Mr. Abrams addressed the issue of insurance for use of Caddo facilities and clarified that this requirement provides for a defense of the school system and stands in place where the Board does not have coverage. It was stated that there was one lawsuit involving Donnie Bickham School in a claim over \$1 million. Mr. Rachal interrupted and stated that because this item is not on the agenda, he believes it best that the attorney provide a written response to the Board. Ms. Trammel stated that while it is not an item on the agenda, the Board's attorney is providing a response to clarify a matter brought forth. Mr. Abrams further explained the lawsuit was tried; and while there was a zero verdict, the school system spent \$50,000 in legal expenses. Part of the reason for insurance coverage is to cover those legal expenses. Relative to cooperative endeavor agreements, the School System has these type agreements between governmental entities to share resources, i.e. the City and the School Board share the use of facilities and do not charge each other for that use. School alumni and other organizations affiliated with the District, are allowed to use the facilities without this requirement because it is school and education related. If someone just wants to use Caddo's facilities for non-educational purposes, they must fulfill the requirement of providing proof of insurance.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE FEBRUARY 23, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced Items 6.01-6.03, 8.01-8.12, and 13.01-13.03 as the consent agenda. *Mr. Green moved, seconded by Miss Green, approval of the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Ramsey moved, seconded by Miss Green, approval of the proposed consent agenda. Vote to confirm the consent agenda carried unanimously. The following is a summary of the Board's action on consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved personnel recommendations as recommended by the superintendent and submitted in the electronic mailout.

6.02 Personnel Transaction Reports. The Board approved the personnel transactions reports (resignations) for January 1-31, 2016 as submitted in the electronic mailout.

6.03 Request for Leave Without Pay. The Board denied approval of April Ralph's request for a leave without pay as recommended by the Superintendent.

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the request for use of Linear Leadership Academy site by the Caddo Sheriff's Department and Shreveport Police Department, Youree Drive's Auditorium by Extreme Church, Inc., and University Elementary School's facilities by LSU Shreveport LaPREP as outlined and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Resolution of Continued Employment. The Board approved the resolution authorizing the Superintendent to write a letter of reasonable assurance of continued employment to each employee whose employment will be continued in the fall, as recommended by staff and submitted in the electronic mailout.

8.04 Granting of Servitude Agreement with City of Shreveport for Sewer Improvements. The Board approved granting a servitude agreement with the City of Shreveport for sewer improvements as recommended and submitted in the electronic mailout.

8.05 Resolution Authorizing the Execution of Deed for Sale of Hamilton Terrace. The Board approved the resolution authorizing the execution of the deed for the sale of Hamilton Terrace as recommended and submitted in the electronic mailout. *A copy of the resolution is filed in the official record of the February 23, 2016 meeting.*

8.06 Purchase of ½ of the Royalty Interest of Section 16T 15N R12W by Hyperion/J-W. The Board approved the purchase of ½ of the royalty interest of Section 16T 15N R12W by Hyperion/J-W as recommended by staff and submitted in the electronic mailout.

8.07 Request for Authorization to Piggyback on the Monroe City Schools Bid. The Board authorized staff to piggyback on the Monroe City Schools bid for the purchase of two special education (lift) buses as recommended by staff and submitted in the electronic mailout.

8.08 Request Authorization to Piggyback on Bossier Parish School Board Bid. The Board authorized staff to enter into a Cooperative Purchasing Agreement on Bossier Parish School

Board's Technology Catalog Bid #RFP 2016-16-53 as recommended by staff and submitted in the electronic mailout.

8.09 Approval of Job Description/Recruiter. The Board approved the proposed job description for a CPSB recruiter and that the position be posted.

8.10 Approval of Youth Enrichment (YEP) Contract Renewal for 2016-17SY. The Board approved the 2016-17 agreement with the Youth Enrichment Program as recommended by staff and submitted in the electronic mailout.

8.11 Proposal to Receive Bids for the Lease of Alexander Learning Center. The Board approved the proposal to receive bids for the lease of the Alexander Learning Center as recommended by staff and submitted in the electronic mailout.

8.12 Approval of CPSB Policy Manual Sections A, B and C (Board Governance) and Board Code of Ethics. The Board approved policies for Sections A, B and C of the policy manual, and removing the old sections of the manual with the exception of BCBB Notification of Board Meetings and BCBD Agenda Preparation as revised November 2015; and BCE Board Committees March 2013, BHE Board Member Insurance and BJ-School Board Member Memberships, and approve the Board Code of Ethics as submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeals. The Board approved staff's recommendation for students FH, BK, DW and KM whose parents are in agreement.

13.02 Litigation Update re: Penton v. Castellano, et al, Case #554,384, 1st JDC, Caddo Parish, Louisiana. The Board approved the recovery amount of \$60,029 in the Workers' Comp claim of K. Penton as recommended by staff and submitted in the electronic mailout.

13.03 Strategy Session Re: Written Demand of Charles & Cynthia Renter dated February 16, 2016. The Board accepted the February 16, 2016 written demand of Charles & Cynthia Renter as recommended by staff and submitted in the electronic mailout.

STAFF'S RECOMMENDATION FOR ENERGY CONSERVATION PROGRAM

Mr. Ramsey moved, seconded by Mr. Rachal, that staff be authorized to prepare a RFQ for a nationwide search of energy management companies to provide various methods of saving energy in the district facilities and provide the results to the Long Range Planning Committee ultimately with a recommendation for implementation. Mr. Ramsey noted the amount of time staff has worked on this matter and that the Long Range Planning Committee has heard presentations from companies that offer energy management services. He also stated that he had conversation with the Superintendent, President and Board member Rachal; and Dr. Goree is recommending that staff continue in the process and check other resources. He added he believes it will be important to work with staff and hopefully hear back from them within the next month or so on moving forward in the process. He encouraged the Board to support the recommendation on the floor and move forward with our energy conservation efforts.

Mr. Rachal thanked the chair of the Long Range Planning Committee and the Superintendent for taking the time to discuss this, because he believes the District will greatly benefit from the process. He also asked about the difference between a RFQ and RFP, and Attorney Abrams explained that the RFP process would require designating every item you expect to be included in the proposal, but a RFQ (Request for Quotes) can be more generalized and cover a gamut; and if something from the RFQ requires an RFP, an RFP can be created as the next step in the process. Mr. Rachal clarified that a RFQ opens the discussion with any company that could possibly offer what the District is looking for.

Mr. Green stated his only concern is the mention of a time constraint of 30 days, and Mr. Ramsey clarified that 30 days or more was not in the motion, but only in his comments. Mrs. Brown asked if we are taking the right course of action by not going out for an RFP in the beginning. Mr. Abrams explained the reason for first doing an RFQ is to determine what all is available, i.e. services and/or product. If it's a product, then a bid process is required; however if it is a service, the District is not required to do an RFP.

Mr. Ramsey called for the question and vote on ending the debate carried unanimously. Vote on the main motion carried with Board member Brown opposed and Board members Riall, J Green, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

SUPERINTENDENT'S REPORT

Superintendent Goree stated that everything under Superintendent's Report is for the Board's information and he has nothing else to add.

ANNOUNCEMENTS

President Trammel announced that the CPSB Legislative Luncheon will be held on Monday, March 7th at 11:30 at the Sky Box.

Ms. Trammel also announced that the Louisiana Association of Educators (LAE) Read Across Louisiana will be held at Mall St. Vincent on Saturday, February 27th from 10 a.m. to 1 p.m.

Adjournment. *Vote on the motion to adjourn carried* and the meeting adjourned at approximately 6:10 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary Trammel, President

March 1, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, March 1, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Board member Margaret Brown led the prayer and Pledge of Allegiance.

PRESENTATIONS

Strategic Plan Update – Operations. James Woolfolk, chief operations officer, shared the following update on the Operations Division of the Strategic Plan. He stated the objective set forth for this area of the plan *is to provide a safe, clean and efficient environment, enriching the neighborhoods and ensuring an excellent educational and operational experience for all students, staff and visitors.* Mr. Woolfolk highlighted the four areas of the Operations Plan as follows.

- Transportation – The plan requires that the department will provide at 98% a daily average on-time delivery of students, a reduction of at-fault bus accidents, and assignment of substitute bus drivers to cover daily absenteeism. Mr. Woolfolk highlighted the base numbers, where the department is today in meeting the end of the year goals in each area, as well as the challenges they continue to face in meeting goals.
- Child Nutrition – The plan's goals in this area are to increase participation by 50% for breakfast and 75% for lunch; and he shared the accomplishments thus far this school year as well as challenges to increasing participation. Staff continues to look at various ways, at a budget neutral price, to increase participation and still meet the USDA guidelines.
- Maintenance – The plan's goal in the area of maintenance is to look at facility repair work orders and make changes so more time is spent in preventive and predictive work orders and stop equipment from breaking down. Staff is working to make this happen.
- Energy – The plan for this goal is to reduce the amount of per student energy cost from \$225 per student to \$220 per student. At this time, staff believes the District is headed in the right direction, and he shared challenges in this area that include increasing the use of predictive technologies in order to identify potential causes of equipment breakdowns.

Mr. Woolfolk shared pictures of some of the areas that are needing addressed in the District that have been challenges in this area. Capital Projects and Census Departments have developed action plans for the use of all abandoned school structures and what would be done with the space. At this time, plans are in place for 36% of abandoned CPSB properties. Accomplishments include plans for six schools and a demographer has developed a web page for Caddo Parish student information so the District will know where each school's students reside so staff can look clearly at how attendance lines could be realigned to address capacity in the schools.

Challenges staff faces on abandoned schools include environment issues and unsound structures in facilities such as Carver, Pine Valley and 79th Street. Mr. Woolfolk presented information on each of the abandoned facilities.

Mr. Riall asked if Oak Park was torn down, and Mr. Woolfolk explained it has been and was done by the Housing Authority. Dr. Goree reminded the Board that it is engaged in a 99-year lease of the Oak Park property to the Housing Authority. He also reminded the Board that approximately 3-4 months ago the board authorized demolition of the facility. Mr. Riall asked about the base number and if this is last years, and Mr. Woolfolk responded it is last

year's. Mr. Riall also asked about the percentage of Caddo students that utilize the transportation services, and Mr. Jones responded approximately 23,000 students. Mr. Riall asked if he hears correctly that the number of students not getting to school on time is equal to over one-half. Mr. Woolfolk clarified that on time means 10 minutes before or 10 minutes after the bell rings. Dr. Goree said it may be important to pull some data on these questions. Mr. Jones said it is equally distributed and depends on who calls in absent for a given date.

Mr. Ramsey asked about the measurements and if anyone considered reviewing reports on late buses and how many students are late getting to school. Mr. Woolfolk responded he believes staff could quickly provide the number of buses that are late; however, finding out who was on the bus on a particular date might be more difficult. Mr. Ramsey asked about abandoned schools and possible plans for these facilities. Mr. Woolfolk responded that the plans are Alexander (the board agreed to put this out for bid), Kings Highway House (the Board agreed to demolish), Hamilton Terrace (just sold), Building 6 Knight Street (out for bid), Hillsdale (began process of speaking with neighborhood about their interest), North Caddo Principal's House (demolished as approved by the board), and Oak Park lease/demolish (approved by the Board). Staff is continuing to research possible use of the Vivian Teacher Resource Center, Linear, Rodessa, Pine Valley, 79th Street and George Washington Carver. Dr. Goree added that relative to the Carver property, staff is looking at some environmental issues that will have to be addressed before demolishing or doing anything with it to make sure we are sensitive to the environment in that area. Also, staff does plan to tear down schools that are eyesores in the neighborhoods/communities, and noted the new green space created by the demolition of Oak Park Elementary School.

Mrs. Poljak asked for clarification and if the problem with Carver, 79th Street, and Pine Valley is asbestos; and because the removal can become costly, is that a concern of staff. Mr. Woolfolk confirmed that is a major concern; and while Rodessa is asbestos free, 79th Street has mold and asbestos. Mrs. Poljak asked about the cost for asbestos abatement so the building could be demolished, and Dr. Goree said at this time it is not a budgeted item, but staff is in the process of looking at the budget and make sure it is done appropriately. She also asked if breakfast participation is down because of buses arriving late? Mr. Woolfolk stated his understanding that Caddo has been consistent at 25% on breakfast; and because breakfast is so important, Mrs. Harris' set a goal of increasing breakfast participation to 50%; however at this time, they have not seen any success. In response to why children are not eating breakfast, Mrs. Harris said that 23,000 students are on buses and many of those who would eat breakfast do not as a result of getting to school late. In these cases, she said principals have asked if the students could be served breakfast after the serving time is over, but she still believes there are a lot of students not getting breakfast. In the past, she said they served breakfast to as many as 12,000 students; however, at that time there was a higher district enrollment. During March when testing is taking place and children are pressed to eat breakfast, the numbers grow greatly. She also noted the shorter window for breakfast.

In looking at the Oak Park facility, Miss Green asked if the Housing Authority has indicated what they will do with this property. Mr. Woolfolk responded they are looking at developers for ways they can enhance the neighborhood with some type housing. Miss Green also asked if at the end of the 99-year lease the Housing Authority would have to return to the School Board for any extension on the lease, and Dr. Goree said that is correct. Mr. Abrams stated the Housing Authority may return to the Board in the near future because they are looking at doing some things in the near future. Miss Green asked how many bus drivers graduated from the bus driver training program, and Mr. Woolfolk said 28, and of those 28, three are not driving for Caddo. He further stated there were 84 applicants in bus driver training class, 45 finished the training, and 28 passed all the tests to get their CDL license, but there are many reasons why they fail.

Mr. Rachal asked about the current policy on sub drivers, and Mr. Woolfolk explained the policy is one must be a sub driver for a year before they can become a regular driver, but they lately changed it to six months and may move the time to less than six months. He added they only want to make sure when hiring drivers that they can not only drive a bus, but they can also manage the students on the bus. Mr. Rachal said he believes it would be more economical to pull in subs rather than paying for training and they either fail all or parts of the test. Mr. Woolfolk added that we must hire from the sub list, and those who are not passing the test are currently sub bus drivers.

Mr. Green asked if there is a compilation of reasons why buses are late, and Mr. Jones responded the main reason is a driver will call in sick and the department must then secure another driver for that route, or it could be a break down, accidents, trains, etc. Mr. Green asked if the reason a bus is late is neutralized for the student because the lateness could not have been prevented; and Mr. Jones said they typically send a JCall to parents when they know the student will be late so they can make other arrangements if they choose so. Mr. Woolfolk explained they do not accept any excuses for being late because of weather, etc. and reasons are addressed in an effort to make changes and make it better.

Mrs. Bell asked if it is true that many go through the training and get their CDL license; but, they do not take the job in Caddo because they are going to work elsewhere; and is it possible that the department gets a signature guaranteeing that those completing the training will work for a minimum of six months. Mr. Jones responded they are discussing that if leaving during a certain time after training (i.e. sooner than six months), the cost for training must be paid back to the District. Mr. Riall stated he knows there will always be students late, but asked if there is a national average we could reach and be considered as in an acceptable range. Mr. Woolfolk reminded the Board that the goal is to be 98% on time. Mr. Riall also asked about retirees working as sub drivers and if he understands correctly their retirement would be suspended, and Mr. Woolfolk said that is correct. Mr. Riall asked if staff has contacted any retirees about their desire and possibility of becoming a sub bus driver. Mr. Woolfolk said staff accumulated information in this regard from the State and is currently analyzing to see if it is something that would work for Caddo.

Mrs. Locke stated she believes the web site by the demographer will prove itself in time and asked if this was a specific request for the strategic plan or for a way to determine how to track children. Mr. Woolfolk explained this is something staff discussed for some time, and that is having access to a demographer to help determine where Caddo's students live, how to forecast 5 and 10 years from now what students will be available so staff can plan and determine where students are living and what schools they should attend. Such a web site can be managed by someone in Caddo and there is no cost involved. Mrs. Locke asked if this expenditure was in the budget, and Mr. Woolfolk responded it was.

Mrs. Brown clarified the history of the 79th Street School, and Mrs. Trammel asked if the District makes a lot of money off the resources of 79th Street. Mr. Woolfolk said the District does not make any money off 79th Street, but it does off Carver. Mrs. Trammel said it doesn't seem like a lot of structure to remove, and Mr. Woolfolk agreed. Mr. White explained that the Carver facility deteriorated to such an extent and with the intrusion of the livestock from the agriculture lease, the asbestos is now intermixed in the building. In an assessment several years ago, Mr. White reported that the Department of Environmental Quality ruled that all items in that school would have to be considered as asbestos-containing material and a complete demolition project would have to be done as an abatement job which is extremely expensive. Mrs. Trammel asked about an appraisal on the 79th Street building and the cost for demolition. Mr. White responded that prior to any demolition, all asbestos-containing material must be removed; however, the complication with the 79th Street

property is it is two connected buildings, one in which the roof collapsed into the structure allowing moisture resulting in additional environmental issues, mold and asbestos.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MARCH 15, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the March 15, 2016 meeting and the following discussion ensued.

Authorization of Salvage Disposal. Mr. Riall asked if the salvage disposal would be an on-line process. Lisa Lloyd stated since the majority of items are coming from Building 6, the remaining items will be moved to Building 6 on Knight Street and a live auction conducted there. Mr. Riall asked about the surplus from what does not sell, and Mrs. Lloyd explained it is deemed to be trash and no longer usable in the District. Mr. Riall said there was someone in the past that picked up items that did not sell, put them in another sale and pocketed the money. She explained there is someone the District contracts with to pick these things up; and because they are considered trash and no longer usable, she does not know what he does with them. Mr. Riall stated that some of the items he sees on the list, i.e. secretary's desk, he only wants to make certain we will not be buying another such desk. Mrs. Lloyd explained that some of the items are specific to the area that it is in and has become outdated and they have offered all these items to anyone in the District that might need them and these are the items no one could use. Mrs. Lloyd explained the auction will be advertised in the paper and on the District's web site. Mr. Riall asked about minimum bids on items and she explained there will be on some of the larger items; but not necessarily the smaller items.

Mrs. Bell asked if all the principals have been notified about these items, and Mrs. Lloyd explained that Scott Sullivan in Purchasing handles all surplus; and because principals notify him of items they are looking for, if something comes through as surplus, he contacts them about it before the schools spend their funds and before it is declared salvage. Mrs. Bell said she believes there are items on the list that teachers or someone at the schools could use. Mrs. Lloyd stated that Purchasing will resend the list of salvage items to the schools to determine if there is a need for any of the items on the list.

Mrs. Brown clarified her experience that the first offering for items declared as surplus was to the school principals before it was declared salvage. Mrs. Lloyd said that is correct and when any items are turned in, they are considered surplus before it becomes salvage and as much surplus as possible is redistributed for use in the District.

Approval of Bid on Alexander Learning Center. Mr. Ramsey asked if a minimum amount has been considered for this bid. Mr. Woolfolk clarified the bid is for \$70,000 a year with a five-year lease. Mrs. Poljak asked if we have received any bids, and Dr. Goree explained it is a closed-bid process and bids opened on the bid closing date will be included in the mailout for the March 15th meeting and the Board would vote on it at that time. Mrs. Locke asked if there are guidelines on a lease amount similar to when we sell property. Mr. Abrams explained that if the District were disposing of the property, fair market value amounts have to be met; and the lease should also be a fair market value with the backup including the minimum lease amount. If the lease amount is \$70,000 and the District does not receive any bids at that amount, Mr. Abrams explained the process is not the same as selling property and it would come back to the Board to determine if that is what the Board chooses to do.

President Trammel announced that the consent agenda items are 7.01, and 8.02-8.07. Mr. Abrams announced that 13.02 should be removed from the agenda as it falls below what the Board approves, and a *Student Expulsion Appeal Hearing* should be added. *Mrs. Locke*

moved, seconded by Mr. Green, approval of the proposed agenda and consent agenda for the March 15, 2016 CPSB meeting as submitted. Vote on the motion carried.

POLL AUDIENCE

Rob Broussard, president of the Broadmoor Neighborhood Association, addressed the Board on a proposed cooperative endeavor agreement and shared with the Board verbiage from the State Constitution relative to such agreements. He noted that protocol was not followed in the last meeting when the attorney was allowed to comment on his public comment, and he believes Robert's Rules of Order are not followed in the Board's meetings. Mr. Riall called for a Point of Order because speakers at the work session are to only address items on the agenda. Mr. Broussard stated that he checked prior to the meeting and was told he would be able to speak. President Trammel announced she is allowing Mr. Broussard to finish what he brought at the last meeting. Mr. Broussard noted the comment on the litigation/court case brought against the school system and asked who charged the school system \$50,000. As a public request, Mr. Broussard asked the Superintendent for the attorney's salary and all lawyer fees over the past year. Because the Superintendent stated he wanted to make the schools the hub of the neighborhoods, he is holding the Superintendent to his word when the neighborhood wishes to use the schools they helped build and maintain with tax dollars. He also asked that the Superintendent honor their desire to make the schools the hub of the neighborhood because they cannot be the hub if unreasonable boundaries are placed between the schools and use of them by neighborhoods. Mr. Broussard added that the State Constitution does not say anything about schools and if that is the case, every meeting the Association has at a school will deal with an issue at that school or Caddo's schools. He also stated he believes it would be unreasonable to ask Board members attending their association meetings to provide \$1 million of insurance.

ANNOUNCEMENTS

Mr. Riall announced a local group of singers in town will sponsor a choir competition at the Strand Theater. Caddo currently has seven schools participating, and winners will receive \$1,000.

Mrs. Bell announced Denee' Locke will be the guest speaker at the Mayor's Women's Commission Luncheon on Friday and Mary Trammel will be honored at Southern University Shreveport on Saturday at the Women of Worth Luncheon.

Mrs. Brown reported that a group in her district whose students attend J S Clark shared with her the dangerous situation for students who must walk to school. She said it was brought to her attention that some sidewalks are narrower than others and with children pushing each other, someone could get hurt. She said she will bring this to staff to look at.

Mr. Green announced how proud he is of the staff and the recent recognition of Sandra Ratliff.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 5:45 p.m.*

March 15, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, March 15, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown led the prayer and Pledge of Allegiance.

**CONSIDERATION OF MINUTES OF THE FEBRUARY 8, 2016 (RETREAT),
FEBRUARY 23, 2016 AND MARCH 1, 2016 CPSB MEETINGS**

Mrs. Bell moved, seconded by Miss Green, approval of the minutes of the February 8, 2016 Retreat, and February 23, 2016 and March 1, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

RECOGNITIONS AND PRESENTATIONS

Bill Strother, director of marketing and communications, announced many are not present because of last week's flooding and these will be rescheduled. President Trammel and Superintendent Goree congratulated newly appointed administrators on their new positions. Administrators, family and friends present were also recognized.

Forest Hill Water Cycle Ensemble. The Forest Hill Water Cycle Ensemble, 4th grade students with good conduct and an interest in music, performed a musical number for everyone.

Newly Appointed Administrators. Al Graham, director of classified personnel, recognized the following newly appointed administrators: (1) Virgin Rachal, Transportation Supervisor, Routing Specialist; and (2) Kashundra Lynch, Budgetary Supervisor.

VISITORS

APEL President Kim Burton, CAE Vice President Donna Festervan, and RRU President Jackie Lansdale shared a brief video on the special event planned by the three organizations for April 8th highlighting the April 9th millage renewal. The video clarified this is not a new millage, but only a renewal, and how approval of the renewal will allow the District to maintain the salaries for employees; and if not approved, the budget would be revised to reflect the loss of funding and staffing. Other aspects of the renewal are technology for the classroom (not for Central Office); and renovation and maintenance for the buildings that have been in place for decades and providing a safe learning environment for all students. They specified that none of the funds in the renewal will be used for building any new schools, and everyone was invited to participate in a "walk in" for public education on April 8. Mrs. Lansdale announced they will send this video to every school for use in faculty meetings; and she encouraged Board members to participate at their schools on April 8th. She also referenced their "Let the School House Speak" effort to meet in the schools to address their vision for public education in Caddo.

**ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MARCH 15, 2016
CPSB MEETING**

Dr. Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced the following consent agenda items: 6.01-6.02, 7.01, 8.02-8.07, and 13.01. *Mr. Green moved, seconded by Mrs. Bell, to approve the agenda and consent agenda for the March 15, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Mr. Ramsey, to confirm the consent agenda (Items 6.01-6.02, 7.01, 8.02-8.07, and 13.01) as presented. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendation(s). The Board approved the personnel recommendation(s) as submitted in the electronic mailout.

6.02 Personnel Transactions Reports—Resignations. The Board approved the personnel transactions reports (resignations) for February 1-29, 2016 as submitted in the electronic mailout.

Item No. 7

7.01 Bids – Capital Projects. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Hamm Mechanical, with a Base Bid, Alternate 1, Alternate 2 and Alternate 3 for the sum total of \$2,164,400 for Project 2016-302, “C.E. Byrd HVAC, Phase I”; and (2) reject all bids due to over budget on Project 2017-301, “Central Office Bus Wash Station.” *A copy of the bid tabulations is filed in the official records of the March 15, 2016 CPSB meeting.*

Item No. 8

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Rename the Captain Shreve High School Magnet Hall the Dr. Sandra McCalla Magnet Hall. The Board approved renaming the Captain Shreve High School Magnet Hall the Dr. Sandra McCalla Magnet Hall as requested and submitted in the electronic mailout.

8.04 Authorization of Salvage Disposal. The Board granted staff on-going authorization to utilize auction services for the disposal of CPSB salvaged items in accordance with policy and as submitted in the electronic mailout.

8.05 Approval of Bid on Alexander Learning Center. The Board approved the bid of Moonbot Studios Lampton Enoch in the amount of \$72,000 per year for the lease of Alexander Learning Center as submitted in the electronic mailout.

8.06 Approval to Begin the 90-day Process for Naming a Wing at Caddo Parish Magnet High School for Mary Rounds. The Board approved beginning the 90-day process for naming a wing at Caddo Parish Magnet High School for Mary Rounds as submitted in the mailout.

8.07 Approval of Contract Renewal/Third Party Charter Reviewer. The Board approved renewal of the contract with the third party charter reviewer as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeal Hearing. The Board approved staff's recommendation for student A.K. as submitted in the electronic mailout and as agreed upon by A.K.'s parents.

SUPERINTENDENT'S REPORT

Dr. Goree announced that Moonbot Studios will move into the Alexander Learning Center and staff is continuing its efforts to right-size the District. He also expressed appreciation to the community, the Board and staff for their support during the flooding last week; and he announced that 69 employees (mostly teachers) in the District were directly affected or required to evacuate, with five employees' homes being completely flooded. Also 114 students were

affected mainly in the Oil City, Keithville, Vivian, North Highlands and some South Highlands. Additionally, while 20 buses were unable to run their routes because of flooding, there are currently only two; and also, 26 of the District's campuses had water issues. Dr. Goree also thanked the Maintenance Department for working around the clock to insure that when students and employees returned to sites, they were ready to receive them, as well as Payroll and Security.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell thanked Bishop Caldwell for allowing her to address the millage renewal on the radio.

Mr. Riall announced that Otis Jones will represent Caddo in St. Augustine, Florida at the annual school bus summit. He also reminded everyone that the River Cities Jubilee Chorus will sponsor a competition for middle and high school choirs on April 14th from 7-10 p.m. at the Strand.

Mr. Ramsey announced that the Louisiana State Policy Jury Association recently held its annual convention in Shreveport and Southwood High School provided the Color Guard, stage band, etc. He expressed appreciation to David Cox for arranging this opportunity and announced that the group will also attend the national competition in Kentucky. Mr. Ramsey also announced that Southwood received their co-hort, an 82.5 up from 75.

Mrs. Brown stated her continued concern over the District's truancy program started by the School Board, the Commission and the City. She again requested Board consideration of the \$30,000 needed (which is down from the \$60,000 originally requested).

Mr. Green said he believes the Geaux Green program submitted to the Board last month has challenged him to be more aware of doing his part in the community and encouraged other Board members to participate as well.

Ms. Trammel announced that the GED Program is back on track and will celebrate with its education ball on Friday, April 8th at the El Dorado Hotel. Mrs. Bell and Dr. Goree will be recognized during this event and Board members who can were encouraged to purchase tickets and attend. She also announced her inclusion in the Women of Worth 2015 calendar, and noted items at Board members' stations in recognition of National Music Week.

Mrs. Bell also recognized Mrs. Locke for her outstanding speech at the Shreveport Mayor's Luncheon.

EXECUTIVE SESSION

13.02 Student Expulsion Hearing. *Mrs. Bell moved, seconded by Miss Green, to go into executive session for up to 15 minutes for the purpose of a student expulsion hearing. Vote on the motion carried unanimously and the Board went into executive session at approximately 5:10 p.m. The Board reconvened into open session at approximately 5:36 p.m.*

Mr. Ramsey moved, seconded by Mr. Rachal, to uphold staff's recommendation as presented in the mailout for student JD. Mr. Ramsey clarified that the motion is a denial of the appeal. Vote on the motion carried unanimously.

Legal Update: Jones v. CPSB, #11055, W.D.La. *Mr. Rachal moved, seconded by Mrs. Bell, to go into executive session for the purpose of hearing a legal update. Vote on the motion carried and the Board went into executive session at approximate 5:40 p.m. The Board reconvened in open session at approximately 6:20 p.m.*

Adjournment. *Mrs. Locke moved, seconded by Miss Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:23 p.m.*

March 24, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Thursday, March 24, 2016 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown led the prayer and Pledge of Allegiance.

VISITORS

Jackie Lansdale, president of Red River United, shared the importance of checks and balances in processes to insure that the same people are not continuing to control the process all the time. She urged the Board to look closely at the personnel selection process and the lack of accountability.

PERSONNEL RECOMMENDATIONS

Mr. Ramsey moved, seconded by Miss Green, to accept the personnel recommendations as recommended by the superintendent and submitted in the mailout. Vote on the motion carried unanimously.

EXECUTIVE SESSION

Strategy and Update re: USDOL case #A-15009-40816; Abraham Gomez-Range; case #A-15013-41764, Mariana Miranda Tellez; and case #A-15009-40872 Carmina Hernandez Mejia.

Mrs. Locke moved, seconded by Mr. Green, to go into executive session for the purpose of strategy and update regarding USDOL case #A-15009-40816, Abraham Gomez-Range; case #A-15013-41764, Mariana Miranda Tellez; and case #A-15009-40872 Carmina Hernandez Mejia. Vote on the motion carried unanimously and the Board went into executive session at approximately 2:10 p.m.

The Board reconvened in open session at approximately 3:15 p.m.

Mr. Ramsey moved, seconded by Mrs. Poljak, that the Caddo Parish School Board not pursue the appeal process in the USDOL case #A-15009-40816, Abraham Gomez-Range; case #A-15013-41764, Mariana Miranda Tellez; and case #A-15009-40872 Carmina Hernandez Mejia. Vote on the motion carried with Board member Bell opposed, Board member Brown abstained, and Board members Riall, J Green, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, and Albritton supporting the motion.

Adjournment. *Mr. Riall moved, seconded by Miss Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:17 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

April 5, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, April 5, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Poljak led the prayer and Pledge of Allegiance.

VISITORS

There were no visitors wishing to address the Board.

CONSIDERATION OF CAPITAL PROJECT BIDS

Superintendent Goree announced that the bid on the Southwood Gym Bleachers is under legal review and will be presented to the Board at its April 19th meeting. *Mr. Rachal moved, seconded by Miss Green, to accept the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Martin Construction, with a Base Bid, for the sum total of \$108,592.00 for Project 2017-208, "Ridgewood Auditorium Seating"; and (2) Martin Construction, with a Base Bid, for the sum total of \$128,136.00 for Project 2017-209 "Youree Drive Auditorium Seating".* Mr. Rachal asked staff to explain where the District is in these plans, and Steve White responded that these projects came from the principals and were included in the long-range plan and were submitted to the Board in January for approval. *Vote on the motion carried unanimously.* A copy of the bid tabulation sheets is filed in the official papers of the April 5, 2016 CPSB Special Session.

Adjournment. *Mr. Ramsey moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:37 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

April 5, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, April 5, 2016 at approximately 4:38 p.m. (immediately following the 4:30 special session) in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. The prayer and Pledge of Allegiance were omitted.

Board President Trammel recognized former board member Tammy Phelps in the audience.

PRESENTATIONS

Fair Park JROTC. Col. Tillman, Sr. Army Instructor at Fair Park High School, expressed appreciation for the opportunity to report on a pivotal event in February where 11 cadets traveled to Washington, D.C. Cadets Teddie Thomas and Jasmine Davis shared their involvement in the JROTC program and highlights of their recent trip to Washington, D.C., including their individual learning experiences and a video. Cadet Ricky Haley also shared his personal learning experiences from this opportunity. Col. Tillman announced that opportunities to expose cadets to possibilities in the future will include taking 10 cadets to West Point Military Academy, the Naval Academy and the Coast Guard Academy during the next school year. The Superintendent and Board members expressed how proud they are of the cadets, their program and how well they represented the Caddo District.

Strategic Plan Update – Human Resources. Dr. Mary Nash-Robinson, chief of staff, introduced Human Resources staff members present and shared the following update on the Human Resources Division of the Strategic Plan. She stated the objective set forth in this area of the plan *is to assure that the District has a consistent flow of talent and personnel to support the services to Caddo's students every day.* Dr. Robinson highlighted statistical information supporting the importance of a plan, and she highlighted the following areas of the plan.

- Recruitment - Reduce vacancies by 10% annually using the October 1 school year counts by assessing recruiting targets and narrowing them to the highest Return on Investment, holding two job fairs to address priority schools, sending recruiting teams to Pittsburgh, Michigan, SAU in Magnolia Arkansas, Northwestern, Grambling, LSUS, ULM, La. Tech; setting MOUs with local universities to track graduating seniors, and hiring a recruiter to promote greater efforts. She also reported that staffing for the 2016-17 school year has begun with building principals being informed of staffing allotments, needs, transfers, terminations, retirements and surpluses.
- Highly Qualified Teachers – Increase number of highly qualified applicants by 5 percentage points annually by seeking approved waivers for applicants from the LDOE due to the lack of highly qualified teachers, developing a plan to certify non-highly qualified teachers within 3 years, and assisting in the hiring of highly qualified teachers through the Caddo Teacher Academy. At this time, she reported the LDOE is working to address the area of Highly Qualified Teachers.
- Retention of Certified Employees – Increase the retention of certified employees within the 0-3 year-range of employment by developing instruments to collect and analyze participation and evaluations of professional development offerings, survey new employees to assess needs and satisfaction, putting supports in place at the school level with mentors, grade-level chairpersons, etc., to assist with continued growth, and placing a recruiter to monitor and support mentoring and professional development activities for the 0-3 year employees. Dr. Robinson reported that Certified Personnel has a retention

rate of 77% with 0-3 year newly hired employees and a raise in the projected retention goal to 83 percent for the new employees by 2020.

- Retention of Classified Employees – Increase the retention of classified employees within the 0-3 years of employment by reviewing data from needs assessments and PD offerings for future planning. Dr. Robinson also reported that staff will review the data from the needs assessment and PD offerings and increasing the retention rate to 88 percent for new employees by 2020.

Mrs. Bell asked if the new recruiter works directly with Human Resources, and Dr. Robinson explained the recruiter is assigned to Human Resources and reports directly to the Chief of Staff as per the board-approved job description. Mrs. Bell also noted that Southern in Baton Rouge has a lot of education students, and she asked who handles recruiting in the classified area. Dr. Robinson explained that the recruiter was hired to cover the certified division and recruitment on classified is done within Mr. Graham's staff and the immediate supervisor to the vacant position, i.e. bus drivers are recruited by the Transportation Department. Dr. Robinson also stated that one of the major areas of concern is the lack of CNP substitutes; and Mr. Graham added that the clerical and transportation areas are also of major concern. One of the issues Mr. Graham reported is competition with businesses who offer more than minimum wage and this is more than the School System can offer. Mrs. Bell asked the Superintendent about the hiring freeze, and Dr. Goree explained earlier in the school year there was a freeze to allow addressing over-staffing issues. While the District is no longer under a hiring freeze, staff is bringing in new applicants where appropriate while continuing to manage some over-staffing situations and moving employees about. He also clarified that positions in the classified area mentioned by Mr. Graham and anywhere there is a shortage, i.e. teachers, etc.; and where there is a need to bring in external candidates, staff is doing so. Mrs. Bell asked if the recruiter will report quarterly to the Board on certified vacancies and efforts to fill these. Dr. Goree explained the recruiter will focus on (1) bringing in new talent, and (2) retention of new talent from the 1-3 year mark. He noted the Baby Boomer data and the fact that these can choose at any time to leave the system and it is important to have a strategic plan in place to address the need to fill these jobs. Mrs. Bell said as a Board member she hears these concerns from parents and she is depending on the recruiter's efforts to fill these positions. Dr. Goree explained that he believes the recruiter will spend a lot of time analyzing and supporting the priority schools (D and F schools) because filling positions at one school may be different than filling positions at another school.

Miss Green asked if the recruiter has a quota to meet? Dr. Goree shared he is big on having a more quantitative evaluation and there will be set data points for the recruiter to meet to insure success in the job. Also, he is determined this will not be a situation where we could see ourselves without this position because data points/numbers will be in place for this person to meet.

Mrs. Brown said she didn't believe the Human Resources report included anything on retirees, and Dr. Robinson said there is not and the District has petitioned the State to allow the District to hire retirees, especially in critical shortage areas; and if a person retires in 2010, they are referred to the retirement specialist if they are rehired so they will be properly advised on income, benefits, etc. Employees retiring before 2010 have been employed on an annual basis.

Mrs. Brown also shared that the last 10 years of her career in Caddo her school was referred to as the "nursing home"; however, it was not, but it was a place where there were viable, young, smart, good teachers. She also recognized Mr. Jerry Maiden and how he would come to her school and help administration in addressing issues on campus.

Mr. Rachal asked for clarification on a substitute clerical, and Mr. Graham explained this position is one that is filled when someone is out on catastrophic sick leave or extended sick leave, etc. Mr. Rachal asked if it is the same as a temporary position and Mr. Graham said it is.

Mr. Green stated he believes he is hearing there is difficulty in some schools in hiring someone on a regular basis and in those instances, the District is using substitutes. He asked if consideration has been given to the length of time they are serving in a position at substitute pay. Dr. Robinson explained that if a sub has a degree and serves in a substitute position for 10 days, they move to \$100 a day maximum pay on the 10th day. Mr. Green asked if any consideration has been given to increasing this amount. Dr. Goree responded that his executive cabinet talks weekly on how to better utilize the resources and attract and award wonderful teachers; and in an effort to be more fiscally responsible, the District will be seen moving more dollars to this area and increase this pay. He added he believes the Board will see more creative methods with the new full-time recruiter.

Dr. Robinson expressed appreciation for the opportunity to share an update on what Human Resources is doing in implementing the Strategic Plan.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE APRIL 19, 2016 CPSB MEETING

Superintendent Goree lighted items for the Board's consideration at the April 19, 2016 meeting and the following discussion ensued.

ADDITIONS

Dr. Goree asked that "Student Absences Due to Personal or Family Illness" be added to the agenda.

Consideration of Capital Projects Bids. Mr. Rachal asked staff to explain if all projects listed are a part of the District's long-term plan, a number of which address security on the District's campuses, i.e. rekeying. Mr. White said that is correct. Mr. Rachal also asked if staff has coordinated projects for the campuses so that in the future everything is done in accordance with future projects and timelines for completion. Mr. White responded in the affirmative and that to date there are 25 campuses that have been rekeyed and there is a timeline for completing the other campuses. Mr. Rachal asked about the cost for rekeying a campus, and Mr. White explained it is based on the number of doors at each facility, and high schools are typically more expensive because they are the larger facilities and have a larger number of doors. The cost will run from \$175,000-\$225,000 for elementary schools to \$400,000 for high schools or an average of approximately \$300,000 per facility. The major expense in that amount is the fixing/updating of the door structures.

Miss Green asked how much the Vivian asbestos abatement will cost. Mr. White said while he doesn't know the cost of this project off the top of his head, this project was scheduled for last year and due to projects over the summer, the principal requested that this project be delayed for one year. This project encompasses the academic wing and classrooms and the back half of the library. Mr. White explained that an entire school is not done at one time because of the need to move furniture from all the classrooms. Miss Green asked how often staff looks at the need to do this. Mr. White explained it is an annual thing and there is a plan for every school campus, a plan that is federally mandated for managing asbestos in public facilities. His staff keeps up with these records and re-evaluates annually what may be any hazardous concerns. He also gave an update on the condition of those areas in facilities that are needing addressed.

Consideration of Bid #28S-16 Sale of Royalty Interests in Mineral Lease. Mr. Riall asked, since there is not a lot of information on this item, what this item is about. Mr. Woolfolk stated that this is the mineral lease approved by the Board at the last meeting on the Carver property. Hyperpion indicated an interest in purchasing 12.5% of the lease and their attorneys are asking

that it be put out for bid. Mr. Abrams stated that there should be no issues because of what Hyperpion is paying. Mr. Rachal asked if the acreage is only 225 acres, because he thought it was more. Mr. Woolfolk indicated that it is 640 acres for the Carver property.

Consideration of Resolution re: State Agency Lease #11413. Mr. Abrams explained that this is an approval of a reassignment of another Section 16 property near Dixie.

Consideration of Lease Agreement between Caddo Parish Schools and AMIKids. Mrs. Bell asked if the students they will serve are from the Juvenile Center. Dr. Goree explained that the AMI Charter is a district-approved Type 1 Charter and in the approval of the charter, services to adjudicated students can be provided. However, the District has a vision of using them for some of the over-age students as well. He said staff is excited about the relationship with AMIKids and the services they will provide, and it is also an opportunity for the District to generate funds from the use of a Caddo facility that has been closed. Mrs. Bell asked if the AMI students will be Caddo students in the juvenile system, and Dr. Goree said that is correct. She also asked if employees/teachers in this school will be Caddo employees. Dr. Goree responded they will be their employees and independent of Caddo's teacher bank. He also added that as the charter is developed, it will include more specifics as to which populations they will serve. Mrs. Bell stated she only wants to work closely with AMIKids as well as do what Caddo needs to do to make certain these students get what they need.

Mr. Rachal asked if he understands correctly that this affords the District the opportunity to take one of its vacant facilities and use it locally to educate children. Dr. Goree agreed. Mr. Rachal stated he understands this group of children may be difficult to reach, but this group specializes in reaching them, and Dr. Goree said that is correct. Mr. Rachal further asked if this will allow Caddo to work with them through the facility and other ways to expedite their successes, and Dr. Goree said that is correct.

Mrs. Brown stated that she too looks forward to working with this group to offer students additional opportunities.

Mrs. Locke asked if the remainder of the facility is being used. Mr. Woolfolk stated that a part is used for storage and a part of it is used to store Parent Resource materials. Dr. Goree also stated a part of the facility is leased to the Shreveport Police Department for active training, and Mr. Woolfolk stated they will work to relocate them.

Miss Green asked if they will be using Caddo's data system for \$6,000 annually, and if this is for five years. Mr. Woolfolk responded that is correct and it is for the broad band connection into the schools because we do want them to use our student information system, similar to Magnolia. Miss Green stated that in leasing the District's facilities, she wants to remain consistent; and asked if the \$7.00/square foot paid by AMIKids is the same price being paid for use of Newton Smith. Mr. Woolfolk said it is not the same. Dr. Goree said the rate is based on the appraisal of the facilities at the time the price is set.

Student Absences Due to Personal or Family Illness. Mr. Rachal stated that this was discussed at the Board's retreat and he is glad to see this come to the Board because it will help the school staffs, directors and other involved in making decisions through this process. Mr. Riall asked if these are absences that are not consecutive days (unless they become an excessive habit) that will be accepted as excused with a family excuse, and Dr. Goree responded that is correct.

Mr. Rachal added it is his understanding that this also covers someone observing something questionable, and it can be reviewed at that time. Dr. Goree recognized the associations and their work in assisting in the development of a plan that works for teachers.

Mrs. Locke moved, seconded by Mr. Green, to approve the proposed agenda and consent agenda for the April 19, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the Board on: (1) the attendance item and the importance of local control in policy making procedures; (2) revisiting the two teachers' situations brought before the Board and her belief that it was one of discrimination; and (3) the "walking in" on Friday to show support for public education. Schools in which this will take place include University, Walnut Hill, Green Oaks, Pine Grove, Donnie Bickham, and Oak Park. She announced the media will also cover this event.

ANNOUNCEMENTS

Mr. Riall announced that the North Caddo Lady Rebels are again State Champions and the North Caddo Boys did make it to the semi-finals for the third time.

Mrs. Locke reminded everyone about the Geaux Green Program (Geaux Show Love) sponsored by the 5th grade student at A. C. Steere and encouraged everyone to show their support and pick up trash.

President Trammel announced two items are at Board member stations that need to be signed and turned in to Ms. Lohnes.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 5:58 p.m.*

April 19, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, April 19, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Poljak led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MARCH 15, 2016, MARCH 24, 2016 AND APRIL 5, 2016 CPSB MEETINGS

Mrs. Locke moved, seconded by Mrs. Bell, approval of the minutes of the March 15, 2016, March 24, 2016 and April 5, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

RECOGNITIONS AND PRESENTATIONS

Dr. Mary Nash-Robinson, chief of staff, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishment. Newly appointed administrators were also recognized on their new positions. Administrators, family and friends present were also recognized.

Youree Drive Middle School Intermediate Orchestra. Members of the Youree Drive Middle School Intermediate Orchestra played two musical numbers for all in attendance.

Louisiana Poetry Out Loud Regional Winners and State Finalists. The following students were recognized as the regional winners and state finalists in the Louisiana Poetry Out Loud Contest: Shauna McCrary, North Caddo Magnet High School – 1st Place; Chaddrick Thomas, North Caddo Magnet High School – 2nd Place; and Amir Kaskas, Caddo Parish Magnet High – 3rd Place.

2016 State Social Studies Fair Winners. The following students from Northwood High School were recognized as winners in the 2016 State Social Studies Fair: (1) Laura Cole, 11th grade, 1st Place Anthropology; (2) Mariah Corbell, 12th grade, 1st Place Political Science; (3) Rachel Pharr, 12th grade, 1st Place Economics; (4) Abigail Davis, 11th grade, 2nd Place History; (5) Troy Hefner, 11th grade, 3rd Place History; (6) Jonathan Reich, 12th grade, 3rd Place Sociology; and (7) Anabelle Parker, 10th grade, 4th Place World Geography.

2016 Caddo Parish Public Schools Student of the Year District Winners. The following students were recognized as the 2016 Caddo Parish Public Schools Student of the Year District Winners: (1) Elementary – Chloe Miller, Eden Gardens; (2) Middle – Hunter McCabe, Donnie Bickham; and (3) High School – Samantha Hilburn, Captain Shreve.

Dr. Robinson also referenced an invitation at Board member stations to attend the Student of the Year Annual Banquet on Thursday, April 28th at 6:00 p.m. and encouraged them to attend.

National Board Certified Teachers. The following were recognized for attaining National Board Certification: Sheridan Shamburg, librarian, and Belinda Nash Scott, instructional coordinator, both at South Highlands Elementary Magnet School.

Caddo Parish School Board Members Continuing Education Requirements. The following Board members were presented a certificate from the Louisiana School Boards Association for completing their continuing education hours as required by Act 705: Steve Riall, District 1; Jasmine Green, District 2; Margaret Brown, District 3; Susannah Poljak, District 4; Dr. Bonita Douzart, District 5; Mary Trammel, District 6; Raymond Green, District 7; Denee Locke,

District 8; Barry Rachal, District 9; Larry Ramsey, District 10; John Albritton, District 11; and Dottie Bell, District 12.

Administrative Appointments. Al Graham, director of classified personnel, recognized Martha Manuel, new assistant payroll manager. Charles Lowder, director of certified personnel, introduced Stacey Jamison, newly appointed Professional Development specialist.

NSBA Annual Conference. Mr. Rachal announced that he attended the NSBA Annual Conference in Boston, Massachusetts and will share a report next month.

VISITORS

RRU President Jackie Lansdale thanked the Board and administration for affording the employee organizations the opportunity to work with them. She noted recent joint efforts to pass the millage renewals as well as recognize the Most Improved Students in Caddo Parish. She stated in moving forward she believes the first order of business must be averting the teacher shortage crisis and the need to begin working in areas where the profession is harmed by devaluing it, i.e. tenure rights, over-reliance on evaluations and observations based on standardized testing. Mrs. Lansdale encouraged all to work together for good working conditions and support of administration, to design a pay structure and better support professional development, to recognize the need for progressive family medical leave, to recognize that employees need and deserve representation, and to demonstrate collectively that we value the profession by valuing the professionals. She also added she looks forward to working with administration in the future relative to the possibility of longer recesses especially in the elementary grades and changes in homework requirements.

LaTisha Whatley, parent, addressed the Board on her concerns about magnet testing. While she has spoken with several persons about her concerns, she stated she still has some unresolved concerns such as learning the name of the company responsible for the error, accuracy of updated information on test scores, the waiting list and the process for her child to be on the waiting list, conflicting comments about the availability of slots, lack of equal education in the neighborhood schools, need for magnet programs in the neighborhood schools, etc. She said it is unfair that the 184 students had to suffer or miss the opportunity for placement because of someone else's error.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced that items 6.01-6.02, 7.01-7.03, 8.01-8.04, 8.06-8.07 are the consent agenda. *Mrs. Locke moved, seconded by Mrs. Bell, to establish the agenda and proposed consent agenda as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Ramsey moved, seconded by Mrs. Bell, to confirm the consent agenda (6.01-6.02, 7.01-7.03, 8.01-8.04 and 8.06-8.07). Vote on the motion to confirm the consent agenda carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the personnel recommendations as submitted in the electronic mailout.

6.02 Personnel Transaction Reports – Resignations. The Board approved the personnel transactions reports (resignations) for March 1-31, 2016 as submitted in the electronic mailout.

Item No. 7

7.01 Consideration of Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Area Wholesale Tires, LLC for the purchase of Truck Tires & Wheels 18T-16; (2) Area Wholesale Tires for the purchase of Recapping Truck Tires, 19T-16; (3) ABC Auto Parts for the purchase of Bus Glass Installation 20G-16; (4) Hill Oil for the purchase of Engine Oil, 20O-16; (5) Fruhauf Uniforms, Inc. for the purchase of Southwood Band Uniforms, 24U-16; (6) Multiple Vendors for the purchase of Canned and Frozen Food SFS-662 and for Fish, Poultry, Eggs, Meat, and Specialty Items SFS-663; and (7) Multiple Vendors for the purchase of Food Service, Paper and Supplies SFS-664. *The bid tabulation sheets are filed in the official documents of the April 19, 2016 CPSB meeting.*

7.02 Consideration of Capital Projects Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Postpone Project 2017-243, “Herndon Replace Café Partition”; (2) Douglas Construction & Remodeling, with a Base Bid, Alternate 1, for the sum total of \$223,004.00 for Project 2017-228 “Caddo Magnet High Parking Lot North End”; (3) J. D. Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of \$105,250.00 for Project 2017-402 “Captain Shreve Lighting Upgrade”; (4) LaDanCo, LLC, with a Base Bid and Alternate 1, for the sum total of \$417,282.00 for Project 2017-232 “Keithville Re-Key Campus”; (5) Gene Nim Builders, Inc., with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$306,447.73 for Project 2017-233 “Northwood Re-Key Campus”; (6) Douglas Construction & Remodeling, with a Base Bid, for the sum total of \$193,369.00 for Project 2017-222 “Byrd Gym Bleachers”; (7) Abatement Services, with a Base Bid, for the sum total of \$63,976.00 for Project 2016-201C “Asbestos Abatement at Vivian”; (8) The Payne Company, with a Base Bid, for the sum total of \$293,000.00 for Project 2017-302 “Huntington HVAC at Gym and Auditorium”; (9) Martin Construction & Design, LLC, with a Base Bid, for the sum total of \$386,470.00 for Project 2017-231 “Fair Park Re-Key Campus”; (10) Douglas Construction & Remodeling, with a Base Bid, for the sum total of \$146,705.00 for Project 2017-223 “Southwood Gym Bleachers”. *The bid tabulation sheets are filed in the documents of the April 19, 2016 CPSB meeting.*

7.03 Consideration of Bid #28S-16 Sale of Royalty Interests in Mineral Lease. The Board approved the bid of Hyperion Oil & Gas for the Sale of Royalty Interest in Mineral Lease, #28S-16 as submitted in the electronic mailout.

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved requests for use of CPSB school buses and facilities as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved request for out of state travel as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Resolution re: State Agency Lease #11413. The Board approved the resolution and extract of resolution for State Agency Lease #11413 as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Lease Agreement between Caddo Parish Schools and AMIKids. The Board approved the resolution and extract of resolution for State Agency Lease #11413 as recommended by staff and submitted in the electronic mailout.

8.06 Student Absences Due to Personal or Family Illness. The Board approved the proposed CPSB policy relative to student absences due to personal illness and/or serious illness in the family as submitted in the electronic mailout.

8.07 Consideration of Resolution Authorizing the Sale of One Half Royalty Interest of the Existing Lease in Section 16T 15N R12W. The Board approved the resolution, resolution extract and assignment of lease royalty authorizing the sale of one half royalty interest of the existing lease in Section 16T 15N R12W as submitted in the electronic mailout.

2014-15 COMPREHENSIVE ANNUAL FINANCIAL REPORTS

Mr. Ramsey moved, seconded by Mrs. Bell, to accept the 2014-15 Comprehensive Annual Financial Reports as submitted. Mr. Ramsey asked the external auditors if all parts of the budget were covered in their audit, including the General Fund, Special Funds, Title I Funds, CEEF, etc. Mr. Sims responded they were. Mr. Ramsey asked if the auditors discovered any type of fraud during the audit process, and Mr. Sims responded they did not. Mrs. Bell echoed Mr. Ramsey's comments. Mr. Rachal asked about the funds set aside for retirement and where that figure is in the financial report. Mr. Lee explained that while an amount was set aside, the District continues to add to that fund each year and it currently is built up to approximately \$20 million in the trust to offset retiree health care. Mr. Lee noted the location of this line item and that it only reflects the amount the District put in. Mr. Rachal asked if that can be labeled differently, and Mr. Lee said it is labeled in accordance with Federal guidelines. Mr. Rachal also asked the auditor if any discrepancies or fraud were noted when conducting the audit, and Mr. Sims confirmed they did not identify any evidences of fraud.

Vote on the motion to accept the 2014-15 Comprehensive Annual Financial Reports carried unanimously.

SUPERINTENDENT'S REPORT

Dr. Goree reminded everyone that the 32nd annual ArtBreak is being celebrated April 18-24 at the Shreveport Convention Center, the press conference and VIP Tour are scheduled for Wednesday, April 20th at 10 a.m., and the STEM parent workshop will be held at Huntington High School on Saturday, April 23rd from 9:00 to 12:30. Board members were encouraged to participate in these events.

ANNOUNCEMENTS AND REQUESTS

Miss Green stated how proud she is of Green Oaks High School and that they scored in the 90 percentile this year. Dr. Goree added there is an increase in every Caddo high school's graduation rate and he is excited that the things put into place are encouraging and keeping students in school. He credited the campuses and what they are doing to make this happen. Miss Green also expressed appreciation to the employee organizations for hosting the "Walk In – Buy into Education" rally on school campuses the Friday before the election.

Mrs. Brown asked that staff provide her with the status of driver's education in Caddo schools and if AMIKids will be in town next week. Dr. Goree announced AMIKids will be in town next week and will begin the transition to Hillsdale. Mrs. Brown indicated she would like for something to be done to prepare the campus for them, and Dr. Goree responded that staff is currently working on the Hillsdale campus for them.

Mr. Ramsey reported on the very successful Spring Fling in the Southwood High School Courtyard and how proud he is of these students. He also recognized the improvement seen in all of Caddo Parish's high schools.

Mr. Rachal announced that on Thursday evening, April 21st, the Caddo Career & Technology Foundation will award scholarships to students and in awarding this year's scholarships, the Foundation will exceed \$1 million in total scholarship dollars awarded.

Mrs. Bell expressed appreciation to Mrs. Lansdale and Red River United for once again hosting the Most Improved Student awards program.

Dr. Douzart congratulated Fair Park on increasing their score from 44 to 66. Ms. Trammel echoed Dr. Douzart's comments for Fair Park's growth as well as all Caddo high schools.

Mrs. Brown extended kudos to Superintendent Goree for his leadership and hard work toward the millage renewals.

EXECUTIVE SESSION

Student Expulsion Appeals. *Mr. Rachal moved, seconded by Mrs. Locke, to go into executive session not to exceed 15 minutes for each student. Vote on the motion carried and the Board went into executive session at approximately 5:32 p.m. The Board reconvened in open session at approximately 6:00 p.m. Mr. Ramsey moved, seconded by Mr. Albritton, to uphold TC's expulsion; allow the student to attend drug program; and if successful completion in the drug program and he tests negative for drugs; then he will be allowed readmission to Northwood High School in the fall on a behavior contract. However, if student is unsuccessful in the drug program, he shall remain at Academic Recovery. Vote on the motion carried with Board member Bell opposed and Board members Riall, J Green, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey and Albritton supporting the motion.*

Mr. Rachal moved, seconded by Mrs. Locke, to go into executive session not to exceed 15 minutes. Vote on the motion carried and the Board went into executive session at approximately 6:02 p.m. The Board reconvened in open session at approximately 7:28 p.m.

Mr. Rachal moved, seconded by Mr. Green, to reverse the expulsion and allow the student to go back to her school, to make up any of the work that may have been missed, and to take any tests that may have been missed.

Mr. Ramsey moved, seconded by Dr. Douzart, to uphold the expulsion of student RH as recommended by staff. Vote on the motion carried with Board members Riall, R Green, Rachal and Albritton opposed and Board members J Green, Brown, Poljak, Douzart, Trammel, Locke, Ramsey and Bell supporting the motion.

Adjournment. *Miss Green moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:31 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

May 3, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, May 3, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

VISITORS

Johnette Magner congratulated everyone on the awesome improved graduation rates released this week. She noted the importance of graduating more students from high school in order to create a future for the community's young people, and her amazement at the increase seen in one year. She applauded Dr. Goree's vision and leadership, and the cooperation and commitment among the Board, principals, staff, teachers, et.al., in this success. Mrs. Magner also thanked everyone for a job well done and encouraged everyone to continue the work which will change the lives of today's young people as well as what Shreveport looks like in the future.

CONSIDERATION OF CAPITAL PROJECTS/CONSTRUCTION BIDS

Mr. Rachal moved, seconded by Mr. Green, to approve the following bid as recommended by the superintendent and submitted in the mailout on the bid tabulation sheet: (1) Bowman Grading & Asphalt, Inc., with a Base Bid and Alternate 1, for the sum total of \$159,987.00 for Project 2017-219, "Shreve Island Extend Parking Area Handicap." Vote on the motion carried unanimously. A copy of the bid tabulation sheet is filed in the official papers of the May 3, 2016 meeting.

CONSIDERATION OF REQUEST TO HOLD SALVAGE SALE AT HILLSDALE

Mr. Riall moved, seconded by Mr. Rachal, to approve the request to hold a salvage sale at Hillsdale as requested and submitted in the mailout. Vote on the motion carried unanimously.

PERSONNEL RECOMMENDATIONS

Mr. Ramsey moved, seconded by Mr. Rachal, to accept the personnel recommendation for area director as submitted by staff. Vote on the motion carried unanimously.

Mr. Ramsey moved, seconded by Mrs. Bell, to approve Diane Atkins as the appointee to the position advertised as Chief of Staff but re-designated as Chief Human Resource Officer, said designation to be reflected in the revised organization chart to be submitted by the Superintendent in July of 2016. Miss Green asked for clarification on the position and will the responsibilities remain the same. Dr. Goree explained there will be some modifications in responsibilities in the redesign and an effort made to strengthen the talent management division of the District. He stated one of the recommendations will be moving Communications from HR and reporting directly to the Superintendent. Vote on the motion carried with Board member Albritton opposed and Board members Riall, J Green, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey and Bell supporting the motion.

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the personnel recommendation for transformation specialist as submitted. Vote on the motion carried unanimously.

Adjournment. *Mr. Ramsey moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:43 p.m.*

May 3, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, May 3, 2016 at approximately 4:44 p.m. (immediately following the CPSB Special Session) in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. The prayer and Pledge were omitted.

PRESENTATIONS

Update on Strategic Plan – Academic Affairs. Keith Burton, chief academic officer, shared with the Board the following update on the Academic portion of the District Strategic Plan. He stated that the Academic Division is made up of the area school directors, directors of Title 1, Professional Development, Exceptional Children, Curriculum, accountability and instructional support and the Transformation and Innovation Officer.

Mr. Burton stated that the Academic Affairs' goal is to provide rigorous, well-founded instructional programs that accelerate academic opportunities for every child by reducing the achievement gap, ensuring every student graduates from Caddo college and career ready. In looking at the data for the past six to seven years, he highlighted the following three priorities, action steps for reaching objectives, as well as achievements made to date.

- K-2 Literacy – The percent of K-2 students performing at or above grade level in reading will increase by 32% based on the District reading assessment (DIBELS).
 - Improve early childhood programs. Community Fair was held to promote Caddo Smart Start, online registration is being researched, and 4 additional reverse mainstream classes have been scheduled at no additional cost to the district.
 - Individual Learning Plan to guide Response to Intervention for students scoring below benchmark. An Individual Learning Plan Template has been completed and will be included in the Caddo RTI Manual for the 2016-17 school year and professional development will be provided.
 - Align guidelines for instruction identifying time, content and actions seen with teachers. Staff has completed aligning the curriculum guidelines to the state guidebooks and instructional time for literacy will be increased by 25 minutes per day for the 2016-17SY.
 - Promote professional development that is related to the core components of the ELA instruction. Targeted District Professional Development will be offered this summer for K-3 grade teachers (Foundations for Teaching Reading) and K-8 schools (Dissecting the Louisiana Reading Standards).
- Student Proficiency in Core areas in Grades 3-8. The percent of students in grades 3-8 scoring proficient in ELA and math will increase by 19%.
 - Implement RTI with fidelity. RTI (Response to Intervention) checklist was created to assess each school's implementation of our intervention program.
 - Implement interim ELA and math assessments in grades 3-8. Instructional frameworks have been developed to guide teachers in lesson planning and pacing of ELA and math instruction, interims were created from databases and aligned to Louisiana standards, and math and ELA assessments were given at the end of the 1st, 2nd and 3rd nine week periods.
 - Implement data-driven instruction practices. Provided training to schools on Data Driven Instructional Practices.

- Align PD to DDI practices. Administered a professional development survey to all schools with results being used to drive the Caddo Professional Development Plan and scheduled district professional development days after interim assessments.
- High School graduation – Increase the high school graduation rate by 10 percentage points. The graduation cohort rate increased from 57.8 in 2010 to 75.2 in 2015.
 - Monitor and track all potential HS graduates' academic progress. Implement Individual Graduation Plans with parent signatures, students graduating on time over the past five years has increased by 17.4%, tripled the state's rate of growth this year and the class of 2015 led every district in north Louisiana in growth.
 - Foster growth of PLCs focused on data-driven instruction and academic progress. Implementing professional development opportunities for summer 2016 that will strengthen PLCs.
 - Plan and launch a virtual learning option. Committee was formed for the implementation of a Caddo Virtual Academy that will include coursework, training, and e-learning.
 - Certify targeted HS teachers to offer industry-based certifications. Provide 93 Caddo teachers the training for industry-based certifications.
 - Monitor and track all potential graduates on attainment of industry-based certifications.

Mr. Ramsey asked who developed the Learning Plan Template, and Mr. Burton said it was a group of Caddo directors, principals and teachers. He also asked if LETRS is a program Caddo had in the past, and Mr. Burton explained the District had this training in the past even though it was not as broad as the current offering. Also, there was not a plan in the past to truly support it, and now every school will have access to this training and designated individuals will have the sole job of insuring that the teaching is rolled out and supported. Mr. Ramsey asked if this program is a remedial one. Mr. Burton explained that typically schools that do not have a high rate of sufficiency will need this LETRs training across the board. Also, teachers still need to have Best Practices aligned to what is grounded in research. Mr. Ramsey asked if all schools will be allowed to implement this and Mr. Burton said they will. He also commented and applauded the idea of rolling forward with a plan for a Virtual Academy which he will ask to add to the coming agenda.

Mrs. Bell stated her need for more information on the proposed Virtual Academy. She also asked if the four-year program has successfully been placed in all elementary schools. Mr. Burton said universal pre-K is a great need in the District; however, at this time, we are only able to offer it at certain locations in the District due to the expense of the program. He further explained staff has looked at further maximizing dollars to implement a universal pre-K program in all schools; however, at this time, the resources are not available to do so. Mrs. Bell requested a list of the schools that do have the pre-K program.

Mr. Albritton asked for a thumbnail of the Virtual School concept and Mr. Burton explained that it would be a real school not necessarily with brick, mortar and a traditional schedule. He stated a student that may not be successful in the traditional school and is currently being home schooled would have the ability to get core classes in a virtual model, be able to interact with a teacher via computer and other media means, receive quality instruction aligned with the State's curriculum, and progress through middle and high school grades. He also explained that the District would seek to draw students for the Virtual Academy from other areas in the State and not Caddo public school students. He also added there is no typical calendar so coursework can be completed as quickly as the student can do so.

Dr. Goree stated that even though he is excited that Mr. Ramsey wishes this to be placed on the Board agenda for May, he agrees that the Board will need to be provided additional information

on the Virtual School. Because we live in such a technical savvy world, Dr. Goree stated this is just another opportunity to offer students a choice.

Dr. Douzart asked if Caddo will continue to offer college courses to Caddo students, and Mr. Burton said we will in grades 9-12.

Mr. Riall asked if in proceeding forward, this will insure every child is enrolled and the District will receive its MFP dollars. Mr. Riall also asked if regular teachers will be communicating with students. Mr. Burton replied that it is anticipated the District would have a preliminary number of 67 students, 4 teachers and labs in the north, center, and southern parts of the district. Mr. Riall asked about the concerns with the Louisiana High School Athletic Association and home-schooled students being able to enroll in cheer, etc. Mr. Burton responded that LHSAA has established rules for eligibility and we would follow their guidelines.

Mrs. Brown expressed that virtual school may be behind, but it is important for the Board to know what is happening in this program. Mrs. Brown indicated how well students adapt today to technology.

Ms. Trammel stated the board has heard the presentation on the Virtual School Academy and asked if it is possible to bring back the presentation for the Board. Mr. Ramsey pointed out that the Louisiana Virtual School is contracted out and Districts are gouged about \$8,000-\$10,000 per student making it very competitive.

Mr. Green stated it is very clear when you state what you will do and when you do it. He also reminded everyone present that if you fail to move with time, time will move without you. He said he believes it is time to do what the Board believes it should do.

NSBA Annual Conference. Mr. Rachal shared with the Board information from the National School Boards Association Annual Conference. Sessions he attended covered topics such as savings in energy conservation and contracting with third parties, positive Board member media responses, digital learning, communication tools to provide accurate information and a means for the public to communicate with the school system and the school board, return on investments, Board member roles to determine priorities and direction and not micromanaging. He stated that the school system is an economic driver for Caddo Parish and all the surrounding areas, and he believes the public needs to understand this. Mr. Rachal also expressed the need for committees to be appointed to address energy conservation as well as digital learning across the district.

Contemporary Family Services. Marcus Jones, outreach coordinator for Contemporary Family Services, Inc., addressed the Board on mental awareness and that May is Mental Health Awareness Month. Mr. Jones stated that it takes a concerted effort of all local agencies, institutions, schools and government bodies to understand and address mental health issues and curtail the stigmas that prevent people from getting the help they need. He announced that during the month of May their objective is to initiate an outreach effort to reach people where they are, to increase awareness of available resources and build relationships based on respect and trust.

Let the School House Speak. Jackie Lansdale, president of Red River United, announced that the employee organizations are present to share defining moments in reclaiming the reality of everyone working together to move forward in what many know is a great school district. She reported that last year the organizations, along with representatives from the Board and administration, began to work together, and they will move into other elements to involve the public in the schools. She stated that another defining moment was during the Walk in for Public Education and when asking students if they knew what public education means, a young man responding that it means all can go here.

Mary Nash-Wood summarized the efforts of the organizations to look at how we can better understand public education stakeholders and meet their needs, and they began by creating conversations centered around school improvement and the purpose of how the community can come together to build up the schools and everyone take ownership in the schools. She shared feedback from those who attended meetings scheduled at Walnut Hill, Donnie Bickham, University, Green Oaks and Vivian. Common themes found at these campuses included the calendar, universal preK, greater communication with certified and classified employees, transportation, magnet requirements, better accountability of district finances, implementation of programs with fidelity, solid plans for pay increases, professional development opportunities, district leadership on campuses and classrooms, information from the district about other schools in the district, homework, charter schools, more funds allocated to student resources, too much paperwork taking away from instruction, equity among schools relative to quality of programs, etc. She also noted that no one denied the fact that progress is being made across the district and they credited Dr. Goree for his leadership in this growth. Mrs. Wood said that everything they heard was also heard in the report made to the Board last December from Carolyn Spaht Gonzalez and Wendell Delaney and they are encouraged that the community is sharing with the district how it feels and what they believe can be done to improve schools.

Miss Green expressed appreciation to the professional organizations for organizing this effort to hear from the communities and move in this direction.

Dr. Goree echoed Miss Green's comments for the professional organizations work in accumulating this information and that Mrs. Wood provides updates on the information received.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MAY 17, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its May 17, 2016 meeting and the following discussion ensued.

2015-16 Budget Revisions. Mr. Rachal asked staff to explain how they arrived at the \$6 million difference. Mr. Lee responded that each year when presenting a budget to the Board, staff presents an estimate on how it believes the District will end the year. When the books were closed out with actual numbers, a \$3 million adjustment was made to the beginning fund balance in the 15-16 budget. Mr. Rachal asked if it is correct that the Board originally adopted a balanced budget, but now the District will be approximately \$6.9 less. Mr. Lee explained that in looking at the budget for this year the Board will not consider the adjustment of the \$3 million in revenue as a result of the drop in sales tax revenue. Mr. Rachal asked about the \$2 million mid-year adjustment in payments to the authorized charter schools. Mr. Lee explained that the number of students continues to grow now being in the 800 range and continuing to grow beyond what the district predicted. Referencing the recent discussion relative to the expansion of Magnolia, Mr. Rachal asked staff about the cap number for Magnolia, and Mr. Lee responded that he does not know, but he believes with the expansion, the enrollment will be capped at 2,000 for the K-12. Going into the budget process, Mr. Rachal asked if adjustments are being made in the budget for next year relative to this number, and Mr. Lee confirmed staff is and will be looking at numbers at Magnolia, Pathways and AMIKids and anticipates approximately \$10 million will be paid to these schools. He further stated that some of this amount will be offset since staff has renegotiated Ombudsman to fewer students and sites which will cut that cost from \$4 million to \$2 million. Dr. Goree clarified that staff is working diligently on the unanticipated \$4 million cost and is looking closely at how staff is positioned, any reductions needed, etc., to get the deficit as low as possible. Staff will be aggressively looking at this in preparing to bring the Board a balanced 2016-17 budget.

Miss Green asked Mr. Lee to repeat his comments relative to charters, and Mr. Lee explained that Caddo will have three charters next school year and staff anticipates a payout to the three charter schools of approximately \$10 million. Dr. Goree noted the importance of being as smart as possible in managing the charter process and that in the future, this needs to be addressed since charters have the ability to draw children district wide. He added it also will be necessary to look at opportunities to make up revenue lost to these charters.

Mrs. Brown indicated she is concerned and asked if it is necessary that the District has this many charter schools. Dr. Goree stated there is a need to look at the charter providers from a fiscal perspective and provide the best options for students in the system. He stated that he, along with his staff, is prepared to provide the Board with more information because if the District is seeing a loss of students, then a reduction in staff will be necessary. Jim Lee said that the staff has, during the process of considering charter school services, looked at schools that would provide alternative school services where Caddo has not been as successful.

Mr. Ramsey noted recent action in Baton Rouge where the MFP funds were reduced by \$50 million and asked what this means to Caddo. Mr. Lee explained that the last time he looked at this information, it was \$2.5 million, and this amount was tied to a pay raise given teachers which they will no longer fund.

Mr. Riall asked if Pathways and AMIKids will offer any transportation. Mr. Lee said AMIKids will provide transportation, but he does not believe Pathways will. Mrs. Trammel asked if Caddo received a report from Magnolia, and Dr. Goree stated that Magnolia did provide a report which he forwarded to the Board. Dr. Goree said he will resend the report and the next report will probably be presented in the fall at the conclusion of academic scores.

Mr. Rachal asked if there were no reserves, how this issue would be addressed, and will we look at ways to cut expenses. Dr. Goree responded that when 85% of a school district's revenue is devoted to human capital, the District would be in a position of looking at a reduction in force. This is why it is important to note that he has pushed back the first budget work session by a week to give staff time for additional conversations on how to tighten the budget and not dip into the reserves. Again, he said staff is determined to look at the budget and make changes without a reduction in force and present a balanced budget to the Board. Mr. Rachal noted how fortunate the District has been to have reserves; and if we begin dipping into reserves and continue to do so without addressing expenses, the reserves will soon be exhausted.

Closure of Barret Paideia Academy. Miss Green asked Dr. Goree if staff has an exit plan for the closure of Barret. Dr. Goree reported that staff has and has met with the Barret staff. He said staff has worked on the opportunity to close this campus for approximately a month and met with all stakeholders at Central Office that will support the closing of Barret and yesterday met with the Barret staff and Human Resources to insure them they will be taken care of in this move to close Barret. Miss Green also asked when will parents be notified, and Dr. Goree said that on tomorrow staff will send something to the parents that it is on the May 17th Board agenda.

Mrs. Bell asked about the employees at Barret, and Dr. Goree responded that staff feels very good about the situation and that employees at Barret will know within a week of the summer where they will be placed for the next school year. He said typically teachers follow the students, but staff is looking at the administrative, office and cafeteria staffs to place them in vacant positions as a result of retirees and resignations and these employees will be placed first in vacant positions.

Revisions to Attendance Lines as a Result of the Closure of Barret. Mrs. Poljak asked for a clearer map of the attendance lines for the current Barret as well as the revisions. Mr. Woolfolk provided an overview of the proposed changes in attendance lines for Stoner Hill, Creswell, and

Arthur Circle. Dr. Goree said in looking at the attendance lines, staff did look at the number of students that are currently populating these areas (Stoner Hill, Creswell and Arthur Circle). Mrs. Poljak asked if she understands correctly that Stoner Hill will get some of Barret's students, and Mr. Woolfolk explained it will receive students from the northern section, and he noted that the northern section of the Stoner Hill attendance lines has a break in it so that the approximately 20 students attending Creswell will not be affected.

Mr. Rachal asked if after meeting the needs of the 20 students in Creswell's attendance zone not being rezoned into Stoner Hill, will we make that correction from this point forward. Dr. Goree replied that he and staff will look at the different situations, i.e. siblings, and make a determination. Mr. Rachal asked to receive the capacity of each school, and Mr. Woolfolk said they will all be able to accept the Barret students and still operate within the policy. Mr. Rachal also inquired about the Arthur Circle attendance boundary and his question of concern about capacity and utilization. Mr. Woolfolk reported that Arthur Circle is at 65% utilization and Creswell is close to capacity as well as Stoner Hill. Dr. Goree added that staff is attempting to maximize capacity in all schools that are still open.

Mrs. Locke asked Dr. Goree if staff has met with the Stoner Hill, Creswell and Arthur Circle staffs and the superintendent stated that this happened today.

Sale of Barret Paideia Academy. Mr. Rachal asked if an appraisal has been done on this property. Mr. Woolfolk responded that an appraisal is being done and should be completed in a couple of days. He said he received a call that it appraised at \$1,050,000 (\$875,000 for the building/\$175,000 for the land) for the 43,688 square foot building and 5.69 acres.

ADDITIONS

Mr. Ramsey requested that an item on Caddo Virtual Academy be added to the agenda. Mrs. Trammel asked if this is for information only at this time, and Mr. Ramsey said it cannot be approved unless it is on the agenda and he would like to see it added for May 17th. President Trammel stated she believes we need to allow staff to answer and clarify all questions and place this on the June agenda. Dr. Goree recommended adding the item and staff can meet with Board members prior to the next meeting to present additional information and answer questions.

Mr. Rachal asked that an Energy Conservation Committee and a Digital Learning Committee be added to the agenda. Mrs. Trammel announced that she will follow up and move forward with setting up these two committees.

Regarding Virtual School, Mrs. Bell said she needs additional information and would like the opportunity to hear a full report on Virtual Schools to ask her questions so she fully understands and can better answer questions from her constituents.

Dr. Goree indicated that this is something staff had planned to bring to the Board in the budget process because it is something that needs to be added. He and staff will provide the information so everyone is comfortable in making a decision.

Mr. Ramsey referenced staff's comments about moving forward and the importance of all teachers having their next year assignments before they are released for the summer break. Also, if staff does not have a concern about getting everyone and everything in place for the 16-17 school year, he understands. Mr. Ramsey asked that staff report back to the Board at the May 17th meeting, and Dr. Goree also said they can hold individual, small group meetings to discuss this.

Mrs. Bell stated her concern to not rush in implementing anything before all Board members' questions are answered. She added she is not against it, but only wants additional information before she is asked to vote.

Mr. Albritton said he only wants to make sure that we are not trying to have this in place next fall because he understands the complexities of technology, operating under a tight budget, addressing personnel issues, absorbing Barret school, and the impact of charter schools.

Dr. Goree again reminded the Board that is one of the reasons for pushing back the budget work session schedule at which time consideration will be given to deleting some programs and adding others. From initial conversations, Dr. Goree said that between the District's 2020 work there is a virtual process for many students earning many credits online. He said staff believes this can be accomplished while minimizing the cost to the district; however, this too is a part of the questions, how do we do this and not impact the budget negatively and also bring value to what is being done for students.

Mrs. Trammel asked the superintendent about the timing for bringing this to the Board, and Dr. Goree explained that this is an item staff would bring to the Board during the budget work sessions and is when, in the past, new programs were presented as well as existing programs staff believed needed to be eliminated. Last year additional sessions were not needed because the budget was so tight; but as the District looks to improve and better utilize funds, it is possible that additional work sessions will be scheduled in order to get to a working budget. Dr. Goree also stressed that in his leadership style, he doesn't want the thought to be that we will not continue to add things that bring value because the District loses money; but as this is done, a decision will have to be made on what will be eliminated. While he understands the concerns and questions, Dr. Goree said he believes the Board will find this to be a worthwhile program.

Mr. Ramsey clarified his request that Dr. Goree bring the Board a report on May 17th under Superintendent's Report.

Mr. Lee also presented information on an additional workers' comp claim that needs to be added to the agenda for the Board's consideration on May 17th.

CONSENT AGENDA

President Trammel announced the following items as the consent agenda: 7.01-7.02, 8.04-8.09, and 8.11. *Mrs. Locke moved, seconded by Mr. Green, to approve the proposed agenda and consent agenda for the May 17, 2016 CPSB meeting as presented. Vote on the motion carried.*

ANNOUNCEMENTS

Mr. Lee announced that the Caddo Parish School Board will be adopting millage rates at the June Board meeting.

Mr. Rachal announced that he will schedule a meeting of the CPSB Building and Grounds Committee on May 17th at 3:00 p.m.

Mrs. Bell also announced she will be scheduling a meeting of the Insurance and Finance Committee and will announce the date and time after meeting with Mr. Lee.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:00 p.m.*

May 3, 2016

The **Caddo Parish School Board (CPSB) Transportation Committee** met in regular session on Tuesday, May 3, 2016 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Steve Riall presiding and the following committee members present constituting a quorum: John Albritton and Jasmine Green. Also present were Dr. Lamar Goree, Attorney Reginald Abrams, James Woolfolk, Jeff Howard and Jim Lee. Additional Board members present were Mary Trammel, Larry Ramsey, Raymond Green and Dottie Bell. Mr. Albritton led the prayer and Pledge of Allegiance.

Otis Jones, Director of Transportation, introduced the following Transportation staff members: Booker White, Transportation Supervisor; Raylette Jewitt, Recruiting/Training Specialist; and Virgin Rachal, Routing Supervisor.

Substitute Bus Drivers. Mr. Jones explained that there are currently 276 drivers and 18 inactive drivers, so every day the District begins its day at approximately 6.7% in the hole when addressing absences. Ms. Jewitt reported that some of the department's on-going efforts to address this include meeting with Sportran's general manager about their pool of 503 applicants they have not used; and he agreed to include Caddo's transportation flyer in the application process to make them aware of options available while they are waiting on an opening with Sportran. She also reported on presenting this information to Caddo's retirees. Mr. Jones added they also discussed with Mr. Washington (Sportran general manager) the possibility of using their bus washing facility since it was built with Federal funds.

Mr. Jones stated that because on-time delivery is an area of concern, staff continues to work on earmarks developed for delivering students on time. Booker White reported that the department began the 2014-15SY with a baseline of 93% on-time delivery and at the beginning of the 2015-16SY the morning delivery was at 92.8%. At this point in the 2015-16SY, the on-time deliveries have been at 94% plus based on the availability of more sub drivers. Mr. White said the department continues to trouble shoot and work closely with agencies in Shreveport to increase the availability of sub drivers.

Mr. Jones added there are presently 11 trainees on the buses working to complete their 10-day training; and upon completion, these will be available to drive. He also reported there are approximately 20 in a class to begin May 23rd; and hopefully, they will be available to sub beginning in the summer.

Mrs. Bell asked if consideration has been given to putting in bus garages (similar to Vivian) in other areas of the parish so bus drivers and staff (route specialist and secretary) are closer to the schools they serve. Mr. Jones said there are approximately 80 buses at the northern garage and everyone else is serviced by the Midway garage; however, buses do have assembly areas for parking, i.e. Huntington on the west side, Southwood, Captain Shreve (Lee Hedges). Dr. Goree questions whether or not Caddo is large enough for this, but staff will look into the feasibility. Staff added that even though Midway is the hub, drivers do not have to report before they cover a route, but only get to their bus and cover the route. Dr. Goree also asked if there are remote stations for buses to fill up with gas, and Mr. Jones responded buses can fill up at the warehouse.

Mr. Riall also asked if the time between graduation and driving can be shortened since bus drivers are accepting other positions before Caddo places them. Mr. Jones stated they have begun addressing this issue by making sure they understand it is Caddo's intent to hire them because they intend to do a good job for Caddo. Mr. Jones explained they will still be considered subs until they pass all criteria. At this time, it is about six months to one year before we hire and we hope to drop that to 30 to 60 days, and if needed, extend the probationary period.

Mr. Green stated that he understands the problems created if only one bus driver is late, and he believes we can do better.

Update on the Status of the Bus Fleet. Mr. Jones reported that some buses in 2011 were defective with Caterpillar engines and they knew the District would have problems with these defective elements. By the time they learned there would be a problem, the warranty period had passed; and even though Mr. Abrams talked with Caterpillar, they still would not do anything in the matter. Because the defect caused smoke inside the bus, staff categorized them as with heavy smoke, moderate smoke or light smoke. The buses categorized with heavy smoke are no longer in service; and he is proposing that staff continue with the lease to own on the regular buses, but would like to lease to own five used 2012 regular ed/AC buses at a cost of approximately \$65,000-\$66,000 a year. Mr. Jones explained that used buses constitute 60% of the cost of a new bus and they become available through dealers as a result of a district or private owner not able to keep up with the note. He further stated staff is recommending replacing seven engines at approximately \$111,000. The question was raised and staff will look into why a bus with low mileage might be replaced versus installing a new engine.

ESTABLISH AGENDA AS SUBMITTED

Mr. Albritton moved, seconded by Miss Green, to establish the agenda as submitted. Vote on the motion carried.

Route Preparation for Summer School and Start of School for August 2016. Virgin Rachal reported that staff has met regarding preparing for summer school bus needs, field trips, and payroll. She explained that because of the complaints in the past with paying summer drivers, the drivers will be paid the same as summer school teachers. Ms. Rachal further explained that historically the department has rotated seniority with first come first serve for summer school and this year it is seniority. They are accepting these requests now and anticipate routes being set up after the 18th so the information can be sent to the schools, drivers and students prior to the end of school. Relative to the start of the 2016-17 school year, she reported she is assessing the new Edulog software to make sure it is very user friendly and is providing accurate information for the schools and parents. She further reported that over the summer she will also do a full assessment of all runs and routes taking into consideration expanding boundaries, the new bell times, as well as address issues with sub drivers. Currently, there are 311 routes and she will be updating and verifying the routes, stops and times in the system. Ms. Rachal also reported that staff is working on being as efficient and courteous as possible in responding to parents and customers. Mr. Ramsey asked for clarification on the selection of drivers by either seniority or first come first serve, and Ms. Rachal explained this is the process for summer school only.

Mr. Jones added that because Caddo has magnet components at many of its schools, many times they will get the names of students in the magnet components two or three days before the start of school so they can create a route for them; and he has talked with Mr. Burton about the possibility of getting these names earlier so they will have a route in place when school starts.

Update on Bus Wash. Mr. Jones reported that the Board approved funds for a new on-site bus wash; and because the first bid was over budget, they have gone back to the design professional to bring the project within the budget. To date, a pre-bid conference was held and the project is now scheduled to be bid on May 10th with a recommendation coming to the Board on May 17th.

Bus Driver Critical Shortage. Mr. Riall asked if we have sent to BESE that we have a critical shortage of bus drivers, because he understands a waiver can be requested of the State Retirement so retired bus drivers can return one year after retiring without forfeiting any pay. Mr. Jones indicated he is not aware of any districts rehiring retired bus drivers because their pension would be suspended for the first 12 months immediately following retirement. Mr. Riall clarified that is correct, but if they return after being retired 12 months and the District receives a waiver because of a critical shortage, they can draw their pension and pay for returning to drive. Mr. Abrams also clarified that non-retiree applicants must be hired first and you must be able to show the inability to hire drivers and the critical need. The question was raised if districts also hire subs, will this exempt qualifying for the waiver, and Mr. Abrams said the district must certify there is a critical shortage.

Bus Driver Pay Issues. Mr. Riall asked for an update on drivers being timely paid for extra runs. Mr. Jones said the drivers are satisfied and happy in this area now and that a change was made this school year to make sure that drivers for out of town trips are reimbursed for meals the same as other Caddo employees are reimbursed. Mr. Jones explained that an issue they have been working on includes drivers being comped their meal and still wanting the school to pay them the per meal per diem amount. Dr. Goree reported that his Cabinet has discussed this issue and how the policy is designed. Following a lengthy discussion, Mr. Abrams indicated it may be necessary to reword the policy to address the issues of reimbursement for meals not included in registrations so an employee can be reimbursed by providing a receipt for the cost of meal(s) not covered on a school trip. Miss Green stated that she believes it important to have something in place before the next school year so drivers are aware of the policy for reimbursement of meals on required school system trips.

In looking at Board policy, Mr. Jones stated that many drivers are also asking for a check for the meal prior to the trip and he has explained that advances are not given, but a request for reimbursement can be made upon return from the trip.

Visitors. Mrs. Lansdale stated the important thing is being respectful when presenting policy to the employees. She also indicated her interest in having on the agenda the number of special favor routes for accommodating someone. Mrs. Lansdale also addressed the need for professional development, i.e. how to write referrals and address discipline issues, as soon as permanent drivers are hired. She also referenced securing waivers for hiring retired drivers after they have been retired for a year and possibly including a specific period of time.

Adjourn. *Mr. Albritton moved, seconded by Miss Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:05 p.m.*

May 17, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, May 17, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall was absent. Dr. Douzart led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE APRIL 19, 2016 AND MAY 3, 2016 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the April 19, 2016 and May 3, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

RECOGNITIONS AND PRESENTATIONS

Dr. Mary Nash-Robinson, chief of staff, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also recognized on their new positions. Administrators, family and friends present were also recognized.

Barret Paideia Academy. The Barret Paideia Academy School Percussion and Dance Troup, made up of 2nd-5th grade students participating in the Urban Support After-School Tutoring Program, performed "Miss Mary Anne", a Caribbean favorite, as a tribute to Dr. Mary Nash-Robinson.

2016 Presidential Scholars Program. Julia Ash, Joshua Myers, Meghana Rao, and Cameron Wallace were recognized for their selection as candidates in the 2016 Presidential Scholars Program, a program recognizing and honoring some of the nation's most distinguished graduating high school seniors and does so by invitation only.

Kevin Mills II Graduates with Perfect Attendance. C. E. Byrd High School graduate Kevin Mills II, a walking miracle, was recognized for having perfect attendance for 13 years (2,548 days).

National Gold Council of Excellence Award. The Captain Shreve High School Student Council was recognized for being awarded a 2016 National Gold Council of Excellence Award by the National Association of Student Councils. Captain Shreve is one of only two schools in Louisiana to receive this prestigious award, and has won the award nine consecutive times. Martha Goza, Captain Shreve Student Council sponsor, was also recognized as the Region's National Student Council Advisor of the Year.

2015-2016 SMART Students, Mentors and Research Projects. The following 2015-16 SMART Class members were recognized for their research efforts: Madison Davis and Carson Handley, C. E. Byrd High School; and Caretia Washington, Isabella Van Savage, Amir Kaskas, Meghana Rao and Margaret McNew, Caddo Parish Magnet High School.

North Caddo Magnet High Robotics Teams. Two teams from the North Caddo Robotics were recognized for their successes at the National mini-Urban Robotic Challenge in Tampa, Florida. Team members recognized were Team 1 members Emily Taylor, Ashley Wolfe, Alissea Poston and Elijah Dickey; and Team 2 members Breanna Allen, Cheyenne Sparaco, and Dulce Soares.

Amazing Shake Competition Winners. The following were recognized as winner's in The Amazing Shake competition in Washington D.C.: (1) Chakirian Wilson, Midway Elementary

(preK-3); (2) Ra'Mya Hamilton, Sunset Acres Elementary (4-6th); and (3) Matthew Turner, Caddo Middle Career and Technology School (7-12).

The School Innovation and Change Awards. Westwood Elementary was recognized as one in only five schools to receive the National School Innovation and Change Award for making a difference in closing the achievement gap and moving away from failing status. Westwood was also the recipient of a \$10,000 sustainable grant.

Newly Appointed Administrators. Charles Lowder, certified personnel director, recognized the following newly appointed administrators: (1) Juley-Ann Taylor, Transformation Specialist; Dr. Karen Peace, certified recruiter; Ellyn McKinney, director of professional development; Brenda McDonald, area director of school performance; and Diane Atkins, Chief Human Resource Officer. Al Graham, classified personnel director, introduced the following newly appointed supervisor: Rebecca Kysar, assistant accounting supervisor.

PUBLIC HEARING FOR NAMING A WING AT CADDO PARISH MAGNET HIGH SCHOOL FOR MARY ROUNDS

President Trammel announced the public hearing open to hear from anyone wishing to address naming a wing at Caddo Parish Magnet High School for Mary Rounds. There being no speakers, the public hearing was closed.

VISITORS

Brenda Watkins addressed the Board on the capital projects job for Fair Park High School this summer. The project, which will be for safety and security reasons, includes electronic card swipe devices and a centrally controlled lock down system. She asked if there will be someone to man the controls of these systems at all times, is it being done at Fair Park only or at other high schools as well. She further stated that this type of safety and security equipment was not put in the new Bossier high school; and, to her, it a type of prison equipment. She said the Transformation Zone has stressed and proven the climate and culture which is not inclusive for education and is more like detention; and she questions if it is a positive improvement or a setback for Fair Park. When talking about \$300,000 for this project, she believes this could be spent for other things in the school and it is a waste of taxpayer's money. She asked the Board to consider vetoing this position.

Tom Arceneaux addressed the Board on the closing and selling of Barret Paideia Academy and knowing it is for sale and the needs associated with unused buildings, he asked the Board to strongly consider preserving the front facade of the school as well as the first wing and placing this restriction on whoever purchases the building. He stated his appreciation to Dr. Goree and his staff for taking the time to meet with them about where they stand in this matter and encouraged the Board to preserve the historical facade of this building.

Lane Callaway, chair of the Shreveport Historical Commission, addressed the Board on Barret School and that this school is a part of the urban heritage of historical Shreveport. He shared how Barret contributes to the pattern of Shreveport history being built. He noted that Edward F. Neal, architect who designed Barret Elementary, is known nationwide and many of his buildings are on the National Register of Historic Places. Barret is important to Shreveport not only because of education, but also it contributes to the architectural heritage of the city. Barret School meets the criteria of integrity and purpose and the façade has been there since 1916. Being 100 years old, Mr. Callaway stated that the Commission strongly encourages that a no harm clause be placed in the documents when it is sold. A no harm clause does not mean that the interior cannot be rehabbed or repurposed, or a new building placed on the property, but the historic integrity must be kept. He also noted several techniques that one might propose, but some are against the principals of Historic Preservation. The Commission agrees to work with the new owner for repurposing and they also wish to keep it as part of the urban history of Shreveport.

Jackie Lansdale, president of Red River United, addressed teacher evaluations and stated that she believes every district is obligated to say to the public that the teachers in the system are good. She said she believes there needs to be a more comprehensive approach on how we engage in teacher evaluations. Because research indicates there is a very small percentage of ineffective teachers nationwide, it makes sense that an observation/evaluation program would be built for those who do good teaching in the system, one that promotes life-long teaching as a profession, is engaging, has the ability to visit/work with colleagues, is one of trust and not fear, etc. Mrs. Lansdale shared what she sees happening statewide, i.e. Value Added Model changes, and the fallacy that only a small percentage (1 in 3 teachers) will have the data for Value Added which becomes a “gotcha” moment for a teacher in the system and the Board sets itself up for litigation. Also, she noted that under the new Every Student Succeeds Act, the act that took the place of No Child Left Behind, a lot of the evaluation and observation system is returned to local control, and it is important that Caddo makes certain that its evaluation system allows for promotion of the good teachers teaching in Caddo Parish. She also shared her position with the foreign teacher issue that they are working with the immigration attorneys and will bring something back to the Board when they have concluded their research.

Lane Hunnicutt, retired Caddo Parish administrator, spoke in support of the foreign teacher issue and he requested a conversation with the Board on this employee’s hiring at Summerfield. Mr. Hunnicutt said he has never heard of a situation in Caddo Parish where a teacher (husband and wife) were told they would no longer have a job and had two months to prepare for that, something which he believes is unacceptable. He asked the Board to reconsider and proceed slowly in this matter because this employee was one of the best employees he ever employed.

Everado Recendiz, representative of the Legal United Latin American Citizens, addressed the Board on the foreign teacher issue and his disappointment in how the situation has turned out. He noted how difficult immigration is and how they depend on their employers to stand up and do the right thing. He asked the Board to review this case with clarity and how it came to the point it is.

Guillermo “Willie” Ortiz, president of the LULAC chapter in Shreveport, shared their involvement in the city; and until now, this community has really embraced the Latinos. However, the current issue is disturbing to him and it seems as though it is as a result of clerical errors. Mr. Ortiz reported he has met with National representatives on this issue and they are currently reviewing the case, waiting to see what the Board will do to correct the errors.

Alexis Appleton presented the timeline for placement of the foreign teachers in Caddo beginning in 2006. In the last few months, she explained clerical errors surfaced relative to permanent pay and adjustments made to meet requirements. She also noted the lack of a signature on required documentation, the lack of the salary being posted in the job advertisement, negligence on the part of the immigration attorney for Caddo, and the need for someone to take responsibility and correct the clerical errors on the documents immediately.

Holly Viola, parent, addressed the Board on the positive role model the Summerfield foreign teacher has been in her daughter’s life. Learning that this teacher will no longer be at Summerfield has been very upsetting to her and has affected her greatly. She encouraged the Board to reconsider this situation.

Leah Pouncy read a letter from former Board member Kacee Kirschvink who assisted in this matter last year, encouraging the Board to keep its promise made a year ago to this family and allow them to continue teaching Spanish in Caddo Parish while they continue in the process to become U. S. citizens. She asked the Board to not just look at this as black and white, but look at this matter from all angles and do the right thing.

Mr. Abrams explained that the Board does not respond to visitors’ comments and shared that it is not the Board’s decision to let these employees go back home. These foreign employees came here on a J1 visa; and because they wanted to stay in the United States, they applied for a H1B visa. As a part of that process, the District must certify there is a shortage of teachers in a

category (in this particular case, Spanish teachers). He further explained that a couple of years ago, these teachers returned to the Board asking the Board to sponsor them for a green card, and at that time, in order to move forward, the District had to certify there was a shortage in the area in which they would teach and this is because immigration law states you cannot displace another qualified U. S. worker. As a result, the CPSB hired these employees, fully paid their salaries of approximately \$42,000, and advertised the job as required by immigration at \$42,000 which is what we consider to be the prevailing wage. Mr. Abrams added that after advertising the positions, others were interviewed as well; but during this time, the Department of Labor (DOL) indicated that the prevailing wage was \$47,000 and not \$42,000; and he clarified that this was not an error since the District had approved teachers at \$42,000, but the DOL disagreed. At this point, Caddo appealed it to the DOL to make a determination but they denied the appeal maintaining that the \$47,000 was the prevailing wage the District had to pay teachers and was more than what other Caddo teachers were being paid. When this was brought back to the Board, Mr. Abrams explained that the Board agreed to pay the additional amount for these teachers, even though the advertisement was for \$42,000. An audit occurred and it was determined that had the advertisement been at \$47,000, there would have been more U. S. teachers apply; and if you have qualified U.S. workers, they must be hired first. Mr. Abrams added that the Board did approve the increase in salary; however, when audited, it was determined it should have been at \$42,000, we could not correct it and they determined that (1) the lawyer did not sign the document, and (2) we did not advertise at the prevailing wage. The appeal would only correct the signing of the document; however, we could not win on an appeal of the prevailing wage since we had already appealed that and it was denied by the DOL. At this point, there was nothing else to appeal. Ultimately, there was no appeal and the case became final. At this point, the Board cannot re-resurrect it, nor can they change what Immigration requires and there is nothing intervening to keep them in the U.S. under the H1B which means they must return to their home for one year.

Curtis Hooks expressed his appreciation to the Board President Mary Trammel, First Vice President Denee' Locke and Dr. Bonita Douzart, Board member for District 5, for taking the time to help him on April 9th. Serving on the State Advisory Board for Juvenile Justice for almost nine years, he urged the Board to financially support the Truancy and Misdemeanor Program in place. He said these children are a part of the Caddo Parish School family and it is up to the Board to do its fair share and provide the same as the Parish Commission and the City of Shreveport (who is waiting to see if the CPSB is supporting it).

Ted Cox, Judicial Administrator of the Caddo Juvenile Court, pled with the Board to support the Truancy Drop Off Center by committing to \$60,000 from the School System toward keeping this Center open, explaining that the Parish Commission has committed to \$60,000 and the City of Shreveport has committed \$60,000 and will pay it when the School Board commits to \$60,000.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced that the Consent Agenda items include 6.02-6.03, 7.01-7.03 and 8.03-8.08. *Mrs. Locke moved, seconded by Mrs. Bell, to establish the agenda and consent agenda for the May 17, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.* The following is a summary of the Board's action on consent agenda items.

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Mr. Ramsey, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on consent agenda items.

Item No. 6

6.02 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by the Superintendent and submitted in the electronic mailout.

6.03 Personnel Transactions Report. The Board approved the personnel transactions reports (resignations) for April 1-30, 2016 as submitted in the electronic mailout.

Item No. 7

7.01 Consideration of Purchasing Bids. The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Fire Sprinkler Systems, LLC for the purchase of inspection & repair of sprinkler systems 25I-16. *A copy of the bid tabulation sheet is filed in the papers of the May 17, 2016 CPSB meeting.*

7.02 Consideration of Bid for Agriculture Hunting Lease for Carver Property. The Board approved the bid of Stephen R. Williams for the agriculture hunting lease for the Carver Property as submitted in the electronic mailout. *A copy of the bid sheet is filed in the papers of the May 17, 2016 CPSB meeting.*

7.03 Capital Projects. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Whitlock & Shelton, Inc., with a Base Bid, for the sum total of \$139,800.00 for Project 2017-245 “Broadmoor Restroom Renovation”; (2) North Louisiana Construction with a Base Bid and Alternate 1, for the sum total of \$218,014.00 for Project 2017-204 “Huntington Title IX Softball Locker Room”; (3) North Louisiana Construction, with a Base Bid, Alternate I and Alternate 2, for the sum total of \$380,906.00 for Project 2017-241 for Project 2017-241 “Huntington Repair Front Drive”; (4) 3 Gen Construction, LLC, with a Base Bid, for the sum total of \$178,489.00 for Project 2017-227 “Donnie Bickham Parking Lot Extension”; (5) Camus Electric Company, Inc., with a Base Bid and Alternate 1, for the sum total of \$399,880.00 for Project 2017-408 “Woodlawn Auditorium Light and Sound”; (6) Pro-Build Construction, Inc., with a Base Bid, for the sum total of \$145,476.00 for Project 2017-221 “Booker T. Washington Football Handicap Accessibility”; (7) North Louisiana Construction, with a Base Bid, Alternate 1 and Alternate 2 for the sum total of \$412,780.00; (8) That Project 2016-102 “Oil City Elevator” be postponed until further notice; (9) Hope Contractors of Shreveport, Inc., with a Base Bid, for the sum total of \$270,000.00; and (10) Louisiana Roofing Contractor, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$187,400.00.

Item No. 8

8.03 Resolution Providing for Canvassing the Returns and Declaring the Results of the Special Election Held on April 9, 2016. The Board approved the following resolution providing for the canvassing of the April 9, 2016 special election results.

8.04 Consideration of Quit Claim Deed and Resolution. The Board approved the quit claim deed and resolution for accepting approximately .11 acres to be donated to CPSB from Howard E. Sutton for addition to the Oil City School campus as recommended by staff and submitted in the electronic mailout.

8.05 2015-16 General Fund Budget Revisions. The Board approved the revised 2015-16 General Fund Budget as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Coca Cola Beverage Contracts for Captain Shreve HS and Caddo Magnet HS. The Board approved the Coca Cola Beverage Contracts for Captain Shreve HS and Caddo Magnet HS as recommended by staff and submitted in the electronic mailout.

8.07 July Board Meeting Date. The Board approved that the CPSB only meet once during the month of July and the meeting will be held on Tuesday, July 19, 2016.

8.08 2016-17 Sales & Use Tax Commission Budgets. The Board approved the 2016-17 Sales and Use Tax Commission Budgets as submitted in the electronic mailout.

PROPERTY/BUS RENTAL REQUESTS

Mr. Ramsey moved, seconded by Mrs. Locke, to approve requests for use of CPSB school buses and facilities as recommended by staff and submitted in the electronic mailout. Vote on the motion carried with Board member Trammel abstaining.

REVISIONS TO ATTENDANCE LINES AS A RESULT OF THE CLOSURE OF BARRET PAIDEIA ACADEMY

Mr. Rachal moved, seconded by Mr. Ramsey, to close Barret Paideia Academy at the end of the 2015-16 school year as recommended by staff.

Miss Green moved to remove the bullet relative to magnet students returning to their home school. Miss Green stated she has received calls from parents wanting their students to stay in the magnet/laboratory program at Stoner Hill. President Trammel stated she believes the verbiage should be changed from magnet students to laboratory students. Dr. Goree explained that the correct verbiage would be the students attending Stoner Hill on a transfer because they are participating in the lab school component. He also asked for clarification if Miss Green's substitute motion is that the students currently participating in the laboratory program at Stoner Hill be allowed to stay at the school. Miss Green confirmed that is her substitute motion. Dr. Goree also clarified for the Board that if we do leave these students at Stoner Hill, we will no longer be operating a laboratory program at Stoner Hill, and the school would be the Stoner Hill Elementary School, and staff is willing to look at the students currently in the lab program and grandfather them into the school. Miss Green asked if we make the parents fully aware when these changes are being made. Dr. Goree responded that in the District's efforts to strengthen the Zone schools, staff is seeing fewer parents looking for options outside their neighborhood school which they knew before the process began to eliminate some of the programs in place. Another change will be if students in the lab program at Stoner Hill stay at Stoner Hill, the District will no longer provide transportation city-wide to support a laboratory setting at Stoner Hill. Miss Green asked if all this information was relayed to the parents and Dr. Goree explained a letter was sent to parents relative to this. Miss Green asked about the projection that 143 students from Barret will go to Stoner Hill and what will happen if they choose not to attend Stoner Hill. What is the direction if the school is underpopulated? Dr. Goree responded that Stoner Hill has operated for a number of years with a very small population; and because the school does not have a large capacity, staff believes it will not be underpopulated by much.

Miss Green asked the Superintendent if he is agreeable to removing the first bullet and Dr. Goree said staff can do that. Based on the Superintendent agreeing to pull the first bullet, Miss Green withdrew her substitute. Mr. Rachal called for a point of order and stated that as the maker of the original motion, he will agree to a friendly amendment to delete the first bullet as agreed to by the Superintendent. Dr. Goree clarified that what staff will remove is the bullet stating magnet students will return to their home school, but further clarified that is a misprint since there are no magnet students at Stoner Hill.

Mrs. Brown stated that she received more calls on this issue than she did on the BTW-Green Oaks game and she would like for staff to revisit this to make sure we are all on the same page relative to what we need to do for the children and return to the next meeting with a viable option.

Mr. Rachal asked if he understands there are lab students at Stoner Hill, and Dr. Goree said we do and these are students who applied for a transfer from their neighborhood school to attend Stoner Hill. He further explained that many years ago a lab school was set up at Stoner Hill with Centenary, but this partnership no longer exists. Staff noted there are approximately 70 students

attending Stoner Hill on a transfer. Mr. Rachal stated that if the students were awarded a transfer to attend Stoner Hill, he believes it is important that they have continuity in their education and they should remain at Stoner Hill. Dr. Goree stated his agreement and that staff will make that happen.

Mr. Ramsey moved, seconded by Miss Green, to call for the question. Vote on the question to end debate carried.

Vote on the main motion as amended carried with Board member Brown abstaining and Board members J Green, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

REVISIONS TO ATTENDANCE LINES AS A RESULT OF THE CLOSURE OF BARRET PAIDEIA ACADEMY

Mr. Rachal moved, seconded by Mr. Ramsey, to revise the attendance lines as a result of the closure of Barret Paideia Academy so that students living in the Barret attendance zone are reassigned to Stoner Hill, Creswell and Arthur Circle as submitted by staff. Mr. Rachal stated he understands this is a very fluid part of the process in right-sizing the District and better utilizing facilities. He said he understands there may be another school (charter) that wants to use Barret Academy; and in going through the process of revising the attendance lines, this information has been considered in order to minimize the disturbance of Caddo's children. While he knows these decisions are difficult, he believes it is important to spend the money on the students rather than on the buildings.

Mrs. Bell asked if there is going to be a charter school, and Dr. Goree clarified that we do not know who will purchase the property but we will follow bid law.

Mr. Ramsey moved, seconded by Mrs. Locke, to call for the question. Vote on the question to end debate carried with Board member Brown opposed and Board members J Green, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

Vote on the main motion carried with Board member Bell opposed and Board members J Green, Brown, Poljak, Douzart, Trammel, R Green, Rachal, Ramsey, and Albritton supporting the motion.

SALE OF BARRET PAIDEIA ACADEMY

Mr. Rachal moved, seconded by Mr. Ramsey, to approve staff's recommendation that Barret be determined as surplus and disposed of in accordance with CPSB Policy DFL.

Mrs. Poljak moved, seconded by Miss Green, that whereas the Barret Paideia Academy is declared surplus, it be offered for sale in accordance with CPSB Policy DFL, except that the Board shall reserve from any sale of the property a servitude in favor of the Board such that the purchaser shall preserve the outer front façade of the main original building including the side panels to the first column from the front corners of the building and that any new construction be consistent in exterior design with the existing facade, and make the reservation extant for the first sale offering.

Miss Green asked for explanation of the substitute motion and if this building is a national or Shreveport historic mark. Mrs. Poljak said she doesn't believe it is, and if it did, the Board would not be able to do anything with the building. Miss Green asked Dr. Goree if the District is attempting to sell this building, and Dr. Goree explained that the staff's recommendation is to close the school for educational purposes for Caddo and generate revenue to better support what is happening in our classrooms. Miss Green shared her thoughts that someone wanting to purchase this building, does not want to be told what they can and cannot do with the building and especially when they pay approximately \$1 million for it.

Mr. Rachal said he understands the motion to state on the first time only will it be bid with these restrictions and if there are no bids, staff would then repost at the same price without the restrictions. Mr. Rachal stated he is o.k. with the motion as long as everything is o.k. and we don't have to bid the second time at a lesser amount and risk losing funds. Dr. Goree indicated we would definitely want to hear from the legal counsel; however, he does not believe we must reduce the price, but is what the law requires. Mr. Abrams clarified that if you bid the project with restrictions and you receive no bids, you can rebid without the restrictions at the same price.

Mrs. Poljak moved, seconded by Mrs. Bell, that whereas the Barret Paideia Academy is surplus, that it be offered for sale in accordance with CPSB Policy DFL, except that the Board shall reserve from any sale of the property a servitude in favor of the Board such that the purchaser shall preserve the outer front façade of the main original building, including the side panels from the front column from the front corners of the building; and any new construct will be consistent in exterior design with the existing facade. This reservation being extant for the first sale offering only; and if no sale is made with the reservation at 85%, then Caddo Parish School Board will offer the sale of the building at 85% with no restriction.

Mr. Rachal asked if this is a servitude or a deed restriction? Mr. Abrams said it can be a deed restriction or servitude and counsel will determine what needs to be done.

Mrs. Bell seconded the motion because she wishes to leave it like it is because she believes that is what the community would want. She also stated that if it does not sell with this restriction, she will come back and submit a motion that if it is sold that it will not be a school. Because Mrs. Bell asked for clarification and because the second substitute motion was different from the first substitute, Mrs. Bell withdrew her second. Mrs. Poljak clarified that the first time her motion stated that the restrictions were for the first sale offering only; however, her second motion was changed to give the District the ability to offer Barret for sale at the 85% without any restrictions. *Mrs. Bell withdrew her second to the motion and Mr. Rachal seconded the motion.*

Dr. Douzart referenced Mr. Green's comments and stated that the Board was extending a common courtesy to the citizens in that community to keep the facade.

Dr. Goree asked if he understands correctly the motion allows that if it does not sell at 85% with the restrictions, the sale can be rebid at 85% without restrictions and policy will be followed, and Mrs. Poljak confirmed that is correct.

Vote on the substitute motion carried with Board member Bell opposed, and Board members J Green, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey and Albritton supporting the motion.

SUPERINTENDENT'S REPORT

Caddo Virtual School. Dr. Goree announced that staff does plan to bring a proposal for a Caddo Virtual School in Caddo Parish. He explained that this school will be independent of the other Caddo schools, will service high schools, and provide opportunities for students who do not have an appreciation for the traditional high school setting. All students will be enrolled and complete their classwork online, and its administration will be comprised of a principal, a counselor and four core teachers in the major curriculum areas.

ANNOUNCEMENTS AND REQUESTS

Miss Green thanked staff for the successful graduations and that she is extremely proud of Green Oaks and their noted improvement in their scores.

Dr. Douzart echoed Miss Green's comments relative to the graduations and the improved scores.

Mr. Rachal stated that he would like to continue sharing information on outsourcing with the Building and Grounds Committee. President Trammel asked Mr. Rachal about staff being asked

to look into this request and bring information forward, and Mr. Rachal indicated he has all the information he wishes to share with the committee. Mrs. Trammel asked that Mr. Rachal share the information with staff, and Mr. Rachal responded that he has all the information from the conference he attended and he believes the committee is for him to share this information and he would like to present it to the committee. Mrs. Trammel stated that the Board is not aware of what Mr. Rachal is attempting to do relative to outsourcing and so that the Board does know, she believes that is important. Mr. Rachal clarified that he is not requesting the Committee to do anything with the information, but he only wishes to share the information with the Committee. Mrs. Trammel asked Mr. Rachal if he wished to present this request to the Board so the Board can vote to send it to the Committee? Mr. Rachal stated he is not asking anyone to vote on anything; however, if the request is that staff look at this option and share with the Committee so he can present the information, that is what he will do. Mrs. Trammel stated that it seems odd that we would bring forth information on outsourcing when the Board just asked them to support a bond issue. Mr. Rachal called for a point of order and stated that this item is not on the agenda so it cannot be discussed. Mrs. Trammel said it is not on the agenda, but it is being presented and discussed. Mr. Rachal stated that as the chair, Mrs. Trammel can rule on the point of order or not. Mrs. Trammel agreed and because it is not on the agenda nor can be discussed, it will not be brought to the committee. Mr. Abrams explained in following the Board's policy, there are three ways an item can be referred to committee: (1) the Board president assigns to a particular committee, (2) the Superintendent requests that an item be placed on the agenda of a particular committee, or (3) if information is presented to the entire Board, the Board may vote to refer it to a particular committee.

Mr. Green shared that he attended three to four of the graduations and encouraged staff to do a compilation of the comments and make needed changes in the future so that the graduations will be even better than they were.

Mrs. Brown announced that for 90 years a member of her family has been a part of the West Shreveport-J S Clark-BTW families.

Mrs. Trammel announced that a third generation family member, her grandson, graduated from Captain Shreve High School, and Mr. Albritton's granddaughter graduated from Caddo Magnet High School.

EXECUTIVE SESSIONS

13.02 Litigation Update – Wanda Sue Patterson vs. Select Energy, et al, Civil Suit No. 560,010-B, 1st Judicial District Court, Parish of Caddo, State of Louisiana. *Mrs. Locke moved, seconded by Mr. Ramsey, to approve the recommendation for resolution. Vote on the motion carried with Jasmine Green absent for the vote.*

13.03 Legal Update re: Kathy Jefferson vs. Caddo Parish School Board, No. 44171, Office Workers Compensation. *Mrs. Locke moved, seconded by Mr. Ramsey, to approve the recommendation for resolution. Vote on the motion carried.*

13.04 Litigation Demand – Lemon, et al. and United States v. Bossier Parish School Board et al., Civil Action No. 10,687 (WDLA) Correspondence from Robert Hammonds dated April 19, 2016 to CPSB. *Mrs. Locke moved, seconded by Dottie Bell, to go into executive session for up to 10 minutes for the purpose of discussing Lemon, et al. and United States vs. Bossier Parish School Board, et al., Civil Action No. 10,687 (WDLA) Correspondence from Robert Hammonds dated April 19, 2016 to CPSB. Vote on the motion carried and the Board went into executive session at approximately 6:51 p.m.*

The Board reconvened in open session at approximately 7:30 p.m. *Mrs. Poljak moved, seconded by Mr. Rachal, that the CPSB accept the recommendation of the Board's attorney that the CPSB respond to the demand letter dated April 19, 2016 regarding Lemon, et al. and United States v. Bossier Parish School Board et al., Civil Action No. 10,687 to agree that the CPSB will not accept new students with Bossier Parish addresses absent an agreement amongst the Caddo*

Parish and Bossier Parish superintendents; further, that the CPSB does not agree that those residing on Barksdale Air Force Base are a part of Bossier Parish but are in fact residents of the Federal Reserve. Vote on the motion carried unanimously.

Adjournment. *Mrs. Locke moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:34 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

May 19, 2016

The Caddo Parish School Board (CPSB) Executive Committee met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, on Thursday, May 19, 2016 at approximately 4:00 p.m. Executive Committee members present were President Mary Trammel, 1st Vice President Denee' Locke and 2nd Vice President Raymond Green. Other board members present were Jasmine Green and Dottie Bell. Attorney Abrams was also present. Denee' Locke led the prayer and Pledge of Allegiance.

President Trammel welcomed those present and explained that today's meeting was scheduled in accordance with CPSB Policy GBM to allow employees to share with the Executive Committee their comments and concerns. She explained that supervisory personnel were asked not to attend this meeting so employees could feel free to speak about any concerns they may have. She further explained that Board policy does not allow for the Board members to respond or have dialogue in this meeting; however, the Board's secretary will record employees' concerns and suggestions and she will meet with the Superintendent to discuss them.

Velinda McWherter, principal of Timmons Elementary School, addressed the five positions at Timmons affected by the new start/end times for 2016-17. She explained that with the new school year being approximately 10 days less, contract days for approximately three-fourths of the listings have been changed, i.e. teacher works 172 days rather than 182 days. Contracts for the school nurse position and up did not change, but the principals, coordinators, secretaries, clerks will work five weeks with no children and work longer days. She asked the Board to meet with Dr. Goree and determine if these contracts can be changed also to reflect those 10 days.

Cynthia Taylor-Gage addressed the Board on inconsistencies in the promotion/interview process. She stated her concern about some of the things allowed in the new era of leadership that are not in the best interest of students or those working with them. She said the manner in which some people communicate, tactics of intimidation used by leaders, unprofessional language, hostile work environment, harassment, defamation of character, policing conversations, etc. need to be looked into and everyone held accountable.

Dr. Phyllis Leone, 504 specialist, shared with the Board her concerns and possible solutions to the lack of appropriate response to the parents and children with Asperger Syndrome. She said the District is inadequate in meeting the needs of Asperger children and the teachers and staff are not properly trained to recognize these children or how to accommodate them in the classroom and other social settings. Dr. Leone noted these students have very special needs and those needs are being grossly underserved. Because these children do not grasp appropriate social skills from others in a social setting, it is important that they are looked at as the whole child, but pupil appraisal teams focus primarily on academics, an approach that is in direct contrast to the January, 2011 letter from the US Department of Education of Special Education cautioning school districts against delaying evaluations for children when the data supports a need. She urged the District to move forward with a dynamic and parent friendly plan to address the growing number of children with Asperger in our schools.

Connie Harrison expressed her concern that her April paycheck grossed \$2,000 but she brought home less than \$600. She said payroll has explained that she was overpaid and they must hold back that amount from her check. She asked that the Board check into the end dates for reporting extra trips, because each time she does an extra trip to earn additional money, she is told when turning in her time that the payroll date has closed. She asked the Board to help its employees with these concerns.

Kay Kessler echoed the comments regarding bus driver pay as well as the problem of no one answering the phone in Transportation or returning calls when messages are left. She also expressed concern over discipline problems on buses, and the lack of support from administration to address the discipline issues as well as overcrowded buses.

Leta Eyler shared the following concerns/suggestions: (1) safety of employees during the holiday seasons when there is no security at the front desk and only a skeleton crew in the building, (2) the possibility of implementing flex scheduling since some employees do not get off work in time to take care of business at Central Office when closes at 4:30 p.m., and (3) allow employees to vote on the summer schedule in the future.

Delores Lynch expressed concern and asked the Board to check into the fact that her paychecks since going on medical leave are different one check to the next. She reported that payroll has told her that Human Resources reports different figures. Mrs. Lynch asked the Board members to please read information they are given; and when dealing with personnel matters, to please read and research and make informed decisions.

Leola Scott, bus driver, shared the following bus drivers' concerns: berated for speaking the truth, drivers best interest not a top priority, assume that drivers are always wrong and parents are right, drivers and office staff not getting along, office staff treated as being smarter and more important than drivers, favoritism in selecting drivers for field trips, seniority does not mean anything except in bumping sessions, no recognition for doing a good job, no consistency in discipline, can't talk with the director openly and honestly without grudges, positions filled before they are open, drivers not given opportunity to move to another position despite qualifications, some drivers are allowed to help other drivers before finishing their run yet some drivers are denied, will not pay trailblazers before 6 a.m. or after 5 p.m. if only 5 or 10 minutes, must always agree with the director, aids on buses must do all the work, disrespect from the director, late communication of cutoff date for field trips, assumption that bus drivers are always wrong.

Patricia Goss stated that she has appeared before the Board, along with 80 bus drivers, to share concerns but nothing ever changes and the drivers continue to feel like they are not treated fairly or with dignity. She expressed concern over pay issues for drivers – only paid \$8.00 an hour, can be away from their home for 23-24 hours and only paid for 15, Vivian drivers once was paid for a mid-day run in North Caddo but no longer are, senior drivers no longer getting field trips but they are given to subs, and drivers not being paid on time.

Maxine Elie, bus attendant, shared her concern that bus attendants are under paid.

Burl Henry, Sr., bus driver, addressed the Board on the fact that bus drivers are treated like children and that they do not believe drivers know anything but driving a bus. He also questioned the pay scale for driving extra trips, discrepancies in pay, as well as the per diem of \$15.33 and schools not wanting to pay the per diem.

Sammie Bell addressed the Board on the new school calendar for 2016-17 that has fewer, but longer days and asked the Board to address the concern that school-based classified personnel have received notification they will work the longer hours, but not less days, thus they are being asked to work more without receiving more pay.

Patsy Richardson, paraprofessional, stated that the voters supported the recent vote to renew the millage and would like to know when the employees will receive an increase and what will the employees receive. She also addressed concerns relative to health care and the possibility that the Federal Government will cut benefits to address the Federal deficit. She encouraged the Board to remember the importance of cutting costs and not people.

John Brosse, bus driver, addressed the Board on the need for change in the Transportation Department.

Jon Glover, maintenance, addressed and questioned the necessity of the recent discussion relative to outsourcing. While outsourcing may sound great, she said it is not a good picture for the

recipients, and she doesn't believe this is a practice the Board wants to bring to Caddo. In researching outsourcing in other areas, she learned it is not a good picture; and while there may be some savings in some instances, the District will lose in the long run. She asked the Board to think about the employees that are being put at risk in these decisions, and encouraged the Board to trust the employees the same as the Board asks the employees to trust them.

Rhonda Bennett, bus driver, addressed the Board why no one can explain how they are paid, especially when they work more hours and receive less pay. She has spoken with everyone over the past 10 years and still no one can explain it to her. Also, she also believes it is the school's responsibility to reimburse the drivers for lunch when driving field trips, whether a restaurant comps the meal or not.

Penny Anderson, bus driver, addressed her concern that bus drivers cannot get an increase when aids in the classroom can get a raise of \$1,000 every year. She also expressed her concern that people come off the street and drive a bus making the same thing that drivers working 10 years make. She also has a concern about un-air-conditioned buses and the start of school in August.

Jackie Lansdale thanked the Executive Committee for allowing the employees a forum opportunity for addressing the Board on employee needs in the District. She also noted the prevailing concerns expressed, i.e. next year's work schedules, outsourcing, economic impact in community when removing employees from one position and placed in another; and reminded the Board that the Transportation concerns are not going away as well as the lack of support from Administration in this area and asked that the Board sincerely address this matter.

Dan Neumeister, 122 Grey Eagle Dr., Shreveport, bus driver, stressed his concern about pay and discipline on the school buses. He stated the seriousness of the safety for school buses and doing something to get students in line. He also reported on the problem of not being reimbursed for a meal in accordance with policy when driving for field trips, and not being kept informed.

Martha Chambless, bus driver, reported on being promised in September to be paid for helping in training bus drivers and to date, she has not been paid. She asked the Board to look into problems of people parking in handicap zones at the schools making it difficult to pick up the wheelchair students.

President Trammel again thanked the employees for coming before the Executive Committee with their concerns and suggestions and reminded them that she will meet with the superintendent about the concerns expressed.

There being no additional speakers, *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:57 p.m.*

May 24, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, May 24, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

VISITORS

Dennis Harvey, SE Shreveport resident, shared his history of being involved in public education and the importance of neighborhood schools when considering the charter applications. Mr. Harvey said because of the growth in Southeast Shreveport, attempts have been made since 1997 for a new school in this area, a goal they wish to continue to work with the school system to accomplish. He added Southeast Shreveport has a large tax base to help the school system and is proud to be able to do so, and they desire to keep the school system locally run with elected leaders.

Leah Pouncy stated she believes it is ill advised to bring any more charters in Caddo. Being faced with budget cuts and losing approximately \$1 million, she asked the Board to vote in the best interest of the school system and not approve additional charters.

Jackie Lansdale, Red River United, stated that one of the first speeches she made before the CPSB was in 1995 about charter schools. She said while the concept behind charter schools has merit as originally purposed, she doesn't believe it was ever in the plan for industries to make money off the backs of teachers, school employees and students. Mrs. Lansdale stated that in terms of vision, academics, etc., she believes the proposed southeast charter plan is great; however, it is all something Caddo Parish Public Schools is already doing. She said the community in Southeast Shreveport deserves a neighborhood school, but not a charter operator that just sits in a neighborhood. She reminded the Board that it is currently addressing major budget woes, much of which is as a result of charter schools, and asked the Board to make its decisions based on what is best for the boys and girls in the District.

OUT OF STATE TRAVEL

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the General Fund out-of-state travel requests as submitted. Vote on the motion carried unanimously.

ACT ON CHARTER SCHOOL APPLICATIONS

Kim Williams, third party charter reviewer, highlighted the process for charter school applications, explaining that notices were received in February and applications were received in March. Her team began reviewing the applications for the academics, finances, operations, safety concerns, facilities. A local interview panel made up of a District team and her team conducted interviews with the applicants and a draft recommendation issued to the applicants. Applicants are given an opportunity to respond to the draft recommendation before the panel submits a final recommendation to the Board. She also stated that State Law requires the Board to allow public comment prior to receiving her recommendations or taking any votes. At this time, Ms. Williams recommended that the Board receive public comments from the applicants.

Sheryl Lewing, Saving the Planet Earth Charter, a STEM (Science, Technology, Engineer, Math) School that focuses on the environment. Because the STEM field is growing, she said they believe this school will expose students to different careers and opportunities for college or a career in order to become self-sufficient, by enhancing more learning opportunities for students to succeed.

Dr. Hayes, representative for Excellence 2000, shared information on their proposed school as well as requested an extension on the time required to submit required documents. She stated some charter schools are taking away basics from the public school system; however, Excellence 2000 will be a school to enhance learning opportunities for the students and provide low-performing students, concentrating on the basics in the core subjects and bringing them up to date. She explained that Excellence 2000 wants to be a part of the community and enhance academics for low-performing, behavior problem students.

Kim Williams stated that the recommendation for Planet Earth is to deny the application submitted by Planet Earth Charter School. She said while they admire the commitment of Dr. Sheryl Lewing, they also recognize the amount of work that goes into starting a school and this charter lacks several of the things necessary to insure the successful opening of a school, i.e. academic plan, special ed plan, budget plan being in place. *Mr. Ramsey moved, seconded by Mrs. Bell, to deny the application submitted by the Planet Earth Charter School. Vote on the motion carried unanimously.*

Kim Williams stated the recommendation for Athlos Academy of Caddo Parish is conditional with the following conditions needing to be met: (1) because Athlos has board members that are also members of the Linwood Charter School, no more than 2 members of the Athlos Board, at any time, may also be members of the Linwood Board, and Linwood Charter must have a C letter grade, (2) they must provide transportation in accordance with state law, (3) the Caddo Parish Superintendent shall have final approval on the location, (4) prior to signing of application, the District must approve the master service agreement between Athlos and the local Board to insure that the Board understands what they are signing and Caddo Parish understands what is being put out there in the master service agreement which will determine how their funding is handled, if they pay their bills first, if they pay the service provider first, who employs the principal, etc. Also included in the recommendation are four specific areas of concern, i.e. makeup of the board that also includes members of the Linwood board, the location of the school is unidentified, the school plans on recruiting over 900 students in its first year, grades K-6. She said Athlos does operate schools in other areas but has only done so for a short period of time. They do not believe taking in this many students at one time allows for change or correction. Also there was no agreement included between the local School Board and Athlos.

Mrs. Bell moved, seconded by Miss Green, to deny the application of Athlos Academy of Caddo Parish.

Mrs. Bell stated that she questions how the application can be approved when the location is unknown, and asked if it is part of the Linwood Charter School. Ms. Williams said it is not, and the only connection is two members of the Linwood board also sit on the Athlos board. Mrs. Bell asked if that is allowed, and Ms. Williams explained there is no legal question relative to them sitting on both boards. Mrs. Bell asked about the current letter grade for Linwood Charter, and Mr. Wayt said it is an F. She also asked what is different about Athlos from Caddo Parish Public Schools, and Mr. Wayt responded that the differences are (1) a dual leadership role, one for academics and one for administration, and (2) the model is based on three pillars (prepared mind, healthy body, and character). Mrs. Bell also asked about the beginning enrollment of 900 and if the school gets only 500 students, will the school close. Mr. Wayt responded the projected enrollment is 880, and everywhere Athlos has opened a school they have opened with this number and have had a waiting list. Mrs. Bell said she can't see it and she doesn't see anything different from what is being done in Caddo.

Miss Green stated her appreciation for the efforts, however, and while what they offer is outstanding, she doesn't know where the school will be located. Also, if 880 students move out of Caddo Public Schools into this school, this is something Caddo cannot afford. Relative to the two board members sitting on both boards, she asked if they will continue. Ms. Williams explained they currently do, but will transition over. While she applauds the efforts, Miss Green stated she cannot support this application.

Mr. Ramsey asked Ms. Williams about the bullet that the school presents a sound budget backed by the national office to insure success, but bullet #3 states that the school plans to attract 800 students in the first year. Ms. Williams asked an Athlos representative what is the breakeven number for the proposed school. Mr. Ramsey stated that he doesn't believe a sound budget plan is in place when you have to have a minimum of 500 students to open a school and you don't know what will happen if the school does not get that many students. The representative from the Athlos national office stated that they partnered with the local board in Shreveport to consider possible locations. In this partnership they look at demographics, numbers, data driven analysis on location of a school with the condition that they will work with the Superintendent on the location of the school which they look forward to doing. She also stated that in order to apply for a charter, they had to create a 0-5 year budget and they have done that for this location. The budget is viable and includes room to adjust as needed in the partnership in order to expand staffing to support the students. She also said that typically they have met their first year enrollment, but in the event they do not, it is their responsibility in the partnership with the local governing board to address those issues. Mr. Ramsey asked Ms. Williams if a budget was presented, and she said a budget was presented based on 880 students, and the question is if the school only has 600 students, will it be able to open. Mr. Ramsey stated he prefers having a solid plan going in.

Mrs. Poljak asked Ms. Williams about taking in so many students at the beginning with no room for error or correction once the first 800 are recruited. Ms. Williams explained that when a charter school opens with 800 students in a K-6 configuration there is no room for growth in the budget and the superintendent will not know until the following fall if academics were happening in the new school and if the local district lost that time with the 800 students. Mrs. Poljak asked Athlos about their statement they would not be taking Caddo students; and if they are not, where will they draw students from. The Athlos representative clarified that she meant as a Type 1 charter, they would work with the District to pick a location that has a need for a school as a result of overcrowding, space issues, etc. Mr. Wayt added that one factor he believes will make a difference is there are quite a number of parents whose children are in private or parochial schools, and they are paying taxes and tuition. He believes this school will appeal to parents in those schools.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Board member Brown opposed.

Vote on the motion to deny the application of Athlos Academy carried unanimously.

Kim Williams shared their concerns with this application and that Excellence 2000 did not meet the minimum eligibility requirements because Louisiana law requires them to be a non-profit organizer, that the application has a minimum of three Louisiana certified teachers, and they must have a founding board, none of which were presented at the filing of the application nor to date. She also said in addition, they have asked for the name from the Louisiana Secretary of State, but have not filed the business online. Currently, Ms. Williams stated that Excellence 2000 has some issues with Children's First of Dallas and Houston; and because of financial concerns and questions, the schools are closing. She also shared a recent article on the closure of Oak Cliff Charter School. With these concerns, it is their recommendation to deny the application of Excellence 2000 Network School.

Mr. Ramsey moved, seconded by Mr. Riall, to deny the application submitted by Excellence 2000 Network School. Vote on the motion carried unanimously.

Adjourn. *Miss Green moved, seconded by Mr. Ramsey to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:18 p.m.*

May 24, 2016

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 24, 2016 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

VISITORS

Jackie Lansdale, president of Red River United, brought to the Board's attention the importance of, when addressing a budget in which employees will be affected, bringing the employees to the discussion. She referenced a communication that was distributed to the employees and principals referencing the longer school day and abbreviated calendar where secretaries and security will still be working on days there are no students on the campus. Even though this is based on the 2009 study by Rahmburg, Mrs. Lansdale stated she has asked for this information, but only wants the Board to understand that this is a poor way to alert anyone about something that will impact their lives. She asked the Board to remember the employees when making decisions that affect their livelihood.

2016-17 CONSOLIDATED ANNUAL BUDGET

Jim Lee, chief financial officer, stated that today is the first work session for the proposed 2016-17 CPSB Consolidated Annual Budget and he will present information today on the General Fund. Mr. Lee brought attention to the budget calendar and that a copy of the proposed budget was not provided in advance as staff was continuing to work on the proposed budget up until a short time before today's meeting. He also announced that the second work session is scheduled for May 31st and staff will discuss all the special revenue funds (Title 1, Special Education, Capital Projects, Debt Service) as well as provide follow up on questions from today's meeting. He noted that the budget calendar goal is to make the proposed budget available to the public for inspection on June 2nd, as well as publish the public notice in the official journal. Mr. Lee also reminded the Board that the budget must be available to the public 15 days prior to the date the budget is adopted and it must be published in the official journal 10 days prior to adoption, which hopefully will happen on June 21st.

Mr. Lee reported that the draft budget reflects an approximate \$10 million deficit (\$395,823,583 in revenue and \$405,717,217 in expenditures), and staff has worked to reduce the deficit; but to date, no additional revenue is expected beyond what is budgeted. He reported that three factors impacting the projected deficit include the decline in sales tax revenue of approximately \$4.5 million, the decline of MFP revenue of approximately \$2.2 million, and the increase in cost of charter schools by \$5 million; and had it not been for these items, the District would have reflected a \$1.8 million positive budget.

Mr. Lee shared the 2014-15 actual budget, the 2015-16 final budget and the proposed 2016-17 budget highlighting revenues and expenditures with the three sources of revenue to the General Fund being valorem tax, sales tax and MFP. He further explained that the ad valorem tax reflects a slight growth and reflects \$98.5 million with a total millage rate being 56.52 mills and millage rates will be adopted in June with a slight decrease due to reassessment. The sales tax is also budgeted at a reduced amount, approximately \$76 million which is \$4.5 million less than last year and the district receives 1½ cent sales tax. The budgeted MFP amount of \$207 million reflects the state's current model with no growth factor and does not include additional funds outside MFP.

Mr. Lee highlighted General Fund expenditures, including staffing based on formulas, step increases, retirement and healthcare costs, the \$200 teacher supply funding, the leasing of 13 additional buses, funding for the Social Studies textbook adoption, the STEM Pilot textbooks and assessment software. Expenditures for the three charters, in which staff anticipates paying out approximately \$15.5 million to them which is up about \$5 million from this year. He also explained that while we may lose 1,000 students to Magnolia Charter, it still will not be enough to reduce staffing. Mr. Lee also highlighted the employee benefits that represent approximately 32.6% of the budget with the largest two items being retirement (12% of the budget) and healthcare (18.9% of the budget). He further explained that the rates for retirement are received from the state pension plans, which the District has no control over; and the TRSL rate will be 25.5% and the LSE will be 27.3%, a decrease in both reflecting a reduction in retirement costs to the District of approximately \$2.8 million. The healthcare rate is an estimate at this time (9% projected increase); and when the renewals come later in the year; and if the rate increase is actually less, the District could see an additional savings.

Mr. Lee also reported that to get to the proposed \$9.8 million deficit, the following reductions made by staff are already included in this proposed budget: (1) reduce Central Office staff by 10, (2) Special Ed teacher vacancies, (3) bus driver vacancies, (4) reduce Ombudsman contract, (5) eliminate Drivers Ed, (6) eliminate Shreveport Job Corps, (7) reduce fuel costs, and (8) reduce utility costs. Mr. Lee also highlighted departmental reductions that will be made through attrition: (1) Academic Affairs - \$996,000 by eliminating an instructional supervisor, cuts in Central Office M & S and travel, put off one year ELA textbooks and closing Barret; (2) Operations - \$875,000 by leasing 10 used buses instead of new buses, reduce custodial staffing (18) and maintenance staff (4) through attrition; (3) Human Resources - \$1,785,855 by reducing through attrition 6 speech therapists, 9 special education teachers, 6 Gifted teachers, 7 Special Ed paras and one vacant position in Communications; and (4) Finance - \$1,600,000 by using the Retiree Drug Subsidy Funds as additional revenue rather than placing in the OPEB Trust Fund for one year only. He added that at this time the OPEB liability is approximately \$800 million and Caddo has approximately \$20 million in that fund.

Three options were presented for revising the staffing formula that could result in savings of \$3 million to \$4.7 million with staff's recommendation being Option 3 and a savings of \$3.7 million. These additional options total approximately \$8.9 million leaving a proposed deficit of approximately \$918,779. To address this approximate \$1 million, Mr. Lee stated a possible option would be a 1-2% shift of the healthcare premiums cost to the employees (1% would save \$500,000 and 2% would offset the deficit). Because of the timing and not being able to implement this option if approved, this is only ½ of the projected savings.

Mr. Lee announced that the next budget work session will be Tuesday, May 31st at 2:00. At that time, he said staff will bring a balanced budget, will provide feedback from today's unanswered questions and will discuss the Special Revenue, Capital Projects, and Debt Service funds.

Superintendent Goree stated his appreciation to Mr. Lee for his work in presenting this proposed budget and announced that as the staff made decisions, it did consider the Strategic Plan and looked at the proposed cuts not just as a quick fix but how does staff sustain these cuts when not seeing a rapid increase in funds from other sources. He reiterated that the staff looks to receive feedback from the Board on the options presented and how we move forward and find the \$1 million shortage. He also stressed the need to adopt a balanced budget.

Mrs. Bell asked about an expected number of retirees in the classified and certified areas, and staff responded it is expected there will be approximately 200. Dr. Goree responded that most of these positions are refilled, but most of them that will not be filled through attrition will be those vacant positions filled through attrition. Mrs. Bell also asked about the OPEB fund and how

much we typically put in that fund annually and if we are hiring new teachers. Dr. Goree explained that the District has approximately \$20 million in the OPEB fund and this is the first time since we began building this fund that staff is recommending not placing it in the budget for 2016-17. He also stated the District will absolutely hire new teachers because of the continued shortage of teachers in critical areas, i.e. science. Mrs. Bell also asked about the \$15 million for charters; and while Caddo gets approximately \$4,500 per student, what does Caddo lose when losing one child to Magnolia? Mr. Lee explained that the charter school authorized by Caddo, i.e. Magnolia, receives approximately \$10,000 per student annually. She also expressed her appreciation for the hard work staff has done in preparing the proposed budget and asked staff, when bringing the balanced budget, and finding the needed funds, she would like to bring a budget item to the agenda.

Mr. Albritton noted that he did not see a line item for Academic Affairs and asked what that amount would be. Mr. Lee stated that Academic Affairs represents a majority of the budget and explained that it flows throughout the entire budget and a majority of it is listed under Instructional Services. Mr. Albritton also asked about the change the Department of Labor made in the law regarding who can get overtime, and if it impacts us. Mr. Lee responded that staff is looking at this and hopes to have an answer by the next work session. On the remaining \$1 million deficit, Mr. Albritton said that is not a lot of money except when attempting to make cuts and he appreciates the work staff has done to get to this point in the budget preparation.

Mr. Rachal asked about the number of positions budgeted, the number of current vacancies and how will we reduce that number be listed in individual columns. He also asked staff to look at adding a grant writer in the budget for next year. Mr. Lee explained that adding a grant writer will add about an additional \$100,000 in expenditures; and while they receive money in return, the money does not come back into the General Fund. He further stated that while the Superintendent has mentioned putting this position back in the budget, he has not been able to justify putting it back at this time. He also reminded the Board that it also depends on how grant funds can be used. Mr. Rachal added that while money from the grants may not be put back into the General Fund to offset the \$100,000, it does benefit the General Fund indirectly, and Mr. Lee responded it depends on how the grant is written and what the funds can be used for. Mr. Rachal asked if it is possible for the grant writer to be paid out of grant funds, and Mr. Lee said it can; but if the grant goes away, how do you fund the grant writer. Mr. Lee added that when in the budget crisis the District is currently in, he cannot recommend it, and Mr. Rachal said he may have an answer to his question. Mr. Rachal also inquired about the difficulty in tracking funding for charter schools; as well as the possibility of increasing the high school staffing formula to 26:1 in grades 9-12 and keep K-1. Dr. Goree stated that is where we started, but staff went back and looked at why the high schools were set at 24:1; and noted that in a small high school, the higher that number, the fewer teachers a school will have; and if the formula is 26, the larger schools would struggle, i.e. Byrd would lose seven teachers, which is why staff recommends 25. Mr. Rachal also asked about the recommendation of 10 used buses and the elimination of the Drivers' Ed program, and staff explained the savings of \$80,000 by getting 10 used buses rather than 5 new and 5 used, as well as there are several companies in the area that provide the drivers' ed service at the same cost. Dr. Goree noted one of the reasons the District is losing money is the District pays retirement, et al benefits, on the additional income for a District employee. Mr. Rachal also stated that until the District has a long-term plan regarding transitioning into e-books, he does not like continuing to purchase books. He reminded everyone that Dr. Goree stated when coming to Caddo how far behind Caddo is in the area of technology; and after visiting with other districts at convention, he believes it is worse than what was said to the Board. Per Mr. Burton, Mr. Lee reported that this will be the last textbook adoption. Dr. Goree added that he has had conversation with Mr. Ramsey as chair of the Long-Range Planning Committee because the District is behind on deployment of any type of electronics in the classroom; and putting this off for one year allows staff time to further assess this need.

Mr. Green stated his hope that no matter what the budget reflects, that there will be little or no reduction in employee benefits. He said he has no problem supporting an increase in the staffing ratio and actually encouraged implementing this recommendation.

Mrs. Locke asked if staff will bring a recommendation to the Board on the option for changes in the staffing formula. Dr. Goree reported he will hold small group principal meetings at which he will look to receive input from them on this matter. He further stated that staff did some site surveying and looked at the numbers people will lose, working with the area directors, who work closely with the principals, to develop staffing needs. Mrs. Locke also asked if she understands correctly that at this time there is not a projected percentage of positions to be cut, and Dr. Goree did point out the information included on the number of potential positions to be cut. He further stated that before a final recommendation is determined, he will also meet with the employee organizations. She also inquired about the number of classroom teachers and staff reported there are 1,847 regular ed teachers, 626 special ed teachers, and 48 vocational technical teachers for a total of 2,521. Mrs. Locke also asked about the proposed cuts at 1961 Midway or others not located at a school, and Mr. Lee explained that in addition to the 10 positions located at 1961 Midway, they also looked at non-instructional positions, i.e. custodial staff and bus drivers also through attrition. Mrs. Locke asked about the number of employees at Central Office and if there is a staffing formula for Central Office. Mr. Lee responded approximately 200; and relative to a staffing formula, Dr. Goree responded that is in the works. Mrs. Locke stated she is comparing reductions at Central Office vs. classroom and it seems heavy on the classroom side and only eight positions at Central Office.

Dr. Douzart noted the importance of the need for Drivers Education. Dr. Goree stated his agreement with Dr. Douzart and that Caddo has offered a quality product; however, when looking at a \$10 million deficit, it is important to look at everything that can be cut. She also asked about the possibility of the reduction in healthcare costs at emergency rooms because she has observed some unnecessary costs. In the area of technology, she knows the District is not where it should be, but she wants to move forward and provide students what they need.

Mrs. Poljak asked if the District must make cuts in staffing because of the charters, is the dollar amount paid to charters cut? Mr. Lee explained the only way to reduce funding to the charters is if the State sets a different formula or if the charters have a reduction in the number of students. Dr. Goree added that regardless of Caddo's situation, the District must cut the charters a check with a dollar amount for every child they have enrolled. Mrs. Poljak stated her concern that we are creating an academic problem with the number of vacancies in teaching positions, and the Superintendent stated his agreement, but we will have to do what we do with fewer people and still create successful opportunities for students. Mr. Lee further stated that Mrs. Atkins worked with Dr. Lockett and IDEA on these General Fund-funded positions to determine if they could be reduced.

Miss Green asked about today's special session on charters and the necessity to lead with the budget which reflects Caddo in the negative. Miss Green also mentioned her appreciation for Dr. Goree's concern in increasing the student-teacher ratio in high schools, especially the smaller high schools, because she knows cutting four teachers from Green Oaks would be a disaster. She encouraged not increasing the student:teacher ratio. Miss Green asked if staff has looked at neighboring districts and their insurance benefits. Mr. Lee said they have and Bossier and DeSoto Parishes both pay a higher portion of the premium than Caddo does, so any shift of the premium cost to the employee will mean a bigger gap in what the employees pay. The question was also raised on what Caddo's neighboring districts are doing relative to insurance and benefits, and Mr. Lee explained that Bossier and DeSoto Parishes pay a higher percentage of benefits for their employees. Randy Watson explained while there are some similarities, it is complicated and a 1% shift in what an employee pays could be devastating, but it would still not save the District a lot of money. Mr. Watson stated that Caddo employees and retirees are with

the District for life; and the real cost to our health care is not how much the member is paying, but how much the provider is charging, which is where staff is attacking in the plan with a strategy of early detection and early treatment which is much cheaper. Mr. Watson stated that the real inflation is double digit, but Caddo's inflation cost is approximately 7-8%; and the 1% shift in premium cost is a drop in the bucket compared to getting the provider's cost reduced. While Caddo could raise deductibles and out of pocket costs, employees will pay in the long run because of higher costs resulting from complications from not getting proper treatment. He noted he will present to the Board when presenting renewals in August the results from last year and some changes, i.e. reimbursements to doctors, software upgrades with Blue Cross that indicate improvement as a result of early detection and treatment, all of which will bring a greater savings than a 1% shift in cost to employees that could have a devastating financial impact on them. He also explained that when comparing Caddo to surrounding districts, Caddo has implemented changes that have resulted in multi-million dollars savings as a result of medical management and going to the source where increases are seen.

Mr. Riall asked about the need to keep funded vacant positions (certified and classified) in the budget; and Mr. Lee explained that vacancies reflected in the budget, staff knows we will have 50 vacant positions in the budget. Looking at those vacancies, staff will leave it at that number and staff has taken a portion of that number and use somewhere else because staff knows that portion will not be filled. Dr. Goree added staff is working to get a hard number for necessary positions that will be filled. Mr. Riall also asked if the formula for staffing the high schools can be modified so it is different based on the school enrollment, and Dr. Goree said that is feasible, and they have learned the need for the contingency positions to use anytime staff feels like students' education is being compromised by not giving additional staffing. Mr. Riall also asked about the opportunity for a roll forward, and Mr. Lee explained that the deadline is in July and it could affect this budget by approximately \$1 million in revenue. Requirements would be to advertise two times in the Official Journal before July 15 and it will require a 2/3 vote of the Board. Mr. Riall asked if the maximum amount is approximately \$1 million and would the District receive the \$1 million dollars every year. Mr. Lee said that is correct until the next reassessment in four years.

Mr. Riall also asked staff to look at the number of people in the Transportation Department. Dr. Goree stated that does include the number in the Vivian office. Mr. Lee explained that every four years the parish assessor reassesses all properties in Caddo Parish. In non-reassessment years is added only if there has been a lot of new construction. When a reassessment is done, a total assessed value for Caddo Parish is determined, and the intent is not on the number of millages you receive, but on how much money is received. Having just done a reassessment this year and the millages went down approximately 2% as a result of increase in property values, and the Board will adopt millages in June and they reflect a decrease from last year. Mr. Lee further explained that a roll forward will say that even though the assessment went up, we want to go back to the higher millage rates and bring in more dollars to the District, and this would happen without allowing the taxpayers a say-so in the decision. Dr. Goree reiterated that there will be conversation among the employee organizations and employees looking for the easiest ways to generate funds; and from a historic perspective, the Board has not done many roll forwards.

In response to staff's presentation on Board additions to the budget, Mrs. Bell clarified that she is not requesting a new position for Fair Share/Minority Owned Businesses, but she is only requesting that this responsibility be assigned to someone currently on staff. Superintendent Goree explained that the Board previously approved eliminating the Fair Share Department and placing the responsibilities for Fair Share under Lisa Lloyd, director of Purchasing, and Steve White for Capital Projects/new construction.

Mr. Ramsey stated he is awaiting to see what additional positions can be cut, because he realizes we are weighing on the side of employees and there will be a need to look at programs versus employees and come up with the best mix possible in addressing these and future difficult choices. Dr. Goree again stated that staff did bring forth approximately \$9 million in reductions but there remains an additional \$1 million to balance the budget and staff has brought forth some options for the Board's consideration in this area. After listening to the Board's comments, staff will relook at everything in order to balance this budget. Also, he reminded everyone that staff has not recommended a reduction in force but has attempted to let the impact on the campus be as minimal as possible and direct as much as possible to the classrooms. Dr. Goree also said that he believes every conversation needs to be led by what has caused this problem and that is reduction in sales taxes as well as charter school expenses. He also stated that it is important to strategically look at how these type things will be addressed in the future, i.e. if charter schools continue to be added, we will continue to see approximately \$5 million paid out to each charter every year and is something the Board needs to consider as it makes decisions.

Mrs. Trammel stated she believes it vital that the Board knows how the budget will be affected by overtime payments; and regarding the staffing formula, she supports K-3 class sizes remaining as small as possible, and she sees the impact on high schools if that number is increased, but she believes we need to keep the classrooms as small as possible. She also thanked Mr. Watson for his input relative to the insurance costs. Mrs. Trammel also stated this is why she supports a lobbyist for the District, which she will explain at another time, and having someone at the Legislature to monitor and stand for issues that affect the District, i.e. cost to the District for charter schools.

Mrs. Bell stated that the City and Parish have Fair Share programs, and she asked about the formula for Caddo's Purchasing Department and the possible elimination of one position; as well as if someone will be designated to take care of minority and women-owned businesses. She said she wants someone to deal only with minority and women-owned businesses, and possibly someone in the department with expertise in this area in Purchasing can be designated as that person.

Mr. Riall asked about the \$5 million for each of the charters and if there are any checks and balances to what it actually costs to educate these students as opposed to what we are paying. Dr. Goree responded that Caddo is very unique because if you take 900 students from Caddo and place them in a charter, one would think staff could also be reduced; however because Caddo is so large and students are being pulled from so many places, we are not losing enough students from one location to make a difference in the staffing. With a smaller district, a charter would reduce the students from a school by enough to where a district can reduce staff numbers, but that is not the case with Caddo. After looking at hard line numbers at Central Office, staff has seen the need for a staffing formula for Central Office in order to generate the dollars needed. He stated as superintendent, it is his responsibility to receive the information from the Board and staff will work on positions requested by the Board, but he respectfully asked the Board to remember we are \$1 million short of a balanced budget and the budget sessions were pushed back to allow staff to do its very best job of generating the revenues presented and bring forth a balanced budget.

Mr. Riall asked about the practice of when eliminating programs, the District moves people laterally which is not saving money and he believes it is something that needs to be addressed.

There being no additional business, the meeting adjourned at approximately 3:42 p.m.

May 31, 2016

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 31, 2016 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Denee' Locke, Barry Rachal, Larry Ramsey, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

VISITORS

Jackie Lansdale, president of Red River United, and Kim Burton with APEL, brought to the Board's attention the involvement of the employee organizations in getting the recent bond renewal passed. She said while they worked hard to convince the employees to support that renewal and that the school board would be there for them, they are not so much convinced of that anymore. After looking at the budget, they believe their backs are against the wall and that the budget is being balanced on the backs of teachers and the classroom, with secretaries and security coordinators being told they must work 10 additional days based on the calendar. She said employees are disheartened and feel disrespected by the possibility of the Board passing this budget. She reminded the Board that the MFP has not been decided and will be in a Special Session, as well as the need to consider a roll forward which will generate approximately \$1 million.

2016-17 CONSOLIDATED ANNUAL BUDGET

Mike Irvin, principal of Oil City Elementary/Middle Magnet School, brought to the Board a proposal for North Caddo Parish that would consolidate Oil City Elementary/Middle Magnet School and Vivian Elementary/Middle Magnet School into one school at the Vivian E/M School site under the new name of North Caddo Elementary/Middle School. He cited the accomplishments of each school while also asked about the future. Being principal of a school (Oil City) that was built in 1925, and the current need for a \$1.5 million renovation to install elevators and making restrooms handicap accessible, it was important to look at the age of the building as well as the other things that needed updating which could become a major expense. Mr. Irvin stated that in looking to be good stewards of taxpayers' dollars, he asks the question of what would be in the best interest of the children. He further shared his suggestion to unify the northern end of the parish and increase opportunities for the children and community by combining the student populations at Oil City and Vivian, housing both on the Vivian school site, beginning in the fall of 2016. Consolidation would mean a school population of approximately 900 students and also opportunities for the students and creating a more united community. He added he believes it will allow more advanced accelerated classes for students, with the State accountability and focus on Carnegie credits in middle school, expand the gifted and talented program as well as the enrichments and electives, as well as share Oil City's very successful environmental science program, combining financials and teacher resources, as well as eliminate a lot of transferring students out of Oil City. Mr. Irvin added this will also add a natural feeder to North Caddo High School and provide a more modern facility for the K-8 school, as well as additional curriculum for Oil City. This could all happen by closing Oil City, closing Vivian, and combining them under a new name, a new mascot, new school colors that would bring both groups together under the name of North Caddo Elementary/Middle School. Facility benefits include better utilization of taxpayers' money, school will be close to capacity, Oil City will benefit from a newer facility, will redirect the funds needed to repair Oil City to other areas. He detailed the problems with the Oil City campus, as well as highlighted the emotion behind closing a school; however, he must separate himself from the emotion and look

at what is best for the O.C. students by providing additional resources and better utilization of funds, creating a stronger feeding pattern to North Caddo High School.

Mrs. Poljak thanked Mr. Irvin for bringing forth a difficult discussion and asked about the distance between the two schools. Mr. Irvin responded 9 miles between Vivian and Oil City.

Miss Green thanked Mr. Irvin for bringing this to the Board and asked about the staffing at Oil City, and Mr. Irvin responded 31 including the principal, assistant principal, librarian. Miss Green asked if there had been any discussion with the principal at Vivian, and Mr. Irvin stated there currently is not a principal at Vivian.

Mr. Rachal also shared his admiration for Mr. Irvin bringing this to the Board and how consolidating our schools can bring more benefits for Caddo's students. In response to Mr. Rachal's comment about preliminary work on this, Mr. Irvin stated that he has not spoken with either community and he is looking at the facts and opportunities. Also, because Oil City is in a slump because of the oil prices, Oil City lost about 40 students; and also, their environmental program has been very successful for the students. Mr. Irvin stated he also has concerns about what you will find if you begin tearing down walls on a building as old as Oil City that will cost even more. Mr. Rachal stated he is in full support of this proposal and asked Dr. Goree his thoughts on this proposal. Superintendent Goree stated that the discussion came about looking at the needs and wants in the Vivian community when looking for a principal, and the community expressed their desire to have a principal that was vested in their community, a principal with strong instructional knowledge of a K-8 school, as well as someone with a good handle on student discipline, all of which Mr. Irvin has. He also said when you have two K-8 schools that are 9 miles apart, one with 500 kids and one with 300 plus kids and a building that is newer and a capacity of over 1,000 students, they believes this makes sense.

Mr. Rachal also asked about the logistics of this happening so quickly, and Dr. Goree responded that because Vivian already has the capability of housing over 1,000 students, staff believes Vivian is prepared to receive the kids. He said if the Board chooses to go in this direction, staff believes it will be a smooth transition. Mr. Rachal inquired about the savings for this proposal, and Dr. Goree said it is about \$.5 million.

Mr. Riall shared, for the benefit of new Board members, that Oil City was once the only K-6 school in Caddo and became a K-6 when a wing was built at Vivian for the 7th and 8th grade to be moved to Vivian. He said when he came on the Board, Oil City expressed an interest in getting back their 7th and 8th grade. Despite meeting some resistance, he reported that they wanted it, they put the Environmental Science Program there which has been extremely successful, so the Board approved adding back the 7th and 8th grade. He further explained that the Oil City program was an extended year program and it was relatively expensive. When budget cuts were being made, they moved it to a year-round program; however, it still did not offer opportunities for students to excel as it had in the past. Mr. Riall added that with the recent changes of moving the 5th grade from Blanchard to Donnie Bickham, and changes in populace with the continued development of I-49, and when looking at the elevator situation at Oil City, a title search confirmed that the land at the school is owned by about 10 different people. Since learning this, the school system began the process of getting the land on which the school sits transferred to the school system and this has been completed. Further as things continue to change, it is apparent that a move is necessary even though he realizes this decision will be a devastating one to the Oil City community. He also noted that this change will address and correct a lot of transportation problems, as well as the fact that we currently, with Donnie Bickham and Herndon as well, have four K-8 schools in close proximity of each other. Because everything in northern Caddo is changing, and he believes this proposal has been well thought out and will offer some great opportunities for the students.

Mrs. Bell also thanked Mr. Irvin for bringing this to the Board, and asked him if he thought the building could become a career center in northern Caddo and enhance opportunities for those students. Mr. Irvin recognized the passion for Oil City School and that he has that same passion; however, he asked himself what is truly best for northern Caddo students, including what is happening at North Caddo High School.

Mr. Ramsey asked with the transformation of Oil City he became a fan and began to see gains and growth. Knowing how hard it is to close any structure, it is good to see those in the community to step up and support moving forward with this type of plan.

Dr. Douzart asked Mr. Irvin if the publishing company still exists in Oil City, and Mr. Irvin said it does. She also reiterated concern over an empty building in Oil City. Dr. Goree explained that in the strategic plan there is a step-by-step plan on managing Caddo's vacant buildings and we will go through that same process for Oil City. Dr. Douzart shared her concern for the community relative to these changes and applauded Mr. Irvin for looking out for those in the community and using his experience and dedication to bring this forward.

Mrs. Locke applauded Mr. Irvin for this unselfish gesture for the community, and she asked, for clarification, and that North Caddo High School is in Vivian and is the high school Oil City students attend. Mr. Irvin said there is a drawing area from North Highlands, Blanchard, Timmons, Mooingsport for Oil City. For high school, some attend North Caddo, some attend Byrd, some Northwood, and some attend Magnet High.

Mr. Riall asked if Vivian presently has a magnet program, and Mr. Irvin said he believes it does. Mr. Riall asked if the new school will carry the environmental science magnet component, and Mr. Irvin said that is correct, and Mr. Riall also asked if the new name would be the North Caddo Elementary/Middle Magnet School, and Mr. Irvin stated not a part of the name, but it would be North Caddo Elementary Middle School with Environmental Science.

Mrs. Brown expressed her appreciation to Mr. Irvin for always being professional and accommodating to work with as she came through the ranks of middle schools at the same time.

Miss Green asked when will it be appropriate to vote on this so work can begin on making this change. Dr. Goree explained that he wanted the Board to look at this today to afford opportunity between today and the June 21st Board meeting to meet with the communities. He said staff will do everything to prepare for June 21st in the event the Board approves this proposal, and will begin immediately on the work required to make the change for the start of the 2016-17 school year. Dr. Goree also thanked Mr. Irvin for this very unselfish act.

Ms. Trammel asked about the staffing, and Mr. Irvin stated the staff at Vivian is larger, but they will be looking to determine any over staffing that may need to be addressed. Mr. Irvin also shared that there is a natural attrition of teachers who come for one or two years and then move closer to town, but there are those who have been there for years and want to stay.

Mrs. Bell shared her concern that in this turn around the communities will meet two times before the Board votes, and she asked if parents, transportation, etc. can all be notified in the month of July. Dr. Goree said yes, because we would be consolidating and a lot of the Oil City students live close to the Vivian site. Mrs. Bell asked about the students from Ida, Hosston areas, as well as the faculty members that will stay or be transferred to other sites, cafeteria and maintenance workers, etc.

Ms. Trammel thanked Mr. Irvin for stepping forward with this proposal; and she believes as long as we notify and hear input from the parents and know what is needed, then we just need to move forward and do what needs to be done to make it happen.

Jim Lee, chief financial officer, stated that today is the second work session for the proposed 2016-17 CPSB Consolidated Annual Budget and he reminded the Board of the timeline and what has to take place to approve a budget in June. Today's work session will focus on the budgeted positions with vacancies, answers to last week's questions, and a presentation on the special budgets.

Mr. Lee stated that staff has continued to work on balancing the budget and doing away with the \$10 million deficit since there is no additional revenue that will come in; and at this time, he must budget conservatively. Since last week's work session, Mr. Lee reported that staff has reduced the deficit from \$10 million to \$931,000, and he highlighted items in the four divisions where additional cuts are being made. He also thanked Mr. Irvin for the proposal he brought forward today, because if the Board approves this consolidation, it will save the District approximately \$.5 million. He stressed to the Board had this not come forward and if additional consolidations are not looked at in the future, there will be no way to avoid cuts that will affect the classroom.

Mr. Lee stated that in responding to Board members' questions from the last budget session, i.e. additional expenditures to the General Fund budget of a Fair Share person (approximately \$60,000), a grant writer (\$110,000) and a lobbyist (approximately \$110,000), these changes will create a recurring expenditure in these amounts with no money coming in to offset or no recommendation of what to cut to allow for these positions. Mr. Lee reminded the Board that while there is not a fulltime Fair Share employee since that position was eliminated several years ago, the District did add this responsibility to the Director of Purchasing. Regarding the request for a grant writer, he also reported there are people in the District and it is part of their job to seek grant funds for the District, i.e. main person is Director of Professional Development and also employees at the schools. In the efforts to reduce costs and balance a budget, Mr. Lee reminded the board that these three positions add to the budget a recurring expense of approximately \$300,000 annually.

Mr. Lee also shared a summary of the special revenue funds that total approximately \$58 million as follows: Child Nutrition Program, \$19 million; Title I, \$17 million; IDEA, \$9 million; and Title 2, \$6 million. He added that these funds, with only a few exceptions, are considered reimbursement funds, i.e. we spend the money first and then seek reimbursement from the State. Also, these funds must be used for specific purposes. While the District can use these funds to supplement what is being done in the General Fund, it cannot eliminate and must follow specific requirements.

Mr. Lee explained that the parishwide capital projects fund receives its funding from two millages, one being renewed in 2013 for 10 years, and the second one recently renewed for 10 years. He reported that capital projects budget is included in this proposed budget and a summary of the Board-approved projects for next year is also included in the information provided. Most of these projects are from the principals since they know the needs at the school, but the funds are also used for critical capital repair needs.

Regarding Debt Service, Mr. Lee explained that these funds are used to pay back the debt from the General Obligation bonds issued over a specific time. He reported there are five property tax mills used to pay these and they are set every year based on the need. The total expenditures in this budget are approximately \$10.5 million, a vast majority of which is the principal and interest paid annually on the outstanding bonds. He also reported we currently have approximately \$79 million in outstanding General Obligation bonds. Also, while the District no longer receives the QZAB funds, the amount budgeted here is to pay back the debt.

Mrs. Bell clarified that she never said Fair Share, but she said since the Fair Share position was eliminated a few years ago, she wants someone already in a position to be assigned the

responsibility of taking care of minority contractors and women-owned businesses. Mrs. Bell also asked for clarification on the grant writer she sees in the budget. Mr. Lee clarified that is what he explained earlier in his presentation and that it is not just a grant writer, but that person is the director of professional development and also has the responsibility of grant writer. Dr. Goree explained that Lisa Lloyd, director of Purchasing, also has the responsibility of Opportunity Caddo; and she has conducted seminars, etc. in this capacity. He said he believes staff can come back with something that is budget neutral and will meet these needs, some of which is already being done, and also do a better job of communicating. Mr. Lee also explained that he put \$60,000 in this budget item because when making reductions staff had eliminated the person who retired; and if we wanted an individual to have this total responsibility, this would be the cost. She also asked about the elimination of jobs, i.e. librarians, library clerks, school secretaries, full-time custodians, bookkeeper, dispatcher, bus aides; and asked if she understands no one will be losing their job and that these positions are currently vacant or those currently holding them will retire. Mr. Lee explained that everything listed as being eliminated is attrition. Dr. Goree confirmed it is a vacancy, a retired person, or we are right sizing and moving people within the District, which we can do without any Reduction in Force.

Mrs. Brown stated her publics look to her to help change things and they are saying we need a Fair Share person. She also shared her concern about the elimination of 15 maintenance workers, and Mr. Lee confirmed these are through attrition vacancies. Dr. Goree stated that he met with small groups of principals, and these are currently vacant positions, and discussed how this will be managed and everyone is confident that it can be done without these 15 people. Mrs. Brown asked about conversations she is hearing about outsourcing, and Dr. Goree explained there is no plan to outsource any position. Mrs. Brown also noted the \$3.2 million in grants that she was a part of as a grant writer/principal/teacher, etc., and this position requires a great deal of time reading, researching and writing. While the Board has within its power to approve this position, Dr. Goree said when you are \$10 million short and adjusting ratios and increasing class size, he questions adding additional positions to Central Office. He understands the position can pay for itself, but this is a concern of staff.

Mr. Ramsey asked if a position is added, he would also like to know what will be eliminated to fund that position. This is a severe situation and another special session is being held in Baton Rouge; and the Board needs to be in a position where it can reasonably make cuts and still provide quality instruction for all the students. In his opinion, he does not believe adding a Central Office position at this time would be spending money wisely, unless a Central Office position is removed from the budget to offset it.

Mrs. Poljak asked how staff determines what the MFP amount will be? Mr. Lee stated he looks at the formula for MFP; and other than enrollment changes each year, the question is if the State will allow the 2.75% increase each year. Mr. Lee reported that districts did not receive the 2.75% increase for 5 or 6 years and last year they gave all K-12 district \$44 million and Caddo's shares was approximately \$2 to \$2.5 million. At this time we have not received confirmation that this will continue; and the attempt to write this amount in the formula was rejected by the Legislature. He did confirm that MFP will be discussed in the Special Legislative Session; however, anything can happen. If they do add it in, we can make that positive change in the budget much easier than if they do not and we have to go back to principals and tell them to cut some more. She also asked Mr. Lee if the \$500,000 for the school closure is a conservative figure and Mr. Lee stated it is. Mrs. Poljak also asked about the \$1.5 million for Oil City renovations out of capital project funds; and if the consolidation is approved, will the \$1.5 million go back into capital projects. Mr. Lee explained none of the changes in Special Revenue, Debt Service or Capital Projects will benefit the General Fund. Mrs. Poljak also asked about the reduction in the Summer Food Program of 42%, and Mr. Lee explained that is what we expect to receive from the Federal Government and it is based on the number of meals we serve, student enrollments. Mrs. Poljak asked if we are feeding fewer children or are we receiving less money

to feed the children? Mr. Lee explained that the Summer Feeding Program is specifically the Summer Food sites over a short period of time in the summer; and with other organizations providing the same services, we are not serving as many children. For example, last summer the District began with between 15 and 20 sites and after a week, that number was reduced to less than 10.

Mr. Rachal referenced the first draft budget and the projected \$10 million deficit and noted that the second draft indicates the inclusion of General Fund reductions. Mr. Lee explained that when it says the reductions were already included, it means there still remains a \$9.8 million deficit. Mr. Rachal asked how many of the budgeted vacancies have not been reduced and the new numbers in the budget. Mr. Lee explained there are three categories where there were a lot of vacancies that have been adjusted. The Special Ed teachers are all funded through the General Fund, and HR and the Special Ed Director look at the actual needs because there is no formula for these teachers like it is for regular ed classroom teachers. Based on their discussion, this number of vacancies was reduced by 20 positions and this was already included in the first draft. Mr. Rachal asked Mr. Lee for a breakdown of the vacancies in each area and how many vacant positions were reduced in each area. Mr. Rachal asked Dr. Goree if staff is still leaning toward Option #3 as far as pupil-teacher ratios. Dr. Goree said they are and have already had some of these conversations with principals because of the time sensitivity with this budget. He further stated that staff believes Option 3 brings about manageable changes in our schools, and the other options would mean too great a loss for the schools. Mr. Rachal asked about the increase in the number of assistant principals. Mr. Lee said he will provide a list of these assistant principals, who are the last handful of former principals that have been placed in positions other than the classrooms. Relative to the grant writer, Mr. Rachal asked if he understands staff's reason for not considering the hiring of a grant writer to be because the benefits do not come back to the General Fund. Mr. Rachal asked if a grant writer brought in \$400,000 and the grant writer cost is \$100,000, is it a bad thing. Mr. Lee said it is not a bad thing, but we currently have employees working on grant writing, and a lot of the publicity we received with the previous grant writer were grants the District would have automatically received, i.e. Federal and State grants where the money is allotted to the District, but the District only had to write the grant to receive them. Mr. Lee further stated that a lot of the grants we received during that time period were Federal funds we receive every year, i.e. Title I, IDEA, Title II. Mr. Rachal stated that he remembers during that time receiving approximately \$3-\$4 million, and Mr. Lee responded that much of that is grants we would have received anyway. Mr. Rachal said he would like to know what we receive that is not a part of what we would receive anyway and would like to see this on a quarterly basis. Mr. Rachal asked about the Central Office budget and the fact that it is approximately the same as it has always been, approximately \$400,000. Mr. Lee explained that Central Services is comprised of three departments ... Communications & Marketing, Information Technology, and Human Resources; and positions have been eliminated in each of those departments. Unfortunately, the total for the benefits in these three departments is a lot and the Board may not see a huge decrease when staff has placed in the budget a 9% increase in healthcare as well as the 25% in retirement. Mr. Rachal stated that he believes the public needs to know that when comparing the first draft to the second draft and the estimated revenue increases by \$1.6 million, that \$1.6 million is from the drug subsidy being moved into General Fund this one time.

Mrs. Locke asked if next year we could revisit the process so the Board receives the budget ahead of time. Mr. Lee clarified that normally staff attempts to get a proposed budget to the Board in advance; however, this year, staff worked on this budget up until approximately an hour before the first work session. Mrs. Locke asked why there is an increase in the number of school counselors as well as school administration. Mr. Lee stated that school counselors are based on the formula, and the school administration numbers include the 9 assistant principals. She also asked about the proposed board room remodel, and Mr. Lee explained it was, but the project has been placed on hold. Dr. Goree stated there have been no changes because the board room

renovation project was approved by the Board in capital projects; however, the time line for implementation has been put on hold.

Ms. Trammel noted that while she understands putting on hold the renovation, it is important that we move forward with the technology piece since the equipment currently being used in the board room needs upgrading to support what we are using. Dr. Goree explained that the technology will happen and the remainder in phases. Ms. Trammel thanked the staff for staying with Option 3, and asked about the lack of a formula for Central Office departments and the large number of clerical persons in one area. Mr. Lee explained that even though the numbers in HR are being reduced, the budget indicates a reduction of 18 to 15 positions; however, that number is not all secretaries, but it also includes 2 benefits specialists, employees who work with the subs. Ms. Trammel said while she understands that having worked in the system, but there are those who do not know that the number includes positions other than secretaries. She also asked if we have a plan where employees are multi-tasking or crossover in job responsibilities, do the employees receive stipends for added responsibilities. Mr. Lee stated if it can be done during the normal work day, then there will be no additional pay. In a situation of adding the Opportunity Caddo responsibilities to a current position, Mr. Lee said he believes that is something that would be sent to Mr. Rahmberg. Dr. Goree stated that is correct if it is something that changes the structure of a position to determine if the pay grade is still appropriate.

Mrs. Brown asked if emergency situations are covered in the budget, i.e. building burning down. Mr. Lee explained that is what reserves are for and why staff does not like to dip into those funds for regular operations and recurring expenses.

Mrs. Bell stated that the explanation about job descriptions and that some may be listed under clerical even if they are a specialized position, i.e. benefits specialist, because this is what she is asking for in the Opportunity Caddo responsibilities. She also expressed her concern about the Career Center and the 48 teachers and teacher aides, and how important this program is for students who may not be college-bound, but need a trade. Also, she thanked Ms. McKinney for explaining to her about the Jump Start program and asked for a report on how Jump Start will be incorporated in the programs at the schools. Ms. Trammel asked if the Career Center uses the same staffing formula as is used for the high schools, and Mr. Lee responded he believes their staffing is based on need, but will check with HR.

Mr. Riall asked about Mr. Rachal's comment that the Board always hears that Central Office is top-heavy, and if every employee is classified as either a certified or classified employee. Mr. Lee stated certified, classified and administrators. He asked if the only staffing formula in the District is for certified (teachers, principals), and how a staffing formula was eluded so long from the Board for all the other positions. Dr. Goree said while he does not know, but did discuss at last week's budget session that it is time to develop a staffing formula for the Central Office and non-school-based positions. Mr. Riall expressed the need to begin addressing these areas.

Mrs. Brown also asked about replacing the Director of Communications and Ms. Trammel indicated we will not.

Mr. Rachal asked about the quantity of positions in the General Fund only and that staff provide funding for all positions in the District because he notices moving Special Ed Director and Supervisors to the IDEA fund. He doesn't want to begin shifting people to other budgets and not really addressing the problem. Mr. Lee stated his disagreement because when someone can be legally paid from a Federal grant, this does benefit General Fund. Mr. Rachal said that he understands while the money may be coming out of General Fund, everyone else is benefiting from it, and Mr. Lee said he hesitates putting new people in grants because the grant may only be for one or two years. Mr. Rachal stated he understands but would like to see where all the positions are funded.

Mrs. Poljak asked if we are only needing to find another \$300,000. Mr. Lee said that is correct and he believes we will be able to find those without further impacting staffing, and he will have this by the next session. Dr. Goree clarified that we will still have to use Option 3 and this would be above that because the gap will still be there after implementing Option 3.

There being no additional discussion, Mr. Ramsey moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:00 p.m.

June 7, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, June 7, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Albritton was absent. Ms. Trammel led the prayer and Pledge of Allegiance.

CAPITAL PROJECTS BID (HILLSDALE)

Mr. Ramsey moved, seconded by Mrs. Poljak, to approve the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Thrash construction, with a Base Bid, for the sum total of \$427,500 for Project 2017-021, "Relocate Alexander to Hillsdale".

Dr. Goree brought to the Board's attention a document placed at their stations that provides additional information on the relocation of Alexander Learning Center to Hillsdale, and he reminded the Board that the District currently receives lease payments from AMIKids for a portion of Hillsdale as well as we will receive lease money from MoonBot Studios for the Alexander property. Miss Green asked if the renovations will be ready by the start of school, and Steve White responded it is staff's full intent to have Hillsdale ready for occupancy at the beginning of the school year. Preliminary meetings have been held with the contractor, and pending Board approval, the contractor will begin work on Wednesday morning with a schedule for completion in 55 days, which is 7-10 days before teachers start. Miss Green asked what all will be done at Hillsdale for this amount of money, and Mr. White explained that the restrooms (3 female and 3 male) must be upgraded in the older part of the facility to make them ADA compliant, general cleanup in the classrooms, re-lamping of all light fixtures, replacing ceiling tiles, reinstalling the air conditioners which were removed when closing Hillsdale to avoid them being vandalized, replacing all exterior doors and frames, re-keying, reinstalling the intercom system, data upgrades, and possibly constructing a severe and profound restroom. Dr. Goree said AMIKids Charter will be located there as well as Caddo's Alexander Learning program. He said it will be an easy transition for some of the Alexander students since AMIKids will be serving over age elementary grade students. Miss Green asked if this amount will cover everything that needs to be done and Mr. White said it will and if the severe and profound restroom is not needed that will be a savings to the total. Staff put it out for bid and this was the low bid for the project.

Mr. Rachal stated he doesn't remember discussing the cost for this renovation. Dr. Goree reminded the Board that when the Board approved closing the Alexander Learning Center and moving forward with the leasing of the Alexander property, it was originally discussed to move the Learning Center to the Ingersoll campus which renovations at Ingersoll would have been a similar cost. Instead it will go to the Hillsdale campus. Mr. White explained that in looking at the renovations in order to move to Ingersoll, there would have also been a need for additional parking because of staffs from the Ombudsman sites and for Alexander. Dr. Goree further explained that the decision to go to the Hillsdale campus was confirmed by the fact that it will create a natural feeder pattern from elementary to middle whereas Ingersoll is a high school program and you would have elementary students on the same campus. Mr. Rachal shared that he likes the transition as well as the staff's wisdom to remove the HVAC and store it to save in that area.

Mrs. Locke asked if when leasing to AMIKids did we know renovations were needed. Mr. White said no renovations were needed for the portion of the building for AMIKids, and these renovations are for our students only. Dr. Goree said these renovations are a result of the MoonBot Studios desire to lease the Alexander School and the need to relocate the Alexander Learning Center, and these renovations are to accommodate the students relocating to Hillsdale.

Mrs. Locke also asked about the shooting range location, and Dr. Goree explained that the active shooter training is being moved strictly to the Linear campus.

Mrs. Brown stated she believes for the cost of these renovations, more is happening on this campus, and Dr. Goree said no because the new wing to be occupied by AMIKids is in great shape.

Mr. Riall asked if the renovation cost will be offset by the lease amount received from AMIKids over the next five years, and Dr. Goree said it will. Mr. Riall asked who handles the utilities and operating costs incurred by the lessee at these two properties, and Dr. Goree responded that they will be incurred by the lessees.

Mrs. Bell defended the administration because they came to the Board and told the Board how much would be saved by closing and only having one Ombudsman site at Ingersoll. Staff also shared with the Board at that time that the students at Alexander will be moved.

Mr. Rachal asked if the \$885,000 lease amount for Alexander from MoonBot will go directly into the General Fund. Dr. Goree responded that it will. Mr. Rachal said he assumes this \$885,000 is in the budget, and staff stated that this amount is over a 5-year period and it is in a lease line.

Mr. Riall asked about the \$885,000 going into the General Fund budget and if the cost to renovate the building will come from Capital Projects, because he believes if it is coming out of Capital Projects, the lease income should go back into Capital Projects. Dr. Goree responded that is a conversation that can be held. Mr. Riall asked that this be looked into. Mrs. Bell said it goes back into Capital Projects, but maybe a little in General Fund to hopefully do something for the employees.

Dr. Douzart reiterated that it will beautify the neighborhood and she is very impressed with what is happening.

Vote on the motion carried unanimously.

CREATION OF CADDO VIRTUAL ACADEMY FOR THE 2016-17 SCHOOL YEAR

Mr. Ramsey moved, seconded by Mrs. Poljak, to approve creation of a Caddo Virtual Academy for the 2016-17 school year as recommended by staff and submitted in the mailout.

Mr. Ramsey stated this is the right time to move forward on this and he appreciates staff bringing it forth. Dr. Goree commented that positive feedback has been received on this locally and from other districts, and staff sees this as a very viable option for children who are not the traditional high school student.

Mr. Rachal stated this has been a long-time coming; and he appreciates how Dr. Goree brought forth this opportunity for Caddo's students.

Mrs. Bell echoed the comments supporting the Caddo Virtual Academy, and she asked that the staff clarify to the media that this is not a magnet school. Once approved, Dr. Goree said staff will do a news release to clarify this offering.

Miss Green asked about the location, and Dr. Goree responded that initially the conversation has been to locate it on one of Caddo's high school campuses; and while no final decision has been made, staff is looking to do this, but will first have four testing sites in the city. The central location will house the principal, counselor and four Core teachers. Miss Green stated she believes the location is important when something like this is put on the agenda for discussion as she would like to be able to respond to questions with accurate information.

Mrs. Brown announced that Captain Shreve and Booker T. Washington have begun some parts of virtual school with the Google classroom.

Vote on the motion carried unanimously.

Adjourn. *Miss Green moved, seconded by Mr. Rachal to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:00 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

June 6, 2016

The **Caddo Parish School Board (CPSB)** met in a budget work session on Monday, June 6, 2016 at approximately 4:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Denee' Locke, Barry Rachal, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. President Trammel led the prayer and Pledge of Allegiance.

VISITORS

James Clifton, Oil City Town Council, requested the elevator and handicapped bathrooms be put back in the plan for Oil City Elementary/Middle, and another option besides the consolidation of Oil City and Vivian be looked into. He doesn't believe this is a win-win situation. With Oil City being a school that is doing well, he doesn't understand why we are not adding a wing rather than moving it 10 miles away to another school. He shared with the Board rumors he is hearing; and asked the Board to remember that a school is not built by educators alone, but it is built by a community and Oil City has worked hard to educate the children and parents by working with the school. Mr. Clifton also shared that he believes the problem is the School Board and the principal that has been there 17 years; because with the legislation in place for almost 30 years, he questions why the elevator and handicap restrooms have not been addressed long before now. He noted schools older than Oil City and in the same vicinity that have an elevator.

Jackie Lansdale, president of Red River United, stressed that schools, hospitals, fire and police protection, and roads are financed through taxes. She asked the Board to think about this in making decisions and have the courage to do what is right for the school district.

2016-17 CONSOLIDATED ANNUAL BUDGET

Mr. Lee, chief financial officer, stated that today is the third budget work session and noted that a copy of the proposed budget has been made available for public inspection in order to meet the 15 day legal requirement if the Board does adopt the budget on June 21st. He reported that the notice will be published in *The Times* in order to meet the 10-day requirement.

Mr. Lee announced that today staff is presenting a balanced budget and highlighted additional cuts in spending to present today's proposed budget with a \$41,000 surplus. He highlighted the changes in the proposed budget presented today from the last proposed budget and that a third and a fourth column were added to reflect where we were in the process last week and today reflecting the changes. He pointed out there was no change in the class size nor the funding for teachers supplies, but additional cuts were made in all expenses in the General Fund where staff felt they were best served, and cuts reflected in regular ed M & S, Special Ed M & S and Vocational Ed travel will not affect the classroom but come from accounts controlled and maintained by Central Office staff, i.e., instructional staff in professional development, inservices, legal expenses, election fees, Finance M&S, security operations and custodial vacancies totaling \$255,000. The remaining amount is incorporated in the consolidation of Oil City and Vivian Elementary/Middle Schools.

In response to a request of the Board to provide staff with additional questions they may have on the budget, using vacancies to balance the budget was a key topic. He explained most of the vacancies are in two areas, Special Ed teachers and Transportation; and staff did not look at these lightly, but looked at every vacant position and determined the need. While we may have 70-80 vacancies in Transportation (bus drivers), it does not mean that we do not need bus drivers. Staff did use some vacancies to help balance the budget; however, staff looked at this prior to

submitting the first draft budget to the Board. Regarding Special Education, Mr. Lee noted there have historically been many vacancies (50-60 annually); but this year the Director and the Human Resource Officer reviewed staffing needs and after looking at the needs, reduced certified positions to 606 from 626. He reiterated that staff used some of the vacancies to help balance the budget and reduce the deficit by approximately \$3.2 million, but this was done at the very beginning of budget preparation. Mr. Lee noted that when staff prepared its first draft budget, the deficit was approximately \$14-\$15 million and staff worked it down to a budget with a \$10 million deficit before bringing it to the Board. In the area of Transportation, Mr. Lee reported there were about 80 vacancies at the end of the school year and staff used approximately one-half of these (approximately \$1.5 million) to help balance. He stressed the importance to not cut vacancies too much because of the needed positions, and staff has done so only to the point that staff feels comfortable in doing so.

Other questions covered the elimination of the Drivers Education Program, and Mr. Lee explained this is an area staff has continued to monitor because it is losing money and the number of students participating declines each year. At this time, he reported students are charged \$400 which is not much less than what local driving companies charge; and if a Board member wishes to bring this program back, it would be his recommendation that our fee be increased to \$475 or \$500. Relative to the vehicles, Mr. Lee reported they are leased and could be retained as staff cars or turned back in and the lease eliminated.

Regarding refreshments and food for meetings, Mr. Lee reported that this is not tracked; and there is an account number set up by the State for school districts to track food and the specific department's M & S account being charged. Staff could do a more in-depth study, which would take some time to do; however, the number of lunch time meetings at which meals are served has been reduced tremendously over the past two years.

Regarding a breakdown of fuel costs, Mr. Lee explained this account is reflected in one of the summary lines in the General Fund ledger and fuel is paid out of two accounts, Transportation pays for buses and some staff cars (approximately \$1 million) and Maintenance (Operations) pays for fuel for their vehicles (approximately \$300,000). With the historical low prices for oil over the past year, Mr. Lee added a positive variance in this expenditure has been seen.

Mr. Lee also reported that in response to the question about provisions made for the smaller high schools to have compatible programs with the larger schools, staff will make sure this happens through the use of contingency teacher positions built in the budget. He also provided a breakdown of staffing at the Career Center in response to Board member questions.

Superintendent Goree explained that in looking at the Drivers Education Program, there is no plan to expand the number of staff cars by using the leased drivers education cars, but if they are used, they would replace some older cars that are at a point of high, recurring maintenance costs.

Denee' Locke asked for clarification when reference is made to "we looked at this", and Mr. Lee explained that early in the process input on needs is sought from principals, supervisors and directors. These persons meet with the chief staff person they report to and review the requests. The division chiefs have the responsibility of looking at the requests to determine what is reasonable to meet the need. At this point, the information comes to him as the Chief Financial Officer, and a budget is put together based on the information received and a decision is made if there is ample revenue to meet the list of needs. Using this year as an example, Mr. Lee reported that the budget process began with an approximate \$15 million deficit and he began to look at those things that did not have a major impact and could be eliminated, i.e. vacancies. He reported that at this point, he met with the Superintendent to share with him where we were in the budget planning; and the budget was returned to the division chiefs with the instruction of getting with their staffs to determine spending cuts. At this point, and with additional cuts, the

proposed budget was developed for presentation to the Board with an approximate \$1 million deficit. One on one discussions with the division chiefs were held and the consolidation, if approved by the Board, will help the budget tremendously. Mr. Lee said he continued to scan the budget to determine if staff was asking for increased amounts from the previous years and the increase addressed to determine the necessity.

Dr. Douzart asked Mr. Lee about the contingency for SPED teachers, and Mr. Lee explained there is money in the budget in the event a need arises at a school so staff can fill that needed position without coming to the Board every time. Dr. Douzart also asked about the professional development director/grant writer and if we will continue to pursue grant possibilities through this position; and Mr. Lee confirmed that is correct unless a Board member makes a motion to add another person. She also asked about the possibility of keeping old cars versus leasing new cars for drivers education, and Mr. Lee responded not only are the vehicles very old, but he believes there are requirements on vehicle age and mileage that must be followed.

Mrs. Poljak asked staff to clarify if MFP for the State is cut by approximately \$44 million, what the District needs to do if these proposed cuts are not made. Mr. Lee said it is his understanding the Board does not wish to make any changes that result in reduction to the classroom; however, if the cuts proposed are not made, it will be almost impossible to do so without affecting the classroom. With a lot of small schools in the District, and because small schools cost a lot of money, the only way to do so, if you don't increase the class size, is look at a major RIF of other employees, but even with that, a big savings would not be seen the first year. He noted that the largest areas with the most employees and the most logical areas to outsource would be transportation and custodial services; but unfortunately both groups of employees pay into the Louisiana School Employees Retirement System; and the LSE law states that if you outsource/RIF/layoff, you must still pay for one year the unfunded liability for that employee. When you have 300 bus drivers and 300-400 custodial staff, this represents several million dollars for the first year. He also explained if the District decides to outsource, the savings will come because the company that wins the outsourcing contract will not pay the benefits we pay. Mr. Lee said another option would be to close/consolidate more schools, possibly five to eight, to save \$4 million; and he does not believe the communities are prepared for that nor could operations make that happen by the start of school in August. Mr. Lee reminded the Board that they are currently moving Alexander, Barret, and, if the Board approves it, consolidating Oil City and Vivian. He also noted Mrs. Poljak's comment regarding State funding and that unless something is done during the Special Session, we will see a reduction in the State funding in addition to sales tax revenue being down and an annual decline in enrollment.

Mrs. Brown asked about projections on fuel cost, and Mr. Lee explained that while gas prices are slowly rising, prices are still much lower than the past 2-3 years. Mrs. Brown asked Mr. Lee about his projection and Mr. Lee said he looks at a small increase as well as where it stands from the budgeted amount last year. Mrs. Brown asked the Board to not close the door on Drivers' Education because she believes there is a definite need. Also, she said she believes the District could get a competent grant writer who could help bring in additional monies for the classroom which would help the budget. She also asked if travel is local or National? Mr. Lee said it is not the local mileage reimbursement, but is for conferences (in state and out of state). Regarding custodial staff, she stated her concern about cuts in the custodial staff and security operations, specifically where the will impact a school. Mr. Lee said he will work with Mr. Woolfolk regarding the custodians; and relative to security, he explained this is an operating account that covers maintaining the software, re-keying, etc. and does not include security coordinators.

Miss Green asked about the Option 3 staffing formula and if she understands correctly this increases high school staffing (grades 9-12) from 25:1 to 26:1 and will smaller schools lose teachers. Dr. Goree responded there will be a smaller loss in the smaller schools; and when there are difficult situations at our small high schools, this is where contingency positions are used to

make sure we offer a quality program and meet the needs at the school. Miss Green expressed her concern that she does not want to lose more students from her schools as a result of the school not offering what the student(s) need. She also asked about the Drivers' Education cars and if a definite decision has been made, because it is her feeling they should be returned and not kept. She asked what the cost would be if they were kept, and Mr. Lee responded approximately \$48,000 a year.

Mr. Riall asked for clarification and if the certified vacancies are mainly Special Education, and Mr. Lee confirmed that is where we have the majority of vacancies. Mr. Riall also asked if he assumes correctly that these are currently being filled with subs, and Mr. Lee responded that is correct. Mr. Riall asked where the money comes from to pay the subs, and Mr. Lee explained there is an allotment in each area for regular ed, special ed, and vocational ed teachers for substitutes, which is not a separate line item, but it is included in the salary number. Mr. Riall asked why subs are not being paid out of money allocated for the vacant positions. Mr. Lee explained that you can eliminate the sub money and keep the money in the teachers, or you can reduce the teacher amount and keep the sub money; but it will all be about the same. Staff eliminated the vacant teacher positions and kept the sub money and subs are paid from that amount. Mr. Riall asked who teaches Drivers Education and how much money will they lose if the Board eliminates this program? Mr. Lee responded mostly coaches, and the amount will be between \$4,000 and \$5,000 a year. Mr. Riall asked if this will be significant to keep or lose coaches; and Mr. Lee said while he does not know, he knows the coaches are also teachers in the system. Mr. Riall asked what Bossier does, and Dr. Goree said he is not sure but can research whether or not Bossier will outsource this program and bring that information back to the Board.

Mr. Green shared that relative to substitute pay, he would like to know if the District has fully qualified teachers that are not regularly employed, and the process for determining if a person in a substitute position can be employed as a regular teacher. To his knowledge, Mr. Lee said he would probably defer to Human Resources but he believes certification would be key when looking to hire subs to fill full time positions. Mr. Green asked if they are certified, who makes the decision to move them into a permanent position? Mr. Lee responded staff will research and provide a response to the Board. Mr. Green asked, when establishing needs in the schools based on principal input, how a situation is addressed if a principal leaves out something for their school. Mr. Lee responded if a principal left out a needed program at this point in the process, it is a good chance it will not be added in the current year without a revision to the budget; and then, staff would let them know the surplus, how much the project costs and what would be eliminated in order to give this to a principal. If after the budget is adopted, basically the same process is followed and a budget revision brought to the Board; however, if brought to staff's attention two or three weeks sooner, staff can look at the possibility of incorporating this into the budget presented for approval.

Mr. Rachal asked for a summary of what has happened since the first proposed budget was presented and how many teacher positions are held in contingency at the high schools? Mr. Lee said there is a contingency of teachers, but it is not by grade level. He asked how many teacher positions there are and how much money does this represent. Mr. Lee responded there are approximately \$1.7 to \$2 million (25 positions). Mr. Rachal asked what amount is being used for certified teachers, and Mr. Lee responded \$71,500 (inclusive of benefits). Mr. Rachal asked if he understands correctly there is approximately \$1.7 to \$2 million in the contingency for teachers as well as approximately 60-80 teachers. Mr. Lee reminded Mr. Rachal that we are not using Special Ed money in this situation because Special Ed dollars are being used to help eliminate the deficit. Mr. Rachal asked about additional contingencies, and Mr. Lee responded there are no other contingencies, but there are contingencies in classified as well. There are also M&S contingencies for emergencies. In saying that the District cannot find Special Ed teachers, Mr. Rachal asked about the 60 vacant positions and how many vacancies do we normally have from year to year. Mr. Lee responded approximately 40-50. Mr. Rachal stated that when

looking at this year's budget and comparing to the previous year, we were over 100. Mr. Goree said that is correct and those positions were figured into that number. Dr. Goree said it is important to leave these on the books because of Human Resources' efforts to provide certified teachers for these positions. Mr. Rachal asked about the average in Transportation vacancies; and Mr. Lee responded that while it has not been 80-90 for long, the school year ended at that number. Mr. Rachal stated his concern that we never fill all the vacancies, but the funds are budgeted for all the vacant positions; then at the end of the year, the money is gone without filling the positions. Mr. Lee explained staff issues this past year in over staffing at some schools, and Dr. Goree added that the two unique things this year were the \$4 million reduction in sales tax and the overage in administrators on campus that were not a part of any budget line item. The Superintendent reported that staff diligently worked last October to clean this issue up since they were not reflected in any line item in the budget when they were removed as principal in one school and placed in another administrative position. Mr. Rachal stated his concern that we budget \$71,500 per teacher (over \$4 million for 60 positions); and if we average 40-50 positions, approximately 10-20 budgeted positions are never filled. While he is not suggesting cutting any vacancies, he believes if we cut the average by half, this would put the District at budgeting approximately 20, and Mr. Lee stated that this reduction has already been made (money associated with Special Ed positions). Mr. Rachal asked how much money did this represent, and Mr. Lee responded it was the \$2 million mentioned earlier in his comments.

Dr. Goree stated that staff did not just look at the vacancies, but Mrs. Atkins and Dr. Lockett looked at the specific needs of the department and determined how to move from a "Cadillac" model and make sure we continue to meet all the needs of the students. He also added he doesn't like to say staff did away with the vacancies, because technically a lot of processes and procedures were revamped and staff ended with \$2.3 million less in services; and the remaining positions are believed to be viable positions and staff's goal is to find teachers to fill them. Mr. Rachal asked how many vacancies are in the current proposal, and Mr. Lee said for Special Ed teachers approximately 20 and he did not want to reduce bus drivers by a lot, because we need bus drivers and are able to fill these vacancies; but, staff did reduce that number by approximately one-half which is the \$1.5 million mentioned. Mr. Rachal asked about the allotment for subs, and Mr. Lee said it depends on which group of subs, regular ed or special ed teachers; but it is approximately \$.5 million. Mr. Lee reiterated the importance of leaving some of the budgeted teacher vacancies in the budget since the District's full-time recruiter will be working diligently to fill these positions with certified teachers. Mr. Rachal stated his concern over the large amount of money built into the budget for vacancies, yet he doesn't understand why we still have these vacancies at the end of the year, but the money has been spent. Mr. Lee reminded Mr. Rachal that revenue dropped this year by approximately \$4 million as well as the increase cost for the charter schools. Mr. Rachal stated that he believes he is hearing we need to continue to make reductions wherever possible and that the public needs to be aware of what the District is facing in the future; and asked what will be done between this budget and next year's budget. As mentioned at the last work session, Mr. Lee said unless the hard decisions are made, i.e. school consolidations, we will continue to be in the shape as long as there is a declining enrollment, as long as the State continues to fund stagnant or reduced, and as long as local spending and sales taxes are down.

Dr. Goree stated that the Strategic Plan outlines the process the District will follow over the next four years to insure we are as fiscally responsible as possible; and in looking at the vacancies from a historic perspective, Dr. Goree said there are some years where those dollars (vacancies) were used to balance a budget even in a system where there were as many as 17 people drawing administrative pay not in a line-item. At this time, staff is working very hard to get to where those dollars are budgeted to be used where they fall in the budget while at the same time asking the Board to make some difficult changes. He further added that the Long Range Development Committee will look at RFQ for energy management when it meets next because this is where the District can look to decrease energy costs and ultimately increase dollars in the classroom.

Mr. Rachal reiterated that unless someone can emphatically show him that a grant writer does not bring in what they are paid, he will still suggest using one of the vacancies and shift that amount to be used for a grant writer.

Mrs. Bell stated her agreement of using contingency teachers to meet the needs in the smaller high schools. She asked if all required courses for a student to graduate from high school will be met, and Dr. Goree said absolutely and is why contingency teachers should not be looked at as extra dollars budgeted but as necessary dollars used to afford every student a quality high school education. Mrs. Bell stated she is aware of teachers not being available to teach such required courses as foreign language and asked that HR direct applicants to the schools where teachers are needed and not just let them choose where they will teach. Dr. Goree explained that a priority for the full-time recruiter will be to work first with priority and zone schools, because these are the schools with the majority of vacancies; and staff will continue to point persons to open spots in those schools. He further stated that teachers some time have the attitude they only want to work at certain schools; and while there is not much staff can do to address this, staff does direct them to where there are vacancies, and some schools who cannot find a teacher use the virtual school program. Mrs. Bell also said she wants to know when parents call about placement of their children in required courses that staff will immediately respond to that need. Dr. Goree responded he does not like to say he will immediately respond, because he does not believe that to be a fair answer; but when principals come and request additional teachers, staff will work with the area directors, HR staffing personnel, as well as with the master schedule, to make sure staff is being as efficient as possible. Mrs. Bell requested a list of 9-12 grade required courses for a high school student to graduate. Also, she is concerned about the safety of all children; and when reporting the large number of vacant bus driver positions, she likes the ability to be able to address issues such as too many children on the bus and would ask that Mr. Jones make sure there are not three students on each bus seat. She also stated she will not agree to eliminate all vacancies in the budget, because she understands the importance of having this availability when teachers and parents approach Board members about a need in their child's school.

Ms. Trammel asked about the reduction in security operations, and Mr. Lee explained again that this does not cut security personnel at the schools but it is the Security Department's operating cost. She also asked about the large number of budgeted vacancies and what schools have the greatest number of vacancies because she would like to make sure the vacancies are spread across the district and not impact one school more than another. Relative to leasing, she asked if a lease is stopped, will it cost the District a large amount of money. Mr. Woolfolk stated that to his knowledge there is not a penalty, but the vehicles would be returned and re-evaluated and a determination made when the vehicle is sold as to any difference in what we owed under the lease and the sale price to determine if there is a penalty to be paid. Ms. Trammel referenced the information provided on the number of students and class sizes at Caddo Career and shared this with other Board members.

Mrs. Brown shared her concern about the Virtual Academy and expressed her gratitude to Captain Shreve and BTW for sending a team to Texas to be trained for Google Classroom which is a part of the Virtual Academy. She looks forward to everyone across the district being offered this opportunity and experience. Dr. Goree stated this will come before the Board on Tuesday for discussion.

Mr. Riall asked Mr. Lee if he remembers correctly that at the beginning of the budget session there were approximately 60 funded certified vacancies and 90 certified bus driver vacancies, and Mr. Lee said that is correct. Mr. Riall asked how long the District has carried funded vacant positions, and Mr. Lee explained for years, but only for the last 2-3 years have we reduced the number of vacancies and used that amount to help balance the budget. Mr. Riall stated that a teacher basically makes \$71,000 for salary and benefits and if there are 60 funded vacant positions of \$71,000 (\$40,000 of which is salary and the remainder in benefits), this means there

is \$40,000 budgeted for that teacher's salary. If that position is filled with a sub, is the salary $\frac{1}{2}$ of the \$40,000, and Mr. Lee responded probably less. If the sub is \$15,000, there remains \$25,000; and if there are 60 positions at \$25,000 and the following year there is another 60 positions at \$25,000, over a period of 7-8 years, that is a lot of money and he questions where the money is that is dedicated to teachers. Mr. Lee explained as stated earlier, this year the District saw a \$4 million reduction in sales tax, and that money was used. Dr. Goree further explained that in looking back to 2010, one can see how those funds have been reallocated around April of each year to cover some uncertain situations that have happened, i.e. the administrators continuing to be paid a principal's salary when removed from that position and the amount was not in a budget column. Mr. Riall asked if the freedom to allocate funds to cover mistakes and inadequacies is cutting the teachers short; because if the money is dedicated to teachers, it should not be used for anything else. Dr. Goree stated his understanding of Mr. Riall's concerns and as we move forward, we must also forecast the budget more realistically so we do not end up in situations where a \$4 million cut in sales tax revenue or million dollar increases to charter school costs hits the district so hard. Mr. Riall said he believes that some of this money should be dedicated to stay in the budget and not be at the discretion to be used in other areas.

Mr. Rachal said he believes if we allocate 30 funded vacancy positions that represent \$2.1 million, the working teachers are paying the price because we do not have all the teachers needed. If 50% of the \$2.1 million is not spent, he believes it would be a wise decision to give the teachers some additional money (not a pay raise). Dr. Goree explained that part of the UVA research indicated one of the issues with the District is the vacancies were in the priority and Zone schools, so technically the money should not go to all teachers, but to the teachers in these schools. He added really it is the children who are paying the price because they do not have a certified teacher in front of them in the classroom. The goal is to get certified teachers, and every effort will be made to do so; and if any type reduction is done with these positions, and wherever you do not have certified teachers, that is where the money comes from to pay them when the positions are filled. Dr. Goree further stated that it is the goal to fill these positions and the District's full-time recruiter has the challenge of doing so; and he agrees with Mr. Rachal that the number needs to be adjusted to a manageable number. One of UVA questions was in looking at a school with seven long-term subs, why isn't the money going to that particular school to provide additional support and provide opportunities for those students. Mr. Rachal said that he believes we do have schools with long-term subs and the funds allocated should be going to those schools; and he asked how the Board can go about dedicating these funds specifically in order to augment the supervision, the teaching, etc. Dr. Goree shared that is one of the things staff is working on and we must first make certain the budgeting process is an actual reflection of what is happening which is something the District has struggled with in the many uncertainties with talent management. Mr. Rachal asked if a motion is needed to make it emphatic that these funds need to go to where there are vacant positions; and if it does not, it should remain in the budget and not be used to fill in elsewhere in the budget. Mr. Lee stated that is a fine line, because would you then be saying there is a need to RIF another group of employees because we can't find the teachers, but we need to leave the money budgeted. Mr. Rachal said that is not what he is saying, but if this were the case, the Board could come back to the budget and make necessary adjustments. Mr. Lee said at this point, he is saying that is what it will take if the Board wishes to leave the money allocated to Special Education, then cuts will need to be made elsewhere to offset it. Dr. Goree reminded everyone that cleaning up the budget is a work in progress and asked the Board to give staff the opportunity to continue in that direction to address all the staffing needs. Mr. Rachal also asked if there are schools with 5 or 6 long-term subs in teacher positions, he believes there must be more than 60 vacancies in the certified area. Dr. Goree said staff can provide additional information and noted that approximately 75% of the vacancies will be found in the District within the Transformation Zone. Mr. Rachal asked when ending the school year, he would like to see a list of the long-term subs, and subs, filling positions that should have been certified. Dr. Goree responded the number should be pretty close to what the number is and is how we can determine the number of vacancies. Mr. Rachal

reiterated his concern that there is a lot of money in the budget (close to \$3 million) not actually spent on what the money is budgeted for. Dr. Goree also reminded Mr. Rachal that anyone on any type of long-term sick leave, maternity leave, will also be noted in this number, but staff will make some adjustments to present this.

Mrs. Bell asked staff if it is known how many teachers are on sick leave and how many days. She said that is a number the Board members need to know so it does not take any money away from teachers. She noted the teachers that have retired, have resigned, are on sick leave for long periods of time; and it is important to protect the students; so she believes it will be Human Resources to let the Board know in July how many vacancies there are. She said she believes if someone would check the number of teachers that retired last year, the number that resigned, etc., it will be larger than what is being held out and this number is needed as a cushion. She encouraged the Board that if it cuts anything to not cut in this area. Mrs. Bell said she can't and won't vote for anything that will cut a teacher or affect the classroom. Dr. Goree stated his agreement with the need to make sure the budget accurately reflects where the dollars are going.

Ms. Trammel cautioned that anytime it is said we can't find \$3 million in the budget, everyone must believe that someone is listening to that and she is one that would want to know where it is. She cautioned everyone in making statements without a clear understanding since there are many that like to say things about the Board in general. It is also important that the Board move forward working to get out of this situation and making an effort to never get in this situation again. She also expressed her appreciation to Mr. Rachal for requesting a summary since the budget work session began so the Board can follow revisions/cuts made to the proposed budget.

Mr. Riall thanked Mr. Lee and staff for the good job in working on the budget. Mr. Green said he is hearing there was a tremendous reduction in taxes and other areas and he believes it would be nice to know to the penny what the District's funds are funding and hopefully not experience the issues currently being experienced. He also stated his joy in the fact that the Board has been able to present the budget in such a manner that it was not necessary to implement a Reduction in Force in spite of the reduction in revenue and increase in expenditures.

There being no additional discussion, the meeting adjourned at approximately 5:45 p.m.

June 7, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, June 7, 2016 at approximately 5:00 p.m. (immediately following the CPSB Special Session) in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Barry Rachal, Larry Ramsey, and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. The prayer and Pledge were omitted.

PRESENTATIONS

Update on Strategic Plan – Finance. Jim Lee, Chief Financial Officer, shared with the Board an update on the Strategic Plan for the area of Finance. Mr. Lee explained that the Randy Watson, director of insurance; Lisa Lloyd, director of purchasing; Kristi Willis, supervisor of accounting/accounts payable; Tasheka Ellison, payroll manager; Kaye Lynch, budget supervisor, and risk manager (currently vacant) all report to him

Mr. Lee highlighted the Finance Division's goal to responsibly address the financial needs of the school system, to maximize utilization of resources and insure financial stability, which means they desire to provide as many services to the schools and to the children as possible and still remain financially stable.

With financial stability leading the list, it is important to spend what is needed in order to provide all the students the best education possible. Another priority is full utilization of grant dollars; and in looking at the proposed special revenue funds, Mr. Lee stated there will be approximately \$60 million in that account in the coming year; and staff is prepared to do anything that can be done to offset the cost to General Fund. He explained staff wants to spend the grant dollars, because anything not spent at the end of the year the District will lose. He added staff also wants to continue to manage the health care liability to the best of staff's ability; as well as maintain the S&P bond rating since the higher the rating, the lower the interest rate on any money borrowed.

Mr. Lee highlighted the two objectives to maximize efficiency and increase financial stability as measured by the percentage of total fund balance to expenditures so in the event of a shortfall in revenues, there is ample money in reserves to cover it. The goal set in policy is 10-15% and the goal for year 2020 is 15%. Action steps for achieving these objectives are (1) develop a balanced budget every year and spend within that budget; (2) fully utilize the State and Federal grant dollars, and staff has begun by moving expenditures to be paid out of appropriate grant funding as opposed to General Fund; (3) develop a five-year plan for an employee pay raise; and (4) reduce healthcare costs.

Mr. Lee reported on achievements/progress to date toward meeting objectives and began by explaining the need to look at the interim targets for fund balance. While the starting target was 13%, he explained there was a drop in 2014-15 with an operating loss so it is 11.5% which is within the policy guidelines; but staff is working diligently to reverse this trend. Mr. Lee also stated that next year's budget is balanced and is fairly conservative with savings built in; and even though the District experienced a setback last year, they believe they will meet their 15% goal by 2020. Relative to the employee pay raise, it first will be necessary to get the finances in order, but assured the Board that staff will continue to work on this objective during the interim time. Since there has to be a funding mechanism for a pay raise, he believes if we stay within the budget in the coming year it will go a long way toward looking at a permanent pay raise.

Regarding healthcare costs, improvement has been seen in pharmacy changes and staff continues to monitor and look at how the plans in place are working, and they are seeing reductions in the

pharmacy cost as well as other benefits. Mr. Lee noted that at this time, there is nothing that will cost the District its “grandfather” status, but staff continues to look at this area and see where the District cost can be reduced.

In the objective to maintain the District’s S&P bond rating of AA-, Mr. Lee stated they will continue to develop a balanced budget which S&P looks at closely as well as be prudent in spending, and continue to grow the OPEB trust. Caddo has done so every year and staff is recommending to only postpone the contribution to this trust for one year in order to help balance the General Fund budget, and begin again next year putting approximately \$1 million in the OPEB trust annually. He added staff met its baseline target; and at this time it is unrealistic to think it will be higher because of the OPEB liability (unfunded liability for retirement and healthcare).

Mr. Rachal asked about Objective 1 and shifting budget items to grants, because he continues to bring adding a grant writer because of the benefits of grants. While he understands there are budget concerns and we do not want to spend any more monies from General Fund than is needed, he asked if hiring a third party to seek grants has been considered. Mr. Lee said he has not and reminded the Board that the Director of Professional Development’s job description includes grant writing. Mr. Rachal said he would like a quarterly report on what we receive in grants including the grant dollars we receive regardless. He also asked staff if the thinking is there is no need to hire a third party for grant writing or would it hurt to put out an RFQ to see what is available. Dr. Goree responded staff can follow through and see what is out there. Regarding healthcare cost, Mr. Rachal asked if we hired a third party company to help manage pharmacy; and Mr. Lee said the District did. Mr. Rachal stated he would be interested in the savings we have seen since this was approved (approximately 4 months ago). Mr. Lee said we have seen savings in the short time this has been in place with the annual pharmacy costs of approximately \$30 million being reduced by \$50,000 to \$100,000; and staff will continue to look at this to determine if any additional tweaks can be made to see a greater savings. Mr. Rachal asked if this is because the company is focused on this one thing, and Mr. Lee agreed; and Mr. Rachal reiterated the purpose of having a grant writer or a third party. Mr. Lee added the difference is General Fund does not pay for the Third Party Pharmacy, but it comes out of the healthcare costs. Mr. Rachal added that is o.k., but it is savings in the District that can be put back into the classroom. Regarding the S&P rating, Mr. Rachal said we do not have control over all the items that make up that rating, i.e. economics; and Mr. Lee stated that is correct. Mr. Rachal asked if he remembers Caddo’s rating going up in the last few years, and Mr. Lee said it has gone up in the last 7 years, going from A to A+ and to AA-. Mr. Rachal asked Mr. Lee how many school systems have a AA rating, and Mr. Lee responded probably 5-7 of the 68.

Mrs. Poljak asked staff about Action Step 2 and what needs to be done to improve the OPEB trust; and Mr. Lee explained some of it is out of the District’s control, because they not only look at healthcare, but also unfunded retirement costs (which was just added to the financial statement this past year). The board could make drastic cuts to healthcare that would help a lot; but it will not help enough until retirement costs are under control. Regarding the unfunded retirement liability, Mr. Lee clarified that the State tells the District what percentage it will pay.

Mr. Ramsey stated he believes Grant Schleuter, bond attorney, made the comment that one can just claim the AA rating and not have to talk about the minus. Regarding the grant writer, he believes at one time the District had a Third Party grant writer and the arrangement was a percentage; and while he doesn’t believe there is anything wrong with bringing in grant dollars, he believes it would be appropriate to review this and see if it is possible to do more with this type of assistance from a Third Party. Mr. Ramsey expressed appreciation to Mr. Lee and his staff for the job done in the area of insurance costs and staying on top, always getting special recognition when audits are conducted each year.

Mr. Riall asked about a network of grant writers specializing in education grants, and Mr. Lee responded that is something they would hope to learn when researching. He added if we hire a grant writer, it will cost the district a salary and benefits; however, if we contract out that service, he believes it will be based on a percentage of productivity.

Mrs. Bell asked for clarification on the director of PD/grant writer position listed in the budget, and if this could be done with the Purchasing director, add Purchasing/Opportunity Caddo to the job description; as well as ask for a Third Party grant writer. Dr. Goree explained it is his understanding the Board wishes staff to explore the availability of Third Party vendors that provide educational grant writing. Mrs. Bell said she would expect the director of PD to be the one that writes and secures grants; and Dr. Goree explained the staff development department has what the District has utilized to get grants, but staff is being asked to research and see what else is available.

Ms. Trammel asked about the objective for a 5-year plan for an employee pay raise. Mr. Lee responded the goal is and has been to take care of the District's employees the best way possible; and a couple of years ago staff presented, and the Board approved, a 2% across the Board increase for employees. Staff continues to look at this, but at the same time realizes that it first must get its financial house in better order.

POLL AUDIENCE

James Clifton, Councilman, Town of Oil City, commended the Board on the great job it is doing, but asked Board members to realize that by closing Oil City School, it will not only hinder children but will hinder the Town of Oil City as well, the same as what happened to Rodessa and Hosston. Mr. Clifton urged the Board to keep in mind when making this decision how it will tear up the town to close this school.

Donald Rowens, Oil City resident, stated they do not want to close Oil City School. He shared that Vivian's school performance is not as good as Oil City's, and Oil City has been recognized across the country for its accomplishments so it does not make since to him. He commended Mr. Irvin for the job he has done for Oil City and the problems that will need to be addressed at Vivian as well. Mr. Rowens said he doesn't understand why, when the Federal Government regulates requirements and has monitored and regulated ADA requirements for approximately 30 years, that these upgrades have not been done at Oil City and a proposal is being considered to close Oil City and consolidate it with Vivian.

Rev. James Sims, Interim Mayor of Oil City, discussed the closing of Oil City School and the magnitude of what it will do to Oil City if it loses its school. He said the Oil City tax base has been stifled by the decline in oil prices; and as oil prices rise, the school is the second best revenue base for Oil City. If the Town now loses its school, Oil City will lose the second largest component of the economic structure. He shared the names of communities he has witnessed die as a result of closure of the school. Rev. James noted he and several are present at the meeting to let the Board know their concern for the economic well-being of Oil City. Having fought for the passage of the recent millage renewal for the Caddo Parish Schools, he said they only want their voice to be heard; and he asked the Board to consider the fact that if it closes Oil City School, it will destroy their town.

Chad Smith, Oil City parent, stated that his son is a straight A student at Oil City, and he asked the Board to consider the students and how they will be affected in moving from their school to a school 10 miles away. He encouraged if the Board likes what is going on at Oil City to duplicate it and not tear it down. While the school is 91 years old, he knows it is aging and he and his family have worked and invested in the school and the community; but they are now being forced to go to Vivian. He also encouraged the Board to ask itself questions such as "why do

parents not trust the CPSB enough to keep their children in the schools”, as well as why has Oil City continued to get T Buildings when this money could have been used to build a new wing. He believes a new gymnasium should be built, as well as a new cafeteria, so they could host North Caddo boys’ and girls’ basketball games, etc.

ESTABLISH AGENDA AND CONSENT AGENDA FOR JUNE 21, 2016 CPSB MEETING

Superintendent Goree presented items for the Board’s consideration at the June 21, 2016 CPSB meeting and the following discussion ensued.

Property and Casualty Insurance Renewals 2016-17. Jim Lee explained that these are not handled by director of insurance, Mr. Watson, but are policies on our properties, i.e., terrorism, liability coverage, boilers and machinery, all schools and sites, workers compensation, etc. Mr. Lee also reported they work with the Agent of Record Arthur J. Gallagher, they go out for the District and bid these with various companies. Some changed from last year and there is no change in the coverage and the total premium is approximately \$13,000 less than it was last year. Mr. Rachal asked why the use of Andrew Gallagher, and Mr. Lee explained that they basically serve school districts all across Louisiana and they shop it and sometimes provide two to three different companies to choose from to write these policies. Mr. Rachal inquired as to why we use a third party for this service, and what the cost is. Mr. Lee explained the cost is built into the premium and we do not write a check to Arthur J. Gallagher, who has the expertise of going out and getting the best possible policy. Mr. Abrams explained that a few years ago the insurance committee met; and while we were using a local company that actually used Arthur Gallagher, it was costing us a fee and Debbie Kappus was able to work with them and save the District \$30,000-\$40,000 in fees by going directly to the company. Mr. Rachal said it is obvious that we gain tremendously by having someone who specializes in this; and the premiums are extremely low even after a \$3 million claim two years ago as a result of a fire and BTW.

Approval of Settlement of Replacement of Building Panels at Donnie Bickham. Mr. Rachal asked for clarification, and Mr. White explained the CPSB will not be out any money on this settlement as the contractor is paying for all of it. He said while the contractors attempted to fix the pre-finished panels, it was not possible; so the best solution was to remove the panels from the west side of the building, replace the damaged panels on the long (south) side of the building with panels that are of the same age and color, and then replace 15 panels on the west side with the best match possible. He further explained staff did receive a quote on this. Mr. Rachal asked why this needed to come to the Board if no dollars are involved, and Mr. Abrams explained because it is a settlement and settlements require Board approval.

Consent to Assignment of Lease BA#001789 JW Operating. Denee’ Locke asked for clarification of this item, and Mr. Woolfolk explained that in the areas where we have mineral rights and have sold those to operators such as J-W Operating, and they wish to sell those to a third party, they must have the CPSB’s consent. The requests are for George Washington Carver property, Norris Ferry Rd. property, as well as the Gayle property (close to Carver). Mrs. Poljak asked if what we negotiated with J-W is only transferred to the third party developer; and Mr. Abrams clarified that it is correct and is what our standard lease requires.

Consideration of CPSB Resolution Petitioning Annexation of Donnie Bickham Middle School into the Boundaries of the Town of Blanchard. Mr. Riall explained that the Mayor of Blanchard approached him about annexing Donnie Bickham Middle School into the Blanchard city limits, the same as was done with Northwood. He said it is a win-win for Blanchard and for Caddo because they will provide streets, lights, water at cheaper rate, police protection, etc.

Consideration of Consolidation of Oil City Elementary/Middle Magnet School and Vivian Elementary/Middle Magnet School at the Vivian Elementary/Middle School site with the new name of North Caddo Elementary/Middle School.

Margaret Brown stated that she has learned the Board has a lot of heart but her heart goes out to those of Oil City because of her similar experience years ago with West Shreveport. Mrs. Brown said she believes before this move is finalized, the Board needs to understand clearly what it is doing and listen to the people of Oil City before a decision is made. She asked if we can provide additional time before a decision is made on this item. Mr. Riall stated the community is very concerned over this situation; and since it did come quick, he doesn't want it to be placed on consent so that it can be discussed in detail on how this decision will affect this town.

Mr. Rachal asked Dr. Goree about the scheduling of meetings with the communities regarding this proposal. Dr. Goree began his response by stating his understanding that these are emotional decisions, but he also understands the mammoth task of managing this school district and making sure we are providing every student with the best possible education we can. He said this conversation has surfaced in the past when discussing how to right-size the school district; and when the discussion came about the elevators, the conversation began on how to fix and do what is best for the future of the School District and this community. From staff's perspective, no meetings have been scheduled but Mr. Irvin is scheduled to meet with community persons on Thursday at North Caddo High School to afford the community the opportunity to express concerns. With the School District facing a \$10 million shortfall, when this opportunity came to staff, and he understands the money aspect is black and white, but the emotional aspect is not, it was a way to balance the budget and live within the tax dollars allotted. He also concurred with Mr. Riall that any topic of this sensitive nature needs additional conversation, and he believes over the next two weeks Mr. Irvin will set times for that to happen. Mr. Rachal asked that the Interim Mayor be provided a copy of the information presented today. Dr. Goree said staff can make sure he receives all the information and that anytime a Board must make these type decisions, there is no projection of the changes that have been seen; but the shrinkage in enrollment has resulted in the closing of approximately 13 schools. He also said the Board has never looked at any situation nor would they put a student where it is not equal to, or better than where they are. Staff will continue to look at ways to create academic opportunities in the new school that will be just as competitive as the students had in the Oil City building. In looking to combine these two schools, Dr. Goree said staff prays it will bring the communities together and hopefully see some type of growth if the Board chooses to move forward in this direction. Mr. Rachal asked that, since the Interim Mayor took the time to attend and share with the Board today, staff contact him and share this information with him. Superintendent Goree stressed to everyone that staff sympathizes and understands the emotional aspect of these decisions and these decisions are not made lightly.

Ms. Trammel asked about the reference that Mr. Irvin will do what needs to be done, because she would like to know what staff is doing. Dr. Goree responded that at this point the effort has been driven from the campus level; and when Mr. Irvin has needed additional information, staff has supported him in that respect. Today two staff persons attended the ministerial alliance meeting to receive and answer questions, but staff has supported the campus in driving the conversation regarding this consolidation. Ms. Trammel noted statements by some Board members that they were blind-sided by this decision and clarified that it did happen quickly, but she wants the communities to understand they are not alone in this. Dr. Goree stated it is staff's responsibility to present these proposals to the Board and there will be a first time that everyone hears it, and it happens that today is the first time those attending may have heard it. Ms. Trammel said she believes the staff must stand together through this process; and Dr. Goree assured the Board that Director Leisa Edwards is walking through this with the principal.

Mr. Riall noted that Mr. Irvin is currently in Colorado with Oil City students, but he will be in attendance at the community meeting on Thursday at North Caddo High School, 6:00 p.m. in the library for a community meeting to answer questions.

Mrs. Bell asked why, since this is affecting Oil City, a meeting has not been called to discuss this. Dr. Goree explained the decision was made to hold the meeting on a neutral site (North Caddo High School campus). Mrs. Bell stated her agreement with Mr. Rachal but she would like for the information to be shared in Oil City. Dr. Goree explained this information is based on what staff has heard and has put together on the benefits of consolidation. Mrs. Bell stated she has worked at Oil City and understands how close-knit the community is. Mr. Riall announced there was a community meeting at Oil City on Monday night, and he did discuss with Rev. Sims the information provided to Board members.

Ms. Trammel stated that several schools have been closed, consolidated, revamped in Caddo; and she believes we have done it fairly; but she reminded everyone we are not about buildings, but education and children, and there will be those that do not like the decisions the Board makes but will have to live with it. She also shared she believes we are at a crossroad at what is attempting to be done in Oil City and Vivian; and while she does not live in that area, the 12 Board members must make the decision for that community.

Mr. Rachal Dr. Goree if he supports this, and he said absolutely, because at this point, this decision is one that is in the best interest of the entire school district, which is his responsibility.

Consideration of Resolution to Adopt the 2016-17 Consolidated Annual Budget

Mr. Rachal asked if it is possible to get anything in the next two weeks relative to a Third Party grant writer. Mr. Lee said while he is not sure there would be something to report in two weeks, staff will move forward and collect data. Ms. Trammel asked Mrs. Bell to add this (Third Party) to the Finance Committee for researching information relative to a Third Party grant writer.

President Trammel announced the following items as the consent agenda: 7.01, 8.02-8.04, 8.06-8.09, and 8.11-8.12. *Mrs. Locke moved, seconded by Mr. Green, to approve the proposed agenda and consent agenda for June 21, 2016 CPSB meeting as submitted. Vote on the motion carried unanimously.*

ANNOUNCEMENTS

Dr. Douzart stated she hopes we will eventually have homework and textbooks online.

Mrs. Bell thanked staff for the information on the number of long-term substitutes and vacancies and provided Board members copies of the information.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:30 p.m.*

June 21, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, June 21, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MAY 17, 2016, MAY 24, 2016, MAY 31, 2016 AND JUNE 7, 2016 (Special Called) CPSB MEETINGS

Mr. Ramsey moved, seconded by Mrs. Locke, to approve the minutes of the May 17, 2016, May 24, 2016, May 31, 2016 and June 7, 2016 (Special Called) CPSB meetings as submitted. Vote on the motion carried unanimously.

RECOGNITIONS AND PRESENTATIONS

Mary Nash Wood, assistant director of communications, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were also recognized.

Shreve Island Musical Group. Fourth grade students from Shreve Island performed musical numbers from their 2016 "Red, White and Blue" patriotic musical show.

I-Sweep International Science Fair. Northwood High School 2016 graduate Hunter Fertenbaugh was recognized for winning a Medal of Honor for his Environmental Maintenance and Pollution Project: "Best Wood for Outdoor Heating and Cooking" at the 9th Annual International Sustainable World (Energy, Engineering and Environment) Project Olympiad (I-SWEEP) Science Fair in Houston, Texas.

2016 National Beta Schools of Merit. Herndon Magnet Elementary/Middle School and C.E. Byrd High School were recognized for receiving the 2016 National Beta School of Merit status.

James Madison Memorial Fellowship Winner. Jennifer Traweek, a Caddo Middle Magnet teacher, was awarded a James Madison Fellowship by the James Madison Memorial Fellowship Foundation of Alexandria, VA. This Fellowship will fund up to \$24,000 of each Fellow's course of study towards a Master's degree.

Newly Appointed Administrators. Charles Lowder, director certified personnel, introduced William G. Fields, Sr. as the newly appointed principal at Sunset Acres Elementary School.

Annual Strategic Plan Update. Carolyn Spaht Gonzalez reminded the Board that she presented the mid-year evaluation in January and that report was much more subjective than the end of the year report, as well as there being no specific mid-year targets. She shared the scorecard as well as the detailed rubric and thanked the staff for the tremendous work in this effort. She said she worked with each department's goal leaders and outlined the base line (using data), the mid-year target (because it was not in the strategic plan), and the end of year targets (for those that were outlined). She said the department goal leaders also provided updates and documentation on the status which she used to create the scorecard as well as the end of year status on each objective. Mrs. Gonzalez highlighted targets on the 30 objectives that were met, targets that were not met but progress made, and targets not reached nor progress made. She also made the Board aware that all the documentation is in a notebook and is available for review in the Superintendent's Office. Mrs. Gonzalez reported that of the 30 objectives, approximately 57% of the targets were met, one objective showed a 3% improvement because the target was not met even though

progress was made, and about 9 objectives did not meet the target nor make progress toward meeting the target. She also reported she could not give a ranking on some objectives because the data was not available yet, i.e. 3rd and 8th grade reading and math; or because the initiative is so new. Mrs. Gonzalez added that she did look at all the action steps for each objective and whether or not the action step was met given the timeline outlined in the Strategic Plan.

Having done this in a number of organizations, both private sector, government and non-profit, she realizes that when first seeing 57% one might not think this is a great number, but putting it in context, (1) it would have been an indication of something wrong in the plan if the District had met 100% of its objectives at this time. (2) Because this is the first year in the plan, she explained that typically fewer objectives are met than in the following year because the first year is getting adjusted to what can and cannot be done with the new initiatives. (3) The main purpose of a metric is not to meet the metric, but to help the organization focus on and measure the areas that will most likely get the organization to its vision. She detailed the Scorecard by Divisions highlighting the goals, the objectives, baseline data (where the District was last school year), the 2020 target, the end of the first year targets, the end of the first year status, progress made, some of the action steps toward reaching the targets, and next steps. She noted that in reviewing the data, she shared the amount of work done in the interim assessment and the reams and reams of data analyzed. She commended the District for the improvement seen in the graduation rates, noted the weakest area being Family and Community Engagement largely because the work was not done at the level expected as laid out in the Strategic Plan, and the need for additional conversation with the principals in this area.

In summary, Mrs. Gonzalez also shared that at this time she believes the District's strengths far outweigh the areas needing intense focus; and the biggest areas of strength are the increase in Kindergarten reading by 36%, 11% increase in cohort graduation rate, STEM initiative and using data to track student performance, hiring and staffing of highly qualified teachers and reduction in surplus and overages, more and better computers, shortened time for school repairs, reduction in property related crimes, decrease in energy costs per student, plans for uses of vacant buildings, and the media coverage. She also stated that areas needing intense focus include Grades 1 and 2 reading, Community and Family Engagement, school buses (accidents and substitute drivers), improved fund balance and the HR data analysis. Mrs. Gonzalez highly commended staff for all the hard work in the first year of implementation; and she encouraged the Board to continue to revise the Strategic Plan annually, to communicate the changes internally and externally, and to measure what is being done through use of a third party.

The superintendent thanked Mrs. Gonzalez for her time and attention to this project as well as her level of expertise from a National perspective and holding the District accountable, because the result is a Strategic Plan with a lot more validity and credibility in the community and within the system. He also noted those areas of red indicating we do have room to grow and he believes staff is up to that challenge.

Mr. Rachal expressed appreciation for the report and for the Superintendent bringing this forward, because he can see where it is helping tremendously. He asked Dr. Goree about the area under #2 "Family and Community Engagement" and the initiative to building trust, because they appear to be linked to one another, and what is being done to help us move forward. Dr. Goree responded that in looking at the objective, we look at how to redefine our objectives so when bringing it back to the Board in August, they are set and they will meet the needs of the community. He noted the changes in the Communications Department mid-stream and constantly trying to determine who was doing what, but this transparent process points this out to those who have been working on this plan. He also added that through the process, they have begun to look at how to redefine the Communications Department and how to effectively deliver information to the community and the stakeholders, which will also be a part of the July-August conversations as the plan is updated. Dr. Goree reminded the Board that the State Department has been in contact with staff regarding the increased cohort graduation rates, and this is something they are seeing across the State.

Mrs. Brown stated that she believes it important that our heads stay on the chopping block a little longer and suggested that there be a second year of this program. Dr. Goree noted that he and staff meet and discuss the Strategic Plan on a regular basis, and there is a lot from evaluating to holding staff members accountable, something staff plans on continuing.

VISITORS

James Clifton Sr., Oil City Town Councilman, first commended the program presented by the Shreve Island choir, and he spoke in support of keeping Oil City's school open. Hearing rumors that this is a done deal, he encouraged the Board to hear from the people before the vote. He noted students attending Oil City out of district because of the school's magnet and if they will be allowed to attend Vivian (North Caddo Elementary/Middle), how will uniforms be addressed (Oil City students do not wear uniforms, but Vivian students do wear uniforms), the distance students will have to ride the bus, et.al. He questions being able to make this happen in two months' time, but thanked the Superintendent and others for taking the time to listen.

Tammy Hawks, Oil City, addressed the Board on the consolidation of Oil City and Vivian schools; and after attending the meetings and hearing all the information, she believes a decision to merge these two schools will be an incredible mistake. She said she believes doing so will bring detrimental consequences to the Town of Oil City; and that the best decision would be to build a new school between the two towns and bring both towns together. If it cannot be done, she asked that the Board consider leaving Oil City where it is and focus on bringing Vivian back up to par until it can be done. She also shared her thoughts on how Oil City upgrades can be made and the funds for elevators be put away for another school. Ms. Hawks noted an email sent to the Board challenging them to visit Oil City and their school so they could make a decision that is in the best interest of the children. Understanding the business and financial aspects, she believes the Board is dedicated to implementing a plan to get back to being financially set and encouraged the Board to vote no on the merging of these two schools and wait until both the educational and community parts of both towns can be served by building a school for both on neutral ground.

Mayor James T. Sims, Oil City, pled with the Board to leave Oil City School open. He said in order to understand what is best needed for a community, he encouraged Board members to visit and know what is going on in their town. Also, while he understands the various issues the Board must address, he stated this decision was made before everyone knew about it and someone should have at least spoken with the City officials to get input. He talked about the economic impact to the Town of Oil City and encouraged Board members to also visit Rodessa, Ida, and Hosston to see how closing a school affected these communities. Mayor Sims asked Board members to consider the people's feelings and look at other ways to balance the budget so Oil City's school can remain open.

Virginia Sims, Oil City educator, stated that closing a school and placing 25 students in one class is putting the children's education at risk. Ms. Sims explained that not all students learn at the same pace; and the smaller the classes, the more one on one time a teacher has with the students. She shared the importance of knowing each student's learning ability and the extra time these students may need. Putting a monetary cost in place over what is best for the students' learning environment does not sit well with the citizens of Oil City, and she asked the Board to think about the children's education and not put a price on their learning.

Jackie Lansdale, Red River United, shared that factors needed to raise achievements include (1) quality of the educator in the classroom (teachers with advanced degrees in the subject areas); (2) teacher pupil ratio (class sizes); and (3) materials, supplies and facilities (communicates to students that we care enough to provide the very best). In talking about accountability, Mrs. Lansdale said this includes everyone; and asked the Board to consider if the District has done due diligence in assuring quality teachers, adequate teacher pupil ratios and materials, supplies and facilities when it comes to raising student achievement. She shared starting salaries in surrounding school districts and how it impacts student achievement. Mrs. Lansdale said with Caddo having the lowest new teacher salaries, she believes this is a strong indicator of why

positions are filled with subs and non-certified. She noted the concerns that those in the education community have regarding the District's current direction and the coming school year without hearing some concrete plans from the Board as the policy makers in how to move the District forward. Mrs. Lansdale also thanked the Superintendent and staff, as well as Committee Chair Larry Ramsey, for beginning the conversation on how to move the District forward.

PUBLIC HEARING ON 2016-17 CONSOLIDATED ANNUAL BUDGET

President Trammel announced the public hearing open on the 2016-17 consolidated annual budget. There being no speakers, Ms. Trammel closed the public hearing.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE JUNE 21, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the June 21, 2016 CPSB meeting and the following discussion ensued. Ms. Trammel announced the following as the Consent Agenda: 6.01-6.04, 7.01, 8.02-8.04, 8.06-8.09, and 8.11-8.13. There being no discussion, *Mr. Ramsey moved, seconded by Mr. Green, to establish the agenda and consent agenda for the June 21, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Ramsey moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the personnel recommendations as submitted in the electronic mailout.

6.02 Personnel Transaction Reports-Resignations. The Board approved the personnel transaction reports (resignations) for May 1-31, 2016 as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The Board approved renewal of Administrative Contracts as recommended by the Superintendent and submitted in the electronic mailout.

6.04 Requests for Leave without Pay. The board approved the requests for leave without pay as recommended by the Superintendent and submitted in the electronic mailout.

Item No. 7

7.01 Consideration of Purchasing Bids. The board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Various bidders for the purchase of Comprehensive Educational Supplies – Catalog; (2) CF Biggs Company for the purchase of Digital Duplicator Supplies; (3) Angus Fire and Safety System for the purchase of Fire Alarm Systems Inspections; (4) John Auzenne, Jr. dba M & M Concessions as the service provider for Concession Sales – Lee Hedges (Caddo) Stadium; (5) Multiple Vendors for the purchase of Milk and Dairy Products; (6) Multiple Vendors for the purchase of Fruit Juice; and (7) Multiple Vendors for the purchase of Bread and Bread Products. *The bid tabulation sheet is filed in the permanent file for the June 21, 2016 CPSB meeting.*

Item No. 8

8.02 Out of State Travel (General Fund). The Board approved the requests for out of state travel as recommended by staff and submitted in the electronic mailout.

8.03 Adopt Millages for 2016. The Board approved the following resolution adopting millage rates to be levied on taxable property in Caddo Parish for 2016, with the total recommended levy being 73.30 mills, as submitted in the electronic mailout.

RESOLUTION

BE IT RESOLVED, that the following millage(s) are hereby levied on the 2016 tax roll on all property subject to taxation by Caddo Parish School Board:

	<u>MILLAGE</u>
Constitutional Tax	7.70 mills
Operations and maintenance	16.77 mills
Operation & Maintenance Support Tax	11.04 mills
Technology Tax	1.23 mills
Salaries & Benefits Tax	19.78 mills
Building & Equipment Tax	6.73 mills
Renovation Tax	5.05 mills
Bond & Interest Tax	5.00 mills

BE IT FURTHER RESOLVED that the proper administrative officials of the Parish of Caddo, State of Louisiana, be and they are hereby empowered, authorized, and directed to spread said taxes, as hereinabove set forth, upon the assessment roll of said Parish for the year 2016, and to make the collection of the taxes imposed for and on behalf of the taxing authority, according to law, and that the taxes herein levied shall become a permanent lien and privilege on all property subject to taxation as herein set forth, and collection thereof shall be enforceable in the manner provided by law.

8.04 Property and Casualty Insurance Renewals 2016-17. The Board approved the property and casualty insurance renewals as recommended by the Superintendent and submitted in the electronic mailout.

8.06 Approval to Name a Wing at Caddo Parish Magnet High School for Mary Rounds. The Board approved naming a wing at Caddo Parish Magnet High School for Mary Rounds as submitted in the electronic mailout.

8.07 Approval of Settlement of Replacement of Building Panels at Donnie Bickham. The Board accepted the settlement offer of \$28,400.81 and authorized the Board President to sign a Property Damage Release of All Claims for the replacement of nine damaged wall panels at Donnie Bickham in Wall Tile Project 2016-225 as recommended by staff and submitted in the electronic mailout.

8.08 Consent to Assignment of Lease BA#001789 J-W Operating. The Board approved assignment of J-W Operating Lease BA#001789 located in Caddo Parish, Louisiana to Aethon United BRLP, a subsidiary of Aethon Energy Operating, as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of CPSB Resolution Petitioning Annexation of Donnie Bickham Middle School into the Boundaries of the Town of Blanchard. The Board approved the resolution petitioning the annexation of Donnie Bickham Middle School into the boundaries of the Town of Blanchard as recommended by staff and submitted in the electronic mailout.

8.11 Consideration of Agreement with Coca Cola for Lee Hedges Stadium. The Board approved the beverage agreement with Coca Cola for Lee Hedges Stadium as recommended by staff and submitted in the electronic mailout.

8.12 Approval of AMIKids Charter Agreement. The Board approved the agreement between the Caddo Parish School Board and AMIKids Charter as submitted in the mailout.

8.13 Proposed Revisions to CPSB Policy GCA: Professional Staff Positions (School Staffing Formula). The Board approved proposed revisions to CPSB Policy GCA Professional Staff Positions (School Staffing Formula) as recommended by staff and submitted in the mailout.

APPOINTMENT OF OFFICIAL JOURNAL FOR 2016-17

Mr. Ramsey moved, seconded by Mr. Rachal, to approve The Times as the Official Journal for 2016-17 as recommended by staff and submitted in the electronic mailout. Vote on the motion carried with Board Member Riall opposed.

CONSIDERATION OF CONSOLIDATION OF OIL CITY ELEMENTARY/MIDDLE MAGNET SCHOOL AND VIVIAN ELEMENTARY/MIDDLE MAGNET SCHOOL AT THE VIVIAN ELEMENTARY/MIDDLE SCHOOL SITE WITH THE NEW NAME OF NORTH CADDO ELEMENTARY/MIDDLE SCHOOL

Mr. Ramsey moved, seconded by Mr. Rachal to approve the consolidation of Oil City Elementary/Middle Magnet School and Vivian Elementary/Middle Magnet School at the Vivian Elementary/Middle School site with the new school being named North Caddo Elementary/Middle School and effectively resulting in the closing of the Oil City Elementary/Middle Magnet School facility in accordance with the information submitted on BoardDocs.

Mr. Ramsey expressed his appreciation for Mr. Irvin's presentation and his leadership. Mr. Rachal echoed Mr. Ramsey's comments relative to the incredible job Mr. Irvin has done at the Oil City School and for the opportunity to duplicate and help the students at Vivian Elementary/Middle School. He said he looks forward to these two schools growing together rather than being separated.

Mr. Riall moved, seconded by Mr. Ramsey, to approve the consolidation of Oil City Elementary/Middle Magnet School and Vivian Elementary/Middle Magnet School at the Vivian Elementary/Middle School site with the new school being named North Caddo Elementary/Middle School and effectively resulting in the closing of Oil City Elementary/Middle Magnet School facility in accordance with the information submitted on BoardDocs; and that a year round school proposal will be provided to the parents and community for approval for the 2017-2018 school year; and to insure the Environmental Science Program support an optional extended summer program will be available for all students during the summer of 2017.

Mr. Riall stated he realizes this is an extremely painful situation for the people of Oil City, as it is for him. He reminded everyone that seven years ago Oil City was changed from a K-6 to a K-8; and he understands the work Mr. Irvin and staff have done to put together a successful program for north Caddo Parish. Also, while he is aware that the people wanted him to make a different motion, he believes if he made a different motion and it failed, there would not be another shot; and his main concern is the students. Mr. Riall said he has met with staff and questioned the decisions to insure the children are protected in this change and they will be given the best opportunity possible. He noted that while he does not like making this decision, it is a decision that is inevitable because of the budget and the fact that the Board is fiscally responsible for the entire District and not just an area. Mr. Riall stated promises have been made in putting together this new program and clarified some of the ideas about what will happen to these students and this school system. He asked the Superintendent about Oil City's year-round program and that part of the motion that provides for an extended year for the 2017-18 school year, but how will this be addressed in the 2016-17 school year? Mr. Burton explained that there was a great deal of concern with the year-round calendar and staff felt that a year-round calendar could not be presented for implementation in 2016-17. Because of this, he further explained an extended school year allowing the students in the Environmental Science offerings at Oil City to continue their participation in these offerings through an extended year. As soon as the school year ends in May 2017, there will be a one-week break and these students will return to North Caddo Elementary/Middle School for a four-week optional camp. Mr. Burton explained Oil City

has established many quality partnerships through the Environmental Science Program, and it is Mr. Irvin's and staff's desire that nothing be done in the consolidation that will hurt these partnerships and reduce the academic offerings to these students. He added that staff sees this as an opportunity to expand those offerings not only to the existing Oil City students but also those who will now be merged through the consolidation of Vivian and Oil City.

Mr. Riall summarized a discussion with Mr. Abrams on the immediate implementation of the year-round program where the Board of Elementary and Secondary Education has policies in place that do not allow us to do this. He further said this is not like Shreve Island where parents have an option to send their students to a year-round school; but it is a decision that must be voted on by the community. Mr. Burton added a feasibility/sustainability study must be a part of the program to implement. Mr. Riall also asked, since Vivian and Oil City each has a full staff, how staff will proceed with merging the two staffs. Mr. Burton explained that all students from Oil City merged into the new school will be counted in the allotment according to CPSB Policy and on the date it is approved staff will begin immediately to support the principal at the school. Dr. Goree stated for the record that in this merger, everyone is promised a job. Mr. Riall asked how the uniform issue will be addressed, and Mr. Burton responded they will look to the communities for selecting the school colors, school uniforms and school mascot; and because of this they will be very lenient on school uniforms, spirit squads, athletic squads that have uniforms. They will provide a dual uniform policy to start and students can wear their existing uniforms for the 2016-17 school year. Mr. Riall asked if students living out of district attending Oil City will be grandfathered into the program. Mr. Burton explained that has been the established precedence of the board when attendance lines change, and mergers take place.

Mr. Riall asked about a family that currently has a third grader yet they also have a student starting kindergarten and will that kindergartener be grandfathered in, and Mr. Burton said Yes because they want to keep the family together.

Mr. Riall asked if these items will be given priority, and Dr. Goree said absolutely and he has walked every step of that school to make certain we are putting every student in the very best educational environment possible. While staff does understand that it is very late in the summer, staff feels very comfortable with having the necessary projects complete before teachers return to school. Mr. Riall asked how staff will deal with the Oil City vacant school building; and Dr. Goree stated while we sympathize with the community and the need for the school to be vital and used, the Strategic Plan outlines a very specific process on how to address vacant buildings and this building will go through that process. He added their goal is to make sure something is done to bring value to the community and that the community is a part of how that facility is repurposed in the community. Mr. Riall also addressed the elevator situation at Oil City and that in talking with Mr. White and the architect, the Fire Marshall turned down the proposal and the architect stated he did not know of anything he could recommend that the Fire Marshall would approve. Mr. Riall also asked if there is a time frame in which the District (the School) must be handicap accessible. Steve White explained this is part of a Federal program implemented 30 years ago and there is a caveat that it can't place an undue financial burden on an entity. He further explained that approximately 10 years ago a meeting was held with the Department of Justice and a proposal submitted committing to installing at least one elevator a year working toward the vertical accessibility problem. A year was skipped at the Oil City School last year under the pretense that two elevators had to be installed; and as this interior renovation project would be so disruptive, it was recommended to combine the money and disrupt the school only one time. At that time, the current consolidation proposal was brought to the table, so the elevators were put on hold. Mr. Abrams agreed and the District has worked to install at least one per year. Mr. Riall asked if understands correctly that it is inevitable the District would have to spend the funds to follow through. Mr. White confirmed that is correct and staff submitted three plans to the Fire Marshall and during the approval process, he did not like any of the alternate plans or the plans for providing emergency egress from the building.

Mr. Riall reiterated a lot of work has been done to put this program together; and he has attempted to clarify by asking these questions so they will be recorded in the minutes because at times things get lost in the translation. He closed his comments by quoting Psalm 15:4.

Mr. Ramsey asked about transportation and if the Transportation Department will be on top of these changes. Dr. Goree responded that even though there has not been a vote to approve, transportation will be part of the discussions and how we will insure students' timely delivery.

Miss Green stated her understanding of what the community is going through with the closure of Oil City, because when she came on the Board, she closed two schools in one neighborhood in her district. She also reminded everyone that it was mentioned we need to make sure the old Oil City School is not an eyesore to the community.

Mr. Rachal stated he believes this to be a good time to allow Dr. Goree to publicly assure the communities of the transition and its completion in a timely manner. Dr. Goree stated that he does his job as Superintendent with a lot of passion and absolutely sympathizes with the community in this difficult situation; and in moving forward, and based on the vote of the Board, staff assures the Board that every effort will be made to insure protection of the children and that all aspects of the school are prepared to receive the children when the 2016-17 school year begins. He also addressed the Oil City community members present assuring them that staff hears them, sympathizes with them; and that every effort will be made to make sure that at the end of this process they feel staff has done the very best it can to repurpose the school located in the heart of Oil City. Mr. Rachal stated that without this assurance, he would vote no; and he asked the Superintendent and staff to be proactive in scheduling a community meeting at the school mid 2016-17 school year to bring the communities together and report to them.

Dr. Goree reminded everyone that this has recently been done in the Highland community and staff will offer brainstorming opportunities with the community and work through the ideas to determine what is the best use for the facility.

Mrs. Brown stated that a function of education is not economic development because she lives in an area that has lost three schools. She asked that in dialogue with the community, the superintendent include things that will help make that area economically sound. Dr. Goree said the school system always acknowledges that the quality of schools in a community has an impact upon those who wish to move into or live in a community. He believes through the School System's work, the effort is made to provide wonderful opportunities for the families and they will work with Mr. Irvin to make this a thriving school in North Caddo.

Mr. Riall stated that Oil City Elementary/Middle Magnet was a national acclaimed award winning school; and the same leadership will be at the new school, so he believes we are looking for some wonderful things to happen; and on the positive side, there will be opportunities for students that they have not had, i.e. sports programs, increased staffing, extracurricular activities.

Vote on the substitute motion carried with Board member R Green opposed and Board members Riall, J Green, Brown, Poljak, Douzart, Trammel, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

APPROVAL OF RESOLUTION ADOPTING 2016-17 CONSOLIDATED ANNUAL BUDGET

Mr. Ramsey moved, seconded by Mr. Rachal, to approve the resolution adopting the 2016-17 Consolidated Annual Budget as recommended by staff and submitted in the electronic mailout.

Mr. Ramsey stated that numerous meetings have been held, it has been thoroughly vetted and he is ready to move forward with the proposal from staff. Mr. Rachal stated that while going through the process, discussions were held to reduce staffing numbers and repeatedly discussed the reduction of the SPED numbers. He added he is unsure if the regular education vacancy numbers had been adjusted. Dr. Goree responded that reductions were accounted for in the staffing formula for the regular education staffing as well as changes in the regular education classroom, which is on tonight's agenda. Mr. Rachal asked about the 128 budgeted teacher vacancies in regular education. Mr. Lee explained there was not any savings figured on the

regular education side, but only on the SPED side, because it will be hard to fill these vacancies. Dr. Goree clarified that the regular education staffing formula will dictate the number of regular education teachers in place; and there was no reduction in positions based on vacancies, but staff looked at how it can be done differently and better meet the needs of the students. He further explained that with 41,000 students, it is a huge feat to fill these positions. Mr. Rachal asked if we have ever filled every position; and Dr. Goree said we have not, but staff works very hard every day to get to this number. Mr. Rachal noted individuals who spoke to the board on the truancy program and requested \$30,000 to help keep the work going; and if we have 50 positions we are not filling each school year, *he would like to set aside a one-time \$30,000 contribution to the Truancy Program by reducing one of the regular education vacant positions.*

Mr. Riall called for a point of order because you cannot make a motion after speaking to it.

Dr. Goree further stated that it is not staff's intent to budget positions and intentionally not staff them; and he asked which school would lose a teacher since it is staff's goal to provide every school with the teachers they qualify for.

Mrs. Bell stated her concerns and that she wants to make sure what she asked for, i.e. Opportunity Caddo responsibilities, are included in the budget, not adding any additional money. Also, in looking at the vacancies, she asked how many employees are retiring this year. Dr. Goree stated that staff can get that information through Human Resources. Mrs. Bell also asked about the number of retirees for this school year, training for para professionals and the need to take care of these things before adding anything to the budget. When talking about reducing the number of funded vacancies by one, she stated her concern for Huntington because they have eight vacant positions and Woodlawn has 16 vacancies.

Mr. Rachal moved, seconded by Mrs. Brown, to amend the budget by reducing the regular education vacancies by one and paying a one-time amount of \$30,000 to the Juvenile Court for Truancy. Mr. Rachal stated this program has been successful and Ted Cox and Clay Walker reported to the Board that over 3000 conferences have been held, over 1800 in-depth conferences held, and approximately 1800 cases prepared for prosecution. With these being Caddo's students that are missing school, he believes it to be counterintuitive to disregard this need. He also noted that the other governmental entities are donating \$30,000 each. Ms. Trammel asked Mr. Rachal if the vacant position being reduced will come from University Elementary, because she has a school in her district with 16 vacancies and she only wants to understand what school will be affected by this reduction. Mr. Rachal said he is not suggesting one school or another because this isn't one school competing against another; and the District always has vacancies. Dr. Goree stated he cannot tell a school it will lose a vacant position because of the Truancy Program; and he suggested the Board consider a deficit budget, if this \$30,000 is worth it to the Board, because staff cannot recommend or support taking a teacher from children.

Mr. Ramsey asked the Superintendent if all the vacant positions are needed and if each one represents a classroom with students in it. He also reminded everyone that the budget is a living document; and stressed the importance, as staff has done, of these positions remaining in the budget. Mr. Ramsey also reminded the Board that to be in compliance, it is required to present a proposed budget to the State by June 30th and the issues being discussed can be brought back for consideration. He asked the Board to support staff by giving them the tools they need, an approved budget, and then have these conversations in the future.

Mrs. Brown stated that at the last meeting the Board was informed it was \$41,000 in the black and that did not come from a teacher. Mr. Lee said that is correct, and Dr. Goree agreed that the Board could approve taking part of that \$41,000 and reallocating this amount without affecting teachers. Mr. Rachal stated that based on Board members' concerns and because Dr. Goree has indicated this could be looked at in the future, he is withdrawing his motion to amend the budget. Mrs. Brown agreed to pull her second to the motion.

Mr. Riall moved to call for the question. Vote on the motion to end debate carried with Board member Brown abstaining.

Vote on the main motion carried with Board member Brown abstaining and Board members Riall, J Green, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that all items listed under Superintendent's Report are for Board members information.

ANNOUNCEMENTS AND REQUESTS

Ms. Trammel reminded Board members that there will be one meeting in July and it will be held on July 19, 2016.

Miss Green stated that she serves as the liaison on the professional employee organization team and reported on discussions held on the maternity policy. She asked that this item be placed on the agenda for July and she will provide a proposed policy drafted by the organizations for consideration and would like for the current CPSB policy to be also added as backup. Ms. Trammel announced her recommendation that this be sent to the Insurance and Finance Committee to review. Miss Green asked if since this is coming from a committee why it is being referred to another committee. Ms. Trammel explained if she desires to bring a policy for the Board's consideration, she is asking that one of the Board's committees look at the proposed policy.

Mr. Green shared his very unique week in that his 91 year old brother was honored at a Veterans Program and on Saturday he had the opportunity to speak at a former student's celebration of 40 years in the priesthood.

Adjournment. *Mrs. Locke moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:50 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

July 19, 2016

The **Caddo Parish School Board (CPSB)** held a retreat on Tuesday, July 19, 2016 at approximately 11:30 a.m. in the Community Foundation's Community Central Room, 401 Edwards Street, Shreveport, Louisiana. Those in attendance were President Mary Trammel and Board members Steve Riall, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, Reggie Abrams, legal counsel, and Mary Nash-Wood, assistant director of communications/marketing. Mr. Riall led the prayer and Pledge of Allegiance.

Superintendent Goree welcomed everyone and shared the importance of the Superintendent and the Board getting together to make sure we are doing the very best job possible to represent the people. He also complimented Board members on the remarkable job the Board is doing in coming together as one voice.

Individual Board members shared their perspectives on longevity on the Board, respecting one another despite differences of opinions, serving on the Board again, importance of committees, etc. Mary Wood led the Board in several icebreaker activities and team building exercises. Dr. Goree led the Board in discussion of the Board's priorities in the District Strategic Plan's goals and objectives.

Legal Counsel Reginald Abrams shared updates on new and proposed policies and policy revisions.

Following closing comments by Superintendent Goree, the retreat was adjourned at approximately 2:30 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary Trammel, President

July 19, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, July 19, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Green led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 6, 2016, JUNE 7, 2016 AND JUNE 21, 2016 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Riall, to approve the minutes of the June 6, 2016, June 7, 2016 and June 21, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of marketing/communications, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Destination Imagination Teams. Destination Imagination Teams from Riverside, Eden Gardens (2 teams) and Caddo Middle Magnet were recognized for winning 1st place in the state tournament competition. Destination Imagination is a creative problem solving organization for youth and young adults whose educational goals are to foster creative and critical thinking, to develop teamwork, collaboration and leadership skills, and nurture research and inquiry skills involving both creative exploration and attention to detail.

2016 National Association of Student Councils' National High School Adviser of the Year. Martha Goza, Captain Shreve High School, was recognized as the 2016 National High School Adviser of the Year. Ms. Goza has served as the Captain Shreve's student council adviser for more than 30 years and has been a part of Captain Shreve since its opening in 1967.

Louisiana Finalists for Presidential Awards for Excellence in Mathematics and Science Teaching. Shannon Southwell, Barret Paideia Academy, and Stefani Farris, Fairfield Elementary Magnet, were recognized as 2016 Louisiana finalists in the Presidential Awards for Excellence in Mathematics and Science Teaching.

Administrative Appointments. Charles Lowder, director of certified personnel, recognized the following administrative appointments: (1) Alton Dozier, assistant principal, Oak Park Elementary/Middle School; (2) Brandy Holcomb, principal, A. C. Steere Elementary School; (3) Beverly Cole, principal, Alexander Learning Center; (4) Marjorie Manuel, principal, Atkins Elementary School; (5) Kristi Young, principal, Booker T. Washington New Technology School; (6) Renata Mahoney, principal, Broadmoor Middle Laboratory School; (7) Dr. Grady Smith, principal, Caddo Middle Career & Technology; (8) Tom Thomas, principal, Herndon Elementary/Middle Magnet School; (9) Tellauance Graham, principal, Huntington High School; (10) Billy Williams, principal, Keithville Elementary/Middle School; (11) Mike Irvin, principal, North Caddo Elementary/Middle School; and (12) Angela Henry, Director of Curriculum.

VISITORS

Jon Glover, employee, addressed the Board on the fact that 21 Caddo Schools are ranked a "D" and 15 schools are ranked an "F" for the 2014-15 school year. Ms. Glover shared her concern that she has continued to come before the Board with issues; however, the results have not changed and the number of students sent out into the world without being properly prepared for

survival continues to grow. She said no feedback of substance has been shared with the people regarding the plight of the school system, and she asks why. Ms. Glover expressed there were those educators who invested in her life so she was prepared and ready to enter the world and could function outside the norm. With failing schools not being an option, no one should accept this. Disadvantaged education continues to persist in Caddo Parish and she noted the demographic makeup of these 36 “D” and “F” schools that should be of concern. Ms. Glover reminded the Board that all are accountable to each other and can stand if united, but will fall if divided. In beginning a new school year, true change is needed and is the key in all students being successful academically.

Whitney White, parent, stated that her children are assigned to Oak Park Elementary; and because Oak Park is a failing school, she doesn't want her children to attend Oak Park. She asked that someone please contact her about the possibility of her children transferring to another school such as Shreve Island or Arthur Circle.

Omari Ho-Sang, concerned citizen and Director of ASAP Shreveport, commended the Superintendent, Board and staff in the recent reported gains in Kindergarten readiness (36% increase) as well as gains in the graduation co-hort (11% increase). She congratulated staff on the use of data to track student performance and continued support for highly qualified teachers. Ms. Ho-Sang also invited all to consider the fact that education should prepare students to acquire knowledge that can directly be translated in the communities in which they exist, which means the community should be a direct reflection of what is taking place within the walls of an educational institution. If others believe this, then she asks where the schools have failed, and if there is hope. She also introduced ASAP Shreveport which is a movement into parts composed of citizens committed to the community of Shreveport and more specifically to stop the killings and start the living. They are committed to addressing this issue by addressing core causes of crime, i.e. lack of employment, inequity in education and economic and health disparity. Ms. Ho-Sang highlighted strategic actions being carried out throughout the City of Shreveport, i.e. volunteer led demonstrations, sitting in on meetings such as this one, training volunteers and engaging in dialogue about the core causes of crime. Through their efforts, she reported they will be in a position to implement a plan that will be a living and breathing platform to create and sustain change for the next century in Shreveport. She presented information on the newly formed ASAP Summer Jobs program through a partnership with the DA's diversion program offering the opportunity to serve boys and girls ages 13-25 years old by training them in job and interview etiquette and creation of a professional resume. ASAP also had dialogue through the City of Shreveport to talk to citizens about their concerns and solutions for implementation. Because education plays a fundamental role in the community, they understand the majority of the victims and perpetrators of rape and homicide are under the age of 18 or between the ages of 18 and 29, and the CPSB has identified family and community engagement as an area needing growth. Also, in order to meet its goals, a school system must have a consistent and compassionate engagement of the community in which it exists, which ASAP hopes to be able to do by integrating citizens and volunteers to address core causes. At their next roundtable, she announced they hope to include the education community in the discussion on August 2nd at 6:00 p.m. at Mamie Hicks Park regarding their relationship with the Shreveport Police Department.

Elizabeth Gibson, Red River United, stated they are pleased the Outsourcing for Facilities Management is being moved to committee.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

President Trammel announced that “Consideration of Outsourcing for Facilities Management” is being moved to the Building and Grounds Committee.

Mrs. Bell asked Legal Counsel if the Board has all information on **CPSB Policy ID DFA “Service Animals in Schools”**, and Mr. Abrams explained this is the Board's policy and it sets

out procedures for determining if a student with a disability has the need for a service animal. The policy covers all service animals and anywhere it could occur within the District. Regarding whether or not a student is entitled to bring a service animal, it must be presented to the school administration who must follow the guidelines set forth in order for it to occur.

Mr. Rachal asked if the **Policy CCA “Organizational Chart”** actually presents more detail on staff and those they report to, and Dr. Goree responded that is correct and noted some of the positions are being relocated to other leadership teams. Mr. Rachal stated he only wants the public to understand that the Board has not added all these positions, but is actually less and the Superintendent has only added showing these to the Org Chart.

Ms. Trammel asked if positions removed from the budget will be removed from the Organizational Chart? Dr. Goree explained some unbudgeted positions are still critical positions to the function of the District and hopefully as savings are seen, some of these may be reinstated.

Mr. Riall asked Mr. Abrams to explain the relationship between the Board, Superintendent and Chief Internal Auditor. Mr. Abrams explained that this org chart is correcting an error made several years ago, and that the Superintendent is really the only employee of the Caddo Parish School Board and the Chief Internal Auditor was listed as reporting directly to the CPSB and not the superintendent; and while the Chief Internal Auditor operates under the Superintendent, the Chief Internal Auditor, in the event there is an issue he cannot bring to the Superintendent, the Chief Internal Auditor can go to the Board President/Board to raise an issue that concerns something the Superintendent may not be able to handle.

Mrs. Bell asked about the **Louisiana Compliance Questionnaire** and Dr. Goree explained that this item is an annual standard procedure the Board must sign.

Revision and Renewal of the Ombudsman Program Alternative Education Services 3-Year Agreement. Jon Glover stated that in her review of this agreement, she would like to know what achievements Ombudsman made with students referred to them; and if Ombudsman is a 4.6, an F, why are we in agreement? She reminded the Board that we had Oak Terrace and Hamilton Terrace, and the Board made the decision several years ago that both were not needed. She again asked what is being done for the children, because she does not see evidence that much is being accomplished. Mr. Rachal announced that there is information at Board member stations on “Bridge to Success” which has a tremendous success rate with dropouts, any and all alternative students. While he understands it is late in the school year to implement this program, he stated he had a conversation with Superintendent Goree and Dr. Goree has assured him this information will be presented and discussed as a possibility next school year. Mrs. Bell stated she is glad it will be for the high schools since students are at school all day long. She also noted the students that graduated last year from the Ombudsman Program and she is excited that students will have this opportunity. Dr. Goree reiterated he and staff are always concerned about the academic success of all programs. He further explained that in looking at AMIKids only working with middle school students, they looked at Ombudsman and how they could be strengthened to serve only high school students. He also reported that the instructional day for these programs has been increased from four to six hours which they believe will be very beneficial to the high school students. Dr. Goree also announced that the District saw a reduction from \$3.9 million to \$1.9 million in the change of the contract. He said it is important that the Board allow the staff the opportunity to implement these changes in hopes of seeing more children graduate.

ADDITIONAL ITEMS

President Trammel announced the need to add an item to the agenda to change the first meeting in August due to conflicting dates with the Southern Leadership Conference in New Orleans July 30-August 2. *Mr. Green, seconded by Mrs. Locke, to add to the July 19, 2016 agenda an item to change the August 2nd Executive Committee Board work session to August 9th. Vote on the motion to add the item carried unanimously. Ms. Trammel announced this item will be 8.10.*

APPROVAL OF AGENDA AND CONSENT AGENDA

President Trammel recommended that the consent agenda items will be Items 6.01-6.02, 7.01, 8.04-8.07, 8.10 and 13.01. *Mrs. Locke moved, seconded by Mr. Rachal, to approve the agenda and proposed consent agenda for July 19, 2016 meeting as presented.*

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Larry Ramsey, to confirm the consent agenda as presented.
Vote to confirm the consent agenda carried and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the personnel recommendations as submitted by the Superintendent in the electronic mailout.

6.02 Personnel Transaction Reports – Resignations. The Board approved the Personnel Transaction Reports for the period of June 1-30, 2016 as submitted in the electronic mailout.

Item No. 7

7.01 Consideration of Purchasing Bids. The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) CDW Government LLC, for the purchase of Cases for Electronic Devices 36C-16. *The bid tabulation sheet is filed in the official papers of the July 19, 2016 meeting.*

Item No. 8

8.04 Consideration of CPSB Policy IDDDFA “Service Animals in Schools”. The Board approved the proposed CPSB Policy IDDDFA “Service Animals in Schools” as submitted in the electronic mailout.

8.05 Consideration of Revision to CPSB Policy CCA-Organization Chart. The Board approved the proposed revisions to CPSB Policy CCA “Organization Chart” as recommended by the Superintendent and submitted in the electronic mailout.

8.06 Revisions to CPSB Policy DLC (Travel Guidelines). The Board approved the proposed revisions to CPSB DLC (travel Guidelines) as recommended and submitted in the electronic mailout.

8.07 Louisiana Compliance Questionnaire. The Board approved the Louisiana Compliance Questionnaire as recommended by staff and submitted in the electronic mailout.

8.10 Change in August 2nd Executive Committee Meeting. The Board approved changing the August 2nd CPSB Executive Committee meeting to August 9, 2016.

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved staff's recommendation for Students D.G. and J.D. as submitted in the mailout and as in agreement with the students' parents.

2016-2017 INTERAGENCY AGREEMENTS & CONTRACTS

Mrs. Locke moved, seconded by Mr. Ramsey, to approve the 2016-2017 Interagency Agreements & Contracts for providing needed services to students in Caddo Parish as recommended by staff

and submitted in the electronic mailout. Vote on the motion carried with Board member Trammel abstaining.

REVISION AND RENEWAL OF THE OMBUDSMAN PROGRAM ALTERNATIVE EDUCATION SERVICES 3-YEAR AGREEMENT

Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed revision(s) and renewal of the Ombudsman Program Alternative Education Services 3-Year Agreement as recommended by staff and submitted in the electronic mailout. Vote on the motion carried with Board members J Green and B Rachal opposed.

SUPERINTENDENT'S REPORT

Superintendent Goree reported that staff is in early conversation with the Shreveport Police Department and Sheriff's Office to insure that students in the System have an understanding and appreciation for the role that the Police provides to our community.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that Walnut Hill High School will be holding its 50th and 51st class reunions this weekend. She also expressed condolences on behalf of the Board to Mr. Ramsey and Miss Green for recent losses in their families. Mrs. Bell also announced that Huntington High School will hold a community meeting Sunday, July 24th at 4:00 p.m. with the new principal.

Mr. Rachal asked that staff provide him with an update on filling the vacancies created by the retirement/resignation of 41 classified personnel and 75 certified personnel. He also announced that he will schedule probably next month a Buildings and Grounds Committee meeting for addressing the Outsourcing

Miss Green expressed her appreciation for the card, thoughts and prayers in the recent loss of her grandmother. She also asked about the plans for moving forward in filling the principal position at Oak Park Elementary School, and announced she will be attending her 10th class reunion.

Mr. Ramsey thanked the Board for the card and other expressions of sympathy in the loss of his father-in-law. He also expressed appreciation for the prayers relative to his health matters.

Mr. Green recognized the event sponsored by Bishop Caldwell's church last Thursday.

Mrs. Locke expressed appreciation to President Trammel and staff for the preparation for a Board mini-retreat held earlier today.

President Trammel asked that everyone be in prayer for our country and those places that are experiencing tragedies.

Adjournment. *Mr. Rachal moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:44 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

August 9, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, August 9, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Board member Denee' Locke led the pray and Pledge of Allegiance.

PRESENTATIONS

Staffing Update. Chief Human Resource Officer Diane Atkins reported 196 new teachers have been hired as of 4:11 p.m., August 9th, all administrative positions (principals and assistant principals) have been filled, and there are only 20 regular education teacher vacancies and 27.5 SPED teacher vacancies. She also reported 160 new teachers attended new teacher orientation Monday, and today there were 165 in attendance. She also thanked Board members who attended the new teacher welcome reception for taking time to welcome and encourage the new teachers.

Recruiting Report. Dr. Karen Peace reported on recruiting efforts since she began in this position in May. Prior to that time, she said Dr. Robinson reported to the Board in December 2015 that there were approximately 108 vacancies throughout the year. In June, Dr. Peace reported 128.5 vacancies in regular education, 66 in SPED; and at this time, the current numbers are 20.5 regular education vacancies and 28 SPED vacancies, with the numbers continually changing as the staff processes new employees. She also added the only caveat is the few positions (11 in SPED and 15 in regular education) considered as vacancies even though they are not advertised as vacancies at the request of the principal and the director, and the request was made because a retiree or long-term sub has brought much expertise to a particular position and has almost completed the certification process and would then be able to remain in the position.

Dr. Peace highlighted action steps implemented to actively promote the District in attracting and retaining teachers. She shared she spent time analyzing the DOE work force report and noted the increase over a three-year period in the number of departures from 325 to 361, and the years of experience these represented. She reported on an on-line survey of all teachers across the District for their input on effective ways to recruit teachers as well as retain them, and also asking them to serve on an Advisory Council related to recruitment and retention. This group has been established and has met to discuss and come up with a plan that lines up with the District's Strategic Goals to promote recruitment and retention of teachers in Caddo Parish. Dr. Peace highlighted action steps implemented, including new concepts to identify future Caddo teachers at younger ages (middle school), community partnerships, ways to expand the relationships with colleges and universities in getting students on our campuses for their observations, student teaching and clinical residencies. She also highlighted the next steps staff will follow, including continued professional development, fall job fairs, Troops to Teachers, new community and college partnerships, and follow-up support in the classroom by visiting the new hires and teachers, etc. Dr. Peace closed by stating that Human Resources is committed to working together with all divisions to support teachers and student achievement.

Mrs. Bell thanked staff for the report on the number of new teachers and expressed her concern over the current vacancies, which is the lowest it has been, with long-term subs in the classrooms. Relative to the report that some vacancies are not listed as vacancies, Mrs. Bell asked what happens when a new teacher comes in and qualifies for one of the positions staffed with a long-term sub, are they told there is not a spot available? Dr. Peace confirmed that is correct and explained that even if those positions are not advertised as vacant, staff will continue

to recruit for those positions so if there is a reason not to keep a retiree or sub in a position, an applicant is available to fill that position. Mrs. Bell stated someone called her that was qualified to fill a position and she wants us to be fair in filling positions. Dr. Goree added staff is also concerned about long-term subs; and he believes some principals have become accustomed to working with some of the subs that have been in long-term positions. The staff over the next year will be training principals on some of the benefits of having full certified teachers which is something the community expects staff to do. He further stated because it has been so difficult for some principals to find certified teachers, they have become comfortable with the long-term subs, which is why staff is working to put programs in place to help them become certified. He noted if this number has not changed in a year, he believes there should definitely be a concern. While she understands, Mrs. Bell stated if she sends her child to school four years to be a teacher and a position is open, she believes we need to be fair. Mrs. Bell also expressed her concern about teachers taking long-term leaves and they are not actually ill.

Mr. Rachal asked Dr. Peace to share some of the major successes in her recruiting efforts. Dr. Peace said it is her belief that the theory behind recruiting is building relationships, making contacts, being dedicated, sending applicants to principals, etc. all help. Mr. Rachal asked about clarification on the Troops to Teachers Program, and she explained Troops to Teachers is an organization that works with any active military personnel leaving the military to coach them into their possible interest in serving in public education and what it would take for them to become certified. Mr. Rachal asked if this program also works with veterans, and Dr. Peace responded if there is an interest, they do. Mr. Rachal asked about exit interviews with teachers, and Dr. Peace responded she understands we do a survey that is required by the State and staff will look at this to determine how it can be refined and used more effectively. Mr. Rachal commended staff for the good job as he has never seen the vacancy numbers this low for the start of school. Dr. Goree supported the comments relative to exit interviews; because, as an organization, this is an instrument that must be used smarter to help redefine the District's practice and make the District more attractive.

Miss Green echoed Mrs. Bell's comments relative to long-term subs and asked Dr. Goree if she understands correctly there are still long-term subs in some places and it is across the District. Dr. Goree stated it would only be in certain schools which staff can provide, and further stated some schools are fully staffed with certified teachers and some schools are staffed with long-term subs in vacancies. Miss Green asked if everyone is feeling the pressure across the District; and Dr. Goree said while he believes that is a fair statement, he doesn't believe it is a fair statement that every school has long-term subs. Miss Green asked Dr. Peace where are the majority of the teachers coming from, and Dr. Peace responded most of the applicants come from the universities in the surrounding area (Louisiana Tech, LSUS, ULM, Grambling, Northwestern, et.al.). Miss Green asked if all 196 applicants are in compliance with state requirements, and Dr. Peace responded all are eligible to hire according to the state guidelines.

Ms. Trammel asked if long-term subs have an evaluation process the same as the teachers. Dr. Peace explained that subs do not have to participate in the formal performance evaluation plan since they are not District employees, but principals do observe them and provide them feedback on their performance. Dr. Goree noted this is an excellent recommendation and the District has piloted this in the Zone schools because it was determined that a large number of long-term subs were located in the Zone schools. Also, professional development will continue to be provided for the subs so they can do their very best possible, i.e. if there is a long-term sub in Biology who does not have a degree in Biology, it is necessary to provide the needed support. He also stated that he believes the long-term sub situation justifies the work done by Dr. Peace in the District to eliminate this problem across the board. Ms. Trammel thanked staff for supporting the new hires and for tracking them during their journey to provide them with support they need. She also asked if principals are satisfied with their staffing, and Dr. Peace responded she has had several who have thanked her for assisting them and she has not received any complaints.

Mrs. Bell encouraged staff to always look at first placing needed teachers in the regular schools and the schools in the Transformation Zone. She asked staff to provide her with a list of all the new teachers and their school assignment; and so schools with the highest number of vacancies can get staffed more quickly, Dr. Peace reported they were moved to the top of the list and staff sent teams to those schools to help them get staffed more quickly.

Community Eligibility Provision Program. Superintendent Goree shared with the Board the opportunity for the District to participate in the Community Eligibility Provision Program which is part of the Healthy Children Act that increases opportunities for children to participate in programs where they eat healthy in schools. He announced Caddo is proposing to offer breakfast and lunch every day to every child in all elementary, middle, K-8 and 7-12 programs. This opportunity will be for over 30,000 students in 51 of Caddo's schools and means students will be spending less time in lines and will offer relief to parents so they do not have to always worry about having money in their child's meal account.

Deborah Harris, director of child nutrition programs, shared her excitement over the opportunity to participate in this program and her belief if children are required to be in school, we should have the responsibility to feed them. She reported that with this program to make available a breakfast and lunch for every child, they anticipate an increase in participation.

Dr. Goree explained the District is beginning with a manageable pilot group of schools; and even though the high schools (9-12) will not participate, students still have the opportunity to participate in the free and reduced-lunch program by completing the necessary paperwork.

Mrs. Bell shared how thankful she is for this opportunity for Caddo's students and how, when she was teaching, she hated when a student did not have money for lunch and was given a peanut butter sandwich. She added she is grateful that all children are afforded this opportunity without filling out applications.

Mr. Riall asked staff how this will affect Title 1 funding. Superintendent Goree explained staff is working with Title 1 and Finance on this aspect, and how Title 1 allocations will be reassessed and noted that several districts in the area have implemented this program and will be used as an example of how to address allocated Title 1 funds. Mr. Riall asked when Title 1 funds are distributed, and Dr. Goree explained they are distributed at the beginning of the school year and the current percentage is 72% economically disadvantaged students. These schools are given their allotment and budget and spend that allotment throughout the school year. The number used to qualify will remain in place for four years for the schools participating in the program.

Miss Green shared how pleased she is with this and asked if this program sends us the food. Ms. Harris explained that Caddo will continue to prepare the food in the school kitchens. Dr. Goree added the program provides a reimbursement to the District based on the allocation of students that qualify for free and reduced lunch and the allocation is enough to cover the cost for all students participating.

Mrs. Locke asked if this program is new and Ms. Harris explained it was initiated in 2010 under the Healthy Hunger-Free Kids Act with a pilot study and in the 2014-15 school year it became available to all states. Ms. Harris added that while nothing is guaranteed, Caddo has agreed to a four-year cycle. Mrs. Locke asked if staffing for the cafeterias will be affected, and Dr. Goree explained we are committed to working with the current staff and how we can work smarter and continue to accommodate the students; and if that changes, staff will come back to the Board.

Mr. Rachal thanked staff for the quick responses to his questions; and asked if, in this change, staff assessed the financial impact due to the reimbursements. Dr. Goree explained that at this

time, staff would be guessing; however, staff did design Caddo's program so we could impact as many children as possible. Also, while the program could be designed to be a profit, staff did not want this to be about that, but about how we service as many children as possible. He further explained that the program was set so the District will be in the black; and the decision to not include high school students because they will do what they want to even if it is free thus the participation at the high schools was not such that justified adding them to the program. He also reported that in visiting with other districts and learning that their participation increased, there could be a profit as a result of participating in the program. Mr. Rachal expressed his appreciation for staff studying this program and implementing it properly, and he looks forward to seeing the results of our participation in this program. Dr. Goree added that the District also participates in several weekend backpack-type programs where students are provided food over the weekend, which he believes speaks to the importance of nutrition.

Mr. Green stated he has lived through many situations and he is overjoyed with providing uniforms and breakfast and lunch for students. He added he believes the next step should be students graduating and attending college should be given free tuition if enrolling in an education teaching program.

Dr. Douzart reiterated the comments about Caddo students getting two nutritious meals each school day. She also stated that we need to stress to students that in order to be productive in the classroom, it is important to eat these nutritious meals.

Mrs. Bell said she would like to see this in the news.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 16, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the August 16, 2016 CPSB meeting and the following discussion ensued.

Out of State Travel. Mr. Rachal asked for clarification on requests for staff to attend SunGard training, and Mr. Lee explained it is an annual training SunGard does for all users; and because we will be going through some major upgrades in the near future, staff will learn what to expect with these changes. Mr. Rachal also asked about the travel request to Washington, D.C. and Dr. Goree responded the highlighted one day of the five is when this employee will be presenting, but staff will provide a written explanation of his request.

Rodessa Demolition. Mrs. Locke asked about the cost for this demolition. Dr. Goree explained this project is part of the Strategic Plan, and Mr. White stated that Rodessa has been closed for approximately 16 years and the condition of the school is one of severe disrepair and is a structure staff deems is not economically feasible to repair. At this time there does not appear to be a future use of the building and the community has asked for a number of years to have the building demolished as it is a blight on the community. Mrs. Locke asked if Caddo has any plans for the property, and Mr. White said he is not aware. Dr. Goree added that there have been concerns and the problem of vandalism and people entering this dangerous structure.

Mrs. Poljak asked if the land might be something the Town of Rodessa is interested in. Dr. Goree explained Caddo will hold onto the land and it will go through the same process to determine if the land has worth to the District and whether or not it should be sold. Also, at this time, the superintendent stated that he cannot answer Mrs. Poljak's question of whether or not the land is something we want to keep and something we want to get off the books.

Mr. Rachal asked if this is in this year's capital projects budget. Mr. White explained it was not a specific line item and is something that will be paid for out of savings from capital projects

incurred over the course of one year. Mr. Rachal asked if staff is asking the Board to vote on whether or not we will receive quotes for tearing it down, and staff confirmed that is correct. Dr. Goree shared that although it was his understanding that if the quotes were within the approved budget, staff could move forward; however, staff will respect the request to get bids and bring it back to the Board. Mr. White stated staff has received some budgetary figures on this demolition project of \$90,000 to \$100,000. Dr. Goree also stated if the Board desires, a minimum amount could be approved by the Board; and in the event we have the quotes in that range, it would be possible to move forward and use our time wisely. Mr. Rachal said he would rather receive bids and Dr. Goree confirmed staff will move forward with that directive.

Mr. Riall asked about a timeline, and Mr. White said it will depend on who gets the bid and their schedule and if staff is going to establish parameters on the project. Mr. White explained it will take a real demolition company to complete this task and if there are parameters it must be done within 30 days, it is possible an increase in price may result. He believes we could give them a timeframe of approximately 30 days.

Mr. Ramsey asked if he understands correctly we are putting parameters on the bids and Dr. Goree said his understanding is we are not putting parameters on the bids and the vote next week will authorize staff to go out and get bids. The Board would vote on a recommendation from staff relative to demolition which is what staff normally does. Mr. Ramsey said if the Board does not like the bid, the bid can be rejected. Ms. Trammel reminded the Board that this particular property has previously been for sale.

Consideration of Cooperative Endeavor Agreement with Volunteers for Youth Justice.

Mrs. Bell asked for clarification and if she understands they will, with the help of the Sheriff's Office, DA and Police Department, monitor the truant situations. Dr. Goree said that is correct and staff is excited to partner with other agencies to provide true wrap-around services and get students back in school. Mrs. Poljak asked if this agreement is the same that Ted Cox and Clay Walker spoke to the Board about, and Dr. Goree said it is not and it is a different endeavor.

Mr. Abrams explained that they coordinated with VYJ who will work with our staff on the program, sharing data with the court and these agencies to determine truant students and why parents are not sending their children to school. He explained this will begin small, approximately 40 schools; and hopefully they will be able to determine what resources are needed to get their children to school. Mr. Abrams said he has talked to police officers, Sheriff's office and City Attorney; and they are all very involved to make sure all law enforcement entities are signing off on the confidentiality agreement so information can be shared among the agencies and the School District. He further stated the program is called TAC (Truancy Assistance Center) and Baton Rouge has tremendously lowered the number of truant students through this program. Dr. Goree echoed Mr. Abrams comments and that Caddo looks to grow this program and see the same success as Baton Rouge. He also stated that the idea has been suggested to repurpose one of Caddo's schools so that all services can be offered at one setting for students and families. Dr. Goree also clarified that District Attorney James Stewart is initiating this program and his efforts to partner with the school district in an effort to reduce trancies and get students back in school.

Mrs. Locke shared she is aware of experience serving on a non-profit board and visiting the VYJ center in Monroe to see how it affects homeless; and the program is an incredible one with all the wrap-around services it offers.

Mrs. Bell asked if the principals and parents will be made aware of this partnership and Dr. Goree responded that yes and especially those parents affected.

Intergovernmental Agreement with Caddo Parish. Mr. Lee explained that this agreement is an opportunity for the District to receive additional revenue via a contract between the Parish/Assessor's office and a company that will look at property taxes to determine any homestead exemptions that may have been filed incorrectly. Mr. Lee introduced Mr. Henington, Parish Assessor, who reported that the company will take and analyze Caddo's tax rolls to see if a person is receiving a homestead exemption and should not be receiving it. This could be someone who has passed away and the family did not file a succession, information which the tax assessor's office does not have access to. He explained the company will submit the information to the assessor's office in the form of a map and the staff will determine if a resident should or should not receive a homestead. At that time, the assessor's office would send them a letter notifying them that their homestead is being cancelled for the previous year. If the resident believes they should still receive the homestead, they would contact the assessor's office to determine the outcome. Mr. Henington shared with the Board how much each one discovered would generate in additional dollars and each tax body would receive their pro rata share. He also explained that every time this company collects this tax, they will bill the parish \$400, so in a similar situation, and the School Board's portion would be \$230 and the School Board would net out \$335; and this is only if the tax is paid and in turn the Parish would bill each tax entity who has receive a portion of that tax. He said this could also kill someone's assessment freeze which would generate extra tax dollars. At this, he explained it is unsure how the Assessor's office will work with the City on this, because the City does not receive homestead money, but they would receive it if the freeze is killed.

Mr. Ramsey asked for clarification on how the dollars transfer hands, because his concern would be the Assessor's office would collect the taxes and then distribute the pro rata share among the tax entities withholding any fees. Mr. Henington further explained that when a homestead is killed, it is determined the homestead should not be in place and the appeal process time has passed, the Assessor's office will write a change order to the Louisiana Tax Commission asking them to change the assessment plus the taxes on that particular piece of property; and when they approve it, they send it to the Sheriff's Office who in turn will send out a supplemental bill to collect the taxes. When the tax is paid, then the Parish gets billed for the \$400, which is for the first year (2015). If it goes back to 2014, the cost would be \$350, for 2013, \$250. Mr. Ramsey asked Mr. Henington how much other parishes are collecting, and Mr. Henington responded that Lafayette completed theirs last year and 4-6% of the homesteads were determined to be invalid which represents a lot of money.

Mr. Riall asked if the focus is primarily to cover homesteads being awarded that should not be, and Mr. Henington confirmed that statement, and to find those residents who are filing homestead exemption fraudulently. Mr. Riall asked how often is property reassessed, and Mr. Henington responded every four years with this year being a reevaluation year. Mr. Riall also noted a number of people who have upgraded or built new homes, but they never changed their homestead exemption. Mr. Henington explained the Assessor's Office has contracted with a company who takes new aerials and overlays the 2008 aerial with the new one to determine if the footprints of the homes match; and if not, how much it has changed.

Mr. Rachal asked if there are any fees after the past years and in moving forward, and Mr. Henington said there are not.

Consideration of Proposed Revision to CPSB Policy IGD-Athletic Policy. Mr. Rachal asked for clarification and if these proposed changes came through staff alone or did they come from Forethought. Mr. Abrams explained this is a staff policy and the main reason this policy was looked at was the M to M Transfer Policy and the question regarding eligibility and what Caddo's policy states versus what LHSAA allows. He stated that he determined the M to M Transfer Rule and the issue addressing homeless children moving frequently and they are protected by the McKinney Vento Act, as well as transfers from academically unacceptable

schools. Mr. Abrams stated the problem is when students in one of the above categories are kept from participating because of an arbitrary rule, so it is being recommended to add Roman Numeral XII which includes administrative transfers which is also the LHSAA rule and would address transferring between two Caddo Parish Schools. This change will address how this rule is applied throughout the State and Caddo will be on the same level as everyone else. Mr. Abrams also reported that he met with Mr. Tisdale to review and Mr. Tisdale met with the coaches to review proposed revisions and noted the major changes address outdated language, compliance with girl teams, Title IX guidelines, etc. It also addresses the Varsity Sports Seasons and lists which sports are fall sports, etc. Dr. Douzart thanked Mr. Abrams for his explanation.

ESTABLISH THE AGENDA AND THE CONSENT AGENDA

President Trammel announced that Items 6.01-6.03, 8.01, 8.03, 8.05-8.08 and 13.01 are the consent agenda. *Mrs. Locke moved, seconded by Mr. Green, to establish the agenda and the consent agenda for the August 16, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.*

SUPERINTENDENT'S REPORT

Dr. Goree invited Board members to attend the Ring the Bell event on the first day of school on Monday, August 15, 2016 at 9:00 a.m. at North Caddo Elementary/Middle School.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the Board on the reported 196 new teachers and asked to be provided this list; and she also asked since she asked for this information via a public records request, she has only received 106 teachers. She also addressed the Board's conversation on substitute teachers and retirees in the classroom and encouraged the Board to ask where they are and make certain these are highly qualified, as well as published as a critical shortage area. Mrs. Lansdale also stated that the MFP numbers are in and we know that \$40 million we had a couple of years ago has been cut, and for a couple of years Caddo had \$2,398,486 and this year, \$1,182,082 was received after a shortage of \$1,216,404. She also made Board members aware that one of the local members of the Legislative Delegation stated that Louisiana districts are paid too much in comparison to other states and encouraged them to look at this and contact Legislative members about this.

ANNOUNCEMENTS

President Trammel announced that thank-you notes were received from Jasmine Green's and Larry Ramsey's families.

Mr. Rachal asked staff to provide him an update on transportation since time has been added to the school day (before and after school) which has shifted the pick-up and drop-off times. Dr. Goree stated staff will provide a written response.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:15 p.m.*

August 16, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, August 16, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey was absent due to illness. Mrs. Locke led the prayer and Pledge of Allegiance followed by the National Anthem sung by Taylor Lafitte from Southern Hills Elementary.

CONSIDERATION OF MINUTES OF THE JULY 19, 2016 AND AUGUST 9, 2016 CPSB MEETINGS

Mrs. Locke moved, seconded by Mr. Rachal, to approve the minutes of the July 19, 2016 and August 9, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of communications/marketing, on behalf of the Board, recognized the following students and staff members. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Kids State Dinner Introductory Speaker. Samuel Davis, student at Caddo Middle Magnet, was recognized for being invited by First Lady Michelle Obama to introduce her at this year's Kids State Dinner. He first met the President and First Lady at last year's Kids State Dinner upon winning the Healthy Lunchtime Challenge. He was applauded for representing Caddo Parish Public Schools, the City of Shreveport and the State of Louisiana in Washington, D.C.

American Legion Boys Nation. Andrew Miramon, senior at C.E. Byrd High School, was recognized for being selected to attend the American Legion Boys Nation in Washington D.C. and serving as a Senator from July 22-29, 2016.

Minority Business Opportunity Awards Top Business Professional of the Year Winner. Renee Ellis was recognized as the Greater Shreveport Chamber of Commerce's 2016 Top Business Professional of the Year at the annual Minority Business Opportunity Awards event.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators, congratulating and welcoming them to their new positions. (1) Tyron Lacy, principal, Caddo Virtual Academy; Crystal Barnes, assistant principal, Booker T. Washington High School; (3) Kenya Claiborne Roberts, assistant principal, Fair Park High School; (4) Seretta Johnson, assistant principal, Green Oaks Performing Arts Academy; (5) Justin Steele, Title I Instructional Technologist; and (6) Tonya Evans, supervisor, Title I School Compliance & Program Improvement.

VISITORS

Jackie Lansdale, president of Red River United, addressed the failure to appropriately fund salaries in Caddo. In talking about closing the academic gap in low performing schools, she applauded Caddo for the yeoman's job with less than optimal resources; but noted that many of the classrooms are still dependent upon substitutes and retirees even with 196 new teachers when a number of positions were reduced in the budget. Mrs. Lansdale said the teacher turnover cost is hidden in this, approximately \$10,000 (on the low end per teacher to rehire and retrain), which means an approximate \$2 million cost for Caddo. Adding that the employees in Caddo deserve better than to be the lowest paid in the region with no substantial pay increases in a number of years, and insurance costs steadily increasing, she asked the Board to recognize that when it fails

to recognize stale and stagnant salaries, they will be forced to make other choices. Another hidden cost is the correlation between salaries and teacher retention; and with the hiring of 196 new teachers, Caddo still has the lowest new teacher pay, and she cited the starting salaries for teachers in the surrounding parishes. As the president of the largest organization in this district and the state of Louisiana, Mrs. Lansdale said it is her obligation to request that the Board begin the process of seeking a tax increase for the purpose of salaries; because a substantial pay increase is the number one priority of teachers and school employees of the Red River United.

Omari Ho-Sang, director, addressed the Board on ASAP Shreveport (All Streets All People) and their call for all geographies, citizens, entities and agencies to work together to create urgent change. She explained that ASAP was developed in response to an increase in homicides, many of which involved young people under the age of 18; and they do not want to just address the crimes, but the core causes of these crimes, part of which is inequity in education. She stressed the urgency in addressing and solving the inequities in the school system, as well as treating the community as the stakeholders they are. Ms. Ho-Sang also congratulated the school system on participating in the program to pilot free nutritious meals for Caddo students, but questioned what good are free nutritious meals for those students who do not have them when they get home. She also shared a quote noting the difference in training versus collaboration.

Paul Lockard, mayor of the Village of Rodessa, expressed his appreciation to the Board for their support of the demolition of the Rodessa school building which has been a blight and liability to Rodessa for a number of years.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 16, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and President Trammel announced Items 6.01-6.03, 8.01-8.08 and 13.01 as the consent agenda.

Mrs. Bell moved, seconded by Miss Green, to establish the agenda and consent agenda for the August 16, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout.

6.02 Personnel Transaction Reports (Resignations). The Board approved the Personnel Transaction Reports for the period of July 1-31, 2016 as submitted in the electronic mailout.

6.03 Request for Leaves. The Board approved the requests for leaves as submitted in the electronic mailout.

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the request for long-term use of Eden Gardens Elementary as recommended by the Superintendent and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Mental Health Interagency Agreements and Contracts. The Board approved Mental Health Interagency Agreements and Contracts for providing services to Caddo students as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Demolition of Rodessa Campus. The Board approved the demolition of the Rodessa campus utilizing funds from Capital projects savings not to exceed \$100,000.

8.05 Consideration of Cooperative Endeavor Agreement with Volunteers for Youth Justice. The Board approved the Cooperative Endeavor Agreement with Volunteers for Youth Justice as recommended by staff and submitted in the electronic mailout.

8.06 Intergovernmental Agreement with Caddo Parish. The Board approved the Intergovernmental Agreement with Caddo Parish as recommended by the Superintendent and submitted in the electronic mailout.

8.07 Resolution in Support of Participation in Community Eligibility Provision Program. The Board approved the resolution in support of Caddo's participation in the Community Eligibility Provision Program as recommended by the Superintendent and submitted in the electronic mailout.

8.08 Consideration of Proposed Revision to CPSB Policy IGD-Athletic Policy. The Board approved the proposed revisions to CPSB Policy IGD-Athletic Policy as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for Students N.K., D.R., and G.T. as submitted in the mailout with agreement of the students' parents.

SUPERINTENDENT'S REPORT

Superintendent Goree thanked the community, the School Board, all the schools and everyone involved for a wonderful, smooth opening of the 2016-17 school year. He also thanked the new North Caddo Elementary/Middle School for hosting the wonderful "Ring the Bell" ceremony on Monday to kick off this new school year and open this new school.

ANNOUNCEMENTS

Mr. Riall expressed appreciation to the Superintendent and staff for the Ring the Bell ceremony at the new North Caddo Elementary/Middle School and to the two communities that worked together on this difficult situation. He also thanked the Green Oaks JROTC for their participation in the Shreveport Air Radio Control War Bird Fly In this past weekend.

Ms. Trammel announced that Mr. Ramsey was unable to attend today's meeting and asked that everyone remember him during this time.

Ms. Trammel also announced that today is Dottie Bell's birthday. Reggie Abrams led everyone in singing happy birthday to Mrs. Bell, and other August birthdays.

Adjournment. *Mr. Riall moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 5:09 p.m.*

September 6, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, September 6, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Barry Rachal, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Board member Barry Rachal led the prayer and Pledge of Allegiance.

PRESENTATIONS

JumpStart. Ellyn McKinney, director of professional development, shared information on JumpStart, a pathway to Louisiana's new diploma. She explained that beginning with the cohort of 2018 (this year's rising Juniors), Louisiana students will pursue one diploma with multiple pathways for achieving that diploma, i.e. TOPS University Pathway and the JumpStart Pathway. She further explained that the JumpStart Pathway also offers students with disabilities (Act 833) as well as the LAA1 students (students with significant disabilities) the opportunity to earn a standard high school diploma. While the previous Options Program also offered an opportunity toward credentials, it did not involve industry and business partnerships in its development; and with JumpStart, business and industry partnerships have been at the hub of aligning the work students will do and provide appropriate courses that lead to industry-based credentials. The opportunities for students to earn credentials under JumpStart include 47 different career pathways and within the 47 pathways, there are more than 100 offered credentials. Students will also be able to master academic content (23 credits) and nine of those credits are from CTE courses that align with the credentials students will earn. At this time, Mrs. McKinney stated that all Caddo Parish high schools offer the opportunity for students to earn credentials and work toward the JumpStart TOPS Tech half-way to the diploma. She also reminded the Board that the Strategic Plan goal is to add an additional pathway at each of Caddo's schools next year with approximately 350 rising Juniors pursuing the JumpStart Pathway this year. She reported that accountability points are awarded for the JumpStart Pathway just as with the University Pathway plus the opportunity to earn some of the highest accountability points for Caddo's schools. Mrs. McKinney further stated that Caddo Parish Schools provide opportunity for extensive training for its teachers and the opportunity to learn through internships as well as externships where they partner with business and industry to actually see what business and industry professionals today are required to do to attain a high need, high wage job. Opportunities are also offered for students to earn credentials in 16 of the 47 approved pathways, and the ability to take advantage of an extensive connection to post-secondary work (two year college, technical school or career launch).

Mrs. Bell asked if Pathways is for students with a career plan? Mrs. McKinney responded not necessarily because a JumpStart Pathway usually leads a student straight into a Junior College and could possibly be students who truly do not know what they want to do when they exit high school. If that is true, rather than going to a four-year college and have a failing experience, they have earned credentials and when they walk out of high school, they have a document (high school diploma and a list of credentials) stating what the student can do making them more employable. Mrs. Bell asked if the student could attend a four-year college and Mrs. McKinney explained that the work toward entry into a four-year university requires advanced courses; and, the coursework in the JumpStart Pathways prepares the students for a two-year experience rather than starting out in a four-year college and being required to take remedial courses. Dr. Goree also stated that it depends on the individual college's requirements for entry.

Mr. Riall asked if JumpStart is part of the career diploma program, and Mrs. McKinney explained it was in the past; but we now have one diploma with an additional pathway to attain it.

Mr. Rachal asked if students taking the JumpStart Pathway will not necessarily have to attend a two-year college, but could qualify to attend a four-year college, and Mrs. McKinney confirmed that to be correct. Also, because colleges have different requirements, Mr. Rachal asked is it correct to say that the norm would be they would not get in a four-year college? Mrs. McKinney responded that students would need to discuss this with the high school counselors. Mr. Rachal asked that staff impress upon students and parents that if they do choose the alternate pathway, it is possible they may not meet all the requirements for entrance into a four-year college. Dr. Goree responded that some reorganization has taken place to increase the training for high school counselors so they can and will have those conversations with students as they make decisions on which diploma track to follow. Mrs. McKinney further explained that students that choose the JumpStart Pathway might choose to take a technical English as opposed to English IV, or a more technical math than an Advanced Math, which is a new requirement for a student desiring to enter a four-year college. She reiterated that counselors are being trained to talk to parents and students about making these choices and to walk them through exactly what they need to do to get to a specific outcome. Mr. Rachal asked if the State is working with the State's four-year colleges to implement two-year programs; and while Mrs. McKinney could not confirm that, she did say they are working closely with the Board of Regents regarding an external component. Dr. Goree added that at the last Superintendents Advisory Council meeting conversation took place around the structure of Louisiana's colleges and universities being the opposite of what it should be – Louisiana has a high number of four-year colleges versus a small number of two-year colleges when traditionally it is the opposite since that is what industry dictates.

Ms. Trammel asked if we are doing one diploma, what determines if a student completed the JumpStart or the University pathway. Mrs. McKinney confirmed it is one diploma and both programs offer a pathway to receiving a diploma, but the student's transcript will indicate which pathway that student followed. Ms. Trammel asked for confirmation that parents and students are being made aware, and Mrs. McKinney explained that JumpStart has been in place since the 2013-14 school year and it is the rising Juniors who made the declaration at the end of their Sophomore year/beginning of their Junior year on which pathway they would take. She added it is better for students to choose after they have had some time in high school and there are structures in all of Caddo's schools that make it easier for a student who does not feel sure of which pathway to be able to transition from one pathway to the other. Staff has also plotted universal courses for the JumpStart pathway as well as a sequence of courses that will make it easy for students to move from one pathway to the other. Mrs. McKinney also explained Caddo has a JumpStart team that meets regularly to trouble shoot questions such as what the Board members are asking and to make sure the best possible safety nets are in place for students as well as opportunities for students who will graduate with the TOPS University Pathway to also earn JumpStart credentials which provides them with further opportunities.

Mrs. Bell further asked about the requirements for a career diploma (four years of English) and the universal courses and if JumpStart is offered at all high schools. Mrs. McKinney stated that the universal courses are offered throughout the District and will align with any pathway a student chooses. Mrs. Bell asked if a student chooses a course, will they be able to take the course at the school they attend or will they need to go to another location. Mrs. McKinney explained that some career pathways are offered in some schools but not in others; however, staff is working to grow those opportunities; and she assured that students will not begin the pursuit of a pathway that they cannot complete; because staff will not offer a pathway a student cannot complete. Also, the universal courses will offer students the ability to meet required courses should they move from Louisiana to another state while in high school. Dr. Goree added that the District's Strategic Plan addresses the number of pathway opportunities offered at Caddo's

specific high schools and there is within that strategic plan a plan to increase the pathway offerings at all the high schools.

Dr. Douzart asked if students complete the JumpStart pathway will they receive an equivalent to an associate degree (two-year program), and Mrs. McKinney responded that when students complete the JumpStart Pathway, they should not have to take remedial courses at a two-year college. Regarding receiving an associate degree, she added it is possible for students to achieve an associate's degree while participating in the JumpStart Pathway while still in high school.

Caddo Teacher Academy. Cassie Harwell introduced the following graduates of the cohort class from the pilot year of the Caddo Teacher Academy: (1) Lauren Duke, 4th grade Math & Science, Walnut Hill Elementary; (2) Brandon Graham, 4th Grade Math & Science, J. S. Clark Elementary; (3) David Hyde, Spanish II, Caddo Magnet High; (4) Kinda Kilgore, 7th Grade Reading/ELA, Huntington; (5) Brittany Richardson, 2nd Grade all subjects, Oak Park Elementary; (6) Charie Taylor, 3rd Grade all subjects, Southern Hills Elementary; (7) Connie Ward, 1st Grade all subjects, Mooretown Elementary; (8) Katina Williams, 4th Grade ELA, Oak Park; (9) Teresa Williams, 5th Grade ELA, Queensborough Elementary; and (10) Lauren Woodard, 5th grade Social Studies, South Highlands Elementary Magnet. Ms. Harwell announced that these teachers worked very hard to complete a program that takes some 2-3 years to complete. The following members of the 2016-17 Academy were introduced: (1) Annie McCulloch, Green Oaks, 7th Grade Science; (2) Jennifer Duhon, Summerfield Elementary, 5th Grade; (3) Sarah Jorgenson, North Caddo Elementary/Middle; 5th grade Math and Science; (4) Whitney Hadwin, Southwood Biology I; (5) Eric Chelette, Captain Shreve 9th Grade English; (6) Nicole Walsh, Turner, 5th Grade Math and Science; (6) John Patterson, Werner Park, 5th Grade ELA/Social Studies, (7) Terry Durst, Youree Drive Middle School, 8th Grade English; and (8) Steven Dix, 3rd Grade ELA.

Agreement with VYJ Program. Kelli Todd, director of Volunteers of Youth Justice, addressed the new TASC program for Caddo Parish and what it will do for the schools. Ms. Todd shared their excitement in the collaboration between the CPSB, Caddo Parish DA's Office, VYJ and Willis Knighton in this program to address truancy. Over the past five years, they have worked with Larry Anderson and his staff on truancy in grades K-12, averaging approximately 4,000-5,000 truant students a year; but after modeling a program in Baton Rouge, they made a decision to focus on grades K-5 since that is the area in which the number of truant students has grown (1/3 of total truant cases). She explained this program is a service to the families with truant students to determine their needs and how they can be helped as opposed to being punished. She said the DA's office has offered law enforcement support and an investigator, and they have also utilized the Child Welfare and Attendance Office in locating families.

District Attorney Stewart expressed his appreciation to Mr. Elrod and Willis Knighton for eagerly joining in this effort to fight crime. While holding parents accountable to have their children in school, they are also working with the parents and the issues they may have in providing their children an education. He also expressed how helpful law enforcement has been to knock on doors when they are unable to locate a student and get them in school. He reminded everyone that when students are in school and getting an education, they are not truant; and when they are not truant, they are not committing crimes; so it is their hope that this will be preemptive in keeping students out of the court system and in the schools.

Dr. Goree added that there have been a few opportunities to work through this program and staff is excited to offer this service in hopes of solving the truancy issues in the District. He said while VYJ has done a great job in the past, this opportunity is seen as one that will increase the ability to provide services and meet needs in these families before they become involved in the court system.

Mr. Rachal noted how critical education is in the community and the future of this area and in the world, and he extended kudos on this effort to work together and hopefully reach students that before have been unreachable.

Mrs. Bell noted how happy she is about this because a couple of years ago she made a statement when she began seeing children on the streets when they should have been in school that the parents should be arrested. Starting early and educating children about the importance of education is very important. She also asked DA Stewart how issues are addressed when the parents are the problem behind truant students. Ms. Todd responded they first attempt to implement services and determine underlying issues; but if the parents fail to comply, they would then refer it to the court (Judge) to rule.

Ms. Trammel expressed her appreciation to the entities for beginning the efforts in the younger grades (K-5).

Re-Imagine Caddo: The Plan of Excellence Update. Mary Wood, assistant director of marketing and communications, shared an update on Year 2 of the District's Strategic Plan and proposed revisions to that plan.

She reminded everyone that the purpose for Re-Imagine Caddo was clear and highlighted goals met during the first year relative to increasing academic performance. She stated that the effectiveness of this living document will continue to be evaluated externally and the District is committed to updating the Board throughout the school year on the progress of the Strategic Plan. She highlighted the areas the Strategic Plan encompasses including every level and division within the school system; as well as the accomplishments and focuses in Year 2. Specific changes for Year 2 will be enhancing professional development opportunities for the teachers to arm them with everything they need to be successful in the classroom, adding an additional diploma pathway for high school students, increase graduation rates for traditional and students with disabilities, and reaching/increasing parental involvement without adding burdens to the school house via community partnerships, parental involvement and stakeholder outreach. Additional focus in Year 2 will be expand media outlet partnerships, conduct surveys to determine strengths and weaknesses of school system, seek ways to meet individual needs of communities, growth of fund balance and S & P rating, continue to look at possibility of a pay increase for all employees, fill highly qualified vacancies, evaluate every District program, implement the iLearn initiative with Discovery Education, and grow the Caddo Virtual Academy. Mrs. Wood also noted additional focuses in Year 2 as follows: increase bus and substitute driver pool, reduce bus repair back log, participate in additional job fairs, decrease the time for subs to move into full-time positions, move evening maintenance assignments to more preventative maintenance, evaluate based on square footage energy costs as opposed to per student cost, continue to be vigilant in finding the best plan possible for vacated school buildings, and based on the data from Year 1, Security will continue to reduce the number of crimes and look at additional equipment to continue this decrease.

Miss Green asked if staff continues to work on JPAMS to improve the system, because parents continue to get calls when they do not have children in the system. Mrs. Woods confirmed that staff continues to work with school sites and families to make sure families have the most current information in the System. Also because more parents use text messages, many school have gone to texting parents. Miss Green asked if there is a way parents can opt out of JPAMS? Dr. Goree explained that while parents cannot opt out of JPAMS, parents can set their individual profile up to avoid many of the calls. He also said they encourage parents to receive these calls so they have the information they will need. While she understands we will not be able to please everyone, when parents come to her with a question, she only wants to make sure she has accurate information to share with them.

ESTABLISH THE AGENDA FOR THE SEPTEMBER 20, 2016 CPSB MEETING AND CONSENT AGENDA

Dr. Goree highlighted the proposed items for the Board's consideration at the September 20, 2016 CPSB meeting and the following discussion ensued

7.01 Consideration of Purchasing Bids. Mr. Rachal asked if this item is connected to Item 8.06, and Ms. Trammel noted they are two different items. He also asked about the out right purchase price of the buses on the bid? Mrs. Lloyd explained that it is a two-part bid, (1) we are paying for 8 refurbished buses at \$63,000 each and 8.06 is a resolution required by the finance company in such transactions. Mr. Rachal asked if this is a lease purchase, and Mrs. Lloyd said it is for six buses and two special needs buses. Mr. Rachal further asked for an explanation in the two total prices - \$778,696 on 8.06 and the bid has \$504,000. Mrs. Lloyd explained that the bid is only for the refurbished buses (8 buses) and the remaining two (special needs) were piggybacked off another district. Mr. Rachal asked what is the interest rate and Mrs. Lloyd responded that an interest rate of 1.58% was the best of three received for all the buses and it was granted to J P Morgan/Chase.

Mr. Abrams explained there is additional documentation that goes with the purchase of the lease purchase buses and this information will be forwarded to staff for uploading for everyone to see. Mr. Rachal stated he would like to see the specifications. Mr. Rachal also asked if the company has determined which buses we will receive, and Mrs. Lloyd explained these buses have been through a required check. He also asked about warranties on these refurbished buses? Mrs. Lloyd said there are depending on what comes with the buses. Mr. Rachal asked for confirmation that buses cannot be in operation for more than 20 years, and Mrs. Trammel confirmed no longer than 25 years.

2016-17 Pupil Progression Plan. Mr. Rachal asked if there were any issues that the committee reviewing this document encountered. Erin Redden explained that there were no issues in the meetings and there were no changes other than minor changes submitted by the LDOE.

Change in October 19, 2016 and January 2017 meeting dates. Ms. Trammel explained that due to the AdvancEd Accreditation Team completing their work in Caddo October 17-19, 2016 by presenting their report to the Board on Wednesday, October 19th, it is recommended that only one meeting of the Board be held and the regular meeting on Tuesday, October 18th be changed to Wednesday, October 19, 2016 beginning at 3:30 p.m. Also because the staff/schools will not return to their campuses from the Winter Break until Monday, January 9th, it is recommended that the Executive Committee meeting be moved to Tuesday, January 10th and the Board meeting remain on the third Tuesday.

Ms. Trammel stated that the Consent Agenda is Items 6.01-6.02, 8.02, 8.04-8.05 and 13.01. *Mrs. Locke moved, seconded by Mr. Green, to approve the agenda and proposed consent agenda for the September 20, 2016 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jon Glover questioned where the District is in meeting goals presented in the Mission Statement of the Strategic Plan Re-Imagine Caddo: The Plan for Excellence and its effectiveness, as well as where the District is in meeting the goal outlined in the Vision Statement. Ms. Glover stated that with more than 36 D and F schools she questions if either of these statements are being met. While she recognized the success seen at Green Oaks, she still questions if the students counted as ready for college are really ready; and she asked if staff is following these students to see how many needed remedial courses. She recognized the JumpStart program implemented in the 2014-15 school year and asked what is being done to make certain the District is actually

meeting the needs of students beyond 12th grade. In preparing students with skills and capacities for 21st Century citizenship, global awareness, creativity, collaborative problem solving and self-directed learning, she also questions how effective this goal will be for the 36 D and F schools. Ms. Glover also addressed the presentation in January 5, 2016 when the public was made aware of needed cosmetics to the ReImagine Caddo Plan in order to maintain the integrity of the document and asked what caused these changes. She expressed her concern that Caddo and too many of its students are in trouble, and she asked the Board, the Superintendent and the Administrative Staff to share with her and the public what will be done to address the students in the 36 D and F schools.

ANNOUNCEMENTS

Mrs. Bell expressed her appreciation for the new Student Handbook and asked if every parent receives a copy. Mr. Burton explained that this year we went virtual with the handbook; however, there are some copies in the lobby for those who cannot access it electronically. Mrs. Bell also recognized Huntington High School's principal for changing the pep rally to the evening and not during the school day and instruction time. He also took this time to recognize students who excelled in their ACT scores.

Mr. Riall expressed appreciation from the staff at North Caddo Elementary/Middle School to Tommy Smith, Steve White and their staffs for the work they did to prepare the new school for the opening of the 2016-17 school year.

Miss Green expressed appreciation to her principals for a smooth opening of school and successful back to school nights. She also recognized Travis Smith as the new principal at Pine Grove and the positive transition at the school.

Mr. Rachal asked staff to contact LSBA regarding retreat hours being applicable to the hours required for Board members in districts with failing schools.

Mr. Green complimented the schools in District 7 for the smooth opening of school.

Ms. Trammel announced that Caddo Heights held its back to school during the day last Friday with a great turnout by parents.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:00 p.m.*

September 6, 2016

The CPSB Insurance and Finance Committee met at 2:00 p.m. on Tuesday, September 6, 2016, in the Room 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Dottie Bell, Jasmine Green and Susannah Poljak. Committee members absent were Larry Ramsey and Margaret Brown. Other Board members present were Raymond Green, Dr. Bonita Douzart, Denee' Locke, Steve Riall, John Albritton and Mary Trammel. Also present were Dr. Lamar Goree, Reggie Abrams, Diane Atkins, Keith Burton, Jim Lee and Randy Watson.

Chair Dottie Bell called the meeting to order and Steve Riall led in the prayer and Pledge of Allegiance.

Confirm the Agenda. *Mrs. Poljak moved, seconded by Miss Green, to confirm the agenda as presented. Vote on the motion carried unanimously.*

Group Insurance Renewals. Randy Watson, director of insurance, reported that the CPSB Health, Dental, Life, Disability and Cancer plans are up for renewal April 1, 2017 and there is a need for an item to be on the Board's October agenda with a recommendation from the Insurance and Finance Committee. Mr. Watson began his presentation by stating Caddo's dental coverage has been with Blue Cross/Blue Shield since 1998, but their network changed to United Concordia last year. James Bustillo with Blue Cross explained that when looking at the need for improving the Blue Cross network, how claims were being processed and the cost to do so, Blue Cross learned they could bring in United Concordia as a vendor and they were able to process claims more accurately than Blue Cross's antiquated system and at a savings to the members and employers. After the first year of this change, Mr. Watson reported there was a 6.6% reduction in cost for the same services. He further explained that with the District's Dental, Life and Disability plans, he negotiated a set fee paid to the insurance company and at the end of the year any money left over after payment of claims and fees is not profit but it is returned to the District in a Premium Stabilization Fund, which currently is at \$800,000. Further with the 6.6% savings and \$100,000 from the Fund, **staff is able to recommend renewing the dental plan with no change in benefits and decreasing the premium by 10%.**

Mr. Watson stated that with the District's **Life Insurance Plan** (which had changes several years ago), **staff recommends to renew with no change in benefits and no change in premiums.**

Regarding the District's **Disability Plan**, **Mr. Watson shared that it is staff's recommendation to renew with no changes in benefits and no change in premiums.**

Mr. Watson said for many years there have been many policies, i.e. cancer, heart attack, stroke, etc., which were technically not insurance since they did not pay the provider; but when a claim was filed, the money was paid to the holder of the policy. Because these many policies were actually making a profit off the members who had them, these were all cleaned up and there remains one free-standing cancer plan that has minimal benefits and a small premium. Also, because he was unsuccessful at negotiating a Premium Stabilization Plan, we have kept this plan since there were a number of retirees holding this policy.

Mr. Watson highlighted the health plan noting the age of the largest group being over 50 years old, and having 4,000 active members and 4,000 retirees. The result of the largest group being over age 50 is an increase in the claims, and he highlighted the factors that are driving the District's healthcare, i.e. the things that work against us and drive up the cost as well as those that work in our favor. In looking at last year's per member, per month (PMPM) cost, Caddo paid \$563.81 per member which is higher than the National Average and is an increase of 6.3% from last year. Mr. Watson also reported on PMPM cost for drugs, the percentage of crises claims, special pharmacy claims, inpatient, retail drugs and special pharmacy drugs, and noted

that the large claims are getting bigger. He also shared that because Caddo has a single dominant healthcare system, it is very difficult to negotiate discounts; pharmacy, crises claims, catastrophic claims, an aging population, Affordable Care Act mandates, and Medicare becoming more the primary policy. Mr. Watson further explained trends in the area of medical claims showing what was actually paid out on medical when the District went to self-funded. He reported that in the area of pharmacy management, costs have been lowered from approximately 27% to 17-18% which is a reflection that the management changes are working.

Following Mr. Watson's presentation, he shared options for the Committee's consideration at its next meeting toward making a recommendation to the Board in October to include the following.

- Medical Marijuana – Do not approve since FDA has not approved it to be safe to use.
- Networks for Physician's Assistants, etc. – Support expanding the list of providers to include
- Expansion of Drugs Requiring Pre-Authorization and Drugs limited to Quantity per Dispensing.
- Exclusion language for OTC Drug Alternatives, Prescription Drug Kits, Select Combination Drugs, Brand Name Proton Pump Inhibitors, Brand Name Sleep Meds and Brand Name Allergy Meds.
- Removal of Authorization Requirements for In-Home Sleep Studies, Continuation or Termination of PREVENT Program, Mandatory Scripts recommended by nForm and approved by physician, Change in POS Wellness Co-pay to match PPO Co-pay, tier new retiree health insurance premiums based on years of service, set premiums at 5% above medical management changes, and change percent of employee contribution to between 1% and 5%.

Mr. Watson also shared information on what the committee felt should be implemented relative to percentage of premiums to be paid by employees that retire with less than five years. He also clarified that if the Insurance and Finance Committee chooses to recommend this option to the Board, everyone currently employed will be grandfathered in.

Mr. Milam with United Concordia, via conference call, responded to questions relative to the prescription changes, re: prior authorization, quantity limits, drug kits. Discussion covered specifics such as medical overrides if a doctor insists; implementation of exclusion language for certain drugs being packaged as non-prescription (OTC) drugs; limits (30 day supplies); criteria necessary to override (strength of OTC drug available is same as prescription); override to allow for generic equivalent; comparison of out-of-pocket for OTC versus co-pay for prescription; time periods for prior authorization (turn-around time), etc.

Mr. Watson also highlighted alternative strategies for addressing health care costs, i.e. cost shifting which increases the employee's deductible and out-of-pocket cost, as well as transferring a greater percentage of the premium to the employee. He said he doesn't recommend these options at this time since it would cost the District its grandfather status in the Affordable Care Act and ultimately increase the District's cost by approximately \$4 million. Other options would be to the State's plan, Group Medicare Part D Plan for retirees, and how we buy our health care.

Mr. Watson summarized the recommendation of a **5% increase in the employee's health care premium**, and a **10% decrease in dental**. Staff was asked to provide 5% projections so school employees will know how they will be affected.

Next Meeting. Chair Dottie Bell announced the next meeting will be September 20th at 3:30 p.m.

Adjournment. Mrs. Poljak moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:55 p.m.

September 20, 2016

The CPSB Insurance and Finance Committee met at 3:30 p.m. on Tuesday, September 20, 2016, in the Room 1, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Dottie Bell, Jasmine Green and Susannah Poljak. Committee members absent were Larry Ramsey and Margaret Brown. Other Board members present were Raymond Green, Dr. Bonita Douzart, Denee' Locke, John Albritton, Barry Rachal and Mary Trammel. Also present were Dr. Lamar Goree, Reggie Abrams, Diane Atkins, Keith Burton, Jim Lee and Randy Watson.

Chair Dottie Bell called the meeting to order and Dr. Bonita Douzart led in the prayer and Pledge of Allegiance.

Confirm the Agenda. *Mrs. Poljak moved, seconded by Miss Green, to confirm the agenda as presented. Vote on the motion carried unanimously.*

Group Insurance Renewals. Mrs. Bell asked the committee members if they had any additional questions or concerns. Mrs. Poljak asked Mr. Watson if the insurance premium is not increased by 5%, what will happen. Mr. Watson explained \$6.3 million is needed; however, if the changes discussed at the last meeting are made, we will need \$5.2 million. Claims will continue and if the Board or the employees do not pay them, it would become necessary to go into the reserves to pay them which he definitely does not recommend doing.

Mr. Rachal asked how much is in the reserves; and Mr. Watson responded because it is a running number, a rough estimate at this time is approximately \$11-\$12 million in claims reserves and another \$8 million in the contingency; however, it can vary by multiple millions of dollars on any day. Mr. Rachal asked if this is approximately what the District maintains in its reserves, and Mr. Watson confirmed it is.

Superintendent Goree asked Mr. Watson to share with the Committee a summarization of what staff is recommending to move forward and address some of the things distributed via email which prompted Board members receiving calls. Mr. Watson shared strategies that have been recommended to the Committee for its consideration to present to the Board, i.e. medical management (increase what employees pay by 5%) or drastic cuts (cost-shifting to the employees, raise the deductible to \$1,000, and decrease premiums). He further explained that the staff is recommending to the Committee that the Board do the minimum and healthiest for the District's plan (make medical management changes and a modest 5% increase). He asked Mr. Bustillo with Blue Cross to address the typical increase for group plans and Mr. Bustillo responded they see 9-12% increases. Mr. Watson also added that individual plans are seeing increases of 20%-30%. In needing \$5.2 million to cover this year's projected additional claims, Mr. Watson explained all could be passed onto the employee; and if the Board did, it would increase the employee's monthly premium by \$54.00. However, staff is recommending that the Board maintain the percentages currently in place, i.e. employee only, employer pays 80% and employee pays 20%; employee with one dependent, employer pays 75% and employee pays 25%; and an employee with two or more dependents, employer pays 70% and employee pays 30%. In response to reports from the media that the Board is taking money away from members (employees), the Board is paying an additional \$3.9 million of the \$5.2 million needed so the members only have to pay on their share of the premiums, which is \$8.90 to \$13.54. Mr. Watson also explained that the 5% increase is based on the employee's share of the premium and clarified that this affects what a new teacher is paid by three-tenths of one percent.

Ms. Trammel asked that staff prepare a one-sheet condensed summary of the insurance information; and Mr. Watson responded that it is shared in the insurance newsletter following approval by the Board. The committee requested that Mr. Watson prepare a brief presentation for the October work session to explain to everyone as he has explained it to the Committee

today. Dr. Goree noted that staff will prepare a limited (5-10 slides) presentation for the work session and if Committee members have specifics they wish pointed out to contact Mr. Watson. Ms. Trammel also asked that Mr. Lee point out in the information that employees receive a step increment every July 1 even though other entities are no longer doing this for their employees.

Mrs. Poljak moved, seconded by Miss Green, to recommend to the Board at its October meeting to approve the following recommendations

Plan	Carrier	Benefit Changes	Premiums
Health	Blue Cross	See Below	5.0% Increase
Dental	Blue Cross/UC	No Change	10% Reduction
Life	Standard	No Change	No Change
Disability	Standard	No Change	No Change

Other Actions

Cancer	American Public	Cancelation of Plan
Universal Life	American General	Cease Payroll Deduction

Health Insurance

The committee considered a spectrum of scenarios to deal with the projected rise in healthcare claims from \$104,500,000 to \$110,900,000 for the 2017 plan year. This will leave a shortfall of \$6.4 Million based on current employer and employee contributions.

The committee recommends the following considerations:

- Implementation of a number of medical management strategies, primarily oriented toward pharmacy management to reduce the needed funding to \$5.2 Million. (Please see the recommended changes following this section.)
- If the entire additional funding is passed on to employees, their average premium would increase approximately \$55/month. However, the committee is recommending that CPSB fund the majority of the projected shortfall by contributing an additional \$3.9 Million to the healthcare reserves.
- The remaining difference would be passed on to the subscriber in their monthly premiums. This average monthly increase would be approximately \$13.54/month. However, the majority of active employees would pay less than \$10/month. The increased amount for employees covering family members would vary depending on the number of dependents on their plan.
- This the third lowest increase in premiums in the last 20 years.

Options Considered and Recommended by Committee

- Exclusion of Medical Marijuana
- Implement Specialty Provider Network
- Expanded Testing for Colorectal Cancer Screening
- Annual Formulary Changes to Match Blue Cross Statewide
- Expansion of Drugs Requiring Pre-Authorization
- Expansion of Drugs that are Limited to Quantity Per Dispensing
- Exclusion Language for Over the Counter Drug Alternatives
- Exclusion of Prescription Drug Kits
- Exclusion of Select Combination Drugs
- Removal of Preauthorization Requirements for In-Home Sleep Studies
- Exclusion of Brand Name Proton Pump Inhibitors (PPI's)
- Exclusion of Brand Name Sleep Meds
- Exclusion of Brand Name Allergy Medications
- Non-renewal of Omada Program
- Mandatory Scripts Recommended by nForm and Approved by their Physician
- Change POS Wellness Copay to Match PPO Copay

Options Considered but Not Recommended by Committee

- Various scenarios of increasing deductibles, copays and coinsurance to active employees and retirees to reduce CPSB liability
- Various scenarios of cost shifting a portion of employer premiums to active employees and retirees to reduce CPSB liability
- Tiering Retiree Health Premiums Based on Years of Service

Dental Insurance

Blue Cross has contracted with United Concordia (UC) to provide administrative services and network for their dental plan. This has resulted in significant savings to members. The committee recommends using a portion of the PSF combined with the networks savings and reduce dental premiums by 10%. There will be no change in benefits.

Life Insurance

No change in benefits or premiums.

Disability Insurance

No change in benefits or premiums

Cancer Insurance

This is a supplement plan that was left over prior to the formation of the Insurance Department. It is the only plan that CPSB does not have a Premium Stabilization Fund (PSF). It was reported to the committee that on average over the past four years, only \$1 out of every \$3 collected from members goes toward claims. American Public retain \$2 out of \$3 dollars for administration, commission and profit. The company continues to refuse to lower premiums or enter into as PSF agreement.

This plans pays the member a limited benefit by reimbursing them for certain treatments that Blue Cross already pays for. It merely provides additional income that is paid directly to member if they file a claim. However, this plan is a poor value for our members, and there are many products that employees can purchase directly without the aid of CPSB. Therefore, the committee is recommending that CPSB not renew this plan because we cannot negotiate premiums based on claims experience on behalf of the members.

Universal Life Insurance

This is another plan that was implemented prior to the formation of the Insurance Department. There are less than 70 employees that we offer the convenience of payroll deduction. The members can continue their plan and make payments directly to the company. The committee recommends discontinuing payroll deduction.

Vote on the motion carried unanimously.

Adjournment. *Mrs. Poljak moved, seconded by Miss Green, to adjourn.* Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:10 p.m.

September 20, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, September 20, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey, Mrs. Brown and Mr. Green were absent. Mr. Rachal led the prayer and Pledge of Allegiance. The National Anthem was played by Sarah Gardner from Green Oaks Performing Arts High School Band.

CONSIDERATION OF MINUTES OF THE AUGUST 16, 2016 AND SEPTEMBER 6, 2016 CPSB MEETINGS

Mrs. Locke moved, seconded by Mrs. Bell, to approve the minutes of the August 16, 2016 and September 6, 2016 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of communications/marketing, on behalf of the Board, recognized the following students and staff members. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Green Oaks Performing Arts Academy Jazz Band. Jeremiah Furlow, director/teacher, and members of the Green Oaks Performing Arts Academy Jazz Band performed various musical numbers as the crowd arrived at the meeting as well as during the recognitions.

Caddo Parish Magnet High School Gymnastic Team. The Caddo Parish Magnet High School Gymnastics Team was recognized as the reigning LHSA State Gymnastics Champions for the third consecutive year.

Yellowstone Youth Conservation Corps. Savannah McKnight, North Caddo High School, was recognized for applying and being chosen to participate in this past summer's Yellowstone Youth Conservation Corps. This program was established in 1984 as a joint effort between the National Park Service and Yellowstone National Park. Sixty-two students from across the country were chosen to participate in a month-long residential program at Yellowstone. With emphasis on work ethic, as well as introducing students to a spectrum of careers, this program supports resource education while building future stewards of green spaces. She is the only student from this region to earn this opportunity.

National PTA Healthy School Awards. As the program manager for the Louisiana Alliance for a Healthier Generation, and an active board member of the Caddo PTA, Erica Gilliam recognized and presented the Healthy School Awards to Alexander Learning Center and Shreve Island Elementary schools. These awards (in bronze, silver and gold) are only presented to 328 schools nationwide and of these, only five are in Louisiana, and two in Caddo Parish. She also added that since the program was launched in Louisiana in 2007, there have only been 13 schools to earn the National award.

Shreve Island Elementary and University Elementary were also recognized for receiving the National PTAs Healthy School Meals Grants. Both of these schools are in good standing with National PTA which made them eligible to apply, and the grant affords the National PTA the opportunity to help support the school meals program and advocate for an environment that promotes healthy behaviors. By being awarded this grant, these schools continue to meet National Best Practices in the Healthy Schools Program framework by reinforcing positive, healthy behaviors that the students can carry into adulthood. She noted the changes each school has made to enhance this program in their schools.

C. E. Byrd Soccer Coach Lisa Leverman. Lisa Leverman was recognized for being named All-State Coach of the Year by the National Soccer Association of America. She earned this title for her knowledge of the team, rapport with the players, work ethic, outside community involvement and commitment to promoting the game; and this title advances Coach Leverman in the competition toward the title of National Coach of the Year.

Lt. Governor's Award of Excellence. Christa Fanning, Caddo educator, musician, and three time Grammy education award finalist was recognized as the winner of the latest Lt. Governor Award of Excellence which recognizes individuals who instill love and passion for the arts in the lives of Louisianians.

Newly Appointed Administrators. Diane Atkins, chief human resource officer, introduced the following newly appointed administrators: (1) Geneva Feaster, instructional coordinator, Caddo Heights; (2) Wilbert Pharr, instructional coordinator, Sunset Acres; (3) Kasie Sparks, instructional coordinator, Keithville; (4) Monte Demars, assistant principal, Woodlawn Leadership Academy; (5) Willie Anderson, assistant principal, North Caddo Elementary/Middle; (6) Shaundred Houston, assistant principal, Caddo Middle Career & Technology Center; (7) Travis Smith, principal, Pine Grove Elementary; (8) Judy Langley, interim principal, North Caddo Elementary/Middle; and (9) Angela McCoy, Title One curriculum instructional specialist, Title I Department.

VISITORS

Jackie Lansdale, president of Red River United, addressed the Board on the proposed 5% increase in insurance premiums, and their disappointment in the Board when it reduced staff and increased the teacher-pupil ratio immediately following their efforts to help in the renewal of the last bond and then created Central Office positions. Mrs. Lansdale stated their dismay in the Board's position not to seek the roll forward money and now looking to increase insurance by 5% without considering how it will impact employee salaries. She reminded the Board of the information brought forward on Caddo's ranking of last in the region relative to beginning teacher salaries and how this impacts teacher turnover; and they are very disappointed that instead of finding ways to reduce funding in other areas that the Board continues to pass it on to employees. Because teachers continue to be asked to do more and more yet receive less and less, it is an insult to them when a 5% increase is brought forth without any mention of an increase in pay. She said if the Board cannot or will not find relief in the budget, they are asking that the Board do what the 1997 Board did and go to the public to bring in a much needed increase for teachers and support employees. Mrs. Lansdale shared their organization will be happy to work with the Board; but they can't if the Board does nothing; and Red River United is dedicated to serving the boys and girls of Caddo Parish and equally as dedicated in demanding dignity and respect for those who provide this service.

Jon Glover addressed the proposed 5% increase in insurance premiums and that many employees would like to come forth on this but fear reprisal. She questioned how many employees were aware of the proposal brought to the CPSB Insurance and Finance Committee; and why a 5% increase is being considered to the already high premiums and what services have changed to warrant a 5% increase. She asked if any consideration has been given to look at other vendors or even Caddo becoming self-insured again. Ms. Glover stated these are important questions that should have been answered before coming to the employees with a premium increase, including why Blue Cross/Blue Shield continues to eat away at employees' paychecks.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE SEPTEMBER 20, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced that the following items are the Consent Agenda: 6.01-6.03, 7.01-7.02, 8.04-8.07 and 13.01-13.02.

Mrs. Poljak moved, seconded by Mr. Rachal, to establish the agenda and consent agenda for the September 20, 2016 CPSB meeting. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the personnel recommendations as submitted by the Superintendent in the electronic mailout.

6.02 Administrative Contract Renewals, September 2016. The Board approved the administrative contract renewals, September 2016, as recommended by staff and submitted in the electronic mailout.

6.03 Personnel Transactions Reports (Resignations). The Board approved the personnel transactions reports (resignations) for the period of August 1-31, 2016 as submitted in the electronic mailout.

Item No. 7

7.01 Bids (Purchasing). The Board approved the following bids recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Harrison Paint Company for paint; (2) Southwest Sales for the purchase of transportation parts; (3) Highland Products Groups for the purchase of park equipment; and (4) Ross Bus Sales & Equipment for the purchase of refurbished buses. *A copy of the bid tabulation sheets is filed in the official papers of the September 20, 2016 CPSB meeting.*

7.02 Bids (Construction/Capital Projects). The Board approved the bid of Lou Chandler, Inc., with a Base Bid, for the sum total of \$132,500 for Project 2017-041, "Rodessa Demolition" as submitted by staff in the electronic mailout. *A copy of the bid tabulation sheet is filed in the official papers of the September 20, 2016 CPSB meeting.*

Item No. 8

8.02 Out of State Travel (General Fund). The Board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Change in October 18, 2016 and January 2017 CPSB Meeting Date(s). The Board approved changing the October 18, 2016 CPSB meeting to Wednesday, October 19, 2016 at 3:30 p.m. and to change the January 3, 2018 CPSB meeting to Tuesday, January 10, 2017 and leave the January 2017 Board meeting on Tuesday, January 17, 2017.

8.05 Consideration of Louisiana Spirit Crisis Counseling Program. The Board approved the Louisiana Spirit Crisis Counseling Program to provide services to Caddo Schools as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Resolution & Declaration of Official Intent for Refurbished Buses. The Board approved the resolution and declaration of official intent for the lease-purchase agreement for refurbished buses as submitted in the electronic mailout.

8.07 Consideration of Revisions and Updates to Strategic Plan. The Board approved the revisions and updates to the District's Strategic Plan ReImagine Caddo: A Plan for Excellence as presented in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for Students ZW, KW, SM and AG as submitted in the mailout with agreement of the students' parents

13.02 Legal Update: Darnell Duncan v. CPSB, Case #4715462 (Office of Workers Compensation). The Board approved the recommendation for resolution as submitted in the electronic mailout.

2016-17 PUPIL PROGRESSION PLAN

Ms. Glover asked who monitors Pupil Progression requirements for students moving from Kindergarten to the 1st grade and how did the students fare in the 36 D and F schools. Because her granddaughter attends one of the D and F schools and was not proficient in many areas in the Pupil Progression Plan, she is unclear how she was promoted to the 1st grade. She stated that she brought this issue to the principal's attention last year, as well as to the Board and the administration; and she questions if anyone ventured to see what was prohibiting students from meeting the criteria noted in this plan. She emphasized the importance of measures being in place to insure these students are successful.

Mr. Rachal moved, seconded by Mrs. Bell, to approve the 2016-17 Pupil Progression Plan as submitted in the electronic mailout. Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that beginning Wednesday, Caddo's JROTC cadets will be in their new uniforms.

ANNOUNCEMENTS

Mr. Riall addressed the transition for the North Caddo Elementary/Middle School and the great job being done by Mrs. Langley. He also asked that staff follow up on the needs yet to be met, i.e. students wanting to play football but they do not have helmets or uniforms, with the same being true for the upcoming basketball season. Dr. Goree reported on a meeting he had in Vivian with the PTO Executive Board; and while the transition is going well and there is much to celebrate, he too heard the concerns mentioned and staff is in the process of addressing and rectifying these issues.

Adjournment. *Mrs. Locke moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 5:30 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

October 4, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, October 4, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance. In addition to praying for Board members Margaret Brown and Larry Ramsey, Ms. Trammel asked that everyone remember Board member Raymond Green in the passing of his brother.

VISITORS

Roger Mosley, Jr., addressed the Board on the following concerns: bullying in Caddo Parish Public Schools, elementary students and middle school and high school students and the length of time students are having to wait at the stops, and the possibility of Caddo adding and teaching students the Stranger Danger curriculum. Regarding bullying, Mr. Mosley shared the problem of his granddaughter being bullied; and while he understands once reported, staff has 10 days to get back with them, it has been 21 days and he has not heard anything back on the investigation. He added the incidents continue and nothing has been done to date. Dr. Goree asked that Patrick Greet meet with Mr. Mosley and get additional information needed to follow up on this.

EASEMENT FOR AEP SWEPCO AT EBW STONER HILL

Mr. Rachal moved, seconded by Mr. Riall, to grant the easement requested by AEP SWEPCO at E B Williams Stoner Hill campus as recommended by staff and submitted in the electronic mailout. Vote on the motion carried.

Adjourn. *Mrs. Locke moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:40 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

October 4, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, October 4, 2016 at approximately 4:40 p.m. (immediately following the Special Session) in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Barry Rachal, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. The prayer and the pledge were omitted.

ESTABLISH AGENDA FOR THE OCTOBER 19, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its October 19, 2016 meeting and the following discussion ensued.

2017 Insurance Renewals. Randy Watson, director of insurance, shared background information, which was shared with the Insurance and Finance Committee, on the renewal of Caddo's insurance plans. Mr. Watson explained that Caddo's health plan is a self-funded plan which means the only source of funding for paying claims are premiums and these are collected and placed in reserves from which he pays medical claims weekly. At this time, Mr. Watson explained the employee only pays 20%, an employee and one dependent pays 25%, and an employee with two or more dependents pays 30%. Blue Cross is paid a small administrative fee for processing claims. Mr. Watson stated that Caddo is expected to spend \$104,500,000 in claims this year and next year it is projected to be \$110,900,000 in claims, leaving us with a \$6.4 million shortfall. Staff has recommended to the Insurance Committee that a number of medical management strategies be implemented, primarily in pharmacy, which will reduce the shortfall to \$5.2 million. Mr. Watson explained that if the amount needed (\$5.2 million) is passed on to the employees, employees would see an approximate 20% rate increase which would be approximately \$55 a month; however, the committee's recommendation is that the Board absorb the majority of this amount (\$5.2 million) and place \$3.9 million from the General Fund into the health care reserves. By doing this, the employee's share will be reduced to an average of \$13.54 a month; and since the majority of the people (60%) are employee only coverage, the majority of employees will pay less than \$9 a month. In talking about percentages, Mr. Watson also clarified that the 5% increase does not mean 5% of the total premium but 5% of the employee's share of the premium. He shared comparisons and how specific employee groups will be affected, and that the proposed 5% increase represents the third lowest increase in the last 20 years, a lot of this due to medical management. Also, because members pay their premiums pre-tax, the impact will be even less since they are able to purchase their insurance with pre-tax dollars. He highlighted Caddo's most competitive plan in the market (\$250 deductible) and noted that lower deductibles mean higher premiums and higher deductibles mean lower premiums, and if Caddo keeps the \$250 deductible plan, a 5% percent increase from employee members will be needed. If decreasing the insurance premiums is something employees would be receptive to, staff can present a proposal of going to a \$1,000 deductible, 20% co-insurance, \$4,000 out of pocket max, which will result in a decrease in insurance costs. He also shared insurance increases seen across the country; and that relative to the other Caddo policies/plans, a 10% decrease in premium with no change in benefits for the dental coverage, and there is no change in premium or benefits for the Group Life or Group Disability. It is also being recommended that the cancer plan not be renewed because (1) Blue Cross pays for cancer coverage, and (2) this is a supplemental plan that pays the member. Mr. Watson explained the company has never cooperated with Caddo in negotiating the cost (they keep \$2 out of every \$3 they collect), thus staff is recommending this plan be cancelled. Universal Life is a plan similar to the cancer plan. In summary and in looking at a 19-year average, Mr. Watson stated this year is one of the most favorable the District has had in the past 20 years.

Miss Green asked for clarification of her understanding the employees could have been faced with a \$55 increase. Mr. Watson responded the Insurance and Finance Committee's recommendation is for the Board to put a portion of the General Fund (\$3.9 million) in the reserves, and if the Board does, the average increase for employees will be \$9 to \$13.54; however, if the Board does nothing, employees could see an increase of approximately \$55.

Mr. Rachal asked Mr. Watson about the increases in other states across the country and Mr. Watson clarified that there is much more managed health care in other states and it is more competitive. Health care costs much more in Louisiana because the competition is not there; however, the managed plans in other states are seeing increases in double digits with high deductibles. Mr. Watson also explained that the average employee pays less than \$200 a month for their share of the insurance premium. Mr. Rachal also asked about the law under the Affordable Care Act where insurance companies must accept one regardless of a person's health and with no limit on what they pay.

Mr. Green asked if the Board approves the proposed plan, will the premiums paid by the employees be placed in an individual account, and Mr. Watson explained that is correct.

Ms. Trammel asked if anything else will change, and Mr. Watson verified that nothing else will change, except the pharmacy benefits, i.e. requirement to use generic drugs.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

Mr. Rachal asked about the rates and the numbers on facility usage. Mr. Woolfolk said while the committee will relook at the facilities in the schools, i.e. classrooms, auditoriums and cafeterias, currently staff is recommending this for Lee Hedges, and other athletic facilities because Caddo is under the average of what other districts are charging. Mr. Rachal asked what the current charge is for use of athletic facilities, i.e. Lee Hedges Stadium, and Mr. Woolfolk responded \$250 a day for Lee Hedges. Ms. Trammel stated it is recommended "not for profit" be changed to "non profit".

Mr. Albritton noted his understanding of the adjustment in the cost, but asked about the liability insurance policy and this may keep many from using the facilities, especially non profits. He reminded everyone these buildings are paid for by the taxpayers, and he doesn't believe this requirement should be placed on non-profit groups. Dr. Goree said staff will discuss this further and bring a recommendation.

Mr. Abrams clarified issues associated with the use of Caddo's facilities and the \$1 million stands in front of the District's self-insured status, which is what we are doing when attempting to shift it over to the other party. Also, Caddo's insurance carrier provides a mechanism which allows non-profit organizations to obtain this requirement for a minimal fee. Mr. Albritton stated his appreciation of this, but he still believes this should be a part of the documentation provided so those wanting to rent one of Caddo's facilities will know it is available at a reduced cost.

Mr. Riall asked if the facility usage fee is levied on the schools, and Mr. Woolfolk said it is not, but only for outside groups or organizations not affiliated with the school system. Mr. Riall asked if the blank in the "proposed fees" column means the original price will be adopted. Mr. Tisdale confirmed that is correct, and the N/A is for the district Caddo is comparing.

Dr. Douzart requested that Items 9, 12 and 20 be rechecked for necessary changes.

Mr. Rachal asked when staff will bring to the Board policy revisions addressing the burden of non-profit organizations having to pay additional premiums. Dr. Goree reminded the Board that this conversation took place in the spring and staff can bring a recommendation as early as next

month for the Board to discuss. Mr. Rachal stated he understands the need for the liability insurance, but he believes no matter what happens, Caddo will be named in any suits.

Declare Barret's T Buildings Surplus. Miss Green asked about the Fair Market Value for the Barret T Building? Mr. Woolfolk responded the appraiser has not determined this amount, because the Board must first declare the T Building surplus; and when it does, then an appraisal will be done because the building is available for sale. She asked if the Police Department will be first on the list to get it, and Mr. Abrams explained for the District to get rid of surplus property, it must be put out for bid or if it is a governmental agency, the School Board has the option to sell it to them for the Fair Market Value. He added that the Police Department has indicated they have a need for this T Building, and he reminded the Board that Mr. White has reported in the past that the cost to set up and remove a T Building is approximately \$100,000. Miss Green asked staff to provide her with the difference between another governmental entity purchasing the building versus another entity. Mr. Abrams said you will not know that since you will not be putting it out for bid. Dr. Goree added this is the beginning of the process of what was promised to the community not to leave an empty school building that will bring down a community's value. Miss Green asked if the Police Department specified their need for the T Building, and Mr. Woolfolk responded it was requested by the mounted policy division for additional office space.

Mr. Riall asked how many surplus T Buildings are there in Caddo, and Mr. Woolfolk responded none at this time because the Board has not declared any surplus. Mr. Riall asked how many T Buildings are at Oil City, and Mr. Woolfolk said there are a lot of vacant T Buildings.

Presentation of Proposed Agenda and Consent Agenda. President Trammel recommended Items 8.02-8.07 as the Consent Agenda. *Mrs. Locke moved, seconded by Mr. Green, to approved the proposed agenda and consent agenda for the October 19, 2016 CPSB meeting. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the timing of the proposed increase in insurance and her unanswered questions relative to the grandfather status, dental insurance. She also stated she believes it to be very insulting to say "only a \$10 increase". Mrs. Lansdale also addressed the statement all employees must sign stating the District will recoup their monies when overpaid because of a glitch in the payroll system.

ANNOUNCEMENTS AND REQUESTS

Miss Green shared her appreciation for the opportunity to attend the CUBE Conference. The main topic was Equality versus Equity and she looks forward to sharing her report with the Board at the next meeting. Dr. Goree added he believes a lot of the conversations governing the work being done in Caddo will be seen in this topic, and the Board will be pleased with the progress being made in addressing this area in our District.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:23 p.m.*

October 19, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Wednesday, October 19, 2016 at approximately 3:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey and Mrs. Brown were absent. Mr. Riall led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE SEPTEMBER 20, 2016 AND OCTOBER 4, 2016 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the September 20, 2016 and October 4, 2016 CPSB meetings as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

AdvancED Accreditation Report. Dr. Goree expressed appreciation to everyone for adjusting their calendars and attending today's meeting. He stated the week has been a very exciting time in the District as it went through its first district accreditation. While high schools have achieved accreditation in the past, this was an opportunity for the District to receive accreditation. Dr. Goree introduced Dr. Oborn who thanked everyone for attending today and extended their team's gratitude for Caddo's hospitality. He stated that accreditation is an interesting concept because of the pure notion of wisdom and knowledge; and having done this for five years, he had the opportunity to do this work all across the world and see schools in districts rise above the norm to help their students. He recognized the Board for making the decision to bring them in during a transformational time in Caddo and its commitment to see it through.

He apologized for his early departure immediately following his presentation because of his flight departure time. He said his report will reflect the views of the 12 team members. Not knowing any of the team, he said he believes they became the best of friends; and their written report will be presented to the staff in 30 days. He also announced that Caddo's accreditation evaluation will be viewed at the January meeting of AdvancEd. He highlighted the teams' experience and introduced Dr. David Gullatt who introduced each team member: Thomas Gerds (Florida); Shane Jones (Mississippi); Dr. Clete Lipetzky (Arizona); Jacqueline Matthews (Monroe City Schools), Martha Patten (Bossier Parish); Dr. Charles Raviotta (St. Bernard Parish); Dr. Felecia Smith (Arkansas); Emily Walker (Rapides Parish); Hong Elizabeth Zhou (Georgia); and Layla Milton (West Feliciana Parish).

Dr. Oborn explained the team's one-word drill over approximately 48 hours that would cause them to bring their children to Caddo and key words they came up with were family, outstanding, diversity, collaborative, community, transformational opportunities. This gave them a start to see what the people look and see about the Caddo District. He shared quotes from those they spoke with, including students. Dr. Oborn added in the Team's attempt to build a team and mission, the team came up with "a vibrant school system in transition dedicated to the education of every child through the passionate embrace of a community and the academic resolve of life-long learning".

He shared information on AdvancED, formerly SACS, and the International protocol they are designed to do in building capacity, effectiveness, and overall improvement of the system. In looking at the impact for teaching and learning, Dr. Oborn explained they have five standards (Standards 3 and 5), they look at the capacity of leadership (the Board, Superintendent, principals and administrators) (Standards 1 and 2); and resources (Standard 4). He further explained the scores in these areas, the artifacts, and interviews help the Committee to determine its decision. Additional areas covered by the Team included (1) Powerful practices (what the Committee believes the District has done very well); (2) Opportunities for Improvement (issues the Committee saw and determined the Board should continue to work on these areas; and (3)

Proven priorities (things the Board has no choice in but must initiate (not complete) in 24 months or 2 years. Dr. Oborn reported that the District will receive an Index of Educational Quality (Score of 100-400) in the above areas as well as their recommendation. A total of 533 people were interviewed in one day and they found it better not to schedule the 128 students but to go into the classroom, lunchroom, etc. and have conversations with them. He recognized the Board members for coordinating their schedules and meeting with the Interview Team.

Dr. Oborn also reported on the inclusion of early learning which has over 300 indicators; and Dr. Gullatt, Early Learning Specialist, shared the results of his visits with parents, faculty and administration at 81st Street Early Learning Center and their outstanding job in addressing each indicator. Dr. Gullatt referenced the Power Practices and highlighted the parental response in how the school has approached these. He also addressed opportunities for improvement at 81st and its practices in reaching out to community partners for possible additional volunteers and financial support. Referencing the improvement priority, the school has approximately two years to look at and address this area. The school staff has looked at this area and how to address them by focusing on the data and digging deeper in learning practices. Dr. Gullatt referenced nurturing the children at these schools, and he believes that is accomplished through the PLCs to encourage children to attend school and provide them with a more positive learning situation while at school. Currently, he believes the preparation is in place and the PLCs should not give up but look more into the data, analyze it, and target the instruction so children can learn more.

Dr. Oborn reiterated the various domains the Committee looks at during the accreditation process, i.e. leadership and stakeholder engagement, and communication throughout the District. The Teaching and Learning standard, which is the largest with 16 indicators attached to it (Standards 3 and 5), includes curriculum quality, college and career readiness, and readiness at all levels. The Resource Standard is predominantly money (capital projects, sustainability, allocation and use of resources) and they do not audit this area but only look at where the expenditures rest with respect to the Strategic Plan and what the Board wishes to do. Dr. Oborn also introduced the Board to Eleot (a classroom instrument that looks at a learning environment and his team visited 108 classrooms in one day, each a minimum of 20 minutes. There are seven areas in Eleot, and he shared mean numbers of over 100,000 Eleots from last year; and congratulated Caddo on its scores in this area.

Caddo was congratulated for its high scores in the following Powerful Practices: its strong pervasive commitment to a continuous program of professional learning and the incredible data available to the District; the Board's, Superintendent's, and administration's efforts to keep the schools clean; the incredible amount of teaching and learning taking place in the classrooms and the students' responses that they feel safe; 20 years of positive financial audits and annually approving a balanced budget. Dr. Oborn shared the Team's two Improvement Priorities for the District in the areas of child advocacy and system-wide communications.

Following Dr. Oborn's presentation, he announced Caddo's score to be just under 300 (294.72) with the Network Average being 278.03, and it is the Team's recommendation to the AdvancED Accreditation Commission that the Caddo Parish School System earn the distinction of accreditation by AdvancED.

President Trammel called for a 15-minute recess and the Board recessed at approximately 4:10 p.m. and reconvened in open session at approximately 4:25 p.m.

Superintendent Goree thanked everyone (student, teacher, principal, cafeteria worker, bus driver, etc.) for the importance each played in what was accomplished in receiving this accreditation distinction for the District. He said it is the first of many accreditations and referenced Dr. Oborn's comments relative to Caddo scoring itself lower than what the Accreditation Team scored Caddo after evaluating the system. Dr. Goree clarified that the District did not go through this process just to be able to say it is accredited; but, so we could create the very best school system possible. Knowing we have not accomplished all we will, he stated he looks forward to the continued support in making changes necessary to make life better for all the children entering Caddo Schools. President Trammel extended her appreciation to the Board members

for taking the time to be interviewed by the Team, and she expressed thanks to the Superintendent and his team, the parents, and students because that is what makes the difference.

Recognitions. Mary Nash-Wood, assistant director of communications/marketing, on behalf of the Board, recognized the following students and staff members. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Walnut Hill Elementary/Middle School. Under the direction of Rebekah Hall, accompanied by Band Director Roy Gipson, Jr., the Walnut Hill Elementary/Middle School Advanced and Beginning choirs performed a medley of patriotic songs for the Board and audience.

National Merit Semi-Finalists. The following Caddo Parish Magnet High School students were recognized as 2017 National Merit Semifinalists: Mackenzie Brown, Bryan Chen, Matthew Given, Mary North Jones, Ankur Khanna, Daiwei (David) Lu, Antares McCoy-Villaneda, Sandra Shahriar, Nathan Smith and Nathan Speakes.

Perfect ACT Score. Daiwei “David” Lu (Caddo Magnet High School) was recognized for earning the highest possible ACT composite score of 36.

Outstanding Young Philanthropic Leader Awards. Julianna Gouthiere and Joey Gouthiere were recognized as the 2016 Outstanding Young Philanthropic Leaders by the Association of Fund Raising Professionals of North Louisiana for their efforts to encourage others to take a pledge against littering, provide stuffed animals for students in need (Julianna) and “geauxing” Green (Joey).

National PTA School of Excellence. As a result of the joint commitment to enrich the educational experience and overall well-being for all students, Fairfield Elementary Magnet was recognized for achieving the honor of “2017 National PTA School of Excellence”.

2016 Blue Cross/Blue Shield of Louisiana Foundation Angel Award Winner. Dr. Ruby Scroggins, principal of J.S. Clark Elementary School, was recognized as the winner of the 2016 Blue Cross/Blue Shield of Louisiana Foundation Angel Award for her efforts to break down the educational barriers created by poverty by establishing reliable access to food for her students and their families. Dr. Scroggins will receive a \$20,000 grant to the charity of her choice.

Virginia K. Shehee Most Influential Woman Award. Alan English, president of The Times, and Bridges Hall, Red River Bank, recognized Renee Ellis, principal at Westwood Elementary, as the recipient of the Virginia K. Shehee Most Influential Woman Award.

National Institute for School Leadership Graduates. The following graduates from the National Institute for School Leadership (NISL), the leading provider of high-quality, research-based leadership development programs designed to give district and school leaders the critical knowledge and skills they need to be instructional leaders and improve student achievement in their schools, were recognized: Shannon Wall, Jenifer Guerrero, Kasie Mainiero, Kristi Young, Glen Colvin, Marvin Alexander, Scott Aymond, Jeff Roberts, and Tyron Lacy. Victor Mainiero, Dr. Karen Peace, Patrick Greer and Ellyn McKinney were also recognized as NISL Certified Facilitators.

James O. Modisette Award for Exemplary School Library. C. E. Byrd High School Library was recognized for being awarded the “2016 James O. Modisette Award for Exemplary School Library”. Librarians Lynda Delo and Kimberly Adkins were recognized for their excellent work and achievement with the library program at C. E. Byrd.

Newly Appointed Administrators. Al Graham, director of classified personnel, recognized the following newly appointed administrators: Sandra Moody, Title I Budgetary Supervisor; and Jeff Chitwood, Risk Manager.

VISITORS

Jackie Lansdale, president of Red River United, addressed items of concern and importance to Red River United, including valuing those in the classroom to insure that every child has the opportunity for a quality public education by supporting teachers and employees, noting that the District has lost over 60 teachers since the start of school; one of Caddo's schools has approximately 50% substitute teachers; and the fact that Caddo teachers are last in teacher pay. She reminded the Board that in 1997 a Bond was renewed which moved the District from 17th in the State to second in the State in salaries. The public supported this move, and she believes we still have that public support today. She asked the Board if it recognizes the cost for one to become an educator, what an educator has to pay back, that the profession is made up primarily of women, and to support children, one must support those working in the classroom. She also asked the Board who it celebrates as a result of receiving today's accreditation.

Pam Peters, 18-year teacher in Caddo, addressed the Board on the proposed increase in insurance premiums and the fact that teachers have not had a raise in 10 years. She addressed the hardship of living on less than \$3,000 a month when the salary is not increasing but the bills are increasing. She encouraged the Board to invest in the teachers who are in the classroom every day and consider a long overdue increase in teacher salaries.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE OCTOBER 19, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Goree announced that Item 13.01 Student Expulsion Appeal has been resolved and is pulled from the agenda.

President Trammel proposed the following items as the consent agenda items: 6.01-6.04, 8.02, 8.04-8.07 and 13.02. *Mr. Green moved, seconded by Mr. Rachal to establish the proposed agenda and consent agenda as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Ms. Green, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The Board approved the Personnel Recommendations submitted by the Superintendent in the electronic mailout.

6.02 Administrative Contract Renewals-October 2016. The Board approved the Administrative Contract Renewals for October 2016 as recommended by staff and submitted in the electronic mailout.

6.03 Personnel Transaction Reports – Resignations The Board approved the Personnel Transaction Reports for the period of September 1-30, 2016 as submitted in the electronic mailout.

6.04 Request for Leave. The Board approved the request for leave as recommended by staff and submitted in the electronic mailout.

Item No. 8

8.02 Out of State Travel (General Fund) The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.04 2016-17 General Fund Budget Line Item Transfer – Move to approve the 2016-17 General Fund Budget Line Item Transfer as recommended by staff and submitted in the electronic mailout.

8.05 Resolution and Request for Consent Assignment JW Gathering – Move to approve the resolution and request for consent assignment for JW Gathering as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Request for Revision of Policy KG – Facility Rental – Move to approve the request for the proposed revision to CPSB Policy KG as recommended and submitted in the electronic mailout.

8.07 Recommendation to Declare Barret’s T-Buildings as Surplus – Move to approve the recommendation to declare Barret’s T Buildings as surplus as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.02 Legal update: Jerome Gillyard, Workers Comp Claim #4367594 (Office of Workers Compensation) – Move to approve resolution as recommended in the electronic mailout.

2017 INSURANCE RENEWALS

Mrs. Bell moved, seconded by Mrs. Poljak, to approve the 2017 Insurance Renewals as recommended by the Insurance and Finance Committee and presented in the electronic mailout.

Mrs. Lansdale noted the last insurance presentation she heard from the Board and the point the Board made to do comparisons with other districts and provide evidence that the Board had made the best decision. In her research of this, she found the cost for a teacher and her family to be \$613.80 a month; and when that teacher changed to her husband’s insurance, the monthly cost was \$490 a month. While she does not have disregard for the Board’s position in this, she said she only wants to bring to the Board’s attention the need to not make decisions in a vacuum but to look at the Board’s obligation to bring the best, most valuable product to its employees when the Board is effectively giving the employees a pay cut.

Mrs. Bell stated that the Committee met and agreed this recommendation is in the employees’ best interest and encouraged the Board to support the motion.

Mr. Rachal stated his appreciation to Mr. Watson and his staff for their hard work and accomplishments. With Caddo being a self-insured District, he said staff has brought many cost-savings programs that have been implemented, they have streamlined other programs and continued to negotiate to keep the cost of our insurance down without changing the coverage. He also noted that employees could have experienced an increase of up to six times what it is; and his only issues are that he has brought many other things for discussion that would save the District money and reduce expenses yet they have been avoided because of their sensitivity. He believes without these savings (reducing overhead with the District’s facilities, not replacing old buildings that keep operation expenses high), the teachers and other employees are paying the price. Mr. Rachal stated that teachers are the District’s most valuable asset and as noted in the AdvancED accreditation, the teachers need to be recognized for this. If we continue to spend money in areas which he believes to be wasteful, the teachers will continue to pay the price and carry the burden. Because we cannot count on the State to give us money for giving teachers a raise, he said the Board needs to do all it can to treat them as our most valuable asset.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried unanimously. Vote on the main motion carried unanimously.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell thanked Dr. Goree, his staff, the Board and everyone for their work in the accreditation process, and asked that consideration be given to hold a day of celebration for the District.

Mr. Riall announced he recently attended the Renaissance Program at Northwood High School. This program celebrates academic excellence and over 300 students were recognized for having a 3.0 or better average; and when adding the 9th graders, the total number is over 500, meaning over 50% of the school has a 3.0 or better average. Mr. Riall expressed appreciation to the teachers for the great job they are doing.

Miss Green thanked everyone for a job well-done in receiving today's accreditation. She said she is very proud of Caddo and the great things it has done and will continue to do. She also announced she will present her CUBE Conference report at the next work session.

Mrs. Poljak recognized and congratulated fellow Board member Denee Locke for receiving the Athena Award, an award given to professional women who have a heart for service. Mrs. Locke expressed her appreciation and how humbled she is to be the recipient of this award and how proud she is to be a part of the Board and a part of bettering the lives of children.

Ms. Trammel recognized Brad Bockhaus, member of the Bossier Parish School Board, in attendance today.

Adjournment. *Mr. Riall moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 5:30 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

November 1, 2016

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, November 1, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. JROTC students from C. E. Byrd High School posted the colors, and led the Pledge of Allegiance and invocation.

PERSONNEL RECOMMENDATIONS

Mr. Riall moved, seconded by Mrs. Bell, to approve the personnel recommendations as recommended by staff and submitted in the electronic mailout. Vote on the motion carried.

Adjourn. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:40 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

November 1, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, November 1, 2016 at approximately 4:40 p.m. (immediately following the Special Session) in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and Denee' Locke and Raymond Green present constituting a quorum. Also present were Board members Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Barry Rachal, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. The prayer and the pledge were omitted.

PRESENTATIONS

JROTC Corps Commander and BDE Commanders Promotions. The following students were granted promotions in the JROTC Program: Denisha N. Ford, Cadet LTC, C. E. Byrd High School, JROTC Cadet Corps Commander; Demestria Huglon, Cadet LTC, Woodlawn Leadership Academy, First Brigade Commander; Tyran Jackson, Cadet LTC, Captain Shreve High School, Second Brigade Commander; Nichola R. Atkins, Cadet LTC, Southwood High School, Third Brigade Commander; Nathanael Batongbakal, Cadet LTC, North Caddo High School, Fourth Brigade Commander; Alexander Floyd, Cadet LTC, Northwood High School, Fifth Brigade Commander; and Cadet Alexandra Prymek, Caddo Magnet High School, recipient of the Legion of Valor Award.

Manufacturing Week. Angie White, with the North Louisiana Economic Partnership, shared information on activities held during Manufacturing Week and how the event has grown in the three years since its implementation. In its pilot year (2014), approximately 150 students from Caddo and Bossier Parishes participated in the tours; and this year, approximately 900 students from nine school systems in Northwest Louisiana participated in the tours at manufacturing companies as well as manufacturing training programs. Ms. White noted how proud she is and how proud she wants the Board to be of the Caddo School System and its participation in this program which evolved from Jump Start. She noted the need to overcome the perception in the community of what manufacturing actually is and the opportunities that exist for students as they complete school. She also shared a publication that includes information on key occupations, training opportunities in and beyond high school, as well as the top four critical jobs in the area's manufacturers. Ms. White also reported on Frymaster's plan to work with Northwestern State University's Engineering and Technology Department to form a partnership to recruit more graduates.

Mrs. Bell asked if Jump Start students are selected to attend these tours or is it students who select those particular courses? Ms. White responded that some students in specific programs, i.e. engineering magnet program, biotechnology program, did go on the tours; and she tells all the career and tech education coordinators they work with to focus on Seniors enrolled at a local university and encourage them and the teachers to attend these local tours and ultimately be inspired to enroll in a local technical program, i.e. Louisiana Tech or Southern. She also added she believes it important to send sophomores since it takes place in the Fall of the year prior to their decision in the Spring on which pathway they will pursue. She shared her support of Jump Start and her willingness to be a partner in this program. Superintendent Goree expressed his appreciation for Ms. White and the NLEP's work to support the School District and make an economic impact in the community.

CUBE Conference Report. Jasmine Green, Board member District 2, reported on her recent attendance at the Council of Urban Boards of Education (CUBE) Conference in Miami, Florida. She shared her appreciation for the opportunity to attend this year's conference and attend the sessions hearing outstanding speakers address Equality vs. Equity, the main theme of the

conference. Wanting the Board to fully understand what this means, she shared a real life scenario.

The Superintendent shared his opportunities to travel to Baton Rouge and serve on the State Superintendent's Advisory Committee; in looking at the reauthorization of ESSA (Every Student Succeeds Act), the word equality is very relevant in this legislation and is being discussed at the Federal level and funding received, i.e. TAP, will be used to address some of these issues.

ESTABLISH AGENDA FOR THE NOVEMBER 15, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its November 15, 2016 meeting; and President Trammel stated that the Consent Agenda items are 6.02, 7.01 and 8.02.

Mr. Rachal requested a 3-5 year summary of the District's capital projects.

Mrs. Locke moved, seconded by Mr. Green, to approve the proposed agenda and consent agenda for the November 15, 2016 CPSB meeting as presented. Vote on the motion carried.

ANNOUNCEMENTS

Miss Green again thanked the Board for the opportunity to share with the Board a report on her attendance at the CUBE Conference.

Mrs. Bell expressed condolences on behalf of the Board to President Trammel in the loss of her brother and Mr. Green in the loss of his brother.

Mr. Green expressed his appreciation for Board's expression of kindness extended to him in the loss of his brother.

President Trammel reminded the Board that at their stations are evaluation/observation forms for the Superintendent's Evaluation and that they should be turned in to her within the next week. She also thanked the Board for their expressions of concern in the loss of her brother.

Adjournment. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:23 p.m.*

November 15, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, November 15, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Ramsey and Mrs. Brown were absent. Mr. Albritton led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE OCTOBER 19, 2016 AND NOVEMBER 1, 2016 CPSB MEETINGS

Mrs. Bell moved, seconded by Mrs. Locke, to approve the minutes of the October 19, 2016 and November 1, 2016 CPSB meetings as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of marketing/communications, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Keithville Middle School String Orchestra. The Keithville Middle School String Orchestra, under the leadership of Itinerant Teacher Sue Ellen Coleman, shared two musical arrangements.

Siemens Competition in Math, Science and Technology Regional Finalist. Senior Ankur Khanna, Caddo Parish Magnet High School, was recognized as one of 30 recipients of this award, and the only recipient in the State of Louisiana for 2016. He will receive a \$1,000 scholarship to the college of his choice.

World Field Archery Championship Participant. Charles "Hardy" Trafford, C. E. Byrd High School student, was recognized for placing 20th in the world as a member of the U.S. Field Archery Team in the national competition last month in Dublin, Ireland.

Northwestern State University Distinguished Educator. Robert Sylvie, assistant principal at Captain Shree High School, was recognized for being inducted into Northwestern State University's Gallaspy College of Education and Human Development Hall of Distinguished Educators.

CPSB Support Persons of the Year. The following support employees were recognized as the winners of the 2016 CPSB Outstanding Support Employees: Elementary School Division – Ed Jones, Security Coordinator, Queensborough Elementary; Middle School Division – Tracy Sparaco, Office Clerk, Herndon Elementary/Middle Magnet; High School Division – Dana Fuller, Office Clerk, Caddo Parish Magnet High; Academic Affairs – Dedra Marshall, Budget Control Secretary, Department of Exceptional Children; Operations – Peola Cain, Secretary, Attendance/Census Department; Human Resources – Juan Howard, Data Entry Information Services, Human Resources/Certified Department; and Finance Division – Shannon Slaughter, Bookkeeper, Finance Department.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: Yenshacillia (Sheba) Williams, Instructional Specialist, Curriculum Department; Bridgette Brown, District Executive Master Teacher, Queensborough; Rick Carson, Attendance Supervisor, Attendance/Census Department; and Phyllisia Mason-Hollins, Instructional Technologist, Professional Development.

As a point of personal privilege, Board member Bell asked everyone to remember Alex Xifos's family in his passing.

CADDO EARLY CHILDHOOD COMMUNITY NETWORK AND COORDINATED FUNDING REQUEST FOR PUBLIC COMMENT

President Trammel announced that public comments are welcomed on the Caddo Early Childhood Community Network and Coordinated Funding request. There were no speakers/comments relative to this matter.

VISITORS

Rob Broussard, president of the Broadmoor Neighborhood Association, addressed the Board on the following matters: (1) look to "trim the fat" in the budget more, i.e. legal expenses, Superintendent's pay raise; (2) that whatever pay percentage increase is given to the Superintendent that the same percentage be given to teachers; (3) define how many hours a day/week a teacher should work; and (4) a fence around A. C. Steere Elementary. He stated he believes fences can create hazards and unsafe conditions for students and he cautioned the Board in building fences around schools, specifically around historic A. C. Steere. Mr. Rachal asked that a time be scheduled for staff to meet with Mr. Broussard.

Jackie Lansdale, president of Red River United, addressed the following areas of interest/concern: (1) CPSB Policy ABB (Powers and Responsibilities of the Board) and the responsibility included to consider, modify and adopt an annual budget; (2) the need for the Board to consider all available funding sources, i.e. Commerce and Industry Industrial Tax Exemption; (3) changes in the future and their dismay that the CPSB did not wish to engage in conversation with the Louisiana Board of Commerce and Industry to express a position regarding these costly exemptions; (4) the possibility of the State taking away 3% of the District's Title I funds; (5) Caddo is no longer in the top salary rankings in the State; (6) the Board's authority of not only the budget but to set employee salaries and use all available funds to do so. She asked that the Board place the needs of the boys and girls of Caddo before special interest needs.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced that Items 6.02-6.03, 7.01, 8.01-8.02 and 13.01 are the consent agenda. *Mrs. Bell moved, seconded by Mr. Rachal, to establish the agenda and proposed consent agenda as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Mrs. Bell, to confirm the consent agenda (6.02-6.03, 7.01, 8.01-8.02 and 13.01). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda.

Item No. 6

6.02 Administrative Contract Renewals-November 2016. The Board approved the Administrative Contract renewals for November 2016 as recommended by staff and submitted in the electronic mailout.

6.02 Personnel Transaction Reports-Resignations. The Board approved the Personnel Transaction Reports-Resignations for the period of October 1-31, 2016 as submitted in the electronic mailout.

Item No. 7

7.01 Bids. Purchasing. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Nasco for the purchase of Art Supplies & Equipment; and (2) School Aids for the purchase of Student Backpacks & Supplies. *The bid tabulation sheets are filed in the official papers of the November 15, 2016 CPSB meeting.*

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the request for long-term use of Southwood High School's Auditorium as recommended by staff and presented in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out-of-state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeal. The Board approved staff's recommendation for student DK as submitted in the electronic mailout and whose parents are in agreement.

2016-17 PROPOSED CAPITAL PROJECTS AND DESIGNERS

Mrs. Bell moved, seconded by Mrs. Poljak, to approve the 2017-18 School Year capital projects and professional designers as recommended by staff and submitted in the electronic mailout.

Mrs. Bell encouraged the Board to support the motion on the floor so that much needed repairs can be made to Caddo's old existing buildings/school sites. She noted that the projects on the list are important in order to save Caddo's schools/buildings.

Mr. Riall asked for clarification on replacing the man hole at the cafeteria for \$225,000. Mr. White explained that replacing the man hole includes also replacing the grease trap at the school and the antiquated clay lines.

Mr. Rachal noted there are always a lot of requests when the buildings are as old as they are and pointed out the following: (1) In 2014-15 approximately 36% of the projects were unplanned; (2) in 2015-16, 13.5% went to unplanned items; (3) 2016-17, approximately 19.7% will be used for unplanned items. Mr. Rachal commended Mr. White's efforts to take care of Caddo's aged buildings and Mr. Rachal stated he does not see this trend changing. Mr. Rachal noted he has attempted for 12 years to set aside capital project dollars for the construction of new buildings/schools and if this had been done, there would be approximately \$12 million that could be used toward this. While he understands the need, he believes if something is not done with the capital projects budget for addressing the future need of new school buildings, the percentage used for unplanned items will only increase. Mr. White confirmed it is typical that as buildings age, there will be a need for increased dollars to keep them operable and occupied, i.e. HVAC, maintenance, sewer systems, electrical, etc. He also noted preventive steps being taken to address specific needs and the aging infrastructure of the system. Mr. Rachal noted how the District depends on Mr. White and his staff along with the Maintenance Department to keep things open and running in the older facilities. Dr. Goree stated his agreement for the need of a master plan within the District's master plan to address this issue of replacing aging facilities because the current plan is not designed with this included as a goal; but in approaching the mid-year review, this may be something the Board wishes staff to explore including in the Strategic Plan.

Mr. Rachal stated he doesn't believe he is the only Board member concerned about this and the fact that the public does not want to give the School System any additional money. Relative to the reference to the 2014 millage renewal and the plan to replace and right-size the District, Dr. Goree reminded the Board that the focus has been on right-sizing the District and determining where schools are needed based on population. Mr. Rachal shared he believes there is more

money spent on buildings than in the classrooms for students. He also believes schools could be consolidated and new schools built. Mr. Rachal asked that in the future the capital projects be presented to the Buildings and Grounds Committee prior to coming to the Board for approval.

Mrs. Bell noted the need for these funds to maintain what we have now and what needs to be done. She asked if a portion of the proposed \$20 million is set aside, how a decision will be made on which projects will be done. Dr. Goree stated his agreement with both Board members and clarified that he and Mr. Rachal's conversation was around looking strategically at how much of the money could be put aside and still maintain the maintenance of the schools. Additional conversations among Mr. White, Mr. Woolfolk and himself focused on the immediate concerns, i.e. HVAC systems that are still operable but beyond their life span. Dr. Goree stressed the need for strategic planning if monies are to be put aside for the building of a school. Mrs. Bell added if the public could see how we are attempting to keep Byrd, and others, up and running, she believes they would better understand. Dr. Goree added how critical being transparent is in making these decisions since the taxpayers spoke clearly about building a school and we must do a better job of communicating that need and fiscal responsibility in carrying out whatever is decided.

Mr. Albritton noted (1) the need to right-size the district and take care of the population and much of this money does not need to be spent maintaining facilities the district does not need; and (2) in rolling back the dollars and adjusting the tax rates to accommodate the increase, this is a political thing and has nothing to do with taking care of the needs of Caddo Parish; and as a Board member, it is important for him to make decisions that are best for the students in the parish and all the schools. Mr. Albritton stated that at this time he believes the Superintendent is very much aware of what is needed, and the Board needs to move forward and talk about these issues at budget time when priorities are set.

Mr. Riall moved, seconded by Mrs. Locke, to call for the question. Vote on the motion to end debate carried unanimously. Vote on the main motion carried with Board member Rachal opposed.

SUPERINTENDENT'S REPORT

Superintendent Goree stated that he has nothing to add to the items submitted for the Board's information. He added that he received an invitation for the Board to participate in the Family Preservation Court, Caddo Parish Juvenile Court, to its 2nd Annual Thanksgiving Dinner on Wednesday, November 23, 2016 at 5:30 p.m. in the lobby of the Juvenile Court Complex. Mrs. Bell further explained that this is for the parents of students who have been removed from the parents allowing them to have this meal together.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell wished everyone a Happy Thanksgiving.

Miss Green thanked the Booker T. Washington and Green Oaks principals for the successful Soul Bowl. She said it was a great time and she looks forward to many more in the future.

Mr. Rachal noted Back the Badge activities for University Elementary and Youree Drive Middle School, and he commended those involved in the Veterans Day Program at Captain Shreve.

Mr. Riall reported he attended the Veterans Day Program at Northwood and North Caddo high schools. He also thanked the Superintendent for moving forward with tearing down Rodessa.

Dr. Douzart also extended kudos to Queensborough and Fair Park for outstanding Veterans Day programs.

President Trammel reminded the Board that LSBA Annual Meeting notices are at their stations and to let the Board Secretary know if you plan on attending. She also noted the program at Eden Gardens Elementary Magnet School in conjunction with the 2016 Presidential Election.

Executive Session. Superintendent's Evaluation. *Mrs. Locke moved, seconded by Mr. Rachal, to go into executive session for approximately 15 minutes for the Superintendent's Evaluation. Vote on the motion to go into executive session carried and the Board went into executive session at approximately 5:48 p.m.*

The Board reconvened in open session at approximately 6:11 p.m.

Mr. Albritton moved, seconded by Mr. Riall, to approve the evaluation of the Superintendent, the 2015-2016 and 2016-2017 goals, and authorize the Board President to evaluate whether the Superintendent is entitled to incentive pay based on his achievements relative to his goals. The achievement level will be determined by information from multiple sources. Vote on the motion carried unanimously.

Adjournment. *Mrs. Locke moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 6:15 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

December 6, 2016

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, December 6, 2016 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with First Vice President Denee' Locke presiding and Raymond Green present constituting a quorum. President Mary Trammel was absent. Also present were Board members Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Mrs. Bell led the prayer and Pledge of Allegiance.

PRESENTATIONS

Veterans Day. Mr. Railiff Godfrey, vice chairman of the Veterans Day Celebration Committee, shared with the Board, on behalf of Caddo Parish Commissioner Ken Epperson, a letter of appreciation to the Caddo Parish School Board and Superintendent Goree for affording the opportunity for over 1,000 Caddo students to participate in the Veterans Day Parade and many other Veterans Day activities in the schools. He also recognized Col. Eric Sweeney, a member of the committee, for his expertise in handling the logistics of this momentous event along with his staff. He said they look forward to this continued relationship and Caddo's participation in this annual event. Superintendent Goree extended the District's gratefulness for the opportunity to participate in the parade and additional Veterans Day activities. Denee' Locke, on behalf of the Caddo Parish School Board, extended appreciation to Mr. Godfrey for this opportunity for Caddo students.

ESTABLISH AGENDA FOR THE DECEMBER 20, 2016 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its December 20, 2016 meeting; and the following discussion ensued.

Additions. Board member Poljak asked that *Extension of the Superintendent's Contract to the Legal Limit* be added to the December 20th agenda.

Purchasing Bids. Mrs. Bell asked for clarification on the purchase of individual school band uniforms. Superintendent Goree explained it is set up on a rotation schedule managed through the Department of Academics and a recommendation from the music supervisor as to needs.

The Interlocking Purchasing System. Mr. Rachal asked for clarification on where the District is in this process of the plan for all the schools. Superintendent Goree responded that this item speaks to a consortium of organizations that have come together for purchasing purposes. This action will allow the District's Purchasing Department, in moving forward with purchases, to insure through this additional option that we are getting the best value in purchases. Mr. Riall asked if this is basically a buying group, and Dr. Goree explained that it is fair to call it this.

Request Authorization to Piggyback on the City of Alexandria's Bid #2075 & Hixson Ford Autoplex for Vehicles. Mr. Rachal asked about a delivery fee on these vehicles, and Ms. Lloyd explained there is no pick-up fee because Caddo's Transportation Department employees drive and pick up these vehicles. Through this process, Mr. Rachal asked if staff talks to any of the local dealerships about proposals. Ms. Lloyd explained that typically vehicles are bought from State Contract but Hixson Ford was able to provide a price better than the State price, so staff is recommending approval of this cooperative agreement with the City of Alexandria for the purchase of any needed vehicles. In response to Mr. Rachal's request relative to who/what dealers did staff visit, and Ms. Lloyd responded she could get the list of who was contacted from employees in her department and provide it. Mr. Rachal stated that he is asking because he contacted a local dealership and they reported they never received or responded to any proposal.

Ms. Lloyd explained that an official proposal was not done. Mr. Rachal asked if any of the local dealers were given the opportunity to provide a quote on these vehicles. Mr. Lee added that because the State Contract is usually the better price, and the most competitive, it typically keeps the District from going through a bid process. Mr. Rachal asked if a local dealer was interested in selling the District his vehicles, would the dealer notify the State; and Ms. Lloyd agreed with that statement. Ms. Lloyd further explained this request came through the Maintenance Department for cargo vans, heavy-duty pick-up trucks, and attachments needed on those work vehicles. Mr. Rachal asked if in the future we can send what we are looking for to local dealers to determine if they can beat the State Contract price. Ms. Lloyd stated Caddo definitely wants to support the local businesses and staff can certainly consider this. Dr. Goree asked Ms. Lloyd to explain to the Board what “piggyback” means, and Ms. Lloyd said it is jargon for “a cooperative agreement” which means, in this particular instance, that the School Board agrees with the City of Alexandria and the vendor (Hixson) to provide the service for the item in the established contract will be honored under the same terms and conditions in accordance with State Statute. Mr. Rachal asked if the Board approves this, is it locked into using this agreement or will we still have the opportunity to hear from the local dealer and what they can do. Ms. Lloyd agreed it is another contract available for the District’s use. Mr. Rachal asked if we are doing this because there is an immediate need for these vehicles in the Maintenance Department, and Ms. Lloyd responded that is correct and she has an order on her desk for these vehicles. While we did have a contract with another vendor, Ms. Lloyd explained they quoted the bid with Hixson and they were able to provide the vehicles at a lower cost.

Mr. Rachal asked about the possibility of submitting something to local dealers prior to the Board approving this request to see what they can offer. Mr. Abrams explained that it cannot be done that way because there must be a bid. Staff is bringing to the Board information on a bid that has already been done to see if Caddo can piggyback on that bid and take advantage of the low cost being offered. The District must either purchase the vehicles off the State Contract, piggyback on this bid that has already been done, or Caddo can do its own bid to see what the response might be. Because Hixson has already put it out for bid and received a price that is better than the State Contract, Mr. Abrams explained Caddo will not have to pay to go through the bid process but can take advantage of the City of Alexandria’s bid. Mr. Rachal stated that while all this is good, he believes it is nice if we can do business locally.

Mrs. Bell asked how long do we keep vehicles? Ms. Lloyd responded that she does not believe there is a set amount of time you must keep the vehicles, with the exception of school buses which you can have no more than 25 years, but the condition of the vehicle and the extent of repairs for a vehicle is taken into consideration when making the decision to no longer keep a vehicle. Mr. Lee added that the District drives its vehicles until it is no longer feasible to continue doing repairs on them.

Mr. Riall asked if the State Contract is with the City of Alexandria, and Ms. Lloyd explained the cooperative agreement is with the City of Alexandria. Mr. Riall asked if Hixson Ford must agree to the piggyback agreement in order for Caddo to purchase vehicles on their State Contract? Ms. Lloyd said that is correct and they are in agreement.

Miss Green asked about the upgrades on these vehicles, and Ms. Lloyd said typically a base vehicle is purchased and it is customized according to what the vehicle’s use will be. Miss Green asked about “hands free” options and Ms. Lloyd indicated while these are options, they are not necessarily options the District would purchase. Miss Green stated there are employees driving fully loaded vehicles; and Jim Lee explained that any upgrades to a base vehicle are work-related upgrades. Miss Green asked someone to explain day and night mirrors, and Mr. Lee explained the mirrors with this functionality automatically will dim if headlights are reflecting in them.

Mrs. Poljak asked about the number of vehicles in this request, and Ms. Lloyd responded there are three currently. Dr. Goree added these three are replacements for aged vehicles. Dr. Douzart asked if the District sees any benefit/profit from salvaged vehicles that are sold, and Ms. Lloyd explained when they are sold in salvage, the funds are turned over to the Finance Department and the dollars added to the General Fund.

Consideration of Approval of 2017-2018 CPSB Calendar. Mr. Ramsey asked if the start time and bell schedules on this calendar are the same as the 2016-17 school year calendar. Mr. Burton said they are.

Mrs. Poljak asked if the calendar in place has received positive feedback from the teachers, i.e. improved instruction because of the slightly longer day. Mr. Burton responded at the beginning of school, concern was expressed for additional minutes in the day and if students were tired at the end of a longer school day; and they recently learned from the employee organizations that their members are sharing positive results from the change. For this calendar, Mr. Burton further explained they were hesitant to move away from the bell schedule when they have not received any data on its effectiveness, and hopefully after receiving two years of data, they will be able to determine if this schedule is working or if there is a need to move away from it.

Mr. Green asked for additional information on the involvement in looking at the proposed school calendar? Mr. Burton explained they were inclusive of all employee organizations, with members of the groups being in attendance, a variety of options was presented for their consideration and the proposed calendar is the result of the Calendar Committee's work.

Mr. Riall asked how many student days are in the current school calendar, and Mr. Burton said there are 167. Mr. Riall asked if there are ample days in the calendar to cover any snow, bad weather days, and Mr. Burton confirmed there are. Relative to Easter Break, Mr. Riall asked about this being on Monday and not Friday, and Mr. Burton explained that Easter is combined with Spring Break and the Friday during Spring Break is Good Friday.

Dr. Goree complimented Mr. Burton and members of the Calendar Committee on their work to develop this calendar which he believes accomplishes things the schools have indicated they needed, i.e. addition of Professional Development Day at the beginning of the school year allowing schools more time to prepare for receiving the children. Also, he noted the calendar provides breaks (3-5 days each month), which research indicates does improve attendance.

Mrs. Bell asked to receive a copy of the Year-round School schedule.

Extension of Superintendent's Contract. Mrs. Poljak explained that she is asking the Board to consider extending the Superintendent's Contract to the legal limit it can do so.

Miss Green asked when will the Superintendent's Contract end, and Mr. Abrams responded he believes it is December 2018. Miss Green asked if the Board can be provided some facts prior to the next meeting, and what the extension date will be. Mrs. Poljak explained that the legal extension is no more than two years past the end of the Board's current term and no more than four years from the December 20, 2016 meeting.

Mrs. Bell asked Mr. Abrams if this extension would include an increase in salary, and Mr. Abrams explained it depends if the motion made includes a dollar amount; but as he understands the motion presented today, it is to extend the Superintendent's contract and if the Superintendent agrees, it is under the same terms and conditions of the current contract, which does not include any more money. Mrs. Poljak clarified her motion will be an extension of the current terms.

Mr. Rachal asked that the Board members receive a copy of the current Superintendent's Contract to review prior to the meeting on December 20th.

Following discussion, First Vice President Locke stated the following items are the Consent Agenda: 6.02, 7.01 and 8.01-8.08.

Mr. Green moved, seconded by Mrs. Locke, to approve the proposed agenda and consent agenda for the December 20, 2016 CPSB meeting as presented. Vote on the motion carried.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, stated that all employee organizations were present in the meeting on the calendar and everyone is very pleased with the calendar presented for the Board's approval. She said this calendar supports using what the District already has available and doing what is best for children and academic success as a result of breaks.

ANNOUNCEMENTS

Mrs. Bell noted that since she has served on the Board, this year is the first time there were no speakers against the proposed calendar; and she expressed appreciation to the Superintendent and Calendar Committee for their work in bringing this calendar. She also extended congratulations to Samuel Davis, Caddo Middle Magnet, on winning Caddo Middle Magnet \$30,000 and \$15,000 for himself.

Miss Green recognized the accomplishments in District 2 schools during 2016 and how proud she is of District 2. Mr. Riall extended congratulations to the entire district on the scores and thanked the schools and teachers on their great job.

Mr. Green expressed his appreciation for the work of the Calendar Committee.

Mrs. Poljak echoed Mr. Riall's comments and noted the fact that 75% of Caddo's schools saw improvement, and she believes this is great.

Adjournment. *Mr. Green moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:25 p.m.*

December 20, 2016

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, December 20, 2016 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown were absent. Mrs. Bell led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE NOVEMBER 15, 2016 AND DECEMBER 6, 2016 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Ramsey, to approve the minutes of the November 15, 2016 and December 6, 2016 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of marketing/communications, on behalf of the board, recognized the following staff members and students for recent achievements. President Trammel and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Eden Gardens Fundamental Elementary Magnet Choir. The Eden Gardens Fundamental Elementary Magnet Choir, comprised of 3rd, 4th and 5th graders and led by Jerry Maiden, Jr. and Colleen Wray, shared a selection of Holiday songs for the Board and audience.

Annual Party with a Purpose for Homeless Education. Dottie Bell and Levada Palms shared a report on their Annual Party with a Purpose that began 10 years ago and focuses on the homeless students in Caddo Schools. A check in the amount of \$5,500 was presented to Caddo's Homeless Education Department to help meet the needs of homeless children in the District.

2016 Christmas in Roseland Winners. The following students were recognized as winners in the Christmas Cards to the Community Program which began 24 years ago. Elementary – Fairfield Elementary Magnet, 1st Place; and Mooringsport Elementary, 3rd Place. Middle School – North Caddo Middle – 2nd Place. High School – Captain Shreve High School, 3rd Place. Mooringsport Elementary School, Art Teacher Leslie Snow, was also recognized as the Best of Show Winner.

2016 Annual Greening of the Louisiana State Exhibit Museum. The following schools were recognized for placing in the 2016 Annual Greening of the Louisiana State Exhibit Museum: 4th Place Prize – Riverside Elementary, \$50; 3rd Place Prize – North Highlands Elementary, \$75; 2nd Place Prize – Southern Hills Elementary, \$100; and 1st Place Prize – Eden Gardens Fundamental Elementary Magnet, \$150.

2016 Louisiana State Fair Baton, Dance Line and Cheer Champions. The following groups were recognized as champions in the 2016 Louisiana State Fair Baton, Dance Line, and Cheer Competitions: Elementary Division – Blanchard Elementary Cheerleaders; Middle Division – Donnie Bickham Middle Patriot Bells; and High School Division – C. E. Byrd High Steppers.

VISITORS

Dr. Phillip Rozeman addressed the Board in support of the extension of Dr. Goree's contract and applauded the Superintendent for his outstanding leadership and the traits that make a great leader. He thanked the Board for thinking ahead and looking at ways we can keep Dr. Goree in

the community. Dr. Rozeman also addressed the Caddo schools (21) that are in the top quarter in the State for improvement and that he sees transformation in this District.

Jan Johnson, a sub teacher with CPSB, addressed the Board regarding her concern about a breach of contract when she reported to work as instructed but the administration asked her to leave. Ms. Johnson requested that she be paid for a full day's work. President Trammel asked that she speak with Mrs. Atkins.

Ken Krefft asked that the Board consider the extension of the Superintendent's contract in January of 2018, 12 months prior to its expiration. He also recited a Christmas poem by Clement Clark Moore – 'Twas the Night Before Christmas!

Jackie Lansdale, president of Red River United, along with Dawn Jordan, Caddo Association of Educators, and Kim Burton APEL, shared with the Board a video reflecting the past, present and future beginning in 1997 when teachers were granted a pay raise and became the second highest paid teachers in Louisiana; and asking that the Board consider a much needed raise for its teachers since they are now one of the lowest paid in the State.

Tim Magner, president of the Greater Shreveport Chamber of Commerce, spoke in support of extending Superintendent Goree's contract. He stated the business community's need for the school system in attracting new businesses and providing the highly educated workforce needed for the growing jobs in the community. Appreciating the strides made this year in education and improving academic achievement, Mr. Magner noted the need for a strong, stable leadership to continue this improvement and the positive impact on the business climate. He expressed appreciation to Dr. Goree for his leadership and improvements seen, as well as the teachers and administrators at the schools for their efforts to continue improving the District. Mr. Magner encouraged the Board to support the extension of Dr. Goree's contract.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board's consideration and President Trammel proposed Items 6.02-6.03, 7.01, 8.01-8.09, and 13.01 as the consent agenda. *Mrs. Locke moved, seconded by Mr. Green, to establish the agenda and the consent agenda as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mrs. Poljak, to confirm the consent agenda. Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

Item No. 6 (Personnel Transactions Report)

6.02 Administrative Contract Renewals. The board approved the administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

6.03 Personnel Transaction Reports – Resignations, November. The board approved the personnel transaction reports (November resignations) as recommended by staff and submitted in the electronic mailout.

Item No. 7 (Bids)

7.01 Purchasing. The board approved the following bid for the purchase of band uniforms for C. E. Byrd as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet(s): Demoulin Brothers & Company. *The bid tabulation sheet is filed in the official papers of the December 20, 2016 CPSB meeting.*

Item No. 8 (Other Action Items)

8.01 Property/Bus Rental Requests. The board approved the request for use of CPSB property and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Additional Mental Health Interagency Contracts. The board approved the additional mental health interagency contracts for providing services to students as recommended by staff and submitted in the electronic mailout.

8.04 Authorization for Salvage Sale – Equipment and Supplies. The board authorized staff to hold a salvage sale for equipment and supplies as submitted in the electronic mailout.

8.05 Resolution & Declaration of Official Intent – The Interlock Purchasing System. The board approved the resolution and declaration of official intent to use The Interlock Purchasing System as recommended by staff and submitted in the electronic mailout.

8.06 Request Authorization to Piggyback – City of Alexandria Bid #2075 & Hixson Ford Autoplex for Vehicles. The board authorized staff to piggyback on the City of Alexandria's Bid #2075 and Hixson Ford Autoplex for needed vehicles as requested and outlined in the electronic mailout.

8.07 Consideration of Approval of C. E. Byrd High School Coke Contract. The board approved the Coke contract for C. E. Byrd High School as recommended by staff and submitted in the electronic mailout.

8.08 Consideration of Approval of 2017-2018 Proposed Caddo Parish Calendar. The board approved the proposed 2017-2018 Caddo Parish School Calendar as submitted in the electronic mailout.

Item No. 13 (Executive Session)

13.01 Student Readmission Appeal Hearings. The board approved staff's recommendations for Students AP, MW, DP, CW, VN and RM as submitted in the electronic mailout and the parents are in agreement.

CONSIDERATION OF EXTENSION OF SUPERINTENDENT'S CONTRACT

Mrs. Poljak moved, seconded by Mrs. Bell, to extend the superintendent's contract through December 20, 2020 based on the same terms and conditions indicated in the original contract as amended by the first amendment to the superintendent's contract. Mrs. Poljak stated she brings this motion to extend the superintendent's contract because (1) stability is very important, and is something Caddo has not had in a while, for turnaround districts to succeed eight to ten years of stable governance is needed. She believes that because todate Caddo has had three years of good, stable governance under the current superintendent, an extension of his contract to 2020 will allow Caddo to reach an approximate eight-year period. Second, she said she believes Dr. Goree deserves to be rewarded for a job well-done with graduation rates increasing substantially, ACT and AP scores have increased with 75% of the schools in the District seeing significant improvement. She added she believes extending the superintendent's contract ultimately rewards the children who believe they have a brighter future because of a solid education foundation.

Mrs. Bell echoed Mrs. Poljak's comments and during her term on the board her constituents have continued to ask when the board will do something to stop superintendents from leaving every two to three years. She said stability is important and is why she supports the motion before the Board.

Mr. Ramsey called attention to the good, positive comments by speakers; and having seen more superintendent searches than anyone on the board, the cost to conduct them, he believes Caddo now has a quality person in place and the data reflects he is performing well and supporting this extension is the right thing to do.

Miss Green stated she does not disagree with any of the comments made; however, she believes it only fair to new Board members that will come on board in 2019 to have the opportunity to make the decision to keep the superintendent or not. She also expressed the concerns of her community in this process.

Mr. Riall moved, seconded by Mr. Ramsey, to call for the question. Vote on the motion to end debate carried.

Vote on the main motion carried unanimously.

As a point of personal privilege, Mr. Ramsey stated five of the Board members voting for this extension were not allowed to vote on the last extension. Ms. Trammel also shared that even though each Board member has its own opinion, she believes the current Board is coming together well. For her, she believes the fact that she had no calls relative to this agenda item is encouraging, and she encouraged the superintendent and his staff to continue the good work it is doing. She also added that she can attest to how difficult the task when searching for a new superintendent and commended the Board for working together.

ELECTION OF 2017 CPSB OFFICERS

Mrs. Poljak moved, seconded by Mr. Green, to accept the following slate as the 2017 CPSB Executive Committee: Denee' Locke, president; Dottie Bell, 1st vice president; and Steve Riall, 2nd vice president.

Miss Green moved to accept the following slate as the 2017 CPSB Executive Committee: Denee' Locke, president; Barry Rachal, 1st vice president; and Bonita Douzart, 2nd vice president. The substitute motion died for lack of a second.

Vote on the original motion carried with Board member Douzart abstaining.

AUTHORIZE USE OF FACSIMILE SIGNATURE BY THE PRESIDENT

Mr. Rachal moved, seconded by Mr. Ramsey, to authorize the use of facsimile signature of the President. Mr. Rachal asked for clarification and with current technology if it is possible to add electronic signatures. Mr. Lee stated that checks are printed with the facsimile signature but it is not actually an electronic signature. Mr. Rachal said he believes using an electronic signature is much easier; and Mr. Lee explained that at this time there has not been any request to use an electronic signature by any of the vendors Caddo conducts business with. Vote on the motion carried.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal extended congratulations to the newly elected officers and he looks forward to a good year in 2017.

Ms. Trammel expressed appreciation to the Board for electing her to serve as the 2016 president and the wonderful learning experience it has been for her; and she introduced the new members of the executive committee.

Mrs. Bell congratulated Ms. Trammel on being a great leader and wished everyone a Merry Christmas and Happy New Year.

Mr. Ramsey wished everyone a Very Merry Christmas and thanked everyone for their prayers, calls, cards and support.

Mr. Riall congratulated the Board on becoming a unified Board as well as the staffs in the school for their great job in helping the students progress this year.

Miss Green stated that 2016 was a great year for District 2 with all her schools increasing as well as a Principal of the Year. She also expressed she looks forward to the coming year and stated that she expects the new E Board to follow rules and procedures, knowing the Roberts Rules of Order.

Ms. Trammel extended congratulations to Miss Green upon completing mortuary school course work.

Superintendent Goree congratulated Ms. Trammel on a great year as President; and he also thanked the School Board for their confidence in him and his leadership. Attesting that the superintendent's job is definitely not the easiest he has ever had, he confirmed that it is certainly the most rewarding he has ever done. Dr. Goree also acknowledged his staff and appreciation for the work they do to make his job so much easier. He asked the Board for time to continue to move the School System forward for the children.

Adjournment. *Mr. Rachal moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 5:53 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

January 10, 2017

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, January 10, 2017 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and Dottie Bell and Steve Riall present constituting a quorum. Also present were Board members Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Mrs. Brown was not present. Mr. Riall led the prayer and Pledge of Allegiance.

PRESENTATIONS

Special Presentation. On behalf of the Board, President Locke recognized Mary A. Trammel for her service as President of the Caddo Parish School Board in 2016. On behalf of the staff, Superintendent Goree thanked Ms. Trammel for her outstanding job in presence and leadership during her tenure as President of the CPSB.

GM Plant Update – Glovis America. Chief Financial Officer Jim Lee introduced Charles Gallub, real estate developer, who shared information on (1) what he does (develop auto logistics ports), (2) this project, and (3) the help and support needed from the CPSB. He shared other similar projects and the successes seen, i.e. Philadelphia, Jacksonville and Georgia; and that all the jobs associated with these projects are family sustaining and include benefits (health care, vacations) with an objective to become part of the communities in which they locate. Mr. Gallub explained to the Board what an auto logistics port is, and that Glovis America is the auto logistics arm for the Hyundai and Kia automobile group, the tenth largest car manufacturer in the world. As the real estate developer, Glovis America asked that he help them with the logistics of getting cars manufactured in Mexico into the U.S. to be received, checked, secured, customized and redistributed. Mr. Gallub explained they looked at an area from New Orleans to west of Dallas to south of Houston, and determined a Shreveport location would allow distribution to the maximum number of people without going backwards; and Shreveport had the ability to meet their infrastructure need in the former General Motors plant. Mr. Gallub announced an agreement has been signed between the Parish and Glovis to open a facility and the first phase of the plant has been opened with the first three phases of the project employing approximately 100 each; and hopefully, there will be 300 employees in place by the end of the year. To make this work, Mr. Gallub stated there is a need to establish a Free Trade Zone to allow vehicles coming from Mexico to not be taxed until they are sold and leave the facility rather than when they come into the facility. To accomplish this, a sponsor is needed and for this project it is the Port of Shreveport-Bossier, who has an established Free Trade Zone. He explained that under the Free Trade Zone Act, you can take an adjacent facility (one in the coverage area of Caddo Bossier Parish) and make it a subzone, and it is their plan to submit an application for the sub-zone designation. As part of the sub-zone designation, any taxing body who *could* be effected is asked to acknowledge that they do not have an objection to the project or the Free Trade Zone Board in Washington designating it as a sub-zone of the Port's Free Trade Zone.

Mr. Rachal asked if the taxes referenced are local taxes, and Mr. Gallub said he is not asking the Board to forego any taxes, as under the Louisiana Constitution, imported automobiles and vehicles in transit are not subject to ad valorem taxes. He further explained that tax on inventory may apply; and if so, the CPSB would be entitled to a share. Because the property is public owned, there are no taxes on the property currently; and with their plan to grow the project beyond the public-owned property, there will be taxes on those properties which they will pay. He also clarified this is not a request for the CPSB to waive, diminish, or reduce anything.

Mr. Lee added that he met with other taxing authorities, i.e. the Parish, Sheriff's Office and Ms. Dudley with the NLEP, and received the information presented to the Board tonight relative to

the lease of the GM plant. In moving forward, if the Board so chooses, an item would need to be added to the January 17th agenda. Dr. Goree asked if any of the other taxing authorities have submitted letters of support, and Ms. Dudley responded that Dr. Wilson with the Parish has confirmed their attorney will provide a letter and the Sheriff's Office as well. Mr. Abrams asked for the name of the lead attorney in this project who has reviewed the documents and legalities associated with the project. Ms. Dudley responded that David Wolfe, with Adams and Reese in New Orleans, and Ms. Frazier with the Parish. Mr. Abrams requested a copy of any and all documentation associated with this transaction as well as any of the legal aspects.

State of the District. Superintendent Lamar Goree shared with the Board and audience his State of the District report highlighting accomplishments in 2016 as well as the work that still needs to be done. Some of the highlights reported included the District's AdvancEd Accreditation, considerable academic growth, approval of three millages, and continued right-sizing of the District. Dr. Goree also noted the following accomplishments by District Divisions.

Academics – 2016 accomplishments

- 2016 SPS growth reflected 75 percent of Caddo's schools increased in performance, 16 campuses increased by double digits, 14 schools improved by at least one letter grade, 10 schools earned Top Gains distinction, and the District maintained its C rating.
- Caddo had 10 National Merit Semifinalists
- Caddo was among the top districts to increase its graduation rates seeing a 7.5% increase over the previous year. Since 2010, Caddo has seen an 18% growth in its graduation rates.
- Continued improvement was seen in the ACT and AP scores with 1,117 students participating in the AP program, up from 356 students in 2013. Unusual growth was seen in these areas at C. E. Byrd, Green Oaks, Southwood and Northwood.
- 3-8 grade students showed success across core subjects, seeing double-digit growth in several content areas

Academics – 2017 opportunities

- Launch Caddo's Smart Start Program creating more opportunities for students to have access to Early Childhood Education
- The TAP grant will begin in 7 schools
- Increase the enrollment in virtual learning platforms
- Continue to strengthen RTI and professional development aligned to standards and support the teachers so they understand the curriculum and have the resources and the capacity to be successful with implementation

Human Resources – 2016 accomplishments

- In the recruitment and retention of teachers, strengthened the partnerships with the higher education institutions and looked to increase early enrollment opportunities by presenting Caddo Parish to developing teachers and hopefully capturing more in the system
- Provided more hands on opportunities for teachers and made Caddo more attractive to prospective teachers
- Continued efforts to put the strongest leadership teams at every campus

Human Resources – 2017 opportunities

- Redefine the mission of Caddo Teaching Academy to target critical shortages, i.e. math, science, SPED
- Develop a high school program leading to a diploma pathway in teacher education through dual credit
- Continue to monitor workforce indicators and needs and realign resources

Operations – 2016 accomplishments

- Successful implementation of CEP breakfast and lunch program at 51 schools

- Reduced transportation complaints and concerns
- Maintenance team diligently worked on preventative maintenance to address aging buildings and infrastructure
- Closed three Caddo campuses (Alexander, Barret, Oil City) bringing the total facilities closed or repurposed since 2000 to 17
- Continued to work with the community to determine future use of vacant facilities

Operations – 2017 opportunities

- Continue to review facilities and right-size the needs of the District
- Upgrades through capital and maintenance needs of aging facilities
- Review CEP Program, first year successes and challenges to strengthen for next school year

Finance – 2016 accomplishments

- Millage renewal overwhelmingly passed
- Maintained Standard and Poor's bond rating of AA-
- Continued to review healthcare costs and ways to realize savings while retaining quality care

Finance – 2017 opportunities

- Develop sustainable means of implementing an employee pay raise
- Recover from estimated \$3 million property tax decline
- Continue review of ways to reduce expenditures and realize cost savings

Dr. Goree closed by stating that while the District has seen and continues to see some amazing accolades and accomplishments across the parish daily, 2017 will be a year of opportunities and challenges addressing legitimate questions relative to student performances, how we right-size the school district, and how we can be the very best stewards of the taxpayer dollars. He noted that the leadership is committed to working with the Board and community to make the hard decisions that are focused on the best interest of children.

Dr. Goree also announced that he will make this presentation to numerous groups over the next several months in the District's efforts to improve on communicating Caddo's story. Mrs. Locke requested that a copy of the Powerpoint be emailed to the Board.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JANUARY 17, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its January 17, 2017 meeting and the following discussion ensued.

ADDITIONS

Mr. Ramsey requested that an item be added to the agenda that Fair Park High School be converted to a middle school and Booker T. Washington High School to a 9-12 grade high school and that the superintendent seek authorization from the Recovery School District and/or the Department of Education to make modifications to the Transformation Partnership Agreement in order to effectuate the changes necessary to accomplish this goal. He stated the extended agreement with the Recovery School District expires in May 2017 so he is aware that a conversation needs to take place about this agreement.

Mr. Ramsey stated that this discussion has taken place for years and with recent discussions on the budget and possible employee raises, he believes this is one of the items that will help this. He said this proposal will maximize two existing facilities by re-purposing them, one into a high school and one into a middle school. The resulting high school will have a projected population

of approximately 1000 students in grades 9-12. The consolidation will provide savings to the general fund budget and he would propose that this Board reserve the savings for teacher pay raises. He further stated this proposal also provides a future for a significantly historic Booker T. Washington and Fair Park High Schools, and what is best for the students will be what is best for these schools. He encouraged the Board to favorably consider this request.

WORK SESSION

Consideration of Proposed Teacher/Instructional Personnel Salary and Stipend

Compensation Plan. Mr. Rachal asked about the 10 schools that last year qualified for Top Gains and if this plan had been in place what the cost to the District would have been per stipend. Staff stated they will provide this to the Board. Regarding the Target School Stipend, Mr. Rachal asked which schools the superintendent has determined these would be. Dr. Goree responded that in Target School Stipends, he will consider (1) the past performance of the school, (2) the number of economically disadvantaged students in the school, and (3) the qualitative value of these numbers. He said staff knows this is tied to money and that the District cannot do all schools, so the amount of dollars that can be generated to fund this will dictate the number of schools to be identified as Target Schools. Dr. Goree also noted that there is the moving target element with some schools who may barely qualify, i.e. Cedar Grove community, who has always struggled to put teachers in some of the schools in this community. Dr. Goree added that one thing we do not want is to be backed into a corner where we definitively say XYZ is a Target School forever and is why we are recommending stipends to attract persons to the schools. In response to Mr. Rachal's request for a list of these schools by next week, Dr. Goree responded he can work toward getting a list, but he does not believe this will be possible because there is a possibility if he provides a list next week, it could change. Dr. Goree also stated that the importance in bringing this item to the Board now is it will be an effective tool for principals to use in recruiting teachers to schools that have struggled to do so. By February 1st, he believes he will have this information for Mr. Rachal.

Modifications to Grade Levels for Fair Park to middle school and Booker T. Washington to

9-12. Mr. Riall asked if Fair Park is currently a 9-12 school, and Dr. Goree confirmed that is correct because one of the changes in the MOU extension with the RSD converted Fair Park back to a 9-12 high school. Mr. Riall asked for clarification that BTW will be converted back to a 9-12 and Dr. Goree responded that is what he believes Mr. Ramsey stated, because BTW is currently operating as a 7-12 school. Mr. Riall asked if Fair Park middle school would be a 6-8 or a 7-8 middle school. Dr. Goree said there has been no preliminary planning in this regard. Mr. Ramsey stated that his intention is that this stipulation be flexible. Dr. Goree explained there had been communication with the RSD regarding the fact the current MOU expires in May 2017; and in that respect, there are certain schools whose performance has not gotten to the point where they would no longer have some level of state oversight. He noted the importance to continue to look at opportunities within the inner city section of the school district.

Dr. Douzart noted that she is against this. Mr. Green stated if this is considered, he would like the middle school grades at Fair Park to be 6, 7 and 8. Miss Green stated her understanding that something such as this goes before a committee, and she doesn't understand a Board member bringing such an intense item when he does not represent either school affected. Ms. Trammel stated that she thought at this point, it was only discussion for providing input only, and Miss Green said it was a question. Mrs. Locke stated at this time it will be an item on the agenda.

Mr. Rachal asked Dr. Goree if he supports this item, and Dr. Goree said while the District has held this conversation numerous times; and as stated in his report, there is a plan in the Strategic Plan on how this type decision will be made and he believes it premature for staff to respond to the motion brought forth. Because he works for the Board, he will take direction from the Board.

Mr. Albritton shared that he agrees one week may not allow ample time for the staff to put together a strategy for implementing this action. Mrs. Locke clarified that Mr. Ramsey has asked that an item be added to the agenda, and Mr. Albritton stated he believes this means there doesn't necessarily need to be a motion at the next meeting, but the beginning of discussions, staff could begin preliminary work, and it could possibly be referred to the Long Range Planning Committee. He noted those that are affected when a school is closed.

Mrs. Bell shared the history behind the implementation of the current MOU to keep from the State closing these Transformation schools; and with this agreement expiring in May 2017, if the Board does not address this, it is possible the State may close some of these schools. Mr. Abrams noted the agreement copy in front of the Board is the latest extension to the agreement and it does expire in May 2017. Mrs. Bell again reiterated the importance of the Board taking action because of what could happen to Caddo's schools in May.

Mr. Green stated that it appears there is a question about the process in which this matter should be handled; and if that is correct, he would offer a substitute motion.

Mr. Abrams clarified that this is the Executive Committee work session and a Board member has requested that an item be added to the agenda. He further explained that in considering this item at the meeting on the 17th, if the Board decided it did not want to move forward, a substitute motion could be made at that time to postpone or the President could refer it to committee. Mr. Green asked where the proposal stands now since he is hearing that it should go to committee. Mr. Abrams again clarified the process for a Board member adding items to the agenda and when the item is presented for Board action, a substitute motion can be made at that time to remove it or send it to committee. Mr. Riall clarified this will be an action item so the Board will take some action at the next meeting by either voting on the motion made or the Board President referring it to committee.

Dr. Douzart stated that two years ago she taught most of the students currently attending Fair Park; and while she understands the scores, she will be bringing a substitute motion to move this item to the Long-Range Planning and Development Committee. Mr. Abrams clarified that Dr. Douzart can request that Item 8.05 be referred to the Long-Range Planning Committee.

Mr. Green asked for clarification because if the item is referred to committee and follows that process, he doesn't have a problem; but if this process is not followed and this is an action item for the Board next week, he does have some difficulty with that.

Ms. Trammel asked how much of the information received relative to the RSD will be implemented in May 2017? Mr. Abrams explained that he met with the State Superintendent at his invitation on Monday concerning different matters, one of which was the Transformation partnership and the future of Caddo Parish. He said Mr. White was well aware of this agreement and that it will expire in May 2017, and he made it clear that he wished to participate in whatever is necessary in order to improve the schools in Caddo Parish and what would be in place by May. Ms. Trammel asked if this action will benefit the school district as a whole; and if so, she believes it is important that we look at it closely to determine if it will work. Dr. Goree said while he doesn't feel comfortable asking the question because he does not have the documentation to support the answer in front of him, he did mention in his report difficult decisions that need to be made relative to the need for some consolidations. At this time, he cannot respond as to whether or not this proposal is the best recommendation because he has not had the opportunity to sit down and review it.

Mrs. Poljak asked if it is required that this proposal first go through committee; and Mr. Abrams said no, but any Board member can bring an item before the Board. The Superintendent can ask that an item be sent to committee, the Board President can refer an item to a particular committee

or the Board can request an item be sent to committee; but there is nothing that says an item must go to committee for a decision to be made; and if Dr. Douzart requests that it be referred to committee and the request has seven votes (majority), it can go to committee. Mrs. Poljak also asked Dr. Goree how much time would be needed for staff to analyze this proposed agenda item. Dr. Goree said as he said in his report, a part of the Strategic Plan clearly looks at the entire District and the situation we are in relative to right-sizing, as well as teacher incentive pay raises, and staff is continually reviewing these items and our efforts to accomplish them. He agrees with the concern of having the proposed plan in a week and staff's position is to follow the direction of the Board to make it work, but he feels challenged today to say how long it would take. Dr. Goree also said he is hearing that this has already happened.

Mr. Riall said the Board is only adding items to the agenda and will not vote or debate the item today. When a Board member adds an item to the agenda it is an action item, so the Board will take action at the next meeting and vote on the item, refer it to committee, or postpone it.

Mrs. Bell again referenced the agreement with the RSD to keep our schools and if we don't follow it, more Caddo Schools could be closed. She said Caddo must do something before it expires, and she encouraged the new Board members to closely read the document provided.

Mr. Ramsey stated reconfiguring Booker T. Washington and Fair Park cannot be done without the Superintendent following through with discussions with the Department of Education and needed changes made. Mr. Ramsey reminded everyone that when he served as President, the District went through negotiations for one year and this may not happen until 2018 and it appears we are attempting to pin the Superintendent down to one week, which is ridiculous. This is only a step in making future plans for the District so Caddo will still be a School District. He said he has watched and listened to these discussions regarding consolidation for 14 years and a decision has yet to be made. If we want to move the School District forward, something has to be done.

Mrs. Locke announced that Items 8.01-8.03 are the consent agenda. *Mrs. Bell moved, seconded by Mr. Riall, to approve the proposed agenda and consent agenda for January 17, 2017 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, stated their employee organization does not support the School Board being asked to forego paying inventory tax by Glovis America. She said other states do not offer tax exemption and it is appalling when the District is attempting to come up with ways to financially support a pay increase for its employees. She also asked to receive the information and copy of the letter for review before the Board is asked to vote.

ADDITIONS

Mrs. Bell moved, seconded by Mr. Riall, to adjust the agenda and add an item addressing the request for a letter of support for Glovis America. Vote on the motion carried.

ANNOUNCEMENTS

Mr. Riall commended the Capital Projects Department for the outstanding job on the new bleachers at North Caddo High School.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:14 p.m.*

January 10, 2017

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met in regular session on Tuesday, January 10, 2017 at approximately 2:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following committee members present constituting a quorum: Larry Ramsey, Jasmine Green and Susannah Poljak. Mrs. Brown was absent. Also present were Mary Trammel, Steve Riall, Denee' Locke, Dr. Bonita Douzart, Raymond Green, John Albritton, Superintendent Lamar Goree, Attorney Reggie Abrams, and staff members Jim Lee, James Woolfolk, Diane Atkins, Keith Burton, Randy Watson, Jeff Howard, Billy Snow and Mary Wood. Mr. Rachel led the prayer and Pledge of Allegiance.

Chair Bell stated how important this committee is to her; and because it is all about the children and the employees, her goal this year will be to find the money to give the employees an increase.

ESTABLISH AGENDA AS SUBMITTED

Mr. Ramsey moved, seconded by Mrs. Poljak, to establish the agenda as submitted. Vote on the motion carried.

CONFIRM THE AGENDA

Mr. Ramsey moved, seconded by Mrs. Poljak, to confirm the agenda as submitted. Vote on the motion carried.

MID YEAR FINANCIAL UPDATE

Dr. Goree stated that while an employee pay raise is not a new conversation, he believes this to be a good time to present a mid-year update on where the District is financially. He thanked Insurance Director Randy Watson and Chief Financial Officer Jim Lee for the work done over the recent break to make sure this presentation was ready and meets the needs of the District. While this is only the first conversation of many, he believes the result will be changes that make measurable differences in the school district.

Mr. Lee stated one of the objectives of the Strategic Plan is to find a substantial pay increase for all employees and today's presentation will be the first of many meetings on this topic and one that will likely move into the budget planning process. He stated that in determining what would be a substantial pay increase, staff looked at 5% and 7.5% scenarios, and he reminded the Committee that funding for this is strictly General Fund and all other funds (Title I, Capital Projects, etc.) would need to budget their own estimates which is how it has historically been done. A 5% increase pay increase would be an annual cost of \$12.5 million (inclusive of benefits), and a 7.5% pay increase would be an annual cost of \$15.3 million. Mr. Lee also shared comparisons of other school districts in the area and districts similar in size, their starting salary schedules, and he reported a 7.5% increase would move Caddo to second in the state regarding salaries. In looking at options for funding a pay increase, Mr. Lee explained that changes in the District's health care plan are possible, changes such as cost deductions to providers (prescription drug changes) and increasing out-of-pocket (co-pays, deductibles) expenses. Other areas that will be looked at will include additional revenue from the Child Nutrition Program and Medicaid billings; and additional savings via the staffing formula, outsourcing services, etc.

Randy Watson explained that the District currently offers two plans – a Point of Service Plan (HMO Plan) with a \$250 deductible (lowest in the State) and a PPO Plan with a \$600 deductible. He said the purpose of benefits and salaries is to achieve the mission of educating children; and

to educate children, we need qualified people and we compete with other districts for those qualified people. Offering competitive salaries and benefits helps the District employ qualified personnel. In looking at the benefits, his position is the lower the out-of-pocket, the earlier people will get treatment and it costs less to treat people earlier rather than later. Evidence is seen in this by the District maintaining inflation of its cost to single digits. When the purpose of the health plan is recruitment and retention, we currently have a situation where the benefits are way more competitive than the next competitors, but the salaries are not. Mr. Watson further explained that the proposal being presented adjusts the benefits downward while still keeping them competitive and raising the salaries to make them more competitive also.

Mr. Watson presented two possible solutions – (1) buy it cheaper (pharmacy), but the price will not cost the members more but they will give up choice; or (2) cost shift where the members are paying more and don't sacrifice choice. At this time regarding pharmacy costs, he reported that regardless the price of the drug, we say what the maximum one pays will be, i.e. generic will cost \$16. This could be reversed to say that the District will pay a certain amount and the employee pays the rest. In looking at specialty drugs and non-specialty drugs, Mr. Watson explained the plan could narrow the drugs offered to employees by limiting the list of drugs to those that are most cost effective but will do the same thing. This will not be for every drug class but for selective drug classes, and he clarified this is only seen in very aggressive businesses at this time. The specialty drugs (cancer, Hepatitis C) are very expensive, but in this proposed plan, more medical management would be implemented stating that at a certain stage of the illness, the plan will pay for the expensive drug, but until then, it tells them what drug must be used. Pharmaceutical management companies are used to help manage these. He explained the proposed plan would target 18 classes of drugs with many drugs continuing to be covered the same way based on an analysis of our current plan's actual drugs. With approximately 14,000 members, and the data he has reviewed, it will affect all members which is a sweeping effect. He also stated that we will not be able to do this through Blue Cross but would need to carve the Pharmacy Plan out, bid it and create an entirely different relationship. Mr. Watson further explained to the member it would look the same, but different behind the scenes. Also, members who are currently on specific drugs will be able to keep them temporarily; but when they do follow ups, they would have to go to the new drugs. It will be more complex and specialty drugs will be more severely managed, but he stressed there are drugs for every class and we are not saying employees will not have the drugs they need. The main advantage is this plan could be implemented and it will not cost the members more; but the disadvantage is, in his opinion, it will be more disruptive than an increase in out of pocket expense.

Mr. Watson explained that if the Board chooses a 5% increase, he predicts a savings of \$6.6 million from the change in the pharmacy plan and Mr. Lee would need to come up with \$5.9 million from other sources. If a 7.5% increase is selected, Mr. Lee would have to come up with \$11.7 million from other sources.

The second option is cost shifting to the members and increasing out-of-pocket costs similar to other school districts while remaining competitive and in some cases more competitive. Mr. Watson explained that choice would not be affected and premiums would be the same, but changes would be

- increase the deductible for the PPO from \$600 to \$1,000 and for the POS from \$250 to \$500
- coinsurance under both plans would remain the same (20% for PPO and 10% for POS)
- co-pay for primary care office visit on PPO plan and POS plan would increase from \$25 to \$40
- co-pay for specialist office visit on both plans will increase from \$25 to \$55
- In-patient hospital co-pay – no change for PPO plan in that the deductible/coinsurance must be met and POS would go from \$150 to meeting the deductible/coinsurance

- Out of pocket maximum before the plan will pay 100% - PPO will increase from \$2,000 OOP to \$5,250 and the POS Plan will increase from \$1,500 to \$3,250
- Before the drug co-pay kicks in, the drug deductible will increase from \$0 to \$250 in both plans
- And the co-pays for drugs under the PPO and POS Plans will change from \$16/\$33/\$51 to \$15/\$40/\$70 and 10% on specialty drugs up to a \$150 max.

Mr. Watson explained that if these changes were made, the District would still be competitive but it will help fund pay raises by providing an additional \$8 million. He said the main advantages of this option are it will affect the high utilizers the most and the plans would remain competitive. The disadvantage is the members are funding the extra \$8 million either through higher out of pockets or they will deny themselves services because of the expense, and at this time the effect on members denying themselves early care/treatment and possibly experiencing more expensive treatment in the future cannot be predicted.

Mr. Watson highlighted how employees with or without Medicare will be affected by the changes, as well as teachers with and without insurance and bus drivers comparing the average out of pocket expense to the raise these categories would receive (5% and 7.5%) and he reported the numbers/ranges in each category. Dr. Goree also noted the District insures more retirees than actual employees, and the main reason retirees will not benefit directly from this is their pay is controlled by the State. Mr. Watson also added that the majority of the retirees will not feel much effect; and statistically, only 20% of group employers cover retirees; but, even with these proposed changes, Caddo's retirees will still do better. Also, he noted the two groups that on average will come out ahead are the teachers with and without insurance; and everyone else, because of a higher out-of-pocket amount, will see a decrease. With a 7.5% increase, all active employees will see an increase and the teachers with insurance will actually double, getting a better return on investment.

Another caveat noted is the 2,700 people that have insurance and are not included in these numbers. Generally, the lower paid employee will be hurt by the 5% increase, but everyone will come out ahead on the 7.5%. He added that most of the people in the 2,700 count are below teacher pay.

Mr. Watson also reported that staff is currently implementing the insurance changes the Board approved last October to be effective April 1st. If Dr. Goree desires to give a pay raise at the beginning of the school year; and unless the Board approves this proposal in February, there will not be ample time to roll it out to the employees, give them choices and complete everything before the summer. So, if that is the Board's desire, approval needs to be in place no later than February to make the changes, which would then change the changes to be implemented April 1st. As a result, Mr. Watson submitted another solution for consideration; and, if the Board gives a 7.5% raise, an additional \$6 million in place at the beginning of the school year will not be needed until March 2018 to fund the changes put into place. This money can be borrowed from the health fund reserves temporarily; and when the renewals are presented to the public next April, a one-year added premium increase can be tacked on to refund the premium health care change. If this happens, two things would result – employees would not have back to back changes and would get their pay raise in advance, and it would give the District approximately one year to determine what the Health Care Administration will do with health care. If the Affordable Care Act is revoked, we can save several million dollars; and if that happens, it may be possible to lower the temporary charge more and buy the District time because we are not changing the plan. The Board would have time to go through the normal budgeting process, make a decision by June, give pay raises in September, and in April of 2018, normal annual changes will take effect. At this time, staff is predicting a 3.5% increase on premiums to pay back the reserves that fund the health care.

Mrs. Bell noted that this is not the only meeting the committee will have to discuss this and she wants everyone to understand this first.

Mrs. Poljak asked about the pharmacy changes and if something like an optimum Rx that is sent at a much less cost, and Mr. Watson responded that staff does have that in place currently. She also asked about the increase cost to \$55 for a specialist office visit and what counts as a specialist. Mr. Watson responded a doctor that is not classified as primary care. Relative to retirees without Medicare, Mrs. Poljak asked if someone began working in 1970 and retired in 1990 did an employee pay Medicare, and Mr. Watson said “no”.

Mr. Ramsey asked if Caddo participated in the State budgeting numbers and how it will impact the local budget? Being under attack from the State, and because what we are doing is year-to-year regarding raises, it is difficult and the Board must be very careful so that it doesn't end up as DeSoto Parish where raises were put into the teachers' salary schedule and then everyone else's salaries were cut. Dr. Goree added that this proposal was designed around everything stays the same; and if we do not get additional money and we don't lose any money, this proposal is how we can sustain it. He reported on staff's conversation with the State Department regarding the MFP; and while staff cannot assure the Board, staff believes there will be an increase in bonding. He also explained the law in place that specifies you cannot reduce teacher pay, so if the raise is given, it must stay. Dr. Goree agreed with Mrs. Lansdale's statement that Red River Parish teachers are paid more, but it is designed in stipends which provides flexibility in the event the oil money goes away.

Mr. Ramsey also asked if there is a plan considered for a combination of pay raises and stipends? Mr. Lee said they looked at a permanent pay raise; however, if that is the Board's and Superintendent's wishes, he can do so. Mr. Ramsey said he would like to see a recommendation for a permanent pay raise that staff is comfortable with. Mr. Watson added this provides a safety net if MFP is cut, then we are not legally required to pay the stipends. Mr. Lee said the options he will bring are based on that and not how it will look next year; and as the budget season begins, and if the Board decides to move forward in this direction, it will be important to look at making up the \$3 million less in property tax revenue; and because of other factors would prefer looking at this in the budget planning process. Mr. Ramsey also asked if this will require more staff to accomplish the work, because it appears to him the prescription drug process will need to be closely managed. Mr. Watson responded the first time the District went self-funded, the staff took on the concerns.

Mr. Rachal asked if there is a combination of both options presented, and Mr. Watson said there is nothing that prevents using both options; however, he only wants to give the committee ample information rather than recommendations. In his personal opinion, the pharmacy changes will be the biggest headache; because it does not matter the size of the increase, but more about the number of employees affected as well as Blue Cross's response. Dr. Goree clarified there is nothing that states you cannot do both, and he asked staff to research neighboring districts that have implemented the pharmacy. Mr. Rachal stated that he believes we need an answer on whether Blue Cross will allow it or not; because if they do not, Option 1 will come off the table for consideration. Mr. Watson stated that before conversations are held with Blue Cross, the Board will need to determine what direction it chooses to move forward because it is a serious option that will warrant more information and more indepth discussions. Dr. Goree also added that everything presented to the committee today is negotiable and is average/best case scenarios, with nothing set in stone. He added we believe these things can happen because they are happening in other places, but everything would have to be negotiated. Mr. Rachal asked about stipends in place currently or any we are entertaining in the future. Dr. Goree stated there is a litany of stipends for those who do extra curricula activities, etc. in addition to their base pay. Mr. Rachal asked if there are any additional stipends for normal day-to-day work, and Dr. Goree stated he also

will discuss today a list of proposed stipends he will ask the Board to approve. Mr. Rachal asked about Option 2 - Shifting of Cost to Members - and the concern of members denying themselves healthcare. Mr. Watson stated that this is built into the savings; and there is not enough savings to do it. Mr. Rachal asked if it is possible that even though a small percentage of people will impact the premium, is it possible that it will impact others at a later time. Mr. Watson said the question is will there be more that deny themselves treatment and he answered yes and is the model the District has worked from and this will have an impact down the road but it is impossible to predict how much. Mr. Rachal asked Mr. Watson, if in his job as an advocate for health care for everyone in the System, which plan he recommends. Mr. Watson explained if he had more time and ample information, he would go with the pharmacy change.

Mr. Riall asked if he is correct in saying that we are financing a raise off our own backs. Mr. Watson noted that he will put this all in perspective later in his comments. Dr. Goree stated that he believes it is being looked at from the perspective "what does the market demand" and we are at a point of asking are we too benefit rich and too salary poor to be competitive; and how do we balance that in moving forward.

Dr. Douzart asked for clarification and if a patient rejects the generic drug would they have to pay the full price. Mr. Watson responded the District would pay the same amount as was paid on the preferred drug.

Mr. Lee stated that in looking at scenarios, it will take more than 5 to 7.5% for Caddo to be where Red River is; but it is important that any pay raise is a sustainable pay raise. Mr. Lee reported that additional revenue areas staff has looked at are: (1) a reduction in the Child Nutrition MFP by \$1,000,000 as a result of the Community Eligibility Provision and the CNP receiving \$1,000,000; and (2) increase in Medicaid revenue by an estimated \$300,000-\$1,000,000 as a result of Medicaid allowing transportation costs for qualifying special needs students. The following savings could also be seen as a result of reducing expenditures in the areas of outsourcing, consolidations, staffing and correcting overstaffing. Because staff anticipates Linwood being returned to the District at the end of this school year, Mr. Lee stated that consolidating 2 or 3 schools in the area could result in a savings of approximately \$4,300,000. Additional consolidations that could create savings in expenditures include \$300,000-\$400,000 for an elementary school; \$450,000-\$550,000 for a middle schools; and \$750,000-\$1,000,000 for a high school.

Mr. Lee also stated that by correcting overstaffing the District could possibly reduce expenditures of up to \$4,920,000, in addition to restructuring the way libraries are staffed due to the increase use of multi-media and other technology. Restructuring libraries by eliminating Library Aides at the elementary school level would save \$890,000 and if the district staffed libraries with only Library Aides and no Librarians, the reduction in cost would be \$5,900,000. He also stated if the District increased the staffing formula by 1 student at all grade levels, the District would see a savings of approximately \$4,500,000.

Another option for seeing additional savings would be outsourcing services in the District that use full-time employees, i.e. maintenance and custodial services; but savings in this option would not be seen for one year since the retirement system requires payment of the unfunded accrued liability for any outsourced employee for the first year in which they are no longer employed. At this time, he said the amount of savings the District could attain has not been determined.

Dr. Goree shared that this discussion began as a result of an action of the Board from its retreat in setting a pay increase as a priority. Dr. Goree reported on visits with the Superintendent's Cabinet, the teacher organizations, and principals; and via a survey, they

overwhelmingly agreed they would rather see change around insurance followed by school consolidation and the least changes in class sizes and/or people losing jobs.

Mr. Watson shared that a 5% salary increase with the strategies presented could be done by (1) Benefit Option #1 (Pharmacy Out of Pocket Option) and two additional saving strategies, or (2) Benefit Option #2 and one additional saving strategy. To achieve a 7.5% salary increase with the strategies presented, Benefit Option #1 plus 3 additional savings strategies or Benefit Option #2 plus 2 additional saving strategies will reach that amount. Again, in both options, an additional revenue strategy will be needed in some scenarios.

Relative to Central Office, Mr. Watson explained that the total budget for the departments providing services to its employees represents barely 6% of the total budget; and if a 10% cut were made at Central Office, it would still not provide the funds needed to fund a pay raise. In summary, Mr. Watson noted the importance of periodically looking at the reallocation of resources for the District's main purpose of helping children, and filling available positions with qualified personnel. He also reminded the committee that if a pay increase is not considered now, it is something that the Board will need to address in the next few years; and the proposal presented allows the funds for a pay raise to come from the reallocation of the resources currently in place. Mr. Lee noted that the big items discussed today will be considered throughout the budget process.

Mrs. Bell asked about savings if Linwood were closed and CMCT moved to Linwood, and Mr. Lee responded while it may not be a large savings (\$200,000-\$300,000), the District would also get back the \$6 million in MFP revenue. Also, Mrs. Bell stressed the problems the District would face if Central Office were closed according to what some believe.

Mr. Rachal asked staff to provide a breakdown on the staffing formula numbers. Miss Green asked about the \$6 million savings if Linwood is returned to the District and why we would not count the entire \$6 million. Mr. Lee explained we would not count the full \$6 million because Caddo would have to hire some additional teachers. Miss Green asked about the amount Magnolia receives, and Mr. Lee responded approximately \$10-\$12 million; and the only way Caddo would get back any of this amount is if students returned to Caddo.

Ms. Trammel asked for clarification on Linwood and Dr. Goree explained that he met with John White and Linwood, the Charter and the children were discussed; and we may know more when Mr. White gets answers to the questions he has. In the meantime, Caddo will be looking at options that are beneficial to children in the event Linwood is returned to Caddo.

Proposed Teacher/Instructional Personnel Salary and Stipend Compensation Plan. Dr. Goree shared with the committee that staff has on the work session agenda for the Board's consideration an item to move forward with a teacher/instructional personnel salary/stipend formula to address the need to find highly qualified teachers to work in schools that have not had them, i.e. CMCT. He stated he has discussed this, and curriculum implementation, with Superintendent White; and even though the District has seen much success by improving the curriculum across the board, he doesn't believe we have done everything possible to put certified teachers in front of these students.

He explained that this plan does not impact the current budget, but it will impact future budgets; and the Board voting to move forward with this plan will give staff permission to place it in next year's budget. Dr. Goree highlighted teachers current base pay, step increases currently in the budget, and the performance-based stipends being proposed and how teachers will have the opportunity to earn these stipends, not only in the target schools but others as well. Dr. Goree added that in looking at this plan, staff asked if these stipends are enough; and while research shows they are not, he believes they are a measurable start in the

right direction to meet the needs of the District. In answering the concerns/questions that this has been done before, he responded it has to an extent, but this is different because of the (1) performance-based measure, and (2) it is a true incentive; whereas in the past teachers were given a stipend, but longer work days were tied to it. He said he believes this will also be a wonderful opportunity to recruit teachers and market the District. Dr. Goree also reported that in looking at the pay raises, discussions ensued on how to change the focus on how the District budgets things by looking at Federal funds, SPED funds, General Fund to determine priorities and place priorities in proper order. He also said he believes this proposal is a sustainable proposal which is what is needed to make it successful. Superintendent Goree further explained why this is important to address now if we wish to use it in our recruiting efforts.

Mr. Green commended the staff in moving forward to provide all schools having difficulty employing teachers and giving students the best that they need to be successful; and he believes the ones doing the work and getting the job done should be rewarded. Dr. Goree explained that how strong staff presents and communicates this will help determine how successful it will be.

Mrs. Bell announced the committee will meet again and all Board members will be invited and encouraged to attend to hear these discussions.

Mrs. Lansdale asked that staff look closely in other districts on how stipends funded through a sales tax are used throughout the year to boost teachers' salaries. She also noted that in looking at Caddo being the lowest, Caddo also had 196 new teachers which is staggering to her. Because Caddo has a very rich benefit package, she added it is difficult to compare everything; and she encouraged the committee to schedule these presentations so that representatives from each of the employee organizations can attend (CAE and APEL cannot attend at 2:00 p.m.). Regarding schedules, she believes it is important to look at the bus drivers as well as historical data supporting the success of stipends. She also said that new teachers want to know how much they start at and where they will be step years in the future and not necessarily in 30 years.

Adjournment. *Mr. Ramsey moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:47 p.m.*

January 17, 2017

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, January 17, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE DECEMBER 20, 2016 AND JANUARY 10, 2017 CPSB MINUTES

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the December 20, 2016 and January 10, 2017 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of marketing/communications, on behalf of the board, recognized the following staff members and students for recent achievements. President Locke and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

School Board Recognition Month. Mrs. Wood announced that school boards across the State are being recognized during the month of January with the focus on the crucial role an elected Board plays in the community and schools. Khaleel Davis, 5th grader at Werner Park Academy, shared what a School Board means to him. A framed proclamation was presented to Board President Locke.

Perfect ACT Score. Nathan Speakes, one of Caddo's 2017 National Merit Semifinalists, was recognized for earning the highest ACT composite score of 36. Mrs. Wood announced that this is the fourth perfect score by a Caddo Magnet student in the past 1.5 years.

Anti-Defamation League Poetry Contest Winners. Zyerra Jones and Codi Setters, seniors at C.E. Byrd High School, were recognized as winners in this year's Anti-Defamation League's poetry and essay contests.

Louisiana Music Educators Association Young Music Educator Award Winner. Ms. Maranda Stewart, music teacher at Northwood High School and Donnie Bickham Middle School, was recognized for being awarded the 2016 Outstanding Young Music Educator Award from the Louisiana Music Educators Association for her outstanding impact on student learning, her enthusiasm for teaching, her love for music and a desire to further the musical education of students.

Forty Under Forty Winner. Mrs. Amy Horne-Williams, Fairfield Elementary Magnet School, was recognized for being selected as a "2016 Forty Under Forty Winner".

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: (1) Marco D. French, instructional coordinator, Queensborough; (2) Denise Chaney-Pleasant, assistant principal, J S Clark; and (3) Teniesha Mahoney, assistant principal, Huntington.

VISITORS

Jackie Lansdale, president of Red River United, addressed the Board on the difficulty in attracting and retaining teachers and the negative impact it has on the district and its schools. In

looking at what teachers really want, she said they want the same things the Board wants, i.e. to be paid and treated as professionals, attractive starting salaries, opportunities for advancement, recognition of performance. She acknowledged that the needed pay increase (stipends) on the agenda tonight is a much needed recognition; and she highlighted the teacher salary schedule and that all follow the same schedule based on degrees, experience and longevity. She noted this type schedule is antiquated since new teachers want to know their starting salary and where they will be at significant markers in their careers. She added the current salary schedule no longer meets these expectations. Mrs. Lansdale urged the Board to look at the salary schedule and use it as a base to suppress the schedule with a standard reduction of the current 30 years. She also indicated that the employees beyond the compressed years will continue to be recognized for their services and loyalty through yearly stipends, based on attendance, longevity, etc., without sacrificing the benefits and incentives provided.

Regarding the proposal submitted tonight, Mrs. Lansdale stated staff knows now more than ever the needs and increasing demands on the classroom teacher, hard to staff schools; and with the current salary schedule being the same for every school, she believes salary incentives for the hard to staff schools makes sense, as do incentives for Target and Growth schools. She also noted the support in the proposal to pay teachers with advanced knowledge, i.e. National Board Certification, which is research proven in bringing value to the classroom. She added it is believed one of the most important things the Board can do is an across-the-board pay increase for all employees; and with these things in place, Caddo will become the progressive district of the future, one that demonstrates support and recognition of the hard work and dedication of its employees, as well as a district that not only recruits but retains high quality educators. She also thanked the current administration and its visionary leadership as well as the Board for the support it provides.

Brenda O’Brock shared her opposition to closing Fair Park as a high school, support of stopping standardized testing, opposing moving schools and building new ones, and support of hiring Master Teachers. She also referenced and shared with the Board a copy of a letter she sent to the Board last April as well as an article by Professor Jim Simmons who has 60 years of experience in education. She said she believes Professor Simmons’ letter contains much wisdom and is why she is sharing this again with the Board. Because the local Board is losing more power every day, she continues to work for the Board to have more power each and every day. In making the move of Fair Park students to Booker T. Washington, Mrs. O’Brock asked about the size of the classrooms, and how many more schools will staff propose closing as a means to correct the “F” problem.

Brenda Watkins addressed the Board on the merger of Fair Park and Booker T. Washington High Schools and her concern Fair Park has not been a school that changed the course of many of its students. She asked for understanding on the proposal to merge two schools that have been labeled academic failures and what will change academically if this merger takes place. She asked where the cost savings dollars will be utilized as a result of this merger, as well as savings from the closing/selling of Barret, Newton Smith, West Shreveport, Hamilton Terrace, Rodessa, Carver, et.al. Because Fair Park and Booker T. Washington have not met academic success, she asked what measures will be put into place for academic success to be seen under the proposal. Mrs. Watkins stated that it is incumbent that each of the 12 Board members to equip the children in Caddo to be leaders and make a difference in their communities, and she challenged the communities to cease putting a Band-aid on this matter and work collectively to improve the Caddo School System.

Dalton Lott addressed the Board on his involvement with the Fair Park Alumni once he heard about the direction of doing away with Fair Park; and in this involvement learned that the problems at Fair Park were not about the historical significance and changes to the building, but about what is going on inside the building. He said Fair Park has lacked in receiving ample support, having experienced 15 consecutive years with an “F” rating. Mr. Lott also addressed the fact that Fair Park has been staffed with many nonaccredited teachers, classes do not have ample textbooks, and children are not qualified for high school. He also highlighted some of the changes at the school and what it has cost the school – removing marble from the restrooms,

purchasing new solid oak doors rather than spending the dollars on what the school needed. Mr. Lott noted that Fair Park and other schools are continuing to receive students that are not properly schooled nor educated, and the feeder schools are failing as well. He stated millions of dollars have been spent outside Louisiana to improve this situation with very little success. He asked the Board to stop and re-evaluate what is going on in the School System, reassess why schools continue to fail, reassign the correct teachers, administrators as well as provide the needed supplies and equipment at the school. Mr. Lott closed by stating that each child has a civil right to get a good education; and because they have been denied that, and if corrective action is not taken, they will file a Civil Rights Class Action lawsuit to make sure the kids get a quality education.

Col. James Tillman, JROTC instructor at Fair Park, shared his perspective and support of the program in place at Fair Park and the continued improvement in overall scores. He asked that the upward momentum Fair Park has experienced be taken into consideration when the Board makes decisions about altering the usage of facilities and changing programs. He shared that the competent administrators have done a great job in setting the stage for marked improvement and he believes Fair Park is strategically positioned to come out of academic probation and become a performing high school. He asked the Board to consider these things as it deliberates this matter and the future of the school.

Frederick Henson, BTW Alumni Foundation, addressed the merger of Fair Park and BTW; and while the Alumni understands the tough decision the Board is making, he encouraged the Board when voting on this matter to continue to work for academic excellence for all Caddo students and restore hope in their lives.

Katherine Lott spoke in support of all Fair Park students and the need to do better for the children. She said decisions need to be made that will make Shreveport a better place; and because the children deserve better, she encouraged the Board to come together to accomplish what is best for the students.

Thomas Giles addressed the proposal to merge Fair Park and BTW and the misinformation that has been shared regarding the State taking over the school, and that the merger will result in a projected population of 1,000 plus students in grades 9-12. While this number is true, he added it is incomplete because it doesn't state the number of students currently attending Fair Park that will have to be transported to BTW. Mr. Giles referenced history of the Consent Decree and an investigation into Caddo's compliance with the 1981 Consent Decree in the 1990s.

Chester "Catfish" Kelley addressed the future of Fair Park High School and his appreciation for the roles Board members are willing to undertake to do what is best for the students in Caddo Parish. Mr. Kelley noted the alumni members involvement because of their concern over what has happened at Fair Park High School over the years in terms of how it has been treated, i.e. shortage of textbooks, the number of non-qualified teachers assigned to Fair Park, separation of the haves and have nots.

Earnestine Coleman addressed how the system has systematically plotted to assassinate Fair Park. Since 2002, Fair Park has been drained of its programs, i.e. Medical Careers Program sent to Fair Park under the Consent Decree, funding cut by \$13,500, six principals in 10 years, 22 plus subs in the classrooms, new doors installed before textbooks are purchased, lack of Title 1 funding. Ms. Coleman stated it is her recommendation that a Class Action Civil Rights Lawsuit be filed against the School Board.

Russell Artison spoke in support of Fair Park High School staying a high school and not changing to a middle school.

Stephanie Player shared her concern as a parent that 700 plus students will be placed at another school, tripling the enrollment at that school. She is concerned about the size of her daughter's classes and the quality of education she will receive. Because Fair Park has been on the short end of the stick far too long, she does not believe her daughter is getting the quality education

she is entitled and she will not be ready for college. Ms. Player noted marked differences in the education students receive from one school to the next when every child in Caddo Parish has a fundamental and civil right to receive the same high quality education. She asked the Board to be transparent and include parents, teachers, educators and the children in the decisions made.

Gladys McKnight-Starks noted the things that have happened at Fair Park causing it to run downhill and urged the Board to put into Fair Park what the students need. She said closing Fair Park is not the answer and asked the Board to help the Alumni in their efforts to save Fair Park.

Marlen Blackshire, student at Fair Park, addressed the Board on the proposal to consolidate Fair Park and BTW. He addressed the improved grade at Fair Park since he has been there and the praise they received from the School Board, but now the Board wants change. He questioned moving them to a D school and how it will help the students at Fair Park. The students at Fair Park want to have the same chance as students at Shreve and Byrd and the Board needs to help them.

Pamela Jackson expressed her concerns relative to a letter read at their church on Sunday regarding the consolidation of Fair Park and BTW High Schools and sending Fair Park students to BTW. As a member of the Alumni Association, she asked the Board to delay the vote on this and work with the Alumni.

David Stanford read the CPSB Mission Statement and stated it is hard to win when the rules keep changing. He referenced data that indicates Fair Park is improving its grade as required by the MOU, yet he believes decisions are being made that keep them from being successful. With the MOU in place until May 2017, he asked why is there a rush when the data indicates Fair Park will no longer be an F school but will show double-digit growth and possibly move to a C category. He also noted that in addressing the need for certified, qualified teachers at Fair Park, teachers need to be assigned where they are needed and not asked if they want to teach at Fair Park.

Danny Martin addressed the Fair Park-BTW merger and that the proposal submitted is unacceptable. He encouraged the Board to engage the community, parents, teachers and students in the decisions being made. He shared his belief that this proposal is saying Black kids have no purpose, and it is time that Black kids stop receiving the White kids hand me downs.

Tahira Abdul-Rahman shared the Booker T. Washington Alumni Foundation's support of the motion to modify the grades at BTW to 9-12. She expressed appreciation for the new principal at BTW, because under Dr. Young's leadership they believe BTW will meet the challenges they have faced for many years and raise the School Performance Scores. She also reassured everyone that they look forward to what BTW will do in moving forward under Dr. Young's leadership. She asked the Board to help BTW continue to move forward by supporting the motion on the floor and move forward.

Craig Lee stated he believes it unfortunate that Black people are pitted against Black people, because neither of these schools need to be closed. Mr. Lee proposed that Caddo Magnet High School be closed and that the students be moved to Fair Park or Booker T. Washington. He also questioned why the community was not contacted about this proposal, and what criteria was used in making the decision to close Fair Park. He shared the importance of schools to stimulate economic development, and urged the elimination of M to M transfers.

Frederick Branch addressed the Fair Park-BTW merger and how his daughter will be affected by this decision. He addressed the lack of textbooks at Fair Park, specifically named successful students that graduated from Fair Park, and encouraged the Board to never close Fair Park.

Brandon Lacey addressed the Fair Park-BTW merger. He stated that despite his emotional connection to Fair Park, he is here today for fairness, because he does not believe Fair Park is being treated fairly in this matter. He confirmed he believes there should be more time allowed before voting on it especially since the matter was not discussed previously with Board member

Bonita Douzart who represents this District. Mr. Lacey questioned evidence that this proposal will actually impact the quality of education for these students, and the only decision he can support is an informed decision made with righteous intent, and he doesn't believe this decision is an informed one. From an accountability perspective, he said the Board owes it to the community to not just make a rash decision but provide substantial evidence as to why this decision is being made.

State Representative Barbara Norton addressed the proposal to change Fair Park High School to a middle school and move the high school students to BTW. She said she is a champion for public education and has worked for public education in Baton Rouge. She shared her sadness over the student who told the Board he wanted to learn but the students at Fair Park didn't have textbooks and resources needed. She asked the Board to look closely at this matter before making a decision.

City Councilman Willie Bradford addressed the Board on the BTW-Fair Park merger and because he understood the District was under a mandate to make a decision regarding the future of education relative to Fair Park and Booker T. Washington, he expressed his position of standing up for his District and being blamed for the condition of the District he inherited. Noting that he has protested some of the injustices of the School Board in the past, and being unsure as to what has led up to this encounter, he noted the problem needing addressed. He shared his concern that more emphasis and concern is being placed on structures, brick and mortar, rather than the condition of the students and doing what is best for them.

Lee Feaster, Jr. stated that as a Fair Park Alumni he is concerned about the number of subs at Fair Park, the lack of needed resources, and asked the School Board what it is doing to address the needs.

Lloyd Thompson shared his concern upon learning that this issue has come up again. He has been concerned about the number of schools being closed in the African American community. If a Civil Action Lawsuit is filed, Mr. Thompson stated that the NAACP will stand with those filing the lawsuit. He encouraged the Board to stop playing games with Caddo's boys and girls and do what is necessary to provide certified teachers in these classrooms. He doesn't understand why the teachers at Caddo Middle Magnet School cannot come to Fair Park and BTW to teach. He further stated that the members of the community and supporters of the school system need to stand up and ask the US Justice Department to investigate the School System.

Cheryle Wheeler Johnson announced that she is here representing a student and every child deserves to receive the best education possible. She also recognized the many teachers in Caddo over the years that have committed to teaching children no matter what and encouraged the Board to get back to the basics.

Commissioner Lyndon B. Johnson addressed the history of closing feeder schools to Fair Park and the number of principals Fair Park has had. He questioned how merging the two schools will save money when Fair Park students will be bussed further to get to school. He encouraged the Board to have a Community Advisory Council look at this proposal and submit another proposal that everyone can support.

Henri Wesley stated that he has been around youth and education for many years and he challenged everyone to go find as many as possible that will help put textbooks in the schools. He encouraged everyone to stand up for the students and schools and to do so consistently.

Rev. Calvin Austin noted the ripple effect this proposal will create across the City; and while the discussion today is Fair Park, but this discussion could one day be Captain Shreve since Shreveport is moving south. He reminded the Board that it represents the people who elected them to be their voice in this meeting for their children and to speak up about what is right and fair. He said it is not about the buildings, or the bricks and mortar that make up the buildings,

but it is about the children; and if the Board does not speak up for the children, Board members could be recalled.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Locke announced that items 6.02-6.03, 8.01-8.04 and 13.01-13.03 are the consent agenda. *Mrs. Bell moved, seconded by Ms. Trammel, to establish the agenda and the proposed consent agenda. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to confirm the consent agenda as presented. Vote on the motion carried and the following is a summary of the Board's action on consent agenda items.

Item No. 6

6.02 Personnel Transaction Reports-Resignations-December. The board approved the personnel transaction reports (December resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The board approved the administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

Item No. 8

8.01 Property/Bus Rental Requests. The board approved the requests for use of CPSB property and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Proposed Revisions to CPSB Policies BBC (Board Committees) and BCE (School Board Committees). The board approved the proposed revisions to CPSB Policies BBC (Board Committees) and BCE (School Board Committees) as submitted in the electronic mailout.

8.04 Consideration of Proposed Teacher/Instructional Personnel Salary and Stipend Compensation Plan. The board approved the proposed teacher/instructional personnel salary and stipend compensation plan as recommended by the superintendent and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved staff's recommendations for Students DF, JD and LW as submitted in the electronic mailout whose parents are in agreement.

13.02 Request for Settlement Authority – Christy Long vs. Angela Adkins & CPSB Civil Suit No. 582,231, 1JDC, Parish of Caddo, State of Louisiana. The Board moved to authorize a resolution as recommended and submitted in the electronic mailout.

13.03 Request for Settlement Authority – Workers' Comp Claim #3378175, Dorothy Williams. The board moved to authorize resolution as recommended and submitted in the electronic mailout.

MODIFICATIONS TO GRADE LEVEL CONFIGURATIONS AT FAIR PARK TO MIDDLE SCHOOL AND BOOKER T. WASHINGTON TO GRADES 9-12.

Mr. Ramsey moved, seconded by Mr. Albritton, that the Superintendent seek authorization from the Recovery School District and/or Department of Education to make modifications to the Transformation Partnership Agreement in order to effectuate changes necessary to convert Fair Park High School to a middle school and Booker T. Washington High School to a 9-12 high school.

Mr. Ramsey stated Caddo has too many high schools and this has been discussed for 13-14 years. While the District at one time had over 50,000 students, it now has approximately 41,000, and the primary reason for bringing this forward is to bring resources together, combine staffs and hopefully address and eliminate the number of teacher vacancies/shortages. He reminded everyone that the District's Strategic Plan addresses various areas, including right-sizing the school district and resources. At one time, the District had 70 plus buildings; and despite the closing and repurposing of some of the buildings, there are still a number of buildings where the student enrollment is a lot less. To effectively provide programs, Mr. Ramsey said right-sizing is important and is the reason for this motion. He stated the current extension to the Partnership Agreement will expire in May of 2017 and the schools in the Transformation Zone must be addressed, and is why he asked the Superintendent to seek authorization from the RSD because none of what is proposed can happen until the component parts are negotiated. Many things can happen and he believes the motion on the floor addresses the needs of the students by bringing resources together, which is what businesses do. He expressed appreciation to the Board for consideration of the motion.

Mr. Albritton stated that the idea that this is being done for any other reason than to help students is misdirected. While he understands the concerns, changes are needed and this decision is putting together a program whereby more students will have access to the developmental courses available and needed. He asked everyone to come together to address this for the benefit of the students, combine these two schools and strengthen the program by providing more opportunities to advance their education now and once they graduate.

Dr. Douzart moved, seconded by Mr. Rachal, to delay action on item 8.05 and that the Superintendent, staff, principals and administrators come up with a plan that reconfigures and consolidates schools. Dr. Douzart stated that she brings this substitute motion because she supports both schools, but she was not aware of any proposal until January 10th. She said she does not support this plan and believes that the Superintendent, staff, principals and administrators are more qualified to bring a proposal for the Board's consideration.

Mr. Rachal asked about the details in the program, the plan that will be implemented, and what are the students getting other than being moved around? Dr. Goree noted that Mr. Rachal asked him a similar question last week and unfortunately his answer is similar. He stated he learned in his superintendent courses that you never want to lead a district with a declining student enrollment; however, he feels so blessed to have the opportunity to lead in Caddo. In looking at the proposal he says it is clear to him the Board has made a decision to make a determination by voting on this item. As an employee of the Board, he respects that and he reassured the community that regardless of what the Board decides, he will continue to work hard, as he has since he came to Caddo, to provide every child the absolute best possible educational opportunities. In looking at Fair Park's performance over the past 10 years, he agrees there have been some struggles, but he also commends the staff, students, teachers, administration, alumni for working so hard and showing measurable increases over the last three years. He said in listening to the conversation today, he heard a lot of historic issues that have prevented the School System from moving forward, as well as issues that continue to resurface over and over again; and he questions when will a decision be made and what will determine what happens when there is a moving population, will we preserve the history of Caddo's only all Black historic high school or will we preserve the history of a high school that is 90 years old. He believes the Board has chosen to make a decision and staff will respect whatever that decision is.

Mr. Rachal asked the Superintendent if he supports this, and Dr. Goree stated staff does not have a position on this motion because staff also learned of the motion last week and it is the Board's

decision if it wishes staff to review it. If so, it could be sent to committee and staff will review it. Mr. Rachal asked if through the process a plan will need to be presented to John White and the RSD, and Dr. Goree said that is a fact and staff is currently in discussions with State Superintendent White and RSD Superintendent Patrick Dobard on what the Transformation Zone and the efforts beyond the contract deadline of May 2017 look like. Decisions will have to be made for any schools that remain in "F" status, and he says that with much respect for the schools that have worked so hard, have shown improvement and are so close to coming out of the failing status. Mr. Rachal said he believes he heard everyone today say that if a plan is to be presented to the State Department, they want to know what that plan will be. Again, Dr. Goree responded that staff is in the process of developing a plan to submit to the State Department; and as Superintendent it is his charge to move forward based on the actions of the Board which will determine the direction of the conversations with the State. Mr. Rachal asked if there is a time crunch to make a decision, and Dr. Goree said if the Board votes to move forward or if the Board votes not to move forward, staff will plan accordingly. Mr. Rachal asked if there is a deadline to present a plan to the State, and Dr. Goree said one thing has nothing to do with the other. Whether the plan is a high school or a middle school, the decision will be made at the end of this school year when that contract expires. Mr. Rachal asked if, knowing there is a deadline in May, any plan began three or four months ago so the community could have been involved? Dr. Goree said staff works everyday with the RSD and the question would need to be addressed to Mr. Ramsey as maker of the motion. Mr. Rachal asked if the Superintendent and staff are working/discussing plans/options because of the deadline in May. Dr. Goree again stated that he and the staff are in constant communication with the RSD so conversations are always about what the next stage looks like in transformation; and there has been a lot of conversation about what middle schools look like in the inner city community; however, there is not a definitive plan but is something that would be a part of the conversation during the Spring semester. Mr. Rachal stated he heard the visitors today and that they want to be a part of these discussions; and with Fair Park being at the top of discussions for years on the need to be closed or reorganized, staff and the Board have worked diligently to right-size and better use the funds the District receives to better educate the children. Because the District can no longer continue, or has the ability to continue, to operate as it has, an effort must be made to get the funds to the classroom. With the shifting of population, Fair Park is at the top of the list for change; however, he will support postponing this action in order to bring the community, the Board and any others who wish to be involved in the discussions. He encouraged the Board to support postponing this decision until the community and other parties can come together and discuss the details.

Miss Green stated her support of postponing because she believes protocol is that the Superintendent should be the one who brings plans affecting the schools to the Board. She also understands that the Board members who represent the District in which these two schools are located were also unaware of this proposal; and she also believes the public was not included in this proposal; and she cited the timeline followed in the merger of Oil City and Vivian Elementary Schools. She also stated that in postponing this item, she believes it should be referred to committee.

Ms. Trammel asked for clarification on how much time we are talking about, and Dr. Douzart stated she believes the deadline in the agreement with the RSD is May of 2017. Ms. Trammel stated that in order for the District to deal with the RSD, we cannot wait until the deadline of May 2017 before making a decision and be ready for the start of school. Dr. Douzart stated that following the January 10th work session she asked about delaying this decision to February or March and was informed that it was important to address it now. Ms. Trammel noted her experience through such transitions in Caddo in the past; and it is important for the Board to realize change is coming. While she respects the opinions of others, both in the affected District and not, she said if this is delayed she believes there needs to be a timeline in place so those who spoke have an opportunity to share their opinion. She also does not believe this needs to go to committee as this has been an item of discussion since approximately 2004; and she also understands that schools in her District are possibly at risk. Dr. Douzart stated she is flexible and ready for change; however, she wants to make sure the change is for improvement and to allow time for her constituents to understand the change.

Mr. Riall moved, seconded by Miss Green, to refer 8.05 to the proper committee to be brought back to the Board with a decision from staff and the committee members within 60 days. Mr. Riall stated it appears the Board is not ready to make a decision on this; and he understands the importance of right-sizing having just experienced this in District 1 and how the two communities came together to make the consolidation a success. Miss Green said she believes more time to get input from the community is needed.

Mr. Albritton said he appreciates the idea of additional time, but does not support the substitute motion because he believes the original motion is broad enough that staff could accomplish this request to establish a timeline and allow for community input. He said while he is new to this Board, he was also on the Board 30 years ago at a time when the Board went through the same thing and an attempt was made to “sweep it under the rug”; but the Board no longer has this luxury. He encouraged the Board to show its strength in doing what is best for the children of Caddo Parish, because it is not an individual Board member’s school but a Caddo Parish school and the Board is responsible for every school in the Parish regardless of whose District it is in. Mr. Albritton stated because of a decline in population, this is a time to move forward and set the ground for the future in making even more difficult decisions. Mr. Albritton also said he has complete confidence in the staff in any recommendation they may bring to the Board that it will include a timeline for implementation as well as a time for community input. He encouraged the Board members to not support the substitute motion and support the original motion and allow the staff the opportunity to begin work on bringing back a plan for the Board.

Mrs. Brown said she questions how many have actually read the Transformation Agreement with the RSD because much of what she is hearing asked is answered in that document. She added that under values in this agreement, it states some of the same things the Board is asking to be done, and she asked Dr. Goree in the future to make public the documents the Board needs to address.

Mrs. Bell stated her agreement about the document that is on BoardDocs; however, she does not believe the RSD cares. While it could be extended, she remembers traveling to Baton Rouge to defend Caddo’s schools when the State was going to take them and they did not care. Mr. Riall called for a point of order because the motion on the floor is the substitute motion to refer to committee and bring back a recommendation to the Board in 60 days. Mrs. Bell said she does not support the substitute motion since the Board will not address it until March, then staff would need to present something to the State in April; and with a May deadline, she believes postponing 60 days is delaying it too long. She encouraged the Board to support not delaying.

Mr. Green stated it is clear that the parents and communities of both schools have expressed what they want done relative to this proposal and he believes they should have been included. He believes this motion allows for the Board and Superintendent to include those who were excluded and we need to take whatever time needed to make sure that the best decision possible is made for the students.

Mr. Ramsey stated he believes the original motion has been transformed into something it is not, and he believes it was explained very well during the work session that the Fair Park Middle School component was left open-ended since Fair Park cannot be touched without the permission of the Recovery School District. He further stated the only thing the Superintendent can do at this time is approach the Recovery School District which is with anything the District may do. He said there is a timeline and he believes this motion moves that timeline forward. The Board must make a decision; and while the conversation is about buildings, it is the children who will benefit from the combined resources.

Mr. Rachal asked Dr. Goree if the 60-day timeframe is ample time for staff to prepare and get a plan to the RSD? Dr. Goree restated he and staff are in weekly communication with the State and the May 2017 date is the timeline for determining how the District will organize its schools moving into the future. He again reminded the Board that even prior to this motion, the District was in negotiation with the RSD, i.e. Linwood Charter campus and its future. Having stated that staff has been in negotiations with the RSD, Mr. Rachal asked about specific negotiations

regarding Fair Park. Dr. Goree responded that specifically many of the schools in the Transformation Zone have exited the failing status; however, there are still four schools that have not shown the necessary growth, and Fair Park is one of those schools. In asking what does the future look like for these schools, they are looking at programs such as TAP; and conversations with the RSD are not about right-sizing the School District, but they are about how we can improve the academic performance for all students in the School System. For years the Board has held conversations around right-sizing the District, always looking for every opportunity to meet both needs, with Academics being the driving importance.

Ms. Trammel moved, seconded by Mr. Ramsey, to call for the question on all motions. Vote on the motion to end debate on all motions carried with Board members Brown and Rachal opposed.

Vote on the substitute motion to refer 8.05 to the proper committee to be brought back to the Board in 60 days failed with Board members Riall, J Green and Douzart supporting the motion and Board members Brown, Poljak, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell opposed.

Vote on the substitute motion to delay action on Item 8.05 and that the Superintendent, staff, principals and administration come up with a plan to reconfigure and consolidate schools failed with Board members J Green, Douzart, R Green and Rachal supporting the motion and Board members Riall, Brown, Poljak, Trammel, Locke, Ramsey, Albritton and Bell opposed.

Vote on the main motion that the Superintendent seek authorization from RSD and/or DOE to make modifications to the Transformation Partnership Agreement in order to effectuate the changes necessary to convert Fair Park High School to a middle school and Booker T. Washington to a 9-12 high school carried with Board members Riall, Brown, Poljak, Trammel, Locke, Ramsey, Albritton and Bell supporting the motion and Board members J Green, Dauzart, R Green and Rachal opposed.

Mr. Rachal announced to those in the audience that Superintendent Goree has assured him he will bring the community together to address the questions and concerns about the proposed plan and if anyone wishes to participate, they should contact the Superintendent's office.

Adjournment. *Mrs. Bell moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 7:46 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

January 17, 2017

The Caddo Parish School Board (CPSB) Long Range Planning and Development Committee met in regular session on Tuesday, January 17, 2017 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Larry Ramsey presiding and the following committee members present constituting a quorum: Bonita Douzart, Barry Rachal, Dottie Bell and John Albritton. Also present were Denee' Locke, Mary Trammel, Raymond Green, Susannah Poljak, and Jasmine Green. Superintendent Lamar Goree and Reggie Abrams, legal counsel, were also present; as well as staff members James Woolfolk, Keith Burton, Diane Atkins, Jim Lee, Tommy Smith and Mary Wood. Mr. Rachal led the prayer and Pledge of Allegiance.

ESTABLISH AGENDA AS SUBMITTED

Mrs. Bell moved, seconded by Mr. Rachal, to establish the agenda as submitted on BoardDocs. Vote on the motion carried.

CONFIRM THE AGENDA

Mrs. Bell moved, seconded by Mr. Rachal, to confirm the agenda as submitted. Vote on the motion carried.

ENERGY CONSERVATION PROGRAM

Mr. Ramsey announced that at the last meeting, staff was asked to interview the companies and make a recommendation to the Long Range Planning and Development Committee regarding a third party energy conservation program. Superintendent Goree recognized James Woolfolk, chief operations officer, and Jim Lee, chief financial officer, who managed the process of reviewing those interested in doing energy conservation for the school district.

Mr. Woolfolk shared with those present the results of the RFQ and what will be the best energy management program for Caddo to implement. He reminded the committee that an RFQ was sent out in June to determine any companies that might be interested in providing these energy services to Caddo. Three responses were received: (1) Cenergistic LLC, (2) Gulf GEO Exchange Consulting Services; and (3) Storer Services. Mr. Woolfolk noted the differences in the three companies responding offering a wide perspective of the services available, and he highlighted for each their experience, the services they provide, number of employees, cost, savings, highlights, training and program implementation assistance. Based on the analysis of all three companies, Mr. Woolfolk reported that all three companies have the competence and track record to provide a program that will benefit our District's energy conservation program with some financial benefit, but staff recommends Cenergistic as they are self-contained and they are a tried and proven operational and financial process that staff believes will best serve the needs of Caddo Parish. In looking at the financial side of the proposal, Mr. Lee agreed with Mr. Woolfolk and the recommendation to grant it to Cenergistic. Mr. Woolfolk also clarified that Caddo's only expense will be the \$16,000 and that will be paid from Caddo's portion of the savings. There is no cost to the General Fund budget.

Mr. Rachal asked about the exclusion of the current Caddo energy projects and they will be removed. Mr. Woolfolk stated that staff knows current projects, i.e. new HVAC at Byrd, so they definitely would work with Cenergistic to make sure staff and Cenergistic are in agreement on the projects. Mr. Rachal asked if there is a list of the projects implemented that should not be included, and Mr. Woolfolk said it is something he can get. Regarding Gulf, Mr. Rachal asked how the savings with them would be split, and Mr. Woolfolk said there is no split because they say they are basically an expense and savings, guaranteeing the District it will save money;

however, if the District does not save any money, it would be responsible for paying them for their service. Mr. Rachal asked if Gulf works on behavioral issues, and Mr. Woolfolk responded they will in their packet of full services on what the District needs to save energy. Mr. Rachal asked if there is no expenditure for equipment, is it correct that the District would reap 100% of the savings less any expense the company may have. For Gulf and Storer, the District pays them to come in and tell the District what it is doing wrong, the District fixes what it is told and purchases needed equipment and then experiences the savings as a result. Mr. Rachal asked about the need to purchase new equipment under Cenergistic and does the cost come from the District's portion of the savings? Mr. Woolfolk said no, with Cenergistic, the District pays them after the savings are experienced. Mr. Rachal asked how will it be handled when the District replaces equipment, will the District pay for new equipment from its half of the savings? Mr. Woolfolk stated that if the District purchases equipment to save energy and the District reduces the cost, then a new base point is determined.

Dr. Douzart asked if a technician will be on call at all times, and Mr. Woolfolk responded Cenergistic will hire four specialist who will be available to the District to determine the energy savings process. Dr. Douzart asked about titles for those who receive additional training. Mr. Woolfolk stated there will be training with Caddo's maintenance employees so they understand this is part of their job, but he is not aware of any change in job descriptions. He added that the four specialists to be hired by Cenergistic will be paid from Cenergistic's ½ of the savings.

Mrs. Bell noted she likes the predicted savings as well as if Caddo does not experience any savings, Cenergistic will not see any savings. She asked if she understands correctly that four specialists will be hired from Cenergistic's ½ of the savings and will reside on the home site.

Larry Ramsey asked if we were to enter into a contract with Cenergistic, is there anything in the contract that prevents us from using Storer or Gulf to do supplemental maintenance activities. Dr. Goree stated that Storer is currently used for several things and no the contract will not prohibit us from continuing with this contract and/or using other vendors.

Mr. Albritton moved, seconded by Dottie Bell, to accept the staff's recommendation for the approval of Cenergistic as Caddo's program provider for energy conservation. Mr. Albritton stated that the credentials he is most impressed with are the breadth of Cenergistic's experience.

Mrs. Bell shared her support of anything that will save Caddo some money for the students, the teachers and the employees.

Mr. Rachal referenced previously presented information and guaranteed savings and asked staff about costs that are considered an investment in the program. Mr. Lee responded that the software installed and used would cost \$16,000 a year; however, if the District does not see any savings, it will be refunded. Mr. Rachal stated he does not understand the company's statement that "savings are guaranteed to exceed all investment in the program." He also asked about the four tiers and specifically Tier 2 which addresses efficiency, i.e. and what does this mean when it comes to purchasing more equipment, is it included as part of the investment. Mr. Woolfolk stated he understands there are no requirements for an investment on staff's part. Dr. Goree clarified that he remembers if something is purchased, Cenergistic will make the necessary adjustments in agreement with the District collaboratively to determine how it affected the savings points. Mr. Rachal said while it may be terminology, the word "investment" is used in several places under Tier 1 services, and he questions whether or not these are the only services we will receive. To appropriately answer these concerns/questions, Mr. Ramsey announced it would be necessary to research and bring Mr. Rachal the correct answer.

Denee' Locke asked if she understands the four persons hired by Cenergistic are not Caddo Parish School Board employees, and staff responded that is correct. She also asked if there are

any other companies that provide similar services. Mr. Woolfolk said it is something the school system would have to pay for from the savings amount.

Mr. Rachal stated that the reference to Caddo's only cost in this would be the software (\$16,000) and one of Caddo's attorneys in his review of the proposal said that this information would be necessary and that Caddo would be required to hire an energy manager. Mr. Abrams said that is not correct.

Dr. Goree stated there is an energy manager in Caddo's current staffing model, but the four managers hired by Cenergistic will result in a reduction of Caddo's staff. Mr. Abrams added that he did not recognize the plan as one where Caddo would be required to hire an energy manager; and relative to Tier 1, he understands that is what Caddo is asking Cenergistic (services) to provide and not Tier 2 or Tier 3 (equipment).

Vote on the motion carried with Committee members Ramsey, Albritton and Bell supporting the motion and Committee members Rachal and Douzart opposed.

Mr. Ramsey asked that this item be added to February's agenda.

Adjournment. *Mrs. Bell moved, seconded by Mr. Albritton, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:30 p.m.*

January 27, 2017

The **Caddo Parish School Board (CPSB)** held a retreat on Friday, January 27, 2017 at approximately 10:00 a.m. in the Community Foundation's Community Central Room, 401 Edwards Street, Shreveport, Louisiana. Those in attendance were President Denee' Locke and Board members Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Albritton led the prayer and Pledge of Allegiance.

Communications. Superintendent Goree led interactive discussion on the importance of communications within the District, between staff and Board members, between staff and the media and public, as well as between the Board and the media and public.

Legal Representation Process. Board Counsel Reggie Abrams highlighted the history of legal representation for the Caddo Parish School Board, the RFP process established by the Board in 2002, why the Board chose to forego the RFP process in 2013, as well as Board-approved policies that govern the selection of Legal Counsel for the Board.

Financial Update. Jim Lee, Chief Financial Officer, presented a mid-year financial report on the District highlighting final financial results for FY 2015-16, results to date for FY 2016-17 relative to MFP funds, property and sales taxes, expenditures and what the recurring cost to the District would be in considering an across-the-board pay increase for all employees.

Testing 101. Keith Burton, Chief Academic Officer, shared an overview of Caddo's District Performance Score, School Performance Scores and Progress Points, how scores in each area are computed, what the scores mean, State accountability formulas and future initiatives to improve student performance. He also highlighted grade configurations and required testing in each, the 2015-16 Caddo Parish District Report Card, assessment index comparisons for School Performance purposes as well as Student Growth purposes for years 2013 – 2016.

Overview of CPSB Policy Manual Section G (Personnel). Charles Lowder, Director, Certified Personnel, presented Section G of the CPSB Policy Manual and reported that after many meetings since 2011, this section is ready to be presented to the Board for approval. Upon approval, he explained this section with proposed revisions to existing policies will replace the current Section G. Mr. Lowder briefly summarized/highlighted the proposed revisions and Board Counsel Reggie Abrams highlighted the policies where there were questions/concerns during the process.

Teambuilding Activity – Board Relations and Accountability. In closing, President Locke stated she is honored to serve as the President this year and congratulated the Board on being a great Board. She shared (1) the importance of how the Board interacts with one another, (2) her belief that the Board can strengthen community relations, (3) how agreeing to disagree can be healthy, and (4) the power of credibility.

Adjournment. The retreat adjourned at approximately 3:20 p.m.

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

February 7, 2017

The **Caddo Parish School Board (CPSB) Building and Grounds Committee** met in regular session on Tuesday, February 7, 2017 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Barry Rachal presiding and the following committee members present constituting a quorum: John Albritton and Steve Riall. Also present were Denee' Locke, Mary Trammel, Raymond Green, Dottie Bell and Larry Ramsey. Superintendent Lamar Goree and Reggie Abrams, legal counsel, were also present; as well as staff members James Woolfolk, Keith Burton, Diane Atkins, Jim Lee, Tommy Smith, Roy Murry, Jeff Howard and Mary Wood. Mr. Abrams led the prayer and John Albritton led the Pledge of Allegiance.

Mr. Rachal stated that after visiting with President Locke and Superintendent Goree, he scheduled today's meeting for the purpose of addressing the vacant buildings as a result of consolidations and begin putting together a plan to have a better understanding of direction and options when addressing vacated buildings. Dr. Goree introduced staff who presented information on Caddo's facilities and the Strategic Plan process being followed when determining the future use of a vacant facility, of which this committee is a part of that process in going to the Board as well as to the community. Mr. Woolfolk presented the following for the committee's information:

- 1) A map of Caddo Parish with the location of all active schools marked;
- 2) A list of Caddo Parish School Board properties throughout the Parish for repurposing (some of which have current activity in the buildings);
- 3) Status of vacant properties including maintenance cost and the need to plan
- 4) Schools that have been demolished and/or repurposed. The schools labeled environmental have not been demolished yet and Mr. White is making a determination on the best economical way to address these.
- 5) Vacant Building Process
- 6) Process for selling Caddo buildings

Dr. Goree reminded the committee that the Board approved repurposing Linear; and at this time, Northside will come off line and bring a bigger capacity middle school in the community. He said he believes the bigger school will be able to handle any growth; however, any decline in population will eventually result in Pine Grove also coming off line. Mr. Woolfolk also explained how closed corridor schools are better than the finger wing schools when it comes to being able to control access to the buildings on a campus. Mr. Woolfolk explained that Steve White is continuing to research and determine the most economical way to address the various situations in the vacant buildings, i.e. asbestos, mold, deterioration. The 79th Street facility is of utmost concern as it is located in a neighborhood and is deteriorating that neighborhood.

Mr. Rachal shared the importance of knowing what Dr. Goree and staff are looking at and the impact of consolidating Fair Park and BTW. Dr. Goree stated that between Academics, Operations and IT, staff is attempting to design perfect world scenarios; and because everything the District does must be approved by the RSD and the State, the goal is to have something to the State by the end of the week. In discussions with John White this morning, he said they are working to come to an agreement by the March 7th BESE Board meeting. He also explained that when reinstating the traditional middle school with Grades 6, 7 and 8, 6th graders will be pulled from the elementary campuses thus decreasing enrollment at those elementary schools. As a result, he believes two elementary schools will close and this committee would then talk about the future of those schools. He believes Academics and capacity will play a key role in these two schools; which, at this point, have yet to be determined.

Mr. Riall asked about the Teacher Resource Center in Vivian and Mr. Woolfolk stated that staff will need to go through the process and meet with the community. Mr. Rachal suggested that a

cost analysis to demo the TRC in Vivian versus the cost to make this building viable be prepared and presented to the Committee.

Mrs. Bell asked about costs associated with closed facilities, and staff explained in some cases when a school is closed there may be some outstanding expenses that need to be paid. Mr. Lee reminded Mrs. Bell there is still minimal cost for security of the closed buildings. Mrs. Bell also asked about Pine Valley, Carver, and the status on these buildings that have been closed for many years. Dr. Goree said this is a perfect example of what we never want to do – walk away from a school and allow it to slowly deteriorate and be an eyesore in the community. He added another aspect is asbestos that must be abated in the older facilities.

Mr. Riall asked if there is any reason to sell the land at Rodessa, and Dr. Goree stated because he believes the profit would be minimal, his recommendation would be a lease for the property.

Mr. Rachal said he believes it will be the committee asking what will we do and what order will be followed to accomplish what we want. Mr. Green asked about the old Oak Park campus. Mr. Abrams stated originally we expected the Housing Authority to maintain this area; however, they lost interest and attempted to go in another direction. As a result the gym was destroyed, the air conditioning was destroyed and then they made a decision to level the property. Mr. Abrams said while we still own the property, it is subject to a 99-year lease; and they have said they would like to own the property. Mr. Abrams further stated because of the 99-year lease on the property, he does not believe the property is worth anything. Mr. Rachal asked were they not to be responsible for the buildings as a part of the 99-year lease, and Mr. Abrams stated that Caddo School System authorized them to tear down the building. Also, they paid for the demolition and paid for the cleanup. Mr. Green asked if it is possible to negotiate and place a housing subdivision there, and Mr. Abrams responded if the Housing Authority wants to do this they would only need to follow up with the tenant and determine if they are agreeable. Dr. Goree stated his understanding that they still want to build housing on the property; and Mr. Abrams added but they will not as long as it is a lease, and a process would still need to be followed.

Mr. Rachal reminded everyone that this meeting is a starting point and staff will be working on some plans for the property we will possibly repurpose or sell. He believes it is important to begin looking at how the District will repurpose these vacant buildings or sell them and look to staff for a priority list in addressing them. Mr. Rachal also noted that Building 6 has been put out for bid three times and the District has yet to receive an acceptable offer. Mr. Woolfolk highlighted the timeline for placing Building 6 on the market for sale; and with no bids received, it was placed out for bid again at 80% in June 2016. Because there were no responses and staff did not want go lower than 80%, staff made a decision to do more marketing for the sale of this building as well as look at other options, i.e. commercial auctions. He also said he believes because the District has offered it down to 80%, the District can now set its own price on Building 6. Dr. Goree also reported that staff has begun the process of identifying someone to carry this through the Legislative process and hopefully get some of the rules changed. Mr. Abrams added that because the District has put it out for bid down to 80%, it is no longer limited by the statute.

Mr. Rachal stated that will be something the Building and Grounds Committee presents to the Board to determine if we work with a commercial realtor, continue on the same path, or possibly use an auctioneer, and he believes this option needs to be thought through before using it. Mr. Abrams noted the concern about choosing a realtor is deciding which realtor, and Mr. Rachal confirmed that realtors can negotiate their commission. He also stated he believes it will be necessary to go out for an RFQ for Building 6, and Mr. Abrams confirmed that the Board has already taken action and authorized the staff to move forward with selling Building 6; and because it has been bid down to 80% with no response, the Board may want to consider a minimum amount it would accept for Building 6. Mr. Rachal said he did not believe the Board

would want to state a minimum amount until it gets proposals from qualified auctioneers, real estate brokers, et.al. Jeff Howard added he believes you can take proposals from those interested and the proposals submitted will likely list what value they believe the building has; and when a contract is being written, a minimum amount can be determined.

Mrs. Locke asked that “repurposing” be changed to “surplus”. She also asked for clarification on where the money is deposited when a vacant building or property is sold. Mr. Lee explained it goes in the Capital Projects budget, same as bond dollars, because bond dollars were used for construction, not General Fund.

Dr. Goree recapped and stated that staff is ready to begin the process with the communities of Barret, Vivian TRC and Oil City. He noted that the Board has authorized staff to move forward with selling Alexander and Building 6. He added his agreement with Mr. Rachal relative to comparing the cost to repair an available facility versus selling it. Mr. Rachal asked if staff believes it will have information available prior to March 7th on additional consolidations resulting from the consolidation of Fair Park and BTW. Dr. Goree asked if he understands that Chair Rachal is asking staff to investigate the cost of addressing some of the environmental issues, and Mr. Rachal stated that is correct, including the cost for utilities, grass cutting, etc. if we do not sell these facilities.

Adjournment. *Mr. Riall moved, seconded by Mr. Albritton, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:00 p.m.*

February 7, 2017

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, February 7, 2017 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and Dottie Bell and Steve Riall present constituting a quorum. Also present were Board members Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Mrs. Brown was absent. Ms. Green led the prayer and Pledge of Allegiance.

PRESENTATIONS

Update on Strategic Plan: Reimagine Caddo. The Plan for Excellence. Carolyn Spaht Gonzalez, third party reviewer contracted by Caddo Schools to assist the district in working through the District's Strategic Plan, updated the Board and the public on how Caddo is progressing in reaching the goals and targeted objectives outlined in the plan. She said she is here to give a mid-year status update and will present a detailed evaluation at the end of the year. She reminded the Board that it approved a revision to the Strategic Plan last year and she did a detailed review with Mrs. Wood and created another rubric for comparing the last two years as well as the baseline and where the District wishes to be in 2020. She also reminded the Board that her purpose is only to evaluate the performance against the Plan. She also met with the department heads to gather data and announced that all the backup data on where each department is in meeting their objectives and actions steps is available in the Superintendent's Office for review. She also created a Scorecard from meeting with the staff to determine where each is in meeting the action steps and clarified the labeling of each objective as green (target met), yellow (target not met but significant progress made) or red (progress not made).

She summarized that the revised Strategic Plan included 30 measurable objectives; and with three of those being deleted, she actually evaluated 27 objectives. Of the 27, approximately ¼ were too early to evaluate (Academics data not available), and approximately 48% of the 27 objectives met the target. She added 15% were in the yellow range, and approximately 15% were labeled red.

Mrs. Spaht-Gonzalez highlighted each department and their progress on goals as follows:

- Academics has three objectives; however, the data is not available for the K-2 students performing at a grade level; grades 3-8 scoring proficient in ELA and Math, and the graduation rate. In reviewing the actions steps in these objectives, she noted that even though there is no mid-year rating, all activities are on track.
- Family and Community Engagement has a total of three objectives; two targets have been met for where they wished to be mid-year and one is yellow toward participation in partnerships at the school level (meeting the needs of the community and schools, and having an effective communication with families).
- Fiscal responsibility has two objectives, one measuring the fund balance and the other the strong bond rating.
- Human Resources and Professional Development deleted 4.2 regarding highly qualified applicants and 4.5 regarding retention of District staff with at least 20 years service. She said in looking deeper into what this one looks like, there was not ample data to know if this is something the District wants to focus on. Relative to vacancies, tracking begins in September and retention looks very well when compared to, for example, Miami Date County. She also noted the small margin by which they lost ground in the classified personnel being down to 81%, one percentage point. Reducing the surplus is important and the certified number is higher than it wants to be.
- Innovation and Technology has seen growth as a result of STEM, Virtual Schools, increased use of computer devices in classrooms, specialized programs, etc. Objective

5.7 to insure alignment of specialized programs with the offerings of the campus is on hold, and it is recommended this objective be on hold until the dust settles with the consolidations occurring.

- Operations has a total of nine objectives and the only red in the group of objectives is transportation being on time, dropping from 94.6% last year to 93.6% this year. Mrs. Spaht-Gonzalez also noted the action steps being fulfilled, i.e. substitute drivers on time, which will affect the number of drivers and bring the 2.5% to 12.6% which is close to the 2020 target. She also shared the action plans for the vacant structures is a moving target because the common denominator is changing all the time, as well as the increased participation for breakfast since the District is a part of the CEP Program. Also, the cost for lunch and breakfast have increased slightly.
- Marketing/Communications is the area that needs focus as she knows this area is important to everyone and when hearing from the community, this is something that was very important. She added that she is aware this department has been understaffed for approximately one year which affects the results; but she also noted the two positive scores regarding the Caddo Parish School Board and building of trust. While many of the action steps in this area have been done, some have not, and she encouraged a stronger focus in this area.

Mr. Riall asked about transportation being provided at 98% of its goal and if this is a realistic number or is it high. Mrs. Spaht-Gonzalez responded that while she cannot respond to this number, she can say that in Miami Dade School District, they were never able to accomplish this at that percentage. Dr. Goree stated that in setting the goals in Transportation, they were aware that Transportation was the department in which they wished to see positive change and impact by the Strategic Plan. Based on this, some goals that are a little high may need adjusting. He reminded everyone that at the end of the school year they will sit down and look at more realistic numbers. Mrs. Spaht-Gonzalez stated the great respect she has for the Board setting high goals in starting out because most organizations do not.

Mr. Rachal asked if it is possible to change the percentages in 4.4 to actual numbers, and the superintendent responded yes, and that the numbers are moving targets at this time. He also asked about the driving force behind the certified and classified personnel overstaffing increase by nine, and staff will provide statistics to explain. When it comes to building trust (7.2), Mr. Rachal asked how we are getting out the survey. Dr. Goree responded while there was a plan to do this last year, it was delayed; however, staff is once again working on this survey that will be distributed in multiple forms. Mr. Rachal suggested that the employee organization be brought to the table for input.

Mr. Ramsey stated his observation during the certification process when it was pointed out how very critical Caddo was of itself in the self-evaluation and very lofty goals set. He expressed his appreciation for the commitment to the Strategic Plan as well as the aggressiveness in addressing it. He shared his excitement in what is now Year 2 and the plan in place. Dr. Goree expressed appreciation for Mrs. Gonzalez and staff for the amount of time spent making sure what the data is and that the work is done so the data can be presented.

Mrs. Locke expressed appreciation to the staff and Mrs. Spaht-Gonzalez for the work and this living breathing document.

Update on Establishment of Foreign Tax Free Trade Zone. Mr. Abrams reminded the Board that a few weeks ago, Glovis presented a request for a Free Trade Zone and that the President of the CPSB would execute a letter of support in the establishment of this Tax Free Foreign Trade Zone. After researching what Glovis America will be doing in this plant and the effect it will have on Caddo Parish, he believes any activity in the General Motors plant will be a plus. He further explained that the creation of this Tax Free Foreign Trade Zone is defined as a port of

entry where commercial merchandise (domestic and foreign) receives the same treatment as if it were outside the commerce of the United States; and a subzone is an area approved by the Foreign Trade Zone for use by a specific company, i.e. Hyundai Glovis in this case, and that company will enjoy all the benefits of the Foreign Trade Zone. Mr. Abrams also added that while it is not required that the School Board take a position, the company has indicated they would greatly appreciate the Board taking a position. He shared that his only concern was the items added to the vehicles while at the plant, i.e. radios, tape stripes, spoilers, etc. and shared a letter from General Counsel with Hyundai Glovis clarifying taxes would be paid on parts maintained by Glovis at the Shreveport property. A draft letter from the Board including this statement was presented. He also reported the possibility that they may bring vehicles in off the KCS line on the north side of Shreveport, which is also within the 60-mile radius of the Tax Free Foreign Trade Zone.

Mr. Riall asked if the 560 acres is the entire GM plant, and Mr. Abrams stated he understands it is the entire footprint, but this is specific to Glovis and they will fence off an area to secure the parked vehicles.

Mr. Rachal asked if there will be a clarification of assets versus inventory; and Mr. Abrams responded while he can't say what they will do, but he understands it is the inventory brought into the Zone (the vehicles that will go in and go out through that particular port/area), and not the items they will hold in the plant to be put on the vehicles. Mr. Rachal asked about the inventory of parts, and Mr. Abrams stated he does not know where the inventory of parts comes from or who it is assigned to. Mr. Rachal asked if parts will be a part of the Free Trade Zone, and Mr. Abrams clarified that is not correct and anything added to the vehicle will be taxable. Mr. Abrams further explained that Glovis will have to get approval from the Foreign Trade Zone Board and they are asking for community support in their application. Mr. Rachal asked if this is a roadblock because they want to avoid all taxes; and Mr. Abrams clarified this is Free Trade and the idea is to not be taxed by every person that touches it.

Mr. Riall asked who owns the GM plant, and Mr. Abrams responded the Industrial Board of Caddo Parish. Mr. Riall asked if Glovis makes any improvements to this property, will they be taxable, and Mr. Abrams responded he doesn't believe so, since the Industrial Board owns it.

ESTABLISH THE AGENDA FOR THE FEBRUARY 21, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its February 21, 2017 meeting and following discussion ensued.

Authorization for Salvage Sale. Miss Green asked for clarification on this item, and Dr. Goree explained that as the project at Linear Middle School moves forward, some of the things that will not be used are being taken from the school for salvage, as well as items from the Oil City campus. She asked if it will be held at Linear, and the superintendent confirmed it will not be held at Linear but it is only the items currently being stored at Linear.

Battle on the Border High School Football Showcase. Miss Green asked how much money this brings, and Dr. Goree explained this is a request for Byrd High School to participate in this event. Mr. Burton added this is a city event they invited Byrd High School to participate in, and the city contract is a requirement for them to participate. He added they do not pay the school to participate in this event.

Proposed Revision to CPSB Policy DJEAA-Procurement Cards. Mr. Rachal asked why the limit is reduced by \$1 per transaction and why the limit needs to be five times greater for one day on one card? Jim Lee responded it is a move to reduce the individual transaction rate for better control; however, staff did not feel the need to reduce the daily amount. Mr. Rachal asked if

there is a need for the daily limit to be that high since it will now take five transactions for the maximum amount, and if staff would be comfortable reducing that amount to \$2,000. Mr. Lee responded they will look at lowering it to \$2,500. Dr. Goree added staff will look at it to determine if we are looking at realistic amounts. Mr. Rachal asked if the billing cycle transaction is per individual card, and Mr. Lee responded it is.

Mr. Riall asked about the timeframe for the maximum billing and Mr. Lee said it is one month. Mr. Riall asked if there is a cap on the amount so an employee cannot exceed that amount, and Mr. Lee responded it is.

Mr. Ramsey asked about high dollar purchases, i.e. bus tires that are purchased in bulk and the \$4,999.99 may limit what can be done, and Mr. Lee said staff will look closely at that; however, items such as tires purchased in bulk are done on a purchase order. Mr. Ramsey asked who holds cards, and Mr. Lee explained it is directors and some maintenance staff. Ms. Trammel stated she only wants to make sure there is an ample amount on the card in the event of an emergency. Mr. Lee added he will clarify with the purchasing agent what safeguards are in place in the event of such a situation.

2017 Group Health Reinsurance. Mr. Rachal asked Mr. Watson to explain this item, and Mr. Watson explained that Caddo is a self-funded plan as opposed to fully insured. The reinsurance is Caddo's safety net so that claims over \$500,000 are paid from a reinsure (we pay the first \$500,000 and the reinsure pays the amount over \$500,000). Since going to a self-funded plan in 2013, staff has attempted to determine how many large claims the District would have and the District has actually paid more premiums in reinsurance than in claims. As a result, this year there were two choices: (1) continue with the \$500,000 (which he believes is a bad value since it leaves more money on the table), or (2) go 100% self-funded with no safety net or increase the deductible to \$750,000 which will decrease the premium to a little over \$500,000. Staff believes increasing the deductible is the good value and is staff's recommendation. He added staff will continue to assess this each year and bring back to the Board what it believes is the best thing to do. Mr. Rachal asked about the difference in the premium we have been paying and what it will be. Mr. Watson responded that he has received the most current bids to negotiate this and the amount will drop from \$1.3 million to a little over \$500,000 for a savings of approximately \$800,000. Mr. Rachal asked about the previous premium and Mr. Watson stated it was a little over \$1.2 million.

President Locke announced that items 7.01-7.02, 8.01-8.02, 8.04, 8.06, 8.08-8.10, and 8.12 are the consent agenda. *Mrs. Bell moved, seconded by Mr. Riall, to approve the agenda and proposed consent agenda for the February 21, 2017 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Jackie Lansdale, president of Red River United, addressed the Board on 8.05 Employee Termination Appeal in Accordance with CPSB Policy and their openness to conversation before coming to the Board. She also noted the item on Section G policies, and even though this is a Right to Work state and collective bargaining is not prohibited; they have never felt collective bargaining was needed when the District has Policy G. She said it is believed that the G policies are an agreement between them and the Board and any time they believe there is an attempt by management to subvert that in any way, they take severe umbrage to it and it could force them to pursue other action.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.*

February 21, 2017

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, February 21, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Brown and Mr. Ramsey were absent. Miss Green led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JANUARY 10, 2017; JANUARY 17, 2017; AND FEBRUARY 7, 2017 CPSB MINUTES

Mr. Riall moved, seconded by Mr. Rachal, to approve the minutes of the January 10, 2017, January 17, 2017 and February 7, 2017 CPSB minutes as submitted in the electronic mailout. Vote on the motion carried.

POINT OF PERSONAL PRIVILEGE

Dr. Bonita Douzart made the following statement: *On January 17, 2017, Board Member #11 stated that he had been on the Board before. The adversity of school closures in primarily seven districts had an impact on a majority of students from one Ethnicity. Most of these schools were closed thirty years ago. Like he stated, the same thing is occurring today. It is definitely not an individual Board member's school. Caddo Parish Board Members are elected by Districts, and not elected at large by Parish. The Board Members are held accountable to the constituents in their District. My constituents were not given a timeline for community input and have not seen a plan. Yet, Fair Park High School is consistently increasing their scores. Are we really moving forward in education? Is it fair? Is it right? Is it honest? Where are the educational concerns for the child?*

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, assistant director of marketing/communications, on behalf of the board, recognized the following staff members and students for recent achievements. President Locke and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Newly appointed administrators were also introduced. Administrators, family and friends present were recognized.

Cherokee Park Gems. Members of the Cherokee Park Elementary School's Gems, an all girl's chorus of 5th and 6th grade students, performed "Rise Up" by Andra Day and "The Indian Shuffle", a Cherokee Park original.

National Art Education Association Southeastern Region Elementary Art Educator Award.

Ms. Janet Wolfe, art teacher at Claiborne Fundamental Magnet School, was recognized for being named the "2017 National Education Association Southeastern Region Elementary Art Educator Award Winner". This award will be presented to Ms. Wolfe during the 2017 NAEA National Convention in New York March 2-4th.

2016 School Performance Score Gains. The following schools were recognized for improving their School Performance Scores (SPS) during 2016: A. C. Steere improved its SPS by 16.9 points; Blanchard Elementary improved its SPS by 10.2 points; Cherokee Park Elementary improved its SPS by 10.9 points; Creswell Elementary is celebrating 22.2 points of growth; Judson Fundamental Elementary Magnet improved its score by 11.5 points to a solid "A" letter grade; Northside Elementary saw a SPS increase of 18.1; Werner Park Elementary improved its SPS by 21.2 points; Caddo Middle Career and Technology grew by 14.9 points; and Donnie Bickham MS improved its SPS by 16.7 points. Lakeshore Middle School increased its SPS by 16.9 points; Youree Drive Middle School experienced an increase in their test scores of 17 points; Booker T. Washington High School improved its SPS by 6.2 points; C. E. Byrd High

School improved by 11.1 points; Green Oaks Performing Arts Academy improved its SPS by 30.3 points; North Caddo improved 12.5 points; Pathways in Education earned 15.9 points of growth; and Southwood High School improved its score by 12.2 points.

Mrs. Nash-Wood reported that 16 Caddo schools improved by double digits, 14 schools improved their letter grade and 10 schools were recognized for earning Top Gains Distinction.

Eden Gardens Leadership Team. The Eden Gardens Leadership Team was recognized for being in attendance for the purpose of observing a Caddo Parish School Board meeting.

Child Abuse Awareness Month. Clay Walker, director of Juvenile Services for Caddo Parish, and Kelli Todd, executive director of Volunteers for Youth Justice, shared with the Board members that April is Child Abuse Awareness Month. Mr. Walker reported they are partnering with other organizations to make the public aware and will be placing pinwheels (symbol for child abuse prevention) around the City and Parish. He also announced they have secured underwriters to fund a “pinwheel garden” at every school. Ms. Todd added that they would love for the schools to be involved and they would drop off the pinwheels at the schools and maybe the students can place the pinwheels and signs out; and by taking an active part in this project, will be able to better understand and explain to others in the community what they are doing.

VISITORS

Rob Broussard addressed proposed teacher pay raises; and that while he is for teacher pay raises, he has serious concerns with some of the proposals and the shifting of funds from one source to another. He noted how retired teachers will be penalized if these proposals are adopted; and he reminded the Board that this issue of health benefits was addressed by a Political Action Committee that said Board members should use as guiding principles and consider lasting consequences including significant attention to pension and benefit costs associated with past, present and future employees, as well as the fact the Board stated they would not go after retirees’ salaries or benefits. Mr. Broussard reiterated support of teacher pay raises, but encouraged the Board not to hurt the retirees in the process.

Freddie Jackson, Herndon High School Alumni, asked the Board to consider naming one of the buildings (gymnasium) on the Herndon campus in memory of O. C. Rollins, principal from 1956-1970. Mr. Jackson also read a poem written by Mr. Rollins to the Class of 1961. Board member Riall announced he will bring an item in March to begin this process to name one of the buildings at Herndon for O. C. Rollins.

Elsie Jane Adams, 5th grade student at Eden Gardens Magnet School, addressed the “Leader in Me” model (including student achievement, parent satisfaction, work force readiness, leadership development and community engagement) that is being followed by the students at Eden Gardens Magnet School. Other activities of participation in this program include each student in the classroom having a job with daily assigned tasks all working toward individual classroom goals. Board members were invited to stop by Eden Gardens and observe the “Leader in Me” program in action.

Louise Smith, marketing consultant for AMIKids Caddo Charter School, introduced Timothy Linear, Jr. newly appointed Executive Director/Principal of AMIKids Caddo. Mr. Linear stated that he is honored to serve the youth in Shreveport and will include a traditional field in their school, including clubs, athletics, PTA, and community support.

Gloria Ford shared with the Board a list of questions including how much will change and how much will be saved by the changes; how much will it cost to bus students to Booker T. Washington and Woodlawn; how does the Board intend to redraw the school boundaries; shouldn’t there be advance written notice about these changes; has a special committee from the Board approached the coaches, the security, teachers and administration of their reassigned schools; where is the full disclosure of the Board’s proposed actions; is it true an out of state organization has been paid to evaluate what needs to be done for Caddo’s schools; Fair Park is a

public school funded by public money but there has not been any notification to the public as to the Board's plans; have Board members met with the students at each school being affected to listen to their desires; why are there no life skills classes being taught at Fair Park (classes that were once at Fair Park but students are now being bused to other schools to get them); why do the classrooms at Fair Park not have adequate textbooks; and will students changing schools lose opportunities to gain athletic scholarships beyond high school. She encouraged the Board to listen and respond to these questions.

Jon Glover, employee, stated kicking the can down the road has done nothing to help the students in the current 33 D and F schools in Caddo Parish, and not addressing what has promoted this devastation continues to be the problem. She shared her concern for the fate of the students attending these inferior institutions; and that while we may have the answer, it appears no one cares about the answers. She presented to each Board member information on their individual district's schools scores noting that many of Caddo's students are in dire straits academically; and she asked if the Board is satisfied with the schools' performances over the past seven years; and if not, please tell her why. She said while she has heard administrators attribute much to the economic status of a child, she wonders why and how. Is it because the resources that promote academic success are being withheld. She shared her desire to strive and make certain these children have the resources that will result in academic success because it is our responsibility to insure that our children and grandchildren are provided the best tools that promote academic success.

Kianna Brooks, Fair Park graduate, spoke on behalf of the faculty, staff, parents, alumni association and the Fair Park community and encouraged the Board to find the problem, solve the problem and make a solution for the problem. She encouraged the Board to make a plan for the students and the school, provide the resources needed for the students to be successful, and keep Fair Park open.

Jackie Lansdale, president of the Red River United, addressed Section G of the CPSB Policy Manual and thanked Board member Raymond Green and the administration for their willingness to work with RRU and address their concerns relative to GBRC. Mrs. Lansdale noted some of the things they are focused on, including Love of Public Education Campaign, working with the Legislature on the use of the Rainy Day Fund, visiting with community groups to discuss BESE's direction, celebrating Filipino teachers, holding a meeting of the Northwest Coalition of Educators regarding meetings with BESE and the DOE on their plans for Caddo, community trip to visit community schools, planning the Most Improved Student banquet and planning the next Walk In for Education on May 1st at Midway.

Omari Ho-Sang, organizer for ASAP Shreveport, stated that what happens at the School Board, in the classrooms, and in the schools penetrates the community affecting families, children, and generations to come. She added that in light of this, on February 1st a group of volunteers met at the Common Ground Community to discuss what they deem as inequity in education. Because 68% of the CPSB's student population is African American and 80% of those students are at a C grade level or below, she believes this to be inequity. Ms. Hussein stated the importance of the community engaging this issue; and based on the comments made today, she believes the community cares. She believes a formula needs to be developed for including and implementing suggestions from the community. She also believes CPSB's administrators agree since Goal 2 of the District's Strategic Plan is "Family and Community Engagement" even though at this time, it has been unaddressed. She said it is important that everyone concludes it must happen, it must happen quickly and it must happen effectively, and noted that a model for engaging the community and work has started. She announced there will be a second roundtable on March 16th and the conversation will center on a "state of emergency" that must be addressed. At this meeting they will present their preliminary agenda developed at their first meeting on education. Ms. Hussein also addressed Parental Involvement Committees that can be used to engage parents and communities, as well as the Housing Authority and other community entities. Board members were invited to attend the next roundtable discussion.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Locke announced that Item 8.05 Employee Termination Appeal in Accordance with CPSB Policy GDPD and GBM is pulled and the following are recommended as the consent agenda items: 6.02-6.03, 7.02, 8.01-8.02, 8.04, and 8.06-8.12. *Mrs. Bell moved, seconded by Mr. Rachal, to establish the agenda and proposed consent agenda as submitted. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mrs. Poljak, to confirm the consent agenda (Items 6.02-6.03, 7.02, 8.01-8.02, 8.04 and 8.06-8.12). Vote on the motion carried and the following is a summary of the Board's action on consent agenda items.

Item 6. Personnel Transactions

6.02 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

6.03 Personnel Transaction Reports (Resignations January). The Board approved the personnel transaction reports (January resignations) as recommended by staff and submitted in the electronic mailout.

Item 7. Bids

7.02. Purchasing. The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) NAPA for Transportation Parts Room/Operation Management Services. *A copy of the bid tabulation sheet is filed in the official papers of the February 21, 2017 meeting.*

Item 8. Other Action Items

8.01 Property/Bus Rental Requests. The Board approved the requests for use of CPSB property and/or buses are recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.04 2017 Group Health Reinsurance. The Board approved staff's recommendation for the 2017 Group Health Reinsurance and change to a \$750,000 specific deductible plan on a 12-month incurred/24-month paid basis, with the lowest quote, as submitted in the electronic mailout.

8.06 Approval to see Bids for E-Rate Services and Equipment. The Board authorized staff to solicit bid proposals for voice and data telecommunication services and equipment that are eligible for E-Rate discounts.

8.07 Approval of CPSB Policies Section G. The Board approved CPSB Policies *Section G* as submitted in the electronic mailout and placed at Board members' stations.

8.08 Authorization for Salvage Sale. The Board authorized staff to salvage equipment and supplies at Linear Middle School according to CPSB Policy and as submitted in the electronic mailout.

8.09 Letter in Support of Establishing a Foreign Trade Zone for Glovis America. The Board approved a letter in support of establishing a Foreign Trade Zone for Glovis America as submitted in the electronic mailout.

8.10 Battle on the Border High School Football Showcase. The Board approved a resolution authorizing C.E. Byrd High School to participate in the Battle on the Border High School Football Showcase in 2017 and 2018 and that C.E. Byrd High School be authorized to enter into their contract directly.

8.11 Proposed Revision to CPSB Policy DJEAA-Procurement Cards. The Board approved the proposed revision to CPSB Policy DJEAA-Procurement Cards as recommended by staff and submitted in the electronic mailout.

8.12 Consideration of Beverage Agreement between North Caddo HS and Coca-Cola. The Board approved the beverage agreement between North Caddo HS and Coca-Cola Bottling Company as recommended and submitted in the electronic mailout.

BIDS

Ms. Trammel moved, seconded by Mrs. Bell, that the following bids be approved as recommended by staff and submitted in the electronic mailout or at Board member stations on the bid tabulation sheets: (1) Whitlock & Shelton, Inc., with a Base Bid, for the sum total of \$278,000 for Project 2017-237, Central Office Remodel Board Room; and (2) Fitzgerald Contractors, with a Base Bid, Alternate 1 and Alternate 2 for the sum total of \$2,106,000.00 for Project 2018-301, "Byrd HVAC, Phase II".

Miss Green asked about the purpose for remodel/renovation of the Board Room. Mrs. Locke reminded the Board that this project was approved by the Board in October of 2015, and the questions should be directed toward the bid. Steve White, director of Capital Projects and Construction, explained the Americans with Disabilities Act requirements that need to be made so we are compliant. At this time, he said the Board Room is not in compliance with the ADA; and the intent is to make it compliant so the general public has access to the raised levels as well as access to the podium. He also stated his understanding that numerous times a request has been made to upgrade the technology and its placement so the monitors do not block the Board members' view of the audience. It is also proposed to upgrade the lighting as well as increase video use for the Board's and public's use. Miss Green asked where the Board will meet during construction, and Mr. White explained the contractor will have all the materials in place prior to beginning the construction following the first meeting in June with an anticipated 45 days to complete the project. The Board room will still be operable for the second meeting in June, and he has worked with Technology to insure that the technology will be in place for the Board's meeting. Miss Green also asked if there will be an orientation prior to the first meeting with the new technology, and Dr. Goree assured the Board that will happen. Dr. Goree also assured the Board that staff looked at every aspect of this project to insure the best use of taxpayer dollars.

Mrs. Poljak added that she only wants the public to understand the money is being spent to make this room ADA compliant; and that once you make one aspect of the room compliant, it means other things must be done. Mr. White added there also will be some energy savings by replacing the florescent lighting with LED lighting.

Mrs. Bell stated that she is surprised that we have not been cited for not being in compliance and this is something that needs to be addressed.

Vote on the motion carried.

CONSIDERATION OF ENERGY CONSERVATION PROGRAM RECOMMENDATION (Long Range Planning and Development Committee)

Mr. Albritton moved seconded by Mrs. Bell, to approve Cenergistics as Caddo's program provider for energy conservation as recommended by the Long Range Planning and Development Committee. Mr. Rachal asked how many quotes were received, and Mr. Woolfolk responded three. Mr. Rachal asked if we sent out a RFQ (Request for Qualifications) or did we ask for quotes? Mr. Woolfolk said we sent out for RFQ (Request for Qualifications). Mr.

Rachal asked if we received quotes or qualifications, and Mr. Woolfolk responded qualifications. Mr. Woolfolk further explained that the request for qualifications was to determine what type of services would be available as far as energy conservation. He said at that time we did not want to spec out anything, but wanted someone to tell us what they had available; and when a company came in and talked to staff, then the conversation was what the cost would be. The intent was to look at the types of services available, because the only way to get quotes is to give specifications on what we are looking for. Mr. Rachal asked if he understands correctly that we do not have to get quotes for services, and Mr. Woolfolk stated that is correct. Mr. Rachal stated he doesn't know if that is wise on our part, and he asked Mr. Woolfolk if he agreed with that. Dr. Goree responded that staff wanted to make sure that, even though this is a service and technically does not require a vote of the Board, we were as transparent as possible. Mr. Rachal noted he is all for energy conservation; however, he does not believe this is the best route to go. Mr. Rachal asked if anyone on staff visited with SWEPCO about what they do, and Mr. Woolfolk said they have not. Mr. Rachal said he learned that SWEPCO offered free services for what the District is doing so he contacted them and set up a meeting with three representatives who explained they have a free company (Clear Result) that would be at no cost to the District. He added he does not believe due diligence was done and this is why he does not think we should move forward until we look at what is readily available via SWEPCO. He also referenced previous conversations with the gentleman that runs the program in Kentucky, with Kentucky being one of the leading states in the country when it comes to Energy Star Efficient buildings. He said he recommends that before we do anything, the Board should hire a qualified Energy Manager on staff. While he is for saving money; however, when the District does not have an energy manager on staff who knew to go to SWEPCO to find out what they could do to save a million dollars a year. He urged the Board not to do this because it is the wrong order to follow when we do not have a qualified, certified energy manager on staff that could have done what he did by looking and finding other companies that do the same work. He encouraged the Board to postpone this action and see if we can do it for less and save more. He shared the example of SWEPCO assisting Captain Shreve on lighting. He encouraged the Board to vote against the motion on the floor.

Dr. Goree stated that while he certainly respects Mr. Rachal's opinion about the proposal, the decision to move forward was approved in the Strategic Plan and went through the committee process with numerous meetings being held and this discussed. He said it will now be a vote of the Board that will determine what will be done and staff will move forward accordingly; however, staff did follow due diligence to come forward with this recommendation.

Ms. Trammel moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Board members Riall, J Green and Rachal opposed and Board members Poljak, Douzart, Trammel, R Green, Locke, Albritton and Bell supporting the motion to end debate.

Vote on the main motion carried with Board members Riall, J Green, Douzart and Rachal opposed; and Board members Poljak, Trammel, R Green, Locke, Albritton and Bell supporting the motion.

BOARD ANNOUNCEMENTS AND REQUESTS

Mrs. Poljak announced that Dr. Dana Suskin who wrote the 30 Million Word Deficit will speak March 28th at noon.

Mr. Rachal noted the successful Buildings and Grounds Committee meeting and thanked the staff for the openness and brainstorming as this process begins.

Dr. Douzart announced that she had an opportunity to attend the SWAC Championship, Grambling State University.

Mrs. Bell announced that the Super Hero Fun Run for Autism will be held April 1st. She added that these students will be afforded the opportunity to visit the White House and many museums in the Nation's capital.

Ms. Trammel thanked the Board for the opportunity to attend the Louisiana State School Boards Association Conference and asked that everyone remember those affected by the storm.

EXECUTIVE SESSION

Student Readmission Appeals. *Mrs. Bell moved, seconded by Mr. Rachal, to approve staff's recommendations for Student JR, DA, MR, NAS as submitted in the electronic mailout.*

Mrs. Bell approved, seconded by Ms. Trammel, that the expulsion of Student SP be upheld. Vote on the motion carried.

Adjournment. *Mrs. Bell moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:30 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

March 9, 2017

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Thursday, March 9, 2017 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and Dottie Bell and Steve Riall present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Dr. Douzart led the prayer and Pledge of Allegiance.

PRESENTATIONS

YMCA Swim for Life. Keith Burton, chief academic officer, shared with the Board an opportunity that will not only enrich students' lives but one that will have life-saving implications. He reported that the YMCA recently contacted him about discussing a partnership. He stated that from 2005 to 2014 there was an average of 3,536 drownings annually in the United States, an average of 10 deaths a day, and one in five are children 14 years old or younger. He said this proposal will offer potential life-saving instruction to all second grade students in Caddo Parish. Gary Lash, chief executive officer of the YMCA, shared with the Board information on their "Swim for Life" proposal to teach all second graders that choose to participate how to save themselves should they fall into a body of water. He explained they will bring in approximately 88-100 students each day in a four-day program to help them overcome their fear of water. With drowning being the leading cause of death in children ages 5 to 14, they hope to be able to lower this statistic by teaching students what to do if they fall in water.

Mason McGee, aquatic director who will lead the program, stated his excitement about the opportunity to teach these students how to save themselves from drowning. He said the curriculum will be taught around the Y's curriculum "Safety Around Water" already in place; and they will offer each child an educational component and a skill component. The students will spend an hour a day for four days with the instructors (30 minutes in the classroom, 30 minutes in the pool). He explained there is a 6:1 ratio of students to a teacher so that when students are in the water, it will be no more than this. He further stated the purpose is not to make sure all these children can swim, but to insure they do not panic, but maintain themselves on top of the water long enough to get to safety. The two skills they will work on in the pool will be swim, float, swim; and jump, push, turn, grab.

Mr. Riall asked if parents will sign releases, and Mr. Lash responded they will. Mr. Riall asked who will provide the liability, and Mr. Lash explained the YMCA provides their certificate of liability to the School System for when the students are on their property and he assumes the School System will work out the transportation issues. Mrs. Bell asked if all second graders in Caddo Parish have the opportunity to participate and Mr. Lash and the Superintendent confirmed that is correct. Dr. Goree stated he agrees there are many students that can swim, but he likes the aspect of focusing on how to save yourself by remaining calm in such crises situations. President Locke expressed how appreciative everyone is for all that the Y does in the community and everyone looks forward to this awesome opportunity coming to fruition.

Update on Partnership Agreement Between Caddo Parish Public Schools and the Louisiana Department of Education. Superintendent Goree shared an update on the transformation process in the District and the continuation of the work begun. He noted that on January 17th by a vote of 8-4, the CPSB gave him direction to move forward and work on the partnership agreement with the Recovery School District. Dr. Goree reported that for the past several days he, the Board President, Board Attorney and Mr. Burton, were in Baton Rouge working through issues and concerns that come from the District's transformation work to determine what moving forward will look like. He stressed, in looking at the transformation

work over the past three years, that the District began with 10 schools qualifying for State takeover and today only four schools remain (Atkins, Queensborough, Fair Park and Woodlawn) in that status. Dr. Goree said the foundation for the District's success, even though we are not where we want to be, has been primarily in the area of climate and culture; and an intense effort was put into making the climate and culture very inviting to students. He added that numerous hours were spent by principals, teachers, and support persons to insure we were improving and providing quality instruction to the students. He thanked all who worked within the Zone over the past three years for their hard work because no matter the score, a lot of people put a lot of time and energy into making them the very best. Dr. Goree also highlighted what has been the highest levels of community involvement within this body of schools in decades and how proud the District is of what the parents and community have done to help make these schools better.

Dr. Goree highlighted improvements since 2014 within the Transformation Zone.

- 70% of the schools have shown systematic growth.
- 4 schools have shown double digit gains which qualifies them for being one of the highest performing schools in the State.
- Graduation rates have soared and are at an all-time high.
- Academic growth has exceeded the State every year.

He also highlighted remaining challenges and what is next in transformation.

- Attracting certified teachers who are highly effective. He thanked the Board for recognizing the importance of incentivizing the work by approving the incentive plan; and as we continue to work with the State, he believes we will see improvements in the work already approved. The implementation of the TAP program will also provide another opportunity to incentivize the success and hard work of the teachers within the Zone.
- Insuring systematic processes so students moving from one place to another do not get behind and can still be successful.
- Providing a varied academic content to meet the needs of the students. Knowing that the needs of students in "X" school are different from the needs of the students in "Y" school, the District needs to make sure that autonomous leadership is provided so these changes can be made to meet the needs of the students being served within a school.

The superintendent stated a bold plan is needed to continue changing students' lives, and one that continues to improve the performance of the schools within the Transformation Zone, as the schools going from a "D" to an "F" and back to a "D" is not acceptable. Aspects of such a bold plan include:

- The need to move faster. Take the work and successes and move it faster for students.
- Equitable solutions that include what students need, and what do students need to see "over the wall" and be successful.
- Respect for communities and families. He noted that records are being set where parents and communities are becoming involved and we want to continue to develop that relationship because what happens at home affects what happens at school.
- High quality leaders and certified teachers. To provide these it will be necessary to provide wonderful incentives and excellent support to make sure the teachers and leaders are set up to be successful.

He said one of the challenges with a bold plan is the schools being affected; and in the conversation about the merger of Fair Park and BTW and Fair Park becoming a middle school, with the 6th grade being moved off the elementary campuses creating smaller elementary schools. He explained staff has looked at this and the result is a recommendation to close Atkins Elementary, Queensborough Elementary and Lakeshore Middle School (students here would move to the new Fair Park Middle School). In the proposed reconfiguration, Dr. Goree said

Caddo Parish would create a system that would sustain student growth and the K-5 schools in the Transformation Zone would be Caddo Heights, J. S. Clark, Midway, Mooretown, Oak Park, Werner Park, Westwood and Sunset Acres. The middle schools would be Caddo Middle Career & Technology and Fair Park Middle School; and the high schools would be Booker T. Washington and Woodlawn, creating pure feeder patterns for both high schools.

Dr. Goree stated that in talking to the community and staffs within these schools, he is often asked why are they always the schools affected (closed, reconfigured); and there is a true concern with this. As a result, he and staff believe returning to the K-5, 6-8 and 9-12 models will be a plan that makes sense 10 years from now and hopefully one where we will stop constantly changing the configurations within this body of schools. Understanding that the community, the Board and the children all expect to be successful, the staff remains committed to, at an even higher level of urgency because this must work for the students, and will be done by (1) accelerating academic offerings, (2) increasing certified teachers in struggling schools, (3) providing job embedded professional development at the highest level, (4) implementing principal autonomy and empowering them to make instructional decisions that reflect what is happening in their individual schools, and (5) increasing community involvement focusing on the children. He announced he will continue to hold meetings next week to inform and dialogue with families and parents about some of the other recommended closures and answer their and communities' questions and concerns. Dr. Goree said student leaders will be a part of the transitions to insure a smooth opening of all schools. In addressing the concerns expressed relative to the blending of neighborhoods, he assured everyone that leaders on all campuses are stepping up to do whatever is needed for children; and student leaders will be a major part in building this bridge.

The superintendent also explained the impacts and the opportunities to partner with the State and receive State support so we can make a bold effort in addressing the needs of the District's most struggling schools. He said while he celebrates and appreciates the progress made thus far, staff has taken the time to evaluate everything that has been done so as we move into the next three years we will continue to see success. Relative to struggling schools and what is most important, Dr. Goree said he started the work trying to get them off the "F" list to make them academically acceptable; and now his goal is for them to continue to improve and not go backwards on the list. He said a frame will be provided for systematic growth in student achievement so students can not just pass but also be the very best they can be, taking full advantage of college credit hours, and truly achieving at their highest possible level and it will be important that we create those opportunities for them. In looking at consolidations, Dr. Goree said it is important to earmark how the funds saved from the consolidations within these schools go back into these schools and support the work of these teachers and students in the Transformation Zone. He said every student will be provided the quality education they need to be successful because it is his, the Board's and the community's responsibility to make sure every child has every possible advantage to be successful.

Dr. Goree closed by stating again his excitement that the State has chosen to partner with Caddo to move this work forward; and while this is not something we had to do, this is something we wanted to do as this opportunity will make a bold impact on the success of Caddo's most struggling students.

Mrs. Poljak asked if permission or authorization has been received from the State allowing the District to move forward with proposed closures/consolidations. Mr. Abrams read a letter received this afternoon from Joan Hunt, general counsel for the Department of Education. He also reported a meeting was held with John White and they participated in the BESE meetings where Mr. White clearly stated that BESE had no interest in stopping Caddo Parish Schools in doing whatever it needed to do to be successful and consolidations and closures are a local

decision of the Board when reconfiguring or closing schools. He added the first agreement ends in May 2017 and requires that Caddo move forward with grade reconfigurations.

Dr. Douzart asked for clarification on the TAP program, and Dr. Goree explained that the Teacher Advancement Program is one that is implemented to increase the quality of curriculum and instruction within the school. Dr. Douzart noted she is a veteran teacher and Caddo tried TAP but it did not work. Dr. Goree responded that staff looked at where TAP was implemented in Caddo in the past and discussed with principals who saw great success and growth in their schools as to why it was successful. He also discussed with Cade Brumley the success DeSoto Parish has seen with TAP in their district. While there is no bullet for making children successful, staff is committed to continuing to diligently work daily to create the best possible environments for all the children. Also, this year in the TAP program, an Executive Master Teacher was hired and Bridget Brown was pulled from Huntington in November as the District began to hire and train the new Master Teachers for next year. With the incentive pay and the opportunity to improve their skill sets, Dr. Goree stated staff believes there will be a significant difference seen. Dr. Douzart asked if there are alternate instruments in the event this does not work, and Dr. Goree responded that as the program was designed with the State and the supports that will go into these schools, there will be opportunities on many levels to improve student performance. In addition, there will be other different things they are looking to work in conjunction with this plan and insure students have a fair shot. Dr. Douzart recommended, because there are those students that just do not understand, the creation of a plan for students that have fallen by the way side; and Superintendent Goree explained that the District operates from the truth that “all children can learn” and learn at high levels to be successful. He also added there are many examples of students where no matter the background, the income or the situation, they can learn and be successful.

In talking about autonomy and leadership, he said it is important to create a principal and teachers who have the freedom to be different so they can be successful. Dr. Douzart said as an experienced teacher and principal, she recommended that teachers in the different areas/subjects be prepared to move around and teach one of the other subjects. Because of this they found that the teachers worked harder.

Mrs. Bell asked for clarification on schools that have closed in District F and G. Dr. Goree stated that the proposal is a part of the presentations and that Superintendent White was very clear that school closures are a local decision and not the State's. Mrs. Bell asked if all the employees being recommended for school closures will have a job, and Dr. Goree said yes, everyone will have a job, and many employees will be employed through attrition. He also stressed the importance of moving to the end of this conversation so communication can begin with the staff relative to where they will be next year. Dr. Goree added he does not feel comfortable stretching this out without providing clarity to teachers, principals and persons concerned where they will work next year. Mrs. Bell asked about the incentive program approved by the Board; and Dr. Goree stated the incentive plan has been designed so core teachers at a target school (Transformation Zone schools) will receive an incentive of \$2,500, and if they receive a successful observation, they have the opportunity (based on Spring testing and if their school is Top Gains) to receive a \$1,500 incentive. There is also a \$1,250 incentive in place for those in hard to staff subjects (which he will identify); and there is a \$6,000 stipend for National Board Certified teachers. He added they are working with the State on an idea of how to increase the number of National Board Certified teachers working in the Transformation Zone schools, as well as improving the incentives at the schools within the Transformation Zone. Mrs. Bell asked if a teacher is at a non-Zone school and wishes to move to a school in the Transformation Zone, will they have that opportunity if there is space in a core subject. Dr. Goree responded that is correct and if the principal selects them.

Ms. Trammel expressed her concern over the recommendation to close Atkins. With Atkins being located in Cedar Grove and the closest elementary school to Atkins being Caddo Heights, she is concerned because the children in this area already attend three different schools; and if all the students attended Atkins, Atkins' capacity would be close to full. She also noted that with Atkins being a K-3 school and the test scores based on the 3rd grade students only, she asked the Superintendent and staff to look at all aspects as to why a school's grades are low. She said you can't take the K-2 students, and divide by the number of 3rd grade students testing and expect a great outcome. Ms. Trammel noted she understands things must be done to right-size the District, but she asked that further thought be given to the idea of closing of Atkins before doing so. Dr. Goree stated that in looking at the fact that students in Cedar Grove are attending schools outside the Atkins neighborhood, it is interesting to him that the change came about in 2002 when decisions were being made about the future of Fairfield. He said staff has looked at this and he understands there are many students leaving the Cedar Grove area and attending schools in other parts of the City. Ms. Trammel requested that staff provide her with the number of students that should be at Atkins but are attending schools outside the Atkins attendance area. Ms. Trammel also said she would be excited for Atkins to be a K-5 school.

Mr. Green stated he believes Caddo has the teachers qualified to do the job needing to be done and he believes negotiations should take place with staff regarding employing these teachers to go to the location where we need them the most and thus get the job done. He further stated that having lived through the establishment of magnet schools where the administrative teams at each of the schools were allowed to visit and interview until they had the staff in place that they were happy with and felt would get the job done, he believes this is what is needed in Caddo's Transformation Zone. Dr. Goree complimented the Board because when he arrived in Caddo there were things like incentive pay that was not going to happen. Also, when it came to equity in the system, the community had not embraced this; however, he believes this is now being embraced. He stated that during the entire month of February, the staff recruited only for the TAP schools; and the month of March will be set aside as a time for recruiting only for the target schools. The month of April will be a time that staff will look at all schools in the District; and the fact is that every school does not have the same challenge when finding staff; however, staff recognizes this and is definitely working to that end. Mr. Green added he believes every position in a school should be filled with a qualified, full-time teacher.

Mr. Rachal asked the Superintendent if he believes this will be better for our students and is this what the Superintendent wants to do? Dr. Goree responded absolutely and he believes that this is the bold step in the right direction from an instructional perspective and is a plan that will set the inner city schools up and level the playing field that capital provides for students who do not live within the inner city part of the District. Mr. Rachal asked for clarity and if the impetus of these closures is as a result of the reconfiguration of Fair Park High School; and Dr. Goree responded he was actually speaking more to the academics but that is correct when speaking to the closures. He further stated that when capacity of a school is pushed up, i.e. fill up BTW and Woodlawn, you create more capacity at the middle; so when you pull the 6th grade from the middle schools, the result is smaller elementary schools. He further explained that this creates an opportunity to directly reinvest the money saved in the students in this area, and it is a plan he supports. Mr. Rachal asked Dr. Goree if he likes this and will it be better for the students; because when he asked the superintendent if he supported the Fair Park reconfiguration, he would not say yes or no. Dr. Goree said he continues to support his answer at that time because there was no time for staff to look at the plan; and since then the Board directed staff and staff has looked at this, it is his responsibility to carry out the wishes of the Board. What he has presented to the Board is something he feels will work and improve opportunities for students in accordance with the Board's directive to him.

Miss Green asked about the incentives and the least incentive a teacher will earn if accepting a position at a target school, i.e. Green Oaks. Dr. Goree said the least is \$2,500 and the most is

approximately \$13,000. Dr. Goree also explained that some stipends are for target schools (approximately 20), and some incentives are designed for the Transformation schools, and there will be a list of ways teachers can earn these incentives. Miss Green stated she does not want to see teachers leave Green Oaks and as a result scores begin to decline. Dr. Goree explained in looking at the research that supports how money affects people's willingness to work in different places and while we want to make sure that everyone is able to see across the fence; working in a District the size of Caddo with as many as diverse populations, they believe an opportunity is being created that will allow every school to survive. He also said the schools will only be as strong as their leaders, and surveys indicate that money is not the number 1 indicator of where people choose to work. Dr. Goree also reminded everyone attending community meetings with State Superintendent that for a long time the conversation has been about how long many of these schools have struggled. To change what has become systematic and generational, it will be important for us to be extremely aggressive. Miss Green stated she is speaking for all schools and not just Green Oaks.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE MARCH 21, 2017 CPSB MEETING

Dr. Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Douzart requested that "Change Fair Park Back to a High School" be added to the agenda.

Capital Projects Bids. Mr. Rachal asked for clarification on the refurbishing of Linear's foundation. Steve White responded the Board last year approved this renovation to Linear to create an elementary school and during the investigation for architectural improvement, stress was noticed in the foundation thus the necessity to stabilize the foundation of Linear's buildings. The project was broken into two parts, (1) foundation stabilization (bids presented), and (2) architectural refurbishment (no structural changes but paint, ceiling tiles, etc. Mr. Rachal asked if this project has a large impact (total dollars in Linear), and Mr. White responded while staff is still working within the budget, it is a substantial piece of the overall budget and staff relooked at the project and removed some of the aspects of the project. Mr. Rachal asked the superintendent if he thought staff would be coming back to the Board for additional dollars because he believes if we do this project, it should be done right. Dr. Goree said Linear will become the new home for Northside Elementary School and staff has worked with the principal, teachers and community in this; and some of the things removed from the project are what is considered "bells and whistles" and will not affect the learning environment of the school. While he does not want to definitely say staff will not come back to the Board, Dr. Goree said staff is moving forward with the project and working toward not coming back to the Board. Mr. Rachal asked that he be kept up to date as this project moves forward as well as seeing options if more is needed. Mr. White explained provision has been made to do that since under the Louisiana Public Bid Law, we are allowed to bid the base bid (which must remain under budget) as well as up to three alternates. Staff has prioritized the school's needs and broke them down in the alternates.

Miss Green expressed Mr. Rachal's concern; however, she thought \$2 million was budgeted for this project, and Dr. Goree responded it is a \$3 million budget, and he is very excited about this project. Miss Green complimented staff on the amazing job done on revitalizing these school campuses, and she expects Linear to be the same state of the art school as the others.

Approval of Partnership Agreement Between the Louisiana Department of Education and the Caddo Parish Public School System and Authorizing the Closure of Atkins Elementary, Queensborough Elementary and Lakeshore Middle School. Miss Green asked if, when this is voted on, the parents will be aware. Dr. Goree confirmed that when the Board votes on March 21st, and depending on the results of that vote, staff will begin to make parents aware. He added

that staff is doing some pre-work relative to staffing because to be ready for the start of the next school year, there are some decisions that need to be made.

Ms. Trammel requested that when voting on this item, the vote be on each closure separately.

2015-16 Comprehensive Financial Report. Mr. Rachal stated he has not seen a copy of the audit and Mrs. Locke stated it will be attached to BoardDocs. Mr. Rachal also asked if the Audit Committee had a recommendation, and Mrs. Locke explained it was only a report so there is no necessary recommendation. Mr. Lee stated that he has copies of the audit for Board members who were not at the Audit Committee meeting. Mr. Abrams clarified that the Board will only vote to accept the audit report. Mr. Albritton explained that Carr, Riggs and Ingram made a presentation to the Audit Committee on the 2015-16 Annual Comprehensive Financial Audit, and he believes the audit turned out well with only two items noted, and these have been addressed. He also clarified for the public that the perception of Caddo having a “D” grade on the audit is incorrect because the “D” is a code used in auditing and is where Caddo falls.

Mrs. Brown noted the number of calls she has received regarding the Auditing Department and President Locke asked that she get with the Superintendent regarding the questions/calls she received. Mrs. Locke requested that Mr. Sims be at the March 21st meeting.

Change Fair Park Back to a High School. Dr. Douzart stated that she wants to follow protocol and Louisiana Code of Ethics; and although she is not the sum total of all knowledge, she has been quiet up until 2017. She said she cannot be accountable for what other people say and do; she can only be accountable for what she says and does. She has tried to be a team player. There were a lot of issues she did not agree to; and she agreed to keep from disagreeing. She collaborated with the Board. By the way, she did not start this. Another school board member took over her district without notifying her; and this is serious folks. Now, she has to resolve one situation after another. She opposed the merger of Fair Park High School. Superintendent Goree, get real; you have opposition from this district. She represents District 5; and not only does she oppose this merger, she is very much concerned about the direction a few members of this administration is taking District 5. She will look for an opportunity to change this direction. She will look for an opportunity also to work with other Board members to change the direction of the School District. She said the changes that a few members of this administration proposed have bias and economic components which advocates rearranging the lives of people who need stability, and most of all, a solid education. Caddo Parish School System has a high number of changes in administration, a high number of long-term substitute teachers, teachers are not attracted to Caddo like they used to do because they do not have trust in the System. They are not motivated to come here (low salaries); and because of all these changes, it only further destabilizes the Black side of the town. It diminishes a community without a high school. We must use common sense. Closing one high school and a hidden agenda closing several other schools in the same district thus creating a ripple effect throughout District 5. You know the old saying...when you close one school, you got to close three or four more in the same district. Using the merger of a school as a cover up for not fixing the problems is destroying a community. She said this community is active and thriving; and if this high school merges, the District will change to a ghost town or a prison. She asked, “When will we fix these problems?” Shuffling, rotating, and transporting students is not stable and will not get the job done. It is not the solution. Caddo has not been given authorization to close the school and the State of Louisiana and the RSD have not given authorization to close a school. Thank you so much.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

President Locke announced that Items 8.02-8.10, and 8.12 are the consent agenda items. *Dottie Bell moved, seconded by Mr. Riall, approval of the agenda and proposed consent agenda for the March 21, 2017 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Lloyd Thompson stated he is disturbed because he thought we had a chance to save the communities and this did not just begin with Dr. Goree, but with Dr. Schiller, Dr. Dawkins, et.al. He referenced comments made by Dr. Douzart that the communities were soon to become ghost towns with no schools, and stressed the need to “slow the train down” and find another way to save the school system besides closing schools on his side of the track. While he doesn’t know the answers, he is willing to work with whomever to find the answers. He asked the Board to postpone this decision until there has been opportunity to look at how these children can be educated without closing down schools.

John Miles addressed the proposal to merge Fair Park and BTW and that he has always heard that smaller classes are better. He asked how the Board feels it can improve the grade average for these schools by consolidating them. While it should be all about the children, he doesn’t see that in the discussions and decisions.

Jon Glover said she is heavy hearted because she has begged and pleaded when it comes to educating the predominance of students in Caddo Parish that look like her. She said they are failing and nothing has changed. While this is no reflection on the present superintendent because this has been going on for a while, she doesn’t care what has been going on for a while but she needs to know what is going on now. When talking about taking students and putting them in other institutions that are already inferior academically, she questions what they will get. Putting new programs in schools will not help if students cannot read; and their children are being devastated and no one seems to care. She said she may be given all the rhetoric in the world about implementing great and extreme programs and plans, but nothing is coming to fruition, and the only way schools have come off the AU list is because the scale has been lowered. She doesn’t believe the Board is doing and giving the best it has to offer; and while she believes the resources are there, the Board is not doing the best it can to get the resources where they need to be. She asked the Board if it were their children that had to attend the 37 D and F schools, would they put them there.

Jackie Lansdale, president of Red River United, stated that in looking at what will work well in Caddo, one only has to look at DeSoto Parish who 10 years ago implemented universal preK as well as the TAP program. Regarding teacher pay and attracting teachers, she said it is very hard to have this or preK and the TAP program when the community does not support the school district. She said there is a lot of finger-pointing as to what someone is not doing instead of looking within and determining what the community needs to do; because a school will only rise to the level of expectation of the community surrounding it. She also referenced Mr. Albritton’s comments to make sure the public understood the report that Caddo received a D was not accurate and the need for him to say that because the community wants to continue to demean the School District. If the School District is to succeed and prosper, it will take the community coming together and supporting the School District.

Cathy Bonds, chair of Fair Park Alumni Association, addressed her concern about the 700 students at Fair Park and that this is the 6th time in 10 years the School Board has planned to move them to Booker T. Washington High School. The Superintendent says it is to preserve an African-American high school, and she said this is not an acceptable reason to move 700 students. Many do not even think this is possible and has not been since the Civil Rights Act of 1964. She said Caddo Parish has once again swept the Fair Park students under the rug and no thought was given to how the students feel about this move. Mrs. Bonds shared the number of times the students have been moved – from Bethune to Fair Park, two years later they were moved to Lakeshore and now they are being moved back to Fair Park, and now to Booker T. Washington. She questions if there will be room for all the Fair Park students at Booker T.

Washington and if not, they will be assigned to Woodlawn. She asked the Board if this is how they would want to spend their school years, is this how the Board would want their children or grandchildren to spend their school years. She believes this is disgraceful and doesn't believe any educator would think this is a conducive environment for learning and she questions how the children will survive this. She also asked about the 20,000 students (over half of Caddo's students) enrolled in D and F schools, and she doesn't believe anyone can ever say again that it is truly all about the children. Having attended Board meetings for 10 years, Mrs. Bonds stated there is very little that goes on in the meetings that is truly about the children. Regarding teachers in the AU schools, twice in the past 10 years they have had to resign and reapply for their positions. She said there is constant turmoil at Fair Park, and six principals assigned to Fair Park in the past 10 years is unacceptable. She asked the Board to reconsider its decision and let Fair Park remain a high school and serve the community as it has for 89 years. She also agreed TAP has been unsuccessful in the past, and asked the Board to work together on another plan because there is room in Shreveport for Fair Park and Booker T. Washington as high schools.

Dr. Timothy Jones addressed the Board about the Cedar Grove community and the recommended closure of Atkins Elementary, because if it is closed, Cedar Grove will not have a school; and every child in Cedar Grove will be bused out of the community. He said three of the leading elementary schools in the state are in 71106 (South Highlands, Eden Gardens, Fairfield), as well as Caddo Middle Magnet; but, the children in Cedar Grove cannot attend these schools. He said he feels betrayed and will not sit idly by to watch an entire community taken from them by closing Atkins, and he asked the Board to not close Atkins.

BOARD MEMBER ANNOUNCEMENTS

Miss Green referenced the Caddo Parish Public Schools quarterly magazine and asked that each student on the cover receives a copy as well as strategically placing copies across the city. She also is interested in talking with Board members whose schools will be affected by any closure as she wants to make certain she hears what the community is saying about schools closing.

Ms. Trammel announced that earlier today she was in Lake Charles for the semi-finals; and while Woodlawn was outstanding even though they lost the game, she reported that the students represented Caddo well. She encouraged everyone to continue to support these students.

Mrs. Brown stated that (1) TAP in DeSoto Parish is outstanding, (2) she never thought Caddo put enough emphasis on communities, and (3) their generation was smart because the family took care of the children and taught them important things. She also thanked everyone for their prayers during her illness.

Raymond Green recognized State Representative Barbara Norton in the audience who is a strong supporter of public education.

Dr. Goree stated that over the last few months there has been a lot of conversation around the Transformation Zone and he recognized the District Transformation and Innovation Officer Billy Snow for the hard, tireless work he has done to help improve education in a struggling population. He shared his appreciation for Ms. Glover's comment that this has been going on for a long time and we must continue to work hard to make the needed changes. He also invited all who were interested to be involved in the Amazing Shake final competition on March 14th. This event will be a dinner with the finalists serving those in attendance and the proceeds from the \$30 tickets will help support the finalists traveling to Washington D.C.

Mrs. Bell announced she is assisting with a fund-raiser for the autistic students at Huntington High School. She said the Hero Run will take place April 1st and will help support the opportunity for these students to travel to Washington D.C. in 2018. The students will also be at

the March 21st CPSB meeting. Ms. Trammel also announced that on March 31 Tabitha Taylor will lead an event “Turn it Blue” at Bill Cockrell Park at the Community Center.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried* and the meeting adjourned at approximately 6:42 p.m.

March 21, 2017

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, March 21, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE FEBRUARY 21, 2017 AND MARCH 9, 2017 CPSB MEETINGS

Mr. Riall moved, seconded by Ms. Trammel, to approve the February 21, 2017 and March 9, 2017 CPSB minutes as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

President Locke announced that Mary Nash-Wood, assistant director of communications, on Sunday delivered her baby girl prematurely. Everyone was asked to remember them in their thoughts and prayers.

Diane Atkins, chief human resource officer, on behalf of the board, recognized the following staff members and students for recent achievements. President Locke and Chief Academic Officer Keith Burton congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Administrators, family and friends present were recognized.

Autism Awareness Month. In recognition of April as Autism Awareness Month, Santana Jones, Huntington High School student under the leadership of Teacher Ronald Radel, shared with everyone memory and math calculation skill activities naming in order all the U.S. Presidents, randomly when given a number, as well as completing mental math exhibitions of large number equations. Mrs. Bell recognized Santana's parents and announced they will host a Super Hero Run at Bill Cockrell Park on April 1st with proceeds going to fund expenses for 25 autistic students to travel to Washington, D.C.

LSBA 2017 Art Work Contest. Jodie Ray Johnson, student at Caddo Magnet High School, was recognized for placing first in the high school division of LSBA's 2017 Art Work contest. Her artwork "The Blue Heron" was displayed, along with student artwork from districts across the state, at the recent LSBA Annual Conference in New Orleans.

Perfect ACT Score. Dylan Tines, 15 year-old student at C. E. Byrd High School, was recognized for scoring a perfect 36 on the ACT test. Dylan will have the opportunity to attend any college/university in the United States.

Louisiana A+ First Arts. South Highlands Elementary Magnet School was recognized as the first laboratory school in the Louisiana A+ Schools Network. The George Rodrigue Foundation of the Arts advocates the importance of the visual arts in the development of our youth and encourages the use of art within all curricula and supports a variety of educational programs. South Highlands completed their third year in this pilot program showing their deep commitment to the A+ essentials, art integration and maintaining art as their primary focus.

2016 Louisiana PTA Educators of Distinction Award. The following teachers were recognized as outstanding educators of distinction: Amy Nicole Hopper, Youree Drive Middle School; Megan DeFatta Quin, University Elementary; Stacey Thomas, A. C. Steere Elementary; Amy Horn Williams, Fairfield Elementary Magnet; Jeremy Ryan Williams, C. E. Byrd High School; and Kris Klements, Caddo Magnet High School.

CPSB LSBA Earned CLUs. Mrs. Atkins recognized and presented to each CPSB member their commendation for completing the required hours of continuing education with many going beyond the required hours. Steve Riall, District 1; Jasmine Green, District 2; Margaret Brown, District 3; Susannah Poljak, District 4; Dr. Bonita Douzart, District 5; Mary A. Trammel, District 6; Raymond E. Green, District 7; Denee' Locke, District 8; Barry Rachal, District 9; Larry Ramsey, District 10; John Albritton, District 11; and Dottie Bell, District 12.

VISITORS

Jackie Lansdale, president of Red River United, addressed the Board on a possible pay raise noting that Caddo has the lowest new teacher salary in the region and the highest turnover as noted by the number of classes taught by uncertified or substitute teachers. She said Red River United remains steadfast in their belief that the community would support them if asked even though many of the Board members do not share that view. She stated the only avenue for a pay increase if the district does not go to the public is to continue to scrub the budget and suggest ways to fund it. Mrs. Lansdale reported that the Superintendent last week met with the site-based leadership of the professional organizations and explained the process in areas where funds could possibly be found. He asked those in attendance to select their priorities; and the top three were (1) consolidation; (2) insurance adjustments; and (3) a new tax. She believes this is called transparency and asked that this be posted. While there has been no decision made, and no decision will be made until the Board goes through the budget process beginning in April; she asked the Board not to oppose this because those vested in the system understand what the District is up against and when given the facts, their position is against those who deliberately and purposely spread misinformation and lies. Because the District is faced with unheralded cuts to an overburdened system by the Federal Government, because BESE is poised to take another 3% out of Title I funds for vouchers, because we have a State Government who has an unbelievable industrial tax exemption that includes schools, and if we were able to keep the \$18 million lost each year, every child would be receiving a preK education. With the law change, it is hoped the Board would be in a position to approve or disapprove any additional requests. She said they have faith in the Board to do the right thing and will support the Board when doing the right thing to get Caddo off the bottom. The RRU supports getting certified teachers in every class, supports all teachers being compensated for their contributions; and because there is no separate or equal in Caddo unless we work together, she encouraged the Board to work together.

Brenda O'Brock stated that changing Fair Park to anything other than a high school will only be a shuffle of students which cannot fix what is broken; and a lack of occupancy is going to increase if Fair Park is changed to a middle school. More people will leave for other states and parishes, and the Board can prove that it knows what is broken by how each Board member casts their vote today. If the Board votes to keep Fair Park a high school, other measures should come next to fix what is actually broken, i.e. doing away with standardized testing. If the Board votes to change Fair Park to a middle school, the Board will show that it believes another idea of an individual is worth a try even though these ideas have taken the District on a path of failure for years. Research-based education reform is needed and not an ideology of the next person in charge; and to fix what is broken, it is important to be systematic and this will bring improvement. She shared statistics of the homeless in Caddo Parish, the important role of a "cheerleader" in each individual home and what we are doing for the impoverished children, particularly in the State of Louisiana, because they do not have cheerleaders in their homes. For those who are underperforming, the Board needs to make changes so these students are reached.

Marion Howard stated that having attended many Board meetings and retiring after 33 years teaching at a single school in Caddo, she can't remember the last substantial pay increase received by employees while costs for housing, food, etc. continue to rise. Because she sees too many permanent subs, she asked the Board to please find a way to fund a pay raise and stop the bleeding of Caddo's qualified teachers to other parishes.

Rob Broussard noted that when using the term "We are Caddo", it is inclusive of those not in the employee organizations, the teachers that go to work every day, bus drivers, custodians, and even retired teachers. He said if a proposed raise is given, those impacted the most negatively are the

retirees. Mr. Broussard referenced the state audit report stating there are 4,500 retirees, but the proposal lists 4,000 retirees, and asked where are the 500 missing people. He referenced an email from Board member Poljak stating that the average age of employees is 59 which means they are eligible for retirement. If this is correct, there are 1,451 teachers eligible for retirement and they will feel the immediate impact on their salaries if this raise goes forward. Board member Locke stated in an email that the premiums would remain the same and we would keep the low-cost prescription plan. The timeline disagrees as does the work list where prescriptions will go from zero to \$250; and while some of these things may change, one must remember that the retired teachers are also “We are Caddo” as well as students, teachers, parents, the taxpayers; and when one group asks that we look at exterior sources to fund a pay raise, he believes others want to see this happen but not by taking it from one pocket and putting it into another one.

Lloyd Thompson stated he has said the same thing for two months and that is we can no longer continue to close schools in their community. Rather than closing Fair Park or refiguring Fair Park, he asked the Board to look at adding them to the Transformation Next Zone and giving them an opportunity with the 11 other schools to turn it around. In talking about giving pay raises for teachers to come into the communities and teach, this brought 45 teachers to Fair Park rather than taking the students to another school. He encouraged the Board to stop destroying the African American community by closing its schools. He asked the Board to consider if they wish to continue to go down the road and close schools or does it want to save some of those communities.

Middie Farrow addressed the closing of schools in the Black Community and how it seems more appropriate to do so than repairing them and putting the money in the General Fund; and she questioned what is being done with the extra money from closing schools. Ms. Farrow noted the importance of children getting a great education and they depend on the Superintendent and Board to do the right thing for the children. Ms. Farrow stated she is a cheerleader for the children in her community and she believes it awful for the Board to close schools one by one.

Gladys Starks addressed Black schools not being treated fairly and Fair Park is one of those schools. She said the students are not getting a quality education at Fair Park, the resources are low, high achievers have moved to other schools, there are no vested principals or teachers at Fair Park, and now the Board wants to close the high school and make it a middle school. She shared her disagreement with this decision; and if the Board passes this tonight, the Board’s taxes will not pass in May.

Stormy Gage-Watts shared her support last week of the Transformation Zone described as a component that could help improve all schools struggling in Caddo Parish. She said it was not once stated that Fair Park would not be included under this umbrella. With the contract not yet available for public viewing, she questioned why following the meeting it was available on the Caddo Parish School website and noted that Fair Park would not be included but closed. She added it is interesting to her that schools with lower grade standards, less enrollment and lower scores on overall testing were included in the plan. Believing that the picture is much larger, she hopes it is not the ultimate goal; and she noted accomplishments that give honor to the students at Fair Park. She is concerned that students will have to walk home from another high school across town, that robots are sitting collecting dust, that the ROTC went to Washington DC with their honorable accomplishments and that they are on their way to Kentucky yet are being overlooked, that the programs are presented for the students yet they are taken away, and how hard the teachers have worked to improve the school’s scores. She added they are not advocating or asking that any other high school be closed even they do not have the capacity and do have the same lower grades, but they are asking that Fair Park remain under the Transformation Next; and she would hate to threaten non-support of the Caddo Parish School Board tax if this happens tonight.

Brian Salvatore, LSUS Professor and Chair of the Department of Chemistry and Physics, addressed the Board on a program implemented at Fair Park approximately 4 years ago sponsored by the Community Foundation and the American Chemical Society. The plan is for this program, the ASPIRE Program, an after-school program for innovation and respect for

education, to continue in the fall, and he places tremendous credit for this program's success on the staff and Alumni President Cathy Bonds. He shared that he learned from this program that when you invest in students at a school like Fair Park, they invest in themselves and their futures which will change their outlook on life by having people care about them. He stated the message the Board is sending tonight is it will disinvest in the school and its students, leaving students to feel abandoned. Mr. Salvatore stated the Board can choose the second choice and think about these students that are the future and make the right decision. He also encouraged the Superintendent and Board to invest in the neighborhoods around the schools.

Marlon Blackshire, Fair Park student, addressed the consolidation of Fair Park with Booker T. Washington High School. In his English assignment to look at the Board's plan, Mr. Blackshire noted that he learned this is about facilities and not about academics. He said when the education at a school is not on the same standard as the other schools in the District, how can this help students progress to be on the same level. He questions how it can be equal for all students when what is being taught in the classrooms from school to school is not the same. If the School Board is over education, it should be over education at all schools and not those who appear to be excelling the most. He said if the School Board really cares about its students and Fair Park is really a part of Caddo, then the right decision will be made tonight.

Tahira Abdul-Rahman, BTW Alumni Foundation, addressed the merger of Booker T. Washington High School and Fair Park High School and their support of this plan, and encouraged the Board to vote for the merger. Knowing that additional resources, certified teachers and funds are needed for the merger to be successful, and believing that all children can learn, they believe everyone (students at Fair Park and BTW, BTW Alumni Foundation, principal, staff, and students) will work diligently to see the merger succeed. She reminded everyone that BTW was built for the African American community, and it is the only African-American school in Caddo Parish that served as a high school in the 50s, 60s and still is a functioning high school. She also believes that under the leadership of a new principal, Booker T. Washington is on its way to a newly, revitalized school; and even though she understands the emotions expressed regarding the merger of these two schools, Booker T. Washington once was the largest, and was the only high school for African Americans in Caddo Parish, and it belongs to everyone in the room. She thanked the Board members who understand the broader implication of this merger and the move to preserve an icon in the community and encouraged the Board to continue its support in this merger.

Chester T. "Catfish" Kelley stated it is hard to match what's been said and acknowledged the last presentation. He added he believes what is being done is perpetrating the bad things happening in the Black community; and he does not believe closing Fair Park High School is in the best interest of the Black community. If done, he believes the area covered by Fair Park will become a ghetto. With a neighborhood needing schools and churches and with high schools always being an anchor of a good neighborhood, he believes there is an opportunity to relook at this situation and change it for the better. While he knows it is a difficult decision, the Board now has the opportunity to correct the wrong direction, and not only save Fair Park but also the neighborhood.

Richard M. Dailey shared his education experience in Caddo Parish and the bonds formed among the students from elementary through high school (Fair Park Class of 1963); and if we are to break the vicious cycle seen today, children need a good education.

Diana Lucas stated her support of Fair Park and encouraged the Board to allow the students at Fair Park to taste the victory for which they have diligently worked and that is to come out of corrective action. She said there are good educators at Fair Park as evidenced by the students' accomplishments despite the adversities they face each day.

Michelle Young addressed the unfair punishment of a student urinating in her son's cup and he consumed it. Only suspended for two days, she questions why when the day before another student sprayed Febreeze in a teacher's drink, which she did not consume, and that student was suspended from all Caddo Parish Public Schools for two years. She said this student was

charged by the police yet he was allowed to return to school to play in a baseball game. Ms. Young stated her son has been humiliated on more than one occasion and the school has done nothing to protect her child. Having emailed each School Board member and taking all the necessary steps for holding this student accountable for what he did to her son, she has not gone to the media. While she does not desire to ruin this student or his parents, she does want to understand the slight punishment received for such a harsh act against her son.

Tabitha Taylor asked that the Board leave Fair Park alone. She said for the past 10 years an attempt has been made six times to close Fair Park; and in lieu of insurmountable odds, Fair Park keeps rising. Having been taught to stand for what one believes in, she doesn't believe the Board has done due diligence to the students; because the day the decision was made to make Fair Park a middle school, travesty was brought among the Fair Park students. As a parent, as an alum, and as a citizen of Caddo Parish, she asked the Board to leave Fair Park alone. If not, she promised there will be no support when tax renewals are up for re-election.

Earnestine Coleman expressed her opposition to the reconfiguration of Fair Park High School. She reminded everyone that this is children's lives; and while she is not against keeping a failing school open, she is against depriving the students at Fair Park a quality education. Taking students from a failing school and putting them into another failing school, she questions if it is the School Board that is failing or is it Fair Park. She said it is also wrong to sacrifice 742 students at Fair Park because the neighborhood is not seeing any growth. She doesn't understand why the parents and students must suffer unsuccessfully as well as have their Constitutional and Civil Rights violated. She also asked if any Board member has visited Fair Park, the classrooms, students' performance prior to voting against Fair Park and bussing students to another failing school. Ms. Coleman asked the Board if it has considered the effect on the Queensborough community, and if any Board member would want their children mistreated in a manner that the current Board has disrespected the students and parents today. She said she will fight twice as hard against Caddo Parish taxes and reminded them that what is done to others will be done to you.

Chris Henry addressed the plan to close Lakeshore Middle School and Item 8.13 which states "Move to change Fair Park to high school". He stated if 8.11 passes, there will be no need to vote on 8.13; and he questions why we are here today playing what appears to be a game. He addressed the under-attended schools (Arthur Circle, A C Steere, Riverside) and the possibility of raising the SPS grade in Caddo if Arthur Circle were closed. In looking at Atkins, Queensborough, and the Fair Park-BTW merger, he doesn't believe the students and community (stakeholders) have been given a fair share at the table. He reminded everyone that the Board closed Barret Elementary last year and asked where the saved dollars were used. Working in the community every day, Mr. Henry said he sees a number of children in the community that want to do better; but, they do not get the support they need. He encouraged the Board before making these decisions to get more involved, listen to the stakeholders and not vote on this today.

Representative Barbara Norton stated she was in attendance to address the Board and make sure she did her due diligence on behalf of her community and her three children that graduated from Fair Park. Having served as PTA President at Fair Park for approximately 5 years, she asked the Board to please not put her in the middle of this and force her to choose, because she will have to stand with her community and make sure the children get the services and education they need.

PERSONAL POINT OF PRIVILEGE

Because people in the audience were leaving and she wanted them to hear what was going on, Board member Dr. Bonita Douzart requested a personal point of privilege in order to make the following statement. *Dr. Douzart thanked President Locke and Dr. Goree. She appreciates both of you and all of the hard work you encounter. A majority of the issues of Caddo Parish School Board have been inherited long before you were elected to the Board President Locke and before Superintendent Goree was selected. Some of these problems existed before she retired and she understands. Thanks to all the members of the Board. She knows that schools are being closed all over the country, but none like this. It is the way these closures have been done. A figure of*

speech... "it is not what we do, but how we do it". The manipulations and constant change in methods are just not right. How much money did the District save by closing Fair Park High School? How much would it cost Caddo to give all the students affected a choice of where they would like to attend school? Since we are saving this money, we should at least give all the students a choice. My title is "An Update of the Ride on the Train". The CPSB train is moving too fast. The Conductor Goree is leading the train. There are missing pieces of the puzzle. The games that are played and meetings that are scheduled are led by the conductor. This year, 2017, the original scheduled school board meeting dates have been changed quite often. On January 17, 2017, there was a majority of votes from the School Board to merge Fair Park High School to Booker T. Washington High School 9-12 grades. Fair Park High School to a middle school. This announcement caused an electrified shock to numerous citizens across the city. January 20, 2017, the conductor gave directives to Lakeshore to move into Fair Park High School building, a closure of Lakeshore. Before Lakeshore closure is finalized, the conductor announced on March 9, 2017 that Atkins and Queensborough elementary schools are to consolidate. A few days later, an announcement from the conductor that Atkins and Queensborough schools remain (President Locke asked that Dr. Douzart not be disrespectful to the superintendent.) Dr. Douzart continued and said several schools have been announced for closure. We must get organized and consistent. This train is not in correct order. At least front, middle and end, then later filled in spaces. March 14, 2017, the conductor invited school board members to come learn about an agreement and the next steps for approval implementation. On March 15th he hosted a briefing regarding the agreement to discuss the key pillars of the plan from 12:30 p.m. to 1:30 p.m. Another rushed meeting. One hour is not enough time for 15 different schools. The School Board needs two or more weeks to analyze and review. No one even requested to have the agreement read. A news conference was scheduled at 1:30 p.m. to announce the agreement. How can 12 members collaborate for an agreement within one hour. A two-hour meeting that day – the train is moving too fast. The School Board members did not receive an agreement. Maybe they received one when they went home. It stated in the agreement that the Board agreed to it. She was there. She does not agree to written papers that she has not read. The Board will vote on March 21st (today) 2017 for final approval. It appears that a lot of work was done for the new plan, but why these initiatives were not presented before the voting on January 17th, 2017. The conductor presented a Caddo Transformation Partnership Agreement. The first page, third paragraph clearly states that Fair Park (closing), Lakeshore Middle moving (moving to Fair Park campus). Here comes the train. All aboard. School Board members get on the train. All aboard. Engine starting. Train moving. There are some emotional members riding on the train. All is well. First box car states "Why this plan or agreement was not presented before voting to merge Fair Park High School?" a repeated question. Next box car moving states "These past three months have been filled with confusion and inconsistencies. Some decisions were not wise. Something is not right. Why close Fair Park High School. Is there a vendetta? Something is missing and not understood. Maybe there is a hidden motive against Fair Park High School. The train's moving faster. Next box car moving states "Please consider the children. Do we care?" The next box car states "Four schools were on the "F" list. Fair Park High School's scores were higher than the other three. Why they have to close?" Next box car moving states "Well the conductor had a conversation with other members on the Board who went through closure before the school closed." He and I have not had this type of conversation. The next box car moving states "What about the students, teachers, administrators, staff, families, alumni, taxpayers, constituents and community input. The answer – no input, no time for this. Train moving fast. Mr. Riall called for a point of order because this is more appropriate during the agenda item. The next box car moving states "Some people think right is wrong and wrong is right but no matter what, do the right thing". The agreement has three entities simultaneously, meaning that when the Board votes it will have 3 yes votes or 3 no votes automatically, instantly agree and locked in. First three years that Fair Park School closing will be a middle school. Second, Lakeshore Middle (students moving to Fair Park campus), Lakeshore will not exist. Number 3, the Caddo Transformation Partnership Agreement causes for a yes or no vote. These are the three in one blow. Next box car moving states "Number 8.13 by Dr. Douzart on the agenda is automatically not considered if the majority votes are yes to the agreement". The last part of this train coming...I'm stating this one. "For the benefit of the students, we need to slow down the train". The end of the train. Thank you.

President Locke called a 10-minute recess at 6:18 p.m. The Board reconvened in open session at approximately 6:27 p.m.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Goree announced that at the request of the principal Item 8.08 is being pulled and Item 8.11 (b) and (c) are pulled. President Locke announced Items 6.02, 7.01, 8.01-8.07, 8.09-8.10, 8.12 and 13.02 as the Consent Agenda. *Mrs. Bell moved, seconded by Mr. Riall, to approve the agenda and consent agenda for the March 21, 2017 CPSB meeting as presented. Vote on motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mr. Riall, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports (Resignations). The Board approved the personnel transaction reports (resignations) covering the period of February 1, 2017 through February 28, 2017 as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Bids – Construction and Capital Projects. The Board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) The Payne Company, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$726,000 for Project 2018-305, "Keithville HVAC, Phase I"; (2) Integrity, Inc. with a Base Bid, for the sum total of \$553,600 for Project 2018-101, "Linear Foundation Refurbish"; and (3) Dixie Overland Construction, LLC, with a Base Bid, for the sum total of \$89,200 for Project 2018-311, "North Caddo Sewer Replacement". *The bid tabulation sheets are filed in the official papers of the March 21, 2017 CPSB meeting.*Mov

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the requests for use of CPSB property and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Recommendation for External Audit Services. The Board approved the CPSB contract with Carr, Riggs & Ingram, LLC to provide external audit services as recommended by the Audit Committee and submitted in the electronic mailout.

8.04 2015-16 Comprehensive Annual Financial Audit Report. The Board approved accepting the 2015-16 Comprehensive Annual Financial Audit report as submitted in the electronic mailout.

8.05 Resolution of Continued Employment. The Board approved the resolution directing the superintendent to write letters of reasonable assurance of continued employment as submitted in the electronic mailout and recommended by staff.

8.06 Granting of Servitude Agreement for City of Shreveport Sewer Improvements. The Board approved granting of servitude agreements for the City of Shreveport's Sewer Improvements as recommended by staff and submitted in the electronic mailout.

8.07 Youth Enrichment Program (YEP) Contract Renewal. The Board approved the continuation of facility usage agreement between YEP and the CPSB for August 14, 2017 through May 17, 2018 as recommended by staff and submitted in the electronic mailout.

8.09 Begin the 90-Day Process for Naming the Herndon Gymnasium for Mr. O.C. Rollins. The Board approved beginning the 90-day process for naming the Herndon Gymnasium for Mr. O.C. Rollins as submitted in the electronic mailout.

8.10 Consideration of CPSB Resolution Petitioning the Annexation of Herndon Magnet School into the Boundaries of the Town of Oil City. The Board approved the resolution petitioning the annexation of Herndon Magnet School into the boundaries of the Town of Oil City as submitted in the electronic mailout.

8.12 2016-17 General Fund Budget Revision. The Board approved the revision to the 2016-17 General Fund budget as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.02 Request for Settlement Authority – Viola Patterson et al v. Bobby Jelks, James Outley & CPSB, 1JDC, Caddo Parish, La, No. 583,353. The Board authorized resolution as recommended and submitted in the electronic mailout.

APPROVAL OF PARTNERSHIP AGREEMENT WITH LOUISIANA DEPARTMENT OF EDUCATION AND CADDO PARISH PUBLIC SCHOOLS

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the partnership agreement with the Louisiana Department of Education and Caddo Parish Public Schools and to authorize execution of the partnership agreement with the Louisiana Department of Education and Caddo Parish Public Schools as submitted in the electronic mailout. Mr. Ramsey said that a tremendous amount of data has been looked at to arrive at this decision, including demography data and attendance data. He further said that in the efforts to gather the best resources possible for the kids, and because it is not the building teaching the kids; he believes the District is there. He added this is part of the plan agreed to in partnering with BESE and the Department of Education and contains the first part of his motion approved and that was Fair Park being merged with BTW. Mrs. Bell shared her agreement with the proposed plan submitted to the State Superintendent; and she believes the Board has had ample time to look at this plan. Now it is time for adult issues to get out of the way so everything we do is to help the children get the best possible resources in the classroom, and she encouraged the Board to support the motion on the floor. Mrs. Bell also reported that she asked the Legislators at the Legislative Luncheon held on this date to stop labeling Caddo's schools and the District.

Mrs. Brown, in a point of personal privilege, encouraged others to be part of the revitalization initiative and help make this area for students a wonderful place to live. She shared her experience with BTW and how the students make this school one of respect and manners.

Mr. Riall moved, seconded by Mr. Ramsey, to call for the question. Vote on the motion to end debate carried with Dr. Douzart voting against the motion.

Vote on the main motion carried with Board member J Green opposed and Board members Riall, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

APPROVAL OF CLOSURE OF LAKESHORE MIDDLE SCHOOL

Mr. Ramsey moved, seconded by Ms. Trammel, to approve the closure of Lakeshore Middle School as submitted in the electronic mailout. Mr. Ramsey echoed his comments made on the previous motion on the floor and that Superintendent Goree submitted this solution as a result of negotiations. Vote on the motion carried with Board members Riall, Brown, Poljak, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion and Board members J Green and Douzart opposed.

CHANGE FAIR PARK BACK TO A HIGH SCHOOL

Dr. Douzart moved, seconded by Ms. Green, to remove the word “closing” in parenthesis following Fair Park and “students moving to Fair Park campus” in parenthesis from Lakeshore Middle and located on the 1st page, 3rd paragraph, remove the word “Middle” from Fair Park and on the 3rd page, line 11, of the Caddo Transformation Partnership Agreement. Mrs. Locke stated that this motion has passed. Dr. Douzart moved, seconded by J Green, to change Fair Park back to a high school. Dr. Douzart stated that she has said enough and she thanked the Board for whatever decision it makes. Miss Green stated she believes the community has expressed its concerns and Dr. Douzart has as well. She believes the community does not feel like they have had ample time to provide input and she encouraged reconsidering this item. Mr. Ramsey moved, seconded by Mr. Riall, to call for the question. Vote on the motion to end debate carried unanimously. Following the rereading of the motion, vote on the motion to change Fair Park back to a high school failed with Board members Douzart and J Green supporting the motion and Board members Riall, Brown, Poljak, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell opposed.

ANNOUNCEMENTS AND REQUESTS

Miss Green thanked the Communications Department for providing the Top 20 students at Green Oaks a copy of the Caddo magazine with their picture on the cover.

Mr. Green informed the board that on Monday a group of ladies dressed in pink and green from across the country made a trip to Oak Park on a school bus. The bus was filled with backpacks, paper, pencils, pens, uniforms, etc. to present to the students.

Dr. Goree thanked everyone who participated in the Amazing Shake dinner as well as the first Transformation Zone Conference. He announced he was unable to attend due to illness but received very positive feedback on the event. Contrary to popular belief, Dr. Goree said there are amazing things happening in Caddo’s most struggling schools and a group of individuals from all across the country visited Caddo to see what we are doing to help students and the progress made.

EXECUTIVE SESSION

Student Readmission Appeals. *Mr. Ramsey moved, seconded by Mr. Rachal, to go into executive session for up to 20 minutes for the purpose of hearing student appeals. Following a five minute recess, the Board went into executive session at approximately 6:57 p.m. The Board went back into open session at approximately 7:03 p.m.*

Ms. Trammel moved, seconded by Mr. Green, to approve readmittance of Student NM back into the School System. Vote on the motion carried unanimously.

Ms. Trammel moved, seconded by Mrs. Poljak, to amend the expulsion of Student CSS to end at the end of this school year. The parents are in agreement. Vote on the motion carried unanimously.

Adjournment. *Mrs. Bell moved, seconded by Ms. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:07 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

March 21, 2017

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, March 21, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE FEBRUARY 21, 2017 AND MARCH 9, 2017 CPSB MEETINGS

Mr. Riall moved, seconded by Ms. Trammel, to approve the February 21, 2017 and March 9, 2017 CPSB minutes as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

President Locke announced that Mary Nash-Wood, assistant director of communications, on Sunday delivered her baby girl prematurely. Everyone was asked to remember them in their thoughts and prayers.

Diane Atkins, chief human resource officer, on behalf of the board, recognized the following staff members and students for recent achievements. President Locke and Chief Academic Officer Keith Burton congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Administrators, family and friends present were recognized.

Autism Awareness Month. In recognition of April as Autism Awareness Month, Santana Jones, Huntington High School student under the leadership of Teacher Ronald Radel, shared with everyone memory and math calculation skill activities naming in order all the U.S. Presidents, randomly when given a number, as well as completing mental math exhibitions of large number equations. Mrs. Bell recognized Santana's parents and announced they will host a Super Hero Run at Bill Cockrell Park on April 1st with proceeds going to fund expenses for 25 autistic students to travel to Washington, D.C.

LSBA 2017 Art Work Contest. Jodie Ray Johnson, student at Caddo Magnet High School, was recognized for placing first in the high school division of LSBA's 2017 Art Work contest. Her artwork "The Blue Heron" was displayed, along with student artwork from districts across the state, at the recent LSBA Annual Conference in New Orleans.

Perfect ACT Score. Dylan Tines, 15 year-old student at C. E. Byrd High School, was recognized for scoring a perfect 36 on the ACT test. Dylan will have the opportunity to attend any college/university in the United States.

Louisiana A+ First Arts. South Highlands Elementary Magnet School was recognized as the first laboratory school in the Louisiana A+ Schools Network. The George Rodrigue Foundation of the Arts advocates the importance of the visual arts in the development of our youth and encourages the use of art within all curricula and supports a variety of educational programs. South Highlands completed their third year in this pilot program showing their deep commitment to the A+ essentials, art integration and maintaining art as their primary focus.

2016 Louisiana PTA Educators of Distinction Award. The following teachers were recognized as outstanding educators of distinction: Amy Nicole Hopper, Youree Drive Middle School; Megan DeFatta Quin, University Elementary; Stacey Thomas, A. C. Steere Elementary; Amy Horn Williams, Fairfield Elementary Magnet; Jeremy Ryan Williams, C. E. Byrd High School; and Kris Klements, Caddo Magnet High School.

CPSB LSBA Earned CLUs. Mrs. Atkins recognized and presented to each CPSB member their commendation for completing the required hours of continuing education with many going beyond the required hours. Steve Riall, District 1; Jasmine Green, District 2; Margaret Brown, District 3; Susannah Poljak, District 4; Dr. Bonita Douzart, District 5; Mary A. Trammel, District 6; Raymond E. Green, District 7; Denee' Locke, District 8; Barry Rachal, District 9; Larry Ramsey, District 10; John Albritton, District 11; and Dottie Bell, District 12.

VISITORS

Jackie Lansdale, president of Red River United, addressed the Board on a possible pay raise noting that Caddo has the lowest new teacher salary in the region and the highest turnover as noted by the number of classes taught by uncertified or substitute teachers. She said Red River United remains steadfast in their belief that the community would support them if asked even though many of the Board members do not share that view. She stated the only avenue for a pay increase if the district does not go to the public is to continue to scrub the budget and suggest ways to fund it. Mrs. Lansdale reported that the Superintendent last week met with the site-based leadership of the professional organizations and explained the process in areas where funds could possibly be found. He asked those in attendance to select their priorities; and the top three were (1) consolidation; (2) insurance adjustments; and (3) a new tax. She believes this is called transparency and asked that this be posted. While there has been no decision made, and no decision will be made until the Board goes through the budget process beginning in April; she asked the Board not to oppose this because those vested in the system understand what the District is up against and when given the facts, their position is against those who deliberately and purposely spread misinformation and lies. Because the District is faced with unheralded cuts to an overburdened system by the Federal Government, because BESE is poised to take another 3% out of Title I funds for vouchers, because we have a State Government who has an unbelievable industrial tax exemption that includes schools, and if we were able to keep the \$18 million lost each year, every child would be receiving a preK education. With the law change, it is hoped the Board would be in a position to approve or disapprove any additional requests. She said they have faith in the Board to do the right thing and will support the Board when doing the right thing to get Caddo off the bottom. The RRU supports getting certified teachers in every class, supports all teachers being compensated for their contributions; and because there is no separate or equal in Caddo unless we work together, she encouraged the Board to work together.

Brenda O'Brock stated that changing Fair Park to anything other than a high school will only be a shuffle of students which cannot fix what is broken; and a lack of occupancy is going to increase if Fair Park is changed to a middle school. More people will leave for other states and parishes, and the Board can prove that it knows what is broken by how each Board member casts their vote today. If the Board votes to keep Fair Park a high school, other measures should come next to fix what is actually broken, i.e. doing away with standardized testing. If the Board votes to change Fair Park to a middle school, the Board will show that it believes another idea of an individual is worth a try even though these ideas have taken the District on a path of failure for years. Research-based education reform is needed and not an ideology of the next person in charge; and to fix what is broken, it is important to be systematic and this will bring improvement. She shared statistics of the homeless in Caddo Parish, the important role of a "cheerleader" in each individual home and what we are doing for the impoverished children, particularly in the State of Louisiana, because they do not have cheerleaders in their homes. For those who are underperforming, the Board needs to make changes so these students are reached.

Marion Howard stated that having attended many Board meetings and retiring after 33 years teaching at a single school in Caddo, she can't remember the last substantial pay increase received by employees while costs for housing, food, etc. continue to rise. Because she sees too many permanent subs, she asked the Board to please find a way to fund a pay raise and stop the bleeding of Caddo's qualified teachers to other parishes.

Rob Broussard noted that when using the term "We are Caddo", it is inclusive of those not in the employee organizations, the teachers that go to work every day, bus drivers, custodians, and even retired teachers. He said if a proposed raise is given, those impacted the most negatively are the

retirees. Mr. Broussard referenced the state audit report stating there are 4,500 retirees, but the proposal lists 4,000 retirees, and asked where are the 500 missing people. He referenced an email from Board member Poljak stating that the average age of employees is 59 which means they are eligible for retirement. If this is correct, there are 1,451 teachers eligible for retirement and they will feel the immediate impact on their salaries if this raise goes forward. Board member Locke stated in an email that the premiums would remain the same and we would keep the low-cost prescription plan. The timeline disagrees as does the work list where prescriptions will go from zero to \$250; and while some of these things may change, one must remember that the retired teachers are also “We are Caddo” as well as students, teachers, parents, the taxpayers; and when one group asks that we look at exterior sources to fund a pay raise, he believes others want to see this happen but not by taking it from one pocket and putting it into another one.

Lloyd Thompson stated he has said the same thing for two months and that is we can no longer continue to close schools in their community. Rather than closing Fair Park or refiguring Fair Park, he asked the Board to look at adding them to the Transformation Next Zone and giving them an opportunity with the 11 other schools to turn it around. In talking about giving pay raises for teachers to come into the communities and teach, this brought 45 teachers to Fair Park rather than taking the students to another school. He encouraged the Board to stop destroying the African American community by closing its schools. He asked the Board to consider if they wish to continue to go down the road and close schools or does it want to save some of those communities.

Middie Farrow addressed the closing of schools in the Black Community and how it seems more appropriate to do so than repairing them and putting the money in the General Fund; and she questioned what is being done with the extra money from closing schools. Ms. Farrow noted the importance of children getting a great education and they depend on the Superintendent and Board to do the right thing for the children. Ms. Farrow stated she is a cheerleader for the children in her community and she believes it awful for the Board to close schools one by one.

Gladys Starks addressed Black schools not being treated fairly and Fair Park is one of those schools. She said the students are not getting a quality education at Fair Park, the resources are low, high achievers have moved to other schools, there are no vested principals or teachers at Fair Park, and now the Board wants to close the high school and make it a middle school. She shared her disagreement with this decision; and if the Board passes this tonight, the Board’s taxes will not pass in May.

Stormy Gage-Watts shared her support last week of the Transformation Zone described as a component that could help improve all schools struggling in Caddo Parish. She said it was not once stated that Fair Park would not be included under this umbrella. With the contract not yet available for public viewing, she questioned why following the meeting it was available on the Caddo Parish School website and noted that Fair Park would not be included but closed. She added it is interesting to her that schools with lower grade standards, less enrollment and lower scores on overall testing were included in the plan. Believing that the picture is much larger, she hopes it is not the ultimate goal; and she noted accomplishments that give honor to the students at Fair Park. She is concerned that students will have to walk home from another high school across town, that robots are sitting collecting dust, that the ROTC went to Washington DC with their honorable accomplishments and that they are on their way to Kentucky yet are being overlooked, that the programs are presented for the students yet they are taken away, and how hard the teachers have worked to improve the school’s scores. She added they are not advocating or asking that any other high school be closed even they do not have the capacity and do have the same lower grades, but they are asking that Fair Park remain under the Transformation Next; and she would hate to threaten non-support of the Caddo Parish School Board tax if this happens tonight.

Brian Salvatore, LSUS Professor and Chair of the Department of Chemistry and Physics, addressed the Board on a program implemented at Fair Park approximately 4 years ago sponsored by the Community Foundation and the American Chemical Society. The plan is for this program, the ASPIRE Program, an after-school program for innovation and respect for

education, to continue in the fall, and he places tremendous credit for this program's success on the staff and Alumni President Cathy Bonds. He shared that he learned from this program that when you invest in students at a school like Fair Park, they invest in themselves and their futures which will change their outlook on life by having people care about them. He stated the message the Board is sending tonight is it will disinvest in the school and its students, leaving students to feel abandoned. Mr. Salvatore stated the Board can choose the second choice and think about these students that are the future and make the right decision. He also encouraged the Superintendent and Board to invest in the neighborhoods around the schools.

Marlon Blackshire, Fair Park student, addressed the consolidation of Fair Park with Booker T. Washington High School. In his English assignment to look at the Board's plan, Mr. Blackshire noted that he learned this is about facilities and not about academics. He said when the education at a school is not on the same standard as the other schools in the District, how can this help students progress to be on the same level. He questions how it can be equal for all students when what is being taught in the classrooms from school to school is not the same. If the School Board is over education, it should be over education at all schools and not those who appear to be excelling the most. He said if the School Board really cares about its students and Fair Park is really a part of Caddo, then the right decision will be made tonight.

Tahira Abdul-Rahman, BTW Alumni Foundation, addressed the merger of Booker T. Washington High School and Fair Park High School and their support of this plan, and encouraged the Board to vote for the merger. Knowing that additional resources, certified teachers and funds are needed for the merger to be successful, and believing that all children can learn, they believe everyone (students at Fair Park and BTW, BTW Alumni Foundation, principal, staff, and students) will work diligently to see the merger succeed. She reminded everyone that BTW was built for the African American community, and it is the only African-American school in Caddo Parish that served as a high school in the 50s, 60s and still is a functioning high school. She also believes that under the leadership of a new principal, Booker T. Washington is on its way to a newly, revitalized school; and even though she understands the emotions expressed regarding the merger of these two schools, Booker T. Washington once was the largest, and was the only high school for African Americans in Caddo Parish, and it belongs to everyone in the room. She thanked the Board members who understand the broader implication of this merger and the move to preserve an icon in the community and encouraged the Board to continue its support in this merger.

Chester T. "Catfish" Kelley stated it is hard to match what's been said and acknowledged the last presentation. He added he believes what is being done is perpetrating the bad things happening in the Black community; and he does not believe closing Fair Park High School is in the best interest of the Black community. If done, he believes the area covered by Fair Park will become a ghetto. With a neighborhood needing schools and churches and with high schools always being an anchor of a good neighborhood, he believes there is an opportunity to relook at this situation and change it for the better. While he knows it is a difficult decision, the Board now has the opportunity to correct the wrong direction, and not only save Fair Park but also the neighborhood.

Richard M. Dailey shared his education experience in Caddo Parish and the bonds formed among the students from elementary through high school (Fair Park Class of 1963); and if we are to break the vicious cycle seen today, children need a good education.

Diana Lucas stated her support of Fair Park and encouraged the Board to allow the students at Fair Park to taste the victory for which they have diligently worked and that is to come out of corrective action. She said there are good educators at Fair Park as evidenced by the students' accomplishments despite the adversities they face each day.

Michelle Young addressed the unfair punishment of a student urinating in her son's cup and he consumed it. Only suspended for two days, she questions why when the day before another student sprayed Febreeze in a teacher's drink, which she did not consume, and that student was suspended from all Caddo Parish Public Schools for two years. She said this student was

charged by the police yet he was allowed to return to school to play in a baseball game. Ms. Young stated her son has been humiliated on more than one occasion and the school has done nothing to protect her child. Having emailed each School Board member and taking all the necessary steps for holding this student accountable for what he did to her son, she has not gone to the media. While she does not desire to ruin this student or his parents, she does want to understand the slight punishment received for such a harsh act against her son.

Tabitha Taylor asked that the Board leave Fair Park alone. She said for the past 10 years an attempt has been made six times to close Fair Park; and in lieu of insurmountable odds, Fair Park keeps rising. Having been taught to stand for what one believes in, she doesn't believe the Board has done due diligence to the students; because the day the decision was made to make Fair Park a middle school, travesty was brought among the Fair Park students. As a parent, as an alum, and as a citizen of Caddo Parish, she asked the Board to leave Fair Park alone. If not, she promised there will be no support when tax renewals are up for re-election.

Earnestine Coleman expressed her opposition to the reconfiguration of Fair Park High School. She reminded everyone that this is children's lives; and while she is not against keeping a failing school open, she is against depriving the students at Fair Park a quality education. Taking students from a failing school and putting them into another failing school, she questions if it is the School Board that is failing or is it Fair Park. She said it is also wrong to sacrifice 742 students at Fair Park because the neighborhood is not seeing any growth. She doesn't understand why the parents and students must suffer unsuccessfully as well as have their Constitutional and Civil Rights violated. She also asked if any Board member has visited Fair Park, the classrooms, students' performance prior to voting against Fair Park and bussing students to another failing school. Ms. Coleman asked the Board if it has considered the effect on the Queensborough community, and if any Board member would want their children mistreated in a manner that the current Board has disrespected the students and parents today. She said she will fight twice as hard against Caddo Parish taxes and reminded them that what is done to others will be done to you.

Chris Henry addressed the plan to close Lakeshore Middle School and Item 8.13 which states "Move to change Fair Park to high school". He stated if 8.11 passes, there will be no need to vote on 8.13; and he questions why we are here today playing what appears to be a game. He addressed the under-attended schools (Arthur Circle, A C Steere, Riverside) and the possibility of raising the SPS grade in Caddo if Arthur Circle were closed. In looking at Atkins, Queensborough, and the Fair Park-BTW merger, he doesn't believe the students and community (stakeholders) have been given a fair share at the table. He reminded everyone that the Board closed Barret Elementary last year and asked where the saved dollars were used. Working in the community every day, Mr. Henry said he sees a number of children in the community that want to do better; but, they do not get the support they need. He encouraged the Board before making these decisions to get more involved, listen to the stakeholders and not vote on this today.

Representative Barbara Norton stated she was in attendance to address the Board and make sure she did her due diligence on behalf of her community and her three children that graduated from Fair Park. Having served as PTA President at Fair Park for approximately 5 years, she asked the Board to please not put her in the middle of this and force her to choose, because she will have to stand with her community and make sure the children get the services and education they need.

PERSONAL POINT OF PRIVILEGE

Because people in the audience were leaving and she wanted them to hear what was going on, Board member Dr. Bonita Douzart requested a personal point of privilege in order to make the following statement. *Dr. Douzart thanked President Locke and Dr. Goree. She appreciates both of you and all of the hard work you encounter. A majority of the issues of Caddo Parish School Board have been inherited long before you were elected to the Board President Locke and before Superintendent Goree was selected. Some of these problems existed before she retired and she understands. Thanks to all the members of the Board. She knows that schools are being closed all over the country, but none like this. It is the way these closures have been done. A figure of*

speech... "it is not what we do, but how we do it". The manipulations and constant change in methods are just not right. How much money did the District save by closing Fair Park High School? How much would it cost Caddo to give all the students affected a choice of where they would like to attend school? Since we are saving this money, we should at least give all the students a choice. My title is "An Update of the Ride on the Train". The CPSB train is moving too fast. The Conductor Goree is leading the train. There are missing pieces of the puzzle. The games that are played and meetings that are scheduled are led by the conductor. This year, 2017, the original scheduled school board meeting dates have been changed quite often. On January 17, 2017, there was a majority of votes from the School Board to merge Fair Park High School to Booker T. Washington High School 9-12 grades. Fair Park High School to a middle school. This announcement caused an electrified shock to numerous citizens across the city. January 20, 2017, the conductor gave directives to Lakeshore to move into Fair Park High School building, a closure of Lakeshore. Before Lakeshore closure is finalized, the conductor announced on March 9, 2017 that Atkins and Queensborough elementary schools are to consolidate. A few days later, an announcement from the conductor that Atkins and Queensborough schools remain (President Locke asked that Dr. Douzart not be disrespectful to the superintendent.) Dr. Douzart continued and said several schools have been announced for closure. We must get organized and consistent. This train is not in correct order. At least front, middle and end, then later filled in spaces. March 14, 2017, the conductor invited school board members to come learn about an agreement and the next steps for approval implementation. On March 15th he hosted a briefing regarding the agreement to discuss the key pillars of the plan from 12:30 p.m. to 1:30 p.m. Another rushed meeting. One hour is not enough time for 15 different schools. The School Board needs two or more weeks to analyze and review. No one even requested to have the agreement read. A news conference was scheduled at 1:30 p.m. to announce the agreement. How can 12 members collaborate for an agreement within one hour. A two-hour meeting that day – the train is moving too fast. The School Board members did not receive an agreement. Maybe they received one when they went home. It stated in the agreement that the Board agreed to it. She was there. She does not agree to written papers that she has not read. The Board will vote on March 21st (today) 2017 for final approval. It appears that a lot of work was done for the new plan, but why these initiatives were not presented before the voting on January 17th, 2017. The conductor presented a Caddo Transformation Partnership Agreement. The first page, third paragraph clearly states that Fair Park (closing), Lakeshore Middle moving (moving to Fair Park campus). Here comes the train. All aboard. School Board members get on the train. All aboard. Engine starting. Train moving. There are some emotional members riding on the train. All is well. First box car states "Why this plan or agreement was not presented before voting to merge Fair Park High School?" a repeated question. Next box car moving states "These past three months have been filled with confusion and inconsistencies. Some decisions were not wise. Something is not right. Why close Fair Park High School. Is there a vendetta? Something is missing and not understood. Maybe there is a hidden motive against Fair Park High School. The train's moving faster. Next box car moving states "Please consider the children. Do we care?" The next box car states "Four schools were on the "F" list. Fair Park High School's scores were higher than the other three. Why they have to close?" Next box car moving states "Well the conductor had a conversation with other members on the Board who went through closure before the school closed." He and I have not had this type of conversation. The next box car moving states "What about the students, teachers, administrators, staff, families, alumni, taxpayers, constituents and community input. The answer – no input, no time for this. Train moving fast. Mr. Riall called for a point of order because this is more appropriate during the agenda item. The next box car moving states "Some people think right is wrong and wrong is right but no matter what, do the right thing". The agreement has three entities simultaneously, meaning that when the Board votes it will have 3 yes votes or 3 no votes automatically, instantly agree and locked in. First three years that Fair Park School closing will be a middle school. Second, Lakeshore Middle (students moving to Fair Park campus), Lakeshore will not exist. Number 3, the Caddo Transformation Partnership Agreement causes for a yes or no vote. These are the three in one blow. Next box car moving states "Number 8.13 by Dr. Douzart on the agenda is automatically not considered if the majority votes are yes to the agreement". The last part of this train coming...I'm stating this one. "For the benefit of the students, we need to slow down the train". The end of the train. Thank you.

President Locke called a 10-minute recess at 6:18 p.m. The Board reconvened in open session at approximately 6:27 p.m.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. Dr. Goree announced that at the request of the principal Item 8.08 is being pulled and Item 8.11 (b) and (c) are pulled. President Locke announced Items 6.02, 7.01, 8.01-8.07, 8.09-8.10, 8.12 and 13.02 as the Consent Agenda. *Mrs. Bell moved, seconded by Mr. Riall, to approve the agenda and consent agenda for the March 21, 2017 CPSB meeting as presented. Vote on motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mr. Riall, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports (Resignations). The Board approved the personnel transaction reports (resignations) covering the period of February 1, 2017 through February 28, 2017 as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Bids – Construction and Capital Projects. The Board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) The Payne Company, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$726,000 for Project 2018-305, "Keithville HVAC, Phase I"; (2) Integrity, Inc. with a Base Bid, for the sum total of \$553,600 for Project 2018-101, "Linear Foundation Refurbish"; and (3) Dixie Overland Construction, LLC, with a Base Bid, for the sum total of \$89,200 for Project 2018-311, "North Caddo Sewer Replacement". *The bid tabulation sheets are filed in the official papers of the March 21, 2017 CPSB meeting.*Mov

Item No. 8

8.01 Property/Bus Rental Requests. The Board approved the requests for use of CPSB property and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Recommendation for External Audit Services. The Board approved the CPSB contract with Carr, Riggs & Ingram, LLC to provide external audit services as recommended by the Audit Committee and submitted in the electronic mailout.

8.04 2015-16 Comprehensive Annual Financial Audit Report. The Board approved accepting the 2015-16 Comprehensive Annual Financial Audit report as submitted in the electronic mailout.

8.05 Resolution of Continued Employment. The Board approved the resolution directing the superintendent to write letters of reasonable assurance of continued employment as submitted in the electronic mailout and recommended by staff.

8.06 Granting of Servitude Agreement for City of Shreveport Sewer Improvements. The Board approved granting of servitude agreements for the City of Shreveport's Sewer Improvements as recommended by staff and submitted in the electronic mailout.

8.07 Youth Enrichment Program (YEP) Contract Renewal. The Board approved the continuation of facility usage agreement between YEP and the CPSB for August 14, 2017 through May 17, 2018 as recommended by staff and submitted in the electronic mailout.

8.09 Begin the 90-Day Process for Naming the Herndon Gymnasium for Mr. O.C. Rollins. The Board approved beginning the 90-day process for naming the Herndon Gymnasium for Mr. O.C. Rollins as submitted in the electronic mailout.

8.10 Consideration of CPSB Resolution Petitioning the Annexation of Herndon Magnet School into the Boundaries of the Town of Oil City. The Board approved the resolution petitioning the annexation of Herndon Magnet School into the boundaries of the Town of Oil City as submitted in the electronic mailout.

8.12 2016-17 General Fund Budget Revision. The Board approved the revision to the 2016-17 General Fund budget as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.02 Request for Settlement Authority – Viola Patterson et al v. Bobby Jelks, James Outley & CPSB, 1JDC, Caddo Parish, La, No. 583,353. The Board authorized resolution as recommended and submitted in the electronic mailout.

APPROVAL OF PARTNERSHIP AGREEMENT WITH LOUISIANA DEPARTMENT OF EDUCATION AND CADDO PARISH PUBLIC SCHOOLS

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the partnership agreement with the Louisiana Department of Education and Caddo Parish Public Schools and to authorize execution of the partnership agreement with the Louisiana Department of Education and Caddo Parish Public Schools as submitted in the electronic mailout. Mr. Ramsey said that a tremendous amount of data has been looked at to arrive at this decision, including demography data and attendance data. He further said that in the efforts to gather the best resources possible for the kids, and because it is not the building teaching the kids; he believes the District is there. He added this is part of the plan agreed to in partnering with BESE and the Department of Education and contains the first part of his motion approved and that was Fair Park being merged with BTW. Mrs. Bell shared her agreement with the proposed plan submitted to the State Superintendent; and she believes the Board has had ample time to look at this plan. Now it is time for adult issues to get out of the way so everything we do is to help the children get the best possible resources in the classroom, and she encouraged the Board to support the motion on the floor. Mrs. Bell also reported that she asked the Legislators at the Legislative Luncheon held on this date to stop labeling Caddo's schools and the District.

Mrs. Brown, in a point of personal privilege, encouraged others to be part of the revitalization initiative and help make this area for students a wonderful place to live. She shared her experience with BTW and how the students make this school one of respect and manners.

Mr. Riall moved, seconded by Mr. Ramsey, to call for the question. Vote on the motion to end debate carried with Dr. Douzart voting against the motion.

Vote on the main motion carried with Board member J Green opposed and Board members Riall, Brown, Poljak, Douzart, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion.

APPROVAL OF CLOSURE OF LAKESHORE MIDDLE SCHOOL

Mr. Ramsey moved, seconded by Ms. Trammel, to approve the closure of Lakeshore Middle School as submitted in the electronic mailout. Mr. Ramsey echoed his comments made on the previous motion on the floor and that Superintendent Goree submitted this solution as a result of negotiations. Vote on the motion carried with Board members Riall, Brown, Poljak, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell supporting the motion and Board members J Green and Douzart opposed.

CHANGE FAIR PARK BACK TO A HIGH SCHOOL

Dr. Douzart moved, seconded by Ms. Green, to remove the word “closing” in parenthesis following Fair Park and “students moving to Fair Park campus” in parenthesis from Lakeshore Middle and located on the 1st page, 3rd paragraph, remove the word “Middle” from Fair Park and on the 3rd page, line 11, of the Caddo Transformation Partnership Agreement. Mrs. Locke stated that this motion has passed. Dr. Douzart moved, seconded by J Green, to change Fair Park back to a high school. Dr. Douzart stated that she has said enough and she thanked the Board for whatever decision it makes. Miss Green stated she believes the community has expressed its concerns and Dr. Douzart has as well. She believes the community does not feel like they have had ample time to provide input and she encouraged reconsidering this item. Mr. Ramsey moved, seconded by Mr. Riall, to call for the question. Vote on the motion to end debate carried unanimously. Following the rereading of the motion, vote on the motion to change Fair Park back to a high school failed with Board members Douzart and J Green supporting the motion and Board members Riall, Brown, Poljak, Trammel, R Green, Locke, Rachal, Ramsey, Albritton and Bell opposed.

ANNOUNCEMENTS AND REQUESTS

Miss Green thanked the Communications Department for providing the Top 20 students at Green Oaks a copy of the Caddo magazine with their picture on the cover.

Mr. Green informed the board that on Monday a group of ladies dressed in pink and green from across the country made a trip to Oak Park on a school bus. The bus was filled with backpacks, paper, pencils, pens, uniforms, etc. to present to the students.

Dr. Goree thanked everyone who participated in the Amazing Shake dinner as well as the first Transformation Zone Conference. He announced he was unable to attend due to illness but received very positive feedback on the event. Contrary to popular belief, Dr. Goree said there are amazing things happening in Caddo’s most struggling schools and a group of individuals from all across the country visited Caddo to see what we are doing to help students and the progress made.

EXECUTIVE SESSION

Student Readmission Appeals. *Mr. Ramsey moved, seconded by Mr. Rachal, to go into executive session for up to 20 minutes for the purpose of hearing student appeals. Following a five minute recess, the Board went into executive session at approximately 6:57 p.m. The Board went back into open session at approximately 7:03 p.m.*

Ms. Trammel moved, seconded by Mr. Green, to approve readmittance of Student NM back into the School System. Vote on the motion carried unanimously.

Ms. Trammel moved, seconded by Mrs. Poljak, to amend the expulsion of Student CSS to end at the end of this school year. The parents are in agreement. Vote on the motion carried unanimously.

Adjournment. *Mrs. Bell moved, seconded by Ms. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:07 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

April 4, 2017

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, April 4, 2017 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and Dottie Bell and Steve Riall present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Mrs. Poljak led the prayer and Pledge of Allegiance.

President Locke began the meeting by stating that during the last few meetings there has been some confusion with the proper use of actions taken during our meetings. For the sake of following policy as well as being mindful and respectful to the staff, the public, and fellow board members, she feels it necessary to review some of these actions. After reviewing the policies and *Roberts Rules of Order* and asking Mr. Abrams to provide proper explanations. The first area, "Point of Personal Privilege", and the correct use of "Point of Personal Privilege" is the following: if a situation is effecting the comfort, convenience, integrity, rights or privileges of a meeting or of an individual member, for example noise, inadequate ventilation, computer not working, clock not working, speakers failing, and introduction of confidential subject in the presence of guests, then a member can raise a "Point of Privilege", which will permit him/her to interrupt pending business to make an argument, statement, request or motion. If the matter is not simple enough to be taken care of informally, the chair rules as to whether it is admitted as a question of privilege and whether it requires consideration before the pending business is resumed. A "Point of Personal Privilege" may also be used to seek permission to present a motion of an urgent nature. "Point of Personal Privilege" is not to be used as a method of violating board policies and procedures. Under Board Policy BCB it states that all School Board members shall be respectful and display common courtesy to each other in all their dealings with each other, with School Board employees and with the public. In order to make sure procedures are being followed and not abusing the "Point of Personal Privilege", she asked each Board member who believes he or she needs to raise a "Point of Personal Privilege" for any of the above to state, "I would like to raise a Point of Personal Privilege", and she will then ask the members what is the privilege. Statements that are not urgent will not be allowed. The proper time to discuss an item is during the discussion and argument regarding an item when it is before the board for discussion. Furthermore, she will rule out of order any statements that are disrespectful to School Board members, school employees, including the Superintendent, and the public. As far as "Point of Order", it is difficult to preside over a board meeting. She would appreciate Board members not talking or attempting to get her attention during the meeting. If a Board member feels that something is out of order, please call "Point of Order". At that time, we will address your concern. When a situation does not fall under our Board policies and/or *Roberts Rules of Order*, she reminded everyone that it is at the discretion of the Board Chair to make the decision as to what will be allowed. It is the Board's responsibility to treat these actions with respect and follow the guidelines set forth. As a reminder, she asked Board members to refer to their booklet provided earlier this year that not only includes the Code of Ethics the Board approved and agreed to abide by, but all the governing policies and proper procedures. As always, she said she appreciates the Board's support and that Board members should feel free to contact her if interested in discussing further. Thank you.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE APRIL 18, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its April 18, 2017 meeting and the following discussion ensued.

Capital Projects Bids. Miss Green asked staff to explain replacing Byrd's north bus loop, and Mr. White explained that this bus loop enters and exits on Kings Highway and the panels that make up this bus loop are failing and faulting big pot holes in it. This loop is between the parking lot put in last year and the science building, and encompasses only one-half of the drive (the exit side near the science building). Miss Green said she remembers work was just done at Byrd, and Mr. White explained a parking lot was done to expand the parking at Byrd.

July Board Meeting Date. Superintendent Goree stated that in past years the Board has elected to do one meeting in July, and this year staff is proposing that July 25th (4th Tuesday) be the date for the July meeting.

Surface and Subsurface Agreement for a Well Site by Chesapeake Operating LLC. In response to Mrs. Bell's request for clarification, Steve White stated that Chesapeake is interested in a one-acre school house tract (Whitehall) that is off of Hwy. 769 in SW Caddo Parish. At this time, Chesapeake is only interested in the surface rights and they will put a mega pad there that will encompass a portion of Caddo's one acre and other properties that adjoin it. They are not looking for the mineral rights. This property adjoins the Veterans Cemetery.

Miss Green asked if we know how much money we will receive, and Mr. Woolfolk said the lease is a one-time fee of \$7,500 to lease the surface rights. Miss Green asked how long do they wish to stay, and Mr. Woolfolk said five years. Miss Green asked if she understands they will pay us \$7,500 for five years for Caddo's one-acre plot of land. Mr. Woolfolk clarified that it is not for the entire acre, but only .57 acre. Miss Green asked if Mr. White believes this is a good deal, and Mr. White responded that he has been here approximately 18 years and no one has shown any interest in this piece of property; and while there is no access to it, we are receiving something.

Mr. Rachal asked Dr. Goree if this property was listed in the information presented to the Buildings and Grounds Committee. Mr. White explained it was listed in the Parsons Study under "other" properties, and there are approximately eight or nine one-acre pieces of property that were one-acre school sites. Mr. Rachal stated when the Buildings and Grounds Committee met he did not remember seeing this in the breakdown. Dr. Goree said staff can pull this information to make sure it is listed.

Request for an Oil, Gas, Mineral Lease for Arkoma Louisiana LLC. Mr. White explained that this is a mineral lease on the property "Springhill". This property was sold in 1974; however, CPSB retains the mineral rights. Arkoma Louisiana LLC is proposing to go to the State Mineral Board to lease the mineral rights from CPSB. Mrs. Bell asked if CPSB will receive any money for this and how much? Mr. Woolfolk explained that when Arkoma goes to the Mineral Board, it is bid out, but Caddo can say we will accept no less than \$1,500 an acre and 25% of the mineral rights. This lease also is for one acre.

Mrs. Poljak asked if the minimum bonus is if there is another Haynesville Shale and we would not be stuck at that price. Mr. Abrams further explained in this request, Caddo is saying it will accept no less than \$1,500; and if it goes to the Mineral Board, there will be other bidders and it could go higher, but that is the potential and why it goes to the Mineral Board.

General Fund Line Item Transfer. Mr. Rachal asked that this item be explained, and Dr. Goree said it is a movement of money from one art account to another art account, which requires Board approval. He explained the request from Art Supervisor Henry Price is to move dollars from the M&S account into the inservice account. Mr. Rachal asked staff to provide him with information on what type of inservice. Dr. Goree assured the Board that this is a request for better use of the funds in art.

Servitude Agreements for City of Shreveport Sewer Improvements. Mrs. Bell asked if we still own M. J. Moore? Dr. Goree said we do still own M. J. Moore, and this request allows the City to go on our property to maintain and make corrections/updates on the sewer lines.

Mrs. Locke announced that the following are the consent agenda: Items 7.01, 8.02-8.07 and 13.02. *Mrs. Bell moved, seconded by Mr. Riall, to approve the agenda and proposed consent agenda for the April 18, 2017 CPSB meeting as presented. Vote on the motion carried unanimously.*

ANNOUNCEMENTS

Mrs. Bell thanked everyone who participated in the Autism Super Hero Run on Saturday, April 2nd, to raise funds for 25 autistic students to travel to Washington, D.C. Mrs. Bell also reported on her visit to the Shreveport Fire Department to learn what a firefighter does on a daily basis. Ms. Trammel also commented on the Autism Super Hero Run and what a wonderful event it was for the children.

Mrs. Locke commended Rosetta Boone for the outstanding job in planning the 25th Career and Technical Education Employer Appreciation Banquet. This banquet was run by the students, and she learned how many companies in the community that not only employ but mentor our students. She asked that the names of these companies be sent to the staff as an encouragement to use them when appropriate and thank them for investing in Caddo's students. She also stated that on March 30th, she and Ms. Trammel attended the United Way Annual Awards Luncheon at which Caddo Parish Schools was recognized for being in the Top 5 companies of giving to the United Way. She announced that the Dolly Parton's Imagination Library, a program Dolly Parton started in her community, is now offered in this area; and preK children who sign up will receive a book in the mail every month to help build their reading skills.

Mrs. Brown asked that Board members who are interested to make a donation to students who are raising money to make a school trip.

Superintendent Goree announced that the process has begun to implement those things related to Transformation Next in order to be prepared for the innovative changes in schools for next year. He also stated the Innovation and Transformation Officer position is currently posted, and wished Mr. Snow well as he transitions to the Chief Transformation Officer in Dallas ISD. Dr. Goree also addressed the establishment of an Advisory Council that will work with he and the State Superintendent in an advisory role for the work being done within the Transformation Zone. He explained a protocol will be established and posted to Caddo's web site on Wednesday and there will be a one-week period for citizens in Caddo Parish to nominate themselves or be nominated to be a part of this committee. At the end of that week, State Superintendent White and he will go through the applicants and determine who the seven persons will be to fill this advisory role.

Ms. Trammel asked Dr. Goree if those involved in the advisory council will be in the education area? Dr. Goree said the only requirement listed in the plan is that they live within Caddo Public Schools; and attention will be given to having persons who represent the communities involved on the committee as well as those who live outside the community who will bring great value to the conversation of moving this work forward fast.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:07 p.m.*

April 18, 2017

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, April 18, 2017 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Jasmine Green, Margaret Brown, Susannah Poljak (via telephone conference), Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

2017-18 CONSOLIDATED ANNUAL BUDGET

Superintendent Goree noted the purpose of today's budget discussion is to begin the conversation around educational opportunities for Caddo students, and he highlighted the pay raise timeline to date as follows:

- In July 2016 at a retreat, CPSB listed pay raises as the top priority.
- Between September and December 2016 staff began looking at all possible funding sources for pay raises within the current dollars.
- In January 2017 staff presented to the Board in an Insurance and Finance Committee an initial option of all possible funding sources.
- Between February and March 2017 additional planning and input took place by meeting and talking to stakeholders and further looking at comments from the Insurance and Finance Committee meeting.
- April 18, 2017 is the first formal budget work session and presentation on how staff believes these goals can be accomplished.

He further highlighted the need for employee pay raises in providing all students with highly qualified teachers, increasing high quality educational opportunities for all students, and retaining and rewarding all employees. Everyone plays a vital role in providing a quality education for all students; and in looking at what neighboring districts are doing, Caddo must remain competitive so it can provide these opportunities for people to work in Caddo.

Jim Lee, chief financial officer, shared an overview of possible funding sources for employee pay raises, including additional revenue, additional savings, and diversion of future funding for insurance reserves as a result of medical management savings. Some additional revenue sources, even though small, are savings from Caddo's participation in the Child Nutrition Community Eligibility Program. This savings comes from participation by all students in all schools, except the traditional 9-12 high schools, eating breakfast and lunch free. This additional revenue will go to the Child Nutrition Program and not directly to the General Fund. He further stated that it was explained at the last meeting that it is only necessary for Caddo to provide Child Nutrition allotted MFP funds of approximately \$320,000, but in the current year, the District provided Child Nutrition approximately \$2.2 million to help them.

He added that the Community Eligibility Program will provide in excess of \$1 million in additional revenue this year by reducing their MFP allocation by \$1,000,000 and retaining this amount in the General Fund which can be used for any purpose and staff proposes using it toward a pay raise.

Mr. Lee stated that Caddo currently bills Medicaid for services to special needs students and receives an excess of approximately \$2 million annually. He explained we will now begin billing Medicaid for the transportation costs as long as their IEP indicates that the student receives services from Caddo and requires transportation. Preliminary numbers at this time indicate this could generate additional revenue in the amount of \$300,000 to \$1 million; and

since this is an unsure source, staff is taking the very conservative approach and estimating approximately \$300,000 for next year.

Because the above adjustments do not meet the needed recurring amount, he explained that additional savings are being looked at through a reduction in staffing numbers which could generate additional savings of \$3 million.

Randy Watson, director of insurance, shared with everyone potential savings in the District's healthcare program that could be used to help fund a pay raise. Being a self-funded plan, claims are funded (paid) from the District's insurance reserves, and the reserves are funded by premiums. He explained that if the District saves money, it goes into reserves and if it is costing the District more, it becomes necessary to increase premiums. Mr. Watson cautioned everyone that the information he is presenting today is based on projections the same as with every renewal. Mr. Watson highlighted graph charts on drug claims, medical claims, trends, and changes made to improve the plan, explaining how pleased staff is with the positive direction as a result of medical management changes all of which did not cost the members or the plan any additional money.

Mr. Watson explained the trends for the past three years, changes in out of pocket expenses and the fact that an increase in out of pocket expenses does not change healthcare inflation but only shifts who is paying the expenditures. He also highlighted Quality Blue, a new program implemented whereby Blue Cross loads their software on the doctor's computer, so the insurance company can monitor results. If they get better blood sugar or blood pressure, etc., they will receive additional money, and it is a change in the way reimbursements are done (good results mean more money than if you do not get good results).

Mr. Watson further explained the evaluation of the drug and medical claims, that cost has improved and that each year we have seen fewer monthly reserve deficits, and how it is believed that these future reserves could be used to help fund a pay raise. However, instead of doing this, staff proposes the following with these potential monies: (1) partially fund a pay raise, (2) mitigate out of pocket expenses for the next plan year (any need to increase out of pocket expenses will be funded with these reserves), and (3) mitigate premium change until March 2019 for all members. He noted that there will be a need to be cautious and he shared projections through March 2019 and what would happen if the inflation trend was 5%, 7% or 9% (with 9% being a worst case scenario) and the premium increase that could possibly be seen with each of these trends. Mr. Watson stated that the recommendation for the coming year is to use a one-time \$5 million to help fund pay raises at the beginning of the coming year; and if over the next two years the reserves grow for future claims, the reserve would be back to its current amount. He added staff believes there should be a minimum \$10 million in reserves. He summarized that while out of pocket expenses could be increased, this would increase short-term savings and possible higher costs down the road. While premium increases are vital, they do not affect the cost of health care but help cover the cost. He reiterated that recent outcomes in medical management have resulted in exceptional growth in the healthcare reserves in the last 8 months; and if medical management changes continue, it is believed the reserves will maintain stabilization and allow us to divert future funding of the reserves that could go toward funding the pay raise. An added benefit is keeping the out of pocket expense and premium at the same level through next year. However, he cautioned there are always a lot of unknowns and the need to adjust premiums and out of pocket amounts if claims exceed premiums and reserves are severely affected.

Dr. Goree highlighted the summary of total revenue/cost savings for funding a 5% pay raise as follows: healthcare savings - \$8,000,000; increased revenue from child nutrition MFP funds - \$1,300,000; and staffing allotments - \$3,000,000. He stated he believes this is a well thought out opportunity after many different discussions over the past year and one that will not only reward

our employees but will continue to offer all employees and retirees the opportunity to get preventative care. In the timeline, Dr. Goree reported on opportunities for stakeholder groups to talk to Mr. Lee and/or Mr. Watson, information which Mr. Watson and Mr. Lee used to develop the plan being presented today and that will be presented at the work session in May for a possible vote at the regular meeting on May 16th.

Mr. Rachal asked for clarification on additional revenue in the Child Nutrition Program and the requirement to put in \$321,000 but we are allocating \$2.25 million, an excess of \$1.95 million. Mr. Lee confirmed that is correct and we have always provided an excess of the required amount. Mr. Rachal asked about the \$1.95 million in excess funding and the statement that we can do \$1 million. Mr. Lee explained while we could do more than \$1 million, it is important for them to continue to operate and Child Nutrition will also provide the cost of the pay raise for the Child Nutrition employees. Mr. Rachal asked about the numbers for Child Nutrition to fund CNP employees' pay raise? Mr. Lee responded the ballpark amount is between \$300,000 and \$400,000. Regarding the Medicaid transportation cost, Mr. Rachal asked when was this Medicaid program implemented, and Mr. Lee responded it was approved this year for implementation in the next school year. Mr. Rachal also asked to see the details on the savings when correcting the overstaffing. Dr. Goree stated that in right-sizing the District and consolidations of schools will help in this regard because a lot of the staffing will be in the smaller schools as a result of having 35 kindergartners and needing 2 teachers rather than one. He also said that corrections have been made in the last few years to address some of the overstaffing in the administrative staffs and staff will continue to look at this. Mr. Rachal asked if staff could look at numbers further back and where we are now. Mr. Rachal asked if he understands correctly that today is addressing how a pay raise could be funded, but we have not looked at the rest of the budget and will there be additional budget saving items. Dr. Goree explained that this is what staff is recommending as the only savings/opportunities to reduce costs this year to fund a pay raise; and when looking at some of the plans in the Strategic Plan for the next year, some additional savings will be seen. Dr. Goree further stated an example would be vacant buildings/off-line schools and how they will be managed in the future.

Mr. Ramsey stated he will need to see a little more total budget because it is obvious we will not receive an increase in MFP so he believes we are putting all our positive revenue in one basket; and the overall budget is going to be sound and perform at a level we need to get through the next school year. Mr. Lee stated that this will be a big part of the entire budget process. Staff's plan is to bring the possibility of a pay raise to the Board for action as the Board's decision will determine how we move forward in bringing a balanced budget to the Board for approval. Dr. Goree stated that a part of this is time sensitive since neighboring districts have approved pay raises so they can begin their teacher recruiting efforts for next school year and a part of the conversation is our need to remain competitive in this area; and he agrees with Mr. Lee's statement that staff will return to the Board with a balanced budget. Mr. Ramsey said while we could possibly gain more savings by changing the staffing formula, he prefers leaving the staffing formula constant for a few years before changing again. He also stated it looks like we are keeping a comfortable reserve for the health plan and he appreciates this. Relative to the school lunch program, he referenced past discussions on funding appropriate lunches for students and how will cutting in this area affect the lunch program. Mr. Lee stated that the District will receive in excess of \$1 million through the Community Eligibility Program and we have not received this in the past. Mr. Ramsey asked if there are any projected price increases on the lunches. Dr. Goree explained that the Community Eligibility Program provides free breakfast and lunch for all students in preK – 8th grade. Because of the increase in participation, it is anticipated that our returns will be greater and this has created some savings in this area. Mr. Ramsey referenced the note that all employees are guaranteed a flat rate in premiums and out of pocket until April 2019, and Mr. Watson said that is correct and the process for determining adjustments will continue to be followed and brought back to the Board. Mr. Ramsey said knowing that this is something we have done and will continue to do, he questioned what impact

the Health Care Act will have this year and next year if it doesn't change. Mr. Watson said it should be very little as he built in any possible impact, and the District avoided \$3-\$4 million in taxes by going self-funded. He also said the life-cycle of the reinsurance tax (approximately \$2 million) has run its course. Mr. Ramsey asked if additional fees include the taxes on the social security and Medicare benefits, and Mr. Watson confirmed that is correct and it is a global (Federal) adjustment. Mr. Watson also explained that these changes have nothing to do with employee pay raises but are things staff has done for years to be pro-active; and now be able to take advantage of good medical management and the unified support of the Board, the retirees and active employees to make these changes. Mr. Ramsey asked about last year's premium increase and Mr. Watson responded it was 5% and the surrounding parishes were all in the double digit increases.

Mrs. Bell expressed her appreciation to Dr. Goree, Mr. Watson and Mr. Lee and asked staff to clarify the \$25 million reserve. Mr. Watson explained that premiums are adjusted to keep the range of the reserve between \$10 and \$12 million; however, the results of aggressively implementing medical management changes have doubled that amount. She also asked if she understands there will only be a portion of the reserve to help with the pay raise. Mr. Watson explained that they are only recommending a one-time \$5 million withdrawal this year; and instead of funding the employer's share, the medical management changes will take care of it. Mrs. Bell summarized that she understands this proposal to be one that will not increase health care costs for retirees or any employees for nearly 2 years and is one that will help not only the teachers but all employees. She also asked about the Child Nutrition Program and opportunity to feed these students every day for free and the money saved will help fund the pay raise. Mrs. Bell noted that her awareness that some schools are overstaffed and she wants to make certain her schools receive what they need, but what staff will be doing is adjusting where people are. Dr. Goree added that staff is looking at the current staffing ratios and working to keep those within the staffing formula. He said it is easier to do when there are a large number of students at a school, but it is the smaller schools with special situations. Mrs. Bell also noted a newspaper article relative to districts cutting art programs and teachers because of a lack of funds and her appreciation for staff's hard work.

Ms. Trammel asked about concerns expressed to her that a pay raise would not include the full staff, i.e. librarians, and if this passes, will everyone be included in the pay increase. Dr. Goree confirmed that a raise would be inclusive of all employees, because Caddo sees the value in what everyone does to educate a child. He also clarified that the conversation around librarians might be that one proposal in the January presentation when staff presented everything possible that could possibly be cut, and librarians were mentioned. After much conversation about this national trend, it was decided that this was not the direction Caddo needed to move in, so there is no recommendation to remove librarians from Caddo's campuses. Ms. Trammel asked about projections and what will happen if there is a need to fall back to before the pay increase to be able to pay the expenses. Mr. Watson stated that in the event something happened, the District is immediately covered by very healthy reserves, so there will not be an immediate need to make any changes. In moving forward, this could happen at any time since we do not know what kind of claims will be processed tomorrow, but this is why we have the reserves. He also reiterated what caused the reserves to grow – drug and medical management which staff will continue to watch it and report back to the Board innovative solutions. Ms. Trammel thanked Mr. Watson for keeping a watchful eye on this benefit. In order to be prepared, she asked Mr. Watson if he will notify them near the 2-year period of any possible changes. Mr. Watson reported that they will continue to bring reports to the Board via the Insurance and Finance Committee.

Mr. Lee reminded everyone that there will not be a premium increase in the fall; however, next fall it does not mean staff will not be bringing renewals to everyone.

Dr. Dauzart expressed thanks to Dr. Goree, Mr. Lee, Mr. Watson and all the work they have done as well as to everyone who came out for the meeting today.

Mrs. Brown shared that last summer when she was hospitalized and having a difficult time, Mr. Watson took care of what she needed. She also asked if, when business fluctuates in the Nation's Capital and our money is cut off from the Federal government, has anyone looked at what could happen. Mr. Lee responded that as far as the pay raise, staff has not looked at it directly; however, they will as they do every year at budget time. With Federal funds declining each year, he is completely aware that there is a need to take this into consideration; and each fund that is tied to employees, i.e. Title I, is required to provide the funding for their employees.

Mrs. Locke asked about the staffing formula and that this is something we normally do to save dollars. Dr. Goree explained that is correct and last year when faced with similar budgetary concerns, there were some adjustments made to the Staffing Formula; and that is something that has probably been done 2-3 times in the past 5 years. Mrs. Locke asked if the staffing formula applies to Central Office, and Dr. Goree explained there is no staffing formula for Central Office; however, he can provide the Board with reductions that have happened within Central Office. He also noted the percentage of dollars spent on Central Office and how competitive Caddo is in outperforming many of the districts Caddo is compared to. Mrs. Locke noted the importance of sharing this information with the public, and she extended appreciation to staff for listening and working hard to present this option for funding pay raises. She also asked about information distributed out of context, and asked Mr. Watson to explain how he works directly with the Board via public meetings. Mr. Watson noted that the Board has had different structures for handling issues and he believes it was under Larry Ramsey's leadership that the committee structure was implemented which increased the number of contacts staff had with the Board. Rather than coming in one meeting a year to look at insurance renewals and other important items, these things are presented periodically to the committee and to the Board. Recruitment and retention with benefits is something the Board challenged him and when this happened, staff was challenged to bring any possible ideas, not just what would work and what would not, but anything. When staff brought the directives to the Committee in January, these were not things that staff was behind, but the Board was not either, as there was no discussion.

Mr. Watson explained that it is staff's job to help the Board make an informed decision, and as a result, the Board is presented with the good, bad, and the ugly to consider in making its decision. He also stated that all the employee organizations and the retirees were included in the presentation for their input.

VISITORS

Lonnie Dunn, retiree since 2002, shared that retirees have never been against a teacher or staff pay raise and have always been supportive of pay raises in the school system and supportive of improving schools in Caddo Parish. He said retirees have sacrificed a lot to help the school system get to where it is. He said many of them went into education to help children as well as to take advantage of the retirement system and the insurance program available. He thanked Randy Watson for the work he has done to keep the insurance program where it is as the best possible insurance program for active and retired employees. Mr. Dunn noted that those in the audience were a part of the school system during desegregation in 1970 and there was turmoil in the parish during that time. He stressed that the main thing retirees do not want the Board to do is change the insurance to the point it impacts the people who have helped this system the most.

Jerry Paige stated his concern over something in the newspaper but after hearing the presentation he does not believe it necessary to address that. He shared his history in the Caddo system and the retirees continued support of the active employees and understanding that without highly qualified teachers in the classroom, Caddo will not be able to meet its Mission Statement. He

stated his and other retirees' support of the pay raise for employees and thanked Mr. Watson for continuing to keep the retirees updated on the insurance and changes.

Jackie Lansdale, Red River United, shared her memory of 1995 when there was a pay raise needed and there was no money. She said they worked with the Board and went to the public and was successful in receiving a 10% increase for teachers and a 6% increase for support employees. Since that time the RSD, charters, vouchers have come into the picture taking money from Caddo's budget. Also MFP was frozen, the public ceased to support public education, and the Board has not rolled forward taxes in many years. She said new teacher pay in Caddo is the lowest of all the districts in this area; and as a result, last year there was a turnover rate of new teachers that totaled 196 and Red River had 8 which amounted to a loss of almost \$2 million when new teachers need to be replaced and retrained. She thanked the Board for supporting this.

Rob Broussard congratulated Mr. Watson and Mr. Lee for going back to the drawing Board and revising the proposals previously presented to the Board. He has always supported a pay raise for teachers and he believes staff has come up with a way to make this happen. He added he believes there are some ways to generate additional savings and strongly suggested a cap on the raise for employees making over \$75,000 (which is an amount that is not written in stone). Mr. Broussard also stated that he has requested FOIA on the operational costs for all the schools because he believes there is more money that can be saved in the operational costs that could be directed to teachers. Finally, he said with the last proposal made, it came out and he thanked the retired teachers for getting active and making calls to the Board in this matter.

Emma Sheppard, president of the Caddo Retired Teachers Association, thanked, on behalf of the retired teachers association, the Superintendent and staff for seeking options that would not put retirees on the path to poverty. She said the retirees support active employees getting a much deserved pay raise and the previous information received seemed to put the groups at odds. She said they want to see a pay schedule that reflects the commitment the Caddo Parish School Board has to attract, recruit, and retain the best qualified and certified teachers and employees. She also stated the retirees want to feel as if the contributions they made actually did make a difference and that they worked hard to build a sustainable foundation, and they worked hard to build the benefits they received. They commend the staff who worked on these recommendations and recognized the importance of every person, active and retiree. If passed, Mrs. Sheppard said it is believed the recommendations will allow retirees to save dollars for a minimum two years. She expressed appreciation to the staff who worked on this proposal, and encouraged the Board to consider the presented recommendations.

Denee' Locke recognized former CPSB Member Lola May who was present in the audience.

There being no additional business, Mrs. Bell moved, seconded by Ms. Trammel, to adjourn the meeting. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:35 p.m.

April 18, 2017

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, April 18, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mrs. Poljak led the prayer and Pledge.

CONSIDERATION OF MINUTES OF THE MARCH 21, 2017 AND APRIL 4, 2017 CPSB MEETINGS

Mrs. Bell moved, seconded by Miss Green, to approve the minutes of the March 21, 2017 and April 4, 2017 CPSB meetings as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Diane Atkins, chief human resource officer, on behalf of the board, recognized the following staff members and students for recent achievements. President Locke and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Administrators, family and friends present were recognized.

Oak Park Elementary Middle School Choir. Members of the Oak Park Elementary Middle School choir (grades 4-8) under the direction of Mr. John Collins performed the musical selections "It's Me" and "Great Day" both arranged by Mr. Collins.

Academic Exchange Program. Mr. Steven Caldwell, who currently works as a nuclear program manager at Barksdale Air Force Base, places international high school exchange students with families in the Shreveport-Bossier area. Mr. Caldwell introduced the following six students who currently attend Caddo schools and participate in the Foreign Exchange Program: (1) Noor Ashir, Palestine (Gaza Strip), Caddo Magnet HS; (2) Tala Vage, Qatar (originally Syria), sophomore at C. E. Byrd; (3) Arini Babuci, senior at C. E. Byrd; (4) Katrina Haluschka, Ukraine, Southwood HS; and (5) Uliia Turktelova, Muldova, junior at Southwood HS. He noted these students are sponsored in the program, which means they competed in their country, and the Department and State pay their tuition, etc. to attend school in the United States.

All Academic 4.0 Scholar Composite Girls' Basketball Team. The Louisiana High School Athletic Association All Academic Award Program recognizes the academic excellence of senior student athletes who have a 3.5 grade point average by placing them on the composite "All Academic Team". To earn this honor, a student must have at least six semesters of GPA on an unweighted 4.0 scale, and cannot have a B on their transcript. Under classes are not considered. C. E. Byrd High School student Carmen Ann Rogers was recognized for receiving this award.

2017 National Field Archery Winner. Emily Partin, senior at C. E. Byrd HS, placed 9th out of 20 student athletes from around the country at the 2017 National Field Archery Association with a combined score of 572 points out of 600 in two days of shooting. Mrs. Atkins stated Emily placed or won in the Top 5 in every competition in the last five years.

2017 Caddo Parish Schools Students of the Year. District winners in the 2017 Caddo Parish Schools students of the year were recognized as follows: (1) Shalyse Harris, South Highlands Elementary Magnet School; (2) Emilee Claire Davis, Donnie Bickham Middle School; and (3) Ashley Solberg, North Caddo High School. Emilee Claire Davis was also recognized as the Regional Student of the Year winner.

Louisiana State Science and Engineering Fair Winners. The following Louisiana State Science and Engineering First Place Senior Division winners from Caddo Magnet High School were recognized: (1) Alicia Smith (Senior) whose category was Animal Sciences and her topic was "Erasure of Neural Extracellular Matrix to Ameliorate Aging-Dependent Cognitive

Decline”; (2) Sunjay Letchuman (Junior) whose category was Biochemistry and topic was “Synthesis of a Fusarochromanone Analog and its Efficacy in Treating Triple Negative Breast Cancer”; (3) Rohinton Dissabhoy (Freshman) whose category was Computational Biology and Bioinformatics and topic was “Alterations in Zika Virus Glycoprotein that Infects Humans Susceptibility to Infection”; (4) Matthew Willis (Junior) whose category was chemistry and topic was “Watching Paint Dry: How Metal Additives Affect the Oxidation of Linseed Oil”; (5) Christopher Ferrier (Junior) whose category was embedded systems and topic was “The Effect of Distance on the Ability of a Condenser Microphone and LM386”; (6) Tobias Kallenberg (Junior) whose category is Energy: Chemical and his topic was “The Effect of the Complexity of Organic Media on the Output of Microbial Fuel Cells”; and (7) Lawrence Chi (Sophomore) whose category was Mathematics and his topic was “Mediation Analysis of Payer Status on Survival of Stage III Colon Cancer Patients”.

National Interscholastic Athletic Administrators Association Certified Athletic

Administrators. Laura Addington, Athletic Director at Caddo Parish Magnet HS, was recognized for earning the title of Certified Athletic Administrator by the National Interscholastic Athletic Administrators Association.

Living Our Mission Award. The following 2017 winners of the “Living Our Mission Award”, funded by the Ivan Smith Family Fund at the Community Foundation, were recognized: 1) Rosie Cash, teacher at Werner Park; (2) Alicia Olivier, teacher at Sunset Acres; and (3) Shelia Gladney, principal at Mooretown Professional Development.

VISITORS

Jackie Lansdale, Red River United, stated their organization represents three parishes (Caddo, Bossier and Red River) and began in Caddo in 1996. She said they have worked hard to build a viable organization with over 3,000 members; and she shared that Red River United is the largest in Louisiana and in Caddo; as well as one of the largest non-collective bargaining units in the South. She also noted how their mission in some ways blends with Caddo’s mission. It is the Caddo Parish School Board’s responsibility to oversee the budget (modify and make recommendations); and hopefully pass it; and knowing that new teachers in Caddo Parish are the lowest paid, they noted to the Board the turnover rate and the cost to the District; and the Board and the administration looked at this to come up with possible solutions for a salary increase to help in this area. With both wanting the very best education for the students in Caddo Parish, Mrs. Lansdale stated they are very grateful that the Board listened to their input. She further stated that they are also disappointed in the naysayers and they do not understand why we don’t move beyond this and do what is good and right for the District.

Jon Glover referenced Sunday’s article in *The Times* and asked the Board what is the truth. She stated the article addressed specifics as it relates to employment; and if the information is not accurate, where did it come from. She believes someone divulged such extensive information; and then referred to it as misinformation and divisiveness. As a constituent in Caddo Parish, she finds the need for transparency to again be at the utmost height. In planting seeds, she questions if any thought of cultivating or roots taking control was considered. She said we should all be about the education of children and with such misinformation, she asks what does this do for furthering the academic success of Caddo’s children.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the proposed items for the Board’s consideration and the following discussion ensued.

President Locke announced that Items 6.02-6.03, 7.01-7.02, 8.02-8.07 and 13.01, 13.02 (DP, AC, NJ, and ZR), and 13.03 are the Consent Agenda.

Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and consent agenda for the April 18, 2017 CPSB meeting. Vote on the motion carried.

Mrs. Bell moved, seconded by Ms. Trammel, to confirm the consent agenda. Vote on the motion carried. The following is a summary of the Board's action on consent agenda items.

Item No. 6

6.02 Personnel Transaction Reports-Resignations-March. The Board approved the personnel transaction reports (March resignations) as recommended by staff and submitted in the electronic mailout.

6.02 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

Item No. 7

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Multiple vendors for the purchase of Food, Fish, Meat and Specialty Items; and (2) Multiple Vendors for the purchase of Food Service Paper and Supplies. *The bid tabulation sheets are filed in the original papers of the April 18, 2017 CPSB meeting.*

7.02 Capital Projects/Construction Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) ELA Group, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$1,790,595 for Project 2018-101, "Linear Renovation"; (2) The Payne Company, with a Base Bid, for the sum total of \$344,500 for Project 2018-303, "Donnie Bickham Add Chiller for Redundancy"; (3) Whitlock & Shelton Construction, with a Base Bid and Alternate 1, for the sum total of \$451,000 for Project 2018-210, "Claiborne Elevator, Phase I"; (4) Camus Electrical Company, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$314,534.00 for Project 2017-411, "Central Office Data Upgrade"; (5) Thermo Technics Air Conditioning, Heating & Refrigeration, Inc., with a Base Bid, for the sum total of \$199,400.00 for Project 2018-302, "North Caddo Boiler Replacement"; (6) Martin Construction, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$151,426.00 for Project 2018-219, "Eighty-First Ceiling"; (7) 3 Gen Construction with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$348,711.70 for Project 2018-213, "Byrd Replace North Bus Loop"; and (8) The Payne Company, with a Base Bid, for the sum total of \$227,500.00 for Project 2018-304, "Judson HVAC, Phase I". *The bid tabulation sheets are filed in the original papers of the April 18, 2017 CPSB meeting.*

Item No. 8

8.02 Out of State Travel. The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 July Board Meeting Date. The Board approved holding only one meeting in July and that the meeting will be held on July 25, 2017.

8.04 Surface and Subsurface Agreement for a Well Site by Chesapeake Operating LLC. The Board approved the resolution and surface and subsurface agreement for a well site by Chesapeake Operating LLC affecting one acre in Section 20, Township 15 North, Range 12 West as submitted in the electronic mailout. *A copy of the resolution is filed in the official papers of the April 18, 2017 CPSB meeting.*

8.05 Request for an Oil, Gas, Mineral Lease for Arkoma Louisiana LLC. The Board approved the resolution allowing the Caddo Parish School Board to enact with Jason Sneed's (Arkoma Louisiana LLC) request to lease the one-acre tract described in the resolution and submitted in the electronic mailout. *A copy of the resolution is filed in the official papers of the April 18, 2017 CPSB meeting.*

8.06 General Fund Budget Line Item Transfer. The Board approved the line item transfer to the 2016-17 General Fund Budget transferring \$10,000 from the Art M&S and Equipment Account to the Art Inservice Account as submitted by staff in the electronic mailout.

8.07 Granting of Servitude Agreement for City of Shreveport Sewer Improvements. The Board approved the servitude agreements for the City of Shreveport sewer improvements as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Request for Settlement Authority – Gloria West vs. CPSB, Docket #588,115-B, 1st Judicial District Court, Caddo Parish, Louisiana. The Board authorized resolution as recommended by staff and submitted in the electronic mailout.

13.02 Student Readmission Appeals. The Board approved staff's recommendations for Students DP, AC, NJ and ZR whose parents are in agreement.

13.03 Lariana Graham Taylor, Claim #35668953. The Board authorized resolution as recommended and submitted in the electronic mailout.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that proposed attendance zone changes for school changes approved by the Board are attached for the Board's information.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal reminded everyone that on Thursday, April 20th at 6:30 p.m., the Caddo Career and Technology Foundation will award 37 \$2,000 scholarships and he encouraged Board members to attend. He also announced that 105 Caddo Career and Technical Center students were inducted into the National Technical Honor Society.

Mrs. Bell echoed Mr. Rachal's comments and reported on the state competition that took place in Shreveport this year. She also asked the superintendent if there is a personnel handbook. Dr. Goree explained that each school has a separate book for their individual school and the Board has a Policy Handbook. Mr. Abrams stated that the Board is revising/revamping the Policy Manual and the Superintendent will have his own part of the policy manual.

Dr. Douzart stated that she, Dr. Douzart, did not and has not disrespected Superintendent Goree. At this point, she said she is not speaking. Mr. Ramsey called for a point of order and that policy dictates a Board member should not address any staff or Board members. President Locke noted that Dr. Douzart's comments were out of order.

Mrs. Brown at the last meeting requested help for students at BTW who are traveling to Washington, DC. She said they have done a magnificent job and now need less than \$2,000 to defray the cost of a bus from Shreveport to Dallas. Anyone interested in supporting this should forward their donation to BTW before Wednesday evening.

Mrs. Locke reported she and several Board members attended the Senior Recognition Banquet, and she thanked Mrs. Atkins for a well-organized program and keeping it to an hour.

EXECUTIVE SESSION

Mrs. Poljak moved, seconded by Mrs. Bell, to go into executive session for the purpose of hearing a student admission appeal. Vote on the motion carried, and following a 10-minute recess, the Board went into Executive Session at approximately 5:50 p.m.

The Board reconvened in open session at approximately 6:17 p.m. *Mr. Ramsey moved, seconded by Mr. Green, to approve staff's recommendation for Student YS. Vote on the motion carried with Board member Brown abstaining.*

Mr. Rachal moved, seconded by Mr. Green, to go back into Executive Session for up to 10 minutes for Student BJ appeal. Vote on the motion carried and the Board went back into executive session at approximately 6:20 p.m.

The Board reconvened in open session at approximately 6:53 p.m. *Mrs. Poljak moved, seconded by Mr. Rachal, to uphold staff's expulsion and to readmit BJ early contingent upon his successful completion at AMIKids and upon successful completion of drug counseling as required by District staff. Vote on the motion carried with Mr. Ramsey opposed.*

Adjournment. *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:55 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

May 2, 2017

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, May 2, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

CONSIDERATION OF RFP PROPOSAL FOR E-RATE SERVICES

Ms. Trammel moved, seconded by Miss Green, to approve the proposal of Persidio for the E-Rate Category 2 Networking Equipment as recommended by staff and submitted in the electronic mailout. Vote on the motion carried unanimously.

CONSIDERATION OF CONSTRUCTION BIDS

Mr. Rachal moved, seconded by Mrs. Bell, to approve the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Hamm Mechanical, with a Base Bid and Alternate 1, for the sum total of \$1,176,600 for Project 2018-307, "Turner HVAC, Phase I"; and (2) Mechanical Solutions, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$230,300 for Project 2018-308, "Ridgewood HVAC "C" Wing.

Mr. Rachal asked staff to clarify the bid for Turner and how many phases are in this project, and what is the total for this project. Mr. Woolfolk explained that it is a three-phase project. Mr. Rachal also asked about the timelines for the phases and the budgeted costs for the additional two phases. Mr. Woolfolk responded that he is unsure the exact cost, but it is scheduled in phases since the entire project cannot be completed in one summer. Dr. Goree said staff will provide the answers to his questions.

Vote on the motion carried unanimously. The bid tabulation sheets are filed in the official papers of the May 2, 2017 CPSB meeting.

EXECUTIVE SESSION

Prospective Litigation – Demand on Behalf of Fair Park Alumni Association from Allison Jones dated April 28, 2017. *Ms. Trammel moved, seconded by Mrs. Bell, to go into executive session in the Superintendent's Conference Room for 10 minutes. Vote on the motion carried and the Board went into executive session at approximately 4:40 p.m. President Locke announced that the Board is meeting in executive session in the Superintendent's Conference Room so that the audience can remain in the Board Room.*

The Board reconvened in open session at approximately 4:49 p.m.

ADJOURN

Mr. Ramsey moved, seconded by Mr. Albritton, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:50 p.m.

T. Lamar Goree, Ph.D., Secretary

May 2, 2017

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, May 2, 2017 at approximately 4:50 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and Dottie Bell and Steve Riall present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. The prayer and Pledge of Allegiance were omitted.

PRESENTATIONS

Shreveport Aquarium. Shreveport Aquarium Marketing Director Jake Wood introduced Adria Gibbs, managing director for Planet AquaGroup (parent company for Shreveport Aquarium) who reported that construction of the Shreveport Aquarium in the former Barnwell Center is moving forward with the aquarium scheduled to open at the end of August. She announced there will be 45 part-time positions available, and they will begin conducting job fairs the last two weeks of May. Mr. Wood announced that a full-time educator will begin with the Shreveport Aquarium staff next month and will reach out to community educators in Caddo, Bossier and DeSoto Parishes to help develop curriculum programs that work together with what is happening in science courses. Mrs. Bell shared her excitement about the opening of the aquarium, and she looks forward to being invited to a tour of the aquarium to see what it has to offer not only to the community but for all students in Caddo. Mr. Riall asked about the type exhibits, etc. that will be available? Ms. Gibbs explained that a different environment has been created throughout the aquarium, i.e. shipwreck scene to see what it would look like at the bottom of the ocean, setting up a wetlands, marsh area indigenous to this area in the dome, shoreline tank where people can actually touch hermit crabs, starfish; a tank where people can actually touch jellyfish, and small virtual theater. Mr. Wood noted that the Barnwell Center is approximately 21,000 square feet of exhibit space so the idea behind the design is to create a highly interactive immersive experience one on one. Ms. Gibbs also stated that those visiting the aquarium will go online and obtain a time for their tour so that there will not be overcrowding and visitors can be comfortable and have an optimal experience.

2017 MILLAGE RATES

Chief Financial Officer Jim Lee announced we will be adopting the 2017 millage rates at the June 20, 2017 CPSB meeting.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE MAY 16, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its meeting on May 16, 2017, and the following discussion ensued.

Consideration of Proposed Employee Pay Raise. Mr. Rachal stated that many meetings were held to discuss this and asked that staff summarize the proposal. Jim Lee stated that the recommendation is a 5% across the board pay raises for all employees to be funded by reductions in overstaffing, additional monies from Medicaid transportation, additional MFP dollars that would have gone to Child Nutrition; as well as the one-time use/transfer from the healthcare reserves (\$5 million). Mr. Rachal asked for more background on each of the following areas in which additional revenue will come:

Child Nutrition Program – Mr. Lee explained that Child Nutrition is now participating in the Community Eligibility Program which basically, with the exception of the traditional 9-12 high

schools, provides free breakfast and lunch to all students; and because of the increased participation levels, revenue has increased for child nutrition and that additional revenue should more than offset the reduction in MFP for next year (about \$1 million).

Transportation Costs – Mr. Lee explained that we receive Medicaid for certain services for at-risk students, high need students; and the District can now bill for transportation services. At this time projections are approximately \$300,000-\$500,000 annually, and it will be implemented next year.

Over-Staffing – Mr. Lee explained there are some areas in schools that are staffed above the formula and staff is looking at reducing this number and still remain within the staffing formula. This should account for approximately \$3 million. Mr. Rachal asked if he remembers correctly from committee discussions that this is as a result of some of the consolidation of schools. Mr. Lee said that is correct in addition to the number of administrators (APs) placed at a school.

Healthcare Savings – Mr. Watson highlighted and clarified some of the misunderstandings. He shared that the charts reflect at what point the reserves were growing as a result of more money in than claims paid currently have surpassed present needs. He stated he believes this is a result of medical management changes the Board approved over the past two years, i.e. primarily in pharmacy, but also in medical management. He also explained that each year there needs to be a reserve that can cover any month the monthly premiums do not cover the current claims; and approximately 7 months ago the claims were less than the monthly premiums thus we began to see an over-fund reserve as a result of purchasing health care more efficiently by working with Blue Cross and third party vendors. He added in moving forward, he believes this will be a recurring savings; and rather than bringing an increase to the Board for approval, staff recommended no increase in the premiums for employees and retirees, and there is also no need to contribute employer contributions for the upcoming year. As a result, the savings going into reserves would stay in the General Fund and be used for the pay raise. Again, he stated that relative to the reserves, the District is way ahead of where it wanted to be when it became self-funded. He explained the misconception is we are using reserves for the pay raise, and the future reserve terminology is just that staff is projecting to be over-reserved and will continue to do medical management to make certain that is where we stay.

Mr. Watson further explained that for this year a one-time \$5 million contribution from the current reserves from the employer's share to fund the pay raise for the remainder of this fiscal year; and the employee contribution will be used to mitigate any rate or out of pocket increase, meaning the employees and retirees will not see a rate or out of pocket increase for two years.

Based on the false information being put out, Mrs. Bell expressed her appreciation for the explanation about the one-time \$5 million contribution from the reserves since she heard the Board was taking all the money from the reserves to fund a pay raise. Relative to the pay raise, she stated this is something the Board has been trying to do for all employees, and she appreciates the hard work of staff in coming forth with the proposed recommendation so the Board can show the employees how much they are appreciated. She asked everyone to remember that everything we do is about the children.

Mr. Riall asked staff what is the future of the Federal subsidy for the free breakfast and lunch. Mr. Lee said the percentages of free and reduced lunch used this year are locked in for five years. He also asked about the future of the Transportation subsidy for the SPED children. Mr. Lee explained that staff has been doing other Medicaid billings for as long as he has been in Caddo. Mr. Riall also shared that it seems the District is always over staffed; and when we become understaffed, it seems halfway through the school year we are overstaffed again. Dr. Goree explained that major improvements have been made in the overstaffing situations; and because Caddo is a unique district and has schools that are diverse in size, and small schools requiring

larger staffs, the staff is committed to continuing to make improvements and make sure the budget is a fiscal responsible budget. Mr. Riall stated that the numbers quoted are listed as estimates and he questions, because if the Board approves the pay raise it will have to fund it, what will happen if the predictions beyond two years on the savings on the health care are wrong. Mr. Watson explained every year he projects, after many calculations, what the premiums will be and puts it in the bank. Currently, the District is over-reserved and if the Board wants to provide a pay raise, now is the time to do so; and even though it may not be a 100% sure, it is a reasonable risk with backup plans. He also asked the Board to not be misled because the District still must address the normal healthcare inflation every year, and in 2019 staff will project the claims, and healthcare inflation and necessary adjustments to the premiums and/or out of pocket expenses, but this will not have anything to do with the raises or the money used for it. Originally, he added, it was not a part of the pay raise plan to give employees and retirees a pass on the out of pocket and premiums in 2018, but this is an added benefit.

Mr. Ramsey asked if he is correct that the retirees were most interested in hearing no premium or out of pocket increase, and Mr. Lee responded he hopes that is what they would be interested in hearing. Mr. Ramsey stated this has been the main concern expressed to him and staff has done it right since he has been on the Board and that is maintain the lowest cost and the best healthcare and benefits possible for the employees and retirees. The result has been a savings to the District over the years, as well as savings for the employees and retirees. He expressed his appreciation to staff for their hard work to keep our benefits at a low cost.

Mr. Rachal asked how many teachers are we losing on an annual basis? Mr. Lee stated the average is approximately 190, but last year it was in excess of 300. Mr. Rachal asked about the cost to the District when we hire a new teacher, train that teacher, the teacher leaves and then the District must hire and train a teacher for that vacancy? Dr. Goree explained a big part of the pay raise is to attract highly certified teachers, provide them professional development and then to retain them. Mr. Rachal asked if he is correct the cost is approximately \$10,000, and Dr. Goree confirmed that is a good estimate. Mr. Rachal asked if the number of teachers we are losing each year will be reduced as a result of the pay increase, and Dr. Goree agreed he believes the District will see a measurable decrease in the number of teachers we are losing to anything other than retirement. Mr. Rachal asked if students perform better if they have the same teacher through the school year, and Dr. Goree responded yes they do.

Margaret Brown expressed her concerns relative to the stability of the nutrition program and the transportation piece where we receive funds from Medicaid. Regarding the transportation costs, this is how the District currently provides services, and the change is in how we bill and recoup some of the money. Mrs. Brown reiterated she is only concerned about the instability in some of the arenas. She also asked is outsourcing best for children. Mrs. Brown said some have asked her if the Board is getting a raise, and she told them no but the Board is giving theirs to charity.

Ms. Trammel said she believes she is hearing the District is in a safe place not only with the pay raise but also the support system. She also wanted to make sure everyone understands the superintendent is not included in the proposed pay raise for the employees. Also, even though she is leery about what she is hearing in the news, she is thankful we are to this point; and while she would love for it to be more, she appreciates staff's hard work in bringing this to the Board.

Mrs. Locke asked if she understands the one-time \$5 million will be transferred at one time or throughout the year, and Mr. Lee stated that in the charts presented, it has been built in that the full amount will be transferred at one time. Mrs. Locke asked what the projected reserves will be as of July 1, and Mr. Watson said while it changes daily, it currently runs about \$25 million and after transferring the \$5 million, it leaves the reserves at \$20 million. He further explained that for the last 3 years, reserve were kept at \$10-\$12 million which has been adequate. While the projections can change, he believes the reserves will still be twice what the minimum should be

in two years and normal adjustments will be made. He reminded the Board that the District has reinsurance to protect us, as well as backup plans; and if we must, we can raise premiums; however, staff will approach this with as many medical management strategies as possible. Mrs. Locke reiterated the comments on the large amount of work since the first presentation in January and thanked the staff for listening. Dr. Goree also thanked Mr. Lee and Mr. Watson for their hard work in bringing this, and for the retirees and teacher organizations working with staff to arrive at something that is not just best for people in the system, but also for the community.

Mr. Riall asked about the \$20 million in "GASBE", and Mr. Watson explained that a few years ago the government stated that government entities should begin funding for future retiree healthcare costs. He added that governments are not required to fund it, but Caddo has voluntarily funded this account and every dollar in it has not come from the General Fund, but it is money he receives each year (approximately \$1.5 million) and this is a backup which 99% of school districts do not have. Mr. Riall asked about the total uncommitted balance at this time and Mr. Lee responded it is approximately 11% of the District's expenditures, or mid \$30 million range. Mr. Lee expanded his comments to say the District has never been in the red even though we have overspent; and while it has gone down, Caddo still has a balance in the range required by policy.

ESTABLISH THE CONSENT AGENDA

Mrs. Locke announced that 7.01, 8.01-8.02, 8.04-8.06 are the consent agenda. *Mrs. Bell moved, seconded by Mr. Riall, to approve the proposed agenda and consent agenda for the May 16, 2017 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Nathaniel Manning addressed the Board on his concerns and help needed on some things in West Shreveport. With economic development strategically being linked to education, he stated concern that there are two D- schools in District 12. He said Huntington and Turner do not have the benefit of being in any zone, and they are concerned about continuing to lose many of their students to the magnet schools. He believes it is time to seriously consider placing enrollment caps at the magnet schools. He also stated his support of the Fair Park Alumni Association.

Ed Hearnon thanked Jim Lee and Randy Watson for explaining the misconceptions on the table, and he also appreciates the questions asked by Board members. As a result, he believes the explanations cleared up the questions. He also shared his appreciation for the 40 years he worked in Caddo.

Jackie Lansdale, president of Red River United, apologized to Magnolia Charter School for not realizing they fall under the umbrella of Caddo and for not including them in the "Most Improved Student" recognition; however, this has been corrected for the future. She also stated that if the District is going to roll forward the millage, it will need to be on the June agenda. She also read a letter encouraging the approval of a pay raise at the May 16th meeting.

Review of Magnolia Charter Continuation. With Magnolia Charter School falling under the umbrella of Caddo Parish Public Schools, Miss Green asked if there are any programs being offered at Magnolia that are not being offered in Caddo? Superintendent Goree explained that Magnolia has a traditional school program; and when talking about choice, it is about a choice other than the neighborhood public school. Mrs. Bell said she has not read the information and asked if there will be an opportunity to ask questions at the next meeting before voting on this item. She also asked what is different from the previous presentation to the Board. Dr. Goree responded that a part of the process is to review the program as it was originally approved by the

School Board to insure that Magnolia is still meeting the requirements for which they were approved.

Mrs. Atkins added that by the bulletin, after the third year of operation, the charter must have a review (evaluation) to determine whether or not it will continue to operate for the length of the charter. She reported the academic audit has been completed, a financial statement indicates they are in compliance, and staff is recommending to the Board continuation of their charter with the recommendations for academic improvements in professional learning. Mrs. Bell recalled a couple of years ago when it was stated that the School Board did not have anything to do with the Magnolia Charter School; and asked if Caddo will be the one to do the review? Mrs. Atkins explained that Magnolia is a Type I Charter and in order for them to continue their 5-year charter, an evaluation is done after the third year to determine what is going on in the school and if the school is meeting the requirements as stated in their charter. Dr. Goree said Magnolia operates as an extension of Caddo Parish Public Schools and it is a choice within the Caddo Parish Public School System, meaning it is still the School Board's responsibility to make sure charter qualifiers are being met. Mrs. Bell stated she remembers Magnolia pulled out and she didn't realize we are responsible for evaluating and determining if they met the requirements. Mrs. Atkins reminded the Board that Magnolia's School Performance Score is a part of Caddo's District Performance Score.

Mr. Abrams clarified that the Magnolia Staff is to periodically report to the School Board based on the charter agreement, and they have submitted written reports to the School Board, as they actually report to Magnolia's Board. Also, Mr. Abrams confirmed the School Board (as the charter authorizer), is responsible for conducting a review/evaluation after year 3 of the agreement to determine if they are eligible to continue the remaining 2 years of the charter agreement. He further explained that in year 5 they would need to apply to renew.

Mr. Riall asked if we are now at the 3-year investigation and the review has been completed. Mrs. Atkins said that is correct. He asked if he understands correctly that Magnolia has met the requirements of the charter and staff is recommending continuation with the recommendations, and Mrs. Atkins said yes.

Mrs. Poljak asked if the recommendations mentioned are recommendations or are they requirements, and Mrs. Atkins responded they are recommendations. Miss Green asked if Magnolia is under Caddo's umbrella, can they be offered the same services offered to the other schools. Dr. Goree said yes and because they are a charter and operate independently, Caddo is required to provide them the MFP dollars associated with the students enrolled at Magnolia. He added we also provide SPED services, professional development, etc. Miss Green asked about Magnolia's grade for the past 3 years, and Dr. Goree stated that while he believes they have consistently been a D school, he will ask staff to provide her with accurate information.

BOARD MEMBER ANNOUNCEMENTS

Mrs. Poljak thanked Magnet High School for holding a graduation ceremony for five of their students that will be traveling out of town to participate in a Mock Trial" and will miss their graduation on May 13th.

Miss Green stated she is thankful for the discussion on the pay raises and she is a proud Board member this year because at Green Oaks' student Brandon Armstrong who won first place in the Film Festival this week. She also recognized and congratulated Tra'Davious White, 2013 Green Oaks graduate, who was the 1st round draft pick #27 to the Buffalo Bills.

Mrs. Brown also recognized Ed Hearron and Lonnie Dunn who she worked with in Caddo for many years.

Mr. Rachal thanked Board members who attended the Caddo Career & Technical Foundation scholarship program. He said he is proud and humbled to be a part of this foundation and stated that the Caddo Parish School District has some of the top performing students in technical training in the country that come from the Caddo Career Center. Also of the 700 students that came through the Career Center, 115 students (approximately 20% of the students at the Career Center) qualified for the Career and Technical Honor Society.

Mrs. Bell thanked the Superintendent and the Committee for the outstanding banquet recognizing all the Caddo Students of the Year. She also stated how disappointed she was that the Caddo student scoring a perfect 36 score on the ACT Test was not featured in the paper.

Ms. Trammel invited all the women in attendance to a prayer breakfast at 8:00 a.m. Saturday at Peaceful Rest Baptist Church at which time they will be praying for the school system. She also announced that if anyone has a weapon they wish to get rid of they can bring it at the Peaceful Rest beginning at 9:00 on Saturday and the Police Department will receive it, no questions asked. They will also be cleaning up Cedar Grove beginning at A B Palmer Park.

Adjournment. *Mr. Riall moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:10 p.m.*

May 16, 2017

The **Caddo Parish School Board (CPSB)** met in regular session on Tuesday, May 16, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge.

CONSIDERATION OF MINUTES OF THE APRIL 18, 2017 AND MAY 2, 2017 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the April 18, 2017 and May 2, 2017 CPSB meetings as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Diane Atkins, chief human resource officer, on behalf of the board, recognized the following staff members and students for recent achievements. President Locke and Superintendent Goree congratulated and presented each one recognized with a certificate acknowledging their accomplishments. Administrators, family and friends present were recognized.

Act 303 Diploma Recipients. The following students were presented their high school diploma as a result of Act 303 of 2016 that allowed students with disabilities who did not receive credit or a diploma to petition their school district for high school diplomas upon completion of specific criteria. (1) Heather Bailey, C. E. Byrd High School; (2) Jeffery Baker, Captain Shreve High School; (3) L'Marcus Bell, Booker T. Washington High School; (4) Anita Buford, Northwood High School; (5) William Evans, Huntington High School; (6) Kenneth Henry, Woodlawn Leadership Academy; (7) Travis Huglon, Woodlawn Leadership Academy; and (8) Carolyn Smith, Woodlawn Leadership Academy.

North Caddo Talented Arts Music Class. Students in the North Caddo Talented Arts music class performed musical arrangements for the Board and audience.

2017 Congressional Essay Winner – National Society of Colonial Dames of America. Maura Pugh and Lauren Florsheim, Shreveport Committee officers of the Louisiana Society of the National Society of Colonial Dames of America, presented a Certificate of Merit to Vasser Terry, winner of the 2017 Congressional Essay contest. Miss Terry will participate in the Washington workshops Congressional Seminar through the Society's educational program for secondary school students in Washington D.C. June 17-23, 2017.

2017 STARBASE 2.0 Louisiana Award of Distinction. Mrs. Mary Beth Irvine, instructor for the STEM (Science, Technology, Engineering, and Mathematics) secondary education program known as STARBASE 2.0, shared history of this 5-year program and presented the 2017 STARBASE 2.0 Louisiana Award of Distinction to Ethan Adams, student at Lakeshore Middle School.

2017 Region I Science and Engineering Fair Award 1st Place Winners in Elementary and Middle School Division. The following elementary and middle school students were recognized as 1st place winners in the 2017 Region I Science and Engineering Fair: (1) Jack Cain, Earth & Environmental Science, Fairfield Elementary Magnet; (2) James Holtsclaw, Energy: Physical, Eden Gardens Magnet; (3) Jackson McWhiney, Energy: Chemical, Eden Gardens Magnet; (4) Miles Putman, Plant Science; Riverside; (5) Sahej Sachdeva, Biochemistry, Eden Gardens Magnet; (6) Jeffrey Schneider, Physics & Astronomy, South Highlands Magnet; (7) Dasia Semien, Mathematical Science, Judson Fundamental; and (8) Sir'Awinn Smith, Environmental Engineering, Judson Fundamental. Fairfield Elementary Magnet, Principal Pamela Graham, was presented the Region I Sweepstakes Award. Jeffery Schneider of South Highlands also was

recognized for winning a Reflections Award of Excellence in Music Composition at the National PTA level.

Mrs. Atkins announced that the 12 middle school students who placed 1st are all from Caddo Middle Magnet; however, they are not present today because of their 8th grade awards ceremony.

2016-17 Autonomous Robotics Circuit Competition Grand Champion Winner. Summer Grove Elementary School was recognized as the Grand Champion Winner in the 2016-17 Autonomous Robotics Circuit Competition. Principal Pamela Bloomer accepted the certificate for the Summer Grove's Robotics Team which is sponsored by FDDOC-Winners Circle (Fully Devoted Developer of Children).

JumpStart Program Grant. Dr. Phillip Rozeman, Alliance for Education, presented JumpStart grants from the Alliance for Education and Community Foundation to the following schools to help them prepare students not planning on pursuing a four-year university degree for community college, technical college, certificates and military. (1) Booker T. Washington High School, \$12,885; (2) Captain Shreve High School, \$11,100; (3) Green Oaks Laboratory High School, \$9,445; (4) Huntington High School, \$11,100; and (5) North Caddo High School, \$12,200. These grant dollars are to be used to implement JumpStart in these schools.

2017 Annual Cora M. Allen Essay Contest Winners. The following students were recognized as winners in the 2017 annual Cora M. Allen Essay Contest: (1) Jasmine Barnes, 8th grade, Walnut Hill; (2) Jayden Dock, 8th grade, Walnut Hill; (3) Stephanie Fuller, 8th grade, Walnut Hill; (4) Paige Greer, 8th grade, Youree Drive; (5) Alyssa Hoey, 8th grade, Caddo Middle Magnet; (6) MaKinse Powers, 8th grade, Walnut Hill; and (7) Kamauri Washington, 8th grade, Walnut Hill.

Third Grade Literacy Volunteers/Move the Needle Award. Laura Alderman, executive director of Step Forward (The Community Foundation of North Louisiana), recognized 122 Caddo Parish literacy volunteers who give at least one hour each week to help 3rd grade students improve their reading proficiency. Mrs. Alderman also shared the successful results of this Step Forward program for schools that have these volunteers helping their students. The following Top Gains Schools for 2016 were also recognized: (1) Blanchard (Rhonda Bass); (2) Cherokee Park (Tyrone Burton); (3) Northside (Dr. Cindy Frazier); (4) Green Oaks (Marvin Alexander); (5) Caddo Middle Career & Technology (Monte DeMars); (6) A. C. Steere (Brandy Holcomb); (7) Werner Park (Shunda Huff); (8) Donnie Bickham (Shannon Wall); (9) Lakeshore Middle (Dr. Matt Mitchell); and (10) Pathways in Education (John Keith).

Newly Appointed Administrators. The following newly appointed administrators were recognized: (1) Judy Langley, principal, North Caddo Elementary/Middle; (2) Malonda Mills, instructional coordinator, Midway Professional; (3) Nicolas Cunningham, assistant principal, North Caddo Elementary/Middle; (4) Clifford Jenkins, assistant principal, Caddo Middle Career and Technology; (5) Leon Moore, assistant principal, Fair Park Middle; (6) Joseph Anderson, assistant principal, Woodlawn Leadership Academy; (7) Lynette Hampton, principal, North Highlands; (8) Marco French, principal, Queensborough; (9) Cheryl Jones-Hart, principal, Riverside; (10) Monte Demars, principal, Caddo Middle Career & Technology; (11) Amanda Wall, principal, Donnie Bickham Middle; (12) Dr. Matthew Mitchell, principal, Fair Park Middle; (13) Shannon Wall, principal, Northwood High; and (14) Dr. Grady Smith, principal, Woodlawn Leadership Academy.

Mrs. Atkins announced for Board member Raymond Green that on May 11th Corporal LeToya Sampson, SRO at Oak Park Elementary/Middle School, and Corporal Officers Janeka Allen, Adrian Ferguson, Jay Casteneta came together with Ms. Tierra Glover and Ms. Julia Coleman to present J'Kayden Davis' parents with an honorary certificate, uniform and badge. Laleisa Edwards advised Corporal Sampson that J'Kayden always dreamed of becoming a police officer and they wanted to recognize him and declare him a junior police officer. J'Kayden's life tragically ended as the result of car accident.

PUBLIC HEARING FOR NAMING THE HERNDON GYMNASIUM FOR O.C. ROLLINS

President Locke announced that the public hearing for naming the Herndon Gymnasium for Mr. O. C. Rollins is opened. There being no speakers, the public hearing was closed.

VISITORS

Jackie Lansdale, president of Red River United, commended the Board and staff for recognizing how raising the threshold on salaries impacts a willingness of the graduates to look at teaching as a profession. She noted that the Board recognized how the students, the District and the community all suffer when classes are taught by non-credentialed teachers. With the wage gap between teachers and other professions reaching historic proportions, the 5% is a great start in getting higher achieving college students to enter our classrooms and give them a stronger reason to stay. Mrs. Lansdale stated they look forward to working with the Board to create a salary schedule that reflects the needs of the employees and enhances the benefit package. She also thanked the Board for recognizing the need for a salary increase for not only teachers, but for all staff and for looking to the budget for solutions. She thanked the RRU members for staying the course.

Jon Glover addressed the Board on the many times she has stood before this and past boards on the ineffectiveness in students not achieving academic success. She said we are still not meeting the needs of students collectively academically; and it is still a problem and unacceptable that we have more than 30 schools ranked D or F in Caddo. She said merging failure with failure should not be an option, but that is what was chosen; and she questions what is to be gained from this.

Curtis Hooks shared that during budget sessions each of the four years he was on the Board, he begged for a raise for the employees; and before he left, a 2% raise was approved. He asked the Board to support the proposal on the agenda to provide all employees a 5% pay increase.

Dawn Jordan, president of the Caddo Association of Educators, thanked Mr. Lee and Mr. Watson for allowing the association leaders to be a part of the process in the plan presented to the Board. She believes this allowed the association members' voices to be heard in the process and they are appreciative. She thanked them for their hard work in arriving at solutions that will fund a much-deserved pay raise. Ms. Jordan also thanked the Board for its hard work for the employees and the children of Caddo Parish; and expressed the CAE's appreciation for the Board's consideration of a needed pay raise in order to attract and retain qualified, certified teachers for Caddo's classrooms.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board's consideration. President Locke announced that the following items are the consent agenda: 6.01-6.03, 7.01-7.02, 8.01-8.02, 8.04-8.06 and 13.01 (student RB). *Ms. Trammel moved, seconded by Mr. Rachal, to establish the agenda and consent agenda for the May 16, 2017 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell, to confirm the consent agenda (Items 6.01-6.03, 7.01-7.02, 8.01-8.02, 8.04-8.06 and 13.01 (student RB)). Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout.

6.02 Personnel Transaction Reports – Resignations – April. The board approved the personnel transaction reports (April resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The board approved the administrative contract renewals as recommended by the Superintendent and submitted in the electronic mailout.

Item No. 7

7.01 Purchasing Bids. The board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Shiffler Equipment Sales, Inc. for Marker Boards and Bulletin Boards. *A copy of the bid tabulation sheets is filed in the official documents of the May 16, 2017 CPSB meeting.*

7.02 Construction/Capital Projects Bids. The board approved the following bids as recommended by staff and submitted in the electronic mailout or at Board member stations on the bid tabulation sheets: (1) Quality Sheet Metal, with a Base Bid, for the sum total of \$259,000 for Project 2018-306, “Booker T. Washington HVAC Renovations”; (2) M & M Builders, with a Base Bid, for the sum total of \$296,900 for Project 2018-221, “Turner Ceiling at Gym and Auxiliary Gym”; (3) Reject all bids and revise and rebid Project 2018-220, “Keithville Ceiling at Gym”; (4) Dale’s Paving, with a Base Bid and Alternate 1, for the sum total of \$395,140 for Project 2018-211, “Fairfield Paving”; (5) The Payne Company, with a Base Bid and Alternate 1, for the sum total of \$60,200 for Project 2018-312, “Summer Grove Replace Sewer Line”; (6) Carter Construction, with a Base Bid, for the sum total of \$206,800 for Project 2018-212, “Midway Paving”; (7) Postpone Project 2018-217, “Shreve Island Canopies”; and (8) Postpone Project 2018-218, “University Canopies”. *The bid tabulations sheets are filed in the official documents of the May 16, 2017 CPSB meeting.*

Item No. 8

8.01 Property/Bus Rental Requests. The board approved requests for use of CPSB property and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of High School Staff Professional Development Day October 13, 2017. The board approved Friday, October 13, 2017 as a Professional Development Day for all high schools.

8.05 Authorization of Salvage Sale – Buses, Vehicles & Various Lawn Equipment. The board authorized staff to hold a salvage sale for buses, vehicles and various lawn equipment.

8.06 2017-18 Caddo-Shreveport Sales Tax Budgets. The board approved the 2017-18 Caddo-Shreveport Sales Tax budgets as recommended by staff and submitted in the electronic mailout.

Item No. 13

13.01 Student Readmission Appeal. The board upheld staff’s recommendation for Student RB whose parents were in agreement.

CONSIDERATION OF PROPOSED EMPLOYEE PAY RAISE

Mr. Riall moved, seconded by Mrs. Bell, to approve a 5% across the board pay raise for all employees as recommended by staff and submitted in the mailout. Mr. Riall explained he asked that this item not be on consent because he wanted to insure that the questions relative to the funding of this pay raise, as well as misinformation shared, were all clarified. He also believed because it was not placed on consent, it indicated to everyone the board’s desire for everyone to

be aware that the board was considering this and that the board wanted everyone to have a pay raise. He also confirmed that Mr. Lee and Mr. Watson have made it evident the funding is solid. Mrs. Bell echoed Mr. Riall's comments and expressed her appreciation to staff for their hard work in coming up with how this pay raise could be funded as well as clarifying the misinformation that had been shared. Ms. Trammel said she believes the time is right for this pay raise for all employees.

Mr. Green said he would like the record to reflect that he believes all 12 board members seconded the motion to approve the 5% across the board pay raise for all employees.

Mr. Ramsey moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Jasmine Green opposed.

Vote on the motion to approve the pay raise carried unanimously.

REVIEW OF MAGNOLIA CHARTER EXTENSION

Ms. Trammel moved, seconded by Mrs. Bell, that the CPSB approve the extension of the Magnolia Charter as submitted in the electronic mailout. Mrs. Bell stated that after reading the report she wholeheartedly supports this. Miss Green stated that Attorney Abrams clarified this is only an extension to complete the original five year agreement.

Mr. Ramsey moved, seconded by Ms. Trammel, to call for the question. Vote on the motion carried with Mr. Albritton opposed.

Vote on the main motion carried unanimously.

ANNOUNCEMENTS

Miss Green thanked staff for the outstanding graduation season and how well everything went.

Dr. Douzart asked that an item to roll forward the millage be on the June agenda.

Ms. Trammel announced that a student (Kaneisha LeShon Brown) graduated from Woodlawn Leadership Academy a few years ago and continued her education at Southern University. She graduated from Southern in Baton Rouge May 11th with honors and is now commissioned as a Navy officer to the rank of Ensign. She stated she believes Caddo is doing a good job and she will be reporting on additional successes of Caddo's graduates in the future.

Mrs. Bell announced that Huntington High School's band has been invited again to represent Louisiana in Washington, D.C. for the Fourth of July parade in 2018, and she will be helping raise money for these students.

Mr. Rachal announced he would like to schedule a Building Committee meeting for June 6th at 3:00 p.m. He also asked to receive a copy of the Transformation Advisory Council members, and Dr. Goree responded that staff forwarded this to the board but will resend it. Mr. Rachal also asked for an update or presentation from the energy group hired by the board.

Mrs. Brown thanked the Superintendent and staff for the wonderful job in finding the funding for the pay raise, but asked staff to keep a close watch on this as a result of the lack of stability in certain areas.

EXECUTIVE SESSION

Student Readmission Appeal. *Ms. Trammel moved, seconded by Mr. Green, to go into executive session not to exceed 15 minutes for the purpose of hearing a student appeal. Vote on the motion carried and following a 10-minute recess, the board went into executive session at approximately 6:10 p.m. The board reconvened into open session at approximately 6:41 p.m.*

Mr. Ramsey moved, seconded by Mr. Rachal, to uphold staff's recommendation dated May 16, 2017, relating to DB. Vote on the motion carried unanimously.

Adjournment. *Mr. Rachal moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:42 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

May 23, 2017

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 23, 2017 at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Susannah Poljak, Bonita Douzart, Mary Trammel, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

VISITORS - There were no visitors wishing to speak.

2017-18 CONSOLIDATED ANNUAL BUDGET

Chief Financial Officer Jim Lee presented the following aspects of the proposed 2017-18 Consolidated Annual Budget.

- Budget calendar
- Projected General Fund revenues and expenditures
- Division savings
- Special Revenue Funds (Title I, Child Nutrition, IDEA, Title II)
- Debt Service Fund

Mr. Lee announced that the proposed General Fund budget is a balanced budget with \$120,950 in excess revenue over expenditures. He reported the 5% across the board pay raise is included in this budget and there will be no change in the classroom staffing formula for the coming year. He shared 2015-16 actual budget results, the 2016-17 final budget, and the proposed 2017-18 budget as well as budgeted revenue sources (local revenue from sales and property taxes, state sources (MFP), Federal sources including money received for JROTC instructors, and other sources, i.e. one-time transfer from insurance reserves for pay raise). Mr. Lee reminded the Board that in 2016, two millages in the General Fund were renewed, the largest for salaries and benefits, and the smallest for Technology.

Mr. Lee explained that the Instructional Services budget of \$275,000,000 includes expenses at the school level plus some Central Office expenditures tied directly to the school, i.e. instructional supervisors, etc. The Board's and Superintendent's Office expenditures are reported under General Administration, and School Administration includes Principals, Assistance Principals, and School/Office Clerical, Business Services. Operation and Maintenance expenditures include utilities, custodial services, etc. Transportation costs are mostly bus drivers, and Central Services includes Human Resources, Information Technology, and Communications. He also noted the \$16 million designated for the charter schools; and the offset to the MFP as a result of increased dollars to Magnolia Charter. He explained the School Board receives 1.5% of the 9.5% sales tax; and while we currently use the State's model, there is no growth factor in the State of Louisiana's MFP model.

Mr. Lee explained how staff determines expenditures for the coming year and the policies that govern this. Because of the consolidation of the two high schools and removing the 6th grade from some elementary schools and moving them to Fair Park Middle School, staffing is being reduced but remaining within the current formula. He also noted the slight reduction in benefits as mentioned during the pay raise discussion which is being accomplished by not increasing the cost of the benefits. Also, LSE retirement will decrease next year (% charged), as well as unemployment and workers compensation taxes. Mr. Lee also added that the \$200 teacher supplies, the leasing of used buses (less than 10 years old), textbook adoption, and the amount to be paid to the district via charter schools are all included in the proposed budget.

Mr. Lee explained that once the pay raise was added in, staff looked at everyone's wish list as well as discussed with the department heads where budget reductions could be made. In Academic Affairs, reducing travel and M&S accounts will save approximately \$350,000, and reducing the textbook expenditure will save approximately \$200,000. In the area of Operations, staff is proposing reductions in fuel costs by approximately \$75,000; vacant custodial positions through attrition, \$200,000; maintenance and operation costs, \$275,000; and in transportation operations, \$525,000. Finance will reduce travel by \$1,000, M&S by \$9,500 and will restructure this department to save approximately \$103,500. The total savings in these areas as a result of reductions is approximately \$1,742,000, which are built into the proposed budget.

Mr. Riall asked Mr. Lee to explain where employee benefits are in the budget, and Mr. Lee responded they are included in the budgets for each of the different areas with the exception of #VII. Mr. Riall also asked for the estimate on sales tax revenue, and Mr. Lee said it will be approximately \$73.5 million.

Mr. Albritton asked staff to explain the reduction in textbooks, and Mr. Lee explained ample funds are available to cover this year's textbook adoption which will be ELA books for high schools only, and that cost is spread over three years.

Miss Green asked about savings associated with Linear and Northside and is it because of maintenance costs. Mr. Lee explained these savings are because maintenance will not be as costly next year because of all the work done in the current calendar year to get it ready for occupancy by Northside. Miss Green asked staff to explain how costs are being cut when the District will still have upkeep on Northside, and Mr. Lee explained these maintenance costs are relative to the facility.

Mr. Rachal asked staff to explain the expenditure for ELA textbook adoption, and why are we still buying textbooks. Mr. Burton explained the STEM curriculum uses virtual textbooks which is a subscription with our partnership with Discovery Learning; and the ELA textbook for this year is a traditional textbook. He also added that except for anthologies, the District is moving to the digital format.

Mr. Rachal also asked about other sources of funds and that staff clarify, for the public, the one-time \$5 million being transferred from the insurance reserve to the General Fund. Mr. Lee confirmed that is correct; and because our insurance claim year (April through March) is different than the District's fiscal year (July 1 through June 30), the increase put into the budget last year carries us through March of 2018. Dr. Goree added that the funds being transferred are funds that were collected to operate the system and were placed in the insurance fund to pay claims; but at this time, we are in excess of the minimum amount needed to maintain this fund, thus utilizing a one-time \$5 million transfer for the pay raise. Mr. Watson confirmed and further stated that ultimately the savings is health care savings as a result of better medical management and staff predicts an annual savings of approximately \$8 million. Because of the decision made last October, the funds were already put in the reserves and we began to see the savings sooner than expected resulting in the reserves now being over-funded. Because of the over-funding, a one-time \$5 million is being transferred to help fund the pay raise this year and next year the \$8 million in savings will be placed in the General Fund for the raise and not in the over-funded insurance reserve. Mr. Rachal restated his understanding of Dr. Goree's statement that the allocation of the dollars spent are now being moved; but due to the calendar years, we are actually making one big one and it will work itself out on a monthly basis for the remainder of the year. Dr. Goree confirmed that is correct; and in his opportunities to respond to questions relative to fiscal responsibility, he has stressed that as a governmental body we must be aware and make the very best preventive decisions about our insurance. Also in support of Mr. Watson and Mr. Lee, he said staff feels very certain we can do this and continue to see lower payments for claims as a result of continued medical management.

Mrs. Poljak asked about the Cenergistic contract, and Mr. Lee responded that we are currently in the preliminary stages so he did not factor utility costs in the budget. Dr. Goree announced that he will send an update to the Board outlining what has been done with Cenergistic thus far, but actual work and savings in this area will begin with the next school year.

Ms. Trammel asked if she understands at this time the MFP dollars are secure, and Mr. Lee said yes at this time. She also thanked staff for not changing the staffing formula. In looking at some of the positions that will be eliminated through attrition, she asked if it will be possible to put a position back in place if needed. Dr. Goree responded that staff stands on the position can be eliminated as opposed to saying we can add it back.

Dr. Douzart asked if the District is covered for teachers who are on medical and sabbatical leaves, and Mr. Lee said the District is covered through the sub system.

Mrs. Bell asked about the \$16 million for charter schools, and Mr. Lee said this includes Magnolia, Pathways and AMIKids. Mrs. Bell asked that staff provide her everything we are paying these three schools. Also, at Mrs. Bell's request, it was further explained how the elimination of one position in the General Fund Finance budget, additional interest received, and the elimination of bank service charges is more than what is needed to offset the cost of the increase in the salaries for those persons who have taken on additional responsibilities. Dr. Goree pointed out that the \$41,000 amount represents adjustments for persons that have taken on more responsibilities. Mrs. Bell also asked about the savings in the Child Nutrition Program and the length of the contract for the free breakfast and lunch for students in preK through 8th grade. Mr. Lee and Mrs. Harris responded the agreement is for four years. Mrs. Bell asked if this program might be available for the high school students in the future. Dr. Goree explained that staff looked at the grant from not only what is in the best interest of the students, but the District, and the usage rate at the high school level is very low overall. Because our economically disadvantaged students are still taken care of in the free and reduced lunch program, it was not in the fiscal best interest of the District to add the high schools. Mrs. Harris added that Fair Park Middle School and AMIKids will be added to CEP this year.

Mrs. Locke asked what did the District receive in sales tax last year, and Mr. Lee said it is the current year which is not yet complete, but it is anticipated we will receive approximately \$74 million. Also, on the one-time \$5 million transfer for the pay raise, she asked if the funds for insurance are withheld from payroll checks and placed in a separate fund or are claims paid from the General Fund. Mr. Lee said there is an insurance internal service fund and all that is deducted from the employees' paychecks plus the District's portion is taken from General Fund and placed in this fund monthly. She also asked how does staff determine what is needed in reserves, and Mr. Watson explained that every year staff, through study and formulas, brings to the Board what staff projects claims to be, and what is needed to cover projected claims and maintain a healthy reserve. He confirmed the District's portion and the employee's portion are both placed in this reserve and are only used for health care claim payments. She asked if it is correct that the one-time transfer is from the medical insurance reserves and has nothing to do with retirement, and Mr. Watson responded it has absolutely nothing to do with retirement.

Mr. Lee highlighted the other special revenue funds and noted that the four largest (Child Nutrition, Title I, Title II and IDEA) make up approximately 90% of those funds and are the only funds with over \$1 million in estimated expenditures. He explained these are traditional special revenue (Federal or State) grants we receive every year; however, occasionally, a new grant will be added to the list. Relative to Child Nutrition, Mr. Lee credited Mrs. Harris and those working in this area as auditors have expressed concern because of the decline in funds in this area; but, as a result of the addition of the CEP Program, Child Nutrition is receiving an estimated \$1

million plus for this year and this will stay in the Child Nutrition Fund to help build up their balance, which this year is projected to be approximately \$1.6 million.

Regarding capital projects, Mr. Lee explained there have been several funds in the past; however, they currently only have the traditional parishwide capital projects fund that is funded by two property tax millages. He said all bonds received from any bond issue in the past have been fully spent and we now have only the one. Mr. Lee stated that Capital Projects still receives about \$20-\$23 million annually which is what they expect to spend next year. At this time, the millage rate is approximately \$11.8 mils and most of the projects now are requested directly from the principal, ADA projects, and any critical projects. He noted a list of the projects the Board approved for next year along with how much each project will cost.

The Debt Service Fund is in place to strictly pay back our bonds; and at this time, there is approximately \$72 million in outstanding general obligation bonds. A 5 mil property tax is used to fund capital projects and this year staff expects to pay approximately \$9.4 million in principal and interest. Having not issued any bonds recently, the \$72 million will continue to decline each year and by law, we are only allowed to maintain a certain amount in reserves for debt service. As the bonds are paid off, this millage rate will continue to reduce if the District does not do another bond issue.

Mrs. Bell asked about Capital Projects and if renovations on the Turner gymnasium are included. With Huntington being built before Turner, she asked when the bleachers will be replaced. Dr. Goree explained that Turner's roof is the original from 1984; and because of a defect (peeling), Dr. Webb asked that it be placed on the priority list. Mr. Woolfolk reported that Steve White met with Mr. Graham about the bleachers; and last year we attempted to bring the bleachers at Huntington up to standards. Mrs. Bell also asked about the band uniforms for Huntington and, in the event a school in the rotation does not want new uniforms, is it possible for Huntington to move up in the rotation.

Mr. Rachal asked staff to provide him information on Fund 1287 for School Climate. Mr. Lee responded that he can find the administrator over this grant and provide additional information to the Board. Mr. Rachal stated it would be helpful if staff noted which ones are grants. Mr. Lee said each one in this section is a grant, either Federal or State, and this particular grant appears to supply a lot to pupil support services. Mr. Rachal asked if this augments what is in General Fund. Mr. Lee said he is not completely aware of the facts of this grant, but he will get with staff and provide this information to the Board members. Mr. Rachal also asked about the possibility of receiving a breakdown on the CEEF funds, and staff will provide a current report on this fund. Mr. Rachal asked if a breakdown could be provided on all special funds including the percentages that come from State or Federal.

Mr. Albritton asked staff about the student count being used, and the reductions under the instructional area. Mr. Lee said approximately 40,000 students is the number used, and any reductions under instructional are a result of doing remediation throughout the school year and not just in the summer. In response to the State and Federal Revenue, Mr. Lee explained that the MFP will increase slightly, but it will be offset by the increase to the charter schools.

Mr. Riall asked about the total millage collected for debt service, and Mr. Lee responded 5 mils. Mr. Riall asked what will be paid off by 2021 and are there specific millages for each. Mr. Lee stated they look at the total amount to be paid off next year and the millages are ample to pay the two that must be paid off; and if we do not sell any additional bonds, the amount will continue to reduce until it is paid off. Mr. Riall asked staff to indicate in the breakdown of all funds as requested by Mr. Rachal which ones are grants.

Mrs. Locke asked about the \$400,000 for new windows at Lakeshore and if this is something we will do with Lakeshore closing. Mr. Lee explained this is the list approved by the Board and this will be removed since everything has stopped at Lakeshore because of the move to Fair Park.

Mrs. Bell asked about the money from the boats and what fund is this. Mr. Lee said it is not shown as it is a trust of the school district, and every January interest earnings from the prior calendar year are determined and when this builds up the money is distributed to the schools to use at their discretion for instructional enhancements.

There being no additional questions, the meeting adjourned at approximately 3:10 p.m.

May 30, 2017

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 30, 2017 at approximately 3:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

VISITORS - There were no visitors wishing to speak.

2017-18 CONSOLIDATED ANNUAL BUDGET

Chief Financial Officer Jim Lee stated there has been no material change to the General Fund budget since the first meeting and it still reflects a \$120,950 positive balance. He also presented the following changes since the budget work session on May 23, 2017.

General Fund

- Transfer the Chief Financial Officer from Business Services to General Administration as this is where all other division heads are located. This is a budget neutral transfer.
- Transfer the Transformation & Innovation Officer from Instructional Staff Services to General Administration. This transfer is budget neutral.

Special Revenue Fund

- Added Revenue & Expenditure Charts for Special Revenue Funds.
- Added CEEF Fund to Budget Summary & Summary by Fund, as well as CEEF with individual budgets. This change increased budgeted expenditures for Special Revenue Funds from \$59,039,303 to \$59,314,690 and Total Budgeted Expenditures from \$491,127,682 to \$491,403,069.

Capital Projects and Debt Service

- There were no changes to these funds.

QUESTIONS

Regarding Mrs. Bell's question relative to the amount listed in the CEEF and Special Revenue Funds, Mr. Lee explained the amount budgeted reflects the interest accumulated over the years from the riverboat money that has not been spent by the schools. In response to the amount budgeted under Special Revenue, Mr. Lee explained that the local amount (\$350,000) is mostly CEEF and a small amount is Child Nutrition and is interest earned from lunch money collected at the high schools. The Federal and State revenue dollars breakdown indicates how staff arrived at these numbers for Federal and State dollars, and everything in this Federal revenue section is from grants. Dr. Goree also clarified that the transfer of the Transformation & Innovation Officer to General Administration is part of the Transformation NEXT agreement with the state that requires this person to report directly to the Superintendent.

Mr. Riall asked if the Federal sources in the General Fund make a minority amount of that fund and did a grantwriter apply for these Special Revenue Funds. Mr. Lee explained that is correct and many of these the District receives each year, i.e. Title I, IDEA, Title II; but, the District must submit a budget to receive the government allotments in these areas.

Mr. Rachal asked about the \$4 million under "other uses of funds", and Mr. Lee explained that most Federal grants build a percentage into the grant amount that will pay indirect costs to the District's General Fund. Mr. Rachal asked how the percentage amount is determined for placement in the General Fund, and Mr. Lee explained that all Federal funds pay the same set

percent, and as Special Revenue Funds are spent and reimbursed through the State, a transfer is made to make a payment to the General Fund. Mr. Rachal asked where money spent for Early Childhood Education is reflected in the budget, and Mr. Lee stated 4 grants generate approximately \$7.5 million for Early Childhood Education. Mr. Rachal asked if this can be more easily noted in the budget, and Mr. Lee explained staff can provide a report, but the format presented is how staff must report this information. Mr. Rachal said the board is continually talking about the importance of Early Childhood Education and he believes it would be good to detail this so the public can see the dollars and programs Caddo has in place.

Mrs. Bell echoed Mr. Rachal's questions relative to Early Childhood Education and noted the programs Caddo has in place, i.e. La4 TANFT Federal grant, La4 preK Cecil Picard program and the \$1 million grant. She also noted her concern for the homeless students and the McKinney-Veto grant for the homeless as well as a grant through the Homeless Department (HUD) and the difference in these two revenue sources. Mr. Lee said these are both Federal grants.

Ms. Trammel noted that many board members are unfamiliar with all the various grants, and she believes it would help the board if additional information on these grants was provided, i.e. what the dollars received are used for and how they are distributed. Mr. Lee noted the brief description provided and if needed, staff can expand on these descriptions. She again asked, because the board continues to get requests to contact State legislators regarding MFP dollars, if we are making sure there are ample dollars in the budget in the event the amount in MFP is reduced. Dr. Goree and Mr. Lee both reported that they too are reaching out to the Legislators and following legislation daily that could affect the District.

Mr. Riall asked for clarification on the budgeted positions, instructional supervisors and that it appears the number has almost doubled in the last 1.5 years. Mr. Lee said some of these positions were moved into Federal funding sources and moved out again; however, this number is actually only one additional position.

Mrs. Brown again encouraged staff and board to be careful with the Child Nutrition funds accounted to the pay raise as well as the Transportation (Medicaid) budget because everything is fine today but we do not know what will happen in Washington in the future. She believes it would be wise to have a Plan B, and Mr. Lee assured Mrs. Brown that staff continues to look at the budget and is why staff has been very conservative in the funding of the 5% across the board pay raise. She also asked that staff look at grant writing either pro bono or a position.

Mr. Rachal asked about the unspent balance of each school's CEEF fund and how the amounts in the budget are determined. Mr. Lee said in looking at the budget for 2016-17, it is at \$37,206 and the next column reflects what staff projects schools will spend based on the history of how schools are spending these funds. He further explained this fund does not close out at the end of the year and money allotted to a school to spend can be kept out there as long as the school wants (maybe they are accumulating their portion to order something big for their school). Mr. Rachal asked if there is a report showing each school's balance in this fund, and Mr. Lee said staff can provide such a report; and the board will see a lot of the schools have little or no balance in their CEEF fund because they spent their allotment as they received it. Mr. Rachal asked if the spending is at the principal's discretion, and Dr. Goree confirmed it is in working with their area director in making a decision.

Mr. Lee announced that if there are no recommended changes today, staff will move forward making the proposed budget available to the public by the end of this week and placing it on the June 20th agenda for adoption by the board.

Mr. Ramsey stated that over the years he has learned about the budget and referenced a meeting where Mr. Lee explained the School Board's budget to a large group of people that included

professional accounts who were confused as to how the District must do business and account for every line item, yet Mr. Lee was able to explain each and every one. He added it is complicated in that every line item in the budget could have another 10-15 associated with it. He thanked Mr. Lee for doing a good job.

There being no additional questions, Ms. Trammel moved, seconded by Mrs. Bell to adjourn. Vote on the motion carried, and the meeting adjourned at approximately 3:10 p.m.

May 30, 2017

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, May 30, 2017 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, LA with President Denee' Locke presiding and the following board members present constituting a quorum: Steve Riall, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, John Albritton and Dottie Bell. Miss Green was absent. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. The prayer and Pledge were omitted.

VISITORS - There were no visitors wishing to speak.

PERSONNEL RECOMMENDATIONS

Ms. Trammel moved, seconded by Mr. Riall, to approve the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout. Vote on the motion carried unanimously.

ACT ON CAPITAL PROJECTS/CONSTRUCTION BIDS

Ms. Trammel moved, seconded by Mr. Rachal to approve the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Tri-State Aluminum, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$194,048 for Project 2018-218, "University Canopies"; and (2) Tri-State Aluminum, with a Base Bid, for the sum total of \$120,865 for Project 2018-217, "Shreve Island Canopies". Vote on the motion carried unanimously. Bid tabulation sheets are filed in the official papers of the May 30, 2017 special called CPSB meeting.

ACT ON CHARTER SCHOOL APPLICATION

Attorney Kimberly Williams, third party reviewer, announced one charter application was received this year, K-8 Trinity Charter. Chris Jarbo, Trinity Charter representative and teacher at Creswell Elementary, stated that having been a teacher for 21 years, his heart is children. He has seen students struggle in traditional classrooms and believes there is a need to offer them an alternative via smaller classrooms and a different learning environment than is being offered in the traditional public school, and this is why he is interested in and bought into Trinity Charter.

Ms. Williams stated the recommendation is to deny the application of Trinity Charter School based on the following: (1) the school did not come as an alternative school, but as a traditional school, and the evaluation had to be the same as any other school; (2) no curriculum was provided when the application was submitted; (3) yesterday three curricula were received and their concern is how much thought was given to how it would impact their proposed program if developed in three days; (4) the application focuses on what was done in Texas (with no connection or performance scores) and most of the Texas programs operate out of residential treatment facilities; (5) how the school performed or would perform is unclear; and (6) budget numbers were off and changes requested have not been provided.

Mr. Ramsey asked about a facility for the school's operations, and Ms. Williams explained they submitted two options, (1) lease a school facility if available; or (2) space in a strip mall type building, but a definite place was not submitted.

Mr. Ramsey moved, seconded by Mrs. Bell, to accept the Board's consultant's recommendation to deny charter application for Trinity Charter School of Louisiana. Vote on the motion carried unanimously.

Adjournment. *Mrs. Bell moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:44 p.m.*

June 6, 2017

The **Caddo Parish School Board (CPSB) Building and Grounds Committee** met in regular session on Tuesday, June 6, 2017 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Barry Rachal presiding and the following committee members present constituting a quorum: John Albritton, Steve Riall, Margaret Brown and Jasmine Green. Also present were Denee' Locke, Susannah Poljak, Mary Trammel, Raymond Green, Dottie Bell, Dr. Bonita Douzart and Larry Ramsey. Superintendent Lamar Goree and Reggie Abrams, legal counsel, were also present; as well as staff members James Woolfolk, Keith Burton, Jim Lee, Tommy Smith, and Steve White. Mr. Riall led the prayer and the Pledge of Allegiance.

ESTABLISH AND CONFIRM THE AGENDA AS SUBMITTED

Mr. Riall moved, seconded by Mr. Albritton, to establish and confirm the agenda as published. Vote on the motion carried.

CAPITAL PROJECTS BUDGET REVIEW

Chief Operations Officer James Woolfolk presented an overview of the capital projects budget for the 2017-18 projects approved by the board, as well as the contractors that have been awarded the bid for those projects that will begin July 1. Steve White shared a breakout of the projects, explaining districtwide projects such as asbestos abatement, and the deletion of replacing the windows at Lakeshore and redirecting those funds to the new Fair Park Middle School renovations. Dr. Goree also noted the large number of HVAC projects due to failing systems, and the need for the District to begin replacing them over the next 5-10 years since 90% of them are beyond their life span. Mr. Riall asked staff to explain the \$16,800,000 budget for these projects and the anticipated cushion of approximately \$1.3 million. Mr. Riall asked how will these funds be used, and Mr. White stated while that is correct and we are under budget by that amount, there are a few projects remaining to be bid. Mr. White explained the amounts in Debt Service and salaries which are not included and Mr. Riall asked about the amount for last year's budget. Mr. White responded approximately \$20 million more because we were paying off the QZAB debt not listed in this proposed budget. In response to Mr. Albritton's request on how staff differentiates between in-house paint projects and contract paint projects, Mr. White explained that staff attempts to contract the furthest reaching projects to in-house employees and those that we must pay travel time are assigned to in-house painters. Dr. Goree also explained that to save on the cost of paint, staff came up with and implemented a set number of choices for employees to pick from.

Mr. Rachal shared his observations through the capital projects, and the need to plan for something to act on further down the road.

Mrs. Brown announced it has been brought to her attention that the track and arena at Booker T. Washington need attention, and *she moved, seconded by Mr. Riall, that the staff look at this as to estimated costs if the Board decides to move forward. Motion carried.*

REVIEW OF SCHOOL CONSOLIDATIONS/CLOSURES AND FUTURE USE/NEEDS OF OFF-LINE PROPERTIES

Mr. Rachal stated that for years Caddo has fought to sell properties as they were closed, and three years ago he met with staff to see what could be done to hire a commercial real estate brokerage company, etc. to sell real estate. He noted legislation in the 2017 Legislature now gives the District the ability to sell our real estate the same as anyone else, however it will be necessary to put policies in place for how this is addressed. Mr. Abrams explained that the District will still have to follow the same statutes as before; but a realtor has been added to the

process. He further explained the main policies would include credentials for the realtor and appraiser and policies can be established where staff has the ability to do either process.

Mr. Riall asked if it means that opposed to advertising, and then re-advertising at a lesser price, we can choose to sell our property. Mr. Abrams indicated that is correct but the Board will have to determine which process it wishes to follow on a particular process. Mr. Abrams further added that the State procedure required up to three appraisals, and this new process states up to three, so you can use one appraisal.

Ms. Trammel asked how a realtor is selected? Mr. Abrams explained the Board can make that determination. The statute does not say the Board must go out for bid for professional services contracts so the Board can make that decision. Mr. Abrams stated if the Board wishes, it can create a list of all the real estate brokers and follow a rotation process as opposed to going through a Request for Proposal process.

Mr. Rachal suggested that the options be included in the policy so the Board can look at these. Dr. Goree highlighted the Strategic Plan that includes a process for managing vacant buildings, i.e. identifying the vacant buildings, evaluating the structural integrity of the buildings to determine the best use for them, look at the District needs for at least 24 months and see if there are any immediate needs, and work with the community to determine the best use for the vacant building, including the possibility of the community taking the vacant building and utilizing it to enrich that community. He also reminded the committee that a commitment was made that the Board will not do anything that doesn't bring value to the community. He added that the policy addresses the availability of commercial realtors, even though the Louisiana disposal process as written must be followed and the limit set at which we will sell the building with the bottom line not being below 50% of the appraised value. This will protect the District from those who might purchase the school building but not take care of it. Mr. Abrams noted that we can include in future deeds that the property can be returned to the District if it is not maintained.

Mr. Woolfolk provided a listing of the CPSB vacant properties, properties sold, properties for sale, properties for lease, properties demolished, etc. Dr. Goree added we will wait on the new legislation to determine how the District wishes to move forward with the sale of vacated buildings based on the new legislation. Mr. Abrams also stated the Board no longer has to state a minimum price which is key in negotiating the sale of our properties. Mr. Riall inquired of staff the possibility of the town of Oil City using specific areas of the school, i.e. gymnasium. Dr. Goree said through the Strategic Plan process, staff would like to hear from the Board some of its wishes in moving forward and there is a way the District can work with the community if they have need and can assume the appropriate liability. He also reported that in the next few months there will be a community meeting on all the vacant facilities in order to determine community needs first.

Mr. Rachal suggested that maybe the Kirbys, who bought the Hosston facility, could be invited to report to the Board on what they have done to repurpose this building; and if anyone is interested, they will allow tours of this building. Based on this, Mr. Rachal said he believes we could possibly raise the value of these buildings that will be sold by the District.

Mrs. Locke asked for clarification and there are two additional buildings that house "Central Office" employees other than the Central Office at 1961 Midway? Dr. Goree said other than Central Office on Midway, West Shreveport and Central sites house Central Office employees. She asked if they are full and Dr. Goree noted they are pretty much filled. Mrs. Locke asked about the land earmarked "retained", and Mr. White explained this land (Section 16) is owned by the State and loaned to us for use for a school and we cannot sell it. Mr. Rachal stated that any interest in these properties should be referred to the Superintendent.

Mr. Riall asked staff to explain how the District has multiple one-acre size properties, and Steve White explained these were the one-room school properties.

THIRD PARTY SERVICES

Mr. Rachal referenced a report he made to the Board following his attendance at the NSBA Annual Conference. He said he brings this forward to discuss if this something the committee wishes to look further into the options available. He has been asked many times why we are not doing this and he believes it starts with the fact that the District has never received a request to do so. Mr. Rachal stated the goal would be to decide if the Board wishes to move forward and ask staff to gather information to bring back to the committee relative to what services can be provided to the School System, i.e. maintenance, lawn care, etc. He said he believes the efficiencies and cost savings when implemented in the various areas will reflect tremendous savings. Miss Green stated when something like this is brought to the table, she needs to see solid evidence and the direction anticipated. Mr. Rachal stated that the school district already has third party services across the district and it is evident we receive better services by doing it this way. Dr. Goree said from staff's research, third party services may be cost effective, but not necessarily better. At this time, Dr. Goree stated that staff is comfortable where we are, but if the Board so directed, staff would look further into this service. Mr. Rachal said that if staff has done something like this, the Building and Grounds Committee should receive this type information. The superintendent explained that schools are staffed based upon square footage (x number of custodians per so many square feet); and when outsourcing these services, one custodian covers double the amount of square footage. Mr. Rachal asked if he understands correctly that we do not have any idea since no one has requested staff to research information. He added he believes it is up to the Committee to move forward or not and ask the staff to bring research. Dr. Goree said staff is very comfortable with the budget set for next year, staff is excited about the 5% across-the-board pay raise, and staff does not want to send a message that we are planning to outsource. Mrs. Brown cautioned the Committee that it needs to proceed with caution when talking about possibly outsourcing.

Ms. Trammel said she believes this (outsourcing) has been addressed, and Mr. Ramsey verified that we looked at Transportation and there was not one company that could handle a District the size of Caddo Parish, as well as additional areas where cuts could be made. Miss Green said it is important when having these discussions to look at the people affected by these type decisions. Mr. Rachal reminded the Committee there is no answer to the questions because the question has never been asked. Mrs. Bell asked the Committee to remember that whatever is discussed because she does not want a large number of people calling her with misinformation on this matter.

Mr. Green stated that he would entertain a motion that nothing of this nature be discussed further.

VISITORS

Jackie Lansdale, president of Red River United, stated in representing members, they have expressed concern about their wages and protecting their jobs as well. She cautioned the Board about these discussions and how employees are affected by these type changes.

Jon Glover shared her concern about discussions on out-sourcing because she is a part of the custodian staff; and to please notify staff in ample time when these discussions are taking place.

Adjournment. *Mr. Riall moved, seconded by Mr. Albritton, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:00 p.m.*

June 6, 2017

The **Caddo Parish School Board (CPSB) Executive Committee** met in regular session on Tuesday, June 6, 2017 at approximately 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Denee' Locke presiding and Dottie Bell and Steve Riall present constituting a quorum. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, Larry Ramsey, and John Albritton. Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel, were also present. Mary Trammel led the prayer and Pledge of Allegiance.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE JUNE 20, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the June 20, 2017 CPSB meeting and the following discussion ensued. Dr. Goree announced that the purchasing bid for Smartboards is being pulled as the District begins to explore using interactive monitors versus Smartboards.

Parental Review Committee for the 2017-2018 Caddo Parish Pupil Progression Plan. In response to Miss Green's request for clarification, the Superintendent responded that each Board member submits a name and this committee reviews the Plan presented to the Board.

Property/Casualty Insurance Renewals 2017-18. Mr. Rachal asked staff to highlight each one of the tabs so the Board has a better understanding of each policy. Mr. Lee stated these policies are not related to employee benefits, and most are the same policies the District has had each year, i.e. casualty, liability, property, boilers, chillers and machinery (HVACs), terrorism, malicious acts, etc. Mr. Lee said the total premium for next year is a little over \$688,000 which is actually down by about \$10,000 or 1.5% from last year.

Mr. Riall asked if we have property insurance for vandalism on our off-line properties? Mr. Abrams explained that generally it is required that someone occupy the facility and it is excluded if the facility is unoccupied. Mr. Riall asked about the air conditioners stolen from Hamilton Terrace, and Mr. Abrams confirmed it is correct they were not covered. Mr. Lee stated he believes the deductible is approximately \$1 million. Also, regarding the fire at Booker T. Washington, Mr. Abrams explained there was a self-insured policy on that building and the District paid the \$1 million and the excess was paid by the insurance; and when finalized, Caddo got back approximately \$750,000.

Adopt 2017 Millage Rates. In response to Mr. Rachal's request, Mr. Lee explained that the millage rates have come down; and while this is not a renewal, the CPSB must adopt millage rates each year. He further stated the rate has come down because the District reduced the debt service millage (down from 6 to 5 mils). He also noted that the salary and benefit millage, the technology millage and one of the capital project millages will go back to the higher rate automatically since when they renewed in 2016, the proposition was written that beginning in 2017 when these mils went into effect, they would be at the rate prior to the reassessment.

Child Nutrition Budget Revision 2016-17. Mr. Rachal asked about the new balance of \$1.6 million rather than \$11,000 and is this because of the implementation of the CEP program in our schools. Mr. Lee stated there are three parts to this budget revision: (1) Federal revenue is increasing by approximately \$2 million (\$1.8 million) for the Community Eligibility Program (CEP); (2) local revenue is down because we are not collecting lunch fees in K-8 schools as a result of offering CEP; and (3) expenditures are down as a result of ordering less food.

Human Trafficking. Mrs. Bell stated her concern over human trafficking in Caddo and the facts provided by Clay Walker and Ms. McGeehan. After talking with Mr. Anderson and Dr. Goree, about this happening in Caddo, she believes we need to train our teachers how to be more aware of signs that this may be going on in a student's life. She asked that every employee who comes in contact with a child be trained in awareness of red flags and how to report it to the appropriate authorities. Dr. Goree responded it is a growing problem, and he will ask staff to work with juvenile services to train all employees as part of new employee orientation.

Miss Green recalled that when Mrs. Locke was new to the Board, she invited Board members to see a movie (Eight Days) regarding this and this may be something to incorporate in the training.

ESTABLISH THE CONSENT AGENDA

Mrs. Locke announced that the following items will be the consent agenda: Items 7.01, 8.01, 8.04-8.10. *Mrs. Bell moved, seconded by Mr. Riall, to approve the proposed agenda and consent agenda for the June 20, 2017 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

Jackie Lansdale, president of the Red River United, congratulated the Board on their hard work this year and how proud she is that Shreveport was recognized in *Education Week* as #57 out of 689 cities that are welcoming to teachers entering this profession.

ANNOUNCEMENTS

Mrs. Bell asked that everyone remember the family of the Huntington student who recently drowned in an accident near Dallas. Mr. Riall asked if we are moving forward with the swimming lessons at the YMCA, and Dr. Goree said the District will kick this off in the fall.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:05 p.m.*

**Caddo Parish School Board (CPSB) Special Session - 12:30 p.m.
(Wednesday, June 7, 2017)**

Members present: Steve Riall, Jasmine A Green, Margaret A Brown, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, John L Albritton, Dottie Bell. **Members Absent:** Susannah Poljak, Barry Rachal, and Larry Ramsey. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

The meeting was called to order at approximately 12:30 p.m. The prayer and Pledge of Allegiance were led by Board member Trammel, District 6.

Visitors

There were no visitors wishing to address the Board.

Personnel Recommendation

Move to approve personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout.

Motion by Mary Trammel, second by Jasmine A Green.

Final Resolution: Motion Carries

Yes: Steve Riall, Jasmine A Green, Margaret A Brown, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, John L Albritton, Dottie Bell

Adjournment

Move to adjourn.

Motion by Dottie Bell, second by Jasmine A Green.

Final Resolution: Motion Carries

Yes: Steve Riall, Jasmine A Green, Margaret A Brown, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, John L Albritton, Dottie Bell

The meeting adjourned at approximately 12:37 p.m.

Denee' Locke, President

T. Lamar Goree, Ph.D., Secretary

June 20, 2017

The Caddo Parish School Board met in regular session at 4:30 p.m. on Tuesday, June 20, 2017, in the boardroom located at 1961 Midway at which a quorum was present.

Members present. Steve Riall, Jasmine A Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, Larry E Ramsey, John L Albritton, Dottie Bell. Also present were Superintendent Lamar Goree and Board Attorney Reggie Abrams. Mary Trammel led the prayer and Pledge of Allegiance.

Consideration of Minutes of the May 16, 2017, May 23, 2017, May 30, 2017, June 6, 2017 and June 7, 2017 CPSB Meetings. *Mrs. Bell moved, seconded by Mr. Riall, to approve the minutes of the May 16, 2017, May 30, 2017, June 6, 2017, and June 7, 2017 CPSB meetings as submitted. Vote on the motion carried.*

Public Hearing on 2017-18 Consolidated Annual Budget. President Locke announced the public hearing on the 2017-18 Consolidated Annual Budget open. There being no speakers, Mrs. Locke announced the public hearing closed.

Visitors. The following visitors addressed the Board on matters of interest/concern: Jackie Lansdale, president, Red River United.

Establish the agenda and the proposed consent agenda. The superintendent highlighted items for the Board's consideration. *Mrs. Bell moved, seconded by Mrs. Poljak, to establish the agenda and the consent agenda for the June 20, 2017 CPSB meeting as presented. Vote on the motion carried.*

Confirm the Consent Agenda. *Ms. Trammel moved, seconded by Mrs. Bell, to confirm the consent agenda (Items 6.01-6.04, 7.01, 8.01-8.10). Vote on the motion carried. The following is a summary of the Board's action on the consent agenda items.*

6.01 Personnel Recommendations. The Board approved personnel recommendation(s) as submitted by the Superintendent in the electronic mailout.

6.02 Personnel Transaction Reports-Resignations. The Board approved the personnel transaction reports (May resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

6.04 Requests for Leaves. The Board approved the requests for leaves as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Multiple Vendors for the purchase of Music Instruments and Equipment. *Bid tabulations sheets are filed in the official record of the June 20, 2017 CPSB meeting.*

8.01 Property/Bus Rental Requests. The Board approved requests for use of CPSB property and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out-of-state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Parental Review Committee for the 2017-2018 Caddo Parish Pupil Progression Plan. The Board ratified Board member appointments to the 2017-2018 Caddo Parish Pupil Progression Plan Parental Review Committee as submitted in the electronic mailout.

8.04 Property/Casualty Insurance Renewals 2017-18. The Board approved property/casualty insurance renewals as recommended by staff and submitted in the electronic mailout.

8.05 Adopt 2017 Millage Rates. The Board approved the following resolution adopting millage rates to be levied on taxable property in Caddo Parish for 2017, with the total recommended levy being 73.82 mills, as submitted in the electronic mailout.

RESOLUTION

BE IT RESOLVED, that the following millage(s) are hereby levied on the 2017 tax roll on all property subject to taxation by Caddo Parish School Board:

(Name of taxing district)

MILLAGE

Constitutional Tax	7.70 mills
Operations and Maintenance	16.77 mills

Operation & Maintenance Support Tax	11.04 mills
Technology Tax	1.25 mills
Salaries & Benefits Tax	20.18 mills
Building & Equipment Tax	6.73 mills
Renovation Tax	5.15 mills
Bond & Interest Tax	5.00 mills

BE IT FURTHER RESOLVED that the proper administrative officials of the Parish of Caddo, State of Louisiana, be and they are hereby empowered, authorized, and directed to spread said taxes, as hereinabove set forth, upon the assessment roll of said Parish for the year 2017, and to make the collection of the taxes imposed for and on behalf of the taxing authority, according to law, and that the taxes herein levied shall become a permanent lien and privilege on all property subject to taxation as herein set forth, and collection thereof shall be enforceable in the manner provided by law.

8.06 Naming the Herndon Gymnasium for Mr. O. C. Rollins. The Board approved naming the Herndon Gymnasium for Mr. O. C. Rollins as submitted in the electronic mailout.

8.07 Updates to CPSB Policies IDDF, EBBH, DJE-16, JGB. The Board approved updates to CPSB Policies IDDF, EBBH, DJE-16 and JGB as submitted in the electronic mailout.

8.08 Resolution to Adopt the 2017-18 Consolidated Annual Budget. The Board approved the resolution adopting the 2017-18 Consolidated Annual Budget for the Caddo Parish School Board as submitted in the electronic mailout.

8.09 Official Journal 2017-18. The Board approved *The Times* as the Official Journal for 2017-18 as recommended by staff and submitted in the electronic mailout.

8.10 Child Nutrition Budget Revision 2016-17. The Board approved the revision to the 2016-17 Child Nutrition Budget as submitted in the electronic mailout.

Construction and Capital Projects Bid

Ms. Trammel moved, seconded by Mrs. Poljak, that the following bid be approved as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Carter Construction, with a Base Bid, for the sum total of \$153,400.00 for Project 2018-021, "Fair Park Restroom Renovation, Phase II". Board member Douzart stated she is happy to support this because many tried to get work done at Fair Park for years, however, it appeared to be a waste of time. Vote on the motion carried. Bid tabulation sheets are filed in the official file of the June 20, 2017 CPSB meeting.

Board Member Announcements and Requests

Miss Green thanked staff for engaging her community at its meeting on Tuesday. She believes it was a great success in letting the community know what is happening in the district. Miss Green also expressed concern from employees about the summer hours and if they want to attend a summer meeting, the time does not allow for it. She also expressed her appreciation to Deborah Harris in Child Nutrition for timely answering her questions.

Mrs. Bell announced she attended the wake for the Huntington student that tragically drowned near Dallas, Texas. She asked everyone to keep this family in their prayers.

Executive Session

13.02 Litigation Update: Cooksey, et.al. vs. Caddo Parish School Board, Civil No. 5:17-CV-00607, Western District of Louisiana. *Ms. Trammel moved, seconded by Mrs. Poljak, to go into executive session for up to 15 minutes for the purpose of hearing a litigation update re: Cooksey, et.al., vs. Caddo Parish School Board, Civil No. 5:17-CV-00607, Western District of Louisiana. Vote on the motion carried and the Board went into executive session at approximately 4:54 p.m. The Board reconvened in open session at approximately 5:40 p.m.*

Adjournment

14.01 Adjournment. Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:42 p.m.

July 25, 2017

The Caddo Parish School Board (CSPB) met in regular session at 4:30 p.m. on Tuesday, July 25, 2017, in the auditorium of the Professional Development Center, 1961 Midway, at which a quorum was present.

Members present - Steve Riall, Jasmine A Green, Margaret A Brown, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Larry E Ramsey, Dottie Bell. Also present were T. Lamar Goree, Ph.D., Superintendent; and Reggie Abrams, Legal Counsel. **Members Absent** - Susannah Poljak, Barry Rachal, John Albritton. Board Member Raymond E. Green led the Invocation and Pledge of Allegiance.

Consideration of Minutes of the June 20, 2017 CPSB Meeting. *Mrs. Bell moved, seconded by Mrs. Trammel, to approve the minutes of the June 20, 2017 CPSB meeting as submitted.* Vote on the motion carried.

Presentations and Recognitions. Yolanda Duckworth, Assistant Director of Communications, introduced Mrs. Carolyn Spaht-Gonzalez, who shared an update on ReImagine Caddo: A Plan for Excellence. Mrs. Spaht-Gonzalez highlighted staff's efforts over the past year in reaching targets in each specific area of the District Strategic Plan, detailing the initiatives and noting if the departments have (1) met and/or exceeded the targets, (2) remained the same, or (3) shown no change toward meeting the objectives during Year 2. A copy of the powerpoint presentation and the rubric reporting progress toward meeting defined targets are filed in the official records of the July 25, 2017 Board meeting as well as attached to the electronic agenda.

Visitors. The following visitors addressed the Board on matters of concern: (1) Jon Glover, (2) Jackie Lansdale, president of Red River United; (3) Omari Ho-Sang, ASAP Shreveport; and Kayla Nicholas.

Establish the Agenda and the Proposed Consent Agenda. Superintendent Goree highlighted items for the Board's consideration. Following discussion, *Mrs. Bell moved, seconded by Mr. Riall, to establish the agenda and proposed consent agenda for the July 25, 2017 CPSB meeting as presented.* Vote on the motion carried.

Confirm the Consent Agenda. *Mrs. Bell moved, seconded by Mrs. Trammel, to confirm the consent agenda (Items 6.01-6.04, 7.01-7.02, and 8.03-8.15).* Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.01 Personnel Recommendations - The Board approved personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout.

6.02 Administrative Contract Renewals - The Board approved administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

6.03 Personnel Transaction Reports (June 2017 Resignations). The Board approved the personnel transaction reports (June resignations) as recommended by staff and submitted in the electronic mailout.

6.04 Request for Leave - The Board denied the request for leave as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing - The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet(s): (1) Borden Dairy for Milk and Dairy Products; (2) Foodway for Fruit Juice; and (3) Flowers Baking for Bread and Bread Products. A copy of the bid tabulation is filed in the official papers of the July 25, 2017 CPSB meeting.

7.02 Capital Projects/Construction - The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet(s): (1) Carter Construction with a Base Bid for the sum total of \$308,800.00 for Project 2018-205, "Fair Park Title IX Locker Room Renovations". A copy of the bid tabulation is filed in the official papers of the July 25, 2017 CPSB meeting.

8.03 Consideration of Change in Title from JROTC Supervisor to Director of Army Instruction - The Board approved the change in title from JROTC Supervisor to Director of Army Instruction as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Position Grade Adjustment - The Board approved the position grade adjustment for the Director of Information Technology as recommended by staff and submitted in the electronic mailout.

8.05 Consideration of Caddo Performance Evaluation Plan - Mrs. Lansdale expressed appreciation for the opportunity to review the Performance Evaluation Plan and administration's willingness to address their stated concerns. The Board approved the proposed revisions to the Caddo Performance Evaluation Plan as recommended by staff and submitted in the mailout.

8.06 Consideration of Louisiana Compliance Questionnaire - The Board approved the Louisiana Compliance Questionnaire as completed and submitted in the electronic mailout.

8.07 Consideration of Consent to Assignment of State Agency Lease #6889 - Mr. Woolfolk explained that Chesapeake will be transferring these to another entity and the CPSB must approve the transfer, and the money being paid will be the same. The Board approved the resolutions for consent to assignment of State Agency Lease #6889 and authorization to consent to future requests for assignment as recommended by staff and submitted in the electronic mailout.

8.08 Consideration of Amendment to AMIKids Agreement - Ms. Trammel asked about data for this program for the past school year. Dr. Goree explained that in October-November we will receive results as to how these students are performing. He added that from a qualitative perspective, there is improvement in the product and program; and this agreement will help them work with the District on continuing to support the needs in the District and help students be as successful as possible. The Board approved the proposed changes to the agreement with AMIKids/Hillsdale Elementary School, Shreveport, Louisiana as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of Coke Contract for Booker T. Washington High School - The Board approved the beverage provider agreement between Coca-Cola United of Shreveport and the Caddo Parish School District for Booker T. Washington High School as recommended by staff and submitted in the electronic mailout.

8.10 Consideration of Mental Health Interagency Agreements and Contracts - The Board approved mental health interagency agreements and contracts as recommended by staff and submitted in the electronic mailout.

8.11 Consideration of Signs of Suicide Prevention Program - The Board approved the request to implement the Signs of Suicide Program in all Caddo high schools as submitted by staff in the electronic mailout.

8.12 Consideration of Department of Exceptional Children 2017-2018 Interagency Agreements and Contracts - The Board approved interagency agreements and contracts allowing the Department of Exceptional Children to offer required services to students with disabilities residing in Caddo Parish as submitted by staff in the electronic mailout.

8.13 Consideration of Restructuring Accountability and School Support Department - The Board approved the restructure of the Accountability and School Support Department as recommended by staff and submitted in the mailout.

8.14 Proposed Changes in CPSB Meeting Dates - Miss Green asked about the purpose of one meeting in August, and Dr. Goree explained that staff, because of delays in moving back into the Board Room, is recommending the one meeting. He said he believes this will allow time to complete the construction and be ready for the 15th as opposed to meeting today and again next Tuesday. The Board approved the changes in CPSB Executive Committee and CPSB Board meeting dates as submitted in the electronic mailout.

8.15 Consideration of Proposed Revisions to CPSB Policy CCA Organizational Chart - Miss Green asked the Superintendent to explain the change where Communications will report directly to the Superintendent, and Dr. Goree said this will be a direct report of the Communications and Strategic Initiatives to the Superintendent. Miss Green asked about any additional changes in the organizational structure, and the Superintendent explained that as a result of a reduction in a few positions, there is now a direct line from the Transformation Innovation Officer to the Superintendent even though that position continues to work directly with Academics. The Board approved the proposed revisions to CPSB Policy CCA Organizational Chart as recommended by the Superintendent and submitted in the electronic mailout.

8.16 Consideration of Employee Termination Appeal in Accordance with CPSB Policy GBK - *Mr. Ramsey moved, seconded by Mr. Riall, to uphold termination of employee TW in accordance with reasons of staff. Vote on the motion carried.*

12.01 Board Member Announcements and Requests

Steve Riall - Requested information on vacant Caddo buildings.

Dottie Bell - Announced backpack give away on August 12th.

Jasmine Green - Requested information on meet and greet the new principal at Green Oaks.

Mary Trammel - Echoed Miss Green's request, announced a meet and greet for the three new principals in District 6, and reported on attendance at the Southern Leadership Conference and issues school boards will be facing.

Denee Locke - Expressed appreciation for patience in the relocation of today's meeting.

14.01 Adjournment - *Mrs. Bell moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:03 p.m.*

CPSB Audit Committee Meeting - August 15, 2017 - 3:00 p.m.

Members present - John Albritton, Chair; Susannah Poljak, Steve Riall, Raymond Green and Dr. Bonita Douzart. Also present were Superintendent Lamar Goree, Legal Counsel Reggie Abrams, Board members Barry Rachal, Denee' Locke, Dottie Bell, Jasmine Green. Staff members present were James Woolfolk, Jim Lee, Keith Burton, Diane Atkins, Jeff Howard, Mary Nash-Wood, Allison May and Kellie Duffield.

Chair Albritton called the meeting to order at approximately 3:05 p.m. and led the invocation and Pledge of Allegiance.

ATTENDANCE DEPARTMENT AUDIT

Jeff Howard stated the Attendance Department Audit was a very good audit and in summary said better utilization of the JCampus Program, which offers a lot of capabilities not being taking advantage of, would provide for more efficiency in the department. Mr. Anderson stated his agreement with the recommendations from the audit and staff has begun to implement those things. Mr. Howard added staff will in a few months follow up on the recommendations and report back to the committee.

Mrs. Bell asked about the possibility of designating one person in the Attendance Department to handle Caddo's homeless students. Dr. Goree asked Mrs. Bell how what she is asking differs from what Pittre Walker does in the Homeless Department. Mrs. Bell explained she believes someone in Attendance should be assigned the responsibility of addressing the discipline issues related to the homeless students. Mr. Rachal asked who is responsible for entering the information into JCampus? Mr. Anderson responded it is the schools' responsibility. Mr. Rachal asked if they are aware this is their responsibility each year, and Mr. Anderson said they are and inservice is held each year to provide training. Mr. Rachal inquired of the 25% that have not been entered into JCampus and if staff is addressing by going back and putting this information in the system? Dr. Goree added that the School directors work with the school principals so this information (drops) are managed at the school level. Mr. Burton explained that because of the various programs in place, we must track and are tracking each child and there is an accountability requirement in place whereby this is now happening.

UPDATE ON TRANSPORTATION FINDINGS AND RECOMMENDATIONS

Mr. Howard reported that in the \$260,000 theft, Caddo did receive money back from the insurance company and expressed appreciation to Allison May for her research and documentation. It was also noted that appropriate steps/procedures have been implemented to make sure something like this does not happen again.

UPDATE ON CHILD NUTRITION PROGRAM AUDIT

Deborah Harris shared a detailed update on the steps the CNP Department has put into place to address the recommendations in the Child Nutrition Program audit. Board members expressed their appreciation for the format in which this detailed update was provided and hopefully other updates can be presented in a similar format. Mr. Howard announced that his department is still working with CNP to address some of the larger items/recommendations and the Auditing Department will bring its follow up in a few months.

Adjournment. There being no additional business, the meeting was adjourned at approximately 3:42 p.m.

August 15, 2017

The Caddo Parish School Board (CSPB) met in regular session at 4:30 p.m. on Tuesday, August 15, 2017, in the boardroom, 1961 Midway, Shreveport, Louisiana, at which a quorum was present. **Members present** - Steve Riall, Jasmine A Green, Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Larry E Ramsey, John L Albritton, Dottie Bell

President Locke called the meeting to order at approximately 4:30 p.m. and led the invocation and Pledge of Allegiance.

Consideration of Minutes of the July 25, 2017 CPSB Meeting

On motion by Dottie Bell, second by Mary Trammel, the Board unanimously approved the minutes of the July 25, 2017 CPSB meeting as submitted.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the C.E. Byrd High School drum line who performed several cadences. Charles Lowder and Al Graham recognized the following newly appointed administrators: Belinda Stewart, principal, Atkins; Tangela Sylvie, principal, Cherokee Park; Dr. Kenya Claiborne Roberts, principal, J. S. Clark; Marjorie Manuel, principal, Oak Park; Lynn Gardner, principal, Westwood; Julia Smith O'Neal, principal, Walnut Hill; Steven Grant, principal, Green Oaks; Suzanne Flores, Field Instructor New Teacher Specialist; Shannon Henderson, Field Instructor New Teacher Coaching Specialist; Amanda Perry, Field Instructor New Teacher Coaching Specialist; Danna Spires, Field Instructor New Teacher Coaching Specialist; Dr. Carolyn Gore, Curriculum Instruction Specialist; Dr. Ruby Scroggins, Supervisor of Special Education Compliance, Complaint Management & Parent/Community Involvement, Department of Exceptional Children; Marvin Alexander, District Transformation and Innovation Officer; Renee Ellis, Transformation Specialist Community Engagement/Strategic Initiatives; Bridget Bridges, District Executive Master Teacher; and Al Graham introduced Yolanda Duckworth, assistant director of communications; and Mary Nash-Wood, director of communications and strategic initiatives.

VISITORS

The following visitors addressed the Board on their concerns: Jon Glover, Jackie Lansdale (Red River United) and Omarie Ho-Sang (ASAP-Shreveport).

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and after discussion, President Locke announced the following items as the consent agenda (Items 6.01-6.04, 8.02, 8.06 and 13.01). *Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and the proposed consent agenda as submitted. Vote on the agenda carried unanimously.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Bell to confirm the consent agenda (Items 6.01-6.04, 8.02, 8.06 and 13.01) as submitted. Vote on the motion carried unanimously and the following is a summary of the Board's actions on these items.

6.01 Personnel Recommendations. Miss Green inquired if this is a new position, and Dr. Goree explained that last month the Board approved dissolving the Director of Accountability and Research and creating two positions at a lower pay grade (supervisor level). The Board approved the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout.

6.02 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by staff and submitted in the electronic mailout.

6.03 Requests for Leave Without Pay. The Board approved the requests for leave without pay as recommended by staff and submitted in the electronic mailout.

6.04 Personnel Transaction Reports-Resignations. The Board approved the personnel transaction reports (July resignations) as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved request for out of state travel (General Fund) as recommended by the superintendent and submitted in the electronic mailout.

8.06 Consideration of Proposed Dating Violence Training and Reporting Policy. Mr. Abrams explained this policy comes to the Board as a result of legislation requiring the District to have a policy in place that addresses dating violence training and reporting and providing

appropriate age and grade classroom instruction for grades 7-12 enrolled in health education. He said it is his understanding from Mr. Burton that this will be a part of the sex education curriculum. He added it also requires that instruction is provided to all school employees that have contact with students in these same grades to include warning signs, definition of dating violence and how to address/report appropriately. Also, the Superintendent is required to report to the Board in the spring of each school year.

Mr. Rachal asked about the possibility of offering an opt-out and he believes the fact that it will be addressed in the Sex Education classes should be added to the policy. Mr. Abrams deferred to administration to address how it is provided, because Board policy only establishes that it must be done. Mr. Abrams said it is his understanding from Dr. Goree and Mr. Burton that it will be offered under the Sex Education class and parents always have the opportunity to opt-out students. Mr. Rachal asked about adding "taught in the appropriate class", and Mr. Abrams said he can add it in the first paragraph. Mr. Ramsey asked if this will include the opt-out provision, and Dr. Goree stated that if the parents opt out of the Sex Ed class, it would also opt out this portion. Mrs. Locke asked Mr. Abrams if she understands correctly that the State is referring to this as a safety issue and not a sex ed issue. Mr. Abrams explained the way it is written with the inclusion of the word sexual, does not mean discussing sex; however, if someone uses any type of sexual action against someone, it could certainly be a part of it. Mrs. Bell asked if this will be a new class, and Mr. Abrams said it has not been developed; and he is reading the recommended language from the State Statute and the state law directs the District what to do. She also asked how teacher training will be done, and Mr. Abrams concurred that once the Board approves the policy, staff will develop how the teachers will be trained. Mr. Abrams explained this policy encompasses two things: (1) training of the employees, and (2) teaching the students. Mr. Burton said a lot of the content is already in the Sex Education curriculum and staff will make minor adjustments to make sure Caddo aligns with the Act.

The Board approved the proposed policy addressing dating violence training and reporting as recommended by legal counsel and as amended.

13.01 Student Readmission Appeal Hearings. The Board approved student readmission appeals for Students SS, JA, JG, AM, and JM as recommended by staff and included in the electronic mailout, and whose parents are in agreement.

RECONSIDERATION OF REQUEST FOR LEAVE WITHOUT PAY

Mr. Ramsey moved, seconded by Mrs. Bell, that the request for reconsideration of leave without pay and the request for leave without pay be denied in accordance with the recommendations of staff.

Mr. Rachal asked for clarification on the new policies relative to leaves of absence. Mr. Abrams explained that the Leave of Absence Policy is a little different, but the state law is not different and requires that the Board determine whether or not it is in the best interest of the District to grant a leave without pay. He further explained that this request is being brought back to the Board for reconsideration because when the leave without pay was submitted last month it did not include the rationale and reasons; and the Board's new policy states that why or why not the staff recommends approval should be attached. Mr. Abrams further explained his understanding that the Superintendent did not believe granting this request was in the best interest of the District when the District has a shortage of Special Education teachers, and if granted, the position would have to be held open. Mr. Rachal said he doesn't believe these have come to the Board in the past for approval and asked why there are leaves of absence under superintendent's report for information and not for the Board approval. Mr. Abrams further explained that a leave of absence does not require a Board vote, only a leave without pay. Mr. Abrams explained that employees' requests for leaves have been denied in the past, and unless the employee appeals it to the Board, the Board will not see these requests. Mr. Rachal asked if he understands correctly that the employee must request it come before the Board to appeal and it is not in the policy that the Board approves. Mr. Abrams said it should come to the Board and the Board policy corrected that. Mr. Rachal asked for further clarification because 8.03 and 9.02 are all requests for leaves without pay, and Mr. Abrams explained the ones he is looking at are sabbatical leaves. Mr. Rachal asked if Board policy designates the difference between them, and Mr. Abrams explained absolutely and the Board must grant medical or educational sabbatical leaves unless there is a rationale not to as provided by statute, as there is total discretion on leaves without pay. Mr. Rachal asked if a medical leave is also a leave without pay, and Mr. Abrams explained a leave without pay does not have to be medical or educational. Mr. Abrams noted that sabbatical statutes are very specific as to how they can be granted and denied which is totally different than a leave without pay (as it is provided by a different statute).

REVISION TO CPSB POLICY GBK

Mrs. Lansdale addressed the Board regarding her concerns and the agreement with HR that a procedures handbook would be created from the old policies, i.e. just cause and fairness provisions; and she asked the Board to request administration provide a forum to come up with such a handbook. *Mrs. Bell moved, seconded by Mrs. Poljak, to approve revision to CPSB Policy GBK as recommended by legal counsel and submitted in the electronic mailout.* Mr. Rachal reiterated things Mrs. Lansdale brought up and asked if the employee organizations were brought to the table. Dr. Goree stated that anytime policy evaluations are done that affect personnel, the employee organizations are brought in, and this policy is only a correction to an incorrect referenced policy. He and staff will continue to work with others relative to proposed revisions. Mr. Rachal asked if the specific items brought up by Mrs. Lansdale were brought up in the discussion meetings. Dr. Goree responded that many of the items that Mrs. Lansdale spoke of are ongoing conversations with staff and counsel, and how they are governed in the District, and this item addresses a change in a reference within policy. Mr. Rachal asked if staff is looking to bring back this policy. Mr. Abrams explained that revisions in the policy were reviewed for several years; and when reviewing the policy and noting that it refers to a policy that is incorrect and the former GBM policy is now GAE, which is the only change requested. In providing for more due process, Mr. Abrams noted we actually carry over a lot of due process from before; and while there was an issue of providing more process, involving non-tenured teachers was removed by the State Legislature in Act 1 of 2012. Mr. Riall asked Mr. Abrams if he is correct and in this specific situation and if an employee asks for a leave without pay for a specific purpose for a specific time, isn't it correct that at the end of the time and they return to Caddo schools, they still have their full tenure and standing. Mr. Abrams confirmed that is correct and the position would need to be held at that site. Mr. Riall added that it is at the Board's discretion whether or not such a leave request is approved by the Board. Mr. Abrams stated that the key issue is that the Board believes it is in the best interest of the District, which comes from the Superintendent's recommendation. *Vote on the motion carried with Mr. Rachal opposed.*

CONSIDERATION OF PROPOSED POLICY FOR THE SALE OF UNUSED REAL PROPERTY

Mr. Rachal moved, seconded by Ms. Trammel, to approve the proposed policy for the sale of unused real property as recommended by staff and submitted in the electronic mailout. Mr. Rachal thanked the staff and Mr. Abrams for bringing this policy. In visiting with staff, he said we have always run into issues and he also wants Mr. Seabaugh and Mr. Peacock to know how much Caddo appreciates them carrying this legislation to fruition. He added this is good news for taxpayers and will allow Caddo to be more efficient and effective with its facilities with a better avenue to return more money back to the school system and students. Mr. Abrams explained this policy is a result of legislation proposed by the CPSB and submitted by Senator Barrow Peacock to use a process other than the sealed bid process for the sale of real property and which was ultimately approved and signed into law. Caddo has followed the state law in dealing with real property that required advertising and sealed bids, followed by a three-step process of reducing the price each time a bid was not received. Ultimately, because there were no bids, the CPSB would end up selling it at a fire sale. The new process includes the use of a real estate broker, and it requires that the Board have a policy in place to allow use of a real estate broker. This policy includes the qualifications of an appraiser and procedures to be followed if selecting to use a real estate broker and their qualifications. *Vote on the motion carried.*

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Miss Green expressed appreciation to staff and principals for the smooth opening of school. She also applauded Deborah Harris, Child Nutrition Program Director, for the awesome presentation she made to the Audit Committee prior to this meeting.

Ms. Trammel expressed how exciting the visit to Fair Park Middle School was on Monday as they gathered on the opening day of school to Ring the Bell. She thanked everyone for a smooth opening of the 2017-18 school year.

Mrs. Brown echoed appreciation to the Superintendent and his staff for an outstanding opening of school.

Mr. Riall thanked Col. Sweeney for providing the Northwood High School Color Guard for posting the colors at the Radio Control Warburg Fly-in at which they raise funds for veterans. He also stated he is submitting his third request for information on the cost of security for off-lined facilities.

Mr. Rachal stated that Captain Shreve and University Elementary are both celebrating 50 years this year with a lot of events planned throughout the year. He also addressed the number of students at University.

Dr. Douzart thanked everyone for marching in and out in grand style. Mr. Green also expressed how well the programs were planned at the schools, i.e. especially Fair Park Middle School. Mrs. Bell echoed the comments about the opening of school; and because she doesn't believe new teachers always meet Board members, she went to the schools in her district, met the new teachers and presented tea cakes to them.

Dr. Goree also echoed Miss Green's comments in recognizing Mrs. Harris's hard work. He also recognized his staff who worked diligently over the summer to staff, prepare and open schools for children, specifically Mr. Woolfolk, chief operations officer; Steve White, capital projects director; and Tommy Smith, maintenance director, along with their staffs/departments for working diligently over the summer. Dr. Goree also reminded everyone that the Summer Commencement Exercises will be held on Tuesday, August 22, 2017, at 6:00 p.m. at Caddo Parish Magnet High School's Auditorium.

Adjournment. Mrs. Bell moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:12 p.m.

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

CPSB Insurance and Finance Committee Meeting - Tuesday, August 15, 2017, 2:00 p.m.

Members present - Chair Dottie Bell, Susannah Poljak, Mary Trammel and Raymond Green. Larry Ramsey was absent. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams, Board members Steve Riall, Dr. Bonita Douzart, Denee' Locke, Barry Rachal, Staff Members Jim Lee, Keith Burton, Diane Atkins, Mary Nash-Wood.

Mrs. Bell called the meeting to order at approximately 2:00 p.m. Steve Riall led the invocation and Pledge of Allegiance.

Establish the Agenda as Submitted. On motion by Mary Trammel, second by Raymond Green, the committee established the agenda as submitted.

Confirm the Agenda. On motion by Mary Trammel, second by Raymond Green, the agenda was confirmed as presented.

2018-19 Group Insurance Renewals.

Randy Watson, director of insurance, shared that for the 2018-19 group insurance renewals the benefits are not changing, there will be no increase in deductibles, out of pocket expenses or co-pays until April 2019, and the only changes will be those required by law. He stated there is an added benefit available (Telemedicine) for the Board's consideration. Mr. Watson also reported that Caddo hires Blue Cross to do the administrative services and they do so with one of the lowest fees in the state; and Blue Cross has agreed to keep the fees the same to 2020. Regarding reinsurance large claims, and we went to a \$750 deductible last year, and staff recommends staying with this and going with the lowest bid. If the Committee is interested, he would like to bring additional medical management strategies since these have saved the District millions of dollars over the years. In response to Mr. Rachal's request for clarification on medical management strategies, Mr. Watson explained this is where we work with doctors, giving them financial incentives which have resulted not only in positive changes in patients' blood pressure, diabetes, etc. but a savings as well for the patient and the physician. Mr. Rachal shared his experience with his doctor and the doctor's success when the patient follows his recommendations.

The District's Dental insurance is also with Blue Cross and he shared that he did bid this benefit to determine what another company (Delta) could provide, however, the comparison indicated better discounts and savings with Blue Cross. He also explained Caddo's dental plan is one of the few plans that allows retirees and that is because the state retirement system only allows two payroll slots which we use for health and life. Years ago Blue Cross agreed to bill retirees directly on bank draft check, and this was implemented one at a time as people retired; and at this time, there are over 2,000 retirees on the dental plan. If Caddo goes to a new carrier, Blue Cross has the retirees bank information and this would not transfer and there would be no way staff could get this information again.

Mr. Watson also reported there will be no change/increase in the Life Insurance premium before 2020, and added there are more retirees on the Life Insurance plan which claims are guaranteed. The Disability Plan also has a guarantee two-year rate. Relative to pharmacy and the company that analyzes drug usage and reaches out to the doctors about changing from name brand to generic, Mr. Watson reported that we are at the end of the two years since implementation and are seeing an estimated \$2 million in savings as a result. The only change in the pharmacy is staff recommends, rather than using a third party, going directly to PCM which will drop the rates by 17%. Mr. Rachal asked about the Stabilization Fund since he does not recall seeing this on Caddo's Balance Sheet. Mr. Watson responded that this is held by Blue Cross and is 100% contributions, and at this time there is an overage in this fund.

Mr. Watson also shared information on opioids and the nationwide problem these pain killers have become. He stated the policy change for opioids is because Louisiana is the 6th highest in prescriptions in the nation and one of eight states that has more prescriptions for opioids than people in the state as a result of multiple uses of opioids (and this does not include cancer patients). As a result Blue Cross has worked for over a year with the CDC, Department of Health and doctors in and out of network to develop guidelines to control it.

Regarding additional benefits, Mr. Watson reported that Telemedicine is an additional benefit that could be offered to members if the board chooses. Telemedicine is offered via Blue Cross contracting with a health care provider and members have the ability to go on line and set up an account and be able to see a physician online for minor ailments. Cost of this will be \$39.00 and a claim will be filed for the member with the difference in the co-pay refunded to the member. This is another benefit being made available nationwide for minor ailments such as sinus infections, stomach ailments, rashes, etc.; and he highlighted the pros and cons of this benefit. This additional benefit was shared with the employee organizations who have indicated they would like to see this benefit implemented by the Board. Mr. Watson further explained that adding this benefit will not cost anything and actually save money. He also stated that he is only reporting that the employee organizations and the retirees would like to see this benefit added. The only cost to the member using this benefit would be the difference between the co-pay and the \$39 paid at the time of service, but the Board would have to make the decision to add this benefit and pay for it. Ms. Trammel said the information is great; however, she expressed her concern that the committee had not received the information (the change) before today's meeting and have now learned that the retirees and employee organizations were already made aware of this. Mr. Watson explained that all staff did before today's meeting was meet with the employee groups and retirees to get their input, so that the input could also be brought to the committee. Mr. Lee explained that the process/timeline followed is the same process that has been followed for years so that when it is brought to the committee, the committee would have an idea if this is being supported by the employees. Dr. Goree expressed his understanding of the concerns expressed; however, he feels that Mr. Watson's goal is to come to the committee with what will be recommended to come from the committee to the full Board for the renewals. This additional benefit is something he believes should be added since it is a no cost, but will benefit the District; and while he understands the concerns expressed, this is the process that historically has been followed.

Chair Bell stated she believes for September the committee would recommend to the Board renewal of the 2018-19 Group Insurance plans and after the full Board and members are made aware of this additional benefit, a decision could be made by the Board to add it or not.

Ms. Trammel moved, seconded by Mr. Green, that the Committee recommend adding to the September 19, 2017 CPSB agenda the 2018-19 Group Insurance Renewals for the Board's consideration. Vote on the motion carried.

Chair Bell asked that Mr. Watson explain Telemedicine at the September worksession and the Board will consider if it wishes to add it to the recommendation.

Visitors. Emma Shephard, CAE, and Kim Burton, APEL, said they shared their support of this additional benefit being made available to members. At this time, they have not bought it to their memberships, but will do so and provide feedback to staff.

Adjourn. On motion by Ms. Trammel, second by Mrs. Poljak, the meeting adjourned at approximately 2:58 p.m.

September 5, 2017
CPSB Executive Committee Work Session

Members present: Steve Riall, Jasmine A Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, Dottie Bell. Board members Margaret Brown and Larry Ramsey were absent. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams.

President Locke called the meeting to order at approximately 4:53 p.m. The invocation and Pledge of Allegiance were omitted.

PRESENTATIONS

Cenergistics Update. Mary Nash-Wood, director of Communications and Strategic Initiatives, introduced James Woolfolk, who recognized representatives from Cenergistics. Mr. Woolfolk stated that in moving forward with implementing Operations strategic objective to address energy conservation and provide the best learning environment for Caddo students, an energy conservation team has been developed comprised of Jim Lee, Finance; Tommy Smith, Maintenance; Sharon Golett, IT; himself; Leisa Woolfolk, Academics; Steve White, Capital Projects; and Vice President of Cenergistics David Goff, who is the lead for energy conservation in Caddo Parish.

Mr. Goff shared an update on what the team has done to get Caddo to the point it is; and the foundation established in their first six months in place. He confirmed that Caddo is on schedule and is moving in a positive direction. He highlighted the goals established when the team was put into place, i.e. maintain and improve comfort in all the buildings while also saving as much energy as possible when not in use, modify behavior in usage of electricity, natural gas and water, reduce the carbon footprint for the Caddo Parish schools, become a national environment leader, and retain critical funds needed in the school district. The timeline began in March and after six months of establishing the framework through meetings and correspondence with employees, getting software in place, ordering an energy cap, establishing guidelines for Caddo's program, hiring and training energy specialists (3), auditing buildings, and now they are getting into the data aspect. At this time, they are seeing opportunity for improvement and keeping funds in Caddo Parish. Mr. Goff further reported that in six months they will return and report to the Board a full data release showing the numbers, trends and consumption reductions. They will continue staff meetings to keep everyone informed as well as address comfort complaints in the schools relieving the pressure on Mr. Smith and his team. The engineering team will continue to optimize equipment to run at the highest efficiency outputs, apply for energy star ratings, and continue to develop an energy conservation culture.

Mr. Rachal inquired about the benefits of energy star, and Mr. Goff explained it recognizes the top 75% of the schools in each classification; and they hope the government will again fund it for churches, universities and public school systems. Mr. Rachal asked about the qualifications, and Mr. Goff responded it is lighting, parking lot lights, computer management, HVC management, CO2 levels in the schools, etc. He further explained there are base thresholds each school is compared to and Cenergistics does this automatically as a part of their service. Mr. Rachal asked if he has an idea how many Caddo schools will qualify at the end of 6 months, and Mr. Goff said it is hard to say at this time, but he hopes at least half of the schools will qualify.

Mr. Albritton asked if the audits conducted in the schools are establishing a baseline so progress can be marked. Mr. Goff explained that the progress is basically in the performance, and the performance will be measured and quantified in dollars saved and consumption saved. The baseline period was the 12 months before the contract was signed and everything will be compared back to that. However, to make the comparison "apples to apples", the software must also figure in things such as weather changes, rate changes, etc. They do track comfort complaints from the month they began because number one is comfort and number two is savings; and their audits look at how energy is being used and opportunities to save, i.e. systems running at 2:00 a.m. He again emphasized that the objectives of the audits are to get into the buildings and

look at lighting management, if computers are off, and how systems are controlling the usage. Mr. Albritton added he is looking for more specific goals (numbers) we can work toward. Mr. Goff stated his matrix to measure against is about \$1.2 million the first year.

2018-19 Group Insurance Renewals. Randy Watson, director of insurance, presented a brief review of the health, dental, life and disability insurances, noting that this is the best renewal in the past 20 years. He reported there will be no change in the health insurance premiums through April 2019 because of the quality of Caddo's reserves and the medical management strategies implemented the last three years. He added the out-of-pocket expenses (deductibles, co-pays, co-insurance) will also remain the same. Some of the state-required change at this time is opioid management which is something all Blue Cross plans in the State of Louisiana will see. An optional change is adding a new platform for delivering health care called Telemedicine whereby a member can contact a physician via mobile device or computer for minor illnesses. At this time Caddo has not provided this benefit, and if the member wishes to use this, they would pay the entire fee. Since this has been on the market for a couple of years, he said now may be the time to begin this benefit since now it will only cost the member the co-pay. This not only helps the member, but it also helps the plan because it is significantly cheaper than a doctor's office visit, an ER visit or an urgent care visit. He reminded the Board that Caddo is a self-funded plan which means if a claim is filed, Caddo pays it; however, claims over \$750,000 are covered by a reinsurer; and because a lot of money was saved with this higher deductible plan, it is recommended that Caddo keep the same \$750,000 deductible and staff will put it out for bid in January to hopefully get the lowest bid. He also reported that even though we are self-funded, Blue Cross administers Caddo's plan, files claims, buys the insurance books and cards, etc. Caddo has one of the lowest administrator costs in the State, and Blue Cross has offered to keep those at the same rate for the next two years. He also explained that Caddo's dental plan is a fully insured plan but has a premium stabilization fund in which Caddo pays Blue Cross a set fee; and if any money is left over at the end of the year, it is retained in a fund owned 100% by the employees. Currently there is over \$800,000 in this fund; and because of the stabilization fund balance, last year the premiums went down 10% and are now the lowest since 1998. Mr. Watson reported he bid with Delta Dental who has a comparable network and determined that Blue Cross still has the lowest administrative expenses and the highest network discounts as well as equal or larger network for dentists with a more favorable network agreement. Blue Cross indicated the need for a 10% increase premiums for claims; however, with over \$800,000 in the fund, this can be bought down to no rate increase, which is staff's recommendation. Standard Life Insurance is the life insurance provider; and after many months of negotiation, Standard has agreed to no change in benefits or premiums for the next two years. He added currently there are more retirees on this insurance than active employees; and the financial crisis a few years ago led the District to redesign the plan so the premium was based on age, which attracted more young workers and stabilized the plan. He added in the future staff will look at ways to stabilize this fund.

Mr. Watson also addressed the disability insurance with Standard, and at this time, they are not recommending any change in premiums or benefits for the next two years. Also, approximately 10% of the members on the plan actually make claims and because one-half of the individuals were using the plan over and over; the plan's parameters were changed to include longer waiting periods, which stabilized the plan. He reported that the pharmacy services contracted with in October 2015 saw a lot of savings and is the plan where doctors are contacted directly asking them to consider more cost effective drugs which has been highly effective, saving nearly \$2 million. The recommendation is that we continue contracting directly with PCM who does the work, and who is willing to do the work at a 17% discount as well as recommend renewing this for 18 months, which will put it on the same cycle as the other insurance plans.

Mr. Riall asked Mr. Watson if being self-funded on the health insurance allows Blue Cross to determine what is/isn't covered. Mr. Watson explained the State determines the base (minimum benefits) coverage, and Caddo's benefits are much richer than the State's benefits. The only time they say a benefit must be covered is if the law changes, so we determine the benefits. Blue Cross is actually the third party that processes the claims.

Mr. Rachal noted that Telemedicine was discussed at length at the committee meeting and asked if anything has been sent to the employees. Mr. Watson explained that the employee now can go to Blue Cross's web site and access Telemedicine and pay for it directly; however, if the Board approves this benefit, communication will be sent to all employees in the newsletter explaining coverage by this benefit and how it works.

President Locke shared appreciation to Mr. Watson and staff for the hard work in Caddo's insurance plan and asked him to explain the confidence in Caddo's reserves. Mr. Watson explained that at this time the reserves continue to increase and noted the slight decrease representing the one-time \$5 million for the 5% pay increase for all employees. He further stated that at this time, the District is approximately \$5 million above where we anticipated to be, so the plan has not only performed, but outperformed where staff thought we would be. Mrs. Locke asked for clarity on the amount we attempt to keep in reserves. Mr. Watson said there are a number of ways to calculate where the numbers need to be, but if we stay at \$20 million, we will be twice where we need to be. At the end of July, the District was at \$25 million which does not include the run-out reserve.

Mr. Green thanked Mr. Watson and his work to modify what employees feel every time they receive a pay increase, and that is their insurance premium increases.

School Accountability Policy. Chief Academic Officer Keith Burton shared with the Board an update on the changes in Caddo's Accountability Policy since Louisiana's ESSA plan was submitted and approved. He stated that accountability can be very frustrating for principals, teachers and District personnel alike because just when it is felt that all have a handle on accountability, the formula changes, and this is what we are again facing this year. Mr. Burton updated the Board on three critical shifts the State is pushing, (1) raising the expectations for a school to receive/earn an A, changing the proficiency level for 2025 from Basic to Mastery, (2) inclusion of a growth index which he believes will help Caddo Parish since 25% of the school performance score is based on if the student scored Mastery, Basic or Advanced, but did the student grow; and (3) rewarding elementary and middle schools in the future (2019-20) on the interest and opportunities provided students. In the formula, Mr. Burton noted there are three different scales and explained how school performance scores (score used to give a school a letter grade) are determined and how it differs from the way it was determined in the past for elementary, K-8 and high school grades. He further explained the new scale for letter grades during the transition period until 2025 and why it has changed. With a target of what must be done to get a student to the Mastery level by the end of the 8th grade, and if a student is not, they will look at how on track they are to make that happen and establish a growth target for each year. Once this is answered/addressed, they ask if the student is growing at a rate comparable to their peers; and the State will look at the data for children just like the child not reaching their growth target. He also added that 5% of the EOC tests in high school will be carved out with "did they grow".

Mr. Burton also highlighted the characteristics of the growth model, i.e. (1) child's prior achievement on standardized tests, (2) is the child designated as a special education student or has a documented learning disability, (3) is the child designated as economically disadvantaged, (4) absenteeism, and (5) does the child have a suspension record, and a scenario of how a student's growth is seen and logged.

Mr. Burton shared the importance of understanding these changes in accountability and that it is no longer based solely on Leap proficiency, but also growth via a Value Added VAM component of accountability that is 25% of a school's School Performance Score.

Mrs. Bell asked how this can be simplified and explained to parents so they can better understand a school's "F" rating. Mr. Burton responded that with the Superintendent's approval, staff can definitely meet with parents and help them understand the new accountability. In saying a school is an "F" school, he said this is the old accountability and now we have the opportunity to provide struggling schools with opportunities to grow because of the 25% value added component. With the large population of special needs students, Mrs. Bell asked how Huntington ranks and how do special needs

students rank with the grading? Mr. Burton said if they are qualified to take an EOC exam, they will be computed along with all the other students. He noted the discontinuation of LA1 and the fact that the Board will hear more about Leap connectors; and if an elementary/middle school student's IEP requires them to take the Leap exam or EOC exams in high school, they will be a part of their school's accountability and the school's score. Mrs. Bell noted the importance of making sure parents understand Caddo is moving forward, but it is hard to do so when those in Baton Rouge are continuing to change requirements.

Mr. Riall said he believes this is a move in the right direction, and Mr. Burton agreed because we have not been rewarded in the past when the District was able to provide opportunities that allowed students to move from Below Basic. Mr. Riall asked who is responsible for the new assessment process, and Mr. Burton stated it is the State (Department of Education) and BESE. Mr. Burton stated he will forward an electronic and paper copy of his presentation to the Board.

Mrs. Poljak inquired about the 5% and if that is similar to bonus points, and Mr. Burton responded it is not but it is interest and opportunities that will not be in effect for the 17-18 school year but will take effect in 2019. Mrs. Poljak asked for clarification and isn't there a 5% growth and not just interest and opportunities, and Mr. Burton said that is correct for K-8 and middle schools because when a student enters high school, the middle school can be awarded points based on the credits a 9th grader earns at the end of their freshman year, and these are not bonus points, but they are true points. She also asked how Texas and Alabama, for example, are being treated with the new assessments as Louisiana is constantly compared regionally. Mr. Burton stated ESSA has been recognized nationally for its rigorous standards; and having just recently learned about the components of the new program, he is not clear on how we compare, but staff has spent most of its time making sure that Caddo schools understand and have the support they need. Mrs. Poljak added she only wants to make sure if our school grades are not improving and we are making it harder, does it mean that Caddo's D could be Texas's B or Mississippi's A. Mr. Burton said he believes Louisiana is within the top 5th percentile as far as rigorous standards in national accountability.

Miss Green asked if, in talking about the new system, the State will allow for a grace period, and Mr. Burton explained the State has provided a transition period where the grading scale has been adjusted; because if the State implements these changes without adjusting the scale, there is no doubt that approximately 80% of Caddo's schools would drop at least one letter grade. Because the grading scale was shifted down; the adjusted scale shows a C going from a 70 this year down to a 60. He also stated the State has run examples on what the impact will be; and because there will be a leveling (making adjustments), this may be why we have not received School Performance Scores. Miss Green echoed Mrs. Bell's concern that each time Caddo gets on track, the State makes changes and there is a need to start over. She also asked about the transition and is it possible that the performance of the schools in the Transformation Zone will increase, and Mr. Burton responded he believes Zone schools' School Performance Scores will increase; however, his greatest concern is with the highest performing schools; because if they have been scoring Basic and above, this has been a safe area; and this is no longer the case and these students will have growth targets requiring them to push harder. He stressed the importance of being vigilant in working with schools and supporting them in aligning their schedules and materials with the curriculum. He also added that the Transformation Zone will be expanded and possibly there will be a need for additional Transformation Officers if we do not provide teachers with everything they need.

Mr. Rachal asked if a student in the first year grows 18 points (toward their 4-year 40 points) does it mean they only have to grow 2 points the second year. Mr. Burton said that the goal is to get students to Mastery by the end of their 8th grade year; and he explained they would look at a student's previous 3 years' growth and establish a new growth target based on the last 3 years; and since this is all new, he will verify for accuracy. Mr. Rachal asked if it is possible that special needs' students' IEPs might state they do not have to take the Leap, and Mr. Burton explained they traditionally

would have been a LA1 child and now the move is Leap connectors, so there would be a different version of the test for them to take rather than the End of Course test.

Ms. Trammel asked Mr. Burton to clarify what happens in the school when 60% is already unsatisfactory and there is only 9% advanced with nothing in the middle. Mr. Burton explained that for every child that scores Advanced, that school will receive 150 points. For every Mastery child, the school will receive 100 points; and at Basic, they will earn 70 points, which in the past they received 100 points. Now they will get a zero for every child that scores unsatisfactory or approaching Basic, but now with the growth index component, the 60% unsatisfactory students only need to show they are growing and if they reach their target, they will receive 150 points. Ms. Trammel asked what the District is going to do to address students that cannot read. Mr. Burton stressed the importance of intervening early and catching these children before Kindergarten, and he believes the community is beginning to rally behind this cry as we cannot wait until a child gets to Kindergarten. Also, it is important that the schedule developed supports the students, i.e. intervention data. She also asked about the material received from the State Department and if it is "signed in blood", and Mr. Burton agreed; however, if Caddo feels something needs to be rescored, the right is there to make that happen.

Dr. Douzart asked Mr. Burton to explain the percentage on which everything is based, and he explained a scales score is computed and based on a child's scaled score on the Leap, they look at the range and the highest ranges mean certain things through norming. Then the scaled scores are converted to levels to give a scaled range.

Mr. Green stated that many things need to happen in order for this to be done; yet, when it begins and before it is complete, additional changes will take place. He shared he believes if we are ever to achieve what is being discussed, it will be through the teachers in the classroom, and asked what will be done to reward the teachers. Mr. Green said he believes we are on the verge of merit pay, which he agrees with if the person receiving it is willing to do the job; but he believes it is necessary to adopt a process that will motivate students and teachers to get where we need to be successful.

Dr. Goree said he has had walked into many classrooms throughout the District and can count on one hand the number of classrooms visited that teachers were not teaching with every fiber in their body. As we go through this process, he added it is important not to forget the hard work of teachers every day in the classroom, and staff is using the District's Strategic Plan to support teachers and what is happening in the classrooms.

Updates to Strategic Plan: ReImagine Caddo: A Plan for Excellence. Mary Wood shared with the Board that this is the third review and update of the District's Strategic Plan implemented in 2014. The center point of Caddo's strategic plan is to increase our academic performance and every conversation brought forth must center around academic improvement. Having made great strides as a district, putting these in the 2nd and 3rd year targets, it also means we will modify further to maintain this living and breathing document that best reflects the School System as well as the community in which the District serves. This information also takes into account the information learned in Year 1 and Year 2 and Caddo will continue to use its third party evaluator to evaluate the effectiveness of the plan. Mrs. Wood reminded the Board how far the District has come through the seven pillars of academics, family & community engagement, fiscal responsibility, human resources professional development, innovation technology, operations, support services and marketing & communications.

Mrs. Wood shared the SPS scores are currently not available, and staff need more time to receive these and make certain the most accurate, up to date information is presented to the Board before any changes are made to the plan. She highlighted steps being taken by departments to establish committees to evaluate various components, i.e. K-2 Literacy, ELA and Math proficiencies, and graduation rates. Mrs. Wood highlighted the hurdles and successes in reaching objective goals in each area, how Communications will continue to partner with the departments so efforts are not duplicated, but are being addressed effectively toward reaching department goals. Additional activities include implementing a pilot program of volunteer efforts, launching a mentorship program to address the District's most at-risk students, continuing to right

size the District by working through the facilities and vacant buildings and developing a plan for addressing each, making sure through Cenergistics and the National metric that we continue to look at energy efficiency savings and how it can be turned into energy and cost savings for the District, continuing to address vacancies via incentive pay programs in place and making certain the best qualified employees are in the District's certified positions, raising the bar in retention to include professional development, position competitiveness, continuing to emphasize the importance of the growth of the fund balance in order for Caddo to continue to be a vibrant district, continuing to insure that the health care stays in alignment with needs in the District, targeting social media to tell Caddo's story, and continuing to look for ways to partner with the media in highlighting Caddo's success stories.

Mr. Rachal asked about a software that tracks all phone calls relative to complaints, requests, compliments, etc. as to where they began, where they are sent, who responded, and follows up with a survey. He believes in the marketing area as well as parental involvement, and we might want to look at this. Dr. Goree explained that over the next few weeks, staff is scheduled to begin conversations with service providers who look at quality surveying as well as ways we can improve our Superintendent Hotline. He shared his agreement that there must be a way to quantitatively, systematically keep control of what we are receiving so we can make needed changes to address the problems we have. Knowing that this has been a concern for two consecutive years, he believes it is important that we vet and get the appropriate measure/vendor in place before moving forward.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE SEPTEMBER 19, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the September 19, 2017 CPSB meeting and the following discussion ensued.

Purchasing Bids. Miss Green asked for clarification on the bid for kitchen equipment and if this will be for Linear. Lisa Lloyd, director of purchasing, explained these are stock items that will be stored and available for various schools when needed. Mr. Riall asked if the bid for transmissions is for transportation (buses), and Dr. Goree confirmed that is correct.

Reimbursement of Capital Projects Fund. Mr. Riall explained the purpose of this item is when capital projects must spend money to make improvements to an off-line property to get ready for sale, lease, rent, that the capital projects amount spent will be reimbursed to capital projects rather than the General Fund. If the property is leased, the money will go into capital projects until the amount spent is reimbursed. Dr. Goree added that staff will research to determine what original accounts paid for that school; and while many of the times the money received when selling a property does go back into capital projects in its entirety, but this is not the case always.

President Locke announced that Items 6.02, 8.01-8.04, and 13.01 are the consent agenda. *Mrs. Bell moved, seconded by Mr. Riall, to approve the proposed agenda and consent agenda for the September 19, 2017 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following addressed the Board on matters of concern: Jon Glover and Jackie Lansdale, president of Red River United.

ANNOUNCEMENTS

Mr. Rachal asked staff to bring a report on the pay schedule and highly effective stipends mentioned by Mrs. Lansdale in her comments.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion carried* and the meeting adjourned at approximately 6:40 p.m.

CPSB Special Session - 4:30 p.m. (Tuesday, September 5, 2017)

Members present: Steve Riall, Jasmine A Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, Dottie Bell. Board members Margaret Brown and Larry Ramsey were absent. Also present were Superintendent Lamar Goree and Board Counsel Reggie Abrams.

President Locke called the meeting to order at approximately 4:30 p.m. Mr. Rachal led the invocation and Pledge of Allegiance.

Personnel Recommendations

Mrs. Bell moved, seconded by Ms. Trammel, to approve the personnel recommendation as recommended by the Superintendent and submitted in the electronic mailout. Vote on the motion carried.

Request for Use of CPSB Buses

Mrs. Poljak moved, seconded by Mrs. Bell, to approve the request for use of CPSB buses as recommended by staff and submitted in the electronic mailout. Mr. Rachal asked how many buses. Dr. Goree stated it is only one bus. Vote on the motion carried.

Authorize Superintendent to Provide Transportation and Use Vacant Buildings in Evacuation Efforts

Superintendent Goree thanked the Board and the Parish for the support in helping support those in the Houston area affected by Hurricane Harvey. He shared an update on the evacuee shelters established in Caddo Parish and that as of today, they are being closed since many are returning home to Texas and those remaining are being given hotel vouchers. Those that may remain past this week in hotels will be assigned to the "home" school for the hotel address; however, staff is not anticipating a huge influx of students. This item was necessary when we began receiving evacuees in the area, but staff feels with most returning home, it is no longer needed and requested that this item be pulled.

Recess. President Locke announced a recess for the purpose of conducting the Executive Committee Work Session and the Special Called meeting will reconvene following the work session for the purpose of going into executive session to hear the litigation update. The CPSB Special Called meeting recessed at approximately 4:53 p.m. and reconvened at approximately 6:40 p.m.

EXECUTIVE SESSION

Litigation Update Re: Cooksey, et v. Caddo Parish School Board, Civil Action No. 5:17CV607, U S District Court

Mrs. Bell moved, seconded by Mr. Riall, to go into executive session for the purpose of hearing a litigation update re: Cooksey, et al v. CPSB, Civil Action No. 5:17CV607, USDC. Vote on the motion carried unanimously and the Board went into executive session at approximately 6:40 p.m. The Board reconvened in open session at approximately 7:00 p.m.

Adjournment

Mrs. Bell moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 7:00 p.m.

September 19, 2017

The Caddo Parish School Board met in regular session on Tuesday, September 19, 2017 in the boardroom located at 1961 Midway, Shreveport, Louisiana.

Present. Steve Riall, Jasmine A Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, Dottie Bell. Larry Ramsey was absent. Also present were Superintendent Lamar Goree and Board Attorney Reginald Abrams.

President Denee' Locke called the meeting to order at approximately 4:30 p.m. Barry Rachal, District 9, led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF AUGUST 15, 2017 AND SEPTEMBER 5, 2017 CPSB MEETINGS

On motion by Mary Trammel, second by Jasmine Green, the minutes of the August 15, 2017 and September 5, 2017 CPSB meetings were approved as submitted.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievements. Family members, friends and administrators present were also recognized.

Music by Caddo Parish Magnet High Student. Caddo Parish Magnet High Senior Johnum Palado, an accomplished violinist, shared *Tango Etude No. 3 by Astor Piazzolla* on his violin.

Northwood High School Student Honored at Louisiana Governor's

Mansion. Katelyn Elizabeth Reyes, 11th grade student at Northwood High School, was recognized as the 3rd place art winner in the 14-18 age group for her drawing "Manatee".

2017-2018 Student Representative of Louisiana Board of Elementary and Secondary Education (BESE).

Captain Shreve High School Senior Javin Bowman was recognized as the BESE Student Representative for District IX, which includes Caddo Parish School and surrounding districts; and is the only student representative in Louisiana chosen to serve in this capacity.

Caddo Teaching Academy.

Ellyn McKinney, director of Professional Development and Grants, introduced Cassie Harwell who introduced the following teachers accepted to this year's Caddo Teaching Academy: Lauren Rugerio, Victoria Lynn, and Michelle Peyton (Forest Hill); Amanda Goutiere, Suzanne Cutty, and Chaunte Robinson (Southern Hills); Amy Cordez and Rochelle Williams (Atkins); Amy Marlow (Werner Park); Kaydee Greene (Walnut Hill); Jennifer Jones (A C Steere); Mia Owens (Blanchard); Micki Blakely and Carson McAnelly (Timmons); Cameron Sills (Caddo Magnet High); Jessica Bennet (Youree Drive); Amy Mangham (Keithville Middle); Chelsea Stewart (Fair Park MS); Whitney Gilley (Summerfield); Hydia Lyons (Summer Grove); Erica Hernandez (North Highlands); Tomysha Watson (Northside); Elizabeth Martinez (Stoner Hill); and Samantha Huff (C E Byrd).

H. Norman Saurage III Award Finalist.

Amy Horne Williams, teacher at Fairfield Elementary Magnet, was recognized as a finalist for the H Norman Saurage III Award, a 2017 Cecil J. Picard Educator Excellence award honoring Louisiana's most outstanding public and public charter school educators for academic and community achievement. Mr. Saurage was longtime chairman of the Board for Community Coffee Company who has been an active advocate for public education in Louisiana for more than 40 years.

Newly Appointed Administrators.

Charles Lowder, director of certified personnel, introduced the following recently appointed administrators: (1) Chris McCurry, instructional coordinator, Cherokee Park Elementary; (2) Terika Williams-Walker, instructional coordinator, Creswell Elementary; (3) Aaryienne Strickland, instructional

coordinator, Queensborough; (4) Torrie Palms-Moore, assistant principal, Caddo Middle Career & Technology; (5) Dr. Montrell Whitaker, assistant principal, Booker T. Washington High School; and (6) Melissa Mainiero, supervisor of accountability and data, Academic Affairs. Dr. Goree also announced that the District hired 214 teachers who chose to work in Caddo Parish and stressed their importance in all that the school system does for children.

VISITORS

The following visitors addressed the Board on matters of concern: (1) Jon Glover (citizen), (2) John Miles (citizen), (3) Susan Bettinger (Northern and Central Louisiana Interfaith), (4) Maxine Davis (Northern and Central Louisiana Interfaith), (5) Bobby Edwards (Northern and Central Louisiana Interfaith), (6) Dawn Jordan (Northern and Central Louisiana Interfaith), and (7) Jackie Lansdale, Red River United.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

The superintendent highlighted items for the Board's consideration. President Locke announced that Items 6.02-6.04, 7.01, 8.01-8.05 and 13.01 are the consent agenda. *On motion by Dottie Bell, second by Mary Trammel, and unanimous vote of the Board, the agenda and consent agenda were established as presented.*

CONFIRM THE CONSENT AGENDA

On motion by Mary Trammel, second by Jasmine Green, the Board unanimously confirmed the consent agenda as presented. The following is a summary of the Board's action on the consent agenda items.

6.02 Administrative Contract Renewals. The board approved administrative contract renewals as recommended by staff and submitted in the electronic mailout.

6.03 Requests for Leaves. The board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

6.04 Personnel Transactions Report Resignations. The board approved the personnel transactions report (resignations) for August 1-31, 2017 as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The board approved the following bids as recommended by staff and submitted on the bid tabulation sheets in the electronic mailout: (1) Louisiana School Equipment for the purchase of Large Kitchen Equipment (Bid SFS-707); and (2) Lee's Transmission for Transmission repairs (Bid 01T-18). *A copy of the bid tabulation sheets are filed in the official papers of the September 19, 2017 CPSB meeting.*

8.01 Property/Bus Rental Requests. The board approved the requests for use of CPSB facilities or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 2018-19 CPSB Group Insurance Renewals. The board approved the 2018 Group Insurance Renewals, including adding the Telemedicine option, as recommended by the Insurance and Finance Committee and submitted in the electronic mailout.

8.04 Reimbursement of Capital Projects. The board approved that capital projects costs associated with maintenance or upgrades to offline facilities in preparation for them to be sold, leased or reutilized, be reimbursed to the Capital Projects Fund up to and including the amount spent by said department to prepare that property for sale, lease or rental.

8.05 Consideration of Revisions and Updates to Strategic Plan. The board approved the revisions and updates to the District's Strategic Plan as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The board approved appeals for students JW, SD, MK, RM, JJ, HD, DD and CS as recommended by staff in the electronic mailout and whose parents are in agreement.

BOARD ANNOUNCEMENTS/REQUESTS

Jasmine Green thanked Interfaith for their presentation and asked staff to look into this and see how Caddo might benefit from it.

Dottie Bell commended everyone on the outstanding United Way breakfast and thanked AKA for providing 1,000 backpacks for students.

Mary Trammel reminded Board members that United Way packets are at each station and she encouraged Board members to complete and turn these in.

Barry Rachal announced that Captain Shreve and University Elementary are celebrating their 50 years this year with multiple activities planned at each school.

ADJOURN

On motion by Mary Trammel, second by Jasmine Green, and carried, the meeting adjourned at approximately 5:40 p.m.

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

September 19, 2017

The **Caddo Parish School Board (CPSB) Building and Grounds Committee** met in regular session on Tuesday, September 19, 2017 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Barry Rachal presiding and the following committee members present constituting a quorum: John Albritton, Steve Riall, Margaret Brown and Jasmine Green. Also present were Denee' Locke, Mary Trammel, Raymond Green, Dottie Bell, Dr. Bonita Douzart. Superintendent Lamar Goree and Reggie Abrams, legal counsel, were also present; as well as staff members James Woolfolk, Keith Burton, Jim Lee, Roy Murry, Diane Atkins, and Steve White. Mr. Riall led the prayer and the Pledge of Allegiance.

ESTABLISH AND CONFIRM THE AGENDA AS SUBMITTED

Mr. Riall moved, seconded by Mrs. Brown, to establish and confirm the agenda as published. Vote on the motion carried.

PLAN FOR SALE AND/OR DEMOLITION OF SURPLUS PROPERTIES

Superintendent Goree highlighted items in the Strategic Plan and what needs to be done to move forward in managing facilities no longer needed to educate children. He shared staff's steps to address vacant properties and determine future needs/uses of each facility and a course of action needed; a plan for sharing with each community that will be affected; options to sell, lease, or demolish; and use of realtors following Louisiana Bid Law. He noted the staff would never recommend to the Board to sell a piece of property for less than 50% of the appraised value.

James Woolfolk, director of operations, shared with the committee staff's assessment of each available facility, a map of the surplus buildings, a recommendation for surplus buildings, as well as a map of surplus land and a recommendation.

Mr. Riall asked if the District can donate property to someone, i.e. a town. Mr. Abrams said there would need to be a type of cooperative endeavor agreement as to how and why to do this. Miss Green asked when community meetings will they be held, and Dr. Goree explained they will work with the representatives of the community to determine the best time for these. Mr. Rachal stated he believes prior to selling or demolishing, we should look at a property and see how much we can sell it for "as is". He stated his understanding that the goal would be to determine a step-by-step method to present to the Board as a whole to approve how the vacant properties will be handled. Dr. Goree agreed or staff can bring a recommendation in October on what staff will do over the next 30-90 days. Mr. Rachal said before anything is demolished, he prefers trying to sell it, as well as do a cost analysis. Mr. Woolfolk stated it is not staff's intent to move forward and do any of what is being presented but to bring each item to the Board for consideration and action. Mr. Rachal said he would like to know a price before demolishing a vacant facility; and he asked if it is correct there will no longer be a need to do an appraisal if the District pursues doing a value. Mr. Abrams said you have to get an appraisal and this is the key piece. Mr. Rachal asked if a property can be put up for sale and/or lease at the same time, and Mr. Abrams responded that the latest thing presented to the State was not about realtors leasing, but an actual sale. He also asked if the District would place itself in a legal position if there was a lease and sale at the same time. Mr. Abrams reminded him that a bid law will be used, and the first attempt would be to sell it, then go through a realtor process. Mr. Rachal asked if the District is legally bound and not able to do both at the same time, to which Mr. Abrams responded if both are done at the same time, there could be a conflict, but the contract could always be cancelled.

Mrs. Bell asked if Caddo has any say in what someone buying a school building might do with that building, i.e. start a charter school? Mr. Abrams explained there is a requirement if a charter school makes a proposal at fair market value, the District would have to give it to them first.

Mr. Woolfolk shared a list of surplus land, the location, acreage, properties currently under hunting and/or agricultural leases, and staff's recommendation. Mr. Abrams asked if any of these properties on which Caddo holds mineral rights have produced minerals, because if not within 10 years after the sale, the mineral rights are lost. Mr. Rachal stated his understanding the contract can state that prescriptive rights can be deeded back. Mr. Abrams stated he will look at this further; however, he doesn't believe the normal rule applies to a governmental body. Ms. Trammel asked about the Norris Ferry property and why we want to retain this piece of property. Dr. Goree explained that in staff's discussions about surplus properties and potential future uses, staff did not believe at this time they knew what the future might hold for that property. While there have been some past attempts to sell this piece of property, staff feels we need to retain these 20 acres at this time.

Dr. Goree stated staff will consider everything brought forth today in preparing recommendations to bring to the Board over the calendar year as it relates to uses of these available properties. Mr. Rachal asked if it is correct that when these go out for bid with any commercial brokers, they will be conducting evaluations as well as lease values. Mr. Abrams explained there must be an appraisal by an independent appraiser, separate from the realtor. Dr. Goree said anything done will be brought to the Board. Mr. Woolfolk added the community meetings in the areas of these properties must come first and staff will schedule these.

Mr. Riall moved, seconded by Mrs. Brown, that the staff continue working in the direction they have started. Vote on the motion carried unanimously.

CURRENT FACILITY ANALYSIS

Superintendent Goree shared an up-to-date list of the schools with current capacities and enrollments as of today. Mrs. Brown asked if attendance lines have been redrawn, and Dr. Goree stated there have been some changes, i.e. consolidation of Fair Park and BTW as well as reconfigurations in K-3 and 4-6 to traditional K-5, traditional middle and high schools; as well as some minor changes. He further added that last year staff utilized the Parson's Study to reevaluate current capacities. Mr. Riall asked if this will bring about any redistricting, and Dr. Goree stated part of staff's commitment during conversations around the consolidation of Fair Park included going to the community before considering any additional school closures or consolidations. Mrs. Poljak asked how overcrowding issues, i.e. University, and under-capacity issues, i.e. Atkins are being addressed? Dr. Goree stated that conversations will need to include what was done when magnet schools were established and students living in one section of the city are attending a school across the district with an underutilized school across the street from their house. While this was necessary at a time to address diversity, those situations are different today; and this must be a part of future conversations.

Mr. Rachal stated he believes because many still look at the Parson's Study, it is worth noting and making public as much as possible what we have done, i.e. 3 high schools are currently over capacity and the remaining are within a small percentage of being at capacity, and why we are at a point in the district that we are, i.e. overcrowding in some schools and under capacity at others. Relative to magnet schools, many believe these have adversely affected their neighborhood schools. In answer to Mr. Abrams' question as to how capacities were determined, Dr. Goree explained that when the Parson's Study was done Caddo was running the AB Block schedule at all the high schools, and now Caddo is running a 7-period day, and this affects capacity at schools. He said he does not have this information with him, but Mr. Woolfolk can provide these criteria. Because magnet school admissions are based upon "x" number of seats per grade

level, he knows they may be at capacity, but questions if they are over capacity. Dr. Goree stated that from a quantitative perspective, the District, in his opinion, has failed since it never asked a parent what they would do if their student did not qualify to be in magnet schools. These questions will become important as capacity and space in schools are discussed. While he agrees and hears what Mr. Rachal said, there is a risk of losing children to other alternatives. Thus, before a decision is made to cap magnets, or fix what appears to be a problem, some additional research needs to be done so decisions are made on the best information available.

Mr. Rachal asked about the issue of saying a school is at capacity, but we continue to enroll students at that school(s). Mr. Abrams stated that during NCLB the Federal Government made it clear to districts that they did not consider capacity, and asked if the capacity number includes T buildings; and Dr. Goree responded these numbers are considered *without* any T buildings. He added this is a single data point only for the current school year and numbers change year to year. Mr. Rachal asked staff to provide the capacity numbers with T buildings.

Mr. Rachal said he believes a plan is needed for southeast Shreveport, noting the fact that a school is 240 students over capacity. Ms. Trammel stated to her it is simple, because if Cedar Grove students attending University Elementary were rerouted to the schools in their neighborhood, there would not be the over-crowding problem at University or an underutilized issue in neighborhood schools; however, her only question is how established students would be affected if relocated to another school. Dr. Goree added more information is needed and this is why community engagement is critical to the conversation.

LEASE BETWEEN CPSB AND DISTRICT ATTORNEY'S OFFICE FOR THE GROUNDS AND PREMISES OF ALEXANDER LEARNING CENTER

Dr. Goree explained that as long-time partners with the school system, District Attorney James Stewart and VYJ met with staff regarding a proposal to expand their services and support the school system. DA Stewart presented a *proposed cooperative agreement* between the school system and his office for the use of Alexander Learning Center. He stated that the truancy program instituted with VYJ was very successful in keeping students in school by dealing with the parents, resulting in 20 court petitions as opposed to 700. DA Stewart added that he believes offering all the services students' need in one location works and the proposal presented is the next step. The proposal places their offices in the building (Alexander), renovates the building to meet the needs, and then locates all the wrap-around services needed in one place. Alexander is located on a bus line, has ample parking, security and the ability to grow to boot camps and other programs that will help students; and if the school system takes back Alexander at the end of the agreement, it would have the benefit of the enhancements. He asked the committee to look at the proposed cooperative agreement's details because he is committed to do whatever he can to bring the non-profit, the public and the private sector together and do what is best for the children. Dr. Goree expressed appreciation to DA Stewart and stated that the goal in the cooperative agreement is that the District would not have to add a line-item to cover this.

Mrs. Bell asked about the services we provide for AMIKids, and staff responded there is a charge for the services provided.

Mr. Rachal announced that staff will review the proposed cooperative agreement presented by the District Attorney's office and provide an update to the committee at a future date.

VISITORS

Jackie Lansdale, president of Red River United, stated that while there are a lot of good ideas, she noted several things they would be asking the District to do; and she questions the quid pro quo when she sees facilities such as Fairgrounds Field.

Mrs. Bell noted the number of vacant buildings and the need to look at this. Dr. Goree stated his agreement, and staff is looking at the cost these vacant buildings are to the District; because we do not want to enter into a different agreement and increase the District's cost.

Adjournment. *Mr. Riall moved, seconded by Mr. Albritton, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:10 p.m.*

October 3, 2017
CPSB Executive Committee Work Session

Members present: Steve Riall, Denee' Locke and Dottie Bell. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Barry F Rachal, Larry Ramsey and John L Albritton. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams.

President Locke called the meeting to order at approximately 4:43 p.m. The invocation and Pledge of Allegiance were omitted.

PRESENTATIONS

Christus Schumpert Go Noodle Wellness Program. Mary Nash-Wood, director of Communications and Strategic Initiatives, introduced Isaac Palmer, CEO of Christus Shreveport Bossier Health System; Amy Heron, Executive Director of Christus Foundation; Dana Smelser, Director of Marketing and Business Development; and Jordan Harris, Coordinator of Public Relations. Mr. Palmer expressed to the Board appreciation for the opportunity to share this innovative product that Christus is giving to the community in continuing the partnership with the schools to provide health and education for all children. He stated Christus Shreveport Bossier is committed to help outcomes in the community; and they are excited about a partnership with the School Board as well as Children's Miracle Network, that is providing the dollars, for this product that will provide results for students in a seven-parish area in Northwest Louisiana. Amy Heron explained to the Board how Go Noodle Plus will help all elementary and middle school students and teachers to learn more, have healthier weights as well as have fun in the classroom. She said helping students to be healthy and stay healthy is critical, and she shared a video of how the students will experience this in the classroom. She explained videos will be available for teachers to use in the classroom and incorporate this in their existing curriculum.

Mrs. Locke asked about the contract time limit, and Ms. Heron explained there is a three-year contract and they will be tracking usage. Mrs. Locke expressed appreciation to Christus for their generosity in providing this for the students.

Dr. Goree thanked Mr. Palmer and the Christus family for the generous donation and continued support of what we do for children.

Staffing Report for 2017-18 School Year. Diane Atkins, Chief Human Resource Officer, shared their goal to present District Staffing Goals aligned to the Strategic Plan; and included in those goals, fill the vacancies in the Core areas at 90% or higher. She announced on August 3-7, 294 (later increased to 304) new teachers were welcomed to the District. Mrs. Atkins reported that the 90% or higher vacancy fill-rate was reached in 11 elementary schools, 4 middle schools, one elementary/middle, one 7-12 grade school, and 5 high schools. She added that staffing is at 100% in the Core subjects in 22 elementary schools, 2 middle schools, 3 elementary/middle schools and 3 high schools. New teacher orientation also included targeted professional development in the Core areas by curriculum specialists. As part of Goal 2, Human Resources staff will develop and implement a multi-year plan to address the recruitment of teachers, as well as the development and retention of personnel. Mrs. Atkins introduced the HR staff and highlighted efforts in working with principals in finding certified teachers that can meet the academic demand and deliver good instruction to Caddo's students as well as recruiting efforts via job fairs and other methods.

Mr. Rachal asked about a record of the number from each of the job fairs/events, and if staff saw one more successful than another. Mrs. Atkins said they have that information. Dr. Goree added staff also wants to look at and make sure we are tracking the data effectively and determining where the quality candidates are coming from, why employees are leaving, as well as which events are attracting the more qualified teachers.

Miss Green asked Mrs. Atkins about the numbers presented and Mrs. Atkins noted a hard copy of the information at Board members' stations. Relative to recruitment, she asked staff if the information on where recruits are coming from can be provided to the Board members, and Mrs. Atkins explained that this information tracking device is not something we have, but staff could research and pull the numbers. Dr. Goree expressed appreciation in the Board's decision to hire a full-time recruiter, and Mrs. Bell commended Mrs. Atkins on the outstanding report for the beginning of school.

Mrs. Brown asked staff for a comparative cost for this year compared to last year and the year before. Mrs. Atkins stated that she does not have that information on-hand however she can put it together for the Board.

Mr. Riall asked if vacant positions are being filled or is staff adding new positions, and Mrs. Atkins explained these are vacant positions and staff does not add any new positions unless enrollment dictates adding a teacher. HR's goal is to fill the positions as needed and as staffed in the budget. Regarding support personnel, Mr. Riall asked about the 16 positions in Transportation and Mrs. Atkins explained this is a combination of bus drivers, mechanics and secretaries. Mr. Riall asked if secretaries were added in Transportation or was a secretary replaced, and Mrs. Atkins responded a secretary was replaced. Dr. Goree clarified that the report lists existing positions. Mr. Riall asked how many clerical positions are vacant in the Transportation Department; and Mrs. Atkins responded none to her knowledge. Mrs. Atkins also clarified that the positions in Child Nutrition are cafeteria workers and a new director.

Mr. Green said it is his position that when vacancies occur in the System, we should work with the university placement departments (inside and outside of Louisiana); and Mrs. Atkins said the recruiter does visit universities in the State of Louisiana and region.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE OCTOBER 24, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the October 24, 2017 CPSB meeting and the following discussion ensued.

Consideration of Revisions to CPSB Policy JDA and JGCD. Mrs. Poljak stated that as a parent of a child with an anaphylaxis reaction, she only wants to make certain that the policy allows for students to have access to epi pens or equivalent. Mr. Abrams explained that the policy as written allows for two methods for access to epi pens, (1) prescription filled for a particular student, as well as the ability for schools to have epi pens on hand, and (2) each school is allowed to have a prescription for epinephrine on hand and trained employees to administer it if needed. Mrs. Poljak asked if every school has epi pens, and the Superintendent explained that where schools have a prescription or students have checked in their epi pens, training has been provided on how to assist a student in crisis. He assured the Board that staff will research how we can provide district prescriptions or school-based prescriptions so we can have these on all the campuses. Mrs. Poljak asked about studies that address the proposed changes in the corporal punishment law and that no form of punishment can be administered to a student with an exceptionality and what determines an exceptionality. Dr. Goree stated that the School District will be convening the Discipline Review Committee before the Board meeting on October 24th, looking at the exceptions for students who can receive corporal punishment, as well as looking to remove all students from corporal punishment in Caddo. He added this conversation has taken place for the past three years and there is a lot of research to support its effectiveness in changing some of the behaviors. Staff's plan is to meet with the principals and discuss this and how we can modify, maybe even the law, and address this matter. Mr. Abrams announced that the Discipline Review Committee is scheduled for October 23rd and one of the main concerns is the statement that no form of corporal punishment shall be administered to a student with an exceptionality, excluding gifted and talented or to a student determined to be eligible under Section 504. He explained the law doesn't care if the exceptionality is related to the activity or actions of a particular student, but if you have a learning disability and are special ed, corporal punishment cannot be used. Mr. Abrams stated his concern is how to address a regular education student for the same action as

a person classified as special ed and the action has nothing to do with their exceptionality. The Discipline Review Committee will look at whether or not the policy is enforceable.

Mr. Riall asked about provisions for students on diabetic pumps and are they allowed to maintain and administer their medicines. Mr. Abrams stated that based on policy it seems if they have a prescription for the use of an insulin pump, he believes they would be able to do so; however, he would defer to the school nurse. Dr. Goree added that someone is trained at the school site to assist these students if needed.

Mrs. Bell asked about the procedure for holding a special needs student who is out of control and gets into a fight and runs, and how staff would address if they are aware the parent is not providing prescribed medication. Dr. Goree explained that in working with students with special needs, staff works through the IEP for that student; however, if the student is misbehaving and running, this is addressed through the student's BMP (Behavior Management Plan). He added the goal is to always provide students an education in the least restrictive environment, thus sometimes it is working through trial and error to keep consequences as least restrictive as possible and also consider the student's exceptionality. Dr. Goree also stated that even if we believe medication for a child would make a difference in their success in school, the District cannot require or mandate that a parent medicate a child. Mrs. Bell said she understands, but there are students in the classroom that must be protected when a special needs student is out of control. Mr. Abrams stated that Mr. Murry is very familiar with the restraint protocol and how out of control behavior is addressed and staff is trained in this protocol.

Ms. Trammel asked if the Board members can attend the Discipline Review Committee meeting when they address this issue to hopefully fully understand this policy. Mr. Abrams stated that the main issue with the policy will be whether or not corporal punishment will be administered because the current policy allows it for all students and delineates how. He reiterated his concern of how you can differentiate between two students who do the same thing and one is special ed (and the action has nothing to do with their exceptionality) and one is a regular ed student.

Mr. Rachal asked if it is necessary that *corporal punishment means* is included in the policy. Mr. Abrams responded if you do not say what it is, they will do it anyway, i.e. pinch another child, jerk an arm, etc. so the intent is to show what one cannot do and all the actions that can be considered corporal punishment.

Miss Green asked is there more than one person on campus trained to administer epi pens, and Dr. Goree stated his experience that there is always a backup person on a campus trained to administer meds and he will follow up to make sure that is correct for all of our campuses. She asked Mr. Abrams if the State allows the local Boards to develop their own rules for medication protocol, and Mr. Abrams explained that the medication policy is established by statute and lays out the guidelines for administering medications. The only difference is it says the District *may* have the epi pens maintained at school sites and have someone trained to use in case of an emergency and it is not specific to a particular student, which means it is a Board decision.

Regarding corporal punishment, Dr. Goree stated that the District can have a rule to not have corporal punishment in the District, and research indicates Caddo is the only District in the region that still utilizes corporal punishment. Mr. Rachal stated that based on the Superintendent's statement that there is no reason to have corporal punishment, it would be his suggestion to remove it. The Superintendent said he agrees, but he wants to respect the process and have a dialogue with the campus-based leadership on this before he brings a recommendation to the Board.

Mrs. Bell stated she cannot support removing it and she wants to hear why it would be recommended. Miss Green echoed Mrs. Bell's comments because she believes sometimes it is needed; and would want staff to consider this before bringing a recommendation to eliminate it from policy. Dr. Goree assured staff will bring back more information before the Board votes.

President Locke reminded the Board that this is not the time to debate, but to ask questions.

Ms. Trammel said she doesn't believe the term "corporal punishment" should be used and believes discipline should be carried out by the administrative staff. Dr. Goree added it is not being utilized at the same levels throughout the District and it is because many principals refuse to paddle someone else's child. Ms. Trammel asked about the alternatives and Dr. Goree said there would need to be alternatives. Mrs. Brown echoed Miss Green's comments.

Mr. Ramsey asked Dr. Goree if he understands correctly that principals are not allowed to determine what happens on their campus as it relates to discipline, and Dr. Goree said they absolutely are; however, the law is now saying that any child labeled special ed or 504 cannot be paddled. Mr. Ramsey asked can this not be conveyed to them since he believes there will be times a principal may need it. Dr. Goree again stated his desire to meet with the Discipline Review Committee before he brings a recommendation to the Board on direction. Mr. Ramsey said it is his opinion that we leave the policy alone.

Highly Effective Stipend. Mrs. Bell announced that backup information was placed at Board members' stations. She explained that for a teacher to be highly effective, they must have a combined score based on two observations and achievement of defined student growth. She said the Board tied the stipends to the salary schedule; and a teacher who earned the stipend would have to return to Caddo the following year in order to receive the stipend earned the previous year. She asked the Board to support that the stipends for highly effective be earned and not a part of the following year's pay schedule, and payable once the teacher is determined highly effective. Mr. Rachal said it is not a matter of whether a teacher earned it, but only when the District was trying to pay them the earned stipend. He said we told them we would pay them and they earned it, so he believes it just needs to be corrected and paid to them when it is earned.

Dr. Goree stated staff's agreement, and that this has been conversation in the meetings with the employee organizations over the last few months. Mr. Ramsey stated that when this was done, he believes it was an oversight and to convert it into salary would take Board action. He asked staff to look very carefully at when it is paid because he believes this is the issue. Dr. Goree explained that the concern is with teachers who leave the District; and because of Caddo's evaluation system, one can finish teaching in May, but the evaluation is not finalized until September; and because a teacher that has left the District is no longer employed and not receiving a salary, we were not paying it. Staff recognizes those achieving highly effective earned the stipend on May 6th and it is not their responsibility for it taking the additional months to grade the tests and finalize evaluations. Staff is working to make the necessary adjustments and be able to get the stipends to those persons who leave the District after earning the stipend.

Mr. Abrams stated that he doesn't believe an error was made, but when the salary schedule was developed Act 1 set up how the District must pay; and according to the law, no one deemed academically unacceptable could be paid additional money the following year (no step increase). At that time, no one knew what effect this would have on the budget, so it was set up where teachers deemed highly effective would receive \$250 as an incentive. He added that with this item the motion should read "that for the 2017-18 school year and for each school year thereafter, the stipend for highly effective employees be considered earned and not a part of the next year's pay schedule, but payable once the employee is determined to be highly effective regardless whether the employee is still employed by the school system". Ms. Trammel asked if she understands this to mean the teachers in the school system now and not the ones who have inquired about the last school year; and Mr. Abrams said that is correct. Mr. Riall asked if he understands correctly that it is not retroactive back to March 2013, and Mr. Abrams said that is correct.

Mrs. Locke announced that the Consent Agenda will consist of Items 8.01-8.02, and 8.04-8.06. *Mrs. Bell moved, seconded by Mr. Riall, to approve the proposed agenda*

and consent agenda for the October 24, 2017 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

The following addressed the Board on matters of concern: Billy Wayne.

ANNOUNCEMENTS

Miss Green announced that she and a few Board members attended an outstanding Council of Urban Boards of Education Conference in New Orleans.

Mr. Albritton stated he fully supports the energy group and their efforts to reduce our energy expenses; but he asked this group to keep in mind that Caddo is not in the business of reducing costs per se, but we are in the business of educating children and make sure that the energy group members understand the implications on the education program when making adjustments.

Mrs. Poljak announced that the Shreveport Garden City Club is running a program for 5th to 8th graders using the Greenwood Cemetery to teach about this community. This program, "Stones and Bones, a Walk through History", is free to students and the Garden Club pays for the buses.

Mary Trammel also complimented the Council of Urban Boards of Education Conference and the outstanding learning experience for those who attended.

Mrs. Brown stated the day the air conditioning wasn't working properly at Booker T. Washington High School she observed a number of students walking the streets and asked staff to work closely with the D.A.'s office to make sure these students are where they should be.

Superintendent Goree encouraged all to support the National Night Out on this evening.

Mrs. Locke shared with everyone that while the year started out a little "rocky" with the merger of Fair Park and Booker T. Washington and how disturbing it was to her at the time to listen to everyone's comments about the problem that would come from the behavior of students being put together in one location. She said she is proud to say there have not been any problems, and even with the necessary statements relative to recent events in the District, she again is very proud of the Caddo students and what they are learning and also teaching the adults about working together and not seeing color, demographics, political preference. She encouraged staff to relay to the schools and students how proud the Board is of them.

Adjournment. *Mrs. Bell moved, seconded by Mr. Riall, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:12 p.m.*

October 3, 2017
CPSB Special Session

Members present: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, Larry Ramsey, John L Albritton, Dottie Bell. Also present were Superintendent Lamar Goree and Board Counsel Reggie Abrams.

President Locke called the meeting to order at approximately 4:30 p.m. Mr. Ramsey led the invocation and Pledge of Allegiance.

CONSIDERATION OF REQUEST TO USE CPSB BUSES

Ms. Trammel moved, seconded by Mrs. Poljak, to approve the request for CPSB buses as recommended by staff and submitted in the electronic mailout. Vote on the motion carried unanimously.

Adjournment

Mrs. Bell moved, seconded by Mr. Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:40 p.m.

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

October 24, 2017
CPSB Meeting - 4:30 p.m.

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, Dottie Bell. Board member Ramsey was absent.

Board Member Locke called the meeting to order at approximately 4:30 p.m. Board member Riall, District 1, led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF SEPTEMBER 19, 2017 AND OCTOBER 3, 2017 CPSB MEETINGS

On motion by Dottie Bell, second by Mary Trammel, the minutes of the September 19, 2017 and October 3, 2017 CPSB meetings were unanimously approved as submitted.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Music by Herndon Magnet School Student. Katie Williams, Herndon Magnet, shared musical numbers on the piano/keyboard with the Board and audience.

Louisiana Youth Everyday Hero Award. Joey Goutherie, Youree Drive student and creator of the Geaux Green Recycling Project, was recognized for receiving the Louisiana Youth Everyday Hero Award for his "Keep Louisiana Beautiful" project.

National Merit Semifinalists. The following students were recognized for achieving National Merit Semifinalist status: Madison Huckaby - C E Byrd High; and Robert Brown; Sean Cassingham; Sean Hearn; Jack Howard; Sunjay Letchuman, Christopher McCallon, Ariel Miller; Matthew Willis; and Shayan Yerrapragada - Caddo Parish Magnet High. Caddo is the only district in Northwest Louisiana that had National Merit Semifinalists.

Perfect ACT Score. Dakota Simpson, Caddo Parish Magnet High, was recognized for earning a perfect score of 36 on the ACT. He is also a National Merit Commended Scholar.

National PTA Schools of Excellence. Amy Failla, Caddo District PTA President, recognized Blanchard Elementary and Caddo Middle Magnet as National PTA Schools of Excellence.

Newly Appointed Administrators. Al Graham, director of Classified Personnel, introduced Kay Lynch, director of Child Nutrition Programs.

VISITORS

The following visitors addressed the Board on matters of concern or interest: (1) Jackie Lansdale, Red River United; (2) Thomas Sweeney, NAAGP; (3) Jon Glover; and (4) Susan Caldwell, Barbara Jarrell, Susan Bettinger, Cantor Neil Schwartz, and Bobby Edwards, members of the Northern and Central Louisiana Interfaith (Together Louisiana).

PUBLIC HEARING RE: CHANGES TO DISCIPLINARY POLICY JDA PERTAINING TO THE REMOVAL OF SPED STUDENTS AND 504 STUDENTS WITH IAPS FROM CORPORAL PUNISHMENT

President Locke announced that the public hearing for changes to CPSB Policy JDA pertaining to the removal of SPED students and 504 students with IAPs from corporal punishment is open. The following speakers addressed the Board: Jackie

Lansdale, Red River United. Superintendent Goree stated that at the work session more aggressive changes to the Discipline Policy were discussed; and he announced at that time he would work with the Discipline Committee to determine the extent of changes to the policy. He added that concerns have been expressed to him since the work session; and after meeting with the Discipline Review Committee and surveying the principals, staff recommends making the necessary changes to insure that our policy reflects what is in law, and any additional changes would be brought to the committee for further review.

The following addressed the Board during the public hearing: Jackie Lansdale, Red River United.

Board member Trammel stated that she attended the Discipline Review Committee meeting and assured the Board that research will continue to determine what can be included in the policy in making changes in the district. Dr. Goree also thanked everyone who was a part of this conversation over the past few weeks and reiterated that in looking at statistics, there is a significant decline over the past few years in the use of corporal punishment in the district. He added he believes this speaks to the other positive forms/ways to discipline children and the need for discussion to determine the best way to prevent students from being suspended while insuring the best behavior of students in the classrooms.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Locke announced Items 6.02-6.03, 7.01, 8.01-8.02, 8.04-8.06 and 13.01 as the consent agenda. *On motion by Dottie Bell, second by Mary Trammel, the agenda and consent agenda for the October 24, 2017 CPSB meeting were established.*

CONFIRM THE CONSENT AGENDA

Dottie Bell moved, seconded by Mary Trammel, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

6.02 Requests for Leaves. The Board approved the requests for leaves as recommended by staff and submitted in the electronic mailout.

6.03 Personnel Transactions-Resignations. The Board approved the personnel transactions (resignations) for the period of September 1-29, 2017 as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Sports World as the primary awardee for student uniforms and Shreveport Gymnastic Supply as a secondary; (2) Refurbished buses will rebid at a later date; (3) Novus Glass for Vehicle Glass & Installation; and (4) Conspicuous Designer Fashions for Seat Upholstering Services. The bid tabulation sheets are filed in the official papers of the CPSB October 24, 2017 CPSB meeting.

8.01 Property/Bus Rental Requests. The Board approved requests for use of CPSB facilities and/or buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out-of-state travel (General Fund) as recommended by staff and submitted in the electronic mailout

8.04 Highly Effective Stipend. The Board approved that for the 2017-2018 school year and for each school year thereafter, that the stipend for highly effective teachers/administrators be considered earned and not a part of the next year's pay schedule, but payable once the teacher is determined to be highly effective regardless to whether the teacher is still employed by the school system.

8.05 Consideration of Authorization to go out for Bids for Lease of the MJ Moore Property. The Board authorized staff to go out for bids for lease of the MJ Moore property.

8.06 Request Authorization for Cooperative Agreement. The Board authorized staff to enter into a cooperative agreement with Lowe's and Home Depot in accordance with L.R.S. 38:2212:1, Section F as presented in the electronic mailout.

13.01 Executive Session: Student Readmission Appeals. The Board approved student readmission appeals for students DH, TH, JA, and JG as recommended by staff and submitted in the electronic mailout and whose parents are in agreement.

CONSIDERATION OF REVISIONS TO CPSB POLICY JDA AND JGCD

Mrs. Bell moved, seconded by Ms. Trammel, to approve the proposed revisions to CPSB Disciplinary Policy JDA and JGCD as submitted in the electronic mailout.

Mrs. Poljak asked, if this motion passes, that staff conduct a study on the effectiveness of corporal punishment because her understanding is that corporal punishment, even without state-sanctioned exceptions, is not evenly applied, and those on the receiving end of a paddle, are those she thinks corporal punishment will least likely help. She asked that the entire Board be educated on this matter.

Mr. Rachal announced that he wishes to make comments re: the motion on the floor and following he will request to speak again to make a substitute motion. Mr. Rachal stated his belief that paddling is meant for the parents to carry out; and knowing that suspensions affect school scores, he asked when are parents notified when the recommendation is paddling. Dr. Goree responded that in surveying principals, 99% are notified before the punishment is implemented. Mr. Rachal asked about the location of this stipulation, and Dr. Goree explained that the current policy does not require parents to be notified before it happens, but paragraph 6 states what actually took place is required. He further stated that he has yet to talk with a principal over the past two weeks that did not notify prior to administering the punishment. Mr. Rachal said that the policy stating parents could be notified after the punishment is something he takes issue with. Dr. Goree said this concern has been used to begin the discussion in several of the meetings; and he agrees this is reason for immediate change. As this is researched and something brought back to the Board, possibly in the spring, this is one thing that will be addressed. Ms. Trammel stated that principals made sure that the members in attendance at the Discipline Review Committee knew everyone was aware of the steps followed before applying a paddle; but she also learned some schools do not apply this type punishment. A consistent method needs to be followed for all students, and it will be important to work on ways that it can be made to work.

Dr. Goree stated that he and staff agree with many of the things said; however the timing, process, and the communication utilized needs to be followed so there are more students in the classroom and not at home. Mrs. Bell said as a teacher she did not allow this, but students today will quickly say that no one can make them do anything so there needs to be something in place that is consistent throughout the district. Dr. Goree also noted that records indicate corporal punishment was being administered over 1,000 times annually; however, last year, it only happened 242 times in the school system. Because of what appears to be a systematic decline, he believes it is time to bring a systematic approach to the conversation.

Mr. Rachal moved, seconded by Mr. Riall, to postpone. Mr. Abrams explained that the intent in bringing forth this motion is only so Caddo can comply with the law. He added that all the issues brought forth have been noted and is why the Disciplinary Review supports the proposed revisions as is and they will look at it over the next few months and bring a more complete recommendation. Because the proposed revisions are needed so Caddo is in compliance with the law, *Mr. Rachal withdrew his motion and Mr. Riall withdrew his second.* Dr. Goree reiterated that the next few months will be spent reviewing and developing a process for bringing a recommendation to the Board. Mr. Rachal asked if there is a way to make a change at this time and give the parent/guardian a choice for (1) parent/guardian to implement discipline, (2) school administrator to implement discipline; or (3) student to be suspended. Mr. Abrams explained that the Board can modify the policy and add specific language; however, it is necessary to have

the specific language. Mr. Rachal further stated his verbiage to add would be *that the decision for corporal punishment would be to give the parent/guardian first choice, either the parent come to the school to administer the corporal punishment themselves, or (2) authorize the trained staff person to administer the discipline, or (3) suspend the student.* Mr. Abrams asked that number 3 be removed and Dr. Goree agreed because there are too many ways we can work with the students to keep them in the classroom. Mr. Abrams further stated that it could be a problem if you do not get consent and what could happen in the interim if we are not following policy. Dr. Goree said staff will work with principals and bring a recommendation to the Board and make known why if staff does not have a different recommendation.

Mr. Riall moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried unanimously. Vote on the main motion carried unanimously.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Dr. Douzart announced that she attended the PTA meeting last week.

ADJOURNMENT

On motion by Dottie Bell, second by John L Albritton, the meeting adjourned at approximately 6:10 p.m.

T. Lamar Goree, Secretary

Denee' Locke, President

November 7, 2017
CPSB Executive Committee Work Session

Members present: Denee Locke, Dottie Bell, Steve Riall. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal, John Albritton and Superintendent T. Lamar Goree and Board Attorney Reggie Abrams.

President Locke called the meeting to order at approximately 4:35 p.m.

Colonel Eric Sweeney, director of Caddo's JROTC Program, introduced Colonel Caleb Krikorian, Northwood High School, who led the prayer. The Southwood High School JROTC students posted the colors and led the Pledge of Allegiance.

PRESENTATIONS

Col. Sweeney introduced and announced the promotion of Colonel Caleb Krikorian, Northwood High School, to Corp Commander. The following students were also recognized and promoted to Colonel: Matthew Pinchback, Caddo Magnet High; Allison Howell, Captain Shreve High; Carmen Hernandez, C.E. Byrd High; Kayla Graham, Southwood High; and ShanTanesha Glass, Woodlawn Leadership Academy.

Carmen Hernandez was also recognized as the recipient of the Bronze Cross Legion of Valor award. Superintendent Goree also recognized Jaden Bowman, the student BESE representative.

ESTABLISH THE AGENDA FOR THE NOVEMBER 14, 2017 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the November 14, 2017 CPSB meeting and the following discussion ensued.

Bids. Mr. Rachal requested a copy of all bids received for real estate services.

Mental Health Agency Agreements/Contracts. Miss Green asked for clarification and Dr. Goree explained these are new agencies that have requested to provide services to students in the District. Dr. Barzanna White brings a list of these requests twice a year and these are in addition to the agencies approved at the beginning of the school year. He further explained that Dr. White reviews each before submitting them to the Board for approval making certain they meet all the requirements and guidelines of the District. She also asked if these agencies receive any compensation from Caddo and Dr. Goree responded they do not. Mrs. Brown asked if these agencies are being evaluated for effectiveness, and Dr. Goree responded yes and that Dr. White uses a rubric and works with the principals to evaluate the services provided and their effectiveness.

Proceeds from Sale, Lease or Rental of Off-line Properties. Mr. Riall reminded the board that last month it approved reimbursement to capital projects any amount spent to get off-line facilities ready for sale, lease or rental. He explained that this motion addresses the funds received from the sale, lease or rental of off-line properties, minus those reimbursed to capital projects, and how they will be applied to the budget. Dr. Goree stated that in the past revenues for sale or lease of these properties have been deposited to the General Fund, and Mr. Riall added this is about being transparent so Board members can respond to questions from constituents.

Mrs. Bell stated she likes that the money is reimbursed to capital projects but asked what is done with T Buildings that are no longer in use. Dr. Goree noted that some, i.e. Homeless Department, are dilapidated and will be torn down. Some are moved from one site to another if they are relatively new since the cost to move one and reset it is almost as much as purchasing a new one. Mrs. Bell noted the need for a double T Building at Walnut Hill, part used for instruction and part used for a parent center.

Mr. Rachal stated his understanding that in selling real property, and if it was built with capital projects funds, that funds are returned to capital projects. Dr. Goree explained

that if it can be determined where the funds originated from in building a facility, then it is reimbursed to the appropriate fund. Jim Lee explained that because bond issues typically fund construction projects, then the money is returned to the capital projects fund; however, when it cannot be determined where the funds originated because the bonds have been paid off for so many years, there is no requirement that it be placed in capital projects and the District has placed them in the General Fund. Mr. Rachal asked if he understands that when any are sold or leased in the future, this motion allows it to be brought to the Board as to where the funds will be deposited/used. Also, Mr. Lee added if property is leased it is deposited in General Fund but if sold, it is deposited in the Capital Projects. Mr. Abrams explained that the motion for this item notes that it excludes what was used to get the property ready to sell, rent or lease and the proceeds. Ms. Trammel asked for clarification and if staff will bring the proceeds, after reimbursing Capital Projects, back to the Board to determine how it will be used; and Mr. Riall explained that the Board will not determine, but staff will bring back a recommendation as to how the proceeds will be used. Mr. Abrams cautioned that the wording in the public comment is that staff's recommendation will come back to the Board for approval, which Mr. Riall said is correct.

Consideration of Incentive Pay Adjustment for Top Gains Schools Support Staff. In today's release of scores, Dr. Goree announced there is much to be proud of in Caddo. He further stated that in January the Board approved a stipend of \$1500 to be presented to all certified employees at any named Top Gains Schools, and he is happy to announce that Caddo has four Top Gains schools (North Caddo High, Caddo Magnet High, EBW Stoner Hill Elementary and Southern Hills Elementary). He shared that the motion being brought by staff will help celebrate not only the certified personnel at these schools, but also all the support employees with a \$300 stipend. Mr. Rachal asked about the cost and Dr. Goree explained it is budget neutral. Mr. Rachal asked for a total budget on this item.

Ms. Trammel expressed appreciation for staff bringing this recommendation to recognize all staff instrumental in these schools reaching Top Gains. Miss Green also expressed appreciation to the Superintendent for clarifying this since she has received numerous phone calls. Mrs. Bell echoed comments on recognizing all the employees at these recognized schools and asked if this includes everyone at the school now or everyone at the school last year. Dr. Goree explained this stipend will be given to any employee that was at one of the Top Gains schools at least 80% last year. Mrs. Brown asked if she understands this is for all certified employees, and Dr. Goree responded that the Board approved the stipend for all certified employees in January of 2017 and the motion being brought for the Board's consideration now is to pay a \$300 stipend to all the classified (support) personnel (secretary, cafeteria workers, custodians, etc.) at the named Top Gains schools. Mrs. Brown asked about a certified nurse, and Dr. Goree explained these are not assigned at a school, but have several schools. Miss Green asked when will employees receive this stipend, and Dr. Goree said while he cannot give a definite day, he could say staff is working to make this happen in time for the holidays.

Consideration of Evaluation Compensation Stipend. Dr. Goree explained that Caddo has gone to a full TAP model in the 14 transformation zone schools as well as a TAP rubric for all schools in the District. He said it is a more rigorous evaluation process; and as a result, we do not anticipate all teachers to be in the top category. He added it is being used to coach teachers and not just as an evaluation; and this motion is asking to lower the bar so that not only the teachers in the highest category but also those who score a "3" or better have an opportunity to earn the \$250.

Mr. Rachal asked about the expected cost, and Dr. Goree said staff expects it to be cost neutral. Dr. Goree noted that in beginning this process, teachers became concerned, so he believes it will be a positive move for the District. Mr. Rachal applauded staff for bringing this method of rewarding more teachers in the District.

Consideration of 2018-19 Capital Projects and Designers. Mrs. Bell asked about the list presented and if the relocation of T Buildings includes a double one going to Walnut Hill. Mr. White explained a line item for addressing T Buildings is placed in the budget each

year; however, Academics sets the priority and determines who and where T Buildings are placed. Regarding cost, Mr. White explained the total cost to move a double T Building is between \$120,000 and \$150,000, and the cost for a new T Building is approximately \$86,000 plus the cost of fire alarm, intercom, handicap ramps and coverings from the main building. Dr. Goree stated that we only move T Buildings that are moderately new and staff will follow up on this request. Mrs. Bell asked that staff look at a double so one-half can be used as a Parent Resource Center.

Miss Green inquired about the lighting at Lee Hedges Stadium, and Mr. White explained that maintenance has reported some infrastructure (wiring) problems in the lighting; and because the lighting is original to the stadium, staff is recommending going to LED lighting, as well as addressing upgrades to wiring, lighting under the stadium, etc. Miss Green asked when Maintenance brought this to Capital Projects, and Mr. White responded this year because it had reached the point it was out of the Maintenance Department's scope of work and needs to be fully replaced. Miss Green asked if any other stadiums (BTW) are being considered, and Mr. White said at this time no other stadium has been brought to him to be done, and Lee Hedges is the main stadium in the District. In response to Miss Green's question about other stadium facilities, Dr. Goree stated staff acknowledges needs at other athletic facilities but 75% of the Capital Projects is for HVACs and keeping these systems operable.

Mr. Riall asked how much does it cost to demolish a dilapidated T Building, and Mr. White explained the cost can range from \$1,500 to \$3,000-\$4,000 plus. Mr. Riall asked about the relatively new T Buildings that were at Oil City before it closed and if anything has been done with these, and Mr. White said they have not been relocated. Mr. Riall also asked about the \$900,000 expenditure for the roof and exterior walls of the North Caddo Auto and Welding Shop. Mr. White explained the extremely bad condition of this building inside and out; and because the funds are not available to build a new building, staff is looking at what can be done in order to continue to use it and at minimum they need a new roof and new walls. Mr. Riall asked about the cost to build a new building, and Mr. White said a new building, and based on the equipment that would be placed in that building, it could cost in excess of \$2 million. Dr. Goree added that in staff's continued conversation about this, and with the skills students are being taught in this facility, it is a necessity. He also stated staff is looking at other real estate opportunities in that community as well. Mr. Rachal asked for clarification of the total cost of a new building being \$2 million plus and Phase I is \$900,000 (roof) and what would the cost be for Phase II. Mr. White stated he is unsure there would be a Phase II, but his recommendation would be interior walls and cost of equipment for the facility. He also confirmed that the inadequate ventilation in that building must be addressed. Mr. Rachal stated he believes this project should be pulled for further discussion because it appears this would be pouring good money after bad. Dr. Goree reiterated this is an ongoing conversation and there is a great chance for modification before the Board votes on this, but staff sees the Phase method of addressing the needs at this time. Dr. Goree also noted that while there is a duplication of what is offered at the Career Center, the location does not make it accessible for the students in the northern part of the parish. Regarding the cost of T Buildings being approximately \$150,000, Mr. Rachal asked if that is the cost for the future, and Mr. White explained that is the amount placed in the budget in the past; and at this time, he doesn't feel comfortable in predicting what he thinks the future amount would be. Mr. Rachal asked about the number of T Buildings being used for instruction, and the cost of a new wing per classroom, and Mr. White stated that the last wing built was approximately \$200,000 per classroom, and this was approximately eight years ago.

Ms. Trammel thanked Mr. White for the list of projects submitted and asked if Southwood is included in these HVAC projects. Mr. White stated he believes they had a chiller problem and it was repaired last summer. She also thanked him for the bleachers at Woodlawn. Mrs. Brown also shared the problem with the lighting in the BTW stadium and the need for lights to be readjusted. Miss Green asked Dr. Goree about the TBD projects and demo buildings, and what buildings are scheduled for demo. Mr. White stated that the 79th Street facility is next and the dilapidated T Buildings and staff will work to prioritize these and demolish the worst first.

Consideration of Revisions/Updates to Caddo's Strategic Plan. Dr. Goree stated that during the summer the external evaluator brought an evaluation of the Strategic Plan; and based on the evaluation, staff has worked on modifications and adjustments to the Plan. These are now being brought for the Board's consideration since the test scores were released last week. Academic goals have been updated as a result and are presented in the proposed revisions to the Plan for the Board's consideration. Mrs. Bell asked about the staff development plans and the problem of administrators and teachers being away from the school too much during the school day and how it affects scores, and the possibility of changing this. Dr. Goree responded that Academics has worked diligently to streamline professional development and the number of teachers pulled away from the campus; however there are opportunities where we have to bring them off campus, but staff is committed to minimizing this as much as possible. He further stated that if professional development is designed to be held after school hours, the attendance is poor; and we only pull people where it is critically necessary to pull them. Mrs. Bell asked if offering a stipend for teachers to attend on a Saturday training or schedule all teachers in a specific grade to have the same planning period so some of the additional training could be done during that time. Dr. Goree said Caddo is utilizing this in some ways, and this is something principals identified as a great concern in recent small group meetings he held with them.

Mr. Rachal asked about receiving a copy of the Strategic Plan with the revisions highlighted, and the Superintendent responded staff will get this done.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA FOR THE NOVEMBER 14, 2017 CPSB MEETING

On motion by Dottie Bell, second by Steve Riall, the Executive Committee established the agenda and proposed consent agenda (Items 7.01, 8.01-8.08 and 13.01) for the November 14, 2017 CPSB meeting.

POLL AUDIENCE

The following speakers addressed the Board: Jackie Lansdale, Red River United.

ANNOUNCEMENTS

Mary Trammel applauded staff for the outstanding job in the Amazing Shake Competition on Monday.

Dottie Bell shared an invitation to Board members to participate in the Thanksgiving dinner at the Juvenile Court on November 21st.

Mr. Riall asked about dates for community meetings in Oil City, and Dr. Goree responded staff is working to schedule these in December or after the first of 2018.

The superintendent announced that the Holiday supplement (\$500) will be paid to employees on Friday, November 17th. He also reported on the recent test results released and the many things Caddo has to be proud of as it continues to work and support the growth of its students, and he shared the following highlights: (1) overall District growth of 3.6 points up to a 78 C which is competitive with similar Louisiana Districts (i.e. East Baton Rouge, Jefferson), (2) Caddo does not have an "F" rated high school (Woodlawn and Fair Park came off that list), (3) Captain Shreve improved to an A school, (4) Caddo Middle Magnet is the number one performing middle school in Louisiana, (5) 11 schools had an increase in their school grade (four in the Transformation Zone), (6) 21 schools showed measurable growth, and (7) four schools showed Top Gains (Magnet High, North Caddo High, EBW Stoner Hill and Southern Hills). He encouraged everyone to take the opportunity to thank the principals, teachers, students and the families for their hard work in this accomplishment.

Adjourn. *On motion by Dottie Bell and second by Steve Riall, the Executive Committee unanimously voted to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:17 p.m.*

November 14, 2017
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, Dottie Bell. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams.

President Denee' Locke called the meeting to order at approximately 4:35 p.m. John Albritton, District 11, led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE OCTOBER 24, 2017 AND NOVEMBER 7, 2017 CPSB MEETINGS

On motion by Dottie Bell, second by Mary Trammel, the minutes of the October 24, 2017 and November 7, 2017 CPSB meetings were approved.

Motion by Dottie Bell, second by Mary Trammel.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Northwood High School Band. Members of the Northwood High School Falcon marching band performed several musical numbers for the Board and audience.

2017 Outstanding Science Teacher of the Year Award. Rosie Cash, Werner Park Elementary, was recognized for receiving the Louisiana Science Teachers Association's 2017 Outstanding Science Teacher of the Year Award.

Caddo Early Childhood Community Network and Coordinated Funding Request for Public Comment. President Locke announced that this time on the agenda is to hear public comments on the Caddo Early Childhood Community network and Coordinated Funding Request. There were no speakers on this item.

Visitors. The following addressed the Board on matters of concern/interest: Erika Brown, parent; Jackie Lansdale, Red River United; Sarah Cooper, parent; and Jon Glover, employee.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and Mrs. Locke announced 8.01-8.04, 8.06-8.07 and 13.01 as the consent agenda.

Mrs. Bell moved, seconded by Ms. Trammel, to approve the agenda and the proposed consent agenda as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Poljak, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

Property/Bus Rental Requests. The Board approved requests for the use of CPSB facilities and/or buses as recommended by staff and submitted in the electronic mailout.

Out of State Travel (General Fund). The Board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

Consideration of Mental Health Interagency Contracts. The Board approved mental health interagency contracts as recommended by staff and submitted in the electronic mailout.

Proceeds from Sale, Lease or Rental of Off-line Properties. The Board approved that the designated use of all proceeds from the sale, lease or rental of off-line property (excluding reimbursement to Capital Projects for any repairs, upgrades or maintenance relative to said properties) would be brought back to the Board for approval.

Consideration of Revision to Caddo's Pupil Progression Plan/Grading Policy. The Board approved that the high school mid-term (which may be optional) and final exams, including EOC exams, each will count 15% of a student's semester grade as recommended by the superintendent and submitted in the electronic mailout.

Consideration of Evaluation Compensation Stipend. The Board approved teachers receiving a rating of 3.0 or higher on their final evaluation based on the TAP Instructional Rubric be awarded the stipend of \$250.00 for Highly Effective as recommended by the superintendent and submitted in the electronic mailout.

Student Readmission Appeal Hearings. The Board approved student GP's re-admission as recommended by staff in the electronic mailout and whose parents are in agreement.

BIDS-PURCHASING

Mr. Rachal moved, seconded by Ms. Trammel, to approve the following bids as recommended by staff and submitted on the bid tabulation sheets in the electronic mailout: (1) U. L. Coleman for real estate services in accordance with specifications; (2) Doerle Foodservice and Foodway for canned and frozen food, fish, poultry, eggs, meat and specialty items; and (3) Carefree Janitorial and VCC Janitorial for food service paper and supplies; and authorize staff to solicit bid proposals for voice and data telecommunication services and equipment eligible for e-rate discounts. Mr. Rachal stated that because the Board has gone to great efforts over the past years to get to where we are in selling excess real estate; he appreciates U L Coleman stepping up and continuing their support of the public school system. Vote on the motion carried unanimously.

CONSIDERATION OF INCENTIVE PAY ADJUSTMENT FOR TOP GAINS SCHOOLS SUPPORT STAFF

Ms. Trammel moved, seconded by Mr. Rachal, that support personnel specifically assigned to schools identified as Top Gains by the Louisiana Department of Education receive an incentive pay of \$300. Ms. Trammel expressed her appreciation and excitement for this opportunity for support personnel and asked for the Board's support. Mr. Rachal shared his favor of this item and asked how many schools were originally in the budget for Top Gains. Dr. Goree responded projections were based on nine schools since that was the available historic data. Mr. Rachal said if nine schools had qualified, is it correct that we may not have budgeted ample funds; and Dr. Goree said we would have for the teachers, but may have had to return to the Board for other opportunities to fund the support stipend. Mr. Rachal asked about the \$83,500 left in the budgeted amount and said it would be his recommendation to set this amount aside as a carryover for Top Gains schools next year. Dr. Goree stated he is asking that this not be done because in the budget process, and with the shortfall in the assessment of our property, there are many unknown variables that can happen in the school district over the school year. He confirmed that in the future, staff will make certain ample funds are in the budget to cover certified and support personnel in recognized Top Gains schools as long as the State continues to identify schools in these categories. Mr. Rachal congratulated the Superintendent and staff for their forward thinking on recognizing the teachers and staffs in these schools and doing so monetarily. Dr. Goree added that he believes this reward is appropriate since it takes the label off schools; and while a school may be an F school, teachers and support personnel can be recognized for their Top Gains performance. He also thanked the Board for recognizing that we are more than a letter grade assigned to the school. Mrs. Bell also stated she too is pleased that we are recognizing all the employees in these schools and asked Dr. Goree about the security coordinators. The superintendent responded if they are assigned to that Top Gains school, they will be included, even

those who may no longer be at the school. Dr. Goree also stated he knows there are employees in all 62 Caddo schools working hard to receive this award. Mrs. Bell thanked the superintendent and staff for bringing this opportunity for the employees. *Vote on the motion carried unanimously.* Dr. Goree announced that the four Top Gains schools this year are Caddo Magnet High, North Caddo High, EBW Stoner Hill and Southern Hills Elementary.

CONSIDERATION OF 2018-19 CAPITAL PROJECTS AND DESIGNERS

Mr. Riall moved, seconded by Mr. Rachal, to approve the 2018-19 Capital Projects and Designers, with the exception of the North Caddo Welding and Auto Shop to be brought back in December, as recommended by staff and submitted in the electronic mailout. Mr. Riall shared his reservations about approving the project for \$900,000 for the North Caddo Welding and Auto Shop. Superintendent Goree also shared staff's concern as well and that staff continues to look at possible alternatives; and once that is determined, staff would bring that back to the Board for approval and request that the funds be reallocated to another more favorable project. He further stated that it is important to have approval of this at this time in the event that none of the alternatives work out. *Mr. Riall moved to add a friendly amendment to his original motion to state that the funds designated for this specific project would come back to the Board for approval.* Mr. Rachal stated his preference to allocate the funds for the welding and auto shop in northern Caddo keeping the line item in Capital Projects but not listing the "site". Mr. Riall asked staff how will the designer be addressed, and Dr. Goree stated that staff's goal is to identify the best recommendation and make the Board aware as soon as possible; and in the event there is no other recommendation, this is the route in which we proceed. However, based on the condition of the facility, staff does not believe the District can continue to operate past this school year without some intervention. Mr. Riall asked how much time is needed before staff will come back to the Board, and Dr. Goree stated that Operations has begun to make recommendations in staff meetings and these are being turned over to Academics to aggressively look at and hopefully have something for the Board in December in moving forward. Mr. Riall asked if the Board can approve everything with the exception of this one project and bring it back in December. *Mr. Rachal stated his agreement with this amendment to approve with the exception of the North Caddo Welding and Auto Shop to be brought back in December.*

Mrs. Brown moved to table all of 8.08 until December. Mrs. Locke announced that the motion dies for lack of a second. Mr. Albritton asked if he understands correctly that this motion if approved will not affect any of the remaining projects; and also, he believes there is an opportunity to put a facility in place to serve more than North Caddo High School in meeting the critical need for skilled trades in this area. He also stated his concern that if the Board decides to do something different, the students will be subject to some bad conditions until it is complete, and he encouraged the staff to bring back to the Board its best plan for a facility. Dr. Goree stated that the welding program at the Career Center does not have the capacity to serve the number of students interested in these skills. Ms. Trammel agreed and asked if staff is looking at other locations in that area, and Dr. Goree confirmed that is correct. Dr. Douzart also shared her agreement and recommended that special safety features be included as well. Mrs. Bell also stated her agreement because anything that happens in the north will happen in the west. Mrs. Bell said she is thankful that a need was addressed to have a parent center in west Shreveport, and Dr. Goree explained this need is not being addressed with a T Building, but staff had plans to place a parent resource center in the building adjacent to Turner that formerly housed the school nurses. Mrs. Brown also shared the need for another Career Center and affording students the opportunity to get these courses.

Mr. Riall moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried unanimously. Vote on the main motion as amended carried unanimously.

CADDO PARISH SCHOOL BOARD CHARTER RENEWAL PROCESS AND DEADLINES

Mrs. Poljak moved, seconded by Ms. Trammel, that the Caddo Parish School Board adopts the criteria and procedure based on LSA-RS 17:17:3992 and Bulletin 126 and submitted in the electronic mailout as the method by which charter school contracts shall be renewed with a deadline of December 31, 2017 for Magnolia Charter School to submit its renewal application. Ms. Trammel asked for clarification and Dr. Goree explained that as Caddo looks at its district-approved charters at the end of the five-year period, we must do a full renewal of the charter issued by the District and this will set into place the procedures to be followed to determine the renewal. Mr. Abrams explained that the state statute requires the CPSB to adopt criteria and procedures that will be utilized for the renewal process. He further stated that he took Bulletin 126, BESE's procedure to be utilized in determining charter renewals, and adapted it for use by the CPSB. The statute requires that for a charter to be renewed, the Board must vote on it by January 31, 2018, which is the year in which their charter (Magnolia) will end, and this sets the deadline for them (Magnolia) to submit their application to Caddo at December 31, 2017. Mr. Rachal asked if there is a deadline to approve the criteria and procedures, and Mr. Abrams stated we must give the procedures to them so they are aware of what they must submit to Caddo by December 31, 2017. Mr. Rachal also asked about a charter with a grade of F in the prior academic year not being eligible for renewal unless certain condition(s) are met, and noted Magnolia's F ranking. Mr. Abrams explained that we are not doing the evaluation at this time, but only adopting the criteria and procedures that must be followed. Mr. Rachal asked how this will affect Sections 4 (a) and (b) and does Caddo need to include any additional conditions, as well as Pathways in Education. Mr. Rachal asked about the possibility of moving the students at Pathways toward Magnolia. Not having had ample time to study this, he knows we have a charter that is an F and the Board will need to address this based on what BESE requires. Dr. Goree explained that he believes there are two issues and the one being determined at this time is procedures that follow BESE's guidelines relative to how the district proceeds with the evaluation and renewal of the charter, which is where we are with Magnolia School of Excellence. The concern about Pathways and their performance is a separate issue. Mr. Rachal asked if we have ample information because it doesn't say Caddo can't change or alter it to meet Caddo's needs (Sections a and b). Mr. Abrams reminded Mr. Rachal that it is a legal issue and it is necessary to follow the same rules we have with BESE. If the Board decides it is not going to review this charter, the District will be in litigation. The criteria and procedures presented are the ones applicable under Bulletin 126 which is what was decided upon based on the extension done last year. In following the guidelines, the schools must have performed and there are provisions included that give the Superintendent discretion in the recommendation. Exceptions for the alternative schools are totally different. Mr. Rachal stated he doesn't believe the Board has had the information long enough to review it. Miss Green asked if this is the renewal of guidelines and a recommendation will be brought back to the Board for a decision, and Dr. Goree said that is correct. The approved guidelines will be presented to Magnolia School of Excellence so they can prepare and submit their application by December 31, 2017; and in January, staff will bring a recommendation to the Board regarding the renewal of their charter. Mr. Abrams explained the timeline that Magnolia submits their information by December 31st, and staff reviews and brings a recommendation to the Board at its January meeting. Miss Green asked if the guidelines are set by BESE, and Mr. Abrams explained that this is Bulletin 126 modified to include Caddo rather than State Department of Education. Mr. Abrams also noted the criteria states how long the charter can be approved, between three and 10 years (a charter with a letter grade of F or D can only get a 3-year renewal, a C a 6-year renewal, a B a 7-year renewal, and A a 10-year renewal); so the most this school could receive is a 3-year renewal. Miss Green asked how long Magnolia has been in existence, and Mr. Abrams stated they are in their 5th year. Miss Green asked about Pathways and Dr. Goree said approximately three. Dr. Goree also apologized for the short notice, but this is the first time the Board has faced this situation. Mrs. Brown echoed the comments and there must be guidelines and criteria, but she believes everything else can be addressed by individual schools. *Ms. Trammel moved, seconded by Mr. Riall to call for the question. Vote on the motion to end debate carried. Vote on the main motion carried.*

CONSIDERATION OF REVISIONS/UPDATES TO CADDO'S STRATEGIC PLAN

Mrs. Poljak moved, seconded by Ms. Trammel, to approve the proposed revisions and updates to the Caddo's Strategic Plan as submitted in the electronic mailout.

Mr. Rachal inquired about the following revisions: Objective 5.03 - We are showing mastery, but what is the state average because it doesn't appear that this particular goal is tied to anything. Goal Area 5 Innovation and Technology, Objective 5.04 - The goal states that the computer student ratio will be reduced from 7:1 to 5:1 and our actual in 2016-17 shows 1.5 computers to every student and he asked if this is correct and the superintendent said it is. Mr. Rachal further stated that in talking with several schools, none reported this to be their ratio. Dr. Goree stated he will check into this because this number is more aggressive than the targets. Goal Area 7, Marketing and Communications, Objective 7.2 - With regard to the objective to build trust in Caddo Parish Public Schools as measured annually through a survey of parents and stakeholders, he stated this is one of the big objects discussed in the Board's retreat and he questions where we are since we are now in the third year. Dr. Goree stated it is important that whatever survey is used has fidelity and provides valuable information; and at this time, staff has met with professionals in survey development and implementation, and feels comfortable that this goal will be met during this year. Because staff did not have the certainty of trusting something that would provide good information, a decision was made to not move forward before now. Regarding all the groups to be involved, Mr. Rachal asked where we are in the process of their involvement. Dr. Goree responded that the groups are being involved; and while there has been communication with the groups, no meetings have been held. Mr. Rachal asked about a timetable or draft. Mary Wood stated that the data on the computer ratio was taken from the analysis presented by Carolyn Spaht-Gonzalez in July; and this is an average, i.e. more in Title I schools, and staff can verify the accuracy with her. Regarding Marketing and Communications, she explained that the groups have been identified and invited to the table, but they are not to meet together, but each group separately. Mr. Rachal said while it makes sense, his concern is the Board discussed the importance of this in its retreat, and because we are as far along as we are in the Plan, there isn't anything available for the Board to see. Mrs. Wood explained that as staff has gathered information from them, the conversations have been informal and she can provide a list of those who are involved on each committee and their involvement and ideas discussed, and those are mainly things that are brought to the Board. Dr. Goree added that if it is the Board's desire, staff can formalize the process so staff presents it to the Board. He also added that the mid-year update will be brought to the Board by Mrs. Gonzalez in February. Mr. Rachal reiterated his concern over the computer student ratio and that if this is an average across the parish, there are still some inequities in the schools he contacted because they are not near that ratio. Dr. Goree reminded the Board that this is a fluid document and changes are made as staff works through the document and learns where improvement/changes are needed. Mr. Rachal asked if this needs approval today, and Dr. Goree added there is no deadline since staff is still working toward the end, but staff would like to see the Board approve it as staff moves forward with the work. Mr. Rachal said he only wants to make note that if the computer count is correct, there will be further discussion on this. *Vote on the motion carried.*

ANNOUNCEMENTS AND REQUESTS

Miss Green noted Mrs. Bell's comment about a Parent Resource Center in District 12, and how this happened since she would like to have one in District 2.

Mrs. Bell expressed condolences to Dr. Douzart in the loss of her brother on behalf of the Board members. She announced that the Insurance and Finance Committee will meet on December 5th at 3:00 p.m., and reminded everyone about the Bayou Classic.

Ms. Trammel stated that wherever there is a parent center in the east, there are snakes in the building, and she thanked everyone who assisted with the students at Atkins and putting together baskets for Thanksgiving.

Mr. Rachal stated he requested the student count in each Board member district, and asked the Board President if the recommendation from staff regarding the Welding and Auto Shop could possibly come to the Board through the Building Committee.

Dr. Douzart thanked the Board members for their compassion, support and prayers during her family's time of loss.

Mr. Green encouraged Board members to attend the committee meetings where many questions are answered and things made clearer.

Mr. Riall noted that the information the Board received about schools in Board members' district was incorrect and he has asked that this be corrected.

Mrs. Brown announced that Simeon Wall has set up an endowment for teachers and asked that requests be sent to KTBS Simeon Wall Hall of Fame.

Mrs. Bell asked for clarification on the student populations when Board members have constituents in the same school. Dr. Goree explained that staff used the physical location of the building to determine whose district it is in.

Dr. Goree stated that in conversation about students scoring at Mastery or above, the Caddo District is at 26% and the State average is 31%.

EXECUTIVE SESSION

Ms. Trammel moved, seconded by Mrs. Poljak, to go into executive session for 10-15 minutes for the purpose of the Superintendent's evaluation. Vote on the motion carried and the Board went into executive session at approximately 6:30 p.m. The Board reconvened in open session at approximately 6:38 p.m. Mrs. Poljak moved, seconded by Ms. Trammel, to approve the evaluation of the Superintendent and authorize the Board President to evaluate whether the Superintendent is entitled to incentive pay based on this achievements relative to the board approved goals for 2016-17. The achievement level will be determined by information from multiple sources. Vote on the motion carried.

Adjourn. *Ms. Trammel moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:40 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

November 14, 2017
CPSB Transportation Committee

The **Caddo Parish School Board (CPSB) Transportation Committee** met in regular session on Tuesday, November 14 2017 at approximately 3:00 p.m. in Room 1 at 1961 Midway, Shreveport, Louisiana with Chair Steve Riall presiding and the following committee members present constituting a quorum: Dottie Bell, Susannah Poljak and Margaret Brown. Also present were Denee' Locke, Raymond Green, Superintendent Lamar Goree and Reggie Abrams, legal counsel, as well as staff members James Woolfolk, Otis Jones, Virgin Rachal, Keith Burton, Jim Lee, and Mary Wood. Mr. Riall led the prayer and the Pledge of Allegiance.

ESTABLISH THE AGENDA AS SUBMITTED

Mrs. Brown moved, seconded by Mrs. Bell, to establish the agenda as published. Vote on the motion carried.

CONFIRM THE AGENDA

Mrs. Bell moved, seconded by Mrs. Brown, to confirm the agenda. Vote on the motion carried.

UPDATE ON BUS LEASE/PURCHASE PROGRAM

Otis Jones reported that to date the District has secured 34 buses through the lease/purchase program and bids will close this Thursday on 8 refurbished buses for the current school year, bringing the total to 42. He stated the plan is to continue to add 8-10 buses each year. Mr. Riall asked if there was a time limit on the number of buses to be secured, and Mr. Jones said we have only stayed at approximately 10 buses per year. He added this is mainly because at the end of the 25-year period, we don't want to lose a large number at one time.

Ms. Rachal reported there are 198 air conditioned buses in the fleet and 8 spare wheelchair buses that are not on the road but available if needed. She noted the number of issues experienced in the past with wheelchair buses breaking down and not having extras. She added there are three air conditioned buses in need of repair, bringing the total to 187 a/c buses en route, and 129 unairconditioned buses. Mrs. Bell inquired about students on air conditioned buses one year but not another year. Staff explained buses are assigned to routes and not drivers with air conditioned buses first assigned to the longer routes. Mr. Jones also explained that senior drivers can attend the bumping session and transfer to a longer route with an air conditioned bus. Mrs. Bell thanked Mr. Jones for working out a situation for a wheelchair student.

Mr. Woolfolk noted that at least 29 of Caddo's buses are at least 22 years old, 76 are 17-19 years old, 159 are 13-15 years old, 29 are 9-11 years old and 32 buses are 0-5 years old. Mr. Jones reminded the committee that older buses consume a lot of the mechanics' time.

Mr. Riall asked about the agreement with Treadways, and Ms. Rachal stated the District is in the last phase of the contract and the Department is working on finalizing the language for the inventory purchase to present to legal for review. Mr. Woolfolk also stated that one of the major clauses of this contract is buying Caddo's inventory. In response to the timeline, Ms. Rachal explained that once legal approves the contract, Treadways is saying they can come in and do the majority of the inventory within a weekend to a week. Ms. Rachal also explained the routes that are currently over 100 miles a day and receive the newest buses, and these are primarily the Northwood, North Caddo areas. Mr. Green asked about the policy for putting air conditioned buses on the longest routes, and Mr. Jones explained it has always been the longest routes. Mr. Green asked how drivers are secured for these longer routes, and Mr. Jones explained that many times drivers interested in driving the longer routes will show up at the "bumping" session and try to get a specific route possibly because of seniority. Ms. Rachal explained how seniority works and that a driver must first leave a route, making that route available. Mrs. Brown inquired about seat belts on buses, and Mr. Jones explained that at this time, it is not something that is recommended since a bus is built with high back seats; and in a

collision, the student is held within his compartment, and in some situations getting students out of the wreckage is prohibited because they were strapped in. Ms. Rachal did explain that some of the special education buses are built to where these students can be seat-belted in. Dr. Goree added that from a research perspective, there is more evidence supporting the fact that students are in a better situation if not restrained in the event they must exit the bus. Mr. Abrams also noted that the majority of Caddo's bus accidents have been low impact with minor injuries.

Mr. Jones also noted that the US Government settled with Volkswagen for their bad emissions (almost \$1 billion) and the money from that settlement is going to the states and used primarily for the purchase of school buses in the state. The entities within the state must apply for the funds through the Department of Environmental Quality and Caddo has applied and is one of nine districts in the running for some of these funds (approximately (\$12 million - \$18 million with \$6 million taken off the top by the Department of Transportation and Development). The importance of contacting State senators and representatives was stressed.

BUS DRIVER SHORTAGE

Ms. Rachal reported a shortage of 35 drivers daily (full time active). Today, she announced there are 200 active drivers driving every day, as well as 46 subs on long-term routes. As of November 1, there were 63 sub drivers and 34 sub attendants, and so far this year, there have been 13 new sub drivers and 9 new sub attendants from the September class. A class is scheduled for November and another in January-February. She also reported that as of 2016, 27 sub drivers were hired as full time drivers and so far this year, 31 sub drivers have been hired. An additional 20 are under consideration for full time status; and once they become eligible for hire, staff will look at the job performance, driving record, and accidents to determine if it is appropriate to hire them. Mr. Jones also explained that once they began the hiring process, they learned that many of the drivers did not comply with the prerequisites of training, one of which is an ability to adapt to the routes. Mrs. Bell said she is an advocate for newspaper hiring, and she asked staff to check into placing this in the local paper. Mr. Jones stated that while there is always a shortage, the Transportation Department has had fewer complaints this year than in the years past. He also commended Ms. Rachal for the training classes she is conducting. Ms. Rachal explained that if we get about 20 applicants, we may hire 10 persons as sub bus drivers, but a problem is the number of drivers Caddo has lost after the training because they went to work for SporTran. Ms. Rachal shared the concern that if all those in the driver training become drivers, it leaves only seven on the sub list.

ROUTE CHANGES

Mr. Jones stated in response to Mr. Riall's request regarding rural areas in the parish, and this year, staff went into some of the areas where buses were backing up (i.e. dead end roads) to attempt to reduce the opportunities of backing up school vehicles. Some of the things resulting from buses backing up include a cost to the Board. He also reported that in conjunction with the Strategic Plan, a Plan was established to evaluate and come up with ways to reduce accidents, and the Department has begun to implement actions to help reduce the number of accidents; and they continue to look at ways to reduce this number, i.e. disciplinary actions, pilot project of placing a mirror at back of bus. Mr. Abrams stated that he is aware SporTran has a no-backup policy, and if there is a policy, there should also be disciplinary procedures to be followed. Mr. Woolfolk added Caddo has a no backup policy, but drivers backup any way; and it is important to come up with something to address no backing up, i.e. mirrors at the back of the buses and drivers receiving approval for turn-arounds, etc. Dr. Goree stated his agreement that rules should be followed and staff made aware of special situations. Mr. Jones explained that drivers having accidents backing up are brought before the Safety Committee to explain their story and this information is included in the packet provided. Mr. Riall asked about the rule if there are no street lights or sidewalks, students should not be walking on the road and why this is being done. Dr. Goree noted several situations this year where bus stops have been moved because of these type situations and staff will continue to do so. Mr. Jones explained how staff looks at each route, especially buses picking up students attending schools outside their neighborhood attendance zone. Mr. Abrams explained that the issue staff would have to explain to a judge if a

child is killed is costs associated with making it efficient to run a bus system versus safety. Dr. Goree reiterated for the committee that every time these adjustment requests have come to his desk, they are addressed to make it safer for the students. Mr. Woolfolk confirmed that Transportation does look at each of these situations, and noted the problem around some areas, city and rural, where there are no sidewalks. Mr. Jones explained the procedure followed; and if a request is made to address a bus stop, a form is completed with input from parents on the relocation, and this year there were approximately 800 requests.

Mrs. Bell expressed her concern about Highway 169 and a subdivision stop where children must cross the road. Mr. Jones reported that when the children are picked up on one side of a two-lane road in the morning, they do have to cross one lane in the afternoon; but bus drivers are trained not to flag students across until traffic has come to a complete stop. Mr. Riall asked about penalties for at-fault accidents, and Mr. Jones said Transportation recommends to HR five days off without pay, but the final decision is made by the director of classified personnel.

Mr. Woolfolk highlighted claims paid out and that unsafe backing up represents 68% of that amount, 8% is for cutting corners, improper turning and side-swiping. Also, 25% of the accidents result from backing up. Mr. Jones clarified a projection for a drop in accidents.

VISITORS

Jackie Lansdale, Red River United, reported on a meeting with bus drivers and they are asking the Board to meet with them and to make some significant changes in the Transportation Department. Mrs. Lansdale asked that the meeting be scheduled at a time they will be able to attend and that the Board keep what is said confidential.

Adjourn. *Mrs. Bell moved, seconded by Mrs. Brown, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:55 p.m.*

December 5, 2017
CPSB Executive Committee Work Session

Members present: Denee Locke, Dottie Bell, Steve Riall. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Barry Rachal and John Albritton, Superintendent T. Lamar Goree and Attorney Reginald Abrams.

President Denee' Locke called the meeting to order at approximately 4:48 p.m. The prayer and Pledge were omitted.

PRESENTATIONS

Step Forward Presentation of Banners. Laura Alderman, executive director of Step Forward, shared the following announcements with the Board and audience: (1) Ms. Alderman introduced CEO of Twin Engine Labs Mr. Keith Hanson; North Louisiana Market President Mr. Rick Larsen from Capital One; and Christy Gustavson, Community Foundation of North Louisiana. Mr. Larsen from Capital One presented to Step Forward \$15,000 to fund laptop computers for low socio-economic students participating in the Mind Kraft University project. Mr. Hanson highlighted that the game Mind Kraft will be used to create a curriculum that teaches students how to code. With access and awareness being keys to its success, students having laptops to take home where they can practice is important; and in their work with Step Forward and Capital One it is now possible to provide laptops to students who cannot afford them. (2) Brady Harris, Committee of 100, shared the Committee of 100's involvement in funding via a grant a community awareness campaign on the importance of school readiness and what the parents and community can do to help prepare children for school on day 1. She announced that in the Caddo-Bossier-Webster area, 60% of the kindergarten students are not ready when they begin school. Mr. Harris stated that the business community is a strong advocate of early childhood education and are glad to be a part of a program that promotes all children being prepared to begin school. Ms. Alderman shared aspects of the marketing effort in this area including providing a banner for every elementary school in Caddo upon request. (3) Ms. Alderman stated that with third grade being a critical point, Step Forward continues to track data in the school system, and she is excited that the 2018 report indicates the children in Northwest Louisiana increased almost nine percentage points from 2016 to 2017 in ELA Proficiency.

Accountability and Student Performance Update. Keith Burton, chief academic officer, shared the following with the Board and audience. District highlights included (1) Caddo maintained its C average with a 3.6% increase in its overall District Performance Score which was in line with the State's increase of 3.8%; (2) the Dropout Credit Accumulation Index which measures 9th grade readiness for high school had a 6 point increase; (3) there was a 10.8 point increase in the ACT Index; (4) the District increased to 10 schools with an "A" rating; (5) no high school is rated as Academically Unacceptable or an "F" school; (6) 11 schools improved their performance by one letter grade; and (7) 21 schools made significant gains in their SPS even though 11 schools experienced a decline in their SPS. He also shared the following school highlights: (1) Four schools (EB Williams Stoner Hill, Southern Hills, Caddo Magnet and North Caddo High) were designated as Top Gains for 2017 (which means they improved their SPS points by 10 and the staffs will receive a financial incentive as approved by the Board); (2) 5 of Caddo's 10 high schools showed a significant increase in their ACT index, exceeding the State's 5 points; (3) the number of the Transformation Zone schools receiving an "F" rating decreased from 9 to 6, one school dropped from a "D" to and "F"; and (4) the positive change for the majority of schools in their performance over multiple years.

Mr. Burton reported that with the new accountability measures in place, the Districts will be facing many challenges beginning this year and quoted from *The Advocate* that the number of "F" rated public schools is expected to increase 57% next year and schools with "A" ratings will drop 38% under the new rating system approved last week by BESE. He added it is very important that the District

informs the public about the changes in accountability so when the results are released at this time next year they will not think that the schools have failed. He further highlighted how SPS numbers will be derived, and that is 75% of the elementary SPS will come from LEAP tests through their student scores, and the remaining 25% will come from growth to mastery (individual targets). The high schools will remain the same; however, changes will come in the schools' letter grades because ratings for EOC and LEAP will be changed. 2025 is the target year when mastery will become the new basic (proficiency) level for a school to be rated an "A" school; and in 2017 when a student scores Basic, the school receives 100 points toward the school's SPS. In 2018 the school will only get 80 points for a student scoring Basic which is a significant decrease, and 100 points (rather than 150) for scoring mastery, and an ultimate goal of every child achieving mastery level by the time they leave 8th grade and ready for college when they leave high school.

Mr. Burton further highlighted the new ESSA (Every Student Succeeds Act) which replaces No Child Left Behind and it removes some of the labels the district has grown accustomed to. In working with the RSD to create a plan for the Transformation Zone Schools, the labels are gone and there is no longer an AUS School, and the following labels are now in place. (1) Urgent Intervention. This label can be received through a low subgroup performance or they could receive an Urgent Intervention student behavior; or (2) the Comprehensive Intervention label which is only presented to students when 10 students fall into one of the subgroup categories identified by the State Department. Because the State is worried how an entire student body performs, they are looking closely at how a school is doing with students in subgroups of African American students, Asian students, any of the subgroups. Mr. Burton highlighted a graphic further defining each of the interventions mentioned. Regarding the urgent intervention label, he stated that schools can receive this label by (1) having one of the sub groups, or (2) having an equivalent to an F rating for two consecutive years; with a major concern being if a school is an "A" school but has one of the subgroups that makes an F for two consecutive years, that school cannot earn an "A" rating again. The urgent intervention required label can be acquired as a result of behavior with out of school suspensions being compared to the rate of how many students are suspended each year to the national average. If a school is two times the national average for three consecutive years, that school could receive this label. The most serious label is the comprehensive intervention label since many of our schools have already received this label as of this date. A school may earn this label if they meet any of the following criteria: (1) earned a D or F through their SPS for three years or greater; (2) low graduation rate; (3) three consecutive years of a subgroup scoring a D or F. He noted it is also possible for a school to have more than one label and these labels will be shared with the public. He stated that staff is already working diligently on the impact these new policies and ESSA Plan will have on the schools and staff has begun planning and writing grants to help support our schools with it being required through ESSA to have an action plan for consistent struggling schools. Plans made must align with Caddo's needs assessment, strategies must be developed, alignment of curriculum, use of funds to finance, etc.

Superintendent Goree stressed the statistics pointed out and that as superintendents work with Superintendent White and BESE representatives, there has been much conversation around the effect on the current systems using the systems' current figures. He said the staff is working diligently to meet the highest possible standards daily for children while still facing the process which will result in additional F schools and fewer A schools. He also noted that the Urgent Intervention Required label keeps a school from being labeled a Top Gains School as well an A rated school. In looking at the sub populations, Dr. Goree stated the performances of these will be critical and staff is committed to focusing its attention on not being in these situation even though staff will be facing new challenging days in accountability.

Mr. Rachal suggested that Caddo should have its own set of labels because these are designed to show struggles rather than strengths and successes. He said because their labels do not point out all of Caddo's mastery, achieving or above

mastery, and Mr. Burton reminded Mr. Rachal that the letter grading system is still in place and the District could still have an A and a B school and that Caddo can show proficiency and growth rather than letting one subgroup dictate what a school's label will be. Mr. Rachal asked for a list of all the subgroups at each school. Dr. Goree noted the point made over and over and that we must be sure to talk to the public about what is actually happening so that schools are not judged unfairly when the goals, etc. have been changed. Mr. Burton announced that next year three subgroups will be added (military, foster and homeless). Mr. Rachal asked staff to invite Tony Davis, BESE Representative, District 4, to hear his explanation and justification on why he felt this was a great thing and why he voted for it.

Susannah Poljak congratulated the District on the good news relative to growth; but regarding the subgroups, she asked if it has to be 10 of the same subgroup. Dr. Goree added that students can be counted in more than one category. Mrs. Poljak asked how, with all neighborhood schools having students with strengths and weaknesses, and must take the LEAP, will neighborhood schools not be found with these challenges. Mr. Burton stated that while some are doing really well despite the makeup of the student population, staff has begun conversations between schools as to what schools are doing that have a high SPED enrollment at their school and what they are doing with their curriculum. While she believes the State has created an impossible high standard, she questions what will happen to, for example, Caddo Middle Magnet but if they have 10 students who are not strong in one area do not do well it will affect the school by it not being able to be a Top Gains or "A" school again. She also asked if the business community understands how this is affecting the economic engine of the State. Mr. Burton responded that this has been asked and businesses have asked if we are setting ourselves up for a very poor response from businesses outside the State because of the rigor of these requirements. Dr. Goree said the business community conversation has always been they want to show we have very high standards and that an "A" in Shreveport is the same as an "A" in Connecticut. While we know that all children can learn and be successful, Dr. Goree said some of the challenges generally seen in high poverty schools will not be the case in Connecticut. He said this is something that has to be communicated to the parents. Mrs. Poljak noted how high Louisiana has raised its standard, yet 60% of Caddo's kindergartners are not ready to start school.

Mrs. Bell said she needs to understand this in lay terms since she cannot go to her constituents if she does not understand it herself. Also, she wants to know more specifics about the labels as well as the Legislators in this area need to see this "created to fail" plan, because if a school has 200 students in subgroups and they can be placed in more than one subgroup, this is a problem. She noted the importance of getting this information out to the people in the District and going to Baton Rouge to fight this. Mr. Burton concurred in importance of educating the public now so when the results are released next year they will have an understanding of what it means. Mrs. Bell requested a one on one meeting with Mr. Burton following the holidays so she can get all her questions answered and have a better understanding. Ms. Trammel noted how confusing this is and discouraging when the District is as diverse as it is and neighborhoods already facing these challenges, she questions how it will work. As she wants to see her schools move forward, she has watched the many different plans implemented to enhance the academic success of schools in District 6 but improvement is hard when backgrounds of students is not known or considered.

Dr. Goree stated that this will probably be in place for 2-3 years and staff will work very hard during that time to try and figure it out only for it to be changed yet again. Even in the standards the District has been given, Dr. Goree noted that staff has no choice but to embrace this plan and work as hard as we can and not allow the opportunity to communicate with constituents pass. Mr. Burton assured Board members that 25% of the school's SPS will be based on each individual child in 3rd, 4th and 5th grade reaches a target; and even if a child received unsatisfactory in the past, the principal did not receive any points for that child; but now at least 1/4 of their SPS will come on the growth the child makes, even if the child is not to basic or mastery but did have 2 years of growth which is a positive.

Mr. Riall asked if this is being implemented now and staff confirmed it is now. Mr. Riall noted that one of the new legislators in Baton Rouge shared with him his amazement at how much Baton Rouge hates public education and is what is being fought today. Mr. Albritton recalled an earlier Superintendent and a program called Pull Up and his better word was Push Out which appears to be the same thing happening today. He shared his misunderstanding of a system making progress and the bar continues to be raised by those who have no accountability for the results. He also said he wants the principals to understand we are not chasing a number, and principals should not be looking at numbers rather than doing what is needed to control the classroom.

Miss Green stated this is disheartening and echoed Mr. Albritton's comments that we know it will be hard to reach the State's goals the first year, so she asked if there are any specific goals for each school set by Caddo where we can recognize schools for their achievements. Mr. Burton explained that he along with the directors meet with the schools to look at their data, what is high and what is reasonable expectations, SLT set by the principals, which is also tied to a teacher's evaluation at the end of the school year. Miss Green agreed we need to recognize our schools for reaching goals we set for them. Regarding the subgroups, Mr. Burton reiterated that if a principal has at least 10 students that fall into one of the subgroup categories, this constitutes an active subgroup at that school. If four categories are populated by these 10 students, the scores will be impacted in each, and the principal will be identifying the students and looking closely at how the intervention strategy should change. Miss Green asked what do the different races have to do with educating children, and Dr. Goree said it is more about "you are only as strong as your weakest link" and they want to look at each student body to say you are an "A" school when all the economically disadvantaged students may be performing low, i.e. Caddo Middle Magnet has a very diverse population and cannot say they are an "A" school unless the economically disadvantaged students (same for African American) are performing at an A level also. Mr. Burton added that race matters because there are high expectations for every subgroup and they must be successful. Dr. Goree shared his concern in this area and he understands that teachers will now have to look at various populations of students to make sure they too are performing at high levels where the system was not designed this way.

Mrs. Brown noted the importance of communicating/involving the game changers, i.e. Tony Davis, BESE, Legislators, parents). Mr. Green stated that he fails to see anything encouraging or motivating about the information shared with the Board today and believes to be successful you would almost need a teacher for each student, which is impossible, so he does not believe individualized instruction will play a key part in attaining this goal. It appears to him that Caddo is being set up for failure. He encouraged the Board to look at this very carefully.

Mrs. Locke stated that she believes even though the District must follow the State's labels, she believes Caddo could come up with some way to encourage growth and recognize schools on their improvement/success. Mr. Burton added that the group he worries most about is the teachers who are giving 110% every day and mandates that are pushing them further away from their love of the profession. Mrs. Locke asked staff for guidance in this area. Dr. Douzart also reiterated the stress and pressure placed on districts being compared to other states, and it was her recommendation that a formula be developed for the teachers because the bulk of the responsibility for success falls on them.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE DECEMBER 19, 2017 CPSB MEETING

Dr. Goree highlighted items for the Board's consideration at the December 19, 2017 CPSB meeting and the following discussion ensued.

Purchasing Bids. Mr. Rachal asked about the buyout on the bus lease and Mrs. Lloyd said there is not a buyout but there is a total dollar amount with the interest to be applied and that amount is \$724,500 for 11 buses over 5 years, and there is currently \$152,000 budgeted for the purchase of buses which is a net savings of

approximately \$7,000. Mr. Lee explained that this is called a lease; however, it is basically a 5-year loan for the buses and there is no buy out, but if the District wished to do so, it could pay it off early. Mr. Rachal asked about the statement in the lease that says it cannot be pre-paid and Mr. Lee said if there was an ability to pre-pay it the District would pay the balance. Mr. Rachal asked if Mr. Abrams could clarify, and Mr. Abrams responded that he has not looked at this lease in a long time, but he is almost certain that the way the lease was written, it includes every sum been used/paid in the purchase price; and even though it is a lease it will be applied to the total amount and the title would transfer to the District. Mr. Lee added that the payments are the total payment for the buses and we would own it at the end of the lease period. Mrs. Lloyd stated that the buses are purchased from Ross buses, but they are financed through JP Morgan Chase who holds the titles. Mr. Rachal shared his confusion on why this is called a lease and Mr. Abrams explained that we did not do this bid but there was another District that did this and Caddo piggy-backed on their bid. Mr. Rachal asked that staff provide him something to clarify this "lease".

Consideration of Bid Lease of MJ Moore. Mr. Rachal asked if we are at a point that we have to accept this bid and lease the property. Dr. Goree reminded the Board that this school was previously leased out and the Board approved staff going out for bid for a new bid and the recommendation is to accept the bid received. Mr. Abrams confirmed the Board's authorization for staff to go out for bids on this property. He explained there was a minimum established by administration; and since we did put it out for bid and the bid received was higher than the established minimum, the Board is obligated to accept it unless a decision is made we can't afford it which under the bid law would mean the Board would have to wait another year before it could be put back out for bid. Mr. Rachal asked about the minimum acceptance, and Mr. Woolfolk stated it was \$3,000 and the bid came in at \$3,501. Dr. Goree also added that this is not for the entire facility (gym is not included). Mr. Rachal asked if we have actually signed a lease at this time, and the Superintendent said no and the staff is only presenting to the Board a recommendation to approve the bid received in response to the RFP for leasing this property. Mr. Rachal asked about the verbiage in the RFP as to how the District would receive payments, and Mr. Woolfolk responded that the lease states payments could be made monthly, quarterly, semi-annually or annually; however this has not been determined at this time. Mr. Rachal asked if the lease has been presented to the winner of the bid at this time, and Dr. Goree said it has not and this generally happens once the Board approves the bid. Mr. Rachal asked if the lease is now designed in such a manner that the bid recipient does not want to lease it. Mr. Abrams stated that the lease would have to be based on the terms that both parties agree to, and his goal would be not to create a lease that doesn't do what the Board wants. Mr. Rachal stated he would like to receive a copy of the lease prior to the approval of this. Mr. Abrams clarified that the lease is not developed before the Board votes, but after the Board supports accepting the bid and leasing the property. Dr. Goree asked if the Board rejected this lease, aren't there consequences for changing your mind and this information staff will provide to the Board. Mrs. Brown noted there are two more weeks before the Board votes on it so the Board can receive this additional information/answer to questions before the meeting in two weeks. Miss Green asked if this is two separate bids and Dr. Goree confirmed that is correct. Miss Green asked about the lease not including the gym, and Dr. Goree explained that when the Board approved staff going out for bid, one of the specifications was the gymnasium was not for use. Mr. Abrams asked for clarification and is the Board requesting a lease prior to the Board voting on December 19th because if so, the District must pay an attorney to prepare the lease prior to the Board voting. At this time, he added he has not heard there is a problem with the terms to be included in the lease. Dr. Goree confirmed that staff can provide the Board with the details that would be built into the lease, but it would not be his recommendation to the Board to have the lease prior to the Board voting on accepting the bid, because what was communicated to those that submitted proposals binds the District to what it can do. Mr. Rachal asked if there is any penalty to the company that submitted the bid to walk away? Mrs. Locke asked Mr. Abrams if the procedure being followed is in policy, and Mr. Abrams responded it is standard procedure and when the Board approves the bid, it is also authorizing a lease to be created based upon whatever the bid documents

reflect. This same procedure is followed also with charter agreements. Mr. Rachal stated he will get with Mr. Abrams to discuss further.

Authorization for Staff to Request Bids for Lease of Lakeshore. Mr. Rachal requested that this item be removed from the agenda pending further discussion on leases. Dr. Goree responded that staff is willing to remove this item to allow time for questions to be answered and the Board to be comfortable moving into these leases in the future. Mr. Abrams stated that if the issue is the process and procedure by which leases are created and to have leases prepared prior to the Board voting, it doesn't mean the Board can't approve going out for a bid. Mr. Rachal stated that he is only requesting that this item be removed and that it can happen because the agenda has not been established. Mrs. Locke indicated this is the process we have followed in the past, and asked Mr. Abrams to explain how this is to be addressed. Mr. Abrams stated that the executive committee decides if it will be on the agenda or not and can approve the agenda without those items requested to be postponed. Dr. Goree confirmed that even though it is the policy that has always been followed, staff recognizes the confusion and wants to make sure this is addressed and questions answered. Mrs. Poljak stated her understanding that this process is what the District has followed for all leases, i.e. buildings, buses, etc., and that was confirmed. Mr. Riall asked if he understood correctly that prior to the attorney drawing up the lease, the Board could receive the stipulations that will be in the lease, and Mr. Abrams responded absolutely.

Consideratin of Revisions to CPSB Policies EB, GAMA, JCDA and KF. Miss Green asked Mr. Abrams to further explain, and he stated that all policies presented relate to the use of tobacco, smokeless tobacco (electronic cigarettes), and revisions to Caddo's policies are presented for approval to comply with legislation passed during the last session, this legislation wiping out the ability to have smoke-free zones . It also includes chewing tobacco also. Mr. Riall asked Mr. Abrams how this can be enforced at football games, and Mr. Abrams said he did not fully understand how this could be enforced outside in an open area.

Consideration of Capital Projects - North Caddo Auto and Welding

Shop. Mr. Riall shared his concern for putting \$1 million in an old building and asked how soon this must be addressed in order to address this situation. Dr. Goree stated that staff hears the Board's concern with this building and the amount of money; however, these are two critical programs and staff looked at several options yet found themselves back at the original place and bringing the proposed recommendation. Steve White, director of capital projects, shared the recommended modifications, i.e. modifying the existing building to include a new roof, use the same wall panels, reinsulate the walls with metal panels on the inside, revamp the welding shop to hold 15 welding booths and still meet the minimum criteria. He said they will also look at alternates for taking the renovation further, i.e. upgrade both welding and automotive classrooms, address the interior petition walls, revamp restroom facilities where appropriate, HVAC system. Mr. White explained they can ask for three different prices...base bid, Alternate 1, Alternate 2 to meet these proposed renovations. He added while it is not a complete tear down and start over, he said he doesn't know if Caddo will be able to meet everything in Phase I of the project. Dr. Goree did explain that Finance worked with Operations and Academics and all went out on separate site visits, came back together to arrive at the recommendation presented. Mr. White also explained that the timeline would be to begin as soon as classes are dismissed for summer and complete the project prior to school starting, and Dr. Goree reiterated the importance of having this facility in place when school starts. Mr. Riall asked if he understands correctly that the budgeted amount is an estimate, and Mr. White stated that is correct. Dr. Goree added that he believes the estimates reflect the District being able to finish under the budget but we must hold the money in the event we could not. Staff also looked at available grant dollars and costs that could possibly be paid from grant dollars. Mr. Riall added that he is not against doing this for North Caddo, but he knows that this amount is approximately 5% of the capital projects budget. Dr. Goree added that because the school is 45 minutes away, it is a special situation and sometimes staff must look at these situations and possibly spend more because of the location. Mr. Rachal asked if this is a change from what the Board looked at last month, and Mr. White said it is since last month

staff was looking to stripping everything down to the concrete floor and the steel structure, replacing everything from there. With this proposal, Mr. White stated staff believes we can save the exterior wall skin and looking at alternatives in properly venting the structure and improve the overall structure. Some things will need to be done to bring the building up to code, i.e. ventilation systems for the motors running inside the building as well as the welding systems. Some grants have been identified that will help pay for some of the equipment and in utilizing part of the structure that was originally going to be removed, the cost has been reduced significantly. Mr. Rachal noted the original cost brought forward on this project of \$900,000 and another phase that could cost another \$1 million. Mr. White agreed and that much of the interior equipment, i.e. welding machines, automotive equipment, is now being addressed with grants, saving the exterior skin and looking at pinching every penny possible, but in using alternate pricing and up to three alternates, he believes we can take this project further and do everything in one phase. Mr. Rachal asked about the other solutions considered, and Mr. White explained that staff looked at (1) possibility of obtaining property in the area of North Caddo High School, but nothing was suitable or met the price range; and (2) possibility of using facilities that the District owns, i.e. Oil City gymnasium and cafeteria, but transportation is a problem as well as the fact that the campus is on the register of historical places prohibiting any modification to the outside structure. Dr. Goree noted a concern in the process of placing a school on a national registry since this can actually cripple you in doing something that needs to be done. Mrs. Brown asked Mr. White about the life of this facility and Mr. White said with the proposed renovations and continued renovations required on any structure, he believes it is well beyond a 20-year period. At this time the only thing that has failed in the structure is some rust in the bottom 12 inches of the structure. She also asked about the projected student enrollment at this particular site, and Mr. White responded that Academics is the area that can provide a more accurate number. Mr. Mainiero said at this time students are turned away and directed to other pathways.

Consideration of Returning Huntington High School to a True High School with Grades 9-12.

Mrs. Bell stated that it is hers and the District 12 constituents desire to return Huntington High School to a true high school (Grades 9-12) and asked for the Board's support in making this possible. She said students were moved and it was made a middle school from 2013-2017 because of the budget and attendance, but it did not work. She further stated that the middle school scores (7th and 8th grades) but the Huntington High School issues at the time when these students were moved there included Huntington's SPS for 2016-17 will be a 64 C if not separated from the middle school. Middle School scores were figured in the high school scores, and for the past 6 years the middle school scores have influenced the overall score negatively, while the high school is 70% of the overall scores and converting the middle is 30% thus the instructional focus for administration is placed on the high school. Due to the critical aspects of graduation, 50% of the high school SPS, the middle school students in 7-12 configuration sometimes lose their identity. She further stated that Huntington Middle School has been failing for the past 5 years, and she believes if it is to be successful as a stand-alone middle school it will need all the resources that struggling schools receive. Even though Huntington has done a great job of keeping the middle school students separate from the high school students, Mrs. Bell said that after-school programs run together and this can become a safety issue because of staff shortage. Mrs. Bell also shared the positive for K-8 configured school. Mrs. Bell said she will be looking for a K-8 school and a high school. Mrs. Bell asked the Superintendent and staff to research this request and present a report to her and the Board in February. Mrs. Locke announced that it will not be an agenda item for December.

Mrs. Bell moved, seconded by Mr. Riall, to establish the proposed agenda and consent agenda (Items 8.01-8.06, 8.08-8.09, 8.11 and 13.01 (students JA, NF, and JR) for the December 19, 2017 CPSB meeting with items 7.03 and 8.08 being removed. Vote on the motion carried.

ANNOUNCEMENTS

Ms. Trammel thanked staff for addressing a transportation issue on Friday. She also recognized Woodlawn for making it to the third round of playoffs, and if staff can make sure that both these teams celebrate together.

Mr. Riall recognized Northwood High School for making it to the quarter finals in 4A this year.

Mrs. Bell announced that she and Lavada Palms will host their annual Party with a Purpose on Thursday, December 7th with a goal of \$6,000 this year.

Miss Green asked Dr. Goree to provide her with a dollar amount on what has been spent on the technology in the Board Room.

Mrs. Locke announced that she and Dr. Goree were guests of Red River United at the Louisiana Federation of Teachers State Convention and they received an award on behalf of the Board. She expressed her appreciation to Mrs. Lansdale for this recognition.

ADJOURN

Mr. Riall moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:10 p.m.

CPSB Insurance and Finance Committee Meeting - Tuesday, December 5, 2017, 3:00 p.m.

Members present - Chair Dottie Bell, Susannah Poljak, Mary Trammel and Raymond Green. Larry Ramsey was absent. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams, Board members Steve Riall, Jasmine Green, Margaret Brown, Dr. Bonita Douzart, Denee' Locke, Barry Rachal, and John Albritton. Staff Members present were James Woolfolk, Lisa Lloyd, Jim Lee, Jeff Chitwood, Keith Burton, Diane Atkins, Mary Nash-Wood and Steve White.

Mrs. Bell called the meeting to order at approximately 3:08 p.m. Mr. Rachal led the invocation and Pledge.

Establish the Agenda as Submitted. On motion by Mary Trammel, second by Raymond Green, the committee established the agenda as submitted.

Confirm the Agenda. On motion by Mary Trammel, second by Raymond Green, the agenda was confirmed as presented.

Update on Opportunity Caddo. Lisa Lloyd, director of purchasing, shared with the committee and all present a brief history on the establishment of the Opportunity Caddo Program in 2004, the program's successes, ways to improve and grow the program, including the defined targeted audience, the goals and objectives, initiatives to support the program and numbers highlighting the program's progress. Mrs. Lloyd also defined small and economically disadvantaged businesses, highlighted opportunities beyond what Caddo provides, including training and education provided through local partnerships. She reported that in 2016 purchases through the General Fund, capital projects, child nutrition, Title I, Title II, et.al, totaled \$54,443,600, and of that \$54 million, \$50,787,300 was offered to the public by some type of solicitation. She further explained the procedures established by State Statute relative to how money put out for solicitation is awarded, i.e. rules on how we must advertise, evaluate and award; with Louisiana being a low-bid state. Mrs. Lloyd also reported that \$50 million was spent on large ticket items, i.e. textbooks, iPads and equipment. She also reported on \$3.6 million spent on items that cannot be competitively bid, i.e. software, copywriting materials, student assessments, etc. In 2016-17, Caddo spent over \$3 million with 20 vendors, one only once and others repetitively. She highlighted challenges faced, i.e. finding eligible new businesses that would like to participate in the Opportunity Caddo program and have the capacity to meet Caddo's needs. With 900 vendors in Caddo's system, staff continues to look at prospective businesses to add to the list and grow the program. Relative to the discretionary funds in capital projects (projects under \$150,000), she reported that 41% of this amount was awarded to Opportunity Caddo vendors.

Staff responded to questions by the committee members first and then additional board members present with the main concern being expanding the program to include more minority vendors, partnerships, timeline for bidding items, history of cutting the Fair Share position and moving the Opportunity Caddo function to Purchasing, requirements for contractors to at a minimum solicit minority subcontractors, criteria in selecting contractors for projects under \$150,000, formulas used to determine companies qualifying as economically disadvantaged, possibility of conducting a seminar for all vendors and potential vendors, and having a designated staff person in Purchasing to address all questions relative to Opportunity Caddo.

Workers' Compensation TPA Renewal. Jim Lee shared a brief history of once having an in-house staff person to manage workers' compensation; and when that person retired, a decision was made not to fill that position and to put it out for bid, which is how the current provider was selected. He reported it has been out for one renewal and this is the second. Mr. Lee explained that he talked with Mr. Chitwood about beginning to put this out for renewal following this renewal (which is for three years). This decision was made following the fact that legislative auditors have asked if we are sure we are getting the best deal (even though a service does not require going out for a bid). He further stated that it is staff's plan after this renewal to do a RFQ (request for quote) or at minimum get informal quotes from various companies.

Adjourn. On motion by Mr. Green, second by Ms. Trammel, the meeting adjourned at approximately 4:00 p.m.

December 5, 2017
CPSB Special Session

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, and Dottie Bell. Also present were Dr. T. Lamar Goree and Attorney Reginald Abrams.

President Locke called the meeting to order at approximately 4:35 p.m. Mrs. Bell led the invocation and Pledge of Allegiance.

PERSONNEL RECOMMENDATIONS

On motion by Mr. Rachal, second by Ms. Trammel, the board approved the personnel recommendation as recommended by the Superintendent and submitted in the electronic mailout.

ADJOURN

On motion by Mrs. Bell, second by Ms. Trammel, the special meeting adjourned at approximately 4:47 p.m.

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

December 12, 2017
CPSB Executive Committee Meeting with Employees

Members present: Denee Locke, Dottie Bell, Steve Riall. Also present were Board members Jasmine Green, Susannah Poljak, Raymond Green, Barry Rachal. Also present was Attorney Reggie Abrams.

President Locke called the meeting to order at approximately 6:00 p.m. Mrs. Bell led the invocation and Pledge of Allegiance.

President Locke announced that the special session was scheduled in accordance with policy to allow employees to share their concerns and suggestions with the Executive Committee. She further stated that Board policy does not allow for the Board members to respond or have dialogue in this meeting; however, the Board's secretary will record employees' comments and concerns and she (Board President) will meet with the Superintendent to discuss them.

Karen Rothell, counselor, stated that approximately 80% of school counselors' time is spent doing clerical/secretarial duties rather than addressing the academic success of students and asked that this be addressed so counselors can do their jobs.

Shelia Clark, bus driver, addressed the unfair treatment of bus drivers including not being updated/informed of changes in the laws that affect them, unfair punishment, being docked for accidents on first offense rather than a progressive discipline.

Stacey Ulve, teacher, addressed the Board on low morale among staff at schools, no changes made despite reporting of unfair treatments, faculty meetings beginning with threats and comments daily of "your people vs. my people", demeaning language from the administrative staff, health problems from the stress, reasons why students are removed from the classroom missing instructional time (i.e. no vest, losing ID, not having \$1 to replace ID, etc.); teachers forced to be at the school at 7 a.m. and school doesn't start until 8:00, loss of instructional time based on administrative decisions, and six certified teachers have left based on comments and active aggression toward staff.. Please consider their input when making decisions to staff schools in the future.

Judith Tipton, teacher, shared that she retired from Texas schools and is in her 2nd year in Caddo. She has seen low morale of teachers based on unnecessary intimidation and bullying not only by students but by administrators as well. Other concerns include being required to report on Sunday, limited resources, loss of incentives because counselors mishandled paperwork, and decisions made based on favoritism.

Shelley Rogers, bus driver, addressed the frustration of not being able to receive information in Transportation when there are 6 secretaries in the department yet if the person is not in that has the information needed, no one else can provide that information. She would like to see cross training in the department so information is available when needed/requested. She also addressed the problem with routes and exchanges that have not been put into the system and the need for this to be done in a more timely fashion. This is a problem not only for the drivers, but for sub drivers as well. There also is a lack of support from administration at schools when students are written up for behavior problems on buses yet nothing is done and students are immediately put back on the bus.

Ruby Cooper, bus driver, addressed unfair suspension of drivers, i.e. 10-week suspension for failure to put stop arms down and can there not be some type of progression in the discipline beginning with a warning.

Dan Neumeister, bus driver, shared a list of Transportation issues in the form of a resolution that included serious disrepair of buses, repair requests ignored, unfair bumping practices, aggressiveness in punishment/discipline, administration in Transportation not held to same standards as drivers, not being paid for all work done, subs advised they will be hired as full time drivers in 6 months, but it doesn't happen; treated/talked to disrespectfully.

Margaret Poindexter, bus driver, addressed bus drivers being treated disrespectfully, i.e. take buses in for repairs/problems and they are talked down to, no help from the department or schools when disruptive students on the bus are written up yet never removed or disciplined.

Jon Glover asked that when conversations take place regarding outsourcing that ample notice be given so employees can attend committee meetings and provide input.

Patricia Goss, bus driver, stated drivers have shared concerns about how administration treats them but nothing has been done, as well as working in substandard conditions, cruise control removed from buses, not being paid for more than 15 hours, per diem pay.

JoAnn Stevenson, bus driver, stated her responsibility for the safety of all the children on her bus, but asked about her safety when sometimes facing threatening behaviors of some parents, as well as how she is received when she reports this behavior.

Lavette Carter, bus driver, stated that Caddo needs bus drivers; however situations arise where she finds herself unappreciated and disrespected and never having a positive conversation. She is mindful of her duties as a bus driver and can be trusted to do what is required of her and treat others with respect.

Leola Scott, bus driver, stated they do not feel like anyone has done anything to address their concerns and requests for help made at the last employee meeting since administration continues to tell them if they don't do something asked, they will be reprimanded. They continue to feel disrespected and this is the same issue brought to the executive committee last time. Being the lowest paid, it is unfair when disciplined that they receive no warning, but are removed from their job. She asked the Board what will be done and what will change because bus drivers are leaving to drive for Sportran, taxis, etc., students who cause problems on the bus are not addressed when written up.

There being no additional speakers, Mrs. Bell moved, seconded by Mr. Riall to adjourn and the meeting adjourned at approximately 6:54 p.m.

December 19, 2017

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, John L Albritton, Dottie Bell. Board members Barry Rachal and Larry Ramsey were absent.

President Denee' Locke called the meeting of the Caddo Parish School Board to order at approximately 4:30 p.m. Mrs. Bell led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES

Mrs. Bell moved, seconded by Ms. Trammel, to approve the minutes of the November 14, 2017, December 5, 2017, and December 12, 2017 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Eden Gardens Elementary Choir. The Eden Gardens Fundamental Elementary Choir shared several musical numbers highlighting the Holiday Season. Jerry Maiden, music teacher, Coleen Wray, Janet Stevens and Principal Sydney Allen were also recognized.

Party with a Purpose. Dottie Bell shared with everyone the history of Party with a Purpose started by she and Lavada Palms 11 years ago and announced their excitement to this year present to the Homeless Department a check for \$4,000 to help provide Christmas for Caddo's homeless students and their families. Pittre Walker, homeless coordinator, was recognized for her continued work to meet needs of the homeless population in Caddo's schools.

2017 Louisiana All State Choir. The following Caddo Magnet High School students were recognized for being selected as winners to perform with the Louisiana All State Mixed Choir: Dartagnan Bennett, Adam Born, Sarah Lord, James Sohn, and Natalie Weaver. Students selected as winners to perform with the Women's Chorale are: Zuriel Cooper, Amber DeFatta, Chondra Jefferson, Kyla Kiel, Rachel Medina and Mia Trundle.

2017 Christmas in Roseland Winners. The following were recognized as winners in the Christmas cards to the community program at Christmas in Roseland: (1) Fairfield Elementary Magnet, 3rd Place, Emily Berg, art teacher; and (2) Mooringsport Elementary, 2nd Place, Leslie Snow, art teacher, in the elementary division. Middle School Division winners are (1) Youree Drive Middle, 2nd place, Patricia Mason-Powell, art teacher; and (2) Caddo Middle Magnet, 1st place, Eric Sitton, art teacher. Caddo High School Division winner is (1) North Caddo High, 2nd place, Leah Freeman, art teacher; and the Best of Show Winner is Youree Drive Middle School.

Annual Greening of the Louisiana State Exhibit Museum. Third grade students at the following Caddo schools were recognized for ornaments created to hang on the Christmas trees in the rotunda of the Louisiana State Exhibit Museum: (1) Fairfield Elementary, 4th place, \$50; (2) Eden Gardens Magnet, 3rd place, \$75; (3) A. C. Steere, 2nd place, \$100; and (4) North Highlands Elementary, 1st place, \$150.

2017 Tenured Teachers. Mary Wood stated that tenured in Louisiana changed in 2012 when teachers must receive a highly effective evaluation for five consecutive years to gain tenured status. The following 37 teachers in Caddo were recognized as having earned this prestigious title: Shannon Southwell, Arthur Circle; Stephanie Young, Atkins Elementary; Christine Eakin, Lenora Linder and Amanda

Viola, Blanchard Elementary; Stephen Goebel, Monica Speyrer and James Willett, Byrd High; Thomas Evans, Caddo Career & Technology Center; Paul Redding, Caddo Heights; Carolyn Britt, Eunhee Choi and Marti Strother, Caddo Middle Magnet; Jason McInnis and Michael Scott, Captain Shreve High; Yakima Ball, Cherokee Park; Jerry Maiden, Eden Gardens Elementary Magnet; Carol Alford and Lauren Amato, Fairfield Elementary; Linda Scarbrough, Mooringsport Elementary; Carlene Mudd, North Caddo E/M; James Gatlin, Northwood High; Kay Blount, Tara Hooper, Mary Kreamer and Janet McCrevan, South Highlands Magnet; Myra Bouquet, Jennifer Crager and Arden Kennedy of Special Ed Center; Cindy Thomas, Staff Development; Krystal Nuss and Susan Poole, Stoner Hill Laboratory; Christopher Tell, Summerfield Elementary; Brittany Nelson, University Elementary; Tori Bray and Taryn Delatte, Walnut Hill E/M; and Amy Harper, Youree Drive Middle School.

Newly Appointed Administrators. Al Graham, director of classified personnel, introduced Donald Allen, newly appointed finance budgetary supervisor.

VISITORS

The following persons addressed the Board on matters of concern: Jon Glover, Jackie Lansdale, Bobby Edwards, Wanda Easter, Dawn Jordan, Annette Simmons, and Maxine Davis.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree presented items for the Board's consideration. *Mrs. Bell moved, seconded by Ms. Trammel, to establish the agenda and consent agenda for the December 19, 2017 CPSB meeting as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mrs. Poljak moved, seconded by Ms. Trammel, to confirm the consent agenda (Items 6.02-6.04, 7.01-7.02, 8.01-8.11 (8.05 recommendation changed to one-year renewal), 13.01 (students JA, NF and JR) and 13.02) as presented. Vote on the motion carried. The following is a summary of the Board's action on the consent agenda items.

6:02 Requests for Leaves. The Board approved the requests for leaves as recommended by the Superintendent and submitted in the electronic mailout.

6.03 Personnel Transactions Reports – Resignations. The Board approved the personnel transactions reports (resignations) for October and November, 2017, as recommended by staff and submitted in the electronic mailout.

6.04 Consideration of Request to Waive Repayment of medical sabbatical. The Board approved the request to waive repayment of medical sabbatical as submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Ross Bus Sales & Equipment for 11 refurbished buses totaling \$724,500 over five years, Bid No. 07B-18; and (2) for staff to rebid CPSB Bid 08B-18 Bus Engines.

7.02 Consideration of Bid for Lease of MJ Moore. The Board approved the bid of ALEMap for the lease of the MJ Moore School property as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet.

8.01 Property/Bus Rental Requests. The Board approved the requests for use of property/buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Revisions to CPSB Policies EB, GAMA, JCDA and KF.

The Board approved proposed revisions to CPSB Policies EB, GAMA, JCDA and KF as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Proposed School Calendar for 2018-19 SY. The Board approved the proposed school calendar for the 2018-19 school year as submitted in the electronic mailout.

8.05 Workers' Compensation TPA Renewal. The Board approved the proposed one-year renewal for Workers' Compensation TPA as recommended by the superintendent and submitted in the electronic mailout.

8.06 Authorization for Salvage Sale. The Board authorized staff to salvage equipment and supplies from the Caddo Career & Technology Center in accordance with policy.

8.07 Consideration of Capital Projects - North Caddo Auto and Welding Shop. The Board approved capital project "North Caddo High roof and exterior walls at Welding & Auto Shop Building", with LeBlanc & Young as the architects at an estimated cost of \$900,000 as recommended by staff and submitted in the electronic mailout.

8.08 Consideration of AEP SWEPCO's Request for Easement and Right of Way Agreement. The Board approved AEP Swepco's request for an easement and right of way agreement along Linwood Avenue adjacent to Linwood Middle School as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of Mental Health Agreements/Contracts. The Board approved mental health interagency agreements and contracts as recommended by staff and submitted in the electronic mailout.

8.10 Consideration of City of Shreveport Right of Entry Agreement. The Board approved the City of Shreveport's request for a right of entry agreement as recommended by staff and submitted in the electronic mailout.

8.11 Consideration of Superintendent's 2017-18 Goals and Objectives. The Board approved the Superintendent's Goals for the 2017-2018 school year as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students JA, NF and JR as recommended by staff and submitted in the electronic mailout and whose parents are in agreement.

13.02 Update on Kimberly Hall v. Hallmark, et al, Docket #596,144-B, 1st Judicial District Court, Caddo Parish, LA. The Board authorized administration to resolve matter up to the amount recommended by legal counsel.

ELECTION OF 2018 OFFICERS

Mrs. Bell moved, seconded by Ms. Trammel, that the following slate of officers be approved for 2018: Steve Riall, President; Mary Trammel, 1st Vice President; and Barry Rachal, 2nd Vice President. Vote on the proposed slate for 2018 officers carried.

Mrs. Locke announced that Mr. Rachal did contact Board Attorney Abrams to say that if nominated to serve as an officer, he would accept that nomination.

APPROVAL OF USE OF PRESIDENT'S FACSIMILE SIGNATURE

Mrs. Bell moved, seconded by Ms. Trammel, to approve the use of the President's facsimile signature. Vote on the motion carried.

ANNOUNCEMENTS

Mrs. Brown announced that Board members will receive an invitation to the Open House of the renovated SPAR building in her area. Upon contacting City Councilman Bradford regarding the children in District 3 needing a place to play, this building was renovated and providing for a place in District 3.

Mrs. Bell thanked her colleagues for helping bless the homeless students in Caddo and wished everyone a Merry Christmas and Happy New Year.

Mr. Riall thanked the Board for the progress made during 2017, and the Superintendent and staff for their efforts in making this possible.

Miss Green inquired about a response to her request regarding the cost for the new equipment in the board room.

Ms. Trammel announced that on Wednesday, December 20th from 12 noon to 6 p.m. at 8200 St. Vincent Avenue, clothing, appliances, and other household needs will be provided to families in need.

Mr. Green stated he believes the employee meeting with the executive committee to address their concerns was very well received by the employees and hopes the concerns expressed will be addressed wherever possible.

Mrs. Locke expressed Christmas wishes to the Board and staff and agreed that many things were accomplished during 2017 for which everyone should be proud. She expressed appreciation for the opportunity to serve as president during 2017 and she looks forward to the coming year.

EXECUTIVE SESSION

Student Readmission Appeal Hearings. *Mrs. Poljak moved, seconded by Mrs. Bell, to go into executive session for 15 minutes for the purpose of a student readmission appeal. Vote on the motion carried and the Board went into executive session at approximately 5:53 p.m. The Board reconvened in open session at approximately 6:25 p.m. Mr. Riall moved, seconded by Ms. Trammel, to uphold staff's decision and that student EC resubmit an appeal at the end of May for readmission in a neighborhood school. Vote on the motion carried with Mrs. Bell abstaining.*

Adjournment. *Mr. Riall moved, seconded by Ms. Trammel to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:28 p.m.*

T. Lamar Goree, Ph.D., Secretary

Denee' Locke, President

January 9, 2018
CPSB Executive Committee Meeting

Members present: Steve Riall, Mary Trammel, and Barry F Rachal. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, John Albritton and Dottie Bell. Superintendent Lamar Goree and Attorney Reggie Abrams were also present. Steve Riall led the prayer and Pledge of Allegiance.

PRESENTATIONS

State of the District: Superintendent Goree shared his annual State of the District which included 2017 highlights and 2018 opportunities. He reported that Caddo currently has 12 National Blue Ribbon schools with three having received this honor twice which is the highest honor a school can receive. Also, he added that he received a call yesterday that Caddo Parish Magnet High School is being nominated for a National Blue Ribbon this year because of their high performance. He stated that it is also exciting that since its inception the Caddo District has led this region in students qualifying for National Merit Semi-finalists, Finalists and winners and this year we have identified 10 students that qualify for the National Merit Program. AdvancEd Accreditation was achieved and this is done by taking International Standards and measuring the performance of our curriculum and instruction against those standards. Dr. Goree stated that Caddo is also the home of five teachers who are Milken Educator Award winners, and it has three students who have scored perfect on their ACT. At this time, Caddo numbers include approximately 40,000 students, 5500 employees, 58 schools, 4 charter schools and alternative program. With the consolidation of four campuses over the past three years which happens in a District when a decline in population is seen.

The 2017 highlights included the launching of Caddo's early college high school program at Booker T. Washington and Woodlawn High Schools in partnership with Southern University allowing students with opportunities to leave high school with associate degrees, implementation of full TAP models in all Zone schools, partnering with DMG (District Management Group) to maximize budget efficiencies, the statewide leader of AP Capstone schools (AP premier research classes), and offering Swim for Life water safety to all Caddo 2nd graders in partnership with the local YMCA.

Dr. Goree also shared with the Board the following division highlights and opportunities:

Academic Division - District performance score increased to 78, highest since implementation of more rigorous state assessments; 11 schools increased their SPS by a letter grade; no high schools rated "F"; ACT performance improved to above state average; continued increase in access to AP coursework and doubled students earning 3 points or better on the AP test; increased percentage of seniors advancing directly to 4-year universities upon graduation; increased the number of students in A schools by 35 percent; decreased in the number of students in F schools by 30 percent; and majority of students (54%) are currently in A, B or C rated schools. Academic Opportunities include the new state accountability guidelines and standards, growth in end of year student growth assessments, TAP implementation to drive achievement, increase the enrollment in innovative opportunities such as virtual learning, and continued evaluation of specialty programs and components.

Finance Division - Reallocation of existing funds to support a 5% pay raise for all employees, implementation of an incentive pay plan to recognize and reward educators for efforts, recognized for the 28th straight year for Excellence in Financial Reporting; and maintained AA-bond rating by Standard and Poors. Finance Division Opportunities include addressing the large impact operating small schools (less than 300 students) has on the district budget, working to reduce operating expenses in order to ensure long-term stability, and the increasing retirement and healthcare costs in the budget.

Human Resources Division - Increased success in hiring and retaining teachers, added recruiting opportunities, and implemented new districtwide teacher evaluation rubric utilizing principles of TAP. HR Opportunities include return of VAM (Value Added Model) into the evaluation model, recruitment and retention continue to be an overarching priority, and the employment of retirement-eligible staff and the need for cross-training.

Operations Division - Continuation of rightsizing efforts with consolidations and successful opening of Fair Park MS, beginning of energy conservation partnership with Centergistic, and increase in student breakfast and lunch participation with CEP feeding program. Operations Opportunities include address the operation of numerous aging facilities with limited available resources, i.e. capital projects and maintenance funds; continue to repurpose off-line facilities, strategic review of demographic data, increase in fuel costs in 2018, aging bus

fleet, need for additional bus drivers, and need for additional assessment-ready technology in classrooms across the district.

Communications and Marketing Division - Continued strengthening of community partnerships with increased outreach and volunteer opportunities, continued work with the District magazine and expanding Caddo's impact, and building a greater collaboration with local media outlets to assure the best information is put out to the community.

In summary, Dr. Goree stated that in 2018 high academic standards coupled with fiscal responsibility, and strategic management in addressing efficiencies and analyzing enrollments will be key in the future, and he believes Caddo's schools are improving as a result of the continued strategic thinking and hard work by the Board, teachers and staff, and "the best is yet to come".

Mrs. Brown commended Dr. Goree for this report and asked that staff continue to look at available grants for additional funding for District programs. Dr. Goree commended Ellyn McKinney and her team for their efforts in this responsibility and referenced several secured grant opportunities.

Mr. Rachal commended the superintendent for this report and asked about the number of employees in Caddo with over 30 years, and the success over the past 3 years in addressing the need to consolidate and close schools. He asked if he understands correctly that staff looks at coming forth for additional consolidation/closures. Dr. Goree expressed the need for a strategic plan from an innovation and a quality of education perspective in moving forward and addressing the possible need for any future closures/consolidations. He also noted the reality that where you see a decline in population, the need for seats does change. In moving forward studying the demographic data and where students need to be in school as well as what schools will increase in population, and going through the long-range planning process, determine where we go as a School System in the future will be key in bringing something back to the Board.

Mrs. Poljak asked for clarification on how VAM will work for the A schools since the criticism has been if students are at the 99 percentile there is not room for growth. Dr. Goree stated that this was the main thing addressed by the State and he believes it relates to "hold harmless" and the point where students are that high you cannot expect them to be higher, but the VAM issue came about in the higher performing schools and that teachers state a student came to their class in a high percentile. Also, it is important that professional support should be provided to teachers teaching high achieving students and how to push these students further and that 100 is not as far as a student can reach. He added that when students have the highest ACT scores and National Merit and Semi-finalists winners, they are being pushed further. Mrs. Poljak also asked about smaller schools and the confusion that small schools have small classes and the larger schools have larger classes, but it does not mean the larger schools cannot offer the individual attention to students. Dr. Goree stated that research will show that unless a class is as small as 12 students, there is not true impact on performance; and that in his study everything pointed to building strong, lasting relationships for better performance and less turnover.

Miss Green asked about school closures and if this is something coming to the Board soon, and Dr. Goree stated there are no plans to bring any additional school closures this school year but that staff will continue to monitor enrollments and efficiencies to determine the need for right-sizing schools.

Ms. Trammel thanked the staff for the recruiting efforts and programs in effect and noted new teachers that she met who have started with the second semester. She noted her understanding that the comments made regarding school closures and/or consolidations is not something that will be coming to the Board in the near future; but, when these conversations do begin to remember the number of small schools and why those schools are small and to follow a protocol when addressing this issue, remembering that decisions made are to do what is best for children and not to please adults.

Mrs. Bell noted the good report and stated that for the past two weeks she has been busy recruiting and also in staff's efforts to monitor enrollments of the growth in the Greenwood area. Referencing the chart and percentages, Mrs. Bell stated the perception of the community that everyone in the community is failing with an "F" school which is incorrect. She is appreciative that staff is monitoring this closely. Dr. Goree reiterated the statistic in the presentation of the 35% increase in students attending the "A" schools as well as a 30% decrease in students attending "F" schools, and he believes this is moving in the right direction. He encouraged the Board that as they meet those with non-education degrees, to ask

them to call Human Resources and/or Professional Development because Caddo's CTA program is ready to receive them to help our students. Also, regarding the demographic information, this is what the demographers do - look at changes in population, where they are moving, etc. Mrs. Bell also referenced the matter of transportation when students are moved from one school to another and the cost associated with transporting students outside their neighborhood.

Mr. Green expressed appreciation to the Superintendent and his efforts in addressing issues such as population shifts, aging communities and low birth rates which continues to create challenges for the District. He believes there needs to be something done so that everyone wants to stay in a community for a life time and then would not have to address these type issues.

Mrs. Brown asked that the Board encourage and/or direct the superintendent to assign a staff person to serve as the lead staff or buffer during the meetings to expedite time spent managing the new system and to assist Board members with communicating so meetings are conducted in a timely manner. Mr. Riall asked that this be presented under announcements. Mr. Green stated his support of Mrs. Brown's comments and asked that this be placed on next month's agenda.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JANUARY 16, 2018 CPSB MEETING

Dr. Goree highlighted items for the Board's consideration at the January 16, 2018 CPSB meeting and the following discussion ensued.

Bids. Mr. Rachal inquired about the life expectancy on rebuilt buses' engines, and Mrs. Lloyd responded that these engines are not necessarily new engines but are rebuilt engines and the life expectancy for the engine does not change, but is still 25 years, which is the life expectancy of a bus. Virgin Rachal further explained that by law a bus's life expectancy is 25 years, and if you have a bus that is 15 years old it may be possible to replace the engine which is more cost effective than buying a new bus.

Renewal of Magnolia Charter. At the Superintendent's request, Diane Atkins and Mary Nash-Wood to share information on where the District is in the renewal of the Magnolia Charter. Mrs. Atkins stated that on November 17, 2017 the Magnolia School of Excellence Type 1 Charter submitted a request to renew the Type 1 charter as outlined in state statute. She said Magnolia was granted approval by the Caddo Parish School Board in February 2012 and the school (grades k-5) opened in the fall of 2013. On February 5, 2016, the Board granted Magnolia's request to become a k-12 and they have approximately 1200 students, 722 of which are in grades k-5 where the Charter application approval was given. She reported that the Shreveport Charter Foundation is requesting to renew on the original contract (k-5), and in the process of the five-year review outlined in the contract with the Shreveport Charter Foundation, the Caddo Parish School Board staff (Academic Department) conducted two audits. In these audits it was noted that since February 2017, Magnolia has made some improvements and the following strengths noted: they are now using what Caddo uses (Tier 1 curricula in all core areas and monitoring the implementation), they are using Eureka Math, Core Knowledge and Guide Books for ELA, teachers are using curricula resources as intended, time is allotted for intervention and small group reading in all grades, teachers are supported through a multitude of resources. Areas Caddo is suggesting for growth from the audit include curriculum implementation, being more proactive to anticipate student classroom needs and move faster through the strategic planning and implementation of the new Math and ELA. Mrs. Atkins reported that while a 70-minute intervention time is being used, staff has a concern that the interventions are computer driven. One high leverage step is to utilize intervention time with directly aligned interventions using to the Tier 1 curriculum, and this cannot be done using a computer. Their data system use is showing major gains and showing the alignment of data to state standards; however Caddo would like to see them implement Leap 360, DIBELS, and reducing non-aligned assessments which will continue to assist teachers in having data to drive their planning. The financial review was strong with noting of only one financial concern which is the increased annual cost of leasing their facility; however, their board has operated within its budget each year. Training and oversight documentation for the Shreveport Charter Foundation Board must be completed and affirmed each year.

Mrs. Atkins stated it is the committee's recommendation that the Board will approve the renewal of Magnolia's Charter for a three-year period with conditions outlined in the contract. These conditions include (1) restructure the innovation process for greater academic impact, place student grades in the District student information system the same as attendance and discipline,

and Caddo will conduct academic audits each year to assess strengths and areas for improvement, and to comply with the financial request noted by Caddo's Chief Financial Officer.

Mrs. Bell asked if Magnolia is under the same formula and guidelines as the non-charter schools, and Mrs. Atkins confirmed they are under the same accountability guidelines. Mrs. Bell asked if going from a D to an F school, must they show improvement the same as Caddo schools, and Mrs. Atkins stated this is the first year Magnolia has received an "F" rating and they are under the same guidelines as Caddo. Dr. Goree added that in speaking about the same standards, Magnolia does qualify under the guidelines whereby for the state to come in and take over, they would have an "F" rating for more than one year (4th year) before state takeover. Mrs. Bell asked how often does the Board meet and representatives responded they meet once a month. Mrs. Bell stated that in her study of this request, she is concerned about the financials and her concern that Magnolia receives approximately \$10,000 a year per student versus the \$5,400 that Caddo receives per student from the state and the remainder is from tax dollars. Mrs. Bell noted the fact that the lease is taking the majority of Magnolia's money and her concern that this is increasing each year and less and less money is being used for the children. Mr. Lee clarified that the \$30 million is the total amount of debt on the lease for Magnolia and they actually pay about \$2 million annually.

Miss Green asked for clarification on what Magnolia is doing different than Caddo since Magnolia's request for a charter was to offer parents options. Dr. Goree stated that the original application before his tenure began as superintendent was to open a traditional school so it wasn't the intent of the Board that the school have any specific, unique qualifications. Kim Derrick explained that they hold two days of after school tutoring, Saturday tutoring beginning in January, they will begin to put in students' grades along with attendance and discipline, 70-minutes of RTI in 4th and 5th grade, and 55 minutes of RTI in k-3, use of some computer-based programs as well as small student groups for RTI with the teacher. Miss Green stated that before Dr. Goree came to Caddo, Magnolia came to Caddo with the idea of giving students a choice; and when she hears this, she thinks they want to offer something different than what Caddo is offering. She asked if in saying that Magnolia wanted to open a traditional school, she does not believe that is how it was advertised, so she asked the attorney what will happen if the Board does not renew the contract. Mr. Abrams explained that the Board must follow the guidelines expressed to Magnolia as far as the renewal of the contract; so the question would be "Is Caddo following its own guidelines as to the renewal?" If the Board decides it will not renew the contract, the contract and the school would end unless they went to BESE and BESE made the decision to authorize their charter. Miss Green asked if the Board does not approve the renewal does it mean there is no k-5 or k-6, and Mr. Abrams explained there would be no Magnolia Charter School authorized under the Caddo Parish Public Schools.

Dr. Douzart stated that regarding the finances for training of Magnolia teachers, and Diane Atkins explained that because Magnolia is under Caddo as a Type 1 Charter, they have access to Caddo's professional development opportunities and they also participated in the new teacher orientation with professional development being on-going which is one of the recommendations of the academic audit in 2017. Miss Green asked if Magnolia writes Caddo a check for the professional development they receive, and Dr. Goree explained that because they receive student funds, they are billed for services Caddo provides, i.e. transportation, SPED staff referred to Magnolia. Miss Green asked for a list of things Caddo bills Magnolia for.

Mrs. Bell noted that SPED is another concern she has and the time spent on computers. Kim Derrick explained that when teachers are working with a small group of students on RTI, the remaining students in the classroom may be completing a computer assignment. Mr. Riall asked when does the contract for the 6th grade forward come up for renewal, and Mr. Abrams responded that the entire contract is up for renewal and includes grades 6-12 but the evaluation is only on k-5. He reminded the Board that Magnolia was approved for a k-12 initiative and not a k-5 and they operated as a k-5 but came back to the Board with a separate charter for the middle and high school but negotiated with Caddo to use the same single contract and extend it to include 6-12. The only difference being that they would not be evaluated on for renewal based on 6-12 but k-5. He further stated if the Board approves the three-year renewal, the entire school would be evaluated for another contract.

Mr. Rachal asked for clarification of the maximum three-years, and if it is possible for the Board to approve less than three years, possibly approve two years. Mr. Abrams in looking at the Statute stated that the Statute states "not less than 3 years". Because of Magnolia's current letter grade of "F", Caddo cannot renew it for more than three years. Mr. Rachal stated he reads it says a maximum renewal term of three years, and Mr. Abrams clarified that is what Caddo's guidelines state, but the state statute states that when a contract is renewed it cannot be for less than three years or more than 10, but because of Magnolia's letter grade, the term is no less than three years and no more than three years. Mr. Rachal asked if sees correctly that

our guidelines do not match the state statutes and Mr. Abrams clarified that Caddo's guidelines do match the state statutes. Mr. Rachal requested clarification based on what State Statute says. Mrs. Wood further explained that in looking at why staff made the three-year recommendation, it is what is reasonable and fair for a school in terms of improvement; and that in Caddo's school turnaround efforts, we wait for three years of data to determine level of improvement especially with the accountability changes at the state level, and is why one of the guidelines requires an annual academic audit to insure they are on the right trajectory toward improving. Mr. Abrams verified that RS 17:3992(a) states that a Charter may be renewed for additional periods of not less than three years and not more than 10 years, but if a school has a letter grade of "F", the maximum renewal is 3 years, if it is a "C", the most is 6 years, and a "B" is 7 years. Mr. Rachal said he believes it needs to say the minimum and maximum renewal is 3 years.

Salvage Sale. Mrs. Bell inquired about the items for the salvage sale and the date it will be held. Dr. Goree explained this is an accumulation of items no longer being used in the schools, i.e. desks, and staff will provide this information to the Board.

Mr. Riall announced Items 7.01, 8.02, 8.04-8.05 and 13.01 are the Consent Agenda. *Ms. Trammel moved, seconded by Mr. Rachal, to establish the proposed agenda and consent agenda for the January 16, 2018 CPSB meeting as presented. Vote on the motion carried.*

ANNOUNCEMENTS

Mrs. Bell announced that the Live Pro Wrestling event will be held at Huntington High School on February 3rd. Between January 30 and February 2, pro wrestlers will visit schools in Caddo and talk to the students about bullying. This is a fund raiser for Huntington and all funds raised from the concessions will be donated to Huntington's volleyball and wrestling teams.

Mr. Rachal announced the newest addition to their family, a grandson, was born on December 21st.

Mrs. Brown reiterated her request to assign a staff person to assist during the Board meetings. Mr. Green relinquished his motion to Mrs. Brown.

Adjourn. *Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:17 p.m.*

January 19, 2018

The **Caddo Parish School Board (CPSB)** held a retreat on Friday, January 19, 2018 at approximately 9:00 a.m. at the American Rose Center in Greenwood, Louisiana. Those in attendance were President Steve Riall and Board members Susannah Poljak, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

Dr. Goree welcomed those in attendance and introduced Dr. Steve Joel who began by congratulating the Board on its growth since Dr. Goree was named superintendent and the first retreat was held, indicating how boards can work together to move forward for the children. He also highlighted the day's agenda, followed by an icebreaker activity.

High Performing Districts. Dr. Joel noted the following characteristics of high performing districts: a focus on student achievement, high community trust, positive employee morale, having a culture that encourages risk-taking to address challenges without fear of failure, active parental support at the school and district levels, being sought out for participation in state and national conferences to share District story, and seeking high quality applicants for actual positions. In looking at Low Performing Districts, Dr. Joel stated that one will see a decline in achievement, low staff morale, excuses for poor performance, blaming others, high absenteeism, high turnover, aggressive associations, parent requests for student transfers, decline in student attitudes, negative participation in Board meetings, high staff turnover, negative portrayal in media, and Board election apathy until a will for change emerges.

Some of the things districts will see when high trust prevails are good school climates, variety of fresh ideas, improved manners and discipline, more teaching across the curriculum, positive self-esteem, more people involved in problem solving, creativity, sharing, flexibility, safety, teamwork, risk taking, less conflict, happiness, laughter and talking, teamwork, professional attitude/commitment, creative problem solving, decrease in supplies/equipment needs as a result of sharing, all ideas have value, and a feeling of being valued and belonging.

Roles and Responsibilities. Dr. Joel shared and led discussion on the roles and responsibilities of the Superintendent with the Board as well as the Board with the Superintendent, covering areas such as policy, support, unit operation, school personnel, protection, and evaluation.

Challenges for Superintendents in 2018. Dr. Joel shared with the Board members some of the challenges superintendents can expect in 2018 including average tenure for urban superintendents, job satisfaction tied to board quality, stability and commitment to working together, alignment of responsibilities (each one operating in their lane), open and honest communication, president's role as liaison between superintendent and the Board, new Board member orientation, and changes in Board members. He also briefly covered trouble spots such as working with the media, personnel issues, individual agendas, surprises, budget, politics, and community engagement.

Characteristics of Successful School Boards. In looking at successful school boards, Dr. Joel stated that one will find

- a commitment to a vision of high expectations for achievement making sure goals are clearly defined to attain higher student achievement and quality instructional practices and that this is always a priority;
- strong beliefs about teaching all students to their highest levels;
- less time spent on operational issues and micro-management and more time on policies;
- strong connections to community stakeholders and groups;
- resources aligned to district goals and needs;
- a team united with the superintendent, having collaboration and trust;
- a shared knowledge, values and commitments for improvement efforts; and
- formal training for new board members.

Lessons learned from School Consolidations/Closures. Board members participated in a small group activity discussing the consolidation and closure of schools, and coming back together and sharing with the group what was learned through this experience(s).

Key Operating Procedure – One Board, One Voice. Dr. Joel highlighted the Board’s One Board/One Voice policy established to advance the ideals of a quality education system in Caddo and appropriately responding to the public regarding matters of interest involving the Caddo School System. He stressed the importance of understanding the concept that no single School Board member has the authority to act on behalf of the School Board, nor does any individual employee have the authority to make any comment on behalf of the school system without appropriate authority.

When Board Members Change. Dr. Joel recapped the Board at the time the current superintendent was hired, the District’s academic and financial crises mixed with a lack of community trust, and the significant improvement in each of these areas. With this year being an election year, he stressed the importance of maintaining the focus on continued improvement of the district and not allowing progress made and trust built to begin to erode.

What Does your Push Card say? Highlights, successes and accomplishments in the District over the past four years were highlighted.

Adjournment. The retreat adjourned at approximately 2:45 p.m.

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

January 23, 2018
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry Rachal, John L Albritton, and Dottie Bell. Board member Larry Ramsey was absent. Also present were Superintendent Lamar Goree and Board Attorney Reggie Abrams.

President Steve Riall called the meeting of the Caddo Parish School Board to order at approximately 4:30 p.m. and led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES

Ms. Trammel moved, seconded by Mrs. Bell, to approve the minutes of the December 19, 2017 and January 9, 2018 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

2017 CPSB President. President Steve Riall presented to 2017 Board President Denee' Locke a plaque, thanking her for her service as President during 2017.

Caddo's Talented Arts Program. Eighth grade vocal student, Kamara Lyons, performed *Halo by Beyonce'* and the *Greatest Love of All by Whitney Houston*. Jennifer McMullin, TAP vocal teacher, accompanied her.

Outstanding Young Philanthropic Leader Awards. Olivia Davis and Abigail Roberts were recognized as recipients of the 2017 Outstanding Young Philanthropic Leaders by the Shreveport chapter of the Association for Fundraising Professionals of North Louisiana.

Caddo Magnet High Senior Publishes First Book. Sunjay Letchuman, Caddo Parish Magnet High senior, was recognized for publishing his first book entitled, "Handbook of Essentials that Every High Schooler Needs to Know about Finance and Much More".

Louisiana Association of Teachers of Mathematics. Ms. Rebecca Kliebert of Fairfield Elementary Magnet was recognized for receiving the 2017 Louisiana Association of Teachers of Mathematics Outstanding Elementary School Math Teacher Award.

Athena Honoree. Keshia M. Simmons was recognized as a recipient of The Greater Shreveport Chamber of Commerce 2017 ATHENA Leadership Award.

Young Professionals Initiative 40 Under 40. Marvin Rainey, principal of Midway Elementary and Mary Nash-Wood, director of Communications and Strategic Initiatives, were recognized as members of the 2017 40 under 40 group.

Caddo's Outstanding Support Employees of the Year. The following 2016-17 Outstanding Support Employees Award winners were recognized: Lillian Burks-Thomas, Secretary, Turner Elementary (Elementary School Division); David Wright, Security Coordinator, North Caddo Elementary/Middle (Middle School Division); Deldrick Douglas, Teacher Aide, Captain Shreve High (High School Division); Sandra Moody, Budget Accountant, Title I (Academic Affairs); Harold Culpepper, Maintenance Truck Driver, Operations (Maintenance-Warehouse); Annette Dunlap, Secretary, Human Resources (Human Resources/Classified); and Nancy Kinsey, Bookkeeper II, Finance (Finance Department/Accounts Payable).

National School Board Recognition. As January has been set aside to recognize School Boards, Dr. Lamar Goree acknowledged appreciation and gratitude to the

members of the Caddo Parish School Board for their public service, presenting each one with a "bucket" of thoughtfulness.

President Riall recognized Lynn Cawthorne, Caddo Parish Commission, present at today's meeting.

VISITORS

The following addressed the School Board on matters/issues of concern: Jon Glover, Jackie Lansdale, Dr. Phillip Rozeman, Lloyd Thompson, Sumer Cooner, Susan Caldwell, Omari Ho-Sang, and Bobby Edwards.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Riall announced that the consent agenda items include 6.01-6.03, 7.01, 8.02, 8.04-8.05 and 13.02.

Personnel Recommendations. Jon Glover questioned the newly created English Language Learner Specialist position, what it is and what it will do for Caddo's failing schools.

Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and consent agenda for the January 23, 2018 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE PROPOSED CONSENT AGENDA

Ms. Trammel moved, seconded by Ms. Green, to confirm the Consent Agenda as presented. Vote on the motion carried and the following is a summary of the Board's actions on the consent agenda items.

- 6.01 Personnel Recommendations. The Board approved the personnel recommendations as submitted by staff in the electronic mailout.
- 6.02 Requests for Leaves. The Board approved the requests for leaves as recommended by the Superintendent and submitted in the electronic mailout.
- 6.03 Personnel Transactions Reports. The Board approved the personnel transactions reports (resignations) for December, 2017, as recommended by staff and submitted in the electronic mailout.
- 7.01 Purchasing. The Board approved the bid Dahmer Powertrain Inc. for Bus Engines as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet.
- 8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.
- 8.04 Consideration of Use of Information Technology Reserve Fund to pay non-eRate Amount for Wireless Internet in Caddo Classrooms. The Board approved the use of Information Technology Reserve funds to pay the non-eRate amount for wireless Internet in Caddo classrooms as recommended by staff and submitted in the electronic mailout.
- 8.05 Authorization for Salvage Sale. The Board authorized staff to salvage general classroom items and supplies in accordance with policy.
- 13.01 Executive Session. Student Readmission Appeal Hearings. The Board approved staff's recommendation for readmission for students OB, QK, CO, JP and JT as submitted in the mailout and whose parents are in agreement.

CONSIDERATION OF RENEWAL OF MAGNOLIA CHARTER

Jon Glover questioned why the Board is considering renewing the Magnolia charter when parents who made the choice to send their children to Magnolia as a better choice for them when we are not seeing results indicating these Caddo students are receiving a better education.

Mr. Rachal moved, seconded by Mrs. Poljak, to approve a three (3) year renewal of the Magnolia School of Excellence Type I Charter For Campuses I and II as limited to 2000 students in grades K-12 by the First Amendment to Charter contract subject to the following conditions as recommended by staff in the academic audit and submitted in the electronic mailout

- 1. Restructure the Response to Intervention plan (RTI) to meet best practices;*
- 2. Utilize Caddo Parish School Board's Student Information System (STI) to input student grades;*
- 3. Implement the new math and ELA curricula based on the suggestions from the Academic Audit conducted on December 12, 2017;*
- 4. Caddo Parish to perform Annual Academic Audits of both campuses; and*
- 5. That all evaluations be based on the grades served at both campuses.*

Mrs. Bell expressed her concerns at the work session that this is not about her feelings about charter schools, but it is about the children who are Caddo students. She asked the superintendent if, during the three years, evaluations will be conducted annually and the Board receive annual reports? Dr. Goree said staff notes concerns expressed and annual evaluations will be conducted and made public. He also added that even though the motion states it will be looked at again at the end of three years, the Board reserves the right to bring forth action, at any time, if it is not pleased with Magnolia's performance. She added she will vote for this because she understands the noted issues will be monitored, evaluated and reported to the Board annually.

Ms. Trammel moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Miss Green and Mr. Rachal opposed.

Vote on the main motion carried with Board member Jasmine Green opposed.

ANNOUNCEMENTS

Dr. Goree announced that long-time educator, Caddo School Board member and friend of Caddo Schools Dr. B. L. "Buddy" Shaw passed away and services will be on Wednesday, January 24 at 10:30 a.m. at First Presbyterian Church on Jordan Street. He also announced that former Board member Curtis Hooks' brother passed away and services will be Friday at Praise Temple at 11:00 a.m.

Margaret Brown announced that on January 30th at 4:00 p.m. at Andrew Currie Park, SPAR's new recreation center will open for the youth in that neighborhood.

Mrs. Poljak announced that the Regional Social Studies Fair was on Friday with a number of Caddo students participating and now moving on to the State competition in Lake Charles.

Mr. Rachal thanked the Maintenance Department for their response to address a frozen pipe at University. He also requested that a Return on Investment Study, quantifying the economic impact of Caddo Parish Schools, be conducted and forwarded to the Finance Committee for follow up, as well as an invitation extended for a BoardDocs representative to attend the next Board meeting to help troubleshoot some issues.

Mrs. Bell asked that everyone remember Dr. Sullivan, assistant principal at Woodlawn, who lost her son and continue to pray for Otis Jones and Larry Ramsey.

Miss Green announced her grandfather passed away on Monday and she appreciates everyone's prayers. She also asked Attorney Abrams to share information with the Board on the proposed Industrial Tax Exemption resolution. She also asked if we are getting close to working out the technology issues. Dr. Goree announced an update is at every Board member's station.

Dr. Douzart thanked Mr. Woolfolk for his assistance in addressing heating issues at Fair Park Middle School.

Ms. Trammel also thanked staff for timely responses in addressing the heat issues at schools during the extremely cold weather. She also expressed appreciation for the "bucket" of goodies in recognition of Board Recognition Month.

Dr. Goree thanked the Board for its patience during the extremely cold weather and to the Maintenance Department for their hard work to address each issue in a timely manner. Margaret Brown echoed Ms. Trammel's comments.

Denee' Locke expressed her appreciation to the staff for their hard they work and help during her year as Board president, as well as to the Board for entrusting her as President during 2017.

Adjournment. *Mr. Rachal moved, seconded by Mrs. Locke to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:17 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

February 6, 2018
CPSB Audit Committee Meeting

Members present: John Albritton, Susannah Poljak, Denee' Locke, Raymond Green. Dr. Bonita Douzart was absent. Also present were Steve Riall, Mary Trammel, Dottie Bell, Superintendent Lamar Goree and Attorney Reggie Abrams. Staff members present were Jeff Howard, Jim Lee, James Woolfolk, Keith Burton, Diane Atkins, Mary Wood and Allison May were also present.

Mr. Albritton called the meeting to order at approximately 3:05 p.m. with a quorum being present, and led the prayer and Pledge of Allegiance.

Establish and Confirm the Agenda

Denee' Locke moved, seconded by Raymond Green, to establish and confirm the agenda as presented. Vote on the motion carried.

2016-17 Comprehensive Annual Financial Audit Reports

Jeff Howard introduced Tom Simms and Lisa Salter with Carr, Riggs and Ingram. Mr. Simms summarized the results of the 2016-17 audit presented in the following documents: (1) CAFR - Comprehensive Annual Financial Report, (2) SAR – Single Audit Report and Parliamentary Procedures Report, (3) CEEF - Caddo Educational Excellence Fund Report, and 4) Letter to the Body of Governance. Results included:

- Overview of the audit of the various fund sources, i.e. grants, Title I, Child Nutrition, State Department pass through dollars (US and State), Special Education, Title IV, Race to the Top, Pre-School Development Grants, Department of Human Health and Human Services pass through dollars, Department of Defense for a total of \$53.7 million in Federal funds.
- Management letter that includes findings not worthy of a finding for Federal reports but that need to be brought to the Board's attention.
- No exceptions in the review of the schedules submitted to the State.
- Statewide agreed upon procedures report
- Clean opinion (unmodified) by the auditors on the financial statements
- No material weaknesses in the Federal programs
- No incidents to materials not being in compliance with the Federal Programs
- No deficiencies disclosed relating to the audit and required to report
- No incidents of non-compliance relative to the Federal award programs, i.e. major programs tested.
- Significant deficiency in internal control over financial statements which is a repeat from 2016 regarding controls over purchasing and procurement (identified theft and fraudulent activities in transportation purchasing) and is a repeat since it was within the school year audited this year and the concerns were relative to procurement card purchases not support by appropriate documentation, as well as Debit cards and credit cards in the statewide agreed upon procedures
- In the non material, non compliance act provisions looked at when conducting tests for compliance did not cause any interruption in funding. Two findings were noted in Title I (graduation rates and non documentation for when a student leaves the system and why of which they found 8 such instances), and non compliance in the JROTC Program relative to timely notification when an instructor retires or leaves the service so that paymaster stops paying the school system.
- The need to amend budgets according to law so that revenues are always 95% of the original budget.
- Exceptions noted in forms relative to the bid law process on awards granted, i.e. foreign citizenship status
- No exceptions in the BESE agreed upon procedures
- Statewide agreed upon procedures and the 11 areas the State has promulgated that auditors must review, i.e written policies and procedures from Best Practices such as purchasing policy addressing controls to insure compliance with the bid law. (In

practicality, Caddo does, but in terms of a written policy, this specific verbiage is not written in policy (Debt Service Policy)

- Content of Minutes – Tweak moving forward to include references to actual budget comparisons for the General Fund and any other fund.
- Bonded school bookkeepers as required by law
- Purchase order or requisition (or backup support) for every disbursement
- Deficiencies in documentation for credit cards, debit cards, fuel cards and procurement cards
- Personnel and payroll – Missing documentation on attendance and leaves for five employees
- Payroll taxes submitted past the due date (determination it was due to a Holiday)

Mr. Abrams inquired about the comments relative to written policies and procedures and if there are suggested policies we could verify verbiage in any Caddo policies in place? It was noted that in the last tab of information, the step is laid out according to what the State said must be included. Mr. Lee asked about Debt Service exceptions in other districts/agencies, because if a lot of districts do then Forethought would send proposed policies or needed revisions to current policies. Jeff Howard explained that while the District has controls, they are not stated in policy, but when policies are revised, procedures are sent out. Mr. Simms reiterated that these are Best Practices and are not stipulated by law.

Mr. Simms also pointed out the increase in outflows during 2016-17 mainly due to changes in the pensions, long-term liabilities, compensated absences, capital lease payables, net pension liability (OPEB), changes in financial reporting the OPEB liability, GASB standards, etc.

Mrs. Bell asked about the 17 bank accounts and if we recommend which bank(s) the schools can use, and Mr. Howard stated the main bank for consolidated accounts at Central Office is Chase and most of the schools use Chase, but it is not required that they use Chase. They do need to choose a bank that at least has local branches where they can make deposits. Mr. Simms noted that the number 17 is the number tested in the audit.

Mrs. Locke asked that in the future the documents relative to the audit be sent to the Committee in advance of the meeting to allow opportunity to review prior to the audit presentation. Ms. Salter explained that they (the auditors) cannot release the audit until the State Legislative Auditor has released it which was approximately one week prior to this meeting. Mrs. Locke also asked about the repetitive procurement card issue, and Mr. Lee explained how staff has responded to this and the controls put into place to address this area.

Mrs. Bell asked about the required form relative to citizenship status, and Ms. Salter explained that State Bid Law requires any bid awarded for a contractor to certify and have on file forms relative to citizenship, status and attestation that there are no convictions, and it is the School Board's responsibility to gather this information from the contractor.

Mr. Albritton noted that this is the second year the credit card issue has been brought up in the report and asked when does something like this become flagged, and Mr. Simms responded when it happens a third year, the Legislative Auditor could possibly flag it. He asked if the auditors are looking for something to be documented in a policy statement or written procedure, and Mr. Howard stated we do have something in place and Lisa Lloyd in purchasing is working on these procedures.

Adjourn. *Mrs. Locke moved, seconded by Mr. Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:45 p.m.*

February 6, 2018
CPSB Executive Committee Meeting

Members Present: Steve Riall, Mary Trammel and Barry Rachal. Also present were Board members Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, John Albritton and Dottie Bell; as well as Superintendent Lamar Goree and Board Attorney Reggie Abrams.

President Riall called the February 6, 2018 CPSB Executive Committee meeting to order at approximately 4:35 p.m. with a quorum of the executive committee present. Ms. Trammel led the invocation and Pledge of Allegiance.

Board Room Technology Update. Steve White, director of capital projects, shared an update on addressing the issues with the digital discussion system in the board room, including replacing six of the main cables from the equipment room to the board room and conducting two mock board meeting tests each lasting an hour and 15 minutes to an hour and 30 minutes with no failures. At this time, it is believed the problem has been located and addressed and a technician from the equipment manufacturer is scheduled to visit hopefully within the next week to go through the system and ensure everything is properly connected. Dr. Goree expressed appreciation to the Board for their patience and staff believes we are moving in the right direction to correct the problem and is committed, if this does not correct the problem, to replace the equipment at no cost to the Board.

Caddo Virtual Academy Update. Tyron Lacy, principal of the Caddo Virtual Academy shared an update on the successes seen at the Caddo Virtual Academy. He introduced the staff at CVA, shared information on the establishment of CVA in 2016 and the successes seen since that time, and noted that everything done at CVA is done with excellence. He explained that CVA is a 9-12 high school, college preparatory public high school with unique opportunities to serve students through on-line learning. They are committed to meeting the needs of all students enrolled in the CVA, and they personalize each student's learning experience. He shared that CVA is not an alternative high school, but a public high school with an SPS score. Mr. Lacy shared that their target population includes students from the public schools, private schools, homeschool, out of district, amateur athletes, models, entertainers who need an alternative to the traditional setting. All CVA staff members are certified and there is only one teacher in each core area. The enrollment in the first year grew to approximately 25 students and currently it is approximately 60 students. They also have achieved NCA approval, and students from various local colleges/universities are currently taking advantage of on-line college courses. Last year, seven students graduated from CVA and received a total of over \$1 million in scholarships. Mr. Lacy noted the advantage of on-line courses being customized to meet the individual needs of each student and students having the ability to work at their own pace with one on one assistance from teachers. Because some of the students required going through acceleration, staff plugs these students where they need to be in order to catch up to where they need to be and graduate on time. Jump Start opportunities are offered adjacent to the Caddo Career Center and also offering students expanded opportunities. Those enrolled in CVA must meet certain requirements as the course work is very rigorous. Teachers provide live lessons with over 200 course offerings provided through the school, including AP and Advanced Courses and staff will personalize and do what needs to be done to benefit the students.

Several students from the CVA shared their personal experience in being at CVA, and what the program has offered them with teacher support to experience success.

Mr. Rachal congratulated Mr. Lacy and the successes at CVA, including the scholarships granted after the first year as well as the 93 School Performance Score. He asked if the majority of the students enrolled only attend CVA and it is their home school. Mr. Lacy stated that CVA is the home school for any student enrolled there. Mr. Rachal also asked if any of the classes offered at CVA are offered to students enrolled in other Caddo public schools who may have a desire to expedite getting college credits. Dr. Goree said they do not at CVA, but there are additional offerings, on-line courses, available for students at all high schools to take advantage of. Mr. Rachal asked if the same success is being seen with the on-line courses at the other high schools, and the superintendent responded absolutely.

Mr. Albritton also congratulated Mr. Lacy and shared that parents addressed him following last year's CVA graduation regarding their personnel testimony of how CVA afforded them to be able to complete their high school requirements and receive a diploma.

Ms. Trammel thanked Mr. Lacy for his presentation, and reminded everyone in the audience the perfect fit the CVA has been for some of Caddo's students who have been transferred throughout the parish, but now at CVA, they are seeing success.

Dr. Goree also thanked Mr. Lacy and his team as well as Mr. Burton and Mr. Mainiero for their leadership in this endeavor in Caddo.

Jump Start Update. Victor Mainiero, director of high schools, shared with the Board and audience an update on the Jump Start Program in Caddo. He reported that the 2017-18 seniors now fall in the new requirements from the Louisiana Department of Education for the Louisiana High School Diploma, and Caddo's mission remains to prepare our students for the future. He explained that the 2017-18 seniors made the selection to follow the TOPS University Pathway or the TOPS Tech Jump Start Pathway, both which equal a diploma; and he shared a quick overview of both pathways.

The TOPS University Pathway will see a high school diploma, have the ability to enroll in a four-year public university or college, be eligible for TOPS if they meet the GPA and ACT requirements, to take Jump Start electives and earn Jump Start credentials, and to complete the FAFSA or TOPS applications or work with the parents and students on a waiver for a graduation diploma. The TOPS Tech Jump Start requires assuring students have the ability to enroll in a community or technical college, and if successful there have the opportunity to move on to a four-year college or university, have the ability to enlist in the military, be eligible for the TOPS Tech with the GPA and ACT requirements, and meet the FAFSA financial step, as well as participate in workkeys. Jump Start students must also earn nine career technical education credits (CTEs) and an industry based credential (IBC).

He further explained the requirements for earning the diploma in each pathway (24 credits for TOPS University and 23 for TOPS Tech). The Louisiana Department of Education offers 47 Jump Start Pathways (areas of concentration, majors, options, etc.), and each pathway has a specific course requirement and credentials to meet that particular pathway. The commonality among all 47 pathways are the 9 CTE credits, all cumulative credentials, universal courses, career readiness courses, internships, etc.; and he highlighted what someone might see when tracking through any of the available 47 Pathways, and he noted the specific requirements in each. He further noted that all 9th graders in Caddo complete a career interest survey, which generates five possible careers which counselors use to guide the student and the parent in making their selections. By the end of the 10th grade, the student must make the selection between University and

Jump Start. At this time, Mr. Mainiero reported that of the 2017-18 seniors, 353 are on the Jump Start Pathway as well as 394 juniors. As the district continues its work in this, and students become more comfortable, it will continue to grow. Total pathways in Caddo at this time are 24, with many being at the Career Center as well as each high school. Also, the North Caddo High supports 13 Jump Start pathways. He concluded that the Jump Start team meets monthly under Mr. Burton's direction and they look at how to support Caddo's high schools in moving Jump Start forward. Mr. Mainiero also highlighted the programs in place for teachers to use to help further students in the pathway programs offered; and because Jump Start is part of the District Strategic Plan, it falls under the graduation rate which staff continues to work on increasing, so staff continues to assure that the right high school teachers are being certified to offer the IBC, that we continue to communicate Caddo's education plan of Jump Start to all stakeholders, and that graduates are continually monitored to make sure they attain the IBC as well as help counselors guide the discussions and the multiple options offered to the Jump Start students.

Mrs. Bell asked Mr. Mainiero if the automotive curriculum taught at North Caddo is the same as what is taught at the Career Center, and Mr. Mainiero responded that it is because the automotive center is supported at this facility. Mrs. Bell asked how this will be addressed. Mr. Mainiero added that because of the great need for the automotive and welding curriculum and because the Career Center is overcrowded, Northwood will be moved to North Caddo to support the numbers. Ms. Bell asked about students in the Martin Luther King area; and Mr. Mainiero explained if there is not room at the Career Center, they will look at them going to North Caddo. Mrs. Bell asked staff to provide her the number of Jump Start students at Huntington and the Pathway they have chosen.

Strategic Plan Mid Year Update. Carolyn Spaht-Gonzalez, third party reviewer contracted by Caddo Schools to assist the district in working through the District's Strategic Plan, updated the Board on Caddo's progression in reaching the goals and targeted objectives outlined in the plan. She explained today's presentation is a mid-year status update and a detailed evaluation will be presented at the end of the year (summer). She reminded the Board of the process she follows in facilitating the evaluation to gather data, but it is the Superintendent's Direct Reports and goal area leaders that provide the documentation. Having set targets (milestones) for all the action steps for the end of the year in order to track progress, she gathers from the goal-area leaders updates on the action steps and objectives and the supporting documentation to use in creating the Scorecard. She also stated that a binder with all the supporting documentation collected is available for review by anyone wishing to do so.

Mrs. Spaht-Gonzalez stated that her purpose is to evaluate where the District is in achieving the Strategic Plan. She reminded the Board that the District's Strategic Plan has 28 measurable objectives with many action steps under each; and she highlighted where the District is as of the first half of this school year. She reported that approximately 30% of the objectives cannot be ranked because the data is not available, approximately 10 of the objectives are meeting target (or making adequate progress), about 6 of the objectives are showing progress but at this time not enough progress, and 4 objectives have not seen any progress (for this year). She also reminded the Board that if any are designated red it does not mean no progress has been made, but that ample progress has not been seen this year in line with where the District wishes to be at the end of the year. Also, data was not available for two objectives at the end of the last year's report, i.e. fund balance and vacancies. This data is now available and even though it is last year's, she will highlight it in today's presentation. Mrs. Spaht Gonzalez also reminded the Board the large number of action (and everyone was looked at to determine

where the District is in meeting them) steps and the amount of work for each, she shared a few examples of this on the Scorecard.

In looking at Areas of Distinction, or areas of turnaround in the last 2.5 years, she reported that the area of Innovation for Students has seen tremendous growth and she reminded everyone that even though they have met the target, staff has relooked at it and is stretching the target more and making it more aggressive. At this time, staff has met the target for the ratio of electronic devices to students, and now it has been changed to look specifically at technology in the schools and by 2020 reach a 2 to 1 ratio of technology in the classrooms. The second area is Leveraging Community Partnerships at Schools where community resources/partners provide what is needed at each school and this, along with Marketing and Communications has improved, and she applauded the Board and staff for turning these two areas around. In the area of maintenance and energy costs, this target has been met early and is on track of being met this year as well. Work orders from the schools are also being kept low and is another area positively addressed, as well as reducing the surplus in staffing.

She announced that areas where focus is needed are fund balance, increasing the percentage to 13, and buses (accidents, on-time and substitute drivers). Regarding accidents and on-time delivery, she reported these two areas are ahead of where they were last school year at this time; and while the department did well in the area of substitute drivers last year, a large number of substitutes were lost this year. She reminded the Board that the HR data analysis is there every year and is where the IT system works with the school sites and HR department so HR can look at the needed data and be more pro-active in targeting recruiting and retention. She credited HR for beginning to conduct surveys, i.e. to find out why teachers are leaving, why classified employees are leaving, as well as climate survey. Relative to the area of alignment of specialized programs, Mrs. Gonzalez stated that the Strategic Plan includes an objective for making sure that what the schools' name/program is truly is what programs were implemented and are offered in the schools. She also noted that while there was some work in this area last year, it is marked red because there has not been any work done this year.

She also highlighted the Best Practices of Strategic Planning – measurement, revision and communication – and extended kudos to the district for the work that has been done as well as the work yet to be done in Caddo's very aggressive strategic plan.

Mr. Albritton expressed his appreciation for the thoroughness of this report and in looking at the focus areas, he asked should a focus not also be on academics where the trend lines are going in the wrong direction? Mrs. Gonzalez explained that the needed areas of focus are those areas she has observed so far this school year. In the last year's end-of-year report, focus areas in academics were included; but it is not in the mid-year report because data has not been received in this area thus far this year.

Mrs. Poljak inquired about the focus area relative to HR data analysis and if this is a matter of someone taking the data and manually inputting it in the system. Mrs. Gonzalez said it is tedious, but a meeting should probably be held between HR, IT and Academics; and HR already has the report, so it is a matter of getting together to create a program for it.

**ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE
FEBRUARY 13, 2018 CPSB MEETING**

Superintendent Goree highlighted the items for the Board's consideration at the February 13, 2018 CPSB meeting and the following discussion ensued.

Out of State Travel (General Fund). Dr. Douzart stated her appreciation for the fees budgeted for this request; she likes what was done.

Consideration of Request to Change Turner Elementary to a preK-8 Elementary/Middle School and Huntington to a 9-12 High School for the 2018-2019 School Year. Mrs. Bell expressed her appreciation to staff for their work in providing detailed information on this request. She also shared that the community supports this change 100% and asked the Superintendent how staff feels about this proposed change. Dr. Goree explained that a lot of effort went into making sure this is the best decision for the proposed feeder pattern, and looking at why the last change was made before another change is made. In speaking with citizens and those in the schools, he believes Caddo has seen great success in the K-8 schools and that the K-8 configuration will better serve the middle school students than did the 7-12 for this community. He agreed that the changes are minimal and are only a shift in the students' location.

ADDITIONS

President Riall announced that Proclamation recognizing March 3 as Retired Teachers Day and a Legal Update on Fair Park under Executive Session are added.

President Riall announced that Items 7.01-7.02, 8.01-8.09, 8.12-8.13 and 13.01-13.02 are on the consent agenda. *Ms. Trammel moved, seconded by Mr. Riall, to approve the proposed agenda and consent agenda for the February 13, 2018 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following shared with the Board their concerns and/or interests: Lady Carlson, Interfaith; Dawn Jordan, Caddo Association of Educators; Jon Glover; and Jan Core.

ANNOUNCEMENTS

Dr. Goree reported that Miss Green's injuries from the automobile accident were minor and even though her automobile was damaged heavily, she will be o.k.

Ms. Trammel referenced the many accomplishments at Woodlawn High School and she shared testimony from a student she recently met that truly loved being at Woodlawn and is encouraging her siblings to also attend Woodlawn which mirrors her focus for 2018 to rebuild neighborhood schools.

Birthday wishes were extended to Mary Trammel and John Albritton, and Mr. Riall announced that Terry Bradshaw, Woodlawn graduate, is one of the key note speakers at this year's National School Boards Association annual convention.

Adjournment. *Ms. Trammel moved, seconded by Mr. Riall, to adjourn. Vote on the motion carried and the meeting adjourned at 6:00 p.m.*

**March 20, 2018
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry Rachal, Durwood Hendricks, Jr.; John L Albritton, Dottie Bell. Also present were T. Lamar Goree, Ph.D., superintendent, and Reggie Abrams, Legal Counsel.

President Steve Riall called the meeting to order at approximately 4:30 p.m. A quorum was present. Mary Trammel led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE FEBRUARY 13, 2018, FEBRUARY 27, 2018, MARCH 5, 2018 AND MARCH 6, 2018 CPSB MEETINGS

Mrs. Locke moved, seconded by Ms. Trammel, to approve the minutes of the February 13, 2018, February 27, 2018, March 5, 2018 and March 6, 2018 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Music by Carnegie Hall Participant. Hunter Breedlove, 11th grade Cello orchestra student at C. E. Byrd, performed "Sarabande" from Bach's Suite No. 1 in G Major. Hunter was accepted into the 2018 High School Honors Performance Series at Carnegie Hall.

2018 Prudential Spirit of Community Winner. Joey Gouthiere, 12, was named one of Louisiana's top youth volunteers of 2018 by The Prudential Spirit of Community Awards, a nationwide program honoring young people for outstanding acts of volunteerism. Joey is a 7th grader at Youree Drive Middle School.

2018 Amazing Shake Top 14 Winners. The following students were recognized as the 2018 Amazing Shake winners: Amiere Wilson, Atkins; Janae Gallion, Booker T. Washington; Anthony Daniels, Caddo Heights; Ver'rtrell Brown, Caddo Middle Career; Brenna Cooksey, Fair Park Middle; Carlos Mosley, J. S. Clark; Jermesia Turner, Midway Professional Development; Da'Marlow Thomas, Mooretown Professional Development; Ma'Kayla Vance, Oak Park; Omaria Sparks, Queensborough; Caleb Jones; Sunset Acres; Robert Harris, Werner Park; Rilen Guice, Westwood; and Eden Holmes, Woodlawn Leadership Academy. Chryshala Dale and Willie Hearod IV, both from Fair Park Middle School, were recognized as National Amazing Shake participants.

2018 Ivan Smith Fund Grant Winners. The following were recognized as Ivan Smith Fund Grant winners: (1) Dr. Matthew Mitchell, principal of Fair Park Middle School, \$2,500; (2) Mary Sipes, teacher at Atkins, \$500; (3) La Keisha Graham, teacher at Fair Park, \$500; and (4) Kalinda Rogers, teacher at Westwood, \$500.

2019 District Teachers of the Year. The following were recognized as 2019 Caddo Teachers of the Year: (1) Shannon Southwell, Arthur Circle (Elementary); (2) Kathryn Ferguson, Youree Drive (Middle); and (3) Andrea Shyne, North Caddo Magnet (High School).

2019 District Principals of the Year. The following were recognized as 2019 Caddo Principals of the Year: (1) Jesse Scott, Southern Hills (Elementary); (2) Dr. Matthew Mitchell, Fair Park (Middle); and (3) Annie Cherry, North Caddo Magnet (High School).

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following new administrators: (1) Angela McEachern, Related Services & Activity Team Facilitator; (2) Sunny Posey, Instructional Technologist; and (3) Jeffery Holcomb, Instructional Technologist.

Public Hearing for Naming Byrd's Practice Field the Dr. William S. Bundrick Field. President Riall announced the public hearing open for naming Byrd's practice field the Dr. William S. Bundrick Field. There were no speakers and the public hearing was closed.

Public Hearing for Naming the 9th Grade Academy Wing at Southwood High School the Larry E. Ramsey Wing. President Riall announced the public hearing open for naming the 9th Grade Academy Wing at Southwood High School, and Tom Pace stated his support of

the Board honoring Mr. Ramsey in this way. There being no additional speakers, the public hearing was closed.

VISITORS

The following visitors addressed the Board on their concerns: (1) Jacqueline Miller, (2) Linda Norris, (3) Dr. Tim Magner (Shreveport Chamber of Commerce), (4) Jon Glover, (5) Bill Wiener, (6) Jackie Lansdale (Red River United); and Omari Ho-Sang (ASAP Shreveport).

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted the items for the Board's consideration and the following discussion ensued. President Riall stated that the Consent Agenda items are Items 6.02, 7.01-7.02, 8.01-8.09 and 13.01.

Mr. Rachal moved, seconded by Ms. Trammel to establish the agenda and the proposed consent agenda for the March 20, 2018 CPSB meeting as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to confirm the consent agenda (Items 6.02, 7.01-7.02, 8.01-8.09 and 13.01). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

6.02 Consideration of Administrative Contract Renewals. The Board approved the renewal of administrative contracts as recommended by the Superintendent and submitted in the electronic mailout.

7.01 Construction and Capital Projects. The Board approved the following bids as recommended by staff and submitted on the bid tabulation sheets in the electronic mailout: (1) The Payne Company, with a Base Bid and Alternate 1, Alternate 2 and Alternate 3, for the sum total of \$783,000.00 for Project 2019-302, "Keithville HVAC, Phase II"; (2) Fitzgerald Contractors, with a Base Bid, Alternate 1 and Alternate 2 for the sum total of \$303,100.00 for Project 2019-304, "Donnie Bickham HVAC Replace Boilers"; and (3) Thrash Construction, with a Base Bid for the sum total of \$522,000.00 for Project 2019-220, "Midway Elevator". The bid tabulations are filed in the official papers of the March 20, 2018 CPSB meeting.

7.02 Purchasing. The Board approved bids on the following bid tabulation sheets as recommended by staff and submitted in the electronic mailout: (1) Doerle Foodservice and Foodway for the purchase of Canned and Frozen Foods; (2) Doerle Foodservice, Foodway and Santa Maria for the purchase of Fish, Poultry, Eggs, Meat and Specialty; and (3) Carefree Janitorial, Doerle and VCC Janitorial for the purchase of Food Service Paper & Supplies. The bid tabulations are filed in the official papers of the March 20, 2018 CPSB meeting.

8.01 Property/Bus Rental Requests. The Board approved property and bus rental requests as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Proposed Revisions to CPSB Policies BCBI, EE and JR. The Board approved proposed revisions to CPSB Policies BCBI, EE and JR as submitted in the electronic mailout.

8.04 Consideration of Financial Resolution and Declaration of Official Intent for Services with JP Morgan Chase. The Board approved the financial resolution and declaration of official intent for services with JP Morgan as recommended by staff and submitted in the electronic mailout.

8.05 Authorization for Salvage Industrial Dishwashers and Obsolete Workbooks. The Board authorized staff to salvage industrial dishwashers and obsolete workbooks as requested and submitted in the electronic mailout.

8.06 Consideration of Proposed CPSB Policy DFAA. The Board approved CPSB Policy DFAA as submitted in the electronic mailout.

8.07 Amend Pupil Progression Plan. The Board approved the proposed amendment to the Pupil Progression Plan as recommended by staff and submitted in the electronic mailout.

8.08 Consideration of Naming Byrd's Practice Field the Dr. William S. Bundrick Field. The Board approved waiving the 90-day process and naming Byrd's practice field the Dr. William S. Bundrick Field.

8.09 Consideration of Naming the 9th Grade Academy Wing at Southwood High School the Larry E. Ramsey Wing. The Board approved waiving the 90 -day process and naming the 9th Grade Academy Wing at Southwood High School the Larry E. Ramsey Wing.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students SC, NK, MM and JT as recommended by staff and submitted in the electronic mailout and whose parents are in agreement.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal requested that staff provide an update on the sales tax revenue for the year – where we stand now and where we will be at the end of this budget year.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:48 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

March 20, 2018

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met in regular session on Tuesday, March 20, 2018 at approximately 3:00 p.m. in Room 1, 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following committee members present constituting a quorum: Susannah Poljak, Mary Trammel, and Raymond Green. Also present were Steve Riall, Dr. Bonita Douzart, Denee' Locke and John Albritton. Superintendent Goree, Attorney Abrams, and staff members Jim Lee, James Woolfolk, Keith Burton, Diane Atkins and Jeff Howard were in attendance. Mr. Riall led the prayer and Pledge of Allegiance.

ESTABLISH AGENDA AS SUBMITTED

Ms. Trammel moved, seconded by Mr. Green, to establish the agenda as submitted. Vote on the motion carried.

CONFIRM THE AGENDA

Ms. Trammel moved, seconded by Mr. Green, to confirm the agenda as submitted. Vote on the motion carried.

CPSB INVESTMENT ADVISOR

Jim Lee, chief financial officer, shared with the committee that he met with the President and Superintendent about bringing in an investment manager to hopefully get a better return on the District's money. He explained that currently everything is mostly in a money market account which is o.k., but he feels we may can do better. He stated three responses were received as a result of advertising an RFQ for investment services. Staff met to grade the responses with 350 being the highest score, and Reliant was the highest score and is who staff recommends. If the committee approves, staff would like to bring it to the Board for consideration.

In response to questions about Reliant, Mr. Lee explained that Reliant is headquartered in Memphis but they do have an office in Shreveport. They are a majority female-owned company, thus they qualify as a small and disadvantaged business; and they also handle the District's OPEB (Other Post Employee Benefits) Trust which currently has about \$20 million. Reliant also provides this service for approximately 10 additional school districts in Louisiana and one of the principles helped to develop the regulations required by the state on what a school district (government agency) can and cannot invest in, which is critical to him to have someone with an in depth knowledge and making sure we are in compliance with state law. Also, Reliant is conservative, and would not do anything long term based on the current condition of the market, but still closely watch anything that might need to be done for the District's benefit.

Mr. Lee also explained the OPEB Trust, which is separate from the School Board operations, where the District receives retiree drug subsidy money from Medicare/Medicaid each year (approximately \$1 million) and it is earmarked for this trust. It has grown to approximately \$20 million and five years ago the CPSB approved establishing OPEB Trustees. After putting out an RFQ, the advisory board for the OPEB Trust hired, with Board approval, Daryl Medlin to help develop the trust and ultimately chose Reliant. He further explained it is an irrevocable trust and can only be used for retiree health care costs.

Dr. Goree stated that it seems as if it is a symbolic gesture since there is no way it will truly impact the size of this debt. Mr. Lee concurred with Dr. Goree and further stated that the OPEB Trust and OPEB cost is strictly future health care costs for current and future retirees; and for accounting regulation, the District must put in the CAFR each year the future liability of these costs, which is a long-term liability of \$800 million.

Mr. Abrams asked if Grant Schlueter or anyone else has looked at this, because if this company is setting the regulations and how they will invest, he believes there may be a need for legal advice to oversee this. Mr. Lee stated that if that is the Board's wishes, he will gladly comply.

Mrs. Locke asked who comprised the review team, and Mr. Lee said it was himself and Mr. Howard. She also asked about the monies being invested, and Mr. Lee explained it would be General Fund monies from the various reserves, and he anticipates we would leave ample funds in the General Fund account for operations, maintain a decent amount in the money market account to have funds available in the event of an emergency, and invest the \$15-\$20 million from Medicare/Medicaid through this firm. Mrs. Locke asked if these monies are part of the General Fund Balance, and Mr. Lee explained it is General Fund reserve accounts. Mrs. Locke asked who is on the Board of Trustees, and Mr. Lee said himself, Dr. Goree and Mr. Watson.

Mrs. Poljak asked who receives the Requests for Quotes, and Mr. Lee said staff does not pick firms to send the RFQ, but it advertises in the paper, and places it on the electronic bid system. Ms. Trammel asked about other uses for these funds, and Mr. Lee confirmed they can be used only for assistance in paying retiree benefits. Ms. Trammel also asked if the District makes money on the money invested, what that money can be used for, and Mr. Lee said the earnings are typically brought into General Fund for operations. Mrs. Poljak asked if the District has funds invested in anything other than money markets, and Mr. Lee said everything is in an interest bearing account or money market. She asked if it is possible to invest tax dollars in other ways, i.e. stocks, and staff said you could not, but could in things such as treasury notes.

Dr. Goree asked if other local school districts are using Reliant, and Mr. Lee said DeSoto and he believes Bossier, EBR, and Calcasieu; and districts with OPEB Trusts use Reliant as well.

Questions were also raised on fees charged and if there would be a contract for a set length of time. Mr. Lee responded that typically it would be in place until the Board wishes to put out another RFQ, and if so, the District only needs to notify them. The fees for all three bids submitted would be netted out of any earnings.

Mrs. Bell asked why a decision was made to consider this at this time, and Mr. Lee said it is not because of more money, as there is not a lot of new money coming in; but to maximize everything we have and the possibility of generating new revenue. Mr. Lee also stated there is no rush to get this on the agenda in April, but only for the committee and possibly the Board's consideration. Mr. Lee was also asked about any down side to this action, and he explained that would be in the event the market turned downward, as the principle is not guaranteed. Mr. Albritton stated that while market value fluctuates/changes, treasury notes can make money with the principle being invested in government means.

Mr. Green asked about any advantage to keeping the bid open, and Mr. Lee said he doesn't believe there is because it was open for 30 days and only 3 bids were received. Mr. Abrams explained with an RFQ, any of the three bids can be selected or not; and if not, you would start the process again.

With the discussion and questions, it was recommended to allow additional time to get any questions answered, receive additional information and schedule another Insurance and Finance Committee meeting for April 3, to determine if the committee wishes to recommend it to the Board in April. The superintendent asked that questions be emailed to Mr. Lee. Mrs. Bell announced that she will schedule a meeting at 3:30 p.m. on April 3rd for this issue.

Adjournment. *Mrs. Poljak moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:30 p.m.*

March 23, 2018
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, John L Albritton, and Dottie Bell. Also present were Superintendent Lamar Goree, and Board Counsel Reggie Abrams.

President Riall called the Caddo Parish School Board into special session at approximately 4:35 p.m. with a quorum being present. Margaret Brown, District 3, led the invocation and Pledge of Allegiance.

Visitors

The following visitors addressed the Board on the agenda item addressing the Industrial Tax Exemption Program Abatement for Inferno Manufacturing: (1) Jon Glover; (2) Jackie Lansdale, Red River United; (3) Nettie Brown; (4) Tim Magner, Greater Shreveport Chamber of Commerce; (5) Susan Bettinger, Interfaith; (6) Susan Caldwell, Interfaith; (7) Willie Myers, Northern & Central/Together Louisiana; (8) Bobby Edwards, Interfaith; (9) Latitia Burgh; (10) Daryl Roberson, Louisiana Association of Educators; (11) Allen Organick, Inferno Manufacturing Corporation; (12) John Perkins; (13) Dr. Pinkney; (14) Dawn Jordan, Caddo Association of Educators; (15) Emma Shepard, Caddo Retired Teachers Association; (16) Scott Martinez, North Louisiana Economic Partnership; and (17) Lady Carlson, Interfaith.

RENEWAL OF MOTION TO APPROVE RESOLUTION ON INDUSTRIAL TAX EXEMPTION PROGRAM (ITEP) ABATEMENT FOR INFERNO MANUFACTURING

Mrs. Locke moved, seconded by Mr. Albritton, to approve resolution on Industrial Tax Exemption Program Abatement for Inferno Manufacturing as submitted in the electronic mailout.

Mr. Albritton stated his appreciation of the public's input; as he too questioned the need for today's meeting. However, because this is a new process for the Board, he believes it should be done with due diligence. He noted the number of phone calls he received and what seems to be much political pressure to embarrass the Governor of the State rather than what is the right thing for a local business. As a member of the School Board, he said it is his priority, and the Board's job, to provide an education for the children of Caddo Parish and nothing to do with anti-business; and if a business thinks the only way they can come here is to take money from the education process, it is possible the Board may need to question the culture of said business. He said he is not calling any business as free-loading, and he understands the impact since he worked for a company that had a ten-year tax exemption and it put a very nice building here and employed at one time approximately 7,000 people. He also stated he is aware of a number of major companies where Louisiana matched the incentives and they located in other states. Mr. Albritton said he believes we do make a difference and he knows that quality of life measurement of a business looking for a location is the success of the education system; and while we are not where we want to be, progress is being made, and he believes the commitment demonstrated by the Board should be just as important to business as the dollars on the table. He reiterated the Board of Education's job is to make sure the District is providing an education for Caddo's students. He encouraged the Board as it votes to remember the first vote and demonstrate to the community the Board knows what it is doing in not responding to those who have other agendas.

Mr. Rachal noted there has been no change since the first vote and he reviewed the numbers, i.e. how much money Caddo would be giving up (\$22,323 over 5 years), additional three years would be \$8,291; full contribution is \$13,883 over 5 year with 50% of these taxes coming to the District (the District would receive approximately \$7,000 back), which he does not necessarily believe is the wisest investment. He also asked if there were any changes on the original application, and Mr. Lee responded only the number of jobs from four to three. He noted that businesses look for a well-trained, well-educated population for future employees, and this today does not have anything to do with the business here today. Also, every governing body, economic organization says the same thing; however, there must be a balance which he is not seeing in the numbers provided. Because the Board had no say-so in these matters prior to now, and the State waived many dollars that should have come to the District, without considering the impact on the children. It is fortunate that the Board now does have a say in these decisions.

Mrs. Bell said having taught for 34 years and doing a lot in the community, the support of the students by the small businesses in District 12 was awesome, and financially provided many dollars to meet the needs of the students. She said she knows the Board is not anti-

business, but businesses in her district responded to needs and other Board members do not need to be afraid to ask for business support. She believes there is room for negotiating and she doesn't want it said that she doesn't want business here. She encouraged the Board to remember the many ways businesses have helped the students and schools.

Mrs. Brown said we should be discussing the principle and not \$3,000. She noted that she doesn't understand why the Board voted on this and is now back to vote again and the discussion should be about the principle and not the money.

Miss Trammel shared her need to fully understand what is going on; and her first vote in favor was because she thought this would be what was best for the company as long as the company would provide for the schools in the District but she has not heard this in the conversation. She also shared her concern for the teacher that shared spending his own money to buy a computer printer for their class; and encouraged them to call about these issues before spending personal dollars. Also, she understands how business works and she understands how the school system works; and she believes the Board is meeting today to get a better understanding of this matter. She reminded everyone that the children are the most important factor; and when you hear what will happen for our children, everyone should be on board.

Dr. Douzart stated she is a 36-year veteran in Caddo Parish, having taught over 20,000 students, working in many capacities from Librarian to P.E. Teacher, Drivers Education Instructor, coach, dance instructor, gymnastics, tumbling, SPAR, etc. She said when the Board voted last Tuesday, she believed she voted what she thought was fair and she does not understand why her schedule is being interrupted again today. She questions the benefit of this meeting to the students of Caddo parish, and would love all the details of the State Procedures and Guidelines, but feels today has been a waste of her time.

Miss Green agreed with comments by Mr. Rachal and Ms. Trammel, as well as other Board members' comments and her confusion since she understands there is nothing different in what staff is doing, yet the Board is back in meeting today. In the future, Miss Green states she believes the Board needs to know what the partnerships/companies plans are for the schools.

Mr. Riall stated he made the decision to bring this back as a result of requests from Board members and constituents. At this time he believes there is a lot of emotion involved and he has been concerned that this was brought to the Board out of the blue, and Board members do not have a clear understanding of the entire process. He reported the Committee has reviewed and discussed and the Committee is educated as it can be at this time.

Vote on the motion failed with Board members Riall, Poljak, Trammel, Locke, Hendricks and Bell supporting and Board members J Green, Brown, Douzart, R Green, Rachal and Albritton opposed.

Adjournment. *Mrs. Bell moved, seconded by Mr. Rachal to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:55 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

April 3, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F. Rachal. Also present were Board members Jasmine Green, Margaret Brown, Susannah Poljak, Raymond Green, Dene'e Locke, Barry Rachal, Durwood Hendricks, Jr., John Albritton and Dottie Bell; Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the CPSB Executive Committee Work Session to order at approximately 4:30 p.m. and a quorum was present. Mrs. Poljak led the invocation and Pledge of Allegiance.

PRESENTATIONS

Dr. Martin Luther King, Jr. Tribute: On this 50th anniversary of the assassination of Dr. Martin Luther King, Jr., Ken Krefft shared a tribute to Dr. King's memory and legacy.

District Grants: Ellyn McKinney, director of Professional Development and Grants, shared opportunities provided to Caddo's students through grants, opportunities that would not be available but for the grants. She explained the department is responsible for teacher preparation, development and support, and this is done through a number of classroom teacher coaches, field instructors and professional development specialists, all working together to support teachers and leaders in the schools. This department is also responsible for the Caddo Teaching Academy, the Caddo Mentor Program, Caddo Content Leader Program, the Teacher Advancement Program in 14 schools, Principal Leadership and Support through the National Institute of School Leaders, and Caddo Classified Professional Development (support to classified as well as certified employees.). She said they also work with Grant Management for formula grants (Title II, IV, Perkins and Career Tech Education). Mrs. McKinney reported they also do grantwriting and management for the competitive grants and oversee the Jump Start Program.

She explained the different categories of grants, and the two most frequently applied for by Caddo are formula and competitive/discretionary grants. She provided a handout explaining the definition and work of each grant, as well as the different amounts added to the funding sources, and have successfully completed writing nine grants for \$11 million plus over the past 20 months, an \$8.4 million increase in the last two years. She also noted the manpower necessary not only for the grants but also for managing all the requirements of the grants, as well as the responsibilities of a management team to monitor these grants. She reported that the formula and block grants (Title I, II, III, IV, X) are administered by the Federal Government and are defined by strict regulations (statute) based on the population needs, with changes from year to year. Handout materials listing the formula grants and how each are served was also provided. She also stated the District must agree to certain assurances to make certain the structure of the grant is followed with an auditor typically monitoring to make certain the District and/or school is following these assurances. Mrs. McKinney stated that the School Improvement Grant is actually a function of NCLB which funds Caddo's TAP Schools; and transition grant funds are allocated to assist school districts in the transition from student teacher to a year-long lesson residency program, with the monies providing a stipend to mentors and year-long residents. The principal support grant provides training for the National Institute of School Leaders for principals with approximately 40 principals completing this institute, including the 8 district facilitators. Mrs. McKinney explained that an executive master teacher is also funded through the principal support grant and assists principals in the non-TAP schools with the implementation of the NIT rubric.

She reported that the Redesign Planning Grant was used to allow us to write for the Redesign Round 1 Grant; and districts were allowed to submit a proposal that funded an academic audit (which was required to write the grant) as well as research that must be applied to write the grant; and the Redesign Round 1 Year 1 Grant will fund another year of TAP in Caddo schools as well as some curriculum and other opportunities district wide. Also, Louisiana is using the Redesign funds by allocating funds on a year by year basis, and noted the lump sum of approximately \$5 million Caddo has received in the School Improvement Grant. She further explained that now only a portion of the allocation is granted, they monitor your progress for intervention over a year's time, and then look at awarding another allocation. She said Caddo expects to receive the same allocation (approximately \$2.5 million) for three consecutive years; however, should we fail to meet the expectation or the goals of the grant, the State cannot grant us the full allocation but only partial

funding. Because of this, staff is very cautious in providing much support for the interventions provided to our schools.

Redesign Round 2 in Year 1 is completely different than Redesign Round 1 and last week the District received notification that we passed through the first round and a conference call will come in the next couple of weeks and go to BESE as soon as April 16th. Jump Start is pending and will fund opportunities for students seeking advanced statewide credentials and will pay students to come to school to receive these credentials during the summer as well as pay for their credentials. This is almost a replacement for students choosing to work during the summer and receive a wage as well as a reward for achieving a high level credential.

Mrs. McKinney also shared a trajectory for where we have come and where we are headed, noting that in the 2015-16 school year we received a combined grant total between the formula and competitive grants of \$33.5 million and this year we are a little over \$10 million ahead of that, with \$45 million projected for next year. She shared that the exciting thing for her is the programs in development are actually good programs, worthy of the time and effort and they support students by bringing greater opportunities for academic successes as well as additional support for our teachers and building our human resources.

Mrs. Bell commended Mrs. McKinney for her report and asked about the Jump Start Summer Program. Mrs. McKinney stated that Jump Start career provides credentials for students, so staff has submitted a grant to provide credentials in microenterprise, auto mechanics, culinary and emergency medical technician programs to be offered this summer at the Career Center, one at North Caddo High School and one at the Professional Development Teacher Resource Center. In looking at the Redesign Year 1, Mrs. Bell asked if this is for the preK program; and Mrs. McKinney explained that it is EEF which is the tobacco money and Redesign Round 1 Year 1 funds Caddo's TAP schools. Mrs. Bell asked if more preK classes will be added with this grant, and Mrs. McKinney stated that the EEF monies are awarded to the districts and staff stretches this money alongside other monies as far as we can to provide as many preK classrooms as possible. PreK is funded through LA4 through TANF (Temporary Assistance for Needy Families) as well as IDEA Part C, some local monies, and EEF monies. She said staff recently heard that the Department of Education is pushing additional preK education so we are waiting to see what the state allocation might be for Caddo.

Staffing Update. Diane Atkins, chief human resource officer, reported that since her staffing report on October 3rd, HR and Recruitment has continued its efforts with a goal of recruiting and hiring certified and qualified teachers for positions in Caddo. Mrs. Atkins reminded the Board that 304 new teachers were brought into the District at the beginning of the 2017-18 school year and the goal is to use intentional strategies and programs, i.e. job fairs, Connect with Caddo, to introduce education majors to the Shreveport community. She reported Caddo is also looking at how to grow our own by taking the paraprofessional with a degree, the substitute teacher who has a degree, and moving them through the Caddo Teaching Academy with 23 candidates currently in this program. Mrs. Atkins said the recruiting efforts thus far in 2017 include 13 student teachers in Caddo with eight hired at mid-term, five of which were in special education; the new teacher project where we are certifying teachers with degrees but not in special education (currently nine); university visits; and 143 participants in the December Job Fair with 113 completing an application to become a teacher. Mrs. Atkins reported that Spring events have begun and include recruiting in Arkansas, East Texas with intentional efforts and a list of planned job fairs was provided to Board members. Dinner for Difference Makers is an event for the Zone schools and is where the Zone principals interview candidates interested in being hired as a teacher and offer them positions where there are vacancies. She also referenced the grant dollars reported by Mrs. McKinney and that HR, Caddo's recruiter and professional development are working together to support the teachers brought into the District. Mrs. Atkins gave an update on the fill rate reported in October, reporting that we are still at 100% at 22 elementary schools, 2 middle schools and 4 high schools; and that the preK-6th grade, K-8th grade and 7th-12th grade configurations showed a decrease. The retention plan continues to be we can bring in the teachers, but how can we keep them, and this is being achieved when we support them; and she shared reasons why teachers are leaving. She expressed appreciation to the Board for approving CPSB Section G Policies, because it allowed for a change in the transfer deadline. All teachers wishing to transfer must put their name online and to date, 524 have indicated they may want to leave their school; and after June 30th if a teacher has not secured another position at a different school and HR does not have a recommendation, that teacher will remain in their current school setting. She shared exit data gathered by the recruiter and the

breakdown of the 304 submitted (58 resignations from 30 schools, 3 or more from 6 schools, and 50 retirements) as of March 23. Retention is the combined efforts of the recruiter, the Human Resources staff, and Professional Development; and because teachers desire to feel good about what they are teaching and supported, an effort is being made to impress principals to create an educational environment conducive for teachers to teach and students to learn.

Mr. Rachal asked of the 113 completing applications to become a teacher, how many did Caddo hire. Mrs. Atkins stated she is not sure, but if they were all certified, they were all hired. Relative to the national survey, he also asked about results of Caddo's exit interviews and/or surveys? Mrs. Atkins noted that 58 resigned; and the number one reason was "personal" reasons, and we are capturing it internally. Mr. Rachal asked Mrs. Atkins how she feels since the new strategies were put into place, and Mrs. Atkins stated she is very satisfied because we have schools that have and those that have not; and staff is urgently looking to fill the vacancies in all schools. She noted that when Dr. Goree became the superintendent, one school may have had five certified teachers and the others were being taught by long-term subs; however, this is no longer the case in Caddo.

Dr. Goree complimented staff on the work done and progress made in staffing and supporting professional development as well as to the Board for their support of these efforts.

Mrs. Brown asked what does staff feel about retirees returning to work, and Mrs. Atkins stated that HR is bound by the law since the change in 2010 and if you retire, you can only return as a substitute teacher and can only make a certain percent without being penalized by the Teacher Retirement System. Mrs. Bell noted the announcement in the paper that Caddo will be recruiting in Texas and how are teachers from Texas with a Texas certificate handled. Mrs. Atkins explained if a teacher comes to Caddo with an out of state teaching certificate, they can be hired, and they can go through a process for obtaining a Louisiana teaching certificate. Mrs. Bell asked how many years do they have to get the certificate, and Mrs. Atkins explained they do not have a restriction. Dr. Goree shared his experience having taught in three states that Louisiana has the most challenging testing system; however, we are very proud of our Professional Development Department and the support they provide teachers coming into our system who need certification by test. Mrs. Bell asked for clarification on classes for paraprofessionals, and Mrs. Atkins explained that if a paraprofessional has a degree, the Caddo Teaching Academy provides them the opportunity to earn certification.

Announcement of 2018 Millage Adoption. Jim Lee, chief financial officer, announced that the Board will adopt the 2018 property tax millages at its May Board meeting.

ESTABLISH AGENDA FOR THE APRIL 17, 2018 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its April 17th meeting and the following discussion ensued.

Capital Project Bids. Mrs. Bell asked about the bid for Turner and if the HVAC went out completely. Steve White explained that bids were received this afternoon and it encompasses the remaining classrooms in the main part of the building. Last year, it included the first and second floor, and West end. This phase will include the area over the office and the first and second floor of the East end (all the classrooms with the exception of the new wing). He added there is one more year for this project and it will include the office area and back areas, i.e. two cafeterias, auxiliary gymnasium, auditorium.

Mr. Rachal asked about the North Caddo project (Welding/Auto Shop) and the plan to take care of this at a lesser cost. Mr. White explained this project will be within the budget and contingency amount and it will leave the exterior walls, new roof, new revamping classrooms and be done in 2 phases - Phase 1 will be \$1 million and Phase 2 will be \$1 million. Mr. Rachal asked staff to include the budget amounts.

Mrs. Brown commended staff for removing the temporary buildings.

Ms. Trammel asked about the HVAC projects and previous conversations regarding a new building, and she is happy to see this happening because of what happened two years ago at Byrd and Turner.

Mr. Riall asked about the timeline for completion on the North Caddo Auto and Welding Shop, and Mr. White responded that it is to be ready when students return at the beginning of the school year.

Consideration of Change in July and November CPSB Meeting Dates.

Superintendent Goree explained that the Board traditionally holds only one meeting and typically it has been the third Tuesday. Staff recommends continuing this tradition and meet on the 3rd Tuesday, July 17th. Also, in November the Executive Committee Work Session is scheduled for Election Day and staff recommends changing it to Wednesday, November 7th and meet in regular session on the following Tuesday, November 13th, since the 3rd Tuesday falls during Thanksgiving.

Consideration of 2017-18 General Fund Budget Revision.

Mr. Rachal asked Mr. Lee if the adjustment is the final one for this budget. Mr. Lee said this is his best estimate as of today since the results for the end of March are unknown, but he believes this is where it will be. Mr. Rachal noted the increase in sales tax compared to the budgeted amount, and asked what staff contributes this to. Mr. Lee said this year, as opposed to last year, there was an increase in the oil and gas field productions, which means taxes on their equipment. He asked Mr. Lee if he foresees this continuing or is this only for a period of time, and Mr. Lee said it has already started leveling some and he doesn't expect to see another \$3-\$4 million over budget next year.

ADDITIONS

Mrs. Bell asked that "Approval of Investment Advisor for CPSB" be added to the agenda.

ESTABLISH THE AGENDA FOR THE APRIL 17, 2018 CPSB MEETING

President Riall announced that Items 8.01-8.06 and 13.01 (except JD) are the consent agenda. *Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the April 17, 2018 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following addressed the Board: Jackie Lansdale, Red River United.

ANNOUNCEMENTS

Mrs. Brown asked staff to clarify what is being done in Caddo to address safety in light of the recent school shootings.

Mr. Rachal reminded everyone about Teacher Appreciation Week and encouraged others who can to take the opportunity to thank them for what they do, as well as remember the students as LEAP testing begins.

Ms. Trammel recognized Mr. Rachal's birthday.

Mrs. Locke reminded everyone that the District PTA Awards' Program will be at Captain Shreve on April 4th at 10:00 a.m.

Adjourn. *Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:45 p.m.*

April 3, 2018

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met in regular session on Tuesday, April 3, 2018 at approximately 3:00 p.m. in Room 1, 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following committee members present constituting a quorum: Susannah Poljak, Mary Trammel, Durwood Hendricks and Raymond Green. Also present were Steve Riall, Dr. Bonita Douzart, Denee' Locke, Barry Rachal and John Albritton. Superintendent Goree, Attorney Abrams, and staff members Jim Lee and James Woolfolk also were in attendance. Mr. Riall led the prayer and Pledge of Allegiance.

ESTABLISH AGENDA AS SUBMITTED

Ms. Trammel moved, seconded by Mr. Green, to establish the agenda as submitted. Vote on the motion carried.

CONFIRM THE AGENDA

Ms. Trammel moved, seconded by Mr. Green, to confirm the agenda as submitted. Vote on the motion carried.

CPSB INVESTMENT ADVISOR

Jim Lee, chief financial officer, reported that in following up to the Committee's last meeting, he highlighted the background information in that there were three responses to the RFQ and one was eliminated because there is no local office nor had they done business with any government agency, leaving two, Raymond James and Reliant Investment, both of whom have a local presence and work for government agencies and school systems. At the last meeting, the Committee asked for information on the fee structure of both; and the following information was shared with the Committee. Reliant's fee would be .2% of the market value of the account, and is an annual fee. The fee for Raymond James is determined in two ways, (1) transaction basis or (2) fee structure, and for long-term trusts or operational longer term funds, which is 7.5 basis points per quarter or 30 basis points per year. In this respect, Reliant is a little less; and based on the overall review and looking at the fee structures, staff still recommends Reliant.

Mrs. Poljak asked if Reliant is attached to a larger bank, i.e. Morgan Stanley, Merrill Lynch, etc. and Mr. Lee said they are not. He added a third party is also recommended for safekeeping any securities we may have. Mr. Rachal asked on what amount will the .2% fee be figured, and Mr. Lee said the market value on the anniversary date.

Mr. Hendricks asked what happens if the market is not performing and the account begins tanking, and Mr. Lee said he would get permission to move it back into the money market account which is Government Securities and a little more safe with no fees. He said he will monitor this account on a weekly basis, if not more, so he can act if necessary. Mr. Riall asked if we can move the money at any time, and Mr. Lee said yes because it is the District's account. Mr. Lee further stated that he will not only monitor the account on his own, but he will also meet with the financial advisor on a regular basis.

Mr. Albritton asked if the District has an investment policy which states we must operate within the range of no more than 5% equity (as an example). Mr. Lee explained the District does have a policy for the OPEB Trust and before any funds are moved, he will work with them to develop a formal policy similar to the OPEB and one that follows State Statute, which will be brought to the Committee and Board for approval.

Mr. Rachal asked which account funds will be transferred into the account, and Mr. Lee said to begin with, most will be reserve funds. If there are excess funds, we can possibly do something short-term that would be better than the money market account, i.e. property taxes received in January and not needed until later. Mr. Rachal asked for confirmation that we could possibly pick up approximately one-half million dollars in additional interest, and Mr. Lee confirmed that is correct. Mr. Rachal asked if the money in the OPEB Trust will be placed in this account, and Mr. Lee explained that each year the District receives Medicare Retiree Drug subsidy money (\$1 million to \$1.5 million). At the Board's direction, it has been placed in the OPEB Trust each year; it has grown to approximately \$20 million and will remain a separate account.

Ms. Trammel asked if at any point the Board can redirect funds for a period of time; and Mr. Lee said the trust money is for a specific reason, to offset retiree health care costs. Ms. Trammel further asked if, at any point, the Board can redirect funds for the construction of a building, and Mr. Lee responded it can if a Board member requests it, and it comes to the Board for a vote. Dr. Goree explained that a tax is collected for buildings, whether it is maintenance or construction of facilities, so a part of this money could be designated and put aside for building a school if the Board votes to do so. Staff's only concern is that \$20 million is barely doing what currently needs to be done so it is finding surplus money to move to that column. Also, he reminded them that when the 5% pay raise was approved, funds were re-diverted for one year, but are now being put back.

Mr. Abrams asked if the account loses money over 6 months, on what amount does the District pay the .2% fee. Mr. Lee explained that if, on the evaluation date, the initial investment is less, the fee would be paid on the lesser amount since that is the current market value. Mr. Abrams reminded them of the risk with investments, and Mr. Lee agreed this is not 100% insured.

Mrs. Bell asked for clarification and when the market dropped, did Caddo's money lessen, and Mr. Lee explained that as a government agency, the School Board cannot invest in stocks and bonds. Also regarding re-directing funds, she asked if this money can be used for bonuses or salaries? Mr. Lee said the earnings are typically moved from these accounts to General Fund for operations. Dr. Goree shared his excitement about the work with the DMG (District Management Group) because it is helping to drive the budget around the District's strategic initiatives, so we would look at how to increase revenue toward the identified initiatives.

Ms. Trammel stated her desire to see a new building (elementary/middle). Dr. Goree stated this year the identified goal is how to address Caddo's surplus property, and strategically plan and manage the District's real estate; as it is staff's feeling there are some new facilities that will pay for themselves based on what we spend on utilities and capital projects. Mrs. Poljak asked about donating properties, and staff clarified it can only be done from one government body to another.

Ms. Trammel moved, seconded by Mr. Green, to recommend to the Board staff's recommendation of Reliant as the CPSB investment advisor. Vote on the motion carried.

Mrs. Bell asked if thought had been given to partnering with a university and making Lakeshore a preK-3 or preK-4 Laboratory School. Dr. Goree stated that as the District has made progress in its transformation work, he believes innovation is the next level; and once we close a school, it's difficult to reopen it. However, in looking at future decisions, we must look at what we have and how it can be utilized. Ms. Trammel asked if thought had been given to moving Central Office into another building in the District, and Dr. Goree said those conversations have taken place as a way to save the communities in the District as well as the importance of looking at the District's return on investment and always doing what is best for the children.

Calumet Industrial Tax Exemption Program Application. Mr. Lee shared information (resolution, spread sheet summary on eight notifications from Calumet, investment, taxable

value, jobs being created along with payroll) on the ITEP application for Calumet totaling approximately \$7.2 million taxable value, on which what Caddo would receive property taxes. He further explained the financial impact on Caddo if the tax exemption is approved on the eight projects.

Ms. Trammel asked if there is a policy with the steps to be followed in this process, and Mr. Abrams confirmed there is. Ms. Trammel asked if it is possible to develop something similar to East Baton Rouge, and Mr. Abrams explained EBR has a matrix and he suggests using something similar.

Mr. Lee explained the finance officers of the four taxing authorities still meet when applications are received to determine if they qualify. Today he is bringing the request earlier so the Committee does not have to make a rush decision, and he will attempt to bring the Committee as much information as early as possible so the Committee can make the best decision. Dr. Goree added staff always wants to present the Committee and Board with as much information as needed to make a decision; and the process so far has been a meeting like today's Committee meeting (Mr. Lee met with the finance officers of the governmental entities and reports back to the Committee); however, staff also wants to know if there is anything missing they can provide to help the Committee make their decision.

Mrs. Bell said she believes we need Calumet representatives to share with the Committee. Mrs. Poljak said she knows the City and Parish do economic development, but the School Board's responsibility is to educate the children; but it would be nice to know how Calumet invests in the community, i.e. Shreveport Opera, festivals, etc. Mr. Hendricks asked if there is a problem meeting and discussing this with the company representatives, and Mr. Lee said it is not a problem and he can invite them to meet with the Committee. Mr. Abrams confirmed it is not a problem, and the issue is the Governor put the School Board in the middle of something it should not be in. Mr. Abrams stated his understanding of the program and the advance notification stipulation; because it appears these were submitted as advanced notification but the projects have been started or completed. He also thought companies apply for exemption on new proposals; and if a company does not get approval for exemption, they then decide if they will expand their business or not, which is the way it is to happen. He said the guidelines dictate what the company is to provide, i.e. the work they will do, the jobs provided, investment amount, and what the tax exemption will be; and the state should not put the School Board in the position of asking questions such as what the company will do in the community.

Mr. Hendricks said even though the company is asking for 100% exemption, he believes there is room for some type of negotiation; and he asked if the change is coming from the State. Mr. Abrams responded there are three pieces of legislation pending that will change the process as well as a constitutional amendment to undo it; however, now the Governor has said he will not sign anything unless the local taxing entities are in agreement, which places the School Board in a position of making decisions on an economic development matter without background experience in such matters.

Mrs. Locke said she understands that we have a choice to approve all the applications or to deny them, but since the Board is not trained in these matters, the decision would be one based on individual opinions of what is believed to be correct. To her the missing link is the recommendation, and paperwork was received that a recommendation would come from the financial group (as to whether or not the application qualified), and it was noted that the recommendation was that the company did qualify. Mr. Lee said he also is in a difficult place since he believes in economic development and we don't want businesses to leave Caddo Parish; but he does not want to give up property tax revenue. Mrs. Locke added it is a gamble and she agrees with Reggie and questions whether or not there is a need for a third party to address these

matters, which could also be controversial. She believes it is important that the Board determines how it can take a stand in this matter.

Dr. Goree explained that the process broke down when the financial persons came up with an answer regarding their qualification, which was broken before we began when the Sheriff stated he would not approve it. But the staff is ready to provide any information the Board needs to be able to make a decision; and even if there is a third party reviewer, there are those who will vote against because of the difference in people's opinions. Mr. Abrams added that in looking at the applications, it appears they are only doing normal scrubbing and operations and should not be a part of an exemption since it is not an expansion.

Ms. Trammel asked what the Board can do if it chooses to not consider the applications. Mr. Abrams said the Board could draft a CPSB Policy/Resolution stating, "It is the policy of the Caddo Parish School Board...", and the Constitution provides for this, to not act on these requests and why it would not.

Mrs. Poljak asked if the applications are 8 separate applications or can they be treated as one. Mr. Lee said it is 8 different projects, but they all can be addressed in one resolution. Mrs. Poljak also expressed her concern that a company investing in a machine to create efficiency, so possibly the company would create 1 job as opposed to many jobs. Mr. Abrams explained that is the purpose of the Board of Commerce and Industry.

Mr. Green stated that with all the questions, he encouraged someone to invite Calumet executives to visit with the Committee. Mr. Riall asked about the repercussion if the Board takes no action because we are not qualified to deal with economic development issues, and Mr. Lee said if the Board takes no action, it is stuck with the average of the other entities or the Board can develop a resolution stating it will never approve a tax exemption and keep all the tax monies coming to the School Board. Mr. Riall and Mr. Rachal asked that staff provide them with some numbers and other supporting documentation, i.e. what we are getting in return, the impact on the school system, the trickle-down effect; and possibly a matrix.

VISITORS

Jackie Lansdale, Red River United.

Mrs. Bell stated she believes representatives from Calumet need to meet with the Board's Committee to answer these questions. Dr. Goree asked, if it is the Board's pleasure, could staff collect the questions and provide these to Calumet so they know the information being asked.

Mr. Rachal also asked about including Dr. Tim Magner with the Greater Shreveport Chamber of Commerce and Scott Martinez. Following discussion, *Ms. Trammel moved, seconded Mr. Green, that committee members submit their questions to staff who will share these with Calumet and schedule the next Insurance and Finance Committee meeting for 2:00 p.m. on April 17th to receive answers to those questions as well as hear from Calumet additional information on their application, along with Dr. Magner, Mr. Martinez and the employee organizations. Vote on the motion carried.*

Adjournment. *Ms. Trammel moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:30 p.m.*

**April 17, 2018
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Durwood D Hendricks, Jr.; John L Albritton, and Dottie Bell. Also present were Dr. Lamar Goree, Superintendent; and Reggie Abrams, Legal Counsel.

President Steve Riall called the CPSB meeting to order at approximately 4:30 p.m. at which time a quorum was present. Board member Susannah Poljak led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MARCH 20, 2018, MARCH 23, 2018 AND APRIL 3, 2018 CPSB MEETINGS

Ms. Trammel moved, seconded by Mr. Rachal, to approve the minutes of the March 20, 2018, March 23, 2018 and April 3, 2018 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Southwood High School Jazz Band. The Southwood High School Jazz Band performed two musical numbers for the Board and audience.

North Caddo Girls Basketball 2A State Champions. The North Caddo Lady Rebels were recognized as the 2018 State Basketball 2A Champions after defeating Lake Arthur 47-41 on March 3, 2018.

Duke University Talent Search Writing Contest. Finnegan James Collins, 4th grade student at South Highlands Performing Arts Magnet, was recognized for winning 1st place in the 4th grade division for the 2018 4th-6th Grade Talent Search Writing Contest sponsored by the Duke University Talent Identification Program.

2018 Annual Cora M. Allen Essay Contest Winners. The following students were recognized as winners in the 2018 Annual Cora M. Allen Essay Contest. Toran Baxter, Lauren Mack, Addie Ramer and Kaitlyn Webster, 8th grade students at Youree Drive Middle; and Ke'Aurie Leonard, 8th grade student at Huntington Middle. Members of the Shreveport Mayor's Women's Commission present were also recognized.

2018 Scholastic Art and Writing Awards National Medalists. The following Captain Shreve students were recognized as national medalists in the 2018 Scholastic Art and Writing Awards: (1) Rachel Hewitt, Silver Medal; (2) Jordan Jones, Gold Medal, American Voices Medal; and (3) Lindsey McGeorge, Silver Medal.

2017-2018 Caddo Quality Science and Mathematics Grant Recipients. The following teachers were recognized for receiving awards in Science by the Quality Science and Mathematics Grant (QSM): Melissa Basco, Summer Grove Elementary; William Cloutet, Donnie Bickham Middle; Christolyn French, Booker T. Washington High; Angie Frick, Judson Fundamental Magnet; Shelley Gordy, Judson Fundamental Magnet; Maricris Hodge, Broadmoor Middle Lab; Annie McCulloch, Green Oaks Performing Arts Academy; Kyana Rhinehart Brown, Judson Fundamental Magnet; Letha Stahl, Green Oaks Performing Arts Academy; Joseph Stevens, Caddo Parish Magnet; Daneshia Terrell, Green Oaks Performing Arts Academy; Anna Webb, Herndon Magnet, Michelle Weddleton, Herndon Magnet; Heather Williams, South Highlands, and Stacy Yoder, Donnie Bickham Middle. Teachers receiving Quality Science and Math Grants in mathematics are Mary Bissell, Southwood; Tifarah Dial, Woodlawn Leadership Academy; Yolanda Mason-Jones, Woodlawn Leadership Academy; Daphne Moore, Captain Shreve; and Joshua Sims, Booker T. Washington.

Newly Appointed Administrator. Charles Lowder, director of certified personnel, recognized Alton Dozier, newly appointed principal at Creswell Elementary.

VISITORS

The following visitors addressed the Board on matters of interest and/or concern: Randy Hill and Brian Shelton, VCC Janitorial; Laura Alderman, STEP Forward; Jon Glover; and Jackie Lansdale, Red River United.

ESTABLISH THE PROPOSED AGENDA AND CONSENT AGENDA FOR THE APRIL 17, 2018 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration on the April 17, 2018 CPSB meeting, and President Riall announced the consent agenda items. *Mary Trammel moved, seconded by Barry Rachal, to establish the proposed agenda and consent agenda for the April 17, 2018 CPSB meeting as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Ms. Trammel, to confirm the consent agenda (Items 6.01-6.04, 7.01 (with exception of 14P-18)-7.02, 8.01-8.03, 8.05-8.06 and 13.01). Vote on the motion carried. The following is a summary of the Board's action on consent agenda items.

6.01 Personnel Recommendations. The Board approved the personnel recommendations as recommended by the superintendent and submitted in the electronic mailout.

6.02 Leave Requests. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The Board approved administrative contract renewals as recommended by staff and submitted in the electronic mailout.

6.04 Personnel Transactions Reports (Resignations). The Board approved the personnel transactions reports (resignations) as recommended by staff and submitted in the electronic mailout.

7.01 Consideration for Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) The Band House and Woodwind & Brasswind for music instruments; and (2) Mackin Educational Resources for library books. *A copy of the bid tabulations is filed in the official papers of the April 17, 2018 CPSB meeting.*

7.02 Consideration of Capital Projects Bids. The Board approved the following bids as recommended by staff and submitted on the bid tabulation sheets in the electronic mailout: (1) Hamm Mechanical, with a Base Bid and Alternate 1, for the sum total of \$2,105,000 for Project 2019-303, "Turner HVAC Phase II"; (2) Carter Construction, with a Base Bid, for the sum total of \$149,700 for Project 2019-210, "Captain Shreve Locker Room Title IX"; (3) Thrash Construction, with a Base Bid, for the sum total of \$940,500 for Project 2019-219, "North Caddo High Roof & Exterior Walls at Welding Auto Shop"; (4) M & M Builders, Inc., with a Base Bid, for the sum total of \$244,900 for Project 2019-216, "Byrd Paving"; (5) Payne Company, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$342,500 for Project 2019-305, "Booker T. Washington HVAC, E-Wing, Auditorium"; (6) RRAC, with a Base Bid, for the sum total of \$1,350,000 for Project 2019-301, "Byrd HVAC, Phase III". *The bid tabulations are filed in the official papers of the April 17, 2018 CPSB meeting.*

8.01 Property/Bus Rental Requests. The Board approved property and bus rental requests recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Change in July and November CPSB Meeting Dates. The Board approved that the CPSB meet once during July and that meeting will be held on July 17, 2018 and that the November CPSB meetings be held on Wednesday, November 7, 2018 (Executive Committee Work Session) and Tuesday, November 13, 2018 as submitted in the electronic mailout.

8.05 Consideration of Proclamation Recognizing Grandparents. The Board approved the proposed proclamation recognizing April 20th as Grandparents Day in Caddo Parish Public Schools.

8.06 Consideration of Investment Advisor for CPSB (Insurance and Finance Committee). The Board approved Reliant Investment Management LLC as the Investment Advisor for CPSB as recommended by the CPSB Insurance and Finance Committee.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students TM, RA and LS as recommended by staff and submitted in the electronic mailout and whose parents are in agreement.

PURCHASING BID #14P-18

Mr. Rachal moved, seconded by Mrs. Brown, that action on Bid #14P-18 be postponed to the first meeting in May.

Attorney Abrams explained that postponing creates a timeframe of 45 days from opening, which means a special called meeting would need to be scheduled to address this issue. Lisa Lloyd, purchasing director, explained that the bid opened on March 20th and there were three respondents; and Mr. Tyson with VCC did express concern if the product bid by the company being recommended was an acceptable product. She said the process followed to determine the recommendation presented to the Board for consideration included addressing the concern expressed by VCC whether or not the product bid by the company awarded the bid was acceptable and they presented a report prepared by their manufacture on the product they bid, which she believes is weighted a little differently. Also, she explained that third party information was received from Ibisworld who provides information on product standards. After reviewing the information, Ms. Lloyd stated that the product does meet industry standards and staff also contacted users of the product to determine its acceptableness, and it was confirmed to her that it was an acceptable product. Ms. Lloyd also checked references on this paper and it has been acceptable in those districts (both paper and dispensers). She said she believes if VCC wishes to challenge it, they have 35 days after the bid opens to do so, which she will want to verify as well.

Ms. Lloyd said she also contacted the District's curriculum staff for assistance in determining comparisons on actual costs and pricing. Mr. Rachal asked about the wording of the required specifications, and Ms. Lloyd stated it specifically said it would be as Tork Universal which defines the specifications or approved equal. She said paper towels are commodities that are very standardized and any difference is very nominal. The brown paper towel rolls Caddo uses are a standardized item and there are some considerations on the weight of the paper, the absorbency rate, and there are some differences; but the overall consensus is that the comparisons make no difference when babies are drying their hands. Mr. Rachal asked if the Tork comparison is accessible by anyone in the industry and Ms. Lloyd confirmed it is. He said he believes this has come before the Board many times, but this is the first time someone has stepped outside what would be the normal specifications. Ms. Lloyd stated that the basic bid specifications state you can bid the item as specified or you can submit a product other than specified if it is an equal performance product, with the only requirement being provision of sufficient information on the product as well as a sample. She added the bid also includes a statement that staff can make that determination. Mr. Rachal asked if a bid has ever been rejected because of a specific paper, and Ms. Lloyd said it has not; and she also checked with references (local and in other states) on the performance of the paper and it has been acceptable. Mr. Rachal asked about the reference to an Ibisworld Procurement, and Ms. Lloyd explained that Ibisworld is a service that provides reports on standard industries for various products.

Mr. Rachal stated he is satisfied and is willing to withdraw his motion, and Mrs. Brown stated that she does not agree with withdrawing this motion; because while she supports staff, she believes there is a reason why this company is asking us to look more closely at this particular bid.

Ms. Trammel moved, seconded by Mrs. Poljak, to accept the original bid #14P-18 (paper towels) as submitted. Ms. Trammel stated she believes staff did a very good job in getting the information and explaining the process followed. Vote on the substitute motion carried with Board member Margaret Brown abstaining.

CONSIDERATION OF 2017-18 GENERAL FUND BUDGET REVISION

Mr. Rachal moved, seconded by Ms. Trammel, to approve the revision to the 2017-18 General Fund Budget as recommended by staff and submitted in the electronic mailout. Mr. Rachal asked Dr. Goree to respond to the variances, and Dr. Goree stated that the information will be provided in written form and explained that some of the items that led to the adjustments include an increase of approximately \$1.1 million in sales tax, Charter School changes in funding to an additional \$1.9 million as well as other changes resulting in about \$200,000, and this is the purpose for the adjustment being made tonight. Mr. Rachal asked that, with the substantial hit in sales taxes in 2017 and the Board did not have any details on this, in the future when there is a variance when going from one year's budget to another that the Board receive a copy of the larger numbers. Mrs. Bell asked the Superintendent to explain the money increase for charter schools, and Dr. Goree said that based on the enrollment at the charter schools, Caddo's annual payment to those schools is increasing because Magnolia Charter added another grade which increased their enrollment, which increases the amount paid to Magnolia. He also confirmed there is a small

management fee charged to the charters for Caddo to manage the process. *Vote on the motion carried.*

ANNOUNCEMENTS

Mr. Rachal announced that the Caddo Career & Technology Foundation Banquet will be Thursday evening, April 19th at 6:30 p.m., and the announcement will be made at this time relative to who will receive the Larry Ramsey scholarship. He reminded the Board members that the Board sponsors this \$2,000 scholarship and individual Board member contributions can be made to the Caddo Career & Technology Foundation and noted for the Larry Ramsey scholarship.

Mr. Riall asked Mr. Rachal if the \$2,000 is for one year or annual, and Mr. Rachal responded it is hoped that the Board will sponsor this scholarship annually. Mr. Riall asked if this goes to one student or will it be divided among more than one student, and Mr. Rachal stated that one student will receive this scholarship. Also, Dr. Goree explained that if Board members give to United Way, they can designate that their contribution go to the Larry Ramsey scholarship. Also, Dr. Goree explained he has begun conversations to begin some type of endowment to help and not annually ask the Board members to come up with the \$2,000. Mr. Riall asked if this scholarship is for the next school year and Mr. Rachal said it is for the next school year and will go to a graduate of the Caddo Career and Technology Center. Mr. Rachal announced that in Mr. Riall's absence, Mary Trammel will be presenting the scholarship to the student. Mrs. Locke asked that Board members receive an email with the information for donation through the United Way.

Dr. Douzart expressed her appreciation for the Board's support of the proclamation recognizing grandparents.

STUDENT READMISSION APPEAL HEARING (DJ)

Ms. Trammel moved, seconded by Mr. Rachal, to go into executive session for up to 15 minutes for a student appeal. Vote on the motion carried and the Board went into executive session at approximately 5:54 p.m. The Board reconvened in open session at approximately 5:58 p.m. *Mr. Rachal moved, seconded by Mrs. Poljak, to overturn staff's determination for student DJ. Vote on the motion carried* with Board member J Green absent for the vote.

Adjournment. *Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried* and the meeting adjourned at approximately 6:00 p.m.

May 1, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, and Barry Rachal. Also present were Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond E Green, Denee' Locke, Durwood Hendricks, Jr.; John Albritton, Dottie Bell, Superintendent Lamar Goree and Attorney Reggie Abrams.

President Riall called the CPSB Executive Committee Work Session to order at approximately 4:30 p.m. and a quorum was present. Dr. Bonita Douzart, District 5, led the invocation and Pledge of Allegiance.

PRESENTATIONS

Transformation Advisory Council Report. Mary Nash-Wood, director of communications and strategic initiatives, introduced Keith Burton, chief academic officer, who stated that in March 2017 the Department of Education entered into a partnership with the Caddo Parish School Board around the Transformation Zone and within that partnership, which agreement ends in May 2020, the document outlines the goals, the governance, support and leadership. He explained that as part of the governance, it was required that a community advisory council comprised of seven community leaders be jointly appointed by the Caddo Superintendent and the Louisiana State Superintendent, and it was established that this council would also report to BESE as well as annually to the CPSB. Mr. Burton introduced Clay Walker, chair of the Transformation Zone Advisory Council, and Dr. Jerome Cox, vice chair.

Mr. Walker reported that the advisory council held five meetings, two of which were public, and they reviewed the plans of the Transformation Zone schools, since the State continues to look at these historically low-performing 14 schools. Because of the concern they will be taken over by the State, this council was charged with overseeing and getting these schools' grades and test scores back on track, looking at areas such as the Tier 1 curriculum and how it is being implemented, professional development, number of certified teachers, as well as being an advocate for the students enrolled in these schools. He reported that everything is going well, and the council has heard presentations by the principals, they have visited the schools and are very happy with what they have seen taking place. Also, he noted the primary concern that children are showing up for kindergarten not ready, and actually a year or two behind, which is also reflective in test scores. He reported that the major battle observed in the first year is the poverty in neighborhoods and why students are behind; however, their goals are on target and they believe the longer the Tier 1 curriculum is in place, and the more professional development offered to the teachers, it will only get stronger.

Dr. Cox echoed Mr. Walker's comments and stressed the importance of continuing to advocate for the children in Caddo.

Dr. Goree expressed appreciation to Mr. Walker, Dr. Cox and the Advisory Council for their work over the past year and stated the Council was never established to manage the schools, but to be the connection to the community to make sure everything possible is being done to change the trajectory for the students in the schools. He added the Council has been hands on and engaged in many decisions affecting the schools/students, i.e. being accountable for HR decisions, Tier 1 curriculum implementation, TAP, and making sure the System is providing adequate support.

Mr. Walker stated in the Council's review of the data, in some schools approximately 60% of the teachers were certified, with five schools at 100%.

Mrs. Bell expressed her appreciation for the work, and her desire for this information to be put before the public. Mr. Walker agreed this needs to be addressed and they are concerned about the next set of scores since the state has changed the scale of the testing; and he believes the Council and the School System need to partner together in the message that is shared with everyone. At this time they have asked the state when the next scores will be available as well as someone to translate them compared to last year's scores. Also, in coordinating this with a report to the public, the Council would like to share that what they are observing is a lot of good work being done in Caddo's schools; and also explaining to the public that if a school is labeled an "F" school, it does not mean there is "F" teaching taking place. Dr. Cox noted that the Council wants it to be clear that this group is not in cahoots with the School System, but they are doing what is fair and just for the students; and the key will be how this information is messaged to the public.

Referencing kindergarten readiness and children being behind when they enter kindergarten, Mrs. Poljak stated she believes it is definitely a community problem but questions how to get the community more involved? Dr. Cox referenced the many Moms that live each day in survival mode and the importance of coming up with some type of infrastructure to help these families. Mr. Walker stated there is an effort at the State, The Early Childhood Caucus, to look at the 0 to 5 numbers, because the school system is a safety net for the community and the importance of preK programs in the schools. He said he believes getting together with the Legislators and the Early Childhood Caucus, Step Forward, and focusing on obtaining state funding for this age group of children will offer opportunities for working toward getting five year olds ready for Kindergarten. He said it is important to continue to work on the message and reiterate it in an effort to continue to grow the school system. Mr. Walker also reported that since Dr. Goree became superintendent in December 2013, the number of school arrests have decreased by more than 50%.

Dr. Cox also commented on the "drop out" between 8th grade and high school and the importance of creating a transitional program that tells students they can make it to the next step. Mrs. Locke said the message shared today that an "F" school is not a failing school is the message the District has tried to share with everyone. She expressed her appreciation for this Council, their work, the positive message of the good things taking place in the District, and her hope that this message will continue to be shared.

Mr. Green stated that in looking at other successful programs, it seems they all have something in common ... an incentive for them to come, and the encouragement to the schools, the teachers, and the students to do well. He believes providing incentives to the parents to become more involved early in their children's lives is important. Mr. Walker noted the programs and things done since Dr. Goree became Superintendent, as well as under Mr. Snow's leadership in the Transformation Zone and now Mr. Alexander's leadership, and the wonderful job the principals in these schools are doing in creating an atmosphere that is incentivizing the students. The reality is, however, if everything is going well, the parents do not show up, but if you try to close a school, they all show up. He believes a better way of interacting with parents is something that needs to be addressed, but noted the completely different atmosphere witnessed in the schools than he did four years ago. Dr. Cox added he believes there is a need to knock on doors and visit some of the homes.

Mrs. Brown stated she has known Mr. Walker and Dr. Cox a long time and she appreciates what they are giving to the School System and the community to make a difference in children's lives.

CareDOX Vaccinations/Immunizations Proposal. Mr. Burton shared with the Board the importance of children being healthy so they are able to learn at their very best; however, it is a reality in Caddo that too many students are absent due to preventable infections and viruses and too many families are not taking advantage of immunizations being offered at the local health clinics. He said he believes if Caddo begins offering these services to interested families at no cost to the District and encourage parents and guardians to participate, we would see healthier children who are in school more often and ready to learn. In 2015, Caddo Parish Public Schools worked with Dr. John VanCherie, chair of Pediatric Infectious Diseases at LSU Health Sciences Center, to help bring an influenza program into Caddo at no cost to the District. Unfortunately, staff was unable at that time to finalize an agreement for these services; but now staff has been able to accomplish this. He explained that CareDOX works with schools around the country providing technology and health care services for over 2 million students at no cost to them, their schools or families. Staff is asking the Board to consider a proposal that would provide vaccines to our students beginning with the 2018-19 school year.

Dennis McNamara, CareDOX Inc., explained that this company offers free flu shots and immunizations to students in school districts across the country. They also offer free electronic health record software for school nurses to use. He further explained the procedures for how this works, ie schedule in-school flu clinics, provide a free flu shot to everyone in the district where they provide the service and via agreements with Medicaid and private insurance companies. He explained they collect parent consent ahead of time so the day of the clinic they are able to cover the shots for that school in a minimal amount of time. Dr. VanCherie stated he has been on the LSU Health Science team for 11 years and they began doing flu vaccines in Caddo schools in 2008 and they were able to sustain a few years on their own, but the infrastructure has now become unsustainable. Now they have the opportunity to work with CareDOX who affords them the opportunity to carry the services into the

schools where the students are located. He explained that he and Dr. Bocchini at the Med School will be the medical directors locally for the program and provide medical support necessary. Regarding liability, Dr. VanCherie explained that all the flu vaccines are covered by the Federal Vaccines Compensation Fund so there is no liability to the district associated with the use of the vaccines but this is covered from the manufacturing side.

Mr. Rachal asked about the software package and if that is something our staff is currently using, and Mr. McNamara responded no but it is in the proposal. Mr. Rachal asked if there is any coordination needed for additional services from Caddo and Mr. McNamara explained they schedule with the school a day for the clinic and they can have multiple teams there in a day. They also communicate the opportunity with the parents through various means. Dr. VanCherie also stated that they provide the nurses, et.al. and not put added work on Caddo's nurses and staff. Mr. Albritton asked for clarification on how the costs will be reimbursed, and it was explained from private insurance and Medicaid, with CareDOX filing for the reimbursement as well as providing the nurses needed. Mr. Riall asked if this is for all students and Mr. McNamara responded Kindergarten through 12th grade.

Dr. Goree expressed appreciation to Nurse Laster and her staff and how excited the staff is because of the huge population that will benefit from it. He also reminded the Board of the instructional time lost in the past from large flu outbreaks and hopefully this effort will prevent this in the future. He also complimented Mr. Burton and his staff for their work in seeking out this opportunity.

Establish Agenda for the May 15, 2018 CPSB Meeting

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

Capital Project Bids. Mr. Rachal asked for an update on the Capital Projects budget, reflecting the project budget and the amount each project was over or under.

Adopt the 2018 Millage Rates. Denee' Locke asked staff to provide more information on the documents presented. Jim Lee responded that by law the District must adopt the millage rates each year. The documents presented include a (1) Resolution (which must be sent to the Tax Assessor showing which millage rates Caddo adopts); (2) Tax Levy Schedule (which shows the breakdown of the various levies approved by the voters), and (3) a schedule of where we are. He further explained we are currently in year 5 of a 10-year millage and it will have to again go to the voters by 2023, but there are no millages up for renewal in the next four or five years. He also provided a history of how the millages have been established and that in 2009 General Fund had a total of 58.43 mills, Capital Projects had 12.17 mills, and Debt Service 7.6 mills for a total of 78.20. The current year is 73.82 which is a drop of about 4.5 mills over the past 10 years. Mr. Lee explained this is the District's second largest source of revenue each year and it is for General Fund alone, and is in the neighborhood of \$100 million.

Mr. Rachal asked for a history on millages back to 2004. He also asked about the debt service and if the 5% is as low as it can go, and Mr. Lee said for this year and we will probably reduce it next year. Mr. Rachal asked if this could disappear over time, and Mr. Lee responded yes if no additional General Obligation debt is issued and then the last bonds will be paid off in the early 2030s.

Proposed Revisions to CPSB Policy DFAA. Mr. Rachal asked about the proposed resolution and if the last paragraph on the first page is a requirement of the School Board. Mr. Abrams confirmed that is what the statute states, but the Constitution actually supersedes the Statute because the Constitution was decided by the people of Louisiana authorizing the Governor and the Board of Commerce and Industry to grant an exemption. Mr. Rachal asked if the Governor's Executive Order is exempt, and Mr. Abrams responded that is not correct because the Governor, while he can issue an Executive Order, he cannot order another body to do what this is declaring. Mr. Abrams explained that he was asked to create a policy on behalf of the Caddo Parish School Board to deal with a created situation for which the Board has no way to handle it. He said the Governor, because of what he did, has now decided that there is a need for more rules since those in place are not working. The policy was created to be a stopgap since there are some rules in place that are making dates run and there is no process in place that will make these things happen within the 120 days nor have the ability to create or evaluate proposals within the 120-day timeframe. This policy was created to come up with a way the

Board could comply with the regulations currently in place and defer back to the Governor and Board of Commerce based on what the Constitution says must be done. Mr. Rachal asked about conflict of granting exemptions, etc., as he believes this is saying two different things; because if the School Board exercises due diligence, it is important to understand what this means. Mr. Abrams reiterated that it is a natural conflict and the School Board cannot do due diligence if it is trying to comply with the Constitution itself, since the Governor and Board of Commerce are supposed to do this. Mr. Rachal asked if there are any school boards that have addressed this Executive Order via lawsuit and that it is not constitutional. Mr. Abrams stated that is not Caddo's concern, but his concern is the Caddo Parish School Board, not the Governor, nor the companies requesting the exemption. Again, he said he was asked to create a policy for the Caddo Parish School Board that allows it to comply with the order, which is what the recommended revisions cover. Mr. Rachal asked about the School Board policy authorizing the Board President to sign the proposed resolution generally in favor of a manufacturing project when each one presented to the CPSB proposes to create jobs or retain existing jobs; because it appears the Constitution states the School Board needs to exercise proper vigilance in these requests. Mr. Abrams clarified the Constitution did not do that, but the Statute did. Also, if the Statute says proper vigilance should be exercised, he believes it should be worded just the opposite and that the School Board will deny all of them and let the Governor overturn it; and if the Board decides it is not going to do economic development, then it can do this. Mr. Rachal also asked about the statement in the policy to defer to the BCI and Governor and if in the District's due diligence to secure funding if we say we are going to defer, are we not waiving our right to what the Statute says regarding our due diligence. Mr. Abrams explained it is stated that way since the State Board of Commerce and Industry has all the information and they should know how to evaluate this yet they have not provided the District with the information needed to properly evaluate an application and be able to make a good decision to approve or not. Any information the Board does receive is coming from the company or an outside source and the Board does not have the expertise to question its validity, thus deferring it back to those who have the expertise and ability to do the evaluation. Mr. Rachal asked if an application first goes to the State, and Mr. Abrams said that is correct. Mr. Rachal asked if the State goes through the process of reviewing the information to determine if the company requesting the exemption qualifies. Mr. Abrams stated it is his understanding that the State does not follow the entire process, but they send it to the local districts. Mr. Rachal asked if we will be referring it back to someone who will not follow due diligence, and Mr. Abrams said he does not know, but he is only hoping if it passes they will follow through with their due diligence and make the right decision. Mr. Rachal shared with members of the Board a copy of a matrix that could help determine if a company qualifies for exemption.

Mrs. Brown shared her confusion because she has seen three bodies who she doesn't believe have created a policy to address this, and questions why this is being done now. Miss Green asked Mr. Abrams if we are in contact with neighboring districts via LSBA relative to what they are doing, since she remembers ITEP being a major concern at the LSBA Conference. Mr. Abrams said he created a policy because he was asked to and he did not look at what other surrounding districts were doing, but is aware of a south Louisiana district, possibly Calcasieu, saying they were approving all ITEP applications and not going back and forth. This information was shared by Forethought.

Ms. Trammel asked what it says if the Board states it is going to deny any and all applications, and Mr. Abrams responded the Board would be viewed as being anti-business if it doesn't have any discussion. Ms. Trammel stated she understands this Board works by policy, and she understands the importance of having a policy that states how we will address these matters. She believes someone needs to tell the Board what it should do since the School District needs the money, but it also understands the importance of business and the demand for jobs in Shreveport. She shared conversations she has heard, but she believes it is important that something is in writing to provide guidelines of what and how the Board will address these requests, and she doesn't believe what is presented clarifies the process the Board will follow. Mr. Abrams referred to the proposed Resolution which clarifies if a company says they will create jobs or retain jobs, then the Board President can sign off on it that the Board is *generally* in favor of it, which complies with what the Governor asks. In using the term "generally in favor of", and giving that power to the Board President, how will the Board know that it understands everything in the documents submitted, and Mr. Abrams responded it will be staff bringing that information, i.e. number of jobs created/retained, amount of dollar investment, that will let the Board know. He also said it is that information that is provided to the

State when the State is determining compliance, because the contract is between the State and the company.

Mrs. Poljak asked if she understands correctly that the difference between the School Board and the Caddo Commission and the City Council is those bodies have economic development departments and the School Board does not, and Mr. Abrams said that is correct. She also asked if she remembers correctly the discussion on exemptions in a Finance Committee meeting and the confusion because no one had expertise in economic development. She further stated that Mr. Abrams was asked to create a policy so the Board had guidelines to follow; or Mr. Abrams said the Board would need to hire an expert in the field. Because of these concerns, she said this proposed policy allows the Board to defer to the State to make the final decision.

Mr. Riall asked if this resolution can be sent to the Governor stating we are generally in favor of exemptions or that we do not support any exemptions, and that the Board will not entertain any requests one way or the other. Mr. Abrams said the regulations state the Board must act within 120 days, and if you do say no, the School Board will automatically be exempt out of the taxes; and if the application has no jobs or retentions, it has not met the minimum required in policy, then it would come to the Board. If it comes to the School Board and it refuses to hear it, you are saying no; and if the Board does nothing and the 120 days pass, the percentage approved by the other entities is divided among all the entities to total 100%.

Mrs. Brown asked for further clarification on the Governor's Executive Order. Mr. Abrams said once the application was submitted, the 120-day timeframe began. At one time there were no rules and those were held in abeyance and the School Board began receiving requests in December; however, there will be some applications that come now and they will not come under the former rule because they will all be new and the project will not have begun. Mrs. Brown asked if it is in order to amend what is presented or to defer for further study. Mr. Riall said this is only the work session and if that is the feeling, the item would not be placed on the consent agenda and it could be addressed at the next meeting. Mr. Abrams said if the executive committee wishes, it can remove the item and postpone it.

Miss Green stated she doesn't believe anyone thinks companies should not get a tax exemption, but she asked if there is a chart similar to what Mr. Rachal handed out. Mr. Abrams stated the grid handed out by Mr. Rachal is something the Chamber of Commerce uses, and he knows Baton Rouge is working on one. Also the Governor has indicated he is in the process of changing the rules, but there still are pending requests that need to be addressed. Miss Green asked if the School Board adopts a policy will it still look at individual companies. Mr. Abrams indicated the policy would provide a threshold and stop the need for the same discussion at every meeting. Miss Green asked if a large company were to provide three jobs, she believes the people will still want them to pay their portion. She believes the School Board needs to look further at this and possibly come up with something that will be shared alongside the School Board policy.

Mr. Green shared his concern for the Board's obligation to make decisions that are in the best interest of all the students and teachers; and at this time, he does not feel comfortable in making a decision in this matter.

Mr. Albritton referenced the proposed policy and asked when something concrete could be provided. Mr. Abrams said the proposed policy was submitted to comply with the Executive Order of the Governor and to comply with the rules in place requiring the School Board to do certain things by certain times; however, the final decision is up to the Board. Mr. Albritton stated that in listening to the discussion and the proposals, one provides a grid on how to make it, one says do nothing, and a third says we need to follow what the Governor says we need to do. At this time, he doesn't believe any Board member has a solid feeling on any of the proposals; and for him personally, he doesn't believe we need it because we should not be giving up dollars that can help Caddo's students without a clear understanding so the Board can do the right thing.

Mr. Rachal moved, seconded by Ms. Trammel, that this item be removed from the agenda for May 15, 2018 and that it be referred to the Finance Committee for further discussion. Ms. Trammel stated she wants to make sure that in the very near future, something is put in writing so the Board understands what it is to be doing. Vote on the motion carried with Mr. Riall opposed.

Mr. Hendricks asked about the timeline to act on applications, and Dr. Goree stated staff will provide the Board with the information it receives and the dates as they are calculated. Also staff will work with the Finance Committee chair to schedule a meeting to discuss this matter.

Mr. Riall announced that Items 7.01, 8.02-8.08, 13.01 and 13.02 are the Consent Agenda.

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the May 15, 2018 CPSB meeting as presented. Vote on the motion carried.

POLL AUDIENCE

Jon Glover addressed the Board on matters of interest and concern relative to the Transformation Zone Advisory Council.

ANNOUNCEMENTS

Ms. Trammel announced that she recently visited the AMIKids executive committee and found what they are doing to be very rewarding. One concern is they may need more space.

Miss Green noted the phenomenal things in her district over the last couple of weeks and how proud she is of them, i.e. Green Oaks prom and over \$1.7 million in scholarships awarded to Green Oaks students

Mrs. Poljak reminded everyone that LEAP testing for 3rd and 4th graders is this week.

Mrs. Locke extended best wishes to all the high schools and their graduates.

Dr. Douzart shared the opportunity to attend the ribbon cutting for the Fair Park Middle School court room and how excited the students are about this new opportunity.

Mr. Riall commented on the Student of the Year banquet with over 400 attending.

Adjourn. *Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:38 p.m.*

July 24, 2018
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green (arrived at approximately 4:43 p.m.), Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, Durwood D Hendricks, Jr.; John L Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and General Counsel Reginald Abrams.

President Riall called the July 24, 2018 CPSB meeting to order at approximately 4:35 p.m. at which time a quorum was present. Board member Mary Trammel, District 6, led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 19, 2018 CPSB MEETING

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the June 19, 2018 CPSB meeting as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following students/staff for outstanding achievements. Each one recognized also introduced family members/friends present.

Herndon High Steppers. The Herndon Magnet School High Steppers were introduced for recently being recognized as the Kilgore Rangerettes overall Middle School Champions plus 4 event wins; Regional Overall Middle School Champions plus 5 event wins; and champions of the American Dance Drill Middle School National Competition plus 4 event wins. Kim Whetstone, director and Lacy Turner, co-director and choreographer, were also recognized.

Volunteers for Youth Justice Teen Court Participants. The following students were recognized as participants in the Volunteers for Youth Justice Teen Court program: Brenna Burrough, Davion Curry, Kendall Fuller, Jeramiah James, Jamarcia Taylor of Fair Park Middle School; Nehemiah Goldsmith, Jaelyn Mason, and Jaylon Vinson of Caddo Magnet High School; Felix Jones II, Brin Wilson and Nial Wilson of Captain Shreve High School; Lauren Lee, Annika Robinson, and Zoe Young of C. E. Byrd High School; and K'La Richmond of Huntington High School. Shonda Houston-Dotie, director of Youth Programs for Volunteers for Youth Justice gave a brief overview of the program.

2018 Caddo Parish School Volunteer of the Year. Linda Still Catanese (Caddo Heights) was recognized as Caddo's 2018 Volunteer of the Year. Mrs. Wood highlighted some of the things Mrs. Catanese has done to give back to the schools. Board member Bell also personally recognized her for the many ways she assisted her when teaching at Turner.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced and welcomed the following newly appointed administrators: (1) Christolyn French, AP, CMCT; (2) Angela Morris, AP, Donnie Bickham MS; (3) Alyssa Simmons, AP, Woodlawn Leadership Academy; (4) Latoria Stewart, AP, Woodlawn Leadership Academy; (5) Christopher Jackson, principal, Midway Elementary School; (6) Marvin Rainey, District Executive Master Teacher; and (7) Nathaniel Adams, director of Child Welfare and Attendance.

VISITORS

The following visitors shared their thoughts and concerns: (1) Jackie Lansdale.

ESTABLISH THE AGENDA AND THE PROPOSED AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

Mr. Rachal inquired about the concessions bid for Lee Hedges and if only one bid was received for this item. Lisa Lloyd, director of purchasing, explained that the recommendation is the only bid received and it was 27%.

Mr. Rachal also inquired if all staff are evaluated by the same format, and Dr. Goree confirmed that evaluations for director positions and above are different than the evaluation for teachers; and the changes presented to the Board for consideration address evaluations for classroom teachers and is more specific to the number of evaluations a teacher in a full TAP school will have per year (going from four evaluation to three (1 announced and 2 unannounced)). Mr. Rachal asked how many evaluators are there for teachers, and Dr. Goree said the administrative staff (principals, assistant principals, and instructional coordinators) serve as evaluators of all teachers in a school. They will divide the list in whichever way they choose and will conduct evaluations of all teachers in the school on an annual basis. Dr. Goree said staff is also excited as it enters its second year in the TAP model of evaluating all teachers. They believe the change will provide an evaluation that is more a coaching model than a "gotcha" model.

Mr. Albritton, et.al., asked staff to look at the Board list attached (Exhibit A) to the Louisiana Compliance Questionnaire for corrections.

Regarding proposed revisions to Policy JCDB, Ms. Trammel asked for clarification on the similarities, and Superintendent Goree explained that Board policy sets a general dress code and you may see some schools with more specific dress codes, i.e., some schools require standard dress but not all schools do. This proposed change addresses something changed in the law concerning bullet-resistant backpacks. The Board policy sets broad guidelines; and schools set specific dress codes around it. He also said this is established by each school, within reason.

Dr. Douzart asked that consideration be given for a dress code for teachers also. Superintendent Goree reiterated that Caddo has a broad set of guidelines relative to teacher dress; however he believes Dr. Douzart may be referring to something more specific. Mr. Abrams added that teachers have a dress code and that is they should dress professionally. The policy itself is broad; however, it also states that under no circumstances shall teachers wear anything that would be a violation of the students' dress code.

Ms. Trammel moved, seconded by Mrs. Locke, to establish the agenda and consent agenda for the July 24, 2018 CPSB meeting as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Locke, to confirm the consent agenda (Items 6.01-6.03, 7.01, and 8.02-8.09). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

6.01 Personnel Recommendations. The Board approved the personnel recommendation as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transactions Reports (Resignations). The board approved the personnel transactions reports (resignations) for June 1 through 30, 2018 as recommended by staff and submitted in the electronic mailout.

6.03 Request for Leave. The Board approved the request for leave as submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) John Auzenne, Jr. dba M&M Concessions for concession services-Lee Hedges; (2) My Office Products, dba Unity Education Resources for copy paper; (3) Oak Farms for the purchase of Milk and Dairy Products; (4) Oak Farms for the purchase of Fruit Juice; and (5) Flowers Baking Company for the purchase of bread and bread products.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as submitted by staff in the electronic mailout.

8.03 Consideration of Revisions to Caddo Performance Evaluation Plan. The Board approved the proposed revisions to the 2018-19 Caddo Performance Evaluation Plan as recommended and submitted in the electronic mailout.

8.04 Consideration of Change in CPSB Meeting Dates. The Board approved changes in the October 16, 2018, January 1, 2019 and February 19, 2019 Board meeting dates as recommended by the superintendent and submitted in the electronic mailout.

8.05 Consideration of Department of Exceptional Children 2018-2019 Interagency Agreements & Contracts. The Board approved the 2018-2019 interagency agreements and contracts for the Department of Exceptional Children as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Louisiana Compliance Questionnaire. The Board approved the Louisiana Compliance Questionnaire as recommended by staff and submitted in the electronic mailout.

8.07 Consideration of Proposed Revisions to CPSB Policy JCDB (Student Dress Code). The Board approved the proposed revisions to CPSB Policy JCDB (student Dress Code) as recommended and presented in the electronic mailout.

8.08 Consideration of Authorization to Hold Salvage Sale. The Board authorized staff to conduct salvage sale for buses from the CPSB fleet as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of Real Estate Broker Services Proposal. The Board approved the proposal of U L Coleman for RFP 06R-19, Real Estate Services for the marketing and sale of Alexander Learning Center and MJ Moore as submitted in the electronic mailout.

SUPERINTENDENT'S REPORT

Superintendent Goree announced and invited everyone to Caddo's *Ring the Bell* scheduled for Monday, August 13, 2018 at Captain Shreve High School to welcome all Caddo students back to school. Board members wishing to order shirts may do so following the meeting in the Superintendent's Conference Room.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that Walnut Hill (graduating classes from 1957-1971) will return this coming weekend for a class reunion at Walnut Hill.

Mr. Hendricks announced that he returned today from attending the Southern Leadership Conference in Biloxi, Mississippi and shared he looks forward to bringing some of the things from this learning experience to the table with the Board members.

ADJOURNMENT

Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

August 7, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F Rachal. Also present were Board members Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Durwood Hendricks, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the meeting to order at approximately 4:37 p.m. with a quorum present and Denee' Locke led the invocation and Pledge of Allegiance.

PRESENTATIONS

Annual Report/Update on ReImagine Caddo: A Plan for Excellence. Carolyn Spaht-Gonzalez announced this is her seventh time to present to the CPSB on where the District is in its strategic plan and how and to what degree the objectives are being met. Mrs. Gonzalez stated there are 27 objectives on the strategic plan; and at this time, two of the 27 cannot be rated until the data is available. These are the contingency reserve (rainy day fund) which should be available in September, and the vacancy rate (the September FT counts). Of the remaining 25, the same number (11 or 12) are green (target met), 12 are yellow (have not met the target but are making progress), and only 2 have not met the target or made progress. She added that each action step is also looked at in the operational plan of the strategic plan.

In looking at trends over the last three years, Mrs. Gonzalez highlighted this year compared to the previous 2 years and detailed percentages of objectives that have been met, have made progress or made no progress and noted that over time, there have been fewer greens and reds, and more yellows; and this resulted from determining what to do with the reds (adjusting action steps as needed and thus changing the status from red to yellow), and greens. She also commended the staff for, as it reaches its target, adjusting the target to reach a higher goal, because this indicates it is not just doing and measuring the plan to increase the number of greens but because the Board really wants to make a difference for children.

Regarding the Scorecard, Mrs. Gonzalez summarized the following areas for the Board, and highlighted where the District was when it began, where it is in each area toward meeting the targets for each year, where the District is now and where it wishes to be. The K2 students' percentage is for the first time reading at grade level and not labeled red. She announced the excitement of the positive movement in this area for these children (kindergartners) have been less ready in the past. She said while the percentage decreased, she commended the District for still seeing the positive in this area, with an increase in kindergartner scores by 48%. She also reported that the percent of students in Grades 3-8 scoring proficient in ELA. Math and high school graduation are pretty much flat compared to last year, with a flat percent in high school graduation because of the big jump the previous year.

Under Family and Community Engagement, Mrs. Gonzalez stated that each school now has a parental involvement plan and will be developing a plan to measure the implemented plan. Also receiving a green status for the 17-18 school year was the objective to come up with a number of meaningful opportunities for community engagement and partnerships. Under Fiscal Responsibility, she reported that the projected evaluation is not available but is anticipated in the fall, and the District's bond rating of AA- has held. She also reported that highlights in this area include giving employees a pay raise as well continuing to save money in health care (approximately \$4 million).

Relative to Human Resources/Professional Development, it was reported that the final counts for current school year vacancies will not be available until after September 1; and increasing the retention of certified and classified personnel within the 0-3 years of employment is an area that needs more focus since a positive trend is not being seen. She said that this concern is one that has been shared every time with the Board when bringing updates, and in looking at why we are losing employees, it is not known why since we do not have the correct data, which is not just an HR problem, but it is a combination of HR, Academics and IT sorting out the indicators to determine what is happening, which she believes the external company working on an exit survey may help in this area. Mrs. Gonzalez reported that on a positive note, the annual over-staffing and surplus have been reduced.

Mrs. Gonzalez reported that STEM continues to be a positive, bright spot in the District as well as the virtual school enrollment; and under technology, the number of computer devices used for testing has increased to 3:1 and a 2:1 school average

and with 92% of the schools having this ratio, the District has almost reached its target. Staff is also moving forward to insure that the specialized programs are aligned with offerings at campuses districtwide.

The update in Operations and Support Services indicated that the District saw a .4% increase in the on-time delivery of students by transportation; and while there was no improvement (red) in the reduction of at-fault bus accidents for two years, improvement was seen in the 2017-18 school year; and the use of substitute bus drivers covering daily absenteeism of permanent drivers surpassed the goal of 13%. Mrs. Gonzalez also reported that school facility repair work orders surpassed the projected level of total work orders to be 50% or below with a 59% actual level of completion. With the goal of reducing annual energy costs by 10%, the District exceeded its target by one cent.

In the effort to develop and implement action plans for the use or disposal of all vacant school structure, 61% of the vacant buildings have action plans as of the end of 2017-18 school year; and in striving to attain a 100% average student capacity level, the District was at 92% at the end of 2017-18. Participation in breakfast and lunch is predicted to increase to 50% for breakfast and 75% for lunch with current percentages being 28% for breakfast and 62% for lunch and staff is working on how it can increase these numbers.

She reported on the great improvement in physical security of each site, going from 48 incidents districtwide down to 8. In the area of Marketing and Communications, she reported on the increase in positive stories regarding the District via various media avenues, and a third party is beginning to handle the survey to be used to build trust through an annual survey of parents and stakeholders.

She noted the areas of strength exceeding the areas of focus and highlighted those initiatives marked with an asterisk meaning they struggled last year. She announced a revision to the Strategic Plan will come to the Board in September. In summary she stated that this is a very strong evaluation; and while she knows we want to see all greens indicating all targets have been met, she would question if staff was pushing hard enough if all the targets were met at this point. She commended the District on continuing to stretch farther because the results are evident.

Dr. Goree pointed out that the two items mentioned that could not be addressed, staff will bring these back as soon as the information is available. He also reiterated that ReImagine Caddo was designed to be a five-year strategic plan and in concluding the third year, staff will go into retreat and begin looking at those things that continue to serve the best interest of meeting the mission and vision established in the strategic plan. Also, he added there will be nothing removed in any area that still needs to see growth as long as it is still perfectly aligned with our mission and vision for the District.

Mrs. Bell complimented the K2 program coming out of the red and her belief that every school and classroom needs a preK program. With preK being a problem everywhere, she believes we need to work with the Legislators to provide this opportunity. She also asked how many preK programs are in the Caddo System and how many classes are at each school. Dr. Goree noted several grass roots organizations in the community that are interested in expanding preK opportunities. Mrs. Bell also asked about the retention of teachers and if there is any way we can implement some type of five-year contract to keep them in Caddo for at least that length of time. Mrs. Bell also said when it comes to testing on the computers, and because the State is requiring that students test on the computers, it is important that all the computers in the classrooms are working at test-taking time. Dr. Goree stated his agreement that this is a national issue, but he believes significant strides have been made in this area. He added staff will look to modify change so staff can continue the process of retention. Having just welcomed 200 plus new teachers, he believes staff has done an outstanding job of preparing them for the classroom. Next, it will be important to determine how we keep them for three years, which is something school districts will have to be very creative with and think outside the box. He also added that as Mrs. Gonzalez stated, this is an area that is not just Human Resources, but it is an Academics and Professional Development effort to determine what will sustain the teachers' interest in the profession.

Mr. Albritton asked for clarification on programs aligned with campus offerings, and Mr. Burton stated that this part of the strategic plan has been dormant because of the recent contracts and agreements with the State. He further explained that soon academic teams as well as other departments will go into the schools and look at specialized programs and the students' needs, i.e. technology schools, professional

development schools, magnet components, et.al., and make sure that whatever is on a sign outside a school building, is impacting students at that school. This review will be brought back to the Board.

Mr. Rachal asked about the "flatness" in the testing area when it comes to SPS and ELA scores and if it is due to changes in the tests. Dr. Goree responded that it is not, but it is only due to "flatness" in student performance. However, he believes this will become greatly impacted by the implementation of the Tier 1 curriculum across the District next year for which 2,000 plus teachers participated in intensive professional development over the summer for implementation of this curriculum. Mr. Rachal added he believes there is a huge momentum going on now with anticipation these will increase dramatically. Dr. Goree agreed there will be significant jumps in performance over the next 2-3 years. Mr. Rachal also asked how is school communications taking place on the web site, and Mary Nash-Wood explained that in collaboration with the National School Public Relations Association to identify what parents look for on the web site, i.e. school calendar, school lunch menu, staffing changes, etc. This rubric has been shared with Mrs. Gonzalez and the staff works weekly going through every school's website to see if these components have been updated; and if not, they look at circumstances affecting non-current information (out for holidays). He asked if we are using a web site company for each school, or is it left up to each school. Mrs. Wood explained the District does have a District-provided web platform that schools are able to use, but many schools ask their parent-teacher association or another organization to facilitate keeping web pages updated. She also said they have found it very important to keep current who oversees each school's web site, and who has the credentials to update this information. They have also asked schools to keep the Communications Department up to date on changes and have hired a graphic designer within their division for updating web site information and training users.

Mr. Rachal also asked about the drop in retention in the certified area and if the exit survey has been designed and implemented. Dr. Goree responded that Mrs. Gonzalez noted that this is a recurring issue and it speaks to the National trends relative to retention of certified personnel. He added that in talking about an outside firm, the staff has begun working with K12 Insight and this service will be implemented with the next school year to provide us with opportunities to (1) better communicate with families, and (2) provide an avenue for collecting meaningful data as to why we are losing people so we can be more specific in our design of how to keep them in the District. While we have informally surveyed personnel when leaving the District, we have never done so to the specificity needed if we need to make changes. Dr. Goree stated that while HR is driven by effective use of data, it is important to insure the correct data is collected and used accurately. Mr. Rachal also stated that getting this data into a system will help us systematically to figure out what needs to be done. Dr. Goree further reported K12 Insight was in the District on Monday.

Mr. Rachal also inquired about reaching the 2020 target of computers in schools and now resetting the targets to do better for children. Dr. Goree recognized Academics and Technology for what they have done in conducting a very thorough audit of everything in the Caddo System which he believes will provide additional improvement in this area.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 21, 2018 CPSB MEETING

President Riall presented the agenda items for questions and discussion.

2018-19 Pupil Progression Plan. Mr. Burton stated that information is at Board member stations for submission of a parent representative to the Parental Review Committee. Melissa Mainiero, supervisor of accountability and data, shared with the Board that the lateness in this being presented to the Board results from staff waiting to receive information on the new placement test mandated for entering 5th grade and 9th grade. She further explained that changes include updating language related to a new kindergarten entry assessment, local update to remove weighted grades in the elementary grades (1-5) and language development courses, look at reading and language arts grades as one rather than two separate grades, state policy regarding 5th graders meeting state assessment standards and if they did not, putting certain supports in place for them if they are promoted, and relative to high school course work taking place on the middle school campuses, the Academics team will work together to make sure the student is leaving middle school and entering high school to take courses that are prerequisite and prepared for the advanced courses (Level III courses).

Mr. Rachal asked about the item addressing 4th graders going into the 5th grade and if there is a list of what the State is mandating. Mrs. Mainiero explained it is actually a collaborative process between the school and the parent; and Caddo has some of these already in place for the students, i.e. access to Tier 1 curriculum. A structured RTI time is also required and some schools have already built this into schedules for students struggling to meet the grade level work expectation. Also, strategic classroom placement is a way by which they look at the teachers in the building to determine the right fit for students and that they are in the right environment to receive the needed support. Fourth, offering summer school is included and when the State asks the districts to define summer school, they see summer as anything that is happening outside the normal school day, i.e. after school programs near the end of the year; and they are saying a minimum of two of these should be in place for students entering fifth grade and have a below basic score. Mrs. Mainiero added this really formalizes the support already in place for the students and tracking documentation.

Mr. Albritton shared his confusion that a student can pass Algebra I, Geometry, but not score at least Basic on the Mathematics test. Mrs. Mainiero responded that does happen, and for various reasons. Dr. Goree said that at times a parent or student is interested in taking a class but sometimes they struggle; however, staff makes every effort to only put students in those classes who are academically ready to be successful in these classes.

Mr. Riall said he has been told by a number of people in different districts/schools that many times children will graduate from high school having done well in math, but they are not ready for college, and he asked why does this happen? Dr. Goree agreed that this is a nationwide issue and noted there is no alignment of what we do to prepare students for success which is a systematic problem of no formal communication between colleges and public schools. To address this type issue, it will take a few Legislators coming together and working on this.

Following discussion, Mr. Riall announced Items 8.01-8.04 and 13.01 as the consent agenda.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda (Items 8.01-8.04 and 13.01) for the August 21, 2018 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

The following visitors addressed the Board regarding items for action at the August 21st meeting: Jackie Lansdale, Red River United.

ANNOUNCEMENTS

Jasmine Green stated that having attended her first new teacher orientation, she never realized how much work the Professional Development Department put into this and she asked staff to provide her with the number of new teachers. Dr. Goree stated there are over 200 and the Board will provide an update by the end of the week.

Dr. Goree announced that Ring the Bell will be at 9 a.m., Monday, August 13th at Captain Shreve. Everyone was encouraged to park at Lee Hedges stadium and a bus will transport everyone from the parking lot to the main entrance. He reminded everyone that the new CPSB shirts will be available no later than Thursday.

Mrs. Locke asked when will the Louisiana Middle School Teacher of the Year be recognized, and Dr. Goree announced this will take place at the August 21st meeting.

Mr. Rachal announced the possibility of two Board members that are Captain Shreve Alumni will be attending the Ring the Bell festivities.

ADJOURN

Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 5:49 p.m.

May 7, 2018

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met in regular session on Monday, May 7, 2018 at approximately 2:00 p.m. in the Meeting Room in Staff Development, 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following committee members present constituting a quorum: Susannah Poljak, Mary Trammel, Durwood Hendricks and Raymond Green. Also present were Jasmine Green, Margaret Brown, Dr. Bonita Douzart, and Denee' Locke. Superintendent Goree, Attorney Abrams, and staff members Jim Lee, James Woolfolk, Mary Wood, Diane Atkins and Roy Murry also were in attendance. Ms. Trammel led the prayer and Pledge of Allegiance.

Mrs. Bell announced the guidelines for today's meeting and the protocol to be followed for the committee's discussion of the ITEP matter. She reminded everyone that at the last meeting, the Board's legal counsel was requested to come up with a resolution for addressing ITEP applications. She said Mr. Rachal could not be at today's meeting, but called to report to her his conversation with Don Pierson, secretary of Louisiana Economic Development, regarding the new rules established for ITEP. She explained the Committee is only discussing a proposal and no action will be taken today. Because of the possibility of using the Chamber's matrix until we have something from the State, she asked Dr. Magner of the Greater Shreveport Chamber to attend today's meeting to explain theirs to the Committee. Also, the Committee members will first discuss this matter, then the Board members who are non-committee members will speak, followed by members of the audience who will be allowed three minutes to share their thoughts and opinions. She further announced that outbursts and talking will not be tolerated.

ESTABLISH AGENDA AS SUBMITTED

Ms. Trammel moved, seconded by Mr. Hendricks, to establish the agenda as submitted. Vote on the motion carried.

CONFIRM THE AGENDA

Ms. Trammel moved, seconded by Mr. Hendricks, to confirm the agenda as submitted. Vote on the motion carried.

PROPOSED REVISIONS TO CPSB POLICY DFAA (INDUSTRIAL TAX EXEMPTIONS)

Board Attorney Abrams explained the new rule being proposed by the State Department and that what he is sharing is posted on their website. He said the new policy states the Board can establish any and all rules it may use for tax abatements, and there is no need to modify Caddo's Policy DFAA as it stands for itself. In creating what he did, it was to put some new parts in DFAA to make it streamline with the guidelines and criteria in place that must be met so it was not necessary for the applications to come to the Board each time. He further stated that the CPSB Policy DFAA passed by the Board two months ago is a broad policy that states the School Board can establish rules in order to approve industrial tax exemptions. Mr. Abrams reported on a conversation with Mr. Rachal following Mr. Rachal's conversation with Don Pierson and what is presented to the Committee today is a copy of what is proposed and is on their website, and it includes some major revisions as to what they intend to do. One of the main things they are doing is changing the way they allow for a preliminary approval by the Board of Commerce and Industry; and at this time the rules read the District can give up to 100% tax exemption for five years and maybe an additional 3 years; and the proposed new one only allows the tax exemption up to 80% for 5 years and the company can apply for an additional 5 years, for a total of 10 years. Key is they will put 20% of whatever they will try to do into the Board's coffers right away, meaning even though it appears we are giving them a tax break so they can do something

in the future, they are actually going to start by putting 20% up front for the local taxing bodies. He explained the approval process begins with the application and all the information going to the Louisiana Board of Commerce and Industry for preliminary approval. The State then will notify the governing bodies within 3 days and these bodies will begin the 30-day process for approval or non-approval. If the company applying is a regular company, it will be 80% and if it is a mega company (over 500 new jobs to the area or in an expansion, and \$100 million investment), it can be up to a 93% abatement. Further, if the Board does not do anything within the total 60-day window, the application is considered approved and they get a 100% abatement.

Mr. Abrams further explained that the Chapter 5 Ad Valorem Tax Exemption Program provides for those who have already applied to be grandfathered in via the new process or the old process. Since this is proposed, he believes the dates will change since the rules could be months in the approval process. He also highlighted guidelines for mega projects, i.e. minimum payroll of \$20 million and \$100 million in capital improvements; and he noted that a public meeting and action on a resolution are to be done within the 30-day window, and within 60 days the Board should develop guidelines for the local process. He added the CPSB could possibly use the Chamber's matrix to determine if the company meets what is required.

Mr. Hendricks asked for clarification of the upfront 20%, and Mr. Abrams said it is not upfront, but once the company determines what they will be purchasing and paying taxes on, they will pay 20% of the total tax assessment when it is due on the items purchased. Mr. Hendricks stated he understands this but is the question relative to the other guidelines, and Mr. Abrams said that is his question because of the way it is written in the proposal. Also new is the wording "in consultation with the assessor", so it appears the assessor is part of the determination.

Mr. Green asked about the "up to 80%", and if the channels for working a compromising agreement could happen at more than 80%. Mr. Abrams said the Board will receive something from the Board of Commerce and Industry, and it may come at 50% or 60% but whatever comes to the Board will be it, and the Board will not modify it again, but only vote yes or no. In the meantime the District must address pending projects with a June 12th deadline for the Board to respond to the Calumet application and the need for a matrix to look at the applications.

Ms. Trammel asked if she is understanding correctly that we are coming up with steps to be followed; because she believes the State can forward to the District any recommendation they wish, but if we don't have steps to follow and know what to look for, how can the Board make an informed decision. Mr. Abrams responded that it is possible the Board is two years away from them sending something; but he believes the State should send the Board a proposed agreement and all the information needed. He added it states that within 60 days of the rules the local government for each parish, in consultation with the parish assessor and upon request for guidance from the Department, shall make the best effort to have reasonable guidelines for application approval, which is what is being asked. He reminded them these are not the rules yet, but only proposed, and the District needs to address this and the proposed recommendations, as well as have a matrix in place.

Dottie Bell introduced Dr. Tim Magner, Greater Shreveport Chamber of Commerce, who highlighted the elements of the matrix the Chamber uses in determining whether or not a company requesting tax exemptions meets the required criteria, and if so, to what level; and noted it should be hard for a company to get to 100%.

Mr. Hendricks asked who will monitor the required numbers on the matrix, and Dr. Magner responded he understands that is the responsibility of the LED. Mr. Green said it appears the School System is being asked to do more with less, and he believes we should be able to do more for students. Dr. Magner stressed that this effort is really a partnership between local business and the community and the State has set up this plan for providing an incentive for coming to

Shreveport and this allows the community to have a part in the conversations to bring new businesses to Shreveport, and the importance of education is in the list of things companies look at when deciding on location. He also stated that many of these companies already pay significant taxes to school districts and support districts to a specific degree, and they are trying to determine the balance for the new investments made. Mr. Abrams explained that the District will continue to get 100% of what it is already receiving before the expansion, and this is for the new equipment and requirements for the expansion which will add dollars.

Mrs. Poljak asked if she remembers correctly that the Board can say yes or no to the request since the company has already purchased the equipment, and Dr. Magner stated that in the past a notice was provided of the intent to expand, add jobs, etc. and if this incentive is available, a company will look at this incentive upfront to determine if it will pay for them to locate in Shreveport versus maybe east Texas. Also, if the School Board does not accept the State's percentage, then it will have 60 days in which to determine its recommendation. Mr. Hendricks asked how the numbers are established, and Dr. Magner responded that essentially it is a weight based on the value of the investment.

Ms. Trammel stated that her question/concern is how to save money for Caddo schools and the children, and support business. Dr. Magner said it is the perception in the community that you will not get 100% of the business if you don't support it.

Miss Green expressed appreciation to Dr. Magner for being present and presenting something; and she agrees with Ms. Trammel on how we come up with a tax exemption because she believes this is important to both sides. She said personally she would trade this out for mentorship programs. Miss Green stated if a company were to receive approval for a 100% exemption, she needs an explanation as to why because she knows those in her district will ask what is being done for the community and for the children. Dr. Magner stated that in looking at existing business, some are coming forward with requests and are some of the biggest tax payers in the parish already, already paying millions in taxes that would not be there if the company shrinks or moves. So it is an incentive for additional growth and capacity; and noted that homeowners already receive an exemption on the first \$75,000 of their home. We want businesses to grow and expand here and with that will come a ripple effect, so reality is we are competing across the country and world for these businesses and some of their decisions are made on available incentives; and we only want to demonstrate that we are doing something for business which is an important part of the negotiations with these companies. He also noted the things that local companies do to support the public schools and his belief that if what these companies do for the schools is linked to a financial consideration on behalf of the businesses, it will begin to create a gray area.

Mr. Hendricks stated that while the matrix looks good for the City Council and the Parish Commission, he believes it would look good if it reflected something it would do for the School System and it doesn't need to be anything heavy weighted. Dr. Magner said he believes this is something, with the new guidelines, that could be included as well as be a part of future conversation with a business, but he would be concerned if it were placed in the matrix with a dollar amount connected as it might create an appearance that we are not sure we want this company in the parish.

Dr. Douzart stated that being in the position of representing the community and constituents, the Board has the responsibility to produce funds for the schools the same as a business. Mrs. Locke stated the goal of this process is to create guidelines for making decisions relative to these requests for tax exemption, and she asked what the percentages are based on. Dr. Magner stated jobs are the most important thing and the more jobs, the more weight and the same is true with the company's investment and capacity.

Mrs. Bell stated the perception in the community is the Board is stopping schools from getting money, and she reminded the Committee and others that there will not be a vote on this today.

VISITORS

Chair Bell highlighted the guidelines for visitors addressing the Committee, and the following visitors shared with the Committee information, their thoughts and concerns on this issue: Lady Carlson, Interfaith; Steven Murry, LAE; Jackie Lansdale, RRU; Anita Steele, citizen; Bobby Edwards, Interfaith; Maxine Davis, citizen; Lettie Brown; and Emma Shepherd.

Margaret Brown shared her experience in working with Judge Matlock and Clay Walker in the creation many years ago of the School Away From School and the Boot Camp programs, and she believes it important to reinstate these type programs in Caddo for the out of order students as well as the 17-year olds currently housed at the Juvenile Center. She said there are needs in the District for which we need funding to provide for the students.

Adjourn. Mrs. Poljak moved, seconded by Mr. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 3:42 p.m.

May 15, 2018
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Durwood D Hendricks, John L Albritton, and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel.

President Riall called the meeting to order at approximately 4:30 p.m. and a quorum was present. Dr. Bonita Douzart, District 5, led the invocation and Pledge of Allegiance.

Consideration of Minutes of the April 17, 2018 and May 1, 2018 CPSB Meetings

Mrs. Locke moved, seconded by Ms. Trammel, to approve the minutes of the April 17, 2018 and May 1, 2018 CPSB meetings. Vote on the motion carried unanimously.

Presentations and Recognitions

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Perfect ACT Scores. The following students were recognized for scoring a perfect 36 on the ACT, bringing the total this year to six Caddo students scoring 36: Grace Sun, Srihar Chilukuri and Catherine Rutledge, all students at Caddo Parish Magnet High School.

Northwood High School Dance Line. Members of the Northwood High School Falcon Dance Line were recognized for completing a 9-month goal of raising \$50,000 to travel to Hawaii in March to compete in a dance line competition.

C. E. Byrd Golf Division 1 State Champions. Members of the C.E. Byrd Golf Team were recognized for winning the 2018 State Division 1 Boys Golf Championship. Team members competing were Charlie Flynn, Payne Johnson, Jake Marler, Luke Atchison and Marshall LaBorde.

2018 Amazing Shake Winners. The following students were recognized as Caddo's 2018 Amazing Shake Winners: Omaria Sparks, Queensborough Elementary; Rilen Guice, Westwood Elementary; and Eden Holmes, Woodlawn Leadership Academy. These students will represent Caddo at the National Amazing Shake Competition in Atlanta in February.

Northwood Students Graduate with High School Diplomas and Associate Degrees. The following Northwood High School graduates were recognized for not only receiving their high school diplomas, but associate degrees as well from Bossier Parish Community College: (1) Mackenzie Mitchell, Certificate of General Studies, 3.49 GPA; and (2) Christopher Gardner, Associate Degree in General Studies and Certificate of General Studies, 3.83 GPA.

National Art Education Association - 2018 Louisiana Art Educator of the Year. Junelyn Brown, art teacher at Turner Elementary for Pre-K through 2nd grade, was recognized as the 2018 Louisiana Art Educator of the Year.

National Institute for School Leadership - Cohort 2 Executive Development Program. The following staff members were recognized for graduating from the second cohort of the National Institute for School Leadership Executive Development Program. Certified School Leader and Certified Facilitator graduates are Leisa Woolfolk, Brenda McDonald and Angela Henry. Certified School Leader graduates are Brandy Holcomb, Marjorie Manuel, Julia Smith-O'neal, Dr. Bridgette Brown, Dr. Matthew Mitchell, Robin DeBusk, Annie Cherry, Greg Panos, Christopher Jackson, Dr. Darrell Webb, Dr. Cindy Frazier, Alton Dozier, Renata Mahoney, Robin Jackson, Billy Williams, Shalonda Smith, Dr. Kim Pendleton and Lynette Hampton.

Caddo Parish School Board Member Certification of Required Hours. The following School Board members were recognized for earning and exceeding the required 6 hours of continued training in 2017: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Larry Ramsey (deceased), John Albritton and Dottie Bell.

Minecraft University and Woodlawn Leadership Academy. Laura Alderman (Step Forward) and Keith Hanson (Twin Engine Labs) made a special presentation to Laquiton McKinley, one of five Minecraft University students from Woodlawn Leadership Academy.

Newly Appointed Administrators. Charles Lowder, director of certified personnel recognized the following newly appointed administrators: (1) Phyllisia Mason-Hollins, Field Instructor/New Teacher Coaching Specialist in Professional Development; and (2) Christina P. Gremillion, Instructional Technology Supervisor in Professional Development.

VISITORS

The following visitors addressed the Board on matters of interest and/or concern: Emma Shepard, Dawn Jordan, Stanley Burke, Jon Glover, Jackie Lansdale and Judith Tipton.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration. President Riall announced that the Consent Agenda is Items 6.01-6.03, 7.01-7.02, 8.01-8.04, 8.06-8.08, 13.01-13.02.

Ms. Trammel moved, seconded by Denee' Locke, to approve the agenda and proposed consent agenda for the May 15, 2018 meeting as presented. Vote on the motion carried with Board member Hendricks absent for the vote.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Locke, to confirm the consent agenda (Items 6.01-6.03, 7.01-7.02, 8.01-8.04, 8.06-8.08 and 13.01-13.02). Vote on the motion carried with Board member Hendricks absent for the vote. The following is a summary of the Board's action on the consent agenda items.

6.01 Personnel Recommendations. The Board approved personnel recommendations as recommended by the superintendent and submitted in the electronic mailout.

6.02 Personnel Transactions Reports (Resignations). The Board approved the personnel transactions reports (resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Leave Requests. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

7.01 Capital Projects. The Board approved the following bids as recommended by staff and submitted on the bid tabulation sheets in the electronic mailout: (1) Abatement Services, Inc., with a Base Bid, for the sum total of \$6,545.00 for Project 2019-201 E1, "Youree Drive Asbestos Abatement Removal"; (2) Andrews Flooring, with a Base Bid, for the sum total of \$8,991.00 for Project 2019-201 E2, "Youree Drive Asbestos Abatement Floor Tile Replacement"; (3) Abatement Services, with a Base Bid and Alternate 1, for the sum total of \$8,794.00 for Project 2019-201 B1, "Broadmoor Library Asbestos Abatement Removal"; (4) Andrews Flooring, with a Base Bid and Alternate 1, for the sum total of \$16,382.00 for Project 2019-201 B2, "Broadmoor Library Asbestos Abatement Floor Tile Replacement"; (5) Abatement Services with a Base Bid, for the sum total of \$7,458.00 for Project 2019-201 C1, "Caddo Magnet High Asbestos Abatement Removal"; (6) Andrews Flooring, with a Base Bid, for the sum total of \$13,991.00 for Project 2019-201 C2, "Caddo Magnet High Asbestos Abatement Floor Tile Replacement"; (7) Gill Industries with a Base Bid, for the sum total of \$5,937.00 for Project 2019-201 D1, "Eden Gardens Asbestos Abatement Removal"; (8) Andrews Flooring, with a Base Bid, for the sum total of \$7,991.00 for Project 2019-201 D2, "Eden Gardens Asbestos Abatement Floor Tile Replacement"; and (9) Benton & Brown, with a Base Bid and Alternate 1, for the sum total of \$456,000 for Project 2019-217, "North Caddo High Paving Student Parking Lot". *The bid tabulation sheets are filed in the official papers of the May 15, 2018 meeting.*

7.02 Purchasing. The Board approved the following bid as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Dahmer Powertrain Inc. for the purchase of Bus Engines, Bid 17B-18. *The bid tabulation sheet is filed in the official papers of the May 15, 2018 meeting.*

8.01 Property/Bus Rental Requests. The Board approved property and bus rental requests recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Approval of Sales and Use Tax Commission 2018-19 Budgets. The Board approved the 2018-19 Sales and Use Tax Commission Budgets as submitted in the electronic mailout.

8.04 Adopt the 2018 Millage Rates. The Board approved the following resolution as submitted in the electronic mailout for adoption of the 2018 millage rates.

Be It Resolved, that the following millage(s) are hereby levied on the 2018 tax roll on all property subject to taxation by Caddo Parish School Board:

MILLAGE

Constitutional Tax	7.70 mills
Operations and Maintenance	16.77 mills
Operation & Maintenance Support Tax	11.04 mills
Technology Tax	1.25 mills
Salaries & Benefits Tax	20.18 mills
Building & Equipment Tax	6.73 mills
Renovation Tax	5.15 mills
Bond & Interest Tax	5.00 mills

Be IT FURTHER RESOLVED that the proper administrative officials of the Parish of Caddo, State of Louisiana, be and they are hereby empowered, authorized, and directed to spread said taxes, as hereinabove set forth, upon the assessment roll of said Parish for the year 2018, and to make the collection of the taxes imposed for and on behalf of the taxing authority, according to law, and that the taxes herein levied shall become a premium lien and privilege on all property subject to taxation as herein set forth, and collection thereof shall be enforceable in the manner provided by law.

8.06 Consideration of 2017-18 Child Nutrition Budget Revision. The Board approved the revised 2017-18 Child Nutrition Budget as recommended by staff and submitted in the electronic mailout.

8.07 Proposed Permanent Utility Servitude and Proposed Temporary Construction Servitude at JS Clark. The Board approved granting the permanent utility servitude and temporary construction servitude at JS Clark as recommended by staff and submitted in the electronic mailout.

8.08 Consideration of Recommendation to Amend the Agreement for Transportation-AMIKids Charter. The Board approved the recommended amendment to the agreement for transportation for the AMIKids charter as submitted by staff in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved the readmission of Student JD as recommended by staff and whose parents are in agreement.

13.02 Approval of Settlement of Willie Jones Worker's Comp Case, Claim #4676043. The Board approved authorization of settlement as recommended and submitted in the electronic mailout.

CONSIDERATION OF PROPOSAL FOR CAREDOX IMMUNIZATIONS/VACCINATIONS PROGRAM FOR ALL CADDO SCHOOLS BEGINNING 2018-19SY

Mrs. Locke moved, seconded by Mrs. Poljak, to approve the proposal for CareDOX Immunizations/Vaccinations Program for all Caddo Schools beginning with the 2018-19 school year as submitted in the electronic mailout.

Dr. Douzart asked for clarification on how this will be implemented. Dr. Goree explained CareDOX is a company that works with school districts across the country and they actually come into the district and provide immunizations for the students. He explained this is a service the health units do not provide, and CareDOX actually provides it on site. He also stated they provide the appropriate permission slips that must be provided by the student's family, and staff sees this as an opportunity for services such as flu shots where students do not have to travel to a location for it, but they can receive it at their school site.

Vote on the motion carried.

AUTHORIZATION FOR BOARD PRESIDENT TO SEND CORRESPONDENCE TO THE SECRETARY OF LOUISIANA ECONOMIC DEVELOPMENT IN SUPPORT OF THE PROPOSED ITEP RULE CHANGES

Mrs. Poljak moved, seconded by Mrs. Locke, to authorize the Board President to send correspondence to the Secretary of Louisiana Economic Development in support of ITEP rule changes.

Mr. Abrams reported that he spoke with Don Pierson, Secretary of LED, who asked the affected bodies to send a letter of support of rule changes. Mr. Abrams said the new rules are better than those currently in place, and Mr. Pierson is attempting to get them implemented as quickly as possible. He said he believes there will be some additional changes, but the main issue in the new process is the minimum 20% of taxes going directly on the rolls and there will no longer be 100% exemptions. The process will be more streamlined and there will be a provisional approval by the LED and the Board of Commerce and Industry with some idea that companies have met the requirements before it comes to the local districts. Once the districts receive it, they have 30 days to place it on the agenda and vote to support it or not.

Mrs. Bell asked Mr. Abrams to clarify "new rules", and Mr. Abrams explained the State has proposed new rules, and they were submitted on April 25th. At its meeting today, the Finance Committee agreed on this as interim until the new rules are implemented. He further clarified that all the Board is saying in response to Mr. Pierson's request is that it supports change and we believe these are better than what is in place. Dr. Goree asked if the State has said when it will vote on the new rules because the Committee charged staff with taking the information we have and coming up with an interim plan. Mr. Abrams stated he believes Mr. Pierson is wanting something by May 25th. Ms. Trammel asked for clarification if the Board does not agree with the additional changes, and Mr. Abrams clarified the District would receive changes from the State even if the District does not agree with them. Ms. Trammel stated that the Insurance and Finance Committee has requested that staff and a committee look at and bring back to the Committee a proposed matrix for the School Board to base its decisions on; and before staff spends an enormous amount of time doing this, and if the state is going to send something to the District, she question why are we locally going through this process. Mr. Abrams explained there is a pending application expiring Jun 12 and there is nothing currently in place.

The new rules state there will be a provisional approval by the Board of Commerce and Industry but the new rules are not in effect at this time, so we are still operating under the old rules and do not have anything, i.e. matrix, for addressing the requests. He further stated the information in the handout was discussed in the Insurance and Finance Committee meeting, and the only reason this is on the agenda today is because Don Pierson asked if Caddo would send a letter of support for new rules.

Mrs. Poljak asked if, even with the new rules, the Board will have to evaluate whether or not it agrees with what the Board of Commerce and Industry states the company is entitled to. She added she believes the Board can still use the proposed matrix to evaluate whether or not we support the request, and whatever the Board decides, it can still use it in the future to guide decisions under the new rules. Mrs. Brown asked why this was removed from the Consent Agenda, and the Superintendent clarified it was not on Consent. Mrs. Brown stated she believes this item should be left alone until the Board receives directive from the State. She asked why this has to be addressed at all. Mr. Abrams explained that the rules are changing, and if the Secretary of Economic Development does not get the support for rule changes, we will be stuck with the old rules and the old process. Mrs. Brown said she believes we continue to waste time on the same old thing, and again she questions why we can't wait until the State sends something to the District. Mr. Green also shared his confusion and if voting he would encourage the Board to vote this down.

Mr. Rachal questioned if the Board knows what rules it is sending a letter of support for? Miss Green asked Mr. Abrams to explain to the Board the current rules, because she believes everyone needs to know the current rules and what adjustments are being proposed. Mr. Abrams stated they are attached as backup on the agenda, and begin at Section 5.01. He clarified the old rules required the manufacturers to send a \$250 check saying they would be doing economic development, expansion, and begin the process. At a certain point the company has to come back and submit its application; and once this is done, there is a 120-day window in which it must be voted on by all the governmental entities that may exempt the taxes. Each organization says yes or no, what percentage, what they expect out of their resolution, prepares a resolution and returns it to the Louisiana Department of Economic Development in accordance with the old rules, because the new rules do not require any of this to be done.

Mr. Riall announced he is pulling this item, and Mr. Abrams explained that the person making the motion must agree to pull it and the second agree as well. *Mrs. Bell moved, seconded by Miss Green, to pull this agenda item.* Miss Green said she agrees with pulling this item. Mr. Albritton stated he believes the State is attempting to improve this process, and he thinks we should move forward and get the process improved so the District can proceed with what it tried to do this afternoon in the Finance Committee meeting, and that is under the ability to control the tax exemptions in Caddo Parish for the School System, put together some rules. While there are some things he does not like about it, he understands this is not a final document and we will still have the ability to vote it down. Knowing where he stands with tax exemptions for schools, Mr. Albritton suggested we support what we have with the goal of improving the State process that gives the local District the authority to adjust it and give the District the best local benefit.

Mrs. Poljak and Mrs. Locke stated their agreement with Mr. Albritton's comments. Mr. Rachal stated his support for pulling this item and that in looking at the information, he is concerned about voting on something we may not agree with based on information in the report and the importance for the Board to follow due diligence and complete what was done at the Finance Committee meeting today. Mrs. Bell asked Mr. Abrams to restate what he said the Board will be supporting. Mr. Abrams said when the Finance Committee met

two weeks ago, it went over every rule and everyone was in support of the rule changes from the state. He further stated the letter is written to say we support the proposed rules because at that time it appeared the Committee was in support of the proposed rule changes. Mrs. Bell agreed; but she continues to get questions as to what the State Department is doing and she believes we should make the State aware that we are working on changes for Caddo, and make sure the State Department of Economic Development understands we are not just supporting whatever they say. Mr. Abrams explained the meeting today was to address how we would deal with the current ITEP rules, and this letter is optional and is the Board's decision. Mr. Abrams asked if the letter wording was changed to say "The Caddo Parish School Board hereby supports rule changes to the ITEP approval process to make them more streamlined", which doesn't say the Board agrees with these rules, but agrees with changing them.

Mrs. Bell asked that her motion to pull this item be pulled, and Miss Green agreed. After discussion, it was agreed the letter sent to the Secretary of Economic Development would say *The Caddo Parish School Board hereby supports rule changes to the ITEP approval process.*

Mrs. Brown moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried. Vote on the main motion with the corrected wording for the letter carried.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mrs. Poljak noted the new copy of "Seedlings" at Board member stations and her daughter's writing on page 13.

Miss Green expressed her appreciation to staff and the high schools for outstanding graduations. Dr. Goree added his appreciation to the Board for their presence and participation at the graduations.

Mrs. Bell echoed the comments about the outstanding graduations, especially the Caddo Virtual Academy graduation, and congratulated all of the 2018 graduates.

Adjournment. *Mrs. Locke moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at 6:29 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

May 15, 2018

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met in regular session on Tuesday May 15, 2018 at approximately 3:00 p.m. in the Room 1, 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following committee members present constituting a quorum: Susannah Poljak, Mary Trammel, Durwood Hendricks and Raymond Green. Also present were Steve Riall, Jasmine Green, Dr. Bonita Douzart, Barry Rachal, Denee' Locke and John Albritton. Superintendent Goree, Attorney Abrams, and staff members Jim Lee, James Woolfolk, Mary Wood, Diane Atkins and Roy Murry also were in attendance. Mr. Riall led the prayer and Pledge of Allegiance.

Establish the Agenda. *Ms. Trammel moved, seconded by Mr. Green, to establish the agenda as presented. Vote on the motion carried.*

Confirm the Agenda. *Ms. Trammel moved to confirm the agenda. The motion was seconded by Mrs. Poljak. Vote on the motion carried.*

Proposed Revisions to CPSB Policy DFAA (Industrial Tax Exemption). Mrs. Bell announced the purpose for today's meeting is to hear from the Interfaith group on their proposed matrix for use when considering companies' requests for tax exemptions.

Rev. Theron Jackson shared with the Committee five things that to him really matter when reviewing the applications for tax exemption and noted that the Industrial Tax Exemption is designed to be an incentive program for attracting new jobs to the area. He stated he believes it difficult for a taxing body like the School Board to justify granting these exemptions when looking at the many needs in the schools; but when doing so, they believe it is important to look at the following to determine if a company's request meets the guidelines for exemption.

- (1) imminent closure and how it affects the district and community
- (2) growth (new jobs) in Caddo Parish
- (3) return on investment
- (4) prohibit after-the-fact exemptions
- (5) restriction on short-life property
- (6) eligible amount should be limited to the net increase in property value, and
- (7) accountability measure should include an automatic cancellation provision if conditions are not met.

Rev. Jackson stated he is pro-business and only wants us to be responsible when talking about giving away money. He also reminded everyone that new rules are coming from Baton Rouge; and when they come, they will give the taxing bodies the ability to vote these requests up or down. He believes the CPSB and Insurance and Finance Committee need to focus on the children and the best way and the parameters it will use to determine and make the best decision. He encouraged the Board to wait until the new rules are received, and Mr. Abrams explained there are applications pending, and they will fall under the old rules since the new rules are not in place and June 12th is the deadline for the 120-day window in which a decision must be made. Lady Carlson stated her understanding that companies under the Executive Order have the option to apply under the new rules coming forth, and if they do, the Board does not have to vote on this by June 12th.

Susannah Poljak asked for clarification and if the guidelines presented are saying, for example, exemption should only be granted if there is a risk for imminent closure. Rev. Jackson explained if a company is facing imminent closure, ITEP could be used as an incentive to retain the jobs rather than risk losing them. Mrs. Poljak also questioned the legality of telling someone they would not be hired unless they lived in Caddo Parish. Rev. Jackson said it is an incentive and not law because the School Board is responsible for the money that comes to it. She also said

Caddo realizes a portion of taxes paid from these companies. Rev. Jackson stated that because this is an incentive for exemption for property taxes, he doesn't believe that is the determining factor for a business to locate in Caddo. Mrs. Poljak stated her understanding from Interfaith that they do not want Caddo to approve any exemptions but to keep all of the funds; and relative to the business perspective of Inferno's application, she said it was not that Inferno wasn't paying property taxes, but it was the property taxes on the piece of equipment they were purchasing. Regarding accountability measures, she asked if she understands that is the State's responsibility. Rev. Jackson noted that many over the past 6 months have been misinformed because the spirit of the Board of Commerce and Industry and the new rules is they need to and want to listen to the local governing bodies; and while the final word may be from the Governor, they are seeking the voice of those elected to speak for their communities.

Ms. Trammel stated she has asked for something in writing to outline everything, and she believes we can use some of what has been presented, and she understands we need to make sure that creating jobs is a part of what the company would do, and Mr. Abrams clarified new jobs as well as retaining jobs. She asked how the retention rate is known, and Mr. Abrams stated it is included in the new rules. In revamping of the procedures, parameters are included as well for the reviewing as the 120-day process begins, and the ability and opportunity for the local School Board to opt in or out.

Mr. Abrams asked if, on the imminent closure provision, a company comes in and says they will close, are we saying their current taxes are exempt (what they are currently paying), because no one has asked for exemption of their current taxes. Rev. Jackson asked for clarity and if this is something that had never before been asked and never been an application in arrears. Mr. Rachal noted in the material received the application process states construction must begin first and the application must be submitted within 90 days of the project completion, which means it could be almost 2 years. Rev. Jackson responded the idea is not just about expansion, but expansion to hire additional people. He added the kind of jobs also makes a difference.

Mr. Albritton asked what is meant when saying a company should "create jobs". Rev. Jackson said temporary jobs, i.e. construction, should not count in the jobs created and this should be listed in the criteria. Ms. Trammel asked if it o.k. to say the company must maintain the jobs for a minimum of three to five years. Rev. Jackson explained that in the past rules were not necessarily the responsibility of the local governing bodies, but the Commerce and Industry rules stated what exemptions were legitimate, and the weighing in from the local taxing body was simply yes or no, not to create a policy per se but only create an internal policy to use in deciding if it meets the local district's parameters for eligibility.

Mrs. Locke noted her agreement with Ms. Trammel for simplification in creating a guide for the Board to follow. She asked if the percentages are an opinion or are they what the State determined to be fair. Rev. Jackson stated based on what the State is currently doing, and what others are doing, these percentages were used as fair options.

Mr. Riall asked if he understands correctly that what the Board votes on or whatever policy is developed, it is only an opinion of the District and basically has no power, even if it is passed on to the State. He also asked about the information shared by Mr. Rachal in the process and if the State encourages them to begin construction prior to applying for the exemption, and Rev. Jackson agreed that is their incentive and we don't want any impediments to creating jobs but only to make sure jobs are created. Mr. Rachal shared a report from the Louisiana Economic Development in which he believes they were very transparent in the report on themselves. He said he talked with the Director of the LED and new rules have not been, but will be, implemented and going to an 80/20, opt-in/opt-out direction. He said we may need to be proactive and adopt what the State is doing and further explained that anyone going to the LED will get a provisional approval which only means they have been vetted with the State.

Rev. Jackson stated that Don Pierson is appointed by the Governor to look out for economic development in the State, the same as the Caddo Parish School Board members are elected to take care of educating the children in Caddo Parish. And, it is not one or the other because both are important, and he believes the best laid plans of economic development will come unraveled by a poor and poorly funded education system.

Mrs. Bell stated the Committee has seen two different matrix, and she asked Dr. Goree and his staff along with Susannah Poljak, Durwood Hendricks, Barry Rachal, and Raymond Green to come together using suggestions from both matrix and bring back a matrix that works best for Caddo. Mr. Green noted the organizations present and encouraged representation from those groups. Mrs. Bell stated if additional members outside the Committee and Board are added, there would need to be a vote to do so, and she believes that everyone has come together on this matter.

Ms. Trammel moved, seconded by Mrs. Poljak, to approve the proposed recommendation. Vote on the motion carried with Mr. Green opposed. She also announced that the Board President will serve as ex-officio.

Visitors. The following addressed the Board on their concerns and interest in this matter: Stephen Murray and Dr. Tim Magner.

Adjourn. *Ms. Trammel moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:05 p.m.*

May 29, 2018

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 29, 2018, at approximately 9:00 a.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Steve Riall presiding and the following board members present constituting a quorum: Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Durwood Hendricks, Jr.; John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

2018-19 CONSOLIDATED ANNUAL BUDGET

Superintendent Goree commended Jim Lee and the staff for the work done to bring to the Board a balanced budget. He noted that the Strategic Plan requires staff to go into more detail in meeting the goals and objectives, and this is what staff has done to present a balanced budget that contains no significant cuts to the classroom, maintains the pay increase approved by the Board last year as well as no increase to health care costs; and achieves equity through TAP, Tier 1 and Teacher Payout.

Jim Lee, chief financial officer, highlighted the budget timelines for approval hopefully at the June 19, 2018 Board meeting, and reported the proposed General Fund budget reflects an estimated \$398,600,000 in revenue and \$398,531,460 in expenditures, with \$68,540 in excess of revenue over expenditures. He stated that to get this number there were reductions in supplies, travel and other operating expenses; however, no change in the classroom staffing formula. Mr. Lee added that one of the areas staff continues to have difficulty in is finding ample SPED teachers, and Dr. Goree explained that 1/3 of the work with DMG is what we are doing and/or should be doing to fill these positions.

Mr. Lee reminded the Board that the three major sources of revenue for the District are (1) ad valorem/property taxes, (2) sales taxes, and (3) MFP; and he reported there is no growth projected in the ad valorem/property taxes for next year, there is an approximate \$900,000 increase in sales taxes from this time last year, and there is no growth factored into the MFP revenue. Mr. Lee reported that budgeted expenditures include staffing based on the staffing formula, \$200 for supplies for each teacher, leasing 10 new buses, STEM pilot textbooks, assessment software and district authorized charter schools. Mr. Lee highlighted the 2016-17 actual budget, estimated 2017-18 budget, the projected final 2017-18 budget and the proposed 2018-19 budget, as well as the Special Revenue Funds (Title I, Child Nutrition, IDEA (Special Ed), Believe and Succeed, and Title II), and estimated budgeted expenditures for each.

Following Mr. Lee's presentation, the following discussion ensued.

Dottie Bell inquired about the 60 SPED positions that represent approximately \$4.5 million of the budget, if the students enrolled in the alternative programs are still on Caddo's rosters and how much we get per student, and the need for a new music supervisor. Dr. Goree explained how staff has handled the music supervisor's duties and responsibilities by dividing them among three itinerant teachers; and that if it is the Board's desire to fill this position, it means something will need to be cut from the budget to cover that cost which would be approximately \$80,000 to \$90,000. Mr. Burton added that staff has revisited this need, the recent public performances, the positive feedback from the professional development provided, and the work of the itinerant music teachers in meeting the needs of the students with changes in the schedules providing more efficient use of their time with the students. Mrs. Bell also asked about the Driver's Ed program; and Dr. Goree said the Board proposed discontinuing it, but reversed that decision before finalization, and Mr. Lee stated cars are leased for this program.

Mrs. Poljak inquired about the SPED vacancies and the differences noted in the budget and Mr. Lee explained that the SPED vacancies were never not funded, but only a percentage of the vacancies will be filled and a portion of the unused amount has been used to reduce the budget. She also asked about the decrease in Other Sources of Funds and Mr. Lee added that a one-time \$5 million transfer was done last year from the insurance reserve to support the 5% pay raise.

Mr. Albritton stated while he appreciates the work in presenting a balanced budget, the amount of revenue over expenditures is minimal; and he stressed the importance of the District maintaining its \$20 million surplus. He also asked about the increase in the General Admin and Mr. Lee explained this reflects this year's election expenses as well as an increase in workers' compensation claims being settled. He also noted a reduction in the transportation costs.

Mrs. Locke asked for clarification on the 60 SPED teacher shortage and where the \$4.5 million in the budget for these vacancies goes if they are not filled. Dr. Goree explained that part of their work with DMG is looking at how we create more revenue for equity issues and the importance of looking at this district-wide matter in totality when using any funds saved due to vacancies in SPED and other areas to help balance the budget. She asked if the District receives a percentage for handling the charter schools, and Mr. Lee responded the District withholds a 2% administrative fee which is included in the "Other Revenues" line of the financial statements. In responding to Mrs. Locke's question regarding Linwood, staff explained Linwood is different in that the state took it and the money goes directly to Linwood. Because the building still belongs to Caddo, we bill Linwood for repairs and maintenance of the building, insurance and security; however, Caddo is responsible for capital repairs. Dr. Goree also noted how Linwood Charter is growing as a result of the marketing efforts they put into place making them more attractive.

Mr. Hendricks asked about the life span of the buses and are we keeping up by only retiring/replacing 10 buses each year? Mr. Lee explained that regardless of age, a bus cannot be used once it reaches 25 years of age; and while 10 are being replaced each year, it is possible that within the next 10-15 years, the District will need to look at financing the replacement of buses.

Ms. Trammel inquired about the impact of early retirements on the budget and Mr. Lee responded the District has approximately 150-200 certified and 50-100 classified employees to retire each year. Dr. Goree added with the 5% increase last year, he believes some are deciding to work longer since the increase affects their retirement benefit. Also regarding the need for certified teachers in SPED, Dr. Goree responded Caddo is looking at various national models to improve Special Ed efficiencies, which is also a concentration of DMG. Ms. Trammel also asked about the \$17.6 million the District is paying to charter schools. Mr. Lee explained that several districts filed a lawsuit contesting the method of funding of charter schools; however, the lawsuit was turned down at the State Supreme Court and continues to be a difficult situation.

Mr. Riall asked Mr. Lee how much money is allocated in vacant funded positions and Mr. Lee responded that while he doesn't have that number, he will provide the information to the Board. Mr. Riall asked if these funds can be used elsewhere, and Mr. Lee said this has been done to balance the budget.

Mrs. Bell asked about the need to address additional security and she believes there needs to be four at Huntington. Mrs. Bell also asked staff to explain DMG, and Dr. Goree stated that this is District Management Group and it is a national organization that works with school districts on efficiency in many areas, i.e. fiscal budget, HR management, SPED management and this is being funded through the State. He explained that in talking about adding things to the budget, DMG assists districts in looking at how needs can be addressed without increasing the budget. Mrs. Bell asked how SPED students' needs are addressed with the shortage of teachers in this area, i.e. will autistic students be placed into the regular classroom? The superintendent responded they are looking at a model whereby a student's specific needs will be met, and we

will do so while still being fiscally responsible. He added staff is also looking at how we train all teachers to address some of these special needs in a student's adapting to the regular classroom.

Ms. Trammel asked if in using off-duty police officers, are we making sure they are not coming to work on a campus after working their regular shift. Roy Murry explained if they work an evening shift, for example, the officer would not come in until after 1:00.

Mr. Green asked how we address day by day subs, especially those who work extended days. Mr. Lee said once a sub teacher works 10 days, their daily pay increases from \$75 to \$100.

Dr. Douzart complimented Caddo Parish Schools on its safety measures in place because compared to districts in other parts of the country, Caddo has done remarkably well in preparing for various situations. Dr. Goree commended Mr. Murry and his team for what they do in preparing everyone to do what is necessary to keep all our students and employees safe.

Mr. Riall asked if the State receives federal funds which are passed on to the districts? Mr. Lee explained there are Federal funds which are earmarked and are passed on to the districts; however, many of the state revenues are locally generated through taxes, offshore revenues, etc. Mr. Riall also asked if there are Federal dollars in the MFP, and staff explained that MFP is part of the state's general fund budget.

Regarding Capital Projects funds, Mr. Lee explained that the District currently has only the parishwide capital projects fund as all bond funds have been spent. He said Capital Projects receives a majority of its funding from two property tax millages that renewed for 10 years each in 2013 and 2016. The budgeted expenditures for 2018-19 total \$20 million and this is based on requests from principals, ADA and critical capital repair needs. Mr. Lee also explained that the Debt Service Fund is used to pay Caddo's General Obligation Bonds and is funded by a specific 5.0 mill property tax, with the millage being based on the principal and interest payments due each year. Budgeted expenditures in this fund total \$8.3 million, and the district currently has \$65 million in outstanding general obligation bonds, down from \$72 million last year.

Mrs. Locke asked staff to explain the difference between General Administration, School Administration and Business Services. Mr. Lee explained that General Administration includes salaries, benefits and other expenses for the Board members, the Superintendent and his staff (which includes Division Chiefs), and other expenses such as insurance, elections, etc. The School Administration item includes the salaries, benefits and other expenses for principals, assistant principals and the school clerical staff (does not include counselors). Business Services includes the salaries, benefits and other expenses for the departments reporting to the Chief Financial Officer (Finance, Accounting/Accounts Payable, Payroll, Purchasing, Insurance and Risk Management). She also asked about Title II funds, and staff explained these funds are received for professional development purposes, while Title I funds are used to serve economically disadvantaged students.

Mr. Green commended the superintendent and his staff for always presenting a balanced budget.

Mr. Riall asked the Board if they desired to have a second work session scheduled for June 4th, and the decision was made there was no need and President Riall announced the scheduled June 4th session is cancelled. Mr. Lee did reaffirm that staff will provide responses to the questions asked today and he is available to answer any questions Board members may have prior to the Board meeting on the 19th.

There being no additional discussion, *Ms. Trammel moved, seconded by Mrs. Bell, to adjourn the budget work session.* Vote on the motion to adjourn carried and the meeting adjourned at approximately 10:30 a.m.

May 29, 2018

The **Caddo Parish School Board (CPSB) Insurance and Finance Committee** met in regular session on Tuesday, May 29, 2018 at approximately 11:00 a.m. in the boardroom, 1961 Midway, Shreveport, Louisiana with Chair Dottie Bell presiding and the following committee members present constituting a quorum: Susannah Poljak, Mary Trammel, Durwood Hendricks and Raymond Green. Also present were Steve Riall, Jasmine Green, Margaret Brown, Dr. Bonita Douzart, and Denee' Locke. Superintendent Goree, Attorney Abrams, and staff members Jim Lee, James Woolfolk, Mary Wood, and Roy Murry also were in attendance.

ESTABLISH AGENDA AS SUBMITTED

Ms. Trammel moved, seconded by Mrs. Poljak, to establish the agenda as submitted. Vote on the motion carried.

CONFIRM THE AGENDA

Ms. Trammel moved, seconded by Mr. Green, to confirm the agenda as submitted. Vote on the motion carried.

PROPOSED REVISIONS TO CPSB POLICY DFAA (INDUSTRIAL TAX EXEMPTIONS)

Mrs. Bell announced that at the last committee meeting, staff was charged with developing a matrix that would best meet the needs of Caddo Parish Public Schools when considering requests for industrial tax exemptions. Mr. Lee shared with the Board that he took the input received from the Greater Shreveport Chamber of Commerce and Interfaith to look at developing a matrix that could be used to look at requests for tax exemption, one that would be consistent with every application/request received, would take the heat off the Board in determining if a company qualifies for exemption, and be able to make a decision that is in the best interest of the students we serve. He shared with the committee how he arrived at the percentages that could be granted the first 5 years (with the maximum exemption being 80%), a possible decreased percentage to 50% if approved for years 6-10, and an emphasis on job creation and how many jobs. He stated that with the committee's and Board's approval, staff would take every application for exemption received and determine their eligibility based on the information the company provides and how it falls on the matrix presented and approved by the Board. If the company meets the qualifications, staff would then bring it to the Board for approval. Staff also clarified that this proposal/method is based on what we think the new rules will be and provides Caddo a guideline during the interim.

Ms. Trammel asked for clarification on how this will now be incorporated as part of the CPSB Policy DFAA. Attorney Abrams explained the Board would need to approve aligning the ITEP matrix with CPSB Policy DFAA and making it a part of the current policy. He further stated the question then becomes whether or not the Board authorizes staff, based on the matrix, to execute it or if the Board wishes all to come to it. Mr. Lee asked about options if these were not brought to the Board, and Mr. Abrams stated that the policy would have to state how the Board wishes to address – (1) staff uses the matrix to address the request and submits it to the Board and the Board would vote; or (2) the Superintendent can be authorized to utilize the matrix and grant the exemption based on the eligibility based on the matrix. He reminded them that this is only based on the current rules as they will change. Now that we have our own guidelines, Ms. Trammel asked, as these requests are received, what will happen if the Legislative body changes everything, and Mr. Abrams confirmed that what the Board is putting in place now as guidelines is an interim process to be able to address these requests; and once changes are made, Caddo will need to modify its guidelines/policy.

Mrs. Poljak asked if she understands correctly that this is based on what we believe the new rules will be, and staff responded that is correct and that hopefully the changes will only be minor.

Mrs. Locke asked if the requirement of no new jobs created means no exemption is granted was also included in the matrix from the Chamber and Interfaith. Mr. Lee said it was with Interfaith, but the Chamber's includes a small exemption based on capital investment, and/or plant expansion. Mrs. Locke asked if the spread sheet when filled out will indicate no new jobs created. Mr. Lee said he will determine from the application.

Dr. Douzart reiterated Ms. Trammel's comments that this will be put into a policy, and Mr. Lee confirmed. Ms. Trammel asked what will happen if they say new jobs will be created yet at a point, there have not been any new jobs created. Mr. Lee explained there will be a provision in the agreement to address that.

Mr. Abrams also clarified that both Interfaith and the Chamber did include a percentage for maintaining jobs; however, the one proposed by Mr. Lee does not include a percentage for this other than the stipulation of imminent closure. Mr. Lee also stated that the applications received thus far do not say anything about maintaining jobs. Ms. Trammel asked if it is necessary to include something relative to maintaining jobs, and Mr. Lee responded that is strictly the Committee/Board's decision.

Following discussion, *Ms. Trammel moved, seconded by Mr. Hendricks, to recommend to the Caddo Parish School Board that the ITEP matrix presented be utilized with CPSB Policy DFAA and that the policy is revised to include the ITEP matrix for determining a company's qualification as well as the other necessary changes requested by Committee and presented to the Board for approval on June 5th at a special called meeting. Vote on the motion carried.*

Adjourn. *Ms. Trammel moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 11:30 a.m.*

Tuesday, June 5, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F Rachal. Also present were Board members Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Durwood Hendricks, and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the meeting to order at approximately 4:57 p.m. with a quorum present.

Establish Agenda for the June 19, 2018 CPSB Meeting

Superintendent Lamar Goree highlighted items for the Board's consideration at its meeting on June 19, 2018 and the following discussion ensued.

Consideration of SWEPCO Easement at Green Oaks, Lee Hedges and North Caddo. Jasmine Green asked staff to explain further, and Steve White stated that the existing transmission crosses the Green Oaks property and the original easement did not explain the width and length, this easement does and SWEPCO is actually paying us to access the property to change the wooden poles to metal poles. Mr. Rachal also asked for explanation on the easement request at Captain Shreve (Lee Hedges Stadium). Mr. White explained this addresses replacing the lighting at the stadium and the box with switch gears located in the Northeast section of the stadium property. Mr. Rachal also asked for clarification on lines being above or underground as the facility also includes a track and location for javelin throws, and Mr. White clarified where the lines would be located under the ground.

Consideration of Request to Solicit Bids for Realtor Brokerage Service for the Sale of MJ Moore. Jasmine Green asked staff if this has been before the Board previously and if someone has expressed an interest in this property. Dr. Goree explained that this property has not been before the Board; however, staff has received numerous calls about MJ Moore and it is staff's recommendation that we go out for bids for realtor services and move forward on the sale of this building.

Consideration of Attendance Zone Change for University, Forest Hill and Southern Hills. Denee' Locke asked for further explanation on this request, and James Woolfolk explained that in January of 2012 a request was made and approved by the Board to change the attendance zone for Youree Drive Middle School and Captain Shreve High School. At that time University Elementary, which is a feeder school for Youree Drive and Captain Shreve, was not included in the change and should have been to keep the feeder pattern consistent. Mr. Woolfolk noted backup information provided that outlined the history, and attendance maps before and after the 2012 change (the railroad was the attendance line and the Board approved moving it to East Wallace Lake Road from Bert Kouns to Southern Trace). He explained that Southern Hills and Forest Hill feed into Ridgewood, and to provide a consistent feeder pattern that includes the elementary as well, staff is requesting that the Board consider revising this so the attendance line for University Elementary aligns with Youree and Captain Shreve. Mr. Woolfolk added that at this time there are only two children affected and they are already students at University.

Mrs. Bell asked staff if we are being consistent in using the feeder patterns for all schools across the district and to please provide her with a copy of the feeder patterns in place.

Mr. Rachal stated in past years, the district would use railroad tracks as attendance lines which is not a good attendance line.

Consideration of Ratification of 1954 Mineral Lease. Mr. White explained that a production company has asked that the School Board's lease of October 14, 1954 be ratified; and because the School Board still has the mineral rights on this 9-acre tract of land in Greenwood, Louisiana, and it has continued to be in production each year since 1954, staff is recommending Board approval of ratification of this request. Mr. Rachal asked staff to provide him with the depth on the mineral lease.

Presentation of Proposed Agenda and Consent Agenda

President Riall announced that the proposed consent agenda items are 6.02, 7.01, 8.01-8.12 and 13.01-13.02. *Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the June 19, 2018 CPSB meeting as presented. Vote on the motion carried unanimously.*

Announcements and Requests

Jasmine Green asked that staff provide her with an update on the capital project for the Green Oaks track and jumping pit.

Mr. Rachal announced that Bill Joyce will be conducting a Gifted Teachers Conference at University Elementary and he expressed appreciation to Dr. Goree for helping to make this happen.

Adjourn. *Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.*

June 5, 2018
CPSB Special Session

Members present: Steve Riall, Jasmine Green, Susannah Poljak, Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, Durwood D Hendricks, Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel.

President Steve Riall called the special session to order at approximately 4:30 p.m. and a quorum was present. Board member Mary Trammel, District 6, led the invocation and Pledge of Allegiance.

Visitors

The following visitors addressed the board: Dawn Jordan, Caddo Association of Educators; Bobby Edwards, Interfaith; and Jon Glover.

Consideration of Personnel Recommendations

Ms. Trammel moved, seconded by Mrs. Bell, to approve the personnel recommendations as submitted by the superintendent in the electronic mailout.

Miss Green asked for clarification on these two recommendations, and the Superintendent explained the need and the responsibilities that will be carried out by these two employees. *Vote on the motion carried unanimously.*

Consideration of Revisions to CPSB Policy DFAA (Industrial Tax Exemptions)

Mrs. Bell moved, seconded by Mr. Rachal, to approve the revisions to CPSB Policy DFAA (Industrial Tax Exemptions) as recommended by the Insurance and Finance Committee and submitted in the electronic mailout.

Mrs. Bell, chair of the Insurance and Finance Committee, stated this recommendation comes to the Board from the Insurance and Finance Committee after several meetings and charging staff to bring back a matrix that would work in the best interest for Caddo's students when the Board must act on applications for Industrial Tax Exemptions.

Mr. Rachal expressed his appreciation for this item being referred to committee, and Dr. Goree thanked the Board for its patience in addressing this matter.

Vote on the motion carried unanimously.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried unanimously, and the meeting adjourned at approximately 4:54 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

**June 19, 2018
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Barry F Rachal, Durwood D Hendricks, John L Albritton, and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the June 19, 2018 CPSB meeting to order at approximately 4:30 p.m. and a quorum was present. Mr. Riall announced that Mrs. Locke is absent due to a family illness. Board member Mary Trammel led the invocation and Pledge of Allegiance.

Consideration of Minutes of the May 7, 2018, May 15, 2018, May 29, 2018, and June 5, 2018 CPSB Meetings

Ms. Trammel moved, seconded by Miss Green, to approve the minutes of the May 7, 2018, May 15, 2018, May 29, 2018 and June 5, 2018 CPSB meetings as submitted. Vote on the motion carried unanimously.

Presentations and Recognitions

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented each with a certificate for their achievement. Administrators, parents and friends in attendance were recognized also.

Shreve Island Elementary School Choir. A select group of fourth grade students in the Shreve Island Elementary School choir entertained the Board and audience with musical selections from their patriotic Red, White and Blue Day show.

Northwest Louisiana Veterans Cemetery. Ken Epperson, director of the Northwest Louisiana Veterans Cemetery under the Louisiana Veterans Affairs Department and chairman of the annual Veterans Day Celebration, announced that a \$2.1 million grant was recently awarded for the building of the fifth Veterans Cemetery in Jennings, Louisiana. He stated that everything at the Veterans Cemetery is free to veterans and available to spouses for a minimal amount. He highlighted the specific services and products available free to the veterans and plans for the future. Mr. Epperson also expressed appreciation to the CPSB leadership in the JROTC Program and how proud he is of this program and the many hours the students give to the NW La Veterans Cemetery as well as participation in the Memorial Day and Veterans Day ceremonies and festivities. He also announced they will be featured in the July-August issue of *Half-Time Magazine* out of Los Angeles. Mr. Rachal shared a personal experience with the Northwest Louisiana Veterans Cemetery when he lost a dear friend and how grateful he is for the NLVC and the help extended to this veteran in a time of need. Miss Green extended appreciation to Mr. Epperson for always including the CPSB in this initiative, and she thanked him for his services on the Caddo Parish Commission. Mrs. Bell expressed the joy in attending and participating in the Memorial Day Celebration. Mr. Riall thanked Mr. Epperson for attending and sharing with the Board, and he encouraged any that have not visited this cemetery to do so.

Colonial Dames Essay Contest Winners. The following students were recognized as winners in the National Society of Colonial Dames of America's essay contest: Cade Crandall, C. E. Byrd High School; and Liam Ellis Ash of Caddo Parish Magnet High.

U. S. Presidential Scholar. Dakota Simpson, 2018 senior at Caddo Magnet High School, was recognized for being named to the 54th class of U.S. Presidential Scholars from the U.S. Department of Education. Dakota plans to enter the mission field in Guadalajara, Mexico.

U.S. Presidential Distinguished Teacher Award. Laura Addington, National Board Certified Teacher, was recognized for having been named a U. S. Presidential Scholar Distinguished Educator by the Louisiana Department of Education.

Louisiana PTA Educators of Distinction. The following were recognized for their outstanding work with students and for going above and beyond the call of duty. The 2017 Louisiana PTA Educators of Distinction are Kris Clements, Caddo Parish Magnet High; Amy Nicole Harper, Youree Drive Middle; Staci Thomas, A.C. Steere Elementary; Megan DeFatta Quinn, University Elementary; and Jeremy Ryan Williams, C.E. Byrd High School. The 2018 Educators of Distinction are Erin Berry, Caddo Parish Magnet High; Alice "Faye" Yates, South Highlands Elementary Magnet; Heather Peak Hooper, Captain Shreve High; Jenna Roche Middleton, Fairfield Elementary; and Kim McInnis, A. C. Steere Elementary.

Outgoing District PTA President. The Caddo Parish School Board and Superintendent Goree presented Amy Failla, outgoing District PTA President, with a plaque recognizing her efforts and service as President of the Caddo District PTA since July of 2014.

Newly Appointed Administrators. Chief Human Resource Officer Diane Atkins introduced the following newly appointed administrators: Eva Nicole Allien, instructional technologist; Leronn C. Burris, instructional technologist; James A. Demery, instructional technologist; and Dr. Matthew A. Mitchell, principal, Huntington High School.

WIND CATCHER ENERGY CONNECTION PROJECT

Mike Corbin, AEP SWEPCO's external affairs manager, stated he is before the Board asking for a letter of support for the Wind Catcher Project. He shared with the Board a brief history of the Wind Catcher Energy Connection Project under construction in the Oklahoma panhandle, significant benefits it will provide Louisiana families, businesses and communities in annual savings in lower electricity costs; SWEPCO's guarantees to assure the predicted savings and that no added cost is passed on to the customers, and SWEPCO's continued goal to add more clean energy and further diversify its energy resource mix. As part of the process, approval must be obtained from the Public Service Commissions in Oklahoma, Texas, Arkansas and Louisiana. SWEPCO will go before the Louisiana Public Service Commission on June 20th and SWEPCO is asking for a letter of support to present to the Louisiana Public Service Commission. He reported SWEPCO currently has letters of support from the City of Bossier, City of Shreveport, Town of Oil City, Village of Belcher, Caddo Bossier Port Commission, Barksdale Forward, Calumet Refinery, Manufacturers Council, Caddo Parish Commission (deferred to Committee), and the Bossier Parish School Board and the Bossier Parish Policy Jury are considering it, and the Board's favorable vote for a letter of support would be greatly appreciated.

PUBLIC HEARING ON THE 2018-19 CONSOLIDATED ANNUAL BUDGET

Mr. Riall announced the public hearing open for the 2018-19 Consolidated Annual Budget and the following visitors addressed the Board: Jon Glover asked if the deficit in the expenditures for all funds is reflective of the student population, clarity on the difference in Operations/Maintenance Tax and Operations, Maintenance and Support Tax; and the \$17.6 million being given to Magnolia Charter. She asked that someone address these for her.

VISITORS

The following persons addressed the Board on their thoughts, concerns and suggestions: Jackie Lansdale, RRU (pay issues, review of grievance, transfer, and discrimination policies); Omari Ho Sang (Minority Supplier Institute); and Bobby Edwards (Wind Catcher concerns).

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration, and President Riall announced that the following are the consent agenda items: 6.01-6.02, 7.01-7.02, 8.01-8.13 and 13.01-13.02.

Ms. Trammel moved, seconded by Mrs. Poljak, to establish the agenda and consent agenda for the June 19, 2018 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Poljak, to confirm the consent agenda. Vote on the motion carried. The following is a summary of the Board's action on the consent agenda.

6.01 Personnel Recommendations. The Board approved the personnel recommendation(s) as recommended by the superintendent and submitted in the electronic mailout.

6.02 Personnel Transactions (Resignations). The board approved the personnel transactions reports (resignations) for May 1, 2018 through May 31, 2018 as recommended by staff and submitted in the electronic mailout.

7.01 Consideration for Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) AFP Industries for Calculators; (2) School Specialty and Unity for Marker Boards and Bulletin Boards; and (3) Porter's Industrial for Uniform Provision & Management Services. *A copy of the bid tabulations is filed in the official papers of the June 19, 2018 CPSB meeting.*

7.02 Consideration of Capital Projects Bids. The Board approved the following bid as recommended by staff and submitted on the bid tabulation sheet in the electronic mailout: (1) Martin Painting & Specialty, with a Base Bid, Alternate 1, Alternate 2 and Alternate 3, for the sum total of \$148,159.00 for Project 2019-205A, "Northwood Painting Entire Campus". *A copy of the bid tabulations is filed in the official papers of the June 19, 2018 CPSB meeting.*

8.01 Property/Bus Rental Requests. The Board approved property and bus rental requests recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Resolution to Adopt the 2018-19 Consolidated Annual Budget. The Board approved the resolution adopting the 2018-19 Consolidated Annual Budget as submitted in the electronic mailout.

8.04 Consideration of Official Journal for 2018-19. The Board approved *The Times* as the official journal for the 2018-19 year as recommended and submitted in the electronic mailout.

8.05 Consideration of Youth Enrichment Program (YEP) Contract Renewal. The Board approved renewal of the Youth Enrichment Program (YEP) contract as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Ratification of 1954 Mineral Lease. The Board ratified the existing mineral lease on a 9-acre tract located in Section 26, Township 17 North, Range 16 West as recommended by staff and submitted in electronic mailout.

8.07 Consideration of Change in July Board Meeting Date. The Board approved changing the July 17th Board meeting to July 24th.

8.08 Consideration of SWEPCO Easement at Green Oaks, Lee Hedges and North Caddo. The Board approved SWEPCO easement requests for Green Oaks, Lee Hedges and North Caddo as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of Property/Casualty Insurance Renewals for 2018-19. The Board approved renewals of property/casualty insurance coverage for 2018-19 as recommended by staff and submitted in the electronic mailout.

8.10 Consideration of Request to Solicit Bids for Realtor Brokerage Service for the Sale of MJ Moore. The Board approved soliciting bids for realtor brokerage service for the sale of MJ Moore as recommended by staff and submitted in the electronic mailout.

8.11 Consideration of Cooperative Endeavor Agreement for Battle on the Border High School Football Showcase. The Board approved the cooperative endeavor agreement for the Battle on the Border High School Football Showcase as recommended by staff and submitted in the electronic mailout.

8.12 Consideration of Attendance Zone Change for University, Forest Hill and Southern Hills. The Board approved proposed changes to attendance zones for University, Forest Hill and Southern Hills elementary schools as recommended by staff and submitted in the electronic mailout.

8.13 Consideration of Letter Supporting Proposed Wind Catcher Energy Connection Project. The Board approved the proposed letter supporting the proposed wind catcher energy connection project as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved the readmission of Student CB as recommended by staff and whose parents are in agreement.

13.02 Request for Settlement Authority – Renee Darby vs. CPSB, Workers’ Comp Claim #4721996. The Board authorized settlement as recommended and submitted in the electronic mailout.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell extended wishes to all for a Happy 4th of July.

Adjournment. *On motion by Mr. Rachal, second by Mrs. Poljak, the meeting adjourned at approximately 5:53 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

July 24, 2018
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green (arrived at approximately 4:43 p.m.), Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, Durwood D Hendricks, Jr.; John L Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and General Counsel Reginald Abrams.

President Riall called the July 24, 2018 CPSB meeting to order at approximately 4:35 p.m. at which time a quorum was present. Board member Mary Trammel, District 6, led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 19, 2018 CPSB MEETING

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the June 19, 2018 CPSB meeting as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following students/staff for outstanding achievements. Each one recognized also introduced family members/friends present.

Herndon High Steppers. The Herndon Magnet School High Steppers were introduced for recently being recognized as the Kilgore Rangerettes overall Middle School Champions plus 4 event wins; Regional Overall Middle School Champions plus 5 event wins; and champions of the American Dance Drill Middle School National Competition plus 4 event wins. Kim Whetstone, director and Lacy Turner, co-director and choreographer, were also recognized.

Volunteers for Youth Justice Teen Court Participants. The following students were recognized as participants in the Volunteers for Youth Justice Teen Court program: Brenna Burrough, Davion Curry, Kendall Fuller, Jeramiah James, Jamarcia Taylor of Fair Park Middle School; Nehemiah Goldsmith, Jaelyn Mason, and Jaylon Vinson of Caddo Magnet High School; Felix Jones II, Brin Wilson and Nial Wilson of Captain Shreve High School; Lauren Lee, Annika Robinson, and Zoe Young of C. E. Byrd High School; and K'La Richmond of Huntington High School. Shonda Houston-Dotie, director of Youth Programs for Volunteers for Youth Justice gave a brief overview of the program.

2018 Caddo Parish School Volunteer of the Year. Linda Still Catanese (Caddo Heights) was recognized as Caddo's 2018 Volunteer of the Year. Mrs. Wood highlighted some of the things Mrs. Catanese has done to give back to the schools. Board member Bell also personally recognized her for the many ways she assisted her when teaching at Turner.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced and welcomed the following newly appointed administrators: (1) Christolyn French, AP, CMCT; (2) Angela Morris, AP, Donnie Bickham MS; (3) Alyssa Simmons, AP, Woodlawn Leadership Academy; (4) Latoria Stewart, AP, Woodlawn Leadership Academy; (5) Christopher Jackson, principal, Midway Elementary School; (6) Marvin Rainey, District Executive Master Teacher; and (7) Nathaniel Adams, director of Child Welfare and Attendance.

VISITORS

The following visitors shared their thoughts and concerns: (1) Jackie Lansdale.

ESTABLISH THE AGENDA AND THE PROPOSED AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

Mr. Rachal inquired about the concessions bid for Lee Hedges and if only one bid was received for this item. Lisa Lloyd, director of purchasing, explained that the recommendation is the only bid received and it was 27%.

Mr. Rachal also inquired if all staff are evaluated by the same format, and Dr. Goree confirmed that evaluations for director positions and above are different than the evaluation for teachers; and the changes presented to the Board for consideration address evaluations for classroom teachers and is more specific to the number of evaluations a teacher in a full TAP school will have per year (going from four evaluation to three (1 announced and 2 unannounced)). Mr. Rachal asked how many evaluators are there for teachers, and Dr. Goree said the administrative staff (principals, assistant principals, and instructional coordinators) serve as evaluators of all teachers in a school. They will divide the list in whichever way they choose and will conduct evaluations of all teachers in the school on an annual basis. Dr. Goree said staff is also excited as it enters its second year in the TAP model of evaluating all teachers. They believe the change will provide an evaluation that is more a coaching model than a "gotcha" model.

Mr. Albritton, et.al., asked staff to look at the Board list attached (Exhibit A) to the Louisiana Compliance Questionnaire for corrections.

Regarding proposed revisions to Policy JCDB, Ms. Trammel asked for clarification on the similarities, and Superintendent Goree explained that Board policy sets a general dress code and you may see some schools with more specific dress codes, i.e., some schools require standard dress but not all schools do. This proposed change addresses something changed in the law concerning bullet-resistant backpacks. The Board policy sets broad guidelines; and schools set specific dress codes around it. He also said this is established by each school, within reason.

Dr. Douzart asked that consideration be given for a dress code for teachers also. Superintendent Goree reiterated that Caddo has a broad set of guidelines relative to teacher dress; however he believes Dr. Douzart may be referring to something more specific. Mr. Abrams added that teachers have a dress code and that is they should dress professionally. The policy itself is broad; however, it also states that under no circumstances shall teachers wear anything that would be a violation of the students' dress code.

Ms. Trammel moved, seconded by Mrs. Locke, to establish the agenda and consent agenda for the July 24, 2018 CPSB meeting as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mrs. Locke, to confirm the consent agenda (Items 6.01-6.03, 7.01, and 8.02-8.09). Vote on the motion carried unanimously and the following is a summary of the Board's action on the consent agenda items.

6.01 Personnel Recommendations. The Board approved the personnel recommendation as recommended by the superintendent and submitted in the mailout.

6.02 Personnel Transactions Reports (Resignations). The board approved the personnel transactions reports (resignations) for June 1 through 30, 2018 as recommended by staff and submitted in the electronic mailout.

6.03 Request for Leave. The Board approved the request for leave as submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) John Auzenne, Jr. dba M&M Concessions for concession services-Lee Hedges; (2) My Office Products, dba Unity Education Resources for copy paper; (3) Oak Farms for the purchase of Milk and Dairy Products; (4) Oak Farms for the purchase of Fruit Juice; and (5) Flowers Baking Company for the purchase of bread and bread products.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as submitted by staff in the electronic mailout.

8.03 Consideration of Revisions to Caddo Performance Evaluation Plan. The Board approved the proposed revisions to the 2018-19 Caddo Performance Evaluation Plan as recommended and submitted in the electronic mailout.

8.04 Consideration of Change in CPSB Meeting Dates. The Board approved changes in the October 16, 2018, January 1, 2019 and February 19, 2019 Board meeting dates as recommended by the superintendent and submitted in the electronic mailout.

8.05 Consideration of Department of Exceptional Children 2018-2019 Interagency Agreements & Contracts. The Board approved the 2018-2019 interagency agreements and contracts for the Department of Exceptional Children as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Louisiana Compliance Questionnaire. The Board approved the Louisiana Compliance Questionnaire as recommended by staff and submitted in the electronic mailout.

8.07 Consideration of Proposed Revisions to CPSB Policy JCDB (Student Dress Code). The Board approved the proposed revisions to CPSB Policy JCDB (student Dress Code) as recommended and presented in the electronic mailout.

8.08 Consideration of Authorization to Hold Salvage Sale. The Board authorized staff to conduct salvage sale for buses from the CPSB fleet as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of Real Estate Broker Services Proposal. The Board approved the proposal of U L Coleman for RFP 06R-19, Real Estate Services for the marketing and sale of Alexander Learning Center and MJ Moore as submitted in the electronic mailout.

SUPERINTENDENT'S REPORT

Superintendent Goree announced and invited everyone to Caddo's *Ring the Bell* scheduled for Monday, August 13, 2018 at Captain Shreve High School to welcome all Caddo students back to school. Board members wishing to order shirts may do so following the meeting in the Superintendent's Conference Room.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that Walnut Hill (graduating classes from 1957-1971) will return this coming weekend for a class reunion at Walnut Hill.

Mr. Hendricks announced that he returned today from attending the Southern Leadership Conference in Biloxi, Mississippi and shared he looks forward to bringing some of the things from this learning experience to the table with the Board members.

ADJOURNMENT

Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

August 7, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F Rachal. Also present were Board members Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Durwood Hendricks, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the meeting to order at approximately 4:37 p.m. with a quorum present and Denee' Locke led the invocation and Pledge of Allegiance.

PRESENTATIONS

Annual Report/Update on ReImagine Caddo: A Plan for Excellence. Carolyn Spaht-Gonzalez announced this is her seventh time to present to the CPSB on where the District is in its strategic plan and how and to what degree the objectives are being met. Mrs. Gonzalez stated there are 27 objectives on the strategic plan; and at this time, two of the 27 cannot be rated until the data is available. These are the contingency reserve (rainy day fund) which should be available in September, and the vacancy rate (the September FT counts). Of the remaining 25, the same number (11 or 12) are green (target met), 12 are yellow (have not met the target but are making progress), and only 2 have not met the target or made progress. She added that each action step is also looked at in the operational plan of the strategic plan.

In looking at trends over the last three years, Mrs. Gonzalez highlighted this year compared to the previous 2 years and detailed percentages of objectives that have been met, have made progress or made no progress and noted that over time, there have been fewer greens and reds, and more yellows; and this resulted from determining what to do with the reds (adjusting action steps as needed and thus changing the status from red to yellow), and greens. She also commended the staff for, as it reaches its target, adjusting the target to reach a higher goal, because this indicates it is not just doing and measuring the plan to increase the number of greens but because the Board really wants to make a difference for children.

Regarding the Scorecard, Mrs. Gonzalez summarized the following areas for the Board, and highlighted where the District was when it began, where it is in each area toward meeting the targets for each year, where the District is now and where it wishes to be. The K2 students' percentage is for the first time reading at grade level and not labeled red. She announced the excitement of the positive movement in this area for these children (kindergartners) have been less ready in the past. She said while the percentage decreased, she commended the District for still seeing the positive in this area, with an increase in kindergartner scores by 48%. She also reported that the percent of students in Grades 3-8 scoring proficient in ELA. Math and high school graduation are pretty much flat compared to last year, with a flat percent in high school graduation because of the big jump the previous year.

Under Family and Community Engagement, Mrs. Gonzalez stated that each school now has a parental involvement plan and will be developing a plan to measure the implemented plan. Also receiving a green status for the 17-18 school year was the objective to come up with a number of meaningful opportunities for community engagement and partnerships. Under Fiscal Responsibility, she reported that the projected evaluation is not available but is anticipated in the fall, and the District's bond rating of AA- has held. She also reported that highlights in this area include giving employees a pay raise as well continuing to save money in health care (approximately \$4 million).

Relative to Human Resources/Professional Development, it was reported that the final counts for current school year vacancies will not be available until after September 1; and increasing the retention of certified and classified personnel within the 0-3 years of employment is an area that needs more focus since a positive trend is not being seen. She said that this concern is one that has been shared every time with the Board when bringing updates, and in looking at why we are losing employees, it is not known why since we do not have the correct data, which is not just an HR problem, but it is a combination of HR, Academics and IT sorting out the indicators to determine what is happening, which she believes the external company working on an exit survey may help in this area. Mrs. Gonzalez reported that on a positive note, the annual over-staffing and surplus have been reduced.

Mrs. Gonzalez reported that STEM continues to be a positive, bright spot in the District as well as the virtual school enrollment; and under technology, the number of computer devices used for testing has increased to 3:1 and a 2:1 school average

and with 92% of the schools having this ratio, the District has almost reached its target. Staff is also moving forward to insure that the specialized programs are aligned with offerings at campuses districtwide.

The update in Operations and Support Services indicated that the District saw a .4% increase in the on-time delivery of students by transportation; and while there was no improvement (red) in the reduction of at-fault bus accidents for two years, improvement was seen in the 2017-18 school year; and the use of substitute bus drivers covering daily absenteeism of permanent drivers surpassed the goal of 13%. Mrs. Gonzalez also reported that school facility repair work orders surpassed the projected level of total work orders to be 50% or below with a 59% actual level of completion. With the goal of reducing annual energy costs by 10%, the District exceeded its target by one cent.

In the effort to develop and implement action plans for the use or disposal of all vacant school structure, 61% of the vacant buildings have action plans as of the end of 2017-18 school year; and in striving to attain a 100% average student capacity level, the District was at 92% at the end of 2017-18. Participation in breakfast and lunch is predicted to increase to 50% for breakfast and 75% for lunch with current percentages being 28% for breakfast and 62% for lunch and staff is working on how it can increase these numbers.

She reported on the great improvement in physical security of each site, going from 48 incidents districtwide down to 8. In the area of Marketing and Communications, she reported on the increase in positive stories regarding the District via various media avenues, and a third party is beginning to handle the survey to be used to build trust through an annual survey of parents and stakeholders.

She noted the areas of strength exceeding the areas of focus and highlighted those initiatives marked with an asterisk meaning they struggled last year. She announced a revision to the Strategic Plan will come to the Board in September. In summary she stated that this is a very strong evaluation; and while she knows we want to see all greens indicating all targets have been met, she would question if staff was pushing hard enough if all the targets were met at this point. She commended the District on continuing to stretch farther because the results are evident.

Dr. Goree pointed out that the two items mentioned that could not be addressed, staff will bring these back as soon as the information is available. He also reiterated that ReImagine Caddo was designed to be a five-year strategic plan and in concluding the third year, staff will go into retreat and begin looking at those things that continue to serve the best interest of meeting the mission and vision established in the strategic plan. Also, he added there will be nothing removed in any area that still needs to see growth as long as it is still perfectly aligned with our mission and vision for the District.

Mrs. Bell complimented the K2 program coming out of the red and her belief that every school and classroom needs a preK program. With preK being a problem everywhere, she believes we need to work with the Legislators to provide this opportunity. She also asked how many preK programs are in the Caddo System and how many classes are at each school. Dr. Goree noted several grass roots organizations in the community that are interested in expanding preK opportunities. Mrs. Bell also asked about the retention of teachers and if there is any way we can implement some type of five-year contract to keep them in Caddo for at least that length of time. Mrs. Bell also said when it comes to testing on the computers, and because the State is requiring that students test on the computers, it is important that all the computers in the classrooms are working at test-taking time. Dr. Goree stated his agreement that this is a national issue, but he believes significant strides have been made in this area. He added staff will look to modify change so staff can continue the process of retention. Having just welcomed 200 plus new teachers, he believes staff has done an outstanding job of preparing them for the classroom. Next, it will be important to determine how we keep them for three years, which is something school districts will have to be very creative with and think outside the box. He also added that as Mrs. Gonzalez stated, this is an area that is not just Human Resources, but it is an Academics and Professional Development effort to determine what will sustain the teachers' interest in the profession.

Mr. Albritton asked for clarification on programs aligned with campus offerings, and Mr. Burton stated that this part of the strategic plan has been dormant because of the recent contracts and agreements with the State. He further explained that soon academic teams as well as other departments will go into the schools and look at specialized programs and the students' needs, i.e. technology schools, professional

development schools, magnet components, et.al., and make sure that whatever is on a sign outside a school building, is impacting students at that school. This review will be brought back to the Board.

Mr. Rachal asked about the "flatness" in the testing area when it comes to SPS and ELA scores and if it is due to changes in the tests. Dr. Goree responded that it is not, but it is only due to "flatness" in student performance. However, he believes this will become greatly impacted by the implementation of the Tier 1 curriculum across the District next year for which 2,000 plus teachers participated in intensive professional development over the summer for implementation of this curriculum. Mr. Rachal added he believes there is a huge momentum going on now with anticipation these will increase dramatically. Dr. Goree agreed there will be significant jumps in performance over the next 2-3 years. Mr. Rachal also asked how is school communications taking place on the web site, and Mary Nash-Wood explained that in collaboration with the National School Public Relations Association to identify what parents look for on the web site, i.e. school calendar, school lunch menu, staffing changes, etc. This rubric has been shared with Mrs. Gonzalez and the staff works weekly going through every school's website to see if these components have been updated; and if not, they look at circumstances affecting non-current information (out for holidays). He asked if we are using a web site company for each school, or is it left up to each school. Mrs. Wood explained the District does have a District-provided web platform that schools are able to use, but many schools ask their parent-teacher association or another organization to facilitate keeping web pages updated. She also said they have found it very important to keep current who oversees each school's web site, and who has the credentials to update this information. They have also asked schools to keep the Communications Department up to date on changes and have hired a graphic designer within their division for updating web site information and training users.

Mr. Rachal also asked about the drop in retention in the certified area and if the exit survey has been designed and implemented. Dr. Goree responded that Mrs. Gonzalez noted that this is a recurring issue and it speaks to the National trends relative to retention of certified personnel. He added that in talking about an outside firm, the staff has begun working with K12 Insight and this service will be implemented with the next school year to provide us with opportunities to (1) better communicate with families, and (2) provide an avenue for collecting meaningful data as to why we are losing people so we can be more specific in our design of how to keep them in the District. While we have informally surveyed personnel when leaving the District, we have never done so to the specificity needed if we need to make changes. Dr. Goree stated that while HR is driven by effective use of data, it is important to insure the correct data is collected and used accurately. Mr. Rachal also stated that getting this data into a system will help us systematically to figure out what needs to be done. Dr. Goree further reported K12 Insight was in the District on Monday.

Mr. Rachal also inquired about reaching the 2020 target of computers in schools and now resetting the targets to do better for children. Dr. Goree recognized Academics and Technology for what they have done in conducting a very thorough audit of everything in the Caddo System which he believes will provide additional improvement in this area.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 21, 2018 CPSB MEETING

President Riall presented the agenda items for questions and discussion.

2018-19 Pupil Progression Plan. Mr. Burton stated that information is at Board member stations for submission of a parent representative to the Parental Review Committee. Melissa Mainiero, supervisor of accountability and data, shared with the Board that the lateness in this being presented to the Board results from staff waiting to receive information on the new placement test mandated for entering 5th grade and 9th grade. She further explained that changes include updating language related to a new kindergarten entry assessment, local update to remove weighted grades in the elementary grades (1-5) and language development courses, look at reading and language arts grades as one rather than two separate grades, state policy regarding 5th graders meeting state assessment standards and if they did not, putting certain supports in place for them if they are promoted, and relative to high school course work taking place on the middle school campuses, the Academics team will work together to make sure the student is leaving middle school and entering high school to take courses that are prerequisite and prepared for the advanced courses (Level III courses).

Mr. Rachal asked about the item addressing 4th graders going into the 5th grade and if there is a list of what the State is mandating. Mrs. Mainiero explained it is actually a collaborative process between the school and the parent; and Caddo has some of these already in place for the students, i.e. access to Tier 1 curriculum. A structured RTI time is also required and some schools have already built this into schedules for students struggling to meet the grade level work expectation. Also, strategic classroom placement is a way by which they look at the teachers in the building to determine the right fit for students and that they are in the right environment to receive the needed support. Fourth, offering summer school is included and when the State asks the districts to define summer school, they see summer as anything that is happening outside the normal school day, i.e. after school programs near the end of the year; and they are saying a minimum of two of these should be in place for students entering fifth grade and have a below basic score. Mrs. Mainiero added this really formalizes the support already in place for the students and tracking documentation.

Mr. Albritton shared his confusion that a student can pass Algebra I, Geometry, but not score at least Basic on the Mathematics test. Mrs. Mainiero responded that does happen, and for various reasons. Dr. Goree said that at times a parent or student is interested in taking a class but sometimes they struggle; however, staff makes every effort to only put students in those classes who are academically ready to be successful in these classes.

Mr. Riall said he has been told by a number of people in different districts/schools that many times children will graduate from high school having done well in math, but they are not ready for college, and he asked why does this happen? Dr. Goree agreed that this is a nationwide issue and noted there is no alignment of what we do to prepare students for success which is a systematic problem of no formal communication between colleges and public schools. To address this type issue, it will take a few Legislators coming together and working on this.

Following discussion, Mr. Riall announced Items 8.01-8.04 and 13.01 as the consent agenda.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda (Items 8.01-8.04 and 13.01) for the August 21, 2018 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

The following visitors addressed the Board regarding items for action at the August 21st meeting: Jackie Lansdale, Red River United.

ANNOUNCEMENTS

Jasmine Green stated that having attended her first new teacher orientation, she never realized how much work the Professional Development Department put into this and she asked staff to provide her with the number of new teachers. Dr. Goree stated there are over 200 and the Board will provide an update by the end of the week.

Dr. Goree announced that Ring the Bell will be at 9 a.m., Monday, August 13th at Captain Shreve. Everyone was encouraged to park at Lee Hedges stadium and a bus will transport everyone from the parking lot to the main entrance. He reminded everyone that the new CPSB shirts will be available no later than Thursday.

Mrs. Locke asked when will the Louisiana Middle School Teacher of the Year be recognized, and Dr. Goree announced this will take place at the August 21st meeting.

Mr. Rachal announced the possibility of two Board members that are Captain Shreve Alumni will be attending the Ring the Bell festivities.

ADJOURN

Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 5:49 p.m.

**August 21, 2018
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Durwood D Hendricks, John L Albritton, Dottie Bell. **Absent:** Margaret Brown. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the August 21, 2018 CPSB meeting to order at approximately 4:35 p.m. at which time a quorum was present. Board member Denee' Locke, District 8, led the invocation and Pledge of Allegiance. President Riall welcomed Senator Barrow Peacock to today's meeting.

CONSIDERATION OF MINUTES OF THE JULY 24, 2018 AND AUGUST 7, 2018 CPSB MEETINGS

Mary Trammel moved, seconded by Denee' Locke, to approve the minutes of the July 24, 2018 and August 7, 2018 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following students/staff for outstanding achievements. Administrators, family, and friends present were also recognized.

Musical Presentation by Ashini Modi. Ashini Modi, Louisiana and Caddo middle school student of the year, performed a musical presentation on the violin for the Board and audience. Miss Modi was accompanied on the piano by Johnum Palado.

Louisiana Students of the Year. Ashini Modi and Sunjay Letchuman were recognized as the Louisiana Middle School Student of the Year and High School Student of the Year respectively, which is the first time Caddo has had two State students of the year in the same year. State Senator Barrow Peacock also presented resolutions, which were authored by himself, Representatives Seabaugh and Carmody and filed in the Secretary of State's office, to Ashini and Sunjay for their accomplishments. He also commended the students for their outstanding representation of the school district and northwest Louisiana.

2018-2019 Louisiana Student BESE Representative. Georgia Hilburn, senior at Captain Shreve High School, was recognized as the 2018-2019 Louisiana Student BESE Representative. Staff also shared her goals for the coming year in representing Caddo and the State in this capacity.

Louisiana Middle School Teacher of the Year. Kathryn M. Ferguson, Youree Drive Middle School, was recognized as the 2019 State Middle School Teacher of the Year.

Presidential Award for Excellence in Mathematics and Science Teaching Winner. Stefani Harris, Fairfield Elementary teacher, was recognized for her dynamic teaching style and love of science, not only on the local and regional levels, but also by receiving the Presidential Award for Excellence in Mathematics and Science Teaching. Ms. Harris will receive a citation signed by President Trump and a \$10,000 award from the National Science Foundation.

National Science Teachers Association and National Council of Teachers of Mathematics Program as a STEM Teacher Ambassador. K. Renee Pullen was recognized for being named an ambassador by the National Science Teachers Association and National Council of Teachers of Mathematics Program as a STEM Teacher Ambassador to develop necessary skills and effectively communicate Science, Technology, Engineering and Mathematics (STEM) to stakeholders.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: Yolanda Woods-Gibbs, principal of Forest Hill Elementary; Felicia O'Neal, principal, Fair Park Middle; Zachary Bolzan, assistant principal, University Elementary; Kimberly Marshall, assistant principal, Turner Elementary/Middle; Jerry Byrd, assistant principal, C E Byrd High; Roseta Johnson, supervisor of attendance; and Julye-Ann Taylor, district executive master teacher.

VISITORS

The following visitors addressed the board: Jackie Lansdale, Red River United; Jacqueline Miller, Jon Glover, Omari Ho-Sang, and Lashuna Moore.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and President Riall announced the following items as the consent agenda: 6.01-6.02, 8.01-8.04 and 13.01.

Mary Trammel moved, seconded by Barry Rachal, to establish the agenda and consent agenda for the August 21, 2018 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mary Trammel moved, seconded by Barry Rachal, to confirm the consent agenda (Items 6.01-6.02, 8.01-8.04 and 13.01). Vote on the motion carried. The following is a summary of the Board's action on the consent agenda items.

6.01 Personnel Recommendations. The Board approved the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout.

6.02 Leave Requests. The Board approved the requests for leaves as submitted in the electronic mailout.

8.01 Property/Bus Rental Requests. The Board approved requests for use of CPSB property as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Mental Health Interagency Agreements for 2018-19. The Board approved interagency agreements for mental health services for the 2018-19 school year as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of 2018-19 Pupil Progression Plan. The Board approved the 2018-19 Pupil Progression Plan as recommended by staff and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved student readmission appeals for students TH, JT, EC, CC, DA, JW, JP, KH and JR as recommended by staff and whose parents are in agreement.

CONSIDERATION OF REQUEST TO BEGIN THE PROCESS OF RENAMING THE UNIVERSITY ELEMENTARY AUDITORIUM THE LILLIAN J MOTHERSHED AUDITORIUM

Barry Rachal moved, seconded by Jasmine Green, to approve beginning the process of renaming the University Elementary Auditorium the Lillian J Mothershed Auditorium.

Mr. Rachal read a statement of rationale for naming this facility for Mrs. Mothershed that included the many, many contributions she made to education in Caddo Parish including being the first Black principal at University Elementary during the crossover. He added it is an honor and privilege to bring this request to the Board for consideration. Miss Green added that this family comes from her district and commended Mr. Rachal for bringing this forth. Mrs. Bell also thanked Mr. Rachal for bringing this item because Mrs. Mothershed was her mentor in education and specifically during the transition time. Dr. Douzart also shared her connection with Mrs. Mothershed. Dr. Goree also thanked the Board for this and shared that in visiting with the family, they are so honored the District has seen it appropriate to recognize the legacy Mrs. Mothershed brought to the Caddo School System. He added that University recognized her during African American History month in 2017 at the age of 98; and since she would have been 100 this coming February, he believes recognizing her contributions to education will again be celebrated in conjunction with the naming of University's auditorium for her.

Vote on the motion carried unanimously.

DISPOSITION OF GRIEVANCE FOR LISA MOFFETT

Attorney Abrams explained that all documentation relative to the disposition of this grievance was provided under confidential cover on BoardDocs; and in addressing this request, the Board can uphold the recommendation from Levels 1, 2 and 3, the Board can reverse it, or the Board can vote to hear oral argument at the next Board meeting.

Barry Rachal moved, seconded by Miss Green, to have oral arguments on this grievance at the next Board meeting. Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that the United Way kick-off breakfast for this school year will be held on Friday, August 24, 2018 at East Ridge Country Club, at 7:30 a.m.

Dr. Goree also announced that Caddo's Summer Graduation will be held on Tuesday, August 28, 2018, 6:00 p.m. at Caddo Parish Magnet High.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mr. Rachal thanked staff for the information on the Transportation Department and asked if a more thorough report could be made so the community has a better understanding of what the Transportation Department does on a daily basis.

Mrs. Bell thanked the superintendent and his staff for the new Student Handbook and asked if every parent will receive a copy. Staff explained that the document is online; however, for any parent who may want a hard copy, instructions are provided on what they can do to receive one. Mrs. Bell presented a recognition of condolence to Mrs. Locke in the loss of her Mother, and Mrs. Locke thanked the Board for their thoughtfulness and that she would be sending this as a donation from the Board to a fund at MD Anderson set up in memory of her nephew (her Mother's first grandchild).

Miss Green shared her excitement in serving as chairperson of the Transportation Committee and for being invited to a back-to-school gathering for the bus drivers. She also commended Ms. Rachal on the amazing job she is doing. Miss Green announced she will soon call a meeting of the Transportation Committee.

Ms. Trammel also commended staff for their commitment to work and solve the transportation issues experienced with the start of school. She also thanked Shannon Henderson for the opportunity and wonderful experience given the Board to participate in this year's New Teacher Academy and for the memento given to the Board. Dr. Goree added staff's appreciation for the Board's help by serving and welcoming the new teachers and announced that as of today, Caddo has 249 new teachers. He also complimented the Caddo teams for their efforts in creating a system where the teachers are successful and can grow and learn.

Mr. Riall expressed appreciation to Mr. White and the Capital Projects staff for the new outstanding, state-of-the-art welding and auto shop in North Caddo Parish. He said the community is ecstatic about this new facility.

ADJOURNMENT

Mary Trammel moved, seconded by Barry Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:00 p.m.

T. Lamar Goree, PhD, Secretary

Steve Riall, President

September 4, 2018
CPSB Audit Committee Meeting

Members present: John Albritton, Susannah Poljak, Raymond Green, and Dr. Bonita Douzart. Absent: Denee' Locke. Also present were Board members Steve Riall, Mary Trammel, Dottie Bell, Durwood Hendricks, and Barry Rachal. Superintendent Lamar Goree, Attorney Reggie Abrams, and staff members Jeff Howard, Jim Lee, and James Woolfolk.

Mr. Albritton called the meeting to order at approximately 3:00 p.m. with a quorum being present and Mary Trammel led the prayer and Pledge of Allegiance.

Establish and Confirm the Agenda

Raymond Green moved, seconded by Dr. Bonita Douzart, to establish and confirm the agenda as presented. Vote on the motion carried.

Proposed CPSB Policy for Roles and Responsibilities of Internal Auditing Department

Superintendent Goree stated that he believes the recommendation being brought to the Committee is one that will improve the Internal Auditing Department, providing not only transparency, but direction as to its roles and responsibilities of this department. Jeff Howard, chief internal auditor, explained that when Section D of the CPSB Policy Manual was revised, this 30-year-old policy was inadvertently left out. Mr. Abrams added that the proposed policy points out that the Auditing Committee is established by the Board, and this policy makes it work like other committees directed by the Board and addresses the work this department does at schools as well as anything delegated to it by the Board. While all the work outlined in this policy has been taking place, this policy clarifies the department's roles and responsibilities. Mr. Abrams stated that Forethought, as well as East Baton Rouge and Jefferson Parish, had policies and the proposed Caddo policy is a compilation of these policies and the Internal Auditor Organization. This committee operates under the strictest of confidence and has free and unrestricted access to all Caddo Parish records. If the committee has need to access a personnel file, they are allowed to do so with authorization by the Superintendent to do so and give notice to the employee if they do access their personnel file, which follows the Personnel Files Act which is state law. The Audit Department is independent and all activities, procedures and how often and when they report shall remain from any influence by the system. The department has no direct operation responsibility or authority over any of the activities but can make recommendations to the superintendent's staff regarding controls they consider should be in place. The Internal Auditing Department issues reports prepared by the Chief Auditor which are presented to the Board through the Audit Committee.

Mr. Abrams further explained that administratively they report to the Superintendent but report periodically to the Audit Committee. In response to whatever Auditing may report, management has the ability to submit whatever they would like within 30 days of publication of the audit.

Dr. Goree reminded the Committee that in 2012, the Board moved in the direction of setting up a more operational function for the Internal Auditing Department, and the department would audit the efficiencies of most of the departments in the Caddo School District. Because of this there has been an on-going cycle of auditing the departments. Mr. Howard shared with the Committee the current responsibilities of the Department on a daily basis and that the departmental audits began at the request of the Board to conduct systematic audits of the various departments in the District. The Internal Auditing Department also audits every school, including the schools' checking accounts, funds raised for student activities, PTAs and Booster Clubs if requested, and anything requested by the Superintendent or Board. Dr. Douzart asked staff to clarify how the PTA can provide curtains (i.e. auditorium) for the school. Mr. Howard explained that an appropriate form is completed by the school and approved by several at the Central Office level. Dr. Douzart also asked about the frequency in auditing schools, and he explained that up until last year, staff always audited high schools annually, middle schools every two years, and elementary schools every three years. However, they now have a five-year audit plan even though the department does "touch" every school annually in some way, i.e. do a cash count.

Mr. Green inquired about auditing HR and "personnel files", and Mr. Howard explained they do not audit persons but they may take a sample of files to determine if HR is following procedures. An example would be a position that requires a certain certification, and they would select a sample of employees holding that position to determine if there is evidence of certification in their files; and if not, HR would be notified of this violation. Mr. Abrams added if an audit requires access to a personnel file, the Superintendent must authorize it; and once they did, the employee would have to be notified their file was accessed.

Ms. Trammel asked if an auditing tool is used when conducting a systematic audit in the schools. Mr. Howard said Caddo's Internal Auditing Department is a part of the Institute of Internal Auditors and there are many resources available that provide sample audit programs or they may look at other school systems' methods.

Mrs. Bell asked about the guidelines that must be followed if PTA and Booster Clubs raise money in the school's name. Mr. Howard responded these groups have a separate tax ID number from the School Board's, and the State has not given the authority, unless directed, to look at their records; however, to date, they have never experienced any problems in looking at records. He further said that one of the best things about the policy is these organizations' bank statements go directly to the school to be opened by the principal. She also asked about monetary donations being designated for a specific use, and Mr. Howard indicated if a donation is for something specific, it should be in writing.

Mrs. Poljak asked if a principal can request an audit of a foundation; and if so, what happens if the foundation refuses. Mr. Howard said they have not experienced this. Mr. Abrams said he would need to research it because he believes there could be some recourse. He also believes the statute states if they are using the money for themselves and not for the benefit of the school, they can lose their ability to do so, which Caddo could challenge.

Mr. Hendricks inquired about a maximum amount a person or group can donate to a school, and staff said there is not. Mr. Green asked if the Booster Club uses the name of the school and activities involve students directly or indirectly a part of the student body, where is the money deposited? Mr. Howard responded it should be deposited in the school's account; and if not, it is a violation, which is stated in the policy.

Ms. Trammel shared a scenario of auditors going into a school, and while in the office, a parent pays \$350 cash for a Letter Jacket. The Caddo employee receives the cash but does not give the parent a receipt, and the student never receives the jacket. How is this addressed? Mr. Howard explained the bookkeeper receiving the cash and not providing the parent with an official receipt is in violation of policy. Dr. Goree added this is one of the main items when Auditing conducts a check at the school, as the District has an official receipt book and the deposits should match the receipts. Mr. Howard further stated they always impress upon the school's staff that if they receive a check, a receipt must be written; and he shared scenarios of what can happen.

Mr. Albritton asked for clarification of policy wording that "it may be delegated to the Audit Committee", and Mr. Abrams explained it is because it is the Board's decision whether or not something is delegated to the Audit Committee. Under operations, he asked about the day-to-day operations reporting to the superintendent and periodically to the Audit Committee; and if there is an audit of the superintendent, how is this done. Mr. Abrams said he doesn't believe it would be much more than an evaluation, unless it is a review of his individual departments. Mr. Albritton said he is referencing an outside evaluation. Mr. Howard stated he believes the reference is the entire Board (and this is the reason for the dotted line to the Board from the internal auditor). Mr. Albritton asked about "reporting and monitoring until cleared", and Mr. Howard said this is an audit term and having a table of all the recommendations from the audits and indication if each has been cleared by committee and management. He said this is something that needs more attention.

Mr. Riall asked how, after a follow up audit is conducted, it is determined if all the recommendations from the original audit have been satisfied, and is it not cleared until that happens. Mr. Howard responded that is correct for every recommendation. Mr. Abrams stated the audit does not determine what the superintendent will do, but any disagreements will be reported back and the Board can make a final decision.

Dr. Douzart asked how often Auditing looks at the money collected for Drivers Education. Mr. Howard said they look at this when conducting the high school audit as the money is received at the high schools, and they make sure the number of students signed up, the amount charged per student, and the amount deposited balances.

Mrs. Poljak moved, seconded by Mr. Green, to recommend the proposed policy to the Board for approval. Vote on the motion carried.

VISITORS

Jackie Lansdale, Red River United.

Adjourn. There being no additional business, Chair Albritton declared the meeting adjourned and the meeting adjourned at approximately 3:40 p.m.

September 4, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F Rachal. Also present were Board members Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Barry Rachal, Durwood Hendricks, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reggie Abrams.

President Riall called the meeting to order at approximately 4:30 p.m. with a quorum present and Barry Rachal led the invocation and Pledge of Allegiance.

PRESENTATIONS

Updates to Strategic Plan: ReImagine Caddo: The Plan for Excellence.

Superintendent Goree shared with the Board history on developing the strategic plan in 2014-15, and how the plan set a road map to avoid making sporadic decisions. He reported this plan is externally evaluated by a third party reviewer (Carolyn Spaht-Gonzalez) twice annually, holding the District accountable to stakeholders on alignment to and execution of the District's mission and vision. Dr. Goree added that while changes have been made in the action steps for achieving the goals, they have remained true to the original goals and initiatives, and he highlighted the revisions to action steps to help meet action goals/initiatives in each area. He further reported that at the five-year mark in 2020, a complete revamp will be done of the strategic plan looking at what was done over the past five years and what the next five years look like for the District. Updates included:

Academics implemented the Tier I curriculum, created a Professional Development plan for all teachers, aligned resources to student needs; and continued to push toward every child being college and career ready. In the area of Communications, *Let's Talk* was launched to help increase communication efforts, a greater emphasis was placed on video content and efforts were made to increase social media viewership. Finance saw an increase in leadership conversations relative to the budget, alignment of DMG in the budget creation process and held professional development with staff on budgeting. Human Resources continued to move forward in going paperless, i.e. applications, aligning to DMG's best practices, creating an employee retention program, and a professional development plan for classified. Under Operations, the Child Nutrition Program implemented a pilot "Grab and Go Breakfast" program in seven schools, continued in energy conservation efforts, and increased security measures district-wide.

In closing, Dr. Goree said the District has made great progress with measurable results being a key component. He further stated staff will continue to bring mid-year and end-of-year updates to the Board.

Mr. Rachal asked if the "Let's Talk" is the K-12 Insight program he reported on in 2016? Dr. Goree said it is. He said he believes what this will do for the community, individually and as a whole, is provide a better way of monitoring and tracking communication with the community. He added it is his belief that this strategic plan has been more strictly monitored than any other strategic plan, and he appreciates the Superintendent's leadership in this.

Mrs. Bell asked about the "Grab and Go Breakfast", and Dr. Goree said the District is piloting this in seven schools this year and he highlighted food items in this program. He added that it is proving to get the students in class quicker and provides more students with opportunity for interventions and remediation.

Dr. Goree expressed his appreciation to staff for their work in the strategic plan and creating opportunities to be servant leaders and observe what is happening on each campus; and while this plan is not one to create more work for teachers, it is to create work for those housed in Central Office.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE SEPTEMBER 18, 2018 CPSB MEETING

The superintendent highlighted items for the Board's consideration at the September 18, 2018 CPSB meeting and the following discussion ensued.

Consideration of Signs of Suicide Prevention Program. Barry Rachal inquired how, since being implemented at the high school level, is it implemented in the schools, how do we present it. Dr. Goree stated that approving this program is the District

meeting a legal requirement. Roy Murry explained that Dr. Barzanna White trains the counselors and the counselors go into every classroom and train students on signs to look for in someone who might be considering suicide. He added that parents also have an opportunity to opt their students out of the training. If approved, Mr. Murry said a grant will provide funding to implement the program in the middle schools. Mr. Rachal asked for clarification on the legal requirement, and Mr. Murry explained that part of the laws passed in the recent Legislative Session are to increase our emergency management and response, threat assessment, etc.

Consideration of Proposed CPSB Policy JGCF (Behavioral Health Services for Students). John Albritton asked how this policy is different from the suicide program. Dr. Goree said the policy is much broader and addresses any type difficulty that may have been identified as a behavior need and is keeping students from being successful. He further explained the law states we have to make students available to the behavior professionals during the school day, which will be a very easy transition for Caddo since it is something we have always done.

ADDITIONS

John Albritton requested that the following item be added to the agenda: Consideration of a CPSB Policy on the roles and responsibilities of the Internal Auditing Department.

President Riall announced that items 8.02-8.07 and 13.01 are the consent agenda. *Mary Trammel moved, seconded by Barry Rachal, to approve the proposed agenda and consent agenda for the September 18, 2018 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

There were no speakers on the proposed agenda.

ANNOUNCEMENTS

Mrs. Locke announced that she had the pleasure of accompanying Sachira Henderson, a student from Youree Drive Middle School, as she addressed the Caddo Parish Commission today on her developed BEAST (Bullying Ends Against Students Today) program. She also announced that as part of this program, October 24th is Unity Day and everyone is encouraged to wear orange.

Mrs. Bell announced she will judge Pathways in Education's anti-bullying cookoff this weekend with donations going toward their professional development and anti-bullying programs.

Ms. Trammel reminded Board members to turn in their United Way pledge.

Mr. Riall announced that on November 11th (Veterans Day), many of our schools will be recognizing the 100th anniversary of the end of World War I and Board members were encouraged to attend one of the many Veterans' Day programs being held in Caddo Parish schools.

ADJOURN

Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:08 p.m.

September 4, 2018
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Susannah Poljak, Mary Trammel, Raymond Green and Durwood Hendricks. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Steve Riall, Dr. Bonita Douzart and Denee' Locke; Staff members Jim Lee and James Woolfolk.

Mrs. Bell called the meeting to order at approximately 2:00 p.m. Mary Trammel led the invocation and Pledge of Allegiance.

Establish the Agenda as Submitted. *On motion by Mary Trammel, second by Durwood Hendricks, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Mary Trammel, second by Durwood Hendricks, the agenda was confirmed as presented.*

2019-20 Group Insurance Renewals.

Randy Watson, director of insurance, stated that staff is recommending no changes in benefits, and no increases in deductibles, co-pays or out-of-pocket expenses for the 2019-20 group insurance renewals. He explained that in looking at what future claims and premiums might be, staff looked at the data up to June of the current year for presenting projections to the committee and to the Board. He also shared claim data, as well as trends in medical claims, pharmacy claims and premiums. Mr. Watson stated the last premium increase was in 2017; and if no increase this year, the premium (revenue) possibly will erode slightly, but this is built into the projection models.

He reminded the committee that Caddo is self-insured and is in a rate guarantee with Blue Cross through 2020 with current reserves being high and the pharmacy strategies are still working. The down side could be that an unusually low volume of large claims may be understating future claims, and larger claims could continue to get higher with the district hitting a record high claim of over \$1.3 million. He reported that new genetic drugs are hitting the market with costs of +\$800,000, no medical management changes were made last year and none are proposed for the coming year, there are no groundbreaking strategies on medical management at this time, healthcare inflation trends are always present yet they do not manifest until later, projections are made without the data of the highest summer months, reinsurance costs possibly increase next April and the budget for 2018-19 was already complete with no increase allotted. Mr. Watson also stated that relative to pharmacy care management, we are still getting a return on investment, so it is his recommendation to renew the contract for another year.

Relative to genetic drug treatment, Mr. Hendricks asked if it is possible to exclude this. Mr. Watson responded you can, but in setting the formularies Blue Cross does not make these decisions in a vacuum, but they look at the prevailing recommendation by the American Medical Association and the various pharmacy groups. The problem in saying no is most times these drugs have very few side effects and are 90% effective. He added while there are a lot of drugs we say no to and offer another option, you do not want to tell someone no purely from a financial standpoint, but because there is something more cost effective and is just as effective. Mr. Abrams asked the cost for the pharmacy management contract and if companies bid against each other. Mr. Watson explained the District pays them a set fee that has a guaranteed performance. At this time, Mr. Watson shared that his conservative projection is the cost will double.

Relative to dental, Mr. Watson explained staff is projecting a 3.3% increase. However, with approximately \$1 million in the fund, and 3.3% representing approximately \$77,000, staff recommends not increasing the premium, but pay this amount out of the reserve and keep the premium and benefits the same. He further added the premiums on the dental are the same as in 1999.

Regarding life insurance, Mr. Watson said he negotiated a two-year rate guarantee from now through 2021 with no premium or benefit change. He also explained the high risk with life insurance because life insurance claims are a guaranteed pay-off; and the day will come when the District will have to pay part of the premiums to keep the fund afloat. Mr. Lee shared the example that in health insurance the District pays 75% of the premium and the employee pays 25% whereas in the life insurance, the employee pays 75% and the District pays 25%.

Mrs. Bell asked when retirees return to work are they on our insurance, and what happens in the summer months. Mr. Watson stated they are never taken off the insurance when retired because state law says if someone is dropped because they retired, it is difficult to

get back on. Ms. Trammel asked about the need to make sure this is in the budget in the coming year, and Mr. Lee said because the reserves were strong, they did not feel it necessary to add into the current (2018-19) budget; however, it could be different with the 2019-20 budget. Ms. Trammel asked if the one-year contract extension could be multiple years. Mr. Watson responded it could, but his recommendation would be to move toward a closed formulary; and if you extend the contract for two years, it would be into 2020 and the District would be locked into that company. He also stated that no matter the company, he believes it is important to have someone with administrative oversight experience.

Mrs. Locke asked staff to clarify why this meeting (regarding renewals) is at this time each year. Mr. Watson explained that deductions for active employees are effective April 1 which means the deduction begins in the employees' March check. The deduction for retirees comes out 2 months earlier to the retirement system (February), and you have to also allow employees the opportunity to say yes or no to changes (January); and with the holidays in November and December, and notifying all employees, this backs the timeline to October for the Board to vote on the changes. Doing it in this timeframe gives employees ample time to review proposed renewals/changes, if any, and make any changes they wish prior to the date deductions begin in March.

Mr. Green stated he believes it would be important to consider an understudy in this area.

Ms. Trammel moved, seconded by Mr. Green, that the Committee recommend adding to the October 2018 CPSB agenda the 2019-20 Group Insurance Renewals for the Board's consideration. Vote on the motion carried. Chair Bell announced that staff will present this information at the next meeting with the employee organizations prior to the October work session.

VISITORS

Jackie Lansdale, Red River United

Adjourn. On motion by Ms. Trammel, second by Mr. Green, the meeting adjourned at approximately 2:55 p.m.

**CPSB Meeting
September 18, 2018**

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Dr Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Durwood D Hendricks, John L Albritton, and Dottie Bell. Also present were Dr. T. Lamar Goree, superintendent, and Reginald Abrams, legal counsel. Mr. Rachal led the Invocation and Pledge of Allegiance.

Consideration of Minutes of the August 21, 2018 and September 4, 2018 CPSB Meetings

Mr. Rachal moved, seconded by Mrs. Locke, to approve the minutes of the August 21, 2018 and September 4, 2018 CPSB meetings as submitted. Vote on the motion carried with Miss Green absent for the vote.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following students/staff for outstanding achievements. The Board President and the Superintendent presented each with a certificate for their accomplishment. Administrators, family, and friends present were also recognized.

Green Oaks N.E.X.T. Generation Band. Jeremiah Furlow, director of bands at Green Oaks High School, introduced members of the Green Oaks N.E.X.T. Generation Band who played two musical numbers for the Board and audience.

Caddo Magnet High School State Gymnastics Champions. The Caddo Magnet Girls Gymnastics Team was recognized as the 2017-2018 LHSAA Girls State Gymnastics Champions, which is their fifth time for receiving this recognition.

Quest for Excellence Recipient. Luke Couch, senior at North Caddo High School, was recognized for receiving an award from QuestBridge where he was chosen from a competitive group of College Prep Scholars to receive a Quest for Excellence Award.

Leadership Enterprise for a Diverse American Participant. Bobby Shell, senior, Captain Shreve High School, was recognized for completing an intensive seven-week program at Princeton University and sponsored by Leadership Enterprise for a Diverse American (LEDA). One of two students from Louisiana, Bobby completed a rigorous, multi-tiered application process that provided a preview of the admission process for selective colleges and universities, as well as taking college prep classes and touring near-by schools.

National PTA Schools of Excellence. Tori Parrott, new District PTA President, recognized the following schools as 2018-2020 National PTA Schools of Excellence: Caddo Magnet High (PTSA), Captain Shreve High (PTA), Eden Gardens Fundamental Magnet (PTA) and Fairfield Elementary Magnet (PTA) schools.

Louisiana Finalist for the Presidential Award for Excellence in Mathematics. Heather Williams, 3rd grade mathematics teacher at South Highlands Elementary Magnet School, was recognized for receiving the Presidential Award for Excellence in Mathematics and Science Teacher (PAEMST).

Shreveport Kiwanis Club Teacher of the Year. Mrs. Kathryn Drake McDowell was recognized for being named the 2017-2018 Shreveport Kiwanis Club Teacher of the Year.

Advocate Grant Winner from the Society for Science and the Public. Amy Douglas of Captain Shreve High School was recognized as the recipient for a second year of the Advocate Grant by the Society for Science and the Public.

Newly Appointed Administrators. Chief Human Resource Officer Diane Atkins introduced the following newly appointed administrators: Jennifer Tillman, new teacher content coach; Alyssa Simmons, assistant principal, Youree Drive Middle School; and Alice Morris-White, assistant principal, Woodlawn Leadership Academy.

VISITORS

The following visitors addressed the Board: Jackie Lansdale, Red River United, transfer policy; and Tracy Sparaco, Ireland Sparaco and Lisa Moffett, CNA Program at North Caddo High School.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. Mr. Riall announced that the consent agenda would consist of items 8.01-8.07 and 13.01. *Ms. Trammel moved, seconded by Mr. Green, to establish the agenda and consent agenda for the September 18, 2018 CPSB meeting as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Green, to confirm the consent agenda. Vote on the motion carried. The following is a summary of the Board's action on the consent agenda items.

8.01 Property/Bus Rental Requests. The Board approved requests for use of CPSB property as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as submitted by staff in the electronic mailout.

8.03 Consideration of Signs of Suicide Prevention Program. The Board approved implementing the Signs of Suicide program in all Caddo middle schools as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Servitude Requests at Knight Street and Broadmoor Middle School Properties. The Board approved servitude requests at the Knight Street and Broadmoor Middle School properties as recommended by staff and submitted in the electronic mailout.

8.05 Consideration of Proposed CPSB Policy JGCF (Behavioral Health Services for Students). The Board approved the proposed CPSB Policy JGCF (Behavioral Health Services for Students) as recommended by legal counsel and submitted in the electronic mailout.

8.06 Consideration of 2018 Revisions to Strategic Plan. The Board approved the proposed 2018 revisions to Caddo's Strategic Plan ReImagine Caddo: The Plan for Excellence as recommended by the superintendent and submitted in the electronic mailout.

8.07 Consideration of CPSB Policy on Roles and Responsibilities of Internal Auditing Department. The Board approved the proposed CPSB Policy on the roles and responsibilities of the Internal Auditing Department as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved the student readmission appeals for students JD, TJ, DM and AW as recommended by staff and whose parents are in agreement.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Dottie Bell requested that an adhoc committee be created for the purpose of reviewing and amending the Board policy on personnel transfers and headed by the Superintendent, the staff and the teachers' organizations.

Barry Rachal asked staff to explain how we are applying Section B of the Transformational Partnership Agreement, and if there are any additional stipulations being applied.

Birthday wishes were extended to Board member Jasmine Green.

DISPOSITION OF GRIEVANCE FOR LISA MOFFETT

Ms. Trammel moved, seconded by Mrs. Poljak, to go into executive session for up to 30 minutes for the purpose of a grievance for Lisa Moffett. Vote on the motion carried, and the Board went into executive session at approximately 5:50 p.m. The Board reconvened in open session at approximately 6:53 p.m.

Mrs. Poljak moved, seconded by Mrs. Brown, to uphold staff's decision regarding the grievance of Lisa Moffett. Mr. Rachal asked if the employee in question has the ability to apply for employment with Caddo Parish School System in the future, and Dr. Goree said absolutely. Vote on the motion carried with Board member Raymond Green opposed. Dr. Bonita Douzart was absent.

Adjournment. On motion by Ms. Trammel, second by Mr. Rachal, the meeting adjourned at approximately 6:57 p.m.

October 2, 2018
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry F Rachal. Also present were Dr. T. Lamar Goree and Attorney Reggie Abrams and Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Durwood Hendricks, Jr.; John Albritton and Dottie Bell. Steve Riall was absent.

First Vice President Mary Trammel called the meeting to order at approximately 4:35 p.m. and Board member Durwood Hendricks led the invocation and Pledge of Allegiance.

2019 Group Insurance Renewals

Randy Watson, director of insurance, presented the 2019 insurance renewals (health, dental, life, disability group plans), as well as the pharmacy benefit management contract. He highlighted the timeline followed to bring renewals for the Board's consideration in October of each year, which allows sufficient time for notifying all employees of any changes prior to implementation April 1st. Mr. Watson highlighted the data on health care and pharmacy claims as well as trends reflective of changes that have been made in the District's plans. While the totals for medical, dental and administrative expenses have seen some inflation over the past 12 months, staff is seeing positive results compared to past years. Regarding revenue, Mr. Watson reminded the Board that because the District is self-funded, the revenue comes from the premiums and he noted points throughout the calendar year where there may be a dip in the amount received in premiums (i.e. when employees retire or terminate). In looking at revenue vs. premiums, he stated this information must be taken into consideration when making projections. At this time, he reported Caddo's reserves are at a record high and the pharmacy strategies are holding very well with the District beating the state average. The challenges might be that because large claims are down, projection of future claims may be understated. Mr. Watson also reported the District's reinsurance is likely to increase, but it remains manageable; and at this time, the District budget has been approved by the Board and did not include additional dollars in the health care reserves because of how healthy the reserves are currently.

Mr. Watson highlighted the following recommendations for the Board's consideration.

- No change in health insurance premiums nor benefits because of the District's healthy financial reserves.
- Maintain reinsurance at \$750,000 deductible at the lowest bid.
- Renew the Administrative Services Contract (ASO) with Blue Cross at the current rate through March 31, 2021.
- Use the Premium Stabilization Funds (PSF) to maintain dental premiums at their current level with no change in benefits and renew fully insured dental contract with Blue Cross for one year.
- No change in Life Insurance benefits or premiums for two years and renew the fully insured life insurance contract with Standard Life Insurance through March 31, 2021
- No change in disability insurance benefits or premiums for two years and renew fully insured disability insurance contract with Standard Life Insurance through March 31, 2021.
- Continue the pharmacy services currently contracted through Patient Care Management (PCM) and renew PCM through March 31, 2020.

Mr. Rachal asked how much is in the District's reserves, and Mr. Watson responded it is in the \$30-\$40 million range. Mr. Rachal also asked Mr. Watson to explain in more detail some of the changes that have been made in the management which has resulted in no change in employees' premiums. Mr. Watson stated that in 2010 drug compounding was approximately \$30,000 annually, and the industry began to see ways to make big profits in this by compounding drugs that were not previously compounded, charging what the market would bare, however the District made changes to include pre-authorization and limits. He further explained the difference in name brand and generic drugs and how the company the District uses assesses the data on every individual's prescriptions and contact the physician about better choices. He added the drug industry is froth with lots of strategies for making more money, and Blue Cross and the staff continue to combat and anticipate these things in an effort to save money. Relative to medical, staff is working diligently to purchase the new models of health care, i.e. fee for service versus capitation. In 2013, we piloted the "fee for performance" plan with Blue Cross and the physicians in the Quality Blue program load the software on their computers; and if the patient

shows improved health, they get more money; however, if the results are poor, they receive less money. This is the health care model the District is moving toward.

Mrs. Locke asked for clarification and if the only increase was the .5 in the dental administrative fee, and Mr. Watson said that is correct. Relative to the Pharmacy Care Management, Mrs. Locke asked for clarification on how they are paid, and Mr. Watson explained we have a performance guarantee and they are paid an amount for every member per month, and this amount has decreased from the original price by approximately 17 to 18% or approximately \$2 million in savings.

Mrs. Brown expressed her appreciation to Mr. Watson for his outstanding management of the District's insurance plans.

Dr. Goree extended appreciation to Mr. Watson and his staff for the outstanding job in bringing forth the proposed renewals as well as managing this benefit and its cost so effectively. He also reminded everyone there are not many who can say they have not seen an increase in premiums for two years.

Mrs. Bell expressed appreciation from the Insurance and Finance Committee for the presentation and Mr. Watson and the Insurance Department staff for their hard work.

Establish Agenda for the October 23, 2018 CPSB Meeting

Superintendent Goree highlighted items for the Board's consideration at its October 23, 2018 meeting and the following discussion ensued.

Consideration of Proposed New/Revised CPSB Policies EBBB and EBBC. Mrs. Locke asked for a brief explanation on these policies. Attorney Abrams stated this new policy comes as a result of Legislation enacted at the 2018 session. It follows the state statute and puts into place a policy/procedure to be followed for determining if a threat at the school is a real threat or not. If the threat is determined to be a real threat, it is turned over to law enforcement; and if the threat is turned over to law enforcement, the student will not be allowed to come back to school until a formal evaluation is conducted showing that the student is not a danger to himself or others. He further stated that all staff will be trained, and a process, forms and questions developed, and implementation discussed at a scheduled meeting with Judge Young on October 17. Putting this policy in place is the first step and it states the superintendent must come up with the procedures for implementing. Mr. Abrams further explained the second policy is an update on the crises management policy adding language that Mr. Murry and Homeland Security are to report any incident to the parents since it was learned in the last session that someone did not report an incident.

Miss Green asked if she understands this is effective immediately, and Mr. Abrams responded that is correct. Mrs. Poljak asked about liability, i.e. someone from school reports someone and it turns out that person was not a threat to anyone. Mr. Abrams believes the statute states if it is done in good faith, there is no liability. Mrs. Poljak asked if someone at a school does not take a threat seriously and report it, how is it handled; and Mr. Abrams explained that after meeting with Judge Young, he believes the School Building Level Committee could be who looks at the threat which means there are numerous persons looking at it. If a threat is determined to be a real threat, it is then turned over to law enforcement.

Mrs. Bell asked about the old policy and the policy addressing a student with a gun on campus and if employees are taught protocol in the event this happens. Mr. Abrams explained this provides for making certain everyone is trained in how to respond to anything that could be considered a threat. Dr. Goree noted that at the beginning of each school year, training is provided on safety and security and how to handle an environment that could become an unsafe environment. He further stated this policy puts into print the many things already happening in Caddo's schools. Mr. Abrams said it will be a simple process; and if someone hears in the community that something might happen at a school, they need to report it to administration.

Dr. Douzart asked about the evaluations and if the evaluations will include indicators that the majority of threats are internal? Mr. Abrams explained it is not about keeping stats, but it is about investigating things that are said. Dr. Goree explained that statistics in the schools are looked at often by staff when implementing data/statistics.

Mr. Rachal asked about the protocol for addressing a student on campus with a gun, and Mr. Abrams said they would be confronted by the SRO and arrested. Dr. Goree added that whenever a student has a firearm on campus, staff immediately notifies the police officer on campus to determine how the situation is handled. Mr. Rachal asked if a child is found to be in possession of a firearm on campus, what is the protocol in the classroom/campus: is it the SRO who is contacted and determines how to address the student.

Mr. Murry explained that whatever information is received goes to the SRO, to the administration and they would remove that student from the classroom (or how the director chooses to address the situation which is dependent on the situation). Dr. Goree said the consistent step is the administration and police officer are contacted because there are various situations and how they are reported. Mr. Rachal inquired as to who is contacted first, and Mr. Murry said it depends on who receives the information first and there is no set protocol. Mr. Rachal asked is it correct that teachers do not have direct access to the SRO or police officer, and Mr. Murry said that is not necessarily correct because it is dependent on how the information is relayed and to whom it is relayed. Dr. Goree added that many teachers go directly to the SRO because they have the SRO's cell number as well as the principal's. He also explained that Security at times will receive calls from parents if a child says something to them; and at that time, staff will approach the SRO and the administration.

Mr. Green shared he understands the complexity of this subject and there are multiple solutions to some problems; and he feels we should use multiple resources to insure that the best answer is received for each situation. He encouraged using the teachers and all other resources available on our campuses, as well as those available in the communities.

Ms. Trammel requested that at a future Board retreat, Board members are trained on what to do in the case of an emergency on Caddo campuses.

Mrs. Bell reported on a class she attended at the CUBE Conference, and Dr. Douzart also reiterated what she heard in workshops at the recently held CUBE Conference.

Consideration of 2019 Capital Projects. Mr. Rachal asked Steve White to explain the process for determining project priority. Mr. White explained that staff begins by asking each school principal for the top 3 projects for their campus, as well as a list from the Maintenance Department of critical needs throughout the District. Staff also submits a list of priority capital projects, i.e. incomplete HVAC projects (Byrd Phase 4, and Keithville and Turner Phase 3). He also explained they compile a list from these requests, which totaled \$70 million for the coming year, and then prioritize according to the \$21 million budgeted for the coming year. He also explained that of that amount, only about \$13 million will be available directly for projects, as approximately \$8 million will be designated to HVAC projects plus ¼ of a million dollars held for emergency situations. Mr. White also added that many of the kitchens and dining areas installed in the 90s are beginning to fail at an alarming rate as well as some of the chillers; and while we have experienced somewhat of a luxury in the past being able to budget approximately \$300,000 to address temporary buildings, this amount has been reduced in the budget to \$150,000 moving only one this year. Dr. Goree noted that the HVAC projects totaling \$8 million is a real concern, and even with the right-sizing that has happened in the District over the last few years, there are critical needs still to be addressed in the schools we will continue to use. The cost of repairing and addressing HVACs, kitchens and the buildings are definite concerns that must be addressed by the Board in the next few years.

Mr. Rachal asked about the \$8 million difference in the \$21 million and if the \$13 million is for maintenance and other categories, and Mr. White explained it includes service of QSCAB debt, salaries and benefits of the Capital Projects staff, legal recording fees, percentage for designer fees and construction projects, lock maintenance, asbestos abatement, purchasing department allowance for furniture, IT wiring, emergency HVAC repair, wood floor refinishing, temporary buildings, etc.

Mr. Rachal asked about the plan for addressing the HVAC issue in the district, and Dr. Goree responded how the strategic plan addresses this with the conversation about right-sizing the District still being a relevant part of the conversation. He also believes we are getting close to identifying schools that will be in place in 10 years, but in looking at where the dollars will be spent, it is difficult to see how we will continue with the revenue being received. He further stated that replacing the

number of buses in the fleet that will retire at one time because of the law is also an important part of these conversations.

Mrs. Bell asked staff to look at the restrooms near the office at Walnut Hill and advise what can be done to move this project to the emergency list. Dr. Goree reported that in discussing projects with the school directors and what the schools are wanting, the question is if a school gets something additional on their list, what are they willing to give up to get it.

General Fund Line Item Transfer. Mr. Rachal asked staff to explain Ms. Dana Spiers agreement to cover the remaining \$3,600 plus materials and supplies. Dr. Goree explained that Dana Spiers works in the Professional Development Department and the Jump Start Program and manages grant dollars for this area. Miss Green asked Mr. Lee to explain this transfer of funds. Mr. Lee stated that the Athletic Department has some mandated CPR training and did not have ample funds in the General Fund allotment to cover it. To cover the approximate \$6,000 cost, they are requesting moving ½ from their own Supply Account into Inservice, and the other funding source will fund the remainder. There will be no effect on General Fund since it is an equal move of money and this allows for an appropriate way to account for these funds in moving from one account to another.

Consideration of Request for Consent to Assign Enduro Operating LLC's State Agency Lease #19251 to Comstock Oil & Gas - Louisiana LLC. Dr. Goree explained this is a matter of one company purchasing another and all the relative documentation to reflect it.

Begin the Process of Renaming the Booker T. Washington High School Auditorium the Dr. Harry Blake Sr. Auditorium. Board member Jasmine Green shared that with Booker T. Washington High School being the main historic African American school in Caddo Parish, she believes it befitting to honor Dr. Blake and his place in Shreveport's history as a Civil Rights activist and his connections with Dr. Martin Luther King and the NAACP by naming the BTW auditorium the Harry Blake Sr. auditorium.

Presentation of Proposed Agenda and Consent Agenda. Ms. Trammel announce the following items as the consent agenda for the October 23 meeting: 7.01, 8.02-8.08, and 13.01. *Mr. Rachal moved, seconded by Ms. Trammel, to approve the proposed agenda and consent agenda for the October 23, 2018 CPSB meeting as presented. Vote on the motion carried.*

Announcements

Mrs. Bell announced that the feeding program was offered and is now available to children in the Greenwood area at the Greenwood Library, and she expressed appreciation to the Town of Greenwood's Aldermen for stepping up and providing the sink needed for receiving clearance to offer this program for the children in the Greenwood area.

Miss Green thanked Mrs. Brown for allowing her to bring forth the item to name the BTW Auditorium for Dr. Harry Blake.

Mrs. Brown also shared visiting with a former student who was successful as a result of going through the alternative program and boot camp in Caddo Parish. She believes those programs literally kept students off the streets at night because they were so tired from being in school all day (12-15 hours) every day.

Mr. Green shared how elated he was over the business endorsement and other sources in the community to meet the needs in Caddo's schools, and specifically District 7, i.e. Simple Church in Bossier gave each child at Oak Park a pair of shoes, Progressive Insurance provided students with materials and supplies, New Greenwood Baptist Church provided students with new backpacks and supplies, State Farm provided 65 backpacks, FDDOC provided school supplies, and Atoning Twenty provided 100 backpacks, United Way provided supplies; and Rep. Barbara Norton who continues to support education and was recently recognized by the Louisiana Association of Educators as a 1000% supporter of education in the Louisiana Legislature as well as her efforts to provide shoes and supplies through WalMart.

Dr. Douzart reported on dynamic sessions at the Council of Urban Boards of Education (CUBE) Conference and the volumes of information provided and the consistent focus on the child. She said collaboration, accountability, equity, removal

of barriers, strengthened community relationships, improved student life academically and safety were topics on which they received information. Her favorite sessions addressed safety in schools and alternative schools where state legislatures mandated school systems to use forms for students with multiple violation and only reporting if a student is in good standing or not in good standing.

Mr. Hendricks noted the recent announcement in the newspaper about Caddo Magnet High School being sixth in the country when receiving its 2nd National Blue Ribbon recognition.

Dr. Goree reminded the Board of the Teacher of the Year Banquet on October 11th at 6 p.m. at the Convention Center, the Intergovernmental Meeting on Friday, October 5th at 11:30 a.m. in the Wanda Gunn Professional Development Center, and congratulated Caddo Magnet High School on receiving their 2nd National Blue Ribbon School of Excellence Award for continued academic performance of excellence. He announced this is the 16th award for the Caddo District which solidified Caddo as the state leader in districts that hold National Blue Ribbon prizes across the nation. He also noted that a school can only receive this award every 10 years and Caddo Magnet first received it in 2008. Dr. Goree also announced the National School Boards Association Annual Conference will be held in Philadelphia March 30-April 1, 2019 and if interested in attending, Board members should contact Ms. Lohnes.

Adjourn. *Mr. Rachal moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:55 p.m.*

CPSB Meeting October 23, 2018

Members present: Steve Riall, Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee Locke, Barry Rachal, Durwood Hendricks, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams.

President Riall called the meeting to order at approximately 4:30 p.m. and Board member Durwood Hendricks led the invocation and Pledge of Allegiance.

Consideration of Minutes of the September 18, 2018 and October 2, 2018 CPSB Meetings. *Ms. Trammel moved, seconded by Mrs. Bell, to approve the minutes of the September 18, 2018 and October 2, 2018 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.*

Presentations and Recognitions

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each recognizing their achievement(s). Family members, friends and administrators present were also recognized.

Music Presented by Booker T. Washington High School Band. Members of the Booker T. Washington High School Band, under the direction of Band Director Emanuel Hudson, performed musical selections for the Board and audience.

National Merit Scholarship Program Semi-finalists. The following students were recognized as National Merit Scholarship Semi-finalists: Dylan Tynes, C. E. Byrd High; Srihar Chilukuri, Katherine Howell, Dain Ross, Catherine Rutledge, Sarah Salvatore and Kaili Taylor, Caddo Parish Magnet High; Harmon Patriquin, Caddo Virtual Academy; and Luke Couch, North Caddo Magnet High.

National Merit Scholarship Program Commended Scholars. The following students were recognized as the 2018-2019 National Merit Commended scholars: Cade Crandall, C. E. Byrd High; Ruth Bodily, Noah Lesko, Natalie Lim, Palmer Miley, Timothy Oliver, Liam Shacklette and Ajaya Tummala, Caddo Parish Magnet High; and Georgia Hilburn, Captain Shreve High.

National AP Scholars and AP Scholars. The following students were recognized as the 2018-2019 AP Scholars from C. E. Byrd High: Dylan Tynes (National AP Scholar); Hannah Berry, Emily Clark, Cade Crandall, Ashlyn Gotberg, Levi Mayeaux, Matthew Raney and Matthew Walls (AP Scholars with Distinction); Ford Copple, Kennedee Harrell, Richard Klotzbach, Morgan Little, Jaycie Martin, Magdalene Sumlin, Allison Thomas, Olivia Walker, Riley Walker and Elena Willis (AP Scholars with Honor); and Emily Aillet, Emma Barkley, Rachel Britt, Gillian Cole, Keiser Dallas, Opefoluwa Desalu, Zachristanae Eason, Nicholas Erwin, Caroline Gibbs, Alexis Lee, Wyatt McCrary, Christian Mitchell, Anna Partington, Josefina Simoncini, Mairead Smith, Alise Stephens, Nicholas Whitton and Kayla Wilson (AP Scholars).

The 2018-2019 AP Scholars from Caddo Parish Magnet High are: Catherine Rutledge (National AP Scholar); Srihar Chilukuri, Anna Dennis, Natalie Lim, Timothy Oliver, Erika Pendleton, Catherine Rutledge, Lawrence Shi, Saad Tanveer, Kaili Taylor, Ajaya Tummala and Iza Zabaneh (AP Scholars with Distinction); Ruth Bodily, Phoebe Cragon, Sarah Salvatore and Grace Shin (AP Scholars with Honor); and Thuytien Chu, Chondra Fain, Cassandra Halford, Lyssa Harmon, Katherine Henderson, Rachel Holman, Omar Ibrahim, Palmer Miley, Mary Muslow, Dain Ross, Ashley Stephens, Jacqueline Van Savage, Cortez Walters and Natalie Weaver (AP Scholars).

Scholars from Captain Shreve High are: Cade Davis, Austin Green, Jacob Kingery, Robert Shell and Jacob Wise (AP Scholars).

Lilly Paris Savage was recognized as a 2018-19 AP Scholar from North Caddo High.

UNICEF USA National Council Member. Anna Dennis, a senior at Caddo Parish Magnet High, was recognized for being chosen to be a part of the UNICEF USA

National Council. She is one of only 13 students representing six high schools across the nation.

Gloria Barron Prize for Young Heroes Honoree. Joey Gouthiere, 13-year-old student from Youree Drive Middle School, was recognized as a 2018 honoree by the Gloria Barron Prize for Young Heroes. Joey founded Geaux Green, an environmental campaign that encourages everyone to take care of the Earth.

Climate Week NYC Participant. Sarah Salvatore, senior at Caddo Parish Magnet High and president of the Magnet Greens Club, was recognized for being invited to come to New York City and the United Nations General Assembly's Climate NYC Summit to share some of the impactful activities of Magnet's Greens Club.

James Patterson Award and Grant Winner. Mrs. Rosie Woodley of South Highlands Elementary Magnet was recognized as the recipient of the James Patterson Award and Grant winner. She received \$500 and 500 bonus points that will be used for her classroom library.

Public Hearing for Naming the University Elementary School Auditorium for Lillian Mothershed

President Riall announced the public hearing open for naming the University Elementary School Auditorium for Lillian Mothershed. Board member Rachal recognized former School Board member Curtis Hooks and Mrs. Mothershed's daughter and noted Mrs. Mothershed's legacy in Caddo Parish public schools. Mrs. Bell also stated that Mrs. Mothershed was her mentor when she began her career in education. There being no additional speakers, the public hearing was closed.

Visitors

The following visitors addressed the Board on matters of concern/interest: Sharon Johnson (Booker T. Washington Alumni), Calvin Lester, and Jackie Lansdale (Red River United). Mr. Rachal asked the superintendent for a report clarifying the matter brought forth by Mrs. Lansdale.

Superintendent Goree clarified that the item on tonight's agenda is a vote to begin the 90-day process as set forth in Board policy; and on December 18th there will be a public hearing on the agenda regarding renaming the BTW auditorium for Dr. Blake before the final vote on January 15th.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration, and following discussion, President Riall announced Items 6.02-6.03, 7.01, 8.02-8.07 and 13.01-13.02 as the consent agenda.

Mrs. Lansdale, RRU, addressed Item 8.04 Consideration of Proposed New/Revised CPSB Policies EBBB and EBBC.

Mrs. Locke moved, seconded by Ms. Trammel, to establish the agenda and the consent agenda as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mr. Green, to confirm the consent agenda. Vote on the motion carried. The following is a summary of the Board's action on the consent items.

6.02 Personnel Transactions Report (Resignations). The Board approved the Personnel Transactions Reports and Resignations as recommended by staff and submitted in the electronic mailout.

6.03 Requests for Leave. The Board approved requests for leave as recommended by the superintendent and submitted in the electronic mailout.

7.01 Bids. Purchasing. The Board approved the bid of The Band House for musical instruments as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet. *A copy of the bid tabulations are filed in the official files of the October 23, 2018 CPSB meeting.*

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of 2019 Group Insurance Renewals. The Board approved the 2019 group insurance renewals as recommended by the CPSB Insurance and Finance Committee and presented in the electronic mailout.

8.04 Consideration of Proposed New/Revised CPSB Policies EBBB and EBBC. The Board approved the proposed new/revised CPSB Policies EBBB and EBBC as recommended by staff and submitted in the electronic mailout.

8.05 Consideration of 2019-20 Capital Projects. The Board approved the proposed 2019-20 Capital Projects as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of General Fund Line Item Transfers. The Board approved the General Fund line item transfers as recommended by staff and submitted in the electronic mailout.

8.07 Consideration of Request for Consent to Assign Enduro Operating LLC's State Agency Lease #19251 to Comstock Oil & Gas - Louisiana LLC. The Board approved the request for consent to assign Enduro Operating LLC's State Agency Lease #19251 to Comstock Oil & Gas Louisiana LLC as recommended by staff and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved student readmission appeals for students CH, RJ, NM, and MJ as recommended by staff, submitted in the electronic mailout and whose parents are in agreement.

13.02 Request for Settlement Authority, Kenyata Ortiz vs. CPSB, Office of Workers' Compensation, Claim #18-02064. The Board authorized settlement as recommended by staff and submitted in the electronic mailout.

BEGIN THE 90-DAY PROCESS OF RENAMING THE BOOKER T WASHINGTON HIGH SCHOOL AUDITORIUM THE DR HARRY BLAKE SR AUDITORIUM

Ms. Green moved, seconded by Ms. Brown, to begin the 90-day process of renaming the Booker T. Washington High School auditorium the Dr. Harry Blake Sr. Auditorium.

Ms. Green explained that this came as a result of some of her constituents talking to her about a Civil Rights project and she supported bringing this forward. Realizing that there are some who are opposed to this, she said that if there are more opposed to it than there are those supporting it, she will be glad to pull it. She encouraged the Board to support beginning this process and allow the hearing to be held to determine the support for it. Ms. Brown stated her support and that she and Ms. Green discussed this project before bringing it forward.

Ms. Trammel stated that she asked that this item not be on consent because she received a number of calls asking why the Booker T. Washington Alumni and Foundation were not included in the process before it was put on the agenda. She added she believes it is only right and would like to see a conversation take place with the Alumni and Foundation about this project. Mrs. Bell echoed Ms. Trammel's comments and clarified for those who have said this is a done deal that this is only to begin the 90-day process. She too encouraged coming together to arrive at a consensus. Mr. Green also stated he received calls on this matter and he believes the 90-day process will allow the time needed.

Ms. Brown said that she would like to see the Board, or the leader of the Board, define the role of certain ones, i.e. the alumni, the Board member, job descriptions.

She further clarified that voting to begin the process will allow 90 days for this to be addressed. President Riall reiterated that the motion tonight is to only begin the process; and during the process, discussion can take place on the pros and cons.

Mr. Rachal stated that Ms. Green indicated she will be happy to meet with these groups and referenced an email at each one's station. He stated his support of the motion to begin the 90-day process. Ms. Brown added that she has been working with certain ones and will continue to work with interested parties.

Vote on the motion to begin the process carried.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mr. Riall left the meeting and turned the meeting over to First Vice President Mary Trammel.

Dr. Douzart reported on the retirement meeting with the Governor on this date and his report on the positive financials and a possible \$1,000 increase for teachers and \$500 for other employees. She also announced that her granddaughter, a student in Caddo Parish Public Schools, will be playing the part of Clara in the Shreveport Metropolitan Ballet's presentation of "The Nutcracker" and invited all to attend on December 1st.

Mrs. Locke announced that Wednesday, October 24th is Unity Day in recognition of National Bullying Prevention Month, and encouraged everyone willing to wear orange on Wednesday.

Dr. Goree noted the September-October copy of *The Caddo Parish Schools Magazine* at each Board member's station and stated that extra copies are available in Communications for distribution to businesses in the community.

Adjournment. *Mrs. Locke moved, seconded by Ms. Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:04 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

November 7, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F Rachal. Also present were Chief Academic Officer Keith Burton, Attorney Reggie Abrams and Board members Dr. Bonita Douzart, Raymond Green, Denee' Locke, Durwood Hendricks, Jr.; and Dottie Bell.

President Steve Riall called the meeting to order at approximately 4:35 p.m. and Board member Rachal led the invocation. Members of the Southwood JROTC presented the colors and led in the Pledge of Allegiance.

PRESENTATIONS

Chief Academic Officer Keith Burton announced that Superintendent Goree is in Washington, D.C. with Principal Mike Ilgenfritz to receive Caddo Parish Magnet High's National Blue Ribbon recognition.

JROTC Promotions. Colonel Eric Sweeney, JROTC supervisor, recognized Cadet Colonel Select Za'Christanae Eason, C. E. Byrd High School, for promotion to Colonel and appointment as the JROTC Corps Commander for the 2018-19 school year.

The following cadets were also introduced for promotion: (1) Cadet Major Timothy Oliver, Caddo Magnet High School, 1st JROTC Brigade Commander; (2) Cadet LTC Kelsey Krikorian, Northwood High School, 2nd JROTC Brigade Commander; and (3) Cadet LTC Shakonna Sudds, Captain Shreve High School, 3rd JROTC Brigade Commander. Colonel Sweeney reminded everyone that this Veterans' Day is the 100th Anniversary of the close of World War I and encouraged everyone to attend one of the Veterans' Day programs that will be taking place in Caddo's middle and high schools.

ESTABLISH AGENDA FOR THE NOVEMBER 13, 2018 CPSB MEETING

Mr. Burton highlighted items on the agenda for the Board's consideration at the November 13, 2018 meeting and the following discussion ensued.

Renaming University Elementary auditorium for Mrs. Lillian Mothershed. Mr. Rachal stated that members of Mrs. Mothershed's family and former Board member Curtis Hooks will be in attendance and desire to address the Board on this item.

Additions

Mrs. Bell requested that an update on the review of the District's transfer policy be added. Mrs. Bell asked if the committee has met, and Mr. Burton responded it has. This item was added under Superintendent's Report and will be placed on the agenda in December.

Following discussion, President Riall announced the following as the consent agenda: Items 7.01, 8.02-8.03 and 8.05. *Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the November 13, 2018 CPSB meeting as presented. Vote on the motion carried.*

Announcements

Mrs. Bell expressed her appreciation for the opportunity to serve four more years.

Dr. Douzart extended an invitation to all to attend this year's performance of *The Nutcracker* at which her granddaughter, Bryanna Lacey, will play the part of Clara.

Mr. Burton announced that a schedule of the Veterans' Day programs is placed at each Board member's station and those who could were encouraged to attend.

Ms. Trammel announced that services for former Board member Lola May will be Friday at Mt. Canaan Missionary Baptist Church at 6:00 p.m. and interment will be on Saturday at 10:00 a.m.

Adjournment. *Mr. Rachal moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:13 p.m.*

CPSB Meeting November 13, 2018

Members present: Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, and Dottie Bell. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams.

President Riall called the meeting to order at approximately 4:35 p.m. and Board member Mary Trammel led the invocation and Pledge of Allegiance.

Consideration of Minutes of the October 23, 2018 and November 7, 2018 CPSB Meetings. *Mrs. Bell moved, seconded by Mrs. Locke, to approve the minutes of the October 23, 2018 and November 7, 2018 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.*

Presentations and Recognitions

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Special Recognition by the Superintendent. Superintendent Lamar Goree thanked the Board for their support in his being named the 2019 Louisiana Superintendent of the Year, and shared what an honor it is for him to receive this State recognition. He added he realizes the work the CPSB has done is what has driven the conversations through the State Superintendent application process, i.e. National Blue Ribbon Schools, full TAP implementation and incentive pay in schools where they were needed. Dr. Goree shared a special thank you note to the Board members for their support in the District and that he is looking forward to continuing the success in Caddo.

Riverside Rams Show Choir. The Riverside Rams Show Choir shared two musical numbers from their Veterans Day Program.

Louisiana A+ Arts Integration School. Mooringsport Principal Debra Kurkiewicz was recognized for Mooringsport Elementary being named a Louisiana A+ Arts Integration School.

LACUE Region 7 Teacher of the Year. Guy Delcominette, Youree Drive Middle School, was recognized as a winner of the 2018 Louisiana Association of Computer Using Educators Regional Award for middle and high school teachers.

Young Professionals Initiative 40 Under 40 Honorees. The following Caddo employees were recognized as being honored as a member of the Young Professionals Initiative 40 Under 40: Dr. Alexis Nelson, teacher, Riverside Elementary; Mr. Marco French, principal, Queensborough Elementary; Dr. Kenya Claiborne-Roberts, principal, JS Clark Elementary; and Dr. Matthew Mitchell, principal, Huntington High.

2018 School Performance Scores Briefing

Keith Burton, chief academic officer, shared an overview of the District/Schools performance scores released on November 8th. He highlighted the recent accountability changes, and summarized the following results with the brand new accountability system.

- Caddo maintained a C letter grade
- 5 schools (8%) improved performance by a letter grade
- 42 (74%) schools maintained their letter grades
- 17 (26%) schools declined a letter grade (7 of the 17 schools currently rated as an "F" are two points from exiting that status).

Mr. Burton also, via the school performance score formulae, explained how we got to this point and what it means with the new changes. He highlighted the percentages at each level: 75% of the elementary score is made up from state assessment performance (Leap 2025), and 25% from student progress. In the elementary/middle schools, 25% comes from student progress (recognizing how well a student is doing at being on track toward reaching mastery at the end of 8th grade), 70% for state assessment performance, and 5% from credit accumulation (8th grade data as students leave middle school and number of credits a 9th grader achieves). He further explained high schools have an equal distribution of 25% each for state assessment performance and progress from end of course tests; ACT WorkKeys; strength of diploma (did the student take advance course work); and the graduation rate (did the student graduate on time with his/her peers). One change creating much confusion is the school letter grade scale, and the LDOE has implemented a transition letter grade scale necessary for a school to earn an A, B, C or D. In 2017-2021, the grading scale for an A school goes from 90 to 150 down to 49.9 and below as an F. He said many

confuse this scale as a percentage and it is not an A, B... percentage as seen on report cards but it is a scale based on index scores converted from scale scores; and he cited an example of how scores are affected by the change (scoring at basic in the past [proficiency level] students/schools received 100 points for Basic, but they now receive 80 points). Another change at the high school level included all high school assessments had four achievement levels prior to 2018 and now, with the same assessment levels, Basic is 80% as well as WorkKeys, with end of course exams being given in Algebra I, Geometry, English I, II, Biology and U S History. ACT and WorkKeys in high school not only included additional tests as well as changes with ACT and Work- Keys, with ACT being given to all Juniors and a shift in high schools that included a change in the college and career-readiness credit. Also, he stated that in the past when a student scored 18, the school received 100 points; however, if this happens now, the school receives 70 points. In order for them to now receive 100 points, the student must score a 21. He explained the State's rationale for this step and the changes in the scales as well as changes in the tests. He challenged all to go online and take these tests to see first-hand what the students are facing.

Mr. Burton also explained how awards for recognizing schools have changed; and that in the past Top Gains schools were identified solely on the achievement level of their students. While it is still the same, they have attempted to minimize the confusion by identifying Top Gains schools as those with a score equal to an A for Student Progress (where the students were when they began at the school and that students are on track to be at Mastery). He announced that 16 schools in Caddo received the Top Gains designation in 2018 which is a record. While he understands many are upset about the letter grades of schools, he recognized the fact that principals and teachers are growing students and they need to be celebrated for this. Another badge/award is the Equity Honoree; and Caddo Parish leads the State in equity discussions and what we are doing different for children that need more to succeed, and he added the State looks at the economically disadvantaged, English learners and students with disabilities. If a school has a sub group, if students are moving forward, and if they rank at the 90 percentile or higher, they are designated as an Equity Honoree. Caddo has seven schools that received this designation in 2018. Caddo also has two schools that received the 2018 Equity Honoree Students with Disabilities recognition.

In communicating the results, Mr. Burton stated that the first score a school receives will be the School Performance Score using the new formula, then the letter grade using the old formula, and the overall performance. Also in reporting the School Performance and Student Progress, we need to be concerned with assessment index as this is where our students scored on the LEAP or EOC as well as the progress index (not where a child/school is, but where is a child/school headed in reaching Mastery by 8th grade).

Melissa Mainiero highlighted and explained to everyone the Louisiana School Finder tool on the Louisiana Department of Education web site where details on individual school scores, designations, awards, recognitions, etc., can be seen. This site also shares comparative district/state information, i.e. how students performed, growth, breakdown by student groups, how the information is broken down for the public, additional subgroups, etc.

Superintendent Goree acknowledged the work still to be done despite the growth seen in the District. He said equity is an area that has been stressed and growth has been seen in ten of the 14 schools in the Transformation Zone even with the new accountability system. In looking at the progress indicators for growth, Caddo saw B's in 10 of the Transformation Zone schools. Dr. Goree also shared that the District is prepared to face the new system as presented, and he believes we will master this system as has been done in the past. He also addressed the 10-point slide in the transition score for the A, B, C and D scores but the F did not have the 10-point slide.

Mrs. Bell thanked staff for the presentation and asked if staff would be available to present and explain this information at School Board Member's Community meetings to help others better understand what is happening at the State level with these changes and the effect on schools. She also addressed the amazing program at Jack P. Timmons and that similar things are happening in districts across the State of Louisiana.

Mr. Rachal asked if the links referenced could be directly linked on each school site?

Mr. Burton responded that staff can set this up. Mr. Burton also referenced a meeting last year when the discussion was on the percentage of students in Caddo and asked if we have the percentage of students passing. Mr. Burton responded that he will pull this information together for Mr. Rachal. Mr. Rachal asked that it be broken down by the percentage of students in our A schools, B schools, etc. Mr. Rachal also commented that possibly the Caddo Board could consider a resolution for submission to the State on changing the grading scale back to a 10-point scale because when our students compete with other students across the country for college scholarships, a Caddo student who has a 92 is considered a B student; however, a student in another state with a 92 is an A student, and this is penalizing our students when it comes to receiving scholarships.

Ms. Trammel asked about Equity Honorees because when looking at the economically disadvantaged percentage of the English learners and the students with disabilities, the schools in her district do not have an advantage to earn over and above and asked what factor might be included in a possible resolution that would help those who are economically disadvantaged. In visiting the schools, she knows teaching is taking place in the classrooms every day and the children are learning, but she has noticed at the end of the day when they leave there is a change in attitudes. She also stated that with the number of magnet schools in District 6 as well as the other schools located in District 6, she believes there are a number of students in the area enrolled in the magnet schools and if one-third of those students were in their neighborhood schools, this would assist the issue. She said while communicating the results is a good thing, she believes when looking at Atkins, for example, and what needs to be done there, she commends staff for what has been done but believes there is a need to look at some other things.

Ms. Green noted her scores and the number of changes made by the State, she believes one way to get the message out is to utilize social media to the maximum; and she believes if the information shared today is available on her home page, it would be a great help in getting the information out to others. Dr. Goree noted how proud everyone is about the Top Gains at Northside Elementary and that a series of videos are being developed for dropping in the next few weeks that will focus on the score as well as showing the community that we are more than a score. He said while we take the score very seriously, there are many other things taking place in the District's schools. He said he wanted to present this information to the Board now rather than December because plans are to begin an immediate campaign to make sure the community is aware of not only the scores but also the things that make Caddo a unique school district. Ms. Green agreed and she believes we do not give our principals near the credit they deserve; and while the community is quick to complain, no one is helping as they can by buying in. Ms. Green asked for a short statement that she can attach to her Facebook page to explain this.

Susannah Poljak followed up by adding that failing schools is one of the public's biggest concerns; and because she also knows academic learning is taking place in these schools, she believes we need to take control of the definition of "failing school". Mr. Burton responded he believes the Progress Index is the answer since the school is now given a grade that comes from the question "Are students on track to achieve Mastery"? In looking at the schools the State has labeled as failing, he said anyone walking into the classrooms will tell you that quality instruction is taking place, students are learning in a safe environment, and they are engaged. Also, while they may have been behind when they started in August, they are progressing and moving forward and reminded everyone that 10 of the 14 were the District's most challenged schools and were rated B on the progress index. Dr. Goree encouraged Board members as they visit their schools to celebrate the teachers; because in his 5 years in Caddo, he can count on one hand the number of classrooms he has visited where teachers were not working as hard as they possibly could. When we attack schools because of a letter grade, we are attacking children and teachers and they do not deserve it. He also complimented the Board because when talking about equity and making sure the best teachers are in front of Caddo's students, this was a problem 4 and 5 years ago, but the Board's work in providing equitable resources to our schools has changed this and it is something to celebrate.

Mr. Riall noted the article in today's paper and that Caddo had seven schools in the list with the only district having more than Caddo was Jefferson Parish. This along with Superintendent of the Year, Teacher of the Year and Students of the Year, it is obvious that Caddo is more than holding its own.

Public Hearing for the Coordinated Funding Request for the Early Childhood Network

President Riall called the public hearing for the Coordinated Funding Request for the Early Childhood Network open. There being no speakers, the public hearing was closed.

Visitors

The following persons addressed the Board with their comments/concerns: Joey Gouthiere (Geaux Green Program); Jackie Lansdale (Red River United concerns); and Jon Glover (much still needs to be done).

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

President Riall announced the following as the consent agenda items: 6.02-6.03, 7.01, 8.02-8.03 and 8.05.

Ms. Trammel moved, seconded by Mrs. Bell, to establish the agenda and consent agenda as submitted. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mrs. Bell, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.02 Personnel Transactions (Resignations). The Board approved the personnel transactions (resignations) for the period of October 1 through October 31, 2018 as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The Board approved administrative contract renewals as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets. The bid tabulations are filed in the original papers of the November 13, 2018 CPSB meeting.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Beverage Agreement between Northwood High School and Coca-Cola Bottling Company. The Board approved the beverage agreement between Northwood High School and Coca-Cola Bottling Company as recommended by staff and submitted in the electronic mailout.

8.05 Consideration of Designer Recommendations for 2019-2020 Capital Projects. The Board approved the designer recommendations for the 2019-2020 capital projects as recommended by staff and submitted in the electronic mailout.

RENAMING THE UNIVERSITY ELEMENTARY AUDITORIUM FOR MRS. LILLIAN MOTHERSHED (BARRY RACHAL)

Mary Mothershed Pryor, daughter of the late Lillian Mothershed, congratulated the Superintendent and thanked the Board for considering this honor for her Mother and allowing her family to see the results of the seeds she planted years ago.

Former Board member Curtis Hooks also shared that Mrs. Mothershed hired him 43 years ago as a 4th grade teacher and highlighted some of the things he learned under her leadership and mentorship so he could be what he always wanted to be...a good teacher. He thanked the Board for its consideration in naming the auditorium at University Elementary for Mrs. Lillian Mothershed.

Mrs. Mothershed's grandson, Wilbert Pryor, also thanked the Board for the honor bestowed on his grandmother and the many memories he had of his grandmother when he was a student at University Elementary.

Barry Rachal moved, seconded by Steve Riall, Jasmine Green, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke and Dottie Bell, moved to waive the 90-day process and approve the renaming of the University Elementary Auditorium for Mrs. Lillian Mothershed. Mr. Rachal thanked those members of the family for sharing with the Board Mrs. Mothershed's history in Caddo Parish Public Schools as well as their individual lives and that it is an honor for him to bring this forward on the agenda for the Board's consideration.

Mrs. Mothershed also shared what this meant to her older sister who lived in the Yucatan, Mexico and that while taping the comments about her Mother at the last Board meeting, she also had her phone on so her older sister could hear these comments about their Mother. She said when her sister went to sleep that night after listening to the comments she never awakened; and she knew that her sister had always hoped for this day and how grateful they are for this wonderful memory for their family.

Ms. Trammel stated that she seconded this motion for 2 reasons: (1) in 1973 when she (Ms. Trammel) came to work in Caddo, Mrs. Mothershed approached her to make sure she understood how she was to look daily when she came to work and made sure she shared it with others she worked with. (2) Also when the grandson received a top award at his high schools, Mrs. Mothershed made sure others were aware of how well her grandson was doing.

Mrs. Bell stated she would never have taught for 34 years had it not been for Mrs. Mothershed and what she taught her.

Dr. Goree also noted his appreciation for the family members as well as those who brought forth this motion. He also had the opportunity to spend time with Mrs. Mothershed before her transition and her spirits were still wonderfully high. One thing she stated that meant something to him was "that you should never look like what you are going through".

Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

Superintendent Goree made the Board aware of the following.

- Process has begun for identifying Caddo's next Teachers and Students of the Year.
- National Blue Ribbon School recognition was presented to Caddo Parish Magnet High School in Washington DC. Caddo has 16 Blue Ribbon Schools, the most in the state.
- Shreveport Chamber of Commerce is hosting an event to highlight things happening in the Caddo School District and the program will start out with a review of Caddo's most recent assessment information. This event will take place Friday, November 16, 2018 at the newly opened Sci-Port.
- Amazing Shake competition will also take place on Friday, November 16th.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced and invited Board members to participate in the 4th Annual Thanksgiving Dinner for the foster children hosted by the Juvenile Court. She also encouraged Board members to look at tonight's news for the story on Queensborough giving out coats. Mrs. Bell also announced that the Bayou Classic is next Saturday (Grambling University versus Southern University).

Ms. Green congratulated the Superintendent and commended him on an awesome job. She again stated she would like to see the media utilized for getting out the message Mr. Burton and Mrs. Mainiero shared with the Board today.

Dr. Douzart also recognized the Superintendent and that he represents the "super" in Superintendent.

Adjournment. *Mrs. Locke moved, seconded by Mrs. Poljak, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:20 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

December 4, 2018
CPSB Executive Committee Work Session

Members present: Steve Riall, Mary Trammel, Barry F Rachal. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Jasmine Green, Margaret Brown, Susannah Poljak, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Durwood Hendricks, Jr.; John Albritton and Dottie Bell.

President Steve Riall called the meeting to order at approximately 4:55 p.m. The invocation and Pledge of Allegiance were suspended.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Dr. Goree highlighted items on the agenda for the Board's consideration at the December 18, 2018 meeting and the following discussion ensued.

Bids. Mrs. Locke asked for a more detailed explanation of the bid items, and CFO Jim Lee explained that one is for uninterrupted power supplies for IT. Brandy Blanchard further explained that these are replacing existing units in the schools that have been failing over the past couple of years and it will be done over several years beginning with 11 (the high schools plus Walnut Hill). Mr. Lee stated that the second bid is for backpacks for homeless students. Mrs. Locke asked if these are for next year and the superintendent responded that they are used throughout the school year and are filled with supplies to help the students be successful in the classroom. He also added this is through the Title I Department.

Mrs. Brown asked about the duration of time for issuance of these backpacks. Reggie Dodd, director of Title I, shared with the Board that students and families experiencing homelessness do so at any point in time during the year; so as there is a need for backpacks for these students, they are ordered. Staff orders primarily at the start of the school year and again as needed throughout the school year. Mrs. Brown suggested looking at the see-through backpacks. Dr. Goree also added that additional information on exact cost for each and what supplies are included in each grade-appropriate backpack will be forwarded to the Board members.

Mrs. Bell reiterated the needs of the homeless in Caddo Parish; and with over 2,000 homeless students in Caddo, this number sometimes increases by 100 or more during the holidays for various reasons. She said it is very important that when these students go to school that they have the supplies needed to be successful.

Ms. Trammel asked if she understands that the cost is over a school year and there is no certain number that must be ordered, and staff responded that is correct. Mr. Riall also asked for clarification that the motion is approving up to \$30,000 over the course of the school year and the Superintendent confirmed that is correct.

Mrs. Poljak noted the \$95 cost for these backpacks and asked for a list of the type of supplies being included in these backpacks. Dr. Goree said it includes items such as notebooks, paper, pencils, pens, compasses, et.al., that are age/grade appropriate for the students to be successful. He further stated that staff approaches this from the angle that if someone's house burns down, we want to provide them with supplies they need to be successful in the classroom.

Consideration of Proposed Revisions to the CPSB Transfer Policy. Mrs. Bell thanked the Superintendent and the employee organizations for working on this item. She said she agrees with the proposed revisions which allow for the transfer period and for anyone interested to go online and use the District Portal to apply for a transfer. Mrs. Bell also asked Dr. Goree if input was received from principals, teacher organizations, etc., and he responded yes and all were in agreement with moving forward in this revision.

Mr. Rachal asked Dr. Goree to highlight how the process was handled, and Dr. Goree said foremost was providing employees with the opportunity to apply for opportunities in the district and make sure we create something that is user-friendly and helps manage time in a more efficient manner. He said it is no fault of anyone as some may feel uncomfortable putting their name on any list to transfer, and this is something staff continues to hear. For teachers in temporary positions who did not qualify, this provides them with the same opportunity. Mr. Rachal asked if he sees it correctly and this is more needs-based driven. Dr. Goree agreed, but it also provides the opportunity for everyone to apply for anything they might be interested in without any fear of retribution.

Ms. Trammel asked if she understands correctly that some may be mandated to stay at a particular school, and the Superintendent responded that no one will be mandated to stay at any school. However, he added when looking at the target schools and the Transformation Zone schools, there will be a commitment opportunity to fill those hard-to-fill areas, but again, no one is mandated to stay at any school.

Hiring Municipal Advisor re: proposed bond election. Ms. Trammel asked for clarification as to the apparent rush, is it the timeline? Dr. Goree explained that if the Board votes January 15th to call for an election, it will be important to have information on how much money we will be forecasting to meet the needs of the district. Mr. Lee added he understands the proposition would read the District would be able to seek a set amount of money with no anticipated increase in the current debt service millage and is the reason for a municipal advisor ... to verify the amount of debt being sought will be issued without increasing our current debt service millage. Ms. Trammel asked the Superintendent if this advisor provides us a guaranteed amount we should receive; and Mr. Lee referred to Grant Schleuter, bond counsel, who explained these are general obligation bonds, the type that Caddo has issued over the years and that are secured by unlimited ad valorem taxation. He further stated that Caddo currently has a number of these outstanding, and they are currently being serviced with a millage that has reduced periodically over the years and is now down to 5 mills. Mr. Schleuter stated if the Caddo Parish School Board chooses to go out for an election May 4th, the municipal advisor will determine the amounts by using conservative estimates on future increases, assessed evaluations, interest rate markets and expectation of future issues to calculate the number of issues anticipated and an estimated millage amount.

Mrs. Bell asked about the ones that responded, their quoted amounts and how will the advisor be selected? Mr. Lee responded that all the firms listed are qualified to do this type of work, so to break the tie, the one that was lowest in their quote than the others, the lowest one is the one that makes the most sense. Mrs. Bell asked if the municipal advisor is the person who determines the amount and reports this to the District. Mr. Lee said they will look at the numbers staff provides them to determine how much the District should be able to do without increasing the tax millage. Mrs. Bell asked if the municipal advisor and the attorney are two separate persons, and Mr. Lee said that is correct. Mrs. Bell asked if the District will go out for bids for the attorney, and Mr. Lee explained that the last time Caddo's in-house attorney did a legal services RFQ, Foley Judell and Jacqueline Scott, a local firm, were named co-bond counsel, and since then there has not been any discussion on doing another RFQ nor has there been the need for a bond counsel except for the refunding issues. Since they were named and no changes have been made, staff is recommending using them at this time. Mrs. Bell added she believes if there is opportunity for others to also bid for legal services it is something we should consider. Mr. Lee also added because of the quick turnaround, he is unsure if there will be ample time to bid out legal services.

Mr. Abrams responded that the Board made the decision on the bond counsel and not administration, and this has not changed. He further stated that doing an RFP to attract other attorneys to bid will take longer than a month. Mr. Abrams also added the Board would not have to do an RFP as services do not require an RFP. Mr. Abrams also stated that the last time legal services came before the Board, the Board made the decision to keep the services as they were since going out for an RFP might result in an increase in the rates already being paid for legal services. The Board can go out for bids again; however, he believes the Board would want to make certain it is using quality bond counsel in making such an important decision, which could mean doing a study to make certain a wise decision is being made in determining who would represent Caddo when selling bonds. He also added that not every attorney can be a bond counsel, and Mrs. Bell said she only wants to make certain everyone has the opportunity.

Mrs. Locke reminded everyone that since this new process began, there are 6 new Board members around the horseshoe and she doesn't completely understand the whole process but hopefully between now and the next meeting more detailed information will be shared. She asked how the four firms were chosen and Mr. Lee explained he searched municipal advisors in the State and located and contacted these to respond. Mrs. Locke asked if she understands the work expected of the municipal advisor can be done in the short time outlined, and Dr. Goree said it can.

Mr. Rachal asked Dr. Goree for an overview of what this is, why we are doing it, when it is going to happen, and how it will happen. Dr. Goree said the role of the municipal advisor is to tell the District how much money will be created with the

renewal of these millages; and then the Board will vote whether or not it wishes to call for an election. If the Board chooses to call for an election, a plan will be developed around the amount of money that will be generated and used to help meet the needs of the district. Talk to date has only been about needs, no brick and mortar or wants, and the needs include security, air conditioned buses to replace an aging fleet, as well as some of the aged HVAC systems. Mr. Rachal said he believes this is the information the public wants to know, and he asked if the goal is to have this on the ballot in May and Dr. Goree confirmed it is. In backing up from May, when does the Board need to approve it and move forward for a vote in May, and Dr. Goree responded by the January 15th Board meeting.

Dr. Goree also reminded the Board that staff will be available to provide any and all information available to help Board members understand more clearly. Mr. Rachal asked about the amount (cost) of determined needs figured to date? Dr. Goree responded that at this point anything the staff said would be a guess and it will be the work of the Municipal Advisor to bring the Board a dollar amount, and then staff would look at the needs and build the list of projects around it. Mr. Rachal asked about Cenergistics involvement in this process, and Dr. Goree reminded the Board that Cenergistics is a behavior management company and they have not been involved in the conversation at this time. Mr. Rachal asked about the debt millage over the years, and Mr. Lee said he does not have this information at this time, but it is something he could provide tomorrow morning. Mr. Rachal asked if there is a minimum to remain on the books relative to bond debt, and Mr. Lee stated there is a maximum up to one year of cost. Mr. Rachal asked Mr. Schleuter if the District's bond ratings will come into play as this progresses and asked how has the Board done over the years. Mr. Schleuter responded that Caddo continues to have one of the highest bond ratings of all school boards; and with the majority of school boards having a lower bond rating, this will serve Caddo well if it is determined to be on the ballot in May. Mr. Rachal asked if at some future point we will be required to reduce the debt again, and Mr. Lee said yes, and that is correct even if the Board takes no action or if the voters turn it down, the debt service millage will need to be reduced next summer.

Dr. Douzart asked if it takes 5 mills for the bonds and are we prepared if it goes over the 5 mills. Mr. Lee said we are because each year in May-June, a resolution is adopted by the Board to adopt the millages for the following year. The debt service tax is one the Caddo Parish School Board sets; and if something happens, the Board has the power to increase that millage to cover the debt.

Mr. Albritton requested a meeting of the Insurance and Finance Committee over the next two weeks to explain in detail the process and hopefully clarify any confusion. He also asked if more information can be forwarded to the Board members that will clarify how someone can bid 50% less than their nearest competitor.

Mrs. Bell announced the Insurance and Finance Committee will meet on December 11, 2018 at 4 p.m.

Following discussion, President Riall announced the following as the consent agenda: Items 7.01, 8.01, 8.03-8.04 and 13.01 (those in agreement with staff's recommendation).

Ms. Trammel moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the December 18, 2018 CPSB meeting as presented. Vote on the motion carried.

Poll Audience

The following addressed the Board on matters of concern/interest: (1) Jackie Lansdale, Red River United; (2) Sharon Johnson, BTW Alumni; (3) Nambe Thompson, Government Consultants; (4) Lucius McGhee, Argent Advisors; and (5) Mike Busada, Butler-Snow.

Announcements

President Riall announced that the Superintendent's Evaluation packet is at each Board member's station, and these forms (evaluation and observation) should be completed and returned to him by Tuesday, December 11th.

Mrs. Bell announced the annual Party with a Purpose will be Thursday, December 6th at Big O's. Gift cards given will be used to purchase Christmas for homeless Caddo students.

Mrs. Brown announced that beginning in the new year she will be working with the Social Justice Civic League Inc. to help children in District 3, and this week she began by working with the homeless children at BTW, JS Clark, North Highlands, and the Andrew Curry Park.

Dr. Douzart announced that on Friday, December 7th, the third grade students in Caddo and Bossier Parishes were afforded the opportunity to see The Nutcracker and she complimented how well the traffic, etc. was organized. Dr. Goree also recognized and congratulated Dr. Douzart's granddaughter, Bryanna Lacey, for her outstanding performance as Clara in The Nutcracker.

Adjournment. *Ms. Trammel moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:10 p.m.*

December 4, 2018
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Durwood Hendricks, Jr.; John L Albritton, and Dottie Bell. Also present were Superintendent Lamar Goree, and Board Counsel Reggie Abrams.

President Riall called the Caddo Parish School Board into special session at approximately 4:35 p.m. with a quorum being present. John Albritton, District 11, led the invocation and Pledge of Allegiance.

BIDS

Mary Trammel moved, seconded by Susannah Poljak, to approve the bid of Johnny's Roofing & Metal Works, Inc., with a Base Bid, Alternate 1, for the sum total of \$303,050.00 for Project 2019-207B "Caddo Magnet High Re-Roof Building D, Phase I" as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet. Superintendent Goree explained that this bid is to replace the roof of the building which houses the cafeteria and approval today will allow this project to be done over the Christmas holidays while students and employees are not in the building and meals are not being prepared. Vote on the motion carried. A copy of the bid tabulation is filed in the official papers of the December 4, 2018 CPSB Special called meeting.

NOTICE OF PLANNED CALL FOR GENERAL OBLIGATION BOND ELECTION

Superintendent Goree announced the need to read the following statement into the minutes.

Announcement of Public Meeting Notice is hereby given that at its meeting to be held on Tuesday, January 15, 2019 at 4:30 p.m. at the Parish School Board Office, 1961 Midway Avenue, Shreveport, Louisiana, the Parish School Board of the Parish of Caddo, State of Louisiana, plans to consider adopting a resolution ordering and calling an election to be held within Parishwide School District of Caddo Parish, Louisiana to authorize the issuance of general obligation bonds.

President Riall announced the need to add an item to the agenda to secure the services of a municipal advisor.

Jon Glover inquired of the Board if this is a new procedure, securing an advisor, for such an item. President Riall stated that while policy does not allow the Board to respond to questions directly, someone will follow up in response.

Nambe Thompson, Government Consultants, stated that he submitted a qualification for serving as the municipal advisor and asked if the Board will be basing its decisions off of qualifications.

Superintendent Goree explained that as part of the process in moving toward a decision in January, the work completed by the municipal advisor will be to secure and determine how much this renewal will provide in additional revenue for the school district, and is why the municipal advisor is hired even before the Board makes a decision to move forward.

Mr. Rachal moved, seconded by Mrs. Bell, to add this item to approve a municipal advisor to the agenda. Mr. Riall noted the handout relative to this item is at board member stations. Vote on the motion to add to the agenda carried unanimously.

APPROVAL OF MUNICIPAL ADVISOR

Ms. Trammel moved to approve Argent Advisors, Inc., as recommended by staff as the municipal advisor. Motion failed for lack of a second. Mr. Rachal asked for clarification on this item being added to the special called session and not the meeting on the 18th. Mrs. Locke also stated her understanding that this item was to be added to the regular meeting in December, and asked if there is a reason why it cannot wait until December 18th. Staff clarified it can be added to the regular meeting. Attorney Abrams explained there is a motion on the table for the special called meeting which now must be withdrawn or a motion made to postpone.

Mr. Rachal moved, seconded by Ms. Trammel, to postpone this item until the December 18th regular session. Vote on the motion carried.

Mrs. Bell asked for clarification and that there will be opportunity to discuss this item on the 18th and Mr. Riall confirmed that when it is added to the proposed December 18th agenda at the work session, there will be opportunity to discuss it.

Adjournment. *Ms. Trammel moved, seconded by Mrs. Locke, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:55 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

December 11, 2018
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Mary Trammel, and Durwood Hendricks. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Steve Riall, Jasmine Green, Denee' Locke and Barry Rachal. Committee members Susannah Poljak and Raymond Green were absent.

Mrs. Bell called the meeting to order at approximately 4:15 p.m., and Steve Riall led the invocation and Pledge of Allegiance.

Mrs. Bell also recognized Tony Nations, newly elected Board member for District 10.

Establish the Agenda as submitted. *On motion by Mr. Hendricks, second by Mrs. Bell, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Mr. Hendricks, second by Mrs. Bell, the agenda was confirmed.*

Presentation: Municipal Advisor Process. Dr. Goree noted requested information sent to the Board last week detailing why we did not have to hire a municipal advisor in the past, sharing that changes in State law now require it. He also outlined a timeline to meet a May election date if the Board approves moving forward.

Jim Lee, chief financial officer, explained that when discussions began on the possibility of calling an election, he contacted firms about their municipal advisor capabilities to determine the amount of debt the District could incur without any increase in the property tax millage. Mr. Lee explained the municipal advisor will look at assessment trends, and increases and decreases, to determine collections. He further stated there is a separate fund for debt service and taxes related to this are deposited in that debt service fund to be used to pay the principle. The municipal advisor will also look at the district's Fund Balance, because a balance that is built up will help determine the taxes to be collected over the life of the bonds and if we can issue the debt without an increase in taxes. They will also look at interest rates as well as what is currently outstanding and what was paid this year. Mr. Lee reported there has not been a successful election since 2000 and he provided a ten-year history of the current millage and its uses. He added this election is proposed for May, 2019; and assuming the committee supports moving forward, the municipal advisor would advise the District on the amount that could be generated without raising taxes.

In preparing for this time, staff began looking at needed items and the cost for those items; and after noting the qualifications he looked for in a municipal advisor, he contacted the qualifying companies and three proposals were submitted. Mr. Lee reported that all three meet the qualifications for serving in this capacity. He further explained this is the first time the municipal advisor is a requirement in this process, having gone into effect in 2004.

Mr. Lee further reminded the Board that at its special called meeting on December 4th, the Board announced its intent to call for an election at its January 15th meeting. Immediately following the January 15th meeting, at which there will be two resolutions presented for Board approval, Mr. Lee said a municipal advisor must be in place to help determine the amount of debt we can put on the ballot without raising taxes. He also is in the process of contacting the local state senators/representatives, publishing the official notice in the Official Journal and filing official notice requirements with the State Bond Commission.

Supt. Goree noted the date of December 18th is in the timeline for the Board to vote on a municipal advisor; and even though this is a service and does not require Board approval, staff believes it important to remain transparent and bring this to the Board for a decision.

Mr. Hendricks asked for clarification of the relationship of the bond counsel to the Board? Mr. Lee stated the Board hires the bond counsel; however, the bond counsel mainly works with staff. Mr. Hendricks also asked about the quoted fee and how it will be paid? Mr. Lee explained it will be over an increment of time and will be paid by issuance of bonds.

Mr. Rachal said he believes the information today should have been presented long before now, and in looking at the step by step process, he is attempting to understand who does what, how everyone works together, as well as how much money we actually will need. Dr. Goree stated that in moving forward he agrees some of these processes need to begin much earlier so the Board is more informed; and at this time, staff has identified three critical areas (buses, security and HVAC) and will share with the Board next week a list of everything that would serve the District perfectly through the next 10-15 years, knowing this will carry a very high price tag, and will be more than this bond issue will generate. Mr. Rachal stated that such a list is what the Board members need to know and asked if this is

what the municipal advisor will provide. Mr. Lee explained the municipal advisor will not determine the needs, but will determine the amount of debt we will be able to seek without raising taxes. If the taxpayers approve it, they will assist in how it should be structured to get the best return. Dr. Goree added that one of the commitments at the direction of the Board and community is the importance of not adding tax burdens, so once it is determined how much can be generated without raising taxes, then it will be important to prioritize the list of needs. Mr. Rachal asked who, once the municipal advisor has provided us with information, does the District go to next or will the municipal advisor serve as the mediator between the Board and others, and Mr. Lee said the bond counsels (Foley, Judell in New Orleans and Jacqueline Scott in Shreveport) will work with the District to make certain the deadlines for resolutions, information to the Bond Commission, and Secretary of State are met.

Presentations: Municipal Advisor Respondents

Lucius McGehee with Argent Advisors, Inc. shared with the Board information on Argent Advisors including history of their company, their experience which includes municipal bonds, their market knowledge, their history of working with the School Board, and what their responsibilities as a municipal advisor would be in determining how much debt the District could incur without raising taxes. Mr. McGehee also explained their fee schedule and how the \$60,000 would be prorated over a period of time.

Mr. Riall asked for clarification that Argent would hold the funds until we request them, and Mr. McGehee explained that is a separate relationship; and if the District were to borrow \$9.8 million, it will be wired to the District's fiscal agent to decide what will be done with it.

Mr. Rachal asked about the \$7,500 for each issue and if this amount is included in the \$60,000 or is it an additional cost. Mr. McGehee explained this is their regular fee schedule and each time they are asked to issue bonds the fee is \$7,500, but the fee will not exceed the \$60,000 over the 10 years.

Mrs. Locke asked about the process and paying the municipal advisor when bonds are issued, and if there is a separate fee for being the municipal advisor. Mr. McGehee responded there is a small registration fee. Mrs. Locke also asked why approval is being requested at this time when we do not know if the bond issue will pass. Mr. McGehee explained he is only paid when bonds are issued. She asked if she understands correctly that the District does not pay him anything between now and the election, and he said that is correct; there is no fee to do the assessment which will be presented to the Board on January 15th, and his fee is based upon a transaction (issuance of bonds).

Nnamdi Thompson with Government Consultants shared their qualifications for serving as municipal advisor, as well as responsibilities of a municipal advisor versus the functions of the bond counsel. He shared his background experience including working with school boards across the state and the 27 issues handled in 2017.

Miss Green asked if the chart shared is the same for every firm, and Mr. Thompson said that is correct via NSRB who says that is how it should work. Mrs. Locke asked Mr. Thompson if he is paid upon issuance, and he confirmed no one is paid unless the bonds are issued, and their charge is \$2 per bond (i.e. if \$1 million in bonds are issued, their charge would be \$2,000). Mrs. Bell inquired about the various positions listed and Mr. Thompson explained that while these are all the possible positions needed in implementing a bond issue, not all positions may be used.

Miss Green asked about the difference in the bid amounts and if those bidding have worked with the District's bond counsel in the past. Mr. McGehee responded with how many bond issues they have been a part of in the State. She also asked staff what bond counsel charges the District, and Dr. Goree responded staff will provide Foley, Judell's fee schedule to the Board. He also reminded the Board, in 2012, made the decision to select a bond counsel and co-counsel and because no one on the Board has brought this back for change, Foley, Judell continues to hold this position. It was also noted that State law limits the maximum a bond counsel can charge.

Mrs. Locke asked about the resolution presented by Government Consultants for the Board President to sign, and Mr. Lee explained this is staff wanting to be transparent since it is a service and did not actually require a bid. Mr. Thompson explained they generally are hired by school boards via resolution and this is a stand-alone resolution stating they are the District's municipal advisor. Mr. Riall asked if the staff pursued these services without bringing it to the Board, would it still be necessary to bring the resolution to the Board for approval, and Mr. Thompson confirmed that is what he prefers. Mr. Lee added he would not move forward with something this important without being totally transparent with the Board. Knowing that it takes a "team", she asked if the bond counsel is hired separately to

handle certain things and other persons are retained for taking care of the different responsibilities. Mr. Thompson noted in the handout the different positions/jobs and that they all may not be used.

VISITORS

The following persons addressed the committee on this matter: Jackie Lansdale, Red River United; Mike Busada, attorney/father; S'hantaye Wells, attorney with Washington & Wells; Jacquelyn Scott, co-counsel for Caddo District; and Bill Rawls, Monroe Law firm.

Adjourn. On motion by Mr. Hendricks, and second by Ms. Trammel, the meeting adjourned at approximately 5:55 p.m.

December 18, 2018
CPSB Meeting

Members present: Steve Riall, Jasmine Green, Margaret A Brown, Susannah Poljak, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Durwood Hendricks, John Albritton and Dottie Bell. Also present were Superintendent Goree and Attorney Abrams.

President Riall called the meeting to order at approximately 4:30 p.m. Dottie Bell led the Invocation and Pledge of Allegiance. Mr. Riall also recognized the following visitors: Willie Bradford, City Councilman; Burnadine Anderson, former CPSB communications director; Debra Seamster, former CPSB member; and Barbara Norton, Louisiana State Representative.

CONSIDERATION OF MINUTES OF THE NOVEMBER 13, 2018 AND DECEMBER 4, 2018 CPSB MEETINGS

Mrs. Locke moved, seconded by Ms. Trammel, to approve the minutes of the November 13, 2018 and December 4, 2018 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Eden Gardens Fundamental Elementary Magnet School Choir. The Eden Gardens Concert Choir, led by Jerry Maiden, Jr., shared holiday musical arrangements, including Little Drummer Boy performed by the Eden Gardens' Bucket Drummers.

Annual Party with a Purpose for Homeless Education. Board member Dottie Bell, District 12, and Levada Palms, shared an overview of their 2018 "Annual Party with a Purpose", and presented to the Homeless Department \$4,276 in gift cards and donations to help the homeless students in Caddo Parish have a Merry Christmas.

2018 Christmas in Roseland Winners. The following Caddo Parish schools were recognized as winners in the 2018 Christmas in Roseland contest: Elementary – 3rd Place, Fairfield Elementary Magnet; 2nd Place, Southern Hills Elementary; and 1st Place, South Highlands Elementary Magnet. Middle School – 2nd Place, Youree Drive Middle; and High School – 3rd Place, Captain Shreve High; and 1st Place, North Caddo High. North Caddo High School was also recognized as the Best in Show winner.

31st Annual Greening of the Louisiana State Exhibit Museum. The following Caddo Parish Schools were recognized for placing in the 31st Annual Greening of the Louisiana State Exhibit Museum: 4th Place, Forest Hill Elementary; 3rd Place, Eden Gardens Magnet; 2nd Place, North Highlands Elementary; and 1st Place, Southern Hills Elementary.

Shreve Island Elementary National Lighthouse Commendation. Shreve Island Elementary faculty, staff, student body and parents were commended for receiving the 2018 National Lighthouse School of Commendation for achieving this status from the Franklin-Cove Education's Leader in Me Program.

Community Renewal Bridge Award Winner. University Elementary was recognized by Community Renewal for its "We Care" approach to all aspects of education, from the classroom to the lunchroom.

Board Members. The following CPSB members were recognized for their service on the Caddo Parish School Board which will end on December 31, 2018: Susannah Poljak, District 4, (2015-2018); Margaret Brown, District 3; (2015-2018) and Durwood Hendricks, District 10, (2018).

Newly Appointed Administrators. Sharon Burgess was recognized and welcomed as the new principal of Blanchard Elementary.

PUBLIC HEARING FOR RENAMING THE BOOKER T WASHINGTON HIGH SCHOOL AUDITORIUM THE DR. HARRY BLAKE SR. AUDITORIUM

President Riall announced the public hearing open for renaming the Booker T. Washington High School Auditorium the Dr. Harry Blake Sr. Auditorium. The following spoke in support or opposition to this action.

Daryl Walters (supports), Debra Bell (opposes), Debra Seamster (opposes), Jo Anne Carter (opposes), Edna Frierson (opposes), Tahira Abdul Rahman (opposes), Ora Hart (opposes), Shawn Woods (opposes), Frederick Henson (opposes), Njeri Camara (opposes), Sharon Johnson (opposes), Calvin Lester (supports), Willie Bradford (table), Joyce Maiden (supports), Francine Brown (supports), H. Calvin Austin III (opposes), Allesha Davis (opposes), and Travis Griffin, Jr. (opposes)

There being no additional speakers on this item, the public hearing was closed.

VISITORS

The following visitors addressed the Board on matters of concern: (1) Jackie Lansdale, Red River United, new transfer policy, teacher assessment under VAM; (2) Kenya Roberts, J. S. Clark, incentive pay for teachers; (3) William Fields and Alicia Olivier, Sunset Acres, incentive pay; (4) Marco French and Shoyla Williams, Queensborough, incentive pay; and Sheila Wimberly, CPSB Policy BCBI.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

The superintendent highlighted items for the Board's consideration at its December 18, 2018 meeting and the following discussion ensued.

President Riall announced the following items as the consent agenda: 6.02-6.03, 7.01, 8.01-8.04, 8.06 and 13.01. *Ms. Trammel moved, seconded by Mr. Rachal, to establish the agenda and consent agenda for the December 18, 2018 CPSB meeting as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Ms. Trammel moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.02 Personnel Transaction Reports (Resignations). The Board approved the personnel transactions (resignations) for the period of November 1-November 30, 2018 as recommended by staff and submitted in the electronic mailout.

6.03 Requests for Leaves. The Board approved the requests for leaves as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) United Power & Battery for Uninterruptable Power Supply, and (2) EC&C for student backpacks. *Bid tabulation sheets are filed in the official papers of the December 18, 2018 CPSB meeting.*

8.01 Property/Bus Rental Requests. The Board approved the requests for use of property and/or buses as submitted by staff in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved the requests for out of state travel (General Fund) as submitted by staff in the electronic mailout.

8.03 Authorization for Salvage Sale. The Board authorized staff to salvage items according to policy and submitted in the electronic mailout.

8.04 Consideration of Proposed Revisions to CPSB Transfer Policy. The Board approved the proposed revisions to the CPSB Transfer Policy as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of 2019-2020 School Year Calendar. The Board approved the proposed 2019-2020 School Year Calendar as recommended by staff and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved the readmission appeals for Students CL, IH, LM, IJ, SJ, RP, RS, ZD, XW, MY and KS as recommended by staff and submitted in the electronic mailout.

CONSIDERATION OF RECOMMENDATION FOR MUNICIPAL ADVISOR

Ms. Trammel moved, seconded by Mr. Rachal, to approve staff's recommendation of Argent Advisors Inc. for municipal advisor as recommended by the Insurance and Finance Committee and submitted in the electronic mailout.

Mrs. Locke stated that many meetings were held on this and she desires for everyone to understand the great respect for all the work done on this item; however, she still is concerned in the variation in the pricing. She also wants to make sure in the future that Board members are involved in each step of this process for a paying agent.

Vote on the motion carried with Board members Riall, J Green, Poljak, Douzart, Trammel, R Green, Rachal, Hendricks and Albritton supporting. Board members Locke and Bell were opposed and Mrs. Brown abstained.

ANNOUNCEMENTS AND REQUESTS

Mrs. Brown announced that the Social Justice Civic League Inc. has adopted some of Caddo schools in District 3 having bought school supplies, uniforms and other supplies the children need, and these will be delivered to the students before the Christmas Break. She also thanked her City Councilman who was in the audience for assisting her with a situation in her alleyway.

Dr. Douzart stated that at the last meeting she wanted to share about Mrs. Mothershed and did not but appreciates the opportunity to do so today. She said that Mrs. Lillian Mothershed was a kind, attractive lady who was dedicated to education and good values. Her son-in-law and she attended Grambling State University where he was an all-American football player and an all A student academically. Mrs. Mothershed and she attended the same church for many years and she was a faithful servant.

Ms. Trammel stated that she has been contacted by several graduates of the George Washington Carver High School who have requested that a marker designating the location of this facility be placed on the highway, and asked that staff look at what can be done. She also asked if there are any archives available from Eden Gardens Jr./Sr. High School that this information be stored in such a way to maintain the historical value of this information.

Mrs. Poljak shared that it has been an honor and privilege to serve the last four years. She said it has been such a satisfying experience and a privilege to call Board members not just colleagues but her friends, and she believes the Board has bettered the community and has turned its care and concern into something that makes Caddo an even better place to live. She added that she leaves the Board with renewed faith in what can be accomplished and believes the work being done in Caddo by the Superintendent and the staff is legacy work; and she is honored to say that "She is Caddo".

Miss Green thanked the Board members leaving for their service and that they will be missed. She said she believes the last four years have been great working together. Miss Green congratulated Dr. Goree for being named the 2019 Louisiana Superintendent of the Year, and she wished everyone a Merry Christmas and Happy New Year.

Mr. Hendricks reiterated previous comments and how grateful he is for having the opportunity to serve on the Board. He is also thankful for the opportunity to continue working in Caddo Parish helping in the Transformation Zone. Mr. Hendricks added his thankfulness for the friendships he has made this year and encouraged the Board in moving forward.

Mrs. Bell thanked the Board members leaving for their service to the children and that it has been a privilege to serve and work together, appreciating the differences of opinions while respecting one another and remaining friends.

Ms. Trammel shared her appreciation for the awesome Christmas luncheon today with fellow Board members and she looks forward to moving forward.

Mr. Riall reported that he met with a representative from Louisiana 811 on their program where they reach out to all 2nd graders. They desire to take this into our schools to teach them about this safety program. He thanked Mrs. Brown, Mrs. Poljak and Mr. Hendricks for their service, and thanked the Board for the opportunity to serve as President during 2018.

EXECUTIVE SESSION

Superintendent's Evaluation and Review of Contract/Goals. *Ms. Trammel moved, seconded by Mrs. Brown, to go into executive session for 15 minutes. Vote on the motion carried and the Board went into executive session at approximately 6:50 p.m.*

The board reconvened into open session at 7:20 p.m. *Mrs. Bell moved, seconded by Ms. Trammel, to approve (1) the Superintendent's evaluation, (2) an increase in the Superintendent's salary by 12.5% effective January 1, 2019, (3) the Superintendent's goals for 2018-19, and (4) authorize the Board President to evaluate whether the Superintendent is entitled to incentive pay based on his achievements relative to the Board-approved goals for 2017-2018. Vote on the motion carried unanimously.*

Adjournment. *Dr. Douzart moved, seconded by Mr. Hendricks, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 7:30 p.m.*

T. Lamar Goree, Ph.D., Secretary

Steve Riall, President

December 18, 2018
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Mary Trammel, Susannah Poljak, Raymond Green and Durwood Hendricks. Also present were Superintendent Goree and Attorney Abrams; and Board members Jasmine Green, Denee' Locke, John Albritton and Barry Rachal.

Mrs. Bell called the meeting to order at approximately 3:05 p.m. The invocation and Pledge of Allegiance were led by Mr. Hendricks.

Establish the Agenda as submitted. *On motion by Ms. Trammel, second by Mr. Hendricks, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Mr. Green, second by Mr. Hendricks, the agenda was confirmed.*

Consideration of Recommendation for Municipal Advisor. Dr. Goree shared the history to this point of bringing a recommendation for a municipal advisor to the Insurance and Finance Committee after hearing presentations by two agents on December 11th.

Mr. Lee recapped staff's work in requesting and receiving informal RFPs from firms to meet the new requirement when a possible bond election is announced that a municipal advisor must be named. He announced 3 proposals were received, (1) Government Consultants, (2) Trinity Capital Resources, and (3) Argent Advisors, all of whom meet the requirements and are qualified. Mr. Rachal shared his observations on the clarity of the process and the need to fully understand that companies submitting proposals are all qualified, and Mr. Lee confirmed that is correct. Mr. Rachal asked if he understands correctly that Argent is approximately \$6,000 per issue, and Government Consultants is approximately \$20,000 per issue, and Mr. Lee responded that is correct.

Mr. Hendricks noted the difference in the cost of the two companies and the fact that Government Consultants is higher and it appears so because they are rated higher and have handled more cases. Mr. Lee stated that they may have had a higher rating; but, all 3 companies are qualified, and have adequate experience, thus he recommended the lower cost.

Ms. Trammel stated she believes it important to be careful with accepting a bid that is three times the lowest bid, when all companies are qualified and have met the requirements. Mr. Green asked if we have had this type service before; and if so, how does it compare. Mr. Lee said this is the first time this has been a requirement.

Mrs. Poljak asked about our legal obligations; and Mr. Abrams explained that because this is a service, the Board is not required to accept the lowest bid even though it would be necessary to recognize the basis for paying more. He further added the District has used bond counsel for the calculation in the past and made the same recommendations; but now the rule states you must use a municipal advisor. His question is what are we getting for the additional money if we do not choose the lowest bid. He added it is also important that the Board has confidence in the company that is giving them advise that it is good, sound advice and information.

Mr. Rachal noted the fiduciary responsibility and that prior to now the District's bond attorney took care of this responsibility even though it was not legally required of him. Mr. Abrams stated he believes the confusion is what bond counsel's fiduciary responsibility is to the Board now that the law says a municipal advisor must be retained. Mr. Schleuter stated for the record that as bond counsel for the School Board, he does not represent any other party in any transaction other than the School Board. Bond Counsel does not represent purchasers, bond holders, nor any other party involved in any transaction.

Mrs. Locke inquired of outstanding issues and if the quoted number is associated with them, and Mr. Lee stated there remains one outstanding issue; and if they are chosen, it would be a separate issue. Mr. Albritton stated that in moving forward with the bond issue, everyone knows there will be opposition and we do need to look at the difference in the bid and the feedback the Board will receive if approving the higher bid. He further stated he believes due diligence has been done and this issue has been vetted very well, and he does not see how we can cross the line with this big of a difference.

Ms. Trammel noted the concern in this process with the difference in the cost and if the low bid answers yes to all the questions/requirements, she is certain it is the best recommendation and they will do their best. She also asked if the Committee needs to say anything other than the recommendation being sent to the Board, and Mr. Abrams confirmed that is all the Committee needs to do. Mr. Green stated that we do not have any

evidence that paying more will get better results; and based on the information brought to the Committee by staff, he doesn't see how the Committee can justify not submitting staff's recommendation to the Board.

Mrs. Bell also shared that after reviewing the proposal submitted, she believes even though the cost is higher, a company's experience should be taken into consideration.

Ms. Trammel moved, seconded by Mr. Green, to recommend to the Board staff's recommendation of Argent Advisors as the municipal advisor. Vote on the motion carried with Committee members Trammel, Poljak, R Green and Hendricks supporting the motion and Mrs. Bell opposed.

Adjourn. *On motion by Ms. Trammel, seconded by Mr. Green, the meeting adjourned at approximately 3:30 p.m.*

January 8, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry F Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 5:10 p.m. The invocation and Pledge of Allegiance were suspended.

Mrs. Trammel extended appreciation to Mr. Riall and other members of the 2018 Executive Committee for their service and thanked the current Board for electing the 2019 Executive Committee to serve in this capacity.

STATE OF THE DISTRICT

Superintendent Goree shared an overview of the 2018 year beginning with a video highlighting the amazing things that happened in the District last year. Dr. Goree stated that this video will be used throughout the year, and noted the following highlights.

Dr. Goree reported that Caddo added its 16th Blue Ribbon School and he traveled to Washington D.C. with Caddo Magnet for them to receive their 2nd award. He also said that Caddo is not only leading the State in National Blue Ribbon Schools, but also in National Merit Scholars Semi-finalists, Finalists and Winners. He also added that Caddo is the home of the current Middle School Teacher of the Year, the Louisiana Middle School Student of the Year, as well the Louisiana High School Student of the Year and the Louisiana Superintendent of the Year. Dr. Goree stated that the District currently boasts three perfect ACT scores and nearly 6,000 students who have been trained through the Swim for Life Program.

Academics Highlights – The superintendent said the District saw major changes in the Accountability System; and while some of the projections of what they believed would happen with the Accountability scores did come true, they are very proud that the System maintained its school grade and saw increases in five schools' student performance scores and 16 schools garnering the Top Gains Honor. He stated nine schools were named Equity Honorees for making measurable differences in closing the achievement gaps with minority population/different subgroups of students. In the high schools, Dr. Goree announced this year there are no "F" rated high schools which he speaks directly to the equity work the Board has done to help prepare high school students for what they will face upon graduation.

High quality curriculum has been implemented districtwide with more than 2,000 teachers trained on curriculum directly aligned to providing all students access to Tier I top level curriculum. Dr. Goree also noted how proud we are of the increase in the percentage of seniors that continue to advance directly to four-year universities upon graduation. The superintendent also reported on the opportunities available through the District's Academics Division to support teachers in the implementation of the new curriculum and the challenges they will face, continued growth in student assessment, increased enrollment in the pre-K and virtual learning platforms, and continued evaluation of the District's special programs as outlined in the strategic plan to make sure they are meeting the needs of the School System.

Finance Highlights – In the area of finance, Dr. Goree expressed appreciation to the Board for approving the \$3.6 million in incentive pay allowing educators to be recognized and awarded for their efforts. He also stated that the District has received its 29th consecutive recognition for excellence in financial reporting as well as maintaining the District's AA- bond rating with Standard and Poor's. As a result of the burdens affecting the General Funds across the State and Nation, an increase in the MFP funding is one of the things we have not seen in many years; and with the rising cost of insurance, rising cost of maintaining buses, rising cost of HVAC systems as well as some of the safety concerns, all of these items stretch the General Fund account and are areas where we will continue to experience struggles until there is more money. He reminded the Board that operating small schools continues to have a sizeable impact on the District and those are some of the things staff will continue to look at and bring information back to the Board on what is best for the District. Retirement and health care costs continue to play a vital role in the District budget; and in looking at the changes in our growing population, Caddo has as many active retirees as it does employees and there is an obligation to provide retirees with

health care and retirement costs even though they are a huge financial burden on the General Fund budget. He added that he believes the District's Strategic Plan has allowed us to continue to set the School System up to not just be financially stable today but in looking at the future and making sure we are financially stable in the future.

Human Resources Highlights - Dr. Goree added that the District's biggest challenge is human capital (i.e., classrooms), and includes making sure there is a highly qualified teacher in front of every child through our continued recruitment efforts. He also shared that the District is looking to strengthen our relationships and strategies by working with some of the neighboring districts to make sure that the Best Practices that are successful are being implemented in Caddo as well. Continued challenges in this division include making sure we work close with Professional Development in providing what teachers need to be successful, and he noted that recruiting and being able to keep teachers is a national trend; and it will be important for Caddo to "think outside the box" in this effort to close this gap and how we are utilizing our people, i.e. using cafeteria workers to not only work in the cafeteria, but also drive a bus, i.e. cross training.

Operations Division – Superintendent Goree announced that Cenergistic recently finished its first year partnership with Caddo and Caddo is impressed to see everyone get on Board with this first year implementation and the decrease in utility costs. The Grab and Go breakfast program was launched and is going very well with hopes of expanding the program. This division also completed its first holistic inventory of classroom technology, a mammoth task undertaken by staff to assess everything in the District. Dr. Goree reminded everyone that when looking to move a District the size of Caddo to an all on-line state testing platform, there is a need to be aware of what you have and this plays a major role in replacing things and what the replacement cycle looks like, in addition to working closely with the HR Division to increase the pool of bus drivers.

Dr. Goree noted the declining enrollment of students in the district and the direct effect on programs and opportunities for students, so how we stay ahead of this population and make the necessary changes/judgements is very important. Also, the District remains in the position of operating a number of aging facilities with a limited number of resources for items such as capital projects and maintenance. He added there is an aging fleet of school buses, of which a limited number are air-conditioned. Continued effort to increase student participation in the breakfast and lunch programs continue to be very important as well as maintaining up-to-date technology in the classroom; and to do that in a system where 40,000 students are being tested on-line will continue to be a challenge.

In summary, Dr. Goree assured the Board that Academic Excellence for all children will continue to be Caddo's defining mission because that is what we are about. Also, enrollment declines will require the District to be competitive in attracting and retaining families, and staff will continue to bring to the Board the latest material as well as incentive-based pay to insure we are attracting and retaining the very best staff. Dr. Goree stated he believes the best is yet to come for Caddo.

Miss Green asked about the adjustments in the classroom temperature and if we are still working to get everything adjusted, and Dr. Goree stated the Cenergistic's focus is on behavior in order to affect savings. He added that while we currently have standardized temperatures in the classrooms, similar to what one would have in their home; however, when the schools are closed down for i.e. Christmas holidays, there is a check list where everything possible is unplugged and/or turned off in order to maximize our energy cost/savings. Miss Green referenced teachers constantly complaining about the temperature and she questions if things such as the sun hitting the windows at the hottest part of a day have been considered in the temperature adjustments. Dr. Goree said the Cenergistic managers do assess situations such as this; and based on the assessment, adjustments have been made.

Mr. Albritton asked about funding for pre-K, and Dr. Goree responded that the District does not receive MFP funding for pre-K, but it is funded through three grant resources, with the majority of the pre-K funding coming from the Title I program. In expanding the pre-K program, the superintendent said staff is looking at ways to be creative, i.e. private paid pre-K programs, Montessori, pre-K centers.

Dr. Douzart asked if she understood correctly that no Caddo Parish high school is an "F" school. And Dr. Goree confirmed that none of the high schools are "F" schools.

He also noted some great successes they have observed over the years with opportunities available.

Mrs. Bell echoed Mr. Albritton's comments regarding the pre-K program and she learned when attending the CUBE Conference last year that they found some Federal money for funding pre-K in all their schools. She asked if there is any way we can go to the State regarding some help. Dr. Goree explained the talk around the new pre-K program and it is his belief that universal pre-K programs have done this by going to the tax base or through windfalls. As a school system, he said Caddo is looking at how we can look at grant opportunities, public-private partnerships, grass root leadership efforts, etc.; and will also meet with the School Board Long-Range Planning and Development to look at opportunities to expand pre-K. Dr. Goree said this conversation will begin within this calendar year.

Raymond Green asked about the funding via the MFP and the amount of approximately \$8,000 and how this compares with the approximate cost of \$30,000 to incarcerate individuals. He believes if we can give \$30,000 to incarcerate someone and the fact that this could be a quick failure if that person was released from jail. He believes there is a need to look at what and how we fund. Dr. Goree said when beginning the Transformation Zone and in looking at the behavior of some of the students and being arrested, the first year showed a sharp decline in these numbers, and if we continue to produce people who are illiterate, and have numeracy skills, this is where we will be able to fight for these dollars. He also noted that the School System is committed and repeatedly looks at the numbers around soft skills and what we are doing to create people who do not need jail which will help get the monies where they need to be.

Mr. Rachal said he believes the proof is in the details and too many times there is such a broad shot across the School District that many of the details are missed. He expressed his desire that the media would pay attention to this. Mr. Rachal stated that in past years the District had a grantwriter, and he is willing to support looking at this again. understanding that grants are much more competitive today.

Ms. Trammel noted a letter Board members received from Foster Campbell and Dr. Goree explained that staff recently had the opportunity to apply for a lighting upgrade grant in some of the facilities. This will be used to totally upgrade the lighting in the high schools (gymnasium).

ESTABLISH THE AGENDA AND CONSENT AGENDA

Dr. Goree highlighted items on the agenda for the Board's consideration at the December 18, 2018 meeting and the following discussion ensued.

2019 Millage Proposal. In staff's efforts to make certain the renewal does not increase property taxes, staff has begun conversation with the municipal advisor selected by the Board in December. The municipal advisor has advised that Caddo can collect as much as \$88.3 million without changing the current tax bills of the citizens within Caddo. He also stated that in discussing this millage, staff talked about the importance of these three needs of the District: (1) safety and security, (2) HVAC systems, and (3) buses. He further stated that a list has been comprised of everything that needs to be done along with the cost (\$128 million) if the voters choose to move forward on May 4, 2019. Regarding safety and security, he reminded the Board that the average age of the schools is 74 years and upgrades must be made to address this, some of which create challenges in the times we live today. National Best Practices are being closely looked at where there is only one entry point at each school, i.e. Woodlawn.

Regarding HVAC Systems, Dr. Goree stated that since 2015, the District has done nearly 8500 work orders, and touched on what a burden this is not only for the system, but the students and teachers as well. He said that nearly 71% of the District's buses are 15 years or older, and this millage would allow the District to secure the future of the transportation fleet in Caddo as far out as 2043 which is a great gift to give to the next superintendent. By 2025, Caddo Parish will become the first school system in Louisiana to have a full fleet of air conditioned buses.

Dr. Goree also explained the difference in Item 8.04 which is a description of what the bond will fund if supported, and 8.05 authorizes the Board to call for the election.

Mrs. Locke stated her understanding of this needs-based request and asked, if approved by the Board, about the plan to educate the community. Dr. Goree said that once the Board votes to move forward, meetings will be held with community

stakeholders on what staff is proposing to do with the funds and to make sure they are informed of what the School Board is asking them to undertake for the School System. Mrs. Locke asked if the millages are not renewed, is there a matrix showing the savings/cost, and Dr. Goree said these are not developed but will be if the Board chooses to move forward.

Mr. Thompson asked if there is a way to give the employees a pay raise before we ask to buy buses and air conditioners?

Mr. Little asked, in looking at the plan's action steps for school consolidations, will HVACs be replaced in a school being targeted for consolidation? Dr. Goree responded that in looking at the strategic plan implementations, there will be a need to have a master plan around viable communities and schools in the future. At the horseshoe there are several perspectives of how this is defined and which schools we would prioritize for replacing HVAC systems. He also said that is the same thought relative to replacing buses because we do not want to purchase 300 buses at one time, but we would create a schedule to impact the future. One of the big challenges and works of the current Board will be to continue the conversation around right-sizing schools.

Mrs. Bell stated her concern about students getting to school safely and asked if she understands correctly that if this millage passes there will be no new taxes and the superintendent confirmed that is correct. She asked if it was 7.5 and now it is 5, and Dr. Goree confirmed that is correct. Mrs. Bell asked if this millage will keep it down to 5, and the superintendent stated that is correct and this millage will maintain our current millage rate being paid today. He further stated if this millage does not pass, the Board will vote in May to do a millage reduction, taking some of the millages off the books, which is where a family would identify a savings. Regarding the HVACs, Mrs. Bell asked how much was spent on the AC that failed this past summer at Turner, and Steve White responded that approximately \$2 million was spent and Phase I the year before, and Phase II, the entire front academic wing has been re-air-conditioned on a VAV System and we are looking at an additional \$2 million this year to begin moving toward the back (gym, auxiliary gym, auditorium, cafeteria, libraries, multi-purpose) with these possibly being done in two phases. Mrs. Bell stated her reason for asking this is will the next phases at Turner happen if the millage is not renewed? She also said the bathrooms and T Buildings at Walnut Hill need addressing as well. She noted that these things are needs; and while she understands teachers want a raise, she believes that would be next after these needs are addressed. She asked if this millage is pulled, what will happen to the students in the heat, who are on hot buses, and the lack of security, how will these needs be addressed. Dr. Goree stated that if this is not successful, we will be forced to tap into very heavily the General Fund budget to do what we can. There is limited opportunity to receive additional monies, so something would have to be taken away, and it could cause concern with how we are strategically planning for the future of the School District.

Mr. Lloyd clarified he is not against buses, because there is a need for buses; but, he is a big proponent that everyone in the school system receive a pay raise.

Mr. Rachal requested that the Board receive: (1) a chart of millages and renewal years, (2) a 15-year table of debt and millages, (3) in the past 10 years have we refinanced any bonds and what was the savings, (4) Federal guidelines for bus life, (5) extra cost to run an older HVAC system (10-20 years) vs. cost of new system, i.e. difference in efficiencies, (6) over past 10 years has the bond rating gone up, down or stayed the same, and (7) is this millage a dedicated millage for debt only. Dr. Goree confirmed this millage can be used for nothing other than funding debt.

Mr. Nations asked, when this comes for a public vote, will the Board be supplied with talking points, powerpoint presentation, etc. for use when they are asked to talk with public, groups, etc. to help sell this millage renewal. Dr. Goree said absolutely and he understands that communication will be a key factor in selling this to the public because the Board will be crucial in this being successful. Mr. Nations said he has learned that an informed group of people is a cooperative group of people, and he believes the public deserves this information. Dr. Goree again stated that staff will look to the Board members to carry the message to their individual districts and staff is available in support in any way possible.

Approval of Attorney/Client Fee Agreement for Spinelli, Donald and Nott. Ms. Green asked the Board Attorney to share an explanation of this item. Mr. Abrams explained as a result of a phishing scheme, funds were located in a bank in Sacramento, California. As a result of a lack of response from this credit union, we

have retained a law firm in Sacramento as a result of his communication with NSBA as well as the Council of School Attorneys and a recommendation to use a firm that will file a restraining order against the credit union. This law firm will charge \$250 an hour which he believes is very reasonable for California, and this firm was retained because of the urgency of addressing the matter during the Christmas break. The document presented for the Board's consideration is only a fee arrangement showing the cost for the partner versus the associate. Ms. Green also stated she wants to be able to adequately explain to her constituents and the public how Mr. Abrams explained it to the Board. Mr. Abrams said it is on the agenda so that the Board can discuss it; and the fact that the individual needed to be retained during the Christmas break. He said arrangements have also been made with someone in California so they could intervene and contact the credit union holding Caddo Parish funds, and this request is to ratify the agreement having consulted with the Board President and the Superintendent.

Mr. Thompson echoed Ms. Green's comments and stated that he had a conversation with the Board's attorney regarding his concern about a law firm in California. Understanding why the current Board attorney needed to address this, he said in the future he would hope we would look at hiring local attorneys to represent the Board on issues. Mr. Abrams also reported that he was just updated that Wells Fargo Bank is holding \$248,000 will be filing a lawsuit in New Jersey and he will also have to retain counsel in New Jersey. Mr. Thompson stated that he would like the Superintendent to visit with him on how we got in a position to where we must hire lawyers everywhere but in Louisiana.

Purchasing. Mr. Rachal inquired about the bid relative to tires and why we are not using the company in Boyce, Louisiana which we did not choose. Ms. Lloyd explained that staff evaluated the bids submitted and the bid requires information be included with the products that were bid elsewhere. She said this was not done and this was a requirement of the bid, so their bids were rejected (were unable to be accepted).

Regarding Southern Tire Mart, it has a parent company (out of state), but the local tire company is actually local.

Mr. Rachal asked about the length of the lease (agricultural), and Ms. Lloyd said it is a five-year lease. Regarding the total number of acres on this lease, Ms. Lloyd said she would get this information for Mr. Rachal.

President Trammel announced the following items as the consent agenda: 8.02 and 8.06-8.07. *Ms. Green moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the January 15, 2019 CPSB meeting as presented. Vote on the motion carried.*

Poll Audience

The following visitors addressed the Board on matters of concern/interest: (1) Omari Ho-Sang, (DMG, bond proposal, audience input on agenda).

Announcements

Mr. Thompson asked that the Superintendent meet with him for an update on status of Fair Share Program that used to be in the Caddo Parish School Board.

Ms. Green asked for staff to provide her with what tools are in place for helping a new principal be successful. She also asked if there is not a building in Caddo named for Mr. Ramsey.

Mrs. Bell asked that staff contact the YWCA of NW Louisiana about sharing a presentation at the February Executive Committee meeting on How Human Trafficking is affecting our community. She also announced that Board members are invited to attend the Free Coalition and Caddo Parish Juvenile Service ceremony relative to the awareness of Human Trafficking Awareness and Prevention Month.

Superintendent Goree announced that the Board's retreat will be held on Friday, January 11th from 9:00 a.m. – 3:00 p.m. He also reminded the Board there will be a one-week turnaround before the Board meets next week on January 15th.

Adjournment. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:40 p.m.*

January 11, 2019

The **Caddo Parish School Board (CPSB)** held a retreat on Friday, January 11, 2019 at approximately 9:00 a.m. at the Wanda L. Gunn Professional Development Center Auditorium. Those in attendance were Board members Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, Reggie Abrams, legal counsel, and staff member Mary Wood were also in attendance.

Superintendent Goree welcomed Board members to the retreat and thanked them for taking the time out of their schedules to attend. He began by highlighting the day's agenda and reviewing Caddo's Mission and Vision. The Superintendent covered topics of diversity, knowing your why for what you do, and One Board One Voice. Each topic discussed was followed by a dyad activity.

Departmental Overview. The following staff members presented an overview of CPSB departments they oversee: (1) Keith Burton, Chief Academic Officer, Academic Affairs; (2) Diane Atkins, Chief Human Resource Officer, Human Resources; (3) James Woolfolk, Chief Operations Officer, Operations; and (4) Jeff Howard, Interim Chief Financial Officer, Finance Division. Each departmental overview was followed by a question and answer time for Board members.

The Role of the Board and Navigating Ethical Concerns. Board Attorney Reggie Abrams shared with the Board its responsibilities as a Board as well as ethical issues/concerns as an elected official.

Adjournment. The retreat adjourned at approximately 2:45 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

**January 15, 2019
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Also present were Superintendent Goree and Attorney Abrams.

President Trammel called the meeting to order at approximately 4:30 p.m. Steve Riall led the Invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE DECEMBER 11, 2018, DECEMBER 18, 2018 AND JANUARY 8, 2019 (Special Session) CPSB MEETINGS

Mrs. Locke moved, seconded by Mrs. Bell, to approve the minutes of the December 11, 2018, December 18, 2018 and January 8, 2019 (Special Session) CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Caddo Parish Magnet High School National Blue Ribbon School of Excellence. Caddo Parish Magnet High School was recognized for receiving its second Blue Ribbon award in 10 years, the 16th Blue Ribbon award for Caddo Schools. Mrs. Wood reported that Caddo Magnet was recognized at the National Blue Ribbon Schools awards ceremony in Washington, D.C. and awarded a plaque as well as a flag to signify its exemplary status.

Caddo Parish Principals of the Year. The following were recognized as Caddo Parish Principals of the Year: (1) Michelle Franklin, E.B. Williams Stoner Hill Elementary, Elementary Principal of the Year; (2) Jenifer Guerrero, Youree Drive Middle, Middle School Principal of the Year; and (3) Michael Ilgenfritz, Caddo Parish Magnet High, High School Principal of the Year.

Caddo Parish 2017-2018 Outstanding Support Employees Award Winners. The following employees were recognized as outstanding support employee award winners: Elementary Division, Kimberly B. Page, General Fund aide, Queensborough Elementary; Middle Division, John R. Terrell, security coordinator, Ridgewood Middle; and High Division, Eddie J. Jackson, head custodian, Captain Shreve. The following Central Office support employees also were recognized as outstanding support employees: Academics Division - Kellie M. Taylor, secretary, Elementary Section B; Operations Division - Wayne B. Jackson, computer operator, Child Nutrition Services; Finance Division - Marchelle Cavanaugh, bookkeeper, Finance Department; and Human Resources Division - Lakesha Thomas, secretary, Certified Division of Human Resources.

Newly Appointed Administrator. Kylie L. Cotton was recognized as the newly appointed principal at Pine Grove Elementary School.

Outgoing Board President. Steve Riall was presented with a wall clock plaque in recognition of his service as 2018 president of the Caddo Parish School Board.

National School Board Member Recognition. Mrs. Wood announced that January 2019 is National School Board Recognition Month and a time to focus on the crucial role the elected board plays in the community and schools. Superintendent Goree added that having sworn in the members of the Caddo Parish School Board last week, he had the opportunity on Friday to spend the day with all 12 Board members in a retreat focusing on how we can function and do an awesome job to celebrate and create opportunities for children. As a gift to the Board, Dr. Goree shared a video highlighting some of the things shared during the retreat, showing why "We are Caddo". He thanked the Board members for their willingness to serve in this critical role and how their work helps accomplish all that is done for children.

VISITORS

The following visitors addressed the Board on matters/issues of concern and/or interest: Sharon Johnson, opposes renaming BTW auditorium; Jon Glover, \$988,000 plus/month to Magnolia Charter; Jackie Lansdale, Red River United, bond proposal to address critical needs of HVACs, buses, and security and future pay increase; Mattie D. McMullen, opposes renaming BTW auditorium; Michael Williams, supports renaming BTW auditorium for Harry Blake; Thomas Sweeney, opposes renaming BTW auditorium for Harry Blake; Frederick Henson, opposes renaming BTW auditorium; Willie Myers, supports renaming BTW auditorium; H Calvin Austin III, BTW auditorium vote; Neverlyn Townsel, opposes the continued division over renaming BTW auditorium for Harry Blake and supports talking about BTW needs; Jonathan Richardson, supports renaming BTW auditorium for Harry Blake; Travis Bogan, supports renaming BTW auditorium for Harry Blake; Tahira Abdul-Rahman, BTW Alumni opposes renaming BTW auditorium for Pastor Blake; Ora Hart, opposes renaming BTW auditorium and supports putting energy into turning BTW back to the great school it started out to be; Calvin Lester, supports renaming BTW auditorium for Harry Blake; and Lorne Gates Jr., opposes renaming BTW auditorium.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced that the following items are the consent agenda: 6.02-6.03, 7.01, 8.02, and 8.06-8.07. *Mrs. Bell moved, seconded by Mrs. Locke, to establish the agenda and the consent agenda for the January 15, 2019 CPSB meeting as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Dr. Douzart, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.02 Personnel Transactions (Resignations). The Board approved the Personnel Transaction Reports (Resignations) for the period of December 1-31, 2018 as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Southern Tire Mart for tires, and (2) Chadwick Peninger for the Herndon Agricultural Lease. *Copies of the bid tabulations are filed in the official papers of the January 15, 2019 CPSB meeting.*

8.02 Out of State Travel (General Fund) – The Board approved requests for out of state travel (General Fund) as submitted by staff in the electronic mailout.

8.06 Approval of Attorney/Client Fee Agreement for Spinelli, Donald and Nott. The Board ratified the attorney/client fee agreement with Spinelli, Donald & Nott as recommended by Attorney Abrams.

8.07 Approval of the Law Office of Reginald W. Abrams, Sr., LLC in Lieu of Abrams & Lafargue, LLC. The Board approved the Law Office of Reginald W. Abrams, Sr. under the same terms and conditions as Abrams & Lafargue, LLC effective February 1, 2019.

CONSIDERATION OF RENAMING THE BOOKER T. WASHINGTON HIGH SCHOOL AUDITORIUM THE DR. HARRY BLAKE SR. AUDITORIUM

Ms. Green moved, seconded by Mr. Thompson, to postpone the renaming of the Booker T. Washington High School Auditorium the Dr. Harry Blake Sr. Auditorium.

Ms. Green said that a number of Board members have shared their concerns and the need to postpone this item, and she asked the Board to support the motion to do so. Mr. Thompson shared that he had conversations with Ms. Green and he appreciates her boldness to postpone this at this time. He said he is proud of her and of being able to call her a fellow Board member.

Mr. Green commended Ms. Green for bringing the motion to postpone so the entire community can be involved in making a decision relative to this situation. He added he hopes the intention coming from the alumni and special interest groups will be made known to the Board in a manner in which the Board can make a sound decision that will keep the community working together and do the most for the students attending BTW.

Mrs. Bell asked Mr. Abrams to clarify what it means to postpone an item. She said this situation has created chaos in the community and she believes it is necessary to look at the Board's policy addressing this. Mr. Abrams explained that the motion on the floor is not clear and for it to be clear, it needs to address when it will come back to the Board. He said Ms. Green has said she will restate her motion to say postponed indefinitely, because when you postpone indefinitely it means it will not come back unless the Board brings it back; and a motion postponed indefinitely cannot be amended. At this time the motion on the floor is not indefinitely; and the motion can be amended to add indefinite as well as other criteria. Mrs. Bell reiterated the need to come together and look at the policy governing the naming of facilities. Mr. Abrams announced he was asked by several Board members to rewrite the policy so that any time a request is made to name a facility, to change the name of a facility, or a portion of a Caddo Parish School facility, it will go to the Building and Grounds Committee.

President Trammel stated the maker of the motion is being asked if she will make the motion read that the item is postponed indefinitely, which will also require an agreement from Mr. Thompson as the motion's second. Ms. Green agreed and *moved to postpone indefinitely the renaming of the Booker T. Washington High School Auditorium the Dr. Harry Blake Sr. Auditorium at this time and that the policy and guidelines so set will be followed if it comes back in the future. Mr. Thompson seconded the motion, and vote on the motion carried.*

Recess. President Trammel called for a brief recess at approximately 6:00 p.m. and the Board reconvened in open session at approximately 6:13 p.m.

TO CONSIDER AND TAKE ACTION WITH RESPECT TO ADOPTING A RESOLUTION APPROVING THE "CAPITAL IMPROVEMENT PLAN", DESIGNATING PURPOSES FOR WHICH PROCEEDS OF PROPOSED GENERAL OBLIGATION BONDS WILL BE BUDGETED, AND OTHERWISE PROVIDING WITH RESPECT THERETO

In response to Board members' questions at the January 8th executive committee/board work session, Jeff Howard, Interim Chief Financial Officer, shared a summary of staff's responses to Board member questions on this item. Mr. Howard reiterated that this millage will not raise taxes, but it could possibly generate funding for approximately \$88.3 million in bonds. If the Board votes to move forward, the measure will be placed on the ballot for voters on May 4, 2019. He reported that the Board has reduced this millage four times over the past 14 years and it has reduced taxes by approximately \$4.5 mills since 2011. The overall tax rates also were rolled back five times during that same timeframe for the citizens which means after a property reassessment, State Law requires that governmental agencies roll back the millages to the point where agencies receive the same amount in tax revenue as they did before reassessments. The governmental agencies can vote to keep the millages the same and receive more tax revenue but the Caddo Board has not done this.

Mr. Howard also reported that since 2002, the School Board has refinanced nine times to save taxpayers over \$7 million. Additionally, he shared that the Caddo Parish School Board has a AA- Standard and Poor's rating which increased in 2012 from an A+. The millage is restricted to paying debt service on General Obligation Bonds and it cannot be legally used for any other purpose, i.e. salaries, etc. If the bond issue is approved by the voters, Mr. Howard reported that projects could

begin as soon as Fall 2019; however, if the bond issue is not approved by the voters, in May the Board will decrease mills, reassess at approximately .6 mills which means for the owner of residential property assessed at \$160,000 an annual reduction of \$5.10 on property taxes. If not approved, the Board will also need to explore other options for addressing the District's critical needs.

Mr. Little asked if in implementing the capital improvement plan will HVAC systems be replaced in any schools that may be considered for consolidation? Dr. Goree said while there is not a Master Plan at this time for determining the future uses of schools, he assured the Board that before any replacements are scheduled, staff will make certain those schools have a viable population and will be in existence for 10-15 years. Regarding school buses, Dr. Goree reminded the Board that this is a need and it will be billed out over 10 years to replace them. Safety and security would also work the same as the HVAC systems as far as the need to prioritize and make sure permanent fixtures are not being put into buildings that may not be used in the future. Dr. Goree also added that even in the consolidation of facilities to date, i.e. Hillsdale, the air conditioning units in these facilities have been removed and used in other sites.

Mr. Thompson asked if there is a Master Plan where new HVAC systems are needed? Dr. Goree said there is not a Master Plan developed as yet, but there is a total of approximately \$128 million in requests. Staff has also provided the Board in the past a document showing the number of facilities in need of air conditioning repair. When talking about air conditioning, Dr. Goree reported that over the last three days he met with every principal in small group settings, as well as the teacher organizations, and asked them who in the last 365 days has not filed one work order for air conditioning; and there was not one principal in the District that raised their hand. He also noted there has been 8,500+ work orders over the past three years related to air conditioning issues. He also reminded everyone that when implementing the bond issue in 2004, not everything was done in one year; however, if the Board approves moving forward and the voters support the bond issue, staff will build a schedule for moving forward. Dr. Goree also responded that the purchase of buses will be spread out over 10 years.

Mr. Nations asked for clarity on the cost to the taxpayer based on a medium-sized home valued at \$160,000, and what information will the Board need to take to the community if this does not pass. Dr. Goree again said if the Board approves moving forward, staff will develop a schedule that includes several examples.

Mr. Rachal moved, seconded by Mrs. Locke, to adopt the resolution approving the "Capital Improvement Plan" designating purposes for which proceeds of proposed General Obligation Bonds will be budgeted, and otherwise providing with respect thereto.

Mr. Rachal read a portion of the resolution under Item 8.05 which stated "for the purpose of acquiring land", noting his concern and asking if this can be removed because it is stated differently in the two resolutions submitted for Board approval.

Brennan Black with Foley Judell responded that it is correct and the 8.04 resolution approves the Capital Improvement Plan and 8.05 calls for the election and describes the proposition. He explained why it doesn't reference only the Capital Improvement Plan and it is because there could be issues down the road in issuing bonds; and, because the District would be entering into covenant for tax exempt purposes under the Internal Revenue Code, this is the typical broad language used in all tax call propositions giving authority to spend it for various purposes.

Dr. Goree shared an example of school bus prices decreasing by half the cost and how this broad language supports this. Mr. Black responded that in the event the prices decline and the District finds itself with more bond capacity than was needed, the excess voted on in this proposition could be used for any of the other capital purposes listed in the resolution. Mr. Rachal again shared his concern that the two documents do not agree.

Mr. Rachal stated this resolution is not the same as saying what we are going to do with the bond proceeds, and Mr. Brennan stated that he does not know if that is totally correct. The Capital Improvement Plan resolution states "to the extent

feasible, it will be used for the projects listed and attached thereto", and he does not believe it to be standard practice to reference the Capital Improvement Plan in the proposition, but he does believe the purpose is to express the Board's intent to spend the proceeds for those specific purposes. Again, he said if there are additional proceeds, you can't use them per State Law for anything other than what is in the proposition, i.e. if you only say the Capital Improvement Plan and there are bond proceeds, there will be a conflict with State Law and Federal Tax Law.

Mr. Abrams also said he contacted Grant Schleuter about this same matter and he explained why it is worded this way and there is nothing wrong with the resolution. Mr. Rachal said he is the one who will be talking to the voters and various groups and he believes he and other Board members will be asked to respond to this from the public. Mr. Black clarified that it is an authorized purchase, but not a required expenditure; and Mr. Rachal said he reads it that once the Board approves it, the Board can go and do something else. Mr. Abrams stated that Board members can explain that the lawyers have said it is to be worded this way to protect ourselves because of Federal Law, as well as State Law, and it is the rationale he just heard from the bond attorney. He said Mr. Schleuter and Foley Judell have done many of these resolutions that must meet the requirements of Federal and State Taxation laws, and we need to rely on them to make certain it is done correctly. Mr. Rachal asked the Superintendent if there are ample needs to where this verbiage could be struck from the resolution.

Dr. Goree said he cannot speak to whether or not we can strike a portion of the resolution, but would need to refer to counsel; however, he can speak to what staff identified as critical needs in the District, and the total came to approximately \$128 million; so there is certainly more than \$88 million in needs in Caddo. Mr. Rachal said he doesn't believe it is the Board's intent to go buy land; therefore, we do not need the reference to "purpose of acquiring land". Mr. Black stated that it can be revised however the Board sees fit; but, as counsel, he must advise the Board of the risks involved and why the resolution is worded the way it is. Mr. Rachal reminded everyone that we are not on 8.05 but 8.04 which will go into 8.05 and he only wants the Board to note the difference in the wording in these two resolutions.

Mrs. Locke asked counsel if the verbiage used is capital improvement verbiage, and Mr. Black said it references the Capital Improvement Plan in Item 8.04 and provides a broad "CYA" in the event you have excess proceeds that either cannot or have been used to meet the Capital Improvement plan, providing the District with options for which bond proceeds can be used.

Mr. Thompson asked if the security upgrades are done, how can we say to taxpayers we will be paying for two different securities on the school campuses (security officers and an upgraded security system). Dr. Goree said there will not be a savings from this in those respects, but it will look at national trends and recommendations on how to create safer environments for the students and employees by controlling access to our campuses.

Mr. Albritton clarified that the discussion is not new as he heard the same 30 years ago when serving on the Board. He said the language is so that it is in compliance with the IRS laws and regulations, and these terms must be included to show it is capital improvement and we are referring to the list of capital improvements as mentioned by the attorney and attached. The attachment is what the board is committing to do. He added he understands that today government does not carry a lot of credibility and he appreciates the concerns expressed by Board members. However, as he understands it, if this does not comply, the Board will have to go before the bonding group and the Legislature to put our particular language in the document so it complies with Federal Internal Revenue Service laws regarding capital improvement. He suggested the Board's conversation be to the attachment (the list of capital improvements) because there is broad flexibility under the term "capital improvements" and it does not say we will do every project on the list.

Mr. Nations asked if he understands correctly that we are safely and broadly covering all the scenarios and not unnecessarily "handcuffing" ourselves down the road if there is flexibility with the funds, and Mr. Black confirmed that is correct.

Mrs. Bell shared that capital improvements to her are security, buses and HVAC systems, and she believes she will be asked about the inclusion of purchase of land in the resolution. She said she knows enough to say that when down the road someone decides they want to build a school, they will reference this statement in the resolution that says it can happen. She said someone will need to provide her something in writing that this will not happen. Mr. Black explained that he doesn't want to say the Board is bound by the resolution and proposition because it can be changed as the Board sees fit; but for state law purposes, the District can only use the bond proceeds, and only levy the tax for the purposes listed. For Federal Tax Law purposes, the District must use the proceeds for capital projects, so the language is intended to allow the District, after the Board has spent the bond proceeds for the Capital Improvement Plan presented, the option to spend any excess bond proceeds for other purposes.

Board Attorney stated he does not recommend changing the language from what bond counsel has recommended, and added when you have a capital plan, that is what is followed. He also said the superintendent has stated there is way more in the capital plan than will ever be received; however, this is about covering and making certain that those buying the bonds will be able to get their tax exempt status and that they are all protected, and the plan is what the discussions are about. If the language is changed, it may not get done because of the timeframe to be able to make this happen.

Mrs. Bell said she did not ask for change but that someone explain to her what, when she moves forward and presents it to her constituents, to understand so she understands how to explain it to them.

Ms. Trammel stated that the needs in the District will use every dollar in this bond issue, so she doesn't see that there will be money to purchase any land; and, she understands that the language used is only to cover ourselves as a District.

Mr. Thompson asked if we have hired a bond attorney, and Dr. Goree explained that Mr. Black is our bond attorney. Mr. Thompson asked for clarification and if the bond attorney was hired before he was sworn in, and Dr. Goree explained that the bond attorney was approved by the Board in 2012 and no Board member has brought forth any change. Mr. Thompson said he believes in using local professionals to do our work and he knows there are some that can do bond work and he would like to see them considered. Ms. Trammel and Mr. Abrams reminded the Board that the District does have local representation.

Vote on the motion carried with Mr. Riall absent for the Board and Mr. Little opposed.

TO CONSIDER AND TAKE ACTION WITH RESPECT TO ADOPTING A RESOLUTION ORDERING AND CALLING A SPECIAL ELECTION TO BE HELD IN THE PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA, TO AUTHORIZE THE INCURRING OF DEBT AND ISSUANCE OF BONDS THEREIN; MAKING APPLICATION TO THE STATE BOND COMMISSION IN CONNECTION THEREWITH; AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Rachal moved, seconded by Mr. Albritton, to adopt a resolution ordering and calling a special election to be held in the Parishwide School District of Caddo Parish, Louisiana, to authorize the incurring of debt and issuance of bonds therein; making application to the State Bond Commission in connection therewith; and providing for other matters in connection therewith.

Mr. Rachal stated that since 2004, this particular millage was 9.7 mills and is now reduced by approximately 50%, down to 5 mills. He noted that at every opportunity since he has been on the Board to save the taxpayers money, the Board has done so. He added the Board not only saved the taxpayers money during this timeframe, but the District's bond rating improved from an A+ to AA-. Also, he reported that the overall millage has dropped over 15%, reducing what property taxpayers in the Parish pay by 15% and improving our bond credit rating. At this time, Mr. Rachal said we will be able to get 250 buses (for example) at a

time and it not cost us anymore. He stated he believes if this is not approved, it will be crippling to the District; and will put the District in a position, because of Federal law, to replace all the buses regardless. Mr. Rachal also shared a report on the age of the District's HVAC systems and the inefficiencies of the older units. Mr. Rachal asked who is responsible for presenting this to the bonding attorney, and Ms. Trammel responded that Caddo's bond counsel is present. Mr. Black explained they will present it to the Bond Commission on behalf of the Caddo Parish School Board with a deadline of January 23rd for their February meeting. Mr. Rachal asked if we will have our own attorney present it, and Dr. Goree stated that Caddo's Bond Counsel is present today and will be the one who makes the presentation. Mr. Rachal asked if he understands the municipal advisor is not who will make the presentation, and Mr. Black explained that the municipal advisor will be copied on all correspondence and any questions from the Bond Commission before the approval. Mr. Rachal asked if by law we have hired an attorney, our municipal advisor, because he understands that the bond attorney does not represent Caddo and has no fiduciary responsibility, but it is the municipal advisor that does. Mr. Black said that is false because he has the same duty as any attorney has to their clients under the professional rules and responsibilities. Mr. Rachal said the District's attorney is our municipal advisor, and President Trammel clarified that the municipal advisor is not an attorney but a financial advisor.

Ms. Green moved, seconded by Mr. Nations, to call for the question. Vote on the motion to end debate carried with Board members Little, Locke and Rachal opposed.

Vote on the original motion carried with Board members Little and Bell opposed, and Board members J Green, Thompson, Douzart, Trammel, R Green, Locke, Rachal, Nations, and Albritton supporting the motion. Mr. Riall was absent for the vote.

SUPERINTENDENT'S REPORT

Superintendent Goree announced that the "Taste of Blanchard" will be this weekend.

Dr. Goree also announced that Opportunity Caddo (CPSB program on how we support economically-disadvantaged businesses) will hold an information session on March 13, 2019 from 9 a.m. to 12 noon in the Professional Development Center. Board members were asked to encourage business owners interested in learning more about doing business with the School System to participate in this event.

ANNOUNCEMENTS

Mrs. Bell announced that the African-American parade, one of the largest in the nation, will be February 2nd, and Dr. Lamar Goree, Louisiana State Superintendent of the Year, will serve as Grand Marshal. She also announced she will give the application to Mr. Burton so Caddo is represented by its students in this parade.

Mrs. Bell asked if the presentation on Human Trafficking is scheduled for the February work session, and Dr. Goree confirmed it is on the agenda.

Mr. Rachal stated, in moving forward with the election, that with staff's help, he would like to schedule a community meeting with Mrs. Locke for Districts 8 and 9. He also said that in taking this issue to the voters, he believes it will be approved and will be the spring board in the future to address other bond issues, renewals, for addressing teacher and staff pay.

Mr. Thompson expressed his appreciation to Mrs. McDonald for the great tour of Creswell and complimented the principal for the great job he is doing.

Dr. Goree expressed appreciation to the new Board members for scheduling time to visit the schools in their District.

Mr. Nations shared the paradoxical events of last week for him, one being sworn in as a member of the Caddo Parish School Board on Tuesday, and then on Wednesday night responding as chaplain at University Health to the Shreveport

Officer who was shot. He announced a suspect has been arrested in this tragedy and while saddened by this loss in our City, he is proud that the Mayor and others were there to support the family; and he hopes the City will take this time of tragedy as an opportunity to come together and change the violence in our City.

Mr. Green announced that as a School System we should join with others in flying our flags at half-mast.

President Trammel announced that a draft copy of the 2019 Committees is at each station and Board members should contact her with any comments or changes.

Adjournment. *Mrs. Locke moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 7:10 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

February 5, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry F Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. Board member Jasmine Green led the invocation and Pledge of Allegiance.

Mrs. Bell asked that everyone remember the Southwood student and the Northside student injured when hit on their way to school.

PRESENTATIONS

Midyear Strategic Plan Update. Mrs. Carolyn Spaht-Gonzalez announced this is the seventh mid-year report she has given to the Board in the District's 5-year strategic plan; and because there are new Board members, she highlighted the process followed in reviewing and creating targets, action steps, as well as objectives used to determine if the targets in the strategic plan are being met. She added she works with the goal leaders, who really are the ones who do the work, for months to talk about what has been done to date as well as receive documentation to show what has been done. All backup supporting documentation is provided in a binder and is available in the Superintendent's office for review. While some of the information she might only review, i.e. personnel, and not publish, she uses this information to create a scorecard to reflect if the target is being met (green), if improvement is reflected in meeting the target (yellow); if work on a target is going backwards or no progress has been made (red). Mrs. Gonzalez also noted that this is mid-year and only a status update, with the scorecard to be provided at the end of the year.

She shared the performance against the targets in the plan and if staff has hit the targets; and she reminded those who were on the Board last year of the two objectives at the end of the year for which there was no data, the vacancy rate and the contingency reserve (rainy day fund), both which were red. She also reported that when a goal is met, staff changes the target to make it more aggressive, or if they have reached the most aggressive possible target, they change the objective itself.

Mrs. Gonzalez noted this is a stretch plan so it is a positive thing that only one objective has been red each year, and added the vacancy rate is red because there are a few more vacancies than last year.

At mid-year, she reported that five objectives (three in Academics, vacancy rate and contingency reserve) have no data today but will by year end. With approximately 1/3 of the plan being green, she believes the District will hit the targets on about 1/3 of these because they are going strong and action steps are being hit. Also, about 40% have improved but may not be making adequate progress, so staff is paying particular attention to the yellows. Additionally, no progress has been made on the retention for classified and substitute bus drivers, and even though classified improved since last year, it is not as high as in the baseline (from where the plan judges). She also noted that Classified began at 82%, which is an extremely high percentage to start with for retention. Substitute bus driver percentages are typically lower at mid-year than at the end of the year because of retirement timing, so this should increase.

Mrs. Gonzalez also shared scorecard examples of three targets and how they are coded (red, yellow, green) based on achievement.

Superintendent Goree shared with the Board that Mrs. Carolyn Spaht-Gonzalez has done this for Caddo since the implementation of the strategic plan, and her background includes a Master's Degree in Strategic Planning from MIT and Chief of Staff for Miami-Dade Public Schools (4th largest district in the Nation), bringing a wealth of information to the process we are implementing. Mrs. Gonzalez added she is a product of Caddo Parish Public Schools, and reminded everyone that the binder is located in the Superintendent's Office for those wishing to view additional information. She also encouraged Board members with questions to feel free to call her.

Mrs. Bell asked for further clarification on the annual reduction of overstaffing, and Dr. Goree explained that the numbers of 91 and 27 are the baseline numbers by

which we were over-staffed when beginning this process. Mrs. Bell questioned being over-staffed but always looking for teachers, and Dr. Goree responded this is certified teachers plus subs and eight additional spots on top of that number. Every time there is a vacancy and we need a teacher, there is a sub in the spot. He reminded the Board that this number of over-staffed positions is not in the budget, and is a number above the staffing formula. Mrs. Bell asked that another look be made at the staffing formula as some schools need more. Dr. Goree added he and Mrs. Gonzalez have discussed the fact that more school districts throughout the country are doing more equity based staffing formulas and at the request of the board, this can be looked at during the budget process. Mrs. Bell said that every school is different and she believes it is important to look at it again. Mrs. Gonzalez noted the baseline numbers were in the 2014-15 school year.

Dr. Douzart noted the importance of safety at schools for administrators bringing students to the bus to have on a safety belt to identify them.

Mrs. Gonzalez also noted areas of distinction in the report, including innovation of students, community partnerships at schools, safety in schools, reduce surpluses and over-staffing and lower energy consumption.

The superintendent explained that regarding energy consumption, the budget reflects we spent more on energy; however, we actually consumed less energy but inflation in the cost caused the dollar amount to be about the same. He added if we had not made the modifications, the amount spent would have been far greater.

Focus areas noted by Mrs. Gonzalez included fund balance, vacancies, retention, and HR data for analysis. For all the areas, she said there is a plan to fix each of them.

After the end of the year, Mrs. Gonzalez will present a full scorecard including all 27 objectives, one more revision to the current plan will be presented to the Board in August for approval, and continue to measure the performance mid-year and at the end of the year. She closed her comments by commending staff for the amount of work being done and that the binder is only 1/3 of the information she has reviewed on the work being done, and it is work the Board should be very proud.

Dr. Goree stated that in August of next year the District will begin the 5th year of this strategic plan; and while we will be living this plan next year, we will also begin the revamping of the plan to develop a new five-year plan. He said a lot of what is in the plan will be looked at from the point of what the goals will be which the Board will have a huge voice in developing, but it will also be an opportunity to hear from the community, the business community, parents, teachers, staff, etc. in the redevelopment of the next five-year plan.

Human Trafficking Awareness. Laurie McGehee, executive director of the Free Coalition, and Dr. Belinda Roberson, executive director of the YWCA, shared with the Board and audience an update on the reality of human trafficking in our Nation, state and parish/city. Ms. McGehee said it thrives because there is a serious demand for commercial sex with minors, and every day boys and girls are being bought and sold for it. She shared with the Board that many may see it happening, but are unaware of the signs, the red flags, and what to do if one recognizes it. She also highlighted some of the data compiled every year by the Department of Children and Family Services on human trafficking, both adult and minors. The numbers reported in 2017 included 352 victims of human trafficking under the age of 17 and 72 of those were age 12 and under. Also 74 of the 352 were from Caddo Parish, with Caddo's date close to that of Orleans Parish. Ms. McGehee explained that in 2013 when they began to see an influx of girls and boys coming through the Juvenile Court System who were involved in human trafficking, they formed the Caddo-Bossier Community Response Team and began to collect data in 2014 on these cases. With five years of data, she reported they have staffed 146 cases and 70 cases were confirmed cases of human trafficking in an age range of four to 32 with the youngest victim being 4 years old. She reported while the 2018 data has not been completed, the Community Response Team staffed 51 cases, 26 of which were confirmed victims of human trafficking, and these are children that live in Shreveport/Caddo Parish and attend our schools. Statistics also revealed that the majority are children under the age of 17, 91% are female, and the majority are African-American female. Ms. McGehee also shared additional statistics including ethnicity by gender, victim status, process when staffing cases to determine the level of risk for human trafficking, risk factors (highest of which is lack of parental control and supervision), parish of origin, anti-trafficking team, and local services and entities involved.

She stated that in making the Board aware of the seriousness of this problem in Caddo Parish, they are asking the Caddo Parish School Board to make it policy requiring all employees to be trained by the Free Coalition on Human Trafficking Awareness and Prevention every two years. She said the training is one hour and is done at no cost to the parish, and is ready to begin training in Caddo. This training is meant to empower every employee to understand the red flags, recognize the signs and understand the risk factors for human trafficking. The training will also help them know what to do once they suspect a victim of human trafficking.

Belinda Roberson reported that the YWCA lead program is working with the teen and tween girls in Caddo Parish Schools to help them understand the signs, and they are looking to educate the staff, bus drivers, et.al., on what these female students already know.

Mr. Rachal thanked them for coming today and sharing this hurtful information with the Board, and that he is all in support of whatever Caddo can do.

Mr. Nations shared his conversation with Ms. McGehee and Dr. Roberson and the need to do this; and the importance of the training so all will be in a better position to help these students.

Mrs. Bell announced she will bring something and would like for the Board to be a team in bringing it forward, and Ms. Trammel asked that this training be set up for the Board.

Dr. Goree stated that he has taken the time over the last month to look at some situations in the District, and he believes that some of the red flags, i.e. stranger or someone other than the parent picking up the child from school, are things the staff will definitely be able to pick up on when made aware of them. He added the staff/schools will definitely support the Board in doing everything we can to inform as many as possible about this horrible crime.

School-Based Health Center Awareness Month. Willie White, CEO of David Raines Health Center, shared background information on the organization and implementation of school-based health centers and services offered since 1992. Sister Sharon Rambin, manager of the school-based health centers, shared that last year the school-based health centers provided health care services to approximately 4,000 children. She reported there are 62 health centers in the State, and Northwest Louisiana only has four, all of which are in Caddo Parish. She shared the type services offered to the almost 4,000 children in Caddo, and that 95% of the children seen in these clinics are treated and returned to the classroom. Also, the families never receive a bill for the services provided. Dr. Jacqueline Grey, who leads the medical team, shared that their team members are on site every day providing a full range of services even prescribing medication and/or injections. Sister Sharon also reported that the clinics work closely with the Caddo school nurses to make sure students receive immunizations and other requirements, hold health fairs, conduct activities with the children, provide needed clothing, participate in carnivals, etc. to provide them with information but said more is needed.

Dr. Goree expressed appreciation to David Raines, Christus Schumpert, and Healthy Blue for all they do and Caddo is excited that its 5th campus health care facility will open at Oak Park.

Mrs. Bell asked about requirements for qualifying for a health care facility at a school, and Dr. Goree explained they look at historic data around students with absenteeism as a result of illnesses, poverty rates at the school and one will see that the schools with the health care centers have a high poverty rate. He also said when looking at some of the earlier decisions, these were about having access to services. Regarding schools like Walnut Hill, he stated that there would be a number of schools qualifying before Walnut Hill because the poverty level is different, and Walnut Hill is no longer a Title I school.

Mr. Green shared his appreciation to the presenters for what they are doing, and Dr. Douzart echoed Mr. Green's comments. She shared her memories of being in the school as a gym teacher and the need to always be prepared to address situations that arose. Ms. Trammel stated she has seen for herself what happens in the school-based health care centers at campuses, and she appreciates the centers located in District 6.

Mr. White expressed appreciation for the partnership with the Caddo Parish Public Schools and others and would support an expansion of services that are needed in the schools.

Mr. Thompson asked about the 173 students sent home from JS Clark and Sister Sharon responded that JS Clark had a strep throat epidemic.

Dr. Goree encouraged all who have not to visit the school-based health center at JS Clark. He also stressed the fact that identifying the strep at JS Clark so quickly was crucial in addressing this illness. Board members were also invited to tour the school-based health care centers.

President Trammel also thanked Caddo Commissioner Steven Jackson.

Trauma Informed Care in Caddo Parish. Elyn McKinney, director of professional development, stated that the information tonight has been heavy for everyone's heart because we are talking about children's education and this is information regarding children that the School District can impact. She stated that Caddo has applied to become a Trauma Responsive District, and shared with the Board the second part of a three-tier plan to help make this happen. Mrs. McKinney shared that 30% of the children in Caddo between the ages of 5 and 8 live in poverty, approximately 27,000 students live in poverty, six schools in Caddo Parish have fewer than 40% living at poverty rate, and there is a 38% increase in families in need of care in Caddo Parish (foster cases). When a child is removed from their home, there has been a traumatic event occur in that child's life. This is also true for children who have been adopted. Homeless rates continue to rise and there is an increase in domestic and child abuse investigations.

Mrs. McKinney reported that the Caddo Parish Public Schools Trauma Responsive District Plan is a three-year plan and call to action by the District to train every person in the District who has any form of contact with the child and she highlighted the scope of this and what it means for the District. The District leaders, school teams, Board members (if the Board so chooses), and every other employee in the District will make up the plan and within this document for the plan in over three years, training has been detailed, named the types of training, materials to be used, the scope, sequence and timeline. She explained that the initial phase is to become a trauma informed district and the meeting tonight is part of this process. The next phase will be to become a trauma sensitive district that will be responsible to note and begin to change the culture for how children with behavioral needs, social and emotional needs are addressed, and finally, become a trauma responsive district where we will be fully trained to know how to interact with children with the needs expressed at tonight's meeting. Mrs. McKinney explained there is deep training for the classroom teacher which will provide them with strategies to be used by those who supervise those who interact with students.

Board members were given a copy of *The Connected Child* by Dr. Karyn Purvis and Dr. David Cross, both researchers and practitioners with children providing a strategy called trust-based relational intervention. This has been viewed as possibly the best interventional approach for anyone interacting with a child and strategies used are included in this book. She also provided details on what it means talking about children with trauma and the behaviors seen as a result. Mrs. McKinney stated that she looks forward to seeing this plan implemented in Caddo and being able to have a system in place that addresses the needs of our students.

Dr. Goree announced that some training has taken place in our District in some of the Transformation Zone schools and every teacher has shared how much more informed and prepared they are after this training to better be able to provide the academic and social support they need.

Mr. Rachal asked about the 10 school counselors a year receiving the training and how we came up with the number. Mrs. McKinney responded that the Karyn Purvis Institute only takes a certain number a year into the institute to become a practitioner; however, the strategies can be introduced today. Caddo has three people being trained in March to become practitioners, and the goal of having at least one school counselor trained on every school site may take six years, but the Institute has reached out to Caddo about the possibility of bringing an Institute to Shreveport with the help of Judge Matlock. If this happens, we will be able to advance the training within a matter of months. She said there is a funding source set aside for this training and PD is ready to move forward when the o.k. is received from TCU, which has not come yet. She said the Juvenile Justice System also supports us in this, and if possible, we may get 100 trained this summer. Mr. Rachal

stated that everything the Board has heard today reminds us that the school system is much more than a classroom.

Dr. Goree encouraged the Board to read the questionnaire included in the information provided.

Mr. Thompson stated that being a foster child himself, he would be interested in knowing how many foster children there are in Caddo. He knows how important a foster home is and how it works if you are in the right family, which he was.

Mrs. Locke stated her appreciation of the common thread of what has been presented today in educating the whole child, and she is very excited about this project coming to fruition. She also shared her daughter's exposure to this when working on her Master's at TCU and she knows that it works.

ESTABLISH AGENDA FOR THE FEBRUARY 12, 2019 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at the February 12, 2019 meeting and the following discussion ensued.

Bids. Mr. Thompson asked about the construction bid, and staff responded that it has bid and the names of those who responded with a bid are attached to the backup. Mr. Thompson asked for clarification on how bid items are shared, and Steve White and Lisa Lloyd shared how projects are bid in compliance with Louisiana Public Bid Law, they are advertised in the District's Official Journal (Shreveport Times) for 25 days, bids are received, publicly opened and read aloud in front of the bidders. Mr. Thompson asked if the District is notifying small roofing companies, for example, to make sure they are aware of the opportunity. Ms. Lloyd stated that we advertise on the District's web site, on Bid Express (an electronic bid site), and send them out to our community partners (Southern Business Incubator, NAACP, Caddo Parish Commission, City of Shreveport) in an effort to notify as many in the community as possible.

Consideration of new CPSB Investment Policy. Jeff Howard, interim chief financial officer, explained that this is a proposed revision to the District's policy to make the policy more robust, providing a more thorough explanation of the information given to the Board, as well as additional protection for the school system while still conforming to State Law. He added that once approved, there will also be guidelines approved by the Superintendent to be followed.

Mr. Rachal thanked the staff for being pro-active on this and he believes these revisions will address the concerns.

Consideration of proposed revisions to CPSB Policy DJE. In response to Ms. Green's request, Attorney Abrams explained that this is an update to the old Policy DJE approved by the Board a couple of years ago and was forwarded to the District from Forethought. He said major changes include "in accordance with State and Federal law" and that is because we do not follow regulations for State and Federal Agencies and would not need this unless the Board makes the decision to change this. Regarding Federal requirements, there was change in purchases from "less than \$3500" to "less than \$10,000" which deals with Federal grants and not something the Board would do. Relative to State requirements, the main change that affects what Caddo does, it changes "public works exceeding \$152,400 to \$154,450" because the statute requires you add an amount each year for the consumer price index (CPI). Mr. Abrams explained that because the policy has numerous statutes throughout it, the Board will for sure be revising it every year because in January the CPI will change which will change what is in the policy.

Consideration of proposed revisions to CPSB Policy BCBI. Mr. Abrams explained that the requirements in the Board's policy relative to visitors addressing the Board are read prior to their comments; and as a result of recent derogatory comments made during the last Board meeting, Ms. Green asked him to look at this to determine how this can be addressed. Mr. Abrams said the policy states visitors may not make any derogatory statements about or toward any School Board member or employee, and the recommended revision is to include "or any other person". He noted the policy already addresses the fact that speakers who wish to make such comments shall submit their complaints by a signed written statement that will be referred to the School Board President, the Superintendent, or appropriate designee for further action. Dr. Goree stated that the statement is read before speakers address the Board. Ms. Green asked if they wish to talk about someone do they they have to submit what they want to say in writing, and Dr. Goree explained they should not

say it in public, but the policy says they should put it in writing. Ms. Green asked what happens if they do say it in public, and Mr. Abrams explained we cannot stop anyone from speaking until they make the derogatory statement. Dr. Goree also said that the person can take personal action against the person who made the derogatory statement, but the School Board, as a public body, cannot. Ms. Green clarified that her understanding is the only change is to add "or any other person", and Mr. Abrams said that is correct.

Mrs. Bell asked if the President gavel someone who makes such derogatory remarks and they do not stop their comments, when does security step in. Mr. Abrams explained the only time someone can be removed is if they disrupt the meeting so it cannot continue. If someone is defaming someone, we can gavel that person until they stop; and if the person they are defaming wishes they can bring a lawsuit against the person making the remarks. Mrs. Bell stated disrupting the meeting to her is when the President gavel someone that they are out of order and the person continues, ignoring the gavel.

Dr. Goree added there have been conversations on how this policy can be revised to make it meaningful to the productive work of the Board while protecting the District. In that respect, we cannot ignore people's rights, but is where the challenge comes in. Mr. Abrams stated that in his 20 years as board counsel, he believes this is the first time anyone has made such a derogatory comment toward someone not in the Board's meeting.

President Trammel said the gavel means nothing to some who sit in the audience, and she cannot put anyone out of the meeting. She also added that no one knew the visitor's statement would go this far and asked legal counsel if the mic at the podium can be muted in such instances, and Mr. Abrams said it can.

Mrs. Bell stated we have security presence in the Board meeting and in these instances, she believes it is time for them to do something.

Mr. Nations stated that a policy is only as good as the teeth behind it, and he thought the visitor was beyond proper decorum. He also added the visitor showed no respect to the audience and Board; but there must be a way to enforce what they are informed through the read statement as far as what they can and cannot do, but it is ignored. While we do not want to put the Board/District in a position to be sued because a person is exercising their First Amendment rights to free speech, we also do not want to sanction slander.

Mr. Riall reminded the Board that in such instances, the Board President can call a recess at any time situations may get out of hand.

Mr. Thompson stated he believes what happened was very inappropriate; however, it is also inappropriate to put police officers on citizens who come to the School Board. While what the visitor said was wrong, he said we need to look at another way to handle these type matters in policy, because he cannot support addressing matters by police officers dragging visitors out of the building.

Mr. Green noted the power of the chair to rule someone out of order; and if the chair makes this statement and the visitor continues, he believes Robert's Rules of Order will support the chair having the right to remove this person.

Consideration of resolution recognizing School-Based Health Center Awareness month. Dr. Douzart stated this is a beautiful resolution, but asked that two of the paragraphs be reviewed for minor corrections.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

President Trammel announced that Items 7.01-7.02, 8.01-8.04, 8.06, and 13.01-13.02 are the consent agenda.

Mr. Rachal moved, seconded by Ms. Green, to approve the proposed agenda and consent agenda for the February 12, 2019 CPSB meeting as presented. Vote on the motion carried.

POLL AUDIENCE

The following visitors addressed the Board: Kaneisha Taylor, magnet testing incident; and Jackie Lansdale, public comments policy and Black History moment recognizing Dottie Bell.

ANNOUNCEMENTS

Mr. Thompson thanked Brenda McDonald and Leisa Woolfolk for scheduling and meeting him at schools in his district to tour and learn more about them.

Mr. Rachal asked that the Board be provided additional information re: the letter at Board members' stations about the demolition of the Scout Hut on South Highlands campus. He also asked for a copy of the current budget compared to the 2017-18 budget. Mr. Rachal announced that on February 26th, at 6 p.m. University Elementary will celebrate Black History Month and will also recognize renaming the University Auditorium for Mrs. Mothershed. Dr. Goree announced that Mayor Adrian Perkins will be the guest speaker.

Adjournment. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:29 p.m.*

CPSB MEETING
February 12, 2019

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Barry F Rachal, John L Albritton, Dottie Bell. Tony Nations was absent. Also present were Superintendent Lamar Goree and Board Attorney Reggie Abrams.

President Trammel called the meeting to order at approximately 4:30 p.m. at which time a quorum was present. Board member Jasmine Green led the prayer and Pledge of Allegiance.

Consideration of Minutes of the January 8, 2019 (Executive Committee), January 11, 2019, January 15, 2019 and February 5, 2019 CPSB Meetings

Denee' Locke moved, seconded by Barry Rachal, to approve the minutes of the January 8, 2019 (Executive Committee), January 11, 2019, January 15, 2019 and February 5, 2019 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

Presentations and Recognitions

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

2019 Coca-Cola Scholar Semifinalists. The following students were recognized as the 2019 Coca-Cola Scholar semifinalists: Hannah Berry, Hailey Bryant, Cade Crandall, Dylan Tynes, Nicholas Whitton and Zaige Wills, all from C. E. Byrd High School.

2018-2019 Tenured Teachers. The following teachers were recognized for receiving tenure in the State of Louisiana: Monica Lockard, A.C. Steere; Tara Burch, Donnie Bickham Middle; Margaret Cox, C.E. Byrd; Jana Panos, C.E. Byrd; Jennifer Waxham, C.E. Byrd; Jennet Hill, Caddo Heights Elementary; Michelle Carruth, Caddo Magnet High; Natalie Gentry, Captain Shreve High; Heather Hooper, Captain Shreve High; Sara Lerchie, Captain Shreve High; Sarah Rodgers, Cherokee Park Elementary; Brandy Brown, J.S. Clark Elementary; Jessica Bell, Creswell Elementary; Angela Thornton, Keithville Elem/Middle; Cheryl Simpson, Oak Park Elementary; Karen Hayslip, Riverside Elementary; Lysie Foster, Section 504/ADA; Stephanie Kyle, Shreve Island Elementary; Katherine Marshall, Shreve Island Elementary; Hillary McDade, Shreve Island Elementary; Kristina Vaska-Haas, Southern Hills Elementary; Rebecca hunt, South Highlands; Katherine Little, South Highlands; Candice Evans, Summerfield Elementary; Christy Nettles, Summerfield Elementary; Javonna Mack, Sunset Acres Elementary; Megan Dupree, Walnut Hill Elem/Middle; Angie Knight, Walnut Hill Elem/Middle; Christian Holsomback, Walnut Hill Elem/Middle and Vickie Young, Werner Park Elementary.

2018 NISL CoHort 3 Graduates. The following were recognized as the 2018 NISL CoHort 3 graduates: Gerald Badgley, principal, C.E. Byrd; Kenneth Berg, principal, Caddo Career & Technology; Michelle Berry, teacher, Caddo Virtual Academy; Bridget Bridges, principal, Mooretown Elementary; Danielle Bullock, administrative assistant, Southwood High; Ginger Gustavson, principal, Captain Shreve High; Allison Hammond Thompson, assistant principal, Southwood High; Pateece Davis-Hardy, professional development specialist; Shelita Cannon-Hoey, curriculum specialist; Michael Ilgenfritz, principal, Caddo Magnet High; Seretta Johnson Smith, assistant principal, Green Oaks Performing Arts; Shannon Lanclos, assistant principal, Caddo Magnet High; Nicholas Smith, assistant principal, Huntington High and Teneisha Mahoney, assistant principal, Huntington High.

Music by Northside Percussion. Students in the Northside Elementary School Percussion and Dance Line, under the direction of Geraldine Walker, shared musical selections for the Board and audience.

VISITORS

The following visitors addressed the Board on topics/issues of interest and/or concern: (1) Jackie Lansdale, president of Red River United, tenured teachers, April 2 meeting with legislators, teacher pay, shortage of bus drivers and retention, administrative support for teachers.; (2) Amber Webster, Project Celebration; (3) Barbara Smith Iverson, need for policies addressing administrative-teacher bullying behavior toward students; and (4) Ashley Busada and Concetta King, Cinderella Project of Shreveport.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Lamar Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced that the following items are the consent agenda: 7.01-7.02, 8.01-8.04, 8.06 and 13.01-13.02.

Denee' Locke moved, seconded by Dottie Bell, to establish the agenda and the proposed consent agenda for the February 12, 2019 meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Barry Rachal moved, seconded by Denee' Locke, to confirm the consent agenda (7.01-7.02, 8.01-8.04, 8.06 and 13.01-13.02). Vote on the motion carried. The following is a summary of the Board's action on consent agenda items.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheet: (1) Tech Mart Computer Products dba Scantex Business Systems for calculators; and (2) York Risk Services for Claims Administration Services. *A copy of the bid tabs is attached to the official papers of the February 12, 2019 meeting.*

7.02 Capital Projects/Construction. The Board approved the bid of Johnny's Roofing, with a Base Bid and Alternate 1, for the sum total of \$324,200.00 for Project 2020-234, "Caddo Magnet High Roofing, Phase II". *A copy of the bid tab is attached to the official papers of the February 12, 2019 meeting.*

8.01 Property/Bus Rental Requests. The Board approved the requests for use of CPSB property/buses as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved out-of-state travel (General Fund) requests as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of new CPSB Investment Policy. The Board approved the proposed revisions to CPSB Policy DFE Investment Policy as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of proposed revisions to CPSB Policy DJE. The Board approved the proposed revisions to CPSB Policy DJE Purchasing as recommended by legal counsel and submitted in the electronic mailout.

8.06 Consideration of Resolution Recognizing School Based Health Center Awareness Month. The Board approved the resolution recognizing school based health center awareness month.

13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for readmission appeals for students ZA, JD and TH as submitted in the electronic mailout and whose parents are in agreement.

13.02 Request for Settlement Authority in Ralph J. Hutson vs. CPSB, Office of Workers' Compensation, Claim #6372357. The Board authorized settlement as recommended and submitted in the electronic mailout.

CONSIDERATION OF PROPOSED REVISION TO CPSB POLICY BCBI

Mr. Rachal moved, seconded by Mr. Riall, to approve the proposed revision to CPSB Policy BCBI as submitted in the electronic mailout.

Ms. Green asked for clarification and if she understands from Mr. Abrams that the only change is adding "any other person" and Mr. Abrams confirmed that to be correct. She asked if School Board member and employees could be scratched and just use the word "anyone", and Mr. Abrams explained the original policy had Board members as well as staff and he added "or any other person" because of the deficiency in the policy. Ms. Green stated for the record that nothing can be done if someone makes derogatory statements, correct? Mr. Abrams said if a person makes derogatory statements and continues to do so after the chair has gavelled and asked the speaker to not make any additional derogatory statements, and the meeting continues to be disrupted, then security can have them removed (and this has always been the rule). Mr. Abrams further stated if someone is not making derogatory statements and the meeting is not disrupted, that person cannot be removed.

Mr. Thompson asked Mr. Abrams to clarify what "removal by security" means. Mr. Abrams stated this is not in the policy, but was his comment, and this would be left up to the Security Department. Mr. Thompson stated his belief that how it is handled needs to be in

the policy and not leave the decision up to those who might put someone out of a meeting. Mr. Abrams said the policy does not address removing anyone from a meeting. Mr. Thompson said it is his opinion that this needs to be revisited and outlined in the policy. Mr. Abrams reminded the Board that the School Board does not address the procedures followed by staff as they are trained professionals, thus the School Board only addresses what the policy states, and in his 17-18 years as Board Counsel this is not an issue the Board had to address.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Mr. Thompson opposed.

Vote on the main motion carried with Mr. Thompson opposed.

ANNOUNCEMENTS AND REQUESTS

Dr. Douzart expressed her appreciation to the Transportation Department as she is no longer hearing the buses pass her house. Also, for more than two years she has been concerned for the quarterbacks in Caddo Parish football and she discussed this with Mr. Tisdale and Mr. Abrams. She noted that recently the NFL made several safety adjustments for quarterbacks and these rules will apply to Caddo Parish as well and she would like to thank the NFL for this move.

John Albritton announced that the band director at Southwood, Leonard Holden, has been recognized as the State Band Director of the Year.

Mrs. Bell asked the Superintendent and Administration on the process for testing students for the magnet schools

Ms. Green thanked Transportation for taking care of recent incidents and her appreciation for the major improvements being seen. She also thanked Attorney Abrams for clarifying some things for her and expressed her desire for him to speedily address the things she talked to him about. Also, she thanked Northside for the awesome job of performing for the Board members and audience today.

Mr. Riall congratulated the North Caddo Girls Basketball team as they enter the playoffs.

Mr. Thompson thanked Marvin Alexander and Anthony Tisdale for showing him campuses in District 3.

Mr. Rachal reminded the Board that on February 26th the renaming of the University Auditorium for Mrs. Lillian Mothershed will take place as part of University's African-American History celebration. He announced that Mayor Adrian Perkins will be the guest speaker.

Mrs. Locke recognized staff for the professional way in which a unfortunate situation at Youree Drive was handled.

Ms. Trammel asked for an update on the George Washington Carver situation.

EXECUTIVE SESSION

Mr. Rachal moved, seconded by Mrs. Bell, to go into executive session for up to 10 minutes to address a Litigation Update: Caddo Parish School Board v. Schools Financial Credit Union and Does 1-50, Case No. 34-2019-00248686 County of Sacramento. Vote on the motion carried and the Board went into executive session at approximately 5:43 p.m.

The Board reconvened in open session at approximately 6:00 p.m.

Adjournment. *Mrs. Locke moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:02 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

February 12, 2019

CPSB Long-Term Planning & Development Committee Meeting

Members present: Raymond Green, Lloyd Thompson, Dr. Bonita Douzart, Barry Rachal. Mr. Nations was absent. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members John Albritton, Denee' Locke, Mary Trammel, Jasmine Green, and Dottie Bell. Staff members present were Keith Burton, Jeff Howard, Diane Atkins, James Woolfolk, Patrick Greer, and Mary Wood.

Chair Raymond Green called the meeting to order at approximately 2:30 p.m. with a quorum being present and Dr. Bonita Douzart led the prayer and Pledge of Allegiance.

Establish the Agenda as Submitted

Barry Rachal moved, seconded by Dr. Bonita Douzart, to establish the agenda as submitted. Vote on the motion carried.

Confirm the Agenda

Barry Rachal moved, seconded by Dr. Bonita Douzart, to confirm the agenda. Vote on the motion carried.

PreK Expansion, Academic Restructuring, Middle School Redesign, Alternative

Education. Superintendent Goree stated that in looking at long-range planning and the next stage of the District's strategic planning, it is important to hear from the Board relative to the future direction of the District. He distributed a "Your Thoughts" form and asked Board members to write down their thoughts as staff brings the presentations and he will put the information from the Board's retreat with it to look at during the summer retreat in beginning the direction for the new strategic plan; and he stressed the importance of the Board's support in moving forward.

Chief Academic Officer Keith Burton shared plans reviewed by staff and presented what they believe will be beneficial to the District. He began his presentation about the desire to expand the preK program in Caddo Parish and make it number one on Caddo's list. Mr. Burton shared staff is asking the Board to consider a proposal for preK centers across the District, with locations based on preK deserts and better utilization of available buildings. These would be set up based on areas of greatest need and not a hodgepodge of centers across the District. The District would begin to move away from the traditional preK programs in Caddo schools and change to a totally different design, enrolling students from their surrounding attendance zones up to approximately 275 students. Mr. Burton stated the goal would be to look at 3-day classes for four-year olds, and they have met with the Head Start program about the idea of Caddo taking all the four-year olds and Head Start taking all the three-year olds, allowing Caddo to better prepare the four-year olds for Kindergarten. He added Caddo would still have three-year olds in the early child special education programs, which we want to keep, and would run an inclusion model where special education students are in with the regular education students. Mr. Burton summarized this plan would provide a preK center located in a building; and within the feeders surrounding this building, and Caddo would draw preK age students to it. It is also being suggested that door-to-door transportation be provided because a bus stop could be approximately one mile away from their home. Mr. Burton explained that this will provide Caddo with kindergarten readiness through a strong language enrichment program, which is one of the things noted throughout all kindergarten classes. He said the plan would be to focus on a school with a rich language development program as well as provide an inclusion model for students with disabilities, incorporating our early childhood special education program into the preK centers. He shared that this could possibly be done by repurposing some of the old elementary campuses that would serve the needs in a community, as well as look at some of the low enrollment elementary schools to repurpose those buildings as preK centers and offer that option for these students. Mr. Burton highlighted the marketing of this idea so as to hopefully attract students in private day cares and pre-schools as well as students that are not attending any preK program. Another option would be to consider partnerships with private providers where space for day care and other early childhood services could be provided.

Mr. Burton highlighted some of the challenges preK centers might face in the neighborhood schools if preK programs are removed from the neighborhood school campuses, i.e. staffing, attracting preK teachers, realignment of administrations, costs, year round schedule, etc.

Dr. Douzart shared her concern relative to the principal's accountability, and Mr. Burton stated the principal would be held accountable as any other school principal. The principal would be a Caddo principal, would follow Caddo policies, and the only difference would be they would have

a preK center versus an elementary school. Principals would not be expected to oversee the private components if this becomes a part of the centers which could be an opportunity to gain additional revenue and offset a portion of the cost for operating a preK centers. She added she sees the advantage of preK students not being in the same building with older students.

Mr. Thompson asked staff to explain the difference between universal preK and preK centers. Mr. Burton responded that universal preK means that no matter where you live or your income, you are provided preK free of charge. Mr. Thompson asked if this would be hard to do versus setting up preK centers at various sites, and Dr. Goree responded that it is the expense to do so, approximately \$22 million and shared the example of DeSoto Parish setting this up and funding it from the oil and gas monies (Haynesville Shale).

Mr. Rachal asked about buildings on the short list to be used for the centers. Dr. Goree explained that some conversation has been around Mooretown and Arthur Circle, but this is an early stage in the conversation and the direction the board wishes will determine how staff begins researching where there are deserts/opportunities. Mr. Rachal asked how many students is staff expecting to attract, and Mr. Burton responded staff believes the numbers would support opening two centers in one year, approximately 275, with three-fourths of the students coming from preK programs in Caddo Parish and the remainder from private programs or from children not enrolled in any preK program. In researching how many preK seats would be needed, Mr. Burton said seats are available where it is believed there is a need. Dr. Goree said the items presented today all have children as the main focus; however, while several have a strong tie to fiscal responsibility, this is not one, but it is more about how we are going to better prepare students for academic success. How can we provide more seats in communities where there are too many elementary schools or not enough preK opportunities for students? Mr. Rachal shared he is all in favor of repurposing schools currently in use, but not reopening a school we have closed.

Mrs. Locke asked how many students does Caddo currently have enrolled in preK, and how is the program funded. Staff responded that they could provide the number, and these children are not funded by MFP. Mr. Burton also explained the funding for preK is \$7.4 million and is funded from the following: (1) \$4.8 million from Title I, (2) \$1.5 million from La4, (3) \$406,000 from 8(g), and (4) \$730,000 from EEF. He added that presently there are 1,140 students enrolled in preK in 59 classrooms. Mrs. Locke asked about the timeline in conjunction with strategic planning this summer, and Dr. Goree clarified that staff does not necessarily see this happening next school year, but possibly the following (20-21).

Dr. Douzart stated she believes this will be a good plan and asked what models staff would look to implement? Mr. Burton said it will be a flexible structure, and a decision made by the Board if it wishes the Montessori model, the door-to-door transportation, year-round, etc.? Staff will provide the Board various scenarios and the cost involved so the Board will have ample information for making a decision. Dr. Douzart asked about the flexibility of parents bringing the children and wanting to be with their child, and Mr. Burton said this has not been a problem in existing centers and staff welcomes parents to be a partner in their children's education experience; however, Dr. Goree confirmed that we want it to be set up for academic success so there would have to be a window of time where the child must be in attendance.

Mrs. Bell said this is a great idea, but she is looking out for her constituents and asked why there cannot be a preK center in each area of the parish (North, South, East and West). Mr. Burton stated he believes it needs to be based on population need, so staff will look at the population(s) that are in crisis and have very few options. Mrs. Bell noted the large area that she represents in west Shreveport, as does Steve Riall and asked where the 59 classrooms are located. Dr. Goree said in the elementary schools minus the elementary magnets. She asked about the need, and Dr. Goree responded that is something staff would assess and bring back to the Board.

Ms. Trammel asked how this will affect her district, and the superintendent stated it will remain the same. She also asked about liability if we place private entities on our campuses, and Dr. Goree stated that is an area that more research and thought needs to take place. Ms. Trammel stated she has a facility that is already equipped for the needs, and Mr. Burton confirmed he has checked this.

Virtual Learning. With the implementation of Caddo Virtual Academy and its overwhelming success in the increased number of bodies attending as well as their proficiency, Mr. Burton reminded the Board members that it is an A rated high school based on the State's formula and has outgrown its existing facility. Mr. Burton said this has offered students the opportunity to log in from home and interact with an instructor at the teacher technology center. He also stated staff didn't realize that approximately 90% come to our location. Mr. Burton stated it is working,

it is successful and it continues to grow. He also encouraged Board members who have not visited the Virtual Academy, to contact Tyron Lacey and set up a time to do so. Mr. Burton highlighted some of the advantages and opportunities they have by being a part of the Virtual Academy and students being ahead by as much as two years when they graduate from high school. As a result, Mr. Burton said staff would really like to look further at dual enrollment and partnering with higher education entities. He added staff would like to not only expand the upper side (college), but also through our strategic plan, add middle school virtual as there are many students who do not learn by traditional methods. He further stated staff would market it, protect it and not allow students to be placed at the Caddo Virtual Academy for disciplinary reasons, have it available at a minimal cost to the District and not ask that it be moved to expensive buildings or properties.

Regarding special education, Mr. Burton stated that one of the things staff does not believe we do as well as we could is exceptionally support them. He said paraprofessionals are key in a student's success, but Caddo only has one type paraprofessional and we are assigning paras to jobs they have no idea what to do and they may not have the demeanor, skill set or personality for the job we put them in. He explained that staff has begun to look at this and change paras to three different types: (1) inclusion resource who will follow a Sped student into an inclusion setting and provide them instructional assistance, (2) autism or behavior specific para where the para can recognize a certain behavior that would indicate special attention or the need to be removed from the environment with calming strategies, etc. and (3) moderate, medical specific need where they would have the ability to address these needs. Mr. Burton reported they have met with employee organizations and drafted job descriptions for review by Rahmburg and HR. He added that providing specialized support to students needing the greatest amount of care as well as providing the employees with detailed job descriptions (which they will sign) so they have an understanding of exactly what their job is and providing them with the correct training to do an exceptional job will help the District align employees' skills sets and their desires to do specific jobs.

Mr. Burton also shared that this will institute a proposal to reorganize the Academic Affairs area and combine the Curriculum and Professional Development Departments into one department – the Curriculum and Instruction Department. This will eliminate three separate departments coaching and leading, will combine the specialists in all three areas to be curriculum and instruction specialists and eliminate supervisors. He explained that this will afford the District the benefit of providing support for specific grade spans, i.e. 6-12 Math, it is a more efficient use of staff and resources with one person being held accountable for the work in that area, it closes the communication gap, and provides a savings in excess of \$1 million to the General Fund budget.

Middle School Redesign. Patrick Greer shared with the committee the need to redesign our middle schools and to come up with strategic plans that will enhance the quality of the overall middle school experience for all students through more opportunities. He added that the timing is an opportunity to impact students who are not receiving the desired benefits intended through the traditional middle school model by exploring Choice options for many students not qualifying for magnet. Dr. Goree stated that some of the major concerns in our School System are at the middle school level and is where most parents struggle. He added that choices are available at the high school level and pretty much meet everyone's need, and there are many options at the elementary level, but not at middle school. When beginning the discussions on middle school redesign, staff not only looked at Caddo, but at the Nation because this is a National issue. He further stated that there were two issues that had not been fiscally thought through, and this is one of those and it may cost something. However, it is something that should be research based and that will work for Caddo's children. Mr. Greer noted some of the districts across the Nation where success is being seen in these changes at middle school and this is an opportunity for all Caddo neighborhood middle schools to look over this process and participate in this middle school redesign initiative. He also added that the magnet schools will not be involved in this redesign process.

The four major items identified in this process include (1) academic excellence, (2) flexible scheduling opportunities, (3) PLC opportunities to provide teachers an understanding of the process, and (4) effective use of curriculum tools in place. Mr. Greer stated that one of the areas principals feel needs addressing is developmental responsiveness for 6th graders and the support they could receive in transitioning from elementary to middle school. Mr. Greer said that social equality is another area needing addressed in middle schools since rules have been established but there needs to be a better job of helping students in this process through an organizational structure and process of everything taking place on a campus, protocols, measures in place to make sure things are working, and keeping the students at the center of everything that is done. The Redesign Roadmap will include creating a redesign committee to guide the process and sharing with stakeholders (parents, teachers, and students) to gain their

perception and feedback, as well as identifying issues and solutions, researching effective models, talking to other districts to determine what they are doing and developing a timeline for implementation.

Alternative Education. Dr. Goree stated that with approximately 39,000 students today, Caddo has lost approximately 10,000 students over the past 10 years. He reported that since 2,000, Caddo has closed 17 facilities across the District to right size the District. He said while Caddo was operating in a system where the neighborhood was popular, he noted the importance of remembering that the Board has closed schools. In 2016, Dr. Goree stated the Board voted to place Alexander for sale, remove the programs from Alexander and place them in different sites across the district. The students who were medically fragile were placed in their neighborhood schools and 40 of the students placed for expulsion have continued to be served at the Alexander Learning Center at the Hillsdale site. He explained that the former site is currently listed with a realtor and staff is proposing to close the Alexander School site located at Hillsdale which will affect a principal, counselor, instructional coordinator and 13 teachers for 40 children. Closing of this facility will result in a savings of approximately \$1.7 million, and staff recommends moving AMI to the former Lakeshore Middle School site (noting the lack of a gymnasium at the Hillsdale Elementary). The superintendent said this move would allow for more opportunities for middle school students and would result in the reclosing of Hillsdale. In response to where will the 40 children be moved, Dr. Goree noted the opportunities to use the unused seats in the Ombudsman Program for which we are paying. He explained the difference in a student attending AMI versus Ombudsman is AMI is attached to approximately \$9,000 in MFP funding and Ombudsman is not since it is a contract with a flat rate for services. He announced that this particular item will possibly come to the committee/board sooner than later for a vote of the Board relative to how these students will be serviced in the future.

Questions. Legal Counsel Reggie Abrams was asked if this is an item that has to come to the full committee before taking it to the Board, and Mr. Abrams said it does not.

Mr. Albritton stated that the middle school matter has been around for a long time and there has not been a fix, and asked staff about specifics in knowing if what is put into place, re: middle school redesign, will work. Dr. Goree responded that in districts around the country, everything being said is on the table, but it is how do you get a collective group of stakeholders to look at the big topics and decide on the key indicators that will indicate success. He said part of the conversation came about when saying we are not successful and we are generally talking about one thing and that is the academic grade of the school; and it is really the early stages of the work around what the community, with a strong, vibrant magnet program, sees as being necessary to be able to meet the indicators the committee comes up with around the big things.

Mr. Abrams asked about the chances of expanding middle magnet again since it is apparent everyone in the elementary magnets believes it to be the magic bullet. He reminded everyone that middle magnet was expanded in 2005 as a result of the lawsuit and a pre-fab building was brought in to expand it by adding four classes; and it was done because of the concern that the District was losing students to the private schools because they were not getting in middle magnet. Dr. Goree stated that while he agrees, he believes the systematic problem is setting up the next generation for success, and the main reason people are so adamant in wanting an automatic admission is because they do not like any of their options. While middle magnet is already too large (approximately 1,200 students) to add more seats, there needs to be options where people are happy.

Ms. Green asked Mr. Burton about the difference in the master teachers and the instructional & curriculum supervisors. Mr. Burton explained that curriculum specialists (currently instructional supervisors) are currently paid on an administrative salary schedule, but master teachers at a school are paid on a teacher schedule with the difference being the number of days they work and the additional stipend they receive. Ms. Green asked the Superintendent about the AMI kids and the transition from Hillsdale, and Dr. Goree responded there is a proposed timeline (beginning the day after students get out of school) to make this transfer happen by July 4th. Ms. Green asked if this is a school closure and Dr. Goree stated this campus is being closed again, being taken off-line. Ms. Green asked Mr. Abrams to present proposed policies that state with any school closures or movement in students, a community meeting will be held to inform them and get their input. Dr. Goree stated this is different in that everyone is placed and there is no home school for these students. Ms. Green stated that she understands, but at this point, she doesn't care what it is, but if we are closing any school building where our children are being serviced, she wants a policy put into place that the public will be notified. Mr. Abrams clarified the Board currently does this by placing it on the agenda and proper notice in accordance with state law is provided, and it is on the work session agenda as well as the regular agenda where Board action is taken.

Ms. Trammel asked how many children are at AMI because she knows there is not ample room for the number of students. She also asked about the discussion of duplicating what is happening at other schools in our system. Dr. Goree responded that staff does work very closely with the schools to duplicate the successful things being done within their schools, and part of the redesign process will be looking at what is successful at some schools and if it would be something that would work in another of Caddo's middle schools. For example, what works at Youree Drive may not be successful at Ridgewood, and staff is learning that it is not a "one shoe fits all", and is something around the equity conversation relative to how we make sure we know and understand what our community, neighborhoods and schools need. He further added that while he does understand what Ms. Green is saying, AMI is a different situation in that it is not a neighborhood school, but students are assigned because of an expulsion or a behavior referral. Ms. Trammel asked for clarification and how a 15-year-old student is classified as 6th grade and Dr. Goree responded this child could be referred to AMI or Ombudsman, and Mr. Burton said Ombudsman would create a program for that student. Dr. Goree and Mr. Abrams shared with the group that Ombudsman is working for the students because they specialize in this.

Mrs. Bell stated she would like to see a 6th grade center and shared her experience in teaching 6th graders; and she feels the same way about 9 graders. She also asked what is going on at Walnut Hill if students do not get into magnet, their parents want them in Walnut Hill. Is it something that needs to be duplicated at other schools. She stated how glad she is to hear about the aide specific training and noted the good job that Huntington High School Special Ed is doing; however, she asked how does staff plan to address the 19-21 year olds that are jumping on the aides. Mrs. Bell also asked why is it so hard for 504 students to be tested. Also, she stated that the Caddo Virtual school is a benefit that needs to be better marketed.

Mrs. Locke asked about the difference between AMI and Ombudsman, and Dr. Goree explained that AMI is a Type I Charter (board voted to approve their charter) and they service the over-age middle school students. Ombudsman services the general population expulsions at the high school level. Pathways is a non-traditional Type I Charter that services anyone looking for a non-traditional way to get their high school diploma. Mrs. Locke asked about the capacity of Lakeshore and staff responded 600-700 and Ombudsman is approximately 200. She also asked why these two programs cannot share a facility, and Dr. Goree said they could but Ombudsman has been the Ingersoll facility (a repurposed facility), and he believes we would receive some push back at closing another facility. He also said AMI cannot go to Ingersoll because it is an elementary school. Mrs. Locke also asked how many students are at the AMI at Ingersoll and staff responded approximately 200. Dr. Goree asked Mr. Woolfolk if funding is received on either one of these facilities (charters), and he said one receives full MFP and if we provide the facility, they receive less than full MFP. For example, Magnolia receives more MFP because they are not using Caddo's facility.

Mr. Rachal asked if staff has any middle school design in mind because every one of Caddo's middle schools could design a magnet program that specifically fits the area in which they are located, similar to our high schools. Dr. Goree stated this has worked in the high schools but the difference in the middle schools is there is a magnet component at Broadmoor and there was a magnet component at Oak Park, both which were unsuccessful. He added there is a disconnect at the middle school level to where people were not putting these as their first choice, and staff is willing to put in the work to make sure that we do not repeat what was done at Oak Park, for example.

Mr. Abrams stated this is a public meeting and the committee is talking about what may happen in the future; and if a policy is wanted, he will write it, but reminded them the committee is discussing what is being proposed, but no decision is being made at this meeting relative to the relocation/moving of students.

Adjourn. There being no additional business, *Mr. Rachal moved, seconded by Mr. Thompson, to adjourn. Vote on the motion carried* and Chair Raymond Green declared the meeting adjourned at approximately 4:00 p.m.

March 5, 2019
CPSB Special Session

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, March 5, 2019 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana. Board members present constituting a quorum: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mr. Lloyd Thompson led the prayer and Pledge of Allegiance.

VISITORS

The following visitors addressed the Board on issues of concern: Jon Glover, impact of personnel recommendations on the budget.

PERSONNEL RECOMMENDATIONS

Mr. Rachal moved, seconded by Mrs. Locke, to approve the personnel recommendations as recommended by the Superintendent and submitted in the electronic mailout. Vote on the motion carried unanimously.

Adjournment. *Mr. Riall moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:40 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

March 5, 2019
CPSB Audit Committee Meeting

Members present: John Albritton, chair; Denee' Locke, Don Little, Raymond Green, Dr. Bonita Douzart; and Superintendent Lamar Goree and Board Attorney Reggie Abrams. Also present were Steve Riall, Lloyd Thompson, Mary Trammel, Barry Rachal, Tony Nations, and Dottie Bell, as well as staff members Jeff Howard, Diane Atkins, James Woolfolk.

Chair Albritton called the Audit Committee meeting to order at approximately 2:30 p.m. and led in the Invocation and Pledge of Allegiance.

Establish and confirm the Agenda. *On motion by Dr. Douzart, second by Mrs. Locke, the committee established and confirmed the agenda as presented.*

Report by External Auditors (Carr, Riggs & Ingram). Tom Simms, with Carr, Riggs and Ingram, shared information on the following documents prepared as part of the Caddo Parish School Board Comprehensive Annual Financial Report.

- (1) Single Audit Report
- (2) Independent Auditors Report on Agreed Upon Procedures on the CEEF and BESE program requirements.
- (3) Statewide Agreed Upon Procedures Report which the State Legislative Auditor and Legislature have promulgated to be used to test certain best practices at every institution's level.
- (4) Comprehensive Annual Financial Report including opinions on the financial statement, reports on testing Federal Awards, reports on testing internal control structures with each having a clean opinion with the exception of one. He reported there were no material weaknesses to report, one significant deficiency, no instances of non-compliance which is different than what was reported in prior years. The Child Nutrition Program, the Special Education Program and School Improvement grants also were tested along with the CEEF Program.

The findings reported in the audit include:

- (1) Issues related to the purchasing cards and procurement controls which have been reported in the past and again this year. The concerns include inadequate documentation on purchases which management continues to address this concern by limiting the number of cards as well as institute controls to make sure adequate documentation is provided on purchases.
- (2) Theft at University Elementary in February 2018, and
- (3) Submitting the CAFR to the Legislative Auditor after the December 31, 2018 deadline because there was a significant accounting change in the District, as well as changes in what is presented on the financial statement relative to other post-employment benefit liability obligations. The significant change noted in previously reported financial statements was an increase of liability of approximately \$184 million. Auditors thought this was a number significant enough to investigate further with the actuaries who prepared it; and it was determined that the numbers were correct and the report was filed in January.

Mr. Simms also reported there were no findings related to Federal programs nor findings or compliance issues on the Federal Awards programs.

Lisa Salter highlighted management letter comments which included recommendations for the following improvements.

- (1) One of the special revenue funds did not have an approved budget;
- (2) Neither the Audit Committee or the Board formally reviewed or discussed the budget to actual finances during the year;
- (3) The General Fund beginning balance adopted was over-stated by \$7 million as a result of the CFO including the non-spendable and committed amounts and should have only presented the unassigned fund balance;
- (4) The School Board's policy states that the minimum amount of unassigned fund balance should be at least 10% of the General Fund's total expenditures and this year it was 1%. It is recommended the Board revisit the policy on this; and,
- (5) While the School Board was in compliance with the budget law related to variances, there were variances within the revenue and expenditures; and while the adopted General Fund budget was balanced (revenue equaled expenditures), there was an

approximate \$9 million loss in the General Fund in the current year. It was not balanced and included the \$5 million transfer from the insurance fund.

Mr. Simms also reported on the following additional management letter comments.

- (1) Byrd High School received a donation of improved items by a Booster Club that were not recorded and placed on the books as fixed assets. It is recommended that procedures be adopted to require any expenditure of a Booster Club given to the school with a capital nature valued over \$5,000 should be appropriately presented to the Finance Department for inclusion in the books.
- (2) Errors resulted in overpayment to employees totaling approximately \$69,000 and as of December 2018, there is still approximately \$42,000 to be collected.
- (3) An amount of money was paid in 2018 relative to experience credit penalties attached to amounts owed to the Teachers Retirement System. This is an on-going investigation between the School Board and the TRSL to determine the amounts due and procedures needed to track experience credits and proper reporting to the retirement system.

Mr. Simms stated that because the state doesn't allow them to retest items where there have been no exceptions in the past, they were able to drop a number of items looked at and reported last year. They also identified, based on established best practices as established by the Legislative Auditor, the following items.

- (1) Written policies and procedures relative to a phrase or small requirement as determined by the Legislative Auditor to be a best practice that should be included in Board policy but are not.
- (2) Budget to actual commentary at the Board level needs to be done according to the Legislative Auditor's Best Practices.
- (3) One incident in bank reconciliation was not researched and existed for 12 months or more.
- (4) In collections there were incidents in which there were persons responsible not only for making the deposits but also preparing the deposits.
- (5) No exceptions were found in testing credit cards beyond what they earlier reported in procurement cards and there was one incident of a contract not being approved by the person responsible for approving it.

Also reported by Mr. Simms were significant liabilities on the government wide statements for the net pension liability and especially the OPEB liability. The numbers on the government wide statement are significant contributors to the large net position deficit recorded for 2018. The net position for this statement is a deficit of \$1.125 billion and the governmental statements in the CAFR, which is a reflection of the daily operations, there are negative positions even with the positive fund balance. He further stated that the amount of these liabilities includes an amount of net pension liabilities (\$480 million) and OPEB liability (\$828 million) and the two totaled contribute significantly to the deficit shown on the books. He reminded the Board that this is not an amount the Board will pay out over the year but over the next 30-40 plus years; and if Board members are questioned about this, they should refer back to the governmental statement on the current operations.

Mr. Little asked if auditors are aware of other school boards with self-directed pensions in the form of a 401K similar to commercial businesses. Mr. Simms responded they rarely do in governmental entities because by law they have to participate in the pension programs. Sometimes they see 457 plans and deferred comp plans that are generally for a select group.

Mr. Riall asked about the \$5 million transfer from insurance and if this was for the pay raise, and it was confirmed it was.

Mr. Rachal inquired about the variances and how the adopted budget was overstated by \$7 million. Ms. Salter said it was an error of including committed funds that were non-spendable. Mr. Simms explained that the approach is to begin with what is considered to be the ending fund balance from the previous budgeted period and all that is to be carried over and used is the ending, unassigned amount, but the committed amounts were included and should not have been, which overstated the carryover amount. Mr. Rachal said he has not noted this on previous audits, and Mr. Simms said this is something that became apparent this year and the amount significant.

Dr. Douzart asked about the approximate \$9 million loss in the General Fund and what this included. Ms. Salter explained that the CAFR (page 37) reflects the General Fund, the permanent fund (CEEF), and non-major governmental funds (details provided in the end of the

CAFR), and a net-change in the Fund Balance of almost \$9 million indicates approximately \$9 million was spent above the revenue. Dr. Goree added that he believes when staff presents the Financial Department audit, some of these questions will be answered.

Mrs. Bell asked if this will be voted on today, and Mr. Albritton explained there is no vote to be taken today and the Committee is receiving the report today along with some reports from the Internal Audit Department which he believes will provide additional details.

Mr. Simms encouraged Board members who have questions to not hesitate to contact them.

Finance Department Audit. Jeff Howard, chief internal auditor and interim chief financial officer, presented an executive summary of the Finance Department audit to avoid sharing any information that could possibly be deemed as a personnel matter. He highlighted this summary and the detailed recommendations to staff and management that are now being addressed. Mr. Howard said with this being an internal audit, his staff looked more at the details and reported that this audit reflected:

- (1) Sufficient procedures were not in place to monitor the financial condition of the district which resulted in an approximate \$8.5 million in deficit spending for the 2017-18 fiscal year. He added this deficit has left the District with an undesignated fund balance as of June 30, 2018 of \$3 million or .8% of the projected budget. He said the budget revision presented and approved by the Board in March 2018 overstated the undesignated fund balance by \$8.4 million which is slightly different than the figures presented by Tom and Lisa. He said he believes expenses could possibly be under budgeted by approximately \$14.3 million for the current 2018-19 budget which exceeds the current undesignated fund balance, as well as the MFP revenue possibly being overestimated. He added the budget presented and approved by the Board reduced the funding for vacant positions by \$8.1 million but the positions were not removed from the budget.
- (2) Controls recently were put into place since the District did not have sufficient controls in place to monitor receivables, accounting for cash receipts or to insure ACH payments are reasonable. At this time, Mr. Howard announced that Finance and Accounting operate as two separate departments and there is no one to contact about vital accounting issues when the CFO is out or unavailable which was an issue recently.
- (3) The Auditing Department provided 13 recommendations to management to address these issues.

Dr. Goree announced this audit took place over approximately five months looking in depth around finding ourselves in similar situations over the past few years resulting in these findings and working to bring amendments to the Board on how to address some of these issues within the current budget cycle as well as next year's budget.

Dr. Douzart asked how many CPAs are in the Auditing Department, and Mr. Howard responded there are two, himself and Kelli Duffield. Dr. Douzart asked about the changes in ACH payments, and Mr. Howard explained there are only a few large monthly ACH payments and a conversation with someone at the business is now required if there is a request to change information on the account as well as a completed form (which was not done in this particular incident). Dr. Douzart referenced the three articles in the past two months in the Shreveport Times concerning serious money issues with the CPSB. With this money being public money, someone needs to be held accountable.

Dr. Goree noted that in the University situation, an arrest was made via working with the Shreveport White Collar Crimes Division, and almost all of these funds have been returned and that person is no longer in Caddo. Dr. Douzart noted the report that CPSB has established procedures and asked if a follow up is being done on these procedures. Dr. Douzart asked about the procedures being used and Mr. Howard said procedures were not being used, and Dr. Douzart said she believes there is a need for a forensic audit of the entire Caddo Parish School Board, with every penny in the schools and in Central Office being accounted for.

Mrs. Bell said her only concern is the statement that "the District does not have significant procedures in place to monitor the financial condition of the School District" and what this means. Mr. Howard stated that when getting to the end of the fiscal year, there was a loss of \$8 million and no one knew it. Mrs. Bell asked what controls are needed, and Mr. Howard responded a financial statement analysis every month of what was spent compared to the budget, what was spent compared to last year and go deeper than what is shown on the printed financial statements. Mrs. Bell asked if this requires an employee to do this, and Mr. Howard responded this is now being done. Dr. Goree added that as a new CFO is put into place,

procedures and safeguards are being put into place so this does not happen again in the future. He said staff is also looking to increase communication with the Board as well as provide more opportunities to bring this information to the Board so it is more informed and aware. Dr. Goree stated he believes there were some efforts made in past administrations to look at where we were and do some analysis; however, staff is finding those were not the areas where there was a problem. Mrs. Bell asked what ACH stands for and Mr. Howard responded "Automated Clearing House", i.e. a wire where payment goes directly into an account. Dr. Goree explained this is referencing the Charter School payment where money is wired to the appropriate account. Mrs. Bell also asked for clarification of the positions and budget amounts, and Mr. Howard explained the Board is presented a budget that includes the dollar amounts and attached to those dollars is a listing of the positions. He further explained that the dollars for unstaffed positions were removed from the budget, but the positions were not removed.

Mrs. Locke asked about the report in March 2018 where the undesignated fund balance was overstated by \$8.4 million and what is the fund balance? Mr. Howard explained the undesignated fund balance is approximately \$3 million, and the designated number will include the health care reserve and the IT reserve totaling approximately \$60-\$70 million. Dr. Goree added that in looking at the designated fund, there are some accounts that have been dormant for a long period of time and they do have significant funds in them (outside the health care), and staff is currently running analyses on these and looking at options with all the District's revenue. Mrs. Locke also asked about the monthly analysis and the upcoming budget time, she believes an analysis presented to the Board might save some confusion. She encouraged including the Board in this, and Dr. Goree added that they will probably over-communicate in the effort to make sure the Board is informed. Mr. Howard and his staff were thanked for the work they have done to get the District to this point in addressing these issues.

Ms. Trammel asked the Chair about the procedure to retrieve overpaid funds to someone. Mr. Howard said if it is a former employee, it is not guaranteed we will get the money back. What about a current employee, do we set up an arrangement for the money to be repaid? Mr. Howard responded we do, and Ms. Trammel asked about those who make only a little money? Mr. Howard indicated we may give them a little more time to return the money. Dr. Goree added that respectfully, he believes most people who have been overpaid know they have received an overpayment. Ms. Trammel asked about things that have happened in the past and there were no red flags. Mr. Howard explained that is why receipts from procurement card purchases must be turned in because they show what was purchased; and while he cannot say we have collected all the receipts in the past, procedures are now in place to make sure these are collected. Ms. Trammel asked if it is handled the same at the schools and how the money is located if a parent pays for a jacket, doesn't get a receipt and never gets the jacket; and Mr. Howard explained that auditing would conduct an internal audit.

Mr. Thompson asked Mr. Howard if there is a need for more than two CPAs in the office, and Mr. Howard responded he is visiting with the Superintendent on the procedures and controls needed. Dr. Goree added that he is working toward, after the approval of the new CFO, to bring some modifications to the Board that will be within the budget and not create an additional expense.

Mr. Green stated that based on the audit, he believes we have crossed every T and dotted every I; and he has no qualms with the corrections being made. He said he would like to have a strong working relationship with CRI, and it appears we do, and this will be helpful in getting to a resolution with this issue.

Mr. Riall asked if a former employee continues to cash checks sent to them and they know they are not to receive them, is this not illegal, and Mr. Howard said he believes that to be a question for the Sheriff's Office. Dr. Goree stated his agreement, but believes the burden is on the District to fix the system so we do not continue to send a non-employee checks.

Mr. Rachal asked for clarification on the five months to determine where we are and what needs to be done, and Mr. Howard responded at least. Mr. Rachal asked if the information staff was given made the process more difficult, and Mr. Howard responded that information at times was difficult to get and he believes one area needing improvement is the reports available, and he noted the difficulty in understanding the financial statements that have been presented to the Board in the past. He has met with Accounting to develop a financial report that is more clear and concise. Mr. Rachal said he believes the Board will be inundated with questions on when and how this happened as well as the time it took for staff to research and determine what happened. Dr. Goree stated his agreement with Mr. Howard and the importance of making sure the systems being used to make projections are accurate and staff is prepared to make these necessary changes.

Mrs. Bell asked if it has taken five months to get to this point, does this mean the red flag was there five months ago. Mr. Howard stated that the commencement of this audit was a routine audit (as the Auditing Department is auditing every department/division of the School Board), and yes there were some red flags that staff believed warranted a deeper look. Mrs. Bell thanked Mr. Howard for moving on this matter when it was discovered and encouraged moving forward to have in place the necessary things to keep this from happening again.

Mr. Little asked Mr. Howard about the accountability in giving principals the authority to have a checking account for their schools? Mr. Howard explained the Auditing Department conducts full, medium and low scope audits; and at the beginning of each year, they analyze, based on risk factors, what they will do. At minimum, a low scope audit is conducted each year at every school, which means an auditor makes an unannounced visit to the school and does a cash count with limited procedures. Auditing also conducts a full scope audit in several schools every year.

Followup on the Payroll Audit. Mr. Howard announced that this report was mailed and emailed to Board members. He explained this audit was performed in 2013, and this follow up is late because the District instituted a new payroll system (SunGard) in July of 2017 and wanted to allow time before evaluating the controls with the release of this new system. Mr. Howard highlighted the following.

- No online approval process for absence reporting, which IT is working on,
- Cost of sabbaticals,
- Extra payments to employees are calculated manually and plans are in place to implement automation of these calculations,
- Need to automate the PR2 process, and
- Penalties for improper reporting to TRSL.

Mr. Howard announced that management is addressing these matters, and he also noted some additional issues needing addressed, i.e. employees on ESL still accruing vacation, as well as the policies addressing these matters.

Mr. Albritton said with the turnover in a school system, he believes there is need for additional remedial supervisory training in these areas.

Procurement Card Audit. Kellie Duffield shared with the Board highlights of the P Card audit conducted in the Fall of 2018, explaining the procurement card process implemented in 2003 and CPSB Policy DJEAA that addresses this. She reported there are 76 employees who have a P Card that allows them to make immediate purchases for items needed in their jobs. The majority of these work in the Maintenance Department. Currently, she reported CPSB receives .7% cashback from purchases made on the card and annual purchases total approximately \$1.3 million. The procurement card agreement is with J P Morgan Chase Bank and it was renewed in 2016 for five years with 2 optional five-year extensions. Ms. Duffield stated that in the scope of their audit, they selected samples of purchases within the current year to determine if they were appropriate, if the tax exempt status was utilized, and if they were properly approved and documented. Samples of pulled purchases from December 2017 through June 2018 totaled approximately \$730,000. Ms. Duffield stated it is their opinion that the expenditures with the P Card (with only a few exceptions) appeared to be reasonable and the exceptions noted were also noted in prior audits. She added it is their opinion that the P Card workflow process needs streamlining and training is needed for cardholders and supervisors. Specific findings and recommendations were also presented relative to the workflow process in Maintenance, and they have met with Purchasing and Maintenance to address this issue. It was also reported there were missing receipts totaling \$93,000 for the 2016-17 year, and \$56,000 in missing receipts for the 2017-18 year. Ms. Duffield stated that during the sample audit period there were also some policy exceptions relative to limits, i.e. individual transactions, daily transaction limits, maximum number of transactions in one day and maximum billing cycle limits. These exceptions were reviewed with Purchasing, and she noted the different limits on cards is not something reflected in Board policy and should be better documented. She also reported sales taxes paid on some purchases (82 purchases). The District is not supposed to pay sales taxes and the sales tax exempt status is now noted on the card. Employees sign agreements (two which could be combined) saying they understand. Ms. Duffield explained that in checking Purchasing files there were several missing applications and signed agreements along with missing receipts and it is believed more thorough training is needed and she highlighted other areas where change was needed in processing and using P Cards with improvement seen in the Maintenance Department providing necessary documentation for charges on the P Card.

Mr. Little thanked them for the report and noted an app that is linked to Concur which is a great application because receipts must be with the charge and if not, there is no approval. He added

his card is also coded so that nothing can be bought that should not be bought and asked if there has been any interest in exploring such a system that might minimize any opportunity for fraud. Mr. Howard responded that controls are in place that will not allow purchasers to buy inappropriate items but he also believes there is room for improvement. Dr. Goree added that staff is looking at implementing additional controls, i.e. taking a picture of receipts, etc.

Mrs. Locke asked if any additional avenues have been researched in this area, and Mr. Howard said we will be exploring other avenues to address full automation of the approval process. Mr. Riall asked about the 76 employees with procurement cards and what do bus drivers use to fill up their buses. Ms. Duffield responded they use Fuelman cards.

Mr. Nations referenced the items that were red flags and he believes a couple of these are somewhat sketchy; and having addressed and put into place controls and checks and balances, his concern is this information is public and intentionally transparent. Even though it appears certain areas are not being handled as quickly as it should be, and the bond millage is before the public in May, he believes the question will be asked "how can this be handled". Dr. Goree expressed his appreciation for the auditors in the District for the thorough investigation.

Ms. Trammel asked about the three limit amounts and she does not believe the amount was included in the policy and maybe it should be included. Mrs. Duffield clarified that the first four amounts are included in policy but the accepted amounts are not included in policy. Ms. Trammel asked if a person is traveling, can they use the P Card for food, and Ms. Duffield said they cannot but must turn in the expense on a voucher form. Ms. Trammel asked if receipts can be scanned, and Dr. Goree responded he sends pictures of receipts and prints them which are things we possibly can do.

Mr. Albritton stated that policies and procedures are fantastic; however, if someone wants to get around it, there are no policies and procedures we can put into place that keep someone from doing so; and it appears that supervisor responsibility is mentioned frequently in these reports and is something that needs to be addressed. Also if there are employees abusing the system, they do not need to be a part of the system.

Mr. Howard added that someone might look at the reports shared today and say everything is being done wrong; however, that is not the case as there are a lot of good things and there has never been a time when Dr. Goree has told him to hold back or to not say something because he desires to be fully transparent and do what needs to be done to get better.

Mr. Nations expressed appreciation for the work done by the Auditing Department and shared with the Board.

VISITORS

The following shared their thoughts and concerns relative to the matters discussed: Jackie Lansdale, Red River United, and Jon Glover.

There being no additional business, the Audit Committee meeting was adjourned at approximately 4:00 p.m.

March 5, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry F Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:40 p.m. The prayer and pledge were omitted.

PRESENTATIONS

Football N America Spring 2019 Program. Following a brief video, Rick Holland and Charles Johnson addressed an opportunity for Shreveport to participate in a program Drew Brees is bringing to Shreveport for students in March. LSUS will be the base camp this spring and it is an awesome opportunity to build a foundation for giving all the kids in the community an opportunity to participate in a non-contact, competitive and safe sport. The kick-off training camp (for students Kindergarten through 10th grade) will be open to all children who register on March 31st and the league will kick-off on Saturday, April 6th. Those interested in attending the camp only need to register on their web site. They will also look to expand the program this fall and to provide scholarships for students who may not be able to afford to participate.

Mr. Rachal thanked Mr. Holland for contacting him about bringing this great opportunity to the students in Caddo. Dr. Goree also thanked Mr. Holland and Mr. Johnson for their work in bringing this to Caddo's students; and while he does not have specific numbers today, several schools have indicated an interest in organizing teams. He also said he looks forward to what will be created in this initiative.

Mr. Holland stated that in his visits with leaders in the community including the Police Department and the City Council, the conversation stresses the importance of creating an environment within the city where the students have an opportunity to participate in multiple sports and the benefits.

Career and Technical Education Program. Victor Mainiero expressed appreciation to Mr. Rachal for reaching out in this area and for the work of the Foundation and the scholarships awarded to Caddo students. Board members were invited to attend this year's Scholarship Ceremony on April 18th.

Kenneth Berg, principal at the Caddo Career & Technology Center, shared with the Board information and history on the Career Center, the relationship between local businesses/industries and the students, and the student successes seen since its inception. Mr. Berg said the CCTC is a shared time center which means students share their time between CCTC and their home school; and CCTC supports all high schools, with the exception of North Caddo, with last year 25 different classes being available for the 904 students attending CCTC to choose from. Mr. Berg explained that CCTC offers a vast array of courses that not only meet the interests of the students but are aligned with the State of Louisiana and the State's JumpStart Program, a new career track for students allowing them to gain the skills necessary for them to be successful once they leave high school.

Mr. Berg reported that last year CCTC had 649 students earn industry-based certifications which creates opportunities for these students and the testing the students have is the same as when adults take these courses. In some instances, these students need additional post-secondary training which led Gard Wayt, Ron Adams and Gayle Flowers to create The CCTC Foundation for the purpose of providing funds for students that need this additional training. Since the Foundation's inception in 1996, 768 students have received over \$1.2 million. He explained that the Foundation gives 30 scholarships each year and shared the requirements to apply for them; and each year they receive approximately 118 applicants.

Ms. Green shared personal testimony of a family member who has been successful because of the opportunities afforded him through the CCTC so she has seen the importance of this program in preparing students to compete in a global society.

Mr. Rachal expressed his appreciation for the presentation and for sharing with the Board details about what is happening at the Career Center. As a part of the Foundation Board, he has seen the impact on students' lives through this program.

He noted that Caddo's Caddo Career and Technical Center is actually the standard for the State of Louisiana and is used for other programs in the state. Mr. Rachal asked Board members to consider participating in funding a scholarship from the Board, and also asked that donating to the CCTC Scholarship Program be listed as an option in the annual United Way contributions. Mr. Rachal also encouraged Board members to attend the Scholarship Ceremony on April 18th.

Mr. Little asked if the CCTC has the capacity for more students and if so how many? Mr. Berg responded that some classes are at capacity and other classes are bound by numbers controlled by a governing agency, i.e. skills trades (carpentry, HVAC, welding, machine shop, electrical) can only have 15 students in these classes as well as 20 students max in the CNA and EMT classes. Mr. Berg added that one of their classes is the teaching profession; and because there is a need for more teachers, they encourage students to take classes in that area.

Mr. Thompson asked if CCTC recruits students from the low-income areas to take advantage of this program. Mr. Berg explained that many of the classes are not available for students until they are 16 years of age; and in November of each year they conduct 9th grade tours for all the high schools, and CCTC pays for the buses to bring them from their home school to CCTC and observe every class offered. In the spring, the CCTC Counselor and Coordinator go to the individual high schools, make presentations when students are signing up for classes and help with the application/registration process for students interested. Mr. Thompson asked about the possibility of career classes in the home schools who may want to add it to their school's program. Would this hurt the CCTC program? Mr. Mainiero responded staff is looking at classes such as automotive, welding, and culinary where the CCTC classes are at max and students at Green Oaks, Booker T. Washington, Northwood interested in these programs could take them at North Caddo. Mr. Thompson asked if putting a class in one of the inner city high schools will affect the program at CCTC? Mr. Mainiero responded it depends on the program and the students' needs. Dr. Goree added there is conversation about adding programs to a campus and the cost to do so, but CCTC is successful because the cost of offering the programs is centralized. He also agreed with Mr. Thompson's question relative to making sure that every student interested is afforded the opportunity to take these classes; and if the classes are full, look at the waiting list and see how the District can address it.

Mrs. Locke asked if there were more money, would more than 30 scholarships be awarded? Mr. Berg explained they have increased over the years as the cost of college has increased and to meet the students' needs. The scholarships were increased to \$2,000 approximately five years ago and capped at \$30,000 a year; so he believes Mr. Wayt would be the one to address this question.

Mr. Riall asked if North Caddo comes under the umbrella of the Caddo Career Center, and staff responded it is a separate entity.

Mrs. Bell commented on the programs that have been offered at Huntington because of the need. Mr. Thompson said he asked the question because his schools have reached out to him about the need to have them at their schools, and he wanted to know how it would affect the CCTC. Dr. Goree added that conversation is taking place relative to what will work and what programs would best serve the schools' populations. Mr. Thompson asked about the possibility of staff conducting a survey to determine the interest.

Ms. Trammel asked if space is a problem, and Mr. Berg said the building is at capacity relative to programs and size.

Millage Update. Superintendent Goree presented a millage video created to support the Board's effort to move forward with the millage on the ballot in May and is the video that will be used when meeting with and informing the community about this effort. He added a link also will be uploaded to the website beginning on Wednesday for public access.

Following the video, Dr. Goree stated that we do want to make sure the message is consistent and that the video is utilized as efforts are made to inform the public about what we are asking for on May 4th.

Mr. Nations commended staff members for the excellent video, and Dr. Goree recognized Mary Nash-Wood and her staff for the outstanding work. Mr. Nations asked about the \$88 million and if that is important to be shown in this particular presentation and how will the video be disseminated for use by the Board members

for community meetings. Dr. Goree said it will be on the web site and available for Board members via flash drive; and he encouraged Board members to use the video.

Mrs. Bell commended staff and said she wants everyone to understand there is no more money and this is needed to provide what the children in Caddo need. Mrs. Bell also asked if it is legal for Board members to show this at community meetings, and Mr. Abrams said it is. Dr. Goree explained the video is the means for presenting the same factual information to every group/meeting.

Individual Board members indicated their interest in getting the video for presentation to several community organizations as well as some bullet points that Board members should emphasize in the presentation.

Mr. Abrams stated in sharing this with the public, staff members cannot urge a vote; however, Board members can.

Ms. Trammel noted the needs in the District seen in the most recent fluctuations in the weather and the importance of getting this information to the public.

ESTABLISH THE AGENDA FOR THE MARCH 19, 2019 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its meeting on March 19, 2019 and discussion followed.

Capital Projects Bids. Steve Riall asked about the money for the HVAC systems. Steve White, director of Capital Projects/Construction, explained that those listed for Board approval are being funded through the annual capital projects budget. Mrs. Bell asked about the HVAC at Turner and what will be done to address this matter if it should go out in April/May. Are there funds to repair/replace the remaining part of the system? Mr. White said the funds are not necessarily the problem, but the issue is the spaces used daily, i.e. cafeterias, gymnasiums and they will be done this year.

Proposed Revisions to CPSB Policies. Mrs. Bell stated her concerns about these proposed revisions and asked about an additional meeting to discuss these further. Ms. Trammel stated she discussed this with Mr. Abrams and he will schedule a separate meeting to go over these revisions. Mr. Abrams clarified that these policies were created by Forethought based on Legislative actions during the 2018 Legislative Session, and he summarized the proposed revisions as follows:

Policy GAEEA addresses the necessary annual training requirement for all employees and Board members on preventing sexual harassment and is strictly from legislation. It also includes inappropriate boundary invasions since Caddo's policy is more broad. The policy also requires that the Superintendent compile an annual report on February 1 of each year on the compliance of the statute including the number of employees completing the training, the number of sexual harassment complaints received, and the number of times sexual harassment occurred.

Policy GBC (Recruitment) changes include the requirement that anyone being hired must disclose certain information and must sign a release of information statement for us to request said information. Changes also state that no teacher, substitute teacher, or administrator can be hired that has been convicted of any felony. However, if BESE approves them and the District goes through a process, they can be hired. It also covers hiring of someone who fraudulently submits information.

Policy GBD addresses personnel with the main change being a bus operator shall be notified of route vacancies by mail at his/her address.

Policy GBDB addresses hiring retired personnel and those who have retired and are in the retirement system are now able to be hired for one of the following positions: school psychologists, interpreters, education of translators, educators of deaf and hard of hearing, but they must be in a critical shortage area (position has been advertised and fewer than three certified applicants were received). Policy also lists the following positions that can be added and do not have to be a critical shortage: school nurse, professional development trainee, tutor for students in preK-12th grade, and classroom teacher employed in a temporary capacity as a test proctor.

Policy GBRIC adds adoptive leave for those adopting children. It provides for reasonable time when adopting a child not to exceed one year and also if an employee has no sick leave remaining, they can qualify for extended sick leave.

Policy GBRIB is the sick leave policy and the revisions include changing the term to *illness, injury or medical emergency*. *Bus drivers* is also changed to *bus operators* and extended sick leave (adoptive leave) is the same as what was presented in GBRIC. He explained that sick leave for assault or battery allows the employee to be away from school as long as they are disabled (unable to perform the simple functions of the job); and under sick leave/workers comp, a combination pay allows an employee receiving workers' comp (which is only a percentage of an employee's normal salary) to also use their sick leave pay to get their full pay. While the statute states this is for teachers, it has always been Caddo's policy that all employees can use their sick leave and workers' comp and receive their full pay.

Dr. Goree stated that we do plan to meet with the teacher organizations so they are aware of the statute changes and can help share it with their members.

Mrs. Bell asked for clarification and these changes came from Forethought that must be added as a result of Legislative changes in the law requiring changes in policy. Mr. Abrams explained that Forethought did not write the sexual harassment policy but submitted information, so he wrote it based on the Legislative changes which are basically that all employees must go through the training.

Mr. Riall asked when will the training be held and who will teach it, and Mr. Abrams said it will be determined by staff. He also asked about Policy GBD and the statement that the School Board shall approve all non-school based administrators based on the recommendation of the Superintendent, which he believes infers that whatever recommendation makes, the Board is required to approve it. Mr. Abrams stated that he actually did this and reminded the Board that there is an opinion as to whether school boards have authority to approve all personnel; and Hammonds and Sills has taken the position that school boards do not have the authority to hire anyone and it is the Superintendent's job. Mr. Abrams said he believes it is only school-based personnel that has this authority and the school board has the authority to approve others; and if the board wishes he can add the language to say the school board approves all non-school based administrators based upon the Superintendent's recommendation. Mr. Riall stated that he believes removing the word "shall" will correct, and Mr. Abrams stated that he will look at it further.

Mr. Little asked about the statement in the sexual harassment and inappropriate boundary invasion policy of "touching children when there is no educational or medical reason to do so", because in the lower grades especially, teachers are continually in contact with students. If we are deeming this to be an illegal action, he believes we are setting ourselves up for potential lawsuits. Mr. Abrams explained this is not the intent and he provided the training on what is "inappropriate boundary invasion". He said the goal is to have people placed on notice to watch and report what they observe might be inappropriate.

Academic Organizational Changes. Ms. Green asked staff to explain this, and Keith Burton stated that staff is attempting to combine two departments (Professional Development Department and the Curriculum and Instruction Department) and allow the alignment of all curriculum support, professional development support and coaching for principals and teachers to be under one person, an executive director of curriculum and instruction. Ms. Green asked if this means saving money, and Mr. Burton said it does. Dr. Goree added that there will be a retirement in one of the departments and staff is looking at this as not just a way to save money but to better align the supports provided for teachers in implementing the Tier One Curriculum across the District by the same person who is over curriculum to also provide the coaching support in implementing the curriculum. He said discussion has also taken place on the relationship of professional development and human resources and this will provide the opportunity to bring these two departments together through the Teach Caddo Program. Ms. Green said she also knows that in combining these departments you may hear what is lacking, and she only wants to make sure all the bases are covered with every aspect of this change. Mr. Burton said he believes teachers will see greater support as we are not just removing the specialists in professional development, but taking them from a general role and moving them into a very specific content role that will be aligned to the grade bands and resources the State and the curriculum demand.

Mr. Rachal asked about the reduction of the position addressing grants and who will be in charge of writing grants. Mr. Burton stated that the Director of Accountability and Data will be taking on this responsibility, because many of the grants written today through Mrs. McKinney are tightly aligned to data and accountability and staff believes the person who organizes the data would also be able to help principals and teachers at the school level to understand accountability and also look at the

resources for aligning these to the needs suggested by the data. Mr. Rachal asked if staff can assure him that someone will be seeking and searching out grant opportunities, and Mr. Burton said yes and there will not be a drop in grant dollars coming into the District because of this combination.

Mrs. Bell agrees we need a grant writer, and we need someone to oversee the grants.

Paraprofessional Designation. Mrs. Bell stated she is excited to see this much needed change because paras with students with special needs should be trained to provide for the special needs specific to that student. Dr. Goree explained this is part of the work staff is doing with DMG and is how we are working better to provide aligned services. Mr. Nations stated that during the campaign several topics were brought by concerned citizens/parents, and this was one of them. He asked if this proposal is approved, what will be the main difference for an autistic child and/or the parents. Mr. Burton stated that there is no longer a general job description for paraprofessionals, the duties and responsibilities for an applicant coming into Caddo Parish will have a specific job description so they understand what is specifically required of them in a job. For the parent with a student who has very special needs, it takes a very special person to work and be effective with a student with specific needs, and staff can provide the specific training needed which will result in parents seeing their child receive better services. Mr. Nations said if this question is asked of him again, he would like to be able to answer them by telling them how this change will benefit their individual child.

Mr. Rachal asked if these changes will result in changes in Board policies? Dr. Goree said he doesn't believe so, because this will change the job description. Mr. Abrams stated he believes it is a good idea and referenced a current situation that could have been avoided by having specific job descriptions; however, he does not see the need for change in policy. Dr. Goree commended Mr. Burton and Dr. Lockett for their work on this. Dr. Lockett stated how encouraged they are with these changes and how these changes will be really good for children in addressing specific needs, i.e. academic achievement, social behavior skills and also medical needs of students.

Mr. Riall asked Mr. Burton about a specific situation and if this is an example of what this change would address, and Mr. Burton responded that it is a very specific example of staff attempting to provide the very best services possible, and this change will allow us to improve the services to that specific student.

Consideration of Recommendations to Off-Line Hillsdale and Move AMI Kids to Lakeshore Campus. Ms. Green asked how many community meetings have been held regarding this, and Dr. Goree said there have not been any community meetings because this is one of the Type I Charters. AMI Kids came to Caddo about needs for the middle school children they serve, i.e. gymnasium. Also, because the infrastructure is so modern, this option (Lakeshore) will allow some other luxuries for the students served through this program. Ms. Green asked how many community meetings has the Charter held. Dr. Goree said he doesn't know and he doesn't believe it will be required for them to do so.

Mr. Thompson asked how many students are on the AMI Kids campus at Hillsdale. Dr. Goree said they may begin at approximately 120 and increase to approximately 180 students. Mr. Thompson asked how many students will Hillsdale accommodate and how many will Lakeshore accommodate. Dr. Goree replied that staff can provide that information, but it is all about the need for a gymnasium; and added that these are still Caddo's children and we want to make sure they are receiving the same as the other students in Caddo. The Superintendent further explained how this meets a need and as a Charter, they have full control over their program; and if they ask for a building that is vacant, we are required to make that happen. Mr. Thompson stated his concern that we are moving into a school and leaving a school vacant and leaving a community without anything. Dr. Goree reminded the Board that Lakeshore also is vacant and Hillsdale was taken off-line in 2012; but when AMI Kids charter was approved, they wanted to use that facility. Now, he stated they are executing their right under the law to state they need a facility with a gymnasium; and because we do have an available facility with a gym, we are required to help meet that need. Mr. Thompson asked if Alexander is off-line and Dr. Goree said it is and the campus is for sale, and he believes that in time, the Hillsdale facility will be placed for sale. Mr. Thompson asked if one of Caddo's alternative programs could be placed at Lakeshore also, and Dr. Goree said yes and the JROTC Program is also utilizing part of Lakeshore for training purposes and will continue to do so.

Dr. Douzart noted three different activities taking place at Lakeshore and asked if it is closed what those might be. Dr. Goree said that he knows the JROTC program utilizes the facility and may conduct special programs and/or classes, i.e. marching drills, etc. However, he will research the other activities seen at Lakeshore. Dr. Douzart asked if the decision for JROTC to utilize a portion of Lakeshore was approved by the Board and Dr. Goree explained it does not require Board approval.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

President Trammel announced that the following items are the consent agenda: 8.02-8.06 and 13.01 (three in agreement). *Mr. Rachal moved, seconded by Ms. Green, to approve the proposed agenda and consent agenda for the March 19, 2019 CPSB meeting as presented. Vote on the motion carried unanimously.*

ANNOUNCEMENTS

Lisa Lloyd, director of Purchasing, announced that the Caddo Parish Procurement Team will conduct its second annual Opportunity Caddo Training and Workshop on Wednesday, March 13th from 8:30-12 noon. She explained there will be three major components covering how to do business with a political subdivision, how to operate within the rules and regulations of the procurement system, and a mini trade show. Anyone who has businesses or interested parties that might be interested are encouraged to attend.

Mr. Riall congratulated Captain Shreve on their 5-A championship and the North Caddo girls for making the finals and runner up.

Ms. Green asked that staff provide her with a rubric on how the Captain Shreve National Honor Society is set up and implemented. She also asked that Board members remember the family of Dominique Jones, Green Oaks student who passed away last week.

Mrs. Bell presented Board member Tony Nations with a gift and card following his recent surgery.

Mr. Thompson reported on successful Black History Month programs he attended at Creswell and Booker T. Washington as well as an awards program at BTW.

Dr. Douzart asked everyone to remember Carl Pierson's family during this time. She shared she met Mr. Pierson when teaching physical education and the time they won the championship when the coach was put out of the game and she had to take over. She said Mr. Pierson became her supervisor, and is a great person who she will miss.

Tony Nations expressed his gratitude to the Board and apologized for missing the meeting on the 5th. He also announced that Southwood did a great job against Natchitoches despite a loss and also hosted a great open house for 8th graders. He was very complimentary of the programs in place at Southwood and the great team.

Mr. Rachal asked that a letter be sent to each Board member relative to the CCTC Scholarship. He also asked that staff look at the United Way form and add the option of making a contribution to the Scholarship Fund.

Mr. Green reported that he attended Black History programs at Oak Park, Caddo Middle Magnet, Mooretown and Hillsdale.

Ms. Trammel announced that the family hour for Carl Pierson will be held Friday, 6:00 p.m. at Mt. Canaan, and services at 11:00 Saturday at Mt. Canaan. Ms. Trammel also shared remembrances she had of Mr. Pierson working together at the CPSB. She reported on the productive LSBA Annual Conference in Lake Charles.

Adjournment. *Mr. Rachal moved, seconded by Ms. Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:40 p.m.*

March 19, 2019
CPSB Regular Meeting

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee' Locke, Barry F Rachal, Tony Nations, John L Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Board Attorney Reginald Abrams.

President Trammel called the meeting to order at approximately 4:30 p.m. and Board member Lloyd Thompson led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES

Mr. Rachal moved, seconded by Mrs. Bell, to approve the minutes of the February 12, 2019 and March 5, 2019 CPSB minutes as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Caddo Parish Magnet High Jazz Band. The Caddo Parish Magnet High Jazz Band performed two musical numbers for the Board and audience.

2018-2019 United States Presidential Scholar Candidates. The following students were recognized as U.S. Presidential Scholar candidates: Caddo Parish Magnet High School – Ruth Bodily, Srikahar Chilukuri, Natalie Lim, Chynna McClinton, Catherine Rutledge, Sarah Salvatore, Saad Tanveer, Kaili Taylor; CE Byrd High School – Dylan Tynes; and Northwood High School – Jacob Partin.

Wendy's High School Heisman Winners. The following students were recognized as winners in Louisiana's Wendy's High School Heisman Award Program: State Finalist Georgia Hilburn (Captain Shreve High School) and State Winner David Zabaneh (Caddo Magnet High School).

Region I Winner of the "No Kid Hungry" 2018-2019 Louisiana Breakfast Challenge. Fair Park Middle School was recognized as the winner of the Region I 2018 No Kid Hungry Louisiana School Breakfast Challenge. Fair Park received \$1,000 and an autographed New Orleans Saints football for achieving this increased participation in the program.

Veteran's Celebration Committee JROTC Scholarship. Kenneth Epperson, Sr., chairman of the Veteran's Celebration Committee, along with other members of the committee awarded a \$1,500.00 scholarship to Corp Commander Za'Christanae Eason of CE Byrd High School in recognition of the services rendered by Caddo students at all Veteran Day celebrations including participation in parades, award programs and other activities honoring veterans. Members of the 40-member committee present were introduced and recognized for their work in this effort.

2018-2019 District 8 Middle and High School Band Directors of the Year. The following band directors were recognized as Middle School and High School Band Directors of the Year by the Louisiana Music Educators Association: Krista Fanning (Caddo Middle Magnet School), District VIII Middle School Band Director of the Year and Lennard Holden (Southwood High School), District VIII High School Band Director of the Year.

National Board Certified Teachers. The following Caddo teachers recently were recognized by the Louisiana Board of Elementary and Secondary Education for attaining National Board Certification: Renate Michael, University Elementary and Elizabeth Dzvonic, Caddo Parish Magnet High.

VISITORS

The following visitors addressed the Board on matters of concern/interest: Rhalanda Jackson, National Honor Society; Kristin Gardner, Fairfield multi-use building; Jacqueline Miller, extended school year 2019; Jackie Lansdale, Red River United, town hall meeting, Most Improved Student, District history; Lora Bradford, job re-instatement; Omari Ho-Sang, MFP/Policy BCBI; and Jon Glover, State of Education.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Lamar Goree highlighted items for the Board's consideration, including pulling Item 8.07 *Consideration of Recommendation to off-line Hillsdale and move AMI Kids, Inc. to Lakeshore Campus*. President Trammel announced the following as the consent agenda: Items 6.02-6.03, 8.01, 8.03-8.06, and 13.01.

Mr. Rachal moved, seconded by Mr. Thompson, to approve the agenda and proposed consent agenda as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Ms. Locke moved, seconded by Mrs. Bell, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.02 Requests for Leaves. The Board approved the requests for leaves as recommended by staff and submitted in the electronic mailout.

6.03 Personnel Transactions (Resignations). The Board approved the personnel transactions report of resignations as recommended by staff and submitted in the electronic mailout.

8.01 Property/Bus Rental Requests. The Board approved the requests for long-term use of University Elementary and transportation for the Zombie Program as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Proposed Revisions to CPSB Policies GAEAA, GBC, GBD, GBDB, GBN, GBRIB, GBRIC, JBCC. The Board approved the proposed revisions to CPSB Policies GAEAA, GBC, GBD, GBDB, GBN, GBRIB, GBRIC, and JBCC as submitted in the electronic mailout.

8.04 2017-18 Comprehensive Annual Financial Audit Reports. The Board accepted the 2017-18 Comprehensive Annual Financial Audit Report as submitted by the external auditors Carr, Riggs and Ingram in the electronic mailout.

8.05 Academics Organizational Changes. The Board approved the organizational changes to the Academics Division as presented by staff and submitted in the electronic mailout.

8.06 Paraprofessional Designation. The Board approved the proposed paraprofessional designation job description as presented by staff and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for re-admittance for students JJ, LM and RW as submitted in the electronic mailout and whose parents are in agreement.

BIDS – CONSTRUCTION/CAPITAL PROJECTS

Mr. Rachal moved, seconded by Mr. Thompson, to approve the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) The Payne Co., with a Base Bid and Alternate 1, for the sum total of \$669,000.00 for Project 2020-302, "Keithville HVAC, Phase III"; (2) Hamm Mechanical, with a Base Bid, for the sum total of \$80,600.00 for Project 2020-317, "Judson Replace HVC Multi-Purpose Building"; (3) The Payne Co., with a Base Bid, for the sum total of \$125,000.00 for Project 2020-309, "Caddo Career & Technology Center HVAC Replace A/C Café & Dining"; (4) Daren Bailey, Inc., with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$298,228.00 for Project 2020-216, "Donnie Bickham Exterior Tile on Building Phase II"; (5) Reliance Plumbing Group, Inc., with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$208,800.00 for Project 2020-310, "Eighty-First Street HVAC Replace A/C Cafe', Dining, Library & Surrounding Classrooms"; (6) Mechanical Solutions, LLC, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$470,700.00 for

Project 2020-313, "Huntington Replace A/C in 100 Wing"; (7) Hamm Mechanical, with a Base Bid, Alternate 1, Alternate 2, and Alternate 3, for the sum total of \$1,690,000.00 for Project 2020-303, "Turner HVAC, Phase III"; (8) The Payne Company, with a Base Bid, for the sum total of \$173,000.00 for Project 2020-312, "Southwood Rebuild Chiller"; (9) Douglas Construction & Remodeling Co., Inc., with a Base Bid and Alternate 1, for the sum total of \$216,097.00 for Project 2020-221, "Huntington Bleachers (1 Gym)"; and (10) Hamm Mechanical, with a Base Bid, for the sum total of \$1,676,000.00 for Project 2020-301, "Byrd HVAC, Phase IV.

Mr. Thompson asked for clarification on where the funds for these projects will come from if the District is calling for a millage election? Dr. Goree explained there is a current millage for capital improvements on the campuses which generates about \$20 million annually that is currently being used to fund HVAC needs. He further explained that the millage is relevant because staff is seeing that more than 70% of these funds are being used toward HVAC and is preventing the District from addressing other needed projects, i.e. canopies, restroom renovations, etc. Mr. Thompson also asked about the bid process, about bids awarded to the same company multiple times, and how other local companies can know about the opportunities to bid on these projects. Dr. Goree explained that each year every principal has the opportunity to turn in a wish list of capital project items for their campus; and with campuses averaging 74 years in age, every campus has multiple needs, so staff attempts to equitably spread the \$20 million for capital projects across the District each year. Steve White, director of capital projects, explained there is a procedure set up to comply with Louisiana Public Bid Law meaning everything must be advertised 28 days in advance for three times in the Official Journal. Projects are also advertised on the CPSB web site, there is a mandatory pre-bid for anyone interested in bidding on a project where they gain complete understanding of the bidding documents, a bid date is set, public bids are received and bids are publicly read aloud. The low bidder is determined and is brought to the Board for approval. Mr. Thompson said he only wants to understand the process since it appears the same companies bid all the time, and he would like to see us reach out to more companies in the community to let them know projects are coming up for bid and encourage them to bid, going beyond just publishing it in the paper. Mr. White also clarified in the set of bids presented, it is HVAC heavy (8 of the 10) and the mechanical contractors are the same for practically all of them. Mr. Abrams explained that in Caddo's Opportunity Caddo Program, part of the bid process requires contractors to submit information to local small contractors who may wish to sub-contract these jobs; and if they do not, they can be deemed non-responsive and can lose their bid. Dr. Goree added this is also managed through Lisa Lloyd, director of purchasing.; and she and Mr. White work closely together in bids to make certain the District is following all the purchasing laws.

Mrs. Bell stated the Board receives a list of the projects and approves the projects going out for bid. The papers locally are *The Shreveport Times*, *Shreveport Sun* and the *Caddo Citizen*, but the Board still votes on these projects before they are bid. She also referenced the Board must follow the State Bid Law in all these projects.

Mr. Rachal stated the difference in the needs versus wants and that it is the principals at the schools who know best what their needs are (and some are large needs) and this is how the capital projects list is developed. The millages now are debt millages; and we currently have a millage that generates approximately \$20 million annually for capital projects and state law requires that it is used for capital projects only. With the capital projects being overwhelmed to the point the District cannot keep up with the capital project needs, he said taking advantage of Caddo's incredibly high credit score is the only way staff can attempt to keep up with the needs.

Mr. Riall moved, seconded by Ms. Green, to call for the question. Vote on the motion to end debate carried.

Vote on the main motion carried unanimously.

OUT OF STATE TRAVEL (GENERAL FUND)

Mrs. Locke moved, seconded by Mr. Rachal, to approve requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout. Vote on the motion carried with Mr. Little abstaining due to a conflict.

CONSOLIDATION OF ALEXANDER LEARNING CENTER PROGRAMS INTO OTHER DISTRICT PROGRAMS AND CAMPUSES

Mr. Rachal moved, seconded by Denee' Locke, to authorize staff to move forward with consolidating the Alexander Learning Center programs into other District programs and campuses as recommended by staff and submitted in the electronic mailout. Mr. Thompson shared some concerns voiced to him relative to the success of the students at Alexander when placed in schools across the district; and asked if any research was done on this. Dr. Goree stated the programs offered at Alexander Learning Center are being offered at other places throughout the District. He further said that staff did not rush but worked to make sure everything was in place before bringing this decision to move forward, and he believes these children will be successful. Mr. Thompson asked about the employees assigned there, and Dr. Goree said the HR staff has met with them and the one thing we start and end with is "Caddo is a large district and everybody will have a job", so staff is working with everyone on their placement as quickly as possible. Ms. Green asked staff to clarify the consistent language between Alexander and the AMI Kids programs. Dr. Goree responded while the programs are similar, one services elementary schools and AMI Kids serves middle school students. He further added the Board has had discussions around involving the community; however, AMI and Alexander are not community or neighborhood schools but programs with a fluid population of children who oftentimes come and go. He explained that he is pulling the item to Off-Line Hillsdale because on April 1st he will meet with the Queensborough community to explain staff's recommendation for the future use of Lakeshore. The superintendent further explained that the AMI Kids program presented their need for a gymnasium for the middle school students; and because Caddo has one available, we are required in the charter agreement to fulfill that request. Dr. Goree also reminded Board members that many of the students there are over age and we need to provide the students with accelerated instruction, and they deserve a gymnasium as the other middle school students have in Caddo.

Ms. Green thanked the Superintendent and staff on the decision to hold a community meeting, and asked if she understands correctly that we will house the students at the Alexander Learning Center at other schools. Dr. Goree explained many of the students will return to neighborhood schools because some of the behavior units are there for the SPED students. Also, expulsions will be housed at Ombudsman (elementary and over age students) and AMI Kids (overage middle school students). Dr. Goree also clarified that staff looked at each child individually who will be affected and determined what will be the best for each individual child.

Dr. Douzart noted when she came in on the conversation, she heard what she was expecting and she thanked the Superintendent for the opportunity for the community to provide their input.

Vote on the motion carried.

CADDO/LOUISIANA TECH PARTNERSHIP

Keith Burton, chief academic officer, shared with the Board a time sensitive opportunity to enter into a partnership with Louisiana Tech University. He explained that the proposal focuses on:

1. School Leadership Development
2. Career and Technical Education
3. Curriculum Development
4. Expansion of dual and virtual enrollment (including career and technical education).

Mr. Burton explained that the cooperative endeavor agreement is in the beginning stages, and staff is requesting the Board to allow the Superintendent to begin the process to create an urban education centered graduate program so students will be able to receive graduate credit toward earning a Master's and possibly a Doctorate in education with the focus on urban education. This will better prepare

future principals and leaders to handle the challenges of schools with increased poverty. It also will increase industry-based certifications in credentialing for schools by better preparing Caddo's teachers to offer classes through the Jump Start Program. The third component of the agreement will move the Caddo Virtual Academy to the Louisiana Tech Shreveport campus, a turn-key option for the District to take advantage of. Because the CVA is growing not only by numbers, but also by performance, and is an A-rated high school, the current site no longer has the space needed for the growing number of students. This move will also allow the District to grow its dual enrollment through the CVA, as well as through the middle school, which is part of the District's Strategic Plan. Mr. Burton explained that in looking to expand the CVA one of the first things staff looked at was the marketability of the location so students would feel safe every day when they come to the school. Second, staff looked for a facility that would meet all the needs for the students at a minimum cost; and third, the timeframe for being able to meet the needs of the CVA, i.e. 3 years, 5 years, 10 years; and this facility will meet those needs. He stated that the endeavor agreement will also increase dual enrollment opportunities for not only CVA but for all other schools. Mr. Burton also highlighted the Caddo Teaching Professions Program at the Caddo Career and Technology Center where students attending for 2 years and participating to become future teachers are earning one (1) college credit (3-hours) for one college class and this agreement will add an additional education course so students can leave the CCTC with six hours toward an education degree. This will also allow the District the opportunity to evaluate an enriched or k-12 course offerings, including additional STEM courses, to better meet the needs and demands in the future.

Mr. Burton added that Operations, Information Technology, Academics, as well as Board members have visited this facility. Also, he stated a strong curricular relationship will be established to strengthen the District's course work and better prepare students to be ready for future jobs.

Mr. Riall asked about the current enrollment at CVA and the growth, and Mr. Burton responded there are 68 students enrolled and this is the third year of CVA's operation. Dr. Goree also said staff had halted conversation on expanding to middle schools due to lack of space at CCTC; however, this facility would provide space to once again begin these conversations. He further stated that while the program started at CCTC only needed a small space because it was believed students would do most of the work at home, the students have shown they want to come and to collaborate with their teachers and friends on a daily basis; and this extra space will allow that for them. Mr. Burton announced that CVA will graduate 22 seniors this year. Mr. Riall asked about the cost to Caddo, and Mr. Burton explained Caddo would have the utilities, the maintenance, and there will be a lease agreement to be worked out with the final cooperative agreement to be approved by the superintendent.

Mr. Nations congratulated Mr. Burton on the work done and asked if there is a downside what would it be. Mr. Burton explained the only adjustment will be to unhook the network at the building from Louisiana Tech and hook up our network system. He further stated in talking with Technology, this can happen in a day. He said we will definitely need to provide signage for the building because we do want Caddo Parish Public Schools and Caddo CVA on the building which he believes will add to the marketability of the facility. Mr. Burton added we also want to draw students who might currently be home-schooled or are attending private schools. Mr. Nations stated he believes this is a win-win opportunity, and he asked if this has been discussed with the CVA staff and students. Mr. Burton said Mr. Lacy has walked through the facility; and while he has not spoken to anyone about the possibility, he is very excited about the opportunity. Dr. Goree added this also had to be cleared with the La Tech officials before moving forward. Mr. Nations noted the negative feedback from the community relative to the issues with the agreement fostered by the Mayor with UNO and this will help to allay some of the concerns that we are only reaching out to schools 300 miles away.

Mr. Little echoed fellow Board members' accolades and asked if we have delineated the cost of utilities, maintenance, contracts, technology equipment, etc. Mr. Burton confirmed staff will make certain this is all addressed in the agreement. Mr. Little also asked if this facility will allow us to have a remote enriched teacher that schools can access? Mr. Burton said yes as well as a professor from Louisiana Tech

teaching/broadcasting from the facility, which will provide live dual enrollment possibilities.

Ms. Green asked for confirmation that this center is for grades 9-12 and possibly 6-8 and is the Virtual Academy. Mr. Burton confirmed that is correct and moving the CVA from CCTC to this facility is only one component for which this facility will be utilized. Ms. Green asked Mr. Burton to explain what Louisiana Tech will gain from this partnership, and Mr. Burton said they are gaining a partnership with a large urban school district, increasing their dual enrollment as well as their brand through the partnership. They also see this as an opportunity to make use of this facility and make a difference with the students in Caddo. She asked when will this be implemented, and Mr. Burton responded it will be for the 2019-2020 school year (beginning in August). She asked about the timeframe for moving these programs, and Mr. Burton responded maybe a week. Dr. Goree also added that Sharon Golett (IT) and Jim Woolfolk (Operations) have been involved in the effort to make this happen by the beginning of the 2019-20 school year, and that the District really needs the space at CCTC. Ms. Green asked if La Tech reached out to Caddo or Caddo to them, and Mr. Burton explained that a part of the District's conversation with Louisiana Tech began with ways to partner with them to help certify all the applicants coming to Caddo Parish with degrees outside of education and look at creative ways to help because CTA is very successful but only meets the needs of approximately 30 applicants. When the conversation became about the needs of the candidates/applicants, the discussion became about specialized training and a meeting was set up where Dr. Bridget Brown, Marvin Rainey, Dr. Karen Peace and he went to Ruston to meet with the Dean and four Professors as well as the chairman of their Ph.D. Program; and a draft of a curriculum was available within the week. Ms. Green said she knows that Grambling and Louisiana Tech partner together for certain classes, and she believes Grambling has outstanding teachers. Mr. Burton said while staff has not had that conversation, they are open to that conversation taking place. Ms. Green said if possible, she would encourage staff to reach out to Grambling. Dr. Goree added that work with LSUS and Grambling State is taking place on better understanding our memorandum of understanding so counselors better understand when communicating with the students, i.e. similar to our work with UNO.

Dr. Douzart said she concurs with her fellow Board members and her question would be "how soon can we get started"?

Ms. Trammel shared a visit to CVA and her observation of how crowded the program is at CCTC because of the number of students in the classroom. She believes a move into this building will be a great opportunity and concurs with Ms. Green regarding opportunities to be inclusive and partnership with other universities. Mr. Burton added that another advantage is to be able to enroll students across the state and look at creative ways to further expand these opportunities.

Mr. Rachal asked for clarification of the statement that once the agreement is finished, it will come back to the Board at that point and not just agreed to and signed since this is a budget item. Dr. Goree stated that any dollar amount included will be in the budget for Board approval. Mr. Abrams said it would be a Board decision if it desires to put that restraint on it; however, that is not the request in this item. If the motion states it will come back, it will limit the ability to negotiate. Mr. Rachal added he believes Dr. Goree answered his questions when stating it will be included in the budget yet to be presented to the Board for approval.

Mrs. Locke moved, seconded by Mr. Rachal, to authorize staff to move forward with the partnership between Caddo Parish Schools and Louisiana Tech as submitted in the electronic mailout. Mr. Green stated he believes in something this big for the District, he encouraged all Board members to be a part of the second. Vote on the motion carried unanimously.

BOARD ANNOUNCEMENTS

Mrs. Bell reported on her participation in activities relative to Women's Month at Turner where members of the fraternities/sororities helped to greet and welcome

the students to school on this day. She also announced that local female judges will hold a round table discussion on Wednesday at Huntington's Law School Program and Southern on Thursday.

Mr. Thompson thanked Mr. Alexander and Dr. Roberts at J S Clark for the opportunity afforded he and BESE Representative Tony Davis to tour the facility. He also asked the Superintendent if staff will respond to Mrs. Davis' letter, and the Superintendent responded yes.

Mr. Nations congratulated the District 8 middle and high school band directors for their outstanding well-deserved recognition. He also stated that March 18th was bus driver appreciation day and he encouraged others to encourage our bus drivers when having the opportunity to do so.

Ms. Green expressed appreciation to Ms. Virgin Rachal for responding to a parent request relative to transportation. She also thanked the Superintendent for his presence with the Green Oaks students and community at funeral services for one of the students at Green Oaks. Ms. Green also expressed appreciation for one of Caddo's teachers for hosting the first career day at Green Oaks High School.

Mr. Rachal invited Board members to attend an event in which Juvenile Court Paul Young will speak on April 2nd at noon at the Wyndham Garden Hotel on E. 70th Street. He also requested that staff send out a reminder to the Board regarding the CCTC Foundation and the scholarship program to be held on April 18th.

Ms. Trammel shared with everyone the opportunity for the Board to have conversation with the State Superintendent of Education; however, when responding, he gave two opinions on each question asked and he never gave a sound answer on where the State Department stands on several issues. She shared with Board members the importance of staying abreast of what is going on in the District and to relate it to what is happening at the State Department. Ms. Trammel also announced that a thank-you note was received from the family of Mr. Mothershed.

EXECUTIVE SESSION

Mr. Rachal moved, seconded by Denee' Locke, to go into executive session for up to 15 minutes per student for the purpose of hearing student readmission appeals. Vote on the motion carried with Mr. Riall being absent for the vote. Following a five-minute break, the Board went into executive session at approximately 6:45 p.m.

The Board reconvened into open session at approximately 7:25 p.m.

Mr. Rachal moved, seconded by Mr. Little, to uphold the expulsion of AL and AY since they did not appear for their hearing. Vote on the motion carried with Mr. Thompson opposed and Mr. Riall absent for the vote.

Mr. Rachal moved, seconded by Mrs. Bell, to uphold the expulsion for student SH as recommended by staff. Vote on the motion carried with Mr. Thompson and Mr. Nations opposed and Mr. Riall absent for the vote.

ADJOURNMENT

Ms. Green moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 7:30 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

April 2, 2019
CPSB Audit Committee Meeting

Members present: John Albritton, chair; Denee' Locke, Raymond Green, and Superintendent Lamar Goree and Board Attorney Reggie Abrams. Committee members Don Little and Dr. Bonita Douzart were absent. Also present were Steve Riall, Lloyd Thompson, Mary Trammel, and Dottie Bell, as well as staff members Jeff Howard, James Woolfolk, Mary Wood, Krystle Grindley and Al Graham.

Chair Albritton called the meeting to order at approximately 2:30 p.m. and led in the Invocation and Pledge of Allegiance.

Establish and confirm the Agenda. *On motion by Mr. Green, second by Mrs. Locke, the committee established and confirmed the agenda as presented.*

Review of CPSB Policies DID and DIDA. Chair Albritton announced that the purpose of today's meeting is to review Policies DID and DIDA approved by the Board last September, and he highlighted some areas in recent audits that indicate non-compliance and the need for follow up with a report back to the Audit Committee in an effort to bring closure to audits. He announced his suggestion that the Audit Committee meet quarterly for the purpose of following up on audits to make sure issues/recommendations are being addressed. Mr. Albritton noted how the Superintendent is running the system now versus how it was run in the past; and as the policy-making body, the importance of the Board not getting involved in the Superintendent's decision-making process. He further clarified the purpose of the meeting today is not to change the process, but to get a better understanding and maybe look at possible policy changes to address adequacies.

Mr. Albritton shared his observation of when changes have been made, particularly in supervisory positions, that there is no follow up and people do not seem to have a good understanding of their total responsibilities. He shared his experiences in supervising/managing people, and the practice of making sure people have the technical background to be successful in their positions, but then we make them supervisors without providing supervisor-management training. He said one of the main issues is not holding people accountable for what they do; and when finding issues in audits, there has been a response, but no follow-up to make sure there is closure; and he hopes by holding quarterly meetings, this will allow the Committee to bring closure; as well as make certain the Superintendent has the tools within the policy as it is stated to have something to enforce. He reiterated the need for a supervisor management training program so when people are promoted into these positions of responsibility over people, they understand how to hold them accountable. Mr. Albritton clarified he is not talking about warning, suspension and termination, but only the need to be able to talk to people if they are not performing the full scope of their job.

Referencing the P Card, Food Service and Payroll Department audits, Mr. Albritton pointed out where policy (DID) states the actions; however, the reports received by the Committee and Board do not have a timetable for addressing the issues noted. He said audits will reflect what is lacking/missing and what is needed; and management will respond; however, the audit should also include a timetable, specific people, actions, and specific assignments for addressing the audit findings. He also noted the length of time taken for follow up and various reasons why; however, he believes if we are going to hold people accountable, it is important to make certain the timetable is followed and action taken. He also highlighted P Card procedures which appear to be burdensome and the need to fine tune this process and policy for better control, and so the supervisors over employees who have access to the P Cards are being held accountable. He further stated he believes it is necessary for the Audit Committee to look at action to either give the Superintendent new goals or change/amend the policies where the Superintendent has the needed tools to hold people accountable.

Superintendent Goree stated he believes this is a great time for this conversation as the District prepares to post the Chief Internal Auditor position and shared proposed revisions to the job description that he believes will address many of the concerns presented. He added that in beginning this process, staff will work with Mr. Albritton as Chair of the Audit Committee as well as the Board President to select the auditor since policy dictates this person not only reports to the Superintendent for evaluation, but also has a dotted line to the Board.

Jeff Howard addressed past follow ups to audits and why some were so long in coming to the Committee, i.e. Payroll Audit because the district was implementing a new payroll system. He explained auditors sit down with the director of each area to review the findings and recommendations and how these were addressed. Mr. Howard stated his agreement with Mr.

Albritton on the amount of time, and explained this was included in Policy DIDA when amended in 2018 as well as the inclusion of a chart of the audits, findings, recommendations, and status.

Mr. Abrams stated that when the policy manual was updated, it no longer includes procedures; but the procedures are left up to the Superintendent. At some point, there will be a procedure manual of everything done throughout the district, and it will be posted online. Regarding comments made, Mr. Abrams stated he believes there could be some tightening up on some things, i.e. timeline, disciplinary action, etc., and he suggested revisions to the current policy under reporting and monitoring to address these. He will also look at including the Audit Committee's review of management at the next audit committee meeting upon completion of the action to be taken recommending also to add a section addressing the risk for corrective action when employees fail to respond to agreed-upon corrective actions.

Mrs. Locke shared her past observations; but she does not feel the Superintendent should be micro-managed. However, in talking about giving the Superintendent the leeway to address these issues, she knows this addresses policy versus procedures, and policy states no internal auditors will have any direct operational responsibility or authority over any of the activities audited. She also agrees with a timetable, but she questions the difficulty of the specific actions of people if they do not understand everything that happens in a particular department, and she only wants to make sure we do not cross the line of micro-managing the Superintendent.

Mr. Green stated if there is a need for punitive action, he strongly encourages consistency in addressing these situations. Dr. Goree responded that Human Resources works very closely in these situations to look at similar situations and how they were handled so it is addressed consistently and he agrees that consistency is very important.

Mr. Riall asked if these issues were handled the same before the Board committee structure was established. Mr. Howard explained they were not sent to the Board; and when they conducted operational audits, they were sent to management. Mr. Howard added they were sent to the Board at one time; but the Board decided they no longer wanted to receive them; and they were placed in a file in the Superintendent's office for anyone who might want to review them. Mr. Riall said this is a work in progress, but he believes today is a major step in moving forward.

The Superintendent stated that staff is approaching, other than Academics, the end of the cycle set up to audit the Central Office divisions, and discussion has been held on the need to tie up these audits before beginning a new cycle.

Ms. Trammel asked if we do follow up to make sure employees are carrying through with implementing recommended actions and that the process is more polished. Staff responded they do and the job description/responsibilities are now being written to meet the needs of the job and not the person's personality.

Mr. Albritton also stated that with the internal audit activity being responsible for appropriate follow-up, findings and recommendations, the policy references the departments must respond within 30 days; however, he does not believe this timeframe has been stressed or completely followed. It also states that findings will remain open issues until they are cleared; but he said it needs to be indicated who will declare an issue clear. Mr. Abrams also explained the 30-day language included was not for after the response of the audit; but the intent was for those times when an audit is prepared and there is no response in the audit, management has 30 days to provide something not included in the audit.

Mrs. Bell inquired about the number of auditors and bookkeepers in the schools? Mr. Howard responded there are three auditors in addition to himself and every school is audited annually with at least a low cash audit. Also, staff annually trains all the bookkeepers in the schools. Mrs. Bell asked about additional audits conducted, and Mr. Howard confirmed they also do operational audits as well as any special projects assigned by the Board.

Mr. Graham shared with everyone a copy of the chief internal auditor job description with proposed revisions that will match what is expected of the person holding this position. He said he researched job descriptions of persons holding this position in area businesses as well as school districts across the nation that are the size of Caddo and focused on areas of overseeing and anticipating possible problems. Mr. Howard added it covers what the Auditing Department is currently doing, i.e. bookkeepers having problems will call auditors for clarification of what to do; and the revisions correlate with what the auditors are doing as trainers for the bookkeepers as well as working with the departments/schools to bring them together.

Mr. Albritton inquired about the point value of the position and if these revisions change that, because when adding terminology like development and prepare for future, he believes this adds to the scope of the job and could mean a higher position/value. Dr. Goree explained that all questions have been weighted the same; however, he believes it may be important to look at whether or not some of the questions are more valued than others. Mr. Albritton asked about the scoring of jobs and will these revisions change that "grade". Mr. Graham clarified that a change in educational experience or degrees might change the grade.

In response to whether or not the job has been posted, Superintendent Goree responded that it has not, as he wanted to share it with the Audit Committee first. Staff also clarified that Mr. Howard worked with staff on the proposed revisions to this job description. Mr. Abrams said that Mr. Howard's office has taken on different areas not included in his job description, i.e. assuring that Human Resources, SPED, etc. are working within the guidelines of best practices; but he does not see anything about having knowledge of these different areas they are asked to audit. Mr. Albritton said Mr. Abrams is addressing the educational aspect of the job description as opposed to being focused on the financial side of the business, and Mr. Abrams said that is what the job description is all about and whether or not it should be added.

Mrs. Bell inquired about the required experience and education, and what she feels should be sought when seeking someone to fill this position. Dr. Goree responded that while the job description states a maximum number of years of job-related experience *or* education, it would be ideal to find someone with the max number years of job-related experience *and* education.

Mr. Albritton announced that he will call another meeting of the Audit Committee when he hears back from Attorney Abrams regarding a draft of the proposed revisions to the policy.

Adjournment. There being no additional business, the Audit Committee meeting was adjourned at approximately 3:10 p.m.

April 2, 2019
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Steve Riall, Raymond Green and Denee' Locke. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Mary Trammel, Lloyd Thompson, Jasmine Green, and John Albritton; and staff members Jeff Howard, James Woolfolk, Mary Wood and Randy Watson. Don Little was absent.

Mrs. Bell called the meeting to order at approximately 3:15 p.m. The Invocation and Pledge were omitted.

Establish the Agenda as Submitted. *On motion by Steve Riall, second by Denee' Locke, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Steve Riall, second by Raymond Green, the agenda was confirmed as presented.*

Dental Insurance Extension. Mrs. Bell announced the purpose of the meeting is to look at extending the dental insurance to two years at the same premium.

Randy Watson, director of insurance, introduced Brad Bockhaus, Blue Cross regional director. Mr. Watson stated that every year insurance renewals are brought to the committee and Board and last year the intent was to bring all insurance renewals for a two-year locked-in rate guarantee on employee premiums and benefits. He said we were successful in doing that except for the dental; and because at the time Blue Cross did not believe they had enough data to go two years, they would only commit to a one-year renewal at the current rates. After reevaluation by Blue Cross, they have agreed to offer a two-year rate guarantee which will extend the current agreement and rates through March of 2021. Mr. Watson also shared the unique funding agreement Caddo has on all its insurance plans where if there are any premiums remaining at the end of the year, those funds are refunded to the employees. Mr. Watson stated that staff is recommending that the Board consider extending the current insurance agreement for an additional year at the same amount which will put all the District's insurance plans on the same cycle.

Mr. Thompson asked how this is shopped around when it is time to renew, and Mr. Watson explained that while the law says services do not require a bid process, Caddo's staff continues to evaluate its plans to make sure employees and retirees are receiving the best deal for the money. He said if this was a fully insured plan, the insurance company sets the rates, and if there are funds left over at the end of the year when claims are paid, they get to keep those funds. However, because Caddo has the benefit of a premium stabilization fund, the premiums are set and at the end of the year after claims are paid if there is money left over, it comes back to the plan. He stated because the money comes back to the employee, he is not sure how another insurance company could give a better rate.

Mr. Watson further explained that staff also looks at whether or not they can purchase dental services that are more affordable than other plans; but in looking at Delta (the next largest provider in the State) and comparing them against Blue Cross, it was Blue Cross that had the most competitive rate. Also, staff looks at the administrative fees and Blue Cross's administrative fees currently are 50% less than their competition. In evaluating this information, it is Blue Cross that offers Caddo employees the best deal. Mr. Watson explained that if the District put out an RFP for this, someone could come in and set a rate which would mean nothing to us as the money comes back to the employees. Mr. Thompson stated that he is attempting to understand why it is not feasible to bid and see if there is anyone who can offer a better deal; and Mr. Watson responded if it was a fully insured product with a premium they would keep the extra money; however, because of the premium stabilization fund, if the claims throughout the year are less than the premiums paid by the employees, the overage is returned back to the members and is placed in the reserve. Based on this there is no way anyone can give a better rate than Blue Cross, and the only thing Blue Cross gets is the administrative fee for processing the claims for all Caddo members which is lower than anyone else.

Miss Green asked if she understands this is an extension until 2021 and Mr. Watson confirmed that is correct; and she asked if we knew what the cost would be beyond that. Mr. Watson explained it would depend on the claims since our premiums are set based on the claims. He said while we have approximately \$1 million in the fund, every year that Blue Cross has asked for a rate increase, we have brought it down with these funds and as a result, our premiums are still at the 1999 rate. Miss Green asked for clarity on why they do this, and Mr. Watson responded Caddo is a valued customer, they handle our self-funded health plan and we pay them an administrative fee (one of the lowest in the state), as well as the critical mass and the long-term partnership we have with them. Miss Green asked about the administrative fee we pay versus what the cost of others would be; and Mr.

Watson explained others are higher because they use brokers or agents as well as their commissions. Caddo direct-contracts with Blue Cross and does not use brokers, and Blue Cross receives approximately 9.5% in administrative fees which is for Blue Cross to process claims and for use of their network. Mr. Watson shared that when he came to Caddo there was an agent receiving a 10% commission on top of the administrative fees (approximately \$250,000) and this came from the employees' premiums.

Mr. Riall asked if he is correct that the dental plan is not self-funded, and Mr. Watson said it is a fully insured plan.

Mrs. Bell stated for those new on the Board that everyone keeps up with the insurance and everyone appreciates Mr. Watson and the work he does watching out for the retirees and employees' benefits.

Ms. Green publicly thanked Mr. Watson and expressed how much she values him as a staff member for how much he puts into his job. Ms. Trammel echoed Ms. Green's comments and stressed how much help Mr. Watson offers employees in their retirement.

Mrs. Locke moved, seconded by Mr. Riall, to send this recommendation to extend the dental to two years to the Board for action. Vote on the motion carried. Mrs. Bell announced she will add this item to the agenda at the work session today for Board action on April 16th.

Adjourn. On motion by Mrs. Locke, second by Mr. Green, the meeting adjourned at approximately 3:25 p.m.

April 2, 2019
CPSB Special Session

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, April 2, 2019 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana. Board members present constituting a quorum: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Board member Don Little led the prayer and Pledge of Allegiance.

VISITORS

The following visitors addressed the Board on issues of concern: Jon Glover, asked for clarification and if item 1.06 has anything to do with the transaction that resulted in the funding for Magnolia Charter School.

REQUEST FOR SETTLEMENT AUTHORITY IN SHAEROD QUINN VAN DYKE V. ANGELA B. SPEARS AND CPSB, 579,242-A, 1ST JDC, CADDO PARISH, CLAIM #4829081

Mr. Riall moved, seconded by Mr. Rachal, to authorize settlement as recommended by counsel and staff as submitted in the electronic mailout. Vote on the motion carried.

EXECUTIVE SESSION: LITIGATION UPDATE: CADDO PARISH SCHOOL BOARD V. SCHOOLS FINANCIAL CREDIT UNION AND DOES 1-50, CASE NO. 34-2019-00248686 COUNTY OF SACRAMENTO

Mr. Riall moved, seconded by Mrs. Bell, to go into executive session for 15 minutes for the purpose of a Litigation Update. Vote on the motion carried and the Board went into executive session in the Superintendent's Conference Room at approximately 4:40 p.m. The Board reconvened in open session at approximately 4:50 p.m.

Mr. Riall moved, seconded by Mr. Little, to authorize dismissal of Schools Financial Credit Union as recommended by counsel. Vote on the motion carried.

Adjournment. *Mrs. Locke moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 4:55 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

April 2, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:55 p.m. The prayer and pledge were omitted.

PRESENTATIONS

Roosevelt Collins NFL Camp. Roosevelt Collins and Liffort Hobley, both products of Caddo Parish Public Schools and former Miami Dolphins' players, shared with the Board and audience that for the past 2 years they have conducted camps for students; and this year, they will conduct a life-skills camp to help single parent Moms and students. Topic they will address will include adversity, leadership, anger management, and other things he knows many in the community are dealing with daily. He said because this community invested in him, he desires to do the same. Mr. Hobley also shared with the Board and audience how this community invested in him and how he, too, desires to give back by investing in the youth in this community. A video of the camp, for ages 7 to 17, was shown, and Mr. Collins stated that along with himself, there will be professors from TCU participating by sharing with the young men and women. This camp will be offered June 26-29th at no cost to the participants. Board members thanked them for what they are doing for the community.

Announcement of Adoption of 2019 Millages. Chief Financial Officer Jeff Howard announced the CPSB will adopt the 2019 property tax millages at the May meeting.

AMI Kids. Gwendolyn Hamilton, principal of AMI Kids, discussed the program at the AMI Kids Charter School. Mrs. Hamilton stated she is very proud of the partnership with the Caddo School District, having served and helped 1,000 plus at-risk youth over the past three years. They have provided individualized programs for much needed mental and behavior health counseling, as well as continuing their educational requirements. Mrs. Hamilton said the partnership began in 2016, and serves as an alternative setting for grades 6-8, expulsion students and Choice students (those who have served their tenure as an expulsion student). She said the program is founded on the belief that all children have the potential to change and succeed in life, especially when they are given proper direction and support. She shared her story and how she could have been an at-risk student if it were not for her grandmother, her community and her school investing in her and her future; and she is grateful to be an advocate for AMI Kids and a role model for the population she serves each day. With AMI Kids addressing many needs of its students and working with at-risk kids, she said they are now seeking to obtain Lakeshore Middle School as a facility that will support some of their students, including a gymnasium to support extra-curricular activities and a library.

Dr. Douzart stated in hearing her say she was trying to move into Lakeshore, she asked what was happening at Lakeshore this afternoon, because she believes if it was a tour of the facility, she should have been included. Mrs. Trammel announced that she will refer this matter to staff.

Dr. Goree explained the parent company and the CPSB entered into an agreement, and representatives toured the facility as a possible option for meeting the needs of their program. He further explained that AMI Kids has for two years requested a facility that would provide them with more amenities consistent to what is offered to all Caddo middle school students. Dr. Douzart thanked Dr. Goree for this information; and added it only looks like since she lives in this district, she should have been included in this tour. She also said that on Monday the process of receiving community input was taking place, and the community was against it, so she questions how this happened so quickly when we were in the midst of preparing to vote on it. Dr. Goree explained that tours of the District's vacant facilities are conducted on a daily basis, and we have never involved Board members in that process which is day-to-day business. He said several visits have taken place at Lakeshore, M. J. Moore, etc., and, again, this happens on a regular basis. Dr. Douzart again thanked Dr. Goree as well as Ms. Hamilton for sharing about AMI Kids.

Mr. Thompson stated he has been a big proponent of making sure we do not have vacant schools in the community; and he applauds and celebrates with Dr. Goree

that we will have someone in Lakeshore even though he hates to hear that Hillsdale is going off-line, as he does not believe we can afford to have vacant schools in the District. Mr. Thompson also shared his story about being brought up in a foster home and wished Ms. Hamilton success in this program to help students.

Mrs. Bell shared she has spoken with AMI Kids' students; and while she is not a proponent of charter schools, she supported this two years ago to support students who may need a second or third chance to be successful. She said she desires to keep as many students as possible off the street.

Mr. Rachal asked about the AMI Kids success rate in re-entering students back into the regular classroom. Ms. Hamilton explained that the current population is 204, and 73% of these students are at AMI Kids by choice. Twenty-seven percent of those students are under expulsion. In the 73% at AMI by choice, Ms. Hamilton said that this is because the parents decided they like what is being done at AMI and would like for their students to stay at AMI. Mr. Rachal also asked if AMI is not just working hand-in-hand with the school system but also the Juvenile Justice Program; and Dr. Goree said that is correct. He further stated when entering into the 2016 agreement, it created the possibility of the judges, when appropriate, to assign this as a placement for students. Also, Caddo uses it for state mandate expulsion as well as over-age middle school students in a quality setting and the opportunity to catch up with students of their own age. Dr. Goree reiterated this is a partnership the School Board entered into in 2016 and the District has worked closely with Mrs. Hamilton, as well as Dr. Swagger, and this charter has been a successful in providing an alternative for Caddo's students who may not make it without the opportunity.

Mr. Rachal asked about the possibility of a statement from Ted Cox, and Mr. Cox shared how successful the AMI program here has been, and he encouraged those who have not visited AMI to do so and see first-hand what is being done to help students and to keep students out of the juvenile justice system. Mr. Rachal added that he would like to see an update on the numbers supporting this success. Mr. Walker responded that he will provide the numbers, and he reiterated that Ms. Hamilton's report that 73% of the 204 students are there by choice is a phenomenal statistic when they have finished their time but choose to stay at AMI.

Ms. Green asked for clarification on the previously reported 40 kids, and Dr. Goree responded that was Alexander Learning Center.

Dr. Douzart stated that MFP pays anywhere from \$5,000 to \$13,000 per student attending school, depending on the number of students and the special needs; but it costs \$33,000 in Federal funds to keep a person in prison. Dr. Goree confirmed she was correct and MFP amounts depend on special services the students receive, i.e. students in MR status may receive as much as \$13,000.

President Trammel recognized Judge Ree Casey-Jones in the audience, AMI board members; and, Ms. McGehee with Human Trafficking Awareness.

ESTABLISH THE AGENDA FOR THE APRIL 16, 2019 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration at its meeting on April 16, 2019 and discussion followed.

Mrs. Bell requested that "Extension of Current Dental Contract" be added.

Purchasing and Capital Projects/Construction Bids. Mr. Rachal asked for clarification of "mirroring devices". Lisa Lloyd and Brandi Blanchard explained that these devices attach to a display (TV, computer screen, smartboard, etc.) and using any tablet, iPad, computer, one can instantly mirror what is on it and interact with it, students, teachers, etc. Board members asked for clarification as to the number, and it was explained that the plan is to start with approximately 40 devices and add to that number over the next three years. Mr. Rachal also requested that the budgeted amount for the larger capital projects be included in the initial correspondence at the beginning of the bid process.

Consideration of Moving CPSB Approved Type 1 Charter AMI Kids to Lakeshore Campus. Ms. Green stated she understands this campus is in Dr. Douzart's district and that each district has a captain who represents someone; and because the Board has said it listens to the community, she is interested in hearing from Dr. Douzart about what the Lakeshore community has to say about this.

Consideration of Resolution in Support of the Proposed MFP by BESE for the Upcoming Legislative Session. Ms. Green asked if this is what was discussed at the LSBA Conference in Lake Charles, and President Trammel confirmed it is.

Consideration of Policy Regarding Human Trafficking Awareness and Training. Mrs. Bell stated that human trafficking is very bad and she only wants to make sure every employee that comes in contact with students will be trained, and the proposed policy addresses this. Ms. Trammel reminded Mrs. Bell that Board members are also to be included in this training, and Mr. Abrams said he will add that any Board member choosing to participate in the training will be allowed to do so. Ms. McGehee stated her appreciation to the CPSB for considering this required training for all employees, as it is important for teachers, bus drivers, cafeteria workers, et.al., to be trained in awareness to be able to recognize human trafficking. She said this only adds to the amazing work the school system is doing already in trauma, because catching trauma early in childhood may help prevent a child from becoming involved in human trafficking. She announced the FREE Coalition has a training team ready to go and will provide the training to the school system without any cost to the District. Mr. Rachal asked about the name FREE Coalition, and clarification that there is no cost to the System. Mr. Abrams said this is only saying the Board requires every employee with direct access to children to be trained in human trafficking and awareness. Ms. McGehee also shared that the community partners are volunteers who train with them and then in turn give their time. Ms. Green complimented Mrs. Bell for her involvement in bringing this forward and she stated teachers have contacted her about the training being mandatory. Dr. Goree responded it is a mandatory training; and while he understands the many mandatory things of teachers, staff will look at what can be removed when adding additional training.

Consideration of Placing preK Programs at Lakeshore Campus. Dr. Douzart announced she will provide the information; and upon agreement for someone to look into this possibility, President Trammel announced she is referring this to the Long-Term Planning & Development Committee to provide Dr. Douzart with information as to cost, etc. Mr. Thompson stated while he wants a preK program, and for AMI Kids to have what is needed to be successful, he will follow up with Dr. Douzart. Dr. Goree stated additional preK centers were discussed at the last Long-Term Planning & Development Committee meeting; and the only issue with Lakeshore is the need to reconstruct restrooms per classroom.

PRESENTATION OF PROPOSED AGENDA AND CONSENT AGENDA

President Trammel announced the following items as the consent agenda: 8.02-8.03, 8.05-8.10, and 13.01 (parents in agreement). *Mr. Rachal moved, seconded by Ms. Green, to approve the proposed agenda and consent agenda for the April 16, 2019 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following guests addressed the Board on items for the April 16th CPSB meeting: Curtis Hooks, opposed to AMI Kids being at Lakeshore; and Brenda O’Brock, opposed to AMI Kids being at Lakeshore and other non-performing programs.

ANNOUNCEMENTS

Ms. Green thanked Superintendent Goree for holding the community meeting on the AMI Kids program moving to Lakeshore.

Dr. Douzart announced that Grandparents Day is April 20th and CPSB preciously adopted a proclamation. She asked staff to see that all schools receive a copy of the proclamation and celebrate however they choose to do so.

Mr. Nations expressed his appreciation for the opportunity to attend the National School Boards Annual Conference in Philadelphia. He noted the many work sessions offered, and he looks forward to using what he learned to hopefully become a better Board member. Mr. Thompson echoed Mr. Nations comments about this opportunity as he too attended this conference.

Mrs. Bell announced today is Autism Awareness Day and encouraged others to remember these children.

Adjournment. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:10 p.m.*

**April 16, 2019
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, John Albritton, Dottie Bell, Don Little, Lloyd Thompson and Tony Nations. Also present were Superintendent Lamar Goree and Board Counsel Reggie Abrams.

President Trammel called the meeting to order at 4:30 p.m. and a quorum was present. Board Member Don Little led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MARCH 19, 2019 AND APRIL 2, 2019 CPSB MEETINGS

On motion by Mrs. Locke, second by Mr. Rachal, the minutes of the March 19, 2019 and April 2, 2019 were approved as submitted in the electronic mailout.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

2019 Cora M Allen Essay Winners. The following 8th grade Caddo students were recognized as winners in the 2019 Cora M Allen Essay Contest: Nhi Dao, Evan Johnson, Olivia Lawhead, and Jazmyn Mason, all from Caddo Middle Magnet. Members of the Shreveport Mayor's Women's Commission present were Ms. Lueburda Myers, essay contest chairman; and Ms. Teresa Jacobs, president.

LHSAA District 5A Girls Basketball Champions. The Captain Shreve Lady Gators were recognized as the 2019 LHSAA District 5A Girls Basketball Champions.

2019 Amazing Shake Winners. The following students were recognized as winners in the 2019 Amazing Shake Program: Tiana Barnes, Atkins Elementary; D'John Thomas, Booker T. Washington High School; Ashley Dubon, Caddo Heights Elementary; Jonnisha Williams, Caddo Middle Career & Technology; Ezra Scott, Fair Park Middle; Kambria Clark, J.S. Clark Elementary; Jessica Henderson, Midway Elementary; Mikayla Jackson, Mooretown Elementary; Payton Calvin, Oak Park Elementary; Kabria White, Queensborough Elementary; Haley Miles, Sunset Acres Elementary; Noah Hearod, Werner Park Elementary; Jaedon Stewart, Westwood Elementary; and Jasmine Small, Woodlawn Leadership Academy. Each student won a trip to Washington, D.C. with the superintendent, provided through the generous donations of Caddo's community partners.

Mrs. Wood also recognized the Simple Church who is present to take the students to Academy to purchase each a new pair of shoes and host a pizza party for the winners and their families.

2019 Ivan Smith Family Fun Grant Winners. The following teachers/schools were recognized as winners of 2019 Ivan Smith Grants: Lynn Gardner, Westwood Elementary, \$2500 school grant and \$500; Amy Davis-Turner, Werner Park Elementary, \$500; Penne Brown, Midway Elementary, \$500; and Sandra Jarrell, \$500. Mrs. Wood asked Ms. Jarrell to share how she would use her \$500, and she said to give a \$25 gift card to any student scoring mastery on the LEAP.

Newly Appointed Administrators. Al Graham, director of classified personnel, introduced the newly appointed administrators: Krystle Grindley, public information specialist in the Communications Department; and Jeff Howard, chief financial officer.

VISITORS

The following visitors addressed the Board on matters of concern/interest: Jackie Lansdale, president, Red River United, May 4 bond renewal, 16th Most Improved Student Celebration on April 29th; Shelia Crosby Wimberly, questions re: AMIKids relocation to Lakeshore campus; Jerry Malveaux, opposed to relocation of AMIKids to Lakeshore campus; Bobby T. Henderson, supports relocation of AMIKids to Lakeshore campus; and Jacqueline Miller, special education extended school year.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA FOR THE APRIL 16, 2019 CPSB MEETING

Superintendent Goree highlighted items for the Board's consideration, and President Trammel announced the following as the consent agenda: Items 6.01-7.02, 8.02-8.03,

8.05, 8.07-8.09 and 13.01. *Mr. Rachal moved, seconded by Mrs. Bell, to establish the agenda and the proposed consent agenda for the April 16, 2019 CPSB meeting as presented. Vote on the motion carried.*

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

- 6.01 Personnel Recommendations. The Board approved the personnel recommendation submitted by the superintendent in the electronic mailout.
- 6.02 Consideration of Personnel Transactions (Resignations). The Board approved personnel transactions reports (resignations) as recommended by staff and submitted in the electronic mailout.
- 6.03 Consideration of Administrative Contract Renewals. The Board approved administrative contract renewal(s) as recommended by staff and submitted in the electronic mailout.
- 6.04 Consideration of Requests for Leaves. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

- 7.01 Consideration of Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets. (1) Vivi, LLC for the purchase of Mirroring Devices; (2) Foodway for purchases of Canned and Frozen Foods; Foodway for purchase of Fish, Poultry, Eggs, Meat and Specialty; and (4) Carefree and VCC for purchase of Food Service Paper and Supplies. *Bid tabulation sheets are filed in the official papers of the April 16, 2019 meeting.*
- 7.02 Capital Projects/Construction Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) FitzGerald Contractors, LLC, with a Base Bid, for the sum total of \$120,000.00 for Project 2020-316, "Caddo Middle Magnet Replace A/C Office, Café & Dining"; (2) The Payne Company, with a Base Bid, for the sum total of \$266,000.00 for Project 2020-311, "Captain Shreve Install Redundant Chiller"; (3) Terry's Roofing & Metal, with a Base Bid for the sum total of \$414,940.00 for Project 2020-233, "E.B. Williams Stoner Hill Roof"; and (4) Eagle A/C & Home Improvements, with a Base Bid, Alternate 1, Alternate 2 and Alternate 3, for the sum total of \$432,460.00 for Project 2020-315, "Caddo Magnet High Replace A/C C-Wing, D-Wing & Miscellaneous Areas". *Bid tabulation sheets are filed in the official papers of the April 16, 2019 CPSB meeting.*

- 8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.
- 8.03 Battle on the Border High School Football Showcase.- Cooperative Endeavor Agreement (Byrd HS, Captain Shreve HS, Woodlawn HS). The Board approved the cooperative endeavor agreement for Byrd High School, Captain Shreve High School, and Woodlawn High School for the Battle on the Border High School Football Showcase as recommended by staff and submitted in the mailout.
- 8.05 Consideration of Resolution in Support of the Proposed MFP by BESE for the Upcoming Legislative Session. The Board approved the resolution supporting the proposed MFP by BESE for the upcoming Legislative Session as submitted in the electronic mailout.
- 8.07 Consideration of Department of Exceptional Children Interagency Agreements and Contracts. The Board approved interagency agreements and contracts for remainder of 2018-19 school year and 2019-2020 school year between the CPSB Department of Exceptional Children and Bossier Parish Community College and Louisiana Association for the Blind for transition services to prepare students with disability for workforce employment.
- 8.08 Consideration of Resolution of Continued Employment. The Board approved the resolution of continued employment as recommended by staff and submitted in the electronic mailout.
- 8.09 Extension of Current Approved Dental Contract. The Board approved extension of the current one-year approved dental contract to two years as recommended by the Insurance and Finance Committee and submitted in the electronic mailout.

- 13.01 Student Readmission Appeal Hearings. The Board approved staff's recommendation for readmission appeals for students JD, DJ and KY as submitted in the electronic mailout and whose parents are in agreement.

PROPERTY/BUS RENTAL REQUESTS

Mr. Rachal moved, seconded by Mrs. Locke, to approve requests for use of Caddo Parish School Board property or buses as recommended by staff and submitted in the electronic mailout. Vote on the motion carried with Board Member Trammel abstaining.

CONSIDERATION OF MOVING CPSB-APPROVED TYPE I CHARTER AMIKIDS TO LAKESHORE CAMPUS

The following visitors addressed the Board on this item: Curtis Hooks, opposed to the relocation of AMIKids to the Lakeshore campus; Brenda O'Brock, opposed to AMIKids being at Lakeshore campus; and Gwendolyn Hamilton, principal at AMIKids in support of the program being at Lakeshore. Two parents/guardians of an AMIKids student shared their positive experience at AMIKids Caddo.

Mrs. Bell moved, seconded by Mr. Riall, to approve the move of the CPSB-approved Type I Charter AMIKids to the Lakeshore campus as recommended by staff and submitted in the electronic mailout. Mrs. Bell stated she was elected to the Board to take care of the children and encouraged the Board to support giving these children a second chance. She noted that of the 200 students at the AMIKids campus, grades 6-8, many of them overage, 74 live in the Lakeshore area, and the remainder of the 200 are from other schools throughout the parish. She stressed the importance of providing needed space for offering courses (i.e. welding) for the students, as well as space adequate for middle school and older students as opposed to a facility built for elementary children. As the Board is elected to take care of all the children in Caddo Parish, she supports moving AMIKids to the Lakeshore campus and begin changing students' lives. Mr. Riall said he seconded the motion because he believes it is the job of the School Board to educate children.

Mr. Thompson moved, seconded by Ms. Green, to postpone until the next meeting. Mr. Thompson stated that as a Board member he would like to postpone this item to allow him time to review the 32-page document received today, as well as to hear from the parents and community about their concerns. He referenced addressing the Board two years ago regarding Magnolia School of Excellence, a failing school; and AMIKids has been a failing school for two years in a row. He stressed that he wants to do the right thing for all children so all children get a great education.

Ms. Green said she seconded the motion because she received calls from the community, and she remembers being told a few months ago that she needed to get with the community. Ms. Green said she believes now we need to make sure that AMIKids is wanted and that the children are accepted in that community. She also said staff makes recommendations to the Board, but staff does not live in that community; and postponing until the next meeting will allow time to get on the same page before next school year and for Dr. Douzart to meet with her community.

Mr. Rachal moved, seconded by Mr. Riall, to call for the question on the substitute motion. Vote on the motion to end debate on the substitute motion carried with Board Members J Green, Thompson and Nations opposed.

Vote on the substitute motion to postpone to the next meeting failed with Board Members J Green, Thompson, Little, Douzart, R Green, and Nations supporting the motion and Board Members Riall, Trammel, Locke, Rachal, Albritton and Bell opposed.

Don Little shared why he was opposed to the relocation of AMIKids - security, performance, fiscal responsibility and the lack of community support. He had the opportunity to review the report received today, as well as visit the Lakeshore and the AMIKids program. He said his visit was a surprise visit, and he takes exception to the words used today to describe these kids as criminals because they are created in the image of God and they all are entitled to a second, third and fourth chance. Many of the children at AMIKids are there by choice and he could not hear a pin drop when he visited what he observed to be a clean, safe, respectful, orderly program. He said he doesn't know what alternative will be available if we do not have this alternative. While he believed Lakeshore was too big for the AMIKids program, he believes revisions can be made to address those concerns. He said AMIKids is very well run and the same would be retrofitted into the new location.

Dr. Douzart said that anytime she speaks representing her district, she is speaking for her constituents. She said one day of a visit cannot tell the story; and from her experience at AMIKids last year and two years before, and one visit this year, where she saw the military regiment, doesn't mean they didn't have a show for her. Dr. Douzart said she has been a teacher in a charter school and she doesn't discuss how she is going to vote with anyone. She said she remembers the young lady asking her about a vote and she told her she could not speak for herself, and she loves and is pleased with the children, but she is speaking for her community and was not satisfied with the April 1st community meeting held; and following the Board meeting on April 2nd, she was at AMIKids on April 3rd. She reiterated that one can go into a classroom or situation two or three times and it will not be the real story of what is really going on. Dr. Douzart said she taught gym more than anything else; and she knows that a gymnasium is not going to be the answer for what AMIKids is about. The main quest is they need a gymnasium; and based on the scores she saw April 2nd, they have made an F for three consecutive years; and in those three consecutive years, they had 30 offense records, most people call them criminal records, downtown at the Shreveport Police Department. Mrs. Locke called for a point of order and President Trammel noted that we do not label the children. Dr. Douzart said she is glad we have a hard-working juvenile court system, but the AMI system is missing a piece of the puzzle. She believes they will find a solution and the missing piece to the puzzle. She believes in giving first, second and third chances, and forgiveness, but she does not believe in rewards for punishment. She asked why should Caddo provide luxury for problematic students when there are regular students in Caddo that do not get into trouble and they do not receive the luxuries. Also, it appears AMIKids' numbers should be decreasing rather than increasing their number of eligible students and she questions why we should make it easy for them by providing them with a better facility, because this will not resolve the problem of making all Fs. Dr. Douzart said she does not know anyone who wants AMIKids in their community and asks if we are defeating our purpose. In speaking of the need for a gym, the building AMIKids currently occupies is o.k., and is located in an isolated area where they can play outside if they need physical activity; if they can play 15 minutes without fighting, arguing or destroying something. She stated they have a short attention span, not wanting to walk or run.

Several Board members called for a point of order, and President Trammel stated there are 39,000 children in the Caddo Parish School System, and the School Board is responsible for taking care of all 39,000 children in the District. She said if a student attends a school for several weeks, months, you cannot calculate their scores because they are in transit for a short period of time. She said she will not

talk about one child in the School District because every child in the District is unique and everyone will make mistakes, but it is the responsibility of this School Board to make sure we try to hinder and cull the mistakes so children have the chances they need. She visited AMI and Lakeshore; and the school where the children are currently located is not the facility they should have been placed in, but at the time it was a vacant building that was off-line and this needs to be fixed. She understood every child received notification via JPAM to notify their parents about the meeting for resource information; and now she understands the area is mostly senior residents and other avenues of notification should have been used; however, saying anything about the children is unacceptable.

Mr. Nations shared that he is torn in making a decision because he is concerned and is disappointed the vote was not postponed for more study. He said for those against it, it is his opinion that very scant reasons were given as to why it is such a bad idea. The performance scores are a concern; and while he is a believer in following the rules, he also believes in second and third chances. He also received the 32-page document today and with his hospital schedule, he did not have time to read it and he does need more time to study it. It is because of these concerns he is torn as to how to vote on this.

Mrs. Bell stated she admires one of her constituents for coming forward and for the three questions she asked. She responded that this meeting was known about before Spring Break and even though the School Board did due diligence, she did not rely on this but she will call a meeting and will let the people know about the meeting. As a Board member, she believes it is her responsibility to make sure the word gets out to the community. She also stated her agreement with the mistake in putting AMIKids at the Hillsdale facility, but we can correct it; and that is by moving them to a different place where they can receive additional opportunities, i.e. vocational program. As School Board members, it is the responsibility of the Board to make sure students receive the best education possible and encouraged the Board to support AMIKids relocating to the Lakeshore campus.

Mr. Riall moved, seconded by Mr. Albritton, to call for the question. Vote on the motion to end debate carried with Board Members J Green and Thompson opposed.

Vote on the main motion carried with Board members Riall, Little, Trammel, R Green, Locke, Rachal, Albritton and Bell supporting the motion and Board Members J Green, Thompson and Douzart opposed. Board member Nations abstained.

CONSIDERATION OF POLICY REGARDING HUMAN TRAFFICKING AWARENESS AND TRAINING

Mrs. Bell moved, seconded by Mr. Rachal, to approve the proposed policy regarding Human trafficking awareness and training as submitted in the electronic mailout. Ms. Green asked Mr. Abrams about the wording "direct access" and if it is mandated. Mr. Abrams responded it is. Regarding verbiage that "school board members may", Mr. Abrams explained this means Board Members may attend the training if they so wish. She asked about the mandate for employees to attend, and Mr. Abrams said that is correct and is what the Board asked for. Ms. Green asked if she remembered correctly that the superintendent stated if this were added, he would take something out. Dr. Goree said he understands, and explained staff is working with the academic division on something to be submitted to the Board relative to alternative ways to address this without adding another training for teachers. He said they will look at adding this training to already scheduled planning/cluster/professional development times within the school year and not add another separate training. Ms. Green also asked if she understands this mandatory training is every two years and not every year, and Dr. Goree confirmed that is correct. Vote on the motion carried with Dr. Douzart opposed.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that the Huntington High School 9th Grade Social Studies Group won 2nd Place at State, and Caddo Magnet High School 11th and 12th graders won 1st place. These two groups will represent the State of Louisiana when they travel and compete in Washington, D.C.

Ms. Green noted the upcoming graduations; and relative to the AMIKids matter, she encouraged making sure the community is assured of their safety in this move. She also stated she is about all children learning, and all children having a great and quality education.

Mr. Albritton encouraged Board Members to attend ArtBreak, a premier event where they will see students highlighted and rewarded for their work.

Mr. Rachal reminded the Board Members that Caddo Career & Technology Foundation will award 37 scholarships at its annual banquet on Thursday, April 18th at the Career Center.

Mr. Green recognized Midway Elementary and the students for having such a groomed, immaculate campus.

Dr. Douzart announced that she knows every child can learn and all children can achieve and make better than an F, and this battle cry for help is coming back up again.

Mr. Thompson announced that his "no" vote was not against the children, but for not having the opportunity to read the documents.

Mr. Nations said despite Mr. Rachal's plea to attend the Caddo Career & Technology Foundation's scholarship banquet, he has a conflict and will not be able to attend. He also announced that on Friday,

April 26th, Concert in the Courtyard will be held at Southwood High School, 6-7:30 p.m. The band will also perform on Saturday morning, April 27th, at Music in the Park, Southern Hills Park on Bert Kouns.

Superintendent Goree thanked the Caddo Parish Magnet High PTSA for the opportunity to attend their unique Teacher Appreciation luncheon at the Caddo Career Center. Dr. Goree also reminded everyone that April is National Autism Month.

EXECUTIVE SESSION

Student Readmission Appeal Hearing. *Mr. Rachal moved, seconded by Mrs. Locke, to go into executive session for the purpose of hearing a readmission appeal for student PS for up to 15 minutes. Vote on the motion carried and the Board went into executive session at approximately 6:34 p.m. The Board reconvened into open session at approximately 7:27 p.m.*

Mr. Rachal moved, seconded by Mrs. Locke, to uphold staff's recommendation for expulsion for student PS. Vote on the motion carried with Board Members J Green and Thompson opposed and Board Member Douzart abstained.

Adjournment. *Mr. Rachal moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:30 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

May 7, 2019
CPSB Audit Committee Meeting

Members present: John Albritton, chair; Denee' Locke, Don Little, Raymond Green, Dr. Bonita Douzart; and Superintendent Lamar Goree and Board Attorney Reggie Abrams. Also present were Steve Riall, Lloyd Thompson, Mary Trammel, Jasmine Green, Barry Rachal, Tony Nations, and Dottie Bell, as well as staff members Jeff Howard, James Woolfolk, Keith Burton and Randy Watson.

Chair Albritton called the Audit Committee meeting to order at approximately 3:37 p.m. The Invocation and Pledge of Allegiance were omitted.

Establish and Confirm the Agenda. *On motion by Mr. Green, second by Mrs. Locke, and carried, the committee established and confirmed the agenda as presented.*

Proposed Revisions to CPSB Policies DID and DIDA. As discussed at the previous meeting, Chair Albritton shared with the committee the proposed revisions on page 2 of the Internal Auditing policy. These revisions address the concerns expressed and the need to tighten up on follow ups to audits and status of recommended corrective actions being implemented. The proposed revisions include quarterly committee meetings, internal audits being a part of performance evaluations, and the Superintendent's authority to hold people accountable and to discipline employees failing to respond to the corrective actions agreed upon by management. He reminded the committee that audits pointed out that where management agreed to the recommendations for corrective action, no action was being taken. He also added that under policy, a timeline is expected as well as that the timeline be followed and met.

Mr. Thompson asked about the audit guidelines in place, and Mr. Howard responded they do routine follow ups as well as quarterly summaries, which are a part of the principal's evaluation. Mr. Albritton reminded committee members that this is not just school sites, but audits of all departments within the Central Office. Mr. Nations asked about the revisions and how it changes from the original policy, and Mr. Abrams explained the proposed revisions are being made as a result of the committee's discussion on internal audits and the need to make a stronger statement about the Superintendent's authority in policy to discipline employees who fail to respond and implement corrective actions. Mr. Nations asked if he understands correctly that this is a pro-active inclusion rather than a reactive conclusion. Mr. Abrams responded that in actuality it is a reactive one because the committee talked about the fact that audits were done, but the recommended corrective actions were not followed through, and there was no consequence when staff did not follow through with implementing the corrective actions. Dr. Goree added that while the school audits have always worked well, when departmental audits began, it was a new process; but staff welcomes the accountability and will begin to regularly meet with the committee to provide an update/follow up on these audits.

Mr. Rachal inquired about the authority section and who the authority is given to and who the audits are presented to. Mr. Abrams responded that the Board has a policy and these are only changes to clarify the Superintendent's authority to hold employees accountable and discipline employees when needed as a result of not following through on needed corrective actions in departments. Ms. Trammel reminded those present that it is the Board's responsibility to hold the Superintendent accountable for the employees' actions. Mr. Rachal inquired about the Board at one time receiving monthly financial reports, and Mr. Howard stated that Mrs. Bell announced at the Insurance and Finance Committee meeting they would begin holding meetings every two months to get financial updates.

Mr. Green moved, seconded by Mrs. Locke, that the committee accept and recommend approval of the proposed revisions presented to the Board for action at the next board meeting. Vote on the motion carried.

ADJOURNMENT

There being no additional business, *Mr. Little moved, seconded by Mrs. Locke, to adjourn. Vote on the motion carried* and the meeting adjourned at approximately 3:55 p.m.

May 7, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. Dr. Bonita Douzart led the invocation and Pledge of Allegiance.

PRESENTATIONS

Mary Nash-Wood, director of Communications and Strategic Initiatives, recognized the C. E. Byrd High School's Girls' Golf Team as the LHSAA Division I champions, as well as the Byrd Boys' Golf Team as the Division I, LHSAA All-State Sugar Bowl state golf champions. Head coach for both teams is Meredith Duncan and principal is Jerry Badgley.

Dr. Goree recognized Cindy Lezenski, a member of his Broad fellowship. Ms. Lezenski is the head of financial management and comptroller for Air Force Global Strike Command at Barksdale Air Force Base.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE MAY 21, 2019 MEETING

Superintendent Lamar Goree highlighted the items for the Board member's consideration at its meeting on May 21, 2019 and the following discussion ensued.

To consider and take action with respect to adopting a resolution authorizing the advertising for bids for the purchase of General Obligation School Bonds, Series 2019. Mrs. Locke asked for an explanation of 8.04 and 8.05; and Mr. Howard explained that 8.04 is only to canvass the returns of the May 4th election and Mr. Grant Schleuter will be here that day. Item 8.05 is for advertising for bids for the sale of bonds which is required by State Law and the State Bond Commission.

Ms. Green asked if she understands correctly that this is required by state law, and Mr. Howard confirmed it is in announcing the results of the election.

Caddo-Shreveport Sales and Use Tax Commission Budgets. Ms. Green asked staff to provide an explanation for this agenda item, and Mr. Howard explained the Caddo Sales and Use Tax Commission is a joint operation between the School Board and the City, and they collect all sales taxes and submit them to the District. Mr. Riall asked if the Sheriff's Office collects all of Caddo's taxes, and Mr. Howard explained they collect the District's property taxes. He further asked about the proposal currently at the state and are they wanting to collect all the taxes. Mr. Howard agreed and if the proposal currently at the state level passes, this will go away.

Consideration of Change in Board Meeting Dates. Dr. Goree explained the office went through next year's school calendar to determine if any regular scheduled Board meeting fell within a scheduled holiday or professional development day, and staff is bringing alternative dates where there was a conflict. Mrs. Locke asked about this being a common occurrence, especially with the July date, and the need for the public to know when Board meetings will be held. Dr. Goree explained that in the past, staff has looked at the calendar at six months at a time; however, at this time, staff looked at the school calendar through the end of the 2019-20 school year to see where any conflicts may be and these are the ones being presented for the Board's consideration. The goal is to stick with the first and third Tuesday as specified in policy.

Consideration of Additional Mental Health Interagency Contract. Ms. Green stated the Board has approved several agencies and asked if they are helping in the schools. Dr. Goree responded absolutely and in looking at the trauma in force training that helps identify and service the whole children, it is very helpful. He added that Dr. White has criteria to make sure the organizations going into the schools are truly vetted and are providing quality services to Caddo children. He added that several schools have provided space where there is an on-going continuation of services within the school. Ms. Green asked if they are spread across the District equally, and Dr. Goree said they are and there are ample agencies in the

city to do so. Ms. Green asked if the District is paying for these services, and the Superintendent explained these are mostly Medicare reimbursements, so there is no direct cost from the District's General Fund budget. Mr. Abrams added that the law requires us to provide an opportunity for mental health counselors to be at the facilities. Ms. Green asked for a list of the mental health agencies approved for use in the parish.

Mr. Thompson stated that he visited with Dr. White about his concerns over the number of mental health agencies in the community being used in the schools and if they are doing what they should to help our students. Dr. Goree stated there was a concern last year and a decision was made to pull all agencies out of the schools; and at that time, the District worked with some community groups to develop the criteria to make sure we only place agencies in the schools that meet the criteria.

Consideration of Ombudsman Contract. Ms. Green asked about the last contract with Ombudsman, and Mr. Woolfolk responded it was in 2016, and it was a three-year contract. Staff is recommending renewal of another three-year contract. Ms. Green asked about the Ombudsman locations, and Dr. Goree responded that from an economy perspective, and because we are not using this service as much as we once did, they are using only the site located at the Ingersoll campus. AMI will be housed at Lakeshore and will service middle school aged students. He added Ombudsman will now serve lower and higher grade expulsions, with the campus being divided so there is no possibility of these students interacting in any way. Also, to the credit of the School Board, the School System and the schools, we have been able to reduce services to the point that these changes can be made without any additional cost to the District. Ms. Green asked if the \$3 million has been reduced, and Dr. Goree explained the amount remains the same since they have added the lower grade program. He also said in these programs/contracts, there is a set amount of cost whether the District uses all the allotted seats or not. Ms. Green asked about the campus configuration for the AMI program and Dr. Goree explained how staff is able to divide the school based on its configuration. Mr. Riall asked how many students will be on the campus and Mr. Woolfolk stated there are approximately 171 at Ombudsman and approximately 200-210 at AMI. Mr. Riall asked if the numbers are the same as when the District used Hosston, Hamilton Terrace, etc. for alternative programs, and the Superintendent said there has been a drastic increase.

Mrs. Bell announced that on Wednesday, May 8th, they will hold their graduation, and in talking with the President of Southern University, they will begin to offer Dual Enrollment to the seniors next year.

Revisions to Policy GAHB Political Activities. Mr. Little explained the Board currently has a policy that addresses political activities, and this will add an enforcement component to that policy. The proposed change will not be retroactive and the goal would be to avoid the appearance of election rigging, intimidation, as well as protect the sovereignty of the conscious of individual employees. Ms. Trammel explained that generally when addressing any Section G (Employee) policies, these are passed through a meeting with the Superintendent and the employee groups; and with his approval, she would like to refer this request to the Superintendent to follow this process, and Mr. Little responded as a courtesy, he agreed. Dr. Goree asked about the proposed verbiage relative to using public funds *to urge a particular vote* and for clarity if the intent is *for or against*, and Mr. Little clarified the *intent is for or against* and that no one can abuse the authority they have in a position to encourage co-workers or direct reports to vote in a particular manner. Dr. Goree stated the meeting with the employee organizations is held the first Monday of the month and the next meeting will be June 3rd, and the item placed on the June 18th meeting agenda. Mr. Riall asked if Mr. Abrams has reviewed the proposed revisions, and Mr. Little responded he has. Mr. Abrams pointed out that in stating "the use of public funds to urge a particular vote", that does not necessarily mean a vote on school board matters but State Statutes addresses not using public funds period to urge anything and cited examples for clarification. Mr. Riall asked that Mr. Abrams be included in the process.

President Trammel announced the following items as the consent agenda: 7.01-7.02, 8.01, 8.03-8.04, and 8.06-8.10. *Ms. Green moved, seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the May 21, 2019 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following visitors addressed the Board: Ken Antee, Item 8.05 advertising for bids for GO School Bonds.

ANNOUNCEMENTS

Mr. Thompson noted his concern that visitor comments do not appear in the minutes and he would like to know why and how this can be corrected. Mr. Abrams explained that we do not maintain a verbatim recording of the minutes; however, the audio recordings are maintained and are available, which is in accordance with state law. He added to do verbatim minutes, which must be published in the Official Journal, is costly to the District; so the secretary keeps minutes in accordance with state law and the audio of Board meetings is available to anyone who wishes to hear them. Mr. Thompson said he notices what he says is in the minutes but not what the citizens say; and he believes it would be helpful to the Board members to be able to go back and see what the citizens expressed to the Board.

Mr. Riall reminded everyone that graduations are next week and asked Dr. Goree how many graduates does Caddo have this year.

Mrs. Bell asked everyone to keep the family of the Turner student in their prayers. Also, she announced there is a fund set up to help with funeral expenses.

Ms. Green shared her excitement about graduations and helping students celebrate. She also asked the Superintendent about presentations and recognitions and if there is a way to have a special day set aside for this. Dr. Goree stated it is believed doing this at the Board meeting, and first on the agenda, keeps the focus on the main thing and purpose which is the children. While at times this has been lengthy, he still believes this is a time to showcase our schools and celebrate all of our children. Ms. Trammel added that it has been done differently in the past; however, it was the Board that made the decision to keep it on the agenda and possibly limit recognitions to National, State and Regional and possibly schedule a separate date to recognize all others.

Mr. Rachal thanked Board members for attending the Caddo Career and Technology Foundation Scholarship awards, and he announced that 37 scholarships were awarded. Next year will be the 25th anniversary of this program and a goal has been set to award 50 scholarships. Mr. Rachal also requested a copy of the monthly reports from Cenergistic as are provided to staff.

Dr. Goree announced that he and Mr. Burton returned this morning from the 5th Amazing Shake trip to Washington, D.C. and expressed appreciation to the community for providing the funds through philanthropic actions to make this possible for the children in the Transformation Zone. He said the growth of this opportunity has been overwhelming and expressed his appreciation to staff and many others that continue to help make this happen. He also reminded everyone that graduation for Southwood is Tuesday at 6:30 p.m. and encouraged Board members to attend as many graduations as possible.

Adjournment. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:30 p.m.*

May 7, 2019
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Don Little, Steve Riall (arrived at approximately 3:10 p.m.), Raymond Green and Denee' Locke. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Mary Trammel, Lloyd Thompson, Jasmine Green, John Albritton, Barry Rachal, and Tony Nations; and staff members Jeff Howard, Keith Burton, Charles Lowder, James Woolfolk, Mary Wood and Randy Watson.

Mrs. Bell called the meeting to order at approximately 2:30 p.m. The Invocation and Pledge were led by Don Little.

Establish the Agenda as Submitted. *On motion by Raymond Green, second by Don Little, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Denee' Locke, second by Raymond Green, the agenda was confirmed as presented.*

Proposed Revisions to 2018-19 CPSB General Fund Budget. Superintendent announced that today staff will present information on proposed revisions to the current budget, some of which are coming from the Financial Department audit and how staff is addressing the issues noted, and this is something that is done at this time each year.

Jeff Howard, Chief Financial Officer, presented to the committee the recommended revisions to the 2018-19 General Fund budget; and he explained that each year staff looks at the large items in the budget (which were budgeted based on predictions) and makes proposed budget adjustments based on actual revenues and expenditures. He noted that sales tax revenue was above what was budgeted; however, MFP was less due to the fact that student count was down by 1,100 students. Staff is recommending that \$12 million be transferred from the IT reserves to keep the fund balance at \$3,094,000. He further explained that the IT reserve was established in 2007 with \$1 million and based on research of this fund, it was money set aside for technology; and in 2008, \$15.5 million was set aside in this fund with \$1 million in 2011 and \$1 million in 2012 being spent. He has talked with Sharon Golett and it was reported to him that there is nothing they will not be able to do if the money goes away, but it is a savings account. Mr. Howard also highlighted the expenditures from the 2018-19 General Fund budget including salaries, benefits, school resource officers, legal services, tax collection fees, maintenance, utilities, and Magnolia Charter, and explaining increased totals in each (with the exception of Magnolia Charter). Dr. Goree reiterated the increase in revenue as a result of an increase in sales; as well as why the decrease in MFP revenue from what was approved in the budget by the Board by budgeting for 1,100 more students than the actual number of students enrolled at the beginning of the school year which resulted in approximately \$5 million less in revenue from the state.

In looking at the IT reserve, he also stated it appears this was an account set up for future technology use as needed; and with the current Board showing an interest in technology, staff has made certain that adequate funds are allocated in these areas. Dr. Goree also stated that other than insurance, many of the amounts are normal amounts that staff proposes adjustments to during this time of the year. Since this has happened, he reassured the committee that some very aggressive, but conservative steps have been taken to address these situations and hopefully avoid them in the future. Staff is working to make sure staff projections are realistic and to stay within the staffing formula while still having the appropriate number of personnel in place.

Mr. Little inquired about the partnership with Cenergistic and how this program works. Mr. Howard explained that the savings is based on what we would have paid if they had not implemented the changes. Dr. Goree added that it is based on performance; however, their performance is not based on dollars and cents, but reducing energy usage by addressing the behavior of employees. He also stated that he would schedule Cenergistic to make a presentation to the Board. Dr. Goree also explained that prior to Cenergistic, the District employed someone to monitor the energy usage in all the buildings; however, as part of the agreement with Cenergistic, they did not allow us to keep that position and they hired four persons to work in the schools. Dr. Goree also commented on a recent grant the District received that will help to begin replacing energy saving equipment in all the high school gymnasiums, and they will be moving in that direction. Discussion also took place on the replacement and upgrades in lighting in the facilities and that staff will continue to look at the data in budgeting in this area in the future, and will present to the Board the numbers used to determine needed budget amounts for the next year.

Mrs. Locke asked if the discrepancy was determined in the external or internal audit; and staff responded it was during the internal audit. In response to the reported \$17 million

discrepancy, Mr. Howard responded he believes the estimation of the beginning balance should probably have been \$11 million rather than \$17 million; and Mrs. Locke noted the estimated amount last year at this time and the now projection of \$3 million, and how do we know that it wasn't correct before then. Mrs. Locke also asked about checks and balances in moving forward so we are sure everything is accurate; and Mr. Howard stated he and the Chair had discussed holding a regular committee meeting as well as providing the Board with a monthly statement. Dr. Goree said he asked the same question and shared how staff has looked at past reports and feel that the number was a bad number, but there is no explanation as to how the wrong number was plugged in; however, staff is looking at how they can bring more information to the Board in an understandable fashion; as well as holding more committee meetings to provide more information to the Board members. Mrs. Locke agreed that the Board needs to know, but questions how the Board will know it is correct. Mr. Howard stated that he believes the CFO in many ways operated on an island focusing on all the small things, and understanding now the magnitude of things he was doing, and those were things other personnel should have been doing, he had no time to take care of the big things. Mrs. Locke said she understands this is standard procedure, but these numbers are not standard, which is concerning. She also said she would be interested in knowing all the reserves in place, the balance of each and if they are earmarked for anything specific. Dr. Goree stated that in entering the budget process, all this information will be made available and noted that some of the things discussed will not go away in the next budget.

Ms. Trammel noted the Board's purpose is the budget and to hire a superintendent, but the Board has been left out of the budget process for 3 or 4 years, and she believes it necessary to go back a couple of years to fully understand what is going on with the budget. When we do, she questions how to move forward so that we do not find ourselves in the same situation. Dr. Goree responded that in looking at the big picture, the two things that matter the most are MFP was down by \$5 million and benefits was underestimated by \$7 million, which totals to \$12 million, and this speaks volumes as to where the deficit comes from. Mr. Howard reminded the committee that this was not a one-time issue, but an issue over the past 3-4 years. Mr. Little asked about the District's assets and the external audit's recommendation that the General Fund should not drop below 10% of the General Funds total expenditures; and the \$3 million is less than 10%. Dr. Goree clarified that is the undesignated part, and Mr. Howard explained the OPEB, CEEF, and reserve funds. Mr. Little stated his concern that as the expenditures increase and the enrollment decreases, there will be a point where the District reaches insolvency. Mr. Howard said the District has very little control in the revenues, but we can control the expenses; and while we will figure it out, it can't be done by tomorrow. Dr. Goree noted that in a school system there are only a few ways in which to save money, and that is through the big things, i.e. people and operations; and the Board will need to speak to and decide the direction it wishes to move in to close the gap. Of course, it is staff's responsibility to close this gap as much as possible, and it is staff's goal to bring the Board a budget with realistic numbers. In looking at the strategic plan process to get this to zero, he said there will be some tough decisions to be made.

Mr. Albritton asked about the IT reserves after the transfer, and Mr. Howard said there would still be approximately \$4.5 million. Mr. Howard further explained the amounts in each fund and Dr. Goree added the numbers were what was in the strategic plan; and while there are several philosophical ways in which to look at the designated and undesignated fund balances, several of the accounts (and millions of dollars) could be undesignated, but we have chosen not to do that.

Mr. Rachal noted the undesignated fund that came into existence approximately 10 years ago when the Board approved a one-time transfer of \$5 million in the OPEB fund to offset some of the required funding for retirees, and Dr. Goree stated there are only 2-3 districts in the State that use this money in this way. Most people are taking this money, since it was designed around deferring retirement costs, and putting it in their General Fund balance to defer that cost. He also added his understanding that it was a decision to offset future costs in unfunded liability which is approximately \$1 billion and we now have approximately \$20 million of that \$1 billion. Again, he stated that when staff brings the Board the budget for next year, part of the conversation will be how to use this fund in the future. Mr. Rachal inquired about the transfer of the \$12 million in the General Fund budget, and Mr. Howard explained it is for the current year and to have a balance of \$3 million. Dr. Goree noted for Mr. Rachal the two areas we went over (MFP revenue down by 1,100 students from what was presented in last year's budget and the over estimation in benefit costs as presented in the audit), which totaled the \$12 million.

Mrs. Locke asked for clarification and the District is still covering a very large percentage of the OPEB (unfunded liability), but it is not from that account. Dr. Goree stated that it is a pay as we go fund and it is being done from the General Fund. Mr. Watson explained that most employers pay as you go, but in 2008 when Districts had to begin accounting for it

(not funding it), and Caddo is one of the few parishes that decided to attempt to fund it and to do so through subsidies and non-General Fund sources.

Mrs. Bell stated that because of these issues, she believes it important that the Insurance and Finance Committee meet every two months to get more detailed updates on the budget. She also stated that relative to the reduced MFP revenue, she reminded the committee that every time Caddo loses a student, it loses the MFP amount for that student; and also the cost for benefits, etc. continues to increase. She feels the need to look back at everything over the past four years to determine what actually happened to get to this point. Ms. Trammel referenced the time under a prior superintendent when there was no money to do anything; and then there was money, which is confusing to her how this can happen without explanation. Dr. Goree said one thing noted is the under estimation of the decline and the impact of this decline on the school system. Also, the control costs have not changed to represent the number of children we have lost; and the discussion will have to be about making sure the control costs are declining to represent the decline in money. He noted that the Board has made the effort by closing schools, as well as cleaning up the staffing allotments; and he believes in moving forward and having much needed conversations, that we are at a point to make the necessary adjustments.

Mr. Rachal asked about projected numbers over the next 5-10 years, and Mr. Howard stated they know what it should be but it was under budget. Dr. Goree added the importance of stating that it was not an increase in insurance. Mr. Rachal asked if staff can project a year forward for the next five years, and Dr. Goree confirmed we can. He also stated that in the past staff has shown what it should have been and where systems were not being utilized to do that. Mr. Howard reminded the committee that as reported from the Finance Department audit, the benefits in 2017-18 were under budget by \$7.4 million and it will be the same this coming year.

Visitors. The following visitors addressed the Board: Jackie Lansdale, president, Red River United; Jon Glover; and Ken Antee.

When asked, Dr. Goree clarified there is not a need for a motion from the committee today as the information was brought forth for information; and this item will be placed on the May 21st meeting agenda at the work session at 4:30 p.m.

Adjourn. On motion by Mr. Green, second by Mrs. Locke, the meeting adjourned at approximately 3:35 p.m.

May 21, 2019
Caddo Parish School Board Meeting

Members present: Steve Riall, Jasmine Green, Lloyd Thompson (left meeting at approximately 5:10 p.m.), Don Little, Dr. Bonita Douzart, Mary Trammel, Denee' Locke, Barry Rachal, Tony Nations, John Albritton, and Dottie Bell. Mr. Raymond Green was absent. Also present were T. Lamar Goree, superintendent and Reginald Abrams, board counsel.

President Trammel called the meeting to order at approximately 4:30 p.m. and a quorum was present. Dr. Bonita Douzart, District 5, led the Invocation and Pledge of Allegiance.

Consideration of Minutes of the April 16, 2019 and May 7, 2019 CPSB Meetings

Mrs. Bell moved, seconded by Mr. Riall, to approve the minutes of the April 16, 2019 and May 7, 2019 CPSB meetings as submitted. Vote on the motion carried.

Presentations and Recognitions

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Green Oaks Next Generation Band. Members of the Green Oaks Next Generation Band performed two musical numbers for the Board and audience.

Caddo Parish Magnet High School Debate Team. The following students were recognized for their performance at the Louisiana High School State Speech League Championship in New Orleans: Dain Ross and Palmer Miley, 1st Place Advanced Cross Examination Debate; Cortez Walters and Ben Kevil, 3rd Place Advanced Cross Examination Debate; Austin Kiihnl and Eleanora Lawrence, 3rd Place Advanced Cross Examination Debate; and Herman Vazquez and Ryan Wilkinson, 1st Place Novice Cross Examination Debate.

National History Day Huntington High School. The following 9th grade students from Ms. Faith Johnson's Civic Honors Class at Huntington High School were recognized for competing in the Louisiana National History Day Competition on April 6th at the World War II Museum in New Orleans, Louisiana: Julio Gomez-Salas, Jesus Jiminez, Mason McCarter and Philip Scott. Huntington is one of only two schools selected from Caddo Parish to participate.

South Highlands Robotics Win at RARC Competition. Members of the South Highlands Robotics Team were recognized for winning at the RARC (STEM) competitions. South Highlands 5 emerged as the first place winner and South Highlands 4, second place. South Highlands finished in the top three divisions and 1st Place in the elementary division and Grand Champion overall.

2019 National Region 5 Magnet School Teacher of the Year. Heather Williams, 3rd and 4th grade teacher at South Highlands, was recognized as the 2019 National Region 5 Magnet School Teacher of the Year.

Step Forward Kindergarten Readiness. Laura Alderman with Step Forward recognized the following Caddo schools for strides made in the Kindergarten Readiness Program: Atkins, Caddo Heights, Eighty-First Street, E.B. Williams-Stoner Hill, Jack P. Timmons, Midway, Riverside and Summer Grove. Caddo had eight of the top 10 schools recognized. Ms. Alderman also invited Board members to attend the Community Foundation Inaugural Address on Wednesday, May 22, at 4:00 p.m. and hear concerns from the community's youth.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: Dr. Bridgette Brown, director of teaching and learning; and Melissa Mainiero, director of accountability and grants.

Visitors

The following visitors addressed the Board on matters of concern and/or interest: Jackie Lansdale, president of Red River United, Most Improved Student Banquet, student debt, training, and VAM and the Caddo Performance Evaluation Plan; Kristen Gardner, multi-use

room, Fairfield Elementary; and Jon Glover, citizen, providing for our students what they need to be successful.

ESTABLISH THE AGENDA

Superintendent Goree highlighted the items for the Board's consideration and recommended that Item 8.05 be pulled. The following discussion ensued.

Mr. Riall asked for an explanation as to why 8.05 is being pulled. Mr. Abrams stated that Board members suggested it be referred to the Finance Committee for discussion regarding the difference between negotiated v. competitive bids, allowing the bond counsel and the municipal adviser the opportunity to explain these differences to the Board, including the cost and what will happen if the Board decides to change to a negotiated bid process, re: timeframe for process of a negotiated bid vs. a competitive bid. Ms. Green asked for clarification of this issue as it relates to *Robert's Rules of Order* and does the Board have to give a unanimous consensus for it to be removed from the agenda. Mr. Abrams explained that if the superintendent states he wants to pull it but the Board does not want to pull it, the item can be postponed by a motion and vote of the Board. Mrs. Bell stated that as the chairperson of the Finance Committee, she was not aware of the desire for the Committee to review this item. Dr. Goree responded that based on questions of Board members, he will contact Mrs. Bell on Wednesday about scheduling a meeting of the Finance Committee so the Board members can receive the requested information in order to make the most informed decision and move forward. Ms. Trammel asked about the timeframe and how it will work when decisions are to be made. The superintendent explained that the hope is issues are addressed long before the meeting; however, there were questions in this situation as the meeting began which did not allow time for staff to respond, thus he is willing to pull the item, answer the questions and bring it back as soon as possible so we can move forward in issuing the bonds.

Mr. Riall asked if this will in anyway postpone selling the bonds because he understands the interest rates are currently in our favor. Mr. Abrams said he believes the meeting is out of order at this time, because the item should be left on the agenda and when the item comes up, a motion can be made to postpone allowing for this discussion. Dr. Goree stated that staff was prepared to present its recommendation tonight; however, he believes there are still questions outside staff's recommendation and is why he made the decision to pull it.

Mr. Abrams further explained that the item belongs to the Board; the superintendent asked to pull this item; however, there is some question as to whether the item can be pulled and to do so requires the Board's consent to pull it. The best time to do this is when the Board gets to that item on the agenda. Dr. Goree asked if there is no objection to pulling the item, what is the advantage of leaving it on the agenda, and Mr. Abrams stated that the Board is going through the items on the agenda to be placed on consent.

Mrs. Bell moved, seconded by Ms. Green, to establish the agenda and the consent agenda for the May 21, 2019 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Bell moved, seconded by Mrs. Locke, to confirm the consent agenda (Items 6.02-6.03, 7.01-7.02, 8.01-8.04, 8.06-8.11, and 13.01) as presented. Vote on the motion carried and the following is a summary of the Board's action on consent agenda items.

6.02 Personnel Transaction Reports (Resignations). The Board approved the personnel transaction reports (resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Requests For Leaves - May 2019. The Board approved the requests for leaves as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets. (1) FleetCor (Fuelman) for the services of Fuel and Fuel Management; (2) Waste Connections for Waste Collection and Removal; and (3) BMS LLC, Unity Education Resources, and Ferris Office Smart for the General Classroom Materials and Supplies. *The bid tabulations are filed in the official papers of the May 21, 2019 CPSB meeting.*

7.02 Capital Projects/Construction Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets:

(1) Industrial Roofing & Construction with a Base Bid, Alternate 1 and Alternate 2, for the sum total of \$99,005.00 for Project 2020-231, "Fairfield Elementary Magnet School Roof Auditorium"; and (2) Louisiana Roofing Contractors, LLC, with a Base Bid and Alternate 1 for the sum total of \$146,000.00 for Project 2020-232, "University Elementary School Roof Administration Building". *The bid tabulations are filed in the official papers of the May 21, 2019 CPSB meeting.*

8.01 Property/Bus Rental Requests. The Board approved the request for use of CPSB property and/or bus rental requests as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Adoption of 2019 Millage Rates. The Board approved the resolution adopting the following 2019 millage rates as submitted in the electronic mailout.

BE IT RESOLVED, that the following millage(s) are hereby levied on the 2019 tax roll on all property subject to taxation by Caddo Parish School Board:

	MILLAGE
Constitutional Tax	7.70 mills
Operations and Maintenance	16.77 mills
Operations and Maintenance Support	11.04 mills
Technology Tax	1.25 mills
Salaries & Benefits Tax	20.18 mills
Building & Equipment Tax	6.73 mills
Renovation Tax	5.15 mills
Bond & Interest Tax	5.00 mills

BE IT FURTHER RESOLVED that the proper administrative officials of the Parish of Caddo, State of Louisiana, be and they are hereby empowered, authorized, and directed to spread said taxes, as hereinabove set forth, upon the assessment roll of said Parish for the year 2019, to make the collection of the taxes imposed for and on behalf of the taxing authority, according to law, and that the taxes herein levied shall become a permanent lien and privilege on all property subject to taxation as herein set forth, and collection thereof shall be enforceable in the manner provided by law.

8.04 To consider and take action with respect to adopting a resolution providing for canvassing the returns and declaring the result of the special election held in the Parishwide School District of Caddo Parish, Louisiana, on Saturday, May 4, 2019, to authorize the incurring of debt and issuance of bonds therein. The Board adopted the following resolution providing for canvassing the returns and declaring the result of the special election held in the Parishwide School District of Caddo Parish, Louisiana, on Saturday, May 4, 2019, to authorize the incurring of debt and issuance of bonds therein.

RESOLUTION

A resolution providing for canvassing the returns and declaring the result of the special election held in the Parishwide School District of Caddo Parish, Louisiana, on Saturday, May 4, 2019, to authorize the incurring of debt and issuance of bonds therein.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Canvass. This Governing Authority does now proceed in open and public session to examine the official tabulations of votes cast at the special election held in the Parishwide School District of Caddo Parish, Louisiana, on SATURDAY, MAY 4, 2019, to authorize the incurring of debt and issuance of bonds therein, and said Governing Authority does further proceed to examine and canvass the returns and declare the result of the special election.

SECTION 2. Procès Verbal. A *Procès Verbal* of the canvass of the returns of said election shall be made and a certified copy thereof shall be forwarded to the Secretary of State, Baton Rouge, Louisiana, who shall record the same in his office; another certified copy thereof shall be forwarded to the Clerk of Court and *Ex-Officio* Recorder of Mortgages in and for the Parish of Caddo, who shall record the same in the Mortgage Records of said Parish; and another copy thereof shall be retained in the archives of this Governing Authority.

CARRIED by a majority of the votes cast by the qualified electors voting at the said special election held in the District on Saturday, May 4, 2019.

Results by precinct are available from the Secretary of this Governing Authority during regular business hours or via the Louisiana Secretary of State's website (voterportal.sos.la.gov).

Exhibit "A" attached hereto and made a part of this *Procès Verbal* is a copy of the Notice of Special Election and proof of publication thereof.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 21st day of May, 2019.

ATTEST:

Secretary

EXHIBIT "A"

NOTICE OF SPECIAL ELECTION

Pursuant to the provisions of a resolution adopted by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), on January 15, 2019, NOTICE IS HEREBY GIVEN that a special election will be held within the District on **SATURDAY, MAY 4, 2019**, and that at the said election there will be submitted to all registered voters in the District qualified and entitled to vote at the said election under the Constitution and Laws of the State of Louisiana and the Constitution of the United States, the following proposition, to-wit:

PARISHWIDE SCHOOL DISTRICT PROPOSITION
(BOND)

Shall the Parishwide School District of Caddo Parish, Louisiana (the "District"), incur debt and issue bonds not exceeding \$88,300,000, to run not exceeding 20 years from date thereof, with interest at a rate not exceeding 8% per annum, for the purpose of acquiring and/or improving lands for building sites and playgrounds; including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the District, and acquiring the necessary equipment and furnishings therefor, including, to the extent feasible, those specific school projects set forth in the "Capital Improvement Plan " approved by the School Board on January 15, 2019, title to which shall be in the public; which bonds will be general obligations of the District and will be payable from ad valorem taxes to be levied and collected in the manner provided by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974 and statutory authority supplemental thereto, with no estimated increase in the millage rate to be levied in the first year of issue above the 5 mills currently being levied to pay General Obligation Bonds of the District?

Said special election will be held at each and every polling place in the Parish of Caddo, which polls will open at seven o'clock (7:00) a.m., and close at eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541.

The polling places at the precincts in the Parish are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, shall be those persons designated according to law.

Notice is further given that a portion of the monies collected from the tax described in the Proposition shall be remitted to certain state and statewide retirement systems in the manner required by law.

The said special election will be held in accordance with the applicable provisions of Chapter 5 and Chapter 6-A of Title 18 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and the officers appointed to hold the said election, as provided in this Notice of Special Election, or such substitutes therefor as may be selected and designated in accordance with La. R.S. 18:1287, will make due returns thereof to said Governing Authority, and NOTICE IS HEREBY FURTHER GIVEN that the Governing Authority will meet at its regular meeting place, the Parish School Board Office, 1961 Midway Avenue, Shreveport, Louisiana, on **TUESDAY, MAY 21, 2019**, at **FOUR-THIRTY O'CLOCK (4:30) P.M.**, and shall then and there in open and public session proceed to examine and canvass the returns and declare the result of the said special election. All registered voters of the District are entitled to vote at said special election and voting machines will be used.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 15th day of January, 2019.

PROCLAMATION

I, the undersigned President of the Parish School Board of the Parish of Caddo, State of Louisiana, the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), do hereby declare, proclaim and announce that the proposition submitted at the special election held in the District on Saturday, May 4, 2019, was CARRIED by a majority of the votes cast at the said special election, all as described and set out in the above *Procès Verbal*.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 21st day of May, 2019.

/s/ Mary Trammel
President

8.06 Consideration of Approval of Caddo-Shreveport Sales and Use Tax Commission 2019-20 Budgets. The Board approved the Caddo-Shreveport Sales and Use Tax Commission 2019-20 budgets as submitted in the electronic mailout.

8.07 Consideration of Change in Board Meeting Dates. The Board approved holding only one meeting in July and that the meeting be held on July 23, 2019, and that the October 15, 2019 board meeting be changed to October 22, 2019 due to the conflict of Fall Break, and that the February 18, 2020 board meeting be changed to February 25, 2020 due to Winter Break as submitted in the electronic mailout.

8.08 Consideration of Additional Mental Health Interagency Contract. The Board approved mental health agreements for providing services to students as recommended by staff and submitted in the electronic mailout.

8.09 Consideration of Ombudsman Contract Amendment. The Board approved the amendment to the Ombudsman contract as recommended by staff and submitted in the electronic mailout.

8.10 Consideration of Request for Authorization to Salvage. The Board authorized staff to conduct a salvage sale of musical instruments in Caddo Parish as provided in the electronic mailout.

8.11 Consideration of 2018-19 General Fund Budget Revisions. The Board approved the proposed revisions to the 2018-19 General Fund Budget as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students TO and JW as recommended by staff and whose parents are in agreement.

PERSONNEL RECOMMENDATIONS

Mr. Nations moved, seconded by Mrs. Bell, to approve the appointment of Kelly Duffield as the Chief Internal Auditor, as recommended by the Superintendent and submitted in the electronic mailout. Vote on the motion carried with Mr. Green and Mr. Thompson absent.

Mr. Nations moved, seconded by Mrs. Bell, to approve the appointment of Bruce Daigle as the director of transportation. Vote on the motion carried with Board members Jasmine Green, Dr. Bonita Douzart and Don Little opposed. Mr. Green and Mr. Thompson were absent.

TO CONSIDER AND TAKE ACTION WITH RESPECT TO ADOPTING A RESOLUTION AUTHORIZING THE ADVERTISING FOR BIDS FOR THE PURCHASE OF GENERAL OBLIGATION SCHOOL BONDS, SERIES 2019, OF PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Little moved, seconded by Mr. Riall, to adopt the resolution authorizing the advertising for bids for the purchase of General Obligation School Bonds, Series 2019, of Parishwide

School District of Caddo Parish, Louisiana, and providing for other matters in connection therewith.

Mr. Riall asked if this item is postponed will it prohibit following a timeline to receive the best interest rates?

Mrs. Locke called for a Point of Order because she thought the Board Attorney explained that if the Superintendent wanted to pull this item and someone objected, the Board would have to vote on whether or not to pull it. Mr. Riall stated a motion has not been made to pull it.

Mr. Howard recognized Lucius McGehee, municipal advisor, and Grant Schlueter, bond attorney, to answer Board members' questions. Mr. McGehee explained that no one can say what interest rates will do. At this time, interest rates are favorable for a sale; however, if this resolution should be postponed, it could have an effect, but no one can state what the rates will be.

Mr. Albritton asked for a point of clarification of the motion now to accept the recommendation from staff and the superintendent's request to pull it because of Board members' questions. President Trammel stated she understands it that way; however, she believes there is an equal number of Board members wanting to vote on the motion. Mr. Albritton stated he is in favor of the motion presented, because we have met on this and discussed rates, and explained well and everyone should feel comfortable to proceed.

Mrs. Bell stated her concern over trying to find another time to meet and if the delay will effect the rates.

Ms. Green asked the Superintendent if he is o.k. with moving forward with the motion on the floor, and Dr. Goree stated it was staff's recommendation to move forward, but it is a Board decision and he will work at the pleasure of the Board. Ms. Green asked how long this item has been on the agenda, and Dr. Goree responded two weeks. In this regard, Ms. Green said if the Superintendent agrees, she agrees with moving forward.

Mr. Rachal moved, seconded by Mrs. Locke, to postpone. Mr. Rachal asked the Superintendent if he is o.k. with pulling this item, and Dr. Goree again stated he was asked questions during the Presentations time on the agenda and did not have the opportunity to fully understand what those questions were, so he is o.k. with postponing and will work at the pleasure of the Board. Staff made a recommendation which he stands behind because he believed it to be the best thing to do at that time; however, if the Board wishes to pull the item and allow more time to meet and answer all the questions, he will work at the pleasure of the Board. Mr. Rachal said he has questions...he doesn't understand the cost, he doesn't know if any of the Board members understand the cost, and he is not clear on the difference in a competitive vs. a negotiated. Noting that Dr. Goree said he is o.k. if it is delayed, Mr. Rachal said he has gone on the Internet to understand how these costs are calculated and he received some clarification. He said he will not vote in favor of moving forward with this without sitting down and getting more clarification to make sure we are making the right decision and it is not costing the taxpayers any money. He said he doesn't believe postponing for two weeks, in order to thoroughly understand the costs and benefits, will hurt so he will not vote for it.

Mrs. Locke stated this item was placed on the agenda and the Board received the attachment at 3:24 on the day before the meeting and she has requested to get these things at least a week in advance or at least by Friday. She said the meeting was held and there were some standard answers; however, the municipal adviser was not in attendance to answer her questions. She added her intention was to reach out and ask the questions over the last 2 weeks; but, because time did not allow her to do so and she was uncomfortable with it, she reached out to the Superintendent about pulling it. The Board also received a memo relative to applying to the Bond Commission in January and there was no provision for a negotiated sale included in the forms submitted. Her main reason for asking it to be pulled is she does not believe the Board is educated enough to make this decision, and she read the statement that if there was no provision for a negotiated sale, there was a provision for a competitive sale which was confusing to her. Mrs. Locke stated she requested some additional information from Mr. Howard, which he emailed to her, but it was after 3:00 p.m. before she opened it and she had another appointment before rushing here. She added she made it very clear when discussing the municipal advisor how the Board was being rushed, and because she is the one voting, and does not feel comfortable doing so without more education, she cannot vote on something she believes the Board

needs more time to consider. If it can be done within the next two weeks, she believes it will be worth the wait.

Mrs. Trammel inquired as to the method used to sell bonds in the past. Mr. McGehee first recognized there is an error, and he noted the allocation in the final revision of the financial disclosure form with the State Bondsmen underwriter. Mr. Schlueter explained that the submission to the State Bond Commission did have the flexibility for competitive sale, private placement or a negotiated sale. Regarding how bonds were sold in the past, Mr. Schlueter said that other than refunding bonds on a negotiated basis, they have been competitive sales.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question on both motions. Vote on the motion to end debate carried with Ms. J Green and Mr. Rachal opposed and Mr. Thompson and Mr. Green absent.

Vote on the substitute motion to postpone failed with Board members Riall, Locke, Rachal, Little and Nations supporting the motion and Board members J Green, Douzart, Trammel, Albritton and Bell opposed. Board members Raymond Green and Lloyd Thompson were absent.

Vote on the original motion carried with Board members Riall, J Green, Little, Douzart, Trammel, Nations, Albritton and Bell supporting the motion and Board members Locke and Rachal opposed. Raymond Green and Lloyd Thompson were absent. The following is a copy of the resolution approved by the Board.

RESOLUTION

A resolution authorizing the advertising for bids for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana and providing for other matters in connection therewith.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Advertisement for Sale. The President of the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority") is hereby empowered, authorized and directed to advertise in accordance with the provisions of law for electronic bids via PARITY7 for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019 (the "Bonds") of Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), being the first emission of bonds authorized at a special election held in the Issuer on May 4, 2019, for the purpose of acquiring and/or improving lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the Issuer and acquiring the necessary equipment and furnishings therefor, and specifically for those projects in the "Capital Improvements Plan" approved by the Governing Authority on January 15, 2019, title to which shall be in the public, and paying the costs of issuance thereof, under the authority conferred by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority. The Bonds will be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), as registered owner of the Bonds, and held in the custody of DTC (unless the successful bidder elects at the time of the sale to require bonds in other than book-entry only form). The Issuer and the Paying Agent acknowledge that they will execute and deliver a Letter of Representation with DTC and that the terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this resolution and said Letter of Representation. A single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details for the Bonds acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

For every transfer and exchange of the Bonds, the Beneficial Owner may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

- a. DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law.
- b. The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer, nor the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

The winning bidder (the "Purchaser") at the time of the sale, however, may elect to not receive book-entry only Bonds, in which case the Purchaser will receive one type written Bond per maturity, exchangeable in the manner provided in the Resolution.

SECTION 2. Basic Terms of Bonds. The Bonds will be dated the date of delivery, will be payable from unlimited ad valorem taxation, will be in the denomination of Five Thousand Dollars (\$5,000) each, or any integral multiple thereof within a single maturity, and will bear interest from date thereof, or the most recent interest payment date to which interest has been paid or duly provided for, at a rate or rates not exceeding six per centum (6%) per annum on any Bond in any interest payment period, said interest to be payable on March 1, 2020, and semiannually thereafter on March 1 and September 1 of each year. The Bonds will be in fully registered form and will mature serially on March 1 of each year as follows, to-wit:

<u>YEAR</u>	<u>PRINCIPAL AMOUNT</u>	<u>YEAR</u>	<u>PRINCIPAL AMOUNT</u>
2020	\$295,000	2030	\$490,000
2021	340,000	2031	510,000
2022	355,000	2032	530,000
2023	370,000	2033	550,000
2024	385,000	2034	575,000
2025	400,000	2035	595,000
2026	415,000	2036	620,000
2027	435,000	2037	645,000
2028	450,000	2038	670,000
2029	470,000	2039	700,000

SECTION 3. Redemption Provisions. Those Bonds maturing March 1, 2030, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2029, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof and accrued interest to the date fixed for redemption. In the event any Bond to be redeemed is of a denomination larger than Five Thousand Dollars (\$5,000), a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails, or by accepted means of electronic communication, not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

SECTION 4. Sale of Bonds. The Bonds shall be sold in the manner required by law, and in accordance with the terms of this resolution, the official Notice of Bond Sale herein set forth, and the Official Statement referred to in Section 7 hereof. In advertising the Bonds for sale, the Governing Authority shall reserve the right to reject any and all bids received.

SECTION 5. Notice of Bond Sale. The Governing Authority is hereby further empowered, authorized and directed to issue a Notice of Bond Sale and cause the same to be published as required by law, which Notice of Bond Sale shall be in substantially the following form:

* * * * *

**OFFICIAL
NOTICE OF BOND SALE**

\$9,800,000 OF GENERAL OBLIGATION SCHOOL BONDS, SERIES 2019

OF

**PARISHWIDE SCHOOL DISTRICT
OF CADDO PARISH, LOUISIANA**

Electronic bids via PARITY7

**will be received until eleven-thirty (11:30) o'clock a.m., Central Time (Louisiana Time), on
Tuesday, June 25th, 2019**

NOTICE IS HEREBY GIVEN that the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority") acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), will receive electronic bids **via PARITY7** at the Parish School Board Office, 1961 Midway Avenue, Shreveport, Louisiana, until **eleven-thirty (11:30) o'clock a.m., Central Time (Louisiana Time), on Tuesday, June 25, 2019** (or such other date as may be determined by the Governing Authority) for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019 (the "Bonds") of the Issuer, being the first emission of bonds authorized at an election held in the Issuer on May 4, 2019 for the purpose of acquiring and/or improving lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the School Board and acquiring the necessary equipment and furnishings therefor, and specifically for those projects in the "Capital Improvements Plan" approved by the Governing Authority on January 15, 2019, title to which shall be in the public, and paying the costs of issuance thereof, title to which shall be in the public, under the authority conferred by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority.

Electronic bids will be received for the Bonds via PARITY7, in the manner described below, until 11:30 a.m., Central Time (Louisiana Time), on Tuesday, June 25, 2019.

Bids may be submitted electronically via PARITY7 pursuant to this Official Notice of Bond Sale until **11:30 a.m., Central Time (Louisiana Time)**, but no bid will be received after the time for receiving bids specified above. To the extent any instructions or directions set forth in PARITY7 conflict with this Official Notice of Bond Sale, the terms of this Official Notice of Bond Sale shall control. For further information about PARITY7, potential bidders may contact PARITY7 at (212) 849-5021.

Each prospective electronic bidder shall be solely responsible to register to bid via PARITY7 as described above. Each qualified prospective electronic bidder shall be solely responsible to make necessary arrangements to access PARITY7 for the purposes of submitting its bid in a timely manner and in compliance with the requirements of the Notice of Sale. Neither the Issuer nor PARITY7, shall have any duty or obligation to provide or assure access to PARITY7 to any prospective bidder, and neither the Issuer nor PARITY7 shall be responsible for a bidder's failure to register to bid or for proper operation of, or have any liability for any delays or interruptions of, or any damages caused by, PARITY7. The Issuer is using PARITY7 as a communication mechanism, and not as the Issuer's agent, to conduct the electronic bidding for the Bonds. No other form of electronic bid or provider of electronic bidding services will be accepted. The Issuer is not bound by any advice and determination of PARITY7 to the effect that any particular bid complies with the terms of this Official Notice of Bond Sale and in particular the "Bid Requirements" hereinafter set forth. All costs and expenses incurred by prospective bidders in connection with their registration and submission of bids via PARITY7 are the sole responsibility of the bidders; and the Issuer is not responsible, directly or indirectly, for any of such costs or expenses. If a prospective bidder encounters any difficulty in submitting, modifying or withdrawing a bid for the Bonds, he should telephone PARITY7 at (212) 849-5021 and notify the Issuer's Municipal Advisor, Argent Advisors, Inc. at (318) 251-5851.

Electronic bids must be submitted for the purchase of the Bonds via PARITY7. Bids will be communicated electronically to the Issuer at 11:30 a.m., local Louisiana time, on June 25, 2019. Prior to that time, a prospective bidder may (1) submit the proposed terms of its bid via PARITY7, (2) modify the proposed terms of its bid, in which event the proposed terms as

last modified will (unless the bid is withdrawn as described herein) constitute its bid for the Bonds, or (3) withdraw its proposed bid. Once the bids are communicated electronically via PARITY7 to the Issuer, each bid will constitute an irrevocable offer to purchase the Bonds on the terms therein provided. For purposes of the electronic bidding process, the time as maintained on PARITY7 shall constitute the official time.

The Bonds will be dated the date of delivery, will be payable from unlimited ad valorem taxation, and will be in the denomination of Five Thousand Dollars (\$5,000) each, or any integral multiple thereof within a single maturity. The Bonds will bear interest from date thereof or the most recent interest payment date to which interest has been paid or duly provided for, at a rate or rates not exceeding six per centum (6%) per annum on any Bond in any interest payment period, said interest to be payable on March 1, 2020, and semiannually thereafter on March 1 and September 1 of each year. The Bonds will mature serially on March 1 of each year as follows, to-wit:

<u>YEAR</u>	<u>PRINCIPAL AMOUNT</u>	<u>YEAR</u>	<u>PRINCIPAL AMOUNT</u>
2020	\$295,000	2030	\$490,000
2021	340,000	2031	510,000
2022	355,000	2032	530,000
2023	370,000	2033	550,000
2024	385,000	2034	575,000
2025	400,000	2035	595,000
2026	415,000	2036	620,000
2027	435,000	2037	645,000
2028	450,000	2038	670,000
2029	470,000	2039	700,000

The Bonds will be issued as fully registered bonds in "book-entry only" form and registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the bonds, and purchasers of the Bonds will not receive certificates representing their interest in the Bonds purchased. The winning bidder (the "Purchaser") at the time of the sale, however, may elect to not receive book-entry only Bonds, in which case the Purchaser will receive one type written Bond per maturity, exchangeable in the manner provided in the resolution authorizing the issuance of the Bonds.

Those Bonds maturing March 1, 2030, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2029, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof and accrued interest to the date fixed for redemption. In the event any Bond to be redeemed is of a denomination larger than Five Thousand Dollars (\$5,000), a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Official notice of

such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails, or by accepted means of electronic communication, not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

The principal of the Bonds, upon maturity or redemption, will be payable at the principal corporate trust office of the Paying Agent upon presentation and surrender thereof, and interest on the Bonds will be payable by the Paying Agent by check mailed by the Paying Agent to the registered owner (determined as of the 15th calendar day of the month next preceding said interest payment date) at the address as shown on the books of said Paying Agent. Said Paying Agent will be a qualified bank or trust company selected by the Issuer. Except as provided under DTC's book-entry only system, the Bonds may be transferred, registered and assigned only on the registration books of the Paying Agent, and such registration shall be at the expense of the Issuer. A Bond may be assigned by the execution of an assignment form on the Bonds or by other instruments of transfer and assignment acceptable to the Paying Agent. A new Bond or Bonds will be delivered by the Paying Agent to the last assignee (the new registered owner) in exchange for such transferred and assigned Bonds after receipt of the Bonds to be transferred in proper form. Such new Bond or Bonds must be in the denomination of \$5,000 or any integral multiple thereof within a single maturity. Neither the Issuer nor the Paying Agent shall be required to issue, register, transfer or exchange (i) any Bond during a period beginning at the opening of business on the 15th day of the month next preceding an interest payment date and ending at the close of business on the interest payment date, or (ii) any Bond called for redemption prior to maturity during a period beginning at the opening of business fifteen (15) days before the date of the mailing of a notice of redemption of such Bonds and ending on the date of such redemption.

In connection with the sale of the Bonds, a good faith deposit of 1% of the principal amount of the Bonds will be required. The manner and time of such deposit shall be set forth in the Preliminary Official Statement for the Bonds. The good faith deposit of the successful bidder

or bidders will be deposited and the proceeds credited against the purchase price of the Bonds, or in the case of neglect or refusal to comply with such bid, will be forfeited to the Issuer as and for liquidated damages. No interest will be allowed on the amount of the good faith deposit.

Bidders shall name the rate or rates of interest the Bonds shall bear, not exceeding six per centum (6%) per annum on any Bond in any interest payment period. Bids must stipulate a purchase price for the Bonds not less than the par value thereof and accrued interest from the date of the Bonds to the date of delivery of the Bonds. No bid which specifies cancellation of the Bonds will be considered. No bids providing for additional or supplemental interest will be considered.

The Governing Authority will meet at the place and time hereinabove set forth for the receipt of bids. The Bonds will be awarded to the bidder whose bid offers the lowest "true interest cost" to the Issuer for the full authorized amount of the Bonds, to be determined by doubling the semiannual interest rate (compounded semiannually) necessary to discount the debt service payments on the Bonds from the payment dates to the date of delivery, such that the sum of such present values is equal to the price bid, including any premium bid (the preceding calculation is sometimes referred to as the "Canadian Interest Cost Method" or "Present Value Method"). In the case of a tie bid, the winning bid will be awarded by lot. If any bid for the Bonds shall be acceptable, a prompt award of the bonds will be made. The right is expressly reserved to waive any irregularity in any bid or to reject any and all bids received.

The Official Statement containing pertinent information relative to the authorization, sale and security of the Bonds is being prepared and may be obtained upon its completion from the Issuer's Bond Counsel, Foley & Judell, L.L.P., One Canal Place, 365 Canal Street, Suite 2600, New Orleans, Louisiana 70130. The Purchaser will be furnished a reasonable number of final official statements on or before the seventh business day following the sale of the Bonds.

The approving legal opinion of Foley & Judell, L.L.P., Bond Counsel and Jacqueline A. Scott & Associates, APLC, Co-Bond Counsel, who have supervised the proceedings, the Bonds and the transcripts of record as passed upon will be furnished to the successful bidders without cost to them. Said transcripts will contain the usual closing proofs, including a certificate that up to the time of delivery no litigation has been filed questioning the validity of the Bonds or the taxes necessary to pay the same.

It is anticipated that the American Bankers' Association Committee on Uniform Security Identification Procedures (CUSIP) identification numbers will be printed on the Bonds, but the failure to print such numbers shall not constitute cause for refusal by the successful bidder to accept delivery of and to pay for the Bonds. No CUSIP identification number shall be deemed to be part of any Bond or a part of the contract evidenced thereby, and no liability shall hereafter attach to the Issuer or any of the officers or agents thereof because of or on account of such numbers. All expenses in relation to the printing of the CUSIP identification numbers on the Bonds shall be paid by the Issuer. However, the CUSIP Service Bureau charge for the assignment of such numbers shall be the responsibility of and shall be paid by the successful bidder.

In order to assist bidders in complying with S.E.C. Rule 15c2-12(b)(5), the Governing Authority will undertake, pursuant to the resolution providing for the issuance of the Bonds and a Continuing Disclosure Certificate, to provide annual reports and notices of certain events. A description of this undertaking is set forth in the Preliminary Official Statement and will also be set forth in the Final Official Statement.

In the event the Issuer does not receive sufficient qualified bids to satisfy the competitive sale requirements of Treasury Regulation ' 1.148-1(f)(3)(i), which would allow the Issuer to treat the reasonably expected initial offering price to the public as of the sale date as the issue price of the Bonds, the "Hold-the-Offering-Price Rule" of Treasury Regulation ' 1.148-1(f)(2)(ii), shall apply, which will allow the Issuer to treat the initial offering price to the public of each maturity as of the sale date as the issue price of that maturity (the "Hold-the-Offering-Price Rule"). So long as the Hold-the-Offering-Price Rule applies to any maturity of the Bonds, the winning bidder will neither offer nor sell that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following: (i) the date on which the winning bidder has sold at least 10 percent of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public or (b) the close of the fifth (5th) business day after the sale date. The winning bidder agrees to promptly report to the Issuer's municipal advisor named below when it has sold 10 percent of a maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public if that occurs prior to the close of the fifth (5th) business day after the sale date.

In order to provide the Issuer with information required to enable it to comply with certain conditions of the Internal Revenue Code of 1986, as amended (the "Code"), relating to the exclusion of interest on the Bonds from gross income for federal income tax purposes, the

winning bidder will be required to complete, execute and deliver to the Issuer (on or before the date of delivery of the Bonds) a certification regarding the "issue price" of the Bonds substantially in the form attached as an appendix to the Preliminary Official Statement for the Bonds, subject to modification in a manner acceptable to the Issuer. Each bidder, by submitting its bid, agrees to complete, execute and deliver such a certificate by the date of delivery of the Bonds, if its bid is accepted by the Issuer. It will be the responsibility of the winning bidder to institute such syndicate reporting requirements, to make such investigation, or otherwise to ascertain the facts necessary to enable it to make such certification with reasonable certainty. Any questions concerning such certification should be directed to Foley & Judell, L.L.P., Bond Counsel.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 21st day of May, 2019.

President

ATTEST:

Secretary

* * * * *

SECTION 6. Date and Time of Sale. This Governing Authority will meet in open and public session at the time and place set out in the Notice of Bond Sale incorporated herein (or such other date as may be determined by the Governing Authority), for the purpose of receiving bids for the Bonds, considering and taking action upon the bids, and taking any other action required by this resolution, or necessary to effectuate the issuance, sale and delivery of the Bonds. If any award of the Bonds shall be made, such award shall be made for not less than par and accrued interest to the best bidder for the Bonds, such award and best bidder to be determined in accordance with the aforesaid Notice of Bond Sale

SECTION 7. Bid Form and Official Statement. There shall be prepared an Official Bid Form for the submission of bids and an Official Statement which shall contain complete bidding details, security features and other pertinent information relative to the sale and issuance of the Bonds as may be deemed necessary, advisable or desirable, which Official Bid Form and Official Statement shall be distributed to all prospective bidders and other interested parties.

SECTION 8. Disclosure. In order to assist bidders in complying with S.E.C. Rule 15c2-12(b)(5), the Governing Authority will undertake, pursuant to the resolution providing for the issuance of the Bonds and a Continuing Disclosure Certificate, to provide annual reports and notices of certain events. A description of this undertaking will be set forth in the Preliminary Official Statement and the Final Official Statement.

Announcements and Requests

Ms. Green thanked staff for phenomenal graduations. She also expressed how proud she is of the Green Oaks band performing for the Board today.

Mrs. Bell asked that we look at the grievance policy with the employee organization representatives. She also congratulated Huntington High School for improving their graduation rate.

Mr. Rachal asked for a summary report of all out of state travel, a timeline for the selling of bonds, and congratulated the District for having its highest graduation rate this past year.

Dr. Goree stated that when a District sees graduation rates improve at the rate we are seeing them improve in Caddo, it is not one or two years' efforts, but 4-7 years. He said he hopes that as we begin to see these momentums turn, starting with graduation rates, we will begin to see a turn in every area that the State measures the DistrIct. He thanked the Board for its support of excellence and equity in education initiatives. He also thanked Board members for giving of their time to attend this year's graduations, and recognized Mr. Thompson for attending 8 of the 11 graduations, to help celebrate the approximately 2,300 Caddo graduates.

Executive Session. Student Expulsion Appeal Hearings. President Trammel announced that the parents of the students scheduled for expulsion appeals have come to an agreement with staff.

Adjournment. *Mr. Rachal moved, seconded by Dr. Douzart, to adjourn. Vote on the motion carried* and the meeting adjourned at approximately 6:15 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

June 4, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel and Jasmine Green. Mr. Rachal was absent. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. and led the invocation and Pledge of Allegiance.

PRESENTATIONS

Chief Operations Officer James Woolfolk stated that the District's energy program has been in existence approximately 2 years and shared a brief history for new members of the Board. He said the District had an energy conservation team responsible for looking at how the District could conserve energy and save money. The team consisted of himself as chairman, Steve White (Capital Projects), Tommy Smith (Maintenance), Sharon Golett (Technology), representative from Finance, and an area director from Academics. This team developed guidelines relative to how energy conservation would be implemented in the areas of responsibilities of energy specialists, general guidelines for air conditioning, equipment, heating, lighting and water. In the team's work, they determined the need for expertise in energy conservation efforts; and after looking at various options, an RFQ was sent out and Cenergistic was brought in to help us in this area.

Mr. Woolfolk introduced the Cenergistic Team: James Newkirk, vice president of measurement and verification; Jim Vogler, client manager; Randa Meehan, senior consultant of management, measurement and verification; and four energy specialists Ryne Allen, Veronica Kimble, Zachary Mire, and Justin Higdon. The energy specialists are on site every day visiting schools to make sure everything is running properly and a weekly meeting is held to go over any issues or roadblocks to be addressed.

Mr. Newkirk shared a short presentation on Cenergistic, which is based in Dallas, Texas, and his responsibility to insure the energy conservation program and savings are properly reflecting the District's performance. However, their goal is more than saving energy; they also want to make sure their efforts support the District's mission without impeding the academic goals but creating a culture of conservation not only in the energy department but throughout the organization.

He explained the process of measuring and verification and their work to insure they use an objective third party software to calculate the savings, and this software is EnergyCap, a company that has the leading energy conservation tracking software and has been in business for decades. Mr. Newkirk gave an overview of the utility expenditures in Caddo, which total approximately \$9 million, and reported that \$7 of the \$9 million in utility expenditures is electric. He shared a graph of the electric consumption for the entire school system (kilowatt hours) for September through August showing the peak usage in warmer months as well as months showing the least consumption. Mr. Newkirk reported that the District has consistently reduced consumption month to month and in the second year began well in beating what was done during the first year. Overall, he reported Caddo has seen an 8% performance improvement since September of the first year which is very good. He also stated the big driver of their performance (what they can impact) is employees making conscious choices with lighting, etc., which is reflected in the use of kilowatt hours and computers. EnergyCap helps with the variables needed to account for the saving performance beyond the kilowatt hours and that driver is utility rates, which impact spending. Change in equipment, weather, rates, and non-program adjustments are all variables which impact spending, with the three largest variables being: (1) weather (software will account for bad weather), (2) rates (the value of energy saved is calculated at the current rate), and (3) non program adjustments (i.e. HVAC upgrade efficiencies). He further highlighted effects with weather, especially during the first winter which was very mild and the following winters which were much colder, all of which must be incorporated into the software's calculation. Mr. Kirkwick stated the biggest variable to take into account is the impact of unit cost, which is up. He said the cost of energy is higher now than in the base year, much of which is driven by SWEPCO's fuel charges (approximately 40% of the kilowatt hour costs), increasing that portion of utility costs by approximately 23% and overall electric rate by 11%, which is about one cent or an impact on the bottom line of \$800,000. He reported that natural gas is down and water rates are up, something seen across the country.

Mr. Kirkwick also reported the expected cost due to rates or weather is an increase to \$7.3 million for electricity; and if the District had done nothing, the District could have expected to use an extra \$400,000 out of the District's budget because of these variables. However, the District only spent \$6.8 million on electricity the following year, meaning the District beat the system/rates that were increasing and spent less than it did in the base year. These trends continued (rates, weather, etc.) and the expected cost was approximately \$8 million for the next 12-month period (comparing the base year of 78 million kilowatt hours used) and saved 8 million kilowatt hours more than the base year. The net impact to the electricity budget has been relatively neutral; however, Caddo has offset some of the increases that were inevitable. Overall performance is about \$2 million or 11% and the use reduction has saved 13 million kilowatt hours of electricity, which represents the approximate usage for all 24 elementary schools in one calendar year.

Dr. Goree expressed appreciation to Cenergistic for their help on the behavior side of energy management in the District.

Mr. Riall asked if Caddo's personnel were trained to be able to adhere to the program implemented, and Mr. Kirkwick agreed and Cenergistic has four individuals who meet with Caddo personnel on a regular basis and continually reinforce the guidelines. Dr. Goree also added these four individuals are not Caddo employees but are a part of the Cenergistic contract.

Mr. Thompson asked what this service costs the District, and Mr. Kirkwick stated that there is no shared savings in the 6-month kick-start period; however, the company splits the savings 50-50, and the savings since the program was implemented has been about \$1 million in the \$2 million savings. Dr. Goree further stated that for every dollar the District saves from the baseline year, we split that with Cenergistic. Mr. Thompson asked if they have been in the District under another name in the past. Mr. Kirkwick responded they used to be Energy Education, but have been Cenergistic since 2012, expanding beyond K-12 to universities, municipalities, etc.

Mr. Nations referenced the recently approved millage and that this will allow the District to address HVAC and see additional savings. Mr. Kirkwick stated this will be a win-win for the District because they do not claim credit for those efficiencies. Dr. Goree recalled his surprise when coming to Caddo on the high cost of utilities, and the need to be better stewards of the dollars; and it was when the first millage renewal failed after he arrived that there was discussion on what could be done to control utility costs and that was through behavior which is how the RFQ was worded. Mr. Kirkwick said they have found if the use of the equipment is under control, equipment can be more appropriately sized and the District will see additional savings.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JUNE 18, 2019 MEETING

Superintendent Lamar Goree highlighted the items for the Board member's consideration at its meeting on June 18, 2019 and the following discussion ensued.

Visitors Remarks in School Board Minutes. Mr. Thompson asked that this item be on the agenda because he is concerned that what citizens say to the Board is not reflected in the minutes. He believes it would be beneficial when things go out into the community to be able to go back to the minutes and know what was said. He also stated that many times visitors will say they do not receive an answer to their questions, and this would be a good way for the Board to be accountable and follow up. Dr. Goree stated that staff also has heard the concerns from the podium from visitors and how their comments are archived in the School System's records, and staff is offering to begin attaching the taping of all the comments to that item on the agenda. Mr. Thompson asked how someone wanting a hard copy could get one. Dr. Goree said there would not be a hard copy, but they could be given a copy of the audio. Mrs. Bell added that in her 12 years on the Board she has seen many visitors address the Board and noted the cost to the District if we recorded every word visitors said. She said since the District began live streaming the meetings, and now that staff will begin attaching the audio/video to the agenda, she believes this is the best way to record this information and not have added cost to the District.

Mr. Riall asked if we would be publishing all the comments in our Official Journal (The Times). Dr. Goree added from a budgetary perspective, this would be an added cost, and he stressed to the community that the goal is for the comments to be a

part of the official record of the school system, but we are only attempting to do this in an efficient manner in cost and time.

Mr. Thompson said he does not have a problem with how the superintendent will address this, and he believes this is a solution for those who do not or cannot watch the live stream of the meetings.

Mrs. Locke asked if whatever is in the minutes becomes a part of the official record and would have to be published in *The Times* and Dr. Goree confirmed that is correct.

Dr. Douzart said she believes Mr. Thompson is trying to say that some taxpaying citizens are not up-to-date with the technology and do not have the ability to go back and listen; so she suggested they contact their district representative on the School Board and ask them, if there is a fee, to pay it and get a secretary or someone to listen and write down what was said. Dr. Goree said citizens can be referred to staff to get what they need and staff will be willing to follow up.

Ms. Trammel noted that when visitors address the Board from or about her area, she writes down what they need so she can follow up, and rather than incurring additional costs, the method staff is suggesting would be the best way to provide visitors a means to listen to comments made and what was requested of them.

Mr. Thompson said he believes it will work as long as citizens can access their comments to the Board and refer back to what they asked of the Board. Dr. Goree clarified that it is staff's responsibility to answer the questions, and he encouraged Board members to clarify to staff if the Board wishes staff to respond to questions/comments from the podium, because when staff meets the day after the meeting, staff only responds to those visitors as directed by the Board. Mr. Thompson said because of the solution offered by the Superintendent, this item can be pulled from the agenda.

Cooperative Agreement Between CPSB and Village of Mooringsport). Mr. Riall stated that the Mayor of Mooringsport approached him about implementing a baseball program for the children in Mooringsport. The CPSB owns what was formerly a football field when Mooringsport was a high school and the baseball field currently there has been in disrepair for a long time and they would like to utilize it for this purpose. Mr. Woolfolk highlighted improvements that will be made which Caddo Parish Schools will benefit from as well, including the Village of Mooringsport spending money on a field they have used for years and is now in disrepair. He further explained that the key part of the cooperative agreements is a 10 plus 10 (10-year agreement with right to an additional 10 years); but if before the first 10 years is complete if Caddo advises they want it back, then the second 10 year agreement goes away. The stipulation making this a cooperative agreement is they must spend at least \$10,000 on the field, improvements to the parking lot, lighting; and they will spend a lot more than that, but we do not want the cost to be so high that it would be prohibitive for them to do what they want to do. He believes it is a great deal for Caddo because Caddo can still use the field and they will maintain it, provide the insurance on it, and is a great deal for both. Dr. Goree also said it is a win-win for both.

Ms. Green asked if anything is being done to the field now, and Mr. Woolfolk stated that is correct because the lighting and parking are not very good now. Mr. Woolfolk further expanded on the 10 plus 10 agreement and the money spent. Ms. Green asked if this field will be available for those in the community to use, and who makes the decision. He said the City leadership is who is using the field at this time and Caddo is not using it. She said she asks because she has not heard about a 10 plus 10 agreement. Mr. Abrams clarified it is a win-win situation because the facility is currently in disrepair and the School District is maintaining insurance on it, meaning that Caddo is liable for the first one million dollars if something happens there. The new provision requires that the Village of Mooringsport provide the insurance needed for this facility as well as taking care of the maintenance on the facility. He further stated that the 10 plus 10 is only a renewal which states if we don't tell them we want it back after the first 10 years, it will automatically renew for another 10 years. Since it is being done by the Village of Mooringsport, it will be a public facility to be used by the public. Dr. Goree also added that there is a termination clause in the agreement where with 180 days' notice, either party can terminate the agreement. Ms. Green states she will support Mr. Riall on this item, but doesn't like doing anything today that may hurt us tomorrow. She also asked for clarity if nothing is said during the first 10 years, the agreement is renewed for another 10 years and staff confirmed that is correct. Ms. Green asked if at 20 years they will get 10 more

if nothing is said, and Mr. Woolfolk explained the contract is no more at the end of 20 years so it would have to come back. Dr. Goree said he hears Ms. Green's concerns and added that through our Capital Projects and Operations, a review is done on all Caddo properties and it will need to be noted so staff will revisit this in the 10 years.

Mr. Nations asked where this is located and is there any additional financial obligation on Caddo's part. Dr. Goree said it is across the road from the school and is not a property at the school we would be using on a daily basis. Mr. Woolfolk also referenced a map attached to the backup showing the location. Mr. Riall added that the Mayor and he talked with the Caddo Parish Commission who may help them with some in-kind funds to help get lights in place, parking lot, etc.

2019-20 Consolidated Annual Budget. Dr. Goree stated his understanding that staff needs to prepare for a meeting on Thursday and he encouraged Board members to get questions to staff as soon as possible so staff will have time to answer them in a timely fashion.

Request for Transfer Funds from the CNP Equipment Reserve. Kaye Lynch, director of Child Nutrition Programs, explained that her request for \$400,000 to be transferred from the CNP Equipment Reserve Fund to cover the purchases making in the current year, leaving approximately \$2 million in the reserve funds,. She added this is to purchase equipment for this year and not operating expenses. The equipment to be purchased will include at least 8 steamers, double ovens, all of which are 23-25 years old, and assessments have been made by both vendors, TD Refrigeration and CRS companies who have checked to make sure they could not be repaired. Mrs. Locke asked how often does the Board pull from this fund, and Ms. Lynch said they have not pulled from this fund in more than 4 years. She said they purchased approximately \$175,000 worth of equipment last year from the operating funds. Mr. Thompson asked if this affects children paying for their lunch. Ms. Lynch confirmed the equipment is bad and in need of replacement, and she explained the equipment is only expected to last 23-25 years. Mr. Thompson asked if this could be paid out of capital projects, and staff indicated it is only used for Child Nutrition purposes. Dr. Goree also explained that Caddo is part of the CNP and all elementary, middle and some high school students eat free breakfast and lunch every day. Regarding the use of capital projects dollars, Dr. Goree clarified that based on the way these dollars were approved by the voters, they do not qualify for use to replace this equipment.

Mr. Nations asked how many schools will be affected by this purchase, and Ms. Lynch responded at least 16 schools.

Ms. Green thanked Ms. Lynch and asked how is it determined where the new equipment will be placed, and Ms. Lynch said it is determined on an emergency basis because as many pieces of equipment as possible are being repaired; however, she cannot continue to use operating funds to make these repairs. She asked if staff knows which three schools are not receiving the free breakfast and lunch. Ms. Lynch said Caddo Magnet, Captain Shreve and Byrd will not be on CEP and it is only because their participation is only in the 200s and the majority of those students are paying children. Ms. Green also asked about something she heard in the past where certain schools with a lot of students will get new equipment and send their old equipment to another school, and Ms. Lynch said that will never happen under her or Dr. Goree's watch and whoever the equipment is ordered for is where the equipment will be placed. Mrs. Bell thanked Ms. Lynch and Dr. Goree for the opportunity for Caddo students to receive free breakfast and free lunch through this program.

Ms. Trammel commended the staff working in the schools and for their ideas on safely using the equipment in the cafeterias. Dr. Goree encouraged Board members when on a campus to visit and thank the cafeteria managers/workers for all they do.

Following discussion, Ms. Trammel announced that Items 7.01, 8.02-8.03, and 8.06 are all on the consent agenda. *Ms. Green moved, seconded by Ms. Trammel, to confirm the agenda and the consent agenda for the June 18, 2019 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following visitors addressed the Board: (1) Jon Glover – visitor comments in Board minutes and Cenergistics; (2) Jackie Lansdale – RRU support of millage, cutting professional rights from budget without input, elimination of study sabbaticals.

Mr. Little requested that the Superintendent follow up on the SWEPCO offer.

ANNOUNCEMENTS

Mr. Thompson stated that when asking questions, he is doing so to get answers, and asked that Board members respect other Board members.

Mrs. Bell thanked everyone who made donations to help the Social Studies students travel to Washington, D.C.

Ms. Green thanked Dr. Goree and staff for the budget sessions as well as the State Legislators for the resolution passed on yesterday. She also recognized Superintendent Goree for the awesome job on Monday's new conference.

Adjournment. *Ms. Green moved, seconded by Ms. Trammell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:30 p.m.*

May 28, 2019

The **Caddo Parish School Board (CPSB)** met in a budget work session on Tuesday, May 28, 2019, at approximately 2:00 p.m. in its offices at 1961 Midway, Shreveport, Louisiana with President Mary Trammel presiding and the following board members present constituting a quorum: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations; John Albritton and Dottie Bell. Also present were Dr. Lamar Goree, superintendent, and Reggie Abrams, legal counsel. Dr. Douzart led the prayer and Pledge of Allegiance.

2019-20 CONSOLIDATED ANNUAL BUDGET

Superintendent Goree introduced Chief Financial Officer Jeff Howard who presented the proposed 2019-2020 Caddo Parish School Board budget. He encouraged Board members to write down their questions and staff will answer them by the end of the presentation. He also stated that at Board member stations are forms for requesting additional information.

Mr. Howard shared a Powerpoint presentation on the proposed 2019-2020 CPSB budget and how staff sought input from the supervisors/directors from each division, as well as the long budget process of discussing what is in the budget, what is needed in the budget, what needs to be cut, and what needs to be added. Mr. Howard said the proposed budget reflects a prioritization of the classroom with Tier I curriculum continuing to be implemented, supports professional development aligned to standards, continues to update classroom technology devices, and keeps the teacher supply money (with the only change this year is funding the \$200 per teacher from the CEEF funds. Because the interest has been so low over the past several years, the District has not distributed these funds; however, the District recently began investing this money in money market funds to draw a larger interest rate and last year this fund grew by over \$400,000. He also noted that the staffing formula has not changed in this budget.

Mr. Howard reported the General Fund Budget revenues reflect ad valorem (property) taxes budgeted with no growth based on the unchanged millage rates approved in May; sales taxes reflect the budget to actual for this year and staff expects this to remain flat for the coming year. He also reported that the District continues to receive a 1½ cent sales tax and the Board approved the Sales and Use Tax Commission budget in May. He added the MFP in the proposed budget is \$202,500,000 and does not currently reflect the growth factor until approved by the Legislature. Mr. Howard reminded the Board that the MFP previously reflected a 2.75% growth factor built into it; however, the State stopped this and Caddo has not received any additional funds. This year the Governor's Office proposed and BESE recommended the growth factor to be 1.375 for this year (half of the 2.75 the District has historically received); however, it will possibly not be confirmed until late June after the budget has been approved, and at that time it will be necessary to revise the 2019-20 budget.

CFO Howard also stated that the budget does not include the current proposed teacher and support staff salary raises as recommended by the State because the State has not approved it as of this date. He also explained the internal budgeting process where staff identified reductions and items to cut from the budget, including supplies and equipment, as well as detailed line items to see if monies budgeted are being spent; and if not, can it be reduced. Travel for professional development was looked at closely to determine why those requesting approval for travel were doing so, and the purpose in attending the conference.

Mr. Howard also noted staff looked at all other additional District-level operating expenses for possible reductions, i.e. three copiers in the reproduction room at Central Office costing the District \$65,000-\$70,000 annually to rent and staff looked at the need for three. He also reported that 132 positions have decreased through attrition and elimination of vacant positions and

including 17 Central Office vacant positions totaling \$1.5 million. Employee study sabbaticals are removed from the budget, a cost of approximately \$480,000 annually; and the Drivers' Education Program was removed due to the number of students now using private businesses that are teaching Drivers Education.

Also, he reported there is no increase in employer or employee contributions to health care, premiums have not changed for four years and they will not change for the coming year. Health insurance rates remain stable rather than reducing benefits with staff not reducing benefits even at a time when others are going to higher deductibles, etc.

Mr. Howard reported that since 2009, the District has set aside over \$21 million (over \$23 million with interest) designated for retiree health care costs (OPEB Trust). He explained this was done several years ago when the Government said that amounts totaling the District's liability of the retirees' portion of health insurance cost must be put on the CPSB books, showing it as a liability on the financial statement. He reminded the Board that the CAFRA report notes the \$800 million liability (which does not mandate funding, but only setting aside a "good faith" amount each year to show you are attempting to provide the funding for this expenditure), and Caddo has funded this through the retiree drug subsidy program (approximately \$1.4 million annually received back from the Government). He also reported that approximately 4 of the State's 65+ school systems agreed to look at this option, and these funds can be used only to fund the retirees' portion of health insurance costs. At this time, approximately \$33 million annually is paid out of Caddo's General Fund to the Health Insurance internal service fund (because we are self-insured) just for the retiree's portion; and this budget proposes and includes using \$9.4 million of the OPEB money to fund a portion of the 2019-20 employer share of retirement premiums.

Several factors negatively affecting the District's revenue over recent years include a decline in MFP as a result of a decline in enrollment (200 for this year), decrease in sales tax revenue, and additional dollars going to charter schools, etc. He further explained that our MFP is based on the October 1 and February 1 enrollments. Mr. Howard noted there are some difficult decisions to make in the future, and it will be important to reduce expenditures by a minimum of 1% annually over the next 24 months. He also shared snapshots of the various funds, i.e. Title I, IDEA, Child Nutrition, and Capital Projects.

Dr. Goree noted that in the timeline Board members will see another scheduled budget work session and staff received questions on the General Fund as well as the Federal Funds.

Ms. Green asked about the elimination of sabbatical study leaves and the cost these leaves are to the District. Dr. Goree said it will save the District approximately \$480,000 for the current year. Ms. Green asked if this has ever been taken away, and Dr. Goree said he is not aware of it. Ms. Green asked if there are plans to bring it back, and Dr. Goree said there is a policy around sabbatical leaves, and the intent is not to take it away from a policy perspective; however, we are still 2% away from where we need to be in making cuts. Also, with the elimination of study sabbaticals, there are many ways people can get credits toward degrees via online courses, etc. He said he is willing to pause and look at this further, but asked the Board to remember that anything we move away from and then start adding back moves us further from the goal. Ms. Green asked how many employees are on sabbatical leave, and Mr. Howard responded approximately 10 a year. Ms. Green asked for clarification of the cost of \$480,000, and Mrs. Atkins explained that \$480,000 was budgeted; however, we currently only have 5 requests and this total is not always used in one budget year. Dr. Goree asked staff to verify if we actually went over the budgeted amount this year. Mrs. Atkins added that while Bossier still grants sabbaticals, DeSoto does not; and in comparing Caddo to similar sized districts, EBR still grants study sabbaticals, budgeting \$300,000 last year but recommending reducing it to \$100,000 for

the 2019-20 school year. Dr. Goree added that in looking at EBR, they are also laying off employees.

Mr. Thompson asked about the library process clerks and the number in Caddo? Mr. Howard responded Caddo has 19 library clerks in the current year budget and 19 in next year's budget. Mr. Thompson asked if crossing guards are still in Caddo's budget? Mr. Howard stated Caddo still has \$12,500 in the budget, which is all Caddo has ever had in the budget. Mr. Thompson asked if we have security coordinators in the budget because he thought we were phasing them out and bringing in police officers. Mr. Howard explained that as employees, they are still in the budget, but as security coordinators leave, they are being phased out. Dr. Goree clarified that the crossing guards are not Caddo employees, but the \$12,500 is what the Board committed to a few years ago in support of a pay raise for them.

Mr. Little asked if he understands correctly this budget is based on a decrease of an additional 200 students, and Mr. Howard said that is correct. Mr. Little asked if these numbers have been verified with the realtors' board, and Mr. Howard said there is a need for better information on estimating these numbers. Dr. Goree added staff is attempting to make the most accurate projections possible; and at this time staff believes in looking at the drop last year, the rate that charters are adding grades, and because Linwood is at capacity, we are at a stabilizing point. He added staff welcomes any information that will help assure we are making accurate projections. Mr. Little asked about the enrollment in charter schools being down, and staff confirmed it is in Magnolia. He also asked if the composite number is the same because the budget for charters has increased slightly. Dr. Goree explained that dollar amount includes other charters (AMI, Pathways) and they have not seen a decrease in numbers. Dr. Goree also added that Magnolia's enrollment is down drastically but even with that, Caddo has had to budget \$10.5 million but Caddo could absorb the students at Magnolia into the regular system at a minimal cost. Choice for families continues to create a unique financial burden on the public school system.

Dr. Douzart asked for clarification on the library employees and if these are librarians or library clerks, and Mr. Howard clarified they are clerks. Mr. Howard added there are 60 librarians in this year's budget and 60 budgeted for next year. Dr. Douzart also asked what happened to the simulators formerly used in Drivers' Ed, and Mr. Howard said staff will follow up and provide a response. Dr. Douzart also asked how many budget work sessions will be held and how will they be conducted? Mr. Howard stated another budget work session is scheduled for Tuesday, June 4th prior to the Executive Committee work session and another on June 6th if necessary.

Mr. Rachal noted that he will schedule a time to meet with Mr. Howard, but asked staff to provide him how many of the 132 positions decreased are through attrition and how many are vacancies. Mr. Howard added that while there may have been vacant positions carried in previous budgets, this budget is a realistic budget based on what is needed and what we can do and we are no longer carrying vacant positions. Dr. Goree said staff listens for repeated conversations and staff will take this into the work it will do to bring back to the Board for next week's meeting.

Mrs. Bell stated that she knows we pay police officers to take care of our children inside of the buildings and she would like to know how many police officers, how many security coordinators, and how many Sheriff's officers we have and how much we pay them. She knows that Title I pays for Title I teachers, and Dr. Goree added that not all teachers at Title I schools are Title I because while some positions are budgeted through Title I, most of the teachers are funded through the General Fund. The superintendent explained that supplanting states whatever we give to one school we must give to all schools, so the funds are used for things above the regular allotment for all schools. Mrs. Bell also asked about sabbatical leaves (including sick leave), and Dr. Goree clarified these are only for educational leaves. Mrs. Bell asked about the policy for extended sick leave because some people take 50 days, come back to work a few days

and take 50 more days, which costs the district money. Dr. Goree said there is an ongoing concern that leaves are used effectively. Mrs. Bell also asked about the 17 vacancies at Central Office and if these positions are vacant because employees are no longer in Caddo. Mr. Howard explained that some are on the academic side and are still employed, but only paid from a different source/fund. Dr. Goree stated that some positions were eliminated because they were vacant and some were moved from the General Fund to a different funding source. In looking at making an additional 2% reduction over the next 24 months, everything at Central Office will be looked at closely. Mrs. Bell asked if an employee in a clerical position at a school retires and there are too many employees (clerical) at Central Office, can an employee in one of these positions be moved to the position at a school rather than hiring someone new. She also asked about the possibility of mechanics holding a CDL to fill in for bus drivers, and Dr. Goree said that all bus drivers are required to hold a CDL license because they drive buses every day. In moving persons from Central Office to a school campus, Dr. Goree stated that the 24-month window will allow for some very strategic planning in what we do; because if we want to see record-setting graduation rates, and academic performance, we cannot do gut reactions but must think it through and be fiscally responsible to the taxpayer base.

Mrs. Bell asked about the number of people traveling to the same conference and if reducing this number might save the district money. She also reminded the Board of the decision that each Board member will only travel to two conferences a year. Dr. Goree stated that it is not a policy but a practice; and if one looks at the budget, they will see where Board travel was cut by approximately 10%; and in the coming year, staff will look very closely as to what trips are taken and the importance. He also reminded the Board that much of the travel is mandatory, i.e. implementation of Tier I Curriculum, professional support, etc. Mrs. Bell asked if she remembers correct that the Board voted on the Magnolia Charter and staff confirmed that is correct. She stated her belief that more needs to go into our marketing efforts.

Mr. Albritton asked about the library clerks staying the same, but the salaries decreasing by \$7,000. Mr. Howard indicated in looking further there is also a library processing center clerk which may be the difference. Mr. Burton explained that we are reducing the allotment for librarians by three positions because over the past 3 years the District has been unable to fill between 5 and 8 vacancies. Academics looked at the sites and talked to HR about the number of teachers certifying for librarians as well as recruiting librarians and attempting to reduce those (vacancies) by three. He also clarified we will not reduce any librarians at the schools. There are vacancies we have never been able to fill, but any existing library position now will remain. He further explained that in combining the staff development center and curriculum, it is believed there is an ample number of clerical staff to assist in processing library material so the library processing center clerk position will be reduced. Mr. Albritton also asked about the increase in the General Admin budget by about 10% (salaries increased about \$130,000) and if that is the Controller position. Mr. Howard said that position would be in Business Services, and this increase in General Admin salaries is about \$30,000 from last year and this year will be approximately \$100,000 less than the current budget. This item includes the superintendent and the chiefs' salaries but there was no one in one of the chiefs' positions for approximately 6 months. Mr. Albritton also asked about the 33% increase in sales tax and 10% increase in tax collection fees, and Mr. Howard explained that the sales tax is a one year increase and it will be back down to about \$300,000 next year because they are purchasing a new accounting system which is a joint venture between the School Board and the City so the city's will increase by the same amount. The tax collection fees were under budget last year so this year's amount is accurate. He also asked about the employee benefits under the General Admin line item showing an increase of approximately \$280,000. Mr. Howard stated that the employee benefits as a whole were under budgeted \$7 to \$8 million and this is part of that.

Mr. Nations asked about the regular increase each year and is it a result of more charter schools and the associated enrollments. Mr. Howard stated that it is Magnolia Charter. He asked if staff

has any idea on what next year might be and Mr. Howard stated it is trending down with Magnolia, but AMI and Pathways remaining constant. Dr. Goree said this was an area last year where we were under budget.

Mrs. Locke asked about a penalty for drawing on the CEEF fund. Mr. Howard said the state law says it must be used for materials and supplies, classroom training for teachers, and we can only draw on the interest. Mrs. Locke also asked about the technology and the extra Title I funds that some receive as well as IT reserves. Mr. Howard again reiterated that staff is looking at everything possible to save money in the General Fund and one idea was to use the CEEF interest (about \$477,000) to fund the materials and supplies money for teachers. She also asked about the use of the \$9.4 million to fund the portion of Caddo's share of the retirees' premium, and Mr. Howard reported there is approximately \$23 million including interest in this fund. Mrs. Locke asked if she understands correctly that this \$9.4 million is a one-time transfer, and Dr. Goree said he sees it as a one-time transfer or two at the most; but if he sees 1% off this year, then it could possibly be only 1% next year. However, he also believes this is a conversation the Board will need to have (how this money is used in the future). Mrs. Locke stated that Magnolia was in existence when she came on the Board and asked if that is when the high school began as well as Pathways, and Dr. Goree agreed that is what increased their numbers. He added that AMI is a viable option for families and is why their number is over 200. Mrs. Locke also asked about "other local" on the pie chart and why this amount is down. Mr. Howard responded this includes interest, income, rental of buildings and land, oil and gas leases, etc. She also asked about Business Services Department which is CFO and if we are hiring more people for this department. Mr. Howard explained the number of people is down by one because of purchasing and the biggest increase is benefits resulting from being under budget.

Mr. Green said the two things he believes will definitely impact the budget are the pupil:teacher ratio and the incentive pay. He asked if staff has looked at merit pay rather than incentive pay? Dr. Goree said we do have merit pay in place in a payout for teachers achieving the highest evaluation category and contractual commitments through Transformation Next that we must honor; however, this will need to be part of the conversation over the next 24 months and how to protect the equity. We currently budget over \$3 million for incentive pay.

Ms. Trammel reiterated earlier comments relative to the crossing guards not being Caddo employees and the \$12,500 in the budget approved by the Board to help in the pay raise given to crossing guards. She also asked about the changes in security and the difference of 13 positions, and Mr. Howard explained that as the security coordinators leave, they are being replaced with a police officer, and Ms. Trammel asked staff to provide her with how much Caddo is paying for the SPD and the Sheriff's officers. Ms. Trammel also asked how the number of clerical positions is determined, i.e. at Central Office, and Mr. Howard responded there is no formula, but the supervisors/directors in each department should be continually analyzing this. Ms. Trammel said with today's technology/computers, she believes there would not be a need for as many people, but there does not seem to be a reduction in the number and would like staff to look at this. She also asked staff how long Caddo will be in a contract with Magnolia, Pathways and AMI when they continue to be F rated schools. Dr. Goree said probably two more years before the Board can take any action and staff can provide a timeline as to when the reviews will come up on the charters. He reiterated that staff is working and talking with principals on how we make sure we sell our District and the great opportunities in our School System. Ms. Trammel asked if there are any other trust funds in the District similar to OPEB, and Mr. Howard stated there are no other trust funds but we have other designated funds. Ms. Trammel asked if there are other funds we can use, and Mr. Howard explained there was about \$20 million in designated funds and the Board approved using approximately \$12 million to plug the gap, and leave a balance of approximately \$8 million in designated funds, a \$3 million undesignated fund balance, \$23 million in the OPEB trust, internal services (health care reserve), and CEEF which is

untouchable. Dr. Goree added the OPEB was used because its direct intention is deferring cost of retirees' health insurance and \$33 million was budgeted for this.

Mr. Riall asked about the debt service of \$59,765,000 and in a couple of months this will increase by approximately \$9 million, and how much do we pay off each year. Mr. Riall asked if we will pay off as much as we incur and Mr. Howard responded probably close, but he can provide this information. Mr. Riall asked about the District living on funded vacant positions in the past and that now being eliminated. What will the District do when that money is not available to transfer to where it is needed. Mr. Howard said the District will have to live within the budget. Mr. Riall asked about the Board's budgeted travel amount, and Mr. Howard responded it is \$36,000 which is a 10% cut from last year's \$40,000. He also added that travel is separate from association dues paid. Mr. Riall reminded Board members that to get required continuing education credits, Board members can get this without traveling. Ms. Green added that she believes it is good to meet with Board members across the state and learn what they are doing and what is working in other districts. Regarding the crossing guards, Ms. Green shared she continues to hear about this via City Council meetings and asked the superintendent if we have been in conversation about this. Dr. Goree stated he has had no conversation regarding this matter; and he did reach out when he learned there was a meeting and Caddo was not invited; however, he understands his, nor the Board President's, presence is not needed at this point, and neither were invited to any meeting. Ms. Green said she does not want them to throw this at the District at the last minute and from the tone of the last City Council meeting, she believes they are adamant about Caddo taking on this cost. Dr. Goree stated the District has been clear in stating that we have no authority to stop traffic or police streets, so it is a City decision and the City will need to deal with the response from the citizens since it is a public safety issue.

Mr. Thompson asked if we must do away with crossing guards, can we use the security coordinators, and Dr. Goree said we cannot use them in the street so the City will need to come up with a plan for how they want to provide that service to the citizens. Mr. Thompson stated he has seen the security coordinator do this at JS Clark. He asked if the police officers we pay can do this, and Dr. Goree said if the City chooses to use them that way, and reminded the Board we do not have police officers in all Caddo elementary schools, which is where the need for crossing guards is the greatest. Ms. Trammel added she asked several in authority about this decision and was told it is a legal matter; and if it is looked at from the correct perspective, they should not be including Caddo Schools in this since we do not have any jurisdiction in or over City streets.

Dr. Douzart asked what happens to an employee's retirement if they retire and begin drawing it but pass away. Dr. Goree said it depends how the retiree has it set up, but any remaining amount of what the retiree put into the retirement plan goes to their estate/family, and any remaining amount goes back into the retirement system.

Mrs. Bell echoed Ms. Green's comments relative to Board travel, and how the workshops at conferences help Board members in sharing and learning from other Board members in Districts similar in size to Caddo as well as how they deal with the same issues.

Mr. Nations noted the decreased amount for General Counsel, and Mr. Howard clarified it has increased slightly. Regarding Mr. Thompson's questions relative to Caddo incurring additional costs for crossing guards and the fact that no one from Caddo was present at the meeting, he verified with Mr. Boucher on the city council that no one from Caddo Parish Schools was invited and how unhappy he was that Caddo Schools was not represented in this important discussion. He believes there will be a meeting scheduled soon in order to discuss this particular matter. Relative to legal expenses, Superintendent Goree stated that sometimes in the community that all these funds go to Mr. Abrams; however, this is not the case, but these funds are used for all legal matters as he works with numerous attorneys in the legal system.

Mrs. Locke also reiterated Mr. Nations' comments that Caddo was not invited to the meeting on the matter of crossing guards. She also asked for more explanation on the employee study sabbatical and how it works. Dr. Goree stated that often times employees can take off a period of time (one semester or a year), and when done, the employee must take a certain number of college hours worked toward. When an employee is on a study sabbatical, their pay is 65% of their salary, so we have to budget accordingly including the teacher/sub that is placed in the classroom during that time. He added if we can eliminate this, will it be what is creating the best opportunities for children in the classroom. As a parent, he would not like it if it was his child's teacher, but he also would not mind it if it had been the previous year and the teacher has returned with additional knowledge. He assured the Board that staff will continue to look at this to determine where we want to be, and this too would be something considered during the next 24 months, but he does not believe there will be a recommendation to fund this as it was funded in the past. Mrs. Locke asked about the 65% and this does keep them with all their benefits, retirement, etc. Mr. Howard verified we pay them 65% of their salary, but we pay 100% of their retirement (even on the extra 35% of their salary they are not receiving).

Ms. Trammel asked if there are any employees in "parked" positions, and Dr. Goree said there are not. He said staff has looked at every one of these positions to determine if there is an academic need for that position, and when they determine it is not, the people in those positions have been moved back into a spot that brings value to the meeting. Ms. Trammel asked if the Board is paid approximately \$117,000 a year, and Mr. Howard responded that is correct. Ms. Trammel said when you add the \$36,000 travel account this totals \$153,000 a year for the Board. She said she and only one other Board member attended the Capitol Conference and other districts had as many as 8-10 Board members in attendance. Dr. Goree added that he talked to Mr. Abrams about any requirement by statute re: Board member compensation, and Mr. Abrams responded that it is in state statute that Board members get paid a certain dollar amount and it is really an expense reimbursement. Dr. Goree also stated that when Board members attend conferences, and while he agrees they receive good information, he agrees there needs to be a reduction in all budgets and make ourselves as responsible as possible.

Mrs. Locke stated that in attending the conferences she believes there should be an organized effort to be able to get as much information and training as possible and then share it with the other Board members upon return.

Mr. Riall asked how much was spent on Board travel last year, and Mr. Howard said he will find it and send it to him. Mr. Riall said he would also like to know how much each Board member spent on travel.

Adjournment. There being no additional questions or discussion, *Mr. Rachal moved, seconded by Mrs. Locke, to adjourn. Vote on the motion carried and the budget session adjourned at approximately 3:30 p.m.*

June 4, 2019
CPSB Budget Work Session

Members Present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell. Also present was Superintendent Lamar Goree and Legal Counsel Reggie Abrams. Mr. Rachal was absent.

President Trammel called the meeting to order at approximately 2:00 p.m. and a quorum was present. Ms. Trammel led the Invocation and Pledge of Allegiance.

2019-20 Consolidated Annual Budget

Mr. Howard stated that the School System has a \$394 million budget, which is down from past years. He said questions from the first budget session were mainly in the areas of staffing, safety and security, charter schools and benefits. He said the staffing formula was untouched in the proposed budget with the priority on the classroom. Positions reduced, without conducting a RIF, were done through attrition and current vacancies. Staff continued to review each position in the School System (every school and every department) to make certain they are aligned to the District's needs. One of the items under Business Services is to replace a vacant supervisor position with a controller, which will not increase the number of positions in the budget. Mr. Howard stated that \$6 million annually has been budgeted for security and of that, \$2.3 million is for police officers and sheriff deputies; and since 2006, the District has budgeted \$12,500 annually for crossing guards. The charter schools represent approximately \$17.6 million in expenses for next year and there will be a 3-year review in 2019 of the AMI Charter, an annual academic audit of Magnolia and Pathways and the charter review of AMI Kids and Magnolia School of Excellence in 2021. Regarding benefits, approximately 24,000 employees and dependents are covered and he reminded the Board of the requirement to cover all dependents, which is stated in the OPEB office of retirement benefits and rules.

Superintendent Goree stated that Mr. Howard addressed, and the staff and the Board have mentioned, the importance of making sure we are fiscally managing as effectively as possible. As an example, he reiterated the vacancy in the budget supervisor position, and staff is proposing a controller and not filling the budget supervisor.

Ms. Green stated she hopes the Board will have the additional budget work session on Thursday, June 6th at 2:00 p.m. because she had calls and questions from constituents.

Mr. Little asked about more detail regarding his questions relative to Medicare coverage for retirees and retiree spouses because he believes there is potential for duplication, i.e. someone who is eligible for Medicare remaining on Caddo Parish insurance and what the financial impact would be. Mr. Howard said he does not know the answer, but he can get it. Director of Insurance Randy Watson explained that we receive funding from the State so we are required to follow the eligibility rules set by the State. These eligibility rules dictate who can be covered, who must be offered coverage, and that we must offer minimum benefits in line with the State, etc. The State says we must offer coverage to anyone actively employed who goes into retirement. Mr. Watson further explained that staff has asked specifically about Medicare coverage under Title 42 of the State Law, and someone who has Medicare coverage cannot be excluded from the choice of our plans. He also said that Caddo Parish did not always collect money for Medicare taxes on its employees, thus there is a mixed population with some having Medicare and some do not. Relative to the cost, Medicare retirees versus non-Medicare retirees, he said when someone goes on Medicare they pay for Medicare Part A through a tax while they are employed, and when they retire there is no further payment for Medicare Part A. Medicare Part B (non-hospital services) is offered for a monetary premium. Mr. Watson explained that retirees are offered an incentive of lowering their premium if retirees take Part B; and when they retire, Medicare becomes the primary payer and Caddo's health only picks up what Medicare does not cover. He added the Medicare retirees actually cost the District less than regular retirees without Medicare, and the loss ratio is very similar to an active employee. In addition to the State

Law requirement to offer it, they do not contribute the highest burden of cost. Mr. Watson also added we do a lot of things to keep these costs under control and there are actually more retirees on the plan than there are active employees. Through time and attrition, however, there will be fewer and fewer non-Medicare retirees, which helps the District's cost.

Mrs. Locke reviewed the money moved from OPEB for the next budget year and asked what we will do the following year. Dr. Goree explained that is the commitment to reduce it by 1% each year and continue the conversation over the next 24 months on what we must cut from the budget so we can get to where we need to be. One of the things not spoken of enough is the District's bond rating because in conversations with the local bond granting authorities, it is necessary to make reductions in the budget through the big ticket items so we can restructure and get within the revenue the District receives. Dr. Goree explained that beginning in November 2018 until today, staff looked at every line item and made every change possible to protect the quality of education for students; but, there are some things that will require strategic thinking relative to what will make it work and not compromise but enhance education. Mrs. Locke reiterated the necessity of the changes staff is proposing that will save dollars, and Dr. Goree agreed and added that a situation of a declining population greatly affects the revenues; and staff will need to make sure it is effectively making reductions in operations as revenue is lost. While he believes staff has not done the best job in this area, it is important that staff get in front of this and protect what we do for children every day. He further stated that difficult decisions were made when recommending items to be cut from the budget, but they were necessary decisions. Mrs. Locke noted the difficulty and the calls received about some of the items being cut.

Mr. Nations asked Mr. Howard who the District pays for the police officers. Mr. Howard said this is paid to the Police Department and the Sheriff's Office. Mr. Nations stated he believes there are still discussions to be held on this matter.

Mr. Riall asked about sabbaticals and if this was taken out of the budget, and Mr. Howard explained that the cost of sabbaticals is not included in the proposed budget. Mr. Riall asked if they were in last year's budget and how much did we have to cut when eliminating this item. Mr. Howard said the District budgeted approximately \$480,000 last year. Mr. Riall asked what the Board will do with the Sabbatical Leave Policy. Dr. Goree said when looking at the sabbatical leave opportunity in the District, it is one that will require some strategic conversations around how that need is met. He stated that when staff looked at items that could be removed and impact a small number of people, things that would probably benefit students in the classroom, this was one of the items not to budget in this cycle. He further stated that he believes this is a perfect example of what Mrs. Locke was bringing forth and that is none of these things will feel good, but at some point these type difficult decisions need to be made. Mr. Riall asked if the MFP increase will help us, and Dr. Goree stated that those monies are not included in the proposed budget, but it would reduce the \$9.4 million we are transferring by the dollar amount represented in what we will receive. Dr. Goree added that it is necessary to look at everything possible to reach the goal of reducing 2% over the next 24 months. Mr. Howard stated that the increase in the MFP will give the District approximately \$1.3 million. Mr. Riall asked if some of the items removed from the budget will be removed permanently or will the Board relook at this for next year. Dr. Goree stated he definitely believes there is a future around discussing the future of sabbatical leaves. In looking at history and what it takes to receive a degree, staff has looked at the many ways in which someone can earn college hours toward a masters or doctor's degree. Mr. Riall asked how many people have applied for it this year. Dr. Goree responded that no one has received an approval but five certified teachers turned in applications for next year.

Mrs. Bell stated her concern around sick leaves and when employees take a medical sabbatical is there a certain amount of time before the employee must return; are there any strict rules related to these matters. Dr. Goree stated the policy outlines the study sabbatical; but the District's hands are tied when it comes to sick leave because the qualification for this particular leave is a letter from a practicing physician. In places where staff feels there is abuse, staff does follow up; and when it is abused, it costs the District to hire a substitute to fill in that position while the employee is out. Mrs. Bell said she believes

we could save money in this area and asked staff for information relative to the number of employees on medical leave. Dr. Goree reiterated that his comments are not to categorize any group of employees, but there is a culture in the system that sick days are personal property and many times at the end of one's career, some will look at creative ways to take the large number of unused sick days. Staff has looked at and discussed ways to incentivize this not happening. Mrs. Bell clarified she is not talking about just teachers, but those in administration, support personnel, maintenance, etc.

Mr. Riall asked how many sick days an employee can accumulate and carry over each year. Dr. Goree said an employee can accumulate as many unused sick days as they want. After all sick days are exhausted, an employee can go into 30 catastrophic days and then go into a bank of 90 days, both of which are provided by law. Mr. Riall asked for clarification and if all of this is provided by law or is some of it policy. Dr. Goree said the sick leave is provided by law. Mr. Riall asked if we pay an employee for unused sick leave, and Dr. Goree said we do up to 25 days sick leave and the state will also convert sick days to time of service up to a year.

Ms. Trammel asked about sabbatical study leaves and the ability for teachers to get their courses online, and would the District grant them the time they need to go to the campus for graduation, and Dr. Goree said absolutely.

Mr. Thompson asked about the \$17.6 million in expenses for Type I charters and when the AMI contract will be up for renewal as well as the Ombudsman contract. Mr. Howard responded the AMI charter review is 2021 and Ombudsman renews annually (it is a district contract). Mr. Thompson asked how much we pay from the District's budget for this contract, and Mr. Howard said \$2 million. Dr. Goree added it was a \$6 million line item but it was cut to \$2 million. Mr. Thompson asked about the Pathways contract and Mr. Howard said it comes up for renewal this year (2019). Dr. Goree said it is coming up for a 3-year renewal on a 5-year contract, so this year Caddo will provide them with direction on what they need to do to improve the programs offering the students. Mr. Thompson said he questions spending that kind of money for charters and if we can cut back on it. Dr. Goree said the goal has to be to increase wherever possible the number of children in the system. Thus, Caddo looks to do some of the things the charters are doing, i.e. marketing, and making sure the parents receive a true picture of what is happening in our schools. Mr. Thompson also asked if in looking at the \$2 million for the alternative school, would it be cheaper if the Board brought it in-house. Dr. Goree responded that has never been the case and it was a large budget cut in 2012 when the decision was made to outsource the alternative programs because of the exorbitant cost to run them. Dr. Goree said staff has looked at the agreements and expressed concerns with families choosing these options when we have options in the District that are more academically successful.

Mr. Abrams reiterated Dr. Goree's comment that the Ombudsman contract saved the District a lot of money when it closed the alternative school at Hamilton Terrace. Also the charter schools in the alternative program actually shield the District from their scores and is preferred by the State Department.

Mr. Riall asked about the \$17.6 million in Type I charters and how much Caddo spent on the three programs, and Dr. Goree said \$2 million; and \$8 million on the 3 alternative programs. He also asked if he understands correctly that the number of students serviced in the program has reduced drastically, and Dr. Goree confirmed that is true; and he added it took a couple of years to get there, but this group has definitely fine-tuned their work.

Ms. Trammel asked about the audit of Magnolia, what will be the outcome? Dr. Goree stated that last year a review was conducted through Mr. Burton's division and based on the information and suggestions provided, they will verify this in this year's audit. Mr. Burton reported that in the past they have only done a review of the elementary program; however, this year they will expand to include the middle and high school program and present it to the Superintendent for approval. Ms. Trammel asked if the Board must approve this or is it something the Board does not have to approve. Dr. Goree stated the Board will need to make that decision in 2021 when it is at the five-year mark. Mr. Abrams added that at that time, it will be up for renewal and the Board will make a determination

based on the Superintendent's recommendation. Board action for renewing the contract is based on Bulletin 126, which outlines the criteria.

Ms. Trammel requested that staff provide a breakdown of the cost of police officers and sheriff's officers on the school campuses. Ms. Trammel also asked about the classrooms and she will talk further with the Superintendent.

Mrs. Bell asked about the budget question dealing with the use of the Convention Center as she believes the Convention Center is the only place large enough. Dr. Goree explained the School System pays the Convention Center a per day rate and when multiple graduations are held within one day, you receive a discounted rate. He does believe there are some alternatives but believes the Convention Center has worked well. While the Convention Center is convenient, Superintendent Goree stated staff will research this further.

Mr. Thompson stated that the Hirsch Coliseum recently invested \$2 million putting in a new roof and other updates and it is currently being used by the hockey team.

Mr. Green stated that to him the attendance at this year's graduations was up and is something to be considered when looking at other venues. He said unless we can go through a bid process, he doesn't believe we are approaching it from a positive stand.

Mr. Nations echoed comments made and asked who owns the coliseum and Mr. Thompson said the State Fair. Mr. Nations agreed this is something to explore.

Ms. Green asked if we would be able to set up the same setting at the Hirsch Coliseum, i.e. big screens, technology, ability to live stream, etc. Dr. Goree said when staff brings back information, it will include what we offer at the Convention Center. She asked if she understands correctly that the Convention Center provides the technology for the graduations and Dr. Goree said it is included in the cost.

Ms. Trammel asked about the Board's annual travel expense, and Mr. Howard said this year it was \$40,000 and next year's proposed budget is \$36,000. Ms. Trammel asked about contract services we could eliminate, and Dr. Goree said some have been eliminated and staff continues to look at other contract services.

Dr. Douzart asked how much has been cut from the budget, and Mr. Howard stated that when staff began to look at the budget and what everyone was requesting, it was a \$25 million deficit, and staff has worked to get it down to the \$9.4 million. From last year's budget, the Board approved \$12.1 million from designated funds and now it is down to the \$9.4 and the deficit for the current year is approximately \$3 million. Dr. Douzart asked how much (percentage) will we save. Mr. Howard said the Board policy states we should have 10-15% of the expenditures in the fund balance. Dr. Douzart asked if we could make that amount 12%. Mr. Howard stated that he met with the bond-rating agency yesterday and learned they do consider the designated funds and some in the OPEB, the health care reserve as part of the fund balance; and when combining these, it is approximately 14.82%. Dr. Douzart stated her need to have the meeting scheduled for Thursday.

Dr. Goree added that when talking about going from 12 to 9, that is the percentage and staff will go from 9 to 4, which will be the percentage for next year.

There being no additional questions, *Mrs. Locke moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the budget worksession adjourned at approximately 3:05 p.m.*

June 6, 2019
CPSB Budget Work Session

Members Present: Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Denee' Locke, John Albritton and Dottie Bell. Also present was Superintendent Lamar Goree and Legal Counsel Reggie Abrams. Mr. Riall, Mr. Little, Mr. Green, Mr. Rachal, and Mr. Nations were not in attendance.

President Trammel called the meeting to order at approximately 2:00 p.m. and a quorum was present. Ms. Trammel led the Invocation and Pledge of Allegiance.

VISITORS

The following visitors addressed the Board: Jon Glover, Board handouts.

2019-20 Consolidated Annual Budget

Superintendent Goree stated that the meeting is to answer any questions Board members may have relative to the 2019-20 proposed budget.

Dr. Douzart thanked staff for expeditiously providing her with the requested information on the AMIKids and Lakeshore. She also asked when the contract between AMI and Caddo is finalized, will the funds for AMIKids go into the General Fund or some other fund. Mr. Howard explained that the MFP funds for AMIKids is funneled through the District and Caddo pays AMIKids their portion, holding back a portion of the costs for transportation, lease, and internet. Dr. Douzart referenced her previous question on the simulators and her belief that these cost over \$100,000. She knew they were provided for safety; and from experience, she knew it was for those who were afraid to drive on the highways without fear of being injured in an accident.

Mr. Thompson asked about staff's response relative to reductions in SPED teachers and paras, and if the affected employees were offered other positions. Dr. Goree said everyone who was in a position has been placed in another position where they were certified to work within the school district. He reiterated there has been no reduction in force.

Ms. Green said if this is the last budget session, what information can staff share that will help Board members answer questions from the public. Dr. Goree noted the importance of this budget being one that protects equity and excellence for children as best as possible within the financial constraints. He said it is also fair to stress to the public that as a School Board and School System we have to look for every opportunity to show fiscal responsibility. He further stated that by the District not cutting everything, we are allowing opportunity to look closely over the next 12-24 months to very strategically and systematically look at everything we do as a school system to determine what things need to remain relative to difficult decisions in cuts. Dr. Goree also said Board members will see a very concerted effort to make sure we are marketing the School District as a viable option for all students. Also, Ms. Green asked how many students has Caddo lost, and Mr. Howard said from last year approximately 1,100. Dr. Goree added when he came to Caddo there were approximately 42,000 and now we are close to 38,000. Also, in looking at the demographics, the drop in the student population also reflects the drop in population in Shreveport. Ms. Green shared continued communication with other School Board members who share what is happening in their districts similar to what is happening in Caddo.

Mrs. Locke announced that on June 18th a Building and Grounds Committee meeting will be held; and if Board members have items for discussion they on the agenda to please email them to Debbie in the Superintendent's Office.

Ms. Trammel asked for two Board members interested in volunteering to work on a project with Susannah Poljak relative to Caddo's preK program to let Ms. Lohnes know. Mr. Thompson said he would like to look at having someone make sure the money is being

spent across the Board with local folks and that small businesses are reaping some of the business talked about to the community members.

Adjournment. *Ms. Green moved, seconded by Mr. Thompson, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 2:20 p.m.*

June 18, 2019
Caddo Parish School Board Meeting

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton, and Dottie Bell. Also present were T. Lamar Goree, superintendent and Reginald Abrams, board counsel.

President Trammel called the meeting to order at approximately 4:30 p.m. and a quorum was present. Mary Trammel, District 6, led the Invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MAY 21, 2019, MAY 28, 2019, JUNE 4, 2019 AND JUNE 6, 2019 CPSB MEETINGS

Mr. Riall moved, seconded by Mrs. Locke, to approve the minutes of the May 21, 2019, May 28, 2019, June 4, 2019 and June 6, 2019 CPSB minutes as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following employees/students. President Trammel and Superintendent Goree presented each with a certificate for their achievement(s). Family members, friends and administrators present were also recognized.

Shreve Island Elementary School Choral Group. A select group of fourth grade students from Shreve Island Elementary School choir shared musical numbers from their annual patriotic musical show Red, White and Blue Day.

Colonel Dames Essay Contest Winners. Susannah Poljak, former CPSB member and representative for the National Society of Colonial Dames of America, was recognized as well as the following winners of this year's essays on the Bill of Rights and the Second Amendment: Emme Clark, James Rushing and Arjun Yusufji, all students at C.E. Byrd High School.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: Kelli Duffield, chief internal auditor; Bruce Daigle, director of transportation; Crystal Barnes, principal, Booker T. Washington High School; and Keri Miles, assistant principal, Caddo Parish Magnet High School.

PUBLIC HEARING ON THE 2019-20 CONSOLIDATED ANNUAL BUDGET

President Trammel announced the public hearing on the 2019-20 Consolidated Annual Budget open and the following visitor addressed the Board: Jon Glover, requested delay in voting on budget.

VISITORS

The following visitors addressed the Board on issues/concerns: Jackie Lansdale, president, Red River United, importance of opportunities to further education; Destiny Duhon, cheer considered a sport, training for cheer coaches; Jon Glover, reconsideration of publishing public comments in minutes; and Marvin Muhammad, contract procurement. President Trammel also recognized in the audience Trاملة Howard, Board member from East Baton Rouge Parish.

ESTABLISH THE AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced the following as the consent agenda items 6.02-6.04, 7.01, 8.02-8.03, 8.06-8.07 and 13.01. *Mrs. Locke moved, seconded by Ms. Green, to establish the agenda and the consent agenda for the June 18, 2019 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mr. Rachal moved, seconded by Mrs. Locke, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

6.02 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by staff and submitted in the electronic mailout.

6.03 Personnel Transaction Reports – Resignations. The Board approved the personnel transactions reports (resignations) as recommended by staff and submitted in the electronic mailout.

6.04 Requests for Leaves. The Board approved the requests for leaves as recommended by staff and submitted in the electronic mailout.

7.01 Consideration for RFQ 02-J-20 Official Journal Publication. The Board approved *The Times* as the Official Journal for the 2019-2020 year as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Cooperative Agreement between CPSB and Village of Mooringsport. The Board approved the Cooperative Agreement between the CPSB and the Village of Mooringsport as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Property/Casualty Insurance Renewals. The Board approved the renewals for the property/casualty insurance coverage as recommended by staff and submitted in the electronic mailout.

8.07 **Consideration of Request to Transfer funds from the Child Nutrition Program (CNP) Equipment Reserve Fund. The Board approved the request to transfer funds from the Child Nutrition Program (CNP) Equipment Reserve Fund as requested by staff and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved the readmission appeals for students MB, ZD and DT as recommended by staff and whose parents are in agreement.

PERSONNEL RECOMMENDATIONS

Ms. Green moved, seconded by Mrs. Locke, to approve 6.01 Personnel Recommendations as submitted by the superintendent in the electronic mailout. Ms. Green asked for clarification that these are not added positions, and Dr. Goree explained they are not, but they are being filled because of retirements. He also stressed that in going through the budget process and there were open positions at Central Office, staff looked closely at whether or not the vacant positions need to be filled. *Vote on the motion carried unanimously.*

CONSIDERATION OF 2019-20 CONSOLIDATED ANNUAL BUDGET

Mr. Rachal moved, seconded by Mr. Riall, to approve the proposed 2019-20 Consolidated Annual Budget and addendum as submitted.

Dr. Goree thanked the Board for working with staff through the budget season with equity, equality and excellence as key in what we do for children. He said the budget presented is the same budget presented in the last budget work session with a few minor changes. Dr. Goree announced that with the 1.37% increase, or approximately \$1.3 million in additional funds, in the MFP to the District from the State, staff looked from an equity perspective to see if anything removed can be placed back in the budget. He said staff is recommending that \$250,000 be placed back in the budget for the sabbatical study leaves, \$126,000 (which includes all benefits as well) to support adding the assistant director of communications; and \$50,000 to support the

technology needs in relocating the Caddo Virtual Academy. He reported this change will affect the budget by adding only \$806,000 back into the budget versus the \$1.3 million. Dr. Goree also reminded the Board that in discussions on the budget were from the perspective of a 2% deficit with a commitment to a 1% reduction over the next two years to protect the programs offered to Caddo students.

Mr. Rachel asked if the \$250,000 for sabbaticals is ample to cover the current requests. Dr. Goree mentioned staff has previously recommended \$500,000; however, in looking at the five past years, staff believes this amount will meet the immediate needs of the district. Mr. Rachal asked if the controller position is included in this budget, and Dr. Goree said it is and has been throughout the budget process.

Mr. Little asked for clarification that this budget has nothing delineated for a STEM high school in downtown. Dr. Goree responded that is correct and this budget does not have anything budgeted or earmarked, nor has there been any conversation around a STEM school in downtown Shreveport. He further stated that the school district has had conversation around a STEM school but nothing about a location.

Mr. Thompson said he understands Caddo was never asked to build a STEM school, but the developer was interested in if a STEM school would work in downtown. He also asked about the \$50,000 for the Caddo Virtual Program, and Dr. Goree explained no one has approached Caddo about any financial obligations of any academic support around a STEM school; and relative to the \$50,000 for the Virtual Program, Dr. Goree explained when moving the program from the Career Center, staff believed the computers would be moved to the new location. However, the Career Center has use for those computers beyond the use by the Virtual Program, so Caddo must purchase laptops to support the Virtual School. Dr. Goree complimented staff for its hard work in presenting the most conservative outlook to the budget and looking for this \$50,000 without coming back to the Board, but in talking about equity, he believes this is a way to use additional revenue and meet the needs of the students.

Mrs. Locke asked, in looking toward next year's budget and the need to look at reducing another 1%, that staff be more proactive in looking at sabbaticals, possibly tweaking the process and providing clarity on it. Dr. Goree knows that anything done in the future will require a systematic process to determine how something is benefiting children.

Mr. Riall asked if staff will reach out to the five who applied for sabbaticals that they are being put back into the budget; and Dr. Goree said if the Board approves this, he and Mrs. Atkins will make those contacts beginning tomorrow making sure the requests made are in the best interest of children.

Mrs. Trammel clarified, in response to the availability of the budget, that the budget has been available for view via Caddo's BoardDocs site.

Vote on the motion carried unanimously.

CONSIDERATION OF CONTROLLER POSITION

Mr. Rachal moved, seconded by Mr. Riall, to approve the Controller Position as recommended by the superintendent and outlined in the electronic mailout.

Mr. Rachal asked how staff determined the need for this new position; and after reviewing the Controller job description, asked for clarification on the importance and difference in the CFO and Controller positions. Dr. Goree shared the budget process this spring relative to the District's finances to make sure we are as fiscally responsible as possible. He said in selecting a new CFO and in looking at past internal and external audits, it was determined there was a definite need for more day-to-day operations in areas such as purchasing, accounting, and payroll to meet the needs in the District. Some issues have repeatedly shown up in audits, and it is believed this person will help create a tighter system. He added the District had a Budget Supervisor position, which is now vacant; and staff will not fill it, but will use the revenue from that position to fund a part of the Controller position.

Jeff Howard noted this position will help produce meaningful financial statements for the Board, will look and analyze accounts on a monthly basis, will implement long-term budgeting and forecasting, will automate overtime reporting and payments, travel, contracts, as well as work closely with accounting and payroll to insure processes in place are being followed and done as efficiently as possible. He shared that a couple of years ago the Federal Government began allowing Districts to apply for reimbursement from Medicaid the cost for special education students transported on our school buses, but there has not been anyone to help implement this causing us to miss out on these funds.

Mr. Rachal asked if he understands correctly that maybe the responsibilities on the Chief Financial Officer probably were more than what was manageable by one person, and Mr. Howard said absolutely. Dr. Goree added that if at any time staff sees the need for the unfilled position, it would have to come to the Board since it is not in the budget.

Mr. Albritton asked that staff provide the job descriptions and differentiation for the two positions.

Vote on the motion carried unanimously.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mrs. Bell announced that Board members will receive letters from students at camp for their annual career fair on July 11th, and she asked that board members respond to these invitations.

Dr. Goree announced a special called CPSB meeting on June 25th at 11:30 a.m. for the purpose of opening bids for the bonds. Mr. Howard also announced the bid process will be shown live as bids are submitted.

Adjournment. *Mr. Riall moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:47 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

June 18, 2019
CPSB Building, Grounds, and Security Committee

Members present - Chair Denee' Locke, Lloyd Thompson, Jasmine Green and John Albritton. Mr. Little arrived at approximately 3:50 p.m. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Mary Trammel, Barry Rachal, Tony Nations, Steve Riall, Dr. Bonita Douzart, and Dottie Bell; and staff members Jeff Howard, Keith Burton, James Woolfolk, Mary Wood, and Steve White.

Mrs. Locke called the meeting to order at approximately 3:10 p.m. The Invocation and Pledge were omitted.

Establish the Agenda as Submitted. *On motion by Lloyd Thompson, second by Jasmine Green, the agenda was established as submitted.*

Confirm the Agenda. *On motion by Lloyd Thompson, second by Jasmine Green, the agenda was confirmed as presented.*

Capital Improvements. Superintendent Goree introduced James Woolfolk, chief operations officer, who introduced Steve White, director of capital projects/construction; Tommy Smith, director of school plant/maintenance, and Roy Murry, director of security.

Mr. White highlighted the status of capital projects, the process for requesting capital projects, the timeline for spending the 2019 bond funds and how it is broken down between capital projects, buses and security, the criteria used for recommending how the \$88.9 million is spent, as well as an update on Opportunity Caddo and how the process works. Laurel Brightwell, realtor, was present to give an update on the status of properties listed with UL Coleman.

Mr. White reported that summer projects are underway; and while the majority are not complete, they should be by the start of school. Small and minor projects, i.e. canopies, are complete; however, the major multi-million dollar projects at CE Byrd, Turner and Keithville are ongoing. He further reported that projects such as auditorium sound systems, exterior lighting improvements at Caddo Heights, Caddo Middle Magnet and Midway, preventative maintenance, as well as grand funded lighting improvements at all high school gymnasiums. Mr. White also presented a list of 2019-20 school year projects that are ongoing, some of which are complete.

Mr. White also shared the process for schools requesting their top three construction/capital projects; and with the total for these requests being approximately \$44 million, how staff prioritizes and develops a list of proposed projects to submit to the Superintendent and the Board for approval. He added they also work with the Maintenance Department to address critical and emergency-type needs in the schools.

Relative to spending the \$88.9 million in bonds approved by the voters, the timeline includes \$9.8 million becoming available on July 31st, and this will proportionately be divided among the three areas of HVAC (\$5.6 million), buses (\$2.8 million), and security (\$1.5 million). He further explained that if, for example, the 25 buses cost less than the \$2.8 million, the remainder of that allotted amount should be placed toward air conditioners that may have failed. He said he also suggested planning the projects so some of the allotted amount may be used to cover critical HVAC failures during the school year. Additional criteria for replacing HVAC systems will be to look at the type of system in place (central plant or a package split system), the age of the units (condition and reliability), and energy consumption to develop a fluid priority list so emergency situations can be addressed. Regarding security, Mr. Murry will be responsible for what is needed; and buses will be addressed through Transportation.

Mr. Murry further explained that in the area of security, there are three types of access control: (1) controlling the entire campus; (2) controlling the building; and (3) controlling the classrooms; and rather than looking at large perimeter fencing around the entire campuses, staff will look to secure the buildings and classrooms. He said audio security (intercom systems throughout the school) is dependent on Mr. Smith providing a list of work orders and how much money has been spent on different intercom systems. The camera system put into place in 2010 has approximately 600 cameras that will no longer receive any type of service from the manufacturers; so one of the first priorities will be to replace the cameras at 6 or 7 schools; and

every year after, assess and determine an additional number to replace. He further said staff is reviewing the single point entry to see exactly the type of each school building, as well as what is happening in the neighborhoods surrounding the school, and prioritize these projects.

Mr. Woolfolk noted that the information on buses included in the packet is the same information highlighted at the Transportation Committee meeting, and reported the District will replace approximately 25 buses. Regarding security at the school, many of the projects will be done while school is in session with minimal impact to the students.

Opportunity Caddo. Mr. White explained the announcement read at every mandatory pre-bid conference stating the requirement that anyone wishing to do business with Caddo must solicit business from a minimum of five small, disadvantaged businesses listed in the Caddo Opportunity Manual of Small and Economically Disadvantaged Businesses. If there are less than five businesses, everyone listed has the opportunity to bid; and contractors are encouraged to solicit business from not only those listed as OCC, but the others as well. Contractors also must provide proof that they solicited from these businesses or their bid can be deemed non-responsive.

Vacant Land and Buildings. Mr. White shared information on vacant land and vacant buildings. He explained that three properties (Black Bayou, Dixie and George Washington Carver) are Property 16 land, which means the land is owned by the state and we must use the land for educational purposes only; and if there is ever a time we cannot use it, the land converts back to the state. At this time, there is a mineral lease as well as a hunting lease on the land. He also pointed out the 20-acre lot on Norris Ferry owned by Caddo.

Laurel Brightwell with UL Coleman, reported that she has listed the Knight Street, MJ Moore, and the Alexander School buildings; and explained the difficulty in marketing these specialty type buildings. At this time, all the buildings are listed at their appraised price knowing that we would entertain and present all offers, but because the economy is not stellar at this time, it is not financially feasible for someone to go in and modify such a facility especially when there is a lot of multi-tenant office space on the market. She reported they are seeing a shift into the suburban market as a result of the paved highway infrastructure, and this will continue as long as someone can get from Southern Loop to downtown in 20 minutes during the rush hour. There is a need for more business to locate in Shreveport; and the economy is a key factor in filling these buildings. She said she will continue to market the properties by being creative and accessible to people. Ms. Brightwell did report on interest in the Alexander building, but none have made an offer.

Ms. Green shared her concerns relative to the old Northside building, and if a decision has been made as to what will be done with this building. Dr. Goree said staff has not made a decision, but the process followed in the strategic plan is to start with holding community meetings. He added this is something the Board will discuss in the upcoming retreat and revamping the strategic plan. Ms. Green said it is not helping her community to have an empty building sitting vacant. She also asked about the upkeep of Newton Smith, and can it be painted, and Mr. Woolfolk said staff will look at where it is on the list of projects. Ms. Green also asked about capital projects funding digital marquees at the schools, as well as when painting at Green Oaks will take place. Tommy Smith responded that staff has addressed everything on the Green Oaks list/work orders. Ms. Green asked about the stabilization, and Mr. White said it is being investigated and information is due back to him this summer, and they want to make sure all the settling that will happen has happened.

Mr. Thompson asked about the list of projects presented that were approved by the Board on October 23, 2018, and Mr. White explained that staff brings the list of projects to the Board each year in September or October, followed by recommendations for designers of the projects once the Board approves them. This timeline allows staff ample time to bid the projects so work can begin as soon as school is out. Staff also clarified that the funds from the \$88 million bond are not the same as the \$20 million the District receives each year for capital projects. Mr. White further clarified that the District will not receive the entire \$88 million at once, but will receive the first allocation of \$9.8 million on July 31st. Staff will bring the project recommendations for this in the Fall, and Dr. Goree reminded the Board that these funds are specific for HVACs, security and buses, and he clarified that many principals request marquees in their capital projects' requests. Mr. Thompson asked how can the stadium and field at BTW be addressed,

and staff explained this would come out of the \$20 million capital projects fund and a request submitted by the principal. Mr. Thompson asked how he, as a Board member, can see the vendors and contracts that will be doing the work, the ones that are under the threshold amount and do not have to come to the Board.

Mr. Rachal asked if our properties are marketed at the appraised value only, and staff confirmed that is correct. Mr. Rachal asked about the process for listing the properties at a reduced price. Mr. Abrams said the policy does not stipulate that and Mr. Rachal asked if the Board is at liberty to reduce the price a percentage? Mr. Rachal also asked if UL Coleman has been given direction to lease any of the properties or are they for sale only. Dr. Goree stated that whenever someone makes an offer, the information is shared with staff; and if staff believes it to be something reasonable, staff brings the offer to the Board for consideration. At this time, staff has not received anything that could be considered a real opportunity; and he added that Alexander is the only property someone has indicated an interest in leasing and that offer was only \$1500 a month, which is not something he would bring to the Board. Ms. Brightwell said at this time, the properties are not listed for lease, and Mr. Rachal suggested that they also be listed for lease. Mr. Rachal asked Ms. Brightwell if she believes we have not received more than one offer because the properties are marketed only at the appraised value; and Ms. Brightwell stated that the full appraised value is steep for the property and it would be good to see what the annual expenses are for these properties. Mr. Abrams explained that the statute reads when using a realtor, the contract shall not exceed six months and a minimum sale price must be provided within the timeframe the sale has occurred as specified by the Board. He suggested that in not being able to get the appraised value, the Board might want to consider doing what it did before, drop it to 85%, and then drop it to the next level and bring it back to the Board to look at. Mr. Rachal said he would suggest that we implement this process from the start so staff does not have to return to the Board each time it drops the price. Dr. Goree said staff can bring back to the committee an item for action. Mr. Rachal asked if bids missing some of the criteria are deemed non-responsive, and Mr. White confirmed that is correct. Mr. Rachal asked if bids are missing a key component in the criteria, is it possible the School District is watching good bids go away and losing money.

Mrs. Bell asked if the HVAC for Turner will be complete this year, and staff responded it will not because it has the large areas, i.e. the gymnasium and the auditorium. She also asked about Timmons, and Mr. Murry said all buildings are different, and Timmons is an example of a campus that will need fencing. Mrs. Bell asked when can she add a T Building for Walnut Hill to the 2020 list, and Dr. Goree reiterated the importance of these requests coming from the principal.

Ms. Trammel asked for clarification on preventative maintenance. Mr. White said when charged to come up with a schedule, Mr. Smith developed and put a team in place that works at night checking the chillers, taking readings, and analyzing the equipment to determine early detection of problems. Ms. Trammel noted the needs at Woodlawn Leadership Academy, and if finger wing schools will be enclosed to make them work. Mr. White said Mr. Murry has indicated the intent is to go through the process, because each school is different, and look at factors that will dictate if a fence is placed around the school. Mr. Murry said the advantage with finger wing schools is most of them are fenced and work has begun on replacing gates and door portals so the outside can be locked but students still have exit capabilities in accordance with Fire Marshal stipulations. Sunset Acres, Judson, Mooretown, et.al. have been fenced but some need to be looked at more closely.

Mr. Riall asked if the District is out from under Pine Valley and Mr. White said it is. Dr. Douzart asked if anyone can enter the boiler rooms and interfere with the boilers. Mr. White said boiler rooms are locked by the staff, and a custodian must open them. Ms. Trammel asked about the things staff receives from the principals, and Dr. Goree explained that the directors work with the principals; and while the principals will not receive everything, the items requested must be prioritized. Mr. White further explained the procedure they follow for getting this information from the schools, even following up when not hearing back from the principals.

Mrs. Locke asked if some of the land (small tracts) can be donated to the community for green space, and Mr. Abrams said it would have to be donated to another governmental entity.

Adjourn. On motion by Mr. Thompson, second by Ms. Green, the meeting adjourned at approximately 4:00 p.m.

June 18, 2019
CPSB Transportation Committee

Members Present: Steve Riall, chair, Lloyd Thompson, Tony Nations, Dottie Bell and Barry Rachal. Also present were Superintendent Lamar Goree and Reggie Abrams, legal counsel, as well as Board members Jasmine Green, Denee' Locke, Raymond Green, Dr. Bonita Douzart and Mary Trammel. Staff members present were James Woolfolk, Keith Burton, Jeff Howard, Mary Wood, Tommy Smith, Steve White, Roy Murry, Bruce Daigle, Virgin Rachal and Raylett Jewitt. Chair Riall called the meeting to order at approximately 2:00 p.m. and the prayer and Pledge were led by Tony Nations.

ESTABLISH AND CONFIRM THE AGENDA AS SUBMITTED

Mrs. Bell moved, seconded by Mr. Nations, to establish the agenda as published. Vote on the motion carried.

CONFIRM THE AGENDA

Mrs. Bell moved, seconded by Mr. Nations, to confirm the agenda. Vote on the motion carried.

INTRODUCTION OF NEW TRANSPORTATION DIRECTOR

Dr. Goree expressed his appreciation for Ms. Virgin Rachal and her role in leading the Transportation Department during the interim period, and he introduced Mr. Bruce Daigle who has been appointed to serve as Director of the Transportation. While there is much to do in recruiting and retaining bus drivers, much work has been done to work toward that need and he is excited about the work that will continue to allow the District to move forward.

Mr. Daigle highlighted a packet of information on the Transportation Department and shared specifics in the Department that included the number of bus drivers and assistants. He also reported the Department consists of a director, one routing supervisor, 3 field supervisors, a transportation analyst, 5 secretaries, 3 dispatchers in the garage, one shop foreman, 2 assistant shop foremen, 22 mechanics and helpers, and he highlighted the responsibilities of each. In addition to maintaining the fleet of buses, Mr. Daigle reported the mechanics also are responsible for maintaining all other CPSB vehicles.

Ms. Trammel noted, for those who may not realize it, that Caddo's buses operate year around because of summer school, summer camps, etc. Mrs. Bell asked if all mechanics and helpers are certified to drive school buses, and Mr. Daigle said they are and all have a CDL. Ms. Rachal clarified that 21 of the 22 have a CDL. Mrs. Bell asked about the Vivian garage, and Mr. Daigle responded there is an assistant foreman, 3 mechanics, and a secretary. Mr. Rachal asked about using 5-10 mechanics daily to fill in as drivers, and the impact this number has on a daily basis. Mr. Daigle explained the Department's strategic plan is to have 13% drivers above what we need to drive in the event of breakdowns, etc.

Recruitment, Job Fairs and Driver Certification Classes. Mr. Daigle reported on the Department's efforts in recruiting that include advertising on the marquees at the schools, job fairs advertised on Facebook, as well as news media outlets. He reported that the first job fair held at the Central Office Professional Department on June 6th had 74 applicants, and all 74 were interviewed and added to the system. Of the 74 applicants, Mr. Daigle reported the District gained 41 drivers. He also added another class will begin next week; and hopefully, these will receive certification before school begins giving the District additional help in needed drivers. There also will be another job fair at North Caddo in Vivian on the 17th.

Current state of employees. Mr. Daigle reported there are currently 252 active full-time and sub operators, 83 attendants and 281 routes servicing the Caddo District students. At this time,

10 drivers are on leave; and to maintain adequate coverage when looking at the previous absenteeism of bus operators, they have set a 6-month attainable goal at 13% for each category; i.e. 37 substitute drivers daily, and 50 additional sub bus operators to cover the current needs. He added it is critical that Caddo has 318 drivers to cover all the substitutes, and the need to add 17 drivers to reach the 13% goal.

Mr. Thompson inquired about the problem of not being able to hire an ample number of bus drivers, and Mr. Daigle stated that since he has been in the Director's position, the Department has held two job fairs and recruited bus drivers that will begin training next week. Hopefully, he added, by the time school begins, some of these vacancies will be filled. Ms. Rachal added that staff recently created a survey to determine issues and reasons (i.e., pay, other employees, discipline, personal) why drivers are leaving the District; and even though at times morale is an issue, they have seen the drivers come together and work well during in-services. Mr. Thompson said he hopes Mr. Daigle will determine the best way to address some of these issues.

Ms. Green asked about the ability to retain the drivers once they complete the CDL classes. Would we put a policy or contract in place to address this? Mr. Abrams stated that when you talk about contracts, the drivers are no longer at-will employees; and when talking about recouping the District's expenses in the training and attaining of CDLs, you must look at the additional cost to recoup these dollars since most of the time it entails filing a lawsuit. Ms. Rachal stated that the cost per driver for training and testing for a CDL is approximately \$4,200 and the cost for a substitute is approximately \$1,500. Dr. Goree said while the District does not have anything in place "with teeth", staff has made efforts to get these drivers to stay.

Mr. Nations asked if it is feasibly possible to hire the 50 we need by the start of school? Mr. Daigle said we probably will not get the 50 by the time school starts, but we only need 13 to have ample drivers to cover the routes. Ms. Rachal explained how the Department handles these type situations to reassign and notify the schools early to let them know what they can expect. Dr. Goree addressed calls Board members receive regarding late buses and what creates this problem; and in some situations, late buses is as good as it will get until we have the adequate number of people in place. Mr. Nations asked staff to explain the pay difference between a mechanic and a bus driver; and Ms. Rachal explained when covering a route, a driver will get \$12-\$16 per run covered, and the mechanic's pay depends on their level and could be between \$16-\$18 for overtime. She added sub operators receive approximately \$67 a day or \$17 an hour.

Mrs. Bell asked everyone to remember part-time compared to full-time and mechanics are full-time; and she stated an important aspect to address is if we can in any way request a minimum one-year commitment to Caddo from those receiving their training and CDL through Caddo.

Ms. Trammel asked how the District can secure keeping the 13 we need to work? Can we move them more expeditiously from sub positions to permanent drivers? Ms. Rachal stated that in working with HR last year, staff came up with a way to encourage employees to work every day for 30 days, to be assigned a route, to be evaluated after 6 weeks, and to gain the ability to advance more quickly toward becoming a driver. Mr. Abrams shared the pros and cons when requiring people to sign a contract if that is something the Board is interested pursuing.

Mr. Rachal inquired about the hourly rate for subs as well as for permanent, and his belief that using our buses for billboards to advertise for drivers is an idea he can support.

While he is not necessarily in favor of a contract, Mr. Nations said he believes we should make them aware of the financial investment the District is making in them to become a driver. Mr. Abrams added that is why he clarified if the Board chooses to implement a contract provision, it must be enforced with everyone or it is useless. Dr. Goree asked if it is correct that a contract can be tied to the completion of the training and only for a time shorter than a year's service, maybe 6 months. Mr. Abrams said he doesn't believe a year's service is a lot for the amount the

District invests in each person going through the training. Dr. Goree said while he doesn't believe it has been 8 to 10, he believes this is something to be reviewed and brought back.

Current state of buses. Mr. Daigle noted that the District will begin purchasing 25 new buses a year with the Scion camera system, GPS radio systems, and pre and post trip inspection software (requires the driver to check the bus when they pick it up and when they complete a trip and park it). He also highlighted the buses by age and the number the District would need to replace in specific time periods based on the law that we must retire buses after 25 years. Mr. Daigle also detailed the new buses that will replace retiring buses, including the per bus cost.

Attendance. Mr. Daigle reported that last year there were 4,150 absence requests from bus drivers, with a minimum of approximately 25 absences a day, with Fridays being the day with the highest absences. So we do not have to use mechanics to fill in for absent drivers, the 37 extra drivers needed will help cover these routes. Ms. Rachal also clarified that these numbers do not reflect if a driver requested to be off on Monday, but was ultimately off the remainder of the week. The numbers only reflect the Monday the driver was off.

Ms. Green thanked everyone for their input in the presentation and asked what happens to the buses taken out of operation. Mr. Daigle explained that some are placed on the disabled list and we use them for parts, they are sold, or they are salvaged. Ms. Rachal stated that Caddo has 338, which is down approximately 30 from prior years, and there are 281 routes. Also, she added we must keep a certain number of wheelchair buses available.

Mrs. Locke asked if bus drivers get paid when they do not drive; and Ms. Rachal said they do until they have used their 12 allotted sick days, at which time they are docked and these absences are reported to Mr. Graham in HR. Mr. Abrams asked about the drivers with multiple absences and if a doctor's excuse is required when they are out. Ms. Rachal responded that staff follows policy and if they are out five days, on the 6th day they are required to bring in a doctor's excuse to return to work. She also said that the current policy states if an employee is habitually absent for three days, they can be requested to bring a doctor's excuse. Dr. Goree added that it was at a meeting of the Transportation Committee that the number 3 was agreed upon because the committee even discussed changing the five days to three days, but it did not happen.

Mr. Green said he believes we must follow policy and whatever else is connected to the contract; and if so, then there will not be a problem. He encouraged all to follow policy and benefits. Dr. Goree assured the committee that does happen, and he believes this 3 days shows the level of consistency.

Mr. Nations asked about the reasons for absences, and Ms. Rachal explained employees do state the reason they are off; and payroll must record whatever they turn in. He added that in serving with Caddo bus drivers in a mutual organization, he noted the main complaint from them was the "state of disrepair" of the buses they were required to drive.

Mrs. Bell said she does not believe absences would be an issue if the absences were not abused and is one reason transportation is continually discussed. She asked how often staff checks the absences on a particular date, because she does not believe there would be an issue if people were not abusing it. Ms. Rachal responded staff looks at absences daily, and monitors the days (Fridays) where there are athletic activities. She said while there may be 30 bus drivers off work on any given day, we still have 260 bus drivers that are dedicated and report to work.

Ms. Trammel also said that with abuse meaning one's job is going undone, she noted that insurance is important to the employees; and at some point they realize they really do not have to come to work but they will continue to have the insurance (benefits). She said we cannot say anything to anyone about being sick and using their days, but can staff speak to an employee if they are absent every Friday and Monday throughout the year? Mr. Abrams explained while it

probably should go through HR, you are only making them aware of a pattern of absences and that they may need to provide a doctor's statement saying it is necessary for them to be off.

Mr. Thompson asked when RFPs will go out for the new buses, and Ms. Rachal explained staff is currently working on the specs and will get with Lisa Lloyd in Purchasing to get dates. She also clarified that the basic specs are provided in the handout, and staff is meeting next week regarding the additional specs, i.e. pre-trip reader software, etc.

Mr. Riall announced that another meeting will be held after school begins, and Dr. Goree added staff will continue to work and provide something on attendance issues to bring back to the committee. Staff will also be able to update the committee on the start of school at the next meeting on September 3rd.

Visitors

Jackie Lansdale, president of Red River United, requested information on how overtime rate is calculated, pay scales, waiting to end of 6th year versus 5th year to get increase; Leola Scott - keeping new drivers, not getting paid in a timely manner (not paid for summer work until August-September); Jon Glover – consider time of next meeting in September so bus drivers can attend; and Mrs. Reames – how bus drivers are treated,

Adjournment. *Mr. Thompson moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 2:58 p.m.*

June 25, 2019
CPSB Special Session

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Denee Locke, Barry F Rachal, John L Albritton, and Dottie Bell. Also present was Board Attorney Reggie Abrams and Chief Operations Officer James Woolfolk. Board members Don Little and Raymond Green were absent.

President Trammel called the CPSB special session to order at approximately 11:36 a.m. and a quorum was present. Mrs. Trammel led the invocation and the Pledge of Allegiance.

Visitors – There were no visitors.

James Woolfolk introduced Jeff Howard, chief financial officer, who introduced Bond Attorney Grant Schlueter, Co-Bond Attorney Jacqueline Scott, and Financial Advisor Lucius McGehee. Mr. Schlueter and Mr. McGehee highlighted for the Board the process for receiving bids on the \$9.8 million in bonds, the outstanding interest rate, how the interest is calculated (average simple interest), Caddo's A+ rating with a negative outlook, closing on July 30th, etc. Mr. Schlueter further explained the negative outlook status and that Standard and Poors assigned this status because of the decline in enrollment and the budget deficit going into the fund balance; and if this status is removed, S&P would expect to see improvement in these areas over the next two years. Also, he said the unfunded OPEB, which is applicable to all school boards in Louisiana, is a factor. Mr. Schlueter also explained the District will receive the \$9.8 million minus expenses.

TO CONSIDER AND TAKE ACTION WITH RESPECT TO ADOPTING A RESOLUTION PROVIDING FOR THE TABULATION OF THE ELECTRONIC BIDS RECEIVED FOR THE PURCHASE OF GENERAL OBLIGATION SCHOOL BONDS, SERIES 2019, OF PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA

Mr. Rachal moved, seconded by Mrs. Locke, to adopt the following resolution providing for the tabulation of the electronic bids received for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana, approving the Official Notice of Bond Sale and Official Statement in connection therewith, and authorizing the President and the Secretary of the Parish School Board to sign copies thereof as evidence of the approval thereof.

RESOLUTION

A resolution providing for the tabulation of the electronic bids received for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019 of Parishwide School District of Caddo Parish, Louisiana, approving the Official Notice of Bond Sale and Official Statement in connection therewith, and authorizing the President and the Secretary of the Parish School Board to sign copies thereof as evidence of the approval thereof.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "District"):

SECTION 1. This Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority") does now proceed in open and public session to open the electronic bids received for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana, authorized and duly advertised for sale by virtue of a resolution adopted on May 16, 2019.

SECTION 2. The official Notice of Bond Sale and Official Statement prepared in connection with the sale of the aforementioned Bonds, and the information contained therein, are hereby approved by this Governing Authority and the President and the Secretary of the Governing Authority are hereby authorized, empowered and directed to sign copies thereof as evidence of the approval of the District.

The bids received on June 25, 2019, for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana, were thereupon opened and read in public session of the Governing Authority, said bids being based upon the maturity schedule set out in the Official Statement and hereinafter set out in these proceedings, said bids being as follows, to-wit:

<u>Bidder</u>	TIC
Raymond James & Associates, Inc.	2.6345%
Hutchinson, Shockey, Erley & Co.	2.7743
Robert W. Baird & Co., Inc.	2.7953

Vote on the motion carried with Board members Steve Riall, Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell supporting the motion. Board members Don Little and Raymond Green were absent.

TO CONSIDER AND TAKE ACTION WITH RESPECT TO ADOPTING A RESOLUTION ACCEPTING THE BEST BID RECEIVED FOR THE PURCHASE OF GENERAL OBLIGATION SCHOOL BONDS, SERIES 2019, OF PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA

Mr. Riall moved, seconded by Mr. Rachal, to adopt the following resolution accepting the bid of Raymond James & Associates received for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana.

RESOLUTION

A resolution accepting the bid of Raymond James & Associates, Inc., of Memphis, Tennessee, for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana.

WHEREAS, pursuant to the provisions of a Notice of Bond Sale dated March 13, 2019, published in the manner required by law, and pursuant to the provisions of a resolution adopted by the Parish School Board of the Parish of Caddo, State of Louisiana, the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "Issuer") on May 16, 2019, bids were solicited for the purchase of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of the Issuer (the "Bonds"), on June 18, 2019; and

WHEREAS, three (3) bids were received for the purchase of the Bonds; and

WHEREAS, this Parish School Board has found and determined and does hereby find and determine that the bid submitted by Raymond James & Associates, Inc., of Memphis, Tennessee (the "Purchaser"), complies with all terms and conditions prescribed by the Notice of Bond Sale and Official Statement; and

WHEREAS, this Parish School Board desires to accept said bid and to take such action as may be necessary to accomplish the delivery of the Bonds to the Purchaser;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), that:

SECTION 1. The bid of the Purchaser for the purchase of the Bonds, a copy of which is annexed hereto as Exhibit A, is hereby accepted and the Bonds are hereby awarded in compliance with the terms of the bid.

SECTION 2. In accordance with the provisions of the Preliminary Official Statement, the acceptance and award of each bid is conditioned on the receipt by wire on or before 3:30 p.m. tomorrow of an amount equal to 1% of the principal amount of the Bonds described in such bid. In the event a good faith deposit for the issue of Bonds is not received timely, this acceptance of such bid and award of the sale of such Bonds shall be void. The amount of the good faith deposit

shall be deposited and credited towards the purchase price of the Bonds without regard to any interest earnings thereon.

SECTION 3. When the Bonds have been properly prepared, this Governing Authority is hereby authorized to deliver the Bonds to the Purchaser upon the payment of Nine Million Eight Hundred Thousand Dollars (\$9,800,000), plus the stipulated premium, if any, and accrued interest to the date of delivery, less a credit of \$98,000 for the amount of the good faith deposit described above.

SECTION 4. The Governing Authority hereby finds that due diligence has been exercised in preparing the Bonds for sale and in preparing the Official Statement pertaining to the Bonds, and in view of that fact, the President and Secretary of the Governing Authority are hereby authorized and directed to execute and deliver to the successful bidder, as set forth herein, at the time of closing, a certificate which shall be substantially in the form of the certificate annexed hereto as Exhibit B.

SECTION 5. The foregoing resolution shall take effect immediately upon its adoption.

EXHIBIT "B"
OFFICIAL STATEMENT CERTIFICATE

I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana, with respect to the Official Statement (the "Official Statement") issued regarding the sale of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019 (the "Bonds"), of Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), DO HEREBY CERTIFY:

THAT, at the time of payment for and delivery of the Bonds and at the date hereof, (i) the descriptions and statements, including financial data, of or pertaining to Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), on the date of the Preliminary Official Statement, on the date of the Official Statement, on the date of the sale of the Bonds and on the date of the delivery thereof, were and are true in all material respects, and, insofar as such matters are concerned, the Official Statement did not and does not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they are made, not misleading, (ii) insofar as the descriptions and statements, including financial data, of or pertaining to governmental and/or non-governmental entities other than the Issuer and its activities, contained in the Official Statement are concerned, such descriptions, statements and data have been obtained from sources which the governing authority of the Issuer believes to be reliable and the said governing authority has no reason to believe that they are untrue or incomplete in any material respect, and (iii) there has been no adverse material change in the affairs of the Issuer between the date of the delivery of the Official Statement and the date of delivery of the Bonds.

PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH,
LOUISIANA

By: _____
Secretary, Parish School Board

Dated : _____, 2019 (Date of Delivery)

Vote on the motion carried with Board members Steve Riall, Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Denee' Locke, Barry Rachal, Tony Nations, John Albritton, and Dottie Bell supporting the motion. Board members Don Little and Raymond Green were absent.

**TO CONSIDER AND TAKE ACTION WITH RESPECT TO ADOPTING A
RESOLUTION AUTHORIZING THE INCURRING OF DEBT AND ISSUANCE OF
GENERAL OBLIGATION SCHOOL BONDS, SERIES 2019, OF PARISHWIDE**

SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA; AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mr. Rachal moved, seconded by Mr. Riall, to approve the following resolution authorizing the incurring of debt and issuance of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form terms and conditions of said Bonds; designating the date, denomination and place of payment of said Bonds; providing for the payment thereof in principal and interest; and providing for other matters in connection therewith.

RESOLUTION

A resolution authorizing the incurring of debt and issuance of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, terms and conditions of said Bonds; designating the date, denomination and place of payment of said Bonds; providing for the payment thereof in principal and interest; and providing for other matters in connection therewith.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Definitions. As used herein, the following terms shall have the following meanings, unless the context otherwise requires:

"Agreement" means the agreement to be entered into between the Issuer and the Paying Agent pursuant to this Resolution.

"Bond" or "Bonds" means the Issuer's General Obligation School Bonds, Series 2019, authorized by this Resolution in the total aggregate principal amount of Nine Million Eight Hundred Thousand Dollars (\$9,800,000), authorized at a special election held on May 4, 2019, and any bond of said issue whether initially delivered or issued in exchange for, upon transfer of, or *in lieu* of any Bond previously issued.

"Bond Register" means the records kept by the Paying Agent at its principal corporate trust office in which registration of the Bonds and transfers of the Bonds shall be made as provided herein.

"Code" means the Internal Revenue Code of 1986, as amended.

"Defeasance Obligations" means cash or Government Securities.

"Executive Officers" means, collectively, the President and the Secretary of the Governing Authority.

"Governing Authority" means the Parish School Board of the Parish of Caddo, State of Louisiana.

"Government Securities" means direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America, which are non-callable prior to their maturity, may be United States Treasury obligations such as the State and Local Government Series and may be in book-entry form.

"Insurer" means, with respect to the Bonds, Assured Guaranty Municipal Corp. ("AGM"), a New York stock insurance company, or any successor thereto or assigned thereof.

"Interest Payment Date" means March 1 and September 1 of each year during the period the Bonds are outstanding, commencing March 1, 2020.

"Issuer" means Parishwide School District of Caddo Parish, Louisiana.

“Municipal Bond Insurance Policy” or **“Insurance Policy”** shall mean the municipal bond insurance policy issued by the Insurer guaranteeing the scheduled payment of the principal of and interest on the Bonds when due as provided therein.

"Outstanding" when used with respect to Bonds means, as of the date of determination, all Bonds theretofore issued and delivered under this Resolution, except:

1. Bonds theretofore canceled by the Paying Agent or delivered to the Paying Agent for cancellation;
2. Bonds for payment or redemption of which sufficient Defeasance Obligations have been theretofore deposited in trust for the owners of such Bonds, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to this Resolution or waived;
3. Bonds in exchange for or *in lieu* of other Bonds which have been registered and delivered pursuant to this Resolution; and
4. Bonds alleged to have been mutilated, destroyed, lost or stolen which have been paid as provided in this Resolution or by law.

"Owner" or **"Owners"** when used with respect to any Bond means the Person in whose name such Bond is registered in the Bond Register.

"Paying Agent" means Argent Trust Company, in the City of Ruston, Louisiana, until a successor Paying Agent shall have been appointed pursuant to the applicable provisions of this Resolution and thereafter "Paying Agent" shall mean such successor Paying Agent.

"Person" means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

"Purchaser" means Raymond James & Associates, Inc., of Memphis, Tennessee, the original purchaser of the Bonds.

"Record Date" for the interest payable on any Interest Payment Date means the 15th calendar day of the month next preceding such Interest Payment Date.

"Resolution" means this resolution authorizing the issuance of the Bonds, as it may be supplemented and amended.

SECTION 2. Authorization of Bonds; Maturities. In compliance with the terms and provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and being authorized at a special election held on May 4, 2019, there is hereby authorized the incurring of an indebtedness of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) for, on behalf of, and in the name of the Issuer, for the purpose of acquiring and/or improving lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the Issuer and acquiring the necessary equipment and furnishings therefor, and specifically for those projects in the ACapital Improvements Plan@ approved by the Governing Authority on January 15, 2019, title to which shall be in the public, and paying the costs of issuance thereof. To represent said indebtedness, this Governing Authority does hereby authorize the issuance of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2019, of the Issuer. The Bonds shall be in fully registered form, shall be dated the date of delivery, shall be issued in the denomination of Five Thousand Dollars (\$5,000) or any integral multiple thereof within a single maturity and shall be numbered from R-1 upward. The unpaid principal of the Bonds shall bear interest from the date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, payable on each Interest Payment Date, commencing March 1, 2020, at the following rates of interest and shall mature serially on March 1 of each year as follows:

<u>YEAR</u> <u>(MAR. 1)</u>	<u>PRINCIPAL</u> <u>MATURING</u>	<u>INTEREST RATE</u> <u>PER ANNUM</u>	<u>YEAR</u> <u>(MAR. 1)</u>	<u>PRINCIPAL</u> <u>MATURING</u>	<u>INTEREST RATE</u> <u>PER ANNUM</u>
2020	\$295,000	5.00%	2030	\$490,000	4.00%
2021	340,000	5.00	2031	510,000	4.00
2022	355,000	5.00	2032	530,000	4.00
2023	370,000	5.00	2033	550,000	4.00
2024	385,000	5.00	2034	575,000	4.00
2025	400,000	5.00	2035	595,000	3.00
2026	415,000	5.00	2036	620,000	3.00
2027	435,000	5.00	2037	645,000	3.00
2028	450,000	5.00	2038	670,000	3.00
2029	470,000	5.00	2039	700,000	3.00

The principal of the Bonds, upon maturity or redemption, shall be payable at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof, and interest on the Bonds shall be payable by check mailed by the Paying Agent to the Owner (determined as of the close of business on the Record Date) at the address shown on the Bond Register. Each Bond delivered under this Resolution upon transfer of, in exchange for or *in lieu* of any other Bond shall carry all the rights to interest accrued and unpaid, and to accrue, which were carried by such other Bond, and each such Bond shall bear interest (as herein set forth) so neither gain nor loss in interest shall result from such transfer, exchange or substitution.

During any period after the initial delivery of the Bonds in book-entry-only form when the Bonds are delivered in multiple certificates form, upon request of a registered owner of at least \$1,000,000 in principal amount of Bonds outstanding, all payments of principal, premium, if any, and interest on the Bonds will be made by wire transfer in immediately available funds to an account designated by such registered owner; CUSIP number identification with appropriate dollar amounts for each CUSIP number will accompany all payments of principal, premium, and interest, whether by check or by wire transfer.

No Bond shall be entitled to any right or benefit under this Resolution, or be valid or obligatory for any purpose, unless there appears on such Bond a certificate of registration, substantially in the form provided in this Resolution, executed by the Paying Agent by manual signature.

SECTION 3. Book-Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Issuer or any other officer of the Issuer is authorized to execute and deliver a Letter of Representation to DTC on behalf of the Issuer with respect to the issuance of the Bonds in "book-entry only" format. The Paying Agent is hereby directed to execute said Letter of Representation. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

(a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or

(b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer nor the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy *in lieu* of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

SECTION 4. Redemption Provisions. The Bonds maturing on March 1, 2030, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2029, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof, plus accrued interest from the most recent Interest Payment Date to which interest has been paid or duly provided for. In the event a Bond to be redeemed is of a denomination larger than \$5,000, a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Bonds are not required to be redeemed in inverse order of maturity. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails, or by accepted means of electronic communication, not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

SECTION 5. Registration and Transfer. The Issuer shall cause the Bond Register to be kept by the Paying Agent. The Bonds may be transferred, registered and assigned only on the Bond Register, and such registration shall be at the expense of the Issuer. A Bond may be assigned by the execution of an assignment form on the Bond or by other instruments of transfer and assignment acceptable to the Paying Agent. A new Bond or Bonds will be delivered by the Paying Agent to the last assignee (the new Owner) in exchange for such transferred and assigned Bonds after receipt of the Bonds to be transferred in proper form. Such new Bond or Bonds shall be in the denomination of \$5,000 or any integral multiple thereof within a single maturity. Neither the Issuer nor the Paying Agent shall be required to issue, register, transfer or exchange (i) any Bond during a period beginning at the opening of business on a Record Date and ending at the close of business on the Interest Payment Date, or (ii) any Bond called for redemption prior to maturity during a period beginning at the opening of business fifteen (15) days before the date of the mailing of a notice of redemption of such Bond and ending on the date of such redemption.

SECTION 6. Form of Bonds. The Bonds and the endorsements to appear thereon shall be in substantially the following forms, respectively, to-wit:

(FORM OF BOND)

Unless this Bond is presented by an authorized representative of the Depository Trust Company, a New York corporation ("DTC"), to the Issuer or their agent for registration of transfer, exchange, or payment, and any Bond issued is registered in the name of CEDE & CO. or in such other name as is requested by an authorized representative of DTC (and any payment is made to CEDE & CO. or to such other entity as is requested by an authorized representative of DTC), ANY TRANSFER, PLEDGE, OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL inasmuch as the registered owner hereof, CEDE & CO., has an interest herein.

As provided in the Resolution referred to herein, until the termination of the system of book-entry-only transfers through DTC and notwithstanding any other provision of the Resolution to the contrary, this Bond may be transferred, in whole but not in part, only to a nominee of DTC, or by a nominee of DTC to DTC or a nominee of DTC, or by DTC or a nominee of DTC to any successor securities depository or any nominee thereof.

March 1, _____	_____%	_____, 2019	_____

PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA (the "Issuer"), promises to pay to:

REGISTERED OWNER: CEDE & CO. (Tax Identification #13-2555119)

PRINCIPAL AMOUNT: _____ DOLLARS

or registered assigns, on the Maturity Date set forth above, the Principal Amount set forth above, together with interest thereon from the Bond Date set forth above or the most recent interest payment date to which interest has been paid or duly provided for, payable on March 1 and September 1 of each year, commencing March 1, 2020 (each an "Interest Payment Date"), at the Interest Rate per annum set forth above until said Principal Amount is paid, unless this Bond shall have been previously called for redemption and payment shall have been duly made or provided for. The principal of and premium, if any, on this Bond, upon maturity or redemption, shall be payable at the principal corporate trust office of Argent Trust Company, in the City of Ruston, Louisiana, or successor thereto (the "Paying Agent") upon presentation and surrender hereof. Interest on this Bond is payable by check of the Paying Agent mailed by the Paying Agent to the registered owner at the address as shown on the registration books of the Paying Agent maintained for such purpose. The interest so payable on any Interest Payment Date will be paid to the person in whose name this Bond (or one or more predecessor Bonds) is registered at the close of business on the Record Date (which is the 15th calendar day of the month next preceding an Interest Payment Date). Any interest not punctually paid or duly provided for shall be payable as provided in the Resolution (hereinafter defined).

During any period after the initial delivery of the Bonds in book-entry-only form when the Bonds are delivered in multiple certificates form, upon request of a registered owner of at least \$1,000,000 in principal amount of Bonds outstanding, all payment of principal, premium, if any, and interest on the Bonds will be paid by wire transfer in immediately available funds to an account designated by such registered owner; CUSIP number identification with appropriate dollar amounts for each CUSIP number must accompany all payments of principal, premium, and interest, whether by check or by wire transfer.

FOR SO LONG AS THIS BOND IS HELD IN BOOK-ENTRY FORM REGISTERED IN THE NAME OF CEDE & CO. ON THE REGISTRATION BOOKS OF THE ISSUER KEPT BY THE PAYING AGENT, AS BOND REGISTRAR, THIS BOND, IF CALLED FOR PARTIAL REDEMPTION IN ACCORDANCE WITH THE RESOLUTION, SHALL BECOME DUE AND PAYABLE ON THE REDEMPTION DATE DESIGNATED IN THE NOTICE OF REDEMPTION GIVEN IN ACCORDANCE WITH THE RESOLUTION AT, AND ONLY TO THE EXTENT OF, THE REDEMPTION PRICE, PLUS ACCRUED INTEREST TO THE SPECIFIED REDEMPTION DATE; AND THIS BOND SHALL BE PAID, TO THE EXTENT SO REDEEMED, (i) UPON PRESENTATION AND SURRENDER HEREOF AT THE OFFICE SPECIFIED IN SUCH NOTICE OR (ii) AT THE WRITTEN REQUEST OF CEDE & CO., BY CHECK MAILED TO CEDE & CO. BY THE PAYING AGENT OR BY WIRE TRANSFER TO CEDE & CO. BY THE PAYING AGENT IF CEDE & CO. AS BONDOWNER SO ELECTS. IF, ON THE REDEMPTION DATE, MONEYS FOR THE REDEMPTION OF BONDS OF SUCH

MATURITY TO BE REDEEMED, TOGETHER WITH INTEREST TO THE REDEMPTION DATE, SHALL BE HELD BY THE PAYING AGENT SO AS TO BE AVAILABLE THEREFOR ON SUCH DATE, AND AFTER NOTICE OF REDEMPTION SHALL HAVE BEEN GIVEN IN ACCORDANCE WITH THE RESOLUTION, THEN, FROM AND AFTER THE REDEMPTION DATE, THE AGGREGATE PRINCIPAL AMOUNT OF THIS BOND SHALL BE IMMEDIATELY REDUCED BY AN AMOUNT EQUAL TO THE AGGREGATE PRINCIPAL AMOUNT THEREOF SO REDEEMED, NOTWITHSTANDING WHETHER THIS BOND HAS BEEN SURRENDERED TO THE PAYING AGENT FOR CANCELLATION.

This Bond is one of an authorized issue aggregating in principal the sum of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) (the "Bonds"), all of like tenor and effect except as to number, denomination, interest rate and maturity, the Bonds having been issued by the Issuer pursuant to a resolution adopted by its governing authority on June 25, 2019 (the "Resolution"), for the purpose of acquiring and/or improving lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the Issuer and acquiring the necessary equipment and furnishings therefor, and specifically for those projects in the Capital Improvements Plan approved by the Governing Authority on January 15, 2019, title to which shall be in the public, and paying the costs of issuance thereof, under the authority conferred by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, being authorized at a special election held on May 4, 2019, the result of which election has been duly promulgated in accordance with law.

The Bonds are issuable only as fully registered bonds in the denomination of \$5,000 principal amount or any integral multiple thereof, exchangeable for an equal aggregate principal amount of bonds of the same maturity of any other authorized denomination.

Subject to the limitations of and upon payment of the charges provided in the Resolution, the transfer of this Bond may be registered on the registration books of the Paying Agent upon surrender of this Bond at the principal corporate trust office of the Paying Agent as registrar, accompanied by a written instrument of transfer in form and with guaranty of signature satisfactory to the Paying Agent, duly executed by the registered owner or his attorney duly authorized in writing, and thereupon a new bond or bonds of the same maturity and of authorized denomination or denominations, for the same aggregate principal amount, will be issued to the transferee. Prior to due presentment for registration of transfer of this Bond, the Issuer and the Paying Agent may deem and treat the person in whose name this Bond is registered as the absolute owner hereof for all purposes, whether or not this Bond shall be overdue and neither the Issuer nor the Paying Agent shall be bound by any notice to the contrary.

The Bonds maturing on March 1, 2030, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2029, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof, plus accrued interest from the most recent Interest Payment Date to which interest has been paid or duly provided for. In the event a Bond to be redeemed is of a denomination larger than \$5,000, a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Bonds are not required to be redeemed in inverse order of maturity. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails, or by accepted means of electronic communication, not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

The Resolution permits, with certain exceptions as therein provided, the amendment thereof and the modifications of the rights and obligations of the Issuer and the rights of the owners of the Bonds at any time by the Issuer with consent of the owners of two-thirds (2/3) of the aggregate principal amount of all Bonds issued under the Resolution, to be determined in accordance with the Resolution.

This Bond shall not be valid or become obligatory for any purpose or be entitled to any security or benefit under the Resolution until the certificate of registration hereon shall have been signed by the Paying Agent.

This Bond and the issue of which it forms a part constitute general obligations of the Issuer, and the full faith and credit of the Issuer is pledged for the payment of this Bond and the issue of which it forms a part. Said Bonds are secured by a special ad valorem tax to be imposed and collected annually in excess of all other taxes on all the property subject to such taxation within the territorial limits of the Issuer, under the Constitution and laws of Louisiana, sufficient in amount to pay the principal of this Bond and the issue of which it forms a part and the interest thereon as they severally mature.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, to happen and to be performed precedent to and in the issuance of this Bond and the issue of which it forms a part to constitute the same legal, binding and valid obligations of the Issuer have existed, have happened and have been performed in due time, form and manner as required by law, and that the indebtedness of the Issuer, including this Bond and the issue of which it forms a part, does not exceed the limitations prescribed by the Constitution and statutes of the State of Louisiana. It is certified that this indebtedness is authorized by and is issued in conformity with the requirements of the Constitution and statutes of Louisiana.

IN WITNESS WHEREOF, Parishwide School District of Caddo Parish, Louisiana, has caused this Bond to be executed in its name by the manual or facsimile signatures of the President and Secretary of its governing authority, the Parish School Board of the Parish of Caddo, State of Louisiana, and the corporate seal of said governing authority to be impressed hereon.

STATEMENT OF INSURANCE
(TO BE INSERTED IN BONDS)

Assured Guaranty Municipal Corp. (AGM), New York, New York, has delivered its municipal bond insurance policy (the APolicy@) with respect to the scheduled payments due of principal of and interest on this Bond to **Argent Trust Company, Ruston, Louisiana**, or its successor, as paying agent for the Bonds (the "Paying Agent"). Said Policy is on file and available for inspection at the principal office of the Paying Agent and a copy thereof may be obtained from AGM or the Paying Agent. All payments required to be made under the Policy shall be made in accordance with the provisions thereof. The owner of this Bond acknowledges and consents to the subrogation rights of AGM as more fully set forth in the Policy.

* * * * *

SECTION 7. Execution of Bonds. The Bonds shall be signed by the Executive Officers for, on behalf of, in the name of and under the corporate seal of the Issuer which signatures and corporate seal may be either manual or facsimile.

SECTION 8. Pledge of Full Faith and Credit. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment. This Governing Authority does hereby obligate itself and is bound under the terms and provisions of law and the election authorizing the Bonds to impose and collect annually in excess of all other taxes a tax on all of the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and the interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer.

SECTION 9. Sinking Fund. For the payment of the principal of and the interest on the Bonds, the Issuer has established a special fund, held by the regularly designated fiscal agent of the Issuer (the "Sinking Fund"), into which the Issuer will deposit the proceeds of the aforesaid special tax and no other moneys whatsoever (other than investment earnings thereon). The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least two (2) days in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund.

SECTION 10. Application of Proceeds. The Executive Officers are hereby empowered, authorized and directed to do any and all things necessary and incidental to carry out all of the provisions of this Resolution, to cause the necessary Bonds to be printed, to issue, execute and seal the Bonds, and to effect delivery thereof as hereinafter provided. The proceeds derived from the sale of the Bonds, including any premium derived from the sale thereof, shall be deposited by the Issuer with its fiscal agent bank or banks to be used (i) for the purpose for which the Bonds are issued and/or (ii) for deposit in the Sinking Fund to be used to pay principal and interest coming due on the Bonds.

SECTION 11. Bonds Legal Obligations. The Bonds shall constitute legal, binding and valid obligations of the Issuer, and shall be the only representations of the indebtedness as herein authorized and created.

SECTION 12. Resolution a Contract. The provisions of this Resolution shall constitute a contract between the Issuer and its successors, and the Owner or Owners from time to time of the Bonds and any such Owner or Owners may at law or in equity, by suit, action, mandamus or other

proceedings, enforce and compel the performance of all duties required to be performed by the Governing Authority or the Issuer as a result of issuing the Bonds.

No material modification or amendment of this Resolution, or of any resolution amendatory hereof or supplemental hereto, may be made without the consent in writing of the Owners of two-thirds (2/3) of the aggregate principal amount of the Bonds then outstanding; provided, however, that no modification or amendment shall permit a change in the maturity or redemption provisions of the Bonds, or a reduction in the rate of interest thereon, or in the amount of the principal obligation thereof, or affecting the obligation of the Issuer to pay the principal of and the interest on the Bonds as the same shall come due from the revenues appropriated, pledged and dedicated to the payment thereof by this Resolution, or reduce the percentage of the Owners required to consent to any material modification or amendment of this Resolution, without the consent of the Owners of the Bonds.

A supplemental resolution, upon the filing with the Paying Agent of a certified copy thereof, shall become fully effective in accordance with its terms.

SECTION 13. Severability; Application of Subsequently Enacted Laws. In case any one or more of the provisions of this Resolution or of the Bonds shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provisions of this Resolution or of the Bonds, but this Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provisions enacted after the date of this Resolution which validate or make legal any provision of the Resolution and/or the Bonds which would not otherwise be valid or legal, shall be deemed to apply to this Resolution and to the Bonds.

SECTION 14. Recital of Regularity. This Governing Authority having investigated the regularity of the proceedings had in connection with the Bonds herein authorized and having determined the same to be regular, the Bonds shall contain the following recital, to-wit:

"It is certified that this Bond is authorized by and is issued in conformity with the requirements of the Constitution and statutes of this State."

SECTION 15. Effect of Registration. The Issuer, the Paying Agent, and any agent of either of them may treat the Owner in whose name any Bond is registered as the Owner of such Bond for the purpose of receiving payment of the principal (and redemption price) of and interest on such Bond and for all other purposes whatsoever, and to the extent permitted by law, neither the Issuer, the Paying Agent, nor any agent of either of them shall be affected by notice to the contrary.

SECTION 16. Notices to Owners. Wherever this Resolution provides for notice to Owners of Bonds of any event, such notice shall be sufficiently given (unless otherwise herein expressly provided) if in writing and mailed, first-class postage prepaid, to each Owner of such Bonds, at the address of such Owner as it appears in the Bond Register. In any case where notice to Owners of Bonds is given by mail, neither the failure to mail such notice to any particular Owner of Bonds, nor any defect in any notice so mailed, shall affect the sufficiency of such notice with respect to all other Bonds. Where this Resolution provides for notice in any manner, such notice may be waived in writing by the Owner or Owners entitled to receive such notice, either before or after the event, and such waiver shall be the equivalent of such notice. Waivers of notice by Owners shall be filed with the Paying Agent, but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

SECTION 17. Cancellation of Bonds. All Bonds surrendered for payment, redemption, transfer, exchange or replacement, if surrendered to the Paying Agent, shall be promptly canceled by it and, if surrendered to the Issuer, shall be delivered to the Paying Agent and, if not already canceled, shall be promptly canceled by the Paying Agent. The Issuer may at any time deliver to the Paying Agent for cancellation any Bonds previously registered and delivered which the Issuer may have acquired in any manner whatsoever, and all Bonds so delivered shall be promptly canceled by the Paying Agent. All canceled Bonds held by the Paying Agent shall be disposed of as directed in writing by the Issuer.

SECTION 18. Mutilated, Destroyed, Lost or Stolen Bonds. If (a) any mutilated Bond is surrendered to the Paying Agent, or the Issuer and the Paying Agent receive evidence to their

satisfaction of the destruction, loss or theft of any Bond, and (b) there is delivered to the Issuer and the Paying Agent such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the Issuer or the Paying Agent that such Bond has been acquired by a bona fide purchaser, the Issuer shall execute, and upon its request the Paying Agent shall register and deliver, in exchange for or *in lieu* of any such mutilated, destroyed, lost, or stolen Bond, a new Bond of the same maturity and of like tenor, interest rate and principal amount, bearing a number not contemporaneously outstanding. In case any such mutilated, destroyed, lost or stolen Bond has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Bond, pay such Bond. Upon the issuance of any new Bond under this Section, the Issuer may require the payment by the Owner of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Paying Agent) connected therewith. Every new Bond issued pursuant to this Section *in lieu* of any mutilated, destroyed, lost or stolen bond shall constitute a replacement of the prior obligation of the Issuer, whether or not the mutilated, destroyed, lost or stolen Bond shall be at any time enforceable by anyone and shall be entitled to all the benefits of this Resolution equally and ratably with all other Outstanding Bonds. Any additional procedures set forth in the Agreement, authorized in this Resolution, shall also be available with respect to mutilated, destroyed, lost or stolen Bonds. The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement and payment of mutilated, destroyed, lost or stolen Bonds.

SECTION 19. Discharge of Resolution; Defeasance. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid to the Owners, the principal (and redemption price) of and interest on the Bonds, at the times and in the manner stipulated in this Resolution, then the pledge of the money, securities, and funds pledged under this Resolution and all covenants, agreements, and other obligations of the Issuer to the Owners of the Bonds shall thereupon cease, terminate, and become void and be discharged and satisfied, and the Paying Agent shall pay over or deliver all money held by it under this Resolution to the Issuer.

Bonds or interest installments for the payment or redemption of which money shall have been set aside and shall be held in trust (through deposit by the Governing Authority of funds for such payment or redemption or otherwise) at the maturity or redemption date thereof shall be deemed to have been paid within the meaning and with the effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their maturity, within the meaning and with the effect expressed above in this Section if they have been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as amended, or any successor provisions thereto.

SECTION 20. Successor Paying Agent; Paying Agent Agreement. The Issuer will at all times maintain a Paying Agent meeting the qualifications hereinafter described for the performance of the duties hereunder for the Bonds. The designation of the initial Paying Agent in this Resolution is hereby confirmed and approved. The Issuer reserves the right to appoint a successor Paying Agent by (a) filing with the Person then performing such function a certified copy of a resolution or ordinance giving notice of the termination of the Agreement and appointing a successor and (b) causing notice to be given to each Owner. Every Paying Agent appointed hereunder shall at all times be a bank or trust company organized and doing business under the laws of the United States of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by Federal or State authority. The Executive Officers are hereby authorized and directed to execute an appropriate Agreement with the Paying Agent for and on behalf of the Issuer in such form as may be satisfactory to said officers, the signatures of said officers on such Agreement to be conclusive evidence of the due exercise of the authority granted hereunder.

The Insurer shall be furnished with written notice of the resignation or removal of the Paying Agent and the appointment of any successor thereto.

SECTION 21. Arbitrage. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code in order to establish, maintain and preserve the exclusion from "gross income" of interest on the Bonds under the Code. The Issuer further covenants and agrees that it will not take any action, fail to take any action, or permit any action within its control to be taken, or permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, the effect of which would be to cause the Bonds to be "arbitrage bonds" or would result

in the inclusion of the interest on any of the Bonds in gross income under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of Bond proceeds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be "private activity bonds".

SECTION 22. Post-Issuance Compliance. The Executive Officers and/or their designees are directed to establish written procedures to assist the Issuer in complying with various State and Federal statutes, rules and regulations applicable to the Bonds and are further authorized to take any and all actions as may be required by said written procedures to ensure continued compliance with such statutes, rules and regulations throughout the term of the Bonds.

SECTION 23. Not Qualified Tax-Exempt Obligations. The Bonds are **not** designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code.

SECTION 24. Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel and co-bond counsel, to effect the transactions contemplated by this Resolution, the signatures of such persons on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

SECTION 25. Publication. A copy of this Resolution shall be published immediately after its adoption in one issue of the official journal of the Issuer.

SECTION 26. Paying Agent Compliance as to Payments Pursuant to the Insurance Policy. As long as the Insurance Policy is in full force and effect, the Issuer and any Paying Agent agree to comply with the following provisions:

(a) At least two (2) Business Days (as defined in the Insurance Policy) prior to each payment date on the Obligations (the Interest Payment Date), the Paying Agent, will determine whether there will be sufficient funds in the funds and accounts established under the Resolution to pay all principal of and interest on the Obligations due on such Interest Payment Date and shall immediately notify the Insurer or its designee (the "Fiscal Agent") on the same Business Day by telephone or electronic mail, confirmed in writing by registered or certified mail, of the amount of any deficiency. Such notice shall specify the amount of the anticipated deficiency, the Obligations to which such deficiency is applicable and whether such Obligations will be deficient as to principal or interest or both. If the deficiency is made up in whole or in part prior to or on the Interest Payment Date, the Paying Agent shall so notify the Insurer or its designee.

(b) The Paying Agent, shall after giving notice to the Insurer as provided above, make available to the Insurer and, at the Insurer's direction, to any Fiscal Agent, the registration books of the Issuer maintained by the Paying Agent and all records relating to the funds maintained under the Resolution.

(c) The Paying Agent shall provide the Insurer and any Fiscal Agent with a list of registered owners of Obligations entitled to receive principal or interest payments from the Insurer under the terms of the Policy, and shall make arrangements with the Insurer, the Fiscal Agent or another designee of the Insurer to (i) mail checks or drafts to the registered owners of Obligations entitled to receive full or partial interest payments from the Insurer and (ii) pay principal upon Obligations surrendered to the Insurer, the Fiscal Agent or another designee of the Insurer by the registered owners of Obligations entitled to receive full or partial principal payments from the Insurer.

(d) The Paying Agent, shall, at the time it provides notice to the Insurer of any deficiency pursuant to (a) above, notify registered owners of Obligations entitled to receive the payment of principal or interest thereon from the Insurer (i) as to such deficiency and its entitlement to receive principal or interest, as applicable, (ii) that the Insurer will remit to them all or a part of the interest payments due on the related payment date upon proof of the Holder's entitlement thereto and delivery to the Insurer or any Fiscal Agent, in form satisfactory to the Insurer, of an appropriate assignment of the registered owner's right to payment, (iii) that, if they are entitled to receive partial payment of principal from the Insurer, they must surrender the related Obligations for payment first to the Paying Agent, which will note on such Obligations the portion of the principal paid by the Paying

Agent and second to the Insurer or its designee, together with the an appropriate assignment, in form satisfactory to the Insurer, to permit ownership of such Obligations to be registered in the name of the Insurer, which will then pay the unpaid portion of principal, and (iv) that, if they are entitled to receive full payment of principal from the Insurer, they must surrender the related Obligations for payment to the Insurer or its designee, rather than the Paying Agent, together with an appropriate assignment, in form satisfactory to the Insurer, to permit ownership of such Obligations to be registered in the name of the Insurer.

(e) In the event that the Paying Agent has notice that any payment of principal of or interest on a Bond which has become Due for Payment and which is made to a Holder by or on behalf of the Issuer has been deemed a preferential transfer and theretofore recovered from its registered owner pursuant to the United States Bankruptcy Code by a trustee in bankruptcy in accordance with the final, nonappealable order of a court having competent jurisdiction, the Paying Agent shall, at the time the Insurer is notified pursuant to (a) above, notify all registered owners that in the event that any registered owner's payment is so recovered, such registered owner will be entitled to payment from the Insurer to the extent of such recovery if sufficient funds are not otherwise available, and the Paying Agent shall furnish to the Insurer its records evidencing the payments of principal of and interest on the Obligations which have been made by the Paying Agent and subsequently recovered from registered owners and the dates on which such payments were made.

(f) In addition to those rights granted to the Insurer under the Resolution and hereunder, the Insurer shall, to the extent it makes any payment of principal or interest on the Obligations, become subrogated to the rights of the recipients of such payments in accordance with the terms of the Policy, and to evidence such subrogation (i) in the case of claims for past due interest, the Paying Agent shall note the Insurer's rights as subrogee on the registration books of the Issuer maintained by the Paying Agent upon receipt from the Insurer of proof of payment of interest thereon to the registered holders of the Obligations, and (ii) in the case of claims for past due principal, the Paying Agent shall note the Insurer's rights as subrogee on the registration books of the Issuer maintained by the Paying Agent upon surrender of the Obligations together with receipt of proof of payment of principal thereof.

SECTION 27. Continuing Disclosure. The Executive Officers are hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in an Appendix to the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 28. Section Headings. The headings of the various sections hereof are inserted for convenience of reference only and shall not control or affect the meaning or construction of any of the provisions hereof.

SECTION 29. Effective Date. This Resolution shall become effective immediately.

Vote on the motion carried with Board members Steve Riall, Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell supporting the motion. Board members Don Little and Raymond Green were absent.

Adjournment. *Mr. Rachal moved, seconded by Ms. Jasmine Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 11:58 a.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

July 23, 2019
Caddo Parish School Board

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond E Green, Denee Locke, Tony Nations, John L Albritton, and Dottie Bell. Mr. Rachal was out of town. Also present were Superintendent Lamar Goree and Board Counsel Reggie Abrams.

President Trammel called the meeting to order at approximately 4:30 p.m. and Tony Nations, District 10, led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 18, 2019 AND JUNE 25, 2019 CPSB MEETINGS

Mr. Riall moved, seconded by Ms. Green, to approve the minutes of the June 18, 2019 and June 25, 2019 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

There were no presentations or recognitions at this meeting.

VISITORS

Jackie Lansdale, president, Red River United, addressed the Board on the following matters: school funding, distribution of state pay raise, back to school checks.

ESTABLISH THE AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued.

Requests for Leaves without Pay. Mr. Albritton asked about staff's recommendation to deny these requests. Dr. Goree explained situations where employees have been on leave for repeated years and staff has determined that based on the continued request and past practices of the district, staff does not recommend approval. He said conversation was held with the employees and they understand; and, the time these employees have earned toward retirement will not be affected. Mr. Albritton also asked how this differs from a voluntary termination, and Dr. Goree said it is not different; but because the Board has approved these in past years, staff chose to bring it forth to the Board for action.

Mrs. Locke asked if she understands correctly that the motion is to support staff's recommendation to not approve these requests; and Dr. Goree confirmed that is correct.

Purchasing Bids. Mr. Riall asked about the cost for juice and if the amount is within the budget. Dr. Goree confirmed it is within the Board-approved budget. He asked about the increase since we began providing the free meals and if it is financed through Federal grants. Kaye Lynch explained that the State reimburses Caddo for all Caddo meals; and even though we provide free breakfast and lunch, Caddo is reimbursed \$3 for lunch and \$1.35 for breakfast, as well as receiving MFP funds. Mr. Riall asked if the expense to the School System did not increase, and Ms. Lynch stated that is correct and Caddo has not experienced an increase in the meal price for a couple of years.

Mr. Thompson asked for clarity on how these products are bid. Ms. Lloyd explained Caddo uses Title 38 competitive bidding processes, and staff puts out bids for the items anticipated we will use for the timeframe based on the bid. Bids are advertised in the newspaper and on Caddo's website, vendors interested in these purchases are contacted, we accept bids competitively, and staff evaluates them to make sure they meet the specifications. Based on these things, staff recommends the low bid offering the best pricing for the items bid. Mr. Thompson referenced the bids of Borden and Foodway; and since Borden sells juice and milk, why it was not a combined bid so they could bid on both. Ms. Lloyd explained the bids are grouped by category and fruit juice has always been bid by itself. Ms. Lynch explained this is how Caddo has always bid these products and it gives more vendors the opportunity to bid on one item. Mr. Abrams confirmed that if they are put together, the bid would have to be for both items, which could limit the number of vendors who bid on it. He further stated there would be nothing to prohibit them from getting together as a joint venture to bid, but the Board would limit the number of opportunities for vendors to bid.

Consideration of Revisions to CPSB Policy DIDA Internal Auditing. Dr. Goree explained the recommended revisions are coming to the Board from the Audit Committee and are within policy.

Revisions to CPSB Policy DJO Opportunity Caddo/Fair Share. Dr. Goree explained the proposed revisions are being brought to the Board based on conversations at Board meetings, as well as looking at recent budget revisions and the language removed from Caddo's policy as a result of working with a third party company to make sure all Caddo policies are in compliance with state and local laws. He further stated this policy looks at how Caddo does business today and the proposed revisions reflect this. Mr. Abrams explained that this CPSB policy is from 2004 and when policies (Section D) were redone, it was left out of the policy manual. He reported that when the administrative liaison officer was eliminated from the budget, this responsibility was moved to the Purchasing Department. He is proposing the policy reads the way it did in 2004 forward with the exception of removing the administrative liaison officer and adding the Purchasing Department for these responsibilities. These revisions also allow staff to come to the Board to report what they have done to comply with the

Opportunity Caddo policy and procedures. Mr. Abrams also noted a needed correction in Roman Numeral V changing administrative liaison to Purchasing Department. Mr. Abrams further reported that the peer review has not happened for a period of time, which is the different groups coming together to discuss Purchasing activities, i.e. Association of General Contractors, National Association of Minority Contractors, National Association of Women in Construction, and the Minority Business Council of the Shreveport Chamber of Commerce. In place of the NAACP (National Association for the Advancement of Colored People), he added the Minority Supplier Institute would be added to the group, as well as the director of construction/capital projects for Caddo Parish and the director of purchasing.

Mr. Little asked for clarification regarding all small and economically disadvantaged businesses and no provision for race, minority or gender status. Mr. Abrams confirmed this is correct and the policy was written in 2004 to make sure we complied with no set asides, nothing based on race, that it would pass constitution muster, no discrimination against any particular group, and it meets the qualifications. Mr. Abrams further stated that it does not mean reports cannot be brought to the Board in the different areas throughout the community, but it is based on economics. Mr. Little also asked how, in making sure this program is applied as intended, does staff insure that large contractors do not branch off and create a small sub-business for the benefit of harvesting money from the CPSB, how are we enforcing and making sure a company is indeed a separate entity and not a sub of a much larger company. Dr. Goree again confirmed that the policy before the Board is actually how the CPSB currently does business; and while Board members will see large corporations in the Purchasing Department and in the Capital Projects/Construction Department, staff has in place policies and procedures to prevent this from happening. Also, he explained there is a qualification for a company to be declared an economically disadvantaged company and eligible to be a part of the program. Mr. Abrams added that the City Council and Parish of Caddo also have these programs and this has been an issue for them as well. Also, the large contractors typically work with Steve White in construction and he not only deals with them but with sub-contractors as well, making sure if sub contractors bid there is someone from that company doing the work.

Steve White stated there is a small group of contractors (less than 50) that staff works with and over the years he has become familiar with the vast majority of them. With new companies enrolling in Opportunity Caddo all the time, they are learning those; and he is unaware of anyone starting a large company and opening a satellite company and claiming Opportunity Caddo status. He also noted there is procedure on the application where a company must prove its financial worth; and while he can't say it is not possible for someone to get beyond this step, there is a very thorough system in place. Mr. White noted the number of companies that have come off the list because their financial worth increased to a point where they no longer met the criteria, and he added it is his procedure if there is a company attempting to take advantage of the CPSB, they no longer are considered for jobs. Mr. Little asked if the companies' success and possibility of losing their economic disadvantaged status is dependent upon self-reporting or is there some way staff can identify their status via tax filing. Ms. Lloyd said ultimately the goal would be for people/businesses to fall off being eligible for this status because of their success. She also added Caddo partners with other local agencies, using it as another level of certification and re-certification, i.e. the City has a standard group/assigned personnel that we depend on for certification and re-certification work each year.

Mary Trammel stated that when policies are 15 years old, it is evident we are behind in keeping up with today's trend.

Revision to CPSB Policy CCA Organizational Chart. Superintendent Goree explained that the organizational chart presented reflects Board-approved budget items; however, with the consolidation, staff is bringing back the proposed changes and what the new Organizational Chart will look like. All positions, changes are approved in this year's budget. Mrs. Locke asked for explanation of the "dotted" line to the Chief Internal Auditor as well as the Communications Director. Dr. Goree explained the dotted line from the Board to the Auditor allows the Chief Internal Auditor the ability to approach the Board chair or Audit Committee chair for support regarding certain matters. The solid line to the Superintendent is because the Superintendent evaluates the Chief Internal Auditor. Regarding Director of Security and Director of Communications, Dr. Goree said these two positions are at the senior level but not Chiefs; and, he conducts their evaluations and provides leadership.

Mr. Nations asked for clarification on the specific revisions to the Org Chart, and Dr. Goree said they are (1) Academic Affairs Division consolidation, title changes, adding 2 directors; and (2) the addition of a Controller position. In response to the dotted line to the Transformation Zone Officer, Dr. Goree explained that in the event the Transformation Officer needs to move more quickly in the work being done, it is appropriate to come to the Superintendent. Mr. Abrams added this was a requirement in the transformation agreement. Dr. Goree concurred and this is typically how these type programs are set up.

Mr. Riall asked about the status of hiring a Controller, and the Superintendent explained the position was posted, and staff is waiting on Mr. Howard's return before moving forward.

2019-2020 Pupil Progression Plan. Superintendent Goree announced no changes are recommended and the plan presented is the same plan approved by the Board last year.

Legal Update on David Meshell, et al v. Caddo Parish School Board, Suit Number 556,756B, Claim #5417208. Mr. Abrams explained if the Board does not agree to place this item on consent, the Board will need to go into executive session to discuss it. All backup information is provided under Confidential cover.

President Trammel announced the following as the consent agenda items: 6.02-6.04, 7.01, 8.02-8.06, and 13.02.

Following discussion, Mrs. Locke moved, seconded by Mr. Riall, to establish the agenda and the proposed consent agenda for the July 23, 2019 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Locke, moved, seconded by Mr. Riall, to confirm the consent agenda. Vote on the motion carried. The following is a summary of the Board's action on the consent agenda items.

6.02 Personnel Transaction Report (Resignations). The Board approved the personnel transactions reports (resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals. The Board approved the administrative contract renewals as recommended by staff and submitted in the electronic mailout.

6.04 Request For Leave Without Pay. The Board approved staff's recommendation to deny requests for leaves as submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout on the bid tabulation sheets: (1) Borden, Jones Distributing & Oak Farms for Bid SFS-723 Milk and Dairy Products; (2) Foodway for Bid SFS-724 Fruit Juice; and (3) Flowers Baking, Bid SFS-725 Bread and Bread Products.

The bid tabulations are filed in the official papers of the July 23, 2019 meeting.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Revisions to CPSB Policy DIDA Internal Auditing. The Board approved the proposed revisions to CPSB Policy DIDA Internal Auditing as recommended by the CPSB Audit Committee and submitted in the electronic mailout.

8.04 Consideration of CPSB Policy DJO-Opportunity Caddo/Fair Share. The Board approved the proposed revisions to CPSB DJO-Opportunity Caddo Policy as recommended and submitted in the electronic mailout.

8.05 Consideration of Revised CPSB Policy CCA Organizational Chart. The Board approved the revised CPSB Policy CCA Organizational Chart as submitted in the electronic mailout.

8.06 Consideration of Pupil Progression Plan for 2019-2020 School Year. The Board approved the 2019-2020 School Year Pupil Progression Plan as submitted in the electronic mailout by staff.

13.02 Legal Update on David Meshell, et al v. Caddo Parish School Board, Suit Number 556,756B, Claim #5417208. The Board approved the settlement of David Meshell, et al v. Caddo Parish School Board, Suit Number 556,756B, Claim #5417208 as submitted in the electronic mailout.

SUPERINTENDENT'S REPORT

Superintendent Goree made the following announcements: (1) Yazzy Student Performance Group will perform a tribute to Aretha Franklin on Friday and Ms. Lohnes will secure tickets for those interested in attending. (2) Caddo will hold "Unite the Spark", the Caddo Parish New Teacher Summit on August 6 and 7. (3) Attorney General Jeff Landry's office is offering the opportunity for Board members to earn credit as well as learn about the Civil Law Training Program. Available dates and locations are on the flyer at Board member stations. (4) Caddo's Retiree Celebration will be Thursday, July 25th, at Southwood High School from 3-4:30 p.m. (5) Dr. Goree updated the Board on Mr. Howard's recuperation. (6) The Superintendent reminded the Board of the scheduled Board Retreat on Tuesday, July 30th beginning at 8:30 and encouraged the Board's full participation in this retreat.

BOARD MEMBER ANNOUNCEMENTS AND REQUESTS

Mrs. Bell noted a thank you at Board Members' stations from Faith Johnson for supporting the Louisiana National History Day students from Huntington High School and represented the District in Maryland. She applauded them for their good job and for the Board members who contributed toward this trip. Mrs. Bell also asked everyone to keep the Gaut family in prayer as this parent's children are in Caddo Schools. (son at Byrd and daughter at Judson).

Mr. Nations announced that he will not be able to attend the "Unite the Shark" New Teacher Summit because of his work schedule. Mr. Riall clarified the Board's participation to meet and greet the new teachers is from 7 a.m. - 9 a.m.

Mr. Thompson reminded the Board that on August 3rd at Antoine Park, he will host the 13th annual back-to-school give away for the children in Allendale/Lakeside community from 11 a.m. - 2 p.m.

Mr. Abrams announced that Chief Judge Carl E. Stewart will receive the 2019 Devitt Award on October 17, 2019 in a ceremony at the U.S. Supreme Court. He added this is one of the highest recognitions awarded an Article III judge.

ADJOURNMENT

Mr. Riall moved, seconded by Ms. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:24 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

July 30, 2019

The **Caddo Parish School Board (CPSB)** held a retreat on Tuesday, July 30, 2019 at approximately 9:00 a.m. at The Port, 6000 Doug Attaway Blvd., Shreveport, LA. Those in attendance were Board members Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, Reggie Abrams, legal counsel, and staff members Mary Wood, Keith Burton, Diane Atkins and James Woolfolk were also in attendance. Dr. Bonita Douzart was absent.

President Trammel called the meeting to order, welcomed everyone, and led in the prayer and Pledge of Allegiance.

Goals and Objectives. Superintendent Goree thanked everyone for taking the time to attend. He shared highlights of Caddo on the National scene, as well as of the 2018-2019 school year; and the areas of equity, innovation, implementation of curriculum with fidelity, recruiting/retention and fiscal responsibility were discussed as priorities for the 2019-20 school year. Board members participated in a small group rotation activity that allowed every Board member to participate and share ideas and ways to move forward in these areas of priority, including the pros and cons of suggestions, as well as prioritizing the work for success in moving forward for the children in Caddo Parish.

District Facilities. Dr. Goree shared highlights of efforts to right-size the District and addressed the population shifts and declines with a focus of sending students to better learning environments than where they were. Information on school closures and consolidations, district properties for sale and/or lease, and utilization of current facilities was discussed.

One Board/One Voice. President Trammel highlighted CPSB Policy BBBF adopted by the Board in 2014 establishing a process for Board members speaking with the media regarding Board actions and work in the school system. The importance of the Board's message to the community being consistent was stressed.

Strategic Planning. Since the creation of Caddo's strategic plan in 2014, the District has met approximately 95% of its goals; and it is now at a point where the Board must make important decisions in updating the strategic plan and aligning the work over the next 3-5 years. Board members participated in a strategic planning activity to share ideas on what must be included in the strategic plan in moving forward and seeing success.

Adjournment. The retreat adjourned at approximately 2:45 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

August 6, 2019
CPSB Audit Committee Meeting

Members present: John Albritton, chair; Denee' Locke, Raymond Green, Dr. Bonita Douzart; and Superintendent Lamar Goree and Board Attorney Reggie Abrams. Also present were Lloyd Thompson, Mary Trammel, Jasmine Green, Barry Rachal, and Dottie Bell, as well as staff members Kelli Duffield, Jeff Howard, James Woolfolk, and Keith Burton.

Chair Albritton called the Audit Committee meeting to order at approximately 3:00 p.m. and led the Invocation and Pledge of Allegiance.

Establish and Confirm the Agenda. *On motion by Mr. Green, second by Dr. Douzart, and carried, the agenda was established and confirmed as presented.*

Operational and School Audit Status/Updates. Chair Albritton stated this is the first Audit Committee meeting for sharing status updates with the committee; and he asked Kelli Duffield, chief internal auditor, to begin by sharing what some of the audit terms mean. A summary of the departmental audits was provided, and Ms. Duffield explained that the Auditing Department conducts operational audits (departments) and school audits, as well as investigates reported thefts, frauds, misappropriations and assists the school bookkeepers.

Ms. Duffield highlighted the timeline and process for conducting the audits, meeting with staffs on the audit, and presenting them to the Audit Committee. She provided a listing by department of all completed audits (14 from October 2011 through February 2019), and explained the timeline for departments to address any findings of the audit before a follow up is conducted.

When Mr. Albritton contacted her for an update on the audits, the Auditing Department reached out to the departments' directors, asking them to complete a provided template of the audit findings with the status of addressing the findings as well as an estimated date all findings will be resolved. Following this, they completed their audit-planning tool to include their action plan and a date that the Audit Department will actually perform the follow up. The action plan dates are based on the risk factors of each finding, and whether they are a low, medium or high risk to the District. The seven follow ups for the 2019-20 school year were listed, along with the five scheduled for the 2020-21 school year and two for the 21-22 school year, all based on dates given to the Auditing Department by the directors. The Auditing Department also allows a minimum of six months to address and implement corrections to findings.

Ms. Duffield reported that staff is looking at the NAPA agreement from the Transportation audit to determine if the terms of the agreement are being followed, if the numbers are where they need to be, and if we are saving money. A report should be available by the next meeting date.

She said at this point, the plan is to finish all the existing audits, conduct follow ups, and provide status updates to the Audit Committee before moving forward with anything new. Dr. Goree added the goal this academic calendar year is to hold quarterly committee meetings and bring an update on a number of audits at each meeting so these are completed this calendar year.

Dr. Douzart asked if we are restricted to two audits per year, and if it costs more to conduct additional ones per year. Ms. Duffield responded that is the average number in addition to the annual school audits conducted each year. She further explained that a departmental audit, depending on the department size, could take up to a year to complete because of the many elements within the department; but it does not cost any more. She added a third auditor was hired; and hopefully, the department will be able to complete more audits.

Dottie Bell asked for clarification on symbols and terminology used in the information presented, and Ms. Duffield highlighted and clarified this information. Mr. Thompson asked for clarification on the reference to "open findings"; and following staff's explanation, he requested that staff provide him with a copy of the referenced audit findings.

Ms. Duffield also provided an overview of the school audits and explained that they now address these with a more risk-based approach, addressing internal controls based on the risk level factor. Schools are placed on a rotation based on their volume, the principal, the bookkeeper, as well as their last audit report; and while every school is touched annually, it may be a more limited scope depending on the risk level of each school.

Mr. Thompson asked about the timeline in the areas where there has not been a review, and Ms. Duffield explained the plan is to complete final follow ups in 2022, maybe sooner; and at that point, focus on getting the remaining departments back on track. While some departments have not been audited, she added parts of departments have been audited. Dr. Goree also

added that in looking at Academics, there are areas in that division, i.e. SPED, testing, accountability, that will create some challenges when audited; but the goal is to complete the work in progress and get to a point in 2020 where we can prioritize and begin another audit.

Mr. Rachal asked if any of the departments/schools not audited are considered to be high risk, and Ms. Duffield responded that a risk-level has not been assigned to them at this time, but they do have an anticipated order in which they will conduct them. Mr. Rachal also asked Mr. Howard if he considers any a high risk, and Mr. Howard said while he would not say high risk, he would say he would like to audit Insurance because of the amount of money that goes through this division and the possibility that the director will retire in the near future. Also, he has asked Auditing to look at NAPA to determine if this agreement is saving the District money. Mr. Rachal also asked about the clarification of what will be done with the 7 audits, and Ms. Duffield explained that Auditing will do a follow up to the follow up since there are still open findings. He also asked about the length of time to do an audit, and Ms. Duffield stated they have not received from the director a date when he anticipates completing the remaining three findings. While this audit was a relatively clean audit when done, i.e. internal controls were in place and additional improvements made since follow up began, and in looking at Transportation and other departments, they believe Maintenance has a good handle on what they are doing. Understanding the amount of time involved to follow up, he asked if departments are providing any type of progress report on a regular basis relative to where they are in addressing the findings. Ms. Duffield stated they have not placed a definitive timeline on the departments but have depended on staff to enact the recommendations from Auditing; and they can only follow up when they have been given adequate time to address the findings. He said he believes requesting directors to provide a progress report quarterly on the findings might help in staying focused on meeting the requirement to address the findings in a timely manner.

Mr. Albritton reminded the committee that this is the beginning of a new process and modifications will be made in moving forward; and if the response is what we are hoping, the follow up will show zero open findings. He added we are comparing what they are doing to policy, and it has been years since the policies have changed. Also, it may be that what is being done is different from policy, but it is an open policy; and the new process is being recommended. He also clarified that in going through the process, Auditing is not running the school system and management, even though receiving the audit findings, may not agree with them; but directors are responsible for the different areas and determining if there is a better way.

Dr. Goree stated he is confident that over the past five years things have changed as a result of audits, yet it may not have been relayed back to Auditing. This is an opportunity to formalize the process so staff, as well as Auditing and the Board, knows what systemic improvements have been made. He also believes public reporting back on the audits will help improve the process. Dr. Goree added that while most fear auditors, this is helping create conversations.

Mrs. Bell noted the difference in high school and elementary school PTAs. Ms. Duffield stated that CPSB Policy DFA addresses Booster Clubs, PTAs, and outside organizations funds management, and the individual PTAs and Booster Clubs are responsible for maintaining and handling outside checking accounts in accordance with CPSB policy. She added that policy stipulates what they must adhere to in order to be considered a formal PTA or Booster Club, i.e. all fund raising must be approved by the principal even though they have their own outside checking account. They are a formal 501c3 corporation and are allowed to have raffles, and fund raise in the name of the school, but because they are using the name of the school, they must follow the guidelines set forth by the Caddo Parish School Board. Dr. Goree reiterated that some may work through the schools in smaller settings, but most operate independently. Ms. Duffield also stated that some of the smaller schools that do not have large PTAs or they do not have the people who want to handle the money may reach out to put it on the school's books, but it is restricted. Mrs. Bell asked who audits the PTAs, athletics, and school fund raising. Ms. Duffield explained that if the school's principal requests Auditing to audit the PTA funds, they will do so with full authority to do so based on Policy DKA. The internal audit department also audits all fund-raisers; and will pull samples of a school's fundraisers if they are considered a medium or high risk audit to make sure they are following policies and procedures in place. Mrs. Bell said she would like to see a copy of the policy. Also, policy requires that bank statements must be mailed to the principal at the school, and principals are trained how to look at and understand them.

Ms. Green announced that Green Oaks has an app and everything, dues, event tickets, etc. can be paid through this app. Ms. Duffield explained that approximately 5 years ago, the District researched and adopted the online payment vendor "Pay for It", and schools are being added gradually (currently at 22 of 58 schools using). She further explained that schools at all levels (elementary, middle and high) are added based on volume, turnover of the school's

bookkeeper, volume of participation at the school, and last year they collected \$1.2 million online from the 17 participating schools, with the money going directly into the individual schools' accounts. It also provides for parents to log-in and see their student's information, all the fees, etc., bookkeepers import the money daily and all information is housed on an external, secured site. A fund-raising portal was added last year with approximately 20 schools hosting/participating in approximately 40 events. Mr. Howard added that when attending State meetings, it is apparent that Caddo is leading the way as far as on-line payment options. Ms. Duffield also added that the cost for the program is zero but we do pay 10 cents per child to back up the information to the cloud (an annual cost of approximately \$6,000).

Mr. Thompson asked for clarification on bank statements being sent to the principal or is a copy sent to the principal? Ms. Duffield confirmed that it is sent to the principal at the school and it is the principal that opens the statement.

Dr. Douzart shared her experience in keeping the drivers' education records in a notebook.

Ms. Trammel clarified her understanding that staff will move forward with the follow ups and at the next meeting, more specific information will be provided in the grid, including the steps for conducting the difficult audits in Academics. Ms. Duffield stated that staff develops a plan before an audit, including what policy states about individual departments, state and federal guidelines, input from employee interviews for possible additional steps in the audit, and making sure the Board policies are followed efficiently and effectively.

Visitors. The following visitors addressed the Audit Committee: Jackie Lansdale, president, Red River United, policy on PTA audits and if the principal is the only one who can call for this audit.

Adjournment. There being no additional business, *Mr. Green moved, seconded by Mrs. Locke, to adjourn. Vote on the motion carried* and the meeting adjourned at approximately 3:52 p.m.

August 6, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 5:00 p.m. The invocation and Pledge of Allegiance were omitted.

PRESENTATIONS

LifeShare. Phil Maxfield, account and social media manager for LifeShare Blood Centers, shared his appreciation for LifeShare to have the opportunity to work with the schools in Caddo. He reported their current efforts include a new pilot program (Life Scholar Program) in the high schools, which will help them in raising funds for the schools. He explained this program is based on percentage of actual attendance and if they collected units equal to 40% of ½ of the number of sophomores and all the junior and senior classes, the school will receive a \$500 scholarship. If they collect 50%, the school will receive a \$750 scholarship. In the disadvantage to the large high schools, he added they have attempted to put everything on level footing. He explained the schools have done an outstanding job in participating in the blood drives; and with the change in the program, those who have not received any money in the past, it is projected they could earn (collectively) \$8,600. Knowing that schools are always looking at different projects to earn funds, they believe this will help make that happen; as well as their efforts to team up with the PTAs in the schools. Mr. Maxfield added that in the Honor Cord Program, students who donate at least six units of blood during their high school years will receive their honor cord. This program also allows for family and/or friends of any high school student to donate on their behalf and the student will receive the credit. He also reported that LifeShare is strongly encouraging student field trips to the LifeShare Blood Center for them to see what happens when someone donates blood. New Regional Director for Northwest Louisiana Bobby Carnie, and Brandon Baker, who assists with Caddo Parish Schools, were introduced. Mr. Maxfield also reported there is a National crisis in available blood and LifeShare is reaching out to educate the teachers and students on this need and opportunities for them to participate in this program. He explained for a school to qualify for available grants, they must sponsor two blood drives during the year.

Mr. Rachal expressed appreciation for all that LifeShare does in the community to address this important need and for the opportunity for field trips to further educate everyone in the community.

Mr. Nations also thanked Mr. Maxfield for his presentation and for featuring Eric Harper, graduate of Captain Shreve on the cover of the LifeShare brochure.

Miles for Smiles. Jasmine Green stated that a couple of years ago she presented a dental health care provider and introduced Dr. & Mrs. Jeremy Alexander with Miles for Smiles. Anika Alexander, education coordinator for Miles for Smiles, introduced Kenya Roberts, principal at JS Clark, and Jesse Scott, principal at Southern Hills, who shared testimonies of the positive impact Miles for Smiles has had on the students in their schools. Ms. Alexander shared the Miles for Smiles' mission is to meet the needs of all the students; and as a full, comprehensive dental provider, they can do everything, i.e. exams, cleanings, sealants, on site and making certain they have parental consent before they commit to anything else for children. With the State of Louisiana ranking 47th in oral health satisfaction in adults, it is important that students have access to dental care and receive treatment as early as possible. Ms. Alexander also reported that Miles for Smiles is on school campuses all the time stressing the communication with the parents of the students about oral health. This program is available to all students and last year they saw approximately 3,000 students through various school system functions. She also reported on a presentation last year for Shriner's, as well as the many services offered last year to area parents and students. Dr. Jeremy Alexander thanked the Board for its

support of this program over the past three years and for the opportunity to bring this update to the Board. He stated he believes this program is definitely making a difference in the lives of children every day, and he continues to be committed to it. He reported they currently are the only dentist-owned mobile service with an educational component in the State of Louisiana with Caddo having the first successful mobile, school-based dental care in the State. Dr. Alexander expressed his appreciation for his support staff members and his wife.

Dr. Goree thanked Dr. Alexander for his service to the children in Caddo and for being a man of his word when making this commitment to provide this service to all students. Board members Rachal, Bell, Mr. Green, Trammel and Jasmine Green also expressed their appreciation to Dr. Alexander and his commitment to provide this much-needed service to all Caddo students.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 20, 2019 CPSB MEETING

Superintendent Goree highlighted the items for the Board's consideration at its meeting on August 20, 2019 and the following discussion ensued.

Consideration of Adding the Sale of Hillsdale, Barret and Vivian Resource Properties to Current Realtor Contract. Mrs. Locke asked about appraised values for these properties, and Dr. Goree explained that with Board approval to add these, we will then move to the appraisal process. Mr. Thompson added that once this is in place, we should be careful how we lease or rent Caddo's buildings if we are not going to sell them. Mr. Green stated his agreement with Mr. Thompson's statement. Ms. Green shared that she received a call from someone today regarding Hillsdale and asked if there is any knowledge on this. Dr. Goree stated that if the Board chooses to move forward with this, we will put this property with a realtor and have it appraised, then the realtor will mark the property for sale. At the Board's pleasure, staff would entertain the property for lease; however, the goal would be to sell the three properties. Ms. Green asked if Praise Temple owns the property around Hillsdale, and the Superintendent said he does not know. Dr. Goree also stated that the process is similar to putting your personal home up for sale and any party interested would work with the commercial realtor listing the property to make an offer.

Mr. Riall asked the superintendent about the possibility of adding the Hosston property, and Dr. Goree responded staff will follow up on this possibility.

Consideration of Offer to Lease the Alexander Learning Center at 154 Coty Street. President Trammel stated that in looking at the lease amount offer and cost, she believes it is important to be consistent. Dr. Goree explained that in looking at the properties for sale and this offer to lease one of the properties, staff recommends not to accept the offer along with reasons why it is not in the best interest of the District.

Mrs. Locke asked about the projected annual cost to the District for Alexander. Dr. Goree stated it is not in the provided information, but staff can provide it to the Board.

Mr. Nations asked about specifics on the use as a community outreach center. Ms. Trammel asked if, to fully understand all aspects in leasing of properties, this should have been submitted to the appropriate committee for a clearer understanding of how the District looks at each offer and if facilities will be leased at a price lower than its value.

Mr. Thompson stated he agrees we do not need to lease MJ Moore for more than what we agree to lease Alexander; however, being in the district he represents (Highland), he has talked with representatives from the Highland Center about their need for a new place. While he does not believe we should give our facilities away, he prefers to see a church or ministry in our facility that is an active part of the community and reaches out to those in need. However, if we lease the building, he agrees we should lease it at an amount close to what we have determined is fair and is consistent with all available facilities.

Dr. Goree noted that staff will provide the cost information to the Board, because at \$2,000 a month (\$24,000 annually), he knows this will not cover the District's cost to maintain the Alexander facility. He added staff also disagrees with the request to discontinue advertising the facility for sale, and has not entered into any agreement for lease where we could not continue to pursue a sale of the property, nor any agreement on the final negotiated price of \$370,000 for a building that appraised at \$700,000. Staff did make recommendations to the organization, but they declined and asked to come to the Board with their offer.

Mr. Rachal asked if Caddo Parish has a purpose for this building, and Dr. Goree said the purpose is to sell the school and receive the maximum profit for the children in Caddo. Mr. Rachal asked about the price we are advertising the property, and Dr. Goree said he does not have that information as the realtor works from the appraised value and toward finding an amount in the \$700,000 range. Mr. Woolfolk stated the property is advertised for \$770,000, which is the appraised price. Mr. Rachal asked how long has the property been advertised at this price. and Mr. Woolfolk confirmed since the day it was placed on the market; and discussions on reducing the price resulted in not reducing it at this time. Mr. Rachal said he would prefer seeing the building sold; but in the event it is not but placed back in the community, he cannot agree to the offer since the numbers do not match the market value. Dr. Goree stated the recommended lease amount is \$3,500 a month (\$42,000 annually) which would be in line with the lease for MJ Moore. He also reminded the Board that as the leaser, expenses for roof repairs, replacement, etc. are costs the District would have to incur; and he agreed the District does not want to be in the leasing business, but in educating children.

Mr. Thompson concurred with Mr. Rachal's comments to sell the facility, but asked if we can continue negotiations and hopefully reach an agreement to maybe lease to buy, because he has watched what this group does in the community and is what he would love to see remain in the community. Dr. Goree added that through the District's strategic planning process, the old bid laws, even though they tied the District's hands when looking at prices and when they could be lowered, we knew exactly when it could be lowered and to what. He stated through the current strategic planning process, something will be put into place so we know what will and will not be considered in leasing and selling the District's available properties.

President Trammel announced that Items 6.02, 8.03, 8.05-8.06 and 13.01 are the consent agenda items. *Mr. Rachal moved, seconded by Ms. Green, to establish the agenda and consent agenda for the August 20, 2019 CPSB meeting as presented. Vote on the motion carried unanimously.*

POLL AUDIENCE

Randy Scoggins, Chairman of the Highland Center Corporation, introduced John Henson, pastor of Church for the Highlands, Chaplain for Volunteers for America; and co-director with Highland Center Ministries. Mr. Henson addressed their purpose for use of the Alexander facility and highlighted the work of their efforts to unite the churches and organizations in the Highland-Stoner Hill neighborhood to focus on the working poor demographic in this area and provide a sustainable program of community services at the Highland Center. Chris Currie, pastor of First Presbyterian Church, reiterated this collaboration of all the churches in the community.

ANNOUNCEMENTS

Ms. Green asked for clarification on multiple speakers on one subject and the yielding of time, and Ms. Trammel explained that because one of the speakers yielded his 3 minutes to the one speaker addressing the Board, it gave him 5 minutes.

Mrs. Bell reminded everyone that the Ring the Bell Back to School celebration is scheduled for 10:00 a.m. Monday, August 12th at Booker T. Washington High School. This celebration will also recognize the 50th anniversary of integration in Caddo Parish.

Ms. Green thanked the representatives from Miles for Smiles for their presentation and

asked staff to look into and get with Robert Jackson with Voter Registration Drive about a new program.

Mr. Thompson thanked Ms. Green and Dr. Douzart for attending the Back-to-School event for students in the Allendale-Lakeside area.

Mrs. Locke asked the Superintendent to extend thanks to those in charge of organizing the new Teacher Orientation and the amazing way Caddo's new teachers were welcomed. Dr. Goree also expressed appreciation to the Board members who took time from their schedules to participate in this event.

Ms. Trammel thanked everyone who helped with the backpack give away at Woodlawn as well as the Child Nutrition Program's Back-to-School kick-off.

Dr. Goree also expressed appreciation to Mayor Perkins, Dollar Mania, Furniture Express and Frost Bank for helping provide students in the Transformation Zone uniforms, backpacks and school supplies, as well as a \$50 voucher for each teacher in these schools to purchase supplies.

Adjourn. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:17 p.m.*

August 6, 2019
CPSB Special Session

The **Caddo Parish School Board (CPSB)** met in special session on Tuesday, August 6, 2019 at 4:30 p.m. in its offices at 1961 Midway, Shreveport, Louisiana. Board members present constituting a quorum: Steve Riall, Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Don Little was out of town. Also present were Superintendent Lamar Goree and Legal Counsel Reginald Abrams. Mrs. Locke led the prayer and Pledge of Allegiance.

VISITORS

RESOLUTION DECLARING PUBLIC EMERGENCY FOR REPAIRS TO KEITHVILLE ELEMENTARY/MIDDLE SCHOOL

Mr. Rachal moved, seconded by Mrs. Locke, to approve the resolution certifying public emergency repairs at Keithville Elementary/Middle School and to authorize staff to begin repairs.

Superintendent Goree recognized Steve White, director of capital projects/construction, who shared an overview of this project at Keithville. He outlined the timeline in discovering the problem at Keithville; and explained that after investigating, and because repairs exceed the dollar amount which by law requires a formal bid, a resolution certifying the emergency need to forgo the bid process and address the repairs before school begins is needed. At this time, the goal is to have everything, with the exception of the auditorium, cleaned, cleared and ready for the opening of school on the 12th.

Mr. Rachal asked about the limits in moving forward, and Mr. White explained there are none. Dr. Goree stated the uniqueness in this situation is if the cost exceeds \$150,000 and it is not declared an emergency, we would not be compliant with the bid law. Because of the sensitive nature, repairs needed to begin immediately and this resolution is needed in moving forward. While the cost has not exceeded this at this time; staff is choosing to be transparent in the event the roof repairs push the total repair cost above \$150,000. Mr. Rachal ask if there is an estimated cost at this time, and Mr. White explained that he does not currently have all the costs on what needs to be done to the roof. Mr. Rachal asked if the cost is coming out of capital projects, and Mr. White responded that repairs are being paid from the savings on other jobs throughout the year. He also reported on damage to materials inside the building (i.e. musical instrument cases, some instruments, bulletin boards, paper, etc.) that cannot be replaced with capital project funds.

Mr. Thompson encouraged staff to keep in mind small businesses in the city that could work on these projects. Mr. White responded that he has and an Opportunity Caddo business is doing the cleanup behind the contractors. Regarding the abatement, he said there is no one that is Opportunity Caddo and certified to do this type work; but two larger companies were used and the work broken into smaller jobs. Mr. Thompson expressed his appreciation for staff's efforts.

Ms. Green asked staff how often these type checks are taking place in Caddo schools. Mr. White responded that he and Mr. Woolfolk have discussed what is in place and the need for possible additional procedures for these type inspections taking place and reporting concerns, even though they believe this issue resulted from a series of things over a number of years.

Superintendent Goree expressed appreciation to Mr. Woolfolk and Mr. White for orchestrating and executing the work for this project as expeditiously as possible. Mr. White also thanked Mr. Roy Dowling with Sims Environmental and his staff for the job in overseeing this project.

Vote on the motion carried and the following resolution for emergency repairs was approved unanimously..

**RESOLUTION DECLARING PUBLIC EMERGENCY FOR REPAIRS TO KEITHVILLE
ELEMENTARY/MIDDLE SCHOOL**

Whereas, on the 24th day of July, 2019 portions of Keithville Elementary/Middle School were subjected to roof leaks that caused extensive indoor air quality issues in the cafeteria, auditorium, locker rooms, band room and other surrounding areas; and

Whereas, a preliminarily assessment of the damages has been performed and it is estimated that the damages will exceed the contract limit for public works requiring formal bids under LSA-RS 38:2211 et. seq.; and

Whereas, school is scheduled to open on the 12th day of August, 2019 and teachers are scheduled to return to school two weeks before school opens; and

Whereas, time is of the essence in order to have the damages completely assessed and repairs made prior to school opening; and

Whereas, the Caddo Parish School Board has determined that a public emergency exists and desires to move forward with the repairs to Keithville Elementary/Middle School without following the public bid law as contemplated in LSA-RS 38:2212 P; and

Whereas, the Caddo Parish School Board hereby certifies that a public emergency exists for the repairs to Keithville Elementary/Middle School and that Notice of such public emergency be published within ten (10) days in the official journal of the Caddo Parish School Board declaring such public emergency.

Therefore be it resolved, that the Caddo Parish School Board hereby certifies that a public emergency exists for the repairs to Keithville Elementary/Middle School and that Notice of such public emergency be published within ten (10) days in the official journal of the Caddo Parish School Board declaring such public emergency.

ADJOURNMENT

Mrs. Locke moved, seconded by Mr. Thompson, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:55 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

August 20, 2019
Caddo Parish School Board Meeting

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton, and Dottie Bell. Also present were T. Lamar Goree, Ph.D., Secretary, and Reginald Abrams, legal counsel.

President Trammel called the meeting to order at approximately 4:30 p.m. and Denee' Locke led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JULY 23, 2019, JULY 30, 2019 AND AUGUST 6, 2019 CPSB MEETINGS

Mr. Rachal moved, seconded by Mrs. Bell, to approve the minutes of the July 23, 2019, July 30, 2019 and August 6, 2019 CPSB meetings/retreat as submitted in the electronic mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Mary Nash Wood, director of Communications and Strategic Initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Music presented by Calvin Alexander, Jr. Calvin Alexander, Jr., freshman at Caddo Magnet High School and Caddo's Middle School Student of the Year, Shreveport's Spelling Bee Champion, and finalist in the Scripps National Competition, performed a solo on the violin, accompanied by Mr. Larry Myer on the piano.

2018-2019 Caddo Parish Counselors of the Year. The following were recognized as the 2018-19 school counselors of the year as selected by the Caddo School Counselors' Association: Melissa Williams, elementary counselor, South Highlands Elementary Magnet; and Connie Barnes, high school counselor, Woodlawn Leadership Academy.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, introduced the following newly appointed administrators: Michele Hendrix, 504 Specialist; Shelia Gladney, Special Education Alternative Education Specialist; Ashley Atkins, assistant principal, University Elementary; Pauline White, assistant principal, University Elementary; Joshua Sims, assistant principal, North Caddo Elementary/Middle; Phyllisia Mason-Hollins, assistant principal, Caddo Middle Magnet; Esther Otu-Nyarko, assistant principal, Booker T. Washington High; Robert Middleton, assistant principal, Huntington High; Ashley Norwood, assistant principal, Huntington High; Nicolas Cunningham, interim principal, North Caddo Elementary/Middle; and Beverly Cole, supervisor of school compliance & program improvement, Title I.

VISITORS

The following visitors addressed the Board on issues and matters of interest/concern: Danielle Handrop, Choca Sullivan, Tiffany Graham, and Matt Rowland (bus transportation for Herndon students to Trinity Heights Day Care after school, Transportation Dept., buses without A/C, overcrowded bus); Jackie Lansdale, Red River United (Teacher salary schedule, distribution of raise, school funding programs, benefits, student debt relief, privatizing); and Roxann Johnson, update on Cross Bayou Point project.

Superintendent Goree announced that the transportation issue at Herndon was resolved. He asked Mr. Daigle to meet with this group of parents and reported he spent time in his cabinet meeting today discussing these issues.

Mrs. Bell left the meeting at approximately 5:40 p.m.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration; and President Trammel announced the following as consent agenda items: 6.02-6.03, 8.02-8.03, 8.05-8.06, and 13.01. *Mr. Rachal moved, seconded by Mrs. Locke, to establish the agenda and consent agenda for the August 20, 2019 CPSB meeting as presented. Vote on the motion carried unanimously.*

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried unanimously. The following is a summary of the Board's action on the consent agenda items.

6.02 Administrative Contracts, August, 2019. The Board approved the administrative contract renewals (August 2019) as recommended by staff and submitted in the electronic mailout.

6.03 Requests for Leaves. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Department of Exceptional Children 2019-2020 Interagency Agreements and Contracts. The Board approved the Department of Exceptional Children Interagency agreements and contracts for the 2019-20 school year as submitted in the electronic mailout.

8.05 Consideration of YEP Contract Renewal for 2019-2020 School Year. The Board approved renewal of the Youth Enrichment Program (YEP) Contract for the 2019-2020 school year as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Agreement with Coca Cola for Lee Hedges Stadium. The Board approved the agreement with Coca Cola for Lee Hedges Stadium as recommended by staff and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved the appeal of student CS as recommended by staff and submitted in the electronic mailout and whose parent is in agreement.

PERSONNEL RECOMMENDATIONS

Mrs. Locke moved, seconded by Mr. Rachal, to approve the personnel recommendations as recommended by the superintendent and submitted in the electronic mailout. Ms. Green asked the Superintendent if the Controller position is new, and Dr. Goree explained it is a new position approved during the budget process. He added that a senior supervisor position was eliminated when that person resigned and the funds will be used for this new position. Ms. Green asked if this person's salary will be the same as that eliminated position, and Dr. Goree responded it is not the same pay grade, but it is in a higher salary range. Ms. Green asked about this person's responsibilities, and the Superintendent responded that concerns were expressed relative to how the major divisions in finance were being managed, so this person will daily look at accounting, payroll, accounts payable to make sure the communication between them is strong, as well as assist in special projects to insure our investments are providing the highest yields and tying everything together in the school district. Dr. Goree added that Mr. Howard, in his CFO position, is the visionary leader; but this person will do the field work to make sure things are happening as the senior leadership brings ideas. Ms. Green asked about the number of supervisors in the Accounting Department. Dr. Goree stated he does not know, but can provide that information (number of people reporting directly to this position). He also confirmed that this position is very much in line with strong business management to help with daily operations in a business the size of Caddo. Mr. Abrams clarified that both positions were approved by the Board and the motion before the Board is to approve the individuals for those positions.

Ms. Green said she did not believe the assistant director position was to be filled and asked Dr. Goree to explain. The Superintendent clarified staff stated on record that this position would be filled; and when the State freed up some additional revenue, staff presented a plan to the Board to fill both positions and reiterated the move forward in filling them. Ms. Green asked about the expectation of the persons in these positions, and Dr. Goree explained that in creating the

position, staff looked at how the position could be created with longevity and how we can make sure everything needed is covered. Ms. Green stated her expectation to see a lot more maximizing of the District via social media, and she supports a new person capitalizing on this. The superintendent reiterated the many positive things implemented around the positive initiatives and this additional support is critical; and he confirmed that Board members will see a difference in Caddo's presence on social media. *Vote on the motion carried unanimously.*

PROPERTY/BUS RENTAL REQUESTS

Mr. Rachal moved, seconded by Mrs. Locke, to approve requests for use of Caddo Parish School Board property and/or buses as recommended by staff and submitted in the electronic mailout. Mrs. Locke asked about compensation to the District for use of property/buses. Dr. Goree explained there is an approved schedule for outside entities using CPSB facilities. Mrs. Locke asked, because of the transportation issues, if we are comfortable with approving the use of a bus for two days. Dr. Goree responded absolutely; and with Caddo currently transporting over 24,000 students on 275 routes, etc., it takes time to iron out the issues, and this in no way is meant to be disrespectful to the families. She asked if she is correct in assuming the same is true for the use of Barret, and Dr. Goree answered it is and the District will capture approximately \$3,800 a month for the lease of this property.

Mr. Little asked about the rental of Barret and the fact a dollar amount is not listed in the lease agreement, and if the agreement is conditional since it is currently listed for sale. Dr. Goree stated with our goal to sell off-line facilities, any lease of these properties at this time stipulates the priority to sell. Mr. Little asked if there is a copy of the contract to review, and Mr. Woolfolk stated that it will be used on a temporary basis and the cost is based on the Board's policy which states how much they will pay and is not a formal lease. Mr. Little asked if, based on the use of Lakeshore, there is a projected revenue stream, and Mr. Woolfolk said she paid approximately \$2,000 a month at Lakeshore and she is aware it is more than that based on the number of rooms she will use. Mr. Woolfolk said he can provide an invoice based on the breakdown of what she is using in the facility.

Mr. Abrams confirmed that any long-term use of a facility follows the Board's policy. Mr. Riall asked if he remembers correctly that Barret was donated to the District by the family, and Dr. Goree clarified that research determined the school is eligible for sale.

Mr. Rachal asked about clarification on the terms and cost per room, and Mr. Woolfolk again stated that CPSB Policy KF dictates the amount charged for use of a facility. Mr. Rachal said he would like to know what this policy states, and staff responded they would provide the Board with a copy. Mr. Rachal said if policy is followed, he does not believe the Board needs to delay approving this request.

Vote on the motion carried.

ADDING THE SALE OF HILLSDALE, BARRET, RODESSA AND VIVIAN RESOURCE PROPERTIES TO CURRENT REALTOR CONTRACT

Mr. Rachal moved, seconded by Mr. Riall, to approve adding the sale of Hillsdale, Barret, Rodessa and Vivian Resource properties to the current realtor contract as recommended by staff and submitted in the electronic mailout. Dr. Douzart noted a letter to Board members from the Northwest Louisiana Community Development Corporation relative to their interest in purchasing Hillsdale. *Vote on the motion carried unanimously.*

CONSIDERATION OF OFFER TO LEASE THE ALEXANDER LEARNING CENTER AT 1545 COTY STREET

Mr. Rachal moved, seconded by Mr. Riall, to approve staff's recommendation to deny the offer to lease the Alexander Learning Center as provided in the electronic mailout.

Mr. Thompson asked why the lease is being denied, since he understood we would look at it. Dr. Goree said staff's recommendation to deny is based on the offered price, the request that we not continue to sell the facility, as well as future cost for maintenance of the building. Staff did meet with this group and offered 2 weeks to come back with an offer; and upon checking with the

U.L. Coleman group before the meeting today, no other offers were made. He added it also is his belief the church has other arrangements.

Vote on the motion carried unanimously.

CONSIDERATION OF MENTAL HEALTH INTERAGENCY AGREEMENTS AND CONTRACTS

Mr. Rachal moved, seconded by Mr. Riall to approve the proposed mental health interagency agreements and contracts for the 2019-20 school year as recommended by staff and submitted in the electronic mailout.

Mr. Thompson said he visited with Dr. White, and he expressed his concerns and the need to look closer and determine if all the agencies are providing the needed services for Caddo students or if they are only getting the refund from Medicare/Medicaid in the name of helping the students. While he knows there is a need, he asked the Superintendent to research and determine if all on the list are needed and if they are meeting the needs of the students. Dr. Goree explained that staff established a rubric and agreed to take all the agencies that apply through this method; and if the agency meets the rubric requirements, they are added to the list. The list is actually shorter than it used to be and minimal requirements were established that are required by all on the list.

Mr. Abrams clarified that the list of agencies presented are the ones the staff has determined meet the minimum requirements; however, state law does not allow the District to limit parents from selecting whomever they want to use. A couple of years ago a law was passed; and if a parent requested a mental health agency not on the list, they are allowed to use them, thus we cannot limit the use of a provider. Dr. Goree also said this limits the agencies in our Caddo schools. Mr. Nations said he believes it also should be noted if any Caddo student(s) currently has a relationship with any of these approved providers. Dr. Goree responded while they are all approved, he can't guarantee that every one of the agencies has a relationship with a Caddo student. He also does not know if all the agencies approved are actually set up and providing services in a Caddo school; but even if an agency is set up in a school, the parent has the right to choose any health provider they like and we will work with them to service our students. Mr. Thompson shared that he received a call from a parent whose child was seen by a counseling agent and she did not know the agency nor had they been to her house to see her, so he believes there needs to be stronger rules and regulations in place whereby the agencies contact the parent. Dr. Goree added there should not be any case like this, because the parent must sign off before a child is seen by a counselor; and the parent can speak with the agency to discuss what they want the service to look like. He added there are systems in place to make sure a child is not seen by a counselor without parental consent.

Vote on the motion carried unanimously.

ANNOUNCEMENTS AND REQUESTS

Ms. Green announced Chris Pierman would like to start a program in Caddo Parish bridging Caddo with Grambling State University. He will be in town and she is interested in sitting down and discussing his plan and learn more about this possible partnership. Ms. Green also commended everyone for the smooth beginning of this school year.

Mr. Riall said he only had the one issue (transportation) this year and expressed appreciation to Mr. Daigle and his team for their outstanding work. He also announced that he officially no longer has any grandchildren in Caddo Parish schools.

Mr. Thompson asked for information on when specs for the new buses will be sent to possible vendors as well as work for the first phase of the bond issue.

Mr. Nations thanked Mr. Burton and Mrs. Wood for informing him about the back-to-school events in District 10, and he will attend the 7th and 8th grade back-to-school activities at Ridgewood when he leaves the meeting. While he likes to attend as many events as possible, it is difficult to cover all events when graduation and other events are happening at the same time.

Mr. Rachal asked for a committee meeting to look at the material from the Energy Conservation program. Mr. Rachal also complimented the Transportation Department and the outstanding job done this year, and he asked staff to contact the City regarding the traffic on Youree Drive at University Elementary. Mary Trammel echoed the same concerns for Eden Gardens and encouraged staff to look at ways to help manage the carpool and traffic problems.

Dr. Goree reminded the Board that on Tuesday, August 27th, at 6:00 p.m. at Caddo Magnet High, the graduation will be held for 15 Caddo summer graduates.

Mr. Thompson added his interest in the energy conservation update.

Ms. Trammel commended everyone involved in this year's Ring the Bell festivities. The celebration was very well received by all in attendance.

Mr. Green encouraged members of the Board to visit Oak Park Elementary School and see what is going on at this school.

Dr. Douzart announced she had the opportunity to visit all the schools in her District and all had a smooth start to the school year.

Adjournment. *Mr. Riall moved, seconded by Mr. Nations, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:10 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

September 3, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. Board member Barry Rachal led the invocation and Pledge of Allegiance.

PRESENTATIONS

Annual Report/Update on ReImagine Caddo: A Plan for Excellence. Carolyn Spaht-Gonzalez announced that Caddo is currently in the 2019-20 school year and the last year of the District's 5-year strategic plan, and she shared an update on the District's progress in meeting its goals and objectives to date (through 2018-19). She noted that having given the annual update in July or August in the past, this year's report will be complete for the 18-19 school year. Mrs. Gonzalez explained that as the evaluator she helps staff work on identifying their targets as well as the action steps (total of 118) to reach those targets. She meets with them to receive updates on the progress in meeting each one, including supporting documentation. From these meetings with staff, she creates a scorecard labeling each a green (target met), yellow (not met target, but made progress from the baseline), or red (no progress).

In 2018-19 (year 4 of the plan), Mrs. Gonzalez reported that approximately 1/3 of the 27 objectives were green or red, and about 40% were yellow. She noted that as an evaluator, when a target is red, she looks to determine if the person in charge of the work understands why it is red, and if there is a plan of action to fix it, which is the case for the eight reds reported.

Highlighting the progress over the past four years and how staff worked to move all targets to green, Mrs. Gonzalez noted there were more reds than she would like to see, but there is a theory of action for each of them. She further explained the reds this year were driven primarily by finance (one red in the bond rating, one in the fund balance). Staff is tracking bus drivers and on-time/late buses, which continues to be up and down. With customer satisfaction, she reported this is the first full year it was measured in an objective way and a plan of action is in place to address this initiative. She also highlighted objectives to reach by the end of the 19-20 school year explaining goals set and how staff is working to improve the numbers, i.e. response time to voiced concerns, improve bond rating back to AA-, kindergarten ready students, on-time buses, more drivers, positive Caddo stories, etc.

Ms. Green asked how the success/progress in Communications is measured. Mrs. Gonzalez clarified her report that staff is doing a good job determining if the customers are happy. In terms of marketing, she said she does not believe Caddo is where it wants to be, and this could possibly be because this area is understaffed, but she commends the measuring tool used to go deeper and not only look at the data to report it, but use it to tailor training.

Mr. Rachal noted the improved graduation rate and his belief the 20% increase in this number over the past 3 years should be a banner for the school district. He also asked if Mrs. Gonzalez could note on the report the goals that were met but are labeled yellow because the goal was increased once it was met, and she said she would. Mr. Rachal also asked if the Let's Talk initiative is doing what we want it to. Dr. Goree responded yes, but it is a new implementation and we did not see the "traffic" we would like to see; however, it has been rolled out to the schools and staff anticipates increased numbers and tracking and will provide this information to the Board. He added one area staff saw great success in was Transportation and an increase in the number of transportation concerns/questions through the Let's Talk application. Mr. Rachal asked if the progress has changed under the action step to increase retention of classified personnel within zero to three years of employment, an exit survey created, and applications placed online. Dr. Goree said it has not changed because personnel and responsibilities in Human Resources were restructured, and this is something they will continue to work toward. He added staff could have removed some of these steps, but continues to hold itself accountable. The development of a quality exit survey has been a challenge for staff and resources were not available to have someone from outside to help. Mrs. Gonzalez responded the report should say applications are on line now and not "being put online". Regarding the exit survey, staff created one, but it was too lengthy and staff is now in the process of shortening it. Mr. Rachal said there are

only about three questions needed on an exit survey; and Dr. Goree agreed, but it is important to have the correct questions in order to receive usable information. Mr. Rachal suggested that staff roll something out and make adjustments as needed.

Ms. Green asked how often community input is sought. Mrs. Gonzalez explained she is not doing community input anymore, but she received community input in the beginning with Mr. Delaney. At this time, community input is being received through the Let's Talk application and during the revamp of the strategic plan this year, she believes the superintendent intends to get large community input. Dr. Goree agreed, and since the strategic plan was developed around five-year goals, and we are now at year five, it is now the appropriate time to look at the plan. While it is important to hold true to those things that we still need to accomplish, staff will analyze where the District needs to go, add appropriate goals to accomplish them over the next five years, and involve the community in the process.

In summary, Mrs. Spaht-Gonzalez stated she believes Mr. Rachal is correct and the phenomenal graduation rates should be a banner in the District, as well as the Virtual Academy's continued growth, the strength of technology and suspension improvements in the plan, and the positive stories and strategic partnerships in the schools. Additional good news is the District has more areas in which it is doing well, and it is continuing to make progress in the other areas. She commended the board on four strong years of strategic plan performance, and she reported that while in the past four years staff would take this information and revise the strategic plan accordingly and present it to the Board, this year will be a larger revamp that will also include the Board and community input for the next five-year plan.

Mr. Riall asked if there is any specific area that needs more focused attention, and Mrs. Gonzalez responded the area of finance, because this area has two significant reds, which she understands staff has a plan to address.

Mrs. Bell asked about the preK program, campus alignment, and preK registration online and if it is possible to have parent orientation before the start of school. Dr. Goree agreed it is possible and he too has received calls about this process, so the Academic team pulled a group to review this and we have seen an increase in the number of registered students result from personal phone calls. He added staff will do a debriefing of the entire process and how it can be improved moving forward.

Up With People. Mary Nash-Wood introduced representatives from Up With People, a travel-based educational organization whose mission is to inspire young people and make a difference. She announced that at the end of September students will have the opportunity to interact with participants in Up With People as well attend their show and see what they are doing at Centenary College and in the community. Paula Girton, who is from Germany, and Yelmen from Belgium, promotion representatives for Up With People in Shreveport, shared a brief video on this organization, and outlined activities they will participate in while in Shreveport September 23 through 30. They will stay with host families while here, participate in community service and work with many schools in the District, as well as perform a show at Centenary College on September 28th. Their trip is hosted by Centenary College and the Downtown Rotary Club, and they also will work with Centenary students at Common Ground, the Food Bank, Holy Angels and a few others. Dr. Goree announced emails were sent out with information about this event, and Rotarians also will host Up With People participants in their homes.

Mrs. Trammel confirmed this is an invitation for the Board to attend this event.

MineKraft University. Mrs. Wood explained that last year staff entered into a great partnership with Minekraft University to work with students on coding skills and exploring their creativity. Mr. Hennessey stated they started as a free summer camp at SUSLA in 2017, and in 17-18 they started two clubs. Last year a pilot program for the classroom was implemented; however, because there are very few metrics that can be used to measure this program, they built their own and do a pre and post test. In direct comparison, they learned application of what they really already knew and laptops were awarded to 50 students at a banquet. Mr. Hennessey announced that he and Keith Hanson started this a couple of years ago; and even though Mr. Hanson left to work for the City, they are still in Huntington and Green Oaks and are very excited about expanding the program and bringing industry-based certifications as a part of this four-year plan. Mr. Thompson asked why this program is not in any District 3 school.

Katherine Laster, head nurse for Caddo Parish, discussed the effort to continue offering free flu vaccines as school illness is a huge contributor to school

absenteeism. She reported that CDC reported 186 pediatric deaths during the 2017-18 flu season, and 80% of those were students who did not receive the vaccine. With a lack of resources, and with transportation, insurance, and time being a large hurdle for Caddo, she explained that school-based clinics can offer flu vaccines to not only those who do not have the means but also assist in helping the working parent who cannot take time off from work. Mrs. Laster noted the Board last year approved the Healthy Schools program to provide the flu vaccines to the district, along with TDAP (tetanus, diphtheria and pertussis) for the 11 and 12-year old students, and last year approximately 3,600 students received this vaccination. Due to budget cuts, they will no longer be providing this service; however, staff is recommending Health Hero as an alternative program for providing free in-school flu vaccines. Anissa Gunn, last year's regional coordinator for Healthy Schools, as well as Dr. Vincheri, pediatric infectious disease specialist at Oschner, presented Health Hero to her as a possible alternative provider in Caddo. Liberty Duke and Gerald Dial were present to answer questions about the program. She also shared with the Board information on the Health Hero program and services they offer. Ms. Duke also commended the Board on its 20% improved graduation rate and encouraged the District to continue what it is doing. Dr. Goree reminded the Board this service was in Caddo schools last year and staff is bringing this presentation and agenda item because that provider is no longer in business. He further said because we believe this service is positive for students, families, and attendance rates, staff is recommending this provider as an option. Mr. Rachal asked if he understands they have been approved to do this, and Dr. Goree said because the provider the Board approved last year is no longer in business, staff is bringing Health Hero as an alternative for providing this service, and it will be on the September 17th agenda for action. Mr. Rachal asked if Health Hero is providing this service to other Louisiana districts, and Ms. Duke said Caddo and Jefferson Parishes will be their first pilots in Louisiana, but they do provide the service in 14 other states. Mr. Rachal also asked how long Health Hero has been providing this service, and Ms. Duke stated since 2011, beginning in Alabama and now serving 94% of the schools in Alabama. Mr. Little asked if this is a needs-based service, and Ms. Duke explained no and they take care of everyone. Mr. Little asked how they avoid duplication for students who have primary insurance and receive the vaccine by their personal physician; and Ms. Duke explained it is a voluntary program and the guardians must provide their consent. If they administer the vaccine, it goes in their registry and doctors have access to verify the child has received the vaccine. Dr. Goree verified the form will include all this information; and some will choose to still take their children to their personal physician, so their child will not be pulled for the shot. Dr. Goree shared his appreciation to Health Hero for making this available to all students. Mr. Nations asked about the connection with Oschner, and Ms. Duke said Dr. Vincheri is their medical director.

ESTABLISH THE AGENDA FOR THE SEPTEMBER 17, 2019 CADDO PARISH SCHOOL BOARD MEETING

Superintendent Goree highlighted the agenda items for the Board's consideration at its September 17, 2019 meeting and the following discussion ensued.

Revisions to CPSB Policy GAHB Political Activities. Mr. Riall asked if this is on the agenda to address a specific problem. Mr. Little stated the goal of this change is to prevent someone abusing their authority over their employees to persuade them to vote in a certain manner and it protects the individual from being coerced to vote a certain way in any election. He believes it is important that we do not lose public trust, even if it is incidental, or violate that trust by persuading an individual to vote what may or may not reflect their personal conscious. He noted the proposed revisions also include consequences for violating law and policy. Mr. Riall shared his communication with employees who believe they would be in violation by being involved in any politics (putting signs in personal yards), which is not true. Dr. Goree confirmed employees can place signs in their personal yards; and when this item originally was brought forth, it was referred to staff to meet with the teacher/employee organizations. He expressed appreciation for the three groups coming together with staff to work on something to meet the needs of the law and Board policy as well as being sensitive to employees. He added this is an opportunity to provide a stronger language so employees know they cannot participate in any political activities while at work, but only on personal time. Mr. Riall stated with this clarification, he withdraws his request to leave this off consent.

Ms. Green shared her agreement with using the word "may"; and Mr. Little said he hopes the ruling rationale would be intentionality, because if someone misinterprets something said to be coercion, he would hope there would be some mercy for that. However, if someone is using their authority to encourage those that work under them to vote a certain way, it needs to be addressed. If approved, he also hopes it

is incorporated into some type of ethics training or awareness. Mr. Abrams stated he talked with the District Attorney since this was prepared, and he made it clear that "use of public funds" means "using public funds" in order for there to be a fine plus imprisonment. Ms. Green further stated her understanding of Mr. Little's intent in bringing these revisions, but asked how staff will communicate this to employees. Dr. Goree stated that in addition to the annual ethics training, it can be added to the District's regular training for principals working with employees. Also, if there is a political campaign in which employees are involved, i.e. bond proposal, staff will continually repeat it to those employees and hopefully avoid an employee being caught in a situation where they are compromised.

Mrs. Bell asked that this be communicated/posted in all the District's facilities. Dr. Goree confirmed staff will follow through, and that what is being added to the policy is something that always could have happened, but it was not specifically spelled out. Ms. Trammel shared her experience when working in Communications and learning you could not tell any employee to vote a specific way, and the importance of having proof if someone is accused.

Revisions to CPSB Policy(ies) IKA Grading Scale. Mr. Rachal asked for clarification on the grading scales in the policy stating 90-100 is an A, etc., because he thought the state had districts on a mandated 7-point scale. Keith Burton, chief academic officer, explained the grading scale for regular courses is a 7-point scale (A is 93-100; B is 85-92), but the grading scale for enriched and advanced course work is a 10-point scale. He further stated this was in the Pupil Progression Plan approved by the Board in July. Mr. Rachal asked about the basis for the changes, and Mr. Burton explained every year the Board updates the District's Pupil Progression Plan; and after the recent approved updates, staff determined that Policy IKA did not reflect the previous updates/revisions approved by the Board in its Pupil Progression Plan. As a result, the Pupil Progression Plan stated the promotion detail and grading scale but it was not in line with existing policy, so staff is attempting to bring Policy IKA in alignment with the language in the Pupil Progression Plan approved by the Board. Mr. Rachal asked if there has been discussion with BESE about going back to a 10-point scale, and Mr. Burton responded there has and Dr. Goree tried through the Superintendents' Group, but there is no traction through the state to do so. Mr. Abrams said the Bulletin provides for a second scale and this has come up before, and Mr. Burton explained state policy only allows for it in advanced and AP course work. Mr. Rachal said he believes we are handicapping our children and we should continue efforts with BESE to correct this. Dr. Goree confirmed the Superintendents' Association has pushed this and he will bring it up again.

Ms. Green asked if Mr. Rachal brought this to the Board in the past, and he confirmed he did, but after two years, the state said we could no longer do it. Ms. Green asked staff to clarify this again, and Mr. Burton explained that each year the Board recommends parents to serve on a parent review committee to review what staff is recommending for grading and promotion policies. This review is presented to the Board as proposed revisions to the District's Pupil Progression Plan for approval. Staff learned that Policy IKA (Grading Scales) had not been brought current with past-approved revisions to the District's Pupil Progression Plan, thus Policy IKA was not consistent with the current Pupil Progression Plan. Staff is attempting to bring Policy IKA current with what the Board approved in the District's Pupil Progression Plan.

Dr. Douzart asked Mr. Burton if athletes must still carry a 2.5 GPA or is it 1.8. Mr. Burton clarified the District follows the LHSAA guidelines and as LHSAA changes the requirements, we mirror those requirements in Caddo through Mr. Tisdale's office.

Mrs. Bell asked Mr. Burton for clarification about state mandates for districts to be on a specific grading scale, and he confirmed that any student taking advanced course work, gifted course work, advanced placement is on a 10-point scale, and those not are on a 7-point scale. Mrs. Bell shared her feeling that this is not fair and asked if the Board has thought about getting a petition signed by parents to present to the state. Dr. Goree stated while that is an option, another option would be for the Board to adopt a resolution for the record supporting this change.

Mr. Abrams clarified this agenda item on is an attempt to revise CPSB Policy IKA so it reflects the same information in the Board-approved Pupil Progression Plan.

Recommendation to Approve the Position of CNP Purchasing/Inventory Coordinator and Proposed Job Description. Mr. Rachal asked for additional information on this request. Dr. Goree stated that as conversations take place around efficiencies and right-sizing the District's budget, this is an example of creative behavior that will

help the District with fiscal responsibility. Kaye Lynch, director of Child Nutrition Programs, explained she is recommending combining the positions of chief purchasing clerk/inventory manager and senior buyer into one position. She explained the senior buyer trained the person currently in the chief purchasing clerk position, and she was the backup person for the inventory manager. While the current employee would be the perfect candidate to do this job, if the Board approves this, it will be posted and hopefully, we can hire someone who can do all three jobs, which she believes would be in the District's best interest. Ms. Lynch also explained that the Rahmberg evaluation shows his agreement with the combining of the responsibilities of the chief purchasing clerk, inventory manager and senior buyer, and it would be a good combination that one person could do. She said two of the positions are currently vacant, and combining these three positions into one would be a dramatic savings to the district. Mr. Rachal asked what two positions are vacant, and Ms. Lynch said the inventory manager and the senior buyer; and these functions are still needed. Mr. Rachal asked if we are looking at hiring for this position or using present staff. Dr. Goree said current staff will be considered, but if we can't identify the appropriate person, then the position will be posted. He also stated that it will not result in anyone being unemployed. Mr. Rachal asked if we will be spending more money because we have not been spending the money for the two vacant positions, and Dr. Goree said that is correct, but the combined salary paid will be greater than if they were in any one of the three positions. However, it will be a drastic savings if you add up the cost of all three positions. Mr. Rachal asked Mr. Howard to make a note when we enter the budget process that we eliminated two positions.

Mr. Howard clarified these are not General Fund positions, but positions funded by the Child Nutrition budget.

Ms. Green stated she is convinced staff does not like them as Board members because the Board will have to deal with the public on hiring three new people to fill three new positions. Dr. Goree clarified that is not correct, but three positions will be combined into one position. Ms. Green asked if the one position will be \$115,000, and Dr. Goree clarified that amount is how much filling all three positions would cost the District, but combining them into one position at a cost of \$57,000 provides a total savings of \$87,000 to the District. Ms. Green asked how soon will this be filled, and Dr. Goree explained that if approved by the Board on September 17, staff will move forward. Ms. Green asked how the needs of this job are filled at this time, and Ms. Lynch explained there is a current employee doing all three individual jobs at this time. Dr. Goree further clarified the attached backup up which shows staff added the salaries of the three positions (\$115,000), but this proposal would allow the combined one job to be done for \$57,000 with a savings to the District of \$87,900. He further explained that the job description combining the three positions changes the pay grade to one that is 2-3 levels higher than one of the positions, and this position was graded following the same grading system used for all other positions through the Rahmberg-Stover group. Ms. Green said she only wants to make sure when the public comes to her she is able to explain it.

Mr. Thompson again asked who is doing this work now, and Ms. Lynch explained an employee classified as the chief purchasing clerk. Mr. Thompson asked if this person would continue to do the job if the Board does not combine them, and Dr. Goree said if they are not combined, staff will post all three positions because we cannot continue to ask someone to do all three jobs for the salary of one. Mr. Thompson stated he continues to get calls about the shortage of cafeteria workers; and if we spend this kind of money to hire one person to do three peoples' jobs, he questions why we are not making sure the campuses are well equipped with cafeteria workers. Dr. Goree explained staff is looking at an alternative position and way of staffing someone who could work with the cafeteria and buses, and will bring something to the Board for consideration. He further stated that we are in a better position today in staffing the cafeterias than we have been in many years. Ms. Lynch responded that in response to Mr. Thompson's questions, at least 27-28 CNP employees retired or resigned during the 18-19 school year, and she has filled 32 positions since school started. She further explained she just now has approximately three subs because her focus was getting permanent positions filled. With maybe 5 schools being short-staffed, she is working with HR to go through over 150 applicants as quickly as possible to fill these.

Mr. Albritton commended Ms. Lynch on what she is doing and what she has brought to the Board. He said his only concern is hearing there may be a management problem and making a job around an individual as opposed to the nature of the work to be done; because if we lose that person, we lose the expertise in three areas. He said he believes our five-year plan should include an evaluation of all positions. Dr.

Goree said in working with Rahmberg we are establishing that this is a national trend, it is something that is doable, and is something the District has done by continuing the relationship with them.

Mr. Nations stated the importance in evaluating the person doing these three jobs and if this person is a strong candidate should the Board approve combining all three positions, and Ms. Lynch confirmed they are.

Mrs. Bell said she agrees with President Trammell that cross training in all departments is something needed across the district. Ms. Trammel said she questions if in two years it is possible to learn that the responsibilities of these three positions are too much for one person. Ms. Lynch clarified this was not a rush decision, but they evaluated the work for an entire year (2018-19) to determine if consolidation would work before bringing it to the Board. Dr. Goree added that as the organization gets smaller, it must look at areas in which consolidations will work and take advantage of vacancies out of respect for the people.

ADDITIONS

Mrs. Bell requested that *Consideration of Cyber Insurance Policy* be added to the agenda. She reported the Insurance and Finance Committee met today and approved a recommendation for Board action.

President Trammel announced that the Consent Agenda Items are 8.03-8.08, 8.10, and 13.01. *Mr. Rachal moved, seconded by Ms. Green, to approve the proposed agenda and consent agenda for the September 17, 2019 CPSB meeting as presented. Vote on the motion carried.*

ANNOUNCEMENTS

Mr. Thompson reported on visits to Back-to-School nights.

Ms. Green also commented on all schools in her district holding Back-to-School nights on the same day; and asked if staff/the schools could look at spreading these out for parents with students at multiple schools.

Mr. Little announced that Heritage of the Ark-La-Tex (HARK) Festival (student competition) will be accepting applications now until September 27th. It is entertainment, handicrafts, visual arts and writing.

Mrs. Trammel announced the 183rd CC Antoine birthday celebration is this weekend. She said this is a great event recognizing the history of their neighborhood and it will be held in the park. Ms. Trammel also announced that this weekend is Battle on the Border and Caddo has three teams playing this year.

Mr. Rachal announced that Captain Shreve will hold its 40th class reunion this year. He also asked staff to provide him with more information on the dental health care offered to students in our schools, because he received calls that someone else is going into schools offering the same services. Mr. Rachal also requested a copy of the Cenergistic reports provided to staff to make determination of the cost and expense we are paying them.

Mr. Riall commented on summer graduation and that the number of summer graduates is an indication of our growing graduation rate. Mrs. Bell reiterated the need to market our increased graduation rate and possibly place a banner at each high school.

Mr. Nations announced he was unable to attend summer graduation due to a previous commitment to attend the Spirit of Southern Hills event. Southwood's football team, dance line, cheerleaders, etc. were recognized, as well as Forest Hill and Ridgewood.

Ms. Trammel also commented on District 6 Back-to-School nights. Mr. Green announced that the Bethune graduates recently celebrated their 50th class reunion.

Adjournment. *Mr. Rachal moved, seconded by Ms. Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:25 p.m.*

September 3, 2019
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Don Little, Steve Riall, Raymond Green and Denee' Locke. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Mary Trammel, Lloyd Thompson, Jasmine Green, Dr. Bonita Douzart, John Albritton, Barry Rachal, and Tony Nations; and staff members Jeff Howard, Keith Burton, Diane Atkins, James Woolfolk, Mary Wood, Sharon Golett and Randy Watson.

Mrs. Bell called the meeting to order at approximately 3:00 p.m. The Invocation and Pledge were led by Steve Riall.

Establish the Agenda as Submitted. *On motion by Raymond Green, second by Denee' Locke, the agenda was established as submitted.*

Mrs. Bell expressed her appreciation to Jeff Howard for reaching out to her as chair regarding the necessary meetings and discussing with her the agenda. Mrs. Bell explained that the floor will be open for questions after all reports/presentations are heard.

2018-19 Financial Statement Review. Chief Financial Officer Jeff Howard highlighted the 2018-19 financial statement. He reminded the committee that in June the Board approved a proposed budget revision to move \$12.1 million from one of the IT reserve funds to cover expenses exceeding revenue. Mr. Howard announced that because operations were better than expected, it was only necessary to transfer \$2.6 million, largely due to an increase in the amount the District received in sales taxes and Medicaid revenue being more than we budgeted. He further highlighted some of the larger variances, i.e. MFP, Federal Impact Aid, and indirect costs; and he pointed out that the District completed the year being \$2 million less in expenditures, mainly because teachers and SPED teachers' salaries totaling over \$1 million. He highlighted some of the expenditures in the budget comparing amounts to previous years' budgets and reasons why some expenditures were more and why some were less.

Mr. Riall asked for clarification on the District spending more for operations/utilities than we budgeted when we have an energy program. Mr. Howard explained that having been in meetings where this was explained, the usage is down; however, the cost per unit is up. Mr. Woolfolk added that the District uses over 60 million kilowatt hours, and a small increase in the cost will hit the District hard. He also reported that water and electric increased, but gas decreased. Mr. Little asked what the cost would be if the cost to Cenergistic was removed? Mr. Howard explained that if what we paid Cenergistic were removed for 18-19, we would have paid \$9.7 million compared to \$9.7 million the year before; but we do not know if the usage would have been as low as it was the year before. Dr. Goree expounded on the numbers stating that even if the usage stayed the same, we would need to look at the cost versus the amount the usage was reduced, which staff can bring back to the Board. Prior to Cenergistic, principals at each school were responsible for making sure lights, computers, HVACs, etc. were shut down during holidays, but it was not enough.

Mr. Rachal asked about the \$2.6 million transferred this year and was it \$5.8 million last year, and Mr. Howard explained that was primarily transferred in from the health insurance reserve fund last year for the raise. Mr. Howard also noted the last page of the budget which reflects we lost \$8.4 million. Mr. Rachal requested to see the raw reports Cenergistics provides staff because he knows there are other companies that would like to review this. Mr. Rachal also asked about the grants amount under Indirect Costs and is it an increase because we were able to get more administrative fees. Mr. Howard reported that staff is taking a hard look at the grants to make sure we are charging for everything and getting maximum reimbursement rather than leaving anything on the table. In response to Mr. Rachal's question on how many years can the District go back and adjust this, Mr. Howard said he believes three years but he will confirm this. Dr. Goree explained that while we do not have a grant writer, the District does have an Academic Department that focuses on grants and bringing in academic dollars.

Ms. Trammel noted the double payment for the graduation fees to use the Convention Center in 2018 and 2019. While this was before his tenure began as chief financial officer, Mr. Howard stated that he will research this. Ms. Trammel asked if staff believes in the research they may find anything else, and Mr. Howard responded he hopes not but he believes it will take approximately 2 years to go through and straighten everything out.

Insurance Updates. Randy Watson, director of insurance, explained that each year staff looks at the District's plans and carriers, as well as options, and presents these to the Board for approval; however, there are not going to be any changes this year to vote on and everything remains the same until March 2021. Mr. Watson further explained that when the

2019-20 budget was approved in June, our healthcare management strategies were continuing to outpace inflation, resulting in growing healthcare reserves, so staff is not projecting any additional funding for healthcare expenses. He announced that with no increases or changes, this brings the timeframe to four years the District has not seen an increase in insurance premiums or out-of-pocket expenses. He did report that needed legal changes, enhancements, formulary adjustments and/or medical management changes for all plans are made as needed and required by Blue Cross, Office of Group Benefits and Affordable Healthcare Act, but they do not affect Caddo's core benefits and often increase our coverage. Members will be notified and these will go into effect on April 1, 2020.

Mr. Watson announced that staff recommends maintaining the same level of coverage on the reinsurance, and a specific stop-loss deductible of \$750,000 and will seek three bids in February and select the lowest premium. Further, he reported there are no changes in premiums or benefits for the District's dental, life and disability plans; nor are there changes in costs or services under the health administrative services.

Mr. Green asked for clarification of what happens when a provider is not a part of the network when the employee was led to believe it was. Mr. Watson explained that benefits are paid for in and out of network providers; and because being in the network is voluntary, the doctor agrees not to balance bill the employee for more than what the insurance company allows. Once the deductible is satisfied and the co-pay is paid and the insurance pays, the provider can only bill an employee the balance owed to pay what insurance allows. He further stated that is why the majority of users select providers in the network since they accept what the insurance pays and do not bill the user for additional money. Dr. Goree further clarified that as he understands it, if an employee accidentally sees a provider that is not in the network, the District is not responsible for the coverage, and only is in the event of an emergency. Mr. Watson also explained if an employee goes to an out of network provider, the District will usually pay less money; but in an emergency, the District will pay a higher level and the provider will bill the user for the difference.

Mr. Little asked if there had been discussion about looking at patients with higher health care costs and transferring them to a secondary insurance rather than paying from the District's insurance reserve. Mr. Watson explained that generally, before an insurance company will provide a quote, they will be asked for all information; and typically in these type situations, the reinsurance company will say they are not going to cover. He further stated that Caddo has not had this problem, but he would love to sit down with the Board and Blue Cross because he has worked with Blue Cross's medical team on some innovative ideas in managing chronic, acute cases. Mr. Little also referenced organizations offering incentives for employees who engage in healthy practices. Mr. Watson explained they have looked at these possibilities and possible lower out of pockets for members who are compliant with their meds, tier the cost of the doctors, higher premiums for smokers, etc., because we do not have a free market system.

Cyber Security Insurance Policy. CFO Jeff Howard shared that with recent cyber incidents and specific attacks against school systems, staff contacted Gallagher who sought out and received quotes from two companies that offer cyber security insurance policies. He stated that Sharon Golett, director of Caddo's technology department, was included in meetings and agreed with the need for this type coverage. Mr. Howard reported that staff is recommending to the committee that Chubb's Option 1 quote of \$14,668.52 a year for this type coverage be presented to the Board for approval. Mr. Howard highlighted areas this policy covers, i.e. stolen information held for ransom. Mr. Joey Sylvester, cyber insurance specialist for Gallagher in this region, confirmed the increase in the number of cyber attacks and incidents and most recently attacks on school systems, and explained that if student or employee information is compromised, there is a time limit for notifying the Attorney General without a risk of being charged fines and penalties. This insurance not only gives the holder financial backing, but the claims and risk management aspects as well so when something happens, a number is called and the breach coach will guide the District through everything that needs to be done step by step. He also highlighted the coverage for each type of incident offered in this option.

Mr. Sylvester responded to Mr. Abrams clarification of coverage for funds transfer fraud explaining that Chubb offers \$50,000 after Travelers pays \$100,000. Mr. Little asked for explanation of the term betterment, and Mr. Sylvester said it is unique coverage to Travelers and in the event of a breach, they will pay up to \$100,000 for upgrading a system to hopefully avoid a future breach.

Relative to ransom, Mr. Riall asked if there is a breach of our system and employee/student information is stolen, do they lock up the information so we cannot use it or do they actually have access to the information. Mr. Sylvester said it can happen both ways, but usually they have access to it and they lock it down. Mr. Riall asked for clarity on what happens when they receive the ransom, since they still have the information. Mr. Sylvester

responded that potentially could happen; and while there is no guarantee, the pre-response cost is for those negotiating to do everything possible to make sure the information is returned, but stressed the importance of notifying the Attorney General's office and those affected as well about the breach.

Mrs. Locke inquired about the media coverage, and Mr. Sylvester explained this covers copyright infringement, i.e. harm to someone in some way through something published on the web.

Mr. Howard noted that the Board approved insurance renewals approximately a month ago; however, this coverage was not included since the information was not available at that time.

Mr. Rachal asked if this was put out for bid, and Mr. Sylvester explained they reached out to the markets for quotes and came with the most competitive. Mr. Rachal asked if the board has to put this out for bid, and Mr. Abrams responded no as this is a service contract and it is the only way to reach out for this type service, i.e. you hire a professional who knows the market, solicit the amounts for different types of coverage, and provide the information to the Board for a decision. He added Gallagher is already our agent and this is an add-on to what we already have. Mr. Rachal asked how many quotes were received, and Mr. Sylvester said three or four. Mr. Rachal also asked about telecom fraud; and Mr. Sylvester responded he is weak in his understanding of this particular coverage, but he believes it is already in the policy. Dr. Goree again clarified that Gallagher is our insurance company and this is Caddo adding an additional coverage on the policies we currently carry. Mr. Abrams clarified Gallagher is a broker firm that seeks coverage by soliciting from known markets to provide the best coverage at the best price based upon their expertise on what is available.

Mr. Thompson asked if they are the only broker the School Board can use to solicit these quotes? Mr. Abrams responded Gallagher is the District's broker firm; and since they brought the coverage to the Board for this year, they were asked to go back and find coverage to cover this portion (cyber). Mr. Thompson clarified his question did we seek bids for a broker, and Mr. Abrams explained that going out for bids is different than saying we could use someone else. You do not bid insurance coverage, but solicit quotes.

Mr. Nations asked if blanks on the quotes indicate "no coverage", and Mr. Sylvester explained that companies deliver areas of coverage differently, and this could mean it is under another title. Mr. Nations also asked about the closest competitive bid being \$8,000 a year; and in our efforts to save money, are we saving in premiums but leaving ourselves open to not having adequate coverage.

Mr. Riall inquired as to who levies fines for incidents not reported, and Mr. Sylvester responded the State does. Mr. Riall also asked how these funds are collected, and the response was through the Attorney General's Office.

Mrs. Locke moved to approve staff's recommendation of Chubbs' Option 1 for cyber insurance coverage and that the committee recommend approval at the next Board meeting. Motion seconded by Mr. Little, and vote on the motion carried.

Adjourn. *On motion by Mr. Little, second by Mr. Green, the meeting adjourned at approximately 3:57 p.m.*

September 10, 2019
CPSB Executive Committee Meeting with Employees

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Other Board members in attendance were Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations and Dottie Bell. Also in attendance was Reggie Abrams, Legal Counsel.

President Trammel called the meeting to order at approximately 5:00 p.m. and Barry Rachal led the invocation and Pledge of Allegiance.

President Trammel announced the special session was scheduled in accordance with policy to allow employees to share their concerns and suggestions with the Executive Committee. She also stated that Board policy does not allow for the Board members to respond or have dialogue in this meeting, however, the Board's secretary will record employees' comments and concerns and she (Board President) will meet with the Superintendent to discuss them.

The following employees addressed the Executive Committee and Board members present with their concerns/issues/suggestions: Katie Barr, Rachel Miller, Frances Harrell (Inequities in evaluation system (VAM) and Top Gains incentives); Chris LeGrand (unfair hiring practices); Brenda Brown-Crump (pay scale/steps and unfair placement on pay scale); Penny Hogan (condition of parking lot between Central Office and Professional Development Center); Shelley Rogers (bus drivers positive meeting with new transportation director who listened, has already made some changes and belief he will continue to address issues); David Bellar (concerns over policies and process for employees paying back overpaid money); and Pamela Williams (para and teacher flight and being told in a staff meeting they are not worth anything).

President Trammel again announced the Board secretary will record their comments and concerns and as the Board President she will meet with the Superintendent to discuss them. She thanked everyone for coming today and voicing their concerns, as well as the work they do for Caddo Parish Public Schools.

There being no additional speakers, *Mr. Rachal moved, seconded by Ms. Green, to adjourn* and the meeting adjourned at approximately 5:30 p.m.

September 17, 2019
CPSB Meeting

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee Locke, Barry Rachal, Tony Nations, John Albritton, and Dottie Bell. Also present were T. Lamar Goree, Ph.D., superintendent, and Reggie Abrams, legal counsel.

President Trammel called the meeting to order at approximately 4:30 p.m., and Barry Rachal led the invocation and Pledge of Allegiance.

MINUTES

Mrs. Locke moved, seconded by Mr. Rachal, to approve the minutes of the August 20, 2019, September 3, 2019, and September 10, 2019 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash-Wood, director of communications and strategic initiatives, recognized the following and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Music by C. E. Byrd Choir. Members of the C.E. Byrd Choir, under the direction of Rebecca Vacha, performed a musical number for the Board and audience.

Presentation by Commissioner Foster Campbell's Office. Bill Robertson of Public Service Commissioner Foster Campbell's office presented the Board President and Superintendent a check for \$126,000. Mr. Robertson explained this check represents a grant awarded to Caddo for replacing the lights in seven high school gymnasiums with LED lights. Dr. Goree expressed appreciation on behalf of the Board and announced that Caddo will seek the 2nd grant.

Perfect ACT Scores. The following students were recognized for scoring perfect on the ACT: Emma Dong and Sameer Tirumala of Caddo Parish Magnet High School.

National Council of Teachers of English Achievement Award in Writing. The following Caddo students were recognized for winning the National Council of Teachers of English Achievement Award in Writing: Kennedy Carey-Prescott, Emily Dunham, Ceara Johnson and Emily Miller all of C.E. Byrd High School. She further announced that Kennedy Prescott was also named a National Merit Semi Finalist last week.

United Way Donation for Transformation Zone Schools. Ninety-eight boxes of school supplies were donated to Booker T. Washington High, Caddo Middle Career and Technology, Fair Park Middle and Woodlawn High schools in addition to each receiving a check for \$375 for teacher supplies. Dr. Wilson explained this represents the work of teachers and students from the Zone schools who volunteered their time at two Walmart Stores, and the citizens of Caddo Parish who donated 98 boxes of supplies and the money to give the schools.

National PTA Schools of Excellence. Torrie Parrott, president of the Caddo District PTA, shared the PTA's mission statement and announced the following four National PTA Schools of Excellence from Caddo: (1) A. C. Steere, Elementary; (2) C.E. Byrd High; (3) University Elementary; and (4) Captain Shreve High. Ms. Parrott explained that each school participates in and completes eight steps toward receiving this recognition.

National Educators of Distinction. The following Caddo educators were recognized at the 2019 Louisiana PTA Annual Convention as National Educators of Distinction: Darlene Alexander, Caddo Middle Magnet; Deann Bazzell, Eden Gardens Elementary Magnet; Emily Berg, Fairfield Elementary Magnet; Tina Burton, University Elementary, Lisa Johnson, C. E. Byrd High; and Carrie Lombardino, Captain Shreve High. Carrie Lombardino was also a state winner.

National School of Leadership Cohort IV Graduates. The following administrators were recognized as graduates of the National School of Leadership Cohort IV: Deborah Alexander,

principal at 81st Street ECE; Crystal Barnes, principal at Booker T. Washington High; Pam Bloomer, principal of Summer Grove Elementary; Beverly Cole, Title I supervisor of school compliance and program improvement; Kylie Cotton, principal of Pine Grove Elementary; Kim Derrick, principal, Magnolia Charter; Maria Edwards, assistant principal, Captain Shreve High; Michelle Franklin, principal, E.B. Williams Stoner Hill Elementary; Yolana Gibbs, principal, Forest Hill Elementary; Pamela Graham, principal, Fairfield Elementary Magnet; Steven Grant, principal, Green Oaks Performing Arts Academy; Thedra Green, assistant principal, Green Oaks Performing Arts Academy; Mary Harris, principal, South Highlands Elementary Magnet; Cassie Harwell, Human Resources specialist; Lisa Johnson, assistant principal, C. E. Byrd High; James Kennedy, administrator, Human Resources; Sandra Mack, assistant principal, Shreve Island Elementary; Mitzi Nix, assistant principal, Walnut Hill Elementary/Middle; Gregory O'Quin, assistant principal, Youree Drive Middle; Dr. Karon Rankin-Manning, principal, Judson Fundamental Magnet; Jesse Scott, principal, Southern Hills Elementary; LeAnn Skinner, principal, Summerfield Elementary; Dr. Grady Smith, principal, Woodlawn High; Tonya Smith, instructional coordinator, Northside Elementary; Dennis Spires, assistant principal, Northwood High; Dana Spyres, Jump Start and CTE programs; Emily Stanford, administrator, Human Resources; and Tarika Williams-Walker, assistant principal, Creswell Elementary.

Precious Memories Donation to Caddo Schools. Lynn Connor, Jr.; owner and CEO of Precious Memories Mortuary, was recognized for making a \$10,000 donation to Caddo Schools, \$1,000 each to JS Clark, Cherokee Park, Fair Park, Booker T. Washington, Werner Park, Midway, Huntington, 81st Street, Woodlawn and Oak Park. The funds will be used to support student services and incentives at each of these schools.

Newly Appointed Administrators. Charles Lowder, director of certified personnel, recognized the following newly appointed administrators: Karen Arbuckle and James Demery, assistant principals, North Caddo High; and Sommer Anderson-Picou, interim principal, Arthur Circle Elementary.

Al Graham, director of classified personnel, recognized the following newly appointed classified administrators: Charnae McDonald, assistant director of communications; and Kristi Willis, controller.

VISITORS

The following visitors addressed the Board on matters of interest and/or concern: Dr. Meghna Chadha (Fairfield Elementary Magnet multi-purpose room); Kimberley Jones and daughter Kimberley Harris (permanently assigned air-conditioned bus for Bus 493 route); and Jackie Lansdale, president of Red River United, VAM (evaluation system and belief it is within the Board's authority to change it, Board forum to hear from employees).

ESTABLISH THE AGENDA

Superintendent Goree highlighted items on the agenda for the Board's consideration and the following discussion ensued.

President Trammel announced that Item 8.08 "Proposed Revisions to CPSB Policy GAHB-Political Activities" is pulled and referred to committee for review", and Items 6.02-6.04, 8.02-8.07, 8.10-8.11, and 13.01 are the consent agenda.

Ms. Green asked if a motion must be made to remove an item from the agenda. President Trammel said if someone is not in agreement, then a motion will need to be made and voted on to remove it; and Mr. Abrams confirmed only if someone disagrees. Ms. Green said she asked only because she remembers how she was done. Ms. Trammel added it is being pulled to send to committee to discuss additional information and clear questions from one of the employee organizations.

Mr. Nations asked that 6.01 Personnel Recommendations be removed from consent.

Mr. Rachal moved, seconded by Mrs. Locke, to establish the agenda and proposed consent agenda for the September 17, 2019 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.02 Personnel Transactions Report-Resignations-August 2019. The Board approved the personnel transactions report (resignations for August 2019) as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewals -September 2019. The Board approved administrative contract renewals for September 2019 as recommended by staff and submitted in the electronic mailout.

6.04 Requests for Leave. The Board approved requests for leave as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Health Hero Vaccination Program. The Board approved the Health Hero Vaccination Program for Caddo Parish Public Schools' students as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Department of Exceptional Children 2019-2020 Interagency Agreements and Contracts. The Board approved the Department of Exceptional Children 2019-2020 Interagency Agreements and Contracts as recommended by staff and submitted in the electronic mailout.

8.05 Consideration of Additional Mental Health Interagency Agreement and Contract. The Board approved additional mental health interagency agreements and contracts for the 2019-20 school year as recommended by staff and submitted in the electronic mailout.

8.06 Authorization of Salvage Sale of Equipment & Supplies. The Board approved authorizing staff to hold salvage sale of equipment and supplies as listed in the electronic mailout.

8.07 Consideration of Louisiana Compliance Questionnaire. The Board approved the Louisiana Compliance Questionnaire as recommended by staff and submitted in the electronic mailout.

8.10 Consideration of Recommendation to Approve the Position of CNP Purchasing/Inventory Coordinator and Proposed Job Description. The Board approved the position and proposed job description of CNP purchasing/inventory coordinator as requested by staff and submitted in the electronic mailout.

8.11 Consideration of Cyber Insurance Policy (Insurance and Finance Committee). The Board approved a Cyber Insurance Policy as recommended by the Insurance and Finance Committee and submitted in the electronic mailout.

13.02 Student Readmission Appeals. The Board approved readmission appeals for students JD, ZJ, and SB as recommended by staff and submitted in the electronic mailout and whose parents are in agreement.

PERSONNEL RECOMMENDATIONS

Mr. Rachal moved, seconded by Mrs. Locke, to approve personnel recommendations as recommended by the superintendent and submitted in the electronic mailout. Mr. Nations stated that at the Battle on the Border, several bus drivers expressed concern about a letter directing them to park at a different location, and he asked who generated this unsigned letter on plain white paper (not letterhead). Dr. Goree explained the letter was sent from Bruce Daigle, director of transportation, and in speaking with him after receiving a call, he said it is a standard letter sent out. Mr. Albritton called for a point of order. President Trammel explained that a personnel matter is being discussed that is not a part of the motion, and she encouraged Mr. Nations to request this information. Ms. Green noted adjustments made in transportation and asked if we

will fill this person's position. Dr. Goree confirmed that position will be filled. *Vote on the motion carried with Board member Tony Nations abstaining.*

CONSIDERATION OF REVISIONS TO CPSB POLICY(IES) IKA

*Mr. Rachal moved, seconded by Mrs. Locke, to approve proposed revisions to CPSB Policy(ies) IKA as recommended by staff and submitted in the electronic mailout to reflect changes made in the board-approved Pupil Progression Plan. Mr. Rachal asked if the weighted grades are still in place, and Mr. Burton said it was noted as not being included in Pupil Progression Plan and staff wants it in Policy IKA and it will remain. Mr. Rachal asked if staff sees where any progress can be made with BESE or the State to correct this injustice (a 7-point scale) to the students. Dr. Goree stated that he discussed this with staff and the best way to utilize our voice and to make change, one being a resolution approved by the Board and sent to BESE, and also to have conversation with the School Board Associations, the Superintendent's Association, and the Administrators' Association and generate some energy behind it. Mrs. Bell stated her agreement with Mr. Rachal's comments; and while she believes conversations are important, sometimes a petition means the community is involved and concerned; and she believes in putting together a petition about these unfair grading practices to present to BESE at one of their meetings. Mr. Riall asked if any dialogue has taken place with District 4's BESE member, and Dr. Goree said he believes there was a conversation with Mr. Davis early in his tenure as our BESE representative as well as with Superintendent White, but not recently. Mr. Riall asked if he has reached out to Caddo in any way, and Dr. Goree said he has not. Mr. Thompson added that he talked with Mr. Davis last week and he will be in Shreveport next week. *Vote on the motion carried with Board member Dottie Bell opposed.**

SUPERINTENDENT'S REPORT

9.01 Cenergistic Monthly Report. Dr. Goree announced that 9.01 will be a standard item under his report to bring an update on Cenergistic. Mr. Little asked if placing the LED lights in seven Caddo gymnasiums will be noted on the report by adjusting the baseline to reflect what we did vs. something Cenergistic did, and Dr. Goree responded it will.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell asked that staff contact Huntington about the Auditorium and the Band Room leaking. Dr. Goree said staff is aware and is working on the repairs.

Mr. Thompson asked for an update on the Creswell A/C system before he leaves today.

President Trammel expressed condolences to Mrs. Bell and her family in the loss of her brother.

ADJOURNMENT

Mr. Riall moved, seconded by Mrs. Locke to adjourn. Vote on the motion carried and the meeting adjourned at approximately 6:00 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

October 1, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. Board member Tony Nations led the invocation and Pledge of Allegiance.

PRESENTATIONS

Human Resource Annual Update. Diane Atkins, chief human resource officer, shared with the Board an annual update on meeting the Strategic Plan's Human Resource goals to reduce September 1 counts of the school year by 10% annually, to increase retention of certified employees (teachers) with 0-3 years of employment; and increase retention of classified personnel with 0-3 years of employment. Human Resources Department directors and administrators present were recognized.

Mrs. Atkins announced that the Department of Teaching and Learning invited and welcomed 188 new teachers to Caddo on August 5th, and she thanked the Board members for also participating in this event; and she added that to date that number has increased to 206 new teachers. In reducing the vacancies by 10% annually, Mrs. Atkins announced that Caddo decreased vacancies the past school year by 11% and she recognized Dr. Karen Peace and her team members who worked so hard to meet and surpass this goal. A list of schools reporting the percentage of total staff, fill rate in the Core subjects (Math, Science, Social Studies and Language Arts) and the number of vacancies was also shared, and she reported that Caddo Parish Public Schools has no school that is less than 90% staffed in the Core subjects. She announced that Golden Apple Awards (100% staffed schools) were presented to 26 elementary schools, 1 elementary middle school, 1 middle school, 1 7th-12th grade school, and 5 high schools. Red Apple Awards (90% staffed schools) were presented to 8 elementary schools, 4 elementary/middle schools, 6 middle schools, and 6 high schools. She stated this has been accomplished by "growing our own" through the Caddo Teaching Academy, a partnership with Louisiana Tech University in a Master of Arts in Teaching Program, and the TNTP Program where teachers can receive certification in special education. Mrs. Atkins also shared a breakdown of the total number of new hires (certified and classified) by position for this school year.

In HR's work to increase the retention of classified personnel, Mrs. Atkins reported that retentions increased by 4% during the 2018-19 school year. Also, staff supports to make sure we continue to increase retention and reduce vacancies included new teacher fairs, Praxis Prep tutoring, use of student enrollment data, providing commitment letters, and master and mentor teachers as well as new teacher content coaches. Dates for job fairs, Praxis prep tutoring, and transportation job fairs were shared with the Board.

Mr. Rachal asked about the low number reported now versus past numbers, and Mrs. Atkins shared specific examples of schools filling vacancies in Core subjects and the choices teachers have, i.e. transfers and changing the transfer dates for teachers to request a transfer. Dr. Goree added that if one looks back five years, this number consistently was in the range of 120; and in the last two years, this number has been in the 80s, which is a measurable decrease. Mr. Rachal thanked staff for its diligent work in this area. Mrs. Atkins and Dr. Goree expressed appreciation for equitable opportunities the Board provided for the District's teachers, and for the hard work of HR and Academics in working on the retention numbers.

Mrs. Bell echoed Mr. Rachal's comments and complimented the staff for changing perceptions of teachers not wanting to go to certain schools. She also asked for clarification on one-on-one assistance for teachers preparing for the Praxis test. Mrs. Atkins confirmed the support staff provides is identifying areas in which someone struggles and providing concentrated professional development and support in that area. Mrs. Bell commended the Transformation Zone and asked if schools in her District are Title I, and Dr. Goree confirmed all but Walnut Hill. Mrs. Atkins reminded the Board that the Tier I curriculum is in place throughout the District.

Mr. Little complimented the HR team on the reported accomplishments and noted that one would not typically see these results in the commercial industry. He asked about the requirements/needs for staffing Transportation, the number of vacancies and the retention rate. Mr. Woolfolk responded that relative to the number of

routes, we are two more than what is needed; however, there are no subs, meaning if any bus driver is absent, we do not have drivers to drive the route. He believes we need approximately 10% over (30 subs) to cover the absences.

Dr. Douzart stated when she was coaching and there was a shortage of drivers, the coaches drove the buses. Dr. Goree said he is aware of similar situations and staff is working with Rahmberg & Associates to create a job description for utilizing people in different roles (cross training), i.e. cafeteria workers also driving a bus. Dr. Douzart also noted a number of calls she received prior to the start of school from those new to Caddo wanting more information on Caddo.

Mr. Nations commended staff on the reported numbers and noted that when losing and replacing an employee, it is not an even swap because of the significant cost to train employees.

Ms. Trammel reported on conversation with her school and the principal continuing to work hard to fill any sub position with a certified teacher in the classroom. She also will share this information in working to recruit and retain certified teachers in our classrooms.

Ms. Green asked Mrs. Atkins about zero vacancies for certified teachers at Green Oaks, and Mrs. Atkins explained that is correct in the Core areas. Ms. Green also asked how many teachers did we recruit this year. Mrs. Atkins responded on August 5th there were 188 new teachers; and as of today, 206 have been hired. Ms. Green asked Mrs. Atkins how many of these were recruited by Dr. Peace's team (CTA). Dr. Goree stated that all new teachers come through recruiting, and Ms. Green clarified by example that someone walks into Caddo one day and wants to teach but doesn't necessarily come through recruitment. Dr. Goree explained that even if someone shows up at a school wanting to teach, that person is referred back to the District's recruiting team to go through the process to bring them on board. Mrs. Atkins also stated that staff keeps the data on how many attend the job fairs and from this information, staff extracts how many actually become a teacher.

VAM Report. Chief Academic Officer Keith Burton shared with the Board an overview of the VAM system stating that because this is a complicated and emotional discussion that only comes up at certain times of the year, staff wants to make certain the Board receives the latest information on VAM. He began by stating that VAM stands for Value Added Measure, and the easiest way to understand is to visualize a student walking in a teacher's door in August, leaving in May, and determining the quantifiable instructional value for each throughout the year and through an assessment test, i.e. End of Course test or Leap 2025. He explained it is a percentile ranking for certain teachers (grades 4-8 ELA, Math and Social Studies, Algebra I, Geometry, English I and English II) that measures student success compared to similar peers year to year in the state. Mr. Burton further explained that next year we will add science teachers. These teachers represent approximately 20% of all teachers in the District (499) and receive a VAM score.

Mr. Burton further explained that once the student takes the assessment, VAM will show the extent to which a student's achievement was on target with what was expected based on certain factors. He added the misconception is the State believes no matter what environment a child is in, what their disabilities might be, and their discipline and attendance radius, the child should grow incrementally each and every year; however, this is not necessarily true. Based upon the student's situation, there are times when we could actually expect a student to decline and their VAM score targeted lower than the previous year. Key points to remember are:

- The value added for a student is the difference between their actual score and their expected score.
- For a teacher, his/her VAM score is the average of every student in the teacher's classroom.

Some of the factors considered when expecting whether or not a student will stay the same, increase or decrease include:

- Data on up to three years of the student's prior test history.
- Student's attendance.
- Student's socioeconomic status.
- Is the student labeled as a gifted student.
- Is the student labeled as a special education student with exceptional needs.
- Number of discipline referrals.

The state considers this information to forecast what they think the student's score should be. Mr. Burton cited an example of a 6th grade student and how that student scored (Approaching Basic) on testing, how students scored with a similar testing history throughout the state like this student to determine a skill score of 719. If this student has factors, i.e. special education receiving speech and English language therapy, missing 10 days of school, they typically will score an average of three points lower than their peers. When taking the Leap 2025, this student scores a 718 on her value add; and because students like this student were expected to score a 719, and students like this student typically score three points lower, the student was expected to score a 716. However, because this student scored a 718 (2 points above her peers), the student's value add was a plus 2.

Mr. Burton further explained how this impacts teachers' evaluations explaining that 50% of a VAM teacher's evaluation comes from professional practice (the principal/evaluator going into the teacher's classroom, observing instruction and complete an observation form, and a teacher's cumulative observations makes up this 50%). Fifteen percent (15%) comes from SLTs (student learning targets) which are mutually agreed-upon targets between the teacher and the principal/evaluator. The remaining 35% comes from the teacher's VAM score (which is the average of all the students' performance in the teacher's classroom). He again clarified this is only teachers in Grades 4-8 Math, ELA, Social Studies, Algebra I, Geometry, English I and English II, and next year Science will be added to these.

He also stated that based upon the teacher's VAM score, they are given a percentile rank (ineffective, effective emerging, effective proficient, highly effective). If all the students in a teacher's class score an average of plus 2, the teacher could be ranked an effective proficient teacher based on the impact the teacher made on the students compared to everyone else. He also noted the example of a middle school math teacher with 62 students, some of which had exceptionalities, a majority were economically disadvantaged, 15% of the 62 were expected to decline and 85% were expected to increase. The students were tested and it is determined that the teacher has a value add of plus 2 (two points higher than what was expected), ranking the teacher in the 58 percentile and receiving a VAM score of three (which is effective proficient).

Last year, Mr. Burton explained that of the 499 teachers who received a VAM score, 77 teachers (15.43%) were rated highly effective, 134 (27%) were rated effective proficient; 220 (44%) were rated effective emerging, and 67 (13.43%) were rated ineffective and only one teacher did not receive a score. These results reflect 42% of Caddo's VAM teachers receiving an effective proficient or highly effective rating.

Mrs. Bell asked for clarification on where VAM originated, and Mr. Burton confirmed it is from the State and is law. She asked staff to explain what happens when a teacher is rated ineffective, and Mr. Burton explained they will not be eligible for certain incentive pay; and if effective emerging, they would not be eligible for certain monies, and tenure could be affected. Dr. Goree added that in trying to make an extremely complicated system of data as simple as possible, it is important to remember that VAM is part of a whole evaluation; and the consequence is not based solely on the VAM score, but the entire observation. He further stated there may be teachers who did not do well in VAM even if the remainder of their evaluations were successful. He did agree with the statement that a teacher may not receive certain incentives; but, based on Board policy, a teacher will also be unable to move to the next pay step, in addition to affecting tenure status.

Mrs. Bell stated she believes it is unfair to the teachers who are teaching in low socioeconomic schools with low scores; and because she still does not understand this system as she would like to understand it, she will contact Mr. Burton about sitting down to discuss it further. Dr. Goree stated that the State put VAM into place the year before he returned to Caddo and did so with a lot of problems, a lot of which were in the magnet schools because teachers were at a disadvantage if they taught high scoring students with not much room to move higher. He said those who benefit the most from VAM are teachers in the schools described by Mrs. Bell because there is so much room for the students to move up, and those schools are benefitting the most. He also said the good thing about the new VAM model is it looks at a child and it does not say that one child has to grow the same as the others, but it looks at each child's situation adjustments are considered. Mrs. Bell stated her disagreement and her desire to understand more clearly the data before addressing the Legislature concerning this. Dr. Goree also reported that last year there were only two Caddo teachers whose *overall* evaluations ranked them as ineffective and these two teachers are no longer in Caddo.

Mr. Little asked about the gifted teachers who have advanced certifications and hundreds of hours of professional development and are receiving some of the lowest scores in the state. While he understands VAM is only a small portion of the total, it is very frustrating for these teachers when they put everything into teaching and score in the bottom 10%. He also noted the three teachers who approached the Board as well as shared a very comprehensive email with Board members, along with other educators, and he hopes attention is given to this particular component. Mr. Burton responded that the negative for many of these teachers is they have small class sizes, and they are compared with a large number of students across the state; however, Caddo has gifted teachers with incredible VAM scores, and teaching gifted doesn't necessarily place them at a disadvantage, since the gifted component of a child is taken into consideration. Dr. Goree also explained that when VAM was frozen for a few years, South Highlands played a major role in the conversations on how to revamp VAM, i.e. hold harmless and high scoring students with little room to advance. Mr. Little stated if there is an acknowledged deficit in higher performing scenarios, there must be a work around for these teachers since it is truly a disincentive for them; and many are feeling as if they have failed when in reality their students are advancing over the year with no way to quantify it.

Mr. Riall asked Mr. Burton to clarify the 499 teachers, and Dr. Goree explained it is the teachers who teach in tested areas (LEAP tests for Math, ELA, Social Studies, Algebra I, Geometry, English I and II); and next year Science will be added to these. Mr. Riall asked if he understands the only students judged are those in these teachers' classrooms, and Mr. Burton confirmed that to be correct. Mr. Riall also asked about the subjective matter, i.e. disability, poverty, and if this is a State determination. Mr. Burton said it is and simply that they look at students with specific conditions/characteristics and how they performed. Mr. Riall asked if a disability is graded/scored differently or is it just a condition that is considered. Mr. Burton confirmed that to be correct.

Mr. Rachal asked if there is any way Board members could see real examples with the names marked out, and Mr. Burton said he can and the two examples given were actual examples. Mr. Burton also recognized Melissa Mainiero, director of accountability, who is the person most knowledgeable of this. Mr. Rachal also asked if each student has a page listing their expectations, etc., and Mr. Burton clarified it is not a growth target where the teacher can look at where a student should be at the end of the year. VAM is different in that students have not taken the test and everyone must take the test before you can know how students with similar characteristics did. Again, he reminded the Board it is not a growth measure, but it is a value measure "at the end of the race". Mr. Rachal asked about the teacher with 62 students and in the end, the teacher is zero and does this mean the teacher is ineffective. Mr. Burton stated that it depends on how all the teacher's peers across the state did, and it is always a percentile ranking – I did better than blank number/percentile of people in the state. Dr. Goree added that the only way a teacher is ranked ineffective is if the teacher is in the bottom 10 percentile (or 90% of children like those the teacher taught did better than your students). Dr. Goree also stated that he appreciates the questions, but encouraged Board members to sit down with Mr. Burton and Mrs. Mainiero to work through understanding this system. Mr. Rachal asked if the Board needs to address specific areas of this system that need tweaked? Mr. Burton responded that while it is not the perfect system, and he does not believe we will ever get to a perfect system, a push from school boards across the state will be beneficial in the State continuing to refine the program so it is a fair, accurate measure that quantifies their impact on instruction. Mr. Rachal asked for specific changes the Board can push for, and Mr. Burton responded he would like to review any patterns in the data over the past 3 years and bring something to the Superintendent. Dr. Goree also added that Mr. Burton and his team are also looking at teachers that scored low on the VAM, but scored high on the other components of their evaluation and determine any patterns of flaws in the system.

Dr. Douzart asked if there is a formula, and Mr. Burton said he is not aware of a specific formula because the process is the State Department looks at a statistical analysis after all the schools are tested. Dr. Goree added it is all tied to a model on a computer. She further stated her belief if there was a formula for each category, it would reflect the fairness of the system and answer a lot of questions.

Mrs. Locke asked if this is based on what is established at the beginning of the year; and Mr. Burton again pointed out that nothing is set at the beginning of the year, but everything is based upon how students performed during the year, how they compare to one another as well as the past three years of data.

Mr. Nations thanked Mr. Burton for bringing this information and asked how long has VAM been in place, and staff responded approximately 7 years. Mr. Nations also asked about the concept of teaching to the test and if we are teaching to VAM. Mr. Burton stated every Core teacher is provided the Tier I Curriculum that is totally aligned to state standards, and if they trust the curriculum and attend provided professional development, they will be fine; however, the issue continues where students come to teachers with skill gaps as well as trauma experiences in their life. Mr. Nations asked about the general reception across the state and if this is the best way to measure success. Dr. Goree noted the importance of staff bringing a breakdown of all the teachers, because it is easy to hear a few people complain and assume that is the majority. He believes it is important to provide the Board with some data on the large number of teachers who have accepted VAM and are using it to help strengthen what they are providing children every day. He also said that because it is based on a three-year cycle, 3rd grade is the only year in which historic data is not available and thus those teachers are not a part of the VAM conversation. Also, one of the advantages of VAM is it has created the student progress part of the District's School Progress Score (SPS); and most schools are benefitting from this progress indicator. While he does not disagree about the need to continue tweaking this program/system, he believes as we gain knowledge about it, we can come up with a product that insures we are moving students forward and providing them with more opportunities.

Ms. Green asked about the changes and if any will be coming forward in the near future. Mr. Burton said he is not aware; however, if they develop a task force, Caddo will ask to be a part of the process. Ms. Green also asked about the level of communication between staff and the State Department, and Mr. Burton and Dr. Goree responded there is a lot of communication from the Superintendent sitting on the Superintendent's Advisory Council to a conversation even today with the State.

Mr. Riall asked about grades 1 through 3, and Mr. Burton responded students in 3rd grade begin testing with the Leap and test through 8th grade; however, VAM is grades 4th – 8th.

Ms. Trammel asked if VAM is nationwide or statewide. Mr. Burton responded that VAM is a Louisiana initiative (law); however, multiple states use a value added model. Ms. Trammel asked if we have looked at other states to determine what they are doing, and Mr. Burton responded we have and one can go online and look at what Kentucky, Tennessee, Texas, et.al. have done. Ms. Trammel asked about the issues stated by Board members relative to the unfairness and needed action to address these concerns. Mr. Burton said in looking at a test score along with additional data pieces across the board a student's score should never be a surprise since valued measures are taken to guide instruction, which should lead teachers to know how the student is performing. Also, all the teacher's classwork should lead them to know how the student is doing; however, if test day happens to be a bad day for a student, their score that day is still considered.

ESTABLISHING THE AGENDA AND CONSENT AGENDA FOR THE OCTOBER 22, 2019 CPSB MEETING

Superintendent Lamar Goree highlighted items for the Board's consideration at its meeting on October 22 and the following discussion ensued.

President Trammel announced that Items 6.02, 8.02-8.03 and 13.01 as the consent agenda.

Consideration of Revisions to CPSB Policies EBBC and EBBB. Mr. Abrams explained that last year a statute addressing student safety was provided by the Legislature when there is a threat of violence against the safety of a student, an act of terrorism, the Board is required to have a policy in place for addressing. He said CPSB implemented a policy that allowed administration to remove the student from the school anytime there was a threat of terrorism or safety of a child. It also would be referred to law enforcement and to a Judge for an evaluation by a doctor or psychiatrist to determine by definition if a child is an imminent threat. If so, the child is removed by law enforcement and not by the school system. The Judge takes it to the DA who has seven days to file a petition to have the child evaluated to determine if the child is a credible, imminent threat. The proposed revisions correct Caddo's policy to reflect this.

Mr. Thompson asked if 9.01 will be a written report to the Board, and Dr. Goree confirmed it will be and will be a standard report to the Board each month.

Mr. Rachal moved, seconded by Ms. Green, to approve the proposed agenda and consent agenda for the October 22, 2019 CPSB meeting as presented. Vote on the motion carried.

ANNOUNCEMENTS

Dr. Goree invited the Board to Caddo's Annual Teacher of the Year Banquet on October 10, 2019, 6 p.m. at the East Ridge Country Club, as well as to the United Way Kick-off Breakfast on October 4, 7:30 a.m. at East Ridge.

Mr. Rachal announced that a group of Captain Shreve graduates will celebrate their 40th class reunion this weekend.

Mrs. Bell requested staff to provide her with Caddo's bullying policy and the process followed when someone reports being bullied.

Mr. Little announced that absentee voting is September 28 through October 5, and election day is October 12, and encouraged all to exercise their right to vote.

Ms. Green commended this year's Soul Bowl event with Green Oaks winning the third consecutive year.

Dr. Douzart announced that tonight is National Night Out and she looks forward to visiting in the community.

President Trammel announced that several Board members attended the CUBE Conference in Miami and shared that one of the main issues throughout the conference was transportation and the shortage of drivers.

Adjournment. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:15 p.m.*

**October 22, 2019
CPSB Meeting**

Members present: Steve Riall, Jasmine Green (arrived at approximately 4:35 p.m.), Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee Locke, Barry Rachal, Tony Nations, and Dottie Bell. Also present were T. Lamar Goree, Ph.D., superintendent, and Reggie Abrams, legal counsel. Mr. Albritton was absent due to illness.

President Trammel called the meeting to order at approximately 4:30 p.m., and Tony Nations led the invocation. Caddo JROTC Corps Cadets posted the colors and led in the Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE SEPTEMBER 17, 2019 AND OCTOBER 1, 2019 CPSB MEETINGS

Mr. Rachal moved, seconded by Mr. Riall, approval of the minutes of the September 17, 2019 and October 1, 2019 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash Wood, director of Communications and Strategic Initiatives, recognized the following students and employees and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

JROTC Promotions. Col. Eric Sweeney announced the promotion of Cadet LTC Select Rachel Clottey from Captain Shreve High School as the 2019-20 JROTC Corps Commander. Cadet LTC Clottey also was awarded the Legion of Valor Bronze Cross Award. Col. Sweeney also recognized the following Brigade Commanders promoted to Colonel: (1) Cadet LTC Alex Walden, 1st Brigade Commander, Northwood High School; (2) Cadet LTC Andrew Wesley, 2nd Brigade Commander, Caddo Magnet High School; (3) Cadet LTC Trinity Hays, 3rd Brigade Commander, C. E. Byrd High School; (4) Cadet LTC Isaiah Roberts, 4th Brigade Commander, North Caddo High School; and (5) Cadet LTC Waylon Smith, 5th Brigade Commander, Southwood High School.

National Merit Semi-Finalists. The following students were recognized as National Merit Semi-Finalists: C. E. Byrd High School's Kennedy Carey-Prescott, James Rushing, and Robert Lawrence; Caddo Parish Magnet High School's Joshua Gill, Ian Golsby, Sloan Hall, Taylor Rosen, and Grace Sun; and Captain Shreve High School's Stewart Simon.

Samaritan Program. Mrs. Wood announced that every student in the following schools received a new pair of shoes in addition to having their feet washed as part of the Samaritan's Feet Program: Sunset Acres, Midway and Werner Park. Board member Raymond Green expressed appreciation to Renee' Ellis for the role she played in making this happen for students.

Oak Park Elementary. Mrs. Wood also announced that Oak Park Elementary recently received a \$25,000 grant from SWEPCO affording 1st through 5th graders the opportunity to weekly be a part of character education.

Administrative Appointments. Lisa Paine was recognized as the newly appointed Supervisor of Accounting and Accounts Payable.

VISITORS

The following visitors addressed the Board on matters of concern: Jackie Lansdale, president of Red River United, steps addressing transportation issues; James Richard, parent, support of bus drivers; Marquita Norton, transportation/bus concerns.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. He announced that relative to Item 13.02, parents of both students (CV and AB) have withdrawn their request to present their child's expulsion to the Board.

Mrs. Trammel announced the Consent Agenda as follows: 6.01-6.03, 8.01-8.03, 13.01 and 13.03.

Mrs. Locke moved, seconded by Mr. Rachal, to establish the agenda and consent agenda for the October 22, 2019 CPSB meeting as presented. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.01 Personnel Recommendations. The Board approved personnel recommendation(s) as recommended by the superintendent and submitted in the electronic mailout.

6.02 Consideration of Requests for Leaves. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

6.03 Personnel Transaction Reports (Resignations). The Board approved personnel transactions reports (resignations) as recommended by staff and submitted in the electronic mailout.

8.01 Property/Bus Rental Requests. The Board approved the request for long-term use of Barret Elementary Auditorium as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel (General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Proposed Revisions to CPSB Policies EBBB and EBBC. The Board approved the proposed revisions to CPSB Policies EBBB and EBBC as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students TL, SW, and JB as recommended by staff and whose parents are in agreement with staff's recommendations.

13.03 Legal Update: Jamarcia Ginn, Individually and obo Her Minor Child, J.G. v. CPSB and Penny Anderson 597,738A, 1st JDC, Caddo Parish, Claim #6417584. The Board authorized resolution of matter in accordance with the recommendations of staff and Board Counsel.

STUDENT EXPULSION APPEALS

Superintendent Goree announced that the parents of both students (AB and CV) have called and requested to withdraw their expulsion appeals before the Board.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell asked staff for an update on addressing the destroyed baseball field at Huntington High School.

Mr. Little asked staff for additional information on the LHSAA attendance zone information as tryouts at many schools will begin next week.

Mr. Riall reminded everyone to attend one of the Veterans' Day programs that will take place in many of our schools.

Dr. Douzart reported on one of the programs she attended at Werner Park, one of the District's Transformation Zone schools.

Dr. Goree noted the updated copy of Caddo's "Roadmap to Success" at Board members' stations and encouraged Board members to pick up copies and share them at places of business in the community.

Mr. Nations expressed appreciation to Dr. Goree for the very informative news conference today relative to transportation and the steps to rectify the situation.

Mr. Green echoed Mr. Nations' comments regarding Dr. Goree's presentation to the public on transportation.

Adjournment. *Mr. Rachal moved, seconded by Mrs. Locke, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:23 p.m.*

October 29, 2019

The **Caddo Parish School Board (CPSB)** held a luncheon meeting with State BESE Representative Tony Davis on Tuesday, October 29, 2019 at 12:00 noon in Room One of the CPSB Central Office, 1961 Midway, Shreveport, LA. Those in attendance were Board members Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Dr. Lamar Goree, superintendent, Reggie Abrams, legal counsel, and staff members Mary Wood, Keith Burton, Diane Atkins, Jeff Howard and James Woolfolk were also in attendance. Steve Riall was absent.

President Trammel called the meeting to order, welcomed everyone, and thanked Tony Davis for taking the time to meet with the Board to discuss important educational matters. Tony Nations led in the prayer and Pledge of Allegiance.

Discussion of Educational Matters. Superintendent Goree opened the discussion by thanking Mr. Davis for taking time from his schedule to discuss some of the issues the school system faces. Educational matters presented and discussed included (1) Uniform Grading System; (2) Teacher Evaluations, (3) Teacher Certifications/Preparations, (4) Charter Schools/Vouchers; and (5) Innovative Programs.

Mr. Burton highlighted the areas of the grading scale and teacher evaluations, and Mrs. Atkins highlighted the area of teacher certifications and preparations. Each pointed out changes made and now embedded in law, how changes are affecting the students, their GPAs and college scholarship opportunities, as well as the changes in laws are affecting the District's work in attracting and retaining highly qualified, certified teachers for Caddo's classrooms. Board members also stated their concerns relative to the negative effects of charter schools and vouchers on districts, as well as unfunded mandates, and implementation and continuous turnover of programs. They also shared what Caddo would like to see happen in an effort to address these issues that continue to make it difficult for the District (and districts across the state) to meet the State's mandates and still provide the best education possible for all students. Staff also shared they were hopeful consideration would be given to convening a task force that will seek and provide feedback on these issues as well as utilize BESE's Superintendents Advisory Council to provide input from large, rural, and small districts in discussing the impact of these changes on students.

Mr. Davis thanked the Board for inviting him to hear from Caddo on these matters of concern and challenges faced. While he does not have all the answers, he said he believes receiving as much information as possible so he is as informed as possible will help in discussions with other BESE members and districts across the State. In moving forward, he added he will be in communication with Dr. Goree as he further researches these matters of concern.

Adjournment. The luncheon adjourned at approximately 1:35 p.m.

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

November 5, 2019
CPSB Audit Committee Meeting

Members present: John Albritton, chair; Raymond Green and Dr. Bonita Douzart. Don Little and Denee' Locke were absent. Also present were Chief Academic Officer Keith Burton, Board Attorney Reggie Abrams; Board members Lloyd Thompson, Mary Trammel, Jasmine Green, Barry Rachal, Tony Nations, and Dottie Bell, as well as staff members Kelli Duffield, Jeff Howard, and James Woolfolk.

Chair Albritton called the meeting to order at approximately 3:00 p.m., and Dr. Douzart led the Invocation and Pledge of Allegiance.

Establish and Confirm the Agenda. *On motion by Mr. Green, second by Dr. Douzart, the agenda was established and confirmed as presented.*

NAPA REPORT. Kelli Duffield, chief internal auditor, presented the NAPA report (which was emailed prior to the meeting). She reminded the committee that last year (June 2018) Caddo entered into an agreement with NAPA to serve as the primary supplier for transportation parts; and this report comes at the request of the CFO to look at the first year to determine if the District did save money. In looking at the results, she said the actual cost for maintenance parts during the first year declined 16% and since the Transportation buyer position was eliminated, the District also saw a cost savings in salary and benefits of approximately \$81,600, resulting in an overall 18% reduction. She explained the report consisted of several findings and they have met with all departments involved (Transportation and Finance) to review these with them and have received good responses from the CFO and COO with regard to the implementation of recommendations made in the report.

Ms. Duffield highlighted the findings as follows:

1. Operational costs. Review monthly statements.
2. Timeliness of payments made to NAPA to make sure there is no incurring of late fees. Finance is monitoring to insure payments are timely. A new process will be implemented December 1st providing for more timely payments.
3. Core prices (part of a part that has value). Turning these back in and receiving credit. Mr. Woolfolk is addressing the distribution and exchange of these products so we can insure we are accounting for all inventory and core prices which will also be implemented December 1st.
4. Inventory. Ms. Duffield explained that when NAPA took over our parts they valued our inventory and at the end of the year did an assessment and recount, valuing the difference of the parts Caddo had already purchased. If we had not used the inventory, we would have also spent this money, so this was a cost savings as well. She added that Transportation has also been asked to request a copy of the annual inventory which is written down to the actual cost at the end of the year.
5. Insurance and warranties. Make sure the carrier provides the appropriate insurance (liability, workers' comp and personal property). The procedures are in place for making sure the District is covered in the event of fire or other loss. Warranties. Tighten up procedures in place for capturing information for the warranties. Mr. Woolfolk is working with NAPA to make sure we are accounting for warranties on parts first.

Regarding the parts analysis, Ms. Duffield shared comparisons beginning in 2016-17 when Caddo managed its parts through the 2018-19 year when NAPA took over, showing \$3.4 million spent in 2016-17, \$3.2 million spent in 2017-18 and \$2.6 million in 2018-19 for a savings of \$595,000 or 18%. She noted possible additional savings if we had captured all the core credits. She said overall it is believed NAPA has done a great job; and while this year has been a learning curve working with Transportation and NAPA, NAPA has been extremely easy to work with and has bent over backwards for Caddo Parish.

Mr. Thompson shared that when he recently visited the Career Center he noted that Auto Zone, O'Reilly's, et.al. had donated parts and asked how we are giving others that donate to the Career Center the opportunity to bid. Ms. Duffield explained that the initial term of the current agreement is three years (beginning in June 2018 through the end of the 2020-21 school year), and it can be renewed for two successive one-year terms. Mr. Abrams clarified that the agreement is for the management and there are still bid requirements so others can bid on parts meeting the requirements. He also clarified that management was also bid and NAPA came in with the best bid. Mr. Thompson asked for clarification on if Auto Zone or O'Reilly's bid on a part needed for a bus how it works since NAPA also can provide parts. Mr. Abrams explained they are on state contract so they can just buy those parts; however, when the price exceeds a certain amount (i.e. \$30,000), NAPA must bid it out. Mr. Thompson asked if he understands

everything purchased for the Transportation Department is managed through NAPA; and if so, how can other parts vendors be at the table to make it known they want to bid on parts as well. Mr. Abrams said that is a separate issue; and if the Department is purchasing a large number of batteries for the fleet, the cost would be at an amount that would require it to be bid; and NAPA makes certain the request is bid. Mr. Woolfolk explained that NAPA owns all the inventory and Caddo requests parts from NAPA who provides the part at a price. He further explained if other vendors wish to sell parts they must negotiate with NAPA and NAPA must follow the Louisiana purchasing laws. Mr. Abrams also confirmed if it is something on State contract, it does not have to be bid; but if it is over \$30,000, NAPA must bid it the same as Caddo did.

Mr. Riall asked for clarification on how the State contract works, and Mr. Abrams responded there is a catalog of all the items with State negotiated prices and purchases can be made directly from the catalog.

Mr. Rachal noted the efficiencies resulting in a decrease in cost for parts, a decrease in Caddo's inventory; however, he asked if we are saving on the cost of the parts now versus before. Mr. Woolfolk said the almost \$1/2 million saved was mostly in parts. Mr. Rachal asked if the total cost decreased because we bought less, and Mr. Woolfolk said he believes it is a combination of what we purchased versus what it cost. Regarding inventory and the \$855,000 on the balance sheet, Mr. Rachal noted that the NAPA numbers disagree with what we have on-hand. Mr. Howard responded that is something we adjust only at the end of the year based on actual counts, and Mr. Woolfolk explained that when NAPA began we looked at the return rates of parts and pulled out the parts we believed were not of any value to us. Mr. Rachal asked if he understands correctly that inventory reduction dollars also include what we threw away. Mr. Howard explained that many of the old parts were sold at a recent salvage sale and the inventory reductions amount is the value of the parts Caddo had and used before NAPA took over. Mr. Rachal restated they said \$855,000 and we said \$243,000 and now we are saying we used \$98,000 and recommendation No. 4 states the inventory value on the financials of \$855,000 should be written off to the actual cost on hand of \$145,000, so do we agree with their number of \$243,000 rather than \$855,000. Mr. Howard explained that accounting did not write this down at the end of the 2016-17 school year, so because the inventory was not adjusted that year, the numbers do not match up. Mr. Rachal asked if he is correct in saying we are now more efficient with our inventory and staff responded very much so.

Dr. Douzart asked if we still purchase tires from the tire service on Line Avenue under the contract and Mr. Abrams stated he believes tires were excluded from the contract.

Mary Trammel asked about School Dude for submitting work orders and if we have reprogrammed this so staff can follow up, and Ms. Duffield explained the process for work orders is being changed to "by bus" so we can pull a bus and know how much work has been done on a particular bus. Ms. Trammel asked if in working with NAPA to make the department more efficient relative to its inventory, can we say we can now keep up with and monitor the inventory? She also asked if she understands we no longer should have to deal with late fees, etc. for the department, and Ms. Duffield said that is correct and that Mr. Woolfolk and Mr. Howard have worked together on this. Ms. Trammel also stated her understanding that with Accounting and Transportation working together we can make sure there is no drop in the process which will address inefficiencies.

Mr. Nations asked about the statement that "Transportation personnel are not performing a reconciliation of the parts assigned to work orders and paid by Accounts Payable," and he assumes this is no longer the case. Ms. Duffield responded that is correct and in working with Mr. Woolfolk, a process has been implemented to streamline this process. He also asked if there is a local contact with NAPA and Ms. Duffield confirmed there is; and relative to the cost of theft items, Ms. Duffield said this was in the 2016-17 school year and there was an individual in the Transportation Department in charge of the parts and this was the labor in the 2016-17 and 2017-18 years, and the approximate amount was \$250,000 which we were reimbursed this through our insurance. Mr. Woolfolk confirmed that with NAPA managing, NAPA owns all the inventory, and Caddo has no inventory to be stolen. Mr. Riall asked if NAPA keeps inventory onsite, and Mr. Woolfolk confirmed they do. Mr. Riall asked if the same thing is done for the Vivian garage, and Mr. Woolfolk said they own the inventory for Vivian also. Mr. Riall stated we need to make sure the inventory is organized.

Mr. Albritton said he hopes that when we see the CFO checking this that we have not taken the authority away from the administrators in these area, but we are holding administrators accountable because they are ultimately responsible.

Mrs. Lansdale asked what bus manufacturer is Caddo using, and Mr. Woolfolk said Blue Bird. She also asked about the warranties on the parts for the new buses and how this impacts the

NAPA contract. Mr. Woolfolk said there is a warranty on the buses to send it back to Blue Bird, so there is no impact on NAPA. Ms. Lansdale said she is only attempting to discern what the issue might be when bus drivers complain about NAPA products.

Student Fee Policy. Mr. Albritton explained that because of a December 1st deadline for districts to have this policy in place, the Audit Committee was asked to consider this proposed policy for recommendation to the Board in November. Mr. Burton explained this policy is brought as a result of Legislative action in 2019 (Act 240) requiring all school boards to adopt and post a policy that addresses the assessment collection of fees charged to students and/or parents/guardians. He said the Board will also have to revisit this policy each year and re-approve the fees coming forth. He noted this has been a very rushed process and Ms. Duffield and her team worked tirelessly to pull every fee across the Caddo District. He said this was a timely task not only because Caddo is a large district, but because Caddo offers many courses that many times fees are associated with as well as co-curricular activities. The fees presented are not new fees, but are fees that have been in the schools and passed on to families with schools working with families in difficult situations. This policy also has in writing possible waivers and what those waivers look like, as well as provisions for parents who are denied waivers to approach the Superintendent with their request.

Ms. Duffield shared with the committee the various aspects of the proposed policy, i.e. regulations set forth by the Legislature, the schedule of fees and how they are to be listed (must have a purpose, use and amount and how collected), teacher requested room supplies, damage to instructional materials/textbooks, unpaid fees and how they are collected. Ms. Duffield stressed that it also includes that students will never be denied use of a textbook, but if they damage the textbook, they will have to pay the cost of the textbook. On unpaid fees/debt and how they are collected, Ms. Duffield explained that principals are encouraged to encourage all students to pay these debts, but they will never be denied an education or participating in a field trip, etc. because they could not pay. She said she believes Caddo's principals have done an amazing job of making sure every child is included and not excluded.

Regarding the appendix and fees, she explained the schedule has been approved by Forethought Consulting (the company that writes Caddo's policies); and she has communicated with them over the past two months. At this time, she said it looks good that Caddo will meet the requirement and further that the Legislation is very clear that the policy needs to be consistent across the District and is why some of the things have been grouped together.

Mr. Rachal asked about recourse if someone does not pay, and Mr. Abrams said it would be turned over to a lawyer to review and make a determination if it is worth pursuing. Mr. Burton explained that from the principal's standpoint, the school conducts fundraisers to help cover and provide these services to the students. Mr. Rachal said he is referencing those who can pay but they have the attitude they pay taxes and are not paying anything else. Ms. Duffield further explained that schools with extra-curricular activities (homecoming), students are required to have all fees current in order to participate (on the high school level). Mr. Rachal asked if they have not paid what is considered to be regular fees (as listed in the policy), can a principal say a student has not paid and cannot attend the extra-curricular activity, and Ms. Duffield confirmed that to be correct.

Mr. Green said in these type situations, he believes how it is approached will determine the response. Regarding junior and senior fees, Mr. Abrams asked if this covers all junior or senior events. Ms. Duffield explained different schools do it differently, and some schools require a separate junior/senior fee and some do not. Mr. Abrams asked what is covered in this, and Ms. Duffield explained that when schools do assess these type fees, it is all encompassing. Mr. Burton further explained that this fee for one school in the District covers the student's diploma (cover), cap, gown, senior trip, yearbook, t-shirt, et.al., and the family can pay it out in installments. He also noted the policy states a "maximum" amount.

Mr. Riall asked about sports that students may participate in, i.e. football, basketball, baseball, cheerleader and if this fee includes these, and staff responded no it does not. Ms. Duffield added that the legislation only requires that curricular and co-curricular fees be put on schedule.

Ms. Trammel asked about the snack-fee for preK children, and as a grandparent she provides snacks once a month to Claiborne. Ms. Duffield stated that Claiborne does not assess a snack fee.

Mr. Rachal asked if we are tracking this now that lunches are provided? Ms. Duffield explained there are a couple of schools that do not participate in the CEP and is why staff included this in the policy. Mr. Rachal asked if the guidelines are still there if a school used to participate, and Mr. Burton explained Caddo still tracks the sub-groups of students that fall under poverty.

Mrs. Bell asked about the definitions and if waivers are granted for homeless students, including those in foster care as well as the directive that the waiver request must be presented within 5 days. Mr. Burton explained that the principal has 5 days to get back with the family. She also asked if a person's debt in fees is accumulated through the years (beginning in elementary, in middle) or is it year to year, and is graduation included in this decision of non-participation. Mr. Abrams responded that students cannot be denied participation even though it does state that students are to be accountable. Mr. Burton added that this is speaking to non-academic activities, ie. Prom, homecoming, etc., and we have a policy that states students will graduate and be given a diploma, but if there are discipline issue(s), we have restricted someone from "walking" and participating in the graduation ceremony. He also added we would never forbid a student from participating in graduation because of a lost library book or an outstanding fee. Mrs. Bell said we need to clarify the wording to parents so they understand and don't think their child will not be able to participate if they have an outstanding fee. Ms. Trammel stated that she believes most parents who see this will ask for an explanation on what it means. Mrs. Bell asked if once approved as policy will staff provide this to administrators and clarify it, and Mr. Burton said it already has been stressed with administrators and it will also be included in the Student Handbook, on our web site and the schools' websites. The Board also has the opportunity each year to re-approve this policy. She also asked about the fees being universal across the District, and Mr. Burton said some schools may not charge any fees for curricular or co-curricular activities higher than what the Board has approved. Mrs. Bell asked if the Board will approve the amount and Mr. Burton said that Ms. Duffield has contacted every Caddo school to pull all the information and compress it into one chart so the Board will know a range of fees. He also stated that staff learned that some of the high fees are one school; however, in attempts to be helpful by encompassing a lot into one fee, it has caused many in the public to say it is exorbitant (because they do not know what all is included). Mrs. Bell also asked about what we are doing to help someone with three students whose supplies are \$50 each. Ms. Trammel responded that the parents can request a waiver from the principal. Mr. Burton added we are working with the schools because we do not want to pull any experience from a child because of their inability to pay; and this is routed in the District's equity work and staff will continue to emphasize to principals to work with our families.

Dr. Douzart shared comments she has heard from new people moving into the City on how appreciative they are for what the District does to help children. Mr. Green suggested that a timeline be developed as to what point the Board is notified for assistance. Mr. Burton added that staff has discussed this and plans to bring something to the Board when bringing the next budget for consideration.

Mr. Green moved that the Audit Committee present this policy to the Board for approval. Motion seconded by Dr. Douzart and carried.

Adjournment. With no additional business to come before the Committee, Mr. Albritton announced the meeting adjourned at 3:55 p.m.

November 5, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Chief Academic Officer Keith Burton, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Tony Nations, John Albritton and Dottie Bell. Denee' Locke was out of town.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. Board member John Albritton led the invocation and Pledge of Allegiance.

PRESENTATIONS

Chief Academic Officer Keith Burton announced that Superintendent Goree is attending the Broad Academy, a two-year national fellowship.

Mary Nash-Wood, director of communications and strategic initiatives, shared with everyone a brief video announcing the 2020 Caddo Principals of the Year as follows: Elementary Principal – Lynette Hampton, North Highlands Elementary; Middle School Principal – Tom Thomas, Herndon Magnet; and High School – Dr. Grady Smith, Woodlawn Leadership Academy. She also announced and commended the academic team for the recognition of the great work in the early childhood education.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE NOVEMBER 17, 2019 CPSB MEETING

Mr. Burton highlighted the proposed items for the Board's consideration at the November 19, 2019 CPSB meeting and the following discussion ensued.

Mr. Burton also asked that "Proposed Revisions to CPSB Policy JS" be added to the agenda for the Board's consideration on November 19, 2019, as submitted in the Audit Committee meeting this afternoon.

Consideration of Recommendations for 2020-2021 Capital Projects and Designers.

Mr. Thompson asked for staff to explain how the capital projects list and designers were established as well as who is going to complete the painting at the BTW Stadium. Steve White explained staff followed the process in place by:

- Request each principal to submit their 3 requests.
- Compile a list of principals' requests with requests from the school maintenance department and the capital projects department of current projects that are not complete (3 this year).
- Meet with Mr. Woolfolk and the School Plant to go through complete list and compile a single document where everyone can see the requests made by all three entities to prioritize what needs to happen.
- Support services compiles a plan and submits it to the Superintendent's Cabinet for their feedback and input.
- Regarding designers, he reported that by law the District must advertise for anyone wanting to do business with the Caddo Parish School Board. All designers requesting to do business with Caddo and associated projects are presented to the Board for approval.

Mr. Thompson asked if staff would let him know the three suggestions made from Booker T. Washington because he can't believe waterproofing the home side of the stadium would take priority over other projects requested by BTW. Mr. White said BTW did not turn in paper work.

Mr. White stated that he has a spreadsheet in the Superintendent's Office that includes all the principals' requests; and he explained that the waterproofing request resulted from complaints that the classrooms under the stadium are leaking water. Mr. Thompson stated his concern that he thought someone told him they turned in requests for BTW.

Mr. Rachal asked about the only one heating and cooling; and that staff provide him a list of projects for University, Youree Drive and Captain Shreve. Mr. White stated there are a lot of HVAC requests from principals as well as from maintenance; however, the \$5.5 million in bond projects will be presented to the Board in December with his recommendation to finish Byrd and Turner, and prioritize the critical ones after that. Mr. Rachal asked for clarification of a Knox box, and Mr. White explained it is a device required on all public buildings for placing building keys for access by the Fire and Police Departments in emergencies. Mr. White shared his concern about placing master keys in one of

these boxes and it not being returned; and his recommendation is for those schools who have the magnetic card swipe to provide them with a magnetic card and if it is not returned, we have the ability to disconnect it. Also, his personal observation is he has never seen where the Fire Department has been stopped from breaking down doors to gain entry. Mr. Rachal asked Mr. Burton to respond and Mr. Burton shared his only question would be if using magnetic keys how a loss of power affects this method. Mr. White said ours default to lock when the power is down, and some will work and some will not (i.e. older school buildings where they are battery operated). Mr. Burton noted that in recent school visits in Colorado and Indiana, these boxes are on the outside of the schools. Mr. Rachal also asked for a list of jobs/projects that are phased so the Board can see the projects being done in phases.

Ms. Green asked Mr. White to clarify the waterproofing at BTW, and he said it is the classrooms under the home side of the BTW stadium. Ms. Green stated that Green Oaks does not have a stadium so she questions why it is listed, and Mr. White explained that Mr. Smith (Maintenance) brought this forward because of leaking around the windows they have been unable to identify. Ms. Green asked if it is anticipated the investigation into this will cost \$50,000; and Mr. White explained they are unsure what they may find until the investigation is done and if they do need to seal the windows, \$50,000 will not complete sealing all the windows. She also asked about the boilers and he clarified these are domestic boilers for hot water to the kitchen. She also asked about the walking track for Pine Grove, and Mr. White confirmed it is in the proposed list of projects. He added that many of the tracks at elementary schools are approximately ¼ mile, made of asphalt, 5-6 feet wide and are built around the school playground. Ms. Green asked if we allow public access to the walking trail, and Mr. White said that is not his call but is something handled at the school level.

Mrs. Bell thanked staff for the update on replacing the tornado-damaged baseball field at Turner, and Mr. White noted Mr. Smith is working on this project. She also asked about the auditorium at Huntington and will the damages be corrected (carpet and seating). Mr. White said they are proposing to pull up the old seating, sealing the concrete, and only carpet the runners.

Dr. Douzart asked about the recommendation for a canopy at Queensborough and if staff knows that some of the property at Queensborough belongs to the City. Mr. White stated to his knowledge Caddo Parish School Board owns all the property that the school encompasses; however, at one time it was thought that the CPSB owned the lot to the north of Queensborough, but it is owned by Willis Knighton Hospital. She also asked if the principal has requested a canopy, and Mr. White explained he has and he is wanting to run the canopy out the front door of the school covering the sidewalk to the point where the students are dispersed; however the School Board does not own the property beyond the fence. Mr. White added Queensborough also requested new auditorium seating and that is staff's recommendation.

Mr. Riall asked about the playground at Timmons and what the District did with the playground equipment at Oil City when it was closed. Mr. White explained they evaluated it to determine if it could be moved; however, it is not in good shape and moving it could cause more problems and ultimately liability.

Mr. Rachal thanked Mr. White for taking care of the "river" at University Elementary around the portable buildings. Mr. Rachal also asked about the four digital marquees which he believes is more of a want than a need, and how they made it to the top of the list. Mr. White explained these requests come from the principals list and they use them to communicate with the parents while parents are in car pool lines; and this request is a consistent desire of the schools throughout the parish. Mr. Rachal asked what type of needs did marquees move ahead of, and Mr. White referred to the list located in the Superintendent's Office and shared the example of Fairfield's request for additional paving on the drop-off side of the school; however, the limited green space does not allow space for paving. He also added that 2-3 years ago an additional drop-off space was added at Fairfield. Mr. Rachal also noted the fact that some of these were paid out of funds raised by the schools and not the School System.

Ms. Green echoed Mr. Rachal's comments and asked if she understands these priorities are the ones the principals requested, and Mr. White confirmed that is correct. She also asked about the principal at Green Oaks requesting a waterproofing investigation, and Mr. White said the principal did not, but it was requested by Tommy Smith from Maintenance due to continued calls regarding

windows leaking that they have been unable to identify or stop. He said Green Oaks principal requested a stadium and a rubberized track but new structures are not paid for out of the capital projects budget but from bond issues. They also requested new bleachers in the gym and new lockers in the boys P.E. and basketball locker room which is what staff determined to be most appropriate at this time. Ms. Green asked Mr. White how many persons are in the Capital Projects Department, and Mr. White said there are eight. Ms. Green also asked about the \$800,000 in salaries and benefits, the legal recording and tax collection. Mr. White explained the legal fees are for recording all the documents required, i.e. contracts, bonds, change orders, certificates of completion and is a very small percentage of the total. The largest amount will be the tax collection fees and that is what it has been running.

Mr. Thompson asked how projects can be added to this list. Mr. White said something would need to be cut, because staff has met with the CFO for the anticipated funding; and at this time the projected amount is \$20,500,000 and the anticipated budget for the projects presented is \$20,499,970. Mr. Thompson said he is for marquees, but he would like to see something done for the BTW track if nothing can be done for the football field. Mr. White reiterated at this point something would have to be removed from the budget if it is added. Mr. Thompson asked about the process for discussion of adding projects.

Mr. Little requested a priority list of HVAC systems, their current age and when they will be replaced and what matrix is being used to determine when they need to be replaced. Mr. White reported staff is currently working on this information and it should be brought to the Board next month. Mr. Little asked if there are some schools where we have continued to spend more on continual maintenance and repairs that we would have not if the system had been completely replaced, and Mr. White confirmed this is a portion of the information that will be presented to the Board on the spreadsheet. Mr. White also shared that when there is an issue, capital projects does not replace parts, but they typically address a wing in a school or sections of schools; however, if there is a single unit out (auditorium, cafeteria), they will replace them. He also explained how they track the priority systems with color codes, and noted that the oldest central system is Eden Gardens and it was built in the late 50s and still operates the original equipment, so he knows this will be a high priority when the system does fail.

Mrs. Bell noted the districtwide items are the largest, but she added that Board members can cut what they want to from their district, but not from her district.

President Trammel shared that she has been on some of the campuses and asked did Woodlawn submit requests, and Mr. White reported they requested replacing the carpet in the office and library, digital marquee, and auditorium seating, and staff is recommending the digital marquee and auditorium seating. Ms. Trammel asked if addressing the HVAC at Woodlawn will come in the bond issue, and Mr. White responded that is correct and staff will be recommending Turner and completion of Byrd leaving a small amount for emergencies.

Mr. Burton asked Mr. White to explain why an architect is paid when only painting the campus. Mr. White clarified that the State requires any formally advertised and awarded project, basically anything over \$150,000, to have an architect.

Mr. Riall asked what does the architect do and when do they get paid? Mr. White responded they are paid on the state fee schedule. Mr. Riall asked if a painting contractor gets a \$300,000 painting contract, what does the architect do? Mr. White said the architect will go into each classroom and develop a set of plans on what needs to be done and spec drawings are completed so there is consistent bidding. He then follows the project preparation on what paint is used, what primer is used, what is sanded and what is not as well as addressing issues such as lead-based paint and overseeing its removal.

Consideration of Revisions to CPSB Policy JS. Mr. Albritton explained that the Audit Committee reviewed this regulation from the State Legislature and this fee schedule must be approved by December 1st. The Audit Committee is recommending that it be accepted and added to the Board agenda for approval.

Ms. Trammel announced that the following items are consent agenda items: 7.01, 8.01-8.06, and 13.01. *Mr. Rachal moved, seconded by Ms. Green, to establish the agenda and proposed consent agenda for the November 19, 2019 CPSB meeting as submitted. Vote on the motion carried.*

POLL AUDIENCE

The following visitors addressed the Board: Jackie Lansdale, president, Red River United, on the Restoration Tax Abatement Information under Superintendent's Report.

ANNOUNCEMENTS

Mr. Riall noted the list of Veterans Day programs in Caddo high schools and encouraged Board members to attend one. He also congratulated Mr. Thomas at Herndon for being named Caddo's middle school principal of the year.

Mr. Thompson congratulated the District 3 North Highlands principal as 2020 principal of the year and a teacher at Cherokee Park as teacher of the year.

Ms. Trammel commended Woodlawn Leadership Academy for the great things happening at this school.

Mr. Rachal asked about the increase in lease royalties over what was budgeted.

Mr. Nations referenced the Early Childhood Honor Roll announced earlier today, seven schools in Caddo, two of which are in District 10.

Ms. Trammel announced that Broadmoor Middle will be closed on Wednesday, November 6th.

Mr. Burton announced that District Performance Scores will be released on Wednesday and he believes Board members will be pleased with the results. He added that the State informed the Superintendent last week that Caddo was the only district in the State that improved in every accountability area. Mrs. Bell encouraged this great news to be put out in the public.

Ms. Trammel also expressed her appreciation to so many for their expressions of love and concern in the loss of her brother.

Adjournment. *Ms. Green moved, seconded by Mr. Rachal, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:41 p.m.*

**November 19, 2019
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Also present were T. Lamar Goree, Ph.D., superintendent, and Reggie Abrams, legal counsel.

President Trammel called the meeting to order at approximately 4:30 p.m., and John Albritton led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE OCTOBER 22, 2019, OCTOBER 29, 2019 AND NOVEMBER 5, 2019 CPSB MEETINGS

Mr. Rachal moved, seconded by Mrs. Locke, to approve the minutes of the October 22, 2019, October 29, 2019 and November 5, 2019 CPSB meetings as submitted in the electronic mailout.

PRESENTATIONS AND RECOGNITIONS

Mary Nash Wood, director of Communications and Strategic Initiatives, recognized the following students and employees and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Music Presented by Walnut Hill Middle School Advanced Choir. Students from the Walnut Hill Middle School Advanced Choir performed the National Anthem and two additional musical arrangements for the Board and audience.

National AP Scholars. The following Caddo Parish students were recognized as 2019-2020 AP Scholars. C E BYRD – Landrum Anderson, Jordan Atchison, Lily Bales, Brooks Belanger, Nathan Robert Bohn, Emma Tess Booker, Andrew Briley, Kennedy Carey-Prescott, C'Elcey Carpenter, Emme Clark, John Cook, Bailee Creasey, Payton Doyal, Emily Dunham, Mayah French, Ashley Hight, Dazani Jackson, Ceara Johnson, Lillie Johnston, Kaitlin Jones, Robert Lawrence, Madeline Mackey, Porter May, Logan McMullen, Natalie Miller, Rory Mullins, Logan Noble, John Peterson, Emery Pratt, James Rushing, William Sanders, Shea Shockley, Harper Tompkins, Emma Turner, Claire White, Micah White, Hannah Williams, Elizabeth Wooldridge and Arjun Yusufji.

CADDO MAGNET – Elizabeth Alexander, Grace Barney, Abigail Boykin, John Todd Bridges, Caroline Crittall, Rohinton Dossabhoy, Jordan Fong, Biagio Garcia, Joshua Gill, Ian Golsby, Sloan Hall, Caymen Hawkins, Theresa Johnson, Ethan Kennedy, Sharon Li, Ashley Malick, Grant Muslow, Sophia Nicolosi, Taylor Rosen, Slater Gage Simpson, Grace Sun, Amjad Thaljah, Emma Thigpen, Mai Tran, Mallory Tucker, Zoe Walker, Ravdeep Warar and Kevin Zheng.

CAPTAIN SHREVE – Cora "Addie" Barnard, Keegan Coon, Olivia Hilburn, Morgan Hughes, Melissa Krzywanski, Stewart Simon and Gage Simpson.

Young Professionals Initiative 40 Under 40 Caddo Honorees. The following Caddo educators were recognized as participants in the 13th Annual Northwest Louisiana Young Professionals Initiative 40 Under 40: Devin White Rachels, Teacher, Captain Shreve; Spencer Kiper, Instructional Technologist, Curriculum; Phyllisia Mason-Hollins, Assistant Principal, Caddo Middle Magnet; and Dr. Candice Webert, Assistant Principal, Youree Drive Middle.

PUBLIC HEARING ON PROPOSED REVISIONS TO CPSB POLICY JG (STUDENT DISCIPLINE)

President Trammel announced the public hearing open on the proposed revisions to CPSB Policy JG (Student Discipline). There being no speakers, the public hearing was closed.

VISITORS

The following visitors addressed the Board on matters of interest and/or concern: Jimmie Underwood, Dixie Ag and Hunting Lease; William Boogaerts, Dixie Ag and Hunting Lease; Bruce Wilson, United Way; Lindsey Lewis, Fairfield Multipurpose Room; and Jackie Lansdale, Red River United, resolutions for local district control of extended sick leave, teacher evaluations, over focus on testing and adverse mental health effects, and unencumbered planning time.

ESTABLISH THE AGENDA

Superintendent Goree highlighted items for the Board's consideration, and following discussion, President Trammel announced the following items as the Consent Agenda: 6.02-6.04, 8.02-8.04, 8.06-8.07, and 13.01.

Mr. Rachal moved, seconded by Mrs. Locke, to establish the agenda and the proposed consent agenda for the November 19, 2019 CPSB meeting as submitted. Vote on the motion carried.

CONFIRM THE CONSENT AGENDA

Mrs. Locke moved, seconded by Mr. Riall, to confirm the consent agenda. Vote on the motion carried and the following is a summary of the Board's action on the consent agenda items.

6.02 Personnel Transaction Reports Resignations. The Board approved the personnel transaction reports (resignations) as recommended by staff and submitted in the electronic mailout.

6.03 Administrative Contract Renewal (November 2019). The Board approved the administrative contract renewal(s) for November 2019 as recommended by staff and submitted in the electronic mailout.

6.04 Requests for Leaves. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel. The Board approved the requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Mental Health Interagency Agreement and Contract. The Board approved the request for mental health interagency agreement and contract as recommended by staff and submitted in the electronic mailout.

8.04 Consideration of Proposed New Policies and Proposed Policy Revisions. The Board approved the proposed new policies and proposed revisions to current policies as recommended by staff and submitted in the electronic mailout.

8.06 Consideration of Proposed Revisions to CPSB Policy JS (Student Fees and Fines). The Board approved the proposed revisions to CPSB Policy JS (Student Fees and Fines) as recommended by the Audit Committee and submitted in the electronic mailout.

8.07 Consideration of Adjustment to State Pay Raise Allocation. The Board approved the adjustment to State Pay Raise allocation as recommended by the Superintendent and submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students ZJ, BB, LC and TW whose parents are in agreement with staff's recommendations.

PERSONNEL RECOMMENDATIONS

Mrs. Locke moved, seconded by Mrs. Bell, to approve the personnel recommendation as recommended by the superintendent and submitted in the electronic mailout.

Ms. Green asked for clarification on discussion limitations on this item, and Attorney Abrams explained that no Board member can discuss anything about any employee and their ability, competency or character without giving 24 hours' notice to that person that the Board will be going into executive session. Ms. Green asked how can the Board go into executive session, and Mr. Abrams explained the Board cannot do so today because 24-hour notice has not been given as well as there must be a unanimous consent for the Board to go into an executive session. Ms. Green asked when the name was submitted. Dr. Goree explained the job was posted after the last person in the position left; and staff posted the position on numerous sites, and it was a nationwide search. He further explained the applications were handled the same as any other position with staff receiving the applications, staff screening them, selecting candidates (3 internal and 3 external candidates) to be interviewed by a diverse committee who made a recommendation to the superintendent. Dr. Goree reported the recommendation from the committee came to him last Thursday, he personally interviewed the candidate recommended, and he strongly supports this recommendation as the next director of transportation. He stated the final recommendation was posted on BoardDocs at 8:00 Monday morning (Nov. 18th) followed by an email to the Board explaining the process and the recommendation. Ms. Green stated in

the future she would like to know the date the name was submitted to the Board, and Mr. Abrams said the date can be given, but the Board cannot discuss the character or competency of any individual or their ability to perform the job. Mr. Abrams further clarified that the agenda item (Personnel Recommendation) was and is always on the agenda; and information can always be added to the item. Relative to the issue of timing on if and when questions can be asked, the Board can make a motion to postpone it and request that it be placed on another meeting agenda in an executive session, providing the minimum 24-hour written notice that this employee will be discussed during executive session, and allowing this employee the opportunity to say whether or not they wish it to be in closed executive session or open session.

Ms. Green said she believes when we have great people in place, we need to keep them in place or place them in positions where they can teach other people in their field. She has received many phone calls because they feel they have been through this before; and while she wants to put confidence in staff and their decision, she must answer to the constituents in here district. Dr. Goree thanked Ms. Green for her comments and noted that in communicating with people, it is important to look at the level of success of leaders and hope they demonstrate the same level of respect they had as a high school principal. He added the recommendation is unarguably one of the most successful principals he has experienced professionally and he believes we will see the same level of success in his new position.

Mr. Thompson said he also has received some serious concerns about this position; and in watching this position change hands during his 11 months on the Board, he too is concerned we may be continuing down the same street, but the wrong way.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Mr. Rachal opposed.

Vote on the main motion carried with Board members Riall, Trammel, R Green, Locke, Rachal, Nations, Albritton and Bell supporting the motion and Board members J Green, Douzart, Little and Thompson opposed.

PURCHASING BIDS

Mr. Rachal moved, seconded by Mr. Thompson, to remove and postpone Bid 05L-20 (Agricultural Lease-Dixie) and approve all other bids (NASCO for Art Materials and Supplies, FOODWAY for Canned and Frozen Foods, FOODWAY for Fish, Poultry, Eggs, Meat & Specialty Items,, and VCC for Food Service Paper & Supplies) as presented. Vote on the motion carried. The bid tabulation sheets are filed in the official papers of the November 19, 2019 CPSB meeting.

PROPERTY/BUS RENTAL REQUESTS

Mr. Rachal moved, seconded by Mrs. Bell, to approve the requests for CPSB property/bus rentals as recommended by staff and submitted in the electronic mailout.

Ms. Green asked about the extra pricing for Southern's use of an additional part of Newton Smith. Dr. Goree explained the cost will be determined in accordance with the Board's policy that establishes the lease costs, staff will assess the square footage being added to what they are already using, the number of days it will be used, and charge them accordingly. He stated this usage will generate approximately \$30,000 in revenue based on the rental by Southern University. Ms. Green asked if they will continue the lease of the front part of the facility and Dr. Goree confirmed that is correct and will continue with the cost of that lease, and the \$30,000 is an additional cost to utilize the facility. Ms. Green requested that the upkeep of the facility be monitored so it does not become an eyesore in the community, and Dr. Goree reported he sent a message to staff today to look at this as well as how we can improve on it. Ms. Green also asked that staff report to her how much money Southern University will be paying Caddo for leasing Newton Smith.

Mrs. Bell expressed her appreciation for allowing Southern to use Fair Park for their ballgames when the Board of Regents closed down their gym for repairs.

Mr. Thompson noted he was aware Southern attempted to negotiate with SPAR but he is thankful Fair Park is doing this. He asked about insurance responsibility, and Dr. Goree explained as a lessee, Southern is required to maintain all appropriate insurance and this had to be submitted before entering into the lease.

Vote on the motion carried unanimously.

CONSIDERATION OF RECOMMENDATIONS FOR 2020-2021 CAPITAL PROJECTS AND DESIGNERS

Mr. Rachal moved, seconded by Mrs. Locke, to approve staff's recommendations for the 2020-2021 capital projects and designers as submitted in the electronic mailout.

Mr. Thompson asked Mr. White about the BTW principal's email and if it is her wish to do the bathrooms at BTW. Mr. White confirmed he did find the email and he met with the principal who requested that the bathrooms be a priority and noted which bathrooms. Mr. Thompson asked if the water issue at the stadium is still on the list to be corrected, and Mr. White confirmed it is still on the list.

Mr. Rachal asked for clarification on the changes from the initial list of projects submitted. Mr. White explained there were three items on the list for emergencies (general emergency repairs, emergency roof repairs, and emergency paving repairs). He explained \$100,000 was pulled from general emergency repairs, \$75,000 from roofing repairs and \$50,000 from paving repairs. He also noted the latest correction submitted this morning for an additional \$22,500 from the emergency general repairs to cover the architectural fees. Mr. Rachal asked if this will create any issues in other areas, and Mr. White said he cannot say as these funds are not dedicated for any specific projects, but are budgeted in the event of emergencies and hopefully this will not be the case for the coming year.

Mr. Little stated that at the last meeting discussion took place on a priority projects list and a matrix used to prioritize the bond projects. Mr. White explained that staff is looking to complete and present to the Board. Dr. Goree added that what staff develops will be submitted in committee at the first meeting in December.

Vote on the motion carried unanimously.

SUPERINTENDENT'S REPORT

President Trammel announced that everything under Superintendent's Report is submitted for the Board's information.

ANNOUNCEMENTS AND REQUESTS

President Trammel asked that the Board be in prayer for Mr. Abrams' family in the loss of his brother-in-law.

Mrs. Bell noted the invitation at Board members' stations to attend the annual event for foster children and their parents to celebrate Thanksgiving. She also announced and invited everyone to attend the Bayou Classic Bash on Friday; and that she recently addressed the Optimist Club.

Ms. Green requested that staff notify her when the schools and properties in her district are being used/leased. She also congratulated Green Oaks for winning their play-off game in Jena, Louisiana.

Dr. Douzart announced that she recently attended the LSBA Trailblazer in Natchitoches and complimented Diane Atkins and Keith Burton for their outstanding presentations during this workshop. She also noted the many compliments from others in surrounding states who participated on the great things happening in Caddo.

Mr. Thompson stated that being a foster child for 19 years, he looks forward to attending the event on Tuesday. He also noted his appreciation that Caddo has a former Caddo School Board member who will be fighting for education in Baton Rouge.

Mr. Green noted that Michael Chadwick Green went to Southern and was the captain of the team when they won their first national championship.

Mr. Nations echoed Dr. Douzart's comments about the Trailblazer Conference in Natchitoches and the many compliments heard from other state school districts in attendance on Caddo's many accomplishments. He also complimented the outstanding JROTC units from every Caddo high school participating in the Annual Veterans' Day Parade at the Fairgrounds.

Dr. Goree reminded the Board that on Wednesday, November 20th, Caddo's Transformation Zone will hold one of its first elimination rounds of the Amazing Shake beginning at 8:45 at the Community Foundation.

Mary Trammel invited Board members to participate in the annual Christian Services six hours of caring on December 3rd beginning at 4:00 p.m. at KTAL to answer telephones.

Adjournment. *Mr. Riall moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:17 p.m.*

T. Lamar Goree, Ph.D., Secretary

Mary A. Trammel, President

December 3, 2019
CPSB Building, Grounds, and Security Committee

Members present - Chair Denee' Locke, Lloyd Thompson, Jasmine Green and Don Little. Mr. Albritton was absent. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Mary Trammel, Raymond Green, Tony Nations, Dr. Bonita Douzart, and Dottie Bell; and staff members Jeff Howard, Keith Burton, James Woolfolk, Diane Atkins, Mary Wood, Tommy Smith and Steve White.

Mrs. Locke called the meeting to order at approximately 2:00 p.m. The Invocation and Pledge were led by Don Little.

Confirm the Agenda. *On motion by Lloyd Thompson, second by Don Little, the agenda was confirmed as presented.*

Review of Process for Assigning Projects to Bond Issue. Superintendent Goree reported that staff has put into place a process to make sure we are equitable and fair in spending the bond dollars approved by the taxpayers. Mr. Woolfolk and Mr. White shared with the committee HVAC system needs and a plan to prioritize those needs to get all school systems at minimum a "good" rating and to make sure it is done fairly. He reminded the Board that it is a 10-year issuance and stated the importance of prioritizing these projects and where these monies are spent first. He also noted that the plan presented today is based on the monies issued in June as well as an opportunity, if the Board so chooses, to take advantage of a second issuing of bonds in January 2020 and be able to complete projects in the summer of 2020 as well as purchase an additional 25 buses before the start of the 2020-21 school year.

Mr. Woolfolk shared with the committee the process staff used to prioritize the schools in getting HVAC needs met. He explained that Mr. White asked an outside HVAC company to review and analyze all HVAC units throughout all Caddo schools over the past 8 months. Staff then took that report of the HVAC units in each school and developed a matrix of and the location of units, assigning it a number, its age and condition (poor, good, very good), if it can be moved, cost, etc. Staff also provided a summary sheet noting the total number of units needing replaced, how many are poor, good or very good, including each school's occupancy (not including temporary buildings) to determine what schools need to be first. Dr. Goree also clarified that when looking at replacements, it is only for brick and mortar and not any system in a temporary building. Mr. Woolfolk added that the goal is to get every school (HVAC) at good, very good or new. He noted that if a package unit goes out, only one room is affected; however, if a boiler or chiller goes out, the entire school is affected. Knowing that the amount of money received from the bond issue would never get us to all new; staff believes in being a good steward of the funds received and we need to get everything to at least good.

Mr. White clarified the difference between a "poor" and "good" system rating; and "replaced" could be a system that is still operating but in very poor condition or obsolete making it hard to get replacement parts. Systems rated as "poor" are those with possibly only a few years remaining in the units life cycle and "good" are those with some significant life remaining. The "very good" units are those replaced in the last 3-4 years and "new" would have been replaced in the last 1 to 2 years. He also added that the matrix developed will be continuously updated as systems are updated. Mr. Woolfolk also referenced the last page of the summary sheet which totaled approximately \$40 million to replace and get them to "good". He further stated they were replaced so all would be graded as "new", it would cost approximately \$98 million. Dr. Goree noted why it is important to explain systematically how projects are being prioritized.

In looking at prioritizing schools and HVACs, Mr. Woolfolk further explained that staff looked at doing all the repairs or pulling out chillers and boilers which are a higher expense, take more time to get them and when they go down, the entire school is affected, or do we want to do package units, which provides each room with a unit and when a unit goes down only that room is affected. He said it is staff's recommendation that we replace chillers and boilers so an entire school does not have to be shut down when one fails and explained their recommendation in replacing chillers and/or boilers and getting these schools at minimum "good". Mr. White also explained why replacing boilers and chillers at one school might be recommended due to corroding pipes and how staff takes equipment from closed facilities and stores these at the warehouse to use the parts for repairs to remaining boilers/chillers, and Dr. Goree added that

based on this practice and equipment being purchased, regardless of the future in right sizing the district, they can be placed in the asset warehouse so they can continue to be used in managing systems in the future.

Mr. Woolfolk added that in closing, it is hoped that in two years everything on the list presented will be at “good” or better, and he shared the proposed two-year plan using the \$5 million from the first series of bonds; and, if the Board approves advertising for the second series of bonds in January, \$5 million of the funds received from the second year sale.

Ms. Green asked about the life expectancy for chillers and boilers, and Mr. White explained between 20 and 30 years. While she is glad to see a lot of her schools in “good” condition, she asked who determined the status of each school’s equipment. Mr. White responded that we contracted with Pioneer Comfort Systems and their technician graded the systems, but Tommy Smith provided the information on the boilers and the need to move those schools up on the priority list since we cannot get parts for them. Dr. Goree expressed appreciation to the Operations team for using an outside group and insuring there was no wrong perception.

Mr. Thompson asked if the situation at Creswell has been corrected because he received a number of calls regarding Creswell not having any air condition. Mr. White stated Creswell is completely packaged units, and Tommy Smith agreed and when we begin putting in packaged units, Creswell will probably be a priority on the list., but the ones that had a problem have been repaired. Mr. Thompson asked if we are using local AC vendors to do the work. Mr. White said if it is above the \$150,000 limit, it is advertised and publicly bid, and typically we receive bids from Shreveport-Bossier vendors.

Mr. Little complimented staff on the tremendous amount of work in this effort, and he believes the public would appreciate receiving this information as well in continuing to be transparent with the taxpayers. He also asked about extended warranties and the benefit in expending the amount for this. Mr. White responded that staff has seen 5 year warranties on compressors, for example, and if the budget allows for it, it is something the staff recommends. However, if budget is tight, it can be priced as an alternate bid (separate line item). He added that if the Board chooses, the warranties can be offered as an alternate bid. While he doesn’t believe units today are the quality they have been in the past, he noted properties in the District that are occupied at 50% or less and asked if, rather than doing HVAC repairs, is it possible to cut out zones in a particular school and move students to certain areas providing a savings to the District, by taking wings off-line. Dr. Goree said since most of the schools being talked about have a high occupancy, he believes the advantage of the plan as presented will mean equipment not being used can be stored; however the staff did not want this to be what drives the Board’s decision. Mr. Little asked if the new units have a higher efficiency and provide a savings on heating. Mr. White said while he has not run the numbers, there definitely will be a cost savings. Mr. Little asked if, as we are replacing roofs, we are using white roofs, which have proved to be more efficient, and Mr. White explained there is a white rubberized plastic that has been used. Mr. Little also asked if, when removing old, non-operational units, we are able to use any of the copper or auction it? Mr. White stated that those that have been removed to this point have been operational units; and, when doing a typical wing, the contractor has control on those units and any savings he can get on scrapping any copper is figured in to help him get the low bid; and this is something Caddo’s employees do not get involved in.

Mrs. Bell asked if Huntington was closed on Monday because of chiller problems, and Mr. White explained that a raccoon crossed the two high voltage lines coming into one of the transformers. She also asked about clarification on the number of things to be replaced at Walnut Hill, and Mr. White clarified they are packaged units. She also asked if something happened, is there money to replace those things that are labeled “poor” condition. Mr. White stated he believes they do; and he doesn’t anticipate 20 units failing with the same problem in one wing. Dr. Goree noted the \$3 million proposed to add into the second year to address some of these issues. She also asked for clarification that if something else happened, will it be handled as an emergency as it has in the past. Mr. White confirmed staff has always handled it in the past.

Ms. Trammel asked for clarification of replacing the units at Eighty-First Street, and Steve White explained that staff is attempting to address the larger (chillers and boilers) in the first year and 81st Street is all packaged so if something goes down , only that classroom is affected. Ms.

Trammel indicated that it would help the Board to know which schools are packaged and not chillers, and she asked if this could be added to the matrix. She also thanked Mr. White for placing Woodlawn on the list.

Ms. Green also asked if staff would add the attending and capacity on the matrix sheet. Mr. Nations noted a Facebook post about four new Caddo buses, and asked about the ability to provide to the public the big picture of what we are doing which he believes will be a good will gesture to the public, and Dr. Goree confirmed that staff can do that.

Mrs. Locke expressed appreciation to the staff for this report and pointed out how prioritization helps the maintenance budget. She also added she likes the document presented and asked if it is possible to auto date it.

Mr. Thompson moved, seconded by Ms. Green, to send this recommendation to the Board to place on the agenda. Vote on the motion carried.

Adjourn. *There being no additional business, the meeting adjourned at approximately 2:57 p.m.*

December 3, 2019
CPSB Executive Committee Work Session

Members present: Mary Trammel, Barry Rachal and Jasmine Green. Also present were Superintendent Lamar Goree, Attorney Reggie Abrams and Board members Steve Riall, Lloyd Thompson, Don Little, Dr. Bonita Douzart, Raymond Green, Denee' Locke, Tony Nations, John Albritton and Dottie Bell.

President Mary Trammel called the meeting to order at approximately 4:30 p.m. Board member Dottie Bell led the invocation and Pledge of Allegiance.

PRESENTATIONS

Mary Nash-Wood, director of communications and strategic initiatives, introduced Laura Alderman, executive director of Step Forward. Ms. Alderman explained how they track six critical indicators for student success in schools in the metro area (4 parishes) and the following Caddo schools are in the Top 10 schools in the metro area (four parishes) based on their growth from 2017 to 2018 in their graduation cohort: Booker T. Washington High School (#10), North Caddo High School (#6); Southwood High School (#5), Huntington High School (#4); and Woodlawn Leadership Academy (#3). Each school was presented with a banner for display at their schools. Ms. Alderman announced the following six Caddo elementary schools are in the Top 10 schools in the metro area for improvement in 3rd Grade reading (ELA): JS Clark Elementary (#10, improved 14 percentage points); Oak Park Elementary (#9, improved 15 percentage points); Stoner Hill Elementary (#6, improved 18 percentage points); Sunset Acres Elementary (#5, improved 20 percentage points); North Highlands Elementary (#3, improved 25 percentage points); and Queensborough Elementary (#1, improved 28 percentage points).

Superintendent Goree thanked Ms. Alderman and Step Forward for their support of education in Caddo.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE DECEMBER 17, 2019 CPSB MEETING

Superintendent Goree highlighted the proposed items for the Board's consideration at the December 17, 2019 CPSB meeting and the following discussion ensued.

ADDITIONS

The following items were added to the agenda: (1) To consider and take action with respect to adopting a resolution authorizing the advertising for bids for the purchase of General Obligation School Bonds, Series 2020, of Parishwide School District of Caddo Parish, Louisiana, and providing for other matters in connection therewith, OR (if the Board chooses to use a competitive sale.); (2) To consider and take action with respect to adopting a resolution authorizing the incurring of debt and issuance of \$9,800,000 of General Obligation School Bonds, Series 2020, of Parishwide School District of Caddo Parish, Louisiana, and providing for other matters in connection therewith (if the Board chooses to do a negotiated sale.); and (3) Approval of RFP for Bond Counsel.

Recommendations for 2019 Bond Phase I Proposed Projects Plan and Designers.

Mrs. Locke asked how much was spent on the first series and Dr. Goree responded \$2.5 million for the buses and security is currently going through the same process as was done for HVACs. Mrs. Locke asked how much remains and Dr. Goree said the \$9.8 million minus the \$2.5 million leaves \$7.3 for the additional \$5 million and security.

Student Expulsion Hearings. Mrs. Trammel announced that the one student whose parents are not in agreement will be listed as "Student Expulsion Appeal".

President Trammel announced the following items as the consent agenda: 7.01, 8.01, 8.03-8.04, 8.07-8.08 and 13.01. *Mr. Rachal moved, seconded by Ms. Green, to establish the agenda and consent agenda for the December 17, 2019 CPSB meeting as presented. Vote on the motion carried.*

POLL AUDIENCE

The following visitors addressed the Board: Mike Busada, presentation on bond law made at LSBA Workshop in Natchitoches; and Ken Antee, underwriter for bonds, advantage of negotiated bonds.

BOARD ANNOUNCEMENTS

President Trammel announced that evaluation forms for the Superintendent are at Board member stations and asked for them to be returned on December 10th.

Mrs. Bell announced Southern University won the Bayou Classic.

Mr. Thompson thanked the directors for taking time to come to the luncheon for District 3 principals and checks promised will be delivered to the schools next week.

Mrs. Trammel thanked all who donated coats in the recent coat drive.

Adjournment. *Mr. Rachal moved, seconded by Ms. Green, to adjourn. Vote on the motion carried* and the meeting adjourned at approximately 5:10 p.m.

December 3, 2019
CPSB Insurance and Finance Committee

Members present - Chair Dottie Bell, Don Little, Raymond Green and Denee' Locke. Steve Riall was absent. Also present were Superintendent Lamar Goree and Attorney Reggie Abrams; Board members Mary Trammel, Lloyd Thompson, Jasmine Green, Dr. Bonita Douzart, Barry Rachal, and Tony Nations; and staff members Jeff Howard, Keith Burton, Diane Atkins, James Woolfolk, and Mary Wood.

Mrs. Bell called the meeting to order at approximately 3:00 p.m. The Invocation and Pledge were omitted.

Establish the Agenda as Submitted. *On motion by Denee' Locke, second by Raymond Green, the agenda was established as submitted.*

Review of Financial Statements. Chief Financial Officer Jeff Howard shared copies of the October General Fund financial statement highlighting the following items.

- Under revenue, the sales tax for the first four months is up approximately 1%.
- Lease royalties are doing well.
- RDS (Retired Drug Subsidy) Medicare \$1.49 million up from what was expected.
- MFP (Minimum Foundation Program) expected to be down due to 650 less students from this time last year.
- Property taxes will not all be in until mid-January and we expect about \$100 million.
- Under expenses, two large items in the budget are teacher salaries (\$95 million) and SPED teacher salaries (\$29 million). He reported that staff is constantly analyzing this number to make sure we are not over hiring based on student counts.
- General administration – Self-insured claims are currently totaling approximately 50% of the budget and could possibly go over. He reminded the committee that when items do exceed the budget, staff brings a budget revision to the Board for approval sometime in the spring.
- Under Operations and Maintenance of Plants, the two bid accounts include the \$5,793,000 budgeted for supplies and services (which consists of many sub-accounts), and the \$4,689,000 transportation expenses. He reported that he is now meeting with Mr. Woolfolk and Tommy Smith, as well as Jeff Roberts, the new Director of Transportation, to go over these budgets and expenditures to make sure it is clear where each area is. He added that four months into this current year, approximately 29% of the transportation budget has been spent.
- Under Transfers Out, Mr. Howard noted the \$15.9 million in MFP funds taken in from the State and distributed to Magnolia Charter, AMI and Pathways.
- Additionally, charter schools (Linwood) expenses, Title I, Title II, IDEA, Child Nutrition and Capital Projects updates were highlighted.
- Staff has also begun to work on a regular basis with Sped Director and her staff, the Child Nutrition director and her staff, Capital Projects director and their staff to make sure they are staying within their budget.

Mrs. Bell announced that committee members will ask questions first following by non-committee members. She thanked Mr. Howard for bringing this information to the committee on a regular basis.

Mr. Little thanked the staff for their work and asked about the increase in royalties revenue, and Mr. Howard explained that because the School District owns an entire section of land out Ellerbe (old Carver property), and five new wells that came on-line in June bringing payouts to the district in July. Mr. Little stated he believes it is accurate to say we can expect the MFP to continue to be down each year and he would like to see us work with the BESE Board to hopefully open up attendance zones beyond the district that you live in. He believes this move will provide a function of choice, and Caddo Parish will be competitive and students in these districts (Bossier and DeSoto Parishes) may choose to enroll in some of Caddo's premiere schools which would help with our reduced MFP.

Dr. Goree explained that staff has discussed this and feel it could work both ways – some of our schools are at capacity and there may not be ample space for them; and it also opens up the gates for students to say they want to go to Bossier. So, before moving forward in championing this legislation, it will be important to look closely at this option. Mr. Little noted the capacities at Magnet High and C.E. Byrd High. Mr. Abrams reminded the committee that you may pick up the MFP dollars for these students; however, you will lose the tax dollars. Also, regarding the issue of crossing lines, the tax issue has not been litigated at this point. Mr. Little stated he believes Texas has worked this out and they start with under-performing schools, and Mr. Abrams explained that state statute already provides this. Dr. Goree added relative to the tax issue, the entire state of Texas is growing.

Mr. Green expressed his concern about a situation where we end up being over-staffed and it is not being addressed. He asked what, if anything, can be done when we must over staff a school and we do not receive funds for it. Dr. Goree said that is one of the District's biggest challenges and a lot of this goes to the diversity and size of the schools in the District. He further stated that several of Caddo's schools operate at smaller capacities and this has resulted in more staffing outside of what the staffing formula allots for that particular school. He said he has charged HR to look at a small school formula and situations created from small schools in the past and build it into the District budget upfront. If we do this, he believes it will address the issue referred to by Mr. Green. Also some schools do need more than what they are getting.

Mr. Rachal stated that while Mr. Howard reported we are currently running behind, the report does not specifically show this and he would like a spread sheet that states how much revenue was expected up to a certain point and the expenses so it is clear where we are in the budget projections compared to last year. Mr. Howard confirmed staff can provide this information. Dr. Goree added that this is a new process and an opportunity to be more transparent; and encouraged Board members to make these type suggestions so hopefully by mid-year we are looking at documents that matter most to the Board.

Mrs. Bell also stated that in losing students and the MFP funds that follow them, it is important to remember the students in AMI, at Ombudsman and Magnolia and that we want to get these students back, but the October 1st count is what determines the amount we will receive in MFP funds. She said she also would like to know the number of students in these charters and how much this represents when the students return to Caddo.

Ms. Trammel asked about the projections and the importance of not having any surprises at the end of the budget year, and she asked Mr. Howard if he sees a projection coming forth. Mr. Howard stated that the District is currently on track for where we want to be; and if he saw anything unusual, he would bring it to the Board's attention and is part of the reason for bringing these budget updates to the committee quarterly. Dr. Goree complimented Mr. Howard and members of the Superintendent's Executive Cabinet and the time spent in addressing the numbers.

Mr. Rachal complimented the Superintendent on what he has accomplished with the staffing numbers since becoming Superintendent (removing budgeted vacant positions) by approximately one-half.

Mr. Little asked about staffing and if there is a way certain arenas in teaching can have an itinerant position, and Dr. Goree explained we currently do this and shared some examples of where we do. Mrs. Bell also shared itinerant situations in her district's schools where itinerant teachers are used, but also why some special needs situations may require an extra person.

Discussion Regarding Issuance of 2nd Installment of General Obligation Bonds. Dr. Goree stated that the presentation in the Building, Grounds and Security Committee meeting was built around the opportunity for the District to issue the second round of bonds in January. This would mean for this summer's heating and air conditioning projects, there would be \$10 million as well as an opportunity to purchase an additional 25 new school buses before the start of school next year.

Mr. Howard added that taking advantage of this opportunity would allow for completion of more HVAC projects next summer. He stated that staff would like to get Board approval in December to advertise the bonds for sale, and he introduced Caddo's municipal advisor Lucius McGehee, Bond Attorney Grant Schlueter, and Jacquelyn Scott, bond co-counsel.

Mr. McGehee recapped where we were at this point last year in going to the voters to issue an \$88 million capital projects plan to be funded up to 5 mills and the financing plan for this is that in the first six years issue approximately \$9.8 million per year. Last June, via a competitive sale, Mr. McGehee explained the School Board went directly to the market, received three bids at 2.63% for 20 years. We are now at a place to do the second installment and shared a timeline showing how a second installment would work. At this time, the Bond Commission has approved moving forward and it is recommended that this be done by directly going back to the market. He further explained the two ways a public entity will borrow money in a bond issue: (1) competitive sale by going directly to the market; or (2) hire an underwriter to conduct a negotiated sale. One reason you would use an underwriter would be if there is trouble with your ratings, a complex bond issue, or you don't issue many bonds so the market does not know who you are. Also, the underwriter has flexibility as to when the bond goes to the market within a certain number of days. At this time and because of how well the first sale went, he still recommends a competitive sale and go to the market directly, but will do what the Board determines it wishes to do.

Deneé' Locke asked who was Caddo's underwriter the last time, and Mr. McGehee responded there was not one because we went directly to the market and Raymond James was the lowest bid. Mrs. Locke stated her surprise that we are not known in the community, and Mr. Howard clarified that one of the reasons we would use an underwriter for a negotiated sale is if we were not well known in the marketplace, but that is not true. Mr. McGehee stated that is one of the reasons he is recommending a competitive sale (because we are known in the marketplace).

Mr. Rachal noted the previous lengthy discussion on the new procedure and the Board's interest in getting bids from other bonding attorneys, and if possible local attorneys; and he is disappointed in not seeing a RFP sent out to begin this new process. Mr. Rachal stated he still believes we need to go out for a RFP and asked how waiting another 30 days will affect what can happen next summer.

Dr. Goree stated his agreement about the conversation with the last issuance of bonds over the summer; and if that is the direction the Board wishes to go in, staff will certainly be responsive to that. However, at this time there has been no action from the Board to move in that direction; and as soon as staff receives that action, staff will move in that direction. He again reiterated the issue of this being an important window of opportunity to get double the work done next summer in addition to purchasing an additional 25 new buses, but this all is at the pleasure of the Board.

Mr. Rachal again asked if 30 days will throw us out of the possible window. Dr. Goree noted the importance of getting with Mr. White about timeframe on completion of projects and also getting buses in for the start of school. Mr. White said the air conditioning will be a little more critical timeline because according to the law, the money must be in before the bid is advertised. Mr. Rachal reiterated his disappointment that this is just now coming to the Board with the discussions that took place. Dr. Goree again reiterated that until the Board gives direction to move forward, and staff has not received that direction, staff can do nothing. In looking at the timeline, Mr. Rachal said he assumes all timelines are set; and he asked for clarity on when we will receive the money; and Mr. Howard confirmed it would be around 3/11; and again Mr. Rachal asked if we will then receive bids from the bonds and wait a month before they are placed out on market. Mr. Schlueter explained the reasoning behind this is to secure the bond rating on the issue, a statement is prepared, and it is submitted to the rating agency followed by a conference call with representatives from the school district and this takes approximately 30 days. He also asked about waiting the 30 days, and Mr. White said, in his opinion, he doesn't believe 30 days later will allow opportunity to get them approved and completed by the start of school next year.

Dr. Goree stated in the past staff did not have to bring these issues to the full Board; and in all fairness, staff brought it to committee for the opportunity to hear what the Board wishes to do. Mrs. Bell confirmed that in 13 years this is the first time these matters have been brought to the Board for action.

Mr. Thompson stated he is prepared today to present a request to look at RFPs or resolution whereby local bond attorneys could be considered.

Mrs. Locke noted a similar conversation during the summer of the fact there is no room for error or for problems and questions, and she asked why this was not brought forward. She said while the last thing the Board wants to do is halt the process for being able to move forward in getting much needed projects done; she feels very strong about doing this differently in the future.

Ms. Trammel asked how the Board might move forward with writing a resolution or proclamation and not hinder the process brought before the committee today. Mr. Abrams explained the Board can place on the agenda in December items to not hinder the process for this sale of bonds as well as items to move forward and go out for bids, and to create a RFP to go out for bid for a legal bond counsel. Dr. Goree clarified the item on the agenda would be for bids for issuance of bonds 3 through 10 and how the process will be measured in the future. Mr. Abrams further stated the process would be to put out a RFP asking everyone interested to submit a proposal for partnerships using local vendors as well as input on how it can be done to be more inclusive, i.e. work with other law firms in order to perform the work and be creative. The committee can make a recommendation to create a RFP for bond counsel by asking that it be added to the agenda for December.

Mrs. Bell asked about clarification on the additional 25 buses and Dr. Goree said that is for bonds for years one and two. Mrs. Bell asked for clarification as to what the District can go out for after years one and two, and Dr. Goree said for issues three through 10 we would be able to put out a RFP for bids for new bond counsel and a new process of interviewing attorneys.

Mr. McGehee stated that one item that needs resolving in committee is whether the Board wishes to advertise for the sale of bonds and go to the market directly or to negotiate and hire an underwriter. Mrs. Locke said that would not be decided by this committee, but it would go to the Board, and Dr. Goree clarified that the recommendation from the committee would go to the Board if the committee decides it wishes to move forward.

Mrs. Locke stated she is not comfortable making that decision today because she still has a lot of questions. Mr. Little said he believes it merits further discussion and there is only 10 minutes left in the meeting. Dr. Goree clarified that the Board does not have to stick to the timeline if the Board is not comfortable with this happening now.

Mr. Green said he believes the proposal has been presented; and if we have the confidence this will get the job done, he believes we need to move forward.

Mrs. Bell added she needs more time and the Board can vote on this on December 17th. She said she will vote against a recommendation from the committee at this time. Ms. Trammel asked if the item will be placed on the agenda, and Mrs. Bell said it will so the Board can discuss it further.

Discussion was held on the committee recommending that it be added to the December Board agenda for further discussion; and Mrs. Locke stated there is not a recommendation and it is already on the agenda. Dr. Goree clarified it is not on the agenda at this point; and the thought process was when staff brought it to committee the recommendation would come out of committee, which is how the committee process should work. However, any Board member can choose to place it on the agenda at the work session. Mrs. Locke clarified that not everything on the agenda comes from the Board because staff adds items to the agenda. Dr. Goree agreed; however, by design, things would come out of committee. Mrs. Locke referenced Mr. McGehee's comment that the committee had to decide between negotiated or competitive bid, which the committee was not comfortable with today, and Dr. Goree stated staff can make a recommendation and place it on the agenda to be voted on by the Board.

Mr. Rachal asked if he is understanding that the committee is (1) not going to make a recommendation (not take a vote), or (2) vote to either recommend or not recommend it. Mrs. Locke stated that is not correct, but it is about putting it on the agenda. Dr. Goree said if it is the Board's desire to go through a RFP process before issuance number 2 happens, someone needs to add that to the agenda so staff can begin to respond to it because he is hearing that some Board members would like to have the RFP process complete even prior to the 2nd issuance of bonds. Mr. Abrams stated he is not hearing from the Board that they do not want the projects in the 2nd series to move forward.

Mr. Nations stated that as a Board member he recommends sticking with the plan and moving forward.

Mr. McGehee stated that he believes he understands we are staying within the timeframe; however there is a decision needed on whether we move forward with a negotiated sale or a competitive sale. Dr. Goree clarified that it doesn't have to be done today and staff will add it to the agenda and at that point the Board will have the luxury to do substitute motions, etc. before the Board votes. Mr. Abrams asked if the timelines have been approved by the Bond Commission, and Mr. Schlueter explained that the Bond Commission has approved the issuance of all the series of bonds authorized in the last election, the fees and professionals. The Board previously retained a municipal advisor and all the issues authorized by the election; including authorizing and executing a contract with Foley, Judell as bond counsel and Jacquelyn Scott as co-bond counsel for all the issues approved in the bond issue. The specific timing of the issues is not approved by the Bond Commission. Mr. Abrams asked if the Board decides to change bond counsel, would this have to be approved through the Bond Commission, and Mr. Schlueter confirmed it would have to be approved by the School Board and go back to the Bond Commission for approval. Mr. Abrams asked if the Board decides to use a rotation basis for bond counsel, does it mean it has to be approved by the Bond Commission each time or is there something that could be done annually. Mr. Schlueter stated they would hope the School Board would honor the existing contract with Foley, Judell; however, if the Board decides it wishes to do a RFP for any of the future issues, Foley, Judell would work with the Board and would also respond to it. Mr. Abrams asked if the Board decides to do a rotation and use several firms could the Commission approve that in one document each year. Mr. Schlueter explained that each time the School Board goes out for an issuance, if there is any variation in representation in the professionals, it means a subsequent State Bond Commission approval.

Mrs. Locke asked who created the timeline, and Mr. Schlueter responded he and the municipal advisor did to prepare for when the School Board would need to have funds

available. Mrs. Locke asked about the draft date of 8/1/19 and Mr. Howard explained he doesn't know about that date, but this was only first discussed with Mr. McGehee in November. Mr. Schlueter explained it may have been drafted that early in the event there was any indication the Board would proceed, but they had no indication the Board would proceed until fairly recently at which time staff stated the recommendation would be to first bring it to committee. Dr. Goree added there was no knowledge of this until conversations began about getting more buses. Mrs. Locke asked if the process could be more like "this is what we have coming" versus "doing something and then asking". Dr. Goree added there is still the option of waiting until next June, which would be a calendar year; however, the downside is we will be pushing the projects off another year. He also stated that in all fairness to staff, that is the space in which staff was operating; but this opportunity came up and Mr. Howard contacted bond counsel.

Mrs. Scott stated that she is grateful for being on the team; however, she is not receiving materials and was unaware of this meeting and would appreciate the opportunity to be more involved.

Mr. Rachal asked, from this point forward, that a RFP be issued, and Mr. Abrams explained a motion can be made recommending that the Board put on the agenda to issue an RFP. Mr. Rachal stated he understands the timing is tough and we are learning through this process as we go; but he believes it should be considered carefully before proceeding with the timetable with what is presented. He said he believes the Superintendent is saying he really wants to get this done, and he understands that; however, from this point forward, we need to look at should we do something different. Mr. Abrams clarified that he was not of the understanding the RFP would be to derail this particular one. Mr. Howard asked if the intent of the motion is to do a RFP for bond counsel and municipal advisor, and the committee clarified it is for bond counsel only. Mr. Little asked if this will violate the spirit of the current contract with the existing counsel, and Mr. Abrams said the School Board approved Foley, Judell as bond counsel in 2011 and attorneys work at the will of those who hire them. Mr. Schlueter verified that the School Board can terminate employment of representation at any time; but in response to the question, there is School Board action and a contract with their firm and Mrs. Scott for all the issues approved at the election. Mr. Rachal asked if that was approved or is that what you took, and Mr. Schlueter said it was approved. Mr. Little asked for clarification on hearing both "at will" and "contractual", and Mr. Abrams stated it was contractual; however, when discussed in the Board meeting it was stated that the Board could change counsel. Mr. Little said but statements do not control documents, and Mr. Abrams said it does if we are the parties.

Mrs. Locke moved to add this item to the agenda for further discussion and understanding the need for more information. Mr. Green seconded the motion and the motion carried. Mr. Howard asked that Board members needing additional information to clarify with him what they would like and he will provide it. Mrs. Locke stated for her personally, she would like to have all the documents the Board will be asked to approve at minimum three days prior to the meeting. Dr. Goree asked for clarification of the motion and that we are moving forward with the second issuance of bonds, and committee members confirmed that is correct.

Mrs. Locke moved, seconded by Mr. Green, to add to the agenda for December 17th to go out for a RFP for bond counsel for other issues. Vote on the motion carried with Mr. Little abstaining.

VISITORS

The following visitors addressed the committee: (1) Jackie Lansdale, Red River United, teachers at AMI and state raise; (2) Ken Antee, underwriter, advantages of competitive and negotiated bids; and (3) Alex Washington, negotiated bids.

Adjournment. *Mrs. Locke moved, seconded by Mr. Little, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 4:13 p.m.*

**December 17, 2019
CPSB Meeting**

Members present: Steve Riall, Jasmine Green, Lloyd Thompson, Dr. Bonita Douzart, Mary Trammel, Raymond Green, Denee' Locke, Barry Rachal, Tony Nations, John Albritton and Dottie Bell. Don Little was absent. Also present were T. Lamar Goree, Ph.D., superintendent, and Reggie Abrams, legal counsel.

President Trammel called the meeting to order at approximately 4:30 p.m., and Dottie Bell led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE NOVEMBER 19, 2019 AND DECEMBER 3, 2019 CPSB MEETINGS

Mr. Rachal moved, seconded by Mr. Riall, to approve the minutes of the November 19, 2019 and December 3, 2019 CPSB meetings as submitted in the electronic mailout. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Mary Nash Wood, director of Communications and Strategic Initiatives, recognized the following students and employees and the Board President and Superintendent presented a certificate to each for their achievement(s). Family members, friends and administrators present were also recognized.

Eden Gardens Fundamental Elementary Magnet School Choir. Students in the Eden Gardens Fundamental Elementary Magnet School choir shared Holiday songs with the Board and audience.

2019 – 32nd Annual Greening of the Louisiana State Exhibit Museum. The following schools were recognized for placing in the 32nd Annual Greening of the Louisiana State Exhibit Museum: (1) Herndon Elementary Magnet, 4th Place; (2) Eden Gardens Magnet – 3rd Place; and (3) Atkins Elementary, 1st Place.

2019 Christmas in Roseland Winners. The following schools were recognized as winners in the 2019 Christmas in Roseland Christmas card competition: (1) Southern Hills Elementary, 3rd Place; (2) Riverside Elementary, 1st Place; (3) Caddo Middle Magnet, 2nd Place; (4) Youree Drive Middle, 1st Place; (5) Huntington High, 3rd Place; (6) North Caddo High, 2nd Place; and (7) Southwood High, 1st Place.

Veterans Celebration Committee. Commissioner Ken Epperson presented a \$1500 check for the JROTC Scholarship Program on behalf of the 2019 Veterans Celebration Committee to Colonel Eric Sweeney and the Caddo Parish School Board.

Newly Appointed Administrators. Jeff Roberts was recognized as the newly appointed director of transportation for the District.

VISITORS

The following addressed the Board on matters of interest/concern: Jackie Lansdale, president, Red River United, JROTC Instructors pay.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Goree highlighted items for the Board's consideration and the following discussion ensued. President Trammel announced the following as Consent Agenda items: 6.01-6.04, 7.01, 8.01-8.04, and 13.01. *Mrs. Locke moved, seconded by Mr. Rachal, to establish the agenda and the proposed consent agenda for the December 17, 2019 CPSB meeting as presented.*

CONFIRM THE CONSENT AGENDA

Mr. Riall moved, seconded by Mr. Rachal, to confirm the consent agenda. Vote on the motion carried. The following is a summary of the Board's action on consent agenda items.

6.01 Personnel Recommendations. The Board approved the personnel recommendation(s) as recommended by staff and submitted in the electronic mailout.

6.02 Administrative Contract Renewals. The Board approved administrative contract renewals as recommended by the superintendent and submitted in the electronic mailout.

6.03 Personnel Transaction Reports–Resignations. The Board approved the personnel transactions report (resignations) as recommended by staff and submitted in the electronic mailout.

6.04 Requests for Leaves. The Board approved requests for leaves as recommended by staff and submitted in the electronic mailout.

7.01 Purchasing Bids. The Board approved the following bids as recommended by staff and submitted in the electronic mailout: (1) Harrison Paint Co., Bid 06P-20-Paint, (2) Lott Oil Company, Bid 07A-20-Antifreeze; (3) Lott Oil Company, Bid 080-20-Oil; and (4) Don Feibel, Bid 05L-20 Dixie Agricultural Lease Dixie. *The bid tabulations are filed in the official record of the December 17, 2019 CPSB meeting.*

8.01 Property/Bus Rental Requests. The Board approved requests for use of CPSB property as recommended by staff and submitted in the electronic mailout.

8.02 Out of State Travel General Fund). The Board approved requests for out of state travel (General Fund) as recommended by staff and submitted in the electronic mailout.

8.03 Consideration of Proposed 2020-2021 SY Calendar. The Board approved the proposed 2020-2021 SY Calendar as recommended and submitted in the electronic mailout.

8.04 Recommendations for 2019 Bond Phase I Proposed Projects Plan and Designers. The Board approved the recommendations for the 2019 Bond Phase I Proposed Projects Plan and Designers as submitted in the electronic mailout.

13.01 Student Readmission Appeal Hearings. The Board approved readmission appeals for students AA, LB, DS, CN, XR, RS, DG, RS, CC and CS as recommended by staff and whose parents are in agreement.

CONSIDERATION OF PROCESS AND TAKE ACTION REGARDING RESOLUTION FOR THE PURCHASE OF GENERAL OBLIGATION SCHOOL BONDS, SERIES 2020, OF PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA, AND PROVIDING FOR OTHER MATTERS IN CONNECTION THEREWITH

Mrs. Bell moved, seconded by Mrs. Locke, to adopt the resolution selecting Raymond James of New Orleans, Louisiana as underwriter and Crews & Associates, Shreveport, LA, co-underwriter, authorizing the incurring of debt and issuance of debt and issuance of \$9,800,000 of General Obligation School Bonds, Series 2020, of Parishwide School District of Caddo Parish, Louisiana, and providing for other matters in connection therewith as submitted in the electronic mailout. Vote on the motion carried unanimously and the following resolution was approved.

RESOLUTION

A resolution authorizing the incurring of debt and issuance of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2020, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, terms and conditions of said Bonds; designating the date, denomination and place of payment of said Bonds; providing for the payment thereof in principal and interest; and providing for other matters in connection therewith.

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Definitions. As used herein, the following terms shall have the following meanings, unless the context otherwise requires:

"Agreement" means the agreement to be entered into between the Issuer and the Paying Agent pursuant to this Resolution.

"Bond" means any Bonds of the Issuer authorized to be issued by this Resolution, whether initially delivered or issued in exchange for, upon transfer of, or *in lieu* of any Bond previously issued.

"Bond Purchase Agreement" means the agreement to be entered into between the Issuer and the Underwriter in substantially the form attached hereto as Exhibit A.

"Bond Register" means the records kept by the Paying Agent at its principal corporate trust office in which registration of the Bonds and transfers of the Bonds shall be made as provided herein.

"Bonds" means the Issuer's General Obligation School Bonds, Series 2020, authorized by this Resolution in the total aggregate principal amount of Nine Million Eight Hundred Thousand Dollars (\$9,800,000), authorized at a special election held on May 4, 2019.

"Code" means the Internal Revenue Code of 1986, as amended.

"Defeasance Obligations" means cash or Government Securities.

"Executive Officers" means, collectively, the President and the Secretary of the Governing Authority.

"Governing Authority" means the Parish School Board of the Parish of Caddo, State of Louisiana.

"Government Securities" means direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by the United States of America, which are non-callable prior to their maturity, may be United States Treasury obligations such as the State and Local Government Series and may be in book-entry form.

"Interest Payment Date" means March 1 and September 1 of each year during the period the Bonds are outstanding, commencing September 1, 2020.

"Issuer" means Parishwide School District of Caddo Parish, Louisiana.

"Outstanding" when used with respect to Bonds means, as of the date of determination, all Bonds theretofore issued and delivered under this Resolution, except:

1. Bonds theretofore canceled by the Paying Agent or delivered to the Paying Agent for cancellation;
2. Bonds for payment or redemption of which sufficient Defeasance Obligations have been theretofore deposited in trust for the owners of such Bonds, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to this Resolution or waived;
3. Bonds in exchange for or *in lieu* of which other Bonds have been registered and delivered pursuant to this Resolution; and
4. Bonds alleged to have been mutilated, destroyed, lost or stolen which have been paid as provided in this Resolution or by law.

"Owner" or **"Owners"** when used with respect to any Bond means the Person in whose name such Bond is registered in the Bond Register.

"Paying Agent" means Argent Trust Company, in the City of Ruston, Louisiana, until a successor Paying Agent shall have been appointed pursuant to the applicable provisions of this Resolution and thereafter "Paying Agent" shall mean such successor Paying Agent.

"Person" means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

"Record Date" for the interest payable on any Interest Payment Date means the 15th calendar day of the month next preceding such Interest Payment Date.

"Resolution" means this resolution authorizing the issuance of the Bonds, as it may be supplemented and amended.

"Underwriter" means, collectively, Raymond James & Associates, Inc. of New Orleans, Louisiana as Underwriter and Crews & Associates, Inc. of Shreveport, Louisiana as Co-Underwriter, the original purchasers of the Bonds.

SECTION 2. Authorization of Bonds; Maturities. In compliance with the terms and provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, there is hereby authorized the incurring of an indebtedness of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) for, on behalf of, and in the name of the Issuer, for the purpose of acquiring and/or improving lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the Issuer and acquiring the necessary equipment and furnishings therefor, and specifically for those projects in the "Capital Improvements Plan" approved by the Governing Authority on January 15, 2019, title to which shall be in the public, and paying the costs of issuance thereof. To represent said indebtedness, this Governing Authority does hereby authorize the issuance of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) of General Obligation School Bonds, Series 2020, of the Issuer, authorized at the said election held on May 4, 2019. The Bonds shall be dated the date of delivery, shall be numbered consecutively from R-1 upwards, shall mature on March 1 in each of the years and in the principal amounts as shall be set forth in the Bond Purchase Agreement, may be serial bonds or term bonds with mandatory call provisions, as set forth in the Bond Purchase Agreement, and shall mature no later than March 1, 2040. The unpaid principal of the Bonds shall bear interest from the date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, payable on March 1 and September 1 of each year, commencing September 1, 2020.

The Bonds shall bear interest at a rate or rates of interest (not exceeding 6.00% per annum) and shall be sold at such prices, all as set forth in the Bond Purchase Agreement.

The principal of the Bonds, upon maturity or redemption, shall be payable at the corporate trust office of the Paying Agent upon presentation and surrender thereof, and interest on the Bonds shall be payable by check mailed by the Paying Agent to the Owner (determined as of the close of business on the Record Date) at the address shown on the Bond Register. Each Bond delivered under this Resolution upon transfer of, in exchange for or in lieu of any other Bond shall carry all the rights to interest accrued and unpaid, and to accrue, which were carried by such other Bond, and each such Bond shall bear interest (as herein set forth) so neither gain nor loss in interest shall result from such transfer, exchange or substitution.

During any period after the initial delivery of the Bonds in book-entry-only form when the Bonds are delivered in multiple certificates form, upon request of a registered owner of at least \$1,000,000 in principal amount of Bonds outstanding, all payments of principal and interest on the Bonds will be made by wire transfer in immediately available funds to an account designated by such registered owner; CUSIP number identification with appropriate dollar amounts for each CUSIP number will accompany all payments of principal and interest, whether by check or by wire transfer.

No Bond shall be entitled to any right or benefit under this Resolution, or be valid or obligatory for any purpose, unless there appears on such Bond a certificate of registration substantially in the form provided in this Resolution, executed by the Paying Agent by manual signature.

SECTION 3. Book-Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Issuer or any other officer of the Issuer is authorized to execute and deliver a Letter of Representation to DTC on behalf of the Issuer with respect to the issuance of the Bonds in "book-entry only" format. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

- (a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or
- (b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer nor the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy *in lieu* of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect. If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

SECTION 4. Redemption Provisions. The Bonds maturing on March 1, 2031, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2030, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof, plus accrued interest from the most recent Interest Payment Date to which interest has been paid or duly provided for. In the event a Bond to be redeemed is of a denomination larger than \$5,000, a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Bonds are not required to be redeemed in inverse order of maturity. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails, or by accepted means of electronic communication, not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

SECTION 5. Registration and Transfer. The Issuer shall cause the Bond Register to be kept by the Paying Agent. The Bonds may be transferred, registered and assigned only on the Bond

Register, and such registration shall be at the expense of the Issuer. A Bond may be assigned by the execution of an assignment form on the Bond or by other instruments of transfer and assignment acceptable to the Paying Agent. A new Bond or Bonds will be delivered by the Paying Agent to the last assignee (the new Owner) in exchange for such transferred and assigned Bonds after receipt of the Bonds to be transferred in proper form. Such new Bond or Bonds shall be in the denomination of \$5,000 or any integral multiple thereof within a single maturity. Neither the Issuer nor the Paying Agent shall be required to issue, register, transfer or exchange (i) any Bond during a period beginning at the opening of business on a Record Date and ending at the close of business on the Interest Payment Date, or (ii) any Bond called for redemption prior to maturity during a period beginning at the opening of business fifteen (15) days before the date of the mailing of a notice of redemption of such Bond and ending on the date of such redemption.

SECTION 6. Form of Bonds. The Bonds and the endorsements to appear thereon shall be in substantially the following forms, respectively, to-wit:

(FORM OF BOND)

Unless this Bond is presented by an authorized representative of the Depository Trust Company, a New York corporation ("DTC"), to the Issuer or their agent for registration of transfer, exchange, or payment, and any Bond issued is registered in the name of CEDE & CO. or in such other name as is requested by an authorized representative of DTC (and any payment is made to CEDE & CO. or to such other entity as is requested by an authorized representative of DTC), ANY TRANSFER, PLEDGE, OR OTHER USE HEREOF FOR VALUE OR OTHERWISE BY OR TO ANY PERSON IS WRONGFUL inasmuch as the registered owner hereof, CEDE & CO., has an interest herein.

As provided in the Resolution referred to herein, until the termination of the system of book-entry-only transfers through DTC and notwithstanding any other provision of the Resolution to the contrary, this Bond may be transferred, in whole but not in part, only to a nominee of DTC, or by a nominee of DTC to DTC or a nominee of DTC, or by DTC or a nominee of DTC to any successor securities depository or any nominee thereof.

No. R-_____ Principal Amount \$ _____

UNITED STATES OF AMERICA
STATE OF LOUISIANA
PARISH OF CADDO
GENERAL OBLIGATION SCHOOL BOND, SERIES 2020
OF
PARISHWIDE SCHOOL DISTRICT OF CADDO
PARISH, LOUISIANA

<u>Maturity Date</u>	<u>Interest Rate</u>	<u>Bond Date</u>	<u>CUSIP Number</u>
March 1, _____	_____ %	_____, 2019	_____

PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA (the "Issuer"), promises to pay to:

REGISTERED OWNER: CEDE & CO. (Tax Identification #13-2555119)
PRINCIPAL AMOUNT: _____ DOLLARS

or registered assigns, on the Maturity Date set forth above, the Principal Amount set forth above, together with interest thereon from the Bond Date set forth above or the most recent interest payment date to which interest has been paid or duly provided for, payable on March 1 and September 1 of each year, commencing September 1, 2020 (each an "Interest Payment Date"), at the Interest Rate per annum set forth above until said Principal Amount is paid, unless this Bond shall have been previously called for redemption and payment shall have been duly made or provided for. The principal of and premium, if any, on this Bond, upon maturity or redemption, shall be payable at the principal corporate trust office of Argent Trust Company, in the City of Ruston, Louisiana, or successor thereto (the "Paying Agent") upon presentation and surrender hereof. Interest on this Bond is payable by check of the Paying Agent mailed by the Paying Agent to the registered owner at the address as shown on the registration books of the Paying Agent maintained for such purpose. The interest so payable on any Interest Payment Date will be paid to the person in whose name this Bond (or one or more predecessor Bonds) is registered at the close of business on the Record Date (which is the 15th calendar day of the month next preceding

an Interest Payment Date). Any interest not punctually paid or duly provided for shall be payable as provided in the Resolution (hereinafter defined).

During any period after the initial delivery of the Bonds in book-entry only form when the Bonds are delivered in multiple certificates form, upon request of a registered owner of at least \$1,000,000 in principal amount of Bonds outstanding, all payment of principal, premium, if any, and interest on the Bonds will be paid by wire transfer in immediately available funds to an account designated by such registered owner; CUSIP number identification with appropriate dollar amounts for each CUSIP number must accompany all payments of principal, premium, and interest, whether by check or by wire transfer.

FOR SO LONG AS THIS BOND IS HELD IN BOOK-ENTRY FORM REGISTERED IN THE NAME OF CEDE & CO. ON THE REGISTRATION BOOKS OF THE ISSUER KEPT BY THE PAYING AGENT, AS BOND REGISTRAR, THIS BOND, IF CALLED FOR PARTIAL REDEMPTION IN ACCORDANCE WITH THE RESOLUTION, SHALL BECOME DUE AND PAYABLE ON THE REDEMPTION DATE DESIGNATED IN THE NOTICE OF REDEMPTION GIVEN IN ACCORDANCE WITH THE RESOLUTION AT, AND ONLY TO THE EXTENT OF, THE REDEMPTION PRICE, PLUS ACCRUED INTEREST TO THE SPECIFIED REDEMPTION DATE; AND THIS BOND SHALL BE PAID, TO THE EXTENT SO REDEEMED, (i) UPON PRESENTATION AND SURRENDER HEREOF AT THE OFFICE SPECIFIED IN SUCH NOTICE OR (ii) AT THE WRITTEN REQUEST OF CEDE & CO., BY CHECK MAILED TO CEDE & CO. BY THE PAYING AGENT OR BY WIRE TRANSFER TO CEDE & CO. BY THE PAYING AGENT IF CEDE & CO. AS BONDOWNER SO ELECTS. IF, ON THE REDEMPTION DATE, MONEYS FOR THE REDEMPTION OF BONDS OF SUCH MATURITY TO BE REDEEMED, TOGETHER WITH INTEREST TO THE REDEMPTION DATE, SHALL BE HELD BY THE PAYING AGENT SO AS TO BE AVAILABLE THEREFOR ON SUCH DATE, AND AFTER NOTICE OF REDEMPTION SHALL HAVE BEEN GIVEN IN ACCORDANCE WITH THE RESOLUTION, THEN, FROM AND AFTER THE REDEMPTION DATE, THE AGGREGATE PRINCIPAL AMOUNT OF THIS BOND SHALL BE IMMEDIATELY REDUCED BY AN AMOUNT EQUAL TO THE AGGREGATE PRINCIPAL AMOUNT THEREOF SO REDEEMED, NOTWITHSTANDING WHETHER THIS BOND HAS BEEN SURRENDERED TO THE PAYING AGENT FOR CANCELLATION.

This Bond is one of an authorized issue aggregating in principal the sum of Nine Million Eight Hundred Thousand Dollars (\$9,800,000) (the "Bonds"), all of like tenor and effect except as to number, denomination, interest rate and maturity, the Bonds having been issued by the Issuer pursuant to a resolution adopted by its governing authority on December 17, 2019 (the "Resolution"), for the purpose of acquiring and/or improving lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting and/or improving school buildings and other school related facilities within and for the Issuer and acquiring the necessary equipment and furnishings therefor, and specifically for those projects in the "Capital Improvements Plan" approved by the governing authority of the Issuer on January 15, 2019, title to which shall be in the public, and paying the costs of issuance thereof, under the authority conferred by Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, authorized at a special election held on May 4, 2019, the result of which election has been duly promulgated in accordance with law.

The Bonds are issuable only as fully registered bonds in the denomination of \$5,000 principal amount or any integral multiple thereof, exchangeable for an equal aggregate principal amount of bonds of the same maturity of any other authorized denomination.

Subject to the limitations of and upon payment of the charges provided in the Resolution, the transfer of this Bond may be registered on the registration books of the Paying Agent upon surrender of this Bond at the principal corporate trust office of the Paying Agent as registrar, accompanied by a written instrument of transfer in form and with guaranty of signature satisfactory to the Paying Agent, duly executed by the registered owner or his attorney duly authorized in writing, and thereupon a new bond or bonds of the same maturity and of authorized denomination or denominations, for the same aggregate principal amount, will be issued to the transferee. Prior to due presentment for registration of transfer of this Bond, the Issuer and the Paying Agent may

deem and treat the person in whose name this Bond is registered as the absolute owner hereof for all purposes, whether or not this Bond shall be overdue and neither the Issuer nor the Paying Agent shall be bound by any notice to the contrary.

The Bonds maturing on March 1, 2031, and thereafter, will be callable for redemption by the Issuer in full or in part at any time on or after March 1, 2030, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof, plus accrued interest from the most recent Interest Payment Date to which interest has been paid or duly provided for. In the event a Bond to be redeemed is of a denomination larger than \$5,000, a portion of such Bond (\$5,000 or any multiple thereof) may be redeemed. Bonds are not required to be redeemed in inverse order of maturity. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails, or by accepted means of electronic communication, not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent

The Resolution permits, with certain exceptions as therein provided, the amendment thereof and the modifications of the rights and obligations of the Issuer and the rights of the owners of the Bonds at any time by the Issuer with consent of the owners of two-thirds (2/3) of the aggregate principal amount of all Bonds issued under the Resolution, to be determined in accordance with the Resolution.

This Bond shall not be valid or become obligatory for any purpose or be entitled to any security or benefit under the Resolution until the certificate of registration hereon shall have been signed by the Paying Agent.

This Bond and the issue of which it forms a part constitute general obligations of the Issuer, and the full faith and credit of the Issuer is pledged for the payment of this Bond and the issue of which it forms a part. Said Bonds are secured by a special ad valorem tax to be imposed and collected annually in excess of all other taxes on all the property subject to such taxation within the territorial limits of the Issuer, under the Constitution and laws of Louisiana, sufficient in amount to pay the principal of this Bond and the issue of which it forms a part and the interest thereon as they severally mature.

It is hereby certified, recited and declared that all acts, conditions and things required to exist, to happen and to be performed precedent to and in the issuance of this Bond and the issue of which it forms a part to constitute the same legal, binding and valid obligations of the Issuer have existed, have happened and have been performed in due time, form and manner as required by law, and that the indebtedness of the Issuer, including this Bond and the issue of which it forms a part, does not exceed the limitations prescribed by the Constitution and statutes of the State of Louisiana.

It is certified that this Bond is authorized by and is issued in conformity with the requirements of the Constitution and statutes of Louisiana.

IN WITNESS WHEREOF, Parishwide School District of Caddo Parish, Louisiana, has caused this Bond to be executed in its name by the facsimile signatures of the President and Secretary of its governing authority, the Parish School Board of the Parish of Caddo, State of Louisiana, and the corporate seal of said governing authority to be imprinted hereon.

SECTION 7. Execution of Bonds. The Bonds shall be signed by the Executive Officers for, on behalf of, in the name of and under the corporate seal of the Issuer, which signatures and corporate seal may be either manual or facsimile.

SECTION 8. Pledge of Full Faith and Credit. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment. This Governing Authority does hereby obligate itself and is bound under the terms and provisions of law and the election authorizing the Bonds to impose and collect annually in excess of all other taxes a tax on all of the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and the interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer.

SECTION 9. Sinking Fund. For the payment of the principal of and the interest on the Bonds, the Issuer has established a special fund, held by the regularly designated fiscal agent of the Issuer (the "Sinking Fund"), into which the Issuer will deposit the proceeds of the aforesaid special tax and no other moneys whatsoever (other than investment earnings thereon). The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least one (1) day in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund.

SECTION 10. Application of Proceeds. The Executive Officers are hereby empowered, authorized and directed to do any and all things necessary and incidental to carry out all of the provisions of this Resolution, to cause the necessary Bonds to be printed, to issue, execute and seal the Bonds, and to effect delivery thereof as hereinafter provided. The proceeds derived from the sale of the Bonds, including any premium derived from the sale thereof, shall be deposited by the Issuer with its fiscal agent bank or banks to be used (i) for the purpose for which the Bonds are issued and/or (ii) for deposit in the Sinking Fund to be used to pay principal and interest coming due on the Bonds.

SECTION 11. Bonds Legal Obligations. The Bonds shall constitute legal, binding and valid obligations of the Issuer, and shall be the only representations of the indebtedness as herein authorized and created.

SECTION 12. Resolution a Contract. The provisions of this Resolution shall constitute a contract between the Issuer and its successors, and the Owner or Owners from time to time of the Bonds and any such Owner or Owners may at law or in equity, by suit, action, mandamus or other proceedings, enforce and compel the performance of all duties required to be performed by the Governing Authority or the Issuer as a result of issuing the Bonds.

No material modification or amendment of this Resolution, or of any resolution amendatory hereof or supplemental hereto, may be made without the consent in writing of the Owners of two-thirds (2/3) of the aggregate principal amount of the Bonds then outstanding; provided, however, that no modification or amendment shall permit a change in the maturity or redemption provisions of the Bonds, or a reduction in the rate of interest thereon, or in the amount of the principal obligation thereof, or affecting the obligation of the Issuer to pay the principal of and the interest on the Bonds as the same shall come due from the revenues appropriated, pledged and dedicated to the payment thereof by this Resolution, or reduce the percentage of the Owners required to consent to any material modification or amendment of this Resolution, without the consent of the Owners of the Bonds.

SECTION 13. Severability; Application of Subsequently Enacted Laws. In case any one or more of the provisions of this Resolution or of the Bonds shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provisions of this Resolution or of the Bonds, but this Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provisions enacted after the date of this Resolution which validate or make legal any provision of the Resolution and/or the Bonds which would not otherwise be valid or legal, shall be deemed to apply to this Resolution and to the Bonds.

SECTION 14. Recital of Regularity. This Governing Authority having investigated the regularity of the proceedings had in connection with the Bonds herein authorized and having determined the same to be regular, the Bonds shall contain the following recital, to-wit:

"It is certified that this Bond is authorized by and is issued in conformity with the requirements of the Constitution and statutes of Louisiana."

SECTION 15. Effect of Registration. The Issuer, the Paying Agent, and any agent of either of them may treat the Owner in whose name any Bond is registered as the Owner of such Bond for the purpose of receiving payment of the principal (and redemption price) of and interest on such Bond and for all other purposes whatsoever, and to the extent permitted by law, neither the Issuer, the Paying Agent, nor any agent of either of them shall be affected by notice to the contrary.

SECTION 16. Notices to Owners. Wherever this Resolution provides for notice to Owners of Bonds of any event, such notice shall be sufficiently given (unless otherwise herein expressly provided) if in writing and mailed, first-class postage prepaid, to each Owner of such Bonds, at the address of such Owner as it appears in the Bond Register. In any case where notice to Owners of Bonds is given by mail, neither the failure to mail such notice to any particular Owner of Bonds, nor any defect in any notice so mailed, shall affect the sufficiency of such notice with respect to

all other Bonds. Where this Resolution provides for notice in any manner, such notice may be waived in writing by the Owner or Owners entitled to receive such notice, either before or after the event, and such waiver shall be the equivalent of such notice. Waivers of notice by Owners shall be filed with the Paying Agent, but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

SECTION 17. Cancellation of Bonds. All Bonds surrendered for payment, redemption, transfer, exchange or replacement, if surrendered to the Paying Agent, shall be promptly canceled by it and, if surrendered to the Issuer, shall be delivered to the Paying Agent and, if not already canceled, shall be promptly canceled by the Paying Agent. The Issuer may at any time deliver to the Paying Agent for cancellation any Bonds previously registered and delivered which the Issuer may have acquired in any manner whatsoever, and all Bonds so delivered shall be promptly canceled by the Paying Agent. All canceled Bonds held by the Paying Agent shall be disposed of as directed in writing by the Issuer.

SECTION 18. Mutilated, Destroyed, Lost or Stolen Bonds. If (a) any mutilated Bond is surrendered to the Paying Agent, or the Issuer and the Paying Agent receive evidence to their satisfaction of the destruction, loss or theft of any Bond, and (b) there is delivered to the Issuer and the Paying Agent such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the Issuer or the Paying Agent that such Bond has been acquired by a bona fide purchaser, the Issuer shall execute, and upon its request the Paying Agent shall register and deliver, in exchange for or *in lieu* of any such mutilated, destroyed, lost, or stolen Bond, a new Bond of the same maturity and of like tenor, interest rate and principal amount, bearing a number not contemporaneously outstanding. In case any such mutilated, destroyed, lost or stolen Bond has become or is about to become due and payable, the Issuer in its discretion may, instead of issuing a new Bond, pay such Bond. Upon the issuance of any new Bond under this Section, the Issuer may require the payment by the Owner of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Paying Agent) connected therewith. Every new Bond issued pursuant to this Section *in lieu* of any mutilated, destroyed, lost or stolen bond shall constitute a replacement of the prior obligation of the Issuer, whether or not the mutilated, destroyed, lost or stolen Bond shall be at any time enforceable by anyone and shall be entitled to all the benefits of this Resolution equally and ratably with all other Outstanding Bonds. Any additional procedures set forth in the Agreement, authorized in this Resolution, shall also be available with respect to mutilated, destroyed, lost or stolen Bonds. The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement and payment of mutilated, destroyed, lost or stolen Bonds.

SECTION 19. Discharge of Resolution; Defeasance. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid to the Owners, the principal (and redemption price) of and interest on the Bonds, at the times and in the manner stipulated in this Resolution, then the pledge of the money, securities, and funds pledged under this Resolution and all covenants, agreements, and other obligations of the Issuer to the Owners of the Bonds shall thereupon cease, terminate, and become void and be discharged and satisfied, and the Paying Agent shall pay over or deliver all money held by it under this Resolution to the Issuer.

Bonds or interest installments for the payment of which money shall have been set aside and shall be held in trust (through deposit by the Governing Authority of funds for such payment or otherwise) at the maturity date thereof shall be deemed to have been paid within the meaning and with the effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their maturity, within the meaning and with the effect expressed above in this Section if they have been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as amended, or any successor provisions thereto.

SECTION 20. Successor Paying Agent; Paying Agent Agreement. The Issuer will at all times maintain a Paying Agent meeting the qualifications hereinafter described for the performance of the duties hereunder for the Bonds. The designation of the initial Paying Agent in this Resolution is hereby confirmed and approved. The Issuer reserves the right to appoint a successor Paying Agent by (a) filing with the Person then performing such function a certified copy of a resolution or ordinance giving notice of the termination of the Agreement and appointing a successor and (b) causing notice to be given to each Owner. Every Paying Agent appointed hereunder shall at all times be a bank or trust company organized and doing business under the laws of the United States

of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by Federal or State authority. The Executive Officers are hereby authorized and directed to execute an appropriate Agreement with the Paying Agent for and on behalf of the Issuer in such form as may be satisfactory to said officers, the signatures of said officers on such Agreement to be conclusive evidence of the due exercise of the authority granted hereunder.

SECTION 21. Arbitrage. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code in order to establish, maintain and preserve the exclusion from "gross income" of interest on the Bonds under the Code. The Issuer further covenants and agrees that it will not take any action, fail to take any action, or permit any action within its control to be taken, or permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, the effect of which would be to cause the Bonds to be "arbitrage bonds" or would result in the inclusion of the interest on any of the Bonds in gross income under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of Bond proceeds (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be "private activity bonds".

The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION 22. Post-Issuance Compliance. The Executive Officers and/or their designees are directed to establish, continue, and/or amend, as applicable, written procedures to assist the Issuer in complying with various State and Federal statutes, rules and regulations applicable to the Bonds and are further authorized to take any and all actions as may be required by said written procedures to ensure continued compliance with such statutes, rules and regulations throughout the term of the Bonds.

SECTION 23. Not Qualified Tax-Exempt Obligations. The Bonds are **not** designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code.

SECTION 24. Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel, to effect the transactions contemplated by this Resolution, the signatures of such persons on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

SECTION 25. Appointment of Underwriter and Co-Underwriter. Raymond James & Associates, Inc. of New Orleans, Louisiana as Underwriter and Crews & Associates, Inc., of Shreveport, Louisiana as Co-Underwriter, are hereby appointed as underwriter and co-underwriter in connection with the issuance and sale of all or any portion of the Bonds, any compensation to be subsequently approved by the Issuer by execution of the Bond Purchase Agreement and to be paid from the proceeds of the Bonds and contingent upon the issuance of the Bonds; provided that no compensation shall be due to said underwriter and co-underwriter unless the Bonds are sold and delivered.

SECTION 26. Sale of Bonds. The Bonds are hereby authorized to be awarded to and sold to the Underwriter. So long as the terms of the Bonds do not exceed the parameters set forth in Section 2 hereof, the Executive Officers (or either of them) are hereby expressly authorized and directed to execute the Bond Purchase Agreement in substantially the form attached hereto as Exhibit A, which Bond Purchase Agreement shall be a binding agreement of the Issuer upon its execution and shall govern the price at which and the terms and conditions pursuant to which the Bonds are to be sold to the Underwriter. After their execution and authentication by the Paying Agent, the Bonds shall be delivered to the Underwriter or its agents or assigns, upon receipt by the Issuer of the agreed purchase price.

SECTION 27. Publication. A copy of this Resolution shall be published immediately after its adoption in one issue of the official journal of the Issuer.

SECTION 28. Continuing Disclosure. The Executive Officers are hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix H of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 29. Section Headings. The headings of the various sections hereof are inserted for convenience of reference only and shall not control or affect the meaning or construction of any of the provisions hereof.

SECTION 30. Effective Date. This Resolution shall become effective immediately.

This resolution having been submitted to a vote, the vote thereon was as follows:

**BOND PURCHASE AGREEMENT
\$9,800,000
GENERAL OBLIGATION SCHOOL BONDS, SERIES 2020
OF
PARISHWIDE SCHOOL DISTRICT OF CADDO PARISH, LOUISIANA**

_____, 2020

Honorable Parish School Board
Parish of Caddo, State of Louisiana
Shreveport, Louisiana

The undersigned, Raymond James & Associates, Inc. of New Orleans, Louisiana (the "Representative"), on behalf of itself and on behalf of Crews & Associates, Inc. of Little Rock, Arkansas (collectively, the "Underwriter"), offers to enter into this agreement (this "Bond Purchase Agreement") with Parishwide School District of Caddo Parish, Louisiana (the "Issuer"), which, upon your acceptance of this offer, will be binding upon the Issuer and upon the Underwriter.

This offer is made subject to your acceptance of this agreement on or before 11:59 p.m., New Orleans Time, on this date, which acceptance shall be evidenced by your execution of this Bond Purchase Agreement on behalf of the Issuer as a duly authorized official thereof.

Capitalized terms used, but not defined, herein shall have the meanings ascribed to them in the Bond Resolution (as defined below).

1. **The Bonds.** Upon the terms and conditions and the basis of the respective representations and covenants set forth herein, the Underwriter hereby agrees to purchase from the Issuer, and the Issuer hereby agrees to sell and deliver to the Underwriter, all (but not less than all) of the above-captioned bonds of the Issuer (the "Bonds"). The purchase price of the Bonds is set forth in **Schedule I** hereto (the "Purchase Price"). Such Purchase Price shall be paid at the Closing (hereinafter defined) in accordance with Section 7 hereof. The Bonds are to be issued by the Issuer, acting through the Parish School Board of the Parish of Caddo, State of Louisiana, its governing authority (the "Governing Authority"), under and pursuant to, and are to be secured and payable as set forth in a resolution adopted by the Governing Authority on December 17, 2019 and _____, 2020 (collectively, the "Bond Resolution"). The Bonds are issued pursuant to Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Part II of Chapter 4 of Subtitle II of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority (the "Act"). The Bonds shall mature on the dates and shall bear interest at the fixed rates, all as described in **Schedule II** attached hereto. [The scheduled payment of principal and interest on the Bonds when due will be guaranteed under a municipal bond insurance policy (the "Insurance Policy") to be issued concurrently with the delivery of the Bonds by [Insurer] (the "Insurer").]

2. **Establishment of Issue Price.**

[TO COME]

3. **Representative.** The individual signing on behalf of the Underwriter below is duly authorized to execute this Bond Purchase Agreement on behalf of the Underwriter.

4. **Preliminary Official Statement and Official Statement.** The Issuer hereby ratifies and approves the lawful use of the Preliminary Official Statement, dated _____, relating to the Bonds (the "Preliminary Official Statement") by the Underwriter prior to the date hereof and authorizes and approves the Official Statement and other pertinent documents referred to in Section 8 hereof to be lawfully used in connection with the offering and sale of the Bonds. The Issuer has previously provided the Underwriter with a copy of the Preliminary Official Statement. As of its date, the Preliminary Official Statement has been deemed final by the Issuer for purposes of SEC Rule 15c2-12 (the "Rule") under the Securities Exchange Act of 1934, as amended.

The Issuer has delivered a certificate to the Underwriter, dated _____, to evidence compliance with the Rule to the date hereof, a copy of which is attached hereto as **Exhibit B**.

The Issuer, within seven (7) business days of the date hereof, shall deliver to the Underwriter sufficient copies of the Official Statement dated the date hereof relating to the Bonds, executed on behalf of the Issuer by the duly authorized officer(s) of the Governing Authority (the "Official Statement"), as the Underwriter may reasonably request as necessary to comply with paragraph (b)(4) of the Rule, with Rule G-32 and with all other applicable rules of the Municipal Securities Rulemaking Board (the "MSRB").

The Issuer hereby covenants that, if during the period ending on the 25th day after the "End of the Underwriting Period" (as defined in the Rule), or such other period as may be agreed to by the Issuer and the Underwriter, any event occurs of which the Issuer has actual knowledge and which would cause the Official Statement to contain an untrue statement of material fact or to omit to state a material fact necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading, the Issuer shall notify the Underwriter in writing, and if, in the reasonable opinion of the Underwriter, such event requires an amendment or supplement to the Official Statement, the Issuer promptly will amend or supplement, or cause to be amended or supplemented, the Official Statement in a form and in a manner approved by the Underwriter and consented to by the Issuer so that the Official Statement, under such caption, will not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in light of the circumstances existing at the time the Official Statement is delivered to a purchaser, not misleading. If such notification shall be given subsequent to the date of Closing, the Issuer also shall furnish, or cause to be furnished, such additional legal opinions, certificates, instruments and other documents as the Underwriter may reasonably deem necessary to evidence the truth and accuracy of any such supplement or amendment to the Official Statement.

5. **Additional Requirements of the Issuer and Underwriter.** The Underwriter agrees to promptly file a copy of the final Official Statement, including any supplements prepared by the Issuer as required herein, with the MSRB through the operation of the Electronic Municipal Market Access repository within one (1) business day after receipt from the Issuer, but by no later than the date of Closing, in such manner and accompanied by such forms as are required by the MSRB, in accordance with the applicable MSRB Rules, and shall maintain such books and records as required by MSRB Rules with respect to filing of the Official Statement. If an amended Official Statement is prepared in accordance with Section 4 during the "new issue disclosure period" (as defined in the Rule), and if required by applicable SEC or MSRB Rule, the Underwriter also shall make the required filings of the amended Official Statement.

The Issuer covenants and agrees to enter into a Continuing Disclosure Certificate to be dated the date of Closing (the "Continuing Disclosure Certificate") constituting an undertaking (an "Undertaking") to provide ongoing disclosure about the Issuer for the benefit of Bondholders as required by the Rule, in the form as set forth in the Preliminary Official Statement, with such changes as may be agreed to by the Underwriter.

The Issuer hereby further covenants and agrees to enter into the Tax Compliance Certificate in the form required by Bond Counsel (the "Tax Certificate") on the date of the Closing.

6. **Representations of the Issuer.** The Issuer hereby represents to the Underwriter as follows:
- a. The Issuer has duly authorized, or prior to the delivery of the Bonds the Issuer will duly authorize, all necessary action to be taken by it for (i) the sale of the Bonds upon the terms set forth herein and in the Official Statement; (ii) the approval and signing of the Official Statement by a duly authorized officer of the Issuer; and (iii) the execution, delivery and receipt of this Bond Purchase Agreement and any and all such other agreements and documents as may be required to be executed, delivered and received by the Issuer in order to carry out, give effect to, and consummate the transactions contemplated hereby, by the Bonds, the Official Statement, and the Bond Resolution;
 - b. The information contained in the Preliminary Official Statement does not contain any untrue statement of material fact and does not omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading; and the information to be contained in the Official Statement, as of its date and the date of Closing, will not contain any untrue statement of material fact and will not omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they are made, not misleading;
 - c. To the knowledge of the Issuer there is no action, suit, proceeding, inquiry or investigation at law or in equity or before or by any court, public board or body pending against or affecting the Issuer or the Governing Authority or threatened against or affecting the Issuer or the Governing Authority (or, to the knowledge of the Issuer, any basis therefor) contesting the due organization and valid existence of the Issuer or the Governing Authority or the validity of the Act or wherein an unfavorable decision, ruling or finding would adversely affect the transactions contemplated hereby or by the Official Statement or the validity or due adoption of the Bond Resolution or the validity, due authorization and execution of the Bonds, this Bond Purchase Agreement or any agreement or instrument to which the Issuer is a party and which is used or contemplated for use in the consummation of the transaction contemplated hereby or by the Official Statement, except as disclosed in the Official Statement;
 - d. The authorization, execution and delivery by the Issuer of the Official Statement, this Bond Purchase Agreement, and the other documents contemplated hereby and by the Official Statement, and compliance by the Issuer with the provisions of such instruments, do not and will not conflict with or constitute on the part of the Issuer a breach of or a default under any (i) statute, indenture, ordinance, resolution, mortgage or other agreement by which the Issuer is bound; (ii) provisions of the Louisiana Constitution of 1974, as amended; or (iii) existing law, court or administrative regulation, decree or order by which the Issuer or its properties are or, on the date of Closing, will be bound;

- e. All consents of and notices to or filings with governmental authorities necessary for the consummation by the Issuer of the transactions described in the Official Statement, the Bond Resolution, and this Bond Purchase Agreement (other than such consents, notices and filings, if any, as may be required under the securities or blue sky laws of any federal or state jurisdiction) required to be obtained or made have been obtained or made or will be obtained or made prior to delivery of the Bonds;
- f. The Issuer agrees to cooperate with the Underwriter and its counsel in any endeavor to qualify the Bonds for offering and sale under the securities or blue sky laws of such jurisdictions of the United States as the Underwriter may reasonably request; provided, however, that the Issuer shall not be required to register as a dealer or a broker in any such state or jurisdiction, qualify as a foreign corporation or file any general or specific consents to service of process under the laws of any state, or submit to the general jurisdiction of any state. The Issuer consents to the lawful use of the Preliminary Official Statement and the Official Statement by the Underwriter in obtaining such qualifications. No member of the Governing Authority, or any officer, employee or agent of the Issuer shall be individually liable for the breach of any representation or covenant made by the Issuer; and
- g. The Issuer acknowledges and agrees that (i) the purchase and sale of the Bonds pursuant to this Bond Purchase Agreement is an arm's-length commercial transaction between the Issuer and the Underwriter; (ii) in connection with such transaction, including the process leading thereto, the Underwriter's primary role, as an underwriter, is to purchase the Bonds for resale to investors, and the Underwriter is acting solely as a principal and not as an agent, municipal advisor, financial advisor or as a fiduciary of or to the Issuer; (iii) the Underwriter has neither assumed an advisory or fiduciary responsibility in favor of the Issuer with respect to the offering of the Bonds or the process leading thereto (whether or not the Underwriter, or any affiliate of the Underwriter, has advised or is currently advising the Issuer on other matters) nor has it assumed any other obligation to the Issuer except the obligations expressly set forth in this Bond Purchase Agreement; (iv) the Underwriter has financial and other interests that differ from those of the Issuer; and (v) the Issuer has consulted with its own legal, accounting, tax, financial and other advisors, as applicable, to the extent it has deemed appropriate in connection with the offering of the Bonds.

7. **Delivery of, and Payment for, the Bonds.** At [____ a.m.], New Orleans Time, on or about _____, 2020, or at such other time or date as shall have been mutually agreed upon by the Issuer and the Underwriter, the Issuer will deliver, or cause to be delivered, to the Underwriter, the Bonds, in definitive form as fully registered bonds bearing CUSIP numbers (provided neither the printing of a wrong CUSIP number on any Bond nor the failure to print a CUSIP number thereon shall constitute cause to refuse delivery of any Bond) registered in the name of Cede & Co., as nominee for The Depository Trust Company ("DTC"), duly executed and registered by Argent Trust Company, Ruston, Louisiana (the "Paying Agent"), together with the other documents hereinafter mentioned and the other moneys required by the Bond Resolution to be provided by the Issuer and, subject to the conditions contained herein, the Underwriter will accept such delivery and pay the purchase price of the Bonds in Federal Funds for the account of the Issuer.

Delivery of the Bonds as aforesaid shall be made at the offices of Foley & Judell, L.L.P., in New Orleans, Louisiana ("Bond Counsel"), or such other place as may be agreed upon by the Underwriter and the Issuer. Such delivery against payment of the Purchase Price therefor at the time listed above is herein called the "Closing." The Bonds will be delivered initially as fully registered bonds, one bond representing each CUSIP number of the Bonds, and registered in such names as the Underwriter may request not less than three business days prior to the Closing (or if no such instructions are received by the Paying Agent, in the name of the Underwriter).

8. **Certain Conditions To Underwriter's Obligations.** The obligations of the Underwriter hereunder shall be subject to the performance by the Issuer of its obligations to be performed hereunder, and to the following conditions:
- a. At the time of Closing, (i) the Bond Resolution shall have been adopted and shall be in full force and effect and shall not have been amended, modified or supplemented except as may have been agreed to by the Underwriter, (ii) the Bonds shall have been approved by the State Bond Commission and shall have been duly authorized, executed, authenticated and delivered,

(iii) the Issuer shall perform or have performed all of its obligations under or specified in any instruments or documents related to the Bonds (collectively, the "Bond Documents") to be performed by it at or prior to the Closing and the Underwriter shall have received evidence thereof, and (iv) there shall have been duly adopted and there shall be in full force and effect such ordinances or resolutions as, in the opinion of Bond Counsel, shall be necessary in connection with the transactions contemplated hereby; and

- b. At or prior to the Closing, (i) the Underwriter shall have received each of the following:
- (1) the approving opinion of Bond Counsel and Co-Bond Counsel, dated the date of the Closing, in the form attached to the Official Statement;
 - (2) a supplemental opinion of Bond Counsel and Co-Bond Counsel in substantially the form attached as **Exhibit C** hereto, dated the date of the Closing, addressed to the Issuer and the Underwriter, which supplemental opinion shall include, among other things, an opinion of Bond Counsel and Co-Bond Counsel that the Bond Resolution and each of the Bond Documents constitute the valid and binding obligations of the Issuer;
 - (3) certificates of the Issuer dated the date of the Closing, executed by authorized officers in form and substance reasonably satisfactory to the Underwriter, to the effect that (a) the representations of the Issuer herein and in the other Bond Documents are true and correct in all material respects as of the date of the Closing, (b) all obligations required under or specified in this Bond Purchase Agreement or in the other Bond Documents to be performed by the Issuer on or prior to the date of the Closing have been performed or waived, (c) the Issuer is in compliance in all respects with all the covenants, agreements, provisions and conditions contained in the Bond Documents to which the Issuer is a party which are to have been performed and complied with by the Issuer by the date of the Closing, and (d) the Issuer's execution of and compliance with the provisions of the Bond Documents will not conflict or constitute on the part of the Issuer a breach of or a default under any existing law, court or administrative regulation, decree or order or any other agreement, indenture, mortgage, loan or other instrument to which the Issuer is subject or by which it is bound;
 - (4) Evidence that Form 8038-G has been or shall be filed with the Internal Revenue Service with respect to the Bonds;
 - (5) the Tax Certificate containing provisions required by Bond Counsel under the Internal Revenue Code of 1986, as amended, signed by the duly authorized representative of the Issuer;
 - (6) the Official Statement, together with any supplements or amendments thereto in the event it has been supplemented or amended, executed on behalf of the Issuer by the duly authorized officer(s) thereof;
 - (7) a specimen of the Bonds;
 - (8) certified copies of the Bond Resolution and all other actions of the Issuer and the State Bond Commission relating to the issuance and/or sale of the Bonds, as applicable;
 - (9) [a copy of the Insurance Policy and documents related thereto as may be required by Bond Counsel and the Underwriter, including but not limited to an opinion of counsel to the Insurer in form and substance reasonably satisfactory to the Underwriter and its counsel;]
 - (10) a certificate of a duly authorized officer of the Issuer, reasonably satisfactory to the Underwriter, dated the date of Closing, stating that such officer is charged, either alone or with others, with the responsibility for issuing the Bonds; setting forth, in the manner required by Bond Counsel, the reasonable expectations of the Issuer as of such date as to the use of proceeds of the Bonds and of any other funds of the Issuer expected to be used to pay principal or interest on the Bonds and the facts and estimates on which such expectations are based; and stating that, to the best of the knowledge and belief of the certifying officer, the Issuer's expectations are reasonable;

- (11) a certificate of the Paying Agent as to its corporate capacity to act as such, the incumbency and signatures of authorized officers, and its due registration of the Bonds delivered at the Closing by an authorized officer;
- (12) a rating letter from S&P Global Ratings, acting through Standard & Poor's Financial Services LLC, providing for the following rating(s) on the Bonds:
- Underlying: "___"/_____ outlook[; and
 - Insured: "___"/_____ outlook];
- (13) other certificates of the Issuer required in order for Bond Counsel to deliver the opinions referred to in Sections 8(b)(i)(1) and 8(b)(i)(2) of this Bond Purchase Agreement and such additional legal opinions, certificates, proceedings, instruments and other documents as Bond Counsel may reasonably request to evidence compliance by the Issuer with applicable legal requirements, the truth and accuracy, as of the time of Closing, of their respective representations contained herein, and the due performance or satisfaction by them at or prior to such time of all agreements then to be performed and all conditions then to be satisfied by each; and
- (14) executed copies of each of the Bond Documents not listed above in this Section 8(b)(i).

(ii) All such opinions, certificates, letters, agreements and documents under Section 8(b)(i) will be in compliance with the provisions hereof only if they are reasonably satisfactory in form and substance to the Underwriter. The Issuer will furnish the Underwriter with such conformed copies or photocopies of such opinions, certificates, letters, agreements and documents relating to the Bonds as the Underwriter may reasonably request.

9. **Effect of Termination.** If the Issuer shall be unable to satisfy one or more of the conditions to the obligations of the Underwriter contained in this Bond Purchase Agreement and any such condition is not waived by the Underwriter, or if this Bond Purchase Agreement shall otherwise be terminated pursuant to Section 10 or Section 11 below, then the respective obligations hereunder of the Issuer and the Underwriter shall be cancelled and neither the Underwriter nor the Issuer shall be under further obligation hereunder, except that the Issuer and the Underwriter shall pay their respective expenses as provided in Section 13 hereof. Notwithstanding the foregoing, in order for either party to terminate or cancel its obligation to purchase or sell the Bonds as set forth herein, it must notify the other party in writing of its election to do so not less than 48 hours before the time for the Closing set forth in Section 7 hereof.
10. **Termination by Underwriter.** The Underwriter shall have the right to cancel its obligation to purchase the Bonds and terminate this Bond Purchase Agreement by written notice to the Issuer in accordance with Section 9 hereof, if, between the date hereof and the Closing, any of the following events shall occur: (i) legislation shall be enacted or favorably reported for passage to either House of the Congress by any committee of such House to which such legislation has been referred for consideration, or such legislation shall have been recommended to the Congress for passage by the President of the United States or a member of the President's Cabinet, a decision by a court of the United States or the United States Tax Court shall be rendered, or a ruling, regulation or statement by or on behalf of the Treasury Department of the United States, the Internal Revenue Service or other governmental agency shall be made or proposed to be made with respect to the federal taxation upon interest on obligations of the general character of the Bonds, or other action or events shall have transpired which may have the purpose or effect, directly or indirectly, of adversely changing the federal income tax consequences of any of the transactions contemplated in connection herewith, and, in the reasonable opinion of the Underwriter, materially adversely affects the market price of the Bonds, or the market price generally of obligations of the general character of the Bonds, except as may be described in the Official Statement, (ii) there shall exist any event which in the Underwriter's reasonable judgment either (a) makes untrue or incorrect in any material respect any statement or information contained in the Official Statement or (b) is not reflected in the Official Statement but should be reflected therein in order to make the statements and information contained therein not misleading in any material respect, (iii) there shall have occurred any outbreak of hostilities or any national or international calamity or crisis including financial crisis, or a default with respect to the debt obligations of, or the institution of proceedings under federal or state bankruptcy laws by or against the Issuer, the effect of which on the financial markets of the United States being such as, in the reasonable judgment of the Underwriter, would make it impracticable for the Underwriter to

market the Bonds or to enforce contracts for the sale of the Bonds, (iv) there shall be in force a general suspension of trading on the New York Stock Exchange, (v) a general banking moratorium shall have been declared by either federal, Louisiana or New York state authorities, (vi) there shall have occurred since the date of this Bond Purchase Agreement any material adverse change in the affairs of the Issuer, except for changes which the Official Statement discloses have occurred or may occur, (vii) any rating on the Bonds[or on the Insurer] is reduced or withdrawn or placed on credit watch with negative outlook by any major credit rating agency, (viii) legislation shall be enacted or any action shall be taken by the Securities and Exchange Commission which, in the opinion of Bond Counsel and Co-Bond Counsel, has the effect of requiring the contemplated distribution of the Bonds to be registered under the Securities Act of 1933, as amended, or the Bond Resolution, or any other document executed in connection with the transactions contemplated hereof to be qualified under the Trust Indenture Act of 1939, as amended, (ix) a stop order, ruling, regulation or official statement by or on behalf of the Securities and Exchange Commission shall be issued or made to the effect that the issuance, offering or sale of the Bonds, or of obligations of the general character of the Bonds as contemplated hereby, or the offering of any other obligation which may be represented by the Bonds is in violation of any provision of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, or the Trust Indenture Act of 1939, as amended, or (x) any state blue sky or securities commission shall have withheld registration, exemption or clearance of the offering, and in the reasonable judgment of the Underwriter the market for the Bonds is materially affected thereby.

11. **Termination by Issuer.** Notwithstanding anything herein to the contrary, the Issuer shall have the right to cancel its obligation to sell the Bonds if, between the date hereof and the Closing, the Issuer determines that the Underwriter has failed to comply with its obligations contained in Section 2 hereof with respect to the establishment of the issue price of any maturity of the Bonds.
12. **Survival of Representations.** All representations and agreements of the Issuer and the Underwriter hereunder shall remain operative and in full force and effect, and shall survive the delivery of the Bonds and any termination of this Bond Purchase Agreement by the Underwriter pursuant to the terms hereof.
13. **Payment of Expenses.** (a) If the Bonds are sold to the Underwriter by the Issuer, the Issuer shall pay, from the proceeds of the Bonds, any reasonable expenses incidental to the performance of its obligations hereunder, including but not limited to: (i) State Bond Commission fees; (ii) the cost of the preparation, printing and distribution of the Preliminary Official Statement and the Official Statement; (iii) the cost of the preparation of the printed Bonds; (iv) any rating agency fees; (v) the fees and expenses of Bond Counsel, Co-Bond Counsel, the Paying Agent, [the Municipal Advisor][,the counsel to the Underwriter] and any other experts or consultants retained by the Issuer; [and (vi) the cost of the Insurance Policy, if any].

(b) The Underwriter shall pay (i) all advertising expenses in connection with the public offering of the Bonds; (ii) the cost of preparing and printing the blue sky and legal investment memoranda, if any; (iii) filing fees in connection with the aforesaid blue sky and legal investment memoranda; (iv) the cost of obtaining CUSIP numbers for the bonds; [(v) the fees and expenses of counsel to the Underwriter]; and (vi) all other expenses incurred by the Underwriter (including the cost of any Federal Funds necessary to pay the purchase price of the Bonds) in connection with its public offering.
14. **Indemnification and Contribution.** (a) To the extent permitted by applicable laws, the Issuer shall indemnify, reimburse and hold harmless the Underwriter and each of its directors, trustees, partners, members, officers, affiliate agents and employees and each Person who controls the Underwriter within the meaning of Section 15 of the Securities Act of 1933, as amended, or Section 20(a) of the Securities Exchange Act of 1934, as amended, against any and all losses, claims, damages, liabilities or expenses, joint or several, to which such indemnified party may become subject under any statute or at law or in equity or otherwise, and shall reimburse any such indemnified party for any legal or other expenses incurred by it in connection with investigating any claims against it and defending any actions, insofar as such losses, claims, damages, liabilities or expenses arise out of or are based upon (i) a claim in connection with the public offering of the Bonds to the effect that the Bonds are required to be registered under the Securities Act of 1933, as amended, or that the Bond Resolution is required to be qualified under the Trust Indenture Act of 1939, as amended, or (ii) any untrue statement or alleged untrue statement of a material fact contained in the Preliminary Official Statement or in the Official Statement, including any

amendment or supplement thereto, or the omission or alleged omission to state therein a material fact necessary to make such statements not misleading. The foregoing indemnity agreement shall be in addition to any liability that the Issuer otherwise may have.

(b) The Underwriter shall indemnify and hold harmless the Issuer and its officers and employees to the same extent as the foregoing indemnity from the Issuer to the Underwriter, but only with reference to written information relating to the Underwriter furnished by it specifically for inclusion in the Preliminary Official Statement and the Official Statement. This indemnity agreement will be in addition to any liability which the Underwriter may otherwise have. The Issuer acknowledges that the statements set forth under the heading "UNDERWRITING," in the Preliminary Official Statement and the Official Statement, constitute the only information furnished in writing by or on behalf of the Underwriter for inclusion in the Preliminary Official Statement or the Official Statement.

(c) In case any proceeding (including any governmental investigation) shall be instituted by or against an indemnified party pursuant to paragraphs (a) or (b) above, such party shall promptly notify the indemnifying party against whom such indemnity may be sought in writing, and the indemnifying party upon request of the indemnified party, shall retain counsel reasonably satisfactory to the indemnified party to represent the indemnified party and any others the indemnifying party may designate who are or may reasonably be foreseen to be a party in such proceeding and shall pay the fees and disbursements of such counsel to the extent allowed by appropriate law. Any separate counsel retained by such indemnified party shall be at the expense of such indemnified party unless (i) the indemnifying party and the indemnified party shall have mutually agreed to the retention of such counsel or (ii) representation of both parties by the same counsel would be inappropriate due to actual or potential differing interests between them. It is understood that the indemnifying party shall not, in connection with any proceeding or related proceedings in the same jurisdiction, be liable for the fees and expenses of more than one separate firm for each such indemnified party (to the extent clause (ii) of the preceding sentence is applicable), and that all such fees and expenses shall be reimbursed as they are incurred. The Underwriter in the case of parties indemnified pursuant to paragraph (b) shall discuss with the other indemnifying parties possible counsel and mutually satisfactory counsel shall be agreed upon. The indemnifying party shall not be liable for any settlement of any proceeding affected without its written consent, but if settled with such consent or if there be a final judgment for the plaintiff, the indemnifying party agrees to indemnify or reimburse the indemnified party from and against any loss or liability by reason of such settlement or judgment. No indemnifying party shall, without the prior written consent of the indemnified party, effect any settlement of any pending or threatened proceeding in respect of which any indemnified party is a party and indemnity could have been sought hereunder by such indemnified party, unless such settlement includes an unconditional release of such indemnified party from all liability on claims that are the subject matter of such proceeding.

15. **Notices.** Any notice or other communication to be given to the Issuer under this Bond Purchase Agreement may be given by delivering the same in writing at the address of the Issuer set forth above, and any notice or other communication to be given to the Underwriter under this Bond Purchase Agreement may be given by delivering the same in writing to Raymond James & Associates, Inc., _____, New Orleans, Louisiana _____.
16. **Parties.** This Bond Purchase Agreement is made solely for the benefit of the Issuer and the Underwriter (including the successors or assigns of either) and no other person shall acquire or have any right hereunder or by virtue hereof.
17. **Governing Law.** This Bond Purchase Agreement shall be governed by and construed in accordance with the laws of the State of Louisiana.
18. **General.** This Bond Purchase Agreement may be executed in several counterparts, each of which shall be regarded as an original and all of which will constitute one and the same instrument. The section headings of this Bond Purchase Agreement are for convenience of reference only and shall not affect its interpretation. This Bond Purchase Agreement shall become effective upon your acceptance hereof.

[Remainder of Page Intentionally Left Blank]

By its execution hereof, the Underwriter agrees that no officer or employee of the Issuer or the Governing Authority shall be personally liable for the payment of any claim or the performance of any obligation of the Issuer.

Very truly yours,

RAYMOND JAMES & ASSOCIATES, INC.

FORM OF SUPPLEMENTAL OPINION

APPROVAL OF RFP FOR BOND COUNSEL

Mr. Rachal moved, seconded by Mr. Riall, to authorize staff to prepare an RFP for bond counsel. Mr. Rachal asked that the RFPs be presented to the Board publicly. Mr. Thompson stated his hope that when putting out the RFP we notify local businesses in order to have local participation. Vote on the motion carried.

ELECTION OF 2020 CPSB OFFICERS

Mrs. Bell moved, seconded by Mr. Riall, that the election of 2020 officers be by slate and that slate be President – Mary Trammel, First Vice President - John Albritton and Raymond Green – Second Vice President.

Mr. Thompson stated his support of the presented slate, but asked that in the future the Board look at allowing the person sitting in the First Vice President's chair the opportunity to lead as he believes everyone sitting on the Board has the ability to lead.

Mr. Nations asked as a new Board member if there has been a protocol followed in the past in the election of officers, and President Trammel stated not to her knowledge.

Vote on the motion carried with Board member Nations abstaining, and the following were elected to serve as 2020 officers – President Mary Trammel, First Vice President John Albritton and Second Vice President Raymond Green.

APPROVAL OF PRESIDENT'S USE OF FACSIMILE SIGNATURE

Mrs. Locke moved, seconded by Mr. Rachal, to authorize the president to use a facsimile signature. Vote on the motion carried.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal wished everyone a Merry Christmas.

Mrs. Bell announced that over the past 13 years their annual Party with a Purpose has raised over \$40,000 in toys and gift cards; however, they did not have it this year but in the spring will bring forth another idea for helping the homeless students in Caddo Parish.

Mr. Thompson wished all the directors in his district a Merry Christmas.

Ms. Green thanked the Board for the opportunity to serve as 2nd Vice President in 2019.

Dr. Douzart wished everyone a Happy Holiday and a Happy New Year.

STUDENT EXPULSION APPEAL HEARING

Ms. Rachal moved, seconded by Mrs. Locke, to go into executive session for the purpose of a student expulsion appeal hearing for student DR. Vote on the motion carried and the Board went into executive session at approximately 5:30 p.m. The Board reconvened into open session at approximately 6:15 p.m. Mr. Rachal moved, seconded by Ms. Green, that the expulsion be rescinded and termed a long-term suspension ending at the end of this semester; and that DR be allowed to start the second semester at Byrd along with counseling and a signed contract disclosing the conditions of his return and attendance at Byrd. Vote on the motion carried with Board members Riall and Albritton opposed and Board members J Green, Thompson, Douzart, Trammel, R Green, Locke, Rachal, Nations and Bell supporting the motion.

SUPERINTENDENT'S EVALUATION AND REVIEW OF CONTRACT/GOALS

Mr. Rachal moved, seconded by Mr. Riall, to go into executive session for 15 minutes for the superintendent's evaluation and review of contract/goals. Vote on the motion carried and the Board went into executive session at approximately 6:20 p.m. The Board reconvened in open session at approximately 6:35 p.m.

Mrs. Locke moved, seconded by Mrs. Bell, to approve the Superintendent's evaluation and to extend his contract for an additional three years until December 15, 2023 under the same terms and conditions currently in effect. Vote on the motion carried unanimously.

Adjournment. *Mrs. Locke moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:38 p.m.*
