. before voting on the curriculum.

Mrs. Locke asked for clarification that the Board is not voting to approve the curriculum today, but voting to approve the committee that will review the curriculum. Mr. Riall responded that is correct. Mrs. Locke also asked about clarification on parental review committees and if there is more than one. Mr. Abrams stated that this parental review committee is specific to the Sex Education Curriculum. Mrs. Locke asked about the names submitted for an additional parental review committee, and Mr. Abrams explained that Board members could have used that same parental review committee member or name a different person for this committee. Dr. Goree

explained that the first parental review committee was a part of the Pupil Progression Plan which is the plan by which the District promotes students to the next grade. Even though Board members could use the same appointment for the Sex Education Parental Review Committee, the appointment to this specific committee had some specific criteria required, i.e. child in the Caddo system between grades 6 and 12.

Mrs. Bell said she is grateful for this committee and the importance for everyone, including parents, to be aware of what is being said to the students in the classroom relative to Sex Education because teaching this to children is a very touchy situation and what is said should only be what is in the board-approved curriculum.

Mrs. Brown added that policy dictates that there are 12 members on this committee and questioned if the Board can approve it today since there are only 10 members. Mr. Abrams confirmed that while the statute does not state you must have 12 members (one for each Board member), policy does dictate that each Board member will appoint one person to the Parental Review Committee; and those who have not submitted a name can do so after the meeting today without it coming back to the Board.

Mr. Ramsey stated that he understands that but he has been turned down by four persons, and he will continue to look for someone to serve in this capacity. Mr. Rachal stated that he can give a name, but he is not sure that person would show up, and he asked if it requires all committee members to be present at a vote. Mr. Abrams explained that this committee is just like the Board in that it requires a majority to be present in order to transact business. Ms. Trammel asked if we have not had 12 members in the past, does this mean the CPSB has been in violation. Mr. Abrams said this policy is specific to the Sex Education Committee Parental Review Committee. Mr. Riall asked if Forethought is looking at this policy? Mr. Abrams further explained that this policy was originally written in 1987 as a result of Sex Respect and legislation passed. He believes it has been modified, but it is specific to the Board and how it would appoint members to the committee and not a Forethought issue.

Mr. Riall stated that he will look at bringing this back before the Board at a later date.

Mr. Ramsey moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried unanimously.

Vote on the motion carried unanimously.

CADDO PIPELINE, LLC SERVITUDE AGREEMENT AND RESOLUTION – NORRIS FERRY PROPERTY

Mr. Rachal moved, seconded by Mr. Ramsey, to approve a resolution authorizing the signing of a servitude agreement with Caddo Pipeline, LLC, on the Norris Ferry property as recommended by staff and submitted in the mailout.

Mr. Rachal stated that he understands staff has met with company representatives and he is content with the recommendation brought by staff. Mr. Ramsey asked Mr. Abrams if the Board does not approve this resolution, can the company expropriate the property, and Mr. Abrams said that is correct. Mr. Abrams further explained that if the Board does not approve, the company could take it to court which would not only cost the company a lot of money, but it would also cost the District.

Miss Green asked Mr. Woolfolk about the \$30,000 cost and Mr. Woolfolk explained that the first pipeline went for \$30,000 and the first offer on this was less than \$30,000, so we countered that the price must be at least what we received on the first pipeline laid. He added this company also

gave the District \$2,500 for a survey so the District will actually receive a total of \$32,500 for the right to put the pipeline through. Dr. Goree asked Mr. Woolfolk about the fair market value on this product, and Mr. Woolfolk explained that the fair market value is less than the \$30,000. Dr. Goree also reminded the Board that if it votes no, the company will incur a cost, along with the District, to pursue this in Court.

Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Superintendent Goree reported that progress is being made with the District's collaborations with the RSD; and staff is currently working on adjustments and finalizing contacts as a result of recent changes made with the RSD staff.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal stated that the Louisiana Department of Education and BESE are working on the new student standards review by a committee of 100 members. He announced that Kelly Hobson, 4th grade teacher in Caddo, was appointed to participate in the review of the English Language Arts content. He asked if there is anything set up whereby the Board will receive feedback through this process. Mr. Burton announced that Nicolette Dotie, Caddo middle school teacher, was also selected to serve on this committee; and these two teachers were selected from a list of seven names submitted by Caddo. Mr. Burton explained there is a schedule this committee will follow and it will include regional meetings where staff will be present to receive feedback from Caddo's representatives. Mr. Rachal said he would like to receive notice when the regional meetings are held.

Mrs. Bell asked for direction on responding to questions relative to Common Core, and Mr. Burton explained that we are still using the Common Core state standards until this committee sends something to BESE to approve. He further said that in the new requirements for the upcoming tests, only 49% of that test may be PARCC items. Mrs. Bell also announced that the Huntington High School Band will leave on July 2nd and she would like for a representation from the District and Board to be at Huntington when they leave for Washington D.C. Mrs. Bell expressed her appreciation for all who have participated in making this possible and that contributions are still be accepted from those wishing to participate.

Mrs. Brown asked about the high water at J.S. Clark and will we provide assistance to get this campus ready for the start of school since there is not a groundskeeper at that site. Dr. Goree stated that staff is aware of the situation at J.S. Clark and discussed this in staff meeting. He said there is no damage to the facilities other than the playground equipment, which cannot be assessed further until the water goes down. He also announced that staff will be available to support the school in getting the campus prepared to receive students.

Adjournment. *Mr. Rachal moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:13 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

June 23, 2015

The Caddo Parish School Board (CPSB) **Sex Education Parental Review Committee** met Tuesday, June 23, 2015 at 3:30 p.m. in boardroom at 1961 Midway, Shreveport, Louisiana. Committee members present included Tricia Smith (District 1), Bobbie Washington (District 2), Molly McInnis (District 4), Cynthia Casson (District 5), RoKisha Durham (District 6), Larry Williams (District 7), Jeri Bowen (District 8) and Angenique Ray (District 11). Also present were Keith Burton, Patrick Greer, Anthony Tisdale, Board member Larry Ramsey, Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel.

Mr. Burton, chief academic officer, called the meeting to order at approximately 3:30 p.m. He welcomed and thanked committee members present for agreeing to serve in this capacity and introduced Patrick Greer, director of curriculum, and Anthony Tisdale, supervisor of health, physical education, and driver's education. Mr. Burton stated that staff is on the committee's time schedule and available to answer any questions in the Committee's work to recommend to the Board a curriculum that is in the best interest of all students in Caddo Parish.

Committee members present introduced themselves, the districts they represent and information on their involvement in the school system as parents.

Mr. Burton highlighted the items on the agenda and announced that this Committee's meetings are open meetings to the public and there must be a quorum of the committee present in order to conduct meetings.

Overview of Sex Education in Caddo Parish. Patrick Greer shared an overview of the following information and steps in the process of considering a new sex education curriculum for the Caddo District:

- What Louisiana State Law says (Revised State Statute 17.28.1. Mr. Greer read key points in the statute and provided a copy of the statute to the committee members noting what can and cannot be included in the curriculum or any materials being used in sex education instruction.
- Caddo currently uses *Sex Respect* curriculum in Grades 7, 8 and 10.
- Current curriculum has been in place since the 1990s and staff felt the need to provide the students with more current and up-to-date information.
- A District level team began looking at available products in line with the District's philosophy and the State's laws, basically abstinence based and promoting positive decision-making.
- After the team reviewed four different products, the team unanimously determined that *Choosing the Best* was the curriculum that best met the District's needs.
- *Choosing the Best* was opened up to some P.E. teachers for feedback on the materials and they too felt it was the best for meeting the District's needs.
- On June 2, 2015 a presentation on *Choosing the Best* was presented to the Board and a recommendation was made to allow opening up the formal review process.
- On June 16, 2015 the CPSB approved the Sex Education Parental Review Committee; and
- On June 23, 2015 the CPSB Sex Education Parental Review Committee is meeting for the first time.

Overview of Choosing the Best. Mr. Greer introduced Ruth Geertz, western regional director of *Choosing the Best* Publishing Company in Atlanta, Georgia, who explained that Louisiana Youth for Excellence received a million dollar grant through Title V to provide curriculum to each parish in Louisiana. At this time, over 25 parishes are utilizing the *Choosing the Best* program, one that meets the requirements of the Louisiana State Law for abstinence education, correlates

with Louisiana State Standards, and is a recommended program on Louisiana Department of Education's web site; and that she is frequently in Louisiana sharing the program and conducting the training. Because of this grant through the Louisiana Youth for Excellence in Baton Rouge (Deene Bingham, executive director), Ms. Geertz said it is available at no cost to Caddo. She shared that she has been with the company for 11 years; and prior to that, she taught *Choosing the Best* in high and middle schools for four years; and she chose to be a part of *Choosing the Best* when she saw the difference it made in students' lives. Ms. Geertz shared a review of statistical information relative to the *Choosing the Best* curriculum, including over 4 million students going through the program since 1993; the program is currently used in 47 states; it is evidenced based; it is medically accurate; it is a health and medical model certified by the U.S. Department of Health and Human Services; and it is abstinence centered, meeting the Louisiana Abstinence Education Law requirements. She also shared statistical information on the number of teens that continue to get pregnant each year and contract STDs and that parishes are consistent in their response to this issue that they are at or higher than the National average. Ms. Geertz noted that *Choosing the Best* has proven results through an evidence-based study that it gets positive results and reduces the statistics.

Ms. Geertz also highlighted the nine learning areas covered with each being a stand-alone curriculum that can be implemented at any point a District wishes and can be completed in 1.5 weeks or less. She added that everything correlates with state standards, and teacher lesson plans are scripted so everyone is saying the same thing. The learning areas are: (1) Risks of Teen Sexual Behavior, (2) Rewards of Abstinence, (3) Relationship Education, (4) Alcohol and Sex, (5) Peer Pressure and Refusal Skills, (6) Abstinence Pledge, (7) Character Application, (8) Building Self-Esteem, and (9) Parent Interviews. She also explained that each session begins with a brief video, includes a hands-on activity for the students, and each ends with a character application. The video from the HIV AIDS lesson also was shared with the Committee, and Ms. Geertz again stated that all materials (including teacher training, scripted lesson plans and student books) are provided through the grant at no cost to the District, as well as a parent program, which is a one-hour presentation, that includes fully scripted parent books to help parents with interactive discussions with their child.

So committee members knew the value of the *Choosing the Best* curriculum, Ms. Geertz highlighted the cost of all materials of the program (videos, teacher manuals, student manuals, parent videos and materials, training for teachers) all of which are provided through the grant at no cost to the District.

Questions from the Committee:

- How are students engaged in the discussion? Ms. Geertz explained that the teacher is the facilitator and asks the questions to get students engaged and leads the discussion as well the activity. She also reminded the committee that all curriculum is age appropriate with all ages getting the same message throughout when it comes to goals, risks, etc., but the language, videos, activities, etc. are structured based on age/developmental stage.
- Implementation in all (6-12) grades or only in certain grades between 6th and 12th? Ms. Geertz explained that most districts implement only some grade levels in either science or physical education, and she has trained teachers in both areas. Mr. Tisdale explained that in Caddo it is not taught at the 6th grade level, but in 7th and 8th in middle school and 10th grade in high school. Mr. Abrams noted that State Law does not allow it in the 6th grade, and Mr. Burton explained that this committee can recommend to the Board what grades it feels it should be taught.
- Students who participate in activities in school (i.e. cheer) and may not get health, but must get the requirement online which would not allow them to get this curriculum. Ms. Geertz explained that some high schools utilize the instruction in the health class or they incorporate it in just one grade level core assignment, i.e. Biology; wherever they might

reach all the students. She also noted that the abstinence based program is through the 10th grade level; and the 11th and 12th grade program is focused on psychology, healthy relationships, understanding yourself, understanding others, communication, etc., and touches on abstinence; and it is usually offered through an elective or for a few students only through the English III or English IV.

- What else is being presented in the curriculum besides abstinence? Ms. Geertz explained that risks, self-esteem, peer pressure, healthy relationships, goals are covered at each grade level, but in age-appropriate language. She also explained the curriculum educates about contraception, but always in the concept of choosing abstinence as the best choice.
- Is it expected that students are knowledgeable of references to anatomy, other areas of this topic, as noted in the Life lesson (8th grade)? Ms. Geertz explained that *Choosing the Best* does not cover anatomy because it is normally covered in the classroom (science or health/physical education) textbook. Mr. Burton noted that as a middle school principal, they separated the boys and girls when covering this material so the content was covered in an environment that was comfortable to the students.

Mr. Burton asked that all committee members, as they review the materials, to submit questions to him; and he will provide a list of the questions and responses to all the committee members. Ms. Geertz also recommended that the committee members, in reviewing the materials, review each lesson one at a time in its entirety (read the introduction, watch the video, read the lesson, including the teacher notes in the teacher manual, the activities, etc.).

Superintendent Goree thanked the committee members for their commitment to being involved in this very important work to choose and provide students with knowledge and skills that will help them to make wise and healthy decisions. He added it is the goal to never over-step the responsibilities of the parents, but to work with research-based programs that provide the data to support what we are sharing with our students so they make better decisions.

Public Comments. Alicia Forrest, with the Crisis Pregnancy Center, asked if there is any available data/research on the effect this curriculum has on students who are already sexually active? Ms. Geertz responded that it helps to delay sexual activity; or, if students are already sexually active, statistics show that one out of four is choosing abstinence. She asked if the curriculum is set up to open conversation about some of today's trends, i.e. sexting, pornography, social media. Ms. Geertz explained the curriculum is designed, and it is edited annually, to add questions the teacher may ask students that will generate student conversation on current topics.

Mr. Abrams stated that the statute states there cannot be any references to religious or moral belief and asked how this is controlled. Ms. Geertz explained that in teacher training she emphasizes that the curriculum is approved by the School District (Parish) and it is not the teacher's opinion, but the script provided; and that as long as teachers stay on the script, teachers will be in a safe zone. Also, if a parent comes to the teacher and asks what the teacher said to the student, the teacher can share with the parent the lesson plan for that day. She also explained that time management in the classroom is also emphasized in the teacher training so when questions arise, teachers answer them quickly and lead back to the script and stay on target for the lesson. When a student brings up the topic, she explained that in her teaching the script, she was able to determine the response from students at each lesson, and if teachers stay on the script, they will know what to expect from the students, and they can answer without elaborating, but move on with the lesson.

Overview of the Curriculum Review Process. Mr. Burton explained the curriculum review process includes the following:

- Staff reviewed four different curriculum sources and *Choosing the Best* is recommended to the committee.

- Presentation was made to the CPSB who selected the Sex Education Parental Review Committee. Individual members of the Committee and the Board must review all curriculum materials to be used in the instruction of sex education. The Committee will bring a recommendation to the Board.
- The curriculum materials are available for review by the public in the Chief Academic Officer's conference room on Monday through Thursday between the hours of 7 a.m. and 5:30 p.m.
- After the Committee approves a curriculum, a public hearing will be held at a CPSB meeting to allow any member of the audience to speak to the Board on the curriculum; and the Committee's recommendation presented to the CPSB for approval. (Mr. Burton announced that July 28th is the first available opportunity for this to happen, if the committee is comfortable and ready to make a recommendation by that date.)

Selection of Chair and Vice Chair. Mr. Burton explained that the Chair would work with him on meeting agendas, would facilitate meetings, and would be the spokesperson to respond to questions.

On nomination by Mr. Williams, second by Mrs., Bowen, Tricia Smith was unanimously selected as the Chair.

On nomination by Mr. Williams, second by Mrs. Bowen, Mollie McInnis was unanimously selected as the Vice Chair.

Assignments. Committee member assignments were to take home provided kits for review and to prepare for discussion at the next meeting. Mr. Burton announced that seventh grade kits will also be provided once received.

Next meeting date. The next meeting was scheduled for July 8th from 3:30 – 5:30 p.m. in the boardroom.

Adjournment. There being no additional business, the meeting adjourned at approximately 5:00 p.m.

July 1, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Wednesday, July 1, 2015 at approximately 11:00 a.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown, Mrs. Poljak and Mrs. Swift-Watkins were absent. Mr. Rachal led the prayer and Pledge of Allegiance.

PERSONNEL RECOMMENDATIONS

Mr. Ramsey moved, seconded by Mrs. Bell, to approve personnel recommendations as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

OUT OF STATE TRAVEL (GENERAL FUND)

Mr. Rachal moved, seconded by Ms. Trammel, to approve requests for out of state travel (General Fund) as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

ADJOURN

Ms. Trammel moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 11:09 a.m.

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

July 8, 2015

The Caddo Parish School Board (CPSB) **Sex Education Parental Review Committee** met Wednesday, July 8, 2015 at 3:30 p.m. in boardroom at 1961 Midway, Shreveport, Louisiana. Committee members present included Tricia Smith (District 1), Bobbie Washington (District 2), Molly McInnis (District 4), Cynthia Casson (District 5), RoKisha Durham (District 6), Larry Williams (District 7), Jeri Bowen (District 8), Angela Lawrence (District 9) and Jo Wade (District 12). Also present were Keith Burton, Patrick Greer, and Anthony Tisdale.

Mr. Burton, chief academic officer, called the meeting to order at approximately 3:30 p.m.; and he highlighted the items on the agenda.

Approval of Minutes of the June 23, 2015 meeting. *Mr. Williams moved, seconded by Mrs. Lawrence, to approve the minutes of the June 23, 2015 meeting with the noted corrections. Vote on the motion carried.*

Review, Comments and Questions from Committee. Committee members shared comments after reviewing the materials, and discussed the following: grades/classes in which the curriculum is/should be taught, the need to make sure it is offered in classes where all students have access, opportunity for parents to opt out their students and what these students will do while this curriculum is being taught, an informational meeting for parents to receive an overview of the curriculum, and implementation in the 2015-16 school year.

Recommendation for Next Steps. Mr. Burton explained that the next steps in moving forward will depend on how much time the Committee needs before making a recommendation to the Board. If the committee is comfortable with the proposed curriculum and questions have been answered, a recommendation could be made to the Board as soon as the July 28th meeting. The chairperson will present the Committee's recommendation to the Board and any Committee members willing to address the Board may also do so. Once the Board approves the committee's recommendation, staff will begin planning the professional development for the teachers for implementation in the 2015-16 school year.

Next meeting date. To allow time for those who have not had the opportunity to review the materials to do so and to make a recommendation to the Board at its July 28th meeting, Mrs. Smith announced that the PRC will meet on Thursday, July 9th at 5:00 p.m. for the purpose of finalizing a recommendation from the Committee relative to the Sex Education Curriculum for Caddo Parish Public Schools.

Adjournment. There being no additional business, the meeting adjourned at approximately 4:20 p.m.

July 9, 2015

The Caddo Parish School Board (CPSB) **Sex Education Parental Review Committee** met Wednesday, July 8, 2015 at 3:30 p.m. in boardroom at 1961 Midway, Shreveport, Louisiana. Committee members present included Tricia Smith (District 1), Bobbie Washington (District 2), Molly McInnis (District 4), Cynthia Casson (District 5), RoKisha Durham (District 6), Larry Williams (District 7), Jeri Bowen (District 8), Angela Lawrence (District 9) and Jo Wade (District 12). Also present was Anthony Tisdale.

Mr. Tisdale called the meeting to order at approximately 5:00 p.m. and turned the meeting over to Chair Tricia Smith. Mrs. Smith asked if any of the Committee members had additional comments or questions relative to the proposed Sex Education curriculum "*Choosing the Best*".

RECOMMENDATION RE: SEX EDUCATION CURRICULUM FOR CADDO PARISH PUBLIC SCHOOLS

Angela Lawrence moved, seconded by Molly McInnis, to recommend to the CPSB "Choosing the Best" Curriculum for sex education in the middle school (Grades 7 and 8) and that it is taught in either health or P.E. classes and that "Choosing the Best" in the high school levels will be taught preferably at Grade 9 and Grade 11 in the Core classes, and that the information is placed on the website for parents. Vote on the motion carried unanimously.

Chair Tricia Smith announced that she will draft a letter to the Board of the committee's action and forward to each committee for their final approval before submitting it to the Board as the Committee's recommendation.

NEXT MEETING

Mrs. Smith announced that the next meeting will be the meeting of the Caddo Parish School Board on Tuesday, July 28, 2015 at 4:30 p.m. in the boardroom at which time the Board will consider the Committee's recommendation. All committee members interested were invited to attend.

Adjournment. There being no additional business, the meeting adjourned at approximately 5:12 p.m

July 28, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, July 28, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown (arrived at approximately 4:50 p.m.), Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Shalanda Swift-Watkins and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Green led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 16, 2015, JUNE 23, 2015, JULY 1, 2015, JULY 8, 2015 AND JULY 9, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the June 16, 2015, June 23, 2015, July 1, 2015, July 8, 2015 and July 9, 2015 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

As a point of personal privilege, Ms. Trammel expressed appreciation for the opportunity she and Board member Jasmine Green had (at the invitation of Jackie Lansdale) to travel to Washington, D.C. As a result of this trip, Ms. Trammel announced that, through the American Federation of Teachers, they received 100 books from FIRST BOOK, a non-profit, social enterprise that provides books to teachers for students in low-income families. These 100 books, under Dr. Goree's advisement, will be offered for distribution at new teacher orientation to help new teachers establish their classroom libraries. She applauded Mrs. Lansdale, the American Federation of Teachers, and all the groups working together to make this happen.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

A.C. Steere Student Winner of National Healthy Lunchtime Challenge. William "Samuel" Davis, Student of the Year at A. C. Steere Elementary, was recognized as the State of Louisiana winner of the National Healthy Lunchtime Challenge. Samuel traveled to Washington, D. C. to attend the Kids' State Dinner at the White House with First Lady Michelle Obama.

Huntington High School Marching Band. The Huntington High School "Raider JukeBox" Marching Band was recognized for representing Caddo and the state of Louisiana in the July 4, 2015 National Independence Day Parade in Washington, D.C. The recognition was followed by the band performing one of its marching numbers.

2016 Louisiana High School Teacher of the Year. Nicole Vasquez, Captain Shreve teacher, was recognized for being named the 2016 Louisiana High School Teacher of the Year at the ninth annual Cecil J. Picard Educator Excellence Symposium and Celebration in Baton Rouge on July 11th. Ms. Vasquez, who teaches 9th-12th grade English and Liberal Arts I classes, is entering her eighth year of classroom teaching.

Caddo Parish 2015 Volunteer of the Year Award. La'Krystal Johnson was recognized as a recipient of the Volunteer of the Year Award representing Westwood Elementary and the Caddo Parish School District at the Governor's Mansion in Baton Rouge. Ms. Johnson was also recognized as one of the states "Shining Stars" for her work.

One Class at a Time Winner. Lakia Davis, Atkins Elementary School assistant principal, was recognized in May as one of KTBS's "One Class at a Time" winners. Ms. Davis plans to use the money to improve the culture of the school through academics.

2014-2015 Caddo Public Schools Counselors of the Year. The following counselors were recognized as the 2014-2015 Counselors of the Year by the Caddo School Counselors' Association: Elementary – Alesshrunda Carter-McKeever, Summer Grove; Middle School – Misti Duke, Youree Drive; and Linda W. Anderson, Caddo Magnet.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: (1) Angela Henry, Secondary Transformation Specialist; (2) Eric Williams, Professional Development Specialist-Special Education; (3) Zachary Bolzan, assistant principal, Werner Park Elementary; (4) Dr. Matthew Mitchell, principal, Lakeshore Middle; (5) Annie Cherry, principal, North Caddo High School; (6) Charles Washington, supervisor of Attendance and Census; (7) Lawrence Anderson, director of Attendance & Census; and (8) Reginald Dodd, director of Title I.

Al Graham, director, classified personnel, recognized Don D. Otis, new security manager.

Retiree. Upon her retirement, Janis Parker, director of Title I, was recognized for 48 years of service in Caddo Parish Public Schools.

Sex Education Parental Review Committee. On behalf of the Sex Education Parental Review Committee, Chair Tricia Smith thanked the Board for allowing them to provide input into the implementation of the new Sex Education curriculum. She reported that after review and study, the Parental Review Committee unanimously voted to recommend support of teaching *Choosing the Best* curriculum in Caddo Parish Public Schools. She said the committee also recommends that it be taught in grades 7-12, with it being taught in the 9th grade in high school and that it be taught in Core classes in high school and not in Health and P.E. as it is taught in the middle schools. Ms. Smith also said the committee recommends that the opt-out form sent home to parents will include the *Choosing the Best* web site, and that a parent meeting will be held at the school prior to teaching Sex Education.

Mrs. Bell asked for clarification that every parent in grades 7-12 will have the opportunity to attend a meeting/orientation on the new Sex Education curriculum, as well as sex education will be taught in the Core subjects in high school. Ms. Smith stated that the committee is requesting Core subjects in high school to make certain every child has the opportunity to receive it (at this time if offered in Health and P.E., athletes, cheerleaders, for example, would not receive it). Mr. Burton added the recommendation is that priority is given to the Core subjects; however, occasionally due to scheduling, high schools may have to offer it in different subjects. He also confirmed all parents are given the opportunity to opt out their child. Mrs. Bell asked if teachers will be thoroughly trained in teaching this curriculum; and Mr. Burton said that is correct, and one of the greatest assets within the curriculum is the quality of the teacher material and that it is consistent throughout all the grades and covers all subject questions that students may ask.

Mrs. Watkins asked about the length of the course and Mr. Burton said the average timeframe is approximately eight days. This offers schools the flexibility of when it is offered while at the same time the opportunity to begin teaching this fall.

Mr. Riall expressed appreciation on behalf of the Board for the time the parents on this committee committed to study/review and provide input to the Board on this matter.

PUBLIC HEARING FOR NAMING FAIR PARK HIGH SCHOOL GYMNASIUM IN MEMORY OF COACH CLEM HENDERSON AND IN HONOR OF COACH RON PRESTON

President Riall declared the public hearing open for naming Fair Park High School Gymnasium in memory of Coach Clem Henderson and in honor of Coach Ron Preston. There being no speakers, the public hearing was closed.

PUBLIC HEARING FOR PROPOSED SEX EDUCATION CURRICULUM

President Riall declared the public hearing open for the proposed Sex Education Curriculum. There being no speakers, Mr. Riall declared the public hearing closed.

VISITORS

Jackie Lansdale, president of Red River United, shared that a North Carolina School System recently had 1,000 teachers resign for the coming school year. She noted the reason cited by most is that North Carolina ranks 42nd in the Nation in teacher pay, but some said they do not believe it was because of money, but a lack of administrative support. While this is a tragedy for this district and its students, she is still reminded of a request from KEEL radio for a comment regarding the huge discontent among teachers in the Transformation Zone. She said she told them it was not every school in the Zone because some schools had virtually no turnover; but the turnover typically comes from schools that have petty tyrants in administration. While they wanted to know what schools, she did not share that information with them; however, everyone knows it is the schools with administrators whose scores are not steering us into action, they are not in the news, and parent complaints are not making an abundance of noise. Thus, it is easy to ignore the overbearing and micromanagement, the picking of unneeded fights, the divisiveness and the ostracizing; and when it is ignored, the only relief a teacher can gain is by leaving, which is what happens. Mrs. Lansdale referenced the costliness to students, the District and taxpayers in replacing teachers; and she believes what the teachers in North Carolina were saying is that they do not make enough to put up with what they must put up with. She said that teachers will tell you they are like most public servants who serve primarily for the intrinsic value of what they do; and the reward is what they get out of the work done for boys and girls. While money does matter, no one wants to worry about mortgages, feeding their families, and working extra jobs, and for educators, having enough money removes the issues of worrying and frees them to concentrate on what they love to do – teach. Teachers want to be valued and respected, and she encouraged everyone to start the new school year with positive attitudes by reviewing turnover rates in the schools, having conversation with principals and working to cultivate positive relationships. She encouraged the Board to look closely at the list of principal rehires and ask questions, encourage directors and principals to be positive, and look at the many, many ways teachers can be shown respect and value.

Elizabeth Sullivan, president of Caddo Association of Educators, addressed the Performance Evaluation Plan and encouraged the Board to look closely at the proposed revision on Page 3 of Section 3 concerning the observation data collection. She said it was written that each observation would be announced; however, it has been rewritten to reflect that one observation will be announced for teachers and administrators. Dr. Sullivan noted this is a critical situation where teachers and administrators are involved in serious observations; and each observation should be announced. She encouraged the Board to reconsider this revision.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board's consideration and the following discussion ensued.

Bids. Mr. Rachal asked for clarification on the leasing cost of vehicles and staff explained that the fleet leasing management program is for vehicles used by various employees as opposed to purchasing the vehicles. Ms. Lloyd further explained that staff is looking at this program because it allows for better budgeting the monthly amounts as well as takes advantage of savings on maintenance. Dr. Goree clarified that this is not the addition of vehicles, nor additional staff with company-issued cars, but only for replacement purposes. Mr. Rachal asked how many cars will we lease, and Ms. Lloyd explained that the rubric provided is from the committee that evaluated the proposals submitted by the two companies. He asked if he understands this is a management agreement and not the actual leasing of any vehicles. Ms. Lloyd said they manage the program and it includes the vehicles we are able to lease under the program. Mr. Rachal asked for further clarification that if we have a lease with them, are we paying additional dollars for them to manage it. Ms. Lloyd said no and that service is included into one price: they lease us the vehicles for 1, 5, whatever years at a cost and the District can build up equity in the vehicles. She explained the State does not allow us to sell these vehicles, so they own the vehicles and the District earns the equity, which allows us to turn the money over into leasing vehicles or be reimbursed up to any equity earned. Mr. Rachal asked for clarity that the amount includes the cost of leasing the vehicles, and Ms. Lloyd said the estimated amount covers all the leasing cost for the vehicles and the services. Mr. Rachal asked about the range of vehicles in this agreement, and Ms. Lloyd responded the District is currently leasing approximately 15 vehicles. Transportation has expressed interest in obtaining vehicles under the particular contract, and the dollar amount was based on an estimate from the Security, Transportation, and other Central Office staff. Mr. Rachal stated he likes the leasing concept because he knows \$50,000 would be spent if the district purchased two vehicles, and asked if we know how much we will be saving annually. Ms. Lloyd stated that she has not worked up those numbers but she can say that a small car costs the district approximately \$18,000-\$19,000.

Mr. Ramsey asked staff to verify the \$50,000 cost, and Ms. Lloyd verified that the \$50,000 is an estimated annual expenditure.

Mr. Green asked how long is the proposed contract? Ms. Lloyd responded it is a five-year lease that includes an out agreement if there is a non-appropriation of funds where the vehicles can be returned and not locked in to a particular time.

Louisiana Compliance Questionnaire. Mrs. Bell asked staff to clarify and Mr. Lee explained this item is related to the external audit and each year this questionnaire is required for auditors to begin collecting the information for the audit.

Section E Policies. Miss Green asked what is different in these policies? Jeff Howard explained that the 35 policies include policies in the old manual that have been changed/combined/deleted to present the new section of policies presented today. Mr. Abrams explained the committee met more than once on this section of policies. He further stated that one of the main issues was relative to references to smoking; and it has been changed and no longer deals with smokeless tobacco, as well as no smoking except in designated areas. The committee felt it would be almost impossible to regulate it and put it back on the facility to provide a non-smoking place.

Mr. Rachal asked about the areas that will be designated on school campuses and if they will be in a guarded area for teachers, employees so they are not in the public eye. Dr. Goree indicated staff was not that specific in coming up with a plan, and Mr. Abrams indicated that is the current policy, indicating there should already be a designated smoking area on all campuses away from students. Mr. Rachal asked if whomever is assigned the responsibility of evaluating the campus site areas might monitor this also.

Request to Seek Bids for E-rate Services. Miss Green asked about the E-Rate Services and are we paying too much for these services. While staff is looking to diversify, Dr. Goree asked Sharon Golett to explain how we are making sure we are getting the best value. Ms. Golett explained that prices the District pays for its Internet Services (and telecommunications are very competitive), we are asking the Board to seek bids for the next term, which seeking competitive bidding is one of the requirements in E-Rate. Ms. Golett responded that staff is also looking to have services for Wan Telecommunications and would like to seek bids from competitors. Miss Green asked how often is this done, and Ms. Golett responded every time we renew the contract for telecommunication services, every three years. She asked if we would be seeking this again in three years, and Ms. Golett said that is correct.

Purchase of Kings Highway Property. Mrs. Brown said she asked at a previous meeting about mineral rights on this property and asked if she is correct in understanding it is the property on the corner of Kings Hwy. and Line, and what is the cost for this property? Mr. Woolfolk responded it is \$117,000. Mrs. Brown asked if this price is excessive and does it include mineral rights. Mr. Woolfolk stated we are paying the appraised market value for the property.

Miss Green asked for clarification on what piece of property this is. Mr. Woolfolk explained that this is the last house on Kings. Miss Green asked how will the property be used; and Mr. Woolfolk responded he believes Byrd will use it for part of the athletic field, an addition to a practice field and a field house. Miss Green asked if the Byrd PTSA is participating in this project, and Mr. Woolfolk indicated we are not providing a field house, but only purchasing and making the property available. Miss Green asked about the condition of the house currently on the property, and Mr. Woolfolk said the owners were living there or renting it. Miss Green asked if the plan is to tear down the house, and Mr. Woolfolk responded that is correct, and Byrd has plans for the piece of property. Dr. Goree stated it is his understanding that the Board has already approved purchasing the house and this is the approval of the resolution.

Mr. Abrams clarified that there was a piece of property in which there was difficulty in acquiring and the Alumni Association was to purchase that particular piece of property. This piece of property is different and the Board approved paying up to the appraised value. The resolution before the Board is to authorize the actual purchase which the Board has previously approved.

Mr. Mainiero stated that the Board approved the property at Dillingham (exit of Byrd property) and the purpose is to purchase the only remaining house/piece of property (lot) to expand existing athletic facilities and provide additional parking. Then, it may be possible to get Dillingham back from the city and make it a part of Byrd.

Dr. Goree stated that some homes have already been relocated, given to other families for use. Mr. Rachal stated his agreement in moving forward since Byrd has the largest attendance in the City and is totally land locked. He also stated history of leasing land across from Byrd High School for the purpose of providing additional parking spaces and hopefully this will alleviate some of the student parking on the streets in the neighborhood around Byrd.

Ms. Trammel noted the many complaints the Board members receive about Byrd and she understands Miss Green wanting clarification on the pieces of land being referenced.

Mrs. Brown clarified that she previously stated real estate is her post retirement occupation; and she believes sometimes we are over charged above what the property was appraised. She noted we currently have a balanced budget and need to be cautious and not overspend the budget.

Mrs. Douzart stated that as a former Drivers Education instructor she can attest to the need for more space so those learning how to drive do not have other vehicles in the way.

Approval of CPSB Policy JR – Student Records and Deletion of CPSB Policy JO. Mrs. Bell asked if this is the policy the Legislature approved; and Mr. Abrams responded it is. Mrs. Bell asked when will we explain to parents so they understand what is allowed and what is not when it comes to mentioning students names, even graduating students, honor roll students, etc.

Mr. Abrams explained the Legislation is unexplainable; and while he believes the law was well intentioned and directed toward the State Department in dealing with the transmittal of data between the State Department and outside agencies as well as making it applicable to the local districts as well, the policy is written to make certain the Statute is followed. He further stated that one of the main issues in this policy is it does not allow re-disclosure even if the parent has consented the District to publish the information. He also explained that the parent may authorize the District to release their child's information to a third party; however, the Statute states that the third party recipient must maintain the data as confidential, which is a problem since this infringes on the parents' rights and the press in submitting information to the public.

Mr. Abrams stated that it is his understanding that LSBA has requested an Attorney General's opinion; but at this time, the District will do the best it can with what it has, and that is to make certain we deal with the spirit of the law to not disclose information without getting parental consent. He also added that the law does not prohibit the parents from bypassing the law and putting their child's name in the newspaper, but the School District cannot do this. At this time, Mr. Abrams added it will require the District to not just have a blanket form at the beginning of the school year for parents to sign, but individual forms will need to be signed by parents for every individual time a student's name is released to a third party.

Mrs. Bell asked if in lay terms, did we break the law today in recognizing the students; and Mr. Abrams explained that if a parent was here with their child for a presentation, this would be an absurd result to say the parent did not consent to disclosure. Mrs. Bell asked that someone please send her a copy of this law by Rep. Shroeder.

Dr. Goree asked Mr. Abrams to respond to whether or not the District could send out a press release naming the student that went to Washington, D.C. even with the consent of the parent. Mr. Abrams explained that the way the law is written, we could enter into an agreement with the local media when issuing a press release with the understanding the name would remain confidential. Mr. Abrams also stated that another problem is there is up to a \$10,000 fine and six months in jail. Mrs. Bell said everyone needs to be made aware of what the law says as the new school year begins. Dr. Goree agreed with the concerns expressed; however, this is being brought forth because there is now a law and the District needs to protect its staff until an AG opinion is received. Until then, staff will work through this to make it as least restrictive as possible while still following the law. Mr. Abrams also added that one important issue is the access to data; and it will be important that teachers are aware that they should look at only their students' data. If staff members violate this, they will be subject to penalties and fines.

Mr. Rachal stated that when recognizing children in a public meeting, everything is public knowledge. Mr. Rachal said it is a shame that the schools will not be able to recognize the accomplishments of the students, staff cannot just send out information on students, and he agrees the District needs a policy in place to protect the employees during the interim time.

Ms. Trammel noted that the District works hard to make the public aware of what Caddo's students are doing; and the Board has even asked that the PR of the District be improved. She said she believes this limits us on what we can say and do and she asked Mr. Abrams where does the Board go from here. Mr. Abrams said the first thing is to get an AG's opinion through the LSBA; and the District will work on a release form for parents' to sign for disclosure and what can and cannot be done with student information as well as how information can be disclosed.

Mr. Abrams also stated that in the instance of yearbooks, he said he believes we can work with the yearbook publishing company and the parent can directly contract with them.

Ms. Trammel asked if it is against the law for Board members to take pictures of students at a school when attending a school function? Mr. Abrams said he doesn't believe it is breaking the law; however, if the pictures are going to be disclosed, parental consent should be obtained before posting on any type social media. He also believes the re-disclosure is another Constitutional issue.

Mr. Abrams also clarified the wording added to Policy JR after meeting with the Juvenile Court Judges relative to sharing student information between the Juvenile Court System and the DA when dealing with truancy or students having problems in the school system. This revision to the policy will allow the Board to enter into an interagency agreement under the Children's code (a separate statute used in conjunction with the law). Mrs. Brown asked if she understands we cannot release the names of children under a certain age. Mr. Abrams explained the issue with the Statute is we do not give the names of children to anyone, i.e. law enforcement, Juvenile Court, etc. Mrs. Brown commended staff for moving forward with the Juvenile Justice System and asked that sometime in the future that the Board look at mental health clinics for our schools since many mental health issues have manifested themselves in murders.

Atkins Elementary Easement. Mary Trammel encouraged everyone to support this easement which will benefit this area.

Approval of Bus Salvage. Mr. Riall asked staff to explain what designates a bus salvageable. While he understands there is a 25 year cap on usage of a bus, he notes in the backup material that some are not 25 years old and it is noted that they are running. Mr. Jones, director of transportation, explained that some buses have engines that are blown, sometimes we salvage parts to have on hand for similar buses, some buses continue to break down after multiple repairs. Mr. Riall asked about the 2011 bus on the list that indicates it is complete and running, and Mr. Jones explained that while he does not have the history of that bus in front of him, running may mean it can be started.

Request to Open Christus Schumpert Clinic at JS Clark Elementary School. Dr. Robinson shared with the Board her excitement in working with Dr. Ruby Scroggins, principal, and Christus Schumpert in this project. Dr. Scroggins noted the many needs in the school that they cannot address, and she contacted Schumpert and the City of Shreveport regarding help in this area. Since she is not a nurse and if she wants to do what is best for the whole child, she must seek out the community for help. She recognized Monica Young, a nurse, educator and the director of Women and Children at Christus Health, who highlighted their outreach program which includes three school-based health centers (Atkins, Linwood, and Woodlawn). Ms. Young said they are responding to a call to serve the under served in the community, and she shared statistics on the numbers of children served who return to the classroom as opposed to going home. She explained that medical professionals will provide convenient access with comprehensive primary and preventative care to the school children. She said they will do physical assessments, risk assessments, conduct educational programs, i.e. tobacco awareness, asthma, gun awareness, diabetes, etc.

Miss Green expressed her appreciation to Dr. Scroggins for her work in securing this program for JS Clark, and asked how will the program operate on the campus? Ms. Young stated they will be on the campus Monday through Friday, from 7-3:30 p.m. Miss Green asked how other interested schools would pursue this service. Ms. Young said their dream is to be in all the schools.

Mrs. Douzart reiterated appreciation to Dr. Scroggins for not only her professionalism, but her concern for her students. Ms. Trammel stated that the program at Atkins is an excellent program and this program will be beneficial to JS Clark by cutting down on absenteeism, and helping and encouraging the students.

Approval of Performance Evaluation Plan. Dr. Goree noted that some changes were made as late as today and asked Mr. Lowder to present the proposed revisions. Charles Lowder, director of certified personnel, explained that BESE (Board of Elementary and Secondary Education) provides Bulletin 130 which is the regulations for the evaluation and assessment of school personnel. He further stated that each year, and every time a new part of the evaluation plan is created, BESE provides the regulations for all school district in Louisiana. Each school district takes Bulletin 130 and tries to mirror what is in Bulletin 130 to provide Caddo's Performance Evaluation Plan for principals and teachers. He explained that a committee meets to discuss and recommended changes are brought forth to the Board. The question brought forth by the visitor is the prior regulation that all observations would have a pre-conference and a post-conference, but the wording was changed this year to reflect that "the evaluators shall conduct observations to gain a complete picture of the performance and impart individual feedback each year to those being evaluated". It also states that "at least one of these observations shall be announced and shall include a pre- and post-conference." Minimum number of observations each year is two. Mrs. Bell reiterated that the speaker stated that all the observations needed to be announced, which means that a person can evaluate a teacher, but it only has to announce them on two. Mrs. Bell asked if it is possible to look further at this revision. Dr. Goree stated that there was very extensive discussion by the Committee on this particular item, and the goal is to make it user friendly for the system as well as the teachers, which is why the committee was formed. Dr. Goree added that everyone must understand that the evaluation plan is in place to help teachers to be as effective as possible; and if we want to always get the best picture of the performance, it's not always necessary to announce an evaluation. He feels that too many times we have used this punitively versus using it to support the growth of teachers. Mrs. Bell asked if it is possible for the Committee to come to a compromise.

Mr. Lowder further explained that when they met as a committee consisting of principals, coordinators, other administrators, the consensus was to follow the wording that goes by Bulletin 130. Mrs. Bell said while she is not trying to tell others what they need to do, she is asking that we be fair, and she believes it is important for a teacher to be on the committee. She asked if both parties coming together and submitting recommendations can be done. Mr. Lowder added highly effective teachers were involved. Dr. Goree said it is possible if that is the Board's wish.

Ms. Trammel asked if she understands clearly that the verbiage comes from Bulletin 130 and BESE says what we need to incorporate. Mr. Lowder said the only thing added in the statement was to make sure that all post conferences would be done in 10 days, and he read the proposed change. Ms. Trammel asked if evaluator needs to notify the one being evaluated. Dr. Goree said that is what is written in the new policy, and only one time will the evaluation be announced, which he believes provides very valuable feedback and information in helping teachers be the very best they can be.

Mr. Rachal asked the superintendent if he sees any problem with one of the visits not being announced; and Dr. Goree responded if he puts his principal hat on, he does not see any problem with it. Mr. Rachal stated he assumes that most principals would want to have an unannounced in order to get a truer picture of what is going on in the classroom in order to help the teacher accomplish the goals. Again, Dr. Goree added that in efforts to support teachers, it is good to see an observation unannounced as well as one that is announced.

Mrs. Watkins stated her agreement that one should not be announced and shared her observation of teachers not always doing their best; and she believes if they do not know when their

unannounced observation might be, it will keep them conscious of the job they are doing daily in the classroom.

Mrs. Bell stated that she believes if a teacher is going to have eight observations, at least three or four of them should be announced; and she asked the superintendent how many observations are done in a year. Dr. Goree responded that one (under some circumstances) or two, and a principal can do eight observations; and with the concern possibly being the administrator, he explained that is something separate from this policy and the administrator should be addressed regarding any abuse of the system, and there is a grievance process in place to protect teachers from such behavior. Dr. Goree said he hears Mrs. Bell and he will make certain in talking with principals that everyone understands the evaluation system is to improve and not a “got you” system.

Miss Green expressed her agreement with Mrs. Bell’s comment that we want happy teachers; and she asked if the Board is voting on this today since school begins August 11th and what does the law say about pre-conference. Mr. Abrams said it mirrors Bulletin 130, and BESE is the administrator for the Statute and they send out the Bulletins and procedures. Mr. Abrams reminded the Board that last year it made a decision that all observations would be formal and include a pre- and post-conference, and the Board can go with what is exactly written in Bulletin 130 or it can be changed. A committee met and thoroughly discussed how it should be done, there were many comments relative to “gotcha” versus support; and he understands this will not be used as a “gotcha”. He said if there is a problem, an evaluator can do more than one or two observations to get a complete picture; and if a teacher doesn’t believe they were treated fairly, there is a grievance process for employees to follow. So, if it is used as the superintendent explained, it should not matter. Miss Green asked if the law does make reference to announced and unannounced; and Mr. Abrams said it does, and it is at least one. Miss Green asked if the vote can be postponed, and Mr. Riall clarified that in speaking with the attorney, this is something needed before school starts. Dr. Goree added staff needs this information approved to begin to prepare the leadership through the professional development schedule what they will be facing as the new school year begins. He also stated that it is believed this policy is one that will best support students in the classroom and ultimately support teachers as well. Miss Green asked when professional development will begin; and Dr. Goree responded professional development begins this week, and the Board can choose not to approve tonight, but it is a decision to not have the evaluation information for teachers when we start school since the next opportunity to approve something will come after school begins. Miss Green stated she agrees with Mrs. Bell, and asked President Riall if there is a way to give the Board a day or two and hold a special meeting, and Dr. Goree said he would argue that we do have happy teachers because in looking at the evaluations and the huge number of teachers in our highly effective columns, and the number of declines in our ineffective columns, one will see we have begun to change this mechanism that improves teachers and helps get teachers to the highest columns possible.

Mr. Riall inquired as to how long this item was posted on BoardDocs, and it was reported the item was on the agenda when it was released; however, the backup was not. Mrs. Douzart noted that there have been times when supervisors become too personal in evaluations, and she believes this is something that needs to be checked more closely.

Mr. Green clarified that he is hearing from the discussion the possible unreadiness for voting on this today; and he understands if one votes on the prevailing side, that person can bring the matter back to the Board. It was confirmed that is correct. In order to meet the timeline, Mr. Green suggested that the Board move forward and vote on it; and anyone who has a concern can bring it back to Board for future consideration.

Mr. Riall announced that Items 6.01-6.04, 7.01, 8.02-8.06, and 8.08-8.11, and 13.01 are the consent agenda.

Jackie Lansdale, RRU, addressed the Board on the Performance Evaluation Plan and that she did attend the meeting and did object to this change (in the Performance Evaluation Plan) because of Act 54 which began in 2010. She stated that Revised Statute 17:39.02 addresses observations and conferencing and that the evaluator(s) of each teacher or administrator shall conduct a pre-observation conference during which the teacher or administrator shall provide the evaluator(s) with relevant information concerning the planning of the lesson to be observed as well as any other information the teacher considers pertinent. It states the observation should occur at a time and place established in advance and shall be a sufficient duration to provide meaningful data which in the case of a teacher shall not be less than the duration of one complete lesson. In the case of a teacher, the observation shall be conducted using the components of effective teaching as well as any other additional local board criteria included in the job description. In the case of an administrator, the observation may consist of the collection of prescribed performance documentation and shall be conducted using applicable components of effective teaching elements prescribed by Board rule or any other local Board criteria included in the job description; and a post-observation conference shall be conducted to discuss accommodations and recommendations. Mrs. Lansdale said this is all the statute says and does not say one can be done one way and one another way; and this is what has been done every year. All others can be done whenever, but if it is a formal observation that is going to be scored, they ask that the District comply with the law. She challenged the Board to look at the criteria of what should be covered in a formal observation to be considered highly effective. Mrs. Lansdale noted that it has always been one way until this year and certified personnel has said they want to comply strictly with Bulletin 130 and say the one observation as a pre-conference but the other unannounced, which would be fine if your entire livelihood did not depend on it. Also, she said the District is not strictly adhering to Bulletin 130 because there is a component on intensive assistance where one is allowed to have representation and the Board can do what it wants to and change it back to that. While she has no doubt there are many principals who conduct the evaluations for all the right reasons, however, she also thinks there are those that do not. She encouraged the Board to put the language back in the policy; but if the Board does not and a teacher is negatively impacted because the District is not complying with the law, she will have no choice but to file litigation against the Board.

Ms. Trammel moved, seconded by Mr. Ramsey, to establish the agenda and the consent agenda for the July 28, 2015 CPSB meeting as submitted. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to confirm the consent agenda (Items 6.01-6.04, 7.01, 8.02-8.06, 8.08-8.11 and 13.01). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transaction Reports. The board approved the personnel transactions reports (resignations) for the period of June 1-30, 2015 as recommended by the superintendent and submitted in the mailout.

6.03 Requests for Leaves. The board approved the requests for leaves as recommended by the superintendent and submitted in the mailout.

6.04 Administrative Contract Renewals. The board approved the administrative contract renewals as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing Bids. The board approved the following bids as recommended by the superintendent and submitted in the mailout on the bid tabulation sheets: (1) Techmart Computer Products, Inc. for the purchase of calculators; (2) Porter's Industrial for the purchase of Uniform Provision & Management Services; and (3) Enterprise Fleet Management for the purchase of Fleet Leasing & Management Services. *A copy of the bid tabulation sheets is filed in the official papers of the July 28, 2015 CPSB meeting.*

Item No. 8

8.02 Out of State Travel. The board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Louisiana Compliance Questionnaire. The board adopted a formal resolution approving the Louisiana Compliance Questionnaire as submitted in the mailout.

8.04 Approval of CPSB Section E Policies. The board approved the Section E Policies including revisions and policy deletions as submitted in the mailout.

8.05 Request to Seek Bids for E-rate Services. The board approved staff's request to solicit bid proposals for voice and data telecommunication services that are covered by and support E-rate services as recommended by staff and submitted in the mailout.

8.06 Purchase of Kings Hwy Property. The board approved the resolution and real estate sales contract for the purchase of the property at 655 Kings Highway as recommended by staff and submitted in the mailout. *Copies of said resolution and sales contract are filed in the official papers of the July 28, 2015 CPSB meeting.*

8.08 Approval of Recommendation from Sex Education Parental Review Committee. The board approved the recommendation from the Sex Education Parental Review Committee to implement *Choosing the Best* curriculum in Caddo Parish Schools as submitted in the mailout.

8.09 Atkins Elementary Easement and Right of Way Agreement. The board approved the Right of Way Agreement and Resolution with AEP Swepco for an easement to go through Atkins Elementary property for upgrading electrical service in that area.

8.10 Authorization for Bus Salvage. The board authorized staff to salvage CPSB vehicles in accordance with CPSB policy.

8.11 Request to Open Christus Schumpert Clinic at JS Clark Elementary School. The board approved the request to open a Christus Schumpert Clinic at JS Clark Elementary School as recommended by staff and submitted in the mailout.

Item No. 13

13.01 Student Readmission Appeals. The board approved staff's recommendation for student SD as submitted in the mailout and whose parents are in agreement.

APPROVAL OF CPSB POLICY JF – STUDENT RECORDS AND DELETION OF CPSB POLICY JO

Mr. Ramsey moved, seconded by Mr. Rachal, to approve CPSB Policy JR (Student Records) and delete CPSB Policy JO as recommended by staff and submitted in the mailout. Vote on the motion carried with Board members Swift-Watkins and Bell opposed and Board members Riall, Green, Brown, Douzart, Trammel, R Green, Locke, Rachal and Ramsey supporting the motion.

APPROVAL OF CADDO PERFORMANCE EVALUATION PLAN

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the 2015-16 Performance Evaluation Plan (PEP) as submitted in the mailout.

Mr. Ramsey stated that he doesn't sense any abuse; and if there is, he believes that is Dr. Goree's job to address it. He believes the Board has successfully done this over the years, so he supports the staff's recommendation.

Mrs. Bell stated her concern that only one is announced, and with the new law, she believes it is a lot compared to seven years ago. She agrees we need to start school, but this will come back after she has an opportunity to read and study it more closely.

Miss Green moved, seconded by Mrs. Brown, that this item be postponed and a special meeting called to address this issue. Miss Green said she believes everyone has put their concerns on the table and this would give the Board a little more time to hear from employees and employee organizations and hopefully come to an agreement. Mrs. Brown said she supports this motion to give others should be given the opportunity to express their feelings on this issue.

Mr. Ramsey moved, seconded by Ms. Trammel, to call for the question on all motions on the floor. Vote on the motion carried with Mr. Rachal opposed.

Vote on the substitute motion failed with Board members Green, Brown and Douzart supporting the motion and Board members Riall, Trammel, R Green, Locke, Rachal, Ramsey, Swift-Watkins and Bell opposed.

Vote on the main motion carried with Board members Green and Bell opposed and Board members Riall, Brown, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, and Swift-Watkins supporting the motion.

LITIGATION UPDATE RE: CATHY SLEDGE V. CPSB, CASE NO. 570,847, FIRST JUDICIAL COURT, CADDO PARISH, LOUISIANA

Mr. Rachal moved, seconded by Mr. Ramsey, to approve confidential settlement statement agreement and release of all claims in the case Cathy Sledge v. CPSB, Case No. 570,847, First Judicial Court, Caddo Parish, Louisiana. Vote on the motion carried unanimously.

ANNOUNCEMENTS

President Riall announced that we will adopt millage rates at the September Board meeting.

Ms. Trammel expressed appreciation to all who were involved in the success of their summer camp for 125 children.

Mr. Ramsey stated that while attending the Southern Leadership Conference he was reminded of how fortunate Caddo is to have Scott Richard as the executive director of the Louisiana School Boards Association.

Dr. Goree invited everyone to attend the celebration for Caddo Parish School Board retirees at 3:00 p.m., Thursday, July 30th at Captain Shreve High School

Mrs. Douzart reiterated Mr. Ramsey's comments regarding the Southern Leadership Conference, and she reminded everyone that as educators we should be flexible, accountable and teachable.

Adjournment. *Ms. Trammel moved, seconded by Miss Green, to adjourn. Vote on the motion carried unanimously and the meeting adjourned at approximately 7:11 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

July 28, 2015

The **Caddo Parish School Board (CPSB) Long Range Planning Committee** met in regular session on Tuesday, July 28, 2015 at approximately 2:00 p.m. in the boardroom at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Bonita Douzart, Barry Rachal, and Shalanda Swift-Watkins. Committee member Susannah Poljak was out of town. Also present were Steve Riall, Denee' Locke, Dr. Lamar Goree and Reggie Abrams, legal counsel. Mr. Rachal led the prayer and Pledge of Allegiance.

DISCUSSION ON POSSIBILITY OF REPLACING PROPERTY TAX REVENUE WITH SALES TAX REVENUE

Mr. Ramsey called the meeting to order and announced that the sole purpose of today's meeting is to discuss the possibility of replacing property tax revenue with sales tax revenue; and following Mr. Lee's presentation, committee and other board members will be afforded the opportunity to make comments and ask questions.

Mr. Lee explained that currently the sales tax is 1½% and generates approximately \$75-\$80 million a year; and increasing it by ½% could generate approximately \$25,000,000, reducing property taxes by a similar amount. The current sales tax cap for the parish is 9% and some areas in the parish already exceed that as a result of getting Legislative approval, i.e. Ida is currently at 10.35%. Mr. Lee commented that it would be staff's preference to pursue this as a districtwide tax, because if .4 of a percent were passed in the City of Shreveport, it would be hard to justify collecting taxes within the taxing district but spending them in schools that lie outside the taxing district. Mr. Schleuter shared with the committee that state law provides for different taxing limits for the different taxing bodies; and parishes and school boards generally have a 9% cap so the maximum rate the school board can pursue will be up to 9.35 in any part of the parish. At this time, he reported those that cannot be taxed because they are currently at the cap include Vivian, Oil City, Herndon, Mooringsport, Blanchard, Rodessa, and Ida. Those not currently at the cap and who can be taxed include Shreveport, Greenwood and the balance of the parish. Mr. Lee added that carving out those areas already capped will be difficult and is why he believes we would want to move forward with getting Legislative approval even if the Board is not ready to bring this forward to the public immediately as the Legislative approval does not expire. He also reminded them that if individual taxing areas are established, the money from the tax must be spent only in those taxing areas; and if a district has a parishwide tax, it can be broad and used for maintenance, salaries, capital projects, bonds, etc. He also stated that while the other entities have different rules to follow, if another entity (i.e., the City of Shreveport) passes a sales tax increase, it will affect the school board's remaining capacity. However, if the school board gets Legislation passed, authorizing it not to exceed 1% or ½%, it will apply only to the School Board, and it does not expire, nor is it affected by anything that other taxing authorities might do.

Mr. Ramsey noted that this was looked at a few years ago and the same discussions were held. He said there is a way to move forward with a .4 of a cent sales tax and a second option is to encourage legislators to increase the cap. While many believe the cap has been raised, that is not true; because it is something on which voters must vote. With 2016 being the earliest opportunity, it is also a time for the renewal of some critical millages.

Mr. Rachal noted that he believes everyone heard loud and clear what the public said about the 1 mil in the last election; and he is concerned about the effects of the 25 mils not passing in the spring. He said it is very important that we are pro-active at this time in moving forward. Mr. Rachal stated he believes the District should move forward with the .4 increase proposal, get Legislative approval, and asked if staff wants to do this, is it something staff likes? Mr. Lee

responded that he has reservations relative to the timeline and the need for the voters to approve a millage in the spring that is for salaries; and he stated what he believes the District will face if this is not addressed soon. Mr. Rachal also shared his concern for the number of people voting to increase property taxes and they are not paying taxes since their property of less than \$75,000 in value is exempt from property taxes. Mr. Rachal asked staff for numbers of taxing districts and the number of schools outside of the city limits of Shreveport. Dr. Goree noted a previous conversation relative to the combination of a sales tax increase and a reduction of property taxes, and Mr. Ramsey reminded everyone that is exactly what the agenda item is for today and comments and questions should be about these possible proposals.

Mr. Schlueter explained what the sales tax monies can be used for, that Legislative approval should be a routine approval allowing the school board the flexibility to present a proposition to the voters as to what it will do with these funds in less than 200 words. This proposition can incorporate a broad spectrum of funding possibilities, i.e. salaries, operations, capital improvements, maintenance, etc., and he encouraged them if going this direction to make it a perpetual tax so it does not end. Dr. Goree asked for clarification and if the proposition can be written so that in the event it does not pass, it does not mean there will be a reduction. Mr. Schlueter said it should be written so that the district can get the security of the entire 1% and make sure there will be ample funds to do what is necessary. Dr. Goree asked Mr. Schlueter about sales tax being a regressive tax and the property tax an aggressive tax and the types of push backs across the state. Mr. Schlueter explained that those who have a balance tend to be successful in passing these. Mr. Rachal asked about the possibility of the passage of the sales tax being subject to the reduction of property taxes. Mr. Schlueter shared what another district did to be successful in seeking a successful tax increase, as well as what DeSoto Parish did when they received the Haynesville Shale funds.

Mr. Abrams asked about perpetual and if the thought is to put the millage renewals and the sales tax increase on the same ballot, and Mr. Schlueter stated that he understands the millage renewals are on the ballot for April 2nd and nothing can be placed on the ballot now absent legislation in the spring, thus the earliest this election can be on the ballot is the fall of 2016. Dr. Goree stated that with the trust factor in the community, he believes you handle this by allowing the millages to expire, and he doesn't believe anyone is comfortable with that approach.

Mr. Schlueter also highlighted what must happen in preparing to introduce appropriate legislation, getting approval before drafting a proposition to present to the voters.

Mr. Ramsey asked Mr. Schlueter and Mr. Lee to build a document of the pros and cons as well as the options we have based on the discussion today, looking at the sales tax rate of neighboring parishes also. When this information is available, the Committee will meet again to receive and discuss this information. Staff believing the information can be put together by mid-August, Mr. Ramsey announced the next meeting of the Long-Range Planning Committee will be August 18, 2015 at 2:00 p.m.

Adjourn. *Mrs. Douzart moved, seconded by Mrs. Shalanda Swift-Watkins, to adjourn. Vote on the motion to adjourn carried at 2:55 p.m.*

July 28, 2015

The **Caddo Parish School Board (CPSB) Long Range Planning Committee** met in regular session on Tuesday, July 28, 2015 at approximately 2:00 p.m. in the boardroom at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Bonita Douzart, Barry Rachal, and Shalanda Swift-Watkins. Committee member Susannah Poljak was out of town. Also present were Steve Riall, Denee' Locke, Dr. Lamar Goree and Reggie Abrams, legal counsel. Mr. Rachal led the prayer and Pledge of Allegiance.

DISCUSSION ON POSSIBILITY OF REPLACING PROPERTY TAX REVENUE WITH SALES TAX REVENUE

Mr. Ramsey called the meeting to order and announced that the sole purpose of today's meeting is to discuss the possibility of replacing property tax revenue with sales tax revenue; and following Mr. Lee's presentation, committee and other board members will be afforded the opportunity to make comments and ask questions.

Mr. Lee explained that currently the sales tax is 1½% and generates approximately \$75-\$80 million a year; and increasing it by ½% could generate approximately \$25,000,000, reducing property taxes by a similar amount. The current sales tax cap for the parish is 9% and some areas in the parish already exceed that as a result of getting Legislative approval, i.e. Ida is currently at 10.35%. Mr. Lee commented that it would be staff's preference to pursue this as a districtwide tax, because if .4 of a percent were passed in the City of Shreveport, it would be hard to justify collecting taxes within the taxing district but spending them in schools that lie outside the taxing district. Mr. Schleuter shared with the committee that state law provides for different taxing limits for the different taxing bodies; and parishes and school boards generally have a 9% cap so the maximum rate the school board can pursue will be up to 9.35 in any part of the parish. At this time, he reported those that cannot be taxed because they are currently at the cap include Vivian, Oil City, Herndon, Mooringsport, Blanchard, Rodessa, and Ida. Those not currently at the cap and who can be taxed include Shreveport, Greenwood and the balance of the parish. Mr. Lee added that carving out those areas already capped will be difficult and is why he believes we would want to move forward with getting Legislative approval even if the Board is not ready to bring this forward to the public immediately as the Legislative approval does not expire. He also reminded them that if individual taxing areas are established, the money from the tax must be spent only in those taxing areas; and if a district has a parishwide tax, it can be broad and used for maintenance, salaries, capital projects, bonds, etc. He also stated that while the other entities have different rules to follow, if another entity (i.e., the City of Shreveport) passes a sales tax increase, it will affect the school board's remaining capacity. However, if the school board gets Legislation passed, authorizing it not to exceed 1% or ½%, it will apply only to the School Board, and it does not expire, nor is it affected by anything that other taxing authorities might do.

Mr. Ramsey noted that this was looked at a few years ago and the same discussions were held. He said there is a way to move forward with a .4 of a cent sales tax and a second option is to encourage legislators to increase the cap. While many believe the cap has been raised, that is not true; because it is something on which voters must vote. With 2016 being the earliest opportunity, it is also a time for the renewal of some critical millages.

Mr. Rachal noted that he believes everyone heard loud and clear what the public said about the 1 mil in the last election; and he is concerned about the effects of the 25 mils not passing in the spring. He said it is very important that we are pro-active at this time in moving forward. Mr. Rachal stated he believes the District should move forward with the .4 increase proposal, get Legislative approval, and asked if staff wants to do this, is it something staff likes? Mr. Lee

responded that he has reservations relative to the timeline and the need for the voters to approve a millage in the spring that is for salaries; and he stated what he believes the District will face if this is not addressed soon. Mr. Rachal also shared his concern for the number of people voting to increase property taxes and they are not paying taxes since their property of less than \$75,000 in value is exempt from property taxes. Mr. Rachal asked staff for numbers of taxing districts and the number of schools outside of the city limits of Shreveport. Dr. Goree noted a previous conversation relative to the combination of a sales tax increase and a reduction of property taxes, and Mr. Ramsey reminded everyone that is exactly what the agenda item is for today and comments and questions should be about these possible proposals.

Mr. Schlueter explained what the sales tax monies can be used for, that Legislative approval should be a routine approval allowing the school board the flexibility to present a proposition to the voters as to what it will do with these funds in less than 200 words. This proposition can incorporate a broad spectrum of funding possibilities, i.e. salaries, operations, capital improvements, maintenance, etc., and he encouraged them if going this direction to make it a perpetual tax so it does not end. Dr. Goree asked for clarification and if the proposition can be written so that in the event it does not pass, it does not mean there will be a reduction. Mr. Schlueter said it should be written so that the district can get the security of the entire 1% and make sure there will be ample funds to do what is necessary. Dr. Goree asked Mr. Schlueter about sales tax being a regressive tax and the property tax an aggressive tax and the types of push backs across the state. Mr. Schlueter explained that those who have a balance tend to be successful in passing these. Mr. Rachal asked about the possibility of the passage of the sales tax being subject to the reduction of property taxes. Mr. Schlueter shared what another district did to be successful in seeking a successful tax increase, as well as what DeSoto Parish did when they received the Haynesville Shale funds.

Mr. Abrams asked about perpetual and if the thought is to put the millage renewals and the sales tax increase on the same ballot, and Mr. Schlueter stated that he understands the millage renewals are on the ballot for April 2nd and nothing can be placed on the ballot now absent legislation in the spring, thus the earliest this election can be on the ballot is the fall of 2016. Dr. Goree stated that with the trust factor in the community, he believes you handle this by allowing the millages to expire, and he doesn't believe anyone is comfortable with that approach.

Mr. Schlueter also highlighted what must happen in preparing to introduce appropriate legislation, getting approval before drafting a proposition to present to the voters.

Mr. Ramsey asked Mr. Schlueter and Mr. Lee to build a document of the pros and cons as well as the options we have based on the discussion today, looking at the sales tax rate of neighboring parishes also. When this information is available, the Committee will meet again to receive and discuss this information. Staff believing the information can be put together by mid-August, Mr. Ramsey announced the next meeting of the Long-Range Planning Committee will be August 18, 2015 at 2:00 p.m.

Adjourn. *Mrs. Douzart moved, seconded by Mrs. Shalanda Swift-Watkins, to adjourn. Vote on the motion to adjourn carried at 2:55 p.m.*

August 4, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, August 4, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Larry Ramsey, and Shalanda Swift-Watkins. Dr. Lamar Goree, secretary, and Reggie Abrams, legal counsel, were also present. Mrs. Locke led the prayer and Pledge of Allegiance.

President Riall announced that Barry Rachal is absent because of a family emergency.

PRESENTATIONS

Strategic Plan. Re-Imagine Caddo: The Plan for Excellence. Superintendent Goree presented the strategic plan for Caddo – Re-Imagine Caddo: The Plan for Excellence. He shared he brings this plan whose purpose is to increase academic performance and everything in the plan (each action step and objective) does affect academic performance. Dr. Goree stressed that this is a working document and is a road map to be successful; however, if at any point it is determined that it is not moving in the best interest of the District, it can be modified and adjusted. He also noted that this plan does not require additional funds and everything in the plan works within the current budget structure of the District. The superintendent stated that the intent is to be as transparent as possible and that the very best information is presented to the community and there will be an external evaluation method for determining that the plan is effectively implemented. The community will continue to be the District's on-going partner, and there will be numerous opportunities over the next 3-5 years for the community to have an active voice in the plan as it is implemented.

Relative to the process, Dr. Goree highlighted the steps that began in July of 2014 when the Board selected Evergreen Solutions to facilitate the plan and process. In August-September 2014, the District committee comprised of community persons, teachers, principals, maintenance, cafeteria workers, et.al., was formed to work on the development of the plan, and community meetings were held offering all citizens the opportunity to share and provide information that would be used in developing the plan. In October-December of 2014, the consultant interviewed focus groups, and by having an outside consultant, we were able to receive uncensored, unfiltered information. Also during this timeframe, community meetings, as well as additional committee meetings, were hosted to receive feedback from the September meetings. In January-June of 2015, Dr. Goree reported that the committee worked through the goals and began to craft measurable objectives and action steps of the plan, as well as formed subcommittees to include yet additional community members in the process. In July of 2015 a draft of the plan was released to the public to allow another opportunity for all 250,000 citizens to provide input in the plan; and staff worked to integrate as much of the feedback as possible into the plan, and will continue this process in moving forward.

Superintendent Goree stated that one of the first things the committee developed was the "Mission" and "Vision" and clarified that the "Mission" Statement is where you see yourself within this school year, and the "Vision" Statement is where you see yourself in five years. The Mission Statement agreed upon as a group for the District is *Caddo Parish Public Schools is dedicated to preparing students for the future, developing the whole child academically and socially – in collaboration with families and the community.* The Vision Statement for the District agreed upon is *All students in Caddo Parish Public Schools will become life-long learners equipped with the skills, knowledge, and attitudes to succeed as productive and responsible citizens in a local, national, and global society.* Dr. Goree stressed to everyone how much thought went into developing the Mission and Vision Statements.

The superintendent highlighted the seven goal areas as follows:

- 1. Academics --** Provide rigorous, well-rounded instructional programs that accelerate academic opportunities for every child by reducing the achievement gap, ensuring every student graduates college and/or career ready

Goals and Objectives

- K-2 Literacy – Increase the percent of students in grades K-2 performing at or above grade level as measured on the district reading assessment (DIBELS) by improving the quality and accessibility of early learning programs available for children from age 3 to kindergarten through a District universal application process and provide instructional frameworks and coaching.
- 3-8 English Language Arts (ELA) and Mathematics – Increase the percentage of students in grades 3 through 8 scoring proficient in English-language arts and mathematics by 12 percent by implementing data-driven instruction (DDI) practices including assessment item analysis, teacher data meetings, instructional action plans and feedback loop, and implementing RTI including frameworks for core instruction and intervention groups.
- Graduation Rate – Increase the high school graduation rate by 10 percent by 2020 through monitoring and tracking all potential high school graduates’ academic progress to ensure on-time graduation and plan for and launch, in collaboration with workforce, post-secondary and community partner agencies, a virtual learning option that includes coursework, training and college e-learning.

- 2. Family and Community Engagement –** Leverage community resources to strengthen family and community engagement in supporting student and school success.

Goals and Objectives

- Parent Involvement and Community Engagement – Develop and implement a plan to increase parent involvement while also increasing opportunities for meaningful collaboration with the community by creating “parent universities” to educate parents regarding curriculum and resources available, forming a parental and community engagement ad hoc committee chaired by a CPSB staff member to review and recommend policies and procedures, and determine campus needs through a needs assessment for community partnership opportunities.

- 3. Marketing and Communication –** Earn community trust and support for Caddo Parish Public Schools

Goals and Objectives

- Earn community trust in Caddo Parish Public Schools as measured annually through a survey of parents and stakeholders by hosting an annual “State of the District” event that includes the release of a published report on district progress, developing and utilizing a multi-year marketing plan to communicate a positive and realistic view of Caddo Parish Public Schools, forming an ad hoc committee encompassing a variety of stakeholders, and developing and implementing a transparent process for community input regarding decisions that affect school closings/consolidations, bond initiative, day to day operations, etc.

- 4. Human Resources and Professional Development –** Develop and implement a multi-year plan that will address recruitment, development and retention of personnel.

Goals and Objectives

- Vacancies - Reduce vacancies by 10 percentage points annually using the October 1 count by increasing early commitments from potential employees, consistently using data and workforce indicators to align resources, visiting surrounding universities for continued recruitment and organizing and facilitating semi-annual job fairs.
- Highly-qualified applicants – Increase the percentage of highly-qualified (as defined by the LDOE) applicants hired by five percent annually by providing a Praxis preparatory program for prospective teachers and re-certifications, creating a forum with universities

for input on teacher preparation, certification requirements and staffing needs and providing online application system training to school-based administrators.

- Retention of certified and classified employees – Increase the retention of certified and classified personnel within the 3-year range of employment by establishing mentor/mentee relationships in workplace settings for all new hires, and developing and routinely surveying new employees on matters of needs and climate satisfaction.
- 5. Innovation and Technology** – Re-imagine and reinvent learning environments that prepare all learners with the skills and capacities for 21st century citizenship, global awareness, creativity, collaborative problem-solving, and self-directed learning.

Goals and Objectives

- Science, Technology, Engineering, and Math (STEM), Project-based learning, and Model Programs – Quality specialty programs will be developed and implemented beginning with five pilot schools and reaching full implementation within five years by researching, studying and visiting successful models; following development and launching cycle for rollout; and providing training, support and coaching to school program personnel.
- 6. Operations** – Provide a safe, clean, and efficient environment which enriches the neighborhood and ensures an excellent educational and operational experience for all of our students, staff, and visitors.

Goals and Objectives

- Buses on time – Transportation will provide 98 percent daily average on-time delivery of students to and from school by reducing bus repair backlog, maintaining 13 percent available substitute bus drivers, reducing at-fault bus accidents, and reporting weekly on-time delivery.
- Maintenance – Unexpected school facility repair work orders will be kept at a level below 50 percent by developing preventative maintenance schedules, using maintenance software to monitor percentages of work orders received as “reactive,” “preventative,” “predictive” and “planned”; and augmenting shifts for night activities.
- Energy costs – Annual energy costs will be reduced by 10 percent by identifying top 10 highest energy users, establishing a formal process for conducting energy audits of each school and providing audit information to school principals and head custodians, and reducing the number of temporary buildings.
- Vacant buildings – Develop action plans for the use of all abandoned school structures by assessing all vacant buildings on an annual basis; and any buildings or structures meeting this objective will undergo the following process of evaluating structural integrity, determining future needs, identifying possible community use by meeting with community groups and presenting a plan to the Board if found to be viable.
- Capacities – The district will attain an 85 percent minimum student capacity level at all of our school facilities by analyzing student population shifts through a demographic service provider, developing a web-based portal for student demographics, reviewing mobility rates and presenting an annual report to the Board.
- Security – Physical security of each site will be upgraded and improved, leading to a 10 percent reduction in property-related crimes and security incidents by adding access control at all school levels, upgrading alarm systems, and upgrading and adding cameras.

Following Dr. Goree’s presentation, President Riall opened the floor for questions from Board members.

Mrs. Douzart reiterated the need for a plan for teachers who are struggling, as well as for substitute teachers. Dr. Goree stated that Caddo’s philosophy is we value everyone in the system, so when looking at increases, it will be done across the board. While that is not a commitment with subs and sub pay, they do look at the practice when looking at it across the board; and they do so because we recognize that the bus driver, the cafeteria worker, teacher assistants, etc. are all very valuable to what the teacher does in the classroom. Mrs. Douzart complimented Dr. Goree on the great comprehensive plan.

Mrs. Poljak asked about the measurements for the increases and how will they be measured, i.e. high school graduation numbers may have increased by 50%, but the actual analysis makes it appear a much smaller percentage and she doesn't believe the public realizes the strides these schools have made. Dr. Goree stated that because this is a living document and the community will continually be engaged, he believes there will be many opportunities to share examples and provide answers to questions such as what it means to increase graduation rates by three percentage points. Also, there is a certain threshold of improvement where the State will come in and audit what is being done, so the goals set are very realistic, attainable goals; and it will be necessary to spend some time explaining this to the stakeholders. Mrs. Poljak stated that she only wants the public to understand the gains we are making and to get the credit because some of the gains in the Transformation Zone were enormous, but the numbers in the report do not reflect the gains as enormous. Dr. Goree explained the graduation rate in which the school grade is based on lags one year behind, so information on what was done in our high schools this past year will not be the data used for grading this year, and he agreed this information needs to be shared with the stakeholders.

Mrs. Brown shared that in an attempt to revitalize their neighborhood, they (the children) will be working to clean up around Booker T. Washington, West Shreveport, etc.; and she asked if maintenance workers could be encouraged to not leave grass cuttings in the street. Mrs. Brown also stressed the importance of the community partners and involvement in the schools. She also commended the staff on the new appearance of West Shreveport.

Mrs. Bell asked about the partnership with Pathways and if we will be partnering with Southern University as well. Dr. Goree clarified that he only used Pathways as one example of how we have increased graduation rates; and in looking at the partnership with Southern University and what the Jump Start initiatives have created, we will continue to look at everything we have to offer in order to make certain students have an opportunity to be successful. Mrs. Bell also asked about the partnership with LSUS in hiring new teachers and how we will recruit from LSUS. Dr. Goree explained that the District has relationships with several area colleges; and we will look to strengthen those relationships and look at where we are actually successful in recruiting teachers, i.e. we don't see as many recruits from Southern University and Louisiana State University in Baton Rouge because the majority choose to stay in the south Louisiana area. Thus, staff will look closely at where we spend our time and resources. He further stated that we will also look at how we can use social media, on-line application process, and creative ways to advertise positions so as not to limit ourselves to staff in this region. Dr. Goree noted the number of baby boomers that are approaching retirement and the importance of the District being prepared over the next five years to meet the needs. Mrs. Bell also shared her heartache about cell phones in the classroom and asked if we have placed in the student handbook the restrictions when it comes to cell phones in the classrooms, and do teachers understand they will be in the classroom. She also asked if principals have been instructed to share at back-to-school meetings that cell phones will be used in the classrooms. Dr. Goree responded that staff has met with principals and principals provided with a copy of the handbook. Principals will now conduct professional development on their campuses this week and present rules to the teachers and the teachers will relay that information to the students and parents. Dr. Goree stated he will ask the area directors to insure that this is done; and he will also bring to the staff and Board training on effective use of technology in the classroom; as well as information on schools that are making great strides in using technology to change the view of learning in the classroom. He reported that three principals attended a symposium over the summer in Washington, D. C. relative to embracing digital learning to change classrooms.

Miss Green asked about seeking highly qualified teacher applicants and providing them the opportunity to receive help with the Praxis. Dr. Goree responded that we do help with Praxis, but far from organized perspective and scale we want. He said we are beginning some things

that work into the plan by looking at staff that supports the teachers, but also looking at something on a much larger scale for supporting the teachers. He said it is not to say that everything in the plan is not happening; however, staff is looking to use this plan so there is a focus on what we are doing and not lose time doing other things. Miss Green said she has been telling people we do have the program, and Dr. Goree restated that there is a program through Mrs. Gallant's professional development. Dr. Robinson added that not a request for assistance is turned down; and while we may not have a program to the extent of addressing real concerns, if someone needs help with the Praxis, staff makes certain they get that help. Miss Green also noted how well West Shreveport looks and her wish for the same in her area. She also asked about Building 6, and Dr. Goree said that will be a vacant building staff assesses this year relative to the District's needs; and works with the Board and community to determine possible future uses. He noted that it is commercial property, and he believes the conversation will be to sell the property for additional revenue for the school system. This will be a part of the assessment done on all vacant facilities. Miss Green shared the opportunity to visit Newton Smith, and asked if, since we lease some of the classrooms out to SUSLA, we will lease any unoccupied classrooms in the back of the building. Dr. Goree said there have not been any conversations regarding this and no one has approached the District about leasing that part of the facility; however, if someone approaches us about leasing the additional square footage, we would have that conversation. Miss Green asked what will happen if no one approaches about leasing; and Dr. Goree said he believes it important on the leased properties to go through the annual process of working with the Board member and the community relative to future uses of these facilities for office space or for educating children. Miss Green asked if there is any need for additional office space, and Dr. Goree responded that as of today there is not. Miss Green asked about who will occupy West Shreveport, and Dr. Goree responded that RTI persons, Division of Exceptional Children and Student Services personnel are located at West Shreveport. At this time, Dr. Goree stated he does not know the capacity or if it is at full capacity, but he will be glad to get that information.

Mrs. Locke thanked the staff for their diligence in being so transparent in this process and for sending all the public comments to the Board, which she did read. She also noted receiving a compiled list of comments by category; and after hearing Superintendent Goree's presentation, she is very comfortable with the staff's direction in making the changes. She asked what will be the organized plan to follow the plan's implementation and for the Board to be updated on a regular basis. Dr. Goree thanked the community for the wonderful job in responding, and there were many positive comments. He added that 99% of the people in the City are rooting for Caddo Public Schools and 99% in the System want to be successful. From a transparency perspective, Dr. Goree said it is very important that we are as transparent as possible; and in the process, he began conversations with local persons with expertise in this area that will provide external support as well as evaluate how effectively the plan is implemented as we move forward. The plan of action will be designed to where they will come before the Board two times a year with reports on each division and how each is progressing. He assured the Board that there are no final contracts at this time, but the persons he has in mind will be honest with the Board and will tell staff where improvement is needed, and that is because they too have a very strong interest in the School System being successful. Staff wants to be held accountable for everything in the plan. Mrs. Locke asked if, as meetings are being held and decisions made, for example on the 85% student ratio, it will be brought to the Board's attention that it is in line with the strategic plan. Dr. Goree added it's real important in moving forward to have someone ask the question, when ideas arise, how does an idea support the strategic plan; and he encouraged the Board, the staff and the community to continue to ask this question to keep on track with the aggressive goals included in the plan.

Ms. Trammel asked for a copy of the Student Handbook as soon as possible and that staff make sure school names reflect what curriculum is being taught in the schools. She also asked about the proposed Parent University and if the education we provide parents will be one that helps

them to become better educated. Dr. Goree responded absolutely, and Ms. Trammel shared a program learned of at a conference where the parents were in the classroom with the children to participate in the learning process. Ms. Trammel also reiterated the importance, as we implement cell phones in the classroom, of information on implementation and use being in the student handbook and that teachers, parents and students are aware of the rules. Dr. Goree assured the Board that he would get with Mr. Burton to make certain the area directors are aggressively communicating this.

Mr. Green expressed how impressed he is with the plan presented and in looking at other ideas, he stated the importance of job fairs and salary fairs because neighboring districts are holding these; and if our salaries are not competitive, it will be difficult for Caddo to employ the best teachers and other school employees. He also encouraged working with the community, the parish, the teaching staff, etc., in hopes of becoming one of the top five districts in the State so when attending our teacher fairs and learning the benefits Caddo has to offer they will not choose to teach in another district because of the salaries in Caddo. Mr. Green commended Dr. Goree and the staff for the excellent job being done; and he hopes the community will rise with him as he presents these programs and needs to them. He also shared that he likes the instructional program and it is what we need to do an effective job; but, he questions if the materials and personnel will be available if we continue to lag behind with salaries.

Mr. Ramsey commented that when he voted to rebuild/refurbish facilities in order to move out of Building 6, his perception was that the building would be for sale; and he believes this was included in the budget projections and process. At this time, if there are any other plans for that building, he would like an explanation from staff. Dr. Goree responded staff does not have any other plans for that building. Mr. Ramsey also stated his desire to hear more discussion on how we will engage social media and how we will be transparent as we move forward. He asked staff if the committees are still in place, and Dr. Goree responded they are and will continue to meet throughout the year. The superintendent stated that in the full plan there is more detail on the multi-year plan on how we plan to market the System; and having met some social media records recently, i.e. Huntington's band, we will continue to use social media to brand the school district. He also stated that he attended a symposium this summer that addressed branding your district, and there will be very intentional efforts on branding and marketing our School System. Mr. Ramsey stated that he has always felt the problem is we have allowed others to brand our district and little to do it ourselves, and he believes it is time we do a better job.

Mrs. Watkins commended the Superintendent on the presentation and she asked if there is anything in the plan for tutoring facilities throughout each area for students to receive much needed help. Dr. Goree explained this is a part of the RTI process in the Academic plan where we are providing interventions, tutors, coaches who are working with students to achieve, and how well we intervene early by providing these opportunities.

President Riall thanked Dr. Goree for his leadership in this Strategic Plan, as well as the many representatives from the community organizations and the staff who participated in the planning committee/sub-committees. Mr. Riall noted that as a member of the Finance Committee, one of the things they made a great effort in was establishing goals that were measurable.

Mrs. Brown, in response to Mr. Ramsey's comments, stated that social media is not a problem for students, but for the older adults; and noted that it has been an adjustment coming from the School System to stay in her "lane" as a Board member, but the principal at Booker T. Washington High School has given her the opportunity to set up a mentoring program for middle school boys. She said these students need all the help they can get, and she encouraged Board members to do what they can to help them. Mrs. Brown asked about clarification on relocation of the Homeless Department, and Dr. Goree stated that this department will move to Central.

Superintendent Goree expressed his appreciation to the community, the committee and sub-committees and announced they will be invited to the Board meeting on August 18th. He also stressed that he has learned the one common thread throughout the community is academic performance; and he has charged his staff to support what is happening at the schools. Dr. Goree stated that as it is implemented, this plan is not one to prevent schools from being creative and doing what is best for the students in the schools, but a plan to help us make sure we are appropriately supporting the schools.

ESTABLISH THE AGENDA FOR AUGUST 18, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the August 18, 2015 CPSB meeting and the following discussion ensued.

Approval of Mental Health Interagency Agreements and Contracts and Interagency Agreements and Contracts for Department of Exceptional Children. Mrs. Locke asked if there is a cost associated with these agreements/contracts. Mr. Abrams explained there is no cost to the district for the special education (Department of Exceptional Children) because these agreements are for agencies to provide services and the fees for their services are charged through Medicare, Medicaid, etc. These agreements/contracts allow them to be in our facilities and provide treatment options at the school sites. Also, there are children in day care centers that we must provide services, so there is an agreement with the day care centers for providing services to the students at no cost.

Approval to Demolish Old Principal's House Located on the North Caddo Campus. Mrs. Bell asked for clarification on this item, and Mr. Riall explained that this house was built on the North Caddo campus in the 1950s to provide an incentive for a principal to move to North Caddo. At this time, the City of Vivian is having a community clean-up; and because of the deplorable condition of this house, it is in need of being torn down.

Mr. Riall recommended Items 7.01, 8.02-8.06, 8.08-8.09 as the consent agenda. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the agenda and proposed consent agenda for the August 18, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jon Glover reverbalized Proverbs 22:6 to train up a child in the way he should go and when he is old he will not depart, and that in the effort to do so, we must educate a child. She referenced sharing with each Board member their individual district's grade which was not good in many aspects. She added that even though new data is not available to mirror against these grades, she is concerned in the plan how students will manage rigor if students are not getting the basics. Ms. Glover stated she knows the plan is designated and designed to deal with what is in our future, but she wonders about the children who are not achieving today since the plan does not address that. She feels as if we are dismissing the need for these children collectively. While we want all the children in Caddo Parish to be successful, to gain that success, equality of resources must be expended for all schools. If we do not address that issue, she questions our purpose. She said we can no longer accept children falling further and further behind by implementing newer and newer plans when the plans already demonstrated are not doing anything for our children. She encouraged the Board to manage and look at what needs to be done to address the needs of these children; because if we do not, we will not be the top quality school district we want to be, one that brings forth sound academic success for every child in Caddo Parish.

Jackie Lansdale, president of Red River United, referenced the HR section of the Re-Imagine Plan and how pleased she is with how HR worked this year to make sure teachers were placed. She also shared her concern about the policy that every new employee must be paid within 30

days, and today Professional Development staff told new teachers they would not get paid until September 15th. She said the Board made an effort by establishing policy to address this and asked that the Superintendent makes sure this happens. Lastly, regarding her feelings expressed at the last meeting on the policy regarding observations and what the law states, she announced BESE is having a conference call on Wednesday with the State Superintendent of Education because BESE sees a variance between the State law and Bulletin 130.

ANNOUNCEMENTS

Dr. Goree announced that the annual “Ring the Bell” ceremony will be at 9:00 a.m. on August 11th, the first day of school, at Turner Elementary School and encouraged anyone interested to attend. He also stated that being an 8th grader at Turner the first year it opened, he encouraged anyone that was a member of the inaugural staff to attend as a special guest on that day.

Mrs. Bell stated as one of the first year teachers at Turner, she will attend. She thanked Dr. Goree and Board members for input, because Caddo is number one and she sees progress. Mrs. Bell also noted the many positive things going on in Caddo as well as those that only need a little more push and support. Mrs. Douzart reiterated Mrs. Bell’s comments.

Mr. Riall expressed appreciation to Steve White and Tommy Smith for their efforts in dealing with plant issues at North Caddo High School.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:00 p.m.*

August 18, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, August 18, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Shalanda Swift-Watkins and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Locke led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JULY 28, 2015 AND AUGUST 4, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the July 28, 2015 and August 4, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Westwood Elementary Ranch. The Westwood Elementary Cowboy and Cowgirl scholars, under the direction of Westwood Elementary Deputy of the Year Kalinda Rogers, presented "The Essential 55 and Add It Up" songs. Mr. Strother stated it is through the incorporation of music and movement in the Physical Education program that the scholars have mastered essential Common Core standards in Language and Math, as well as life skills.

Glen Bullard, Bossier Parish School Board President and LSBA District 5 Director. Glen Bullard, LSBA 5th District Director, encouraged Board members to enhance their participation in LSBA; and he announced that in the next few weeks fall trailblazers are scheduled in Lafayette, September 18-19, and in West Monroe on September 28. Also, a one-day workshop will be held in Baton Rouge on November 2 and regional District 5 meetings held in late September or early October, one in Natchitoches and one in Bossier or Webster Parish. Mr. Bullard also shared information on requirements for receiving the LSBA Certified Board Member designation or the Distinguished School Board Member award implemented last year. The Certified Board Member award is presented to Board members completing 20 hours of CLUs each year for four years. The Distinguished School Board Member award was authorized by the Legislature and handled by the Department of Education who transferred the responsibility to LSBA. He further explained that a board member earning four years of CLUs (16 hours in 2015 and 6 hours in each year following) qualifies for the Distinguished School Board Member award. Mr. Bullard stated he represents the school boards in this area and wants his vote to reflect the wishes and desires of those school boards, thus he encouraged board members to share with him any issues of importance. Mr. Rachal expressed his appreciation to Mr. Bullard for addressing the Board.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: (1) Jimmie Scott Britt and (2) Tracey Frias, pupil appraisal facilitators in the Department of Exceptional Children; (3) Joan Whitesides, Instructional Team Facilitator (Gifted/Talented), Department of Exceptional Children; (4) Desiree H. Alexander, Instructional Technology Supervisor, Department of Professional Development/Grants; (5) Sandra Mack, assistant principal, Shreve Island Elementary; (6) Christopher Jackson, assistant principal, University Elementary; (7) Melanie Randall, assistant principal, Lakeshore Middle; (8) Bridgette Brown, assistant principal, Huntington High; (9)

Donna Lonadier, assistant principal, North Caddo High; and (10) Dr. Darrell Webb, principal, Turner Elementary 6th Grade Academy.

VISITORS

Lester Mitchell, parent, stated his daughter attended Fairfield Elementary Magnet for four years, and passed the magnet program test. She is being forced to attend Youree Drive and tried to send her to Herndon. Mr. Mitchell said he has followed procedure up to the Superintendent and is not getting any response. Mr. Riall asked the superintendent to follow up with Mr. Mitchell.

Shannon Sullivan, Red River United, thanked administration for forwarding board policies relative to professional organizations to hopefully clarify concerns relative to rights for access, bulletin boards, boxes, faculty meetings and after school meetings. She highlighted an incident that created some confusion when emails were sent and forwarded to work site leaders who felt they were being reprimanded for possibly violating policies. Ms. Sullivan stated the request to send the policies for clarification came as a result of specific violations on the part of principals.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration, and Mr. Riall announced that the following items are the consent agenda: 6.02-6.03, 7.01, 8.01-8.02, 8.04-8.08 and 13.01.

Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and the proposed consent agenda for the August 18, 2015 CPSB meeting as submitted. Vote on the motion carried with Mr. Ramsey not present at the vote.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell to confirm the consent agenda (Items 6.02-6.03, 7.01, 8.01-8.02, 8.04-8.08 and 13.01). Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Personnel Transaction Reports. The Board approved the personnel transactions reports (resignations) for the period of July 1-31, 2015 as recommended by the superintendent and submitted in the mailout.

6.03 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing Bids. The Board approved the following bid as recommended by the superintendent and submitted in the mailout: Tri-State for the purchase of vehicle batteries. *A copy of the bid tabulation sheet is filed in the official papers of the August 18, 2015 CPSB meeting.*

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved a request for long-term use of the University Elementary cafeteria as recommended by staff and submitted in the mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.04 Approval of Interagency Agreements and Contracts for Department of Exceptional Children. The Board approved the interagency agreements and contracts for the Department of Exceptional Children as recommended by the superintendent and submitted in the mailout.

8.05 Revision to CPSB Policy JR (Student Records). The Board approved the proposed revisions to CPSB Policy JR (Student Records) as recommended by the Board attorney and the superintendent and submitted in the mailout.

8.06 Approval for Naming the Fair Park High School Gymnasium in Memory of Coach Clem Henderson/Honor of Coach Ron Preston. The Board approved naming the Fair Park High School Gymnasium in memory of Coach Clem Henderson and in honor of Coach Ron Preston as submitted in the mailout.

8.07 Approval to Begin 90-Day Process for Naming the A.C. Steere Library in Memory of Dan C. Waters. The Board authorized staff to begin the 90-day process for naming the A.C. Steere Library in memory of Dan C. Waters.

8.08 Approval to Demolish Old Principal's House Located on the North Caddo Campus. The Board authorized staff to move forward with demolishing the old principal's house located on the North Caddo campus.

Item No. 13

13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for students JB, TM, NN, SS, and IJ as submitted in the mailout and whose parents are in agreement.

APPROVAL OF MENTAL HEALTH INTERAGENCY AGREEMENTS AND CONTRACTS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the mental health interagency agreements and contracts as recommended by the superintendent and submitted in the mailout.

Mrs. Brown noted that one of the agencies, Brighter Futures, has seven locations in the United States, four of which are in the local area. She asked staff to confirm we are not using the agency currently in litigation. Dr. Goree said staff will confirm all agencies used are in good standing.

Vote on the motion carried unanimously.

STRATEGIC PLAN – RE-IMAGINE CADDO: THE PLAN FOR EXCELLENCE

Mr. Rachal moved, seconded by Mrs. Bell, to approve the Strategic Plan as submitted.

Mr. Rachal asked staff to explain no additional cost for the item to continue to increase the balance of post-employee benefits. Dr. Goree explained that the document referenced speaks to the financial cost associated over the next year with the implementation of this action step and it means we will go through a process to look at how we can increase it.

Mr. Rachal stated the STEM Program originally had five pilot schools; and he asked if there is an order for implementation now that it is 5-10 pilot programs. Dr. Goree explained that as staff

looks at schools they will look at the principal's interest, the school's interest as well as teachers; and hopefully, in time this will be an across-the-board initiative. At this time from the perspective of the schools that have been exposed to conversations and research, University, Turner, Werner Park and Sunset Acres elementary schools are being considered.

Mr. Rachal also asked about the cost for the item to purchase data management systems to be used for interim assessment analysis, RTI focus quiz analysis, etc.? Dr. Goree explained in the formation of the document presented there was already a budgeted cost and there is no additional cost above the current budget. Mr. Rachal also asked about the cost for addressing strategies for procurement, maintenance and adequate technical support in upgrading of hardware and software. Dr. Goree responded it is already a budgeted cost. Mr. Rachal stated he believes it is critical for the staff, teachers, community and Board to know what the long-range goals are so every decision made lines up with those goals. This is a priority list for what we need to do and to allocate our time and resources accordingly. Dr. Goree noted his appreciation to staff and the many community persons that devoted much of their time on the development of this plan.

Mr. Ramsey stated that the Board has always received a District Plan, but the details in this plan and the effort put forth from staff and community members has provided a document we can work with over the next 3-5 years.

Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Dr. Goree announced everything presented is for the Board's information. He again thanked the community, staff and Board for the hard work over the past 13 months to get to this point; and he believes the extra time and effort put into the plan will set the District up for great success.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell applauded staff for the Student Handbook which provides parents everything they need.

Miss Green commented on the opening of school and the number of phone calls she received. She thanked staff for handling the needs of District 2 in a courteous and professional way.

Mrs. Brown echoed Miss Green's comments and how pleased she was with what she saw at Booker T. Washington High School.

Ms. Trammel stated that District 6 opened with very few snares and commended staff for the outstanding job being done in the schools.

Mr. Green stated he visited each of his schools; and if what he saw in the school performing today is any indication of what this school year will be about, it will be an outstanding year.

Mrs. Watkins commended the superintendent and the CPSB staff for the outstanding Ring the Bell ceremony on the opening day of this school year. In visiting her schools she was very pleased with how she was treated and that everyone was doing the job they were given to make the opening smooth and successful.

Bonita Douzart echoed the comments of other Board members regarding the opening of school and the time and effort that was put into making the start of school great.

Steve Riall thanked Colonel Sweeney and Colonel Sanford for providing the Northwood JROTC to post the colors at the Shreveport Air Radio Society's fly-in to benefit the wounded warriors' project. He also announced that athletic passes for Board members are at individual stations.

Appreciation was extended to Otis Jones and the Transportation Department for their efforts in working so hard to make the opening of school a success.

Adjournment. *Miss Green moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried unanimously and the meeting adjourned at approximately 5:43 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

September 1, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, September 1, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and Shalanda Swift-Watkins. Chief of Staff Dr. Mary Nash-Robinson and Reggie Abrams, legal counsel, were also present. Mr. Rachal led the prayer and Pledge of Allegiance.

PRESENTATIONS

Caddo Career and Technology Foundation. Gard Wayt, president of the Caddo Career and Technology Scholarship Foundation, addressed the board on the scholarship program and the benefits it has brought to the students at the Caddo Career and Technology Center. Mr. Wayt recognized it was Ron Adams who began the scholarship program in 1995, and he brought greetings from the Foundation's Vice President David Barr. He announced that the 2015-16 scholarship award program will be held on April 28, 2016, and forty \$2,000 scholarships will be awarded. He said these scholarships are provided through contributions from members and businesses in the community that support what is being done at the Career Center. Mr. Wayt noted that the Caddo Career and Technology Center is unequalled in the country for the quality of training provided to over 800 students this school year in 25 subjects that will prepare them for the workforce or education beyond high school. To date, 569 scholarships, representing a total value of \$980,000, have been presented to graduating seniors attending CCTC since the program began, and Mr. Wayt invited the Board members to attend this year's program on April 28th.

Step Forward. Laura Alderman, executive director of Step Forward, the education-centered initiative under the umbrella of the Community Foundation of North Louisiana, shared an overview of Step Forward's mission and how they are working to improve the community through efforts in collaboration with districts such as Caddo. She shared that in 2014 over 51% (3,013 students in a four-parish region) of kindergarten students arrived at school not ready to learn, meaning they were behind before they walked into the school on the first day. She also noted that 33% (1,900 students in a four-parish region) of the third grade students were not reading proficiently by the end of the third grade; and over 25% (1,467 students) of 9th grade students are not completing high school on time with their peers. She explained that Step Forward is a cradle-to-career initiative designed to improve child outcomes, a pathway to success into adulthood; and noted critical developmental points where children can fall through the cracks if there is not a safety net to provide the additional support they need, i.e. kindergarten readiness, early grade reading, middle grade math, high school graduation, post-secondary enrollment and post-secondary degree completion. Ms. Alderman also explained that collective impact is a team approach to making change, and Step Forward desires to change the outcomes for the children and improve the statistics. She reported that she represents over 500 individuals and organizations in Northwest Louisiana who are ready to assist the School District in its work; and there are currently four teams in place representing early childhood, early literacy, youth civic development and workforce development. She also provided written information on each team's projects. The cradle-to-career report card for Northwest Louisiana was also shared with the Board and Ms. Alderman added that Step Forward is committed to publishing the statistics/indicators for child welfare annually for the region. She also explained it will never be the goal of Step Forward to point fingers or blame, but only to develop evidenced-based projects that are evaluated by data to work toward improvements in the critical areas; because they want to make population-level change and not just improved outcomes for one school, but for 121 schools in four parishes and 74,833 students between the ages of birth and 18. Believing the success of the community is dependent upon the success of the children, she stated everyone has a stake in insuring the success of the future workforce and leaders who will be making decisions

on our behalf in the future. Ms. Alderman also, on behalf of Dr. Jim Henderson, chair of Step Forward, and the 500 individuals and organizations they represent, recognized Caddo Parish for their improved cohort graduation rate for 2014.

Truancy and Misdemeanor Center at Rutherford House. Clay Walker, director of Caddo Parish juvenile services, appeared before the Board to discuss the Truancy and Misdemeanor Referral Center housed at Rutherford House. Mr. Walker shared his experience on Saturday at Peaceful Rest Baptist Church where the Fair Park and Woodlawn high school bands came together reflecting no division and the power in that event. With many of the dropouts being the result of truancy, Mr. Walker stated their goal is to put together a truancy program that turns this around. He explained their two-part program, one is Volunteers for Youth Justice and the other is Rutherford House. Over the last four years, he said truancy has been reduced by more than 1,000 children, and it is their desire to see this number continue to decrease in the coming years. He also reported that if a child is truant, the referral comes from the district to them electronically, and they attempt to clear them up. If they cannot be cleared because of medical or some other reason, then the DA will serve them a petition to appear before Judge Matlock who begins to look at possible underlying problems. In the starting year, there were over 4,000 truants with only approximately 2,000 petitions, meaning there are no consequences. Mr. Walker stated it is important to include potential consequences in the program that could possibly deter others from getting to the courtroom. Highlighting the truancy numbers from last year (2014), Mr. Walker stated if additional data is needed, he will be glad to provide it by school, but only presented last year since it is the new baseline and there were so many changes in the numbers over the past three years. Mr. Walker explained that Volunteers for Youth Justice case workers work with individual families; and Rutherford House is the drop-off center for school-aged children on the street during school hours that are picked up by the police. Truant children are carried to Coach Kimble at Rutherford House and he does an assessment and contacts the parents. These two levels (the police getting involved and going to the Rutherford House and the judge) are the consequences needed in place in an effort to keep all students in school. Mr. Walker explained he is before the Board today because the State has cut the funding for the program. Because the program has been primarily funded by the State, the Parish Commission provided \$45,000 to keep it open during the summer months. The Misdemeanor Referral Center is the second component in the school and any child in the parish picked up on a misdemeanor is brought to this referral center which allows for not having too many students in detention, and the majority of the children that come to the referral center are school-based arrests. The average number of students brought to the referral center each year for the past three years is 380; and at this time, the students who have left the school buildings are to some extent the police's problem and are headed toward detention and to the judges (the parish's problem), but they are attempting to get the approximately 1,000 truant students back in school which will ultimately increase the district's MFP dollars. He added that they are approaching the City, the Parish and the School Board about coming together in a joint effort, because when students are truant, they are everyone's problem. Sharing this responsibility can be done by each entity committing \$60,000 toward what the State cut, and the \$180,000 will help maintain the center.

Mrs. Bell expressed appreciation to Mr. Walker for his presentation and asked why did the State cut this program? Mr. Walker responded that the mental health program was cut four years ago, and while he has tracked every student that has come into court, every sentence, every program assignment, charges, and school histories, at this time, he has no clear explanation why the programs were cut, especially with the data presented. He added that while no one has ever explained why to him, he believes it may be because State legislators are attempting to say there are certain things each jurisdiction must take care of itself, i.e. misdemeanor referral center as an alternative to detention that also handles truancy is a Caddo Parish issue. He also believes that Caddo's computer system is the most thorough in the State because no other district has 4,200 referrals. Mrs. Bell said she is an advocate for children and it concerned her when the word was that Caddo was not putting any dollars toward supporting this; however, upon checking with Mr.

Lee, she verified that the Rutherford House is state-funded, and the Misdemeanor Center is where the police drop off truant students and asked Mr. Lee how much does Caddo put into the Rutherford House? Mr. Lee responded that Caddo provides six teachers at Rutherford House, one teacher at the detention center, \$30,000 for Volunteers for Youth Justice for truancy, \$50,000 for fight diversion in the Security budget for a total of approximately \$550,000 a year. Mr. Walker also clarified that the Rutherford House runs group homes; and if a judge removes a student from the home, they can be moved to a juvenile prison (non-secure group home), and they are essentially a school for these students. Mrs. Bell said she wants to make sure the media understands that Caddo has been providing assistance, and she asked for clarification that the Misdemeanor Center is separate from this issue, and Mr. Walker said that is correct. Relative to the budget, Mrs. Bell said, being asked for \$60,000 from the Board, she would like to know about the children in Greenwood, Vivian, Oil City, and if the Shreveport Police Department is the only one picking up truant students. Mrs. Bell asked about the MFP dollars because when the budget was approved in June, she does not remember discussing this. Mr. Lee said the District receives an amount at the beginning of school based on the previous year's count. On October 1, the count will be adjusted up or down, and the same thing will be done in February, which could result in an adjusted amount received by the District. Mrs. Bell asked about the request for \$180,000 because she thought it was \$168,000 last year, and how this money is used, as well as the teachers Caddo provides. Mr. Walker said it is a different facility. With the budget being tight, these are some concerns she would like to see addressed in writing.

Mr. Walker responded that he is hoping long-term that this investment will reduce truancy by another thousand (bringing the total number of truant students to 2,000 over three years) which will make a return on the investment in the terms of MFP. He also offered to break down the \$180,000 being requested and explained that the separate facility at Highland and Olive is staffed from morning until 10:00 p.m. for male and female students. Gerald Kimble clarified that their facility receives students from all across the parish, and it is their responsibility to make certain the students are returned to their parents or a guardian. The referral center also deals with the schools, the JVC and the local police and sheriff's offices, and 97% of all the students received are from Caddo Parish Public Schools, a total of 2,391 students in the last five years. He said money is needed because at one time they had seven employees; and when the State began cutting it went down to three employees and they must have a female for transporting female students. Mr. Kimble provided an overview of what they do when the police bring a student to them, from securing all vital information (name, age) to their record/probation/arrests, etc. He further stated that Rutherford House is not a player in this operation, but is only responsible for the facility to house the students and should not be considered in the request being made for financial assistance. Mr. Kimble also reported that when students come to them, there are already problems and is yet another aspect they must address. Other issues are overcrowding, being a safe haven for referred students, etc., and there are three players in this – the schools, the center and the local law enforcement agencies. Mr. Walker added there are also those occasions where a child can be returned to the school by the police if they are not out of control and do not disrupt the school; but if the police determine the student will cause problems at the school site, they stay at the Rutherford House until the parent can pick them up.

Mrs. Poljak confirmed that the shortage is \$180,000 and the money will go to the Misdemeanor Referral Center and Mr. Walker said that is correct. Mrs. Poljak asked if she understands correctly that the Federal allotment per student is approximately \$4,000-\$5,000, and Mr. Walker said he is not clear on this but he has seen upwards to \$9,000 for special ed. Mr. Lee explained that MFP is state funding and it is a little less than \$5,000 per student. Mrs. Poljak asked if we can return 1,000 students to the District, isn't this approximately \$5 million back in the budget, and Mr. Lee explained staff would have to look at it because if they did not start out the year truant, but began the year in the District we will not get additional money for them. Mrs. Poljak asked could there not potentially be some students who have not been counted for which we could receive an increase to our budget if we capture these students back in the District. Mr.

Walker said his reference of 1,000 students is over the next five years and if we keep them from dropping out, it would mean additional monies for these students. At this time, Mr. Lee stated his hesitancy in stating how much in additional funds this would generate since many would have started and were included in the District's enrollment numbers. Mrs. Poljak asked if we count enrollment in October and in February and Mr. Lee said that is correct. She asked if the enrollment is counted both times; and Mr. Lee explained yes unless they have dropped or were removed from enrollment, and he is unsure what constitutes removal of a student. She also said that while \$60,000 is a lot of money, she believes when compared to the overall budget, it seems worth it when addressing crime in the community; and if possible, she would like to see it allocated. Mr. Lee reminded the Board that the positive board-approved budget is only \$80,000 and this would be a big chunk of that amount; and asked if the Board wishes to cut something to fund this. Mrs. Poljak asked for clarification that the largest number of truant students falls in the elementary and middle grades, and Mr. Walker said that is correct. She asked if these students are cutting school or are parents not taking them to school? Mr. Walker responded the younger the child, the more likely it is the parent's problem, and the older the child, it is likely the student's problem. Mrs. Poljak asked about consequences for the parents, and Mr. Walker stated parents can be fined up to \$250 and some jail time (which can be suspended if the parent gets the child in school). He said in a truancy matter, the judge has jurisdiction over the parent and can do a lot; however, they attempt to encourage and help the parents, and make the court inconvenient so the parents will prioritize and get their child in school.

Mrs. Locke asked if the \$180,000 is the full budget for both centers, and Mr. Walker responded it is, and it is for the Misdemeanor Referral Truancy Drop-off Center. Mrs. Locke asked Mr. Walker what will happen to these children if local funds are not provided? Ted Cox explained that four or five years ago he and the judge traveled to Baton Rouge and met with the Governor to convince the Governor about this great program and the annual \$300,000 needed. After review of the stats for this boot camp program, they were unable to convince the Governor to save this program, so he cut the program. He said at one time it was cut to \$68,000 and reserved funds were used at that time; however, last May it was cut to zero without any notice. Mr. Cox added that we are attempting to turn around kids and are actually in the business of raising kids, and in his first 1st Degree murder trial, the man began as a truant. Eighty percent of the individuals on death row began as truants; and he believes if we all don't invest in the children, we will continue to have problems with this gateway crime. Mr. Walker added that truancy is the first symptom of the underlying problems and it too oftentimes becomes delinquency and then matriculates to adult crime. He said this program is a safety net in which those involved might catch problems and hopefully turn things around before they become bigger problems. Mr. Walker further stated if the funding goes away, if a child is arrested in school and the parent is not at home, there will be more problems in the school building for the staff and the child will most likely be referred to detention. In detention, these students will spend time with students who are further down the wrong path, they will have a negative experience; and if they are not doing well in school and are not involved in additional activities (band, sports, etc.), they will be treated well at the detention center, but when they leave and return to their school, they then become the student who went to *Juve* and survived. Mrs. Locke asked Mr. Walker if he has a recommendation if the funding is not available, and Mr. Walker said the referral center was created in 2007 to fill a void and if the funding is not available, it will go away. Mrs. Locke stated that she understands the importance of the services offered for these students, but is only trying to work through the details; and she would appreciate understanding exactly where the \$180,000 goes. Mrs. Locke also asked if this funding request is for one year while looking for additional funding or is it something that will be requested yearly. Mr. Walker responded they hope it would be an annually budgeted amount.

Ms. Trammel asked about the information received and if it is truancy at large in Caddo Parish. Mr. Walker responded that is correct. Ms. Trammel stated her belief that it would be very helpful if the Board was given information specific to the Misdemeanor Center and what they are

doing, how many students, actual cost, etc. Ms. Trammel asked Mr. Lee how much in the black was the District when the final budget was approved? Mr. Lee stated approximately \$80,000. Ms. Trammel stated if the Board approves this \$60,000, does she understand correctly that there would be approximately \$20,000 left, and Mr. Lee said that is correct. Ms. Trammel said if it is possible for the District to find a way to do this even if it is not the full \$60,000, and Mr. Walker responded that the allocation of \$60,000 from each entity (total \$180,000) allows for a full staff, full time, male and female. Ms. Trammel noted her visit at the Center and the concern she has when parents say they can't come get their children. Mr. Walker explained that many times when the police call the parent they find a single mother working two jobs; and if they force the mother to leave their job and as a result the mother loses her job, it has not helped the family. Ms. Trammel asked if there is ever another emergency number to call, and Coach Kimble responded that when the police release a child, they call the parent; and if the parent is not home, but is at work, he will ask who else can pick up the child. When a designated person arrives to pick up the child, that person must provide a driver's license with a picture to identify them. Ms. Trammel stated if the parent is not held liable, does the responsibility then fall on the Center, the police or the school?, and Mr. Walker stated that is correct. Ms. Trammel asked Mr. Anderson, director of child welfare and attendance, to explain to the Board the impact if the Center is closed. Mr. Anderson responded that he would need actual numbers in order to accurately respond to her question. While he knows the District would be faced with some different circumstances; he does not know to what degree without looking more closely at the data.

Miss Green said she believes the presenters have answered her questions; however, she asked if she understands correctly that each entity is being asked to provide \$60,000, and Mr. Walker said that is correct. Miss Green asked about the next meeting of the Intergovernmental Committee, and Mr. Walker stated he believes the next meeting is the responsibility of the Caddo Parish Commission. Miss Green stated that recently one of the Commissioners was bragging on how much money the Commission has so she doesn't believe \$180,000 would be a lot for them to cover even though she knows everyone needs to do their part. She shared her appreciation for what this organization is doing to help the students. Mr. Walker added that Larry Anderson and his staff do so much before they even receive a referred child, and they regularly meet with the Caddo staff on how working together things can be better. Regarding the budget and the money the Commission has, Mr. Walker stated that while the Commission may have some one-time money, his millage was set in 1957 and each year he begins the year \$3 million in the red, and must get additional funds from Public Works. This millage for juvenile justice has not been renewed by the public since 1957. Miss Green asked that the Board be notified when the next Intergovernmental meeting is scheduled. Mr. Walker added that this request is for 2016; and at this time, they are covering month to month with emergency funds to keep the Center open.

Mr. Riall asked Mr. Walker what happens if the program is suspended, and Mr. Walker said he believes there will be more disruptions at the school, more students on the street potentially committing crimes, and more students in detention that need to be in a lower detention level.

Mrs. Brown stated that she is hurt because she worked many of her years with children who needed what parents were not doing what they should do. She commented on an article in the newspaper where she was quoted as saying "we will take care of the children now or we will take care of them later, and later will be forever," and she reminded the Board of the truth in that statement. She stated that Rutherford House is a board-run organization; and as has been said, the Truancy Center is a separate entity. Also, when the Governor began cutting programs, he didn't just cut this program, but many things; and when she worked with the teachers at Rutherford House and the Detention Center, Judge Matlock and Ted Cox worked with her to get the teachers and they are paid for with MFP funds. She asked Mr. Lee to confirm that these teachers are paid by us and if she understands that we are not taking money from the Caddo Parish School Board per se. Mrs. Brown noted that these are real life issues; and she believes if we do not continue to do some of the things we do for children with problems, it will only get

worse. She commended Mr. Walker, Mr. Cox, Coach Kimble and Judge Matlock for the job they are doing for children, and encouraged the Board to at some time in the future to once again implement the Boot Camp in Caddo. Mrs. Brown also asked Mr. Lee if the District has any unrestricted reserve? Mr. Lee said the District does have approximately \$15-\$20 million in unrestricted reserves. Mrs. Brown stated that the Board has an unwavering commitment to insure that a healthy General Fund reserve is restored to the intensity it was in 2007; and as a Board member she is committed to insuring that the Board is fiscally accountable and a good steward of tax payer dollars. She also believes that the Caddo Parish Commission and the Shreveport City Council share the same goal; and it is her understanding that it is important that we maintain a healthy reserve balance, but she believes \$60,000 as an investment in the District's most at-risk students is only a drop in the bucket. She asked that the Board examine, in the immediate future, the RFPs of unrestricted funding that accentuates the District's overall scope and mission and that the Board has this discussion.

Mrs. Bell clarified that the Parish Commission met, and as of yesterday did not approve the \$60,000 when voting on their budget. She also asked if there are six teachers on site that Caddo is paying, can one or two not be used when they are not teaching a class. Mrs. Bell also concurred with Ms. Trammel and she too would like to see the curriculum and what is being done each day. Also, she would like to know specifically what is allotted to Mr. Kimble's program. Mr. Walker said this program is another tool in the tool belt for law enforcement and juvenile justice and not just about the 400 students, but the deterrent to all the others involved. The truancy information is provided to show the Board the scope of the problem and what they are trying to do in offering a consequence or sanction for those 3200 students.

Mr. Ramsey asked Mr. Walker if he understands correctly that this funding request is for approximately 400 students a year and Mr. Walker said that is correct. Mr. Ramsey stated that many things have changed in Caddo since the Board first approved support of this program, i.e. implementation of Ombudsman, Transformation Zone, etc. to address the needs of the students, including this group of students. He added the dollars the District has spent and continues to spend are returning much value, so with the success of additional programs such as Pathways and a Charter Alternative School who will be involved with students in these situations will be very valuable. He asked the Board president to look at staff being more involved in this matter.

Mr. Green stated he believes this program has much value beyond the Board's vision and he supports what they are currently doing. He sees that the most common problem is not knowing where the money will come from, and he encouraged staff and the Board to look at the possibility of keeping the program in operation at least one additional year since there are no more funds available as of August 31, 2015. He said he attended the City Council meeting where he heard the same comments, but they did pass the \$60,000 amount which is dependent on the other two agencies also supporting it with \$60,000 each. Mr. Green said he knows this program helps the school site by removing the disruptive students and he encouraged staff to look at what can be done to make certain this program remains in operation.

Mrs. Watkins asked how many of the students brought to the program actually see the judge? Mr. Walker responded that if a student is brought to the Center on a new misdemeanor, the DA has to prosecute and it must go before the judge, which means there will be a certain percentage the DA does not file. Many are not pursued, but there are those that are and brought before the judge. Relative to truancy and the 1600 petitions filed, these are the ones headed before the judge regarding being truant. Mrs. Watkins asked about students that return multiple times, and Mr. Walker said if a student is truant, that student will go before the judge if it is not resolved.

Judge Matlock stated that when he took the bench 21 years ago, there were zero petitions filed for truancy in the previous year (1994-1995). He explained that in 1994 with zero truancy petitions, he had 175 children in prison; and last year he had 1600 truancy petitions and 20

children in prison. He said it does make a difference and it involves Volunteers for Youth Justice, Rutherford House, the School Board, Roy Murry, the Superintendent, Reggie Abrams, every principal, assistant principal, most teachers, Special Ed Department, police officers, probation officers, Sheriff, Greenwood and Vivian Police Departments. He believes losing one of the components places a lot of different systems at risk.

Mr. Ramsey asked Dr. Robinson if the staff has taken a position or made a recommendation relating to this request. Dr. Robinson responded that staff has had similar discussions regarding this matter and would never want it believed that staff or administration does not support our most challenged students; however, staff is concerned that a balanced budget was presented to the Board; and if the Board approves the request, staff will need to relook at the budget and make some adjustments. She also added that staff has not taken a position at this time.

President Riall expressed appreciation to Mr. Walker, Mr. Cox, Coach Kimble and Judge Matlock for their presentation and the work they do for the students. Mr. Walker expressed appreciation for the Board's time and consideration of this request. Mr. Cox invited those who were unable to attend the scheduled visit to the Truancy Court to do so on Thursday.

ESTABLISH THE AGENDA FOR THE SEPTEMBER 15, 2015 CPSB MEETING

Dr. Mary Nash-Robinson highlighted the items for the Board's consideration at the September 15, 2015 CPSB meeting and the following discussion ensued.

Bids (Capital Projects). Miss Green asked staff to explain what will be done in the Booker T. Washington High School project, and Steve White explained this is a stage lighting project similar to projects at Captain Shreve, Southwood, Green Oaks, and Booker T. Washington is the next school in line to have this done. Mr. Rachal asked if this project was part of the original Capital Projects plan, and Mr. White responded it was and because the plan came out late last year, the engineers had trouble completing the design for bidding in the summer. However, this project is one that can be completed during the school year with very limited interruption. Mr. Rachal stated he understands the Board approved the budget for this project and this is only to bid the project, and Mr. White confirmed that is correct.

Approval of Disclosure of Protected Health Information Policy. Mr. Rachal asked if the attorney has reviewed this, and Mr. Abrams confirmed he had and it comes following the Board's approval last month of the student data policy. In the regulations, HIPPA compliance was addressed under JO-R and this policy will address and update the policy on how we transmit health information and maintain privacy. Mr. Abrams also explained that he believes HIPPA allows for disclosure of this information between billing for this information and it would be superior to the State Statutes since it requires the ability to bill between Medicare and Medicaid providers, etc. and make certain we are providing health care to individuals.

Adopt Millages for 2015. Mr. Rachal asked if this reduces the millage by one mil, and Mr. Lee explained that the Board addressed this in May, and the Legislative Auditors have provided new documentation that the District must do, so it is necessary to again adopt the millages; and it will officially reduce the debt service millage by one mil. Mr. Rachal asked if this is the one mil for the air conditioning at Byrd, and Mr. Lee confirmed that is correct, as well as the other projects.

Approval of Collaborative Funding for the Truancy and Misdemeanor Center Located at Rutherford House. President Riall announced he is referring this item to the Insurance and Finance Committee, and he encouraged all Board members to attend this committee meeting when Chair Dottie Bell schedules it.

Recommendation to Advertise Sale of Kings Hwy House. Miss Green asked if this is the same item discussed previously. Mr. Woolfolk explained it is the same house, the property and house were bought and staff is looking at selling the house versus tearing it down since there has been some expressed interest in purchasing the house and moving it to another location. Mrs. Locke asked how the value of the house is determined, and Mr. Woolfolk explained the appraisal breaks out the land and the home's values, and the home's value is listed as \$27,000. He further explained that staff is currently requesting an addendum from the appraiser of the actual value of the house with the understanding that \$27,000 is what someone is willing to pay. Mr. Woolfolk confirmed that Caddo paid \$117,000 for the land and the house, and Mrs. Locke asked about the cost to tear down the house, and Mr. Woolfolk said approximately \$8,000. Mr. Rachal asked if there are details on the house, and Mr. Woolfolk responded it is approximately 2,000 square feet, and Mr. Rachal asked that the information be scanned and sent to the Board.

Notice of Public Meeting. Mr. Lee explained that the first formal announcement of the renewals in the spring must be made in a public meeting.

Superintendent's Report. Mr. Rachal asked if the items typically listed under Superintendent's Report will be eliminated while Dr. Goree is out, and Dr. Robinson reported she is aware the Superintendent will send something in writing and will communicate with her if she needs to verbally report anything to the Board.

President Riall recommended the following items as the Consent Agenda (6.01, 8.02-8.05, 8.07-8.09). He announced that 8.06 (Approval of Collaborative Funding for the Truancy and Misdemeanor Center Located at the Rutherford House) is referred to the Insurance and Finance Committee for further discussion. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the September 15, 2015 CPSB meeting. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of the Red River United, addressed the Board on the organizational meeting with administration and Board members and asked that the Board consider incorporating a place on the agenda for bringing these reports back to the Board. Also, she announced they will bring to the Board next month an update on the meeting in Washington D. C. this past summer and hopefully use this as a springboard to cultivate talking sessions at the school sites with parents, students, teachers and faculty members for input in what they wish their school to look like, the future of the district and how all can work together. Mrs. Lansdale also addressed what she believes the Board's response would be to a request for a pay raise, and she believes it would be the District has a tight budget and the need to look to the public since the bond was rejected. As the Board fills positions and allocates funds for programs, she encouraged them to look closely at these decisions and determine if they are essentials in improving student achievement. She reminded the Board that anytime a money item appears on the agenda, she will remind the Board the need to focus on the school house. Relative to truancy, she agrees it is important; however, she believes pre-K education is ten times more important and would be the most efficient and effective way to spend taxpayer dollars and also hopefully decrease truancy.

ANNOUNCEMENTS

Mrs. Bell announced the Insurance & Finance Committee will meet at 2 p.m. on September 15th.

Dr. Robinson reported that Superintendent Goree is doing well following his surgery.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:27 p.m.*

September 1, 2015

The **Caddo Parish School Board (CPSB) Audit Committee** met on Tuesday, September 1, 2015 at approximately 3:00 p.m. in Room 1 of the CPSB offices, 1961 Midway, Shreveport, Louisiana with Chair Denee' Locke presiding and the following board members present constituting a quorum: Barry Rachal, Larry Ramsey, Bonita Douzart and Raymond Green. Also present were Board members Dottie Bell, Steve Riall, Shalanda Swift-Watkins, Mary Trammel, as well as staff members Jeff Howard, Jim Lee, Keith Burton, Lisa Lloyd, Dr. Mary Nash-Robinson, Steve White, and Reggie Abrams, legal counsel. Mr. Green led the prayer and Pledge of Allegiance.

Chair Denee' Locke stated the purpose of the meeting is to hear reports on Opportunity Caddo and the Capital Projects audit. She asked about the process for hearing audit follow ups, and staff explained that when requested, staff completes the follow up and presents it to the Superintendent for reporting back to the Board. Mr. Abrams explained how follow ups should be listed on the agenda so the committee can address/vote if necessary.

Opportunity Caddo Program. Lisa Lloyd, director of purchasing, shared with the committee an update on the Opportunity Caddo Program, the definition of a small and disadvantaged business, and the policy which is located on the web site. She stated that Opportunity Caddo's goal is to support the mission of the District and shared information on the program, some of the issues and challenges, solutions to addressing challenges, and the policy in place. She highlighted the law, how small and disadvantaged businesses are identified by the law, how staff identifies and reaches out to potential vendors, how staff tracks its success in identifying and working with small and disadvantaged businesses, and their directories of construction and non-construction vendors. She reported the directory has a little over 100 certified vendors (49 Capital Construction companies and 54 Non-construction companies), and the District uses approximately 60 of those vendors on a regular basis while it continues its efforts to identify additional vendors that qualify in order to expand the data base. Mrs. Lloyd shared with the committee numbers for the 2014-15 fiscal year and that the total amount of money spent through the Purchasing Department was \$52.7 million with over 1000 vendors, excluding direct pays and non-PO purchases, credit cards, etc. Non-construction dollars spent totaled \$30,638,694 (63%), with \$300,000 (1%) being with Opportunity Caddo vendors. She explained that while some businesses qualified for participating in the program, they chose not to participate. Construction/capital projects dollars spent totaled \$17 million (37%) with 20% (\$3,685,660) being spent with Opportunity Caddo vendors. She further stated that since CPSB is such a large employer with many needs, it is important that vendors have the ability to provide the quantity needed and in a timely manner. Mrs. Lloyd noted that some of the challenges include developing capacity of current vendors, education of state rules and regulations, promoting good business practices, maintaining non-biased purchasing practices, focusing work energy on viable business options, identifying eligible businesses within the system and document participation, and adding value to the process to encourage greater participation. Solutions that staff has or is looking at to address the challenges are community partnerships (Minority Supply Institute), Caddo Commission, North La. Chapter of NIGP, Shreveport Chamber of Commerce Government Procurement Center, Shreveport's Fair Share (Small Business Summit), continuing education opportunities, and building and training opportunities (creative hands-on walk-throughs, mock bids, etc.).

Staff responded to questions from the committee relative to reasons for the low percentage of small and disadvantaged businesses, insurance for capital projects vendors, requirements for sub-contractors, liability insurance, bid requirements (insurance and bonding), named insured, goal of 25% minority participation, etc.

Mrs. Bell expressed her concern over the 1% of non-construction dollars spent with Opportunity Caddo vendors and asked if it is necessary to look at reinstating the Fair Share position or bringing in someone to help increase this percentage since the goal set was 25%. She also asked if the contractors awarded bids for the large projects are subcontracting with Opportunity Caddo vendors. Mr. Abrams explained that many forms were created with the Opportunity Caddo Program and even without a leader it is a requirement in the bid process that contractors seek using subcontractors in the Program. Mrs. Bell said she would like to see the names of the minority businesses used, and stressed the importance of soliciting vendors and educating them on the bid process. Mr. Lee stated staff will do whatever the Board asks, but referenced Mrs. Lloyd's comments relative to large vendors that qualify but choose not to participate, as well as the fact that many of the non-construction bids are for materials and supplies (M&S), and at this time the District is under contract with a company that is not a minority or disadvantaged business, but they received the bid. Mr. Rachal noted that the Board did not get rid of the Opportunity Caddo Program; it is still in place. He further stated that the general contractors hire subs and there is a requirement that contractors solicit vendors listed in the Opportunity Caddo Program; and if the contractor is not using a subcontractor on this list, there should be documentation in the file as to why that company is not being used. Mr. Abrams further explained the reason there is not a requirement in the non-construction bids is maybe the amount of the package bid as opposed to breaking it down into smaller individual bids. It was also noted that construction should be commended for being at a 20% use of Opportunity Caddo vendors.

Mr. Riall noted that doing business with the Caddo Parish School System is an involved process and there are many who do not want to get involved in the process.

Capital Projects and Construction Audit. Jeff Howard stated a copy of the Capital Projects and Construction Department audit was forwarded to Board members and Steve White is present to answer any questions. Chair Locke asked for an overview of the audit, and Mr. White reported on the process by which three-year capital projects plans are brought to the Board for approval, and once approved, the process by which those projects are advertised three times in the Official Journal as well as the minority newspaper(s), how bids are received, opened and brought to the Board for approval. He explained if a project comes in over budget, the Board has the ability to reject the bid; however, if the bid is within the approved budget and the Board rejects it, it cannot be rebid for one year. Mr. White also shared with the Committee how special projects that come up during the year are addressed, i.e. a particular space in a building, electrical, etc. and the dollar amount of a project that requires board approval (those above \$150,000). Mr. Howard stated that it is recommended that Policy FEF be updated to reflect the \$150,000 rather than \$100,000, because the \$150,000 is State Law unless the Board wants to set a different amount. Mrs. Locke asked why would we not have proof of insurance on anything, and Mr. White responded there is proof of insurance, but it is not filed in the individual project files. Mr. White further explained that because there are times when an emergency project must be addressed late on Friday afternoon and completed by opening of school on Monday is why all proofs of insurance are filed separately and not job specific. Mrs. Locke asked Mr. Woolfolk or Mr. White if they wished to make any comments before opening for questions.

Mr. Woolfolk stated he believes the audit shows there are issues that come up all the time that staff must address, and the main concern is the lack of documentation backing these up. Mrs. Locke asked about the review of invoices prior to submission to accounts payable, and that SunGard should be used. Mr. White shared that when SunGard was first implemented; and because of the number of things being worked out in SunGard, it was recommended to wait before putting capital projects online with SunGard since the staff was overwhelmed at that time in working out all the problems encountered with SunGard. Mr. White also explained the construction billing window with projects.

Mr. Rachal noted his concerns relative to incidents with no documentation, no proof of insurance on file, what constitutes an emergency, projects over \$150,000 not coming back to the Board, etc. He further stated his understanding from reading this that the Board is being totally left out of the loop, and Mr. Howard noted that under \$150,000 there is no requirement for Board approval. Allison May explained these projects included renovation projects at Central Office and when one was done, there was a domino effect as areas were moved around. Mr. Howard said the point is these projects should be looked at as a whole and not broken down into small individual projects. Board members asked who generated these projects, and Mr. Howard explained that is the documentation not available. Staff responded to questions on how projects not in the budget are paid; and Mr. Howard explained there is a Miscellaneous account in Capital Projects to pay for these projects. Mr. Rachal stated he sees the need for continuity, and Mr. Howard further stated that the need for communication between all interested parties is what they are emphasizing.

Mr. Ramsey stated he understands the lack of documentation and also noted the Bethune project as well as the additional monies spent on Lakeshore whereby documentation would be needed for clarity, and he believes there is need to look further at how things are done. Mr. Abrams stated that when talking about breaking down projects, when you look at Opportunity Caddo, it is important to never write projects too big to where the vendors in Opportunity Caddo do not have the ability to bid for the project. Mr. Howard added that Auditing's purpose is to make sure that it is being done as efficiently as possible.

Mrs. Bell referenced the history of converting Lakeshore's school and she questions why the increase in the cost to do so. Mr. White noted additional corrective foundation steps that had to be done in the renovation project that were not anticipated. Mr. Ramsey said he believes that there should have been some type of documentation in the file.

Mr. Howard announced that he met with the Superintendent and he is aware of the findings and the recommendations.

Mrs. Bell asked about the recommendation to only advertise in the Official Journal, because she believes projects should be advertised in the Shreveport Sun and The Caddo Citizen.

Mr. Rachal stated he believes the committee needs to meet and discuss in more detail the \$150,000 amount, what declares an emergency, etc.

Mr. Green moved, seconded by Mrs. Douzart, that the Audit Committee schedules another meeting to continue discussion of the audit and the recommendations.

Chair Locke announced that she will schedule another meeting to further discuss this audit and have the Superintendent present.

Vote on the motion to schedule another meeting for further discussion carried.

Adjournment. The meeting adjourned at approximately 4:10 p.m.

September 8, 2015

The CPSB Transportation Committee met at 2:00 p.m. on Tuesday, September 8, 2015, in Room 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Mary Trammel, Dottie Bell, Shalanda Swift-Watkins, Jasmine Green. Also present were Board member Steve Riall, Legal Counsel Reggie Abrams and staff members James Woolfolk, Dr. Mary Nash-Robinson, Keith Burton and Otis Jones.

Chair Mary Trammel called the meeting to order and led in the prayer and Pledge of Allegiance.

School Opening Overview. Mr. Jones shared with the committee an overview of the volume of calls received the day before and on opening day (962) in the Transportation Department; and he reported that since the opening day, the number of calls decreased each day.

Regarding homeless transportation, Mr. Jones reported that approximately 205 of the 228 requests received have been processed, and he noted that sometimes these are addressed on a daily basis as families are added. Staff is brainstorming ways to access information ahead of time for magnet students and has talked to Mr. Burton about the possibility of setting a date for magnet students in order to be ready before the first day of school. Mr. Woolfolk added they work closely with Pittre Walker; because this is possibly the toughest transportation issues to address since many families that are considered homeless may move across town but they have the ability to continue attending their neighborhood school as opposed to transferring schools. He further explained that they also work closely with the principals, Pittre Walker and the Attendance Department to address situations where students are being dropped. Dr. Robinson also reminded everyone that these numbers affect leveling of classes.

Special Needs Transportation Matters. Mr. Jones introduced Lashanda Howard who addresses special needs transportation, and reported this year over 200 SPED requests have been received to date, and 195 have been completed. Mr. Jones explained that in processing requests, if we cannot do a bus, we must offer them mileage, taxi, bus pass or some type of transportation. Relative to the remaining requests to be addressed, he said they are somewhat problematic and staff is researching these to make sure they are in compliance with the students' IEPs.

Discussion was held on transportation being provided at the closest pick-up point and many times that stop is 4 to 5 miles from a student's home, and Mr. Jones explained they receive this same complaint from magnet parents. Mrs. Bell asked what can be done to address these situations and avoid the students from being dropped when they do not have transportation, and Mr. Jones responded that the neighborhood school is an option for these students. Federal guidelines were also discussed and Ms. Trammel asked if, in following Federal guidelines to get children to school (whether it is for magnet or homeless), we sit down with the parents to explain this to them. Ms. Walker confirmed they do meet with the parents and do whatever the District can to work with them.

Staff also shared information on JCampus and JPAMS, problems staff encounters with these two programs, as well as some of the individualized needs for bus transportation, i.e. curb to curb pick up, medical transportation needs, responsible parties for providing information, etc.

Busing Issues. Mr. Jones also highlighted information on absenteeism and late buses, noting that absenteeism is the main reason for late buses. He reported on the Department's process for continuing to recruit sub bus drivers and on the fact that since January, 40 drivers have left the Department for various reasons; and at this time, the Department has 45 subs. Also, he reported that the Friday before the three-day holiday, there were nine open routes meaning there were not subs for these routes. He further reported that the Department now has a recruiter/trainer, and they are hopeful this will help address the shortage of drivers. They will also begin running

back-to-back classes for training subs. Mr. Woolfolk also noted that approximately 50% of those who go through the training will actually become drivers. Mrs. Bell shared with staff a local company laying off approximately 1,000 people and asked how can the District advertise that we are looking for drivers. Use of buses for athletic events was also brought up and Mr. Jones explained that while the players may have to leave earlier in the day, they have asked that the spirit groups not leave until later in the afternoon. Staff announced they will also request principals to post the need for drivers on their individual school marquees.

Bus exchanges were also discussed and Mr. Jones explained that three exchanges were being combined to one for efficiency and there have been some concerns expressed by parents. Mr. Woolfolk added that while he understands the sensitivity in the location of the exchanges and staff will address these, exchanges are a part of bus routes and he doesn't believe it is necessary to have a debate over changes in routes in order to be more efficient.

The committee also discussed with staff the recent policy alerts relative to legislation dealing with unsafe stops (stops on the shoulder of the road), and Mr. Jones reported that he attended the committee meeting in Baton Rouge where he talked to the author of this legislation and the Legislator is offering a way out of this. Mr. Abrams explained that at this time it has not been done and the Board would have to approve a declaration that the Transportation Department will not put buses on shoulders and someone (outside agency) would need to evaluate and declare that the shoulders are unsafe. Mr. Jones also announced that they recently received information on legislation that will go into effect on December 21, 2015 relative to new rules affecting physicals, and he is working with Dr. Self about possible caveats. Mr. Woolfolk stated that the current bus drivers have an out because they have insurance, but it is the new bus drivers needing a job that it will affect.

Following discussion, Mrs. Bell moved, seconded by Shalanda Swift-Watkins, that the Transportation Committee accept the recommendation of the Transportation Department regarding the unsafe conditions for loading and unloading students on the shoulder of the road and that a resolution be drafted for the Board's consideration in October. Vote on the motion carried.

Adjourn. There being no additional business, the meeting adjourned at approximately 3:25 p.m.

September 15, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, September 15, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with First Vice President Mary Trammel presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, Shalanda Swift-Watkins and Dottie Bell. Also present were Dr. Mary Nash-Robinson, chief of staff, and Reggie Abrams, legal counsel. Mr. Riall was absent. Mr. Rachal led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE AUGUST 19, 2015 AND SEPTEMBER 1, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Ramsey, to approve the minutes of the August 19, 2015 and September 1, 2015 CPSB meetings as submitted. Vote on the motion carried.

POINT OF PERSONAL PRIVILEGE

Board member Bonita Douzart acknowledged former Board member Curtis Hooks initiated the naming of Fair Park High School's Gymnasium in memory of Clem Henderson and in honor of Ronald Preston. She said that barring unforeseen circumstances, she as the current representative for District 5, attempts to be consistent and do what is right.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. First Vice President Trammel and Chief of Staff Dr. Mary Nash-Robinson presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Creswell Singers. Students from Creswell Elementary, a Larry Bell school, shared with the audience two musical numbers, "Twelve Powerful Words" and "Choo Choo Ch'Boogie". Amy Schepp is the music specialist at Creswell.

Booker T. Washington High School on National Register. On behalf of Dr. Goree, Dr. Mary Nash-Robinson presented to Robert Jackson, president of the Booker T. Washington Alumni Association, certificate number 1500414 listing Booker T. Washington High School on the National List of Historic Places as of July 14, 2015. Members of the BTW Alumni Association in attendance, as well as others involved in the process, were recognized for their team effort in submitting the nomination for BTW to receive this prestigious, historical award.

Newly Appointed Administrators. Jimmie Scott Britt was introduced as a new pupil appraisal facilitator in the Department of Exceptional Children.

Southwest Shreveport Rotary Club. John Albritton, president of the Southwest Shreveport Rotary Club, presented a \$2,000 grant to the Transformation Zone for establishing clothes closets at three elementary schools. Mr. Ramsey stated that the Rotary Club of Southwest Shreveport provides many dollars to schools in Southwest Shreveport making requests, and he recognized Mr. Albritton as the newly elected Board member, District 11. Randy Doss with the SW Rotary Club was also recognized.

VISITORS

Jackie Lansdale, president of Red River United, addressed the Board on the following two issues: (1) seated lunch time for students, and (2) start and finish time of the school day. Mrs.

Lansdale stated their long-time concern over the amount of time in which students are given to consume their lunch. With teachers having duty-free lunch for 30 minutes, she believes this would allow a minimum of 20 minutes seat time for students. She shared how they as a group have addressed this matter by requesting boards to come into compliance and by asking the Legislature to insure students have 20 minutes of seat time for lunch. Mrs. Lansdale said at this time they have learned some schools are providing 30 minutes, but some schools are not. The Board was requested to prioritize lunch time for its students to receive adequate time to consume their lunch. Regarding the start and finish time of the school day, she reminded the Board that prior to moving to the AB Block Schedule, most high schools had 6-period days; and when the Board moved away from the AB Schedule and in order for teachers to have daily planning periods, one more class was added making for a seven-period day and the issues experienced last year with the inclement weather and meeting the required instructional minutes were noted. She said adding the seventh period and meeting the instructional minutes for each has required elongating the school day; and administration has been made aware and has begun researching reconfiguring the day in order to meet the required number of instructional minutes.

Thomas Cochran addressed the Board on the need to consider allowing a child to change classes when they are not getting what they need academically; and he encouraged the Board to look at adopting a policy allowing this to happen. While it is too late for his son, he reiterated why he believes it is important to have something in place.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Dr. Robinson highlighted items for the Board's consideration and the following discussion ensued. Dr. Robinson announced that staff is requesting Item 13.02 be pulled because a tentative settlement is in place. First Vice President Trammel announced the following as the consent agenda: Items 6.01-6.03, 7.01-7.02, 8.01-8.08 and 13.01. Item 13.02 was pulled. *Mr. Ramsey moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the September 15, 2015 CPSB meeting as submitted. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mr. Ramsey moved, seconded by Mr. Rachal, to confirm the consent agenda (Items 6.01-6.03, 7.01-7.02, 8.01-8.08 and 13.01). Vote on the motion carried. A summary of the Board's action on consent agenda items is as follows.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transaction Reports. The board approved the personnel transactions reports (resignations) for the period of August 1-31, 2015 as recommended by the superintendent and submitted in the mailout.

6.03 Requests for Leaves. The board approved requests for leaves as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Purchasing Bids. The board approved the following bid as recommended by the superintendent and submitted in the mailout on the bid tabulation sheet: (1) multiple vendors for the purchase of music instruments and equipment. *A copy of the bid tabulation is filed in the official records of the 09/15/15 CPSB meeting.*

7.02 Construction and Capital Projects. The board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Camus Electric, with a Base Bid, Alternate 1, Alternate 2, and Alternate 3 for the sum total of \$258,500 for Project 2016-402, “B T Washington Auditorium Renovation”. *A copy of the bid tabulation is filed in the official records of the 09/15/15 CPSB meeting.*

Item No. 8

8.01 Property/Bus Rental Requests. The board approved the request for use of buses for the SUSLA Upward Bound South Program as recommended by staff and submitted in the mailout.

8.02 Out of State Travel (General Fund). The board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.03 Approval of Disclosure of Protected Health Information Policy. The board approved the proposed policy for disclosure of protected health information as presented by legal counsel.

8.04 Adopt Millages for 2015. The board adopted the following resolution setting 2015 millage rates to be levied on taxable property in Caddo Parish at 74.66 mills.

RESOLUTION

BE IT RESOLVED, that the following millage(s) are hereby levied on the 2015 tax roll on all property subject to taxation by Caddo Parish School Board:

	<u>MILLAGE</u>
Constitutional Tax	7.85 mills
Operation & Maintenance Tax	17.11 mills
Operation & Maintenance Support Tax	11.26 mills
Technology Tax	1.25 mills
Salaries & Benefits Tax	20.18 mills
Building & Equipment Tax	6.86 mills
Renovation Tax	5.15 mills
Bond & Interest Tax	5.00 mills

BE IT FURTHER RESOLVED that the proper administrative officials of the Parish of Caddo, State of Louisiana, be and they are hereby empowered, authorized, and directed to spread said taxes, as hereinabove set forth, upon the assessment roll of said Parish for the year 2015, and to make the collection of the taxes imposed for and on behalf of the taxing authority, according to law, and that the taxes herein levied shall become a permanent lien and privilege on all property subject to taxation as herein set forth, and collection thereof shall be enforceable in the manner provided by law.

The foregoing resolution was read in full, the roll was called on the adoption thereof, and the resolution was adopted by the following votes:

YEAS:	11	– J. Green, Brown, Poljak, Douzart, R. Green, Trammel, Locke, Rachal, Ramsey, Watkins, Bell
NAYS:	0	
ABSTAINED:	0	
ABSENT:	1	– Riall

8.05 2015-16 Pupil Progression Plan. The board approved the 2015-16 Pupil Progression Plan as submitted by staff in the mailout.

8.06 Approval to Begin Process for Naming the Booker T. Washington High School Auditorium for Dr. Ernest Lampkins.

The board authorized staff to begin the 90-day process for naming the Booker T. Washington High School Auditorium for Dr. Ernest Lampkins.

8.07 Approval of Mental Health Interagency Agreements and Contracts. The board approved the mental health interagency agreements and contracts for providing services to Caddo students as recommended by staff and submitted in the mailout.

8.08 Recommendation to Advertise Sale of Kings Hwy. House. The board approved staff's recommendation to advertise the sale of the house located on the Kings Highway Property purchased by the CPSB last month (August 2015).

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved staff's recommendation for student JD and student AM as submitted in the mailout and whose parents are in agreement.

SUPERINTENDENT'S REPORT

Dr. Mary Nash-Robinson reported that she has spoken with the Superintendent and he will be back in the office on Thursday with limited activity.

ANNOUNCEMENTS AND REQUESTS

Notice of Public Meeting. Mr. Lee stated that *notice is hereby given that at its meeting to be held on Tuesday, October 20, 2015, at 4:30 p.m. at the Parish School Board office, 1961 Midway Avenue, Shreveport, Louisiana, the Parish School Board of the Parish of Caddo, State of Louisiana, plans to consider adopting a resolution ordering and calling an election to be held within the parishwide school district to authorize the renewal of ad valorem taxes.*

Mrs. Bell announced that Huntington High School will present the Battle of the Bands at the FairGrounds on Saturday and she encouraged everyone to support them. She also asked Board members to see her after the meeting.

Mr. Abrams announced that the Texarkana Regional Chorale and Shreveport Chorale, of which he is a member, will perform Mozart's Mass in C at St. Pius Catholic Church on Sunday at 6:00 p.m. This will be open to the public and invited those interested to attend.

Dr. Robinson announced she has four tickets to the NAACP Annual Freedom Fund Banquet on Friday night at the Convention Center. Anyone interested in attending can see or call her.

Adjournment. *Mr. Ramsey moved, seconded by Mr. Rachal, to adjourn. The vote on the motion carried and the meeting adjourned at approximately 5:15 p.m.*

T. Lamar Goree, PhD, Secretary

Mary Trammel, First Vice President

September 8, 2015

The CPSB Transportation Committee met at 2:00 p.m. on Tuesday, September 8, 2015, in Room 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Mary Trammel, Dottie Bell, Shalanda Swift-Watkins, Jasmine Green. Also present were Board member Steve Riall, Legal Counsel Reggie Abrams and staff members James Woolfolk, Dr. Mary Nash-Robinson, Keith Burton and Otis Jones.

Chair Mary Trammel called the meeting to order and led in the prayer and Pledge of Allegiance.

School Opening Overview. Mr. Jones shared with the committee an overview of the volume of calls received the day before and on opening day (962) in the Transportation Department; and he reported that since the opening day, the number of calls decreased each day.

Regarding homeless transportation, Mr. Jones reported that approximately 205 of the 228 requests received have been processed, and he noted that sometimes these are addressed on a daily basis as families are added. Staff is brainstorming ways to access information ahead of time for magnet students and has talked to Mr. Burton about the possibility of setting a date for magnet students in order to be ready before the first day of school. Mr. Woolfolk added they work closely with Pittre Walker; because this is possibly the toughest transportation issues to address since many families that are considered homeless may move across town but they have the ability to continue attending their neighborhood school as opposed to transferring schools. He further explained that they also work closely with the principals, Pittre Walker and the Attendance Department to address situations where students are being dropped. Dr. Robinson also reminded everyone that these numbers affect leveling of classes.

Special Needs Transportation Matters. Mr. Jones introduced Lashanda Howard who addresses special needs transportation, and reported this year over 200 SPED requests have been received to date, and 195 have been completed. Mr. Jones explained that in processing requests, if we cannot do a bus, we must offer them mileage, taxi, bus pass or some type of transportation. Relative to the remaining requests to be addressed, he said they are somewhat problematic and staff is researching these to make sure they are in compliance with the students' IEPs.

Discussion was held on transportation being provided at the closest pick-up point and many times that stop is 4 to 5 miles from a student's home, and Mr. Jones explained they receive this same complaint from magnet parents. Mrs. Bell asked what can be done to address these situations and avoid the students from being dropped when they do not have transportation, and Mr. Jones responded that the neighborhood school is an option for these students. Federal guidelines were also discussed and Ms. Trammel asked if, in following Federal guidelines to get children to school (whether it is for magnet or homeless), we sit down with the parents to explain this to them. Ms. Walker confirmed they do meet with the parents and do whatever the District can to work with them.

Staff also shared information on JCampus and JPAMS, problems staff encounters with these two programs, as well as some of the individualized needs for bus transportation, i.e. curb to curb pick up, medical transportation needs, responsible parties for providing information, etc.

Busing Issues. Mr. Jones also highlighted information on absenteeism and late buses, noting that absenteeism is the main reason for late buses. He reported on the Department's process for continuing to recruit sub bus drivers and on the fact that since January, 40 drivers have left the Department for various reasons; and at this time, the Department has 45 subs. Also, he reported that the Friday before the three-day holiday, there were nine open routes meaning there were not subs for these routes. He further reported that the Department now has a recruiter/trainer, and they are hopeful this will help address the shortage of drivers. They will also begin running

back-to-back classes for training subs. Mr. Woolfolk also noted that approximately 50% of those who go through the training will actually become drivers. Mrs. Bell shared with staff a local company laying off approximately 1,000 people and asked how can the District advertise that we are looking for drivers. Use of buses for athletic events was also brought up and Mr. Jones explained that while the players may have to leave earlier in the day, they have asked that the spirit groups not leave until later in the afternoon. Staff announced they will also request principals to post the need for drivers on their individual school marquees.

Bus exchanges were also discussed and Mr. Jones explained that three exchanges were being combined to one for efficiency and there have been some concerns expressed by parents. Mr. Woolfolk added that while he understands the sensitivity in the location of the exchanges and staff will address these, exchanges are a part of bus routes and he doesn't believe it is necessary to have a debate over changes in routes in order to be more efficient.

The committee also discussed with staff the recent policy alerts relative to legislation dealing with unsafe stops (stops on the shoulder of the road), and Mr. Jones reported that he attended the committee meeting in Baton Rouge where he talked to the author of this legislation and the Legislator is offering a way out of this. Mr. Abrams explained that at this time it has not been done and the Board would have to approve a declaration that the Transportation Department will not put buses on shoulders and someone (outside agency) would need to evaluate and declare that the shoulders are unsafe. Mr. Jones also announced that they recently received information on legislation that will go into effect on December 21, 2015 relative to new rules affecting physicals, and he is working with Dr. Self about possible caveats. Mr. Woolfolk stated that the current bus drivers have an out because they have insurance, but it is the new bus drivers needing a job that it will affect.

Following discussion, Mrs. Bell moved, seconded by Shalanda Swift-Watkins, that the Transportation Committee accept the recommendation of the Transportation Department regarding the unsafe conditions for loading and unloading students on the shoulder of the road and that a resolution be drafted for the Board's consideration in October. Vote on the motion carried.

Adjourn. There being no additional business, the meeting adjourned at approximately 3:25 p.m.

September 15, 2015

The CPSB Insurance and Finance Committee met at 2:00 p.m. on Tuesday, September 15, 2015, in the Room 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Dottie Bell, Mary Trammel, and Larry Ramsey. Committee members absent were Jasmine Green and Margaret Brown. Other Board members present were Susannah Poljak, Raymond Green, Bonita Douzart, and Denee' Locke. Also present were Reggie Abrams, Dr. Mary Nash-Robinson, Jim Lee and Randy Watson.

Chair Dottie Bell called the meeting to order and Mary Trammel led in the prayer and Pledge of Allegiance.

Group Insurance Renewals. Randy Watson, director of insurance, reported that the CPSB Health, Dental, Life, Disability and Cancer plans are up for renewal effective April 1, 2016 and the need for an item to be on the Board's October agenda with a recommendation from the Insurance and Finance Committee. He presented an overview of statistics of the CPSB insurance plans by age, gender, subscriber (active employee or retiree), last year's medical claims, last year out-patient, pharmacy (where the biggest gap is seen), top inpatient and top outpatient health care facilities. He noted that active employees and/or retirees account for 58% of the membership but represent 68% of the claims, and by next month there will be an equal number of retirees and active employees. When looking at premiums, Mr. Watson explained how the premiums would be 3 times higher without the Blue Cross Network discounts.

Mr. Watson reported on the high volume of prescriptions filled in the last 6 months; and it is anticipated that over 340,000 prescriptions will be filled during this plan year with Caddo's numbers being much higher than the norm. With the member only paying an average of 15%, he said this means the plan is paying for the majority of the cost of prescriptions. One of the areas causing a lot of problems today is while specialty drugs account for only 1.5% of volume, they account for 24% of total drug costs; and pharmacy trends indicate Caddo's trend is 27% over Blue Cross's trend of 10%. Mr. Watson also cautioned the Committee that when looking at changes to the health plan, the Committee must carefully consider these so as not to lose the District's grandfather status which would cost the District over \$4.2 million in additional expenses in the first year alone.

In looking at cost savings strategies, Mr. Watson stated there are two basic ways to minimize employer health care costs: (1) implement smart strategies where we reduce overall costs, minimizing premium increases for both employer and employees, and (2) cost shift to the members with (a) higher out of pocket expenses or (b) increase in the percentage of premiums members pay. Grandfather pharmacy strategies presented included narrow national retail pharmacy, mandatory specialty pharmacy, variable co-pay changes, split pill program, formulary changes and zero co-pay generics. He highlighted the pros and cons of each strategy, shared examples so the committee could see how the change would affect this benefit and employees, and noted estimated savings the District would see without affecting the member.

Additional options for consideration included Ambulance Services when no transport is made, Telemedicine Services, Newborn Dependent Children alternative coverage language, retiree wrap around products, as well as a shift in premiums (1% up to 5%) to the employee, increase in deductibles, Cadillac Tax in 2018, ACA taxes and fees. Many options that would affect the District's grandfather status were also presented, and Mr. Watson indicated his recommendation would be to monitor these until 2018.

Mr. Watson also highlighted *Prevent* (Diabetes Prevention Program) implemented last year, and the success seen after the first 16 weeks of employee participation.

In summary, Mr. Watson explained that savings could range from 5.3% to 11.3% depending on the strategies/options the Committee supports or does not support.

Mr. Watson also gave a brief overview of the District's Dental plan, what State law says, in-network/out-of-network providers, United Concordia Company, possible network disruption with the plan, and his personal contact with area dentists, the State Louisiana Dental Association, and staying with Blue Cross versus going with Delta or United Concordia Company. He further stated that if the Committee chooses to recommend Blue Cross and United Concordia, there will be no change in the premiums or benefits to the employee. He also stated the same is true for the life, disability and cancer policies.

Mr. Watson also stated that if the Committee chooses to go with the options that will not affect the District's grandfather status, the increase will be 7.3%; and if Delta is selected for the Dental, premiums will increase.

Following discussion, *Mary Trammel moved, seconded by Mr. Ramsey, that the Insurance Committee recommend to the full Board, at the October meeting, approval of the following recommendations.*

Plan	Carrier	Benefit Changes	Premiums
Health	Blue Cross	See Below	7.3%
Dental	Blue Cross/UC	No Change	No Change
Life	Standard	No Change	No Change
Disability	Standard	No Change	No Change
Disability	Standard	No Change	No Change
Cancer	American Public	No Change	No Change

Health Insurance

The committee considered a spectrum of scenarios projecting revenue and expenses and determined that a minimum increase of 7.3% is needed effective April 1, 2016.

Any changes to our plan and/or premiums would cost CPSB approximately \$4.2 million in additional required benefits if we forfeit our grandfather status under the Affordable Care Act. Therefore, the committee recommends the following that will preserve our grandfather status.

Required Benefit Changes

Non-grandfathered ASO Plan (PPO 271)

- Preeclampsia Prevention
- Cardiovascular Disease Counseling
- Childhood Obesity
- Updated Prescription Drug Step Therapy Language

Grandfathered ASO Plan (PPO and POS)

- Update Prescription Drug Step Therapy Language

Approved Optional Benefit Changes

- Mandatory Specialty Pharmacy
- Variable Co-Pay Changes for Specialty Drugs
- Drug Co-Pay Changes
- Split Co-pay on Specialty Drugs
- Limit to 30 Day Supply on Specialty Drugs
- Modification of Language and Limitations on Medical Food
- Modification of Language and Limitations on Medical Devices
- Zero-Generic Co-Pay on Select Chronic Diseases
- Exclusion of Brand Name Metformin
- Ambulance Service Coverage for Non-Transport
- Continuation of Diabetes Prevention Program
- Re-Insurance with \$500,000 Deductible and a 12/24 Basis

Denied Optional Benefit Changes

- Narrow National Retail Pharmacy Network
- Combo Product Exclusion
- Pharmacy Home Delivery Solutions
- Tiered Specialty Co-Pay Options
- Closed Formulary
- Telemedicine
- Newborn Eligibility Changes
- Community Blue Network
- Increase Out-of-Pocket Expenses (Co-pays, Deductibles, Co-Insurance)
- Retiree Supplemental Plan Analysis
- Increasing the Percentage of Employee/Retiree Premiums

Dental Insurance

Blue Cross has contracted with United Concordia (UC) to provide administrative services and network for their dental plan. Delta Insurance was also evaluated. While Delta has a larger network, their reimbursement is higher and will result in higher premiums. The committee recommends staying with Blue Cross this year. There will be no change in premiums or benefits.

Life Insurance

No change in benefits or premiums.

Disability Insurance

No change in benefits or premiums

Cancer Insurance

No change in benefits or premiums

Vote on the motion carried unanimously.

POLL AUDIENCE

Chair Bell asked for any questions or comments from the audience, and there were none.

Adjournment. There being no additional business, the committee adjourned at approximately 4:10 p.m.

October 6, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, October 6, 2015 at approximately 3:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Board member Susannah Poljak was absent. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey led the prayer and Pledge of Allegiance.

ADMINISTER OATH OF OFFICE

Legal Counsel Reginald Abrams administered the oath of office to newly elected Board member John Albritton, representative for District 11. Board members welcomed Mr. Albritton to the board.

OUT OF STATE TRAVEL

Mr. Ramsey moved, seconded by Ms. Trammel, to approve requests for out of state travel (General Fund). Vote on the motion carried.

EXECUTIVE SESSION – LEGAL UPDATE RE: CADDO PARISH SCHOOL BOARD AND CONTINENTAL CASUALTY CO. VS. ABATEMENT SERVICES, INC. AND HUDSON SPECIALTY INSURANCE CO., SUIT NO. 585,706B (FIRST JUDICIAL DISTRICT COURT, CADDO PARISH, LOUISIANA)

Ms. Trammel moved, seconded by Mr. Ramsey, to approve resolution and authorize Superintendent and/or the Board President to execute the settlement agreement submitted in the mailout. Vote on the motion carried.

ADJOURNMENT

Mrs. Bell moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 3:45 p.m.

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

October 6, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, October 6, 2015 at approximately 3:45 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and John Albritton. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and the pledge were omitted.

ESTABLISH AGENDA FOR THE OCTOBER 20, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its October 20, 2015 CPSB meeting and the following discussion ensued. Item 7.01, Purchasing Bid, was pulled.

Revised Stipend Schedules for District's Athletic Coaches 2015. Mr. Rachal asked about the annual cost to the School Board for these changes, and Mr. Lee stated approximately \$150,000, and it is already incorporated in this year's budget. Mr. Rachal asked if this was announced during the budget presentation, and Mr. Lee responded it was discussed at one of the budget work sessions. Mr. Rachal asked when did we last do this, and Mr. Lee said approximately 10 years ago. Mrs. Bell asked for clarification on the steps, and Mr. Lee explained that the steps are the number of years' service. Dr. Goree further stated that initially there were only 12 steps and this caused problems when coaches had more than 12 years of experience, so the proposed schedule matches the teacher pay schedule through 30 years of service.

Board Committee Procedures. Mr. Ramsey asked Mr. Abrams if this item clarifies procedures that have always been in place for conducting regular Board meetings, because the intent in the motion creating the committee structure was that committees would be conducted in a similar fashion. Mr. Abrams confirmed that is correct and the board committees are to operate under the Open Meetings Law so there is consistency throughout all committees, and this outlines what is done in Board meetings and the Committee Chair follows the same rules. He highlighted stipulations of giving 24-hour notice and the need for a unanimous vote of the committee for it to work. Mr. Ramsey also shared issues that have arisen under "Presentations"; and because staff members are present during reports, any report given at a committee meeting shall not be directed to a specific employee where that employee might be identified. He also explained that a committee can receive a report and its' job is done, unless the committee decides to present it to the Board in order to make something happen; and motions should not direct the superintendent on how he should perform his duties as he is hired to do a job. The remainder of the procedures address meeting format to help whoever is presiding over a particular committee meeting; and the same process for hearing comments from visitors at the Board meeting should be followed when hearing concerns from the audience at the committee meetings.

Miss Green asked Mr. Abrams if she understands correctly that committee meetings will be set up the same as Board meetings; and if so, could the meetings be held in the boardroom and conducted the same as Board meetings. Mr. Abrams said if it is available, it should be the preferred area for committee meetings. Miss Green stated her belief that this policy is being recommended because of a lack of orderliness in meetings, and asked if this is a new policy. Mr. Abrams explained there has never been a policy that states how committees would operate, so this is a new policy following the state law in how all Board meetings will be conducted. Miss Green asked the Superintendent if it is possible to stream committee meetings on line, and Dr. Goree stated that while staff has the capability, he referred back to the Board because it is the Board's issue. Miss Green stated that if we are going to have a policy relative to committees and how they should be handled, she believes we should set them up the same way as Board meetings and stream the meetings live for the public.

Ms. Trammel asked if all committee meetings will be conducted the same as the Board meetings, will the number of times staff is taken from their regular jobs to set up, stream and record these meetings be o.k.? Dr. Goree said it will be additional work for staff, but he doesn't believe it is something staff can't do.

Mrs. Brown stated her belief that this is an effort to clean up and follow *Robert's Rules of Order* and she appreciates this being brought forward.

Mrs. Bell stated as the chair of a committee, she believes if she needs to call a meeting during the day and it is convenient for the committee members, the meeting should be held wherever space is available. She also said there are only 5-6 members on each committee; and she stressed the importance of committee members attending meetings because a committee cannot make any decisions unless there is a quorum present.

Mr. Green stated he believes we are over-simplifying a very unique, common practice; and if we follow the President's leadership relative to existing policies, and if we follow *Robert's Rules of Order*, there would be no need for the current discussion.

Mrs. Locke clarified that the procedures presented have nothing to do with where the meeting is held, but was only an option discussed. She said as a committee chair, she did not understand the procedures for conducting the committee meetings, and asked that these be put in writing.

Mr. Riall stated that committees were established when Mr. Ramsey was Board President; and Mr. Ramsey added the intent was that the chair would run the meeting following Board meeting procedures in place. This type of meeting is special in that these committees are where the Board President can refer items and is part of how the structure is set up. He said he believes it is a good idea to have a reminder to the chair for those who may not have conducted a meeting in the past. Mr. Riall asked Mr. Abrams about members and non-committee members speaking during committee meetings; and Mr. Abrams clarified that the procedures allow for all members to speak similar to a work session; but if any action is taken, only committee members can vote.

Mrs. Douzart applauded the implementation of committees prior to her coming on the Board because she believes it enhances whatever the Board is working toward.

POINT OF PERSONAL PRIVILEGE

At this point in the meeting, President Riall recognized and expressed appreciation on behalf of the Board to Mrs. Shalanda Swift-Watkins for her service as the interim representative for District 11 from May 29, 2015 through September 18, 2015 and for her dedication to the students in Caddo Parish.

2016 Group Insurance Renewals. Barry Rachal asked Mr. Watson if he understands correctly that because of the Affordable Care Act, we will continue to see our premiums increase. Mr. Watson explained there are limits to making changes to the plan, and when the ACA was implemented in 2010 employers were given incentives to not cut benefits and if changes were made, the District would lose its grandfather status at a cost of approximately \$4.2 million in added benefits. He added insurance will go up anyway as health care inflation is four to six times higher than normal inflation, but the District is going to continue doing what it ordinarily does. The propositions offered last year and this year include better medical management and smart strategies, and he cited an example that this year the District was billed \$300 million for health care expenses, but only paid \$100 million because of network discounts, pharmacy changes and Quality Blue disease management. Mr. Watson also highlighted what the District has done in the past by raising co-pays and deductibles; and he noted some of the possible

changes and decisions the Board will need to make in the future relative to insurance even though at this time he doesn't believe it is necessary for the Board to make those critical decisions and changes. Mr. Rachal also stated it was the Federal Government who told everyone in the beginning to keep current plans because they were better, but they also said even though the current plan is better, there would be penalties in the future. Mr. Watson explained they are attempting to keep everyone between the minimum and maximum, and he believes we will not be penalized until 2018. He also reported that the District paid \$700,000 in taxes and fees this year and this money is being used to subsidize premiums for the lower income population. Mr. Rachal noted that when others were experiencing 15-20% increases, Caddo was only getting a 2% increase, and he thanked Mr. Watson for his hard work.

Approval of Capital Projects for 2016-17. Mr. Rachal asked for a recap of the past budget and where the dollars went and details of the sites where capital project dollars were spent. Dr. Goree pointed out the change whereby capital projects are now being brought to the Board annually for approval, which allows principals the autonomy to change what needs to be done on their campuses.

Mrs. Bell asked if the Board votes on this every three years, and Dr. Goree explained that in the past staff brought to the Board a three-year plan on how the capital projects budget will be spent. Annually, there has been some revision to the list, so staff is now looking at a plan for each school year, and the plan presented is for the 2016-17 school year. Mrs. Bell stated she asks this because projects might be on the list and continue to be bumped. Dr. Goree said some schools may not be in the 16-17 cycle, but it will be because staff has worked with the principal and a determination made that a particular project can wait until the next cycle, and staff will be sensitive to the schools not on this cycle and make sure that we are equitable with the capital funds. Ms. Trammel shared her appreciation for the list being presented because she notes several things on the list that truly needs to be done. Dr. Goree said staff is working to address those critical projects included in the bond initiative and will continue to look at how issues can be addressed in moving forward.

Proposed Revisions to CPSB Policies GCBD/GDBD, GDBD-D and GDBD-D1. Dr. Goree stated that the policies being brought to the Board for revision look at how we manage employee absenteeism across the board (12-month, bus drivers, less than 12 months). He said 98% of the employees will never be impacted by these revisions as we are fortunate to work in a District where most of the employees do come to work to provide the best opportunities for children every day. However, absenteeism rates on holidays, Fridays and Mondays, indicate the need for a policy to insure that benefits are used appropriately. Dr. Goree also stated his commitment to work with the associations as procedures are developed for implementation of these policies.

Mr. Ramsey noted that many of the issues in these policies were vetted in the Transportation Committee, chaired by Ms. Trammel, where there was a lot of good discussion.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

President Riall announced that the Consent Agenda Items are 6.02, 8.01-8.03, and 8.05-8.12, and Item 7.01, Purchasing Bids, is pulled. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the October 20, 2015 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, thanked the Superintendent for his kind remarks about employees. She also reminded Mr. Ramsey and others that bus drivers attended the Transportation Committee meeting in 2013 with a proposal to address absenteeism on holidays

and Fridays. She also expressed appreciation to the Superintendent for allowing the organizations to come in and work through the process to address these issues.

ANNOUNCEMENTS

Ms. Trammel asked the Board members to look at their United Way packets and encouraged the Board to have 100% participation and giving.

Superintendent Goree expressed his appreciation to the Board and the public for everyone's thoughts, prayers, calls, cards, and food during his healing process from surgery.

Dottie Bell reminded everyone that the Teacher of the Year Banquet is Thursday evening at East Ridge. She also encouraged Board members to attend the Miles for Smiles kick-off event. Also, she expressed how great the Transformation Zone event was on this date with Transformation Zone students and stakeholders.

Mr. Rachal announced that he will be attending Donuts with Dads at University Elementary on Wednesday. Also, on October 25th a "Support the Blue" event will be held at the Downtown Festival Plaza from 2-5 p.m., and he encouraged all to attend and support this event.

Mrs. Brown stated that in the last month there have been various comments about different groups (Police Matter, Pastors Matter, etc.) around the country, and she asked the Board to remember that "At-Risk Children Matter". She also encouraged everyone to attend the Intergovernmental Committee meeting on October 16th at 11:30 a.m. at the Sky Box.

Mr. Green announced he will be representing the Board at the District PTA meetings.

Ms. Trammel invited all who are interested in attending National Night Out and do not have one to attend to come to the 200 block of E. 75th in Cedar Grove.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:41 p.m.*

October 20, 2015

The **Caddo Parish School Board (CPSB) Audit Committee** met on Tuesday, October 20, 2015 at approximately 2:00 p.m. in the boardroom of the CPSB offices, 1961 Midway, Shreveport, Louisiana with Chair Denee' Locke presiding and the following board members present constituting a quorum: Larry Ramsey, Bonita Douzart and Raymond Green. Mr. Rachal was absent. Also present were Board members Dottie Bell, Steve Riall, John Albritton, Mary Trammel, Margaret Brown as well as staff members Jeff Howard, Jim Lee, Allison May, Keith Burton, Dr. Mary Nash-Robinson, Steve White, and Reggie Abrams, legal counsel. Mrs. Douzart led the prayer and Pledge of Allegiance.

Chair Denee' Locke stated the purpose of the meeting is to continue the review of and ask questions on the Capital Projects audit. Mrs. Locke announced that Superintendent Goree will make a statement followed by each committee member being afforded an opportunity to ask questions. If time allows, other Board members will have an opportunity to ask questions.

Capital Projects and Construction Audit. Dr. Goree expressed appreciation to Jeff Howard and Allison May for the work they do in conducting these audits and stated that the goal of the audit process is to make Caddo a better organization. Mr. Abrams noted references to Policy FEF in numerous sections of the audit, and clarified this policy was actually replaced by Policy DJED in August 2014 and FEF should be removed from the manual. Mr. Abrams reported the \$100,000 in policy FEF was increased to \$150,000 when the Board approved Section E policies in 2014. He explained the policy states the contract will be awarded to the lowest possible bidder, how to address emergencies, how to advertise, how to bid and how the bids are opened with all project bidding in accordance with the public bid law. He further explained that Forethought is currently reviewing policies that deal with construction and the issues raised (Policies FGC, FGB, FGA, FGC, etc.), and it is his recommendation that these be presented to the Board for action in the near future. Dr. Goree noted he believes the District needs to do a better job of deleting policies that new policies are replacing. Mr. Ramsey encouraged everyone to be more open on the front end of these matters that arise. Dr. Goree also stated that he believes it valuable to the District to use these audits to enhance the district

Superintendent Goree stated his belief that the Capital Projects/Construction audit is a tool to bring value to the school district as well as a means by which the process could be improved. He added he also took from the audit the need for a conscious effort whenever projects can be grouped together, and also noted the need for staff to adequately document emergency issues that come up in projects, i.e. conversion of Lakeshore to a middle school and the need to have the school ready to receive students at the start of school. He also addressed concerns noted in the audit and some changes staff will make to address these while continuing to follow the law. Noting that communication appears to be the biggest issue, Dr. Goree stated his commitment to communicate more clearly with the Board and the community issues that are being addressed in many of the District's aging schools, as well as issues that arise and must be addressed.

Mr. Ramsey shared that as the maker of the motion to begin these internal audits, he appreciates the auditors' job; and noted that sometimes issues are brought forward that need to be addressed. He also stated he doesn't see where any laws were not followed as alleged, but he does see a need for better communication and documentation.

Board members echoed comments about the purpose for the internal audits and staff responded to questions from the Committee and other Board members relative to policy codes, criteria for projects over \$150,000, how small/minority/women-owned businesses can take advantage of bidding as sub-contractors under general contractors, holding committee meetings as audit reports are received, holding committee meetings at minimum quarterly, making the Board and public more aware, including reporters in the committee meetings, etc.

Mr. Ramsey moved, seconded by Mrs. Douzart, that (1) staff finalize the review of the policies prepared and recommended by Forethought and bring the proposed policy revisions back to the Caddo Parish School Board for review and implementation; (2) in the interim any construction project that comes in above budget but within the acceptable contingent budget be reported to the Caddo Parish School Board through the Superintendent's report; and (3) that any construction project that comes in above budget and not within the contingent budget be brought back for Caddo Parish School Board approval. Vote on the motion carried.

Mrs. Locke expressed her appreciation to everyone on the committee. Mr. Riall also expressed appreciation to Steve White for the work he does and for the many times taking care of what needs to be done.

Poll Audience. Jackie Lansdale addressed the committee on CPSB Policy BDDC.

Adjournment. There being no additional business, *Mr. Ramsey moved, seconded by Mrs. Douzart, to adjourn*, and the meeting adjourned at approximately 2:50 p.m.

October 20, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, October 20, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE SEPTEMBER 15, 2015 AND OCTOBER 6, 2015 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the September 15, 2015 and October 6, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Music Presented by Caddo Magnet High. Students from Caddo Magnet High presented a short contemporary ballet as well as a top hit dance to a well-known Michael Jackson song.

National Merit Semifinalist. The following students were recognized as National Merit Semifinalists from Caddo Parish: Caddo Magnet High -- Michael Jung, Amir Kaskas, Meghana Rao, Daniel Speakes and Cameron Wallace; Captain Shreve High -- Samantha Hilburn; and CE Byrd -- Sarah Livingston.

JROTC Presentations. Cadet Traci Purdue was recognized for superior achievement and as the new JROTC Corps Commander. Legion of Valor awards were presented to Cadet Koryssa Brochman, North Caddo High, and Cadet Romeka Nichols, Woodlawn Leadership Academy. The following students were recognized for outstanding achievement and shared experiences in participating in the JROTC STEM Camp at Mississippi State University this past summer – Demestria Huglon, Valerie Anderson, Shamicheal Harris from Woodlawn; Deunya Small and Diamond McRaney from Byrd; and Alex Prymek and Angela Vaughn from Caddo Magnet.

2015 Virginia K. Shehee Most Influential Woman of the Year Award. Alan English, publisher of the *Shreveport Times*, recognized Sandra Ratliff-Lee, security coordinator at Midway Professional Development Elementary, as the first recipient of the “Virginia K. Shehee Most Influential Woman Award”.

National PTA Schools of Excellence. Eden Gardens Fundamental Elementary and South Highlands Elementary Magnet were recognized as “National PTA Schools of Excellence” for their devotion to the educational success of children and the promotion of parental involvement in schools.

Scholastic James Patterson Grant and Dollar General Grant Recipient. Kathryn Loomis, Caddo Heights Math Science Librarian, was recognized as the recipient of one of James Patterson’s \$1.75 million pledges to school libraries. The scholastic reading club matched each grant dollar with Bonus Points to be received by the Librarian as well as the Dollar General Grant.

The Louisiana Reading Association’s Educational Administrator of the Year. Dr. Karen Peace was recognized as the Louisiana Reading Association’s Educational Administrator of the Year.

Newly Appointed Administrators. Al Graham, director of classified personnel, introduced and congratulated D’Andrea Dorsey, supervisor of transportation, and Daisy Powell, system design manager in Information Technology.

Charles Lowder, director of certified personnel, introduced and congratulated Ginger Gustavson, new principal at Captain Shreve High School.

PUBLIC HEARING FOR NAMING THE A C STEERE LIBRARY IN MEMORY OF DAN C WATERS

President Riall announced the public hearing open for naming the A C Steere Library in memory of Dan C. Waters. The following spoke in support of naming the library in memory of Dan C. Waters: Diane Mapp, Gail Griffin, Amy Failla, Cheryl Beckerdite and Rob Broussard.

VISITORS

Jackie Lansdale, president of Red River United, addressed the proposed policy revisions relative to attendance/absences on tonight’s agenda and asked the board to recognize that the District has some good bus drivers and the vast majority do a yeoman’s job. She stated she believes the proposed language is contrary to State Law and encouraged the Board to consider these revisions carefully. Miss Green asked that the Superintendent look into the pay issues for the bus drivers.

Jon Glover addressed Item 6.03 “Personnel Transactions Reports – Resignations” and asked if the five of 11 teachers who resigned are in critical areas (elementary); and if so, were these certified positions replaced with certified teachers as called for in the Pupil Progression Plan. She also questioned if staff determined why the two middle school and 4 high school teachers left. She stressed the importance that every child in Caddo Parish be afforded the same quality education.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board’s consideration and the following discussion ensued. President Riall announced that the following items are the Consent Agenda: 6.02-6.03, 8.01-8.02, 8.05-8.07, 8.09-8.12, and 13.01 (3 of 4 students) – 13.03.

Before confirming the consent agenda, President Riall recognized the following speakers on Item 8.11 “Proposed Revisions to CPSB Sick Leave/Absenteeism Policies”: Connie Harrison, bus driver, addressed the extra work she has done, i.e. training new drivers, extra a.m. and p.m. bus runs, without being paid, and she believes she has been treated unfairly; Lavette Carter shared she is a 9 year driver and is not getting paid for extra work done; Ruby Cooper shared that she was off due to a catastrophic illness last year and is concerned about the proposed revisions to the sick leave/absenteeism policies; Brenda Brossie shared she believes it very unprofessional that Transportation would ask why she could not set her doctor appointments when she was off; Pastor John Brossie addressed getting shorted and mistreated when it comes to pay for extra work; and John Darrett asked the Board to consider postponing this item until the Superintendent has an opportunity to meet one on one with bus drivers to discuss these issues.

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to confirm the Consent Agenda (6.02-6.03, 8.01-8.02, 8.05-8.07, 8.09-8.12 and 13.01 (3 of 4 students)-13.03. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Renewal of Administrative Contracts. The board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the mailout.

6.03 Personnel Transaction Reports. The board approved the personnel transactions reports (resignations) for the period of September 1-30, 2015 as recommended by the superintendent and submitted in the mailout.

Item No. 8

8.01 Property/Bus Rental Requests. The board approved the request for long-term use of Donnie Bickham's gymnasium and long-term use of Youree Drive's cafeteria and auditorium as recommended by staff and submitted in the mailout.

8.02 Out of State Travel. The board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the mailout.

8.05 2016 Group Insurance Renewals. The board approved the 2016 group insurance renewals as recommended by the Insurance and Finance Committee and submitted in the mailout.

8.06 Interagency Agreements. The board approved the interagency agreements for providing services to Caddo Parish students through the Department of Exceptional Children as submitted in the mailout.

8.07 Resolution Ordering and Calling a Special Election to Authorize the Renewal of Special Taxes. The board approved the following resolution ordering and calling a special election to be held in Parishwide School District of Caddo Parish, Louisiana, to authorize the renewal of special taxes therein; making application to the State Bond Commission in connection therewith; and providing for other matters in connection therewith.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "District"), that:

SECTION 1. Election Call. Subject to the approval of the State Bond Commission, and under the authority conferred by Article VI, Sections 30 and 32 of the Constitution of the State of Louisiana of 1974, the applicable provisions of Chapter 5 and Chapter 6-A of the Louisiana Election Code, and other constitutional and statutory authority, a special election is hereby called and ordered to be held in the District on **SATURDAY, APRIL 9, 2016**, between the hours of seven o'clock (7:00) a.m. and eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541, and at the said election there shall be submitted to all registered voters qualified and entitled to vote at the said election under the Constitution and laws of this State and the Constitution of the United States, the following propositions, to-wit:

PROPOSITION NO. 1
(MILLAGE RENEWAL - SALARIES)

Shall Parishwide School District of Caddo Parish, Louisiana (the "District"), be authorized to levy a special tax of a twenty and eighteen hundredths (20.18) mills on all property subject to taxation within the District (an estimated \$34,314,000 reasonably expected at this time to be

collected from the levy of the tax for an entire year), for a period of ten (10) years, beginning with the year 2017 and ending with the year 2026, for the purpose of paying salaries and benefits for teachers and other personnel employed by the Caddo Parish School Board?

PROPOSITION NO. 2
(MILLAGE RENEWAL - SCHOOL IMPROVEMENTS)

Shall Parishwide School District of Caddo Parish, Louisiana (the "District"), be authorized to levy a special tax of five and fifteen hundredths (5.15) mills on all property subject to taxation within the District (an estimated \$8,757,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of ten (10) years, beginning with the year 2017 and ending with the year 2026, for the purpose of paying the costs of renovation, repair and improvement of existing public school buildings and facilities in the District?

PROPOSITION NO. 3
(MILLAGE RENEWAL - TECHNOLOGY)

Shall Parishwide School District of Caddo Parish, Louisiana (the "District"), be authorized to levy a special tax of one and twenty-five hundredths (1.25) mills on all property subject to taxation within the District (an estimated \$2,125,500 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of ten (10) years, beginning with the year 2017 and ending with the year 2026, for the purpose of paying the costs of constructing, acquiring, renovating, improving, maintaining and/or operating computers, software and peripheral equipment, facilities and technological programs at public schools in Caddo Parish?

SECTION 2. Publication of Notice of Election. A Notice of Special Election shall be published in the *Times*, a newspaper of general circulation within the District, published in Shreveport, Louisiana, and being the official journal of the District, once a week for four consecutive weeks, with the first publication to be made not less than forty-five (45) days nor more than ninety (90) days prior to the date of the election, which Notice shall be substantially in the form attached hereto as "Exhibit A" and incorporated herein by reference the same as if it were set forth herein in full.

SECTION 3. Canvass. This Governing Authority shall meet at its regular meeting place, the Parish School Board Office, 1961 Midway Avenue, Shreveport, Louisiana, on **TUESDAY, MAY 17, 2016**, at **FOUR-THIRTY O'CLOCK (4:30) P.M.**, and shall then and there in open and public session proceed to examine and canvass the returns and declare the results of the said special election.

SECTION 4. Polling Places. The polling places set forth in the aforesaid Notice of Special Election are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, will be the same persons as those designated in accordance with law.

SECTION 5. Election Commissioners; Voting Machines. The officers designated to serve as Commissioners-in-Charge and Commissioners pursuant to Section 4 hereof, or such substitutes therefor as may be selected and designated in accordance with La. R.S. 18:1287, shall hold the said special election as herein provided, and shall make due returns of said election for the meeting of the Governing Authority to be held on Tuesday, May 17, 2016, as provided in Section 3 hereof. All registered voters in the District will be entitled to vote at the special election, and voting machines shall be used.

SECTION 6. Authorization of Officers. The Secretary of the Governing Authority is hereby empowered, authorized and directed to arrange for and to furnish to said election officers in ample time for the holding of said election, the necessary equipment, forms and other paraphernalia essential to the proper holding of said election and the President and/or Secretary of the Governing Authority are further authorized, empowered and directed to take any and all further action required by State and/or Federal law to arrange for the election.

SECTION 7. Furnishing Election Call to Election Officials. Certified copies of this resolution shall be forwarded to the Secretary of State, the Clerk of Court and *Ex-Officio* Parish Custodian of Voting Machines of Caddo Parish and the Registrar of Voters of Caddo Parish, as notification of the special election, in order that each may prepare for said election and perform their respective functions as required by law.

SECTION 8. Application to State Bond Commission. Application is made to the State Bond Commission for consent and authority to hold the special election as herein provided, and in the event said election carries for further consent and authority to continue to levy and collect the special taxes provided for therein. A certified copy of this resolution shall be forwarded to the State Bond Commission on behalf of this Governing Authority, together with a letter requesting the prompt consideration and approval of this application.

SECTION 9. Additional Notice Requirement. This Governing Authority made the announcement with respect to this resolution required by La. R.S. 42:19.1, at its public meeting on Tuesday, September 15, 2015 and published said announcement in the Official Journal on Wednesday, September 16, 2015.

This resolution having been submitted to a vote, the vote thereon was as follows:

MEMBERS:	YEAS:	NAYS:	ABSENT:	ABSTAINING:
Steve Riall	<u> X </u>	_____	_____	_____
Jasmine Green	<u> X </u>	_____	_____	_____
Margaret A. Brown	<u> X </u>	_____	_____	_____
Susannah W. Poljak	<u> X </u>	_____	_____	_____
Bonita Douzart	<u> X </u>	_____	_____	_____
Mary Trammel	<u> X </u>	_____	_____	_____
Raymond E. Green	<u> X </u>	_____	_____	_____
Denee Locke	<u> X </u>	_____	_____	_____
Barry F. Rachal	<u> X </u>	_____	_____	_____
Larry Ramsey	<u> X </u>	_____	_____	_____
John Albritton	<u> X </u>	_____	_____	_____
Dottie Bell	<u> X </u>	_____	_____	_____

And the resolution was declared adopted on this, the 20th day of October, 2015.

/s/ T. Lamar Goree
Secretary

/s/ Steve Riall
President

8.09 Approval of Mental Health Interagency Agreement. The board approved an additional mental health interagency agreement for providing services to Caddo Parish students as recommended by staff and submitted in the mailout.

8.10 Approval of Capital Projects for 2016-17 School Year. The board approved the proposed capital projects for the 2016-17 school year as submitted by staff in the mailout. *A copy of the list of projects is filed in the official papers of the October 20, 2015 CPSB meeting.*

8.11 Proposed Revisions to CPSB Sick Leave/Absenteeism Policies. The board approved the proposed revisions to the CPSB Sick Leave and Absenteeism policies as recommended by staff and submitted in the mailout.

8.12 Request for Authorization to Solicit Bids for Knight Street Building 6. The board authorized staff to solicit bids for the sale of the Knight Street Building 6 property located at 3004 Knight Street in Shreveport in accordance with the policy at 100% market rate.

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved student appeals for KA, JT, and RY in accordance with staff's recommendation and whose parents were in agreement

13.02 Legal Update – Charles Wilson – Workers Comp Claim #4375262. The board approved workers comp claim #4375262 for Charles Wilson in accordance with the recommended settlement submitted.

13.03 Legal Update – Kimberly Brun v. CPSB, Case No. 14-CV-2397, USDC (WD LA). The board approved the settlement in the Kimberly Brun v. CPSB, Case No. 14-CV-2397, USDC (WD LA) as submitted in the mailout.

REVISED STIPEND SCHEDULES FOR DISTRICT'S ATHLETIC COACHES 2015

Mr. Rachal moved, seconded by Ms. Trammel, to approve the revisions to the stipend schedules for the District's athletic coaches as recommended by staff and submitted in the mailout. Mrs.

Brown inquired about the guidelines used by Rahmberg for stipend schedules, and Dr. Robinson explained that the District asked him to look regionally at districts the same size as Caddo. Dr. Goree added that teachers' salaries are lower in this region, and he contacted Mr. Rahmberg to discuss this with him in preparing the recommended revisions.

Mr. Ramsey moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried. Vote on the main motion carried with Mrs. Brown abstaining.

BOARD COMMITTEE PROCEDURES

Mrs. Locke moved, seconded by Mrs. Bell, to approve the proposed policy on board committee procedures as submitted in the mailout. Miss Green stated that since these are public meetings, she is asking that they be recorded the same way as board meetings. She further stated that because the board is elected by the public, she believes the public should be able to view these meetings as well. Mr. Rachal expressed appreciation to Mrs. Locke for bringing these procedures to the Board. He stated the committee meetings have operated very well with open discussion and bringing good recommendations to the Board; and he believes conducting committee meetings in the same orderly fashion as Board meetings will make committees more efficient. Mrs. Brown also stated her agreement with Mr. Rachal's comments and thanked Mrs. Locke for bringing this forward. Mrs. Locke asked if committee meetings are recorded verbally, and President Riall explained that Mrs. Lohnes takes notes and publishes minutes. She said there was no discussion when she brought this issue up relative to recording and she deferred this to staff. Mrs. Locke also stated that she will gladly visit the recording from today's meeting; however, the comment was a question as to whether or not it was the responsibility of BoardDocs. Mr. Riall stated that Mr. Abrams clarified the Law requires that any meeting of the Board, committee or other, is recorded and published for the public.

Mr. Ramsey moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried. Vote on the main motion carried with Miss Green opposed.

PERMISSION TO ACCEPT BID RESPONSE FOR 655 KINGS HIGHWAY HOUSE

Mr. Rachal moved, seconded by Mr. Ramsey, because there were no responses to the bid, to direct staff to rebid the sale of the house located on 655 Kings Highway. Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Dr. Goree announced there is no report other than the information provided.

ANNOUNCEMENTS AND REQUESTS

Ms. Trammel noted the number of bus drivers present today and in hearing their concerns regarding pay, assured them that the Superintendent and staff are looking into this to resolve these issues, as well as to assure them they will be treated as they should be treated. Dr. Goree announced he will hold a one-on-one meeting with bus drivers on Tuesday morning.

Mrs. Bell announced an Insurance and Finance Committee meeting will be held Tuesday, November 3 at 3:00 p.m. She also announced Huntington High School's band has received invitations to perform in France or Hawaii as a result of their trip to Washington D.C.

Mr. Ramsey expressed appreciation for Ms. Trammel's comments. He also thanked The Times Inaugural Band Contest for the opportunity Southwood's band had to travel to Atlanta and compete in a National competition. Southwood won this competition and has now been invited

to competitions in Miami, New York City and Japan. Mr. Ramsey said his point is Caddo has some very talented students, and he encouraged those who have the opportunity to attend and support students in these competitions to do so.

Miss Green echoed Ms. Trammel's comments and commended the superintendent for scheduling time to meet with and hear from the bus drivers. She also reminded the board that the Soul Bowl will be held between Green Oaks and BTW at Independence Stadium.

Margaret Brown asked the Superintendent to look into how overtime for bus drivers is being paid and to address concerns expressed in this area.

Mr. Green and Mrs. Douzart also expressed their appreciation to the Superintendent for scheduling a time to meet with the bus drivers to address issues of concern.

EXECUTIVE SESSION

Student Readmission Appeal. *Mr. Ramsey moved, seconded by Ms. Trammel, to go into executive session for up to 15 minutes for the purpose of hearing a student readmission appeal. Vote on the motion carried and the Board went into Executive Session at approximately 6:25 p.m.*

The Board reconvened in open session at approximately 7:09 p.m. *Mr. Ramsey moved, seconded by Mr. Rachal, to uphold expulsion recommendation of staff for student MG. Vote on the motion carried with Board member J Green opposed. Mary Trammel was absent for the vote.*

Adjournment. *Mr. Green moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:10 p.m.*

Dr. T. Lamar Goree, Secretary

Steve Riall, President

November 3, 2015

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, November 3, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susanna Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Albritton led the prayer and Pledge of Allegiance.

VISITORS

There were no visitors.

PERSONNEL RECOMMENDATION

Ms. Trammel moved, seconded by Mrs. Bell, to approve the personnel recommendation as recommended by the Superintendent and submitted in the electronic mailout. Superintendent Goree explained that this is to fill the position of curriculum instruction specialist for elementary math (K-5). He further stated that this vacant position comes as a result of internal staff movement and is being filled by an employee from the organization. Vote on the motion carried.

ADJOURNMENT

Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:35 p.m.

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

November 3, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, November 3, 2015 at approximately 4:35 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and John Albritton. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and the pledge were omitted.

PRESENTATIONS

Bill Strother, director of communications and marketing, introduced the leaders of the local employee organizations: Jackie Lansdale, president of Red River United, Kim Burton, president of APEL, and Dr. Elizabeth Sullivan, president of Caddo Association of Educators. Mrs. Lansdale and Mrs. Burton shared a recap of their attendance (along with Board members Mary Trammel and Jasmine Green) at a Conference in Washington, D. C. where they learned some things they are hopeful to apply in the District. She noted that leaders of the local organizations meet once a month with the Superintendent along with the Board's liaison to discuss various issues; and recognizing the uniqueness of this relationship, it is their desire to build off this relationship. Mrs. Burton highlighted workshops attended that provided information on how to enhance relationships between the organizations and the local District, the benefits of team discussions, shared visions between the Districts and the roles of the organizations. A summary of the information provided in a packet was also highlighted, as well as learning strategies for effective meetings, teambuilding and confronting issues together. Mrs. Burton also reported they returned with 100 books and are excited about more that will come in the future.

Mrs. Lansdale reported that the next steps, in conjunction with administration and Board members on the team, will be to plan forums across the District that will include members of the organizations, teachers, parents, and students. She explained the intent is to hear and learn more, move beyond "my region-your region", look for areas of commonality and consensus to have a shared vision, move past the distrust and appearance of an echo chamber as well as outside negative influences. Upon consulting with members and the community, future plans must be organic and not presumptive to the region or to the District as a whole. She said they hope to gain a true shared understanding of what equity means in all areas of the District by going beyond what the true needs are and not just the wants, and they have begun to formulate a list of issues, i.e. certification of teachers, class size, lunch schedules, recess, programs and technology. Mrs. Lansdale added they also wish to ask parents, children, teachers and staff what they want the classroom to look like. Broader issues would include calendars, schedules, buildings, and funding; and they are open to Board members' ideas as they begin this endeavor in January.

Miss Green expressed her appreciation for the opportunity to travel to Washington, D.C. and noted how much she learned especially from the teacher's perspective, i.e. the number of resources available to teachers, teambuilding, and similarity among districts across the country. Ms. Trammel also thanked the organizations for including her and others in this opportunity and she looks forward to observing how the district benefits from what was learned in Washington.

Mr. Riall expressed appreciation for the presentation and for the work the employee organizations do on behalf of the students in Caddo Parish.

ESTABLISH AGENDA FOR THE OCTOBER 20, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its November 17, 2015 CPSB meeting and the following discussion ensued.

Proposed Revisions to Notice of Meetings Policy(ies). Mr. Abrams stated the item should be “Approval of Policies BCBB (Notification of Meetings) and BCBD (Agenda Preparation and Dissemination). He highlighted the new policies and clarified that the revisions will address the issue of giving meeting notice to employee organizations and how that will be carried out, as well as clearing up references to “paper copies”, mailouts (now electronic), faxes, etc. and how these issues will be addressed in the future.

Mr. Rachal asked about the reference to “unanimous vote of the Board” when adding an item to the agenda, and Mr. Abrams said it once was 2/3, but it is now unanimous to request that an item be added for action on the day of a meeting. It is still 2/3 on the timeliness of information provided for consideration.

Mrs. Bell asked for clarification on meeting notices being given one week in advance, and Mr. Abrams explained that notice shall be given one week in advance of a meeting whenever possible, but no less than 24 hours. She also asked why she sees meeting notices in the newspaper for the City Council, but she never sees the School Board’s meeting listed. Dr. Goree responded there is a cost to the District if we publish it in the paper; and it is the paper’s decision on which meetings are highlighted.

Authorization for Staff to Accept Bids on Knight Street Property and Kings Highway Property. Superintendent Goree announced that staff is asking for the full appraised values on these two properties at this time. Mr. Woolfolk further stated that it is the full appraised value for Knight Street, but it is 85% for the Kings Highway property since we have bid it once with no bids received. Mr. Rachal clarified that the first time we offer property for bid we cannot accept anything less than 100% of the appraised value, the second time it is put out for bid at 85% of the appraised value and the third time, 80% of the appraised value. Dr. Goree also stated that the Strategic Plan outlines that staff will recommend to the Board not going below 50% of the appraised value on properties and it will be the Board’s decision to honor that.

Legal Update. Mr. Abrams announced this matter is scheduled to go to trial in November in New Orleans.

Update on LHSAA Matter. Mrs. Bell asked if staff will provide an update on the LHSAA matter, and Dr. Goree responded he will provide the Board with an update.

CONSENT AGENDA

Mr. Riall announced that the following items are the consent agenda (8.01-8.07 and 13.01). *Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for the November 17, 2015 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale thanked the Board for moving forward with 8.04 and noted that she wants to receive these notices. She also thanked the Superintendent for how he handled the situation with the bus drivers and addressing their two issues. While she too is concerned with those who do not comply with the attendance rules, the vast majority of the bus drivers are good employees and appreciate what is afforded them in Caddo.

BOARD MEMBER ANNOUNCEMENTS

Mrs. Bell announced that Huntington High School band will perform on Saturday with Grambling State University in the Red River Classic, all were encouraged to attend and support Huntington.

Ms. Trammel thanked staff for the outstanding job in making sure everyone was taken care of last week.

Mr. Riall announced that Friday night is the final regularly scheduled Caddo Parish football games and also at 2:00 on Sunday at the Louisiana State Fair, he announced the military parade will be held.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 5:10 p.m.*

November 17, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, November 17, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Albritton led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE OCTOBER 20, 2015 AND NOVEMBER 3, 2015 CPSB MEETINGS

Mr. Rachal moved, seconded by Ms. Trammel, to approve the minutes of the October 20, 2015 and November 3, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Turner Elementary 6th Grade Academy. Students in the Turner Elementary 6th Grade Academy Choir shared musical numbers from their choral theme "Packing Your Way to Success through Music". Arnese Brass is the Choral Director.

2015 National Healthy Schools Bronze Award and 2015 Let's Move! Active Schools National Award. Erica Gilliam, Healthy Schools Program Manager for Louisiana, recognized Lakeshore Middle School for receiving the Alliance's Healthy Schools Program's 2015 National Healthy Schools Bronze Award and the 2015 Let's Move! Active Schools National Award for making changes that promote healthier eating and physical activities for students and staff in an effort to combat childhood obesity. Winning schools were also recognized at the annual leadership summit in Washington, D.C.

High Schools Increase School Performance Scores. The following high schools were recognized for increasing their School Performance Scores: C. E. Byrd increased by almost 10 points and earned an 'A' ranking, Caddo Magnet increased 7.6% and maintained its 'A' ranking, Captain Shreve increased 15.4 points and moved to a 'B' ranking, Fair Park increased 7.7 points, North Caddo increased .4 points, Northwood increased 12 points, Southwood increased 13.4 points and Woodlawn increased 4.7 points.

Milken Educator Award. John Lary II, C.E. Byrd Social Studies teacher, was recognized as the recipient of a Milken Educator Award and an unrestricted cash prize of \$25,000.

2015 Counselor of the Year. Misti Duke was recognized as the 2015 Middle School Counselor of the Year. Ms. Duke is the 6th and 7th grade counselor at Youree Drive Middle School.

2015 Educator of the Year. Dr. Carolyn Gore was recognized by The Louisiana Reading Association as the Educator of the Year.

2014-2015 Outstanding School Support Employee Winners. The following employees were recognized as 2014-15 Outstanding School Support Employee winners: Elizabeth Harville, Office Clerk, Shreve Island Elementary; Alvin Williams, Groundskeeper, Broadmoor Middle

Laboratory School; and Jennifer Rainge, secretary, Woodlawn Leadership Academy. Additional support employees recognized were Rebecca Emerson, secretary, Academic Affairs Division; Jerry Lowery, Computer Networking Technician, Operations Division; Willie Lawson, assistant custodian, Human Resources Division; Russell Meduna, Security Patrol, Superintendent's Division; and Donna Duke, bookkeeper, Finance Division.

Administrative Appointments. Charles Lowder, director of certified personnel, introduced the following new administrative appointments: (1) Sommer Anderson-Picou, curriculum instructional specialist Math K-5; and (2) Jenifer Guerrero, principal, Youree Drive Middle School.

3.02 Public Hearing for Naming the Booker T. Washington High School Auditorium for Dr. Ernest Lampkins. Dr. Goree announced that after conversation with Board member Margaret Brown who brought this item forward, this item is being pulled at this time.

3.03 Visitors.

Jackie Lansdale, president of Red River United, reported on resolutions that will be considered at their convention for the upcoming Legislative Session next spring: importance of recess for students, observations and parameters, length of the school day, tyrannical behavior of management at the school house and its negative effect on teacher retention, review of CIS and of tenure, due process rights for non-tenured teachers, correction of classified leave to align with the language of certified personnel, and the Family Medical Leave Act for maternity leave. She said the Board is being asked to research and demonstrate the progressive nature of the Caddo Parish School Board.

Gail Griffin asked the Board to favorably support renaming the A. C. Steere Library in memory of Dan C. Waters, former A.C. Steere principal. She also presented a picture of the A.C. Steere Elementary School to each Board member.

Tahira Abdul-Rahmen, representative of the Booker T. Washington High School Alumni Association, expressed appreciation to the superintendent and Board for their support of Booker T. Washington High School and participation in the activities surrounding the placement of Booker T. Washington High School on the list of National Historic Places.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the board's consideration, and the following discussion ensued.

Approval to Name the A. C. Steere Library in Memory of Dan C. Waters. Denee' Locke expressed appreciation to Gail Griffin for bringing the item to name the A. C. Steere Library in memory of Dan C. Waters and recognized Kim Derrick, principal, and Mrs. Dan C. Waters who were present at today's meeting.

President Riall announced that Items 6.02, 7.01, 8.01-8.04, 8.06-8.07 and 13.01 are the consent agenda. *Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and consent agenda for the November 17, 2015 CPSB meeting. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports-Resignations. The Board approved the personnel transactions reports (resignations) for October 1-31, 2015 as submitted in the electronic mailout.

Item No. 7

7.01 Bids. Purchasing. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) multiple vendors for the purchase of canned and frozen food, fish, poultry, eggs and meat; and (2) multiple vendors for the purchase of food service paper and supplies. *A copy of the bid tabulation sheets is filed in the official papers of the November 17, 2015 CPSB meeting.*

The Board also authorized staff to enter into a Cooperative Purchasing Agreement (Piggyback) on the Rapides Parish School Board Catalog Bid #15-28 for Educational Materials and Supplies.

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved a resolution for the MJ Moore School Lease to Looking Unto Jesus Outreach Ministries and the request for school buses for Educational Talent Search at SUSLA as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Approval to Name the A. C. Steere Library in Memory of Dan C. Waters. The Board approved naming the A. C. Steere Library in memory of Dan C. Waters.

8.04 Approval of Revisions to CPSB Policies BCBB (Notification of Meetings) and BCBD (Agenda Preparation and Dissemination). The Board approved the revisions to CPSB Policies BCBB (Notification of Meetings) and BCBD (Agenda Preparation and Dissemination) as submitted in the electronic mailout.

8.06 Authorize Staff to Begin the 90-day Process for Renaming the Magnet Hall at Captain Shreve High School the Dr. Sandra McCalla Magnet Hall. The Board authorized staff to begin the 90-day process for renaming the magnet hall at Captain Shreve High School the Dr. Sandra McCalla Magnet Hall.

8.07 Authorize Staff to Solicit Bids for the Sale of the Hamilton Terrace Property. The Board authorized staff to solicit bids for the sale of the Hamilton Terrace property as submitted in the electronic mailout.

Item No. 13

13.02 Student Readmission Appeal Hearings. The Board approved student appeals for MM and TM as recommended by staff and whose parents are in agreement.

AUTHORIZATION FOR STAFF TO ACCEPT BIDS ON KNIGHT STREET PROPERTY AND KINGS HIGHWAY PROPERTY

Mr. Rachal moved, seconded by Mrs. Bell, to authorize staff to re-issue for sale 655 Kings Hwy. at 80% of the appraised value and re-issue for sale the Knight Street property at 85% of the appraised value. Mr. Rachal asked if any other means for selling these properties has been

considered. Mr. Abrams stated that the Kings Hwy. property is actually the property staff wanted to demolish; however, staff is following the process to see if it can be sold and moved at fair market value, even though it is delaying staff moving forward in leveling the lot and preparing for the parking lot. Relative to the Knight Street property, Mr. Abrams explained that the legal process requires minimum bids the Board can accept in selling property; and if it does not sell, then the Board could look at alternate ways of selling the property. Mr. Rachal asked if the Board has to rebid down to the 50% of the property's value? Mr. Woolfolk said it is 80%, and after 80%, the Board can set its own price. Relative to handling the sale in a different manner at that point, Mr. Abrams explained it would have to be a bid process, but the Board could advertise it differently or involve someone else to better facilitate a sale.

Dr. Goree shared that staff is working with Counsel regarding concerns relative to getting top dollar for the District's properties. Mr. Woolfolk stated staff has also discussed ways we could market properties after meeting the legal obligation of 80%, and at the appropriate time will bring something back to the Board. Mr. Abrams added it would have to be an auction process even if a broker is involved. Mr. Rachal asked if any thought had been given to the District becoming a landlord for this property and leasing it. Dr. Goree said leasing the property has not been discussed at this point; however, through the Strategic Plan, if the property does not sell after going through the process, leasing could be one of the options for Caddo's buildings. Mr. Rachal said he would like for staff to begin getting information in this regard.

Mrs. Bell asked for clarification and if staff is talking about selling the house located on the 655 Kings Highway property, and Mr. Woolfolk confirmed that is correct; and if the house does not sell, we will tear down the house. Dr. Goree also added that we must be able to access the property and complete the projects for Byrd High School. Mr. Rachal suggested auctioning the house if there are no bids, and if there are no time constraints, and Dr. Goree responded that staff will provide additional information to the Board on these possibilities.

Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that everything under Superintendent's Report is for the Board's information, and he asked everyone to keep Roy Murry and his family in their thoughts and prayers in the loss of his mother.

ANNOUNCEMENTS AND REQUESTS

Miss Green expressed appreciation to Dr. Goree, Mr. Tisdale, and staff for putting together an outstanding 2015 Soul Bowl. Miss Green also asked if, in recruiting and training bus drivers, we are requiring that they work in the District for a certain timeframe before leaving.

Mrs. Brown commended the Booker T. Washington Alumni Association for the wonderful job in recognizing BTW's placement on the National Registry of Historic Places. She also asked staff for a list of expenditures for mental health services in response to an article in the Sunday, October 16, 2015 *Shreveport Times* reporting that the CPSB spends \$2 million for these services.

Ms. Trammel noted that the Christus Schumpert Clinic at Atkins provided flu shots at no charge for the students as well as some of the parents.

Mr. Green expressed his appreciation to Mr. White and Mr. Tisdale for taking care of a unique situation at Oak Park Elementary School.

Mrs. Bell thanked Billy Snow for the Amazing Shake experience with students.

EXECUTIVE SESSION

Ms. Trammel moved, seconded by Mrs. Bell, to go into executive session for 10 minutes for a legal update on Whatley v. Eagle, Inc. et al; No. 2010-11560 Civil District Court, Parish of Orleans. Vote on the motion carried and the Board went into executive session at approximately 5:44 p.m. The board reconvened in open session at approximately 5:57 p.m.

Adjournment. *Mr. Rachal moved, seconded by Miss Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:58 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

November 17, 2015

The **Caddo Parish School Board (CPSB) Long Range Planning Committee** met in regular session on Tuesday, November 17, 2015 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Bonita Douzart, Barry Rachal, Susannah Poljak and John Albritton. Also present were Steve Riall, Denee' Locke, Mary Trammel, Dottie Bell, Raymond Green, Margaret Brown, Dr. Lamar Goree and Reggie Abrams, legal counsel. Staff members present were Jim Lee, Keith Burton, James Woolfolk, Dr. Mary Nash-Robinson, Tommy Smith and Mary Wood. Mr. Ramsey led the prayer and Pledge of Allegiance.

PRESENTATION BY CENERGISTIC

Mr. Ramsey announced that the purpose of today's meeting is to hear a presentation from Cenergistic. Mr. Woolfolk introduced Lance Wyatt with Cenergistic, an energy conservation program. Mr. Ramsey announced the meeting will be for one hour and he would like to allow ample time for Board members to ask questions.

Mr. Wyatt shared with the committee Cenergistics' history and their work with K-12 districts to help them save money through energy conservation and return a portion of the savings to the classroom. He shared annual percentages in savings in the districts they have worked with (1400 clients), with over 92% of their business being in K-12 schools. He explained there is no capital required to work with them, they will not come in and recommend changing current equipment, but will help districts get the most out of the equipment in place, and guarantee the district will not spend more than it saves. He further highlighted the big area of conservation, and that organizational behavior change and getting everyone in the organization on board to help save money without jeopardizing comfort in the classroom will be the biggest return on the investment. While newer equipment does enhance savings by an additional 14%, they will come in and help districts without changing out the equipment in place. He further added that changing the conservation consumption practices will save the district 25-30%, and while this is the most difficult thing to do, the focus must be on sustainability. He said they will identify the district's challenges and utilize their 29 years of experience to customize a solution.

Cenergistics will partner with four energy specialists in the District who will serve as the base of the program, and Cenergistics will train them to identify problems and hopefully become more pro-active and eliminate some of the work orders. Professional development will also be included as well as engineering resources, and keeping comfort in the facilities as a focus to help get the most out of the older equipment and buildings. Mr. Wyatt also shared a financial summary and the five-year agreement where there are no fees during the first six months; and, after the first six months, they will only share in 50% of the savings. If Cenergistics does not save the District money, the District will not write them any checks; but if the District does see a savings, it is split 50/50 with Cenergistics. From Cenergistics' 50% share, they will pay the salary, benefits and training for the four energy specialists. Long term benefits include enhanced comfort, cultural conservational change, and optimized infrastructure. Those who have been in the program a minimum of 10 years have seen a savings of \$13 million plus for that time period; and the projected net savings of the first 18-month period is over \$880,000, and a net 5-year savings of over \$4.5 million.

Following the presentation, Mr. Wyatt responded to Board members' questions relative to specifics on individual district savings, no required upfront capital dollars, different areas of savings, equipment, focus on conservation versus efficiency, previous report on the age of Caddo buildings and HVAC units, the misconception that the older facilities can still see savings, investments and savings, internal changes made by Districts for which they can gain credit, what the District can do without hiring four additional people, negotiating of better prices with utilities, organizational behavior, recommendations to experience the projected savings,

timeframe for implementing savings measures and getting others in the organization on board, qualifications for the energy specialists, incentives for student participation and working with staff to develop a baseline.

Dr. Goree shared his experience of seeing Cenergistics in operation and noted that it has improved much since that time. Superintendent Goree added that in looking at budgetary situations, people and energy costs make up the majority of those costs and this is a step towards looking for the right vehicle to make sure the District is being as energy efficient as possible. Also, from the people perspective, the people are owned by the company (the energy specialists will work for the company and not the school district).

Mr. Abrams inquired about a possible capitalization on the savings and as energy costs decrease, are we looking at total BTUs or the amount of energy consumption; and Mr. Wyatt responded it is all consumption driven. While they are glad to see decrease in energy prices, when the District sees a decline in unit costs, the District will write a smaller check to Cenergistic.

Mr. Rachal noted that this is a conversation he began approximately 12 years ago; and while he is glad to get to this point, this is only an option among what he believes are more options and he would like to receive more information. Mr. Ramsey explained that this meeting is to only hear a presentation from this company and there is no action today. He agreed this is an issue that has come up before and announced that once additional information is available, he would like to schedule another meeting, receiving the information at least a week prior to that meeting. Dr. Goree also recognized his awareness that there are other vendors that provide this service and his openness to presentations by other vendors interested in this area. Mr. Woolfolk shared a copy of the District's Strategic Plan and how the District can benefit from this service, and he explained staff is working with the energy service provider to put computerization in the larger schools and not the smaller schools to determine the efficiency.

Chair Ramsey announced that he will wait to hear from the Superintendent relative to additional presentations and when staff is ready to make a recommendation to the committee, he will schedule additional meetings as needed. Dr. Goree announced staff will provide Board members all information staff has received.

Adjourn. *Mrs. Douzart moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:55 p.m.*

December 1, 2015

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, December 1, 2015 at approximately 4:35 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and Mary Trammel and Dottie Bell present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel were also present. Board member Dottie Bell led the prayer and Pledge of Allegiance.

PRESENTATIONS

Bill Strother, director of communications and marketing, introduced the Carolyn Spaht Gonzalez and Wendell Delaney who shared a report on the Community Input received from various groups in the community to gather a true assessment of how the community views Caddo Schools as well as where they would like to see the District go through the Board-approved Strategic Plan.

Superintendent Goree shared that over the last couple of years he has heard several opinions/observations on the school district; and as the Strategic Plan was completed in July, the process was opened up to the City, the community, and to all stakeholders for the opportunity to go through the plan and provide feedback on strengthening that plan. Even though it was obvious at that time there was a very diverse opinion about how we were performing and should perform in the future, he thought it a great idea to engage citizens that are a part of the community in helping gather the needed information. He also shared background information and experience as to why Mrs. Gonzalez and Mr. Delaney were chosen to carry out this part of the process.

Wendell Delaney, retired Shreveport Police Officer who played a key role in several community based initiatives, expressed appreciation for representatives from neighborhood associations as well as community leaders for assisting in this process and for taking the time to be in attendance today. Mr. Delaney said that he and Mrs. Gonzalez met with 11 different groups in the community, i.e. pastors, neighborhood associations, politicians, community and business leaders, students, universities, et.al.

Mrs. Gonzalez announced a more detailed written report to the District is attached online for public review and she will only highlight a summary of the report findings. She began her presentation by recognizing those in attendance who participated in one of the community groups and expressed appreciation for the time committed to this project in addition to being in attendance for this presentation. She stated that her work experience in Miami Dade County Schools, as well as in the non-profit, profit and public sectors, enabled her to look at this project from more than one angle. She noted that this process has been one of the purest she has ever engaged in and clarified that it began by the Superintendent meeting with them and telling them he really wanted to hear what was going on in the community; he wanted to hear the truth and he didn't believe if he was in the room that would happen. She commended the Board for this. She also said she found that the community was eager, excited, and enthusiastic about giving the input; and that of the 150 plus that showed up to provide input, it was very evident they were excited about providing input, they wanted to see change and to be a part of change.

Mrs. Gonzalez explained that she and Coach Delaney are vessels for communicating the information from the community to the School Board. They scheduled and hosted the meetings, analyzed the input, summarized common themes, and are now coming to the Board with the findings. Some of the bright spots included (1) the District is moving in the right direction, (2) a renewed faith in the School Board, the administration and the Superintendent, and (3) an appreciation that they (Mrs. Gonzalez and Mr. Delaney) came to them for input without anyone

from the School District being in the room. She also shared the following issues were heard the most in the meetings:

- parental involvement and education (how parents can help their children succeed);
- teacher support and effectiveness (mentorships, targeted professional development, appreciation, process for ineffective teachers);
- equity across schools (staffing and resources);
- lack of neighborhood schools and community ownership/input (lack of understanding of attendance boundaries, are magnet schools the best, lack of investment in the current neighborhood schools);
- fiscal responsibility/state of district (even though not something on the watch of the current administration, something that needs to be addressed quickly, is the money being used in right places, more transparency);
- public image/trust (something that began several years ago);
- transportation (late buses, routes, communication gap);
- lack of transparency and unity (want to know more, availability of Strategic Plan other than electronically, awareness on the front end of major changes, i.e. closing schools; inclusion in the thinking process, continual communication, unity between schools and Central Office as well as among the schools, also public entities in the parish);
- discipline of students (students disrupting other students, all discipline addressed the same from school to school);
- technology at schools (availability at all schools and using it more creatively for curriculum and academic success);
- customer service/partnerships (external public feeling lack of customer service at Central Office and at schools; as well as internal staff feeling lack of customer service; feeling of District being difficult to partnership with [over the years]);
- excessive testing/programs (communicating changes and providing needed professional development, eliminating programs as new programs are added);
- too little career prep and low ECE focus (get in front of this National trend and put more focus and effort on these two areas);
- old buildings (the way they look and their functionality); and
- politics (too many politics draw too many decisions).

Mrs. Gonzalez further reported that the recommendations received were grouped in the areas of (1) parent and community, (2) curriculum and instruction; (3) finance and resources); and (4) school buildings and boundaries and she summarized each as follows, noting that some of these are already included in the Strategic Plan; and in the next step, it will be important to determine which ones should be added to the Strategic Plan.

Parent and Community

- Implement a formal, district-wide parent education program;
- Superintendent to meet with community consistently to hear issues, communicate changes and get input;
- Change culture to one of customer service;
- District leadership (School Board, Central Office and Superintendent) visit schools and attend events frequently;
- Communicate good news/successes often;
- Unify with other government agencies and create mutually-beneficial agreements based on community and student needs;
- Be transparent.

Curriculum and Instruction

- Focus on teachers, i.e. greater support, retention, pay, focused Professional Development, process of dealing with ineffectiveness;
- Build up neighborhood schools academically, and
- Increase focus on Early Childhood Education, career prep and use of technology in classrooms.

School Buildings and Boundaries

- Update/beautify schools and equipment
- Review attendance boundaries and magnet programs, and
- Open school buildings for community use, i.e. community events.

Finance and Resources

- Hire outside agency to perform an audit to help identify issues and reallocate resources and be transparent with findings
- Revisit school resource/program allocation (formal and informal), and tailor resources/programs to schools' needs.

At this point, Mrs. Gonzalez explained that the next steps in the process are for the Caddo Parish School Board and include:

- Review of all community input in detail,
- Determine which are represented in the Strategic Plan and which will be added or revised,
- Determine timing and budget implications for added strategies,
- Communicate decisions to the community and get feedback, and
- Create a plan for implementing all adopted strategies.

Mrs. Gonzalez thanked the Board for allowing them to be a part of the change that is happening in Caddo Parish.

Mrs. Bell expressed her appreciation for the in depth report and that she is glad to know what the community has said. She asked for further clarification on what will be done with the information provided. Dr. Goree explained the process was to help strengthen the Strategic Plan, and he continually communicated throughout the process that this is a working document; and as we look at opportunities to annually update the plan, this information will be critical in some of the changes that will be made in our efforts to improve our students and our community. He added this information will be used to further update the strategic plan; and it is very important for the Board members to read through the comments as a means to help in decisions made around the horseshoe. Also, he reiterated Mrs. Gonzalez's comment about the "honeymoon state", and it was easy for people to say the nice things, but there are a lot of other things that needed to be said, which is what he believes was brought forth.

Miss Green asked about the renewed faith and hope in the Board, the Superintendent and his administration as mentioned in the "bright spots". Mrs. Gonzalez explained that a few conversations were relative to the fact the community believed over the past years there has been a lack of faith in the school system; however, they also feel at this time a sense of renewed faith or a new feeling of hope and high expectation, that things are going to be different and different for the better. Miss Green asked if it is because of a new superintendent, a new Board. Mrs. Gonzalez responded that a new makeup of the Board, a real trust for the new Superintendent, staff following through more are a few of the things mentioned.

Mrs. Brown noted the outstanding report from the “new sheriff in town”, and she believes the ideas have created the much needed energy. She encouraged all present to consider voting on Saturday.

Mr. Ramsey complimented the presentation and asked for confirmation that many of the notes shared will be taken and used in the Step Forward Process. With education being only one component of the community, it is important to share this with those in the community. He further explained that the customers are the parents and students at the school site, and it is important to pay attention and be aware of what is happening. He also added he requested the Superintendent to include regular reports to the Long-Range Planning and Development Committee.

Dr. Goree further stated that in education, it is often easy to say that our customers are the children, since the District’s work is to produce the best educational opportunities for children; and the staff does recognize the importance of having all stakeholders at the table.

Mr. Rachal noted the interesting points from the students and asked if the order is High Priority down to Less Priority, and Mrs. Gonzalez stated they are listed in the priority as they stated them. He also asked if the report is set up where the level of concern is listed in the priority, and Mrs. Gonzalez responded she did that for the issues/suggestions in the triangle, but she can also create it for the others. Mr. Rachal said that is something he is interested in seeing. He also noted the four areas in which concerns were grouped, and he believes we should look at these four areas to determine how they will fit into appropriate Board committees. He also asked the Board about the established standing committees; and if it would be appropriate to have individuals from the public sector as a part of these committees to help with the transparency. Mrs. Gonzalez responded that she has seen this done; and for Caddo, she believes the Board and the Superintendent will decide on what items will be implemented and over what period of time; and at that point, include individuals from the public sector on appropriate committees to work throughout the process for transparency and followup. Mr. Rachal noted the number of items with an asterisk indicating inclusion on the District’s Strategic Plan and the work in progress to address these items.

Mrs. Poljak asked about the request for news, specifically good news, to be communicated more with the public; and if they had any specific suggestions for doing so. As a Board member, she is aware that the good stories may make it on the local television stations; but, it doesn’t get absorbed. However, the bad news is all over the printed media, social media; and she asked if any suggestions were made as how to make that happen since she knows we share the positive news with these media outlets, but it is not getting heard. Mrs. Gonzalez stated that the only suggestion was to make sure the news communicated is not just via the Internet since a large portion of the public do not use the Internet. She also shared what was done in Miami-Dade County where the Superintendent wrote an editorial each week on what was happening in the district. Also, the more the district was in the face of the media, the more it seemed attractive. Also, people want to hear the stories about the children.

Dr. Goree thanked Mr. Delaney and Mrs. Gonzalez for their work and recognized the community representatives in attendance today. He also assured everyone that this will be utilized to make this the best opportunity possible for children.

Mr. Riall added that he believes the community now sees the Board/District moving in the right direction; and because the Board only has the students’ and District’s best interest at heart, he appreciates this indication of confidence in the Board.

Caddo Teacher Academy. Keith Burton, chief academic officer, announced that a grant was received last year to meet the need of more certified teachers in the classrooms. He explained

that we applied to become a teacher certification agency, something you typically find in colleges and universities. After looking and increasing our recruitment areas throughout the region, the colleges and universities were not providing the number of applicants and certified teachers to fill the voids in the District; thus this program was written to provide within the District opportunities for quality applicants to apply, to be mentored, to receive intensive training, to receive coaching, and if successful at the end of the program, to become a certified teacher. At this time, this year's program is half way complete and he introduced Kathy Gallant, director of professional development, to present an update on the 2015 Caddo Teacher Academy.

Mrs. Gallant expressed her delight about being at the meeting and sharing this good news, and she shared a video detailing the program. Teachers participating in the first Caddo Teacher Academy class were recognized, as well as the new teacher coaches.

Ms. Trammel expressed appreciation for being visionary and seeking the grant to provide this opportunity for Caddo's teachers. Mr. Riall expressed appreciation to the teachers for what they do for the students in Caddo Parish.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE DECEMBER 15, 2015 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its meeting on December 15, 2015 and the following discussion ensued.

Additions. Mr. Riall added the Superintendent's Evaluation under Executive Session. Evaluation forms were provided to Board members and Mr. Riall asked that these be completed and returned to Mrs. Lohnes within a week.

Bids. In looking at the Technology bids, Mr. Rachal asked for clarification on how the e-rate funds work. Sharon Golett shared that there are some new rules and services with e-rate funding and the District would like to take advantage of the services being offered, i.e. Dark Fiber. She explained that there is an 80% discount under the new formula and 20% is paid by the District. Mr. Rachal noted for the public that we are able to pay 20 cents on the dollar (millions of dollars) for the Technology in our Strategic Plan. Dr. Goree announced that the first update on the Strategic Plan will be in January; and because there is a need for technology in the areas of STEM Education and Digital Learning, this plays a vital role in not only saving funds, but also in improving our operations, speaking directly to some of the specific goals and making them a reality. Mr. Rachal asked if this will give the students the capability of going to laptops? Ms. Golett responded that is correct and one of the benefits is we will have two networks, i.e. one for Enterprise Services and one for student mobility which will help keep the data traffic separated and provide added bandwidth by one hundred fold. He stated that this e-rate opens up doors for many opportunities and noted that the cost of one of the projects would be approximately \$6 million, but with e-rate funding our annual cost is only \$300,000 a year for three years. Ms. Golett confirmed that our total cost is \$1 million and it will be spread out over four years. Mr. Rachal added this fits into the District's Strategic Plan and opens up many opportunities; and Ms. Golett added it is historic.

2016-17 CPSB School Calendar. Mr. Burton explained the process for bringing the proposed calendar to the Board for consideration. He noted the difference in previous calendars in that this calendar has 167 student contact instructional days, which is less than previous years. He added this calendar is being brought to the Board because research says an extended school year (year round) calendar is not the answer, but the greater benefit is seen by an increase in daily instructional time. The calendar presented also includes a modified bell schedule that adds 30 additional instructional minutes per day; and because there will be an increase in a total number of instructional minutes per year, this calendar will have well over that amount, Bulletin 741

requires approximately 63,720 minutes annually, which will allow for inclement weather days, maintenance issues, etc. Mr. Burton explained that the committee and staff also looked at employee absenteeism patterns, and strategically placed holidays throughout the calendar to address high employee absenteeism days. He highlighted dates in the proposed calendar, i.e. students report on August 15th, two PD days on August 11th and 12th for teachers, and the first reporting period ending on October 13th. He noted that a fall break is included in the proposed calendar in conjunction with Election Day on November 8th, and the first semester will be completed prior to the extended Christmas Holiday (December 21–January 6). Mr. Burton also explained that schools requested no breaks around testing, and this calendar addresses that. Also, Spring Break is March 27-31, and there also will be an Easter Holiday on Good Friday and the following Monday. Students and teachers will complete the school year on May 19th. If approved, Mr. Burton explained staff will begin working with the schools to develop their daily instructional schedules built around frameworks for literacy (that have been created) and begin sharing this with them as well as provide the needed professional development.

Mr. Rachal stated that approximately 9 years ago the District experienced a major struggle in attempting to do this and he is glad to see we have reached this point. He also asked Mr. Burton who was brought to the table in the discussions and setting of this proposed calendar. Mr. Burton responded that included in the process were Academic Affairs and Human Resources staff who began by looking at neighboring districts' calendars and attempting to align our calendars. He further stated that principals were brought in for input, as well as teacher organizations, and everyone came to an agreement. Mr. Rachal asked if this provides a better opportunity to return to a true block system in the high schools, and Mr. Burton explained that this calendar does not impact that; but it opens the door for discussion for providing more opportunities for course recovery and advanced opportunities for coursework in the future. Mr. Rachal noted that looking at the calendar and the minutes in each day, he believes the block schedule will work better with this calendar than with past calendars. Dr. Goree added it is a longer day, so it would better fit a block schedule; however, while staff is looking at this, there are budgetary concerns with block scheduling.

Dr. Goree also reiterated Mr. Burton's comment that even though the school day is longer, there are fewer school days; and compared to the National trend, Caddo has a short calendar; but in looking at literacy and numeracy, this is moving in the right direction.

Mr. Riall asked about students in all schools affected by the literacy aspect. Mr. Burton stated that frameworks will be implemented for teachers to follow (outline for daily lessons), and this allows for an additional 30 minutes in reading. He further said this is something they are finding teachers need in all schools and previous calendars did not allow the opportunity for additional time in needed areas. In some of the struggling schools, Mr. Burton explained we will provide 180 minutes in reading which they believe will have a major impact on students and their scores.

Mr. Ramsey asked if transportation was considered when revising the bell schedule and is it possible there will be additional tweaking in this area to insure students get to school on time. Mr. Burton responded there are actually two different issues, one is a system with three different bell schedules, and the only change is the 25 minutes between elementary and the middle grades, and they have worked with Transportation and have been assured there is ample time between to run the bus routes. A second issue is the shortage of bus drivers; and with the gains in the department, he believes students will be picked up and delivered on time.

Approval of Mental Health Interagency Agreements and Contracts. Mrs. Brown thanked the superintendent for the information on the amount of dollars for mental health services and suggested that in the future we look at the possibility of a mental health center (similar to the medical centers) in the schools and how it may help the children.

Revision to Policy DJD Expense Reimbursement. Mrs. Bell questioned the \$1.00 amount for baggage on out-of-town trips, and staff clarified the amount to be reimbursed is \$1.00 per bag.

Piggy Back on DeSoto Parish Bid. Mrs. Brown asked for clarification on this item, and Dr. Goree explained that rather than Caddo going out for bid on buses, we can piggyback on DeSoto Parish's process and take advantage of their negotiations for acquiring buses. Mr. Lee added that we did this last year, and staff is basically asking the Board to renew it again this year.

ADDITIONS

Mrs. Bell asked that a presentation be made in January on Dual Enrollment in all high schools, what universities are involved and number of students involved at each school.

Mrs. Brown asked for information on the preK program, and Mr. Riall requested that she place this on a request form.

Mr. Riall announced that the consent agenda will be Items 7.01, 8.01-8.06, 8.08 and 13.01. The item addressing the Superintendent's evaluation will be moved to Executive Session.

Ms. Trammel moved, seconded by Mrs. Bell, to approve the proposed agenda and consent agenda for December 15, 2015 CPSB meeting as submitted. Vote on the motion carried.

POLL AUDIENCE

Ruby Small addressed the Board on matters of concern relative to her son, a Caddo Parish Public Schools' student. She shared her frustration that no one has called her regarding her request for bus transportation for her severely autistic son and asked that someone look into her situation and get back with her.

Billy Wayne asked that the Board obtain a list from the City of the Neighborhood Associations and to mail Home Owners Association a hard copy of agendas.

ANNOUNCEMENTS

Mrs. Brown asked staff to look into the "new lake" behind J. S. Clark that is creeping closer to homes around the school.

Mrs. Bell announced that the annual "Party with a Purpose", where gift cards and donations are collected for the homeless students in Caddo Parish, will be held on Thursday, December 3rd.

Mrs. Brown commended Mrs. Bell and Mrs. Palms for the efforts in this project.

Adjourn. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:23 p.m.*

December 1, 2015

The CPSB Transportation Committee met at 2:00 p.m. on Tuesday, December 1, 2015, in the boardroom, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Mary Trammel, Dottie Bell, John Albritton and Jasmine Green. Also present were Board members Steve Riall, Bonita Douzart, Raymond Green, Denee Locke, Larry Ramsey, Superintendent Lamar Goree, Legal Counsel Reggie Abrams and staff members James Woolfolk, Dr. Mary Nash-Robinson, Keith Burton, Jim Lee, Mary Wood, Bill Strother, and Billy Snow.

Chair Mary Trammel called the meeting to order and Miss Green led the prayer and Pledge of Allegiance.

Establish the Agenda as Submitted. *On motion by Mrs. Bell, second by Miss Green, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Mrs. Bell, second by Miss Green, the agenda was confirmed as submitted.*

Items for Consideration.

(1) **Letters from Dr. Goree and Director Jones/Payroll Concerns.** Chief Operations Officer James Woolfolk introduced Transportation Department employees Booker White, Supervisor; Raylette Jewett, Recruitment and Training Coordinator; Deandra Dorsey, Supervisor; and Mary Harris, Supervisor. He reported that a letter from Superintendent Goree was sent to bus drivers at their home addresses and it addressed issues relative to compensation (payment for extra trips); and it highlighted the new process for getting extra work, being paid for extra work in the drivers' monthly pay, as well as stressing the importance that drivers receive the field trip ticket showing authorization and that the trip has been put into the system to insure payment. He further reported that Otis Jones also sent a letter to the bus drivers addressing concerns brought forth from the Superintendent as a result of meetings with bus drivers relative to the office climate, and the suggestion that a Bus Driver Advisory Council (made up of 10 bus drivers) be set up to meet monthly and discuss issues of how better to run the department.

The difficult payroll concerns and internal as well as external customer service were also addressed and the change to treat the internal customers as customers. She also asked if there was a meeting scheduled after the mailing to explain this to them; and Dr. Goree responded the letter provided them with a contact number. The ability to fill out a form if anyone has an issue was also implemented and at this time, he is not aware of any outstanding issues. Mr. Woolfolk added that everything should be paid as of November 30th. Mrs. Bell stated she believes anytime such a letter is sent out, a meeting should also be scheduled to make sure everyone understands because she doesn't believe employees read the entire information emailed to them. She also added that customer service is a key issue needing addressed.

Dr. Goree stated that the method for addressing field trip tickets was one that came up a lot and staff believes we have a conclusion and the importance of communicating is being stressed.

Dr. Goree commended the staff for the outstanding job they have done in not only accepting the criticism but also reacting to the criticism. Mrs. Dorsey highlighted how payroll concerns have been addressed and that Mrs. Gilliard goes through the field trip system daily to determine outstanding trips, contacting the schools who have not put the completed trips in the system, as well as visiting the schools with new bookkeepers to train them on the field trip process. She said when there are issues brought to the Transportation Department, the

staff is attempting to address those issues rather than sending them back to the school. She further noted that everyone in the Transportation Department is working together to help complete outstanding PM and Field Trip runs in the system so drivers can be paid and paid on-time. Relative to customer service and training, she reported that there have been ways we can help parents and the drivers when they come in and give them one-on-one time. Etiquette training and communicating with tact will be provided for the drivers and employees in the Department in the coming months. Mrs. Dorsey also reported that 18 drivers have submitted their name for serving on the Advisory Council and the selection will be done through Classified Personnel. Renovation efforts in the lobby include painting, replacing furniture, flooring, and replacing the reception window with a sliding window.

Mr. Green asked that consideration be given to changing the wording in the letter from complaints to “voicing concerns”. Miss Green asked why there is a need for a window, and staff confirmed it is for safety reasons. In response to the process followed if the bookkeeper at the school does not follow through, staff responded that the key is drivers getting a ticket when trips are scheduled, the ticket being generated when it is entered into the system, and insures paying the driver and the Transportation Department can track it once it is in the system. Mrs. Bell asked about clarification on the steps a bus driver must follow so when she gets calls she can better respond to the concern. Mr. Abrams reminded Board members that when they receive calls, they should always refer them to the Superintendent. Mrs. Douzart stated her number one concern is safety and all drivers should be encouraged in that regard (children exiting buses and crossing multi lanes of traffic), and Mr. Abrams noted legislation and a proposed policy on the CPSB’s agenda today.

- (2) **Recruiting/Training Report.** Raylette Jewitt reported on recruiting and training of bus drivers noting that approximately 55 applications were received as a result of participation in two career fairs; 124 applications were received from using school marquees; four training classes have been held since May. In summary, Ms. Jewitt reported there were 64 cleared through Human Resources, 36 finished training and 14 have become certified. She announced another training class will be held mid-December and at this time there are 20 applicants for that class. She highlighted bus driver requirements, number of routes the Department covers, sick days allowed for each driver, 267 regular full-time drivers, 56 substitute drivers, and a shortage of 15 drivers currently.

Miss Green asked about the cost for training and Mr. Woolfolk responded if someone went anywhere else to receive a CDL, it would cost them approximately \$4,000. Miss Green asked about those who come to Caddo for the training, receive their CDL licenses and then go somewhere else. Ms. Jewitt confirmed that is correct that some have attended Caddo’s training for a CDL and when they received their certification will go drive for Sportran, etc. Miss Green asked if it is possible to create some type of contract so if Caddo provides the training and they receive the certification, we can require that they work for the district a minimum amount of time, i.e. 6 months; or if they leave, they must pay for the training and certification. Mr. Woolfolk responded that he has spoken with Legal Counsel and staff will be sitting down to discuss this further with him.

- (3) **Bus Wash.** Mr. Woolfolk reported that staff surveyed other districts relative to the type of bus washes they use, and is currently reviewing feedback and the pros and cons of each (chemical vs. brushes) to determine the type bus wash we want.
- (4) **On Time Delivery Report.** Booker White reported that the average on time delivery since school started is 93.3% and they have seen the percentage improve since August. He also reported that absences have improved which is also tied in with the bus training and with the 5-year plan to get to 98%.

Superintendent Goree added that from his conversations with bus drivers, the biggest problem is the age of the fleet and this concern has been expressed by the mechanics who work on the buses daily; and this is something that must be addressed at some point. Mr. Woolfolk also added that with the Department being approximately 15 short on buses, mechanics are placed on buses every day driving.

Dr. Goree also complimented Mrs. Lansdale who worked with the administration on this issue and played a big part in directing him to the correct ones to start this bridge.

Ms. Trammel reiterated the purpose of today's meeting was to bring everyone up to date on addressing issues in this department. She stated she is pleased with what she has heard, and encouraged the Department members to consciously use the term "we" and not "I".

Adjourn. *Mrs. Bell moved, seconded by Miss Green, to adjourn, and the meeting adjourned at approximately 3:00 p.m.*

December 15, 2015

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, December 15, 2015 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Bell led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE NOVEMBER 17, 2015 AND DECEMBER 1, 2015 CPSB MEETINGS

Mr. Rachal moved, seconded by Mrs. Bell, to approve the minutes of the November 17, 2015 and December 1, 2015 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Caddo Magnet High School Jazz Band. Members of the Caddo Parish Magnet High School Jazz Band were recognized and performed musical numbers for the Board and audience. Dr. Thomas Stone is the band director.

Superintendent Appointment. Congratulations were extended to Superintendent Lamar Goree on his appointment to Governor-elect Jon Bel Edwards' Transition Team for K-12 Education.

Presentation to Homeless Department. Board member Dottie Bell and Mrs. Lavada Palms presented approximately \$4,000 in cash and credit cards to the Homeless Education Department. She shared the history of their sorority annually holding the "Party with a Purpose" event since Katrina ten years ago and providing toys to the children displaced here. Since that time, she explained the program changed and now provides assistance to the homeless through the Homeless/Title I Program. She also recognized and thanked Mr. O and his wife, owners of Big O's Catfish and More, for providing the place for the party at no charge. Board members were encouraged to support this worthwhile program.

Caddo Middle Magnet Student Awarded "Outstanding Young Philanthropic Leader Award". GraceAnne Hodgson, 6th grade student at Caddo Middle Magnet, was recognized for receiving the "Outstanding Young Philanthropic Leader Award" for her project of raising over \$7,000 for the Feist Weiller Cancer Center.

2015 We Care Essay and Video Contest Winners. Tom Watts and Bob Griffin with Community Renewal International recognized students for their essays and videos in the annual We Care contest. This year's theme was "Why and How I Care for Others". The 2015 winners recognized included Elementary – 3rd place, Lauren Baylor, 5th grader at Claiborne Fundamental; 2nd place, Anna Marie Kemper, 5th grader at Fairfield Elementary Magnet; and 1st Place, Thomas Awagu, Walnut Hill Elementary/Middle. Middle School Essay Winners are 3rd Place, Lucas Haddock, 8th grader at Youree Drive Middle School; 2nd Place, Nicholas Smith, 8th grader at Donnie Bickham Middle; and 1st Place Brandyn Abrams, 8th grader at Youree Drive Middle School. High School Video winners are 3rd Place, Margarret Taylor 12th grader at North Caddo

High School; 2nd Place, Aaron Terry, 11th grader at North Caddo High School; and 1st Place Olivia Davis, 10th grader at Caddo Magnet High School.

Christmas in Roseland Winners. The following Caddo Parish Public School winners in the Christmas Cards to the Community Program were recognized: Elementary – 3rd Place, Mooringsport Elementary, Leslie Snow, Art Teacher; 2nd Place, Claiborne Fundamental, Janet Wolfe, Art teacher; and 1st place, Fairfield Elementary Magnet, Emily Berg, Art Teacher. Middle School winners are 2nd place, Youree Drive Middle School, Patricia Mason, Art Teacher; and 1st place, Caddo Middle Magnet, Erin Sitton, Art Teacher. The High School winner is 3rd place, Captain Shreve, Caleb Phillips & Betty Sue Clark, Art Teachers.

2015 Annual Greening of the Louisiana State Exhibit Museum Winners. The following Caddo Parish Public Schools were recognized for placing in the 28th “Annual Greening of the Trees” at the Louisiana State Exhibit Museum. Fourth place – North Highlands, Cathy Leonardo, Art Teacher; 3rd place, Eden Gardens, Kristi Wren, Art Teacher; 2nd place, Claiborne Fundamental, Janet Wolfe, Art Teacher; and 1st place, Riverside Elementary, Christine Griffith Art Teacher.

2015 State Fair of Louisiana Baton, Dance Line, and Cheer Competition Winners. The following schools were recognized as winners in the Louisiana State Fair Baton, Dance Line and Cheer Competition: Elementary Schools – Blanchard Elementary Cheerleaders, 1st Place Elementary Medium Pom, 1st Place Elementary Medium Cheer, 1st Elementary Medium, Show Production and Elementary Grand Prize Winner; and Oil City Elementary Tigerettes, 1st Place Elementary Large Pom. Middle School winners are Turner Cheerleaders, 1st Place Middle School Large Cheer Group with Dance; Walnut Hill Cheerleaders, 1st Place middle school, Medium Cheer Group with Dance and 1st Place Middle School Medium Cheer Novelty; Youree Drive Middle Spartan Line, 1st Place Middle Small Pom, 1st Place Middle Small Military; and 1st Place Middle Small High Kick; Youree Drive Middle Varsity Cheer, 1st place Middle Small Novelty Cheer; 1st Place, Youree Drive Middle School Spartan Dance, Middle Small Novelty; Donnie Bickham Patriot Belles, 1st Place Medium Hip Hop, 1st Place Medium High Kick, 1st Place Medium Jazz, 1st Place Medium Pom and 1st Place Medium Military; Donnie Bickham Patriot Belles, Middle School Grand Prize Winner; Donnie Bickham Cheerleaders, 1st Place Large Cheer; Herndon Highsteppers, 1st Place Middle School Large Pom, 1st Place Middle School Small Pom, 1st Place Middle School Large Military, 1st Place Middle School Large Novelty, and Middle School Secret Judges’ Award Winner.

High School winners are Fair Park Cherokee Belles, 1st Place High School Small Pom; Booker T. Washington, 1st Place High School Medium Cheer Pom; Caddo Magnet High School Dance, 1st Place High School Large Show Production-Combo and 1st Place, High School Large Folk Dance; Huntington Jewel Twirlers, 1st Place High School small baton; Huntington Jewel Twirlers & Shining Flags, 1st Place high school small flag line; Captain Shreve Gator Highline, 1st Place High School Medium Jazz; Captain Shreve High School’s Mata Drain, High School Solo Grand Prize Winner; Green Oaks Dancers, 1st Place High School Small Jazz and 1st Place High School Small Hip Hop; Green Oaks Performing Arts Academy, High School Twirler Grand Prize Winner; Byrd Highsteppers, 1st Place High School High Kick, 1st Place High School Medium Hip Hop, 1st Place High School Medium Pom and High School Grand Prize Winner; Northwood Varsity, 1st Place High School Medium Cheer; Northwood Falcon Line, 1st Place High School Large Pom, 1st Place High School Large Novelty, 1st Place High School Large High Kick and Secret Judges’ Award Winner.

Presidential Award for Excellence in Mathematics and Science Teaching. Kris Clements, Science Teacher at Caddo Magnet High, was recognized as one of four science teachers in Louisiana who is a finalist for the Presidential Award for Excellence in Mathematics and Science Teaching.

Jasmine Green recognized and welcomed former Board member Curtis Hooks in the audience.

VISITORS

Tyrone Burton, principal at Cherokee Park Elementary, addressed the Board in support of the 2016-17 SY calendar and extended time in the classroom. He said this will allow more time in Core subjects and English/Language Arts and encouraged the Board to approve this calendar.

Dr. Ruby Scroggins, principal at J. S. Clark Elementary, expressed her support for the 2016-17 school calendar, specifically the benefits of the concentrated amount of instructional minutes skill-building and mastery.

Gwen Toner shared her support of the proposed 2016-17 calendar and what research says about longer school days and the positive results seen. She encouraged the board to support the proposed calendar.

Rob Broussard, president of the Broadmoor Neighborhood Association, addressed barriers for groups/organizations to use the neighborhood schools for various community meetings/events. With one of the goals in the strategic plan to work more closely with the communities and get communities involved in the process, he asked the Board to look at providing a mechanism for organizations to work around requirements such as insurance by having the School Board absorb that cost. He reported that no progress in this area has been made since discussions a year ago and if this goal is met, he believes this should become a priority and that every effort is made to work with the Broadmoor Neighborhood Association. He asked that the School System reach out to them and communicate with them in their efforts to help solve some of the problems the School System is facing relative to performance. Mrs. Locke asked the superintendent to follow up on Mr. Broussard's request.

Jackie Lansdale, president of the Red River United, shared with the Board three issues for the Board's attention: (1) the upcoming calendar, (2) enforcement of attendance laws, and (3) transportation concerns. Regarding the school calendar, Mrs. Lansdale noted earlier discussion on concerns of how changing from the A-B block to a 7-period day and meeting all the required minutes will have a negative impact at the school sites, i.e. teachers working extra-long work days without compensation. She said the calendar before the Board addresses their concerns providing for a longer academic period that will meet the teacher's required work day and year. Regarding the enforcement of attendance laws, she asked the Board to address the fact that Caddo has deviated from the state requirements in terms of unexcused students. With BESE clearly defining parent note absences and how student absences should be addressed, Mrs. Lansdale asked that the Board look at the danger of not enforcing this law and the domino effect it will have on teachers and students' performance and encouraged the District to come into compliance before the beginning of the second semester. Also, regarding transportation, she believes that the efforts to bring in new drivers have been undermined by the Transportation Department's unwillingness to move them to permanent status. She added that the District is losing drivers because they cannot afford to work all day at sub's daily rate of pay and asked that this issue is addressed immediately. She also commented on her involvement with the transition committee for Health and Hospitals and that she has brought to them the Caddo emphasis on the well/healthy child and support of students getting at least 20 minutes for lunch.

Cheryl Martin thanked the School Board for giving them the opportunity to speak about their program (School of Greatness) and the opportunity they have had to mentor over 600 students in Caddo Parish. She said this is a mentoring program that builds leadership, teams with a consortium of teachers, partners within the State, Local and National levels in developing a global community by promoting best practice thinking local model for the community to insure

they are working together with the school and the community. With the consortium consisting of business owners, educators, military and community leaders, she highlighted the program and how speakers come in their efforts to expose students participating to as many professions as possible. She further explained that students work at the school and become a partner in the educational process, receive quality instruction, citizenship skills, etc., promoting small business growth and long-term self-sufficiency. She asked that they be granted permission to go into the schools to work with the students in Caddo.

Jon Glover addressed practices in the School System that have not been effective for many children in Caddo Parish. She said the School System's main focus should be educating children and asked if anyone remembered the purpose of the 1965 Elementary and Secondary Education Act, the 2000 No Child Left Behind Act, or the That Every Student Succeed Act of 2015 which she believes is actually a bipartisan rewrite of No Child Left Behind. With this she said it is her belief that institution of this new act will move education accountability from the Federal Government to the States which could prove more detrimental than what was already in place. She further noted that in 2003 the RSD was created and came to Caddo when they took over Linwood and Linear Middle Schools. At that time, there was a criteria that must be met for them to take the school and for four years the students did not meet the minimum academic requirements that would exclude them from being taken over. Today, Ms. Glover reported that almost 10 schools in Caddo have consistently for four years met that criteria and asked the Board what it plans on doing about this. She stated she believes that every day our schools are in this position, the students are at risk and she asked about the possibility of instituting a good sound plan for addressing why so many of Caddo's students continue to be disadvantaged personally. While we have children that are succeeding, Ms. Glover said there are more that are not, and she encouraged the Board to get about doing the business of the School System so that these students have a chance.

Curtis Hooks, former District 5 Board member, expressed appreciation to those involved in renaming the Fair Park Gymnasium for Clem Henderson and Ron Preston and for the efforts to make this happen.

Barbara Jackson Norman, teacher at Westwood Elementary, addressed the Board in support of the proposed 2016-17 school calendar and the added time to each day for the Core subjects.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Lamar Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Goree announced that Items 6.01-6.03, 7.02, 8.01-8.02, 8.04, 8.06, 8.08 and 13.01 (all but student E.M.) are the Consent Agenda Items. *Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and consent agenda for the December 15, 2015 CPSB meetings as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell, to confirm the Consent Agenda (Items 6.01-6.03, 7.02, 8.01-8.02, 8.04, 8.06, 8.08 and 13.01 (with exception of EM)). Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved personnel recommendations as recommended by staff and submitted in the electronic mailout.

6.02 Personnel Transaction Reports-Resignations. The Board approved the personnel transactions reports for November 1-30, 2015 as submitted in the electronic mailout.

6.03 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the electronic mailout.

Item No. 7

7.02 Construction/Capital Projects. The Board approved the following bids as recommended by staff and submitted in the electronic mailout or placed at Board members stations on the bid tabulation sheets: (1) Martin Construction & Design, with a Base Bid for the sum total of \$202,069 for project 2016-216, "Claiborne Auditorium Seating & Re-Key"; and (2) J.D. Electric CO., Inc., with a Base Bid, Alternate 1, Alternate 2 and Alternate 3 for the sum total of \$134,000 for Project 2016-403, "Lakeshore Lighting Retrofit". *A copy of the bid tabulation sheets is filed in the official records of the December 15, 2015 meeting.*

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the request for long-term use of Hillsdale Elementary School by the City of Shreveport Police Department and the use of Turner's 6th Grade Academy Gymnasium as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.04 Approval of Mental Health Interagency Agreements and Contracts. The Board approved the mental health interagency agreements and contracts as recommended by staff and submitted in the electronic mailout.

8.06 Revision to Policy DJD-Expense Reimbursement. The Board approved the revision to CPSB Policy DJD (Expense Reimbursement) as recommended by staff and submitted in the electronic mailout.

8.08 Request for CPSB to Piggyback on DeSoto Parish School Board Bid for Buses. The Board authorized the CPSB to piggyback on DeSoto Parish School Board's bid for buses as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeals. The Board approved staff's recommendation for student readmission appeal requests for students LB, TL, AG, and TJ whose parents are in agreement.

PURCHASING BIDS

Mr. Rachal moved, seconded by Mrs. Trammel, to approve the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Hunt Telecommunications for the purchases of Wide Area Network Services for Information Technology; (2) Hunt Telecommunications for the purchases of DATA Center Connectivity for Information Technology, (3) Enterprise Computing Services for the purchase of Modulating Equipment for Information Technology; and (4) AT&T Corporation for the purchases of switched Ethernet Services for Information Technology. Mr. Ramsey announced that he will abstain from voting on this item since his former employer bid on this item. Vote on the motion

carried unanimously. A copy of the bid tabulation sheets is filed in the official papers of the December 15, 2015 CPSB meeting.

2016-17 CPSB SCHOOL CALENDAR

Mrs. Locke moved, seconded by Mrs. Bell, to approve the 2016-2017 Caddo calendar and to amend staff's proposed 2016-2017 bell schedule as follows:

<i>Elementary Schools</i>	<i>7:50 a.m. – 3:15 p.m.</i>
<i>Middle Schools</i>	<i>7:20 a.m. – 2:50 p.m.</i>
<i>High Schools</i>	<i>8:20 a.m. – 3:45 p.m.</i>

Mrs. Bell stated that this amended schedule reduces the dismissal time from the proposed bell schedule by 5 minutes. She said there have been numerous concerns raised from the public concerning the time we are releasing the students, and she appreciates the staff addressing many of the concerns; but the Board must weigh the educational benefits and the impact the decisions have on families. While there are many misconceptions regarding next year's proposed bell schedule, reducing the impact for parents should be a priority for the Board. The amended schedule will provide teachers and principals with necessary additional time without a huge impact on families at the end of the day.

Mrs. Bell reminded the Board that each Board member was elected to the Board to take care of the children, and it is important that the Board votes on what is best for the students. While she agrees with the visitor, she agrees you cannot teach everything in 50 minutes and the volume of homework students have is why parents are calling Board members. She added the plan does not add classes, more homework or more problems for families and hopefully students will have less homework. Mrs. Bell stated that she believes there are times when adults get too caught up in this rather than doing what needs to be done, and encouraged the Board to support the motion on the floor.

Dr. Goree noted the miscommunication throughout the process and expressed appreciation to the principals, teachers, parents, et.al. for working hard for one common goal and that is what is best for children. He asked Mr. Burton to highlight some of the concerns that have been raised. Mr. Burton explained some of the misconceptions as follows. It is untrue that additional classes and work are being added for students; but staff is asking for the ability to give teachers and students more time with their existing subjects. Support will be provided to principals as they begin developing their 2016-17 schedules in the spring. He explained the second misconception is that the additional time is only impacting the end of the day, the dismissal time; and this is not true. He noted those high school schedules that will only need tweaking a very small amount, i.e. additional five minutes in order to meet the parameters set in place. Many middle schools will only need to adjust their schedules approximately 20 minutes because of where their beginning and ending bells are set. The third misconception that this will cause an increase in homework is also not true; and because teachers' greatest frustration has been the amount of time they must cover massive amounts of content, it is believed that more time in the classroom will help students better understand and result in less frustration in homework assignments. He also stated that more in-depth training will be provided with principals and teachers to insure that they are maximizing their time in the classroom. Lastly, Mr. Burton clarified the comments that extra time does not guarantee an increase in student achievement and that this is true; but the increase in student achievement will be seen as a result of targeted interaction between teachers and students. By restructuring the time for reading, the teachers will have a framework to begin planning their instruction and guarantee equality in instruction across the parish. Mr. Burton stated that restructure of the calendar has been done to provide more proficiency in reading, allowing those schools that are below proficiency almost double the amount of time for reading instruction.

Dr. Goree added that from an employee perspective on adding time to the day, teachers have questioned additional compensation, but what is happening is the time will be used smarter than in the past. Also, even though an additional 20-25 minutes is being added to the instructional day, there is a reduction in the number of school days and the teachers will be teaching the same number of minutes but they will have students in more quality settings giving them more time to grasp the material when presented.

Mr. Ramsey asked staff to address not only the impact on the students and teachers, but will it be the school sites that take the lead in determining how this schedule will look like on their individual campuses. Mr. Burton explained that Central Office cannot provide a school with a perfect schedule to meet the needs of the students at each school, but it will be important to sit down with the principals and other administrative leaders at the schools to develop a schedule that works best for each school. While there will be some non-negotiables, i.e. amount of time spent in reading; however, the goal is not to provide a cookie-cutter approach for all schools. Mr. Ramsey also asked if an attempt will be made to control or monitor homework assignments, and Mr. Burton responded he believes staff will look at the homework policy and make sure that it is aligned with the curriculum and the schedule especially in the lower elementary and middle school. Dr. Goree also added that staff looks forward to working with the stakeholders since the amount of homework students receive is a common complaint/concern expressed by parents across the district. Mr. Ramsey asked how soon this will be communicated to principals once approved by the Board. Mr. Burton stated staff will immediately begin communicating with the principals; and after the Holidays, staff will begin scheduling professional development opportunities as well as building schedules.

Mrs. Poljak expressed that she too has heard these concerns and she agrees that we must think about what is best for the children. She noted her concern over the statistic that prisons determine the number of prison beds by the number of fourth graders that cannot read, and it is disturbing that we give up on our children when they are 9 and 10 years old. She believes this additional time dedicated to reading will give teachers the opportunity to concentrate on those children that need the help. Dr. Goree stated that the District does a good job of leading data-driven instruction and truly let student performance dictate how and what we are teaching children. However, with all staff's efforts, some of the standardized test scores are still showing 45% of our elementary age children behind grade level; and we do not need to continue doing what we are doing when we are not seeing any results from it. The charge as leadership is to look at how teachers can best be supported to support children to change this statistic. Dr. Goree added they will also collaborate with principals to help determine how this additional time is used in their schools. Mr. Burton explained that even the highest performing schools need additional time with reading and that teachers have shared their frustration in meeting the new higher standards adopted by the State; and the additional time will be flexed after dialogue with school leaders to insure that the time is appropriate. Mrs. Poljak voiced another concern of the impact the additional time will have on the bus schedule, and Mr. Burton clarified that the additional time is balanced between beginning of the day and the end of the day, so on average the extended time at the end of the day is 10-15 minutes. Dr. Goree added that parents can look at what time students are currently getting home and add about 10 minutes to that time. He also believes, based on feedback from Transportation, all students will be delivered to their home, in general, before dark.

Mr. Rachal stated that the superintendent and staff work early and often with all that have an interest and are affected by this, and he believes they have put together a good plan. He said he is grateful that Caddo has a superintendent and Board that understand how this will impact Caddo's students in a positive way and he looks forward to seeing the results from this change in the future. Dr. Goree added change is difficult, but often is necessary; and while he understands changes in schedules will never receive 100% support, he asked that citizens, parents, teachers,

et.al., who have questions about the schedule to work together with a focus of doing what is best for children.

Mrs. Trammel stated that one often hears if you change nothing, nothing changes; and she expressed her appreciation for this change and for what she knows will happen in the next school year. She also commended staff for blending this calendar with everyday life and hopefully positively affect absenteeism, and for allotting the additional time students need in the classroom to be successful.

Mrs. Brown noted the responses posted online regarding the additional time to the daily schedule, and she supports this decision to provide the additional needed time in the classroom for students. She said she also believes there is a need to provide a cross-section of experiences for the children, i.e. after-school enrichments in the communities. Dr. Goree noted the concern that after-school programs would be eliminated and that this is absolutely not true but he believes there will be an extension and enrichment upon what is being done after school for students. Mrs. Brown stated there are Federal funds for these type of things to afford students these after-school learning experiences.

As a former teacher, Mrs. Bell said with all the mandates to complete a skill or lesson at a specific time, and then 27 of 28 students fail when tested on that skill or lesson, there is a problem. She is hopeful that this additional time for teachers to work with the students will have successful results, and she encouraged the Board to support the motion on the floor.

Dr. Douzart reiterated that as a former teacher and coach, she can attest to the benefits of extra time in reading. Mr. Green shared that he believes it to be true that you do best what you do most, and this additional time in reading is what is needed to see improvement.

Mrs. Poljak moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried.

Vote on the main motion carried unanimously.

APPROVAL OF POLICY RELATIVE TO LOADING AND UNLOADING STUDENTS FROM SCHOOL BUSES

Mrs. Trammel moved, seconded by Miss Green, to approve the proposed policy relative to the loading and unloading of students from school buses as recommended by staff and submitted in the electronic mailout. Mr. Abrams stated that this comes based on the recommendation from Mr. Jones as to the safety for loading and unloading on shoulders. The Transportation Committee discussed this and the Board is ultimately passing a resolution based on the recommendation of staff that the shoulders are not safe. Mr. Jones stated that the new law states you must load and unload on the shoulder unless we can indicate and articulate that the District believes it unsafe to do so, and he noted specifics included in the proposed policy on why pulling on the shoulder is unsafe. Vote on the motion carried unanimously.

LEVEL IV GRIEVANCE DISPOSITION FOR CATHERINE B PRICE

Mr. Ramsey moved, seconded by Mrs. Poljak, to approve staff recommendation at Grievance Level III. Mr. Ramsey said he believes the information provided is very complete. Vote on the motion carried unanimously.

RESOLUTION PROVIDING FOR THE ISSUANCE AND SALE OF GENERAL OBLIGATION BONDS AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Rachal moved, seconded by Mr. Albritton, to approve the following resolution providing for the issuance and sale of general obligation bonds and providing for other matters in connection therewith.

RESOLUTION

A resolution providing for the issuance and sale of Eight Million Four Hundred Eighty Thousand Dollars (\$8,480,000) of General Obligation School Refunding Bonds, Series 2016, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners thereof; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and a special election held on April 17, 2004, the result of which was duly promulgated in accordance with law, Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), acting through its governing authority, issued \$14,290,000 of General Obligation School Bonds, Series 2008, dated March 1, 2008, of which \$12,140,000 is outstanding (the "Series 2008 Bonds"); and

WHEREAS, the Issuer is authorized to borrow money and issue general obligation school bonds payable from ad valorem taxes to refund its outstanding general obligation school bonds, pursuant to Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended (the "Act"), and other constitutional and statutory authority; and

WHEREAS, the Issuer has found and determined that the defeasance and advance refunding of a portion of the outstanding Series 2008 Bonds, consisting of \$8,660,000 of Series 2008 Bonds which mature March 1, 2023 to March 1, 2033, inclusive, as more fully described in Exhibit A hereto (the "Refunded Bonds"), would be financially advantageous to the Issuer and would result in a lower effective interest rate on such Refunded Bonds and debt service savings to the Issuer; and

WHEREAS, pursuant to the Act and other constitutional and statutory authority, it is now the desire of the Issuer to adopt this resolution in order to provide for the issuance of Eight Million Four Hundred Eighty Thousand Dollars (\$8,480,000) principal amount of its General Obligation School Refunding Bonds, Series 2016 (the "Bonds"), for the purpose of refunding the Refunded Bonds, to fix the details of the Bonds and to sell the Bonds to the Underwriter thereof; and

WHEREAS, it is necessary to provide for the application of the proceeds of the Bonds and to provide for other matters in connection with the payment or redemption of the Refunded Bonds; and

WHEREAS, it is necessary that this Governing Authority prescribe the form and content of the Defeasance and Escrow Deposit Agreement providing for the payment of the principal and interest of the Refunded Bonds and authorize the execution thereof as hereinafter provided; and

WHEREAS, in connection with the issuance of the Bonds, it is necessary that provision be made for the payment of the principal and interest of the Refunded Bonds described in Exhibit A hereto, and to provide for the call for redemption of the Refunded Bonds pursuant to a Notice of Defeasance and Call for Redemption; and

WHEREAS, the Issuer desires to fix the details of the Bonds and the terms of the sale of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

ARTICLE I. DEFINITIONS AND INTERPRETATION

SECTION 1.1. Definitions. The following terms shall have the following meanings unless the context otherwise requires:

"Act" shall mean Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other applicable constitutional and statutory authority.

"Bond" or "Bonds" shall mean any or all of the General Obligation School Refunding Bonds, Series 2016, of the Issuer, issued pursuant to the Bond Resolution, as the same may be amended from time to time, whether initially delivered or issued in exchange for, upon transfer of, or in lieu of any previously issued Bond.

"Bond Obligation" shall mean, as of the date of computation, the principal amount of the Bonds then Outstanding.

"Bond Resolution" shall mean this resolution, as it may amended and supplemented as herein provided.

"Business Day" shall mean a day of the year other than a day on which banks located in New York, New York, and the cities in which the principal offices of the Escrow Agent and the Paying Agent are located are required or authorized to remain closed and on which the New York Stock Exchange is closed.

"Code" shall mean the Internal Revenue Code of 1986, as amended.

"Costs of Issuance" shall mean all items of expense, directly or indirectly payable or reimbursable and related to the authorization, sale and issuance of the Bonds, including but not limited to printing costs, costs of preparation and reproduction of documents, filing and recording fees, initial fees and charges of any fiduciary, legal fees and charges, fees and charges for the preparation and distribution of a preliminary official statement and official statement, if paid by the Issuer, fees and disbursements of consultants and professionals, costs of credit ratings, fees and charges for preparation, execution, transportation and safekeeping of the Bonds, costs and expenses of refunding, premiums for the insurance of the payment of the Bonds, if any, and any other cost, charge or fee paid or payable by the Issuer in connection with the original issuance of Bonds.

"Debt Service" for any period shall mean, as of the date of calculation, an amount equal to the sum of (a) interest payable during such period on Bonds and (b) the principal amount of Bonds which mature during such period.

"Defeasance Obligations" shall mean (a) cash, or (b) non-callable Government Securities.

"Escrow Agent" shall mean with respect to the Refunded Bonds, Argent Trust Company, a Texas state trust company, in the City of Ruston, Louisiana, and its successor or successors, and any other person which may at any time be substituted in its place pursuant to the Bond Resolution.

"Escrow Agreement" shall mean the Defeasance and Escrow Deposit Agreement dated as of January 14, 2016, between the Issuer and the Escrow Agent, substantially in the form attached hereto as Exhibit B, as the same may be amended from time to time, the terms of which are incorporated herein by reference.

"Executive Officers" shall mean, collectively, the President and Secretary of the Governing Authority.

"Fiscal Year" shall mean the one-year accounting period ending on June 30 of each year, or such other one-year period as may be designated by the Governing Authority as the fiscal year of the Issuer.

"Governing Authority" shall mean the Parish School Board of the Parish of Caddo, State of Louisiana, or its successor in function.

"Government Securities" shall mean direct general obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, which may be United States Treasury Obligations such as the State and Local Government Series and may be in book-entry form.

"Interest Payment Date" shall mean March 1 and September 1 of each year, commencing March 1, 2016.

"Issuer" shall mean Parishwide School District of Caddo Parish, Louisiana.

"Outstanding", when used with reference to the Bonds, shall mean, as of any date, all Bonds theretofore issued under the Bond Resolution, except:

- (a) Bonds theretofore cancelled by the Paying Agent or delivered to the Paying Agent for cancellation;
- (b) Bonds for the payment or redemption of which sufficient Defeasance Obligations have been deposited with the Paying Agent or an escrow agent in trust for the owners of such Bonds as provided in Section 11.1 hereof, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to the Bond Resolution, to the satisfaction of the Paying Agent, or waived;
- (c) Bonds in exchange for or in lieu of which other Bonds have been registered and delivered pursuant to the Bond Resolution; and
- (d) Bonds alleged to have been mutilated, destroyed, lost, or stolen which have been paid as provided in the Bond Resolution or by law.

"Owner" or "Owners" shall mean the Person reflected as registered owner of any of the Bonds on the registration books maintained by the Paying Agent.

"Paying Agent" shall mean Argent Trust Company, a Texas state trust company, in the City of Ruston, Louisiana, as paying agent and registrar hereunder, until a successor Paying Agent shall have become such pursuant to the applicable provisions of the Bond Resolution, and thereafter "Paying Agent" shall mean such successor Paying Agent.

"Person" shall mean any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, or government or any agency or political subdivision thereof.

"Record Date" shall mean, with respect to an Interest Payment Date, the fifteenth day of the calendar month next preceding such Interest Payment Date, whether or not such day is a Business Day.

"Refunded Bonds" shall mean the Issuer's outstanding General Obligation School Bonds, Series 2008, dated March 1, 2008, consisting of those Series 2008 Bonds maturing March 1, 2023 to March 1, 2033, inclusive, which are being refunded by the Bonds, as more fully described in Exhibit A hereto.

"State" shall mean the State of Louisiana.

"Underwriter" shall mean Raymond James & Associates, Inc., the original underwriters of the Bonds.

SECTION 1.2. Interpretation. In this Bond Resolution, unless the context otherwise requires, (a) words importing the singular include the plural and vice versa, (b) words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders and (c) the title of the offices used in this Bond Resolution shall be deemed to include any other title by which such office shall be known under any subsequently adopted charter.

ARTICLE II. AUTHORIZATION AND ISSUANCE OF BONDS

SECTION 2.1. Authorization of Bonds; Refunding of Refunded Bonds. (a) This Bond Resolution creates a series of Bonds of the Issuer to be designated "General Obligation School Refunding Bonds, Series 2016, of Parishwide School District of Caddo Parish, Louisiana", and provides for the full and final payment of the principal of and interest on all the Bonds.

(b) The Bonds issued under this Bond Resolution shall be issued for the purpose of refunding the Refunded Bonds through the escrow of a portion of the proceeds of the Bonds, together with other available moneys of the Issuer in Government Securities, in accordance with the terms of the Escrow Agreement, in order to provide for the payment of the principal of and interest on the Refunded Bonds as they mature or upon earlier redemption, as provided in Section 13.1 hereof.

(c) Provision having been made for the orderly payment until maturity or earlier redemption of all the Refunded Bonds, in accordance with their terms, it is hereby recognized and acknowledged that as of the date of delivery of the Bonds under this Bond Resolution, provision will have been made for the performance of all covenants and agreements of the Issuer incidental to the Refunded Bonds, and that accordingly, and in compliance with all that is herein provided, the Issuer is expected to have no future obligation with reference to the aforesaid Refunded Bonds, except to assure that the Refunded Bonds are paid from the Government Securities and funds so escrowed in accordance with the provisions of the Escrow Agreement.

(d) The Escrow Agreement is hereby approved by the Issuer and the Executive Officers are hereby authorized and directed to execute and deliver the Escrow Agreement on behalf of the Issuer substantially in the form of Exhibit B hereof, with such changes, additions, deletions or completions deemed appropriate by such signing officials, and it is expressly provided and covenanted that all of the

provisions for the payment of the principal of, premium, if any, and interest on the Refunded Bonds from the special trust funds created under the Escrow Agreement shall be strictly observed and followed in all respects.

SECTION 2.2. Bond Resolution to Constitute Contract. In consideration of the purchase and acceptance of the Bonds by those who shall own the same from time to time, the provisions of this Bond Resolution shall be a part of the contract of the Issuer with the Owners of the Bonds and shall be deemed to be and shall constitute a contract between the Issuer and the Owners from time to time of the Bonds. The provisions, covenants and agreements herein set forth to be performed by or on behalf of the Issuer shall be for the equal benefit, protection and security of the Owners of any and all of the Bonds, each of which Bonds, regardless of the time or times of its issue or maturity, shall be of equal rank without preference, priority or distinction over any other thereof except as expressly provided in this Bond Resolution.

SECTION 2.3. Obligation of Bonds. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment and for the payment of all the interest thereon. The Issuer is bound under the terms and provisions of law and this Bond Resolution to impose and collect annually, in excess of all other taxes, a tax on all the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer. All ad valorem taxes levied by the Issuer in each year for the payment of the Bonds shall, upon their receipt, be transferred to the Governing Authority, which shall have responsibility for the deposit of such receipts and for the investment and reinvestment of such receipts and the servicing of the Bonds and any other general obligation school bonds of the Issuer.

SECTION 2.4. Authorization and Designation. Pursuant to the provisions of the Act, there is hereby authorized the issuance of Eight Million Four Hundred Eighty Thousand Dollars (\$8,480,000) principal amount of Bonds of the Issuer to be designated "General Obligation School Refunding Bonds, Series 2016, of Parishwide School District of Caddo Parish, Louisiana", for the purpose of refunding the Refunded Bonds. The Bonds shall be in substantially the form set forth as Exhibit C hereto, with such necessary or appropriate variations, omissions and insertions as are required or permitted by the Act and this Bond Resolution.

This Governing Authority hereby finds and determines that upon the issuance of the Bonds, the total outstanding amount of general obligation school bonds of the Issuer issued and deemed to be outstanding will not exceed the Issuer's general obligation bond limit.

SECTION 2.5. Denominations, Dates, Maturities and Interest. The Bonds are issuable as fully registered bonds without coupons in the denominations of \$5,000 principal amount or any integral multiple thereof within a single maturity, and shall be numbered R-1 upward.

The Bonds shall be dated the date of delivery, shall mature on March 1 in the years and in the principal amounts and shall bear interest, payable on March 1 and September 1 of each year, commencing March 1, 2016, at the rates per annum, as follows:

<u>Date</u> <u>(March 1)</u>	<u>Principal</u> <u>Payment</u>	<u>Interest</u> <u>Rate</u>	<u>Date</u> <u>(March 1)</u>	<u>Principal</u> <u>Payment</u>	<u>Interest</u> <u>Rate</u>
2023	\$605,000	4.00%	2029	\$795,000	4.00%
2024	635,000	3.00	2030	840,000	4.00
2025	660,000	3.00	2031	880,000	4.00
2026	695,000	4.00	2032	920,000	4.00
2027	725,000	4.00	2033	965,000	4.00
2028	760,000	4.00			

The principal and premium, if any, of the Bonds are payable in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof. Interest on the Bonds is payable by check mailed on or before the Interest Payment Date by the Paying Agent to the Owner thereof (determined as of the close of business on the Record Date) at the address of such Owner as it appears on the registration books of the Paying Agent maintained for such purpose.

Except as otherwise provided in this Section, Bonds shall bear interest from date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, as the case may be, provided, however, that if and to the extent that the Issuer shall default in the payment of the

interest on any Bonds due on any Interest Payment Date, then all such Bonds shall bear interest from the most recent Interest Payment Date to which interest has been paid on the Bonds, or if no interest has been paid on the Bonds, from their dated date.

The person in whose name any Bond is registered at the close of business on the Record Date with respect to an Interest Payment Date shall in all cases be entitled to receive the interest payable on such Interest Payment Date notwithstanding the cancellation of such Bond upon any registration of transfer or exchange thereof subsequent to such Record Date and prior to such Interest Payment Date..

SECTION 2.6. Book Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Governing Authority or any other officer of the Issuer is authorized to execute and deliver a Blanket Letter of Representation to DTC on behalf of the Issuer with respect to the issuance of the Bonds in "book-entry only" format. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Bond Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner (as defined in the Blanket Letter of Representation) may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

- (a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or
- (b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer or the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Bond Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

ARTICLE III. GENERAL TERMS AND PROVISIONS OF THE BONDS.

SECTION 3.1. Exchange of Bonds; Persons Treated as Owners. The Issuer shall cause books for the registration and for the registration of transfer of the Bonds as provided in this Bond Resolution to be kept by the Paying Agent at its principal corporate trust office, and the Paying Agent is hereby constituted and appointed the registrar for the Bonds. At reasonable times and under reasonable regulations established by the Paying Agent said list may be inspected and copied by the Issuer or by the Owners (or a designated representative thereof) of 15% of the outstanding principal amount of the Bonds.

All Bonds presented for registration of transfer or exchange shall be accompanied by a written instrument or instruments of transfer in form and with a guaranty of signature satisfactory to the Paying Agent, duly executed by the Owner or his attorney duly authorized in writing.

Upon surrender for registration of transfer of any Bond, the Paying Agent shall register and deliver in the name of the transferee or transferees one or more new fully registered Bonds of authorized denomination of the same maturity and like aggregate principal amount. At the option of an Owner, Bonds may be exchanged for other Bonds of authorized denominations of the same maturity and like aggregate principal amount, upon surrender of the Bonds to be exchanged at the principal corporate trust office of the Paying Agent. Whenever any Bonds are so surrendered for exchange, the Paying Agent shall register and deliver in exchange therefor the Bond or Bonds which the Owner making the exchange shall be entitled to receive.

No service charge to the Owners shall be made by the Paying Agent for any exchange or registration of transfer of Bonds. The Paying Agent may require payment by the person requesting an exchange or registration of transfer of Bonds of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto.

The Issuer and the Paying Agent shall not be required to issue, register the transfer of or exchange any Bond during a period beginning at the opening of business on a Record Date or any date of selection of Bonds to be redeemed and ending at the close of business on the Interest Payment Date.

All Bonds delivered upon any registration of transfer or exchange of Bonds shall be valid obligations of the Issuer, evidencing the same debt and entitled to the same benefits under this Bond Resolution as the Bonds surrendered.

Prior to due presentment for registration of transfer of any Bond, the Issuer and the Paying Agent, and any agent of the Issuer or the Paying Agent may deem and treat the person in whose name any Bond is registered as the absolute owner thereof for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary.

SECTION 3.2. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be improperly cancelled, or be destroyed, stolen or lost, the Issuer may in its discretion adopt a resolution and thereby authorize the issuance and delivery of a new Bond in exchange for and substitution for such mutilated or improperly cancelled Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, upon the Owner (i) furnishing the Issuer and the Paying Agent proof of his ownership thereof and proof of such mutilation, improper cancellation, destruction, theft or loss satisfactory to the Issuer and the Paying Agent, (ii) giving to the Issuer and the Paying Agent an indemnity bond in favor of the Issuer and the Paying Agent in such amount as the Issuer may require, (iii) complying with such other reasonable regulations and conditions as the Issuer may prescribe and (iv) paying such expenses as the Issuer and the Paying Agent may incur. All Bonds so surrendered shall be delivered to the Paying Agent for cancellation pursuant to Section 3.4 hereof. If any Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof.

Any such duplicate Bond issued pursuant to this Section shall constitute an original, additional, contractual obligation on the part of the Issuer, whether or not the lost, stolen or destroyed Bond be at any time found by anyone. Such duplicate Bond shall be in all respects identical with those replaced except that it shall bear on its face the following additional clause:

"This bond is issued to replace a lost, cancelled or destroyed bond under the authority of R.S. 39:971 through 39:974."

Such duplicate Bond may be signed by the facsimile signatures of the same officers who signed the original Bonds, provided, however, that in the event the officers who executed the original Bonds are no longer in office, then the new Bonds may be signed by the officers then in office. Such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source and security for payment as provided herein with respect to all other Bonds hereunder, the obligations of the Issuer upon the duplicate Bonds being identical to its obligations upon the original Bonds and the rights of the Owner of the duplicate Bonds being the same as those conferred by the original Bonds.

SECTION 3.3. Preparation of Definitive Bonds, Temporary Bonds. Until the definitive Bonds are prepared, the Issuer may execute, in the same manner as is provided in Section 3.5, and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive

Bonds except as to the denominations, one or more temporary typewritten Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, in authorized denominations, and with such omissions, insertions and variations as may be appropriate to temporary Bonds.

SECTION 3.4. Cancellation of Bonds. All Bonds paid, together with all Bonds purchased by the Issuer, shall thereupon be promptly cancelled by the Paying Agent. The Paying Agent shall thereupon promptly furnish to the Secretary of the Governing Authority an appropriate certificate of cancellation.

SECTION 3.5. Execution. The Bonds shall be executed in the name and on behalf of the Issuer by the manual or facsimile signatures of the Executive Officers, and the corporate seal of the Issuer (or a facsimile thereof) shall be thereunto affixed, imprinted, engraved or otherwise reproduced thereon. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been actually delivered, such Bonds may, nevertheless, be delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Said officers shall, by the execution of the Bonds, adopt as and for their own proper signatures their respective facsimile signatures appearing on the Bonds or any legal opinion certificate thereon, and the Issuer may adopt and use for that purpose the facsimile signature of any person or persons who shall have been such officer at any time on or after the date of such Bond, notwithstanding that at the date of such Bond such person may not have held such office or that at the time when such Bond shall be delivered such person may have ceased to hold such office.

SECTION 3.6. Registration by Secretary of State. The Bonds shall be registered with the Secretary of State of the State of Louisiana and shall bear the endorsement of the Secretary of State of the State of Louisiana substantially in the form set forth in Exhibit C hereto, provided such endorsement shall be manually signed only on the Bonds initially delivered to the Underwriter, and any Bonds subsequently exchanged therefor as permitted in this Bond Resolution may bear the facsimile signature of said Secretary of State.

SECTION 3.7. Registration by Paying Agent. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Bond Resolution unless and until a certificate of registration on such Bond substantially in the form set forth in Exhibit C hereto shall have been duly executed on behalf of the Paying Agent by a duly authorized signatory, and such executed certificate of the Paying Agent upon any such Bond shall be conclusive evidence that such Bond has been executed, registered and delivered under this Bond Resolution.

ARTICLE IV. SINKING FUND; PAYMENT OF BONDS.

SECTION 4.1. Sinking Fund. (a) For the payment of the principal of and the interest on the Bonds, the Issuer will maintain a special fund, to be held by the regularly designated fiscal agent of the Issuer (the "Sinking Fund"), into which the Issuer will deposit the proceeds of the aforesaid tax described in Section 2.3 hereof. The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least one (1) day in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

(b) All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Bond Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

(c) All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

SECTION 4.2. Payment of Bonds. The Issuer shall duly and punctually pay or cause to be paid as herein provided, the principal of every Bond and the interest thereon, at the dates and places and in the manner stated in the Bonds according to the true intent and meaning thereof.

ARTICLE V. REDEMPTION OF BONDS.

SECTION 5.1. Redemption of Bonds. The Bonds maturing on March 1, 2027, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2026, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof, plus accrued interest from the most recent Interest Payment Date to which interest has been paid or duly provided

for. In the event a Bond to be redeemed is of a denomination larger than \$5,000, a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Bonds are not required to be redeemed in inverse order of maturity. Official notice of such call of any of the Bonds for redemption shall be given by means of first class mail, postage prepaid, by notice deposited in the United States mails not less than thirty (30) days prior to the redemption date addressed to the Owner of each Bond to be redeemed at his address as shown on the Bond Register.

ARTICLE VI. APPLICATION OF BOND PROCEEDS.

SECTION 6.1. Application of Bond Proceeds. As a condition of the issuance of the Bonds, the Issuer hereby binds and obligates itself to:

- (a) Deposit irrevocably in trust with the Escrow Agent under the terms and conditions of the Escrow Agreement, as hereinafter provided, an amount of the proceeds derived from the issuance and sale of the Bonds (exclusive of accrued interest), together with additional moneys of the Issuer, as will enable the Escrow Agent to purchase Government Obligations described in the Escrow Agreement, which shall mature in principal and interest in such a manner as to provide at least the required cash amount on or before each payment date for the Refunded Bonds (said amounts being necessary on each of the designated dates to pay and retire or redeem the Refunded Bonds, including premiums, if any, payable upon redemption). Prior to or concurrently with the delivery of the Bonds, the Issuer shall obtain an independent mathematical verification that the moneys and obligations required to be irrevocably deposited in trust in the Escrow Fund with the Escrow Agent, together with the earnings to accrue thereon, will always be sufficient for the payment of the principal of, premium, if any, and interest on the Refunded Bonds. The moneys so deposited with the Escrow Agent shall constitute a trust fund irrevocably dedicated for the use and benefit of the owners of the Refunded Bonds.
- (b) Deposit in the Expense Fund established with the Escrow Agent such amount of the proceeds of the Bonds as will enable the Escrow Agent to pay the Costs of Issuance and the costs properly attributable to the establishment and administration of the Escrow Fund on behalf of the Issuer.
- (c) Deposit accrued interest, if any, received on the delivery date of the Bonds into the Sinking Fund established by Section 4.1 hereof and to apply said funds to pay a portion of the interest due on the Bonds on the first Interest Payment Date therefor. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

ARTICLE VII. SUPPLEMENTAL BOND RESOLUTIONS.

SECTION 7.1. Supplemental Resolutions Effective Without Consent of Owners. For any one or more of the following purposes and at any time from time to time, a resolution supplemental hereto may be adopted, which, upon the filing with the Paying Agent of a certified copy thereof, but without any consent of Owners, shall be fully effective in accordance with its terms:

- (a) to add to the covenants and agreements of the Issuer in the Bond Resolution other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;
- (b) to add to the limitations and restrictions in the Bond Resolution other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;
- (c) to surrender any right, power or privilege reserved to or conferred upon the Issuer by the terms of the Bond Resolution, but only if the surrender of such right, power or privilege is not contrary to or inconsistent with the covenants and agreements of the Issuer contained in the Bond Resolution;
- (d) to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision of the Bond Resolution; or
- (e) to insert such provisions clarifying matters or questions arising under the Bond Resolution as are necessary or desirable and are not contrary to or inconsistent with the Bond Resolution as theretofore in effect.

SECTION 7.2. Supplemental Resolutions Effective With Consent of Owners. Except as provided in Section 7.1, any modification or amendment of the Bond Resolution or of the rights and obligations of the Issuer and of the Owners of the Bonds hereunder, in any particular, may be made by a supplemental resolution, with the written consent of the Owners of a majority of the Bond Obligation at the time such consent is given. No such modification or amendment shall permit a change in the terms of maturity of the principal of any outstanding Bond or of any installment of interest thereon or a reduction in the principal amount thereof or in the rate of interest thereon without the consent of the Owner of such Bond, or shall reduce the percentages of Bonds the consent of the Owner of which is required to effect any such modification or amendment, or change the obligation of the Issuer to levy and collect

taxes for the payment of the Bonds as provided herein, without the consent of the Owners of all of the Bonds then outstanding, or shall change or modify any of the rights or obligations of either the Paying Agent or the Escrow Agent without its written assent thereto. For the purposes of this Section, Bonds shall be deemed to be affected by a modification or amendment of the Bond Resolution if the same adversely affects or diminishes the rights of the Owners of said Bonds.

ARTICLE VIII. TAX COVENANTS; CONTINUING DISCLOSURE

SECTION 8.1. Tax Covenants. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code to in order to establish, maintain and preserve the exclusion from "gross income" of interest on the Bonds under the Code. The Issuer shall not take any action or fail to take any action, nor shall it permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, to acquire any securities or obligations the acquisition of which would cause any Bond to be an "arbitrage bond" as defined in the Code or would result in the inclusion of the interest on any Bond in "gross income" under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of the proceeds of the Bonds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America, or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be "private activity bonds" under the Code.

The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION 8.2. Continuing Disclosure Certificate. The Secretary of the Governing Authority is hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix I of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 8.3. Bonds are "Bank-Qualified". The Bonds are designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code. In making this designation, the Issuer finds and determines that:

- (a) the Bonds are not private activity bonds within the meaning of the Code; and
- (b) the reasonably anticipated amount of qualified tax-exempt obligations which will be issued by the Issuer and all subordinate entities in the calendar year 2016 will not exceed \$10,000,000.

ARTICLE IX. REMEDIES ON DEFAULT.

SECTION 9.1. Events of Default. If one or more of the following events (in this Bond Resolution called "Events of Default") shall happen, that is to say,

- (a) if default shall be made in the due and punctual payment of the principal of any Bond when and as the same shall become due and payable, whether at maturity or otherwise (in determining whether a principal payment default has occurred); or
- (b) if default shall be made in the due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable (in determining whether an interest payment default has occurred); or
- (c) if default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in the Bond Resolution, any supplemental resolution or in the Bonds contained and such default shall continue for a period of forty-five (45) days after written notice thereof to the Issuer by any Owner; or
- (d) if the Issuer shall file a petition or otherwise seek relief under any Federal or State bankruptcy law or similar law;

then, upon the happening and continuance of any Event of Default and the Owners of the Bonds shall be entitled to exercise all rights and powers for which provision is made under Louisiana law. All remedies shall be cumulative with respect to the Paying Agent and the Owners; if any remedial action is discontinued or abandoned, the Paying Agent and the Owners shall be restored to their former positions.

ARTICLE X. CONCERNING FIDUCIARIES.

SECTION 10.1. Escrow Agent; Appointment and Acceptance of Duties. Argent Trust Company, a Texas state trust company, in the City of Ruston, Louisiana, is hereby appointed Escrow Agent with

respect to the Refunded Bonds. The Escrow Agent shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution by executing and delivering the Escrow Agreement.

SECTION 10.2. Paying Agent; Appointment and Acceptance of Duties. The Issuer will at all times maintain a Paying Agent having the necessary qualifications for the performance of the duties described in this Bond Resolution. The designation of Argent Trust Company, a Texas state trust company, in the City of Ruston, Louisiana, as the initial Paying Agent is hereby confirmed and approved. The Paying Agent shall signify its acceptance of the duties and obligations imposed on it by the Bond Resolution by executing and delivering to the Executive Officers a written acceptance thereof. The Governing Authority reserves the right to appoint a successor Paying Agent by (a) filing with the Person then performing such function a certified copy of a resolution giving notice of the termination of the agreement and appointing a successor and (b) causing notice to be given to each Owner. Furthermore, the Paying Agent may be removed by the Issuer at any time for any breach of its duties set forth herein, affective upon appointment of a successor Paying Agent as set forth above. Every Paying Agent appointed hereunder shall at all times be a trust company or bank organized and doing business under the laws of the United States of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by Federal or State authority.

ARTICLE XI. MISCELLANEOUS

SECTION 11.1. Defeasance. (a) If the Issuer shall pay or cause to be paid to the Owners of all Bonds then outstanding, the principal and interest become due thereon, at the times and in the manner stipulated therein and in the Bond Resolution, then the covenants, agreements and other obligations of the Issuer to the Owners shall be discharged and satisfied. In such event, the Paying Agent shall, upon the request of the Issuer, execute and deliver to the Issuer all such instruments as may be desirable to evidence such discharge and satisfaction and the Paying Agent shall pay over or deliver to the Issuer all moneys, securities and funds held by them pursuant to the Bond Resolution which are not required for the payment of Bonds not theretofore surrendered for such payment.

(b) Bonds or interest installments for the payment of which money shall have been set aside and shall be held in trust (through deposit by the Issuer of funds for such payment or otherwise) at the maturity date thereof shall be deemed to have been paid within the meaning and with the effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their maturity, within the meaning and with the effect expressed above in this Section if they have been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as amended, or any successor provisions thereto.

SECTION 11.2. Evidence of Signatures of Owners and Ownership of Bonds. (a) Any request, consent, revocation of consent or other instrument which the Bond Resolution may require or permit to be signed and executed by the Owners may be in one or more instruments of similar tenor, and shall be signed or executed by such Owners in person or by their attorneys-in-fact appointed in writing. Proof of (i) the execution of any such instrument, or of an instrument appointing any such attorney, or (ii) the ownership by any person of the Bonds shall be sufficient for any purpose of the Bond Resolution (except as otherwise therein expressly provided) if made in the following manner, or in any other manner satisfactory to the Paying Agent, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable:

(1) the fact and date of the execution by any Owner or his attorney-in-fact of such instrument may be proved by the certificate, which need not be acknowledged or verified, of an officer of a bank or trust company or of any notary public or other officer authorized to take acknowledgments of deeds, that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or a member of a partnership, on behalf of such corporation, association or partnership, such certificate or affidavit shall also constitute sufficient proof of his authority;

(2) the ownership of Bonds and the amount, numbers and other identification, and date of owning the same shall be proved by the registration books of the Paying Agent.

(b) Any request or consent by the Owner of any Bond shall bind all future Owners of such Bond in respect of anything done or suffered to be done by the Issuer or the Paying Agent in accordance therewith.

SECTION 11.3. Moneys Held for Particular Bonds. The amounts held by the Paying Agent for the payment due on any date with respect to particular Bonds shall, on and after such date and pending

such payment, be set aside on its books and held in trust by it, without liability for interest, for the Owners of the Bonds entitled thereto.

SECTION 11.4. Parties Interested Herein. Nothing in the Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds any right, remedy or claim under or by reason of the Bond Resolution or any covenant, condition or stipulation thereof; and all the covenants, stipulations, promises and agreements in the Bond Resolution contained by and on behalf of the Issuer shall be for the sole and exclusive benefit of the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds and the owners of the Refunded Bonds.

SECTION 11.5. No Recourse on the Bonds. No recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Bond Resolution against any member of the Governing Authority or officer of the Issuer or any person executing the Bonds.

SECTION 11.6. Successors and Assigns. Whenever in this Bond Resolution the Issuer is named or referred to, it shall be deemed to include its successors and assigns and all the covenants and agreements in this Bond Resolution contained by or on behalf of the Issuer shall bind and enure to the benefit of its successors and assigns whether so expressed or not.

SECTION 11.7. Subrogation. In the event the Bonds herein authorized to be issued, or any of them, should ever be held invalid by any court of competent jurisdiction, the Owner or Owners thereof shall be subrogated to all the rights and remedies against the Issuer had and possessed by the owner or owners of the Refunded Bonds.

SECTION 11.8. Severability. In case any one or more of the provisions of the Bond Resolution or of the Bonds issued hereunder shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of the Bond Resolution or of the Bonds, but the Bond Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provision enacted after the date of the Bond Resolution which validates or makes legal any provision of the Bond Resolution or the Bonds which would not otherwise be valid or legal shall be deemed to apply to the Bond Resolution and to the Bonds.

SECTION 11.9. Publication of Bond Resolution. This Bond Resolution shall be published one time in the official journal of the Issuer; however, it shall not be necessary to publish any exhibits hereto if the same are available for public inspection and such fact is stated in the publication.

SECTION 11.10. Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel, to effect the transactions contemplated by this Bond Resolution, the signatures of the Executive Officers on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

ARTICLE XII. SALE OF BONDS

SECTION 12.1. Sale of Bonds. The Bonds have been awarded to and sold to the Underwriter at the price and under the terms and conditions set forth in the Bond Purchase Agreement attached hereto as Exhibit D, and after their execution, registration by the Secretary of State and authentication by the Paying Agent, the Bonds shall be delivered to the Underwriter or its agents or assigns, upon receipt by the Issuer of the agreed purchase price.

SECTION 12.2. Official Statement. The Issuer hereby approves the form and content of the Preliminary Official Statement dated November 20, 2014, pertaining to the Bonds, which has been submitted to the Issuer, and hereby ratifies its prior use by the Underwriter in connection with the sale of the Bonds. The Issuer further approves the form and content of the final Official Statement and hereby authorizes and directs the execution by the President and Secretary of the Governing Authority and delivery of such final Official Statement to the Underwriter for use in connection with the public offering of the Bonds.

ARTICLE XIII. REDEMPTION OF REFUNDED BONDS.

SECTION 12.1. Call for Redemption. Subject only to the actual delivery of the Bonds, the Refunded Bonds are hereby irrevocably called for redemption on March 1, 2018, at the principal amount thereof

and accrued interest to the redemption date, in compliance with the resolution authorizing their issuance.

SECTION 12.2. Notice of Defeasance and Call for Redemption. In accordance with the resolution authorizing the issuance of the Refunded Bonds, a Notice of Defeasance and Call for Redemption in substantially the form attached hereto as Exhibit E shall be sent by the paying agent for the Refunded Bonds to the registered owners as the same appear on the registration books of said paying agent by means of first class mail not less than thirty (30) days prior to the date of redemption. The foregoing resolution having been submitted to a vote, the vote thereon was as follows:

School Board <u>Members</u>	<u>Yea</u>	<u>Nay</u>	<u>Absent</u>	<u>Abstaining</u>
Steve Riall	X			
Jasmine Green	X			
Margaret A. Brown	X			
Susannah W. Poljak	X			
Bonita Douzart	X			
Mary Trammel	X			
Raymond E. Green	X			
Denee' Locke	X			
Barry F. Rachal	X			
Larry Ramsey	X			
John Albritton	X			
Dottie Bell	X			

And the resolution was declared adopted on this, the 15th day of December, 2015.

/s/T. Lamar Goree, Ph.D.

Secretary

/s/ Steve Riall

President

Mr. Rachal noted that because the Board is held accountable for how it handles the District's money, he wants the public to see that since 2002 the Board has approved refinancing the debt which resulted in a total savings to the taxpayers of over \$7 million. He said the refund being approved today will save the taxpayers approximately \$800,000, and he would like for the media to note these savings. He commended staff for the good job in guiding the Board in the management of the District's finances and encouraged the PR team to get this word out to appropriate media. *Vote on the motion carried unanimously.*

ELECTION OF 2016 CPSB OFFICERS

Mrs. Bell moved, seconded by Mr. Rachal, to nominate the following slate for 2016 CPSB Officers: President – Mary Trammel; First Vice President – Denee' Locke; Second Vice President – Raymond Green. Vote on the motion carried unanimously, and congratulations were extended to the 2016 CPSB Executive Committee members.

AUTHORIZE USE OF FACSIMILE SIGNATURE BY THE PRESIDENT

Mr. Ramsey moved, seconded by Mr. Rachal to authorize Mary Trammel to use a facsimile signature. Vote on the motion carried.

SUPERINTENDENT'S REPORT

Update on Brandon Goyne Foundation. Mr. Burton reported that all Caddo high schools have been notified about the opportunity to have EKG testing on all their athletes. By working with the Brandon Goyne Foundation, he stated we are able to provide this opportunity to all Caddo

student athletes as well as to the faculty and staff. As of today, Captain Shreve baseball players, Byrd football players, and Captain Shreve Girls' Soccer players tested. Every athlete in Woodlawn High School Academy sports will be tested on April 20th and Captain Shreve Boys' Soccer will be tested on February 2nd. He said this is being done at the extremely low cost of \$15 and if a family cannot pay the \$15, this information will be given to the Brandon Goyne Foundation who will find funding so all students can be tested. Dr. Dabouche will be reading these tests. Mr. Rachal stated that he requested this report because the program was put into place at Captain Shreve but implementation has been slow at the other schools. He thanked Dr. Goree and Mr. Burton for putting together this update for the Board, and moving forward with further implementation.

Charter USA Expansion for the Magnolia School. Dr. Goree noted conversations with several Board members on this item and explained some of the limitations of the Board in what Magnolia School chooses to do in the future once the Board has voted for them to expand their school. Mr. Rachal shared information on the expansion of Magnolia School as authorized by the Caddo Parish School Board and concerns he feels need to be addressed to avoid any issue with the courts and proper use of land. He stated that the CPSB awarded the charter to Charter USA who operates as Magnolia School as well as awarded them the ability to expand their charter to a K-12 school. He said if the School Board were to build a new school, it would have the responsibility to the public and community that it would not negatively impact the community and he believes the same is true for Magnolia since we awarded the charter to them. He also noted there are unresolved issues with the courts regarding Charter USA constructing the existing school and driveway on a public right of way, and as the one that authorized the charter he doesn't believe the School Board can sit idly by and let this continue. Mr. Ramsey called for a point of order because the Caddo Parish School Board is the noted entity for charter authorizations in this area; however, we do not run the business of these charters. If the School Board had turned down their charter application, they could have gone to BESE for approval, and BESE would not be involved in their school building. He said relative to the right-of-way dispute, this is not a Caddo Parish School Board issue. Mr. Ramsey recommended if the Board desired a presentation it can possibly be assigned to a committee. He reminded the Board that the Board has no authority to act in any way or manner of getting involved in the Magnolia Charter School's business. Mr. Abrams confirmed that the Caddo Parish School Board authorized the charter several years ago, and the CPSB has no authority over the location of the school nor does the Board have any authority when it was approved regarding the school's location. He reminded the Board that the charter was authorized for a K-12 school at its current location. The issue brought forth is an on-going issue, and the school over the summer reduced its number to 2,000; however, the Board has no control over zoning, traffic, etc., as this is a City of Shreveport issue. The same is true if the School Board built a school, it would have to go to the City of Shreveport to make that determination. He also stated that Magnolia does not own the facility it is in, but it is owned by another entity and the Board cannot do anything.

Mr. Riall stated, in ruling on the Point of Order, there is no motion on the table so the current discussion is completely out of order. In the future, he said to address an item, it must be an action item on the agenda and not an item under Superintendent's Report. Out of respect for Mr. Coleman, who was given the directive to speak at this particular time on the agenda and not the Visitors Section, Mr. Riall announced he will allow him to speak five minutes since he has waited, and the discussion will end. Linc Coleman shared his history in the Caddo Public School System and a long-time supporter of public education. He noted he is not speaking against Magnolia Charter, but the lack of information and planning provided. Mr. Coleman explained there is approximately 200 acres of land in the proximity of Stoner and Anderson Island (proposed Magnolia School site), and it is accessed by a two-lane road. He further stated the importance planning to include getting input from engineers, traffic engineering studies, etc. As Bossier Parish is building new schools they have on retainer a traffic engineer (who is the same one Mr. Coleman hired to do a traffic study after learning that the City did not have one). He

shared concerns of traffic congestion at the red lights in the area, that they land in this area and a \$75 million investment adjacent to this (Wright Island); three schools (Magnolia Charter, Caddo Magnet High and Stoner Hill Elementary); and the Magnolia school was originally approved for 2,345 students and he is unaware of any reductions in that frequency; but there is a right to increase these number 2,814 students. He said Scott Hughes is the executive director of the Magnolia Charter; and at this time he is concerned with irregularities and the taxpayer dollars (\$31 million) that are at risk, as well as the fact that Magnolia Charter is receiving approximately \$11,000 per student. Mr. Coleman also noted that the K-8 school was approved for 860 students and there are currently 875 students enrolled; and it is his understanding they are authorized to go up to 2,814 students, and this is a problem. Mr. Coleman said they are asking the School Board to ask the school to do the proper planning for this location.

Mrs. Brown, as a point of personal privilege, noted Mr. Coleman's comment that the lack of information led to a "runaway train", and asked if we are looking at the demise of public education, did we not plan as we should have, are we looking at building another charter school, have we dotted all the i's and crossed all the t's?

Mr. Ramsey called for another Point of Order, and Mr. Riall ruled that the conversation is out of order.

Mr. Green asked for a point of personal privilege to address Item No. 8.10, and President Riall stated that this item has passed.

Mr. Abrams explained for Mr. Coleman that the Caddo Parish School Board in May authorized the amendment to Magnolia's Charter which originally had 2,300 to 2,400 students and the percentage increase; however when they requested a second location, the Board negotiated and limited them to a total of 2,000 students between both school sites. Mr. Coleman noted the State Law provision that allows a 20% increase above the number approved; and Mr. Abrams explained they voluntarily agreed to this stipulation because they would have gone to BESE for approval of their second charter if Caddo did not approve it, so they agreed to 2,000 max students. He further stated that the charter is in essence a "contract" between Caddo and them.

ANNOUNCEMENTS AND REQUESTS

Mrs. Trammel expressed her appreciation for the vote of confidence in electing the new officers for 2016 and to Mr. Riall for serving during 2015.

Mrs. Bell requested that staff look at the Magnolia Charter and the contract Caddo is under with them and clarify the aspects brought out in the City Council meeting. She would like a presentation in January.

Mrs. Bell announced that the Foster Grandparents Program is holding a Celebrity Auction to raise money for their \$23,000 deficit. She encouraged the Board to support this program.

Mr. Green stated that he was under the impression that when submitting a slate of officers the floor is then opened for nominations, and challenged the chair in allowing this. Mr. Riall explained that Board members had an opportunity to nominate others, but there were none.

Mr. Abrams clarified there were no nominations but a motion was made to nominate the three executive committee members.

Mrs. Brown asked that staff study the charter given to the alternative education program for the next meeting and if guidelines are being followed.

Mr. Riall thanked everyone for their support during 2015 and for the opportunity to serve as President. He said he believed it was a good year for Caddo Parish and he wished everyone a Merry Christmas.

EXECUTIVE SESSION

Student Readmission Appeal. *Ms. Trammel moved, seconded by Mrs. Bell to go into executive session for 10 minutes for the purpose of the Superintendent's Evaluation. Vote on the motion carried and the Board went into executive session at approximately 7:48 p.m.*

The Board reconvened in open session at approximately 7:56 p.m.

Mr. Ramsey moved, seconded by Mrs. Poljak, to approve the Superintendent's evaluation and amend the suggested achievement goals as presented in the handout. Vote on the motion carried unanimously.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:58 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

December 15, 2015

The **Caddo Parish School Board (CPSB) Long Range Planning Committee** met in regular session on Tuesday, December 15, 2015 at approximately 2:30 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Bonita Douzart, Barry Rachal, and John Albritton. Committee member Susannah Poljak was absent. Also present were Steve Riall, Denee' Locke, Dottie Bell, Raymond Green, Dr. Lamar Goree and Reggie Abrams, legal counsel. Staff members present were Jim Lee, Keith Burton, James Woolfolk, Dr. Mary Nash-Robinson, Tommy Smith and Mary Wood. Mr. Albritton led the prayer and Pledge of Allegiance.

Strategic Plan. Mr. Ramsey announced that the purpose of today's meeting is to hear an update on the Strategic Plan. Superintendent Goree introduced Carolyn Spaht Gonzalez who, as the District's consultant, is working as the external evaluator of the District's Strategic Plan which was approved by the board in August of this year. He stated that Mrs. Gonzalez is a product of the Caddo system and is very well educated and prepared to lead the Strategic Plan process; and she is present today to talk about the evaluation process. She also will present a mid-year review in January on how the District is doing toward meeting its goals.

Mrs. Gonzalez highlighted the evaluation process, where we are now and the next steps. She explained that once she became familiar with the Strategic Plan, and the goal to not only look at the metrics for the end of the school year, but also look at mid-year accomplishments that were not in the Strategic Plan. She highlighted the rubric created to track accomplishments in each goal area, and reported she is currently working with goal area leaders to update the timeline and provide a report to the Board in January of 2016. Action steps in the Strategic Plan included a start date and an ending date, and they created milestones as to what needed to be accomplished when for each step, which in essence became the operation plan for the year. Baselines for each action step were laid out, many of which would be completed before the 2020 end date. She also reported that documentation will be provided to the Board in a mid-term report to determine if mid-year targets were met.

Mrs. Gonzalez also reported that she is currently working with the goal area leaders to provide updates on each mid-year target; and along with them create from this information, via the goal areas, the report for the Board. Lastly, relative to scorecards, specifically the graduation data, it is color coded as to where the District is in addressing the goal areas and if we are moving in the correct decision.

Dr. Goree stated that when Mrs. Gonzalez presents to the Board in January, the Board will receive score cards for all the objectives in the plan and how the System is meeting the Goals. Dr. Goree urged everyone to remember that this was not a process where she could have met with the Chief and the Chief could say we would do this, because we must file important documentation that this is happening. Mr. Riall asked if the different objectives are all measurable? Ms. Spaht explained that many of the questions had TBD "To Be Determined". Dr. Goree added he met at length with Mrs. Gonzalez, and while nothing is being removed or done to compromise the integrity of the document, they may provide an explanation and at the time of the end-of-the-year update, a decision may be made to remove some things. He also reported that Ms. Gonzalez will meet with Attorney Abrams regarding percentages and things that will not compromise the integrity of the document sent to the community but were not calculated correctly.

Mr. Rachal asked Ms. Gonzalez if she believes there are some areas that she believes are not measurable. Ms. Gonzalez said not the ones that are in BOLD and they are all worded in such a way that once they receive the data, they are measurable. Ms. Gonzalez also referenced Goal

Area 5 being completely shaded since she is scheduled to meet with that goal area leader on Wednesday to complete this one.

Mrs. Bell asked what can be done to get more parents involved in the schools. Mrs. Gonzalez stated that this is a problem nationwide and she has talked to staff at length about this concern and not only how to get it done, but how to measure it. Dr. Goree noted that similar to the audit process, this is not a negative, but a reality. While there may be areas with systematic problems preventing this from happening, it is the District's job, since it knows the importance of this component of education, to help support making it happen or find alternatives to fill in the gaps. He also added that in looking at some of the issues, there are those things which we cannot control, but it does not mean we set low expectations in order to meet an expectation.

Mr. Ramsey stated that the mission is for Board members to realize what is going on, how this information will be presented to the Board and public, and the importance of becoming familiar with the report and how to read it and address questions. He believes these questions should ultimately and daily be presented to staff since they will have to fill in the blanks. He also referenced that this covers the basic data that will basically match up the school performance scores.

Dr. Goree complimented staff in this work as well as Mrs. Gonzalez and it is his hope that everyone leaves the meeting today understanding what is being presented.

Mr. Rachal asked if there is a staff member assigned to every line item, and Dr. Goree said many committees are associated with these, i.e. Superintendent's Chiefs and the Transformation officer. Mr. Rachal stated he doesn't understand who he should communicate with on each one of the items presented. Dr. Goree explained that information is in the Strategic Plan. He also reported that because of the enormous amount of work in this project, they are scheduling a mid-year and end of the year report to the Board; however Board members are more than welcome to ask any questions they may have. Also beginning in February, one division will be scheduled at each Board meeting to report on what is being done in their area. He also explained that Mrs. Gonzalez will make an end-of-the-year report in July; and at that time, there will be some recommendations to the Board for amendments to the plan; and he reminded the Board that this is a living document and will need to be revised from time to time as things change.

Mr. Rachal added that he likes the fact that the Strategic Plan aligns all short-term decisions with long-term goals, and if it does not, it should not be on the list. Mr. Ramsey said it will be a document that the committee does need to know as the District moves forward with the Strategic Plan. Mr. Ramsey expressed appreciation to Mrs. Gonzalez for her report to the committee today.

Dr. Goree also stressed that throughout this process, it will be important that everyone continues to stress this is the process by which the District will be better.

Energy Conservation Presentation. Mr. Ramsey announced that the company scheduled to make a presentation today requested to reschedule, but asked if any committee members had any questions as a result of the last meeting and Cenergistic's presentation. He announced that he will have sent to each Board member documentation relative to conversations on pros and cons, and what staff presented on energy conservation services and energy management savings; and this is the type current information he would like to receive. Another meeting will be scheduled for January 5th to hear this presentation.

Mr. Rachal stated it was his understanding that Cenergistic would make approximately \$1 million a year and they will hire four people who would change the way everyone felt. Dr. Goree clarified we will not hire the people, but Cenergistic will hire them, thus it would not be

an expense for the District, they are not part of the retirement, Cenergistic pays them. Mr. Ramsey explained that Cenergistic presented three components in the energy savings option, i.e. (1) change consumption practices, (2) install more effective equipment, and (3) negotiate better prices. He further stated that at one time the District had two on staff, but as budgets went away, persons were cut and noted that other companies were requesting managers but also expensive new equipment. He said it will be important to weigh what needs to be done and staff will need to tell him we can or we can't do it.

Adjourn. *Mr. Rachal moved, seconded by Mr. Albritton, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:20 p.m.*

January 5, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, January 5, 2016 at approximately 4:35 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Susannah Poljak, Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel were also present. Board member Steve Riall led the prayer and Pledge of Allegiance.

Steve Riall recognized the new executive committee members: President Mary Trammel, First Vice President Denee' Locke and Second Vice President Raymond Green, and passed the gavel to President Trammel. President Trammel recognized family and friends in the audience.

PRESENTATIONS

Dual Enrollment. Keith Burton, chief academic officer, shared the District's collaboration efforts with institutions of higher learning and how Caddo students are benefiting from this partnership. He reported that dual enrollment is simultaneous enrollment of a high school student enrolled not only in their high school, but also at a college level. Students are not only earning high school credit, but they are also earning college credits toward an associate or four year degree. He said it is available at technical, community, and four-year colleges and universities. Requirements for students interested in enrolling in dual enrollment courses include first meeting the enrollment requirements of that college or university in which they are interested, completing the course requirement to receive the appropriate credit; and the teacher teaching the course being accepted by that college and have credentials (Master's Degree or Terminal Degree within the content) for the coursework. Participating colleges and universities for this current school year are (in alphabetical order) Grambling State University, Louisiana State University in Shreveport, Louisiana Tech University, Northwest Louisiana Technical, Northwestern State University and Southern University in Shreveport. He reported staff is very pleased with the current enrollment of 551 high school students at Southern, 163 at LSUS, 278 at Louisiana Tech, 39 at Grambling, 21 at Northwest Louisiana Technical College, and 4 at Northwestern. In looking at the enrollment by high school, he noted the extreme success at C E Byrd and Huntington, and the plans to increase participation in the lower ranking schools in the future.

He shared a breakdown of the colleges and universities and the recent data released by the state on the ACT report that the composite score exceeded the State average; and the District is very pleased that students who scored 18 or higher increased from 56% to 61%. He also reported that Green Oaks students increased in the number of student scoring 18 or more by 13%, and an overall 23% increase. He further explained high school students can also earn college credit by Clep and dual enrollment tests as well as by participation in advanced placement classes. He said Caddo led the entire region in students earning college credit through AP exams; and staff is proud of the 13% increase in the passage rate of AP exams in addition to the increase in the number of students taking the AP exams. Mr. Burton also noted savings to Caddo families of \$362,000 in tuition costs, as well as the fact the co-hort graduation rate is the highest it has ever been at 67.7% and staff plans to continue this increase as part of the District's Strategic Plan.

Mrs. Bell expressed appreciation to staff for the presentation, and expressed her only concern is how parents are informed of what colleges provide what courses at what high schools. Mr. Burton asked that they contact his office to make certain they understand the process of dual enrollment as well as other options for students to earn college hours, and how schools work with the local colleges. Mrs. Bell asked if courses from all the colleges are available at all the

schools. Mr. Burton said they are not and for the principals and counselors to coordinate the courses, typically there will be two universities working with a high school campus.

Mr. Ramsey asked that this be posted on the web site and a copy sent to each Board member.

Mrs. Poljak asked about the 67.7% graduation rate and if it includes the results from the Transformation Zone from the past year. Mr. Burton said it does and this is the co-hort rate for students who start at the school in 9th grade and graduate with their co-horts, and that the data is always a year behind (this data is May 2014).

Magnet Testing. Melinda Kay, supervisor of counseling and magnet testing, provided an overview of the previous year's magnet testing results including information on cut-off scores and number of test takers. Mrs. Kay presented the Board's policy for placement in Caddo's elementary magnet schools: sibling, rank and diversity with qualifying siblings being placed first and 60% of the remaining seats based on the qualifying rank scores and 40% based on the qualifying applicants who meet any of the diversity categories. The Board policy for middle schools does not include the diversity category. She explained the application process and that parents select schools they want their child to attend; and once the child qualifies for placement, placement is driven by the parents' choice of school. The largest number of openings for middle schools occurs in the 6th grade with the openings in 7th and 8th grade being from students leaving, and the largest number of openings at the elementary school level occurs at the kindergarten level. Mrs. Kay further explained if a student qualifies for placement and there are no openings, the student is placed on a waiting list and is contacted as openings become available.

Mrs. Kay presented a chart of test score ranges in each placement category (sibling, rank, diversity) for kindergarten placement. She further shared an overview of each category and the difference between "qualifying" score and "cut-off" score. She also shared information on applicant openings (which are determined by the principal, director and chief academic officer) and the requirements of student-teacher ratio, building capacity and staffing formulas. She summarized placement for kindergarten highlighting racial makeup for the number of students along with the percentage, the number of siblings placed, and the number of students placed by category (sibling, diversity and rank), and non-placed students and where they ended up (neighborhood school, charter, private, out of district or undetermined). She also provided information available on the web site for parents.

Mrs. Kay stated this report is in the same format it has been for a number of years and provides comparative data.

Ms. Trammel asked for clarification on sibling category and if the sibling is to currently be enrolled in the school. Mrs. Kay explained they must be enrolled and attending in the year that their sibling will also be attending.

Miss Green asked about the magnet component at Oak Park and only three students attending for 20 available seats. Dr. Goree stated that the magnet system has been in place for over 30 years, but at Oak Park, the component is new and building the trust in families to select this as an option for their student is moving slower than anticipated. He said staff continues to evaluate this program to determine if it is meeting a need in the District. Miss Green asked about publicizing it, and Dr. Goree responded there was a publicity blitz done of the program this year and made available to parents, but they did not see a significant increase in persons selecting Oak Park as an option. Miss Green asked if this particular program offers something that is not being offered at other sites, and Dr. Goree said it's not, but it is an academic magnet program; and it is important to look at the needs in the district to see if there is anything it can be paired with to make it meet a need in the District.

Mrs. Poljak asked about the summary of 1-8 grade and if we track students placed on the wait list and when offered an opening they declined because they enrolled elsewhere, or those who did not want to be on a wait list where they enrolled? Mrs. Kay responded staff does track this data and one source of research is talking with parents; and there are some that never get off the waiting list because there were so many that tested and made the cut-off score/met requirements, but only a few seats were available. Mrs. Poljak asked if the students that never get off the waiting list and the kids that decline a spot are considered together and Mrs. Kay said they are.

Mr. Riall asked about the status of discussions to change/amend the actual magnet testing and Melinda Kay explained changes are periodically made for the test, but it is a standardized test that is nationally normed but the criteria for entrance has not changed. Also, it supports a child's academic achievement in the classroom as well as assessing abilities that support achievement. Mr. Riall asked if he remembers correctly that the test does not measure how smart a child is, but how successful they can be in the magnet system. Mrs. Kay confirmed that is correct and it is a predictor of a student's achievement in an accelerated program.

Mrs. Bell asked how the policy works if children are not off the waiting list because of the sibling rule. Mrs. Kay explained that Board policy says qualifying siblings are placed first. Mrs. Bell said she believes that may be why some students are on the waiting list forever because of siblings. Mrs. Kay said it is very competitive and the number of students who apply and are tested is very large. Dr. Goree also clarified that the siblings must make the qualifying score to be placed in the school. Mrs. Bell also expressed her concern that only three students are in the magnet component program at Oak Park, and asked if it is possible a Discovery teacher can teach the magnet program ½ day. Dr. Goree added not having an appropriate number of students always creates a challenge, and staff is having conversation about recommending the best for this program in the future.

Mrs. Douzart thanked staff for an outstanding job and that her daughter realized after traveling out of state to attend school how great the local schools are.

Miss Green asked if it is correct that children are being asked questions such as their address? Mrs. Kay responded that to maintain the integrity of the testing and test security, they do not discuss or disclose specific test questions or types of questions. Dr. Goree added that in testing children, especially in kindergarten where there is no use of paper and pencil, he has learned that some questions asked of the children are those that help to make the children more comfortable in the testing. Mrs. Kay also explained that testing administrators are very good at establishing a rapport with the children through conversation so the children feel comfortable when they begin asking testing questions. She also said when parents ask her what type questions would be asked, she tells them it is a test that measures school readiness skills which is anything parents work on to help them be ready to enter kindergarten. She also encourages parents to google "school readiness skills" for information in helping their child. Miss Green stated her understanding; however, when a child does not get into magnet, one of the first questions a parent asks is why they ask a child their address.

Mr. Abrams explained that years ago the test had not been changed for years; and after litigation, the testing security was put into place so every child was given a fair chance in taking the test. In the elementary grades there are diversity factors that take backgrounds, free and reduced lunch, and diversity into consideration; and while there may be children that do not score as high as other, they still have the opportunity to get into a magnet program.

Dr. Goree added that it is also important to note that it is only a qualification for the K-5 program and these indicators are not considered in the ranking and placement of students at the middle school level. Also, an address and zip code is not a part of the placement process of students and

staff works diligently to make this clear. Miss Green said it is hard for Board members to explain when these things are brought to them.

Update on Strategic Plan: Reimagine Caddo. The Plan for Excellence. Carolyn Spaht Gonzalez, third party reviewer contracted by Caddo Schools to assist the district in working through the District's Strategic Plan, updated the Board and the public as to how Caddo is progressing in its goals and targeted objectives outlined in the plan. Dr. Goree added that Mrs. Spaht-Gonzalez will present to the Board and the public a scorecard mid-year evaluation of the Strategic Plan. Also, he noted the agenda item for the Board's consideration of changes to the Strategic Plan and clarified that these changes in no way compromise the integrity of the document, but are only errors that need to be corrected.

Mrs. Spaht-Gonzalez presented an explanation of the process she followed and a summary of what she found, followed by a review of the rubric provided to Board members. She announced that backup documentation supporting information in the rubric is available in the Superintendent's Office for those who would like to review it.

In response to the Superintendent's request, she began to look at the five-year Strategic Plan that she had no involvement in creating to monitor if the District is achieving the objectives and action steps laid out in the Plan approved by the Board. She reported her focus was on this year only, but she has also looked at where the District wishes to be in 2020. She explained that she began by completing a detailed review of the plan followed by working with the Goal area leaders to look deeply at not just what was in the Strategic Plan now but where they wanted to be mid-year.

Today, Mrs. Spaht-Gonzalez stated she is here to give a mid-year update and she will bring a review of the implementation in the first year in July to show how staff and the District did in meeting the measurable objectives. She reminded the Board that it approved the Strategic Plan that included Goal areas, objectives and measurable metrics for each Goal, as well as annual metrics for each objective, and action steps and timelines to each, i.e. what needs to be done in order to achieve the objectives and goals. She added it is her belief there is a need for a mid-year metric in addition to the annual metric, as well as milestones attached to each step.

Mrs. Spaht-Gonzalez reported that in December she sat down with the team leaders to hear each group's update, where they wanted to be mid-year and the documentation to provide it; and if not there, why not. She created a scorecard (placed at each Board member's station) and put a mid-year status on each objective, ranked each (green and yellow good, red a signal for intense focus to meet the end of year goal), and documentation to support what is in the rubric/scorecard.

In summary, she reported that at this time (mid-year) the rubric reflects that approximately 50% of the 30 objectives met the mid-year target (marked in green), about 13% did not meet the target for mid-year (marked in yellow) but adequate progress was made and she believes the end of year target will be met; and approximately 4% are noted in red because they did not meet the mid-year target for various reasons, but actually went backwards, and will require an intense effort. She also noted that approximately 23% did not have any ranking because (1) there was no available data, (2) the data was available but was not collected, and (3) the objective was a new initiative still in the planning process.

Mrs. Spaht-Gonzalez explained in detail how she set up the rubric, the data included in that rubric/scorecard, and highlighted each goal, target, and status at mid-year.

Mrs. Bell expressed her concern for retention of classified and certified employees and the status of the objective; and Mrs. Spaht-Gonzalez responded it is coded "not calculated" rather than "N/A" because the data was available, but she did not receive the current retention numbers to

set the baseline on the targets. Dr. Goree added that he believes these calculations will be available in about a week.

Mr. Riall noted under Family and Community Engagement that each school is 100% at developing a parental involvement plan; and asked if there is anything in place to measure how well parents are responding to the plan, or how many more parents are involved since there is a plan? Dr. Goree explained the plan will be developed this year and at the end of the year when updating the Strategic Plan, a new action step for implementation will be added to the plan.

Mr. Rachal shared that he likes the fact that the plan was put into place, it is being measured and adjustments made accordingly. He pointed out the annual savings he sees in reducing overstaffing numbers and annual cost of books, and asked if staff is looking at shifting dollars in this area. Dr. Goree responded staff is looking at opportunities to move to more electronic devices which will be seen as the STEM initiative is rolled out. Mr. Rachal referenced the Parsons Study that indicated maximum capacity at 92% and we are at approximately 85%.

Mr. Green asked where the District is in the process of implementing 5.3. Mrs. Spaht-Gonzalez stated that because this is brand new, it is in the vision stage, and they have defined the scope; and once they determine the vision of the school, what it will look like and who it will affect, then model schools will be visited. Dr. Goree stated that he believes this year is very important in looking at new innovative initiatives so we can make sure the needs of the community are being met and used the Oak Park magnet component as an example which has not grown as we had hoped. He further stated it is important to make sure that we create the right model opportunities for students including where schools are placed. She also referenced 5.7 on the scorecard which addresses what Dr. Goree highlighted. Dr. Goree also expressed appreciation for the wonderful job Mrs. Spaht-Gonzalez has done in supporting and helping staff; and as Superintendent, he is most excited about the red areas because knowing that we need to and must improve, this will help us to do that.

ESTABLISH THE AGENDA FOR THE JANUARY 19, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the January 19, 2016 meeting and the following discussion ensued.

Additions

Mrs. Bell expressed her concern for extended sick leave days and accumulated sick days and Mrs. Trammel announced she will send this to the appropriate committee. Mrs. Bell stated she believes there is a need to look at these policies because she is concerned for the children when teachers are on leave for extended periods of time and not in the classroom.

Change in February CPSB Meeting Dates. President Trammel announced that due to conflicts, she is recommending that the February CPSB meeting dates be changed from February 2nd and 16th to February 9th and 23rd.

Special Revenue Budgets. Mr. Rachal asked if CEEF is part of the Special Revenue budgets and Mr. Lee explained that January is the month the interest is drawn from last year and added to the trust. When that is done, it will be brought to the Board.

Authorization to Demolish House at 655 Kings Highway. Mr. Rachal asked if there has been any interest expressed in this house. Lisa Lloyd reported there was a response at the first bid, but it did not meet the minimum reserve; and on the last bid, no bids were submitted. As a result, staff recommends moving forward with demolishing the house so we can move forward with the

project planned for that piece of property. Mr. Rachal asked about the addition or changing of this item to include authorization for the Superintendent and staff to demolish the building.

Permission to Accept Bid Responses for Knight Street Property. Mrs. Lloyd explained that the bid opened today at 2:30 and there were no respondents and before recommending rebidding it, staff wanted to maybe do some consulting and possibly receive some recommendations that will help maximize the price of the property. She said they do not believe advertising locally will bring the best benefit and exposure. Mr. Abrams asked if the process has been completed for getting it down to the lowest bid, and Mrs. Lloyd said it has not. Mr. Abrams advised that it will need to bid one more time to complete the process to be able to move forward.

Permission to Accept Bid Responses for Hamilton Terrace Property. Mrs. Lloyd reported a bid was received for this property and it did meet the minimum reserve at \$751,000.

Extension of Caddo/RSD Partnership Agreement. Mrs. Locke requested clarification on this item. Dr. Goree explained that 98% of what has been done has been through grant dollars and not the General Fund. He explained that in December the District had the opportunity to exit the agreement with RSD and RSD supported that happening because of the progress seen. He further stated that he believes the partnership has been good for the District in holding us accountable; and extending the agreement in light of the implementation of the PARCC assessment and much needed work to be done, another year will be good for students. He added there will be no additional cost but we will not be able to do some of the things we have done as a result of grant dollars going away. He said we are voluntarily doing this and believe positive results will be seen in extending it another year to sustain the growth seen.

Mr. Rachal asked about the cost for this partnership, and Dr. Goree responded easily \$1 million. He also stated that we are entering the last year of the contract with the UVA, and the District's charge will be to sustain the work that has been done and not increase the budget. Mr. Rachal asked for a breakdown of the cost and where the dollars are being spent.

Corrections to Re-Imagine Caddo: The Plan for Excellence. Dr. Goree reiterated his previous comments that these corrections will not compromise the integrity of the Strategic Plan. He brings it to the Board since he does not want to make any corrections without the Board and the Community being aware of those corrections.

President Trammel announced that the following items 8.02-8.10 and 13.01 will be the consent agenda. *Mrs. Locke moved, seconded by Mr. Green, to approve the proposed agenda and consent agenda for the January 19, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.*

ANNOUNCEMENTS

Mrs. Bell announced the Foster Grandparents Program will hold a celebrity auction next Thursday at Sam's Town to raise funds to help keep the program.

Mrs. Trammel announced that on April 8th Dottie Bell will be one of the "Back on Track" recipients and encouraged the Board's support.

Mrs. Trammel announced she is planning a Board retreat to discuss new policies, etc. and asked Board members to complete the survey of possible dates and return to her.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:19 p.m.*

January 5, 2016

The **Caddo Parish School Board (CPSB) Long Range Planning Committee** met in regular session on Tuesday, January 5, 2016 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Bonita Douzart, Barry Rachal, Susannah Poljak and John Albritton. Also present were Mary Trammel, Steve Riall, Denee' Locke, Dottie Bell, Raymond Green, Dr. Lamar Goree and Reggie Abrams, legal counsel. Staff members present were Jim Lee, James Woolfolk, Dr. Mary Nash-Robinson, and Mary Wood. Mr. Ramsey led the prayer and Pledge of Allegiance.

Energy Conservation Presentation. Mr. Ramsey introduced Archie Hall with Bolbolan Energy Enterprises. Mr. Hall, who is over project coordination, introduced the team members: Joe Ison, project sales and contracts; Tim Staley, energy engineering measurement and verification; Robert Parkerson, construction manager; and Shawn Fenton, service and operations. Mr. Hall stated that they have and would like to share with the committee what they believe would be a winning partnership for the Caddo Parish School System in providing a guaranteed energy conservation program that includes modernizing facilities, reducing costs and advancing student achievement.

Mr. Ison noted they are a division of Carrier Service and shared with the committee their qualifications, experience and track record, local/regional projects, local team and offices, etc. He explained that they look for energy savings solutions and presented an overview of performance contracting process from the audit of current annual maintenance and energy expense to the implementation (which includes the annual maintenance and energy expense after implementation and the debt payment and savings), through the remaining life following the debt payment.

Mr. Staley reiterated previous comments regarding their proposal to the District of a guaranteed energy savings performance contract, which is a program with no upfront cost and will provide an immediate cash flow improvement to the District. As a team, he explained they identify energy and cost savings opportunities throughout the District, facilitate financing for the programs which is paid for through the savings generated, and guarantee those savings. At the outset, Mr. Staley stated they will spend a great deal of time on the District's historical costs from an energy and maintenance standpoint, etc., and implement a program that will significantly reduce that cost. During the finance period, the debt service payment will be paid out of the savings, and they guarantee the savings will exceed the debt service payment; and if it does not, they write a check to the District for the difference.

He proceeded to highlight the major steps in the process they will follow once approved by the Board from the audit, which is data-driven, to the proposed plan they will bring back to the Board for approval before moving forward.

Attorney Abrams referenced the Louisiana Statutes and asked Mr. Staley how they deal with the stipulation that prior to the awarding of any performance based energy efficiency contract, political subdivisions shall select an energy efficiency independent third party evaluation consultant to review and evaluate a submitted proposal; and that no person, entity or esco which assists a political subdivision in the development of the request for proposal shall be respondent to the request. Mr. Staley referenced options available for this aspect of the process of developing RFPs.

Mr. Staley also highlighted their solutions-based approach with only one point of contact throughout implementation, only one contract, training of staff, insuring that the savings are maintained over time, remote monitoring, and identifying of issues before it is a big cost to the District. Throughout the transparent process, he explained they will come back to the Board with various opportunities, from short-term to long-term, and payback terms for addressing things such as lighting retrofits to replacing windows from two to ten years. In touring facilities and holding preliminary conversations, and accessing previous reports, they believe there is a potential annual savings of \$1.5 to \$3 million for the life of the equipment they install which will vary based on the equipment.

In implementing, Mr. Staley also address their flexibility to offer financing with variable financing terms as well as additional funding sources including utility rebates, tax credits and operational savings. Over 10-15 years, the \$1.5 million could mean potential \$10 to \$23 million in capital projects. Mr. Ramsey stated that in looking at the financing, the cost over the same period will be almost the same as the implementation cost. He also asked for clarification on securing a loan and how it would be reflected in the financial statement. Mr. Staley responded the financing can be done via a bond issue, lease arrangements, non-profit sustainable energy financing fund, and it would be shown as an obligation to the District as well as guaranteed savings as revenues to offset the debt obligation (as a result of legislation).

Dr. Goree asked about the percentages in savings, and Mr. Staley explained that he can provide estimate percentages on energy costs but he did not have ample information on the maintenance costs to report a percentage. He believes, however, that the District would be looking at a 15-20 percent reduction in energy costs. He also said they will not recommend a product to move forward with unless the debt is less than the savings. Mr. Abrams asked if the financial arrangements have to be approved by the Bond Commission, and Mr. Staley responded that it depends on the financing instrument used.

Mr. Staley shared successes other companies have seen as well as the steps in moving forward.

Mr. Rachal asked about the audit process and if there is a cost for this. Mr. Staley said there is, but there are no upfront out of pocket costs to the District, but the cost for the audit along with all the costs for the program are rolled into the overall financing of the project. Mr. Rachal asked if the timeline will be adjusted dependent on the number of buildings. Mr. Staley responded that he believes they would be able to finalize a report within 120 days. Mr. Rachal also asked about the escos and the third party and if the State has third party companies available. Mr. Hall said they do, but only for state projects; so Caddo would have to secure a third party consultant, and the cost is pulled out of the project and will be in the financing of the project.

Jim Lee asked if he understands the third party cost will be transferred into the financing of the project and Mr. Staley explained it will be included in the Letter of Intent explaining the limits in State law as to what the third party can charge. Mr. Staley confirmed that their fees will be included in the implementation project costs.

Dr. Robinson asked about the disruption of the school day in the implementation of the program. He noted their success in completing the project with minimal disruption by working a lot of after hours, and breaks in the school calendar. Mrs. Bell asked if the District has had a company do this in the past or has it been in-house, and Mr. Ramsey responded it has been done in-house.

Mr. Hall shared that their team brings more than 100 years of service in this business, also bringing value, benefits as well as scale and speed. Mr. Ramsey asked if the District would be involved with three different companies. It was advised that there will be one contract with Carrier, and Carrier was chosen because of their local presence to partner with Archie Hall and Imperial Energy.

Mr. Rachal inquired of the Superintendent his goals relative to energy conservation and Dr. Goree responded that as outlined in the Strategic Plan, the goal is to be as energy efficient as possible; and in that respect, they are seeking the best opportunity to cut energy costs and give the District the greatest long-term savings and help return those dollars to students. Mr. Rachal asked what the next step is that needs to take place, and Dr. Goree said it depends on the company and the service it provides because based on today's presentation, there could be some qualifications that we might need to do that would not be necessary if another company was chosen because of the nature of the work being so different.

Mr. Abrams clarified that the other company is not a performance based contract where new equipment is purchased but is a service; and this one is so the guidelines and hiring of consultants would require a RFP process.

CONSIDERATION OF ENERGY CONSERVATION OPPORTUNITIES

Mr. Albritton moved, seconded by Mr. Rachal, that staff bring back a recommendation/proposal on how the District should move forward with the energy conservation program.

Mr. Albritton stated that good information has been brought to the committee and he believes we need to hear back from the staff on their evaluation of the proposals presented along with a recommendation. Mr. Rachal shared that he is grate for the Superintendent and staff for moving forward to address this need. Mr. Green stated there is a great need to look at this and he is encouraged by the motion that staff will bring back a recommendation for the committee's consideration.

Vote on the motion carried unanimously.

ADJOURNMENT

Mr. Rachal moved, seconded by Mrs. Douzart, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 3:52 p.m.

January 19, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, January 19, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE DECEMBER 15, 2015 AND JANUARY 5, 2016 CPSB MEETINGS

Mr. Riall moved, seconded by Mrs. Locke, to approve the minutes of the December 15, 2015 and January 5, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

North Highlands Elementary School. The North Highlands "Tenacious Step Team" (TST) performed a synchronized step routine for those present. Mr. Strother announced the TST, established in October 2015, performed at the Southern University Homecoming Parade and the North Highlands Christmas Play, and won 1st Place and \$250 at the Hot Wheels Step Off.

"I Have a Dream" Contest Winner. Caleb Jones, 3rd grade student at Caddo Heights Math/Science Elementary, was recognized as the winner of the "I Have a Dream" Speech contest, and he shared with the audience excerpts from his winning speech.

Shreve Island Coding Team Places 1st in Wonder League Robotics Competition. Malachi Smith, Devon Strickland and Gabe Bias (Shreve Island's Team 1) were recognized for placing first in the State in the Wonder League Robotics Competition which required them to program their robots to accomplish specific tasks. Mrs. Chirhart is the teacher sponsor.

Perfect ACT Scores. Julia Ash and Cameron Wallace (not present at meeting), seniors at Caddo Magnet High School, were recognized for perfect scores (36) on their ACT exams.

2015 President Steve Riall. Steve Riall was presented a plaque in recognition of his service as the 2015 president of the CPSB. Mr. Riall expressed his gratitude for the opportunity to serve as the Board's President as well as to work with Dr. Goree and the staff.

Newly Appointed Administrators. Al Graham, director of classified personnel, recognized the following newly appointed administrators: Katherine Laster, head nurse supervisor; and Kristi Willis, supervisor of Accounting/Accounts Payable.

CADDO EARLY CHILDHOOD COMMUNITY NETWORK OVERVIEW AND COORDINATED FUNDING REQUEST FOR PUBLIC COMMENT

President Trammel announced a time for public comment on the Caddo Early Childhood Community Network Overview and Coordinated Funding as open, and there was no response.

VISITORS

Jackie Lansdale, president of Red River United, shared with the board the following items of concern relative to classroom issues: (1) implement positive changes to existing policy GCBD,

GCBD-R by adding funding at 80% for maternity leave after use of current and accumulated and before use of extended sick leave; (2) enforce state law relative to student attendance since non-compliance is detrimental to student performance which in turn harms teacher performance; and (3) alleviate the boondoggle in technology in the classroom.

Linc Coleman, local realtor/developer, provided the Board a packet of information regarding Magnolia Charter School and the need for additional traffic and master plan studies for any further expansion of the school. The packet included information on studies performed by his company, research that included documents related to the charter school and the fact that the CPSB does have oversight. He further explained that information provided by the City of Shreveport and Charter USA representatives state the CPSB did not request traffic studies or other fundamentals relative to site selection; and at this point, two governmental agencies are pointing fingers at each other without any communication which he believes needs to be done to protect taxpayer dollars. Regarding enrollment allowed, Mr. Coleman noted the amendment to the charter that stated 2000 students and the minutes reflecting they would be allowed to increase 20%. Mr. Coleman also noted the school's recent Report Card grade of a "D", accountability in Louisiana failing schools, report on charters in Florida and problems in how charters are funded, and the difference in the appraisal on and the selling price for the land encompassing the Magnolia Charter School. He asked for a full investigation of this matter by the CPSB.

Mr. Rachal asked about the request for a full report to the Board on charter schools and that it includes the Board's responsibilities as well as the Superintendent meeting with Mr. Coleman.

Quincy Gardner stated while it is a great day to be a parent of a student in Caddo Parish, he recently ran into some trouble at Turner Elementary. As a parent, he does not want to cause any trouble, and he likes what he has seen thus far under Dr. Goree's leadership; but the bureaucracy in the school system has prohibited him from addressing issues and resolving them quickly.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Goree announced that Item 13.02 "Workers Comp Recovery" is pulled, and President Trammel announced the following items as the consent agenda: 6.02-6.03, 8.01-8.10, and 13.01. *Mr. Ramsey moved, seconded by Mrs. Bell, to approve the agenda and the proposed consent agenda as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mr. Ramsey moved, seconded by Mrs. Bell, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Renewal of Administrative Contracts. The Board approved the renewal of administrative contracts as recommended by the superintendent and submitted in the electronic mailout.

6.03 Personnel Transactions Reports-Resignations. The Board approved the personnel transactions reports for December 1-31, 2015 as submitted in the electronic mailout.

Item No. 8

8.01 Property Bus Rental Requests. The Board approved the request for use of buses by LSU Shreveport LaPREP as submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved the requests for out-of-state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Change in February Meeting Dates. The Board approved changing the February meeting dates from February 2 and 16 to February 9 and 23, 2016.

8.04 Special Revenue Budgets. The Board approved the special revenue grants awarded during the 2015-16 fiscal year as presented in the electronic mailout.

8.05 Authorization to Demolish House at 655 Kings Highway. The Board authorized the Superintendent and staff to demolish the house at 655 Kings Highway as recommended by staff in the electronic mailout.

8.06 Permission to Accept Bid Responses for Knight Street. The Board moved to authorize staff to rebid the Knight Street Property for sale at 80% of the appraised value as recommended in the electronic mailout.

8.07 Permission to Accept Bid Responses for Hamilton Terrace Property. The Board accepted the bid of Willis Knighton Properties, LLC for the sale of the Hamilton Terrace School Property in the amount of \$751,000 as recommended by staff and submitted in the electronic mailout.

8.08 Professional Designers for 2016-17 Capital Projects. The Board accepted the professional designers for the 2016-17 Capital Projects as recommended by staff and submitted in the mailout.

8.09 Extension of Caddo/RSD Partnership Agreement. The Board approved the extension of the Caddo/RSD Partnership Agreement as recommended by the Superintendent and submitted in the electronic mailout.

8.10 Corrections to Re-Imagine Caddo: The Plan for Excellence. The Board approved corrections to Re-Imagine Caddo: The Plan for Excellence as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeals. The Board approved staff's recommendation for students BA, AB, AB, Jr.; GW, Abe, Jr.; DC and AR whose parents are in agreement.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell requested a full report on the Charter School to not only hear an update on all the stipulations in the contract but to explain the Board's responsibility in Charter Schools. She asked that this be on the February 9th agenda.

Miss Green echoed Mrs. Bell's comments regarding the need for a report on the Charter School and she commended Shannon Wall for the "Taste of Blanchard" event.

Mrs. Poljak asked about the email from Scott Richard, executive director of the Louisiana School Boards Association, addressing the possible decision scheduled for January 21st on the percentage District's will owe for the pension (25% or 28%), and if someone from Caddo will attend that meeting. Dr. Goree responded that generally the Board takes a position on these matters or supports the position of the association, which does look out for the best interest of the school districts. Staff will provide additional information.

Mrs. Brown asked that the retreat agenda include a short session on parliamentary procedures and Robert's Rules of Order.

Mr. Rachal asked for an attorney general/local attorney opinion on the legalities of the various type energy conservation proposals submitted to the Long-Range Planning Committee.

Mr. Green announced that the Miles for Smiles mobile unit is on the parking lot and encouraged those interested to take time to tour this facility.

Mrs. Bell announced that she represented the School Board at the Foster Grandparents event and actually raised more money than anyone. Mrs. Trammel also attended.

Adjournment. *Mr. Riall moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried* and the meeting adjourned at approximately 5:25 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary Trammel, President

February 8, 2016

The **Caddo Parish School Board (CPSB)** held a retreat on Monday, February 8, 2016 at approximately 10:30 a.m. in the Community Foundation's Community Central Room, 401 Edwards Street, Shreveport, Louisiana. Those in attendance were President Mary Trammel and Board members Steve Riall, Jasmine Green, Margaret Brown, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

Charter School 101. Attorney Abrams shared with the Board an overview of the Board Members' duties and responsibilities for authorization of Type 1 charters. He explained the guidelines for establishing a charter, the criteria, enrollment process, the five types of charters, how proposals are evaluated, third party reviewer, etc.

Robert's Rules of Order and Board Policies/Procedures. Mr. Abrams reviewed and brought the Board up to date on Board Governance policies as submitted by Forethought.

Board Code of Ethics. A work session, led by Attorney Abrams, was held on a possible Code of Ethics for the Board.

Following closing comments by Superintendent Goree, the retreat was adjourned at approximately 4:15 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary Trammel, President

February 9, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, February 9, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Raymond Green present constituting a quorum. First Vice President Denee' Locke was absent. Also present were Board members Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Board member Jasmine Green led the prayer and Pledge of Allegiance.

PRESENTATIONS

Strategic Plan Update – Communications. Bill Strother, director of communications and marketing, and Mary Nash-Wood, assistant director, shared an update on the communications portion of the Strategic Plan. Mary Nash-Wood stated that while the role of communications and marketing in the District is wide, it is one of the best opportunities for telling positive stories in each school/site and to put out a positive depiction of the District and the Board. She explained that the advertising and marketing efforts are guided by several principles, i.e. wanting to know every positive thing about the District's students, teachers and staff. The department works with more than 60 media persons to insure everyone is on the same page relative to what is happening in Caddo, and it constantly pitches stories to local media outlets. Additionally, Communications works to update our media presence through Caddo's website and social media; as well as coordinates Student and Teacher of the Year programs, Ring the Bell, Senior Recognition, and the United Way campaign.

Mr. Strother highlighted the Communications Department involvement in the Strategic Plan to develop a road map on how the department will proceed in advocating for the District through this plan. Elements of the Strategic Plan that Communications is involved with include Family and Community Engagement, with a goal to leverage community resources and strengthen family and community engagement in supporting the students and schools success. Action steps are in place and currently Communications is on target with each school having a parental involvement plan that describes their community partners, their critical needs, as well as involving parents (i.e. particularly Dads and uncles). Both targets are on track for completion and they are currently surveying the needs at each campus.

Relative to the marketing aspect of the Strategic Plan, Mr. Strother explained they are developing a multi-year marketing plan to communicate a positive and realistic view of Caddo Parish Public Schools and to umbrella all Caddo schools so when spoken about, it is about the district (all Caddo schools) and not individual campuses. This is being done through more positive news stories, more integrated and active social media campaigns in hopes of changing the culture and perception of the District as one that is getting better and greater.

Mrs. Wood added that part of her job in the marketing plan is to realize and relay the positive things that are happening in our schools. Currently, through a named media liaison at each school, information is shared with her on a weekly basis on what is happening on the Caddo campuses. She said staff is also monitoring all forms of traditional media, i.e. newspaper, television, radio, magazine; and the content they are publishing/sharing on Caddo and this is done in three ways: (1) how they view the district as a whole, (2) how they view individual campuses, and (3) how they view the Board. At this time, she reported that 42.5% of the news stories are rated positive, 30% are neutral balanced, and the remaining are deemed as negative. Mrs. Wood also said they are looking to see that there is a diversity in what is being shown, as well as catering to what types of stories parents want to hear about their schools.

Mr. Strother also added that not only are they responsible to the District and to the Board, but they are responsible to the parish taxpayers to share with them all the good and positive things on each campus in an effort to change the perception of the District to a more positive one.

Mrs. Wood also shared how staff uses social media (Facebook, Instagram, and Twitter) to share information about the District and how this has grown over the recent years. Mr. Strother added that the staff is looking to increase video presentations of Caddo's stories through the website and other social media platforms, and continue to cultivate relationships with local media outlets. He also reported on the collaboration with local, regional, state and national public relations professionals, continued professional development through the National Schools Public Relations Association; launch of a school district and family magazine that will not cost the District anything, use of TV Eye service, reconfiguration of the District's website, and billboards strategically located in high traffic count areas.

Mr. Ramsey complimented Communications on their presentation, but noted that having worked in a huge corporation it was always important to provide the officers and the stakeholders with a marketing plan and asked if the Communications Department has a marketing plan/scorecard? Mr. Strother responded yes and he will provide the Board with a copy. Mr. Ramsey stated he believes it imperative that the District has a strong marketing plan as part of the Strategic Plan presentation because it will be key in moving and changing the perception of the District.

Mrs. Poljak asked if, in conferences staff has attended, there has been information on how to get people to remember the 20 good stories in the media versus the one negative story; and when the public says the District springs things on the taxpayers, can we remind them that Caddo began seeking input in the Strategic Plan in April 2014. Mr. Strother responded that in managing social media, the staff has the opportunity to create the narrative, archive, and re-loop them on the website; and their goal is for every one story, they want five good stories. Mrs. Poljak asked if staff does any work with local marketers, i.e. Reach Local. Mr. Strother said he is unsure but it is something he would like to research; and he further explained their ability to identify age, gender, etc. on those accessing our website.

Miss Green asked about the number of magazines, and how they will be distributed, and the cost to print copies above the 5,000. Mr. Strother said he will look at the cost for more than 5,000 copies. Dr. Goree noted the importance of placing the copies in high traffic areas, lobbies at the doctor's office, banks, etc. Relative to the website redesign, Miss Green asked how soon the new website will be available, and Mr. Strother responded staff has been involved in this project for approximately four months and the contracts are currently with the attorney who says he doesn't believe there is any additional cost per the contract. Dr. Goree stated it is hoped that the first issue will be printed prior to the end of school. Miss Green noted that many of those slandering the school district do not even have children in the system. She also asked about TV time (commercial) with local tv stations, as well as maybe a jingle.

Mrs. Bell shared her excitement about the billboards, but noted many times the only news that makes news is negative news. She said to her there is nothing like a newsletter. Mr. Strother noted that Communications does distribute a weekly newsletter from the Superintendent.

Mr. Riall expressed appreciation to Mr. Strother and Mrs. Wood for all they do.

Mrs. Brown commended Mr. Strother and the Communications staff and asked that staff look back in the archives and note that the current Board president was at one time responsible for putting out a newsletter. She also suggested that in the summer programs where students are taking photography, it is important for them to go out on assignment and take pictures.

Dr. Goree thanked Mrs. Brown for her comments and noted the rich history in Caddo and its great leaders. He also stated that Communications has reached out to Mrs. Trammel and Burnadine Anderson to talk about things that have worked and not worked.

Mr. Albritton stated that one criticism of the Board is the Board is not active enough or seen enough in the community and requested an inservice on using Twitter. Mrs. Trammel asked if "Linked In" could be added to the workshop.

Mr. Green stated in staff's commission to the Board on the outhouse to the White House, he believes the sky is the limit and you cannot burn up nor burn out.

President Trammel stated she is very pleased with what is taking place in the area of Communications and that it is possible to get eNews to Mrs. Bell.

Mr. Strother emailed everyone the link to the magazine.

Shreveport Charter Application Process. Legal Counsel Reggie Abrams shared with the Board a packet of documents relative to the Board's process with Magnolia, Shreveport Charter Foundation, highlighting the timeline beginning with February 28, 2012 when Shreveport Charter filed an application for a Type I Charter. Mr. Abrams presentation included an explanation of their Type I Charter application with the CPSB as the authorizer for their k-12 school with an enrollment of 2,345 students, and the requirement to hire an independent third party evaluator to review the following main areas: the education plan, the organization plan, the business plan and the evidence of capacity. Additionally, staff worked with the evaluator during the process of evaluating the pieces of the application and the evaluator pointed out that the issue of the school site was not settled and it caused concern; however, the evaluator recommended that the CPSB approve Magnolia Charter School based on the four main areas meeting or exceeding the standards. In July of 2012, the Board authorized Shreveport Charter Foundation's formation of a Type I Charter School, Magnolia School of Excellence, in accordance with the application, and authorized the Superintendent and Board President to execute any necessary documents to effectuate the formation of the school. Following the Board's authorization, a contract was developed (charter) on how to proceed. Mr. Abrams also explained the site was selected after the negotiations began and the agreement was executed on February 5, 2013 with an anticipated opening date of fall 2013. Mr. Abrams also noted in the agreement where location was noted in the contract and Magnolia would insure that all facilities complied with all state and local health and safety standards as well as other applicable laws, regulations and rules. He also stated that if Magnolia did not follow through with the facility requirements, the contract states that the CPSB as the right to enforce its revocation rights. Mr. Abrams detailed the responsibilities of the Magnolia Charter and the responsibilities of the CPSB. Relative to evaluation, the contract states the Charter School shall be evaluated annually in accordance with Bulletin 126; and he announced that, as required, the District has received one mid-year report and one annual report. He also explained if the charter school ceases to operate, closes or if its application is revoked, all student records immediately become the property of the CPSB.

Mr. Abrams explained that Mr. Lee receives monthly reports on how many students are at Magnolia and it must all go through the system to ensure accurate payment. Also, Magnolia personnel must notify Caddo's HR Department in the event any employee is arrested, shall notify the District if they are in default of any obligation, debt, change in standing with the Secretary of State, or if there is a decrease by 10 percent or more of the population compared to the count submitted to the DOE. Loss of Management requires the Charter School to notify the local Board of enrollment projections, and the contract is good for five years. Mr. Abrams also highlighted revocation of charters.

Mr. Abrams reported that once the evaluation summary was received, the Board met to discuss issues and approved it with the following conditions (school must achieve a minimum score of “C” for the 2013-14 school year, current school shall not have any deficiencies for the 2013-14 school year, the school will not open if the enrollment is less than 90% of the school’s anticipated enrollment for the year prior to the school’s opening). The school in turn notified the superintendent that these conditions were unacceptable and they would apply to BESE for a Type II charter (and while they did apply to BESE, they withdrew their application for a Type II charter).

In March of 2015, Mr. Abrams reported that the Shreveport Charter Foundation applied to the CPSB again for a Type I charter for grades K-8 to serve as a second feeder school for their planned high school (because they were already approved for a K-12 school). Because of resistance, they agreed to modify their request to allow the K-6 at one site and a 7-12 at another site with a limitation on the number of students to 2,000, and this was approved by the current Board in May of 2015. This charter contract was amended to allow Magnolia to have two sites (one K-5 and one 6-12), still one school with stipulation that the Shreveport Charter Foundation and the Superintendent would work together to approve the site location for the second building and the second site being evaluated separately from the first site. Mr. Abrams stated that the key issue pointed out was the location of the school which is recorded in the minutes; and they ultimately decided to put the second building at their current location (adjacent to the location approved by Caddo Parish for the first building); and he believes it would be arbitrary to tell them they could not be at this location (for their second building), when the Board already allowed them to be at their current location, and now with less students than originally approved by the Board. He also pointed out that it is not the Board’s job to get permits, traffic studies, etc.; and it states that the Charter shall maintain ownership and insure that the facilities comply with all State and local health and safety standards for putting in a school. If they do not do this, it states that the CPSB reserves the right to enforce its revocation rights and take their charter away.

Superintendent Goree added that his office was contacted on two occasions (one was the Bossier land and the second was the Hamilton Terrace facility). When neither were viable options, there was no further discussion with them concerning a site.

Mrs. Bell asked if she remembers correctly that the agreements stated our buildings could not be used for the purpose of a charter school. Mr. Abrams said that is correct, but reminded the Board if it limits what can be done with a building, it cuts the value of that building. Under the charter law if you have another charter operator or someone who wants to use a vacant building, the Board has to allow them to use it at fair market value. Mrs. Bell said she would like to see what the minutes reflect relative to this issue. Superintendent Goree added that if they were to choose a different site, they would have to engage in a conversation with his office to do so.

Mr. Rachal asked if they say they are on the same site and they do not own the land but must acquire it, does this mean it is not the same site. Mr. Abrams responded said they are referencing the location where they are; and while he agrees it is two different sites in this respect, they are adjacent to each other.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE FEBRUARY 23, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board’s consideration at the February 23, 2016 CPSB meeting and the following discussion ensued. Dr. Goree announced that Item 8.03 “Level IV Grievance Dispositions” is being pulled because of a resolution, and Item 8.12 “Approval of Proposed Policy Regarding Student Absences” is also being pulled. Mr. Ramsey asked that “Staff’s Recommendation for Energy Conservation Program” be added.

Resolution of Continued Employment. In response to Mrs. Bell's request, Dr. Mary Nash-Robinson explained there are a number of temporary employees in the District; and in lieu of being employed during the summer months, they may request unemployment compensation and this prevents that from happening. Mrs. Bell asked if she understands these are temporary and not full-time employees. Mr. Abrams stated that under the unemployment law, and because they work nine months and are off three, they can attempt to file for unemployment. This is letting them know the District is keeping them on and to keep them from filing for unemployment. Mrs. Bell asked if an employee works for Caddo for nine months, does it mean they will not receive a check for three months, and we will stop them from getting unemployment. Mr. Abrams said this has been the law for many years and it guarantees they will return to work after the summer. Mr. Graham explained these are classified employees employed during the regular school year and they are compensated over the summer since their salary is spread out over 12 months. The only ones who would not receive compensation over the summer would be those who began employment in February and possibly receive a payout. He further stated that something similar is done with substitutes. Mrs. Bell stated she only wants to make certain these employees had a salary to carry them over the summer months.

Purchase of ½ of the Royalty Interest of Section 16T 15N R12W by Hyperion. Petroleum Engineer James Moranto stated that upon looking at the proposal, the revenue Caddo is currently receiving from royalty interest will not be affected and Caddo will continue to receive it. The offer from Hyperion is to purchase ½ the royalty on the deeper rights (those lower than the current production); and to pay \$1,093,750 for the deeper royalty. Mr. Moranto also explained that with the current oil and gas industry conditions, they can only justify drilling deeper wells if they have a better position in the well. At this time, he is not aware of how many wells they anticipate drilling; however, because it costs \$8-\$10 million to drill a well, they will not drill if the economics are not there. Mr. Moranto added that this is something he and his firm address all the time all across the country; and in looking at what would be most beneficial to the School Board, he believes this is an excellent offer for numerous reasons, and is an opportunity for the District to receive additional revenue in the future without losing anything it is currently receiving, plus the company is paying the District over \$1 million.

Mr. Rachal clarified his understanding of the offer and asked the Superintendent if there has been any consideration for these proceeds. Dr. Goree responded these proceeds have not been earmarked at this time, but generally these type proceeds go into the District's capital projects. Mr. Rachal added that he would like to see it go in a one-shot area.

Mr. Riall asked if he understands correctly that we will be giving this company the interest on everything below the Cotton Valley and there is no cap. Mr. Moranto stated that at this time, the District has the rights through the Cotton Valley and this is deeper than the Cotton Valley, and there are two potential zones/layers the company could drill. Mr. Riall asked if we own 25% royalty on all depths at this time, and Mr. Moranto said that is correct and this will not affect anything Cotton Valley and above; and it will stay at 25%. The 12.5% is any new drilling below Cotton Valley.

Miss Green asked if passed, how soon Caddo will receive the money. Dr. Goree responded staff will negotiate to receive it as quickly as possible. Mr. Abrams also clarified that Hyperion came to the CPSB with this proposition, legal counsel reviewed and recommended the expert to review it and provide the Board with an independent evaluation of the details of this particular proposal.

Mr. Woolfolk noted the letter of intent from Hyperion, a map of the George Washington Carver property which is the property being referenced, a letter from Caddo's legal counsel John Madison and the analysis from Mr. Moranto which are provided as backup information.

Approval of Job Description/Recruiter. Miss Green asked if this person will be responsible for addressing the district needs in recruiting teachers. Dr. Goree stated this person will coordinate those efforts; and in looking at the District's human resource needs and the vacancies in the District, conversation has taken place on who actually owns the recruitment of teachers and there is no one person that has this responsibility but it is shared among many in HR. Dr. Goree said if the District is seriously going to attack the problem of certified teacher vacancies, it is important for someone to own the entire process. To make it happen will mean identifying what we will give up; and HR is looking at all its staff and making adjustments so this position actually pays for itself. This person will be charged with the responsibility of all efforts to get quality certified teachers in Caddo Parish for all our schools, as well as responsible to come up with new and innovative ways to attract and sell Caddo Parish Public Schools and give all Caddo students the advantage of having certified teachers in as many classes as possible. Miss Green asked about the projected salary for this person, and Dr. Goree responded that staff can provide Miss Green with a pay range for this position based on Mr. Rahmburg's letter, and that range is basically \$65,000-\$85,000.

Mrs. Bell asked if this person will be someone from outside the District, and Dr. Goree further explained staff will consolidate the position and cover it for the remainder of this school year from savings (i.e. employees that have left and have not been replaced). In moving forward, he said staff will work smarter versus harder; and he encouraged Board members to contact any D and F school and ask about the value of this policy. Dr. Goree said there will also be some consolidation within the division to cover the salary so this a budget neutral item moving into the future. Mrs. Bell said she believes this has been a need and she only wants to understand that this is not a new money, but will come from positions previously held but now vacant. Dr. Goree said that is correct.

Mrs. Brown asked about the status of the District's hiring freeze, and Dr. Goree stated that all hiring freezes were lifted in January. Also, the question was asked if this will be filled externally or internally, and he said they will find the best candidate for the job and the person may or may not work in Caddo. Qualifications and expectations of the one holding this position will be in numbers and will have to bring in teachers.

Mr. Rachal inquired about the shortage of certified teachers, and Dr. Goree stated he believes barely under 100. He further stated that this is very time sensitive since we are in the season of job fairs and recruitment and need to get this person in place so they have the opportunities this Spring to develop these relationships through the State and Region. Mr. Rachal asked Dr. Goree what the goal would be and the Superintendent said zero in a large urban district is an aggressive goal, but he believes Caddo can get the vacancies below 5%. Mr. Rachal also asked about other tools being used to attract certified teachers, and Dr. Goree stated that under Dr. Robinson's leadership, Human Resources has developed a timeline he will provide the Board and highlighted several areas that will be targeted, i.e. Michigan, Pittsburg, local job fairs, two in-District job fairs focusing on D and F schools as well as the general All District Job Fair. Dr. Goree stated that he will provide the Board with a Spring timeline for recruiting. Dr. Goree also reported that HR and Academics are working as a team in talking with people in other districts as to how they are addressing this issue, and this is what led to the discussion of having one person totally devoting each day to recruiting of teachers. Mr. Rachal asked about anything being done to promote what Dr. Robinson is doing. Dr. Goree stated that everything staff is doing is being heavily marketed through the Communications Department, flyers, etc. to make sure the message is getting to the teachers.

Mrs. Bell noted that the Board is a policy-making board, but asked how we can better recruit teachers to teach in the D and F schools, i.e. Transformation Zone Schools. To her, she believes a teacher will teach wherever there is a need. In talking about priority schools, Dr. Goree said these are D and F "Transformation Zone" schools, which is where the majority of these schools

exist; and when traveling there will be a greater emphasis on these schools, but reminded the Board that the children in all 62 of Caddo's schools deserve a quality, certified teacher, and he has spoken with principals about this issue.

Mr. Green said he believes he is hearing that some type incentive should possibly be offered to those at the middle school to address these issues of difficulty. Dr. Goree said that schools have been presented several recommendations and the Board passed several items that staff uses in recruiting and they are constantly looking for ways to attract teachers.

President Trammel announced that Items 8.01-8.12 are the consent agenda. *Mr. Green moved, seconded by Mrs. Trammel, to approve the proposed agenda and consent agenda for the February 23, 2016 CPSB meeting. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, asked that the Board look at the position of Grantwirter for Caddo Parish Schools, and she also thanked Mary Trammel, Jasmine Green and Mary Wood for accompanying her to New York.

Adjournment. *Mr. Green moved, seconded by Mrs. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:30 p.m.*

February 23, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, February 23, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Miss Green led the prayer and Pledge of Allegiance.

President Trammel recognized Robert Urline, new general manager at El Dorado and Tabatha Taylor.

CONSIDERATION OF MINUTES OF THE JANUARY 19, 2016 AND FEBRUARY 9, 2016 CPSB MEETINGS

Mr. Rachal moved, seconded by Mrs. Bell, to approve the minutes of the January 19, 2016 and February 9, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Bill Strother, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Youree Drive Spartan Sound. Members of the Youree Drive Spartan Sound choral group shared two musical numbers for the Board and audience.

2015 Certified Nursing Assistant Graduates. North Caddo High School students Megan Butler (Senior), Savanna McKnight (Junior), and Lachrisha Williams (Senior) were recognized as 2015 Certified Nursing Assistant graduates, having received their pins on December 17, 2015.

Geaux Green Program. Joey Gouthiere, 5th grade student at A.C. Steere, was recognized for organizing the Geaux Green project in May 2013. Joey encouraged all in attendance at the meeting to pledge to help take care of our Earth by recycling, picking up litter, planting trees and flowers, as well as conserving water and electricity. Joey shared with everyone why Caddo Parish Public Schools should recycle and Geaux Green.

2017 Teachers of the Year District Winners. The following teachers were recognized as the 2017 Teacher of the Year District winners: Elementary – Rechelle Richmond, 4th grade English Language Arts and Reading at Westwood Elementary; Middle – Kristin Hudson, 6th grade physical science and 6-8th grade robotics teacher at Donnie Bickham; and High School – Donna Pannell, North Caddo.

2017 Caddo Parish Public School Principals of the Year. The following principals were recognized as the 2017 Principals of the Year winners. Elementary – Renee Ellis, Westwood Elementary; Middle – Scott Aymond, Ridgewood Middle; and High - Gerald Badgley, C E Byrd High School.

Alliance for Education – “Path to Excellence”. Dr. Philip Rozeman recognized the following schools for receiving the Path to Excellence Award this past year: Midway Professional Development Center, Caddo Heights Math/Science Elementary, University Elementary, Westwood Elementary, Captain Shreve High, Southwood High, Northwood High, C. E. Byrd High and Caddo Parish Magnet High. Members from each school were present to be recognized. Dr. Phil Rozeman explained that this program is sponsored by the Alliance for Education Willis Knighton Health System and recognizes students with the greatest improvement in school performance scores from the previous year. WK Health System is responsible for comparing the

School Improvement Scores from last year to this year, looking at gains at the schools and recognizing the hard work of the administration and teachers. He also stated that the School Improvement Scores for the Caddo Parish high schools were phenomenal which is important since it indicates what the schools have done from kindergarten up. Each school was presented with a banner indicating they are a Path to Excellence School as well as a check for \$750.

National School Counseling Week Proclamation. Bill Strother read the following proclamation from Mayor Ollie Tyler declaring February 1-5, 2016 as National School Counseling Week.

Whereas school counselors are employed in public and private schools to help students reach their full potential; and

Whereas school counselors are actively committed to helping students explore their abilities, strengths, interests, and talents as these traits relate to career awareness and development; and

Whereas school counselors help parents focus on ways to further the educational, personal and social growth of their children; and

Whereas school counselors work with teachers and other educators to help students explore their potential and set realistic goals for themselves; and

Whereas school counselors seek to identify and utilize community resources that can enhance and complement comprehensive school counseling programs and help students become productive members of society; and

Whereas comprehensive developmental school counseling programs are considered an integral part of the educational process that enables all students to achieve success in school;

Now, Therefore, I, Ollie S. Tyler, Mayor of the City of Shreveport, do hereby proclaim February 1-5, 2016 as NATIONAL SCHOOL COUNSELING WEEK.

In the City of Shreveport and urge all citizens to celebrate this special occasion.

In Witness Whereof, I have hereunto set my hand and caused the Seal of the City of Shreveport to be affixed.

University of Virginia Presentation. Eric Thomas, Chief of Support for the Darden-Curry Partnership for Leaders in Education at the University of Virginia, highlighted the two-year relationship between Caddo and UVA to strengthen the District's abilities to foster student achievement including specific and targeted leadership training. He stated that as the collaboration comes to an end in the coming months, he will provide an overview of the progress made during the partnership as well as a charge for the District to continue the positive momentum generated to ensure Caddo is a district where every child is college and career ready. Mr. Thomas highlighted the four levers that drive their organization, all designed to make certain all students learn, i.e. Leadership, Support and Accountability; Talent Management, and Structural Infrastructure. He noted how each lever has been developed in Caddo, indicators they look for in each area (i.e. improved attendance, decrease in discipline issues, strong leadership at Central Office as well as the shepherd level, gaps identified and addressed, etc.), all which are important if the District will see student achievement come forth. He also stated that while the results needed may not be seen for several years, they are seeing indicators that will ultimately bring forth great outcomes in coming years. Mr. Thomas congratulated the Superintendent and his leadership team, and the school board for embracing the leadership of the District.

Mr. Thomas also congratulated and highlighted the outside resources and community engagement that have been brought forth as a result of the Transformation Zone and Mr. Snow's leadership, and he applauded the community for embracing the work the District is championing. In closing, Mr. Thomas said while the District is doing many great things, there is still a gap and

the UVA team has been working with the District for a day and a half to assess the current reality of the gaps between where the District is currently and where it needs to be, something they refer to as a Performance Gap. He noted the District's acceptance of that gap and its efforts to close it by focusing on all 40,000 plus students in the District and saving kids' lives, which is the moral purpose of the District.

Miss Green asked the Superintendent how many times staff traveled to Virginia; and Dr. Goree explained that as a part of the UVA partnership, staff would travel to UVA twice a year and the UVA staff would travel to Caddo twice a year since the partnership began. The superintendent also expressed his appreciation to the UVA staff for the opportunity to partner with an organization that bases its work on research, and he believes the District is better because of the partnership and could not have come as far as it has without it.

Mrs. Bell shared her experience of traveling twice to UVA and the work that takes place while there. She also asked when the contract with UVA will end. Dr. Goree said the contract expires at the end of this school year; and at this time, staff is looking at sustainability and how we continue the work as well as take the Best Practices to other schools in the District. Mrs. Bell stated how impressed she is with what she has seen, i.e. Westwood, and the creativity in teaching children and how other schools picking up on what they have seen work in the Transformation Zone schools. Dr. Goree also explained what staff determines as the District's priority schools, those schools that look a lot like the Transformation Zone schools, i.e. poverty and issues associated with poverty; and because staff knows that children in these situations are born with the same academic capacity as any child, staff is looking at how to fill in the gaps resulting from issues created from poverty. At this time, he added staff has been charged to develop professional development to be implemented district wide to support schools having access to Best Practices that have shown huge success in the Transformation Zone schools.

Mr. Ramsey shared his appreciation to the superintendent for transparency and for bringing the information to the Board. He requested that this information be posted to the District's web site.

Mrs. Brown also thanked the leadership for this work and the opportunities that will be offered for the other schools as well. Dr. Goree stated we will not be sending additional schools to UVA at this time, but staff hopes to provide the support through professional development to all the priority schools, and noted plans in place through Human Resources that will put all schools in a better staffing position next year.

Mrs. Poljak stated how impressed she has been with Superintendent Goree and Mr. Snow's work in the Transformation Zone over the past three years; and asked what the Board's focus should be for the next three years. Mr. Thomas responded that based on their assessment, and is what they shared with principals earlier today, it is the instructional infrastructure (what happens each day between teachers and students), and they believe the District is poised to do this work. Mr. Thomas also explained that their model is designed to work with districts for no more than two and one-half to three years; because if they have done their job well to help districts identify Best Practices and structures, the District now has the capacity to share them across the District. He said they will return to the District in May and the 2.5 day visit will focus on sustainability, how the District can lay the groundwork to insure that the work continues without them.

Mr. Green also shared with everyone how impressed he is with Westwood Elementary and Midway, two schools located in his district.

Dr. Goree recognized members of the Transformation Zone (Central Office and school employees).

Mrs. Trammel shared how pleased she is with what she sees when visiting these schools, in particular those located in District 6, and the change in each school's atmosphere. She thanked UVA for the help it has brought to Caddo to turn our schools around.

PUBLIC HEARING FOR RENAMING THE MAGNET HALL AT CAPTAIN SHREVE HIGH SCHOOL THE SANDRA MCCALLA MAGNET HALL

President Trammel announced the public hearing open for renaming the magnet hall at Captain Shreve High School the Dr. Sandra McCalla Magnet Hall. There being no speakers, Mrs. Trammel declared the public hearing closed.

VISITORS

Rob Broussard addressed the Board on the possibility of allowing the Broadmoor Neighborhood Association to utilize Caddo's school facilities under a cooperative agreement for periodic meetings. Because the constitutionality of this was questioned, he stated he researched it and read from the State Constitution that school systems can enter into cooperative agreements for public purposes. He further stated that he also sought a legal opinion on why the School System would require them to provide \$1 million in insurance for the use of facilities, to which the attorneys responded they did not know since the first one named in a law suit will be the CPSB regardless of whether or not the Association has insurance. Mr. Broussard asked about the risk because when he requested information from the School System on all the suits filed where the CPSS lost a case based on a meeting that happened in a school setting, the response was one law suit in 10 years. At its last meeting, the BNA voted to ask the CPSB to work with them under a cooperative agreement for the use of school facilities. He added he believes if the public is in the schools, the public will buy into the schools; as well as the District's mission. He questioned why the Board wants their support when asking for tax dollars, but if they want to use the schools, they must provide insurance. Also, he asked the Board how many other associations/organizations use the schools and do not pay insurance. He asked that placing their neighborhood association under the CPSB's umbrella be explored as quickly as possible so they may periodically use the schools for meetings, fulfilling the recommendation from the consultants hired by the Board to re-engage the communities.

Jackie Lansdale, president of Red River United, addressed the board on the following items of concern: the new Federal Education Law "Every Student Shall Succeed" and local control will only happen if we exercise and begin questioning what the DOE mandates and assert what we believe is right. She addressed treating teachers with dignity, respect, appreciation and support starting with the evaluation system, looking at plans that are more effective and productive than the current plan, i.e. TAP; compensating for advanced degrees, reinstating policy that determines protocol and procedures for reduction in staff at the school site as a result of a reduction in student numbers, allowing teachers to use current and accumulated sick days then the Family Leave at 80% when having a baby, and addressing overtime for employees. She asked that the Board look at these concerns since they come under the Board's purview of policy and budget.
